Notes issued by Air Liquide Finance will be unconditionally and irrevocably guaranteed by L’Air Liquide. The aggregate nominal amount of Notes outstanding will not at any time exceed €12,000,000,000 (or the equivalent in other currencies as at the date of issue of the Notes) and may be denominated in any currency.

This Debt Issuance Programme Prospectus shall, for the purposes of Notes listed on the official list of the Luxembourg Stock Exchange and admitted to trading on the Regulated Market (as defined below) of the Luxembourg Stock Exchange, be updated annually.

This Debt Issuance Programme Prospectus has been approved as a base prospectus by the Commission de surveillance du secteur financier (“**CSSF**”), as competent authority under Regulation (EU) 2017/1129, as amended (the “**Prospectus Regulation**”). The CSSF only approves this Debt Issuance Programme Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Approval by the CSSF should not be considered as an endorsement of the Issuers or the Guarantor, or of the quality of the Notes. By approving this Debt Issuance Programme Prospectus, in accordance with Article 6(4) of the Luxembourg law on prospectuses for securities of 16 July 2019, the CSSF gives no undertaking as to the economic or financial soundness of the transactions contemplated by this Debt Issuance Programme Prospectus or the quality or solvency of the Issuers. Investors should make their own assessment as to the suitability of investing in the Notes.

Application (i) has been made for a period of 12 months from the date of this Debt Issuance Programme Prospectus to the Luxembourg Stock Exchange for the Notes issued under the Programme to be admitted to trading on the Regulated Market of the Luxembourg Stock Exchange and to be listed on the official list of the Luxembourg Stock Exchange and/or (ii) may be made for a period of 12 months from the date of this Debt Issuance Programme Prospectus to the competent authority of any other Member State of the European Economic Area (“**EEA**”) for Notes issued under the Programme to be listed and admitted to trading on a Regulated Market in such Member State. However, Notes issued under the Programme may also be unlisted and/or not admitted to trading on any market. The relevant final terms (the “**Final Terms**”) (a form of which is contained herein) in respect of the issue of any Notes will specify whether or not such Notes will be listed and admitted to trading and, if so, the relevant Regulated Market, and will be published, if relevant, on the website of the Regulated Market where the admission to trading is sought or on the website of the relevant Issuer, as the case may be. The Luxembourg Stock Exchange is a regulated market for the purposes of the Directive 2014/65/EU of 15 May 2014 on markets in financial instruments, as amended, appearing on the list of regulated markets issued by the European Securities and Markets Authority (the “**ESMA**”) (a “**Regulated Market**”).

This Debt Issuance Programme Prospectus is valid from its date and until 11 May 2023 in relation to Notes which are to be admitted to trading on a Regulated Market. The obligation to supplement this Debt Issuance Programme Prospectus in the event of a significant new factor, material mistake or material inaccuracy does not apply when this Debt Issuance Programme Prospectus is no longer valid.

Notes may be issued either in dematerialised form (“**Dematerialised Notes**”) or in materialised form (“**Materialised Notes**”), as more fully described herein.

Dematerialised Notes may, at the option of the relevant Issuer, be (a) in bearer dematerialised form (au porteur) inscribed as from the issue date in the books of Euroclear France (“**Euroclear France**”) (acting as central depository) which shall credit the accounts of Euroclear France Account Holders (as defined in Condition 1(a)) including Euroclear Bank SA/NV (“**Euroclear**”) and the depository bank for Clearstream Banking, SA (“**Clearstream**”) or (b) in registered dematerialised form (au nominatif) and, in such latter case, at the option of the relevant Noteholder (as defined in the preamble to the Terms and Conditions of the Notes), in either fully registered form (au nominatif pur), in which case they will be inscribed either with the Issuer or with the Registration Agent (as defined in Condition 1(a)) designated in the relevant Final Terms, or in administered registered form (au nominatif administré) in which case they will be inscribed in the accounts of the Euroclear France Account Holders designated by the relevant Noteholders.

Dematerialised Notes will at all times be in book entry form in compliance with Articles L.211-3 and R.211-1 of the French Code monétaire et financier. No physical documents of title will be issued in respect of Dematerialised Notes.

Materialised Notes will be in bearer form only and may only be issued outside France. A temporary global certificate in bearer form without interest coupons attached (a “**Temporary Global Certificate**”) will initially be issued in connection with Materialised Notes. Such Temporary Global Certificate will be exchanged for definitive Materialised Notes in bearer form with, where applicable, coupons for interest attached on or after a date expected to be on or about the 40th calendar day after the issue date of the Notes (subject to postponement as described in “**Temporary Global Certificates Issued in respect of Materialised Bearer Notes**”) upon certification as to non-U.S. beneficial ownership as more fully described herein. Temporary Global Certificates will (a) in the case of a Tranche (as defined below) intended to be cleared through Euroclear and/or Clearstream, be deposited on the issue date with a common depository on behalf of Euroclear and/or Clearstream and (b) in the case of a Tranche intended to be cleared through a clearing system other than or in addition to Euroclear and/or Clearstream or delivered outside a clearing system, be deposited as agreed between the Issuer and the relevant Dealer (as defined below).

The final terms of the relevant Notes will be determined at the time of the offering of each Tranche based on the then prevailing market conditions and will be set out in the relevant Final Terms.

The Programme has been rated A by S&P Global Ratings Europe Limited (“**S&P**”) and A3 by Moody’s Deutschland GmbH (“**Moody’s**”). Tranches of Notes issued under the Programme may be rated or unrated. Where an issue of Notes is rated, such rating will not necessarily be the same as ratings assigned to the Programme and its rating will not necessarily be the same as the rating assigned to other Notes issued under the Programme. A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, change or withdrawal at any time by the assigning rating agency. Both S&P and Moody’s are established in the European Union, are registered under Regulation (EC) No. 1060/2009 on credit ratings agencies, as amended (the “**CRA Regulation**”) and are included in the list of credit rating agencies registered in accordance with the CRA Regulation published on the website of the ESMA (www.esma.europa.eu/supervision/credit-rating-agencies/risk). S&P and Moody’s are not established in the United Kingdom and are not registered in accordance with Regulation (EC) No. 1060/2009 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 (the “**EUWA**”) (the “**UK CRA Regulation**”). However, the ratings of the Programme have been endorsed by S&P Global Ratings UK Limited and Moody’s Investors Service Ltd, respectively, in accordance with the UK CRA Regulation and have not been withdrawn. As such, the ratings issued by each of S&P and Moody’s may be used for regulatory purposes in the United Kingdom in accordance with the UK CRA Regulation. The relevant Final Terms will specify whether or not credit ratings are issued by a credit rating agency established in the European Union and registered under the CRA Regulation. Credit ratings are subject to revision, suspension or withdrawal at any time by the relevant rating organisation.

Prospective investors should take into account the factors described under the section headed “**Risk Factors**” of this Debt Issuance Programme Prospectus before deciding to invest in the Notes issued under the Programme.

This Debt Issuance Programme Prospectus (together with any supplements to this document published from time to time) constitutes two base prospectuses (a) for the purposes of Article 8 of the Prospectus Regulation: (i) the base prospectus for L'Air Liquide, société anonyme pour l'Étude et l'Exploitation des procédés Georges Claude ("L'Air Liquide", the "Guarantor" or, in its capacity as Issuer, an "Issuer") in respect of non-equity securities (hereinafter, the "Notes") to be issued by L'Air Liquide under this Euro Medium Term Note Programme (the "Programme") and (ii) the base prospectus for Air Liquide Finance ("Air Liquide Finance" or an "Issuer" and together with L'Air Liquide, the "Issuers") in respect of Notes to be issued by Air Liquide Finance under this Programme and (b) for the purpose of giving necessary information with regard to the Issuers, the Guarantor and the Notes which, according to the particular nature and circumstances of the Issuers, the Guarantor and the type of Notes, is material to investors to make an informed assessment of the assets and liabilities, financial position, profit and losses and prospects of the Issuers and the Guarantor, the rights attaching to the Notes, and the reasons for the issuance and its impact on the Issuers. In relation to each Tranche of Notes, this Debt Issuance Programme Prospectus must be read in conjunction with the applicable Final Terms.

This Debt Issuance Programme Prospectus (together with any supplements to this document published from time to time) is to be read in conjunction with all information which is incorporated herein by reference in accordance with Article 19 of the Prospectus Regulation (see section headed "Information Incorporated by Reference" of this Debt Issuance Programme Prospectus).

Any websites referred to in this Debt Issuance Programme Prospectus are for information purposes only and the information contained in such websites does not form any part of this Debt Issuance Programme Prospectus unless that information is specifically incorporated by reference into the Debt Issuance Programme Prospectus and has not been scrutinised or approved by the CSSF.

No person is or has been authorised to give any information or to make any representation other than those contained or incorporated by reference in this Debt Issuance Programme Prospectus (together with any supplements to this document published from time to time) in connection with the issue or sale of the Notes and, if given or made, such information or representation must not be relied upon as having been authorised by L'Air Liquide or Air Liquide Finance, or any of the Dealers or the Arranger (each as defined in the section headed "General Description of the Programme" of this Debt Issuance Programme Prospectus). Neither the delivery of this Debt Issuance Programme Prospectus nor any sale made in connection herewith shall, under any circumstances, create any implication that (i) there has been no change in the affairs of L'Air Liquide or Air Liquide Finance, as the case may be, or those of L'Air Liquide and its subsidiaries taken as a whole (together, the "Air Liquide Group") since the date hereof or the date upon which this Debt Issuance Programme Prospectus has been most recently amended or supplemented or (ii) there has been no adverse change in the financial position of either of L'Air Liquide or Air Liquide Finance, as the case may be, or of that of the Air Liquide Group since the date hereof or the date upon which this Debt Issuance Programme Prospectus has been most recently amended or supplemented or (iii) that any other information supplied in connection with the Programme is correct as of any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

In the case of any Notes which are to be admitted to trading on a Regulated Market in circumstances which require the publication of a prospectus under the Prospectus Regulation, the minimum specified denomination shall be at least €100,000 (or its equivalent in any other currency as at the date of issue of the Notes).

Selling Restrictions

GENERAL - *The distribution of this Debt Issuance Programme Prospectus and the offering or sale of the Notes in certain jurisdictions may be restricted by law. No action has been taken by L'Air Liquide, Air Liquide Finance or the Dealers which would permit a public offering of any Notes or distribution of this Debt Issuance Programme Prospectus in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Debt Issuance Programme Prospectus (together with any supplements to this document published from time to time) nor any Final Terms or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations and the Dealers have represented that all offers and sales by them will be made on the same terms. Persons into whose possession this Debt Issuance Programme Prospectus comes are required by L'Air Liquide, Air Liquide Finance, the Dealers and the Arranger to inform themselves about and to observe any such restriction. In particular, there are restrictions on the distribution of this Debt Issuance Programme Prospectus and the offer or sale of Notes in the European Economic Area (the "EEA"), the United Kingdom (the "UK"), Italy, Belgium, Switzerland, the United States, Japan, Hong Kong, the People's Republic of China, Singapore and Canada.*

PRIIPs / IMPORTANT – EEA RETAIL INVESTORS – *If the Final Terms in respect of any Notes include a legend entitled "Prohibition of Sales to EEA Retail Investors", the Notes are not intended to be offered, sold or otherwise made available to, and should not be offered, sold or otherwise made available to any retail investor in the EEA. Directive 2016/97/EU, as amended, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Prospectus Regulation. Consequently, no key information document required by Regulation (EU) No. 1286/2014, as amended (the “**PRIIPs Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

Consequently, no key information document required by Regulation (EU) No. 1286/2014, as amended, as it forms part of UK domestic law by virtue of the EUWA (the “**UK PRIIPs Regulation**”) for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

SINGAPORE SFA PRODUCT CLASSIFICATION – In connection with Section 309B of the Securities and Futures Act 2001 of Singapore (the “**SFA**”) and the Securities and Futures (Capital Markets Products) Regulations 2018 of Singapore (the “**CMP Regulations 2018**”), unless otherwise specified before an offer of Notes, the Issuer has determined, and hereby notifies all relevant persons (as defined in Section 309A(1) of the SFA), that the Notes are prescribed capital markets products (as defined in the CMP Regulations 2018) and Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice on Recommendations on Investment Products).

PROHIBITION OF SALES TO CONSUMERS IN BELGIUM – If the Final Terms in respect of any Notes include a legend entitled “Prohibition of Sales to consumers in Belgium”, Notes issued under the Programme are not intended to be offered, sold or otherwise made available to, and should not be offered, sold or otherwise made available to, “consumers” (consumenten/consommateurs) within the meaning of the Belgian Code of Economic Law (Wetboek van economisch recht/Code de droit économique), as amended.

UNITED STATES - The Notes and the Guarantee in respect of the Notes have not been and will not be registered under the United States Securities Act of 1933, as amended (the “**Securities Act**”) nor with any securities regulatory authority of any state or other jurisdiction of the United States and the Notes may include Materialised Notes in bearer form that are subject to U.S. tax law requirements. Subject to certain exceptions, the Notes may not be offered, sold or, in the case of Materialised Notes in bearer form, delivered within the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the Securities Act (“**Regulation S**”) or in the case of Materialised Notes in bearer form, the U.S Internal Revenue Code of 1986, as amended (the “**U.S. Internal Revenue Code**”). The Notes are being offered and sold outside the United States to non-U.S. persons in reliance on Regulation S. The Notes and the Guarantee have not been approved or disapproved by the U.S. Securities and Exchange Commission, any state securities commission in the United States or any other U.S. regulatory authority, nor have any of the foregoing authorities passed upon or endorsed the merits of the offering of Notes or the accuracy or the adequacy of this Debt Issuance Programme Prospectus. Any representation to the contrary is a criminal offense in the United States.

This Debt Issuance Programme Prospectus does not constitute an offer of, or an invitation by or on behalf of L’Air Liquide, Air Liquide Finance, the Dealers or the Arranger to subscribe for, or purchase, any Notes.

CANADA - The Notes may be sold only to purchasers purchasing, or deemed to be purchasing, as principal that are accredited investors, as defined in National Instrument 45-106 Prospectus Exemptions or subsection 73.3(1) of the Securities Act (Ontario), and are permitted clients, as defined in National Instrument 31-103 Registration Requirements, Exemptions and Ongoing Registrant Obligations. Any resale of the Notes must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable securities laws.

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this Debt Issuance Programme Prospectus (including any amendment thereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser’s province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser’s province or territory for particulars of these rights or consult with a legal advisor.

Unless otherwise specified in the Final Terms, pursuant to section 3A.3 (or, in the case of securities issued or guaranteed by the government of a non-Canadian jurisdiction, section 3A.4) of National Instrument 33-105

Underwriting Conflicts (NI 33-105), the Dealers are not required to comply with the disclosure requirements of NI 33-105 regarding underwriter conflicts of interest in connection with this offering. Also see “Subscription and Sale” – Canada.

MIFID II PRODUCT GOVERNANCE / TARGET MARKET – *The Final Terms in respect of any Notes may include a legend entitled “MiFID II Product Governance” which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a “distributor”) should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer’s target market assessment) and determining appropriate distribution channels. A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance Rules under EU Delegated Directive 2017/593 (the “MiFID Product Governance Rules”), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules. For the avoidance of doubt, the Issuer is not a MiFID II regulated entity and does not qualify as a distributor or a manufacturer under the MiFID Product Governance Rules.*

UK MiFIR PRODUCT GOVERNANCE / TARGET MARKET – *The Final Terms in respect of any Notes may include a legend entitled “UK MiFIR Product Governance” which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a “distributor”) should take into consideration the target market assessment; however, a distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the “UK MiFIR Product Governance Rules”) is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer’s target market assessment) and determining appropriate distribution channels. A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules. For the avoidance of doubt, the Issuer is not a UK MiFIR regulated entity and does not qualify as a distributor or a manufacturer under the UK MiFIR Product Governance Rules.*

Suitability of investment for certain investors in the Notes issued under this Debt Issuance Programme Prospectus

The Arranger and the Dealers have not separately verified the information or representations contained or incorporated by reference in this Debt Issuance Programme Prospectus (together with any supplements to this document published from time to time). None of the Dealers or the Arranger makes any representation, express or implied, or accepts any responsibility, with respect to the sincerity, accuracy or completeness of any of the information or representations in this Debt Issuance Programme Prospectus. Neither this Debt Issuance Programme Prospectus (together with any supplements to this document published from time to time) nor any other information incorporated by reference therein is intended to provide the basis of any credit or other evaluation and should not be considered as a recommendation by any of L’Air Liquide, Air Liquide Finance, the Arranger or the Dealers that any recipient of this Debt Issuance Programme Prospectus (together with any supplements to this document published from time to time) or any other information incorporated by reference should purchase the Notes. Each potential purchaser of Notes should determine for itself the relevance of the information contained in this Debt Issuance Programme Prospectus (together with any supplements to this document published from time to time) and its purchase of Notes should be based upon such investigation as it deems necessary. None of the Dealers or the Arranger has reviewed or undertakes to review the financial condition or affairs of L’Air Liquide, Air Liquide Finance or the Air Liquide Group during the life of the arrangements contemplated by this Debt Issuance Programme Prospectus nor to advise any investor or potential investor in the Notes of any information coming to the attention of any of the Dealers or the Arranger.

Each prospective investor of Notes must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its investment in the Notes is fully consistent with its financial needs, objectives and condition, complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it and is a fit, proper and suitable investment for it, notwithstanding the clear and substantial risks inherent in investing in or holding the Notes. In particular, each prospective investor should:

- (a) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and the risks of investing in the relevant Notes and the information contained or incorporated by reference in this Debt Issuance Programme Prospectus or any applicable supplement and in the relevant Final Terms;*
- (b) have access to and knowledge of appropriate analytical tools to evaluate, in the context of its particular financial situation and sensitivity to the risk, an investment in the relevant Notes and the impact the relevant Notes will have on its overall investment portfolio;*
- (c) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including where the currency for principal or interest payments is different from the potential investor’s currency;*

- (d) understand thoroughly the terms of the relevant Notes and be familiar with the behaviour of any relevant rates and financial markets; and
- (e) be able to evaluate (either alone or with the help of its professional advisers) possible scenarios for economic interest rate and other factors that may affect its investment and its ability to face the applicable risks.

A prospective investor should not invest in the Notes unless it has the expertise (either alone or with the help of its professional advisers) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of such Notes and the impact this investment will have on the potential investor's overall investment portfolio.

A prospective investor may not rely on the Issuers or the Dealer(s) or any of their respective affiliates in connection with its determination as to the legality of its acquisition of the Notes or as to the other matters referred to above.

Neither the Issuers, the Dealer(s) nor any of their respective affiliates has or assumes responsibility for the lawfulness of the acquisition of the Notes by a prospective investor of the Notes, whether under the laws of the jurisdiction of its incorporation or the jurisdiction in which it operates (if different), or for compliance by that prospective investor with any law, regulation or regulatory policy applicable to it.

Important notice relating to Sustainable Notes

In relation to Sustainable Notes, neither the Arranger nor any Dealer makes any representation as to the suitability of Sustainable Notes to fulfil green, social or sustainability criteria required by prospective investors. The Arranger and the Dealers have not undertaken, nor are responsible for, any assessment of the eligibility criteria for eligible green projects, eligible social projects or eligible sustainability projects, any verification of whether such Sustainable Notes meet the eligibility criteria, or the monitoring of the use of proceeds of any Notes, or the allocation of the proceeds (or amounts equal or equivalent thereto) by the Issuers to particular eligible green projects, eligible social projects or eligible sustainability projects. Prospective investors should have regard to the information set out in the "Use of proceeds" section of the Final Terms and must determine for themselves the relevance of such information for the purpose of any investment in the Sustainable Notes together with any other investigation such investor deems necessary. In particular, no assurance is given by the Issuers that the use of an amount equal to such proceeds for any eligible sustainable projects will satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by its own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental, sustainability or social impact of any projects or uses, the subject of or related to, any eligible sustainable projects.

No assurance or representation is given by any of the Dealers or the Arranger as to the content, suitability or reliability for any purpose whatsoever of any opinion or certification of any third party (whether or not solicited by the Issuers) which may be made available in connection with the issue of the Sustainable Notes and in particular with any eligible sustainable projects to fulfil any environmental, sustainability, social and/or other criteria. For the avoidance of doubt, any such opinion or certification is not, and shall not be deemed to be, incorporated in and/or form part of this Debt Issuance Programme Prospectus. Any such opinion or certification is not, nor should be deemed to be, a recommendation by the Dealers or the Arranger, to buy, sell or hold any such Sustainable Notes. Currently, the providers of such opinions and certifications are not subject to any specific regulatory or other regime or oversight. In addition, payments of principal and interest (as the case may be) on Sustainable Notes shall not depend on the performance of the relevant Eligible Projects (as defined in the "Reasons for the offer" paragraph in the relevant Final Terms), nor on the achievement of any green, social or sustainable objectives. None of the Arranger or the Dealers will verify or monitor the proposed use of proceeds of the Notes issued under the Programme.

Taxation

Potential purchasers and sellers of the Notes should be aware that they may be required to pay taxes or other documentary charges or duties in accordance with the laws and practices of the country where the Notes are transferred or other jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available for financial instruments unknown to such authorities or court such as the Notes. In particular, potential investors are warned that the tax laws of the investor's jurisdiction or of France (the Issuers' country of incorporation) might have an impact on the income received from the Notes. Potential investors are advised to ask for their own tax adviser's advice on their individual taxation with respect to the acquisition, holding, sale and redemption of the Notes. Only these advisers are in a position to duly consider the specific situation of the potential investor.

*In considering whether to invest in Notes denominated in Renminbi ("**RMB Notes**"), investors should consult their individual tax advisers with regard to the application of People's Republic of China ("**PRC**") tax laws to their particular situations as well as any tax consequences arising under the laws of any other tax jurisdictions. The value of the holder's investment in the RMB Notes may be materially and adversely affected if the holder is required to pay PRC tax with respect to acquiring, holding or disposing of and receiving payments under those RMB Notes.*

Stabilisation activities

In connection with the issue of any Tranche (as defined in the section headed “General Description of the Programme” of this Debt Issuance Programme Prospectus), the Dealer or Dealers (if any) named as the stabilisation manager(s) (the “Stabilisation Manager(s)”) (or persons acting on behalf of any Stabilisation Manager(s)) in the applicable Final Terms may to the extent permitted by applicable laws and regulations over-allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, there is no assurance that the Stabilisation Manager(s) (or persons acting on behalf of any Stabilisation Manager(s)) will undertake stabilisation action. Any stabilisation action may begin on or after the date on which adequate public disclosure of the final terms of the offer of the relevant Tranche is made and, if begun, may be ended at any time, but it must end no later than the earlier of 30 calendar days after the issue date of the relevant Tranche and 60 calendar days after the date of the allotment of the relevant Tranche.

Unless permitted by laws and regulations in force at the relevant time, Notes (including Notes denominated in sterling) having a maturity of less than one year from the date of issue and in respect of which the issue proceeds are to be accepted by the Issuer in the United Kingdom or whose issue otherwise constitutes a contravention of Section 19 of the FSMA must have a minimum redemption amount of £100,000 (or its equivalent in other currencies).

Notes may have a maximum interest rate, a minimum interest rate, or both. The use of interest accrual periods permits the Notes to bear interest at different rates in the same interest period. The TEFRA rules do not apply to Dematerialised Notes.

Risk Factors:

The risk factors relating to the Issuers, the Guarantor and the Notes are described in the section headed “Risk Factors” of this Debt Issuance Programme Prospectus.

