Finance is not responsible for the description of Deutsche Telekom.

Each Issuer hereby declares that, having taken all reasonable care to ensure that such is the case, the information contained in this Prospectus for which it is responsible is, to the best of its knowledge, in accordance with the facts and contains no omission likely to affect its import.

Notice

This Prospectus should be read and construed in conjunction with any supplement thereto and with any document incorporated herein by reference (the "**Reference Documents**"). Full information on each Issuer and any tranche of Notes (as hereinafter defined) is only available on the basis of this Prospectus as supplemented, together with the Reference Documents and the relevant final terms (the "**Final Terms**").

Each Issuer has confirmed to the dealers specified under "*Names and Addresses*" below and any additional dealer appointed from time to time under the Programme (each a "**Dealer**" and together the "**Dealers**") that this Prospectus contains, as of the date hereof, all information with regard to the Issuers and the Notes which is material in the context of the Programme and the issue and offering of Notes thereunder; that the information contained herein with respect to the Issuers and the Notes is accurate in all material respects and is not misleading; that any opinions and intentions expressed herein are honestly held and based on reasonable assumptions; that there are no other facts, the omission of which would make any statement, whether fact or opinion, in this Prospectus misleading in any material respect; and that all reasonable enquiries have been made to ascertain all facts and to verify the accuracy of all statements contained herein.

No person has been authorised to give any information which is not contained in or not consistent with this Prospectus or any other document entered into in relation to the Programme or any information supplied by any Issuer or such other information as in the public domain and, if given or made, such information must not be relied upon as having been authorised by the Issuers, the Guarantor, the Dealers or any of them.

Neither the Arranger nor any Dealer nor any other person mentioned in this Prospectus, excluding the Issuers, is responsible for the information contained in this Prospectus or any supplement thereof, or any Final Terms or any other Reference Document, and accordingly, and to the extent permitted by the laws of any relevant jurisdiction, none of these persons accepts any responsibility as to the accuracy and completeness of the information contained in any of these documents.

This Prospectus is valid until its expiration on 25 March 2022 and this Prospectus and any supplement hereto as well as any Final Terms reflect the status as of their respective dates of issue. There is no obligation to supplement this Prospectus in the event of significant new factors, material mistakes or material inaccuracies when this Prospectus is no longer valid. The delivery of this Prospectus as supplemented or any Final Terms and the offering, sale or delivery of any Notes may not be taken as an implication that the information contained in such documents is accurate and complete subsequent to their respective dates of issue or that there has been no adverse change in the financial condition of each of the Issuers since such date or that any other information supplied in connection with the Programme is accurate at any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

Each of the Issuers has undertaken with the Dealers to supplement this Prospectus or publish a new Prospectus at any time after submission of this Prospectus for approval to the CSSF if and when the information herein should become materially inaccurate or incomplete or in the event of any significant new factor, that is capable of affecting the assessment of the Notes by potential investors.

The Notes will not be registered under the United States Securities Act of 1933, as amended, and will include Notes in bearer form that are subject to U.S. tax law requirements. Subject to certain exceptions, Notes may not be offered, sold or delivered within the United States or to U.S. persons, see "*Selling Restrictions*".

The distribution of this Prospectus and any Final Terms and the offering, sale and delivery of the Notes in certain jurisdictions may be restricted by law. Persons into whose possession this Prospectus or any Final Terms comes are required by the Issuers and the Dealers to inform themselves about and to observe any such restrictions. For a description of certain restrictions on offers, sales and deliveries of Notes and on the

distribution of this Prospectus or any Final Terms and other offering material relating to the Notes, see "*Selling Restrictions*".

This Prospectus is drawn up in the English language. The German versions of the English language Terms and Conditions and Guarantee are shown in this Prospectus for additional information. As to form and content, and all rights and obligations of the Holders and the Issuer under the Notes to be issued, German is the controlling legally binding language if so specified in the relevant Final Terms. In respect of the Guarantee, the German language version is always controlling and legally binding as to form and content, and all rights and obligations of the Holders and the Guarantor thereunder. The Issuers accept responsibility for the information contained in this Prospectus and confirm that the non-binding translation of the Terms and Conditions, either in the German or English language, correctly and adequately reflects the respective binding language version.

The Final Terms in respect of any Notes may include a legend entitled "*MiFID II Product Governance*" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**Distributor**") should take into consideration the target market assessment; however, a Distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID Product Governance Rules**"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

If the Final Terms in respect of any Notes include a legend entitled "*Prohibition of Sales to EEA Retail Investors*", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or (ii) a customer within the meaning of Directive 2016/97/EU (as amended, the "**IDD**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Regulation. If the above-mentioned legend is included in the relevant Final Terms, no key information document required by Regulation (EU) 1286/2014 (as amended, the "**PRIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIPs Regulation.

The Final Terms in respect of any Notes may include a legend entitled "*UK MiFIR Product Governance*" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any Distributor should take into consideration the target market assessment; however, a Distributor subject to the Financial Conduct Authority ("**FCA**") Handbook Product Intervention and Product Governance Sourcebook (the "**UK MiFIR Product Governance Rules**") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

If the Final Terms in respect of any Notes includes a legend entitled "*Prohibition of Sales to UK Retail Investors*", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom of Great Britain and Northern Ireland ("**UK**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("**EUWA**"); or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (as amended, "**FSMA**") and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in the Prospectus Regulation as it forms part of domestic law by virtue of the EUWA. If the above-mentioned legend is included in the relevant Final Terms, no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the

Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

This Prospectus may only be used for the purpose for which it has been published.

Each Dealer and/or each further financial intermediary subsequently reselling or finally placing Notes issued under the Programme is entitled to use this Prospectus as set out in "Consent to the Use of this Prospectus" below.

This Prospectus and any Final Terms must not be used for the purpose of an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such an offer or solicitation.

In connection with the issue of any Tranche of Notes under the Programme, the Dealer(s) who is(are) specified in the relevant Final Terms as the stabilising manager(s) (or persons acting on its(their) behalf) may overallocate Notes or effect transactions with a view to supporting the price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin at any time after the adequate public disclosure of the final terms of the offer of the Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the Issue Date and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilising action or over-allotment must be conducted by the relevant stabilising manager(s) (or persons acting on behalf of any stabilising manager(s)) in accordance with all applicable laws and rules.

All terms not otherwise defined in this Prospectus shall have the meaning as set out in the "Terms and Conditions" of the Notes.

Any websites included in this Prospectus, except for the websites specified in the context of the documents incorporated by reference, are for information purposes only and do not form part of this Prospectus and have not been scrutinised or approved by the CSSF.

Interest amounts payable under Notes bearing a floating interest rate ("**Floating Rate Notes**") are calculated by reference to the Euro Interbank Offered Rate ("**EURIBOR**") which is provided by the European Money Markets Institute ("**EMMI**"). As at the date of this Prospectus, EMMI appears on the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority ("**ESMA**") pursuant to Article 36 of the Benchmarks Regulation (Regulation (EU) 2016/1011 as amended) ("**BMR**").

Forward-Looking Statements

This Prospectus contains certain forward-looking statements. A forward-looking statement is a statement that does not relate to historical facts and events. They are based on analyses or forecasts of future results and estimates of amounts not yet determinable or foreseeable. These forward-looking statements are identified by the use of terms and phrases such as "*anticipate*", "*believe*", "*could*", "*estimate*", "*expect*", "*intend*", "*may*", "*plan*", "*predict*", "*project*", "*will*" and similar terms and phrases, including references and assumptions. This applies, in particular, to statements in this Prospectus containing information on future earning capacity, plans and expectations regarding Deutsche Telekom Group's business and management, its growth and profitability, and general economic and regulatory conditions and other factors that affect it.

Forward-looking statements in this Prospectus are based on current estimates and assumptions that the Issuers make to the best of their present knowledge. These forward-looking statements are subject to risks, uncertainties and other factors which could cause actual results, including Deutsche Telekom Group's financial condition and results of operations, to differ materially from and be worse than results that have expressly or implicitly been assumed or described in these forward-looking statements. Deutsche Telekom Group's business is also subject to a number of risks and uncertainties that could cause a forward-looking statement, estimate or prediction in this Prospectus to become inaccurate. General Description of the Programme

Under this EUR 35,000,000,000 Debt Issuance Programme, Deutsche Telekom and Finance may from time to time issue notes, (the "**Notes**"). The maximum aggregate principal amount of the Notes from time to time outstanding under the Programme will not exceed EUR 35,000,000,000 (or its equivalent in any other currency). The Issuers may increase the amount of the Programme in accordance with the terms of the Dealer Agreement (as defined herein) from time to time.

The Guarantor has given its unconditional and irrevocable guarantee (the "**Guarantee**") for the due payment of the amounts corresponding to the principal of and interest on the Notes issued by Finance. The Guarantee will be governed by German law.

The Notes may be issued on a continuing basis to one or more of the Dealers and any additional Dealer appointed under the Programme from time to time by the Issuer(s), which appointment may be for a specific issue or on an ongoing basis. Notes may be distributed by way of offer to the public or private placements and, in each case, on a syndicated or non-syndicated basis. The method of distribution of each Tranche will be stated in the relevant Final Terms. Notes may be offered to qualified and non-qualified investors, unless the applicable Final Terms include a legend entitled "*Prohibition of Sales to EEA Retail Investors*" or "*Prohibition of Sales to UK Retail Investors*".

Notes will be issued in tranches (each a "**Tranche**"), each Tranche consisting of Notes which are identical in all respects. One or more Tranches, which are expressed to be consolidated and forming a single series and identical in all respects, except for issue dates, interest commencement dates and/or issue prices may form a series ("**Series**") of Notes. Further Notes may be issued as part of existing Series.

Notes will be issued in such denominations as may be agreed between the relevant Issuer and the relevant Dealer(s) and as indicated in the applicable Final Terms save that the minimum denomination of the Notes will be, if in euro, EUR 1,000 and if in any currency other than euro, in an amount in such other currency nearly equivalent to EUR 1,000 at the time of the issue of the Notes. The minimum denomination of the Notes may be smaller than EUR 1,000 if the Notes are not listed or are listed on an unregulated market and may not be part of any offer to the public. Notes will be issued with a maturity of twelve months or more. The Notes will be freely transferable.

Notes may be issued at an issue price which is at par or at a discount to, or premium over, par. The issue price for Notes to be issued will be determined at the time of pricing on the basis of a yield which will be determined on the basis of the orders of the investors which are received by the Dealers during the offer period. Orders will specify a minimum yield and may only be confirmed at or above such yield. The resulting yield will be used to determine an issue price, all to correspond to the yield.

The yield for Notes with fixed interest rates will be calculated by the use of the ICMA method, which determines the effective interest rate of notes taking into account accrued interest on a daily basis.

Unless otherwise permitted by then current laws and regulations, Notes in respect of which the issue proceeds are to be accepted by the Issuer in the UK will have a minimum redemption amount of GBP 100,000 (or its equivalent in other currencies), unless such Notes may not be redeemed until on or after the first anniversary of their date of issue.

Application has been made to list Notes issued under the Programme on the official list of and to admit such Notes to trading on the Regulated Market of the Luxembourg Stock Exchange. Under the Programme Notes may also be issued which will not be listed on any Stock Exchange.

Notes will be accepted for clearing through one or more Clearing Systems as specified in the applicable Final Terms. These systems will include those operated by Clearstream Banking AG, Frankfurt am Main ("**CBF**"), Clearstream Banking S.A. ("**CBL**") and Euroclear Bank SA/NV ("**Euroclear**"). Notes denominated in euro or, as the case may be, such other currency recognised from time to time for the purposes of eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem, are intended to be held in a manner, which would allow Eurosystem eligibility. Therefore, these Notes will initially be deposited upon issue with (i) either CBL or Euroclear as common safekeeper in the case of a new global note or, (ii) CBF. It does not necessarily mean that the Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria.

Risk Factors

Potential investors should consider all information provided in this Prospectus and the Reference Documents. In addition, potential investors should be aware that the risks described may combine and thus accumulate.

Certain of the Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for, the Issuer and its affiliates in the ordinary course of business.

Each potential investor in any Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the relevant Notes, the merits and risks of investing in the relevant Notes and the information contained or incorporated by reference in this Prospectus or any applicable supplement;*
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation and the investment(s) it is considering, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;*
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the relevant Notes, including where the currency for principal or interest payments is different from the potential investor's currency;*
- (iv) understand thoroughly the terms of the relevant Notes and be familiar with the behaviour of financial markets; and*
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.*

The following is a disclosure of risk factors that are material to each Issuer and that may affect each Issuer's ability to fulfill its obligations under the Notes or the Guarantee, as the case may be. Potential investors should consider these risk factors before deciding to purchase Notes issued under the Programme. Investors may lose the value of their entire investment or part of it in the event one or more of the risks regarding the Issuer described below materialises.

Risk Factors regarding the Issuer and the Guarantor

The risk factors regarding the Issuer and the Guarantor are presented in the following categories with the most material risk factor presented first in each category:

- Industry, Competition and Strategy
- Regulation
- Operational
- Brand, Communication and Reputation
- Litigation and Anti-Trust Proceedings
- Financial
- Deutsche Telekom International Finance B.V.

1) Industry, Competition and Strategy

Deutsche Telekom faces intense competition in all areas of its business, which could lead to reduced prices for its products and services and a decrease in market share in certain service areas, thereby adversely affecting Deutsche Telekom's revenues and net profit.

Competitive pressure is expected to continue in Germany and Europe and Deutsche Telekom is expecting market prices for mobile voice telephony and mobile data services to continually decrease. Competition could also increase in the US as the wireless industry shifts away from service contracts and market saturation leads to an increased war for customers. This would adversely affect Deutsche Telekom's competitive position in the US market and its ability to grow. All segments would be affected by new market entrants such as major internet and consumer electronics industry players as well as regional network operators that could continue to increase their market share. Smaller competitors could take unforeseen and aggressive pricing measures. Current competitors can win new customers by cutting prices and offering limited or even unlimited discounts. Deutsche Telekom Systems Solutions operating segment also faces challenges. Continued strong

competition and persistent price erosion are adversely affecting traditional ICT business. In addition, the technological shift toward cloud solutions and digitalisation in the IT sector is prompting new, strongly capitalised, competitors to enter the market. Therefore, Deutsche Telekom continues to be threatened by further losses in market share as well as falling margins. This in turn lead to lower revenues, cash flows and worsen the overall financial condition and reputation of Deutsche Telekom.

Weaker economic prospects and political uncertainties could adversely affect Deutsche Telekom's customers' purchases of products and services in each of the operating segments, which could have a negative impact on the operating results and overall financial condition of Deutsche Telekom.

Political uncertainties and geopolitical crises fuel economic and political developments negatively and pose a risk to future economic growth. This means that any of Deutsche Telekom's footprint countries that would be affected by such actual or even possible growth slowdown as private and business customers would decrease their consumption of telecommunication services. This in turn lead to lower revenues, cash flows and worsen the overall financial condition and reputation of Deutsche Telekom.

Deutsche Telekom is exposed to the economic effects of pandemic outbreaks, which could delay or reduce cash flow or reduce the usage of its products and services. Furthermore, it could lead to delays in network upgrading and supply chains thereby adversely affecting Deutsche Telekom's revenues and net profit.

