- The 2001 Radio Communications Law.

## **Belgium**

### ***Overview***

Under Belgian law, telecommunications and broadcasting activities are regulated separately. Telecommunications include telephony and Internet and are regulated by the Federal Electronic Communications Act of June 13, 2005 (ECA). Television and radio broadcasting is regulated by decrees at community level (Decree of the Flemish Community of March 27, 2009; Coordinated Decree of the French Community of March 26, 2009; Decree of the German Community of June 27, 2005; and the Act of March 30, 1995 of the Federal State for broadcasting activities in the Brussels Capital region that due to their content cannot be linked exclusively to the Flemish Community, nor to the French Community).

The sector is also regulated by decisions, resolutions and recommendations of BIPT (the federal postal and telecommunication services regulator) for telecommunications, as well as of radio and television regulatory authorities at community level. In addition, network infrastructure can be subject to local planning and other regulations issued by municipalities.

Specific requirements can also be imposed on entities that are deemed, by the BIPT and/or radio and television regulatory authorities, to have a significant power in relevant markets that are not sufficiently competitive, including non discrimination and transparency obligations with respect to access, accounting, and price (Numericable has notably been recognized as an operator with significant market power on the Brussels retail market for the distribution of television and radio services by cable).

### ***Market Practices***

Joint offers, e.g. of telephony services, Internet services and television services, are allowed under Belgian law, provided that such offers comply with EU and national competition legislations and that they do not constitute an unfair trade market practice prohibited by the Act of April 6, 2010 on Market Practices and Consumer Protection.

Network operators must also comply with all applicable consumer protection provisions set forth in this act, as well as, where applicable, other legislation, namely the Act of May 15, 2007 on the Protection of Consumers in respect of Radio Transmission Services and Radio Distribution.

### ***Prior Notification***

Under the ECA, companies must notify to the BIPT electronic communications services and/or networks that they intend to provide as well as any change thereto.

### ***Telephony Regulation***

The ECA mandates that a minimum set of “universal services” be offered to all end users, independently of their geographical location, at an affordable price and at a specified quality level, and contains, in addition to applicable general privacy protection regulations, several provisions that address privacy protection in the electronic communications sector, including, notably, the processing and use of traffic and location data, the confidentiality of communications, as well as the subscribers’ rights with respect to telephone directories. The BIPT may issue specific regulations with respect to, e.g. the allocation of numbers and radio frequencies.

### ***Internet Regulation***

In addition to the provisions of the ECA, activities of Internet service providers are also subject to the Acts of March 11, 2003 on certain Legal Aspects of Information Society Services that provide that Internet service providers may not be held liable for information transmitted over an electronic communications network, subject however to certain conditions and exceptions.

### ***Broadcasting Regulation***

The provision of radio and television broadcasting services are subject to prior notification to the relevant regulatory authority, i.e. the VRM, CSA and, BIPT for the Flemish Community, French Community and the Brussels Capital Region respectively. Pursuant to the Flemish and French Broadcasting Decrees as well as the Act regulating broadcasting activities in the Brussels Capital, network operators must also comply with must carry obligations, which requires them to distribute specific radio stations and television channels in their respective communities. The same legislative acts also provide, in the relevant territorial areas, for a right of way for what concerns cable networks.

The Act of January 22, 1945 on economic regulation and pricing and the Ministerial Decree of April 20, 1993 regarding special regulation on prices impose on television services distributors the Minister of Economy’s prior consent for any price increase of their basic package.

Pursuant to the Act of June 30, 1994 on Authors’ Rights and Neighboring Rights, cable companies must receive approval from the holders of the relevant author and related rights to distribute radio and television signals embedding protected works over their cable. A collective author society has initiated a law suit before a Brussels court to have Internet service providers subject to the same regime.

## **Dominican Republic**

### ***Overview***

The legal framework of the telecommunications sector in the Dominican Republic is set forth by General Telecommunications Law 153-98 of May 27, 1998 (“Law 153-98”), resolutions issued by the telecommunications regulator on the grounds of Law 153-98 and various decrees of the Executive Power on matters related to the National Plan of Attribution of Frequencies (“PNAF”).

The Constitution of the Dominican Republic guarantees the freedom of enterprise, trade and industry among other individual and social rights, in addition to the industry-specific legal framework. The Constitution specifically sets forth that monopolies shall not be permitted except in favor of the Dominican State and must be created by law. The Dominican Constitution provides that the secrecy of the communication telegraphic, telephonic, cable graphic, electronic, telematics or established by another mean, shall not be breached, except by an order of a judge or competent authority, in accordance with the law. Also, the Dominican Constitution guarantees public services of radio, television, library and information networks, to allow universal access to the information.

### ***General Telecommunications Law 153-98***

Law 153-98 classifies telecommunications services as follows:

- a) Carrier services: provide the necessary capacity to transport signals between two points of termination of a defined network;
- b) Final services or teleservices: provide the complete capacity that makes communication possible among users (e.g. telephone, telex, telegraphic);
- c) Value added services: work as support carrier services, adding some characteristic or facility to the service that is being used on the ground (e.g. Internet/intranet systems, voice mail, SMS, electronic mail, digital transmission of information in general);
- d) Broadcasting services: telecommunication services in which the communication takes place normally one way to various points of reception simultaneously (e.g. radio and television).

Law 153-98 provides a basic framework to regulate the installation, maintenance and operation of telecommunications networks and the rendering of telecommunications services. Law 153-98 reaffirms the “Universal Service Principle” by guaranteeing access to telecommunications services at affordable prices in low income rural and urban areas. Law 153-98 created the “Contribution to the Development of Telecommunications” (“CDT”) consisting of a 2% tax fund for the development of the telecommunications sector that is payable by customers and collected by telecommunications providers from customers based on billings to customers for telecommunications services.

According to Law 153-98 the Instituto Dominicano de las Telecomunicaciones (“Indotel”) is the regulatory body created as a decentralized state entity, with operational, jurisdictional, and financial autonomy, with its own patrimony and legal personality, responsible for guaranteeing the existence of sustainable, fair, and effective competition in the rendering of public telecommunications services as well as ensuring the efficient use of the public domain of the radio-electric spectrum.

Law 153-98 sets forth the responsibilities, authorities and procedures of the regulator. Indotel is made up of a Board of Directors and an Executive Director. The Board of Directors is the maximum authority of Indotel, composed of five (5) members designated by the Executive Power.

Among other management powers, Indotel administers the entrance and participation of the telecommunications service providers in the Dominican telecommunications market, and has various functions including (i) granting, expanding and revoking concessions and licenses under the conditions provided for by the laws in force, allowing the entrance of new providers of telecommunications services; (ii) managing and administering the spectrum- orbit resources, including the management of the orbital portions of the telecommunications satellites with their respective bands of frequencies, as well as the satellite orbits for Dominican satellites which may exist and coordinating their use and operation with international entities and organisms and with other countries; (iii) controlling the compliance with obligations of the concessionaires of public telecommunications services and of the users of the radio-electric spectrum, protecting the right of defense of the parties in its actions.

Law 153-98 promotes competition in all telecommunications services by enforcing the right to interconnect with existing participants and ensuring against monopolistic practices, and at the same time upholding those concessions that are operational. Law 153-98 provides that the regulator shall ensure charges are not discriminatory strengthening effective and sustainable competition. In case of disagreement between the parties, the regulator shall intervene in the establishment of the same by means of a motivated resolution, taking as parameters the costs, including a reasonable remuneration for the investment, calculated according to the “Regulation of tariffs and costs of the services”.

In accordance with Law 153-98 a concession granted by Indotel is required for providing public Telecommunications services to third parties, with the exceptions set forth in Law 153-98. The authorization process is governed by “Regulations governing on Concessions, Inscriptions in the Special Registries and Licenses to provide Telecommunications Services in the Dominican Republic” contained in Resolution No. 007-02, issued by the Board of Directors of Indotel (as amended by Resolution No. 129-04) (“Resolution 007- 02”).

Pursuant to Law 153-98 a license granted by Indotel shall be required for the use of the public radio-electric domain, with the exceptions set forth in the corresponding regulations. The authorization process

is governed by Resolution 007-02. When concessions and licenses are required for the rendering of a public telecommunications service, they shall be granted simultaneously.

According to Law No. 153-98 the transfer, assignment, lease or granting of rights of use of any title or the creation of a lien on licenses shall be performed, under penalty of forfeiture, prior authorization of the regulating authority, which authorization may not be denied without justified cause. The acquirer shall meet all the conditions imposed on the grantor and shall be ruled by the same obligations as the concessionaire or licensee.

Law No. 153-98 constitutes the ratifying instrument of the Fourth Protocol attached to the General Agreement on Commerce of Services (GATS) concerning negotiations on basic telecommunications of the World Trade Organization (WTO), for liberalization of telecommunication services. Law No. 153-98 provides the corresponding regulatory framework to comply with the liberalization commitments undertaken pursuant to said agreement and to guarantee the efficient provision of telecommunications services.

Law 153-98 combined with technological advances and the sustained growth of private investment promotes the development of the telecommunications sector in the Dominican Republic.

### ***Certain Relevant Resolutions of Indotel***

On the grounds of Law 153-98 Indotel issued various resolutions. Some of the said relevant resolutions regulating certain areas of telecommunications in the Dominican Republic are as follows:

- Resolution 110-12 dated August 9, 2012, by means of which Indotel's Board of Directors approved the General Regulation for Telephone Services. The principal purpose of this Regulation is to set forth a regulatory framework governing relations between the public telephone service providers and their customers and users, in all its forms (postpaid or prepaid), regardless of the technology used to provide the service, in order to guarantee the rights of each party explicitly maintaining their respective obligations.

This regulation will apply to all relations between users and telephone service providers. After a public consultation process, by Resolution 003- 13, dated January 22, 2013, Indotel's Board of Directors approved the modification of Articles 1, 3, 6, 12, 14.2, 14.4, 15, 18.10 to 18.13, 21, 24.1 letter i), 25.3 and 32 of the General Regulation for Telephone Service.

The above-mentioned regulation sets forth user's basics rights, including: a) access to telephone services in terms of continuity, generality, equality, neutrality, transparency and quality, in accordance with the principles of the Telecommunications General Law No. 153-98; b) Right to choose their service provider; c) Right to have a phone number and numeric portability; d) Right to sign a contract in accordance with terms, conditions and rights set forth in this regulation; e) Right to cancel the service in accordance with the procedure indicated in this regulation.

This regulation considers as "abusive clauses" those (i) imposing conditions to the users that affect their interests and rights, and those that are in disproportion, or contrary to the laws, regulations and standards. According to Article 14.2, abusive clauses on contracts will be unenforceable. Indotel shall require the amendment of abusive clauses to a reasonable standard. If telecommunications service providers do not amend the contract in such term, Indotel may impose the amendment.

- Resolution No. 64-11 dated July 27, 2011 approved the bill of the National Frequency Allocation Plan (PNAF) drafted by Indotel to be submitted to the Executive Power for its final approval. Decree 520-11 dated August 25, 2011 issued by the Executive Power approved the new PNAF and repealed Decree of the Executive Power No. 518-02 dated July 5, 2002. The new PNAF approved by Decree 520-11 seeks to optimize and rationalize the use of the radio-electric spectrum to efficiently satisfy present and future frequency needs with regard to all systems, equipment and devices that send or receive radio-electric waves within the national territory. According to the PNAF, migration of services shall not restrain the correct functioning of services provided. Indotel is in charge of deciding, applying and resolving all matters arising in connection with the frequencies allocation and migration.

- Resolution No. 156-06 dated August 30, 2006, issued by the Board of Directors of Indotel, that approves the General Regulation related to Numeric Portability, among other resolutions issued by the Board of Directors of Indotel related to numeric portability.
- Resolution No. 022-05 that approves Regulation on Free and Fair Competition for the Telecommunications Sector provides that Indotel will review, authorize, object or condition the operations related to economic concentration which must be previously informed pursuant to said Regulation, in order to comply with the purposes of Law 153-98. Indotel will also investigate and impose sanction in the cases where the information obligation of the mentioned operations is not complied with.
- Resolution No. 022-05 defines economic concentration in the telecommunications sector as a juridical transaction by means of which the structure of direct or indirect control, total or partial, of one or more providers of public telecommunications services is modified permanently and stably, for the benefit of persons that control other providers of public telecommunications services, whenever such transaction has the potential to modify the structure and functioning of the markets in the telecommunications sector in accordance with the purposes set forth in article 3 of Law No. 153-98.

The providers of public telecommunications services, as well as any other persons subject to said Regulation must previously inform Indotel of all those operations that could result in an economic concentration in the telecommunications sector in the terms therein defined, in order to previously obtain the authorization of Indotel to do so.

In addition to the obligations set forth in Resolution 007-02, related to requirements for the authorization to transfer the rights or permits, the assessment to determine if there is any economic concentration in the telecommunications sector, will be based in its restrictive, predictable and verified effects, mainly considering certain circumstances set forth in Resolution No. 022-05.

The failure to inform and/or apply for an authorization prior to an economic concentration operation in the telecommunications sector constitutes an infringement of Resolution No. 022-05 that will result in the sanctions set forth therein.

Application for an authorization related to economic concentration must be filed pursuant to the provisions set forth in Chapter VIII of Resolution 007-02, before the Executive Director of Indotel.

- Resolution No. 160-05 dated October 13, 2005 that approves the Regulation concerning Cable Broadcasts and Other Measures, including “Must Carry” provisions.
- Resolution No. 038-11 dated May 12, 2011 that amends the General Ruling concerning Interconnection.
- Resolution No. 025-10 dated March 2, 2010, that approves the Ruling concerning Resolution of Controversies between the Telecommunications Services Providers.
- Resolution No. 151-04 that approves the Regulation concerning the Installation and Use of Common Telecommunications Infrastructures in Properties of Joint Ownership.
- Resolution No. 128-04 that approves the General Regulation concerning the Use of the Radio-Electric Spectrum.
- Resolution No. 120-04 that approves the Regulation concerning Television Broadcasting Service.
- Resolution No. 093-02 dated November 14, 2002, that amends several Articles of Resolution No. 045-02 that approved the Regulation concerning Sound Broadcasting Frequency Modulation (FM).
- Resolution No. 046-02 dated July 20, 2002, that approves the Regulation concerning Sound Broadcasting Amplitude Modulation (AM).

### ***Trademark/Copyright Laws***

From a technical standpoint, broadcasting services are essentially regulated by Law 153-98 and the regulations approved by the regulator. Now then, in connection with the content of the broadcasting services they shall be governed by the provisions of the specific legislation which regulates the social communications media and by the laws that regulate copyrights, whether they are national laws or resulting from international conventions or agreements signed and ratified by the Dominican Republic.

In the Dominican Republic, patents of invention, trademarks, service marks, commercial names, signs, logos, commercial slogans are governed by Industrial Property Law No. 20-00 dated May 8, 2000, modified by Law No.424- 06 for the Implementation of the Free Trade Agreement between the Dominican Republic, Central America and the United States (DR-CAFTA).

Dominican Republic grants copyright protection to original literary, dramatic, musical and artistic works, under the copyright law no. 65-00 dated august 21, 2000, also modified by law no.424-06 for the implementation of the free trade agreement between the Dominican Republic, Central America and the United States Of America (DR-CAFTA).

## MANAGEMENT AND GOVERNANCE

### The Issuer

The Issuer was incorporated as a public limited liability company (*société anonyme*) under the laws of Luxembourg on January 3, 2014 under the name of “Altice S.A.”. The registered office (*siège social*) of the Issuer is at 3, Boulevard Royal, L- 2449 Luxembourg, Grand Duchy of Luxembourg. The Issuer’s telephone number is +352 278 58 901. The Issuer is registered with the Luxembourg Register of Commerce and Companies under number B183391.

### Board of Directors

The members of the board of directors of the Issuer (the “Board”) as of the date hereof are set forth below. The Executive Directors specified below are non-independent members of the Board and, except for Jérémie Bonnin, were all appointed on January 6, 2014. Jérémie Bonnin was appointed as a Director on January 3, 2014. The Non-Executive Directors specified below are the independent members of the Board. Michel Combes was appointed on January 6, 2014 and his term expires at the third annual general meeting following the date of his appointment and Scott Matlock was appointed on January 16, 2014 and his term expires at the third annual general meeting following the date of his appointment. We expect to appoint one additional independent Non-Executive Director to the Board in the second half of 2014.

Name	Age	Position	Independent/ Non-Independent	Term (Years)
Patrick Drahi.....	50	Executive Chairman	Non-Independent	5
Dexter Goei .....	41	Chief Executive Officer	Non-Independent	5
Dennis Okhuijsen .....	43	Chief Financial Officer	Non-Independent	4
Jérémie Bonnin .....	39	General Secretary	Non-Independent	4
Michel Combes.....	51	Non-Executive Director	Independent	3
Scott Matlock.....	48	Non-Executive Director	Independent	3

The business address of each Director is: 3, boulevard Royal, L-2449 Luxembourg.

#### *Patrick Drahi, Executive Chairman*

Patrick Drahi began his professional career with the Philips Group in 1988 where he was in charge of international marketing (UK, Ireland, Scandinavia, Asia) in satellite and cable TV (DTH, CATV, MMDS). In 1991, Patrick joined the US/Scandinavian group Kinnevik-Millisat, where he was in charge of the development of private cable networks in Spain and France and was involved in the launch of commercial TV stations in Eastern Europe. In 1993, Patrick Drahi founded CMA, a consulting firm specialized in telecommunications and media, which was awarded a mandate from BCTV for the implementation of Beijing’s full service cable network. In addition, Patrick founded two cable companies, Sud Câble Services (1994) and MédiaRéseaux (1995), where he was involved in several buy-outs. When MédiaRéseaux was taken over by UPC at the end of 1999, Patrick Drahi advised UPC on its M&A activities until mid-2000. He then started Altice in 2002.

Patrick Drahi graduated from the Ecole Polytechnique and Ecole Nationale Supérieure de Télécommunications de Paris (post graduate degree in Optics and Electronics) in 1986.

#### *Dexter Goei, Chief Executive Officer*

Dexter Goei joined Altice in 2009, after working for 15 years in investment banking. Dexter began his investment banking career with JP Morgan and joined Morgan Stanley in 1999 working in their Media & Communications Group. Over the years, Dexter has worked across all segments of the media industry in the US and EMEA region covering primarily cable, pay TV, broadcasting, Internet, content and gaming companies eventually becoming Co-Head of Morgan Stanley’s European TMT Group.

Dexter is a graduate of Georgetown University’s School of Foreign Service with cum laude honors.

*Dennis Okhuijsen, Chief Financial Officer*

Dennis Okhuijsen joined as the CFO of the Altice Group in September 2012. Before joining Altice, he was the Treasurer for Liberty Global. From 1993-1996, he was a senior accountant at Arthur Andersen. He joined UPC in 1996 where he was responsible for accounting, treasury and investor relations up to 2005 before joining Liberty Global. In his previous capacities, he was also responsible for financial risk management, treasury and operational financing.

Dennis holds a Master of Business Economics from Erasmus University, Rotterdam.

*Jérémie Bonnin, General Secretary*

Jérémie Bonnin joined Altice in May 2005 as Corporate Finance director. Before joining Altice, he was a Manager in the Transaction Services department at KPMG which he joined in 1998. At KPMG, he led several due diligence projects with a significant focus in the telecom area. Since his appointment at Altice, he has been involved in all of Altice's acquisitions which have increased Altice's international footprint (in France, Belgium, Luxembourg, Switzerland, Israel, the French Overseas Territories and the Dominican Republic). He has a long track record of successful cross-border transactions, and in financial management in the telecom sector. As General Secretary, he also focuses on the implementation of consistent operating policies and corporate structure across the Altice Group, where he holds various board positions.

Jeremie received his engineering degree from the Institut d'Informatique d'Entreprise in France in 1998. He also graduated from the DECF in France, equivalent to the CPA.

*Michel Combes, Independent Non-Executive Director*

Michel Combes has been Chief Executive Officer of Alcatel-Lucent since April 2013. He has more than 20 years of experience in the telecommunications sector and a strong international background. Michel was previously Executive Director of the global mobile communications operator Vodafone plc, where he was appointed CEO, Europe Region in October 2008. In addition to his position as CEO of Alcatel-Lucent, Michel is also Chairman of the Supervisory Board of Assystem SA in France and non-executive board member of MTS.

Michel graduated from the Ecole Polytechnique and Ecole Nationale Supérieure des Télécommunications in France.

*Scott Matlock, Independent Non-Executive Director*

Scott Matlock recently retired from Morgan Stanley & Co., where he was an investment banker for 25 years. He was the Global Head of Media and Communications M&A from 2005 to 2008, the Chairman of Asia M&A (including Australia, India and Japan) from 2008 through to 2010, and the Chairman of International M&A from 2010 to 2014. Scott started his career at Morgan Stanley focused on transportation, industrial and technology companies. In 1997, he switched his focus to the media and communications sectors. When he moved to London in 2002, he became the Head of European Media Coverage and then the Co-Head of European Media and Communications Coverage for the firm. Scott was responsible for some of Morgan Stanley's most important clients and transactions in the media and communication sectors. Sectors on which he has been particularly focused have included cable, mobile/cellular, satellite and broadcast.

Scott graduated from the University of California, Berkeley in 1988.

***Senior Management***

In addition to the executive members of our Board, our senior management includes:

*Max Aaron, Company Secretary and General Counsel*

Max Aaron became General Counsel of Altice in September 2013 and was appointed Company Secretary on January 13, 2014. Prior to joining Altice, Max was a partner for over 14 years at Allen & Overy focusing on capital markets and where he was one of the founding members of Allen & Overy's US law practice. Prior to joining Allen & Overy, Max worked at Shearman & Sterling in both their New York and

London Offices. Consistently rated in Europe by the legal directories as one of the top practitioners in his area, Max has done transactions in over 30 countries in a wide variety of industry sectors, including telecoms, media, technology and utilities.

Max received a BA from Brown University and a JD from Boston University School of Law where he was on the Law Review.

*Eric Denoyer, Chairman and Chief Executive Officer, Numericable Group*

Eric Denoyer has been chairman and chief executive officer of the Numericable Group since January 2011. He was general manager of Completel's wholesale division from September 2008 to January 2011 and CEO of Numericable from April 2005 to September 2008.

Eric is a graduate of the Ecole Nationale Supérieure de Télécommunications de Paris (class of 1988) and of the Ecole Polytechnique de Palaiseau (class of 1986).

*Hertzel Ozer, Chairman and Chief Executive Officer, HOT Telecommunication Systems Ltd.*

Hertzel Ozer joined HOT-Telecommunication Systems Ltd. in December 2008. He served as the CEO of HOT and also served as chairman in a number of HOT subsidiaries. In April 2013 Hertzel was nominated Chairman of HOT. Hertzel has previously been employed as CEO of a number of companies in the telecommunication, retail, industry, food and consumers fields including the OSEM group (2004-2008), NESHER—Israel Cement Enterprises (2003- 2004). Between 1997-2003 Hertzel served as VP Marketing, Sales, Customer Care & Business Development of BEZEQ, the Israeli telecommunications company.

Hertzel holds an MBA in Business Administration, and a BA in economics and statistics from the Hebrew University in Jerusalem.

*Jean-Michel Hegesippe, CEO of the French Overseas Territories*

Jean-Michel Hegesippe founded his own company, Infotel, in 1986. Based in the French Overseas Territories, Infotel provided transaction processing services to the banking industry. In 1998, Infotel was awarded telecom licenses by the French regulatory authority to rollout fixed telecommunication networks. From 1998 to 2004, Infotel (renamed Outremer Telecom in 2000) developed fixed-line telephony and DSL services and reached a total turnover of €70 million. From 2004 to 2007, Outremer Telecom rolled out five independent mobile operations in French Guyana, Martinique, Guadeloupe, La Réunion and Mayotte. Today, the company is the only quadruple-play (fixed-line and mobile) alternative player to Orange and Vivendi, and the third mobile operator in the French Overseas Territories.

Jean-Michel is an engineer in computer sciences with a master's degree and a diploma of advanced studies in information technology (Paris VII University).

***Board Committees***

The Board has two committees: the Audit Committee and the Remuneration Committee. The Committees may seek assistance from external experts for the fulfilment of its duties.

*Audit Committee*

The Audit Committee has been established to:

- supervise the activities of the Executive Directors with respect to:
- the operation of the internal risk management and control systems, including supervision of the enforcement of relevant primary and secondary legislation, and supervising the operation of codes of conduct;

- the provision of financial information by the Issuer (including choice of accounting policies, application and assessment of the effects of new rules, information about the handling of estimated items in the financial statements, forecasts, work of internal and external auditors);
- compliance with recommendations and observations of the internal audit function and external auditors;
- the role and functioning of the internal audit function;
- the policy of the Issuer on tax planning;
- relations with the external auditor, including, in particular, its independence and remuneration as well as the performance of any non audit services of the external auditor for the Issuer;
- the financing of the Issuer; and
- the applications of information and communication technology.
- regularly examine the effectiveness of the financial reporting, internal control and risk management system adopted by the Issuer;
- ensure that audits carried out and the subsequent audit reports comply with the audit plan approved by the Board and/or the Audit Committee; and
- present all material findings and recommendations to the Board for consideration.

The Audit Committee presents recommendations and reports on which the Board may base its decisions and actions. However, all members of the Board have the same responsibility for all decisions made, irrespective of whether the issue in question has been reviewed by such a committee or not.

The responsibilities of the audit committee are defined in the Audit Committee Regulations which have been approved by the Board. All decisions by the committee must be taken by unanimous vote.

The Audit Committee regularly evaluates its own effectiveness as a collective body and makes recommendations to the Board for the necessary adjustments in its internal regulations.

The Audit Committee consists of at least two and no more than three non executive members of the Board who are appointed prior to Admission and each of whom are independent. Once a third independent Director is appointed to the Board, such third independent Director is appointed to the Audit Committee thereby increasing the membership of the Audit Committee to three members of the Board. All members of the Audit Committee are independent. The Chairman of the Audit Committee is Michel Combes. The Audit Committee meets as frequently as necessary to ensure effective operation of the Audit Committee; as a minimum at least four times per year.

#### *Remuneration Committee*

The Board of Directors has established the Remuneration Committee to, in particular:

- make recommendations to the Board on the remuneration policy of the Executive Directors;
- prepare the remuneration report that the Board incorporates into the Corporate Governance Statement in the Issuer's Annual Report and to present the remuneration report at the Issuer's annual general meeting;
- meet annually with the CEO of the Board to discuss the functioning and performance of the Executive Directors, with a view to setting the variable remuneration;
- present all material findings and recommendations to the Board for consideration;

- check its operation and efficiency each year and provide the Board with clear regular information about the discharge of its functions. It informs the Board about any areas in which the Remuneration Committee considers action or improvement to be necessary. The Remuneration Committee prepares recommendations concerning the necessary steps to be taken;
- the CEO participates in the meetings of the Remuneration Committee when it deals with the remuneration of members of the executive management (other than the CEO).

The Remuneration Committee consists of two and not more than three Non Executive Directors who are appointed prior to Admission and each of whom are independent. Once a third independent Director is appointed to the Board, such third independent Director is appointed to the Remuneration Committee thereby increasing the membership of the Remuneration Committee to three members of the Board. The members of the Remuneration Committee have the requisite expertise in the area of remuneration policy to fulfil the Remuneration Committee's role effectively. The Remuneration Committee is chaired by an independent Non Executive Director designated by the Board.

## **Conflicts Management Framework**

### ***General Conflicts***

Where a Director has an interest that conflicts with the interests of the Issuer, the Director must report such conflict(s) to the Board and is to be excluded from deliberations and voting on the conflicted matter. If the conflicted Director is Patrick Drahi and Patrick Drahi is appointed as Chairman, the Non Executive Vice Chairman acts as chairman of the meeting and in the event of a tied vote has a casting vote save where the conflict relates to the warrant, the warrant instrument or warrant shares, in which case the Executive Vice Chairman acts as chairman and in the event of a tied vote has a casting vote. The conflict is to be disclosed at the next general meeting and in the next annual accounts of the Issuer.

### ***Conflicts and Related Party Transactions***

The general conflicts procedures under Luxembourg law apply to all related party transactions. The conflicted Directors must not participate in deliberations concerning, and voting with respect to, the conflicted matter. The resulting Board considered the transaction, disclosing to the Audit Committee material conflicts and related party transactions. An independent expert was commissioned to opine to the Issuer that a transaction is entered into under normal market conditions.

If a related party commercial contract is an ordinary course arrangement that is to be entered into under normal market conditions and is the subject of arm's length negotiations then it is not deemed to give rise to a conflict of interest. However, the Issuer has established that, notwithstanding that a commercial contract is entered into under normal market conditions and is the subject of arm's length negotiations, in the event the value of the contract exceeds one per cent. of Group revenue, such contract is subject to a Board approval and the conflicted Director is not entitled to participate in the deliberations or vote on the subject matter. Disclosure to the Audit Committee is required where material.

There are no conflicts of interest between any duties to the Issuer of any member of the Board and their private interests and other duties.

### ***Corporate Opportunities***

For so long as Next L.P. or any other entity controlled by Patrick Drahi owns more than thirty per cent. (30%) in aggregate of the share capital of the Issuer, Patrick Drahi must present all new opportunities that he believes are capable of execution and relating to a relevant opportunity ("Corporate Opportunities") to the Board. Patrick Drahi and any other entity controlled by Patrick Drahi may, but without any obligation to do so, present opportunities other than relevant opportunities to the Board if Patrick Drahi and any such entity or entities think the opportunity is one which is in the interests of the Issuer or the Group and shareholders as a whole. Patrick Drahi and any other entity controlled by Patrick Drahi must be clear as to their intention to pursue the relevant opportunity in personal capacity in the event the Issuer does not pursue the relevant opportunity.

Subject to the application of law relating to directors' conflicts of interest procedures, the full Board considers the Corporate Opportunity having regard to the interests of the Issuer, the group and shareholders as a whole.

If the Board decides against pursuit of the Corporate Opportunity, Patrick Drahi and any other entity controlled by Patrick Drahi is entitled to pursue the Relevant Opportunity in a private capacity.

This obligation on Patrick Drahi and any other entity controlled by Patrick Drahi with respect to the disclosure of Corporate Opportunities terminates upon Next L.P.s shareholding falling below thirty per cent. (30%) of the Issuer's issued Ordinary Share capital.

Patrick Drahi and any other entity controlled by Patrick Drahi are not obliged to present to the Issuer any opportunities and interests relating to assets held by Patrick Drahi and any such entity or entities outside of the group prior to the Issuer's admission and listing on the Euronext in Amsterdam.

## MANAGEMENT OF SFR

### Senior Management

Jean-Yves Charlier serves as Chairman of the Board of Directors and CEO of SFR. He was appointed Chairman and CEO of SFR on August 2, 2013.

SFR's executive committee is composed of the following members:

- Pierre-Alain Allemand, Executive Vice President, Networks, Information Systems, Wholesale
- Frank Cadoret, Executive Vice President, Retail
- Sandrine Dufour, Executive Vice President, Finance and Strategy
- Olivier Henrard, Executive Vice President, Company Secretary
- Jean-Marc Lazzari, Executive Vice President, Business Team
- François Rubichon, Executive Vice President, Human Resources, General Affairs and Organization

### *Biographies of Senior Management:*

**Jean-Yves Charlier**, 51, Belgian, is the Chairman and Chief Executive Officer of SFR. In 1987, he joined the Wang group in France before becoming Vice President of Wang International in 1995. In 1996, he joined the Equant Group, first as President of the Integration Services division, then as President of Global Marketing, Sales and Services. In 2002, he joined the BT group, with responsibility for Europe and Operations within the Global Services division. In 2004, he was appointed CEO of Colt Telecom Group and led the European telecommunications operator's restructuring. He is also familiar with the business of start-ups: from 2007 to 2012, he served as Chief Executive Officer of Promethean, a company that specializes in interactive educational products and media for teachers. In 2008, he joined Vivendi as a member of the group's Supervisory Board and Chairman of its Strategic Committee. In August 2012, he was appointed Senior Executive Vice President in charge of Vivendi's Telecoms Activities. Jean-Yves Charlier holds a Masters of Business Administration (MBA) in strategy and marketing from Wharton Business School.

**Pierre-Alain Allemand**, 41, French, is SFR's Executive Vice President of Networks, Information Systems and Wholesale. A graduate of the Ecole Spéciale des Travaux Publics, Pierre-Alain Allemand began his career working on major industrial projects with Spie, before joining LDCOM in 1999 to help build its long-distance network. He then held various positions within the Operations Division, then the Networks Division, in particular as Head of the Data Business Unit from 2004.

**Frank Cadoret**, 57, French, has been SFR's Executive Vice President of Consumers and Professionals since June 2010. He joined SFR in 1995 as the CEO of subsidiary SCS C2 GSM, before being appointed Head of Sales and then Executive Vice President of Sales and Customer Care and Consumers and Wholesale, making him one of the key players of SFR's early development. A graduate of the ESSCA with a postgraduate degree in Management, he began his career as a management controller, before taking on the roles of Sales Manager of Thomson Electroménager, Sales Manager and Executive Manager of a services company, Chaffoteaux et Mory and Executive Manager of VAG France.

**Sandrine Dufour**, French, has been SFR's Executive Vice President of Finance and Strategy since May 2013. She was previously Vivendi's deputy Chief Financial Officer since May 2004 and Vivendi's Executive Vice President of Innovation since October 2010. She joined Vivendi in 1999. Prior to Vivendi, she was a financial analyst at BNP and at CAI Cheuvreux, specializing in the telecom industry. She is a graduate of ESSEC business school and is a CFA (Chartered Financial Analyst).

**Olivier Henrard**, 48, French, has been SFR's Company Secretary since March 2013. In charge of Regulatory and Legal and Public Affairs, he is also the Secretary of the Board of Directors. He received two degrees in law and political science from Aix-en-Provence University and Sciences-Po Aix. He managed

various cultural departments at the Paris City Hall from 1993 to 1999. He then enrolled in the French National School of Administration. Upon completing these studies, in 2003, he was appointed to France's highest administrative court, the Conseil d'Etat, where he served until 2007 as a judge and a legal advisor to the government.

**Jean-Marc Lazzari**, French, has been SFR's Executive Vice President of the Business Team since July 2013. Until June 2013, he was the Chairman of Logica France. From 1995 to 2005, he was Head of IBM's Human Resources and Benefits and Compensation activities worldwide, then Vice President of the group's Business Consulting Services for the EMEA West region. In 2005, he became Vice President and General Manager of Unisys Europe, before joining Logica France in 2008.

**François Rubichon**, French, has been SFR's Executive Vice President of Human Resources and General Affairs and Organization since September 2013. Previously, he was the Deputy CEO of Aéroports de Paris which manages Paris airports. Since 2012, he acted as Advisor to the CEO of national postal services group, La Poste. In 2002, he became Deputy Head of the Office of the Minister of Equipment, Transport, Housing, Tourism and the Sea. He is a certified senior civil servant and a graduate of both Sciences Po Paris in 1985 and the Ecole Nationale Supérieure des Postes et Télécommunications in 1989.

## **PRINCIPAL SHAREHOLDER**

The Issuer's principal shareholder is Next L.P., which is controlled by Mr. Patrick Drahi. As of the date hereof, Next L.P. holds approximately 73% of the share capital of the Issuer. 25% of the share capital of the Issuer is held by the public following the initial public offering of the Issuer which was completed on February 6, 2014.

Following the consummation of the Transactions, Next L.P. will hold 60.8% of the share capital of the Issuer, while Cinven and Carlyle are expected to become shareholders of the Issuer with shareholdings of 3.3% and 6.8%, respectively. 29.1% of the Issuer's share capital will be held by the public (based on an assumed share price of €35.5, which was the closing price on April 10, 2014).

## **CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS**

During the year ended December 31, 2011, 2012 and 2013 we incurred an aggregate of €3.6 million, €6.2 million and €0.6 million in management fees to related parties. These fees are primarily related to consulting services provided on mergers and acquisitions and negotiations with vendors and banks. In addition, we pay a fee to broadcast the news channel i-24 over our networks. I-24 is majority-held by our principal shareholder, Next L.P. Also, except as disclosed in the notes to the historical consolidated financial statements of the Issuer included in the Offering Memorandum, we did not have any material transactions with related parties during 2011, 2012 and 2013.

## DESCRIPTION OF OTHER INDEBTEDNESS

*The following contains a summary of the terms of our key items of indebtedness. It does not purport to be complete and is subject to, and is qualified in its entirety by reference to, the underlying documents. Capitalized terms not otherwise defined in this section shall, unless the context otherwise requires, have the same meanings set out in the underlying debt documents, as applicable.*

### **Indebtedness of the Altice International Group**

#### ***The 2012 Notes***

On December 12, 2012 and December 20, 2012, Altice Financing issued \$460 million aggregate principal amount of its 7<sup>7</sup>/<sub>8</sub>% senior secured notes due 2019 (the “2012 Dollar Senior Secured Notes”) and €210 million aggregate principal amount of its 8% senior secured notes due 2019 (the “2012 Euro Senior Secured Notes”) and together with the 2012 Dollar Senior Secured Notes, the “2012 Senior Secured Notes”), and Altice Finco issued \$425 million aggregate principal amount of its 9<sup>7</sup>/<sub>8</sub>% senior notes due 2020 (the “2012 Senior Notes”), and together with the 2012 Senior Secured Notes, the “2012 Notes”).

#### ***The 2012 Senior Secured Notes***

The 2012 Senior Secured Notes mature on December 15, 2019. Interest on the 2012 Senior Secured Notes is payable semi-annually in cash in arrears on each June 15 and December 15, commencing June 15, 2013.

The 2012 Senior Secured Notes are general obligations of Altice Financing and (i) rank *pari passu* in right of payment with any future indebtedness of Altice Financing that is not subordinated in right of payment to the 2012 Senior Secured Notes, (ii) rank senior in right of payment to any future indebtedness of Altice Financing that is expressly subordinated in right of payment to the 2012 Senior Secured Notes, and (iii) are effectively subordinated to any future indebtedness of Altice Financing that is secured by property or assets that do not secure the 2012 Senior Secured Notes, to the extent of the value of the property and assets securing such indebtedness.

The 2012 Senior Secured Notes are currently guaranteed on a senior basis (the “2012 Senior Secured Notes Guarantees”) by Altice International and certain of subsidiaries, including Cool Holding and SPV1, Altice Holdings, Altice West Europe, Altice Caribbean, ABO, Green, Altice Portugal, Cabovisão, Winreason, ONI S.G.P.S., Onitelecom, and Knewon (the “2012 Senior Secured Notes Guarantors”). Each 2012 Senior Secured Notes Guarantee is a general obligation of the relevant 2012 Senior Secured Notes Guarantor and (i) ranks *pari passu* in right of payment with any existing and future indebtedness of the relevant 2012 Senior Secured Notes Guarantor that is not subordinated in right of payment to such 2012 Senior Secured Notes Guarantor’s 2012 Senior Secured Notes Guarantee; (ii) ranks senior in right of payment to all existing and future indebtedness of the relevant 2012 Senior Secured Notes Guarantor that is expressly subordinated in right of payment to such 2012 Senior Secured Notes Guarantor’s 2012 Senior Secured Notes Guarantee; (iii) is effectively subordinated to any existing and future indebtedness of the relevant 2012 Senior Secured Notes Guarantor that is secured by property or assets that do not secure such 2012 Senior Secured Notes Guarantor’s 2012 Senior Secured Notes Guarantee, to the extent of the value of the property and assets securing such indebtedness; and (iv) is effectively subordinated to the indebtedness and other obligations of any member of the Group that does not guarantee the 2012 Senior Secured Notes. The 2012 Senior Secured Notes Guarantees are subject to the terms of the Existing Intercreditor Agreement. The 2012 Senior Secured Notes Guarantees are subject to release under certain circumstances. The 2012 Senior Secured Notes are expected to benefit from the Senior Secured Guarantees provided by the Existing Senior Secured Guarantors pending the ODO Acquisition.

The 2012 Senior Secured Notes are currently secured on a first-ranking basis by (i) share pledges over all of the share capital of Altice Financing and the 2012 Senior Secured Notes Guarantors (other than Winreason) (subject to the non-pledged shares of Green’s minority shareholders), (ii) a pledge over the bank accounts and all receivables of Altice Financing, including Altice Financing Pledged Proceeds Notes, (iii) subject to certain exceptions, a pledge over all of the material assets of each of the 2012 Senior Secured Notes Guarantors, including all of the share capital of HOT (other than certain minority shareholder call options and management options), (iv) a pledge over the Senior Notes Proceeds Loans, and (v) a pledge over the Cool Shareholder Loan. The 2012 Senior Secured Notes benefit from the Existing Senior Secured Collateral.

Prior to December 15, 2015, Altice Financing may redeem all or a portion of the 2012 Senior Secured Notes at a price equal to 100% of the principal amount plus a “make-whole” premium. Altice Financing may redeem some or all of the 2012 Senior Secured Notes at any time on or after December 15, 2015, at a redemption price equal to their principal amount plus a premium, accrued and unpaid interest and additional amounts, if any. In addition, prior to December 15, 2015, Altice Financing may redeem up to 40% of the aggregate principal amount of each series of the 2012 Senior Secured Notes with the proceeds of certain public equity offerings at a redemption price equal to 107.875% of the principal amount of the 2012 Dollar Senior Secured Notes and 108.000% of the principal amount of the 2012 Euro Senior Secured Notes plus, in each case, accrued and unpaid interest and additional amounts, if any, to the redemption date, provided that at least 60% of the original aggregate principal amount of each series of the 2012 Senior Secured Notes remains outstanding after the redemption and the redemption occurs within 180 days after the closing of such equity offering. Upon certain Minority Shareholder Option Exercises (as defined in the 2012 Senior Secured Notes Indenture), Altice Financing must offer to repurchase the Senior Secured Notes at a price equal to 103% of the principal amount plus accrued and unpaid interest and additional amounts, if any, with the net cash proceeds of such Minority Shareholder Option Exercises. In the event there are any remaining net cash proceeds after the completion of such offer, Altice Finco must offer to repurchase the 2012 Senior Notes at a price equal to 103% of the principal amount plus accrued and unpaid interest and additional amounts, if any, with such remaining net cash proceeds. Further, Altice Financing may redeem all of the 2012 Senior Secured Notes at a price equal to their principal amount plus accrued and unpaid interest and additional amounts, if any, upon the occurrence of certain changes in tax law. If the Covenant Parties (as defined in the 2012 Senior Secured Notes Indenture) and their respective subsidiaries sell certain of their assets, or if Altice Financing or the Covenant Parties experience specific kinds of changes in control, Altice Financing may be required to make an offer to repurchase the 2012 Senior Notes.

The 2012 Senior Secured Notes Indenture, among other things, limits the ability of Altice Financing, the ability of certain other Group entities designated as Covenant Parties and the ability of the Restricted Subsidiaries (as defined therein) to (i) incur or guarantee additional indebtedness (subject to an incurrence-based consolidated leverage ratio test, (ii) make investments or other restricted payments, (iii) create liens, (iv) sell assets and subsidiary stock, (v) pay dividends or make other distributions or repurchase or redeem our capital stock or subordinated debt, (vi) engage in certain transactions with affiliates, (vii) enter into agreements that restrict the payment of dividends by subsidiaries or the repayment of intercompany loans and advances; and (viii) engage in mergers or consolidations. These covenants are subject to a number of important exceptions and qualifications. The 2012 Senior Secured Notes permit the incurrence of senior secured indebtedness by Altice Financing so long as the consolidated leverage ratio (pro forma for such transaction) is not greater than 3.0 to 1.0. Subject to compliance with the same consolidated leverage ratio (pro forma for such transaction) and so long as there is not default or event of default outstanding, the 2012 Senior Secured Notes permits the distribution of dividends and other restricted payments so long as the aggregated amount of restricted payments does not exceed the sum of an amount equal to the consolidated EBITDA generated from the period beginning on October 1, 2012 until the most recently ended quarter, less 1.5 times the consolidated interest expense for such period. The restricted payment capacity is also subject to increase based on certain provisions that are customary for an incurrence based covenant package. In addition, unlimited restricted payments under the terms of the 2012 Senior Secured Notes are permitted so long as the consolidated leverage ratio (pro forma for such transaction) is not greater than 2.75 to 1.0.

The 2012 Senior Secured Notes Indenture provides for certain events of default, including, amongst others, defaults under other debt instruments which (i) is caused by the failure to pay principal of, or interest or premium, if any, on indebtedness at its stated maturity prior to expiration of any applicable grace period, or (ii) results in the acceleration of such indebtedness prior to its maturity, and, in each case, the principal amount of such indebtedness (together with the principal amount of any other such indebtedness under which there has been a payment default or the maturity of which has been accelerated) aggregates \$20 million or more.

The 2012 Senior Secured Notes Indenture, the 2012 Senior Secured Notes and the 2012 Senior Secured Notes Guarantees are governed by the laws of the State of New York.

#### *The 2012 Senior Notes*

The 2012 Senior Notes mature on December 15, 2020. Interest on the 2012 Senior Notes is payable semi-annually in cash in arrears on each June 15 and December 15, commencing June 15, 2013.

The 2012 Senior Notes are general obligations of Altice Finco and (i) rank *pari passu* in right of payment with any future indebtedness of Altice Finco that is not subordinated in right of payment to the 2012 Senior Notes, (ii) rank senior in right of payment to any future indebtedness of Altice Finco that is expressly subordinated in right of payment to the 2012 Senior Notes, and (iii) are effectively subordinated to any future indebtedness of Altice Finco that is secured by property or assets that do not secure the 2012 Senior Notes, to the extent of the value of the property and assets securing such indebtedness.

The 2012 Senior Notes are currently guaranteed on a senior subordinated basis (the “2012 Senior Notes Guarantees”) by Altice International and certain of its subsidiaries, including Cool Holding, SPV1, Altice Financing, Altice Holdings, Altice West Europe, Altice Caribbean, ABO, Green, Altice Portugal, Cabovisão, Winreason, ONI S.G.P.S., Onitelecom and Knewon (the “2012 Senior Notes Guarantors”). Each 2012 Senior Notes Guarantee is a general obligation of the relevant 2012 Senior Secured Notes Guarantor and (i) is subordinated in right of payment with any existing and future indebtedness of the relevant 2012 Senior Notes Guarantor that is not subordinated in right of payment to such 2012 Senior Notes Guarantor’s 2012 Senior Notes Guarantee; (ii) ranks *pari passu* in right of payment to all existing and future senior subordinated indebtedness of the relevant 2012 Senior Notes Guarantor; (iii) ranks senior in right of payment to all existing and future indebtedness of the relevant 2012 Senior Notes Guarantor that is expressly subordinated in right of payment to such 2012 Senior Notes Guarantor’s 2012 Senior Notes Guarantee; (iv) is effectively subordinated to any existing and future indebtedness of the relevant 2012 Senior Notes Guarantor that is secured by property or assets that do not secure such 2012 Senior Notes Guarantor’s 2012 Senior Notes Guarantee, to the extent of the value of the property and assets securing such indebtedness; and (v) is effectively subordinated to the indebtedness and other obligations of any member of the Group that does not guarantee the 2012 Senior Notes. The 2012 Senior Notes Guarantees are subject to the terms of the Existing Intercreditor Agreement, including payment blockage upon a senior default and standstills on enforcement. The 2012 Senior Notes Guarantees are subject to release under certain circumstances. The 2012 Senior Notes benefit from the Existing Senior Notes Guarantees provided by the Existing Senior Notes Guarantors.

The 2012 Senior Notes are currently secured by (i) a first-ranking share pledge over all of the share capital of Altice Finco, (ii) second-ranking share pledges over all of the share capital of the 2012 Senior Secured Notes Issuer and Cool Holding, (iii) a second-ranking pledge over the Cool Shareholder Loan, and (iv) a second-ranking pledge over the 2012 Senior Notes Proceeds Loan.

Prior to December 15, 2016, Altice Finco may redeem all or a portion of the 2012 Senior Notes at a price equal to 100% of the principal amount plus a “make-whole” premium. Altice Finco may redeem some or all of the 2012 Senior Notes at any time on or after December 15, 2016, at a redemption price equal to their principal amount plus a premium, accrued and unpaid interest and additional amounts, if any. In addition, prior to December 15, 2015, Altice Finco may redeem up to 40% of the aggregate principal amount of the 2012 Senior Notes with the proceeds of certain public equity offerings at a redemption price equal to 109.875% of their principal amount plus accrued and unpaid interest and additional amounts, if any, to the redemption date, provided that at least 60% of the original aggregate principal amount of the 2012 Senior Notes remains outstanding after the redemption and the redemption occurs within 180 days after the closing of such equity offering. Further, Altice Finco may redeem all of the 2012 Senior Notes at a price equal to their principal amount plus accrued and unpaid interest and additional amounts, if any, upon the occurrence of certain changes in tax law. If the Covenant Parties (as defined in the 2012 Senior Notes Indenture) and their respective subsidiaries sell certain of their assets, or if Altice Finco or the Covenant Parties experience specific kinds of changes in control, Altice Finco may be required to make an offer to repurchase the 2012 Senior Notes.

The 2012 Senior Notes Indenture, among other things, limits the ability of Altice Finco, the ability of certain other Group entities designated as Covenant Parties and the ability of the Restricted Subsidiaries (as defined therein) to (i) incur or guarantee additional indebtedness (subject to an incurrence- based consolidated leverage ratio test, (ii) make investments or other restricted payments, (iii) create liens, (iv) sell assets and subsidiary stock, (v) pay dividends or make other distributions or repurchase or redeem our capital stock or subordinated debt, (vi) engage in certain transactions with affiliates, (vii) enter into agreements that restrict the payment of dividends by subsidiaries or the repayment of intercompany loans and advances; and (viii) engage in mergers or consolidations. These covenants are subject to a number of important exceptions and qualifications. The 2012 Senior Notes permit the incurrence of indebtedness by Altice Finco so long as the consolidated leverage ratio (pro forma for such transaction) is not greater than 4.0 to 1.0. Subject to compliance with the same consolidated leverage ratio (pro forma for such transaction) and so long as there is not default or event of default outstanding , the 2012 Senior Notes permits the distribution of dividends and other restricted payments

so long as the aggregated amount of restricted payments does not exceed the sum of an amount equal to the consolidated EBITDA generated from the period beginning on October 1, 2012 until the most recently ended quarter, less 1.5 times the consolidated interest expense for such period. The restricted payment capacity is also subject to increase based on certain provisions that are customary for an incurrence based covenant package. In addition, unlimited restricted payments under the terms of the 2012 Senior Notes are permitted so long as the consolidated leverage ratio (pro forma for such transaction) is not greater than 2.75 to 1.0.

The 2012 Senior Notes Indenture provides for certain events of default, including, amongst others, defaults under other debt instruments which (i) is caused by the failure to pay principal of, or interest or premium, if any, on indebtedness at its stated maturity prior to expiration of any applicable grace period, or (ii) results in the acceleration of such indebtedness prior to its maturity, and, in each case, the principal amount of such indebtedness (together with the principal amount of any other such indebtedness under which there has been a payment default or the maturity of which has been accelerated) aggregates \$20 million or more.

The 2012 Senior Notes Indenture, the 2012 Senior Notes and the 2012 Senior Notes Guarantees are governed by the laws of the State of New York.

### ***The 2013 Senior Notes***

On June 14, 2013, Altice Finco issued €250 million aggregate principal amount of its 9% senior notes due 2023 (the “2013 Senior Notes”).

The 2013 Senior Notes mature on June 15, 2023. Interest on the 2013 Senior Notes is payable semi-annually in cash in arrears on each January 15 and July 15, commencing January 15, 2014.

The 2013 Senior Notes are general obligations of Altice Finco and (i) rank *pari passu* in right of payment with any existing or future indebtedness of Altice Finco that is not subordinated in right of payment to the 2013 Senior Notes, (ii) rank senior in right of payment to any future indebtedness of Altice Finco that is expressly subordinated in right of payment to the 2013 Senior Notes, and (iii) are effectively subordinated to any future indebtedness of Altice Finco that is secured by property or assets that do not secure the 2013 Senior Notes, to the extent of the value of the property and assets securing such indebtedness.

The 2013 Senior Notes benefit from guarantees from the 2013 Senior Notes Guarantors on a senior subordinated basis and are secured by the same security applicable to the 2012 Senior Notes.

Prior to June 15, 2018, Altice Finco may redeem all or a portion of the 2013 Senior Notes at a price equal to 100% of the principal amount plus a “make-whole” premium. Altice Finco may redeem some or all of the 2013 Senior Notes at any time on or after June 15, 2018, at the redemption prices indicated below plus accrued and unpaid interest and additional amounts, if any.

In addition, prior to June 15, 2016, Altice Finco may redeem up to 40% of the aggregate principal amount of the 2013 Senior Notes with the proceeds of certain public equity offerings at a redemption price equal to 109.000% of their principal amount, plus accrued and unpaid interest and additional amounts, if any, to the redemption date, provided that at least 60% of the original aggregate principal amount of the 2013 Senior Notes remains outstanding after the redemption and the redemption occurs within 180 days after the closing of such equity offering. Further, Altice Finco may redeem all of the 2013 Senior Notes at a price equal to their principal amount plus accrued and unpaid interest and additional amounts, if any, upon the occurrence of certain changes in tax law. If Altice International and its restricted subsidiaries sell certain of their assets or if Altice Finco or Altice International experience specific kinds of changes in control, Altice Finco may be required to make an offer to repurchase the 2013 Senior Notes at specified redemption prices.

The indenture governing the 2013 Senior Notes (the “2013 Indenture”), among other things, limits the ability of Altice Finco, the ability of certain other Group entities and the ability of the Restricted Subsidiaries (as defined therein) to (i) incur or guarantee additional indebtedness, (subject to an incurrence based consolidated leverage ratio test, (ii) make investments or other restricted payments, (iii) create liens, (iv) sell assets and subsidiary stock, (v) pay dividends or make other distributions or repurchase or redeem our capital stock or subordinated debt, (vi) engage in certain transactions with affiliates, (vii) enter into agreements that restrict the payment of dividends by subsidiaries or the repayment of intercompany loans and advances; and (viii) engage in mergers or consolidations. These covenants are subject to a number of important exceptions and qualifications.

The 2013 Senior Notes permit the incurrence of indebtedness by Altice Finco so long as the consolidated leverage ratio (pro forma for such transaction) is not greater than 4.0 to 1.0. Subject to compliance with the same consolidated leverage ratio (pro forma for such transaction) and so long as there is not default or event of default outstanding, the 2013 Senior Notes permits the distribution of dividends and other restricted payments so long as the aggregated amount of restricted payments does not exceed the sum of an amount equal to the consolidated EBITDA generated from the period beginning on October 1, 2012 until the most recently ended quarter, less 1.5 times the consolidated interest expense for such period. The restricted payment capacity is also subject to increase based on certain provisions that are customary for an incurrence based covenant package. In addition, unlimited restricted payments under the terms of the 2013 Senior Notes are permitted so long as the consolidated leverage ratio (pro forma for such transaction) is not greater than 2.75 to 1.0.

The 2013 Senior Notes Indenture provides for certain events of default, including, amongst others, defaults under other debt instruments which (i) is caused by the failure to pay principal of, or interest or premium, if any, on indebtedness at its stated maturity prior to the expiration of the applicable grace period provided, or (ii) results in the acceleration of such indebtedness prior to its maturity, and, in each case, the principal amount of such indebtedness (together with the principal amount of any other such indebtedness under which there has been a payment default or the maturity of which has been accelerated) aggregates €25 million or more.

The 2013 Senior Notes Indenture, the 2013 Senior Notes and the 2013 Senior Notes Guarantees are governed by the laws of the State of New York.

#### ***The December 2013 Notes***

On December 12, 2013, Altice Financing issued \$900 million aggregate principal amount of its 6<sup>1</sup>/<sub>6</sub>% senior secured notes due 2022 (the “2013 Dollar Senior Secured Notes”) and €300 million aggregate principal amount of its 6<sup>1</sup>/<sub>6</sub>% senior secured notes due 2022 (the “2013 Euro Senior Secured Notes” and together with the 2013 Dollar Senior Secured Notes, the “2013 Senior Secured Notes”), and Altice Finco issued \$400 million aggregate principal amount of its 8<sup>1</sup>/<sub>8</sub> senior notes due 2022 (the “2013 Dollar Senior Notes”, and together with the 2013 Senior Secured Notes, the “December 2013 Notes”).

#### ***The 2013 Senior Secured Notes***

The 2013 Senior Secured Notes mature on January 15, 2022. Interest on the 2013 Senior Secured Notes is payable semi-annually in cash in arrears on each July 15 and January 15, commencing July 15, 2014.

The 2013 Senior Secured Notes are general obligations of Altice Financing and (i) rank *pari passu* in right of payment with any existing or future indebtedness of Altice Financing that is not subordinated in right of payment to the 2013 Senior Secured Notes, (ii) rank senior in right of payment to any existing or future indebtedness of Altice Financing that is expressly subordinated in right of payment to the 2013 Senior Secured Notes, and (iii) are effectively subordinated to any existing or future indebtedness of Altice Financing that is secured by property or assets that do not secure the 2013 Senior Secured Notes, to the extent of the value of the property and assets securing such indebtedness.

The 2013 Senior Secured Notes are currently held in escrow. The 2013 Senior Secured Notes are guaranteed on a senior basis by the 2012 Senior Secured Notes Guarantors (other than ABO) (the “2013 Senior Secured Notes Guarantees”). The 2013 Senior Secured Notes Guarantees are subject to release under certain circumstances.

The 2013 Senior Secured Notes are currently secured by collateral over the rights of Altice Financing under the escrow agreement relating to the 2013 Senior Secured Notes and the assets in the escrow accounts. Upon the first release of the proceeds from the offering of the 2013 Senior Secured Notes from the applicable escrow accounts and with respect to Tricom and ODO, within 90 days following the ODO Acquisition, the 2013 Senior Secured Notes will be secured by (i) first-ranking pledges over all of the share capital of Altice Financing, all the 2012 Senior Secured Notes Guarantor (other than Altice International, ABO, Green, Altice Portugal, Cabovisão, Winreason, ONI S.G.P.S., Onitelecom and Knewon), the capital stock of HOT and, following regulatory approval of such pledge, Tricom and ODO, (ii) a first-ranking pledge over the bank accounts and all receivables of Altice Financing, (iii) subject to certain exceptions, first-ranking pledges over all of the material assets of each 2012 Senior Secured Notes Guarantor (other than ABO, Altice Portugal,

Cabovisão, Winreason, ONI S.G.P.S., Onitelecom and Knewon) and ODO, (iv) a first-ranking pledge over the Senior Notes Proceeds Loans, (v) a first-ranking pledge over the Cool Shareholder Loan and, (vi) a first-ranking pledge over the Covenant Party Pledged Proceeds Loan (other than the Cabovisão Proceeds Notes and the Onitelecom Proceeds Notes) (collectively, the “2013 Senior Secured Collateral”).

Prior to December 15, 2016, Altice Financing may redeem all or a portion of the 2013 Senior Secured Notes at a price equal to 100% of the principal amount plus a “make-whole premium”. Altice Financing may redeem some or all of the 2013 Senior Secured Notes at any time on or after December 15, 2016, at a redemption price equal to their principal amount plus a premium, accrued and unpaid interest and additional amounts, if any.

In addition, prior to December 15, 2016, Altice Financing may redeem up to 40% of the aggregate principal amount of each series of the 2013 Senior Secured Notes with the proceeds of certain public equity offerings at a redemption price equal to 106.500% of the principal amount of the relevant 2013 Dollar Senior Secured Note and 106.500% of the principal amount of the 2013 Euro Senior Secured Notes plus, in each case, accrued and unpaid interest and additional amounts, if any, to the redemption date, provided that at least 60% of the original aggregate principal amount of each series of the 2013 Senior Secured Notes remains outstanding after the redemption and the redemption occurs within 180 days after the closing of such equity offering.

Upon the exercise of certain Minority Shareholder Option Exercises (as defined in the 2013 Senior Secured Notes Indenture) Altice Financing must offer to repurchase the 2013 Senior Secured Notes at a price equal to 103% of the principal amount plus accrued and unpaid interest and additional amounts, if any, with the net cash proceeds of such Minority Shareholder Call Options Exercises. In the event there are any remaining net cash proceeds after the completion of such offer, Altice Financing must offer to repurchase the 2013 Dollar Senior Secured Notes and the 2013 Dollar Senior Notes at a price equal to 103% of the principal amount plus accrued and unpaid interest and additional amounts, if any, with such remaining net cash proceeds. Further, Altice Financing may redeem all of the 2013 Senior Secured Notes at a price equal to their principal amount plus accrued and unpaid interest and additional amounts, if any, upon the occurrence of certain changes in tax law. If Altice International and its respective subsidiaries sell certain of their assets, or if Altice Financing or Altice International experience specific kinds of changes in control, Altice Financing may be required to make an offer to repurchase the 2013 Senior Secured Notes at specified redemption prices.

The indenture governing the 2013 Senior Secured Notes (the “2013 Senior Secured Notes Indenture”) among other things, limits the ability of Altice Financing and the ability of the other subsidiaries of Altice International (other than Altice Finco) to (i) incur or guarantee additional indebtedness (subject to an incurrence-based consolidated leverage ratio test, (ii) make investments or other restricted payments, (iii) create liens, (iv) sell assets and subsidiary stock, (v) pay dividends or make other distributions or repurchase or redeem our capital stock or subordinated debt, (vi) engage in certain transactions with affiliates, (vii) enter into agreements that restrict the payment of dividends by subsidiaries or the repayment of intercompany loans and advances; and (viii) engage in mergers or consolidations. These covenants are subject to a number of important exceptions and qualifications. The 2013 Senior Secured Notes permit the incurrence of senior secured indebtedness by Altice Financing so long as the consolidated leverage ratio (pro forma for such transaction) is not greater than 3.0 to 1.0. Subject to compliance with the same consolidated leverage ratio (pro forma for such transaction) and so long as there is not default or event of default outstanding, the 2013 Senior Secured Notes permits the distribution of dividends and other restricted payments so long as the aggregated amount of restricted payments does not exceed the sum of an amount equal to the consolidated EBITDA generated from the period beginning on October 1, 2012 until the most recently ended quarter, less 1.5 times the consolidated interest expense for such period. The restricted payment capacity is also subject to increase based on certain provisions that are customary for an incurrence based covenant package. In addition, unlimited restricted payments under the terms of the 2013 Senior Secured Notes are permitted so long as the consolidated leverage ratio (pro forma for such transaction) is not greater than 3.0 to 1.0.

The 2013 Senior Secured Notes Indenture provides for certain customary events of default, including, amongst others, defaults under other debt instruments which (i) is caused by the failure to pay principal of, or interest or premium, if any, on indebtedness at its stated maturity prior to expiration of any applicable grace period, or (ii) results in the acceleration of such indebtedness prior to its maturity, and, in each case, the principal amount of such indebtedness (together with the principal amount of any other such indebtedness under which there has been a payment default or the maturity of which has been accelerated) aggregates €25 million or more.

The 2013 Senior Secured Notes Indenture, the 2013 Senior Secured Notes and the related guarantees are governed by the laws of the State of New York.

#### *The 2013 Dollar Senior Notes*

The 2013 Dollar Senior Notes mature on June 15, 2024. Interest on the 2013 Dollar Senior Notes is payable semi-annually in cash in arrears on each January 15 and July 15, commencing January 15, 2014.

The 2013 Dollar Senior Notes are general obligations of Altice Finco and (i) rank *pari passu* in right of payment with any existing or future indebtedness of Altice Finco that is not subordinated in right of payment to the 2013 Dollar Senior Notes, (ii) rank senior in right of payment to any future indebtedness of Altice Finco that is expressly subordinated in right of payment to the 2013 Dollar Senior Notes, and (iii) are effectively subordinated to any existing or future indebtedness of Altice Finco that is secured by property or assets that do not secure the 2013 Dollar Senior Notes, to the extent of the value of the property and assets securing such indebtedness.

The 2013 Dollar Senior Notes benefit from the 2012 Senior Notes Guarantors (except ABO) on a senior subordinated basis and are secured by the same security applicable to the 2012 Senior Notes.

Prior to December 15, 2018, Altice Finco may redeem all or a portion of the 2013 Dollar Senior Notes at a price equal to 100% of the principal amount plus a make-whole premium. Altice Financing may redeem some or all of the 2013 Dollar Senior Notes at any time on or after December 15, 2018, at a redemption price equal to their principal amount plus a premium, accrued and unpaid interest and additional amounts, if any.

In addition, prior to December 15, 2016, the Senior Notes Issuer may redeem up to 40% of the aggregate principal amount of the 2013 Dollar Senior Notes with the proceeds of certain public or private equity offerings at a redemption price equal to 108.125% of their principal amount, plus accrued and unpaid interest and additional amounts, if any, to the redemption date, provided that at least 60% of the original aggregate principal amount of the 2013 Dollar Senior Notes remains outstanding after the redemption and the redemption occurs within 180 days after the closing of such equity offering. Further, Altice Finco may redeem all of the 2013 Dollar Senior Notes at a price equal to their principal amount plus accrued and unpaid interest and any additional amount. If Altice International and its restricted subsidiaries sell certain of their assets or if Altice Finco or Altice International experience specific kinds of changes in control, Altice Finco may be required to make an offer to repurchase the 2013 Dollar Senior Notes at specified redemption prices.

The indenture governing the 2013 Dollar Senior Notes (the “2013 Dollar Senior Notes Indenture”), among other things, limits the ability of Altice International and its subsidiaries to (i) incur or guarantee additional indebtedness (subject to an incurrence based consolidated leverage ratio test, (ii) make investments or other restricted payments, (iii) create liens, (iv) sell assets and subsidiary stock, (v) pay dividends or make other distributions or repurchase or redeem our capital stock or subordinated debt, (vi) engage in certain transactions with affiliates, (vii) enter into agreements that restrict the payment of dividends by subsidiaries or the repayment of intercompany loans and advances; and (viii) engage in mergers or consolidations. These covenants are subject to a number of important exceptions and qualifications. The 2013 Dollar Senior Notes permit the incurrence of indebtedness by Altice Finco so long as the consolidated leverage ratio (pro forma for such transaction) is not greater than 4.0 to 1.0. Subject to compliance with the same consolidated leverage ratio (pro forma for such transaction) and so long as there is no default or event of default outstanding, the 2013 Dollar Senior Notes permits the distribution of dividends and other restricted payments so long as the aggregated amount of restricted payments does not exceed the sum of an amount equal to the consolidated EBITDA generated from the period beginning on October 1, 2012 until the most recently ended quarter, less 1.5 times the consolidated interest expense for such period. The restricted payment capacity is also subject to increase based on certain provisions that are customary for an incurrence based covenant package. In addition, unlimited restricted payments under the terms of the 2013 Dollar Senior Notes are permitted so long as the consolidated leverage ratio (pro forma for such transaction) is not greater than 3.0 to 1.0.

The 2013 Dollar Senior Notes Indenture provides for certain events of default, including, amongst others, defaults under other debt instruments which (i) is caused by the failure to pay principal of, or interest or premium, if any, on indebtedness at its stated maturity prior to the expiration of the applicable grace period, or (ii) results in the acceleration of such indebtedness prior to its maturity, and, in each case, the principal amount

of such indebtedness (together with the principal amount of any other such indebtedness under which there has been a payment default or the maturity of which has been accelerated) aggregates €25 million or more.

The 2013 Indenture, the 2013 Dollar Senior Notes and the related guarantees are governed by the laws of the State of New York.

### ***The 2013 Term Loan***

On June 24, 2013 a senior secured term loan credit facility (as amended from time to time, the “2013 Term Loan Facility”) which provide for U.S. dollar term loans (the “2013 Term Loans”) in an aggregate principal amount equivalent to \$1,034 million, was entered into among Altice Financing, as borrower, certain lenders party thereto, Goldman Sachs International, Morgan Stanley Senior Funding, Inc., Crédit Agricole Corporate and Investment Bank, Credit Suisse AG, Cayman Islands Branch and Deutsche Bank Securities Inc., as joint lead arrangers and bookrunners, Goldman Sachs Lending Partners LLC, as administrative agent and Citibank, N.A., London Branch as security agent (the “2013 Term Loan Agreement”). The entire amount available under the 2013 Term Loan has been drawn.

### ***Interest Rate and Fees***

Borrowings under the 2013 Term Loan Facility bear interest at a rate per annum equal to an applicable margin plus, at Altice Financing’s option, either (a) a base rate determined by reference to the highest of (1) the U.S. Federal Funds rate plus 0.50%, (2) the prime rate quoted in the print edition of The Wall Street Journal, Money Rates Section as the prime rate, (3) the LIBOR rate determined by reference to the costs of funds for U.S. dollar deposits for an interest period of one month adjusted for certain additional costs, plus 1.00% and (4) a floor of 2.00% (any such borrowing, an “ABR Loan”) or (b) a LIBOR rate determined by reference to the costs of funds for U.S. dollar deposits for the interest period relevant to such borrowing adjusted for certain additional costs, provided that such LIBOR rate shall not be lower than 1.00% (any such borrowing, a “Eurodollar Loan”).

The applicable margin is, for any day, (a) with respect to any ABR Loan, 3.50% per annum and (b) with respect to any Eurodollar Loan, 4.50% per annum.

### ***Mandatory Prepayments***

The 2013 Term Loan Agreement requires Altice Financing to prepay outstanding term loans thereunder, subject to certain exceptions, with (i) 100% of the net cash proceeds of certain asset sales, subject to reinvestment rights and certain other exceptions; (ii) commencing with the fiscal year ended December 31, 2014, 50% of the annual excess cash flow, which percentage will be reduced to 0% if the Consolidated Leverage Ratio is less than 4.0:1.0; and (iii) 100% of the net cash proceeds in excess of a specified threshold amount of certain HOT Minority Shareholder Option Exercises (as defined in the 2013 Term Loan Agreement) at, in the case of such HOT Minority Shareholder Option Exercise prepayments, a price for such term loans prepaid equal to 103% of the principal amount thereof plus accrued and unpaid interest and additional amounts, if any.

### ***Voluntary Prepayments***

Prepayments of the 2013 Term Loan Facility on or prior to the first anniversary of July 2, 2013 are subject to a make-whole provision and a minimum call premium of 2.00%. Voluntary prepayments (including any effective prepayment by way of a repricing amendment) of the 2013 Term Loan Facility after the first anniversary of July 2, 2013 but on or prior to the second anniversary of the completion date, are subject to a call premium of 2.00%. Voluntary prepayments (including any effective prepayment by way of a repricing amendment) of the 2013 Term Loan Facility after the second anniversary of July 2, 2013 but on or prior to the third anniversary of July 2, 2013 are subject to a call premium of 1.00%. Otherwise, the Senior Secured Notes Guarantors are able to voluntarily prepay outstanding loans under the 2013 Term Loan Facility at any time subject to customary “breakage” costs with respect to Eurodollar Loans.