RISK FACTORS

The Issuers and/or the Guarantor, as the case may be, believe that the following factors may affect their ability to fulfil their obligations under the Notes issued under the Programme or the Guarantee, as the case may be. Prospective investors could lose all or part of their investment.

In addition, factors which the Issuers believe may be material for the purpose of assessing the market risks associated with Notes issued under the Programme are also described below.

The Issuers and/or the Guarantor, as the case may be, believe that the factors described below represent the principal risks inherent in investing in Notes issued under the Programme, but the inability of the Issuers and/or the Guarantor, as the case may be, to pay interest, principal or other amounts on or in connection with any Notes or the Guarantee, as the case may be, may occur for other reasons. The risks described below are not the only risks the Issuers and/or the Guarantor, as the case may be, face. Additional risks and uncertainties not currently known to the Issuers or the Guarantor or that they currently believe to be immaterial could also have a material impact on their business operations and/or financial condition. Prospective investors should also read the detailed information set out elsewhere in this Debt Issuance Programme Prospectus (including any information incorporated by reference herein) and the Final Terms of the relevant Notes and reach their own views prior to making any decision to invest in the Notes.

Words and expressions beginning with a capitalised letter used but not otherwise defined in this section shall have the meaning ascribed to them in the section headed “Terms and Conditions of the Notes” of this Debt Issuance Programme Prospectus.

1 RISK FACTORS RELATING TO THE ISSUERS AND THE GUARANTOR

1.1 Risk factors relating to L’Air Liquide

Please refer to the section headed “Information incorporated by reference” on page 24 of this Debt Issuance Programme Prospectus.

1.2 Risk factors relating to Air Liquide Finance

1.2.1 Air Liquide Finance relies on L’Air Liquide to make payment under the Notes

To benefit from economies of scale and facilitate capital markets funding (bonds and commercial paper), the Air Liquide Group uses a dedicated subsidiary, Air Liquide Finance. As of 31 December 2021, this subsidiary centralized the vast majority of the Air Liquide Group’s financing transactions.

Despite the financial income generated by its activities, Air Liquide Finance has no income from operating activities. As a result, Air Liquide Finance’s ability to meet its debt service obligations, including its obligations under the Notes, depends upon payments it receives from L’Air Liquide and other Air Liquide Group subsidiaries in respect of their borrowings from Air Liquide Finance, as well as Air Liquide Finance’s own credit arrangements. Air Liquide Finance cannot assure that the payments from, or other available assets of, these entities will be sufficient to enable Air Liquide Finance to pay principal or interest on the Notes when due.

If Air Liquide Finance is not able to obtain sufficient funds from L’Air Liquide or from other Air Liquide Group subsidiaries, it will not be able to make payments under the Notes.

1.2.2 Liquidity risk

As of 31 December 2021, financing through capital markets accounted for 89% of the Air Liquide Group's total debt, with a total amount of outstanding bonds and commercial paper issued by Air Liquide Finance respectively of 10.8 billion euros and 0.2 billion euros as of that date. Air Liquide Finance could face a liquidity risk should capital markets be inaccessible for an extended period of time. To limit such a risk Air Liquide Finance however benefits from committed credit facilities from its core banks.

1.2.3 Foreign exchange risk

Foreign exchange risks related to the translation of local currency financial statements into euros mainly corresponds to Air Liquide Finance’s sensitivity to the main foreign currencies in which it operates (*i.e.* USD, JPY and RMB).

As of 31 December 2021, Air Liquide Finance granted, directly or indirectly, the equivalent of 13 billion euros in loans and received 3.4 billion euros in cash surpluses as deposits. These transactions were denominated in 26 currencies (primarily euro, US dollar, Japanese yen, Chinese renminbi, Singapore dollar and pound sterling). Due to the currency matching within Air Liquide Finance, resulting from the currency

hedging of intra-group loans and borrowings, these internal financing transactions do not generate a foreign exchange risk for the Air Liquide Group.

Furthermore, in certain specific cases (e.g. regulatory constraints, high country risk, joint ventures, etc.), the Air Liquide Group may decide to limit its risk by setting up specific financings in the local banking market, and by using credit risk insurance.

1.2.4 Interest rate, counterparty and commodity risks (energy contracts)

Air Liquide Finance manages the Air Liquide Group's interest rate risk (which is mainly linked to the fluctuation of future cash flows on debt when the rate is variable. In the event the interest rates increase significantly upon the renewal of any bond indebtedness, Air Liquide Finance may be obliged to dedicate a greater portion of its cash flows from the operating activities of the Group to the service of indebtedness.

Air Liquide Finance is subject to financial counterparty risk which primarily relates to outstanding amounts on short-term investments and derivative instruments for hedging, and to credit facilities contracted with each core bank of the Air Liquide Group (unavailability of a facility in case of a drawdown).

When permissible under local law, Air Liquide Finance also manages the Air Liquide Group's commodity risks (energy contracts) due to commodities price variations (increasing costs on purchase costs and resulting variation in the sales margin) for the account of subsidiaries of the Air Liquide Group by entering into hedging transactions with its core banks. Such transactions are then entered back-to-back between Air Liquide Finance and the relevant Air Liquide Group's subsidiaries.

If the Air Liquide Group is unable to manage its exposure to interest rate fluctuations, financial counterparty risks or commodity/energy risks, it could have a material adverse effect on Air Liquide Finance's financial condition and ultimately on the Air Liquide Group's business, financial condition and results of operations.

1.2.5 Digital risks

Air Liquide Finance's activities, expertise and, more generally, its relations with various stakeholders depend on increasingly dematerialised and digitalised processes. Such processes rely on information systems and communication networks which are interdependent at functional, technical and human levels. If the Air Liquide Group is unable to manage these digital risks or if there is a material disruption in the information systems and communication networks, it could have a material adverse effect on Air Liquide Finance's financial condition and ultimately on the Air Liquide Group's business, financial condition and results of operations.

2 RISK FACTORS RELATING TO THE NOTES

2.1 Risks relating to the legal form of the Notes and other legal issues

2.1.1 French insolvency law

Each of the Issuers is a *société anonyme* with its registered office in France. In the event that an Issuer becomes insolvent, insolvency proceedings will be generally governed by the insolvency laws of France to the extent that, where applicable, the "centre of main interests" (as construed under Regulation (EU) 2015/848, as amended) of the relevant Issuer is located in France.

The Directive (EU) 2019/1023 on preventive restructuring frameworks, on discharge of debt and disqualifications, and on measures to increase the efficiency of procedures concerning restructuring, insolvency and discharge of debt, and amending Directive (EU) 2017/1132 has been transposed into French law by the *Ordonnance* 2021-1193 dated 15 September 2021. Such *Ordonnance* amends French insolvency laws notably with regard to the process of adoption of restructuring plans under insolvency proceedings. According to this *Ordonnance*, "affected parties" (including notably creditors, and therefore the Noteholders) shall be treated in separate classes which reflect certain class formation criteria for the purpose of adopting a restructuring plan. Classes shall be formed in such a way that each class comprises claims or interests with rights that reflect a sufficient commonality of interest based on verifiable criteria. Noteholders will no longer deliberate on the proposed restructuring plan in a separate assembly, meaning that they will no longer benefit from a specific veto power on this plan. Instead, as any other affected parties, the Noteholders will be grouped into one or several classes (with potentially other types of creditors) and their dissenting vote may possibly be overridden by a cross-class cram down.

The commencement of insolvency proceedings against the Issuer would have a material adverse effect on the market value of Notes issued by the Issuer. As a consequence, any decisions taken by a class of affected parties could materially and negatively impact the Noteholders and cause them to lose all or part of their investment, should they not be able to recover all or part of the amounts due to them from the Issuer.

2.1.2 Modifications and waivers

Condition 12 of the Terms and Conditions of the Notes contains provisions for calling General Meetings of Noteholders or consulting them by a way of a written consultation to consider certain matters affecting their interests generally, including without limitation the modification of the Terms and Conditions of the Notes. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant General Meeting or who did not consent to the written consultation and Noteholders who voted in a manner contrary to the majority. Any such changes to the Terms and Conditions of the Notes approved by the relevant majority of Noteholders may have a negative impact on the market value of the Notes and hence Noteholders may lose part of their investment.

2.1.3 Change of law

The Terms and Conditions of the Notes are based on French law and rules of the EU in effect as at the date of this Debt Issuance Programme Prospectus. No assurance can be given as to the impact of any possible judicial decision or change in French law or rules of the EU, or their official application or interpretation, after the date of this Debt Issuance Programme Prospectus.

2.2 Risks related to the structure of a particular issue of Notes

The Programme allows for different types of Notes to be issued. Accordingly, each Tranche of Notes may carry varying risks for potential investors depending on the specific features of such Notes.

2.2.1 Notes subject to early redemption by the Issuer

In the event that the relevant Issuer would be obliged to increase the amounts payable in respect of any Notes due to any withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by the country of domicile (or residence for tax purposes) of the relevant Issuer, or on behalf of France, or any political subdivision thereof or any authority therein or thereof having power to tax, the relevant Issuer, in accordance with Condition 7(g), may, or in certain circumstances shall, redeem all outstanding Notes.

The relevant Issuer has also the option, if so provided in the relevant Final Terms, to redeem the Notes (i) in whole or in part, under a make-whole call option as provided in Condition 7(b) and a call option as provided in Condition 7(c), or (ii) in whole but not in part, under a residual maturity call option as provided in Condition 7(d) or a clean-up call option as provided in Condition 7(e).

In the case of any particular Tranche of Notes, for any of the above mentioned reasons and depending on the then prevailing interest rates, an investor may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of the relevant Notes and may only be able to do so at a lower rate.

2.2.2 Exercise of a Change of Control Put Option in respect of some Notes only within a particular Series may affect the liquidity of the Notes of that Series in respect of which such option is not exercised

Depending on the number of Notes of the same Series in respect of which the Change of Control Put Option provided for in the relevant Final Terms is exercised, any trading market in respect of those Notes in respect of which such option is not exercised may become illiquid.

In addition, if, further to the exercise of such Change of Control Put Option, 80 per cent. or more of the initial aggregate principal amount of the Notes has been purchased and cancelled by the relevant Issuer, such Issuer has the option to redeem all of the remaining Notes without obtaining the prior consent of their holders.

In the case of any particular Tranche of Notes, for any of the above mentioned reasons and depending on the then prevailing interest rates, investors may only be able to reinvest the moneys they receive upon such early redemption in securities with a lower yield than the redeemed Notes.

2.2.3 Fixed Rate Notes

Condition 6(b) of the Terms and Conditions of the Notes allows for Fixed Rate Notes to be issued. Investment in Notes which bear interest at a fixed rate involves the risk that subsequent changes in market interest rates may adversely affect the market value of the relevant Series of Notes. In particular, a Noteholder, which pays interest at a fixed rate, is exposed to the risk that the market value of such Note could fall as a result of changes in the market interest rate. While the nominal interest rate of the fixed rate Notes is fixed during the term of such Notes, the current interest rate on the capital markets (“**market interest rate**”) typically varies on a daily basis. As the market interest rate changes, the market value of the Fixed Rate Notes would typically change in the opposite direction. If the market interest rate increases, the market value of the Fixed Rate Notes would typically fall, until the yield of such Notes is approximately equal to the market interest rate. If the market interest rate falls, the market value of the Notes would typically increase, until the yield of such Notes is approximately equal to the market interest rate. The degree to which the market interest rate may vary presents

a significant risk to the market value of the Notes if a Noteholder were to dispose of the Notes. Therefore, the price of the Notes at any particular time may be lower than the purchase price of the Notes paid by the Noteholder. As a consequence, part of the capital invested by the Noteholder may be lost on any transfer of the Notes, so that the Noteholder in such case would not receive the total amount of the capital invested.

2.2.4 Floating Rate Notes

Condition 6(c) of the Terms and Conditions of the Notes allows for Floating Rate Notes to be issued. Investment in Notes which bear interest at a floating rate comprise (i) a Reference Rate and (ii) a margin to be added or subtracted, as the case may be, from such Reference Rate. Typically, the relevant margin will not change throughout the life of the Notes but there will be a periodic adjustment (specified in the relevant Final Terms) of the Reference Rate (e.g., every three months or six months) which itself will change in accordance with general market conditions. Accordingly, the market value of floating rate Notes may be volatile if changes, particularly short term changes, to market interest rates evidenced by the relevant Reference Rate can only be reflected in the interest rate of these Notes upon the next periodic adjustment of the relevant Reference Rate. These reference rates are not pre-defined for the lifespan of the Notes. Higher reference rates mean a higher interest under the Notes and lower reference rates mean a lower interest under the Notes. The degree to which the reference rates may vary is uncertain. The interest amount payable on any Interest Payment Date may be different from the amount payable on the initial or previous Interest Payment Date and may negatively impact the return under the Notes and result in a reduced market value of the Notes if a Noteholder were to dispose of its Notes.

2.2.5 Fixed to Floating Rate Notes

Fixed to floating rate Notes may bear interest at a rate that the relevant Issuer may elect to convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate. The relevant Issuer's ability to convert the interest rate will affect the secondary market and the market value of the Notes since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the relevant Issuer converts from a fixed rate to a floating rate, the spread on the fixed to floating Rate Notes may be less favourable than then prevailing spreads on comparable floating rate Notes tied to the same Reference Rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If the Issuer converts from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing rates on its Notes.

2.2.6 Notes issued at a substantial discount or premium

The market values of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities. It is difficult to anticipate future market volatility in interest rates, but any such volatility may have a significant adverse effect on the value of the Notes. Therefore holders of Notes issued at a substantial discount or premium could be exposed to greater losses on their investment than holders of conventional interest bearing securities.

2.2.7 Variable rate Notes with a multiplier or other leverage factor

Notes with variable interest rates can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features, their market values may be even more volatile than those for securities that do not include those features.

2.2.8 Reform and regulation of “benchmarks”

The purpose of Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds, as amended (the “**EU Benchmarks Regulation**”) is to regulate the risk of manipulating the value of indices and to reduce the risk of conflicts of interests arising. It aims at improving the quality (integrity and accuracy) of the input data and the transparency of the methodologies used by administrators and at improving governance and controls of both administrators' and contributors' activities. The EU Benchmarks Regulation was amended by Regulation (EU) 2021/168 of 10 February 2021, which (i) introduced a harmonised approach to deal with the cessation or wind-down of certain benchmarks by conferring on the Commission or competent national authorities the power to designate a statutory replacement for certain benchmarks, resulting in such benchmarks being replaced in contracts and financial instruments that have not been renegotiated before the date of cessation of the relevant benchmarks and contain either no contractual replacement (or so-called “fallback provision”) or a fallback provision which is deemed unsuitable by the Commission or competent national authorities; (ii) extended the transitional provisions applicable to third-country benchmarks until the end of 2023; and (iii) empowered the Commission to further extend this transitional period until the end of 2025, if necessary.

The EU Benchmarks Regulation applies to “contributors”, “administrators” and “users” of “benchmarks” (including EURIBOR) in the EU.

Regulation (EU) 2016/1011 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 (EUWA) (the “**UK Benchmarks Regulation**” and together with the EU Benchmarks Regulation, the “**Benchmarks Regulation**”) among other things, applies to the provision of benchmarks and the use of a benchmark in the UK. Similarly, it prohibits the use in the UK by UK supervised entities of benchmarks of administrators that are not authorised by the Financial Conduct Authority (the “**FCA**”) or registered on the FCA register (or, if non-UK based, not deemed equivalent or recognised or endorsed).

The Benchmarks Regulation among other things, (i) requires benchmark administrators to be authorised or registered and to comply with extensive requirements in relation to the administration of “benchmarks” (or, if non-EU-based or non-UK-based, where relevant, to be subject to an equivalent regime or otherwise recognised or endorsed) and (ii) prevents certain uses by EU or UK supervised entities of “benchmarks” of administrators that are not authorised/registered (or deemed equivalent or recognised or endorsed). The scope of the Benchmarks Regulation is wide and, in addition to so-called “critical benchmark” indices, applies to many interest rate and foreign exchange rate indices and other indices where used to determine the amount payable under or the value or performance of certain financial instruments.

The Benchmarks Regulation and, more broadly, any of the international, national or other proposals for reform or the general increased regulatory scrutiny of “benchmarks” may have the effect of discouraging market participants from continuing to administer or contribute to certain “benchmarks”, trigger changes in the rules or methodologies used in certain “benchmarks” or lead to the disappearance of certain “benchmarks”. For example, in 2017, the FCA announced that it will no longer persuade or compel banks to submit rates for the calculation of the LIBOR benchmark after 2021. Other interbank offered rates such as EURIBOR (the European Interbank Offered Rate) (together with LIBOR, the “**IBORs**”) suffer from similar weaknesses to LIBOR and as a result may be discontinued or be subject to changes in their administration.

The elimination of an IBOR or the potential elimination of any other benchmark, the emergence of alternatives to an IBOR, changes in the manner of administration or in the methodology or other terms of any benchmark, could have a material impact on any Notes linked to a “benchmark” index, such as (amongst other things) causing the Notes to perform differently (which may include payment of a lower Rate of Interest) than they would do if the original benchmark were to continue to apply in its current form, affecting the volatility of the published rate or level of the benchmark, requiring an adjustment to the Terms and Conditions of the Notes (without any such adjustment requiring the consent or approval of the Noteholders), or resulting in other consequences, which could have a material adverse effect on the liquidity and value of and return on any Notes linked to such benchmark.

Moreover, uncertainty as to the continuation of the Original Reference Rate (as defined in Condition 6(a)), the availability of quotes from reference banks, and the rate that would be applicable if such Original Reference Rate is unavailable may adversely affect the value of, and return on, such Notes.

Where Screen Rate Determination is specified as the manner in which the Rate of Interest in respect of Floating Rate Notes is to be determined, if the Original Reference Rate is not available or if a Benchmark Event (as defined in Condition 6(a)), an €STR Index Cessation Event (as defined in Condition 6(c)(iii)(B)(b)), a ECB Recommended Rate Index Cessation Event (as defined in Condition 6(c)(iii)(B)(b)) or a Benchmark Transition Event (as defined in Condition 6(c)(iii)(B)(c)) occurs, neither the Relevant Screen Page, nor any successor or replacement rate may be available. For more information on the terms applicable to interest on Floating Rate Notes subject to Screen Rate Determination, please refer to Condition 6(c)(iii)(B) and (C) of the Terms and Conditions of the Notes.

In accordance with such Conditions, if a Benchmark Event occurs, the Issuer shall use its reasonable endeavours to appoint an Independent Adviser, which shall endeavour to determine a Successor Rate or Alternative Rate to be used in place of the Original Reference Rate. If the Issuer is unable to appoint an Independent Adviser in a timely manner, or the Independent Adviser is unable to determine a Successor Rate or Alternative Rate before the next Interest Determination Date, the Rate of Interest for the next succeeding Interest Period will be the Rate of Interest applicable as at the last preceding Interest Determination Date before the occurrence of the Benchmark Event, and if such situation continues to prevail in succeeding Interest Determination Dates, this will result in the floating rate Notes, in effect, becoming fixed rate Notes. Noteholders may, in such circumstances, be materially affected and receive a lower interest than they would have expected if an Independent Adviser had been determined or if such Independent Adviser did not fail to determine such Successor or Alternative Rate.

Where ISDA Determination is specified as the manner in which the Rate of Interest in respect of Floating Rate Notes is to be determined, the Terms and Conditions of the Notes provide that the Rate of Interest in respect of the Notes shall be determined by reference to the relevant Floating Rate Option in the 2021 ISDA Definitions. Where the Floating Rate Option specified is a “EURIBOR” Floating Rate Option, the Rate of Interest may be determined by reference to the relevant screen rate or the rate determined on the basis of quotations from certain banks. If EURIBOR is permanently discontinued and the relevant screen rate or quotations from banks (as applicable) are not available, the operation of these provisions may lead to

uncertainty as to the Rate of Interest that would be applicable, and may, adversely affect the value of, and return on, the Floating Rate Notes.

2.2.9 The market continues to develop in relation to risk free rates (including overnight rates) as reference rates for Floating Rate Notes

The market continues to develop in relation to risk free rates, such as the Daily Euro Short-term Rate (“€STR”) and the Secured Overnight Financing Rates (“SOFR”), as reference rates in the capital markets for euro or U.S. dollar bonds, as applicable, and their adoption as alternatives to the relevant interbank offered rates. The market or a significant part thereof may adopt an application of risk free rates that differs significantly from that set out in the Terms and Conditions and used in relation to Floating Rate Notes that reference a risk free rate issued under this Debt Issuance Programme Prospectus.

The nascent development of the use of €STR or SOFR as interest reference rate for bond markets, as well as continued development of €STR- or SOFR-based rates for such markets and of the market infrastructure for adopting such rates, could result in reduced liquidity or increased volatility or could otherwise affect the market price of the Notes. Interest on Notes which reference a risk free rate is only capable of being determined shortly prior to the relevant Interest Payment Date.

In addition, as €STR is published by the European Central Bank and SOFR is published by the Federal Reserve Bank of New York, the Issuer has no control over its determination, calculation or publication. €STR or SOFR may be discontinued or fundamentally altered in a manner that is materially adverse to the interests of Noteholders.

The mismatch between the adoption of such reference rates in the bond, loan and derivatives markets may impact any hedging or other financial arrangements which they may put in place in connection with any acquisition, holding or disposal of any Notes.

To the extent the €STR or SOFR reference rate is discontinued or is no longer published as described in the Terms and Conditions or, in respect of €STR, an €STR Index Cessation Event or an ECB Recommended Rate Index Cessation Event or, in respect of SOFR, a Benchmark Transition Event occurs, the applicable rate to be used to calculate the Rate of Interest on the Notes will be determined using the alternative methods described in Condition 6(c) (*Interest on Floating Rate Notes*) of the Terms and Conditions of the Notes. Such methods may result in interest payments that are lower than, or do not otherwise correlate over time with, the payment that would have been made on the Notes if the €STR or SOFR reference rate had been provided by the European Central Bank or the Federal Reserve Bank of New York, as relevant, in its current form. Accordingly, an investment in any such Floating Rate Notes may entail significant risks not associated with similar investments in convention debt securities.

2.2.10 SOFR is a relatively new market index that may be used as a reference rate for Floating Rate Notes and, as the related market continues to develop, there may be an adverse effect on the return on or value of the Notes

Whether the applicable Final Terms for a Series of Floating Rate Notes specifies that the rate of interest for such Notes will be determined by reference to SOFR, Noteholders should be aware that because SOFR is an overnight funding rate, interest on SOFR-based Notes with interest periods longer than overnight will be calculated on the basis of either the arithmetic mean of SOFR over the relevant interest period, or compounding during the relevant interest period, except during a specified period near the end of each interest payment date during which SOFR will be fixed. As a consequence of this calculation method, the amount of interest payable on each interest payment date will only be known a short period of time prior to the relevant interest payment date in accordance with Condition 6(c)(iii)(B)(c). Noteholders therefore will not know in advance the interest amount which will be payable on such Notes.

SOFR is a new rate. The Federal Reserve Bank of New York began to publish SOFR in April 2018. Although the Federal Reserve Bank of New York has published historical indicative SOFR information going back to 2014, such prepublication historical data inherently involves assumptions, estimates and approximations. Investors should not rely on any historical changes or trends in SOFR as an indicator of the future performance of SOFR. Since the initial publication of SOFR, daily changes in the rate have, on occasion, been more volatile than daily changes in other benchmark or market rates. As a result, the return on and value of SOFR-linked Notes may fluctuate more than floating rate debt securities that are linked to less volatile rates.

