ISP OBG S.r.l. (**ISP OBG** or the **Covered Bond Guarantor**) issued a first demand (*a prima richiesta*), autonomous, unconditional and irrevocable (*irrevocabile*) guarantee (*garanzia autonoma*) securing the payment obligations of the Issuer under the Covered Bonds (the **Covered Bond Guarantee**), in accordance with the prozvisions of Law 130 and of the MEF Decree. The obligation of payment under the Covered Bond Guarantee shall be limited recourse to the Portfolio and the Available Funds (as defined in the section headed "*Terms and Conditions of the Covered Bonds*").

This Base Prospectus has been approved by the *Commission de Surveillance du Secteur Financier* (the **CSSF**), which is the competent authority under Regulation EU 2017/1129 (the **Prospectus Regulation**) in the Grand Duchy of Luxembourg, as a base prospectus for the purpose of article 8 of the Prospectus Regulation.

The CSSF only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. Approval by the CSSF should not be considered as an endorsement of the Issuer or the Guarantor or the quality of the Covered Bonds that are subject to this Base Prospectus. Potential investors should make their own assessment as to the suitability of investing in Covered Bonds.

Application has also been made for Covered Bonds issued under the Programme during the period of 12 (twelve) months from the date of this Base Prospectus to be listed on the official list of the Luxembourg Stock Exchange and admitted to trading on the regulated market of the Luxembourg Stock Exchange, which is a regulated market for the purposes of Directive 2014/65/EU. As referred to in Article 6(4) of the Luxembourg law on prospectuses for securities of 16 July 2019, by approving this Base Prospectus, in accordance with Article 20 of the Prospectus Regulation, the CSSF does not engage in respect of the economic or financial opportunity of the operation or the quality and solvency of the Issuer.

This Base Prospectus is valid for 12 months from its date in relation to Covered Bonds (until 23 December 2022) which are to be admitted to trading on a regulated market in the European Economic Area (the EEA). The obligation to supplement this Base Prospectus in the event of a significant new factor, material mistake or material inaccuracy does not apply when this Base Prospectus is no longer valid.

Capitalised terms used in this Base Prospectus shall have the meaning ascribed to them in the section headed "*Glossary*", unless otherwise defined in the specific section of this Base Prospectus in which they are used.

Under the Programme, the Issuer may issue Covered Bonds denominated in any currencies, including Euro, UK Sterling, Swiss Franc, Japanese Yen and US Dollar. Interest on the Covered Bonds shall accrue monthly, quarterly, semi-annually, annually or on such other basis as specified in the relevant Final Terms, in arrears at fixed or floating rate, increased or decreased by a margin. The Issuer may also issue Covered Bonds at a discounted price with no interest accruing and repayable at nominal value (zero-coupon Covered Bonds).

The terms of each Series will be set forth in the Final Terms relating to such Series prepared in accordance with the provisions of this Base Prospectus and, if listed, to be delivered to the Luxembourg Stock Exchange on or before the date of issue of such Series.

Application has been made for Covered Bonds to be admitted to listing on the official list and trading on the regulated market of the Luxembourg Stock Exchange, which is a regulated market for the purposes of Directive 2014/65/UE. In addition, the Issuer and each Relevant Dealer named under the section headed "*Subscription and Sale*" may agree to make an application to list a Series on any other stock exchange as specified in the relevant Final Terms. The Programme also permits Covered Bonds to be issued on an unlisted basis.

The Covered Bonds to be issued on or after the date hereof will be held in dematerialised form. The Covered Bonds issued in dematerialised form will be held on behalf of their ultimate owners, until redemption or cancellation thereof, by Monte Titoli S.p.A. (**Monte Titoli**) for the account of the relevant Monte Titoli Account Holders. The expression **Monte Titoli Account Holders** means any authorised financial intermediary institution entitled to hold accounts on behalf of their customers with Monte Titoli and includes any depositary banks appointed by Euroclear Bank S.A./N.V., 1 Boulevard du Roi Albert II, B-1210 Bruxelles as operator of the Euroclear System (**Euroclear**) and Clearstream Banking, *société anonyme*, 42 Avenue JF Kennedy, 1855, Luxembourg (**Clearstream**). Each Series of Covered Bonds issued in dematerialised form will be deposited with Monte Titoli on the relevant Issue Date (as defined in the section headed "*Terms and Conditions of the Covered Bonds*"). Monte Titoli shall act as depositary for Clearstream and Euroclear. The Covered Bonds issued in dematerialised form will at all times be held in book entry form and title to the Covered Bonds issued in dematerialised form will be evidenced by book entries in accordance with the provisions of Italian Legislative Decree No. 58 of 24 February 1998 (the **Financial Law**) and implementing regulation and with the joint regulation of the *Commissione Nazionale per le Società e la Borsa* (**CONSOB**) and the Bank of Italy dated 13 August 2018 and published in the Official Gazette of the Republic of Italy (*Gazzetta Ufficiale della Repubblica Italiana*) No. 201 of 30 August 2018, as subsequently amended and supplemented. No physical document of title will be issued in respect of the Covered Bonds issued in dematerialised form.

Each Series is expected, upon the relevant issue, to be assigned a rating as specified in the relevant Final Terms by DBRS Ratings GmbH (**DBRS**). Conditions precedent to the issuance of any Series include that a rating letter assigning the rating to such Series of Covered Bonds is issued by the Rating Agency. In general, EEA regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the EEA and registered under the EU CRA Regulation unless (1) the rating is provided by a credit rating agency not established in the EEA but endorsed by a credit rating agency established in the EEA and registered under the EU CRA Regulation or (2) the rating is provided by a credit rating agency not established in the EEA which is certified under the EU CRA Regulation. In general, UK regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the UK and registered under the UK CRA Regulation unless (1) the rating is provided by a credit rating agency not established in the UK but is endorsed by a credit rating agency established in the UK and registered under the UK CRA Regulation or (2) the rating is provided by a credit rating agency not established in the UK which is certified under the UK CRA Regulation. IMPORTANT – EEA RETAIL INVESTORS - If the Final Terms in respect of any Cover Bonds include a legend entitled "Prohibition of Sales to EEA Retail Investors", the Covered Bonds are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area (**EEA**). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (**MiFID II**); or (ii) a customer within the meaning of Directive (UE) 2016/97 (**IDD**), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently no key information document required by Regulation (EU) No 1286/2014 (the **PRIIPs Regulation**) for offering or selling the Covered Bonds or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Covered Bonds or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

IMPORTANT – UK RETAIL INVESTORS – If the Final Terms in respect of any Cover Bonds includes a legend entitled Prohibition of Sales to UK Retail Investors, the Cover Bonds are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the UK. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018; or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act, 2000 (the **FSMA**) and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (the **UK PRIIPs Regulation**) for offering or selling the Cover

Bonds or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Cover Bonds or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

MIFID II product governance / target market – The Final Terms in respect of any Covered Bonds will include a legend entitled "MiFID II Product Governance" which will outline the target market assessment in respect of the Covered Bonds and which channels for distribution of the Covered Bonds are appropriate. Any person subsequently offering, selling or recommending the Covered Bonds (a "distributor") should take into consideration the target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Covered Bonds (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the **MiFID Product Governance Rules**), any Dealer subscribing for any Covered Bonds is a manufacturer in respect of such Covered Bonds, but otherwise neither the Arranger nor the Dealer(s) nor any of their respective affiliates will be a manufacturer for the purpose of the MIFID Product Governance Rules.

UK MiFIR product governance / target market - The Final Terms in respect of any Cover Bonds will include a legend entitled UK MiFIR Product Governance which will outline the target market assessment in respect of the Cover Bonds and which channels for distribution of the Cover Bonds are appropriate. Any person subsequently offering, selling or recommending the Cover Bonds (a "distributor") should take into consideration the target market assessment; however, a distributor subject to the UK MiFIR product governance rules set out in the FCA Handbook Product Intervention and Product Governance Sourcebook (the **UK MiFIR Product Governance Rules**) is responsible for undertaking its own target market assessment in respect of the Cover Bonds (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR product governance rules set out in UK MiFIR Product Governance Rules, any Dealer subscribing for any Cover Bonds is a manufacturer in respect of such Cover Bonds, but otherwise neither the Arrangers nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MIFIR Product Governance Rules.

The Issuer will issue Covered Bonds without the prior consent of the holders of any outstanding Covered Bonds, but subject to certain conditions (see "*Conditions Precedent to the Issuance of a new series of Covered Bonds*" below).
Final Terms	Specific final terms will be issued and published in accordance with the generally applicable terms and conditions of the Covered Bonds (the **Conditions**) prior to the issue of each Series detailing certain relevant terms thereof which, for the purposes of that Series only, complete the Conditions and the Base Prospectus and must be read in conjunction with the Base Prospectus (such specific final terms, the **Final Terms**). The terms and conditions applicable to any particular Series are the Conditions and the relevant Final Terms.
Interest on the Covered Bonds	Except for Zero Coupon Covered Bonds, and unless otherwise specified in the Conditions and the relevant Final Terms, the Covered Bonds will be interest-bearing and interest will be calculated on the Outstanding Principal Balance of the relevant Covered Bonds. Interest will be calculated on the

	basis of such Day Count Fraction in accordance with the Conditions and in the relevant Final Terms. Interest may accrue on the Covered Bonds at a fixed rate or a floating rate or on such other basis and at such rate as may be so specified in the relevant Final Terms and the method of calculating interest may vary between the Issue Date and the Maturity Date of the relevant Series.
Interest Rate Conversion	The relevant Final Terms may specify, with respect to a Series of Covered Bonds which are Fixed Rate Covered Bonds, that, in the event such Covered Bonds are not redeemed in full on the Maturity Date, the interest rate payable on such Covered Bonds converts to a floating rate index plus a conversion margin in accordance with the terms specified in the relevant Final Terms.
Redemption of the Covered Bonds	The applicable Final Terms will indicate either (a) that the Covered Bonds cannot be redeemed prior to their stated maturity (other than in specified instalments, if applicable, or in other specified cases, e.g. taxation reasons, or Covered Bond Guarantor Events of Default, as specified in the paragraph *Early Redemption of the Covered Bonds* below), or (b) that such Covered Bonds will be redeemable at the option of the Issuer upon giving notice to the Representative of the Covered Bondholders on behalf of the holders of the Covered Bonds (the **Covered Bondholders**), or at the option of the Covered Bondholders upon deposit of a notice by the Representative of the Covered Bondholders, on behalf of the Covered Bondholders, with the Paying Agent, in accordance with the provisions of Condition 8 (Redemption and Purchase) and of the relevant Final Terms, (i) on a date or dates specified prior to such maturity and (ii) at a price or prices, and on such other terms as may be agreed between the Issuer and the Relevant Dealers (as set out in the applicable Final Terms). With respect to any Series of Covered Bonds, the Early Redemption Amount, the Final Redemption Amount or the Optional Redemption Amount, as the case may be, will be equal to the principal amount of such Series.
Early Redemption of the Covered Bonds	In certain circumstances indicated under the Conditions (including an early redemption (i) for tax reasons or illegality, or (ii) following a delivery by the Representative of the Covered Bondholders of a Covered Bond Guarantor Acceleration Notice upon the Covered Bond Guarantor), the Covered Bonds may be early redeemed at their Early Redemption Amount. **Early Redemption Amount** means, in respect of any Series of Covered Bonds, the principal amount of such Series or such other amount as may be specified in, or determined in accordance with, the relevant Final Terms.
Tax Gross Up and Redemption for taxation reasons	Payments in respect of the Covered Bonds to be made by the Issuer will be made without deduction for or on account of withholding taxes imposed by Italy, subject as provided in Condition 10 (*Taxation*). In the event that any such deduction is made, the Issuer will, save in certain limited circumstances provided in Condition 10 (*Taxation*), be required to pay additional amounts to cover the amounts so deducted. In such circumstances and provided that such obligation cannot be avoided by the Issuer taking reasonable measures available to it, the Covered Bonds will be redeemable (in whole, but not in part) at the option of the Issuer. See Condition 8(c) (*Redemption for tax reasons*). All payments in respect of the Covered Bonds will be made subject to any withholding or deduction required pursuant to FATCA, as provided in Condition 9 (*Payments*). The Covered Bond Guarantor will not be liable to pay any additional amount due to taxation reasons following an Issuer Event of Default.

Maturity Date

The final maturity date for each Series (the **Maturity Date**) will be specified in the relevant Final Terms, and in any event the determination of the Maturity Date will be subject to such minimum or maximum maturities as may be allowed or required from time to time by the relevant regulatory body or by any laws or regulations applicable to the Issuer or the currency of the Covered Bonds. Unless previously redeemed as provided in Condition 8 (*Redemption and Purchase*), and subject to any provision regarding extendable maturity which may be included in the Final Terms, the Covered Bonds of each Series will be redeemed at their Outstanding Principal Balance (as defined in the Conditions) on the relevant Maturity Date.

Extendable Maturity

The applicable Final Terms may also provide that the obligations of the Covered Bond Guarantor to pay all or (as applicable) part of the Final Redemption Amount payable on the Maturity Date may be deferred to a later date pursuant to Condition 8(b) (*Extension of maturity*) (the **Extended Maturity Date**). Such deferral may occur, if so stated in the relevant Final Terms, automatically if:

(a) an Article 74 Event or an Issuer Event of Default has occurred; and

(b) the Covered Bond Guarantor has, on the date falling four Business Days prior to the Maturity Date (the **Extension Determination Date**), insufficient Available Funds (in accordance with the Post-Issuer Default Priority of Payments) to pay in full any amount representing the Guaranteed Amounts corresponding to the amount due (subject to the applicable grace period) in respect of the relevant Series of Covered Bond as set out in the relevant Final Terms (the **Final Redemption Amount**) on the Maturity Date (a **Maturity Extension**).

In these circumstances, to the extent that the Covered Bond Guarantor has sufficient Available Funds to pay in part the Final Redemption Amount in respect of the relevant Series of Covered Bonds, the Covered Bond Guarantor shall make partial payment of the relevant Final Redemption Amount, in accordance with the Post-Issuer Default Priority of Payments, without any preference among the Covered Bonds outstanding, except in respect of maturities of each Series or Tranche.

Payment of all unpaid amounts shall be deferred automatically until the applicable Extended Maturity Date, provided that, any amount representing the Final Redemption Amount due and remaining unpaid on the Maturity Date may be paid by the Covered Bond Guarantor on any CB Payment Date thereafter, up to (and including) the relevant Extended Maturity Date. Interest will continue to accrue and be payable on any unpaid amount up to the Extended Maturity Date in accordance with Condition 8(b) (*Extension of maturity*).

Notwithstanding the above, if the Covered Bonds are extended as a consequence of the occurrence of an Article 74 Event, upon termination of the suspension period and withdrawal of the Article 74 Notice to Pay, the Issuer shall resume responsibility for meeting the payment obligations under any Series of Covered Bonds in respect of which a Maturity Extension has occurred, and any Final Redemption Amount shall be due for payment by no later than 15 calendar days following the day on which the Article 74 Notice to Pay has been withdrawn.

Ranking of the Covered Bonds

The Covered Bonds will constitute direct, unconditional, unsubordinated obligations of the Issuer – guaranteed by the Covered Bond Guarantor by means of the Covered Bond Guarantee – and will rank *pari passu* without any preference among themselves, except in respect of maturities of each

Series or Tranche, and (save for any applicable statutory provisions) at least equally with all other present and future unsecured, unsubordinated obligations of the Issuer having the same maturity of each Series or Tranche of the Covered Bonds, from time to time outstanding.

Recourse

In accordance with the legal framework established by Law 130 and the MEF Decree and with the terms and conditions of the relevant Transaction Documents, the Covered Bondholders will benefit from full recourse to the Issuer and limited recourse to the Covered Bond Guarantor (see the section headed "*Credit Structure*"). The obligations of the Covered Bond Guarantor under the Covered Bond Guarantee shall be limited recourse to the Available Funds.

Substitution of the Issuer

The Representative of the Covered Bondholders may (and in the case of an Approved Reorganisation, shall) agree with the Issuer (or any previous substitute) and the Covered Bond Guarantor at any time without the consent of the Covered Bondholders:

(a) to the substitution in place of Intesa Sanpaolo (or of any previous substitute) as principal debtor under the Covered Bonds by any bank Subsidiary of Intesa Sanpaolo (the **Substitute Obligor**) by way of an obligation transfer agreement without recourse to the Issuer (*accollo liberatorio*); or

(b) to an Approved Reorganisation; or

(c) that Intesa Sanpaolo (or any previous substitute) may, other than by means of an Approved Reorganisation, consolidate with, merge into or amalgamate with any successor company,

provided that:

(i) the obligations of the Substitute Obligor or the Resulting Entity under the Covered Bonds shall be irrevocably and unconditionally guaranteed by Intesa Sanpaolo or its successor company (on like terms as to subordination, if applicable, to those of the Covered Bond Guarantee);

(ii) (other than in the case of an Approved Reorganisation) the Representative of the Covered Bondholders is satisfied that the interests of the Covered Bondholders will not be materially prejudiced thereby;

(iii) the Substitute Obligor or the Resulting Entity agrees, in form and manner satisfactory to the Representative of the Covered Bondholders, to be bound by the terms and conditions of the Covered Bonds and all the Transaction Documents in respect of any Series of Covered Bonds still outstanding, by means of executing agreements and documents substantially in the same form and substance of the Transaction Documents; and

(iv) the Representative of the Covered Bondholders is satisfied that (a) the Resulting Entity or Substituted Obligor has obtained all governmental and regulatory approvals and consents necessary for its assumption of liability as principal debtor in respect of the Covered Bonds in place of the Issuer (or such previous substitute as aforesaid), and (b) such approvals and consents are, at the time of substitution, Approved Reorganisation or consolidation, merger, amalgamation other than by means of an Approved Reorganisation, as the case may be, in full force and effect.

Upon the assumption of the obligations of the Issuer by a Substitute Obligor or a Resulting Entity or a successor company, Intesa Sanpaolo shall have no

further liabilities under or in respect of the Covered Bonds.

Any substitution as described above shall be notified by the Issuer to the Rating Agency.

Provisions of Transaction Documents

The Covered Bondholders are entitled to the benefit of, are bound by, and are deemed to have notice of, all provisions of the Transaction Documents applicable to them. In particular, each Covered Bondholder, by reason of holding Covered Bonds, recognises the Representative of the Covered Bondholders as its representative and accepts to be bound by the terms of each of the Transaction Documents signed by the Representative of the Covered Bondholders as if such Covered Bondholder was a signatory thereto.

Conditions Precedent to the Issuance of a new Series of Covered Bonds

The Issuer will be entitled (but not obliged) at its option, on any date and without the consent of the holders of the Covered Bonds issued beforehand and of any other creditors of the Covered Bond Guarantor or of the Issuer, to issue further Series of Covered Bonds other than the first issued Series, subject to, *inter alia*:

(i) issuance of a rating letter by the Rating Agency with respect to such further issue of Covered Bonds, unless the Covered Bonds issued under such further issue are unrated;

(ii) satisfaction of the Mandatory Tests both before and immediately after such further issue of Covered Bonds;

(iii) compliance with (a) the requirements of issuing/assigning banks (*Requisiti delle banche emittenti e/o cedenti*; see Third Part, Chapter 3, Section II, Para. 1 of the BoI OBG Regulations; the **Conditions to the Issue**) and (b) the limits to the assignment of further assets set forth by the BoI OBG Regulations (*Limiti alla cessione*; see Third Part, Section II, Chapter 3, Para. 2 of the BoI OBG Regulations; the **Limits to the Assignment**), if applicable;

(iv) no Article 74 Event having occurred (and being continuing);

(v) no Issuer Event of Default having occurred; and

(vi) the Reserve Fund Required Amount, the Liability Swap Principal Accumulation Account and the Interest Accumulation Amount (if and to the extent due) have been credited on the Investment Account, on the immediately preceding Guarantor Payment Date.

The payment obligations under the Covered Bonds issued under all Series shall be cross-collateralised by all the assets included in the Portfolio, through the Covered Bond Guarantee (see also the section headed "*Ranking of the Covered Bonds*").

Whether or not a rating in relation to any Series of Covered Bonds will be (1) issued or endorsed by a credit rating agency established in the EEA and registered under the EU CRA Regulation or by a credit rating agency which is certified under the EU CRA Regulation and/or (2) issued or endorsed by a credit rating agency established in the in the UK and registered under the UK CRA Regulation or by a credit rating agency which is certified under the UK CRA Regulation, will be disclosed in the relevant Final Terms. In general, EEA regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the EEA and registered under the EU CRA Regulation unless (1) the rating is provided by a credit rating agency not established in the EEA but is endorsed by a credit rating agency established in the EEA and registered under the EU CRA Regulation or (2) the rating is provided by a credit rating agency not established in the EEA which is certified under the EU CRA Regulation. By subscribing for or purchasing the Covered Bond(s), each Covered Bondholder will be deemed to have acknowledged and agreed that a credit rating of a Series of Covered Bonds is an assessment of credit risk and does not address other matters that may be of relevance to Covered Bondholders, including, without limitation, in the case of a Rating Agency's confirmation, whether such action is either (i) permitted by the terms of the relevant Transaction Document, or (ii) in the best interest of, or not prejudicial to, some or all of the Covered Bondholders. In being entitled to have regard to the fact that the Rating Agency has confirmed that the then current rating of the relevant Series of Covered Bonds would not be adversely affected or withdrawn, each of the Issuer, the Covered Bond Guarantor, the Representative of the Covered Bondholders, the Covered Bondholders and the other Secured Creditors is deemed to have acknowledged and agreed that a Rating Agency's confirmation does not impose or extend any actual or contingent liability on the Rating Agency to the Issuer, the Covered Bond Guarantor, the Representative of the Covered Bondholders, the Covered Bondholders and the other Secured Creditors or any other person or create any legal relations between the Rating Agency and the Issuer, the Covered Bond Guarantor, the Representative of the Covered

Bondholders, the Covered Bondholders and the other Secured Creditors or any other person whether by way of contract or otherwise.

By subscribing for or purchasing the Covered Bond(s), each Covered Bondholder will be deemed to have acknowledged and agreed that:

(a) a Rating Agency's confirmation may or may not be given at the sole discretion of the Rating Agency;

(b) depending on the timing of delivery of the request and any information needed to be provided as part of any such request, it may be the case that the Rating Agency cannot provide a Rating Agency's confirmation in the time available, or at all, and the Rating Agency will not be responsible for the consequences thereof;

3. COVERED BOND GUARANTEE

Security for the Covered Bonds

In accordance with Law 130, by virtue of the Covered Bond Guarantee, the Covered Bondholders will benefit from a guarantee issued by the Covered Bond Guarantor which will, in turn, hold the Portfolio consisting of some or all of the following assets:

(a) residential mortgage loans (*mutui ipotecari residenziali*) that have a loan to value (**LTV**) that does not exceed 80 per cent. and for which the hardening period with respect to the perfection of the relevant mortgage has elapsed;

(b) commercial mortgage loans (*mutui ipotecari commerciali*) that have a LTV that does not exceed 60 per cent. and for which the hardening period with respect to the perfection of the relevant mortgage has elapsed;

(c) (i) receivables whose debtors or guarantors (pursuant to a "guarantee valid for the purpose of credit risk mitigation" (*garanzia valida ai fini della mitigazione del rischio di credito*), as defined by Article 1, paragraph 1, lett. h) of the MEF Decree) are (a) public administrations of Eligible States, including therein any Ministries, municipalities (*enti pubblici territoriali*), national or local entities and other public bodies, which attract a risk weighting factor not exceeding 20 per cent. pursuant to the EC Directive 2006/48 regulation under the "Standardised Approach" to credit risk measurement; (b) public administrations of States other than Eligible States which attract a risk weighting factor equal to 0 per cent. under the "Standardised Approach" to credit risk measurement, municipalities and national or local public bodies not carrying out economic activities (*organismi pubblici non economici*) of States other than Eligible States which attract a risk weight factor not exceeding 20 per cent. pursuant to the EC Directive 2006/48 regulation under the "Standardised Approach" to credit risk measurement; and (ii) securities issued or guaranteed by the public

entities referred to under paragraph (i) above.

Under the terms of the Covered Bond Guarantee, the Covered Bond Guarantor will be obliged to pay any amounts due under the Covered Bonds on the relevant Due for Payment Date and in accordance with the relevant Priority of Payments.

In view of ensuring timely payment by the Covered Bond Guarantor, a Notice to Pay will be served on the same as a consequence of an Issuer Event of Default.

The obligations of the Covered Bond Guarantor under the Covered Bond Guarantee shall constitute a first demand, unconditional and independent guarantee (*garanzia autonoma*) and certain provisions of Italian civil code relating to non-autonomous personal guarantees (*fidejussioni*), specified in the MEF Decree, shall not apply. Accordingly, such obligation shall be a direct, unconditional, unsubordinated obligation of the Covered Bond Guarantor, with limited recourse to the Available Funds, irrespective of any invalidity, irregularity or unenforceability of any of the guaranteed obligations of the Issuer.

Temporary transfer of payment obligations to the Covered Bond Guarantor

If an Article 74 Event occurs, the Covered Bond Guarantor, in accordance with Article 4, Paragraph 4, of the MEF Decree, shall be responsible for the payments of the amounts due and payable under the Covered Bonds during the Suspension Period and each Series of Covered Bonds will accelerate against the Issuer.

Following an Article 74 Event, the Representative of the Covered Bondholders will serve an Article 74 Notice to Pay on the Issuer and the Covered Bond Guarantor notifying that an Article 74 Event has occurred. Unless and until such Article 74 Notice to Pay has been withdrawn:

(i) *Temporary Acceleration against the Issuer*: each Series or Tranche of Covered Bonds will accelerate against the Issuer and the Covered Bonds will rank *pari passu* amongst themselves against the Issuer, provided that: (a) such Article 74 Events shall not trigger an acceleration against the Covered Bond Guarantor, and (b) in accordance with Article 4, Paragraph 4, of the MEF Decree, the Covered Bond Guarantor shall be responsible for the payments of the amounts due and payable under the Covered Bonds during the Suspension Period;

(ii) *Delegation:* the Covered Bond Guarantor (directly or through the Representative of the Covered Bondholders) shall exercise, on an exclusive basis, the rights of the Covered Bondholders *vis-à-vis* the Issuer in accordance with the provisions of the Covered Bond Guarantee in the context of which the Covered Bondholders have irrevocably delegated – also in the interest and for the benefit of the Covered Bond Guarantor – to the Covered Bond Guarantor the exclusive right to proceed against the Issuer to enforce the performance of any of the payment obligations of the Issuer under the Covered Bonds including any rights of enforcing any acceleration of payment provisions provided under the Conditions or under the applicable legislation. For this purpose, upon request of the Covered Bond Guarantor, the Representative of the Covered Bondholders on behalf of the Covered Bondholders shall provide the Covered Bond Guarantor with any powers of attorney and/or mandates as the latter may deem necessary or expedient for taking all necessary steps to ensure the timely and correct performance of the Covered Bond Guarantor's mandate.

In accordance with the Covered Bond Guarantee, the Representative of the Covered Bondholders on behalf of the Covered Bondholders has confirmed such delegation and waived any rights of the Covered Bondholders to revoke such delegation and take any such individual action against the Issuer;

(iii) *Payments by the Covered Bond Guarantor*: the Covered Bond Guarantor will pay any amounts due under the Covered Bonds on the Due for Payment Date in accordance with (i)(a) above and subject in any case to the provisions of the Conditions; and

(iv) *Mandatory Tests*: the Mandatory Tests shall continue to be applied.

Upon the termination of the Suspension Period, the Article 74 Notice to Pay shall be withdrawn and the Issuer shall be responsible for meeting the payment obligations under the Covered Bonds (and for the avoidance of doubt, the Covered Bonds then outstanding will no longer be deemed to be accelerated against the Issuer) in accordance with the relevant Priority of Payments.

Suspension Period means the period of time following an Article 74 Event, in which the Covered Bond Guarantor, in accordance with the MEF Decree, shall be responsible for the payments of the Guaranteed Amounts due and payable within the entire period in which the suspension continues.

Issuer Events of Default

Each of the following events with respect to the Issuer shall constitute an **Issuer Event of Default**:

(i) *Non-payment*: default is made by the Issuer for a period of 7 days or more in the payment of any principal or redemption amount, or for a period of 14 days or more in the payment of any interest, on the Covered Bonds of any Series or Tranche when due, unless an Article 74 Event has occurred and the relevant suspension period is continuing; or

(ii) *Breach of other obligations*: the Issuer is in breach of material obligations under or in respect of the Covered Bonds (of any Series or Tranche outstanding) or any of the Transaction Documents to which it is a party (other than any obligation for the payment of principal or interest on the Covered Bonds and/or any obligation to ensure compliance of the Portfolio with the Tests)) and such failure remains unremedied for 30 days after the Representative of the Covered Bondholders has given written notice thereof to the Issuer, certifying that such failure is, in its opinion, materially prejudicial to the interests of the relevant Covered Bondholders and specifying whether or not such failure is capable of remedy; or

(iii) *Cross-default*: any of the events described in paragraphs (i) and (ii) above occurs in respect of any other Series or Tranche of Covered Bonds; or

(iv) *Insolvency*: an Insolvency Event occurs in respect of the Issuer; or

(v) *Cessation of business*: the Issuer ceases to carry on its primary business; or

(vi) *Breach of Mandatory Test*: breach of any of the Mandatory Tests which is not remedied by the Calculation Date immediately following the notification of such breach.

If an Issuer Event of Default occurs, the Representative of the Covered Bondholders will serve a Notice to Pay on the Issuer and Covered Bond Guarantor specifying that an Issuer Event of Default has occurred. Upon

service of such Notice to Pay:

(a) *No further Series or Tranche of Covered Bonds*: the Issuer may not issue any further Series or Tranches of Covered Bonds;

in an aggregate amount sufficient to ensure that the Mandatory Tests are met as soon as practicable, and, in the event of sale of Integration Assets prior to the occurrence of an Issuer Event of Default, subject to the Integration Assets Limit.

A breach of any of the Mandatory Tests which is not remedied by the Calculation Date immediately following the notification of such breach constitutes an Issuer Event of Default.

A breach of the Amortisation Test constitutes a Covered Bond Guarantor Event of Default.

The Asset Monitor will verify the calculations performed by the Calculation Agent in respect of the Tests, subject to receipt of the relevant information from the Calculation Agent. The Asset Monitor will also perform the other activities provided for under the Asset Monitor Agreement.

RISK FACTORS

In purchasing Covered Bonds, investors assume the risk that the Issuer and the Covered Bond Guarantor may become insolvent or otherwise be unable to make all payments due in respect of the Covered Bonds. There is a wide range of factors which individually or together could result in the Issuer and the Covered Bond Guarantor becoming unable to make all payments due in respect of the Covered Bonds.

Certain risks which it currently deems not to be material as at the date of this Base Prospectus may become material as a result of the occurrence of events outside the Issuer's and the Covered Bond Guarantor's control. The Issuer and the Covered Bond Guarantor have identified in this Base Prospectus a number of factors which could materially adversely affect their businesses and ability to make payments due under the Covered Bonds.

In addition, risks which are material for the purpose of assessing the market risks associated with the Covered Bonds issued under the Programme are also described below.

The Issuer believes that the risks described below are the main risks inherent in the holding of Covered Bonds of any Series issued under the Programme but the inability of the Issuer to pay interest or repay principal on the Covered Bonds of any Series may occur for other reasons and the Issuer does not represent that the above statements of the risks of holding Covered Bonds are exhaustive. While the various structural elements described in this Base Prospectus are intended to lessen some of the risks for holders of Covered Bonds of any Series, there can be no assurance that these measures will be sufficient or effective to ensure payment to the holders of Covered Bonds of any Series of interest or principal on such Covered Bonds on a timely basis or at all.

Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus (including any documents deemed to be incorporated by reference herein) and reach their own views prior to making any investment decision.

Risks related to legal proceedings;

Risks related to the business sector of Intesa Sanpaolo;

Risks related to the financial situation of Intesa Sanpaolo Group

Risk exposure to debt Securities issued by sovereign States

As at 30 June 2021, based on management data, the exposure to securities issued by Italy amounted to approximately € 104 billion, increased compared to approximately € 90 billion as at 31 December 2020. On the same date, the investments in sovereign debt securities issued by EU Countries, including Italy, corresponded to € 140 billion, compared to € 123 billion at the end of 2020.

The market tensions regarding government bonds and their volatility, as well as Italy's rating downgrading or the forecast that such downgrading may occur, might have negative effects on the assets, the economic and/or financial situation, the operational results and the perspectives of the Bank.

Intesa Sanpaolo Group results are and will be exposed to sovereign debtors, in particular to Italy and certain major European Countries.

As at 31 December 2020, based on management data, the exposure to securities issued by Italy amounted to approximately €90 billion (9% of the total assets of the Group), to which should be added approximately €10 billion represented by loans. On the same date, the investments in sovereign debt securities issued by EU countries, including Italy, corresponded to €123 billion (12.2% of the total assets of the Group), to which should be added approximately €12 billion represented by loans. On the whole, the securities issued by governments, central banks and other public entities represented approximately 46.2% of the total financial assets.

At the end of 2019, based on management data, the exposure to securities issued by Italy corresponded to approximately €86 billion (10.5% of the total assets of the Group), to which should be added approximately €11 billion represented by loans. On the same date, the investments in sovereign debt securities issued by EU Countries, including Italy, corresponded to €121 billion (14.8% of the total assets of the Group), to which should be added approximately €12 billion represented by loans. On the whole, the securities issued by governments, central banks and other public entities represented approximately 46% of the total financial assets.

For further information please refer to Part E of the Explanatory Note of the consolidated financial statements for 2020, incorporated by reference in this Base Prospectus.

Risks related to legal proceedings

"As at 30 June 2021, there were a total of about 34,900 disputes, other than tax disputes, pending at Group level (excluding those involving Risanamento S.p.A, which is not subject to management and coordination by Intesa Sanpaolo) with a total remedy sought of around 3,973 million euro. This amount includes all outstanding disputes, for which the risk of a disbursement of financial resources resulting from a potential negative outcome has been deemed possible or probable and therefore does not include disputes for which risk has been deemed remote.

The risks associated with these disputes are thoroughly and individually analysed by the Parent Company and Group companies. Specific and appropriate provisions have been made to the Allowances for Risks and Charges in the event of disputes for which there is an estimated probability of a disbursement of more than 50% and where the amount of the disbursement may be reliably estimated (disputes with likely risk).

Without prejudice to the uncertainty inherent in all litigation, the estimate of the obligations that could arise from the disputes and hence the amount of any provisions recognised are based on the forward-looking assessments of the outcome of the trial. These forward-looking assessments are, in any event, prepared on the basis of all information available at the time of the estimate. The disputes with likely risk amount to around 25,000 with a remedy sought of 2,151 million euro and provisions of 743 million euro.

The part relating to the Parent Company Intesa Sanpaolo is around 5,900 disputes with a remedy sought of 1,743 million euro and provisions of 568 million euro, the part relating to other Italian subsidiaries is around 1,000 disputes with a remedy sought of 270 million euro and provisions of 104 million euro, and the part relating to the international subsidiaries is around 18,100 disputes with a remedy sought of 138 million euro and provisions of 71 million euro.

The risk arising from legal proceedings consists of the possibility of the Bank being obliged to pay any sum in case of unfavourable outcome.

The most common legal disputes are related to invalidity, cancellation, inefficacy actions or compensation for damages as a consequence of transactions related to the ordinary banking and financial activity carried out by the Bank.

For any individual assessment regarding legal disputes please refer to the paragraph titled "Legal Proceedings" on page 80 of this Base Prospectus. Such paragraph also includes information concerning the disputes on the marketing of convertible and/or subordinated shares/bonds issued by *Banca Popolare di*

Vicenza or *Veneto Banca*, which filled against respectively *Banca Nuova* and *Banca Apulia* (both subsequently merged by incorporation in *Intesa Sanpaolo*).

Risks related to the business sector of Intesa Sanpaolo

Risks related to the economic/financial crisis and the impact of current uncertainties of the macro-economic context

The future development in the macro-economic context may be considered as a risk as it may produce negative effects and trends in the economic and financial situation of the Bank and/or the Group.

Any negative variations of the factors described hereafter, in particular during periods of economic-financial crisis, could lead the Bank and/or the Group to suffer losses, increases of financing costs, and reductions of the value of the assets held, with a potential negative impact on the liquidity of the Bank and/or the Group and its financial soundness.

The trends of the Bank and the Group are affected by the general, national and economic situation of the Eurozone, the dynamics of financial markets and the soundness and growth prospects of the economy of other geographic areas in which the Bank and/or the Group operates.

In particular, the profitability capacity and solvency of the Bank and/or the Group are affected by the trends of certain factors, such as the investors' expectations and trust, the level and volatility of short-term and long-term interest rates, exchange rates, financial markets liquidity, availability and cost of capital, sustainability of sovereign debt, household incomes and consumer spending, unemployment levels, business profitability and capital spending, inflation and housing prices.

The macro-economic framework is currently characterised by significant profiles of uncertainty, in relation to: (a) the outbreak of COVID-19, which caused a major decline in economic activity in 2020 and may contribute to further economic downturns in the near future, in addition to more persistent effects on default rates and the unemployment rate; (b) the future developments of ECB monetary policies in the Euro area and of the FED in the dollar area; (c) the tensions observed, on a more or less recurrent basis, on the financial markets; (d) the risk that in the future holders of Italian government debt lose confidence in the credit standing of Republic of Italy, owing to the political developments or changes in budgetary policies affecting the sustainability of government debt.

With reference to the exit of the United Kingdom from the single market on 1 January 2021, changes in the relationship of the UK with the EU may affect the business of the Bank. On 29 March 2017, the UK invoked Article 50 of the Treaty on the European Union and officially notified the EU of its decision to withdraw from the EU. On 31 January 2020 the UK withdrew from the EU and the transition period ended on 31 December 2020 at 11pm. Therefore, the Treaty on the European Union and the Treaty on the Functioning of the European Union have ceased to apply to the UK. The European Union (Withdrawal) Act 2018 (as amended by the European Union (Withdrawal Agreement) Act 2020) and secondary legislation made under it ensure there is a functioning statute book in the UK.

The EU-UK Trade and Cooperation Agreement (the Trade and Cooperation Agreement), which governs relations between the EU and UK following the end of the Brexit transition period and which had provisional application pending completion of ratification procedures, entered into force on 1 May 2021. The Trade and Cooperation Agreement does not create a detailed framework to govern the cross-border provision of regulated financial services from the UK into the EU and from the EU into the UK.

The precise impact on the business of the Issuers and the Group is difficult to determine. As such, no assurance can be given that such matters would not adversely affect the ability of the Issuer to satisfy its obligations under the Notes and/or the market value and/or the liquidity of the Notes in the secondary market.

Credit risk

We would like to remark that, as of 30 September 2021, Intesa Sanpaolo recorded a gross NPL ratio (based on EBA metrics) of 2.9%. On 31 December 2020, the same data corresponded to 3.6%, compared to 6.8% recorded on 31 December 2019. The credit institutions which recorded a gross NPL ratio higher than 5% are required – on the grounds of the "Guidelines on management of non-performing and forborne exposures" of EBA – to prepare specific strategic and operative plans for the management of such exposures.

Taking into consideration the pattern of the main credit risk indicators in 2020, in the first nine months of 2021 and the excellent improvement of the Gross NPL ratio well below the 5% threshold, Intesa Sanpaolo deems that the risk related to credit quality is of low relevance.

The economic and financial activity and soundness of the Bank depends on its borrower's creditworthness.

The Bank is exposed to the traditional risks related to credit activity. Therefore, the clients' breach of the agreements entered into and of their underlying obligations, or any lack of information or incorrect information provided by them as to their respective financial and credit position, could have negative effects on the economic and/or financial situation of the Bank.

Furthermore, any exposures in the bank portfolio towards counterparties, groups of connected counterparties and counterparties of the same economic sector, which perform the same activity or belong to the same geographic area, could increase the Bank concentration risk.

More generally, the counterparties may not satisfy their respective obligations towards the Bank by reason of bankruptcy, absence of liquidity, operational disruption or any other reason. The bankruptcy of an important stakeholder, or any concerns about its default, could cause serious liquidity issues, losses or defaults by other institutions, which, in turn, could negatively affect the Bank. The Bank may also be subject to the risk, under specific circumstances, that some of its credits towards third parties are no longer collectable. Furthermore, a decrease of the creditworthiness of third parties, including sovereign States, of which the Bank holds securities or bonds, might cause losses and/or negatively affect the ability of the Bank to invest again or use in a different way such securities or bonds for liquidity purposes. A significant decrease of the creditworthiness of the counterparties of the Bank might, therefore, have a negative impact on the results of the Bank's performances. Albeit, in many cases, the Bank could require further guarantees to the counterparties which are in financial difficulties, certain disputes may arise with respect to the amount of guarantee that the Bank is entitled to receive and the value of the assets which are object of guarantee. The default rates, counterparties rating deterioration and disputes in relation to counterparties on the guarantee appraisal could be significantly increased during periods of market tensions and illiquidity.

In compliance with the provisions of the "ECB Guidance to banks on non-performing loans" published in March 2017 through which the ECB calls on banks to implement realistic and ambitious strategies to work towards an holistic approach regarding the problem of NPLs, Intesa Sanpaolo submitted to the ECB a plan for the reduction of its non-performing loans.

Subsequently, building on the overall strategy and targets outlined in the 2018-2021 Business Plan published in February 2018, Intesa Sanpaolo has developed a solid 4-year plan, at no costs to shareholders, to reach an NPL level in line with European peers, continuing to maintain a lower leverage and a stronger balance sheet. Intesa Sanpaolo continues to improve its credit quality, leverages the excellent performance already achieved in 2020, where the bank outperformed vs plan targets, exceeding one year early the deleveraging target set for the entire four-year 2018-2021 Business Plan, by the strengthening of the proactive credit management aiming at prevent new inflows from performing exposures, by the results achieved in the recovery activities, by the accomplishment of the planned disposals, but also thanks to the supervision and monitoring activities performed by the "Group NPL Plan Control Room". Total non-performing loans for the first nine months of 2021 (bad, unlikely-to-pay, and past due) amounted - net of adjustments - to €9,141 million, down 14.9% from €10,743 million at year-end 2020. In detail, bad loans

decreased to €3,583 million from €4,003 million at year-end 2020, with a bad loan to total loan ratio of 0.8% (0.9% at year-end 2020), and a cash coverage ratio of 60.7% (58.3% at year-end 2020). Unlikely-to-pay loans decreased to €4,961 million from €6,223 million at year-end 2020. Past due loans amounted to €597 million from €517 million at year-end 2020.

For more information on European legislative initiatives on Non-Performing Loans, please refer to "Regulatory Section" of this Base Prospectus.

For further information on the management of the "credit risk". Please refer to Part E of the explanatory note of the consolidated financial statements for 2020, included by reference in this Base Prospectus.

In Italy, the COVID-19 outbreak, led to a strong GDP contraction with negative effects in all economic sectors. Nevertheless, the results for 9M 2021 have confirmed Intesa Sanpaolo's ability to respond effectively to the complexities brought about by the pandemic. Gross NPL reduction was around €47bn since the September 2015 peak and around €34bn since December 2017, exceeding in advance, and by around €8bn, the deleveraging target of around €26bn set for the entire four-year period of the 2018-2021 Business Plan. Intesa Sanpaolo continues to operate as a growth accelerator in the real economy in Italy: in 9M 2021, medium/long-term new lending granted by the group to Italian households and businesses amounted to around €50 billion. In 9m 2021, the group facilitated the return to performing status of around 7,300 companies, thus safeguarding around 36,000 jobs.

Market risk

In the first nine months of 2021, with regard the overall limit relating to trading and the hold to collect and sell (HTCS) business model, the Group's average managerial VaR was equal to €164.8 million in reduction compared to the same period of 2020. The performance of the indicator was mainly attributable to the scenario "rolling effect" due to the lower market volatility following the exceptional market shocks in March 2020 related to the spread of the COVID-19 pandemic.

As to the bank portfolio risks, the market risk, measured in terms of VaR, has recorded in the first nine months of 2021 an average value of €414 million (€648 million was the average value on 30 September 2020). On 30 September 2021, the VaR was equal to €342 million, compared to €680 million on 30 September 2020. On 31 December 2020, the VaR was equal to €492 million, compared to €227 million on 31 December 2019.

The market risk is the risk of losses in the value of financial instruments, including the securities of sovereign States held by the Bank, due to the movements of market variables (by way of example and without limitation, interest rates, prices of securities, exchange rates), which could determine a deterioration of the financial soundness of the Bank and/or the Group. Such deterioration could be produced either by negative effects on the income statement deriving from positions held for trading purposes, or from negative changes in the FVOCI (*Fair Value through Other Comprehensive Income*) reserve, generated by positions classified as financial Activities evaluated at fair value, with an impact on the overall profitability.

The Bank is therefore exposed to possible changes of the financial instruments value, including the securities issued by sovereign States, due to fluctuations of interest rates, exchange rates of currencies, prices of the securities listed on the markets, commodities and credit spreads and/or other risks. Such fluctuations could be caused by changes in the general economic trend, the investors' propensity to investments, monetary and tax policies, liquidity of the markets on a global scale, availability and capital cost, interventions of rating agencies, political events both at social and international level, war conflicts and acts of terrorism. The market risk occurs both with respect to the trading book, which includes the financial trading instruments and derivative instruments related thereto, and the banking book, which includes the financial assets and liabilities that are different from those contained in the trading book.

For further information please see Part E of the Explanatory Note of the consolidated financial statements, incorporated by reference to this Base Prospectus.

Liquidity risk of Intesa Sanpaolo

*The ratio between the credits towards customers and the direct deposit taking, as reported in the consolidated financial statement ("**Loan to deposit ratio**") on 30 September 2021 was at 86,4%, compared to 88% on 31 December 2020.*

Both regulatory indicators, LCR and NSFR, were well above the minimum regulatory requirements (100%). The Liquidity Coverage Ratio (LCR) of the Intesa Sanpaolo Group, measured according to Delegated Regulation (EU) 2015/61, amounted to an average of 179.5 at the end of September 2021[1]. The NSFR measured in accordance with regulatory instructions, was 123,8% at the end of September 2021.

The participation of the Group to TLTRO funding transactions with ECB at the end of September 2021 was equal to approximately €131 billion.

Although the Bank constantly monitors its own liquidity risk, any negative development of the market situation and the general economic context and/or creditworthiness of the Bank, may have negative effects on the activities and the economic and/or financial situation of the Bank and the Group .

The liquidity risk is the risk that the Bank is not able to satisfy its payment obligations at maturity, both due to the inability to raise funds on the market (funding liquidity risk) and of the difficulty to disinvest its own assets (market liquidity risk).

The liquidity of the Bank may be prejudiced by the temporary impossibility of accessing capital markets by the issuance of debt securities (both guaranteed and not guaranteed), the inability to receive funds from counterparties which are external to or of the Group, the inability to sell certain assets or redeem its investments, as well as unexpected cash outflows or the obligation to provide more guarantees. Such a situation may occur by reason of circumstances that are independent from the control of the Bank, such as a general market disruption or an operational issue which affects the Bank or any third parties, or also by reason of the perception among the participants in the market that the Bank or other participants in the market are experiencing a higher liquidity risk. The liquidity crisis and the loss of trust in the financial institutions may increase the Bank's cost of funding and limit its access to some of its traditional liquidity sources.

Examples of liquidity risk manifestation are the bankruptcy of an important participant to the market, or concerns about its possible default, which may cause serious liquidity issues, losses or defaults of other banks which, in turn, could negatively affect the Bank; and a decrease of the creditworthiness of third parties of which the Bank holds securities or bonds, that may determine losses and/or negatively affect the ability of the Bank to invest again or use in a different way such securities or bonds for liquidity purposes.

The participation of the Intesa Sanpaolo Group to the TLTRO funding transactions with the ECB as at 31 December 2020 was equal to approximately € 83 billion. In particular, the Group has participated to 9 TLTRO funding transactions, starting from 24 June 2016. As at 30 September 2021, such transactions amounted to approximately €131 billion, consisting entirely of TLTROs III.

In March 2019 ECB announced a new series of quarterly targeted longer-term refinancing operations (TLTRO-III), starting in September 2019 and ending in March 2021, each with a maturity of two years. These new operations helped to preserve favorable bank lending conditions and the smooth transmission of monetary policy.

In March 2020 for TLTRO III, the ECB announced that considerably more favorable terms would have been applied during the period from June 2020 to June 2021 to all TLTRO III operations outstanding during that same time. This decision had the purpose to support bank lending to those customers most affected by the spread of the coronavirus, in particular small and medium-sized enterprises.

1 The LCR ratio refers to the simple average of the last 12 months of monthly observations, as per Regulation (EU) 2021/637.

At the same time ECB announced that additional longer-term refinancing operations (LTROs) would be conducted temporarily to provide immediate liquidity support to the euro area financial system. These operations provided an effective backstop in case of need and were carried out through a fixed rate tender procedure with full allotment, with an interest rate equal to the average rate on the deposit facility. The LTRO provided liquidity at favorable terms until the TLTRO III operation in June 2020.

Operational risk

The Bank is exposed to several categories of operational risk which are intrinsic to its business, among which those mentioned herein, by way of example and without limitation: frauds by external persons, frauds or losses arising from the unfaithfulness of the employees and/or breach of control procedures, operational errors, defects or malfunctions of computer or telecommunication systems, computer virus attacks, default of suppliers with respect to their contractual obligations, terrorist attacks and natural disasters. The occurrence of one or more of said risks may have significant negative effects on the business, the operational results and the economic and financial situation of the Bank. The capital absorption amounts to 2,110 million euro as at 30 September 2021 and represents approximately 8% of the total value of the ISP Group requirement.

The operational risk may be defined as the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events. Operational risk includes legal risk and compliance risk, model risk, ICT risk and financial reporting risk; strategic and reputational risk are not included.

The Bank has defined a framework for the operational risks management which consists of the following phases:

- Identification: the detection and description of potential operational risk areas (e.g. operational events, presence of issues, applicability of risk factors, significant risk scenarios);
- Assessment and measurement: determination of operational risk exposure;
- Monitoring and control: continuous management of changes in the operational risk exposure, also to prevent the occurrence of harmful events and to promote active risk management;
- Mitigation: operational risk containment through appropriate mitigation actions and suitable risk transfer strategies, based on a risk-driven approach;
- Reporting: preparation of information flows related to operational risk management, designed to ensure adequate knowledge of the exposure to this risk.

Although the Bank constantly supervises its own operational risks, certain unexpected events and/or events out of the Bank's control may occur (including those mentioned above by way of example and without limitation), with possible negative effects on the business and the economic and/or financial situation of the Bank and the Group, as well as on its reputation.

For further information please see Part E of the Explanatory Note of the consolidated financial statements for 2020, incorporated by reference in this Base Prospectus.

Foreign exchange risk

The Bank is exposed to several categories of foreign exchange risk which are intrinsic to its business and are lied in foreign currency loans and deposits held by customers, purchases of securities, equity investments and other financial instruments in foreign currencies, conversion to domestic currency of assets, liabilities and income of branches and subsidiaries abroad, trading of foreign currencies and banknotes, and collection and/or payment of interest, commissions, dividends and administrative costs in foreign currencies.

Although the Bank constantly monitors its exposure to foreign currencies, any negative development of the foreign rates may have negative effects on activities and the economic and/or financial situation of the Bank and the Group.

"Foreign exchange risk" is defined as the potential loss resulting from changes in the exchange rate that could have a negative impact on the valuation of the assets and liabilities in the financial statements and on earnings and capital ratios. Two types of Foreign Exchange Risk are identified: Structural and Transaction risk. Structural Foreign Exchange Risk is defined as the potential loss resulting from changes in the exchange rate that could have a negative impact on the foreign exchange reserves that are part of the Group's consolidated shareholders' equity, and also includes the foreign exchange risk associated with hybrid capital instruments. The key sources of structural foreign exchange risk are therefore the investments in associates and companies subject to joint control.

The Intesa Sanpaolo Group's management of the Structural Foreign Exchange Risk assigns the Parent Company the related management and coordination powers in order to achieve a consistent Group strategy. This choice, which is consistent with the Parent Company's role as the liaison with the Supervisory Authority, allows the activities to be performed based on the specific responsibilities set out in the prudential supervision regulations, in addition to suitably mitigating and/or managing this type of risk.

Transaction Foreign Exchange Risk is defined as the potential loss resulting from changes in the exchange rate that may have a negative impact both on the valuation of the assets and liabilities in the financial statements and on the earnings from funding and lending transactions in currencies other than the euro.

The main sources of this foreign exchange risk consist of: non-euro loans and deposits held by corporate and/or retail customers; conversion into domestic currency of assets, liabilities and income of the international branches; trading of foreign currencies; collection and/or payment of interest, commissions, dividends and administrative expenses in foreign currencies; purchase and sale of securities and financial instruments for the purpose of resale in the short term; etc.

Transaction foreign exchange risk also includes the risk related to transactions connected to operations that generate the type of structural foreign exchange risk represented, for example, by dividends, earnings in the process of being generated, and corporate events.

Risk related to the development of the banking sector regulation and the changes in the regulation on the solution of banking crises

The Bank is subject to a complex and strict regulation, as well as to the supervisory activity performed by the relevant institutions (in particular, the European Central Bank, the Bank of Italy and CONSOB). Both aforementioned regulation and supervisory activity are subject, respectively, to continuous updates and practice developments.

Furthermore, as a listed Bank, the Bank is required to comply with further provisions issued by CONSOB.

The Bank, besides the supranational and national rules and the primary or regulatory rules of the financial and banking sector, is also subject to specific rules on anti-money laundering, usury and consumer protection.

Although the Bank undertakes to comply with the set of rules and regulations, any changes of the rules and/or changes of the interpretation and/or implementation of the same by the competent authorities could give rise to new burdens and obligations for the Bank, with possible negative impacts on the operational results and the economic and financial situation of the Bank.

Regulatory framework

Starting from 1 January 2014, a part of the Supervisory Rules has been amended on the grounds of the Directions deriving from the so called Basel III agreements, mainly with the purpose to significantly

strengthen the minimum capital requirements, the restraint of the leverage degree and the introduction of policies and quantitative rules for the mitigation of the liquidity risk of the banks.

As for the capital requirements, the prudential provisions in force provide for minimum capitalisation levels. In particular, the banks are required to have a Common Equity Tier 1 (CET 1) ratio at least equal to 7% of the risk-weighted assets, a Tier 1 ratio equal at least to 8.5% of the risk-weighted assets and a Total Capital ratio equal at least to 10.5% of said risk-weighted assets (such minimum levels include the so called "capital conservation buffer", namely a "buffer" of further mandatory capitalisation).

As known, *Intesa Sanpaolo*, as a bank of significant importance for the European financial system, is subject to direct supervision of the European Central Bank (ECB). Following the Supervisory Review and Evaluation Process (SREP) the ECB provides, on an annual basis, a final decision of the capital requirement that *Intesa Sanpaolo* must comply with at consolidated level. On 25 November 2020, Intesa Sanpaolo received the final decision of the ECB concerning the capital requirement that the Bank has to meet, as of 1 January 2021. Overall capital requirement the Bank is required to meet in terms of Common Equity Tier 1 ratio is 8.59% on a fully loaded basis[2].

The following requirements match the determination of the requirement related to the Common Equity Tier 1 ratio for 2021: a) a SREP requirement in terms of Total Capital ratio equal to 9.5%, which includes a Pillar I minimum requirement of 8% and an additional Pillar II requirement of 1.5%, of which 4.5% and 0.84% in terms of Common Equity Tier 1 ratio; b) the additional Capital Conservation Buffer requirement of 2.5% on a fully-loaded basis already from 2019 and the additional O-SII Buffer (Other Systematically Important Institutions Buffer) of 0.75% on a fully-loaded basis in 2021.

It should be noted that, on 12 March 2020, the ECB, taking into account the economic effects of the coronavirus (COVID-19), announced certain measures aimed at ensuring that banks, under its direct supervision, are still able to provide credit support to the real economy.
Considering that the European banking sector acquired a significant amount of capital reserves (with the aim of enabling banks to face with stressful situations such as the COVID-19), the ECB allows banks to operate temporarily below the capital level defined by the "Pillar 2 Guidance (P2G)" and the "capital conservation buffer (CCB)". Furthermore, the ECB expects these temporary measures to be further improved by an appropriate revision of the countercyclical capital buffer (CCyB) by the competent national authorities.

Moreover, due to the COVID -19 outbreak, with the recommendation of March 27, 2020 the ECB recommended that at least until 1 October 2020 no dividends are paid out and no irrevocable commitment to pay out dividends is undertaken by the credit institutions for the financial year 2019 and 2020 and that credit institutions refrain from share buy-backs aimed at remunerating shareholders. ECB has decided to extend the recommendation on dividends until 30 September 2021 with the New recommendation ECB/2020/62 that repeals Recommendation ECB 2020/19 of 27 March 2020 and Recommendation ECB 2020/35 of 27 July 2020.

By taking into account the additional requirement made by the *Institution specific Countercyclical Capital Buffer*, the requirement of Common Equity Tier 1 ratio to be respected by Intesa Sanpaolo is equal to 8.63% on a fully loaded basis.

As at 31 December 2020, by taking into account the transitional treatment adopted to mitigate the impact of the IFRS 9 (**IFRS 9 Transitional**), the Common Equity Tier 1 ratio stood at 14.7%, the Tier 1 ratio at 16.9% and the total capital ratio at 19.6%. Considering the full inclusion of the impact of IFRS 9 (IFRS 9 Fully Loaded), solvency ratios as at 31 December 2020 were as follows: a Common Equity ratio of 14.0%, a Tier 1 ratio of 16.2% and a Total capital ratio of 19.2%.

[2] Applying the regulatory change introduced by the ECB with effect from 12 March 2020, allowing the Pillar 2 requirement to be met partially using equity instruments not classified as Common Equity Tier 1.

By taking into consideration the full inclusion of the impact of IFRS 9 (**IFRS 9 Fully Loaded**), the solvency coefficients as of 31 December 2019 are the following: Total capital ratio 17.00%; Tier 1 ratio 14.3%; and Common Equity Tier 1 ratio 13.00%.

As for the liquidity, the European rules envisage, inter alia, a short-term indicator (Liquidity Coverage Ratio or **LCR**), aimed at creating and maintaining a liquidity buffer able to allow the survival of the bank for a period of thirty days in case of serious market stress, and a structural liquidity indicator (Net Stable Funding Ratio or **NSFR**) with a temporal horizon longer than a year, introduced to ensure that the assets and liabilities have a sustainable maturity structure.

Both indicators of the Group are widely above the minimum limits provided by the Rules.

In relation to the Covid-19 pandemia, the slowdown in economic activity caused by lockdowns across Europe and the measures the Governments have taken to face the effects of the current health and economic emergency impacted the Group operations in the different countries of its perimeter, particularly during the peak of the pandemia emergency. The business continuity management plans were activated in order to ensure the regular execution of Treasury activities and the proper information flows to the senior management and the Supervisors.

Despite the overall liquidity situation of the Group is more than safe and under constant control, some risks may materialize in the horizon, depending on the expected economic recovery. An important mitigating factor to these risks are the contingency management policies in place in the Group system of rules and the measures adopted by the European Central Bank, which have granted a higher flexibility in the management of the current liquidity situation by leveraging on the available liquidity buffers.

Furthermore, the Prudential Basel III Regulation introduced the financial Leverage Ratio, which measures the coverage degree of Class 1 Capital compared to the total exposure of the Bank Group. Such index is calculated by considering the assets and exposures out of the budget. The objective of the indicator is to contain the degree of indebtedness in the balance sheets of the banks. The ratio is subject to a minimum regulatory limit of 3%. On 18 June 2021, the ECB announced, through its decision no. ECB/2021/1074, that euro area banks it directly supervises may exclude certain bank exposures from the Leverage Ratio, as exceptional macroenomic circumastances due to Covid-19 pandemic continue. The move extends until March 2022, the Leverage Ratio Relief granted in September 2020, which had expired on 27 June 2021.

Although the above-mentioned regulatory evolution (further described under the "*Regulatory Section*" on page 115 of this Base Prospectus) envisages a gradual adaptation to the new prudential requirements, the impacts on the management dynamics of the Bank could be significant.

In this context, a few other relevant provisions are the implementation of Directives 2014/49/EU (*Deposit Guarantee Schemes Directive*) of 16 April 2014 and the adoption of the (EU) Regulation no. 806/2014 of the European Parliament and the Council of 15 July 2014 (*Single Resolution Mechanism Regulation,* – so called **SRMR**), which may determine a significant impact on the economic and financial position of the Bank and the Group, as such rules set the obligation to create specific funds with financial resources that shall be provided, starting from 2015, by means of contributions by the credit institutions.

