However, Notes issued under the Programme may also be unlisted and/or not admitted to trading on any market. The relevant final terms (the “**Final Terms**”) (a form of which is contained herein) in respect of the issue of any Notes will specify whether or not such Notes will be listed and admitted to trading and, if so, the relevant EEA Regulated Market, and will be published, if relevant, on the website of the Regulated Market where the admission to trading is sought or on the website of the relevant Issuer, as the case may be. The Luxembourg Stock Exchange is a regulated market for the purposes of the Markets in Financial Instruments Directive 2004/39/EC, as amended, appearing on the list of regulated markets issued by the European Securities and Markets Authority (an “**EEA Regulated Market**”).

The Programme has been rated A- by Standard & Poor’s Ratings Services, and A3 by Moody’s Investors Service. Tranches of Notes issued under the Programme may be rated or unrated. Where an issue of Notes is rated, such rating will not necessarily be the same as ratings assigned to the Programme and its rating will not necessarily be the same as the rating assigned to other Notes issued under the Programme. A rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, change or withdrawal at any time by the assigning rating agency. As of the date of this Debt Issuance Programme Prospectus, both Standard & Poor’s Ratings Services and Moody’s Investors Service are established in the European Union, are registered under Regulation (EC) No.1060/2009 on credit ratings agencies, as amended (the “**CRA Regulation**”) and are included in the list of credit rating agencies registered in accordance with the CRA Regulation published on the website of the European Securities and Markets Authority (www.esma.europa.eu/page/List-registered-and-certified-CRAs). The relevant Final Terms will specify whether or not credit ratings are issued by a credit rating agency established in the European Union and registered under the CRA Regulation. Credit ratings are subject to revision, suspension or withdrawal at any time by the relevant rating organisation.

Prospective investors should take into account the factors described under the section headed “**Risk Factors**” in this Debt Issuance Programme Prospectus before deciding to invest in the Notes issued under the Programme.

Neither the delivery of this Debt Issuance Programme Prospectus nor any sale made in connection herewith shall, under any circumstances, create any implication that there has been no change in the affairs of L’Air Liquide or Air Liquide Finance, as the case may be, or those of L’Air Liquide and its subsidiaries taken as a whole (together the “Air Liquide Group” or the “Group”) since the date hereof or the date upon which this Debt Issuance Programme Prospectus has been most recently amended or supplemented or that there has been no adverse change in the financial position of either of L’Air Liquide or Air Liquide Finance, as the case may be, or that of the Air Liquide Group since the date hereof or the date upon which this Debt Issuance Programme Prospectus has been most recently amended or supplemented or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

In the case of any Notes which are to be admitted to trading on an EEA Regulated Market in circumstances which require the publication of a prospectus under the Prospectus Directive, the minimum specified denomination shall be at least €100,000 (or its equivalent in any other currency as at the date of issue of the Notes).

The distribution of this Debt Issuance Programme Prospectus and the offering or sale of the Notes in certain jurisdictions may be restricted by law. No action has been taken by L’Air Liquide, Air Liquide Finance or the Dealers which would permit a public offering of any Notes or distribution of this Debt Issuance Programme Prospectus in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Debt Issuance Programme Prospectus nor any Final Terms or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations and the Dealers have represented that all offers and sales by them will be made on the same terms. Persons into whose possession this Debt Issuance Programme Prospectus comes are required by L’Air Liquide, Air Liquide Finance, the Dealers and the Arranger to inform themselves about and to observe any such restriction. In particular, there are restrictions on the distribution of this Debt Issuance Programme Prospectus and the offer or sale of Notes in the United States, the United Kingdom, Japan, Hong Kong, the People’s Republic of China, Singapore, France, Italy, Germany and Russia.

*The Notes and the Guarantee in respect of the Notes have not been and will not be registered under the United States Securities Act of 1933, as amended (the “**Securities Act**”), or with any securities regulatory authority of any state or other jurisdiction of the United States and the Notes may include Materialised Notes in bearer form that are subject to U.S. tax law requirements. Subject to certain exceptions, the Notes may not be offered, sold or, in the case of Materialised Notes in bearer form, delivered within the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the Securities Act (“**Regulation S**”) or in the case of Materialised Notes in bearer form, the U.S. Internal Revenue Code of 1986, as amended (the “**U.S. Internal Revenue Code**”)). The Securities have not been and will not be registered in Russia and are not intended for “placement” or “circulation” in the Russian Federation (each as defined in Russian securities laws) unless and to the extent otherwise permitted under Russian law. Each potential purchaser of Notes should determine for itself the relevance of the information contained in this Debt Issuance Programme Prospectus and its purchase of Notes should be based upon such investigation as it deems necessary. None of the Dealers or the Arranger has reviewed or undertakes to review the financial condition or affairs of L’Air Liquide, Air Liquide Finance or the Air Liquide Group during the life of the arrangements contemplated by this Debt Issuance Programme Prospectus nor to advise any investor or potential investor in the Notes of any information coming to the attention of any of the Dealers or the Arranger.

Forward-looking statements include statements with respect to the Issuers' or the Guarantor's future financial condition, results of operations, business and prospects and generally include all statements preceded by, followed by or that include the words "believe", "expect", "project", "anticipate", "seek", "estimate" or similar expressions. Although it is believed that the expectations reflected in these forward-looking statements are reasonable, there is no assurance that the actual results or developments anticipated will be realised or, even if realised, that they will have the expected effects on the business, financial condition or prospects of the Issuers.

These forward-looking statements speak only as of the date on which the statements were made, and no obligation has been undertaken to publicly update or revise any outlook or forward-looking statements made in this Debt Issuance Programme Prospectus or elsewhere as a result of new information, future events or otherwise, except as required by applicable laws and regulations.

This Debt Issuance Programme Prospectus contains or incorporates by reference certain statements regarding the competitive position of the Air Liquide Group using the words "global leadership", "world leader", "leader" and similar wording. Unless a specific source is mentioned, the source for such statements is Air Liquide Group based on revenue figures from the latest published accounts of the Group and its main competitors.

IMPORTANT NOTICES IN RESPECT OF THE PRESENTATION OF FINANCIAL INFORMATION

L'Air Liquide reports its consolidated financial information in accordance with the International Financial Reporting Standards adopted by the European Union ("**IFRS**"), as prescribed by European Union Regulation No. 1606 of 19 July 2002, as amended. See section "Documents incorporated by reference" of this Debt Issuance Programme Prospectus for more information regarding the financial information of L'Air Liquide presented in, and incorporated by reference into, this Debt Issuance Programme Prospectus.

On 17 November 2015, L'Air Liquide announced an agreement to acquire the U.S.-based company Airgas, Inc. ("**Airgas**" and the "**Acquisition**"). The Acquisition was subsequently approved by the Board of Directors of each of L'Air Liquide and Airgas and by the Airgas shareholders. The Acquisition was completed on 23 May 2016 following the receipt by L'Air Liquide of the necessary antitrust and other regulatory approvals. Such approvals are to be followed by certain required disposals of business units or assets, the details of which are still being determined (the "**Disposals**"). On 20 May 2016, L'Air Liquide, through Air Liquide Finance as borrower, incurred USD11.6 billion of indebtedness pursuant to a bridge loan facility (the "**Acquisition Debt**"). The Acquisition Debt is expected to be refinanced through the combination of newly-issued debt securities (including offerings of dollar- and euro-denominated senior debt) and of a rights offering (the "**Refinancing**").

As of the date of this Debt Issuance Programme Prospectus, the steps required for the integration of Airgas within the Air Liquide Group are ongoing. See section "*Risk factors - Risks factors related to the Issuers and the Guarantor - Risks relating to the Acquisition of Airgas*" and "*Recent Developments of l'Air Liquide since 1 January 2016 - Airgas Acquisition*" of this Debt Issuance Programme Prospectus for additional information on the Acquisition.

The full perimeter of the Air Liquide Group going forward depends, in part, on the timing of the Disposals, which have not yet been consummated. In addition, the full operational impact of the business combination is still under review by the management and the advisors of L'Air Liquide. As a result of the foregoing considerations, no pro forma or aggregated financial information illustrating the impact of the Acquisition or the Disposals have been included or incorporated by reference in this Debt Issuance Programme Prospectus. It is expected that relevant pro forma financial information will be made public by L'Air Liquide once the assumptions required to prepare such pro forma financial information are stabilised.

If an investor wishes to review historical standalone financial information relating to Airgas, such information is currently available through the website of Airgas (www.airgas.com). No information included on the website of the SEC is incorporated by reference into, or otherwise forms part of, this Debt Issuance Programme Prospectus. Prospective investors should note that Airgas prepares its financial statements in U.S. dollars and reports its consolidated financial information in accordance with U.S. generally accepted accounting principles ("**U.S. GAAP**") which may limit the comparability of the consolidated financial information of L'Air Liquide with that of Airgas. Prospective investors are advised to consult their professional advisors for an understanding of the differences between U.S. GAAP and other systems of generally accepted accounting principles (including IFRS). See section "*Recent Developments of l'Air Liquide since 1 January 2016 - Airgas Acquisition*" for certain information and figures regarding Airgas. See also section "*Risk factors- Risk factors related to the Issuers and the Guarantor- Risks related to the presentation of financial information in this Debt Issuance Programme Prospectus*".

RISK FACTORS

The Issuers and/or the Guarantor, as the case may be, believe that the following factors may affect their ability to fulfil their obligations under the Notes issued under the Programme or the Guarantee, as the case may be. All of these factors are contingencies which may or may not occur and the Issuers and/or the Guarantor, as the case may be, are not in a position to express a view on the likelihood of any such contingencies occurring.

In addition, factors which the Issuers believe may be material for the purpose of assessing the market risks associated with Notes issued under the Programme are also described below.

The Issuers and/or the Guarantor, as the case may be, believe that the factors described below represent the principal risks inherent in investing in Notes issued under the Programme, but the inability of the Issuers and/or the Guarantor, as the case may be, to pay interest, principal or other amounts on or in connection with any Notes or the Guarantee, as the case may be, may occur for other reasons. The risks described below are not the only risks the Issuers and/or the Guarantor, as the case may be, face. Additional risks and uncertainties not currently known to the Issuers or the Guarantor or that they currently believe to be immaterial could also have a material impact on their business operations. Prospective investors should also read the detailed information set out elsewhere in this Debt Issuance Programme Prospectus (including any documents incorporated by reference herein) and the Final Terms of the relevant Notes and reach their own views prior to making any decision to invest in the Notes.

Prospective investors should consult their own financial and legal advisers about risks associated with investment in a particular Series of Notes and the suitability of investing in the Notes in light of their particular circumstances.

The order in which the following risk factors are presented is not an indication of the likelihood of their occurrence.

Word and expressions beginning with a capitalised letter used but not otherwise defined in this section shall have the meaning ascribed to them in the section entitled “Terms and Conditions of the Notes” of this Debt Issuance Programme Prospectus.

RISK FACTORS RELATING TO THE ISSUERS AND THE GUARANTOR

1 Risk factors relating to L’Air Liquide

Please refer to section “Documents incorporated by reference” of this Debt Issuance Programme Prospectus.

2 Risk factors relating to Air Liquide Finance

To benefit from economies of scale and facilitate capital markets funding (bonds and commercial paper), the Air Liquide Group uses a special-purpose subsidiary, Air Liquide Finance. This subsidiary centralizes the Air Liquide Group’s funding activities, essentially in Europe, Americas, Asia and the Middle East.

As of 31 December 2015, Air Liquide Finance granted, directly or indirectly, the equivalent of 10.2 billion euros in loans and received 4.2 billion euros in cash surpluses as deposits. These transactions were denominated in 24 currencies (primarily Euro, USD, JPY, RMB, GBP, CHF, SGD and BRL) and extended to approximately 240 subsidiaries. The matching positions per currency within Air Liquide Finance, resulting from the currency hedging of intra-group loans and borrowings, ensure that these intra-group funding operations do not generate foreign exchange risk for the Air Liquide Group.

Furthermore, in certain specific cases (e.g. regulatory constraints, high country risk, partnership), the Air Liquide Group may decide to limit its risk by setting up independent funding for these subsidiaries in the local banking market, and by using credit risk insurance.

In addition, Air Liquide Finance manages the Air Liquide Group's interest rate and foreign exchange risks for the Air Liquide Group's subsidiaries in those countries when it is permissible under law.

For those reasons, investment considerations in connection with Air Liquide Finance relate to financial risks and liquidity risks of L'Air Liquide.

3 Risks relating to the presentation of financial information in this Debt Issuance Programme Prospectus

As of the date of this Debt Issuance Programme Prospectus, the steps required for the integration of Airgas within the Air Liquide Group are ongoing (please refer to section "*Recent Developments of L'Air Liquide since 1 January 2016 - Airgas Acquisition*" for certain information and figures regarding Airgas and to 5. *Risks relating to the Acquisition of Airgas* below). The full perimeter of the Air Liquide Group going forward depends, in part, on the timing of the Disposals, which have not yet been consummated. In addition, the full operational impact of the business combination is still under review by the management and the advisors of L'Air Liquide. As a result of the foregoing considerations, no pro forma or aggregated financial information illustrating the impact of the Acquisition or the Disposals have been included or incorporated by reference in this Debt Issuance Programme Prospectus. It is expected that relevant pro forma financial information will be made public by L'Air Liquide once the assumptions required to prepare such pro forma financial information are stabilised.

Investors should note that the perimeter of the consolidated financial information presented in this Debt Issuance Programme Prospectus comprises the historical financial statements of L'Air Liquide prior to the Acquisition and the Disposals (and prior to the incurrence of the Acquisition Debt). The Acquisition is expected to potentially reinforce the global leadership position of the Air Liquide Group in particular through increasing its presence in North America and by generating significant synergies with respect to the combined business' results of operations. In addition, the Refinancing of the Acquisition Debt is expected to comprise additional equity and debt capital raising. Investors should note that the consolidated financial information presented in this Debt Issuance Programme Prospectus does not discuss such prospective impacts on the results of operations and financial condition of L'Air Liquide, the contours of which are not yet certain.

4 Information regarding Airgas has been obtained from public information and the accuracy or completeness of such information has not been verified by L'Air Liquide

Although nothing has come to the attention of L'Air Liquide or its directors or officers that would indicate that any statements published by Airgas are inaccurate or incomplete, L'Air Liquide was not involved in the preparation of the reports, statements or releases published by Airgas and, therefore, cannot verify the accuracy or completeness of the information obtained from such reports, statements or releases or whether there has been any failure by Airgas to disclose facts or events that may have occurred, but that are unknown to L'Air Liquide, that may affect the significance or accuracy of the information contained in such reports, statements or releases. Furthermore, L'Air Liquide has not been involved in the preparation of the consolidated financial statements for Airgas and its subsidiaries, and therefore cannot confirm their accuracy or completeness or that of the adjustments and assumptions made in Airgas's accounting records.

5 Risks relating to the Acquisition of Airgas

5.1 Air Liquide will face risks related to its increased level of debt as a result of financing the Acquisition

Air Liquide financed the Acquisition with a bridge loan facility of U.S.\$12.0 billion that is scheduled to mature in December 2016 (and which may be extended, subject to certain customary conditions, to December 2017). Air Liquide intends to refinance this bridge loan facility (which has been drawn for an amount of US\$11.6 billion by Air Liquide Finance as borrower), through the combination of newly-

issued debt securities (including offerings of dollar- and euro-denominated senior debt) and of a rights offering.

The financing arrangements in connection with the Acquisition may have significant consequences. Air Liquide's ability to refinance its bridge loan facility will depend upon market conditions. Unfavorable market conditions may increase Air Liquide's financing costs beyond what is currently anticipated. Failure to obtain refinancing on satisfactory terms or at all, or increased costs of financing, could have a material adverse effect on Air Liquide's results of operations, cash flows, liquidity, financial condition and credit rating. In particular, if Air Liquide is unable to raise the expected equity financing, it may be obliged to seek additional debt financing to refinance the bridge loan facility, increasing its total debt and its debt to equity ratio.

Following the Acquisition, the consolidated liabilities of Air Liquide also include outstanding Airgas indebtedness that was not refinanced in the amount of U.S.\$1,880 million in long-term and short-term indebtedness as of 23 May 2016 (including senior notes outstanding in an aggregate amount of U.S.\$1,550 million). L'Air Liquide S.A. has provided a guarantee in respect of the outstanding senior notes of Airgas.

However, the increased level of debt following the Acquisition may require the Air Liquide Group to dedicate a larger portion of its cash flow from operations to servicing its debt, which could have adverse consequences for Air Liquide.

5.2 The Acquisition and incurrence of related debt could cause a downgrading of Air Liquide's ratings and Airgas's senior notes ratings

Air Liquide's borrowing costs and access to the debt capital markets depend to some extent on the credit ratings assigned by the rating agencies. As was anticipated, L'Air Liquide S.A.'s long-term debt credit rating was downgraded by two notches, from A+ to A-, by S&P upon the completion of the Acquisition. In addition, L'Air Liquide S.A.'s long-term debt was granted a first time rating by Moody's of A3 and the rating of Airgas's outstanding senior notes was upgraded from BBB to A- by S&P and from Baa2 to A3 by Moody's upon the issuance of a guarantee of the senior notes by L'Air Liquide S.A. Despite the stable outlook on each such ratings, the rating agencies may further downgrade Air Liquide's credit ratings below their current levels, which may consequently result in a downgrade of Airgas's senior notes ratings, should the integration of Airgas not generate the anticipated synergies, should the equity component of the Acquisition financing be less than expected, should Air Liquide's debt increase more than anticipated, or for other credit-related concerns. Any credit rating downgrade could adversely affect the ability of Air Liquide to finance its ongoing operations and to refinance its indebtedness, increase Air Liquide's financing expenses and adversely affect its financial condition.