Because SOFR is a relatively new market index, SOFR-linked Notes will likely have no established trading market when issued, and an established trading market may never develop or may not be very liquid. Market terms for debt securities indexed to SOFR may evolve over time, and trading prices of SOFR-linked Notes may be lower than those of later-issued SOFR-linked debt securities as a result. Similarly, if SOFR does not prove to be widely used in securities like the Notes, the trading price of SOFR-linked Notes may be lower than those of notes linked to rates that are more widely used. Investors may not be able to sell SOFR-linked Notes at all or may not be able to sell such Notes at prices that will provide a yield comparable to similar

investments that have a developed secondary market, and may consequently suffer from increased pricing volatility and market risk.

The Federal Reserve Bank of New York notes on its publication page for SOFR that use of SOFR is subject to important limitations, including that the NY Federal Reserve may alter the methods of calculation, publication schedule, rate revision practices or availability of SOFR at any time without notice. There can be no guarantee that SOFR will not be discontinued or fundamentally altered in a manner that is materially adverse to the interests of investors in the Notes. If the manner in which SOFR is calculated is changed or if SOFR is discontinued, that change or discontinuance may result in a reduction or elimination of the amount of interest payable on SOFR-linked Notes and a reduction in the trading prices of such Notes which would have an adverse effect on the Noteholders who could lose part of their investment.

2.2.11 Zero Coupon Notes

Condition 6(d) of the Terms and Conditions of the Notes allows for Zero Coupon Notes to be issued. Changes in market interest rates have a substantially stronger impact on the prices of Zero Coupon Notes than on the prices of ordinary Notes because the discounted issue prices are substantially below par. If market interest rates increase, Zero Coupon Notes can suffer higher price losses than other Notes having the same maturity and credit rating. Due to their leverage effect, Zero Coupon Notes are a type of investment associated with a particularly high price risk. Therefore, in similar market conditions the holders of Zero Coupon Notes could be subject to higher losses on their investments than the holders of other instruments such as Fixed Rate Notes or Floating Rate Notes. Any such volatility may have a significant adverse effect on the market value of the Notes.

2.2.12 The use of proceeds of the Notes identified as Sustainable Notes may not be suitable for the investment criteria of a Noteholder

The Final Terms relating to any specific Tranche of Notes may provide that it will be the Issuers' intention to issue green, social or sustainable bonds (together, the "**Sustainable Notes**") and apply an amount equal or equivalent to the net proceeds of the issuance of such Sustainable Notes to finance and/or re-finance, in whole or in part, new or existing eligible green projects, eligible social projects or eligible sustainable projects (being a combination of eligible green and social projects), which will be specified in the relevant Final Terms and further described in the Issuers' relevant framework to be published on the Air Liquide Group's website on or before the issue of such Sustainable Notes).

There is currently no market consensus for a particular project to be defined as a "sustainable", "green" or "social" or equivalently labelled project. The European Union adopted on 18 June 2020 Regulation (EU) No 2020/852 (the "**Taxonomy Regulation**") on the establishment of a framework to facilitate sustainable investment (the "**EU Taxonomy**"), establishing the criteria for determining whether an economic activity qualifies as environmentally sustainable for the purposes of establishing the degree to which an investment is environmentally sustainable. The EU Taxonomy is subject to further development by way of the implementation by the European Commission through delegated regulations of technical screening criteria for the environmental objectives set out in the Taxonomy Regulation. Commission Delegated Regulation (EU) 2021/2139 of 4 June 2021 supplementing Regulation (EU) 2020/852 of the European Parliament and of the Council by establishing the technical screening criteria for determining the conditions under which an economic activity qualifies as contributing substantially to climate change mitigation or climate change adaptation and for determining whether that economic activity causes no significant harm to any of the other environmental objectives (the "**Climate Delegated Acts**") entered into force on 1st January 2022. However, further development of the Taxonomy Regulation will take place concerning certain specific economic activities and concerning other environmental objectives, in particular with respect to "pollution prevention and control" and "transition to circular economy". If certain definitions and technical eligibility criteria from the Issuer's green or sustainable framework are based on the Climate Delegated Acts, when relevant, such framework is not fully aligned with the Taxonomy Regulation. The existing sustainable financing framework of the Issuer is also further based on the Green Loan Principles 2020 overseen by the Loan Market Association (LMA) and with the Green Bond Principles 2018 (GBP), the Social Bond Principles 2020 (SBP), Social Loan Principles 2021 and the Sustainability Bond Guidelines 2018 (SBG) overseen by the International Capital Markets Association (ICMA).

No assurance can be provided to investors that the eligible sustainable projects (specified in "Use of proceeds" paragraph in the relevant Final Terms) will satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply.

In the event that the Sustainable Notes were to be listed or admitted to trading on any "green", "environmental", "sustainable" or other equivalently-labelled segment of any trading venue or securities market (whether or not regulated), such listing or admission to trading may not satisfy, in whole or in part, any present or future investor expectations or requirements with respect to investment portfolios' "green" or other criteria. Furthermore, the criteria for any such listing or admission to trading may vary from one trading

venue or securities market to another. No representation or assurance is given or made by the Issuers, the Dealers or any other person that any such listing or admission to trading will be obtained in respect of the Sustainable Notes or, if obtained, that any such listing or admission will be maintained during the life of the Sustainable Notes.

While it is the intention of the Issuers to apply an amount equal or equivalent to the net proceeds of the Sustainable Notes in, or substantially in, the manner described in “Use of proceeds”, the eligible sustainable projects identified therein may not be capable of being implemented in or substantially in such manner and/or in accordance with any timing schedule and that accordingly such proceeds may not be totally or partially disbursed for the eligible sustainable projects. Moreover, the eligible sustainable projects may not be completed within any specified period or at all or with the results or outcome (whether or not related to the environment) as originally expected or anticipated by the Issuers. Any such event or failure by the Issuers will not constitute an Event of Default under the Notes or a default of the Issuers for any purpose.

Any such event or failure and/or withdrawal of any second party opinion or any other opinion or certification may have a material adverse effect on the value and marketability of the Sustainable Notes and/or result in adverse consequences for Noteholders with portfolio mandates to invest in securities to be used for a particular purpose.

2.2.13 Risks related to RMB Notes

Notes denominated in RMB (“**RMB Notes**”) may be issued under the Programme. RMB Notes contain particular risks for potential investors.

RMB is not completely freely convertible and there are still significant restrictions on the remittance of RMB into and outside the PRC and the liquidity of RMB Notes may be adversely affected

RMB is not completely freely convertible at present. The government of the People’s Republic of China, which, for the purpose of this Debt Issuance Programme Prospectus, excludes the Hong Kong Special Administrative Region, the Macau Special Administrative Region and the Taiwan Region (“**PRC**”), continues to regulate conversion between RMB and foreign currencies, despite the significant reduction over the years by the PRC government of control over trade transactions involving import and export of goods and services as well as other frequent routine foreign exchange transactions under current accounts.

However, remittance of RMB by foreign investors into the PRC for the purposes of capital account items, such as capital contributions, is generally only permitted upon obtaining specific approvals from, or completing specific registrations or filings with, the relevant authorities on a case-by-case basis and is subject to a strict monitoring system. Regulations in the PRC on the remittance of RMB into the PRC for settlement of capital account items are developing gradually.

On 26 January 2017, the State Administration of Foreign Exchange of the PRC (“**SAFE**”) issued the Notice on Further Promoting Foreign Exchange Management Reform by Improving Real Compliance Audit (the “**2017 SAFE Notice**”) which seeks to further regulate the foreign exchange management in relation to trading. Domestic institutions are required to handle their currency conversion trade finance businesses and process export earnings timely in accordance with the principle of “who exports, who receives payment, who imports and who makes payment”. The 2017 SAFE Notice is also part of the PRC foreign debt, outbound loan and cross-border security regimes applicable to foreign currencies. For instance, the 2017 SAFE Notice states that in order for a domestic institution to carry out cross-border lending, the aggregate of the balance of domestic currency loans and foreign currency denominated loans shall not exceed 30 per cent. of the owner’s equity as set out in the previous years’ audited financial statements. However, there remain potential inconsistencies between these provisions and the existing rules of the People’s Bank of China, and it is currently unclear as to how regulators may address such inconsistencies in practice.

The 2017 SAFE Notice is subject to interpretation and application by the relevant PRC authorities.

To the extent the Issuers are required to source Renminbi in the offshore market to service their RMB Notes, there is no assurance that they will be able to source such Renminbi on satisfactory terms, if at all.

Risk of change in government support and regulatory regime

Although from 1 October 2016, the RMB has been added to the Special Drawing Rights basket created by the International Monetary Fund and the People’s Bank of China has released favourable cross-border RMB policies including making RMB settlement available for all cross-border transactions that can be settled in foreign currencies by enterprises in early 2018 and 2020, there can be no assurance that the PRC government will continue to gradually liberalise its control over cross-border Renminbi remittances in the future or that new PRC regulations will not be promulgated in the future which have the effect of restricting or eliminating the remittance of Renminbi into or outside the PRC. In the event that funds cannot be repatriated outside the PRC in Renminbi, this may affect the overall availability of Renminbi outside the PRC and the ability of the

Issuers or the Guarantor, as the case may be, to source Renminbi to finance their obligations under the RMB Notes.

RMB currency risk

Except in limited circumstances and unless otherwise specified, all payments of RMB under RMB Notes to an investor will be made solely by transfer to a RMB bank account maintained in Hong Kong or a financial centre in which financial institutions, with which the People's Bank of China has entered into agreements on the clearing of RMB business, clears and settles RMB in accordance with the prevailing rules and regulations and in accordance with the terms and conditions of the RMB Notes. The relevant Issuer cannot be required to make payment by any other means (including in bank notes or by transfer to a bank account in the PRC or anywhere else outside Hong Kong).

In addition, there can be no assurance that access to RMB for the purposes of making payments under such Notes or generally may remain or will not become restricted. If it becomes impossible to convert RMB from/to another freely convertible currency, or transfer RMB between accounts in Hong Kong, or the general RMB exchange market in Hong Kong becomes illiquid, any payment of RMB under the RMB Notes may be delayed or the relevant Issuer may make such payments in another currency selected by the Issuer using an exchange rate determined by the Calculation Agent, or the relevant Issuer may redeem the Notes by making payment in another currency.

RMB exchange rate risk

The value of RMB against foreign currencies fluctuates and is affected by changes in the PRC and international political and economic conditions and by many other factors. The relevant Issuer will make all RMB payments under RMB Notes in RMB (subject to the second paragraph under the heading “RMB currency risk” above). As a result, the value of such payments in RMB (in foreign currency terms) may vary with the prevailing exchange rates in the marketplace. If the value of RMB depreciates against any foreign currencies, the value of an investor’s investment in such applicable foreign currency terms will decline.

Gains on the transfer of the RMB Notes may become subject to income taxes under PRC tax laws

Under the PRC enterprise income tax law (the “**PRC Enterprise Income Tax Law**”), the PRC individual income tax law (the “**PRC Individual Income Tax Law**”) and the relevant implementing rules, as amended from time to time, any gain realised on the transfer of RMB Notes by non-PRC resident enterprise or individual Noteholders may be subject to PRC enterprise income tax (“EIT”) or PRC individual income tax (“IIT”) if such gain is regarded as income derived from sources within the PRC. The PRC Enterprise Income Tax Law levies EIT at the rate of 20 per cent. of the PRC sourced gains derived by such non-PRC resident enterprise from the transfer of RMB Notes but its implementation rules have reduced the EIT rate to 10 per cent. The PRC Individual Income Tax Law levies IIT at a rate of 20 per cent. of the PRC sourced gains derived by such non-PRC resident individual Noteholder from the transfer of RMB Notes.

However, uncertainty remains as to whether the gain realised from the transfer of RMB Notes by non-PRC resident enterprise or individual Noteholders would be treated as income derived from sources within the PRC and thus become subject to EIT or IIT. This will depend on how the PRC tax authorities interpret, apply or enforce the PRC Enterprise Income Tax Law, the PRC Individual Income Tax Law and the relevant implementing rules. According to the arrangement between the PRC and Hong Kong, for avoidance of double taxation, Noteholders who are residents of Hong Kong, including enterprise Noteholders and individual Noteholders, will not be subject to EIT or IIT on capital gains derived from a sale or exchange of the Notes.

Therefore, if enterprise or individual Noteholders which are non-PRC residents are required to pay PRC income tax on gains derived from the transfer of RMB Notes, unless there is an applicable tax treaty between PRC and the jurisdiction in which such non-PRC enterprise or individual Noteholders of RMB Notes reside that reduces or exempts the relevant EIT or IIT, the value of their investment in RMB Notes may be materially and adversely affected.

2.3 Risks related to the market

2.3.1 Market value of the Notes

The market value of the Notes will be affected by the creditworthiness of the relevant Issuer and a number of additional factors, including, but not limited to, the volatility of the market interest and yield rates and the time remaining to the maturity date.

The value of the Notes depends on a number of interrelated factors, including economic, financial and political events in France or elsewhere, including factors affecting capital markets generally and the stock exchanges on which the Notes are traded. The price at which a Noteholder will be able to sell the Notes prior to maturity may be at a discount, which could be substantial, from the issue price or the purchase price paid by such Noteholder.

2.3.2 Credit ratings may not reflect all risks

One or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

2.3.3 No active secondary/trading market for the Notes

Notes issued under the Programme will be new securities which may not be widely distributed and for which there may be no active trading market (unless in the case of any particular Tranche, such Tranche is to be consolidated with and form a single Series with a Tranche of Notes which is already issued). If the Notes are traded after their initial issuance, they may trade at a discount to their initial offering price, depending upon prevailing interest rates, the market for similar securities, general economic conditions and the financial condition of the relevant Issuer. Although in relation to Notes to be listed on the official list of the Luxembourg Stock Exchange and admitted to trading on the Regulated Market of the Luxembourg Stock Exchange and/or any other EEA Regulated Market, the Final Terms of the Notes will be filed with the *Commission de surveillance du secteur financier* in Luxembourg and/or with the competent authority of the EEA Regulated Market where the Notes will be listed and admitted to trading, there is no assurance that such filings will be accepted, that any particular Tranche of Notes will be so listed and admitted or that an active trading market will develop. Accordingly, there is no assurance as to the development or liquidity of any trading market for any particular Tranche of Notes.

This may have a negative impact on the liquidity of the Notes and result in low trading volumes. The degree of liquidity of the Notes may negatively impact the price at which an investor can dispose of the Notes where the investor is seeking to achieve a sale within a short timeframe. Investors may not be able to sell Notes readily or at prices that will enable investors to realise their anticipated yield. The purchased Notes may not be readily sellable and the value of Notes may fluctuate over time and such fluctuations may be significant.

2.3.4 Exchange rates

Prospective investors of the Notes should be aware that an investment in the Notes may involve exchange rate risks. The Notes may be denominated in a currency other than the currency of the purchaser's home jurisdiction, and/or the Notes may be denominated in a currency other than the currency in which a purchaser wishes to receive funds. Exchange rates between currencies are determined by factors of supply and demand in the international currency markets which are influenced by macro economic factors, speculation and central bank and government intervention (including the imposition of currency controls and restrictions). Fluctuations in exchange rates may affect the value of the Notes.

The following is the text of the terms and conditions that, subject to completion in accordance with the provisions of the relevant Final Terms, shall be applicable to the Notes. In the case of Dematerialised Notes, the text of the terms and conditions will not be endorsed on physical documents of title but will be constituted by the following text as completed by the relevant Final Terms. In the case of Materialised Notes, either (i) the full text of these terms and conditions together with the relevant provisions of the Final Terms or (ii) these terms and conditions as so completed (and subject to simplification by the deletion of non-applicable provisions), shall be endorsed on Definitive Materialised Bearer Notes. All capitalised terms that are not defined in these Conditions will have the meanings given to them in the relevant Final Terms. References in the Conditions to “Notes” are to the Notes of one Series only, not to all Notes that may be issued under the Programme.

The Notes are issued by Air Liquide Finance (“**Air Liquide Finance**” or an “**Issuer**”) and L’Air Liquide, société anonyme pour l’Étude et l’Exploitation des procédés Georges Claude (“**L’Air Liquide**”, in its capacity as guarantor of Notes issued by Air Liquide Finance, the “**Guarantor**” or, in its capacity as issuer, an “**Issuer**”) (together with Air Liquide Finance, the “**Issuers**”) with the benefit of an amended and restated agency agreement dated 11 May 2022 (the “**Amended and Restated Agency Agreement**”) between the Issuers, the Guarantor, BNP Paribas Securities Services as fiscal agent, paying agent, redenomination agent, consolidation agent and calculation agent, and with respect to Notes issued by Air Liquide Finance with the benefit of a guarantee dated 11 May 2022 (as amended or supplemented from time to time, the “**Guarantee**” executed by the Guarantor). The fiscal agent, the paying agents, the redenomination agent, the consolidation agent and the calculation agent(s) for the time being (if any) are referred to below respectively as the “**Fiscal Agent**”, the “**Paying Agents**” (which expression shall include the Fiscal Agent), the “**Redenomination Agent**”, the “**Consolidation Agent**” and the “**Calculation Agent(s)**”.

For the purpose of these Terms and Conditions, “**Regulated Market**” means any regulated market situated in a Member State of the European Economic Area (“**EEA**”) as defined in the Directive 2014/65/EU on markets in financial instruments dated 14 May 2014, as amended, and appearing on the list of regulated markets issued by the European Securities and Markets Authority, and “**holder of Notes**”, “**holder of any Note**” or “**Noteholder**” means (i) in the case of Dematerialised Notes, the person whose name appears in the account of the relevant Euroclear France Account Holder or the relevant Issuer or the Registration Agent (as the case may be) as being entitled to such Notes and (ii) in the case of Materialised Notes, the bearer of any Definitive Materialised Bearer Note and the Coupons, or Talon relating to it.

References below to “**Conditions**” are, unless the context requires otherwise, to the numbered paragraphs below.

Copies of the Amended and Restated Agency Agreement and the Guarantee are available, during usual business hours on any weekday (Saturdays, Sundays and public holidays expected), for inspection, at the specified office of the Fiscal Agent. A copy of the Guarantee is also available, during usual business hours on any weekday (Saturdays, Sundays and public holidays expected), for inspection at the registered office of L’Air Liquide (75, quai d’Orsay – 75007 Paris – France).

1 FORM, DENOMINATION(S), TITLE AND REDENOMINATION

(a) Form

Notes may be issued either in dematerialised form (“**Dematerialised Notes**”) or in materialised form (“**Materialised Notes**”), as specified in the relevant Final Terms.

- (i) Title to Dematerialised Notes will be evidenced in accordance with Articles L.211-3 and R.211-1 of the French *Code monétaire et financier* (the “**Code**”) by book entries (*inscriptions en compte*). No physical document of title (including *certificats représentatifs* pursuant to Article R.211-7 of the Code) will be issued in respect of Dematerialised Notes.

Dematerialised Notes are issued, at the option of the relevant Issuer and as specified in the relevant Final Terms (the “**Final Terms**”), in either (a) bearer dematerialised form (*au porteur*), in which case they will be inscribed in the books of Euroclear France (acting as central depository) (“**Euroclear France**”) which shall credit the accounts of Euroclear France Account Holders, or (b) registered dematerialised form (*au nominatif*) and, in such latter case, at the option of the relevant Noteholder in either administered registered form (*au nominatif administré*) inscribed in the books of the Euroclear France Account Holder designated by the relevant Noteholder or in fully registered form (*au nominatif pur*) inscribed in an account in the books of Euroclear France maintained by the Issuer or the Registration Agent (designated in the relevant Final Terms) acting on behalf of the Issuer (the “**Registration Agent**”).

Pursuant to article L.228-2 of the French *Code de commerce*, the Issuer may require the identification of the Noteholders in accordance with French law unless such right is expressly excluded in the relevant Final Terms.

For the purpose of these Conditions, “**Euroclear France Account Holder**” means any intermediary institution entitled directly or indirectly to hold accounts on behalf of its customers

with Euroclear France, and includes the depositary bank for Clearstream Banking, SA (“**Clearstream**”) and Euroclear Bank SA/NV (“**Euroclear**”).

- (ii) Materialised Notes are issued in bearer form (“**Materialised Bearer Notes**”). Materialised Bearer Notes are serially numbered and are issued with interest coupons (the “**Coupons**”) (and, where appropriate, a talon (“**Talon**”)) attached, save in the case of Zero Coupon Notes in which case references to interest (other than in relation to interest due after the Maturity Date), Coupons and Talons in these Conditions are not applicable.

In accordance with Articles L.211-3 and R.211-1 of the Code, securities (such as Notes) which are governed by French law and are in materialised form must be issued outside the French territory.

(b) **Denomination(s)**

Notes shall be issued in the specified denomination(s) as set out in the relevant Final Terms (the “**Specified Denomination(s)**”) save that the minimum denomination of each Note listed and admitted to trading on a Regulated Market in circumstances which require the publication of a Debt Issuance Programme Prospectus under the Prospectus Regulation will be at least €100,000 (or, if the Notes are denominated in a currency other than euro, the equivalent amount in such currency at the issue date) or such other higher amount as may be allowed or required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to the relevant Specified Currency.

Dematerialised Notes shall be issued in one Specified Denomination only.

(c) **Title**

- (i) Title to Dematerialised Notes in bearer dematerialised form (*au porteur*) and in administered registered form (*au nominatif administré*) shall pass upon, and transfer of such Notes may only be effected through, registration of the transfer in the accounts of Euroclear France Account Holders. Title to Dematerialised Notes in fully registered form (*au nominatif pur*) shall pass upon, and transfer of such Notes may only be effected through, registration of the transfer in the accounts of the Issuer or of the Registration Agent.
- (ii) Title to Materialised Bearer Notes in definitive form having, where appropriate, Coupons and/or a Talon attached thereto on issue (“**Definitive Materialised Bearer Notes**”), shall pass by delivery.
- (iii) Except as ordered by a court of competent jurisdiction or as required by law, the holder (as defined below) of any Note, Coupon or Talon shall be deemed to be and may be treated as its absolute owner for all purposes, whether or not it is overdue and regardless of any notice of ownership, or an interest in it, any writing on it or its theft or loss and no person shall be liable for so treating the holder.

(d) **Redenomination**

If Condition 1(d) is specified in the relevant Final Terms as being applicable, the relevant Issuer may, without the consent of any of the holders of any Note, Coupon or Talon, by giving at least 30 calendar days’ notice in accordance with Condition 15, redenominate on any Interest Payment Date all, but not some only, of the Notes of any Series into Euro and adjust the aggregate principal amount and the Specified Denomination(s) on or after the date on which the Member State of the EU in whose national currency such Notes are denominated has become a participant member in the third stage of the European economic and monetary union (“**EMU**”), as described below. The date on which such redenomination becomes effective shall be referred to in these Conditions as the “**Redenomination Date**”.

Unless otherwise specified in the relevant Final Terms, the redenomination of the Notes pursuant to Condition 1(d) shall be determined by the Redenomination Agent by converting the principal amount of each Note from the relevant national currency into Euro using the fixed relevant national currency Euro conversion rate established by the Council of the EU pursuant to applicable regulations of the Treaty on the Functioning of the European Union, as amended (the “**Treaty**”) and rounding the resultant figure to the nearest Euro 0.01 (with Euro 0.005 being rounded upwards). If the Issuer so elects, the figure resulting from conversion of the principal amount of each Note using the fixed relevant national currency Euro conversion rate shall be rounded down to the nearest Euro. The Euro denominations of the Notes so determined shall be notified to Noteholders in accordance with Condition 15. Any balance remaining from the redenomination with a denomination higher than Euro 0.01 shall be paid by way of cash adjustment rounded to the nearest Euro 0.01 (with Euro 0.005 being rounded upwards). Such cash adjustment will be payable in Euro on the Redenomination Date in the manner notified to Noteholders by the Issuer. For the avoidance of doubt, the minimum denomination of each redenominated Note shall not be less than €100,000.

