We are offering \$325,000,000 principal amount of 1.650% notes due 2018 (the “2018 notes”) and \$275,000,000 principal amount of 2.375% notes due 2020 (the “2020 notes”). We refer to the 2018 notes and the 2020 notes collectively as the “notes”. We will pay interest on the notes of each series on February 15, 2013, and thereafter on February 15 of each year beginning August 15, 2013. The 2018 notes will mature on February 15, 2018. The 2020 notes will mature on February 15, 2020. The notes will be issued in denominations of \$2,000 and any integral multiple of \$1,000 in excess thereof.

We may redeem the notes of either series, in whole or in part, at any time and from time to time prior to their maturity at the redemption price plus a premium. For more information, see “Description of the Notes—Optional Redemption.” If we experience a change of control triggering event, we may be required to purchase the notes at the applicable price as described under “Description of the Notes—Change of Control Triggering Event.”

The notes will be general unsecured senior obligations and rank equally with all of our other unsecured and unsubordinated indebtedness.

The notes are new issues of securities with no established trading market. We do not intend to apply for listing of the notes on any securities exchange.

**Investing in the notes involves risks. See “Risk Factors” beginning on page S-9 for a discussion of certain risks that you should consider in making your investment in the notes.**

**ABOUT THIS PROSPECTUS SUPPLEMENT**

This document is in two parts. The first part is this prospectus supplement, which contains the terms of this offering of notes. The second part, dated May 27, 2010, gives more general information, some of which may not apply to this offering.

This prospectus supplement and the information incorporated by reference in this prospectus supplement may add to, update or change the information in the accompanying prospectus. If information in this prospectus supplement is inconsistent with information in the accompanying prospectus, this prospectus supplement controls. You should read that information in the accompanying prospectus.

It is important for you to read and consider all information contained or incorporated by reference in this prospectus supplement and the accompanying prospectus in making your investment decision. You should also read and consider the information in the documents to which we have referred you in “Where You Can Find More Information” in the accompanying prospectus.

No person is authorized to give any information or to make any representations other than those contained or incorporated by reference in this prospectus supplement and the accompanying prospectus and, if given or made, such information or representations must not be relied upon as having been authorized. This prospectus supplement and the accompanying prospectus do not constitute an offer to sell or the solicitation of an offer to buy any securities other than the securities described in the accompanying prospectus, or an offer to sell or the solicitation of an offer to buy such securities in any jurisdictions in which such offer or solicitation is unlawful. Neither this prospectus supplement and the accompanying prospectus, nor any sale made hereunder, shall under any circumstances create any implication that there has been no change in the information as of the date of this prospectus supplement, or that the information contained or incorporated by reference in this prospectus supplement or the accompanying prospectus is true in any time subsequent to the date of such information.

The distribution of this prospectus supplement and the accompanying prospectus and the offering of the notes in certain jurisdictions may be restricted. This prospectus supplement and the accompanying prospectus do not constitute an offer, or an invitation on our behalf or the underwriters or any other person to sell or the solicitation of an offer to buy any of the notes, and may not be used for or in connection with an offer or solicitation by anyone, in any jurisdiction in which such an offer or solicitation is unlawful or in which any person to whom it is unlawful to make such an offer or solicitation. See “Underwriting.”

In this prospectus supplement, unless otherwise stated or the context otherwise requires, references to “we,” “us,” “our” and “Company” refer to the issuer and, in certain instances, its consolidated subsidiaries. If we use a capitalized term in this prospectus supplement and do not define the term in this document, the term has the meaning given to it in the accompanying prospectus.

[Table of Contents](#)**FORWARD-LOOKING STATEMENTS**

This prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein and therein contain certain “forward-looking statements” (as defined in the Private Securities Litigation Reform Act of 1995, and within the meaning of Section 27A of the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Forward-looking statements include words “believe,” “expect,” “anticipate,” “intend,” “estimate,” “target,” “may,” “will,” “would,” “plan,” “project,” “should,” “continue” or their negative counterparts, or expressions, or discussion of future goals or aspirations, which are predictions of or indicate future events and trends and which do not relate to historical facts. This prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein and therein contain statements that are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements include, but are not limited to, statements regarding: the Company’s benefits from the implementation of the SAP platform (as defined in “Prospectus Supplement Summary”) implementation and run-rate operating benefits expected by December 31, 2013; diminished operating costs from the conversion of the remaining regional distribution company to the SAP platform; SAP implementation costs and depreciation expense; the Company’s loss of \$1.17 to \$1.23 per diluted share for the quarter ending March 31, 2013; improvement in the helium supply chain; the time frame to regain lost market share; year-over-year headwinds related to helium supply constraints; the Company’s expectations of the completion of, and the benefits to be achieved from, the consolidation and consolidation into four new divisions and estimates of the remaining fiscal 2013 restructuring charges and related costs of approximately \$1.1 million; our customer segments; expectations for low single digit organic growth for the quarter ending March 31, 2013; the Company’s expectation of continued sales of strategic products; the continued supply of feedstock from a supplier that intends to cease operations of its hydrogen plant in calendar year 2013; the Company’s overall effective income tax rate for fiscal 2013 will range from 37.0% to 37.5% of pre-tax earnings; the Company’s belief that it will not need to raise capital outside the U.S.; the Company’s intent to permanently reinvest the cash held outside of the U.S. in its foreign operations; the Company’s belief that it will continue to operate under its revolving credit facilities to meet its working capital, capital expenditure and other financial commitments; the Company’s ability to obtain financing on reasonable terms; the Company’s future dividend declarations; the Company’s ability to manage its exposure to interest rate risk through the use of interest rate derivatives; the performance of counterparties under interest rate derivative agreements; the Company’s estimate that for every 25-basis-point increase in the Offered Rate (“LIBOR”), annual interest expense will increase approximately \$2.3 million; the estimate of future interest payments on the Company’s debt; the estimate of future receipts under interest rate swap agreements; and the Company’s exposure to foreign currency exchange fluctuations.

These forward-looking statements involve risks and uncertainties. Factors that could cause actual results to differ materially from those stated in this statement include, but are not limited to: the Company’s inability to meet its earnings estimates resulting from lower sales, decreased selling prices, higher operating expenses than those forecasted by the Company; continued or increased disruption in our helium supply chain; weakening of demand for the Company’s products; weakening operating and financial performance of the Company’s customers, which can negatively impact the Company’s ability to collect its accounts receivable; changes in the environmental regulations that affect the Company’s sales of specialty gases in fiscal 2013 than those estimated by the Company resulting from changes in tax laws and the impact of changes in tax laws on the Company’s reserves and other estimates; the tax impact in the event that the Company repatriates cash from its foreign operations; increases in debt in future periods; the Company’s ability to pay and/or grow its dividend as a result of loan covenant and other restrictions; a decline in demand from markets served in response to the Company’s strategic product sales initiatives; a lack of cross-selling opportunities for the Company’s strategic products; a lack of demand in certain markets; a downturn in certain markets; the negative effect of an

economic downturn on strategic product sales and margins; the inability of strategic products to diversify against cyclical; supply shortage shortage of helium, and the resulting inability of the Company to meet customer gas requirements; customers' acceptance of current prices and changes in customer buying patterns; a rise in product costs and/or operating expenses at a rate faster than the Company's ability to increase expenditures than those estimated by the Company; limitations on the Company's borrowing capacity dictated by its existing revolving credit fluctuations in interest rates; the Company's ability to continue to access credit markets on satisfactory terms; the impact of tightened credit on the extent and duration of current economic trends in the U.S. economy; higher than expected implementation costs of the SAP system and the conversion problems related to the SAP system that disrupt the Company's business and negatively impact customer relationships as well as receivable; the Company's expectation as to completion of the conversion to SAP; the inability to retain employees to be affected by the reorganization; potential disruption to the Company's business related to the realignment; the impact of the management transition; potential disruption to the problems associated with acquisitions; the Company's ability to successfully identify, consummate and integrate acquisitions to achieve anticipated; inability to manage interest rate exposure; higher interest expense than that estimated by the Company due to changes in debt levels or increases in non-performance by counterparties related to interest rate derivatives; the effects of competition on products, pricing and sales growth; changes in producers and name-brand manufacturers and suppliers of hardgoods; changes in customer demand resulting in the inability to meet minimum supply agreements and the inability to negotiate alternative supply arrangements; and the effects of, and changes in, the economy, monetary and inflation and monetary fluctuations, both on a national and international basis. The Company does not undertake to update any forward-looking information made from time to time by or on behalf of the Company.

[Table of Contents](#)**PROSPECTUS SUPPLEMENT SUMMARY**

*This summary highlights selected information about us. It may not contain all of the information that may be important to you. You should read this entire prospectus supplement and the accompanying prospectus, including our consolidated financial statements, with the information incorporated by reference, before making an investment decision. Our fiscal year ends on March 31 and whenever we refer to a fiscal year, we refer to the twelve-month period ending March 31 of such year.*

**Our Company**

We are the largest U.S. distributor of industrial, medical and specialty gases (delivered in “packaged” or cylinder form), and hardgoods and supplies, with a significant position in the U.S. bulk gas distribution market. We are also a leading U.S. producer of atmospheric gases, including nitrogen, nitrous oxide, one of the largest U.S. distributors of safety products, and a leading distributor of refrigerants, ammonia products and process gases. For the fiscal year ended March 31, 2012, we had net sales of \$4.75 billion, credit serviceable EBITDA of \$852.1 million and net income of \$313.4 million. For the fiscal year ended December 31, 2012, we had net sales of \$3.69 billion, credit serviceable EBITDA of \$681.7 million and net income of \$254.7 million. For more information on our credit serviceable EBITDA to its closest GAAP counterpart in “—Summary Historical Financial Data.”

With sales to a wide variety of industry segments and our largest customer accounting for approximately 0.5% of net sales, our revenue is not dependent on any one or small group of customers or industry segments. We market our products and services through multiple sales channels, including branch offices, stores, strategic customer account programs, telesales, catalogs, eBusiness and independent distributors. Products reach our customers through a network of more than 15,000 employees and approximately 1,100 locations including branches, retail stores, gas fill plants, specialty gas labs, production facilities and distribution centers. Our product and service offering, full range of supply modes, national scale and strong local presence offer a competitive edge to our diverse customer base of over 1 million customers.

We have two reportable business segments, Distribution and All Other Operations. The Distribution business segment accounted for 90% of our consolidated sales for the fiscal year ended March 31, 2012. The Distribution business segment’s principal products include industrial, medical and specialty gases, packaged and bulk quantities, as well as hardgoods. Our air separation facilities and national specialty gas labs primarily produce gases for the Distribution business segment’s business units. Gas sales include nitrogen, oxygen, argon, helium, hydrogen, welding and fuel gases such as acetylene, ethylene, carbon dioxide, nitrous oxide, ultra high purity grades, special application blends and process chemicals. Business units in the Distribution business segment generate revenue, derived from gas cylinders, cryogenic liquid containers, bulk storage tanks, tube trailers and welding and welding related equipment. Equipment sales represent 10% of the Distribution business segment’s sales in fiscal year 2012. Hardgoods consist of welding consumables and equipment, safety products, maintenance, repair and operating supplies. Hardgoods sales represented 42% of the Distribution business segment’s sales in fiscal year 2012.

The All Other Operations business segment consists of six business units. The primary products manufactured and/or distributed by the All Other Operations segment are carbon dioxide, dry ice (solid form of carbon dioxide), nitrous oxide, ammonia and refrigerant gases. The All Other Operations business segment generated 10% of our consolidated sales for the fiscal year ended March 31, 2012.

We operate in all 50 U.S. states, Canada and to a lesser extent Mexico, Russia, Dubai and Europe. Our Distribution business segment uses facilities consisting of more than 875 branches, approximately 300 cylinder fill plants, 67 regional specialty gas laboratories, 11 national

laboratories, one research and development center, two specialty gas equipment centers, 13 acetylene plants and 16 air separation units, a distribution centers, various customer call centers, buying centers and administrative offices. Our All Other Operations business segment throughout the United States, which operate multiple use facilities consisting of approximately 75 branch/distribution locations, eight liquid production facilities, and three nitrous oxide production facilities.

Our industry has three principal modes of gas distribution: on-site or pipeline supply, bulk or merchant supply, and cylinder or packaged gas. Our business has primarily been on packaged gas distribution, supplying customers with gases in cylinders, liquid dewars, and less than truck-load bulk quantities. Distributors also sell welding hardgoods. We believe the U.S. market for packaged gases and welding hardgoods to be approximately \$13 billion.

### **Recent Developments**

#### **Stock Repurchase Program**

On October 23, 2012, we announced a program to repurchase up to \$600 million of our outstanding shares of common stock. At December 31, 2012, \$100 million was available for additional share repurchases under the program. We may repurchase shares from time to time for cash in open market transactions in accordance with applicable federal securities laws. We will determine the timing and the amount of any repurchases based on market conditions, share price and other factors. The stock repurchase program has no pre-established closing date and may be suspended or discontinued at any time. Proceeds.”