### *Amortization and Final Maturity*

Beginning with the quarter ending March 31, 2014, Altice Financing will be required to make scheduled quarterly payments each equal to 0.25% of the original principal amount of the term loans borrowed under the 2013 Term Loan Facility, with the balance expected to be due on the sixth anniversary of July 2, 2013.

### *Guarantees*

Each of the 2012 Senior Secured Notes Guarantors of the 2012 Senior Secured Notes guarantees, on a senior basis, the obligations of each other obligor under the 2013 Term Loan Agreement and related finance documents.

### *Security*

The 2013 Term Loan Facility is secured by the same collateral securing, *inter alia*, the Existing Senior Secured Notes.

### *Certain Covenants and Events of Default*

The 2013 Term Loan Agreement includes negative covenants that, among other things and subject to certain significant exceptions and qualifications, limit our ability and the ability of our restricted subsidiaries to: (i) incur or guarantee additional Indebtedness, subject to an incurrence-based consolidated leverage ratio test, (ii) make investments or other restricted payments, (iii) create liens, (iv) sell assets and subsidiary stock, (v) pay dividends or make other distributions or repurchase or redeem our capital stock or subordinated debt, (vi) engage in certain transactions with affiliates, (vii) enter into agreements that restrict the payment of dividends by subsidiaries or the repayment of intercompany loans and advances; and (viii) engage in mergers or consolidations. The 2013 Term Loan permits the incurrence of senior secured indebtedness by Altice Financing so long as the consolidated leverage ratio (pro forma for such transaction) is not greater than 3.0 to 1.0. Subject to compliance with the same consolidated leverage ratio (pro forma for such transaction) and so long as there is not default or event of default outstanding, the 2013 Term Loan permits the distribution of dividends and other restricted payments so long as the aggregated amount of restricted payments does not exceed the sum of an amount equal to the consolidated EBITDA generated from the period beginning on October 1, 2012 until the most recently ended quarter, less 1.5 times the consolidated interest expense for such period. The restricted payment capacity is also subject to increase based on certain provisions that are customary for an incurrence based covenant package. In addition, unlimited restricted payments under the terms of the 2013 Term Loan are permitted so long as the consolidated leverage ratio (pro forma for such transaction) is not greater than 2.75 to 1.0.

The 2013 Term Loan Agreement also contains certain customary representations and warranties, affirmative covenants and events of default (including, among others, an event of default upon a change of control). If an event of default occurs, the lenders under the 2013 Term Loan Facility will be entitled to take various actions, including the acceleration of amounts due under the 2013 Term Loan Facility and all actions permitted to be taken by a secured creditor, subject to the Intercreditor Agreement.

### ***The Existing Coditel Mezzanine Facility Agreement***

#### *The Facility*

The Existing Coditel Mezzanine Facility Agreement consists of a €100 million mezzanine facility and was entered into on November 29, 2011, between, among others, Coditel Holding Lux S.à r.l. as the parent, Coditel Holding as the company and the borrower, Wilmington Trust (London) Limited as agent and ING Bank N.V. as security agent. The loan advanced under the mezzanine facility for the purpose of partially funding the refinancing of certain indebtedness originally incurred by the borrower to finance the acquisition of Coditel Belgium and Coditel Luxembourg (the “Refinancing”) must be repaid on the date falling 90 months after the date on which the Refinancing occurred. The mezzanine facility constitutes subordinated obligations of Coditel Holding Lux S.à r.l. and Coditel Holding and benefits from guarantees and security provided by certain members of the group comprising Coditel Holding Lux S.à r.l. and its subsidiaries (the “Coditel Group”).

### *Interest Rates and Prepayment Fees*

Cash pay interest accruing at a rate of 8.50% per annum is payable on the loan at the end of each interest period and PIK interest accruing at a rate of 5.25% per annum is capitalized to the principal amount of the loan semi-annually. A prepayment fee is payable if the loan is prepaid (i) prior to the fifth anniversary of the Refinancing as a result of a voluntary prepayment or a mandatory prepayment triggered by a disposal of certain assets of the Coditel Group in an amount determined by reference to a ratchet or (ii) at any time as a result of a mandatory prepayment arising from a change of control in an amount equal to 1.00% of the principal amount of the loan prepaid. Coditel has the right to prepay the facility provided that a prepayment fee of 106.875% which is payable if the loan is prepaid after the third anniversary (November 2014) of the refinancing but prior to the fourth anniversary of the Refinancing (November 2015). A prepayment fee of 103.4375% is payable on if the loan is prepaid after the fourth anniversary of the refinancing but prior to the fifth anniversary of the Refinancing (November 2016).

### *Mandatory Prepayment*

Upon the occurrence of the sale of all or substantially all of the assets or business of the Coditel Group, the loan and all amounts accrued under the mezzanine facility will become immediately due and payable. Upon the occurrence of a change of control of the Coditel Group, each lender is entitled to require that its share of the loan together with all other amounts accrued to that lender and a prepayment fee are paid to that lender. Certain proceeds received by any member of the Coditel Group arising from the disposal of assets are required to be prepaid upon receipt and certain proceeds received by any member of the Coditel Group from claims under certain acquisition documents and reports and insurance claims are required to be prepaid on and from the fifth anniversary of the Refinancing.

### *Covenants*

The Existing Coditel Mezzanine Facility Agreement requires certain members of the Coditel Group to observe certain restrictive and affirmative operating covenants, including restrictions on certain dividends and distributions.

### *Financial covenants*

The Coditel Group's financial and operating performance is monitored by a financial covenant package that requires it to maintain the ratios including cashflow cover ratio, net interest cover ratio and leverage ratio that vary over time and to observe limitations on capital expenditure. The leverage ratio is currently 5.64:1 and will fall to 2.60:1 at the termination date.

### *Events of Default*

There are certain events of default the occurrence of which, subject to certain exceptions and materiality qualifications, would allow the lenders party thereto to: (i) cancel the total commitments; (ii) accelerate the loans together with other accrued amounts and/or (iii) declare that all or part of the loans be payable on demand.

### *Representations, Warranties and Undertakings*

There are certain representations, warranties and undertakings customary for a facility of this type subject to certain exceptions and customary materiality qualifications.

### ***The Existing Altice Financing Revolving Credit Facility Agreements and the 2013 Guarantee Facility***

The Existing Altice Financing Revolving Credit Facility Agreements are comprised of: (1) a \$80 million super senior secured revolving credit facility (as amended from time to time, the "2012 Revolving Credit Facility") agreement entered into on November 27, 2012, between, among others, Altice Financing, as borrower and guarantor, certain lenders party thereto, BNP Paribas, Crédit Agricole Corporate and Investment Bank, Credit Suisse AG, London Branch, Goldman Sachs Bank USA, HSBC Bank plc, ING Bank N.V., J.P. Morgan Limited and Morgan Stanley Bank International Limited as mandated lead arrangers, Citibank International Plc as facility agent and Citibank, N.A., London Branch as Security Agent (the "2012 Revolving

Credit Facility Agreement”), and (2) a €60 million super senior secured revolving credit facility (as amended from time to time, the “2013 Revolving Credit Facility”, together with the 2012 Revolving Credit Facility, the “Revolving Credit Facilities”) agreement entered into on July 1, 2013, between, among others, Altice Financing, as borrower and guarantor, certain lenders party thereto, Goldman Sachs Bank USA, Morgan Stanley Bank International Limited, Credit Agricole Corporate and Investment Bank, Credit Suisse AG, London Branch, Deutsche Bank AG, London Branch and ING Bank N.V. as mandated lead arrangers, Citibank International Plc as Facility Agent and Citibank, N.A., London Branch as security agent (the “2013 Revolving Credit Facility Agreement” and together with the 2012 Revolving Credit Facility Agreement, the “Existing Altice Financing Revolving Credit Facility Agreements”). Each Revolving Credit Facility Agreement provides for the accession of additional borrowers and guarantors subject to the requirements set out therein. References to the “borrower” or “borrowers” under this section refer to Altice Financing and any additional borrowers who accede to the Existing Altice Financing Revolving Credit Facility Agreements in that capacity.

#### *Structure of the Existing Altice Financing Revolving Credit Facility Agreements*

The final maturity date of the 2012 Revolving Credit Facility Agreement is the earlier of (i) the date falling five years after December 27, 2012 (the “2012 Transaction Completion Date”) and (ii) the date on which the 2012 Revolving Credit Facility has been fully repaid and cancelled. The final maturity date of the 2013 Revolving Credit Facility Agreement is the earlier of (i) the date falling five years after July 2, 2013 (the “2013 Release Date”) and (ii) the date on which the 2013 Revolving Credit Facility has been fully repaid and cancelled. The borrowers are permitted to make drawdowns under the Existing Altice Financing Revolving Credit Facility Agreements for terms of, at the relevant borrower’s election, one, two, three or six months (or any other period agreed by Altice Financing and the relevant lenders), but no such period shall end beyond the final maturity date of the relevant Existing Altice Financing Revolving Credit Facility Agreement. Drawdowns under the Existing Altice Financing Revolving Credit Facility Agreements must be repaid at the end of the interest period for the relevant loan and repaid amounts may be re-borrowed up to one month prior to the final maturity date (save for certain roll-over loans).

#### *Limitations on Use of Funds*

The Existing Altice Financing Revolving Credit Facilities and the 2013 Guarantee Facility (defined below) may be used by the borrowers for general corporate and working capital purposes of the Group (other than Altice Finco, the “RCF Group”), including, but not limited to, the refinancing of all or part of any existing financial indebtedness of the RCF Group.

The commitments under the 2013 Revolving Credit Facility may be increased by up to an additional maximum amount of \$80 million euro equivalent, provided that an amount equal to any such increase is simultaneously cancelled under the 2012 Revolving Credit Facility.

#### *The 2013 Guarantee Facility*

A new guarantee facility agreement for an amount of up to €75 million was entered into on July 1, 2013, among others, Altice Financing, as borrower and guarantor, certain lenders party thereto, Goldman Sachs Bank USA, Morgan Stanley Bank International Limited, Crédit Agricole Corporate and Investment Bank, Credit Suisse AG, London Branch, Deutsche Bank AG, London Branch as mandated lead arrangers, Wilmington Trust (London) Limited as Facility Agent and Citibank, N.A., London Branch and ING Bank N.V. as security agent (as amended from time to time the “2013 Guarantee Facility”). The 2013 Guarantee Facility has been made available to the borrowers for general corporate and working capital purposes of the RCF Group, including, but not limited to, the refinancing of all or part of any existing financial indebtedness of the RCF Group. The creditors under the 2013 Guarantee Facility will be Senior Bank Creditors and not Super Priority Creditors, each as defined in the Existing Intercreditor Agreement.

#### *Structure of the 2013 Guarantee Facility*

The final maturity date of the 2013 Guarantee Facility is the earlier of (i) the date falling five years after the 2013 Release Date and (ii) the date on which the 2013 Guarantee Facility has been repaid and cancelled in full.

### *Conditions to Borrowings*

Drawdowns under the Existing Altice Financing Revolving Credit Facility Agreements and the 2013 Guarantee Facility are subject to certain customary conditions precedent on the date the drawdown is requested and on the drawdown date including the following: (i) no default continuing or occurring as a result of that drawdown; and (ii) certain representations and warranties specified in the Existing Altice Financing Revolving Credit Facility Agreements, and the 2013 Guarantee Facility, as applicable, being true in all material respects.

### *Interest Rates and Fees*

The interest rate on each loan under the Existing Altice Financing Revolving Credit Facility Agreements for each interest period is equal to the aggregate of: (x) the applicable margin; (y) (i) LIBOR, in respect of the 2012 Revolving Credit Facility Agreement, and (ii) LIBOR, or, in relation to any loan in Euro, EURIBOR, in respect of the 2013 Revolving Credit Facility Agreement; and (z) any mandatory cost (which is the cost of compliance with reserve asset, liquidity, cash margin, special deposit or other like requirements).

The initial margin under the 2012 Revolving Credit Facility Agreement is 4.25% per annum but if: (i) no event of default has occurred and is continuing under the 2012 Revolving Credit Facility Agreement; (ii) at least twelve months have elapsed since the 2012 Transaction Completion Date, then the margin will be adjusted depending on the Consolidated Leverage Ratio (as defined in the 2012 Revolving Credit Facility Agreement) of the RCF Group so that: (a) if the Consolidated Leverage Ratio is greater than or equal to 3.0:1, the applicable margin under the 2012 Revolving Credit Facility Agreement will be 4.25% per annum; (b) if the Consolidated Leverage Ratio is less than 3.0:1 but greater than or equal to 2.0:1, the applicable margin 2012 Revolving Credit Facility Agreement will be 3.75% per annum; and (c) if the Consolidated Leverage Ratio is less than 2.0:1, the applicable margin 2012 Revolving Credit Facility Agreement will be 3.25% per annum. The margin under the 2013 Revolving Credit Facility Agreement is 3.50% per annum. The margin under the 2013 Guarantee Facility is 3.50% per annum.

Interest under the Existing Altice Financing Revolving Credit Facility Agreements accrues daily from and including the first day of an interest period and is payable on the last day of each interest period (unless the interest period is longer than six months, in which case interest is payable on the last day of each six-month period) and is calculated on the basis of a 360- day year. With respect to any available but undrawn amounts under the Existing Altice Financing Revolving Credit Facility Agreements, the borrowers are obligated to pay a commitment fee on such undrawn amounts at the rate of 40% of the margin calculated on undrawn and uncanceled commitments from the date falling 30 days after the date of the relevant Existing Altice Financing Revolving Credit Facility Agreement until one month prior the final maturity date of the relevant Existing Altice Financing Revolving Credit Facility Agreement. A guarantee fee is payable to the relevant issuing bank issuing guarantees under the 2013 Guarantee Facility in an amount equal to 0.125% of the face value of the relevant guarantee. Each guarantee issued under the 2013 Guarantee Facility carries a guarantee fee equal to 3.50%.

### *Guarantees*

Each of the 2012 Senior Secured Notes Guarantor guarantees, on a senior basis, the obligations of each other obligor under the Existing Altice Financing Revolving Credit Facility Agreements and related finance documents.

### *Security*

The Existing Altice Financing Revolving Credit Facilities and the 2013 Guarantee Facility are secured by the same collateral securing, *inter alia*, the 2012 Senior Secured Notes.

### *Mandatory Prepayment*

For so long as an event of default has occurred and is continuing under the Existing Altice Financing Revolving Credit Facility Agreements, proceeds otherwise required to be applied in prepayment of the 2012 Senior Secured Notes shall instead be applied in cancellation and prepayment of the Existing Altice Financing Revolving Credit Facilities in priority to any other indebtedness.

Upon the occurrence of a Change of Control (as defined in each of the Existing Altice Financing Revolving Credit Facility Agreements and the 2013 Guarantee Facility, as applicable), the borrowers must repay the Revolving Credit Facilities and the 2013 Guarantee Facility in full together with accrued interest and all other amounts accrued under related finance documents and the Existing Altice Financing Revolving Credit Facilities and the 2013 Guarantee Facility will be cancelled.

If an amount in excess of 50% of the 2012 Senior Secured Notes (and, in respect of the 2013 Revolving Credit Facility, an amount in excess of 50% of the 2012 Senior Secured Notes and all utilizations outstanding under and the 2013 Term Loan as at the date of the 2013 Revolving Credit Facility) is repaid, prepaid, purchased, redeemed or defeased or acquired directly or indirectly by a member of the RCF Group, the relevant borrowers must apply an amount equal to such excess in cancellation of the Existing Altice Financing Revolving Credit Facilities and, if applicable, prepayment of the loans drawn thereunder.

Certain excess proceeds received by the RCF Group from certain disposals of assets and not applied or invested or committed to be applied or invested to (i) prepay, repay, purchase or redeem certain indebtedness, (ii) invest in or purchase additional assets, or (iii) make certain capital expenditure, must be applied in prepayment of the Existing Altice Financing Revolving Credit Facilities.

#### *Financial Covenants, Events of Default*

The 2012 Revolving Credit Facility Agreement requires the RCF Group to maintain a Consolidated Leverage Ratio, calculated on a net basis (as defined in the 2012 Revolving Credit Facility Agreement) tested as of the end of each fiscal quarter of no more than 4.5:1.

Each of the 2013 Revolving Credit Facility Agreement and the 2013 Guarantee Facility requires the RCF Group to maintain a Consolidated Leverage Ratio (as defined in each of the 2013 Revolving Credit Facility Agreement and the 2013 Guarantee Facility), tested as of the end of each fiscal quarter of no more than 4.5:1.

The Existing Altice Financing Revolving Credit Facility Agreements and the 2013 Guarantee Facility contain certain events of default the occurrence of which, subject to certain exceptions and materiality qualifications would allow the lenders party thereto to: (i) cancel the total commitments; (ii) accelerate all outstanding loans together with other accrued amounts and/or (iii) declare that all or part of the loans be repayable on demand.

Pursuant to the terms of the Existing Intercreditor Agreement, the proceeds of any enforcement of collateral will be applied towards repayment of the Existing Altice Financing Revolving Credit Facilities and certain hedging obligations prior to repayment of the 2012 Senior Secured Notes, the 2013 Term Loan, the 2012 Senior Note, the 2013 Senior Notes and the 2013 Guarantee Facility.

#### *Representations and Warranties*

The Existing Altice Financing Revolving Credit Facility Agreements and the 2013 Guarantee Facility Agreement contain certain representations and warranties customary for facilities of this type subject to certain exceptions and customary materiality qualifications.

#### *Undertakings*

The Existing Altice Financing Revolving Credit Facility Agreements and the 2013 Guarantee Facility contain certain restrictive covenants which substantially reflect the covenants contained in the 2012 Senior Secured Notes and the 2013 Term Loan.

The Existing Altice Financing Revolving Credit Facility Agreements and the 2013 Guarantee Facility also require the RCF Group to observe certain affirmative undertakings subject to materiality and other customary and agreed exceptions. These affirmative undertakings, include, but are not limited to, undertakings related to: (i) obtaining and maintaining all necessary consents, licenses and authorizations; (ii) compliance with applicable laws; (iii) compliance with environment laws/approvals and notification of potential environmental claims; (iv) compliance with all necessary taxation requirements; (v) ensuring that any necessary authorization is not likely to be challenged, revoked, suspended or withdrawn so as to cause a material adverse effect; (vi) *pari passu* ranking of all payment obligations under the relevant Existing Altice Financing Revolving Credit

Facility Agreements or the 2013 Guarantee Facility, as appropriate, and related finance documents with other unsecured unsubordinated payment obligations; (vii) the maintenance of insurance; (viii) compliance with laws and contracts relating to pension schemes and the maintenance of such pension schemes; (ix) the Facility Agent/Security Trustee (as defined in the Existing Altice Financing Revolving Credit Facility Agreements and the 2013 Guarantee Facility, as appropriate)/accountants/other professional advisers having access to investigate reasonably suspected defaults; (x) maintenance and protection of intellectual property rights; (xi) no amendments to constitutional documents that are likely to materially adversely affect the share pledges; (xii) an entity not moving its center of main interest from its jurisdiction of incorporation; (xiii) restricting the business and trading activities of and assets and liabilities held by Altice International, Cool Holding, SPV1 and Altice Financing; and (xiv) restricting the making of proceeds drawn under the Existing Altice Financing Revolving Credit Facility Agreements available to any sanctioned person or sanctioned country.

### ***New Altice Financing Revolving Credit Facility Commitment***

Certain lenders have signed a commitment letter pursuant to which they have agreed to provide Altice Financing with a €450 million revolving credit facility (the “**New Altice Financing Revolving Credit Facility Commitment**”) subject to the satisfaction of certain conditions, including the negotiation and execution of a revolving facility agreement on substantially consistent terms as the 2013 Revolving Credit Facility. The New Altice Financing Revolving Credit Facility Commitment will be for general corporate and working capital purposes and will be secured on a *pari passu* basis.

### ***The Existing HOT Unsecured Notes***

On February 27, 2011, HOT entered into a trust deed between HOT and Ziv Haft Trust Co. Ltd with respect to the unsecured notes (“Existing HOT Unsecured Notes”), which were issued on March 30, 2011 in two series: (i) in a nominal value equal to NIS 825 million or €173 million (based on the exchange rate as of September 30, 2013) pursuant to a debenture dated March 30, 2011 (the “Existing Series A HOT Notes”) and (ii) in a nominal value equal to NIS 675 million or €141 million (based on the exchange rate as of September 30, 2013) pursuant to a debenture dated March 30, 2011 (the “Existing Series B HOT Notes”). The Existing Series A HOT Notes are linked to the Consumer Price Index in Israel (“CPI”) and therefore actual amounts outstanding may vary from time to time and differ from the nominal amount outstanding. As of September 30, 2013, the CPI linked principal amount of Existing Series A HOT Notes outstanding was NIS 760 million or €159 million (based on the exchange rate as of September 30, 2013) and the principal amount of the Existing Series B HOT Notes outstanding was NIS 591 million or €124 million (based on the exchange rate as of September 30, 2013).

The Existing Series A HOT Notes and the Existing Series B HOT Notes mature on September 30, 2018. The amortization schedule for each of the Existing Series A HOT Notes is as follows: 8.3% in 2013; 8.3% in 2014; 8.3% in 2015; 8.3% in 2016; 8.3% in 2017 and 54.2% in 2018. Based on the CPI as of December 31, 2012 of 105.7, we estimate the amortization schedule, which includes estimated future increases in CPI of three points per year, under the Existing Series A HOT Notes is approximately: NIS 71 million in 2013, NIS 71 million in 2014, NIS 71 million in 2015, NIS 71 million in 2016, NIS 71 million in 2017 and NIS 461 million in 2018. The amortization schedule for the Existing Series B Notes is as follows approximately: NIS 56 million in 2013, NIS 56 million in 2014, NIS 56 million in 2015, NIS 56 million in 2016, NIS 56 million in 2017 and NIS 366 million in 2018. The Existing HOT Unsecured Notes are not redeemable by HOT prior to maturity.

The Existing Series A HOT Notes bear interest at a rate of 3.9% per annum, payable semi-annually. The Existing Series B HOT Notes bear interest at a rate of 6.9% per annum, payable semi-annually.

The Existing HOT Unsecured Notes contain certain financial covenants, which require maintenance by HOT of a maximum net debt to EBITDA ratio of 6.0 and maintenance of minimum equity equal to NIS 300 million. Further, in order for HOT to be able to distribute dividends, the maximum net debt to EBITDA ratio is 5.5. In addition, the Existing HOT Unsecured Notes provide that any failure to pay principal prior to expiration of any applicable grace period, or any acceleration of other HOT indebtedness of NIS 300 million or more in the aggregate, grants the holders the right to call for immediate payment of the Existing HOT Unsecured Notes.

The Existing HOT Unsecured Notes are senior obligations that rank equally with all of its existing and future senior debt and are senior to all of its existing and future subordinated debt. The Existing HOT Unsecured Notes are not secured by any assets of HOT or its subsidiaries.

The Existing HOT Unsecured Notes are not redeemable by HOT prior to maturity.

The Existing HOT Unsecured Notes will be:

- a. effectively subordinated to the HOT Refinancing Notes and the guarantees thereof granted by the HOT Refinancing Note Guarantors to the extent of the lesser of (x) the value of the assets of HOT and the HOT Refinancing Note Guarantors securing the HOT Refinancing Notes and the guarantees thereof and (y) the amount owing under the HOT Refinancing Notes;
- b. *pari passu* with the HOT Refinancing Notes to the extent the amount of the HOT Refinancing Notes exceeds the value of the assets of HOT and the HOT Refinancing Note Guarantors securing the HOT Refinancing Notes; and
- c. structurally senior to the 2012 Senior Notes, the 2012 Senior Secured Notes, the 2013 Senior Notes, the Notes, the New Numericable Senior Secured Notes, the 2012 Senior Secured Notes Guarantees and the 2013 Senior Notes Guarantees granted by the 2012 Senior Secured Notes Guarantors, the 2012 Senior Notes Guarantors and the 2013 Senior Notes Guarantors.

The Existing HOT Unsecured Notes will not be subject to the Intercreditor Agreement and, as a result, in the event of an enforcement sale of the shares of Cool Holding or HOT pursuant to the Intercreditor Agreement, the debt claims of the holders of the Existing HOT Unsecured Notes are not required to be released or otherwise transferred.

#### ***License Guarantees***

HOT and its subsidiaries are required to provide guarantees, often by way of a bank guarantee, to the Ministry of Communications and Broadcast Council in connection with various operating and broadcasting licenses, including provided a bank guarantee in the amount of NIS 695 million in connection with the HOT Mobile's winning a frequency allotment and receiving a mobile license in 2011. As of the first testing date on September 26, 2013, we have achieved a market share calculated in accordance with the license agreement that would entitle us to a deduction of the entire amount of the NIS 695 million license fee outstanding. Accordingly, we requested the Israeli Ministry of Communications to reduce the amount of the bank guarantee to an amount of NIS 80 million as guarantee of our obligation to achieve certain territorial coverage requirements under our license. On November 21, 2013, the Israeli Ministry of Communications notified HOT Mobile that the license fees shall be decreased to NIS 10 million (which has already been paid) and the bank guarantee shall be decreased from the amount of NIS 695 to an amount of NIS 80 million. For more information "*Description of Our Business—Material Agreements—Provision of certain bank guarantees to the State of Israel relating to performance of certain license terms*".

#### ***HOT Mobile Earnout***

In connection with the acquisition by HOT of HOT Mobile from Altice Securities S.à r.l. ("Altice Securities"), a subsidiary of Altice and affiliate of HOT, HOT agreed to pay to the managers of HOT Mobile and an unrelated third party ("Migad", and, together with the managers of HOT Mobile and Altice Securities, the "Earnout Recipients") additional consideration, in an amount of NIS 450 million, which is subject to future performance targets with respect to HOT Mobile (the "Earnout"). The Earnout includes (i) a contingent future payment of NIS 225 million, paid in four equal installments of NIS 56.25 million, conditioned upon achievement of certain EBITDA targets by HOT Mobile for the years 2013 to 2016, inclusive, and (ii) a contingent future payment of NIS 225 million conditioned on achievement of 7% market share, as defined in the HOT Mobile's mobile license, in the mobile market by 2016. There is a mechanism to reduce the payments required under the Earnout to the extent HOT Mobile is required to make payments to the Israeli Ministry of Communications pursuant to the mobile license. As of September 30, 2013, we estimate that the fair value of the Earnout is NIS 244 million and Altice Securities has pro rata rights to approximately 94% of the Earnout. Altice Securities has transferred its rights and entitlements to payments under the Earnout to Altice Finco (the assigned rights only include such payments that would actually have been received by Altice Securities). In June 2013,

HOT paid NIS 90 million under the Earnout to the Earnout Recipients in accordance with the terms of the Earnout, out of which Altice Finco received NIS 86.4 million. Furthermore, in the months of August and September 2013, HOT transferred amounts of NIS 4.5 million and NIS 1.5 million to Migad Communications Ltd. and to the other parties, respectively on behalf their share of the above consideration. See “*Certain Relationships and Related Party Transactions—HOT Mobile Earnout*”.

### ***HOT Refinancing Note***

*The following contains a summary of the terms of the HOT Proceeds Term Note and the HOT Refinancing RCF Note. It does not purport to be complete and is subject to, and qualified in its entirety by reference to, the underlying documents.*

### ***HOT Proceeds Term Note***

On the 2012 Transaction Completion Date, in connection with the 2012 Transaction, Altice Financing purchased an NIS 1,900 million (€408 million equivalent) intercompany term note (the “HOT Proceeds Term Note”) issued by HOT.

### ***Interest***

The HOT Proceeds Term Note bears interest at a rate of 6.3% per annum, which is payable semi-annually in cash in arrears on the date which is two business days prior to each June 15 and December 15, commencing on the date which is two business days prior to June 15, 2013 and shall be calculated on the basis of a three hundred and sixty (360) day year composed of twelve (12) months of thirty (30) days each. Interest accrues from 2012 Transaction Completion Date. The maturity date of the HOT Proceeds Term Note is the same as the maturity date of the 2012 Senior Secured Notes.

### ***Guarantees and Security***

The HOT Proceeds Term Note is a senior obligation of HOT and is guaranteed on a senior basis by the HOT Refinancing Note Guarantors. The HOT Proceeds Term Note is secured by a pledge over substantially all of the assets of the HOT and the HOT Refinancing Note Guarantors (including all of the share capital of HOT Mobile) but, in each case, excluding (a) licenses issued by the Israeli Ministry of Communications, which are not assignable as a matter of law, and (b) certain end-user equipment (the “HOT Refinancing Note Collateral”).

### ***Repayment***

HOT may not prepay the HOT Proceeds Term Note except (i) in the event of a Change of Control, as defined in the HOT Proceeds Term Note, (ii) upon certain asset sales and (iii) if duly approved by HOT and required in order to facilitate or accommodate a repayment of the 2012 Senior Secured Notes by Altice Financing.

### ***Change of Control***

If a change of control occurs, Altice Financing will have the right to require HOT to prepay all or any part of the HOT Proceeds Term Note, together with a premium of 1% of the principal amount of the HOT Proceeds Term Note prepaid, plus accrued and unpaid interest, to the date of prepayment.

Change of Control is defined as

- (a) the consummation of any transaction (including, without limitation, any merger or consolidation), the result of which is that any Person (as defined in the HOT Proceeds Term Note, including any “person” (as that term is used in Section 13(d)(3) of the Exchange Act)) other than one or more Permitted Holders (as defined in the HOT Proceeds Term Note) becomes the Beneficial Owner, directly or indirectly, of more than 50% of the issued and outstanding Voting Stock of HOT, measured by voting power rather than number of shares; or
- (b) the direct or indirect sale, lease, transfer, conveyance or other disposition (other than by way of merger, consolidation or other business combination transaction), in one or a series of related transactions, of

all or substantially all of the assets of HOT and its restricted subsidiaries taken as a whole to a Person (including any “person” as defined above), other than a Permitted Holder.

#### *Covenants and Events of Default*

HOT has agreed, and has agreed to cause each of its subsidiaries, for the sole benefit of Altice Financing, (i) to be bound by the covenants in Article 4 (*Covenants*) and Article 5 (*Merger and Consolidation*) of the 2012 Senior Secured Notes Indenture that are applicable to HOT and its subsidiaries as Restricted Subsidiaries (as defined in the 2012 Senior Secured Notes Indenture), (ii) if duly appointed as Paying Agent under the 2012 Senior Secured Notes Indenture, to be bound by the obligations in the 2012 Senior Secured Notes Indenture relating thereto and (iii) to comply with the obligations set forth in the section to be titled “Collateral and Security Documents” in the 2012 Senior Secured Notes Indenture.

The HOT Proceeds Term Note contains events of default, substantially similar to those contained in the 2012 Senior Secured Notes Indenture which, if such event of default occurs, permits Altice Financing to declare the HOT Proceeds Term Note due and payable immediately. However, upon an event of default under the Notes (or any other senior secured debt), HOT and its subsidiaries shall not be liable in any way, including by way of cross-default, and shall not be required to repay any amounts outstanding, including any repayment premiums and accrued and unpaid interest thereon, under the Notes (or any other senior secured debt). Further, the HOT Refinancing Note Guarantors will only guarantee HOT’s obligations under the HOT Refinancing Notes (the “HOT Refinancing Note Guarantees”). The HOT Refinancing Note Guarantees will be limited to an aggregate amount equal to the amount outstanding under the HOT Refinancing Notes which may vary from time to time in accordance with the terms of the HOT Refinancing Notes. HOT and the HOT Refinancing Note Guarantors will only have liability to the holders of the Senior Secured Notes in the event of an event of default under the HOT Refinancing Notes, in each case, indirectly as a result of an assignment of the HOT Refinancing Notes and/or the ability of the holders of the 2012 Senior Secured Notes to direct the actions of Altice Financing in connection with the HOT Refinancing Notes in accordance with the terms of the Intercreditor Agreement, to the extent permitted thereby. The 2012 Senior Notes, the 2013 Senior Notes and the New Senior Notes will not benefit from any assignment of the HOT Refinancing Notes.

#### *Limitation of Liability*

For the avoidance of doubt and without in any way limiting HOT’s and the HOT Refinancing Note Guarantors’ obligations to Altice Financing pursuant to the HOT Proceeds Term Note, in any event, including in the event of a default by HOT and/or the HOT Refinancing Note Guarantors under the HOT Proceeds Term Note, or by Altice Financing under the 2012 Senior Secured Notes or the 2012 Revolving Credit Facility or the relevant borrower under the Cool Proceeds Note, the Acquisition Proceeds Note or any documents related to any of the foregoing, HOT and the HOT Refinancing Note Guarantors shall not be liable in any way, including by way of cross default, and shall not be required to repay any amounts outstanding, any repayment premiums and accrued and unpaid interest thereon, under the 2012 Senior Secured Notes, the 2012 Revolving Credit Facility, the Cool Proceeds Note and the Acquisition Proceeds Note or any documents related to any of the foregoing. It is further clarified that the HOT Refinancing Note Guarantors serve as guarantors only with respect to the HOT’s debt obligation under the HOT Proceeds Term Note.

#### *Conflicts*

For the avoidance of doubt, and despite HOT not being party to such agreements, other than with respect to the covenants described above, in the event that any of the other terms or provisions of this HOT Proceeds Term Note conflict with any terms or provisions of the 2012 Senior Secured Notes Indenture, Intercreditor Agreement or related agreements that are applicable to HOT and the HOT Proceeds Term Note, Altice Financing has agreed and acknowledged that (as between HOT and Altice Financing only) the terms or provisions of the HOT Proceeds Term Note shall prevail.

#### *HOT Refinancing RCF Note*

On the 2012 Transaction Completion Date, in connection with the 2012 Transaction, Altice Financing purchased an intercompany revolving credit facility note (the “HOT Refinancing RCF Note” and, together with the HOT Proceeds Term Note, the “HOT Refinancing Notes”) issued by HOT pursuant to which Altice Financing may make available to HOT amounts borrowed by Altice Financing under the 2012 Revolving Credit

Facility Agreement. The HOT Refinancing RCF Note contains substantially similar terms as the HOT Proceeds Term Note except that, in addition to the covenants contained in the HOT Proceeds Term Note, the HOT Refinancing RCF Note contains one leverage based maintenance covenant. The HOT Refinancing RCF Note is guaranteed by the HOT Refinancing Note Guarantors and secured by the same HOT Refinancing Note Collateral that secures the HOT Refinancing Term Note.

### ***Senior Notes Proceeds Loans***

The Senior Notes Proceeds Loans comprise of the following:

- (i) On the 2012 Transaction Completion Date, in connection with the 2012 Transaction, Altice Finco made an intercompany loan (the “2012 Senior Notes Proceeds Loan”) in aggregate principal amount of approximately \$425 million pursuant to which it loaned the proceeds of the offering of the 2012 Senior Notes to Altice Financing.
- (ii) On July 2, 2013 Altice Finco made an intercompany loan of €250 million pursuant to which the proceeds of the 2013 Senior Notes were loaned to Altice Financing (the “2013 Senior Notes Proceeds Loan”, and, together with the 2012 Senior Notes Proceeds Loan (the “Existing Senior Notes Proceeds Loans”).
- (iii) Upon release of the proceeds of the 2013 Dollar Senior Notes from escrow, Altice Finco will make an intercompany loan to Altice Financing pursuant to which it will loan such proceeds to Altice Financing (the “2013 Dollar Senior Notes Proceeds Loan” and, together with the Existing Senior Notes Proceeds Loans, the “Senior Notes Proceeds Loans”). The terms of the Senior Notes Proceeds Loans are customary for intercompany proceeds loans. The 2012 Senior Notes Proceeds Loan accrues interest at a rate equal to the interest rate of the 2012 Senior Notes. The maturity date of the 2012 Senior Notes Proceeds Loan is the same as the maturity date of the 2012 Senior Notes. The 2013 Senior Notes Proceeds Loan accrues interest at a rate equal to the interest rate of the 2013 Senior Notes. The maturity date of the 2013 Senior Notes Proceeds Loan is the same as the maturity date of the 2013 Senior Notes. The 2013 Dollar Senior Notes Proceeds Loan will accrue interest at a rate equal to the interest rate of the 2013 Dollar Senior Notes. The maturity date of the 2013 Dollar Senior Notes Proceeds Loan will be the same as the maturity date of the 2013 Dollar Senior Notes. Payments on the Senior Notes Proceeds Loans are subject to the Existing Intercreditor Agreement.

### ***Additional Intercompany Proceeds Loans***

On the 2012 Transaction Completion Date, Altice Financing made intercompany proceeds loans, in addition to the HOT Refinancing Note, to certain entities in the Group with the proceeds of the 2012 Senior Secured Notes and the 2012 Senior Notes Proceeds Loan.

On July 2, 2013 Altice Financing made an intercompany loan to Altice Holdings with the proceeds of the 2013 Senior Notes and the 2013 Term Loan. Altice Holdings made additional intercompany proceed loans (or subscribe to bonds), including the ABO Proceeds Loan, the New Cabovisão Proceeds Notes, the Altice West Groupe Proceeds Loan, the Outremer Proceeds Loans, the Le Cable Proceeds Loans and the Onitelecom Proceeds Notes (the “Covenant Party Pledged Proceeds Loans”) to certain entities in the Group in connection with consummation of the 2013 June Transactions.

In connection with the Transactions, Altice Financing will use amounts borrowed under the New Senior Notes Proceeds Loan and the proceeds of the offering of the New Numericable Senior Secured Notes to make a proceeds loan (the “2013 December AH Proceeds Loan”) to Altice Holdings. Altice Holdings will use the proceeds under the 2013 December AH Proceeds Loan to subscribe to common shares and subordinated preferred equity certificates issued by Altice Bahamas and its subsidiaries, which in turn used such proceeds to consummate the ODO Acquisition and the Tricom Acquisition.

These loans (other than the New Cabovisão Proceeds Notes and the Onitelecom Proceeds Notes) are pledged as security for the senior secured debt. The securities account of Altice Holdings where the New Cabovisão Proceeds Notes and the Onitelecom Proceeds Notes are registered is pledged as security for the senior secured debt (other than the 2013 Senior Secured Notes).

The 2013 Senior Notes and 2012 Senior Notes do not benefit from any security over the intercompany proceeds loans granted by Altice Financing.

## **Indebtedness of the Numericable Group**

### ***New Numericable Term Loan***

#### *Overview*

On or around the Issue Date, Numericable entered into a senior secured term loan credit facility (the “New Numericable Term Loan”) which is expected to provide euro and U.S. dollar term loans in an aggregate principal amount equivalent to €3780 million, with Numericable, Ypso France S.A.S and Numericable U.S. LLC as borrowers (the “Term Loan Borrowers”), certain lenders party thereto and Deutsche Bank AG, London Branch as the Administrative Agent and as the security agent (the “New Numericable Term Loan Agreement”). The New Numericable Term Loan Agreement permits the Term Loan Borrowers, upon prior notice to the lenders thereunder, to draw term loans up to the committed principal amount on a single occasion prior to April 30, 2015. Availability of the New Numericable Term Loan on such date is subject to specified conditions precedent. Proceeds of the term loans, together with the other sources of funds described under “*Use of Proceeds*,” will be used to finance a portion of the Transactions and related fees and expenses.

Numericable may draw under the New Numericable Term Loan on a single occasion at any time on or prior to the earlier of (a) the date on which the portion of the lenders’ commitments under the New Numericable Term Loan not related to the Numericable Refinancing Transactions cease to exist by virtue of the SFR Acquisition being abandoned or funded by other means, (b) July 31, 2014 unless the exclusivity granted to Numericable in respect of the SFR Acquisition has been extended, and (c) April 30, 2015 (the “Commitment Termination Date”). Amounts drawn but not used on the Numericable Refinancing Transactions will be deposited into an escrow account and used on the Completion Date.

#### *Interest Rate and Fees*

Borrowings under the New Numericable Term Loan bear interest at a rate per annum equal to an applicable margin plus (i) in the case of U.S. dollar denominated loans, at our option, either (a) a base rate determined by reference to the highest of (1) the U.S. Federal Funds rate plus 0.5%, (2) the prime rate determined from time to time by Deutsche Bank AG, New York Branch as the prime rate, (3) the LIBOR rate determined by reference to the costs of funds for U.S. dollar deposits for an interest period of one month adjusted for certain additional costs, plus 1.00% and (4) a floor of 1.75% or (b) a LIBOR rate equal to the greater of (A) a rate determined by reference to the costs of funds for U.S. dollar deposits for the interest period relevant to such borrowing adjusted for certain additional costs, and (B) %, and (ii) in the case of euro-denominated loans, a EURIBOR rate determined by reference to the costs of funds for euro deposits for the interest period relevant to such borrowing adjusted for certain additional costs, provided that such EURIBOR rate shall not be less than 0.75%.

The applicable margin shall mean, for any day, (a) with respect to any alternative base rate loan, 2.75 % per annum, (b) with respect to any Eurodollar loan, 3.75% per annum and (c) with respect to any Euro denominated loan, 3.75% per annum.

In addition to paying interest on outstanding principal under the New Numericable Term Loan, we are required to pay a ticking fee to the lenders in respect of the unutilized commitments thereunder, payable on the date of each drawing and upon any reduction or termination of the commitments.

#### *Mandatory Prepayments*

The New Numericable Term Loan Agreement requires us to prepay outstanding term loans, subject to certain exceptions, with (i) 100% of the net cash proceeds of certain asset sales, subject to thereunder reinvestment rights and certain other exceptions; and (ii) commencing with the fiscal year ended December 31, 2014, 50% of our annual excess cash flow, which percentage will be reduced to 0% if our Consolidated Net Leverage Ratio is less than 4.0:1.0. We will not be required to make any such prepayments from the proceeds of asset sales made as a consequence of competition laws to the extent that such proceeds do not exceed 2% of the pro forma total assets of Numericable and its Restricted Subsidiaries.

### *Voluntary Prepayments*

Prepayments of the New Numericable Term Loan on or prior to the six month anniversary of the closing date of the New Numericable Term Loan which are either (x) in connection with a Repricing Transaction (as defined in the New Numericable Term Loan) or (y) effects any amendment of the New Numericable Term Loan resulting in a Repricing Transaction, are subject to a call premium payable to the Administrative Agent on behalf of the lenders of, in the case of (x) 1% of the principal amount of the New Numericable Term Loan so repaid and in the case of (y) a payment equal to 1% of the aggregate amount of the New Numericable Term Loan subject to such Repricing Transaction.

### *Amortization and Final Maturity*

Beginning with the first full fiscal quarter of Numericable after the Commitment Termination Date or, if earlier, the first date after the occurrence of both the Numericable Refinancing Transactions and the SFR Acquisition, we will be required to make scheduled quarterly payments each equal to 0.25% of the original principal amount of the term loans borrowed under the New Numericable Term Loan, with the balance expected to be due on the sixth anniversary of the completion date.

### *Guarantees*

Each Guarantor of the New Numericable Senior Secured Notes and Numericable guarantees, on a senior basis, the obligations of each other obligor under the New Numericable Term Loan Agreement and related finance documents subject to applicable guarantee limitations specified therein.

### *Security*

The New Numericable Term Loan is secured by the same collateral securing, *inter alia*, the New Numericable Senior Secured Notes (other than any security over the proceeds of the New Numericable Senior Secured Notes in any escrow accounts).

### *Certain Covenants and Events of Default*

The New Numericable Term Loan Agreement includes negative covenants that substantially reflect the covenants contained in the indenture governing the Numericable Group Senior Secured Notes, and, among other things and subject to certain significant exceptions and qualifications, limit our ability and the ability of our restricted subsidiaries to: (i) incur or guarantee additional Indebtedness, subject to an incurrence based Consolidated Net Leverage Ratio test, (ii) make investments or other restricted payments, (iii) create liens, (iv) sell assets and subsidiary stock, (v) pay dividends or make other distributions or repurchase or redeem our capital stock or subordinated debt, (vi) engage in certain transactions with affiliates, (vii) enter into agreements that restrict the payment of dividends by subsidiaries or the repayment of intercompany loans and advances; and (viii) engage in mergers or consolidations.

The New Numericable Term Loan Agreement also contains certain customary representations and warranties, affirmative covenants and events of default (including, among others, an event of default upon a change of control trigger event). If an event of default occurs, the lenders under the New Numericable Term Loan will be entitled to take various actions, including the acceleration of amounts due under the New Numericable Term Loan and all actions permitted to be taken by a secured creditor, subject to the Numericable Group Intercreditor Agreement.

Following the Transactions, the New Numericable Term Loan will permit the incurrence of indebtedness so long as the consolidated net leverage ratio (pro forma for such transaction) is not greater than 4.0 to 1.0 and such indebtedness may be secured if the consolidated net leverage ratio (pro forma for such transaction) is not greater than 3.25 to 1.0. Subject to compliance with the 4.0 to 1.0 consolidated net leverage ratio (pro forma for such transactions) and so long as there is not default or event of default outstanding, the New Numericable Term Loan Agreement permits the distribution of dividends and other restricted payments so long as the aggregated amount of restricted payments does not exceed the sum of an amount equal to the consolidated EBITDA generated from the period beginning on the first full fiscal quarter commencing prior to the Issue Date until the most recently ended quarter, less 1.5 times the consolidated interest expense for such period. The restricted payment capacity is also subject to increase based on certain provisions that are customary

for an incurrence based covenant package. In addition, unlimited restricted payments under the terms of the Numericable Group Term Loan Agreement are permitted so long as the consolidated leverage ratio (pro forma for such transaction) is not greater than 4.0 to 1.0.

The New Numericable Term Loan will also provide that, for so long as no payment block events have occurred and are continuing, Numericable may pay dividends or other distributions to its shareholders in an amount such that Altice France's pro rata share of such dividends or other distributions is equal to the amount required by Altice S.A. for the payment of regularly scheduled interest as such amounts come due under the Notes and the Altice S.A. Revolving Credit Facility Agreement, less the amount of dividends or distributions paid under the provision described in the following sentence. For so long as no default or event of default is outstanding under the relevant debt instrument, and while Numericable is a public company, Numericable will also be permitted to pay dividends in an annual amount not to exceed (A) the greater of (i) 6% of the net cash proceeds received from certain public equity offerings and (ii) the greater of 5% of the market capitalization of Numericable at the time of its initial public offering and 5% of market capitalization at the time of the dividend, less (B) the amount of dividends or distributions paid pursuant to the preceding sentence, provided that dividends may only be paid in respect of this sentence if the consolidated net leverage ratio of Numericable 4.0x or less.

### ***The Numericable Group Senior Secured Notes***

#### ***New Numericable Senior Secured Notes***

On or about the Issue Date, Numericable issued €7,873 million (equivalent) in aggregate principal amount of senior secured notes, comprised of the following tranches: (i) \$2,400 million aggregate principal amount of its Senior Secured Notes due 2019 denominated in U.S. dollars (the "2019 Dollar Notes"), (ii) \$4,000 million aggregate principal amount of its Senior Secured Notes due 2022 denominated in U.S. dollars (the "2022 Dollar Notes"), (iii) €1,000 million aggregate principal amount of its Senior Secured Notes due 2022 denominated in euro (the "2022 Euro Notes" and, together with the 2022 Dollar Notes, the "2022 Notes"), (iv) \$1,375 million aggregate principal amount of its Senior Secured Notes due 2024 denominated in U.S. dollars (the "2024 Dollar Notes") and (v) €1,250 million aggregate principal amount of its Senior Secured Notes due 2024 denominated in euro (the "2024 Euro Notes" and, together with the 2024 Dollar Notes, "2024 Notes" and the 2019 Notes, the 2022 Notes and the 2024 Notes collectively, the "New Numericable Senior Secured Notes"). The 2019 Notes will mature on May 15, 2019, the 2022 Notes will mature on May 15, 2022 and the 2024 Notes will mature on May 15, 2024. Interest on the New Numericable Senior Secured Notes is payable semi-annually in cash in arrears on each February 15 and August 15, commencing on August 15, 2014. Each of the 2019 Notes, the 2022 Notes and the 2024 Notes will be governed by an indenture to be entered into on or about the Issue Date (collectively, the "New Numericable Senior Secured Notes Indentures").

The New Numericable Senior Secured Notes are general obligations of Numericable and (i) rank *pari passu* in right of payment with all existing and future indebtedness of Numericable that is not subordinated in right of payment to the New Numericable Senior Secured Notes, including indebtedness under the New Numericable Term Loan, the Numericable Group Revolving Credit Facilities Agreement and certain hedging obligations; (ii) rank senior in right of payment to all existing and future indebtedness of Numericable that is expressly subordinated in right of payment to the New Numericable Senior Secured Notes; and (iii) will be effectively subordinated to any existing and future indebtedness of Numericable that is secured by property or assets that do not secure the New Numericable Senior Secured Notes, to the extent of the value of the property and assets securing such indebtedness.

On the Issue Date, the Initial Purchasers deposited the gross proceeds from the offering of the New Numericable Senior Secured Notes into segregated escrow accounts in the name of Numericable for the benefit of the holders of the relevant series of Notes.

Prior to the date on which the proceeds of the Notes are released from escrow (the "Completion Date"), the New Numericable Senior Secured Notes will not be guaranteed. On the Completion Date, the New Numericable Senior Secured Notes will be guaranteed on a senior basis by each of Ypso France S.A.S., Coditel Debt S.à r.l. Ypso Finance S.à r.l., NC Numericable S.A.S., Altice B2B France S.A.S., Completel S.A.S., Numericable US S.A.S. and Numericable U.S. LLC (such guarantors, collectively, the "Completion Date Guarantors"). Within 90 days of the Completion Date, the Notes will be guaranteed by SFR and may be guaranteed by certain of its subsidiaries.

Prior to the Completion Date, the New Numericable Senior Secured Notes will be secured by a first-ranking pledge over the assets in the respective escrow accounts and Numericable's rights under the escrow agreement governing such escrow accounts. On the Completion Date, the New Numericable Senior Secured Notes will benefit from: (i) senior pledges over all of the capital stock of the Completion Date Guarantors, (ii) certain intercompany loans being entered into in connection with the Transactions, (iii) senior pledges over the business (*fonds de commerce*) of NC Numericable S.A.S.; (iv) senior pledges over certain bank accounts, intercompany receivables and intellectual property rights of the Completion Date Guarantors and (v) certain bank accounts of the Issuer.

In addition, within 90 days after the Completion Date, the New Numericable Senior Secured Notes will benefit from: (i) senior pledges over all of the capital stock of SFR and any of its subsidiaries that become guarantors of the New Numericable Senior Secured Notes; (ii) a senior pledge over certain bank accounts of SFR; (iii) a senior pledge over the business (*fonds de commerce*) (including intellectual property) of SFR; and (iv) senior pledges over receivables owed to SFR by certain of its subsidiaries. Under the terms of the Numericable Group Intercreditor Agreement, in the event of an enforcement of the collateral securing the New Numericable Senior Secured Notes, the holders of the New Numericable Senior Secured Notes will receive proceeds from the such collateral *pari passu* with the lenders under the New Numericable Term Loan, the lenders under the Numericable Group Revolving Credit Facilities Agreement and counterparties to certain hedging agreements.

Prior to May 15, 2016, Numericable may redeem all or a portion of the 2019 Notes at a price equal to 100% of the principal amount plus a make whole premium. Numericable may redeem some or all of the 2019 Notes at any time on or after May 15, 2016, at a redemption price equal to their principal amount plus a premium, accrued and unpaid interest and additional amounts, if any. In addition, prior to May 15, 2016, Numericable may redeem up to 40% of each series of the aggregate principal amount of the 2019 Notes with the proceeds of certain public or private equity offerings at a redemption price equal to 104.875% of the principal amount of the 2019 Notes, plus, in each case, accrued and unpaid interest and additional amounts, if any, to the redemption date, provided that at least 60% of the original aggregate principal amount of each series of the 2019 Notes remains outstanding after the redemption and the redemption occurs within 180 days after the closing of such equity offering.

Prior to May 15, 2017, Numericable may redeem all or a portion of the 2022 Notes at a price equal to 100% of the principal amount plus a make whole premium. Numericable may redeem some or all of the 2022 Notes at any time on or after May 15, 2017, at a redemption price equal to their principal amount plus a premium, accrued and unpaid interest and additional amounts, if any. In addition, prior to May 15, 2017, Numericable may redeem up to 40% of each series of the aggregate principal amount of the 2022 Notes with the proceeds of certain public or private equity offerings at a redemption price equal to 105.375% of the principal amount of the 2022 Euro Notes and 106.00% of the principal amount of the 2022 Dollar Notes, plus, in each case, accrued and unpaid interest and additional amounts, if any, to the redemption date, provided that at least 60% of the original aggregate principal amount of each series of the 2022 Notes remains outstanding after the redemption and the redemption occurs within 180 days after the closing of such equity offering.

Prior to May 15, 2019, Numericable may redeem all or a portion of the 2024 Notes at a price equal to 100% of the principal amount plus a make whole premium. Numericable may redeem some or all of the 2024 Notes at any time on or after May 15, 2019, at a redemption price equal to their principal amount plus a premium, accrued and unpaid interest and additional amounts, if any. In addition, prior to May 15, 2017, Numericable may redeem up to 40% of each series of the aggregate principal amount of the 2024 Notes with the proceeds of certain public or private equity offerings at a redemption price equal to 105.625% of the principal amount of the 2024 Euro Notes and 106.250% of the principal amount of the 2024 Dollar Notes, plus, in each case, accrued and unpaid interest and additional amounts, if any, to the redemption date, provided that at least 60% of the original aggregate principal amount of each series of the 2024 Notes remains outstanding after the redemption and the redemption occurs within 180 days after the closing of such equity offering.

The New Numericable Senior Secured Notes Indentures permit the incurrence of indebtedness by Numericable or a guarantor of the New Numericable Senior Secured Notes so long as the consolidated net leverage ratio (pro forma for such transaction) is not greater than 4.0 to 1.0 and such indebtedness may be secured if the consolidated net leverage ratio (pro forma for such transaction) is not greater than 3.25 to 1.0. Subject to compliance with the 4.0 to 1.0 consolidated net leverage ratio (pro forma for such transaction) and so long as there is not default or event of default outstanding, the New Numericable Senior Secured Notes

Indentures permit the distribution of dividends and other restricted payments so long as the aggregated amount of restricted payments does not exceed the sum of an amount equal to the consolidated EBITDA generated from the period beginning on the first full fiscal quarter commencing prior to the Issue Date until the most recently ended quarter, less 1.5 times the consolidated interest expense for such period. The restricted payment capacity is also subject to increase based on certain provisions that are customary for an incurrence based covenant package. In addition, unlimited restricted payments under the New Numericable Senior Secured Notes Indentures are permitted so long as the consolidated leverage ratio (pro forma for such transaction) is not greater than 4.0 to 1.0. Further, subject to certain payment blocking events (i.e., a payment default or acceleration of the New Numericable Senior Secured Notes) the New Numericable Senior Secured Notes Indentures permit the Numericable, Numericable may pay dividends or other distributions to its shareholders in an amount such that Altice France's pro rata share of such dividends or other distributions is equal to the amount required by Altice S.A. for the payment of regularly scheduled interest as such amounts come due under the Notes and the Altice S.A. Revolving Credit Facility Agreement, less the amount of dividends or distributions paid under the provision described in the following sentence. For so long as no default or event of default is outstanding under the relevant debt instrument, and while Numericable is a public company, Numericable will also be permitted to pay dividends in an annual amount not to exceed (A) the greater of (i) 6% of the net cash proceeds received from certain public equity offerings and (ii) the greater of 5% of the market capitalization of Numericable at the time of its initial public offering and 5% of market capitalization at the time of the dividend, less (B) the amount of dividends or distributions paid pursuant to the preceding sentence, provided that dividends may only be paid in respect of this sentence if the consolidated net leverage ratio of Numericable 4.0x or less.

The New Numericable Senior Secured Notes Indentures, among other things, further limit the ability of Numericable and the ability of the Restricted Subsidiaries (as defined therein) to (i) make investments or other restricted payments; (ii) create liens; (iii) sell assets and subsidiary stock; (iv) pay dividends or make other distributions or repurchase or redeem capital stock or subordinated debt; (v) engage in certain transactions with affiliates; (vi) enter into agreements that restrict the payment of dividends by subsidiaries or the repayment of intercompany loans and advances; and (vii) engage in mergers or consolidations. These covenants are subject to a number of important exceptions and qualifications.

The New Numericable Senior Secured Notes Indentures provide for certain events of default, including, among others, defaults under other debt instruments which (i) is caused by the failure to pay principal of, or interest or premium, if any, on indebtedness at its stated maturity prior to expiration of any applicable grace period, or (ii) results in the acceleration of such indebtedness prior to its maturity, and, in each case, the principal amount of such indebtedness (together with the principal amount of any other such indebtedness under which there has been a payment default or the maturity of which has been accelerated) aggregates €25 million or more.

The New Numericable Senior Secured Notes Indentures are governed by the laws of the State of New York.

### ***The Numericable Group Revolving Credit Facilities***

Numericable is expected to enter into a €750 million revolving credit facilities agreement (the "Numericable Group Revolving Credit Facilities Agreement") on or about the Issue Date with, among others, the original lenders party thereto (the "Numericable RCF Lenders"), the mandated lead arrangers party thereto, Deutsche Bank AG, London Branch as facility agent and as security agent, pursuant to which the Numericable RCF Lenders have agreed to provide Numericable and certain of its subsidiaries with a €750 million senior secured revolving credit facilities (the "Numericable Group Revolving Credit Facilities Agreement"), split into: (i) a €300 million revolving facility (the "Numericable Group Facility A") available from the date of the Refinancing Transaction; and (ii) a €450 million revolving facility (the "Numericable Group Facility B") available from the date of the SFR Acquisition. Subject to certain requirements, the Numericable Group Revolving Credit Facilities Agreement may be utilized by way of cash drawings and guarantees.

### ***Limitations on Use of Funds***

The Numericable Group Revolving Credit Facilities Agreement may be used by Numericable and certain of its subsidiaries for general corporate and working capital purposes of Numericable and its subsidiaries (excluding certain unrestricted subsidiaries) (the "Numericable Borrower Group"), including, but not limited to, the Numericable Refinancing Transaction and the SFR Acquisition.

### *Conditions to Borrowing*

A drawdown under the Numericable Group Revolving Credit Facilities Agreement cannot be made until, among other things, the facility agent has received (or waived) certain customary conditions precedent documents and evidence in form and substance reasonably satisfactory to it. Drawdowns are subject to further customary conditions including, among other things, that on the date the drawdown is requested and on the drawdown date (i) no default is continuing or occurring as a result of that drawdown, (ii) certain specified representations and warranties are true in all material respects, and (iii) that the consolidated net senior secured leverage ratio is not greater than the ratio specified in the Numericable Group Revolving Credit Facilities Agreement.

### *Incremental Facility*

Subject to the satisfaction of certain conditions set out in the Numericable Group Revolving Credit Facilities Agreement, a new commitment lender (selected by Numericable) may provide new or additional commitments under the Numericable Group Revolving Credit Facilities Agreement.

### *Interest Periods, Interest Rates and Fees*

Numericable and certain of its subsidiaries are permitted to make a specified number of drawdowns under each Numericable Group Revolving Credit Facilities for terms of one, two, three or six months (or any other period agreed by the Numericable and the facility agent), but no such period shall end beyond the final maturity date of the Numericable Group Revolving Credit Facilities Agreement. Drawdowns under the Numericable Group Revolving Credit Facilities must be repaid at the end of the interest period for the relevant loan and repaid amounts may be re-borrowed up to one month prior to the final maturity date.

The interest rate on each loan under the Numericable Group Revolving Credit Facilities Agreement for each interest period is equal to the aggregate of: (x) the applicable margin and (y) EURIBOR. The margin under the Numericable Group Revolving Credit Facilities Agreement is between 3.25% and 3.50% per annum. Interest accrues daily from and including the first day of an interest period and is payable on the last day of each interest period (unless the interest period is longer than six months, in which case interest is payable on the last day of each six-month period).

With respect to any available but undrawn amounts under the Numericable Group Revolving Credit Facilities Agreement, Numericable is obligated to pay a commitment fee on the available undrawn amounts at the rate of       % of the margin calculated on undrawn and un-cancelled commitments from a date to be agreed between Numericable and the Lenders until one month prior to the final maturity date of the Numericable Group Revolving Credit Facilities Agreement.

### *Repayment*

The final maturity date of the Numericable Group Revolving Credit Facilities Agreement will be the earlier of (i) the date falling five years after the date of the Refinancing Transaction, (ii) the date falling five years after the date on which the proceeds in the Escrow Account are released and (iii) the date on which the Numericable Group Revolving Credit Facilities are fully repaid and cancelled.

### *Automatic Cancellation*

Customary partial or total cancellation events apply to the Numericable Group Revolving Credit Facilities Agreement, including where it becomes unlawful for any Numericable RCF Lender to fund, issue or maintain its participation in the Numericable Group Revolving Credit Facilities Agreement.

In addition, Numericable Group Facility B will be automatically and permanently cancelled if (i) the New Numericable Senior Secured Notes are repaid pursuant to a Special Mandatory Redemption (as defined under the indenture governing the New Numericable Senior Secured Notes), (ii) if the SFR Acquisition has not occurred on or before a long stop date agreed with the Numericable RCF Lenders, or (iii) if Vivendi enters into a sale and purchase agreement in respect of SFR other than with Numericable or an affiliate of Numericable or if Numericable or an affiliate of Numericable withdraws from the SFR Acquisition (each, a “Numericable Facility B Cancellation Event”).

The Numericable Group Facility A will be automatically and permanently cancelled in full (i) if a Numericable Facility B Cancellation Event occurs before the date of the Numericable Refinancing Transaction or (ii) in part only if a Numericable Facility B Cancellation Event occurs after the date of the Numericable Refinancing Transaction (provided that the aggregate amount of Numericable Group Facility A following any cancellation is not less than €150 million).

#### *Mandatory Prepayment*

Upon the occurrence of a Change of Control Triggering Event (as defined in the Numericable Group Revolving Credit Facilities Agreement), Numericable and the other borrowers thereunder must repay the Numericable Group Revolving Credit Facilities in full together with accrued interest and all other amounts accrued under related finance documents and the Numericable Group Revolving Credit Facilities Agreement will be cancelled.

Certain excess proceeds received by Numericable from certain disposals of assets and not applied or invested or committed to be applied or invested to (i) prepay, repay, purchase or redeem certain indebtedness, (ii) invest in or purchase additional assets, or (iii) make certain capital expenditure, must be applied in prepayment of the Numericable Group Revolving Credit Facilities.

#### *Guarantees*

Each of the guarantors of the New Numericable Senior Secured Notes and Numericable will also guarantee the obligations of each obligor under the Numericable Group Revolving Credit Facilities Agreement and related finance documents subject to applicable guarantee limitations specified therein.

#### *Security*

The Numericable Group Revolving Credit Facilities Agreement will be secured by the same collateral as the New Numericable Senior Secured Notes (other than any security over proceeds of the New Numericable Senior Secured Notes in any escrow accounts).

#### *Representations and Warranties*

The Numericable Group Revolving Credit Facilities Agreement contains representations and warranties usual for facilities of this type subject to certain exceptions and customary materiality qualifications.

#### *Undertakings*

The Numericable Group Revolving Credit Facilities Agreement contains certain restrictive covenants which substantially reflect the covenants contained in the indenture governing the New Numericable Senior Secured Notes.

The Numericable Group Revolving Credit Facilities Agreement will also require Numericable and the Numericable Borrower Group to observe certain general undertakings subject to materiality and other customary and agreed exceptions. These general undertakings, include, but are not limited to, undertakings related to: (i) obtaining and maintaining all necessary consents, licenses and authorizations; (ii) compliance with applicable laws; (iii) compliance with environment laws/approvals and notification of potential environmental claims; (iv) compliance with all necessary taxation requirements; (v) ensuring that any necessary authorization is not likely to be challenged, revoked, suspended or withdrawn so as to cause a material adverse effect; (vi) *pari passu* ranking of all payment obligations under the Numericable Group Revolving Credit Facilities Agreement and related finance documents with other unsecured unsubordinated payment obligations; (vii) the maintenance of insurance; (viii) compliance with laws and contracts relating to pension schemes and the maintenance of such pension schemes; (ix) maintenance and protection of intellectual property rights; (x) no amendments to constitutional documents that are likely to materially adversely affect the collateral; (xi) an Obligor not moving its centre of main interest from, or having an “establishment” in any jurisdiction other than, its jurisdiction of incorporation; and (xii) restricting the making of proceeds drawn under the Numericable Group Revolving Credit Facilities available to any sanctioned person or sanctioned country.

### *Financial Covenants, Events of Default*

After the closing of the SFR Acquisition, the Numericable Group Revolving Credit Facilities Agreement will require Numericable and the Numericable Borrower Group to maintain a Consolidated Net Senior Secured Leverage Ratio (as defined in the Numericable Group Revolving Credit Facilities Agreement) of no more than 4.00:1.00 only to be tested at each drawdown or to the extent there are loans or bank guarantees outstanding under the Numericable Group Revolving Credit Facilities Agreement at the end of each financial quarter.

The Numericable Group Revolving Credit Facilities Agreement contains certain events of default the occurrence of which, subject to certain exceptions and materiality qualifications, will allow the lenders party thereto to: (i) cancel the total commitments; (ii) accelerate all outstanding loans together with other accrued amounts and/or (iii) declare that all or part of the loans be repayable on demand. The proceeds of any enforcement of collateral will be applied in accordance with the Numericable Group Intercreditor Agreement.

Following the Transactions, the Numericable Group Revolving Credit Facilities Agreement will permit the incurrence of indebtedness so long as the consolidated net leverage ratio (pro forma for such transaction) is not greater than 4.0 to 1.0 and such indebtedness may be secured if the consolidated net leverage ratio (pro forma for such transaction) is not greater than 3.25 to 1.0. Subject to compliance with the 4.0 to 1.0 consolidated net leverage ratio (pro forma for such transactions) and so long as there is no default or event of default outstanding, the Numericable Group Revolving Credit Facilities Agreement permits the distribution of dividends and other restricted payments so long as the aggregated amount of restricted payments does not exceed the sum of an amount equal to 100% of the consolidated EBITDA generated from the period beginning on the first full fiscal quarter commencing prior to the Issue Date until the most recently ended quarter, less 1.5 times the consolidated interest expense for such period. The restricted payment capacity is also subject to increase based on certain provisions that are customary for an incurrence based covenant package. In addition, unlimited restricted payments under the terms of the Numericable Group Revolving Credit Facilities Agreement are permitted so long as the consolidated net leverage ratio (pro forma for such transaction) is not greater than 4.0 to 1.0. The Numericable Group Revolving Credit Facilities Agreement will also provide that, for so long as no payment block events have occurred and are continuing, Numericable may pay dividends or other distributions to its shareholders in an amount such that Altice France's pro rata share of such dividends or other distributions is equal to the amount required by Altice S.A. for the payment of regularly scheduled interest as such amounts come due under the Notes and the Altice S.A. Revolving Credit Facility Agreement, less the amount of dividends or distributions paid under the provision described in the following sentence. For so long as no default or event of default is outstanding under the relevant debt instrument, and while Numericable is a public company, Numericable will also be permitted to pay dividends in an annual amount not to exceed (A) the greater of (i) 6% of the net cash proceeds received from certain public equity offerings and (ii) the greater of 5% of the market capitalization of Numericable at the time of its initial public offering and 5% of market capitalization at the time of the dividend, less (B) the amount of dividends or distributions paid pursuant to the preceding sentence, provided that dividends may only be paid in respect of this sentence if the consolidated net leverage ratio of Numericable 4.0x or less.

### *Perpetual Subordinated Notes*

In 2006, one of the Numericable Group's subsidiaries, NC Numericable S.A.S., issued a maximum € 25 million principal amount (excluding capitalized interest) of perpetual subordinated notes (Titres Subordonnés à Durée Indéterminée) ("TSDI") to Vilorex, a subsidiary of GDF Suez of which a €23.65 million principal amount has been subscribed. The TSDI are subordinated by law pursuant to Article L.228-97 of the French Commercial Code and expressly subordinated to part of the financing of the investments referred to below which was made available by NC Numericable S.A.S. The proceeds of the TSDI have been earmarked for financing the construction of plugs in towns located in SIPPEREC's southern hub (Syndicat Intercommunal de la Périphérie de Paris pour l'Electricité et les Réseaux de Communication). The TSDI bear interest at 7% per annum. Interest has been capitalized, and accrued interest on the loan amounted to €14.0 million as of December 31, 2013. The TSDI were issued for an indefinite term, and are repayable in case of the liquidation or dissolution of NC Numericable S.A.S. as well as upon NC Numericable S.A.S. achieving a specified level of revenues with respect to the customers covered by the connectors. Such triggers have not been reached since the TSDI issue date. If those triggers are reached and the TSDI are not prepaid, the interest rate steps up to 9% per annum. The TSDI contain a safeguard clause in connection with these triggers. From September 1, 2015 to September 1, 2019 the parties can call for a meeting to adjust the triggers so as to restore the economic balance

which was contemplated at the time of issuance of the TSDI. NC Numericable S.A.S. may elect to prepay all or part of the TSDI upon ten days' notice in a minimum amount of €5 million. The TSDI are not transferable without NC Numericable S.A.S.'s consent. NC Numericable has a call option to purchase all of the outstanding TSDI for €1 from September 1, 2035. The TSDI must be prepaid in full if the SIPPREC concessions are transferred to a third party and that third party does not assume all of the rights and obligations of NC Numericable S.A.S. under the TSDI.

### ***Security Deposits Received from Customers***

Security deposits received from customers amounted to €51.9 million, €44.5 million and €42.9 million as at December 31, 2013, 2012 and 2011 respectively. These deposits are made when customers receive equipment from the Numericable Group, and the increase in the amount of deposits from December 31, 2011 to December 31, 2013 reflects the increased deposits paid by customers for LaBox due to increased subscriptions including LaBox. Customer deposits are reimbursed when customers terminate their subscriptions, on condition that the customers have paid any outstanding invoices and have returned the equipment. The guarantee deposits are recorded in the balance sheet as items due within more than one year.

### **Indebtedness of Altice SA**

#### ***The Altice S.A. Revolving Credit Facility Agreement***

The Issuer is expected to enter into the Altice S.A. Revolving Credit Facility Agreement on or about the Issue Date with, amongst others, the original lenders party thereto (the "Altice S.A. RCF Lenders"), the mandated lead arrangers party thereto, Deutsche Bank AG, London Branch as facility agent and Deutsche Bank AG, London Branch as security agent, pursuant to which the Altice S.A. RCF Lenders have agreed to provide the Issuer with a €200 million senior secured revolving credit facility.

The description set forth below sets out the principal terms and conditions of the Altice S.A. Revolving Credit Facility Agreement.

#### ***Limitations on Use of Funds***

Prior to the completion of SFR Acquisition, the Altice S.A. Revolving Credit Facility may be used by the Issuer to service interest on the proceeds of the Notes deposited in escrow. After the completion of the SFR Acquisition, the Altice S.A. Revolving Credit Facility may be used by the Issuer for general corporate and working capital purposes of the Issuer and its subsidiaries (excluding certain unrestricted subsidiaries) (the "Altice S.A. Borrower Group").