Moreover, the Directive 2014/59/EU of the European Parliament and the Council (Bank Recovery and Resolution Directive, **BRRD**, as amended by Directive 879/2019/EU, **BRRD II**), which, *inter alia*, introduced the so called "bail-in", Regulation 2019/876/EU of the European Parliament and the Council, which amends Regulation 575/2013/EU (s.c. "CRR II") and the Directive of the Parliament and the Council 2019/878/EU, which amends Directive 2013/36/EU (s.c. "CRD V") must be taken into consideration and put in force by Intesa Sanpaolo Group.

The Intesa Sanpaolo Group is subject to the BRRD, as amended from time to time, which is intended to enable a wide range of actions that could be taken towards institutions considered to be at risk of failing (i.e. the sale of business, the asset separation, the bail-in and the bridge bank). The execution of any action under

the BRRD towards the Intesa Sanpaolo Group could materially affect the value of, or any repayments linked to the Covered Bonds.

Notwithstanding the above, it should be noted that pursuant to Article 44 (2) of the BRRD, as implemented in Italy by Article 49 of Legislative Decree No. 180 of 16 November 2015, resolution authorities shall not exercise the write down or conversion powers in relation to secured liabilities, including covered bonds or their related hedging instruments, save to the extent that these powers may be exercised in relation to any part of a secured liability (including covered bonds and their related hedging instruments), that exceeds the value of the assets, pledge, lien or collateral against which it is secured.

On 15 October 2013, the Council of the European Union adopted the Council Regulation (EU) No. 1024/2013 granting specific tasks to the ECB as per prudential supervision policies of credit institutions (the **SSM Regulation**) in order to establish a single supervisory mechanism (the **Single Supervisory Mechanism** or **SSM**). From 4 November 2014, the SSM Regulation has given the ECB, in conjunction with the national regulatory authorities of the Eurozone and participating Member States, direct supervisory responsibility over "banks of significant importance" in the Eurozone.

In this respect, "banks of significant importance" include any Eurozone bank in relation to which(i) the total value of its assets exceeds €30 billion or – unless the total value of its assets is below €5 billion – the ratio of its total assets over the national gross domestic product exceeds 20%; (ii) is one of the three most significant credit institutions established in a Member State; (iii) has requested, or is a recipient of, direct assistance from the European Financial Stability Facility or the European Stability Mechanism; (iv) is considered by the ECB to be of significant relevance where it has established banking subsidiaries in more than one participating Member State and its cross-border assets/liabilities represent a significant part of its total assets/liabilities.

Notwithstanding the fulfilment of the relevant criteria, the ECB, on its own initiative after consulting with each national competent authority or upon request by a national competent authority, may declare an institution significant to ensure the consistent application of high-quality supervisory standards. Intesa Sanpaolo and the Intesa Sanpaolo Group have been classified, respectively, as a significant supervised entity and a significant supervised group within the meaning of Regulation (EU) No. 468/2014 of the European Central Bank of 16 April 2014 establishing the framework for co-operation within the Single Supervisory Mechanism between the European Central Bank and each national competent authority and with national designated authorities (the **SSM Framework Regulation**) and, as such, are subject to direct prudential supervision by the ECB in respect of the functions granted to ECB by the SSM Regulation and the SSM Framework Regulation.

Risks related to the entry into force of new accounting principles and the amendment of the applied accounting principles

The Bank is exposed, as well as any other entity operating within the bank sector, to the effects deriving from both the entry into force of new accounting principles and the amendment of the existing ones, in particular with respect to the international IAS/IFRS accounting principles, as approved and adopted within the European legal system. On the date of first implementation of the IFRS 9 principle (31 March 2018), the main impacts for the Intesa Sanpaolo Group arose from the application of the new impairment accounting model (based on the "expected loss" concept instead of the "incurred loss" approach, which was previously envisaged by IAS 39), which has led to an increase of the value adjustments. The first implementation of the IFRS 16 principle, on 31 March 2019, caused an impact on the CET 1, equal to -8 base points.

It is important to highlight that a particular attention should be given towards other interventions on the accounting regulations, particularly the new international principle IFRS 9 "*Financial Instruments*", which replaced the IAS 39 as per the classification and measurement of the financial instruments. Such principle, which has been approved by means of Regulation (EU) 2067/2016, entered into force on 1 January 2018.

For an in depth analysis of the IFRS 9, the relevant implementation project and the effects of its first application (FTA) we refer to the chapter on "*The transition to the international accounting principle IFRS 9*" included in the balance sheet as of 31 December 2018. We would like to underline that, upon the first application of the principle, the main impacts for *Intesa Sanpaolo* Group arose from the enforcement of the new impairment accounting model (based on the concept of "expected loss" instead of the approach of the "incurred loss", previously envisaged by IAS 39), which caused an increase of the value adjustments.

Also with reference to the application of the IFRS 9, we observe that the *Intesa Sanpaolo* Group, as mainly a banking financial conglomerate, has decided to avail itself of the option of application of the so called "Deferral Approach" (or Temporary Exemption), by virtue of which the financial assets and liabilities of the insurance subsidiary Companies continue to be registered on the balance sheet under the provisions of IAS 39, awaiting the entry into force of the new international accounting principle on insurance agreements (IFRS 17), which is scheduled for 2023[3].

For further details on the first adoption of the new principle please refer to the specific qualitative and quantitative information included in the chapter "Notes to the consolidated financial statements – Part A – Accounting policies" of the annual report as of 31 December 2019" and 31 December 2020.

2. RISKS RELATED TO COVERED BONDS

The risks below have been classified into the following sub-categories:

Risks related to Covered Bonds generally

Risks related to the Guarantor;

Risks related to the underlying; and

Risk related to the market.

Risks related to Covered Bonds generally

The Covered Bonds may not be a suitable investment for all investors

Each potential investor in the Covered Bonds must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- have sufficient knowledge and experience to make a meaningful evaluation of the Covered Bonds, the merits and risks of investing in the Covered Bonds and the information contained or incorporated by reference in this Base Prospectus or any applicable supplement;
- have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Covered Bonds and the impact the Covered Bonds will have on its overall investment portfolio;
- have sufficient financial resources and liquidity to bear all of the risks of an investment in the Covered Bonds, including Covered Bonds where the currency for principal or interest payments is different from the potential investor's currency;
- understand thoroughly the terms of the Covered Bonds and be familiar with the behaviour of any relevant indices and financial markets; and
- be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

On 25 June 2020, the IASB published the final version of the "Amendments to IFRS 17 Insurance Contracts" which confirmed the deferral of the date

Of first-time adoption of the Standard to 1 January 2023 (instead of 1 January 2022 previously proposed in the ED 2019/4), with the concurrent possibility of an extension to the same date of the "Deferral approach" in the application of IFRS 9. This was endorsed by the European Commission with the publication of Regulation 2097/2020 "Extension of the Temporary Exemption from Applying IFRS 9 (amendments to IFRS 4)" on 15 December 2020.

Some Covered Bonds are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in Covered Bonds which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Covered Bonds will perform under changing conditions, the resulting effects on the value of the Covered Bonds and the impact this investment will have on the potential investor's overall investment portfolio.

Obligations to make payments when due on the Covered Bonds

The Issuer is liable to make payments when due on the Covered Bonds. The obligations of the Issuer under the Covered Bonds are direct, unsecured, unconditional and unsubordinated obligations, ranking *pari passu* without any preference amongst themselves and equally with its other direct, unsecured, unconditional and unsubordinated obligations. Consequently, any claim directly against the Issuer in respect of the Covered Bonds will not benefit from any security or other preferential arrangement granted by the Issuer. The Covered Bond Guarantor has no obligation to pay the Guaranteed Amounts payable under the Covered Bond Guarantee until the service on the Covered Bond Guarantor of an Article 74 Notice to Pay (which has not been withdrawn) or a Notice to Pay. Failure by the Covered Bond Guarantor to pay amounts due under the Covered Bond Guarantee in respect of any Series or Tranche would constitute a Covered Bond Guarantor Event of Default which would entitle the Representative of the Covered Bondholders to serve a Covered Bond Guarantor Acceleration Notice and accelerate the obligations of the Covered Bond Guarantor under the Covered Bond Guarantee and entitle the Representative of the Covered Bondholders to enforce the Covered Bond Guarantee. The occurrence of an Issuer Event of Default does not constitute a Covered Bond Guarantor Event of Default.

The Covered Bonds will not represent an obligation or be the responsibility of any of the Dealer(s), the Arrangers, the Representative of the Covered Bondholders or any other party to the Transaction Documents, their officers, members, directors, employees, security holders or incorporators, other than the Issuer and, upon service of an Article 74 Notice to Pay (which has not been withdrawn) or a Notice to Pay, the Covered Bond Guarantor. The Issuer and the Covered Bond Guarantor will be liable solely in their corporate capacity and, as to the Covered Bond Guarantor, limited recourse to the Available Funds, for their obligations in respect of the Covered Bonds and such obligations will not be the obligations of their respective officers, members, directors, employees, security holders or incorporators.

Extendable obligations under the Covered Bond Guarantee

With respect to the Series of Covered Bonds in respect of which the Extendable Maturity is specified in the relevant Final Terms, if the Covered Bond Guarantor is obliged under the Covered Bond Guarantee to pay a Guaranteed Amount and has insufficient funds available under the relevant Priority of Payments to pay such amount on the Maturity Date, then the obligation of the Covered Bond Guarantor to pay such Guaranteed Amounts shall automatically be deferred to the relevant Extended Maturity Date. However, to the extent the Covered Bond Guarantor has sufficient monies available to pay in part the Guaranteed Amounts in respect of the relevant Series of Covered Bonds, the Covered Bond Guarantor shall make such partial payment in accordance with the relevant Priorities of Payments, as described in Condition 8 (*Redemption and Purchase*) on the relevant Maturity Date and any subsequent CB Payment Date falling prior to the relevant Extended Maturity Date. Payment of the unpaid amount shall be deferred automatically until the applicable Extended Maturity Date. Interest will continue to accrue and be payable on the unpaid Guaranteed Amount on the basis set out in the applicable Final Terms or, if not set out therein, in Condition 8 (*Redemption and Purchase*), *mutatis mutandis*. In these circumstances, except where the Covered Bond Guarantor has failed to apply money in accordance with the relevant Priorities of Payments in accordance with Condition 8 (*Redemption and Purchase*), failure by the Covered Bond Guarantor to pay the relevant Guaranteed Amount on the Maturity Date or any subsequent CB Payment Date falling prior to the Extended Maturity Date (or the relevant later date following any applicable grace period) shall not constitute a Covered Bond Guarantor Event of Default. However, failure by the Covered Bond Guarantor to pay any Guaranteed Amount or the balance thereof, as the case may be, on the relevant Extended Maturity Date and/or pay any other amount due under the Covered Bond Guarantee will (subject to any applicable grace period) constitute a Covered Bond Guarantor Event of Default.

Risks related to the structure of a particular issue of Covered Bonds

Covered Bonds issued under the Programme will either be fungible with an existing Series (in which case they will form part of such Series) or have different terms to an existing Series (in which case they will constitute a new Series). All Covered Bonds issued from time to time will rank *pari passu* with each other in all respects and will share equally in the security granted by the Covered Bond Guarantor under the Covered Bond Guarantee. If an Issuer Event of Default and/or a Covered Bond Guarantor Event of Default occurs and results in acceleration, all Covered Bonds of all Series will accelerate at the same time.

A wide range of Covered Bonds may be issued under the Programme. A number of these Covered Bonds may have features which contain particular risks for potential investors. Under no circumstances shall the interest payments for the Covered Bondholder be less than zero. Set out below is a description of the most common of such features:

(a) Covered Bonds subject to optional redemption by the Issuer

An optional redemption feature of Covered Bonds is likely to limit their market value. During any period when the Issuer may elect to redeem Covered Bonds, the market value of those Covered Bonds generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The Issuer may be expected to redeem Covered Bonds when its cost of borrowing is lower than the interest rate on the Covered Bonds. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Covered Bonds being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

(b) Zero Coupon Covered Bonds

The Issuer may issue Covered Bonds which do not pay current interest but are issued at a discount from their nominal value or premium from their principal amount. Such Covered Bonds are characterised by the circumstance that the relevant covered bondholders, instead of benefitting from periodical interest payments, shall be granted an interest income consisting in the difference between the redemption price and the issue price, which difference shall reflect the market interest rate. A holder of a zero coupon covered bond is exposed to the risk that the price of such covered bond falls as a result of changes in the market interest rate. Prices of zero coupon Covered Bonds are more volatile than prices of fixed rate Covered Bonds and are likely to respond to a greater degree to market interest rate changes than interest bearing Covered Bonds with a similar maturity. Generally, the longer the remaining terms of such Covered Bonds, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

(c) Fixed/Floating Rate Covered Bonds

Fixed/Floating Rate Covered Bonds may bear interest at a rate that the Issuer may elect to convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate. The Issuer's ability to convert the interest rate will affect the secondary market and the market value of the Covered Bonds since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Issuer converts from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate Covered Bonds may be less favourable than then prevailing spreads on comparable Floating Rate Covered Bonds tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Covered Bonds. If the Issuer converts from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing rates on its Covered Bonds.

(d) Covered Bonds issued at a substantial discount or premium

The market values of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

Certain decisions of Representative of the Covered Bondholders taken without the consent or sanction of any of the Covered Bondholders.

Pursuant to the Rules of the Organisation of the Covered Bondholders, the Representative of the Covered Bondholders may, without the consent or sanction of any of the Covered Bondholders concur with the Issuer and/or the Covered Bond Guarantor and any other relevant parties in making or sanctioning any modifications to the Rules of the Organisation of the Covered Bondholders, the Conditions and/or the other Transaction Documents:

- provided that in the opinion of the Representative of the Covered Bondholders such modification is not materially prejudicial to the interests of any of the Covered Bondholders of any Series; or
- which in the opinion of the Representative of the Covered Bondholders are made to correct a manifest error or an error established as such to the satisfaction of the Representative of the Covered Bondholders or of a formal, minor or technical nature, or are made to comply with mandatory provisions of law.

In establishing whether an error is established as such, the Representative of the Covered Bondholders may have regard to any evidence on which the Representative of the Covered Bondholders considers reasonable to rely on, and may, but shall not be obliged to, have regard to all or any of the following:

- a certificate from a Relevant Dealer, stating the intention of the parties to the relevant Transaction Document, confirming nothing has been said to, or by, the investors or any other parties which is in any way inconsistent with such stated intention and stating the modification to the relevant Transaction Document that is required to reflect such intention;
- confirmation from the Rating Agency that, after giving effect to such modification, the Covered Bonds shall continue to have the same credit ratings as those assigned to them immediately prior to the modification.

Covered Bondholders are bound by Extraordinary Resolutions and Programme Resolutions.

A meeting of Covered Bondholders may be called to consider matters which affect the rights and interests of Covered Bondholders. These include (but are not limited to): (i) instructing the Representative of the Covered Bondholders to take enforcement action against the Issuer and/or the Covered Bond Guarantor; (ii) reduction or cancellation of the amount payable or, where applicable, modification of the method of calculating the amount payable or modification of the date of payment or, where applicable, modification of the method of calculating the date of payment in respect of any principal or interest in respect of the Covered Bonds; (iii) alteration of the currency in which payments under the Covered Bonds are to be made; (iv) alteration of the majority required to pass an Extraordinary Resolution; and (v) any amendments to the Covered Bond Guarantee or the Pledge Agreement (except in a manner determined by the Representative of the Covered Bondholders not to be materially prejudicial to the interests of the Covered Bondholders of any Series).

Certain decisions of Covered Bondholders shall be taken at a Programme level by means of Programme Resolution. A Programme Resolution will bind all Covered Bondholders, irrespective of whether they attended the meeting or voted in favour of the Programme Resolution. No Resolution, other than a Programme Resolution, passed by the holders of one Series of Covered Bonds will be effective in respect of another Series unless it is sanctioned by an Ordinary Resolution or an Extraordinary Resolution, as the case may require, of the holders of that other Series. Any Resolution passed at a meeting of the Covered Bondholders of a Series shall bind all other holders of that Series, irrespective of whether they attended the meeting and whether they voted in favour of the relevant Resolution.

It should also be noted that after the delivery of a Notice to Pay, the protection and exercise of the Covered Bondholders' rights against the Issuer will be exercised by the Covered Bond Guarantor (or the Representative of the Bondholders on its behalf). The rights and powers of the Covered Bondholders may only be exercised in accordance with the Rules of the Organisation of the Covered Bondholders. In addition, after the delivery of a Covered Bond Guarantor Acceleration Notice, the protection and exercise of the Covered Bondholders' rights against the Covered Bond Guarantor and the security under the Covered Bond Guarantee is one of the duties of the Representative of the Covered Bondholders. The Conditions limit the ability of each individual Covered Bondholder to commence proceedings against the Covered Bond Guarantor by conferring on the meeting of the Covered Bondholders the power to determine in accordance with the Rules of the Organisation of the Covered Bondholders, whether any Covered Bondholder may commence any such individual actions.

Representative of the Covered Bondholders' powers may affect the interests of the Covered Bondholders

In the exercise of its powers, trusts, authorities and discretions the Representative of the Covered Bondholders shall only have regard to the interests of the Covered Bondholders and the other Secured Creditors but if, in the opinion of the Representative of the Covered Bondholders, there is a conflict between these interests, the Representative of the Covered Bondholders shall have regard solely to the interests of the Covered Bondholders.

If, in connection with the exercise of its powers, trusts, authorities or discretions, the Representative of the Covered Bondholders is of the opinion that the interests of the Covered Bondholders of any one or more Series would be materially prejudiced thereby, the Representative of the Covered Bondholders shall not exercise such power, trust, authority or discretion without the approval of such Covered Bondholders by Extraordinary Resolution or by a direction in writing of such Covered Bondholders of at least 75 per cent. of the Outstanding Principal Balance of the Covered Bonds of the relevant Series.

Credit Rating of the Covered Bonds may not reflect all risks

The rating assigned to the Covered Bonds address, *inter alia*:

(i) the likelihood of full and timely payment to Covered Bondholders of all payments of interest on each CB Payment Date;

(ii) the likelihood of ultimate payment of principal in relation to Covered Bonds on (a) the Maturity Date thereof, or (b) if the Covered Bonds are subject to an Extended Maturity Date in accordance with the applicable Final Terms, the Extended Maturity Date thereof.

Whether or not a rating in relation to any Series of Covered Bonds will be issued by a credit rating agency established in the European Union and registered under the EU CRA Regulation will be disclosed in the relevant Final Terms. The credit ratings included or referred to in this Base Prospectus have been issued by DBRS. In general, EEA regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the EEA (1) the rating is provided by a credit rating agency not established in the EEA or (2) the rating is provided by a credit rating agency not established in the EEA which is certified under the EU CRA Regulation. In general, UK regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the UK and registered under the UK CRA Regulation unless (1) the rating is provided by a credit rating agency not established in the UK but is endorsed by a credit rating agency established in the UK and registered under the UK CRA Regulation or (2) the rating is provided by a credit rating agency not established in the UK which is certified under the UK CRA Regulation. The European Securities and Markets Authority (the **ESMA**) is obliged to maintain on its website, https://www.esma.europa.eu/page/List-registered-and-certified-CRAs, a list of credit rating agencies registered and certified in accordance with the EU CRA Regulation. The Financial Conduct Authority (the **FCA**) is obliged to maintain on its website, https://register.fca.org.uk/s/search?q=fitch&type=Companies), a list of credit rating agencies registered and certified in accordance with the UK CRA Regulation. Certain information with respect to the credit rating agencies and ratings will be disclosed in the Final Terms.

The expected rating of the Covered Bonds is set out in the relevant Final Terms for each Series of Covered Bonds. The Rating Agency may lower its ratings or withdraw its rating if, in its sole judgement, the credit quality of the Issuer or the Covered Bonds has declined or is in question, and the Issuer has not undertaken to maintain a rating. In addition, at any time the Rating Agency may revise its relevant rating methodology with the result that, amongst other things, any rating assigned to the Covered Bonds may be lowered. If any rating assigned to the Covered Bonds is lowered or withdrawn, the market value of the Covered Bonds may reduce.

A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time. The ratings may not reflect the potential impact of all risks related to the structure, market, additional factors discussed above and other factors that may affect the value of the Covered Bonds.

The return on an investment in Covered Bonds will be affected by charges incurred by investors

An investor's total return on an investment in any Covered Bonds will be affected by the level of fees charged by the nominee service provider and/or clearing system used by the investor. Such a person or institution may charge fees for the opening and operation of one or more investment accounts, transfers of

Covered Bonds, custody services and on payments of interest, principal and other amounts. Potential investors are therefore advised to investigate the basis on which any such fees will be charged on the relevant Covered Bonds. Certain information in that respect are available under the section headed "*General Information*".

Law 130

Law 130 was enacted in Italy in April 1999 and amended to allow for the issuance of covered bonds in 2005. Law 130 was further amended during the following years, including on 30 November 2021 by way of the Legislative Decree no. 190 of 5 November 2021 (the "Decree 190/2021") implementing Directive (EU) 2019/2162, which aims at amending article 7-bis of Law 130.

As at the date of this Base Prospectus, no interpretation of the application of Law 130 as it relates to covered bonds has been issued by any Italian court or governmental or regulatory authority, except for (i) the MEF Decree setting out the technical requirements of the guarantee which may be given in respect of covered bonds, (ii) the BoI OBG Regulations concerning guidelines on the valuation of assets, the procedure for purchasing integration assets and controls required to ensure compliance with the legislation, and (iii) the clarifications, provided for by the Bank of Italy, to certain queries concerning the OBG Regulations submitted to the such authority by Italian banks and the Italian Banking Association (*Associazione Bancaria Italiana*). Consequently, it is possible that such or different authorities may issue further regulations relating to Law 130 or the interpretation thereof, the impact of which cannot be predicted by the Issuer as at the date of this Base Prospectus.

Change of law

The structure of the Programme and, *inter alia*, the issue of the Covered Bonds and the rating assigned to the Covered Bonds are based on the relevant law, tax and administrative practice in effect at the date of this Base Prospectus, and having due regard to the expected tax treatment of all relevant entities under such law and practice.

Except to the extent that any such changes represent a significant new factor or result in this Base Prospectus containing a material mistake or inaccuracy, in each case which is capable of affecting the assessment of the Covered Bonds, the Issuer and the Guarantor will be under no obligation to update this Base Prospectus to reflect such changes.

On 18 December 2019, the following provisions were published on the Official Journal of the European Union:

(i) Directive (EU) 2019/2162 of the European Parliament and of the Council of 27 November 2019 on the issue of covered bonds and covered bond public supervision and amending Directives 2009/65/EC and 2014/59/EU (the **Directive**); and

(ii) Regulation (EU) 2019/2160 of the European Parliament and of the Council of 27 November 2019 amending Regulation (EU) No 575/2013 as regards exposures in the form of covered bonds (the **Regulation**).

The Regulation and the Directive amend certain provisions of the CRR on covered bonds and introduce standards on the issuance of covered bonds and covered bond public supervision. More in particular, the new Regulation makes certain amendments to the CRR to strengthen the quality of the covered bonds eligible for favorable capital treatment, and the new Directive aims to harmonize the regulation and treatment of covered bonds across EU Member States.

Member States had to transpose the Directive by 8 July 2021. Such deadline expired without the implementation having been made in Italy. The Regulation shall apply from 8 July 2022. The Issuer will need to implement the measures 8 July 2022 at the latest.

On 30 November 2021 the Legislative Decree no. 190 of 5 November 2021 (the **Decree 190/2021**) implementing Directive (EU) 2019/2162 was published in the Official Gazette No. 285 of 30 November 2021 and entered into force on 1 December 2021. In this respect, it is worth mentioning that the national legislator chose to exercise the following options provided by Directive (EU) 2019/2162: (i) the possibility not to apply the liquidity requirement of the cover pool limited to the period covered by the liquidity requirement provided for in Delegated Regulation (EU) 2015/61; (ii) the possibility of allowing the issuance of covered bonds with extendable maturity structures; (iii) the possibility of allowing the calculation of the

liquidity requirement of the cover pool in case of programs with extendable maturity by taking as a reference the final maturity date for the payment of principal.

Moreover, the Decree 190/2021 designates the Bank of Italy as the competent authority for the public supervision of the covered bonds, which is entrusted with the issuing of the implementing regulations by 8 July 2022. In these regulations, the Bank of Italy will also have to assess whether to exercise the option provided for in the Directive that allows Member States to lower the threshold of the minimum level of overcollateralization.

No assurance can be given as to the impact of any possible change to the law (including any change in regulation which may occur without a change in primary legislation), tax or administrative practice or its interpretation will not change after the Issue Date of any Series or that such change will not adversely impact the structure of the Programme and the treatment of the Covered Bonds.

For further details, see the sections headed "*Regulatory Section*" and "*Covered Bond Legislative Package*".

The regulation and reform of "benchmarks" may adversely affect the value of Covered Bonds linked to such "benchmarks"

The Euro Interbank Offered Rate (**EURIBOR**) and other interest rates or other types of rates and indices which are deemed to be "benchmarks" are the subject of recent ongoing and international regulatory discussions and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented.

Regulation (EU) No. 2016/1011 (the **EU Benchmarks Regulation**) applies subject to certain transitional provisions, to the provisions of benchmarks, the contribution of input data to a benchmark and the us of a benchmark, within the Regulation (EU) No. 2016/1011 as it forms part of domestic law of the United Kingdom by virtue of the European Union (Withdrawal) Act 2018 (the **UK Benchmarks Regulation** applies to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark, within the UK.

The EU Benchmarks Regulation or the UK Benchmarks Regulation, as applicable, could have a material impact on any Covered Bonds linked to EURIBOR or another benchmark rate or index, in particular, if the methodology or other terms of the "benchmark" are changed in order to comply with the terms of the EU Benchmarks Regulation or UK Benchmarks Regulation and such changes could (amongst other things) have the effect of reducing or increasing the rate or level, or affecting the volatility of the published rate or level of the "benchmark".

More broadly, any of the international, national or other proposals for reform, or the general increased regulatory scrutiny of "Benchmarks", could increase the costs and risks of administering or otherwise participating in the setting of a "Benchmark" and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or contribute to certain "benchmarks," trigger changes in the rules or methodologies used in certain "benchmarks" or lead to the discontinuance or unavailability of quotes of certain "benchmarks".

As an example of such benchmark reforms, on 21 September 2017 the European Central Bank announced that it would be part of a new working group tasked with the identification and adoption of a "risk free overnight rate" which can serve as a basis for an alternative to current benchmarks used in a variety of financial instruments and contracts in the euro area. On 13 September 2018, the working group on Euro risk-free rates recommended the new Euro short-term rate (€STR) as the new risk-free rate for the euro area. The €STR was published for the first time on 2 October 2019. Although EURIBOR has subsequently been reformed in order to comply with the terms of the Benchmark Regulation, it remains uncertain as to how long it will continue in its current form, or whether it will be further reformed or replaced with €STR or an alternative benchmark.

It is not possible to predict with certainty whether, and to what extent, EURIBOR will continue to be supported going forwards.

This may cause EURIBOR to perform differently than it has done in the past and may have other consequences which cannot be predicted. Such factors may have (without limitation) the following effects on

certain benchmarks: (i) discouraging market participants from continuing to administer or contribute to a benchmark; (ii) triggering changes in the rules or methodologies used in the benchmark and/or (iii) leading to the disappearance of the benchmark. Any of the above changes or any other consequential changes as a result of international or national reforms or other initiatives or investigations, could have a material adverse effect on the value of and return on any Covered Bond linked to, referencing, or otherwise dependent (in whole or in part) upon, a benchmark.

The Terms and Conditions of the Covered Bonds provide that, if the Issuer (in consultation with the Calculation Agent) determines that a Benchmark Event (as defined in the Conditions) has occurred (including, but not limited to, a Reference Rate (as defined in the Conditions) ceasing to be provided or upon a material change of a Reference Rate), if applicable, then the Issuer shall use reasonable endeavours to appoint an Independent Adviser for the purposes of determining a Successor Rate or an Alternative Benchmark Rate (as further described in Condition 6(f) (*Fallback Provisions*) of the Terms and Conditions of the Covered Bonds and, if applicable, an Adjustment Spread. If the Issuer is unable to appoint an Independent Adviser or if the Independent Adviser and the Issuer cannot agree upon, or cannot select, the Successor Rate or Alternative Benchmark Rate, the Issuer may determine the replacement rate, provided that if the Issuer is unable or unwilling to determine the Successor Rate or Alternative Benchmark Rate, the further fallbacks described in the Terms and Conditions of the Covered Bonds shall apply. In certain circumstances, including but not limited to where the Issuer is unable or unwilling to determine an Alternative Benchmark Rate and Alternative Relevant Screen Page, the ultimate fallback for the purposes of calculation of interest for a particular Interest Period may result in the rate of interest of the last preceding Interest Period being used. This may result in effective application of a fixed rate of interest for Covered Bonds initially designated to be Floating Rate Covered Bonds. In addition, due to the uncertainty concerning the availability of Successor Rates and Alternative Reference Rates and the involvement of an Independent Adviser, the relevant fallback provisions may not operate as intended at the relevant time.

The use of a Successor Rate or an Alternative Benchmark Rate may result in interest payments that are substantially lower than or that do not otherwise correlate over time with the payments that could have been made on the Covered Bonds if the relevant benchmark remained available in its current form. Furthermore, if the Issuer is unable to appoint an Independent Adviser or if the Issuer fails to agree a Successor Rate or an Alternative Benchmark Rate or adjustment spread, if applicable with the Independent Adviser, the Issuer may have to exercise its discretion to determine (or to elect not to determine) an Alternative Benchmark Rate or adjustment spread, if applicable in a situation in which it is presented with a conflict of interest. In addition, while any Adjustment Spread may be expected to be designed to eliminate or minimise any potential transfer of value between counterparties, the application of the Adjustment Spread to the Covered Bonds may not do so and may result in the Covered Bonds performing differently (which may include payment of a lower interest rate) than they would do if the Reference Rate were to continue to apply in its current form.

Investors should consult their own independent advisers and make their own assessment about the potential risks imposed by the EU Benchmarks Regulation or the UK Benchmarks Regulation or any of the international or national reforms and the possible application of the benchmark replacement provisions of the Covered Bonds, investigations and licensing issues in making any investment decision with respect to the Covered Bonds linked to or referencing such a "benchmark".

Controls over the transaction

The BoI OBG Regulations require that certain controls be performed by the Issuer and/or the Sellers (see paragraph headed "*Controls over the transaction*" under the section headed "*Selected aspects of Italian law*"), aimed, *inter alia*, at mitigating the risk that any obligation of the Issuer or the Covered Bond Guarantor under the Covered Bonds is not complied with. Whilst the Issuer and the Sellers believe they have implemented the appropriate policies and controls in compliance with the relevant requirements, investors should note that there is no assurance that such compliance ensures that the aforesaid controls are actually performed and that any failure to properly implement the relevant policies and controls could have an adverse effect on the Issuer's or the Covered Bond Guarantor's ability to perform their obligations under the Covered Bonds.

Risks related to the Guarantor

Covered Bond Guarantor only obliged to pay the Guaranteed Amounts on the Due for Payment Date

The Covered Bond Guarantor has no obligation to pay the Guaranteed Amounts payable under the Covered Bond Guarantee until service by the Representative of the Covered Bondholders:

(i) on the Covered Bond Guarantor, following the occurrence of an Article 74 Event or an Issuer Event of Default, respectively, of an Article 74 Notice to Pay (which has not been withdrawn) or a Notice to Pay; and

(ii) following the occurrence of a Covered Bond Guarantor Event of Default, on the Covered Bond Guarantor of a Covered Bond Guarantor Acceleration Notice.

An Article 74 Notice to Pay can only be served if an Article 74 Event occurs and results in service by the Representative of the Covered Bondholders of an Article 74 Notice to Pay on the Issuer and the Covered Bond Guarantor. A Notice to Pay can only be served if an Issuer Event of Default occurs and results in service by the Representative of the Covered Bondholders of a Notice to Pay on the Issuer and the Covered Bond Guarantor. A Covered Bond Guarantor Acceleration Notice can only be served if a Covered Bond Guarantor Events of Default occurs.

Following service of an Article 74 Notice to Pay (which has not been withdrawn) or a Notice to Pay on the Covered Bond Guarantor (provided that (i) an Article 74 Event or an Issuer Event of Default has occurred and (ii) no Covered Bond Guarantor Acceleration Notice has been served) under the terms of the Covered Bond Guarantee, the Covered Bond Guarantor will be obliged to pay the Guaranteed Amounts as on the Due for Payment Date. Such payments will be subject to and will be made in accordance with the Post-Issuer Default Priority of Payments. In these circumstances, other than the Guaranteed Amounts, the Covered Bond Guarantor will not be obliged to pay any amount, for example in respect of broken funding indemnities, penalties, premiums, default interest or interest on interest which may accrue on or in respect of the Covered Bonds.

Pursuant to the Covered Bond Guarantee, following the occurrence of an Article 74 Event or an Issuer Event of Default and service, respectively, of an Article 74 Notice to Pay (which has not been withdrawn) or a Notice to Pay, but prior to the occurrence of any Covered Bond Guarantor Event of Default, the Covered Bond Guarantor shall substitute the Issuer in every and all obligations of the Issuer towards the Covered Bondholders, so that the rights of payment of the Covered Bondholders in such circumstance will only be the right to receive payments of the Scheduled Interest and the Scheduled Principal from the Covered Bond Guarantor on the Scheduled Due for Payment Date. In consideration of the substitution of the Covered Bond Guarantor in the performance of the payment obligations of the Issuer under the Covered Bonds, the Covered Bond Guarantor (directly or through the Representative of the Covered Bondholders) shall exercise, on an exclusive basis, the right of the Covered Bondholders *vis-à-vis* the Issuer and any amount recovered from the Issuer will be part of the Available Funds.

Furthermore, please note that the above restrictions are provided for by either the MEF Decree or contractual agreements between the parties of the Covered Bond Guarantee, and there is no case-law or other official interpretation on this issue. Therefore, we cannot exclude that a court might uphold a Covered Bondholder's right to act directly against the Issuer.

Limited resources available to the Covered Bond Guarantor

The Covered Bond Guarantor's ability to meet its obligations under the Covered Bond Guarantee will depend on the realisable value of the Portfolio, the amount of principal and revenue proceeds generated by the Portfolio and/or the Eligible Investments and the timing thereof and amounts received from the Hedging Counterparties and the Account Banks. The Covered Bond Guarantor will not have any other source of funds available to meet its obligations under the Covered Bond Guarantee.

If a Covered Bond Guarantor Event of Default occurs, the proceeds of the Portfolio, the Eligible Investments and the amounts received from the Hedging Counterparties and the Account Banks, may not be sufficient to meet the claims of all the Secured Creditors, including the Covered Bondholders. If the Secured Creditors have not received the full amount due to them pursuant to the terms of the Transaction Documents, then they may still have an unsecured claim against the Issuer for the shortfall. There is no guarantee that the Issuer will have sufficient funds to pay that shortfall.

Covered Bondholders should note that the Nominal Value Test and the Amortisation Test have been structured to ensure that the Nominal Value of the Portfolio and the Amortisation Test Aggregate Portfolio Amount, as applicable, shall be greater than or equal to the Outstanding Principal Balance of the Covered Bonds. In addition, the MEF Decree provide for certain further tests aimed at ensuring that (a) the net present value of the Eligible Portfolio (net of certain costs) shall be greater than or equal to the net present value of the Covered Bonds; and (b) the amount of interest and other revenues generated by the Portfolio (net of certain costs) shall be greater than or equal to the interest and costs due by the Issuer under the Covered Bonds.

However there is no assurance that there will not be a shortfall in the amounts available to the Covered Bond Guarantor to meet its obligations under the Covered Bond Guarantee.

Reliance of the Covered Bond Guarantor on third parties

The Covered Bond Guarantor has entered into agreements with a number of third parties, which have agreed to perform services for the Covered Bond Guarantor. In particular, but without limitation, the Servicers, the Master Servicer and the Special Servicers have been appointed, in accordance with the terms of the Servicing Agreement as to their respective duties and obligations, to service the Receivables and the Securities included in the Portfolio and the Asset Monitor has been appointed to monitor compliance with the Tests. In the event that any of those parties fails to perform its obligations under the relevant agreement to which it is a party, the realisable value of the Portfolio or any part thereof may be affected, or, pending such realisation (if the Portfolio or any part thereof cannot be sold), the ability of the Covered Bond Guarantor to make payments under the Covered Bond Guarantee may be affected. For instance, if any of the Servicers has failed to adequately administer the Portfolio, this may lead to higher incidences of non-payment or default by Debtors. The Covered Bond Guarantor is also reliant on the Hedging Counterparties to provide it with the funds matching its obligations under the Covered Bond Guarantee.

If an event of default occurs in relation to the Servicers and/or the Master Servicer and/or the Special Servicers pursuant to the terms of the Servicing Agreement, then the Covered Bond Guarantor, with the prior written consent of the Representative of the Covered Bondholders, will be entitled to terminate the appointment of the Servicers and/or the Master Servicer and/or the Special Servicers (as the case may be) and appoint a Successor Servicer and/or Successor Master Servicer and/or a Successor Special Servicer (as the case may be). There can be no assurance that a successor with sufficient experience in carrying out the activities of the Servicers and/or the Master Servicer and/or the Special Servicers would be found and would be willing and able to carry out the relevant activities on the terms of the Servicing Agreement. The ability of a Successor Servicer and/or a Successor Master Servicer and/or a Successor Special Servicer to perform fully the required services would depend, among other things, on the information, software and records available at the time of the appointment. Any delay or inability to appoint a Successor Servicer and/or a Successor Master Servicer and/or a Successor Special Servicer may affect the realisable value of the Portfolio or any part thereof, and/or the ability of the Covered Bond Guarantor to make payments under the Covered Bond Guarantee.

The Representative of the Covered Bondholders is not obliged in any circumstances to act as Servicer and/or Master Servicer and/or Special Servicer or to monitor the performance by the Servicers and/or the Master Servicer and/or the Special Servicers of their respective obligations.

Reliance on Hedging Counterparties

To provide a hedge against interest rate risks and/or currency risk in respect of each Series of the Covered Bonds issued under the Programme, the Covered Bond Guarantor may enter into the Liability Swaps with the Liability Hedging Counterparty. Additionally, to provide a hedge against interest rate risk and/or currency risk on the Portfolio, the Covered Bond Guarantor entered into the Asset Swaps with the Asset Hedging Counterparty.

If the Covered Bond Guarantor fails to make timely payments of amounts due under any Swap Agreement, then it will (unless otherwise stated in the relevant Swap Agreement) have defaulted under that Swap Agreement. A Hedging Counterparty is (unless otherwise stated in the relevant Master Agreement) only obliged to make payments to the Covered Bond Guarantor as long as the Covered Bond Guarantor complies with its payment obligations under the relevant Swap Agreement. In circumstances where non-payment by the Covered Bond Guarantor under a Swap Agreement does not result in a default under that Swap Agreement, the Hedging Counterparty may be obliged to make payments to the Covered Bond Guarantor

pursuant to the Master Agreements as if payment had been made by the Covered Bond Guarantor. Any amounts not paid by the Covered Bond Guarantor to a Hedging Counterparty may in such circumstances incur additional amounts of interest by the Covered Bond Guarantor, which would rank senior to amounts due on the Covered Bonds. If the Hedging Counterparty is not obliged to make payments or if it defaults in its obligations to make payments of amounts in the relevant currency equal to the full amount to be paid to the Covered Bond Guarantor on the payment date under the Master Agreements, the Covered Bond Guarantor will be exposed to changes in the relevant currency exchange rates to Euro and to any changes in the relevant rates of interest.

If a Swap Agreement terminates, then the Covered Bond Guarantor may be obliged to make a termination payment to the relevant Hedging Counterparty. There can be no assurance that the Covered Bond Guarantor will have sufficient funds available to make a termination payment under the relevant Swap Agreement, nor can there be any assurance that the Covered Bond Guarantor will be able to enter into a subsequent swap agreement.

If the Covered Bond Guarantor is obliged to pay a termination payment under any Master Agreement, such termination payment may rank ahead of amounts due on the Covered Bonds and with amounts due under the Covered Bond Guarantee. Accordingly, the obligation to pay a termination payment may adversely affect the ability of the Covered Bond Guarantor to meet its obligations under the Covered Bond Guarantee.

No Gross-up for Taxes by the Covered Bond Guarantor

Notwithstanding anything to the contrary in this Base Prospectus, if withholding of, or deduction of any present or future taxes, duties, assessments or charges of whatever nature is imposed by or on behalf of Italy, any authority therein or thereof having power to tax, the Covered Bond Guarantor will make the required withholding or deduction of such taxes, duties, assessments or charges for the account of the Covered Bondholders, as the case may be, and shall not be obliged to pay any additional amounts to the Covered Bondholders.

Value of the Portfolio

The Covered Bond Guarantee granted by the Covered Bond Guarantor in respect of the Covered Bonds will be backed by the Portfolio and the recourse against the Covered Bond Guarantor will be limited to such assets. The value of the Covered Bond Guarantor's assets may decrease (for example if there is a general decline in property values). The Sellers make no representation, warranty or guarantee that the value of a real estate asset will remain at the same level as it was on the date of the origination of the related Mortgage Loan or at any other time. If the residential and/or commercial property market in Italy experiences an overall decline in property values, the value of the Mortgage Loan could be significantly reduced and, ultimately, may result in losses to the Covered Bondholders if such security is required to be enforced.

Risks related to the underlying

Limits to the integration

Under the BoI OBG Regulations, any integration, whether through Eligible Assets or Integration Assets shall be carried out in accordance with the modalities, and subject to the limits, set out in the BoI OBG Regulations (see paragraph headed "*Tests set out in the MEF Decree*" under the section headed "*Selected aspects of Italian law*").

More specifically, under the BoI OBG Regulations, integration is allowed exclusively for the purpose of (i) complying with the tests provided for under the MEF Decree; (ii) complying with any contractual overcollateralisation requirements agreed by the parties to the relevant agreements; or (iii) complying with the Integration Assets Limit.

Investors should note that the integration is not allowed in circumstances other than as set out in the BoI OBG Regulations and specified above.

Limited description of the Portfolio

Covered Bondholders may not receive detailed statistics or information in relation to the Eligible Assets and Integration Assets included in the Portfolio, because it is expected that the constitution of the Portfolio will frequently change due to, for instance:

(i) the Sellers selling further Eligible Assets and Integration Assets;

(ii) the Sellers (for so long as they act as the Servicers in the context of the Programme) being granted by the Covered Bond Guarantor with wide powers to renegotiate the terms and conditions of the Receivables and the Securities included in the Portfolio; and

(iii) the Sellers repurchasing certain Eligible Assets and Integration Assets in the limited circumstances provided for under the Master Transfer Agreement; and

However, each Receivable and Security being, from time to time, part of the Portfolio, will be required to meet the Criteria and/or the characteristics (as applicable) set out in the Master Transfer Agreement and to conform to the representations and warranties granted by the Sellers under the Master Transfer Agreement (see paragraph headed "*Master Transfer Agreement*" under the section headed "*Description of the Transaction Documents*"). In addition, the Tests are intended to ensure, *inter alia*, that the ratio of the Covered Bond Guarantor's assets to the Covered Bonds is maintained at a certain minimum level and the Asset Cover Report to be provided by the Calculation Agent on the Business Day prior to each Calculation Date will set out, *inter alia*, certain information in relation to the Tests.

In accordance with the Portfolio Administration Agreement, an Additional Seller may sell to the Covered Bond Guarantor, and the latter shall purchase, Eligible Assets and Integration Assets, subject to, *inter alia*: (i) the execution of a master transfer agreement by such Additional Seller, substantially in the form of the Master Transfer Agreement, and (ii) the granting of a subordinated loan by such Additional Seller for the purpose of financing the purchase of Eligible Assets or Integration Assets from it, in accordance with the provision of a subordinated loan agreement to be executed substantially in the form of the Subordinated Loan Agreement.

Sale of Selected Assets and/or Integration Assets following the occurrence of an Article 74 Event or an Issuer Event of Default

Following the service of an Article 74 Notice to Pay (which has not been withdrawn) or of a Notice to Pay and prior to the occurrence of a Covered Bond Guarantor Event of Defaults, if necessary in order to effect timely payments under the Covered Bonds, as determined by the Calculation Agents, the Servicers, or any other third party appointed by the Representative of the Covered Bondholders, in the name and on behalf of the Covered Bond Guarantor, shall sell Selected Assets and/or Integration Assets, in accordance with, and subject to, the terms of the Portfolio Administration Agreement.

There is no guarantee that a buyer will be found to acquire Selected Assets and/or Integration Assets at the times required and there can be no guarantee or assurance as to the price which may be able to be obtained for such Selected Assets and/or Integration Assets, which may affect payments under the Covered Bond Guarantee. However, the Selected Assets and/or Integration Assets may not be sold by the Servicers, or any other third party appointed by the Representative of the Covered Bondholders, in the name and on behalf of the Covered Bond Guarantor for an amount lower than the Adjusted Required Redemption Amount for the relevant Series of Covered Bonds until 6 (six) months prior to the Maturity Date in respect of such Covered Bonds or (if the same is specified as applicable in the relevant Final Terms) the Extended Maturity Date in respect of such Covered Bonds. If, *inter alia*, Selected Assets and/or Integration Assets have not been sold (in whole or in part) in an amount equal to the Adjusted Required Redemption Amount by the date which is 6 (six) months prior to the Maturity Date or Extended Maturity Date of a Series of Covered Bonds, the Servicers, or any other third party appointed by the Representative of the Covered Bondholders, in the name and on behalf of the Covered Bond Guarantor, is obliged to sell the Selected Assets and/or the Integration Assets for the best price reasonably available notwithstanding that such price may be less than the Adjusted Required Redemption Amount (see paragraph headed "*Portfolio Administration Agreement*" under the section headed "*Description of the Transaction Documents*").

Realisation of assets following the occurrence of a Covered Bond Guarantor Event of Default

If a Covered Bond Guarantor Event of Default occurs and a Covered Bond Guarantor Acceleration Notice is served on the Covered Bond Guarantor, then the Representative of the Covered Bondholders shall, in the name and on behalf of the Covered Bond Guarantor, direct the Servicers, or any other third party appointed by the Representative of the Covered Bondholders, to sell the Selected Assets and/or the Integration Assets as quickly as reasonably practicable taking into account the market conditions at that time (see paragraph headed "*Portfolio Administration Agreement*" under the section headed "*Description of the Transaction Documents*").

There is no guarantee that the proceeds of realisation of the Portfolio will be in an amount sufficient to repay all amounts due to creditors (including the Covered Bondholders) under the Covered Bonds and the Transaction Documents. If a Covered Bond Guarantor Acceleration Notice is served on the Covered Bond Guarantor, then the Covered Bonds may be repaid sooner or later than expected or not at all.

Factors that may affect the realisable value of the Portfolio or the ability of the Covered Bond Guarantor to make payments under the Covered Bond Guarantee

Following the occurrence of an Issuer Event of Default, the service of a Notice to Pay on the Issuer and on the Covered Bond Guarantor, the realisable value of the assets included in the Portfolio may be reduced (which may affect the ability of the Covered Bond Guarantor to make payments under the Covered Bond Guarantee) by, *inter alia*:

(i) default by the Debtors on amounts due in respect of Eligible Assets and Integration Assets;

(ii) set-off risks in relation to some types of Eligible Assets and Integration Assets included in the Portfolio;

(iii) limited recourse to the Covered Bond Guarantor;

(iv) possible regulatory changes by the Bank of Italy, CONSOB and other regulatory authorities;

(v) adverse movement of the interest rate;

(vi) unwinding cost related to the hedging structure; and

(vii) regulations in Italy that could lead to some terms of the Eligible Assets and Integration Assets being unenforceable.

Each of these factors is considered in more detail below. However, it should be noted that the Amortisation Test is intended to ensure that there will be an adequate amount of Eligible Assets and Integration Assets in the Portfolio and monies standing to the credit of the Accounts to enable the Covered Bond Guarantor to repay the Covered Bonds following an Issuer Event of Default, service of a Notice to Pay on the Issuer and on the Covered Bond Guarantor and, accordingly, it is expected (although there is no assurance) that Selected Assets and/or Integration Assets could be realised for sufficient values to enable the Covered Bond Guarantor to meet its obligations under the Covered Bond Guarantee.

Default by Debtors in paying amounts due on Receivables or Securities

Debtors may default on their obligations due under the Receivables or the Securities for a variety of reasons. The Eligible Assets and Integration Assets are affected by credit, liquidity and interest rate risks. Various factors influence delinquency rates, prepayment rates, repossession frequency and the ultimate payment of interest and principal, such as changes in the national or international economic climate, regional economic conditions, changes in tax laws, interest rates, inflation, the availability of financing, yields on alternative investments, political developments and government policies. Certain factors may lead to an increase in default by the Debtors and could ultimately have an adverse impact on the ability of the Debtors to repay the Receivables or the Securities.

Changes to the lending criteria of the Sellers

The Receivables originated by the Sellers will have been originated in accordance with their respective lending criteria at the time of origination. It is expected that the Sellers' lending criteria will generally consider term of loan, indemnity guarantee policies, status of applicants and credit history. In the event of the sale or transfer of any Receivable to the Covered Bond Guarantor, the Sellers will warrant that such Receivables were originated in accordance with the relevant Sellers' lending criteria applicable at the time of origination. Each Seller retains the right to revise its lending criteria from time to time, subject to the terms of the Master Transfer Agreement. However, if such lending criteria change in a manner that affects the creditworthiness of the Receivables, that may lead to increased defaults by Debtors and may affect the realisable value of the Portfolio and the ability of the Covered Bond Guarantor to make payments under the Covered Bond Guarantee. However, Defaulted Assets in the Portfolio will be given a zero weighting for the purposes of the calculation of the Tests.

Mortgage Loans performance

The Receivables which shall be included in the Portfolio will be performing as at the relevant Selection Date. There can be no guarantee that the relevant Debtors will not default under the Mortgage Loans and that they will therefore continue to perform. The recovery of amounts due in relation to non-performing loans will be subject to the effectiveness of enforcement proceedings in respect of the Mortgage Loans, which in the Republic of Italy can take a considerable time, depending on the type of action required and where such action is taken and on several other factors, including the following: proceedings in certain courts involved in the enforcement of the Mortgage Loans and the relevant mortgages may take longer than the national average; obtaining title deeds from land registries which are in the process of computerising their records can take up to two or three years; further time is required if it is necessary to obtain an injunction decree (*decreto ingiuntivo*) and if the relevant Debtor raises a defence or counterclaim to the proceedings. According to the latest statistics published by the Ministry of Justice with regard to data as at 2013, the recovery period for loans in respect of which recovery is by foreclosure proceedings on the related mortgaged real estate usually lasts three years and six months, although such period may vary significantly depending upon, *inter alia*, the type and location of the related mortgaged real estate and the other factors described above.

Recently, new legal provisions have been introduced in order to speed up legal proceedings. In particular, Law Decree no. 59 of 2 May 2016, as converted into Law no. 119 of 30 June 2016, implemented new provisions, which interested:

(i) the Italian Insolvency Law, by introducing the possibility of using electronic technologies for hearings and for meetings of creditors. Furthermore, failure to comply with the time limits for the proceedings, established in Article 110, Paragraph 1, of the Italian Insolvency Law, is envisaged as a fair reason for removing the receiver; and

(ii) the Italian Code of Civil Procedure, providing for:

  (a) the inadmissibility of opposing the forced sale once the sale or allocation of the asset has been decreed;

  (b) the immediate enforceability of the judges's orderwhen the debtor's opposition is not based on documentary proof;

  (c) simplification of the procedure for the transfer of the property;

  (d) the possibility for the debtor's assets to be allocated to a third party yet to be nominated;

  (e) the obligation to proceed with sales on the basis of electronic modalities, and the right for the judge, after three auctions without bidders, to lower the basic price up to a half;

  (f) the possibility, for the judge and for the professionals entrusted with selling, to proceed with partial distributions of the sums obtained from the forced sales.

The above provisions are expected to reduce the length of the enforcement proceedings.

Prepayment and renegotiations

Debtors are generally entitled to prepay their loans at any time. In the case of *mutui fondiari* the right to prepay the loan is provided for by Article 40 of the Banking Law.

In addition, pursuant to Legislative Decree No. 141 enacted on 13 August 2010, Article 120-quater has been added to the Banking Law for the purposes of providing debtors with certain rights and benefits, including the right to prepay their loans at any time, funding such prepayment by a loan granted by another lender (bank or other financial intermediary) which will be subrogated pursuant to article 1202 of the Italian Civil Code, into the rights of the original lender (*surrogazione per volontà del debitore*). The subrogation is effective regardless of the fact that the credit is still not due or that a term of payment in favour of the original lender had been agreed between the debtor and the original lender itself. Further to the subrogation, the lender will automatically replace the original lender also in relation to all guarantees to the relevant loan and no costs and expenses may be charged on the debtor.

Article 120-quater of the Banking Law was subsequently amended by Article 8, paragraph 8 of Law Decree No. 70 of 13 May 2011, converted into Law No. 106 enacted on 12 July 2011, according to which the provisions of Article 120-quater apply to loan agreements entered into between the bank or other financial

intermediary and individuals or small companies (*micro-imprese*). Article 120-quarter was further amended by Law 24 March 2012, No. 27 and Law Decree No. 179 of 18 October 2012, converted into Law No. 221 enacted on 17 December 2012, which respectively have introduced certain amendments (including, *inter alia*, to the timing for completion of the prepayment transactions and manner of calculating the penalty due by the bank).

Legal risks relating to the Mortgage Loans

The ability of the Guarantor to recover payments of interest and principal from the Mortgage Loans is subject to a number of legal risks. Further details on certain considerations in relation to the regulation of mortgages in Italy are set out in the section headed "Selected Aspects of Italian law" and certain specific risks are set out below:

Mortgage borrower protection: Certain legislations enacted in Italy, have given new rights and certain benefits to mortgage debtors and/or reinforced existing rights, including, *inter alia*

(i) the right of prepayment of the principal amount the mortgage loan, without incurring a penalty

(ii) the right to the substitution (*portabilità*) of a mortgage loan with another mortgage loan and

(iii) the right to suspend instalments payments relating to martgage loans.

Further details are set out in the section headed "*Selected Aspects of Italian law Mortgage Borrower protection*". These legislations constitute an adverse effect on the cover pool and, in particular, on any cash flow projections concerning the cover pool as well as on the over-collateralisation required. However, as this legislation is relatively new, as at the date of this Base Prospectus, the Issuer is not in a position to predict its impact.

Mortgage Credit Directive: Directive 2014/17/EU of the European Parliament and of the Council of 4 February 2014 on credit agreements for consumers relating to residential immovable property and amending Directives 2008/48/EC and 2013/36/EU and Regulation (EU) No 1093/2010 (the **Mortgage Credit Directive**) sets out a common framework for certain aspects of the laws, regulations and administrative provisions of the Member States concerning agreements covering credit for consumers secured by a mortgage or otherwise relating to residential immovable property.

In taly the Government has approved the Legislative Decree no. 72 of 21 April 2016, implementing the Mortgage Credit Directive and published on the Official Gazette of the Republic of Italy on 20 May 2016 (the Mortgage Legislative Decree), which, moreover, sets forth certain rules of correctness, diligence and transparency and information undertakings applicable to the lenders and intermediaries which offer loans to the consumers and provides that the parties may agree under the loan agreements that in case of breach of the borrower's payment obligations under the agreement (i.e. non-payment of at least eighteen loan instalments due and payable by the debtor) the property of the debtor subject to security or the proceeds deriving from the sale thereof can be transferred to the creditor in discharge of the entire debt even if the value of the asset or the proceeds deriving from the of the assets is lower than the remaining amount due by the debtor in relation to the loan. Given the absence of any jurisprudential interpretation, the impact of such new legislation may not be predicted as at the date of this Base Prospectus. Further details are set out in the section headed "*Selected Aspects of Italian law –Mortgage Credit Directive*". No assurance can be given that the implementation of the Mortgage Legislative Decree will not adversely affect the ability of the Guarantor to make payments under the Covered Bond Guarantee.

Patto Marciano:

On May 2016, 2016, Law Decree 3 May 2016, no. 59 (**Decree 59**) came into force introducing, inter alia, a new article 48-bis into the Banking Law (**Article 48-bis**). The Decree 59 has been converted into Law No. 119 of 30 June 2016, as published in the Offical Gazette of the Republic of Italy No. 153 of 2 July 2016. Pursuant to Article 48-bis, a loan agreement entered into between an entrepreneur and a bank, or another entity authorised to grant loans to the public pursuant to article 106 of the Banking Law, may be secured by transferring to the creditor (or to a company of the creditor's group authorised to purchase, hold, manage and

transfer rights in rem in immovable property), the ownership of a property or of another immovable right of the entrepreneur or of a third party (which is not the main home of the owner, of the spouse or of his relatives and inlaws up to the third degree). Such transfer is subject to the condition precedent of the debtor defaulting (so-called "Patto Marciano", hereafter the Covenant). Given the novelty of this new legislation andthe absence of any jurisprudential interpretation, the impact of Article 48-*bis* may not be predicted as at the date of this Base Prospectus. Further details are set out in the section headed "*Selected Aspects of Italian law – Patto Marciano*".

Risk related to the market

Limited secondary market

Covered Bonds may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Covered Bonds easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Covered Bonds that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Covered Bonds generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Covered Bonds. In addition, Covered Bonds issued under the Programme might not be rated or listed on a stock exchange or regulated market and, in these circumstances, pricing information may be more difficult to obtain and the liquidity and market prices of such Covered Bonds may be adversely affected. In an illiquid market, an investor might not be able to sell his Covered Bonds at any time at fair market prices. The possibility to sell the Covered Bonds might additionally be restricted by country specific reasons. In addition, liquidity may be limited if the Issuer makes large allocations to a limited number of investors.

Exchange rate risks and exchange controls

The Issuer will pay principal and interest on the Covered Bonds in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the **Investor's Currency**) other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency-equivalent yield on the Covered Bonds, (2) the Investor's Currency equivalent value of the principal payable on the Covered Bonds and (3) the Investor's Currency equivalent market value of the Covered Bonds. Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal and/or tax advisers to determine whether and to what extent (1) Covered Bonds are legal investments for it, (2) Covered Bonds can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Covered Bonds. Financial institutions should consult their legal advisors or the appropriate regulators to determine the appropriate treatment of Covered Bonds under any applicable risk-based capital or similar rules.

DESCRIPTION OF THE ISSUER

History and organisation of the Intesa Sanpaolo Group

Intesa Sanpaolo Origins

Intesa Sanpaolo is the result of the merger by incorporation of Sanpaolo IMI S.p.A. with Banca Intesa S.p.A. (effective 1 January 2007).

Banca Intesa S.p.A.

Banca Intesa S.p.A. was originally established in 1925 under the name of La Centrale and invested in the business of the production and distribution of electricity. After the nationalisation of companies in this sector in the early 1960s, the company changed its name to La Centrale Finanziaria Generale, acquiring equity investments in various companies in the banking, insurance and publishing sector. The company merged by incorporation with Nuovo Banco Ambrosiano in 1985 and assumed its name and constitutional objects. Following the acquisition of Cassa di Risparmio delle Provincie Lombarde S.p.A. (**Cariplo**) in January 1998, the Intesa Sanpaolo Group's name was changed to Gruppo Banca Intesa. Then, in 2001, Banca Commerciale Italiana S.p.A. was merged into Gruppo Banca Intesa and the Intesa Sanpaolo Group's name was changed to "Banca Intesa Banca Commerciale Italiana S.p.A.". On 1 January 2003 the corporate name was changed to "Banca Intesa S.p.A.".

Sanpaolo IMI S.p.A.

Sanpaolo IMI S.p.A. (**Sanpaolo IMI**) was formed in 1998 through the merger of Istituto Mobiliare Italiano S.p.A. (**IMI**) and Istituto Bancario San Paolo di Torino S.p.A. (**Sanpaolo**).

Sanpaolo originated from the "Compagnia di San Paolo" brotherhood, which was set up in 1563 to help the needy. The "Compagnia di San Paolo" began undertaking credit activities and progressively developed into a banking institution during the nineteenth century, becoming a public law credit institution (Istituto di Credito di Diritto Pubblico) in 1932. Between 1960 and 1990, Sanpaolo expanded its network nationwide through a number of acquisitions of local banks and medium-sized regional banks, ultimately reaching the level of a multifunctional group of national importance in 1991 after its acquisition of Crediop. On 31 December 1991, Sanpaolo became a stock corporation (*società per azioni*) with the name Istituto Bancario San Paolo di Torino Società per Azioni.

IMI was established as a public law entity in 1931 and during the 1980s it developed its specialist credit and investment banking services and, with Banca Fideuram, its professional asset management and financial consultancy services. IMI became a joint stock corporation (società per azioni) in 1991.

The merger between Banca Intesa and Sanpaolo IMI and the creation of Intesa Sanpaolo S.p.A.