### **Our Strategy**

Our primary objective is to maximize shareholder value by driving market-leading sales growth through core and strategic product offerings, infrastructure and customer base, by pursuing acquisitions in our core business and in adjacent businesses, by providing outstanding customer service and operational efficiencies. To meet this objective, we are focusing on:

- a customer-centric sales and marketing alignment that provides leadership and strategic support throughout all sales channels and a sales program, allowing us to leverage our unique combination of products, application technology and service, as well as our unique platform;
- strategic product offerings with strong growth profiles due to favorable customer segments, application development, increased market penetration, strong cross-selling opportunities, or a combination thereof (e.g., bulk gases, specialty gases, medical products, carbon dioxide);
- enhanced training, tools and resources for all associates, including installing a new enterprise information system (“SAP”);
- the alignment of our twelve regional distribution companies into four new divisions, the consolidation of our regional companies and administrative functions into four newly created Business Support Centers (“BSCs”) and a related change in our legal entity structure to effectively utilize our resources across regional company boundaries and to form an operating structure that will help leverage our unique platform;
- reducing costs associated with production, cylinder maintenance and distribution logistics; and
- acquisitions to complement and expand our business and to leverage our significant national platform.

[Table of Contents](#)**Reconciliation of Credit Serviceable EBITDA**

We define credit serviceable EBITDA as operating income before stock-based compensation expense, depreciation and amortization. EBITDA provides investors meaningful insight into our ability to generate cash from operations to support required working capital, capital expenditures, and other financial obligations, as well as to fund future acquisitions. Credit serviceable EBITDA is not a measure of performance under GAAP. Credit serviceable EBITDA may vary from others in our industry. You should not consider credit serviceable EBITDA as an alternative to operating income as a measure of our operating performance or to net cash provided by operating activities as a measure of our liquidity. Credit serviceable EBITDA is an analytical tool, and you should not consider it in isolation, or as a substitute for analysis of our results as reported under GAAP. For example:

- does not reflect our cash expenditures or requirements for capital expenditures or capital commitments;
- does not reflect changes in, or cash requirements for, our working capital needs; and
- does not reflect any costs related to the current or future replacement of assets being depreciated and amortized.

The following table provides a reconciliation of operating income to credit serviceable EBITDA to net cash provided by operating activities:

	<u>Year Ended March 31,</u>		
	<u>2012</u>	<u>2011</u>	
Operating income	\$ 556.2	\$ 469.2	\$

Set forth below is information concerning our ratio of earnings to fixed charges on a consolidated basis for the periods indicated. This ratio has been computed by dividing "earnings available for fixed charges" by "fixed charges." For purposes of computing this ratio, "earnings available for fixed charges" principally consists of (i) earnings before income taxes and minority interest, plus (ii) fixed charges. "Fixed charges" principally consists of rental expense that is representative of the interest factor.

## RISK FACTORS

*Any investment in the notes involves a high degree of risk. You should carefully consider the risks described below, as well as those described in our Annual Report on Form 10-K for the year ended March 31, 2012 and our Quarterly Reports on Form 10-Q for the fiscal quarters ended June 30, 2012 and December 31, 2012, each incorporated by reference herein, before making a decision to invest in the notes. Some of these factors may be more material to us than to other investors. The risks and uncertainties described below are not the only ones facing us. Additional risks and uncertainties not presently known to us may also have a material adverse effect on our business and operations.*

*If any of the matters included in the following risks were to occur, our business, financial condition, results of operations, cash flow and other important aspects of our business may be adversely affected. In such case, you may lose all or part of your original investment.*

### Risks Relating to Investment in the Notes

#### **Investors may find it difficult to trade the notes.**

The notes are new issues of securities with no established trading market. We do not intend to apply for listing of the notes on any securities exchange. If securities underwriters have informed us that they intend to make a market in the notes, they are under no obligation to do so and may discontinue any market making without notice. Any such market making will be subject to the limitations imposed by the Securities Act and the Exchange Act.

We also cannot assure you that you will be able to sell your notes at a particular time or that the prices that you receive when you sell your notes will be as high as the prices you paid for them. We cannot assure you as to the level of liquidity of the trading market for the notes. Future trading prices of the notes will depend on many factors, including:

- our operating performance, prospects and financial condition or the operating performance, prospects and financial condition of our company;
- the interest of securities dealers in making a market for the notes; and
- the market for similar securities.

It is possible that the market for the notes will be subject to disruptions. Any disruptions may have a negative effect on the holders of the notes and our financial performance.

#### **Changes in credit ratings issued by nationally recognized statistical rating organizations could adversely affect our cost of financing and the value of our securities.**

Credit rating agencies rate our debt securities on factors that include our operating results, actions that we take, their view of the general economic outlook, and the general outlook for the economy. Actions taken by the rating agencies can include maintaining, upgrading or downgrading the current rating of our debt securities for possible future downgrading. Downgrading the credit rating of our debt securities or placing us on a watch list for possible future downgrading could result in an increase in the interest rate applicable to borrowings under our Credit Facility, limit our access to the capital markets, and have a negative effect on the market price of our securities.

#### **We may not have sufficient funds to purchase the notes upon a change of control triggering event.**

If there is a change of control triggering event under the terms of the indenture governing the notes, each holder of notes may require us to purchase the notes at a purchase price equal to 101% of the

---

## [Table of Contents](#)

principal amount thereof, plus accrued and unpaid interest to the date of repurchase. In order to purchase any outstanding notes, we might have to incur additional indebtedness, which we might not be able to do. Even if we were able to refinance our other indebtedness, any financing might be on terms that are less favorable than the Credit Facility provides that the occurrence of certain kinds of change of control events will constitute a default thereunder. We cannot assure you that we will have the ability to purchase outstanding notes upon the occurrence of a change of control. See “Description of the Notes—Change of Control Triggering Events.”

### **The assets of our subsidiaries may not be available to make payments on the notes.**

We are a holding company and our assets consist primarily of direct and indirect ownership interests in, and our business is conducted through, our subsidiaries. We rely primarily on dividends or other distributions from our subsidiaries to meet our obligations for payment of principal and interest on the notes, our obligations and corporate expenses. Consequently, our ability to repay our debt, including the notes, depends on the earnings of our subsidiaries and the amount of funds from our subsidiaries through dividends or other payments or distributions. The ability of our subsidiaries to pay dividends, repay interest on the notes to us is subject to restrictions imposed by applicable laws (including bankruptcy laws), tax considerations and the terms of agreements governing our subsidiaries in particular may be subject to currency controls, repatriation restrictions, withholding obligations on payments to us and other factors. If we do not receive funds from our subsidiaries, we may be unable to pay interest or principal on the notes when due.

In the event of a bankruptcy, liquidation or reorganization of any of our subsidiaries, holders of their indebtedness and other liabilities of those subsidiaries, including any preferred stock, will be entitled to payment of their claims from the assets of those subsidiaries before any assets are distributed to us. As a result, the notes are effectively subordinated to all of the liabilities of our subsidiaries which, as of December 31, 2012, totaled \$344 million (of which \$49 million consisted of debt for borrowed money and \$295 million reflected indebtedness under our trade receivables securitization program).

### **The instruments governing our indebtedness do not limit our acquisitions and may allow us to incur additional indebtedness in relation to our acquisitions.**

We have historically expanded our business through acquisitions. A part of our business strategy is to continue to grow through acquisitions and to expand our distribution network. During fiscal 2012, we completed eight acquisitions, and through December 31 2012, completed fifteen acquisitions in addition to the notes, and the terms of our other indebtedness, do not limit the number or scale of acquisitions that we may complete. Because the consummation of acquisitions of acquired businesses involves significant risk, this means that holders of the notes will be subject to the risks inherent in our acquisition strategy.

**USE OF PROCEEDS**

We anticipate that we will receive approximately \$594.7 million in net proceeds from the offering of the notes, after deducting the underwriting expenses of the offering payable by us. We intend to use the net proceeds from the sale of the notes for general corporate purposes, including to reduce our indebtedness under our commercial paper program and to repurchase shares pursuant to our stock repurchase program. Initially, we expect to use the net proceeds to reduce our indebtedness under our commercial paper program.

As of December 31, 2012, \$284 million was outstanding under our commercial paper program. At December 31, 2012, the average effective interest rate on our borrowings was 0.48% and the weighted average life to maturity was 32 days.

[Table of Contents](#)**CAPITALIZATION**

The following table sets forth our capitalization as of December 31, 2012, and as adjusted to give effect to the sale of the notes in this prospectus supplement under "Use of Proceeds." You should read this table in conjunction with "Use of Proceeds" in our financial statements and related notes incorporated by reference in this prospectus supplement and the accompanying prospectus. The table is not intended to represent our cash, debt and capitalization in the future.

## DESCRIPTION OF OTHER OBLIGATIONS

### Commercial Paper

The Company participates in a \$750 million commercial paper program supported by its \$750 million revolving credit facility (see below) to obtain favorable short-term borrowing rates with maturities that may vary, but will generally not exceed 90 days from the date of issuance. The Company uses the proceeds from the commercial paper program to pay down amounts outstanding under its revolving credit facility and for general corporate purposes. As of December 31, 2012, \$100 million was outstanding under the commercial paper program and the average effective interest rate on these borrowings was 0.48% and the weighted average maturity was 32 days.

### Senior Credit Facility

On July 19, 2011, we amended and restated our five-year \$750 million revolving credit facility (the "Credit Facility"). The Credit Facility consists of a \$750 million dollar revolving credit line, with a \$65 million dollar letter of credit sublimit and a \$50 million dollar swingline sublimit, and a \$100 million multi-currency revolving credit line. The maturity date of the revolving credit lines is July 19, 2016. Under circumstances described in the Credit Facility, the Credit Facility may be increased by an additional \$325 million, provided that the multi-currency revolving credit line may not be increased by more than an additional \$100 million.

The U.S. dollar revolving credit line and the multi-currency revolving credit line may bear interest at either a eurocurrency rate (the "Eurocurrency Rate") plus an applicable margin or, in the case of U.S. dollar-denominated borrowings, a U.S. base rate (the "U.S. Base Rate") plus an applicable margin. The U.S. Base Rate is the greater of (a) the British Bankers Association LIBOR Rate and is subject to adjustment for reserve requirements and mandatory costs. The U.S. Base Rate is equal to the U.S. Funds Rate plus 1/2 of 1%, (b) the rate of interest in effect for such day as publicly announced from time to time by Bank of America, N.A. as its prime rate, or (c) the Eurocurrency Rate plus 1.0% per annum. The applicable margin is determined with reference to the credit rating of our non-credit enhanced debt. As of December 31, 2012, the U.S. dollar revolver borrowings bear interest at the Eurocurrency Rate plus 125 basis points. As of December 31, 2012, the multi-currency revolver bears interest based on a spread of 125 basis points over the Eurocurrency Rate plus mandatory costs applicable to each foreign currency borrowing. The average effective interest rate on the multi-currency revolver was 1.62%. There were no borrowings under the U.S. dollar revolver at December 31, 2012.

A commitment fee payable on the actual daily unused portion of the credit facility is determined with reference to the credit rating of our unsecured long-term debt. As of December 31, 2012, the commitment fee was equal to 0.20% per annum. Swingline loans are not considered in the calculation of the unused portion of the credit facility for purposes of this calculation.

The Credit Facility contains customary affirmative and negative covenants, including a financial covenant whereby the ratio of funded debt to EBITDA may be no greater than 3.5 to 1.0. The Credit Facility contains certain customary events of default, including, without limitation, failure to pay principal or interest, breaches of covenants, breaches of representations and warranties, certain monetary judgments and bankruptcy and ERISA events. The Credit Facility also contains certain customary events of default whereby a default under the senior and senior subordinated notes discussed below or the notes offered hereby would likely result in a default under the Credit Facility. In addition, a default under the Credit Facility may be accelerated.

As of December 31, 2012, the Company had \$39 million of borrowings under the Credit Facility, all of which were under the multi-currency revolving credit line. The Company also had outstanding letters of credit of \$51 million issued under the Credit Facility.

---

## [Table of Contents](#)

The Company also maintains a committed revolving line of credit of up to €8 million (U.S. \$10.6 million) to fund its operations in France. Borrowings outside of the Credit Facility. On November 15, 2012, this revolving line of credit was extended from December 31, 2012 to December 31, 2013. French revolving credit borrowings were €5.6 million (U.S. \$7.3 million) and are classified as long-term debt on the Company's Consolidated Balance Sheet. Interest rates on the French revolving credit borrowings are based on the eurocurrency rate plus an applicable rate determined with reference to the Company's credit rating. The French revolving credit borrowings are enhanced, senior unsecured long-term debt. As of December 31, 2012, the effective interest rate on the French revolving credit borrowings was 4.50%.