The COVID-19 pandemic is an ongoing crisis with no recent historical precedent, bringing great uncertainty on the economy and the respective impacts on Deutsche Telekom's business and financial results. This includes but is not limited to a decline of roaming volumes, lower subscriber growth, increasing bad debt of business and consumer subscribers. As COVID-19 continues to spread, it is expected to have significant negative effects on network improvements and maintenance, procurement and the supply chain. As other similar pandemic outbreaks are possible in the future, similar effects could impact Deutsche Telekom at any time resulting in falling margins, lower revenues or delays in cash flows. This would ultimately worsen the overall financial condition and possibly even the reputation of Deutsche Telekom.

A substantive or temporal deviation from planned measures for strategic transformation and integration may reduce its benefits and this could negatively impact Deutsche Telekom's business situation, financial position and operational results.

Deutsche Telekom is in a continuous process of strategic adjustments and cost-cutting initiatives. If Deutsche Telekom is unable to implement these projects as planned, the benefits could be less than originally estimated or arrive later than expected or even not at all. Also, merger related integration of operational areas as well as fulfilment of various conditions imposed by the authorities are complex and could jeopardize the realization of planned synergies. Each of these factors, individually or combined, could have a negative impact on revenues, cash flows and worsen the overall financial condition and reputation of Deutsche Telekom.

Deutsche Telekom may not realise either the expected level of demand for its new/existing products and services, or the expected level and timing of revenues generated by those products and services, on account of the lack of market acceptance or technological change, which could adversely affect Deutsche Telekom's cash flows.

Deutsche Telekom may not succeed in making customers sufficiently aware of existing and future value-added services or in creating customer acceptance of these services at the prices Deutsche Telekom would want to charge. A lack of market acceptance for these new products and services could be fueled by an unwillingness to pay for such additional features.

Furthermore, as innovation cycles continue to shrink, they confront the telecommunications sector with the challenge of bringing out new products and services at ever shorter intervals. New technologies are superseding existing technologies, products, or services in part, in some cases even completely. This would lead to lower prices and revenues in both voice and data traffic. This in turn could lead to lower revenues, cash flows and worsen the overall financial condition and reputation of Deutsche Telekom.

Deutsche Telekom regularly engages in large-scale programs to reshape the information technology ("IT") and network infrastructure to adapt to changing customer needs and organisational and accounting requirements. The implementation of any of these programs may require substantial investments and failure to effectively plan and monitor them would lead to misallocations of resources and impaired processes with negative consequences for Deutsche Telekom's operations.

Deutsche Telekom's IT and network resources and infrastructure is the basis for innovative telecommunications products and services that Deutsche Telekom offers or plans to offer in the future. As Deutsche Telekom replaces the various architectures, access types and services with a standardised

architecture, the enormous complexity of the implementation of this IT initiative, malfunctions, connectivity issues, implementation delays, inadequate planning and management and other unforeseen problems could result in costly process impairments and remediation and possible extended down-times of IT processes. These problems may hamper the attainment of Deutsche Telekom's goals in terms of cost savings and quality improvements. In addition, one of Deutsche Telekom's most important IT programs deals with the long-term development and implementation of a comprehensive IP platform that will support both fixed-line and mobile telephony services. This means that the traditional platform will be completely replaced by an IP-based system. Upon implementing this joint IP platform, Deutsche Telekom's IT systems will be subject to hacker attacks, "spam calls" and other disruptions. These risks could lead to a temporary interruption of Deutsche Telekom's IT resources and, as a result, impair the performance of Deutsche Telekom's technical infrastructure. Additionally, if Deutsche Telekom is not ready in time to exploit the benefits of technological advances, it could experience a decline in demand for its services. System failures, security breaches, data protection violations, disruption of operations and unauthorised use or impairment of Deutsche Telekom network and other systems could damage Deutsche Telekom's reputation, increase costs and negatively impact revenues, cash flows and worsen the overall financial condition of Deutsche Telekom.

2) Regulation

Deutsche Telekom operates in heavily regulated business environments. Respective decisions that regulatory authorities impose on Deutsche Telekom restrict flexibility in managing its business and can force it to offer their services to competitors or reduce their prices for products and services. This will reduce Deutsche Telekom's revenues and also market share.

Deutsche Telekom AG and its international subsidiaries are subject to market regulation. The national regulatory authorities have extensive powers and can intervene in product design and pricing. In addition, the European Commission issues recommendations, which must be taken into account by the national regulatory authorities. Regulatory interventions are difficult to anticipate and therefore can disrupt financial forecasting. These regulatory interventions will continue to impact both fixed-network and mobile markets (including wholesale offerings) in the medium and long term. Media products are also subject to European and national regulations in respect to copyright and responsibility for published content. Regulatory bodies can enforce the regulation but also impose fines in cases of non-compliance. These regulatory risks (for example unfavourable auction rules and frequency usage requirements, international roaming, net neutrality and universal service) will in turn lead to lower revenues, cash flows and worsen the overall financial condition and reputation of Deutsche Telekom.

3) Operational

Shortcomings in Deutsche Telekom's supplier selection and procurement process could negatively affect its product portfolio, revenues and profits.

As a service provider, an operator and provider of telecommunications and IT products, Deutsche Telekom cooperates with a variety of suppliers of technical components, such as software, hardware, transmission systems, switching systems, outside plant, and terminal equipment.

Supply risks cannot be entirely ruled out. The dependence on individual suppliers or from individual vendors' defaulting can increase. Governments prohibiting the purchase, use and/or replacement of specific vendor or supplier products, delivery bottlenecks, price increases, changes in the prevailing economic conditions or suppliers' product strategies may have a negative impact on Deutsche Telekom's supply chain management and business processes. Additionally, recent security concerns prohibiting the partial or complete use of technology or products from critical vendors in Deutsche Telekom's networks would result in an intensive process of replacing such technology or products. These effects could increase Deutsche Telekom's costs and negatively impact revenues, cash flows and significantly worsen the overall financial condition and reputation of Deutsche Telekom.

System failures due to natural or man-made disruptions and loss of data could result in reduced user traffic and reduced revenues and could harm Deutsche Telekom's reputation and financial results.

Deutsche Telekom's information/network technology infrastructure is complex and is being constantly expanded and upgraded. Outages in the current and future technical infrastructure arising from natural disasters, such as fire, or man-made disruptions, such as unauthorised access, are possible and would cause interruptions to any business processes, products or services. Remediation costs could include liability for information loss or repairing infrastructure and systems. Furthermore, Deutsche Telekom's products and services are subject to data privacy and data security especially in connection with unauthorised access to customer, partner or employee data. Data privacy regulation requirements are increasing over time, but also data security is vulnerable as IT security challenges are multiplying as cyber crime and industrial espionage are on the rise. These effects could increase Deutsche Telekom's costs and negatively impact revenues,

cash flows and worsen the overall financial condition and reputation of Deutsche Telekom.

Failure to achieve the planned reduction and restructuring of personnel or the human resources-related cost-savings goals could negatively affect the reputation and achievement of Deutsche Telekom's financial objectives and profitability.

Deutsche Telekom continues to use socially responsible measures to restructure the workforce in the Group, essentially by means of voluntary redundancies, partial and early retirement, and employment opportunities for civil servants and employees. If staff restructuring measures are not possible to implement as planned or at all, they could have a negative impact on revenues, cash flows and worsen the overall financial condition and reputation of Deutsche Telekom.

As a result of dispositions of certain non-core businesses in Germany, there is an increased risk of return of civil servants transferred out of Deutsche Telekom Group, which could have a negative impact on the staff and cost reduction objectives.

When Group entities that employ civil servants are disposed of, it is generally possible to continue to employ them at the Group entity to be sold, provided the civil servant agrees or submits an application to be employed at the respective unit in future. However, they may return to Deutsche Telekom from a sold entity or if a company is not able to offer them jobs. This would increase Deutsche Telekom's costs and negatively impact revenues, cash flows and worsen the overall financial condition and reputation of Deutsche Telekom.

4) Brand, Communication and Reputation

Potential breaches of compliance requirements (including data protection) or the identification of material weaknesses in Deutsche Telekom's internal control over financial reporting may have an adverse impact on Deutsche Telekom's corporate reputation, financial condition and the trading price of its securities.

In general, compliance requirements (including data protection) for publicly-traded companies and, in particular, the investigation of potential breaches and corporate misconduct are increasing and leading to major financial implications for the companies concerned. At the same time, the legal framework governing the monitoring of companies is becoming more comprehensive, which increases the liability for executive bodies and associated costs. These risks and their related consequences will continue to exist and measures to remediate any identified shortcomings in its internal controls over financial reporting, activities of this kind may involve significant effort and expense, and disclosure of any failures, material weakness or other conditions, may result in a deterioration of Deutsche Telekom's corporate image and negative market reactions, which in turn may negatively affect the trading price of Deutsche Telekom's securities.

An unforeseeable negative media report on products and services or corporate activities and responsibilities of Deutsche Telekom Group can have a huge impact on the reputation, the standing and the brand image of Deutsche Telekom Group.

An unforeseeable negative media report on products and services or corporate activities and responsibilities of Deutsche Telekom arising from ecological or social aspects or from the management of Deutsche Telekom can have a material impact on the reputation, the standing and the brand image of Deutsche Telekom. Social networks have made it possible that such information and opinions can spread much more quickly and extensively than they could just a few years ago. Ultimately, negative reports can result in a deterioration of Deutsche Telekom's revenues or corporate image and increase negative market reactions, which in turn may negatively affect the trading price of Deutsche Telekom's securities.

Developments in the telecommunications sector have resulted, and may in the future result, in substantial write-downs of the carrying value of certain of Deutsche Telekom's assets.

The value of the assets of Deutsche Telekom AG and its subsidiaries depends on changes in the respective economic, regulatory, business or political environments. These changes could negatively affect the value of goodwill, intangible assets or property, plant and equipment, investments accounted for using the equity method, or other financial assets. Any of these impairment losses could impact to a considerable extent Deutsche Telekom's results and could worsen the overall financial condition, which in turn may negatively affect the trading price of Deutsche Telekom's securities.

Possible health risks of wireless communications devices have led to litigation affecting markets with Deutsche Telekom's mobile telecommunications operations subsidiaries, and could lead to decreased wireless communications usage or increased difficulty in obtaining sites for base stations and, as a result, adversely affect the financial condition and results of operations of Deutsche Telekom's wireless services business.

Mobile communications, or the electromagnetic fields used in mobile communications, regularly give rise to concerns among the general population about potential health risks. There is intense public, political, and scientific debate of this issue. Acceptance problems among the general public concern both mobile communications networks and the use of mobile handsets. This affects the build-out of mobile networks and the use of mobile terminal devices, but also the sales of traditional IP and DECT (digital cordless) phones and devices that use WiFi technology. There are also regulatory interventions, such as reduced thresholds for electromagnetic fields or the implementation of precautionary measures in mobile communications, such as amendments to building laws or labeling requirements for handsets. These effects could increase Deutsche Telekom's costs and negatively impact revenues, cash flows and worsen the overall financial condition and reputation of Deutsche Telekom.

5) Litigation and Anti-Trust Proceedings

Deutsche Telekom is continuously involved in disputes and litigation with government agencies, competition authorities, competitors and other parties. Deutsche Telekom is also subject to anti-trust laws. The ultimate outcome of such legal proceedings is generally uncertain. When finally concluded, they may have a material adverse effect on Deutsche Telekom's results of operations and financial condition.

Deutsche Telekom is subject to numerous legal and regulatory proceedings, in which Deutsche Telekom is currently a party or which could develop in the future. Litigation and regulatory proceedings, including patent infringement lawsuits, are inherently unpredictable. Deutsche Telekom and its subsidiaries are subject to proceedings under competition law or follow-on damage actions under civil law. Legal or regulatory proceedings in which Deutsche Telekom is or comes to be involved (or settlements thereof) may have a material adverse effect on Deutsche Telekom's results of operations, overall financial condition and reputation of Deutsche Telekom.

6) Financial

Liquidity, credit, currency, interest rate risks, rating risks and tax risks may continue to have an adverse effect on Deutsche Telekom's revenue and cost development.

With regard to its assets, liabilities and planned transactions, Deutsche Telekom Group is particularly exposed to liquidity risks, credit risks, and the risk of changes in exchange and interest rates.

Liquidity risk comprises the risk of the Company's inability to meet its short-term financial obligations in a timely fashion or in full. This could occur in circumstances in which an asset cannot be traded or sold or in case of an inefficient market. Deutsche Telekom primarily uses bonds, issued in a variety of currencies and jurisdictions, for medium- to long-term financing and maintains a liquidity reserve in the form of credit lines and cash as part of its liquidity management. A negative development of the capital markets could increase Deutsche Telekom's financing costs or could decrease its ability to raise funds. Hence, lack of liquidity may have a material adverse effect on Deutsche Telekom's results of operations, overall financial condition and reputation of Deutsche Telekom.

Credit risk comprises the risk that a counterparty will not fulfill its contractual obligations. Through Deutsche Telekom's operating business and certain financing activities, Deutsche Telekom is exposed to credit risk. The failure of a counterparty to fulfill its obligations, its insolvency or its bankruptcy would lead to an interruption of cash flows, increased costs for collection or loss of assets. Hence, counterparties which are not able to fulfill their contractual obligations may have a material adverse effect on Deutsche Telekom's results of operations and overall financial condition.

Currency risk comprises the risk of a fluctuation in the value of a currency which negatively affects the value of assets, investments, and related payment streams like interest and dividend. Deutsche Telekom is exposed to currency risks from its investing, financing, and operating activities. Currency risks in the area of investments result, for example, from the acquisition and disposal of investments in foreign currencies. Currency risks in the financing area are caused by financial liabilities in foreign currency and loans in foreign currency that are issued by Group entities for financing purposes. The Group entities predominantly execute their operating activities in their respective functional currencies. Payments made in a currency other than the respective functional currency result in currency risks in the Group. Hence, changes in the value of currencies may have a material adverse effect on Deutsche Telekom's results of operations and overall financial condition.

Interest rate risk comprises the potential increase of financing costs resulting from unexpected fluctuations in interest rates. Changes in market interest rates affect the interest income or expense of variable-interest financial instruments. In addition to the interest rate risk pertaining to variable-interest debt, this also includes the issue of new liabilities. Deutsche Telekom's interest rate risk mainly results from interest-bearing liabilities and exists primarily in the euro zone and the United States. Hence fluctuations in interest rates may have a material adverse effect on Deutsche Telekom's results of operations and overall financial condition.

Rating risk relates to potential downgrades of Deutsche Telekom's credit rating by the rating agencies Fitch, Moody's or Standard & Poor's, which could have a negative impact on Deutsche Telekom's financing costs and Deutsche Telekom's ability to obtain new financing. In addition, if Deutsche Telekom's credit rating would be lowered by one notch, the interest rate rises by 0.5 per cent. for some of the issued bonds with a step-up clause. Hence the downgrade of credit ratings may have a material adverse effect on Deutsche Telekom's results of operations, overall financial condition and reputation of Deutsche Telekom.

Tax risk relates to uncertainties and potential changes of tax rules resulting in higher tax expenses than expected. In many countries, Deutsche Telekom is subject to the applicable legal tax provisions. Changes in taxation laws or case law and different interpretations of existing provisions and uncertainties regarding the applicability or interpretation of tax rules can affect Deutsche Telekom tax expenses and benefits as well as tax receivables and liabilities. Hence uncertainties and changes of tax rules may have a material adverse effect on Deutsche Telekom's results of operations and overall financial condition.