5.3 Air Liquide may not be able to retain Airgas's key managers or employees following the Acquisition

Beyond the expected evolution of Airgas's human resources, including planned departures that were anticipated independently of the Acquisition (such as moves or retirements), Air Liquide may face difficulties in retaining some of its own or Airgas's key employees due to uncertainties about or dissatisfaction with their new roles in the integrated organization following the Acquisition. As part of the integration process, Air Liquide will have to address issues inherent to the management and integration of a greater number of employees with distinct backgrounds, profiles, compensation structures and cultures, which could lead to disruption in its ability to run its operations as intended. The Air Liquide Group plans to deploy retention programs for identified key employees.

5.4 Air Liquide may fail to realize the synergies and other benefits anticipated from the Acquisition

Although Air Liquide and Airgas are two companies of considerable size that function independently, with geographically dispersed operations and different business cultures and customer bases, both companies have solid experiences in acquiring other entities and achieving projected benefits of acquisitions, thanks to efficient integration processes.

The integration process relating to Airgas involves inherent costs and uncertainties. The synergies and other benefits that the Acquisition is expected to yield (including growth opportunities, cost savings, increased revenues and profits) may not develop as contemplated if Air Liquide is unable to successfully introduce Air Liquide products to Airgas's existing customer base, and vice versa, or to successfully complete the integration of the IT systems and business processes or as a result of legal restrictions in certain jurisdictions or of negative reaction of customers or suppliers to the Acquisition.

Completion of the Acquisition has required, and the successful integration of Airgas will continue to require, a significant amount of management time and, thus, may impair management's ability to run the business effectively during the integration period, although dedicated teams have been appointed to manage this process.

Although the estimated synergies and other benefits contemplated by the Acquisition are significant, any failures, material delays or unexpected costs of the integration process could have an adverse effect on the business and financial condition of Air Liquide.

5.5 The due diligence by Air Liquide in connection with the Acquisition may not have revealed all relevant considerations or liabilities of Airgas

Air Liquide conducted due diligence on Airgas in order to identify facts that it considered relevant to evaluate the Acquisition, including the determination of the price Air Liquide agreed to pay, and to formulate a business strategy. However, the information provided to Air Liquide and its advisors during the due diligence may nonetheless have been incomplete, inadequate or inaccurate. If the due diligence investigations failed to correctly identify material issues and liabilities that may be present in Airgas, or if Air Liquide did not correctly evaluate the materiality of some of the risks, Air Liquide may be subject to significant, previously undisclosed liabilities of the acquired business and/or subsequently incur impairment charges or other losses. If this were to occur, it could contribute to lower operational performance than what was originally expected or result in additional difficulties with respect to the integration plan.

5.6 The acquisition of Airgas may trigger change of control clauses

Airgas is a party to joint ventures, distribution agreements, supply contracts and debt and other instruments that may contain change of control or similar provisions. Although under certain agreements the relevant counterparties of Airgas have consented to the change of control prior to the completion of the Acquisition, the completion of the Acquisition may trigger or allegedly trigger other such clauses, which may provide for or permit the early termination of the relevant agreement(s), or result in other consequences that could have a material adverse effect on the business and financial condition of Air Liquide.

5.7 Air Liquide and Airgas have incurred and will incur substantial transaction costs in connection with the Acquisition

Air Liquide and Airgas have incurred and will continue to incur significant transaction fees and other costs associated with the Acquisition. These fees and costs include financing, financial advisory, legal

and accounting fees and expenses. Additional unanticipated costs may be incurred in the context of the Acquisition.

5.8 The financial results of Air Liquide will be more exposed to foreign exchange fluctuations between the U.S. dollar and the euro following the Acquisition

Air Liquide presents its financial statements in euro. Although Air Liquide already had a significant portion of assets and revenues denominated in non-euro currencies prior to the Acquisition, the exposure to foreign currencies will increase following the Acquisition, particularly in respect of the U.S. dollar, as a result of the significant assets and revenues of Airgas in the United States. In addition, Air Liquide faces increased foreign exchange exposure to the U.S. dollar as a result of Airgas's existing debt and the U.S. dollar-denominated debt that was raised under the bridge loan facility (which will be partly refinanced with a U.S. dollar bonds issuance) in order to finance the Acquisition. The Acquisition will also increase Air Liquide's general exposure to foreign currency translation risk as reflected in the Air Liquide Group's consolidated financial statements to the extent that a higher proportion of the Air Liquide Group's sales, costs, assets and liabilities will be denominated in U.S. dollars, and thus material fluctuations in the value of the euro relative to the U.S. dollar will have a greater effect on the Air Liquide Group's reported results than prior to the Acquisition.

RISK FACTORS RELATING TO THE NOTES

1 General risk relating to the Notes

1.1 The Notes may not be a suitable investment for all investors

Each prospective investor of Notes must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its investment in the Notes is fully consistent with its financial needs, objectives and condition, complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it and is a fit, proper and suitable investment for it, notwithstanding the clear and substantial risks inherent in investing in or holding the Notes. In particular, each prospective investor should:

- a) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and the risks of investing in the relevant Notes and the information contained or incorporated by reference in this Debt Issuance Programme Prospectus or any applicable supplement and in the relevant Final Terms;
- b) have access to and knowledge of appropriate analytical tools to evaluate, in the context of its particular financial situation and sensitivity to the risk, an investment in the relevant Notes and the impact the relevant Notes will have on its overall investment portfolio;
- c) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including where the currency for principal or interest payments is different from the potential investor's currency;
- d) understand thoroughly the terms of the relevant Notes and be familiar with the behaviour of any relevant rates and financial markets; and
- e) be able to evaluate (either alone or with the help of its professional advisers) possible scenarios for economic interest rate and other factors that may affect its investment and its ability to face the applicable risks.

A prospective investor should not invest in the Notes unless it has the expertise (either alone or with the help of its professional advisers) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of such Notes and the impact this investment will have on the potential investor's overall investment portfolio.

A prospective investor may not rely on the Issuers or the Dealer(s) or any of their respective affiliates in connection with its determination as to the legality of its acquisition of the Notes or as to the other matters referred to above.

1.2 Modification, waivers and substitution

The conditions of the Notes contain provisions for calling General Meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant General Meeting and Noteholders who voted in a manner contrary to the majority.

1.3 No active Secondary/Trading Market for the Notes

Notes issued under the Programme will be new securities which may not be widely distributed and for which there may be no active trading market (unless in the case of any particular Tranche, such Tranche is to be consolidated with and form a single Series with a Tranche of Notes which is already issued). If the Notes are traded after their initial issuance, they may trade at a discount to their initial offering price, depending upon prevailing interest rates, the market for similar securities, general economic conditions and the financial condition of the relevant Issuer. Although in relation to Notes to be listed on the official list of the Luxembourg Stock Exchange and admitted to trading on the Regulated Market of the Luxembourg Stock Exchange and/or any other Regulated Market in the EEA, the Final Terms of the Notes will be filed with the *Commission de surveillance du secteur financier* in Luxembourg and/or with the competent authority of the Regulated Market of the EEA where the Notes will be listed and admitted to trading, there is no assurance that such filings will be accepted, that any particular Tranche of Notes will be so listed and admitted or that an active trading market will develop. Accordingly, there is no assurance as to the development or liquidity of any trading market for any particular Tranche of Notes.

1.4 Potential Conflicts of Interest

All or some of the Dealers and their affiliates have and/or may in the future engage, in the ordinary course of business, in lending, in investment banking, commercial banking and/or other financial advisory and commercial dealings with the Issuers and their affiliates and in relation to securities issued by any entity of the Air Liquide Group. They have or may, in the ordinary course of their business, (i) engage in investment banking, trading or hedging activities including activities that may include prime brokerage business, financing transactions or entry into derivative transactions, (ii) act as underwriters in connection with offering of shares or other securities issued by any entity of the Air Liquide Group or (iii) act as financial advisers to the Issuers or other companies of the Air Liquide Group. In the context of these transactions, certain of such Dealers have or may hold shares or other securities issued by entities of the Air Liquide Group. Where applicable, they have or will receive customary fees and commissions for these transactions.

Each of the Issuers and the Dealer(s) may from time to time be engaged in transactions involving an index or related derivatives which may affect the market price, liquidity or value of the Notes and which could be deemed to be adverse to the interests of the Noteholders.

Potential conflicts of interest may arise between the calculation agent, if any, for a Tranche of Notes and the Noteholders (including where a Dealer acts as a calculation agent), including with respect to

certain discretionary determinations and judgements that such calculation agent may make pursuant to the Terms and Conditions that may influence the amount receivable upon redemption of the Notes.

For the purpose of this paragraph, the term “affiliates” include also parent companies.

1.5 Exchange Rates

Prospective investors of the Notes should be aware that an investment in the Notes may involve exchange rate risks. The reference assets or the Notes may be denominated in a currency other than the currency of the purchaser’s home jurisdiction; and/or the reference assets or the Notes may be denominated in a currency other than the currency in which a purchaser wishes to receive funds. Exchange rates between currencies are determined by factors of supply and demand in the international currency markets which are influenced by macro economic factors, speculation and central bank and government intervention (including the imposition of currency controls and restrictions). Fluctuations in exchange rates may affect the value of the Notes or the reference assets.

1.6 Legality of Purchase

Neither the Issuers, the Dealer(s) nor any of their respective affiliates has or assumes responsibility for the lawfulness of the acquisition of the Notes by a prospective investor of the Notes, whether under the laws of the jurisdiction of its incorporation or the jurisdiction in which it operates (if different), or for compliance by that prospective investor with any law, regulation or regulatory policy applicable to it.

1.7 Credit ratings may not reflect all risks

One or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

1.8 Taxation

Potential purchasers and sellers of the Notes should be aware that they may be required to pay taxes or other documentary charges or duties in accordance with the laws and practices of the country where the Notes are transferred or other jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available for innovative financial instruments such as the Notes. Potential investors are advised not to rely upon the tax summary contained in this Debt Issuance Programme Prospectus but to ask for their own tax adviser’s advice on their individual taxation with respect to the acquisition, holding, sale and redemption of the Notes. Only these advisors are in a position to duly consider the specific situation of the potential investor. This investment consideration has to be read in conjunction with the taxation sections of this Debt Issuance Programme Prospectus.

1.9 Financial Transactions Tax (“FTT”)

On 14 February 2013, the European Commission published a proposal (the “**Commission’s Proposal**”) for a Directive for a common FTT in Austria, Belgium, Estonia, France, Germany, Greece, Italy, Portugal, Spain, Slovenia and Slovakia (the “**Participating Member States**”). Following ECOFIN Council meeting of 8 December 2015, Estonia officially announced its withdrawal from the negotiations.

The Commission’s Proposal has very broad scope and could, if introduced in its current form, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances. Primary market transactions referred to in Article 5(c) of Regulation (EC) No 1287/2006 should, however, be exempt. It would call for the Participating Member State to impose a tax of generally at

least 0.1% on all such transactions, generally determined by reference to the amount of consideration paid.

Under the current proposals, the FTT could apply in certain circumstances to persons both within and outside of the Participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a Participating Member State. A financial institution may be, or be deemed to be, "established" in a Participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a Participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a Participating Member State. The FTT proposal remains subject to negotiation between the Participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional Member States may decide to participate.

The mechanism by which the tax would be applied and collected is not yet known, but if the proposed directive or any similar tax were adopted, transactions in the Notes would be subject to higher costs, and the liquidity of the market for the Notes may be diminished.

Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT associated with subscribing for, purchasing, holding and disposing of the Notes.

1.10 Market Value of the Notes

The market value of the Notes will be affected by the creditworthiness of the relevant Issuer and a number of additional factors, including, but not limited to, the volatility of the market interest and yield rates and the time remaining to the maturity date.

The value of the Notes depends on a number of interrelated factors, including economic, financial and political events in France or elsewhere, including factors affecting capital markets generally and the stock exchanges on which the Notes are traded. The price at which a Noteholder will be able to sell the Notes prior to maturity may be at a discount, which could be substantial, from the issue price or the purchase price paid by such Noteholder.

1.11 French Insolvency Law

Under French insolvency law, holders of debt securities are automatically grouped into a single assembly of holders (the "Assembly") in order to defend their common interests if an accelerated safeguard procedure (*procédure de sauvegarde accélérée*), an accelerated financial safeguard (*procédure de sauvegarde financière accélérée*), safeguard (*procédure de sauvegarde*) or a judicial reorganisation procedure (*procédure de redressement judiciaire*) is opened in France with respect to the Issuer.

The Assembly comprises holders of all debt securities issued by the Issuer (including the Notes), whether or not under a debt issuance programme (EMTN) and regardless of their governing law.

The Assembly deliberates on the proposed accelerated safeguard plan (*projet de plan de sauvegarde accélérée*), proposed accelerated financial safeguard plan (*projet de plan de sauvegarde financière accélérée*) proposed safeguard plan (*projet de plan de sauvegarde*) or judicial reorganisation plan (*projet de plan de redressement*) applicable to the Issuer and may further agree to:

- increase the liabilities (charges) of holders of debt securities (including the Noteholders) by rescheduling due payments and/or partially or totally writing off receivables in the form of debt securities;

- establish an unequal treatment between holders of debt securities (including the Noteholders) as appropriate under the circumstances; and/or
- decide to convert debt securities (including the Notes) into securities that give or may give right to share capital.

Decisions of the Assembly will be taken by a two-third majority (calculated as a proportion of the debt securities held by the holders attending such Assembly or represented thereat). No quorum is required to convoke the Assembly.

For the avoidance of doubt, the provisions relating to the Representation of the Noteholders described in this Debt Issuance Programme Prospectus will not be applicable to the extent they are not in compliance with compulsory insolvency law provisions that apply in these circumstances.

1.12 Change of Law

The Terms and Conditions of the Notes are based on French law and EU rules in effect as at the date of this Debt Issuance Programme Prospectus. No assurance can be given as to the impact of any possible judicial decision or change in French law or EU rules, or their official application or interpretation, after the date of this Debt Issuance Programme Prospectus.

2 Risks related to the structure of a particular issue of Notes

The Programme allows for different types of Notes to be issued. Accordingly, each Tranche of Notes may carry varying risks for potential investors depending on the specific features of such Notes such as, *inter alia*, the provisions for computation of periodic interest payments, if any, redemption and issue price.

2.1 Notes subject to optional redemption by the Issuer

In the event that the relevant Issuer would be obliged to increase the amounts payable in respect of any Notes due to any withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by the country of domicile (or residence for tax purposes) by the relevant Issuer, or on behalf of France, or any political subdivision thereof or any authority therein or thereof having power to tax, the relevant Issuer may redeem all outstanding Notes in accordance with the Terms and Conditions.

The relevant Issuer has also the option, if so provided in the relevant Final Terms, to redeem the Notes under a make-whole call option as provided in Condition 7(b), a call option as provided in Condition 7(c), a residual maturity call option as provided in Condition 7(d) or a clean-up call option as provided in Condition 7(e).

In addition, if in the case of any particular Tranche of Notes the relevant Final Terms specify that the Notes are redeemable at the Issuer's option in certain other circumstances the Issuer may choose to redeem the Notes at times when prevailing interest rates may be relatively low. During a period when the Issuer may elect, or has elected, to redeem Notes, such Notes may feature a market value not substantially above the price at which they can be redeemed. In such circumstances an investor may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of the relevant Notes and may only be able to do so at a lower rate. Prospective investors should consider reinvestment risk in light of other investments available at that time.

2.2 Fixed Rate Notes

Investment in Notes which bear interest at a fixed rate involves the risk that subsequent changes in market interest rates may adversely affect the value of the relevant Tranche of Notes.

2.3 Floating Rate Notes

Investment in Notes which bear interest at a floating rate comprise (i) a reference rate and (ii) a margin to be added or subtracted, as the case may be, from such base rate. Typically, the relevant margin will not change throughout the life of the Notes but there will be a periodic adjustment (specified in the relevant Final Terms) of the reference rate (e.g., every three months or six months) which itself will change in accordance with general market conditions. Accordingly, the market value of floating rate Notes may be volatile if changes, particularly short term changes, to market interest rates evidenced by the relevant reference rate can only be reflected in the interest rate of these Notes upon the next periodic adjustment of the relevant reference rate.

2.4 Inverse Floating Rate Notes

Investment in Notes which bear interest at an inverse floating rate comprise (i) a fixed base rate minus (ii) a reference rate. The market value of such Notes typically is more volatile than the market value of floating rate Notes based on the same reference rate (and with otherwise comparable terms). Inverse floating rate Notes are more volatile because an increase in the reference rate not only decreases the interest rate of the Notes, but may also reflect an increase in prevailing interest rates, which further adversely affects the market value of these Notes.

2.5 Fixed to Floating Rate Notes

Fixed to floating rate Notes may bear interest at a rate that the Issuer may elect to convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate. The relevant Issuer's ability to convert the interest rate will affect the secondary market and the market value of the Notes since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the relevant Issuer converts from a fixed rate to a floating rate, the spread on the fixed to floating Rate Notes may be less favourable than then prevailing spreads on comparable floating rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If the Issuer converts from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing rates on its Notes.

2.6 Notes issued at a substantial discount or premium

The market values of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

2.7 Variable rate Notes with a multiplier or other leverage factor

Notes with variable interest rates can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features, their market values may be even more volatile than those for securities that do not include those features.

2.8 Zero Coupon Notes

Changes in market interest rates have a substantially stronger impact on the prices of Zero Coupon Notes than on the prices of ordinary Notes because the discounted issue prices are substantially below par. If market interest rates increase, Zero Coupon Notes can suffer higher price losses than other Notes having the same maturity and credit rating. Due to their leverage effect, Zero Coupon Notes are a type of investment associated with a particularly high price risk.