#### ***Conditions to Borrowing***

A drawdown of the Altice S.A. Revolving Credit Facility cannot be made until, among other things, the facility agent has received (or waived) certain customary conditions precedent documents and evidence in form and substance reasonably satisfactory to it. Drawdowns are subject to further customary conditions including, among other things, that on the date the drawdown is requested and on the drawdown date (i) no default is continuing or occurring as a result of that drawdown, (ii) certain specified representations and warranties are true in all material respects, and (iii) that the consolidated leverage ratio is not greater than the specified ratio in the Altice S.A. Revolving Credit Facility Agreement.

#### ***Interest Periods, Interest Rates and Fees***

The Issuer is permitted to make a specified number of drawdowns under the Altice S.A. Revolving Credit Facility Agreement with interest periods relating thereto of one, two, three or six months (or any other period agreed by the Issuer and the facility agent), but no such interest period shall end after the final maturity date of the Altice S.A. Revolving Credit Facility. Drawdowns under the Altice S.A. Revolving Credit Facility Agreement must be repaid at the end of the interest period for the relevant loan and repaid amounts may be re-borrowed up to one month prior to the final maturity date.

The interest rate on each loan under the Altice S.A. Revolving Credit Facility Agreement for each interest period is equal to the aggregate of: (x) the applicable margin and (y) EURIBOR. The margin under the

Altice S.A. Revolving Credit Facility is between 4.25% and 5.00% per annum. Interest accrues daily from and including the first day of an interest period and is payable on the last day of each interest period (unless the interest period is longer than six months, in which case interest is payable on the last day of each six-month period).

With respect to any available but undrawn amounts under the Altice S.A. Revolving Credit Facility Agreement, the Issuer is obligated to pay a commitment fee on such undrawn amounts calculated on undrawn and un-cancelled commitments from a date to be agreed between the Issuer and the Lenders until one month prior to the final maturity date of the Altice S.A. Revolving Credit Facility.

#### *Repayment*

The final maturity date of the Altice S.A. Revolving Credit Facility is the earlier of the date falling five years after the Issue Date and the date on which the Altice S.A. Revolving Credit Facility is fully repaid and cancelled.

#### *Mandatory Prepayment*

Upon the occurrence of a Change of Control (as defined in the Altice S.A. Revolving Credit Facility Agreement), the Issuer must repay the Altice S.A. Revolving Credit Facility in full together with accrued interest and all other amounts accrued under related finance documents and the Altice S.A. Revolving Credit Facility Agreement will be cancelled.

If an amount in excess of 50% of the Notes is repaid, prepaid, purchased, redeemed or defeased or acquired directly or indirectly by a member of the Borrower Group, the Issuer must apply an amount equal to such excess in cancellation of the Altice S.A. Revolving Credit Facility and, if applicable, prepayment of the loans drawn thereunder.

Certain excess proceeds received by the Issuer from certain disposals of assets and not applied or invested or committed to be applied or invested to (i) prepay, repay, purchase or redeem certain indebtedness, (ii) invest in or purchase additional assets, or (iii) make certain capital expenditure, must be applied in prepayment of the Altice S.A. Revolving Credit Facility.

#### *Guarantees*

Each of the guarantors of the Notes and the Issuer will also guarantee the obligations of each Obligor under the Altice S.A. Revolving Credit Facility.

#### *Security*

The Altice S.A. Revolving Credit Facility is secured by the same collateral as the Notes (other than collateral in respect of the escrow property).

#### *Representations and Warranties*

The Altice S.A. Revolving Credit Facility Agreement contains representations and warranties usual for facilities of this type subject to certain exceptions and customary materiality qualifications.

#### *Undertakings*

The Altice S.A. Revolving Credit Facility Agreement contains certain restrictive covenants which substantially reflect the covenants contained in the Indenture.

The Altice S.A. Revolving Credit Facility Agreement also requires the Issuer and the Borrower Group to observe certain affirmative undertakings subject to materiality and other customary and agreed exceptions. These affirmative undertakings, include, but are not limited to, undertakings related to: (i) obtaining and maintaining all necessary consents, licenses and authorizations; (ii) compliance with applicable laws; (iii) compliance with environment laws/approvals and notification of potential environmental claims; (iv) compliance with all necessary taxation requirements; (v) ensuring that any necessary authorization is not

likely to be challenged, revoked, suspended or withdrawn so as to cause a material adverse effect; (vi) *pari passu* ranking of all payment obligations under the Altice S.A. Revolving Credit Facility Agreement and related finance documents with other unsecured unsubordinated payment obligations; (vii) the maintenance of insurance; (viii) compliance with laws and contracts relating to pension schemes and the maintenance of such pension schemes; (ix) permitting access to the facility agent, security agent and advisors in certain circumstances; (x) maintenance and protection of intellectual property rights; (xi) no amendments to constitutional documents that are likely to materially adversely affect the collateral; (xii) an Obligor not moving its center of main interest from, or having an “establishment” in any jurisdiction other than, its jurisdiction of incorporation; and (xiii) restricting the making of proceeds drawn under the Altice S.A. Revolving Credit Facility available to any sanctioned person or sanctioned country.

#### *Financial Covenants, Events of Default*

The Altice S.A. Revolving Credit Facility Agreement requires the Issuer and the Borrower Group to maintain a Consolidated Net Senior Secured Leverage Ratio (as defined in the Altice S.A. Revolving Credit Facility Agreement) of no more than 5.50:1, tested prior to utilization and quarterly to the extent there are loans outstanding.

The Altice S.A. Revolving Credit Facility Agreement contains certain events of default the occurrence of which, subject to certain exceptions and materiality qualifications would allow the lenders party thereto to: (i) cancel the total commitments; (ii) accelerate all outstanding loans together with other accrued amounts; and/or (iii) declare that all or part of the loans be repayable on demand. The proceeds of any enforcement of collateral will be applied in accordance with the Altice S.A. Intercreditor Agreement.

#### *The Altice S.A. Intercreditor Agreement*

To establish the relative rights of certain creditors, the Issuer will enter into the Altice S.A. Intercreditor Agreement with, amongst others:

- the creditors under the Altice S.A. Revolving Credit Facility Agreement (the “RCF Creditors”);
- upon its accession, the Trustee for the Notes on its behalf and on behalf of the holders of the Notes (the “Senior Notes Creditors”);
- any persons that accedes to the Altice S.A. Intercreditor Agreement as counterparties to certain hedging agreements (the “Hedging Agreements”) in accordance with the terms of the Altice S.A. Intercreditor Agreement (the “Hedging Banks”, together with the RCF Creditors, the “Super Priority Creditors”);
- any persons that accedes to the Altice S.A. Intercreditor Agreement under any future term or revolving credit facility (other than the RCF Agreement) designated as a senior bank facility (a “Senior Bank Facility”) in accordance with the terms of the Altice S.A. Intercreditor Agreement (the “Senior Bank Creditors”, together with the Senior Notes Creditors, the “Senior Creditors”); and
- any person that accedes to the Altice S.A. Intercreditor Agreement in their capacity as a creditor (the “Shareholders”) any shareholder indebtedness provided to the Issuer (the “Shareholder Debt”);

The Altice S.A. Intercreditor Agreement provides that existing indebtedness of the Issuer may be refinanced and/or future indebtedness may be incurred by the Issuer subject to the terms of the Altice S.A. Intercreditor Agreement and each finance document then existing. Future debt designated under the Altice S.A. Intercreditor Agreement as ranking on enforcement the security in priority to liabilities owed to the Senior Creditors is subject to certain conditions, including that it may only be in the form of a revolving credit facility, which is a working capital facility, or hedging indebtedness, and to the extent permitted (or not prohibited) by the terms of each finance document.

For the purposes of the Altice S.A. Intercreditor Agreement, the creditors of each class of debt will vote together and a representative trustee or agent within that class of debt (a “Representative”) may act on the

instructions of the majority of creditors of that class of debt (or, in the case of the Super Priority Debt or Senior Bank Debt (as defined below), on the instructions of 66<sup>2</sup>/<sub>3</sub>% of creditors of that class of debt) (a “Relevant Majority”). Hedging Banks will vote together with the Super Priority Debt. In addition, in certain circumstances (as set out in the Altice S.A. Intercreditor Agreement) certain classes of creditors will vote together as part of an instructing group (the “Instructing Group”), which is the Relevant Majority of (i) (if Senior Bank Debt has been discharged and while any Senior Notes Debt remains outstanding) the Senior Notes Creditors and (ii) (while Senior Bank Debt remains outstanding) the Senior Creditors.

By accepting a Note the relevant holder thereof shall be deemed to have agreed to and accepted the terms and conditions of the Altice S.A. Intercreditor Agreement.

The following description is a summary of certain provisions, among others, that are contained in the Altice S.A. Intercreditor Agreement that relate to the rights and obligations of the Senior Notes Creditors. It does not restate the Altice S.A. Intercreditor Agreement nor does it describe provisions relating to the rights and obligations of holders of other classes of our debt and you are urged to read that documents in its entirety because it, and not the discussions here, define certain rights of the parties to the Altice S.A. Intercreditor Agreement, including the Notes.

#### *Order of Priority*

#### *Ranking & Priority*

The Altice S.A. Intercreditor Agreement provides, subject to certain provisions, the liabilities of the Issuer (and any member of its group which accedes to the Altice S.A. Intercreditor Agreement as a new obligor (together with, amongst others, the Issuer, the “Obligors”)) under or in respect of, amongst others, the (i) Altice S.A. Revolving Credit Facility Agreement (the “RCF Debt”), (ii) the Hedging Agreements (the “Hedging Debt” and together with the RCF Debt, the “Super Priority Debt”), (iii) the Notes (the “Senior Notes Debt”), (iv) the Senior Bank Facilities (the “Senior Bank Debt” and together with the Senior Notes Debt, the “Senior Debt”) and (v) the Shareholder Debt will rank in right and order of payment in the following order:

- i. *first*, the RCF Debt, Senior Bank Debt, Senior Notes Debt, Hedging Debt and any other Super Priority Debt, Senior Debt and amounts due to the Trustee, *pari passu* without any preference between them; and
- ii. *second*, the Shareholder Debt.

#### *Priority of Security*

The Altice S.A. Intercreditor Agreement provides that the security provided by the Obligors (the “Security”) for the Senior Debt and the Super Priority Debt (together, the “Senior Secured Debt”) will rank the RCF Debt, Senior Bank Debt, Senior Notes Debt, Hedging Debt and any other Super Priority Debt and Senior Debt and amounts due to the Trustee *pari passu* without any preference between them.

#### *Additional Secured Debt*

The creditors party to the Altice S.A. Intercreditor Agreement acknowledge that the Obligors may wish to incur incremental Senior Secured Debt, which in any such case is intended to rank *pari passu* with any existing Secured Secured Debt and/or share *pari passu* with any existing Security. By execution of the Altice S.A. Intercreditor Agreement, the creditors confirm that if and to the extent such a financing and such ranking and such Security is permitted by the terms of the finance documents at such time, they will (at the cost of the Obligors) co-operate with the Obligors with a view to enabling such financing and such sharing in the Security to take place. In particular, but without limitation, the Super Priority Creditors, the Senior Bank Creditors, the Hedging Banks, and the Senior Notes Creditors have authorised and directed its Representative to execute any amendment to the Altice S.A. Intercreditor Agreement and such other finance documents required to reflect such arrangements to the extent such financing and/or sharing is permitted by such finance documents.

### *Restrictions*

Subject to certain limited exceptions and subject to, *inter alia*, the provisions set forth under the captions “—*Permitted Payments*” and “—*Restrictions on Enforcement*”, while any Senior Secured Debt is outstanding, the Altice S.A. Intercreditor Agreement restricts (to the extent not otherwise consented to by the relevant Representative representing the Relevant Majority of: (i) Super Priority Creditors (while any Super Priority Debt is outstanding), (ii) Senior Bank Creditors (while any Senior Bank Debt is outstanding) and (only to the extent prohibited under the Indenture) the Senior Notes Creditors and/or (iii) (only to the extent prohibited under the Indenture) the Senior Notes Creditors (while any Senior Notes Debt remains outstanding)):

- the ability of the Obligors and their subsidiaries to create or permit to subsist any security interest over any of their assets for any Shareholder Debt;
- the ability of the Obligors and their subsidiaries to pay, purchase, redeem or acquire any of the Shareholder Debt, or otherwise to provide financial support in relation to such liabilities; and
- the ability of the Obligors to discharge the Shareholder Debt by set-off, any right of combination of accounts or otherwise.

### *Limitation of Credit Support*

Pursuant to the Altice S.A. Intercreditor Agreement, the Obligors are prohibited from granting any security in favor of any Senior Secured Debt unless that security is given in favor of the Security Agent to hold for the benefit of all other Senior Secured Debt.

### *Permitted Payments*

While any Senior Secured Debt is outstanding, Obligors will only be permitted to make payments of Shareholder Debt:

- a. with the prior written consent of:
  - i. (while any Super Priority Debt is outstanding) the relevant Representatives representing the Relevant Majority of the Super Priority Creditors;
  - ii. (if any Senior Bank Debt is outstanding) the Representatives representing the Relevant Majority of the Senior Bank Creditors; and
  - iii. (if any Senior Notes Debt is outstanding) (only to the extent prohibited by the Indenture) the relevant Representatives representing the Relevant Majority of the Senior Notes Creditors; or
- b. such payments are not prohibited by the debt documents in respect of the Senior Secured Debt and if, at that time, no Senior Secured Creditor has accelerated any of the Senior Secured Debt.

### *Restrictions on Enforcement*

Subject to certain limited exceptions, and except with the consent of the Relevant Majority of Super Priority Creditors, the Shareholders cannot (i) demand payment of any Shareholder Debt; (ii) accelerate any of the Shareholder Debt or otherwise declare any of the aforementioned debt prematurely due or payable on an event of default or otherwise, (iii) enforce any of the Shareholder Debt by attachment, set-off, execution or otherwise, (iv) petition for, initiate, support or take any steps with a view to any insolvency or any voluntary arrangement or assignment for the benefit of creditors or any similar proceedings involving an Obligor, (vi) sue or bring or support any legal proceedings against any Obligor or its subsidiaries or (vii) otherwise exercise any remedy for the recovery of any Shareholder Debt.

A Shareholder will be allowed to bring or support proceedings to prevent the loss of any right to bring or support proceeding by reason of expiry of statutory limitation periods.

## *Enforcement Instructions*

No Senior Secured Creditor has any independent power to enforce, or has recourse to, any Security except through the Security Agent and the Security Agent shall enforce Security (if then enforceable) if so instructed by the Relevant Majority of Super Priority Creditors or the Instructing Group. The Security Agent may disregard any instructions from any other person to enforce the Security and may disregard any instructions to enforce any Security if those instructions are inconsistent with the Altice S.A. Intercreditor Agreement. The Security Agent is not obliged to enforce the Security if it has not received security and/or indemnity to its satisfaction by the relevant creditors.

To the extent that the Super Priority Creditors or the Instructing Group wish to enforce Security, they must notify the Senior Agent and each other Senior Representative 10 business days prior to the date it issues the enforcement instructions (the “Proposed Enforcement Instruction Date”). To the extent any Super Priority Creditors or the Instructing Group wish to accelerate any debt owing to any Senior Secured Creditor, they must notify the Security Agent and each other Senior Representative at least three business days prior to the date it intends to accelerate. If the Security Agent receives conflicting enforcement instructions prior to the Proposed Enforcement Instruction Date, the Representatives of the Super Priority Creditors and the Representative of the Instructing Group shall consult with one another and with the Security Agent in good faith for 30 days (or such shorter date as may be agreed) (the “Consultation Period”). Consultation will not be required if the Security has become enforceable as a result of an insolvency event relating to an Obligor against whom such enforcement action is taken or if any of such instructing representatives determines in good faith that consultation (and thereby delay) could reasonably be expected to have a material adverse effect on the ability to enforce the Security or the realization of proceeds of enforcement.

While any Super Priority Debt is outstanding, if the Security Agent receives conflicting enforcement instructions from the Representatives of the Super Priority Debt or the Instructing Group, and the Consultation Period has passed, the Security Agent shall comply with the instruction from the Instructing Group. The failure by a creditor group to issue enforcement instructions will be deemed to be conflicting, provided that if the representatives of the Instructing Group fail to give instructions as to enforcement and the Consultation Period has elapsed, the Security Agent will comply with the instructions of the representative of the Super Priority Debt. The instructions of the Super Priority Creditors will prevail if (i) the Super Priority Creditors have not been fully and finally discharged in cash within six months of the Proposed Enforcement Instruction Date, or (ii) the Security Agent has not commenced any enforcement action within 3 months of the Proposed Enforcement Date. All enforcement instructions will need to comply with the following security enforcement principles:

1. It shall be the aim of any enforcement of the Security to achieve the Security Enforcement Objective. “Security Enforcement Objective” means maximizing, so far as is consistent with a prompt and expeditious enforcement of the Security, the recovery of the Super Priority Creditors and (without prejudice to the waterfall described in “*Application of Proceeds*” below) the Senior Creditors.
2. The security enforcement principles may be amended, varied or waived with the prior written consent of the Relevant Majority of Super Priority Creditors, an Instructing Group and the Security Agent.
3. Without prejudice to the Security Enforcement Objective, the Security will be enforced and other action as to enforcement of the Security will be taken such that either:
  - (a) in the event enforcement is being effected in accordance with the instructions of the Instructing Group either:
    - (i) all proceeds of enforcement are received by the Security Agent in cash for distribution in accordance with the waterfall described in “*Application of Proceeds*” below; or
    - (ii) sufficient proceeds from enforcement will be received by the Security Agent in cash to ensure that when the proceeds are applied in accordance with the waterfall described in “*Application of Proceeds*” below), the Super Priority Debt is repaid and discharged in full (unless the Relevant Majority of Super Priority Creditors agree otherwise); or

- (b) in the event enforcement is being effected in accordance with the instructions of the Super Priority Creditors either:
  - (i) all proceeds of enforcement are received by the Security Agent in cash for distribution in accordance with the waterfall described in “*Application of Proceeds*” below; or
  - (ii) with the consent of the Instructing Group, the proceeds are received by the Security Agent in cash and non-cash consideration for distribution in accordance with the waterfall described in “*Application of Proceeds*” below.
- 4. The enforcement must be prompt and expeditious it being acknowledged that, subject to the other provisions of the Altice S.A. Intercreditor Agreement, the time frame for realization of value from the enforcement of the Security pursuant to enforcement will be determined by (while any Super Priority Debt is outstanding) the Representatives representing the Relevant Majority of Super Priority Creditors or the relevant Representatives representing an Instructing Group provided that it is consistent with the Security Enforcement Objective.
- 5. On:
  - (a) a proposed enforcement of any of the Security over assets other than shares in a member of the Group, where the aggregate book value of such assets exceeds \$3,000,000 (or its equivalent); or
  - (b) a proposed enforcement of any of the Security over some, but not all, of the shares in a member of the Group over which Security exists;

the Security Agent shall, if so requested by (while any Super Priority Debt is outstanding) the Representatives representing the Relevant Majority of Super Priority Creditors or the relevant Representatives representing an Instructing Group, and at the expense of such creditors, obtain an opinion from any (X) reputable and independent internationally recognized accounting firm, (Y) reputable and independent internationally recognized investment bank, or (Z) other reputable and independent professional services firm experience in restructuring and enforcement (a “Financial Advisor”), that the consideration for the sale is fair from a financial point of view after taking into account all relevant circumstances. If the Security Agent is unable to obtain an opinion pursuant to this paragraph 5, it shall notify the Super Priority Representatives and the Senior Representatives representing an Instructing Group and may proceed to enforce the Security without obtaining such opinion.
- 6. The Security Agent shall be under no obligation to appoint a Financial Advisor or to seek the advice of a Financial Advisor, unless expressly required to do so by the security enforcement principles or any other provision of the Altice S.A. Intercreditor Agreement.
- 7. The Financial Advisor’s opinion will be conclusive evidence that the Security Enforcement Objective has been met.
- 8. If enforcement of any Security is conducted by way of public auction in any relevant jurisdiction, no Financial Advisor shall be required to be appointed in relation to such enforcement action. Nothing shall require the enforcement of Security to take place by way of public auction.

#### *Release of Security and Guarantees*

If a disposal of an asset owned by the Obligor is made to a person or persons outside of the Group and either (i) the disposal is not permitted or prohibited by the underlying finance documents, or (ii) the disposal is being effected at the request of the relevant creditor in circumstances where it is entitled to take enforcement action under the Altice S.A. Intercreditor Agreement (and such disposal is consistent with certain security enforcement principles), or (iii) the disposal is pursuant to enforcement action in accordance with the Altice S.A. Intercreditor Agreement, and, in each case, the Security Agent is authorized to release any Security and other claims (including guarantees) under any finance document over that asset and, if that asset comprises

of the shares in the capital of an Obligor or any of its subsidiaries which are subject to Security, release on behalf of the relevant creditor and each Obligor and its Subsidiaries that subsidiary and its subsidiaries from all present and future obligations and liabilities under the relevant finance document provided that the proceeds of the disposal applied in accordance with the relevant finance document and with the Altice S.A. Intercreditor Agreement.

Where a disposal relates to (ii) or (iii) above, and the asset which is disposed of consists of shares in an Obligor or its holding company and the Security Agent decides to dispose of all or part of the liabilities of such Obligor, holding company or any subsidiary under the finance documents, the Security Agent may: (a) dispose of all or part of such liabilities such that the transferee shall not be treated as a Senior Secured Creditor or a secured party; and (b) dispose of all (and not part) of such liabilities owed to the Senior Creditors on behalf of the relevant creditors and Obligors such that the transferee be treated as a Senior Secured Creditor or a secured party.

#### *Turnover*

The Altice S.A. Intercreditor Agreement provides that if any Super Priority Creditor or Senior Creditor or Shareholder receives or recovers a payment which is prohibited by the Altice S.A. Intercreditor Agreement or not paid in accordance with the provisions described under “—*Application of Proceeds*”, subject to certain exceptions, the receiving or recovering creditor will promptly notify the Security Agent and hold any amount on trust for the creditors and, upon demand by the Security Agent, pay that amount to the Security Agent or, if lower, the amount of debt owed to the relevant category of creditor, in each case less the third party costs and expenses (if any) reasonably incurred in receiving or recovering such amount, for application by the Security Agent in accordance with the order of priority described under “—*Application of Proceeds*”. These provisions will not apply to any receipt or recovery by the Hedging Banks in relation to certain netting and set-off arrangements with Obligors, permitted refinancing, or otherwise in accordance with the loss sharing provisions of the Altice S.A. Intercreditor Agreement.

#### *Subordination on Insolvency*

After the occurrence of an insolvency event in relation to any Obligor (the “**Insolvent Obligor**”), the Shareholder Debt owed by the Insolvent Obligor will be subordinated in right of payment to the Super Priority Debt and Senior Debt owed by such Insolvent Obligor.

#### *Filing of Claims*

While any Senior Secured Debt is outstanding, the Security Agent is authorized (acting on the instructions of (while any Super Priority Debt) the Relevant Majority of Super Priority Creditors or the Instructing Group) to: (i) claim, enforce and prove for any debt owed by the Insolvent Obligor (ii) only with respect to Shareholder Debt, exercise all powers of convening meetings, voting and representations in respect of the shareholder debt owed by the Insolvent Obligor and (iii) file claims and proofs, give receipts and take all such proceedings and do all such things as the Security Agent considers reasonably necessary to recover any debt owed by the Insolvent Obligor.

If the Security Agent is not entitled or does not take any of the actions referred to above, the Shareholders will do so promptly when requested by the Security Agent (acting on the instructions of the Relevant Majority of Super Priority Creditors or the Instructing Group).

#### *Application of Proceeds*

Subject to the rights of any creditor (other than a Secured Creditor) with prior security or preferential claims, all amounts from time to time received pursuant to the provisions described under “—*Turnover*” or otherwise recovered by the Security Agent (or any other creditors) in connection with the realization or enforcement of all or any part of the security in favor of the Senior Secured Debt, apply them at any time as the Security Agent sees fit, and to the extent permitted by law, in the following order:

- first, in payment of the following amounts in the following order of priority: (i) *pari passu* and pro rata to the Security Agent and thereafter to the Trustee to the Notes in respect of any amounts due to each such party, and (ii) *pari passu* and pro rata to each representative of Senior Secured Debt

of the fees, costs, expenses and liabilities (and all interest thereon as provided in the relevant finance documents) of each such representative and any receiver, attorney or agent appointed by such representative under the security documents or the Altice S.A. Intercreditor Agreement;

- second, in payment *pari passu* and pro rata of the balance of the costs and expenses of each Super Priority Creditor and each Senior Creditor in connection with such enforcement;
- third, in payment *pari passu* and pro rata to the representative of the Super Priority Debt and the Hedging Banks for application towards the balance of the Super Priority Debt;
- fourth, in payment *pari passu* and pro rata to each representative of Senior Debt for application towards (i) Senior Bank Debt and (ii) Senior Notes Debt;
- fifth, in payment of the surplus (if any) to the Obligors or other person entitled to it.

#### *Amendment*

Prior consent of each Representative is required for any waivers, consents, or amendments in relation to any security documents if any such amendments, waivers or consents would adversely affect the nature or scope of the charged property or the manner in which the proceeds of enforcement of Security is distributed.

The Intercreditor Agreement may be amended by the Obligors and the Security Agent without consent of the other parties if the amendment is to cure defects, typographical errors, resolve ambiguities or reflect changes, in each case, of a minor technical or administrative nature. Where an amendment affects the rights and obligations of one or more parties to the Intercreditor Agreement, and could not reasonably be expected to be adverse to the interests of other parties or class of parties, only the parties affected by such amendment need to agree to the amendments.

Other than in respect of certain customary amendments and waivers (which require the consent of each of the Senior Secured Creditors, the Security Agent and the Issuer), the Intercreditor Agreement may be amended or waived or any consent may be given under it with the written agreement of the Majority Super Priority Creditors, the Majority Senior Bank Creditors, the Majority Senior Notes Creditors the Issuer and the Security Agent.

## DESCRIPTION OF NOTES

*You will find definitions of certain capitalized terms used in this “Description of Notes” under the heading “Certain Definitions”. Certain capitalized terms used in this “Description of Notes” may have different definitions than the same term used in other sections of the Offering Memorandum. For purposes of this “Description of Notes”, references to the “Issuer” refer only to Altice S.A.*

Altice S.A., a Luxembourg public limited liability company (*société anonyme*), with registered office at 3 boulevard royal, L 2449 Luxembourg (the “*Issuer*”) will be the issuer of the Notes offered hereby.

The Issuer has issued €2,900 million aggregate principal amount of its 7<sup>3</sup>/<sub>4</sub>% Senior Notes due 2022 (the “*Dollar Notes*”) and €2,075 million aggregate principal amount of its 7<sup>1</sup>/<sub>4</sub>% Senior Notes due 2022 (the “*Euro Notes*”) and, together with the Dollar Notes, the “*Notes*”) under an indenture (the “*Indenture*”), between, *inter alios*, itself, Deutsche Bank AG, London Branch, as trustee (the “*Trustee*”) and Deutsche Bank AG, London Branch as security agent (the “*Security Agent*”). The Notes are issued in a private transaction that is not subject to the registration requirements of the Securities Act.

The Issuer will use the net proceeds of the Notes and the Altice Equity Financing, after deducting fees and expenses related thereto, directly or indirectly through Altice France S.A. (“*Altice France*”), to purchase certain ordinary shares of Numericable currently owned by certain funds affiliated with Cinven Ltd. and Carlyle Group, subscribe for additional ordinary shares of Numericable pursuant to the Numericable Rights Issue and repay all of the outstanding amounts under the Margin Loan as described in the Offering Memorandum under “*The Transactions*” and “*Use of Proceeds*”. The Issuer Transactions (as defined herein) will only be completed if the Target Acquisition is consummated. The completion of the Target Acquisition is subject to the conditions set out in the Target Acquisition Agreement, including the approval by the competent regulatory authorities in France. The date on which the Target Acquisition is consummated are herein referred to as the “*Completion Date*”.

Pending consummation of the Target Acquisition and the satisfaction of certain other conditions as described below, the initial purchasers have, concurrently with the closing of the offering of the Notes on the Issue Date, deposited the gross proceeds of the Offering Memorandum of the Notes into segregated escrow accounts (the “*Escrow Account*”) pursuant to the terms of an escrow agreement (the “*Escrow Agreement*”) dated as of the Issue Date among, *inter alios*, the Issuer, the Trustee and Deutsche Bank AG, London Branch as escrow agent (the “*Escrow Agent*”). If the Target Acquisition is not consummated on or prior to April 30, 2015 (the “*Escrow Longstop Date*”), or upon the occurrence of certain other events, the Notes will be redeemed at a price equal to 100% of the initial issue price of the Notes plus accrued and unpaid interest and Additional Amounts, if any, from the Issue Date to the Special Mandatory Redemption Date (as defined below). The release of the proceeds of the offering of the Notes from the Escrow Account will be subject to certain conditions. See “—*Escrow of Proceeds; Special Mandatory Redemption*”.

The Indenture is unlimited in aggregate principal amount and €2,075 million aggregate principal amount of Euro Notes and \$2,900 million aggregate principal amount of Dollar Notes are issued in the Offering Memorandum. The Issuer may issue an unlimited principal amount of additional Notes at later dates under the same Indenture (the “*Additional Notes*”); *provided, however*, that the Issuer will only be permitted to issue Additional Notes in compliance with the covenants contained in the Indenture, including the covenants restricting the Incurrence of Indebtedness (as described below under “—*Certain Covenants—Limitation on Indebtedness*”) and the Incurrence of Liens (as described below under “—*Certain Covenants—Limitation on Liens*”). The Notes issued in the Offering Memorandum and, if issued, any Additional Notes will be treated as a single class for all purposes under the Indenture, including, without limitation, with respect to waivers, amendments, redemptions and offers to purchase, except as otherwise stated in the Indenture. However, in order for any Additional Notes to be denominated in U.S. dollars or euro to have the same CUSIP number and ISIN as the Dollar Notes or the Euro Notes, as applicable, such Additional Notes must be fungible with the Notes for U.S. federal income tax purposes. Unless the context otherwise requires, in this “*Description of Notes*”, references to the “*Notes*” include the Notes and any Additional Notes that are actually issued. The terms of the Notes include those set forth in the Indenture. The Indenture is not qualified under, and does not incorporate by reference any of the provisions of, or be subject to, the U.S. Trust Indenture Act of 1939, as amended.

This “*Description of Notes*” is intended to be an overview of the material provisions of the Notes and the Indenture, and refers to the Intercreditor Agreement, the Escrow Agreement and the Security Documents (as

defined below). It does not restate those agreements in their entirety. Since this description of the terms of the Notes is only a summary, you should refer to the Indenture, the form of Notes, the Intercreditor Agreement, the Escrow Agreement and the Security Documents for complete descriptions of the obligations of the Issuer and your rights because they, and not this summary, define your rights as holders of the Notes. Copies of the Indenture, the form of Notes, the Security Documents, the Escrow Agreement and the Intercreditor Agreement are available as set forth under “Available Information”. See the section entitled “*Description of Other Indebtedness—Indebtedness of Altice S.A.—The Altice S.A. Intercreditor Agreement*” for a summary of certain material terms of the Intercreditor Agreement.

The registered holder of a Note will be treated as the owner of such Note for all purposes. Only registered holders will have rights under the Indenture.

## **General**

### ***The Note***

The Notes:

- are general obligations of the Issuer;
- are prior to the Completion Date, be secured by a first ranking assignment over the Escrowed Property (as defined below) and the rights of the Issuer under the Escrow Agreement;
- will, as of the Completion Date, be guaranteed by Altice France and benefit from the security as set forth below under “—*Notes Security*”;
- rank *pari passu* in right of payment with all existing and future Indebtedness of the Issuer that is not subordinated in right of payment to the Notes, including Indebtedness under the Altice Credit Facility and certain Hedging Obligations;
- rank senior in right of payment to all existing and future Indebtedness of the Issuer that is expressly subordinated in right of payment to the Notes; and
- are effectively subordinated to all existing and future Indebtedness of the Issuer that is secured by property and assets that do not secure the Notes, to the extent of the value of the property and assets securing such Indebtedness.

As of December 31, 2013, on an as-adjusted consolidated basis after giving effect to the Transactions and the issuance of the Notes and the application of the proceeds therefrom as described under “Use of Proceeds” elsewhere in the Offering Memorandum, the Issuer and its Restricted Subsidiaries would have had outstanding €19,504 million equivalent aggregate principal amount of Indebtedness out of which €3,585 million equivalent represents Indebtedness of Altice International and its Restricted Subsidiaries and €11,709 million equivalent represents Indebtedness of Numericable and its Restricted Subsidiaries. The Indenture permits the Issuer and the Restricted Subsidiaries to incur additional Indebtedness in the future.

The Issuer is a holding company and does not conduct any operations and is wholly dependent on payments from its Subsidiaries to meet its obligations, including under the Notes. See “*Risk Factors—Risks Relating to the Notes and the Structure—The Issuer and the Guarantor are holding companies and conduct no business of their own and will depend on payments from their direct and indirect subsidiaries to provide them with funds to meet their obligations under the Notes and the Guarantee.*”

The Notes are effectively subordinated in right of payment to all Indebtedness and other liabilities and commitments (including trade payables and lease obligations) of Subsidiaries of the Issuer and Altice France that do not guarantee the Notes, including Numericable and its Subsidiaries and Altice International and its Subsidiaries. Any right of the Issuer to receive assets of any of the Subsidiaries of the Issuer upon that non-guarantor Subsidiary’s liquidation or reorganization (and the consequent right of the holders of the Notes to participate in those assets) will be effectively subordinated to the claims of that non-guarantor Subsidiary’s creditors, except to the extent that the Issuer is itself recognized as a creditor of the non-guarantor Subsidiary, in which case the claims of the Issuer would still be subordinated in right of payment to any security in the assets

of the non-guarantor Subsidiary and any Indebtedness of the non-guarantor Subsidiary senior to that held by the Issuer.

### **Principal, Maturity and Interest**

The Issuer issued \$2,900 million aggregate principal amount of Dollar Notes and €2,075 million aggregate principal amount of Euro Notes on the Issue Date. The Notes will mature on May 15, 2022, at which time 100% of the principal amount of the Notes shall be payable, unless redeemed prior thereto as described herein. The Dollar Notes, if any, were issued in minimum denominations of \$200,000 and in integral multiples of \$1,000 in excess thereof, and the Euro Notes, if any, were issued in minimum denominations of €100,000 and in integral multiples of € 1,000 in excess thereof.

The Issuer may issue an unlimited principal amount of Additional Notes; *provided, however*, that the Issuer will only be permitted to issue Additional Notes in compliance with the covenants contained in the Indenture, including the covenants restricting the Incurrence of Indebtedness (as described below under “—*Certain Covenants—Limitation on Indebtedness*”) and the Incurrence of Liens (as described below under “—*Certain Covenants—Limitation on Liens*”). The Notes issued in the Offering Memorandum and, if issued, any Additional Notes, will be treated as a single class for all purposes under the Indenture, including, without limitation, with respect to waivers, amendments, redemptions and offers to purchase, except as otherwise stated in the Indenture. However, in order for any Additional Notes to be denominated in U.S. dollars or euro to have the same CUSIP number and ISIN as the Dollar Notes or the Euro Notes, as applicable, such Additional Notes must be fungible with the Notes for U.S. federal income tax purposes.

Interest on the Notes will:

- accrue from the date of original issuance or, if interest has already been paid, from the date it was most recently paid;
- be payable semi-annually in arrears on each February 15 and August 15, commencing on July 15, 2014;
- be payable in cash to the holder of record of such Notes on February 1 and August 1 immediately preceding the related interest payment date; and
- be computed on the basis of a 360-day year comprised of twelve 30-day months.

Interest on overdue principal and interest, including Additional Amounts, if any, will accrue at a rate that is 1% higher than the interest rate on the Notes.

If the due date for any payment in respect of any Notes is not a Business Day at the place at which such payment is due to be paid, the Holder thereof will not be entitled to payment of the amount due until the next succeeding Business Day at such place, and will not be entitled to any further interest or other payment as a result of any such delay.

### **Methods of Receiving Payments on the Notes**

Principal, interest and premium, if any, on the Global Notes (as defined below) will be payable at the specified office or agency of one or more Paying Agents; *provided* that payments on the Dollar Global Notes (as defined below) will be made to Cede & Co. as the registered holder of the Dollar Global Notes, and payments on the Euro Global Notes (as defined below) will be made to the Paying Agents which will, in turn, make such payments to Euroclear and Clearstream (in the case of the Euro Global Notes) and DTC or its nominee (in the case of the Dollar Global Notes).

Principal, interest and premium, if any, on any certificated securities (“*Definitive Registered Notes*”) will be payable at the specified office or agency of one or more Paying Agents maintained for such purposes in New York, New York and London, United Kingdom. In addition, at the option of the Issuer, interest on the Definitive Registered Notes may be paid by check mailed to the Person entitled thereto as shown on the register for the Definitive Registered Notes. See “—*Paying Agents and Registrars for the Notes*”.

## Paying Agents and Registrars for the Notes

The Issuer will maintain one or more Paying Agents for the Notes in (i) the City of London, United Kingdom (the “*Principal Paying Agent*”) and (ii) New York, New York (the “*U.S. Paying Agent*”). The Issuer will also undertake to maintain a Paying Agent in a European Union member state that will not be obliged to withhold or deduct tax pursuant to the European Union Directive 2003/48/EC (as amended from time to time) or any other directive implementing the conclusions of the ECOFIN Council meeting of 26 and 27 November 2000 regarding the taxation of savings income (the “*Directive*”), or any law implementing or complying with or introduced in order to conform to such Directive. The Principal Paying Agent will be Deutsche Bank AG, London Branch in London and the U.S. Paying Agent will be Deutsche Bank Trust Company Americas in New York (together, and collectively with any other paying agents, the “*Paying Agents*”).

The Issuer will also maintain one or more registrars (each, a “*Registrar*”). The initial Registrars will be Deutsche Bank Luxembourg S.A. (the “*Euro Registrar*”) and Deutsche Bank Trust Company Americas (the “*U.S. Registrar*”) and, together with the Euro Registrar, the “*Registrars*” and each a “*Registrar*”). The Issuer will also maintain a transfer agent. The initial transfer agents will be Deutsche Bank Luxembourg S.A. (the “*Euro Transfer Agent*”) and Deutsche Bank Trust Company Americas (the “*U.S. Transfer Agent*”) and, together with the Euro Registrar, the “*Transfer Agents*” and each a “*Transfer Agent*”). The Registrars will maintain a register reflecting ownership of Definitive Registered Notes (as defined herein) outstanding from time to time, if any, and will facilitate transfers of Definitive Registered Notes on behalf of the Issuer. Each transfer agent shall perform the functions of a transfer agent. Each Registrar shall provide a copy of the register and any update thereof to the Issuer and the Issuer shall maintain a register of the Notes at its registered office in order to comply with Luxembourg law (the “*Duplicate Register*”). In case of discrepancy between any register and the Duplicate Register, the Duplicate Register shall prevail for Luxembourg law purposes.

The Issuer may change any Paying Agents, Registrars or Transfer Agents for the Notes without prior notice to the Holders of such Notes. However, for so long as Notes are listed on the Euro MTF Market of the Luxembourg Stock Exchange and the rules of the Luxembourg Stock Exchange so require, the Issuer will publish a notice of any change of Paying Agent, Registrar or transfer agent on the official website of the Luxembourg Stock Exchange ([www.bourse.lu](http://www.bourse.lu)), to the extent and in the manner permitted by the rules and the regulations of the Luxembourg Stock Exchange. The Issuer or any of its Subsidiaries may act as Paying Agent or Registrar in respect of the Notes.

## Transfer and Exchange

The Notes have been issued in the form of several registered notes in global form, without interest coupons, as follows:

- Each series of Notes sold within the United States to qualified institutional buyers pursuant to Rule 144A under the Securities Act will initially be represented by a global note in registered form without interest coupons attached (the “*144A Global Notes*”).
- The 144A Global Notes representing the Dollar Notes (the “*Dollar 144A Global Note*”), will on the Issue Date, be deposited with a custodian for DTC and registered in the name of Cede & Co., as nominee of DTC.
- The 144A Global Notes representing the Euro Notes (the “*Euro 144A Global Note*”), will, on the Issue Date be deposited with and registered in the name of the nominee of the common depositary for the accounts of Euroclear Bank SA/NV “*Euroclear*”) and Clearstream Banking, société anonyme (“*Clearstream*”).
- Each series of Notes sold outside the United States pursuant to Regulation S under the Securities Act will initially be represented by a global note in registered form without interest coupons attached (the “*Regulation S Global Notes*” and together with the 144A Global Notes, the “*Global Notes*”).
- During the 40-day “distribution compliance period” (as such term is defined in Rule 902 of Regulation S under the Securities Act), the Regulation S Global Notes representing the Dollar Notes (the “*Dollar Regulation S Global Note*,” and together with the Dollar 144A Global Note, the

“*Dollar Global Notes*”) will initially be credited within DTC for the accounts of Euroclear and Clearstream. After the 40-day distribution compliance period ends, investors may also hold their interests in the permanent Dollar Regulation S Global Note through organizations other than Clearstream or Euroclear that are DTC participants.

- The Regulation S Global Notes representing the Euro Notes (the “*Euro Regulation S Global Note*”, and together with the Euro 144A Global Note, the “*Euro Global Notes*”) will, on the closing date, be deposited with and registered in the name of the nominee of the common depositary for the accounts of Euroclear and Clearstream.

During the 40-day distribution compliance period, book-entry interests in the Regulation S Global Notes may be (1) held only through Euroclear and Clearstream or through DTC for the account of Euroclear and Clearstream, and (2) transferred only to non-U.S. persons under Regulation S or qualified institutional buyers under Rule 144A. Ownership of interests in the Global Notes (“*Book-Entry Interests*”) will be limited to persons that have accounts with Euroclear, Clearstream or DTC, as applicable, or persons that may hold interests through such participants. Ownership of interests in the Book-Entry Interests and transfers thereof will be subject to the restrictions on transfer and certification requirements summarized below and described more fully under “*Transfer Restrictions*”. In addition, transfers of Book-Entry Interests between participants in Euroclear, participants in Clearstream or participants in DTC will be effected by Euroclear, Clearstream or DTC, as applicable, pursuant to customary procedures and subject to the applicable rules and procedures established by Euroclear, Clearstream or DTC, as applicable, and their respective participants.

Book-Entry Interests in the 144A Global Note may be transferred to a person who takes delivery in the form of Book-Entry Interests in the Regulation S Global Note denominated in the same currency only upon delivery by the transferor of a written certification (in the form provided in the indenture) to the effect that such transfer is being made in accordance with Regulation S under the Securities Act.

Regulation S Book-Entry Interests may be transferred to a person who takes delivery in the form of 144A Book-Entry Interests only upon delivery by the transferor of a written certification (in the form provided in the Indenture) to the effect that such transfer is being made to a person who the transferor reasonably believes is a “qualified institutional buyer” within the meaning of Rule 144A in a transaction meeting the requirements of Rule 144A or otherwise in accordance with the transfer restrictions described under “*Transfer Restrictions*” and in accordance with any applicable securities law of any other jurisdiction.

Any Book-Entry Interest that is transferred as described in the immediately preceding paragraphs will, upon transfer, cease to be a Book-Entry Interest in the Global Note from which it was transferred and will become a Book-Entry Interest in the Global Note to which it was transferred.

Accordingly, from and after such transfer, it will become subject to all transfer restrictions, if any, and other procedures applicable to Book-Entry Interests in the Global Note to which it was transferred.

If Definitive Registered Notes are issued, they will be issued only in minimum denominations of \$200,000 or €100,000 principal amount, as the case may be, and integral multiples of \$1,000 in excess thereof or € 1,000 in excess thereof, as the case may be, upon receipt by the applicable Registrar of instructions relating thereto and any certificates, opinions and other documentation required by the Indenture. It is expected that such instructions will be based upon directions received by Euroclear, Clearstream or DTC, as applicable, from the participant which owns the relevant Book-Entry Interests. Definitive Registered Notes issued in exchange for a Book-Entry Interest will, except as set forth in the Indenture or as otherwise determined by the Issuer to be in compliance with applicable law, be subject to, and will have a legend with respect to, the restrictions on transfer summarized below and described more fully under “*Transfer Restrictions*”.

Subject to the restrictions on transfer referred to above, Dollar Notes issued as Definitive Registered Notes may be transferred or exchanged, in whole or in part, in minimum denominations of \$200,000 in principal amount and integral multiples of \$1,000 in excess thereof and Euro Notes issued as Definitive Registered Notes may be transferred or exchanged, in whole or in part, in minimum denominations of €100,000 in principal amount and integral multiples of €1,000 in excess thereof. In connection with any such transfer or exchange, the Indenture requires the transferring or exchanging holder to, among other things, furnish appropriate endorsements and transfer documents, to furnish information regarding the account of the transferee at Euroclear, Clearstream or DTC, as applicable, to furnish certain certificates and opinions, and to pay any taxes,

duties and governmental charges in connection with such transfer or exchange. Any such transfer or exchange will be made without charge to the holder, other than any taxes, duties and governmental charges payable in connection with such transfer.

Notwithstanding the foregoing, the Issuer is not required to register the transfer or exchange of any Notes:

- (1) for a period of 15 days prior to any date fixed for the redemption of the Notes;
- (2) for a period of 15 days immediately prior to the date fixed for selection of Notes to be redeemed in part;
- (3) for a period of 15 days prior to the record date with respect to any interest payment date; or
- (4) which the Holder has tendered (and not withdrawn) for repurchase in connection with a Change of Control Offer or an Asset Disposition Offer.

The Issuer, the Trustee, the Paying Agents, the transfer agents and the Registrars will be entitled to treat the registered holder of a Note as the owner of it for all purposes.

## **The Note Guarantees**

### ***General***

On the Completion Date, the Notes will be guaranteed by Altice France.

The Note Guarantee of the Notes will:

- be a general obligation of Altice France;
- rank *pari passu* in right of payment with all existing and future Indebtedness of Altice France that is not subordinated in right of payment to Altice France's Note Guarantee, including Altice France's Guarantee of Indebtedness under the Altice Credit Facility and certain Hedging Obligations;
- rank senior in right of payment to all existing and future obligations of Altice France that is expressly subordinated in right of payment to such Note Guarantee;
- benefit from the security as set forth below under "*Notes Security*";
- be effectively subordinated to all existing and future Indebtedness of Altice France that is secured by liens on property or assets of Altice France, to the extent of the value of the property or assets securing such Indebtedness; and
- be effectively subordinated to the Indebtedness and other obligations of Subsidiaries of the Issuer that do not Guarantee the Notes.

The Note Guarantee shall be granted on a senior basis for the full and punctual payment when due, whether at Stated Maturity, by acceleration or otherwise, of all payment obligations of the Issuer under the Indenture and the Notes, whether for payment of principal of or interest on or in respect of the Notes, fees, expenses, indemnification or otherwise, provided that the obligations of Altice France under its Note Guarantee will be limited as necessary to prevent the relevant Note Guarantee from constituting a fraudulent conveyance under applicable law, or otherwise to reflect limitations under applicable law or capital maintenance regulations. See "*Risk Factors—Risks Relating to the Notes and the Structure—The Guarantee will be subject to certain limitations on enforcement and may be limited by applicable laws or subject to certain defenses that may limit its validity and enforceability*" and "*Limitation on Validity and Enforceability of the Guarantee and the Security Interests*".

As of December 31, 2013, on an as-adjusted consolidated basis after giving effect to the Transactions and the issuance of the Notes and the application of the proceeds therefrom as described under “Use of Proceeds” elsewhere in the Offering Memorandum, the Issuer and its Restricted Subsidiaries would have had outstanding €19,504 million equivalent aggregate principal amount of Indebtedness. The Indenture permits the Issuer and the Restricted Subsidiaries to incur additional Indebtedness in the future.

Altice France is a holding company and does not conduct any operations and is wholly dependent on payments from its Subsidiaries to meet their obligations, including under its Note Guarantee. On the Completion Date, Numericable will be the only Subsidiary of Altice France and Altice France will own 59.7% of Numericable. See “*Risk Factors—Risks Relating to the Notes and the Structure—The Issuer and the Guarantor are holding companies and conduct no business of their own and will depend on payments from their direct and indirect subsidiaries to provide them with funds to meet their obligations under the Notes and the Guarantee.*”

The Notes and the Note Guarantees will be effectively subordinated in right of payment to all Indebtedness and other liabilities and commitments (including trade payables and lease obligations) of Subsidiaries of the Issuer that do not Guarantee the Notes. Any right of the Issuer or Altice France to receive assets of any of the Subsidiaries of the Issuer that do not Guarantee the Notes upon that non-guarantor Subsidiary’s liquidation or reorganization (and the consequent right of the holders of the Notes to participate in those assets) will be effectively subordinated to the claims of that non-guarantor Subsidiary’s creditors, except to the extent that the Issuer or Altice France is itself recognized as a creditor of the non-guarantor Subsidiary, in which case the claims of the Issuer or Altice France, as the case may be, would still be subordinated in right of payment to any security in the assets of the non-guarantor Subsidiary and any Indebtedness of the non-guarantor Subsidiary senior to that held by the Issuer or Altice France.

#### ***Future Note Guarantees***

The Issuer may from time to time designate a Restricted Subsidiary as an additional guarantor of the Notes (the “*Additional Guarantors*”) by causing it to execute and deliver to the Trustee a supplemental indenture in the form attached to the Indenture (and with such documentation relating thereto as the Trustee may reasonably require, including Opinions of Counsel as to the enforceability of such Note Guarantee), pursuant to which such Restricted Subsidiary will become a Guarantor.

Each Additional Guarantor will, jointly and severally, with Altice France and each other Additional Guarantor, irrevocably guarantee (each guarantee, a “*Note Guarantee*”) on a senior basis the full and punctual payment when due, whether at Stated Maturity, by acceleration or otherwise, of all payment obligations of the Issuer under the Indenture and the Notes, whether for payment of principal of or interest on or in respect of the Notes, fees, expenses, indemnification or otherwise. The obligations of any Additional Guarantor will be contractually limited under its Note Guarantee to reflect limitations under applicable law, including, among other things, with respect to maintenance of share capital applicable to such Additional Guarantor and its shareholders, directors and general partner. For purposes of the Indenture and this “*Description of Notes*”, references to the Note Guarantees are references to any such future Note Guarantees and references to the Guarantors are references to any such Additional Guarantors.

#### ***Releases of the Note Guarantees***

The Note Guarantee of a Guarantor will terminate:

- upon a sale or other disposition (including by way of consolidation, merger, amalgamation or combination) of the Capital Stock of the relevant Guarantor (whether by direct sale or sale of a holding company of such Guarantor) or the sale or disposition of all or substantially all the assets of the Guarantor (other than to the Issuer or a Restricted Subsidiary), in each case if the sale or other disposition does not violate the covenant described under “—*Certain Covenants—Limitation on Sales of Assets and Subsidiary Stock*” or “—*Certain Covenants—Minimum Holdings*”;
- upon the designation in accordance with the Indenture of that Guarantor as an Unrestricted Subsidiary;
- upon legal defeasance, covenant defeasance or satisfaction and discharge of the Indenture, as provided in “—*Defeasance*” and “—*Satisfaction and Discharge*”;

- in accordance with an enforcement sale in compliance with the Intercreditor Agreement or any Additional Intercreditor Agreement, or as otherwise provided for under the Intercreditor Agreement or any Additional Intercreditor Agreement;
- as described under “—*Amendments and Waivers*”;
- as described under “—*Certain Covenants—Additional Guarantors*”;
- with respect to any Guarantor that is not the continuing or surviving Person in the relevant consolidation or merger, as a result of a transaction that complies with the provisions described under “—*Merger and Consolidation—The Guarantors*”; or
- upon the full and final payment and performance of all obligations of the Issuer under the Indenture and the Notes.

The Trustee and the Security Agent (as applicable) shall each take all necessary actions, including the granting of releases or waivers under the Intercreditor Agreement or any Additional Intercreditor Agreement, to effectuate any release of a Note Guarantee in accordance with these provisions, subject to customary protections and indemnifications. Each of the releases set forth above shall be effective without the consent of the Holders or any action on the part of the Trustee. Neither the Trustee nor the Issuer will be required to make a notation on the Notes to reflect any such release, termination or discharge.

## Notes Security

### *General*

On the Issue Date, the Notes were secured only by a security interest in the Escrowed Property. On the Completion Date, the Notes will be secured by security interests granted on a first-priority basis over all of the Capital Stock of Altice France and Altice International (the “*Notes Collateral*”).

The Notes Collateral will also secure Indebtedness under the Altice Credit Facility and certain Hedging Obligations of the Issuer which, in each case, will be Super Priority Indebtedness. The pledge agreements and the other security documents in respect of the Notes Collateral to be entered into on the Completion Date are referred to as the “*Security Documents*”. Any other additional security interests that may in the future be granted to secure the obligations under the Notes, the Note Guarantees and the Indenture would also constitute Notes Collateral.

Subject to certain conditions, including compliance with the covenants described under “—*Certain Covenants—Limitation on Liens*” and “—*Certain Covenants—Impairment of Security Interests*”, the Issuer and its Restricted Subsidiaries will be permitted to Incur certain additional Indebtedness in the future that may be secured on the Notes Collateral, including any Additional Notes, certain Indebtedness under Credit Facilities (including revolving credit facility Indebtedness which may be Super Priority Indebtedness) and Hedging Obligations (which in the case of Interest Rate Agreements and Currency Agreements may be Super Priority Indebtedness) and certain other Hedging Obligations (which may be Super Priority Indebtedness), in each case, permitted under the Indenture and other Indebtedness of the Issuer and its Subsidiaries.

The proceeds from the sale of the Notes Collateral remaining after sharing with other creditors entitled to share in such proceeds may not be sufficient to satisfy the obligations owed to the Holders of the Notes. No appraisals of the Notes Collateral have been made in connection with the Offering Memorandum of Notes. By its nature, some or all of the Notes Collateral will be illiquid and may have no readily ascertainable market value. Accordingly, the Notes Collateral may not be able to be sold in a short period of time, or at all. In addition, the Intercreditor Agreement places limitations on the ability of the Security Agent to release the security interests in some of the Notes Collateral, by reference to the interests of other creditors. These limitations may include requirements that some or all of the Notes Collateral be disposed of only pursuant to public auctions or only at a price confirmed by a valuation. See “*Description of Other Indebtedness—Indebtedness of Altice S.A.—The Altice S.A. Intercreditor Agreement*” and “*Risk Factors—Risks Relating to the Notes and the Structure—The value of the Collateral may not be sufficient to satisfy our obligations under the Notes and such Collateral may be reduced or diluted under certain circumstances.*”

The creditors under the Altice Credit Facility, the counterparties to certain Hedging Obligations and the Trustee have, and by accepting a Note, each Holder will be deemed to have, irrevocably appointed the Security Agent to act as its agent under the Intercreditor Agreement and the Security Documents. The creditors under the Altice Credit Facility, the counterparties to certain Hedging Obligations and the Trustee have, and by accepting a Note, each holder will be deemed to have, irrevocably authorized the Security Agent to (i) perform the duties and exercise the rights, powers and discretions that are specifically given to it under the Intercreditor Agreement and the Security Documents, together with any other incidental rights, power and discretions; and (ii) execute each Security Document, waiver, modification, amendment, renewal or replacement expressed to be executed by the Security Agent on its behalf.

### ***Security Documents***

Under the Security Documents, the applicable grantor of security will grant security over the Notes Collateral to secure the payment when due of the Issuer's and/or the Guarantors' payment obligations under the Notes, the Note Guarantees and/or the Indenture (as applicable). The Security Documents will be, entered into by the relevant security provider and the Security Agent as agent for the secured parties referred to therein. When entering into the Security Documents, the Security Agent will act in its own name, but also (except where the Security Documents only secure the "parallel debt" created under the Intercreditor Agreement and owed to the Security Agent) as a representative of the secured parties (including the Holders from time to time). Under the Intercreditor Agreement, the Security Agent will also act on behalf of the lenders under the Altice Credit Facility, the counterparties to certain Hedging Obligations and holders of any additional Indebtedness that is permitted to be secured by the Notes Collateral in favor of such parties.

The Indenture provides that, subject to the terms thereof and of the Security Documents and the Intercreditor Agreement, the Notes and the Note Guarantees, as applicable, will be secured by the security interest in the Notes Collateral that is created by the Security Documents and secures obligations under the Notes, the Note Guarantees and/or the Indenture (the "*Security Interests*"). Such Security Interests in the Notes Collateral will also secure the obligations under the Altice Credit Facility, the counterparties to certain Hedging Obligations and certain other Indebtedness permitted by the Indenture to be Incurred in the future and secured by such Notes Collateral. However, the Security Interests may be released under certain circumstances as provided under "*—Release of Notes Collateral*" below. See "*Risk Factors—Risks Relating to the Notes and the Structure—There are circumstances other than repayment or discharge of the Notes under which the Guarantee and the Collateral will be released automatically, without your consent or the consent of the Trustee*".

The Security Documents will provide that the rights with respect to the Notes and the Note Guarantees must be exercised by the Security Agent. Because the Holders will not be a party to the Security Documents, Holders may not, individually or collectively, take any direct action to enforce any rights in their favor under the Security Documents. The Holders may only act through the Security Agent.

In the event that the Issuer or other grantor of a security interest in the Notes Collateral enters into insolvency, bankruptcy or similar proceedings, the Security Interests created under the Security Documents or the rights and obligations enumerated in the Intercreditor Agreement could be subject to potential challenges. If any challenge to the validity of the Security Interests or the terms of the Intercreditor Agreement were successful, the Holders might not be able to recover any amounts under the Security Documents. See "*Risk Factors—Risks Relating to the Notes and the Structure—The Guarantee will be subject to certain limitations on enforcement and may be limited by applicable laws or subject to certain defenses that may limit its validity and enforceability*" and "*Limitation on Validity and Enforceability of the Guarantee and the Security Interests*".

### ***Release of Notes Collateral***

The Issuer and the Guarantors will be entitled to release the Security Interests in respect of the Notes Collateral securing the Notes and the Note Guarantees under any one or more of the following circumstances:

- (1) in connection with any sale or other disposition of the Notes Collateral to a Person that is not the Issuer or a Restricted Subsidiary (but excluding any transaction subject to "*—Certain Covenants—Merger and Consolidation*"), if such sale or other disposition does not violate the covenant described under "*—Certain Covenants—Limitation on Sales of Assets and Subsidiary Stock*" or "*—Certain Covenants—Minimum Holdings*"; but only in respect of the Notes Collateral sold or otherwise disposed of;

- (2) in connection with the release of a Guarantor from its Note Guarantee pursuant to the terms of the Indenture, the release of the property and assets, and Capital Stock, of such Guarantor;
- (3) if the Issuer designates any Restricted Subsidiary to be an Unrestricted Subsidiary in accordance with the applicable provisions of the Indenture, the release of the property, assets and Capital Stock of such Unrestricted Subsidiary;
- (4) upon legal defeasance, covenant defeasance or satisfaction and discharge of the Indenture, as provided in “—*Defeasance*” and “—*Satisfaction and Discharge*”;
- (5) in accordance with an enforcement sale in compliance with the Intercreditor Agreement or any Additional Intercreditor Agreement, or as otherwise provided for under the Intercreditor Agreement or any Additional Intercreditor Agreement;
- (6) as described under “—*Amendments and Waivers*”, “—*Certain Covenants—Impairment of Security Interests*” and the second paragraph under “—*Certain Covenants—Limitation on Liens*”;
- (7) upon the full and final payment and performance of all obligations of the Issuer under the Indenture and the Notes;
- (8) to release and re-take any Lien on any Notes Collateral to the extent not otherwise prohibited by the terms of the Indenture, the Security Documents or the Intercreditor Agreement or any Additional Intercreditor Agreement;
- (9) in connection with a transaction permitted by the covenant described below under the caption “—*Certain Covenants—Merger and Consolidation*”; or
- (10) with the consent of holders of at least 75% in aggregate principal amount of Notes (including, without limitation, consent obtained in connection with a tender offer or exchange offer for, or purchase of, the Notes);

*provided* that, the Security Interests created by the Escrow Assignment may only be released upon release of all of the Escrowed Property from the Escrow Account in accordance with the terms of the Escrow Agreement.

Upon certification by the Issuer, the Trustee (to the extent action is required by it) and the Security Agent shall take all necessary actions, including the granting of releases or waivers under the Intercreditor Agreement, to effectuate any release in accordance with these provisions, subject to customary protections and indemnifications. The Security Agent and the Trustee (as applicable) will take all necessary action required to effectuate any release of the Notes Collateral, in accordance with the provisions of the Indenture, the Intercreditor Agreement or any Additional Intercreditor Agreement and the relevant Security Document. Each of the releases set forth above shall be effected by the Security Agent without the consent of the Holders or any action on the part of the Trustee.

### **Intercreditor Agreement**

To establish the relative rights of certain creditors of the Group under its financing arrangements, including, without limitation, the lenders under the Altice Credit Facility, the counterparties to certain Hedging Obligations secured on the Notes Collateral and the holders of the Notes, the Issuer, the facility agent under the Altice Credit Facility, certain hedging counterparties and the Security Agent will enter into the Intercreditor Agreement. Please see “*Description of Other Indebtedness—Indebtedness of Altice S.A.—Altice S.A. Intercreditor Agreement*”. Upon release of the proceeds of the Notes from escrow, the Trustee will become party to the Intercreditor Agreement. Pursuant to the terms of the Intercreditor Agreement, any liabilities in respect of obligations under the Altice Credit Facility and certain Hedging Obligations that are secured on the Notes Collateral will receive priority over amounts received from the sale of the Notes Collateral following an enforcement sale or other distressed disposal of such Notes Collateral. Any proceeds received upon any enforcement over any Notes Collateral, after all obligations under the Altice Credit Facility have been repaid and such Hedging Obligations have been discharged from such recoveries, will be applied pro rata in repayment of all obligations under the Indenture, the Notes and any other Indebtedness of the Issuer and the Guarantors

permitted to be Incurred and secured by the Note Collateral on a pari passu basis pursuant to the Indenture and the Intercreditor Agreement.

Subject to the Security Interests becoming enforceable, the Holders of the Notes (together with any other holders of Indebtedness of the Issuer that ranks pari passu with the Notes) and the holders of Super Priority Indebtedness, in each case acting through their respective agent or trustee, are entitled to instruct the Security Agent on enforcement of the Notes Collateral. In the event either group of creditors issues conflicting enforcement instructions, subject to certain exceptions, a 30 day consultation period is required. In the event both creditor groups do not agree on the manner of enforcement after the consultation period, the Intercreditor Agreement provides that the Security Agent will act on the instructions of the majority of the aggregate principal amount of the Notes and all other Indebtedness of the Issuer which ranks pari passu with the Notes. If all Super Priority Indebtedness is not repaid within six months after date on which proposed enforcement instructions are issued or the Security Agent has not commenced any enforcement action within three months of such date, thereafter the instructions of the majority holders of Super Priority Indebtedness will prevail. See “*Description of Other Indebtedness—Indebtedness of Altice S.A.—Altice S.A. Intercreditor Agreement*”.

The Indenture provides that each holder, by accepting a Note, shall be deemed to have agreed to and accepted the terms and conditions of the Intercreditor Agreement and any Additional Intercreditor Agreement (whether then entered into or entered into in the future pursuant to the provisions described herein).

#### ***Additional Intercreditor Agreements; Agreement to Be Bound***

Similar provisions to those described above may be included in any Additional Intercreditor Agreement (as defined below) entered into in compliance with the covenant described under “—*Certain Covenants—Additional Intercreditor Agreements*”.

The Indenture provides that each Holder, by accepting a Note, shall be deemed to have agreed to and accepted the terms and conditions of the Intercreditor Agreement and any Additional Intercreditor Agreement and to have authorized the Trustee and the Security Agent to enter into any such Intercreditor Agreement or any such Additional Intercreditor Agreement (whether then entered into or entered into in the future pursuant to the provisions described herein).

#### **Restricted Subsidiaries and Unrestricted Subsidiaries**

On the Issue Date, all of the Issuer’s Subsidiaries were designated as Restricted Subsidiaries. However, in the circumstances described below under “—*Certain Definitions—Unrestricted Subsidiary*”, the Issuer will be permitted to designate Restricted Subsidiaries as Unrestricted Subsidiaries. Unrestricted Subsidiaries will not be subject to many of the restrictive covenants in the Indenture.

#### **Escrow of Proceeds; Special Mandatory Redemption**

Concurrently with the closing of the offering of the Notes on the Issue Date, the Issuer will enter into the Escrow Agreement with the Trustee and the Escrow Agent, pursuant to which the initial purchasers will deposit with the Escrow Agent an amount equal to the gross proceeds of the Offering Memorandum of the Notes into the Escrow Account. The initial funds deposited in the Escrow Account, and all other funds, securities, interest, dividends, distributions and other property and payments credited to the Escrow Account (less any property and/or funds paid in accordance with the Escrow Agreement) are referred to, collectively, as the “*Escrowed Property*”. The Escrowed Property will be controlled by the Escrow Agent, and pledged on a first ranking basis in favor of, the Trustee on behalf of the Holders of the Notes.

In order to cause the Escrow Agent to release any Escrowed Property to the Issuer (any such release, the “*Release*”), the Escrow Agent and the Trustee shall have received from the Issuer, on or before the Escrow Longstop Date, an officer’s certificate, in the form attached to the Escrow Agreement to the effect that:

- (i) (A) Numericable or one of its direct or indirect subsidiaries has executed the Target Acquisition Agreement; (B) the Target Acquisition Agreement has not been modified, amended or waived in any respect that is material and adverse to Holders without the prior consent of the Holders of a majority of the outstanding Notes (it being understood and agreed that any increase or reduction in the purchase price shall not be deemed to be materially adverse to the Holders; provided that (i) any increase in the

purchase price shall not be funded by Indebtedness and (ii) any reduction shall be allocated to ratably reduce the Numericable Rights Issue and the Numericable Notes and/or the Numericable Senior Credit Facility in proportion to the actual percentages that the amount of Rights Offering and the Numericable Notes and/or the Numericable Senior Credit Facility bear to the pro forma total capitalization of Numericable and its subsidiaries after giving effect to the Transactions); (C) Target Acquisition Agreement remains in full force and effect; and (D) the Numericable Rights Issue will be consummated, promptly upon release of the Escrowed Property;

- (ii) immediately following completion of the Acquisition, Numericable will own, directly or indirectly, 100% of the outstanding Capital Stock of the Target (less ten shares which are owned by a third-party); and
- (iii) as of the Completion Date, there are no events of bankruptcy, insolvency or court protection with respect to the Numericable.

Prior to the release of such proceeds from the Escrow Account, such funds will be invested in certain permitted investments including in cash and/or any highly-rated stable net asset value money market fund.

The Release will occur promptly upon the satisfaction of the conditions set forth above. Upon the Release, the Escrowed Property will be paid out in accordance with the Escrow Agreement and the Escrow Account will be reduced to zero.

In the event that (a) the Completion Date does not take place on or prior to the Escrow Longstop Date, (b) the Target Acquisition Agreement is terminated at any time prior to the Escrow Longstop Date; or (c) there is there an event of bankruptcy, insolvency or court protection with respect to the Issuer on or prior to the Escrow Longstop Date (the date of any such event being the “*Special Termination Date*”), the Issuer will redeem all of the Notes (the “*Special Mandatory Redemption*”) at a price (the “*Special Mandatory Redemption Price*”) equal to 100% of the initial issue price of each Note, plus accrued but unpaid interest and Additional Amounts, if any, from the Issue Date to the Special Mandatory Redemption Date (as defined below and subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date).

Notice of the Special Mandatory Redemption will be delivered by the Issuer in accordance with the terms of the Escrow Agreement, no later than one Business Day following the Special Termination Date, to the Trustee and the Escrow Agent, and will provide that the Notes shall be redeemed on a date that is no later than the fifth Business Day after such notice is given by the Issuer (the “*Special Mandatory Redemption Date*”). On or before the Special Mandatory Redemption Date, the Escrow Agent shall pay to the Principal Paying Agent for payment to each holder of the Notes to be redeemed the Special Mandatory Redemption Price for such holder’s Notes and, concurrently with the payment to such holders, shall deliver any excess Escrowed Property (if any) to the Issuer.

To secure the payment of the Special Mandatory Redemption Price, the Issuer will grant to the Trustee for the benefit of the holders of the Notes a security interest in the Escrow Account (the “*Escrow Assignment*”).

If at the time of such Special Mandatory Redemption, the Notes are listed on the Luxembourg Stock Exchange and the rules of the Luxembourg Stock Exchange so require, the Issuer will notify the Luxembourg Stock Exchange that the Special Mandatory Redemption has occurred and any relevant details relating to such special mandatory redemption.

### **Optional Redemption**

Except as described below and except as described under “*Redemption for Changes in Withholding Taxes*”, and “*Escrow of Proceeds, Special Mandatory Redemption*”, the Notes are not redeemable until May 15, 2017.

On and after May 15, 2017 the Issuer may redeem all or, from time to time, part of the Dollar Notes and/or the Euro Notes upon not less than 30 nor more than 60 days’ notice, at the following redemption prices (expressed as a percentage of the principal amount) plus accrued and unpaid interest and Additional Amounts (as defined below), if any, to, but not including, the applicable redemption date (subject to the right of the

Holders of record on the relevant record date to receive interest due on the relevant interest payment date), if redeemed during the twelve-month period beginning on May 15 of the years indicated below:

Year	Redemption Price	
	Dollar Notes	Euro Notes
2017.....	105.813	105.438
2018.....	103.875	103.625
2019.....	101.938	101.813
2020 and thereafter .....	100.000%	100.000%

Unless the Issuer defaults in the payment of the redemption price, interest will cease to accrue on the Notes or the portion thereof called for redemption on the applicable redemption date. Any such redemption and notice may, in the Issuer's discretion, be subject to the satisfaction of one or more conditions precedent.