Upon redenomination of the Notes, any reference in the relevant Final Terms to the relevant national currency shall be construed as a reference to Euro.

Unless otherwise specified in the relevant Final Terms, the Issuer may, with the prior approval of the Fiscal Agent, in connection with any redenomination pursuant to this Condition or any consolidation pursuant to Condition 14, without the consent of the holder of any Note, Coupon or Talon, make any changes or additions to these Conditions or Condition 14 (including, without limitation, any change to any applicable business day definition, business day convention, principal financial centre of the country of the Specified Currency, interest accrual basis or benchmark), taking into account market practice in respect of redenominated euromarket debt obligations and which it believes are not prejudicial to the interests of such Noteholders. Any such changes or additions shall, in the absence of manifest error, be binding on the holder of Notes, Coupons and Talons and shall be notified to Noteholders in accordance with Condition 15 as soon as practicable thereafter.

Neither the Issuer nor any Paying Agent shall be liable to the holder of any Note, Coupon or Talon or other person for any commissions, costs, losses or expenses in relation to or resulting from the credit or transfer of euro or any currency conversion or rounding effected in connection therewith.

2 CONVERSION AND EXCHANGES OF NOTES

(a) Dematerialised Notes:

Dematerialised Notes issued in bearer dematerialised form (*au porteur*) may not be converted into Dematerialised Notes in registered dematerialised form, whether in fully registered form (*au nominatif pur*) or in administered registered form (*au nominatif administré*).

Dematerialised Notes issued in registered dematerialised form (*au nominatif*) may not be converted into Dematerialised Notes in bearer dematerialised form (*au porteur*).

Dematerialised Notes issued in fully registered form (*au nominatif pur*) may, at the option of the Noteholder, be converted into Notes in administered registered form (*au nominatif administré*), and *vice versa*. - (A) ISDA Determination for Floating Rate Notes:

Where ISDA Determination is specified in the relevant Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period shall be determined by the Calculation Agent as a rate equal to the relevant ISDA Rate. For the purposes of this sub-paragraph (A), “**ISDA Rate**” for an Interest Accrual Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under a Swap Transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (a) the “**Floating Rate Option**” is as specified in the relevant Final Terms;

- (d) the relevant “**Fixing Day**” is the date specified in the applicable Final Terms or, in the absence thereof, as defined in the ISDA Definitions;
- (e) the relevant “**Calculation Period**” is as specified in the applicable Final Terms or, in the absence thereof, as defined in the ISDA Definitions for which purpose references to “Effective Date”, “Period End Date” and “Termination Date” (in the

ISDA Definitions) shall be deemed to be to, respectively, the Issue Date, any last day of an Interest Accrual Period and any last day of the last Interest Accrual Period (as defined in these Conditions); and

- (f) if the Floating Rate Option specified in the Final Terms is an Overnight Floating Rate Option and Compounding is specified as applicable in the Final Terms:
- the relevant Reset Date is the last day of an Interest Accrual Period, unless otherwise specified in the Final Terms;
 - the Daily Capped Rate is as specified in the Final Terms;
 - the Daily Floored Rate is as specified in the Final Terms;
 - Delayed Payment will be applicable if specified as such in the Final Terms, and if so, the applicable number of days is either (1) as specified in the Final Terms, or (2) if no number is specified as such in the Final Terms, five (5);
 - OIS Compounding will be applicable if specified as such in the Final Terms;
 - Compounding with Lookback will be applicable if specified as such in the Final Terms, and if so, the “**Lookback**” is either (x) as specified in the Final Terms, or (y) if no number is specified as such in the Final Terms, the number specified as the “**Lookback**” for the relevant Floating Rate Option in the ISDA Definitions, or (z) if no such number is specified for the relevant Floating Rate Option, five (5);
 - Compounding with Observation Period Shift will be applicable if specified as such in the Final Terms, and if so, Set in Advance will be applicable if specified as such in the Final Terms, Observation Period Shift Additional Business Day is as specified in the Final Terms, and the “**Observation Period Shift**” is either (x) as specified in the Final Terms, or (y) if no number is specified as such in the Final Terms, the number specified as the “**Observation Period Shift**” for the relevant Floating Rate Option in the ISDA Definitions, or (z) if no such number is specified for the relevant Floating Rate Option, five (5); and
 - Compounding with Lockout will be applicable if specified as such in the Final Terms, and if so, “**Lockout Period Business Day**” is as specified in the Final Terms and the “**Lockout**” is either (x) as specified in the Final Terms, or (y) if no number is specified as such in the Final Terms, the number specified as the “**Lockout**” for the relevant Floating Rate Option in the ISDA Definitions, or (z) if no such number is specified for the relevant Floating Rate Option, five (5).

(B) Screen Rate Determination for Floating Rate Notes:

- (a) Where Screen Rate Determination is specified in the relevant Final Terms as the manner according to which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period will, subject as provided below, be either:
- (i) the offered quotation or
 - (ii) the arithmetic mean of the offered quotations,
- (expressed as a percentage rate *per annum*) for the Reference Rate which appears or appear, as the case may be, on the Relevant Screen Page as at either (x) 11.00 a.m. (Brussels time in the case of EURIBOR) or (y) if otherwise, the Relevant Screen Page Time on the Interest Determination Date in question as determined by the Calculation Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest

quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean of such offered quotations.

If the Reference Rate from time to time in respect of Floating Rate Notes is specified in the relevant Final Terms as being other than EURIBOR, the Rate of Interest in respect of such Notes will be determined as provided in the relevant Final Terms.

If the Relevant Screen Page is not available or if sub-paragraph (i) above applies and no such offered quotation appears on the Relevant Screen Page or if sub-paragraph (ii) above applies and fewer than three such offered quotations appear on the Relevant Screen Page, subject as provided below, the Calculation Agent shall request, (x) if the Reference Rate is EURIBOR, the principal Euro-zone office of each of the Reference Banks or, (y) if otherwise, each of the Reference Banks to provide the Calculation Agent with its offered quotation (expressed as a percentage rate *per annum*) for the Reference Rate if the Reference Rate is EURIBOR, at approximately 11.00 a.m. (Brussels time) or, if otherwise, at the Relevant Screen Page Time on the Interest Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent with such offered quotations, the Rate of Interest for such Interest Period shall be the arithmetic mean of such offered quotations as determined by the Calculation Agent; and

If the immediately preceding paragraph applies and the Calculation Agent determines that fewer than two Reference Banks are providing offered quotations, subject as provided below, the Rate of Interest shall be the arithmetic mean of the rates *per annum* (expressed as a percentage) as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two or more of them, at which such banks were offered, if the Reference Rate is EURIBOR, at approximately 11.00 a.m. (Brussels time) or, if otherwise, at the Relevant Screen Page Time on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by leading banks in, if the Reference Rate is EURIBOR, the Euro-zone inter-bank market or, if otherwise, the Relevant Inter-Bank Market, as the case may be, or, if fewer than two of the Reference Banks provide the Calculation Agent with such offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, at which, if the Reference Rate is EURIBOR, at approximately 11.00 a.m. (Brussels time) or, if otherwise, at the Relevant Screen Page Time on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Issuer suitable for such purpose) informs the Calculation Agent it is quoting to leading banks in, if the Reference Rate is EURIBOR, the Euro zone inter-bank market or, if otherwise, the Relevant Inter-Bank Market, as the case may be, provided that, if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this paragraph, the Rate of Interest shall be determined as at the last preceding Interest Determination Date (though substituting, where a different Margin, Rate Multiplier or Maximum or Minimum Rate of Interest is to be applied to the relevant Interest Accrual Period from that applied to the last preceding Interest Accrual Period, the Margin or Maximum or Minimum Rate of Interest relating to the relevant Interest Accrual Period, in place of the Margin or Maximum or Minimum Rate of Interest relating to that last preceding Interest Accrual Period).

- (b) Where Screen Rate Determination is specified in the relevant Final Terms as the manner according to which the Rate of Interest is to be determined and the Reference Rate in respect of the Floating Rate Notes is specified as being €STR, the Rate of Interest for each Interest Accrual Period will, subject as provided below, be the rate of return of a daily compound interest investment (with the daily euro short-term rate as the reference rate for the calculation of interest) plus or minus (as indicated in the applicable Final Terms) the Margin (if any) and will be calculated by the Calculation Agent on the relevant Interest Determination Date, as follows, and the resulting percentage will be rounded, if necessary, to the nearest one ten-thousandth of a percentage point, with 0.00005 being rounded upwards:

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{\text{€STR}_{i-p\text{TBD}} \times n_i}{360} \right) - 1 \right] \times \frac{360}{d}$$

If no ECB Recommended Rate has been recommended before the end of the first TARGET Business Day following the date on which the €STR Index Cessation Event occurs, then the rate of €STR for each TARGET Business Day occurring on or after the €STR Index Cessation Effective Date will be determined as if references to €STR were references to the Modified EDFR.

If an ECB Recommended Rate has been recommended and both an ECB Recommended Rate Index Cessation Event and an ECB Recommended Rate Index Cessation Effective Date subsequently occur, then the rate of €STR for each TARGET Business Day occurring on or after that ECB Recommended Rate Index Cessation Effective Date will be determined as if references to €STR were references to the Modified EDFR.

Any substitution of the €STR, as specified above, will remain effective for the remaining term to maturity of the Notes and shall be published by the Issuer in accordance with Condition 15.

In the event that the Rate of Interest cannot be determined in accordance with the foregoing provisions by the Calculation Agent, (i) the Rate of Interest shall be that determined as at the last preceding Interest Determination Date (though substituting, where a different Margin or Maximum Rate of Interest or Minimum Rate of Interest is to be applied to the relevant Interest Accrual Period from that which applied to the last preceding Interest Accrual Period, the Margin or Maximum Rate of Interest or Minimum Rate of Interest relating to the relevant Interest Accrual Period in place of the Margin or Maximum Rate of Interest or Minimum Rate of Interest relating to that last preceding Interest Accrual Period) or (ii) if there is no such preceding Interest Determination Date, the Rate of Interest shall be determined as if the rate of €STR for each TARGET Business Day occurring on or after such €STR Index Cessation Effective Date were references to the latest published ECB Recommended Rate or, if EDFR is published on a later date than the latest published ECB Recommended Rate, the Modified EDFR.

(C) Benchmark Event

If a Benchmark Event occurs in relation to an Original Reference Rate, but not in respect of €STR or SOFR, when any Rate of Interest (or any component part thereof) remains to be determined by reference to such Original Reference Rate, then the following provisions shall apply and shall prevail over other fallbacks specified in Condition 6(c)(iii)(B).

(a) Independent Adviser

The Issuer shall use its reasonable endeavours to appoint an Independent Adviser, as soon as reasonably practicable, to determine a Successor Rate, failing which an Alternative Rate (in accordance with Condition 6(c)(iii)(C)(b)) and, in either case, an Adjustment Spread if any (in accordance with Condition 6(c)(iii)(C)(c)) and any Benchmark Amendments (in accordance with Condition 6(c)(iii)(C)(d)).

In making such determination, the Independent Adviser appointed pursuant to this Condition 6(c)(iii)(C)(a) shall act in good faith in a commercially reasonable manner as an independent expert. In the absence of bad faith, manifest error or fraud, the Independent Adviser shall have no liability whatsoever to the Issuer, the Paying Agents, or any other party responsible for determining the Rate of Interest specified in the applicable Final Terms or the Noteholders or the Couponholders for any determination made by it, pursuant to this Condition 6(c)(iii)(C)(a).

(b) Successor Rate or Alternative Rate

If the Independent Adviser, determines that:

- (i) there is a Successor Rate, then such Successor Rate shall (subject to adjustment as provided in Condition 6(c)(iii)(C)(c)) subsequently be used in place of the Original Reference Rate to determine the relevant Rate of Interest (or the relevant component part thereof) for all relevant future payments of interest on the Notes (subject to the further operation of this Condition 6(c)(iii)(C)); or
- (ii) there is no Successor Rate but that there is an Alternative Rate, then such Alternative Rate shall (subject to adjustment as provided in Condition 6(c)(iii)(C)(c)) subsequently be used in place of the Original Reference Rate to determine the relevant Rate of Interest (or the relevant component part thereof) for all relevant future payments of interest on the Notes (subject to the further operation of this Condition 6(c)(iii)(C)).

(c) Adjustment Spread

If the Independent Adviser, determines (i) that an Adjustment Spread is required to be applied to the Successor Rate or the Alternative Rate (as the case may be) and (ii) the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Adjustment Spread shall be applied to the Successor Rate or the Alternative Rate (as the case may be) for each subsequent determination of a relevant Rate of Interest (or a relevant component thereof) by reference to such Successor Rate or Alternative Rate (as applicable).

(d) Benchmark Amendments

If any Successor Rate, Alternative Rate and, in either case, the applicable Adjustment Spread is determined in accordance with this Condition 6(c)(iii)(C) and the Independent Adviser, determines (i) that amendments to these Conditions are necessary to ensure the proper operation of such Successor Rate or Alternative Rate and/or (in either case) the applicable Adjustment Spread (such amendments, the “**Benchmark Amendments**”) and (ii) the terms of the Benchmark Amendments, then the Issuer shall, subject to giving notice thereof in accordance with Condition 6(c)(iii)(C)(e), without any requirement for the consent or approval of Noteholders, vary these Conditions to give effect to such Benchmark Amendments with effect from the date specified in such notice.

For the avoidance of doubt, and in connection with any such variation in accordance with this Condition 6(c)(iii)(C)(d), the Issuer shall comply with the rules of any stock exchange on which the Notes are for the time being listed or admitted to trading.

(e) Notices

The occurrence of a Benchmark Event shall be determined by the Issuer and promptly notified to the Fiscal Agent, the Calculation Agent and the Paying Agents. For the avoidance of doubt, neither the Fiscal Agent, the Calculation Agent nor the Paying Agents shall have any responsibility for making such determination.

Any Successor Rate, Alternative Rate, Adjustment Spread and the specific terms of any Benchmark Amendments, determined under this Condition 6(c)(iii)(C) will be notified promptly by the Issuer, after receiving such information from the Independent Adviser, to the Fiscal Agent, the Calculation Agent, the Paying Agents and, in accordance with Condition 15, the Noteholders. Such notice shall be irrevocable and shall specify the effective date of the Benchmark Amendments, if any.

The Issuer shall deliver to the Fiscal Agent a certificate signed by one authorised signatory of the Issuer:

- (i) confirming (i) that a Benchmark Event has occurred, (ii) the Successor Rate or, as the case may be, the Alternative Rate, (iii) where applicable, any Adjustment Spread and (iv) the specific terms of the Benchmark Amendments (if any), in each case as determined by the Independent Adviser in accordance with the provisions of this Condition 6(c)(iii)(C); and
- (ii) certifying that the Independent Adviser has confirmed that the Benchmark Amendments (if any) are necessary to ensure the proper operation of such Successor Rate or Alternative Rate and (in either case) the applicable Adjustment Spread.

Each of the Fiscal Agent, the Calculation Agent and the Paying Agents shall be entitled to rely on such certificate (without liability to any person) as sufficient evidence thereof. The Successor Rate or Alternative Rate and the Adjustment Spread (if any) and the Benchmark Amendments (if any) specified in such certificate will (in the absence of manifest error or bad faith in the determination of the Successor Rate or Alternative Rate and the Adjustment Spread (if any) and the Benchmark Amendments (if any) and without prejudice to the Fiscal Agent’s, the Calculation Agent’s or the Paying Agents’ ability to rely on such certificate as aforesaid) be binding on the Issuer, the Fiscal Agent, the Calculation Agent, the Paying Agent and the Noteholders or Couponholders.

(f) Survival of Original Reference Rate

If (i) the Issuer is unable to appoint an Independent Adviser; or (ii) the Independent Adviser appointed by it fails to determine a Successor Rate or, failing which, an Alternative Rate in accordance with this Condition 6(c)(iii)(C)(a) prior to the relevant Interest Determination Date, the Rate of Interest applicable to the next succeeding Interest Period shall be equal to the Rate of Interest last determined in relation to the Notes in respect of the immediately preceding Interest Period. If there has not been a first Interest Payment Date, the Rate of Interest shall be the initial Rate of Interest. For the sake of clarity, where, in accordance with the relevant Final Terms, a different Margin or

Maximum or Minimum Rate of Interest is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, and notwithstanding the fact that the Rate of Interest shall remain the one determined in respect of the immediately preceding Interest Period as indicated above, the Margin or Maximum or Minimum Rate of Interest relating to the relevant Interest Period shall be substituted in place of the Margin or Maximum or Minimum Rate of Interest relating to that last preceding Interest Period. For the avoidance of doubt, this Condition 6(c)(iii)(C)(f) shall apply to the relevant next succeeding Interest Period only and any subsequent Interest Periods are subject to the subsequent operation of, and to adjustment as provided in, this Condition 6(c)(iii)(C). If the Issuer has been unable to appoint an Independent Adviser or, the Independent Adviser has failed, to determine a Successor Rate or Alternative Rate in respect of any given Interest Period, the Issuer will continue to attempt to appoint an Independent Adviser in a timely manner before the next succeeding Interest Determination Date and/or to determine a Successor Rate or Alternative Rate to apply the next succeeding and any subsequent Interest Periods, as necessary.

Without prejudice to the obligations of the Issuer under Condition 6(c)(iii)(C) (a), (b), (c) and (d), the Original Reference Rate and the fallback provisions provided for in Condition 6(c)(iii)(B) will continue to apply unless and until a Benchmark Event has occurred.

(g) New Benchmark Event in respect of the Successor Rate or Alternative Rate

If Benchmark Amendments have been implemented pursuant to this Condition 6(c)(iii)(C) and a new Benchmark Event occurs in respect of the then applicable Successor Rate or Alternative Rate, the Issuer shall use its reasonable endeavours to appoint an Independent Adviser and ensure that the provisions of this Condition 6(c)(iii)(C) shall apply as if the Successor Rate or Alternative Rate were the Original Reference Rate.

- (d) **Zero Coupon Notes:** Where a Note the Interest Basis of which is specified to be Zero Coupon is repayable prior to the Maturity Date and is not paid when due, the amount due and payable prior to the Maturity Date shall be the Early Redemption Amount of such Note. - (e) **Accrual of Interest:** Interest shall cease to accrue on each Note on the due date for redemption unless (i) in the case of Dematerialised Notes, on such due date or (ii) in the case of Materialised Notes, upon due presentation, payment is improperly withheld or refused, in which event interest shall continue to accrue (as well after as before judgement) at the Rate of Interest in the manner provided in this Condition 6 to the Relevant Date.
- (f) **Margin, Maximum/Minimum Rates of Interest and Redemption Amounts, Rate Multipliers and Rounding:**
- (i) If any Margin or Rate Multiplier is specified in the relevant Final Terms (either (x) generally, or (y) in relation to one or more Interest Accrual Periods), an adjustment shall be made to all Rates of Interest, in the case of (x), or the Rates of Interest for the specified Interest Accrual Periods, in the case of (y), calculated in accordance with (c) above by adding (if a positive number) or subtracting the absolute value (if a negative number) of such Margin or multiplying by such Rate Multiplier, subject always to the next paragraph.
- (ii) If any Maximum or Minimum Rate of Interest or Redemption Amount is specified in the relevant Final Terms, then any Rate of Interest or Redemption Amount shall be subject to such maximum or minimum, as the case may be.
- (iii) For the purposes of any calculations required pursuant to these Conditions, (x) all percentages resulting from such calculations shall be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with halves being rounded up), (y) all figures shall be rounded to seven significant figures (with halves being rounded up) and (z) all currency amounts that fall due and payable shall be rounded to the nearest unit of such currency (with halves being rounded up), save in the case of yen, which shall be rounded down to the nearest yen. For these purposes “unit” means the lowest amount of such currency that is available as legal tender in the country(ies) of such currency.
- (g) **Calculations:** The amount of interest payable in respect of any Note for any period shall be calculated by multiplying the product of the Rate of Interest and the outstanding nominal amount of such Note by the Day Count Fraction, unless an Interest Amount is specified in respect of such period in the Final Terms, in which case the amount of interest payable in respect of such Note for such period shall equal such Interest Amount. Where any Interest Period comprises two or more Interest Accrual Periods, the amount of interest payable in respect of such Interest Period shall be the sum of the amounts of interest payable in respect of each of those Interest Accrual Periods.

- (h) **Determination and Publication of Rates of Interest, Interest Amounts, Final Redemption Amounts, Optional Redemption Amounts and Early Redemption Amounts:** As soon as practicable after the relevant time on such date as the Calculation Agent may be required to calculate any rate or amount, obtain any quotation or make any determination or calculation, it shall determine such rate and calculate the Interest Amounts in respect of each Specified Denomination of the Notes for the relevant Interest Accrual Period, calculate the Final Redemption Amount, Optional Redemption Amount or Early Redemption Amount, obtain such quotation or make such determination or calculation, as the case may be, and cause the Rate of Interest and the Interest Amounts for each Interest Period and the relevant Interest Payment Date and, if required to be calculated, the Final Redemption Amount, Optional Redemption Amount or Early Redemption Amount to be notified to the Fiscal Agent, the relevant Issuer, each of the Paying Agents, the Noteholders, any other Calculation Agent appointed in respect of the Notes that is to make a further calculation upon receipt of such information and, if the Notes are listed and admitted to trading on a Regulated Market and the rules of such Regulated Market so require, such exchange as soon as possible after their determination but in no event later than (i) the commencement of the relevant Interest Period, if determined prior to such time, in the case of notification to such exchange of a Rate of Interest and Interest Amount, or (ii) in all other cases, the fourth Business Day after such determination. Where any Interest Payment Date or Interest Period Date is subject to adjustment pursuant to Condition 6(c)(ii), the Interest Amounts and the Interest Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period. If the Notes become due and payable under Condition 10, the accrued interest and the Rate of Interest payable in respect of the Notes shall nevertheless continue to be calculated as previously in accordance with this Condition but no publication of the Rate of Interest or the Interest Amount so calculated need be made. The determination of any rate or amount, the obtaining of each quotation and the making of each determination or calculation by the Calculation Agent(s) shall (in the absence of manifest error) be final and binding upon all parties.
- (i) **Reference Banks and Calculation Agent:** The relevant Issuer shall procure that there shall at all times be four Reference Banks (or such other number as may be required) with offices in the Relevant Financial Centre and one or more Calculation Agents if provision is made for them in the relevant Final Terms and for so long as any Note is outstanding (as defined in the Amended and Restated Agency Agreement). If any Reference Bank (acting through its relevant office) is unable or unwilling to continue to act as a Reference Bank, then the relevant Issuer shall appoint another Reference Bank with an office in the Relevant Financial Centre to act as such in its place. Where more than one Calculation Agent is appointed in respect of the Notes, references in these Conditions to the Calculation Agent shall be construed as each Calculation Agent performing its respective duties under the Conditions. If the Calculation Agent is unable or unwilling to act as such or if the Calculation Agent fails duly to establish the Rate of Interest for an Interest Period or Interest Accrual Period or to calculate any Interest Amount, Final Redemption Amount, Early Redemption Amount or Optional Redemption Amount, as the case may be, or to comply with any other requirement, the relevant Issuer shall appoint a leading bank or investment banking firm engaged in the interbank market (or, if appropriate, money, swap or over-the-counter index options market) that is most closely connected with the calculation or determination to be made by the Calculation Agent (acting through its principal Luxembourg office or any other office actively involved in such market) to act as such in its place. The Calculation Agent may not resign its duties without a successor having been appointed as aforesaid.
- (j) **RMB Notes:** Notwithstanding the foregoing, each RMB Note which is a Fixed Rate Note bears interest from (and including) the Interest Commencement Date at the rate *per annum* equal to the Rate of Interest. For the purposes of calculating the amount of interest, if any Interest Payment Date would otherwise fall on a day which is not a Business Day, it shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month in which case it shall be brought forward to the immediately preceding Business Day. Interest will be payable in arrear on each Interest Payment Date.
- The Calculation Agent will, as soon as practicable after the Relevant Time as specified in the relevant Final Terms on each Interest Determination Date, calculate the amount of interest payable per Specified Denomination for the relevant Interest Period. The determination of the amount of interest payable per Specified Denomination by the Calculation Agent shall (in the absence of manifest error and after confirmation by the Issuer) be final and binding upon all parties.
- The Calculation Agent will cause the amount of interest payable per Specified Denomination for each Interest Period and the relevant Interest Payment Date to be notified to each of the Paying Agents and to be notified to Noteholders as soon as possible after their determination but in no event later than the fourth Business Day thereafter. The amount of interest payable per Specified Denomination and Interest Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an adjustment of the Interest Period, if the Interest Payment Date is not a Business Day. If the Notes become due and payable under Condition 10, the accrued interest per Specified Denomination shall nevertheless continue to be calculated as

previously by the Calculation Agent in accordance with this provision but no publication of the amount of interest payable per Specified Denomination so calculated need be made.