7) Deutsche Telekom International Finance B.V.

Payment of principal of and interest on all debt securities (such as the Notes) issued by Finance are guaranteed by Deutsche Telekom AG. Therefore, the risks in respect of Finance substantially correspond with the ones of Deutsche Telekom AG.

Risk Factors regarding the Notes

The risk factors regarding the Notes are presented in the following categories with the most material risk factor presented first in each category:

- Risks related to the admission of the Notes to a Regulated Market
- Risks related to specific Terms and Conditions of the Notes

1) Risks related to the admission of the Notes to a Regulated Market

Liquidity Risk

Application has been made to list Notes to be issued under the Programme on the official list of and to admit such Notes to trading on the Regulated Market of the Luxembourg Stock Exchange. In addition, the Programme provides that Notes may not be listed at all. Regardless of whether the Notes are listed or not, there can be no assurance that a liquid secondary market for the Notes will develop or, if it does develop, that it will continue. The fact that the Notes may be listed does not necessarily lead to greater liquidity than if they were not listed. If the Notes are not listed on any exchange, pricing information for such Notes may, however, be more difficult to obtain which may adversely affect the liquidity of the Notes. In an illiquid market, an investor might not be able to sell his Notes at any time at fair market prices. The possibility to sell the Notes might additionally be restricted by country specific reasons.

Market Price Risk

The development of market prices of the Notes depends on certain factors, such as changes of market interest rate levels, the policy of central banks, overall economic developments, inflation rates or the lack of or excess demand for the relevant type of Note. The holder of a Note is therefore exposed to the risk of an unfavourable development of market prices of its Note which materialises if the holder sells the Notes prior to the final maturity of such Notes.

2) Risks related to specific Terms and Conditions of the Notes

Risk of Early Redemption

The applicable Final Terms will indicate whether an Issuer may have the right to call the Notes prior to maturity (optional call right) on one or several dates determined beforehand or whether the Notes will be subject to early redemption upon the occurrence of an event specified in the applicable Final Terms (early redemption event). In addition, each Issuer will always have the right to redeem the Notes if the relevant Issuer is required to pay additional amounts (gross-up payments) on the Notes for reasons of taxation as set out in the Terms and Conditions. If the relevant Issuer redeems the Notes prior to maturity or the Notes are subject to early redemption due to an early redemption event, a holder of such Notes is exposed to the risk that due to such early redemption his investment will have a lower than expected yield. The Issuer can be expected to exercise his optional call right if the yield on comparable Notes in the capital market has fallen which means that the investor may only be able to reinvest the redemption proceeds in comparable Notes with a lower yield. On the other hand, the Issuer can be expected not to exercise his optional call right if the yield on comparable Notes in the capital market has increased. In this event an investor will not be able to reinvest the redemption proceeds in comparable Notes with a higher yield. It should be noted, however, that the relevant Issuer may exercise any optional call right irrespective of market interest rates on a call date.

Fixed Rate Notes

A holder of a Fixed Rate Note is exposed to the risk that the price of such Note falls as a result of changes in the market interest rate. While the nominal interest rate of a Fixed Rate Note as specified in the applicable Final Terms is fixed during the life of such Note, the current interest rate on the capital market ("**market interest rate**") typically changes on a daily basis. As the market interest rate changes, the price of a Fixed Rate Note also changes, but in the opposite direction. If the market interest rate increases, the price of a Fixed Rate Note typically falls, until the yield of such Note is approximately equal to the market interest rate of comparable issues. If the market interest rate falls, the price of a Fixed Rate Note typically increases, until the yield of such Note is approximately equal to the market interest rate of comparable issues. If the holder of a Fixed Rate Note holds such Note until maturity, changes in the market interest rate for comparable issuers are without relevance to such holder as the Note will be redeemed at the principal amount of such Note.

Specific risks linked to Sustainability-Linked Notes

The Notes may be issued as Sustainability-Linked Notes with the interest rate relating to the Notes being subject to an upward adjustment in the event the Group fails to achieve certain Sustainability Performance Targets (i.e. CO₂ emissions reduction with varying scopes and timelines as defined in the Conditions of the Sustainability-Linked Notes). In case of Sustainability-Linked Notes, the Issuers do not commit to (i) allocate

the net proceeds specifically to projects or business activities meeting sustainability criteria or (ii) be subject to any other limitations or requirements that may be associated with social bonds or sustainability bonds in any particular market. Furthermore no event of acceleration shall occur, nor shall the Issuers be required to redeem or repurchase Sustainability-Linked Notes, if the Group fails to achieve the Sustainability Performance Targets of the relevant Notes.

Sustainability-Linked Notes may not satisfy an investor's requirements or any future legal, quasi legal or other standards for investment in assets with sustainability characteristics. As there is currently no generally accepted definition (legal, regulatory or otherwise) of, nor market consensus as to what criteria a particular financial instrument must meet to qualify as, "sustainable" or "sustainability-linked" (and, in addition, the requirements of any such label may evolve from time to time), no assurance is or can be given to investors by the Issuer, the Guarantor or any Dealer that Sustainability-Linked Notes will meet any or all investor expectations regarding the Notes or the Sustainability Performance Targets qualifying as "sustainable" or "sustainability-linked" or that any adverse impacts will not occur in connection with striving to achieve the Sustainability Performance Targets or the use of the net proceeds from the issue and offering of any Notes.

Floating Rate Notes

A holder of a Floating Rate Note is exposed to the risk of fluctuating interest rate levels and uncertain interest income. Fluctuating interest rate levels make it impossible to determine the profitability of Floating Rate Notes in advance.

A Floating Rate Note may include caps or floors. In such case, their market value may be more volatile than those for Floating Rate Notes that do not include these features. The effect of a cap is that the amount of interest will never rise above and beyond the predetermined cap, so that the holder will not be able to benefit from any actual favourable development beyond the cap. The yield could therefore be considerably lower than that of similar Floating Rate Notes without a cap.

Neither the current nor the historical value of the relevant floating rate should be taken as an indication of the future development of such floating rate during the term of any Notes.

Specific risks linked to EURIBOR

The interest rates of Floating Rate Notes may be linked to reference rates. EURIBOR and other reference rates or other types of rates and indices which are deemed "benchmarks" (each a "**Benchmark**" and together, the "**Benchmarks**") have become the subject of recent national, international and other regulatory guidance and proposals for reform. Some of these reforms are already effective while others are still to be implemented. These reforms may cause these Benchmarks to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes linked to or referencing such a Benchmark.

The BMR applies to the provision of Benchmarks, the contribution of input data to a Benchmark and the use of a Benchmark within the EU. It requires, among other things, (i) Benchmark administrators to be authorized or registered (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognized or endorsed), and (ii) prevents certain uses by EU supervised entities of Benchmarks of administrators that are not authorized or registered (or, if non-EU based, not deemed equivalent or recognized or endorsed).

The BMR could have a material impact on any Notes linked to or referencing EURIBOR or any other Benchmark, in particular, if the methodology or other terms of EURIBOR or such other Benchmark are changed in order to comply with the requirements of the BMR. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of EURIBOR or such other Benchmark.

More broadly, any of the international, national or other proposals for reform, or the general increased regulatory scrutiny of Benchmarks, could increase the costs and risks of administering or otherwise participating in the setting of a Benchmark and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or contribute to such Benchmark, trigger changes in the rules or methodologies used in the Benchmarks or lead to the disappearance of the Benchmark.

Although it is uncertain whether or to what extent any of the above-mentioned changes and/or any further changes in the administration or method for determining a Benchmark could have an effect on the value of any Notes whose interest is linked to the relevant Benchmark, investors should be aware that they face the risk that any changes to the relevant Benchmark may have a material adverse effect on the value or liquidity of, and return on, any Notes linked to or referencing EURIBOR or any other Benchmark.

If a Benchmark were to be discontinued or otherwise unavailable, the rate of interest for Floating Rate Notes which are linked to such Benchmark will be determined for the relevant period by the fallback provisions

applicable to such Notes. Under these fallback provisions, the Issuer shall endeavour to appoint an independent adviser, which must be an independent financial institution or independent financial adviser. Such independent adviser would be tasked with determining whether a recognised successor rate to the discontinued Benchmark exists (the "**Successor Benchmark Rate**"). If that is not the case, the independent adviser will attempt to find an alternative rate (the "**Alternative Benchmark Rate**"). Such Successor Benchmark Rate or Alternative Benchmark Rate may be subject to the application of adjustments or spreads. If the independent adviser determines a Successor Benchmark Rate or Alternative Benchmark Rate, such rate will replace the previous Benchmark for purposes of determining the relevant rate of interest. Such determination will be binding on the Issuer, the Calculation Agent, the Paying Agents and the Holders. Any adjustment pursuant to these fallback provisions will apply to the immediately following interest period and any subsequent interest period and may be subject to the subsequent operation of the fallback provisions.

If the Issuer cannot appoint an independent adviser or if the independent adviser cannot determine a Successor Benchmark Rate or Alternative Benchmark Rate following a discontinuation of a relevant Benchmark, the last determined rate of the discontinued Benchmark will continue to apply for future interest periods of the relevant Notes until a Successor Benchmark Rate or Alternative Benchmark Rate was determined in accordance with the fallback provisions.

Currency Risk

A holder of a Note denominated in a foreign currency is exposed to the risk of changes in currency exchange rates which may affect the yield of such Notes. Changes in currency exchange rates result from various factors such as macro-economic factors, speculative transactions and interventions by central banks.

A change in the value of any currency other than euro against the euro, for example, will result in a corresponding change in the euro value of a Note denominated in a currency other than euro and the euro value of interest and principal payments made in accordance with the terms of such Note. If the underlying exchange rate falls and the value of the euro correspondingly rises, the price of the Note and the value of interest payments made thereunder expressed in euro falls.

Resolutions of Holders

If the Terms and Conditions provide for meetings of Holders or the taking of votes without a meeting, a Holder is subject to the risk of being outvoted by a majority resolution of the Holders. As such majority resolution is binding on all Holders, certain rights of such Holder against the Issuer under the Terms and Conditions may be amended or reduced or even cancelled.

Holdings' Representative

If the Terms and Conditions provide for the appointment of a Holdings' Representative, either in the Terms and Conditions or by a majority resolution of the Holders, it is possible that a Holder may be deprived of its individual right to pursue and enforce its rights under the Terms and Conditions against the Issuer, such right passing to the Holdings' Representative who is then exclusively responsible to claim and enforce the rights of all the Holders.

Description of the Group's Sustainability-Linked Financing Framework

As a leading provider of telecommunication services, Deutsche Telekom also aims to be a leader in sustainability. Deutsche Telekom believes in the compatibility of economic, social, and ecological aspects and is committed to acting responsibly along the entire value chain. Being one of the biggest investors in the industry, Deutsche Telekom has a key role to play in proposing more performing products and services to its clients while continuously participating in a "low-carbon society". Responsibility for a low-carbon society is one of the key action areas of the Group's corporate responsibility strategy: Deutsche Telekom is committed to reduce its own energy consumption and carbon footprint and to accompany its customers to reduce theirs.

The Company believes that sustainability-linked notes financing its activities will highlight these sustainability objectives very effectively and provide fixed income investors with a further tool to assess the Group's progress in contributing to climate change mitigation. Deutsche Telekom plans to adopt and publish a "Sustainability-Linked Financing Framework" that is aligned with the Sustainability-Linked Bond Principles 2020 in April 2021. The Sustainability-Linked Financing Framework ("**Framework**") will be available on the Issuer's website: www.telekom.com.

The interest on the Sustainability-Linked Notes will be linked to reaching sustainability performance targets ("**Sustainability Performance Targets**") in relation to key performance indicators ("**KPI**") which are core, relevant and material to Deutsche Telekom's business:

- **KPI 1 – Absolute Scope 1 and Scope 2 Greenhouse Gas Emissions (in tCO₂e):** absolute greenhouse gas ("**GHG**") emissions from the Group's own operations (Scope 1) and absolute GHG emissions from consumption of purchased electricity and heat used in the Group's own operations (Scope 2)
- **KPI 2 – Scope 3 Greenhouse Gas Emissions Intensity (in tCO₂e/customer):** absolute GHG emissions covering upstream and downstream elements of the value chain (Scope 3) per customer, considering the following categories of Scope 3: purchased goods and services, capital goods, use of sold products and downstream leased assets

The Sustainability Performance Targets in relation to each KPI will be defined in the Conditions of the Sustainability-Linked Notes.

Deutsche Telekom calculates its CO₂e emissions across the Group in line with the market-based method of the Greenhouse Gas (GHG) Protocol¹ and reports them together with its self-defined CO₂e reduction goals, as set forth in the Framework, thereby complying with criterion 13 of the German Sustainability Code (greenhouse gas emissions)².

Deutsche Telekom will report annually information required to calculate or observe the performance of KPIs in relation to Sustainability Performance Targets in the Group's corporate responsibility report or in a similar report ("**KPI Report**") and will engage an external auditor to issue at least a limited assurance report regarding selected information contained in the KPI Report ("**Limited Assurance Report**"). The Limited Assurance Report will be available via Deutsche Telekom's website (www.telekom.com).

Both KPIs cover the Group's fully consolidated activities. In relation to KPI 2, customer figures includes mobile, fixed-line, broadband and TV customers (excl. wholesale).

2017 constitutes the base year, subject to recalculations of GHG emissions to reflect any significant changes in the Group structure (e.g. acquisitions, divestitures, mergers) or methodological changes. Any recalculation will be stated in the KPI Report.

While both KPIs are tied to EU Environmental Objective 1 (climate change mitigation)³, KPI 1 is tied to UN SDG 7 (affordable and clean energy) and UN SDG 13 (climate action) and KPI 2 is tied to UN SDG 12 (responsible production and consumption) and UN SDG 13 (climate action)⁴.

Historical Background

Deutsche Telekom is an integrated telecommunications provider offering its customers around the world a comprehensive portfolio of state-of-the-art services in the areas of telecommunications and IT. The provision of public telecommunications services in Germany was long a state monopoly, as formerly provided in the constitution of Germany. In 1989, Germany began to transform the postal, telephone and telegraph services, administered by the former monopoly provider of such services into market-oriented businesses, and ordered the former monopoly into three distinct entities along their lines of business, one of which was Deutsche Telekom's predecessor Deutsche Bundespost Telekom. At the same time, Germany also began the liberalisation of the German telecommunications market. Deutsche Telekom was transformed into a private stock corporation effective 1 January 1995. The operation of networks (including cable networks) for all telecommunications services, other than public fixed-line voice telephony, was opened to competition in Germany on 1 August 1996 when the new legal framework for the regulation of the telecommunications sector in Germany, the Telecommunications Act, became effective. As required by the Telecommunications Act and mandated by the directives of the E.U. Commission, the telecommunications sector in Germany was further liberalised on 1 January 1998 through the opening of the public fixed-line voice telephony services to competition. Since then, Deutsche Telekom has faced intense competition and has been required, among other things, to offer competitors access to its fixed-line network at regulated interconnection rates.

by Moody's:	long-term rating:	Baa1 ¹⁰ / negative
	short-term rating:	P-2 ¹⁰

P-2: Issuers have a strong ability to repay short-term obligations.

by S&P:	long-term rating:	BBB / stable
	short-term rating:	A-2 ¹⁰

S&P defines^c:

BBB: An obligation rated "BBB" exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitment on the obligation.