The boards of directors of Banca Intesa and Sanpaolo IMI unanimously approved the merger of Sanpaolo IMI with Banca Intesa on 12 October 2006 and the merger became effective on 1 January 2007. The surviving entity changed its name to Intesa Sanpaolo S.p.A., the parent company of the Intesa Sanpaolo Group.

UBI Banca S.p.A.

Unione di Banche Italiane S.p.A. (UBI Banca) is the entity resulting from the merger by incorporation of Banca Lombarda e Piemontese S.p.A. into Banche Popolari Unite S.c.p.a. (the Merger). The Merger became legally effective on 1 April 2007, with the surviving entity, BPU, changing its name to UBI Banca. On 12 October 2015, UBI Banca was the first Italian banca popolare to become a Joint Stock Company (S.p.A.). On 12 April 2019, the ordinary shareholders' meeting of UBI Banca appointed a Board of Directors and a Management Control Committee for the three-year period 2019-2020-2021, implementing the one-tier governance model adopted on 19 October 2018 through the resolution of a shareholders' meeting in extraordinary session.

The merger between Intesa Sanpaolo and UBI Banca

Intesa Sanpaolo in the last two years

Intesa Sanpaolo in 2020 – Highlights

Integration of the UBI Group.

The acceptance period for the voluntary public purchase and exchange offer (below "Offer" or "Public Offer") launched by Intesa Sanpaolo for a maximum of 1,144,285,146 ordinary shares of Unione di Banche Italiane S.p.A. (**UBI Banca**), representing all subscribed and paid-in share capital, ended on 30 July 2020. The private placement of UBI Banca shares reserved for "qualified institutional buyers" launched by Intesa Sanpaolo in the United States also ended on that date (the **Private Placement**).

Detailed information about the Offer is provided in the offer document, the information document and all the legally-required documentation made available, together with the individual announcements made regarding the progress of the Offer and its outcome. The Offer was amended on 17 July 2020 following the increase in the consideration per share, through the establishment of a cash consideration of €0.57 for each UBI Banca share tendered in acceptance, and that the acceptance period was extended ex officio by CONSOB from 28 July 2020 to 30 July 2020, pursuant to Article 40, paragraph 4, of the Issuers' Regulation, through Resolution No. 21460 of 27 July 2020.

Furthermore, to prevent possible antitrust concerns, on 17 February 2020 Intesa Sanpaolo and BPER Banca (below also "BPER") entered into a binding agreement, conditional on the success of the Public Offer (**BPER Agreement**), which provides for the purchase by BPER of a going concern consisting of a pool of branches of the entity resulting from the combination of Intesa Sanpaolo with UBI Banca. The original agreement provided for the sale of around 400/500 branches of the combined entity and the related assets and liabilities for a consideration equal to a multiple of 0.55 times the CET 1 of UBI Banca allocated to the branches identified as being subject of the sale. Subsequently, to take appropriate account of the economic situation generated by the outbreak of the COVID-19 pandemic, and following discussions held between Intesa Sanpaolo and BPER, the pricing mechanism described above was modified by establishing a consideration for the above-mentioned going concern equal to 0.38 times the value of the fully-loaded CET 1 at the reference date allocated to the risk-weighted assets of the branches to be sold. In order to remove the specific antitrust concerns raised by the Italian Antitrust Authority (**AGCM**), on 15 June 2020 Intesa Sanpaolo negotiated and signed an agreement supplementing the BPER Agreement under which the number of branches to be transferred was increased (from 400/500 to 532, of which 501 of UBI Banca and 31 of Intesa Sanpaolo) with the precise identification of the details and consequent redefinition of the estimated values. By decision adopted at the meeting of 14 July 2020 and notified to Intesa Sanpaolo on 16 July 2020, AGCM approved the transaction for the acquisition of control of UBI Banca subject to the execution of structural sales in accordance with the BPER Agreement and the commitments made by Intesa Sanpaolo. Through a specific press release on 30 September 2020, it was announced that the parties had identified as the period currently envisaged for the closing of the sale to BPER the second half of February 2021 with regard to the UBI Banca branches and the second quarter of 2021 with regard to the Intesa Sanpaolo branches.

Based on the final results – announced to the market on 3 August 2020 – a total of 1,031,958,027 UBI Banca shares were tendered in acceptance of the Offer during the acceptance period (including those tendered in acceptance through the Private Placement), equal to approximately 90.184% of the share capital of UBI Banca. As a result of the settlement of the Offer (and of the Private Placement) and on the basis of the results of the Offer (and of the Private Placement), the offeror came to hold a total of 1,041,458,904 UBI Banca shares, representing approximately 91.0139% of the share capital of UBI Banca, given that (i) the offeror Intesa Sanpaolo held, directly and indirectly (including through fiduciary companies or nominees) a total of 249,077 ordinary shares of the Issuer, equal to 0.0218% and (ii) UBI Banca held 9,251,800 own shares equal to 0.8085% of the share capital of the Issuer.

Lastly, acceptances "with reserves" were also received in respect of a total number of 334,454 UBI Banca shares from 103 acceptors. These acceptances have not been counted for determining the percent acceptance of the Offer. Based on the final results indicated above, the Percentage Threshold Condition (i.e. the condition that the offeror comes to hold an overall interest at least equal to 66.67% of the Issuer's share capital) was fulfilled and all the other conditions precedent of the Offer were fulfilled or, as the case may be, waived by Intesa Sanpaolo. As a result, the Offer was effective and was able to be completed.

On 5 August 2020, in exchange for the transfer of the ownership of the UBI Banca shares, Intesa Sanpaolo issued and assigned the acceptors of the Offer a total of 1,754,328,645 new Intesa Sanpaolo shares, representing 9.107% of the share capital of Intesa Sanpaolo, based on the ratio of 1.7000 Intesa Sanpaolo shares to 1 UBI Banca share. In addition, on 19 August 2020, Intesa Sanpaolo paid the entitled parties the cash consideration (i.e. €0.57 for each UBI Banca share tendered in acceptance) which amounted to a total of €588,216,075.39.

The interest held directly or indirectly by Intesa Sanpaolo in the share capital of UBI Banca at the end of the acceptance period was more than 90%, but less than 95%, which meant that the conditions were met for the compulsory squeeze-out pursuant to Article 108, paragraph 2, of the Consolidated Law on Finance, with Intesa Sanpaolo having already declared in the offer document that it would not implement measures to restore the minimum free float conditions for normal trading of the UBI Banca ordinary shares. Therefore, pursuant to Article 108, paragraph 2, of the Consolidated Law on Finance, Intesa Sanpaolo was required to purchase the remaining ordinary shares from the shareholders of UBI Banca who requested it, for a total amount of 112,327,119 UBI Banca shares and representing 9.8163% of the share capital. The consideration per remaining share, identified in accordance with the provisions of Article 108, paragraphs 3 and 5, of the Consolidated Law on Finance, was determined as follows:

- a consideration equal to that offered to the acceptors of the Public Purchase and Exchange Offer, namely 1.7000 newly issued Intesa Sanpaolo ordinary shares and €0.57 for each UBI Banca share tendered in acceptance; or, alternatively,

- only to the shareholders so requesting, a cash consideration in full whose amount for each UBI Banca share, calculated in accordance with Article 50-ter, paragraph 1, letter a) of the Issuers' Regulations, was equal to the sum of (x) the weighted average of the official prices of the ISP shares recorded on the Mercato Telematico Azionario (electronic stock exchange) during the five trading days prior to the payment date (i.e. on 29, 30 and 31 July, and 3 and 4 August 2020) multiplied by the exchange ratio (€2.969) and (y) €0.57, for a total consideration of €3.539 per remaining share.

- The compulsory squeeze-out procedure, pursuant to Article 108, paragraph 2, of the Consolidated Law on Finance, which was carried out between 24 August and 11 September 2020, resulted in sale requests for a total of 90,691,202 remaining shares, representing 7.9256% of the share capital of UBI Banca and 80.7385% of the remaining shares. With reference to the 90,691,202 remaining shares:

- for 87,853,597 remaining shares, the owners have requested the consideration established for the Public Offer; and

- for the other 2,837,605 remaining shares, the owners have requested the cash consideration in full, i.e. 3.539 per remaining share.

Taking into account (a) the 1,031,958,027 shares tendered in acceptance of the Offer, (b) the 90,691,202 remaining shares purchased through the procedure pursuant to Article 108, paragraph 2, of the Consolidated Law on Finance, (c) the 131,645 ordinary shares of the Issuer held directly or indirectly by Intesa Sanpaolo and (d) the 8,903,302 own shares held by UBI Banca, Intesa Sanpaolo, following the procedure pursuant to Article 108, paragraph 2, of the Consolidated Law on Finance, came to hold a total of 1,131,684,176 UBI Banca shares, equal to 98.8988% of the share capital of UBI Banca. Intesa Sanpaolo made the payment of the consideration for the compulsory squeeze-out pursuant to Article 108 paragraph 2 of the Consolidated Law on Finance on 17 September 2020 through:

- the issuance of 149,351,114 new Intesa Sanpaolo shares, representing 0.77% of the bank's share capital, and the payment of a consideration of €50,076,550.29 to the accepting shareholders who chose the consideration established for the Offer; and

- the payment of €10,042,284.10 for the accepting shareholders that requested the cash consideration in full.

Subsequent to the procedure pursuant to Article 108, paragraph 2 of the Consolidated Law on Finance, Intesa Sanpaolo, having come to hold more than 95% of the share capital of UBI Banca, exercised its right of

squeeze-out pursuant to Article 111 of the Consolidated Law on Finance and, at the same time, carried out the compulsory squeeze-out pursuant to Article 108, paragraph 1 of the Consolidated Law on Finance for the shareholders of UBI Banca that requested it, through a specific joint procedure that, as agreed with CONSOB and Borsa Italiana (the "Joint Procedure"), was carried out in the period 18 - 29 September 2020. The Joint Procedure targeted a maximum of 21,635,917 UBI Banca residual shares. The consideration established in the Joint Procedure was the same as that paid for the shares purchased in the procedure pursuant to Article 108, paragraph 2 of the Consolidated Law on Finance. During the Joint Procedure, sale requests were submitted for a total of 3,013,070 remaining shares, i.e. 13.9262% of the shares subject to the procedure.
More specifically:

- for 408,474 shares, the owners requested the consideration established for the Public Offer; and

- for the other 2,604,596 shares, the owners requested the cash consideration in full, i.e. € 3.539 per remaining share.

No sale requests were submitted by the owners of the 18,622,847 remaining shares. Such residual shares also include 8,877,911 own shares (representing 0.7758% of the Issuer's share capital) held by UBI Banca and 120,985 UBI Banca ordinary shares held on own account by Intesa Sanpaolo before 17 February 2020, the announcement date of the Offer. The UBI Banca own shares and UBI Banca ordinary shares held on own account by Intesa Sanpaolo were not transferred to Intesa Sanpaolo under the Joint Procedure. Intesa Sanpaolo made the payment of the consideration for the Joint Procedure on 5 October 2020 through:

- the issuance of 17,055,121 new Intesa Sanpaolo shares, representing 0.09% of the bank's share capital and the payment of a consideration of €5,718,482.25 to the accepting shareholders who chose the consideration established for the Offer and to the shareholders that did not submit any sale requests; and

- the payment of €9,217,655.24 for the accepting shareholders that requested the cash consideration in full.

Following the conclusion of the Joint Procedure, Intesa Sanpaolo came to hold 100% of the share capital of UBI Banca.

Lastly, with resolution no. 8693 of 17 September 2020, Borsa Italiana ordered the delisting of UBI Banca shares from trading on the Mercato Telematico Azionario (electronic stock exchange) as of 5 October 2020 (the settlement date of the Joint Procedure), subject to suspension of the shares during the sessions of 1 and 2 October 2020.

Merger of Banca IMI

Intesa Sanpaolo announced on 2 April 2020 that following authorisation given by the European Central Bank, the plan for the merger by incorporation of Banca IMI S.p.A. into Intesa Sanpaolo was filed with the Companies Register of Turin. The merger, which was approved by the Board of Directors of Intesa Sanpaolo on 5 May 2020 and by the shareholders' meeting of Banca IMI, was completed on 20 July 2020.

2020 Annual General Meeting

On 27 April 2020, the annual general meeting of the shareholders of Intesa Sanpaolo approved, inter alia, the parent company's 2019 financial statements and, further to the Board of Directors' decision to suspend the proposal regarding dividend distribution to shareholders, allocation to reserves of the net income for the 2019 financial year. The shareholders' meeting also resolved to grant powers to the Board of Directors to implement a share capital increase by 31 December 2020 by a maximum total amount of €1,011,548,072.60 to serve the UBI Banca voluntary public exchange offer.

Agreement with Trade Unions in respect of at least 5,000 voluntary exits and up to 2,500 new hires by 2023

On 30 September 2020 Intesa Sanpaolo announced that it signed an agreement with the national Secretariats and Group Trade Delegations FABI, FIRST CISL, FISAC/CGIL, UILCA and UNISIN, which aims at enabling generational change at no social cost, while continuing to ensure an alternative to the possible paths for staff reskilling and redeployment as well as the enhancement of the skills of people of the Intesa Sanpaolo Group resulting from the acquisition of UBI Banca finalised on 5 August 2020.

The agreement identifies ways and criteria to reach the target of at least 5,000 exits on a voluntary basis by 2023, with Intesa Sanpaolo Group's people either to retire or access the solidarity fund.

Furthermore, by 2023, indefinite-term employment contracts will be signed according to the proportion of one hire for each two voluntary exits, up to 2,500 hires, against a minimum of 5,000 envisaged voluntary exits, a calculation which does not include the exits of people who will be moved due to the transfers of business lines. The new hires will support the Intesa Sanpaolo Group's growth and its new activities, with a focus on the branch Network and on the disadvantaged areas of the country, including through the "stabilisation" of people currently on fixed-term contracts. The Intesa Sanpaolo Group envisages that at least half of the hires will concern the provinces in which UBI Banca has its historical roots (Bergamo, Brescia, Cuneo and Pavia) and the South of Italy. The agreement has been signed well ahead of the deadline originally planned for year-end, thus highlighting the effective progress of the integration process.

Specifically, the agreement provides that:

- the offer relating to the voluntary exits is addressed to all the people of the Intesa Sanpaolo Group's Italian companies which apply the CCNL Credito (bank employees National Collective Labour Contract), including the managers;

- people who meet the retirement requirements by 31 December 2026, including by applying the calculation rules "Quota 100" and "Opzione donna", may subscribe to the offer in accordance with the ways communicated by the Group;

- people who subscribed to the Intesa Sanpaolo 29 May 2019 Agreement or the UBI Group 14 January 2020 Agreement but were not included in the lists can submit requests for voluntary exit under defined terms; and

- in the event that applications for retirement or access to the Solidarity Fund are in excess of the number of 5,000, a single list will be drawn up at Group level based on the date when the retirement requirement is met. The list will give priority to those people who have previously subscribed to the former Intesa Sanpaolo Group 29 May 2019 agreement or to the former UBI Group 14 January 2020 agreement and have not been included among the envisaged exits, as well as to people entitled to provisions under art. 3, paragraph 3 of Law 104/1992 for themselves, and to disabled people with a disability of at least 67%.

Capital requirement set by the ECB

On 25 November 2020 following the communication received from the ECB in relation to the Supervisory Review and Evaluation Process ("SREP"), Intesa Sanpaolo announced that the Bank, on a consolidated basis, must continue to meet the capital requirement that was established last year.

The overall capital requirement the Bank has to meet in terms of Common Equity Tier 1 ratio is 8.44% under the transitional arrangements for 2020 and 8.63% on a fully loaded basis.

This is the result of:

- a SREP requirement in terms of Total Capital ratio of 9.5% comprising a minimum Pillar 1 capital requirement of 8%, of which 4.5% is Common Equity Tier 1 ratio, and an additional Pillar 2 capital

requirement of 1.5%, of which 0.844% is Common Equity Tier 1 ratio applying the regulatory amendment introduced by the ECB and effective from 12 March 2020;

- additional requirements, entirely in terms of Common Equity Tier 1 ratio, relating to:
    - a Capital Conservation Buffer of 2.5% on a fully loaded basis from 2019,
    - an O-SII Buffer (Other Systemically Important Institutions Buffer) of 0.56% under the transitional arrangements for 2020 and 0.75% on a fully loaded basis in 2021, and
    - a Countercyclical Capital Buffer of 0.032% under the transitional arrangements for 2020 and 0.037% on a fully loaded basis in 2021 (1).

Intesa Sanpaolo's capital ratios as at 30 September 2020 on a consolidated basis - net of around €2.3 billion dividends accrued in the first nine months of 2020 - were as follows:

- 14.7% in terms of Common Equity Tier 1 ratio (2) (3)
- 19.6% in terms of Total Capital ratio (2) (3)

calculated by applying the transitional arrangements for 2020, and

- 15.2% in terms of pro-forma Common Equity Tier 1 ratio calculated on a fully loaded basis (2) (4)
- 20.6% in terms of pro-forma Total Capital ratio calculated on a fully loaded basis (2) (4).

_____

(1) Calculated taking into account the exposures as at 30 September 2020 in the various countries where the Group has a presence, as well as the respective requirements set by the competent national authorities and relating either to 2020-2021, where available, or to the latest update of the reference period (requirement was set at zero per cent in Italy for 2020).
(2) After the deduction of accrued dividends, equal to 75% of net income for the first nine months of the year excluding the negative goodwill, and the coupons accrued on the Additional Tier 1 issues.
(3) Excluding the mitigation of the impact of the first time adoption of IFRS 9, capital ratios are 14% for the Common Equity Tier 1 ratio and 19.2% for the Total Capital ratio.
(4) Estimated by applying the fully loaded parameters to the financial statements as at 30 September 2020, taking into account the total absorption of deferred tax assets (DTAs) related to goodwill realignment, loan adjustments, the first time adoption of IFRS 9 and the non-taxable public cash contribution of €1,285 million covering the integration and rationalisation charges relating to the acquisition of the Aggregate Set of Banca Popolare di Vicenza and Veneto Banca, the expected absorption of DTAs on losses carried forward and on the sale of the going concern to BPER Banca in relation to the acquisition of UBI Banca, and the expected distribution of the 9M 2020 net income of insurance companies.

Disposal and state-guarantee securitization of a bad loan portfolio of the parent company

On 18 December 2020 Intesa Sanpaolo finalised a securitisation of a bad-loan portfolio of the Bank, which was previously sold to a vehicle under Law 130/99, worth around €4.3 billion gross and around €1.2 billion net. This securitisation complies with the regulatory requirements for bearing a guarantee of the Republic of Italy (GACS).
The securitisation vehicle has as at the date of this Base Prospectus issued senior notes equivalent to 81% of the portfolio price and subordinated notes for the remaining 19%. The senior notes have been fully underwritten, and will be retained, by Intesa Sanpaolo. These notes, which have received an investment grade rating from DBRS Morningstar (BBB), Moody's (Baa2) and Scope Ratings (BBB), are expected to bear a GACS by the first quarter of 2021.

The subordinated notes, underwritten by Intesa Sanpaolo as well, will be sold to the tune of 95% to third party investors with Intesa Sanpaolo retaining the remaining 5% in compliance with current regulatory requirements in order to obtain full accounting and regulatory derecognition of the portfolio at the date of

finalisation of the notes sale, which is expected to take place by the end of 2020.

The transaction, which envisages a disposal price of the portfolio - also taking the disposal price of the notes into account - in line with the carrying value, enables Intesa Sanpaolo, one year early, to exceed its 2018- 2021 Business Plan target of halving, at no extraordinary cost to shareholders, gross NPLs to €26.4 billion and the gross NPL ratio to 6% in the four years. Considering the Intesa Sanpaolo Group's figures as at the end of September 2020 excluding UBI Banca, the finalisation of the notes sale results in gross NPLs at €24.6 billion and gross NPL ratio at 5.9%.

Background EU-wide Transparency Exercise

On 11 December 2020 Intesa Sanpaolo noted the announcements made by the European Banking Authority and the European Central Bank regarding the information of the 2020 EU-wide Transparency Exercise and fulfilment of the EBA Board of Supervisors' decision.

Intesa Sanpaolo in 2021 – Highlights

Integration of the UBI Group

On 14 January 2021, Intesa Sanpaolo announced that it will hire 1,000 people in addition to the 2,500 hires already envisaged in the agreement that the Bank signed on 29 September 2020 with Trade Unions *FABI, FIRST/CISL, FISAC/CGIL, UILCA* and *UNISIN*. The agreement, which aims at enabling generational change at no social cost as well as enhancing the skills of the people of the Intesa Sanpaolo Group resulting from the acquisition of UBI Banca, offered the possibility to retire or access the Solidarity Fund, on a voluntary basis, to at least 5,000 people. Intesa Sanpaolo, following verification with the Trade Unions that the offer for voluntary exit was taken up by at least 5,000 people, intends to accept the total of the over 7,200 voluntary exit applications submitted which fulfil the requirements, and consequently, as sought by the Trade Unions, to hire 3,500 people in total by the end of the first half of 2024. This decision confirms the effective progress of the process for the integration of UBI Banca into the Intesa Sanpaolo Group. It follows the agreement signed with the Trade Unions on 30 December 2020 regarding the 5,107 people who are part of the going concern to be sold to BPER Banca.

On 29 January 2021, following the authorisation released by the European Central Bank, in accordance with the regulations in force, the plan for the merger by incorporation of UBI Banca into Intesa Sanpaolo was filed with the Torino Company Register, as provided for by Article 2501-ter of the Italian Civil Code.

The merger was approved by the Board of Directors of Intesa Sanpaolo on 2 March 2021.

2021 EU-Wide Stress Test Results

On 30 July 2021 Intesa Sanpaolo was subject to the 2021 EU-wide stress test conducted by the European Banking Authority (EBA), in cooperation with the Bank of Italy, the European Central Bank (ECB), and the European Systemic Risk Board (ESRB). Intesa Sanpaolo noted the announcements made by the EBA on the EU-wide stress test and fully acknowledges the outcomes of this exercise.

The 2021 EU-wide stress test did not contain a pass fail threshold and instead is designed to be used as an important source of information for the purposes of the SREP. The results assisted competent authorities in assessing Intesa Sanpaolo's ability to meet applicable prudential requirements under stressed scenarios.

The adverse stress test scenario was set by the ECB/ESRB and covers a three-year time horizon (2021-2023). The stress test has been carried out applying a static balance sheet assumption as of December 2020, and therefore did not take into account future business strategies and management actions. It was not a forecast of Intesa Sanpaolo profits.

The Intesa Sanpaolo fully loaded Common Equity Tier 1 ratio (CET1 ratio) resulting from the stress test for 2023, the final year considered in the exercise, stands at:

- 15.06% under the baseline scenario; and

- 9.38% under the adverse scenario.

This compares with the starting-point figure of 14.04% as of 31 December 2020.

The impact of the exercise under the adverse scenario, equivalent to 466 basis points, would be equivalent to 448 basis points when restoring the actual neutral effect on capital ratios of the 2018-2021 Long-term Incentive Plan LECOIP 2.0 based on financial instruments (which is not captured by the stress test assumption of a static balance sheet).

The fully loaded CET1 ratio under the adverse scenario would be 9.97% when considering both the said restored neutrality and the sale transactions of the going concerns, related to the acquisition of UBI Banca in 2020, finalised in the first half of 2021, other things being equal.

Intesa Sanpaolo launched ordinary share buy-back programme for free assignment to employees

On 8 September 2021 Intesa Sanpaolo announced an ordinary share buy-back programme to be launched on 13 September 2021 and completed by 24 September 2021. The programme relates to plans of assignment, free of charge, of Intesa Sanpaolo ordinary shares to the employees, in relation to: (i) the Intesa Sanpaolo Group share-based incentive plan for 2020 reserved for Risk Takers who accrue a bonus in excess of the so-called "materiality threshold" (1), as well as for those who are paid a "particularly high" amount (2), and for those who, among middle management or professionals that are not Risk Takers, accrue "relevant bonuses" (3); (ii) the former UBI Banca Group share-based incentive plan for 2020 reserved for Risk Takers (4); and (iii) outstanding portions in shares of bonuses deriving from past incentive systems of the former UBI Banca Group. In addition, the programme is implemented in order to grant, when certain conditions occur, severance payments upon early termination of employment. The programme is in accordance with the terms approved at the Shareholders' Meeting of Intesa Sanpaolo on 28 April 2021 and disclosed to the market.

The number of shares to be purchased on the market to meet the total requirement of the above-mentioned incentive plans and/or compensation by way of severance for the Group is equal to 20,000,000, corresponding to a percentage of Intesa Sanpaolo's share capital of 0.10%. This is in compliance with the resolution passed at the Intesa Sanpaolo Shareholders' Meeting of 28 April 2021, which authorised the purchase, in one or more tranches, of Intesa Sanpaolo ordinary shares, for both the Parent Company and the companies it directly or indirectly controls, up to a maximum number of 22,479,270, corresponding to a maximum percentage of Intesa Sanpaolo's share capital of 0.12%.[4]

Purchases of shares to be assigned, without charge, will be executed in compliance with provisions included in Article 2357 and following of the Italian Civil Code within the limits of distributable income and available reserves, as determined in the financial statements most recently approved. Pursuant to Article 132 of the TUF and Article 144-bis of the Issuers' Regulation and subsequent amendments, purchases will be executed on the regulated market MTA managed by Borsa Italiana in accordance with trading methods laid down in the market rules for these transactions.

Moreover, as for the purchase modality, transactions will be carried out in compliance with the conditions and the restrictions under Article 5 of the Regulation (EU) No 596/2014 of the European Parliament and of the Council of 16 April 2014, and Articles 2, 3 and 4 of the Commission Delegated Regulation (EU) 2016/1052 of 8 March 2016.

4

(1) Equal to €80,000.

(2) Pursuant to the Group Remuneration and Incentive Policies, for the three-year period 2019-2021, a variable remuneration exceeding €400,000 constitutes a "particularly high" amount.

(3) Exceeding €80,000 and 100% of the fixed remuneration.

(4) With bonuses exceeding €50,000 and 25% of the fixed remuneration.

In accordance with the authorisation obtained at the Shareholders' Meeting of Intesa Sanpaolo, which is effective for up to 18 months, purchases will be executed at a price identified on a case-by-case basis, net of accessory charges, within a minimum and a maximum price range. This price can be determined using the following criteria:

- the minimum purchase price cannot be lower than the reference price the share recorded in the stock market session on the day prior to each single purchase transaction, less 10%;

- the maximum purchase price cannot be higher than the reference price the share recorded in the stock market session on the day prior to each single purchase transaction, plus 10%. At any rate, the purchase price will not be higher than the higher of the price of the last independent trade and the highest current independent bid on the market. Purchases may occur at one or more times.

Purchases will be executed between 13 September 2021 and 24 September 2021(included). The maximum number of shares to be purchased daily will not exceed 25% of the daily average volume of the Intesa Sanpaolo ordinary shares traded in August 2021, which was equal to 68.7 million shares. Furthermore, a constraint has been added to the above-mentioned regulatory conditions and restrictions, establishing that the daily volume of purchases must not exceed 15% of the volume traded on the MTA on the respective day.

Pursuant to Article 2357-ter of the Italian Civil Code, the Intesa Sanpaolo Shareholders' Meeting authorised the disposal on the regulated market of own ordinary shares exceeding the actual requirement under the same conditions as applied to their purchase and at a price of no less than the reference price recorded by the share in the stock market session on the day prior to each single disposal transaction, less 10%. Alternatively, these shares can be retained for future incentive plans and/or remuneration payable upon early termination of employment relationship (severance).

On 15 September 2021 Intesa Sanpaolo communicated that it concluded, on 14 September 2021, the ordinary share buy-back programme launched on 13 September 2021 and announced to the market in the press release dated 8 September 2021.

On the two days of execution of the programme (13 and 14 September 2021), the Intesa Sanpaolo Group purchased a total of 20,000,000 Intesa Sanpaolo ordinary shares through its IMI Corporate & Investment Banking Division (which was responsible for the programme execution). These represent approximately 0.10% of the share capital of the Parent Company. The average purchase price was €2.391 per share, for a total countervalue of €47,822,401. The parent company purchased 16,787,550 shares at an average purchase price of €2.392 per share, for a countervalue of €40,155,587.

Purchase transactions were executed in compliance with provisions included in Articles 2357 and following and 2359-bis and following of the Italian Civil Code and within the limits of number of shares and consideration as determined in the resolutions passed by the competent corporate bodies. Pursuant to Article 132 of TUF and Article 144-bis of the Issuers' Regulation and subsequent amendments, purchases were executed on the regulated market MTA managed by Borsa Italiana in accordance with trading methods laid down in the market rules for these transactions.

Moreover, purchases were arranged in compliance with the conditions and the restrictions under Article 5 of the Regulation (EU) No 596/2014 of the European Parliament and of the Council of 16 April 2014, and Articles 2, 3, and 4 of the Commission Delegated Regulation (EU) 2016/1052 of 8 March 2016.

The number of shares purchased daily did not exceed 25% of the daily average volume of the Intesa Sanpaolo ordinary shares traded in August 2021, which was equal to 68.7 million shares, and 15% of the volume traded on the MTA on each of the days when purchases were executed – in accordance with the constraint added in the programme to the above-mentioned regulatory conditions and restrictions.

Ordinary Shareholders' Meeting

On 14 October 2021 the Ordinary Shareholders' Meeting of Intesa Sanpaolo was held. The Meeting was validly constituted, on single call, to pass resolutions as those in attendance through the appointed representative, in accordance with Article 106 of Decree Law no. 18 dated 17 March 2020, converted by Law no. 27 dated 24 April 2020, as subsequently amended, counted 3,317 holders of voting rights attached to 10,992,742,757 ordinary shares without nominal value equalling 56.57478% of the share capital. The resolutions detailed below were passed.

Resolutions regarding reserves:

(a) distribution of part of the Extraordinary reserve for the 2020 results. The Shareholders approved the cash distribution of part of the Extraordinary reserve for a total amount of €1,935,274,145.18 to be assigned to each of the 19,430,463,305 ordinary shares constituting the share capital, corresponding to a unit amount of €9.96 cents per share. Votes in favour were 10,983,707,581, equivalent to 99.91781% of the ordinary shares represented at the Meeting. This distribution is in addition to the €694 million cash dividends approved in April this year and paid out in May, and brings to the payment of a total amount for 2020 which corresponds to a payout ratio of 75% of the €3,505 million adjusted consolidated net income (1), in line with the 2018-2021 Business Plan. The aforementioned distribution of reserves will be subject to the same tax regime as the distribution of dividends. The amount not distributed in respect of any own shares held by the Bank at the record date shall be kept in the Extraordinary reserve. The distribution took place on 20 October 2021, with coupon presentation on 18 October 2021 and record date on 19 October 2021. Based on the ratio between the aforementioned unit amount and the stock price registered on 13 October 2021, the dividend yield is 4%; including in the ratio the unit amount of €3.57 cents per share paid out in May this year, the total dividend yield for 2020 is 5.4%.

(b) placing of a tax suspension constraint on part of the Share premium reserve, following the tax realignment of certain intangible assets. Agreement with Trade Unions with regard to a further 2,000 voluntary exits and 1,100 hires by 2025

On 16 November 2021, Intesa Sanpaolo signed an agreement with Group Trade Delegations FABI, FIRST CISL, FISAC/CGIL, UILCA and UNISIN which aims at enabling generational change at no social cost while continuing to ensure an alternative to the possible paths for reskilling and redeploying people, in the context of adding value for the Intesa Sanpaolo Group's people, including through an improved work-life balance.

The agreement identifies ways and criteria to reach the target of 2,000 additional people voluntary leaving the Group by 2025, either by retiring or accessing the Solidarity Fund.

Furthermore, by 2025 the Group will hire people on indefinite-term contracts according to a proportion of one hire for each two voluntary exits up to 1,000 people, against the 2,000 additional voluntary exits envisaged, and a further 100 people falling under the agreement signed on 29 September 2020. The new

hires will sustain the Group's growth and its new activities and are in addition to those envisaged in the agreement of 29 September 2020. New hires will be 4,600 in total by December 2025 against 9,200 people in total leaving the Group by the end of the first quarter 2025.

Note: figures may not add up exactly due to rounding differences.

The Italian regulations (Article 120 of the Consolidated Law on Finance "TUF") set forth that holdings exceeding 3% of the voting capital of a listed company should be communicated to both that company and CONSOB. Moreover, under Article 19 of the Consolidated Law on Banking "TUB", prior authorisation by the Bank of Italy is required for the acquisition of holdings of capital in banks that are either significant or make it possible to exercise significant influence, or confer a share of voting rights or capital equal to at least 10%.

The Italian regulations also set forth the obligation to disclose any agreements between shareholders.

Furthermore, Article 120, paragraph 4-bis, of the "TUF" sets forth the obligation for investors who acquire holdings in listed issuers with Italy as home Member State, equal to or above 10% of the relevant capital or a lower threshold as defined by CONSOB, to declare the objectives they are pursuing.

Legal Proceedings

***Disputes relating to anatocism and other current account and credit facility conditions*, as well as usury**

During 2020, the disputes of this type – which for many years have been a significant part of the civil disputes brought against the Italian banking industry – did not change significantly either in number or in total value of claims made compared to the previous year.Overall, the number of disputes, including mediations, with likely risk amounted to approximately 3,800 (of which 900 for the UBI Group). The remedy sought amounted to around 637 million euro (of which 108 million euro for the UBI Group) with provisions of €199 million (of which 47 million euro for the UBI Group). As is the case for the other civil disputes, the assessment of the risk related to this type of litigation is carried out individually, taking into account the claims made, the defences submitted, the progress of the proceedings and case-law decisions, for each dispute.

You are reminded that in 2014 and 2016, Article 120 of the Consolidated Law on Banking, which governs the compounding of interest in banking transactions, was amended with the establishment of the ban on anatocism and the delegation of the CICR (Interdepartmental Committee for Credit and Savings) to regulate this matter. In February 2017, the Italian Antitrust Authority initiated proceedings against Intesa Sanpaolo for alleged unfair business practices involving, among other things, the methods used to request the above-mentioned authorisation from customers for the charging of the interest to the account imposed by the new regulations introduced in 2016. The Authority completed the proceedings in October 2017, ruling that Intesa Sanpaolo had implemented an “aggressive” policy aimed at acquiring the authorisation, by soliciting customers to provide it through various means of communications and without putting them in a position to consider the consequences of that choice in terms of the interest calculation on the compounded debt interest. As a result, the Authority issued a fine of €2 million against Intesa Sanpaolo. Intesa Sanpaolo has submitted an appeal with the Lazio Regional Administrative Court, on the grounds that the ruling was unfounded. The proceedings are still pending

Disputes relating to investment services

Also in this area, the disputes showed a slight downtrend in terms of number compared to the previous year. The most significant sub-group was disputes concerning derivatives, which remained substantially stable in number and value, but were nevertheless not significant in amount overall. The total number of disputes with likely risk for this type of litigation amounted to around €580 (of which 180 for the UBI Group). The total remedy sought amounted to around €272 million (of which €87 million for the UBI Group) with provisions

of €129 million (of which €49 million for the UBI Group). As is the case for the other civil disputes, the assessment of the risk related to this type of litigation is carried out individually, taking into account the claims made, the defences submitted, the progress of the proceedings and the case-law guidance, for each dispute. The disputes to which the UBI Group is a party also include approximately 173 disputes with a remedy sought of €146 million initiated by "wiped out" shareholders and subordinated bondholders of the former "Old Banks" of Banca delle Marche, Banca Popolare dell'Etruria e del Lazio and Cassa di Risparmio della Provincia di Chieti, deemed to be of possible risk.

Judgment of the Italian Supreme Court on derivatives with local entities

By way of judgment no. 8770/2020, handed down by its Joint Sections on 12 May 2020, the Italian Supreme Court affirmed the nullity of several OTC derivative contracts (Interest Rate Swaps with upfront payments) entered into by an Italian bank and a Municipality, essentially establishing that: 1) the upfront payment was a type of new debt resulting in long-term expenditure borne by the entity and, therefore, derivative contracts that comprise an upfront payment require the authorisation of the Municipal Council (not the Municipal Executive Committee), which, if lacking, shall invalidate the derivatives; 2) swap contracts constitute a "legal bet", permitted only in the amount in which these contracts acquire the form of a "rational bet", concluded in terms which enable both parties to understand the risks underlying the contract, which thus, must indicate the mark to market, implicit costs and probabilistic scenario.

The decision has been criticised by many authors and several lower courts have already deviated from the principles confirmed by the Italian Supreme Court.

Nonetheless, in September, two decisions unfavourable to the Bank in this sense were issued: 1) the Court of Pavia ordered the Bank to refund approximately 9.3 million euro, in addition to ancillary charges, to the Province of Pavia, stating the grounds for the ruling of the Italian Supreme Court, word-for-word;in February the amount of €10.1 million, taken from the specific provision, was paid to the Province of Pavia. However, this judgment is currently under appeal; 2) the Court of Appeal of Milan rejected the appeal lodged by the Bank in the proceedings promoted by the Municipality of Mogliano Veneto. That ruling (which is only partially based on the arguments of the Italian Supreme Court) confirmed the first instance ruling which had ordered the Bank to refund the Municipality €5.8 million, a payment made in 2018. Both decisions were appealed.

Moreover, despite referring to a Municipality, the decision contains some general principles on the case and the subject - matter of the swaps, which could be deemed applicable to all derivative contracts.
Within this framework, in order to assess the impact of the decision of ongoing disputes in light of the evolution of case-law, a specific reassessment was conducted of risks connected with the disputes regarding derivative contracts entered into with local entities and, where deemed appropriate, specific provisions were allocated.
Two new disputes were registered.

- the Municipality of Augusta served a writ of summons asking the court to declare the contract null and void due to the lack of awareness of the risks and of adequate information on the costs and structure of the instrument, and ordering the repayment of €3 million; and

- the Municipality of Cimadolmo initiated a mediation procedure with undetermined value, which ended with a negative outcome.

In addition, the Municipality of Perugia, after initiating a mediation procedure in 2019, served a writ of summons asking the court to declare null and void four derivative contracts entered into in 2006. The first court hearing was held in May 2021.

In relation to the dispute brought in December 2013 by the Municipality of Mogliano Veneto concerning an IRS collar derivative contract, the Bank lodged an appeal with the Italian Supreme Court against ruling no. 2393 of 28 September 2020 of the Court of Appeal of Milan. This ruling had confirmed the ruling issued against the Bank by the Court of Milan in 2017. Lastly, in execution of the judgment in the plaintiff's favour delivered by the Court of Pavia on 16 September 2020, in February the amount of €10.1 million, taken from the specific provision, was paid to the Province of Pavia. However, this judgment is currently under appeal.

As regards the current disputes with companies owned by local authorities and Regional governments, it should be noted that, in May, a writ of summons was served by EUR S.p.A., a company held by the Ministry of the Economy and Finance and Roma Capitale. In addition to ISP, the company is also suing other credit institutions; the disputes concern derivative contracts entered into in relation to a syndicated loan. The claimant has claimed the repayment of approximately €57 million. Since the contracts are governed by the international ISDA rules, it is possible that the national courts lack jurisdiction. Intesa Sanpaolo filed an appearance before the Court raising a number of preliminary objections, including: the lack of jurisdiction of the Italian court and the lis pendens and/or international connection in view of the claim form submitted by another bank in the pool of lending banks before the High Court of Justice of London. In addition, a petition has been filed with the Court of Justice of the European Union to verify that the EU legislation is being correctly applied in Italy, in light of Court of Cassation ruling no. 8770/2020. The first hearing has been adjourned to 22 November 2021.

As concerns disputes with private individuals, in May the Bank was ordered to pay approximately €13 million as part of a dispute concerning currency options brought before the Court of Bologna.

The Judge considered all the transactions null and void due to the failure to indicate the MTM and the relevant calculation formula in the contracts and referred to the principles set out in the aforementioned ruling of the Court of Cassation. The Bank appealed against the ruling, highlighting its errors and inconsistencies, and asked to suspend enforcement of the judgment. The Bologna Court of Appeal granted the Bank's request and provisionally suspended enforceability of the judgment. The appealed judgment not only applies the principles upheld by the Court of Cassation for contracts entered into with public entities to derivative contracts entered into with private customers, but fully assimilates the disclosure requirements for IRS intermediaries to currency option contracts, without taking into account the difference between these two instruments.

The Bologna Court of Appeal, in a ruling dated 13 September 2021, confirmed the suspension of the provisional enforceability of the first instance ruling, which had ordered the Bank to pay around 13 million euro, in application of the principles set out in the above-mentioned Court of Cassation ruling concerning IRSs to the currency options contracts, without considering the difference between the two instruments. The order by the Court strengthens the Bank’s defence both with regard to the merits of the case and the risk associated with possible payment. As a result, the Bank is not currently obliged to make any payment to the counterparty.

In general, the case law on this subject remains mixed, with rulings in favour and against the banks.

Disputes relating to loans in CHF against the Croatian subsidiary Privredna Banka Zagreb Dd

As already noted in the previous financial statements, Privredna Banka Zagreb (PBZ) and seven other Croatian banks were jointly sued by the plaintiff Potrošač (Croatian Union of the Consumer Protection Association) , which claimed - in relation to loans denominated or indexed in Swiss francs granted in the past – that the defendants engaged in an unfair practice by allegedly using unfair contractual provisions on variable interest rate changed unilaterally by the banks and by linking payments in local currency to Swiss francs, without (allegedly) appropriately informing the consumers of all the risks prior to entering into a loan agreement.

In September 2019, the Croatian Supreme Court rendered a ruling in the collective action proceedings, rejecting the appeals filed by the sued banks against the High Commercial Court ruling from 2018 and confirming the position of courts of lower instance that banks had breached collective interests and rights of consumers by incorporating unfair and null and void provisions on the CHF currency clause. The decision of the Supreme Court was challenged by PBZ before the Constitutional Court, which rejected the claim at the beginning of 2021.

In connection with the mentioned proceedings for the protection of the collective interests of consumers, numerous individual proceedings have been brought by clients against PBZ, despite the fact that most of them voluntarily accepted the offer to convert their CHF loans into EUR denominated loans retroactively, in

accordance with the Act on the Amendments to the Consumer Credit Act (Croatian Official Gazette 102/2015).

In March 2020, the Croatian Supreme Court, within a model case proceedings (a Supreme Court proceedings with obligatory effect on lower instance courts with the aim of unifying/harmonising case law), ruled that the conversion agreements concluded between banks and borrowers under the Croatian Conversion Law of 2015 produce legal effects and are valid even in the case when the provisions of the underlying loan agreements on variable interest rate and currency clause are null and void. Such decision will positively impact the individual proceedings related to converted loans in Swiss francs (or indexed to that currency), which should ultimately be settled, then, in favour of the Croatian subsidiary.

In 2020 the number of individual lawsuits filed against PBZ increased; in any case, at the end of 2020 the total pending cases still amounted to a few thousand. There is excluded the possibility that additional lawsuits might be filed against PBZ in the future in connection with CHF loans.

The amount of provisions recognised as at 31 December 2020 is reasonably adequate – according to available information - to meet the obligations arising from the claims filed against the subsidiary so far. The evolution of the overall matter is anyhow carefully monitored in order to take appropriate initiatives, if necessary, in consistence with any future developments.

ENPAM lawsuit

In June 2015 Fondazione ENPAM – Ente Nazionale di Previdenza ed Assistenza dei Medici e degli Odontoiatri (ENPAM) sued Cassa di Risparmio di Firenze (subsequently merged into Intesa Sanpaolo), along with other defendants including JP Morgan Chase & Co and BNP Paribas, before the Court of Milan. ENPAM's claims related to the trading (in 2005) of several complex financial products, and the subsequent "swap" (in 2006) of those products with other similar products; the latter were credit linked notes, i.e. securities whose repayment of principal at maturity was tied to the credit risk associated with a tranche of a synthetic CDO. Due to the defaults on the CDO portfolio, the investment allegedly resulted in significant losses.

In the writ of summons, ENPAM submitted several petitions for enquiries and rulings, in particular for contractual and tort liability and breach of Articles 23, 24 and 30 of the Consolidated Law on Finance, asking for the repayment of an amount of around €222 million and compensation for damages on an equitable basis; the part relating to Cassa di Risparmio di Firenze's position should be around €103 million (plus interest and purported additional damages). Cassa di Risparmio di Firenze was sued as the transferee of the Italian branch of Cortal Consors S.A. (subsequently merged into BNP Paribas), which had provided ENPAM with the investment services within which the above-mentioned securities had been subscribed.

Cassa di Risparmio di Firenze raised various objections at the preliminary stage (including a lack of standing to be sued and the time bar). On the merits, it argued, among other positions, that the provisions of the Consolidated Law on Finance cited were not applicable and that there was no evidence of the damages. If an unfavourable judgment is rendered, Cassa di Risparmio di Firenze has requested that the court determine its internal share of the total liability of the defendants and that the other defendants be ordered to hold it harmless.

In February 2018, the judge ordered a court-appointed expert's review aimed at determining, among other matters:

- whether the securities were fit for the purpose indicated in the entity's Charter and Investment Guidelines; and
- the difference, if any, between the performance achieved by ENPAM and the performance that would have resulted if other investments consistent with the entity's Charter and Investment Guidelines had been undertaken (also considering the need for diversification of the risk).

At the end of the expert review process the judge advocated the settlement of the dispute. A settlement agreement involving payment to ENPAM was finalised between the parties in November 2020; Intesa Sanpaolo's share was fully covered by the amount that had been set aside the previous year precisely in view of a possible settlement. The case was declared dismissed at the hearing on 2 December 2020.

Florida 2000

In 2018, Florida 2000 s.r.l. (together with two directors of the company) challenged the legitimacy of the contractual terms and conditions applied to the accounts held with the Bank, requesting that the latter be ordered to pay back €22.6 million in interest and fees that were not due, plus compensation for damages quantified as an additional amount of €22.6 million.

In its ruling of 25 March 2021, the Court upheld the petition in part, ordering the Bank to repay €638 thousand, plus interest and costs, and rejecting the request for compensation. The Bank appealed against the ruling before the Naples Court of Appeal; the first hearing was scheduled for 5 October 2021.

Alitalia Group: Claw-back actions

In August 2011, companies of the Alitalia Group – namely Alitalia Linee Aeree, Alitalia Servizi, Alitalia Airport and Alitalia Express – brought five bankruptcy claw-back proceedings against the Bank before the Court of Rome (of which one against the former Cassa di Risparmio di Firenze), requesting the repayment of a total of €44.6 million.

When the proceedings were initiated, a line of defence was adopted based mainly on the grounds that the actions were invalid due to the vagueness of the claims, that the condition of knowledge of the Alitalia Group's state of insolvency (subject first of the Air France plan and then of the subsequent rescue conducted by the Italian Government) did not apply, and that the credited items were not eligible for claw back, due to the specific nature of the account movements.

In March 2016, the Court of Rome upheld Alitalia Servizi's petition and ordered the Bank to repay around €17 million, plus accessory costs. In addition to being contestable on the merits, the ruling was issued before the deadline for filing of the final arguments.

Accordingly, in the appeal subsequently lodged, a preliminary objection was made regarding the invalidity of the judgment, together with an application for suspension of its provisional enforceability, which was upheld by order of 15 July 2016 of the Court of Appeal. The final arguments have been filed in the case and the judgment is pending. The lawsuit brought by Alitalia Linee Aeree was won in the first instance and is in the appeal phase, whereas the lawsuits brought by Alitalia Express and Alitalia Servizi against the former C.R. di Firenze were favourably concluded in the first two instances and a time period has been set for appealing to the Italian Supreme Court. Alitalia Airport, which was also won at first instance, the favourable judgment has become final.

Tirrenia di Navigazione in A.S. (Extraordinary Administration): Claw-back actions

In July 2013, Tirrenia di Navigazione in A.S. filed two bankruptcy claw-back actions before the Court of Rome against the former Cassa di Risparmio di Venezia for €2.7 million and against the former Banco di Napoli for €33.8 million.

In both cases, the plaintiff claimed that there was knowledge of the state of insolvency for the entire half year prior to admission to extraordinary administration on the basis of media reports, the non-renewal of shipping concessions, the absence of state subsidies (because they were considered state aid), and the information from the central credit register.

The claim was quantified on the same basis as the so-called "return of profits" earned on Tirrenia's accounts, corresponding to the difference between the maximum debt exposure and the final balance of the accounts generated in the half year prior to the declaration of insolvency. The case against the former CR Venezia was concluded at first instance in 2016 with an order for payment of €2.8 million and is pending an appeal

brought by the Bank. In the trial involving the former Banco di Napoli, on the other hand, the final arguments were filed in December and the judgment is pending

Selarl Bruno Raulet (formerly Dargent Tirmant Raulet) dispute

The claim was filed before a French Court in 2001 by the trustee in bankruptcy for the bankruptcy of the real estate entrepreneur Philippe Vincent, which made a request to the Bank for compensation of €56.6 million for the alleged "improper financial support" provided to the entrepreneur. The claim of the trustee in bankruptcy has consistently been rejected by the courts of different instance which dealt with the case over 17 years, until the Court of Colmar, in May 2018, ordered the Bank to pay compensation of around €23 million. The Colmar judgment was appealed before the French Supreme Court of Cassation, which in January 2020 overturned and quashed the decision of the Court of Appeal of Colmar and referred the matter to the Court of Appeal of Metz.

Consequently, in the first quarter of 2020, the Bank obtained the refund of around €23 million paid according to the ruling of the Court of Appeal of Colmar in 2018.

At the end of July 2020, the bankruptcy receiver referred the dispute to the Court of Appeal of Metz, requesting payment of €55.6 million (equal to the entire amount of insolvency liabilities, minus the amount obtained from the sale of the property whose purchase was financed by the Bank). In turn, the Bank filed an appearance and challenged the opposing party's claims. In a ruling delivered on 27 July 2021, the Metz Court of Appeal partially upheld the receivership's claim for 55.6 million euro for wrongful granting of credit and ordered the Bank to pay around 20 million euro, plus legal costs of the various instances of the proceedings (for a total of 20.6 million euro).

The Court quantified the damage suffered by the insolvency estate as being equal to the loan granted by the Bank, less the proceeds from the sale of the asset given as security.

In the opinion of the external lawyers assisting Intesa Sanpaolo, there are grounds for a revision of the ruling. An appeal before the Court of Cassation is therefore being prepared.

Disputes regarding tax-collection companies

In the context of the government's decision to re-assume responsibility for tax collection, Intesa Sanpaolo sold to Equitalia S.p.A. now the Italian Revenue Agency - Collections Division, full ownership of Gest Line and ETR/ESATRI, companies that managed tax-collection activities, undertaking to indemnify the buyer against any expenses associated with the collection activity carried out up to the time of purchase of the equity interests.

In particular, such expenses refer to liabilities for disputes (with tax authorities, taxpayers and employees) and out-of-period expenses and capital losses with respect to the financial situation at the time of the sale.

Overall, the claims made amount to approximately €80 million. A technical roundtable has been formed with the Italian Revenue Agency - Collections Division in order to assess the parties' claims.

Fondazione Monte dei Paschi di Siena

In 2014, Fondazione Monte dei Paschi di Siena ("FMPS") brought an action for compensation for the damages allegedly suffered as a result of a loan granted in 2011 by a pool of 13 banks and intended to provide it with the resources to subscribe for a capital increase of MPS. The damages claimed were allegedly due to the reduction in the market value of the MPS shares purchased with the sums disbursed by the banks. In the proceedings, FMPS summoned eight former directors of the Foundation that were in office in 2011 and the 13 banks in the pool (including Intesa Sanpaolo and Banca IMI). The banks have been charged with non-contractual liability due to their participation in the alleged violation by the former directors of the debt-equity ratio limit set in the charter. The claim for damages has been quantified at around €286 million, jointly and severally for all the defendants. The defence adopted by the banks included the argument that the

alleged breach of the aforementioned charter limit did not apply, because it was based on an incorrect valuation of the Foundation's balance sheet items. In addition, in the loan agreement, FMPS itself assured the banks that the charter limit had not been breached and, therefore, any breach of the charter would at most give rise to the sole responsibility of the former directors of the Foundation.
In November 2019, the Court of Florence, before which the trial is currently pending, handed down a non-definitive judgment rejecting some preliminary arguments/arguments as to jurisdiction raised by the banks, while reserving the parties' preliminary applications for decision. The banks appealed the judgment before the Florence Court of Appeal in respect of the rejection of the argument as to lack of jurisdiction, finding there to be solid arguments for the judgment in question to be overturned; the first hearing for appearance has been set for May 2021.
The judge of the first instance lifted the reserve to decide the preliminary applications and admitted the court-appointed expert witness testimony requested by the Foundation on exceeding the debt limit set by the Articles of Association when the loan was granted. The trial was then declared stayed due to the death of one of the defendants; the hearing for continuation of the trial has been set for April 2021. The expert witness testimony is necessary for a thorough assessment of the risk of the case. At present, the risk may be considered possible.

Gruppo Elifani – Lawsuit brought in 2009 by Edilizia Immobiliare San Giorgio 89 S.r.l., San Paolo Edilizia S.r.l., Hotel Cristallo S.r.l. and the guarantor-shareholder Mario Elifani seeking compensation for damages suffered due to alleged unlawful conduct by the Bank for having requested guarantees disproportionate to the credit granted, enforced pledge guarantees, applied usurious interest to mortgage loans and submitted erroneous reports to the Central Credit Register. The initially claimed amount was approximately €116 million and the dispute refers to the same circumstances mostly already cited in the disputes regarding anatocism and interest in excess of the legal amount brought by the aforementioned companies in 2004 and settled in early 2014. The lawsuit had a favourable outcome for the Bank in both the first and second instances. By order of 27 December 2019, the Court of Cassation partially granted the adverse parties' petition, with referral of the matter. The adverse parties resumed the lawsuit before the Milan Court of Appeal, quantifying the claim at approximately €72 million, in addition to interest and inflation, and thus at a total of approximately €100 million. The hearing for the submission of final arguments has been set for January 2022.

The Bank also has a valid basis for its defence in this stage of the dispute, given that in the previous instances of the trial the disputed conduct was essentially found to be correct. At present, the risk of a lawsuit is deemed possible, whereas further elements may emerge from the upcoming hearing.

Energy s.r.l. – Energy s.r.l., to which the bankruptcy receiver of C.I.S.I. s.r.l. transferred all its rights towards third parties, brought a claim before the Court of Rome against Intesa Sanpaolo seeking to quash the revocation of the subsidised loan of approximately €22 million granted to C.I.S.I. s.r.l. in 1997 pursuant to Law 488/92 and a judgment ordering the Ministry of Economic Development, Intesa Sanpaolo (as the concessionaire for the procedural application process) and Vittoria Assicurazioni (guarantor of the payment of the second instalment of the loan), jointly and severally between them, to provide compensation for damages allegedly incurred, quantified at a total of approximately €53 million. The company justified its claim by citing a favourable judgment rendered in criminal proceedings originating from a complaint filed against C.I.S.I. and its director alleging grave irregularities and breach in the execution of the business plan to which the loan referred – proceedings that had led to the revocation of the subsidised loan. Intesa Sanpaolo entered its appearance, denying that there was any basis for the adverse parties' claims, arguing that all claims for compensation against the Bank had become time barred, the claims were groundless on the merits and the damages had been represented inappropriately. The first hearing was held and the preliminary statements were exchanged; the hearing for the entry of conclusions has been set for March 2021. Previous legal initiatives taken by C.I.S.I. and then by its bankruptcy receiver before the administrative and ordinary courts were rejected with regard to Intesa Sanpaolo's position (in particular, a claim for compensation against the Bank for alleged damages). Despite the favourable outcome of the previous disputes and the defences presented, the risk of the lawsuit is currently deemed possible.

Private banker (Sanpaolo Invest)

An inspection conducted by the Audit function identified serious irregularities by a private banker of Sanpaolo Invest. The checks carried out revealed. The checks carried out revealed serious irregularities affecting several customers, including misappropriation of funds and reports with false incremental amounts. On 28 June 2019, the company terminated the agency contract with the private banker due to just cause and communicated the findings to the Judicial Authority and the Supervisory Body for financial advisors, which first suspended and then removed the private banker from the Register of Financial Advisors in December 2019.

Following the unlawful actions, the company received a total of 276 compensation claims (including complaints, mediation proceedings and lawsuits), for a total amount of approximately €62 million, mostly based on alleged embezzlement, losses due to disavowed transactions in financial instruments, false account statements and the debiting of fees relating to advisory service.
There are currently 173 pending claims, with a present value of approximately €51 million, following the resolution of 103 positions (34 settled and 69 withdrawn or resolved by virtue of commercial agreements).
The total amount of €4.2 million was recovered from the improperly credited customers (and already returned to the customers harmed) and there are pending attachments of approximately €4 million.
A precautionary attachment was ordered against the private banker for an amount equal to the balance found in the accounts and deposits held with credit institutions and the social-security position with Enasarco. In the ensuing case on the merits, the former private banker filed a counterclaim in the total amount of €0.6 million by way of non-payment of indemnity for termination of the relationship.
Another lawsuit was also brought against former private bankers to recover the claims arising from withdrawal from the agency contract, in the total amount of €1.6 million, in addition to interest by way of indemnity in lieu of notice, penalty relating to a loan agreement and reimbursement of advances of bonuses.
The company has set aside adequate provisions for the risks associated with the unlawful conduct discussed above, in the light of its foreseeable outlays, without considering the cover provided for in the specific insurance policy.

Ruling of the EU Court of Justice of 11 September 2019 on credit agreements for consumers - the Lexitor ruling

Article 16, paragraph 1 of Directive 2008/48 on credit agreements for consumers states that in the event of early repayment of the loan the consumer is "entitled to a reduction in the total cost of the credit, such reduction consisting of the interest and the costs for the remaining duration of the contract". According to the Lexitor ruling, this provision must be interpreted as meaning that the right to a reduction in the total cost of the credit includes all the costs incurred by the consumer and therefore also includes the costs relating to services prior to or connected with the signing of the contract (upfront costs such as processing costs or agency fees).

Article 16, paragraph 1 of Directive 2008/48 has been transposed in Italy through Article 125 sexies of the Consolidated Law on Banking, according to which in the event of early repayment "the consumer is entitled to a reduction in the total cost of the credit, equal to the amount of interest and costs due for the remaining life of the contract". On the basis of this rule, the Bank of Italy, the Financial Banking Arbitrator and case law have held that the obligation to repay only relates to the charges that have accrued during the course of the relationship (recurring costs) and have been paid in advance by the customer to the lender. In the event of early repayment, these costs must be repaid in the amount not yet accrued and the obligation to repay does not include the upfront costs.

Following the Lexitor judgment, the question has arisen as to whether Article 125 sexies of the Consolidated Law on Banking should be interpreted in accordance with the principle laid down therein or whether the new principle requires a legislative amendment. According to the EU principle of "consistent interpretation", national courts are required to interpret the rules in their own jurisdiction in a manner consistent with the European provisions. However, if the national rule has an unambiguous interpretation, it cannot be (re)interpreted by the court in order to bring it into line with the various provisions of a European directive: the principles recognised by European Union law prevent the national court from being required to make an interpretation that goes against the provisions of the domestic law. In this regard, we note that Article 125 sexies of the Consolidated Law on Banking is clear in its wording and its scope: it states that, in the event of early repayment, the obligation to repay relates only to recurring costs and therefore does not include upfront

costs. The unambiguity of the scope of the provision is confirmed by the fact that – as stated above – it has always been interpreted and applied in this way.

However, in December 2019 the Bank of Italy issued "guidance" for the implementation of the principle established by the EU Court of Justice, to the effect that all costs (including upfront costs) should be included among the costs to be refunded in the event of early repayment, both for new relationships and for existing relationships. Intesa Sanpaolo has decided to follow the Bank of Italy "guidance", even though it believes that the legal arguments set out above regarding the fact that Article 125 sexies of the Consolidated Law on Banking cannot be interpreted in a manner that complies with the Lexitor ruling are well founded. Accordingly, Intesa Sanpaolo reserves the right to reconsider this operational stance in the light of future developments. A provision has therefore been made in the Allowance for Risks and Charges corresponding to the estimated higher charges resulting from the decision to follow the Bank of Italy "guidance".

With regard, on the other hand, to disputes relating to terminated relationships, in 2020 the court decisions have been discordant and no prevailing case-law has emerged. In view of this and in light of the legal arguments set out above (which will be broadened and included in the defences presented in the above-mentioned disputes), at this stage there is no evidence to consider that a general negative outcome will be likely.

In 2020, 1,062 suits were brought concerning early termination of salary-backed loans (417 for the UBI Group), for a total remedy sought of €2.6 million (of which €1.1 million for the UBI Group). In 2019, 924 law suits were brought (382 for the UBI Group), for a total remedy sought of €2.4 million (of which €1.1 million for the UBI Group).