Interest shall be calculated in respect of any period by applying the Rate of Interest to the Specified Denomination, multiplying such product by the actual number of days in the relevant Interest Period or, as applicable, other period concerned and dividing it by 365, and rounding the resultant figure to the nearest Renminbi sub-unit, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

7 REDEMPTION, PURCHASE AND OPTIONS

- (a) **Final Redemption:** Unless previously redeemed or purchased and cancelled as provided below in accordance with this Condition 7, each Note shall be finally redeemed on the Maturity Date specified in the relevant Final Terms at its Final Redemption Amount (which is its nominal amount).
- (b) **Make-Whole Redemption by the Issuer:** If a Make-Whole Redemption by the relevant Issuer is specified in the relevant Final Terms in respect of any issue of Notes, the relevant Issuer will, subject to compliance with all relevant laws, regulations and directives and on giving not less than 15 nor more than 30 calendar days' irrevocable notice in accordance with Condition 15 to the Noteholders (or such other notice period as may be specified in the relevant Final Terms), have the option to redeem the Notes, in whole or in part, at any time or from time to time, prior to their Maturity Date (the "**Optional Redemption Date**") at their Optional Redemption Amount.

The Optional Redemption Date, the Optional Redemption Amount and the Redemption Rate will be notified to the Noteholders by the relevant Issuer in accordance with Condition 15.

Any notice given by the relevant Issuer pursuant to this Condition 7(b) shall be deemed void and of no effect in relation to any Note in the event that, prior to the giving of such notice by the Issuer, the relevant Noteholder had already delivered an Exercise Notice or a Change of Control Put Option Notice in relation to such Note in accordance with Condition 7(f) below.

For the purpose of this Condition 7(b):

"**Optional Redemption Amount**" shall be, as calculated by the Calculation Agent (or such other person designated in the relevant Final Terms), the greater of (x) 100 per cent. of the nominal amount of the Notes so redeemed and, (y) the sum of the then present values of the remaining scheduled payments of principal and interest on such Notes (not including any interest accrued on the Notes to, but excluding, the relevant Optional Redemption Date) discounted to the relevant Optional Redemption Date on an annual basis at the Redemption Rate plus a Redemption Margin (as specified in the relevant Final Terms), plus in each case (x) or (y) above, any interest accrued on the Notes to, but excluding, the Optional Redemption Date. If a Residual Maturity Call Option (set out in Condition 7(d)) is specified in the relevant Final Terms and if the Issuer decides to redeem the Notes pursuant to the Make-Whole Redemption before the Call Option Date (as specified in the relevant Final Terms), the Optional Redemption Amount in respect of the Make-Whole Redemption by the Issuer will be calculated taking into account the Call Option Date pursuant to Condition 7(d) below and not the Maturity Date.

It is specified that the determination of any rate or amount, the obtaining of each quotation and the making of each determination or calculation by the Calculation Agent (or such other person designated in the relevant Final Terms) shall (in the absence of manifest error) be final and binding upon all parties.

"**Redemption Rate**" is the average of the four quotations given by the Reference Dealers of the mid-market annual yield to maturity of the Reference Security (as specified in the relevant Final Terms) on the fourth business day preceding the Optional Redemption Date at 11.00 a.m. (Central European time (CET)). If the Reference Security is no longer outstanding, a Similar Security (as specified in the relevant Final Terms) will be chosen by the Calculation Agent (or such other person designated in the relevant Final Terms) at 11.00 a.m. (Central European time (CET)) on the third business day in London preceding the Optional Redemption Date, quoted in writing by the Calculation Agent (or such other person designated in the relevant Final Terms) to the relevant Issuer and notified in accordance with Condition 15.

"**Reference Dealers**" means each of the four banks selected by the Calculation Agent (or such other person designated in the relevant Final Terms) which are primary international government security dealers, and their respective successors, or market makers in pricing corporate bond issues or as specified in the relevant Final Terms.

- (c) **Redemption at the Option of the Issuer and Exercise of Issuer's Options:** If a Call Option is specified in the relevant Final Terms, the relevant Issuer may, on giving not less than 15 nor more than 30 calendar days' irrevocable notice in accordance with Condition 15 to the Noteholders (or such other notice period as may be specified in the relevant Final Terms) redeem, or exercise any Issuer's option (as may be described) in relation to, all or, if so provided, some, of the Notes on any Optional Redemption Date.

Any such redemption of Notes shall be at their Optional Redemption Amount together with interest accrued to the date fixed for redemption, if any. Any such redemption or exercise must relate to Notes of a nominal amount at least equal to the minimum nominal amount to be redeemed specified in the relevant Final Terms and no greater than the maximum nominal amount to be redeemed specified in the relevant Final Terms.

All Notes in respect of which any such notice is given shall be redeemed, or the Issuer's option shall be exercised, on the date specified in such notice in accordance with this Condition.

- (d) **Residual Maturity Call Option:** If a Residual Maturity Call Option is specified in the relevant Final Terms, the relevant Issuer may, on giving not less than 15 nor more than 30 calendar days' irrevocable notice (or such other notice period if specified in the relevant Final Terms) in accordance with Condition 15 to the Noteholders redeem the Notes, in whole but not in part, at par together with interest accrued to, but excluding, the date fixed for redemption, at any time as from the Call Option Date specified in the relevant Final Terms, which shall be no earlier than (i) three months before the Maturity Date in respect of Notes having a maturity of not more than 10 years or (ii) six months before the Maturity Date in respect of Notes having a maturity of more than 10 years, until the Maturity Date.

For the purpose of the preceding paragraph, the maturity of not more than 10 years or the maturity of more than 10 years shall be determined as from the Issue Date of the first Tranche of the relevant Series of Notes.

All Notes in respect of which any such notice is given shall be redeemed on the date specified in such notice in accordance with this Condition.

- (e) **Clean-Up Call Option:** If so specified in the relevant Final Terms, in the event that at least 80 per cent. of the initial aggregate principal amount of the Notes has been purchased and cancelled by the Issuer, the Issuer may, at its option (the "**Clean-Up Call Option**") but subject to having given not less than 15 nor more than 30 calendar days' irrevocable notice to the Noteholders in accordance with Condition 15, redeem all, but not some only, of the outstanding Notes at their Clean-Up Redemption Amount together with any interest accrued to the date set for redemption (as specified in the relevant Final Terms).

- (f) **Redemption at the Option of Noteholders and Exercise of Noteholders' Options:**

(A) Redemption at the Option of the Noteholders following a Put Option:

If a Put Option is specified in the relevant Final Terms, the relevant Issuer shall, at the option of the Noteholder, upon the Noteholder giving not less than 15 nor more than 30 calendar days' notice to the Issuer (or such other notice period as may be specified in the relevant Final Terms) redeem such Note on the Optional Redemption Date(s) at its Optional Redemption Amount together with interest accrued to the date fixed for redemption.

To exercise such option, the Noteholder must deposit with a Paying Agent at its specified office a duly completed option exercise notice (the "**Exercise Notice**") in the form obtained from any Paying Agent, within the notice period. In the case of Materialised Bearer Notes, the Exercise Notice shall have attached to it the relevant Notes (together with all unexpired Coupons and unexchanged Talons). In the case of Dematerialised Notes, the Noteholder shall transfer, or cause to be transferred, the Dematerialised Notes to be redeemed to the account of the Fiscal Agent or the Paying Agent with a specified office in Paris as specified in the Exercise Notice. No option so exercised and, where applicable, no Note so deposited or transferred, may be withdrawn without the prior consent of the Issuer.

(B) Redemption at the Option of Noteholders following a Change of Control Put Option:

If a Change of Control Put Option is specified in the relevant Final Terms and if at any time while any Note remains outstanding there occurs (i) a Change of Control and (ii) within the Change of Control Period a Rating Downgrade occurs as a result of that Change of Control or as a result of a Potential Change of Control (the occurrence of (i) and (ii) together constitutes a "**Put Event**"), then the holder of each Note will have the option (the "**Change of Control Put Option**") (unless, prior to the giving of the Put Event Notice (as defined below), the Issuer gives notice of its intention to redeem the Note under Condition 7) to require the Issuer to redeem or, at the Issuer's option, to procure the purchase of that Note on the Optional Redemption Date (as defined below) at its principal amount together with (or, where purchased, together with an amount equal to) accrued interest to but excluding the Optional Redemption Date.

A "**Change of Control**" shall be deemed to have occurred each time any person or persons acting in concert come(s) to own or acquire(s) (i) more than 50 per cent. of the issued share capital of L'Air Liquide or (b) such number of shares in the capital of L'Air Liquide carrying more than 50 per cent. of the voting rights.

"**Change of Control Period**" means:

(i) Pursuant to a Change of Control, the period commencing on the date of the public announcement of the result (*avis de résultat*) by the *Autorité des marchés financiers* (the “**AMF**”) of the relevant Change of Control and ending on the date which is 90 calendar days (inclusive) after the date of the public announcement by the AMF of the relevant Change of Control, or

(ii) Pursuant to a Potential Change of Control, the period commencing 180 calendar days prior to the date of the public announcement of the result (*avis de résultat*) by the AMF of the relevant Change of Control and ending on the date of such announcement (inclusive).

“**Rating Agency**” means S&P Global Ratings Europe Limited or Moody’s Deutschland GmbH or any other rating agency of equivalent international standing requested from time to time by the Issuer to grant a rating to the Notes and, in each case, their respective successors or affiliates.

A “**Rating Downgrade**” shall be deemed to have occurred in respect of a Change of Control or in respect of a Potential Change of Control if within the Change of Control Period:

(A) the credit rating previously assigned to the Notes by any Rating Agency is (x) withdrawn or (y) changed from an investment grade credit rating (BBB-, or its respective equivalents for the time being, or better) to a non-investment grade credit rating (BB+, or their respective equivalents for the time being, or worse) or (z) if the credit rating previously assigned to the Notes by any Rating Agency was below an investment grade credit rating (as described above), lowered by at least one full rating notch, or

(B) no credit rating is assigned to the Notes by any Rating Agency and L’Air Liquide has a long term credit rating from a Rating Agency, paragraph (A) shall apply to such long term credit rating as if it were a credit rating assigned to the Notes; and

provided that (i) a Rating Downgrade otherwise arising by virtue of a particular change in credit rating shall be deemed not to have occurred in respect of a particular Change of Control or Potential Change of Control, as the case may be, if the Rating Agency making the change in credit rating does not publicly announce or publicly confirm that the reduction was the result of the Change of Control or the Potential Change of Control, as the case may be, and (ii) any Rating Downgrade has to be confirmed in a letter, or other form of written communication, sent to the Issuer and publicly disclosed.

“**Potential Change of Control**” means any public announcement or statement by L’Air Liquide and/or any actual or potential bidder relating to any potential Change of Control of L’Air Liquide.

Promptly upon the Issuer becoming aware that a Put Event has occurred, the Issuer shall give notice (a “**Put Event Notice**”) to the Noteholders in accordance with Condition 15 specifying the nature of the Put Event and the circumstances giving rise to it and the procedure for exercising the Change of Control Put Option.

To exercise the Change of Control Put Option to require redemption or, as the case may be, purchase of a Note following a Put Event, the holder of that Note must transfer or cause to be transferred by its Account Holder its Notes to be so redeemed to the account of the Fiscal Agent in the Put Option Notice for the account of the Issuer within the period (the “**Put Period**”) of 45 calendar days after the Put Event Notice is given together with a duly signed and completed notice of exercise in the form (for the time being current) obtainable from the specified office of any Paying Agent (as applicable) (a “**Put Option Notice**”) and in which the holder may specify a bank account to which payment is to be made.

The Issuer shall redeem or, at the option of the Issuer procure the purchase of, the Notes in respect of which the Change of Control Put Option has been validly exercised as provided above, and subject to the transfer of such Notes to the account of the Fiscal Agent for the account of the Issuer as described above on the date which is the fifth Business Day following the end of the Put Period (the “**Optional Redemption Date**”). Payment in respect of any Note so transferred will be made in the Specified Currency to the holder to the bank account specified in the Put Option Notice on the Optional Redemption Date via the relevant Account Holders.

(g) **Redemption for Taxation Reasons:**

(i) If, by reason of any change in, or any change in the official application or interpretation of, French law, becoming effective after the Issue Date, the relevant Issuer or, as the case may be, the Guarantor (in respect of the Guarantee), would on the occasion of the next payment of principal or interest due in respect of the Notes, not be able to make such payment without having to pay additional amounts as specified under Condition 9 below, the relevant Issuer may, at its option, on any Interest Payment Date or, if so specified in the relevant Final Terms, at any time, subject to having given not more than 45 nor less than 30 calendar days’ notice to the Noteholders (which notice shall be irrevocable), in accordance with Condition 15, redeem all, but not some only, of the Notes at their Early Redemption Amount together with any interest accrued to the date set for redemption provided that the due date for redemption of which notice hereunder may be given shall be no earlier than the latest practicable date on which the relevant Issuer or the Guarantor,

as the case may be, could make payment of principal and interest without withholding for such French taxes.

- (ii) If the relevant Issuer or, as the case may be, the Guarantor (in respect of the Guarantee), would, on the next payment of principal or interest in respect of the Notes, be prevented by French law from making payment to the Noteholders or, if applicable, the holders of the Coupons (the “**Couponholders**”) of the full amounts then due and payable, notwithstanding the undertaking to pay additional amounts contained in Condition 9 below, then the relevant Issuer, shall forthwith give notice of such fact to the Fiscal Agent and the relevant Issuer shall upon giving not less than seven calendar days’ prior notice to the Noteholders in accordance with Condition 15, redeem all, but not some only, of the Notes then outstanding at their Early Redemption Amount (as described in Condition 7(l) above) together with any interest accrued to the date set for redemption on the latest practicable Interest Payment Date on which the relevant Issuer or the Guarantor, as the case may be, could make payment of the full amount then due and payable in respect of the Notes or, if applicable, Coupons, or, if that date is passed, as soon as practicable thereafter.
 - (h) **Purchases:** The relevant Issuer shall have the right at all times to purchase Notes (provided that, in the case of Materialised Notes, all unmatured Coupons and unexchanged Talons relating thereto are attached thereto or surrendered therewith) in the open market or otherwise at any price. Unless otherwise provided in the relevant Final Terms, all Notes so purchased by the relevant Issuer may be held and resold for the purpose of enhancing the liquidity of the Notes in accordance with applicable laws and regulations.
 - (i) **Cancellation:** All Notes purchased by or on behalf of the relevant Issuer for cancellation shall forthwith be cancelled, in the case of Dematerialised Notes, by transfer to an account in accordance with the rules and procedures of Euroclear France and, in the case of Materialised Bearer Notes, by surrendering the Temporary Global Certificate or the Definitive Materialised Bearer Notes in question together with all unmatured Coupons and all unexchanged Talons to the Fiscal Agent and, in each case, if so transferred or surrendered, shall, together with all Notes redeemed by the relevant Issuer, be cancelled forthwith (together with, in the case of Dematerialised Notes, all rights relating to payment of interest and other amounts relating to such Dematerialised Notes and, in the case of Materialised Notes, all unmatured Coupons and unexchanged Talons attached thereto or surrendered therewith). Any Notes so cancelled or, where applicable, transferred or surrendered for cancellation may not be reissued or resold and the obligations of the relevant Issuer and the Guarantor in respect of any such Notes shall be discharged.
 - (j) **Partial Redemptions:** In the case of a partial redemption at the option of the Issuer in accordance with Condition 7(b) or 7(c):
 - (i) in respect of Materialised Notes, the redemption shall be effected by drawing amongst the then outstanding Materialised Notes in order to determine the Materialised Notes to be redeemed, it being specified that the drawing shall be handled by the Fiscal Agent in such place and in such manner as may be fair and reasonable in the circumstances, taking account of prevailing market practices, subject to compliance with any applicable laws and stock exchange requirements.
 - (ii) in respect of Dematerialised Notes, the redemption may be effected by reducing the nominal amount of all such Dematerialised Notes in proportion to the aggregate nominal amount redeemed, subject to compliance with any other applicable laws and stock exchange requirements. In no event, the outstanding nominal amount of each Note following such reduction shall be below any amount which would prevent the relevant Issuer from choosing its home Member State (as such term is defined in the Prospectus Regulation).
- In addition, so long as the Notes are listed and admitted to trading on any Regulated Market and the rules of such Regulated Market so require, the relevant Issuer shall, once in each year in which there has been a partial redemption of the Notes (whether at the option of the Issuer or of the Noteholders), cause to be published in a leading newspaper with general circulation in the city where the Regulated Market is located or, so long as the Notes are listed on the official list of the Luxembourg Stock Exchange and admitted to trading on the Regulated Market of the Luxembourg Stock Exchange and so long as the rules of the Luxembourg Stock Exchange so permit, on the website of the Luxembourg Stock Exchange (www.bourse.lu), a notice specifying the aggregate nominal amount of Notes outstanding and, in the case of Materialised Notes, a list of any Definitive Materialised Bearer Notes drawn for redemption but not surrendered.
- (k) **Illegality:** If, by reason of any change in French law or any change in the official application of such law, becoming effective after the Issue Date, it becomes unlawful (i) for the relevant Issuer to perform or comply with one or more of its obligations under the Notes, or (ii) for the Guarantor to perform or comply with one or more of its obligations under the Guarantee, the relevant Issuer which in the case of (ii) above, shall be the issuer of the Notes guaranteed by the Guarantor will, subject to having given not more than 45 nor less than 30 calendar days’ notice to the Noteholders (which notice shall be

irrevocable), in accordance with Condition 15, redeem all, but not some only, of the Notes at their Early Redemption Amount together with any interest accrued to the date set for redemption.

(l) **Early Redemption Amount:**

(i) *Zero Coupon Notes:*

- (A) The Early Redemption Amount payable in respect of any Zero Coupon Note upon redemption of such Note pursuant to Condition 7(g) or Condition 7(k) or upon it becoming due and payable as provided in Condition 10 shall be the Amortised Nominal Amount (calculated as provided below) of such Note.
- (B) Subject to the provisions of sub-paragraph (C) below, the Amortised Nominal Amount of any such Note shall be the scheduled Final Redemption Amount of such Note on the Maturity Date discounted at a rate *per annum* (expressed as a percentage) equal to the Amortisation Yield (which, if none is shown in the relevant Final Terms, shall be such rate as would produce an Amortised Nominal Amount equal to the issue price of the Notes if they were discounted back to their issue price on the Issue Date) compounded annually.
- (C) If the Early Redemption Amount payable in respect of any such Note upon its redemption pursuant to Condition 7(g) or Condition 7(k) or upon it becoming due and payable as provided in Condition 10 is not paid when due, the Early Redemption Amount due and payable in respect of such Note shall be the Amortised Nominal Amount of such Note as defined in sub-paragraph (B) above, except that such sub-paragraph shall have effect as though the date on which the Amortised Nominal Amount becomes due and payable were the Relevant Date. The calculation of the Amortised Nominal Amount in accordance with this sub-paragraph shall continue to be made (as well after as before judgement) until the Relevant Date, unless the Relevant Date falls on or after the Maturity Date, in which case the amount due and payable shall be the scheduled Final Redemption Amount of such Note on the Maturity Date together with any interest that may accrue in accordance with Condition 6(d).

Where such calculation is to be made for a period of less than one year, it shall be made on the basis of the Day Count Fraction shown in the relevant Final Terms.

- (ii) *Other Notes:* The Early Redemption Amount payable in respect of any Note (other than Notes described in (i) above), upon redemption of such Note pursuant to Condition 7(g) or Condition 7(k), or upon it becoming due and payable as provided in Condition 10 shall be the Final Redemption Amount.

8 PAYMENTS AND TALONS

- (a) **Dematerialised Notes:** Payments of principal and interest in respect of Dematerialised Notes shall be made (i) (in the case of Dematerialised Notes in bearer dematerialised form or administered registered dematerialised form) by transfer to the account denominated in the relevant currency of the relevant Euroclear France Account Holders for the benefit of the relevant Noteholder and (ii) (in the case of Dematerialised Notes in fully registered form), to an account denominated in the relevant currency with a Bank designated by the relevant Noteholder. All payments validly made to such Euroclear France Account Holders will constitute an effective discharge of the relevant Issuer in respect of such payments.
- (b) **Materialised Bearer Notes:** Payments of principal and interest in respect of Materialised Bearer Notes shall, subject as mentioned below, be made against presentation and surrender of the relevant Materialised Bearer Notes (in the case of all other payments of principal and, in the case of interest, as specified in Condition 8(f)(v)) or Coupons (in the case of interest, save as specified in Condition 8(f)(v)), as the case may be:
- (i) in the case of a currency other than RMB, at the specified office of any Paying Agent outside the United States by a cheque payable in the relevant currency drawn on, or, at the option of the Noteholder, by transfer to an account denominated in such currency with, a Bank; and
- (ii) in the case of RMB, by transfer to a RMB account maintained by or on behalf of the Noteholder with a Bank.

“**Bank**” means a bank in the principal financial centre for such currency or, in the case of Renminbi in Hong Kong or in the relevant Business Centre (if any), and in the case of euro, in a city in which banks have access to the TARGET System.

- (c) **Payments in the United States:** Notwithstanding the foregoing, if any Materialised Bearer Notes are denominated in US Dollars, payments in respect thereof may be made at the specified office of any Paying Agent in New York City in the same manner as aforesaid if (i) the relevant Issuer shall have appointed Paying Agents with specified offices outside the United States with the reasonable expectation

that such Paying Agents would be able to make payment of the amounts on the Notes in the manner provided above when due, (ii) payment in full of such amounts at all such offices is illegal or effectively precluded by exchange controls or other similar restrictions on payment or receipt of such amounts and (iii) such payment is then permitted by United States law, without involving, in the opinion of the relevant Issuer, any adverse tax consequence to the relevant Issuer or the Guarantor, if payment is being made under the Guarantee.