(x) Prior to November 15, 2015, the Issuer may on any one or more occasions redeem up to 40% of the original principal amount of the Dollar Notes and up to 40% of the original amount of the Euro Notes (including, in each case, the principal amount of any Additional Notes denominated in such currencies), upon not less than 30 nor more than 60 days' notice, with funds in an aggregate amount (the "*Redemption Amount*") not exceeding the Net Cash Proceeds of one or more Equity Offerings or offerings of equity-linked securities (an "*Equity-Linked Offering*") (in each case, excluding the Altice Equity Financing) at a redemption price of 103.000% of the principal amount of the Dollar Notes and 103.000% of the principal amount of the Euro Notes, plus, in each case, accrued and unpaid interest and Additional Amounts, if any, to, but not including, the applicable redemption date (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date); and (y) on or after November 15, 2015 and prior to May 15, 2017, the Issuer may on any one or more occasions redeem up to 40% of the original principal amount of the Dollar Notes (less the percentage of the original amount of the Dollar Notes redeemed pursuant to clause (x) above) and up to 40% of the original amount of the Euro Notes (less the percentage of the original amount of the Euro Notes redeemed pursuant to clause (x) above) (including, in each case, the principal amount of any Additional Notes denominated in such currencies), upon not less than 30 nor more than 60 days' notice, with funds in a Redemption Amount not exceeding the Net Cash Proceeds of one or more Equity Offerings (excluding the Altice Equity Financing) at a redemption price of 107.750% of the principal amount of the Dollar Notes and 107.250% of the principal amount of the Euro Notes, plus, in each case, accrued and unpaid interest and Additional Amounts, if any, to, but not including, the applicable redemption date (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date); *provided that*:

- (1) at least 60% of the original principal amount of each of the Dollar Notes (including the principal amount of any Additional Notes denominated in U.S. dollars) and the Euro Notes (including the principal amount of any Additional Notes denominated in euro) remains outstanding after each such redemption; and
- (2) the redemption occurs within 180 days after the closing of such Equity Offering or such Equity-Linked Offering.

Any redemption notice given in respect of the redemption referred to in the preceding paragraph may be given prior to completion of the related Equity Offering or Equity-Linked Offering, and any such redemption or notice may, at the Issuer's discretion, be subject to the satisfaction of one or more conditions precedent, including the completion of the related Equity Offering or Equity-Linked Offering.

In addition, prior to May 15, 2017, the Issuer may redeem all or, from time to time, a part of the Dollar Notes and/or the Euro Notes upon not less than 30 nor more than 60 days' notice at a redemption price equal to 100% of the principal amount thereof plus the Applicable Premium and accrued and unpaid interest and Additional Amounts, if any, to, but not including, the applicable redemption date (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date). Any such redemption and notice may, at the Issuer's discretion, be subject to the satisfaction of one or more conditions precedent.

For the avoidance of doubt, in each case above, the Issuer may choose to redeem each series of Notes, either together or separately.

If the Issuer effects an optional redemption of Notes, it will, for so long as the Notes are listed on the Euro MTF Market of the Luxembourg Stock Exchange and the rules of the Luxembourg Stock Exchange so require, inform the Luxembourg Stock Exchange of such optional redemption and confirm the aggregate principal amount of the Notes that will remain outstanding immediately after such redemption.

### **Sinking Fund**

Except as described under “*Escrow of Proceeds; Special Mandatory Redemption*”, the Issuer will not be required to make mandatory redemption payments or sinking fund payments with respect to the Notes.

### **Selection and Notice**

If less than all of the Notes are to be redeemed at any time, the Trustee or the Registrar will select Notes for redemption in compliance with the requirements of the principal securities exchange, if any, on which the Notes are listed, or if the Notes are not so listed or such exchange prescribes no method of selection, based on a method that most nearly approximates a *pro rata* selection or by lot or such other similar method in accordance with the procedures of DTC or Euroclear and Clearstream; *provided, however*, that no Dollar Note of \$200,000 in aggregate principal amount or less shall be redeemed in part and only Dollar Notes in integral multiples of \$1,000 will be redeemed and no Euro Note of €100,000 in aggregate principal amount or less shall be redeemed in part and only Euro Notes in integral multiples of €1,000 will be redeemed. Neither the Trustee nor the Registrar will be liable for any selections made in accordance with this paragraph.

For so long as the Notes are listed on the Euro MTF Market of the Luxembourg Stock Exchange, not less than 30 nor more than 60 days prior to the redemption date, the Issuer will mail, if the Notes are in Definitive Certificated form, notice of redemption to Holders by first-class mail, postage prepaid, at their respective addresses as they appear on the registration books of the Registrar. If the Notes are in global form, notice of redemption will be delivered to DTC (in the case of Dollar Notes) or Euroclear and Clearstream (in the case of Euro Notes) for communication to entitled account holders. Such notice of redemption may also be posted on the official website of the Luxembourg Stock Exchange ([www.bourse.lu](http://www.bourse.lu)), to the extent and in the manner permitted by the rules of the Luxembourg Stock Exchange.

If any Note is to be redeemed in part only, the notice of redemption that relates to that Note shall state the portion of the principal amount thereof to be redeemed. In the case of a Definitive Registered Note, a new Definitive Registered Note in principal amount equal to the unredeemed portion of any Definitive Registered Note redeemed in part will be issued in the name of the Holder thereof upon cancellation of the original Definitive Registered Note. In the case of a Global Note, an appropriate notation will be made on such Note to decrease the principal amount thereof to an amount equal to the unredeemed portion thereof. Subject to the terms of the applicable redemption notice, Notes called for redemption become due on the date fixed for redemption. On and after the redemption date, interest ceases to accrue on Notes or portions of Notes called for redemption.

### **Redemption for Changes in Withholding Taxes**

The Issuer may redeem the Notes, in whole but not in part, at its discretion at any time upon giving not less than 30 nor more than 60 days' prior notice to the holders of the Notes (which notice will be irrevocable and given in accordance with the procedures described in “—*Selection and Notice*”), at a redemption price equal to 100% of the aggregate principal amount thereof, together with accrued and unpaid interest, if any, to the date fixed by the Issuer for redemption (a “*Tax Redemption Date*”) and all Additional Amounts (if any) then due and which will become due on the Tax Redemption Date as a result of the redemption or otherwise (subject to the right of holders of the Notes on the relevant record date to receive interest due on the relevant interest payment date and Additional Amounts (if any) in respect thereof), if on the next date on which any amount would be payable in respect of the Notes, the Issuer or any Guarantor is or would be required to pay Additional Amounts, and (a) the Issuer or the relevant Guarantor cannot avoid such requirement by taking reasonable measures available to it (including the designation of a different Paying Agent), (b) in the case of a Guarantor, such amounts cannot be paid by the Issuer or any other Guarantor who in turn can pay such amounts without the obligation to pay Additional Amounts and (c) the requirement arises as a result of:

- (1) any amendment to, or change in, the laws or treaties (or any regulations or rulings promulgated thereunder) of a relevant Tax Jurisdiction (as defined in “—*Withholding Taxes*” below) which change

or amendment is announced and becomes effective on or after the Issue Date (or, if the applicable Tax Jurisdiction became a Tax Jurisdiction on a date after the Issue Date, such later date); or

- (2) any amendment to, or change in, an official written interpretation or application of such laws, treaties, regulations or rulings (including by virtue of a holding, judgment or order by a court of competent jurisdiction or a change in published administrative practice) which amendment or change is announced and becomes effective on or after the Issue Date (or, if the applicable Tax Jurisdiction became a Tax Jurisdiction on a date after the Issue Date, such later date).

The Issuer will not give any such notice of redemption earlier than 60 days prior to the earliest date on which the Issuer or the relevant Guarantor would be obligated to make such payment or withholding if a payment in respect of the Notes was then due, and the obligation to pay Additional Amounts must be in effect at the time such notice is given. Prior to the publication or, where relevant, mailing of any notice of redemption of the Notes pursuant to the foregoing, the Issuer will deliver to the Trustee an opinion of independent tax counsel to the effect that there has been such amendment or change which would entitle the Issuer to redeem the Notes hereunder. In addition, before the Issuer publishes or mails notice of redemption of the Notes as described above, it will deliver to the Trustee an Officer's Certificate to the effect that (a) it or the relevant Guarantor cannot avoid its obligation to pay Additional Amounts by the Issuer or the relevant Guarantor taking reasonable measures available to it and (b) in the case of a Guarantor, the amounts giving rise to such obligation cannot be paid by the Issuer or any other Guarantor without the obligation to pay Additional Amounts.

In the absence of bad faith on its part, the Trustee will accept and shall be entitled to conclusively rely without further inquiry on such Officer's Certificate and Opinion of Counsel as sufficient evidence of the existence and satisfaction of the conditions precedent as described above, in which event it will be conclusive and binding on the holders of the Notes.

For the avoidance of doubt, the implementation of European Council Directive 2003/48/EC or any other directive implementing the conclusions of the ECOFIN Council meeting of 26 and 27 November 2000 on the taxation of savings income or any law implementing or complying with or introduced in order to conform to, such directive will not be a change or amendment for such purposes.

The foregoing will apply *mutatis mutandis* to any jurisdiction in which any successor Person to the Issuer is incorporated or organized, engaged in business or resident for tax purposes or any jurisdiction from or through which payment is made by or on behalf of such Person on the Notes and any political subdivision thereof or therein.

### **Withholding Taxes**

All payments made under or with respect to the Notes or any Note Guarantee will be made free and clear of and without withholding or deduction for, or on account of, any present or future tax, duty, levy, assessment or other governmental charge, including any related interest, penalties or additions to tax ("*Taxes*") unless the withholding or deduction of such Taxes is then required by law or by the official interpretation or administration thereof. If any deduction or withholding for, or on account of, any Taxes imposed or levied by or on behalf of (1) any jurisdiction in which the Issuer or any Guarantor is then incorporated or organized, engaged in business for tax purposes or resident for tax purposes or any political subdivision or governmental authority thereof or therein having power to tax or (2) any jurisdiction from or through which payment is made by or on behalf of the Issuer or any Guarantor (including, without limitation, the jurisdiction of any paying agent for the Notes) or any political subdivision thereof or therein (each, a "*Tax Jurisdiction*") will at any time be required to be made from any payments made under or with respect to the Notes or any Note Guarantee, including, without limitation, payments of principal, redemption price, interest or premium, the Issuer or the relevant Guarantor, as applicable, will pay such additional amounts (the "*Additional Amounts*") as may be necessary in order that the net amounts received in respect of such payments by each holder of the Notes after such withholding or deduction (including any such withholding or deduction from such Additional Amounts) will equal the respective amounts that would have been received in respect of such payments in the absence of such withholding or deduction; *provided, however*, that no Additional Amounts will be payable with respect to:

- (1) any Taxes, to the extent such Taxes would not have been imposed but for the existence of any actual or deemed present or former connection between the holder (or between a fiduciary, settler, beneficiary, member or shareholder of, or possessor of a power over the relevant holder, if the relevant holder is an

estate, nominee, trust, partnership, limited liability company or corporation) or the beneficial owner of the Notes and the relevant Tax Jurisdiction (including, without limitation, being or having been a citizen, resident, or national thereof or being or having been present or engaged in a trade or business therein or having or having had a permanent establishment therein), other than connections arising from the holding of such Note or any Note Guarantee, the enforcement of rights under such Note or under a Note Guarantee or the receipt of any payments in respect of such Note or a Note Guarantee;

- (2) any Taxes, to the extent such Taxes were imposed as a result of the presentation of a Note for payment (where Notes are in the form of Definitive Registered Notes and presentation is required) more than 30 days after the relevant payment is first made available for payment to the holder (except to the extent that the holder would have been entitled to Additional Amounts had the Note been presented on the last day of such 30 day period);
- (3) any estate, inheritance, gift, sales, transfer, personal property or similar Taxes or any excise Taxes imposed on transfers;
- (4) any Taxes withheld, deducted or imposed on a payment to an individual that are required to be made pursuant to European Council Directive 2003/48/EC or any other directive implementing the conclusions of the ECOFIN Council meeting of November 26 and 27, 2000 on the taxation of savings income, or any law implementing or complying with or introduced in order to conform to, such directive;
- (5) Taxes imposed on or with respect to a payment made to a holder or beneficial owner of Notes who would have been able to avoid such withholding or deduction by presenting the relevant Note to another Paying Agent in a member state of the European Union;
- (6) any Taxes payable other than by deduction or withholding from payments under, or with respect to, the Notes or with respect to any Note Guarantee;
- (7) any Taxes to the extent such Taxes are imposed or withheld by reason of the failure of the holder or beneficial owner of Notes to comply with any reasonable written request of the Issuer addressed to the holder or beneficial owner and made at least 60 days before any such withholding or deduction would be payable to satisfy any certification, identification, information or other reporting requirements, whether required by statute, treaty, regulation or administrative practice of the relevant Tax Jurisdiction, as a precondition to exemption from, or reduction in the rate of deduction or withholding of, Taxes imposed by such Tax Jurisdiction (including, without limitation, a certification that the holder or beneficial owner is not resident in the Tax Jurisdiction), but in each case, only to the extent the holder or beneficial owner is legally eligible to provide such certification or documentation;
- (8) all United States federal backup withholding taxes;
- (9) any Taxes that are imposed or withheld pursuant to Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986, as amended (the “Code”), as of the Issue Date (or any amended or successor version of such sections), any regulations promulgated thereunder, any official interpretations thereof, any similar law or regulation adopted pursuant to an intergovernmental agreement between a non-U.S. jurisdiction and the United States with respect to the foregoing or any agreements entered into pursuant to section 1471(b)(1) of the Code; or
- (10) any combination of items (1) through (9) above.

Such Additional Amounts will also not be payable where, had the beneficial owner of the Note been the holder of the Note, it would not have been entitled to payment of Additional Amounts by reason of any of clauses (1) to (10) inclusive above.

In addition to the foregoing, the Issuer and the Guarantors, as the case may be, will also pay and indemnify the holder for any present or future stamp, issue, registration, court or documentary Taxes, or any other excise or property Taxes, charges or similar levies (including penalties, interest and any other reasonable expenses related thereto) which are levied by any Tax Jurisdiction on the execution, delivery, issuance, or registration of any of the Notes, the Indenture, any Note Guarantee or any other document or instrument referred

to therein, or the receipt of any payments with respect thereto, or the enforcement of, any of the Notes or any Note Guarantee (limited, solely in the case of taxes attributable to the receipt of any payments with respect thereto, to any such taxes imposed in a Tax Jurisdiction that are not excluded under clauses (1) through (5) or (7) through (9) above).

If the Issuer or any Guarantor, as the case may be, becomes aware that it will be obligated to pay Additional Amounts with respect to any payment under or with respect to the Notes or any Note Guarantee, each of the Issuer or the relevant Guarantor, as the case may be, will deliver to the Trustee on a date that is at least 30 days prior to the date of that payment (unless the obligation to pay Additional Amounts arises less than 30 days prior to that payment date, in which case the Issuer or the relevant Guarantor shall notify the Trustee promptly thereafter) an Officer's Certificate stating the fact that Additional Amounts will be payable and the amount estimated to be so payable. The Officer's Certificate must also set forth any other information reasonably necessary to enable the Paying Agents to pay such Additional Amounts to holders on the relevant payment date. The Trustee shall be entitled to rely solely on such Officer's Certificate as conclusive proof that such payments are necessary.

The Issuer or the relevant Guarantor will make all withholdings and deductions required by law and will remit the full amount deducted or withheld to the relevant Tax authority in accordance with applicable law. The Issuer or the relevant Guarantor will use its reasonable efforts to obtain Tax receipts from each Tax authority evidencing the payment of any Taxes so deducted or withheld. The Issuer or the relevant Guarantor will furnish to the Trustee (or to a holder or beneficial owner upon written request), within a reasonable time after the date the payment of any Taxes so deducted or withheld is made, certified copies of Tax receipts evidencing payment by the Issuer or a Guarantor, as the case may be, or if, notwithstanding such entity's efforts to obtain receipts, receipts are not obtained, other evidence of payments (reasonably satisfactory to the Trustee) by such entity. Upon reasonable request, copies of Tax receipts or other evidence of payments, as the case may be, will be made available by the Trustee to the holders or beneficial owners of the Notes.

Whenever in the Indenture or in this "Description of Notes" there is mentioned, in any context, the payment of amounts based upon the principal amount of the Notes or of principal, interest or of any other amount payable under, or with respect to, any of the Notes or any Note Guarantee, such mention shall be deemed to include mention of the payment of Additional Amounts to the extent that, in such context, Additional Amounts are, were or would be payable in respect thereof.

The above obligations will survive any termination, defeasance or discharge of the Indenture, and any transfer by a holder or beneficial owner of its Notes, and will apply, *mutatis mutandis*, to any jurisdiction in which any successor Person to the Issuer or any Guarantor is incorporated or organized, engaged in business for tax purposes or resident for tax purposes (and any political subdivision or governmental authority thereof or therein having power to tax) and any jurisdiction from or through which payment is made by or on behalf of such Person on the Notes or any Note Guarantee and any political subdivision thereof or therein.

## **Change of Control**

If a Change of Control occurs, subject to the terms of the covenant described under this heading "Change of Control", each Holder will have the right to require the Issuer to repurchase all or any part (equal to \$200,000 or an integral multiple of \$1,000 in excess thereof, in the case of Dollar Notes, and €100,000 principal amount and integral multiples of €1,000 in excess thereof, in the case of Euro Notes) of such Holder's Notes at a purchase price in cash equal to 101% of the principal amount of the Notes, plus accrued and unpaid interest and Additional Amounts, if any, to the date of purchase (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date); provided, however, that the Issuer shall not be obliged to repurchase Notes as described under this heading, "Change of Control", in the event and to the extent that it has unconditionally exercised its right to redeem all of the Notes as described under "—Optional Redemption" or all conditions to such redemption have been satisfied or waived. No such purchase in part shall reduce the principal amount at maturity of the Dollar Notes held by any holder to below \$200,000 or the Euro Notes held by any holder to below € 100,000.

Unless the Issuer has unconditionally exercised its right to redeem all the Notes as described under "—Optional Redemption" or all conditions to such redemption have been satisfied or waived, no later than the date that is 60 days after any Change of Control, or, at the Issuer's option, at any time prior to a Change of Control following the public announcement thereof or if a definitive agreement is in place for the Change of Control, the

Issuer will send a notice (the “*Change of Control Offer*”) to each Holder of any such Notes by mail or otherwise in accordance with the procedures set forth in the Indenture, with a copy to the Trustee:

- (1) stating that a Change of Control has occurred or may occur and that such Holder has the right to require the Issuer to purchase all or any part of such Holder’s Notes at a purchase price in cash equal to 101% of the principal amount of such Notes plus accrued and unpaid interest and Additional Amounts, if any, to, but not including, the date of purchase (subject to the right of Holders of record on a record date to receive interest on the relevant interest payment date) (the “*Change of Control Payment*”);
- (2) stating the repurchase date (which shall be no earlier than 30 days nor later than 60 days from the date such notice is mailed) (the “*Change of Control Payment Date*”) and the record date;
- (3) stating that any Note accepted for payment pursuant to the Change of Control Offer will cease to accrue interest after the Change of Control Payment Date unless the Change of Control Payment is not paid, and that any Notes or part thereof not tendered will continue to accrue interest;
- (4) describing the circumstances and relevant facts regarding the transaction or transactions that constitute the Change of Control;
- (5) describing the procedures determined by the Issuer, consistent with the Indenture, that a Holder must follow in order to have its Notes repurchased;
- (6) if such notice is mailed prior to the occurrence of a Change of Control, stating that the Change of Control Offer is conditional on the occurrence of such Change of Control; and
- (7) certain other procedures that a holder of Notes must follow to accept a Change of Control Offer or to withdraw such acceptance.

The Issuer shall cause to be published the notice described above in a leading newspaper having a general circulation in London (which is expected to be the *Financial Times*) or through the newswire service of Bloomberg (or if Bloomberg does not then operate, any similar agency). In addition, if and for so long as the Notes are listed on the Official List of the Luxembourg Stock Exchange and admitted for trading on the Euro MTF Market and the rules of the Luxembourg Stock Exchange so require, the Issuer will publish a public announcement with respect to the results of any Change of Control Offer in a leading newspaper of general circulation in Luxembourg (which is expected to be the *Luxemburger Wort*) or, to the extent and in the manner permitted by such rules, post such notice on the official website of the Luxembourg Stock Exchange. The ability of the Issuer to repurchase Notes pursuant to a Change of Control Offer may be limited by a number of factors. See “*Risk Factors—Risks Relating to the Notes and the Structure—We may not be able to obtain enough funds necessary to finance an offer to repurchase the Notes upon the occurrence of certain events constituting a change of control (as defined in the Indenture) as required by the Indenture*”.

On the Change of Control Payment Date, if the Change of Control shall have occurred, the Issuer will, to the extent lawful:

- (1) accept for payment all Notes or portion thereof properly tendered pursuant to the Change of Control Offer;
- (2) deposit with the relevant Paying Agent an amount equal to the Change of Control Payment in respect of all Notes so tendered;
- (3) deliver or cause to be delivered to the Trustee an Officer’s Certificate stating the aggregate principal amount of Notes or portions of the Notes being purchased by the Issuer in the Change of Control Offer;
- (4) in the case of Global Notes, deliver, or cause to be delivered, to the Principal Paying Agent (in the case of the Euro Notes) and the U.S. Paying Agent (in the case of Dollar Notes), the Global Notes in order to reflect thereon the portion of such Notes or portions thereof that have been tendered to and purchased by the Issuer; and

- (5) in the case of Definitive Registered Notes, deliver, or cause to be delivered, to the relevant Registrar for cancellation all Definitive Registered Notes accepted for purchase by the Issuer.

If any Definitive Registered Notes have been issued, the Paying Agents, at the Issuer's expense, will promptly mail to each Holder of Definitive Registered Notes so tendered the Change of Control Payment for such Notes, and the Trustee or an authenticating agent will authenticate and mail, at the Issuer's expense (or cause to be transferred by book-entry) to each Holder of Definitive Registered Notes a new Definitive Registered Note equal in principal amount to the unpurchased portion of the Notes surrendered, if any; *provided* that each such new Note will be in a principal amount that is at least \$200,000 and integral multiples of \$1,000 in excess thereof, in the case of Dollar Notes, and €100,000 principal amount and integral multiples of €1,000 in excess thereof, in the case of Euro Notes.

For so long as the Notes are listed on the Euro MTF Market of the Luxembourg Stock Exchange and the rules of such exchange so require, the Issuer will publish a notice with respect to the results of the Change of Control Offer as soon as reasonably practicable after the Change of Control Payment Date on the official website of the Luxembourg Stock Exchange ([www.bourse.lu](http://www.bourse.lu)).

The Change of Control provisions described above will be applicable whether or not any other provisions of the Indenture are applicable. Except as described above with respect to a Change of Control, the Indenture does not contain provisions that permit the Holders to require that the Issuer repurchase or redeem the Notes in the event of a takeover, recapitalization or similar transaction. The existence of a Holder's right to require the Issuer to repurchase such Holder's Notes upon the occurrence of a Change of Control may deter a third party from seeking to acquire the Issuer or its Subsidiaries in a transaction that would constitute a Change of Control.

The Issuer will not be required to make a Change of Control Offer upon a Change of Control if a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control Offer made by the Issuer and purchases all Notes validly tendered and not withdrawn under such Change of Control Offer. Notwithstanding anything to the contrary herein, a Change of Control Offer may be made in advance of a Change of Control, conditional upon such Change of Control, if a definitive agreement is in place for the Change of Control at the time of making of the Change of Control Offer.

If Holders of not less than 90% in aggregate principal amount of the outstanding Notes validly tender and do not withdraw such Notes in a Change of Control Offer and the Issuer, or any third party making a Change of Control Offer in lieu of the Issuer as described above, purchases all of the Notes validly tendered and not withdrawn by such Holders, the Issuer or such third party will have the right, upon not less than 10 nor more than 60 days' prior notice, given not more than 30 days following such purchase pursuant to the Change of Control Offer described above, to redeem all Notes that remain outstanding following such purchase at a price in cash equal to 101% of the principal amount thereof plus accrued and unpaid interest to but excluding the date of the delivery of the notice for such redemption.

The provisions of the Indenture do not afford holders of the Notes the right to require the Issuer to repurchase the Notes in the event of a highly leveraged transaction, certain transactions with the Issuer's management or its Affiliates or certain other sale transactions, including a reorganization, restructuring, merger or similar transaction (including, in certain circumstances, an acquisition of the Issuer by management or its Affiliates) involving the Issuer that may adversely affect holders of the Notes, if such transaction is not a transaction defined as a Change of Control.

The Issuer will comply, to the extent applicable, with the requirements of Section 14(e) of the Exchange Act and any other securities laws or regulations in connection with the repurchase of Notes pursuant to this covenant. To the extent that the provisions of any securities laws or regulations conflict with provisions of the Indenture, the Issuer will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under the Change of Control provisions of the Indenture by virtue of the conflict.

The Issuer's ability to repurchase Notes issued by it pursuant to a Change of Control Offer may be limited by a number of factors. The occurrence of a Change of Control may require, to the extent it also constitutes a "change of control" under the financing arrangements of Numericable or certain Subsidiaries of

Altice International, as applicable, (1) Numericable to make an offer to repurchase or repay all of the outstanding Numericable Notes and/or the Term Loans if such an event constitutes a change of control under the Numericable Notes Indentures and/or the Numericable Senior Credit Facility or (2) certain Restricted Subsidiaries of Altice International to repurchase some or all of the Existing Altice International Indebtedness if such an event constitutes a change of control thereunder. Future Indebtedness of the Issuer or the Restricted Subsidiaries may also contain prohibitions of certain events that would constitute a Change of Control or require such Indebtedness to be repurchased or repaid upon a Change of Control. Moreover, the exercise by the Holders of their right to require the Issuer to repurchase the Notes could cause a default under, or require a repurchase of, such Indebtedness, even if the Change of Control itself does not, due to the financial effect of such repurchase on the Issuer. Finally, the Issuer's ability to pay cash to the Holders upon a repurchase may be limited by the Issuer's and its Restricted Subsidiaries' then existing financial resources. There can be no assurance that sufficient funds will be available when necessary to make any required repurchases. See *"Risk Factors—Risks Relating to the Notes and the Structure—We may not be able to obtain enough funds necessary to finance an offer to repurchase the Notes upon the occurrence of certain events constituting a change of control (as defined in the Indenture) as required by the Indenture"*.

The definition of "Change of Control" includes a direct or indirect sale, lease, transfer, conveyance or other disposition of all or substantially all of the property and assets of the Issuer and its Restricted Subsidiaries taken as a whole to a Person (including any "person" (as that term is used in Section 13(d)(3) of the Exchange Act)), other than a Permitted Holder. Although there is a limited body of case law interpreting the phrase "substantially all", there is no precise established definition of the phrase "substantially all" under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve a disposition of "all or substantially all" of the property or assets of a Person. As a result, it may be unclear as to whether a Change of Control has occurred and whether a Holder may require the Issuer to make an offer to repurchase the Notes as described above. However, subject to the conditions specified in sub-clause (c) of *"Certain Definitions—Change of Control"*, a Change of Control shall be deemed not to have occurred as a result of the sale, lease, transfer, conveyance or other disposition in one or a series of related transactions of any assets of Numericable and its Subsidiaries or the Target and its Subsidiaries (including the Capital Stock of the Target or any Subsidiary of Numericable or the Target) that is required pursuant to Competition Laws or is taken to avoid or eliminate any impediment under Competition Laws (including, without limitation, in response to any actions initiated by an administrative, regulatory or other governmental authority or private party under Competition Laws).

The provisions of the Indenture relating to the Issuer's obligation to make an offer to repurchase the Notes as a result of a Change of Control may be waived or modified with the written consent of holders of a majority in outstanding principal amount of the Notes.

## **Certain Covenants**

### ***Limitation on Indebtedness***

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, Incur any Indebtedness (including Acquired Indebtedness); *provided, however*, that:

- (1) Altice International and its Restricted Subsidiaries may Incur Indebtedness if on the date on which such Indebtedness is Incurred, the Consolidated Net Leverage Ratio of Altice International would have been no greater than 4.0 to 1.0 determined on a *pro forma* basis (including a *pro forma* application of the net proceeds therefrom), as if such Indebtedness had been Incurred at the beginning of the relevant period;
- (2) Numericable and its Restricted Subsidiaries may Incur Indebtedness if on the date on which such Indebtedness is Incurred, the Consolidated Net Leverage Ratio of Numericable would have been no greater than 4.0 to 1.0 determined on a *pro forma* basis (including a *pro forma* application of the net proceeds therefrom), as if such Indebtedness had been Incurred at the beginning of the relevant period; *provided* that if such Indebtedness is Incurred prior to the occurrence of a Consolidation Event (other than any Indebtedness Incurred in connection with a Consolidation Event), the Altice France Proportionate Net Leverage Ratio would have been no greater than 4.0 to 1.0 determined on a *pro forma* basis (including a *pro forma* application of the net proceeds therefrom), as if such Indebtedness had been Incurred at the beginning of the relevant period; and

- (3) the Issuer and the Guarantors may Incur Pari Passu Indebtedness if on the date on which such Indebtedness is Incurred, the Consolidated Net Leverage Ratio of the Issuer would have been no greater than 4.0 to 1.0 determined on a *pro forma* basis (including a *pro forma* application of the net proceeds therefrom), as if such Pari Passu Indebtedness had been incurred at the beginning of the relevant period, *provided that*:
- (a) on or prior to the 18-month anniversary of the Completion Date, if no default or Event of Default is outstanding (or would result therefrom), the Issuer and the Guarantors may Incur Pari Passu Indebtedness (the net cash proceeds of which are used to acquire ordinary shares of Numericable reasonably promptly after the date of Incurrence) if on the date on which such Indebtedness is Incurred, the Consolidated Net Leverage Ratio of the Issuer would have been no greater than 4.25 to 1.0 and the Altice S.A. Proportionate Net Leverage Ratio would have been no greater than 4.75 to 1.0, in each case, determined on a *pro forma* basis (including a *pro forma* application of the net proceeds therefrom), as if such Pari Passu Indebtedness had been incurred at the beginning of the relevant period; and
  - (b) if Altice France is Incurring Indebtedness pursuant to this clause (3) and such Indebtedness is Incurred prior to the occurrence of a Consolidation Event (other than any Indebtedness Incurred in connection with a Consolidation Event), the Altice France Proportionate Net Leverage Ratio would have been no greater than 4.0 to 1.0 determined on a *pro forma* basis (including a *pro forma* application of the net proceeds therefrom), as if such Indebtedness had been Incurred at the beginning of the relevant period.

The first paragraph of this covenant will not prohibit the Incurrence of the following items of Indebtedness:

- (1) (a) Indebtedness Incurred by Altice International and its Restricted Subsidiaries pursuant (i) to any Credit Facility (including in respect of letters of credit or bankers' acceptances issued or created thereunder), and any Refinancing Indebtedness in respect thereof, in a maximum aggregate principal amount at any time outstanding not to exceed the greater of €100 million and 4.0% of Altice International Total Assets;
- (b) Indebtedness Incurred by Numericable and its Restricted Subsidiaries pursuant to any Credit Facility (including in respect of letters of credit or bankers' acceptances issued or created thereunder), and any Refinancing Indebtedness in respect thereof, in a maximum aggregate principal amount at any time outstanding not to exceed the greater of €750 million and 4.0% of Numericable Total Assets; *plus* in the case of any refinancing of any Indebtedness permitted under this clause (1) or any portion thereof, the aggregate amount of fees, underwriting discounts, premiums and other costs and expenses Incurred in connection with such refinancing; and
- (c) Indebtedness Incurred by the Issuer and the Guarantors pursuant to any Credit Facility (including in respect of letters of credit or bankers' acceptances issued or created thereunder), and any Refinancing Indebtedness in respect thereof, in a maximum aggregate principal amount at any time outstanding not to exceed €200 million; *plus* in the case of any refinancing of any Indebtedness permitted under this clause (1) or any portion thereof, the aggregate amount of fees, underwriting discounts, premiums and other costs and expenses Incurred in connection with such refinancing;
- (2) (a) Guarantees by the Issuer or any Restricted Subsidiary of Indebtedness of the Issuer or any Restricted Subsidiary to the extent such guaranteed Indebtedness was permitted to be Incurred by another provision of this covenant; *provided that* (i) if such Indebtedness is subordinated in right of payment to, or *pari passu* in right of payment with, the Notes or a Note Guarantee, as applicable, then the Guarantee of such Indebtedness shall be subordinated in right of payment to, or *pari passu* in right of payment with, the Notes or such Note Guarantee, as applicable, substantially to the same extent as such guaranteed Indebtedness and (ii) if such guarantee is of Indebtedness of the Issuer or a Guarantor, such Restricted Subsidiary complies with the first paragraph of the covenant described under “— *Additional Guarantors*”; *provided, however*, none of Altice International or any of its Restricted Subsidiaries shall Guarantee any Indebtedness of Numericable or any of its Restricted Subsidiaries; or

- (b) without limiting the covenant described under “—*Limitation on Liens*”, Indebtedness arising by reason of any Lien granted by or applicable to the Issuer or any Restricted Subsidiary securing Indebtedness of the Issuer or any Restricted Subsidiary so long as the Incurrence of such Indebtedness is not prohibited by the terms of the Indenture;
- (3) Indebtedness of the Issuer owing to and held by any Restricted Subsidiary or Indebtedness of a Restricted Subsidiary owing to and held by the Issuer or any other Restricted Subsidiary (other than any Indebtedness of Altice International or any of its Restricted Subsidiaries owing to and held by Numericable or any of its Restricted Subsidiaries or any Indebtedness of Numericable or any of its Restricted Subsidiaries owing to and held by Altice International or any of its Restricted Subsidiaries); *provided, however*, that:
- (a) if the Issuer or any Guarantor is the obligor on such Indebtedness and the payee is not the Issuer or a Guarantor, such Indebtedness must be unsecured and ((i) except in respect of the intercompany current liabilities Incurred in connection with cash management positions of the Issuer and the Restricted Subsidiaries and (ii) only to the extent legally permitted (the Issuer and the Restricted Subsidiaries having completed all procedures required in the reasonable judgment of directors or officers of the obligee or obligor to protect such Persons from any penalty or civil or criminal liability in connection with the subordination of such Indebtedness)) expressly subordinated to the prior payment in full in cash of all obligations then due with respect to the Notes, in the case of the Issuer, or the Note Guarantee, in the case of a Guarantor; *provided that*
- (i) any subsequent issuance or transfer of Capital Stock or any other event which results in any such Indebtedness being beneficially held by a Person other than the Issuer or a Restricted Subsidiary; and (ii) any sale or other transfer of any such Indebtedness to a Person other than the Issuer or a Restricted Subsidiary, shall be deemed, in each case, to constitute an Incurrence of such Indebtedness not permitted by this clause (3) by the Issuer or such Restricted Subsidiary, as the case may be;
- (4) (a) (i) Indebtedness represented by the Notes (other than any Additional Notes) issued on the Issue Date and the Note Guarantees thereof, (ii) the Numericable Notes issued on the Issue Date and the Guarantees of the Numericable Notes by Restricted Subsidiaries of Numericable, and (iii) Indebtedness under the Numericable Senior Credit Facility Incurred on or prior to the Completion Date (in an amount not to exceed €5,600 million (equivalent as of the Issue Date)) and Guarantees thereof by Restricted Subsidiaries of Numericable;
- (b) any Indebtedness (other than Indebtedness described in clauses (1) and (3) of this paragraph) outstanding on the Issue Date, after giving effect to the Transactions, the issuance of the Notes, the Numericable Notes, the Incurrence of Indebtedness under the Numericable Senior Credit Facility and the application of the proceeds of each of the foregoing (including after such proceeds are released from the Escrow Account and the Numericable Notes Escrow Accounts);
- (c) Refinancing Indebtedness Incurred in exchange for, or the net proceeds of which are used to renew, refund, refinance, replace, defease or discharge any, or otherwise Incurred in respect of any, Indebtedness described in sub-clauses (a), (b) or (c) of this clause (4) or clause (5) of this paragraph or Incurred pursuant to the first paragraph of this covenant;
- (d) Management Advances; and
- (e) Indebtedness represented by the Numericable Notes Security Documents and the Security Documents and, including, with respect to each such Indebtedness “parallel debt” obligations created under the Intercreditor Agreement, the Numericable Group Intercreditor Agreement, the Numericable Notes Security Documents and the Security Documents;
- (5) Indebtedness:

- (a) (i) of any Person Incurred and outstanding on the date on which such Person becomes a Restricted Subsidiary of Numericable or is merged, consolidated, amalgamated or otherwise combined with (including pursuant to any acquisition of assets and assumption of related liabilities) Numericable or any Restricted Subsidiary of Numericable or (ii) of Numericable or any Restricted Subsidiary of Numericable Incurred to provide all or any portion of the funds utilized to consummate the transaction or series of related transactions pursuant to which a Person became a Restricted Subsidiary of Numericable or was otherwise acquired by Numericable or a Restricted Subsidiary of Numericable or otherwise in connection with or contemplation of such acquisition; *provided*, however, with respect to each of clause (5)(a)(i) and (5)(a)(ii), that immediately following consummation of such acquisition or other transaction (x) Numericable would have been able to Incur €1.00 of additional Indebtedness pursuant to sub-clause (2) of the first paragraph of this covenant after giving effect to the Incurrence of such Indebtedness pursuant to this clause (5)(a) or (y) neither the Consolidated Net Leverage Ratio of Numericable nor the Altice France Proportionate Net Leverage Ratio would be greater than it was immediately prior to giving effect to such acquisition or other transaction; and
- (b) (i) of any Person Incurred and outstanding on the date on which such Person becomes a Restricted Subsidiary of Altice International or is merged, consolidated, amalgamated or otherwise combined with (including pursuant to any acquisition of assets and assumption of related liabilities) Altice International or any Restricted Subsidiary of Altice International or (ii) of Altice International or any Restricted Subsidiary of Altice International Incurred to provide all or any portion of the funds utilized to consummate the transaction or series of related transactions pursuant to which a Person became a Restricted Subsidiary of Altice International or was otherwise acquired by Altice International or a Restricted Subsidiary of Altice International or otherwise in connection with or contemplation of such acquisition; *provided*, however, with respect to each of clause (5)(b)(i) and (5)(b)(ii), that immediately following consummation of such acquisition or other transaction (x) Altice International would have been able to Incur €1.00 of additional Indebtedness pursuant to sub-clause (1) of the first paragraph of this covenant after giving effect to the Incurrence of such Indebtedness pursuant to this clause (5)(b) or (y) the Consolidated Net Leverage Ratio of Altice International would not be greater than it was immediately prior to giving effect to such acquisition or other transaction; and
- (c) (i) of any Person Incurred and outstanding on the date on which such Person becomes a Restricted Subsidiary of the Issuer (other than a Restricted Subsidiary of Altice International, Numericable or any of their Restricted Subsidiaries) or is merged, consolidated, amalgamated or otherwise combined with (including pursuant to any acquisition of assets and assumption of related liabilities) the Issuer or any Restricted Subsidiary (other than Altice International, Numericable or any of their Restricted Subsidiaries) or (ii) of the Issuer or any Restricted Subsidiary of the Issuer (other than Altice International, Numericable or any of their Restricted Subsidiaries) Incurred to provide all or any portion of the funds utilized to consummate the transaction or series of related transactions pursuant to which a Person became a Restricted Subsidiary of the Issuer (other than a Restricted Subsidiary of Altice International, Numericable or any of their Restricted Subsidiaries) or was otherwise acquired by the Issuer or a Restricted Subsidiary (other than Altice International, Numericable or any of their Restricted Subsidiaries) or otherwise in connection with or contemplation of such acquisition; *provided*, however, with respect to each of clause (5)(c)(i) and (5)(c)(ii), that immediately following consummation of such acquisition or other transaction (x) the Issuer would have been able to Incur €1.00 of additional Indebtedness pursuant to sub-clause (3) of the first paragraph of this covenant after giving effect to the Incurrence of such Indebtedness pursuant to this clause (5)(c) or (y) the Consolidated Net Leverage Ratio of the Issuer would not be greater than it was immediately prior to giving effect to such acquisition or other transaction;
- (6) [Reserved];
- (7) (a) Indebtedness under Currency Agreements (other than Currency Agreements described in (b) below), Interest Rate Agreements and Commodity Hedging Agreements and (b) Indebtedness under

Currency Agreements entered into in order to hedge any operating expenses and capital expenditures Incurred in the ordinary course of business so long as (i) such operating expenses and capital expenditures are denominated in euro or U.S. dollars and (ii) the term of any such Currency Agreement is not more than 360 days; in each case with respect to clauses (a) and (b) hereof, entered into for *bona fide* hedging purposes of the Issuer or the Restricted Subsidiaries and not for speculative purposes (as determined in good faith by an Officer or the Board of Directors of the Issuer, Altice International or Numericable, as applicable), in each case, other any such Indebtedness under Currency Agreements, Interest Rate Agreements and Commodity Hedging Agreements of (x) Altice International or any of its Restricted Subsidiaries in respect of Indebtedness or other obligations of Numericable or any of its Restricted Subsidiaries or (y) Numericable or any of its Restricted Subsidiaries in respect of Indebtedness or other obligations of Altice International or any of its Restricted Subsidiaries;

- (8)
  - (i) Indebtedness Incurred by Altice International or any of its Restricted Subsidiaries consisting of (A) Capitalized Lease Obligations, mortgage financings, Purchase Money Obligations or other financings Incurred for the purpose of financing all or any part of the purchase price or cost of design, construction, installation or improvement of property (real or personal), plant or equipment or other assets (including Capital Stock) used or useful in a Similar Business or (B) Indebtedness otherwise Incurred to finance the purchase, lease, rental or cost of design, construction, installation or improvement of property (real or personal), plant or equipment that is used or useful in a Similar Business, whether through the direct purchase of assets or the Capital Stock of any Person owning such assets, and any Indebtedness which refinances, replaces or refunds such Indebtedness, in an aggregate outstanding principal amount which, when taken together with the principal amount of all other Indebtedness Incurred pursuant to this clause (8)(i) and then outstanding, will not exceed at any time outstanding the greater of €75 million and 2.5% of Altice International Total Assets so long as such Indebtedness exists on the date of such purchase, design, construction, installation or improvement, or is Incurred within 180 days thereafter; and
  - (ii) Indebtedness Incurred by Numericable or any of its Restricted Subsidiaries consisting of (A) Capitalized Lease Obligations, mortgage financings, Purchase Money Obligations or other financings Incurred for the purpose of financing all or any part of the purchase price or cost of design, construction, installation or improvement of property (real or personal), plant or equipment or other assets (including Capital Stock) used or useful in a Similar Business or (B) Indebtedness otherwise Incurred to finance the purchase, lease, rental or cost of design, construction, installation or improvement of property (real or personal), plant or equipment that is used or useful in a Similar Business, whether through the direct purchase of assets or the Capital Stock of any Person owning such assets, and any Indebtedness which refinances, replaces or refunds such Indebtedness, in an aggregate outstanding principal amount which, when taken together with the principal amount of all other Indebtedness Incurred pursuant to this clause (8)(ii) and then outstanding, will not exceed at any time outstanding the greater of €250 million and 2.8% of Numericable Total Assets so long as such Indebtedness exists on the date of such purchase, design, construction, installation or improvement, or is Incurred within 180 days thereafter;
- (9) Indebtedness in respect of (a) workers' compensation claims, self-insurance obligations, performance, indemnity, surety, judgment, appeal, advance payment, customs, VAT or other tax or other guarantees or other similar bonds, instruments or obligations and completion guarantees and warranties provided by the Issuer or a Restricted Subsidiary or relating to liabilities, obligations or guarantees Incurred in the ordinary course of business or in respect of any governmental requirement, including in relation to a governmental requirement to provide a guarantee or bond, (b) letters of credit, bankers' acceptances, guarantees or other similar instruments or obligations issued or relating to liabilities or obligations Incurred in the ordinary course of business, *provided, however*, that upon the drawing of such letters of credit or other instrument, such obligations are reimbursed within 30 days following such drawing; (c) the financing of insurance premiums in the ordinary course of business; and (d) any customary cash management, cash pooling or netting or setting off arrangements in the ordinary course of business;
- (10) Indebtedness arising from agreements providing for customary guarantees, indemnification, obligations in respect of earnouts or other adjustments of purchase price or, in each case, similar obligations, in each case, Incurred or assumed in connection with the acquisition or disposition of any business or assets or Person or any Capital Stock of a Subsidiary (other than Guarantees of Indebtedness Incurred

by any Person acquiring or disposing of such business or assets or such Subsidiary for the purpose of financing such acquisition or disposition); *provided* that the maximum liability of the Issuer and the Restricted Subsidiaries in respect of all such Indebtedness in connection with such disposition shall at no time exceed the gross proceeds, including the fair market value of non-cash proceeds (measured at the time received and without giving effect to any subsequent changes in value), actually received by the Issuer and the Restricted Subsidiaries in connection with such disposition;

- (11) Indebtedness arising from the honoring by a bank or other financial institution of a check, draft or similar instrument drawn against insufficient funds in the ordinary course of business; *provided, however*, that such Indebtedness is extinguished within 30 Business Days of Incurrence;
- (12) Indebtedness under daylight borrowing facilities Incurred in connection with any refinancing of Indebtedness (including by way of set-off or exchange); *provided* that such Indebtedness does not exceed the principal amount of the Indebtedness being refinanced and the aggregate amount of fees, underwriting discounts, premiums and other costs and expenses Incurred in connection with such refinancing, so long as any such Indebtedness is repaid within three days of the date on which such Indebtedness is Incurred;
- (13) (a) Indebtedness Incurred by a Receivables Subsidiary that is a Restricted Subsidiary of Altice International in a Qualified Receivables Financing of Altice International and its Restricted Subsidiaries; and (b) Indebtedness Incurred by a Receivables Subsidiary that is a Restricted Subsidiary of Numericable in a Qualified Receivables Financing of Numericable and its Restricted Subsidiaries;
- (14) Indebtedness Incurred by the Issuer or a Guarantor (including any Refinancing Indebtedness in respect thereof) or Disqualified Stock of the Issuer in an aggregate outstanding principal amount which, when taken together with the principal amount of all other Indebtedness Incurred pursuant to this clause (14) and then outstanding, will not exceed 100% of the Net Cash Proceeds received by the Issuer and the Restricted Subsidiaries from the issuance or sale (other than to the Issuer or a Restricted Subsidiary) of its Subordinated Shareholder Funding or Capital Stock (other than Disqualified Stock, Designated Preference Shares, an Excluded Contribution or the Altice Equity Financing) or otherwise contributed to the equity (other than through the issuance of Disqualified Stock, Designated Preference Shares, an Excluded Contribution or the Altice Equity Financing) of the Issuer, in each case, subsequent to the Issue Date; *provided, however*, that (i) any such Net Cash Proceeds that are so received or contributed shall be excluded for purposes of making Restricted Payments under clauses (1), (6) and (10) of the second paragraph of the covenant described below under “—*Certain Covenants—Limitation on Restricted Payments*” to the extent the Issuer or a Restricted Subsidiary Incurs Indebtedness in reliance thereon and (ii) any Net Cash Proceeds that are so received or contributed shall be excluded for purposes of Incurring Indebtedness pursuant to this clause (14) to the extent the Issuer or any Restricted Subsidiary makes a Restricted Payment under clauses (1), (6) and (10) of the second paragraph of the covenant described below under “—*Certain Covenants—Limitation on Restricted Payments*” in reliance thereon; and
- (15) (a) Indebtedness Incurred by the Issuer and the Guarantors (including any Refinancing Indebtedness in respect thereof) in an aggregate outstanding principal amount which, when taken together with the principal amount of all other Indebtedness Incurred by the Issuer pursuant to this clause (15)(a) and then outstanding, will not exceed €100 million;
- (b) Indebtedness Incurred by Altice International and its Restricted Subsidiaries (including any Refinancing Indebtedness in respect thereof) in an aggregate outstanding principal amount which, when taken together with the principal amount of all other Indebtedness Incurred by Altice International and its Restricted Subsidiaries pursuant to this clause (15)(b) and then outstanding, will not exceed the greater of €100 million and 4.0% of Altice International Total Assets; and
- (c) Indebtedness Incurred by Numericable and its Restricted Subsidiaries (including any Refinancing Indebtedness in respect thereof) in an aggregate outstanding principal amount which, when taken together with the principal amount of all other Indebtedness Incurred by Numericable and its Restricted Subsidiaries pursuant to this clause (15)(c) and then

outstanding, will not exceed the greater of €400 million and 4.0% of Numericable Total Assets.

For purposes of determining compliance with, and the outstanding principal amount of any particular Indebtedness Incurred pursuant to and in compliance with, this covenant:

- (1) in the event that Indebtedness meets the criteria of more than one of the types of Indebtedness described in the first and second paragraphs of this covenant, the Issuer, in its sole discretion, will classify, and may from time to time reclassify, such item of Indebtedness and only be required to include the amount and type of such Indebtedness in one of the clauses of the second paragraph or the first paragraph of this covenant; *provided* that:
  - (i) Indebtedness Incurred under clause (1) of the second paragraph of the description of this covenant and cannot be reclassified;
  - (ii) Indebtedness outstanding on the Issue Date under the Altice International RCFs (other than the Altice Financing New RCF) will be deemed to be Incurred under clause (1)(a) of the second paragraph of the description of this covenant cannot be reclassified; and
  - (iii) Indebtedness permitted to be Incurred by Numericable and its Restricted Subsidiaries under this covenant cannot be reclassified to include Indebtedness of Altice International and its Restricted Subsidiaries and Indebtedness permitted to be Incurred by Altice International and its Restricted Subsidiaries under this covenant cannot be reclassified to include Indebtedness of Numericable and its Restricted Subsidiaries.
- (2) Guarantees of, or obligations in respect of letters of credit, bankers' acceptances or other similar instruments relating to, or Liens securing, Indebtedness that is otherwise included in the determination of a particular amount of Indebtedness shall not be included;
- (3) if obligations in respect of letters of credit, bankers' acceptances or other similar instruments are Incurred pursuant to any Credit Facility and are being treated as Incurred pursuant to clause (1), (8), (14) or (15) of the second paragraph above or the first paragraph above and the letters of credit, bankers' acceptances or other similar instruments relate to other Indebtedness, then such other Indebtedness shall not be included;
- (4) the principal amount of any Disqualified Stock of the Issuer or a Restricted Subsidiary, or Preferred Stock of the Issuer or a Restricted Subsidiary, will be equal to the greater of the maximum mandatory redemption or repurchase price (not including, in either case, any redemption or repurchase premium) or the liquidation preference thereof;
- (5) Indebtedness permitted by this covenant need not be permitted solely by reference to one provision permitting such Indebtedness but may be permitted in part by one such provision and in part by one or more other provisions of this covenant permitting such Indebtedness; and
- (6) the amount of Indebtedness issued at a price that is less than the principal amount thereof will be equal to the amount of the liability in respect thereof determined on the basis of IFRS.

Accrual of interest, accrual of dividends, the accretion of accreted value, the accretion or amortization of original issue discount, the payment of interest in the form of additional Indebtedness, the payment of dividends in the form of additional shares of Preferred Stock or Disqualified Stock or the reclassification of commitments or obligations not treated as Indebtedness due to a change in IFRS will not be deemed to be an Incurrence of Indebtedness for purposes of this covenant. The amount of any Indebtedness outstanding as of any date shall be (a) the accreted value thereof in the case of any Indebtedness issued with original issue discount and (b) the principal amount, or liquidation preference thereof, in the case of any other Indebtedness.

If at any time an Unrestricted Subsidiary becomes a Restricted Subsidiary, any Indebtedness of such Subsidiary shall be deemed to be Incurred by a Restricted Subsidiary as of such date (and, if such Indebtedness is not permitted to be Incurred as of such date under the covenant described under this "*Limitation on Indebtedness*", the Issuer shall be in Default of this covenant).

For purposes of determining compliance with any euro-denominated restriction on the Incurrence of Indebtedness, the Euro Equivalent of the principal amount of Indebtedness denominated in another currency shall be calculated based on the relevant currency exchange rate in effect on the date such Indebtedness was Incurred, in the case of term Indebtedness, or the date first committed, in the case of Indebtedness Incurred under a revolving credit facility; *provided* that (a) if such Indebtedness is Incurred to refinance other Indebtedness denominated in a currency other than euro, and such refinancing would cause the applicable euro-denominated restriction to be exceeded if calculated at the relevant currency exchange rate in effect on the date of such refinancing, such euro-denominated restriction shall be deemed not to have been exceeded so long as the principal amount of such Refinancing Indebtedness does not exceed the principal amount of such Indebtedness being refinanced; (b) the Euro Equivalent of the principal amount of any such Indebtedness outstanding on the Issue Date shall be calculated based on the relevant currency exchange rate in effect on the Issue Date; and (c) if any such Indebtedness that is denominated in a currency other than euro is subject to a Currency Agreement with respect to the currency in which such Indebtedness is denominated covering principal amount and interest payable on such Indebtedness, the amount of such Indebtedness, will be the Euro Equivalent of the principal payment required to be made under such Currency Agreement plus the Euro Equivalent of any premium which is at such time due and payable but is not covered by such Currency Agreement.

For purposes of determining compliance with the Consolidated Net Leverage Ratio on the Incurrence of Indebtedness, the Euro Equivalent of the principal amount of Indebtedness denominated in another currency shall be calculated based on the relevant currency exchange rate in effect on the date such Indebtedness was Incurred, in the case of term Indebtedness, or the date first committed, in the case of Indebtedness Incurred under a revolving credit facility; *provided* that (a) if such Indebtedness is Incurred to refinance other Indebtedness denominated in a currency other than euro, and such refinancing would cause the applicable euro-denominated restriction to be exceeded if calculated at the relevant currency exchange rate in effect on the date of such refinancing, such euro-denominated restriction shall be deemed not to have been exceeded so long as the principal amount of such Refinancing Indebtedness does not exceed the principal amount of such Indebtedness being refinanced; and (b) the Euro Equivalent of the principal amount of any such Indebtedness outstanding on the Issue Date shall be calculated based on the relevant currency exchange rate in effect on the Issue Date.

In addition, for purposes of calculating the Consolidated Net Leverage Ratio to test compliance with any covenant in the Indenture, in determining the amount of Indebtedness outstanding in euro on any date of determination, with respect to any Indebtedness denominated in a currency other than euro (the “Foreign Currency”):

- (1) subject to a currency swap arrangement or contract, the aggregate principal amount of such Foreign Currency Indebtedness on any such date of determination shall be the euro amount of the aggregate principal amount to be paid by the Issuer or a Restricted Subsidiary (or, if the calculation relates to Altice International, Altice France or Numericable, by Altice International or any of its Restricted Subsidiaries, Altice France or any of its Restricted Subsidiaries or Numericable or any of its Restricted Subsidiaries, as applicable) on the maturity date of such currency swap arrangement or contract pursuant to the terms thereof; or
- (2) subject to a currency forward arrangement, forward accretion curve or contract, the aggregate principal amount of such Foreign Currency Indebtedness shall be converted into euro at the exchange rate specified under the terms of such currency forward arrangement, forward accretion curve or contract as applicable to such Foreign Currency Indebtedness on such date of determination.

For the avoidance of doubt, notwithstanding a Group member entering into any such arrangement or contract hedging foreign exchange exposure of any Foreign Currency Indebtedness, for the purposes of calculating the Consolidated Net Leverage Ratio, the aggregate principal amount of Indebtedness subject to any such arrangement or contract shall be attributed to the total Indebtedness of the Person that originally Incurred such Indebtedness.

Notwithstanding any other provision of this covenant, the maximum amount of Indebtedness that the Issuer or a Restricted Subsidiary (or Altice International or any of its Restricted Subsidiaries, Altice France or any of its Restricted Subsidiaries or Numericable or any of its Restricted Subsidiaries, as applicable) may Incur

pursuant to this covenant shall not be deemed to be exceeded solely as a result of fluctuations in the exchange rate of currencies.

### ***Limitation on Restricted Payments***

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly:

- (1) declare or pay any dividend or make any other payment or distribution on account of or in respect of the Issuer's or any Restricted Subsidiary's Capital Stock (including, without limitation, any payment in connection with any merger or consolidation involving the Issuer or any Restricted Subsidiary) except:
  - (a) dividends or distributions payable in Capital Stock of the Issuer (other than Disqualified Stock) or in options, warrants or other rights to purchase such Capital Stock of the Issuer (other than Disqualified Stock) or in Subordinated Shareholder Funding; and
  - (b) dividends or distributions payable to the Issuer or a Restricted Subsidiary (and, in the case of any such Restricted Subsidiary making such dividend or distribution, to holders of its Capital Stock other than the Issuer or another Restricted Subsidiary on no more than a *pro rata* basis, measured by value);
- (2) purchase, redeem, retire or otherwise acquire for value (including, without limitation, any payment in connection with any merger or consolidation involving the Issuer) any (a) Capital Stock of the Issuer or any direct or indirect Parent of the Issuer held by Persons other than the Issuer or a Restricted Subsidiary (other than in exchange for Capital Stock of the Issuer (other than Disqualified Stock)) or (b) Capital Stock of HOT (including the Minority Shareholder Call Option) held by any party to a Minority Shareholder Purchase Agreement (other than Cool);
- (3) make any principal payment on, or purchase, repurchase, redeem, defease or otherwise acquire or retire for value, prior to scheduled maturity, scheduled repayment or scheduled sinking fund payment, any Subordinated Indebtedness (other than (a) any such payment, purchase, repurchase, redemption, defeasance or other acquisition or retirement or in anticipation of satisfying a sinking fund obligation, principal installment or final maturity, in each case, due within one year of the date of payment, purchase, repurchase, redemption, defeasance or other acquisition or retirement; and (b) any Indebtedness Incurred pursuant to clause (3) of the second paragraph of the covenant described under "*Limitation on Indebtedness*");
- (4) make any cash payment on or with respect to, or purchase, redeem, defease or otherwise acquire or retire for value any Subordinated Shareholder Funding; or
- (5) make any Restricted Investment in any Person;

(any such dividend, distribution, payment, purchase, redemption, repurchase, defeasance, other acquisition, retirement or Restricted Investment referred to in clauses (1) through (5) are referred to herein as a "*Restricted Payment*").

The foregoing provisions will not prohibit any of the following (collectively, "*Permitted Payments*"):

- (1) any Restricted Payment made in exchange (including any such exchange pursuant to the exercise of a conversion right or privilege in connection with which cash is paid in lieu of the issuance of fractional shares) for, or out of the Net Cash Proceeds of the substantially concurrent sale (other than to the Issuer or a Subsidiary of the Issuer) of, Capital Stock of the Issuer (other than Disqualified Stock or Designated Preference Shares or through an Excluded Contribution or the Altice Equity Financing), Subordinated Shareholder Funding or a substantially concurrent contribution to the equity (other than through the issuance of Disqualified Stock or Designated Preference Shares or through an Excluded Contribution) of the Issuer; *provided, however*, that to the extent so applied, the Net Cash Proceeds, or fair market value (as determined in accordance with the last paragraph of this covenant) of property, assets or marketable securities, from such sale of Capital Stock or Subordinated Shareholder Funding or such contribution will be excluded for purposes of the "*Optional Redemption*" provisions of the Indenture;

- (2) any purchase, repurchase, redemption, defeasance or other acquisition or retirement of Subordinated Indebtedness of the Issuer or any Guarantor made by exchange for, or out of the Net Cash Proceeds of the substantially concurrent Incurrence of, Refinancing Indebtedness permitted to be Incurred pursuant to the covenant described under “—*Limitation on Indebtedness*” above;
- (3) (a) any purchase, repurchase, redemption, defeasance or other acquisition or retirement of Preferred Stock of the Issuer or a Restricted Subsidiary made by exchange for or out of the Net Cash Proceeds of the substantially concurrent sale of Preferred Stock of the Issuer or such Restricted Subsidiary, and (b) any purchase, repurchase, redemption, defeasance or other acquisition or retirement of Disqualified Stock of the Issuer or a Restricted Subsidiary made by exchange for or out of the Net Cash Proceeds of the substantially concurrent sale of Disqualified Stock of the Issuer or a Restricted Subsidiary, as the case may be, that, in each case under (a) and (b), is permitted to be Incurred pursuant to the covenant described under “—*Limitation on Indebtedness*” above, and that in each case (other than such sale of Preferred Stock of the Issuer that is not Disqualified Stock) constitutes Refinancing Indebtedness;
- (4) any purchase, repurchase, redemption, defeasance or other acquisition or retirement of Subordinated Indebtedness:
  - (a) (i) from Net Available Cash to the extent permitted under “—*Limitation on Sales of Assets and Subsidiary Stock*” below, but only if the Issuer shall have first complied with the terms described under “—*Limitation on Sales of Assets and Subsidiary Stock*” and purchased all Notes tendered pursuant to any offer to repurchase all the Notes required thereby, prior to purchasing, repurchasing, redeeming, defeasing or otherwise acquiring or retiring such Subordinated Indebtedness and (ii) at a purchase price not greater than 100% of the principal amount of such Subordinated Indebtedness plus accrued and unpaid interest; or
  - (b) to the extent required by the agreement governing such Subordinated Indebtedness, following the occurrence of a Change of Control (or other similar event described therein as a “change of control”), but only (i) if required, if the Issuer shall have first complied with the terms described under “Change of Control” and purchased all Notes tendered pursuant to the offer to repurchase all the Notes required thereby, prior to purchasing, repurchasing, redeeming, defeasing or otherwise acquiring or retiring such Subordinated Indebtedness and (ii) at a purchase price not greater than 101% of the principal amount of such Subordinated Indebtedness plus accrued and unpaid interest; or
  - (c) consisting of Acquired Indebtedness (other than Indebtedness Incurred (A) to provide all or any portion of the funds utilized to consummate the transaction or series of related transactions pursuant to which such Person became a Restricted Subsidiary or was otherwise acquired by the Issuer or a Restricted Subsidiary or (B) otherwise in connection with or contemplation of such acquisition) and at a purchase price not greater than 100% of the principal amount of such Acquired Indebtedness plus accrued and unpaid interest and any premium required by the terms of any Acquired Indebtedness;
- (5) any dividends paid within 60 days after the date of declaration if at such date of declaration such dividend would have complied with this covenant;
- (6) the purchase, repurchase, redemption, defeasance or other acquisition, cancellation or retirement for value of Capital Stock of the Issuer, any Restricted Subsidiary or any Parent (including any options, warrants or other rights in respect thereof) and loans, advances, dividends or distributions by the Issuer to any Parent to permit any Parent to purchase, repurchase, redeem, defease or otherwise acquire, cancel or retire for value Capital Stock of the Issuer, any Restricted Subsidiary or any Parent (including any options, warrants or other rights in respect thereof), or payments to purchase, repurchase, redeem, defease or otherwise acquire, cancel or retire for value Capital Stock of the Issuer, any Restricted Subsidiary or any Parent (including any options, warrants or other rights in respect thereof), in each case from Management Investors; *provided* that such payments, loans, advances, dividends or distributions do not exceed an amount (net of repayments of any such loans or advances) equal to (1) €20 million in any calendar year (with unused amounts in any calendar year being carried over to the succeeding calendar years; *provided* that the aggregate Restricted Payments made under this clause (6) do not exceed €30 million in any fiscal year), *plus* (2) the Net Cash Proceeds received by the

Issuer or the Restricted Subsidiaries since the Issue Date (including through receipt of proceeds from the issuance or sale of its Capital Stock or Subordinated Shareholder Funding to a Parent) from, or as a contribution to the equity (in each case under this clause (6), other than through the issuance of Disqualified Stock or Designated Preference Shares) of the Issuer from, the issuance or sale to Management Investors of Capital Stock (including any options, warrants or other rights in respect thereof);

- (7) the declaration and payment of dividends to holders of any class or series of Disqualified Stock, or of any Preferred Stock of a Restricted Subsidiary, Incurred in accordance with the terms of the covenant described under “—*Limitation on Indebtedness*” above;
- (8) purchases, repurchases, redemptions, defeasances or other acquisitions or retirements of Capital Stock deemed to occur upon the exercise of stock options, warrants or other rights in respect thereof if such Capital Stock represents a portion of the exercise price thereof;
- (9) dividends, loans, advances or distributions to any Parent or other payments by the Issuer or any Restricted Subsidiary in amounts equal to (without duplication) the amounts required for any Parent to pay:
  - (a) any Parent Expenses or any Related Taxes; and
  - (b) amounts constituting or to be used for purposes of making payments to the extent specified in clauses (2) (with respect to fees and expenses Incurred in connection with the transactions described therein), (5) and (11) of the second paragraph under “—*Limitation on Affiliate Transactions*;”
- (10) so long as no Default or Event of Default has occurred and is continuing (or would result therefrom), and for so long as the Issuer is a Public Company the declaration and payment by the Issuer of, or loans, advances, dividends or distributions to any Parent to pay, dividends on the common stock or common equity interests of the Issuer or any Parent, in an amount not to exceed in any fiscal year the greater of (a) 6% of the Net Cash Proceeds received by the Issuer from a Public Offering (other than the Initial Public Offering) of common stock or common equity interests or contributed to the equity (other than through the issuance of Disqualified Stock or Designated Preference Shares or through an Excluded Contribution) of the Issuer or contributed as Subordinated Shareholder Funding to the Issuer, in each case, after the Issue Date and (b) an amount equal to the greater of (i) 5% of the Market Capitalization and (ii) 5% of the IPO Market Capitalization; *provided* that after giving *pro forma* effect to such loans, advances, dividends or distributions, the Consolidated Net Leverage Ratio of the Issuer shall be equal to or less than 4.0 to 1.0; *provided, further*, that if such Public Offering was of Capital Stock of a Parent, the net proceeds of any such dividend are used to fund a corresponding dividend in equal or greater amount on the Capital Stock of such Parent;
- (11) payments by the Issuer, or loans, advances, dividends or distributions to any Parent to make payments, to holders of Capital Stock of the Issuer or any Parent in lieu of the issuance of fractional shares of such Capital Stock; *provided, however*, that any such payment, loan, advance, dividend or distribution shall not be for the purpose of evading any limitation of this covenant or otherwise to facilitate any dividend or other return of capital to the holders of such Capital Stock (as determined in good faith by an Officer or the Board of Directors of the Issuer);
- (12) Restricted Payments in an aggregate amount outstanding at any time not to exceed the aggregate cash amount of Excluded Contributions, or consisting of non-cash Excluded Contributions, or Investments in exchange for or using as consideration Investments previously made under this clause (12);
- (13) payment of any Receivables Fees and purchases of Receivables Assets pursuant to a Receivables Repurchase Obligation in connection with a Qualified Receivables Financing;
- (14) dividends or other distributions of Capital Stock, Indebtedness or other securities of Unrestricted Subsidiaries;

(This page has been left blank intentionally.)

- (15) the declaration and payment of dividends to holders of any class or series of Designated Preference Shares of the Issuer issued after the Issue Date; *provided, however*, that the amount of all dividends declared or paid by the Issuer pursuant to this clause (15) shall not exceed the Net Cash Proceeds received by the Issuer from the issuance or sale of such Designated Preference Shares;
- (16) so long as no Default or Event of Default has occurred and is continuing (or would result therefrom), any Restricted Payment to the extent that, after giving *pro forma* effect to any such Restricted Payment, the Consolidated Net Leverage Ratio of the Issuer would be no greater than 4.0 to 1.0; and
- (17) so long as no Default or Event of Default has occurred and is continuing (or would result from), Restricted Payments in an aggregate amount outstanding at any time not to exceed €50 million.

For purposes of determining compliance with this covenant, in the event that a Restricted Payment meets the criteria of more than one of the categories described in clauses (1) through (17) above, the Issuer will be entitled to classify such Restricted Payment (or portion thereof) on the date of its payment or later reclassify such Restricted Payment (or portion thereof) in any manner that complies with this covenant.

The amount of all Restricted Payments (other than cash) shall be the fair market value on the date of such Restricted Payment of the asset(s) or securities proposed to be paid, transferred or issued by the Issuer or such Restricted Subsidiary, as the case may be, pursuant to such Restricted Payment. The fair market value of any cash Restricted Payment shall be its face amount, and the fair market value of any non-cash Restricted Payment or any other property, assets or securities required to be valued by this covenant shall be determined conclusively by an Officer or the Board of Directors of the Issuer acting in good faith.

#### ***Limitation on Liens***

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, create, incur or suffer to exist any Lien upon any of their property or assets (including Capital Stock of a Restricted Subsidiary), whether owned on the Issue Date or acquired after that date, or any interest therein or any income or profits therefrom, which Lien is securing any Indebtedness (such Lien, the “*Initial Lien*”), except (a) in the case of any property or asset that does not constitute Notes Collateral, (i) Permitted Liens or (ii) Liens on assets that are not Permitted Liens if the Notes and the Indenture (or a Note Guarantee in the case of Liens of a Guarantor) are directly secured equally and ratably with, or prior to, in the case of Liens with respect to Subordinated Indebtedness, the Indebtedness secured by such Initial Lien for so long as such Indebtedness is so secured and (b) in the case of any property or assets that constitutes Notes Collateral, Permitted Collateral Liens.

Any such Lien created in favor of the Notes pursuant to clause (a)(ii) of the preceding paragraph will be automatically and unconditionally released and discharged upon (i) the release and discharge of the Initial Lien to which it relates, and (ii) otherwise as set forth under “—*Notes Security—Release of Notes Collateral.*”

#### ***No Layering of Debt***

The Issuer will not incur any Indebtedness (including any Indebtedness permitted to be incurred pursuant to the second paragraph of the covenant described under “—*Limitation on Indebtedness*”) that is contractually subordinated in right of payment to any other Indebtedness of the Issuer unless such Indebtedness is also contractually subordinated in right of payment to the Notes on substantially identical terms (as determined in good faith by the Issuer); *provided, however*, that no Indebtedness will be deemed to be contractually subordinated in right of payment to any other Indebtedness of the Issuer solely by virtue of being unsecured, by virtue of being secured with different collateral or by virtue of being secured on a junior priority basis or by virtue of the application of waterfall or other payment ordering provisions affecting different tranches of Indebtedness under Credit Facilities.

At all times, each of Altice International and Altice France shall be a direct Subsidiary of the Issuer and Numericable shall be a direct Subsidiary of Altice France.

No Guarantor will incur any Indebtedness (including any Indebtedness permitted to be incurred pursuant to the second paragraph of the covenant described under “—*Limitation on Indebtedness*”) that is contractually subordinated in right of payment to any Indebtedness of such Guarantor unless such Indebtedness is also contractually subordinated in right of payment to such Guarantor’s Note Guarantee on substantially

identical terms (as determined in good faith by the Issuer); provided, however, that no Indebtedness will be deemed to be contractually subordinated in right of payment to any other Indebtedness of any Guarantor solely by virtue of being unsecured, by virtue of being secured with different collateral, by virtue of being secured on a junior priority basis or by virtue of the application of waterfall or other payment-ordering provisions affecting different tranches of Indebtedness under Credit Facilities.

The Issuer will not permit Altice France to Incur any Indebtedness other than (i) Guarantees of Indebtedness of the Issuer Incurred pursuant to the covenant described under “—*Limitation on Indebtedness*” and (ii) Indebtedness Incurred pursuant to clause (3) of the first paragraph and clauses (3),(4)(a),(4)(c)(other than in respect of Refinancing Indebtedness that refinances Indebtedness of Altice International, Numericable or any of their Restricted Subsidiaries), (4)(e), (5)(c), (9), (10), (11), (12), (14) and (15)(a) of the second paragraph of the covenant described under “—*Limitation on Indebtedness*”.