In the half-year, while there were a number of unfavourable rulings, mainly from Justices of the Peace there were five judgments in favour of intermediaries. Of particular significance is the ruling of the Court of Rome, which held that the Lexitor ruling cannot be directly applied in our legal system in relations between private individuals.
The Parliament approved an amendment inserted in the "Sostegni bis" Law Decree that provides:

(a) as concerns the rules on mortgage lending to consumers, removal of the reference to Article 125-sexies and insertion of a specific provision on the early redemption of this type of loan, limiting repayment to only the interest and costs due for the remaining life of the loan agreement;

(b) as concerns the rules on consumer credit, the amendment of Article 125-sexies, so as to implement the principles of the Lexitor ruling, indicating, however, the amortised cost criterion as the preferred criterion for calculating repayment;

(c) these provisions only apply to loan agreements signed after the entry into force of the law converting the decree. On the other hand, it is specified that loan agreements signed before that date continue to be governed by the law as interpreted by the Supervisory and Transparency provisions in force at the time of signing.

Intermediaries will be required to repay the upfront costs for consumer credit agreements concluded before the entry into force of the new rule, even if the agreements expired after that date, only within the limits, if any, established in the agreement itself.
As concerns the pending dispute, the adoption of the above-mentioned amendment should induce the court to accept the Bank's arguments. However, it cannot be excluded that the plaintiffs may file motions with the Constitutional Court or the Court of Justice of the European Union challenging the lawfulness of the new legislation.

Offering of diamonds

In October 2015, the Bank signed a partnership agreement with Diamond Private Investment (DPI) governing how diamond offerings were made by DPI to the customers of Intesa Sanpaolo. The aim of this initiative was to provide customers with a diversification solution with the characteristics of a "safe haven

asset" in which to allocate a marginal part of their assets over the long-term. Diamonds had already been sold for several years by other leading national banking networks.

This recommendation activity was carried out primarily in 2016, with a significant decline starting from the end of that year. A total of around 8,000 customers purchased diamonds, for a total of around €130 million. The marketing process was based on criteria of transparency, with safeguards progressively enhanced over time, including quality controls on the diamonds and the fairness of the prices applied by DPI.

In February 2017, the AGCM (the Italian Competition Authority) brought proceedings against companies that marketed diamonds, (DPI and other companies), for alleged conduct in breach of the provisions on unfair business practices. In April, those proceedings were extended to the banks that carried out the recommendation of the services of those companies.

At the end of those proceedings, on 30 October 2017, the AGCM notified the penalties imposed for the alleged breach of the Consumer Code through the conduct of DPI and of the banks which the proceedings had been extended to, consisting - in short - of having provided partial, deceptive and misleading information on the characteristics of the diamond purchases, the methods used to calculate the price - presented as being the market price - and the performance of the market. The Authority issued a fine of €3 million against Intesa Sanpaolo, reduced from the initial fine of €3.5 million, after the Authority had recognised the value of the measures taken by Intesa Sanpaolo from 2016 to strengthen the safeguards on the offering process aimed, in particular, at ensuring proper information was provided to customers.

Following the order by the AGCM, the Bank paid the amount of the fine and filed an appeal with the Lazio Regional Administrative Court against the order. There were no developments regarding this appeal during 2020.

From November 2017, the Bank:

- terminated the partnership agreement with Diamond Private Investment (DPI) and ceased the activity, which had already been suspended in October 2017;

- started a process that provides for the payment to customers of the original cost incurred for the purchase of the diamonds and the withdrawal of the stones, in order to satisfy the customers' resale needs which, due to the illiquidity that had arisen in the market, are not met by DPI;

- sent a communication in January 2018 to the diamond-holding customers reiterating the nature of the stones as durable goods, and also confirming the Bank's willingness to intervene directly in relation to any realisation needs expressed by the customers and not met by DPI.

As at 31 December 2020, a total of 6,725 repurchase requests had been received from customers and met by Intesa Sanpaolo, for a total value of € 114.3 million with the flow of requests steadily decreasing in 2020. The valuation of the repurchased diamonds is carried out using the values provided by the IDEX Diamond Retail Benchmark, one of the main online trading platforms used in the main markets by over 7,000 traders.

In February 2019, an order for preventive criminal seizure of €11.1 million was served, corresponding to the fee and commission income paid by DPI to the Bank. The preliminary investigations initiated by the Public Prosecutor’s Office of Milan also concern four other banks (more involved) and two companies that sell diamonds. In October 2019, the notice of conclusion of the investigation was served, which stated that two of the Bank’s operators were currently under investigation for alleged aggravated fraud (in collusion with other parties to be identified) and other persons are being identified for allegations of self-laundering, while ISP is being charged with the administrative offence pursuant to Italian Legislative Decree 231/2001 in relation to this latter predicate offence.

In September 2020 the Bank learned from press sources of the conclusion of the preliminary investigations by the Milan Public Prosecutor's Office within the framework of an additional pending criminal proceeding relating to this affair, in which neither the Bank nor its management board members and key function holders/employees have been involved to date.

For the predicate offence of self-laundering, at the hearing of 1 July 2021, the Preliminary Investigation Judge accepted the plea bargain request which Intesa Sanpaolo had submitted solely to bring to an end the lengthy legal proceedings and which had been supported by the Public Prosecutor's Office – issuing a judgment imposing only a financial penalty of €100,000, and the confiscation of only the sums constituting the profit from the offence of self-laundering, calculated at €61,434.

Disputes arising from the acquisition of certain assets, liabilities and legal relationships of Banca Popolare di Vicenza S.p.A. in compulsory administrative liquidation and Veneto Banca S.p.A. in compulsory administrative liquidation

It is noted that:

a) based on the agreements between the banks in compulsory administrative liquidation and Intesa Sanpaolo (sale contract of 26 June 2017 and Second Acknowledgement Agreement of 17 January 2018), two distinct categories of disputes have been identified (also relating to the subsidiaries of the former Venetian banks included in the sale):

- the previous disuputes, included among the liabilities of the aggregate set transferred to Intesa Sanpaolo, which include civil disputes relating to judgments already pending at 26 June 2017, with some exceptions, and in any case different from those included under the excluded disputes (see the point below);

- the excluded disputes, which remain under the responsibility of the banks in compulsory administrative liquidation and which concern, among other things, disputes brought (also before 26 June 2017) by shareholders and convertible and/or subordinate bondholders of one of the two former Venetian banks, disputes relating to non-performing loans, disputes relating to relationships terminated at the date of the transfer, and all disputes (whatever their subject) arising after the sale and relating to acts or events occurring prior to the sale;

b) the relevant allowances were transferred to Intesa Sanpaolo along with the excluded disputes; in any case, if the allowances transferred prove insufficient, Intesa Sanpaolo will be entitled to be indemnified by the banks in compulsory administrative liquidation, at the terms provided for in the sale contract of 26 June 2017.

c) after 26 June 2017, a number of lawsuits included within the excluded disputes were initiated or resumed against Intesa Sanpaolo. With regard to these lawsuits:

- Intesa Sanpaolo is pleading and will plead its non-involvement and lack of capacity to be sued, both on the basis of the provisions of Law Decree 99/2017[5] (Article 3), and the agreementsigned with the banks in compulsory administrative liquidation and in compliance with the European Commission provisions on State Aid (Decision C(2017) 4501 final and attachment B to the sale contract of 26 June 2017), which prohibit Intesa Sanpaolo from taking responsibility for any claims made by the shareholders and subordinated bondholders of the former Venetian banks;

- if there were to be a ruling against Intesa Sanpaolo (and in any event for the charges incurred by Intesa Sanpaolo for any reason in relation to its involvement in any excluded disputes), it would have the right to be fully reimbursed by the banks in compulsory administrative liquidation;

- the banks in compulsory administrative liquidation have contractually acknowledged their capacity to be sued with respect to the excluded disputes, such that, they have entered appearances in various proceedings initiated (or re-initiated) by various shareholders and convertible and/or subordinate bondholders against Intesa Sanpaolo (or in any case included in the category of excluded disputes), asking for the declaration of their exclusive capacity to be sued and the consequent exclusion of Intesa Sanpaolo from those proceedings;

[5] Published in the Official Gazette no. 146 of 25 June 2017 and converted by Law 121 of 31 July 2017.

d) pursuant to the agreements between the two banks in compulsory administrative liquidation and Intesa Sanpaolo, the disputes regarding the marketing of shares/convertible and/or subordinated bonds initiated against Banca Nuova and Banca Apulia(subsequently merged by incorporation into Intesa Sanpaolo) are also included in the excluded disputes (and therefore have the same treatment as described above, as a result of the above mentioned provisions and based on the criteria set out in the retransfer agreements signed on 10 July 2017, as subsequently supplemented).

The above-mentioned disputes in the excluded disputes include 90 disputes (for a total remedy sought of around €87 million) involving claims relating to loans sold to Intesa Sanpaolo and deriving from so-called "operazioni baciate"; this term refers to lloans granted by the former Venetian banks (or their Italian subsidiaries Banca Nuova/Banca Apulia) for the purpose of, or in any case related to, investments in shares or convertible and/or subordinated bonds of the two former Venetian banks.

The most recurrent claims relate to:

- the violation by the former Venetian banks (or their subsidiaries) of the requirements of the rules on investment services; the customers claim that they were induced to purchase the shares on the basis of false or misleading information on the product's risk characteristics;

- the invalidity of the "baciata" transaction due to the breach of Article 2358 of the Italian Civil Code, which prohibits companies from granting loans for the purchase of treasury shares, except in certain limited cases.

The case law regarding such transactions is still very limited and does not provide a basis for inferring the destiny of the loans in question for Intesa Sanpaolo. Among the few judgments that have been rendered to date, four voided the loan sold to Intesa Sanpaolo in respect of the part intended for the purchase of shares and were or will be appealed. In six cases, the decision was favourable to Intesa Sanpaolo, which proved that there was no effective correlation between the loan and equity investment, or successfully claimed that it was not liable, since the disputes began after the sale but referred to events pre dating it.

With regard to the risks arising from these disputes, it should be borne in mind that the sale contract establishes the following:

- that any liability, charge and/or negative effect that may arise to Intesa Sanpaolo from actions, disputes or claims made by shareholders and subordinated bondholders constitutes an excluded liability under the contract and, as such, must be subject to indemnification by the banks in compulsory administrative liquidation;

- the obligation of each bank in compulsory administrative liquidation to indemnify Intesa Sanpaolo against any damage arising from, or connected to, the violation or non-compliance of the representations and warranties issued by the two Banks in compulsory administrative liquidation with respect to the aggregate set transferred to Intesa Sanpaolo, and, in particular, those relating to the full propriety, validity and effectiveness of the loans and contracts transferred.

On the basis of these provisions, Intesa Sanpaolo is entitled to be indemnified by the banks in compulsory administrative liquidation against any negative effect incurred if these loans are totally or partially invalid, unrecoverable, or in any case not repaid as a result of legal disputes.

Intesa Sanpaolo has already made a formal reservation in this regard to the two banks in compulsory administrative liquidation for all the loans acquired and arising from loans potentially qualifying as "operazioni baciate", even if they have not (yet) been formally contested by customers (see below "Initiatives undertaken with respect to the compulsory administrative liquidations").

In 2019, Intesa Sanpaolo sent several claims to the banks in compulsory administrative liquidation containing requests (or reservations of the right to make subsequent requests) for

reimbursement/indemnification of damages already incurred or potentially incurred and violations of the above-mentioned representations and warranties, in relation to previous disputes and excluded disputes, as well as in relation to the value and recoverability of several assets transferred to Intesa Sanpaolo. To enable the banks in compulsory administrative liquidation to perform a more thorough examination of the claims made, on several occasions, at the request of the banks in compulsory administrative liquidation, Intesa Sanpaolo granted extension (with respect to the contractual provisions) of the deadline for contesting the claims made. The deadline for the submission of objections by the compulsory administrative liquidation has been extended to 30 April 2022 and no objections have been raised to date.

In January 2021, the claims regarding the additional charges accrued up to 30 June 2020 were sent to the banks in compulsory administrative liquidation.
In this regard, it should also be noted that Paragraph 11.1.9 of the sale contract establishes that "the precise and timely payment of any obligations and liabilities assumed in favour of the Bank by Banca Popolare di Vicenza and/or Veneto Banca shall be guaranteed by the issuing body (i.e. the Ministry of the Economy and Finance): (i) with regard to the indemnification obligations assumed by Banca Popolare di Vicenza and/or Veneto Banca and relating to the previous disputes, up to the maximum amount of the remedy sought for each of the previous disputes as indicated in the case documents, net of the specific risk allowances transferred to Intesa Sanpaolo with the aggregate set; and (ii) with regard to the remaining obligations and liabilities assumed by Banca Popolare di Vicenza and/or Veneto Banca, up to the maximum amount of €1.5 billion" (the "Indemnification Guarantee").

This provision is consistent with and implements Article 4, paragraph 1, letter c) of Law Decree no. 99/2017: the Ministry of the Economy and Finance "grants the Government independent first demand guarantee on the performance of the obligations of the entity in liquidation arising from commitments, representations and warranties issued by the entity in liquidation in the sale contract, for a maximum amount equal to the sum of €1,500 million plus the result of the difference between the value of the past disputes of the entities in liquidation, as indicated in the case documents, and the related risk provision, up to a maximum of €491 million".

The Indemnification Guarantee is therefore an essential prerequisite of the sale contract. To date, this guarantee has not yet been formalised by a specific Decree from the Ministry of the Economy and Finance. The issuance of the guarantee by the government is a required procedure that is envisaged, not only by the sale contract of 26 June 2017, but also by the above mentioned Law Decree 99/2017.

In January 2018, as part of a criminal proceeding before the Court of Rome for the alleged market rigging and obstructing the Supervisory Authorities in the performance of their functions with respect to officers and executives of Veneto Banca, the preliminary hearing judge decided that Intesa Sanpaolo could be charged with civil liability. According to the judge, the exclusion from the sale to Intesa Sanpaolo of the debts, responsibilities and liabilities deriving from the sale of shares and subordinated bonds – envisaged by Decree Law 99/2017 – would not be objectionable by third parties, while Article 2560 of the Italian Civil Code would be applicable in the case in question and Intesa Sanpaolo should therefore take on those liabilities.

As a result of this decision, more than 3,800 civil plaintiffs holding Veneto Banca shares or subordinated bonds joined the proceedings. Intesa Sanpaolo, therefore, entered an appearance requesting its exclusion from the proceedings, in application of the provisions of Decree Law 99/2017, of the rules established for the compulsory administrative liquidation of banks and, before that, of the principles and rules contained in the bankruptcy law, in addition to the constitutional principles and decisions made at EU level with regard to the operation relating to the former Venetian banks. In turn Veneto Banca in compulsory administrative liquidation intervened voluntarily affirming its exclusive, substantial and procedural capacity to be sued.

In March 2018, the preliminary hearing judge declared his lack of territorial jurisdiction, transferring the files to the Public Prosecutor's Office of Treviso. The charge of civil liability and the joinders of the civil parties were therefore removed.

After the case documents were forwarded to the Public Prosecutor's Office of Treviso, the former Managing Director of Veneto Banca, Vincenzo Consoli, was committed to trial for the offences of market-rigging, obstructing banking supervisory authorities and financial reporting irregularities.

The Judge for the Preliminary Hearing rejected the motion to authorise the summons of Intesa Sanpaolo as civilly liable party. With regard to the criminal proceedings before the Court of Vicenza against BPV senior officers and executives, charged with market-rigging, obstructing banking supervisory authorities and financial reporting irregularities, last June a ruling was issued against them and BPV in compulsory administrative liquidation for corporate liability pursuant to Legislative Decree no. 231/01 (the summons of Intesa Sanpaolo for civil liability was rejected). The position of the former CEO Samuele Sorato was excluded from the main proceedings due to his poor health. Recently, the Court of Vicenza upheld the request for the summons of the bank for civil liability in relation to the charges against Sorato, authorising the summons for the hearing of 10 November 2021. In this regard, Intesa Sanpaolo will file an entry of appearance requesting its exclusion pursuant to Article 86 of the Code of Criminal Procedure in accordance with the provisions of Law Decree no. 99/2017 and of the sale agreement of 26 June 2017.

In the proceedings relating to the excluded disputes brought for the alleged misselling of BPV shares in which Intesa Sanpaolo is also a party, the Court of Florence, by order of 20 July 2021, referred the question of the constitutionality of Law Decree 99/2017 to the Constitutional Court.

Metropolitan City of Rome Capital (formerly the Province of Rome) – Criminal proceedings are pending before the Rome Public Prosecutor's Office against a former Banca IMI manager for co-commission of aggravated fraud against the Metropolitan City of Rome Capital (formerly the Province of Rome).
The proceedings relate to the overall transaction for the purchase by the local authority, through the real estate fund Fondo Immobiliare Provincia di Roma (fully owned by the Province of Rome), of the new EUR premises.
The real-estate transaction received financing of €232 million from UniCredit, BNL and Banca IMI (each with 1/3).
The former Banca IMI employee is accused of having misled – with three other managers of the two other lending banks, seven managers of the asset management company that manages the provincial fund and two public officials – the fund's internal control bodies and representatives of the Province, allowing the lending banks to obtain an unjust profit and thus causing significant damages to the public authority. In addition, the Public Prosecutor claims that the lending banks and the Fund entered into a loan under different, more burdensome conditions than those provided for in the call for tenders held by the public entity for the transaction.
ISP (as the company that absorbed Banca IMI) is investigated in the criminal proceeding pursuant to Legislative Decree 231/01 together with the other two lending banks and the real-estate fund management company.
Based on early reconstructions, there is reason to believe that the correctness of the Bank's actions will be confirmed.

Oromare Bankruptcy
The bankruptcy receiver for Oromare società consortile a r.l. sued UBI in October 2018, claiming that banking credit had been unlawfully granted and maintained by the bank to the bankrupt company, seeking compensation for damages of €22.5 million.

The defence counsel of UBI argued that the bankruptcy receiver lacked standing to sue, citing the position in case law according to which it is individual creditors, not the body of bankruptcy creditors, who have standing to bring an action. It was also emphasised that the disputed loan was granted to support the company at a moment of particular growth and balanced financial performance.

An adverse outcome to the proceedings, which are in the preliminary phase, is possible.

Eugenio Tombolini SpA bankruptcy receiver and others
In 2016, Eugenio Tombolini SpA and its shareholders and guarantors sued Nuova Banca delle Marche, claiming that it had not fulfilled a restructuring agreement pursuant to Article 182-bis of the Bankruptcy Law and that it had applied unlawful interest on current accounts and loans, quantifying its claim at €94 million.

The bank entered its appearance, objecting that some of the claimants lacked standing to sue and that it lacked standing to be sued in respect of some of the disputed relationships, since they were outside the scope of the acquisition. In addition, it was argued that some claims had become time barred and that the

reconstruction of the facts by the adverse party regarding the restructuring agreement pursuant to Article 182-bis of the Bankruptcy Act was groundless, as were the claims regarding the interest applied. Nuova Banca delle Marche thus requested the authorisation to summon the third party REV Gestione Crediti S.p.A. (fully owned by the Bank of Italy) to the proceedings, as it is party to some of the disputed relationships.

The trial, which was suspended due to the bankruptcy of Eugenio Tombolini Spa and of some of the other claimants, was resumed. UBI Banca SpA appeared in lieu of Nuova Banca delle Marche and Rev Gestione Crediti S.p.a. In June 2020 the Court ordered an accounting expert review, which is still ongoing. An adverse outcome to the proceedings is possible.

Engineering Service Srl
In 2015, Engineering Service Srl brought a civil suit against the Ministry of Economic Development,BPER and UBI regarding the granting of public subsidies to businesses. The claimant accuses UBI (and BPER) of delays inmanaging the approval procedure and disbursements – delays that allegedly resulted in a liquidity crisis for the company andthe consequent loss of the public contribution.

A claim for damages for approximately €28 million has been brought against UBI. UBI's defence underscored that the bank was the leader of the temporary consortium formed by BPER and that the approvaltimes depended on the latter. UBI then claimed indemnification from BPER. The trial is still in the preliminary phase. The riskof a negative outcome is deemed possible.

Fondazione Cassa Risp. di Pesaro
In 2018, Fondazione Cassa di Risparmio di Pesaro brought a compensation claim against UBI Banca (as the alleged successor-in-interest to Banca Marche S.p.A.) and PwC (the auditing firm that certified all the financial statements and the figures presented in the Prospectus) alleging that the defendants published data and information regarding the financial performance and position of Banca della Marche S.p.A. that later proved to be totally incorrect and misleading. This information, contained in the financial statements as at 31 December 2010 and 30 June 2011and included in the Prospectus, is claimed to have led the Foundation to subscribe for the bank's shares issued as part of thecapital increase in March 2012. The value of these shares then fell to zero, resulting in a loss quantified at approximately €52 million.
During the trial the Bank of Italy joined the suit, upholding the lack of capacity to be sued invoked by UBI, by virtue of the provisions of Legislative Decree 180/2015 governing the resolution procedure for Banca delle Marche. The Court rejected allpreliminary applications filed and adjourned the case to 8 June 2021 for the entry of conclusions.

Abba' Andrea and 207
This is a dispute pending before the Court of Milan, Business Section, initiated in 2019 by Mr. Abbà and 207 subordinated bondholders of Banca delle Marche. The claimants seek a declaration voiding the bonds and compensation for the damages suffered. The claim has been quantified at approximately €31 million.

The bank entered its appearance, objecting that it lacked capacity to be sued, arguing in particular that the bonds in question were outside the scope of the sale by the Old Bank to the Bridge Entity. UBI also argued that the claimant's claims had become time barred and that the adverse parties lacked capacity, since they were not the "first borrowers" and thus by law were not entitled to claim that the original bonds were inherently flawed. Finally, the lack of grounds to void the bonds and ofevidence of the causal relationship between the bank's conduct at issue and the damages was underscored.

As the manager of the National Resolution Fund, the Bank of Italy intervened in the proceedings, upholding the argumentsand conclusions formulated by UBI.

The trial is still in the initial phase, since the preliminary phase has yet to be held.

Terni Reti s.r.l .
Lawsuit initiated in July 2020 before the Court of Terni by Terni Reti Sud s.r.l., with share capital wholly held bythe Municipality of Terni, seeking a declaration voiding the collar derivative contract entered into in August 2007 due to the alleged breach of the disclosure obligations applicable to the intermediary (former Banca delle Marche). The plaintiff also alleges a lack of abstract and concrete cause of the contract at issue,

since the Bank purportedly did not share with the Company information regarding the mark-to-market and probabilistic scenarios relating to the derivative, but instead allegedly also suggested an inefficient derivative, in view of pursuit of hedging goals in relation to the underlying debt, with the consequent deviation from the 'concrete cause'.

The bank entered an appearance promptly, arguing on the merits that the plaintiff's claims were baseless since the bank had provided extensive information regarding the characteristics of the derivative in question, enabling the customer to make an informed choice of the product subscribed. The claims that the contract was allegedly ineffective were also challenged on the basis of the results of the technical expert report requested by UBI in conducting its defence.

The lawsuit is in the initial phase, since the first hearing was held on 15 December 2020.

Ac Costruzioni s.r.l.
Proceedings brought by AC Costruzioni S.r.l. (subsequently declared bankrupt) and Cava Aurelio(deceased during the trial) against Banca Carime Spa seeking a declaratory judgment establishing contractual and/orextracontractual liability of the bank for the revocation of the credit facilities on 28/05/1998 and a judgment ordering the bankto provide compensation for the damages resulting from revocation, quantified at a total of around €33 million.

The adverse party's claims were rejected in full by both the Court of Cosenza and the Catanzaro Court of Appeal, whichupheld the arguments made by the defendant. The judgment of the second instance was appealed by Cava's heirs and thenby the receiver to AC Costruzioni by counter-appeal and cross-appeal. The proceedings before the Court of Cassation are stillin the initial phase, since the hearing has yet to be scheduled.

Mariella Burani Fashion Group S.p.A. in liquidation and bankruptcy
In January 2018 the receiver to MariellaBurani Fashion Group S.p.a. ("MBFG") sued the former directors and statutory auditors of Mariella Burani Fashion Group S.p.A, itsauditing firm and UBI Banca (as the company that absorbed Centrobanca), seeking a judgment ordering compensation foralleged damages suffered due to the many acts of mismanagement of the company while in good standing.
According to the claimant's arguments, Centrobanca, which was merged into UBI, continued to provide financial support to the parent company of the bankrupt company (Mariella Burani Holding S.p.A.), despite the signs of insolvency that began to show in September 2007, causing damages quantified at approximately €94 million.

On a preliminary level, the bank argued that the receiver lacked capacity to sue since the disputed loan had been disbursed to the parent company of Mariella Burani Fashion Group S.p.a.; moreover, the alleged damages for which the receiver claims compensation were argued to have been in fact sustained by the company's creditors (and not by the procedure).

As regards the merit of the claims, the bank stressed that it had acted properly and the borrower in good standing was solely liable since it bore exclusive responsibility for preparing the untrue financial statements, circulating the misinformation and continuing to operate the company in an alleged situation of insolvency.

Fondazione Cassa Risparmio di Jesi
In January 2016, Fondazione Cassa di Risparmio di Jesi brought a compensation claim against UBI Banca (as the alleged successor-in-interest to Banca Marche S.p.A.) and PwC (the auditing firm that certified all the financial statements and the figures presented in the Prospectus) alleging that the defendants published data and information regarding the financial performance and position of Banca della Marche S.p.A. that later proved to be totally incorrect and misleading. This information, contained in the financial statements as at 31 December 2010 and 30 June 2011and included in the Prospectus, is claimed to have led the Foundation to subscribe for the bank's shares issued as part of thecapital increase in March 2012. The value of these shares then fell to zero, resulting in a loss quantified at approximately €25 million.

During the trial the Bank of Italy joined the suit, upholding the lack of capacity to be sued invoked by UBI, by virtue of the provisions of Legislative Decree 180/2015 governing the resolution procedure for Banca delle Marche.

By judgment rendered on 18 March 2020, the Court of Ancona granted the objection of lack of capacity to be sued raised by the bank, rejecting the claims lodged. The appeal filed by the Foundation is currently pending before the Ancona Court of Appeal.

Melania Group S.p.A.
Proceedings brought by Melania Group and its guarantors in 2015 claiming unlawful suspension of credit and improper reporting to the Central Credit Register and seeking compensation for damages suffered quantified at €38 million. The claimants also sought the reversal of the interest accrued on the current accounts held by the company due to exceeding the "threshold rate". When entering its appearance, the bank motioned the court to reject the claims formulated and lodged a counterclaim by virtue of the debt balances in the Melania Group's name. By judgment in December 2019, the Court of Ancona rejected the compensation claims formulated by the adverse party, granting the bank's counterclaim in a lesser amount than sought. The appeal initiated by UBI (which absorbed Banca Adriatica) is pending, with the first hearing scheduled for April 2021.

Isoldi Holding bankruptcy receiver
The receiver to Isoldi sued UBI (which absorbed Nuova Banca Etruria and Centrobanca) and five other banks in June 2020, claiming that they were liable, jointly and severally with the management body of Isoldi Holding, for a series of acts of diversion of assets that are claimed to have contributed to the company's artificial survival in the period June 2011 – June 2013. The scheme is claimed to have been implemented by preparing a turnaround plan pursuant to Article 67, para. 3, letter d), of the Bankruptcy Law based on unlawful acts and a connected agreement governing the disbursement of new finance, acts that are argued to have artificially deferred the company's crisis and concealed the irrevocability of its default. The total damages claimed amount to approximately €33.5 million. UBI Banca entered its appearance, claiming that it lacked capacity to be sued with regard to the claims bearing on Banca Etruria, since the circumstances in question are excluded from the sale. REV Gestione Crediti (fully owned by the Bank of Italy) joined the proceedings.

Labour litigation

There were no significant cases of labour litigation from either a qualitative or quantitative standpoint as at 30 June 2021. In general, all labour litigation is covered by specific provisions adequate to meet any outlays.

Contingent assets

As for contingent assts, and the IMI/SIR dispute in particular, it should be recalled that following the final judgement establishing the criminal liability of the corrupt judge Metta (and his accomplices Rovelli, Acampora, Pacifico, and Previti), the defendants were ordered to pay compensation for damages, with the determination of those damages referred to the civil courts. Intesa Sanpaolo then brought a case before the Court of Rome to obtain an order of compensation for damages from those responsible.

In its ruling of May 2015, the Court of Rome quantified the financial and non-financial damages for Intesa Sanpaolo and ordered Acampora and Metta – the latter also jointly liable with the Prime Minister's Office (pursuant to Law no. 117/1988 on the accountability of the judiciary) – to pay Intesa Sanpaolo €173 million net of tax, plus legal interest accruing from 1 February 2015 to the date of final payment, plus legal expenses. The amount ordered took account of the amounts received in the meantime by the Bank as part of the settlements with the Rovelli family and with the counterparties Previti and Pacifico.

In July 2016, the Rome Court of Appeal stayed the enforcement of the judgment of first instance with respect to the amount in excess of €130 million, in addition to ancillary charges and expenses, and adjourned the hearing of the final pleadings to June 2018. As a result of this decision, in December 2016 the Office of the President of the Council of Ministers credited Intesa Sanpaolo with the sum of €131,173,551.58 (corresponding to the €130 million of the order, in addition to legal interest and reimbursement of expenses).

To avoid dispute, only the exact amount of the order, without applying the gross-up, was demanded and collected.

On 16 April 2020, the ruling of the Court of Appeal of Rome was filed, which essentially upheld the Court's ruling, while reducing the amount of non-financial damages to €8 million (compared to €77 million that had been quantified by the court of first instance), and set the amount to be paid at €108 million, to be considered net of tax, plus legal interest and expenses. In the second quarter of 2020 the bank filed a petition for the correction of a material error contained in the finding regarding the calculation of the damages liquidated; the Court of Appeal rejected the bank's petition by ruling filed on 7 December 2020. Intesa Sanpaolo will therefore file an appeal to the Court of Cassation against the decision of the Court of Appeal in regard to the quantification of the non-financial damage and the erroneous calculation of the financial damage, for which an application for correction was filed.
In a ruling filed on 5 June 2020, the Lazio Regional Tax Commission – Third Section rejected the appeal filed by the Italian Revenue Agency in the matter of registration tax (€10.3 million) against the ruling issued by the Court of Appeal of Rome on 7 March 2013, upholding the ruling of the Court of First Instance and ordering each party to pay its own costs. The Italian Revenue Agency did not appeal to the Court of Cassation within the time limit and so the appeal ruling in favour of the Bank has become final. The tax refunded by the Italian Revenue Agency during 2018 can be considered to have been definitively acquired by the Bank.
Furthermore, as concerns the proceedings on the merits of the case, in May the Bank filed an appeal with the Court of Cassation against the Rome Court of Appeal's ruling of 16 April 2020. The appeal relates primarily to two aspects:

- the reduction in non-financial damages made by the Court of Appeal is devoid of any sound legal or logical reasoning;

- apart from the reduction in non-financial damages, the Court made a miscalculation when redetermining the total damages awarded to the Bank.

Tax litigation

The Group's tax litigation risks are covered by adequate provisions to the allowances for risks and charges. No new cases of significant amounts arose in the first half of the year.
As at 30 June 2021, the Parent Company Intesa Sanpaolo had 733 proceedings pending (687 as at 31 December 2020) for a total amount claimed (taxes, penalties and interest) of €150 million (€139 million as at

31 December 2020), considering both administrative and judicial proceedings in both the lower and higher courts.
The increase in the value of tax litigation is mainly due to the dispute concerning the former UBI Banca (€7.7 million), which was transferred to the Parent Company following the merger, and to new disputes over municipal property tax on property lease contracts terminated without repossession of the assets (€2.6 million).
In relation to these proceedings, the actual risks were quantified for Intesa Sanpaolo at €62 million as at 30 June 2021 (€57 million as at 31 December 2020).
With regard to the pending disputes, as to the dispute with the Brazilian Tax Administration (amount in dispute of approximately €35 million), on income taxes and social security contributions related to the year 1995, of the company Banco Sudameris Brasil (now Banco Santander Brasil), it should be noted that the civil court of first instance issued in April its judgment which, while accepting in part some of the Bank's objections, found on the whole in favour of the Brazilian Tax Administration. The judgment was appealed on 10 May 2021, and the case is now pending in the court of second instance. According to local advisors, the likelihood of an adverse ruling in relation to the interest component (approximately €21 million) is remote. On the other hand, the provision for taxes and penalties (amounting to a total of €13.6 million of the deposit recognised within the assets in the balance sheet) has been increased prudentially from 25% as at 31 March 2021 to 50% of that amount, thus setting aside a total of €6.8 million in the provision for risks.
With reference to the dispute regarding registration tax on rulings ordering the Bank to return compound interest (so called *interessi anatocistici*) and maximum overdraft charges to customers - for which the Bank believes that a fixed registration tax of €200 is due under Article 8(1) (e) of the Tariff annexed to Presidential Decree no. 131/86 and the Note to point (b) of the same article (i.e. under the principle of alternativity VAT registration tax) - an initial judgment was issued by the Court of Cassation in June. The judgment, the grounds of which are debatable in many respects, unexpectedly upheld the principle that tax applies at the proportional rate of 3%, supporting a restrictive interpretation of Article 8(1)(e) of the Tariff and stating that said article is only applicable in cases where the entire contract, and not individual clauses, is declared invalid/voidable in judicial proceedings. As concerns the applicability of the principle of alternativity VAT registration tax, the Court of Cassation referred the matter back to the lower court for an assessment of the matter since, in this specific case, this aspect had been always subsumed in all lower court proceedings. Given the prevalence of favourable rulings in the various instances of the case, and the fact that the Court of Cassation has not yet ruled on the Bank's last objection, there are still valid reasons to continue the dispute.
With regard to the merged company Mediocredito Italiano (**MCI**), and to the Tax Audit Report served on 13 October 2020 disputing the VAT exemption under Article 8-bis of Presidential Decree 633/72 for tax year 2015, applied by the company to boat leases, the Italian Revenue Agency - Lombardy Regional Directorate - Large Taxpayers Office has served the notice of tax assessment. Discussions are currently under way with the Italian Revenue Agency to settle not only the recently notified assessment for tax year 2015, but also the amounts claimed for tax year 2014 in a previous tax dispute. To this end, the Bank and the Italian Revenue Agency jointly requested postponement of the hearing before the Milan Provincial Tax Commission scheduled for 22 June, which has been postponed to 5 October.
As to disputes settled during the period, it should be noted that a ruling by the Court of Cassation definitively annulled an earlier notice of assessment (*avviso di rettifica e liquidazione*) of registration tax on the sale in 2008 by Intesa Sanpaolo S.p.A. of a business line to Credito Piemontese S.p.A. (now Credito Valtellinese S.p.A.). The total amount of the claim is approximately €1.7 million and, as a result of the favourable ruling, the provisional payment made during the proceedings will be refunded. No provision had been set aside for this case.
With regard to the Intesa Sanpaolo branches located abroad, two VAT audits on the London branch are under way, the first for the years 2016, 2017 and 2018 and the second for 2020. Three audits are also under way on the New York branch for 2015, 2016 and 2018. No claims have been made for the time being.
The audit on the Madrid branch for the year 2015 ended with a tax assessment by the tax authorities disputing the deductibility of intercompany costs of €2.2 million and charging €93 thousand of tax, plus interest of €17 thousand and penalties of €20 thousand. The branch decided to accept the tax assessment.
By notice dated April 2021, the Madrid Revenue Agency also started a tax audit for the year 2016 concerning income tax on the Madrid branch of the merged company UBI Banca, which had been closed down on 31 December 2018. In their first contact on 5 July 2021, the Spanish tax officials requested a large number of accounting and tax documents, which will be delivered by our local advisors in the coming weeks.

At the level of the Group's other Italian companies, tax disputes totalled €72 million as at 30 June 2021 (€63 million as at 31 December 2020), covered by specific provisions of €10 million (unchanged from 31 December 2020).
The increase in disputes compared to the end of 2020 mainly relates to new disputes that arose in the first half of 2021 for Intesa Sanpaolo Private Banking S.p.A. and Cargeas Assicurazioni S.p.A., net of closed disputes of Provis S.p.A. (€1 million) and disputes of the former UBI Banca which, as a result of the merger, are now included in the figures of the Parent Company.
As to Intesa Sanpaolo Private Banking, on 29 April 2021 notices were served for the assessment of IRES and IRAP taxes for tax year 2016. The amount deducted by the company and now disputed by the Lombardy Regional Revenue Directorate for tax year 2016 is the same amount already adjusted for 2015, of €12.1 million, corresponding to higher IRES of €3.3 million *and* IRAP of €0.7 million, plus interest, and penalties (total amount €8.2 million); The assessments relate to the deduction (in 2011 and the following years) of the amortisation charge for the goodwill arising from the transfers of the private banking business lines of Intesa Sanpaolo and Cassa dei Risparmi di Forlì e della Romagna in 2009, Banca di Trento e Bolzano and Cassa di Risparmio di Firenze in 2010 and Cassa di Risparmio Pistoia e Lucchesia and Cassa di Risparmio dell'Umbria in 2013, which had been realigned by the transferee in accordance with Article 15, paragraph 10, of Law Decree 185 of 29 November 2008. The dispute currently concerns the years from 2011 to 2016 and the total amount claimed by way of tax, penalties and interest is €51 million. According to the opinion issued on 17 June 2021 by the advisor assisting the Bank in the cases pending before the Court of Cassation, the risk of an adverse ruling is classified as "possible", since the lawfulness of realigning the tax value of the goodwill newly generated for the transferee – something which in the past was done by other Group companies without incurring in tax disputes – has been expressly acknowledged by the Italian Revenue Agency in Circular no. 8/E of 2010 and is consistent with the provisions of Article 15, paragraph 10 of Law Decree 185/2008.
Cargeas Assicurazioni S.p.A., an insurance company acquired by Intesa Sanpaolo Vita on 27 May 2021, underwent a tax audit by the Italian Revenue Agency, Lombardy Regional Directorate, Large Taxpayers Office, aimed at verifying the correct application, for the years from 2010 to 2018, of the tax rules on private insurance and life annuity contracts pursuant to Law no. 1216 of 29 October 1961.
As a result of the audit, the authorities claimed that redundancy insurance policies (which are mandatorily associated with loans secured by the assignment of one-fifth of salary and optional with other mortgages, loans and consumer credit), should not be subject to tax on insurance premiums at a rate of 2.5%, but should be classified as credit risk insurance policies, subject to a tax rate of 12.5%.
The Revenue Agency maintains that although the risk insured (on the basis of which the premium is determined with statistical/actuarial criteria) is the loss of employment, redundancy policies should be charged the 12.5% rate applicable to credit risk insurance, given that the ultimate aim of the policy is to protect the lending institution's interest in collecting its credit.
The dispute is nothing new for the insurance industry; in fact, insurance companies have been maintaining that the Agency's reasoning is unsubstantiated and biased for years now. ANIA has also recently given its opinion on the matter through circular no. 0082 of 5 March 2021 (which refers to circular no. 127 of 21 April 2005), pointing out that the Agency's position produces a series of unsystematic and abnormal consequences which certainly do not reflect the intention of the legislator in Law no. 1216, and diverge from the guidance of the financial administration itself which, on this point, had supported application of the 2.5% rate in circular no. 29/E of 2001.
After the audit, on 25 May 2021 Cargeas received an assessment notice for 2010 claiming an additional tax of €1.7 million, €0.6 million in interest and €3.4 million in penalties, equal to 200% of the assessed tax (minimum penalty prescribed by law), for a total of €5.6 million. The dispute was referred to an advisor for drafting of the appeal, which is currently being finalised. The legal advisors are studying the case to determine whether the potential charges arising from this dispute can be recovered in whole and/or in part from the seller, Cardif / BNP Paribas. Moreover, for the reasons clearly stated by ANIA, the risk of incurring a liability is considered possible. Lastly, a preliminary analysis was conducted on Cargeas to determine the potential impact of the dispute on all the years potentially subject to assessment: for the entire period 2011-2018 (the analysis is under way for the period 2019-2021) the total potential additional tax in the event of tax assessment would be €2.9 million and the potential penalties would amount to €5.8 million (plus interest).
Lastly, with regard to the same case, Intesa Sanpaolo Assicura received the following two questionnaires in April 2021: the first for 2012 and 2013 for the former Bentos Assicurazioni, merged into Intesa Sanpaolo Assicura in December 2013; the second for 2012 for Intesa Sanpaolo Assicura.

To date, the questionnaires have not been followed by any tax assessments by the Agency. According to the initial checks carried out, the potential impact of the dispute on Intesa Sanpaolo Assicura for all the years potentially subject to assessment would be of a small amount (less than €1million).
The tax disputes involving foreign subsidiaries are of small amounts and are covered by provisions as to 75% of the risk. In particular, these are disputes having a total value of €8 million (€9 million at the end of 2020) for which provisions of €6 million have been set aside (€7 million at the end of 2020).
Alexbank has two pending tax audits concerning corporate income tax, referring to tax year 2018, and stamp duty, referring to tax year 2019. At present no claims have been put forward. In addition, there is a pending dispute concerning the non- payment of stamp duty by the Bank's branches for a total value of approximately €3.3 million for tax periods 1984 – 2008. The potential liability has been fully covered by provision.
A tax audit on Intesa Sanpaolo Brasil S.A. - Banco Multiplo is also under way, conducted by Sao Paulo City Municipality in relation to tax years 2016 and 2017. No tax assessment notices have been issued yet, but the company's accounting and financial documents have been requested.

Incorporation by Reference

Both the audited consolidated annual and the unaudited consolidated half-yearly financial statements referred to above are incorporated by reference in this Base Prospectus (see "*Documents Incorporated by Reference*"). The financial information set out below forms only part of, should be read in conjunction with and is qualified in its entirety by reference to the above-mentioned audited consolidated annual and unaudited consolidated half-yearly financial statements, together with the accompanying notes and auditors' reports.

Accounting Principles

The audited consolidated annual and unaudited consolidated half-yearly financial statements referred to above have been prepared in accordance with the accounting principles issued by the International Accounting Standards Board and the relative interpretations of the International Financial Reporting Interpretations Committee, otherwise known as International Financial Reporting Standards, as adopted by the European Union under Regulation (EC) 1606/2002. The half-yearly condensed consolidated financial statements referred to above have been prepared in compliance with the IAS/IFRS issued by the International Accounting Standards Board (IASB) and the relative interpretations of the International Financial Reporting Interpretations Committee (IFRIC) endorsed by the European Commission, as provided for by EU Regulation 1606 of 19 July 2002 and in force as at 30 June 2021.

In particular, the 2021 Half-Yearly Unaudited Financial Statements are prepared in compliance with IAS 34 requirements, which regulate interim financial reporting.

The accounting standards adopted in preparation of these 2021 Half-Yearly Unaudited Financial Statements, with regard to the classification, recognition, measurement and derecognition of the financial assets and liabilities, and the recognition methods for revenues and costs, have remained unchanged compared to those adopted for the Intesa Sanpaolo Group 2020 Audited Financial Statements, which should be consulted for the complete details, except for the criteria for the preparation of segment reporting. With reference to these criteria, it is worth noting that in the first half of 2021 a revision was carried out of the allocation methods for costs and revenues between the Business Units and Corporate Centre, also in relation to the need to integrate UBI Banca in accordance with the segment reporting approaches of the Intesa Sanpaolo Group.

In addition, the indications provided by the authorities and the IASB, together with the application decisions made by Intesa Sanpaolo, as described in the chapter "The first half of 2021", should be consulted on the consequences of the impact of the COVID-19 health emergency. Some amendments to existing accounting standards, endorsed by the European Commission in 2019 and 2020, were applicable on a mandatory basis for the first time starting in 2020, but none of them is particularly significant for the Intesa Sanpaolo Group.

A summary of the endorsing Regulations is provided below:

- **Regulation 2075/2019**: this regulation of 29 November 2019 adopted several amendments to the IFRS relating to references to the Conceptual Framework. The amendments are designed to update the references – in the various IAS/IFRS and interpretations – to the previous framework, by replacing them with the references to the framework revised in March 2018. The Conceptual Framework is not an accounting standard and is therefore not subject to endorsement, whereas this particular document is subject to endorsement because it amends some IAS/IFRS;

- **Regulation 2104/2019**: this regulation of 29 November 2019 adopts several amendments to IAS 1 Presentation of Financial Statements and IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors in order to clarify the definition of material information and to improve its understandability. The materiality depends on the nature and significance of the information or both. An entity shall also verify whether an item of information, either individually or in combination with other information, is material in the overall context of the financial statements;

- **Regulation 551/2020**: the Regulation dated 21 April 2020 adopted several amendments to IFRS 3 Business Combination introduced with the IASB publication of 22 October 2018 "Definition of a Business (Amendments to IFRS 3)" in order to facilitate the practical application of the definition of the term "business". These clarifications do not entail any changes to the practices already followed by the Intesa Sanpaolo Group with regard to the definition of a business.

In addition, the Intesa Sanpaolo Group has exercised the option of early adoption of Regulation (EU) 34/2020 of 15 January 2020 for the 2019 Audited Financial Statements, which adopted the document issued by the IASB in September 2019 on "Interest Rate Benchmark Reform (amendments to IFRS 9 Financial Instruments, IAS 39 Financial Instruments: Recognition and Measurement and IFRS 7 Financial Instruments: Disclosures)", application of which is mandatory with effect from 1 January 2020. This regulation introduced several amendments regarding hedges (hedge accounting) designed to prevent uncertainties about the amount and timing of the cash flows arising from the rate reform resulting in the discontinuation of existing hedges and difficulties in designating new hedging relationships.

As disclosed in the 2019 Audited Financial Statements, this relates to recent developments concerning the revision or replacement of certain interest rate benchmarks used to set interest rates in various jurisdictions, such as LIBOR, TIBOR and, in Europe, EONIA, based on the indications from the G20 and the Financial Stability Board.The IASB dealt with the possible accounting impacts of the IBOR Reform through a project divided into two phases: the first phase focused on the possible accounting impacts in the period prior to the replacement of the existing benchmark rates with new rates (pre-replacement issues); and the second phase of the project, which concluded with the publication in August 2020 of the document "Interest Rate Benchmark Reform – Phase 2 – Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IAS 16", endorsed by Regulation 25/2021 of 13 January 2021, involves the analysis of the possible accounting impacts deriving from the application of the new rates and other less urgent issues (replacement issues). Phase 1 of the project, which ended with the publication of the above-mentioned Regulation 34/2020, introduced several changes to prevent the discontinuation of existing hedges. The IASB considers that, in this scenario, the discontinuation of hedges solely due to the effect of uncertainty does not provide useful information for the readers of financial statements and has therefore decided to make some temporary exceptions to the existing regulations to prevent these distortions, which can be applied until the reform of the interest rate benchmarks has been completed.

The IASB has identified several hedge accounting provisions that could be affected by the reform of the benchmarks in the "pre-replacement" phase and introduced a simplification for each of them, assuming that the interest rate benchmarks used to set existing interest rates will not be changed as a result of the interbank rate reform. The amendments became applicable on a mandatory basis from 1 January 2020, with the option of early application, as exercised by the Intesa Sanpaolo Group, which applied these provisions when preparing its 2019 Audited Financial Statements.

Finally, Regulation 25/2021 of 13 January 2021 endorsed "Interest Rate Benchmark Reform – Phase 2, Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16" published by the IASB on 27 August 2020 regarding issues pertaining to phase two of the interest rate reform project.
The main amendments implemented relate to:

- Modification/derecognition

The issue concerns the accounting treatment of amendments to existing contracts to reflect the new interest rates and whether they are to be accounted for - pursuant to IFRS 9 - as a modification or a derecognition. In this regard, the legislation aims to safeguard the amendments relating to the IBOR reform:

- it is clarified that amendments - following the IBOR reform - relating to the replacement of the existing IBOR rate with the new risk-free rate, even in the absence of amendments to the contractual conditions, do not constitute a derecognition event but are to be considered a modification from an accounting standpoint; and
- a practical expedient is proposed allowing such amendments, applied on equivalent economic bases, to be represented with a prospective adjustment of the effective interest rate, with impacts on net interest income in future periods (and not by applying modification accounting pursuant to IFRS 9).

Similar changes regarding contract amendments were also made to IFRS 16 Leasing and IFRS 4 Insurance Contracts, in line with the provisions regarding financial instruments summarised above.

- Hedge accounting

In phase two of the project, the IASB analysed the impact on hedging relationships of amendments caused by the IBOR reform on financial instruments part of a hedging relationship and which may constitute potential new triggers for the discontinuation of the hedges, establishing several exceptions to IAS 39 (and to IFRS 9 for those who have also adopted it for hedges) that make it possible not to apply discontinuation following an update of the documentation of the hedging relationship (due to modification of the hedged risk, the hedged underlying or the hedging derivative, or of the method for verifying hedge effectiveness). Any cases of ineffectiveness must nonetheless be recognised in the income statement. In addition, some amendments were applied with regard to the designation of separately identifiable risk components. When a hedging relationship is modified as a result of the reform or new hedging relationships are designated, an alternative interest rate designated as a non-contractually specified risk component might not meet the separately identifiable requirement since the alternative interest rate market might not be sufficiently developed on the designation date. In this regard, it has been established that an alternative interest rate meets this requirement if the entity reasonably expects that the designation will become separately identifiable within 24 months. The amendments introduced by the IASB thus aim at not discontinuing existing hedge relationships as a result of the reform. Accordingly, no impacts of the Intesa Sanpaolo Group are foreseen.

- Disclosure

Disclosure is to be further enhanced, in addition to the supplements to IFRS 7 already implemented within the framework of the phase one amendments, with the addition of qualitative and quantitative disclosure requirements to be met in the financial statements with regard to the nature and risks associated with the IBOR reform, the management of such risks and progress in the process of transitioning to the new rates. Adoption of these amendments will be mandatory for financial statements for periods beginning on or after 1 January 2021, with the possibility of optional early adoption. Following the analyses, the Group did not deem it necessary to utilise the possibility of early application of the amendments for the 2020 financial statements.

The 2021 Half-Yearly Unaudited Financial Statements, drawn up in euro as the functional currency, are prepared in condensed form as permitted by IAS 34, and contain the consolidated Balance sheet, the consolidated Income statement, the Statement of consolidated comprehensive income, the Changes in consolidated shareholders' equity, the consolidated Statement of cash flows for the six month period then ended and the explanatory notes. They are also complemented by information on significant events which occurred in the period, on the main risks and uncertainties to be faced in the remaining months of the year, as well as information on significant related party transactions. With effect from the 2018 audited financial statements, following the Intesa Sanpaolo Group's decision to exercise the option of adopting the deferral approach, also provided for banking-led financial conglomerates, specific balance sheet and income statement captions have been added to the consolidated financial statement layouts established in Circular 262 to present the valuation of assets and liabilities pertaining to insurance companies and the related profit or loss effects measured in accordance with IAS 39. The amounts indicated in the financial statements and explanatory notes are expressed in millions of euro, unless otherwise specified.

The Half-yearly condensed consolidated financial statements are prepared in compliance with IAS 34 requirements, which regulate interim financial reporting. The accounting standards adopted in the preparation of the Half-yearly condensed consolidated financial statements, with regard to the classification, recognition, measurement and derecognition of the financial assets and liabilities, and the recognition methods for revenues and costs, have remained unchanged compared to those adopted for the Intesa Sanpaolo Group 2020 Annual Report, except for the criteria for the preparation of segment reporting, for which, in the first half of 2021 a revision was carried out of the allocation methods for costs and revenues between the business Units and Corporate Centre, also in relation to the need to integrate UBI Banca in accordance with the segment reporting approaches of the Intesa Sanpaolo Group.

As reported in the "**2021 Half-Yearly Unaudited Financial Statements**", the assets held for sale include the non-performing loan portfolios of Intesa Sanpaolo, including those from UBI Banca, merged into Intesa Sanpaolo from 12 April 2021, Intesa Sanpaolo Provis and UBI Leasing, which will be sold mainly during the second half of 2021 as part of the Group's de-risking strategies. Likewise, assets held for sale include single-name nonperforming credit exposures subject to already approved transactions expected to be closed after 30 June 2021.

Finally, discontinued operations include the shareholding in Intesa Sanpaolo Forvalue, subject to transfer to the Tinexta Group as part of the strategic partnership concerning non-financial services to companies, and the business line dedicated to the acquiring activity within the payment system relating to the scope of the former UBI Banca, which will be transferred to Nexi during the second half of 2021.

The 2021 Half Yearly Unaudited Financial Statements are complemented by certification of the Managing Director – CEO and the Manager responsible for preparing the Intesa Sanpaolo Group's financial reports pursuant to Article154-bis of the Consolidated Law on Finance and have been reviewed by the Independent Auditors EY S.p.A.

REGULATORY SECTION

Changes in regulatory framework

The Intesa Sanpaolo Group is subject to extensive regulation and supervision by the Bank of Italy, the Italian Securities and Exchange Commission (**CONSOB**), the European Central Bank (the **ECB**) and the European System of Central Banks and is also subject to the authority of the Single Resolution Board (**SRB**). Certain entities within the Intesa Sanpaolo Group are also subject to supervision by the Italian Institute for the Supervision of Insurance and the Issuer is also subject to rules applicable to it as an issuer of shares listed on the Milan Stock Exchange. The banking laws to which the Intesa Sanpaolo Group is subject govern the activities in which banks may engage and are designed to maintain the safety and soundness of such institutions and limit their exposure to risk. In addition, the Intesa Sanpaolo Group must comply with financial services laws that govern its marketing and selling practices. New acts of legislation and regulations are being introduced in Italy and the European Union that may affect the Intesa Sanpaolo Group, including proposed regulatory initiatives that could significantly alter the Intesa Sanpaolo Group's capital requirements.

The rules applicable to banks and other entities in banking groups include implementation of measures consistent with the regulatory framework set out by the Basel Committee on Banking Supervision (the **Basel Committee**).

In accordance with the regulatory frameworks described above and consistent with the regulatory framework being implemented at the European Union level, the Intesa Sanpaolo Group has in place specific procedures and internal policies to monitor, among other things, liquidity levels and capital adequacy, the prevention and detection of money laundering, privacy protection, ensuring transparency and fairness in customer relations and registration and reporting obligations. Despite the existence of these procedures and policies, there can be no assurance that violations of regulations will not occur, which could adversely affect the Intesa Sanpaolo Group's results of operations, business and financial condition. In addition, as at the date of this Base Prospectus, certain laws and regulations have only been recently approved and the relevant implementation procedures are still in the process of being developed.

The CRD IV Package

The Basel III framework began to be implemented in the EU from 1 January 2014 through Directive 2013/36/EU of the European Parliament and of the Council of 26 June 2013 on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms (the **CRD IV**) and Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms (the **CRR** and together with the CRD IV, the **CRD IV Package).** Delegated Regulation (EU) 2015/61 and its supplements and the Implementing Regulation (EU) 2016/313. The CRD IV Package has been subsequently updated by Regulation (EU) No. 2019/876 (CRRII) and Directive (EU) No. 2019/878 (**CRD V**).

Full implementation began on 1 January 2014, with particular elements being phased in over a period of time (the requirements have been largely fully effective by 2019 and some minor transitional provisions provide for phase-in until 2024). Further details on the implementation of the EU Banking Reform Package (as defined below) are provided in the paragraph "*Revisions to the CRD IV Package*" below.

In Italy the CRD IV has been implemented by Legislative Decree no. 72 of 12 May 2015 which impacts, *inter alia*, on:

(a) proposed acquirers of credit institutions' holdings, shareholders and members of the management body requirements (Articles 22, 23 and 91 CRD IV);

(b) competent authorities' powers to intervene in cases of crisis management (Articles 102 and 104 CRD IV);

(c) reporting of potential or actual breaches of national provisions (so called whistleblowing, Article 71 CRD IV); and

(d) administrative penalties and measures (Articles 64 and 65 CRD IV).

Moreover, the Bank of Italy published new supervisory regulations on banks in December 2013 (Circular of the Bank of Italy No. 285 of 17 December 2013 (the **Circular No. 285**)) which came into force on 1 January 2014, and has been amended over time in order to implement, inter alia, the CRD IV Package and set out additional local prudential rules concerning matters not harmonised at EU level. Circular No. 285 has been constantly updated after its first issue, the last update being the 37th update published on 24 November 2021. The CRD IV Package has also been supplemented in Italy by technical standards and guidelines relating to the CRD IV and the CRR finalized by the European Supervisory Authorities (ESAs), mainly the EBA and ESMA, and delegated regulations of the European Commission and guidelines of the EBA.

According to Article 92 of the CRR, institutions are required at all times to satisfy the following own funds requirements: (i) a Common Equity Tier 1 (**CET1**) capital ratio of 4.5%; (ii) a Tier 1 Capital ratio of 6%; and (iii) a Total Capital Ratio of 8%. According to Articles from 129 to 134 of CRD IV, these minimum ratios are complemented by the following capital buffers to be met with CET1 capital, reported below as applicable with reference to december 2021:

- *Capital conservation buffer*: set at 2.5 per cent from 1 January 2019 (pursuant to Article 129 of the CRD IV and Part I, Title II, Chapter I, Section II of Circular No. 285, as amended in October 2016);

- *Counter-cyclical capital buffer* (**CCyB**): set by the relevant competent authority between 0% - 2.5% of credit risk exposures towards counterparties each of the home Member State, other Member States and third countries (but may be set higher than 2.5 % where the competent authority considers that the conditions in the Member State justify this), with gradual introduction from 1 January 2016 and applying temporarily in the periods when the relevant national authorities judge the credit growth excessive (pursuant to Article 130 of the CRD IV and Part I, Title II, Chapter I, Section III of Circular No. 285). The Bank of Italy has set, and decided to maintain, the CCyB (relating to exposures towards Italian counterparties) at 0% for the first quarter of 2022;

- *Capital buffers for globally systemically important banks* (**G-SIBs**): set as an "additional loss absorbency" buffer ranging from 1.0% to 3.5% determined according to specific indicators (size, interconnectedness, lack of substitutes for the services provided, global cross border activity and complexity); to be phased in from 1 January 2016 (pursuant to Article 131 of the CRD IV and Part I, Title II, Chapter I, Section IV of Circular No. 285) becoming fully effective on 1 January 2019. Based on the most recently updated list of globally systemically important institutions (**G-SIIs**) published by the Financial Stability Board (**FSB**) on 23 November 2021, neither the Issuer (nor any member of the Intesa Sanpaolo Group) is a G-SIB and therefore they do not need to comply with a G-SIB capital buffer requirement (or leverage ratio buffer); and

- *Capital buffers for other systemically important banks at a domestic level* (**O-SIIs**): (the category to which Intesa Sanpaolo currently belongs): up to 2.0% as set by the relevant competent authority (reviewed at least annually), to compensate for the higher risk that such banks represent to the financial system (pursuant to Article 131 of the CRD IV and Title II, Chapter 1, Section IV of Circular No. 285. Recently, the Bank of Italy identified Intesa Sanpaolo Group as an O-SII authorised to operate in Italy in 2022, and has imposed on the Intesa Sanpaolo Group a capital buffer for O-SII of 0.75%, to be achieved according to a transitional period, as follows: 0.56% from 1 January 2020, 0.75% from 1 January 2021 and at 0.75% from 1 January 2022.

In addition to the above listed capital buffers, under Article 133 of the CRD IV each Member State may introduce a systemic risk buffer in order to prevent and mitigate long term non-cyclical systemic or macro-prudential risks not covered by the CRD IV Package. The Italian authorities have not introduced such a measure to date.

On 28 April 2021, the Bank of Italy released a consultation paper containing some proposed amendments to Circular No. 285. The Italian regulator is proposing, *inter alia,* to introduce a systematic sectorial risk buffer,

pursuant to Article 133 of the CRD IV. In order to identify an appropriate subset of sectorial exposures to which apply a systematic risk buffer, the Bank of Italy also announced its intention to comply with and, thus, implement the EBA "Guidelines on the appropriate subset of sectorial exposures to which competent or designated authorities may apply a systematic risk buffer in accordance with Article 133(5)(f) of the CRD IV" of 30 September 2020. Although the public consultation ended on 28th June 2021, the date of the final approval and entrance into force of the amended Circular No. 285 with regard to the systemic sectorial risk buffer is still uncertain. Depending on the outcome of the public hearing, additional capital requirements may result.

Failure by an institution to comply with the buffer requirements described above (the **Combined Buffer Requirement**) may trigger restrictions on distributions by reference to the so-called Maximum Distributable Amounts (**MDA**) and the need for the bank to adopt a capital conservation plan and/or take remedial action (Articles 141 and 142 of the CRD IV).

As part of the CRD IV Package transitional arrangements, as implemented by Circular No. 285, regulatory capital recognition of outstanding instruments which qualified as Tier 1 and Tier 2 capital instruments under the framework which the CRD IV Package has replaced that no longer meet the minimum criteria under the CRD IV Package are gradually being phased out. Fixing the base at the nominal amount of such instruments outstanding on 1 January 2013, their recognition was capped at 80% in 2014, with this cap decreasing by 10% in each subsequent year (see, in particular, Part Two, Chapter 14, Section 2 of Circular No. 285).