### **Money Market Loans**

The Company has an agreement with a financial institution that provides access to short-term advances not to exceed \$35 million. On November 15, 2012, this agreement was extended and now expires on January 1, 2014. The agreement may be extended subject to renewal provisions contained in the agreement. Interest rates on the advances are based on the LIBOR rate plus a fixed spread over the corresponding LIBOR. At December 31, 2012, there were no advances outstanding under the agreement.

The Company also has an agreement with another financial institution that provides access to additional short-term advances not to exceed \$35 million. On July 31, 2013, this agreement was extended and now expires on January 1, 2014. The agreement may be extended subject to renewal provisions contained in the agreement. The advances are generally overnight or for up to 30 days. Interest rates on the advances are established through mutual agreement with the financial institution when the Company requests such an advance. At December 31, 2012, there were no advances outstanding under the agreement.

### **Senior Notes**

On November 26, 2012, the Company issued \$250 million of 2.90% senior notes maturing on November 15, 2022 (the "2022 Notes") at a discount and yield of 2.913%. The net proceeds from the sale of the 2022 Notes were used for general corporate purposes, including to fund the Company's commercial paper program and repurchase shares pursuant to the Company's stock repurchase program. Interest on the 2022 Notes is payable semi-annually on May 15 and November 15 of each year, commencing May 15, 2013.

At December 31, 2012, the Company had \$250 million of 2.95% senior notes due June 15, 2016 (the "2016 Notes") outstanding. The 2016 Notes were issued at a discount and yield of 2.980%. Interest on the 2016 Notes is payable semi-annually on June 15 and December 15 of each year. Additionally, the Company may redeem the 2016 Notes prior to their maturity, in whole or in part, at 100% of the principal plus any accrued but unpaid interest and applicable make-whole payments.

At December 31, 2012, the Company had \$250 million of 3.25% senior notes due October 1, 2015 (the "2015 Notes") outstanding. The 2015 Notes were issued at a discount and yield of 3.283%. Interest on the 2015 Notes is payable semi-annually on April 1 and October 1 of each year. Additionally, the Company may redeem the 2015 Notes prior to their maturity, in whole or in part, at 100% of the principal plus any accrued but unpaid interest and applicable make-whole payments.

At December 31, 2012, the Company had \$400 million of 4.50% senior notes due September 15, 2014 (the "2014 Notes") outstanding. The 2014 Notes were issued at a discount and yield of 4.527%. Interest on the 2014 Notes is payable semi-annually on March 15 and September 15 of each year. Additionally, the Company may redeem the 2014 Notes prior to their maturity, in whole or in part, at 100% of the principal plus any accrued but unpaid interest and applicable make-whole payments.

---

## [Table of Contents](#)

At December 31, 2012, the Company had \$300 million of 2.85% senior notes due October 1, 2013 (the “2013 Notes”) outstanding. The discount and yield 2.871%. Interest on the 2013 Notes is payable semi-annually on April 1 and October 1 of each year. Additionally, the Company redeemed the 2013 Notes prior to their maturity, in whole or in part, at 100% of the principal plus any accrued but unpaid interest and applicable make-whole amounts. The 2013 Notes were reclassified to the “Current portion of long-term debt” line item on the Company’s Consolidated Balance Sheet based on the terms of the notes.

The 2013 Notes, 2014 Notes, 2015 Notes, 2016 Notes and 2022 Notes contain covenants that restrict the incurrence of liens and limit the ability to incur additional debt.

### **Senior Subordinated Notes**

At December 31, 2012, the Company had \$215 million of 7.125% senior subordinated notes maturing October 1, 2018 (the “2018 Subordinated Notes”). The 2018 Subordinated Notes bear interest at a fixed annual rate of 7.125%, payable semi-annually on October 1 and April 1 of each year. The 2018 Subordinated Notes include a redemption provision, which permits the Company, at its option, to call the 2018 Subordinated Notes at scheduled dates and prices. The first redemption date is October 1, 2013 at a price of 103.563% of the principal amount.

### **Other Long Term Debt**

The Company’s other long-term debt primarily consists of vendor financing of rental welders, capitalized lease obligations and notes acquired, which are repayable in periodic installments. At December 31, 2012, other long-term debt totaled \$2.9 million with an average maturity of approximately one year.

### **Trade Receivables Securitization**

The Company participates in a securitization agreement (the “Securitization Agreement”) with three commercial banks to which it sells trade receivables on a revolving basis. The Company’s sale of qualified trade receivables is accounted for as a secured borrowing under which qualified trade receivables are borrowed from the commercial banks. Trade receivables that collateralize the Securitization Agreement are held in a bankruptcy-remote special purpose vehicle consolidated for financial reporting purposes and represents the Company’s only variable interest entity. Qualified trade receivables in the agreement under the Securitization Agreement are not available to the general creditors of the Company. The maximum amount of the Securitization Agreement is \$295 million, with an interest rate at approximately LIBOR plus 75 basis points. On December 5, 2012, the Company entered into the Third Amendment to the Securitization Agreement, which extends the expiration date of the Securitization Agreement from December 21, 2013 to December 4, 2015. At December 31, 2012, the amount of outstanding trade receivables under the Securitization Agreement has been classified as long-term debt on the Consolidated Balance Sheet. Amounts borrowed under the Securitization Agreement are based on the Company’s funding requirements and the level of qualified trade receivables available to collateralize the Securitization Agreement. The Securitization Agreement contains customary events of termination, including standard cross default provisions with respect to outstanding debt. The amount of outstanding trade receivables under the Securitization Agreement at December 31, 2012 was \$295 million.

### **Interest Rate Derivatives**

The Company manages its exposure to changes in market interest rates. The Company’s involvement with derivative instruments is limited to interest rate swap agreements used to manage well-defined interest rate risk exposures and (b) treasury rate lock agreements used to fix the interest rate on certain debt.

---

**[Table of Contents](#)**

forecasted debt issuances. The Company monitors its positions and credit ratings of its counterparties and does not anticipate non-performance. Swap and treasury rate lock agreements are not entered into for trading purposes. At December 31, 2012, the Company was party to a total of \$300 million of variable interest rate swaps with an aggregate notional amount of \$300 million. These variable interest rate swaps effectively convert the Company's \$300 million of fixed interest rate debt into variable interest rate debt. At December 31, 2012, these swap agreements required the Company to make variable interest payments based on a weighted average of the Company's variable interest rate debt and fixed interest payments from the counterparties based on a fixed rate of 2.85%. The maturity of these fair value swaps coincides with the maturity of the underlying debt in 2013.

## DESCRIPTION OF THE NOTES

Airgas will issue senior notes due 2018 (the “2018 notes”) and senior notes due 2020 (the “2020 notes”) and together with the 2018 notes, under an Indenture, dated as of May 27, 2010, between itself and U.S. Bank National Association, as trustee, as supplemented by a Supplemental Indenture, dated February 14, 2013 with respect to the notes of each series, between Airgas and U.S. Bank National Association, as trustee (the “Supplemental Indenture”). All references to the “Indenture” mean the Indenture as supplemented by the Supplemental Indenture. The terms of the notes include those stated in the Indenture by reference to the Trust Indenture Act of 1939.

The following description is a summary of the material provisions of the Indenture and should be read in connection with the summary of the “Description of Debt Securities” in the accompanying prospectus. It does not restate that agreement in its entirety. We urge you to read the Indenture because it contains important information about your rights as holders of the notes. Copies of the Indenture are available by writing to Airgas, Inc., 259 North Radnor-Chester Road, Suite 1000, Radnor, PA 19087, Attn: General Counsel. In this description, “Airgas,” “we,” “us” and “our” refers only to Airgas, Inc. and not to any of our subsidiaries. You should refer to the definitions used in this description under the subheading “Covenants—Definitions.” Certain defined terms used in this description but not defined below have the meanings assigned to them in the Indenture.

### Maturity, Principal and Interest

The 2018 notes will mature on February 15, 2018 and will be issued in an initial aggregate principal amount of \$325 million. The 2020 notes will mature on February 15, 2020 and will be issued in an initial aggregate principal amount of \$275 million. Notes will be issued in minimum denominations of \$2,000, except for notes issued in excess thereof.

Each note will bear interest at the applicable rate described on the cover page from February 14, 2013 or from the most recent interest payment date, if any, has been paid, payable semiannually in arrears on February 15 and August 15 of each year, commencing August 15, 2013. We will pay interest to the holder of any predecessor note) is registered at the close of business on the February 1 or August 1 immediately preceding the relevant interest payment date on the basis of a 360-day year comprised of twelve 30-day months.

If any interest payment date, redemption date or maturity date is not a business day, the payment otherwise required to be made on such date will be made on the next business day without any additional payment as a result of such delay.

### Further Issuances of the Notes

We may create and issue additional notes of either series ranking equally and ratably with the notes of such series in all respects (except for interest rate, date, the initial interest accrual date and, if applicable, the initial interest payment date), so that such additional notes shall be consolidated and treated as one class of such series, including for purposes of voting and redemptions. Additional notes of the same class and series of either series of notes may be issued from time to time, without notice to or the consent of the existing holders of the notes of such series, provided that if such additional notes are not issued as part of the same series for U.S. federal income tax purposes, such additional notes will have a separate CUSIP number.

### Ranking

The notes will be our general unsecured senior obligations and will rank equally with all of our other unsecured and unsubordinated obligations outstanding. The notes will be senior to any of our subordinated indebtedness from time to time outstanding and will rank junior to our secured indebtedness.

---

## [Table of Contents](#)

time to time outstanding to the extent of the value of the assets securing such indebtedness. The notes will also be effectively junior in right of liabilities, including trade payables, of our subsidiaries.

### **Optional Redemption**

The notes of each series will be redeemable, as a whole or in part, at our option, at any time or from time to time. If the notes of either series are redeemed that is one month prior to the maturity date of the notes of such series, such notes may be redeemed by us at a redemption price equal to the greater of:

- (1) 100% of the principal amount of the notes to be redeemed, and
- (2) as determined by the Reference Treasury Dealer, the sum of the present values of the remaining scheduled payments of principal to be redeemed discounted to the date of redemption on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) plus 12.5 basis points with respect to the 2018 notes and at the applicable Treasury Rate, plus 15.0 basis points with respect to the 2020 notes.

If the notes of either series are redeemed on or after the date that is one month prior to the maturity date of the notes of such series, such notes may be redeemed by us at a redemption price equal to 100% of the principal amount of the notes to be redeemed.

In each case, accrued and unpaid interest will be payable to the redemption date and the principal amount of any note remaining outstanding as of the redemption date, plus any integral multiple of \$2,000 and any integral multiple of \$1,000 in excess thereof.

Holder of notes to be redeemed will receive notice thereof by first class mail at least 30 days and not more than 60 days before the date that all of the notes of a series are to be redeemed, the trustee will select, at least 30 days and not more than 60 days prior to the redemption date, the portions thereof for redemption from the outstanding notes of such series not previously called by such method as the trustee deems fair and equitable.

On and after the redemption date, interest will cease to accrue on the notes of the applicable series or any portion of the notes of such series if we default in the payment of the redemption price and accrued interest. On or before the redemption date, we will deposit with a paying agent the redemption price of and accrued interest on the notes to be redeemed on that date.

“Comparable Treasury Issue” means the U.S. Treasury security selected by an Independent Investment Banker as having a maturity comparable to the (“Remaining Life”) of the applicable series of notes to be redeemed that would be utilized, at the time of selection and in accordance with customary practice, for new issues of corporate debt securities of comparable maturity to the remaining term of such applicable series of notes.

“Comparable Treasury Price” means, with respect to any redemption date, (1) the average of five Reference Treasury Dealer Quotations, excluding the highest and lowest Reference Treasury Dealer Quotations, or (2) if the Independent Investment Banker obtains fewer than five Reference Treasury Dealer Quotations, the average of all such quotations.

“Independent Investment Banker” means any of Goldman, Sachs & Co., Merrill Lynch, Pierce, Fenner & Smith Incorporated or Wells Fargo Bank, N.A. or any of their respective successors, or if all of such firms are unwilling or unable to select the Comparable Treasury Issue, an independent investment banker of national standing appointed by us.

---

## Table of Contents

“Reference Treasury Dealer” means (1) each of Goldman, Sachs & Co., Merrill Lynch, Pierce, Fenner & Smith Incorporated and a Primary Treasury Dealer (as defined herein) selected by Wells Fargo Securities, LLC and their respective successors, provided, however, that if any of the foregoing shall cease to be a Primary Treasury Dealer or securities dealer in New York City (a “Primary Treasury Dealer”), we will substitute for such bank another Primary Treasury Dealer and (2) any other Primary Treasury Dealer selected by the Independent Investment Banker after consultation with us.