2.9 Exercise of Change of Control Put Option in respect of certain Notes may affect the liquidity of the Notes of the same Series in respect of which such option is not exercised

Depending on the number of Notes of the same Series in respect of which the Change of Control Put Option provided for in the relevant Final Terms is exercised, any trading market in respect of those Notes in respect of which such option is not exercised may become illiquid. In addition, investors may only be able to reinvest the moneys they receive upon such early redemption in securities with a lower yield than the redeemed Notes.

In addition, if, further to the exercise of such Change of Control Put Option, 80 per cent. or more of the initial aggregate principal amount of the Notes has been purchased and cancelled by the relevant Issuer, such Issuer has the option to redeem all of the remaining Notes without obtaining the prior consent of their holders.

2.10 Risks related to RMB Notes

Notes denominated in RMB (“**RMB Notes**”) may be issued under the Programme. RMB Notes contain particular risks for potential investors.

RMB is not freely convertible and the liquidity of RMB Notes may be adversely affected

RMB is not freely convertible at present. The PRC government continues to regulate conversion between RMB and foreign currencies. The People’s Bank of China (“**PBOC**”) has established RMB clearing and settlement systems for certain locations pursuant to settlement agreements relating to the clearing of RMB business between PBOC and certain clearing banks. However, the current size of RMB and RMB denominated financial assets outside the PRC remains limited, and its growth is subject to many constraints which are directly affected by PRC laws and regulations on foreign exchange and may adversely affect the liquidity of RMB Notes.

To the extent the Issuers are required to source Renminbi in the offshore market to service their RMB Notes, there is no assurance that they will be able to source such Renminbi on satisfactory terms, if at all.

Risk of change in government support and regulatory regime

There can be no assurance that the PRC government will continue to gradually liberalise its control over cross-border Renminbi remittances in the future or that new PRC regulations will not be promulgated in the future which have the effect of restricting or eliminating the remittance of Renminbi into or outside the PRC. In the event that funds cannot be repatriated outside the PRC in Renminbi, this may affect the overall availability of Renminbi outside the PRC and the ability of the Issuers to source Renminbi to finance their obligations under the RMB Notes.

RMB currency risk

Except in limited circumstances and unless otherwise specified, all payments of RMB under RMB Notes to an investor will be made solely by transfer to a RMB bank account maintained in Hong Kong by such investor in accordance with the prevailing rules and regulations and in accordance with the terms and conditions of the RMB Notes. The relevant Issuer cannot be required to make payment by any other means (including in bank notes or by transfer to a bank account in the PRC or anywhere else outside Hong Kong). RMB is not freely convertible at present, and conversion of RMB into other currencies is subject to certain restrictions. In particular, for personal investors, currently conversions of RMB conducted through RMB deposit accounts may be subject to a daily limit, and investors may have to allow time for conversion of RMB from/to another currency of an amount exceeding such daily limit.

In addition, there can be no assurance that access to RMB for the purposes of making payments under such Notes or generally may remain or will not become restricted. If it becomes impossible to convert RMB from/to another freely convertible currency, or transfer RMB between accounts in Hong Kong, or the general RMB exchange market in Hong Kong becomes illiquid, any payment of RMB under the RMB Notes may be delayed or the relevant Issuer may make such payments in another currency selected by the Issuer using an exchange rate determined by the Calculation Agent, or the relevant Issuer may redeem the Notes by making payment in another currency.

RMB exchange rate risk

The value of RMB against foreign currencies fluctuates and is affected by changes in the PRC and international political and economic conditions and by many other factors. The relevant Issuer will make all RMB payments under RMB Notes in RMB (subject to the second paragraph under the heading "RMB currency risk" above). As a result, the value of such payments in RMB (in foreign currency terms) may vary with the prevailing exchange rates in the marketplace. If the value of RMB depreciates against any foreign currencies, the value of an investor's investment in such applicable foreign currency terms will decline. In addition, the PBOC changed the way it calculates the mid-point price of RMB against the US Dollar. This change may increase volatility in the value of RMB against foreign currencies.

2.11 Risks relating to RUB Notes

There are risks associated with the relative newness of debt instruments that are both denominated and settled in Roubles and the inexperience of both the Clearing Systems and the Russian and international banking systems in dealing with them.

The Notes may be denominated and settled in Roubles. Offerings of debt instruments that are denominated and settled in Roubles are a relatively new phenomenon in the international capital markets. This, coupled with the relative inexperience of Euroclear France, Euroclear and Clearstream, Luxembourg (the "**Clearing Systems**") and the Russian and international banking systems in dealing with Rouble payments and Rouble accounts, could lead to unforeseen difficulties, which may have an adverse effect on the liquidity, marketability or trading price of such Notes. Due to the lack of experience of the Clearing Systems with settling, clearing and trading debt instruments that are both denominated and settled in Roubles, there can be no guarantee that such clearing, settlement and trading procedures will progress smoothly or in a way which is comparable to procedures carried out with respect to instruments denominated in more conventionally settled currencies, such as U.S. Dollars or euros.

Russian law previously prohibited or otherwise severely restricted the transfer and holding of Roubles offshore and their repatriation onshore. Although these restrictions have now been lifted (save for some restrictions which apply to the regime of residents' accounts held outside of the Russian Federation), there is still no specific tested framework under Russian law for transferring or holding Roubles in offshore Rouble accounts. As with much recent Russian legislation, there is extremely limited or non-existent regulatory or court practice in interpreting these regulations. If restrictions or prohibitions were placed on the transfer and holding of Roubles offshore or if such legislation was reinterpreted by the Russian regulators or courts to the effect that restrictions were still deemed to apply to the transfer and holding of Roubles offshore, this would severely hinder Noteholders' ability to receive payments into their offshore Rouble accounts of principal or interest under the relevant Notes or proceeds from the sale of such Notes.

Payments of principal and interest under the relevant Notes and proceeds from the sale of such Notes will be made in Roubles. All payments of Roubles to, from, or between Rouble accounts located

outside the Russian Federation will be made via onshore correspondent accounts within the Russian banking system. The Russian banking system is less developed than many of its Western counterparts and is relatively inexperienced in dealing with payments relating to Eurobonds or similar international debt instruments. Consequently there is a risk that payments of both principal and interest under the relevant Notes and proceeds from the sale of such Notes, which need to pass through the Russian banking system, will be subject to delays and disruptions which may not exist in more mature banking markets. In order for Noteholders to remove Roubles received from payments of principal and interest on the relevant Notes and proceeds from the sale of such Notes from the Clearing Systems, they will need to hold a bank account denominated in Roubles. Noteholders may also encounter procedural difficulties with opening Rouble accounts onshore in the Russian Federation or outside the Russian Federation. There can therefore be no guarantee that Noteholders will be able to readily open up a Rouble bank account either offshore or in the Russian Federation or transfer Rouble payments made under the relevant Notes out of the Clearing Systems.

Events of Default:

(including cross-default):

There will be events of default and a cross-default in respect of the Notes as set out in Condition 10. See “Terms and Conditions of the Notes - Events of Default”.

Redemption:

Unless previously redeemed or purchased and cancelled, each Note shall be finally redeemed on the Maturity Date at its nominal amount. Unless permitted by laws and regulations in force at the relevant time, Notes (including Notes denominated in sterling) having a maturity of less than one year from the date of issue and in respect of which the issue proceeds are to be accepted by the Issuer in the United Kingdom or whose issue otherwise constitutes a contravention of Section 19 of the FSMA must have a minimum redemption amount of £100,000 (or its equivalent in other currencies).

Optional Redemption:

The Issuers may have the option to redeem the Notes, (i) in whole or in part, at any time or from time to time, prior to their

Maturity Date and (ii) in whole but not in part, at any time as from the call option date, which shall be set out in the relevant Final Terms (as further set out in Condition 7).

The Final Terms issued in respect of each issue of Notes will state whether such Notes may be redeemed prior to their stated maturity at the option of the relevant Issuer (either in whole or in part) and/or the Noteholders and, if so, the terms applicable to such redemption.

If a Change of Control Put Option is specified in the relevant Final Terms, following the occurrence of a Change of Control, the Noteholders will be entitled to request the Issuers to redeem or, at the Issuers' option, procure the purchase of their Notes, as more fully set out in "Terms and Conditions of the Notes - Redemption, Purchase and Options".

Early Redemption:

Except as provided in "Optional Redemption" above, Notes will be redeemable at the option of the relevant Issuer prior to maturity only for tax reasons as set out in Condition 7. See "Terms and Conditions of the Notes - Redemption, Purchase and Options".

Taxation in respect of the Notes issued by the Issuers:

All payments of principal, interest and other revenues by or on behalf of the Issuers in respect of the Notes shall be made free and clear of, and without withholding or deduction for, any taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or within France or any authority therein or thereof having power to tax, unless such withholding or deduction is required by law.

See section "Taxation".

Interest Periods and Interest Rates:

The length of the interest periods for the Notes and the applicable interest rate or its method of calculation may differ from time to time or be constant for any Series. Notes may have a maximum interest rate, a minimum interest rate, or both. The use of interest accrual periods permits the Notes to bear interest at different rates in the same interest period. All such information will be set out in the relevant Final Terms.

Fixed Rate Notes:

Fixed interest will be payable in arrears on the date or dates in each year specified in the relevant Final Terms.

Floating Rate Notes:

Floating Rate Notes will bear interest determined separately for each Series as follows:

(i) on the same basis as the floating rate under a notional interest rate swap transaction in the relevant Specified Currency governed by an agreement incorporating the 2006 ISDA Definitions as published by the International Swaps and Derivatives Association, Inc. or

(ii) by reference to LIBOR or EURIBOR (or such other benchmark as may be specified in the relevant Final Terms), in

each case as adjusted for any applicable margin. Interest periods will be specified in the relevant Final Terms.

Zero Coupon Notes:	Zero Coupon Notes may be issued at their nominal amount or at a discount to it and will not bear interest.
Redenomination:	Notes issued in the currency of any Member State of the EU which will participate in the single currency of the EMU may be redenominated into Euro, all as more fully provided in “Terms and Conditions of the Notes - Form, Denomination, Title and Redenomination” below.

If at any time L'Air Liquide or Air Liquide Finance shall be required to prepare a supplement to the Debt Issuance Programme Prospectus pursuant to the provisions of the Prospectus Act 2005 in Luxembourg implementing Article 16 of the Prospectus Directive, because of the occurrence or disclosure at any time during the duration of the Programme of a significant new factor, material mistake or inaccuracy relating to the information included in this Debt Issuance Programme Prospectus, L'Air Liquide and/or Air Liquide Finance undertake, *inter alia*, to the Dealers, and to the Luxembourg Stock Exchange to prepare and make available an appropriate supplement to this Debt Issuance Programme Prospectus or a restated Debt Issuance Programme Prospectus, which in respect of any subsequent issue of Notes to be listed on the official list of the Luxembourg Stock Exchange and admitted to trading on the Regulated Market of the Luxembourg Stock Exchange or on a EEA Regulated Market, shall constitute a supplement to the Debt Issuance Programme Prospectus for the purpose of the relevant provisions of the Prospectus Act 2005.

L'Air Liquide and Air Liquide Finance shall submit such supplement or restated Debt Issuance Programme Prospectus to the *Commission de surveillance du secteur financier* in Luxembourg for approval and supply each Dealer and the Luxembourg Stock Exchange with such number of copies of such supplement as may reasonably be requested. TERMS AND CONDITIONS OF THE NOTES

The following is the text of the terms and conditions that, subject to completion in accordance with the provisions of the relevant Final Terms, shall be applicable to the Notes. Provisions in square brackets shall apply to Notes issued by Air Liquide Finance, which will have the benefit of a guarantee by the Guarantor. Such provisions will not apply to Notes issued by the Guarantor. In the case of Dematerialised Notes, the text of the terms and conditions will not be endorsed on physical documents of title but will be constituted by the following text as completed by the relevant Final Terms. In the case of Materialised Notes, either (i) the full text of these terms and conditions together with the relevant provisions of the Final Terms or (ii) these terms and conditions as so completed (and subject to simplification by the deletion of non-applicable provisions), shall be endorsed on Definitive Materialised Bearer Notes. All capitalised terms that are not defined in these Conditions will have the meanings given to them in the relevant Final Terms. References in the Conditions to “Notes” are to the Notes of one Series only, not to all Notes that may be issued under the Programme.

The Notes are issued by Air Liquide Finance (“**Air Liquide Finance**”, or an “**Issuer**”) and L’Air Liquide S.A. (“**L’Air Liquide**”, in its capacity as guarantor of Notes issued by Air Liquide Finance, the “**Guarantor**” or, in its capacity as issuer, an “**Issuer**”) (together with Air Liquide Finance, the “**Issuers**”) with the benefit of an amended and restated agency agreement dated 3 June 2016 (the “**Amended and Restated Agency Agreement**”) between the Issuers, the Guarantor, BNP Paribas Securities Services as fiscal agent and the other agents named in it, and with the benefit of a guarantee dated 3 June 2016 (as amended or supplemented from time to time, the “**Guarantee**” executed by the Guarantor in relation to the Notes). The fiscal agent, the paying agents, the redenomination agent, the consolidation agent and the calculation agent(s) for the time being (if any) are referred to below respectively as the “**Fiscal Agent**”, the “**Paying Agents**” (which expression shall include the Fiscal Agent), the “**Redenomination Agent**”, the “**Consolidation Agent**” and the “**Calculation Agent(s)**”. Terms between square brackets shall apply to Notes issued by Air Liquide Finance and guaranteed by L’Air Liquide.

For the purpose of these Terms and Conditions, “**Regulated Market**” means any regulated market situated in a Member State of the European Economic Area (“**EEA**”) as defined in the Directive 2004/39/EC on Markets in Financial Instruments dated 21 April 2004, as amended, and appearing on the list of regulated markets issued by the European Securities and Markets Authority.

References below to “**Conditions**” are, unless the context requires otherwise, to the numbered paragraphs below.

Copies of the Amended and Restated Agency Agreement and the Guarantee are available for inspection during normal business hours at the specified offices of each of the Paying Agents.

1 Form, Denomination(s), Title and Redenomination

- (a) **Form:** Notes may be issued either in dematerialised form (“**Dematerialised Notes**”) or in materialised form (“**Materialised Notes**”), as specified in the relevant Final Terms.
 - (i) Title to Dematerialised Notes will be evidenced in accordance with Articles L.211-3 and R.211-1 of the French *Code monétaire et financier* (the “**Code**”) by book entries (*inscriptions en compte*). No physical document of title (including *certificats représentatifs* pursuant to Article R.211-7 of the Code) will be issued in respect of the Dematerialised Notes.

Dematerialised Notes are issued, at the option of the relevant Issuer and as specified in the relevant Final Terms (the “**Final Terms**”), in either bearer dematerialised form (*au porteur*) only, in which case they will be inscribed in the books of Euroclear France S.A. (acting as

central depository) (“**Euroclear France**”) which shall credit the accounts of Euroclear France Account Holders, or in registered dematerialised form (*au nominatif*) and, in such latter case, at the option of the relevant Noteholder in either administered registered form (*au nominatif administré*) inscribed in the books of a Euroclear France Account Holder or in fully registered form (*au nominatif pur*) inscribed in an account in the books of Euroclear France maintained by the Issuer or the Registration Agent (designated in the relevant Final Terms) acting on behalf of the Issuer (the “**Registration Agent**”).

Pursuant to article L.228-2 of the French *Code de commerce*, the Issuer may require the identification of the Noteholders in accordance with French law unless such right is expressly excluded in the relevant Final Terms.

For the purpose of these Conditions, “**Euroclear France Account Holder**” means any intermediary institution entitled directly or indirectly to hold accounts on behalf of its customers with Euroclear France, and includes the depository bank for Clearstream Banking, *société anonyme* (“**Clearstream, Luxembourg**”) and Euroclear Bank S.A. / N.V. (“**Euroclear**”).

- (ii) Materialised Notes are issued in bearer form (“**Materialised Bearer Notes**”). Materialised Bearer Notes are serially numbered and are issued with interest coupons (the “**Coupons**”) (and, where appropriate, a talon (“**Talon**”) attached, save in the case of Zero Coupon Notes in which case references to interest (other than in relation to interest due after the Maturity Date), Coupons and Talons in these Conditions are not applicable.

In accordance with Articles L.211-3 and R.211-1 of the Code, securities (such as Notes) which are governed by French law and are in materialised form must be issued outside the French territory.

(b) **Denomination(s):**

Notes shall be issued in the specified denomination(s) as set out in the relevant Final Terms (the “**Specified Denomination(s)**”) save that the minimum denomination of each Note listed and admitted to trading on an EEA Regulated Market in circumstances which require the publication of a Debt Issuance Programme Prospectus under the Prospectus Directive will be at least €100,000 (or, if the Notes are denominated in a currency other than euro, the equivalent amount in such currency at the issue date) or such other higher amount as may be allowed or required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to the relevant Specified Currency. Dematerialised Notes shall be issued in one Specified Denomination only.

(c) **Title**

- (i) Title to Dematerialised Notes in bearer dematerialised form (*au porteur*) and in administered registered form (*au nominatif administré*) shall pass upon, and transfer of such Notes may only be effected through, registration of the transfer in the accounts of Euroclear France Account Holders. Title to Dematerialised Notes in fully registered form (*au nominatif pur*) shall pass upon, and transfer of such Notes may only be effected through, registration of the transfer in the accounts of the Issuer or of the Registration Agent.
- (ii) Title to Materialised Bearer Notes in definitive form having, where appropriate, Coupons and/or a Talon attached thereto on issue (“**Definitive Materialised Bearer Notes**”), shall pass by delivery.