### ***Minimum Holdings***

The Issuer shall at all times own directly (i) at least 75% of each class of Capital Stock of Altice International and (ii) 100% of each class of Capital Stock of Altice France. Altice France shall at all times own directly at least 50.1% of each class of Capital Stock of Numericable.

### ***Limitation on Restrictions on Distributions from Restricted Subsidiaries***

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, create or otherwise cause or permit to exist or become effective any consensual encumbrance or consensual restriction on the ability of any Restricted Subsidiary to:

- (A) pay dividends or make any other distributions in cash or otherwise on its Capital Stock to the Issuer or any Restricted Subsidiary or pay any Indebtedness or other obligations owed to the Issuer or any Restricted Subsidiary;
- (B) make any loans or advances to the Issuer or any Restricted Subsidiary; or
- (C) sell, lease or transfer any of its property or assets to the Issuer or any Restricted Subsidiary,

*provided* that (x) the priority of any Preferred Stock in receiving dividends or liquidating distributions prior to dividends or liquidating distributions being paid on common stock and (y) the subordination of (including the application of any standstill requirements to) loans or advances made to the Issuer or any Restricted Subsidiary to other Indebtedness Incurred by the Issuer or any Restricted Subsidiary shall not be deemed to constitute such an encumbrance or restriction.

The provisions of the preceding paragraph will not prohibit:

- (1) any encumbrance or restriction pursuant to any Credit Facility or any other agreement or instrument, in each case, in effect at or entered into on the Issue Date (other than the Minority Shareholder Purchase Agreements), and any amendments, restatements, modifications, renewals, supplements, refundings, replacements or refinancings of such agreements; *provided* that the amendments, restatements, modifications, renewals, supplements, refundings, replacements or refinancings are not materially more restrictive, taken as a whole, with respect to such dividend and other payment restrictions than those contained in those agreements on the Issue Date (as determined in good faith by the Issuer);
- (2) the Minority Shareholder Purchase Agreements as in effect on December 12, 2012;
- (3) encumbrances or restrictions existing under or by reason of the Indenture, the Notes, the Note Guarantees, the Numericable Notes Indentures, the Numericable Notes and the Guarantees thereof, the Numericable Senior Credit Facility, Numericable RCF, the Altice Credit Facility, the Existing Altice International Indebtedness, the Intercreditor Agreement, any Additional Intercreditor Agreement, the Numericable Group Intercreditor Agreement (or any additional intercreditor agreement on substantially the same terms as the Numericable Group Intercreditor Agreement), the Existing Altice International Intercreditor Agreements (or any additional intercreditor agreement on substantially the same terms as the applicable Existing Altice International Intercreditor Agreements), the Escrow Agreement, the

Numericable Notes Escrow Agreements, the Security Documents, the Existing Altice International Security Documents and the Numericable Notes Security Documents.

- (4) any encumbrance or restriction pursuant to an agreement or instrument of a Person or relating to any Capital Stock or Indebtedness of a Person, entered into on or before the date on which (i) such Person was acquired by or merged, consolidated or otherwise combined with or into the Issuer or any Restricted Subsidiary, (ii) such agreement or instrument is assumed by the Issuer or any Restricted Subsidiary in connection with an acquisition of assets or (iii) such Person became a Restricted Subsidiary (in each case, other than Capital Stock or Indebtedness Incurred as consideration in, or to provide all or any portion of the funds utilized to consummate, the transaction or series of related transactions pursuant to which such Person became a Restricted Subsidiary or was acquired by the Issuer or was merged, consolidated or otherwise combined with or into the Issuer or any Restricted Subsidiary) and outstanding on such date; *provided* that, for the purposes of this clause (4), if another Person is the Successor Company (as defined under “—*Merger and Consolidation*”), or any Subsidiary thereof, any agreement or instrument of such Person or any such Subsidiary shall be deemed acquired or assumed by the Issuer or any Restricted Subsidiary when such Person becomes the Successor Company;
- (5) any encumbrance or restriction pursuant to an agreement or instrument effecting a refunding, replacement or refinancing of Indebtedness Incurred pursuant to, or that otherwise extends, renews, refunds, refinances or replaces, an agreement or instrument referred to in clause (1), (3) or (4) of this paragraph or this clause (5) (an “*Initial Agreement*”) or contained in any amendment, supplement or other modification to an agreement referred to in clause (1), (3) or (4) of this paragraph or this clause (5); *provided, however*, that the encumbrances and restrictions with respect to such Restricted Subsidiary contained in any such agreement or instrument are no less favorable in any material respect to the Holders taken as a whole than the encumbrances and restrictions contained in the Initial Agreement or Initial Agreements to which such refinancing or amendment, supplement or other modification relates (as determined in good faith by the Issuer);
- (6) any encumbrance or restriction:
  - (a) that restricts in a customary manner the subletting, assignment or transfer of any property or asset that is subject to a lease, license or similar contract, or the assignment or transfer of any lease, license or other contract;
  - (b) contained in mortgages, pledges or other security agreements permitted under the Indenture or securing Indebtedness of the Issuer or a Restricted Subsidiary permitted under the Indenture to the extent such encumbrances or restrictions restrict the transfer of the property or assets subject to such mortgages, pledges or other security agreements;
  - (c) pursuant to customary provisions restricting dispositions of real property interests set forth in any reciprocal easement agreements of the Issuer or any Restricted Subsidiary; or
  - (d) pursuant to the terms of any license, authorization, concession or permit;
- (7) any encumbrance or restriction pursuant to Purchase Money Obligations and Capitalized Lease Obligations permitted under the Indenture, in each case, that impose encumbrances or restrictions on the property so acquired or any encumbrance or restriction pursuant to a joint venture agreement that imposes restrictions on the transfer of the assets of the joint venture;
- (8) any encumbrance or restriction with respect to a Restricted Subsidiary (or any of its property or assets) imposed pursuant to an agreement entered into for the direct or indirect sale or disposition to a Person of all or substantially all the Capital Stock or assets of such Restricted Subsidiary (or the property or assets that are subject to such restriction) pending the closing of such sale or disposition;
- (9) customary provisions in leases, licenses, joint venture agreements and other similar agreements and instruments entered into in the ordinary course of business;

- (10) encumbrances or restrictions arising or existing by reason of applicable law or any applicable rule, regulation, governmental license or order, or required by any regulatory authority or stock exchange;
- (11) any encumbrance or restriction on cash or other deposits or net worth imposed by customers under agreements entered into in the ordinary course of business;
- (12) any encumbrance or restriction pursuant to Currency Agreements, Interest Rate Agreements or Commodity Hedging Agreements;
- (13) any encumbrance or restriction arising pursuant to an agreement or instrument relating to any Indebtedness permitted to be Incurred subsequent to the Issue Date pursuant to the provisions of the covenant described under “—*Limitation on Indebtedness*” if the encumbrances and restrictions contained in any such agreement or instrument taken as a whole are not materially less favorable to the Holders of the Notes than (i) the encumbrances and restrictions contained in the Numericable Senior Credit Facility, the Existing Altice International Senior Credit Facility, the Altice International RCFs or the Altice Credit Facility on the Issue Date, together with the security documents associated therewith, if any, and the Intercreditor Agreement, the Numericable Group Intercreditor Agreement or the Existing Altice International Intercreditor Agreements as in effect on or immediately prior to the Issue Date or (ii) is customary in comparable financings (as determined in good faith by the Issuer) and where, in the case of clause (ii), the Issuer determines at the time of issuance of such Indebtedness that such encumbrances or restrictions (x) will not adversely affect, in any material respect, the Issuer’s ability to make principal or interest payments on the Notes as and when they become due or (y) such encumbrances and restrictions apply only if a default occurs in respect of a payment or financial covenant relating to such Indebtedness;
- (14) restrictions effected in connection with a Qualified Receivables Financing that, in the good faith determination of an Officer or the Board of Directors of the Issuer, are necessary or advisable to effect such Qualified Receivables Financing;
- (15) any encumbrance or restriction existing by reason of any Lien permitted under “—*Limitation on Liens*”; or
- (16) any encumbrance or restriction applicable to Numericable and/or its Subsidiaries approved by a majority of the members of the Board of Directors of Numericable in good faith; *provided* that the members of the Board of Directors of Numericable appointed by Altice France shall not vote in favor of the imposition of any such encumbrance or restriction unless such action would conflict with the fiduciary duties of such directors, contravene any legal prohibition or have the potential to result in a risk of personal or criminal liability on the part of any such director.

#### ***Limitation on Sales of Assets and Subsidiary Stock***

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, make any Asset Disposition unless:

- (1) the Issuer or such Restricted Subsidiary, as the case may be, receives consideration (including by way of relief from, or by any other Person assuming responsibility for, any liabilities, contingent or otherwise) at least equal to the fair market value (such fair market value to be determined on the date of contractually agreeing to such Asset Disposition), as determined in good faith by an Officer or the Board of Directors of the Issuer, of the shares and assets subject to such Asset Disposition (including, for the avoidance of doubt, if such Asset Disposition is a Permitted Asset Swap); and
- (2) in any such Asset Disposition, or series of related Asset Dispositions (except to the extent the Asset Disposition is a Permitted Asset Swap), at least 75% of the consideration from such Asset Disposition or such series of related Asset Dispositions (excluding any consideration by way of relief from, or by any other Person assuming responsibility for, any liabilities, contingent or otherwise, other than Indebtedness) received by the Issuer or such Restricted Subsidiary, as the case may be, is in the form of cash or Cash Equivalents.

After the receipt of Net Available Cash from an Asset Disposition (other than any Asset Disposition of Capital Stock of Altice International), the Issuer or a Restricted Subsidiary, as the case may be, may apply such Net Available Cash directly or indirectly (at the option of the Issuer or such Restricted Subsidiary):

- (a) within 395 days from the later of (A) the date of such Asset Disposition and (B) the receipt of such Net Available Cash (i) to prepay, repay, purchase or redeem any Pari Passu Indebtedness of the Issuer or a Guarantor that is secured in whole or in part by a Lien on the Notes Collateral, which Lien ranks *pari passu* with the Liens securing the Notes, at a price of no more than 100% of the principal amount of such Pari Passu Indebtedness plus accrued and unpaid interest to the date of such prepayment, repayment, purchase or redemption; *provided* that the Issuer or such Guarantor shall prepay, redeem, repay or repurchase Pari Passu Indebtedness that is Public Debt pursuant to this clause (i) only if the Issuer or such Guarantor makes an offer to the holders of the Notes to purchase their Notes in accordance with the provisions set forth below for an Asset Disposition Offer for an aggregate principal amount of Notes at least equal to the proportion that (x) the total aggregate principal amount of Notes outstanding bears to (y) the sum of the total aggregate principal amount of Notes outstanding plus the total aggregate principal amount outstanding of such Pari Passu Indebtedness; (ii) to prepay, repay, purchase or redeem (x) any Indebtedness of a Restricted Subsidiary that is not a Guarantor; *provided* that at the time of any such prepayment, repayment, purchase or redemption, the Issuer owns, directly or indirectly, at least 75% of each class of Capital Stock of such Restricted Subsidiary or (y) any Indebtedness of the Issuer or a Guarantor that is secured on assets which do not constitute Notes Collateral (in each case, other than Subordinated Indebtedness of the Issuer or a Guarantor or Indebtedness owed to the Issuer or any Restricted Subsidiary); *provided further* that if such Asset Disposition relates to assets owned by Altice International and its Restricted Subsidiaries, such Indebtedness being prepaid, repaid, purchased or redeemed shall be Indebtedness of Altice International and its Restricted Subsidiaries and if such Asset Disposition relates to assets owned by Numericable and its Restricted Subsidiaries, such Indebtedness being prepaid, repaid, purchased or redeemed shall be Indebtedness of Numericable and its Restricted Subsidiaries; (iv) to purchase the Notes pursuant to an offer to all holders of Notes at a purchase price in cash equal to at least 100% of the principal amount of the Notes, plus accrued and unpaid interest to, but not including, the date of purchase (subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date) or (v) in the manner specified under sub-clause (3) of “*Certain Definitions—Change of Control*”;
- (b) to the extent the Issuer or such Restricted Subsidiary elects, to invest in or purchase or commit to invest in or purchase Additional Assets (including by means of an investment in Additional Assets by a Restricted Subsidiary with Net Available Cash received by the Issuer or another Restricted Subsidiary) within 395 days from the later of (i) the date of such Asset Disposition and (ii) the receipt of such Net Available Cash; *provided, however*, that any such reinvestment in Additional Assets made pursuant to a definitive binding agreement or a commitment approved by the Board of Directors of the Issuer, Altice International or Numericable, as applicable, that is executed or approved within such time will satisfy this requirement, so long as such investment or commitment to invest is consummated within 180 days of such 395th day; *provided further* that if such Asset Disposition relates to assets owned by Altice International and its Restricted Subsidiaries, such investment in or purchase or commitment to invest in or purchase Additional Assets, shall be made by Altice International and its Restricted Subsidiaries and if such Asset Disposition relates to assets owned by Numericable and its Restricted Subsidiaries, such investment in or purchase or commitment to invest in or purchase Additional Assets, shall be made by Numericable and its Restricted Subsidiaries;
- (c) to make a capital expenditure within 395 days from the later of (A) the date of such Asset Disposition and (B) the receipt of such Net Available Cash; *provided, however*, that any such capital expenditure made pursuant to a definitive binding agreement or a commitment approved by the Board of Directors of the Issuer, Altice International or Numericable, as applicable, that is executed or approved within such time will satisfy this requirement, so long as such investment is consummated within 180 days of such 395th day; *provided further* that if such Asset Disposition relates to assets owned by Altice International and its Restricted Subsidiaries, such capital expenditure shall be made by Altice International and its Restricted

Subsidiaries and if such Asset Disposition relates to assets owned by Numericable and its Restricted Subsidiaries, such capital expenditure shall be made by Numericable and its Restricted Subsidiaries; or

(d) any combination of the foregoing,

*provided that*, pending the final application of any such Net Available Cash in accordance with clause (a), (b), (c) or (d) above, the Issuer and the Restricted Subsidiaries may temporarily reduce Indebtedness or otherwise invest such Net Available Cash in any manner not prohibited by the Indenture.

After the receipt of any Net Cash Proceeds from an Asset Disposition of any Capital Stock of Altice International, the Issuer or a Restricted Subsidiary, as the case may be, shall apply such Net Cash Proceeds directly or indirectly within 30 days from the later of (A) the date of such Asset Disposition and (B) the receipt of such Net Cash Proceeds to make an offer (an “*Altice International Share Disposition Offer*”) to all holders of Notes to purchase the maximum principal amount of Notes to which the Altice International Disposition Offer applies that may be purchased out of such Net Cash Proceeds, at an offer price in respect of the Notes in an amount equal to 100% of the principal amount of the Notes plus accrued and unpaid interest, if any, to, but not including, the date of purchase, in accordance with the procedures set forth in the Indenture in minimum denominations of \$200,000 and in integral multiples of \$1,000 in excess thereof, in the case of Dollar Notes, and €100,000 principal amount and integral multiples of €1,000 in excess thereof, in the case of Euro Notes.

Any Net Available Cash from Asset Dispositions that is not applied or invested or committed to be applied or invested as provided in the second paragraph of this covenant will be deemed to constitute “Excess Proceeds”. On the 396th day (or the 576th day, in the case of any Net Available Cash committed to be used pursuant to a definitive binding agreement or commitment approved by the Board of Directors of the Issuer, Altice International or Numericable (as applicable) pursuant to clauses (b) or (c) of the second paragraph of this covenant) after the later of (A) the date of such Asset Disposition and (B) the receipt of such Net Available Cash, if the aggregate amount of Excess Proceeds exceeds €50 million, the Issuer will be required within ten (10) Business Days thereof to make an offer (an “*Asset Disposition Offer*”) to all holders of Notes and, to the extent the Issuer elects or the Issuer or a Guarantor is required by the terms of other outstanding Pari Passu Indebtedness, to all holders of such other outstanding Pari Passu Indebtedness to purchase the maximum principal amount of Notes and any such Pari Passu Indebtedness to which the Asset Disposition Offer applies that may be purchased out of the Excess Proceeds, at an offer price in respect of the Notes in an amount equal to (and, in the case of any Pari Passu Indebtedness, an offer price of no more than) 100% of the principal amount of the Notes and 100% of the principal amount of Pari Passu Indebtedness, in each case, plus accrued and unpaid interest, if any, to, but not including, the date of purchase, in accordance with the procedures set forth in the Indenture or the agreements governing the Pari Passu Indebtedness, as applicable, and in the case of the Notes, in minimum denominations of \$200,000 and in integral multiples of \$1,000 in excess thereof, in the case of Dollar Notes, and €100,000 principal amount and integral multiples of €1,000 in excess thereof, in the case of Euro Notes.

To the extent that the aggregate amount of Notes and Pari Passu Indebtedness so validly tendered and not properly withdrawn pursuant to an Asset Disposition Offer is less than the Excess Proceeds, the Issuer and the Restricted Subsidiaries may use any remaining Excess Proceeds for general corporate purposes, to the extent not prohibited by the other covenants contained in the Indenture. If the aggregate principal amount of the Notes surrendered in any Asset Disposition Offer by Holders and other Pari Passu Indebtedness surrendered by holders or lenders, collectively, exceeds the amount of Excess Proceeds, the Excess Proceeds shall be allocated among the Notes and Pari Passu Indebtedness to be purchased on a *pro rata* basis on the basis of the aggregate principal amount of tendered Notes and Pari Passu Indebtedness. For the purposes of calculating the principal amount of any such Indebtedness not denominated in euro, such Indebtedness shall be calculated by converting any such principal amounts into their Euro Equivalent determined as of a date selected by the Issuer that is within the Asset Disposition Offer Period (as defined below). Upon completion of any Asset Disposition Offer, the amount of Excess Proceeds shall be reset at zero.

To the extent that the aggregate amount of Notes so validly tendered and not properly withdrawn pursuant to an Altice International Share Disposition Offer is less than the Net Cash Proceeds for the Asset Disposition of Capital Stock of Altice International, the Issuer and the Restricted Subsidiaries may use any remaining Net Cash Proceeds for general corporate purposes, to the extent not prohibited by the other covenants contained in the Indenture. If the aggregate principal amount of the Notes surrendered in any Altice

International Share Disposition Offer by Holders exceeds the amount of such Net Cash Proceeds, the Net Cash Proceeds shall be allocated among the Notes to be purchased on a *pro rata* basis on the basis of the aggregate principal amount of tendered Notes. For the purposes of calculating the principal amount of any such Indebtedness not denominated in euro, such Indebtedness shall be calculated by converting any such principal amounts into their Euro Equivalent determined as of a date selected by the Issuer that is within the Asset Disposition Offer Period.

To the extent that any portion of Net Available Cash or Net Cash Proceeds payable in respect of the Notes is denominated in a currency other than the currency in which the relevant Notes are denominated, the amount thereof payable in respect of such Notes shall not exceed the net amount of funds in the currency in which such Notes are denominated that is actually received by the Issuer upon converting such portion of the Net Available Cash or Net Cash Proceeds, as applicable, into such currency.

The Asset Disposition Offer or the Altice International Share Disposition Offer, as applicable, in so far as it relates to the Notes, will remain open for a period of not less than 20 Business Days following its commencement (the “*Asset Disposition Offer Period*”). No later than five (5) Business Days after the termination of the Asset Disposition Offer Period (the “*Asset Disposition Purchase Date*”), the Issuer will purchase the principal amount of Notes and, to the extent it elects, *Pari Passu* Indebtedness required to be purchased by it pursuant to this covenant (the “*Asset Disposition Offer Amount*”) or, if less than the Asset Disposition Offer Amount has been so validly tendered, all Notes and *Pari Passu* Indebtedness validly tendered in response to the Asset Disposition Offer or Altice International Share Disposition Offer, as applicable.

On or before the Asset Disposition Purchase Date, the Issuer will, to the extent lawful, accept for payment, on a *pro rata* basis to the extent necessary, the Asset Disposition Offer Amount of Notes and *Pari Passu* Indebtedness or portions of Notes and *Pari Passu* Indebtedness so validly tendered and not properly withdrawn pursuant to the Asset Disposition Offer or Altice International Share Disposition Offer, as applicable, or if less than the Asset Disposition Offer Amount has been validly tendered and not properly withdrawn, all Notes and *Pari Passu* Indebtedness so validly tendered and not properly withdrawn and, in the case of the Notes, in minimum denominations of \$200,000 and in integral multiples of \$1,000 in excess thereof, in the case of Dollar Notes, and €100,000 principal amount and integral multiples of €1,000 in excess thereof, in the case of Euro Notes. The Issuer will deliver to the Trustee an Officer’s Certificate stating that such Notes or portions thereof were accepted for payment by the Issuer in accordance with the terms of this covenant. The Issuer or the Paying Agents, as the case may be, will promptly (but in any case not later than five (5) Business Days after termination of the Asset Disposition Offer Period) mail or deliver to each tendering Holder of Notes an amount equal to the purchase price of the Notes so validly tendered and not properly withdrawn by such Holder, and accepted by the Issuer for purchase, and the Issuer will promptly issue a new Note (or amend the applicable Global Note), and the Trustee, upon delivery of an Officer’s Certificate from the Issuer, will, via an authenticating agent, authenticate and mail or deliver (or cause to be transferred by book-entry) such new Note to such Holder, in a principal amount equal to any unpurchased portion of the Note surrendered; *provided that* each such new Note will be in a principal amount with a minimum denomination of \$200,000, in the case of Dollar Notes, and €100,000, in the case of Euro Notes. Any Note not so accepted will be promptly mailed or delivered (or transferred by book-entry) by the Issuer to the Holder thereof.

For the purposes of clause (2) of the first paragraph of this covenant (other than an Asset Disposition of Capital Stock of Altice International), the following will be deemed to be cash:

- (1) the assumption by the transferee of Indebtedness of the Issuer or any Restricted Subsidiary (other than Subordinated Indebtedness of the Issuer or a Guarantor) and the release of the Issuer or such Restricted Subsidiary from all liability on such Indebtedness in connection with such Asset Disposition;
- (2) securities, notes or other obligations received by the Issuer or any Restricted Subsidiary from the transferee that are converted by the Issuer or such Restricted Subsidiary into cash or Cash Equivalents within 180 days following the closing of such Asset Disposition, to the extent of the cash received;
- (3) Indebtedness of any Restricted Subsidiary that is no longer a Restricted Subsidiary as a result of such Asset Disposition, to the extent that the Issuer and each other Restricted Subsidiary (as applicable) are released from any Guarantee of payment of such Indebtedness in connection with such Asset Disposition;

- (4) consideration consisting of Indebtedness of the Issuer or a Guarantor (other than Subordinated Indebtedness) received after the Issue Date from Persons who are not the Issuer or any Restricted Subsidiary; and
- (5) (i) if such Asset Disposition relates to assets owned by Altice International or any of its Restricted Subsidiaries, any Designated Non-Cash Consideration received by Altice International or any of its Restricted Subsidiaries in such Asset Dispositions having an aggregate fair market value, taken together with all other Designated Non-Cash Consideration received by Altice International and its Restricted Subsidiaries pursuant to this covenant that is at that time outstanding, not to exceed the greater of €45 million and 1.5% of Altice International Total Assets; (ii) if such Asset Disposition relates to assets owned by Numericable or any of its Restricted Subsidiaries, any Designated Non-Cash Consideration received by Numericable and its Restricted Subsidiaries in such Asset Dispositions having an aggregate fair market value, taken together with all other Designated Non-Cash Consideration received by Numericable and its Restricted Subsidiaries pursuant to this covenant that is at that time outstanding, not to exceed the greater of €150 million and 1.5% of Numericable Total Assets; and (iii) if such Asset Disposition relates to assets owned by the Issuer or any of its Restricted Subsidiaries (other than Altice International and its Restricted Subsidiaries and Numericable and its Restricted Subsidiaries), any Designated Non-Cash Consideration received by the Issuer and such Restricted Subsidiaries in such Asset Dispositions having an aggregate fair market value, taken together with all other Designated Non-Cash Consideration received by the Issuer and such Restricted Subsidiaries pursuant to this clause (iii) that is at that time outstanding, not to exceed €75 million.

The Issuer will comply, to the extent applicable, with the requirements of Section 14(e) of the Exchange Act and any other securities laws or regulations in connection with the repurchase of Notes pursuant to the Indenture. To the extent that the provisions of any securities laws or regulations conflict with provisions of this covenant, the Issuer will comply with the applicable securities laws and regulations and will not be deemed to have breached its obligations under the Indenture by virtue of any conflict.

#### ***Limitation on Affiliate Transactions***

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, enter into or conduct any transaction or series of related transactions (including the purchase, sale, lease or exchange of any property or the rendering of any service) with any Affiliate of the Issuer (any such transaction or series of related transactions being “*Affiliate Transactions*”) involving aggregate value in excess of €5 million unless:

- (1) the terms of such Affiliate Transaction taken as a whole are not materially less favorable to the Issuer or such Restricted Subsidiary, as the case may be, than those that could be obtained in a comparable transaction at the time of such transaction or the execution of the agreement providing for such transaction in arm’s-length dealings with a Person who is not such an Affiliate; and
- (2) in the event such Affiliate Transaction involves an aggregate value in excess of €25 million, the terms of such transaction or series of related transactions have been approved by a resolution of the majority of the members of the Board of Directors of the Issuer resolving that such transaction complies with clause (1) above; *provided* that an Affiliate Transaction shall be deemed to have satisfied the requirements set forth in this clause (2) of this paragraph if such Affiliate Transaction is approved by a majority of the Disinterested Directors.

The provisions of the preceding paragraph will not apply to:

- (1) any Restricted Payment permitted to be made pursuant to the covenant described under “—*Limitation on Restricted Payments*”, any Permitted Payments (other than pursuant to clause (9)(b) of the third paragraph of the covenant described under “—*Limitation on Restricted Payments*”) or any Permitted Investment (other than Permitted Investments as defined in paragraphs (1)(b), (2) and (17) of the definition thereof);
- (2) any issuance or sale of Capital Stock, options, other equity-related interests or other securities, or other payments, awards or grants in cash, securities or otherwise pursuant to, or the funding of, or entering into, or maintenance of, any employment, consulting, collective bargaining or benefit plan, program, agreement or arrangement, related trust or other similar agreement and other compensation

- arrangements, options, warrants or other rights to purchase Capital Stock of the Issuer, any Restricted Subsidiary or any Parent, restricted stock plans, long-term incentive plans, stock appreciation rights plans, participation plans or similar employee benefits or consultants' plans (including valuation, health, insurance, deferred compensation, severance, retirement, savings or similar plans, programs or arrangements) or indemnities provided on behalf of officers, employees, directors or consultants approved by the Board of Directors of the Issuer, in each case in the ordinary course of business;
- (3) any Management Advances and any waiver or transaction with respect thereto;
  - (4) other than any transaction directly or indirectly between or among Altice International or any of its Restricted Subsidiaries on the one hand and Numericable or any of its Restricted Subsidiaries on the other, any transaction between or among the Issuer and any Restricted Subsidiary (or entity that becomes a Restricted Subsidiary as a result of such transaction), or between or among the Issuer, Restricted Subsidiaries or any Receivables Subsidiary;
  - (5) the payment of reasonable fees and reimbursement of expenses to, and customary indemnities and employee benefit and pension expenses provided on behalf of, directors, officers, consultants or employees of the Issuer, any Restricted Subsidiary or any Parent (whether directly or indirectly and including through any Person owned or controlled by any of such directors, officers or employees);
  - (6) the Transactions and the Post-Closing Transactions and the entry into and performance of obligations of the Issuer or any of its Restricted Subsidiaries under the terms of any transaction arising out of, and any payments pursuant to or for purposes of funding, any agreement or instrument in effect as of or on the Issue Date, as these agreements and instruments may be amended, modified, supplemented, extended, renewed or refinanced from time to time (including, without limitation, to add additional Persons in connection with any such Person becoming a Restricted Subsidiary) in accordance with the other terms of this covenant or to the extent not more disadvantageous to the Holders in any material respect and the entry into and performance of any registration rights or other listing agreement in connection with any Public Offering (including the Initial Public Offering and the Numericable Initial Public Offering);
  - (7) execution, delivery and performance of any Tax Sharing Agreement or the formation and maintenance of any consolidated group for tax, accounting or management purposes in the ordinary course of business;
  - (8) transactions with customers, clients, suppliers or purchasers or sellers of goods or services and Associates, in each case in the ordinary course of business (including, without limitation, pursuant to joint venture arrangements), which are fair to the Issuer or the relevant Restricted Subsidiary in the reasonable determination of the Board of Directors or an officer of the Issuer or the relevant Restricted Subsidiary, or are on terms no less favorable than those that could reasonably have been obtained at such time from an unaffiliated party;
  - (9) any transaction in the ordinary course of business between or among the Issuer or any Restricted Subsidiary and any Affiliate of the Issuer or an Associate or similar entity (in each case, other than an Unrestricted Subsidiary) that would constitute an Affiliate Transaction solely because the Issuer or a Restricted Subsidiary or any Affiliate of the Issuer or a Restricted Subsidiary or any Affiliate of any Permitted Holder owns an equity interest in or otherwise controls such Affiliate, Associate or similar entity;
  - (10) (a) issuances or sales of Capital Stock (other than Disqualified Stock or Designated Preference Shares) of the Issuer or options, warrants or other rights to acquire such Capital Stock or Subordinated Shareholder Funding; *provided* that the interest rate and other financial terms of such Subordinated Shareholder Funding are approved by a majority of the members of the Board of Directors of the Issuer in their reasonable determination and (b) any amendment, waiver or other transaction with respect to any Subordinated Shareholder Funding in compliance with the other provisions of the Indenture, the Intercreditor Agreement or any Additional Intercreditor Agreement, as applicable;
  - (11) without duplication in respect of payments made pursuant to the definition of Parent Expenses, (a) payments by the Issuer or any Restricted Subsidiary to any Permitted Holder (whether directly or

indirectly, including through any Parent) of annual management, consulting, monitoring or advisory fees and related expenses in an aggregate amount not to exceed an amount equal to €50 million per year; (b) customary payments by the Issuer or any Restricted Subsidiary to any Permitted Holder (whether directly or indirectly, including through any Parent) for financial advisory, financing, underwriting or placement services or in respect of other investment banking activities, including in connection with acquisitions or divestitures, which payments in respect of this clause (b) are approved by a majority of the Board of Directors of the Issuer in good faith; and (c) payments of all fees and expenses related to the Transactions;

- (12) any transaction effected as part of a Qualified Receivables Financing;
- (13) any participation in a rights offer or public tender or exchange offers for securities or debt instruments issued by the Issuer or any of its Subsidiaries that are conducted on arm's length terms and provide for the same price or exchange ratio, as the case may be, to all holders accepting such rights, tender or exchange offer;
- (14) any transaction between or among Altice International and its Restricted Subsidiaries, on the one hand, and Numericable and its Restricted Subsidiaries, on the other hand, if the terms of such transaction or series of related transactions have been approved by a resolution of the majority of the members of each of the Board of Directors of Altice International and Numericable resolving that the terms of such transaction taken as a whole are not materially less favorable to Altice International and its Restricted Subsidiaries and Numericable and its Restricted Subsidiaries, as the case may be, than those that could be obtained in a comparable transaction at the time of such transaction or the execution of the agreement providing for such transaction in arm's length dealings with a Person who is not such an Affiliate;
- (15) any transaction by Altice International or its Restricted Subsidiaries (other than a transaction described in clause (14) of this paragraph), if the terms of such transaction or series of related transactions have been approved by a resolution of the majority of the members of the Board of Directors of Altice International resolving that the terms of such transaction taken as a whole are not materially less favorable to Altice International and its Restricted Subsidiaries than those that could be obtained in a comparable transaction at the time of such transaction or the execution of the agreement providing for such transaction in arm's length dealings with a Person who is not such an Affiliate; and
- (16) any transaction by Numericable or its Restricted Subsidiaries (other than a transaction described in clause (14) of this paragraph), if the terms of such transaction or series of related transactions have been approved by a resolution of the majority of the members of the Board of Directors of Numericable resolving that the terms of such transaction taken as a whole are not materially less favorable to Numericable and its Restricted Subsidiaries than those that could be obtained in a comparable transaction at the time of such transaction or the execution of the agreement providing for such transaction in arm's length dealings with a Person who is not such an Affiliate.

### ***Maintenance of Listing***

The Issuer will use its commercially reasonable efforts to maintain the listing of the Notes on the Official List of the Luxembourg Stock Exchange and the admission to trading on its Euro MTF Market for so long as such Notes are outstanding; *provided* that if at any time the Issuer determines that it will not maintain such listing, it will obtain prior to the delisting of the Notes from the Euro MTF Market of the Luxembourg Stock Exchange, and thereafter use its best efforts to maintain, a listing of such Notes on another recognized stock exchange.

### ***Reports***

For so long as any Notes are outstanding, the Issuer will provide to the Trustee the following reports:

- (1) within 120 days after the end of the Issuer's fiscal year beginning with the fiscal year ending December 31, 2014, annual reports containing, to the extent applicable, and in a level of detail that is comparable in all material respects to the Offering Memorandum, the following information:
  - (a) audited consolidated balance sheet of the Issuer as of the end of the most recent fiscal year (and

comparative information as of the end of the prior fiscal year) and audited consolidated income statements and statements of cash flow of the Issuer for the most recent fiscal year (and comparative information as of the end of the prior fiscal year), including complete footnotes to such financial statements and the report of the independent auditors on the financial statements; (b) unaudited *pro forma* income statement information and balance sheet information of the Issuer (which, for the avoidance of doubt, shall not include the provision of a full income statement or balance sheet to the extent not reasonably available), together with explanatory footnotes, for (i) any acquisition or disposition by the Issuer or a Restricted Subsidiary that, individually or in the aggregate when considered with all other acquisitions or dispositions that have occurred since the beginning of the most recently completed fiscal year as to which such annual report relates, represent greater than 20% of the consolidated revenues, EBITDA, or assets of the Issuer on a *pro forma* consolidated basis or (ii) recapitalizations by the Issuer or a Restricted Subsidiary, in each case, that have occurred since the beginning of the most recently completed fiscal year (unless such *pro forma* information has been provided in a prior report pursuant to clause (2) or (3) below); (c) an operating and financial review of the audited financial statements, including a discussion of the results of operations, financial condition, and liquidity and capital resources of the Issuer, and a discussion of material commitments and contingencies and critical accounting policies; (d) description of the business, management and shareholders of the Issuer, all material affiliate transactions and a description of all material contractual arrangements, including material debt instruments; and (e) a description of material risk factors and material recent developments (to the extent not previously reported pursuant to clause (2) or (3) below).

- (2) within 60 days following the end of the first three fiscal quarters in each fiscal year of the Issuer beginning with the fiscal quarter ending March 31, 2014 (provided that, if the Completion Date occurs in any such fiscal quarter, the foregoing reference to 60 days shall be deemed to be 90 days for such fiscal quarter), all quarterly reports of the Issuer containing the following information: (a) an unaudited condensed consolidated balance sheet as of the end of such quarter and unaudited condensed consolidated statements of income and cash flow for the most recent quarter year-to-date period ending on the date of the unaudited condensed balance sheet, and the comparable prior year periods, together with condensed footnote disclosure; (b) unaudited *pro forma* income statement information and balance sheet information (which, for the avoidance of doubt, shall not include the provision of a full income statement or balance sheet to the extent not reasonably available), together with explanatory footnotes, for any acquisition or disposition by the Issuer or a Restricted Subsidiary that, individually or in the aggregate when considered with all other acquisitions or dispositions that have occurred since the beginning of the relevant quarter, represent greater than 20% of the consolidated revenues, EBITDA, or assets of the Issuer on a *pro forma* consolidated basis (unless such *pro forma* information has been provided in a prior report pursuant to clause (3) below); (c) an operating and financial review of the unaudited financial statements, including a discussion of the results of operations, financial condition, EBITDA and material changes in liquidity and capital resources, and a discussion of material changes not in the ordinary course of business in commitments and contingencies since the most recent report; and (d) material recent developments (to the extent not previously reported pursuant to clause (3) below); and
- (3) promptly after the occurrence of such event, information with respect to (a) any change in the independent public accountants of the Issuer, (b) any material acquisition, disposal, merger or similar transaction or (c) any development determined by an Officer of the Issuer to be material to the business of the Issuer and its Restricted Subsidiaries (taken as a whole).

All financial statement information shall be prepared in accordance with IFRS as in effect on the date of such report or financial statement (or otherwise on the basis of IFRS as then in effect) and on a consistent basis for the periods presented; *provided, however*, that the reports set forth in clauses (1), (2) and (3) above may in the event of a change in IFRS, present earlier periods on a basis that applied to such periods.

Except as provided for above, no report need include separate financial statements for the Issuer or Subsidiaries of the Issuer or any disclosure with respect to the results of operations or any other financial or statistical disclosure not of a type included in the Offering Memorandum and in no event shall U.S. GAAP information or reconciliation to U.S. GAAP be required.

At any time if any Subsidiary of the Issuer is an Unrestricted Subsidiary and any such Unrestricted Subsidiary or group of Unrestricted Subsidiaries, if taken together as one Subsidiary, constitutes a Significant Subsidiary, then the quarterly and annual financial information required by the first paragraph of this covenant will include a reasonably detailed presentation, either on the face of the financial statements or in the footnotes thereto, of the financial condition and results of operations of the Issuer and its Restricted Subsidiaries separate from the financial condition and results of operations of the Unrestricted Subsidiaries of the Issuer.

Substantially concurrently with the issuance to the Trustee of the reports specified in (1), (2) and (3) of the first paragraph of this covenant, the Issuer shall also (a) use its commercially reasonable efforts (i) to post copies of such reports on such website as may be then maintained by the Issuer and its Subsidiaries or (ii) otherwise to provide substantially comparable public availability of such reports (as determined by the Issuer in good faith) or (b) to the extent the Issuer determines in good faith that such reports cannot be made available in the manner described in the preceding clause (a) owing to applicable law or after the use of its commercially reasonable efforts, furnish such reports to the Holders and, upon their request, prospective purchasers of the Notes. the Issuer will also make available copies of all reports required by clauses (1) through (3) of the first paragraph of this covenant, if and so long as the Notes are listed on the Euro MTF Market of the Luxembourg Stock Exchange and the rules of the Luxembourg Stock Exchange so require, at the Issuer's registered office in Luxembourg or, to the extent and in the manner permitted by such rules, post such reports on the official website of the Luxembourg Stock Exchange ([www.bourse.lu](http://www.bourse.lu)).

In addition, so long as the Notes remain outstanding and during any period during which the Issuer is not subject to Section 13 or 15(d) of the Exchange Act nor exempt therefrom pursuant to Rule 12g3-2(b), the Issuer shall furnish to the Holders and holders of beneficial interests in the Notes and, upon their request, prospective purchasers of the Notes or prospective and purchasers of beneficial interests in the Notes, the information required to be delivered pursuant to Rule 144A(d)(4) under the Securities Act.

### ***Merger and Consolidation***

#### ***The Issuer***

The Issuer will not consolidate with or merge with or into, or assign, convey, transfer, lease or otherwise dispose all or substantially all its assets as an entirety or substantially as an entirety, in one transaction or a series of related transactions to, any Person, unless:

- (1) the resulting, surviving or transferee Person (the "*Successor Company*") (if not the Issuer) will be a Person organized and existing under the laws of any member state of the European Union, Switzerland, Canada, or the United States of America, any State of the United States or the District of Columbia and the Successor Company (if not the Issuer) will expressly assume, (a) by supplemental indenture, executed and delivered to the Trustee, in form reasonably satisfactory to the Trustee, all the obligations of the Issuer under the Notes and the Indenture and (b) all obligations of the Issuer under the Intercreditor Agreement and the Security Documents, as applicable;
- (2) immediately after giving effect to such transaction (and treating any Indebtedness that becomes an obligation of the Successor Company or any Subsidiary of the Successor Company as a result of such transaction as having been Incurred by the Successor Company or such Subsidiary at the time of such transaction), no Default or Event of Default shall have occurred and be continuing;
- (3) immediately after giving *pro forma* effect to such transaction and any related financing transactions, as if such transactions had occurred at the beginning of applicable four-quarter period, either (a) the Successor Company would be able to Incur at least an additional €1.00 of Indebtedness pursuant to sub-clause (2) of the first paragraph of the covenant described under "*—Limitation on Indebtedness*" or (b) the Consolidated Net Leverage Ratio of the Issuer would not be greater than it was immediately prior to giving effect to such transaction; and
- (4) the Issuer shall have delivered to the Trustee an Officer's Certificate and an Opinion of Counsel, each to the effect that such consolidation, merger or transfer and such supplemental indenture (if any) comply with the Indenture and an Opinion of Counsel to the effect that such supplemental indenture (if any) has been duly authorized, executed and delivered and is a legal, valid and binding agreement enforceable against the Successor Company (in each case, in form and substance reasonably

satisfactory to the Trustee); *provided* that in giving an Opinion of Counsel, counsel may rely on an Officer's Certificate as to any matters of fact.

Subject to the third paragraph of the covenant "*Merger and Consolidation—The Guarantors*", for purposes of this covenant, the sale, lease, conveyance, assignment, transfer, or other disposition of all or substantially all of the properties and assets of one or more Subsidiaries of the Issuer, which properties and assets, if held by the Issuer instead of such Subsidiaries, would constitute all or substantially all of the properties and assets of the Issuer on a consolidated basis, shall be deemed to be the transfer of all or substantially all of the properties and assets of the Issuer.

The Successor Company will succeed to, and be substituted for, and may exercise every right and power of, the Issuer under the Indenture but in the case of a lease of all or substantially all its assets, the predecessor company will not be released from its obligations under the Indenture or the Notes.

Notwithstanding the preceding clauses (2) and (3) (which do not apply to transactions referred to in this sentence) and clause (4) of the first paragraph of this covenant (which does not apply to transactions referred to in this sentence in which the Issuer is the Successor Company), (a) any Restricted Subsidiary may consolidate or otherwise combine with, merge into or transfer all or part of its properties and assets to the Issuer; and (b) any Restricted Subsidiary that is not a Guarantor may consolidate or otherwise combine with, merge into or transfer all or part of its properties and assets to any other Restricted Subsidiary or the Issuer; *provided* that Altice International or any of its Restricted Subsidiaries shall not consolidate or otherwise combine with, merge into or transfer all or part of its properties and assets to Altice France or any of its Restricted Subsidiaries. Notwithstanding the preceding clause (3) (which does not apply to the transactions referred to in this sentence) of the first paragraph of this covenant, the Issuer may consolidate or otherwise combine with or merge into an Affiliate incorporated or organized for the purpose of changing the legal domicile of the Issuer, reincorporating the Issuer in another jurisdiction or changing the legal form of the Issuer.

There is no precise established definition of the phrase "substantially all" under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve "all or substantially all" of the property or assets of a Person.

The foregoing provisions (other than the requirements of clause (2) of the first paragraph of this "Merger and Consolidation" covenant) shall not apply to the creation of a new Subsidiary as a Restricted Subsidiary.

#### *The Guarantors*

None of the Guarantors (other than a Guarantor whose Note Guarantee is to be released in accordance with the terms of the Indenture or the Intercreditor Agreement) may:

- (1) consolidate with or merge with or into any Person (whether or not such Guarantor is the surviving Person);
  - (2) sell, assign, convey, transfer, lease or otherwise dispose of, all or substantially all its assets as an entirety or substantially as an entirety, in one transaction or a series of related transactions, to any Person; or
  - (3) permit any Person to merge with or into it;
- unless:
- (A) the other Person is the Issuer or Restricted Subsidiary that is a Guarantor or becomes a Guarantor as a result of such transaction; or
  - (B) (1) either (x) a Guarantor is the surviving Person or (y) the resulting, surviving or transferee Person expressly assumes all of the obligations of the Guarantor under its Note Guarantee and the Indenture (pursuant to a supplemental indenture executed and delivered in a form reasonably satisfactory to the Trustee) and all obligations of the Guarantor under the Intercreditor Agreement and Security Documents, as applicable; and

- (2) immediately after giving effect to the transaction, no Default or Event of Default shall have occurred and is continuing; or
- (C) the transaction constitutes a sale or other disposition (including by way of consolidation or merger) of a Guarantor or the sale or disposition of all or substantially all the assets of a Guarantor (in each case other than to the Issuer or a Restricted Subsidiary) otherwise permitted by the Indenture and the proceeds therefrom are applied as required by the Indenture.

Notwithstanding the preceding clause (B)(2) (which does not apply to transactions referred to in this sentence), (a) any Restricted Subsidiary may consolidate or otherwise combine with, merge into or transfer all or part of its properties and assets to a Guarantor or the Issuer and (b) any Guarantor may consolidate or otherwise combine with, merge into or transfer all or part of its properties and assets to any other Guarantor. Notwithstanding the preceding clause (B)(2) (which does not apply to the transactions referred to in this sentence), a Guarantor may consolidate or otherwise combine with or merge into an Affiliate incorporated or organized for the purpose of changing the legal domicile of the Guarantor reincorporating the Guarantor in another jurisdiction, or changing the legal form of the Guarantor.

The provisions under this covenant “*Merger and Consolidation—The Issuer*” and “*Merger and Consolidation—The Guarantors*” shall not apply to (1) any Post-Closing Transactions or (2) any sale, lease, transfer, conveyance or other disposition in one or a series of related transactions of any assets of Numericable and its Subsidiaries or the Target and its Subsidiaries (including the Capital Stock of the Target or any Subsidiary of Numericable or the Target) that is required pursuant to Competition Laws in relation to the Target Acquisition or is taken to avoid or eliminate any impediment under Competition Laws in relation to the Target Acquisition (including, without limitation, in response to any actions initiated by an administrative, regulatory or other governmental authority or private party under Competition Laws)); *provided that*, solely to the extent the Issuer is relying on the foregoing exception, in the event the fair market value of any such sold, leased, transferred, conveyed or disposed of assets exceeds 2% of the Numericable Total Assets (on a pro forma consolidated basis, including the Target and its Subsidiaries that are Restricted Subsidiaries), (i) the Consolidated Net Leverage Ratio of Numericable (on a pro forma consolidated basis, including or the Target and its Subsidiaries that are Restricted Subsidiaries) shall not increase; and (ii) Numericable shall promptly make an offer to all holders of the Term Loans and to the extent required by the terms of any Pari Passu Indebtedness that is not Public Debt, any such Pari Passu Indebtedness to repay or repurchase such Term Loans and Pari Passu Indebtedness at a price of 100% of the principal amount thereof plus accrued and unpaid interest thereon to the date of redemption in an amount equal to the Net Cash Proceeds of such sale, lease, transfer, conveyance or other disposition (on a *pro rata* basis on the basis of the aggregate principal amount of tendered Term Loans and Pari Passu Indebtedness) and in the event the principal amount of Term Loans and such Pari Passu Indebtedness tendered is less than the amount of such Net Cash Proceeds, Numericable shall apply any such remaining proceeds to prepay an equal principal amount of Term Loans at par on a pro rata basis.

There is no precise established definition of the phrase “substantially all” under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve “all or substantially all” of the property or assets of a Person.

### ***Lines of Business***

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, engage in any business other than a Similar Business, except to such extent as would not be material to the Issuer and the Restricted Subsidiaries, taken as a whole.

### ***Additional Guarantors***

The Issuer will not permit any of its Restricted Subsidiaries (other than a Guarantor) to Guarantee any Indebtedness of the Issuer or any Guarantor (other than Indebtedness Incurred under clause (8) of the second paragraph of the covenant described under “—*Limitation on Indebtedness*”, except Indebtedness Incurred under Credit Facilities or Public Debt pursuant to such clause (8)) unless such Restricted Subsidiary is or becomes a Guarantor on the date on which the Guarantee is Incurred and, if applicable, executes and delivers to the Trustee a supplemental indenture in the form attached to the Indenture pursuant to which such Restricted Subsidiary will provide a Note Guarantee, which Guarantee will be senior to or pari passu with such Restricted Subsidiary’s Guarantee of such other Indebtedness.

Note Guarantees granted after the Issue Date pursuant to this covenant shall be released as set forth under “—*Releases of the Note Guarantees*”. Note Guarantees granted after the Issue Date pursuant to the first paragraph of this covenant may be released at the option of the Issuer if, at the date of such release, (i) the Indebtedness which required such Note Guarantee has been released or discharged in full, (ii) no Event of Default would arise as a result of such release, and (iii) there is no other Indebtedness of such Guarantor outstanding that was Incurred after the Issue Date and that could not have been Incurred in compliance with the Indenture as of the date Incurred if such Guarantor were not a Guarantor as at that date. The Trustee shall take all necessary actions, including the granting of releases or waivers under the Intercreditor Agreement or any Additional Intercreditor Agreement, to effectuate any release of a Note Guarantee in accordance with these provisions, subject to customary protections and indemnifications.

Each additional Note Guarantee will be limited as necessary to recognize certain defenses generally available to guarantors (including those that relate to fraudulent conveyance or transfer, voidable preference, financial assistance, corporate purpose, thin capitalization, distributable reserves, capital maintenance or similar laws, regulations or defenses affecting the rights of creditors generally) or other considerations under applicable law.

Notwithstanding the foregoing, the Issuer shall not be obligated to cause such Restricted Subsidiary to become a Guarantor to the extent and for so long as the Incurrence of such Guarantee could reasonably be expected to give rise to or result in: (1) any violation of applicable law or regulation; (2) any liability for the officers, directors or (except in the case of a Restricted Subsidiary that is a partnership) shareholders of such Restricted Subsidiary (or, in the case of a Restricted Subsidiary that is a partnership, directors or shareholders of the partners of such partnership); (3) any cost, expense, liability or obligation (including with respect to any Taxes) other than reasonable out-of-pocket expenses and other than reasonable expenses incurred in connection with any governmental or regulatory filings required as a result of, or any measures pursuant to clause (1) of this paragraph undertaken in connection with, such Guarantee, which in any case under any of clauses (1), (2) and (3) of this paragraph cannot be avoided through measures reasonably available to the Issuer or such Restricted Subsidiary; or (4) such Restricted Subsidiary is prohibited from Incurring such Guarantee by the terms of any Indebtedness of such Restricted Subsidiary that is not prepayable without a prepayment premium (in each case, other than Indebtedness Incurred to provide all or any portion of the funds utilized to consummate the transaction or series of related transactions pursuant to which such Person became a Restricted Subsidiary); provided that this clause (4) applies only for so long as such prepayment premium applies to such Indebtedness.

#### ***Suspension of Covenants on Achievement of Investment Grade Status***

If on any date following the Issue Date, the Notes have achieved Investment Grade Status and no Default or Event of Default has occurred and is continuing (a “*Suspension Event*”), then, the Issuer shall notify the Trustee of these events and beginning on that day and continuing until such time, if any, at which the Notes cease to have Investment Grade Status (the “*Reversion Date*”), the provisions of the Indenture summarized under the following captions will not apply to the Notes: “—*Limitation on Indebtedness*”, “—*Limitation on Restricted Payments*”, “—*Limitation on Restrictions on Distributions from Restricted Subsidiaries*”, “—*Limitation on Sales of Assets and Subsidiary Stock*”, “—*Limitation on Affiliate Transactions*”, and “—*Impairment of Security Interests*”, the provisions of clause (3) of the first paragraph of the covenant described under “—*Merger and Consolidation—The Issuer*” and, in each case, any related default provision of the Indenture ceased to be effective and is not applicable to the Issuer and the Restricted Subsidiaries. Such covenants and any related default provisions will again apply according to their terms from the first day on which a Suspension Event ceases to be in effect. Such covenants will not, however, be of any effect with regard to actions of the Issuer properly taken during the continuance of the Suspension Event, and the “—*Limitation on Restricted Payments*” covenant will be interpreted as if it has been in effect since the date of the Indenture except that no Default will be deemed to have occurred solely by reason of a Restricted Payment made while that covenant was suspended. On the Reversion Date, all Indebtedness Incurred during the continuance of the Suspension Event will be classified, at the Issuer’s option, as having been Incurred pursuant to the first paragraph of the covenant described under “—*Limitation on Indebtedness*” or one of the clauses set forth in the second paragraph of such covenant (to the extent such Indebtedness would be permitted to be Incurred thereunder as of the Reversion Date and after giving effect to Indebtedness Incurred prior to the Suspension Event and outstanding on the Reversion Date). To the extent such Indebtedness would not be so permitted to be Incurred under the first two paragraphs of the covenant described under “—*Limitation on Indebtedness*”, such Indebtedness will be deemed to have been outstanding on the Issue Date, so that it is classified as permitted under clause (4)(b) of the second paragraph of the covenant described under “—*Limitation on Indebtedness*”.

### ***Impairment of Security Interests***

The Issuer shall not and shall not permit any Restricted Subsidiary to, take or omit to take any action that would have the result of materially impairing the security interest with respect to the Notes Collateral (it being understood that (a) any action reasonably required to implement or facilitate the Post-Closing Transactions and (b) subject to the next succeeding paragraph, the Incurrence of Permitted Collateral Liens, shall under no circumstances be deemed to materially impair the security interest with respect to the Notes Collateral) for the benefit of the Trustee and the Holders, and the Issuer shall not and shall not permit any Restricted Subsidiary to, grant to any Person other than the Security Agent (or its delegate), for the benefit of the Trustee and the Holders and the other beneficiaries described in the Security Documents, the Intercreditor Agreement or any Additional Intercreditor Agreement, any Lien over any of the Notes Collateral; provided, that, subject to the next succeeding paragraph, (x) the Issuer may Incur Permitted Collateral Liens, (y) the Notes Collateral may be discharged, amended, extended, renewed, restated, supplemented, released, modified or replaced in accordance with the Indenture, the Intercreditor Agreement, any Additional Intercreditor Agreement or the applicable Security Documents and (z) the Issuer and the Restricted Subsidiaries may consummate any other transaction permitted under “—*Merger and Consolidation*”.

Notwithstanding the above, nothing in this covenant shall restrict the discharge and release of any Security Interest in accordance with the Indenture, the Intercreditor Agreement or any Additional Intercreditor Agreement. Subject to the foregoing, the Security Documents may be amended, extended, renewed, restated, supplemented or otherwise modified or released (followed by an immediate retaking of a Lien of at least equivalent ranking over the same assets) to (i) cure any ambiguity, omission, defect or inconsistency therein; (ii) provide for Permitted Collateral Liens; (iii) make any change reasonably necessary or desirable in the good faith determination of the Issuer in order to implement transactions permitted under “—*Merger and Consolidation*”; (iv) add to the Notes Collateral; (v) provide for the release of any security interest on any properties and assets constituting Notes Collateral from the Lien of the Security Documents, provided that such release is followed by the substantially concurrent re-taking of a Lien of at least equivalent priority over the same properties and assets securing the Notes or any Note Guarantee; or (vi) make any other change thereto that does not adversely affect the Holders in any material respect; provided, however, that, contemporaneously with any such action in clauses (ii), (iii), (iv), (v) and (vi), the Issuer delivers to the Trustee, either (1) a solvency opinion, in form and substance reasonably satisfactory to the Trustee, from an independent financial advisor or appraiser or investment bank of international standing which confirms the solvency of the Issuer and its Subsidiaries, taken as a whole, after giving effect to any transactions related to such amendment, extension, renewal, restatement, supplement, modification or replacement, (2) a certificate from the chief financial officer or the Board of Directors of the relevant Person which confirms the solvency of the Person granting Security Interest after giving effect to any transactions related to such amendment, extension, renewal, restatement, supplement, modification or replacement, or (3) an opinion of counsel (subject to any qualifications customary for this type of opinion of counsel), in form and substance reasonably satisfactory to the Trustee, confirming that, after giving effect to any transactions related to such amendment, extension, renewal, restatement, supplement, modification or replacement, the Lien or Liens created under the Security Documents so amended, extended, renewed, restated, supplemented, modified or replaced are valid Liens not otherwise subject to any limitation, imperfection or new hardening period, in equity or at law, that such Lien or Liens were not otherwise subject to immediately prior to such amendment, extension, renewal, restatement, supplement, modification or replacement.

In the event that the Issuer and the Restricted Subsidiaries comply with the requirements of this covenant, the Trustee and the Security Agent shall (subject to customary protections and indemnifications) consent to such amendments without the need for instructions from the Holders.

### ***Payments for Consents***

The Issuer will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, pay or cause to be paid any consideration to or for the benefit of any Holder for or as an inducement to any consent, waiver or amendment of any of the terms of the provisions of the Indenture or the Notes unless such consideration is offered to be paid and is paid to all holders of Notes that consent, waive or agree to amend in the time frame set forth in the solicitation documents relating to such consent, waiver or agreement. Notwithstanding the foregoing, the Issuer and the Restricted Subsidiaries shall be permitted, in any offer or payment of consideration for, or as an inducement to, any consent, waiver or amendment of any of the terms or provisions of the Indenture, to exclude holders of Notes in any jurisdiction where (i) the solicitation of such

consent, waiver or amendment, including in connection with an exchange offer or an offer to purchase for cash, or (ii) the payment of the consideration therefor would require the Issuer or any Restricted Subsidiary to file a registration statement, prospectus or similar document under any applicable securities laws (including, but not limited to, the United States federal securities laws and the laws of the European Union or its member states or the State of Israel), which the Issuer in its sole discretion determine (acting in good faith) (A) would be materially burdensome (it being understood that it would not be materially burdensome to file the consent document(s) used in other jurisdictions, any substantially similar documents or any summary thereof with the securities or financial services authorities in such jurisdiction) or (B) such solicitation would otherwise not be permitted under applicable law in such jurisdiction.

### ***Additional Intercreditor Agreements***

The Indenture provides that, at the request of the Issuer, in connection with the Incurrence by the Issuer or a Guarantor of any Indebtedness that is permitted to share the Notes Collateral pursuant to the definition of Permitted Collateral Liens, the Issuer and such Guarantor, the Trustee and the Security Agent shall enter into with the holders of such Indebtedness (or their duly authorized Representatives) an intercreditor agreement (an “*Additional Intercreditor Agreement*”) or a restatement, amendment or other modification of the existing Intercreditor Agreement on substantially the same terms as the Intercreditor Agreement (or terms not materially less favorable to the Holders), including containing substantially the same terms with respect to release of Note Guarantees and priority and release of the Notes Collateral (or terms not materially less favorable to the Holders); *provided* that such Additional Intercreditor Agreement will not impose any personal obligations on the Trustee or Security Agent or, in the opinion of the Trustee or Security Agent, as applicable, adversely affect the rights, duties, liabilities or immunities of the Trustee or Security Agent under the Indenture or the Intercreditor Agreement. For the avoidance of doubt, subject to the foregoing and the succeeding paragraph, any such Additional Intercreditor Agreement may provide for *pari passu* or subordinated security interests in respect of any such Indebtedness (to the extent such Indebtedness is permitted to share the Notes Collateral pursuant to the definition of Permitted Collateral Lien).

The Indenture also provides that, at the direction of the Issuer and without the consent of Holders, the Trustee and the Security Agent shall from time to time enter into one or more amendments to any Intercreditor Agreement to: (1) cure any ambiguity, omission, defect or inconsistency of any such agreement, (2) increase the amount or types of Indebtedness covered by any such agreement that may be Incurred by the Issuer or a Guarantor that is subject to any such agreement (including with respect to any Intercreditor Agreement or Additional Intercreditor Agreement, the addition of provisions relating to new Indebtedness ranking junior in right of payment to the Notes), (3) add Restricted Subsidiaries to the Intercreditor Agreement or an Additional Intercreditor Agreement, (4) further secure the Notes (including Additional Notes), (5) make provision for equal and ratable pledges of the Notes Collateral to secure Additional Notes, (6) implement any Permitted Collateral Liens, (7) amend the Intercreditor Agreement or any Additional Intercreditor Agreement in accordance with the terms thereof; (8) make any change reasonably necessary or desirable, in the good faith determination of the Issuer in order to implement any transaction that is subject to the covenants described under the caption “—*Merger and Consolidation*”; or (9) implement any transaction in connection with the renewal extension, refinancing, replacement or increase of Indebtedness that is not prohibited by the Indenture or make any other change to any such agreement that does not adversely affect the Holders in any material respect; *provided* that no such changes shall be permitted to the extent they affect the ranking of any Note or Note Guarantee, enforcement of Liens over the Notes Collateral, the application of proceeds from the enforcement of Notes Collateral or the release of any Note Guarantees or Notes Collateral in a manner than would adversely affect the rights of the Holders in any material respect except as otherwise permitted by the Indenture, the Intercreditor Agreement or any Additional Intercreditor Agreement immediately prior to such change. The Issuer shall not otherwise direct the Trustee or the Security Agent to enter into any amendment to any Intercreditor Agreement without the consent of the Holders of the majority in aggregate principal amount of the Notes then outstanding, except as otherwise permitted below under “Amendments and Waivers”, and the Issuer may only direct the Trustee and the Security Agent to enter into any amendment to the extent such amendment does not impose any personal obligations on the Trustee or Security Agent or, in the opinion of the Trustee or Security Agent, adversely affect their respective rights, duties, liabilities or immunities under the Indenture or the Intercreditor Agreement or any Additional Intercreditor Agreement.

The Indenture also provides that, in relation to any Intercreditor Agreement or Additional Intercreditor Agreement, at the request of the Issuer, the Trustee (and Security Agent, if applicable) shall consent on behalf of the Holders to the payment, repayment, purchase, repurchase, defeasance, acquisition, retirement or redemption

of any obligations subordinated to the Notes thereby; *provided, however*, that such transaction would comply with the covenant described under “—*Limitation on Restricted Payments*”.

The Indenture also provides that each Holder, by accepting a Note, shall be deemed to have agreed to and accepted the terms and conditions of the Intercreditor Agreement or any Additional Intercreditor Agreement (whether then entered into or entered into in the future pursuant to the provisions described herein), and to have directed the Trustee and the Security Agent to enter into any such Additional Intercreditor Agreement.

### ***Limitations on Holding Company Activities***

Notwithstanding anything contained in the Indenture, neither the Issuer nor Altice France will, engage in any business activity or undertake any other activity, except:

- (1) Investments in its direct Subsidiaries;
- (2) the provision of administrative, management, legal and accounting services to its Subsidiaries of a type customarily provided by a holding company to its Subsidiaries and the ownership of assets necessary to provide such services;
- (3) relating to the offering, sale, issuance, Incurrence, servicing, purchase, redemption, amendment, exchange, refinancing or retirement of Notes, the Altice Credit Facility, any Additional Notes or other Indebtedness (including any Refinancing Indebtedness in respect of any of the foregoing) permitted to be Incurred by the terms of the Indenture (including the lending, directly or indirectly, of the proceeds of such sale of the Notes, any Additional Notes or other Indebtedness permitted by the terms of the Indenture pursuant to intercompany proceeds loans) or the performance of the terms and conditions of such Indebtedness, to the extent such activities are otherwise permissible under this Indenture;
- (4) the granting of Liens permitted pursuant to the covenant described under “—*Limitation on Liens*”;
- (5) undertaken with the purpose of, directly or indirectly, fulfilling its obligations or exercising its rights under the Indenture, the Intercreditor Agreement, the Security Documents, the Escrow Agreement or documents related to any Indebtedness specified in clause (3) above;
- (6) the ownership of cash and Cash Equivalents or any activities related to cash management activities on behalf of its Restricted Subsidiaries;
- (7) making Investments in the Notes and any Indebtedness specified in clause (3) above or any Investments permitted to be made by it under the definition of Permitted Investments;
- (8) making Restricted Payments (other than Restricted Investments) and Permitted Payments not prohibited under the covenant described under “—*Limitation on Restricted Payments*”;
- (9) directly related or reasonably incidental to the establishment and/or maintenance of its or its Subsidiaries corporate existence and, in the case of the Issuer, to the maintenance of its status as a Public Company;
- (10) directly related or reasonably incidental to the Transactions or the Post-Closing Transactions; or
- (11) (i) any transaction or activity not to exceed €10 million in the aggregate and (ii) other activities not specifically enumerated above that are immaterial in nature.

### ***Completion of Transactions***

The Issuer shall cause the Transactions to be consummated in a manner that in good faith determination of an Officer of the Issuer does not deviate from the description of the Transactions set out in “*The Transactions*” of the Offering Memorandum in a manner that is material and adverse to the interests of the Holders of Notes.

## ***Post-Closing Guarantees and Security***

On the Completion Date, the Issuer will execute and deliver to the Security Agent the Security Documents and grant Liens over the Notes Collateral described above under “*Notes Security*”.

### **Events of Default**

Each of the following is an “Event of Default” under the Indenture:

- (1) default in any payment of interest or Additional Amounts, if any, on any Note issued under the Indenture when due and payable, continued for 30 days;
- (2) default in the payment of the principal amount of or premium, if any, on any Note issued under the Indenture when due at its Stated Maturity, upon optional redemption, upon required repurchase, upon declaration or otherwise;
- (3) failure by the Issuer or any Restricted Subsidiary to comply for 30 days after notice by the Trustee or the Holders of at least 25% in principal amount of the outstanding Notes with any of its obligations under the covenants described under “Change of Control” above or under the covenants described under “—*Certain Covenants*” above (in each case, other than (i) a failure to purchase Notes, which will constitute an Event of Default under clause (2) above, (ii) a failure to comply with the covenant described under “—*Certain Covenants—Post-Closing Guarantees and Security*”, which shall be governed by clause (10) below, (iii) a failure to comply with the Escrow Agreement and (iv) failure to comply with the covenant described under “—*Certain Covenants—Minimum Holdings*”, which shall be governed by clause (12) below);
- (4) failure by the Issuer, any Restricted Subsidiary or any other grantor of a Lien over the Notes Collateral to comply for 60 days after notice by the Trustee or the Holders of at least 25% in principal amount of the outstanding Notes with its other agreements contained in the Indenture, the Intercreditor Agreement, any Additional Intercreditor Agreement or the Security Documents;
- (5) default under any mortgage, indenture or instrument under which there may be issued or by which there may be secured or evidenced any Indebtedness for money borrowed by the Issuer or any Restricted Subsidiary (or the payment of which is Guaranteed by the Issuer or any Restricted Subsidiary) other than Indebtedness owed to the Issuer or a Restricted Subsidiary whether such Indebtedness or Guarantee now exists, or is created after the Issue Date, which default:
  - (a) is caused by the failure to pay principal of, or interest or premium, if any, on, such Indebtedness at the Stated Maturity thereof prior to the expiration of the grace period provided in such Indebtedness on the date of such default (“*payment default*”); or
  - (b) results in the acceleration of such Indebtedness prior to its maturity (the “*cross-acceleration provision*”),and, in each case, the principal amount of any such Indebtedness, together with the principal amount of any other such Indebtedness under which there has been a payment default or the maturity of which has been so accelerated, aggregates €50 million or more;
- (6) certain events of bankruptcy, insolvency or court protection of the Issuer or a Significant Subsidiary or group of Restricted Subsidiaries that, taken together, would constitute a Significant Subsidiary (the “*bankruptcy provisions*”);
- (7) failure by the Issuer or a Significant Subsidiary or group of Restricted Subsidiaries that, taken together, would constitute a Significant Subsidiary to pay final judgments aggregating in excess of €50 million, exclusive of any amounts that a solvent insurance company has acknowledged liability for, which judgments are not paid, discharged or stayed for a period of 60 days after the judgment becomes final (the “*judgment default provision*”);

- (8) any security interest under the Security Documents shall, at any time, cease to be in full force and effect (other than in accordance with the terms of the relevant Security Document, the Intercreditor Agreement, any Additional Intercreditor Agreement and the Indenture) with respect to Notes Collateral having a fair market value in excess of €10 million for any reason other than the satisfaction in full of all obligations under the Indenture or the release of any such security interest in accordance with the terms of the Indenture, the Intercreditor Agreement, any Additional Intercreditor Agreement or the Security Documents or any such security interest created thereunder shall be declared invalid or unenforceable and the Issuer shall assert in writing that any such security interest is invalid or unenforceable and any such Default continues for 10 days (the “*security default provisions*”);
- (9) [Reserved];
- (10) failure by the Issuer to comply for 30 days with any of the provisions of the covenant described under “—*Certain Covenants—Post-Closing Guarantees and Security*”;
- (11) failure by the Issuer to consummate a Special Mandatory Redemption as described under the caption “—*Escrow of Proceeds; Special Mandatory Redemption*”; and
- (12) failure by the Issuer to comply with any of the provisions of the covenant described under “—*Certain Covenants—Minimum Holdings*”;

However, a default under clauses (3), (4), (5), (7), (10) or (12) of this paragraph will not constitute an Event of Default until the Trustee or the Holders of 25% in principal amount of the outstanding Notes under the Indenture notify the Issuer of the default and, with respect to clauses (3), (4), (5), (7) and (10) the Issuer does not cure such default within the time specified in clauses (3), (4), (5), (7) or (10), as applicable, of this paragraph after receipt of such notice.

If an Event of Default described in clause (6) or (11) above occurs and is continuing, the principal of, premium, if any, and accrued and unpaid interest on all the Notes will become and be immediately due and payable without any declaration or other act on the part of the Trustee or any Holders. If any other Event of Default occurs and is continuing, the Trustee or the Holders of at least 25% in aggregate principal amount of the then outstanding Notes may and, if directed by holders of at least 25% in aggregate principal amount of the then outstanding Notes, the Trustee shall, declare all the Notes to be due and payable immediately.

Holders of the Notes may not enforce the Indenture or the Notes except as provided in the Indenture and may not enforce the Security Documents except as provided in such Security Documents and the Intercreditor Agreement or any Additional Intercreditor Agreement.

The Holders of a majority in principal amount of the outstanding Notes under the Indenture may waive all past or existing Defaults or Events of Default (except with respect to nonpayment of principal, premium, interest or Additional Amounts, if any) and rescind any such acceleration with respect to such Notes and its consequences if rescission would not conflict with any judgment or decree of a court of competent jurisdiction.

Subject to the provisions of the Indenture relating to the duties of the Trustee, if an Event of Default occurs and is continuing, the Trustee will be under no obligation to exercise any of the rights or powers under the Indenture at the request or direction of any of the Holders unless such Holders have offered to the Trustee, and the Trustee has received, indemnity and/or security (including by way of pre-funding) satisfactory to the Trustee against any loss, liability or expense. Except to enforce the right to receive payment of principal or interest when due, no Holder may pursue any remedy with respect to the Indenture or the Notes unless:

- (1) such Holder has previously given the Trustee notice that an Event of Default is continuing;
- (2) Holders of at least 25% in aggregate principal amount of the outstanding Notes have requested the Trustee to pursue the remedy;
- (3) such Holders have offered the Trustee, and the Trustee has received, security and/or indemnity (including by way of pre-funding) reasonably satisfactory to it against any loss, liability or expense;

- (4) the Trustee has not complied with such request within 60 days after the receipt of the request and the offer of security and/or indemnity; and
- (5) the Holders of a majority in aggregate principal amount of the outstanding Notes have not given the Trustee a direction that, in the opinion of the Trustee, is inconsistent with such request within such 60-day period.