A-2: A short-term obligation rated "A-2" is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher rated categories. However, the obligor's capacity to meet its financial commitment on the obligation is satisfactory.

^a Note: "+" or "-" may be appended to a rating to denote the relative status within major rating categories. Such suffixes are not added to the "AAA" category or to categories below "CCC".

^b Note: Moody's appends numerical modifiers 1, 2 and 3 to each generic rating classification from Aa to Caa. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

^c Note: Plus (+) or minus (-): The ratings from "AA" to "CCC" may be modified by the addition of a plus or minus sign to show relative standing within the major rating categories.

DESCRIPTION OF BUSINESS

Group Organisation

Overview of Business Activities

Deutsche Telekom is an integrated telecommunications company with around 242 million mobile customers, 27 million fixed-network and 22 million broadband lines. Deutsche Telekom provides fixed-network/broadband, mobile, Internet, and Internet-based TV products and services for consumers and ICT solutions for business customers and corporate customers. Deutsche Telekom has an international focus and is represented in more than 50 countries. In the 2020 financial year, Deutsche Telekom generated revenue of EUR 101.0 billion, despite the negative effects of the COVID-19 pandemic. The business combination of T-Mobile US and Sprint raised the proportion of net revenue generated outside Germany to 75.5 per cent. Overall, Deutsche Telekom employs around 226,291 people (as of 31 December 2020).

The fixed-network business includes all voice and data communications activities based on fixed-network and broadband technology. This includes the sale of terminal equipment and other hardware, as well as the sale of services to resellers. The mobile communications business offers mobile voice and data services to consumers and business customers; in addition, Deutsche Telekom sells mobile devices and other hardware. Deutsche Telekom also sells mobile services to resellers and to companies that buy network services and market them to third parties (mobile virtual network operators, or MVNOs). Drawing on a global infrastructure of data centers and networks, Deutsche Telekom operates information and communication technology (ICT) systems for multinational corporations and public-sector institutions.

Deutsche Telekom is divided into five operating segments: Germany, United States, Europe, Systems Solutions and Group Development.

The Germany operating segment comprises all fixed-network and mobile business activities for consumers and business customers in Germany. In addition, it provides wholesale telecommunications services for carriers and, up to the realignment of the business-to-business ("**B2B**") telecommunications business, also for the Group's other operating segments.

Deutsche Telekom realigned its B2B telecommunications services in the course of 2020. To this end, TC Services and Classified ICT, portfolio units previously assigned to the Systems Solutions operating segment, as well as Telekom Global Carrier (TGC) and Network Infrastructure (NWI), which had formerly been reported under the Europe operating segment and the Group Headquarters & Group Services segment respectively, and which together form the business area designated as Deutsche Telekom Global Carrier (DTGC), have been combined in the Germany operating segment. Effective the start of the third quarter of 2020, the management of the Deutsche Telekom Group and hence also the reporting structure were both based on this new segment allocation. As part of these transactions, the assets and liabilities assigned to the business areas were transferred to the Germany operating segment. Prior-year comparatives in these segments (development of operations, customer development, headcount development, and order entry) were adjusted retrospectively. The transactions were consummated under company law on 1 July 2020 (TC Services and Classified ICT) and on 1 October 2020 (DTGC).

Effective 1 January 2021, Deutsche Telekom assigned the responsibility for business and profit and loss for Deutsche Telekom IoT GmbH from the Systems Solutions operating segment to the business customer unit in the Germany operating segment. The Group subsidiary established in summer 2020 is responsible for the IoT business of Deutsche Telekom.

The United States operating segment combines all mobile activities in the U.S. market.

The Europe operating segment comprises all fixed-network and mobile operations of the national companies in Greece, Romania, Hungary, Poland, the Czech Republic, Croatia, Slovakia, Austria, North Macedonia, and Montenegro.

In addition to consumer business, most of Deutsche Telekom's national companies also offer ICT solutions for business customers.

The Systems Solutions operating segment offers business customers a portfolio of integrated products and solutions. With offerings for connectivity, digital solutions, cloud and infrastructure, and security, in addition to global partnerships, it offers help and guidance to customers to implement digital business models.

The Group Development operating segment actively manages entities, subsidiaries, and equity investments to grow their value while giving them the entrepreneurial freedom they need to promote their continued strategic development. This approach led to the creation of GD Towers – comprising Deutsche Funkturm (DFMG) and the Dutch cell tower business – within the Group Development segment. Following the integration of Tele2 Netherlands into T-Mobile Netherlands as of the start of 2019, the Dutch MVNO and SIM provider, Simpel, was taken over effective 1 December 2020. Deutsche Telekom Capital Partners (DTCP) and the Group functions of Mergers & Acquisitions and Strategic Portfolio Management have also been assigned to Group Development.

As of 1 January 2021, Deutsche Telekom transferred its Austrian cell tower business from the Europe operating segment to GD Towers in the Group Development operating segment to enhance the management efficiency in cell tower business. In addition, GD Towers will increase its efforts to expand third-party business, increase profitability, and develop growth areas.

Group Headquarters & Group Services comprises all Group units that cannot be allocated directly to one of the operating segments and reports on the Board of Management department for Technology and Innovation. As the organization that sets the direction and provides momentum, it defines strategic aims for the Group, ensures they are met, and becomes directly involved in selected Group projects. Group Services provides services to the entire Group; in addition to typical services provided by Deutsche Telekom Services Europe, such as financial accounting, human resources services, and operational procurement, Group Services also includes placement services, which are provided by the personnel service provider, Vivento. It is in charge of securing external employment opportunities for employees, mainly civil servants, predominantly in the public sector. Further units are Group Supply Services (GSUS) for the real estate management and the strategic procurement, and MobilitySolutions, which is a full-service provider for fleet management and mobility services.

The Technology and Innovation Board department unites the cross-segment network, innovation, and IT activities of the Germany, Europe and Systems Solutions operating segments. These include Deutsche Telekom IT, which focuses on the Group's internal national IT projects, and the central innovation unit, Product Innovation and Customer Experience ("**PI**C"), which works closely with the operating segments to drive topics

such as digitalization, big data, software- defined networks, voicification, virtualization, and cloud services. The Innovation Hub ("**IHUB**") pools all of the expertise required for future innovation projects in an agile working environment to ensure Deutsche Telekom stays flexible and innovative. Additional units are Strategy & Technology Innovation ("**S&TI**"), and International Technology and Service Delivery ("**ITS**"). ITS harmonizes the planning, development, and operation of products, services, and platforms at the national companies in Europe, taking technological and commercial aspects into account. S&TI ensures efficient and customized research and innovation with a focus on mobile and fixed-network communications.

CORPORATE TRANSACTIONS

The business combination of T-Mobile US and Sprint was completed on 1 April 2020, forming the all-new, larger T-Mobile US. The transaction had previously passed through various approval processes involving numerous national and regional courts and authorities in the United States. Business in the United States developed extremely positively on the back of the various Un-carrier initiatives of the last few years. The new business combination serves to further strengthen this trend. T-Mobile US has the largest 5G network in the United States.

The business combination of T-Mobile US and Sprint took the form of an all-stock transaction. At the completion of the transaction, Deutsche Telekom held around 43.6 per cent. of the shares in T-Mobile US. However, under a proxy agreement reached with SoftBank, at the time the business combination took effect Deutsche Telekom controlled a majority of the voting power of around 68.3 per cent. of shares in the new T-Mobile US. On 22 June 2020, Deutsche Telekom received call options from SoftBank to buy around 101 million T-Mobile US shares, thus securing itself long-term access to the majority shareholding in T-Mobile US. In return, Deutsche Telekom granted SoftBank the option to immediately sell around 198 million T-Mobile US shares. The sale of the shares held by SoftBank reduced the proportion of T-Mobile US shares for which Deutsche Telekom can exercise voting rights to around 52.5 per cent. as of 5 August 2020.

The structure of the new T-Mobile US factors in the agreement reached with the U.S. Department of Justice (DoJ), one condition of which was that Sprint divested its prepaid business to satellite TV operator DISH. The agreement also includes the sale of part of the 800 MHz spectrum held by Sprint to DISH. As of 1 July 2020, the U.S. authorities' requirements regarding the divestiture of Sprint's prepaid business were duly met and the agreement to sell spectrum to DISH duly confirmed.

On 26 August 2020, Sprint exercised its option to purchase the wireless telecommunications assets of Shenandoah Personal Communications Company (Shentel). Shentel is the exclusive provider of Sprint wireless communications network products in certain parts of several U.S. states that are home to approximately 1.1 million subscribers. The base purchase price of the wireless telecommunication assets was determined through a valuation process and was set at USD 1.9 billion and is subject to certain purchase price adjustments. The transaction is expected to close in the second quarter of 2021 after satisfying customary conditions to closing.

On 14 September 2020, T-Mobile US and American Tower signed an agreement on the lease and use of cell sites. This was a modification to existing agreements with American Tower. The agreement gives T-Mobile US greater flexibility in the course of merging the mobile networks of T-Mobile US and Sprint and of the 5G network build-out.

On 6 November 2020, OTE concluded an agreement with Orange Romania concerning the sale of the 54 per cent. stake in Telekom Romania Communications, which operates the Romanian fixed-network business. The transaction is subject to approval by the authorities.

On 1 December 2020, T-Mobile Netherlands acquired the Dutch MVNO and SIM provider Simpel. Simpel had previously exclusively marketed SIM-only subscriptions through its own website. These SIM cards operated on the T-Mobile Netherlands network.

On 21 January 2021, Deutsche Telekom, Cellnex Telecom S.A., the newly established, independently managed investment company Digital Infrastructure Vehicle I SCSp ("**DIV**"), and others signed an agreement to merge Deutsche Telekom's and Cellnex's respective Dutch subsidiaries for mobile infrastructure. Under the deal, the Dutch cell tower company T-Mobile Infra B.V. will be sold to DIV and subsequently merged into Cellnex Netherlands B.V. The closing of the transaction is expected in the first half of 2021.

INVESTMENTS IN NETWORKS

T-Mobile US successfully bid on total spectrum of 691 MHz at the U.S. auction in March 2020 and received the 5G licenses it bought for USD 873 million in April 2020. A further CBRS auction in the United States for spectrum in the 3,550 to 3,650 MHz band ended on 25 August 2020. T-Mobile US secured eight licenses for

which it paid a net sum of USD 6 million. The C-band auction for spectrum in the 3,700 to 4,200 MHz band began on 8 December 2020 and ended on 15 January 2021. The spectrum assignment phase has ended on 24 February 2021. T-Mobile US has spent USD 9.3 billion for licences covering 208m POPs across 72 markets.

In Europe, Deutsche Telekom and its subsidiaries received the following spectrum up to the end of 2020:

In the Netherlands, an auction started on 29 June 2020 for spectrum in the 700; 1,500; and 2,100 MHz bands. The auction ended with the completion of the allotment phase on 21 July 2020. T-Mobile Netherlands successfully bid on a total spectrum of 70 MHz in all three bands for an aggregate amount of EUR 400 million.

In Hungary, proceedings to re-award 900 and 1,800 MHz spectrum licenses that are due to expire in 2022 were held on 28 January 2021 and concluded the same day. Magyar Telekom acquired 2x 8 MHz and 2x 20 MHz in the respective bands for a total price of EUR 123 million (when translated into euros).

In Austria the auction for spectrum in the 700; 1,500; and 2,100 MHz bands ended on 11 September 2020. T-Mobile Austria acquired total spectrum of 100 MHz in all three bands for EUR 89 million.

In Greece, spectrum was awarded in two phases. OTE's subsidiary Cosmote received total spectrum worth EUR 110 million in the first phase followed by spectrum worth around EUR 14 million in the second phase.

Slovakia successfully concluded its auction for the 700, 900, and 1,800 MHz bands in November 2020, with Slovak Telekom acquiring spectrum for a total sum of EUR 33 million.

In the Czech Republic, the auction that had been rescheduled on account of COVID-19 for the 700 MHz and 3,400 to 3,600 MHz bands was also held in November 2020. T-Mobile Czech Republic secured spectrum worth EUR 72 million (when translated into euros).

In 2021 Deutsche Telekom expects further spectrum awards, such as auctions as well as license extensions in Croatia, Czech Republic, Hungary, Poland, Romania, Slovakia and the USA.

Major Regulatory Decisions

The business activities of Deutsche Telekom are largely subject to national and European regulation, which is associated with extensive powers to intervene in its product design and pricing. Deutsche Telekom was again subject to extensive regulation in its mobile and fixed-network businesses in 2020.

REGULATION

The Federal Cabinet of Germany (*Bundeskabinett*) approved the draft for the amendment of the German Telecommunications Act (*Telekommunikationsgesetz*, TKG) on 16 December 2020. The amendment is necessary in order to transpose European requirements from the European Electronic Communications Code into national law. The biggest changes affect consumer protection regulations, the regulation of "very high capacity networks" (including FTTH), spectrum regulation, and the regulations on universal service. In view of the Code's implementation deadlines, the amended Act should have been published by the end of 2020 at the latest. The need for further readings in the legislative process delayed the publication of the Act. It is now expected in the first half of 2021. The Code is also being transposed into national law in countries where Deutsche Telekom's European subsidiaries conduct their business. In some, this process was completed by the end of 2020, whereas in others implementation will take until 2021.

The European Commission launched a consultation procedure on the future regulation of international roaming in summer 2020. The current regulation applies price caps through 2022 on the roaming charges that European mobile network operators can bill peer operators for the use of roaming services. In addition to the future regulation of these charges, the Commission also consulted on whether and which rules will apply in the future to roaming for the Internet of Things (IoT) and to roaming access to value-added services and emergency call numbers.

On 18 December 2020, the European Commission published a Delegated Act setting single maximum Union-wide mobile (MTR) and fixed-network (FTR) termination rates. The Commission proposes a phased reduction of MTRs to a uniform level of 0.2 eurocents/min. by 2024. FTRs are to be reduced sooner, to 0.07 eurocents/min. EU-wide by 2022. The Delegated Act is expected to enter into force in the first half of 2021; from the date of effect, member states will have a transition period of two months to apply the price caps contained in the Act.

Results of Operations of the Group

Net Revenue

In 2020, Deutsche Telekom generated net revenue of EUR 101.0 billion, which was 25.4 per cent. or EUR 20.5 billion up on the 2019 level. In organic terms, i.e., assuming a comparable composition of the Group in 2019 and excluding exchange rate effects, revenue developed positively, with growth of EUR 2.9 billion or 3.0 per cent. For a comparison on an organic basis, net revenue in 2019 was raised by EUR 19.2 billion to account for effects of changes in the composition of the Group – primarily from the acquisition of Sprint in the United States operating segment – and net exchange rate effects of EUR -1.6 billion were taken into account.