“Reference Treasury Dealer Quotations” means, with respect to each Reference Treasury Dealer and any redemption date, the average bid and asked prices of the Independent Investment Banker, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) as quoted by the Independent Investment Banker at 5:00 p.m., New York City time, on the third business day preceding such redemption date.

“Treasury Rate” means, with respect to any redemption date, (1) the yield, under the heading which represents the average for the month ending on the most recently published statistical release designated “H.15(519)” or any successor publication which is published weekly by the Board of Governors of the Federal Reserve System and which establishes yields on actively traded U.S. Treasury securities adjusted to constant maturity under the caption “Treasury Constant Maturity Rates” corresponding to the applicable Comparable Treasury Issue (if no maturity is within three months before or after the Remaining Life, yields for the Comparable Treasury Issue closely corresponding to the applicable Comparable Treasury Issue will be determined and the Treasury Rate will be interpolated or extrapolated on a straight line basis, rounding to the nearest month) or (2) if such release (or any successor release) is not published during the week preceding the redemption date, the yields, the rate per annum equal to the semi-annual equivalent yield to maturity of the applicable Comparable Treasury Issue, calculated using the Treasury Rate for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the applicable Comparable Treasury Price for such issue, will be calculated on the third business day preceding the redemption date.

### **Change of Control Triggering Event**

Upon the occurrence of a Change of Control Triggering Event, unless we have exercised our right to redeem the notes of a series as defined in the “Change of Control Redemption,” each holder of notes of such series will have the right to require us to purchase all or a portion (equal to \$2,000 and any integral multiple thereof) of such holder’s notes pursuant to the offer described below (the “Change of Control Offer”), at a purchase price equal to 101% of the principal amount of such notes plus accrued and unpaid interest, if any, to the date of repurchase (the “Change of Control Payment”), subject to the rights of holders of notes on the date of the Change of Control Payment Date and the interest due on the relevant interest payment date.

Within 30 days following the date upon which the Change of Control Triggering Event occurs or, at our option, prior to any Change of Control Triggering Event or announcement of the pending Change of Control, we will be required to send, by first class mail, a notice to each holder of notes, with a copy to the trustee, which will govern the terms of the Change of Control Offer. Such notice will state, among other things, the purchase date, which must be no earlier than the date such notice is mailed, other than as may be required by law (the “Change of Control Payment Date”). The notice, if mailed prior to the date of the Change of Control, will state that the Change of Control Offer is conditioned on the Change of Control being consummated on or prior to the Change of Control Payment Date.

On the Change of Control Payment Date, we will, to the extent lawful, (1) accept or cause a third party to accept for payment all notes of such series pursuant to the Change of Control Offer; (2) deposit or cause a third party to deposit with the paying agent an amount equal to the Change of Control Payment Date or portions of notes properly tendered; and (3) deliver or cause to be delivered to the trustee the notes accepted together with an officers’ certificate of the amount of notes or portions of notes being repurchased.

We will not be required to make a Change of Control Offer with respect to the notes of the applicable series if a third party involved in such offer makes such an offer in the manner, at the times and otherwise in compliance with the requirements for such an offer made by us and such third party series properly tendered and not withdrawn under its offer.

We will comply in all material respects with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations that those laws and regulations are applicable in connection with the repurchase of the notes as a result of a Change of Control Triggering Event. If such securities laws or regulations conflict with the Change of Control Offer provisions of the notes, we will comply with those securities laws and regulations deemed to have breached our obligations under the Change of Control Offer provisions of the notes by virtue of any such conflict.

For purposes of the foregoing discussion of a Change of Control Offer, the following definitions are applicable:

“Beneficial Owner” has the meaning assigned to such term in Rule 13d-3 and Rule 13d-5 under the Exchange Act, except that in calculating the number of shares owned by a particular “person” (as that term is used in Section 13(d)(3) of the Exchange Act), such “person” will be deemed to have beneficial ownership of any shares if such person has the right to acquire by conversion or exercise of other securities, whether such right is currently exercisable or is exercisable only upon the occurrence of a certain condition. The terms “Beneficially Owns” and “Beneficially Owned” have a corresponding meaning.

“Change of Control” means the occurrence of any of the following:

- (1) the direct or indirect sale, transfer, conveyance or other disposition (other than by way of merger or consolidation), in one or more transactions, of all or substantially all of the properties or assets of Airgas and its Subsidiaries taken as a whole to any “person” (as that term is used in Section 13(d)(3) of the Exchange Act) other than a Principal or a Related Party of a Principal;
- (2) the adoption of a plan relating to the liquidation or dissolution of Airgas;
- (3) the consummation of any transaction (including, without limitation, any merger or consolidation) the result of which is that a person other than a Principal and its Related Parties, becomes the Beneficial Owner, directly or indirectly, of more than 50% of the Voting Stock of Airgas, based on the number of shares rather than number of shares;
- (4) Airgas consolidates with, or merges with or into, any Person (other than a Principal or a Related Party of a Principal), or any Person (other than a Principal or a Related Party of a Principal) consolidates with, or merges with or into, Airgas, in any such event pursuant to a transaction in which Airgas or such other Person is converted into or exchanged for cash, securities or other property, other than any such transaction where the securities of Airgas outstanding immediately prior to such transaction constitute, or are converted into or exchanged for, a majority of the Voting Stock of the resulting entity immediately after giving effect to such transaction; or
- (5) the first day on which a majority of the members of the board of directors of Airgas are not Continuing Directors.

“Change of Control Triggering Event” means, with respect to the notes of a series, the notes of such series cease to be rated Investment Grade by any Rating Agencies on any date during the period (the “Trigger Period”) commencing 60 days prior to the first public announcement by us of any Change of Control and ending 60 days following consummation of such Change of Control (which Trigger Period will be extended following consummation of such Change of Control as long as any of the Rating Agencies has publicly announced that it is considering a possible ratings change). Notwithstanding the foregoing, no Change of Control will be deemed to have occurred in connection with any particular Change of Control unless and until such Change of Control has actually been consummated.

## Table of Contents

“Continuing Directors” means, as of any date of determination, any member of the board of directors of Airgas who:

- (1) was a member of such board of directors on the date of this prospectus supplement;
- (2) was nominated for election or elected to such board of directors with the approval of a majority of the Continuing Director directors at the time of such nomination or election; or
- (3) is a designee of a Principal or was nominated by a Principal.

“Investment Grade” means a rating of Baa3 or better by Moody’s (or its equivalent under any successor rating category of Moody’s) and (or its equivalent under any successor rating category of S&P), and the equivalent investment grade credit rating from any replacement rating Agency under the circumstances permitting us to select a replacement agency and in the manner for selecting a replacement agency, in each case as Agency.”

“Moody’s” means Moody’s Investors Service, Inc., a subsidiary of Moody’s Corporation, and its successors.

“Person” means any individual, corporation, partnership, joint venture, association, joint-stock company, trust, unincorporated organization, government or any agency or political subdivision thereof or any other entity.

“Principal” means Peter McCausland (and in the event of his incompetence or death, his estate, heirs, executor, administrator, committee (collectively, “heirs”)) or any Person controlled, directly or indirectly, by Peter McCausland or his heirs.

“Rating Agency” means each of Moody’s and S&P; provided, that if Moody’s or S&P ceases to rate the notes of a series or fails to make such ratings publicly available for reasons outside our control, we may appoint another “nationally recognized statistical rating organization” within the meaning of the Exchange Act as a replacement for such Rating Agency; provided, that we shall give notice of such appointment to the trustee.

“Related Party” means:

- (1) any immediate family member (in the case of an individual) of the Principal; or
- (2) any trust, corporation, partnership or other entity, the beneficiaries, stockholders, partners, owners or Persons beneficially interested in the interest of which consist of the Principal.

“S&P” means Standard & Poor’s Ratings Services, a division of The McGraw-Hill Companies, Inc., and its successors.

“Voting Stock” of any specified Person as of any date means the Capital Stock of such Person that is at the time entitled to vote generally in the election of directors of such Person.

The definition of Change of Control includes a phrase relating to the direct or indirect sale, lease, transfer, conveyance or other disposition of the properties or assets of Airgas, Inc. and its Subsidiaries taken as a whole. Although there is a limited body of case law interpreting the phrase, the precise, established definition of the phrase under applicable law. Accordingly, the applicability of the requirement that we offer to repurchase the notes upon transfer, conveyance or other disposition of less than all of the assets of Airgas, Inc. and its Subsidiaries taken as a whole to another Person

In addition, under a recent Delaware Chancery Court interpretation of a change of control repurchase requirement with a continuing duty, our Board of Directors may approve a slate of shareholder nominated directors without endorsing them or while simultaneously recommending and endorsing its own slate. This interpretation would permit our Board of Directors to approve a slate of directors that included a majority of dissident directors nominated by the Board. The ultimate election of such dissident slate would not constitute a "Change of Control Triggering Event" that would trigger your right to require a repurchase as described above.

## **Covenants**

### *Restrictions on Liens*

We will not, and will not permit any Restricted Subsidiary to, incur any indebtedness secured by any Lien on any shares of stock, Indebtedness or other obligations of a Restricted Subsidiary or any Principal Property of ours or a Restricted Subsidiary, whether such shares of stock, Indebtedness or other obligations of a Restricted Subsidiary or any Principal Property is owned at the date of the Indenture or thereafter acquired, without in any such case effectively providing that all the notes will be secured by such Lien.

These restrictions do not apply to:

- (1) the incurrence of any Lien on any shares of stock, Indebtedness or other obligations of a Subsidiary or any Principal Property of ours or a Restricted Subsidiary contemporaneously with such acquisition by us or a Restricted Subsidiary (including acquisitions by way of merger or consolidation) by us or a Restricted Subsidiary thereafter, to secure or provide for the payment or financing of any part of the purchase price thereof, or the assumption of any Lien upon or other obligations of a Subsidiary or any Principal Property acquired after the date of the Indenture existing at the time of such acquisition of stock, Indebtedness or other obligations of a Subsidiary or any Principal Property subject to any Lien without the assumption thereof; (1) shall attach only to the shares of stock, Indebtedness or other obligations of a Subsidiary or any Principal Property and improvements thereon;
- (2) any Lien on any shares of stock, Indebtedness or other obligations of a Subsidiary or any Principal Property existing on the date of the Indenture;
- (3) any Lien on any shares of stock, Indebtedness or other obligations of a Subsidiary or any Principal Property in favor of Air Products or any of its subsidiaries;
- (4) any Lien on Principal Property being constructed or improved securing loans to finance such construction or improvements;
- (5) any Lien in favor of the United States of America or any State, or in favor of any department, agency or instrumentality or political subdivision of the United States or any political subdivision of a foreign country, the purpose of which is to secure partial, progress, advance or other payment of a public debt or other obligation of such government;
- (6) any Lien imposed by law, for example mechanics', workmen's, repairmen's or other similar Liens arising in the ordinary course of business;
- (7) any pledges or deposits under workmen's compensation or similar legislation or in certain other circumstances;
- (8) any Lien in connection with legal proceedings;
- (9) any Lien for taxes or assessments;
- (10) any Lien to secure the performance of bids, tenders, letters of credit, contracts (other than contracts for the payment of indebtedness), obligations, surety, customs, appeal, performance and payment bonds and other obligations of like nature, in each such case arising in the ordinary course of business.

## Table of Contents

(11) any renewal of or substitution for any Lien permitted by any of the preceding clauses (1) through (4), provided, in the case of (2) or (4), the debt secured is not increased nor the Lien extended to any additional assets.

Notwithstanding the foregoing, we or any Restricted Subsidiary may create or assume Liens in addition to those permitted by clauses (1) through (4), provided that at the time of such creation, assumption, renewal, extension or replacement of such Lien, and after giving effect to the provisions of the Indenture, the total outstanding debt secured by Liens Incurred pursuant to this paragraph, together with the total outstanding Attributable Debt Incurred in connection with the transactions entered into pursuant to the provisions of the Indenture described below in the last paragraph under “—Covenants—Limitation on Liens”, does not exceed 10% of Consolidated Net Tangible Assets.

For the purposes of this “Restrictions on Liens” covenant and the “Limitation on Sale and Leaseback Transactions” covenant, the giving of a Lien on any shares of stock, Indebtedness or other obligations of a Subsidiary or any Principal Property, and the creation of a Lien on any shares of stock, Indebtedness or other obligations of a Subsidiary or any Principal Property to secure Indebtedness that existed prior to the creation of such Lien, shall be deemed to be secured in an amount equal to the principal amount guaranteed or secured by such Lien.