Subject to certain restrictions, the Holders of a majority in principal amount of the outstanding Notes are given the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee on behalf of the Holders or of exercising any trust or power conferred on the Trustee on behalf of the Holders.

The Indenture provides that, in the event an Event of Default has occurred and is continuing of which a responsible officer of the Trustee is aware, the Trustee will be required in the exercise of its powers to use the degree of care that a prudent person would use in the conduct of its own affairs. The Trustee, however, may refuse to follow any direction that conflicts with law or the Indenture or that the Trustee determines is unduly prejudicial to the rights of any other Holder or that would involve the Trustee in personal liability. Prior to taking any action under the Indenture, the Trustee will be entitled to indemnification and/or security (including by way of pre-funding) satisfactory to it in its sole discretion against all losses and expenses caused by taking or not taking such action. The Indenture provides that if a Default occurs and is continuing and a responsible officer of the Trustee is informed of such occurrence by the Issuer, the Trustee must give notice of the Default to the Holders within 60 days after being notified by the Issuer. Except in the case of a Default in the payment of principal of, or premium, if any, or interest on any Note, the Trustee may withhold notice if and so long as a committee of trust officers of the Trustee in good faith determines that withholding notice is in the interests of the Holders. The Issuer is required to deliver to the Trustee, within 120 days after the end of each fiscal year, an Officer's Certificate indicating whether the signers thereof know of any Default that occurred during the previous year. The Issuer is required to deliver to the Trustee, within 30 days after the occurrence thereof, written notice of any events of which it is aware which would constitute certain Defaults, their status and what action the Issuer is taking or proposes to take in respect thereof.

The Notes provide for the Trustee to take action on behalf of the Holders in certain circumstances, but only if the Trustee is indemnified and/or secured (including by way of pre-funding) to its satisfaction. It may not be possible for the Trustee to take certain actions in relation to the Notes and, accordingly, in such circumstances the Trustee will be unable to take action, notwithstanding the provision of an indemnity to it, and it will be for Holders to take action directly.

### **Amendments and Waivers**

Subject to certain exceptions, the Notes Documents may be amended, supplemented or otherwise modified with the consent of the Holders of a majority in principal amount of the Notes then outstanding (including consents obtained in connection with a purchase of, or tender offer or exchange offer for, Notes) and, subject to certain exceptions, any default or compliance with any provisions thereof may be waived with the consent of the Holders of a majority in principal amount of the Notes then outstanding (including consents obtained in connection with a purchase of, or tender offer or exchange offer for, Notes); provided, however that if any amendment, waiver or other modification will only affect the Dollar Notes or Euro Notes only the consent of the holders of at least a majority in principal amount of the then outstanding Dollar Notes or Euro Notes (and not the consent of at least a majority of all Notes then outstanding), as the case may be, shall be required. However, without the consent of Holders holding not less than 90% of the then outstanding principal amount of Notes affected (including consents obtained in connection with a purchase of, or tender offer or exchange offer for, Notes); *provided, however* that if any amendment, waiver or other modification will only affect the Dollar Notes or Euro Notes only the consent of the holders of at least 90% of the aggregate principal amount of the then outstanding Dollar Notes or Euro Notes, as the case may be (and not the consent of at least 90% of the aggregate principal amount of all Notes then outstanding), an amendment or waiver may not, with respect to any Notes held by a non-consenting Holder:

- (1) reduce the principal amount of Notes whose Holders must consent to an amendment, waiver or modification;

- (2) reduce the stated rate of or extend the stated time for payment of interest on any Note (other than, for the avoidance of doubt, any payment pursuant to a Change of Control Offer or pursuant to the provisions of the covenant described under the caption “—*Limitation on Sales of Assets and Subsidiary Stock*”);
- (3) reduce the principal of, or extend the Stated Maturity of, any Note;
- (4) reduce the premium payable upon the redemption of any Note or change the time at which any Note may be redeemed, in each case as described above under “—*Optional Redemption*” (other than, for the avoidance of doubt, any payment pursuant to a Change of Control Offer or pursuant to the provisions of the covenant described under the caption “—*Limitation on Sales of Assets and Subsidiary Stock*”);
- (5) make any Note payable in money other than that stated in the Note (except to the extent the currency stated in the Notes has been succeeded or replaced pursuant to applicable law);
- (6) impair the right of any Holder to receive payment of principal of and interest or Additional Amounts, if any, on such Holder’s Notes on or after the due dates therefor or to institute suit for the enforcement of any such payment on or with respect to such Holder’s Notes (it being understood that this clause (6) will not apply to provisions under the caption “*Change of Control*” and “*Limitation on Sales of Assets and Subsidiary Stock*” except to the extent payments thereunder are at such time due and payable);
- (7) make any change in the provision of the Indenture described under “*Withholding Taxes*” that adversely affects the right of any Holder of such Notes in any material respect or amends the terms of such Notes in a way that would result in a loss of an exemption from any of the Taxes described thereunder or an exemption from any obligation to withhold or deduct Taxes so described thereunder unless the payor agrees to pay Additional Amounts, if any, in respect thereof;
- (8) waive a Default or Event of Default with respect to the nonpayment of principal, premium or interest or Additional Amounts, if any, on the Notes (except pursuant to a rescission of acceleration of the Notes by the Holders of at least a majority in aggregate principal amount of such Notes and a waiver of the payment default that resulted from such acceleration); or
- (9) make any change in the amendment or waiver provisions which require the Holders’ consent described in this sentence.

In addition, (A) without the consent of at least 75% in aggregate principal amount of Notes then outstanding (provided, however that if any amendment, waiver or other modification will only affect the Dollar Notes or Euro Notes only the consent of the holders of at least 75% of the aggregate principal amount of the then outstanding Dollar Notes or Euro Notes, as the case may be (and not the consent of at least 75% of the aggregate principal amount of all Notes then outstanding), no amendment or supplement may: (1) release any Guarantor from any of its obligations under its Note Guarantee or the Indenture, except in accordance with the terms of the Indenture and the Intercreditor Agreement; or (2) release any of the security interests granted for the benefit of the Holders in the Notes Collateral (to the extent any Notes Collateral so released in any transactions or series of transactions has a fair market value in excess of €25 million) other than in accordance with the terms of the Security Documents, the Intercreditor Agreement, any applicable Additional Intercreditor Agreement and the Indenture.

Notwithstanding the foregoing, without the consent of any Holder, the Issuer, the Trustee, the Security Agent and the other parties thereto, as applicable, may amend or supplement any Notes Documents to:

- (1) cure any ambiguity, omission, defect, error or inconsistency;
- (2) provide for the assumption by a successor Person of the obligations of the Issuer or any Guarantor under any Notes Document;
- (3) add to the covenants or provide for a Guarantee for the benefit of the Holders or surrender any right or power conferred upon the Issuer or any Restricted Subsidiary;

- (4) make any change that would provide additional rights or benefits to the Trustee or the Holders or does not adversely affect the rights or benefits to the Trustee or any of the Holders in any material respect under the Notes Documents;
- (5) make such provisions as necessary (as determined in good faith by the Issuer) for the issuance of Additional Notes Incurred in accordance with the terms of the Indenture;
- (6) to provide for a Restricted Subsidiary to provide a Note Guarantee in accordance with the Indenture, to add Guarantees with respect to the Notes, to add security to or for the benefit of the Notes, or to effectuate or confirm and evidence the release, termination, discharge or retaking of any Note Guarantee or Lien (including the Notes Collateral and the Security Documents) or any amendment in respect thereof with respect to or securing the Notes when such release, termination, discharge or retaking or amendment is provided for under the Indenture, the Security Documents, the Intercreditor Agreement or any Additional Intercreditor Agreement;
- (7) to conform the text of the Indenture, the Note Guarantees, the Security Documents or the Notes to any provision of this “Description of Notes” to the extent that such provision in this “Description of Notes” was intended to be a verbatim recitation of a provision of the Indenture, a Note Guarantee, the Security Documents or the Notes;
- (8) to evidence and provide for the acceptance and appointment under the Indenture or the Intercreditor Agreement or any Additional Intercreditor Agreement of a successor Trustee or Security Agent pursuant to the requirements thereof or to provide for the accession by the Trustee or Security Agent to any Notes Document; or
- (9) as provided in “—*Certain Covenants—Additional Intercreditor Agreements*”.

In formulating its decision on such matters, the Trustee shall be entitled to require and rely absolutely on such evidence as it deems necessary, including Officer’s Certificates and Opinions of Counsel.

The consent of the Holders is not necessary under the Indenture to approve the particular form of any proposed amendment. It is sufficient if such consent approves the substance of the proposed amendment. A consent to any amendment or waiver under the Indenture by any Holder of Notes given in connection with a tender of such Holder’s Notes will not be rendered invalid by such tender.

For the purpose of calculating the aggregate principal amount of Notes that have consented to or voted in favor of any amendment, supplement or waiver, the Euro Equivalent of the principal amount of any Dollar Notes shall be as of the Issue Date.

For the avoidance of doubt, the provisions of articles 86 to 94-8 of the Luxembourg act dated 10 August 1915 on commercial companies, as amended, shall not apply in respect of the Notes.

For so long as the Notes are listed on the Euro MTF Market of the Luxembourg Stock Exchange and the rules of such exchange so require, the Issuer will publish notice of any amendment, supplement and waiver in Luxembourg in a daily newspaper with general circulation in Luxembourg (which is expected to be the *Luxemburger Wort*). Such notice of any amendment, supplement and waiver may also be published on the website of the Luxembourg Stock Exchange ([www.bourse.lu](http://www.bourse.lu)), to the extent and in the manner permitted by the rules of the Luxembourg Stock Exchange.

### **Acts by Holders**

In determining whether the Holders of the required principal amount of the Notes have concurred in any direction, waiver or consent, the Notes owned by the Issuer or by any Person directly or indirectly controlling, or controlled by, or under direct or indirect common control with the Issuer will be disregarded and deemed not to be outstanding.

## Defeasance

The Issuer at any time may terminate all obligations of the Issuer under the Notes and the Indenture (“*legal defeasance*”) and cure all then existing Defaults and Events of Default, except for certain obligations, including those respecting the right to receive payment, defeasance trust, the rights, powers, trusts, duties, immunities and indemnities of the Trustee and the obligations of the Issuer in connection therewith and obligations concerning issuing temporary Notes, registration of Notes, mutilated, destroyed, lost or stolen Notes and the maintenance of an office or agency for payment and money for security payments held in trust. Subject to the foregoing, if the Issuer exercises its legal defeasance option, the Security Documents and the rights of the Trustee and the Holders under the Intercreditor Agreement or any Additional Intercreditor Agreement in effect at such time will terminate (other than with respect to the defeasance trust).

The Issuer at any time may terminate its obligations under certain covenants described under “—*Certain Covenants*” and “*Change of Control*” and the default provisions relating to such covenants described under “*Events of Default*” above, the operation of the cross-default upon a payment default, the cross-acceleration provisions, the bankruptcy provisions with respect to the Issuer and Significant Subsidiaries, the judgment default provision, the guarantee provision and the security default provision described under “*Events of Default*” above (“*covenant defeasance*”).

The Issuer at its option at any time may exercise its legal defeasance option notwithstanding its prior exercise of its covenant defeasance option. If the Issuer exercises its legal defeasance option, payment of the Notes may not be accelerated because of an Event of Default with respect to such Notes. If the Issuer exercises its covenant defeasance option with respect to the Notes, payment of the Notes may not be accelerated because of an Event of Default specified in clause (3) (other than with respect to the first paragraph and clauses (1) and (2) of the first paragraph of the covenant described under “—*Certain Covenants—Merger and Consolidation*”), (4), (5), (6) (with respect only to the Issuer and Significant Subsidiaries), (7), (8) or (9) under “*Events of Default*” above.

In order to exercise either defeasance option, the Issuer must irrevocably deposit in trust (the “*defeasance trust*”) with the Trustee (or an entity designated or appointed (as agent) by it for this purpose) cash in U.S. dollars or U.S. dollar-denominated U.S. Government Obligations or a combination thereof (in the case of the Dollar Notes) and cash in euro or euro-denominated European Government Obligations or a combination thereof (in the case of the Euro Notes) for the payment of principal, premium, if any, and interest on the Notes to redemption or maturity, as the case may be, and must comply with certain other conditions, including delivery to the Trustee of:

- (1) an Opinion of Counsel (subject to customary exceptions and exclusions) from United States counsel to the effect that Holders of the Notes will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such deposit and defeasance and will be subject to U.S. federal income tax on the same amount and in the same manner and at the same times as would have been the case if such deposit and defeasance had not occurred (and in the case of legal defeasance only, such Opinion of Counsel from United States counsel must be based on a ruling of the U.S. Internal Revenue Service or other change in applicable U.S. federal income tax law);
- (2) an Officer’s Certificate stating that the deposit was not made by the Issuer with the intent of defeating, hindering, delaying, defrauding or preferring any creditors of the Issuer;
- (3) an Officer’s Certificate stating that all conditions precedent provided for or relating to legal defeasance or covenant defeasance, as the case may be, have been complied with; and
- (4) an Opinion of Counsel to the effect that the trust resulting from the deposit does not constitute, or is qualified as, a regulated investment company under the U.S. Investment Company Act of 1940, as amended.

## Satisfaction and Discharge

The Indenture, and the rights of the Trustee and the Holders under the Intercreditor Agreement, any Additional Intercreditor Agreement and the Security Documents will be discharged and cease to be of further effect (except as to surviving rights of conversion or transfer or exchange of the Notes, as expressly provided for

in the Indenture) as to all outstanding Notes when (1) either (a) all the Notes previously authenticated and delivered (other than certain lost, stolen or destroyed Notes, and certain Notes for which provision for payment was previously made and thereafter the funds have been released to the Issuer) have been delivered to the relevant Paying Agent for cancellation; or (b) all Notes not previously delivered to the relevant Paying Agent for cancellation (i) have become due and payable, (ii) will become due and payable at their Stated Maturity within one year or (iii) are to be called for redemption within one year under arrangements reasonably satisfactory to the Trustee for the giving of notice of redemption by the Trustee in the name, and at the expense, of the Issuer; (2) the Issuer has deposited or caused to be deposited with the Trustee (or an entity designated or appointed (as agent) by it for this purpose), cash in U.S. dollars or U.S. dollar-denominated U.S. Government Obligations or a combination thereof (in the case of the Dollar Notes) and cash in euro or euro-denominated European Government Obligations or a combination thereof (in the case of the Euro Notes), in an amount sufficient to pay and discharge the entire Indebtedness on the Notes not previously delivered to the Trustee for cancellation, for principal, premium, if any, and interest to the date of deposit (in the case of Notes that have become due and payable), or to the Stated Maturity or redemption date, as the case may be; (3) the Issuer has paid or caused to be paid all other sums payable under the Indenture; and (4) the Issuer has delivered to the Trustee an Officer's Certificate to the effect that all conditions precedent under the "Satisfaction and Discharge" section of the Indenture relating to the satisfaction and discharge of the Indenture have been complied with.

### **No Personal Liability of Directors, Officers, Employees and Shareholders**

No director, officer, employee, incorporator or shareholder of the Issuer or any of their respective Subsidiaries or Affiliates, as such, shall have any liability for any obligations of the Issuer under the Notes Documents or for any claim based on, in respect of, or by reason of, such obligations or their creation. Each Holder by accepting a Note waives and releases all such liability. The waiver and release are part of the consideration for issuance of the Notes. Such waiver may not be effective to waive liabilities under the U.S. federal securities laws, and it is the view of the SEC that such a waiver is against public policy.

### **Listing and general information**

An application has been made to list the Notes on the Official List of the Luxembourg Stock Exchange and traded on its Euro MTF market.

So long as the Notes are listed on the Official List of the Luxembourg Stock Exchange and admitted to trading on its Euro MTF Market and the rules and regulations of the Luxembourg Stock Exchange shall so require, copies, current and future, of all of the Issuer's annual audited consolidated financial statements, the Issuer's unaudited consolidated interim quarterly financial statements and the Offering Memorandum may be obtained, free of charge, during normal business hours at the registered office of the Issuer.

### **Available Information**

Anyone who receives the Offering Memorandum, any Holder of the Notes or holder of a beneficial interest in the Notes, following the Issue Date, may obtain a copy of the Indenture, the form of Notes, the Security Documents, the Escrow Agreement and the Intercreditor Agreement without charge by writing to the Issuer, 3 boulevard royal, L-2449 Luxembourg, Attention: Chief Financial Officer.

### **Concerning the Trustee and Certain Agents**

Deutsche Bank AG, London Branch has been appointed as Trustee under the Indenture. The Indenture provides that, except during the continuance of an Event of Default, the Trustee will perform only such duties as are set forth specifically in the Indenture. During the existence of an Event of Default of which the Trustee has been notified in accordance with the provisions of the Indenture, the Trustee will exercise such of the rights and powers vested in it under the Indenture and use the same degree of care that a prudent Person would use in conducting its own affairs. The permissive rights of the Trustee to take or refrain from taking any action enumerated in the Indenture is not construed as an obligation or duty.

The Issuer shall deliver written notice to the Trustee with thirty (30) days of becoming aware of the occurrence of a Default or Event of Default. The Indenture imposes certain limitations on the rights of the Trustee, should it become a creditor of the Issuer, to obtain payment of claims in certain cases, or to realize on certain property received in respect of any such claim as security or otherwise. The Trustee and the Paying

Agents and Registrars will be permitted to engage in other transactions with the Issuer and its Affiliates and Subsidiaries.

Any removal or resignation of the Trustee shall not become effective until the acceptance of appointment by the successor Trustee.

The Indenture contains provisions for the indemnification and/or security of the Trustee by the Issuer and the Guarantors for any loss, liability, taxes or expenses incurred without gross negligence, willful misconduct or bad faith on its part, arising out of or in connection with the acceptance or administration of the Indenture.

## **Notices**

All notices to Holders of the Notes will be validly given if mailed to them at their respective addresses in the register of the Holders of such Notes, if any, maintained by the Registrar. In addition, for so long as any of the Notes are listed on the Euro MTF Market of the Luxembourg Stock Exchange and the rules of the Luxembourg Stock Exchange so require, notices with respect to the Notes will be published in a newspaper having a general circulation in Luxembourg (which is expected to be the *Luxemburger Wort*) or, to the extent and in the manner permitted by such rules, posted on the official website of the Luxembourg Stock Exchange ([www.bourse.lu](http://www.bourse.lu)).

Each such notice shall be deemed to have been given on the date of such publication or, if published more than once on different dates, on the first date on which publication is made; *provided* that, if notices are mailed, such notice shall be deemed to have been given on the later of such publication and the seventh day after being so mailed. Any notice or communication mailed to a Holder shall be mailed to such Person by first-class mail or other equivalent means and shall be sufficiently given to such Holder if so mailed within the time prescribed. Failure to mail a notice or communication to a Holder or any defect in it shall not affect its sufficiency with respect to other Holders. If a notice or communication is mailed in the manner provided above, it is duly given, whether or not the addressee receives it.

For Notes which are represented by global certificates held on behalf of DTC, Euroclear or Clearstream, notices may be given by delivery of the relevant notices to DTC, Euroclear or Clearstream for communication to entitled account holders in substitution for the aforesaid mailing.

## **Prescription**

Claims against the Issuer or any Guarantor for the payment of principal, or premium, if any, on the Notes will be prescribed ten years after the applicable due date for payment thereof. Claims against the Issuer or any Guarantor for the payment of interest on the Notes will be prescribed five years after the applicable due date for payment of interest.

## **Currency Indemnity**

The sole currency of account and payment for all sums payable by the Issuer and the Guarantors under or in connection with the Dollar Notes and Note Guarantees thereof is U.S. dollars and the Euro Notes and Note Guarantees thereof is euro, including damages. Any amount received or recovered in a currency other than U.S. dollars or euro, whether as a result of, or the enforcement of, a judgment or order of a court of any jurisdiction, in the winding-up or dissolution of the Issuer, any Guarantor or otherwise by any Holder or by the Trustee, in respect of any sum expressed to be due to it from the Issuer or a Guarantor will only constitute a discharge to the Issuer or such Guarantor, as applicable, to the extent of the U.S. dollar or euro amount, as the case may be, which the recipient is able to purchase with the amount so received or recovered in that other currency on the date of that receipt or recovery (or, if it is not practicable to make that purchase on that date, on the first date on which it is practicable to do so). If that U.S. dollar or euro amount is less than the U.S. dollar or euro amount expressed to be due to the recipient or the Trustee under any Note, the Issuer and the Guarantors will indemnify them against any loss sustained by such recipient or the Trustee as a result. In any event, the Issuer and the Guarantors will indemnify the recipient or the Trustee on a joint or several basis against the cost of making any such purchase. For the purposes of this currency indemnity provision, it will be *prima facie* evidence of the matter stated therein for the Holder of a Note or the Trustee to certify in a manner reasonably satisfactory to the Issuer (indicating the sources of information used) the loss it Incurred in making any such purchase. These

indemnities constitute a separate and independent obligation from the Issuer's and the Guarantors' other obligations, will give rise to a separate and independent cause of action, will apply irrespective of any waiver granted by any Holder of a Note or the Trustee (other than a waiver of the indemnities set out herein) and will continue in full force and effect despite any other judgment, order, claim or proof for a liquidated amount in respect of any sum due under any Note, any Note Guarantee or to the Trustee.

### **Enforceability of Judgments**

Since substantially all the assets of the Issuer and the other Guarantors are located outside the United States, any judgment obtained in the United States against the Issuer or any Guarantor, including judgments with respect to the payment of principal, premium, interest, Additional Amounts, if any, and any redemption price and any purchase price with respect to the Notes or the Note Guarantees, may not be collectable within the United States.

### **Consent to Jurisdiction and Service**

In relation to any legal action or proceedings arising out of or in connection with the Indenture, the Notes and the Note Guarantees, the Issuer and each Guarantor will, in the Indenture, appoint CT Corporation System as its agent for service of process and irrevocably submit to the jurisdiction of the federal and state courts in the Borough of Manhattan in the City of New York, County and State of New York, United States.

### **Governing Law**

The Indenture, the Notes and the Note Guarantees, and the rights and duties of the parties thereunder shall be governed by and construed in accordance with the laws of the State of New York. The application of the provisions set out in Articles 86 to 94 8 of the Luxembourg law dated August 10, 1915 on commercial companies, as amended, is excluded. The Intercreditor Agreement and the rights and duties of the parties thereunder is governed by and construed in accordance with the laws of England and Wales. The Security Documents shall be governed by and construed in accordance with the laws of the Grand Duchy of Luxembourg, as applicable.

### **Certain Definitions**

Set forth below are certain defined terms used in the Indenture. Reference is made to the Indenture for a full disclosure of all defined terms used therein, as well as any other capitalized terms used herein for which no definition is provided.

*"Acquired Indebtedness"* means Indebtedness (1) of a Person or any of its Subsidiaries existing at the time such Person becomes a Restricted Subsidiary, (2) assumed in connection with the acquisition of assets from such Person, in each case whether or not Incurred by such Person in connection with such Person becoming a Restricted Subsidiary or such acquisition or (3) of a Person at the time such Person merges with or into or consolidates or otherwise combines with the Issuer or any Restricted Subsidiary. Acquired Indebtedness shall be deemed to have been Incurred, with respect to clause (1) of the preceding sentence, on the date such Person becomes a Restricted Subsidiary and, with respect to clause (2) of the preceding sentence, on the date of consummation of such acquisition of assets and, with respect to clause (3) of the preceding sentence, on the date of the relevant merger, consolidation or other combination.

*"Additional Assets"* means:

- (1) any property or assets (other than Indebtedness and Capital Stock) not classified as current assets under IFRS used or to be used by the Issuer or a Restricted Subsidiary or otherwise useful in a Similar Business (it being understood that capital expenditures on property or assets already used in a Similar Business or to replace any property or assets that are the subject of an Asset Disposition shall be deemed an investment in Additional Assets);
- (2) the Capital Stock of a Person that is engaged in a Similar Business and becomes a Restricted Subsidiary as a result of the acquisition of such Capital Stock by the Issuer or a Restricted Subsidiary;  
or

(3) Capital Stock constituting a minority interest in any Person that at such time is a Restricted Subsidiary.

“*Affiliate*” of any specified Person means any other Person, directly or indirectly, controlling or controlled by or under direct or indirect common control with such specified Person. For the purposes of this definition, “control” when used with respect to any Person means the power to direct the management and policies of such Person, directly or indirectly, whether through the ownership of voting securities, by contract or otherwise; and the terms “controlling” and “controlled” have meanings correlative to the foregoing.

“*Altice Credit Facility*” refers to the €200 million revolving facility agreement, dated on or about the Issue Date, as amended, restated, supplemented or otherwise modified from time to time, among the Issuer as initial borrower, the lenders from time to time party thereto, Deutsche Bank AG, London Branch as facility agent and Deutsche Bank AG, London Branch as security agent.

“*Altice Equity Financing*” means the offer and sale, in a public or private transaction, by the Issuer of its ordinary shares or equity-linked securities or other equity instruments issued in connection with the Transactions.

“*Altice Financing New RCF*” means the revolving credit facility agreement, dated on or about the Issue Date, as amended, restated, supplemented or otherwise modified from time to time, among the Altice Financing S.A., as borrower, the lenders from time to time party thereto, Citibank International Plc as facility agent and Citibank, N.A., London Branch, as security agent.

“*Altice France*” refers to Altice France S.A. a public limited liability company (*société anonyme*) incorporated under the laws of the Grand Duchy of Luxembourg.

“*Altice International*” refers to Altice International S.à r.l. private limited company (*société à responsabilité limitée*) incorporated under the laws of the Grand Duchy of Luxembourg.

“*Altice International RCFs*” means collectively, (1) the revolving credit facility agreement, dated July 1, 2013, as amended, restated, supplemented or otherwise modified from time to time, among the Altice Financing S.A., as borrower, the lenders from time to time party thereto, Citibank International Plc as facility agent and Citibank, N.A., London Branch, as security agent, (2) the revolving credit facility certain agreement dated November 27, 2012 between, inter alia, the Altice Financing S.A, certain financial institutions party thereto and Citibank International plc as facility agent and security agent, as amended and (3) the Altice Financing New RCF.

“*Altice International Total Assets*” means the consolidated total assets of the Altice International and its Restricted Subsidiaries as shown on the most recent consolidated balance sheet of Altice International prepared on the basis of IFRS prior to the relevant date of determination calculated to give pro forma effect to any acquisitions (including through mergers or consolidations) and dispositions that have occurred subsequent to such period, including any such acquisitions to be made with the proceeds of Indebtedness giving rise to the need to calculate Altice International Total Assets.

“*Altice S.A. Proportionate Net Leverage Ratio*” means, as of any date of determination, the ratio of (A) the sum of (x) the Consolidated Net Leverage of the Issuer and its Restricted Subsidiaries (other than Numericable and its Restricted Subsidiaries) (excluding Hedging Obligations and any Indebtedness Incurred pursuant to clause (1) under the second paragraph of the covenant described under “—*Certain Covenants—Limitation on Indebtedness*”) and (y) in an amount proportionate to Altice France’s equity interest in Numericable, the Consolidated Net Leverage of Numericable, to (B) the sum of (x) Pro forma EBITDA of the Issuer and its Restricted Subsidiaries (other than Numericable and its Restricted Subsidiaries) on a combined basis for the period of the most recent two consecutive fiscal quarters ending prior to the date of such determination for which internal financial statements of Numericable are available multiplied by 2.0 and (y) in an amount proportionate to Altice France’s equity interest in Numericable, the aggregate amount of Pro forma EBITDA of Numericable and its Restricted Subsidiaries for the same period; *provided, however*, that the pro forma calculation of the Altice S.A. Proportionate Net Leverage Ratio shall not give effect to (i) any Indebtedness Incurred on the date of determination pursuant to the provisions described in the second paragraph under the caption “—*Certain Covenants—Limitation on Indebtedness*” or (ii) the discharge on the date of determination of any Indebtedness to the extent that such discharge results from the proceeds Incurred pursuant

to the provisions described in the second paragraph under the caption “—*Certain Covenants—Limitation on Indebtedness*”.

“*Applicable Premium*” means:

- (A) with respect to any Dollar Note the greater of:
  - (i) 1% of the principal amount of such Dollar Note; and
  - (ii) the excess (to the extent positive) of:
    - (1) the present value at such redemption date of (i) the redemption price of such Dollar Note at May 15, 2017 (such redemption price (expressed in percentage of principal amount) being set forth in the table above under the first paragraph of this section (excluding accrued and unpaid interest)), plus (ii) all required interest payments due on such Dollar Note to and including May 15, 2017 (excluding accrued but unpaid interest), computed upon the redemption date using a discount rate equal to the Treasury Rate at such redemption date plus 50 basis points; over
    - (2) the outstanding principal amount of such Dollar Note,
- (B) with respect to any Euro Note the greater of:
  - (i) 1% of the principal amount of such Euro Note; and
  - (ii) the excess (to the extent positive) of:
    - (1) the present value at such redemption date of (i) the redemption price of such Euro Note at May 15, 2017 (such redemption price (expressed in percentage of principal amount) being set forth in the table above under the first paragraph of this section (excluding accrued and unpaid interest)), plus (ii) all required interest payments due on such Euro Note to and including May 15, 2017 (excluding accrued but unpaid interest), computed upon the redemption date using a discount rate equal to the Bund Rate at such redemption date plus 50 basis points; over
    - (2) the outstanding principal amount of such Euro Note,

in each case, as calculated by the Issuer or on behalf of the Issuer by such Person as the Issuer shall designate. For the avoidance of doubt, calculation of the Applicable Premium shall not be an obligation or duty of the Trustee or Paying Agents.

“*Asset Disposition*” means, with respect to the Issuer and the Restricted Subsidiaries any direct or indirect sale, lease (other than an operating lease entered into in the ordinary course of business), transfer, issuance or other disposition, or a series of related sales, leases (other than operating leases entered into in the ordinary course of business), transfers, issuances or dispositions that are part of a common plan, of shares of Capital Stock of a Subsidiary (other than directors’ qualifying shares), property or other assets (each referred to for the purposes of this definition as a “disposition”) by the Issuer or any of the Restricted Subsidiaries, including any disposition by means of a merger, consolidation or similar transaction; *provided* that the sale, lease, transfer, issuance or other disposition of all or substantially all of the assets of the Issuer and the Restricted Subsidiaries taken as a whole will be governed by the provisions of the Indenture described above under the caption “Change of Control” and/or the provisions described above under the caption “—*Certain Covenants—Merger and Consolidation*” and not by the provisions described under the caption “—*Certain Covenants—Limitation on Sales of Assets and Subsidiary Stock*”. Notwithstanding the preceding provisions of this definition, the following items shall not be deemed to be Asset Dispositions:

- (1) a sale, lease, transfer, issuance or other disposition, or a series of related sales, leases, transfers, issuances or dispositions that are part of a common plan, by a Restricted Subsidiary to the Issuer or by the Issuer or a Restricted Subsidiary to a Restricted Subsidiary (other than by Altice International or any of its Restricted Subsidiaries to Numericable or any of its Restricted Subsidiaries);

- (2) a sale, lease, transfer, issuance or other disposition, or a series of related sales, leases, transfers, issuances or dispositions that are part of a common plan, of cash, Cash Equivalents or Temporary Cash Investments;
- (3) a sale, lease, transfer, issuance or other disposition, or a series of related sales, leases, transfers, issuances or dispositions that are part of a common plan, of inventory, consumer equipment, trading stock, communications capacity or other assets in the ordinary course of business;
- (4) a sale, lease, transfer, issuance or other disposition, or a series of related sales, leases, transfers, issuances or dispositions that are part of a common plan, of obsolete, surplus or worn out equipment or other assets or equipment or other similar assets that are no longer useful in the conduct of the business of the Issuer and its Restricted Subsidiaries;
- (5) transactions permitted under “—*Certain Covenants—Merger and Consolidation*” (other than as permitted under clause (C) of the first paragraph under “—*Certain Covenants—Merger and Consolidation—The Guarantors*”) or a transaction that constitutes a Change of Control;
- (6) an issuance of Capital Stock by a Restricted Subsidiary to the Issuer or to another Restricted Subsidiary or as part of or pursuant to an equity incentive or compensation plan approved by the Board of Directors of the Issuer;
- (7) (a) any sale, lease, transfer, issuance or other disposition, or any series of related sales, leases, transfers, issuances or dispositions that are part of a common plan, of Capital Stock, properties or assets in a single transaction or series of related transactions with a fair market value (as determined in good faith by the Issuer) not to exceed:
  - (i) if such disposition or series of related dispositions relates to assets owned by the Issuer or any of its Restricted Subsidiaries (other than Altice International, Numericable and their respective Restricted Subsidiaries), the fair market value of Capital Stock, properties or assets does not exceed €100 million;
  - (ii) if such disposition or series of related dispositions relates to assets owned by Altice International or any of its Restricted Subsidiaries, the fair market value of Capital Stock, properties or assets does not exceed €15 million; and
  - (iii) if such disposition or series of related dispositions relates to assets owned by Numericable or any of its Restricted Subsidiaries, the fair market value of Capital Stock, properties or assets does not exceed € 150 million; and
- (b) a transfer of Capital Stock of HOT pursuant to the exercise of a Minority Shareholder Call Option as in effect on December 12, 2012;
- (8) any Restricted Payment that is permitted to be made, and is made, under the covenant described above under “—*Certain Covenants—Limitation on Restricted Payments*”, any transaction specifically excluded from the definition of Restricted Payment and the making of any Permitted Payment or Permitted Investment;
- (9) the granting of Liens not prohibited by the covenant described above under the caption “—*Certain Covenants—Limitation on Liens*”;
- (10) a sale, lease, transfer, issuance or other disposition, or a series of related sales, leases, transfers, issuances or dispositions that are part of a common plan, of receivables in connection with the compromise, settlement or collection thereof in the ordinary course of business or in bankruptcy or similar proceedings and exclusive of factoring or similar arrangements;
- (11) the licensing or sublicensing of intellectual property or other general intangibles and licenses, sublicenses, leases, subleases of other property, in each case, in the ordinary course of business;
- (12) foreclosure, condemnation or any similar action with respect to any property or other assets;

- (13) the sale or discount (with or without recourse, and on customary or commercially reasonable terms) of accounts receivable or notes receivable arising in the ordinary course of business, or the conversion or exchange of accounts receivable for notes receivable;
- (14) sales, transfers or dispositions of receivables in connection with any Qualified Receivables Financing or any factoring transaction or in the ordinary course of business;
- (15) any sale, lease, transfer, issuance or other disposition, or any series of related sales, leases, transfers, issuances or dispositions that are part of a common plan, of Capital Stock, Indebtedness or other securities of an Unrestricted Subsidiary;
- (16) any sale, lease, transfer, issuance or other disposition, or any series of related sales, leases, transfers, issuances or dispositions that are part of a common plan, of Capital Stock of a Restricted Subsidiary pursuant to an agreement or other obligation with or to a Person (other than the Issuer or a Restricted Subsidiary) from whom such Restricted Subsidiary was acquired, or from whom such Restricted Subsidiary acquired its business and assets (having been newly formed in connection with such acquisition), made as part of such acquisition and in each case comprising all or a portion of the consideration in respect of such sale or acquisition;
- (17) any surrender or waiver of contract rights or the settlement, release or surrender of contract, tort or other claims of any kind;
- (18) (a) any sale, lease, transfer, issuance or other disposition, or any series of related sales, leases, transfers, issuances or dispositions that are part of a common plan, of assets of Altice International or any of its Restricted Subsidiaries to a Person who is providing services related to such assets, the provision of which have been or are to be outsourced by Altice International or any of its Restricted Subsidiaries to such Person; *provided, however*, that (1) the Board of Directors of the Issuer or Altice International shall certify that in the opinion of the Board of Directors, the outsourcing transaction will be economically beneficial to Altice International and its Restricted Subsidiaries (considered as a whole); and (2) that the fair market value of the assets disposed of, when taken together with all other dispositions made pursuant to this clause (18)(a), does not exceed the greater of € 30 million and 1.0% of Altice International Total Assets; and
  - (b) any sale, lease, transfer, issuance or other disposition, or any series of related sales, leases, transfers, issuances or dispositions that are part of a common plan, of assets of Numericable or any of its Restricted Subsidiaries to a Person who is providing services related to such assets, the provision of which have been or are to be outsourced by Numericable or any of its Restricted Subsidiaries to such Person; *provided, however*, that (1) the Board of Directors of the Issuer or Numericable shall certify that in the opinion of the Board of Directors, the outsourcing transaction will be economically beneficial to Numericable and its Restricted Subsidiaries (considered as a whole); and (2) that the fair market value of the assets disposed of, when taken together with all other dispositions made pursuant to this clause (18)(a), does not exceed the greater of €100 million and 1.0% of Numericable Total Assets;
- (19) any sale, lease, transfer, issuance or other disposition, or any series of related sales, leases, transfers, issuances or dispositions that are part of a common plan, with respect to property built, owned or otherwise acquired by the Issuer or any Restricted Subsidiary pursuant to customary sale and lease-back transactions, asset securitizations and other similar financings permitted by the Indenture; provided that network assets of the Issuer or any Restricted Subsidiary shall be excluded from this clause (19) unless the Net Cash Proceeds of such sale and leaseback transaction are applied in accordance with the second paragraph of the covenant described under “*Certain Covenants—Limitation on Sales of Assets and Subsidiary Stock*”; and
- (20) any sale, lease, transfer, conveyance or other disposition in one or a series of related transactions of any assets of Numericable and its Subsidiaries or the Target and its Subsidiaries (including the Capital Stock of the Target or any Subsidiary of Numericable or the Target) that is required pursuant to Competition Laws in relation to the Target Acquisition or is taken to avoid or eliminate any impediment under Competition Laws in relation to the Target Acquisition (including, without

limitation, in response to any actions initiated by an administrative, regulatory or other governmental authority or private party under Competition Laws) so long as the fair market value of any such sold, leased, transferred, conveyed or disposed of assets does not exceed 2% of the Numericable Total Assets (on a pro forma consolidated basis, including the Target and its Subsidiaries that are Restricted Subsidiaries).

“Associate” means (i) any Person engaged in a Similar Business of which the Issuer or a Restricted Subsidiary are the legal and beneficial owners of between 20% and 50% of all outstanding Voting Stock and (ii) any joint venture engaged in a Similar Business entered into by the Issuer or any Restricted Subsidiary.

“Beneficial Owner” has the meaning assigned to such term in Rule 13d-3 and Rule 13d-5 under the U.S. Exchange Act, except that in calculating the beneficial ownership of any particular “person” (as that term is used in Section 13(d)(3) of the Exchange Act), such “person” will be deemed to have beneficial ownership of all securities that such “person” has the right to acquire by conversion or exercise of other securities, whether such right is currently exercisable or is exercisable only after the passage of time. The terms “Beneficially Owns” and “Beneficially Owned” have a corresponding meaning.

“Board of Directors” means (1) with respect to the Issuer or any corporation, the board of directors or managers, as applicable, of the corporation, or any duly authorized committee thereof; (2) with respect to any partnership, the board of directors or other governing body of the general partner of the partnership or any duly authorized committee thereof; and (3) with respect to any other Person, the board or any duly authorized committee of such Person serving a similar function. Whenever any provision of the Indenture requires any action or determination to be made by, or any approval of, a Board of Directors, such action, determination or approval shall be deemed to have been taken or made if approved by a majority of the directors on any such Board of Directors (whether or not such action or approval is taken as part of a formal board meeting or as a formal board approval).

“Bund Rate” means, with respect to any redemption date, the rate per annum equal to the semi-annual equivalent yield to maturity as of such date of the Comparable German Bund Issue, assuming a price for the Comparable German Bund Issue (expressed as a percentage of its principal amount) equal to the Comparable German Bund Price for such redemption date, where:

- (1) “Comparable German Bund Issue” means the German Bundesanleihe security selected by any Reference German Bund Dealer as having a fixed maturity most nearly equal to the period from such redemption date to May 15, 2017 and that would be utilized at the time of selection and in accordance with customary financial practice, in pricing new issues of euro-denominated corporate debt securities in a principal amount approximately equal to the then outstanding principal amount of the Euro Notes and of a maturity most nearly equal to May 15, 2017; *provided, however*, that, if the period from such redemption date to May 15, 2017 is not equal to the fixed maturity of the German Bundesanleihe security selected by such Reference German Bund Dealer, the Bund Rate shall be determined by linear interpolation (calculated to the nearest one-twelfth of a year) from the yields of German Bundesanleihe securities for which such yields are given, except that if the period from such redemption date to May 15, 2017, is less than one year, a fixed maturity of one year shall be used;
- (2) “Comparable German Bund Price” means, with respect to any redemption date, the average of all Reference German Bund Dealer Quotations for such date (which, in any event, must include at least two such quotations), after excluding the highest and lowest such Reference German Bund Dealer Quotations, or if the Issuer obtains fewer than four such Reference German Bund Dealer Quotations, the average of all such quotations;
- (3) “Reference German Bund Dealer” means any dealer of German Bundesanleihe securities appointed by the Issuer in good faith; and
- (4) “Reference German Bund Dealer Quotations” means, with respect to each Reference German Bund Dealer and any redemption date, the average as determined by the Issuer in good faith of the bid and offered prices for the Comparable German Bund Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the Issuer by such Reference German Bund Dealer at 3:30 p.m. Frankfurt, Germany, time on the third Business Day preceding the redemption date.

“*Business Day*” means each day that is not a Saturday, Sunday or other day on which banking institutions in London, United Kingdom, the Grand Duchy of Luxembourg or New York, New York, United States are authorized or required by law to close.

“*Capital Stock*” of any Person means any and all shares of, interests, rights to purchase, warrants or options for, participation or other equivalents of, or partnership or other interests in (however designated), equity of such Person, including any Preferred Stock, but excluding any debt securities convertible into such equity.

“*Capitalized Lease Obligations*” means an obligation that is required to be classified and accounted for as a capitalized lease for financial reporting purposes on the basis of IFRS. The amount of Indebtedness will be, at the time any determination is to be made, the amount of such obligation required to be capitalized on a balance sheet (excluding any notes thereto) prepared in accordance with IFRS, and the stated maturity thereof will be the date of the last payment of rent or any other amount due under such lease prior to the first date such lease may be terminated without penalty. For the avoidance of doubt, operating leases will not be deemed Capitalized Lease Obligations.

“*Cash Equivalents*” means:

- (1) securities issued or directly and fully Guaranteed or insured by the United States Government, the United Kingdom, Switzerland or any member state of the European Union (other than Greece or Portugal), in each case, any agency or instrumentality of thereof (provided that the full faith and credit of such country or such member state is pledged in support thereof), having maturities of not more than two years from the date of acquisition;
- (2) certificates of deposit, time deposits, eurodollar time deposits, overnight bank deposits or bankers’ acceptances having maturities of not more than one year from the date of acquisition thereof issued by a bank or trust company (a) whose commercial paper is rated at least “A-1” or the equivalent thereof by S&P or at least “P-1” or the equivalent thereof by Moody’s (or if at the time neither is issuing comparable ratings, then a comparable rating of another Nationally Recognized Statistical Rating Organization) or (b) (in the event that such bank or trust company does not have commercial paper which is rated) having combined capital and surplus in excess of €500 million;
- (3) repurchase obligations with a term of not more than 30 days for underlying securities of the types described in clauses (1) and (2) entered into with any bank meeting the qualifications specified in clause (2) above;
- (4) commercial paper rated at the time of acquisition thereof at least “A-2” or the equivalent thereof by S&P or “P-2” or the equivalent thereof by Moody’s or carrying an equivalent rating by a Nationally Recognized Statistical Rating Organization, if both of the two named rating agencies cease publishing ratings of investments or, if no rating is available in respect of the commercial paper, the issuer of which has an equivalent rating in respect of its long-term debt, and in any case maturing within one year after the date of acquisition thereof;
- (5) readily marketable direct obligations issued by any state of the United States of America, any member of the European Union (other than Greece or Portugal) or any political subdivision thereof, in each case, having one of the two highest rating categories obtainable from either Moody’s or S&P (or, if at the time, neither is issuing comparable ratings, then a comparable rating of another Nationally Recognized Statistical Rating Organization) with maturities of not more than two years from the date of acquisition;
- (6) bills of exchange issued in the United States, a member state of the European Union (other than Greece or Portugal), eligible for rediscount at the relevant central bank and accepted by a bank (or any dematerialized equivalent); and
- (7) interests in any investment company, money market or enhanced high yield fund which invests 95% or more of its assets in instruments of the type specified in clauses (1) through (6) above.

“*Change of Control*” means:

- (1) the consummation of any transaction (including, without limitation, any merger or consolidation), the result of which is that any Person (including any “person” (as that term is used in Section 13(d)(3) of the Exchange Act)) other than one or more Permitted Holders becomes the Beneficial Owner, directly or indirectly, of more than 50% of the issued and outstanding Voting Stock of the Issuer, measured by voting power rather than number of shares;
- (2) during any period of two consecutive years, individuals who at the beginning of such period constituted the majority of the directors on the Board of Directors of the Issuer (together with any new directors whose election by the majority of such directors on such Board of Directors of the Issuer or whose nomination for election by shareholders of the Issuer, as applicable, was approved by a vote of the majority of such directors on the Board of Directors of the Issuer then still in office who were either directors at the beginning of such period or whose election or nomination for election was previously so approved) ceased for any reason to constitute the majority of the directors on the Board of Directors of the Issuer, then in office; or
- (3) the direct or indirect sale, lease, transfer, conveyance or other disposition (other than by way of merger, consolidation or other business combination transaction), in one or a series of related transactions, of all or substantially all of the assets of the Issuer and its Restricted Subsidiaries, taken as a whole, to a Person (including any “person” as defined above), other than a Permitted Holder; *provided* that a Change of Control shall be deemed not to have occurred as a result of the sale, lease, transfer, conveyance or other disposition in one or a series of related transactions of any assets of Numericable and its Subsidiaries or the Target and its Subsidiaries (including the Capital Stock of the Target or any Subsidiary of Numericable or the Target) that is required pursuant to Competition Laws in relation to the Target Acquisition or is taken to avoid or eliminate any impediment under Competition Laws in relation to the Target Acquisition (including, without limitation, in response to any actions initiated by an administrative, regulatory or other governmental authority or private party under Competition Laws); *provided further* that, solely to the extent the Issuer is relying on this provision as an exemption from the requirement to make a Change of Control Offer, in the event the fair market value of any such sold, leased, transferred, conveyed or disposed of assets exceeds 2% of the Numericable Total Assets (on a pro forma consolidated basis, including the Target and its Subsidiaries that are Restricted Subsidiaries), (i) the Consolidated Net Leverage Ratio of Numericable (on a pro forma consolidated basis, including the Target and its Subsidiaries that are Restricted Subsidiaries) shall not increase; and (ii) Numericable shall promptly make an offer to all holders of the Term Loans and to the extent required by the terms of any Pari Passu Indebtedness that is not Public Debt, any such Pari Passu Indebtedness to repay or repurchase such Term Loans and Pari Passu Indebtedness at a price of 100% of the principal amount thereof plus accrued and unpaid interest thereon to the date of redemption in an amount equal to the Net Cash Proceeds of such sale, lease, transfer, conveyance or other disposition and in the event the principal amount of Term Loans and such Pari Passu Indebtedness tendered is less than the amount of such Net Cash Proceeds, Numericable shall apply any such remaining proceeds to prepay an equal principal amount of Term Loans at par on a pro rata basis.

“*Coditel Mezzanine Credit Facility*” means the mezzanine facility agreement, dated November 29, 2011, inter alios, Coditel Holding Lux S.a.r.l., Coditel Holding as the company, Wilmington Trust (London) Limited as agent and ING Bank N.V. as security agent.

“*Coditel Senior Credit Facility*” means senior facilities agreement, dated November 29, 2011, inter alios, Coditel Holding Lux S.a.r.l. as parent, Coditel Holding as the company, GE Corporate Finance Bank S.A.S., HSBC France, ING Belgium SA/NV, KBC Bank NV and Natixis as mandated lead arrangers ING Bank N.V. as agent and security agent.

“*Commodity Hedging Agreements*” means, in respect of a Person, any commodity purchase contract, commodity futures or forward contract, commodities option contract or other similar contract (including commodities derivative agreements or arrangements), to which such Person is a party or a beneficiary.

“*Competition Laws*” means any federal, state, foreign, multinational or supranational antitrust, competition or trade regulation statutes, rules, regulations, orders, decrees, administrative and judicial doctrines and other laws that are designed or intended to prohibit, restrict or regulate actions or transactions having the purpose or effect of monopolization or restraint of trade or lessening of competition through merger or acquisition or effectuating foreign investment.

“*Consolidated EBITDA*” for any period means, without duplication, the Consolidated Net Income of the Issuer and the Restricted Subsidiaries (or, if the calculation relates to Altice International or Numericable, of Altice International and its Restricted Subsidiaries or Numericable and its Restricted Subsidiaries, as applicable) for such period, plus the following to the extent deducted in calculating such Consolidated Net Income (in each case of the Issuer and the Restricted Subsidiaries (or, if the calculation relates to Altice International or Numericable, Altice International and its Restricted Subsidiaries or Numericable and its Restricted Subsidiaries, as applicable)):

- (1) Consolidated Interest Expense and Receivables Fees;
- (2) Consolidated Income Taxes;
- (3) consolidated depreciation expense;
- (4) consolidated amortization expense;
- (5) any expenses, charges or other costs related to any Equity Offering, Investment, acquisition (including amounts paid in connection with the acquisition or retention of one or more individuals comprising part of a management team retained to manage the acquired business; provided that such payments are made at the time of such acquisition and are consistent with the customary practice in the industry at the time of such acquisition), disposition, recapitalization or the Incurrence of any Indebtedness permitted by the Indenture (whether or not successful) (including, as applicable, any such fees, expenses or charges related to the December 2013 Transactions, the July 2013 Transactions, the Original Hot Transactions, the Initial Public Offering, the Numericable Initial Public Offering and the Transactions), in each case, as determined in good faith by the Issuer (or, if the calculation relates to Altice International, Altice France or Numericable, by Altice International, Altice France or Numericable, as applicable);
- (6) any minority interest expense (whether paid or not) consisting of income attributable to minority equity interests of third parties in such period or any prior period or any net earnings, income or share of profit of any Associates, associated company or undertaking;
- (7) the amount of management, monitoring, consultancy and advisory fees and related expenses paid in such period (or accruals relating to such fees and related expenses) to any Permitted Holder (whether directly or indirectly, through any Parent) to the extent permitted by the covenant described under “*Certain Covenants—Limitation on Affiliate Transactions*”, provided that any payments for such fees and related expense shall not be included in Consolidated EBITDA for any period to the extent they were accrued for in such period or any prior period and added back to Consolidated EBITDA in such period or any such prior period; and
- (8) other non-cash charges, write-downs or items reducing Consolidated Net Income (excluding any such non-cash charge, write-down or item to the extent it represents an accrual of or reserve for cash charges in any future period) or other non-cash items classified by the Issuer (or, if the calculation relates to Altice International or Numericable, by Altice International or Numericable, as applicable) as special items less other non-cash items of income increasing Consolidated Net Income (other than any non-cash items increasing such Consolidated Net Income pursuant to clauses (1) through (14) of the definition of Consolidated Net Income and excluding any such non-cash item of income to the extent it represents a receipt of cash in any future period).

“*Consolidated Income Taxes*” means taxes or other payments, including deferred Taxes, based on income, profits or capital of the Issuer and the Restricted Subsidiaries (or, if the calculation relates to Altice International or Numericable, Altice International and its Restricted Subsidiaries or Numericable and its Restricted Subsidiaries, as applicable) whether or not paid, estimated, accrued or required to be remitted to any governmental authority.

“*Consolidated Interest Expense*” means, for any period (in each case, determined on the basis of IFRS), the consolidated net interest income/expense of the Issuer and the Restricted Subsidiaries (or, if the calculation relates to Altice International or Numericable, Altice International and its Restricted Subsidiaries or

Numericable and its Restricted Subsidiaries, as applicable), whether paid or accrued, plus or including (without duplication) any interest, costs and charges consisting of:

- (1) interest expense attributable to Capitalized Lease Obligations;
- (2) amortization of debt discount, but excluding amortization of debt issuance costs, fees and expenses and the expensing of any bridge or other financing fees;
- (3) non-cash interest expense;
- (4) dividends or other distributions in respect of all Disqualified Stock of the Issuer and all Preferred Stock of any Restricted Subsidiary, to the extent held by Persons other than the Issuer or a Subsidiary of the Issuer (or, if the calculation relates to Altice International or Numericable, to the extent held by Persons other than Altice International or a Subsidiary of Altice International or Numericable or a Subsidiary of Numericable, as applicable);
- (5) the consolidated interest expense that was capitalized during such period;
- (6) net payments and receipts (if any) pursuant to Hedging Obligations (other than Currency Agreements) (excluding unrealized mark-to-market gains and losses attributable to Hedging Obligations (other than Currency Agreements)); and
- (7) any interest actually paid by the Issuer or any Restricted Subsidiary on Indebtedness of another Person that is guaranteed by the Issuer or any Restricted Subsidiary or secured by a Lien on assets of the Issuer or any Restricted Subsidiary (or, if the calculation relates to Altice International, Altice France or Numericable, any interest actually paid by Altice International or any of its Restricted Subsidiaries or Numericable or any of its Restricted Subsidiaries, as applicable, on Indebtedness of another Person that is guaranteed by Altice International or any of its Restricted Subsidiaries or Numericable or any of its Restricted Subsidiaries, as applicable, or secured by a Lien on assets of Altice International or any of its Restricted Subsidiaries or Numericable or any of its Restricted Subsidiaries, as applicable).

Notwithstanding any of the foregoing, Consolidated Interest Expense shall not include (i) any interest accrued, capitalized or paid in respect of Subordinated Shareholder Funding (or, if the calculation relates to Altice International or Numericable, any interest accrued, capitalized or paid in respect of any subordinated shareholder funding (defined in a similar manner to Subordinated Shareholder Funding under the Indenture), (ii) any commissions, discounts, yield and other fees and charges related to a Qualified Receivables Financing, (iii) any payments on any operating leases, including without limitation any payments on any lease, concession or license of property (or Guarantee thereof) which would be considered an operating lease under IFRS as in effect on the Issue Date and (iv) net payments and receipts (if any) pursuant to Currency Agreements (excluding unrealized mark-to-market gains and losses attributable to Hedging Obligations).

“*Consolidated Net Income*” means, for any period, the net income (loss) of the Issuer and the Restricted Subsidiaries (or, if the calculation relates to Altice International or Numericable, Altice International and its Restricted Subsidiaries or Numericable and its Restricted Subsidiaries, as applicable) determined on a consolidated basis on the basis of IFRS; *provided, however*, that there will not be included in such Consolidated Net Income:

- (1) subject to the limitations contained in clause (3) below, any net income (loss) of any Person if such Person is not a Restricted Subsidiary, except that the Issuer’s equity in the net income of any such Person for such period will be included in such Consolidated Net Income up to the aggregate amount of cash or Cash Equivalents actually distributed by such Person during such period to the Issuer or a Restricted Subsidiary (or, if the calculation relates to Altice International or Numericable, to Altice International or any of its Restricted Subsidiaries or Numericable or any of its Restricted Subsidiaries, as applicable) as a dividend or other distribution or return on investment;
- (2) [Reserved];
- (3) any net gain (or loss) realized upon the sale, abandonment or other disposition of any asset or disposed operations of the Issuer or any Restricted Subsidiary (or, if the calculation relates to Altice

International or Numericable, of Altice International or any of its Restricted Subsidiaries or Numericable or any of its Restricted Subsidiaries, as applicable) (including pursuant to any sale/leaseback transaction) which is not sold or otherwise disposed of in the ordinary course of business (as determined in good faith by an Officer of the Issuer (or, if the calculation relates to Altice International or Numericable, by an Officer of Altice International or Numericable, as applicable));

- (4) any extraordinary, exceptional, unusual or nonrecurring gain, loss, charge or expense or any charges, expenses or reserves in respect of any restructuring, redundancy or severance or any expenses, charges, reserves, gains or other costs related to, as applicable, the December 2103 Transactions, the July 2013 Transactions, the Original Hot Transactions, the Initial Public Offering, the Numericable Initial Public Offering and the Transactions;
- (5) the cumulative effect of a change in accounting principles;
- (6) any non-cash compensation charge or expense arising from any grant of stock, stock options or other equity based awards and any non-cash deemed finance charges in respect of any pension liabilities or other provisions;
- (7) all deferred financing costs written off and premiums paid or other expenses incurred directly in connection with any early extinguishment of Indebtedness and any net gain (loss) from any write-off or forgiveness of Indebtedness;
- (8) any unrealized gains or losses in respect of Hedging Obligations or other derivative instruments or any ineffectiveness recognized in earnings related to qualifying hedge transactions or the fair value or changes therein recognized in earnings for derivatives that do not qualify as hedge transactions, in each case, in respect of Hedging Obligations or other derivative instruments;
- (9) any unrealized foreign currency translation gains or losses in respect of Indebtedness of any Person denominated in a currency other than the functional currency of such Person and any unrealized foreign exchange gains or losses relating to translation of assets and liabilities denominated in foreign currencies;
- (10) any unrealized foreign currency translation or transaction gains or losses in respect of Indebtedness or other obligations of the Issuer or any Restricted Subsidiary owing to the Issuer or any Restricted Subsidiary (or, if the calculation relates to Altice International or Numericable, in respect of Indebtedness or other obligations of Altice International or any of its Restricted Subsidiaries or Numericable or any of its Restricted Subsidiaries, as applicable, owing to Altice International or any of its Restricted Subsidiaries or Numericable or any of its Restricted Subsidiaries, as applicable);
- (11) any one-time non-cash charges or any increases in amortization or depreciation resulting from purchase accounting, in each case, in relation to any acquisition of another Person or business or resulting from any reorganization or restructuring involving the Issuer or its Subsidiaries (or, if the calculation relates to Altice International or Numericable, involving Altice International or its Subsidiaries or Numericable or its Subsidiaries, as applicable);
- (12) any goodwill or other intangible asset impairment charge or write-off;
- (13) the impact of capitalized, accrued or accreting or pay-in-kind interest or principal on Subordinated Shareholder Funding (or, if the calculation relates to Altice International or Numericable, on any subordinated shareholder funding (defined in a similar manner to Subordinated Shareholder Funding under the Indenture)); and
- (14) the amount of management, monitoring, consultancy and advisory fees and related expenses paid in such period (or accruals relating to such fees and related expenses) to any Permitted Holder (whether directly or indirectly, through any Parent) to the extent permitted by the covenant described under “*Certain Covenants—Limitation on Affiliate Transactions*”.

“*Consolidated Net Leverage*” means (A) the sum, without duplication, of the aggregate outstanding Indebtedness of the Issuer and its Restricted Subsidiaries (or, if the calculation relates to Altice International or

Numericable, of Altice International and its Restricted Subsidiaries or Numericable and its Restricted Subsidiaries, as applicable) on a consolidated basis (excluding (i) Hedging Obligations and (ii) other than for purposes of the covenant described under “—*Certain Covenants—Limitation on Restricted Payments*”, any Indebtedness Incurred pursuant to clause (1) under the second paragraph of the covenant described under “—*Certain Covenants—Limitation on Indebtedness*”), less (B) the aggregate amount of cash and Cash Equivalents of the Issuer and the Restricted Subsidiaries (or, if the calculation relates to Altice International or Numericable, of Altice International and its Restricted Subsidiaries or Numericable and its Restricted Subsidiaries, as applicable) on a consolidated basis.

“*Consolidated Net Leverage Ratio*” means, as of any date of determination, the ratio of (x) Consolidated Net Leverage of the Issuer and its Restricted Subsidiaries (or, if the calculation relates to Altice International or Numericable, of Altice International and its Restricted Subsidiaries or Numericable and its Restricted Subsidiaries, as applicable) at such date to (y) the aggregate amount of Pro forma EBITDA of the Issuer and its Restricted Subsidiaries (or, if the calculation relates to Altice International or Numericable, of Altice International and its Restricted Subsidiaries or Numericable and its Restricted Subsidiaries, as applicable) for the period of the most recent two consecutive fiscal quarters ending prior to the date of such determination for which internal financial statements of the Issuer (or, if the calculation relates to Altice International or Numericable, for which internal financial statements of Altice International or Numericable, as applicable) are available multiplied by 2.0; *provided, however*, that the *pro forma* calculation of the Consolidated Net Leverage Ratio shall not give effect to (i) any Indebtedness Incurred on the date of determination pursuant to the provisions described in the second paragraph under the caption “—*Certain Covenants—Limitation on Indebtedness*” or (ii) the discharge on the date of determination of any Indebtedness to the extent that such discharge results from the proceeds Incurred pursuant to the provisions described in the second paragraph under the caption “—*Certain Covenants—Limitation on Indebtedness*”.

For the avoidance of doubt, in determining Consolidated Net Leverage Ratio, no cash or Cash Equivalents shall be included that are the proceeds of Indebtedness in respect of which the calculation of the Consolidated Net Leverage Ratio is to be made.

“*Consolidation Event*” means the occurrence of the following event: the Issuer directly or indirectly owns or controls at least 75% of the Capital Stock of Numericable.

“*Cool*” means Cool Holding Ltd., a public limited company (société anonyme) incorporated and existing under the laws of the State of Israel and the Grand Duchy of Luxembourg having its registered office at 3 boulevard royal, L-2449 Luxembourg and registered with the Luxembourg Trade and Companies’ Register under number B152.495.

“*Contingent Obligations*” means, with respect to any Person, any obligation of such Person guaranteeing in any manner, whether directly or indirectly, any operating lease, dividend or other obligation that does not constitute Indebtedness (“primary obligations”) of any other Person (the “primary obligor”), including any obligation of such Person, whether or not contingent:

- (1) to purchase any such primary obligation or any property constituting direct or indirect security therefor;
- (2) to advance or supply funds:
  - (a) for the purchase or payment of any such primary obligation; or
  - (b) to maintain the working capital or equity capital of the primary obligor or otherwise to maintain the net worth or solvency of the primary obligor; or
- (3) to purchase property, securities or services primarily for the purpose of assuring the owner of any such primary obligation of the ability of the primary obligor to make payment of such primary obligation against loss in respect thereof.

“*Credit Facility*” means, with respect to the Issuer or any of its Subsidiaries, one or more debt facilities, arrangements, instruments, trust deeds, note purchase agreements or indentures or commercial paper facilities and overdraft facilities (including the Existing Altice International Guarantee Facility, the Altice International RCFs, the Existing Altice International Senior Credit Facility, Numericable Senior Credit Facility,

the Altice Credit Facility and Numericable RCF) with banks, institutions, funds or investors providing for revolving credit loans, term loans, receivables financing (including through the sale of receivables to such institutions or to special purpose entities formed to borrow from such institutions against such receivables), notes, bonds, debentures letters of credit or other Indebtedness, in each case, as amended, restated, modified, renewed, refunded, replaced, restructured, refinanced, repaid, increased or extended in whole or in part from time to time (and whether in whole or in part and whether or not with the original administrative agent and lenders or another administrative agent or agents or trustees or other banks, institutions or investors and whether provided under one or more credit or other agreements, indentures, financing agreements or otherwise) and in each case including all agreements, instruments and documents executed and delivered pursuant to or in connection with the foregoing (including any notes and letters of credit issued pursuant thereto and any Guarantee and collateral agreement, patent and trademark security agreement, mortgages or letter of credit applications and other Guarantees, pledges, agreements, security agreements and collateral documents). Without limiting the generality of the foregoing, the term “Credit Facility” shall include any agreement or instrument (1) changing the maturity of any Indebtedness Incurred thereunder or contemplated thereby, (2) adding Subsidiaries of the Issuer as additional borrowers or guarantors thereunder, (3) increasing the amount of Indebtedness Incurred thereunder or available to be borrowed thereunder or (4) otherwise altering the terms and conditions thereof.

“*Currency Agreement*” means, in respect of a Person, any foreign exchange contract, currency swap agreement, currency futures contract, currency option contract, cap, floor, ceiling, collar, currency derivative or other similar agreement to which such Person is a party or beneficiary.

“*December 2013 Transactions*” means the transactions described under “The Transactions” in the offering memorandum dated December 5, 2013 relating to the \$1,309 million equivalent senior secured notes due 2022, in each case issued by Altice Financing S.A. and the \$400 million aggregate principal amount of 8<sup>1</sup>/<sub>8</sub>% senior notes due 2024, in each case issued by Altice Finco S.A.

“*Default*” means any event which is, or after giving notice or with the passage of time or both would be, an Event of Default.

“*Designated Non-Cash Consideration*” means the fair market value (as determined in good faith by the Issuer) of non-cash consideration received by the Issuer or a Restricted Subsidiary in connection with an Asset Disposition that is so designated as Designated Non-Cash Consideration pursuant to an Officer’s Certificate, setting forth the basis of such valuation, less the amount of cash, Cash Equivalents or Temporary Cash Investments received in connection with a subsequent payment, redemption, retirement, sale or other disposition of such Designated Non-Cash Consideration. A particular item of Designated Non-Cash Consideration will no longer be considered to be outstanding when and to the extent it has been paid, redeemed or otherwise retired or sold or otherwise disposed of in compliance with the covenant described under “—*Certain Covenants—Limitation on Sales of Assets and Subsidiary Stock*”.

“*Designated Preference Shares*” means, with respect to the Issuer, Preferred Stock (other than Disqualified Stock) (a) that is issued for cash (other than to the Issuer or a Subsidiary of the Issuer or an employee stock ownership plan or trust established by the Issuer or any such Subsidiary for the benefit of their employees to the extent funded by the Issuer or such Subsidiary) and (b) that is designated as “Designated Preference Shares” pursuant to an Officer’s Certificate of the Issuer at or prior to the issuance thereof.

“*Disinterested Director*” means, with respect to any Affiliate Transaction, a member of the Board of Directors of the Issuer having no material direct or indirect financial interest in or with respect to such Affiliate Transaction. A member of the Board of Directors of the Issuer shall be deemed not to have such a financial interest by reason of such member’s holding Capital Stock of the Issuer or any Parent or any options, warrants or other rights in respect of such Capital Stock.

“*Disqualified Stock*” means, with respect to any Person, any Capital Stock of such Person which by its terms (or by the terms of any security into which it is convertible or for which it is exchangeable) or upon the happening of any event:

- (1) matures or is mandatorily redeemable for cash or in exchange for Indebtedness pursuant to a sinking fund obligation or otherwise;

- (2) is convertible or exchangeable for Indebtedness or Disqualified Stock (excluding Capital Stock which is convertible or exchangeable solely at the option of the Issuer or a Restricted Subsidiary); or
- (3) is or may become (in accordance with its terms) upon the occurrence of certain events or otherwise redeemable or repurchasable for cash or in exchange for Indebtedness at the option of the holder of the Capital Stock in whole or in part,

in each case, on or prior to the earlier of (a) the Stated Maturity of the Notes or (b) the date on which there are no Notes outstanding; *provided, however*, that (i) only the portion of Capital Stock which so matures or is mandatorily redeemable, is so convertible or exchangeable or is so redeemable at the option of the holder thereof prior to such date will be deemed to be Disqualified Stock and (ii) any Capital Stock that would constitute Disqualified Stock solely because the holders thereof have the right to require the Issuer to repurchase such Capital Stock upon the occurrence of a change of control or asset sale (howsoever defined or referred to) shall not constitute Disqualified Stock if any such redemption or repurchase obligation is subject to compliance by the relevant Person with the covenant described under “—*Certain Covenants—Limitation on Restricted Payments*”.

“*Equity Offering*” means a public or private sale of (x) Capital Stock of the Issuer or (y) Capital Stock or other securities, the proceeds of which are contributed as Subordinated Shareholder Funding or to the equity of the Issuer or any of its Restricted Subsidiaries, in each case other than:

- (1) Disqualified Stock;
- (2) Designated Preference Shares;
- (3) offerings registered on Form S-8 (or any successor form) under the Securities Act or any similar offering in other jurisdictions;
- (4) any such sale to an Affiliate of the Issuer or a Restricted Subsidiary; and
- (5) any such sale that constitutes an Excluded Contribution.

“*Escrow Agent*” means Deutsche Bank AG, London Branch.

“*Escrow Agreement*” means the escrow agreement relating to the Notes dated as of the Issue Date among, *inter alios*, the Issuer, the Trustee and the Escrow Agent.

“*Escrow Assignment*” means the grant of a security interest in the Escrow Account on the Issue Date by the Issuer to the Security Agent on behalf of the Holders.

“*Escrowed Proceeds*” means the proceeds from the offering of any debt securities or other Indebtedness paid into an escrow account with an independent escrow agent on the date of the applicable offering or Incurrence pursuant to escrow arrangements that permit the release of amounts on deposit in such escrow account upon satisfaction of certain conditions or the occurrence of certain events. The term “Escrowed Proceeds” shall include any interest earned on the amounts held in escrow.

“*euro*” or “*€*” means the currency introduced at the start of the third stage of the European economic and monetary union pursuant to the Treaty establishing the European Community, as amended by the Treaty on European Union.

“*Euro Equivalent*” means, with respect to any monetary amount in a currency other than euro (“*Other Currency*”), at any time of determination thereof by the Issuer or the Trustee, the amount of euros obtained by converting such Other Currency involved in such computation into euros at the spot rate for the purchase of euros with the Other Currency as published in *The Financial Times* in the “Currency Rates” section (or, if *The Financial Times* is no longer published, or if such information is no longer available in *The Financial Times*, such source as may be selected in good faith by the Issuer) on the date of such determination.

“*European Government Obligations*” means direct obligations of, or obligations guaranteed by, a member state of the European Monetary Union as of the date of the Indenture, and the payment for which such

member state of the European Monetary Union pledges its full faith and credit; provided that such member state has a long-term government debt rating of “A1” or higher by Moody’s or “A+” or higher by S&P or the equivalent rating category of another internationally recognized rating agency.

“*Exchange Act*” means the U.S. Securities Exchange Act of 1934, as amended, and the rules and regulations of the SEC promulgated thereunder, as amended.

“*Excluded Contribution*” means Net Cash Proceeds or property or assets received by the Issuer as capital contributions to the equity (other than through the issuance of Disqualified Stock or Designated Preference Shares) of the Issuer after the Issue Date or from the issuance or sale (other than to the Issuer, a Restricted Subsidiary or an employee stock ownership plan or trust established by the Issuer or any Subsidiary of the Issuer for the benefit of its employees to the extent funded by the Issuer or any Restricted Subsidiary) of Capital Stock (other than Disqualified Stock or Designated Preference Shares) or Subordinated Shareholder Funding of the Issuer, in each case, to the extent designated as an Excluded Contribution pursuant to an Officer’s Certificate of the Issuer.

“*Existing Altice International Guarantee Facility*” means the guarantee facility agreement dated July 1, 2013, as amended, restated, supplemented or otherwise modified from time to time, among Numericable as borrower, the lenders from time to time party thereto, Citibank International Plc as facility agent and Citibank, N.A., London Branch as Security Agent.