The United States operating segment in particular contributed to the positive revenue trend with an increase of 51.4 per cent. Adjusted for the acquisition of Sprint and exchange rate effects, revenue was up 5.0 per cent. against the 2019 level. Revenue in the German home market was slightly up on the 2019 level, increasing by 0.2 per cent. This slight increase was mainly due to the positive trend in fixed-network business on the back of revenue growth in the broadband business and invariable call charges. This offset the decline in revenue in the mobile business. The COVID-19 pandemic had a negative impact on roaming, visitor, and terminal equipment revenues, and resulted in delays or postponements to current orders in B2B telecommunications business. In the Europe operating segment, revenue decreased by 2.2 per cent, mainly due to exchange rate effects. In organic terms, revenue remained stable at the 2019 level, despite the deterioration in economic conditions due to the COVID-19 pandemic. The fixed-network business performed well, recording increases in broadband and TV revenues. Revenues from mobile business decreased slightly, primarily driven by declines in roaming and visitor revenues as a result of travel restrictions, some of which are still in place or have been reimposed, and in low-margin terminal equipment business. These negative effects have been partially offset by increases in higher-margin service revenues. Total revenue in the Systems Solutions operating segment decreased by 5.6 per cent. in 2020 compared to 2019, reflecting the COVID-19-induced decline of the IT market in Western Europe. The upward revenue trend in Deutsche Telekom's growth areas public cloud and security was not sufficient to offset the declines in traditional IT and project business. The development of Deutsche Telekom's growth area digital solutions was particularly affected by the impact of the COVID-19 pandemic on the automotive industry. Total revenue in the Group Development operating segment increased by 3.1 per cent. in 2020 compared to 2019, thanks to the operational growth of the two subsidiaries, T-Mobile Netherlands and DFMG.

At 60.6 per cent, the United States operating segment provided by far the largest contribution to net revenue of the Group in 2020 and in particular thanks to the acquisition of Sprint was up 10.4 percentage points above the level in 2019. In this connection, the proportion of net revenue generated internationally also increased significantly from 69.5 per cent. to 75.5 per cent.

Adjusted EBITDA AL, EBITDA AL

Adjusted EBITDA AL increased by EUR 10.3 billion or 41.6 per cent. to EUR 35.0 billion in 2020 compared to 2019. But even in organic terms, adjusted EBITDA AL increased by EUR 2.6 billion or 7.9 per cent. For a comparison on an organic basis, adjusted EBITDA AL in 2019 was raised by EUR 8.2 billion to account for effects of changes in the composition of the Group and net exchange rate effects of EUR -0.5 billion were taken into account.

All segments, with the exception of the Systems Solutions operating segment, made a positive contribution to this development: Adjusted EBITDA AL of the United States operating segment increased significantly, particularly on the back of higher service and terminal equipment revenues in connection with the acquisition of Sprint. In organic terms, adjusted EBITDA AL grew by 10.8 per cent. in 2020 compared to 2019. These increases were offset by higher operating expenses, primarily in connection with the acquisition of Sprint. The Germany operating segment contributed to this result thanks to a slightly positive revenue trend, and improved cost efficiency with 1.6 per cent. higher adjusted EBITDA AL. Adjusted EBITDA AL in the Europe operating segment remained stable. In organic terms, it increased by as much as 2.1 per cent. The main factor in this trend was savings in indirect costs. In the Systems Solutions operating segment, adjusted EBITDA AL declined by 6.0 per cent; excluding negative exchange rate effects the decline would have been 1.8 per cent. The decline was mainly caused by the decrease in earnings in traditional IT and project business, partly due to the effects of the COVID-19 pandemic. The increase of 6.6 per cent. in adjusted EBITDA AL in the Group Development operating segment was driven by revenue growth, synergies from the acquisition of Tele2 Netherlands, and efficient management of costs at T-Mobile Netherlands. The GD Towers business also continued to post consistent growth on the back of rising volumes.

EBITDA AL increased by EUR 10.0 billion or 43.4 per cent. to EUR 33.2 billion in 2020 compared to 2019, with special factors changing from EUR -1.6 billion to EUR -1.8 billion. Net expenses incurred in connection with staff-related measures were recorded as special factors and decreased by EUR 0.4 billion to EUR -1.3 billion in 2020 compared to 2019. In addition, expenses of EUR 1.7 billion were recorded as special factors under gains/losses from deconsolidations, disposals, and acquisitions. These expenses were incurred in connection with the approval process for the business combination of T-Mobile US and Sprint, with acquisition and integration costs, with restructuring costs to realize cost efficiencies from the business combination, and with a reduction in the useful life of leased network technology for cell sites. EUR 0.2 billion related to the derecognition of a billing software for postpaid customers, which was still in development, in the United States operating segment. A transaction fee of EUR 0.3 billion received from SoftBank in return for support in the immediate sale by SoftBank of T-Mobile US shares had an offsetting effect. In 2019, expenses of EUR 0.5 billion had been recorded as special factors in connection with gains/losses from deconsolidations, disposals, and acquisitions. Reversals of impairment losses recorded as special factors of EUR 1.6 billion resulted from the partial reversal of impairment losses on spectrum licenses at T-Mobile US. Furthermore, the agreed sale of the Romanian fixed-network business resulted in a reversal of impairment losses on property, plant and equipment of EUR 50 million recorded in the course of 2020. Other special factors affecting EBITDA AL amounted to EUR -0.5 billion and mainly relate to expenses incurred in the United States operating segment in the first half of 2020 in connection with the COVID-19 pandemic.

EBIT

Group EBIT increased from EUR 9.5 billion to EUR 12.8 billion, up EUR 3.3 billion or 35.4 per cent. against 2019. This increase is due in particular to the effects described under adjusted EBITDA AL and EBITDA AL. Depreciation and amortization stood at EUR 25.0 billion overall, up EUR 7.8 billion compared to 2019. This increase is mainly attributable to Sprint, which has been included since 1 April 2020. Impairment losses on non-current assets reduced EBIT by EUR 0.8 billion. A total of EUR 0.5 billion of this related to the Systems Solutions operating segment and the Group Headquarters & Group Services segment, EUR 0.2 billion to the Europe operating segment, and EUR 0.1 billion to the United States operating segment.

Profit before income taxes

Profit before income taxes increased by EUR 1.4 billion, mainly for the aforementioned reasons. The loss from financial activities increased by EUR 1.9 billion to EUR 4.1 billion. This increase is primarily due to a EUR 1.9 billion increase in finance costs to EUR 4.2 billion, mainly due to the financial liabilities recognized and the restructuring begun in connection with the acquisition of Sprint, and the related increase in financing, including the handling charges incurred for a briefly utilized bridge loan facility. Other financial income/expense was unchanged at EUR 0.1 billion. This development was attributable to the increase compared to 2019 in gains from financial instruments, due, among other factors, to the subsequent measurement of the stock options to buy shares in T-Mobile US received from SoftBank in June 2020. Lower measurement effects from embedded derivatives at T-Mobile US compared with 2019 and higher interest expense from the measurement of provisions and liabilities had an offsetting effect.

Net profit/loss

Net profit increased by EUR 0.3 billion to EUR 4.2 billion in 2020 compared to 2019. Tax expense came to EUR 1.9 billion compared with EUR 2.0 billion in 2019. Profit attributable to non-controlling interests increased by EUR 1.2 billion to EUR 2.6 billion, mainly in the United States operating segment. This increase related to the positive development in operations and the decrease in T-Mobile US' capital share as a result of the Sprint transaction. Excluding special factors, which had a negative overall effect of EUR 1.6 billion on net profit, adjusted net profit amounted to EUR 5.7 billion, up against the level in 2019 of EUR 4.9 billion.

Net debt increased from EUR 76.0 billion at the end of 2019 to EUR 120.2 billion at the end of 2020. The vast majority of this increase is attributable to the business combination of T-Mobile US and Sprint, and the modification of leases signed with American Tower in the United States. Key investments in spectrum licenses also had an increasing effect. Factors positively influencing net debt were the positive free cash flow (before dividend payments and spectrum investment) of EUR 10.8 billion, exchange rate effects of EUR 8.0 billion and the sale of Sprint's prepaid business to DISH (EUR 1.2 billion). Effects increasing net debt were dividend payments including non-controlling interests (EUR 3.1 billion), the addition to lease liabilities (EUR 14.3 billion), acquisition of spectrum (EUR 1.7 billion), forward-payer swaps at T-Mobile US (EUR 1.1 billion), and the acquisition of Simpel in the Netherlands (EUR 0.3 billion). Other effects of EUR 0.4 billion include, among other factors, recognition of liabilities for the acquisition of media broadcasting rights, financing options under which the payments for trade payables become due at a later point in time by involving banks in the process, and offsetting effects from the measurement of embedded derivatives at T-Mobile US.

Off-balance-sheet financial instruments mainly relate to the sale of receivables by means of factoring. Total receivables sold as of 31 December 2020 amounted to EUR 3.1 billion (31 December 2019: EUR 4.2 billion). This mainly relates to factoring agreements in the United States and Germany operating segments. The decline in 2020 compared to 2019 was mainly attributable to the contractual termination of a revolving factoring agreement in the Germany operating segment. The agreements are used in particular for active receivables management.

Furthermore, in 2020 Deutsche Telekom chose financing options totaling EUR 0.2 billion (2019: EUR 0.7 billion) which extended the period of payment for trade payables from operating and investing activities by involving banks in the process and which upon payment are shown under cash flows used in/from financing activities. As a result, these payables are shown under financial liabilities in the statement of financial position.

Free cash flow of the Group before dividend payments and spectrum investment grew from EUR 10.1 billion in 2019 to EUR 10.8 billion in 2020. Free cash flow AL (before dividend payments and spectrum investment) decreased by EUR 0.7 billion to EUR 6.3 billion in 2020 compared to 2019. The following effects impacted on this development: Excluding interest payments for zero-coupon bonds and the premature termination of forward-payer swaps concluded for borrowings at T-Mobile US, net cash from operating activities increased by EUR 4.4 billion. The sustained strong performance of the operating segments, especially the United States, including Sprint, had an increasing effect on net cash from operating activities. Higher (net) interest payments, which were up by EUR 2.1 billion in total, mainly as a result of the financial liabilities recognized and the restructuring begun in connection with the acquisition of Sprint, and the related increase in financing, including the handling charges incurred for a briefly utilized bridge loan facility, had a negative effect. Income tax payments decreased by EUR 0.1 billion compared with 2019. Factoring agreements of EUR 0.8 billion had a negative impact on net cash from operating activities in 2020, mainly as a result of the contractual termination of a revolving factoring agreement in the Germany operating segment. In 2019, factoring agreements had had negative effects of EUR 0.3 billion.

Cash capex (before spectrum investment) increased by EUR 3.9 billion compared with 2019, largely on account of the inclusion of Sprint and the ongoing 5G network build-out in the United States. Cash capex in the Germany operating segment decreased slightly. Capital expenditure in the Germany operating segment totaled around EUR 4.2 billion in 2020, in particular for the build-out of the 5G and fiber-optic networks. In the Europe operating segment, cash capex stood at EUR 1.8 billion, which was slightly up compared to 2019. Here, Deutsche Telekom also continues to invest in the provision of broadband and fiber-optic technology and in 5G as part of its integrated network strategy. The increase in repayments of lease liabilities was due in particular to payments for leases in the United States operating segment, partly as a result of the inclusion of Sprint, and partly as a result of payments for new leases concluded in 2020 for network technology and cell sites in connection with the 5G network build-out.

Research and Development

Expenditure and investment in research and development

Research and development (R&D) expenditure includes pre-production research and development, such as the search for alternative products, processes, systems, and services. By contrast, Deutsche Telekom does not class as R&D expenditure the costs of developing system and user software which is designed to improve productivity and make our business processes more effective. R&D expenditure in the Deutsche Telekom Group amounted to EUR 33.1 million in 2020 (2019: EUR 45.4 million). In 2020, the Group's investments in internally generated intangible assets to be capitalized were also up in 2020 at EUR 448.4 million compared with EUR 344.2 million for 2019. These investments predominantly relate to internally developed software, mainly in Deutsche Telekom's Group Headquarters & Group Services segment and the Systems Solutions operating segment.

Outlook

Market Expectations

Macroeconomic development

The outbreak of the COVID-19 pandemic in spring 2020 plunged the global economy into a deep recession. As the virus began its spread worldwide, countries responded with copious containment measures, including restrictions on social contact and travel, business closures, and bans on mass events. States and central banks rolled out far-reaching monetary and fiscal policy measures to cushion the economic downturn.

As the crisis progressed, leading economic research institutes made substantial downward adjustments to their outlooks for world economic output. The International Monetary Fund (IMF) projects a 4.4 per cent. decline in world economic output for 2020. Economic output in Deutsche Telekom's core markets also shrank in 2020. After bottoming out in the second quarter of 2020, economic activity had moved into a period of recovery as containment measures were lifted and infection rates went down. However, the rate of recovery began to slow again in fall 2020 due to the renewed acceleration of the pandemic, resulting in tighter containment measures in many areas and changes in people's behavior. The IMF expects the global economy to only partially recover in 2021 given that economic activity will remain significantly below the level that had been projected before the emergence of the COVID-19 pandemic.

GDP in Germany decreased by 5.0 per cent. in 2020 compared to 2019. The COVID-19 pandemic affected individual industry sectors to varying extents. Economic output in the United States declined by 3.5 per cent. in 2020, with the U.S. economy hitting its lowest point in April 2020. This was followed by a period of recovery as social contact restrictions were lifted, although this recovery lost momentum in the second half of 2020 as infection rates began to rise again. In the countries of the Europe operating segment, those economies that are heavily reliant on the service sector were hit particularly hard by the COVID-19 pandemic. Domestic consumption declined across all footprint countries; rising unemployment rates were kept in check primarily thanks to state aid programs in many places.

Germany

According to EITO, revenue from IT products and services, telecommunications, and consumer electronics decreased by 0.1 per cent. to EUR 143.5 billion in Germany in 2020, largely driven by the impact of the COVID-19 pandemic. The decline was felt mainly in telecommunications revenue (telecommunications services, terminal equipment, and infrastructure), which decreased by 0.6 per cent. to EUR 56.8 billion. Revenue with information technology increased slightly by 0.3 per cent. to EUR 86.7 billion.

The number of broadband lines in Germany grew by 2.4 per cent. in 2020 to around 36.7 million, according to EITO. For 2021, the number of broadband lines is expected to grow by a further 2.5 per cent. to 37.5 million. Companies with their own infrastructure benefited the most from this market growth, along with resellers and regional providers.

In the German mobile market, service revenues increased by 0.4 per cent. against 2019 to approximately EUR 20.0 billion. This revenue growth was driven largely by the continued rise in data usage, which was offset by regulatory effects as well as sustained price and competitive pressure. Mobile data usage continues to increase strongly on the back of growing use of products such as mobile video apps.

Digitalization is continuing apace, and as a result there is also growing demand by the industry for more connectivity to allow machines and production sites to be networked and to tap efficiencies in value chains. Extensive IT and cloud solutions, as well as intelligent approaches to M2M communication are needed in order to meet these demands.

UNITED STATES

In the United States, the COVID-19 pandemic dampened the economy and the mobile communications sector due in part to the temporary closure of shops and offices. In parallel, the increased use of video conferencing and streaming services caused a sharp rise in data traffic over the networks. Despite the higher loads, both the mobile networks and the mobile communications industry as a whole proved resilient during these times.