- (d) **Payments Subject to Fiscal Laws:** All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives in the place of payment but without prejudice to the provisions of Condition 9. No commission or expenses shall be charged to the Noteholders or Couponholders in respect of such payments.
- (e) **Appointment of Agents:** The Fiscal Agent, the Paying Agents, the Calculation Agent, the Redenomination Agent and the Consolidation Agent initially appointed under the Amended and Restated Agency Agreement and their respective specified offices are specified therein. The Fiscal Agent, the Paying Agents, the Redenomination Agent, the Registration Agent and the Consolidation Agent act solely as agents of each Issuer and the Calculation Agent(s) act(s) as independent experts(s) and, in each case such, do not assume any obligation or relationship of agency for any Noteholder or Couponholder. The Issuers reserve the right at any time to vary or terminate the appointment of the Fiscal Agent, any other Paying Agent, the Redenomination Agent, the Registration Agent and the Consolidation Agent or the Calculation Agent(s) and to appoint additional or other Paying Agents, provided that the Issuers shall at all times maintain (i) a Fiscal Agent, (ii) one or more Calculation Agent(s) where the Conditions so require, (iii) a Redenomination Agent and a Consolidation Agent where the Conditions so require, (iv) a Paying Agent having specified offices in at least one major European city, (v) such other agents as may be required by any other stock exchange on which the Notes may be listed and admitted to trading and (vi) such other agents as may be required by the rules of any other stock exchange on which the Notes may be listed and admitted to trading.

In addition, the Issuers (or the Guarantor, if payment is being made under the Guarantee) shall forthwith appoint a Paying Agent in New York City in respect of any Materialised Bearer Notes denominated in US Dollars in the circumstances described in paragraph (c) above.

On a redenomination of the Notes of any Series pursuant to Condition 1(d) with a view to consolidating such Notes with one or more other Series of Notes, in accordance with Condition 14, the Issuer shall ensure that the same entity shall be appointed as both Redenomination Agent and Consolidation Agent in respect of both such Notes and such other Series of Notes to be so consolidated with such Notes.

Notice of any such change or any change of any specified office shall promptly be given to the Noteholders in accordance with Condition 15.

- (f) **Unmatured Coupons and unexchanged Talons:**
- (i) Unless Materialised Bearer Notes provide that the relative Coupons are to become void upon the due date for redemption of those Notes, Materialised Bearer Notes should be surrendered for payment together with all unmaturing Coupons (if any) relating thereto, failing which an amount equal to the face value of each missing unmaturing Coupon (or, in the case of payment not being made in full, that proportion of the amount of such missing unmaturing Coupon that the sum of principal so paid bears to the total principal due) shall be deducted from the Final Redemption Amount, Amortised Nominal Amount, Early Redemption Amount or Optional Redemption Amount, as the case may be, due for payment. Any amount so deducted shall be paid in the manner mentioned above against surrender of such missing Coupon within a period of 10 years from the Relevant Date for the payment of such principal (whether or not such Coupon has become void pursuant to Condition 11) provided that, if any Materialised Bearer Note should be issued with a maturity date and an Interest Rate or Rates such that, on the presentation for payment of any such Note without any unmaturing Coupons attached thereto or surrendered therewith, the amount required to be deducted in respect of such unmaturing Coupons would be greater than the relevant Redemption Amount otherwise due for payment, then, upon the due date for redemption of any such Note, such unmaturing Coupons (whether or not attached) shall become void (and no payment shall be made in respect thereof) as shall be required so that, upon application of the foregoing provisions in respect of such Coupons as have not so become void, the amount required by this paragraph to be deducted would not be greater than the relevant Redemption Amount otherwise due for payment. Where the application of the foregoing provisions requires some but not all of the unmaturing Coupons relating to a Materialised Bearer Note to become void and shall select for such purpose Coupons maturing on later dates in preference to Coupons maturing on earlier dates.
- (ii) If Materialised Bearer Notes so provide, upon the due date for redemption of any such Materialised Bearer Note, unmaturing Coupons relating to such Note (whether or not attached) shall become void and no payment shall be made in respect of them.

- (iii) Upon the due date for redemption of any Materialised Bearer Note, any unexchanged Talon relating to such Note (whether or not attached) shall become void and no Coupon shall be delivered in respect of such Talon.
 - (iv) Where any Materialised Bearer Note that provides that the relative unmatured Coupons are to become void upon the due date for redemption of those Notes is presented for redemption without all unmatured Coupons, and where any such Note is presented for redemption without any unexchanged Talon relating to it, redemption shall be made only against the provision of such indemnity as the Issuer and the Guarantor, as the case may be, may require.
 - (v) If the due date for redemption of any Materialised Bearer Note is not a due date for payment of interest, interest accrued from the preceding due date for payment of interest or the Interest Commencement Date, as the case may be, shall only be payable against presentation (and surrender if appropriate) of the relevant Definitive Materialised Bearer Note. Interest accrued on a Materialised Bearer Note that only bears interest after its Maturity Date shall be payable on redemption of such Note against presentation of the relevant Materialised Bearer Notes.
- (g) **Talons:** On or after the Interest Payment Date for the final Coupon forming part of a Coupon sheet issued in respect of any Materialised Bearer Note, the Talon forming part of such Coupon sheet may be surrendered at the specified office of the Fiscal Agent in exchange for a further Coupon sheet (and if necessary another Talon for a further Coupon sheet) (but excluding any Coupons that may have become void pursuant to Condition 11) provided that, in respect of Notes listed on the official list of the Luxembourg Stock Exchange and admitted to trading on the Regulated Market of the Luxembourg Stock Exchange, such exchange shall always take place at the specified office of the Fiscal Agent or of the Paying Agent, as a case may be.
- (h) **Non-Business Days:** If any date for payment in respect of any Note or Coupon is not a business day, the Noteholder shall not be entitled to payment until (i) if “Following” is specified in the relevant Final Terms, the next following business day or (ii) if “Modified Following” is specified in the relevant Final Terms, the next following business day unless it would thereby fall into the next calendar month, in which event such date shall be brought forward to the immediately preceding business day, and in each case, the Noteholders shall not be entitled to any interest or other sum in respect of such postponed payment. In this paragraph, “business day” means a day (other than a Saturday or a Sunday) (A) (i) in the case of Dematerialised Notes, on which Euroclear France is open for business or (ii) in the case of Materialised Notes, on which banks and foreign exchange markets are open for business in the relevant place of presentation, (B) on which banks and foreign exchange markets are open for business in such jurisdictions as shall be specified as “Financial Centres” in the relevant Final Terms and (C) (i) in the case of a payment in a currency other than euro and RMB, where payment is to be made by transfer to an account maintained with a bank in the relevant currency, on which foreign exchange transactions may be carried on in the relevant currency in the principal financial centre of the country of such currency or (ii) in the case of a payment in euro, which is a TARGET Business Day or (iii) in the case of a payment in RMB, on which banks and foreign exchange markets are open for business and settlement of RMB payments in Hong Kong or in the Relevant Business Centre (if any).
- (i) **Payment of US Dollar Equivalent in the event of unavailability of RMB:** Notwithstanding any other provision in these Conditions, if by reason of Inconvertibility, Non-Transferability or Illiquidity or if Renminbi is otherwise not available to the relevant Issuer or the Guarantor, as the case may be, as a result of circumstances beyond their control and such unavailability has been independently confirmed by a Renminbi Dealer, neither the relevant Issuer nor the Guarantor is able to satisfy payments of principal or interest (in whole or in part) in respect of RMB Notes, the relevant Issuer or the Guarantor, as the case may be, on giving not less than five nor more than 30 calendar days irrevocable notice to the Noteholders prior to the due date for payment, may settle any such payment (in whole or in part) in US Dollars on the due date at the US Dollar Equivalent of any such Renminbi denominated amount.

In such event, payments of the US Dollar Equivalent of the relevant principal or interest in respect of the RMB Notes shall be made by transfer to the U.S. dollar account of the relevant Account Holders for the benefit of the Noteholders. For the avoidance of doubt, no such payment of the US Dollar Equivalent shall by itself constitute a default in payment within the meaning of Condition 10.

All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition 8(i) by the RMB Rate Calculation Agent, will (in the absence of manifest error) be binding on the Issuers, the Agents and all Noteholders.

For the purposes of this Condition 8(i):

“**Governmental Authority**” means any *de facto* or *de jure* government (or any agency or instrumentality thereof), court, tribunal, administrative or other governmental authority or any other entity (private or public) charged with the regulation of the financial markets (including the central bank) of Hong Kong or the ROC or any other relevant jurisdiction of a Renminbi offshore market.

“Illiquidity” means that the general Renminbi exchange market in Hong Kong or the ROC or any other relevant jurisdiction of a Renminbi offshore market becomes illiquid, other than as a result of an event of Inconvertibility or Non-Transferability, as determined by the relevant Issuer or the Guarantor, as the case may be, in good faith and in a commercially reasonable manner following consultation with two Renminbi Dealers, as a result of which event the relevant Issuer or the Guarantor, as the case may be, cannot, each having used its reasonable endeavours, obtain sufficient Renminbi in order to fully satisfy its obligation to pay interest or principal in respect of the RMB Notes or, as the case may be, the Guarantee.

“Inconvertibility” means the occurrence of any event that makes it impossible for the relevant Issuer or the Guarantor, as the case may be, to convert any amount due in respect of RMB Notes or the Guarantee, as the case may be, in the general Renminbi exchange market in Hong Kong or the ROC or any other relevant jurisdiction of a Renminbi offshore market, other than where such impossibility is due solely to the failure of the relevant Issuer or the Guarantor, as the case may be, to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after the Issue Date and it is impossible for the relevant Issuer or the Guarantor, as the case may be, due to an event beyond its control, to comply with such law, rule or regulation).

“Non-Transferability” means the occurrence of any event that makes it impossible for the relevant Issuer or the Guarantor, as the case may be, to deliver Renminbi between accounts inside Hong Kong or the ROC or any other relevant jurisdiction of a Renminbi offshore market or from an account inside Hong Kong or the ROC or any other relevant jurisdiction of a Renminbi offshore market to an account outside Hong Kong or the ROC or any other relevant jurisdiction of a Renminbi offshore market, other than where such impossibility is due solely to the failure of the relevant Issuer or the Guarantor, as the case may be, to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after the Issue Date and it is impossible for the relevant Issuer or the Guarantor, as the case may be, due to an event beyond its control, to comply with such law, rule or regulation).

“Renminbi Dealer” means an independent foreign exchange dealer of international repute active in the Renminbi exchange market in Hong Kong or the ROC or any other relevant jurisdiction of a Renminbi offshore market reasonably selected by the relevant Issuer or the Guarantor, as the case may be.

“RMB Rate Calculation Agent” means the agent appointed from time to time by the relevant Issuer for the determination of the RMB Spot Rate or identified as such in the relevant Final Terms.

“RMB Rate Calculation Business Day” means a day (other than a Saturday or Sunday) on which commercial banks are open for general business (including dealings in foreign exchange) in Hong Kong or the ROC or any other relevant jurisdiction of a Renminbi offshore market and in New York City.

“RMB Rate Calculation Date” means the day which is two RMB Rate Calculation Business Days before the due date for payment of the relevant Renminbi amount under the Conditions.

“RMB Spot Rate” for a RMB Rate Calculation Date means the spot CNY/US dollar exchange rate for the purchase of US Dollars with CNY in the over-the-counter CNY exchange market in Hong Kong or the ROC or any other relevant jurisdiction of a Renminbi offshore market for settlement on the relevant due date for payment, as determined by the RMB Rate Calculation Agent at the Relevant Time as specified in the relevant Final Terms on such RMB Rate Calculation Date, on a deliverable basis by reference to Reuters Screen Page TRADCNY3, or if no such rate is available, on a non-deliverable basis by reference to Reuters Screen Page TRADNDF. If neither rate is available, the RMB Rate Calculation Agent will determine the RMB Spot Rate at the Relevant Time as specified in the relevant Final Terms on the RMB Rate Calculation Date as the most recently available CNY/US dollar official fixing rate for settlement on the relevant due date for payment reported by The State Administration of Foreign Exchange of the PRC, which is reported on the Reuters Screen Page CNY=SAEC. Reference to a page on the Reuters Screen means the display page so designated on the Reuter Monitor Money Rates Service (or any successor service) or such other page as may replace that page for the purpose of displaying a comparable currency exchange rate.

“ROC” means the Island of Taiwan and other areas under the effective control of the Republic of China.

“US Dollar Equivalent” means the relevant Renminbi amount converted into US Dollars using the RMB Spot Rate for the relevant RMB Rate Calculation Date, as calculated by the RMB Rate Calculation Agent.

9 TAXATION

- (a) **Withholding tax:** All payments of principal, interest and other assimilated revenues by or on behalf of the Issuers in respect of the Notes shall be made free and clear of, and without withholding or deduction for, any taxes, duties, assessments or governmental charges of whatever nature imposed, levied,

collected, withheld or assessed by or within France or any authority therein or thereof having power to tax, unless such withholding or deduction is required by law.

- (b) **Additional amounts:** If French law should require that payments of principal, interest or assimilated revenues in respect of any Note or Coupon or payments under the Guarantee be subject to deduction or withholding with respect to any present or future taxes, duties, assessments or other governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of France or any political subdivision thereof, or any authority therein or thereof having power to tax, the relevant Issuer will or, as the case may be, the Guarantor in the case of payments under the Guarantee, to the fullest extent then permitted by law, pay such additional amounts as shall result in receipt by the Noteholders or, if applicable, the Couponholders, as the case may be, of such amounts as would have been received by them had no such withholding or deduction been required, except that no such additional amounts shall be payable with respect to any Note or Coupon, as the case may be:
- (i) **Other connection:** to, or to a third party on behalf of, a Noteholder or, if applicable, a Couponholder, as the case may be, who is liable to such taxes, duties, assessments or governmental charges in respect of such Note or Coupon by reason of his having some connection with the Republic of France other than the mere holding of the Note or Coupon; or
 - (ii) **Presentation more than 30 days after the Relevant Date:** in the case of Materialised Notes, more than 30 days after the Relevant Date except to the extent that the Noteholder or, if applicable, the Couponholder, as the case may be, would have been entitled to such additional amounts on presenting it for payment on the thirtieth such day.

As used in these Conditions, “**Relevant Date**” in respect of any Note or Coupon means the date on which payment in respect of it first becomes due or (if any amount of the money payable is improperly withheld or refused) the date on which payment in full of the amount outstanding is made or, in the case of Materialised Notes (if earlier) the date seven days after that on which notice is duly given to the Noteholders that, upon further presentation of the Note or Coupon being made in accordance with the Conditions, such payment will be made, provided that payment is in fact made upon such presentation. References in these Conditions to (i) “**principal**” shall be deemed to include any premium payable in respect of the Notes, Final Redemption Amounts, Early Redemption Amounts, Optional Redemption Amounts, Amortised Nominal Amounts and all other amounts in the nature of principal payable pursuant to Condition 7 or any amendment or supplement to it, (ii) “**interest**” shall be deemed to include all Interest Amounts and all other amounts payable pursuant to Condition 6 or any amendment or supplement to it and (iii) “**principal**” and/or “**interest**” shall be deemed to include any additional amounts that may be payable under this Condition.

10 EVENTS OF DEFAULT

Any Noteholder may, upon written notice to the relevant Issuer and the Fiscal Agent given before all defaults shall have been cured, cause the principal amount of the Notes held by such Noteholder to become due and payable, together with accrued interest thereon, as of the date on which such notice for payment is received by the Fiscal Agent:

- (i) if the relevant Issuer defaults in any payment when due of principal or interest on any Note or the Guarantor defaults in any payment when due under the Guarantee (including the payment of any additional amounts provided for in Condition 9) and such default shall not have been cured within 15 calendar days; or
- (ii) if the relevant Issuer or the Guarantor defaults in the due performance of any other provision of the Notes or the Guarantee, as the case may be, and such default shall not have been cured within 30 calendar days after receipt by the Fiscal Agent of written notice of default given by the Representative upon request of the Noteholder; or
- (iii) (a) if any other present or future indebtedness of the relevant Issuer or the Guarantor for or in respect of monies borrowed in excess of Euro 150,000,000 (or its equivalent in any other currency as of the date on which such indebtedness becomes due and payable), whether individually or collectively, becomes due and payable prior to its stated maturity as a result of a default thereunder, or (b) any such indebtedness shall not be paid when due and payable or, as the case may be, within any originally applicable grace period thereof or (c) any guarantee or indemnity in excess of such aforesaid amount given by the relevant Issuer or the Guarantor for, or in respect of, any such indebtedness of others shall not be honoured when due and called upon, or, as the case may be, within 15 calendar days of any originally applicable grace period; or
- (iv) if the relevant Issuer or the Guarantor makes any proposal for a general moratorium in relation to its debt or a judgement is issued for the judicial liquidation (*liquidation judiciaire*) or for a judicial transfer of the whole of the business (*cession totale de l'entreprise*) of L'Air Liquide or, to the extent permitted by applicable law, if the relevant Issuer or the Guarantor is subject to any other insolvency or

bankruptcy proceedings or if the relevant Issuer or the Guarantor makes any conveyance, assignment or other arrangement for the benefit of its creditors or enters into a composition (*accord amiable*) with its creditors or if L'Air Liquide is wound up or dissolved; or

- (v) the Guarantee is not (or is claimed by the Guarantor not to be) in full force and effect.

11 PRESCRIPTION

Claims against the relevant Issuer for payment in respect of the Notes and Coupons (which for this purpose shall not include Talons) shall be prescribed and become void unless made within 10 years (in the case of principal) or five years (in the case of interest) from the appropriate Relevant Date in respect of them.

12 MEETING AND VOTING PROVISIONS

(a) Interpretation

In this Condition:

- (i) references to a “**General Meeting**” are to a general meeting of Noteholders of all Tranches of a single Series of Notes convened to deliberate and vote on one or more proposed Resolutions and include, unless the context otherwise requires, any adjourned meeting thereof;
- (ii) references to “**Notes**” and “**Noteholders**” are only to the Notes of the Series in respect of which a General Meeting has been, or is to be, called, or to the Notes of the Series in respect of which a Written Consent has been, or is to be sought, and to the holders of those Notes, respectively;
- (iii) “**outstanding**” has the meaning ascribed to it in Condition 5 above, save that it shall not include those Notes purchased by the relevant Issuer in accordance with Article L.213-0-1 of the French *Code monétaire et financier* that are held by it and not cancelled;
- (iv) references to a “**Written Consent**” are to a consultation by the relevant Issuer of Noteholders of all Tranches of a single Series of Notes seeking approval on one or more proposed Resolutions, the approval or rejection of which may be either expressed in writing by the relevant Noteholders (contained in one document or in several documents in like form, each signed by or on behalf of one or more of the Noteholders) or by way of electronic communication allowing the identification of Noteholders.

(b) General

(i) No Masse

Pursuant to Article L.213-6-3 I of the French *Code monétaire et financier*, the Noteholders shall not be grouped in a *masse* having separate legal personality and acting in part through a representative of the noteholders (*représentant de la masse*) and in part through general meetings.

(ii) Resolutions passed at a General Meeting or by a Written Consent

In accordance with the provisions of Article L.228-46-1 of the French *Code de commerce*, a resolution (the “**Resolution**”) may be passed (x) at a General Meeting in accordance with the quorum, majority and voting rules described in paragraph (c)(ii) below or (y) by a Written Consent in accordance with the quorum, majority and consent rules described in paragraph (d)(ii) below.

A Resolution may be passed with respect to any matter that relates to the common rights (*intérêts communs*) of the Noteholders.

A Resolution may further be passed on any proposal relating to the modification of the Conditions including, but not limited to, any proposal, whether for a compromise or settlement, regarding rights which are the subject of litigation or in respect of which a judicial decision has been rendered, and relating to the deferral of any interest payment and the modification of the amortization or interest rate provisions, it being specified, however, that the General Meeting may not increase the liabilities (*charges*) of the Noteholders, nor establish any unequal treatment between the Noteholders.

For the avoidance of doubt, the Noteholders have no power to decide on (a) any modification of the corporate purpose or form of the relevant Issuer, (b) the potential merger (*fusion*) or demerger (*scission*) including partial transfers of assets (*apports partiels d'actif*) of or by the relevant Issuer; (c) if the relevant Issuer is or become a European Company (*Societas Europaea* or SE), the transfer of the registered office of the relevant Issuer to a different Member State of the EU and (d) the decrease of the

share capital of the relevant Issuer for reasons other than to compensate losses suffered by the relevant Issuer.

However, each Noteholder is a creditor of the relevant Issuer and as such enjoys, pursuant to Article L.213-6-3 IV of the French *Code monétaire et financier*, all rights and prerogatives of individual creditors, notably in the circumstances described under (b) to (d) above, including any right to object (*former opposition*).

Pursuant to Article L.213-6-3 IV of the French *Code monétaire et financier*, the Noteholders may appoint a nominee to file a proof of claim in the name of all Noteholders in the event of judicial reorganisation procedure or judicial liquidation of the relevant Issuer. Any proof of claim in the name of the Noteholders will be made in accordance with the applicable provisions of the French *Code de commerce*.

Each Noteholder is entitled to bring a legal action against the relevant Issuer for the defence of its own interests; such a legal action does not require the authorisation of the General Meeting.

(iii) **Commercial Code – applicable provisions**

The following provisions of the French *Code de commerce* shall apply to General Meetings and Written Consents: Articles L.228-46-1, L.228-59, L.228-60, L.228-60-1, L.228-61, L.228-66, L.228-67, L.228-68, L.228-76, L.228-88, R.228-1 to R.228-11, R.228-66, R.228-68, R.228-70, R.228-71, R.228-73 to R.228-75 and R.228-77 of the French *Code de commerce*, it being specified that whenever the words “*masse*” or “*représentant de la masse*” appear in those provisions, they shall be deemed to be deleted, and subject to the following provisions of this Condition 12.

(c) **Specific provisions for General Meetings**

(i) **Convening a General Meeting**

A General Meeting may be held at any time, on convocation by the board of directors (*conseil d'administration*) or legal representative (*représentant légal*) of the relevant Issuer or by a liquidator during the period of liquidation, as the case may be. One or more Noteholders, holding together at least one-thirtieth of the principal amount of the Notes outstanding, may address, by registered letter with recorded delivery, to the relevant Issuer a demand for convocation of the General Meeting comprising the agenda for such General Meeting. If such General Meeting has not been convened within two (2) months after such demand, the Noteholders may commission one Noteholder to petition a competent court in Paris to appoint an agent (*mandataire*) who will call the General Meeting.

Notice of the date, hour, place and agenda of any General Meeting will be published as provided under Condition 15 not less than fifteen (15) calendar days prior to the date of such General Meeting on first convocation nor less than five (5) calendar days on second convocation. Each Noteholder has the right to participate in a General Meeting in person, by proxy, by correspondence or by videoconference or by any other means of telecommunication allowing the identification of participating Noteholders, in accordance with the applicable provisions of the French *Code de commerce* in respect of the Dematerialised Notes, or as provided in the convening notice in respect of the Materialised Notes.

(ii) **Quorum, Majority and Voting**

General Meetings may deliberate validly on first convocation only if Noteholders present or represented hold at least one fifth of the principal amount of the Notes then outstanding. On second convocation, no quorum shall be required. Decisions at meetings shall be taken by a simple majority of votes cast by Noteholders attending (including by videoconference) such General Meetings or represented thereat.

In accordance with Article R.228-71 of the French *Code de commerce*, the right of each Noteholder to participate in General Meetings will be evidenced by the entries in the books of the relevant account holder of the name of such Noteholder as of 0:00, Paris time, on the second (2nd) business day in Paris preceding the date set for the relevant General Meeting.