A further rule introduced by the CRRII, applicable in respect of liabilities issued before 27 June 2019, allows for the "grandfathering" of instruments as, respectively, Additional Tier 1 instruments, Tier 2 instruments and eligible liabilities, even if they do not fully comply with certain requirements of the CRRII. This treatment is available until 28 June 2025 at the latest.

The CRD IV Package also introduced a Liquidity Coverage Ratio (the **LCR**). This is a stress liquidity measure based on modelled 30-day outflows. Commission Delegated Regulation (EU) 2015/61 of 10 October 2014 supplementing the CRR with regard to liquidity coverage requirement for credit institutions (the **LCR Delegated Act**) was adopted in October 2014 and published in the Official Journal of the European Union in January 2015. On 10 October 2018, amendments to the LCR Delegated Act were published in the Official Journal (Commission Delegated Regulation (EU) 2018/1620 of 13 July 2018) and has applied as of April 2020. Most of these amendments are related to the entry into force of the new securitisation framework on 1 January 2019. The Net Stable Funding Ratio (**NSFR**) is part of the Basel III framework and aims to promote resilience over a longer time horizon (one year) by creating incentives for banks to fund their activities with more stable sources of funding on an on-going basis. The NSFR has been introduced as a requirement in the CRR II published in June 2019 and is applicable from June 2021.

Revisions to the CRD IV Package

On 23 November 2016, the European Commission presented a comprehensive package of reforms to further strengthen the resilience of EU banks and investment firms (the **EU Banking Reform Package**). The EU Banking Reform Package amends many existing provisions set out in the CRD IV Package, the BRRD and the SRM Regulation (as such terms are defined below). These proposals were agreed by the European Parliament, the Council of the EU and the European Commission and were published in the Official Journal of the EU on 7 June 2019, entering into force 20 days after, even though most of the provisions are applicable as of 28 June 2021, allowing for a smooth implementation of the new provisions.

The EU Banking Reform Package includes:

(a) revisions to the standardised approach for counterparty credit risk;

(b) changes to the market risk rules which include the introduction first of a reporting requirement, pending the implementation in the EU of the latest changes to the of the FRTB (as defined below) published in January 2019 by the BCBS and the application of own funds requirements as of 1 January 2023;

(c) a binding leverage ratio (and related improved disclosure requirements) introduced as a backstop to risk-weighted capital requirements and set at 3% of an institution's Tier 1 capital;

(d) a binding NSFR (which will require credit institutions and systemic investment firms to finance their long-term activities (assets and off-balance sheet items) with stable sources of funding (liabilities) in order to increase banks' resilience to funding constraints). This means that the amount of available stable funding will be calculated by multiplying an institution's liabilities and regulatory capital by appropriate factors that reflect their degree of reliability over a year. The NSFR will be expressed as a percentage and set at a minimum level of 100%, indicating that an institution holds sufficient stable funding to meet its funding needs during a one-year period under both normal and stressed conditions. The NSFR will apply at a level of 100% at individual and a consolidated level starting from 28 June 2021, unless competent authorities waive the application of the NSFR on an individual basis as of two years after the date of entry into force of the EU Banking Reform Package;

(e) changes to the the large exposures limits, now calculated as the 25% of Tier 1; and

(f) improved own funds calculation adjustments for exposures to SMEs and infrastructure projects.

In particular, on 7 June 2019, the legal acts of the "EU Banking Reform Package" regarding the banking sector have been published on the EU Official Journal. Such measures include, together with the amendments to the BRRD and to SRMR, (i) CRR II amending the CRR as regards the leverage ratio, the net stable funding ratio, requirements for own funds and eligible liabilities, counterparty credit risk, market risk, exposures to central counterparties, exposures to collective investment undertakings, large exposures, reporting and disclosure requirements, and (ii) CRD V amending the CRD IV as regards exempted entities, financial holding companies, mixed financial holding companies, remuneration, supervisory measures and powers and capital conservation measures. The amendments proposed better align the current regulatory framework to international developments in order to promote consistency and comparability among jurisdictions.

Such measures entered into force on 27 June 2019, while a) the CRR II is applicable from 28 June 2021, excluding some provisions with a different date of application (early or subsequent), b) the CRD V and BRRD 2 shall be implemented into national law by 28 December 2020 excluding some provisions which will be applicable subsequently (please see below).

On 29 November 2021, the Legislative Decree No. 182, of 8 November 2021, implementing CRD V and CRR II has been published in the Official Gazette of the Republic of Italy, delegating the Bank of Italy to adopt the secondary implementing provisions within 180 days from the entry into force of the same Decree.

On 30 November 2021, Legislative Decree no. 193 of 8 November 2021, implementing the BRRD 2, was published in the *Gazzetta Ufficiale* and entered into force on 1 December 2021.

Moreover, it is worth mentioning that the Basel Committee on Banking Supervision (**BCBS**) concluded the review process of the models (for credit risk, counterparty risk, operational risk and market risk) for the calculation of minimum capital requirements, including constraints on the use of internal models and introducing the so-called "output floor" (setting a minimum level of capital requirements calculated on the basis of internal models equal, when fully implemented, to 72.5 per cent of those calculated on the basis of the standardised methods). The main purpose is to enhance consistency and comparability among banks. The new framework was finalised for market risk in 2016 and finally revised in January 2019. The new framework for credit risk and operational risk was completed in December 2017. Prior to becoming binding on the European banking system, the European Commission, which conducted a public consultation (closed on 3 January 2020) is assessing the potential impacts on the European economy.

In August 2021, the European Commission required the EBA to update its assessment in the light of Covid-19, which was published in December 2020.
On 27 October 2021, the European Commission published, as part of a legislative package that includes also amendments to CRD IV, the text of the proposal to amend the CRR II (CRR III). In particular, the CRR III legislative initiative aims at implementing in the EU the 2017 Basel Accord and further elements not included in such international framework contributing to financial stability and to the steady financing of the economy in the context of the post-COVID 19 crisis recovery. This general objective can be broken down in four more specific objectives:

(i) to strengthen the risk-based capital framework, without significant increases in capital requirements overall;

(ii) to enhance the focus on ESG risk in the prudential framework;

(iii) to further harmonise supervisory powers and tools;

(iv) to reduce institutions' administrative costs related to public disclosure and to improve access to institutions prudential data; and

(v) to insert in the CRR a dedicated treatment for the indirect subscription of instruments eligible for internal MREL.

Once agreed on the final text between the various stakeholders involved in the legislative process (European Commission, European Parliament and Council of the EU) and once implemented in the Union, these regulatory changes will impact the entire banking system and consequently could determine changes in the capital calculation and increase capital requirements. The analysis carried out by the European Banking Authority (EBA), published in December 2019 upon request of the European Commission, shows that the adoption of the new Basel III criteria would require banks to increase minimum capital requirements (**MCR**) by 23.6 per cent, resulting in a capital deficit of €124 billion. On 21 August 2020, the EBA has been requested by the European Commission to update further its figured and published the new impact analysis on 15 December 2020. The overall impact is presented under two implementation scenarios: the first one updates the impact presented in the previous Call for Advice (**CfA**) reports; the second one considers the additional features requested by the European Commission in its CfA, i.e. applying the SME supporting factors on top of the Basel SME preferential risk weight treatment; maintaining EU credit valuation adjustement (**CVA**) exemptions;exercising the jurisdictional discretion contemplated in the BaselIII framework to exclude the bank-specific historical loss component from the calculation of the capital for operational risk (internal loss multiplier (**ILM**)=1). Under the BaselIII scenario, the steady-state implementation of the overall reform scheduled for January2028 could increase the minimum required capital (MRC) amount, which includes Pillar2 requirements and EU-specific buffers, by +18.5% with respect to the December2019 baseline. Under the EU-specific scenario, steady-state implementation of the final BaselIII framework (i.e. 2028) could increasethe MRC amount by +13.1% with respect to the December 2019 baseline.

The EBA has been conducting regular and ad-hoc quantitative impact studies to assess or monitor the impact of various rules on the EU banking sector.
Regular monitoring exercise includes also a monitoring exercise to assess the impact of the Basel III framework on a sample of EU banks that the EBA conducts in coordination and in parallel with the BCBS (**Basel III Monitoring Exercise**). This exercise assesses the impact of the latest regulatory developments at BCBS level in the following area: (a) global regulatory framework for more resilient banks and banking systems; (b) the Liquidity Coverage Ratio and liquidity risk monitoring tools; (c) the leverage ratio framework and disclosure requirements; (d) the Net Stable Funding Ratio; and (e) the post-crisis reforms.
The impact of the Basel III is assessed using mostly the following measures:

(i) percentage impact on minimum required Tier 1 capital (MRC);

(ii) impact, in basis point, on the current actual Tier 1 capital ratio; and

(iii) Tier 1 capital shortfall resulting from the full implementation of Basel III, namely the capital amount that banks need to fulfil the Basel III MCR.

According to EBA Decision concerning information required for the monitoring of Basel supervisory standards published on 18 February 2021 (**EBA/DC/2021/373**), the Basel III Monitoring Exercise, which is currently only being carried out on a small sample of credit institutions and on a voluntary basis, should be extended to a broader and stable set of credit institutions. In particular, in order to ensure consistency, accuracy and completeness of the data provided, G-SIIs and O-SIIs, as well as credit institutions whose Tier 1 capital equals or exceeds Euro 3 billion, or total assets equal or exceeding Euro 30 billion, should be included in the sample.

Pursuant to EBA Decision, as of 31 December 2021, the Basel III Monitoring Exercise will become mandatory and will be carried out on an annual basis only.

On 4 May 2020, EBA published its final draft technical standards on specific reporting requirements for market risk, in accordance with the mandate set out in the provisions of the CRR II.

In particular, the implementing technical standards (ITS) introduced uniform reporting templates, the template related instructions, the frequency and the dates of the reporting, the definitions and the IT solutions for the specific reporting for market risk. These ITS introduce the first elements of the Fundamental Review of the Trading Book (FRTB) into the EU prudential framework by means of a reporting requirement. Based on the ITS submitted by the EBA, the European Commission adopted the Implementing Regulation no. 2021/453/EU of 15 March 2021 which applied from 5 October 2021. ***Revisions to the Basel III framework***

In December 2017, the Basel Committee published of its final set of amendments to its Basel III framework (known informally as **Basel IV**). Basel IV is expected to introduce a range of measures, including:

(i) changes to the standardised approach for the calculation of credit risk;

(ii) limitations to the use of IRB approaches, mainly banks will be allowed to use the F-IRB approach and the SA, only for specialised lending the A-IRB will be still used.

(iii) a new framework for determining an institution's operational risk charge, which will be calculated only by using a new standardised approach;

(iv) an amended set of rules in relation to credit valuation adjustment; and

(v) an aggregate output capital floor that ensures that an institution's total risk weighted assets (**RWA**) generated by IRB models are no lower than 72.5% of those generated by the standardised approach.

According to the the Basel Committee, Basel IV should be introduced as a global standard from January 2022, with the output capital floor being phased-in (starting at 50% from 1 January 2022 and reaching 72.5% as of 1 January 2025). In this occasion, the Basel Committee postponed the suggested implementation date for the Fundamental Review of the Trading Book (**FRTB**) to January 2022 to allow it to finalise the remaining elements of the framework and align the implementation date with the other Basel IV reforms.

Additional reforms to the banking and financial services sector

In addition to the substantial changes in capital and liquidity requirements introduced by Basel IV and the EU Banking Reform Package there are several other initiatives, in various stages of finalisation, which represent additional regulatory pressure over the medium term and have the potential to impact the Intesa Sanpaolo Group's business and operations. These initiatives include, amongst others, a revised EU securitisation framework. On 12 December 2017, the European Parliament adopted the Regulation (EU) 2017/2402 (the **Securitisation Regulation**) which entered into force in January 2019, while a number of underlying regulatory and implementing technical standards delivered by the EBA and European Securities and Markets Authority are being adopted. The Securitisation Regulation introduced changes to the existing securitisation framework in relation to the nature of the risk retention obligation and due diligence requirements, the introduction of an adverse selection test for certain assets and a new framework for so-called "simple transparent and standardised securitisations" which will receive preferential capital treatment subject to a number of conditions.

On 9 November 2015 the Financial Stability Board (**FSB**) published its final Total Loss-Absorbing Capacity (**TLAC**) Principles and Term Sheet, proposing that G-SIBs maintain significant minimum amounts of liabilities that are subordinated (by law, contract or structurally) to liabilities excluded from TLAC, such as guaranteed insured deposits, derivatives, etc. and which forms a new standard for G-SIBs. The TLAC Principles and Term Sheet contains a set of principles on loss absorbing and recapitalisation capacity of G-SIBs in resolution and a term sheet for the implementation of these principles in the form of an internationally agreed standard. The TLAC Principles and Term Sheet require a minimum TLAC requirement for each G-SIB at the greater of (a) 16% of RWA (as of 1 January 2019) and 18% of RWA (as of 1 January 2022), and (b) 6% of the Basel III Tier 1 leverage ratio requirement (as of 1 January 2019), and

6.75 % (as of 1 January 2022). Liabilities that are eligible for TLAC include capital instruments and instruments that are contractually, statutorily or structurally subordinated to certain "excluded liabilities" (including insured deposits and liabilities that cannot be effectively written down or converted into equity by relevant authorities) in a manner that does not give rise to a material risk of compensation claims or successful legal challenges.

With a view to ensuring full implementation of the TLAC standard in the EU, the EU Banking Reform Package and the BRRD2 (as defined below) introduces minimum requirements for own funds and eligible liabilities (**MREL**) applicable to G-SIIs (global systematically important institutions) with the TLAC standard and to allow resolution authorities, on the basis of bank-specific assessments, to require that G-SIIs comply with a supplementary MREL requirement strictly linked to the resolvability analysis of a given G-SII. Neither the Issuer nor any member of the Intesa Sanpaolo Group has been identified as a G-SIB in the 2019 list of global systematically important banks published by the FSB on 11 November 2020.

The BRRD2 includes important changes as it introduces a new category of banks, so called top-tier banks, being banks which are resolution entities that are not G-SIIs but are part of a resolution group whose total assets exceed EUR 100 billion. ISP is a top-tier bank for this purpose.At the same time, the BRRD2 introduces a minimum harmonised MREL requirement (also referred to as a **Pillar 1 MREL requirement**) which applies to G-SIIs and also top-tier banks. In addition, resolution authorities will be able, on the basis of bank-specific assessments, to require that G-SIIs and top-tier banks comply with a supplementary MREL requirement (a **Pillar 2 MREL requirement**). A subordination requirement is also generally required for MREL eligible liabilities under BRRD2, but exceptions apply.

In order to ensure compliance with MREL requirements, and in line with the FSB standard on TLAC, the BRRD2 provides that in case a bank does not have sufficient eligible liabilities to comply with its MREL requirements, the resultant shortfall is automatically filled up with CET1 Capital that would otherwise be counted towards meeting the combined capital buffer requirement. However, under certain circumstances, BRRD2 envisages a nine-month grace period before restrictions to discretionary payments to the holders of regulatory capital instruments, senior management of the bank and employees take effect due to a breach of the combined capital buffer requirement.

On 12 March 2018, the European Commission published a proposal for a directive on covered bonds (the **CB Directive Proposal**) laying down the conditions that these bonds have to respect in order to be recognised under EU law and a proposal for amendments to art. 129 of the CRR, concerning the prudential treatment of covered bonds. The CB Directive Proposal together with amendments to article 129 of the CRR have been approved and published in the Official Journal On 18 december 2019. Member states have 18 months to implement the directive. The CB Directive is subject to transposition in Italy by means of the Law No. 53/2021 of 22 April 2021. The CB Directive was transposed into the Italian legal framework by means of Legislative Decree 5 November 2021, n. 190 which modified Law 30 April 1999, n.130 and entered into force on December 1st 2021.

ECB Single Supervisory Mechanism

On 15 October 2013, the Council of the European Union adopted Council Regulation (EU) No. 1024/2013 conferring specific tasks on the ECB concerning policies relating to the prudential supervision of credit institutions (the **SSM Regulation**) for the establishment of a single supervisory mechanism (the **Single Supervisory Mechanism** or **SSM**). The SSM Regulation provides the ECB, in conjunction with the national competent authorities of the Eurozone and participating Member States, with direct supervisory responsibility over "banks of significant importance" in those Member States. "Banks of significant importance" include any Eurozone bank in relation to which (i) the total value of its assets exceeds €30 billion or – unless the total value of its assets is below €5 billion – the ratio of its total assets over the national gross domestic product exceeds 20%; (ii) is one of the three most significant credit institutions established in a Member State; (iii) has requested, or is a recipient of, direct assistance from the European Financial Stability Facility or the European Stability Mechanism and/or (iv) is considered by the ECB to be of significant relevance where it has established banking subsidiaries in more than one participating Member State and its cross-border assets/liabilities represent a significant part of its total assets/liabilities. Intesa Sanpaolo S.p.A. and the Intesa Sanpaolo Group have been classified, respectively, as a significant supervised entity and a significant supervised group pursuant to the SSM Regulation and Regulation (EU) No. 468/2014

of the European Central Bank of 16 April 2014 (the **SSM Framework Regulation**) and, as such, are subject to direct prudential supervision by the ECB.

The relevant national competent authorities continue to be responsible, in respect of Intesa Sanpaolo and its subsidiaries, for supervisory functions not conferred on the ECB, such as consumer protection, money laundering, payment services, and supervision over branches of third country banks. The ECB is exclusively responsible for the prudential supervision of Intesa Sanpaolo Group, which includes, *inter alia*, the power to: (i) authorise and withdraw authorisation; (ii) assess acquisition and disposal of holdings; (iii) ensure compliance with all prudential requirements laid down in general EU banking rules; (iv) set, where necessary, higher prudential requirements to protect financial stability under the conditions provided by EU law; (v) ensure compliance with robust corporate governance practices and internal capital adequacy assessment controls and (vi) intervene at the early stages when risks to the viability of a bank exist, in coordination with the relevant resolution authorities. The ECB may exercise options and discretions under the SSM and SSM Framework Regulation in relation to the Intesa Sanpaolo Group.

The Intesa Sanpaolo Group is subject to the provisions of the EU Bank Recovery and Resolution Directive

On 2 July 2014, the directive providing for the establishment of an EU-wide framework for the recovery and resolution of credit institutions and investment firms (Directive 2014/59/EU) (the **BRRD**) entered into force. The BRRD is designed to provide authorities with a credible set of tools to intervene sufficiently early and quickly in an institution that is failing or likely to fail so as to ensure the continuity of the institution's critical financial and economic functions, while minimising the impact of an institution's failure on the economy and financial system. The BRRD contains four resolution tools and powers which may be used alone (except for the asset separation tool) or in combination where the relevant resolution authority considers that (a) an institution is failing or likely to fail, (b) there is no reasonable prospect that any alternative private sector measures would prevent the failure of such institution within a reasonable timeframe, and (c) a resolution action is in the public interest: (i) sale of business - which enables resolution authorities to direct the sale of the firm or the whole or part of its business on commercial terms; (ii) bridge institution - which enables resolution authorities to transfer all or part of the business of the firm to a "bridge institution" (an entity created for this purpose that is wholly or partially in public control); (iii) asset separation - which enables resolution authorities to transfer assets to one or more publicly owned asset management vehicles to allow them to be managed with a view to maximising their value through eventual sale or orderly wind-down (this can be used together with another resolution tool only) and (iv) bail-in - which gives resolution authorities the power to write down certain claims of unsecured creditors of a failing institution and to convert certain unsecured debt claims into shares or other instruments of ownership (i.e. other instruments that confer ownership, instruments that are convertible into or give the right to acquire shares or other instruments of ownership, and instruments representing interests in shares or other instruments of ownership) (the **general bail-in tool**). Such shares or other instruments of ownership could also be subject to any exercise of such powers by a resolution authority under the BRRD.

In addition to the general bail-in tool, the BRRD provides for resolution authorities to have the further power to permanently write-down/convert into shares or other instruments of ownership at the point of non-viability and before any other resolution action is taken (**non-viability loss absorption**). Any shares or other instruments of ownership issued upon any such conversion into shares or other instruments of ownership may also be subject to the application of the general bail-in tool.The point of non-viability under the BRRD is the point at which the relevant authority determines that the institution meets the conditions for resolution (but no resolution action has yet been taken) or that the institution or its group will no longer be viable unless the relevant capital instruments are written-down/converted or extraordinary public support is to be provided.

Resolution authorities have the power to amend or alter the maturity of certain debt instruments issued by an institution under resolution, amend the amount of interest payable under such instruments, the date on which the interest becomes payable (including by suspending payment for a temporary period) and to restrict the termination rights of holders of such instruments. The BRRD also provides for a Member State, after having assessed and exhausted the above resolution tools to the maximum extent possible whilst maintaining financial stability, to be able to provide extraordinary public financial support through additional financial stabilisation tools. Resolution authorities may provide public equity support to an institution and/or take the institution into public ownership. Such measures must be taken in accordance with the EU state aid

framework and will require a contribution to loss absorption from shareholders and creditors via write-down, conversion or otherwise, in an amount equal to at least 8 % of total liabilities (including own funds).

As an exemption from these principles, the BRRD allows for three kinds of extraordinary public support to be provided to a solvent institution without triggering resolution: 1) a State guarantee to back liquidity facilities provided by central banks according to the central banks' conditions; 2) a State guarantee of newly issued liabilities; or 3) an injection of own funds in the form of precautionary recapitalisation. In the case of precautionary recapitalization EU state aid rules require that shareholders and junior bond holders contribute to the costs of restructuring.

The BRRD requires all EU Member States to create a national, prefunded resolution fund (reaching a level of at least 1 % of covered deposits by 2024). The national resolution fund for Italy was created by the Bank of Italy on 18 November 2015 in accordance with Article 78 of Legislative Decree No. 180/2015 implementing the BRRD (the **National Resolution Fund**) and required both ordinary and extraordinary contributions to be made by Italian banks and investment firms, including the Issuer. In the Eurozone, the national resolution funds set up under the BRRD were complemented by the Single Resolution Fund in the relevant Member State (the **SRF** or the **Fund**), set up under the control of the SRB, as of 1 January 2016 and the national resolution funds are being pooled together gradually. The SRF is intended to ensure the availability of funding support while a bank is resolved and will contribute to resolution if, and only after, at least 8 % of the total liabilities (including own funds) of the bank have been subject to bail-in. The SRF is expected to reach a target of around €70 billion (the basis being 1 per cent. of the covered deposits in the financial institutions of the Eurozone). Once this target level is reached, in principle, institutions will have to contribute only if the resources of the SRF are used up in order to deal with resolution action taken by the relevant authorities. The BRRD has been implemented in Italy through the adoption of two Legislative Decrees by the Italian Government, namely, Legislative Decrees No. 180/2015 and 181/2015 (together, the **BRRD Decrees**), both of which were published in the Italian Official Gazette (*Gazzetta Ufficiale*) on 16 November 2015. Legislative Decree No. 180/2015 is a stand-alone law which implements the provisions of BRRD relating to resolution actions, while Legislative Decree No. 181/2015 amends the existing Banking Law (Legislative Decree No. 385 of 1 September 1993, as amended) and deals principally with recovery plans, early intervention and changes to the creditor hierarchy. The BRRD Decrees entered into force on 16 November 2015, save that: (i) the bail-in tool applied from 1 January 2016; and (ii) a "depositor preference" granted for deposits other than those protected by the deposit guarantee scheme and excess deposits of individuals and SME's applied from 1 January 2019.

It is important to note that, pursuant to Article 49 of Legislative Decree No. 180/2015, resolution authorities may not exercise the bail-in powers in relation to secured liabilities, including covered bonds or their related hedging instruments, save to the extent that these powers may be exercised in relation to any part of a secured liability (including covered bonds and their related hedging instruments) that exceeds the value of the assets, pledge, lien or collateral against which it is secured. The BRRD specifically contemplates that *pari passu* ranking liabilities may be treated unequally.

Certain categories of liability are subject to the mandatory exclusions from bail-in foreseen in Article 44(2)(g) of the BRRD. For instance, most forms of liability for taxes, social security contributions or to employees benefit from privilege under Italian law and as such are preferred to ordinary senior unsecured creditors in the context of liquidation proceedings. Article 108 of the BRRD requires that Member States modify their national insolvency regimes such that deposits of natural persons and micro, small and medium sized enterprises in excess of the coverage level contemplated by deposit guarantee schemes created pursuant to the BRRD have a ranking in normal insolvency proceedings which is higher than the ranking which applies to claims of ordinary, unsecured, non-preferred creditors. In addition, the BRRD does not prevent Member States, including Italy, from amending national insolvency regimes to provide other types of creditors, with rankings in insolvency higher than ordinary, unsecured, non-preferred creditors. Legislative Decree No. 181/2015 has amended the creditor hierarchy in the case of admission of Italian banks and investment firms to resolution as well as compulsory liquidation procedures by providing that, as from 1 January 2019, all deposits other than those protected by the deposit guarantee scheme and excess deposits of individuals and SMEs will benefit from a preference in respect of senior unsecured liabilities, though with a ranking which is lower than that provided for individual/SME deposits exceeding the coverage limit of the deposit guarantee scheme. On 25 October 2017 the European Parliament, the Council and the European Commission agreed on elements of the review of the BRRD. As part of this process Article 108 of the was

amended by Directive (EU) 2017/2399. Member States were required to adopt and publish relevant laws, regulations and administrative provisions necessary to comply with the amendment to the creditor hierarchy by 29 December 2018. The recognition of the new class of so called "senior non-preferred debt" has been implemented in the EU through the Directive (EU) 2017/2399 of the European Parliament and of the Council of 12 December 2017 amending BRRD as regards the ranking of unsecured debt instruments in insolvency hierarchy. In Italy, the Directive has been implemented with the law No. 205/2017, modifying article 12bis of the Consolidated Banking Act.

Legislative Decree No. 181/2015 has also introduced strict limitations on the exercise of the statutory rights of set-off normally available under Italian insolvency laws, in effect prohibiting set-off by any creditor in the absence of an express agreement to the contrary.

The BRRD also established that institutions shall meet, at all times, their MREL requirement. Under Article 45 of the BRRD, MREL is to be calculated as the amount of own funds and eligible liabilities expressed as a percentage of total liabilities and own funds of the institution.

Revisions to the BRRD framework

The EU Banking Reform Package included Directive (EU) 2019/879, which provides for a number of significant revisions to the BRRD (known as **BRRD2**). BRRD2 provides that Member States are required to ensure implementation into local law by 28 December 2020 with certain requirements relating to the implementation of the TLAC standard applying from January 2022 while the transitional period for full compliance with MREL requirements. is foreseen until 1 January 2024, with interim targets for a linear build-up of MREL set at 1 January 2022. The EU Banking Reform Package includes, amongst other things:

(a) full implementation of the FSB's TLAC standard in the EU and revisions to the existing MREL regime. Additional changes to the MREL framework include changes to the calculation methodology for MREL, criteria for the eligible liabilities which can be considered as MREL, the introduction of internal MREL and additional reporting and disclosure requirements on institutions;

(b) introduction of a new category of "top-tier" banks, being banks which are resolution entities that are not G-SIIs but are part of a resolution group whose total assets exceed EUR 100 billion;

(c) the introduction of a new moratorium power for resolution authorities and requirements on the contractual stays in resolution; and

(d) amendments to the article 55 regime in respect of the contractual recognition of bail-in.

Changes to the BRRD under BRRD2 will impact how credit institutions and investment firms are managed as well as, in certain circumstances, the rights of creditors.

On 1 December 2021, Legislative Decree no. 193 of 8 November 2021 (**Decree No. 193**), implementing the BRRD2 into the Italian jurisdiction, entered into force, amending Legislative Decree no. 180/2015 (**Decree no. 180**) and the Banking Law.

The amendments introduced to Legislative Decree no. 180/2015 aligned the Italian regulatory framework regulating MREL, and the criteria according to which it is determinated, to the provisions set forth in BRRD2.

In particular, the amended version of Decree No. 180 clearly envisages that MREL shall be determined by the Bank of Italy on the basis of the following criteria:

(a) the need to ensure that the application of the resolution tools to the resolution entity is adequate to meet the resolution's objectives;

(b) the need to ensure that the resolution entity and its subsidiaries belonging to the same corporate group subject to resolution have sufficient own funds and eligible assets to ensure that, if the bail-in tool or write-down or conversion powers, respectively, were to be applied to them, looses could be absorbed and that it is possibile to restore the total capital ratio and, as applicable, the leverage ratio

to a level necessary to enable them to continue to comply with the conditions for authorisation, according to the regulatory framework currently in force, even if the resolution plan envisages the possibility for certain classes of eligible liabilities to be excluded from bail-in or to be transferred in full to a recipient under a partial transfer;

(c) the size, the business model, the funding model and the risk profile of the entity; and

(d) the extent to which the failure of the entity would have an adverse effect on financial stability, due to the interconnectedness of the entity with other institutions or entities or with the rest of the financial system.

Intesa Sanpaolo Group is subject to the provisions of the Regulation establishing the Single Resolution Mechanism

On 19 August 2014, the Regulation (EU) No. 806/2014 establishing a Single Resolution Mechanism (the **SRM Regulation**) entered into force. The SRM Regulation became operational on 1 January 2016. There are, however, certain provisions including those concerning the preparation of resolution plans and provisions relating to the cooperation of the SRB with national resolution authorities, which entered into force on 1 January 2015. The SRM Regulation was subsequently updated with the EU Banking Reform Package in June 2019. The SRM Regulation, which complements the SSM (as defined above), applies to all banks supervised by the SSM. It will mainly consist of the SRB and the SRF.

Regulation (EU) No. 2019/877 of the European Parliament and the Council of 20 May 2019 (**SRM II Regulation**) amends the SRM Regulation as regards the loss-absorbing and recapitalization of credit institutions and investments firms.

The Single Resolution Mechanism framework ensures that, instead of national resolution authorities, there will be a single authority – i.e. the SRB – which takes all relevant decisions for the resolution of banks being supervised by the SSM and part of the Eurozone. In line with the changes to BRRD2 described above, revisions to the provisions of the SRM Regulation (in relation to MREL) are due to change in due course.

In such context, it is worth to mention the process to review started by the European Commission in November 2020 the Crisis Management and Deposit Insurance (**CMDI**) framework. Following this revision, new and different legal and regulatory requirements may apply to the Group, in particular the intention of the European legislator is to amend the BRRD, the SRMR and the Deposit Guarantee Schemes Directive (**DGSG**).

Regulatory and supervisory framework on non-performing exposures

Among the measures adopted at European level in order to reduce the amount of non-performing exposures in bank's balance sheets within adequate levels, are worth mentioning the followings:

Guidance to banks on non-performing loans published by ECB on 20 March 2017 and Addendum to the Guidance to banks on non-performing loans published by ECB on 15 March 2018: the NPL guidance contains recommendations and lays out the bank's approach, processes and objectives regarding the effective management of the exposures. The guidance addresses all non-performing exposures (NPEs), as well as foreclosed assets, and also touches on performing exposures with an elevated risk of turning non-performing, such as "watch-list" exposures and performing forborne exposures. According to the guidance, the banks need to establish a strategy to optimize their management of NPLs based on a self assessment of the internal capabilities to effectively manage; the external conditions and operating environment; and the impaired portfolios specifications.

On 15 March 2018, the ECB published the Addendum to the Guidance on NPL which sets out supervisory expectations for the provisioning of exposures reclassified from performing to nonperforming exposures (NPEs) after 1 April 2018 (the ECB Addendum). In addition, the ECB's bank-specific supervisory expectations for the provisioning of the stock of NPLs (before 31 March 2018), was set out in its 2018

supervisory review and evaluation process (SREP) letters and the ECB will discuss any divergences from these prudential provisioning expectations with institutions as part of future SREP exercises.

On 22 August 2019, the ECB decided to revise its supervisory expectations for prudential provisioning of new non-performing exposures. The decision was made after taking into account the adoption of Regulation (EU) 2019/630 amending the CRR (Regulation (EU) No 575/2013) as regards minimum loss coverage for non-performing exposures published in the Official Journal of the EU on 25 April 2019, also known as the "Pillar 1 backstop Regulation", which introduces Pillar 1 provisioning requirements, following principles similar to those already guiding the finalisation of the ECB Addendum.

The initiatives that originate from the ECB are strictly supervisory (Pillar II) in nature. In contrast, the European Commission's requirement is legally binding (Pillar I). Therefore, the above mentioned guidelines result in three "buckets" of NPEs based on the date of the exposure's origination and the date of NPE's classification:

- Loans classified as NPEs before 31 March 2018 (Pillar II - Stock): 2/7 years vintage buckets for unsecured/secured NPEs, subject to supervisory coverage recommendations and phase-in paths as communicated in SREP letters;

- Loans originated before 26 April 2019 (Pillar II – ECB Flows) and classified as NPEs after 31 March 2018: 3/7/9 years vintage buckets for unsecured/secured other than by immovable property/secured by immovable property, progressive path to 100%. NPEs guaranteed or insured by an official export credit agency are subject to a special treatment, i.e. coverage expectation of 100% is applicable to export credit exposures after more than 7 years of NPE status;

- Loans originated on or after 26 April 2019 (Pillar I – CRR Flows) and classified as NPEs: 3/7/9 years vintage buckets for unsecured/secured other than by immovable property/secured by immovable property, progressive path to 100%. NPEs guaranteed or insured by an official export credit agency are subject to a special treatment, i.e. coverage expectation of 100% is applicable to export credit exposures after more than 7 years of NPE status.

Action plan to address the problem of non-performing loans in the European banking sector published by the European Council on 11 July 2017: the action plan outlines an approach based on a mix of four policy actions: the bank supervision; the reform of insolvency and debt recovery frameworks; the development of secondary markets for NPLs; promotion of the banking industry restructuring. An updated Action Plan was published in December 2020

Guidelines on management of non-performing and forborne exposures published by the EBA on 31 October 2018: the Guidelines aim to ensure that credit institutions have adequate tools and frameworks in place to manage effectively their non-performing exposures (NPEs) and to substantially reduce the presence of NPEs on the balance sheets. Only for credit institutions with a gross NPL ratio above 5%, the EBA asked to introduce specific strategies, in order to achieve a reduction of NPEs, and governance and operational requirements to support them.

Guidelines on disclosure of non-performing and forborne exposures published by the EBA on 17 December 2018: in force since 31 December 2019, the Guidelines set enhanced disclosure requirements and uniform disclosure formats applicable to credit institutions' public disclosure of information regarding nonperforming exposures, forborne exposures and foreclosed assets.

Regulation (EU) 2019/630 amending CRR as regards minimum loss coverage for non-performing exposures: the Regulation establishes, in the context of Pillar I, the prudential treatment of the non-performing exposures for loans originated prior to 26 April 2019, requiring a deduction from own funds where NPEs are not sufficiently covered by provisions or other adjustments. The Regulation's purpose is to encourage a timely and proactive management of the NPEs. Loans are divided in vintage buckets of 3/7/9 years and a progressive coverage path is applied for each bucket. A 100% coverage is applicable to:

(i) unsecured exposures from the third year after the classification as NPE, (ii) exposures secured by immovable collateral and residential loans guaranteed by an eligible protection provider as defined in CRR, from the ninth year after the classification as NPE; and (iii) secured exposures, from the seventh year after the classification as NPE.

Directive (EU) 2021/2167 on credit servicers, credit purchasers and the recovery of collateral (COM/2018/0135): the proposal is aimed to achieve (i) a better management of NPLs by increasing the efficiency of debt recovery procedures through the availability of a distinct common accelerated extragjudicial collateral enforcement procedure (**AECE**); (ii) the development of secondary markets for NPLs in the EU's markets by harmonising the regulatory regime for credit servicers and credit purchasers.The European Commision finalised and published on 8 December 2021, in the Official Journal of the European Union, the Directive No. 2021/2167 on credit services and credit purchasers (the **NPLs Directive**). The NPLs Directive entered into force on the twentieth day following that of its publication in the Official Journal (i.e. 28 December 2021) and is expected to be implemented by the Member States by 29 December 2023.

Opinion on the regulatory treatment of non-performing exposure securitisations published by EBA on 23 October 2019: the Opinion recommends to adapt the CRR and the Regulation (EU) 2017/2401 (**Securitisation Regulation**) to the particular characteristics of NPEs by removing certain constraints imposed by the regulatory framework on credit institutions using securitisation technology to dispose of NPE holdings. In preparing its proposal to the European Commission, the EBA outlined the fact that the securitisations can be used to enhance the overall market capacity to absorb NPEs at a faster pace and larger rate than otherwise possible through bilateral sales only, as a consequence of securitisations' structure in tranches of notes with various risk profiles and returns, which may attract a more diverse investor pool with a different Risk Appetite.
On 24 July 2020, as part of the Capital Markets Recovery Package, the European Commission presented amendments to review, *inter alia*, some regulatory constraints in order to facilitate the securitisation of non-performing loans (i.e. increasing the risk sensitivity for NPE securitisations by assigning different risk weights to senior tranche). After the approval by the European Parliament at the end of March, on 6 April 2021, Regulation (EU) 2021/557 which introduces amendments to the Securitisation Regulation and Regulation (EU) 2021/558 amending Regulation (EU) 2013/575 as regards adjustments to the securitisation framework to support the economic recovery in response to the COVID-19 crisis were published on the Official Journal of the European Union. Both Regulations entered into force on 9 April 2021.
In addition, the European Commission published in December 2020 a new Action plan on tackling NPLs. In order to prevent a renewed build-up of NPLs on banks' balance sheets as a result of the Covid-19 Pandemic, the European Commission proposed a series of actions with four main goals: (i) further develop secondary markets for distressed assets (in particular by finalising the Directive on credit servicers, credit purchasers and the recovery of collateral; establishing a data hub at European level and reviewing the EBA templates to be used during the disposal of NPLs); (ii) reform the EU's corporate insolvency and debt recovery legislation; (iii) support the establishment and cooperation of national asset management companies at EU level; (iv) introduce precautionary public support measures, where needed, to ensure the continued funding of the real economy under the EU's Bank Recovery and Resolution Directive and State aid frameworks.
To further improve the transparency and efficiency of secondary market for NPLs, on 16 June 2021 the European Commission released a public consultation aimed at identifying and gathering information on remaining obstacles to the proper functioning of secondary markets for NPLs as well as possible enabling actions that could be taken to foster these markets by improving the quantity, quality and comparability of NPL data. The public consultation ended on 8 September 2021.

Measures to counter the impact of the "COVID-19" virus

European and national authorities have undertaken several measures to support the banking and financial market to counter the economic effects of COVID-19.

On 10 March 2020, through an addendum to the 2019 credit agreement between the Italian Banking Association (ABI) and the Business Associations, the possibility of requesting suspension or extension was extended to loans granted until 31 January 2020. The moratorium refers to loans to micro, small and medium-sized companies affected by the COVID-19 outbreak. The capital portion of loan repayment

instalments may be requested to be suspended for up to one year, later extended until 30 June 2021. The suspension is applicable to medium/long-term loans (mortgages), including those concluded through the issue of agricultural loans, and to property or business assets leasing transactions. In the latter case, the suspension concerns the implicit capital instalments of the leasing. On 21 April 2020, through an agreement entered into with the consumer associations, the moratorium was extended to credit to households, including the suspension of the principal portion of mortgage-backed loans and unsecured loans repayable in instalments.

On 11 March 2020, ESMA, considering the spread of COVID-19 and its impact on the EU financial markets, issued four recommendations in the following areas: (1) business continuity planning, (2) market disclosure, (3) financial reporting and (4) fund management.

1. Business Continuity Planning: ESMA has recommended all financial market participants to be ready to apply their contingency plans to ensure operational continuity in line with regulatory obligations.

2. Market disclosure: issuers should disclose as soon as possible any relevant significant information concerning the impacts of COVID-19 on their fundamentals, prospects or financial situation in accordance with their transparency obligations under the Regulation (EU) No. 596/2014 (MAR), as a disclosure obligation contained in Article 17, paragraph 1 of the MAR, pursuant to which issuers are required to disclose to the public without delay any inside information directly concerning them.

3. Financial reporting: ESMA has recommended issuers to provide transparency on the actual and potential impacts of COVID-19, to the extent possible based on both a qualitative and quantitative assessment on their business activities, financial situation and economic performance in their 2019 year-end financial report if these have not yet been finalised or otherwise in their interim financial reporting disclosures.

4. Fund Management: ESMA has encouraged fund managers to continue to apply the requirements on risk management and to react accordingly.

The ECB, at its monetary policy meeting held on 12 March 2020, decided to adopt a comprehensive set of monetary policy measures, consisting of three key elements: first, safeguarding liquidity conditions in the banking system through a series of favourably-priced longer-term refinancing operations (LTROs); second, protecting the continued flow of credit to the real economy through a fundamental recalibration of targeted longer-term refinancing operations (TLTROs); and, third, preventing tightening of financing conditions for the economy in a pro-cyclical way via an increase in the asset purchase programme (APP).
As regards TLTRO, the Governing Council decided to apply considerably more favourable terms during the period from June 2020 to June 2021 to all TLTRO III operations outstanding during that time. Throughout this period, the interest rate on these TLTRO III operations will be 25 basis points below the average rate applied in the Eurosystem's main refinancing operations.

The Governing Council also decided to add a temporary envelope of additional net asset purchases of €120 billion until the end of the year, ensuring a strong contribution from the private sector purchase programmes On 18 March 2020, this was followed by the announcement of the Euro 750 Billion Pandemic Emergency Purchase Program (PEPP), increased with a further Euro 600 billion on 4 June 2020.

On 12 March 2020, the ECB Banking Supervision leg, the Single Supervisory Mechanism (SSM), published the first supervisory response to provide banks with a temporary capital and operational relief. According to the ECB statements: i) banks are allowed to operate temporarily below the level of capital defined by the Pillar 2 Guidance (P2G), the capital conservation buffer (CCB) and the liquidity coverage ratio (LCR) to release resources for financing households and undertakings; ii) the ECB encourages also national macroprudential authorities to relax the countercyclical capital buffer (CCyB); iii) banks are allowed to partially use capital instruments that do not qualify as Common Equity Tier 1 (CET1) capital to meet the Pillar 2 Requirements (P2R), for example Additional Tier 1 (AT1) or Tier 2 instruments; iv) banks will discuss with the ECB further individual measures, such as modified timetables, processes and deadlines (e.g. for on-site inspections or remedial actions); v) flexibility will be granted for the application

of the ECB Guidance to banks on non-performing loans to adjust to bank's specific situation due to COVID-19.

Among the various measures adopted by the Italian government to address the epidemiological emergency due to COVID-19 outbreak, on 17 March 2020 Law Decree No. 18 (Cura Italia Decree) was adopted. The Cura Italia Decree has introduced special measures derogating from the ordinary proceeding of the Guarantee Fund for SMEs in order to simplify the requirements for access to the guarantee and strengthen the intervention of the Guarantee Fund for SMEs itself, as well as the possibility of transforming the DTA relating to losses that can be carried forward but not yet deducted and to the amount of the ACE ("Aiuto alla Crescita Economica") notional return exceeding the total net income, to the extent of 20 per cent of the impaired loans sold by 31 December 2020.

On 20 March 2020, the ECB announced additional measures (in addition to those already undertaken on 12 March 2020 on temporary capital and operational relief for banks) to ensure that its directly supervised banks can continue to fulfil their role to fund households and corporations amid the Covid-19 economic shock to the global economy. The ECB published also a detailed FAQ on the measures adopted with the aim of updating it as needed. In particular, the ECB recommends to:

- give banks further flexibility in prudential treatment of loans backed by public guarantees, by extending to them the preferential treatment foreseen in its Guidance for NPLs for loans guaranteed or insured;

- encourage banks to avoid excessive procyclical effects when applying the IFRS 9 international accounting standard;

- activate capital and operational relief measures announced on 12 March 2020.

On 25 March 2020, the EBA and ESMA published detailed statements to address IFRS 9 accounting issues due to the Covid-19 outbreak and linked to the exceptional measures taken by banks and Governments to address the situation, which affected compliance with the EBA Guidelines on the definition of default (DoD) and forbearance/past-due classifications of loans.

The EBA statement of 25 March explained the functioning of the prudential framework in relation to the exposures in default, the identification of forborne exposures and impaired exposures in accordance with IFRS 9. In particular, EBA has clarified some additional aspects of the operation of the prudential framework concerning:

i. the classification of exposures in default;

ii. the identification of forborne exposures;

iii. the accounting treatment of the aforesaid exposures

Specifically, the EBA repeated the concept of flexibility in the application of the prudential framework, clarifying that an exposure should not be automatically reclassified as (i) exposure in default, (ii) forborne exposure, or (iii) impaired exposure under International Financial Reporting Standard - IFRS9, in case of adoption of credit tolerance measures (such as debt moratorium) by national governments.

The ESMA statement of 25 March 2020 provided guidance on the application of IFRS 9 (Financial Instruments) addressed to issuers and auditors with regard to the calculation of expected losses and related disclosure requirements, in particular, as regards, the suspension (or deferral) of payments established for credit agreements (e.g. moratorium on debt) that impact the calculation of Expected Credit Loss (ECL) under the principles set forth in IFRS 9. On 20 May 2020, ESMA published a Public Statement addressing the implications of the COVID-19 pandemic on the half-yearly financial reports of listed issuers (the **Public Statement**). The Public Statement provided recommendations on areas of focus identified by ESMA and highlighted: i) the importance of providing relevant and reliable information, which may

require issuers to make use of the time allowed by national law to publish half-yearly financial reports while not unduly delaying the timing of publication; ii) the importance of updating the information included in the latest annual accounts to adequately inform stakeholders of the impacts of COVID-19, in particular in relation to significant uncertainties and risks, going concern, impairment of non-financial assets and presentation in the statement of profit or loss; and iii) the need for entity-specific information on the past and expected future impact of COVID-19 on the strategic orientation and targets, operations, performance of issuers as well as any mitigating actions put in place to address the effects of the pandemic. The Public Statement was conceived to be applicable also to financial statements in other interim periods when IAS 34 Interim Financial Reporting is applied. It called on the management, administrative and supervisory bodies, including audit committees, of issuers and, where applicable, their auditors, to take due consideration of the recommendations included within the statement.

On 27 March 2020, the Basel Committee's oversight body, the Group of Central Bank Governors and Heads of Supervision (GHOS), has deferred Basel III implementation to increase operational capacity of banks and supervisors to respond to the immediate financial stability priorities resulting from the impact of the Covid - 19 on the global banking system.

The measures endorsed by the GHOS comprise the following changes to the implementation timeline of the outstanding Basel III standards:

- the implementation date of the Basel III standards finalised in December 2017 has been deferred by one year to 1 January 2023. The accompanying transitional arrangements for the output floor has also been extended by one year to 1 January 2028.

- the implementation date of the revised market risk framework finalised in January 2019 has been deferred by one year to 1 January 2023.

- the implementation date of the revised Pillar 3 disclosure requirements finalised in December 2018 has been deferred by one year to 1 January 2023.

On 27 March 2020, the European Central Bank published a recommendation addressed to significant banks to refrain from paying dividends and from share buy-backs aimed at remunerating shareholders for the duration of the economic shock related to COVID-19. ECB has decided to extend the recommendation on dividends until 1 January 2021 with the new recommendation ECB/2020/35 that repeals the previous Recommendation ECB 2020/19 of March 27 2020.

On 15 December 2020, the ECB recommended that banks exercise extreme prudence on dividends and share buy-backs. To this end, the ECB asked all banks to consider not distributing any cash dividends or conducting share buy-backs, or to limit such distributions, until 30 September 2021. Given the persisting uncertainty over the economic impact of the COVID-19 pandemic, the ECB expects dividends and share buy-backs to remain below 15 per cent. of the cumulated profit for 2019-2020 and not higher than 20 basis points of the CET1 ratio. Banks that intend to pay dividends or buy back shares need to be profitable and have robust capital trajectories. They are expected to contact their Joint Supervisory Team to discuss whether the level of intended distribution is prudent. The recommendation remained valid until the end of September 2021. On 23 July 2021, the ECB decided not to extend dividend recommendation beyond September 2021 with the new Recommendation ECB/2021/31. In particular, the ECB considered that the reduced economic uncertainty allows the thorough supervisory assessment of the prudence bank’s plans to distribute dividends and conduct share buybacks on an individual basis with a careful forward-looking assessment of capital plans in the context of the normal supervisory cycle.
On 1 April 2020, the ECB provided banks with further clarifications on the use of forecasts for the Expected Credit Loss (ECL) calculations under IFRS 9, after having invited banks to opt, if not done before, for applying the IFRS 9 five-year transitional arrangements included in the CRR to mitigate the First Time Application (FTA) capital impact of the new accounting principle.
On 2 April 2020, the EBA published more detailed guidance on the criteria to be fulfilled by legislative and non-legislative moratoria applied before 30 June 2020. The Guidelines acknowledged that Member States have implemented a broad range of support measures in order to minimise the medium- and long-term economic impacts of the efforts taken to contain the COVID-19 pandemic. In light of this, the EBA

Guidelines clarify several aspects of payment moratoria, such as that they do not automatically trigger the classification as forborne or distressed restructuring if the measures taken are based on the applicable national law or on an industry or sector-wide private initiative agreed and applied broadly by the relevant credit institutions. In June 2020, the EBA further extended the application date of its Guidelines by three months, from until 30 September 2020, and on the 21 September, communicated its phasing-out. However, on 2 December 2020 the Guidelines were reactivated until 31 March 2021.

On 29 January 2021, the EBA published the "Report on the implementation of selected COVID-19 policies", which contains a series of clarifications in the form of questions and answers (Q&A) on the interpretation of the EBA Guidelines, in particular with regard to the overall duration of the deferred payment to fall within the scope of the EBA Guidelines on moratoriums. However, the clarifications did not concern the hypothesis in which the moratorium pursuant to law, even if granted before 31 September, was extended for more than 9 months due to a subsequent law.

In continuity with the Cura Italia Decree, Law Decree no. 23 of 8 April 2020 (Liquidity Decree) was issued, a further measure deemed necessary to support Italian entrepreneurship. The Liquidity Decree, in addition to providing an additional guarantee managed by SACE Simest (SACE), a company of the Cassa Depositi e Prestiti group, aims to further strengthen the Guarantee Fund for SMEs by redrawing its rules for accessing,by including also companies with no more than 499 employees and professionals, as well as increasing the guarantee coverage percentages already provided by Article 49 of the Cura Italia Decree (provision that is repealed). In the wake of the latter provision, the Liquidity Decree makes further exceptions to the ordinary rules of the Guarantee Fund for SMEs, which will be applicable until 31 December 2020. The Government is going to extend such measures until 31 December 2021 (the prorogation will be provided by the Law Decree of the end of April 2021).

On 28 April 2020, the European Commission published a legislative proposal for amending the CRR to ease banking activity during the Covid-19 emergency and ensure the flow of loans to households and businesses..

The measures, both temporary and exceptional, have been promoted to mitigate the immediate impact of Covid-19 related developments, which imply:

- the reintroduction of prudential filters to manage the current situations of strong turbulence in the markets and to neutralize the effects of losses and gains on the value of debt securities held in the portfolio available for sale as if the securities were valued at cost instead of at fair value;

- a temporary approach to market risk in order to allow supervisors to implement appropriate measures to avoid automatic increases in the quantitative addendum (in particular over the period January 2020 and December 2021);

- more favourable treatment of government guarantees granted during the crisis, aligning the calendar provisioning applied to positions with government guarantees with the calendar provisioning applied to credits guaranteed by Export Credit Agencies;

- early application of certain measures provided for in CRR2: i) extension of the SME Supporting Factor; ii) introduction of the Infrastructure Supporting Factor; iii) improved weighting calibration for loans guaranteed by salary/pension share disposals; iv) improved prudential treatment of software;

- an adaptation of the timeline of the application of international accounting standards to banks' capital (IFRS9 phase-in arrangements);

- the postponement of the date of application of the additional reserve requirement for the leverage ratio of systemic banks (“G-SIB buffer”);

- a change in the way of excluding certain exposures from the calculation of the leverage ratio;

- the introduction of a transitional regime for EU Sovereign exposures in the currency of another EU Member State.

Following the positive vote of the plenary session of the European Parliament (19 June 2020), the "CRR Quick-Fix" has been published in the European Official Journal on 26 June and has entered into force the following day (27 June 2020).

On 19 May 2020, the Law Decree No. 34 of 19 May 2020 (the so-called "Decreto Rilancio") was published in the Official Journal, introducing urgent measures in the areas of healthcare, work and economic support, as well as social policies, related to the epidemiological emergency caused by COVID-19.

Such decree has been signed in the Law No. 77/2020. It introduced some provisions (valid until 31 December 2020) which are aimed at strengthening SME's capital, thus preventing their insolvency risk. Particular reference is made to two public tools: "Patrimonio PMI" fund, which is aimed at subscribing new bonds issued by SME corporates with Euro 10 million turnover, which have been impacted by COVID-19 a turnover reduction of 33 per cent. in April and May 2020 (two tax credits are granted to other investors <20 per cent. of the investment> in such corporates, and to the corporates above indicated which have suffered losses <50 per cent. of the losses which exceed the 10 per cent. of the Net worth, but in the limit of the 30 per cent. of the capital increase>); and the so called "Patrimonio rilancio" (Dedicated assets within CDP) which is aimed at subscribing new bonds (mainly convertible bonds) and shares in order to support real economy.

In August 2020 the Government approved the Law Decree "August" (Law Decree 14 August 2020, No. 104, converted into Law 13 October 2020, No. 126) containing several urgent measures in support of health, work and economy, linked to the COVID-19 emergency. The measures introduced by the Law regard the extension of the moratorium for SME until 31 January 2021 (formerly 30 September 2020) and, for tourist sector, until 31 March 2021. Such prorogation operate automatically, unless expressly waived by the beneficiary company. They also provide technical changes to the possibility (Article 55, Law Decree Cura Italia No. 18/2020) to convert the DTAs into tax credits (application to special regimes, such as consolidated and transparency). The decree above mentioned also widens the scope of the public guarantee, too, extending the FCG guarantee scope to companies which already got a prorogation of the guarantee due to temporary difficulties of the beneficiary and including financial intermediation and holding financial assets activities in the 30k guaranteed loans. It also extends SACE guarantee scope also to companies admitted to the arrangement procedure with business continuity (or certified plans and restructuring agreements) if their exposures are not classifiable as non performing exposures (at the date of submission of the application), they don't present amounts in arrears and the lender can reasonably assume the full repayment of the exposure at maturity.

In October and November 2020, the Council of Ministers approved the "Relieves" Law Decree (Law Decree 28 October 2020, No. 137) and the "Relieves 2" Law Decree (Law Decree 9 November 2020, No. 149) which provides further urgent measure regarding health protection, support to workers and production sectors, justice and safety linked to COVID-19 epidemic. Main measures introduced by the Law are a non-refundable aid for enterprises whose sectors have been restricted and the prorogation of "rental" Tax credit to October-December period and extension to enterprises with turnover exceeding Euro 5 million and which have had a 50 per cent. reduction of turnover. In March 2021, the Council of Ministers approved the "Support" Law Decree (Law Decree 22 March 2021, No. 41) which provides further urgent measure regarding health protection, support to workers and production sectors linked to COVID-19 pandemic. Such decree introduces a new non-refundable aid for enterprises and professionals which have had a 30 per cent. reduction of turnover.

Finally, among the measures adopted in response to the COVID-19 emergency, we recall the Capital Markets Recovery Package proposal (so-called "quick fix") published by the European Commission in July, which proposes targeted amendments to the MiFID, the Prospectus Regulation as well as the Securitization Regulation. The package aimed to provide European economies with some relief to face the crisis emerging from the COVID-19 pandemic.
As to MiFID2, the proposal includes targeted amendments on: i) investor protection, ii) commodity derivatives and iii) research regime for SMEs.

As to Prospectus Regulation, the amendments introduced in particular a new type of short-form prospectus to facilitate the raising of capital in public markets.
As to Securitization Regulation, in addition to a review of the regulatory constraints to the securitisation of NPEs, the amendments in particular also extends the preferential treatment to all synthetic on-balance sheet securitisation that fulfil the simple, standardised and transparent (STS) criteria in order to help banks free up capital and promote the financing of the real economy, in particular to SMEs.

Amendments to the Prospectus Regulations – approved by the European Parliament on 26 February 2020 and included in Regulation (EU) 2021/337 – entered into force on 18 March 2021.

The MiFID amendments, voted on 26 February as well, as being part of a Directive and included in Regulation (EU) 2021/338, had to be transposed into national laws by 28 November 2021 and are to be applied from 28 February 2022.

Finally, following the vote by the European Parliament at the end of March 2021, on 6 April 2021, Regulation (EU) 2021/557, which introduces amendments to the Securitisation Regulation, and Regulation (EU) 2021/558, amending Regulation (EU) 2013/575 as regards adjustments to the securitisation framework to support the economic recovery in response to the COVID-19 crisis, were published on the Official Gazette of the European Union. Both Regulations entered into force on 9 April 2021.

Covered Bond Legislative Package

On 18 December 2019, Directive (EU) 2019/2162 and Regulation (EU) 2019/2160 amending the CRR have been published in the Official Journal of the European Union. They will apply from 8 July 2022.

Directive (EU) 2019/2162 lays down rules on the issuance requirements, structural features, public supervision and publication obligations for covered bonds. Compared with the UCITS, Directive (EU) 2019/2162 provides for a number of more complex structural requirements, such as the dual recourse and the bankruptcy remoteness tools. The Directive at hand also establishes specific requirements for a liquidity reserve and introduces the possibility of joint funding and intragroup pooled covered bond structures in order to facilitate the issuance of covered bonds by small credit institutions. Moreover, the Directive provides the authorities of the Member States with the task of monitoring compliance of covered bond issuances with the abovementioned requirements and regulates the conditions for obtaining the authorisation to carry out the activity of issuance of covered bonds in the context of a covered bond programme.

Regulation (EU) 2019/2160 introduces some amendments to Article 129 of the CRR, providing for additional requirements for covered bonds to be eligible for the relevant preferential treatment. In particular, the Regulation introduces a rule allowing exposures to credit institutions rated in credit quality step 2 up to a maximum of 10% of the total exposure of the nominal amount of outstanding covered bonds of the issuing institution, without the need to consult the EBA. The Regulation also requires a minimum level of overcollateralization in order to mitigate the most relevant risks arising in the case of the issuer's insolvency or resolution.

Moreover, several additional changes to the LCR Delegated Regulation are proposed in order to align the LCR Delegated Regulation with Article 129 of the CRR, as amended by Regulation (EU) 2019/2160. The consultation remained opened until 24 November 2020.

On 8 May 2021, the European Delegated Law 2019 has entered into force. It delegates the Italian Government to implement – inter alia – Directive (EU) 2019/2162. According to the European Delegated Law 2019:

- the Bank of Italy is the competent authority for the supervision on covered bonds;
- the implementing provisions shall provide for the exercise of the option granted by Article 17 of Directive (EU) 2019/2162, allowing for the issue of covered bonds with extendable maturity

structures; and

- the implementing provisions shall grant the Bank of Italy with the power to exercise the option to set for covered bonds a minimum level of overcollateralization lower than the thresholds set out under Article 1 of Regulation (EU) 2019/2162 (i.e. 2% or 5% depending on the assets included in the cover pool).

The CB Directive was transposed into the Italian legal framework by means of Legislative Decree 5 November 2021, n. 190 which modified Law 30 April 1999, n.130 and entered into force on December 1st 2021.

On 30 November 2021 the Legislative Decree no. 190 of 5 November 2021 (the **Decree 190/2021**) implementing Directive (EU) 2019/2162 was published in the Official Gazette No. 285 of 30 November 2021 and entered into force on 1 December 2021. In this respect, it is worth mentioning that the national legislator chose to exercise the following options provided by Directive (EU) 2019/2162: (i) the possibility not to apply the liquidity requirement of the cover pool limited to the period covered by the liquidity requirement provided for in Delegated Regulation (EU) 2015/61; (ii) the possibility of allowing the issuance of covered bonds with extendable maturity structures; (iii) the possibility of allowing the calculation of the liquidity requirement of the cover pool in case of programs with extendable maturity by taking as a reference the final maturity date for the payment of principal.

Moreover, the Decree 190/2021 designates the Bank of Italy as the competent authority for the public supervision of the covered bonds, which is entrusted with the issuing of the implementing regulations by 8 July 2022. In these regulations, the Bank of Italy will also have to assess whether to exercise the option provided for in the Directive that allows Member States to lower the threshold of the minimum level of overcollateralization.