In the U.S. mobile communications market, the business combination of T-Mobile US and Sprint has created a market with three national mobile providers alongside various regional network operators. Additionally, an array of mobile virtual network operators (MVNOs) offer mobile services, using the networks of one or more of the three national carriers to transmit their voice and data traffic.

The entry of satellite TV operator DISH into the market is expected to add new competitive pressure: DISH holds licenses to vast swaths of airwaves and has announced plans for building its own 5G network in 2021. DISH benefited from the business combination of T-Mobile US and Sprint, consummated in 2020, which included the sale of Sprint's prepaid business to DISH effective 1 July 2020 as a major prerequisite for the U.S. authorities approving the merger.

In the United States, 5G commercialization continues to move at a swift pace. All three nationwide mobile providers have launched 5G services, as have a number of regional providers. 5G is being built out in the United States utilizing both sub-6 GHz spectrum and millimeter wave (mmWave). T-Mobile US's 5G network now covers 280 million people in the United States. All carriers will continue to expand their networks in the coming months according to different models which, for the time being, emphasize different spectrum bands.

For its part, the U.S. Federal Communications Commission (FCC) has taken various steps to encourage investment in mobile communications. For example, to help providers prepare for the deployment of 5G networks, the FCC has cleared regulatory hurdles, and preempted several state and local obstacles, in efforts to streamline the build-out. Additionally, in 2020 the FCC held several auctions for spectrum integral to the 5G build-out. The C-band auction for spectrum in the 3,700 to 4,200 MHz band began on 8 December 2020 and ended on 15 January 2021.

EUROPE

The traditional telecommunications markets in the Europe segment were primarily impacted by the COVID-19 pandemic in 2020. This resulted, among other effects, in a substantial decline in mobile roaming revenues due to travel restrictions in 2020 compared to 2019. Full and partial lockdowns in the footprint countries over the course of 2020 led to the temporary closure of shops and other measures. Public life moved online to a large extent, driving a corresponding increase in demand for broadband and TV services. According to Analysys Mason, fixed-network business (excluding systems solutions business) proved robust and was able to offset the decline in revenues from voice telephony. Despite posting losses in roaming business, revenue from mobile communications remained stable in 2020 compared to 2019. Overall, revenues were on a par with the 2019 level.

The unabated strong trend towards convergent product packages combining fixed-network and mobile communications (FMC) gained further momentum. The experts at Analysys Mason expect FMC revenues to grow year-on-year. These integrated convenience packages are enjoying strong growth in Deutsche Telekom's companies and, in some areas, already address the majority of consumers, which is having a positive impact on customer satisfaction and churn rates.

For the business customer area, 2020 was a year of manifold opportunities and challenges alike. The latter include not least the record low hit by roaming revenues in the European telecommunications market as just one of the effects of the COVID-19 pandemic. Nevertheless, the telecommunications industry is emerging as one of the winners of the worldwide COVID-19 pandemic, with most businesses posting stable to rising revenues across their mobile communications, fixed-network, and ICT/cloud divisions. So, too, were most of Deutsche Telekom's European subsidiaries able to leverage the opportunities arising from the crisis despite falling revenues from hard-hit industries, especially tourism, or from postponed tendering processes for corporate customer projects.

SYSTEMS SOLUTIONS

In the information technology (IT) industry in Deutsche Telekom's core market of Western Europe, the volume addressed by the Systems Solutions operating segment and the T-Systems brand decreased by 2.6 per cent. in 2020 to EUR 185 billion largely due to the COVID-19 pandemic. The IT services market, in particular, posted revenue declines in 2020, with COVID-19 the biggest contributor to this trend. The effects of the global pandemic have negatively affected IT customer spending. Challenging conditions across virtually all industries led to the deferral of many large-scale IT projects. However, this trend impacted the

business areas of the market in very different ways.

In terms of IT services, demand has grown further for public cloud services and cybersecurity services, as has the importance of digitalization, the Internet of Things (including Industry 4.0), and communication between machines (M2M). The health sector also developed positively, with growth reaching double digits in some areas. By contrast, demand was down in the market segments for traditional infrastructure, project business, and SAP services. Business with outsourcing and managed services proved much more resilient. The market for cloud-based systems integration services grew by almost 1.5 per cent. despite the COVID-19 pandemic.

Competitive and price pressure persisted in all submarkets of the Systems Solutions operating segment. This was due on the one hand to competitors from traditional IT services business, such as IBM, Atos, and Capgemini, and on the other to cloud providers such as Amazon Web Services, Google, and Salesforce. Prices were eroded further by providers of services that are delivered primarily offshore (e.g., Tata Consultancy Services, Infosys, Wipro).

GROUP DEVELOPMENT

The environment of the Group Development operating segment is largely dominated by the markets served by the companies T-Mobile Netherlands and Deutsche Funkturm (DFMG).

While the Dutch mobile communications market continues to be characterized by sustained high price pressure and intense competition, this is expected to ease moderately in the coming years. The Netherlands is ahead of much of Europe with its bundling of fixed-network and mobile products into convergent offers (FMC). The dominance of KPN and VodafoneZiggo in fixed-network business is keeping the pressure on mobile product pricing high due to the FMC trend. Moreover, the rapid technological transformation calls for high investments. Investments in building out 5G network infrastructure continued in 2020 following the Dutch 5G auction.

DFMG is the biggest provider of passive wireless infrastructure for mobile communications and broadcasting in Germany. Despite the COVID-19 pandemic, the market again saw increased demand for cell sites in 2020, due on the one hand to the fact that network operators plan to close gaps in coverage, and on the other to the fact that demand for mobile data services is growing, which calls for a further increase in the density of mobile networks.

Employees

Deutsche Telekom Group's headcount increased by 7.5 per cent. in 2020 compared with end of 2019, mainly due to the integration of Sprint employees in the United States. The developments were varied across the segments. The number of employees in the Germany operating segment decreased by 4.4 per cent. compared with 2019 due to the take-up of socially responsible instruments in connection with the staff restructuring. The total number of employees in the United States operating segment increased by 50.7 per cent. as of 31 December 2020 compared with the end of 2019, primarily due to the integration of the Sprint workforce. In the Europe operating segment, the headcount was down 7.1 per cent. compared with the end of 2019, with staff levels decreasing in Hungary, Greece and Romania in particular. The total headcount in the Systems Solutions operating segment was down 4.7 per cent. against the end of 2019, primarily as a result of efficiency enhancement measures. In the Group Development operating segment, the

3.1 per cent. increase in the number of employees can be attributed to the insourcing of activities previously carried out externally to achieve cost savings at T-Mobile Netherlands. The headcount in the Group Headquarters & Group Services segment was down 4.1 per cent. compared with the end of 2019, mainly due to ongoing staff restructuring at Vivento.

Civil Servants

Although no employees hired after 1 January 1995 have been granted civil servant status, Deutsche Telekom employs a substantial number of civil servants. Pursuant to the law governing Deutsche Telekom's privatisation, its civil servant employees retained their civil servant status. Accordingly, the terms and conditions of their employment and the benefits owed to them continue to be governed by German regulations regarding civil servants. Civil servants are tenured employees and may not be unilaterally terminated except in extraordinary, statutorily defined circumstances. Although Deutsche Telekom is authorised, pursuant to the law governing its privatisation, to exercise generally the rights and duties of Germany as the employer of civil servants, the Federal Postal and Telecommunication Agency (*Bundesanstalt für Post und Telekommunikation* or the Federal Agency) has a right of consultation in the implementation of certain aspects of the terms under which Deutsche Telekom employs civil servants.

Under the German Postal Employees Act (*Postpersonalrechtsgesetz*), which governs the legal position of civil servants at Deutsche Telekom AG, Deutsche Telekom has been given greater flexibility with respect to its relationship with its civil servants. Under certain circumstances, civil servants may also be transferred, even without their consent, to companies in which Deutsche Telekom AG has a direct or indirect majority shareholding. However, there is a risk that civil servants temporarily without civil servant status may return to Deutsche Telekom AG, for example, after the completion of their work at one of Deutsche Telekom's subsidiaries.

Civil servants employed by Deutsche Telekom are entitled to pension benefits provided by the German federal government pursuant to the German Civil Servants' Benefits Act (*Beamtenversorgungsgesetz*). Pursuant to the law governing its privatisation, Deutsche Telekom is required to make annual contributions to a special pension fund established to fund such pension obligations (*Bundes-Pensions-Service für Post und Telekommunikation e.V.*, the "BPS-PT").

Pensions

Deutsche Telekom manages its pension commitments based on the Group-wide Global Pension Policy. It ensures on a worldwide basis that Group minimum standards regarding the granting and management of company pension benefits are complied with, plans are harmonised, and other risks to the core business are avoided or reduced. In addition, the policy provides guidelines for the implementation and management of pension commitments and defines requirements for the launch, adjustment, and closure of corresponding plans. The regulations and provisions laid down in this Group policy take into account the national differences in state pension and other commitments under labor, tax, and social law and the common business practices in the area of pension commitments.

The worldwide obligations and the existing plan assets at fair value are regularly tested for risk-reducing measures, for example by executing asset liability studies and regular benefit audits.

As of 31 December 2020, the defined benefit liability amounted to EUR 7.7 billion, compared to EUR 5.8 billion as at year end 2019. The increase in provisions for pensions was mainly due to the decline in the price of the shares in BT, which had been transferred to plan assets, as well as discount rate adjustments, which resulted in an actuarial loss of EUR 1.4 billion from the remeasurement of defined benefit plans. In addition, the carrying amount increased by EUR 0.8 billion due to the change in the composition of the Group in connection with the business combination of T-Mobile US and Sprint.

In their capacities as shareholders, the Federal Republic of Germany and KfW may exercise only those rights that they have under the Stock Corporation Act and Deutsche Telekom AG's Articles of Incorporation, which are the same for all of Deutsche Telekom AG's shareholders.

At present, the Finance Ministry and KfW each have one representative on Deutsche Telekom AG's Supervisory Board.

Major Shareholders do not have different voting rights from any of Deutsche Telekom AG's other shareholders.

KfW is 80 per cent. owned by the Federal Republic of Germany. The Federal Republic of Germany has publicly stated its intention to reduce its holdings of Deutsche Telekom AG shares. Deutsche Telekom AG does not expect that a reduction in the holdings of Deutsche Telekom AG's shares by the Federal Republic of Germany or KfW will have a material negative effect on Deutsche Telekom AG's governance or business.

Share Capital

As of 31 December 2020, the share capital of Deutsche Telekom AG amounted to EUR 12,189,334,005.76 divided into 4,761,458,596 registered ordinary shares without par value (*Stückaktien*). All shares have been issued and are fully paid.

ALTERNATIVE PERFORMANCE MEASURES (APM)

Deutsche Telekom uses certain alternative performance measures, which are non-GAAP figures not governed by IFRS. They should not be viewed in isolation as an alternative to profit or loss from operations, net profit or loss, net cash from operating activities, the liabilities reported in the consolidated statement of financial position, or other Deutsche Telekom key performance indicators presented in accordance with IFRS.

EBITDA corresponds to EBIT (profit/loss from operations) before depreciation, amortization and impairment losses. **EBITDA AL** is calculated by adjusting EBITDA for depreciation of the right-of-use assets and for interest expenses on recognized lease liabilities. Both significantly increase EBITDA without any attendant change in the economic circumstances. EBIT, EBITDA and EBITDA AL measure the short-term operational performance and the success of individual business areas. Deutsche Telekom also uses **EBITDA AL margins**¹¹ to show how these indicators develop in relation to revenue. This makes it possible to compare the earnings performance of profit-oriented units of different sizes.

Special factors have an impact on the presentation of operations, making it more difficult to compare performance indicators with corresponding figures for prior periods. For this reason, Deutsche Telekom additionally adjusts its performance indicators to provide transparency. Without this adjustment, statements about the future development of earnings are only possible to a limited extent. The adjusted values are calculated on the basis of the unadjusted performance indicators.

The special factors which are used to calculate some alternative performance measures comprise staff-related measures (such as early retirement compensation, severance and voluntary redundancy models), non-staff related restructuring, effects of de-consolidations, disposals and acquisitions, impairment losses and other effects that generally do not arise in conjunction within the ordinary course of business.

Free Cash Flow (before dividend payments and spectrum investment) and **Free Cash Flow AL (before dividend payments and spectrum investment)** are the main measures for providers of debt capital and equity. It measures the potential for further developing the Company, e.g. for generating organic growth and the ability to pay dividends and repay debt. **Free Cash Flow AL (before dividend payments and spectrum investment)** is determined by adjusting Free Cash Flow (before dividend payments and spectrum investment) for repayments of lease liabilities.

Cash capex relates to cash outflows for investments in intangible assets (excluding goodwill and before spectrum investment) and property, plant and equipment, which are relevant for cash outflows as a component of free cash flow.

In addition, Deutsche Telekom considers **Net debt** (calculated as the Group's gross debt (sum of current and non-current financial liabilities and lease liabilities minus accrued interest and other financial liabilities) minus certain financial assets (cash and cash equivalents, derivative financial assets and other financial assets)) to be an important performance indicator for investors, analysts, and rating agencies.

Relative debt is calculated as the ratio of net debt to adjusted EBITDA and is a measure of financial flexibility.

¹¹ EBITDA AL margin is calculated as EBITDA AL (adjusted for special factors) / Net revenue.

LITIGATION AND ARBITRATION PROCEEDINGS

The companies of Deutsche Telekom Group are involved in a number of legal proceedings in the ordinary course of Deutsche Telekom's business. In addition, proceedings involving alleged abuse of a market-dominant position by Deutsche Telekom and other alleged antitrust violations, as well as other regulatory controversies, are pending before competition and regulatory authorities.

Securities and Corporate Law-Related Proceedings

Prospectus liability proceedings (third public offering, or DT3)

The prospectus liability proceedings relate to initially around 2,600 ongoing lawsuits from some 16,000 alleged buyers of Deutsche Telekom AG's shares sold on the basis of the prospectus published on 26 May 2000. The plaintiffs assert that individual figures given in this prospectus were inaccurate or incomplete. The amount in dispute totals approximately EUR 78 million plus interest as per end of 2020. Some of the actions are also directed at KfW and/or the Federal Republic of Germany as well as the banks that handled the issuances. The Frankfurt/Main Regional Court had issued orders for reference to the Frankfurt/Main Higher Regional Court in accordance with the German Capital Investor Model Proceedings Act (Kapitalanleger-Musterverfahrensgesetz – KapMuG) and has temporarily suspended the initial proceedings. On 16 May 2012, the Frankfurt/Main Higher Regional Court had ruled that there were no material errors in Deutsche Telekom AG's prospectus. In its decision on 21 October 2014, the Federal Court of Justice partly revoked this ruling, determined that there was a mistake in the prospectus, and referred the case back to the Frankfurt/Main Higher Regional Court. On 30 November 2016, the Frankfurt/ Main Higher Regional Court ruled that the mistake in the prospectus identified by the Federal Court of Justice could result in liability on the part of Deutsche Telekom AG, although the details of that liability would have to be established in the initial proceedings. Both Deutsche Telekom AG and some of the individual plaintiffs in the model proceedings brought an appeal before the Federal Court of Justice against this decision. With decision of 15 December 2020, delivered on 26 February 2021, the Federal Court of Justice revoked this ruling in part and referred the case back to the Frankfurt/Main Higher Regional Court for further consideration.