Given the size of our operations, at any given time we expect to have very few or no Principal Properties and, accordingly, very few or no

### ***Limitation on Sale and Leaseback Transactions***

We will not, and will not permit any Restricted Subsidiary to, sell or transfer, directly or indirectly, except to us or a Restricted Subsidiary, the entirety, or any substantial portion thereof, with the intention of taking back a lease of such property, except a lease for a period of three years, unless we intend that the use of such property by the lessee will be discontinued; provided that, notwithstanding the foregoing, we or any Restricted Subsidiary may sell or transfer such Property and lease it back for a longer period:

(1) if we or such Restricted Subsidiary would be entitled, pursuant to the provisions of the Indenture described above under “—Covenants—Limitation on Liens”, to mortgage on the property to be leased securing Funded Debt in an amount equal to the Attributable Debt with respect to such sale and leaseback transaction and ratably securing the outstanding notes;

(2) if we promptly inform the trustee of such transaction, the net proceeds of such transaction are at least equal to the fair market value (as determined by board resolution) of such property, and we cause an amount equal to the net proceeds of the sale to be applied to the retirement, within 180 days, of Funded Debt Incurred or assumed by us or a Restricted Subsidiary (including the notes); or

(3) if we, within 180 days after the sale or transfer, apply or cause a Restricted Subsidiary to apply an amount equal to the greater of the net proceeds of the sale or transfer or the fair market value of the Principal Property (or portion thereof) so sold and leased back at the time of entering into such transaction (as determined by board resolution) to purchase other Principal Property having a fair market value at least equal to the fair market value of the Principal Property (or portion thereof) sold or transferred in such sale and leaseback transaction.

Notwithstanding the foregoing, we or any Restricted Subsidiary may enter into sale and leaseback transactions in addition to those permitted by clauses (1) through (3) without any obligation to retire any outstanding notes or other Funded Debt, provided that at the time of entering into such sale and leaseback transaction, the total outstanding Attributable Debt Incurred pursuant to this

paragraph, together with any of the total outstanding Indebtedness secured by Liens created, assumed or otherwise incurred pursuant to the paragraph above in the third paragraph under “—Covenants—Restrictions on Liens,” does not exceed 10% of Consolidated Net Tangible Assets.

### *Definitions*

“Attributable Debt” means, when used in connection with a sale and leaseback transaction, at any date of determination, the product of the value of the sale and leaseback transaction multiplied by (2) a fraction, the numerator of which is the number of full years of the term of the lease relating to the leaseback transaction (without regard to any options to renew or extend such term) remaining at the date of the making of such computation and the denominator of which is the number of full years of the term of such lease measured from the first day of such term.

“Capital Stock” means, with respect to any Person, any and all shares, interests, rights to purchase, warrants, options, participations or other securities (including partnership interests) in (however designated) the equity of such Person, including any preferred stock, but excluding any debt securities.

“Consolidated Net Tangible Assets” means, as of any date, the total amount of assets of Airgas, Inc. and its Subsidiaries on a consolidated basis (excluding cash and other properly deductible items) after deducting therefrom (1) all current liabilities (excluding (x) any current liabilities which are by their terms payable at the option of the obligor thereon to a time more than 12 months after the time as of which the amount thereof is being computed or which are payable at the maturity of more than 12 months from the date of calculation and (y) current maturities of long-term Indebtedness and capital lease obligations), (2) trademarks, patents, unamortized debt discount and expense and other like intangibles and (3) appropriate adjustments on account of minority interests in the stock of Airgas, Inc.’s Subsidiaries, all as set forth on the most recent balance sheet of Airgas, Inc. and its consolidated Subsidiaries (but, in no event, less than zero) as of the date of determination), in each case excluding intercompany items and computed in accordance with generally accepted accounting principles.

“Funded Debt” means all Indebtedness for borrowed money, including purchase money indebtedness, having a maturity of more than one year and not having a maturity of less than one year but by its terms being renewable or extendible, at the option of the obligor in respect thereof, beyond the date of determination.

“Incur” means to issue, assume, guarantee, incur or otherwise become liable for. The terms “Incurred,” “Incurrence” and “Incurring” shall have corresponding meanings.

“Indebtedness” means with respect to any Person at any date of determination (without duplication), indebtedness for borrowed money, including notes, debentures or other similar instruments given to finance the acquisition of any businesses, properties or assets of any kind (including, without limitation, other equity interests in any Person).

“Lien” with respect to any property or assets, means any mortgage or deed of trust, pledge, hypothecation, assignment, deposit arrangement, security interest, easement (other than any easement not materially impairing usefulness or marketability), encumbrance, preference, priority or other security interest of any kind or nature whatsoever on or with respect to such property or assets (including, without limitation, any conditional sale or other title retention agreement having substantially the same economic effect as any of the foregoing), but not including the interest of a lessor under a lease that is an operating lease as defined in generally accepted accounting principles.

“Principal Property” means any land, land improvements or building, together with the land upon which it is erected and fixtures commonly appurtenant thereto, owned or leased by us or any Restricted Subsidiary.

and located in the United States, the gross book value (without deduction of any reserve for depreciation) of which on the date as of which the amount which exceeds 1.0% of Consolidated Net Tangible Assets.

“Restricted Subsidiary” means any Subsidiary which, at the time of determination, owns or is a lessee pursuant to a capital lease of a

“Significant Subsidiary” means any Subsidiary that would be a “significant subsidiary” as defined in Article 1, Rule 1-02 of Regulation Securities Act, as such Regulation is in effect on the date of the Supplemental Indenture.

“Subsidiary” of a Person means, with respect to any Person, any corporation, association, partnership or other business entity of which power of the Capital Stock entitled (without regard to the occurrence of any contingency) to vote in the election of directors, managers or trustees controlled, directly or indirectly, by (1) such Person, (2) such Person and one or more Subsidiaries of such Person or (3) one or more Subsidiaries of such Person.

### **Consolidation; Merger or Sale of Substantially All Assets**

We may: (1) consolidate or merge with or into another Person; or (2) sell, assign, transfer, convey or otherwise dispose of all or substantially all of our assets and our Subsidiaries taken as a whole, in one or more related transactions, to another Person; if:

(1) either: (a) we are the surviving corporation; or (b) the Person formed by or surviving any such consolidation or merger (if a sale, assignment, transfer, conveyance or other disposition has been made is a corporation organized or existing under the laws of the United States or the District of Columbia (any such Person, the “Successor Company”);

(2) the Successor Company assumes all the obligations of Airgas under the notes and the Indenture pursuant to agreements reasonably satisfactory to the Trustee;

(3) immediately after such transaction no default exists.

The Successor Company will be the successor to Airgas and shall succeed to, and be substituted for, and may exercise every right and remedy of Airgas and the predecessor company shall be released from its obligations with respect to the notes, including with respect to its obligation to pay the principal of and interest on the notes. Under these circumstances, if our properties or assets become subject to a Lien not permitted by the Indenture, we will equally and ratably

### **Reports**

Whether or not required by the Commission, so long as any notes of the applicable series are outstanding, Airgas will furnish to the holders of the notes the information specified in the Commission’s rules and regulations:

(1) all quarterly and annual financial information that would be required to be contained in a filing with the Commission on Form 10-Q and Form 10-K, respectively, and all other financial information required to file such Forms, including a “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and other information only, a report on the annual financial statements by Airgas’ certified independent accountants; and

(2) all current reports that would be required to be filed with the Commission on Form 8-K if Airgas were required to file such reports.

In addition, whether or not required by the Commission, Airgas will file a copy of all of the information and reports referred to in clause (1) and (2) above with the Commission for public availability within the time

periods specified in the Commission's rules and regulations (unless the Commission will not accept such a filing) and make such information available to prospective investors upon request, provided that for the avoidance of doubt, information or reports filed with the Commission shall be deemed to be made available to

### **Events of Default**

An event of default under the Indenture with respect to the notes of either series includes the following:

- failure to pay interest on the notes of such series for 30 days;
- failure to pay principal on the notes of such series when due;
- failure to perform any of the other covenants or agreements in the Indenture relating to the notes of such series that continues for 60 days after the trustee or holders of at least 25% in principal amount of the notes of such series then outstanding (for purposes of the financial covenants, the 60 day grace period will be extended to 90 days);
- default under any mortgage, indenture or instrument under which there may be issued or by which there may be secured or evidenced indebtedness borrowed by Airgas or any of its Significant Subsidiaries (or the payment of which is guaranteed by Airgas or any of its Significant Subsidiaries) if that indebtedness or guarantee now exists, or is created after the date of the Indenture, if that default (a) is caused by a failure to pay when due, giving effect to any applicable grace period provided in such Indebtedness (a "Payment Default"); or (b) results in the acceleration or express maturity, and, in each case, the principal amount of any such Indebtedness, together with the principal amount of any other such Indebtedness there has been a Payment Default or the maturity of which has been so accelerated, aggregates \$100.0 million or more; or
- certain events of bankruptcy, insolvency or reorganization relating to us.

The Indenture provides that the trustee will, with certain exceptions, notify the holders of notes of each series of any event of default with respect to such series within 90 days after the occurrence of such event.

If an event of default (other than with respect to certain events of bankruptcy, insolvency or reorganization) occurs and is continuing with respect to the trustee or the holders of not less than 25% in principal amount of the notes of such series then outstanding may declare the principal amount to be due and payable with respect to certain events of bankruptcy, insolvency or reorganization occurs and is continuing, then all of the notes of each series shall become due and payable immediately in an amount equal to the principal amount of the notes of such series, together with accrued and unpaid interest, if any, and become due and payable, without any declaration or other act on the part of the trustee or any holder. Subject to certain conditions, the holders of the notes of such series then outstanding can rescind and annul such declaration and its consequences.

We are required to file an annual officers' certificate with the trustee concerning our compliance with the Indenture. Subject to the powers and duties of the trustee, the trustee is not obligated to exercise any of its rights or powers at the request or direction of any of the holders unless the request is supported by an indemnity satisfactory to the trustee. If the holders provide security or indemnity satisfactory to the trustee, the holders of a majority in principal amount of the notes of each series during an event of default may direct the time, method and place of conducting any proceeding for any remedy available to the trustee under the Indenture, and the trustee shall exercise its trusts or powers with respect to the notes of such series.

Prior to the acceleration of the maturity of the notes of a series, the holders of not less than a majority in aggregate principal amount of the notes of such series may on behalf of the holders of all outstanding

notes of such series waive any past default or event of default and its consequences, except a default or event of default (a) in the payment of interest on any note of such series (which may only be waived with the consent of each holder of notes of such series affected) or (b) in respect of the Indenture which cannot be modified or amended without the consent of the holder of each note of such series outstanding affected by such modification.

### **Book-Entry, Delivery and Form**

The notes of each series initially will be represented by one or more permanent global certificates in definitive, fully registered form. The Global Notes will be deposited upon issuance with The Depository Trust Company, New York, New York ("DTC"), and registered in the name of a global certificate.

#### ***The Global Notes***

DTC has advised us that pursuant to procedures established by it (i) upon the issuance of the Global Notes, DTC or its custodian will pay the principal amount at maturity of the individual beneficial interests represented by such Global Notes to the respective accounts of persons who are participants in such system, and (ii) ownership of beneficial interests in the Global Notes will be shown on, and the transfer of such ownership will be effected only through the records of DTC (with respect to interests of participants) and the records of participants (with respect to interests of persons other than participants) in such system. The transfer of ownership of the Global Notes will be limited to persons who have accounts with DTC ("participants") or persons who hold interests through participants in such system. Global Notes directly through DTC if they are participants in such system, or indirectly through organizations that are participants in such system.

So long as DTC, or its nominee, is the registered owner or holder of the notes of either series, DTC or such nominee, as the case may be, will be deemed to be the registered owner or holder of the notes of such series represented by such Global Notes for all purposes under the indenture governing the notes of such series. DTC or its nominee, as the case may be, will be able to transfer that interest except in accordance with DTC's procedures, in addition to those provided for under the indenture governing the notes of such series.

Payments of the principal of, premium, if any, and interest (including additional interest) on the Global Notes will be made to DTC or its nominee, as the case may be, on behalf of the registered owner of the Global Notes. None of Airgas, the trustee or any paying agent under the indenture governing the notes will have access to or control over any aspect of the records relating to or payments made on account of beneficial ownership interests in the Global Notes or for maintaining, supervising or otherwise administering such records relating to such beneficial ownership interest.

DTC has advised us that its present practice is, upon receipt of any payment of principal, premium, if any, and interest (including additional interest) on the Global Notes, to credit immediately participants' accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of the Global Notes as shown on the records of DTC. Payments by participants to owners of beneficial interests in the Global Notes held through such participants will be governed by the customary practice, as is now the case with securities held for the accounts of customers registered in the names of nominees for such customers, of the responsibility of such participants.

Transfers between participants in DTC will be effected in the ordinary way through DTC's same-day funds system in accordance with the procedures for the same-day funds. If a holder requires physical delivery of a certificated security for any reason, including to sell notes to persons in states where physical delivery is required, or to pledge such securities, such holder must transfer its interest in a Global Note, in accordance with the normal procedures of DTC under the indenture governing the notes.