- (iii) Except as ordered by a court of competent jurisdiction or as required by law, the holder (as defined below) of any Note, Coupon or Talon shall be deemed to be and may be treated as its absolute owner for all purposes, whether or not it is overdue and regardless of any notice of ownership, or an interest in it, any writing on it or its theft or loss and no person shall be liable for so treating the holder.
- (iv) In these Conditions, “**holder of Notes**”, “**holder of any Note**” or “**Noteholder**” means (i) in the case of Dematerialised Notes, the person whose name appears in the account of the relevant Euroclear France Account Holder or the relevant Issuer or the Registration Agent (as the case may be) as being entitled to such Notes and (ii) in the case of Materialised Notes, the bearer of any Definitive Materialised Bearer Note and the Coupons, or Talon relating to it, and capitalised terms have the meanings given to them in the relevant Final Terms, the absence of any such meaning indicating that such term is not applicable to the Notes.

(d) **Redenomination:**

If such Condition 1(d) is specified in the relevant Final Terms as being applicable, the relevant Issuer may, without the consent of any of the holders of any Note, Coupon or Talon, by giving at least 30 calendar days’ notice in accordance with Condition 15, redenominate on any Interest Payment Date all, but not some only, of the Notes of any Series into Euro and adjust the aggregate principal amount and the Specified Denomination(s) on or after the date on which the Member State of the European Union in whose national currency such Notes are denominated has become a participant member in the third stage of the European economic and monetary union (“**EMU**”), as described below. The date on which such redenomination becomes effective shall be referred to in these Conditions as the “**Redenomination Date**”.

Unless otherwise specified in the relevant Final Terms, the redenomination of the Notes pursuant to Condition 1(d) shall be made by converting the principal amount of each Note from the relevant national currency into Euro using the fixed relevant national currency Euro conversion rate established by the Council of the European Union pursuant to applicable regulations of the Treaty and rounding the resultant figure to the nearest Euro 0.01 (with Euro 0.005 being rounded upwards). If the Issuer so elects, the figure resulting from conversion of the principal amount of each Note using the fixed relevant national currency Euro conversion rate shall be rounded down to the nearest Euro. The Euro denominations of the Notes so determined shall be notified to Noteholders in accordance with Condition 15. Any balance remaining from the redenomination with a denomination higher than Euro 0.01 shall be paid by way of cash adjustment rounded to the nearest Euro 0.01 (with Euro 0.005 being rounded upwards). Such cash adjustment will be payable in Euro on the Redenomination Date in the manner notified to Noteholders by the Issuer. For the avoidance of doubt, the minimum denomination of each redenominated Note shall not be less than €100,000.

Upon redenomination of the Notes, any reference in the relevant Final Terms to the relevant national currency shall be construed as a reference to Euro.

Unless otherwise specified in the relevant Final Terms, the Issuer may, with the prior approval of the Fiscal Agent, in connection with any redenomination pursuant to this Condition or any consolidation pursuant to Condition 14, without the consent of the holder of any Note, Coupon or Talon, make any changes or additions to these Conditions of Condition 14 (including, without limitation, any change to any applicable business day definition, business day convention, principal financial centre of the country of the Specified Currency, interest accrual basis or benchmark), taking into account market practice in respect of redenominated euromarket debt obligations and which it believes are not prejudicial to the interests of such Noteholders. Any such changes or additions shall, in the absence of

manifest error, be binding on the holder of Notes, Coupons and Talons and shall be notified to Noteholders in accordance with Condition 15 as soon as practicable thereafter.

Neither the Issuer nor any Paying Agent shall be liable to the holder of any Note, Coupon or Talon or other person for any commissions, costs, losses or expenses in relation to or resulting from the credit or transfer of euro or any currency conversion or rounding effected in connection therewith.

2 Conversion and Exchanges of Notes

(a) Dematerialised Notes:

Dematerialised Notes being issued in bearer dematerialised form (*au porteur*) may not be converted into Dematerialised Notes in registered dematerialised form, whether in fully registered form (*au nominatif pur*) or in administered registered form (*au nominatif administré*).

Dematerialised Notes issued in registered dematerialised form (*au nominatif*) may not be converted into Dematerialised Notes in bearer dematerialised form (*au porteur*).

Dematerialised Notes issued in fully registered form (*au nominatif pur*) may, at the option of the Noteholder, be converted into Notes in administered registered form (*au nominatif administré*), and *vice versa*. The exercise of any such option by such Noteholder shall be made in accordance with Article R.211-4 of the Code. Any such conversion shall be effected at the cost of such Noteholder.

(b) Materialised Notes:

Materialised Bearer Notes of one Specified Denomination may not be exchanged for Materialised Bearer Notes of another Specified Denomination.

(b) Status of the Guarantee:

The obligations of the Guarantor under the Guarantee, if any, constitute direct, unconditional, unsubordinated and (subject to the provisions of Condition 5) unsecured obligations of the Guarantor and shall at all times rank (save for certain obligations required to be preferred by law) equally and rateably with all other present or future unsecured and unsubordinated indebtedness and monetary obligations of the Guarantor.

Notwithstanding the foregoing, where the relevant Final Terms specify that the relevant Business Day Convention is to be applied on an “unadjusted” basis, the Interest Amount payable on any date shall not be affected by the application of the relevant Business Day Convention.

(iii) *Rate of Interest for Floating Rate Notes:* The Rate of Interest in respect of Floating Rate Notes for each Interest Accrual Period shall be determined in the manner specified in the relevant Final Terms and the provisions below relating to either ISDA Determination or Screen Rate Determination shall apply, depending upon which is specified in the relevant Final Terms.

- (A) ISDA Determination for Floating Rate Notes:

Where ISDA Determination is specified in the relevant Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period shall be determined by the Calculation Agent as a rate equal to the relevant ISDA Rate. For the purposes of this sub-paragraph (A), “**ISDA Rate**” for an Interest Accrual Period means a rate equal to the Floating Rate that would be determined

by the Calculation Agent under a Swap Transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (a) the Floating Rate Option is as specified in the relevant Final Terms;
- (b) the designated Maturity is a period specified in the relevant Final Terms; and
- (c) the relevant Reset Date is the first day of that Interest Accrual Period unless otherwise specified in the relevant Final Terms.

For the purposes of this sub-paragraph (A), “**Floating Rate**”, “**Calculation Agent**”, “**Floating Rate Option**”, “**designated Maturity**”, “**Reset Date**” and “**Swap Transaction**” have the meanings given to those terms in the ISDA Definitions.

(B) Screen Rate Determination for Floating Rate Notes:

- (a) Where Screen Rate Determination is specified in the relevant Final Terms as the manner according to which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period will, subject as provided below, be either:

- (i) the offered quotation or
- (ii) the arithmetic mean of the offered quotations,

(expressed as a percentage rate per annum) for the Reference Rate which appears or appear, as the case may be, on the Relevant Screen Page as at either (i) 11.00 a.m. (London time in the case of LIBOR or Brussels time in the case of EURIBOR) or (ii) if otherwise, the Relevant Screen Page Time on the Interest Determination Date in question as determined by the Calculation Agent. If five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Calculation Agent for the purpose of determining the arithmetic mean of such offered quotations.

If the Reference Rate from time to time in respect of Floating Rate Notes is specified in the relevant Final Terms as being other than LIBOR or EURIBOR, the Rate of Interest in respect of such Notes will be determined as provided in the relevant Final Terms.

- (b) if the Relevant Screen Page is not available or if sub-paragraph (a)(i) applies and no such offered quotation appears on the Relevant Screen Page or if sub-paragraph (a)(ii) applies and fewer than three such offered quotations appear on the Relevant Screen Page, subject as provided below, the Calculation Agent shall request, (i) if the Reference Rate is LIBOR, the principal London office of each of the Reference Banks or, (ii) if the Reference Rate is EURIBOR, the principal Euro-zone office of each of the Reference Banks or, (iii) if otherwise, each of the Reference Banks to provide the Calculation Agent with its offered quotation (expressed as a percentage rate per annum) for the Reference Rate if the Reference Rate is LIBOR, at approximately 11.00 a.m. (London time), if the Reference Rate is EURIBOR, at approximately 11.00 a.m. (Brussels time) or, if otherwise, at the Relevant Screen Page Time on the Interest Determination Date in question. If two or more of the Reference Banks provide the Calculation Agent with such offered quotations, the

Rate of Interest for such Interest Period shall be the arithmetic mean of such offered quotations as determined by the Calculation Agent; and

- (c) if paragraph (b) above applies and the Calculation Agent determines that fewer than two Reference Banks are providing offered quotations, subject as provided below, the Rate of Interest shall be the arithmetic mean of the rates per annum (expressed as a percentage) as communicated to (and at the request of) the Calculation Agent by the Reference Banks or any two or more of them, at which such banks were offered, if the Reference Rate is LIBOR, at approximately 11.00 a.m. (London time), if the Reference Rate is EURIBOR, at approximately 11.00 a.m. (Brussels time) or, if otherwise, at the Relevant Screen Page Time on the relevant Interest Determination Date, deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate by leading banks in, if the Reference Rate is LIBOR, the London inter-bank market, if the Reference Rate is EURIBOR, the Euro-zone inter-bank market or, if otherwise, the Relevant Inter-Bank Market, as the case may be, or, if fewer than two of the Reference Banks provide the Calculation Agent with such offered rates, the offered rate for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, or the arithmetic mean of the offered rates for deposits in the Specified Currency for a period equal to that which would have been used for the Reference Rate, at which, if the Reference Rate is LIBOR, at approximately 11.00 a.m. (London time), if the Reference Rate is EURIBOR, at approximately 11.00 a.m. (Brussels time) or, if otherwise, at the Relevant Screen Page Time on the relevant Interest Determination Date, any one or more banks (which bank or banks is or are in the opinion of the Issuer suitable for such purpose) informs the Calculation Agent it is quoting to leading banks in, if the Reference Rate is LIBOR, the London inter-bank market, if the Reference Rate is EURIBOR, the Euro zone inter-bank market or, if otherwise, the Relevant Inter-Bank Market, as the case may be, provided that, if the Rate of Interest cannot be determined in accordance with the foregoing provisions of this paragraph, the Rate of Interest shall be determined as at the last preceding Interest Determination Date (though substituting, where a different Margin, Rate Multiplier or Maximum or Minimum Rate of Interest is to be applied to the relevant Interest Accrual Period from that applied to the last preceding Interest Accrual Period, the Margin or Maximum or Minimum Rate of Interest relating to the relevant Interest Accrual Period, in place of the Margin or Maximum or Minimum Rate of Interest relating to that last preceding Interest Accrual Period).
- (d) **Zero Coupon Notes:** Where a Note the Interest Basis of which is specified to be Zero Coupon is repayable prior to the Maturity Date is not paid when due, the amount due and payable prior to the Maturity Date shall be the Early Redemption Amount of such Note. As from the Maturity Date, the Rate of Interest for any overdue principal of such a Note shall be a rate per annum (expressed as a percentage) equal to the Amortisation Yield (as described in Condition 7(g)(i)).
- (e) **Accrual of Interest:** Interest shall cease to accrue on each Note on the due date for redemption unless (i) in the case of Dematerialised Notes, on such due date or (ii) in the case of Materialised Notes, upon due presentation, payment is improperly withheld or refused, in which event interest shall continue to accrue (as well after as before judgement) at the Rate of Interest in the manner provided in this Condition 6 to the Relevant Date.

- (f) **Margin, Maximum/Minimum Rates of Interest and Redemption Amounts, Rate Multipliers and Rounding:**
- (i) If any Margin or Rate Multiplier is specified in the relevant Final Terms (either (x) generally, or (y) in relation to one or more Interest Accrual Periods), an adjustment shall be made to all Rates of Interest, in the case of (x), or the Rates of Interest for the specified Interest Accrual Periods, in the case of (y), calculated in accordance with (c) above by adding (if a positive number) or subtracting the absolute value (if a negative number) of such Margin or multiplying by such Rate Multiplier, subject always to the next paragraph.
 - (ii) If any Maximum or Minimum Rate of Interest or Redemption Amount is specified in the relevant Final Terms, then any Rate of Interest or Redemption Amount shall be subject to such maximum or minimum, as the case may be.
 - (iii) For the purposes of any calculations required pursuant to these Conditions, (x) all percentages resulting from such calculations shall be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with halves being rounded up), (y) all figures shall be rounded to seven significant figures (with halves being rounded up) and (z) all currency amounts that fall due and payable shall be rounded to the nearest unit of such currency (with halves being rounded up), save in the case of yen, which shall be rounded down to the nearest yen. For these purposes “unit” means the lowest amount of such currency that is available as legal tender in the country(ies) of such currency.
- (g) **Calculations:** The amount of interest payable in respect of any Note for any period shall be calculated by multiplying the product of the Rate of Interest and the outstanding nominal amount of such Note by the Day Count Fraction, unless an Interest Amount is specified in respect of such period in the Final Terms, in which case the amount of interest payable in respect of such Note for such period shall equal such Interest Amount. Where any Interest Period comprises two or more Interest Accrual Periods, the amount of interest payable in respect of such Interest Period shall be the sum of the amounts of interest payable in respect of each of those Interest Accrual Periods.
- (h) **Determination and Publication of Rates of Interest, Interest Amounts, Final Redemption Amounts, Optional Redemption Amounts and Early Redemption Amounts:** As soon as practicable after the relevant time on such date as the Calculation Agent may be required to calculate any rate or amount, obtain any quotation or make any determination or calculation, it shall determine such rate and calculate the Interest Amounts in respect of each Specified Denomination of the Notes for the relevant Interest Accrual Period, calculate the Final Redemption Amount, Optional Redemption Amount or Early Redemption Amount, obtain such quotation or make such determination or calculation, as the case may be, and cause the Rate of Interest and the Interest Amounts for each Interest Period and the relevant Interest Payment Date and, if required to be calculated, the Final Redemption Amount, Optional Redemption Amount or Early Redemption Amount to be notified to the Fiscal Agent, the relevant Issuer, each of the Paying Agents, the Noteholders, any other Calculation Agent appointed in respect of the Notes that is to make a further calculation upon receipt of such information and, if the Notes are listed and admitted to trading on a Regulated Market and the rules of such Regulated Market so require, such exchange as soon as possible after their determination but in no event later than (i) the commencement of the relevant Interest Period, if determined prior to such time, in the case of notification to such exchange of a Rate of Interest and Interest Amount, or (ii) in all other cases, the fourth Business Day after such determination. Where any Interest Payment Date or Interest Period Date is subject to adjustment pursuant to Condition 6(c)(ii), the Interest Amounts and the Interest Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of

the Interest Period. If the Notes become due and payable under Condition 10, the accrued interest and the Rate of Interest payable in respect of the Notes shall nevertheless continue to be calculated as previously in accordance with this Condition but no publication of the Rate of Interest or the Interest Amount so calculated need be made. The determination of any rate or amount, the obtaining of each quotation and the making of each determination or calculation by the Calculation Agent(s) shall (in the absence of manifest error) be final and binding upon all parties.

- (i) **Calculation Agent and Reference Banks:** The relevant Issuer shall procure that there shall at all times be four Reference Banks (or such other number as may be required) with offices in the Relevant Financial Centre and one or more Calculation Agents if provision is made for them in the relevant Final Terms and for so long as any Note is outstanding (as defined in the Amended and Restated Agency Agreement). If any Reference Bank (acting through its relevant office) is unable or unwilling to continue to act as a Reference Bank, then the relevant Issuer shall appoint another Reference Bank with an office in the Relevant Financial Centre to act as such in its place. Where more than one Calculation Agent is appointed in respect of the Notes, references in these Conditions to the Calculation Agent shall be construed as each Calculation Agent performing its respective duties under the Conditions. If the Calculation Agent is unable or unwilling to act as such or if the Calculation Agent fails duly to establish the Rate of Interest for an Interest Period or Interest Accrual Period or to calculate any Interest Amount, Final Redemption Amount, Early Redemption Amount or Optional Redemption Amount, as the case may be, or to comply with any other requirement, the relevant Issuer shall appoint a leading bank or investment banking firm engaged in the interbank market (or, if appropriate, money, swap or over-the-counter index options market) that is most closely connected with the calculation or determination to be made by the Calculation Agent (acting through its principal Luxembourg office or any other office actively involved in such market) to act as such in its place. The Calculation Agent may not resign its duties without a successor having been appointed as aforesaid.
- (j) **RMB Notes:** Notwithstanding the foregoing, each RMB Note which is a Fixed Rate Note bears interest from (and including) the Interest Commencement Date at the rate per annum equal to the Rate of Interest. For the purposes of calculating the amount of interest, if any Interest Payment Date would otherwise fall on a day which is not a Business Day, it shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month in which case it shall be brought forward to the immediately preceding Business Day. Interest will be payable in arrear on each Interest Payment Date.

The Calculation Agent will, as soon as practicable after the Relevant Time as specified in the relevant Final Terms on each Interest Determination Date, calculate the amount of interest payable per Specified Denomination for the relevant Interest Period. The determination of the amount of interest payable per Specified Denomination by the Calculation Agent shall (in the absence of manifest error and after confirmation by the Issuer) be final and binding upon all parties.

The Calculation Agent will cause the amount of interest payable per Specified Denomination for each Interest Period and the relevant Interest Payment Date to be notified to each of the Paying Agents and to be notified to Noteholders as soon as possible after their determination but in no event later than the fourth Business Day thereafter. The amount of interest payable per Specified Denomination and Interest Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an adjustment of the Interest Period, if the Interest Payment Date is not a Business Day. If the Notes become due and payable under Condition 10, the accrued interest per Specified Denomination shall nevertheless continue to be calculated as previously by the Calculation Agent in accordance with this provision but no publication of the amount of interest payable per Specified Denomination so calculated need be made.