Claims relating to charges for shared use of cable ducts

In 2012, Kabel Deutschland Vertrieb und Service GmbH (today Vodafone Kabel Deutschland GmbH (VKDG)) filed a claim against Telekom Deutschland GmbH to reduce the annual charge for the rights to use cable duct capacities in the future and gain a partial refund of the payments made in this connection since 2004. According to VKDG's latest estimates, its claims amounted to around EUR 624 million along with around EUR 9 million for the alleged benefit from additional interest, plus interest in each case. Claims prior to 2009 are now no longer being asserted by VKDG. After the Frankfurt/Main Regional Court had dismissed the complaint in 2013, the Frankfurt/Main Higher Regional Court also rejected the appeal in December 2014. In the ruling dated 24 January 2017, the Federal Court of Justice reversed the appeal ruling and referred the case back to the Frankfurt/Main Higher Regional Court for further consideration. In its ruling dated 20 December 2018, the Frankfurt/Main Higher Regional Court again rejected the appeal and disallowed a further appeal. In similar proceedings, Unitymedia Hessen GmbH & Co. KG, Unitymedia NRW GmbH, and Kabel BW GmbH filed claims against Telekom Deutschland GmbH in January 2013, demanding that it cease charging the plaintiffs more than a specific and precisely stated amount for the shared use of cable ducts. In addition, the plaintiffs are demanding a refund of around EUR 570 million plus interest. The claim was dismissed in the first instance by the Cologne Regional Court on 11 October 2016. In its ruling dated 14 March 2018, the Düsseldorf Higher Regional Court rejected the appeal against this decision. In both proceedings, the plaintiffs have lodged a complaint against the non-allowance of appeal with the Federal Court of Justice.

Claim for damages in Malaysia despite an earlier, contrary, legally binding arbitration ruling

Celcom Malaysia Berhad ("**Celcom**") and Technology Resources Industries Berhad are pursuing actions with the state courts in Kuala Lumpur, Malaysia, against eleven defendants in total, including DeTeAsia Holding GmbH, a subsidiary of Deutsche Telekom AG. The plaintiffs are demanding damages and compensation of USD 232 million plus interest. DeTeAsia Holding GmbH had enforced this amount against Celcom in 2005 on the basis of a final arbitral award in its favor. The main proceedings in the court of first instance began in January 2018.

Other Proceedings

Patents and Licenses

Like many other large telecommunications and internet providers, Deutsche Telekom is exposed to a growing number of intellectual property rights disputes. There is a risk that Deutsche Telekom may have to pay license fees and/or compensation; it is also exposed to a risk of cease-and-desist orders, for example relating to the sale of a product or the use of a technology.

Anti-Trust Proceedings

Like all companies, Deutsche Telekom Group is subject to anti-trust law. Deutsche Telekom and its subsidiaries are from time to time subject to proceedings under competition law or follow-on damage actions under civil law. The following describes major anti-trust proceedings and the resulting claims for damages.

The European Commission decided on 15 October 2014 that Slovak Telekom had abused its market power on the Slovak broadband market and as a result imposed fines on Slovak Telekom and Deutsche Telekom, which were paid in full in January 2015. Slovak Telekom and Deutsche Telekom challenged the European Commission's decision on 29 December 2014 before the General Court of the European Union. On 13 December 2018, the court partially overturned the European Commission's decision and reduced the fines by a total of EUR 13 million. Despite this positive judgment, on 21 February 2019 Slovak Telekom and Deutsche Telekom filed an appeal with the European Court of Justice against the ruling by the General Court. With this appeal, Slovak Telekom and Deutsche Telekom are seeking, inter alia, to overturn the findings of the European Commission determining Slovak Telekom's behavior as abusive. Following the decision of the European Commission, competitors filed damage actions against Slovak Telekom with the civil court in Bratislava. These claims seek compensation for alleged damages due to Slovak Telekom's abuse of a dominant market position, as determined by the European Commission. At present, two claims totaling EUR 112 million plus interest are still pending. It is currently not possible to estimate the financial impact with sufficient certainty.

Guarantee
and
Negative Pledge
of
DEUTSCHE TELEKOM AG
Bonn, Federal Republic of Germany,
for the benefit of the Holders of Notes (the "**Notes**")
issued by
Deutsche Telekom International Finance B.V.
(incorporated with limited liability in The Netherlands)
under the Debt Issuance Programme (the "**Programme**")
as in force from time to time

WHEREAS:

(A) Deutsche Telekom AG (the "**Guarantor**") and Deutsche Telekom International Finance B.V. ("**Finance**") intend to issue from time to time Notes under the Programme;

(B) the Guarantor wishes to guarantee the payment of principal and interest and any other amounts payable in respect of any and all Notes that may be issued by Finance under the Programme;

(C) the Guarantor wishes to enter into a negative pledge for the benefit of each Holder of Notes that may be issued by Finance under the Programme;

IT IS AGREED AS FOLLOWS:

- (1) (a) The Guarantor unconditionally and irrevocably guarantees to the holder of each Note (which expression shall include any Temporary Global Note or Permanent Global Note representing Notes) (each a "**Holder**"), now or at any time hereafter issued by Finance under the Programme, the due and punctual payment of the principal of, and interest on, the Notes and any other amounts which may be expressed to be payable under any Note in accordance with the Terms and Conditions, as and when the same shall become due in accordance with the Terms and Conditions.
- (b) This Guarantee constitutes an unconditional, unsecured and unsubordinated obligation of the Guarantor and ranks *pari passu* with all other unsecured and unsubordinated obligations of the Guarantor from time to time outstanding.
- (c) All payments under this Guarantee shall be made without deduction or withholding for or on account of any present or future taxes, duties or governmental charges of any nature whatsoever imposed, levied or collected by or in or on behalf of the Federal Republic of Germany or by or on behalf of any political subdivision or authority therein having power to tax (hereinafter together called "**Withholding Taxes**"), unless such deduction or withholding is required by law. In such event, the Guarantor shall pay such additional amounts as may be necessary in order that the net amounts received by the Holder after such deduction or withholding shall equal the respective amounts of principal and interest which would have been receivable had no such deduction or withholding been required. No such additional amounts shall, however, be payable on account of any taxes, duties or governmental charges which
- (i) are payable by any person acting as custodian bank or collecting agent on behalf of a Holder, or otherwise in any manner which does not constitute a deduction or withholding by the Guarantor from payments made by it; or
- (ii) are payable by reason of the Holder having, or having had, some personal or business connection with the Federal Republic of Germany and not merely by reason of the fact that payments in respect of the Notes are, or for purposes of taxation are deemed to be, derived from sources in, or are secured in the Federal Republic of Germany; or

- (iii) are deducted or withheld pursuant to (x) any European Union directive or regulation concerning the taxation of interest income, or (y) any international treaty or understanding relating to such taxation and to which the Federal Republic of Germany or the European Union is a party, or (z) any provision of law implementing, or complying with, or introduced to conform with such directive, regulation, treaty or understanding; or
 - (iv) are payable by reason of a change in law that becomes effective more than 30 days after the relevant payment of principal or interest becomes due, or is duly provided for and notice thereof is published in accordance with the Terms and Conditions whichever occurs later.
- (d) The obligations of the Guarantor under this Guarantee (i) shall be separate and independent from the obligations of Finance under the Notes, (ii) shall exist irrespective of the legality, validity and binding effect or enforceability of the Notes, and (iii) shall not be affected by any event, condition or circumstance of whatever nature, whether factual or legal, save the full, definitive and irrevocable satisfaction of any and all payment obligations expressed to be assumed under the Notes.
- (e) The obligations of the Guarantor under this Guarantee shall, without any further act or thing being required to be done or to occur, extend to the obligations of any Substituted Debtor which is not the Guarantor arising in respect of any Note by virtue of a substitution pursuant to the Terms and Conditions.
- (f) This Guarantee is given in respect of any and all Notes which are or will be issued by Finance under the Programme on or after the date hereof. The Guarantee dated 31 October 1997 extends to any and all Notes which have been issued by Finance during the period beginning on 31 October 1997 through 9 November 1999. The Guarantee dated 10 November 1999 extends to any and all Notes which have been issued by Finance during the period beginning on 10 November 1999 through 5 June 2001. The Guarantee dated 6 June 2001 extends to any and all Notes which have been issued by Finance on or after 6 June 2001 and prior to the date hereof. The Guarantee dated 1 September 2005 extends to any and all Notes which have been issued by Finance on or after 1 September 2005 and prior to the date hereof. The Guarantee dated 30 April 2014 extends to any and all Notes which have been issued by Finance on or after 30 April 2014 and prior to the date hereof. The Guarantee dated 26 April 2017 extends to any and all Notes which have been issued by Finance on or after 26 April 2017 and prior to the date hereof.

(2) The Guarantor undertakes towards each Holder, so long as any of the Notes remains outstanding, but only up to the time all amounts of principal and interest have been placed at the disposal of the Fiscal Agent, not to grant or permit to subsist any encumbrance over any or all of its present or future assets, as security of any present or future Capital Market Indebtedness issued or guaranteed by the Guarantor or by any other person, without at the same time having the Holders share equally and rateably in such security. "**Capital Market Indebtedness**" means any obligation for the payment of borrowed money which is in the form of, or represented or evidenced by, a certificate of indebtedness or in the form of, or represented or evidenced by, bonds, notes or other securities which are, or are capable of being, quoted, listed, dealt in or traded on a stock exchange or other recognised securities market. For the purposes of avoiding any doubt in respect of asset-backed financings originated by the Guarantor, the expression "*assets*" as used in this subparagraph (2) does not include assets of the Guarantor that are sold on a non-recourse basis determined in accordance with the civil law applicable to such transaction.

(3) This Agreement and all undertakings herein contained constitute a contract for the benefit of the Holders from time to time as third-party beneficiaries pursuant to § 328 (1) of the German Civil Code. They give rise to the right of each such Holder to require performance of the obligations undertaken herein directly from the Guarantor and to enforce such obligations directly against the Guarantor.

(4) Citibank Europe plc does not act as fiduciary or in any similar capacity for the Holders.

Garantie
und
Negativverpflichtung
der
DEUTSCHE TELEKOM AG
Bonn, Bundesrepublik Deutschland,
zugunsten der Gläubiger von Schuldverschreibungen (die "**Schuldverschreibungen**"),
die von der
Deutsche Telekom International Finance B.V.
(einer mit beschränkter Haftung in den Niederlanden errichteten Gesellschaft)
im Rahmen des Debt Issuance Programme (das "**Programm**")
in seiner jeweils geltenden Fassung begeben werden.

IM HINBLICK DARAUF DASS:

(A) Deutsche Telekom AG (die "**Garantin**") und Deutsche Telekom International Finance B.V. ("**Finance**") beabsichtigt, von Zeit zu Zeit Schuldverschreibungen im Rahmen des Programms zu begeben;

(B) die Garantin die Zahlung von Kapital und Zinsen sowie von allen sonstigen Beträgen, die aufgrund der von Finance im Rahmen des Programms begebenen Schuldverschreibungen zu leisten sind, garantieren möchte;

(C) die Garantin gegenüber jedem Gläubiger der von Finance im Rahmen des Programms begebenen Schuldverschreibungen eine Negativverpflichtung eingehen möchte;

WIRD FOLGENDES VEREINBART:

- (1) (a) Die Garantin übernimmt gegenüber jedem Gläubiger ("**Gläubiger**") der Schuldverschreibungen (wobei dieser Begriff jede vorläufige oder Dauerglobalurkunde, die Schuldverschreibungen verbrieft, einschließt), die jetzt oder zu irgendeinem Zeitpunkt nach dem Datum dieser Garantie von Finance im Rahmen des Programms begeben werden, die unbedingte und unwiderrufliche Garantie für die ordnungsgemäße und pünktliche Zahlung von Kapital und Zinsen auf die Schuldverschreibungen sowie von allen sonstigen Beträgen, die gemäß den Anleihebedingungen auf Schuldverschreibungen zahlbar sind, bei deren Fälligkeit gemäß den Anleihebedingungen.
- (b) Diese Garantie begründet eine unbedingte, unbesicherte und nicht nachrangige Verbindlichkeit der Garantin, die mit allen anderen jeweils bestehenden, nicht besicherten und nicht nachrangigen Verbindlichkeiten der Garantin gleichrangig ist.
- (c) Sämtliche Zahlungen aufgrund dieser Garantie sind ohne Abzug oder Einbehalt wegen gegenwärtiger oder zukünftiger Steuern, Abgaben oder amtlicher Gebühren gleich welcher Art zu leisten, die von oder in der Bundesrepublik Deutschland oder für deren Rechnung oder von oder für Rechnung einer dort zur Steuererhebung ermächtigten Gebietskörperschaft oder Behörde auferlegt, erhoben oder eingezogen werden (nachstehend zusammen "**Quellensteuern**" genannt), es sei denn, ein solcher Abzug oder Einbehalt ist gesetzlich vorgeschrieben. In diesem letzteren Fall wird die Garantin die zusätzlichen Beträge zahlen, die erforderlich sind, damit der dem Gläubiger nach diesem Abzug oder Einbehalt zufließende Nettobetrag jeweils den Beträgen an Kapital und Zinsen entspricht, die ihm zustehen würden, wenn der Abzug oder Einbehalt nicht erforderlich wäre. Solche zusätzlichen Beträge sind jedoch nicht zahlbar wegen Steuern, Abgaben oder amtlicher Gebühren, die
- (i) von einer als Depotbank oder Inkassobeauftragter des Gläubigers handelnden Person oder sonst auf andere Weise zu entrichten sind als dadurch, dass die Garantin aus den von ihr zu leistenden Zahlungen einen Abzug oder Einbehalt vornimmt; oder

- (ii) wegen gegenwärtiger oder früherer persönlicher oder geschäftlicher Beziehungen des Gläubigers zu der Bundesrepublik Deutschland zu zahlen sind, und nicht allein deshalb, weil Zahlungen auf die Schuldverschreibungen aus Quellen in der Bundesrepublik Deutschland stammen (oder für Zwecke der Besteuerung so behandelt werden) oder dort besichert sind; oder
 - (iii) aufgrund (x) einer Richtlinie oder Verordnung der Europäischen Union betreffend die Besteuerung von Zinserträgen oder (y) einer zwischenstaatlichen Vereinbarung über deren Besteuerung, an der die Bundesrepublik Deutschland oder die Europäische Union beteiligt ist, oder (z) einer gesetzlichen Vorschrift, die diese Richtlinie, Verordnung oder Vereinbarung umsetzt oder befolgt, abzuziehen oder einzubehalten sind; oder
 - (iv) aufgrund einer Rechtsänderung zahlbar sind, die später als 30 Tage nach Fälligkeit der betreffenden Zahlung von Kapital oder Zinsen oder, wenn dies später erfolgt, ordnungsgemäßer Bereitstellung aller fälligen Beträge und einer diesbezüglichen Bekanntmachung gemäß den Anleihebedingungen wirksam wird.
- (d) Die Verpflichtungen der Garantin aus dieser Garantie (i) sind selbständig und unabhängig von den Verpflichtungen der Finance aus den Schuldverschreibungen (ii) bestehen unabhängig von der Rechtmäßigkeit, Gültigkeit, Verbindlichkeit und Durchsetzbarkeit der Schuldverschreibungen und (iii) werden nicht durch Ereignisse, Bedingungen oder Umstände tatsächlicher oder rechtlicher Art berührt, außer durch die vollständige, endgültige und unwiderrufliche Erfüllung sämtlicher in den Schuldverschreibungen eingegangenen Zahlungsverpflichtungen.
- (e) Die Verpflichtungen der Garantin aus dieser Garantie erstrecken sich, ohne dass eine weitere Handlung vorgenommen wird oder ein weiterer Umstand eintreten muss, auf die Verpflichtungen einer nicht mit der Garantin identischen Nachfolgeschuldnerin, die infolge einer Schuldnerersetzung gemäß den Anleihebedingungen in Bezug auf die Schuldverschreibungen entstehen.
- (f) Diese Garantie erstreckt sich auf sämtliche Schuldverschreibungen, die am oder nach dem Datum dieser Garantie von Finance unter dem Programm begeben werden. Die Garantie mit Datum vom 31. Oktober 1997 gilt für sämtliche Schuldverschreibungen, die von Finance in der Zeit vom 31. Oktober 1997 bis zum 9. November 1999 begeben worden sind. Die Garantie mit Datum vom 10. November 1999 gilt für sämtliche Schuldverschreibungen, die von Finance in der Zeit vom 10. November 1999 bis zum 5. Juni 2001 begeben worden sind. Die Garantie mit Datum vom 6. Juni 2001 gilt für sämtliche Schuldverschreibungen, die von Finance am oder nach dem 6. Juni 2001 und vor dem Datum dieser Garantie begeben worden sind. Die Garantie mit Datum vom 1. September 2005 gilt für sämtliche Schuldverschreibungen, die von Finance am oder nach dem 1. September 2005 und vor dem Datum dieser Garantie begeben worden sind. Die Garantie mit Datum vom 30. April 2014 gilt für sämtliche Schuldverschreibungen, die von Finance am oder nach dem 30. April 2014 und vor dem Datum dieser Garantie begeben worden sind. Die Garantie mit Datum vom 26. April 2017 gilt für sämtliche Schuldverschreibungen, die von Finance am oder nach dem 26. April 2017 und vor dem Datum dieser Garantie begeben worden sind.