---

## [Table of Contents](#)

DTC has advised us that it will take any action permitted to be taken by a holder of notes, including the presentation of notes for exchange in the direction of one or more participants to whose account the DTC interests in the Global Notes are credited and only in respect of such portion of the notes as to which such participant or participants has or have given such direction. However, if there is an event of default under the indenture, DTC will exchange the Global Notes for certificated securities, which it will distribute to its participants.

DTC has advised us as follows: DTC is a limited purpose trust company organized under the laws of the State of New York, a member of the National Automated Clearing House Association, a “clearing corporation” within the meaning of the Uniform Commercial Code and a “Clearing Agency” registered pursuant to the provisions of the Securities Exchange Act of 1934. DTC was created to hold securities for its participants and facilitate the clearance and settlement of securities transactions between participants and to effect changes in accounts of its participants, thereby eliminating the need for physical movement of certificates. Participants include securities brokers and dealers, banks, trust companies and clearing corporations and certain other organizations. Indirect access to the DTC system is available to others such as banks, brokers, dealers and other organizations that clear through or maintain a custodial relationship with a participant, either directly or indirectly (“indirect participants”).

Although DTC has agreed to the foregoing procedures in order to facilitate transfers of interests in the Global Note among participants, DTC will not perform such procedures, and such procedures may be discontinued at any time. Neither we nor the trustee will have any responsibility for the performance of such procedures or the obligations of participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

*Clearstream.* Clearstream is incorporated under the laws of Luxembourg as a professional depository. Clearstream holds securities for its participants (“Clearstream Participants”) and facilitates the clearance and settlement of securities transactions between Clearstream Participants through the use of accounts of Clearstream Participants, thereby eliminating the need for physical movement of certificates. Clearstream provides Clearstream Participants with services for safekeeping, administration, clearance and establishment of internationally traded securities and securities lending and borrowing in domestic markets in several countries. As a professional depository, Clearstream is subject to regulation by the Luxembourg Monetary Institute and other recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and other organizations, and may include the underwriters. Indirect access to Clearstream is also available to others, such as banks, brokers, dealers and other organizations that maintain a custodial relationship with a Clearstream Participant either directly or indirectly.

Distributions with respect to notes held beneficially through Clearstream will be credited to cash accounts of Clearstream Participants and will be distributed in accordance with the procedures to the extent received by DTC for Clearstream.

*Euroclear.* Euroclear was created in 1968 to hold securities for participants of Euroclear (“Euroclear Participants”) and to clear and settle securities transactions between Euroclear Participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and to effect simultaneous transfers of securities and cash. Euroclear includes various other services, including securities lending and borrowing and interest rate swaps in several markets in several countries. Euroclear is operated by Euroclear Bank S.A.J.N.V. (the “Euroclear Operator”), under contract with Euroclear Bank S.A.J.N.V., a Belgian cooperative corporation (the “Cooperative”). All operations are conducted by the Euroclear Operator, and all Euroclear securities transactions are accounts with the Euroclear Operator, not the Cooperative. The Cooperative establishes policy for Euroclear on behalf of Euroclear Participants. Euroclear Participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include other firms that have access to Euroclear is also available to other firms that clear through or maintain a custodial relationship with a Euroclear Participant, either directly or indirectly.

## Table of Contents

The Euroclear Operator is regulated and examined by the Belgian Banking Commission.

Links have been established among DTC, Clearstream and Euroclear to facilitate the initial issuance of the notes sold outside of the U.S. of the notes associated with secondary market trading.

Although DTC, Clearstream and Euroclear have agreed to the procedures provided below in order to facilitate transfers, they are understood to be subject to change, and these procedures may be modified or discontinued at any time.

Clearstream and Euroclear will record the ownership interests of their participants in much the same way as DTC, and DTC will record the ownership interests of its U.S. agents of Clearstream and Euroclear, as participants in DTC. When notes are to be transferred from the account of a DTC participant to the account of a Clearstream or Euroclear participant or a Euroclear participant, the purchaser must send instructions to Clearstream or Euroclear through a participant at least one day prior to settlement. Clearstream or Euroclear, as the case may be, will instruct its U.S. agent to receive notes against payment. After settlement, Clearstream or Euroclear will credit the account of the purchaser, and the ownership interests for the notes will appear on the next day (European time).

Because settlement is taking place during New York business hours, DTC participants will be able to employ their usual procedures for settlement through their U.S. agent acting for the benefit of Clearstream or Euroclear participants. The sale proceeds will be available to the DTC seller on the settlement date. If a DTC participant, a cross-market transaction will settle no differently than a trade between two DTC participants.

When a Clearstream or Euroclear participant wishes to transfer notes to a DTC participant, the seller will be required to send instructions to DTC through a participant at least one business day prior to settlement. In these cases, Clearstream or Euroclear will instruct its U.S. agent to transfer the notes to DTC. The payment will then be reflected in the account of the Clearstream or Euroclear participant the following day, with the proceeds back to the Clearstream or Euroclear participant. If settlement would be the preceding day, when settlement occurs in New York. If settlement is not completed on the intended value date, that is, the trade will settle on the next business day. Clearstream or Euroclear participant's account will instead be valued as of the actual settlement date.

You should be aware that you will only be able to make and receive deliveries, payments and other communications involving the notes on the days when those clearing systems are open for business. Those systems may not be open for business on days when banks, brokers and other financial institutions are not open for business in the United States. In addition, because of time zone differences there may be problems with completing transactions involving Clearstream or Euroclear on a business day as in the United States.

### ***Certificated Securities***

A Global Note is exchangeable for certificated securities if:

- DTC (1) notifies us that it is unwilling or unable to continue as depositary for the Global Notes or (2) has ceased to be a Clearstream or Euroclear participant under the Exchange Act and, in either case, we fail to appoint a successor depositary;
- with respect to notes of either series, we, at our option, notify the trustee in writing that we elect to cause the issuance of the notes in certificated form (provided that under current industry practices, DTC would notify participants of our determination, but would only withdraw the Global Note at the request of participants); or
- with respect to notes of either series, there has occurred and is continuing a default or an event of default with respect to the notes.

This summary is based on the Internal Revenue Code of 1986, as amended, which we refer to as the “Code,” regulations issued under administrative rulings and practice, all as of the date hereof and all of which are subject to change. Any such change may be applied retroactively to federal income tax consequences described in this prospectus supplement. This summary only addresses tax consequences to investors that purchase the “issue price,” which will equal the first price at which a substantial amount of the notes is sold for money to the public (not including bond dealers or organizations acting in the capacity of underwriters, placement agents or wholesalers), and own the notes as “capital assets” within the meaning of “straddle” or a “conversion transaction” for U.S. federal income tax purposes, or as part of some other integrated investment.

This summary does not discuss all of the tax consequences that may be relevant to particular investors or to investors subject to special U.S. federal income tax laws (such as insurance companies, banks, financial institutions, tax-exempt organizations, retirement plans, regulated investment companies, alternative minimum tax, partnerships or other pass-through entities (or investors in such entities), securities dealers, expatriates or United States citizens whose currency for tax purposes is not the U.S. dollar). If any entity treated as a partnership for U.S. federal income tax purposes holds notes, the tax consequences to the partnership will generally depend upon the status of the partner and the activities of the partnership. A partner of a partnership considering an investment in the notes should consult its own tax advisors with respect to the tax treatment of the purchase, ownership and disposition of the notes by the partnership. This summary does not discuss tax consequences arising out of the tax laws of any state, local, foreign or other taxing jurisdiction, any U.S. federal tax consequence other than U.S. federal income tax (such as estate or gift tax consequences) or any consequences resulting from the newly enacted Medicare tax on investment income. We have not consulted the Internal Revenue Service, or the “IRS,” with respect to any matters discussed in this section, and we cannot assure you that the IRS will not apply tax consequences described below.

In certain circumstances, the notes provide for the payment of amounts in excess of stated interest or principal. Our obligation to pay such amounts is subject to the provisions of the Treasury regulations relating to “contingent payment debt instruments.” However, the possibility of such excess amounts being treated as contingent payment debt instruments if, as of the issue date, such contingencies are “remote” or “incidental,” or, in certain circumstances, more likely than not that such contingencies will not occur. Although the matter is not free from doubt, we intend to take the position that these contingencies will be treated as contingent payment debt instruments. This determination will be binding on a holder unless it explicitly discloses its contrary position as required by applicable Treasury regulations. However, this determination is inherently factual and we can give you no assurance that our position will be upheld by the IRS. If the IRS successfully challenged this determination, it could adversely affect the amount, timing and character of the income that you receive (for example, by treating gain recognized by holders upon a disposition of a note as ordinary income and requiring a holder to accrue interest on the notes). The remainder of this discussion assumes that the notes will not be treated as contingent payment debt instruments. Holders should consult their tax advisors regarding the potential application of the contingent payment debt regulations to the notes and the consequences thereof.

**Persons considering the purchase of the notes should consult their own tax advisors concerning the application of the U.S. federal income tax laws in their situations as well as any tax consequences of the purchase, ownership and disposition of the notes arising under the laws of any state, local, foreign or other taxing jurisdiction.**

## [Table of Contents](#)

It is expected, and therefore this discussion assumes, that the notes will be issued without original issue discount for U.S. federal income tax purposes.

### **U.S. Holders**

For purposes of this discussion, a “U.S. Holder” means a beneficial owner of a note that, for U.S. federal income tax purposes, is:

- an individual who is a citizen or resident of the United States;
- a corporation organized under the laws of the United States, any state thereof or the District of Columbia;
- an estate whose income is subject to U.S. federal income taxation regardless of its source; or
- a trust if a court within the United States is able to exercise primary supervision over its administration and one or more United States persons control all of its substantial decisions, or that was a domestic trust for U.S. federal income tax purposes on August 19, 1996, and continues to qualify as a domestic trust.

#### *Treatment of stated interest*

Stated interest on the notes will be taxable to a U.S. Holder as ordinary income as the stated interest accrues or is paid in accordance with the notes' accounting.

#### *Treatment of dispositions of notes*

Upon the sale, exchange, retirement, redemption or other taxable disposition of a note, a U.S. Holder generally will recognize gain or loss equal to the amount received on such disposition (other than any amounts attributable to accrued and unpaid stated interest, which will be treated as ordinary income if not previously included in income) and the U.S. Holder's tax basis in the note. A U.S. Holder's tax basis in a note will be, in general, the cost of the note plus or minus the gain or loss realized on the sale, exchange, retirement, redemption or other taxable disposition of a note generally will be capital gain or loss, and if, at the time of such disposition, the note has been held for more than one year. For non-corporate U.S. Holders, certain preferential tax rates will apply to long-term capital gain. A U.S. Holder's ability to deduct capital losses is subject to limitations.

### **Non-U.S. Holders**

For purposes of this discussion, a “Non-U.S. Holder” is a beneficial owner of notes that is, for U.S. federal income tax purposes, an individual that is not a U.S. Holder.

For purposes of the following discussion, any interest income and any gain realized on the sale, exchange, retirement, redemption or other taxable disposition of a note will be considered “U.S. trade or business income” if such interest income or gain is effectively connected with the conduct of a trade or business.

#### *Treatment of interest*

A Non-U.S. Holder will not be subject to U.S. federal income or withholding tax in respect of interest income on the notes if each of the following conditions is met:

- the interest is not U.S. trade or business income;
- the Non-U.S. Holder does not actually or constructively own 10% or more of the total combined voting power of all classes of equity of the issuer.

## Table of Contents

- the Non-U.S. Holder is not a “controlled foreign corporation” that is actually or constructively related to us;
- the Non-U.S. Holder is not a bank which acquired the note in consideration for an extension of credit made pursuant to a loan a course of its trade or business; and
- the Non-U.S. Holder provides to us or our paying agent an appropriate statement on a properly executed IRS Form W-8BEN (and appropriate attachments, signed under penalties of perjury, identifying the Non-U.S. Holder and stating, among other things, that the Non-U.S. Holder is not a U.S. person. If a note is held through a securities clearing organization, bank or another financial institution that holds customarily in the course of its trade or business, this requirement is satisfied if (i) the Non-U.S. Holder provides such a form to the organization or institution, under penalties of perjury, certifies to us that it has received such a form from the beneficial owner or another intermediary agent with a copy.

To the extent these conditions are not met, a 30% withholding tax will apply to interest income on the notes that is not U.S. trade or business income. If an applicable income tax treaty reduces or eliminates such tax (and the Non-U.S. Holder provides us or our paying agent a properly executed IRS Form W-8), the 30% withholding tax will not apply.

If interest is U.S. trade or business income, the Non-U.S. Holder will generally be exempt from withholding tax, although to avoid withholding tax, the Non-U.S. Holder will generally be required to provide an appropriate statement to that effect on an applicable IRS Form W-8 (or substitute form). Non-U.S. Holders should consult their own tax advisors for rules that may apply as the result of an applicable income tax treaty.