The national legislator chose to exercise the following options provided by Directive (EU) 2019/2162: (i) the possibility not to apply the liquidity requirement of the cover pool limited to the period covered by the liquidity requirement provided for in Delegated Regulation (EU) 2015/61; (ii) the possibility of allowing the issuance of covered bonds with extendable maturity structures; (iii) the possibility of allowing the calculation of the liquidity requirement of the cover pool in case of programs with extendable maturity by taking as a reference the final maturity date for the payment of principal. Moreover, the draft Legislative Decree designates the Bank of Italy as the competent authority for the public supervision of the covered bonds, which is entrusted with the issuing of the implementing regulations by 8 July 2022. In these regulations, the Bank of Italy will also have to assess whether to exercise the option provided for in the Directive that allows Member States to lower the threshold of the minimum level of overcollateralisation.

Each of the Securities (other than the Public Securities) shall comply, as of the relevant Selection Date, with the following characteristics set out under the MEF Decree:

(a) the issuing bank shall have its registered office in an Eligible State or in a State which attract a risk weight factor equal to 0 per cent. under the "standardised approach" to credit risk measurement; and

(b) such Securities shall have a residual maturity not longer than one year.

Eligible States shall mean any States belonging to the European Economic Space and Switzerland.

"**standardised approach**" is the approach to credit risk measurements as defined under Directive 2006/48/EC.

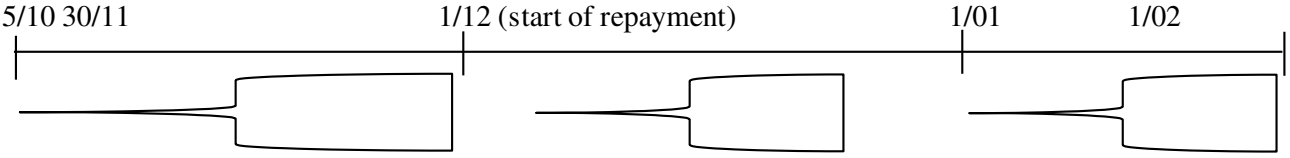
COLLECTION AND RECOVERY PROCEDURES

1. REGULAR LOANS

Payment systems and the recording of collections

The repayment of almost all loans starts on the first day of the second month following the date of signature of the agreement (unless entire grace periods are stipulated by contract). Between the date of signature and the first repayment date, the client is covered by a grace period and only pays interest, which is usually collected with the first repayment instalment.

By way of example, in the case of a loan with monthly repayment taken out on 5/10:



Technical grace period Frist repayment installment

For companies, almost all loans have a grace period that can be quite long, up to 36/48 months. From the date of signature until the date of the first repayment, the client is in a technical grace period and pays only the interest, which is usually received together with the first repayment instalment. For this type of loan, repayment generally starts from the first full instalment following disbursement, according to the timescale of the instalment (monthly, quarterly, half-yearly, annual). Provision can also be made for a grace period, in addition to the technical grace period, the duration of which, defined at the time of approval of the loan, is commensurate with the term, type and purpose of the loan.

The terms of payment of the loan instalments essentially consist of:

- direct debit of the debtor's current account opened at any branch of the Bank
- payment by the debtor based on a MAV (deposit slip) notice of payment of each instalment, to be made at the counters of the relevant Bank or any other credit institution adhering to the MAV circuit;
- direct debit of the debtor's current account opened at another Bank (SDD mandate);
- payment at the Bank counter and/or by Bank transfer through another Bank.

It is Bank practice, for current loans with payments of deferred instalments, to permit that payments made after the instalment deadline but less than one month before the subsequent due date, be subject to default interest charged at the following due date, or on the first accounting event of the loan (see repayment).

1.1 Payment by direct debit of current account

For the loan items that use this system of payment, the procedure identifies all instalments falling due on a specific day and provides for the current account to be debited (on the specific day). If the account does not have funds or its funds are only partially sufficient, the system makes the debits nonetheless, providing each branch (on the day of each instalment due date) with a list of instalment debits that have caused the current account to become overdrawn. The branch concerned has the option of cancelling instalments debited automatically by the system.

Any outstanding payments are recorded in the Bank's information system in real time. The operator can, however, check the accounting position of the loan at any time.

If an instalment is even only partially unpaid, the loan is not taken into consideration when preparing the debit flow for the following instalment.

Note that each week, the recovery of instalments in arrears is generated automatically, by monitoring the balances of clients' accounts in order to gradually reduce the arrears.

1.2 Payment by pre-authorised debit

In order to improve operability and offer clients services that are increasingly designed to meet their expectations, instalments may be paid by the pre-authorised debit of current accounts at other credit institutions.

A pre-authorised debit order issued to other banks, only to be used on the client's express request, provides an alternative to debiting a current account opened at the Bank. This option is of interest to clients who reside outside the area of operations of the Bank, and those operating with other credit institutions. This service serves to reduce loans with no supporting current account.

The flow of debits forwarded to the paying banks is generated automatically several days prior to the due date of the instalment, currently 8 business days for all items collectable by SDD mandate.

On the due date of the debit orders, the electronic procedure credits the collections "subject to collection" to a transit account and on that same day the "Loans" procedure debits the amount of the instalments due to the same account to balance the amount credited.

Unpaid orders returned by the correspondent banks are debited by the procedure from the transit account.

Reversals of payments made by SDD mandate attributable to outstanding sums are carried out automatically by the procedure. An appropriate report on the event is also provided to the Operating Points. In view of the time taken by the Banks to return the sums credited "subject to collection" and the subsequent processing time, the effect of the collection (or outstanding sum) can only be verified approximately fifteen business days later. After the fifteenth day, the receipts to be sent to Clients are generated.

In the case of outstanding sums, the debit subject to collection is only guaranteed if the loan returns to performing status prior to generation of the debit flow for the subsequent instalment.

1.3 Payment by MAV deposit slip

In order to facilitate more rapid registration of the sums paid, for payment of loan instalments with other credit institutions and in order to automate the relevant flow, a notice of instalment due form has been produced in a standard interbank format, which enables the use of the MAV electronic banking circuit to credit the Bank with the sums received.

The MAV is a paper slip that can be paid at any bank forming part of the MAV circuit (in practice almost all Italian banks).

The Bank sends the slip to the client approximately 30 days prior to the due date of the instalment in the case of a half-yearly or quarterly loan, and 20 days prior to the due date in the case of a monthly loan. If the payment is made at a counter of the Bank itself, the relevant entry in the loan procedure takes place in real time; if the client makes the payment at another bank, an electronic data flow is sent, via the portfolio procedure, containing all the details of the payment.

In addition to the speed of data transmission and the resulting faster update of the loan's ledger, the use of this procedure enables the reduction of manual payment allocation to a minimum.

Usually the result of the payment at another bank (electronic flow) is received within 3 days of the date of payment.

If a client fails to pay an instalment, for loans payable in half-yearly and quarterly instalments, a MAV reminder is sent.

For other due dates and for all payment procedures, a reminder letter is sent monthly summarising all the amounts payable by clients.

1.4 Collection by cheque or postal order

Instalments may also be paid, subject to collection, by banks drafts, bank cheques and postal orders. In this case too, the deadline for payment without default is that indicated on the notice of the instalment due that is only produced if the payment method is without domiciliation (MAV).

Cheques and postal orders must be issued to the order of the Bank. Exclusively for clients known to be of good standing by the Branch, checks and postal orders with one or more endorsements may be accepted, in all cases in accordance with applicable legislation. In such cases, the last endorsement must always correspond to that of the presenting client.

In the event of the return of unpaid or protested cheques or postal orders, the legislation provides that the branch:

- must attempt to recover from the transferor the amount of the unpaid/protested cheque and the relevant expenses, together with interest on late payment from instalment due date until the recovery date;
- if recovery is impossible, the branch must reverse the payment procedure, following recall of any receipts issued.

1.5 Collection by transfer

If the client pays an instalment by transfer, the payment is received in the procedure directly by the Operating Point. Any credits received by the MLT Loans Office are sent to the branch dealing with the loan.

If the client appears at a different Bank of the Group from that at which the loan is established, the collection of an instalment and/or execution of early payment is settled centrally by the Group's back office departments. With the new business plan, the case record is no longer significant. Any receivables are transferred to the relevant branches.

Collections must be made in the currency recognised by the correspondent Bank.

1.6 Collection and management of Securities Collections

1.6.1 Payments to the the Principal Securities Collection Account and to the Interest Securities Collections Account

All principal redemption amounts, interest payments and any other amounts due for any reason in relation to the Securities will be credited by Monte Titoli or Clearstream (as the case may be) to the custodian bank in favour of the securities account opened and maintained in the name of the Covered

Bond Guarantor, through specific segregated liquidator account, properly opened with Monte Titoli or Clearstream. The custodian bank automatically and promptly pays the collected amounts as follows:

- any principal amount to the Principal Securities Collection Account; and
- any interest amount to the Interest Securities Collection Account (jointly, the Securities Collection Accounts).

1.6.2 Further payments

If, for any reason, the Servicer receives any collections other than those described above, the Servicer shall carry out a reconciliation of the amounts received within 20 (twenty) days from the receipt of such amounts by the Debtors and credit to the relevant Securities Collection Account, in respect of principal and interest, such sums received and reconciled within 3 (three) Business Days following the reconciliation of such amounts and with value date corresponding to the collection date by the Servicer.

1.6.3 Collection verification

Further to any payment date of each Security, as set forth under the relevant Securities documents, the Servicer will verify that the amounts due as principal, interest or for any other reason due in relation to each Security have been credited on the relevant Securities Collection Account, in respect of principal and interest, with value date corresponding to the relevant payment date of each Securities, as set forth under the relevant Security documents.

1.7 Tolerance periods for payments

The deadline for payment for all types of loan (monthly, quarterly, half-yearly or annual) is the instalment due date, irrespective of the payment procedure used by the client.

If the due date is a public holiday, the deadline is deferred to the first subsequent business day.

2. MANAGEMENT OF CURRENT LOANS

2.1 Loan renegotiation policies

In recent years, the loan market has seen a considerable increase in the granting of loans by "replacement/renegotiation".

This phenomenon has been favoured both by structural factors, such as the liberalisation of the market following the legislative innovations introduced by the Bersani Decree Law (Legislative Decree No. 7 of 31 January 2007, converted into Law no. 40 of 2 April 2007, known as "loan transfer" and the abolition/reduction of settlement penalties) now Legislative Decree No. 70 of 13 May 2011, converted with amendments into Law no. 106 of 12 July 2011, and by cyclical factors related to interest rate trends.

In this changed regulatory and economic situation, and in the increasingly competitive context of the mortgage market, the Bank, in accordance with its legal obligations, has decided to undertake commercial initiatives mainly designed to increase attention to the needs of existing clients under the same competitive terms and ultimately establishing the conditions to hold onto clients. Accordingly, Branches may undertake 'retention' initiatives in defence of their portfolio, leading to a renegotiation

of loans, without access to renegotiation requiring evidence of (i) the position being critical, (ii) alleged difficulty in servicing the debt, or (iii) a decision to settle the loan thanks to the new opportunities offered by the market arising from new mortgage transfer rules. Renegotiation is authorised within the limits of current autonomous powers.

The possible solutions consist of:

a) lengthening the term of both variable-rate and fixed-rate loans: the final due date of the repayment plan may not exceed a term of 40 years and, solely with regard to private individuals, the relevant debtor may not be more than 75 years of age (or other limits in force from time to time based on the parent bank's policy), except the cases indicated in letter e) below;

b) changing the indexing parameter or converting the loan from variable-rate to fixed-rate or vice versa, with a possible change in the frequency of instalments usually applied under standard catalogue conditions in force from time to time for the particular type of counterparty;

c) renegotiating the spread and/or the fixed rate;

d) shortening the term (only for private individuals only);

e) granting the option of suspending the payment of instalments on the basis of:

- agreements promoted by the Italian Banking Association to support the credit market for small and medium-sized enterprises and retail credit, such as for example the "2019 Credit Agreement" signed on 15 November 2018;
- legislative or regulatory provisions, such as:
  a) the provisions contained in the Implementing Regulation (adopted by Ministerial Decree No. 132 of 21 June 2010) of the "Solidarity Fund" (the so-called Gasparrini Fund) for loans for the purchase of a first home, established by Article 2, paragraph 475 et seq. of Law No. 244/2007 (2008 Finance Act);
  b) measures to combat natural disasters or humanitarian emergencies;
- initiatives promoted from time to time by the Intesa Sanpaolo Group in favour of its clients or to support credit quality
- agreements established by contract.

Suspensions generally have a maximum duration of 12 months, unless different terms are established in the contract, or are based on different legislative or regulatory provisions (such as, for example, the "Solidarity Fund"), with a shift in the repayment plan and the resulting extension of the final term of the loan by a period corresponding to the duration of the suspension.

The suspension may concern:

- the whole instalment (capital and interest), in which case the interest accruing during the suspension will be paid without out the application of default interest, on the resumption of repayment of the loan, according to the terms agreed with the borrower;
- the capital only, in which case the borrower, during the period of suspension, continues to pay the interest calculated according to the contractually established methods.

In the event of instalments in arrears, suspension runs from the first instalment falling due and unpaid that is included in the suspension and, if the suspension is total, the default interest accrued on that instalment will not be payable.

The branch - in accordance with the policy adopted by the Bank from time to time - may also propose to replace the loan with a new loan that meets the client's requirements, with a right of subrogation in favour of Intesa Sanpaolo.

2.2 Concessions on other exposures – forbearance policies on performing loans that are *in bonis*

Credit exposures subject to concessions or forbearance measures are liabilities whose original conditions have been changed and/or whose outstanding amount has been totally/partially refinanced due to financial difficulties that prevent the borrower from making the agreed payments.

The notion of credit exposures subject to forbearance measures can be applied both to performing and non-performing loans. It is a distinct element used to further define the borrower's credit quality, which complements but does not substitute the loan's classification.

An aspect of considerable importance is represented by the minimum "monitoring period" to which a forborne exposure is subjected. This period, which differs on the basis of the counterparty administrative risk status, is equal to 24 months ("probation period") for performing positions. The calculation of days for "probation period" starts from the date of application of the forbearance measures. At the end of the Probation Period, the exposure can cease to be monitored - and the forborne attribute may lapse, provided that the following conditions are met:

- the debtor has paid a significant amount of principal and interest;
- the position is not more than 30 days past due on the account or on one of the accounts comprising the monitored loan (at NDG/Clone level), applying the tolerance thresholds of € 200 (Retail) or € 500 (for all other segments).

In case the forbearance measure (or the cumulative forbearance measures reiterate on the same facility) granted to a performing counterparty leads to a loss in terms of *Net Present Value* (NPV), exceeding the 1% threshold, the counterparty is automatically classified in a default status.

Non performing exposures that become f*orborne performing exposures* need to be closely monitored. For such exposures, if during the *Probation period* exposure:

- becomes object of further *forbearance measures*

- incurs in arreas/past due for more than 30 days

It is automatically labelled "*forborne non performing*", and the counterparty reclassified in a default status.

3. THE CREDIT MANAGEMENT PROCESS

3.1. Proactive Credit

Proactive Credit is defined as the set of processes for loans to clients who have difficulties that at the time are potential and not yet openly apparent, but which could, if not promptly resolved, lead to the

breach of contract, with the consequent deterioration in the quality of the risks assumed by the Bank. The occurrence of such a default could, depending on its severity and duration, result in the subsequent classification of all positions as non-performing.

3.1.1 Processes

Objectives and guiding principles

The Proactive Credit management processes is a model for the management of clients with potential problems, which is designed to correctly and promptly identify and address anomalies from the moment they first appear. The model is based on the following guiding principles:

- the responsibility of the branch in the monitoring of positions;
- differentiation of processes according to their regulatory segment;
- the establishment of dedicated structures, both peripheral and central, that intervene in the process when the associated risk becomes increasingly serious;
- the streamlining of credit management processes and management statuses, with a consequent simplification of the workflow and of activities focused on an effective solution to detected anomalies;
- review of intervention criteria to ensure greater efficiency and effectiveness of the new processes, anticipating as much as possible the detection of situations that could lead to a deterioration of positions;
- review of the interception systems with a view to complete automation of entry and exit from the process, reducing subjective evaluations to a minimum;
- the supplement of processes with Early Warning (EW) interception systems to make interception increasingly predictive and intervention increasingly anticipatory;
- the use of the ratings to support decision-making;
- the use of external companies specialising in recoveries (only for the Private Retail);
- the use of an Internal Collection Unit for clients belonging to the Private Retail (RE) regulatory segment. equipped with tools and processes for proposing autonomous negotiating solutions and the use of external companies specialising in recovery

As indicated above, Proactive Credit for the management of intercepted clients draws on the support of dedicated teams in the Loans Offices at the Regional Headquarters of the LBN (Local Bank Networks) and of the office of the CLO (Chief Lending Officer), with the task of supporting the Network in the management of clients that are showing initial signs of difficulty.

The processes involved in Proactive Credit, which are designed to manage intercepted clients in a timely and optimal manner, are differentiated by regulatory segment and are divided into:

- Corporate, SME Corporate and SME Retail Processes
- SME Retail Processes (positions falling within the competence of the Regional Directions)
- Banking and Non-Banking Financial Institutions Processes
- Retail Process

The intervention system is guided by an Early Warning System which, through the collation of a series of indicators, enables classification of credit positions according to the counterparty's state of

default. The state of impairment of a counterparty is represented/summarised through the attribution of a colour (a 'traffic light' result). The calculation engine produces six categories:

- green
- light green
- orange
- red
- light blue
- dark blue

Counterparties intercepted in the Proactive Credit process are:

- for the Private Individuals Retail (RE) regulatory segment, counterparties with a red traffic light outcome, with a "confirmed criticality" form;
- for the SME Retail regulatory segment, counterparties with orange and red traffic lights generated by "confirmed" criticalities, and
- for the Corporate, Banks and Non-Banking Financial Institutions regulatory segments, counterparties with orange and red traffic lights.

SME Retail, Corporate, Banks and Non-Banking Financial Institutions regulatory segments upon a "Forborne" resolution certified by the competent central structures of the CLO Area, are managed in the Proactive Credit Process.

3.1.2 Management phases of Proactive Credit

Proactive Credit processes are divided into management phases, which in turn are differentiated according to process type/client segment.

A) For Corporate Clients, Corporate SMEs, Retail SMEs (falling within the competence of CLO Area), Banks and Non-Banking Financial Institutions the process involves:

- the "Branch Management" (BF) phase / the "Branch Management – Non-settled" (BU) phase
- the "Proactive Management" (PM) phase.

1) The "**Branch Management**" phase is operational for positions intercepted as a result of an EWS orange traffic light (criticalities alerted for the SME Retail segment only), i.e. counterparties with less serious risk alerts.

This phase involves the intervention of the branch/relationship manager responsible for the commercial relationship and consists of verification with the client of the reasons for the intervention with the aim of reaching, where possible, an agreement for the regularisation of the position and/or settlement of an automatically detected anomaly.

The phase involves the compilation by the manager of a check list (for BdT) / note field in which the actions taken are entered into the system. Each action will be subject to automatic or manual control, with varying frequencies depending on the type of action taken. During monitoring, if the action is not fulfilled or is ineffective, the manager will be automatically asked to re-analyse the position and again indicate the actions taken in consultation with the client.

This processing phase is referred to as “Branch Management – Non-settled" (BU) and is described in greater detail below.

In the event of difficulties that cannot be resolved in the short term, or of significant complexity, the account it would be possible to evaluate the transition of the position to a worsening risk state..

The management phase does not have a minimum duration, but within 30 days of intervention, the operator is required to analyse the counterparty and report actions taken to the system by filling in a check list (for BdT) / note field

Positions that have not been processed within 30 days, together with positions processed ineffectively, enter the “Branch Management – Non-settled” management phase and are subject to automatic reporting to the competent loans office.

The “**Branch Management – Non-settled**” management phase applies to positions that have not been settled, or with a management action that has not been performed, or with an ineffective action;

In this phase, the relationship manager, who is responsible for identifying and implementing ac tions necessary to support the counterparty in overcoming the stated or potential difficulties, is assisted by the specialist Credit Value Management Office. This Office does not intervene directly in the position, but is responsible for the “Governance of the BU portfolio”, i.e. it is responsible formonitoring volumes, processes and recycling, ensuring that branches adequately supervise the positions for which they are responsible.

2) The “**Proactive Management**” phase applies to positions:
   - intercepted through an EWS “red light” (only confirmed criticalities for the SME Retail segment), or
   - Branch Management states for which the manager requests an override to a more severe category.

This phase does not have a defined duration. It ends with the regularisation of the positions, or classification as a non-performing loan. On entering this phase, the Branch draws up a specific Action Plan, which may be complete or a general outline, in which, in addition to assessing the client’s situation, initiatives for regularising the position are identified.

The action plan must be submitted to the competent specialist Credit Unit for validation. The competent unit is automatically identified on the basis of Risk Weighted Assets (RWA) concession mandates; in particular, clients with:

- exposure less than €15 million: validation is the responsibility of the Regional Headquarters of the Local Bank Networks Division;
- exposure of more than €15 million: validation is the responsibility of the Proactive Units of the Credit Value Management Offices of the CLO Area. For the clients of the Corporate & Investment Banking Division, validation is the exclusive responsibility of the CLO Area.

This phase provides the monitoring of the Action Plan. In particular, the same credit function that is responsible for validation of the plan is also responsible for the task of monitoring the defined actions, whether the plan is being implemented by the methods agreed with the relationship function, while at the same time verifying that no new anomalies have arisen that could undermine the maintenance of the position in that state.

Even in the Proactive Management Phase, for less complex counterparties, the operator has the option to compile an intervention check list, replacing the action plan, with the same content and function as indicated above for the BF phase. However, the obligation to monitor, with variable frequency depending on the expiry of the action inserted, remains, in order to ensure and verify compliance with what is was agreed between the manager and the client.

The objective of the management is to eliminate anomalies with a view to continuing relations with the counterparty, helping it to avoid the loan from slipping into the category of a non-performing.

Positions for which the regularisation is not achieved remain classified in this state until a subjective assessment results in a classification in a state of higher risk, by a request submitted to the competent management offices. Positions also leave the state with a worsening of the risk in the event that conditions of objective deterioration occur (conditions for classification among past due loans and/or impaired overruns, detection of a prejudicial 'dark blue' status, etc.) leading to automatic classification as an overdue or probable default.

Therefore, performing positions which are attributed an automatic assessment of high risk, which is confirmed over time, or which present early signs of potential difficulties, are promptly and automatically intervened in proactive management processes.

Such positions, for the purposes of credit quality, are classified to all intents and purposes as "performing" and responsibility for their management remains with the organisational structure in which the counterparty is portfolioed.

In order to guarantee objectivity, cases are placed in or removed from Proactive Credit processes automatically. Only the relevant control bodies (such as for example the Internal Auditing Department) are entitled, in the event of serious anomalies detected during the course of their duties, to classify positions manually with the status of "Proactive Management" on their own initiative.

B) **For SME Retail counterparties for which Regional Directions are competent,** given the lower complexity and smaller number of counterparties involved, the process applies a more industrialized approach with a guided operative workflow and direct involvement of the specialist "Remediation SME Retail" structures within the Regional Directions.

The process entails:

- directing to "Branch management" (i.e. "first processing") positions with a final EWS score of "Orange";
- directing to "Specialist management" (i.e. "direct Remediation") positions with a final EWS score of "Red".
- In the first case:
    - the Branch/relationship manager will analyse the position and contact the borrower in order to define, when possible, a way to regularise the loan, through renegotiation when necessary or appropriate (in this case the relationship manager will set up the deliberation process in coordination with the specialist structure of the competent Regional Direction);
    - positions for which a solution is not feasible or for which the proposition has not been completed within 30 days are automatically transferred to the "Specialist management" and managed centrally.

In the second case, the competent Regional Direction's structure centrally manages the position, analysing it, acquiring any necessary documentation and contacting the borrower to define the most appropriate solution, (with approval procedure when needed) or otherwise transferring the position to a riskier state. The position will then stay in a specific state that allows for monitoring to evaluate how effective the solution is.

C) **With respect to Private Individuals Retail**, a dedicated "Retail Prevention and Management" Process (also known as "Pulse") was defined and gradually implemented by the Chief Lending Officer Governance Area.

The process is applicable for the management of Private Individuals (RE regulatory segment) with predefined characteristics and it utilizes homogeneous and specialized methods of contact and negotiation for the settlement of the debt.

The process includes both performing counterparties detected by the EWS scoring engine at the first signs of difficulty (e.g. excess utilization and / or arrears in debt repayment) and those subsequently classified to non-performing (Past Due or Unlikely to Pay categories).

- The main features of the Retail Prevention and Management Process are as follows:
- differentiated process for Retail customers (RE segment) according to the characteristics of the borrower and the underlying position, also with recourse to external resources
- use of advanced routing logics based on the EWS Retail model
- structured, centralized and highly automated management process, with differentiated actions based on the riskiness of the position, governed by a specialized unit
- progressiveness in contacting customers, i.e. phone collection and home collection
- management of all the customer's transactions at ISP Group level
- extensive use of negotiation solutions for customer regularization, when in presence of eligible "candidates", and implemented by a dedicated Bank structure
- integrated, unique and, whenever possible, automated procedures
- constant monitoring of the management process through dedicated reporting
- constant interaction of counterparties with the Bank's internal specialized structures
- dedicated workflows and differentiated contact tools, supported by decision-making engines and standardized products
- clustering of customers from a management perspective
- presence of an algorithm for selecting the most appropriate negotiation solution
- set-up of a single management platform with integration and interaction between the management and recovery functionalities within the tool

The governance of the activities and the credit delegated prerogatives are centralized within the Remediation function – part of the Credit Value Preservation Head Office Department - Chief Lending Officer Governance Area, while the relationship with customers through telephone contacts (the so-called Phone Collection) is mainly delegated to the corresponding Pulse Function (part of the above mentioned Head Office Department) and to Outsourcers specialized in the collection of debs ; the latter are also in charge of the Home Collection activities

The Remediation function – as governance structure of the Retail Management process - manages the quotas of customers to be contacted by Pulse and the Outsourcers and monitors their activity. The process and information exchanges with the Outsourcers are managed through a dedicated tool,which defines the steps between the various operational and management phases and which incorporates the results of the activities carried out through the service platforms.

Based on pre-established rules relating to the characteristics of the customer, its riskiness (calculated by the EWS) and the underlying products, an evolved algorithm (the Routing Engine) directs the counterparties to the various actors in the process, including to the relevant branches.

The Remediation function thus:

- oversees and monitors the entire portfolio intercepted and routed into the process, also in relation to the other actors involved in the process
- provides strategic support and coordination of the activities performed by Pulse and the Outsourcers
- manages end-to-end the most critical positions (i.e. from contact with the customer and identification of the negotiation solution to the credit proposal and decision- making)
- processes the assigned portfolio, divided into predefined management phases, with a focus on renegotiation and in observance of the applicable credit delegated prerogatives;
- elaborates the credit analysis and decides on the negotiation solutions proposed by Pulse or the Branches.
- monitors the implementation of the negotiation solutions agreed with the client by the other actors involved in the process
- decides on the classification (including massive) to Unlikely to Pay or Bad Loans in case of positions that are not regularized

Pulse is the internal function within Credit Value Preservation Head Office Department (Chief Lending Officer Area) in charge of phone collection and investigation. It maintains "direct contact with customers, according to a standardization of processing cycles (e.g. assignment to specific profiles in the collection unit) and its focus is on proposed solutions to “normalize” the credit facilities; this structure makes use of dedicated workflow tools, decision-making engines and products specifically designed.

Pulse is therefore in charge of:

- the first telephone contact and interview with the customer;
- the identification and simulation of a negotiation solution;
- the verification of the sustainability of the solution identified;
- the preparation and submission of requests for renegotiation / suspension of the instalments;
- the update of the data set on the basis of the documentation received.

Both Pulse and Remediation functions use dedicated IT procedures that allow:

- to promptly identify possible financial difficulties of borrowers - Private Individuals and
- to centrally manage a significant part of the rescheduling/ restructuring operations, thus limiting the involvement of the Network.

Commercial collaborations were also initiated aimed at the outsourcing of collection activities with partners specialized in both phone and home collection to streamline the management of delinquencies (i.e. positions with overdue and / or arrears). As per Bank of Italy's guidelines, the outsourcing of these activities is considered an outsourcing of an Important Operational Function.

Lots created by IT procedures on a daily basis are allocated for periods linked to the specific recovery phase (30 to 90 days).

With regard to the allocated loans, within the allotted time period, the external Partner will perform the following tasks:

- keep a timetabled and frequent contact with the borrower following instructions received from Remediation
- recovery activities
- in the advanced phases of the process, take note of the borrower's interest for the renegotiation, rescheduling or consolidation of the loan
- give daily feedback on the results of all activities performed.

The Outsourcers do not directly carry out negotiation and / or proposal of rescheduling products; they gather information on the client's interest in any negotiation solutions, which are subsequently structured and deliberated by the Remediation Function.

The outsourcing agreement is in line with the rules set out in Bank of Italy's Circular 285/2013 and, depending on the activities carried out, Partners are subject to art 115 of the Italian Public Security Law (TULPS), need a license issued by the Police HQ and are supervised by the ministry of Interiors. Their operations are bound by the category's deontological code (UNIREC) and by national privacy laws.

The relationship manager also has a role in the process:

- supporting contact units with any information on the borrower that may help in client analysis
- managing the relationship with borrowers for specific cases (e.g. employees)
- may work on clients, with full visibility on all phases of the management process, both internal and outsourced, interacting with the specialist for any actions that will take place in the branch (e.g. client meeting)
- formalizes the outcome of any agreed upon negotiation

3.1.3 The "Prevention and Retail Management" process - *Externa collection*

For extrajudicial recovery of Proactive and Non-performing loans that are not non-performing, and specifically for the process called "Retail Prevention and Management" (RE regulatory segment), Intesa Sanpaolo can avail itself not only of the competent internal offices of the bank itself, but also of external specialist companies that meet the necessary regulatory requirements.

Separate contractual conditions govern the collaboration, which his described in greater detail in the commercial collaboration agreement ("Collaboration Agreement"), concluded with external companies.

In general, the external company will perform the services by organising and managing all factors and production resources at its own expense and with entrepreneurial autonomy.

Without prejudice to the provisions of the Collaboration Agreement, the external company represents and warrants that it has - and will have for the entire term of the Collaboration Agreement - the authorisations, licenses and permits necessary to undertake its commercial activities and to fulfil its obligations with the utmost professionalism and diligence, in compliance with legislation in force from time to time and as provided in the "General and Special Conditions".

In particular, the service will cover the activities of:

- **Phone Collection**: understood as an extrajudicial debt recovery activity performed through telephone contacts.

The activity is divided into two successive phases (Phone Collection 1 and Phone Collection 2), depending on the criticality of the client. The mandate to manage cases and to perform the recovery activity will last thirty days, commencing from the date of award of the mandate unless extended, and concerns individual cases which must be agreed from time to time.

The time granted may in exceptional cases be altered following assessment by the Bank, which will communicate it to the external company with a specific indication of the new expiry date of the mandate, including by a specific indication in the management portal.

By way of non-exhaustive indication, the activities that the external company may perform in the Phone Collection phase may be:

a) communication of the problem to the client
b) a request to regularise the situation and instruction on how to proceed
c) communication of the possibility of a negotiated solution, subject to a creditworthiness assessment by the Bank
d) directing the client to the Bank office for the application of a negotiated solution
e) directing the client to the Bank's reference structure for the effective application of the negotiation solution

- **Home Collection**: understood as extrajudicial debt collection activities which may include a home visit by the external company to the third party debtor. The activity is divided into three successive phases (Home Collection 1, Home Collection 2 and Home Collection 3), depending on the criticality of the client. The mandate to manage cases and to perform the recovery activity will last sixty days for the so-called Home Collection 1 and Home Collection 2 phases, and for ninety days for Home Collection 3 phases, commencing from the date of award of the mandate unless extended, and concerns individual cases which must be agreed from time to time.

The time granted may in exceptional cases be altered following assessment and an order of the Bank, which will communicate it to the external company with a specific indication of the new expiry date of the mandate, including by a specific indication in the management portal.

By way of non-exhaustive indication, in the Home Collection phases the external company may perform the following activities:

a. communication of the problem to the client

b. a request to regularise the situation and instruction on how to proceed

c. communication of the possibility of a access to negotiated solutions, subject to a creditworthiness assessment by the Bank

d. obtention of an expression of interest from the client in defining a strategy forregularisation with the Bank

e.directing the client to the Bank office for the application of a negotiated solution.

The Service will consist in performing the Phone Collection and/or Home Collection activities for extrajudicial recovery of outstanding claims in the following categories:

- receivables relating to overdue and unpaid instalments
- receivables relating to overdue and unpaid sums
- receivables relating to default interest
- receivables arising from use of current accounts without a credit line or in excess of the granted credit limit
- receivables for expenses, accessories and any other amounts due in relation to the type ofreceivables claimed and for which a mandate is granted.

The process of granting a mandate, i.e. the creation of outsourced lots with a mandate to operate, takes place on a daily basis. The management process is also supported by a dedicated IT procedure that enables, again on a daily basis, viewing of the recovery actions implemented by external companies and precise monitoring of the evolution of the positions entrusted to external collection.

The cooperation agreement for the provision of extrajudicial credit recovery services, signed with external companies, provides for the determination of specific operational SLAs and management KPIs.

In particular, service levels are broken down into “high significance” and “medium significance”. The main “high significance” service levels are:

- misappropriation / delay in the consignment of values
- justified complaints / lawsuits concerning privacy violation and money laundering
- failure to comply with rules established by the Italian Data Protection Authority
- proven aggressive conduct toward clients

The main “medium significance” service levels are:

- prompt commencement of telephone and home recovery activities
- punctual performance of activities
- punctual issue of invoices according to operating instructions given.

Failure to comply with Service levels may result in the application of specific penalties/actions that vary according to the type of Service level not complied with and the extent of the violation.

The Bank will also constantly monitor the performance indicators (management KPIs) underlying the commission model and the logic of outsourced positions in the various phases, in accordance with the timeframes used to govern the outsourcing process, such as, by way of example but not limited to:

- net performance (amounts collected/amounts entrusted): the ratio between the volumes of sums collected (excluding expected collection values due after the mandate) compared to all transactions included the scope of the mandate and the volumes of overdue sums in the same mandate;
- regularisation: for instalment products, number of contracts which at the end of the credit period have zero overdue and unpaid instalments; for current account overdrafts, contracts with a final overdraft amount of zero;
- redemption: percentage of cases which, at the end of the credit line, have a lower number of overdue and unpaid instalments than at the beginning of the credit line compared to the total number of cases entrusted;
- duration of management: average duration of cases of management.

3.2 Non-performing exposures

The 10th update of Bank of Italy Circular No. 272 (hereinafter "Circular 272") introduced further clarifications to the definitions and types of "non-performing financial assets" to implement the provisions of the EBA 2016/07 Guidelines of 18 January 2017 ("EBA DoD Guidelines") on the application of the Definition of Default contained in Article 178 of Regulation 575/2013 (the Capital Requirements Regulation).

The various types of credit statuses that come within the category of "non-performing financial assets", referring to the overall exposure of the debtor, are discussed below.

"Non-performing financial assets" consist of cash assets (loans and debt securities) and off-balance sheet assets (guarantees given, irrevocable and revocable undertakings to disburse funds, etc.) from debtors:

1) which have significant exposures which are past due by more than 90 days, or

2) for which full fulfilment of the credit obligations is considered unlikely without enforcement of guarantees, irrespective of the existence of overdue sums or the number of days in arrears.

No account is taken of any guarantees (real or personal) put in place to protect assets. The category of "Non-performing financial assets" does not include financial instruments included in a "Financial assets held for trading" portfolio or derivative contracts.

In order to identify non-performing loans, the Bank has selected a criterion that involves an approach by "Individual debtor".

"Non-performing financial assets" are classified, in accordance with the principle of increasing gravity, in the following three categories:

- non-performing past due exposures
- unlikely-to-pay loans
- bad loans

With respect to the classification of "in default", the recent European legislation on the subject (the so-called "new definition of default") will be applied, with particular reference to the EBA guidelines on the application and definition of default pursuant to Article 178 of Regulation (EU) No 575/2013.

Again, in accordance with the regulatory provisions, the details of the categories of non- performing exposures, with regard to specific exposure, include the classification of "Non-Performing Forborne Exposures".

Non-performing financial assets are subject to analytical-statistical or analytical valuations for financial reporting purposes.

The process of assessing non-performing exposures to counterparties classified among past due loans and unlikely-to-pay loans, in accordance with the reference accounting principles and the applicable regulatory provisions, arises from the presence of objective loss elements that lead to the conclusion that the amount contractually expected from each individual asset is no longer fully recoverable.

In general terms, receivables classified:

- among past due and/or impaired overruns (regardless of the amount of exposure) and those classified as unlikely-to-pay and bad loans (of an amount not exceeding a significant pre-established threshold, currently €2 million) are subject to an analytical-statistical measurement through specific LGD grids, plus an Add-On to include the impacts linked to management variable, to forward looking elements relating to the macroeconomic scenarios and to the permanence in the state of risk s
- among unlikely-to-pay and Bad loans (both above the threshold of €2 million), are subject to a specific analytical evaluation process based on a reliable qualitative and quantitative analysis of the economic, financial and asset situation of the counterparty, together with the relevant exogenous factors, such as for example the performance of the relevant economic sector. The assessment is performed analytically for each individual receivable, considering the implicit riskiness of the relative technical form of use, the relevant degree of dependence on any mitigating factors(guarantees).

3.2.1 Non-performing past due exposures (Past Due)

This category includes "cash exposures other than those subsequently defined as bad loans or unlikely-to-pay loans which, on the reference date of the report, are due" for more than 90 consecutive days.

The overall exposure to a debtor must be recognised as past due and/or overrun if, at the reporting date, the amount of principal, interest and/or commission not paid at the date on which it was due exceeds both of the following thresholds (hereinafter jointly referred to as the "Relevance Thresholds"):

a) an absolute limit of €100 for retail exposures and €500 for exposures other than retail exposures (the so-called "Absolute Threshold") to be compared with the debtor's total amount overdue and/or overrun;

b) a relative limit of 1% compared with the ratio between the total amount overdue and/or overrun and the total amount of all exposures recorded in the balance sheet to the same debtor (the so-called "Relative Threshold").

Classification in this status takes place automatically, at the level of the banking group, on the persistence of a credit situation that is past due and/or overrunning the Relevance Thresholds for a period of more than 90 consecutive days.

The classification in status also occurs automatically as a result of 'dragging' of a default status from joint holders to a joint account, or from the joint account to joint holders, according to specific rules as specified in the relevant paragraph.

3.2.2 Unlikely to pay

This category includes a debtor's entire cash and "off-balance-sheet" exposures, in relation to which the bank concludes that it is unlikely that he will fulfil all his credit obligations (in terms of capital and/or interest) without recourse to actions such as the enforcement of guarantees. This valuation does not take account of any amounts (or instalments) that are due and outstanding.

It is not therefore necessary to wait for a specific sign of the problem (for example failure to repay), if factors exist that imply a situation of risk of default on the part of the debtor (e.g. a crisis in the business sector in which the debtor operates). All the cash and "off-balance-sheet" exposures of the same debtor in such a situation are known as "unlikely-to-pay", unless the conditions exist for the loans to be classified as bad loans.

Unlikely-to-pay loans also include all exposures to issuers that have not promptly met their payment obligations (principal and/or interest) in respect of listed debt securities. To this end, a "grace period" stipulated by contract or, in its absence, recognised by the market that lists the security, is recognised.

In addition, unlikely-to-pay loans include "all exposures to debtors that have lodged an application for a so-called "blank" arrangement with creditors" (Article 161 of the Bankruptcy Act), notification of which can be made from the date of submission of the application until the evolution of the application is known. However, the exposures in question should still be classified as bad loans if: a) new objective factors exist that lead intermediaries, as responsible independent parties, to classify the debtor in that category; b) the exposures were already classified as bad loans at the time of submission of the application.

The same criteria apply in the case of an application for an arrangement with creditors on a going concern basis (Article 186-bis of the Bankruptcy Act), as of the date of submission and until the outcome of the application is known (non-approval or approval decree). In the latter case, the classification of exposures is amended on the basis of the ordinary rules.

In particular, in the event that an arrangement with creditors is instigated on a going concern basis with the transfer of the going concern or with the transfer of its assets to one or more companies (even newly formed companies) not belonging to the debtor's economic group, the exposure should be reclassified among performing assets.

This is not possible, however, in the case of sale or transfer to a company belonging to the same economic group as the debtor, due to the presumption that the parent company/controlling company has been involved in the decision-making process that led the company to file an application for an arrangement with creditors in the interests of the entire group. In such a situation, the exposure to the transferee continues to be indicated as impaired assets; it should also be reported among exposures subject to impaired concessions."

The following positions are automatically categorised as "unlikely to pay":

- positions in in the state of "About to Expire", on passing the expiry date of this state and with a relative threshold of materiality in excess of 5%;
- positions presenting a misaligned SAG for more than 30 consecutive days as "unlikely-to-

pay" or "non-performing" loans with an exposure classified in one of the above situations, equal to or exceeding 20% of overall exposure at banking group level (except positions which, at the level of each individual bank/group company, show an exposure of less than €1,000);

- in the state of "unlikely-to-pay - forborne" upon exceeding 90 days of continuous overrun above the threshold;
- positions presenting one of the following prejudicial events, i.e. bankruptcy, arrangement with creditors, extraordinary administration, forced liquidation, settlement of bankruptcy proceedings, receivership, insolvency proceedings;
- as a result of 'dragging' of a default status from joint holders to a joint account, or from the joint account to joint holders, according to specific rules as detailed in the relevant paragraph.
- Positions in which the significant threshold (5%) of the overall economic loss relating to the sale of a credit obligation has been exceeded

For management purposes, the Bank has also made provision for a further classification within "Unlikely to pay", identified as "unlikely-to-pay-forborne", which may include counterparties that show at least one exposure subject to a measure of "forbearance" that is duly complied with or that remain in a state of risk pending the start of the 'Cure Period' required by law (minimum 12 months).

The following positions are automatically categorised as "unlikely-to-pay-forborne":

- forborne performing positions, arising from non-performing positions, subject to a subsequent tolerance measure on the same credit line as the previous intervention in the so-called "probation period";
- forborne performing positions, arising from non-performing positions, with a unreported overrun of more than 30 continuous days (applying a minimum tolerance threshold and with verification undertaken on the Forborne line) occurring during the Probation Period;
- positions with a forborne flag arising from closed bad loans positions with existing agreed/used residues;
- positions in the state of "non-performing past due exposures" for which forbearance measures have been granted with an overrun of zero or less than 30 days or below the threshold;
- positions presenting a misaligned SAG for more than 30 consecutive days as "unlikely-to-pay forborne" and with an exposure classified in that state as equal to or exceeding 20% of overall exposure at banking group level (except positions which, at the level of each individual bank/group company, show an exposure of less than €1,000);
- performing counterparty positions, if the calculation of the diminished obligation (in the case of a new forborne labelling) - at the time of execution of the operation on the legacy of reference - registers a value above a threshold set at 1%.

A manual classification as "unlikely to pay" - a decision on which is the responsibility of the decision-making body - is possible at any time if, in accordance with the regulatory provisions, this classification better represents the deterioration of the debtor's creditworthiness.

3.2.3 Observation period for non-performing past due overruns and for unlikely to pay exposures

Impaired exposures must continue to be classified as such until at least 3 months have passed - the so-called Probation Period - from the time when they no longer meet the conditions to be classified as non-performing past due exposures, or as unlikely to pay, as the case may be.

An exception is made for counterparties classified as “unlikely-to-pay forborne”, for a 12-month “cure period” applies, during which the counterparty is prevented from being re-classed as performing, even if the financial difficulty is overcome.

During the probation period, the conduct of the counterparty must be assessed in the light of the relevant financial situation (in particular, by verifying the absence of overruns above the relevance thresholds).

3.2.4 Effect of classification on other entities

Consideration must be given to the possibility of a contagion effect upon the occurrence of an event which results in the classification of a counterparty within a group indicating a worsening risk status, with consequences in terms of potential default by other entities within the same group.

In view of the consequences (in terms of materiality) that the classification of a counterparty could have on the ability to cover the indebtedness of the other parties of group entities, the evidence of the event is classed as a negative symptom or among the prejudicial event, with the relevant consequences.

Any repercussions for other entities arising from the classification of a counterparty therefore presuppose that they are separate and financially autonomous legal entities. In particular, in the case of relationships established with a sole proprietorship and with the natural person who operates it, given the absence of separate legal entities, any classification among non-performing loans will relate to the overall exposure.

With exclusive reference to counterparties with retail exposures (Retail and SME Retail Segments) that are linked to counterparties classified as Unlikely To Pay or among Non-performing past due exposures, automatic classification criteria are applied if linked relationships exist and where certain conditions are met.

In particular, in the case of the classification of a linked relationship among impaired exposures, the exposures of the individual joint holders will also be automatically classified, unless at least one of the following conditions has been met:

a) the delay in payment is the result of a dispute between the co-holders which has been brought before a court or has been dealt with in another extrajudicial conciliation procedure which has resulted in a binding decision, and there is no concern about the financial situation of the individual co-holders;

b) the credit obligation of the linked relationship represents a minor part of the overall exposure of the co-holder.

Outside of these automatic systems, the effects that the classification of a linked relationship among non-performing loans may have on the individual co-holders and on any other joint relationships with third parties attributable to them must in any case be assessed.

3.3 Exposures Subject to Impaired Concessions – Forbearance measures on non-performing loans

The category of "Forbearance", relating to exposures subject to re-negotiation due to the client's financial difficulties, is a subset of both non-performing exposures and of performing loans, relating to the state of risk of exposure at the time of renegotiation.

Individual cash exposures and revocable and irrevocable commitments to disburse funds that are, as the case may be, bad loans, unlikely-to-pay or among the non-performing past due exposures and that are that are subject to forbearance measures are referred to as "exposures subject to impaired concessions".

This category includes exposures for which the application of tolerance measures has resulted in conditions for classification as impaired assets (e.g. debt write-offs).

The category of "exposures subject to impaired concessions" includes those that come within the definition of "Non-performing exposures with forbearance measures" as set out in Annex V, Part 2, paragraph 180 of the ITS.

Concessions do not include agreements - reached between the debtor and a pool of creditor banks - whereby existing credit lines are temporarily "frozen" ahead of formal restructuring.

In the case of restructuring operations carried out by a pool of banks, those not party to the restructuring agreement are required to verify whether the conditions for the classification of their exposure as non-performing or unlikely-to-pay are met.

Exposures to debtors who have made an application for a so-called "blank" arrangement with creditors are to be classified among those subject to impaired concessions if the application for an arrangement is transformed into a debt restructuring agreement pursuant to Article 182-bis of the Bankruptcy Act.

Also in the case of approval of the application for composition with creditors on a going concern basis, the exposure must be recognised in the context of exposures subject to impaired concessions, except in the case described above of the sale of the business as a going concern or its transfer to one or more companies (including newly established companies) that do not belong to the economic group of the debtor, in which case the exposure must be reclassified underperforming assets, provided that the buyer/transferee is not already classified among the impaired exposures at the time of sale/transfer.

In order to remove the forborne label from exposures granted to impaired counterparties, a period of 36 months must elapse for the positions classified as impaired, consisting of:

- a 12-month 'Cure Period', calculated from the date of application of the forbearance measure or, if later, from the date of entry into a deteriorated state. It should be noted that, in the event that the restructuring agreement classed as a forbearance measure provides for a period of suspension of payments, a so-called 'Grace Period', the calculation of the days of Cure Period will start from the date of resumption of payments by the client (i.e. from the date of the end of the period of suspension). During the Cure Period, the counterparty's return to performing status will be

prevented, even if the financial difficulty has been overcome.

During the Cure Period, the regularity of payments on the line covered by the forbearance measure must be verified.

At the end of the 12-month period, the position may be reclassified as performing (by means of a specific resolution), provided that:

- the debtor has not incurred any overruns
- the debtor has paid a significant amount of principal and interest

- a further 24 months of the probation period has passed, starting from the counterparty's return to 'performing' status. In this period, exposures are placed in a special category called "forborne performing from non-performing". At the end of the 24-month Probation Period, the exposure can cease to be monitored - and the Forborne label may be cancelled - provided that the above conditions are met.

3.4 Renegotiation and restructuring of the loan if payments are not up to date

3.4.1 Renegotiation of outstanding loans - Individuals

The renegotiation of the interest rate and/or the term of the repayment plan is permitted for clients with loans/financing both secured by mortgages and unsecured loans and that are in arrears in terms of payments.

For positions classified as Proactive Credit, past due loans and/or impaired overruns and unlikely-to-pay/unlikely-to-pay-forborne, an initial agreement must be reached with the competent Credit and/or Management Department on the basis of the relevant concession or management powers, on the possibility of proposing renegotiation of the loan/financing to the client.

The renegotiation enables the loan to be brought back into line and favours its future sustainability by restructuring the repayment plan for the residual debt, possibly extending its term, in order to adapt its commitments to the client's actual cash flows.

The renegotiation operation must be approved by the body responsible for the concession, regardless of the status of the position. If the renegotiation also involves a waiver, the position must have been classified beforehand as unlikely-to-pay and the transaction must be approved by the competent body both in terms of concession and management powers.

For positions classified as non-performing Retail past due exposures, unlikely to pay and unlikely to pay forborne, renegotiation can be decided at a minimum level by the Credit Specialist for credit management at Regional Headquarters/Divisional Bank of the Local Bank Network.

The characteristics of this measure are as follows:

- the option of including the amount of the instalments due and outstanding together with the residual debt with a restructuring of the repayment plan; the client has the option of extending the term of the loan up to a further 10 years beyond the original due date, observing the limits indicated below;

- overall term of the loan, including the extension, of not more than 40 years and, for private

clients, provided that the principal debtor is not more than 80 years of age on the new due date;

- exclusively for positions classified as Proactive Credit, overrun/past due, unlikely to pay/unlikely to pay forborne, provision can be made for a grace period of not more than 36 months in which interest-only instalments will be paid, with specific minimum authorisation issued by the Regional Headquarters of the Local Bank Networks solely for to private individual counterparties;

- for all types of clients, without prejudice to the need as a matter of priority to collect at the same time as the renegotiation, in addition the portion of interest accrued since the last due date up to the day of conclusion of the transaction, of contractual interest accrued on the instalments falling due in the last six months and all default interest, with specific minimum authorization issued by the Regional Headquarters of the Local Bank Networks and, exclusively for positions classified as undergoing reorganization, overrun and unlikely-to- pay/unlikely-to-pay forborne, the latter two items (interest accrued in the last 6 months and default interest) may be deferred on the renegotiated loan. In this case, the deferment period
- may have a maximum term of 36 months and in any event not more than the residual term of the renegotiated loan. These items are non-interest-bearing, not subject to default even in the event of subsequent insolvency, and will be collected in instalments as of the first instalment following that of any interest-only instalment (in the event of a grace period). However, no exception to collection is permitted for performing loans or Proactive Credit.

This solution has significant implications, since:

- it allows the burden of repayment of the loan to be remodelled by extending the residual term, rendering payment of the relevant instalments sustainable and more consistent with actual spending capacity, and is characterised by simplicity and flexibility;
- it enables the carrying over of irregular situations in compliance with current legislation, with particular reference to the recent legislative changes introduced by the Community regulator on the subject of "Forborne" exposures.

In view of the various types of loans and the numerous possibilities for renegotiation, specific measures are assessed and decided on in each individual case, specifically taking the borrower's creditworthiness into account, as well as the particular characteristics of the individual loan agreements.

In addition to the usual options to change the duration and type of repayment plan, it is also possible:

- **for positions classified as overrun, unlikely-to-pay and forborne unlikely-to-pay, the restructuring of mortgage/purchase loans with payment of part of the principal at the maturity date of the last repayment instalment (the so-called balloon plan).**

Use of the balloon plan enables customisation of the repayment plan based on the client's current and prospective cash flows. A repayment plan with final balloon payment therefore provides for the payment of part of the capital on the last instalment of the repayment plan. The interest generated periodically by the balloon fee will be reimbursed together with the loan repayment instalment.

A renegotiation with a balloon option can only be decided on only by the competent Central Office of the Chief Lending Officer.

- **for positions classified as unlikely-to-pay/unlikely-to-pay-forborne, the renegotiation of mortgage/land loans with partial write-off of the loan**:
- if the position is subject to a specific analytical evaluation, the write-off is allowed within the limits of the value adjustments already applied to the position, and without prejudice to the limits of the management powers relating to the waiver of receivables;
- if the position is subject to an analytical evaluation on a statistical basis, the write-off is allowed within the limits of the value adjustments applied by automatic methods to the position, without prejudice to the limits of the management powers relating to the waiver of receivables.
- as a matter of priority, the write-off must always concern the default interest component. The rules for reducing any further written off sums follow the accounting rules for collection of the instalment.
- the LTV ratio of the renegotiated loan must be above 70%.

A renegotiation with write-off can be decided at the minimum level of Credit Specialist for the management of loans of the Regional Headquarters/Divisional Bank of the Local Bank Network.

3.4.2 Renegotiation of loans to companies and retail businesses (SME) in arrears

The renegotiation of the interest rate and/or the term of the repayment plan is permitted for clients with loans/financing both secured by mortgages and unsecured loans and that are in arrears in terms of payments.

For positions classified as Proactive Credit, past due loans and/or impaired overruns and unlikely-to-pay/unlikely-to-pay-forborne, an initial agreement must be reached with the competent Credit and/or Management Department on the basis of the relevant concession or management powers, on the possibility of proposing renegotiation of the loan/financing to the client.

The renegotiation enables the loan to be brought back into line and favours its future sustainability by restructuring the repayment plan for the residual debt, possibly extending its term, in order to adapt its commitments to the client's actual cash flows.

The renegotiation operation must be approved by the body responsible for the concession, regardless of the status of the position. If the renegotiation also involves a waiver, the position must have been classified beforehand as unlikely-to-pay and the transaction must be approved by the competent body both in terms of concession and management powers.

The characteristics of this measure are as follows:

- the option of including the amount of the instalments due and outstanding together with the residual debt with a restructuring of the repayment plan; the client has the option of extending the term of the loan up to a further 10 years beyond the original due date, with a total residual term, including the extension, that does not exceed 30 years;
- the renegotiation can be re-proposed up to a maximum of 2 times during the life of the loan with a total residual term, including the extension, that does not exceed 30 years. The second renegotiation is to be considered only in the event of a further deterioration of the clients capacity to repay, and is authorised at the minimum level by the Band II Credit Specialist of

the Regional Headquarters of the Local Bank Networks/Band I Credit Specialist of the Local Bank Network.

- a grace period of not more than 36 months may be provided (the period included in the extension of the duration granted) during which interest-only instalments are paid. This facility can be decided at the minimum level of the Credit Specialist of the Regional Headquarters of the Local Bank Networks/Credit Specialist of the Local Bank Network;
- without prejudice to the need as a matter of priority to collect at the same time as the renegotiation, in addition the portion of interest accrued since the last due date up to the day of conclusion of the transaction, of contractual interest accrued on the instalments falling due in the last six months and all default interest, with specific minimum authorization issued by the Regional Headquarters of the Local Bank Networks and, exclusively for positions classified as past due loans and/or impaired overruns and unlikely-to-pay/unlikely-to-pay-forborne, the latter two items (interest accrued in the last 6 months and default interest) may be deferred on the renegotiated loan. In this case, the deferment period may have a maximum term of 36 months and in any event not more than the residual term of the renegotiated loan. These items are non-interest-bearing, not subject to default even in the event of subsequent insolvency and will be collected in instalments as of the first instalment following that of any interest-only instalment (in the event of a grace period). However, no exception to collection is permitted for performing loans or Proactive Credit
- The renegotiation is subject to confirmation of the guarantees pertaining to the operation.

4. MANAGEMENT OF BAD LOANS

4.1 Categorisation as bad loans

The category of bad loans includes cash and off-balance sheet exposures to a client that is insolvent (even if not legally confirmed) or in comparable situations, independently of any loss forecasts by the bank. No account is therefore taken of any guarantees (real or personal) put in place to protect the exposures. Exposures that are in an anomalous situation due to country risk profiles are excluded.

The following are included:

- exposures to local authorities (Municipalities and Provinces) in a state of financial instability with respect to the portion subject to the relevant liquidation procedure;
- receivables acquired from third parties whose main debtors are non-performing, regardless s of the portfolio accounting allocation.

A client must be classified as bad loan:

- in any event, where one of the following circumstances has occurred:

a) a declaration of bankruptcy or of forced liquidation;

b) initiation of legal proceedings by the Bank in accordance with the procedure laid down in the applicable legislation and without prejudice to the specific nature of the positions arising from Intesa Sanpaolo Personal Finance;

c) when the number of outstanding instalments exceeds objective limits (12 monthly instalments unpaid for all technical forms) with reference to counterparties with instalment financing, except in the presence of out-of-court agreements and/or formalised repayment plans;

- following a thorough evaluation, if the following events have occurred:

d) admission to an extraordinary administration procedure, in the event that there are no real prospects of restoring the economic-financial and asset equilibrium of entrepreneurial activities;

e) legal proceedings brought by third parties;
f) cessation of business activities;
g) placement in voluntary liquidation;
h) application/admission to composition with creditors if the state of crisis can in fact be considered to coincide with the state of insolvency.

As a general rule, in accordance with regulatory provisions (Risk Centre - Instructions for Participating Intermediaries - the Supervisory Authority), recognition as bad loans implies an assessment by the intermediary of the overall financial situation of the client and cannot automatically result from a mere delay on the part of the client in paying the debt. The assertion of a receivable is not in itself a sufficient condition for it to be classed as a bad loan.

For the purposes of the Transaction, the category of Defaulted Loans will be assigned to loans classified as non-performing or those with an Arrears Ratio greater than or equal to:

- 10, in the case of loans with a monthly instalment;
- 4, in the case of loans with a quarterly instalment;
- 2, in the case of loans with a half-yearly instalment.

Also in the context of the Transaction and this Collection Policy, the "Arrears Ratio" indicates at the end of each reference month, the ratio between (a) all amounts due but not paid by way of principal and interest (excluding default interest) in relation to the Receivable and (b) the amount of the instalment relating to the Receivable itself due immediately before the end of the month. A classification as a Defaulted Loan is reversible.

4.2 MANAGEMENT OF NON PERFORMING LOANS IN "SOFFERENZA" BY THE FIRST SPECIAL SERVICER

Once classified as bad loans, positions are taken over by the relevant internal or external credit recovery unit, which immediately adopts the most appropriate recovery initiatives.

At the time of deciding on credit recovery measures, both the judicial solutions and the extrajudicial solutions are carefully assessed in terms of cost-benefit analyses, also taking the financial effect of the estimated recovery times into consideration.

The analysis takes account of all available information, in particular:

- the verification of the correct formalisation of the contractual forms certifying the existence of credit relations with the client (correct conclusion of the loan and guarantees);
- the risks of revocation/inefficacy of guarantees and/or payments;
- the up-to-date value of the guarantees;
- the financial and economic/asset position of the client and any guarantors;
- the outcome of any initiatives undertaken by the Bank to dialogue with the client (meeting, responses to any written communications);
- the existence of insolvency proceedings.

The wide-ranging powers conferred, particularly for settlements, on the Head of Direzione Centrale NPE and on the managers of the recovery units that report to him and to the Servicer (for externally managed positions), enables flexible and effective management of the recovery activities.

Legal actions for the recovery of bad loans are taken:

- directly, where possible, by ex parte claims (prompt inclusion in the liabilities, declarations of receivables in insolvency proceedings, etc.); and
- by the appointment of external legal counsel for legal actions (e.g. payment orders, levy of execution against movable and immovable property, etc.).

The decision to grant a mandate to an external lawyer is, in principle, a matter for the heads of the competent units. As a general rule, any new assignment can only be entrusted to lawyers who are listed on the Register and who are signatories to the most recent convention.

Furthermore, in the case of high-value positions, and in the higher instances of proceedings than the first, specific authorisations are required for the choice of an external lawyer and for the procedural strategy to be adopted.

The relationship with the external legal counsel (governed, including in economic aspects, by an agreement) provides for (i) a frequent documentary and informative update on the main aspects of interest to the Bank (e.g. debtor's interest in an extrajudicial settlement of the dispute or the admission of the claim to the statement of liabilities) as well as (ii) monitoring of the work of the external counsel by legal practitioners, under the supervision and with the aid of the their heads of department.

With particular regard to recovery procedures typical of positions for a significant amount, when such a position is taken, an immediate review is conducted, taking all urgent and necessary measures to optimise the possibility of recovery of the loan, including through the acquisition of new guarantees (e.g. judicial liens).

The advisability of submitting an urgent bankruptcy application is also assessed, if it is useful to prevent the consolidation of guarantees or measures (e.g. payments) taken by the debtor in favour of third parties.

Following a necessary initial stage dedicated to the more urgent measures of protecting the loan, the best operating strategy to be implemented is drawn up in order to maximise recovery of the loan as soon as possible.

From this standpoint, it may be decided:

- to proceed with direct recovery of the individual loan (judicially or extra judicially);
- to proceed to 'without recourse' assignment of portfolios "en bloc" and of individual receivables of a significant amount, to leading national and international operators.