(2) Die Garantin verpflichtet sich gegenüber jedem Gläubiger, solange Schuldverschreibungen ausstehen, jedoch nur bis zu dem Zeitpunkt, an dem alle Beträge an Kapital und Zinsen dem Fiscal Agent zur Verfügung gestellt worden sind, weder ihr gegenwärtiges noch ihr zukünftiges Vermögen ganz oder teilweise in irgendeiner Weise zur Besicherung einer gegenwärtigen oder zukünftigen Kapitalmarktverbindlichkeit, die von der Garantin oder einer anderen Person eingegangen oder gewährleistet ist, zu belasten oder eine solche Belastung zu diesem Zweck bestehen zu lassen, ohne gleichzeitig die Gläubiger an derselben Sicherheit im gleichen Rang und gleichem Verhältnis teilnehmen zu lassen. "**Kapitalmarktverbindlichkeit**" ist jede Verbindlichkeit zur Zahlung aufgenommener Gelder, die durch Schuldscheine verbrieft, verkörpert oder dokumentiert ist oder durch Schuldverschreibungen oder sonstige Wertpapiere, die an einer Börse oder an einem anderen anerkannten Wertpapiermarkt notiert oder gehandelt werden oder werden können. Um etwaige Zweifel bezüglich von asset-backed financings der Garantin zu vermeiden, schließt das in diesem Absatz (2) benutzte Wort "*Vermögen*" nicht solche Vermögensgegenstände der Garantin ein, die nach dem jeweils auf die Transaktion anwendbaren Zivilrecht ohne Rückgriffsmöglichkeiten veräußert sind.

(3) Dieser Vertrag und alle darin enthaltenen Vereinbarungen stellen einen Vertrag zugunsten der Gläubiger als begünstigte Dritte gemäß § 328 Absatz 1 BGB dar. Sie begründen das Recht eines jeden Gläubigers, die

Erfüllung der hierin eingegangenen Verpflichtungen unmittelbar von der Garantin zu fordern und diese Verpflichtungen unmittelbar gegenüber der Garantin durchzusetzen.

(4) Die Citibank Europe plc handelt nicht als Treuhänder oder in einer ähnlichen Eigenschaft für die Gläubiger.

(5) Die in diesem Vertrag verwendeten und darin nicht anders definierten Begriffe haben die ihnen in den Anleihebedingungen zugewiesene Bedeutung.

(6) Dieser Vertrag unterliegt deutschem Recht.

(7) Dieser Vertrag ist in englischer Sprache abgefasst und ihm ist eine unverbindliche Übersetzung in die deutsche Sprache beigefügt.

(8) Das Original dieses Vertrages wird der Citibank Europe plc ausgehändigt und von dieser verwahrt.

(9) Gerichtsstand für alle Rechtsstreitigkeiten aus oder im Zusammenhang mit diesem Vertrag ist Frankfurt am Main. Jeder Gläubiger kann seine Ansprüche jedoch auch vor jedem anderen zuständigen Gericht geltend machen.

(10) Jeder Gläubiger kann in jedem Rechtsstreit gegen die Garantin und in jedem Rechtsstreit, in dem er und die Garantin Partei sind, seine Rechte aus diesem Vertrag auf der Grundlage einer von einer vertretungsberechtigten Person der Citibank Europe plc beglaubigten Kopie dieses Vertrages ohne Vorlage des Originals im eigenen Namen wahrnehmen und durchsetzen.

THE TAX LEGISLATION OF THE STATE OF RESIDENCE OF A POTENTIAL INVESTOR IN THE NOTES OR OF A JURISDICTION WHERE A POTENTIAL INVESTOR IS SUBJECT TO TAXATION AND THE TAX LEGISLATION OF THE ISSUER'S AND/OR THE GUARANTOR'S COUNTRY OF INCORPORATION OR COUNTRY OF RESIDENCE MAY HAVE AN IMPACT ON THE INCOME RECEIVED FROM ANY NOTES.

General Information

General

The relevant Final Terms will specify which clearing system or systems (including CBF, CBL and Euroclear) has/have accepted the relevant Notes for clearance and provide any further appropriate information.

Interest of Natural and Legal Persons involved in the issue of Notes

Certain of the Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for, one or both of the Issuers and their affiliates in the ordinary course of business. In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuers or the Issuers' affiliates. Certain of the Dealers or their affiliates that have a lending relationship with either of the Issuers routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Programme. Any such short positions could adversely affect future trading prices of Notes issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Selling Restrictions

1. General

Each Dealer has agreed that it will comply with all applicable securities laws and regulations in force in any jurisdiction in which it purchases, offers, sells or delivers Notes or possesses or distributes this Prospectus and will obtain any consent, approval or permission required by it for the purchase, offer, sale or delivery by it of Notes under the laws and regulations in force in any jurisdiction to which it is subject or in which it makes such purchases, offers, sales or deliveries and neither the Issuer nor the Guarantor (if Finance is the Issuer) and any other Dealer shall have any responsibility therefor.

Neither the Issuer nor the Guarantor (if Finance is the Issuer) and any of the Dealers has represented that Notes may at any time lawfully be sold in compliance with any applicable registration or other requirements in any jurisdiction, or pursuant to any exemption available thereunder, or assumes any responsibility for facilitating such sale.

2. United States of America

- (a) The Notes have not been and will not be registered under the Securities Act, and may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act. Each Dealer has represented and agreed that it has not offered or sold, and will not offer or sell, any Note as part of its allotment within the United States except in accordance with Rule 903 of Regulation S under the Securities Act. Accordingly, each Dealer has further represented and agreed that neither it, its affiliates nor any persons acting on its or their behalf have engaged or will engage in any directed selling efforts with respect to a Note.
- (b) From and after the time that the Issuer notifies the Dealers in writing that it is no longer able to make the representation set forth in Article 4 (1)(15)(i) of the Dealer Agreement, each Dealer (i) has acknowledged that the Notes have not been and will not be registered under the Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of U.S. persons except in accordance with Regulation S under the Securities Act or pursuant to an exemption from the registration requirements of the Securities Act; (ii) has represented and agreed that it has not offered and sold any Notes, and will not offer and sell any Notes, (x) as part of its distribution at any time and (y) otherwise until 40 days after the later of the commencement of the offering and closing date only in accordance with Rule 903 of Regulation S under the Securities Act; and (iii) accordingly has further represented and agreed that neither it, its affiliates nor any persons acting on its or their behalf have engaged or will engage in any directed selling efforts with respect to any Note, and it and they have complied and will comply with the offering restrictions requirements of Regulation S; and (iv) has also agreed that at or prior to confirmation of any sale of Notes, it will have sent to each distributor, dealer or person receiving a selling concession, fee or other remuneration that purchases Notes from it during the distribution compliance period a confirmation or notice to substantially the following effect:

"The Securities covered hereby have not been registered under the U.S. Securities Act of 1933 (the "**Securities Act**") and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons by any person referred to in Rule 903 (b) (2) (iii) (i) as part of its distribution at any time or (ii) otherwise until 40 days after the later of the commencement of the offering and the closing date except in either case in accordance with Regulation S under the Securities Act. Terms used above have the meanings given to them by Regulation S."

Terms used in the above paragraph have the meanings given to them by Regulation S.

- (a) Each Dealer has represented and agreed that it has not entered and will not enter into any contractual arrangement with respect to the distribution or delivery of Notes, except with its affiliates or with the prior written consent of the Issuer.
- (b) Notes will be issued in accordance with the provisions of United States Treasury Regulation Section 1.163-5(c)(2)(i)(D) (the "**D Rules**") (or any successor rules in substantially the same form as the D Rules for purposes of Section 4701 of the U.S. Internal Revenue Code) as specified in the applicable Final Terms. In addition, each Dealer has represented and agreed that:
 - (i) except to the extent permitted under the D Rules, (x) it has not offered or sold, and during the restricted period will not offer or sell, Notes to a person who is within the United States or its possessions or to a United States person, and (y) such Dealer has not delivered and will not deliver within the United States or its possessions Notes that are sold during the restricted period;
 - (ii) it has and throughout the restricted period will have in effect procedures reasonably designed to ensure that its employees or agents who are directly engaged in selling Notes are aware that such Notes may not be offered or sold during the restricted period to a person who is within the United States or its possessions or to a United States person, except as permitted by the D Rules;
 - (iii) if such Dealer is a United States person, it has represented that it is acquiring the Notes for purposes of resale in connection with their original issuance and if such Dealer retains Notes for its own account, it will only do so in accordance with the requirements of the D Rules; and
 - (iv) with respect to each affiliate that acquires from such Dealer Notes in bearer form for the purposes of offering or selling such Notes during the restricted period, such Dealer either (x) has repeated and confirmed the representations and the agreements contained in sub-clauses (i), (ii) and (iii) on such affiliate's behalf or (y) has agreed that it will obtain from such affiliate for the benefit of the Issuer the agreements contained in sub-clauses (i), (ii) and (iii).

Terms used in this paragraph (b) have the meanings given to them by the U.S. Internal Revenue Code and regulations thereunder, including the D Rules.

3. EEA

Unless the Final Terms in respect of any Notes specify the "*Prohibition of Sales to EEA Retail Investors*" as "*Not applicable*", each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Prospectus as completed by the Final Terms in relation thereto to any retail investor in the EEA. For the purposes of this provision:

- (a) the term "**retail investor**" means a person who is one (or more) of the following:
 - (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or
 - (ii) a customer within the meaning of the IDD, where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or

- (b) the term an "**offer**" includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes.

If the Final Terms in respect of any Notes specify "*Prohibition of Sales to EEA Retail Investors*" as "*Not applicable*", each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, in relation to each Member State of the EEA (each, a "**Relevant State**") that it has not made and will not make an offer of Notes which are the subject of the offering

contemplated by this Prospectus as completed by the Final Terms in relation thereto to the public in that Relevant State except that it may make an offer of such Notes to the public in that Relevant State:

- (a) if the Final Terms in relation to the Notes specify an offer of those Notes other than pursuant to Article 1 (4) of the Prospectus Regulation in that Relevant State (a "**Non-exempt Offer**"), following the date of publication of a prospectus in relation to such Notes which has been approved by the competent authority in that Relevant State or, where appropriate, approved in another Relevant State and notified to the competent authority in that Relevant State, provided that any such prospectus has subsequently been completed by the Final Terms contemplating such Non-exempt Offer, in accordance with the Prospectus Regulation, in the period beginning and ending on the dates specified in such prospectus or Final Terms, as applicable and the Issuer has consented in writing to its use for the purpose of that Non-exempt Offer;
- (b) at any time to any legal entity which is a qualified investor as defined in the Prospectus Regulation;
- (c) at any time to fewer than 150, natural or legal persons (other than qualified investors as defined in the Prospectus Regulation) subject to obtaining the prior consent of the relevant Dealer(s) nominated by the Issuer for any such offer; or
- (d) at any time in any other circumstances falling within Article 1 (4) of the Prospectus Regulation,

provided that no such offer of Notes referred to in (b) to (d) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

For the purposes of this provision, the expression an "**offer of Notes to the public**" in relation to any Notes in any Relevant State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes.

4. United Kingdom

Prohibition of Sales to UK Retail Investors

Unless the Final Terms in respect of any Notes specify the "*Prohibition of Sales to UK Retail Investors*" as "*Not applicable*", each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Prospectus as completed by the Final Terms in relation thereto to any retail investor in the UK. For the purposes of this provision:

- (a) the expression "**retail investor**" means a person who is one (or more) of the following:

- (b) the expression an "**offer**" includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes.

If the relevant Final Terms in respect of any Notes specify "*Prohibition of Sales to UK Retail Investors*" as "*Not applicable*", each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Prospectus as completed by the final terms in relation thereto to the public in the United Kingdom except that it may make an offer of such Notes to the public in the United Kingdom:

- (a) if the final terms in relation to the Notes specify that an offer of those Notes may be made other than pursuant to section 86 of the FSMA (a "**Public Offer**"), following the date of publication of a prospectus in relation to such Notes which either (i) has been approved by the Financial Conduct Authority, or (ii) is to be treated as if it had been approved by the Financial Conduct Authority in accordance with the

transitional provision in Regulation 74 of the Prospectus (Amendment etc.) (EU Exit) Regulations 2019, provided that any such prospectus has subsequently been completed by final terms contemplating such Public Offer, in the period beginning and ending on the dates specified in such prospectus or final terms, as applicable, and the Issuer has consented in writing to its use for the purpose of that Public Offer;

- (b) at any time to any legal entity which is a qualified investor as defined in the Prospectus Regulation as it forms part of domestic law by virtue of the EUWA;
- (c) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Regulation as it forms part of domestic law by virtue of the EUWA) in the United Kingdom subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (d) at any time in any other circumstances falling within section 86 of the FSMA,

provided that no such offer of Notes referred to in (b) to (d) above shall require the Issuer or any Dealer to publish a prospectus pursuant to section 85 of the FSMA or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation as it forms part of domestic law by virtue of the EUWA.

For the purposes of this provision, the expression "**offer of Notes to the public**" in relation to any Notes means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe for the Notes.