A Non-U.S. Holder generally will be subject to U.S. federal income tax with respect to all interest income that is U.S. trade or business income. A U.S. Holder, as described above (unless an applicable income tax treaty provides otherwise). A Non-U.S. Holder that is a corporation also will be subject to a 30% rate (or lower applicable treaty rate) on such holder’s effectively connected earnings and profits (subject to adjustments) attributable to the notes.

### ***Treatment of dispositions of notes***

Generally, a Non-U.S. Holder will not be subject to U.S. federal income tax on gain realized upon the sale, exchange, retirement, or redemption of a note unless:

- such holder is an individual present in the United States for 183 days or more in the taxable year of the sale, exchange, retirement, or redemption and certain other conditions are met, in which case such holder will be subject to a flat 30% U.S. federal income tax on the gain, which may be offset by certain U.S. source capital losses (unless an applicable income tax treaty provides otherwise);
- the gain is U.S. trade or business income, in which case such holder generally will be subject to U.S. federal income tax in the amount of the gain as described above (unless an applicable income tax treaty provides otherwise). Additionally, in such event, Non-U.S. Holders that are corporations will be subject to a 30% (or lower applicable treaty rate) branch profits tax on such holder’s effectively connected earnings and profits (subject to adjustments) attributable to the gain.

### **Information reporting requirements and backup withholding**

We (or another paying agent) generally will report to non-corporate U.S. Holders and the IRS interest payments and proceeds from a redemption of the notes.

---

## Table of Contents

Non-corporate U.S. Holders generally will be subject to backup withholding (currently at a rate of 28%) on the foregoing amounts if

- fails to furnish its Taxpayer Identification Number, or TIN, which for an individual would be his or her Social Security Number;
- furnishes an incorrect TIN;
- is notified by the IRS that it is subject to backup withholding because it has previously failed to properly report payments of interest and dividends;
- under certain circumstances, fails to certify, under penalties of perjury, that it has furnished a correct TIN and has not been notified of backup withholding for failure to report interest and dividend payments; or
- fails to establish an exemption from backup withholding.

We will report to Non-U.S. Holders of the notes and the IRS amounts of interest paid on or with respect to the notes and the amount of backup withholding. Copies of the information returns reporting such interest and withholding may be made available to the tax authorities in foreign countries under a tax treaty or agreement.

A Non-U.S. Holder may also be subject to backup withholding (currently at a rate of 28%) with respect to interest paid on the notes. A Non-U.S. Holder will not be subject to backup withholding if the Non-U.S. Holder certifies its non-U.S. status under penalties of perjury (for a Non-U.S. Holder) or satisfies the requirements of an otherwise established exemption.

The payment of the proceeds from a disposition (including a retirement or redemption) of notes by a Non-U.S. Holder to or through the United States or foreign, will be subject to information reporting and possible backup withholding unless the Non-U.S. Holder certifies its non-U.S. status or satisfies the requirements of an otherwise established exemption.

If the proceeds from a disposition (including a retirement or redemption) of notes are paid to or through a foreign office of a broker or dealer that is a “U.S. related person,” as defined below, they will not be subject to backup withholding or information reporting. If the proceeds are paid to or through a broker or dealer that is either a United States person or a “U.S. related person,” they generally will be subject to information reporting. However, no such reporting will be required if the holder certifies as to its non-U.S. status under penalties of perjury or the broker has certain documentary evidence in its files as to the holder’s non-U.S. status. The reporting requirements do not apply to payments made through the foreign offices of a United States person or U.S. related person.

For purposes of this discussion, a “U.S. related person” is:

- a “controlled foreign corporation” for U.S. federal income tax purposes;
- a foreign person 50% or more of whose gross income during a specified three-year period is U.S. trade or business income; or
- a foreign partnership if one or more of its partners are United States persons who, in the aggregate, hold more than 50% of the partnership or if the partnership is engaged in the conduct of a U.S. trade or business.

Backup withholding is not an additional tax and may be refunded or credited against the holder’s U.S. federal income tax liability, provided the holder’s tax return is timely furnished to the IRS.

The U.S. federal income tax discussion set forth above is included for general information only and may not be applicable depending on the facts and circumstances. Persons considering the purchase of the notes should consult their own tax advisors concerning the application of the U.S. federal tax laws to any tax consequences of the purchase, ownership and disposition of the notes arising under the laws of any state, local, foreign or other taxing jurisdiction.

[Table of Contents](#)**UNDERWRITING**

We are offering the notes described in this prospectus supplement through a number of underwriters. Goldman, Sachs & Co., Merrill Lynch, Pierce, Fenner & Smith Incorporated and Wells Fargo Securities, LLC are acting as the representatives of the several underwriters named below. We have entered into underwriting agreements with the underwriters dated the date of this prospectus supplement. Subject to the terms and conditions of the underwriting agreement, we have agreed that each underwriter has severally agreed to purchase, the aggregate principal amount of notes listed next to its name in the following table:

<u>Underwriter</u>	<u>Principal Amount of 2018 Notes</u>
Merrill Lynch, Pierce, Fenner & Smith Incorporated	\$ 74,750,000
Goldman, Sachs & Co.	74,750,000
Wells Fargo Securities, LLC	48,750,000
SunTrust Robinson Humphrey, Inc.	30,875,000
U.S. Bancorp Investments, Inc.	30,875,000
Credit Agricole Securities (USA) Inc.	16,250,000
SMBC Nikko Capital Markets Limited	14,625,000
Mitsubishi UFJ Securities (USA), Inc.	6,500,000
Mizuho Securities USA Inc.	6,500,000
RBS Securities Inc.	6,500,000
HSBC Securities (USA) Inc.	4,875,000
PNC Capital Markets LLC	4,875,000
Santander Investment Securities Inc.	4,875,000
Total	<u>\$ 325,000,000</u>

The underwriting agreement is subject to a number of terms and conditions and provides that the underwriters must buy all of the notes offered. The underwriters will sell the notes to the public when and if the underwriters buy the notes from us.

The underwriters have advised us that they propose initially to offer the notes to the public at the public offering price set forth on the prospectus supplement and may offer the notes to certain dealers at such price less a concession not in excess of 0.350% of the principal amount of the 2018 notes and 0.250% of the principal amount of the 2020 notes. The underwriters may allow, and such dealers may reallow, a concession not in excess of 0.250% of the principal amount of the 2020 notes to certain other dealers. After the public offering of the notes, the public offering price and other selling terms of the notes by the underwriters is subject to receipt and acceptance of any order and subject to the underwriters' right to reject any order in whole or in part.

We estimate that our share of the total expenses of the offering, excluding the underwriting discount, will be approximately \$750,000.

We have agreed to indemnify the several underwriters against, or contribute to payments that the underwriters may be required to make, including liabilities under the Securities Act.

The notes are new issues of securities with no established trading market. The notes will not be listed on any securities exchange or quotation system. The underwriters may make a market in the notes after completion of the offering, but will not be obligated to do so and may discontinue such activities at any time without notice. No assurance can be given as to the liquidity of the trading market.

for the notes or that an active public market for the notes will develop. If an active public market for the notes does not develop, the market price of the notes may be adversely affected.

In connection with the offering of the notes, certain of the underwriters may engage in transactions that stabilize, maintain or otherwise support the market price of the notes.

Specifically, the underwriters may over allot in connection with the offering, creating a short position. In addition, the underwriters may purchase the notes in the open market to cover short positions or to stabilize the price of the notes. Any of these activities may stabilize or maintain the market price of the notes at market levels, but no representation is made hereby of the magnitude of any effect that the transactions described above may have on the market price of the notes. The underwriters will not be required to engage in these activities, and may engage in these activities, and may end any of these activities, at any time without notice.

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, including securities underwriting, investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. The underwriters and their respective affiliates have, from time to time, performed, and may in the future perform, various financial advisory and investment banking services for clients and have received or will receive customary fees and expenses. Specifically, an affiliate of Merrill Lynch, Pierce, Fenner & Smith Incorporated is the lead arranger of the Credit Facility and affiliates of each of the underwriters are lenders under our Credit Facility. Each of Merrill Lynch, Pierce, Fenner & Smith Incorporated, SMBC Nikko Capital Markets Limited and SMBC Nikko-SI LLC were joint lead arrangers and co-book managers under our Credit Facility.

In the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of securities, debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the account of clients. The underwriters and their respective affiliates may invest in securities and securities activities may involve securities and/or instruments of the issuer. Certain of the underwriters or their affiliates that the underwriters routinely hedge their credit exposure to us consistent with their customary risk management policies. Typically, such underwriters and their affiliates may be entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including the notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the notes offered hereby. The underwriters may also make investment recommendations and/or publish or express independent research views in respect of such securities or instruments. The underwriters may recommend to clients that they acquire, long and/or short positions in such securities and instruments.

SMBC Nikko Capital Markets Limited is not a U.S. registered broker-dealer and, therefore, intends to participate in the offering outside the United States to the extent that the offering is within the United States, as facilitated by an affiliated U.S. registered broker-dealer, SMBC Nikko Securities America, Inc., which is permitted under applicable law. To that end, SMBC Nikko Capital Markets Limited and SMBC Nikko-SI have entered into an agreement pursuant to which SMBC Nikko-SI provides certain advisory and/or other services with respect to this offering. In return for the provision of such services by SMBC Nikko-SI, SMBC Nikko Capital Markets Limited will pay to SMBC Nikko-SI a mutually agreed-fee.

### ABOUT THIS PROSPECTUS

This prospectus is part of an automatic shelf registration statement that we filed with the Securities and Exchange Commission (the “Commission”) as a “seasoned issuer” as defined in Rule 405 under the Securities Act of 1933, as amended (the “Securities Act”), utilizing a “shelf” registration statement that we may, from time to time, sell debt securities described in this prospectus in one or more offerings.

This prospectus provides you with a general description of the securities we may offer. Each time we sell securities, we will provide a prospectus supplement that contains specific information about the terms of that offering. The prospectus supplement may also add, update or change information contained in both this prospectus and any prospectus supplement together with additional information described under the heading “Where You Can Find More Information.”

Unless we state otherwise or the context otherwise requires, references to “Airgas,” “us,” “we,” “our” or “Company” in this prospectus include the consolidated subsidiaries of Airgas, Inc. When we refer to “you” in this section, we mean all purchasers of the securities being offered who are the holders or only indirect owners of those securities.

**You should rely only on the information provided in this prospectus and in any prospectus supplement, including the information contained in the prospectus supplement. We have not authorized anyone to provide you with different information. We are not offering the securities in any state where the offer is not permitted. Do not assume that the information in this prospectus, or any supplement to this prospectus, is accurate at any date other than the date indicated in the prospectus supplement.**

### WHERE YOU CAN FIND MORE INFORMATION

## DESCRIPTION OF THE DEBT SECURITIES

*The following description of the terms of the debt securities sets forth certain general terms and provisions of the debt securities may relate. The particular terms of the debt securities offered by any prospectus supplement and the extent, if any, to which these general securities will be described in the prospectus supplement relating to those debt securities. Accordingly, for a description of the terms of reference must be made to both the prospectus supplement relating thereto and to the following description.*

### General

The debt securities may be issued from time to time in an unlimited aggregate principal amount and an unlimited number of series. The an indenture between us and U.S. Bank National Association, as trustee, and under a supplemental indenture authorizing the particular series.

The debt securities are unsecured and will have the same rank as all other unsecured and non-subordinated debt of the Company.

We have summarized the material provisions of the indenture below. The summary is not complete. The indenture is incorporated by reference to the registration statement of which this prospectus is a part. The supplemental indenture for each series will be filed or incorporated by reference to the registration statement. You should read the indenture and the applicable supplemental indenture for provisions that may be important to you. The particular provisions will be described in the related prospectus supplement, along with any applicable modifications of or additions to the general terms of the debt securities set forth in the indenture. For a description of the terms of any series of debt securities, you should review both the prospectus supplement relating to the securities set forth in this prospectus before making an investment decision.

The prospectus supplement relating to a particular series of debt securities will describe to the extent applicable:

- (1) the title of the debt securities of such series;
- (2) the principal amount being offered, and, if a series, the total amount authorized and the total amount outstanding;
- (3) any limit upon the aggregate principal amount of such debt securities;
- (4) whether or not we will issue the series of debt securities in global form and, if so, the terms and who the depository will be;
- (5) the date or dates on which such debt securities will mature or the method of determination of such date or dates;
- (6) the rate or rates, or the method of determination thereof, at which such debt securities will bear interest, if any, the date or dates interest will accrue, the date or dates such interest will be payable and, for registered debt securities, the regular record dates;
- (7) the place or places where the principal of, and premium and interest, if any, on, such debt securities will be payable;
- (8) the terms and conditions upon which any such debt security may be redeemed (including the period or periods within which the security may be redeemed), in whole or in part, at our option;
- (9) any terms for redemption or repurchase pursuant to any sinking fund or analogous provision at the option of a holder;

- (21) any other terms of any of such debt securities not inconsistent with the indenture.