Interest shall be calculated in respect of any period by applying the Rate of Interest to the Specified Denomination, multiplying such product by the actual number of days in the relevant Interest Period or, as applicable, other period concerned and dividing it by 365, and rounding the resultant figure to the nearest Renminbi sub-unit, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

7 Redemption, Purchase and Options

- (a) **Final Redemption:** Unless previously redeemed or purchased and cancelled as provided below in accordance with this Condition 7 each Note shall be finally redeemed on the Maturity Date specified in the relevant Final Terms at its Final Redemption Amount (which is its nominal amount).
- (b) **Make-Whole Redemption by the Issuer:** If a Make-Whole Redemption by the relevant Issuer is specified in the relevant Final Terms, in respect of any issue of Notes, the relevant Issuer will, subject to compliance by the relevant Issuer with all relevant laws, regulations and directives and on giving not less than 15 nor more than 30 calendar days' irrevocable notice in accordance with Condition 15 to the Noteholders (or such other notice period as may be specified in the relevant Final Terms), have the option to redeem the Notes, in whole or in part, at any time or from time to time, prior to their Maturity Date (the "**Optional Redemption Date**") at their Optional Redemption Amount. The Optional Redemption Amount will be calculated by the Calculation Agent and will be the greater of (x) 100 per cent. of the nominal amount of the Notes so redeemed and, (y) the sum of the then present values of the remaining scheduled payments of principal and interest on such Notes (not including any interest accrued on the Notes to, but excluding, the relevant Optional Redemption Date) discounted to the relevant Optional Redemption Date on an annual basis at the Redemption Rate plus a Redemption Margin (as specified in the relevant Final Terms), plus in each case (x) or (y) above, any interest accrued on the Notes to, but excluding, the Optional Redemption Date.

The "**Redemption Rate**" is the average of the four quotations given by the Reference Dealers of the mid-market annual yield to maturity of the Reference Security (as specified in the relevant Final Terms) on the fourth business day preceding the Optional Redemption Date at 11.00 a.m. (Central European time (CET)).

"**Reference Dealers**" means each of the four banks selected by the Calculation Agent which are primary European government security dealers, and their respective successors, or market makers in pricing corporate bond issues or as specified in the relevant Final Terms.

If the Reference Security is no longer outstanding, a Similar Security (as specified in the relevant Final Terms) will be chosen by the Calculation Agent at 11.00 a.m. (Central European time (CET)) on the third business day in London preceding the Optional Redemption Date, quoted in writing by the Calculation Agent to the relevant Issuer and notified in accordance with Condition 15.

The Redemption Rate will be notified by the relevant Issuer in accordance with Condition 15.

The determination of any rate or amount, the obtaining of each quotation and the making of each determination or calculation by the Calculation Agent shall (in the absence of manifest error) be final and binding upon all parties.

In the case of a partial redemption or a partial exercise of an Issuer's option in respect of Materialised Notes, the notice to holders of such Materialised Notes shall also contain the number of the Definitive Materialised Bearer Notes to be redeemed or in respect of which such option has been exercised, which shall have been drawn in such place and in such manner as may be fair and reasonable in the circumstances, taking account of prevailing market practices, subject to compliance with any applicable laws and stock exchange requirements.

In the case of a partial redemption of, or a partial exercise of an Issuer's option in respect of, Dematerialised Notes of any Series, the redemption may be effected, at the option of the relevant Issuer, either (i) by reducing the nominal amount of all such Dematerialised Notes in proportion to the aggregate nominal amount redeemed or (ii) by redeeming in full some only of such Dematerialised Notes and, in such latter case, the choice between those Dematerialised Notes that will be fully redeemed and those Dematerialised Notes that will not be redeemed shall be made in accordance with Article R.213-16 of the Code, subject to compliance with any other applicable laws and stock exchange requirements. In no event, the outstanding nominal amount of each Note following such reduction shall be below any amount which would prevent the relevant Issuer from choosing its home Member State (as such term is defined in the Prospectus Directive).

Any notice given by the relevant Issuer pursuant to this Condition 7(b) shall be deemed void and of no effect in relation to any Note in the event that, prior to the giving of such notice by the Issuer, the relevant Noteholder had already delivered an Exercise Notice in relation to such Note in accordance with Condition 7(f) below.

So long as the Notes are listed and admitted to trading on any Regulated Market and the rules of such Regulated Market so require, the relevant Issuer shall, once in each year in which there has been a partial redemption of the Notes, cause to be published in a leading newspaper with general circulation in the city where the Regulated Market is located or, so long as the Notes are listed on the official list of the Luxembourg Stock Exchange and admitted to trading on the Regulated Market of the Luxembourg Stock Exchange and so long as the rules of the Luxembourg Stock Exchange so permit, on the website of the Luxembourg Stock Exchange (www.bourse.lu), a notice specifying the aggregate nominal amount of Notes outstanding and, in the case of Materialised Notes, a list of any Definitive Materialised Bearer Notes drawn for redemption but not surrendered.

- (c) **Redemption at the Option of the Issuer, Exercise of Issuer's Options and Partial Redemption:** If a Call Option is specified in the relevant Final Terms, the relevant Issuer may, on giving not less than 15 nor more than 30 calendar days' irrevocable notice in accordance with Condition 15 to the Noteholders (or such other notice period as may be specified in the relevant Final Terms) redeem, or exercise any Issuer's option (as may be described) in relation to, all or, if so provided, some, of the Notes on any Optional Redemption Date or Option Exercise Date, as the case may be. Any such redemption of Notes shall be at their Optional Redemption Amount together with interest accrued to the date fixed for redemption, if any. Any such redemption or exercise must relate to Notes of a nominal amount at least equal to the minimum nominal amount to be redeemed specified in the relevant Final Terms and no greater than the maximum nominal amount to be redeemed specified in the relevant Final Terms.

All Notes in respect of which any such notice is given shall be redeemed, or the Issuer's option shall be exercised, on the date specified in such notice in accordance with this Condition.

In the case of a partial redemption or a partial exercise of an Issuer's option in respect of Materialised Notes, the notice to holders of such Materialised Notes shall also contain the number of the Definitive Materialised Bearer Notes to be redeemed or in respect of which such option has been exercised, which shall have been drawn in such place and in such manner as may be fair and reasonable in the circumstances, taking account of prevailing market practices, subject to compliance with any applicable laws and stock exchange requirements.

In the case of a partial redemption of or a partial exercise of an Issuer's option in respect of Dematerialised Notes of any Series, the redemption may be effected, at the option of the relevant Issuer, either (i) by reducing the nominal amount of all such Dematerialised Notes in proportion to the

aggregate nominal amount redeemed or (ii) by redeeming in full some only of such Dematerialised Notes and, in such latter case, the choice between those Dematerialised Notes that will be fully redeemed and those Dematerialised Notes that will not be redeemed shall be made in accordance with Article R.213-16 of the Code, subject to compliance with any other applicable laws and stock exchange requirements.

So long as the Notes are listed and admitted to trading on any Regulated Market and the rules of such Regulated Market so require, the relevant Issuer shall, once in each year in which there has been a partial redemption of the Notes, cause to be published in a leading newspaper with general circulation in the city where the Regulated Market is located or, so long as the Notes are listed on the official list of the Luxembourg Stock Exchange and admitted to trading on the Regulated Market of the Luxembourg Stock Exchange and so long as the rules of the Luxembourg Stock Exchange so permit, on the website of the Luxembourg Stock Exchange (www.bourse.lu), a notice specifying the aggregate nominal amount of Notes outstanding and, in the case of Materialised Notes, a list of any Definitive Materialised Bearer Notes drawn for redemption but not surrendered.

(d) **Residual Maturity Call Option:**

If a Residual Maturity Call Option is specified in the relevant Final Terms, the relevant Issuer may, on giving not less than 15 nor more than 30 calendar days' irrevocable notice (or such other notice period if specified in the relevant Final Terms) in accordance with Condition 15 to the Noteholders redeem the Notes, in whole but not in part, at par together with interest accrued to, but excluding, the date fixed for redemption, at any time as from the "Call Option Date" specified in the relevant Final Terms, which shall be no earlier than (i) three months before the Maturity Date in respect of Notes having a maturity of not more than ten years or (ii) six months before the Maturity Date in respect of Notes having a maturity of more than ten years, until the Maturity Date.

For the purpose of the preceding paragraph, the maturity of not more than ten years or the maturity of more than ten years shall be determined as from the Issue Date of the first Tranche of the relevant Series of Notes.

All Notes in respect of which any such notice is given shall be redeemed on the date specified in such notice in accordance with this Condition.

(e) **Clean-Up Call Option:**

If so specified in the relevant Final Terms, in the event that at least 80 per cent. of the initial aggregate principal amount of the Notes has been purchased and cancelled by the Issuer, the Issuer may, at its option (the "**Clean-Up Call Option**") but subject to having given not less than 15 nor more than 30 calendar days' irrevocable notice to the Noteholders in accordance with Condition 15, redeem all, but not some only, of the outstanding Notes at their Clean-Up Redemption Amount together with any interest accrued to the date set for redemption (as specified in the relevant Final Terms).

(f) **Redemption at the Option of Noteholders and Exercise of Noteholders' Options:**

(A) Redemption at the Option of the Noteholders following a Put Option:

If a Put Option is specified in the relevant Final Terms, the relevant Issuer shall, at the option of the Noteholder, upon the Noteholder giving not less than 15 nor more than 30 calendar days' notice to the Issuer (or such other notice period as may be specified in the relevant Final Terms) redeem such Note on the Optional Redemption Date(s) at its Optional Redemption Amount together with interest accrued to the date fixed for redemption.

To exercise such option or any other Noteholders' option that may be set out in the relevant Final Terms (which must be exercised on an Option Exercise Date) the Noteholder must deposit with a Paying Agent at its specified office a duly completed option exercise notice (the "**Exercise Notice**") in the form obtained from any Paying Agent, within the notice period. In the case of Materialised Bearer Notes, the Exercise Notice shall have attached to it the relevant Notes (together with all unmatured Coupons and unexchanged Talons). In the case of Dematerialised Notes, the Noteholder shall transfer, or cause to be transferred, the Dematerialised Notes to be redeemed to the account of the Fiscal Agent or the Paying Agent with a specified office in Paris as specified in the Exercise Notice. No option so exercised and, where applicable, no Note so deposited or transferred, may be withdrawn without the prior consent of the Issuer.

(B) Redemption at the Option of Noteholders following a Change of Control Put Option:

If a Change of Control Put Option is specified in the relevant Final Terms and if at any time while any Note remains outstanding there occurs (i) a Change of Control and (ii) within the Change of Control Period a Rating Downgrade occurs as a result of that Change of Control or as a result of a Potential Change of Control (the occurrence of (i) and (ii) together constitutes a "**Put Event**"), then the holder of each Note will have the option (the "**Put Option**") (unless, prior to the giving of the Put Event Notice (as defined below), the Issuer gives notice of its intention to redeem the Note under Condition 7) to require the Issuer to redeem or, at the Issuer's option, to procure the purchase of that Note on the Optional Redemption Date (as defined below) at its principal amount together with (or, where purchased, together with an amount equal to) accrued interest to but excluding the Optional Redemption Date.

A "**Change of Control**" shall be deemed to have occurred at each time that any person or persons acting in concert come(s) to own or acquire(s) (i) more than 50 per cent. of the issued share capital of L'Air Liquide or (b) such number of the shares in the capital of L'Air Liquide carrying more than 50 per cent. of the voting rights.

"**Change of Control Period**" means:

(i) Pursuant to a Change of Control, the period commencing on the date of the public announcement of the result (*avis de résultat*) by the *Autorité des marchés financiers* (the "**AMF**") of the relevant Change of Control and ending on the date which is 90 calendar days (inclusive) after the date of the public announcement by the AMF of the relevant Change of Control, or

(ii) Pursuant to a Potential Change of Control, the period commencing 180 calendar days prior to the date of the public announcement of the result (*avis de résultat*) by the AMF of the relevant Change of Control and ending on the date of such announcement (inclusive).

"**Rating Agency**" means Standard & Poor's Rating Services or Moody's Investors Service or any other rating agency of equivalent international standing requested from time to time by the Issuer to grant a rating to the Notes and, in each case, their respective successors or affiliates.

A "**Rating Downgrade**" shall be deemed to have occurred in respect of a Change of Control or in respect of a Potential Change of Control if within the Change of Control Period:

(A) the credit rating previously assigned to the Notes by any Rating Agency is (x) withdrawn or (y) changed from an investment grade credit rating (BBB-, or its respective equivalents for the time being, or better) to a non-investment grade credit rating (BB+, or its respective equivalents for the time being, or worse) or (z) if the credit rating previously assigned to the Notes by any Rating Agency was below an investment grade credit rating (as described above), lowered by at least one full rating notch, or

(B) the Notes were not previously assigned with a credit rating by any Rating Agency and no Rating Agency assigns an investment grade credit rating to such Notes, unless L’Air Liquide has a credit rating from a Rating Agency, in which case paragraph (A) shall apply to the credit rating assigned to L’Air Liquide by any Rating Agency; and

provided that (i) a Rating Downgrade otherwise arising by virtue of a particular change in credit rating shall be deemed not to have occurred in respect of a particular Change of Control or Potential Change of Control, as the case may be, if the Rating Agency making the change in credit rating does not publicly announce or publicly confirm that the reduction was the result of the Change of Control or the Potential Change of Control, as the case may be, and (ii) any Rating Downgrade has to be confirmed in a letter, or other form of written communication, sent to the Issuer and publicly disclosed.

“**Potential Change of Control**” means any public announcement or statement by L’Air Liquide, any actual or potential bidder relating to any potential Change of Control of L’Air Liquide.

Promptly upon the Issuer becoming aware that a Put Event has occurred, the Issuer shall give notice (a “**Put Event Notice**”) to the Noteholders in accordance with Condition 15 specifying the nature of the Put Event and the circumstances giving rise to it and the procedure for exercising the Put Option.

To exercise the Put Option to require redemption or, as the case may be, purchase of a Note following a Put Event, the holder of that Note must transfer or cause to be transferred by its Account Holder its Notes to be so redeemed to the account of the Fiscal Agent in the Put Option Notice for the account of the Issuer within the period (the “**Put Period**”) of 45 calendar days after the Put Event Notice is given together with a duly signed and completed notice of exercise in the form (for the time being current) obtainable from the specified office of any Paying Agent (as applicable) (a “**Put Option Notice**”) and in which the holder may specify a bank account to which payment is to be made.

The Issuer shall redeem or, at the option of the Issuer procure the purchase of, the Notes in respect of which the Put Option has been validly exercised as provided above, and subject to the transfer of such Notes to the account of the Fiscal Agent for the account of the Issuer as described above on the date which is the fifth Business Day following the end of the Put Period (the “**Optional Redemption Date**”). Payment in respect of any Note so transferred will be made in Euro to the holder to the specified Euro-denominated bank account in the Put Option Notice on the Optional Redemption Date via the relevant Account Holders.

(g) **Early Redemption:**

(i) *Zero Coupon Notes:*

(A) The Early Redemption Amount payable in respect of any Zero Coupon Note upon redemption of such Note pursuant to Condition 7(h) or Condition 7(k) or upon it becoming due and payable as provided in Condition 10 shall be the Amortised Nominal Amount (calculated as provided below) of such Note.

(B) Subject to the provisions of sub-paragraph (C) below, the Amortised Nominal Amount of any such Note shall be the scheduled Final Redemption Amount of such Note on the Maturity Date discounted at a rate per annum (expressed as a percentage) equal to the Amortisation Yield (which, if none is shown in the relevant Final Terms, shall be such rate as would produce an Amortised Nominal Amount equal to the issue price of the Notes if they were discounted back to their issue price on the Issue Date) compounded annually.

(C) If the Early Redemption Amount payable in respect of any such Note upon its redemption pursuant to Condition 7(h) or Condition 7(k) or upon it becoming due and payable as provided in Condition 10 is not paid when due, the Early Redemption Amount due and payable in respect of such Note shall be the Amortised Nominal Amount of such Note as defined in sub-paragraph (B) above, except that such sub-paragraph shall have effect as though the date on which the Amortised Nominal Amount becomes due and payable were the Relevant Date. The calculation of the Amortised Nominal Amount in accordance with this sub-paragraph shall continue to be made (as well after as before judgement) until the Relevant Date, unless the Relevant Date falls on or after the Maturity Date, in which case the amount due and payable shall be the scheduled Final Redemption Amount of such Note on the Maturity Date together with any interest that may accrue in accordance with Condition 6(d).

Where such calculation is to be made for a period of less than one year, it shall be made on the basis of the Day Count Fraction shown in the relevant Final Terms.

(ii) *Other Notes:* The Early Redemption Amount payable in respect of any Note (other than Notes described in (i) above), upon redemption of such Note pursuant to Condition 7(h) or Condition 7(k), or upon it becoming due and payable as provided in Condition 10 shall be the Final Redemption Amount.

(h) **Redemption for Taxation Reasons:**

(i) If, by reason of any change in, or any change in the official application or interpretation of, French law, becoming effective after the Issue Date, the relevant Issuer or, as the case may be, the Guarantor (in respect of the Guarantee), would on the occasion of the next payment of principal or interest due in respect of the Notes, not be able to make such payment without having to pay additional amounts as specified under Condition 9 below, the relevant Issuer may, at its option, on any Interest Payment Date or, if so specified in the relevant Final Terms, at any time, subject to having given not more than 45 nor less than 30 calendar days' notice to the Noteholders (which notice shall be irrevocable), in accordance with Condition 15, redeem all, but not some only, of the Notes at their Early Redemption Amount together with any interest accrued to the date set for redemption provided that the due date for redemption of which notice hereunder may be given shall be no earlier than the latest practicable date on which the relevant Issuer or the Guarantor, as the case may be, could make payment of principal and interest without withholding for such French taxes.