(iii) **Chairman (*Président*)**

The Noteholders present at a General Meeting shall appoint one of them to act as chairman (*président*) (the “**Chairman**”) by a simple majority of votes cast by Noteholders attending (including by videoconference) such General Meeting or

represented thereat (notwithstanding the absence of a quorum at the time of such vote). If the Noteholders fail to designate a Chairman, the Noteholder present at such meeting holding or representing the highest principal amount of Notes shall be appointed Chairman, failing which the relevant Issuer may appoint a Chairman. The Chairman appointed by the relevant Issuer does not need to be a Noteholder. The Chairman of an adjourned meeting need not be the same person as the Chairman of the original meeting from which the adjournment took place.

(d) **Specific provisions for Written Consents**

(i) **Request for consent to Noteholders**

Pursuant to Article L.228-46-1 of the French *Code de commerce*, in respect of any Series of Dematerialised Notes only, the relevant Issuer shall be entitled, in lieu of convening a General Meeting, to seek approval of a Resolution from the Noteholders by way of a Written Consent.

Notice seeking the approval of a Resolution by way of a Written Consent (a “**Written Consent Notice**”) will be published as provided under Condition 15 not less than fifteen (15) calendar days prior to the date fixed for the passing of such Written Consent (the “**Written Consent Date**”) and will contain the conditions of form and time-limits to be complied with by the Noteholders who wish to express their approval or rejection of the proposed Resolution.

(ii) **Quorum, Majority and Voting**

A Resolution will be passed by way of a Written Consent if (i) Noteholders holding at least one fifth of the principal amount of the Notes then outstanding validly notify the relevant Issuer of their approval or rejection of the proposed Resolution in accordance with the terms set forth in this Conditions 12 and in the Written Consent Notice and (ii) the proposed Resolution is approved by or on behalf of at least two thirds of Noteholders expressing their approval or rejection of such proposed Resolution.

Unless otherwise specified in the Written Consent Notice, the right of each Noteholder to participate to a Written Consent shall be evidenced by the entries in the books of the relevant account holder of the name of such Noteholder on the day on which it expresses its acceptance or rejection of the proposed Resolution, it being specified that Noteholders expressing their approval or rejection of a proposed Resolution will undertake not to dispose of their Notes until after the Written Consent Date and as further specified in the Written Consent Notice.

(e) **Common provisions**

(i) **Voting rights**

Each Note carries the right to one vote or, in the case of Notes issued with more than one Specified Denomination, one vote in respect of each multiple of the lowest Specified Denomination comprised in the principal amount of the Specified Denomination of such Note.

(ii) **Effect of Resolutions**

A Resolution passed at a General Meeting or by way of a Written Consent shall be binding on all Noteholders, whether or not present at the General Meeting and whether or not, in the case of a Written Consent, they have participated in such Written Consent and each of them shall be bound to give effect to the Resolution accordingly.

(iii) **Information to Noteholders**

Each Noteholder will have the right, (x) in the case of a General Meeting, during (i) the 15-calendar-day period preceding the holding of each General Meeting on first convocation or (ii) the 5-calendar-day period preceding the holding of a General Meeting on second convocation, or (y) in the case of a Written Consent, during the 15-calendar-day period preceding the Written Consent Date, to consult or make a copy of the text of the Resolutions which will be proposed and of the reports which will be prepared in connection with such Resolutions.

Each Noteholder will also have the right, at any time, to consult or make a copy of the text of the minutes or attendance sheets of the General Meetings.

The above-mentioned documents will be available for inspection by the relevant Noteholders at the registered office of the relevant Issuer, at the specified offices of any

of the Paying Agents and at any other place specified in the notice of General Meeting or Written Consent Notice.

Resolutions once passed will be published in accordance with the provisions of Condition 15.

(iv) **Expenses**

The relevant Issuer will pay all expenses relating to the calling and holding of General Meetings and seeking of a Written Consent and, more generally, all administrative expenses resolved upon by the General Meeting or by Written Consent, it being expressly stipulated that no expenses may be imputed against interest payable under the Notes.

(v) **Benchmark Discontinuation**

By subscribing the Notes and solely in the context of a Benchmark Event which leads to the application of a Benchmark Amendment, each Noteholder shall be deemed to have agreed and approved any Benchmark Amendments or such other necessary changes pursuant to Condition 6(c)(iii)(C)(d).

13 REPLACEMENT OF DEFINITIVE NOTES, COUPONS AND TALONS

If, in the case of any Materialised Bearer Notes, a Definitive Materialised Bearer Note, Coupon or Talon is lost, stolen, mutilated, defaced or destroyed, it may be replaced, subject to applicable laws, regulations and stock exchange regulations, at the specified office of the Fiscal Agent or such other Paying Agent as may from time to time be designated by the relevant Issuer for the purpose and notice of whose designation is given to Noteholders, in each case on payment by the claimant of the fees and costs incurred in connection therewith and on such terms as to evidence, security and indemnity (which may provide, *inter alia*, that if the allegedly lost, stolen or destroyed Definitive Materialised Bearer Note, Coupon or Talon is subsequently presented for payment or, as the case may be, for exchange for further Coupons, there shall be paid to the Issuer on demand the amount payable by the relevant Issuer in respect of such Definitive Materialised Bearer Notes, Coupons or further Coupons) and otherwise as the relevant Issuer may require. Mutilated or defaced Materialised Bearer Notes, Coupons or Talons must be surrendered before replacements will be issued.

14 FURTHER ISSUES AND CONSOLIDATION

- (a) **Further Issues:** The relevant Issuer may, without the consent of the Noteholders or Couponholders create and issue further Notes to be assimilated (*assimilées*) with the Notes provided such Notes and the further Notes carry rights identical in all respects (or in all respects save for the principal amount thereof and the first payment of interest specified in the relevant Final Terms) and that the terms of such Notes provide for such assimilation and references in these Conditions to “Notes” shall be construed accordingly.
- (b) **Consolidation:** The relevant Issuer, with the prior approval of the Consolidation Agent, may from time to time on any Interest Payment Date occurring on or after the Redenomination Date on giving not less than 30 calendar days’ prior notice to the Noteholders in accordance with Condition 15, without the consent of the Noteholders or Couponholders, consolidate the Notes of one Series with the Notes of one or more other Series issued by it, whether or not originally issued in one of the European national currencies or in euro, provided such other Notes have been redenominated in euro (if not originally denominated in euro) and which otherwise have, in respect of all periods subsequent to such consolidation, the same terms and conditions as the Notes.

15 NOTICES

- (a) Notices to the holders of Materialised Bearer Notes and Dematerialised Notes shall be valid if published, at the option of the relevant Issuer:

TEMPORARY GLOBAL CERTIFICATES ISSUED IN RESPECT OF MATERIALIZED BEARER NOTES

1. TEMPORARY GLOBAL CERTIFICATE

A Temporary Global Certificate, without interest Coupons attached, will initially be issued in connection with Materialised Bearer Notes. Upon the initial deposit of such Temporary Global Certificate with a common depository for Euroclear and Clearstream (the “**Common Depository**”), Euroclear or Clearstream will credit the account of each subscriber with a nominal amount of Notes equal to the nominal amount thereof for which it has subscribed and paid.

The Common Depository may also (if indicated in the relevant Final Terms) credit with a nominal amount of Notes the accounts of subscribers with other clearing systems through direct or indirect accounts with Euroclear and Clearstream held by such other clearing systems. Conversely, a nominal amount of Notes that is initially deposited with any clearing system other than Euroclear or Clearstream may similarly be credited to the accounts of subscribers with Euroclear or Clearstream.

2. EXCHANGE

Each Temporary Global Certificate issued in respect of Notes will be exchangeable, free of charge to the holder, on or after its Exchange Date (as defined below):

- (i) if the relevant Final Terms indicate that such Temporary Global Certificate is issued in compliance with the C Rules or in a transaction to which TEFRA is not applicable, in whole, but not in part, for Definitive Materialised Bearer Notes; and
- (ii) otherwise, in whole but not in part, for Definitive Materialised Bearer Notes upon certification in the form set out in the Amended and Restated Agency Agreement as to non-US beneficial ownership.

A Noteholder must exchange its share of the Temporary Global Certificate for Materialised Bearer Notes before interest or any amount payable in respect of the Notes will be paid.

In this Debt Issuance Programme Prospectus, “**Exchange Date**” means, in relation to a Temporary Global Certificate, the day next succeeding the day that is 40 calendar days after its issue date, provided that, in the event any further Materialised Notes are issued prior to such day pursuant to Condition 14, the Exchange Date for such Temporary Global Certificate shall be postponed to the day falling after the expiry of 40 calendar days after the issue of such further Materialised Notes.

3. DELIVERY OF DEFINITIVE MATERIALIZED BEARER NOTES

On or after its Exchange Date, the holder of the Temporary Global Certificate must surrender such Temporary Global Certificate to or to the order of the Fiscal Agent. RECENT DEVELOPMENTS OF L'AIR LIQUIDE

- On 14 January 2022, L'Air Liquide published the following press release:

“Air Liquide recognized by the CDP as one of the best-performing companies in the fight against climate change

Air Liquide has been awarded by the CDP, formerly the Carbon Disclosure Project, a non-profit organization that evaluates companies on their environmental action, an “A-” rating in both categories of climate change and water management. This recognizes the “Leadership level” of the Group’s commitment to the environment, including some of the most ambitious sustainability objectives in its sector.

As a leader in environmental stewardship, Air Liquide is implementing actions and policies aligned with its sustainability objectives announced March 23, 2021. On that date, the Group unveiled an ambitious goal of reaching carbon neutrality by 2050, with two intermediary milestones in 2025 and 2035. It is committed to start reducing its absolute CO₂ emissions around 2025 and to reach a 33% decrease of its scope 1 & 2 CO₂ emissions by 2035 vs. a 2020 baseline. The Group’s global approach combines action on its own assets, for its customers and in developing low-carbon ecosystems.

This is fully embedded in Air Liquide's strategy and in the Group’s investment decisions. Most notable is Air Liquide’s development in hydrogen energy and biomethane markets, and its leadership in innovation of sustainable solutions. In particular, the Group is committed to at least triple its turnover in hydrogen in order to reach more than 6 billion euros by 2035. It will reach that goal by investing approximately 8 billion euros in the low-carbon hydrogen supply chain and by contributing to the development of a low-carbon hydrogen ecosystem for the industry and clean mobility.

Air Liquide’s leadership in environmental action is captured within its 2021 CDP rating. This yearly process of extra-financial rating and disclosure of data through the CDP is recognized as a reference in terms of corporate environmental transparency. The CDP requests information on environmental impacts from the world’s largest companies on behalf of over 590 institutional investor signatories with a combined US\$110 trillion in assets and 200+ major purchasers with over US\$5.5 trillion in procurement spend. Air Liquide’s responses to the 2021 CDP questionnaire are freely available on the CDP website.

Fabienne Lecorvaisier, Executive Vice President, in charge of Sustainable Development, Public and International Affairs as well as the supervision of the Social Programs and the General Secretariat, said:

“Air Liquide is proud to be recognized among the companies leading the way in the fight against climate change by a worldwide reference such as the CDP. Our approach to contribute to the emergence of a sustainable society is global. Air Liquide has developed a wide array of innovative solutions that can contribute to reducing its own environmental footprint but also that of its clients and of society at large.”

- On 20 January 2022, L'Air Liquide published the following press release:

“Air Liquide to increase its presence in India with a new Air Separation Unit in the State of Uttar Pradesh

Air Liquide will invest around 350 Crores Rupees (40 million euros) in a new Air Separation Unit (ASU) dedicated to Industrial Merchant activities in Kosi, in the state of Uttar Pradesh, Northern India. This unit will have a production capacity of 350 tonnes per day, with a maximum of 300 tonnes of oxygen. Air Liquide India will build, own and operate this ASU, which is planned to start operating by the end of 2023.

The new plant will support small-and-medium sized customers of liquid and packaged gases in Northern India. It will allow Air Liquide to meet the growing demand of the automotive, metal fabrication, heat treatment, photovoltaic, and electronics industries, as well as local hospitals requiring high-purity medical gases. When commissioned, Air Liquide’s site in Kosi, where the unit will be located, will become the largest liquid gases plant in the State of Uttar Pradesh.

In line with Air Liquide’s Sustainability Objectives, which include reaching carbon neutrality by 2050, this plant has been designed to contribute to a successful energy transition by India. The new unit is indeed planned to fully operate on renewable energy by 2030.

The new ASU will contribute to Air Liquide’s expansion strategy in India, where the Group has been present for more than 30 years. It already owns and operates 4 ASUs in North & West of India and will finalize in 2022 the construction of a 5th ASU in Nagpur (West India). Air Liquide is committed to continue investing in coming years to accompany the development of India and its growing demand for sustainable solutions.

Pascal Vinet, Senior Vice President and a member of the Air Liquide Group's Executive Committee supervising Europe Industries activities and Africa / Middle East /India hubs, said:

“The construction of a new plant in Uttar Pradesh is a very important milestone for Air Liquide in India. This new significant investment will give us the ability to better serve our customers, while also investing in the long-term growth opportunities of this key State. It also shows our confidence in the sustained growth of the Indian industry. This investment is in line with Air Liquide's Sustainable Objectives as this ASU is meant to ultimately solely run on renewable energy.”

- On 3 February 2022, L'Air Liquide published the following press release:

“Air Liquide to build in the USA its largest biomethane production unit in the world

Air Liquide continues its development of biomethane activities with the construction in the USA of its largest biomethane production unit in the world. This will bring the worldwide biomethane production capacity of the Group to 1.8 TWh. The new production unit in the State of Illinois will allow Air Liquide to keep providing low-carbon solutions to its customers in the industrial and transportation sectors and to accompany them in the reduction of their emissions.

Located in Rockford, Illinois, the new production unit will produce biomethane from biogas from a solid waste treatment plant, owned and operated by Waste Connections Inc. It will have a production capacity of 380 GWh per year, which represents the largest production capacity per plant for the Group. It will be operational by the end of 2023. Another biomethane production unit from another landfill is also being built in Delavan, Wisconsin, and will be operational at the beginning of Q2 2022. Thanks to these two new units, Air Liquide is becoming a significant biomethane production player in the U.S. to accompany its customers from the industrial and transportation sectors in the USA and in Canada.

Air Liquide has developed competencies throughout the whole biomethane value chain, from biogas production from waste, to its purification into biomethane, liquefaction, storage, and transportation to distribution. For these two projects, Air Liquide will use, in addition to its own membrane technology, a complementary technology developed by Waga Energy, a company specialized in the valorization of biogas from landfill sites, founded in 2015 and supported by ALIAD, the Group's capital venture fund.

Globally, Air Liquide now has 21 biomethane operational production units in the world for a yearly production capacity of about 1.4 TWh. After the commissioning of the two new Rockford and Delavan plants, the Group's biomethane production capacity will reach 1.8 TWh per year.

Émilie Mouren-Renouard, Member of the Air Liquide Executive Committee, in charge of Innovation, Digital and IT, Intellectual Property and Global Markets & Technologies World Business Unit, said:

“Biomethane, like hydrogen and CO₂ capture technologies, has a prominent place in the portfolio of solutions developed by Air Liquide to fight global warming and preserve the environment. The announcement of the construction of our largest biomethane production unit in the world illustrates Air Liquide's determination to accompany its customers in the industrial and transportation sectors throughout the energy transition, but also to actively contribute to the emergence of a low-carbon society.”

- On 9 February 2022, L'Air Liquide published the following press release:

“Air Liquide, Airbus, Incheon Airport and Korean Air partner to prepare the use of hydrogen in the decarbonization of the aviation sector in Korea

Air Liquide, Airbus, Korean Air and Incheon International Airport Corporation signed a Memorandum of Understanding to explore the use of hydrogen at Incheon International Airport. More globally, the collaboration will also study the development of a Korean airport infrastructure to support the deployment of hydrogen-powered commercial aircrafts. This partnership reflects a shared ambition to drive the emergence of an innovative aviation sector dedicated to supporting the Korean government's goal of carbon neutrality by 2050.

In the framework of the MoU, the four partners will prepare a roadmap to first develop hydrogen usages at and around Incheon Airport, and build scenarios to support the deployment of hydrogen ecosystems connected to other Korean airports. As a second step, the partnership focuses on carrying out studies aimed at defining and developing the required liquid infrastructure at Incheon Airport to prepare the arrival of the first hydrogen-powered aircraft.

Each partner will leverage their complementary expertise to help define the potential opportunities that hydrogen offers, and support the decarbonization of the aviation industry. Air Liquide will bring its extensive expertise in mastering the entire hydrogen value chain (production, liquefaction, storage and distribution), in particular liquid hydrogen supply. Airbus will provide characteristics of hydrogen-powered aircraft ground operations as well as aircraft characteristics and fleet energy usage, while Korean Air will provide expertise

on ground aircraft operations and aviation management and operations. Finally, Incheon International Airport Corporation will provide an airport development plan outlook, along with air traffic characteristics and distribution among terminals, starting with Incheon International Airport, one of the largest and busiest airports in the world.

Air Liquide, a pioneer and a leader in hydrogen solutions will leverage its strong local footprint to accelerate the deployment of hydrogen solutions in South Korea. At Incheon Airport, the Group has already invested in two high-capacity hydrogen stations that started up in August 2021, serving hydrogen fuel cell buses, cars and demonstration trucks, and is supplying hydrogen molecules to the stations under a long-term contract.

Francois Abrial, member of the Air Liquide Group's Executive Committee supervising Asia-Pacific, said:

“Momentum is building around hydrogen, notably with initiatives to accelerate the development of a more sustainable aviation. South Korea is one of the most active countries in the world for hydrogen activities and we are pleased to participate with our partners in the development of the country's hydrogen economy. By starting to introduce hydrogen now through mobility projects, and with the ambition of developing liquid hydrogen infrastructures for airports in the future, we are contributing to building a more sustainable future.”

- On 8 March 2022, L'Air Liquide published the following press release:

“Air Liquide receives support from French State to its 200 MW electrolyzer project in Normandy and accelerates the development of the hydrogen sector in Europe

Air Liquide receives support from the French State, subject to a final validation by the European Commission, to launch its Air Liquide Normand'Hy large scale renewable hydrogen production project. This electrolyzer of an initial 200 MW capacity, which should notably provide renewable hydrogen to TotalEnergies' Normandy refinery, will use Siemens Energy technology. This project will significantly contribute to the creation of a French and European low-carbon hydrogen sector and to the decarbonisation of the Normandy industrial basin. It will also contribute to the development of heavy duty hydrogen mobility in this important industrial area.

The Air Liquide large-scale renewable hydrogen production by electrolysis project has applied to the Hydrogen Important Project of Common European Interest (IPCEI Hydrogen) program, with a requested financial support of 190 million euros. Air Liquide welcomes the French State's will to support the project by reserving the necessary budget for its realization, subject to the conclusion of the investigation by the European Commission.

This electrolyzer project, named [Air Liquide Normand'Hy](#), of a capacity of 200 MW in a first phase, will be located in Port-Jérôme, Normandy. It will be one of the first electrolyzers of this size in operation in the world, to decarbonize industry and mobility. It is planned to be commissioned in 2025. It will use Siemens Energy's Proton Exchange Membrane (PEM) technology, and will be built in the framework of the partnership announced between Air Liquide and Siemens Energy in [February 2021](#). Air Liquide and Siemens Energy thus contribute to the rise of a European renewable hydrogen sector, with strong Franco-German roots.

Air Liquide is at the heart of a European renewable hydrogen production ecosystem, combining technology, renewable energy and applications. Air Liquide has signed a Memorandum of Understanding with TotalEnergies aiming at the signing of a long term renewable Power Purchase Agreement (PPA) for part of the needs of the Air Liquide Normand'Hy electrolyzer. By implementing this electrolyzer technology for the first time at this scale, the Air Liquide Normand'Hy project will be in a position to provide renewable hydrogen to the industrial companies of the Normandy basin and to contribute to the development of low-carbon heavy duty mobility on the Axe Seine.

The supply of renewable hydrogen will contribute to the decarbonization of the refinery industry in this important French industrial basin, in accordance with the RED2 regulation. Air Liquide has signed a Memorandum of Understanding with TotalEnergies for the use of renewable hydrogen on its Gonfreville refinery. This refinery is connected to the local Air Liquide hydrogen network to which the new electrolyzer will also be connected.

Air Liquide Normand'Hy is part of a wider project to decarbonize the Normandy industrial basin. Air Liquide, Borealis, Esso S.A.F., TotalEnergies and Yara International have signed a Memorandum of Understanding [in July 2021](#) aiming at developing a CO₂ capture and storage infrastructure in Normandy with the objective to reduce CO₂ emissions by up to 3 million tonnes per year by 2030.

Benoît Potier, Chairman and Chief Executive Officer of the Air Liquide group, stated:

“I welcome the French State's commitment to Air Liquide Normand'Hy. This support will allow the realization of a major and innovative large-scale renewable hydrogen production project. It will also contribute to the creation of a competitive European hydrogen sector, which we want to spearhead with our partner Siemens Energy.

Air Liquide Normand'Hy is at the heart of a vast ecosystem whose ambition is to decarbonize the Normandy industrial basin, notably by giving access to a low-carbon hydrogen network to major industrial companies such as TotalEnergies, but also by contributing to the development of low-carbon heavy duty mobility on the Axe Seine. The creation of that ecosystem with our partners demonstrates the will and the capacity of industrial companies to bring concrete solutions to the fight against global warming. This is in line with our Sustainable Development strategy, which aims not only at reducing our emissions but also at providing a range of solutions to decarbonize the industry.”

- On 21 March 2022, L’Air Liquide published the following press release:

“Air Liquide and Eni to cooperate for the decarbonization of hard-to-abate industries in Europe

Air Liquide and Eni have entered into a collaboration agreement aimed at assessing decarbonization solutions in the Mediterranean region of Europe, focused on hard-to-abate industrial sectors. The two companies join forces combining their well-established expertise and know-how to enable CO2 capture, aggregation, transport and permanent storage.

Carbon Capture and Sequestration (CCS) represents one of the fundamental tools in the decarbonization process, especially for the most carbon-intensive industrial sectors, and will play a key role in achieving the important emission reduction targets set at European level as part of the Green Deal.

Within the framework of the agreement, Air Liquide and Eni will collaborate to identify clusters of hard-to-abate industries in this geographic area and will define the best possible configuration to develop a large-scale CCS program.

In particular, Air Liquide will develop competitive CO2 abatement solutions, leveraging on its ongoing CCS initiatives in Northern Europe and on its innovative proprietary technology Cryocap™ able to capture up to 95% of CO2 emissions from industrial facilities. Eni, leveraging on its experience in gas fields exploitation and management, will identify the most suitable permanent CO2 storage locations in the Mediterranean sea.

Pascal Vinet, Senior Vice President, a member of Air Liquide Executive Committee, supervising Europe Industries, said:

“ We are pleased to cooperate with Eni in this important decarbonization initiative and leverage our expertise in CO2 management to concretely contribute to the reduction of industrial carbon emissions in Europe. Supporting the decarbonization of the Industry is one of the strategic pillars of Air Liquide, which is committed to addressing the urgency of climate change and reach carbon neutrality by 2050.”

Luigi Ciarrocchi, Eni’s Director, CCUS, Forestry and Agro-Feedstock, said:

“The goal of achieving carbon neutrality by 2050 is a pillar of Eni’s strategy. CCS is pivotal in the decarbonisation process, in particular for the most energy and carbon-intensive industrial sectors. By contributing to reduce emissions from hard to abate sectors, we aim to promote a process of environmental and at the same time economic and social sustainability, supporting the continuity of industrial activities, such as, but not limited to, cement and steel, that are central to Italy’s economy.”