## **Form, Exchange, Registration and Transfer**

The debt securities will be issued in registered form, without interest coupons. There will be no service charge for any registration of securities. However, payment of any transfer tax or similar governmental charge payable for that registration may be required.

Debt securities of any series will be exchangeable for other debt securities of the same series, the same total principal amount and the denominations in accordance with the applicable indenture. Holders may present debt securities for registration of transfer at the office of the agent we designate. The security registrar or transfer agent will effect the transfer or exchange if its requirements and the requirements of the

The trustee will be appointed as security registrar for the debt securities. If a prospectus supplement refers to any transfer agents we intend to rescind that designation or approve a change in the

location through which any transfer agent acts. We are required to maintain an office or agency for transfers and exchanges in each place of principal activity and to designate additional transfer agents for any series of debt securities.

In the case of any redemption, we will not be required to register the transfer or exchange of:

- any debt security during a period beginning 15 business days prior to the mailing of the relevant notice of redemption or repurchase and ending 15 business days on the day of mailing of such notice; or
- any debt security that has been called for redemption in whole or in part, except the unredeemed portion of any debt security being redeemed.

### **Payment and Paying Agents**

Unless we inform you otherwise in a prospectus supplement, payments on the debt securities will be made in U.S. dollars at the office of the trustee. At our option, however, payments may be made by wire transfer for global debt securities or by check mailed to the address of the person entitled to receive payments in the security register. Unless we inform you otherwise in a prospectus supplement, interest payments may be made to the person in whose name the debt securities are registered, close of business on the record date for the interest payment.

Unless we inform you otherwise in a prospectus supplement, the trustee under the applicable indenture will be designated as the paying agent for the debt securities issued under that indenture. We may at any time designate additional paying agents or rescind the designation of any paying agent or resign as paying agent through which any paying agent acts.

If the principal of, or any premium or interest on, debt securities of a series is payable on a day that is not a business day, the payment will be made on the next business day. For these purposes, unless we inform you otherwise in a prospectus supplement, a “business day” means each day on which commercial banks and foreign exchange markets settle payments in the place or places where the principal of (and premium, if any) and interest, if any, on the securities of that series is payable. Unless otherwise specified, “business day” shall exclude any day on which commercial banks and foreign exchange markets do not settle payments.

Subject to the requirements of any applicable abandoned property laws, the trustee and paying agent will pay to us upon written request any payments on the debt securities that remains unclaimed for two years after the date upon which that payment has become due. After payment to us, we must look to us for payment. In that case, all liability of the trustee or paying agent with respect to that money will cease.

### **Book-Entry Debt Securities**

The debt securities of a series may be issued in the form of one or more global debt securities that would be deposited with a depositary. We will describe in the prospectus supplement the arrangement and the rights and limitations of owners of beneficial interests in any global debt security.

### **Satisfaction and Discharge; Defeasance**

At the request of the Company, the indenture will cease to be in effect as to the debt securities of any series (except for certain obligations) upon the exchange of such debt securities and related coupons, if any, and hold moneys for payment of such debt securities and coupons in trust) when the Company has deposited with the trustee the amount of the principal of and interest on such debt securities and coupons in trust.

securities and coupons have been delivered to the trustee for cancellation or (b) all such debt securities and coupons have become due and payable at their stated maturity within one year, or are to be called for redemption within one year, and the Company has deposited with the trustee in trust, money, or, in the case of debt securities denominated in a foreign currency, foreign government securities, in an amount sufficient to pay all the principal of, and premium on, such series on the dates such payments are due in accordance with the terms of such debt securities.

The Company may defease any series of debt securities and, at its option, either (a) be discharged after 123 days from any and all obligations under such series (except for certain obligations to register the transfer of or exchange debt securities and related coupons, replace stolen, lost or destroyed coupons, maintain paying agencies and hold moneys for payment in trust) or (b) eliminate the requirement to comply with certain restrictive covenants under such series. In order to exercise either defeasance option, the Company must deposit with the trustee in trust, money, or, in the case of debt securities denominated in a foreign currency, foreign government securities, in an amount sufficient to pay in the currency, currencies or units in which such debt securities are payable all the principal (including any mandatory sinking fund payments) of, and interest on, such series on the dates such payments are due in accordance with the terms of such series. Among the conditions to the Company exercising any such option, the Company is required to deliver to the trustee in trust, money, or, in the case of debt securities denominated in a foreign currency, foreign government securities, in an amount sufficient to pay in the currency, currencies or units in which such debt securities are payable all the principal (including any mandatory sinking fund payments) of, and interest on, such series on the dates such payments are due in accordance with the terms of such series. The deposit and related defeasance would not cause the holders of such series to recognize income, gain or loss for United States Federal income tax purposes. The holders of such series will be subject to United States Federal income tax in the same amounts, in the same manner and at the same times as would have been exercised.

## **Events of Default, Notice and Waiver**

The following are events of default under each indenture with respect to any series of debt securities that we may issue:

- default for 30 days in payment of any interest installment when due;
- default in payment of principal of, or premium, if any, on, debt securities of such series when due at their stated maturity, by the Company or otherwise;
- default for 30 days in the making of any payment for a sinking, purchase or analogous fund provided for in respect of debt securities of such series;
- default for 60 days after notice to the Company by the trustee or by holders of at least 25% in aggregate principal amount of the debt securities of such series in the performance of any covenant or agreement in the debt securities of such series or in the indenture with respect to such series;
- certain events of bankruptcy, insolvency and reorganization; and
- any other event of default provided with respect to the debt securities of such series.

No event of default with respect to a single series of indebtedness issued under the indenture (and any supplemental indentures) necessary to constitute an event of default with respect to any other series of indebtedness issued thereunder.

The indenture provides that the trustee will, within 90 days after the occurrence of a default with respect to the debt securities of any series, give notice of all uncured and unwaived defaults known to it; provided that, except in the case of default in the payment of interest, if any, on, or a sinking fund installment, if any, with respect to any of the debt securities of

such series, the trustee will be protected in withholding such notice if it in good faith determines that the withholding of such notice is in the best interests of the holders of the debt securities of such series. The term “default” for the purpose of this provision only means the happening of any of the events of default specified in the indenture, unless the trustee’s notice of default or notice requirement is eliminated.

The indenture contains provisions entitling the trustee, subject to the duty of the trustee during an event of default to act with the requirements set forth in the indenture, to act with the requirements by the holders of the debt securities before proceeding to exercise any right or power under the indenture at the request of holders of the debt securities.

The indenture provides that the holders of a majority in principal amount of the outstanding debt securities of any series may in certain circumstances request the trustee to institute proceedings and place of conducting proceedings for remedies available to the trustee or exercising any trust or power conferred on the trustee in respect of such series.

The indenture includes a covenant that obligates us to file annually with the trustee an officers’ certificate stating whether any default under the indenture exists.

In certain cases, the holders of a majority in principal amount of the outstanding debt securities of any series may on behalf of the holders of such series waive any past default or event of default with respect to the debt securities of such series or compliance with certain provisions of the indenture in payment of the principal of, or premium or interest, if any, on, any of the debt securities of such series. The holders of a series of outstanding debt securities also have certain rights to rescind any declaration of acceleration with respect to such series after a default under the indenture with respect to such series not arising from such declaration shall have been cured.

## **Modification of the Indenture**

The indenture allows us and the trustee, without the consent of any holders of debt securities, to enter into supplemental indentures for

- evidencing the succession of another corporation and the assumption by such corporation of the covenants in the indenture and
- adding covenants that apply to us;
- adding additional events of default;
- establishing the form or terms of any series of debt securities issued under such supplemental indentures or curing ambiguities in the indenture;
- making other provisions that do not adversely affect the interests of the holders of any series of debt securities in any material respect.

The indenture allows us and the trustee, with the consent of the holders of not less than a majority in principal amount of the outstanding debt securities of any series (acting as one class), to execute supplemental indentures adding any provisions to or changing or eliminating any of the provisions of the indenture with respect to such series. But no supplemental indenture may, without the consent of the holders of all the outstanding debt securities of such series, do any of the following other things:

- (1) change the stated maturity of the principal of, or any installment of principal of or interest on, any debt security;
- (2) reduce the principal amount of, the rate of interest on, or any premium payable upon the redemption of, any debt security;
- (3) extend the time for payment of interest on the debt securities;

(4) impair the right to institute suit for the enforcement of any such payment on or after the stated maturity thereof (or, in the case of a debt security, the redemption date);

(5) affect adversely the terms, if any, of conversion of any debt security into our stock or other securities or of any other corporate security;

(6) reduce the percentage in principal amount of the outstanding debt securities of any series, the consent of whose holders is required by the indenture or any waiver (in compliance with certain provisions of the indenture or certain defaults thereunder and their consequences);

(7) modify any of the foregoing provisions or the provisions for the waiver of certain covenants and defaults, except to increase the aggregate principal amount of outstanding debt securities the consent of the holders of which is required or to provide with respect to the condition the effectiveness of any supplemental indenture as to that series on the consent of the holders of a specified percentage of the outstanding debt securities of such series or to provide that certain other provisions of the indenture cannot be modified or waived with respect to any outstanding debt security affected thereby.

### **Governing Law**

The indenture and the debt securities will be governed by, and construed in accordance with, the laws of the State of New York, except that the Uniform Commercial Code Act of 1939 is applicable.

### **Concerning the Trustee**

U.S. Bank National Association serves as the trustee under our indenture dated as of May 27, 2010.

## PLAN OF DISTRIBUTION

We may sell the debt securities in any of three ways: (i) through underwriters, (ii) through dealers or agents or (iii) directly to a limited number of purchasers or to a single purchaser. The applicable prospectus supplement will set forth the terms of the offering of the debt securities of such series, including the names of the underwriters, the purchase price and the proceeds we receive from such sale, any underwriting discounts and other items constituting underwriting commissions, the public offering price and any discounts or concessions allowed or reallocated or paid to dealers and other specific terms of the particular offering. The names of the agents or underwriters named in a prospectus supplement are agents or underwriters in connection with the securities being offered by that prospectus supplement.

If we use underwriters in the sale, the debt securities will be acquired by the underwriters for their own account and may be resold from time to time in private transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. The debt securities may also be sold to the public through underwriting syndicates represented by managing underwriters or by underwriters without a syndicate. Unless otherwise set forth in the prospectus supplement, the obligations of the underwriters to purchase debt securities will be subject to certain conditions precedent and the underwriters will be obligated to purchase a series if any are purchased. Any initial public offering price and any discounts or concessions allowed or reallocated or paid to dealers or agents will be set forth in the prospectus supplement.

We may sell debt securities directly or through agents designated by us from time to time. Any agent involved in the offer or sale of the debt securities under this prospectus is delivered will be named, and any commissions payable by us to such agent will be set forth, in the prospectus supplement. Any agent named in the prospectus supplement, any such agent will be acting on a best efforts basis for the period of its appointment.

We may authorize agents or underwriters to solicit offers by certain types of institutions to purchase debt securities from us at the public offering price set forth in the prospectus supplement pursuant to delayed delivery contracts providing for payment and delivery on a specified date in the future. Such contracts will be subject to the conditions set forth in the prospectus supplement, and the prospectus supplement will set forth the commissions payable for solicitation of such offers.

Agents and underwriters may be entitled under agreements entered into with us and/or our subsidiaries to indemnification against certain liabilities under the Securities Act, and/or to contribution with respect to payments which the agents or underwriters may be required to make. Agents and underwriters may be customers of, engage in transactions with, or perform services for, the Company in the ordinary course of business.

Each series of debt securities will be a new issue of securities with no established trading market. Any underwriters to whom we sell the debt securities in a sale may make a market in such debt securities, but such underwriters will not be obligated to do so and may discontinue any market making activity at any time. No assurance can be given as to the liquidity of the trading market for any debt securities.

During and after an offering through underwriters, the underwriters may purchase and sell the securities in the open market. These transactions may include stabilizing transactions and purchases to cover syndicate short positions created in connection with the offering. The underwriters may also sell securities at a discount from the public offering price. Any selling concessions allowed to syndicate members or other broker-dealers for the offered securities sold for their account may be reclaimed by the underwriters if the securities are repurchased by the syndicate in stabilizing or covering transactions. These activities may stabilize, maintain or otherwise affect the price of the securities, which may be higher than the price that might otherwise prevail in the open market. If commenced, these activities may be discontinued at any time.

Unless otherwise indicated in a prospectus supplement or confirmation of sale, the purchase price of the securities will be required to be paid in cash in funds in New York City.