The choice of one of the above solutions does not, of course, preclude recourse to the others.

With reference to a possible assignment without recourse of non performing or mixed portfolio, the Bank's CFO Area maintains regular contact with the main investors operating in the sector of acquisitions of non-performing loans (NPLs) and a list of possible investors. This knowledge of the

market makes it possible, also in the case of assignment of individual loans, to conclude the assignment agreement in very short timescales and under the best possible conditions.

With reference to a possible assignment without recourse of individual bad loans of smaller entity, which in any case must be carried out in the interest of the securities holders, it has to be represented that subjects delegated by the Servicer maintain regular contact with the main investors operating in the sector of acquisitions of non-performing loans (NPLs). This knowledge of the market allows, also in the case of assignment of individual loans, to conclude the assignment agreement in very short timescales and under the best possible conditions.

However, if it is deemed preferable and more appropriate to proceed with direct recovery of the loan, the following options are available:

- extrajudicial proceedings

or

- judicial proceedings (aimed at individual enforcement and/or insolvency proceedings).

With regard to loans involving a significant sum, it is often the case that extrajudicial solutions, which do not rule out simultaneous recourse to judicial proceedings, are proposed by the debtor itself to the entire circle of lending banks.

During these meetings, the parent company's policy is generally to avoid recourse to "new finance", as it always prefers solutions that enable (if possible, also with the contribution of third party financial resources) a prompt settlement of the matter, since the time necessary to recover a loan obviously represents a burden for the Group banks.

If extrajudicial recovery is not considered possible or advisable, the advisability of undertaking individual enforcement or insolvency proceedings is assessed, depending on the specific situation (risks of revocation of guarantees and/or payments or advisability of bankruptcy in order to avoid the consolidation of guarantees acquired by third parties).

If the path of individual enforcement is preferred, every effort is made to enable a prompt sale of assets (including the option of assigning the compulsory sale procedure to a notary or other professionals).

In the event of insolvency proceedings, the timescales are less easily controlled but, in such cases also, attempts are made to speed up the sale and distribution of the assets, insofar as permitted by bankruptcy legislation.

For the management of bad loans entrusted to the Servicer, ISP OBG S.r.l. is granted powers to be exercised independently within the scope of the rights indicated below, including filings and appearance in any type of legal action.

The Servicer will be entitled to perform part of its activities also through the structures of Intesa Sanpaolo.

The payment of indemnities by the insurance company AmTrust International Ltd for high LTV loans (LTV from 80.01% to 100% at the time of disbursement of the loan) covered by an insurance policy is requested by the Servicer and normally only once all the activities for recovery of the receivables

concerned have been performed (such as, for example, enforcement actions on the assets covered by the real estate guarantee, enforcement of any other accessory guarantees, practices relating to the compensation of other insured damages and related disputes).

F) **Rights regarding legal expenses**

The First Special Servicer may order expense facilities of up to a limit of €300,000 (three hundred thousand Euro) per individual facility.

4.3 Rights attributed to the Second Special Servicer (if any) on bad loans transferred to ISP OBG S.r.l. by Intesa Sanpaolo S.p.A.

Once the receivables are recorded as Defaulted Loans classified as "in sofferenza", the Servicer communicates the credit position to the Second Special Servicer (if any) by providing information on the financial situation of the debtor and/or any guarantors and submits all the documentation needed to activate the recovery. In communicating to the Second Special Servicer the credit position of the Defaulted Loans classified as "in sofferenza", the Servicer highlights, inter alia, that the relevant Defaulted Loans classified as "in sofferenza" relate to the Programme.

The powers of the Second Special Servicer (if any) in relation to Defaulted Loans classified as "in sofferenza" that it manages itself are the same as the powers conferred upon the Second Special Servicer in respect of individual customers by certain agreements between Intesa Sanpaolo and the Second Special. Such management powers shall be deemed to be amended from time to time in the event of subsequent agreements between the companies of Intesa Sanpaolo Group and the Second Special Servicer, provided that such powers may not be wider than the powers of the First Special Servicer as provided by the Collection Policies. In case of amendments of these powers, the First Special Servicer will promptly inform ISP OBG S.r.l. and the Representative of the Covered Bondholders.

As specified under the Servicing Agreement, the Second Special Servicer (if any) may also avail itself of third parties, who will act under its responsibility, to carry out specific servic es relating to the management of defaulted loans classified as "in sofferenza". The power to delegate to such third parties is regulated by certain agreements between Intesa Sanpaolo and the Second Special Servic er. Even in this case, such powers shall be deemed amended from time to time in the event of subsequent agreements between the First Special Servicer and the Second Special Servicer. In case of amendments of these powers, the First Special Servicer will promptly inform ISP OBG S.r.l. and the Representative of the Covered Bondholders.

4. DEFAULTED SECURITIES – MONITORING OF EVENT OF DEFAULTED

The Servicer shall monitor on a continuing basis the financial performance of the Securities and the fulfilment of the Debtors' obligations in respect of the Securities, and shall classify as Defaulted Securities the Securities (i) whose issuer has been classified as "in default"; (ii) that may be considered "in default" in accordance with the provisions of the relevant Securities documents provided that an acceleration notice has been served by the relevant representative of the noteholders or trustee, and (iii) that have been delinquent for more than 30 Business Days starting from the maturity date provided for under the relevant Securities documents."

CREDIT STRUCTURE

The Covered Bonds (*obbligazioni bancarie garantite*) will be direct, unsecured, unconditional obligations of the Issuer guaranteed by the Covered Bond Guarantor. The Covered Bond Guarantor has no obligation to pay the Guaranteed Amounts under the Covered Bond Guarantee until (i) the occurrence of an Article 74 Event or an Issuer Event of Default, service by the Representative of the Covered Bondholders on the Covered Bond Guarantor of either an Article 74 Notice to Pay (which has not been withdrawn) or a Notice to Pay, or (ii) the occurrence of a Covered Bond Guarantor Event of Default and service by the Representative of the Covered Bondholders of a Covered Bond Guarantor Acceleration Notice on the Covered Bond Guarantor. The Issuer will not be relying on payments by the Covered Bond Guarantor under the Subordinated Loan in order to pay interest or repay principal under the Covered Bonds.

There are a number of features of the Programme which enhance the likelihood of timely and, as applicable, ultimate payments to Covered Bondholders:

(i) the Covered Bond Guarantee provides credit support to the Issuer;

(ii) the Tests are intended to ensure that the Portfolio is sufficient to repay the Covered Bonds at all times;

(iii) among the Tests: (i) the Nominal Value Test is intended to maintain the sufficiency of the Covered Bond Guarantor's assets in respect of the Covered Bonds and (ii) the Amortisation Test is intended to test the sufficiency of the Covered Bond Guarantor's assets in respect of the Covered Bonds following the occurrence of an Issuer Event of Default and service of a Notice to Pay on the Covered Bond Guarantor;

(iv) extendable maturity provisions are applicable to all Series of Covered Bonds as specified in the relevant Final Terms.

Certain of these factors are considered in more detail in the remainder of this section.

Covered Bond Guarantee

The Covered Bond Guarantee provided by the Covered Bond Guarantor guarantees payment of the Guaranteed Amounts on the Due for Payment Date in respect of all Covered Bonds issued under the Programme. The Covered Bond Guarantee will not guarantee any other amount payable in respect of the Covered Bonds for any other reason, including any accelerated payment following the occurrence of an Issuer Event of Default or an Article 74 Event. In this circumstance (and until a Covered Bond Guarantor Event of Default occurs and a Covered Bond Guarantor Acceleration Notice is served), the Covered Bond Guarantor's obligations will only be to pay the Guaranteed Amounts on the Due for Payment Date.

See paragraph headed "*Covered Bond Guarantee*" under the section headed "*Description of the Transaction Documents*", as regards the terms of the Covered Bond Guarantee.

Under the terms of the Portfolio Administration Agreement, the Issuer must ensure that the Portfolio is in compliance with the Tests described below on each Calculation Date or on any other date on which the verification of the Tests is required pursuant to the Transaction Documents.

If on any Calculation Date the Portfolio is not in compliance with the Mandatory Tests, then the Seller which assigned the relevant Portfolio to the Covered Bond Guarantor and, should the relevant Seller fail to do so, the other Seller and/or any Additional Sellers (if any), provided that the conditions indicated under the relevant Master Transfer Agreement are met, shall sell Eligible Assets or Integration Assets to the Covered Bond Guarantor in an amount sufficient to allow the Mandatory Tests to be met as soon as possible, in accordance with the relevant Master Transfer Agreement. To facilitate such a sale, the relevant Seller and/or the other Sellers and/or any Additional Seller (if any) shall grant additional amounts under the relevant Subordinated Loan for the purposes of funding the purchase of Eligible Assets or Integration Assets. If a breach of the Mandatory Tests is not remedied

and for so long as such breach is continuing, no further Series of Covered Bonds will be issued and no payments under the Subordinated Loan will be effected.

Tests

For so long as any Covered Bond remains outstanding and provided that no Issuer Event of Default has occurred, the Issuer shall procure that, on a continuing basis (provided that such obligation shall be deemed to be complied with if the following mandatory tests are satisfied on each Calculation Date and/or on each other date on which those mandatory tests are to be carried out pursuant to the provisions of the Portfolio Administration Agreement and the other Transaction Documents), the following mandatory tests are satisfied and verified on each Calculation Date or any other date on which the verification of the Mandatory Tests is required pursuant to the Transaction Documents.

1. ***Nominal Value Test***

Prior to the occurrence of an Issuer Event of Default, the Nominal Value of the Portfolio shall be greater than or equal to the aggregate Outstanding Principal Balance of all Series of Covered Bonds (the **Nominal Value Test**).

Nominal Value of the Portfolio will be an amount calculated on each Calculation Date by applying the following formula (without double-counting):

$$A+B+D+C-Y-Z$$

where,

"A" stands for the aggregate **Adjusted Outstanding Principal Balance** of each Mortgage Loan, which shall be the lower of:

(i) the Outstanding Principal Balance of the relevant Mortgage Loan as calculated by reference to the relevant Collection Date; and

(ii) the Latest Valuation relating to the Real Estate Asset of the relevant Mortgage Loan multiplied by M,

where

(a) for all Residential Mortgage Loans that are not Defaulted Loans, M = 0.80;

(b) for all Commercial Mortgage Loans that are not Defaulted Loans, M = 0.60, subject in any case to the Aggregate Percentage Limitation (as defined under "D" below); and

(c) for all Mortgage Loans that are Defaulted Loans M = 0;

minus

the aggregate sum of the following reductions to the aggregate Adjusted Outstanding Principal Balance of the Mortgage Loans in the Portfolio:

(1) a Mortgage Loan (or any Security relating thereto) in relation to which a breach of the representations and warranties contained in the relevant Master Transfer Agreement has occurred and has not been remedied or which is subject to any indemnity and/or repurchase obligation of the relevant Seller or any relevant Additional Seller, and in each case any relevant Seller or any relevant Additional Seller, has not repurchased the Mortgage Loan or Mortgage Loans (each an **Affected Loan**) of the relevant Debtor, to the extent required by the terms of the relevant Master Transfer Agreement. In this event, the aggregate Adjusted Outstanding Principal Balance of the Mortgage Loans in the Portfolio (as calculated on the relevant Calculation Date) will be deemed to be reduced by an amount equal to the Adjusted Outstanding Principal Balance of the relevant Affected Loan or Affected Loans (as calculated on the relevant Calculation Date); and/or

(2) any Seller or any Additional Seller is in breach of any other material warranty under the relevant Master Transfer Agreement and/or any Servicer is in breach of a material term of the Servicing Agreement. In this event, the aggregate Adjusted Outstanding Principal Balance of the Mortgage Loans in the Portfolio (as calculated on the relevant Calculation Date) will be deemed to be reduced by an amount equal to the resulting financial loss incurred by the Covered Bond Guarantor (such financial loss to be calculated by the Covered Bond Guarantor or on its behalf by the Calculation Agent without double counting and to be reduced by any amount paid (in cash or in kind) to the Covered Bond Guarantor by the Issuer, the Sellers, any Additional Seller and/or the Servicers to indemnify the Covered Bond Guarantor for such financial loss);

the amount resulting from the calculations above, *multiplied by* the Asset Percentage;

"B" stands for the aggregate amount standing to the credit of the Investment Account and the principal amount of any Integration Assets (i) not exceeding the Integration Assets Limit and (ii) in relation to which a breach of any of the representations and warranties contained in the relevant Master Transfer Agreement has not occurred or has been remedied;

"D" stands for the principal amount of any other Eligible Asset not indicated under "A" above and included in the Portfolio (i) not exceeding (together with any Eligible Asset consisting of receivables indicated under Article 2, Paragraph 1 (b) of the MEF Decree and/or asset backed securities whose securities receivables are those indicated under Article 2, Paragraph 1 (b) of the MEF Decree) 10% of the aggregate Outstanding Principal Balance of the assets included in the Portfolio (the **Aggregate Percentage Limitation**), and (ii) in relation to which a breach of any of the representations and warranties contained in the relevant Master Transfer Agreement has not occurred or has been remedied;

"C" stands for the aggregate amount of all Eligible Investments;

"Y" is equal to (i) nil, if the Issuer's ratings are at least "BBB (low)" by DBRS, or (ii) the Potential Set-Off Amount;; and

"Z" stands for the weighted average remaining maturity (expressed in years) of all Covered Bonds then outstanding multiplied by the aggregate Outstanding Principal Balance of the Covered Bonds multiplied by the Negative Carry Factor.

Negative Carry Factor means a percentage (which will never be less than 0.5% or another percentage determined by the Issuer and notified to the Calculation Agent and the Representative of the Covered Bondholders) calculated by the Calculation Agent on each Calculation Date or any other date on which the verification of the Mandatory Tests is required pursuant to the Transaction Documents, with reference to the weighted average margin of the Covered Bonds.

2. ***Net Present Value (NPV) Test***

The aggregate Net Present Value of (i) the Eligible Portfolio and (ii) each Asset Swap and Liability Swap, net of the Excluded Swaps and the transaction costs to be borne by the Covered Bond Guarantor (including the payments of any nature expected to be borne or due with respect to any Swap Agreement) shall be greater than or equal to the Net Present Value of all Series of the outstanding Covered Bonds (the **NPV Test**).

Discount Factor means the discount rate, implied in the relevant Swap Curve, calculated by the Servicer.

Net Present Value means, as of any relevant date, (i) in respect of (a) the Eligible Portfolio, (b) each Asset Swap and Liability Swap and (c) the transaction costs to be borne by the

Covered Bond Guarantor, an amount equal to the algebraic sum of the product of each relevant Discount Factor and expected payments (or Euro Equivalent of the expected payments) to be received or to be effected by the Covered Bond Guarantor; and (ii) in respect of all Series of the outstanding Covered Bonds, an amount equal to the sum of the product of each relevant Discount Factor and expected interest and principal payments (or Euro Equivalent of such expected payments) to be effected in respect of such Series of outstanding Covered Bonds.

Swap Curve means the term structure of interest rates used by the Servicer in accordance with the best market practice and calculated based on market instruments.

3. ***Interest Coverage Test***

The Net Interest Collections from the Eligible Portfolio shall be greater than or equal to the Interest Payments (the **Interest Coverage Test**).

Euro Equivalent means at any date, in relation to any amount or payment referred to a loan, a bond, an agreement or any other asset the amount or payment referred to such loan, bond, agreement or asset at such date denominated in Euro where the exchange rate corresponds to (i) the current exchange rate fixed by the Servicer in accordance with its usual practice at that time for calculating that equivalent should any currency hedging agreement be not in place or (ii) the exchange rate indicated in the relevant currency hedging agreement in place.

Expected Floating Payments means the amount (or the Euro Equivalent amount), determined on the basis of the Swap Curve, of expected principal and interest payments from the Floating Component of the Eligible Portfolio, the expected Swap Agreements floating leg payments, or the expected interest payments on outstanding Series of floating rate Covered Bonds, as the case may be.

Fixed Component of the Eligible Portfolio means the Eligible Assets or Integration Assets being part of the Eligible Portfolio remunerated on the basis of a fixed rate of interest.

Floating Component of the Eligible Portfolio means the Eligible Assets or Integration Assets being part of the Eligible Portfolio remunerated on the basis of a floating rate of interest.

Interest Payments means, as of a Calculation Date or any other relevant date, with reference to all following Guarantor Interest Periods up to the last Maturity Date, or Extended Maturity Date, as the case may be, an amount equal to the aggregate of (a) expected interest payments (or the Euro Equivalent of the expected interest payments) in respect of the outstanding Series of Covered Bonds (other than floating rate Covered Bonds) and (b) Expected Floating Payments in respect of interest on floating rate Covered Bonds.

Net Interest Collections from the Eligible Portfolio means, as of a Calculation Date or any other relevant date with reference to all (x) following Guarantor Payment Dates, or (y) the relevant Guarantor Interest Periods, and (z) the relevant Collection Periods, as the case may be, up to the last Maturity Date or Extended Maturity Date of any Series of Covered Bonds, as the case may be, an amount equal to the difference between (i) and (ii), where:

(i) is equal to the sum of:

(a) interest payments (or the Euro Equivalent of the interest payments) from the Fixed Component of the Eligible Portfolio and payments and Expected Floating Payments in respect of interest from the Floating Component of the Eligible Portfolio received or expected to be received;

(b) any amount expected to be received by the Covered Bond Guarantor as payments under the Asset Swaps (which are not Excluded Swaps);

(c) any amount (or the Euro Equivalent of any amount) expected to be received by the Covered Bond Guarantor as payments under the Liability Swaps (which are not Excluded Swaps); and

(ii) is equal to the payments (or the Euro Equivalent of the payments) to be effected in accordance with the relevant Priority of Payments, by the Covered Bond Guarantor in priority to, and including, payments under the Swap Agreements (which are not Excluded Swaps).

For the avoidance of doubt, items under (i)(a) above shall include interest expected to be received from the investment, into Eligible Investments, of principal collections arising from the expected amortisation of the Eligible Portfolio.

The Nominal Value Test, the NPV Test and the Interest Coverage Test are jointly defined as the **Mandatory Tests**.

4. ***Amortisation Test***

In accordance with the Portfolio Administration Agreement, the Issuer shall procure that, for so long as any Covered Bond remains outstanding and following the occurrence of an Issuer Event of Default, and service of a Notice to Pay by the Representative of the Covered Bondholders, on a continuing basis (provided that such obligation shall be deemed to be complied with if the following test is satisfied on each Calculation Date and/or on each other date on which that test is to be carried out pursuant to the provisions of the Portfolio Administration Agreement and the other Transaction Documents), the following test is satisfied and verified on each Calculation Date.

The Amortisation Test Aggregate Portfolio Amount shall be greater than or equal to the Outstanding Principal Balance of the Covered Bonds (the **Amortisation Test** and, together with the Mandatory Tests, the **Tests**).

Amortisation Test Aggregate Portfolio Amount will be an amount calculated on each Calculation Date by applying the following formula (without double-counting):

$$A+B+D+C-Z$$

where,

"A" stands for the aggregate **Amortisation Test Outstanding Principal Balance** of each Mortgage Loan then in the Portfolio, which shall be the lower of:

(i) the Outstanding Principal Balance of the relevant Mortgage Loan as calculated by reference to the relevant Collection Date; and

(ii) the Latest Valuation relating to the Real Estate Asset of the relevant Mortgage Loan multiplied by M,

where

(a) for all Residential Mortgage Loans that are not Defaulted Loans, M = 0.80;

(b) for all Commercial Mortgage Loans that are not Defaulted Loans, M = 0.60; and

(c) for all Mortgage Loans that are Defaulted Loans M = 0;

minus

the aggregate sum of the following reductions to the aggregate Amortisation Test Outstanding Principal Balance of the Mortgage Loans in the Portfolio:

(1) a Mortgage Loan in relation to which a breach of the representations and warranties contained in the relevant Master Transfer Agreement has occurred and has not been remedied or which is subject to any indemnity and/or repurchase obligation of the relevant Seller or any relevant Additional Seller, and in each case the relevant Seller or any relevant Additional Seller, has not repurchased the Mortgage Loan or

Mortgage Loans (each an **Affected Loan**) of the relevant Debtor, to the extent required by the terms of the relevant Master Transfer Agreement. In this event, the aggregate Adjusted Outstanding Principal Balance of the Mortgage Loans in the Portfolio (as calculated on the relevant Calculation Date) will be deemed to be reduced by an amount equal to the Adjusted Outstanding Principal Balance of the relevant Affected Loan or Affected Loans (as calculated on the relevant Calculation Date); and/or

(2) any Seller or any Additional Seller is in breach of any other material warranty under the relevant Master Transfer Agreement and/or any Servicer is in breach of a material term of the Servicing Agreement. In this event, the aggregate Adjusted Outstanding Principal Balance of the Mortgage Loans in the Portfolio (as calculated on the relevant Calculation Date) will be deemed to be reduced by an amount equal to the resulting financial loss incurred by the Covered Bond Guarantor (such financial loss to be calculated by the Covered Bond Guarantor or on its behalf by the Calculation Agent without double counting and to be reduced by any amount paid (in cash or in kind) to the Covered Bond Guarantor by the Issuer, the Sellers, any Additional Seller and/or the Servicers to indemnify the Covered Bond Guarantor for such financial loss);

"B" stands for the aggregate amount standing to the credit of the Investment Account and the principal amount of any Integration Assets in relation to which a breach of any of the representations and warranties contained in the relevant Master Transfer Agreement has not occurred or has been remedied;

"C" stands for the aggregate amount of all Eligible Investments; and

"Z" stands for the weighted average remaining maturity (expressed in years) of all Covered Bonds then outstanding multiplied by the aggregate Outstanding Principal Balance of the Covered Bonds multiplied by the Negative Carry Factor.

The Tests are fulfilled in accordance with the Portfolio Administration Agreement. In particular, the Amortisation Test will be run only following the occurrence of an Issuer Event of Default, provided that such test is structured to ensure that the Portfolio contains sufficient assets to enable the Covered Bond Guarantor to meet its obligations under the Covered Bond Guarantee.

Compliance with the Tests will be verified by the Calculation Agent and internal risk management functions of the Intesa Sanpaolo Group (under the supervision of the management body (*organo con funzione di gestione*) of the Issuer) on each Calculation Date and on any other date on which the verification of the Tests is required pursuant to the Transaction Documents, and subsequently checked by the Asset Monitor on a semi-annual basis.

In addition to the above, following the occurrence of a breach of the Tests, based on the information provided by the Servicers with reference to the last day of each preceding calendar month (starting from the date on which such breach has been notified, and until 6 (six) months after the date on which such breach has been cured), the Calculation Agent shall verify compliance with the Tests not later than the thirty-fifth calendar day following the end of each preceding calendar month. In addition to the terms defined above, for the purposes of this section:

Asset Percentage means the lower of (i) 9.5% and (ii) such other percentage figure as determined by the Issuer on behalf of the Covered Bond Guarantor in accordance with the Rating Agency's methodologies (after procuring the required level of overcollateralisation), and notified using the *pro forma* notice attached under Schedule 1 (*Notice of the Asset Percentage*) of the Portfolio

Administration Agreement, to the Representative of the Covered Bondholders, the Servicer, the Calculation Agent and the Asset Monitor and the Rating Agency. The Asset Percentage as at 7 April 2016 is 94.5%. Any adjustment of the Asset Percentage, from that previously notified, will appear from the relevant Investor Report as the new Asset Percentage as determined in accordance with the Portfolio Administration Agreement.

Calculation Date means 3rd February, 3rd May, 3rd August and 3rd November in each calendar year or, in case such date is not a Business Day, the following Business Day, provided that the first Calculation Date will be 5th November 2012.

Defaulted Receivable means a Receivable classified as in sofferenza in accordance with the provisions of the Collection Policies, as applied in compliance with the provisions of the Bank of Italy's supervisory regulations (*Istruzioni di Vigilanza della Banca d'Italia*) and in accordance with a prudent management of the Receivables carried out with the highest professional standards; and /or, with the provisions of the Collection Policies, when the Arrears Ratio is at least equal to (i) 10, in case of Mortgage Loans providing for monthly instalments, (ii) 4, in case of Mortgage Loans providing for quarterly instalments and (iii) 2, in case of Mortgage Loans providing for semi-annual instalments. For the purposes of this definition, **Arrears Ratio** means, at the end of each monthly reference period, the ratio between (a) all amounts due and unpaid as principal and/or interest (excluding any default interest) in relation to the relevant Receivable and (b) the amount of the instalment of the relevant Receivable which was due immediately prior to the end of that month. Defaulted Securities (*Titoli in Default*) means the Securities which may be classified as defaulted in accordance with the provisions of the Collection Policies.

4. Covered Bond Guarantee

On or about the First Issue Date the Covered Bond Guarantor issued the Covered Bond Guarantee securing the payment obligations of the Issuer under the Covered Bonds, in accordance with the provisions of Law 130 and of the MEF Decree.

Under the terms of the Covered Bond Guarantee, if the Issuer defaults in the payment on the due date (subject to any applicable grace periods) of any monies due and payable under or pursuant to the Covered Bonds, or if any other Issuer Event of Default or an Article 74 Event occurs, the Covered Bond Guarantor has agreed (subject as described below) to pay, or procure to be paid, following service by the Representative of the Covered Bondholders of a Notice to Pay or an Article 74 Notice to Pay (which has not been withdrawn), unconditionally and irrevocably, any amounts due under the Covered Bonds as and when the same were originally due for payment by the Issuer, as of any Maturity Date or, if applicable, Extended Maturity Date.

Pursuant to Article 7-*bis*, paragraph 1, of Law 130 and Article 4 of the MEF Decree, the guarantee provided under the Covered Bond Guarantee is a first demand (*a prima richiesta*), unconditional, irrevocable (*irrevocabile*) and independent guarantee (*garanzia autonoma*) and therefore provides for direct and independent obligations of the Covered Bond Guarantor *vis-à-vis* the Covered Bondholders and with limited recourse to the Available Funds, irrespective of any invalidity, irregularity or unenforceability of any of the guaranteed obligations of the Issuer. The provisions of the Italian Civil Code relating to *fideiussione* set forth in articles 1939 (*Validità della fideiussione*), 1941, paragraph 1 (*Limiti della fideiussione*), 1944, paragraph 2 (*Escussione preventiva*), 1945 (*Eccezioni opponibili dal fideiussore*), 1955 (*Liberazione del fideiussore per fatto del creditore*), 1956 (*Liberazione del fideiussore per obbligazione futura*) and 1957 (*Scadenza dell'obbligazione principale*) shall not apply to the Covered Bond Guarantee.

Following the occurrence of an Article 74 Event or an Issuer Event of Default and the service of an Article 74 Notice to Pay (which has not been withdrawn) or a Notice to Pay, the Covered Bond Guarantor shall pay or procure to be paid on the relevant Scheduled Due for Payment Date to the Covered Bondholders an amount equal to those Guaranteed Amounts which shall become due for payment in accordance with the relevant Conditions, but which have not been paid by the Issuer to the relevant Covered Bondholder on the relevant Scheduled Payment Date.

Following the occurrence of a Covered Bond Guarantor Event of Default and the service by the Representative of the Covered Bondholders of a Covered Bond Guarantor Acceleration Notice in respect of all Covered Bonds, which shall become immediately due and repayable, the Covered Bond Guarantor shall pay or procure to be paid on the Due for Payment Date to the Covered Bondholders, the Guaranteed Amounts for all outstanding Covered Bonds.

paid by the Covered Bond Guarantor on any Scheduled Payment Date thereafter, up to (and including) the relevant Extended Maturity Date. In addition, to the extent that the Covered Bond Guarantor has insufficient monies available after payment of higher ranking amounts and taking into account amounts ranking *pari passu* therewith in the relevant Priorities of Payments, the Covered Bond Guarantor shall make partial payments of the Guaranteed Amounts in accordance with the Post-Issuer Default Priority of Payments.

Following service of a Covered Bond Guarantor Acceleration Notice all Covered Bonds will accelerate against the Covered Bond Guarantor in accordance with the Conditions, becoming due and payable, and they will rank *pari passu* amongst themselves and the Available Funds shall be applied in accordance with the Post-Guarantor Default Priority of Payments.

All payments of Guaranteed Amounts by or on behalf of the Covered Bond Guarantor will be made without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or other governmental charges of whatever nature unless such withholding or deduction of such taxes, assessments or other governmental charges are required by law or regulation or administrative practice of any jurisdiction. If any such withholding or deduction is required, the Covered Bond Guarantor will pay the Guaranteed Amounts net of such withholding or deduction and shall account to the appropriate tax authority for the amount required to be withheld or deducted. The Covered Bond Guarantor will not be obliged to pay any amount to any Covered Bondholder in respect of the amount of such withholding or deduction.

Exercise of rights

Article 4, Paragraph 3, of the MEF Decree shall substitute the Issuer with respect to all obligations of the Issuer towards the Covered Bondholders in accordance with the terms and conditions originally set out for the Covered Bonds, so that the rights of payment of the Covered Bondholders in such circumstance will only be the right to receive payments of the Scheduled Interest and the Scheduled Principal from the Covered Bond Guarantor on the Scheduled Due for Payment Date. In consideration for the substitution of the Covered Bond Guarantor in the performance of the payment obligations of the Issuer under the Covered Bonds, the Covered Bond Guarantor (directly or through the Representative of the Covered Bondholders) shall exercise, on an exclusive basis, the rights of the Covered Bondholders vis-à-vis the Issuer and any amount recovered from the Issuer will be part of the Available Funds.

As a consequence and as expressly indicated in the Conditions, the Covered Bondholders have irrevocably delegated to the Covered Bond Guarantor (also in the interest and for the benefit of the Covered Bond Guarantor) the exclusive right to proceed against the Issuer to enforce the performance of any of the payment obligations of the Issuer under the Covered Bonds, including any rights of enforcing any acceleration of payment provisions provided under the Conditions or under the applicable legislation. For this purpose the Representative of the Covered Bondholders, on behalf of the Covered Bondholders, upon request of the Covered Bond Guarantor, shall provide the Covered Bond Guarantor with any powers of attorney and/or mandates as the latter may deem necessary or expedient for taking all necessary steps to ensure the timely and correct performance of its mandate.

Pursuant to the Deed of Charge and Assignment, the Covered Bond Guarantor has assigned by way of security to, and charged in favour of, the Representative of the Covered Bondholders (acting in its capacity as trustee for itself and the Secured Creditors), all of its rights, title, interest and benefit from time to time in and to the Swap Agreements.

Governing Law

The Deed of Charge and Assignment, and any non-contractual obligations arising out of or in connection with the Deed of Charge and Assignment, is governed by English law.

15. Swap Agreements

Liability Swaps

The Covered Bond Guarantor may enter into one or more swap transactions on each Issue Date with the Liability Hedging Counterparty in order to hedge certain interest rate and/or, if applicable, currency exposure in relation to its obligations under the Covered Bonds. Each swap transaction is documented by the 1992 ISDA Master Agreement (Multicurrency-Cross Border) and the Schedule thereto (the **Liability Swap Master Agreement**), as published by the International Swap and Derivatives Association, Inc. (**ISDA**), as supplemented by a 1995 Credit Support Annex (English Law) published by ISDA (the **Liability Swap CSA**) and a confirmation (the **Liability Swap Confirmation**) evidencing the terms of such transaction (the Liability Swap Master Agreement, the

Liability Swap CSA and the Liability Swap Confirmation, together the **Liability Swap**), all governed by English law.

Each Liability Swap, if any, will contain certain limited termination events and events of default which will entitle either party to terminate the relevant Liability Swap.

In the event of early termination of a Liability Swap, the Covered Bond Guarantor or the relevant Liability Hedging Counterparty may be liable to make a termination payment to the other in accordance with the provisions of the respective Liability Swap. Such payment will be made in accordance with the Priority of Payments set out in the Intercreditor Agreement.

Each Liability Swap entered into in connection with a Series of Covered Bond will terminate on the Maturity Date of the relevant Series of Covered Bond or, if applicable under the relevant Final Terms and agreed by the Parties, on the Extended Maturity Date or the Long Date Due For Payment Date, as the case may be, unless terminated earlier in accordance with its terms.

Asset Swaps

The Covered Bond Guarantor may enter into one or more swap transactions on or about the date of the transfer of each Portfolio or on or about each Issue Date with the Asset Hedging Counterparty in order to hedge the interest rate risks and/or currency risks related to the transfer of each Portfolio. Each swap transaction is documented by the 1992 ISDA Master Agreement (Multicurrency-Cross Border) and the Schedule thereto (the **Asset Swap Master Agreement** and, together with the Liability Swap Master Agreement, the **Master Agreements**), as published by ISDA, as supplemented by a 1995 Credit Support Annex (English Law) published by ISDA (the **Asset Swap CSA**) and a confirmation (the **Asset Swap Confirmation**) evidencing the terms of such transaction (the Asset Swap Master Agreement, the Asset Swap CSA and the Asset Swap Confirmation, together the **Asset Swap** and, together with the Liability Swap, the **Swap Agreements**), all governed by English law.

In the event of early termination of an Asset Swap, the Covered Bond Guarantor or the relevant Asset Hedging Counterparty may be liable to make a termination payment to the other in accordance with the provisions of the respective Asset Swap. Such payment will be made in accordance with the Priority of Payments set out in the Intercreditor Agreement.

Pursuant to the Asset Swap to be entered into on or around the First Issue Date, the Covered Bond Guarantor will hedge the interest rate risks relating to the Mortgage Loans included in the Initial Portfolio (the **Initial Asset Swap**).

Each Asset Swap will contain certain limited termination events and events of default which will entitle either party to terminate the relevant Asset Swap.

Governing Law

The Swap Agreements are governed by English law.

Notwithstanding the above, the Covered Bond Guarantor could enter into hedging agreements, other than the Master Agreements, in order to hedge the interest rate and/or currency risk related to the transfer of each Portfolio or to the Covered Bonds. Details of such agreements will be provided for, from time to time, in the relevant Final Terms.

16. Swap Service Agreements

Pursuant to the Swap Service Agreements, Intesa Sanpaolo and any other party which may enter in the Programme has agreed or will agree, as the case may be, to provide the Covered Bond Guarantor with certain services due under the Swap Agreements in order to implement the provisions relating, *inter alia*, to the reporting activities imposed by EMIR Regulation.

Pursuant to the Swap Service Agreements, no additional fees are due to Intesa Sanpaolo, Cassa di Risparmio in Bologna S.p.A. and Banca CR Firenze S.p.A., in their capacity as Swap Service Providers, other than the fees due to the same entities in their capacity as Hedging Counterparties under the relevant Swap Agreements.

Governing Law

The Swap Service Agreements, and any non-contractual obligations arising out of or in connection with the Swap Service Agreements, are governed by Italian law.

17. French Law Security Document

Under the French Law Security Document, the Covered Bond Guarantor has pledged the amounts standing to the credit of the each of the CACIB French Cash Accounts and the CACIB French Securities Accounts in favour of the Representative of the Covered Bondholders.

Governing Law

The French Law Security Document is governed by French law.

18. Master Definitions Agreement

Under the Master Definitions Agreement, the parties thereto have agreed upon the definitions of certain terms utilised in the Transaction Documents.

Governing Law

The Master Definitions Agreement, and any non-contractual obligations arising out of or in connection with the Master Definitions Agreement, is governed by Italian law.

SELECTED ASPECTS OF ITALIAN LAW

The following is an overview only of certain aspects of Italian law that are relevant to the transactions described in this Base Prospectus and of which prospective Covered Bondholders should be aware. It is not intended to be exhaustive and prospective Covered Bondholders should also read the detailed information set out elsewhere in this Base Prospectus.

Law 130, Article 7-*bis* thereof and BoI OBG Regulations. General remarks

Law 130 was enacted on 30 April 1999 and was conceived to simplify the securitisation process and to facilitate the increased use of securitisation as a financing technique in the Republic of Italy. Law 130 was further amended during the following years. Law Decree No. 35 of 14 March 2005, converted with amendments into law by Law no. 80 of 14 May 2005, added articles 7-*bis* and 7-*ter* to Law 130, for the purpose of allowing Italian banks to use the securitisation techniques introduced by Law 130 in view of issuing covered bonds (*obbligazioni bancarie garantite*).

Pursuant to article 7-*bis*, certain provisions of Law 130 apply to transactions involving the "true" sale (by way of non-gratuitous assignment) of receivables or asset backed securities issued in the context of securitisation transactions meeting certain eligibility criteria set out in article 7-*bis* and in MEF Decree, where the sale is to a vehicle incorporated pursuant to article 7-*bis* and all amounts paid by the debtors are to be used by the special purpose vehicle exclusively to meet its obligations under a guarantee to be issued by it, in view of securing the payment obligations of the selling bank or of other banks in connection with the issue of covered bonds.

Pursuant to article 7-*bis*, the purchase price of the assets to be included in the portfolio shall be financed through the taking of a loan granted or guaranteed by the bank selling the assets or a different bank. The payment obligations of the special purpose vehicle under such loan shall be subordinated to the payment obligations *vis-à-vis* the covered bondholders, the counterparties of any derivative contracts hedging risks in connection with the assigned receivables and securities, the counterparties of any other ancillary contract and counterparties having a claim in relation to any payment of other costs of the transaction.

The covered bonds are further regulated by the Decree of the Ministry for the Economy and Finance No. 310 of 14 December 2006 (**MEF Decree**) and the supervisory instructions of the Bank of Italy relating to covered bonds under Third Part, Chapter 3, of the circular no. 285 of 17 December 2013, containing the "*Disposizioni di vigilanza per le banche*" as further implemented and amended, (the **BoI OBG Regulations**). Pursuant to the BoI OBG Regulations, the covered bonds may be issued also by banks which are member of banking groups meeting, as of the date of issuance of the covered bonds, certain requirements relating to the consolidated regulatory capital and the consolidated solvency ratio at the group's level. Such requirements must be complied with, as of the date of issuance of the covered bonds, also by banks selling the assets, where the latter are different from the bank issuing the covered bonds and do not fall within the same banking group.

The Special Purpose Vehicle

On 8 May 2015, the Ministerial Decree No. 53/2015 (the **Decree 53/2015**) issued by the Ministry of Economy and Finance has been published in the Official Gazette of the Republic of Italy. The Decree 53/2015 came into force on 23 May 2015, repealing the Decree No. 29/2009. Pursuant to Article 7 of the Decree 53/2015, the assignee companies which guarantee covered bonds, belonging to a banking group as defined by Article 60 of the Banking Law (such as ISP OBG S.r.l.), will no longer have to be registered in the general register held by the Bank of Italy pursuant to Article 106 of the Banking Law.

Eligibility criteria of the assets and limits to the assignment of assets

Under the MEF Decree, the following assets, *inter alia*, may be assigned to the purchasing company, together with any ancillary contracts aimed at hedging the financial risks embedded in the relevant assets: (a) residential and commercial mortgage loans having the characteristics set out under Article

2, Paragraph 1 (a) and (b), respectively, of the MEF Decree; (b) the public assets meeting the characteristics set out under Article 2, Paragraph 1(c) of the MEF Decree; (c) asset backed securities issued in the context of securitisation transactions, meeting the following criteria: (i) the relevant securitised receivables comprise, for an amount equal at least to 95 per cent., loans referred to in (a) and (b) above; (ii) the relevant asset backed securities attract a risk weighting factor not exceeding 20 per cent. under the "standardised approach" to credit risk measurement.

For the purpose above, the relevant provisions define a guarantee "valid for purposes for the credit risk mitigation" as a guarantee eligible for the "credit risk mitigation", in accordance with Directive 2006/48/EC of 14 June 2006 (the **Restated Banking Directive**). Similarly, the "Standardised Approach" shall provide a uniform approach to credit risk measurements as defined by the Restated Banking Directive.

The BoI OBG Regulations set out certain requirements for banks belonging to banking groups with respect to the issuance of covered bonds to be met at the time of the relevant issuance:

(i) own funds (*fondi propri*) of not less than Euro 250,000,000.00; and

(ii) a total capital ratio on a consolidated basis of not less than 9 per cent.

The above mentioned requirements must be complied with, as of the date of the assignment, also by the banks selling the assets, where the latter are different from the bank issuing the covered bonds and do not fall within the same banking group.

If the bank selling the assets does not belong to a banking group, the above mentioned requirements relate to the individual regulatory capital and/or overall capital ratio.

Banks not complying with the above mentioned requirements may set up covered bond programmes only prior notice to the Bank of Italy, which may start an administrative process to assess the compliance with the required requirements.

Moreover, the BoI OBG Regulations set out certain limits to the possibility for banks to assign eligible assets, which are linked to the tier 1 ratio (**T1R**) and common equity tier 1 ratio (**CET1R**) of the individual bank (or of the relevant banking group, if applicable), in accordance with the following grid, contained in the BoI OBG Regulations:

Ratios		**Limits to the assignment**
Group "a"	T1R ≥ 9 % and CET1R ≥ 8 %	No limits
Group "b"	T1R ≥ 8 % and CET1R ≥ 7 %	Assignment allowed up to 60% of the eligible assets
Group "c"	T1R ≥ 7 % and CET1R ≥ 6 %	Assignment allowed up to 25% of the eligible assets

The relevant T1R and CET1R set out in the grid relate to the aggregate of the covered bonds transactions launched by the relevant banking group or individual bank, as the case may be. If foreign entities belonging to the banking group of the bank selling the assets have issued covered bonds in accordance with their relevant jurisdiction and have therefore segregated part of their assets to guarantee the relevant issuances, the limits set out above shall be applied to the eligible assets held by the Italian companies being part of the assigning bank's banking group.

In addition to the above, certain further amendments have been introduced in respect of the monitoring activities to be performed by the asset monitor.

The limits to the assignment set out above do not apply to Integration (as defined below) of the portfolio, provided that Integration is allowed exclusively within the limits set out by the BoI OBG Regulations.

The substitution of eligible assets included in the portfolio with other eligible assets of the same nature is also permitted, provided that certain conditions indicated under the BoI OBG Regulations are met.

Ring-Fencing of the assets

Under the terms of Article 3 of Law 130, all the receivables relating to a Law 130 transaction, the relevant collections and the financial assets purchased using the collections arising from the relevant receivables will by operation of law be segregated for all purposes from all other assets of the special purpose vehicle and from those relating to the other Law 130 transactions carried out by the same special purpose vehicle. On a winding up of the special purpose vehicle such assets will only be available to holders of the covered bonds in respect of which the special purpose vehicle has issued the covered bond guarantee and to the other secured creditors of the special purpose vehicle. In addition, the assets relating to a particular covered bond transaction will not be available to the holders of covered bonds issued under any other covered bond transaction or to general creditors of the special purpose vehicle.

However, under Italian law, any other creditor of the special purpose vehicle which is not a party to the transaction documents would be able to commence insolvency or winding up proceedings against the special purpose vehicle in respect of any unpaid debt.

The assignment

The assignment of receivables under Law 130 is governed by Article 58, paragraphs 2, 3 and 4 of the Banking Law. The prevailing interpretation of these provisions, which view has been strengthened by Article 4 of Law 130, is that:

(a) as from the date of publication in the Official Gazette of the Republic of Italy (*Gazzetta Ufficiale della Repubblica Italiana*) of the notice of assignment of the relevant receivables in accordance with the applicable provisions of Article 58 of the Banking Law, the assignment of the relevant receivables will become enforceable against:

  (i) any creditors of the seller of the relevant receivables who have not commenced enforcement by means of obtaining an attachment order (*pignoramento*) prior to the date of publication of the notice of assignment of the relevant receivables;

  (ii) a receiver in the insolvency of the seller of the relevant receivables; and

  (iii) prior assignees of the relevant receivables who have not perfected their assignment by way of (A) notifying the assigned debtors or (B) making the assigned debtors acknowledge the assignment by an acceptance bearing a date certain at law (*data certa*) prior to the date of publication of the notice of assignment of the relevant receivables or in any other way permitted under applicable law,

  without the need to follow the ordinary rules under Article 1265 of the Italian Civil Code as to making the assignment effective against third parties; and

(b) as from the later of (A) the date of the publication of the notice of assignment of the relevant receivables, and (B) the date of registration (*iscrizione*) of such notice with the Companies' Register of the district where the issuer is enrolled, in accordance with the applicable provisions of Article 58 of the Banking Law, the assignment of the relevant receivables will also become enforceable against:

  (i) the assigned debtors; and

  (ii) a receiver in the insolvency of the assigned debtors (so that any payments made by an assigned debtor to the purchasing company may not be subject to any claw back action according to Article 65 and Article 67 of the Insolvency Law),

  without the need to follow the ordinary rules under Article 1264 of the Italian Civil Code as to making the assignment effective against the assigned debtor.

The benefit of any privilege, guarantee or security interest guaranteeing or securing repayment of the relevant receivables will automatically be transferred to and perfected with the same priority in favour of the special purpose vehicle, without the need for any formality or annotations.

As from the date of publication of the assignment of the relevant receivables in the Official Gazette of the Republic of Italy (*Gazzetta Ufficiale della Repubblica Italiana*), no legal action may be brought to attach the relevant receivables, or the sums derived therefrom, other than for the purposes of enforcing the rights of the holders of the covered bonds and to meet the costs of the transaction.

Notices of the assignment of the Initial Portfolio and of the Further Portfolios pursuant to the Master Transfer Agreement were published in the Official Gazette of the Republic of Italy (*Gazzetta Ufficiale della Repubblica Italiana*) and were filed with the Companies' Register of Milan.

Exemption from claw-back

Assignments executed under Law 130 are subject to revocation on bankruptcy under Article 67 of the Insolvency Law, but only in the event that the transaction is entered into (i) in cases where paragraph 2 of Article 67 applies, within three months of the adjudication of bankruptcy of the relevant party or (ii) in cases where paragraph 1 of Article 67 applies, within six months of the adjudication of bankruptcy.

The subordinated loans to be granted to the special purpose vehicle and the covered bond guarantee are subject to the provisions of Article 67, paragraph 4, of the Insolvency Law, pursuant to which the provisions of Article 67 relating to the claw back of for-consideration transactions, payments and guarantees do not apply to certain transactions.

In addition to the above, any payments made by an assigned debtor to the special purpose vehicle may not be subject to any claw back action according to Article 65 and 67 of the Insolvency Law.

Tests set out in the MEF Decree

Pursuant to Article 3 of the MEF Decree, the issuing bank and the assigning bank (to the extent different from the issuing bank), will have to ensure that, in the context of the transaction, the following tests are satisfied on an ongoing basis:

(i) the outstanding aggregate nominal amount of the portfolio shall be greater than or equal to the aggregate nominal amount of the outstanding covered bonds;

(ii) the net present value of the portfolio, net of the transaction costs to be borne by the special purpose vehicle, including therein the expected costs and the costs of any hedging arrangement entered into in relation to the transaction, shall be greater than or equal to the net present value of the outstanding covered bonds;

(iii) the amount of interest and other revenues generated by the portfolio, net of the costs borne by the special purpose vehicle, shall be greater than or equal to the interest and costs due by the bank under the outstanding covered bonds, taking also into account any hedging arrangements entered into in relation to the transaction.

Integration Assets

For the purpose of ensuring compliance with the tests described above and pursuant to Article 2 of the MEF Decree, in addition to assets which are eligible in accordance with Article 2, Paragraph 1 of the MEF Decree, the following assets may be used for the purpose of the integration of the portfolio:

(a) the creation of deposits with banks incorporated in Eligible States or in a State which attracts a risk weight factor equal to 0 per cent. under the "standardised approach" to credit risk measurement;

(b) the assignment of securities issued by the banks referred to under (a) above, having a residual maturity not exceeding one year,

(the **Integration Assets**).

Integration through Integration Assets shall be allowed within the limits of 15 per cent. of the nominal value of the assets included in the portfolio.

In addition, pursuant to Article 7-bis of Law 130 and the MEF Decree, integration of the portfolio, whether through eligible assets or Integration Assets (the **Integration**) shall be carried out in accordance with the modalities, and subject to the limits, set out in the BoI OBG Regulations.

More specifically, under the BoI OBG Regulations, Integration is allowed exclusively for the purpose of (a) complying with tests set out in the MEF Decree; (b) complying with any contractual overcollateralisation requirements agreed by the parties to the relevant agreements; and (c) complying with the 15 per cent. limitation of the Integration Assets included in the portfolio. The limits to the assignment indicated above do not apply to the Integration.

The Integration is not allowed in circumstances other than as set out in the BoI OBG Regulations.

The features of the covered bond guarantee

According to Article 4 of the MEF Decree, the covered bond guarantee shall be limited recourse to the portfolio, irrevocable, first demand, unconditional and autonomous from the obligations assumed by the issuer of the covered bonds. Accordingly, such obligations shall be a direct, unconditional, unsubordinated obligation of the special purpose vehicle, limited recourse to the special purpose vehicle's available funds, irrespective of any invalidity, irregularity or unenforceability of any of the guaranteed obligations of the issuer of the covered bonds.

In order to ensure the autonomous and independent nature of the covered bond guarantee, Article 4 of the MEF Decree provides that the following provisions of the Italian Civil Code, generally applicable to personal guarantees (*fideiussioni*), shall not apply to the covered bond guarantee: (a) Article 1939, providing that a *fideiussione* shall not generally be valid where the guaranteed obligation is not valid; (b) Article 1941, paragraph 1, providing that a *fideiussione* cannot exceed the amounts due by the guaranteed debtor, nor can it be granted for conditions more onerous than those pertaining to the main obligation; (c) Article 1944, paragraph 2, providing, *inter alia*, that the parties to the contract pursuant to which the *fideiussione* is issued may agree that the guarantor shall not be obliged to pay before the attachment is carried out against the guaranteed debtor; (d) Article 1945, providing that the guarantor can raise against the creditor any objections (*eccezioni*) which the guaranteed debtor is entitled to raise, except for the objection relating to the lack of legal capacity; (e) Article 1955, providing that a *fideiussione* shall become ineffective (*estinta*) where, as a consequence of acts of the creditor, the guarantor is prevented from subrogating into any rights, pledges, mortgages, and liens (*privilegi*) of the creditor; (f) Article 1956, providing that the guarantor of future receivables shall not be liable where the creditor – without the authorisation of the guarantor – has extended credit to a third party, while being aware that the economic conditions of the principal obligor were such that recovering the receivable would have become significantly more difficult; (g) Article 1957, providing, *inter alia*, that the guarantor will be liable also after the guaranteed obligation has become due and payable, provided that the creditor has filed its claim against the guaranteed debtor within six months and has diligently pursued them.

The obligations of the covered bond guarantor following a liquidation of the Issuer

The MEF Decree also sets out certain principles which are aimed at ensuring that the payment obligations of the special purpose vehicle are isolated from those of the issuer of covered bonds. To that effect it requires that the covered bond guarantee contains provisions stating that the relevant obligations thereunder shall not accelerate upon the issuer's default, so that the payment profile of the covered bonds shall not automatically be affected thereby.

More specifically, Article 4 of the MEF Decree provides that in the event of a breach by the issuer of its obligations *vis-à-vis* the covered bondholders, the special purpose vehicle shall assume the obligations of the issuer – within the limits of the portfolio – in accordance with the terms and conditions originally set out for the covered bonds. The same provision applies where the issuer is subject to mandatory liquidation procedures (*liquidazione coatta amministrativa*).

In addition, the acceleration (*decadenza dal beneficio del termine*) provided for by Article 1186 of the Civil Code and affecting the issuer shall not affect the payment obligations of the special purpose vehicle under the covered bond guarantee. Pursuant to Article 4 of the MEF Decree, the limitation in the application of Article 1186 of the Civil Code shall apply not only to the events expressly mentioned therein, but also to any additional event of acceleration provided for in the relevant contractual arrangements.

In accordance with Article 4, Paragraph 3, of the MEF Decree, in case of a *liquidazione coatta amministrativa* of the issuer, the special purpose vehicle shall exercise the rights of the covered bondholders *vis-à-vis* the issuer in accordance with the legal regime applicable to the issuer. Any amount recovered by the special purpose vehicle as a result of the exercise of such rights shall be deemed to be included in the portfolio.

The Bank of Italy shall supervise on the compliance with the aforesaid provisions, within the limits of the powers vested with the Bank of Italy by the Banking Law.

Controls over the transaction

The BoI OBG Regulations lay down rules on controls over transactions involving the issuance of Covered Bonds.

Inter alia, in order to provide support to the resolutions passed on the assignment of portfolios to the special purpose vehicle, both in the initial phase of transactions and in later phases, the assigning bank shall request to an auditing firm a confirmation (*relazione di stima*) stating that, on the basis of the activities carried out by that auditing firm, there are no reasons to believe that the appraisal criteria utilised in order to determine the purchase price of the assigned assets are not in line with the criteria which the assigning bank must apply when preparing its financial statements. The above mentioned confirmation is not required if the assignment is made at the book value, as recorded in the latest approved financial statements of the assigning bank, on which the auditors have issued a clean opinion. The above mentioned confirmation is not required if any difference between the book value and the purchase price of the relevant assets is exclusively due to standard financial fluctuations of the relevant assets and is not in any way related to reductions in the qualitative aspects of those assets and/or the credit risk related to the relevant debtors.

The management body of the issuing bank must ensure that the internal structures delegated to the risk management verify at least every six months and for each transaction, *inter alia*:

(i) quality and integrity of the assets sold to the special purpose vehicle securing the obligations undertaken by the latter;

(ii) compliance with the maximum ratio between covered bonds issued and the portfolio sold to the special purpose vehicle for purposes of backing the issue, in accordance with the MEF Decree;

(iii) compliance with the limits to the assignment and the limits to Integration set out by the BoI OBG Regulations;

(iv) effectiveness and adequacy of the coverage of risks provided under derivative agreements entered into in connection with the transaction; and

(v) completeness, accuracy and timeliness of information available to investors pursuant to art. 129, paragraph 7, of Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013.

The bodies with management responsibilities of issuing banks and banking groups ensure that an assessment is carried out on the legal aspects (*profili giuridici*) of the activity on the basis of specially issued legal opinions setting out an in-depth analysis of the contractual structures and schemes adopted, with a particular focus on, *inter alia*, the characteristics of the covered bond guarantee.

The BoI OBG Regulations also contain certain provisions on the asset monitor, who is delegated to carry out controls over the regularity of the transaction (*regolarità dell'operazione*) and the integrity

of the covered bond guarantee (*integrità della garanzia*) (the **Asset Monitor**). Due to the latest amendments to the BoI OBG Regulations, introduced by way of inclusion of new Third Part, Chapter 3 (*Obbligazioni Bancarie Garantite*) in Bank of Italy's Circular No. 285 of 17 December 2013, the Asset Monitor is also requested to carry out controls over the information to be provided to investors (*informativa agli investitori*). Pursuant to the BoI OBG Regulations, the Asset Monitor shall be an auditing firm having adequate professional experience in relation to the tasks entrusted with the same and independent from (a) the bank entrusting the same and (b) the other entities which take part to the transaction. In order to meet this independence requirement the auditing firm entrusted with the monitoring must be different from the one entrusted with the auditing of the issuing bank and the selling bank (if different from the issuing bank) and the special purpose vehicle.

The Asset Monitor shall prepare annual reports on controls and assessments on the performance of transactions, to be addressed, *inter alia*, to the body entrusted with control functions of the bank which appointed the Asset Monitor. The BoI OBG Regulations refer to the provisions (Article 52 and 61, paragraph 5, of the Banking Law), which impose on persons responsible for such control functions specific obligations to report to the Bank of Italy. Such reference appears to be aimed at ensuring that any irregularities found are reported to the Bank of Italy.

In order to ensure that the special purpose vehicle can perform, in an orderly and timely manner, the obligations arising under the covered bond guarantee, the issuing banks shall use asset and liability management techniques for purposes of ensuring, including by way of specific controls at least every six months, that the payment dates of the cash-flows generated by the portfolio substantially match the payments dates with respect to payments due by the issuing bank under the covered bonds issued and other transaction costs.

Finally, in relation to the information flows, the parties to the covered bonds transactions shall assume contractual undertakings allowing the issuing bank (and the assigning bank, if different) also acting as servicer (and any third party servicer, if appointed) to hold the information on the portfolio which are necessary to carry out the controls described in the BoI OBG Regulations and for the compliance with the supervisory reporting obligations, including therein the obligations arising in connection with the participation to the central credit register (*Centrale dei Rischi*).

Set-off

The assignment of receivables under Law 130 is governed by Article 58, paragraph 2, 3 and 4, of the Banking Law. According to the prevailing interpretation of such provision, such assignment becomes enforceable against the relevant debtors as of the later of: (i) the date of the publication of the notice of assignment in the Official Gazette of the Republic of Italy (*Gazzetta Ufficiale della Repubblica Italiana*), and (ii) the date of registration of the notice of assignment in the Companies' Register of the place where the Covered Bond Guarantor has its registered office. Consequently, the rights of the Covered Bond Guarantor may be subject to the direct rights of the Debtors against the Seller, including rights of set-off on claims existing prior to publication in the Official Gazette of the Republic of Italy (*Gazzetta Ufficiale della Repubblica Italiana*) and registration in the Companies' Register of the place where the Covered Bond Guarantor has its registered office. In addition, the exercise of set-off rights by Debtors may adversely affect any sale proceeds of the Portfolio and, ultimately, the ability of the Covered Bond Guarantor to make payments under the Covered Bond Guarantee.

Law Decree No. 145 introduced, *inter alia*, certain amendments to article 4 of Law 130. As a consequence of such amendments, it is now expressly provided by Law 130 that the Debtors cannot exercise rights of set-off against the Covered Bond Guarantor on claims arising *vis-à-vis* the Seller after the publication of the notice of assignment in the Official Gazette of the Republic of Italy (*Gazzetta Ufficiale della Repubblica Italiana*).

Usury Law

Pursuant to the Usury Law, lenders are prevented from applying interest rates higher than those deemed to be usurious (the **Usury Rates**). Usury Rates are set on a quarterly basis by a Decree issued

by the Italian Treasury. With a view to limiting the impact of the application of the Usury Law to Italian loans executed prior to the entering into force of the Usury Law, Italian Law No. 24 of 28 February 2001 (**Law 24/2001**) provides (by means of interpreting the provisions of the Usury Law) that an interest rate is usurious if it is higher than the relevant limit in force at the time at which such interest rate is promised or agreed, regardless of the time at which interest is repaid by the borrower. A few commentators and debatable lower court decisions have held that, irrespective of the principle set out in Law 24/2001, if interest originally agreed at a rate falling below the then applicable usury limit (and thus, not usurious) were, at a later date, to exceed the usury limit from time to time in force, such interest should nonetheless be reduced to the then applicable usury limit. The Italian Supreme Court (*Corte di Cassazione*), under decision No. 24675 of 19 October 2017, rejected such interpreation and it clarified that only the moment of execution of the agreement is relevant to verify if the interest rate is usurious in the mortgage loans with fixed interest rate. In the last years, a number of objection have been raised on the basis of the excess of the usury limit from the sum of the default interest and the compensatory rate, based on the errouneous interpretation under decision of the Italian Supreme Court (*Corte di Cassazione*) no. 350 of 2013 that the default interest is relevant for the purposes of determining if an interest rate is usurious. Such interpretation has been constantly rejected by the Italian Courts. Other objections raised in the last years are based on the violation of the Usury Law by, for example, the sole default interest exceeding the usury limit or making reference to additional components (such as penalties and insurance policies). In this respect, the Italian Courts have not reached an unanimous position.

Indeed, the Italian Supreme Court (*Corte di Cassazione*) joint sections (*Sezioni Unite*) (n. 19597 dated 18 September 2020) stated that, in order to assess whether a loan complies with the Usury Law, also default interest rates shall be included in the calculation of the remuneration to be compared with the Usury Rates. In this respect, should that remuneration be higher than the Usury Rates, only the 'type' of rate which determined the breach shall be deemed as null and void. As a consequence, the entire amount referable to the rate which determined the breach of said threshold shall be deemed as unenforceable according to the last interpretation of the Supreme Court.

In addition to the above and according to recent court precedents of the Italian Supreme Court (Corte di Cassazione), the remuneration of any given financing must be below the applicable Usury Rate from time to time applicable. Based on this recent evolution of case law on the matter, it will constitute a breach of the Usury Law if the remuneration of a financing is lower than the applicable Usury Rate at the time the terms of the financing were agreed but becomes higher than the applicable Usury Rate at any point in time thereafter.

Compounding of interest

Pursuant to article 1283 of the Italian Civil Code, in respect of a monetary claim or receivable, accrued interest may be capitalised after a period of not less than six months or from the date when any legal proceedings are commenced in respect of that monetary claim or receivable. Article 1283 of the Italian Civil Code allows derogation from this provision in the event that there are recognised customary practices to the contrary. Banks and other financial institutions in the Republic of Italy have traditionally capitalised accrued interest on a quarterly basis on the grounds that such practice could be characterised as a customary practice. In 1999, the Italian Court of Cassation reversed its stance and found the quarterly capitalisation of interest payable on current accounts to be unlawful. Following this decision, a series of disputes emerged on the subject of the capitalisation of interest for contracts executed prior to that date, whereas the problem was partly resolved for contracts executed after the amendment of Art. 120 of the Legislative Decree No. 385 of 1 September 1993, as amended (the "Banking Act") introduced in the interim by Legislative Decree No. 342/1999, which made it legal to capitalise interest payable and receivable, provided that both occur with the same frequency.