(ii) If the relevant Issuer or, as the case may be, the Guarantor (in respect of the Guarantee), would, on the next payment of principal or interest in respect of the Notes, be prevented by French law from making payment to the Noteholders or, if applicable, the holders of the Coupons (the "**Couponholders**") of the full amounts then due and payable, notwithstanding the undertaking to pay additional amounts contained in Condition 9 below, then the relevant Issuer, shall forthwith give notice of such fact to the Fiscal Agent and the relevant Issuer shall upon giving not less than seven calendar days' prior notice to the Noteholders in accordance with Condition 15, redeem all, but not some only, of the Notes then outstanding at their Early Redemption Amount (as described in Condition 7(g) above) together with any interest accrued to the date set for redemption on the latest practicable Interest Payment Date on which the relevant Issuer or the Guarantor, as the case may be, could make payment of the full amount then due and payable in respect of the Notes or, if applicable, Coupons, or, if that date is passed, as soon as practicable thereafter.

- (i) **Purchases:** The relevant Issuer shall have the right at all times to purchase Notes (provided that, in the case of Materialised Notes, all unmatured Coupons and unexchanged Talons relating thereto are attached thereto or surrendered therewith) in the open market or otherwise at any price. Unless the possibility of holding and reselling is expressly excluded, all Notes so purchased by the relevant Issuer may be held and resold for the purpose of enhancing the liquidity of the Notes in accordance with Articles L.213-1 A and D.213-1 A of the Code.
- (j) **Cancellation:** All Notes purchased by or on behalf of the relevant Issuer for cancellation shall forthwith be cancelled, in the case of Dematerialised Notes, by transfer to an account in accordance with the rules and procedures of Euroclear France and, in the case of Materialised Bearer Notes, by surrendering the Temporary Global Certificate or the Definitive Materialised Bearer Notes in question together with all unmatured Coupons and all unexchanged Talons to the Fiscal Agent and, in each case, if so transferred or surrendered, shall, together with all Notes redeemed by the relevant Issuer, be cancelled forthwith (together with, in the case of Dematerialised Notes, all rights relating to payment of interest and other amounts relating to such Dematerialised Notes and, in the case of Materialised Notes, all unmatured Coupons and unexchanged Talons attached thereto or surrendered therewith). Any Notes so cancelled or, where applicable, transferred or surrendered for cancellation may not be reissued or resold and the obligations of the relevant Issuer and the Guarantor in respect of any such Notes shall be discharged.
- (k) **Illegality:** If, by reason of any change in French law or any change in the official application of such law, becoming effective after the Issue Date, it will become unlawful (i) for the relevant Issuer to perform or comply with one or more of its obligations under the Notes, [or (ii) for the Guarantor to perform or comply with one or more of its obligations under the Guarantee] the relevant Issuer [which in the case of (ii) above, shall be the issuer of the Notes guaranteed by the Guarantor] will, subject to having given not more than 45 nor less than 30 calendar days' notice to the Noteholders (which notice shall be irrevocable), in accordance with Condition 15, redeem all, but not some only, of the Notes at their Early Redemption Amount together with any interest accrued to the date set for redemption.

8 Payments and Talons

- (a) **Dematerialised Notes:** Payments of principal and interest in respect of Dematerialised Notes shall be made (i) (in the case of Dematerialised Notes in bearer dematerialised form or administered registered dematerialised form) by transfer to the account denominated in the relevant currency of the relevant Euroclear France Account Holders for the benefit of the relevant Noteholder and (ii) (in the case of Dematerialised Notes in fully registered form), to an account denominated in the relevant currency with a Bank designated by the relevant Noteholder. All payments validly made to such Euroclear France Account Holders will constitute an effective discharge of the relevant Issuer in respect of such payments.
- (b) **Materialised Bearer Notes:** Payments of principal and interest in respect of Materialised Bearer Notes shall, subject as mentioned below, be made against presentation and surrender of the relevant Materialised Bearer Notes (in the case of all other payments of principal and, in the case of interest, as specified in Condition 8(f)(v)) or Coupons (in the case of interest, save as specified in Condition 8(f)(v)), as the case may be:
 - (i) in the case of a currency other than RMB, at the specified office of any Paying Agent outside the United States by a cheque payable in the relevant currency drawn on, or, at the option of the Noteholder, by transfer to an account denominated in such currency with, a Bank; and
 - (ii) in the case of RMB, by transfer to a RMB account maintained by or on behalf of the Noteholder with a Bank.

“**Bank**” means a bank in the principal financial centre for such currency or, in the case of Renminbi in Hong Kong or in the relevant Business Centre (if any), and in the case of euro, in a city in which banks have access to the TARGET System.

- (c) **Payments in the United States:** Notwithstanding the foregoing, if any Materialised Bearer Notes are denominated in US Dollars, payments in respect thereof may be made at the specified office of any Paying Agent in New York City in the same manner as aforesaid if (i) the relevant Issuer shall have appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment of the amounts on the Notes in the manner provided above when due, (ii) payment in full of such amounts at all such offices is illegal or effectively precluded by exchange controls or other similar restrictions on payment or receipt of such amounts and (iii) such payment is then permitted by United States law, without involving, in the opinion of the relevant Issuer, any adverse tax consequence to the relevant Issuer or the Guarantor, if payment is being made under the Guarantee.
- (d) **Payments Subject to Fiscal Laws:** All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives in the place of payment but without prejudice to the provisions of Condition 9. No commission or expenses shall be charged to the Noteholders or Couponholders in respect of such payments.
- (e) **Appointment of Agents:** The Fiscal Agent, the Paying Agents, the Calculation Agent, the Redenomination Agent and the Consolidation Agent initially appointed under the Amended and Restated Agency Agreement and their respective specified offices are listed below. The Fiscal Agent, the Paying Agents, the Redenomination Agent, the Registration Agent and the Consolidation Agent act solely as agents of each Issuer and the Calculation Agent(s) act(s) as independent experts(s) and, in each case such, do not assume any obligation or relationship of agency for any Noteholder or Couponholder. The Issuers reserve the right at any time to vary or terminate the appointment of the Fiscal Agent, any other Paying Agent, the Redenomination Agent, the Registration Agent and the Consolidation Agent or the Calculation Agent(s) and to appoint additional or other Paying Agents, provided that the Issuers shall at all times maintain (i) a Fiscal Agent, (ii) one or more Calculation Agent(s) where the Conditions so require, (iii) a Redenomination Agent and a Consolidation Agent where the Conditions so require, (iv) a Paying Agent having specified offices in at least one major European city, (v) such other agents as may be required by any other stock exchange on which the Notes may be listed and admitted to trading and (vi) a Paying Agent with a specified office in a European Union Member State other than Austria that will not be obliged to withhold or deduct tax pursuant to European Council Directive 2003/48/EC of 3 June 2003 on taxation of savings income in the form of interest payments or any other EU Directive implementing the conclusions of the ECOFIN Council Meeting of 26th-27th November 2000 on the taxation of savings income, or any law implementing or complying with, or introduced in order to conform to, such European Council Directive 2003/48/EC of 3 June 2003 and (vii) such other agents as may be required by the rules of any other stock exchange on which the Notes may be listed and admitted to trading.

In addition, the Issuers (or the Guarantor, if payment is being made under the Guarantee) shall forthwith appoint a Paying Agent in New York City in respect of any Materialised Bearer Notes denominated in US Dollars in the circumstances described in paragraph (c) above.

On a redenomination of the Notes of any Series pursuant to Condition 1(d) with a view to consolidating such Notes with one or more other Series of Notes, in accordance with Condition 14, the Issuer shall ensure that the same entity shall be appointed as both Redenomination Agent and Consolidation Agent in respect of both such Notes and such other Series of Notes to be so consolidated with such Notes.

Notice of any such change or any change of any specified office shall promptly be given to the Noteholders in accordance with Condition 15.

(f) **Unmatured Coupons and unexchanged Talons:**

- (i) Unless Materialised Bearer Notes provide that the relative Coupons are to become void upon the due date for redemption of those Notes, Materialised Bearer Notes should be surrendered for payment together with all unexpired Coupons (if any) relating thereto, failing which an amount equal to the face value of each missing unexpired Coupon (or, in the case of payment not being made in full, that proportion of the amount of such missing unexpired Coupon that the sum of principal so paid bears to the total principal due) shall be deducted from the Final Redemption Amount, Amortised Nominal Amount, Early Redemption Amount or Optional Redemption Amount, as the case may be, due for payment. Any amount so deducted shall be paid in the manner mentioned above against surrender of such missing Coupon within a period of 10 years from the Relevant Date for the payment of such principal (whether or not such Coupon has become void pursuant to Condition 11) provided that, if any Materialised Bearer Note should be issued with a maturity date and an Interest Rate or Rates such that, on the presentation for payment of any such Note without any unexpired Coupons attached thereto or surrendered therewith, the amount required to be deducted in respect of such unexpired Coupons would be greater than the relevant Redemption Amount otherwise due for payment, then, upon the due date for redemption of any such Note, such unexpired Coupons (whether or not attached) shall become void (and no payment shall be made in respect thereof) as shall be required so that, upon application of the foregoing provisions in respect of such Coupons as have not so become void, the amount required by this paragraph to be deducted would not be greater than the relevant Redemption Amount otherwise due for payment. Where the application of the foregoing provisions requires some but not all of the unexpired Coupons relating to a Materialised Bearer Note to become void and shall select for such purpose Coupons maturing on later dates in preference to Coupons maturing on earlier dates.
- (ii) If Materialised Bearer Notes so provide, upon the due date for redemption of any such Materialised Bearer Note, unexpired Coupons relating to such Note (whether or not attached) shall become void and no payment shall be made in respect of them.
- (iii) Upon the due date for redemption of any Materialised Bearer Note, any unexpired Talon relating to such Note (whether or not attached) shall become void and no Coupon shall be delivered in respect of such Talon.
- (iv) Where any Materialised Bearer Note that provides that the relative unexpired Coupons are to become void upon the due date for redemption of those Notes is presented for redemption without all unexpired Coupons, and where any such Note is presented for redemption without any unexpired Talon relating to it, redemption shall be made only against the provision of such indemnity as the Issuer and the Guarantor, as the case may be, may require.
- (v) If the due date for redemption of any Materialised Bearer Note is not a due date for payment of interest, interest accrued from the preceding due date for payment of interest or the Interest Commencement Date, as the case may be, shall only be payable against presentation (and surrender if appropriate) of the relevant Definitive Materialised Bearer Note. Interest accrued on a Materialised Bearer Note that only bears interest after its Maturity Date shall be payable on redemption of such Note against presentation of the relevant Materialised Bearer Notes.

- (g) **Talons:** On or after the Interest Payment Date for the final Coupon forming part of a Coupon sheet issued in respect of any Materialised Bearer Note, the Talon forming part of such Coupon sheet may be

surrendered at the specified office of the Fiscal Agent in exchange for a further Coupon sheet (and if necessary another Talon for a further Coupon sheet) (but excluding any Coupons that may have become void pursuant to Condition 11) provided that, in respect of Notes listed on the official list of the Luxembourg Stock Exchange and admitted to trading on the Regulated Market of the Luxembourg Stock Exchange, such exchange shall always take place at the specified office of the Fiscal Agent or of the Paying Agent, as a case may be.

- (h) **Non-Business Days:** If any date for payment in respect of any Note or Coupon is not a business day, the Noteholder shall not be entitled to payment until the next following business day nor to any interest or other sum in respect of such postponed payment. In this paragraph, “business day” means a day (other than a Saturday or a Sunday) (A) (i) in the case of Dematerialised Notes, on which Euroclear France is open for business or (ii) in the case of Materialised Notes, on which banks and foreign exchange markets are open for business in the relevant place of presentation, (B) on which banks and foreign exchange markets are open for business in such jurisdictions as shall be specified as “Financial Centres” in the relevant Final Terms and (C) (i) in the case of a payment in a currency other than euro and RMB, where payment is to be made by transfer to an account maintained with a bank in the relevant currency, on which foreign exchange transactions may be carried on in the relevant currency in the principal financial centre of the country of such currency or (ii) in the case of a payment in euro, which is a TARGET Business Day or (iii) in the case of a payment in RMB, on which banks and foreign exchange markets are open for business and settlement of RMB payments in Hong Kong or in the Relevant Business Centre (if any).
- (i) **Payment of US Dollar Equivalent:** Notwithstanding any other provision in these Conditions, if by reason of Inconvertibility, Non-Transferability or Illiquidity or if Renminbi is otherwise not available to the relevant Issuer or the Guarantor, as the case may be, as a result of circumstances beyond their control and such unavailability has been independently confirmed by a Renminbi Dealer, neither the relevant Issuer nor the Guarantor is able to satisfy payments of principal or interest (in whole or in part) in respect of RMB Notes, the relevant Issuer or the Guarantor, as the case may be, on giving not less than five nor more than 30 calendar days irrevocable notice to the Noteholders prior to the due date for payment, may settle any such payment (in whole or in part) in US Dollars on the due date at the US Dollar Equivalent of any such Renminbi denominated amount.

In such event, payments of the US Dollar Equivalent of the relevant principal or interest in respect of the RMB Notes shall be made by transfer to the U.S. dollar account of the relevant Account Holders for the benefit of the Noteholders. For the avoidance of doubt, no such payment of the US Dollar Equivalent shall by itself constitute a default in payment within the meaning of Condition 10.

All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition 8(i) by the RMB Rate Calculation Agent, will (in the absence of manifest error) be binding on the Issuers, the Agents and all Noteholders.

For the purposes of this Condition 8(i):

“**Governmental Authority**” means any *de facto* or *de jure* government (or any agency or instrumentality thereof), court, tribunal, administrative or other governmental authority or any other entity (private or public) charged with the regulation of the financial markets (including the central bank) of Hong Kong or the ROC or any other relevant jurisdiction of a Renminbi offshore market.

“**Illiquidity**” means that the general Renminbi exchange market in Hong Kong or the ROC or any other relevant jurisdiction of a Renminbi offshore market becomes illiquid, other than as a result of an event of Inconvertibility or Non-Transferability, as determined by the relevant Issuer or the Guarantor,

as the case may be, in good faith and in a commercially reasonable manner following consultation with two Renminbi Dealers, as a result of which event the relevant Issuer or the Guarantor, as the case may be, cannot, each having used its reasonable endeavours, obtain sufficient Renminbi in order to fully satisfy its obligation to pay interest or principal in respect of the RMB Notes or, as the case may be, the Guarantee.

“**Inconvertibility**” means the occurrence of any event that makes it impossible for the relevant Issuer or the Guarantor, as the case may be, to convert any amount due in respect of RMB Notes or the Guarantee, as the case may be, in the general Renminbi exchange market in Hong Kong or the ROC or any other relevant jurisdiction of a Renminbi offshore market, other than where such impossibility is due solely to the failure of the relevant Issuer or the Guarantor, as the case may be, to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after the Issue Date and it is impossible for the relevant Issuer or the Guarantor, as the case may be, due to an event beyond its control, to comply with such law, rule or regulation).

“**Non-Transferability**” means the occurrence of any event that makes it impossible for the relevant Issuer or the Guarantor, as the case may be, to deliver Renminbi between accounts inside Hong Kong or the ROC or any other relevant jurisdiction of a Renminbi offshore market or from an account inside Hong Kong or the ROC or any other relevant jurisdiction of a Renminbi offshore market to an account outside Hong Kong or the ROC or any other relevant jurisdiction of a Renminbi offshore market, other than where such impossibility is due solely to the failure of the relevant Issuer or the Guarantor, as the case may be, to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after the Issue Date and it is impossible for the relevant Issuer or the Guarantor, as the case may be, due to an event beyond its control, to comply with such law, rule or regulation).

Business of L’Air Liquide - Recent Developments since 1 January 2016

Europe

- On 28 January 2016, Air Liquide published the following press release: “Air Liquide awarded two contracts in the satellite propulsion market. Air Liquide has signed two multi-year contracts recently, a total worth of €20 million, for the supply of high purity xenon in the all-electric propulsion satellite market: one with Airbus Defence and Space, the world leader in high power electric satellites and one with Thales Alenia Space, leader in High Throughput Satellites. The worldwide demand for telecom satellites is driven by replacement of old satellites and business growth from new services. Xenon is a very scarce gas on Earth. Air Liquide, world leader for xenon, uses its proprietary technologies to extract xenon from air and relies on diversified sourcing capabilities to ensure a sustainable supply. Advanced analytical equipment is used to produce customer-specific xenon, from standard to ultra-high purity, for

the industrial, medical, electronics and space sectors. Its density, potential for ionization and inertness make this noble gas extremely valuable for different applications, such as the electric propulsion of satellites. High purity xenon is used as propellant for the satellite's orbit raising and station-keeping. Satellite propulsion recently entered a new era with the development of all-electric engines, a breakthrough technology that has revolutionized the satellite industry. These engines use energy produced by the satellite's solar panels to eject a gas (usually xenon), which then generates the thrust. All-electric engines increase the satellite's load capacity by 50%, greatly reducing launching costs. In the coming years, at least one-third of the market is expected to switch to this technology. Guy Salzgeber, Senior Vice-President, Europe Industries and member of the Air Liquide group's Executive Committee, commented: "We are proud to have been chosen by Airbus Defence and Space and by Thales Alenia Space as their technological partner for the supply of high purity xenon. Through these contracts, we are happy to contribute to the European leadership in satellite construction by bringing our expertise in the management of sourcing and in the supply chain of noble gases which it requires."