“*Existing Altice International Indebtedness*” means collectively, the (1) the Existing Altice International Senior Secured Notes, (2) the Existing Altice International Senior Notes, (3) the Existing Altice International Senior Credit Facility, (4) the Altice International RCFs, (5) the Existing Altice International Guarantee Facility, (6) the Existing HOT Unsecured Notes, (7) the Coditel Senior Credit Facility, (8) the Coditel Mezzanine Credit Facility, and (9) any proceeds loans or intercompany loans between Altice International and any of its Restricted Subsidiaries or between any Restricted Subsidiaries of Altice International, in each case, including any Guarantees (if any) relating thereto, and each as amended, restated, supplemented or otherwise modified from time to time.

“*Existing Altice International Intercreditor Agreements*” means collectively, (1) means the intercreditor agreement dated December 12, 2012 and made between (among others) Altice Financing S.A., Altice Finco S.A., the security agent, the facility agent, the Mandated Lead Arrangers (as defined therein), certain financial institutions party thereto, the Hedging Banks (as defined therein) and the Trustee, as amended and (2) the intercreditor agreement, dated November 29, 2011, inter alios, Coditel Holding Lux S.a r.l., Coditel Holding, the companies listed therein as original debtors, ING Bank N.V. as senior agent, Wilmington Trust (London) Limited as mezzanine agent and ING Bank N.V. as security agent.

“*Existing Altice International Security Documents*” means the security agreements, pledge agreements, collateral assignments, and any other instrument and document executed and delivered pursuant to the Existing Altice International Indebtedness, as the same may be amended, supplemented or otherwise modified from time to time, creating the security interests as contemplated by the Existing Altice International Indebtedness.

“*Existing Altice International Senior Credit Facility*” means the term loan credit agreement dated June 24, 2013 between Altice Financing S.A. as borrower and the persons listed in Schedule 2.01 thereto as lenders, Goldman Sachs Lending Partners LLC as the Administrative Agent and Citibank, N.A., London Branch as Security Agent, as amended.

“*Existing Altice International Senior Notes*” means collectively, (1) the \$425 million aggregate principal amount of 9<sup>7</sup>/<sub>8</sub>% senior notes due 2020, (2) the €250 million aggregate principal amount of 9% senior notes due 2023 and (3) the \$400 million aggregate principal amount of 8<sup>1</sup>/<sub>8</sub>% senior notes due 2024, in each case issued by Altice Finco S.A.

“*Existing Altice International Senior Secured Notes*” means collectively, (1) the €210 million aggregate principal amount of 8% senior secured notes due 2019, (2) the \$460 million aggregate principal amount of 7<sup>7</sup>/<sub>8</sub>% senior secured notes due 2019, (3) the \$900 million 6<sup>1</sup>/<sub>2</sub>% senior secured notes due 2022 and (4) the € 300 million 6<sup>1</sup>/<sub>2</sub>% senior secured notes due 2022 and (4), in each case issued by Altice Financing S.A.

*“Existing HOT Unsecured Notes”* refers to the NIS 825 million notes (Series A) and the NIS 675 million notes (Series B) of HOT, offered to the Israeli investors pursuant to an Israeli shelf offering report dated March 29, 2011 under an Israeli shelf prospectus dated February 28, 2011, as amended on March 29, 2011, and as shall be amended from time to time.

*“fair market value”* wherever such term is used in this “Description of Notes” or the Indenture (except in relation to an enforcement action pursuant to the Intercreditor Agreement and except as otherwise specifically provided in this “Description of Notes” or the Indenture), may be conclusively established by means of an Officer’s Certificate or a resolution of the Board of Directors of the Issuer setting out such fair market value as determined by such Officer or such Board of Directors in good faith.

*“Group”* means the Issuer and its Restricted Subsidiaries.

*“Green Datacenter”* means Green Datacenter AG (company registration no. CHE-115.555.342), a Swiss company limited by shares (*Aktiengesellschaft*) incorporated and existing under the laws of Switzerland.

*“Guarantee”* means any obligation, contingent or otherwise, of any Person directly or indirectly guaranteeing any Indebtedness of any other Person, including any such obligation, direct or indirect, contingent or otherwise, of such Person:

- (1) to purchase or pay (or advance or supply funds for the purchase or payment of) such Indebtedness of such other Person (whether arising by virtue of partnership arrangements, or by agreements to keep-well, to purchase assets, goods, securities or services, to take-or-pay or to maintain financial statement conditions or otherwise); or
- (2) entered into primarily for purposes of assuring in any other manner the obligee of such Indebtedness of the payment thereof or to protect such obligee against loss in respect thereof (in whole or in part),

*provided, however*, that the term “Guarantee” will not include endorsements for collection or deposit in the ordinary course of business or any guarantee of performance. The term “Guarantee” used as a verb has a corresponding meaning.

*“Guarantor”* means each Person that executes a Note Guarantee in accordance with the provisions of the Indenture in its capacity as a guarantor of the Notes and its respective successors and assigns, until the Note Guarantee of such Person has been released in accordance with the provisions of the Indenture.

*“Hedging Obligations”* of any Person means the obligations of such Person pursuant to any Interest Rate Agreement, Currency Agreement or Commodity Hedging Agreement.

*“Holder”* means each Person in whose name the Notes are registered.

*“HOT”* means HOT Telecommunication Systems Ltd.

*“HOT Mobile”* means HOT Mobile Ltd., formerly known as MIRS Communications Ltd.

*“IFRS”* means International Financial Reporting Standards as issued by the International Accounting Standards Board or any successor board or agency as endorsed by the European Union and in effect on the date hereof, or, with respect to the covenant described under the caption “Reports” as in effect from time to time.

*“Incur”* means issue, create, assume, enter into any Guarantee of, incur, extend or otherwise become liable for; *provided, however*, that any Indebtedness or Capital Stock of a Person existing at the time such Person becomes a Restricted Subsidiary (whether by merger, consolidation, acquisition or otherwise) will be deemed to be Incurred by the Issuer or such Restricted Subsidiary at the time it becomes a Restricted Subsidiary and the terms *“Incurred”* and *“Incurrence”* have meanings correlative to the foregoing and any Indebtedness pursuant to any Credit Facility, bridge facility, revolving credit or similar facility shall only be “Incurred” at the time any funds are borrowed thereunder.

*“Indebtedness”* means, with respect to any Person on any date of determination (without duplication):

- (1) the principal of indebtedness of such Person for borrowed money;
- (2) the principal of obligations of such Person evidenced by bonds, debentures, notes or other similar instruments;
- (3) all reimbursement obligations of such Person in respect of letters of credit, bankers' acceptances or other similar instruments (the amount of such obligations being equal at any time to the aggregate then undrawn and unexpired amount of such letters of credit or other instruments plus the aggregate amount of drawings thereunder that have not been reimbursed) (except to the extent such reimbursement obligations relate to trade payables and such obligations are satisfied within 30 days of Incurrence), in each case only to the extent that the underlying obligation in respect of which the instrument was issued would be treated as Indebtedness;
- (4) the principal component of all obligations of such Person to pay the deferred and unpaid purchase price of assets acquired or services supplied (except trade payables), which purchase price is due more than one year after the date of placing such property in service or taking final delivery and title thereto;
- (5) Capitalized Lease Obligations (excluding network and duct leases in existence on the Issue Date) of such Person;
- (6) the principal component of all obligations, or liquidation preference, of such Person with respect to any Disqualified Stock or, with respect to any Restricted Subsidiary, any Preferred Stock (but excluding, in each case, any accrued dividends);
- (7) the principal component of all Indebtedness of other Persons secured by a Lien on any asset of such Person, whether or not such Indebtedness is assumed by such Person; provided, however, that the amount of such Indebtedness will be the lesser of (a) the fair market value of such asset at such date of determination (as determined in good faith by the Issuer) and (b) the amount of such Indebtedness of such other Persons;
- (8) Guarantees by such Person of the principal component of Indebtedness of other Persons to the extent Guaranteed by such Person; and
- (9) to the extent not otherwise included in this definition, net obligations of such Person under Currency Agreements, Commodity Hedging Agreements and Interest Rate Agreements (the amount of any such obligations to be equal at any time to the termination value of such agreement or arrangement giving rise to such obligation that would be payable by such Person at such time).

The term "Indebtedness" shall not include (i) Subordinated Shareholder Funding, (ii) any lease (including for avoidance of doubt, any network lease or any Operating IRU), concession or license of property (or Guarantee thereof) which would be considered an operating lease under IFRS as in effect on the Issue Date, (iii) prepayments of deposits received from clients or customers in the ordinary course of business, (iv) any pension obligations, (v) Contingent Obligations, (vi) obligations under or in respect of Qualified Receivables Financing, (vii) obligations under any license, permit or other approval (or Guarantees given in respect of such obligations) Incurred prior to the Issue Date or in the ordinary course of business, (viii) non-interest bearing installment obligations and accrued liabilities Incurred in the ordinary course of business that are not more than 120 days past due, (ix) Indebtedness in respect of the Incurrence by the Issuer or any Restricted Subsidiary of Indebtedness in respect of standby letters of credit, performance bonds or surety bonds provided by the Issuer or any Restricted Subsidiary in the ordinary course of business to the extent such letters of credit or bonds are not drawn upon or, if and to the extent drawn upon are honored in accordance with their terms and if, to be reimbursed, are reimbursed no later than the fifth Business Day following receipt by such Person of a demand for reimbursement following payment on the letter of credit or bond, (x) Indebtedness Incurred by the Issuer or a Restricted Subsidiary in connection with a transaction where (A) such Indebtedness is borrowed from a bank or trust company, having a combined capital and surplus and undivided profits of not less than € 250 million, whose debt has a rating immediately prior to the time such transaction is entered into, of at least A or the equivalent thereof by S&P and A2 or the equivalent thereof by Moody's and (B) a substantially concurrent Investment is made by the Issuer or a Restricted Subsidiary in the form of cash deposited with the lender of such Indebtedness, or a Subsidiary or Affiliate thereof, in amount equal to such Indebtedness. For the avoidance of doubt and notwithstanding the above, the term "Indebtedness" excludes any accrued expenses and trade

payables and any obligations under guarantees issued in connection with various operating and telecommunication licenses (including, without limitation, any obligations under the guarantee by HOT issued to the Ministry of Communications and Broadcast Council and the bank guarantee in connection with the HOT Mobile's winning a frequency allotment and receiving a cellular license, and any obligations of HOT Systems towards the State of Israel under an agreement dated July 10, 2001, between HOT Systems and other cable companies and between the State of Israel, in each case, as in effect on December 12, 2012).

The amount of Indebtedness of any Person at any time in the case of a revolving credit or similar facility shall be the total amounts of funds borrowed and then outstanding. The amount of Indebtedness of any Person at any date shall be determined as set forth above or otherwise provided in the Indenture, and (other than with respect to letters of credit or Guarantees or Indebtedness specified in clause (7), (8) or (9) above) shall equal the amount thereof that would appear on a balance sheet of such Person (excluding any notes thereto) prepared on the basis of IFRS.

Notwithstanding the above provisions, in no event shall the following constitute Indebtedness:

- (i) in connection with the purchase by the Issuer or any Restricted Subsidiary of any business, any post-closing payment adjustments to which the seller may become entitled to the extent such payment is determined by a final closing balance sheet or such payment depends on the performance of such business after the closing; provided, however, that, at the time of closing, the amount of any such payment is not determinable and, to the extent such payment thereafter becomes fixed and determined, the amount is paid within 30 days thereafter;
- (ii) for the avoidance of doubt, any obligations in respect of workers' compensation claims, early retirement or termination obligations, pension fund obligations or contributions or similar claims, obligations or contributions or social security or wage Taxes; or
- (iii) parallel debt obligations, to the extent such obligations mirror other Indebtedness.

*"Independent Financial Advisor"* means an investment banking or accounting firm of international standing or any third party appraiser of international standing; *provided, however*, that such firm or appraiser is not an Affiliate of the Issuer.

*"Initial Public Offering"* means the Equity Offering of common stock or other common equity interests of the Issuer which was completed on February 5, 2014, as a result of which, the shares of common stock or other common equity interests of the Issuer in such offering are listed on Euronext Amsterdam.

*"Intercreditor Agreement"* means the intercreditor agreement dated on or about the Issue Date and made between (among others) the Issuer, the Security Agent, the Facility Agent (as defined therein), the Mandated Lead Arrangers (as defined therein), certain financial institutions party thereto and to which the Trustee is expected to accede to on the Completion Date, as amended.

*"Interest Rate Agreement"* means, with respect to any Person, any interest rate protection agreement, interest rate future agreement, interest rate option agreement, interest rate swap agreement, interest rate cap agreement, interest rate collar agreement, interest rate hedge agreement or other similar agreement or arrangement to which such Person is party or a beneficiary.

*"Investment"* means, with respect to any Person, all investments by such Person in other Persons (including Affiliates) in the form of any direct or indirect advance, loan or other extensions of credit (other than advances or extensions of credit to customers, suppliers, directors, officers or employees of any Person in the ordinary course of business, and excluding any debt or extension of credit represented by a bank deposit other than a time deposit) or capital contribution to (by means of any transfer of cash or other property to others or any payment for property or services for the account or use of others), or the Incurrence of a Guarantee of any obligation of, or any purchase or acquisition of Capital Stock, Indebtedness or other similar instruments issued by, such other Persons and all other items that are or would be classified as investments on a balance sheet (excluding any notes thereto) prepared on the basis of IFRS; *provided, however*, that endorsements of negotiable instruments and documents in the ordinary course of business will not be deemed to be an Investment. If the Issuer or any Restricted Subsidiary issues, sells or otherwise disposes of any Capital Stock of a Person that is a Restricted Subsidiary such that, after giving effect thereto, such Person is no longer a Restricted Subsidiary, any

Investment by the Issuer or any Restricted Subsidiary in such Person remaining after giving effect thereto will be deemed to be a new Investment equal to the fair market value of the Capital Stock of such Subsidiary not sold or disposed of in an amount determined as provided in the final paragraph of the covenant described above under the caption “—*Certain Covenants—Limitation on Restricted Payments*”.

For purposes of “—*Certain Covenants—Limitation on Restricted Payments*”:

- (1) “Investment” will include the portion (proportionate to the Issuer’s equity interest in a Restricted Subsidiary to be designated as an Unrestricted Subsidiary) of the fair market value of the net assets of such Restricted Subsidiary at the time that such Restricted Subsidiary is designated an Unrestricted Subsidiary; provided, however, that upon a redesignation of such Subsidiary as a Restricted Subsidiary, the Issuer will be deemed to continue to have a permanent “Investment” in an Unrestricted Subsidiary in an amount (if positive) equal to (a) the Issuer’s “Investment” in such Subsidiary at the time of such redesignation less (b) the portion (proportionate to the Issuer’s equity interest in such Subsidiary) of the fair market value of the net assets (as conclusively determined by an Officer or the Board of Directors of the Issuer in good faith) of such Subsidiary at the time that such Subsidiary is so re-designated a Restricted Subsidiary; and
- (2) any property transferred to or from an Unrestricted Subsidiary will be valued at its fair market value at the time of such transfer (or if earlier at the time of entering into an agreement to sell such property), in each case as determined in good faith by an Officer or the Board of Directors of the Issuer.

The amount of any Investment outstanding at any time shall be the original cost of such Investment, reduced (at the Issuer’s option) by any dividend, distribution, interest payment, return of capital, repayment or other amount or value received in respect of such Investment.

“*Investment Grade Status*” shall occur when the Notes receive both of the following:

- (1) a rating of “BBB–” or higher from S&P; and
- (2) a rating of “Baa3” or higher from Moody’s,

or the equivalent of such rating by either such rating organization or, if no rating of Moody’s or S&P then exists, the equivalent of such rating by any other Nationally Recognized Statistical Ratings Organization.

“*Investor*” means the ultimate controlling shareholder of the Issuer on the Issue Date.

“*Investor Affiliate*” means (i) the Investor or any of his immediate family members, and any such persons’ respective Affiliates and direct and indirect Subsidiaries, (ii) any sponsor, limited partnerships or entities managed or controlled by the Investor or any of his immediate family, or any of such persons’ respective Affiliates and direct or indirect Subsidiaries, (iii) any trust of the Investor or any of his immediate family, or any of such persons’ respective Affiliates and direct or indirect Subsidiaries or any trust in respect of which any such persons is a trustee, (iv) any partnership of which the Investor or any of his immediate family, or any of such persons’ respective Affiliates or direct or indirect Subsidiaries is a partner that is managed or controlled by the Investor, any of his immediate family or any of such persons’ respective Affiliates or direct or indirect Subsidiaries, and (v) any trust, fund or other entity which is managed by, or is under the control of, the Investor or any of his immediate family, or any of such persons’ respective Affiliates or direct or indirect Subsidiaries, but excluding the Issuer or any of its Subsidiaries.

“*IPO Market Capitalization*” means an amount equal to (i) the total number of issued and outstanding shares of common stock or common equity interests of the Issuer at the time of closing of the Initial Public Offering multiplied by (ii) the price per share at which such shares of common stock or common equity interests were sold in such Initial Public Offering.

“*Issue Date*” means May 8, 2014.

“*Issuer*” means Altice S.A., a Luxembourg public limited liability company (*société anonyme*) with registered office at 3 boulevard royal, L-2449 Luxembourg and registered with the Luxembourg Trade and Companies’ Register under number B 183391.

*“Issuer Transactions”* means the issuance of the Notes, the Altice Equity Financing, the entry into and drawing of loans under the Altice Credit Facility and the entry into the Intercreditor Agreement.

*“July 2013 Transactions”* means the transactions described under “The Transactions” in the offering memorandum dated June 19, 2013 relating to the €250 million aggregate principal amount of 9% senior notes due 2023.

*“Lien”* means any mortgage, pledge, security interest, encumbrance, lien or charge of any kind (including any conditional sale or other title retention agreement or lease in the nature thereof).

*“Management Advances”* means loans or advances made to, or Guarantees with respect to loans or advances made to, directors, officers, employees or consultants of any Parent, the Issuer or any Restricted Subsidiary:

- (1) (a) in respect of travel, entertainment or moving related expenses Incurred in the ordinary course of business or (b) for purposes of funding any such Person’s purchase of Capital Stock or Subordinated Shareholder Funding (or similar obligations) of the Issuer, its Restricted Subsidiaries or any Parent not to exceed an amount (net of repayments of any such loans or advances) equal to €25 million in any calendar year (with unused amounts in any calendar year being carried over to the succeeding calendar years; provided that the aggregate Management Advances made under this sub-clause (b) do not exceed €40 million in any fiscal year);
- (2) in respect of moving related expenses Incurred in connection with any closing or consolidation of any facility or office; or
- (3) (in the case of this clause (3)) not exceeding €17.5 million in the aggregate outstanding at any time.

*“Management Investors”* means the current or former officers, directors, employees and other members of the management of or consultants to any Parent, the Issuer or any of their respective Subsidiaries (including without limitation, the Target), or spouses, family members or relatives thereof, or any trust, partnership or other entity for the benefit of or the Beneficial Owner of which (directly or indirectly) is any of the foregoing, or any of their heirs, executors, successors and legal representatives, who at any date beneficially own or have the right to acquire, directly or indirectly, Capital Stock of the Issuer, any Restricted Subsidiary or any Parent.

*“Margin Loan”* means the €324 million facility agreement dated November 7, 2013 and amended on January 16, 2014, between, among others, Altice France, as borrower, the lenders party thereto and ING Bank N.V as facility agent and as security agent.

*“Market Capitalization”* means an amount equal to (i) the total number of issued and outstanding shares of common stock or common equity interests of the Issuer on the date of the declaration of the relevant dividend multiplied by (ii) the arithmetic mean of the closing prices per share of such common stock or common equity interests for the 30 consecutive trading days immediately preceding the date of declaration of such dividend.

*“Minority Shareholder”* means each of Yedioth Communications Ltd., Fishman Family Properties Ltd., Fishman Family Properties Management (1988) Ltd. and Monitin Itonut Holdings (1985) Ltd.

*“Minority Shareholder Call Option”* means the right provided to a Minority Shareholder to purchase shares of Capital Stock of HOT pursuant to the applicable Minority Shareholder Purchase Agreement.

*“Minority Shareholder Purchase Agreements”* means each of (a) the Agreement, dated as of November 5, 2012 entered into by and between Yedioth Communications Ltd., a company incorporated in Israel with a registered address of 2 Mozes Street, Tel Aviv, Israel and the Company and (b) the Agreement dated as of November 5, 2012 entered into by and among Fishman Family Properties Ltd. and Fishman Family Properties Management (1988) Ltd., each a company incorporated in Israel with a registered address of 20 Lincoln Street, Tel Aviv, Israel, and Monitin Itonut Holdings (1985) Ltd., a company incorporated in Israel with a registered address of 53 Etzel Street, Rishon Lezion 75706, Israel and the Company, in each case providing for waiver of certain consent rights relating to the Original HOT Transactions and granting of the Minority

Shareholder Call Option as consideration therefor, in each case as in effect on December 12, 2012 except for amendments that are not materially adverse to the interests of the Holders of the Notes.

“*Moody’s*” means Moody’s Investors Service, Inc. or any of its successors or assigns that is a Nationally Recognized Statistical Rating Organization.

“*Nationally Recognized Statistical Rating Organization*” shall have the same meaning as used in Section 3(a)(62) of the Exchange Act.

“*Net Available Cash*” from an Asset Disposition means cash payments received (including any cash payments received by way of deferred payment of principal pursuant to a note or installment receivable or otherwise and net proceeds from the sale or other disposition of any securities received as consideration, but only as and when received, but excluding any other consideration received in the form of assumption by the acquiring person of Indebtedness or other obligations relating to the properties or assets that are the subject of such Asset Disposition or received in any other non-cash form) therefrom, in each case net of:

- (1) all legal, accounting, investment banking, title and recording tax expenses, commissions and other fees and expenses Incurred, and all Taxes paid or required to be paid or accrued as a liability under IFRS (after taking into account any available tax credits or deductions and any Tax Sharing Agreements), as a consequence of such Asset Disposition;
- (2) all payments made on any Indebtedness which is secured by any assets subject to such Asset Disposition, in accordance with the terms of any Lien upon such assets, or which must by its terms, or in order to obtain a necessary consent to such Asset Disposition, or by applicable law, be repaid out of the proceeds from such Asset Disposition;
- (3) all distributions and other payments required to be made to minority interest holders (other than any Parent, the Issuer or any of their respective Subsidiaries) in Subsidiaries or joint ventures as a result of such Asset Disposition; and
- (4) the deduction of appropriate amounts required to be provided by the seller as a reserve, on the basis of IFRS, against (a) any liabilities associated with the assets disposed in such Asset Disposition and retained by the Issuer or any Restricted Subsidiary after such Asset Disposition; or (b) any purchase price adjustment or earn-out in connection with such Asset Disposition.

*“Opinion of Counsel”* means a written opinion from legal counsel reasonably satisfactory to the Trustee, which opinion may contain customary assumptions and qualifications. The counsel may be an employee of or counsel to any Parent, the Issuer or any of their Subsidiaries.

*“Original HOT Transactions”* the transactions consummated on December 27, 2012 pursuant to which Cool acquired all of the remaining shares of HOT and repaid certain indebtedness of Cool and HOT.

*“Parent”* means any Person of which the Issuer at any time is or becomes a Subsidiary and any holding companies established by any Permitted Holder for purposes of holding its investment in any Parent.

*“Parent Expenses”* means:

- (1) costs (including all professional fees and expenses) Incurred by any Parent in connection with reporting obligations under or otherwise Incurred in connection with compliance with applicable laws, rules or regulations of any governmental, regulatory or self-regulatory body or stock exchange, the Indenture or any other agreement or instrument relating to Indebtedness of a Parent, the Issuer or any Restricted Subsidiary, including in respect of any reports filed with respect to the Securities Act, Exchange Act or the respective rules and regulations promulgated thereunder;
- (2) customary indemnification obligations of any Parent owing to directors, officers, employees or other Persons under its charter or by-laws or pursuant to written agreements with any such Person to the extent relating to a Parent, the Issuer or their respective Subsidiaries;
- (3) obligations of any Parent in respect of director and officer insurance (including premiums therefor) to the extent relating to a Parent, the Issuer or their respective Subsidiaries and reasonable fees and reimbursement of expenses to, and customary indemnities and employee benefit and pension expenses provided on behalf of, directors, officers, consultants or employees of the Issuer, any Restricted Subsidiary or any Parent (whether directly or indirectly and including through any Person owned or controlled by any of such directors, officers or employees)
- (4) fees and expenses payable by any Parent in connection with the December 2013 Transactions, the July 2013 Transactions, the Original Hot Transactions and the Transactions;
- (5) general corporate overhead expenses, including (a) professional fees and expenses and other operational expenses of any Parent related to the ownership or operation of the business of the Issuer or any of the Restricted Subsidiaries including acquisitions or dispositions by the Issuer or a Subsidiary permitted hereunder (whether or not successful), in each case, to the extent such costs, obligations and/or expenses are not paid by another Subsidiary of such or (b) costs and expenses with respect to any litigation or other dispute relating to the Transactions;
- (6) any fees and expenses required to maintain any Parent’s corporate existence and to provide for other ordinary course operating costs, including customary salary, bonus and other benefits payable to officers and employees of such Parent;
- (7) to reimburse out-of-pocket expenses of the Board of Directors of any Parent and payment of all reasonable out-of-pocket expenses Incurred by any Permitted Holder in connection with its direct or indirect investment in the Issuer and its Subsidiaries;
- (8) other fees, expenses and costs relating directly or indirectly to activities of the Issuer and its Subsidiaries or any Parent or any other Person established for purposes of or in connection with the December 2013 Transactions, the July 2013 Transactions, the Original Hot Transaction and the Transactions or which holds directly or indirectly any Capital Stock or Subordinated Shareholder Funding of the Issuer, in an amount not to exceed €15 million in any fiscal year;
- (9) any Public Offering Expenses; and
- (10) payments pursuant to any Tax Sharing Agreement in the ordinary course of business or as a result of the formation and maintenance of any consolidated group for tax or accounting purposes in the ordinary course of business.

“*Pari Passu Indebtedness*” means (1) with respect to the Issuer, any Indebtedness that ranks pari passu in right of payment to the Notes; and (2) with respect to the Guarantors, any Indebtedness that ranks pari passu in right of payment to such Guarantor’s Guarantee of the Notes.

“*Paying Agent*” means any Person authorized by the Issuer to pay the principal of (and premium, if any) or interest on any Note on behalf of the Issuer.

“*Permitted Asset Swap*” means the concurrent purchase and sale or exchange of assets used or useful in a Similar Business or a combination of such assets and cash, Cash Equivalents or Temporary Cash Investments between the Issuer or any of the Restricted Subsidiaries and another Person; *provided* that any cash or Cash Equivalents received in excess of the value of any cash or Cash Equivalents sold or exchanged must be applied in accordance with the covenant described under “—*Certain Covenants—Limitation on Sales of Assets and Subsidiary Stock*”.

“*Permitted Collateral Liens*” means:

- (1) Liens on the Notes Collateral that are described in one or more of clauses (2), (3), (4), (5), (6), (8), (9), (11), (12), (13), (18), (20), (23), (24) and (28) of the definition of “Permitted Liens”;
- (2) Liens on the Notes Collateral (other than any Notes Collateral subject to the Escrow Assignment) to secure (a) the Notes issued on the Issue Date (other than any Additional Notes) and the Note Guarantees thereof, (b) Indebtedness that is permitted to be Incurred under sub-clause (3) the first paragraph of the covenant described under “—*Certain Covenants—Limitation on Indebtedness*”, (c) Indebtedness that is permitted to be Incurred under clauses (1)(c) (which may be Super Priority Indebtedness), (2)(a) (in the case of (2)(a), to the extent such Guarantee is in respect of Indebtedness otherwise permitted to be secured on the Notes Collateral and specified in this definition of Permitted Collateral Liens), (7)(a) (to the extent relating to Currency Agreements or Interest Rate Agreements related to Indebtedness of the Issuer) (which may be Super Priority Indebtedness); (14) (so long as, in the case of clause (14), on the date of Incurrence of Indebtedness pursuant to such clause (14) and after giving effect thereto on a *pro forma* basis (including a *pro forma* application of the net proceeds therefrom) as if such Indebtedness had been Incurred at the beginning of the relevant period, the Consolidated Net Leverage Ratio of the Issuer is no greater than 4.0 to 1.0) and (15)(a) under the second paragraph of the covenant described under “—*Certain Covenants—Limitation on Indebtedness*” and (c) any Refinancing Indebtedness in respect of Indebtedness referred to in the foregoing clause (a), (b) or (c), *provided, however*, that (i) such Lien shall rank *pari passu* or junior to the Liens securing the Notes and the Note Guarantees; (ii) in each case, all property and assets (including, without limitation, the Notes Collateral) securing such Indebtedness also secure the Notes or the Note Guarantees on a senior or *pari passu* basis; and (iii) each of the parties thereto will have entered into the Intercreditor Agreement or an Additional Intercreditor Agreement.

“*Permitted Holders*” means, collectively, (1) the Investor, (2) Investor Affiliates and (3) any Person who is acting as an underwriter in connection with a public or private offering of Capital Stock of any Parent or the Issuer, acting in such capacity. Any person or group whose acquisition of beneficial ownership constitutes a Change of Control in respect of which a Change of Control Offer is made in accordance with the requirements of the Indenture thereafter, together with its Affiliates, constituted an additional Permitted Holder.

“*Permitted Investment*” means (in each case, by the Issuer or any of the Restricted Subsidiaries):

- (1) Investments in (a) a Restricted Subsidiary (including the Capital Stock of a Restricted Subsidiary) (other than any Investment in a Minority Shareholder Call Option or Minority Shareholder Purchase Agreement) or the Issuer or (b) any Person (including the Capital Stock of any such Person) that is engaged in any Similar Business and such Person will, upon the making of such Investment, become a Restricted Subsidiary, in each case other than Investments by Altice International or any of its Restricted Subsidiaries in Numericable or any of its Restricted Subsidiaries;
- (2) Investments in another Person if such Person is engaged in any Similar Business and as a result of such Investment such other Person is merged, consolidated or otherwise combined with or into, or transfers or conveys all or substantially all its assets to, the Issuer or a Restricted Subsidiary;

- (3) Investments in cash, Cash Equivalents or Temporary Cash Investments;
- (4) Investments in receivables owing to the Issuer or any Restricted Subsidiary created or acquired in the ordinary course of business and payable or dischargeable in accordance with customary trade terms; provided, however, that such trade terms may include such concessionary trade terms as the Issuer or any such Restricted Subsidiary deems reasonable under the circumstances;
- (5) Investments in payroll, travel and similar advances to cover matters that are expected at the time of such advances ultimately to be treated as expenses for accounting purposes and that are made in the ordinary course of business;
- (6) Management Advances;
- (7) Investments in Capital Stock, obligations or securities received in settlement of debts created in the ordinary course of business and owing to the Issuer or any Restricted Subsidiary (including obligations of trade creditors and customers), or as a result of foreclosure, perfection or enforcement of any Lien, or in satisfaction of judgments or pursuant to any plan of reorganization or similar arrangement including upon the bankruptcy or insolvency of a debtor or in compromise or resolution of any litigation, arbitration or other dispute;
- (8) Investments made as a result of the receipt of non-cash consideration from a sale or other disposition of property or assets, including an Asset Disposition, in each case, that was made in compliance with “—*Certain Covenants—Limitation on Sales of Assets and Subsidiary Stock*” and other Investments resulting from the disposition of assets in transactions excluded from the definition of “Asset Disposition” pursuant to the exclusions from such definition;
- (9) Investments in existence on, or made pursuant to legally binding commitments in existence on, the Issue Date;
- (10) Currency Agreements, Interest Rate Agreements, Commodity Hedging Agreements and related Hedging Obligations, which transactions or obligations are Incurred pursuant to clause (7) of the second paragraph of the covenant described under “—*Certain Covenants—Limitation on Indebtedness*”;
- (11) pledges or deposits with respect to leases or utilities provided to third parties in the ordinary course of business or Liens otherwise described in the definition of “Permitted Liens” or made in connection with Liens permitted under the covenant described under “—*Certain Covenants—Limitation on Liens*”;
- (12) any Investment to the extent made using Capital Stock of the Issuer (other than Disqualified Stock or Designated Preference Shares), Subordinated Shareholder Funding or Capital Stock of any Parent as consideration;
- (13) any transaction to the extent constituting an Investment that is permitted and made in accordance with the provisions of the second paragraph of the covenant described under “—*Certain Covenants—Limitation on Affiliate Transactions*” (except those described in clauses (1), (3), (6), (8), (9) and (12) of that paragraph);
- (14) Guarantees not prohibited by the covenant described under “—*Certain Covenants—Limitation on Indebtedness*” and (other than with respect to Indebtedness) guarantees, keepwells and similar arrangements in the ordinary course of business;
- (15) Investments in the Notes, any Additional Notes, the Numericable Notes (other than such Investments made by Altice International or any of its Restricted Subsidiaries), the Existing Altice International Indebtedness and loans under the Numericable Senior Credit Facility (other than such Investments made by Altice International or any of its Restricted Subsidiaries) and the Existing Altice International Senior Credit Facility;
- (16) (a) Investments acquired after the Issue Date as a result of the acquisition by the Issuer or any Restricted Subsidiary of another Person, including by way of a merger, amalgamation or consolidation

with or into the Issuer or any of its Restricted Subsidiaries in a transaction that is not prohibited by the covenant described under “—*Certain Covenants—Merger and Consolidation*” to the extent that such Investments were not made in contemplation of such acquisition, merger, amalgamation or consolidation and (b) Investments of a Restricted Subsidiary existing on the date such Person becomes a Restricted Subsidiary to the extent that such Investments were not made in contemplation of such Person becoming a Restricted Subsidiary;

- (17) (a) Investments by the Issuer and its Restricted Subsidiaries (other than Altice International, Numericable and their respective Restricted Subsidiaries), taken together with all other Investments made pursuant to this clause (17)(a) and at any time outstanding, in an aggregate amount at the time of such Investment not to exceed €50 million; (b) Investments by Altice International and its Restricted Subsidiaries, taken together with all other Investments made pursuant to this clause (17)(b) and at any time outstanding, in an aggregate amount at the time of such Investment not to exceed the greater of 3.0% of Altice International Total Assets and €90 million; and (c) Investments by Numericable and its Restricted Subsidiaries, taken together with all other Investments made pursuant to this clause (17)(c) and at any time outstanding, in an aggregate amount at the time of such Investment not to exceed the greater of 3.0% of Numericable Total Assets and €300 million; *provided* that, if an Investment is made pursuant to this clause (17) in a Person that is not a Restricted Subsidiary and such Person subsequently becomes a Restricted Subsidiary, such Investment shall thereafter be deemed to have been made pursuant to clause (1) or (2) of the definition of “Permitted Investments” and not this clause; and
- (18) Investments by Numericable and its Restricted Subsidiaries in joint ventures and similar entities and Unrestricted Subsidiaries having an aggregate fair market value, when taken together with all other Investments made pursuant to this clause (18) that are at the time outstanding, not to exceed the greater of €300 million and 3.0% of Numericable Total Assets at the time of such Investment (with the fair market value of each Investment being measured at the time made and without giving effect to subsequent changes in value).

“*Permitted Liens*” means, with respect to any Person:

- (1) (a) Liens on assets or property of Altice International or any of its Restricted Subsidiaries securing Indebtedness of Altice International or any of its Restricted Subsidiaries; (b) Liens on assets or property of Numericable or any of its Restricted Subsidiaries securing Indebtedness of Numericable or any of its Restricted Subsidiaries; and (c) other than with respect to the Restricted Subsidiaries described in clauses (a) and (b), Liens on assets or property of a Restricted Subsidiary (other than Altice International, Numericable or any of their respective Restricted Subsidiaries) that is not a Guarantor securing Indebtedness of such Restricted Subsidiary or another Restricted Subsidiary (other than Altice International, Numericable or any of their respective Restricted Subsidiaries) that is not a Guarantor;
- (2) pledges, deposits or Liens under workmen’s compensation laws, unemployment insurance laws, social security laws or similar legislation, or insurance related obligations (including pledges or deposits securing liability to insurance carriers under insurance or self-insurance arrangements and including Liens on insurance policies and proceeds thereof, or other deposits, to secure insurance premium financings), or in connection with bids, tenders, completion guarantees, contracts (other than for borrowed money) or leases, or to secure utilities, licenses, public or statutory obligations, or to secure surety, indemnity, judgment, appeal or performance bonds, guarantees of government contracts (or other similar bonds, instruments or obligations), or as security for contested taxes or import or customs duties or for the payment of rent, or other obligations of like nature, in each case Incurred in the ordinary course of business;
- (3) Liens imposed by law, including carriers’, warehousemen’s, mechanics’, landlords’, materialmen’s and repairmen’s or other like Liens, in each case for sums not yet overdue for a period of more than 60 days or that are bonded or being contested in good faith by appropriate proceedings;
- (4) Liens for taxes, assessments or other governmental charges not yet subject to penalties for non-payment or which are being contested in good faith by appropriate proceedings; *provided* that appropriate reserves required pursuant to IFRS have been made in respect thereof;

- (5) (a) Liens in favor of issuers of surety, performance or other bonds, guarantees or letters of credit or bankers' acceptances (not issued to support Indebtedness for borrowed money) issued pursuant to the request of and for the account of the Issuer or any Restricted Subsidiary in the ordinary course of its business and (b) Liens in connection with cash management programs established in the ordinary course of business;
- (6) encumbrances, ground leases, easements (including reciprocal easement agreements), survey exceptions, or reservations of, or rights of others for, licenses, rights of way, sewers, electric lines, telegraph and telephone lines and other similar purposes, or zoning, building codes or other restrictions (including minor defects or irregularities in title and similar encumbrances) as to the use of real properties or Liens incidental to the conduct of the business of the Issuer and the Restricted Subsidiaries or to the ownership of its properties which do not in the aggregate materially adversely affect the value of said properties or materially impair their use in the operation of the business of the Issuer and the Restricted Subsidiaries;
- (7) Liens on assets or property of the Issuer or any Restricted Subsidiary securing Hedging Obligations permitted under the Indenture;
- (8) leases, licenses, subleases and sublicenses of assets (including real property and intellectual property rights), in each case entered into in the ordinary course of business;
- (9) Liens arising out of judgments, decrees, orders or awards not giving rise to an Event of Default and notices of lis pendens and associated rights so long as any appropriate legal proceedings which may have been duly initiated for the review of such judgment, decree, order, award or notice have not been finally terminated or the period within which such proceedings may be initiated has not expired;
- (10) Liens on assets or property of the Issuer or any Restricted Subsidiary (including Capital Stock) for the purpose of securing Capitalized Lease Obligations or Purchase Money Obligations, or securing the payment of all or a part of the purchase price of, or securing other Indebtedness Incurred to finance or refinance the acquisition, improvement or construction of, assets or property acquired or constructed in the ordinary course of business; *provided* that (a) the aggregate principal amount of Indebtedness secured by such Liens is otherwise permitted to be Incurred under the Indenture (excluding Indebtedness Incurred pursuant to the first paragraph of the covenant described under "*Certain Covenants—Limitation on Indebtedness*") and (b) any such Lien may not extend to any assets or property of the Issuer or any Restricted Subsidiary other than assets or property acquired, improved, constructed or leased with the proceeds of such Indebtedness and any improvements or accessions to such assets and property;
- (11) Liens arising by virtue of any statutory or common law provisions relating to banker's Liens, rights of set-off or similar rights and remedies as to deposit accounts or other funds maintained with a depository or financial institution;
- (12) Liens arising from Uniform Commercial Code financing statement filings (or similar filings in other applicable jurisdictions) regarding operating leases entered into by the Issuer and the Restricted Subsidiaries in the ordinary course of business;
- (13) Liens existing on or provided for or required to be granted under written agreements existing on the Issue Date after giving effect to the Transactions and the Issuance of the Notes and the application of the proceeds thereof (including after such proceeds are released from the Escrow Account);
- (14) Liens on property, other assets or shares of stock of a Person at the time such Person becomes a Restricted Subsidiary (or at the time the Issuer or a Restricted Subsidiary acquires such property, other assets or shares of stock, including any acquisition by means of a merger, consolidation or other business combination transaction with or into the Issuer or any Restricted Subsidiary); *provided, however*, that such Liens are not created, Incurred or assumed in anticipation of or in connection with such other Person becoming a Restricted Subsidiary (or such acquisition of such property, other assets or stock); *provided, further*, that such Liens are limited to all or part of the same property, other assets or stock (plus improvements, accession, proceeds or dividends or distributions in connection with the

original property, other assets or stock) that secured (or, under the written arrangements under which such Liens arose, could secure) the obligations to which such Liens relate;

- (15) Liens on assets or property of the Issuer or any Restricted Subsidiary securing Indebtedness or other obligations of the Issuer or such Restricted Subsidiary owing to the Issuer or another Restricted Subsidiary, or Liens in favor of the Issuer or any Restricted Subsidiary;
- (16) Liens securing Refinancing Indebtedness Incurred to refinance Indebtedness that was previously so secured, and permitted to be secured under the Indenture; *provided* that any such Lien is limited to all or part of the same property or assets (plus improvements, accessions, proceeds or dividends or distributions in respect thereof) that secured (or, under the written arrangements under which the original Lien arose, could secure) the Indebtedness being refinanced or is in respect of property that is or could be the security for or subject to a Permitted Lien hereunder;
- (17) any interest or title of a lessor under any Capitalized Lease Obligation or operating lease;
- (18) (a) mortgages, liens, security interest, restrictions, encumbrances or any other matters of record that have been placed by any government, statutory or regulatory authority, developer, landlord or other third party on property over which the Issuer or any Restricted Subsidiary has easement rights or on any leased property and subordination or similar arrangements relating thereto and (b) any condemnation or eminent domain proceedings affecting any real property;
- (19) any encumbrance or restriction (including put and call arrangements) with respect to Capital Stock of, or assets owned by, any joint venture or similar arrangement pursuant to any joint venture or similar agreement;
- (20) Liens on property or assets under construction (and related rights) in favor of a contractor or developer or arising from progress or partial payments by a third party relating to such property or assets;
- (21) Liens on Receivables Assets Incurred in connection with a Qualified Receivables Financing;
- (22) Liens on Escrowed Proceeds for the benefit of the related holders of debt securities or other Indebtedness (or the underwriters or arrangers thereof) or on cash set aside at the time of the Incurrence of any Indebtedness or government securities purchased with such cash, in either case to the extent such cash or government securities prefund the payment of interest on such Indebtedness and are held in an escrow account or similar arrangement to be applied for such purpose;
- (23) bankers' Liens, Liens on specific items of inventory or other goods (and the proceeds thereof) of any Person securing such Person's obligations in respect of bankers' acceptances issued or created in the ordinary course of business of such Person to facilitate the purchase, shipment or storage of such inventory or other goods and Liens securing or arising by reason of any netting or set-off arrangement entered into in the ordinary course of banking or other trading activities;
- (24) Liens arising out of conditional sale, title retention, hire purchase, consignment or similar arrangements for the sale of goods entered into in the ordinary course of business, and pledges of goods, the related documents of title and/or other related documents arising or created in the ordinary course of business or operations as Liens only for Indebtedness to a bank or financial institution directly relating to the goods or documents on or over which the pledge exists;
- (25) Permitted Collateral Liens;
- (26) Liens on Capital Stock or other securities or assets of any Unrestricted Subsidiary that secure Indebtedness of such Unrestricted Subsidiary;
- (27) any security granted over Cash Equivalents in connection with the disposal thereof to a third party and Liens on cash, Cash Equivalents or other property arising in connection with the defeasance, discharge or redemption of Indebtedness;

- (28) (a) Liens created for the benefit of or to secure, directly or indirectly, the Notes, (b) Liens pursuant to the Intercreditor Agreement and the Numericable Group Intercreditor Agreement and (c) Liens in respect of property and assets securing Indebtedness if the recovery in respect of such Liens is subject to loss-sharing or similar provisions as among the Holders of the Notes and the creditors of such Indebtedness pursuant to the Intercreditor Agreement or an Additional Intercreditor Agreement;
- (29) Liens created on any asset of the Issuer or a Restricted Subsidiary established to hold assets of any stock option plan or any other management or employee benefit or incentive plan or unit trust of the Issuer or a Restricted Subsidiary securing any loan to finance the acquisition of such assets; and
- (30) Liens on property and assets of the Issuer and its Restricted Subsidiaries (other than Altice International, Numericable or any of their respective Restricted Subsidiaries) securing Indebtedness or other obligations of Issuer and such Restricted Subsidiaries not to exceed € 30 million at any time outstanding.

“*Person*” means any individual, corporation, partnership, joint venture, association, joint-stock company, trust, unincorporated organization, limited liability company, government or any agency or political subdivision thereof or any other entity.

“*Post-Closing Transactions*” means any of the following: (1) the winding-up of Ypso Holding S.à r.l. and (2) the release of any Notes Collateral or Guarantee granted by Ypso Holding S.à r.l. and (3) if required as result of the winding-up of Ypso Holding S.à r.l., the release followed by an immediate retaking of the share pledge over the Capital Stock of Ypso France S.à r.l.

“*Preferred Stock*”, as applied to the Capital Stock of any Person, means Capital Stock of any class or classes (however designated) which is preferred as to the payment of dividends or as to the distribution of assets upon any voluntary or involuntary liquidation or dissolution of such Person, over shares of Capital Stock of any other class of such Person.

“*Pro forma EBITDA*” means, for any period, the Consolidated EBITDA of the Issuer and the Restricted Subsidiaries (or, if the calculation relates to Altice International or Numericable, of Altice International and its Restricted Subsidiaries or Numericable and its Restricted Subsidiaries, as applicable), *provided* that for the purposes of calculating Pro forma EBITDA for such period, if, as of such date of determination:

- (1) since the beginning of such period the Issuer or any Restricted Subsidiary (or, if the calculation relates to Altice International or Numericable, Altice International or any of its Restricted Subsidiaries or Numericable or any of its Restricted Subsidiaries, as applicable) has disposed of any company, any business, or any group of assets constituting an operating unit of a business or otherwise ceases to be a Restricted Subsidiary (and is not a Restricted Subsidiary at the end of such period) (any such disposition, a “*Sale*”) or if the transaction giving rise to the need to calculate the Consolidated Net Leverage Ratio is such a Sale, Pro forma EBITDA for such period will be reduced by an amount equal to the Consolidated EBITDA (if positive) attributable to the assets which are the subject of such Sale for such period or increased by an amount equal to the Consolidated EBITDA (if negative) attributable thereto for such period; *provided* that if any such sale constitutes “discontinued operations” in accordance with IFRS, Consolidated Net Income shall be reduced by an amount equal to the Consolidated Net Income (if positive) attributable to such operations for such period or increased by an amount equal to the Consolidated Net Income (if negative) attributable thereto for such period;
- (2) since the beginning of such period, a Parent, the Issuer or any Restricted Subsidiary (or, if the calculation relates to Altice International or Numericable, Altice International or any of its Restricted Subsidiaries or Numericable or any of its Restricted Subsidiaries, as applicable) (by merger or otherwise) has made an Investment in any Person that thereby becomes a Restricted Subsidiary, or otherwise has acquired any company, any business, or any group of assets constituting an operating unit of a business or a Person otherwise becomes a Restricted Subsidiary (and remains a Restricted Subsidiary at the end of such period) (any such Investment, acquisition or designation, a “*Purchase*”), including any such Purchase occurring in connection with a transaction causing a calculation to be made hereunder, Pro forma EBITDA for such period will be calculated after giving pro forma effect thereto as if such Purchase occurred on the first day of such period; and

- (3) since the beginning of such period, any Person (that became a Restricted Subsidiary or was merged or otherwise combined with or into the Issuer or any Restricted Subsidiary (or, if the calculation relates to Altice International or Numericable, into Altice International or any of its Restricted Subsidiaries or Numericable or any of its Restricted Subsidiaries, as applicable) since the beginning of such period) will have made any Sale or any Purchase that would have required an adjustment pursuant to clause (1) or (2) above if made by the Issuer or a Restricted Subsidiary (or, if the calculation relates to Altice International or Numericable, by Altice International or any of its Restricted Subsidiaries or Numericable or any of its Restricted Subsidiaries, as applicable) since the beginning of such period, Pro forma EBITDA for such period will be calculated after giving pro forma effect thereto as if such Sale or Purchase occurred on the first day of such period.

For the purposes of this definition and the definitions of Consolidated EBITDA, Consolidated Income Taxes, Consolidated Interest Expense, Consolidated Net Income, Consolidated Net Leverage Ratio, Altice S.A. Proportionate Net Leverage Ratio and Altice France Proportionate Net Leverage Ratio (a) whenever *pro forma* effect is to be given to any transaction (including, without limitation, transactions listed in clauses (1)-(3) hereof) or calculation hereunder or such other definitions, the *pro forma* calculations will be as determined in good faith by a responsible financial or accounting officer of the Issuer (or, if the calculation relates to Altice International or Numericable, of Altice International or Numericable, as applicable) (including in respect of anticipated expense and cost reductions and synergies (other than revenue synergies)) (calculated on a *pro forma* basis as though such expense and cost reductions and synergies had been realized on the first day of the period for which Pro forma EBITDA is being determined and as though such cost savings, operating expense reductions and synergies were realized during the entirety of such period), (b) in determining the amount of Indebtedness outstanding on any date of determination, *pro forma* effect shall be given to any Incurrence, repayment, repurchase, defeasance or other acquisition, retirement or discharge of Indebtedness as if such transaction had occurred on the first day of the relevant period and (c) if any Indebtedness bears a floating rate of interest and is being given *pro forma* effect, the interest on such Indebtedness shall be calculated as if the rate in effect on the date of determination had been the applicable rate for the entire period (taking into account any Hedging Obligations applicable to such Indebtedness if such Hedging Obligation has a remaining term in excess of 12 months).

“*Proportionate Net Leverage Ratio*” means, as of any date of determination, the ratio of (A) the sum of (x) the aggregate outstanding Indebtedness of Altice France on a stand-alone basis (excluding (i) Hedging Obligations and (ii) any Guarantees of Indebtedness of the Issuer not prohibited by the covenant described under “—*Certain Covenants—Limitation on Indebtedness*” and “—*Limitations on Holding Company Activities*”), less the aggregate amount of cash and Cash Equivalents of Altice France and (y) in an amount proportionate to the Altice France’s equity interest in Numericable, the Consolidated Net Leverage of Numericable, to (B) in an amount proportionate to the Altice France’s equity interest in Numericable, the aggregate amount of Pro forma EBITDA of Numericable and its Restricted Subsidiaries for the period of the most recent two consecutive fiscal quarters ending prior to the date of such determination for which internal financial statements of Numericable are available multiplied by 2.0; *provided*, however, that the pro forma calculation of the Proportionate Net Leverage Ratio shall not give effect to (i) any Indebtedness Incurred on the date of determination pursuant to the provisions described in the second paragraph under the caption “—*Certain Covenants—Limitation on Indebtedness*” or (ii) the discharge on the date of determination of any Indebtedness to the extent that such discharge results from the proceeds Incurred pursuant to the provisions described in the second paragraph under the caption “—*Certain Covenants—Limitation on Indebtedness*”.

“*Public Company*” means that at least 5% of the shares of common stock or other common equity interests of the Issuer are listed on the Euronext Paris market of the NYSE Euronext.

“*Public Debt*” means any Indebtedness consisting of bonds, debentures, notes or other similar debt securities issued in (1) a public offering registered under the Securities Act or (2) a private placement to institutional investors that is underwritten for resale in accordance with Rule 144A or Regulation S under the Securities Act, whether or not it includes registration rights entitling the holders of such debt securities to registration thereof with the SEC for public resale.

“*Public Offering*” means any offering, including the Initial Public Offering, of shares of common stock or other common equity interests that are listed on an exchange or publicly offered (which shall include an offering pursuant to Rule 144A and/or Regulation S under the Securities Act to professional market investors or similar persons).

*“Public Offering Expenses”* means expenses Incurred by any Parent in connection with any Public Offering or any offering of Public Debt (whether or not successful):

- (1) where the net proceeds of such offering are intended to be received by or contributed or loaned to the Issuer or a Restricted Subsidiary;
- (2) in a pro-rated amount of such expenses in proportion to the amount of such net proceeds intended to be so received, contributed or loaned; or
- (3) otherwise on an interim basis prior to completion of such offering so long as any Parent shall cause the amount of such expenses to be repaid to the Issuer or the relevant Restricted Subsidiary out of the proceeds of such offering promptly if completed, in each case, to the extent such expenses are not paid by another Subsidiary of such Parent.

*“Purchase Money Obligations”* means any Indebtedness Incurred to finance or refinance the acquisition, leasing, construction or improvement of property (real or personal) or assets (including Capital Stock), and whether acquired through the direct acquisition of such property or assets or the acquisition of the Capital Stock of any Person owning such property or assets, or otherwise.

*“Qualified Receivables Financing”* means any Receivables Financing of a Receivables Subsidiary that meets the following conditions: (1) an Officer or the Board of Directors of the Issuer shall have determined in good faith that such Qualified Receivables Financing (including financing terms, covenants, termination events and other provisions) is in the aggregate economically fair and reasonable to the Issuer and the Receivables Subsidiary, (2) all sales of accounts receivable and related assets to the Receivables Subsidiary are made at fair market value (as determined in good faith by the Issuer), and (3) the financing terms, covenants, termination events and other provisions thereof shall be on market terms (as determined in good faith by the Issuer) and may include Standard Securitization Undertakings.

The grant of a security interest in any accounts receivable of the Issuer or any Restricted Subsidiary (other than a Receivables Subsidiary) to secure Indebtedness under a Credit Facility or Indebtedness in respect of the Notes shall not be deemed a Qualified Receivables Financing.

*“Rating Agencies”* means Moody’s and S&P or, in the event Moody’s or S&P no longer assigns a rating to the Notes, any other Nationally Recognized Statistical Rating Organization who assigns a rating to the Notes in lieu of the ratings by Moody’s or S&P.

*“Receivable”* means a right to receive payment arising from a sale or lease of goods or services by a Person pursuant to an arrangement with another Person pursuant to which such other Person is obligated to pay for goods or services under terms that permit the purchase of such goods and services on credit, as determined on the basis of IFRS.

*“Receivables Assets”* means any assets that are or will be the subject of a Qualified Receivables Financing.

*“Receivables Fees”* means distributions or payments made directly or by means of discounts with respect to any participation interest issued or sold in connection with, and other fees paid to a Person that is not a Restricted Subsidiary in connection with, any Receivables Financing.

*“Receivables Financing”* means any transaction or series of transactions that may be entered into by the Issuer or any of its Subsidiaries pursuant to which the Issuer or any of its Subsidiaries may sell, convey or otherwise transfer to (a) a Receivables Subsidiary (in the case of a transfer by the Issuer or any of its Subsidiaries), or (b) any other Person (in the case of a transfer by a Receivables Subsidiary), or may grant a security interest in, any accounts receivable (whether now existing or arising in the future) of the Issuer or any of its Subsidiaries, and any assets related thereto, including all collateral securing such accounts receivable, all contracts and all guarantees or other obligations in respect of such accounts receivable, proceeds of such accounts receivable and other assets which are customarily transferred or in respect of which security interest are customarily granted in connection with asset securitization transactions involving accounts receivable and any Hedging Obligations entered into by the Issuer or any such Subsidiary in connection with such accounts receivable.

*“Receivables Repurchase Obligation”* means any obligation of a seller of receivables in a Qualified Receivables Financing to repurchase receivables arising as a result of a breach of a representation, warranty or covenant or otherwise, including as a result of a receivable or portion thereof becoming subject to any asserted defense, dispute, off-set or counterclaim of any kind as a result of any action taken by, any failure to take action by or any other event relating to the seller.

*“Receivables Subsidiary”* means a Wholly Owned Subsidiary of the Issuer (or another Person formed for the purposes of engaging in a Qualified Receivables Financing with the Issuer in which the Issuer or any Subsidiary of the Issuer (other than Numericable) makes an Investment and to which the Issuer or any Subsidiary of the Issuer transfers accounts receivable and related assets) which engages in no activities other than in connection with the financing of accounts receivable of the Issuer and its Subsidiaries, all proceeds thereof and all rights (contractual or other), collateral and other assets relating thereto, and any business or activities incidental or related to such business, and which is designated by the Board of Directors of the Issuer (as provided below) as a Receivables Subsidiary and:

- (1) no portion of the Indebtedness or any other obligations (contingent or otherwise) of which (i) is guaranteed by the Issuer or any other Restricted Subsidiary (excluding guarantees of obligations (other than the principal of, and interest on, Indebtedness) pursuant to Standard Securitization Undertakings), (ii) is subject to terms that are substantially equivalent in effect to a guarantee of any losses on securitized or sold receivables by the Issuer or any other Restricted Subsidiary, (iii) is recourse to or obligates the Issuer or any other Restricted Subsidiary in any way other than pursuant to Standard Securitization Undertakings, or (iv) subjects any property or asset of the Issuer or any Restricted Subsidiary, directly or indirectly, contingently or otherwise, to the satisfaction thereof, other than pursuant to Standard Securitization Undertakings;
- (2) with which neither the Issuer nor any other Restricted Subsidiary has any material contract, agreement, arrangement or understanding other than on terms which the Issuer reasonably believes to be no less favorable to the Issuer or such Restricted Subsidiary than those that might be obtained at the time from Persons that are not Affiliates of the Issuer; and
- (3) to which neither the Issuer nor any other Restricted Subsidiary has any obligation to maintain or preserve such entity’s financial condition or cause such entity to achieve certain levels of operating results.

Any such designation by the Board of Directors of the Issuer shall be evidenced to the Trustee by filing with the Trustee a copy of the resolution of the Board of Directors of the Issuer giving effect to such designation and an Officer’s Certificate certifying that such designation complied with the foregoing conditions.

*“Refinance”* means refinance, refund, replace, renew, repay, modify, restate, defer, substitute, supplement, reissue, resell, extend or increase (including pursuant to any defeasance or discharge mechanism) and the terms *“refinances”*, *“refinanced”* and *“refinancing”* as used for any purpose in the Indenture shall have a correlative meaning.

*“Refinancing Indebtedness”* means Indebtedness of the Issuer or any Restricted Subsidiary to refund, refinance, replace, exchange, renew, repay or extend (including pursuant to any defeasance or discharge mechanism) any Indebtedness existing on the date of the Indenture or Incurred in compliance with the Indenture including Indebtedness that refinances Refinancing Indebtedness; *provided, however*, that:

- (1) if the Indebtedness being refinanced constitutes Subordinated Indebtedness, the Refinancing Indebtedness has a final stated maturity at the time such Refinancing Indebtedness is Incurred that is the same as or later than the final stated maturity of the Indebtedness being refinanced or, if shorter, the Notes;
- (2) such Refinancing Indebtedness is Incurred in an aggregate principal amount (or if issued with original issue discount, an aggregate issue price) that is equal to or less than the sum of the aggregate principal amount (or if issued with original issue discount, the aggregate accreted value) then outstanding of the Indebtedness being refinanced (plus, without duplication, any additional Indebtedness Incurred to pay interest or premiums required by the instruments governing such existing Indebtedness and costs, expenses and fees Incurred in connection therewith);

- (3) if the Indebtedness being refinanced is expressly subordinated to the Notes or any Note Guarantee, such Refinancing Indebtedness is subordinated to the Notes or such Note Guarantee, as applicable, on terms at least as favorable to the Holders as those contained in, the documentation governing the Indebtedness being refinanced; and
- (4) if the Issuer or any Guarantor was the obligor on the Indebtedness being refinanced, such Indebtedness is Incurred either by the Issuer or by a Guarantor,

*provided, however*, that Refinancing Indebtedness shall not include (i) Indebtedness of the Issuer or any Restricted Subsidiary that refinances Indebtedness of an Unrestricted Subsidiary, (ii) Indebtedness of the Issuer owing to and held by the Issuer or any Restricted Subsidiary or Indebtedness of a Restricted Subsidiary owing to and held by the Issuer or any other Restricted Subsidiary, (iii) Indebtedness of Altice International or any Restricted Subsidiary of Altice International that refinances Indebtedness of Numericable or any Restricted Subsidiary of Numericable, (iv) Indebtedness of the Issuer or any of its Restricted Subsidiaries (other than Altice International, Numericable or any of their respective Restricted Subsidiaries) that refinances Indebtedness of Altice International, Numericable or any of their respective Restricted Subsidiaries.

“*Refinancing Transactions*” means the refinancing of all of the outstanding Indebtedness of the Numericable Group as described in the Offering Memorandum under “The Transactions”.

“*Related Taxes*” means, without duplication (including, for the avoidance of doubt, without duplication of any amounts paid pursuant to any Tax Sharing Agreement):

- (1) any Taxes, including sales, use, transfer, rental, ad valorem, value added, stamp, property, consumption, franchise, license, capital, registration, business, customs, net worth, gross receipts, excise, occupancy, intangibles or similar Taxes (other than (x) Taxes measured by income and (y) withholding taxes), required to be paid (provided such Taxes are in fact paid) by any Parent by virtue of its:
  - (a) being incorporated or otherwise being established or having Capital Stock outstanding (but not by virtue of owning stock or other equity interests of any corporation or other entity other than, directly or indirectly, the Issuer or any Subsidiary of the Issuer);
  - (b) issuing or holding Subordinated Shareholder Funding;
  - (c) being a holding company parent, directly or indirectly, of the Issuer or any Subsidiary of the Issuer;
  - (d) receiving dividends from or other distributions in respect of the Capital Stock of, directly or indirectly, the Issuer or any Subsidiary of the Issuer; or
  - (e) having made any payment in respect to any of the items for which the Issuer is permitted to make payments to any Parent pursuant to “—*Certain Covenants—Limitation on Restricted Payments*”; or
- (2) if and for so long as the Issuer is a member of a group filing a consolidated or combined tax return with any Parent, any Taxes measured by income for which such Parent is liable up to an amount not to exceed with respect to such Taxes the amount of any such Taxes that the Issuer and Subsidiaries of the Issuer would have been required to pay on a separate company basis or on a consolidated basis if the Issuer and the Subsidiaries of the Issuer had paid tax on a consolidated, combined, group, affiliated or unitary basis on behalf of an affiliated group consisting only of the Issuer and the Subsidiaries of the Issuer.

“*Representative*” means any trustee, agent or representative (if any) for an issue of Indebtedness or the provider of Indebtedness (if provided on a bilateral basis), as the case may be.

“*Restricted Investment*” means any Investment other than a Permitted Investment.

“*Restricted Subsidiary*” means a Subsidiary of the Issuer other than an Unrestricted Subsidiary (or if the context requires, a Subsidiary of Altice International, Altice France or Numericable, as applicable, in each case other than an Unrestricted Subsidiary).

“*S&P*” means Standard & Poor’s Investors Ratings Services or any of its successors or assigns that is a Nationally Recognized Statistical Rating Organization.

“*SEC*” means the U.S. Securities and Exchange Commission.

“*Securities Act*” means the U.S. Securities Act of 1933, as amended, and the rules and regulations of the SEC promulgated thereunder, as amended.

“*Security Agent*” means Deutsche Bank AG, London Branch acting as security agent pursuant to the Intercreditor Agreement or such successor Security Agent or any delegate thereof as may be appointed thereunder or any such security agent, delegate or successor thereof pursuant to an Additional Intercreditor Agreement.

“*Security Documents*” means the security agreements, pledge agreements, collateral assignments, and any other instrument and document executed and delivered pursuant to the Indenture or otherwise or any of the foregoing, as the same may be amended, supplemented or otherwise modified from time to time, creating the security interests in the Notes Collateral as contemplated by the Indenture.

“*Significant Subsidiary*” means any Restricted Subsidiary that meets any of the following conditions:

- (1) the Issuer’s and the Restricted Subsidiaries’ investments in and advances to the Restricted Subsidiary exceed 10% of the total assets of the Issuer and the Restricted Subsidiaries on a consolidated basis as of the end of the most recently completed fiscal year;
- (2) the Issuer’s and the Restricted Subsidiaries’ proportionate share of the total assets (after intercompany eliminations) of the Restricted Subsidiary exceeds 10% of the total assets of the Issuer and the Restricted Subsidiaries on a consolidated basis as of the end of the most recently completed fiscal year; or
- (3) if positive, the Issuer’s and the Restricted Subsidiaries’ equity in the income from continuing operations before income taxes, extraordinary items and cumulative effect of a change in accounting principle of the Restricted Subsidiary exceeds 10% of such income of the Issuer and the Restricted Subsidiaries on a consolidated basis for the most recently completed fiscal year.

“*Similar Business*” means (a) any businesses, services or activities (including marketing) engaged in by the Issuer, the Target or any of their Subsidiaries on the Issue Date, (b) broadcast television, broadband and fixed and mobile telephony businesses, including the distribution, sale and for provision of mobile voice and data, fixed-line voice and internet services, transit voice traffic services and other services and equipment in relation thereto and (c) any businesses, services and activities (including marketing) engaged in by the Issuer, the Target or any of their Subsidiaries that are (i) related, complementary, incidental, ancillary or similar to any of the foregoing or (ii) are reasonable extensions or developments of any thereof.

“*Standard Securitization Undertakings*” means representations, warranties, covenants, indemnities and guarantees of performance entered into by the Issuer or any Subsidiary of the Issuer which the Issuer has determined in good faith to be customary in a Receivables Financing, including those relating to the servicing of the assets of a Receivables Subsidiary, it being understood that any Receivables Repurchase Obligation shall be deemed to be a Standard Securitization Undertaking.

“*Stated Maturity*” means, with respect to any installment of interest or principal on any series of Indebtedness, the date on which the payment of interest or principal was scheduled to be paid in the original documentation governing such Indebtedness, and will not include any contingent obligations to repay, redeem or repurchase any such interest or principal prior to the date originally scheduled for the payment thereof.

“*Subordinated Indebtedness*” means, in the case of the Issuer, any Indebtedness (whether outstanding on the Issue Date or thereafter Incurred) which is expressly subordinated or junior in right of payment to the

Notes or pursuant to a written agreement and, in the case of a Guarantor, any Indebtedness (whether outstanding on the Issue Date or thereafter Incurred) which is expressly subordinated or junior in right of payment to the Note Guarantee of such Guarantor.

“*Subordinated Shareholder Funding*” means, collectively, any funds provided to the Issuer by any Parent, any Affiliate of any Parent or any Permitted Holder or any Affiliate thereof, in exchange for or pursuant to any security, instrument or agreement other than Capital Stock, in each case issued to and held by any of the foregoing Persons, together with any such security, instrument or agreement and any other security or instrument other than Capital Stock issued in payment of any obligation under any Subordinated Shareholder Funding; *provided, however*, that such Subordinated Shareholder Funding:

- (1) does not mature or require any amortization, redemption or other repayment of principal or any sinking fund payment prior to the first anniversary of the Stated Maturity of the Notes (other than through conversion or exchange of such funding into Capital Stock (other than Disqualified Stock) of the Issuer or any funding meeting the requirements of this definition) or the making of any such payment prior to the first anniversary of the Stated Maturity of the Notes is restricted by the Intercreditor Agreement, an Additional Intercreditor Agreement or another intercreditor agreement;
- (2) does not require, prior to the first anniversary of the Stated Maturity of the Notes, payment of cash interest, cash withholding amounts or other cash gross-ups, or any similar cash amounts or the making of any such payment prior to the first anniversary of the Stated Maturity of the Notes is restricted by the Intercreditor Agreement or an Additional Intercreditor Agreement;
- (3) contains no change of control or similar provisions and does not accelerate and has no right to declare a default or event of default or take any enforcement action or otherwise require any cash payment, in each case, prior to the date that is six months following the Stated Maturity of the Notes or the payment of any amount as a result of any such action or provision or the exercise of any rights or enforcement action, in each case, prior to the date that is six months following the Stated Maturity of the Notes, is restricted by the Intercreditor Agreement or an Additional Intercreditor Agreement;
- (4) does not provide for or require any security interest or encumbrance over any asset of the Issuer or any of the Restricted Subsidiaries; and
- (5) pursuant to its terms or to the Intercreditor Agreement, an Additional Intercreditor Agreement or another intercreditor agreement, is fully subordinated and junior in right of payment to the Notes pursuant to subordination, payment blockage and enforcement limitation terms which are customary in all material respects for similar funding or are no less favorable in any material respect to Holders than those contained in the Intercreditor Agreement as in effect on the Issue Date.

“*Subsidiary*” means, with respect to any Person:

- (1) any corporation, association, or other business entity (other than a partnership, joint venture, limited liability company or similar entity) of which more than 50% of the total ordinary voting power of shares of Capital Stock entitled (without regard to the occurrence of any contingency) to vote in the election of directors, managers or trustees thereof is at the time of determination owned or controlled, directly or indirectly, by such Person or one or more of the other Subsidiaries of that Person or a combination thereof; or
- (2) any partnership, joint venture, limited liability company or similar entity of which:
  - (a) more than 50% of the capital accounts, distribution rights, total equity and voting interests or general or limited partnership interests, as applicable, are owned or controlled, directly or indirectly, by such Person or one or more of the other Subsidiaries of that Person or a combination thereof whether in the form of membership, general, special or limited partnership interests or otherwise; and
  - (b) such Person or any Subsidiary of such Person is a controlling general partner or otherwise controls such entity.

“*Super Priority Indebtedness*” means any Indebtedness by the Issuer Incurred under a Credit Facility or Hedging Obligations that is or will be secured by the same Notes Collateral that secures the Notes but has priority over amounts received from the sale of the Notes Collateral pursuant to an enforcement sale or other distressed disposal of such Notes Collateral pursuant to the Intercreditor Agreement or any Additional Intercreditor Agreement.

“*Target*” means Société Française du Radiotéléphone S.A., a corporation incorporated and existing under the laws of France with registered office at 42 Avenue de Friedland, 75008, Paris and registered under sole identification number 343 059 564 RCS Paris.

“*Target Acquisition*” means the acquisition by Numericable (or one of its Restricted Subsidiaries) of all the Capital Stock of Target (other than 10 shares held by an individual shareholder) as described under “*The Transactions—Numericable Group Transactions—The Acquisition*” elsewhere in the Offering Memorandum.

“*Target Acquisition Agreement*” means collectively, (i) the share purchase agreement relating to the acquisition of the shares of the Target and another entity owned by the Seller that conducts certain operations of the Target and (ii) the contribution agreement relating to the contribution by the Seller to the Issuer of a portion of the Target’s shares, each in the form delivered with the binding offer submitted by the Issuer to the Seller on April 5, 2014 in connection with the Target Acquisition.

“*Target Group*” means the Target and its Subsidiaries.

“*Taxes*” has the meaning given to such term under “*Withholding Taxes*”.

“*Tax Sharing Agreement*” means any tax sharing or profit and loss pooling or similar agreement with customary or arm’s-length terms entered into with any Parent or Unrestricted Subsidiary, as the same may be amended, supplemented, waived or otherwise modified from time to time in accordance with the terms thereof and of the Indenture.