Recently, article 17 bis of law decree 18 of 14 February 2016 as converted into Law No. 49 of 8 April 2016 amended article 120, paragraph 2, of the Banking Law, providing that the accrued interest shall

not produce further interest, except for default interest, and is calculated exclusively on the principal amount. Paragraph 2 of article 120 of the Banking Law also requires the Comitato Interministeriale per il Credito e il Risparmio (CICR) to establish the methods and criteria for the compounding of interest. Decree No. 343 of 3 August 2016 of the CICR, implementing paragraph 2 of Article 120 of the Banking Law, has been published in the Official Gazette No. 212 of 10 September 2016.

Mortgage Credit Directive

Directive 2014/17/EU of the European Parliament and of the Council of 4 February 2014 on credit agreements for consumers relating to residential immovable property and amending Directives 2008/48/EC and 2013/36/EU and Regulation (EU) No 1093/2010 (the **Mortgage Credit Directive**) sets out a common framework for certain aspects of the laws, regulations and administrative provisions of the Member States concerning agreements covering credit for consumers secured by a mortgage or otherwise relating to residential immovable property. The Mortgage Credit Directive provides for, amongst other things:

- standard information in advertising, and standard pre-contractual information;
- adequate explanations to the borrower on the proposed credit agreement and any ancillary service;
- calculation of the annual percentage rate of charge in accordance with a prescribed formula;
- assessment of creditworthiness of the borrower;
- a right of the borrower to make early repayment of the credit agreement; and
- prudential and supervisory requirements for credit intermediaries and non-bank lenders.

The Mortgage Credit Directive came into effect on 20 March 2014.

On 1 June 2015, in accordance with Article 18, Article 20(1) and Article 28 of the Mortgage Credit Directive, the EBA published its final Guidelines on creditworthiness assessment, as well as its final Guidelines on arrears and foreclosure, that support the national implementation by Member States of the Mortgage Credit Directive.

The Mortgage Credit Directive has been implemented in Italy by way of Legislative Decree no. 72 of 21 April 2016 (**Legislative Decree 72**). Legislative Decree 72 introduced into the Banking Law, under Title VI, a new Chapter 1-*bis* in relation to consumer mortgage credit, including, *inter alia*, a new Article 120 *quinquiesdecies*, pursuant to which a consumer and an entity authorised to grant loans in a professional manner in the Republic of Italy who are parties to a mortgage credit agreement may expressly agree, subject to the provisions of Article 2744 of the Italian Civil Code, that, in case of non-payment of eighteen monthly instalments by the relevant debtor, the property of the debtor subject to security or the proceeds deriving from the sale thereof can be transferred to the creditor in discharge of all the outstanding obligations of the debtor vis-à-vis the creditor (even if the value of such property or the amount of such proceeds is lower than the residual debt). In the event that the value of the property of the debtor subject to security or amount of the proceeds deriving from the sale thereof is higher than the residual debt, the debtor will be entitled to receive the excess amount. The value of the property shall be determined by an independent expert chosen by the parties, or, if an agreement on the appointment of the expert is not reached between them, by the president of the competent court (*Presidente del Tribunale competente*).

The provisions introduced by the Legislative Decree 72 allow the automatic transfer of the property subject to security from the debtor to the relevant creditor in discharge of all the relevant outstanding obligations.

On 29 September 2016, the Ministry of Economy and Finance - Chairman of CICR (*Comitato Interministeriale per il Credito e il Risparmio*) issued decree no. 380 (the **Decree 380**) which implemented Chapter 1-*bis* of Title VI of the Banking Law, with the view to creating a transparent and efficient market for consumer mortgage credit and providing an adequate level of protection to consumers. Further to Decree 380, on 30 September 2016 the Bank of Italy has published an amended version of its regulations on transparency of banking and financial operations (*Trasparenza delle operazioni e dei servizi bancari e finanziari. Correttezza delle relazioni tra intermediari e clienti*).

Patto Marciano

On 4 May 2016, Law Decree 3 May 2016, no. 59 (**Decree 59**) came into force introducing, *inter alia*, a new article 48-*bis* into the Banking Law (**Article 48-*bis***). The Decree 59 has been converted into Law No. 119 of 30 June 2016, as published in the Offical Gazette of the Republic of Italy No. 153 of 2 July 2016.

Pursuant to Article 48-*bis*, a loan agreement entered into between an entrepreneur and a bank, or another entity authorised to grant loans to the public pursuant to article 106 of the Banking Law, may be secured by transferring to the creditor (or to a company of the creditor's group authorised to purchase, hold, manage and transfer rights in rem in immovable property), the ownership of a property or of another immovable right of the entrepreneur or of a third party (which is not the main home of the owner, of the spouse or of his relatives and in-laws up to the third degree). Such transfer is subject to the condition precedent of the debtor defaulting (so-called "*Patto Marciano*", hereafter the **Covenant**).

The Covenant may be stipulated on entering into the loan agreement or, in respect of loan agreements in existence on the date of entry into force of Article 48-*bis*, under a notarial deed made in the context of subsequent amendments. If the loan is already secured by a mortgage, the transfer subject to the condition precedent of the default, once registered, prevails over annotations and registrations carried out after the mortgage entry.

The default occurs: (i) in case of repayment in monthly instalments, when the failure to pay continues for more than nine months after the expiry of at least three instalments, even if not consecutive, and (ii) in case of repayment in a single instalment or with instalments in periods of more than one month (e.g. quarterly or semi-annual instalments), once nine months have elapsed after the expiry of an unpaid instalment, provided that the aforesaid nine-month periods shall be extended to twelve months if the debtor has repaid at least 85 per cent. of the loan.

In the event of default, the creditor is entitled to avail itself of the effects of the Covenant provided that any difference between the valuation of the right - as assessed by an expert appointed by the court upon request of the creditor - and the total amount of outstanding debt and transfer costs is paid back to the debtor.

Use may be made of the transfer pursuant to article 2 of the Decree 59 even in cases where the right in rem in immovable property covered by the Covenant is subject to forced sale due to expropriation. In this case, the assessment of the debtor's default is carried out - at the creditor's request - by the enforcement court, and the valuation is made by the expert appointed by such court. The transfer to the creditor is subject - in accordance with the procedures established by the enforcement court - to the payment of enforcement charges and of any prior creditors or of any difference between the valuation of the asset and the amount of the unsettled debt. The same procedure applies, insofar as it is compatible, also in cases where the right in rem in immovable property is subject to enforcement in accordance with Presidential Decree D.P.R. no. 602/1973 or if, after the Covenant is registered, the debtor goes bankrupt.

The provisions introduced by the Decree 59 allow the automatic application of the Covenant upon the occurrence of a default (as described above) of the debtor.

5 Fixed Rate Provisions

(a) *Application:* This Condition 5 is applicable to the Covered Bonds only if the Fixed Rate Provisions are specified in the relevant Final Terms as being applicable.

(b) *Accrual of interest:* The Covered Bonds bear interest on their Outstanding Principal Balance from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Rate of Interest. Interest will be payable in arrears on each CB Payment Date, subject as provided in Condition 9 (*Payments*), up to (and excluding) the Maturity Date, or as the case may be, the Extended Maturity Date. Each Covered Bond will cease to bear interest from the due date for final redemption unless payment of the Redemption Amount is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition 5 until whichever is the earlier of (i) the day on which all sums due in respect of such Covered Bond up to that day are received by or on behalf of the relevant Covered Bondholder and (ii) the day which is seven days after the Paying Agent has notified the Covered Bondholders that it has received all sums due in respect of the Covered Bonds up to such seventh day (except to the extent that there is any subsequent default in payment).

(c) *Fixed Coupon Amount:* The amount of interest payable in respect of each Covered Bond for any CB Interest Period shall be the relevant Fixed Coupon Amount and, if the Covered Bonds are in more than one Specified Denomination, shall be the relevant Fixed Coupon Amount in respect of the relevant Specified Denomination.

(d) *Calculation of interest amount:* The amount of interest payable in respect of each Covered Bond for any period for which a Fixed Coupon Amount is not specified shall be calculated by applying the Rate of Interest to the Calculation Amount, multiplying the product by the relevant Day Count Fraction, rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards) and multiplying such rounded figure by a fraction equal to the Specified Denomination of such Covered Bond divided by

the Calculation Amount. For this purpose a **sub-unit** means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.

6 Floating Rate Provisions

(a) *Application:* This Condition 6 is applicable to the Covered Bonds only if the Floating Rate Provisions are specified in the relevant Final Terms as being applicable.

(b) *Accrual of interest:* Each Covered Bond bears interest on its Outstanding Principal Balance from (and including) the Interest Commencement Date at the Rate of Interest payable in arrears on each CB Payment Date, subject as provided in Condition 9 (*Payments*). Each Covered Bond will cease to bear interest from the due date for final redemption unless payment of the Redemption Amount is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition 6 until whichever is the earlier of (i) the day on which all sums due in respect of such Covered Bond up to that day are received by or on behalf of the relevant Covered Bondholder and (ii) the day which is seven days after the Paying Agent has notified the Covered Bondholders that it has received all sums due in respect of the Covered Bonds up to such seventh day (except to the extent that there is any subsequent default in payment).

(c) *Screen Rate Determination:* If Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Covered Bonds for each CB Interest Period will be determined by the Paying Agent on the following basis:

(i) if the Reference Rate is a composite quotation or customarily supplied by one entity, the Paying Agent will determine the Reference Rate which appears on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;

(ii) in any other case, the Paying Agent will determine the arithmetic mean of the Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;

(iii) if, in the case of (i) above, such rate does not appear on that page or, in the case of (ii) above, fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable, the Paying Agent will:

(A) request the principal Relevant Financial Centre office of each of the Reference Banks to provide a quotation of the Reference Rate at approximately the Relevant Time on the Interest Determination Date to prime banks in the Relevant Financial Centre interbank market in an amount that is representative for a single transaction in that market at that time; and

(B) determine the arithmetic mean of such quotations; and

(iv) if fewer than two such quotations are provided as requested, the Paying Agent will determine the arithmetic mean of the rates (being the nearest to the Reference Rate, as determined by the Paying Agent) quoted by major banks in the Principal Financial Centre of the Specified Currency, selected by the Paying Agent, at approximately 11.00 a.m. (local time in the Principal Financial Centre of the Specified Currency) on the first day of the relevant CB Interest Period for loans in the Specified Currency to leading European banks for a period equal to the relevant CB Interest Period and in an amount that is representative for a single transaction in that market at that time,

and the Rate of Interest for such CB Interest Period shall be the sum of the Margin and the rate or (as the case may be) the arithmetic mean so determined; *provided, however, that* if the Paying Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any CB Interest Period, the Rate of

Interest applicable to the Covered Bonds during such CB Interest Period will be the sum of the Margin and the rate or (as the case may be) the arithmetic mean last determined in relation to the Covered Bonds in respect of a preceding CB Interest Period.

(d) *ISDA Determination:* If ISDA Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Covered Bonds for each CB Interest Period will be the sum of the Margin and the relevant ISDA Rate where **ISDA Rate** in relation to any CB Interest Period means a rate equal to the Floating Rate (as defined in the ISDA Definitions) that would be determined by the Paying Agent under an interest rate swap transaction if the Paying Agent were acting as Paying Agent for that interest rate swap transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

(i) the Floating Rate Option (as defined in the ISDA Definitions) is as specified in the relevant Final Terms;

(ii) the Designated Maturity (as defined in the ISDA Definitions) is a period specified in the relevant Final Terms; and

(iii) the relevant Reset Date (as defined in the ISDA Definitions) as specified in the relevant Final Terms.

(e) *Maximum or Minimum Rate of Interest:* If any Maximum Rate of Interest or Minimum Rate of Interest is specified in the relevant Final Terms, then the Rate of Interest shall in no event be greater than the maximum or be less than the minimum so specified.

(f) *Fallback Provisions*: Notwithstanding the foregoing provisions of this Condition 6, if the Issuer (in consultation with the Calculation Agent (or the person specified in the relevant Final Terms as the party responsible for calculating the Rate of Interest and the Interest Amount(s))) determines that a Benchmark Event has occurred, when any Rate of Interest (or the relevant component part thereof) remains to be determined by reference to a Reference Rate, then the following provisions shall apply:

(i) the Issuer shall use reasonable endeavours to appoint an Independent Adviser for the determination (with the Issuer's agreement) of a Successor Rate or, alternatively, if the Independent Adviser and the Issuer agree that there is no Successor Rate, an alternative rate (the **Alternative Benchmark Rate**) and, in either case, an alternative screen page or source (the **Alternative Relevant Screen Page**) and an Adjustment Spread (if applicable) no later than three (3) Business Days prior to the relevant Interest Determination Date relating to the next succeeding CB Interest Period (the **IA Determination Cut-off Date**) for purposes of determining the Rate of Interest applicable to the Covered Bonds for all future CB Interest Periods (as applicable) (subject to the subsequent operation of this Condition 6(f));

(ii) the Alternative Benchmark Rate shall be such rate as the Independent Adviser and the Issuer acting in good faith agree has replaced the relevant Reference Rate in customary market usage for the purposes of determining floating rates of interest or reset rates of interest in respect of eurobonds denominated in the Specified Currency, or, if the Independent Adviser and the Issuer agree that there is no such rate, such other rate as the Independent Adviser and the Issuer acting in good faith agree is most comparable to the relevant Reference Rate, and the Alternative Relevant Screen Page shall be such page of an information service as displays the Alternative Benchmark Rate;

(iii) if the Issuer is unable to appoint an Independent Adviser, or if the Independent Adviser and the Issuer cannot agree upon, or cannot select a Successor Rate or an

Alternative Benchmark Rate and Alternative Relevant Screen Page prior to the IA Determination Cut-off Date in accordance with sub-paragraph (ii) above, then the Issuer (acting in good faith and in a commercially reasonable manner) may determine which (if any) rate has replaced the relevant Reference Rate in customary market usage for purposes of determining floating rates of interest or reset rates of interest in respect of eurobonds denominated in the Specified Currency, or, if it determines that there is no such rate, which (if any) rate is most comparable to the relevant Reference Rate, and the Alternative Benchmark Rate shall be the rate so determined by the Issuer and the Alternative Relevant Screen Page shall be such page of an information service as displays the Alternative Benchmark Rate; ***provided however that*** if (A) this sub-paragraph (iii) applies and the Issuer is unable or unwilling to determine an Alternative Benchmark Rate and Alternative Relevant Screen Page prior to the Interest Determination Date relating to the next succeeding CB Interest Period in accordance with this sub-paragraph (iii), ***then*** the Reference Rate applicable to such Interest Period shall be equal to the Reference Rate for a term equivalent to the Relevant Interest Period published on the Relevant Screen Page as at the last preceding Interest Determination Date (though substituting, where a different Relevant Margin is to be applied to the relevant Interest Period from that which applied to the last preceding Interest Period, the Relevant Margin relating to the relevant CB Interest Period, in place of the margin relating to that last preceding CB Interest Period). For the avoidance of doubt, this paragraph shall apply to the relevant next succeeding CB Interest Period, and any subsequent CB Interest Periods are subject to the subsequent operation of, and to adjustment as provided in, the first paragraph of this Condition 6(f);

(iv) if a Successor Rate or an Alternative Benchmark Rate and an Alternative Relevant Screen Page is determined in accordance with the preceding provisions, such Successor Rate or Alternative Benchmark Rate and Alternative Relevant Screen Page shall be the benchmark and the Relevant Screen Page in relation to the Covered Bonds for all future CB Interest Periods (subject to the subsequent operation of this Condition 6(f);

(v) if the Issuer, following consultation with the Independent Adviser and acting in good faith, determines that (A) an Adjustment Spread is required to be applied to the Successor Rate or Alternative Benchmark Rate and (B) the quantum of, or a formula or methodology for determining, such Adjustment Spread, then such Adjustment Spread shall be applied to the Successor Rate or Alternative Benchmark Rate for each subsequent determination of a relevant Rate of Interest and Interest Amount(s) (or a component part thereof) by reference to such Successor Rate or Alternative Benchmark Rate;

(vi) if a Successor Rate or an Alternative Benchmark Rate and/or Adjustment Spread is determined in accordance with the above provisions, the Independent Adviser (with the Issuer's agreement) or the Issuer (as the case may be), may also specify changes to the Day Count Fraction, Relevant Screen Page, Business Day Convention, Business Days, Interest Determination Date and/or the definition of Reference Rate applicable to the Covered Bonds, and the method for determining the fallback rate in relation to the Covered Bonds, in order to follow market practice in relation to the Successor Rate or Alternative Benchmark Rate and/or Adjustment Spread, which changes shall apply to the Covered Bonds for all future Interest Periods (subject to the subsequent operation of this Condition 6(f)); and

(vii) the Issuer shall promptly following the determination of any Successor Rate or Alternative Benchmark Rate and Alternative Relevant Screen Page and Adjustment Spread (if any) give notice thereof and of any changes pursuant to sub-paragraph (vi)

above to the Calculation Agent, the Paying Agent, the Representative of the Covered Bondholders and the Covered Bondholders.

(g) *Calculation of Interest Amount:* The Paying Agent will, as soon as practicable after the time at which the Rate of Interest is to be determined in relation to each CB Interest Period, calculate the Interest Amount payable in respect of each Covered Bond for such CB Interest Period. The Interest Amount will be calculated by applying the Rate of Interest for such CB Interest Period to the Calculation Amount, multiplying the product by the relevant Day Count Fraction, rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards) and multiplying such rounded figure by a fraction equal to the Specified Denomination of the relevant Covered Bond divided by the Calculation Amount. For this purpose a **sub-unit** means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.

(h) *Calculation of other amounts:* If the relevant Final Terms specifies that any other amount is to be calculated by the Paying Agent, then the Paying Agent will, as soon as practicable after the time or times at which any such amount is to be determined, calculate the relevant amount. The relevant amount will be calculated by the Paying Agent in the manner specified in the relevant Final Terms.

(i) *Publication:* The Paying Agent will cause each Rate of Interest and Interest Amount determined by it, together with the relevant CB Payment Date, and any other amount(s) required to be determined by it together with any relevant payment date(s) to be notified to each competent authority, stock exchange and/or quotation system (if any) by which the Covered Bonds have then been admitted to listing, trading and/or quotation as soon as practicable after such determination but (in the case of each Rate of Interest, Interest Amount and CB Payment Date) in any event not later than the first day of the relevant CB Interest Period. Notice thereof shall also promptly be given to the Covered Bondholders. The Paying Agent will be entitled to recalculate any Interest Amount (on the basis of the foregoing provisions) without notice in the event of an extension or shortening of the relevant CB Interest Period. If the Calculation Amount is less than the minimum Specified Denomination, the Paying Agent shall not be obliged to publish each Interest Amount but instead may publish only the Calculation Amount and the Interest Amount in respect of a Covered Bond having the minimum Specified Denomination.

(j) *Notifications etc:* All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition by the Paying Agent will (in the absence of manifest error) be binding on the Issuer, the Covered Bond Guarantor, the Covered Bondholders and (subject as aforesaid) no liability to any such Person will attach to the Paying Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions for such purposes.

7 Zero Coupon Provisions

(a) *Application:* This Condition 7 is applicable to the Covered Bonds only if the Zero Coupon Provisions are specified in the relevant Final Terms as being applicable.

(b) *Late payment on Zero Coupon Covered Bonds:* If the Redemption Amount payable in respect of any Zero Coupon Covered Bond is improperly withheld or refused, the Redemption Amount shall thereafter be an amount equal to the sum of:

(i) the Reference Price; and

(ii) the product of the Accrual Yield (compounded annually) being applied to the Reference Price on the basis of the relevant Day Count Fraction from (and including) the Issue Date to (but excluding) whichever is the earlier of (i) the day on which all sums due in respect of such Covered Bond up to that day are received by or on behalf

of the relevant Covered Bondholder and (ii) the day which is seven days after the Paying Agent has notified the Covered Bondholders that it has received all sums due in respect of the Covered Bonds up to such seventh day (except to the extent that there is any subsequent default in payment).

8 Redemption and Purchase

(a) *Scheduled redemption*: Unless previously redeemed or purchased and cancelled as specified below, the Covered Bonds of each Series or Tranche will be redeemed at their Final Redemption Amount on the relevant Maturity Date, subject as provided in Condition 8(b) (*Extension of maturity*) and Condition 9 (*Payments*).

The Issuer shall confirm to the Paying Agent as soon as reasonably practicable and in any event at least as of the Extension Determination Date as to whether payment will or will not be made in full of the Final Redemption Amount in respect of the Covered Bonds on that Maturity Date. Any failure by the Issuer to notify the Paying Agent shall not affect the validity or effectiveness of the extension.

(b) *Extension of maturity*: Without prejudice to Condition 10, if (i) an Extended Maturity Date is specified as applicable in relation to the Covered Bond Guarantor in the relevant Final Terms for a Series or Tranche of Covered Bonds and an Article 74 Event or an Issuer Event of Default has occurred, following the service, respectively, of an Article 74 Notice to Pay or a Notice to Pay on the Covered Bond Guarantor, and (ii) the Calculation Agent (on behalf of the Covered Bond Guarantor) determines that the Covered Bond Guarantor has insufficient Available Funds under the Post-Issuer Default Priority of Payments to pay the Guaranteed Amounts corresponding to the Final Redemption Amount in full in respect of the relevant Series or Tranche of Covered Bonds on the Maturity Date, then (subject as provided below), payment of the unpaid amount by the Covered Bond Guarantor under the Covered Bond Guarantee shall be deferred until the Extended Maturity Date *provided that* any amount representing the Final Redemption Amount due and remaining unpaid after the Extension Determination Date may be paid by the Covered Bond Guarantor on any CB Payment Date thereafter up to (and including) the relevant Extended Maturity Date (a **Maturity Extension**). Notwithstanding the above, if the Covered Bonds are extended as a consequence of the occurrence of an Article 74 Event, upon termination of the suspension period and withdrawal of the Article 74 Notice to Pay, the Issuer shall resume responsibility for meeting the payment obligations under any Series or Tranche of Covered Bonds in respect of which an Extendable Maturity has occurred, and any Final Redemption Amount shall be due for payment by no later than 15 calendar days following the day on which the Article 74 Notice to Pay has been withdrawn.

The Covered Bond Guarantor shall notify the relevant Covered Bondholders (in accordance with Condition 18 (*Notices*)), any relevant Hedging Counterparty, the Representative of the Covered Bondholders and the Paying Agent as soon as reasonably practicable, and in any event at least one Business Day prior to the relevant Maturity Date, of any inability of the Covered Bond Guarantor to pay in full the Guaranteed Amounts corresponding to the Final Redemption Amount in respect of a Series or Tranche of Covered Bonds pursuant to the Covered Bond Guarantee. Any failure by the Covered Bond Guarantor to notify such parties shall not affect the validity or effectiveness of the extension nor give rise to any rights in any such party.

In the circumstances outlined above, the Covered Bond Guarantor shall, on the relevant Due for Payment Date, pursuant to the Covered Bond Guarantee, apply the monies (if any) available (after paying or providing for payment of higher ranking or *pari passu* amounts in accordance with the relevant Priorities of Payments) *pro rata* in payment of an amount equal to the Final Redemption Amount in respect of the relevant Series or Tranche of Covered Bonds and shall pay Guaranteed Amounts constituting interest in respect of each such Covered Bond on such date. The obligation of the Covered Bond Guarantor to pay any

amounts in respect of the balance of the Final Redemption Amount not so paid on such Due for Payment Date shall be deferred as described above.

Interest will continue to accrue on any unpaid amount during such extended period and be payable on each Guarantor Payment Date following the Maturity Date up to the Extended Maturity Date (inclusive).

Where an Extended Maturity Date is specified as applicable in the relevant Final Terms for a Series or Tranche of Covered Bonds and applied, failure to pay on the Maturity Date by the Covered Bond Guarantor shall not constitute a Covered Bond Guarantor Event of Default.

In connection with the exercise of its powers, authorities or discretions above mentioned: (a) the Representative of the Covered Bondholders shall have regard to the interests of the Covered Bondholders as a class and in particular, but without prejudice to the generality of the foregoing, shall not have regard to the consequences of such exercise for individual Covered Bondholders resulting from them being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory; and (b) the Representative of the Covered Bondholders shall not be entitled to claim from the Issuer any indemnification or payment in respect of any tax consequence of any such exercise upon individual Covered Bondholders except to the extent already provided for by Condition 10 (*Taxation*).

In these Conditions, **Approved Reorganisation** means a solvent and voluntary reorganisation involving, alone or with others, the Issuer, and whether by way of consolidation, amalgamation, merger, transfer of all or substantially all of its business or assets, or otherwise provided that the principal resulting, surviving or transferee entity (a **Resulting Entity**) is a banking company and effectively assumes all the obligations of the Issuer under, or in respect of, the Covered Bonds.

17 Limited Recourse and Non Petition

(a) *Limited Recourse*: Each of the Covered Bondholders:

(i) acknowledges and agrees that, without prejudice to those Transaction Documents which contemplate payments to be made to the Secured Creditors by way of set-off, if any, all obligations of the Covered Bond Guarantor to each Covered Bondholders and each Other Secured Creditor, including, without limitation, under the Covered Bonds or any Transaction Document to which it is a party (including any obligation for the payment of damages or penalties, but excluding the obligation to pay the Purchase Price in respect of the Portfolio under the Master Transfer Agreement), are limited in recourse and shall arise and become due and payable as at the relevant date in an amount equal to the lesser of: (a) the aggregate nominal amount of such payment which, but for the operation of this Condition 17 and the applicable Priority of Payments, would be due and payable at such time to the relevant Secured Creditor; and (ii) the then Available Funds, net of any sums which are payable by the Covered Bond Guarantor in accordance with the applicable Priority of Payments in priority to, or *pari passu* with, sums payable to such Secured Creditor. For the avoidance of doubt, it is understood that if the Available Funds are insufficient to pay any amount due and payable on any Guarantor Payment Date in accordance with the relevant Priority of Payments, the shortfall then occurring will not be payable on that date but will become payable on the subsequent Guarantor Payment Dates if and to the extent that the Available Funds may be used for this purpose in accordance with the Priorities of Payments. Such shortfall will not cause the accrual of default interest unless otherwise provided in the relevant Transaction Document. If there are not Available Funds for payment to the Secured Creditors at the date the Covered Bonds are cancelled in accordance with the Conditions, the Secured Creditors shall have no further claim against the Covered Bond Guarantor in respect of any unpaid amount;

(ii) acknowledges and agrees that the limited recourse nature of the obligations of the Covered Bond Guarantor under the Covered Bonds or any Transaction Documents produces the effect of a *contratto aleatorio* and accepts the consequences thereof, including but not limited to the provision of Article 1469 of the Italian Civil Code and will have an existing claim against the Covered Bond Guarantor only in respect of the Available Funds which may be applied for the relevant purpose as at the relevant date and will not have any claim, by operation of law or otherwise, against, or recourse to, the Covered Bond Guarantor's assets (other than the Portfolio and the Available Funds) or its contributed equity capital or any other assets of the Covered Bond Guarantor whatsoever;

(iii) acknowledges and agrees that all payments to be made by the Covered Bond Guarantor to it, whether under any Transaction Document or otherwise, will be made by the Covered Bond Guarantor solely from the Available Funds, except as permitted in the Transaction Documents;

(iv) acknowledges that it will not have any claim, by operation of law or otherwise, against, or recourse to, any assets of the Covered Bond Guarantor other than the Portfolio and the Available Funds;

(v) undertakes not to enforce any covenants, agreements, representations or warranties of the Covered Bond Guarantor contained in any of the Transaction Documents or any other document related thereto against the Covered Bond Guarantor's assets (other than the Portfolio and the Available Funds) or its contributed equity capital or against any quotaholder, director, auditor or agent of the Covered Bond Guarantor, but to enforce such covenants, agreements, representations and warranties only against the Portfolio and the Available Funds and within the limits set forth in this Condition and in the Intercreditor Agreement;

(vi) undertakes to enforce any judgment obtained by it in any action brought under any of the Transaction Documents or any other document relating thereto only against the Portfolio and the Available Funds and not against any other assets or property or the contributed equity capital of the Covered Bond Guarantor or of any quotaholder, director, employee, officer, auditor or agent of the Covered Bond Guarantor;

(vii) undertakes not to make any claim or bring any action in contravention of the provisions of this Condition 17; and

(viii) undertakes not to permit the Covered Bond Guarantor to pay, prepay or discharge any amount to it other than in accordance with this Condition 17.

(b) *Non Petition*: In consideration of the limited recourse nature of the obligations of the Covered Bond Guarantor and the other provisions set out in these Conditions and the Intercreditor Agreement, each of the Covered Bondholders undertakes and agrees that, until two years and one day have elapsed since the full repayment or cancellation of all the Covered Bonds, it will not institute against, or join any other person in instituting against, the Covered Bond Guarantor any Insolvency Proceedings or reorganisation or winding up proceedings.

Any notice regarding the Covered Bonds, as long as the Covered Bonds are admitted to trading on the Regulated Market of the Luxembourg Stock Exchange, shall be deemed to have been duly given if published on the website of the Luxembourg Stock Exchange (www.bourse.lu) and, in any event, if published in accordance with the rules and regulation of the Luxembourg Stock Exchange.

(c) *Other publication*: The Representative of the Covered Bondholders shall be at liberty to sanction any other method of giving notice to Covered Bondholders if, in its opinion, such other method is reasonable having regard to market practice then prevailing and to the rules of the competent authority, stock exchange and/or listing system by which the Covered Bonds are then admitted to trading (including any means provided for under Article 16 of Luxembourg law, dated 19 July 2005) and provided that notice of such other method is given to the holders of the Covered Bonds in such manner as the Representative of the Covered Bondholders shall require.

19 Rounding

For the purposes of any calculations referred to in these Conditions (unless otherwise specified in these Conditions or the relevant Final Terms), (a) all percentages resulting from such calculations will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with 0.000005 per cent. being rounded up to 0.00001 per cent.), (b) all United States dollar amounts used in or resulting from such calculations will be rounded to the nearest cent (with one half cent being rounded up), (c) all Japanese Yen amounts used in or resulting from such calculations will be rounded downwards to the next lower whole Japanese Yen amount, and (d) all amounts denominated in any other currency used in or resulting from such calculations will be rounded to the nearest two decimal places in such currency, with 0.005 being rounded upwards.

The Representative of the Covered Bondholders may require, and shall be at liberty to accept as sufficient evidence:

The Representative of the Covered Bondholder shall be entitled to assume, for the purposes of exercising any power, authority, duty or discretion under or in relation to these Rules that such exercise will not be materially prejudicial to the interests of the holders of Covered Bonds of any Series or of all Series for the time being outstanding if the then current rating of the Covered Bonds of any such Series or all such Series (as the case may be) would not be adversely affected by such exercise, or if, after having given prior written notice to the Rating Agency of the proposed action, it results that the Rating Agency has no comments with regard to the proposed action provided that the Rating Agency will be under no obligation to provide any rating confirmation in this respect. If the Representative of the Covered Bondholders, in order properly to exercise its rights or fulfil its obligations, deems it necessary to obtain the views of the Rating Agency as to how a specific act would affect any outstanding rating of the Covered Bonds, the Representative of the Covered Bondholders may inform the Issuer, which will then obtain such views at its expense on behalf of the Representative of the Covered Bondholders or the Representative of the Covered Bondholders may seek and obtain such views itself at the cost of the Issuer.

TAXATION

Republic of Italy

The following is an overview of current Italian law and practice relating to the taxation of the Covered Bonds. The statements herein regarding taxation are based on the laws in force in Italy as of the date of this Base Prospectus and are subject to any changes in law occurring after such date, which changes could be made on a retroactive basis.

The following overview does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of the Covered Bonds and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or commodities) may be subject to special rules. Prospective purchasers of the Covered Bonds are advised to consult their own tax advisers concerning the overall tax consequences of their ownership of the Covered Bonds.

Prospective purchasers of the Covered Bonds are advised to consult their own tax advisors concerning the overall tax consequences of their ownership of the Covered Bonds. This summary will not be updated to reflect changes in laws or interpretation and if such a change occurs the information in this summary may become invalid.

The following summary assumes that the Issuer is resident only in Italy for tax purposes, without acting through a permanent establishment located outside of Italy.

Italian legal or tax concepts may not be identical to the concepts described by the same English term as they exist under terms of different jurisdictions and any legal or tax concept expressed by using the relevant Italian term shall prevail over the corresponding concept expressed in English terms.

Tax treatment of the Covered Bonds

Legislative Decree No. 239 of 1 April 1996, as subsequently amended, (**Decree 239**) provides for the applicable regime with respect to the tax treatment of interest, premium and other income (including the difference between the redemption amount and the issue price) from notes issued, *inter alia*, by Italian banks, falling within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*). For this purpose, debentures similar to bonds are securities that incorporate an unconditional obligation to pay, at maturity or redemption, an amount not lower than their nominal value with or without the payment of periodic interest, and do not give any right to directly or indirectly participate in the management of the issuer or to the business in connection to which the securities were issued, nor to control the same.

Taxation of Interest

Italian resident Covered Bondholders

Where an Italian resident Covered Bondholder is (a) an individual not engaged in an entrepreneurial activity to which the Covered Bonds are connected, or (b) a non-commercial partnership, or (c) a non-commercial private or public institution (other than companies), a trust not carrying out mainly or exclusively commercial activities, the Italian State and public and territorial entities, or (d) an investor exempt from Italian corporate income taxation, interest, premium and other income relating to the Covered Bonds, accrued during the relevant holding period, are subject to a withholding tax, referred to as *imposta sostitutiva*, levied at the rate of 26 per cent. (unless the Covered Bondholder described under (a), (b) and (c) have entrusted the management of their financial assets, including the Covered Bonds, to an authorized intermediary and they have opted for the application of the *"risparmio gestito"* regime - see "*Capital Gains Tax*" below).

Subject to certain conditions, interest in respect of Covered Bonds issued by Intesa Sanpaolo that qualify as *obbligazioni or titoli similari alle obbligazioni* received by Italian resident individuals holding the Covered Bonds not in connection with an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from taxation, including the 26 per cent. *imposta sostitutiva*, if the Covered Bonds are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements applicable under Italian law.

In the event that the Covered Bondholders described under (a) or (c) above are engaged in an entrepreneurial activity to which the Covered Bonds are connected, the *imposta sostitutiva* applies as a provisional tax.

Where an Italian resident Covered Bondholder is a company or similar commercial entity or a permanent establishment in Italy of a foreign company to which the Covered Bonds are effectively connected and the Covered Bonds are deposited with an authorised intermediary, interest, premium and other income from the Covered Bonds will not be subject to *imposta sostitutiva*, but must be included in the relevant Covered Bondholder's annual income tax return and are therefore subject to general Italian corporate taxation (**IRES**) (and, in certain circumstances, depending on the "*status*" of the Covered Bondholder, also to regional tax on productive activities (**IRAP**)).

If an investor is resident in Italy and is an open-ended or a closed-ended investment fund, a SICAF (an investment company with fixed capital) or a SICAV (an investment company with variable capital) established in Italy (together, the **Fund**) and either (i) the Fund or (ii) its manager is subject to the supervision of a regulatory authority, and the relevant Covered Bonds are held by an authorised intermediary, interest, premium and other income accrued during the holding period on the Covered Bonds will not be subject to *imposta sostitutiva*, but must be included in the management results of the Fund accrued at the end of each tax period. The Fund will not be subject to taxation on such result, but a withholding tax up to 26 per cent. will apply, in certain circumstances, to distributions made in favour of unitholders or shareholders (the **Collective Investment Fund Tax**).

Under the current regime provided by Law Decree No. 351 of 25 September 2001 converted into law with amendments by Law No. 410 of 23 November 2001 (**Decree 351**), Law Decree No. 78 of 31 May 2010, converted into Law No. 122 of 30 July 2010, and Legislative Decree No. 44 of 4 March 2014, all as amended, payments of interest, premiums or incomes in respect of the Covered Bonds made to Italian resident real estate investment funds established pursuant to Article 37 of Legislative Decree No. 58 of 24 February 1998 or pursuant to Article 14-bis of Law No. 86 of 25 January 1994, and Italian real estate SICAFs (**Real Estate SICAFs**) are subject neither to *imposta sostitutiva*, nor to any other income tax in the hands of the real estate investment fund or the Real Estate SICAF to the extent the Covered Bonds are held by an authorised intermediary. The income of the real estate fund or Real Estate SICAFs is subject to tax, in the hands of the unitholder or shareholder, depending on the status and percentage of participation, or, when earned by the fund, through distribution and/or upon redemption or disposal of the units or shares.

Where an Italian resident Covered Bondholder is a pension fund (subject to the regime provided for by Article 17 of the Legislative Decree No. 252 of 5 December 2005) and the Covered Bonds are deposited with an authorised intermediary, interest, premium and other income relating to the Covered Bonds and accrued during the holding period will not be subject to *imposta sostitutiva*, but must be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to a 20 per cent substitute tax on the increase in value of the managed assets accrued at the end of each year. Subject to certain conditions (including minimum holding period requirement) and limitations, interest, premium and other income relating to the Covered Bonds may be excluded from the taxable base of the 20 per cent. substitute tax if the Covered Bonds are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements applicable under Italian law.

Pursuant to Decree 239, *imposta sostitutiva* is applied by banks, *Società di intermediazione mobiliare* (SIMs), fiduciary companies, *Società di gestione del risparmio* (SGRs), stockbrokers and other

entities identified by a Decree of the Ministry of Economy and Finance (each an **Intermediary**) as subsequently amended and integrated.

An Intermediary must: (a) be (i) resident in Italy or (ii) a permanent establishment in Italy of a non-Italian resident financial intermediary or (iii) an entity or a company not resident in Italy, acting through a system of centralised administration of securities and directly connected with the Department of Revenue of Italian Ministry of Finance having appointed an Italian representative for the purposes of Decree 239 and (b) intervene, in any way, in the collection of interest or in the transfer of the Covered Bonds. For the purpose of the application of the *imposta sostitutiva*, a transfer of Covered Bonds includes any assignment or other act, either with or without consideration, which results in a change of the ownership of the relevant Covered Bonds or in a change of the Intermediary with which the Covered Bonds are deposited.

Where the Covered Bonds are not deposited with an Intermediary, the *imposta sostitutiva* is applied and withheld by any entity paying interest to a Covered Bondholder or, absent that, by the Issuer.

Non-Italian resident Covered Bondholders

Where the Covered Bondholder is a non-Italian resident, without a permanent establishment in Italy to which the Covered Bonds are connected, an exemption from the *imposta sostitutiva* applies provided that the non-Italian resident Covered Bondholder is either (a) a beneficial owner resident, for tax purposes, in a state or territory which allows for a satisfactory exchange of information with Italy as listed in the Italian Ministerial Decree of 4 September 1996, as amended and supplemented, and subject to possible further amendments by future decree issued pursuant to Article 11 paragraph 4 (c) of Decree 239 (the **White List**); or (b) an international body or entity set up in accordance with international agreements which have entered into force in Italy; or (c) a Central bank or an entity which manages, *inter alia*, the official reserves of a foreign State; or (d) an "institutional investor" which is incorporated in a country included in the White List, even if it does not possess the status of a taxpayer in its own country of incorporation.

In order to ensure gross payment, non-resident investors must be the beneficial owners of payments of interest, premium or other income or qualify as certain types of institutional investors and must (a) deposit, directly or indirectly, the Covered Bonds, the Receipts or the coupons with a bank or a SIM or a permanent establishment in Italy of a non-resident bank or SIM or with a non-resident operator of a clearing system having appointed as its agent in Italy for the purposes of Decree 239 a resident bank or SIM or a permanent establishment in Italy or a non-resident bank or SIM which are in contact via computer with the Ministry of Economy and Finance and (b) file with the relevant depositary, prior to or concurrently with the deposit of the Covered Bonds, a statement of the relevant Covered Bondholder, to be provided only once, until revoked or withdrawn, in which the Covered Bondholder declares to be eligible to benefit from the applicable exemption from *imposta sostitutiva*. Such statement, which is not requested for international bodies or entities set up in accordance with international agreements which have entered into force in Italy or in the case of foreign Central Banks or entities which manage the official reserves of a foreign State, must comply with the requirements set forth by Ministerial Decree of 12 December 2001.

The *imposta sostitutiva* will be applicable at the rate of 26 per cent., or at the reduced rate provided for by any applicable double tax treaty, if any, to interest, premium and other income paid to Covered Bondholders other than those listed above or, even if listed, which failed to comply with the aforementioned requirements and procedures.

Payments made by an Italian resident guarantor

With respect to payments on the Covered Bonds made to certain Italian resident Covered Bondholders by an Italian resident guarantor, in accordance with one interpretation of Italian tax law, any payment of liabilities equal to interest and other proceeds from the Covered Bonds may be subject to a provisional withholding tax at a rate of 26 per cent. pursuant to Presidential Decree No. 600 of 29 September 1973, as subsequently amended. In case of payments to non-Italian resident Covered Bondholders, the withholding tax may be applied at 26 per cent. as a final tax.

Double taxation treaties entered into by Italy may apply allowing for a lower (or, in certain cases, nil) rate of withholding tax.

In accordance with another interpretation, any such payment made by the Italian resident guarantor will be treated, in certain circumstances, as a payment by the relevant Issuer and will thus be subject to the tax regime described in the previous paragraphs of this section.

Atypical Securities

Interest payments relating to Covered Bonds that are not deemed to be bonds (*obbligazioni*), debentures similar to bonds (*titoli similari alle obbligazioni*), shares or securities similar to shares pursuant to Article 44 of Presidential Decree No. 917 of 22 December 1986 may be subject to a withholding tax, levied at the rate of 26 per cent. For this purpose, debentures similar to bonds are securities that incorporate an unconditional obligation to pay, at maturity or redemption, an amount not lower than their nominal value with or without the payment of periodic interest, and do not give any right to directly or indirectly participate in the management of the issuer or to the business in connection to which the securities were issued, nor to control the same.

Subject to certain conditions, interest in respect of Covered Bonds issued by Intesa Sanpaolo that do not qualify as *obbligazioni or titoli similari alle obbligazioni* and are treated as atypical securities received by Italian resident individuals holding the Covered Bonds not in connection with an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from taxation, including the 26 per cent. *imposta sostitutiva*, if the Covered Bonds are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements applicable under Italian law.

Where the Covered Bondholder is (a) an Italian individual engaged in an entrepreneurial activity to which the Covered Bonds are connected, (b) an Italian company or a similar Italian commercial entity, (c) a permanent establishment in Italy of a foreign entity to which the Covered Bonds are connected, (d) an Italian commercial partnership or (e) an Italian commercial private or public institution, such withholding tax is a provisional withholding tax. In all other cases, including when the Covered Bondholder is a non-Italian resident, the withholding tax is a final withholding tax. For non-Italian resident Covered Bondholders, the withholding tax rate may be reduced by any applicable tax treaty.

Capital gains tax

Italian resident Covered Bondholders

Any gain obtained from the sale, early redemption or redemption of the Covered Bonds would be treated as part of the taxable income (and, in certain circumstances, depending on the "status" of the Covered Bondholder, also as part of the net value of the production for IRAP purposes) if realised by an Italian company or a similar commercial entity (including the Italian permanent establishment of foreign entities to which the Covered Bonds are connected) or Italian resident individuals engaged in an entrepreneurial activity to which the Covered Bonds are connected.

Where an Italian resident Covered Bondholder is (i) an individual holding the Covered Bonds not in connection with an entrepreneurial activity, (ii) a non-commercial partnership, (iii) a non-commercial private or public institution, any capital gain realised by such Covered Bondholder from the sale early redemption or redemption of the Covered Bonds would be subject to an *imposta sostitutiva*, levied at the current rate of 26 per cent.

In respect of the application of the *imposta sostitutiva*, taxpayers may opt for one of the three regimes described below.

Under the tax declaration regime (*regime della dichiarazione*), which is the default regime for taxation of capital gains realised by Italian resident Covered Bondholders under (i) to (iii) above, the

imposta sostitutiva on capital gains will be chargeable, on a yearly cumulative basis, on all capital gains, net of any incurred capital loss, realised by investors pursuant to all sales, early redemption or redemptions of the Covered Bonds carried out during any given tax year. Italian Covered Bondholders under (i) to (iii) above must indicate the overall capital gains realised in any tax year, net of any relevant incurred capital loss, in the annual tax return and pay *imposta sostitutiva* on such gains together with any balance income tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains realised in any of the four succeeding tax years.

As an alternative to the tax declaration regime, Italian resident Covered Bondholders under (i) to (iii) above may elect to pay the *imposta sostitutiva* separately on capital gains realised on each sale, early redemption or redemption of the Covered Bonds (the *risparmio amministrato* regime provided for by Article 6 of the Legislative Decree No. 461 of 21 November 1997, as a subsequently amended, the **Decree 461**). Such separate taxation of capital gains is allowed subject to (a) the Covered Bonds being deposited with Italian banks, SIMs or certain authorised financial intermediaries and (b) an express and valid election for the *risparmio amministrato* regime being punctually made in writing by the relevant Covered Bondholder. The depository is responsible for accounting for *imposta sostitutiva* in respect of capital gains realised on each sale, early redemption or redemption of the Covered Bonds (as well as in respect of capital gains realised upon the revocation of its mandate), net of any incurred capital loss, and is required to pay the relevant amount to the Italian tax authorities on behalf of the Covered Bondholders, deducting a corresponding amount from the proceeds to be credited to the Covered Bondholder or using funds provided by the Covered Bondholder for this purpose. Under the *risparmio amministrato* regime, where a sale, early redemption or redemption of the Covered Bonds results in a capital loss, such loss may be deducted from capital gains subsequently realised, within the same securities management, in the same tax year or in the following tax years up to the fourth. Under the *risparmio amministrato* regime, the Covered Bondholder is not required to declare the capital gains in the annual income tax return.

Any capital gains realised or accrued by Italian resident Covered Bondholders under (i) to (iii) above who have entrusted the management of their financial assets, including the Covered Bonds, to an authorised intermediary and have validly opted for the so-called *risparmio gestito* regime (regime provided by Article 7 of Decree 461) will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to a 26 per cent. substitute tax, to be paid by the managing authorised intermediary. Under this *risparmio gestito* regime, any depreciation of the managed assets accrued at year end may be carried forward against increase in value of the managed assets accrued in any of the four succeeding tax years. Under the *risparmio gestito* regime, the Covered Bondholder is not required to declare the capital gains realised in the annual income tax return.

Any capital gains realised by a Covered Bondholder who is a Fund will be included in the result of the relevant portfolio accrued at the end of the tax period. Such result will not be taxed with the Fund, but subsequent distributions in favour of unitholders or shareholders may subject to the Collective Investment Fund Tax.

Subject to certain conditions, capital gain in respect of Covered Bonds issued by Intesa Sanpaolo received by Italian resident individuals holding the Covered Bonds not in connection with an entrepreneurial activity or social security entities pursuant to Legislative Decree No. 509 of 30 June 1994 and Legislative Decree No. 103 of 10 February 1996 may be exempt from taxation, including the 26 per cent. *imposta sostitutiva*, if the Covered Bonds are included in a long-term individual savings account (piano individuale di risparmio a lungo termine) that meets the requirements applicable under Italian law.

Any capital gains realised by a Covered Bondholder who is an Italian real estate fund or a Real Estate SICAF to which the provisions of Decree 351-, Law Decree No. 78 of 31 May 2010, converted into Law No. 122 of 30 July 2010, and Legislative Decree No. 44 of 4 March 2014, all as amended, as subsequently amended apply will be subject neither to *imposta sostitutiva* nor to any other income tax at the level of the real estate investment fund or the Real Estate SICAF. The income of the real estate

investment fund or the Real Estate SICAF is subject to tax, in the hands of the unitholder or shareholder, depending on the status and percentage of participation, or, when earned by the fund, through distribution and/or upon redemption or disposal of the units or shares.

Any capital gains realised by a Covered Bondholder who is an Italian pension fund (subject to the regime provided for by article 17 of the Legislative Decree No. 252 of 5 December 2005) will be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to the 20 per cent. substitute tax. Subject to certain conditions (including minimum holding period requirement) and limitations, capital gains in respect of Covered Bonds realized upon sale, transfer or redemption by Italian Pension Fund may be excluded from the taxable base of the 20 per cent. substitute tax if the Covered Bonds are included in a long-term individual savings account (*piano individuale di risparmio a lungo termine*) that meets the requirements applicable under Italian law.

Non-Italian resident Covered Bondholders

Capital gains realised by non-Italian-resident Covered Bondholders, without a permanent establishement in Italy to which the Covered Bonds are effectively connected, from the sale, early redemption or redemption of Covered Bonds issued by an Italian resident Issuer are not subject to Italian taxation, provided that the Covered Bonds are traded on regulated markets and, in certain cases, subject to the timely filing of a self-declaration form with the Italian Intermediary with which the Covered Bonds are deposited attesting the status of the relevant Covered Bondholder.

Capital gains realised by non-Italian resident Covered Bondholders, without a permanent establishement in Italy to which the Covered Bonds are effectively connected, from the sale, early redemption or redemption of Covered Bonds not traded on regulated markets are not subject to the *imposta sostitutiva*, provided that the Covered Bondholder: (a) qualifies as the beneficial owner of the capital gain and is resident in a country included in the White List; or (b) is an international entity or body set up in accordance with international agreements which have entered into force in Italy; or (c) is a Central Bank or an entity which manages, *inter alia*, the official reserves of a foreign State; or (d) is an institutional investor which is incorporated in a country included in the White List, even if it does not possess the status of a taxpayer in its own country of incorporation, in any case, to the extent all the requirements and procedures set forth in Decree No. 239 and in the relevant implementation rules, as subsequently amended, in order to benefit from the exemption from imposta sostitutiva are met or complied with in due time, if applicable.

In any event, non-Italian resident individuals or entities without a permanent establishment in Italy to which the Covered Bonds are connected, that may benefit from a double taxation treaty with Italy providing that capital gains realised upon the sale, early redemption or redemption of Covered Bonds are to be taxed only in the country of tax residence of the recipient, will not be subject to *imposta sostitutiva* in Italy on any capital gains realised upon the sale, early redemption or redemption of Covered Bonds.

If none of the conditions above are met, capital gains realised by non-Italian resident Covered Bondholders from the sale or redemption of Covered Bonds issued by an Italian resident Issuer are subject to the *imposta sostitutiva* at the current rate of 26 per cent.

Inheritance and gift taxes

Pursuant to Law Decree No. 262 of 3 October 2006 (**Decree No. 262**), converted into Law No. 286 of 24 November 2006 as subsequently amended, the transfers of any valuable asset (including the Covered Bonds) as a result of death or donation are taxed as follows:

(a) transfers in favour of spouses and direct descendants or direct ancestors are subject to an inheritance and gift tax applied at a rate of 4 per cent on the value of the inheritance or the gift exceeding € 1,000,000, for each beneficiary;

(b) transfers in favour of relatives to the fourth degree or relatives-in-law to the third degree are subject to an inheritance and gift tax at a rate of 6 per cent on the entire value of the

inheritance or the gift. Transfers in favour of brothers/sisters are subject to the 6 per cent inheritance and gift tax on the value of the inheritance or the gift exceeding € 100,000, for each beneficiary; and

(c) any other transfer is, in principle, subject to an inheritance and gift tax applied at a rate of 8 per cent on the entire value of the inheritance or the gift.

If the transfer is made in favour of persons with severe disabilities, the tax is levied at the rate mentioned above in (a), (b) and (c) on the value exceeding, for each beneficiary, €1,500,000.

Transfer tax

Contracts relating to the transfer of securities are subject to the registration tax as follows: (a) public deeds and notarized deeds are subject to fixed registration tax at rate of €200; (b) private deeds are subject to registration tax only in "case of use" (*caso d'uso*) or upon occurrence of an explicit reference (*enunciazione*) or voluntary registration.

Stamp duty

Pursuant to Article 13 par. 2-ter of Part I of the tariff attached to Presidential Decree No. 642 of 26 October 1972 (**Decree 642**), a proportional stamp duty applies, based on an annual basis, to any periodic reporting communications which may be sent by a financial intermediary to a Covered Bondholder in respect of any Covered Bond which may be deposited with such financial intermediary in Italy.

The stamp duty applies at the rate of 0.2 per cent.; this stamp duty is determined on the basis of the market value or – if no market value figure is available – on the face value or redemption value, or in the case the face or redemption values cannot be determined, on the purchase value of the Covered Bond is held. The stamp duty cannot exceed € 14,000 if the Covered Bondholder is not an individual.

The stamp duty applies both to Italian resident and non-Italian resident investors, to the extent that Covered Bonds are held with an Italian-based financial intermediary.

The statement is deemed to be sent at least once a year, even for instruments for which is not mandatory nor the deposit nor the release nor the drafting of the statement. In case of reporting periods less than 12 months, the stamp duty is payable on a pro-rata basis.

Based on the wording of the law and the implementing decree issued by the Italian Ministry of Economy and Finance on 24 May 2012, the stamp duty applies to any investor who is a client – regardless of the fiscal residence of the investor – (as defined in the regulatins issued by the Bank of Italy on 9 February 2011, as subsequently amended, supplemented and restate) of an entity that exercises in any form a banking, financial or insurance activity within the Italian territory.

Wealth Tax on securities deposited abroad

According to the provisions set forth by Law Decree No. 201 of 6 December 2011, as amended and supplemented, Italian resident individuals, Italian non-commercial private or public institutions and Italian non-commercial partnership, holding financial assets – including the Covered Bonds - outside the Italian territory are required to pay in their own annual tax return a wealth tax at the rate of 0.2 per cent. This tax cannot exceed € 14,000 if the taxpayer is not an individual. In this case, the abovementioned stamp duty provided for by Article 13 of the tariff attached to Decree 642 does not apply.

This tax is calculated on the market value of the Covered Bonds at the end of the relevant year or – if no market value figure is available – on the nominal value or the redemption or in tge case the face or redemption values cannot be determined, on purchase value of such financial assets held outside the Italian territory. The amount of tax due, based on the value indicated by the Covered Bondholder in its own annual tax return, must be paid within the same date in which payment of the balance of the annual individual income taxis due.

Taxpayers are entitled to an Italian tax credit equivalent to the amount of wealth taxes paid in the State where the financial assets are held (up to an amount equal to the Italian wealth tax due).

Financial assets held abroad are excluded from the scope of the Wealth Tax if such assets are administered by Italian financial intermediaries pursuant to an administration agreement. In this case the above mentioned stamp duty provided for by Article 13 par. 2-ter of Part I of the tariff attached to Decree 642 does apply.

Tax Monitoring Obligations

Italian resident individuals, non-commercial entities, non-commercial partnerships and similar institutions are required to report in their yearly income tax return, according to Law Decree No. 167 of 28 June 1990 converted with amendments by Law No. 227 of 4 August 1990, as amended from time to time, for tax monitoring purposes, the amount of Covered Bonds held abroad during each tax year. The requirement applies also where the persons above, being not the direct holder of the financial instruments, are the actual owner of the instrument.

Furthermore, the above reporting requirement is not required to comply with respect to: (i) Covered Bonds deposited for management with qualified Italian financial intermediaries; (ii) contracts entered into through their intervention, upon condition that the items of income derived from the Covered Bonds have been subject to tax by the same intermediaries; or (iii) if the foreign investments are only composed by deposits and/or bank accounts and their aggregate value does not exceed a €15,000 threshold throughout the year.

Luxembourg Taxation

The following information is a general description of certain Luxembourg withholding tax considerations relating to the Covered Bonds. It does not purport to be a complete analysis of all tax considerations relating to the Covered Bonds, whether in Luxembourg or elsewhere. Prospective purchasers of the Covered Bonds should consult their own tax advisers as to which countries' tax laws could be relevant to acquiring, holding and/or disposing of the Covered Bonds and receiving payments of interest, principal and/or other amounts under the Covered Bonds and the consequences of such actions under the tax laws of Luxembourg. This information is based on the laws, regulations and administrative and judicial interpretations presently in force in Luxembourg and is subject to any change in law that may take effect after such date.

Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a withholding tax or a tax of a similar nature, or to any other concepts, refers to Luxembourg tax law and/or concepts only.

Withholding Tax

All payments of interest and principal by the Issuer in the context of the holding, disposal, redemption or repurchase of the Covered Bonds can be made free and clear of any withholding or deduction for or on account of any taxes of whatsoever nature imposed, levied, withheld, or assessed by Luxembourg or any political subdivision or taxing authority thereof or therein, in accordance with the applicable Luxembourg tax laws currently in force and subject however to the application of the Luxembourg law of 23 December 2005, as amended, (the **Relibi Law**) which has introduced a 20% withholding tax on certain payments of interest made to Luxembourg resident individuals.

Under the Relibi Law, payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to an individual beneficial owner who is a resident of Luxembourg will be subject to a withholding tax of 20%. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Payments of interest under the the Covered Bonds coming within the scope of the Relibi Law will be subject to a withholding tax at a rate of 20 %.

Responsibility for the withholding of tax in application of the above-mentioned Relibi Law is assumed by the Luxembourg paying agent within the meaning of the Relibi Law and not by the Issuer.

Foreign Account Tax Compliance Act ("**FATCA**")

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a "foreign financial institution" may be required to withhold on certain payments it makes ("foreign passthru payments") to persons that fail to meet certain certification, reporting, or related requirements. The Issuer is a foreign financial institution for these purposes.

A number of jurisdictions, including the Republic of Italy, have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA ("**IGAs**"), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Covered Bonds, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Covered Bonds, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Covered Bonds, such withholding would not apply prior to the date that is two years after the date on which final regulations defining foreign passthru payments are published in the U.S. Federal Register and Covered Bonds characterised as debt (or which are not otherwise characterised as equity and have a fixed term) for U.S. federal tax purposes that are issued on or prior to the date that is six months after the date on which final regulations defining "foreign passthru payments" are filed with the U.S. Federal Register generally would be "grandfathered" for purposes of FATCA withholding unless materially modified after such date. However, if additional Covered Bonds (as described under "Terms and Conditions of the Covered Bonds—Further Issues") that are not distinguishable from previously issued Covered Bonds are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all Covered Bonds, including the Covered Bonds offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA. Holders should consult their own tax advisors regarding how these rules may apply to their investment in the Covered Bonds. In the event any withholding would be required pursuant to FATCA or an IGA with respect to payments on the Covered Bonds, no person will be required to pay additional amounts as a result of the withholding.

The proposed financial transactions tax (FTT)

On 14 February 2013, the European Commission published a proposal (the **Commission's Proposal**) for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the **participating Member States**). However, Estonia has since stated that it will not participate and on 16 March 2016 it completed the formalities required to leave the enhanced co-operation on FTT.

The Commission's Proposed has very broad scope and could, if introduced in its current form, apply to certain dealings in Covered Bonds (including secondary market transactions) in certain circumstances.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in Covered Bonds where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional

EU Member States may decide to participate. Prospective holders of the Covered Bonds are advised to seek their own professional advice in relation to the FTT.

SUBSCRIPTION AND SALE

Dealer Agreement

Covered Bonds may be sold from time to time by the Issuer to the Dealer(s). The arrangements under which Covered Bonds may from time to time be agreed to be sold by the Issuer to, and purchased by, the Dealer(s) are set out in the Dealer Agreement. The Dealer Agreement also provides for the resignation or termination of appointment of existing Dealer(s) and for the appointment of additional or other dealers either generally in respect of the Programme or in relation to a particular Series. The Dealer Agreement contains, *inter alia*, stabilising provisions. Each Subscription Agreement will also provide for the confirmation of the appointment of the Representative of the Covered Bondholders by the Relevant Dealer as initial holder of the Covered Bonds then being issued.

Dealer(s) transacting with the Issuer

Certain of the Dealer(s) and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for, the Issuer and their affiliates in the ordinary course of business. Certain of the Dealer(s) and their affiliates may have positions, deal or make markets in Covered Bonds issued under the Programme, related derivatives and reference obligations, including (but not limited to) entering into hedging strategies on behalf of the Issuer and their affiliates, investor clients, or as principal in order to manage their exposure, their general market risk, or other trading activities. In addition, in the ordinary course of their business activities, the Dealer(s) and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer or Issuer's affiliates. Certain of the Dealer(s) or their affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Dealer(s) and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Covered Bonds issued under the Programme. Any such short positions could adversely affect future trading prices of Covered Bonds issued under the Programme. The Dealer(s) and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments. For avoidance of doubts the term "affiliates" in this paragraph includes also parent companies. Moreover, Intesa Sanpaolo S.p.A. will be acting as Issuer, Arranger and Dealer in the context of the Programme.