- On 9 February 2016, Air Liquide published the following press release: "France: Air Liquide's plant of the future project is certified "technological showcase" by the Industry of the Future Alliance. A first in the industrial gases sector, the project lead by Air Liquide's Large Industries activities in France was certified "technological showcase" by the Industry of the Future Alliance (*Alliance Industrie du Futur*), an association gathering Industry and Digital Technology professional organizations in order to secure, in particular, the French "Industry of the Future" plan deployment. Named Connect, the project in which Air Liquide will invest €20 million by 2017, is in line with the Group's digital transformation and relies on the introduction of new technologies in the teams' daily work. With Connect, Air Liquide is creating in France a remote operations and optimization center that is unique in the industrial gases industry, one that will be able to control and optimize the production, energy efficiency and reliability of the Large Industries sites, or carry out predictive maintenance actions. Around 20 sites in France, that produce and supply by pipeline industrial customers with oxygen, nitrogen, argon and hydrogen throughout the country, will be connected to this national control center located in the Greater Lyon area. Thanks to big data analysis, the production flows of each site could be adapted in real time to the needs of each customer. Expected to start operations in 2017, the center will control production and energy consumption while the on-site teams will focus on the safety and availability of the equipment. Air Liquide's plant of the future project notably aims to introduce the latest digital technologies (3D scanning, augmented reality, touch tablets, video tutorials, etc.) into the on-site teams' daily work. Around ten new technologies are currently being tested or deployed at the production sites, to optimize maintenance operations or encourage networking, for example. Connect is part of an open innovation approach involving the local economy, the French ecosystem for technology start-ups and the on-site production teams. It brings together over 100 local businesses, including more than 10 French start-ups. The project, which is intentionally collaborative, gathers teams from each Large Industries site in France and the other Group entities including in particular the i-Lab, Air Liquide's innovation lab. This collaborative approach helps develop new skills for production and maintenance teams, which will be completed by the training programs included in the project. Guy Salzgeber, Senior Vice-President, Europe Industries and member of the Air Liquide group's Executive Committee, commented: "We are proud to be certified among the first technological showcases by the Industry of the Future Alliance. With Connect, Air Liquide is taking a major step forward in its digital transformation by beginning a large-scale roll-out of the plant of the future, throughout the whole country. After Cryocap™ 1, this is another world first for the Group, rolled-out in France, and a technological showcase for the Large Industries business. As an integral part of the project and key to its success, the open innovation process enables us to identify new usages and efficiency levers unexplored until then."

- On 9 February 2016, Air Liquide published the following press release: “Air Liquide announces the acquisition of a service leader specialized in temperature-controlled logistics for the pharmaceutical industry. CRYO International, an Air Liquide group subsidiary specializing in temperature-controlled (maintained at constant temperature (positive or negative) using cold sources such as CARBOGLACE™ or liquid nitrogen) logistics solutions, has just acquired PDP Couriers, a major player in the customized transport of high value-added products for the pharmaceutical and biotechnology industries. Based in the UK, PDP Couriers has over 120 employees at 14 locations worldwide. The company generated revenues of approximately €21 million in 2015. PDP Couriers has grown significantly in Eastern Europe, Latin America and Asia over the past few years. Safety, punctuality and reliability are key in the transport sector for temperature-sensitive samples and products in the pharmaceutical industry, particularly in the clinical research area. PDP Couriers is one of the specialists in this sector with an international presence. This acquisition is a new phase in the strategy initiated in the past few years by CRYO International, whose goal is to be able to offer its customers innovative and customized temperature-controlled logistics solutions anywhere in the world. Guy Salzgeber, Senior Vice-President, Europe Industries, and a member of the Air Liquide group’s Executive Committee, commented: “Cryo International illustrates the Group’s intention to seize growth opportunities in adjacent markets. The acquisition of PDP Couriers is very much in line with this approach. We are delighted to welcome these new employees to Air Liquide.” Cédric Picaud, Chief Executive Officer of CRYO International, added: “With this acquisition we are combining our know-how in CARBOGLACE™ and temperature-controlled solutions with a premium logistics service. This expansion in our activities supports the geographical growth of our customers and their need for services with increased added value.””
- On 17 March 2016, Air Liquide published the following permanent information release: “Air Liquide announces an increase in share capital reserved for eligible employees of Group companies that have adhered to the France Share Purchase Plan (FSPP) or the International Group Share Purchase Plan (IGSSP), as well as to early retirees and retirees who have retained their assets in the FSPP. This transaction, which falls within the scope of the policy aimed at developing employee share ownership within the Group, will cover more than seventy countries, on condition that the required authorisations are obtained in some of these countries. Air Liquide wishes in this way to strengthen the existing link with its employees, involve them even more closely and over the long-term in the Group’s development and have them share in its results. The subscription price for the shares has been set at €77.18, corresponding to the average of the opening trading prices for the Air Liquide share on Euronext Paris over the twenty trading days prior to 16 March 2016, the date of the decision by the Chairman and Chief Executive Officer adopting the definitive dates of the subscription period and the subscription price, reduced by a discount of 20% and rounded up to the immediately higher euro cent. This price will not apply in respect of the transaction to be implemented in the United States where a price has been set, in light of the local regulations applicable. The transaction will concern a maximum of 1,000,000 shares with a par value of €5.50 each, representing a maximum nominal amount of €5.5 million. The subscription period will run from March 21, 2016 until midnight (Paris, France time) on 31 March 2016. The new shares will be immediately identical to the existing shares and benefit from the same rights. In particular, they will grant entitlement to any dividend distribution of which payment is decided after their creation. Admission of these shares for trading on the Euronext Paris market, on the same quotation line as the existing shares (ISIN code: FR0000120073), will be requested as soon as possible after completion of the increase in capital. The new shares will be registered in a direct registered share account and held for 5 years, except in the event of early release as provided for by the regulations application in France and in participating countries.”

- On 18 April 2016, Air Liquide published the following press release: “Air Liquide accelerates its development in biogas purification. Air Liquide announces the commissioning of 12 biogas purification units in the last 12 months in Europe. With these new units, Air Liquide triples its biogas purification capacity on the European continent. Overall, Air Liquide has designed and deployed worldwide 50 biogas purification units in order to transform biogas into biomethane and inject it into the natural gas networks. The 12 new biogas purification units commissioned by Air Liquide are located in France, in the United Kingdom, in Hungary and in Denmark. Five of these units, representing a total investment of 12 million euros, are operated by Air Liquide. They generate long-term contracts for the production of biomethane for Europe’s natural gas grids, which supply notably the transportation fleets that run on bio-NGV (Natural Gas for Vehicles). World leader in the supply of biogas purification technologies with an installed capacity of 160 000 m³/h, Air Liquide has developed technologies and expertise that span the entire biomethane value chain: purification of biogas into biomethane, injection into the natural gas network, liquefaction, distribution for clean transportation fleets. The purification and biogas valorization is a very promising example of a circular economy, which helps reduce greenhouse gas emissions and which could contribute to solutions for the zero emission transportation of tomorrow. François Darchis, Senior-Vice President, member of the Air Liquide group’s Executive Committee supervising Innovation, commented: “These new biomethane production contracts illustrate the ability of Air Liquide to leverage its technologies to incubate new businesses. By positioning on the entire chain from biogas purification to distribution with bio-NGV stations, Air Liquide is contributing to meeting energy and environmental challenges.” Biogas is produced during the treatment of waste (coming from farming, household waste and industrial activities). Biogas purification technology is based on the use of patented polymer membranes manufactured by Air Liquide. This powerful system separates the components of biogas, and generates a biomethane that can be injected into the natural gas network. Used as fuel in vehicles, bio natural gas or biomethane is also called bio-NGV (Natural Gas for Vehicles). Bio-NGV, like hydrogen, is a clean transportation solution. This fuel, of non-fossil origin, is part of a circular economy (from the conversion of waste to the mobility of the vehicle). Using biogas in a reformer will also enable the production of carbon-free hydrogen, in line with the Group’s Blue Hydrogen commitment for 2020. In 2014, Air Liquide acquired FordonsGas, Sweden’s leading distributor of bio-NGV, which operates nearly 50 stations in Sweden. These bio-NGV stations enable taxis, corporate fleets, buses and passenger cars to procure environmentally friendly fuel that is nearly 70% produced from renewable energies.”

- On 13 May 2016, Air Liquide published the following press release: “U.S. Federal Trade Commission clears Air Liquide’s acquisition of Airgas. Paris, France & Radnor (Pennsylvania), USA – 13 May 2016 – Air Liquide (Euronext Paris: AI) announced today that the U.S. Federal Trade Commission (the “FTC”) has cleared the acquisition of Airgas (NYSE: ARG) by Air Liquide, satisfying the final regulatory condition to the closing of the pending acquisition. The companies anticipate closing the acquisition on 23 May 2016, subject to the satisfaction of the remaining customary closing conditions. The FTC's clearance is subject to certain conditions, to be satisfied following the closing of Air Liquide’s acquisition of Airgas, which Air Liquide has agreed to undertake, including the sale of certain assets. A divestiture package has been prepared and the divestiture process is well underway. FTC clearance is the last major step towards acquisition closing, and follows the decision by the Committee on Foreign Investment in the United States (CFIUS) on 10 March 2016 that the proposed acquisition poses no national security concerns, and Airgas shareholder approval on 23 February 2016. As announced on 17 November 2015, combining Air Liquide and Airgas will bring together two highly complementary businesses to deliver greater value, service and innovation to customers in North America and around the world. This acquisition will give Air Liquide a greater presence in the U.S. market, the largest for industrial gases worldwide, and will ideally position the company for future growth, using Airgas’ footprint to accelerate the deployment of Air Liquide’s new offerings, technologies, and innovations to customers. It will also extend Air Liquide’s customer base by more than one million customers through a unique multi-channel distribution network in the U.S. and a nationwide presence (more than 1,100 locations across the country, including approximately 900 branches and retail stores). The FTC decision is accessible via the following link: <https://www.ftc.gov/enforcement/casesproceedings/161-0045/american-air-liquide-holdings-inc-matter>.”
- On 23 May 2016, Air Liquide published the following press release: “Air Liquide completes acquisition of Airgas. Acquisition’s strong industrial and market logic ideally positions company for future growth and long-term value creation. More than \$300 million in synergies identified, with the majority to be achieved within the next two to three years. Air Liquide strengthens its global leadership in the industrial gas industry. Air Liquide (Euronext Paris: AI), world leader in gases, technologies and services for Industry and Health, today announced that it has completed the acquisition of Airgas, Inc., one of the leading suppliers of industrial gases and associated products and services in the U.S. Globally, the

combined businesses will generate annual sales of more than €20 billion (more than \$22 billion at current exchange rate – calculated as of Friday, 20 May 2016), employ approximately 68,000 people around the world, and serve well over three million customers and patients. Benoît Potier, Chairman and CEO of Air Liquide, said: “We are very pleased to have successfully closed our acquisition of Airgas, which will contribute to our strategy of profitable growth over the long term. There is strong industrial and market logic to this acquisition, which ideally positions Air Liquide for future growth. The two businesses are highly complementary, and the transaction extends our customer base through a unique, multi-channel distribution network and a nationwide presence in the U.S. Since founding Airgas some 30 years ago, Peter McCausland has successfully grown the business into one of the premier industrial gas companies in the U.S., and I would like to thank him for his leadership, dedication and achievements. This transaction represents significant value potential for all Air Liquide stakeholders, and it is an exciting day for the Group as we welcome our Airgas colleagues and together begin a new chapter in our history.” Peter McCausland, Executive Chairman of Airgas, said: “Today’s history-making transaction is the culmination of more than 30 years of growth and value that we have steadfastly delivered to Airgas shareholders – it is a proud moment. The future is very bright for Airgas’ more than one million customers and our talented employees as we join Air Liquide’s unrivalled global footprint and strength in technology and innovation, while remaining committed to Airgas’ product offering, service model, and entrepreneurial culture. Thank you to our customers, shareholders, and associates for believing in the Airgas vision, just as I have, for all of these years.” Under the terms of the merger agreement, first announced and unanimously approved by each company’s Board of Directors in November 2015, Airgas shareholders receive \$143 in cash for each share of common stock of Airgas. In connection with the merger, the Airgas common stock has been delisted from the New York Stock Exchange. Airgas will operate as a subsidiary of Air Liquide within the company’s U.S. operations and, commercially, will go to market as Airgas, an Air Liquide company. Strategic Rationale: There is strong industrial and market logic to this acquisition, which ideally positions the Group for future growth and long term value creation. It allows Air Liquide to expand in the U.S., the largest global market for industrial gases, and extends Air Liquide’s customer base by more than one million customers. The transaction will also create efficiencies in production and supply chain thanks to the complementary nature of the two businesses, and allows for potential volume growth using Airgas’ footprint to accelerate the deployment of Air Liquide’s new offerings and technologies. The acquisition also brings with it the most advanced multi-channel distribution network in the U.S., including e-commerce and telesales capabilities. The transaction is expected to generate significant synergies. Through active preparation work prior to the closing, more than \$300 million of pre-tax industrial, administrative and volume growth synergies have been identified, the majority of which are targeted for delivery within the next two to three years, and are structured in detailed work plans. The combination represents significant value potential for all Air Liquide stakeholders, including shareholders, customers, and employees. The transaction will be accretive from year one of ownership. Air Liquide and Airgas together will deliver greater value, service and innovation to customers in North America and around the world by allowing Air Liquide to offer its leading production and innovation capabilities to a broader customer base. This combination also creates new opportunities for employees as part of a leading global organization that is ideally positioned for growth. The combination strengthens Air Liquide’s global leadership in the industrial gas business. Air Liquide becomes the leader in North America, complementing number one positions in Europe, Middle East/Africa and Asia-Pacific. It will also be number one in Industrial Merchant, Large Industries and Electronics, and one of the key players in Healthcare. Leadership Announcements: Peter McCausland, Executive Chairman of the Board of Airgas, retired upon closing of the transaction. Pierre Dufour, Senior Executive Vice-President and Board Director of Air Liquide, has been appointed Chairman of the Board of Airgas. Michael Graff, Member of the Air Liquide Group’s Executive Committee and Executive Vice-President of the Houston Hub, has been appointed Vice

Chairman of the Board of Airgas. Pascal Vinet, Member of the Air Liquide Group's Executive Committee, will be appointed CEO of Airgas, after a brief, post-closing transition phase. During this transition phase, Michael Molinini will continue with his current responsibilities, serving as Interim CEO of Airgas, and he will retire later this year. Andrew Cichocki has been promoted to the role of Chief Operating Officer of Airgas, where his responsibilities will include direct oversight of the combined companies' Industrial Merchant and Healthcare activities in the U.S., which are being consolidated under Airgas. Next Steps: Air Liquide will pursue and finalize sales of certain assets of the combined company in line with the divestiture process described in the U.S. Federal Trade Commission's press release on 13 May 2016. The contemplated divestitures are in line with what Air Liquide was expecting prior to the transaction, and they will reduce the combined company's sales by approximately \$270 million annually. Air Liquide received bridge financing for the transaction and refinancing of the acquisition will involve a capital increase in the range of €3 billion to €3.5 billion, together with a combination of U.S. dollar and Euro long-term bonds. Air Liquide is contemplating a capital increase with preferential subscription rights for shareholders at the end of Q3 2016 or the beginning of Q4 2016, subject to market conditions. Air Liquide management will hold a Capital Markets Day for investors and analysts on 6 July 2016 in London, where the new Group mid-term plan will be presented. Barclays Bank Plc and BNP Paribas are acting as financial advisors to Air Liquide. Cleary Gottlieb Steen & Hamilton LLP and Bredin Prat are acting as the primary legal advisors to Air Liquide. Goldman Sachs and Bank of America Merrill Lynch are acting as financial advisors to Airgas and Wachtell, Lipton, Rosen & Katz is acting as legal advisor to Airgas."

- On 23 May 2016, following the closing of the acquisition of Airgas, Inc., one of the leading suppliers of industrial gases and associated products and services in the U.S. by Air Liquide, world leader in gases, technologies and services for Industry and Health, Airgas announced to the holders of its outstanding \$325,000,000 1.650% notes due 2018 (the "**2018 Notes**"), \$275,000,000 2.375% notes due 2020 (the "**2020 A Notes**"), \$400,000,000 3.050% notes due 2020 (the "**2020 B Notes**"), \$250,000,000 2.900% notes due 2022 (the "**2022 Notes**") and \$300,000,000 3.650% notes due 2024 (the "**2024 Notes**" and, together with the 2018 Notes, the 2020 A Notes, the 2020 B Notes and the 2022 Notes, the "**Affected Notes**") issued under the indenture, dated as of 27 May 2010, between Airgas and U.S. Bank National Association, as trustee, as amended and supplemented from time to time (the "**Indenture**") that following the expiration of the consent solicitation on 9 May 2016 and the satisfaction of all conditions described in the consent solicitation statement dated 26 April 2016, as supplemented by a supplement dated 2 May 2016, it will promptly pay to each holder of Affected Notes who delivered (and did not revoke) a valid consent in favor of the proposed amendments to the Indenture prior to the Expiration Date, a cash payment of \$1.50 for each \$1,000 principal amount of Affected Notes in respect of which such holder delivered (and did not revoke) such consent. Furthermore, in accordance with the provisions of the supplemental indenture incorporating the amendments to the Indenture and dated as of 9 May 2016, Air Liquide elected to provide (by way of a further supplemental indenture dated as of 23 May 2016) an unconditional guarantee of Airgas's payment obligations under the Indenture, the Affected Notes and all other notes issued thereunder. As a result of the issuance of this guarantee, Air Liquide will provide its periodic and current reporting (under applicable French law) in lieu of Airgas's existing periodic and current reporting obligations.

Brief Description of Airgas

Airgas is one of the leading suppliers of industrial, medical and specialty gases and hardgoods (such as welding equipment and related products) in the United States, offering the full range of gases in various delivery modes (both in packaged and bulk quantities). In particular, Airgas is a leader in the U.S. packaged gas market in the United States.