- On 22 March 2022, L’Air Liquide published the following press release:

“Air Liquide presents ADVANCE: its new strategic plan for 2025 combining financial and extra-financial performance

Air Liquide presents ADVANCE, its new strategic plan for 2025. It places Sustainable Development at the heart of its strategy and combines financial and extra-financial performance. With a strong business model which has proven its resilience, with its innovation capacity and its technological knowhow, the Group is particularly well positioned to continue its growth trajectory while contributing to respond efficiently to major economic, environmental and societal challenges.

Benoît Potier, Chairman and Chief Executive Officer of the Air Liquide group, stated:

“In a world transformed by the covid epidemic, and marked by a geopolitical crisis whose dimension of humanitarian disaster is overwhelming, we have to act today but also keep preparing the future. With ADVANCE, financial performance as well as environmental and societal performances are combined in our objectives. For Air Liquide, building the future means delivering strong financial results, as it is a condition to our durability and our ability to invest for the future ; but it also means to act as a leader in decarbonization of the industry, to promote progress through technological innovation and to act for all. With ADVANCE, Air Liquide is opening a new chapter of its history by linking inseparably growth and sustainable future.”

To achieve a comprehensive performance, ADVANCE is structured around four priorities:

1 - To deliver a strong financial performance

With ADVANCE, Air Liquide is taking action today while preparing the future. It is rising up to an ambitious challenge : maintain its growth momentum while pursuing its CO₂ emission reduction targets and investing in the markets of the future.

Three objectives define our ambition when it comes to performance:

- An acceleration in sales growth reaching a pace of 5 to 6% on average per year¹.
- A return on capital employed (ROCE) of more than >10 % starting from 2023.
- A reduction of our CO₂ emissions in absolute terms starting around 2025.

To achieve this, we will rely on the optimization of our capital resources and on the improvement of our operating margin. The latter will improve by more than +160 bps over 4 years (2022-2025)², by acting on several levers: a dynamic pricing policy, regular efficiencies and an active management of our portfolio of activities.

At the same time, investment decisions will be increased to a record level, to reach about 16 billion euros over the 2022-2025 period, half of the industrial investments being dedicated to the energy transition³. On average, the annual amount of industrial decisions increases by + 45 %⁴.

2 - To decarbonize the planet

With ADVANCE, Air Liquide confirms its leadership in the decarbonization of the industry and in the emergence of a low-carbon society in which hydrogen plays a decisive part.

The reduction of CO₂ emissions is a major challenge for the large players of the industry and for heavy duty mobility. This represents a pool of opportunities for Air Liquide. To address this huge market and to accompany its Large Industry customers in their path to decarbonization, the Group has a large portfolio of technological solutions and services. It notably includes the supply of low-carbon gases, CO₂ capture and management, as well as solutions to transform our customers' industrial processes. The Group is committed to decarbonizing its own assets - with the objective to start reducing its CO₂ emissions in absolute terms around 2025. Within the context of its Sustainable Development objectives, Air Liquide aims to reduce by a third its emissions by 2035 and to reach carbon neutrality by 2050 while supporting its customers in their decarbonization process.

3 - Technological innovation to open new markets

With ADVANCE, Air Liquide aims to contribute to the development of key sectors for the future, where it intends to reinforce its positions, leveraging on innovation and technology, two major assets of the Group.

The Group will focus on 5 new markets :

- hydrogen mobility, and notably heavy duty mobility: a very high potential market, where we have a leading position and in which low-carbon hydrogen will play a key role,
- electronics, where the digital revolution represents a real development opportunity and will strengthen our leadership position,
- healthcare, in which our value-based approach, which improves quality of life for the patient at the best cost for the health system, responds to major societal issues,
- Industrial Merchant whose growth is driven by environmental challenges and by new usages, notably digital.
- and high technologies, including space, deep cryogenics and the quantum industry.

4 - Acting for all

In the context of ADVANCE, Air Liquide aims to include the perspective of its direct stakeholders, as well as those of Society at large.

Concretely, this means:

- fostering employee engagement and the development of their skills through the implementation of new ways of working in a safe, inclusive and collaborative environment,

¹ Compound Annual Growth Rate (CAGR) of sales on a comparable basis over the 2021-2025 period.

² Sum of annual operating margin improvements in basis points, excluding energy passthrough impact.

³ Industrial investment decisions above 5 million euros.

⁴ Annual average of industrial investments over the 2022-2025 period compared to the annual average over 2016-2019.

- reinforcing our customer centric culture, to better acknowledge, anticipate and support their needs, and by continuing the profound transformation already underway to better serve our patients,
- always going further in the quality of the privileged relationship we nurture with our Shareholders, with a regular and attractive remuneration that rewards loyalty.
- acting as a committed corporate citizen concerned with the general interest, where the Group's contribution can make a difference, in particular by taking action in communities, or for example by developing initiatives to promote access to medical oxygen.

- On 1 April 2022, L’Air Liquide published the following press release:

“Air Liquide and EQIOM project in Northern France selected by the European Innovation Fund

Air Liquide and EQIOM are joining forces in a project named “K6” with the aim to transform EQIOM’s Lumbres plant into one of the first carbon-neutral cement plants in Europe. Through the implementation of innovative technologies, the project aims to capture around 8 million tons of CO₂ over the first ten years of operation. The K6 project has been awarded funding by the European Commission through its 2021 Innovation Fund call as one of seven industrial-scale projects out of more than 300 grant applications.

As part of the K6 project, EQIOM will carry out a program of technological innovation and in-depth transformation of its existing cement production plant in Lumbres, France. The solution aims to implement a First-of-a-Kind oxyfuel-ready kiln, powered with a high level of alternative fuel. Air Liquide will support this initiative by supplying oxygen to EQIOM’s production process and by leveraging its proprietary technology Cryocap™ Oxy to capture and liquefy the CO₂ emissions.

Once purified and liquefied, the CO₂ captured at the Lumbres Plant would be transported via shipping to permanent storage sites currently under development below the North Sea or would be utilized in building materials. The implementation of this project in close proximity to the port of Dunkirk would also contribute to the development of a new carbon capture and storage (CCS) ecosystem in Europe. The K6 project is a key step for the development of the Dunkirk D’Artagnan PCI (Project of a Common Interest), which aims to create a multi-modal CO₂ export hub¹⁰ from Dunkirk industrial basin and its broader area.

The European Innovation Fund is one of the world’s largest programs for promoting innovative low-carbon technologies. Receiving this funding of 150 million euros is an essential milestone towards the implementation of the project. The K6 project is subject to additional funding, regulatory approvals and internal feasibility assessments prior to commencement.

Pascal Vinet, Senior Vice President, a member of Air Liquide Executive Committee, supervising Europe Industries, said:

“We are pleased that the K6 project has been selected for funding by the European Commission. Air Liquide’s proprietary Cryocap™ technology is particularly adapted to decarbonate activities such as the cement industry as it allows the capture of a high level of CO₂ emissions on industrial plants. Not only could this project transform the Lumbres plant into one of the first carbon-neutral cement plants in Europe, but it could also contribute to the creation of a new carbon capture and storage ecosystem in the Dunkirk industrial area. In line with its sustainability objectives, which include reaching carbon neutrality by 2050, Air Liquide’s ambition is to contribute actively to the emergence of a low-carbon industry.”

¹⁰ Liquefaction and logistics platform, the CO₂ would be transported by pipe and then loaded onto ships.

Roberto Huet, EQIOM CEO, said:

“Thanks to EU and French Government support, EQIOM is moving one step closer to achieving carbon neutrality. The K6 programme in Lumbres demonstrates our commitment to addressing the challenges of climate change and our contribution to the development of a more sustainable and resilient built environment. It will also contribute to the local economy and help to demonstrate France’s leadership in industrial innovation and emissions reduction.””

- On 5 April 2022, L’Air Liquide published the following press release:

“Air Liquide and Sogestran partner to develop shipping solutions for carbon management

Air Liquide and Sogestran have signed an agreement to form a joint venture¹¹. It will provide large-scale liquid CO₂ shipping and barging solutions tailored to the needs of future Carbon Capture and Storage (CCS) projects in Europe. This joint venture will strengthen Air Liquide’s offering on the carbon management value chain, including capture, aggregation, processing, and transport to permanent storage locations.

CCS represents one of the fundamental tools in the decarbonization process in particular for the most carbon-intensive industrial sectors. In this context, shipping will be essential to transport CO₂ from industrial plants with major CO₂ emissions, where carbon is captured, to sequestration sites, where it will be permanently stored.

Combining Air Liquide’s expertise in CO₂ with Sogestran’s experience in high value-added transportation of goods, the joint venture will transport CO₂ in its liquid form thanks to newly-designed shipping and barging solutions, invested and operated through this collaboration.

Emilie Mouren-Renouard, member of the Air Liquide Executive Committee, supervising Innovation and Development, said:

“We are pleased to partner with Sogestran to offer innovative solutions in the new market of large volume CO₂ transportation. This initiative complements our carbon management technologies to support our industrial customers in their decarbonization strategies and illustrates Air Liquide’s commitment to actively contribute to the emergence of a low carbon society.”

Pascal Girardet, Sogestran’s CEO, said:

“Air Liquide and Sogestran have built a strong relationship over the past years, working on reliable solutions for this emerging market, in line with our corporate strategy based on innovation. Our teams have worked hand-in-hand to design ships and barges able to safely and efficiently transport liquid CO₂. This joint venture will be in a great position to offer the market solutions that will make a significant positive impact on the environment.””

- On 7 April 2022, L’Air Liquide published the following press release:

“Air Liquide publishes its first Sustainable Development Report and takes stock of its 2021 action

Air Liquide releases the inaugural publication of its [Sustainability Report](#) which presents the Group’s sustainability ambitions and extra-financial results. It showcases its achievements in contributing to a low-carbon society, improving the quality of life in healthcare and engaging with employees, customers, suppliers and shareholders to nurture a safe, inclusive and collaborative environment.

As the first Air Liquide publication dedicated exclusively to the Group’s sustainability ambitions, the Sustainability Report outlines the commitments announced on [March 23, 2021](#) (ACT - Abatement, Care, Trust) and illustrates proof of its actions to create positive and sustainable impacts for climate, health and people. It also regroups key ESG indicators, in the report as well as in an easy-access downloadable data format.

Air Liquide has long been integrating sustainability in its strategy through its contributions to Environment, Social and Governance (ESG) actions and commitments across its organization. Unveiled on March 22, 2022, the Group’s new strategic plan for 2025, [ADVANCE](#), further integrates sustainability into its strategy by combining financial and extra-financial performance, positioning Air Liquide to continue its growth trajectory while contributing to a sustainable future.

The report provides an update of Air Liquide’s progress on its ESG objectives in 2021.

¹¹ The creation of the joint venture is subject to clearance by the relevant antitrust competition authorities and is expected to be completed by mid-2022

The Group reduced its carbon intensity by 24% versus 2015, and is on track to achieve its objective of 30% reduction by 2025 with various decarbonization initiatives across the organization. Despite the strong growth in activity, the Group's absolute CO₂ emissions increased less than 1% on a comparable basis versus past year. This is fully in line with the objective to start decreasing its absolute emissions by 2025, and achieve a 33% reduction by 2035¹² (vs. 2020) on the trajectory to reach carbon neutrality by 2050.

As a major global player in healthcare, the Group continued in its pivotal role in improving the quality of life of chronic patients at home in mature economies and by facilitating access to medical oxygen for rural communities in low and middle income countries, with more than 1 million people having benefited from easier access to oxygen at the end of 2021.

Through the Group's efforts as a trusted partner, it increased the percentage of women among its managers and professionals, achieving 31% in 2021 (vs. 21% in 2012). It is well on the way to reach its target of 35% by 2025. In addition, the Group launched new initiatives to bring a common basis of care coverage to 100% of its employees by 2025.

Fabienne Lecorvaisier, Executive Vice President and member of the Executive Committee, in charge of Sustainable Development, Public and International Affairs as well as the supervision of Societal Programs and General Secretariat, said:

"Through the publication of the Sustainability Report, the Group enhances its transparency to the market on the progress achieved towards our stated sustainability ambitions announced on March 23, 2021. Sustainability is firmly embedded in the Group's strategy as a concrete commitment and an enabler linking growth and sustainable development, to build a better future for us all. We know where we are today and where we want to go, and this clear understanding distinguishes Air Liquide as a leader in sustainability."

- On 12 April 2022, L'Air Liquide published the following press release:

"Air Liquide divested its Industrial Merchant business in UAE & Bahrain

Air Liquide announces the sale of its Industrial Merchant business in the United Arab Emirates and Bahrain to Air Products Group. This transaction includes Air Liquide Emirates for Industrial Gases LLC (ALEMIR) and Air Liquide's share in Middle East Carbon Dioxide W.L.L (MECD).

This divestment is immaterial with regards to the overall portfolio of Air Liquide in the Africa Middle East and India region. It is part of the Group's strategy to regularly review its asset portfolio and focus on selected fast developing areas and activities. As a consequence of this divestiture, the 97 employees are now integrated within the Air Products organization.

Air Liquide is well-positioned to further grow its already strong presence in the Gulf Cooperation Council (GCC) region in Large Industries and Healthcare businesses and pursue the many opportunities emerging with clean Hydrogen and Energy Transition."

- On 28 April 2022, L'Air Liquide published the following press release:

"Air Liquide announces new investment reinforcing its position in Egypt

Air Liquide and EZZ Steel, one of the leading steel producers in the Middle East and Africa, have signed a new long term agreement for the supply of industrial gases to EZZ's new plant in Ain Sokhna, East of Cairo, Egypt. Air Liquide Egypt will invest around 80 million dollars in building an Air Separation Unit (ASU) to supply EZZ needs throughout the duration of the contract, as well as other customer needs in the basin.

With an oxygen production capacity of 770 tons per day, this ASU will notably allow Air Liquide to support the development of the Ain Sokhna area as one of the country's major basins for heavy industries within the Suez Canal Economic Zone. Air Liquide will also expand its existing pipeline network in Ain Sokhna to connect the new plant with Air Liquide's 4 other Air Separation Units already in operation, increasing the reliability of supply.

In line with Air Liquide's Sustainability Objective of carbon neutrality by 2050, the project includes a CO₂ emissions reduction roadmap based on renewable power sourcing.

Pascal Vinet, Senior Vice President and a member of the Air Liquide Group Executive Committee supervising Europe Industries activities and Africa Middle East India, said:

"Air Liquide is pleased to collaborate with EZZ Steel, accompanying the growth of the Egyptian steel industry through the establishment of one of the largest industrial basins in Egypt. The investment in this ASU and

¹² Scope 1 and 2 CO₂ emissions

pipeline infrastructure will further enhance Air Liquide's network capabilities, allowing us to meet the growing industrial gas demands of our customers.”

- On 2 May 2022, L'Air Liquide published the following press release:

“Air Liquide and Lotte Chemical enter a strategic alliance for the hydrogen supply chain deployment in South Korea

Air Liquide Korea and Lotte Chemical entered a joint venture to scale-up the hydrogen supply chain for mobility markets in South Korea. The companies will co-invest through the joint venture in a new generation of large scale hydrogen filling centers in Daesan and Ulsan. They also expect multiple synergies and envision the development of several opportunities to foster the rise of the hydrogen economy in Korea.

Air Liquide joins forces with Lotte, one of the largest groups in South Korea, to co-invest in a new generation of large scale hydrogen filling centers in South Korea. The first two units will be strategically located in the industrial basins of Daesan and Ulsan to serve the densely populated regions of Seoul metropolitan area and Gyeonggi province in the Northwest, and Ulsan/Daegu/Busan metropolitan areas and Gyeongsang provinces in the southeast.

Each actor will bring their complementary strengths. Air Liquide will bring its expertise in design, manufacturing and operation of key hydrogen technologies including for hydrogen conditioning and distribution, and hydrogen refueling stations. Lotte Chemical will bring its access to large quantities of hydrogen, from its own off-gas sources located in South Korea's main industrial basins of Daesan and Ulsan. These sites are strategically located to host the conditioning hubs and refueling stations, and leverage demand in hydrogen for its own fleet of trucks group wide. The joint venture will be established with Air Liquide Korea and Lotte Chemical investing 60% and 40% in this entity respectively.

Supported by a strong political commitment, implemented through its “Hydrogen Economy Roadmap”, South Korea is a frontrunner in the shift towards a hydrogen economy and clean mobility. The demand for hydrogen dedicated to mobility in South Korea is expected to reach 100 tonnes per day by 2025 and over 1,000 tonnes per day by 2030.

François Abrial, Member of the Air Liquide Group's Executive Committee supervising Asia Pacific, said:

“We are pleased to enter into this strategic alliance with Lotte Chemical, a major industrial player, to join forces and accelerate the development of the hydrogen sector in South Korea. Air Liquide is committed to actively contribute and invest across the entire hydrogen chain, from production to storage, as well as distribution and application developments for end usages. In line with its sustainability objectives, which include reaching carbon neutrality by 2050, Air Liquide's ambition is to contribute actively to the emergence of a low-carbon society.”

1. OVERVIEW OF AMENDED AND RESTATED DEALER AGREEMENT

Subject to the terms and on the conditions contained in an amended and restated dealer agreement dated 11 May 2022 (the “**Amended and Restated Dealer Agreement**”) between L’Air Liquide, Air Liquide Finance, the Permanent Dealers and the Arranger, the Notes will be offered on a continuous basis to the Permanent Dealers. Each Issuer has reserved the right to sell Notes directly on its own behalf to Dealers that are not Permanent Dealers. The Notes may be resold at prevailing market prices, or at prices related thereto, at the time of such resale, as determined by the relevant Dealer. The Notes may also be sold by the relevant Issuer through the Dealers, acting as agents of such Issuer. The Amended and Restated Dealer Agreement also provides for Notes to be issued in syndicated Tranches that are jointly and severally underwritten by two or more Dealers.

L’Air Liquide and Air Liquide Finance will pay each relevant Dealer a commission as agreed between them in respect of Notes subscribed by it unless otherwise agreed. L’Air Liquide and Air Liquide Finance have agreed to reimburse the Arranger and the Permanent Dealers for certain of their expenses incurred in connection with the Programme and the Dealers for certain of their expenses incurred in connection with the offer and sale of the Notes.

L’Air Liquide and Air Liquide Finance have agreed to indemnify the Dealers against certain liabilities in connection with the offer and sale of the Notes. 8 Yield (Fixed Rate Notes only)

In relation to any Tranche of Fixed Rate Notes, the yield in respect of such Notes will be specified in the applicable Final Terms. The yield is calculated at the Issue Date of the Notes on the basis of the relevant Issue Price. The yield indicated will be calculated as the yield to maturity as at the Issue Date (as defined in the Final Terms) of the Notes and will not be an indication of future yield.

9 Reference Rates

Amounts payable under Floating Rate Notes issued under the Programme may be calculated by reference to EURIBOR, which is provided by the European Money Markets Institute (“EMMI”), to €STR, which is provided by the European Central Bank, to SOFR, which is provided by NY Federal Reserve, or other Reference Rates as indicated in the relevant Final Terms. As at the date of this Debt Issuance Programme Prospectus, the EMMI appears on the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 of the EU Benchmarks Regulation (the “ESMA Benchmarks Register”). As far as the Issuer is aware, European Central Bank and NY Federal Reserve, as administrator of €STR and SOFR are not required to be registered by virtue of Article 2 of EU Benchmarks Regulation and are not currently required to obtain authorisation or registration. The applicable Final Terms will specify the administrator of any benchmark used as a reference under the Floating Rate Notes and whether or not such administrator appears on the above mentioned ESMA Benchmarks Register.

10 Rating

The Programme has been rated A by S&P Global Ratings Europe Limited (“S&P”) and A3 by Moody’s Deutschland GmbH (“Moody’s”).

According to S&P’s rating system, an obligation rated “A-” is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the obligor’s capacity to meet its financial commitments on the obligation is still strong. The addition of pluses and minuses provides further distinctions within the ratings range.

According to the rating system of Moody’s, obligations rated “A” are considered upper-medium-grade and are subject to low credit risk. Moody’s appends numerical modifiers 1, 2, and 3 to each generic rating classification from “Aa” through “Caa”. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

Each of S&P and Moody’s is established in the EU and is registered under the CRA Regulation and included in the list of credit rating agencies registered in accordance with the CRA Regulation published on the European Securities and Markets Authority’s website (www.esma.europa.eu/supervision/credit-rating-agencies/risk).

S&P and Moody’s are not established in the United Kingdom and are not registered in accordance with the UK CRA Regulation. However, the ratings of the long-term debt of the Issuer have been endorsed by S&P Global Ratings UK Limited and Moody’s Investors Service Ltd, respectively, in accordance with the UK CRA Regulation and have not been withdrawn. As such, the ratings issued by each of Moody’s and S&P may be used for regulatory purposes in the United Kingdom in accordance with the UK CRA Regulation.

Tranches of Notes issued under the Programme may be rated or unrated. Where a Tranche of Notes is rated, such rating will not necessarily be the same as the ratings assigned to the Programme and its rating will not necessarily be the same as the rating assigned to other Notes issued under the Programme.

The relevant Final Terms will specify whether or not credit ratings are issued by a credit rating agency established in the EU and registered under the CRA Regulation.

A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

12 Information sourced from third parties

Where information in this Debt Issuance Programme Prospectus has been sourced from third parties, this information has been accurately reproduced and, as far as the Issuers are aware and are able to ascertain from

the information published by such third parties, no facts have been omitted which would render the reproduced information inaccurate or misleading. The source of third party information is identified where used.

13 Potential conflicts of interest

All or some of the Dealers and their affiliates have and/or may in the future engage, in the ordinary course of business, in lending, investment banking, commercial banking and/or other financial advisory and commercial dealings with the Issuers and their affiliates and in relation to securities issued by any entity of the Air Liquide Group. They have or may, in the ordinary course of their business, (i) engage in investment banking, trading or hedging activities including activities that may include prime brokerage business, financing transactions or entry into derivative transactions, (ii) act as underwriters in connection with offering of shares or other securities issued by any entity of the Air Liquide Group or (iii) act as financial advisers to the Issuers or other companies of the Air Liquide Group. In the context of these transactions, certain of such Dealers have or may hold shares or other securities issued by entities of the Air Liquide Group. Where applicable, they have or will receive customary fees and commissions for these transactions.

Each of the Issuers and the Dealer(s) may from time to time be engaged in transactions involving an index or related derivatives which may affect the market price, liquidity or value of the Notes and which could be deemed to be adverse to the interests of the Noteholders. In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuers or Issuers' affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the Issuers routinely hedge their credit exposure to the Issuers consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Programme. Any such positions could adversely affect future trading prices of Notes issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Potential conflicts of interest may also arise between the calculation agent, if any, for a Series of Notes and the Noteholders (including where a Dealer acts as a calculation agent), including with respect to certain discretionary determinations and judgements that such calculation agent may make pursuant to the Terms and Conditions of the Notes that may influence the amount receivable upon redemption of the Notes. If the relevant Issuer appoints a Dealer as calculation agent in respect of an issuance of Notes under the Programme, the calculation agent is likely to be a member of an international financial group that is involved, in the ordinary course of its business, in a wide range of banking activities out of which conflicting interests may arise. Whilst such a calculation agent will, where relevant, have information barriers and procedures in place to manage conflicts of interest, it may in its other banking activities from time to time be engaged in transactions involving an index or related derivatives which may affect amounts receivable by Noteholders during the term and on the maturity of the Notes or the market price, liquidity or value of the Notes and which could be deemed to be adverse to the interests of the Noteholders.

For the purpose of this paragraph, the term "affiliates" include also parent companies.