The customer base of Airgas is diverse and lies principally in the manufacturing and metal fabrication, non-residential construction as well as food and healthcare sectors. Airgas serves more than one million customers in diversified end markets with a team of 17,000 professionals and industry specialists. In particular, Airgas has one of the largest customer-facing organisations in the industrial gas market with a sales force of over 2,000 employees. Airgas has also developed a large multi-channel distribution network with a high density across the United States. Airgas has wide footprint in the United States with 1,100 locations and over 900 branches and retail stores (retail stores are an integral part of the packaged gas business model of Airgas as the concept of a “one-stop shop” to serve small businesses and individual entrepreneurs allows both the sale of gas and cylinder rentals as well as the related safety and welding hardgoods). Airgas also has a developed e-commerce platform with its e-business portal serving as a reference for other industrial gas companies.

Business Strategy

Air Liquide’s market presence in the United States is primarily in upstream distribution with production both in large industries, industrial merchant in bulk as well as coverage in electronics and in healthcare (medical gas to hospitals only) business lines. Air Liquide’s sales focus on direct supply and services to large and medium-size customers. In contrast, Airgas’ market presence in the United States is primarily in downstream distribution with 300 filling stations and direct delivery of packaged gas through 900 branches/retail stores, telesales, e-commerce, or next-day direct deliveries from national warehouses.

The Acquisition of Airgas builds on Air Liquide’s longstanding track record of operating in the United States and the potential for further growth using Airgas’ footprint to accelerate the deployment of Air Liquide’s technologies in the U.S. market. It is expected that Air Liquide will benefit from Airgas’ greater national presence and customer base in the United States, as well as from its leading customer-facing platform including e-commerce and telesales capabilities. It is also expected that the Acquisition will reinforce Air Liquide’s global leadership position and allow the combined entity to better serve customers with advanced multi-distribution networks in the United States and it will create new opportunities for employees as part of a leading global organisation. In addition, the potential replication of the Airgas business model outside the United States may also provide further opportunities for growth.

Financing of the Acquisition

Air Liquide Finance incurred US\$11.6 billion of additional indebtedness, of which \$10.7 billion of equity purchase and the balance for Airgas debt refinancing, after the drawdown on the US\$12 billion bridge loan syndicated credit facility to finance the Acquisition of Airgas. The Acquisition Debt is expected to be refinanced through the combination of newly-issued debt securities (including offerings of dollar- and euro-denominated senior debt) and of a rights offering. See “*Risk Factors - Risks factors related to the Issuers and the Guarantor - Risks relating to the Acquisition of Airgas*”.

Airgas key figures

Airgas global revenues amounted to US\$5.3 billion for the fiscal year ending 31 March 2016 and its total debt stood at US\$2,588 million as of 31 March 2016 (comprised of US\$383 million in short-term debt, US\$250 million in current portion of long-term debt and US\$1,955 million in long-term debt) (further historical standalone financial information relating to Airgas is available through the Airgas website at www.airgas.com).

As of 23 May 2016, Airgas's outstanding indebtedness which was not refinanced prior to or upon completion of the Acquisition consisted in:

DESCRIPTION OF THE GUARANTEE

Nature of the Guarantee

Main Provisions

L’Air Liquide (the “**Guarantor**”) granted through the execution of a guarantee agreement dated 3 June 2016 an irrevocable and unconditional guarantee (the “**Guarantee**”) up to a maximum aggregate principal amount of €12,000,000,000 plus any amount of interest due under the Notes issued by Air Liquide Finance.

The Guarantor shall be liable under this Guarantee as if it was the sole principal issuer under the terms and conditions of the Notes issued by Air Liquide Finance. The Guarantor waives under the Guarantee any requirement that the Noteholder, in the event of any default in payment by the Issuer first makes demand upon or seeks to enforce remedies against the Issuer before seeking to enforce this Guarantee. Furthermore, for so long as any amount remains payable in respect of the Notes, the Guarantor will not exercise any right of subrogation against the Issuer pursuant to the Guarantee or take any other action that would result in asserting claims of the Guarantor at the same time as claims of the Noteholder.

Additional Provisions

The Guarantor will not be discharged under the Guarantee by the merger, dissolution or transfer of the assets of the Issuer. Moreover, if at any time when any amount remains payable in respect of the Notes, or if applicable, the coupons relating thereto, the Guarantor shall grant any mortgage (*hypothèque*), charge, pledge or other security interest (*sûreté réelle*) upon any of its assets or revenues, present or future to secure any Relevant Indebtedness (as defined in the terms and conditions of the Notes), incurred or guaranteed by it, the Guarantee shall be secured by the same ranking security.

Scope of the Guarantee

The Guarantee shall secure the payment of interest and principal due under the Notes, when and as the same becomes due and payable (including any additional amounts required to be paid pursuant to the terms of the Notes), by Air Liquide Finance, whether at maturity, upon redemption by acceleration of maturity or otherwise. The Guarantor undertakes to pay any sum due under the Notes and unpaid by Air Liquide Finance in accordance with the terms and conditions of the Notes.

Information to be disclosed about the Guarantor

All material information about the Guarantor has been provided in this Debt Issuance Programme Prospectus.

Documents on Display

The Guarantee shall be available in accordance with section “General Information”.

TAXATION

EU TAXATION

The following is a summary limited to certain tax considerations applicable under the laws of the European Union (“EU”) relating to the Notes that may be issued under the Programme. Each prospective holder or beneficial owner of Notes should consult its tax advisor as to the tax consequences of any investment in, or ownership and disposition of, the Notes.

Under the EC Council Directive 2003/48/EC of June 3, 2003 on the taxation of savings income in the form of interest payments (the “**Directive**”), Member States are required to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within their jurisdiction to an individual resident in that other Member State or to certain limited types of entities established in that other Member State. Austria however imposes instead a withholding system in relation to such payments for a transitional period, unless during such period it elects otherwise. Under such a withholding system, the beneficial owner of the interest payment may, on meeting certain conditions, request that no tax be withheld and elect instead for an exchange of information procedure. The rate of this withholding tax is currently 35%.

If a payment were to be made or collected through a Member State which has opted for a withholding system and an amount of tax were to be withheld from that payment, neither the Issuer nor any paying agent nor any other person would be obliged to pay additional amounts with respect to any Note as a result of the application of such withholding tax.

The Issuer is required to maintain a paying agent in a Member State that will not be obliged to withhold or deduct tax pursuant to the Savings Directive.

On December 9, 2014, the Council of the European Union adopted the EU Council Directive 2014/107/EU (the “**DAC Directive**”) amending the existing EU Council Directive 2011/16/EU on administrative cooperation. Pursuant to the DAC Directive, Member States will generally be required to apply new measures on mandatory automatic exchange of information from January 1, 2016. Austria received a derogation and is allowed to start applying the DAC one year later than the other Member States, but announced that it would not make full use of this derogation. The new regime under the DAC is aligned with the single global Standard for Automatic Exchange of Financial Account Information in Tax Matters developed and released by the Organisation for Economic Co-operation and Development in July 2014. The DAC is generally broader in scope than the Savings Directive, although it does not impose withholding taxes.

In order to avoid overlap between the Savings Directive and the DAC, the Council of the European Union has adopted on November 10, 2015 a Council Directive 2015/2060/EU repealing the Savings Directive from January 1, 2017 in the case of Austria and from January 1, 2016 in the case of all other Member States (subject to ongoing requirements to fulfill administrative obligations such as the reporting and exchange of information relating to, and accounting for withholding taxes on, payments made before that date).

A number of third countries and territories have adopted similar measures to the Savings Directive. Some of those measures have been revised to be aligned with the DAC, and other such measures may be similarly revised in the future.

Investors should inform themselves of, and where appropriate take advice on, the impact of the Savings Directive, similar measures adopted by number of third countries and territories, and the DAC on their investment.

LUXEMBOURG – TAXATION

The following is a general description of certain withholding tax considerations relating to the Notes as in effect and as applied by the relevant tax authorities as at the date hereof and does not purport to be a comprehensive discussion of the tax treatment of the Notes.

Prospective investors should consult their own professional advisers on the implications of making an investment in, holding or disposing of Notes and the receipt of interest with respect to such Notes under the laws of the countries in which they may be liable to taxation.

Withholding tax

Under Luxembourg tax law currently in effect and subject to the exception below, there is no Luxembourg withholding tax on payments of interest (including accrued but unpaid interest).

In accordance with the law of 23 December 2005, as amended, interest payments made by Luxembourg paying agents to Luxembourg individual residents and to certain residual entities are subject to a 10 per cent. withholding tax. Responsibility for withholding such tax will be assumed by the Luxembourg paying agent.

FRANCE – TAXATION

The following is a summary limited to certain withholding tax considerations in France relating to the Notes that may be issued under the Programme as in effect and as applied by the relevant tax authorities as at the date hereof and specifically contains information on taxes on the income from the securities withheld at source that may be relevant to holders of Notes who do not concurrently hold shares of the Issuers. Each prospective holder or beneficial owner of Notes should consult its tax advisor as to the tax consequences of any investment in, or ownership and disposition of, the Notes.

Under Articles 199 ter and 242 ter of the French Tax Code and Articles 49 I *ter* to 49 I *sexies* of Appendix III to the French Tax Code, paying agents based in France are subject to an obligation to report to the French tax authorities certain information with respect to interest payments made to beneficial owners domiciled in another EU Member State, including among other things, the identity and address of the beneficial owner and a detailed list of the different categories of interest paid to that beneficial owner.

Payments of interest and other revenues made by L’Air Liquide or Air Liquide Finance in their capacity as Issuer will not be subject to the withholding tax set out under Article 125 A III of the French *Code Général des Impôts* unless such payments are made outside France in a non-cooperative State or territory (Etat ou territoire non coopératif) within the meaning of Article 238-0 A of the French *Code Général des Impôts* (a “**Non-Cooperative State**”). If such payments under the Notes are made in a Non-Cooperative State, a 75 per cent. withholding tax will be applicable (subject to certain exceptions and to the more favourable provisions of any applicable double tax treaty) by virtue of Article 125 A III of the French *Code Général des Impôts*.

Furthermore, according to Article 238 A of the French *Code Général des Impôts*, interest and other revenues on such Notes by L’Air Liquide or Air Liquide Finance in their capacity as Issuer will not be deductible from the Issuer's taxable income, if they are paid or accrued to persons domiciled or established in a Non-Cooperative State or paid in such a Non-Cooperative State (subject to certain exceptions). Under certain conditions, any such non-deductible interest and other revenues may be recharacterised as constructive dividends pursuant to Article 109 et seq. of the French *Code Général des Impôts*, in which case such non-deductible interest and other revenues may be subject to the withholding tax set out under Article 119 *bis* 2 of the French *Code Général des Impôts*, at a rate of 30 per cent. or 75 per cent. (subject to the more favourable provisions of any applicable double tax treaty).

Notwithstanding the foregoing, neither the 75 per cent. withholding tax set out under Article 125 A III of the French *Code Général des Impôts* nor, to the extent the relevant interest or other revenues relate to genuine transactions and are not in an abnormal or exaggerated amount, the non-deductibility set out under Article 238 A of the French *Code Général des Impôts* will apply in respect of a particular issue of Notes if L'Air Liquide or Air Liquide Finance, as the case may be, can prove that the principal purpose and effect of such issue of Notes were not that of allowing the payments of interest or other revenues to be made in a Non-Cooperative State (the "**Exception**"). Pursuant to the French tax administrative guidelines (BOI-INT-DG-20-50-20140211, n°550 and 990, BOI-RPPM-RCM-30-10-20-40-20140211, n°70 and n°80, and BOI-IR-DOMIC-10-20-20-60-20150320, n°10), an issue of Notes will benefit from the Exception without the Issuer having to provide any proof of the purpose and effect of such issue of Notes, if such Notes are:

- (i) offered by means of a public offer within the meaning of Article L.411-1 of the French *Code monétaire et financier* or pursuant to an equivalent offer in a State other than a Non-cooperative State. For this purpose, an "equivalent offer" means any offer requiring the registration or submission of an offer document by or with a foreign securities market authority; or
- (ii) admitted to trading on a regulated market or on a French or foreign multilateral securities trading system provided that such market or system is not located in a Non-Cooperative State, and the operation of such market is carried out by a market operator or an investment services provider, or by such other similar foreign entity, provided further that such market operator, investment services provider or entity is not located in a Non-Cooperative State; or

HONG KONG

The following is a general description of certain Hong Kong tax considerations relating to the Notes. It is based on the tax laws and regulations of Hong Kong as currently in effect and which is subject to change or to different interpretation. It does not constitute legal or taxation advice and it does not purport to be a complete analysis of all tax considerations relating to the Notes. Prospective holders of Notes who are in any doubt as to their tax position or who may be subject to tax in any jurisdiction are advised to consult their own professional advisers.

Withholding Tax

No withholding tax is payable in Hong Kong in respect of payments of principal or interest on the Notes or in respect of any capital gains arising from the sale of the Notes.

Profits Tax

Hong Kong profits tax is chargeable on every person carrying on a trade, profession or business in Hong Kong in respect of profits arising in or derived from Hong Kong from such trade, profession or business (excluding profits arising from the sale of capital assets).

Interest on the Notes may be deemed to be profits arising in or derived from Hong Kong from a trade, profession or business carried on in Hong Kong in the following circumstances:

- (a) interest on the Notes is derived from Hong Kong and is received by or accrues to a company, other than a financial institution (as defined in the Inland Revenue Ordinance), carrying on a trade, profession or business in Hong Kong;
- (b) interest on the Notes is derived from Hong Kong and is received by or accrues to a person, other than a company, carrying on a trade, profession or business in Hong Kong and is in respect of the funds of that trade, profession or business; or
- (c) interest on the Notes is received by or accrues to a financial institution (as defined in the Inland Revenue Ordinance (Cap.112) of Hong Kong) and arises through or from the carrying on by the financial institution of its business in Hong Kong.

Sums derived from the sale, disposal or redemption of Notes will be subject to Hong Kong profits tax where received by or accrued to a person, other than a financial institution, from the carrying on of a trade, profession or business in Hong Kong and the sum has a Hong Kong source. The source of such sums will generally be determined by having regard to the manner in which the Notes are acquired and disposed of.

Sums received by or accrued to a financial institution by way of gains or profits arising through or from the carrying on by the financial institution of its business in Hong Kong from the sale, disposal or redemption of Notes will be subject to Hong Kong profits tax.

Stamp Duty

Stamp duty will not be payable on the issue of bearer Notes provided either:

- (a) such Notes are denominated in a currency other than the currency of Hong Kong and are not repayable in any circumstances in the currency of Hong Kong; or
- (b) such Notes constitute loan capital (as defined in the Stamp Duty Ordinance (Cap. 117) of Hong Kong, (“**Stamp Duty Ordinance**”).

If stamp duty is payable it is payable by the Issuer on the issue of bearer Notes at a rate of 3 per cent. of the market value of the Notes at the time of issue. No stamp duty will be payable on any subsequent transfer of bearer Notes.

No stamp duty is payable on the issue of registered Notes. Stamp duty may be payable on any transfer of registered Notes if the relevant transfer is required to be registered in Hong Kong. Stamp duty will, however, not be payable on any transfer of registered Notes provided that either:

- (a) the registered Notes are denominated in a currency other than the currency of Hong Kong and are not repayable in any circumstances in the currency of Hong Kong; or
- (b) the registered Notes constitute loan capital (as defined in the Stamp Duty Ordinance).

If stamp duty is payable in respect of the transfer of registered Notes it will be payable at the rate of 0.2 per cent. (of which 0.1 per cent. is payable by the seller and 0.1 per cent. is payable by the purchaser) normally by reference to the consideration or its value, which is higher. In addition, stamp duty is payable at the fixed rate

of HK\$5 on each instrument of transfer executed in relation to any transfer of the registered Notes if the relevant transfer is required to be registered in Hong Kong.

SUBSCRIPTION AND SALE

Overview of Amended and Restated Dealer Agreement

Subject to the terms and on the conditions contained in an amended and restated dealer agreement dated 3 June 2016 (the “**Amended and Restated Dealer Agreement**”) between L’Air Liquide, Air Liquide Finance, the Permanent Dealers and the Arranger, the Notes will be offered on a continuous basis to the Permanent Dealers. Each Issuer has reserved the right to sell Notes directly on its own behalf to Dealers that are not Permanent Dealers. The Notes may be resold at prevailing market prices, or at prices related thereto, at the time of such resale, as determined by the relevant Dealer. The Notes may also be sold by the relevant Issuer through the Dealers, acting as agents of such Issuer. The Amended and Restated Dealer Agreement also provides for Notes to be issued in syndicated Tranches that are jointly and severally underwritten by two or more Dealers.

L’Air Liquide and Air Liquide Finance will pay each relevant Dealer a commission as agreed between them in respect of Notes subscribed by it unless otherwise agreed. L’Air Liquide and Air Liquide Finance have agreed to reimburse the Arranger for certain of its expenses incurred in connection with the Programme and the Dealers for certain of their activities in connection with the Programme. The commissions in respect of an issue of Notes on a syndicated basis will be stated in the relevant Final Terms.

L’Air Liquide and Air Liquide Finance have agreed to indemnify the Dealers against certain liabilities in connection with the offer and sale of the Notes. The Amended and Restated Dealer Agreement entitles the Dealers to terminate any agreement that they make to subscribe Notes in certain circumstances prior to payment for such Notes being made to the relevant Issuer.

Should this occur without the publication of a prospectus and outside of the scope of one of the exemptions referred to above, retail purchasers of Notes may have such purchase declared void and claim damages from any intermediary which sold them the Notes.