“*Temporary Cash Investments*” means any of the following:

- (1) any investment in:
  - (a) direct obligations of, or obligations Guaranteed by, (i) the United States of America, (ii) any European Union member state (other than Greece or Portugal), (iii) Switzerland, (iv) any country in whose currency funds are being held specifically pending application in the making of an investment or capital expenditure by the Issuer or a Restricted Subsidiary in that country with such funds or (v) any agency or instrumentality of any such country or member state, or
  - (b) direct obligations of any country recognized by the United States of America rated at least “A” by S&P or “A-1” by Moody’s (or, in either case, the equivalent of such rating by such organization or, if no rating of S&P or Moody’s then exists, the equivalent of such rating by any Nationally Recognized Statistical Rating Organization);
- (2) overnight bank deposits, and investments in time deposit accounts, certificates of deposit, bankers’ acceptances and money market deposits (or, with respect to foreign banks, similar instruments) maturing not more than one year after the date of acquisition thereof issued by:
  - (a) any institution authorized to operate as a bank in any of the countries or member states referred to in subclause (1)(a) above, or
  - (b) any bank or trust company organized under the laws of any such country or member state or any political subdivision thereof,

in each case, having capital and surplus aggregating in excess of € 250 million (or the foreign currency equivalent thereof) and whose long-term debt is rated at least “A” by S&P or “A-2” by Moody’s (or, in either case, the equivalent of such rating by such organization or, if no rating of S&P or Moody’s then exists, the equivalent of such rating by any Nationally Recognized Statistical Rating Organization) at the time such Investment is made;

- (3) repurchase obligations with a term of not more than 30 days for underlying securities of the types described in clause (1) or (2) above entered into with a Person meeting the qualifications described in clause (2) above;
- (4) Investments in commercial paper, maturing not more than 270 days after the date of acquisition, issued by a Person (other than the Issuer or any of its Subsidiaries), with a rating at the time as of which any Investment therein is made of “P-2” (or higher) according to Moody’s or “A-2” (or higher) according to S&P (or, in either case, the equivalent of such rating by such organization or, if no rating of S&P or Moody’s then exists, the equivalent of such rating by any Nationally Recognized Statistical Rating Organization);
- (5) Investments in securities maturing not more than one year after the date of acquisition issued or fully Guaranteed by any state, commonwealth or territory of the United States of America, any European Union member state (other than Greece or Portugal) or by any political subdivision or taxing authority of any such state, commonwealth, territory, country or member state, and rated at least “BBB–” by S&P or “Baa3” by Moody’s (or, in either case, the equivalent of such rating by such organization or, if no rating of S&P or Moody’s then exists, the equivalent of such rating by any Nationally Recognized Statistical Rating Organization);
- (6) bills of exchange issued in the United States of America or a member state of the European Union (other than Greece or Portugal) eligible for rediscount at the relevant central bank and accepted by a bank (or any dematerialized equivalent);
- (7) any money market deposit accounts issued or offered by a commercial bank organized under the laws of a country that is a member of the Organization for Economic Co-operation and Development, in each case, having capital and surplus in excess of €250 million (or the foreign currency equivalent thereof) or whose long term debt is rated at least “A” by S&P or “A-2” by Moody’s (or, in either case, the equivalent of such rating by such organization or, if no rating of S&P or Moody’s then exists, the equivalent of such rating by any Nationally Recognized Statistical Rating Organization) at the time such Investment is made;
- (8) investment funds investing 95% of their assets in securities of the type described in clauses (1) through (7) above (which funds may also hold reasonable amounts of cash pending investment and/or distribution); and
- (9) investments in money market funds complying with the risk limiting conditions of Rule 2a-7 (or any successor rule) of the SEC under the U.S. Investment Company Act of 1940, as amended.

“*Term Loans*” means the term loans extended to Numericable pursuant to the Numericable Senior Credit Facility.

“*Total Assets*” means the consolidated total assets of the Issuer and the Restricted Subsidiaries as shown on the most recent consolidated balance sheet of the Issuer prepared on the basis of IFRS prior to the relevant date of determination calculated to give pro forma effect to any acquisitions (including through mergers or consolidations) and dispositions that have occurred subsequent to such period, including any such acquisitions to be made with the proceeds of Indebtedness giving rise to the need to calculate Total Assets.

“*Transactions*” means the Issuer Transactions, the issuance of the Numericable Notes, the entry into, and drawing of loans under, the Numericable Senior Credit Facility, the entry into, and drawing of loans under the Numericable RCF, the Numericable Rights Issue, the Target Acquisition, the Refinancing Transactions, the entry into the Numericable Group Intercreditor Agreement and any other transactions or action in connection therewith.

“*Treasury Rate*” means, as of the applicable redemption date, the yield to maturity as of such redemption date of United States Treasury securities with a constant maturity (as compiled and published in the most recent Federal Reserve Statistical Release H. 15 (519) that has become publicly available at least two (2) Business Days prior to such redemption date (or, if such Statistical Release is no longer published, any publicly available source of similar market data)) most nearly equal to the period from such redemption date to May 15, 2017; *provided* that if the period from such redemption date to May 15, 2017 is less than one year, the

weekly average yield on actually traded United States Treasury securities adjusted to a constant maturity of one year will be used.

“U.S. GAAP” means generally accepted accounting principles in the United States of America as in effect from time to time.

“U.S. Government Obligations” means securities that are (a) direct obligations (or certificates representing an ownership interest in such obligations) of the United States of America, for the timely payment of which its full faith and credit is pledged or (b) obligations (or certificates representing an ownership interest in such obligations) of a Person controlled or supervised by and acting as an agency or instrumentality of the United States of America, rated at least “A-1” by S&P or “P-1” by Moody’s, and which are not callable or redeemable at the option of the issuer thereof.

“Uniform Commercial Code” means the New York Uniform Commercial Code.

“Unrestricted Subsidiary” means:

- (1) any Subsidiary of the Issuer that at the time of determination is an Unrestricted Subsidiary (as designated by the Board of Directors of the Issuer in the manner provided below); and
- (2) any Subsidiary of an Unrestricted Subsidiary.

The Board of Directors of the Issuer may designate any Subsidiary of the Issuer (other than Altice France, Numericable and Altice International) (including any newly acquired or newly formed Subsidiary or a Person becoming a Subsidiary through merger, consolidation or other business combination transaction, or Investment therein) to be an Unrestricted Subsidiary only if:

- (1) such Subsidiary or any of its Subsidiaries does not own any Capital Stock or Indebtedness of, or own or hold any Lien on any property of, the Issuer or any other Subsidiary of the Issuer which is not a Subsidiary of the Subsidiary to be so designated or otherwise an Unrestricted Subsidiary; and
- (2) such designation and the Investment of the Issuer and the Restricted Subsidiaries in such Subsidiary complies with “—Certain Covenants—Limitation on Restricted Payments”.

Any such designation by the Board of Directors of the Issuer shall be evidenced to the Trustee by filing with the Trustee a copy of the resolution of the Board of Directors of the Issuer giving effect to such designation and an Officer’s Certificate certifying that such designation complies with the foregoing conditions.

The Board of Directors of the Issuer may designate any Unrestricted Subsidiary to be a Restricted Subsidiary; *provided* that immediately after giving effect to such designation:

- (1) no Default or Event of Default would result therefrom; and
- (2) (i) (x) the Issuer could Incur at least €1.00 of additional Indebtedness under sub-clause (3) of the first paragraph of the covenant described under “—Certain Covenants—Limitation on Indebtedness” or (y) the Consolidated Net Leverage Ratio of the Issuer would be no higher than it was immediately prior to giving effect to such designation, in each case, on a pro forma basis taking into account such designation;
- (ii) if such Subsidiary will become a Restricted Subsidiary of Altice International, (x) Altice International could Incur at least €1.00 of additional Indebtedness under sub-clause (1) of the first paragraph of the covenant described under “—Certain Covenants—Limitation on Indebtedness” or (y) the Consolidated Net Leverage Ratio of Altice International would be no higher than it was immediately prior to giving effect to such designation, in each case, on a pro forma basis taking into account such designation; and
- (iii) if such Subsidiary will become a Restricted Subsidiary of Numericable, (x) Numericable could Incur at least €1.00 of additional Indebtedness under sub-clause (2) of the first paragraph of the covenant described under “—Certain Covenants—Limitation on Indebtedness” or (y) the Consolidated

Net Leverage Ratio of Numericable would be no higher than it was immediately prior to giving effect to such designation, in each case, on a pro forma basis taking into account such designation.

Any such designation by the Board of Directors shall be evidenced to the Trustee by promptly filing with the Trustee a copy of the resolution of the Board of Directors giving effect to such designation or an Officer's Certificate certifying that such designation complied with the foregoing provisions.

"*Voting Stock*" of a Person means all classes of Capital Stock of such Person then outstanding and normally entitled to vote in the election of directors.

"*Wholly Owned Subsidiary*" means a Restricted Subsidiary of a Person, all of the Capital Stock of which (other than directors' qualifying shares or shares required by any applicable law or regulation to be held by a Person other than such Person or another Wholly Owned Subsidiary of such Person) is owned by such Person or another Wholly Owned Subsidiary of such Person.

## **BOOK-ENTRY, DELIVERY AND FORM**

### **General**

Each series of the Notes sold outside the United States pursuant to Regulation S will initially be represented by one or more global notes in registered form without interest coupons attached (the “Regulation S Global Notes”). The Regulation S Global Notes representing the Dollar Notes (the “Dollar Regulation S Global Notes”) were deposited upon issuance with Deutsche Bank Trust Company Americas, as custodian for DTC and registered in the name of Cede & Co., as nominee of DTC. The Regulation S Global Notes representing the Euro Notes (the “Euro Regulation S Global Notes”) were deposited, on the Issue Date, with a common depositary and registered in the name of the nominee of the common depositary for the accounts of Euroclear and Clearstream.

Each series of the Notes sold within the United States to “qualified institutional buyers” pursuant to Rule 144A will initially be represented by one or more global notes in registered form without interest coupons attached (the “144A Global Notes” and, together with the Regulation S Global Notes, the “Global Notes”). The 144A Global Notes representing the Dollar Notes (the “Dollar 144A Global Notes”) will be deposited upon issuance with Deutsche Bank Trust Company Americas, as custodian for DTC and registered in the name of Cede & Co., as nominee of DTC. The 144A Global Notes representing the Euro Notes (the “Euro 144A Global Notes”) will be deposited, on the Issue Date, with a common depositary and registered in the name of the nominee of the common depositary for the accounts of Euroclear and Clearstream.

The Dollar 144A Global Notes and the Dollar Regulation S Global Notes are collectively referred to herein as the “Dollar Global Notes”. The Euro 144A Global Notes and the Euro Regulation S Global Notes are collectively referred to herein as the “Euro Global Notes”.

Ownership of interests in the 144A Global Notes (the “144A Book-Entry Interests”) and ownership of interests in the Regulation S Global Notes (the “Regulation S Book-Entry Interests” and, together with the 144A Book-Entry Interests, the “Book-Entry Interests”) will be limited to persons that have accounts with DTC, Euroclear and/or Clearstream or persons that may hold interests through such participants. Book-Entry Interests will be shown on, and transfers thereof will be effected only through, records maintained in book-entry form by DTC, Euroclear and Clearstream and their participants. The Book-Entry Interests in the Euro Global Notes are issued only in denominations of €100,000 and in integral multiples of €1,000 in excess thereof and the Book-Entry Interests in the Dollar Global Notes are issued only in denominations of \$200,000 and integral multiples of \$1,000 in excess thereof.

The Book-Entry Interests will not be held in definitive form. Instead, DTC, Euroclear and/or Clearstream, as applicable, will credit on their respective book-entry registration and transfer systems a participant’s account with the interest beneficially owned by such participant. The laws of some jurisdictions, including certain states of the United States, may require that certain purchasers of securities take physical delivery of such securities in definitive form. The foregoing limitations may impair the ability to own, transfer or pledge Book-Entry Interests. In addition, while the Notes are in global form, owners of interest in the Global Notes will not have the Notes registered in their names, will not receive physical delivery of the Notes in certificated form and will not be considered the registered owners or “holders” of the Notes, under each of the Indenture for any purpose.

So long as the Notes are held in global form, the common depositary for DTC, Euroclear and/or Clearstream (or their respective nominees), as applicable, will be considered the sole holders of Global Notes for all purposes under each of the Indenture. As such, participants must rely on the procedures of DTC, Euroclear and/or Clearstream, as applicable, and indirect participants must rely on the procedures of DTC, Euroclear and/or Clearstream, as applicable, and the participants through which they own Book-Entry Interests in order to exercise any rights of holders under each of the Indenture.

Neither we, the Registrar, Deutsche Bank Trust Company Americas, as custodian for DTC, nor the Trustee under each of the Indenture nor any of our respective agents will have any responsibility or be liable for any aspect of the records relating to the Book-Entry Interests.

## Issuance of Definitive Registered Notes

Under the terms of each of the Indenture, owners of Book-Entry Interests will receive definitive Notes in registered form (the “Definitive Registered Notes”):

- if DTC (with respect to the Dollar Global Notes), or Euroclear and Clearstream (with respect to the Euro Global Notes) notify the Issuer that it is unwilling or unable to continue to act as depositary and a successor depositary is not appointed by the Issuer within 120 days,
- if DTC (with respect to the Dollar Global Notes), or Euroclear or Clearstream (with respect to the Euro Global Notes) so requests following an event of default under the relevant Indenture, or
- if the owner of a Book-Entry Interest requests such exchange in writing delivered through DTC, Euroclear and/or Clearstream, as applicable, following an event of default under the Indenture.

In such an event, the Issuer will issue Definitive Registered Notes, registered in the name or names and issued in any approved denominations, requested by or on behalf of DTC, Euroclear and/or Clearstream, as applicable, or the Issuer, as applicable (in accordance with their respective customary procedures and based upon directions received from participants reflecting the beneficial ownership of Book-Entry Interests), and such Definitive Registered Notes will bear the restrictive legend referred to in “*Transfer Restrictions*”, unless that legend is not required by the applicable Indenture or applicable law.

To the extent permitted by law, we, the Trustee, the Paying Agent and the Registrar shall be entitled to treat the registered holder of any Global Note as the absolute owner thereof and no person will be liable for treating the registered holder as such.

We will not impose any fees or other charges in respect of the Notes, however, owners of the Book-Entry Interests may incur fees normally payable in respect of the maintenance and operation of accounts in DTC, Euroclear and/or Clearstream, as applicable.

## Redemption of the Global Notes

In the event any Global Note, or any portion thereof, is redeemed, DTC, Euroclear and/or Clearstream, as applicable, will distribute the amount received by it in respect of the Global Note so redeemed to the holders of the Book-Entry Interests in such Global Note from the amount received by it in respect of the redemption of such Global Note. The redemption price payable in connection with the redemption of such Book-Entry Interests will be equal to the amount received by DTC, Euroclear or Clearstream, as applicable, in connection with the redemption of such Global Note (or any portion thereof). We understand that under existing practices of DTC, Euroclear and Clearstream, if fewer than all of the Notes are to be redeemed at any time, DTC, Euroclear and Clearstream will credit their respective participants’ accounts on a proportionate basis (with adjustments to prevent fractions) or on such other basis as they deem fair and appropriate, *provided, however*, that no Book-Entry Interest of less than €100,000, in the case of the Euro Global Notes, or \$200,000, in the case of the Dollar Global Notes, principal amount at maturity, or less, may be redeemed in part.

## Payments on Global Notes

Payments of any amounts owing in respect of the Global Notes (including principal, premium, interest, additional interest and additional amounts) will be made by the Issuer to the Paying Agents. The Principal Paying Agent will, in turn, make such payments to Euroclear and Clearstream (in the case of the Euro Global Notes) and to DTC or its nominee (in the case of the Dollar Global Notes), which will distribute such payments to participants in accordance with their respective procedures.

Under the terms of each of the Indenture, the Issuer, the Trustee and the Paying Agents will treat the registered holder of the Global Notes (i.e., the nominee of DTC and the nominee of the common depositary for Euroclear or Clearstream) as the owner thereof for the purpose of receiving payments and for all other purposes. Consequently, neither we, the Trustee, the Registrar nor the Paying Agents or any of their respective agents has or will have any responsibility or liability for:

- any aspects of the records of DTC, Euroclear, Clearstream or any participant or indirect participant relating to or payments made on account of a Book-Entry Interest, for any such payments made by DTC, Euroclear, Clearstream or any participant or indirect participant, or for maintaining, supervising or reviewing the records of DTC, Euroclear, Clearstream or any participant or indirect participant relating to, or payments made on account of, a Book-Entry Interest,
- payments made by DTC, Euroclear, Clearstream or any participant or indirect participant, or for maintaining, supervising or reviewing the records of DTC, Euroclear, Clearstream or any participant or indirect participant relating to or payments made on account of a Book-Entry Interest,
- DTC, Euroclear, Clearstream or any participant or indirect participant, or
- the records of the common depository or custodian.

Payments by participants to owners of Book-Entry Interests held through participants are the responsibility of such participants, as is now the case with securities held for the accounts of subscribers registered in “street name”.

### **Currency and Payment for the Global Notes**

The principal of, premium, if any, and interest on, and all other amounts payable in respect of, the Euro Global Notes will be paid to holders of interest in such Notes (each a “Euroclear/Clearstream Holder” and together, the “Euroclear/Clearstream Holders”) through Euroclear and/or Clearstream, as applicable, in euro. The principal of, premium, if any, and interest on, and all other amounts payable in respect of, the Dollar Global Notes will be paid to holders of interest in such Notes (each a “DTC Holder” and together, the “DTC Holders”) through DTC in U.S. dollars.

Notwithstanding the payment provisions described above, Euroclear/Clearstream Holders may elect to receive payments in respect of the Euro Global Notes in U.S. dollars and DTC Holders may elect to receive payments in respect of the Dollar Global Notes in euro.

If so elected, a Euroclear/Clearstream Holder may receive payments of amounts payable in respect of its interest in the Euro Global Notes in U.S. dollars in accordance with Euroclear or Clearstream’s customary procedures, which include, among other things, giving to Euroclear or Clearstream, as appropriate, a notice of such holder’s election. All costs of conversion resulting from any such election will be borne by such Euroclear/Clearstream Holder.

If so elected, a DTC Holder may receive payment of amounts payable in respect of its interest in the Dollar Global Notes in euro in accordance with DTC’s customary procedures, which include, among other things, giving to DTC a notice of such holder’s election to receive payments in euro. All costs of conversion resulting from any such election will be borne by such DTC Holder.

### **Action by Owners of Book-Entry Interests**

DTC, Euroclear and Clearstream have advised the Issuer that they will take any action permitted to be taken by a holder of the Notes only at the direction of one or more participants to whose account the Book-Entry Interests in the Global Notes are credited and only in respect of such portion of the aggregate principal amount of the Notes as to which such participant or participants has or have given such direction. DTC, Euroclear and Clearstream will not exercise any discretion in the granting of consents, waivers or the taking of any other action in respect of the Global Notes. However, if there is an event of default under any of the Indenture, each of DTC, Euroclear and Clearstream reserves the right to exchange the Global Notes for Definitive Registered Notes in certificated form, and to distribute such Definitive Registered Notes to their respective participants.

### **Transfers**

Transfers between participants in DTC will be done in accordance with DTC rules and will be settled in immediately available funds. Transfer between participants in Euroclear and Clearstream will be done in accordance with Euroclear or Clearstream rules, as applicable and will be settled in immediately available funds.

If a holder requires physical delivery of Definitive Registered Notes for any reason, including to sell the Notes to persons in states which require physical delivery of such securities or to pledge such securities, such holder must transfer its interest in the Global Notes in accordance with the normal procedures of DTC, Euroclear or Clearstream, as applicable, and in accordance with the provisions of each of the Indentures.

The Global Notes will bear a legend to the effect set forth in “*Transfer Restrictions*”. Book-Entry Interests in the Global Notes are subject to the restrictions on transfer discussed in “*Transfer Restrictions*”.

Through and including the 40th day after the later of the commencement of the offering of the Notes and the closing of the offering (the “40-day Period”), beneficial interests in a Regulation S Global Note may be transferred to a person who takes delivery in the form of an interest in the Rule 144A Global Note denominated in the same currency only if such transfer is made pursuant to Rule 144A and the transferor first delivers to the Trustee a certificate (in the form provided in the Indenture) to the effect that such transfer is being made to a person who the transferor reasonably believes is a “qualified institutional buyer” within the meaning of Rule 144A in a transaction meeting the requirements of Rule 144A or otherwise in accordance with the transfer restrictions described under “*Transfer Restrictions*” and in accordance with all applicable securities laws of the states of the United States and other jurisdictions.

After the expiration of the 40-day Period, beneficial interests in a Regulation S Global Note may be transferred to a person who takes delivery in the form of a beneficial interest in the Rule 144A Global Note denominated in the same currency without compliance with these certification requirements.

Beneficial interests in a Rule 144A Global Note may be transferred to a person who takes delivery in the form of a beneficial interest in the Regulation S Global Note denominated in the same currency only upon receipt by the Trustee of a written certification (in the form provided in each of the Indenture) from the transferor to the effect that such transfer is being made in accordance with Regulation S or Rule 144 (if available).

Subject to the foregoing, and as set forth in “*Transfer Restrictions*”, Book-Entry Interests may be transferred and exchanged as described under “*Description of Notes—Transfer and Exchange*”. Any Book-Entry Interest in one of the Global Notes that is transferred to a person who takes delivery in the form of a Book-Entry Interest in the other Global Note of the same denomination will, upon transfer, cease to be a Book-Entry Interest in the first- mentioned Global Note and become a Book-Entry Interest in the other Global Note, and accordingly, will thereafter be subject to all transfer restrictions, if any, and other procedures applicable to Book-Entry Interests in such other Global Note for as long as it retains such a Book-Entry Interest.

Definitive Registered Notes may be transferred and exchanged for Book- Entry Interests in a Global Note only as described under “*Description of Notes—Transfer and Exchange*” and, if required, only if the transferor first delivers to the Trustee a written certificate (in the form provided in each of the Indenture) to the effect that such transfer will comply with the appropriate transfer restrictions applicable to such Notes. See “*Transfer Restrictions*”.

This paragraph refers to transfers and exchanges with respect to Dollar Global Notes only. Transfers involving an exchange of a Regulation S Book-Entry Interest for 144A Book-Entry Interest in a Dollar Global Note will be done by DTC by means of an instruction originating from the Trustee through the DTC Deposit/Withdrawal Custodian system. Accordingly, in connection with any such transfer, appropriate adjustments will be made to reflect a decrease in the principal amount of the relevant Regulation S Global Note and a corresponding increase in the principal amount of the corresponding 144A Global Note. The policies and practices of DTC may prohibit transfers of unrestricted Book-Entry Interests in the Regulation S Global Note prior to the expiration of the 40 days after the date of initial issuance of the Notes. Any Book-Entry Interest in one of the Global Notes that is transferred to a person who takes delivery in the form of a Book-Entry Interest in any other Global Note will, upon transfer, cease to be a Book- Entry Interest in the first mentioned Global Note and become a Book-Entry interest in such other Global Note, and accordingly will thereafter be subject to all transfer restrictions, if any, and other procedures applicable to Book-Entry Interests in such other Global Note for as long as it remains such a Book-Entry Interest.

## **Information Concerning DTC, Euroclear and Clearstream**

All Book-Entry Interests will be subject to the operations and procedures of DTC, Euroclear and Clearstream, as applicable. We provide the following summaries of those operations and procedures solely for the convenience of investors. The operations and procedures of each settlement system are controlled by that settlement system and may be changed at any time. Neither the Issuer, the Trustee, the Paying Agents, the Registrar, nor the Initial Purchasers are responsible for those operations or procedures. DTC has advised the Issuer that it is:

- a limited purpose trust company organized under New York Banking Law,
- a “banking organization” within the meaning of New York Banking Law,
- a member of the Federal Reserve System,
- a “clearing corporation” within the meaning of the New York Uniform Commercial Code, and
- a “clearing agency” registered pursuant to the provision of Section 17A of the U.S. Securities Exchange Act of 1934, as amended (the “U.S. Exchange Act”).

DTC holds and provides asset servicing for issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (that DTC’s direct participants deposit with DTC). DTC also facilitates the post-trade settlement among direct participants of sales and other securities transactions in deposited securities, through electronic book- entry transfers and pledges between direct participants’ accounts. DTC is a wholly owned subsidiary of The Depository Trust & Clearing Corporation (“DTCC”). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies and clearing corporations that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly.

Like DTC, Euroclear and Clearstream hold securities for participating organizations. They also facilitate the clearance and settlement of securities transactions between their respective participants through electronic book- entry changes in the accounts of such participants. Euroclear and Clearstream provide to their participants, among other things, services for safekeeping, administration, clearance, settlement, lending and borrowing of internationally traded securities. Euroclear and Clearstream interface with domestic securities markets. Euroclear and Clearstream participants are financial institutions, such as underwriters, securities brokers and dealers, banks, trust companies and certain other organizations. Indirect access to Euroclear and/or Clearstream is also available to others, such as banks, brokers, dealers and trust companies, that clear through or maintain a custodian relationship with a Euroclear and/or Clearstream participant, either directly or indirectly.

Because DTC, Euroclear and Clearstream can only act on behalf of participants, who in turn act on behalf of indirect participants and certain banks, the ability of an owner of a beneficial interest to pledge such interest to persons or entities that do not participate in the DTC, Euroclear or Clearstream systems, or otherwise take actions in respect of such interest, may be limited by the lack of a definite certificate for that interest. The laws of some jurisdictions require that certain persons take physical delivery of securities in definitive form. Consequently, the ability to transfer beneficial interests to such person may be limited. In addition, owners of beneficial interests through the DTC, Euroclear or Clearstream systems will receive distributions attributable to the 144A Global Notes only through DTC, Euroclear or Clearstream participants.

## **Global Clearance and Settlement Under the Book-Entry System**

The Notes represented by the Global Notes are expected to be admitted to the Official List of the Luxembourg Stock Exchange and to be admitted to trading on the Euro MTF market thereof and to trade in DTC’s Same-Day Funds Settlement System, and any permitted secondary market trading activity in such Notes will therefore be required by DTC to be settled in immediately available funds. The Issuer expect that secondary trading in any certificated Notes will also be settled in immediately available funds. Subject to compliance with the transfer restrictions applicable to the Global Notes, cross market transfers between participants in DTC, on the one hand, and Euroclear or Clearstream participants, on the other hand, will be done through DTC in

accordance with DTC's rules on behalf of each of Euroclear or Clearstream by its common depositary, however, such cross market transactions will require delivery of instructions to Euroclear or Clearstream by the counterparty in such system in accordance with the rules and regulations and within the established deadlines of such system (Brussels time). Euroclear or Clearstream will, if the transaction meets its settlement requirements, deliver instructions to the common depositary to take action to effect final settlement on its behalf by delivering or receiving interests in the Global Notes by DTC, and making and receiving payment in accordance with normal procedures for same-day funds settlement application to DTC. Euroclear participants and Clearstream participants may not deliver instructions directly to the common depositary.

Because of the time zone differences, the securities account of a Euroclear or Clearstream participant purchasing an interest in a Global Note from a participant in DTC will be credited, and any such crediting will be reported to the relevant Euroclear or Clearstream participant, during the securities settlement processing day (which must be a business day for Euroclear and Clearstream) immediately following the settlement date of DTC. Cash received in Euroclear and Clearstream as a result of a sale of an interest in a Global Note by or through a Euroclear or Clearstream participant to a participant in DTC, will be received with value on the settlement date of DTC, but will be available in the relevant Euroclear or Clearstream cash account only as of the business day for Euroclear or Clearstream following DTC's settlement date.

Although DTC, Euroclear and Clearstream currently follow the foregoing procedures in order to facilitate transfers of interests in the Global Notes among participants in DTC, Euroclear or Clearstream, as the case may be, they are under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued or modified at any time. Neither we, the Trustee, the Registrar nor the Principal Paying Agent will have any responsibility for the performance by DTC, Euroclear or Clearstream or their respective participants or indirect participants, of their respective obligations under the rules and procedures governing their operations.

### **Initial Settlement**

Initial settlement for the Notes are made in euro and U.S. dollars. Book-Entry Interests owned through DTC, Euroclear or Clearstream accounts will follow the settlement procedures applicable to conventional bonds in registered form. Book-Entry Interests will be credited to the securities custody accounts of DTC, Euroclear and Clearstream holders on the business day following the settlement date against payment for value on the settlement date.

### **Secondary Market Trading**

An application was made to the Luxembourg Stock Exchange for the Notes represented by the Global Notes to be admitted to listing on the official list of the Luxembourg Stock Exchange and trading on its Euro MTF Market. We expect that secondary trading in the Notes will also be settled in immediately available funds.

The Book-Entry Interests will trade through participants of DTC and Euroclear or Clearstream and will settle in same-day funds. Since the purchase determines the place of delivery, it is important to establish at the time of trading of any Book-Entry Interests where both the purchaser's and the seller's accounts are located to ensure that settlement can be made on the desired value date.

## TRANSFER RESTRICTIONS

The Notes have not been registered under the U.S. Securities Act or any other applicable securities laws, and unless so registered, the Notes may not be offered, sold, pledged or otherwise transferred within the United States or to, or for the account or benefit of any U.S. persons (as defined in Regulation S under the U.S. Securities Act) except pursuant to an exemption from, or a transaction not subject to, the registration requirements of the U.S. Securities Act and any other applicable securities laws. The Notes are being offered, sold and issued to (i) qualified institutional buyers in reliance on the exemption from the registration requirements of the U.S. Securities Act provided by Rule 144A or (ii) non-U.S. persons as defined in Rule 902 under the U.S. Securities Act in offshore transactions in reliance on Regulation S.

By purchasing the Notes, you will be deemed to have represented and agreed as follows (terms used in this paragraph that are defined in Rule 144A or Regulation S under the U.S. Securities Act are used herein as defined therein):

- (1) You are not acting on behalf of the Issuer and you (A) (i) are a “qualified institutional buyer” (as defined in Rule 144A under the U.S. Securities Act), (ii) are aware that the sale to you is being made in reliance on Rule 144A; and (iii) are acquiring the Notes for your own account or for the account of a qualified institutional buyer; or (B) are not a U.S. person (as defined in Regulation S under the U.S. Securities Act) (and are not purchasing the Notes for the account or benefit of a U.S. person, other than a distributor) and are purchasing the Notes in an offshore transaction pursuant to Regulation S.
- (2) You understand that the Notes are being offered in a transaction not involving any public offering in the United States within the meaning of the U.S. Securities Act, that the Notes have not been and will not be registered under the U.S. Securities Act or any other applicable securities laws and that (A) if in the future you decide to offer, resell, pledge or otherwise transfer any of the Notes, such Notes may be offered, resold, pledged or otherwise transferred only (i) for so long as the Notes are eligible for resale under Rule 144A, in the United States to a person whom you reasonably believe is a qualified institutional buyer in a transaction meeting the requirements of Rule 144A; (ii) outside the United States in a transaction complying with the provisions of Regulation S under the U.S. Securities Act; (iii) pursuant to a registration statement that has been declared effective under the U.S. Securities Act; (iv) to the Issuer; or (v) pursuant to another available exemption from the registration requirements of the U.S. Securities Act, subject to the Issuer’s and Trustee’s right prior to any such offer, sale or transfer pursuant to this clause (v) to require the delivery of an opinion of counsel, certification and/or other information satisfactory to them, in each case in accordance with any applicable securities laws; and (B) you will, and each subsequent holder is required to, notify any subsequent purchaser of the Notes from you or it of the resale restrictions referred to the legend below.
- (3) You acknowledge that none of us, the Initial Purchasers or any person representing us or the Initial Purchasers has made any representation to you with respect to us or the offer or sale of any of the Notes, other than by us with respect to the information contained in the Offering Memorandum, which Offering Memorandum has been delivered to you and upon which you are relying in making your investment decision with respect to the Notes. You acknowledge that the Initial Purchasers make no representation or warranty as to the accuracy or completeness of the Offering Memorandum. You have had access to such financial and other information concerning us and the Notes as you deemed necessary in connection with your decision to purchase any of the Notes, including an opportunity to ask questions of, and request information from, us and the Initial Purchasers.
- (4) You also acknowledge that:
  - (a) the Issuer and the Trustee reserve the right to require in connection with any offer, sale or other transfer of Notes under the paragraph two above the delivery of an opinion of counsel, certifications and/or other information satisfactory to the Issuer and the Trustee; and
  - (b) each Global Note contains a legend substantially to the following effect:

THIS NOTE HAS NOT BEEN REGISTERED UNDER THE U.S. SECURITIES ACT OF 1933, AS AMENDED (THE ‘U.S. SECURITIES ACT’), OR THE SECURITIES LAWS OF ANY STATE OR OTHER JURISDICTION. NEITHER THIS NOTE NOR ANY INTEREST OR PARTICIPATION HEREIN MAY BE

REOFFERED, SOLD, ASSIGNED, TRANSFERRED, PLEDGED, ENCUMBERED OR OTHERWISE DISPOSED OF UNLESS SUCH TRANSACTION IS EXEMPT FROM, OR NOT SUBJECT TO, SUCH REGISTRATION.

THE HOLDER OF THIS NOTE BY ITS ACCEPTANCE HEREOF (1) REPRESENTS THAT (A) IT IS A “QUALIFIED INSTITUTIONAL BUYER” (AS DEFINED IN RULE 144A UNDER THE SECURITIES ACT) OR (B) IT IS NOT A U.S. PERSON AND IS ACQUIRING THIS NOTE IN AN “OFFSHORE TRANSACTION” PURSUANT TO RULE 904 OF REGULATION S UNDER THE U.S. SECURITIES ACT, (2) AGREES ON ITS OWN BEHALF AND ON BEHALF OF ANY INVESTOR ACCOUNT FOR WHICH IT HAS PURCHASED NOTES, TO OFFER, SELL OR OTHERWISE TRANSFER SUCH NOTES, PRIOR TO THE DATE (THE “RESALE RESTRICTION TERMINATION DATE”) THAT IS [IN THE CASE OF RULE 144A NOTES: ONE YEAR] [IN THE CASE OF REGULATION S NOTES: 40 DAYS] AFTER THE LATER OF THE ORIGINAL ISSUE DATE HEREOF AND THE LAST DATE ON WHICH THE ISSUER OR ANY AFFILIATES OF THE ISSUER WAS THE OWNER OF THIS NOTE (OR ANY PREDECESSOR OF SUCH SECURITY), ONLY (A) TO THE ISSUER, (B) PURSUANT TO A REGISTRATION STATEMENT THAT HAS BEEN DECLARED EFFECTIVE UNDER THE U.S. SECURITIES ACT, (C) FOR SO LONG AS THE NOTES ARE ELIGIBLE FOR RESALE PURSUANT TO RULE 144A UNDER THE U.S. SECURITIES ACT, IN THE UNITED STATES TO A PERSON IT REASONABLY BELIEVES IS A “QUALIFIED INSTITUTIONAL BUYER” AS DEFINED IN RULE 144A UNDER THE U.S. SECURITIES ACT IN A TRANSACTION MEETING THE REQUIREMENTS OF RULE 144A, (D) OUTSIDE THE UNITED STATES IN A TRANSACTION COMPLYING WITH THE PROVISIONS OF REGULATIONS UNDER THE U.S., OR (E) PURSUANT TO ANOTHER AVAILABLE EXEMPTION FROM THE REGISTRATION REQUIREMENTS OF THE U.S. SECURITIES ACT, SUBJECT TO THE ISSUER’S AND THE TRUSTEE’S RIGHT PRIOR TO ANY SUCH OFFER, SALE OR TRANSFER PURSUANT TO CLAUSE (E) TO REQUIRE THE DELIVERY OF AN OPINION OF COUNSEL, CERTIFICATION AND/OR OTHER INFORMATION SATISFACTORY TO THEM. THIS LEGEND WILL BE REMOVED UPON THE REQUEST OF THE HOLDER AFTER THE RESALE RESTRICTION TERMINATION DATE.

BY ACCEPTING THIS NOTE (OR AN INTEREST IN THE NOTES REPRESENTED HEREBY) EACH ACQUIRER AND EACH TRANSFEREE IS DEEMED TO REPRESENT, WARRANT AND AGREE THAT AT THE TIME OF ITS ACQUISITION AND THROUGHOUT THE PERIOD THAT IT HOLDS THIS NOTE OR ANY INTEREST HEREIN (1) EITHER (A) IT IS NOT, AND IT IS NOT ACTING ON BEHALF OF (AND FOR SO LONG AS IT HOLDS SUCH NOTES OR ANY INTEREST THERE IN IT WILL NOT BE, AND WILL NOT BE ACTING ON BEHALF OF), AN EMPLOYEE BENEFIT PLAN (AS DEFINED IN SECTION 3(3) OF THE UNITED STATES EMPLOYEE RETIREMENT INCOME SECURITY ACT OF 1974, AS AMENDED (“ERISA”)), SUBJECT TO THE PROVISIONS OF PART 4 OF SUBTITLE B OF TITLE I OF ERISA, A PLAN TO WHICH SECTION 4975 OF THE UNITED STATES INTERNAL REVENUE CODE OF 1986, AS AMENDED, (“CODE”), APPLIES, OR ANY ENTITY WHOSE UNDERLYING ASSETS INCLUDE “PLAN ASSETS” BY REASON OF SUCH AN EMPLOYEE BENEFIT PLAN’S OR PLAN’S INVESTMENT IN SUCH ENTITY (EACH, A “BENEFIT PLAN INVESTOR”), OR A GOVERNMENTAL, CHURCH OR NON-U.S. PLAN WHICH IS SUBJECT TO ANY FEDERAL, STATE, LOCAL, NON-U.S. OR OTHER LAWS OR REGULATIONS THAT ARE SUBSTANTIALLY SIMILAR TO THE FIDUCIARY RESPONSIBILITY OR THE PROHIBITED TRANSACTION PROVISIONS OF ERISA OR SECTION 4975 OF THE CODE (“SIMILAR LAWS”), AND NO PART OF THE ASSETS USED BY IT TO ACQUIRE OR HOLD THIS NOTE OR ANY INTEREST HEREIN CONSTITUTES THE ASSETS OF ANY BENEFIT PLAN INVESTOR OR SUCH A GOVERNMENTAL, CHURCH OR NON-U.S. PLAN, OR (B) ITS ACQUISITION, HOLDING AND DISPOSITION OF THIS NOTE OR AN INTEREST HEREIN DOES NOT AND WILL NOT CONSTITUTE OR OTHERWISE RESULT IN A NON-EXEMPT PROHIBITED TRANSACTION UNDER SECTION 406 OF ERISA OR SECTION 4975 OF THE CODE (OR, IN THE CASE OF A GOVERNMENTAL, CHURCH OR NON-U.S. PLAN, A NON-EXEMPT VIOLATION OF ANY SIMILAR LAWS); (2) NEITHER ISSUER NOR ANY OF ITS AFFILIATES IS A “FIDUCIARY” (WITHIN THE MEANING OF SECTION 3(21) OF ERISA OR, WITH RESPECT TO A GOVERNMENTAL, CHURCH OR NON-U.S. PLAN, ANY DEFINITION OF “FIDUCIARY” UNDER SIMILAR LAWS) WITH RESPECT TO THE PURCHASER OR HOLDER IN CONNECTION WITH ANY PURCHASE OR HOLDING OF THE NOTES, OR AS A RESULT OF ANY EXERCISE BY THE ISSUER OR ANY OF ITS AFFILIATES OF ANY RIGHTS IN CONNECTION WITH THE NOTES, AND NO ADVICE PROVIDED BY THE ISSUER OR ANY OF ITS AFFILIATES HAS FORMED A PRIMARY BASIS FOR ANY INVESTMENT DECISION BY OR ON BEHALF OF THE PURCHASER AND HOLDER IN CONNECTION WITH THE NOTES AND THE TRANSACTIONS CONTEMPLATED WITH RESPECT TO THE NOTES;

AND (3) IT WILL NOT SELL OR OTHERWISE TRANSFER THIS NOTE OR ANY INTEREST HEREIN OTHER THAN TO A PURCHASER OR TRANSFEREE THAT IS DEEMED TO MAKE THESE SAME REPRESENTATIONS, WARRANTIES AND AGREEMENTS WITH RESPECT TO ITS ACQUISITION, HOLDING AND DISPOSITION OF THIS NOTE.

(c) The following legend shall also be included, if applicable:

THE FOLLOWING INFORMATION IS SUPPLIED SOLELY FOR U.S. FEDERAL INCOME TAX PURPOSES. THIS NOTE WAS ISSUED WITH "ORIGINAL ISSUE DISCOUNT" ("OID") WITHIN THE MEANING OF SECTION 1273 OF THE INTERNAL REVENUE CODE OF 1986, AS AMENDED (THE "CODE"), AND THIS LEGEND IS REQUIRED BY SECTION 1275(c) OF THE CODE: U.S. HOLDERS MAY OBTAIN INFORMATION REGARDING THE AMOUNT OF OID, IF ANY, THE ISSUE PRICE, THE ISSUE DATE AND YIELD TO MATURITY BY CONTACTING THE ISSUER, 3 BOULEVARD ROYAL, L-2449 LUXEMBOURG +352 226 05 640 ATTN: CHIEF FINANCIAL OFFICER.

If you purchase Notes, you will also be deemed to acknowledge that the foregoing restrictions apply to holders of beneficial interests in these Notes as well as to holders of these Notes.

- (1) You acknowledge that the registrar will not be required to accept for registration of transfer any Notes acquired by you, except upon presentation of evidence satisfactory to the Issuer and the registrar that the restrictions set forth herein have been complied with.
- (2) You acknowledge that:
  - (a) The Issuer, the Initial Purchasers and others will rely upon the truth and accuracy of your acknowledgments, representations and agreements set forth herein and you agree that, if any of your acknowledgments, representations or agreements herein cease to be accurate and complete, you will notify the Issuer and the Initial Purchasers promptly in writing; and
  - (b) if you are acquiring any Notes as a fiduciary or agent for one or more investor accounts, you represent with respect to each such account that:
    - (i) you have sole investment discretion; and
    - (ii) you have full power to make, and make, the foregoing acknowledgments, representations and agreements.
- (3) You agree that you will give to each person to whom you transfer the Notes notice of any restrictions on the transfer of the Notes.
- (4) You acknowledge that the above restrictions on resale will apply from the closing date until the date that is one year (in the case of the Notes issued under Rule 144A under the U.S. Securities Act) or 40 days (in the case of the Notes issued under Regulation S under the U.S. Securities Act) after the later of the closing date and the last date that the Issuer or any of its affiliates was the owner of the Notes or any predecessor of the Notes (the "*Resale Restriction Period*"), and will not apply after the applicable Resale Restriction Period ends.
- (5) The purchaser understands that no action has been taken in any jurisdiction (including the United States) by the Issuer or the Initial Purchasers that would permit a public offering of the Notes or the possession, circulation or distribution of the Offering Memorandum or any other material relating to the Issuer, the Notes in any jurisdiction where action for the purpose is required. Consequently, any transfer of the Notes are subject to the selling restrictions set forth hereunder and/or in the front of the Offering Memorandum under "*Notice to European Economic Area Investors*", "*Notice to Certain European Investors*", "*Notice to Israeli Investors*" and/or under "*Plan of Distribution*" or "*Certain Employee Benefit Plan Considerations*".

## TAX CONSIDERATIONS

### *EU Savings Directive*

On June 3, 2003, the Council of the European Union adopted the EU Savings Directive. According to the EU Savings Directive, effective as from July 1, 2005, Member States are required to provide to the tax authorities of another Member State details of payment of interest or other similar income within the meaning of the EU Savings Directive made by a paying agent established within its jurisdiction to an individual resident or certain entities called “Residual Entities” (within the meaning of the EU Savings Directive) established in that other Member State or in a Territory (as defined below).

However, for a transitional period, Luxembourg is permitted to apply a withholding tax system whereby if a beneficial owner (within the meaning of the EU Savings Directive) does not opt for the exchange of information or does not provide specific tax certificate reporting, the relevant Member State will levy a withholding tax on payments to such beneficial owner. The rate of withholding is 35% since July 1, 2011. The transitional period is to terminate at the end of the first full fiscal year following the agreement by certain countries to the exchange of information in relation to such payments. The Luxembourg government has announced that it will elect out of the withholding tax system in favor of the automatic exchange of information with effect as of January 1, 2015.

Also with effect from July 1, 2005, a number of non-E.U. countries (Switzerland, Andorra, Liechtenstein, Monaco and San Marino) and certain dependent or associated territories (including Jersey, Guernsey, Isle of Man, Montserrat, British Virgin Islands, Curaçao, Saba, Sint Eustatius, Bonaire, St. Maarten, Aruba, Cayman Islands, Turks and Caicos Islands and Anguilla) (the “Territories”) have agreed to adopt similar measures (either provision of information or transitional withholding) in relation to payments made by a paying agent (within the meaning of the EU Savings Directive) within its jurisdiction to, or collected by such a paying agent for, an individual resident or a Residual Entity established in a Member State. In addition, Luxembourg has entered into reciprocal provision of information or transitional withholding arrangements with certain of those dependent or associated territories in relation to payments made by a paying agent (within the meaning of the EU Savings Directive) in Luxembourg to, or collected by such a paying agent for, an individual resident or a Residual Entity (within the meaning of the EU Savings Directive) established in one of those Territories.

Investors should note that the European Council formally adopted a Council Directive amending the EU Savings Directive on 24 March 2014 (the “**Amending Directive**”). The Amending Directive broadens the scope of the requirements described above. Member States have until 1 January 2016 to adopt the national legislation necessary to comply with the Amending Directive. The changes made under the Amending Directive include extending the scope of the EU Savings Directive to payments made to, or secured for, certain other entities and legal arrangements. They also broaden the definition of “interest payment” to cover income that is equivalent to interest.

### *Luxembourg Taxation*

The following discussion summarizes certain important Luxembourg taxation principles that may be relevant to you if you invest in, own, hold or dispose of the Notes. Unless otherwise indicated, all information contained in this section is based on laws, regulations, practice and decision in effect in Luxembourg at the date of the Offering Memorandum (as referred to herein, collectively, “*Luxembourg Tax Laws*”), and as such, may be superseded after such date. Any subsequent changes to Luxembourg Tax Laws could apply retroactively and could affect the continued accuracy of this summary. This summary does not purport to be a comprehensive description of all Luxembourg Tax Laws and Luxembourg tax considerations that may be relevant to a decision to invest in, own, hold, or dispose of the Notes and is not intended as tax advice to any particular investor or potential investor in the Notes. You should consult your own tax advisors about the tax consequences of investing in, owning, holding or disposing of the Notes (including with respect to receiving interest on and redeeming the Notes). This summary does not describe any tax consequences arising under the laws of any state, locality or other taxing jurisdiction other than Luxembourg.

The residence concept used below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a tax, duty, levy impost or other charge or withholding of a similar nature refers to Luxembourg Tax Laws and/or concepts only. Any reference to Luxembourg income tax encompasses corporate income tax (*impôt sur le revenu des collectivités*), municipal business tax (*impôt commercial*

*communal*), a solidarity surcharge (*contribution au fonds pour l'emploi*), as well as personal income tax (*impôt sur le revenu*) generally. Corporate Noteholders may further be subject to net wealth tax (*impôt sur la fortune*) as well as other duties, levies or taxes. Corporate income tax, municipal business tax as well as the solidarity surcharge invariably apply to most corporate taxpayers resident of Luxembourg for tax purposes. Individual taxpayers are generally subject to personal income tax and the solidarity surcharge. Under certain circumstances, where an individual taxpayer acts in the course of the management of a professional or business undertaking, municipal business tax may apply as well.

### ***Luxembourg tax residency of the Noteholders***

A Luxembourg non-resident Noteholder will not become resident, nor be deemed to be resident, in Luxembourg by reason only of the holding of the Notes, or the execution, performance, delivery and/or enforcement of their entitlements thereunder.

### ***Withholding Tax***

In this section, “Interest”, “Residual Entities” and “Paying Agent” have the meaning given thereto in the Luxembourg laws of June 21, 2005 implementing the EU Savings Directive (or the relevant agreements). “Interest” will include accrued or capitalized interest at the sale, repayment or redemption of the Notes. “Residual Entities” include, in general, all entities established in the EU and certain Territories (as defined below) other than legal entities, UCITS, and entities taxed as enterprises. “Paying agent” is defined broadly for this purpose and, in the context of the Notes, means any economic entity established in Luxembourg which pays interest on the Notes to, or ascribes the payment of such interest to or for the immediate benefit of the beneficial owner or the Residual Entity whether the entity is, or acts on behalf of, the Issuers or is instructed by, the beneficial owner, or the Residual Entity, as the case may be, to collect such payment of interest.

Under Luxembourg income tax law currently applicable there is no withholding tax on the payment of interest, principal, premium or (to the extent the transaction is conducted on an arms-length basis) accrued but unpaid interest in respect of the Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Notes, subject to

- a. the application of the Luxembourg laws of June 21, 2005 implementing the Council directive 2003/48/EC of 3 June 2003 on the taxation of savings income in the form of interest payments (the “EU Savings Directive”) and several agreements concluded with certain dependent or associated territories (the “Agreements”) providing for the possible application of a withholding tax (35% from July 1, 2011) on interest paid to certain non Luxembourg resident investors (individuals and certain types of entities called “Residual Entities” as construed by article 4.2 of the EU Savings Directive) where the Issuers appoint a paying agent established in Luxembourg within the meaning of the EU Savings Directive (see section “*EU Savings Directive*” below) or Agreements apply; and
- b. the application of the Luxembourg law of December 23, 2005 according to which interest payments made by Luxembourg-based paying agents (within the meaning of the EU Savings Directive) to Luxembourg individual residents or to certain foreign residual entities that secure interest payments on behalf of such individuals are subject to a 10% withholding tax. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/ her private wealth. The responsibility for the withholding tax will be assumed by the Luxembourg paying agent (within the meaning of the EU Savings Directive). A Luxembourg resident individual who acts in the course of the management of his or her private wealth and who is the beneficial owner of an interest payment made by a paying agent established outside Luxembourg in a member state of the European Union or of the European Economic Area or in a jurisdiction having concluded an agreement with Luxembourg in connection with the EU Savings Directive, may also to self-declare and pay for a final 10% levy. In such case, the 10% levy is calculated on the same amounts as for the payments made by Luxembourg resident paying agents. The option for the 10% levy must cover all interest payments made by the paying agent to the Luxembourg resident beneficial owner during the entire civil year.

In each case described here above, responsibility for the withholding tax will be assumed by the Luxembourg paying agent.

## **Other Withholding Taxes**

If interest is paid by an entity that is not considered a Luxembourg entity, other withholding taxes could apply. A company that is considered an Israeli resident for tax purposes paying interest on a note denominated in a foreign currency to an individual who is a non-Israeli resident is required to withhold tax at a rate of 25%, except for interest paid to “material shareholders,” who are subject to tax according to their marginal tax rate (currently 48%). “Material shareholders” for these purposes are shareholders who hold directly or indirectly, including with others, at least 10% of any means of control in the company. Taxes to be withheld from interest paid to non-Israeli residents by an Israeli company may be reduced under an applicable tax treaty.

A company that is an Israeli for tax purpose paying interest on a similar note to a corporate entity will be subject to withholding tax in accordance with the applicable corporate tax rate for the year in which the interest is paid. The current corporate tax rate in Israel is 25%.

For purposes of the discussion above, payment by a company who is considered an Israeli resident for tax purposes, of any principal amount of New Senior Notes that is treated as original issue discount for Israeli tax purposes would be subject to tax withholding provisions described above. The New Senior Note would generally be treated as having been issued with original issue discount if its served principal amount exceeds its issue price.

## ***Taxation of the Noteholders***

### ***Taxation of Luxembourg residents***

Noteholders who are residents of Luxembourg, or non-resident Noteholders that have a permanent establishment, fixed place of business or a permanent representative in Luxembourg to which the Notes are attributable, must, for income tax purposes, include any interest paid or accrued in their taxable income. Specific exemptions may be available for certain tax payers benefiting from a particular status.

### ***Luxembourg resident individuals***

A Luxembourg resident individual Noteholder acting in the course of the management of his/her private wealth, is subject to Luxembourg income tax at progressive rates in respect of interest received, redemption premiums or issue discounts under the Notes, except if a final withholding tax has been levied on such payments. See paragraph (b) of “—Withholding Tax”.

Luxembourg resident individual Noteholders acting in the course of the management of a professional or business undertaking to which the Notes are attributable, may have to include any interest received or accrued, as well as any gain realized on the sale or disposal of the Notes, in their taxable income for Luxembourg income tax assessment purposes (income tax levied at progressive rates). For Luxembourg resident individuals receiving interest as income from assets used in their professional capacity, the 10% withholding tax levied is credited against their final tax liability. The same tax treatment applies to non-resident Noteholders who have a permanent establishment or a permanent representative in Luxembourg to which the Notes are attributable.

Under Luxembourg domestic tax law, gains realized upon the disposal of the Notes by an individual Noteholder, who is a resident of Luxembourg for tax purposes and who acts in the course of the management of his/her private wealth, on the disposal of the Notes are not subject to Luxembourg income tax, provided the disposal takes place more than six months after the acquisition of the Notes.

An individual Noteholder, who acts in the course of the management of his/her private wealth and who is a resident of Luxembourg for tax purposes, has further to include the portion of the gains realized on the Notes corresponding to accrued but unpaid income in respect of the Notes in his/her taxable income, insofar as the accrued but unpaid interest is indicated separately in the agreement.

Gains realized upon a disposal of the Notes by an individual Noteholder acting in the course of the management of a professional or business undertaking and who is resident of Luxembourg for tax purposes are subject to Luxembourg income taxes.

### *Luxembourg corporate residents*

Luxembourg corporate Noteholders must include any interest received or accrued, as well as any gain realized on the sale or disposal of the Notes, in their taxable income for Luxembourg income tax assessment purposes (corporate income tax and municipal business tax).

### *Luxembourg corporate residents benefiting from a special tax regime*

Luxembourg corporate resident Noteholders that benefit from a special tax regime, such as, for example, (i) undertakings for collective investment subject to the amended law December 17, 2010, (ii) specialized investment funds subject to the law dated February 13, 2007 or (iii) family wealth management companies subject to the law dated May 11, 2007, are exempt from income tax in Luxembourg except for an annual subscription tax (*tax d'abonnement*) and thus income derived from the Notes, as well as gains realized thereon, are not subject to Luxembourg income taxes.

### *Taxation of non-resident Noteholders*

Noteholders who are non-residents of Luxembourg and who have neither a permanent establishment, neither a fixed place of business, nor a permanent representative in Luxembourg to which the Notes are attributable are not liable to any Luxembourg income tax, whether they receive payments of principal or interest (including accrued but unpaid interest) or realize capital gains upon redemption, repurchase, sale or exchange of any Notes. Noteholders who are non-residents of Luxembourg and who have a permanent establishment, a fixed place of business or a permanent representative in Luxembourg to which the Notes are attributable have to include any interest received or accrued, as well as any capital gain realized on the sale or disposal of the Notes in their taxable income for Luxembourg income tax assessment purposes.

## **Net Wealth Tax**

### *Individuals*

An individual Noteholder, whether he/she is resident of Luxembourg or not, is not subject to Luxembourg wealth tax on such Notes.

### *Corporations*

Corporate Luxembourg resident Noteholders or non-resident Noteholders which maintain a permanent establishment, fixed place of business or a permanent representative in Luxembourg to which the Notes or income thereon are attributable, are subject to an annual Luxembourg net wealth tax on such Notes levied at a rate of 0.5% of their value, except if the Noteholder is (i) an undertaking for collective investment subject to the amended law December 17, 2010, (iii) securitization vehicles governed by the law of March 22, 2004 on securitization (as amended), (iv) a company governed by the law of June 15, 2004 on venture capital vehicles (as amended), (v) a specialized investment fund subject to the law of February 13, 2007 (as amended) or (vi) a family wealth management company subject to the law of May 11, 2007.

## **Other Taxes**

### *Registration taxes and stamp duties*

There is no Luxembourg registration tax, stamp duty or any other similar tax or duty payable in Luxembourg by the Noteholders as a consequence of the issuance of the Notes, nor will any of these taxes be payable as a consequence of a subsequent transfer, redemption or repurchase of the Notes. There is no obligation to register the Notes in Luxembourg. However, a registration duty may apply (i) upon voluntary registration of the Notes in Luxembourg, (ii) in the case of legal proceedings before Luxembourg courts or (iii) in the case that the documents relating to the Notes issuance must be produced before an official Luxembourg authority ("*autorité constituée*").

### *Value added tax*

There is no Luxembourg value added tax payable in respect of payments in consideration for the issuance of the Notes or in respect of the payment of interest or principal under the Notes or the transfer of the Notes. Luxembourg value added tax may, however, be payable in respect of fees charged for certain services rendered to the Issuers, if for Luxembourg value added tax purposes such services are rendered or are deemed to be rendered in Luxembourg and an exemption from Luxembourg value added tax does not apply with respect to such services. Due to the activity of the Issuers, this value-added tax could be a final cost. Foreign value-added tax that might be payable in respect of fees charged for certain services rendered to the Issuers could also be a final cost.

### *Inheritance tax and gift tax*

No estate or inheritance taxes are levied on the transfer of the Notes upon death of a Noteholder in cases where the deceased was not a resident of Luxembourg at the time of his death for inheritance tax purposes.

Gift tax may be due on a gift or donation of Notes in instances where the gift is recorded in a deed passed in front of a Luxembourg notary or otherwise registered in Luxembourg.

### **Certain U.S. Federal Income Tax Considerations**

**Pursuant to Internal Revenue Service (“IRS”) Circular 230, you are hereby informed that the description set forth herein with respect to U.S. federal tax issues was not intended or written to be used, and such description cannot be used, by any taxpayer for the purpose of avoiding any penalties that may be imposed on any taxpayer under the U.S. Internal Revenue Code of 1986, as amended (the “Code”). Such description was written in connection with the marketing by the Issuer of the Notes. Taxpayers should seek advice based on the taxpayers’ particular circumstances from an independent tax advisor.**

The following is a description of certain U.S. federal income tax considerations of the acquisition, ownership, and disposition of the Notes by a U.S. Holder thereof as defined below. This description only applies to Notes held as capital assets and does not address, except as set forth below, aspects of U.S. federal income taxation that may be applicable to holders that are subject to special tax rules, such as:

- banks or other financial institutions;
- insurance companies;
- real estate investment trusts;
- regulated investment companies;
- grantor trusts;
- tax-exempt organizations;
- persons that will own the Notes through partnerships or other pass-through entities;
- dealers or traders in securities or currencies;
- U.S. Holders that have a functional currency other than the U.S. dollar;
- certain former citizens and long-term residents of the United States;
- U.S. Holders that use a mark-to-market method of accounting; or
- U.S. Holders that will hold a Note as part of a position in a straddle or as part of a hedging, conversion or integrated transaction for U.S. federal income tax purposes.

Moreover, this description does not address the 3.8% Medicare tax on net investment income, the U.S. federal estate and gift tax or the alternative minimum tax consequences of the acquisition, ownership, and disposition of the Notes and does not address the U.S. federal income tax treatment of holders that do not acquire the Notes as part of the initial distribution at their initial issue price (generally, in each case, the first price to the public at which a substantial amount of the Dollar Notes or the Euro Notes, as applicable, is sold for money). Each prospective purchaser should consult its own tax advisor with respect to the U.S. federal, state, local and non-U.S. tax consequences of acquiring, owning and disposing of the Notes.

This description is based on the Code, U.S. Treasury Regulations promulgated thereunder, administrative pronouncements and judicial decisions, each as available and in effect on the date hereof. All of the foregoing is subject to change or differing interpretations, possibly with retroactive effect, which could affect the tax consequences described herein. No opinion of counsel to the Issuer or the holders or ruling from the IRS has been or will be given with respect to any of the considerations discussed herein. No assurances can be given that the IRS would not assert, or that a court would not sustain, a position different from any of the tax considerations discussed below.

For purposes of this description, a U.S. Holder is a beneficial owner of the Notes who for U.S. federal income tax purposes is:

- a citizen or individual resident of the United States;
- a corporation (or any other entity treated as a corporation for U.S. federal income tax purposes) organized in or under the laws of the United States or any State thereof, including the District of Columbia;
- an estate the income of which is subject to U.S. federal income taxation regardless of its source; or
- a trust (1) that validly elects to be treated as a U.S. person for U.S. federal income tax purposes or (2)(a) the administration over which a U.S. court can exercise primary supervision and (b) all of the substantial decisions of which one or more U.S. persons have the authority to control.

If an entity or arrangement treated as a partnership for U.S. federal income tax purposes holds the Notes, the tax treatment of the partnership and a partner in such partnership generally will depend on the status of the partner and the activities of the partnership. Such partner or partnership should consult its own tax advisor as to its consequences.

## **Redemptions and Additional Amounts**

In certain circumstances, the Issuer may be obligated to or may elect to make payments in excess of stated interest and the adjusted issue price of the Notes and/or redeem the Notes in advance of their stated maturity. The Issuer intends to take the position that the Notes should not be treated as contingent payment debt instruments because of, among other things, the possibility of such payments. This position is based in part on assumptions, as of the date of issuance of the Notes, (1) regarding the likelihood that such payments will have to be paid or that the Issuer will elect to pay such amounts and/or (2) relating to the expected yield to maturity of the Notes. Assuming such position is respected, any such amounts paid to a U.S. Holder pursuant to any repurchase or redemption would be taxable as described below in “—*Sale, Exchange, Retirement or Other Disposition by a U.S. Holder*” and any payments of Additional Amounts in an amount in excess of stated interest and the adjusted issue price would be taxable as additional ordinary income when received or accrued, in accordance with such holder’s method of accounting for U.S. federal income tax purposes. The Issuer’s position is binding on a U.S. Holder unless such holder discloses its contrary position in the manner required by applicable U.S. Treasury Regulations. The IRS, however, may take a position contrary to the Issuer’s position, which could affect the timing and character of a U.S. Holder’s income with respect to the Notes. U.S. Holders should consult their own tax advisors regarding the potential application to the Notes of the contingent payment debt instrument rules and the consequences thereof. This discussion assumes that the Notes are not treated as contingent payment debt instruments.

## Stated Interest

Stated interest on the Notes (including Additional Amounts and any non-U.S. taxes withheld on payments of such stated interest or Additional Amounts) generally will be taxable to a U.S. Holder as ordinary interest income at the time it is received or accrued, depending on the U.S. Holder's method of accounting for U.S. federal income tax purposes.

Interest (including original issue discount ("OID"), if any, as described below) included in a U.S. Holder's gross income with respect to the Notes will be treated as foreign source income for U.S. federal income tax purposes. The limitation on non-U.S. taxes eligible for the U.S. foreign tax credit is calculated separately with respect to specific "baskets" of income. For this purpose, interest generally should constitute "passive category income", or in the case of certain U.S. Holders, "general category income". U.S. Holders should consult their own tax advisors regarding the availability of foreign tax credits.

With respect to the Euro Notes, stated interest paid in euros will be included in a U.S. Holder's gross income in an amount equal to the U.S. dollar value of the euros, including the amount of any withholding tax thereon, regardless of whether the euros are converted into U.S. dollars. Generally, a U.S. Holder that uses the cash method of tax accounting will determine such U.S. dollar value using the spot rate of exchange on the date of receipt. A cash method U.S. Holder generally will not realize foreign currency gain or loss on the receipt of the interest payment but may have foreign currency gain or loss attributable to the actual disposition of the euros received. Generally, a U.S. Holder that uses the accrual method of tax accounting will determine the U.S. dollar value of accrued interest income using the average rate of exchange for the accrual period (or, with respect to an accrual period that spans two taxable years, at the average rate for the partial period within each taxable year). Alternatively, an accrual basis U.S. Holder may make an election (which must be applied consistently to all debt instruments from year to year and cannot be changed without the consent of the IRS) to translate accrued interest income at the spot rate of exchange on the last day of the accrual period (or the last day of the portion of the accrual period within each taxable year in the case of a partial accrual period) or the spot rate on the date of receipt, if that date is within five business days of the last day of the accrual period. A U.S. Holder that uses the accrual method of accounting for tax purposes will recognize foreign currency gain or loss on the receipt of an interest payment if the exchange rate in effect on the date the payment is received differs from the rate used in translating the accrual of that interest. The amount of foreign currency gain or loss to be recognized by such U.S. Holder will be an amount equal to the difference between the U.S. dollar value of the euro interest payment (determined on the basis of the spot rate on the date the interest income is received) in respect of the accrual period and the U.S. dollar value of the interest income that has accrued during the accrual period (as determined above) regardless of whether the payment is converted to U.S. dollars. This foreign currency gain or loss will be ordinary income or loss and generally will not be treated as an adjustment to interest income or expense. Foreign currency gain or loss generally will be U.S. source provided that the residence of a taxpayer is considered to be the United States for purposes of the rules regarding foreign currency gain or loss.

## Original Issue Discount

The Dollar Notes, the Euro Notes, or both, may be treated as issued with OID for U.S. federal income tax purposes. A Note will be treated as having been issued with OID for U.S. federal income tax purposes if its stated principal amount exceeds its issue price by at least the "OID de minimis amount". The OID de minimis amount equals  $\frac{1}{4}$  of 1% of the stated principal amount of the Note multiplied by the number of complete years from its issue date to maturity.

If a Note is issued with OID a U.S. Holder generally will be required to include OID in income before the receipt of the associated cash payment, regardless of the U.S. Holder's accounting method for tax purposes. The amount of OID with respect to a Note that a U.S. Holder must include in income is the sum of the "daily portions" of the OID for the Note for each day during the taxable year (or portion of the taxable year) in which the U.S. Holder held the Note. The daily portion is determined by allocating a pro rata portion of the OID for each day of the accrual period. An accrual period may be of any length and the accrual periods may vary in length over the term of the Note, provided that each accrual period is no longer than one year and each scheduled payment of principal or interest occurs either on the first day of an accrual period or on the final day of an accrual period. The amount of OID allocable to an accrual period is equal to the difference between (1) the product of the "adjusted issue price" of the Note at the beginning of the accrual period and its yield to maturity (computed generally on a constant yield method and compounded at the end of each accrual period, taking into account the length of the particular accrual period) and (2) the amount of any stated interest allocable to the

accrual period. The “adjusted issue price” of a Note at the beginning of any accrual period is the sum of the issue price of the Note plus the amount of OID allocable to all prior accrual periods reduced by any payments on the Note that were not stated interest.

Under these rules, a U.S. Holder generally will have to include in income increasingly greater amounts of OID in successive accrual periods. Under applicable U.S. Treasury Regulations, a U.S. Holder of a Note with OID may elect to include in gross income all interest that accrues on the Note using the constant yield method described above. Once made with respect to the Note, the election cannot be revoked without the consent of the IRS. A U.S. Holder considering an election under these rules should consult its own tax advisor.

U.S. Holders may obtain information regarding the amount of OID, if any, the issue price, the issue date and yield to maturity by contacting the Issuer, 3, Boulevard Royal, L-2449, Luxembourg, +352 226 05640, Attn: Chief Financial Officer.

Any OID on a Euro Note generally will be determined for any accrual period in euros and then translated into U.S. dollars in the same manner as stated interest accrued by an accrual basis U.S. Holder. Upon receipt of an amount attributable to OID (whether in connection with a payment of interest or the sale or disposition of such a Note), a U.S. Holder generally will recognize foreign currency gain or loss in an amount determined in the same manner as interest income received by a holder on the accrual basis, as described above. Holders are urged to consult their own tax advisors regarding the interplay between the application of the OID and foreign currency exchange gain or loss rules. The rules regarding OID are complex. U.S. Holders are urged to consult their own tax advisors regarding the application of these rules to their particular situations.

#### **Sale, Exchange, Retirement or Other Disposition by a U.S. Holder**

A U.S. Holder’s adjusted tax basis in a Note generally will be its U.S. dollar cost increased by the amount of any OID previously included in income and decreased by payments other than stated interest made with respect to the Note.

A U.S. Holder generally will recognize capital gain or loss on the sale, exchange, retirement or other taxable disposition of a Note equal to the difference, if any, between the amount realized on the sale, exchange, retirement or other disposition of the Note (less any amounts attributable to accrued but unpaid interest, which will be subject to tax in the manner described above under “—*Stated Interest*” to the extent not previously so taxed), and the U.S. Holder’s adjusted tax basis in the Note. If a U.S. Holder purchases a Euro Note with euros, the U.S. dollar cost of the Euro Note generally will be the U.S. dollar value of the purchase price on the date of purchase calculated at the spot rate of exchange on that date. The amount realized upon the disposition of a Euro Note generally will be the U.S. dollar value of the amount received on the date of the disposition calculated at the spot rate of exchange on that date. However, if the Euro Note is traded on an established securities market, a cash basis U.S. Holder (and, if it so elects, an accrual basis U.S. Holder) should determine the U.S. dollar value of the cost of or amount received on the Euro Note, as applicable, by translating the amount paid or received at the spot rate of exchange on the settlement date of the purchase or disposition, as applicable. The election available to accrual basis U.S. Holders in respect of the purchase and disposition of Euro Notes traded on an established securities market must be applied consistently to all debt instruments from year to year and cannot be changed without the consent of the IRS.

Subject to the foreign currency rules discussed below, any gain or loss recognized on the sale, exchange, retirement, or other disposition of a Note will be capital gain or loss, and will be long-term capital gain or loss if the U.S. Holder has held the Note for more than one year as of the date of disposition. Long-term capital gain of a non-corporate U.S. Holder generally is taxed at preferential rates. The ability of a U.S. Holder to offset capital losses against ordinary income is limited. Any gain or loss recognized on the sale, exchange, retirement or other disposition of a Note generally will be treated as income from sources within the United States or loss allocable to income from sources within the United States.

Gain or loss recognized by a U.S. Holder on the sale, exchange, retirement or other disposition of a Euro Note generally will be treated as ordinary income or loss to the extent that the gain or loss is attributable to changes in foreign currency exchange rates during the period in which the U.S. Holder held such Euro Note. Such foreign currency gain or loss will equal the difference between (i) the U.S. dollar value of the U.S. Holder’s euro purchase price for the Euro Note calculated at the spot rate of exchange on the date of the sale, exchange, retirement or other disposition and (ii) the U.S. dollar value of the U.S. Holder’s euro purchase price

for the Euro Note calculated at the spot rate of exchange on the date of purchase of the Euro Note. If the Euro Note is traded on an established securities market, with respect to a cash basis U.S. Holder (and, if it so elects, an accrual basis U.S. Holder), such foreign currency gain or loss will equal the difference between (x) the U.S. dollar value of the U.S. Holder's euro purchase price for the Euro Note calculated at the spot rate of exchange on the settlement date of the disposition and (y) the U.S. dollar value of the U.S. Holder's euro purchase price for the Euro Note calculated at the spot rate of exchange on the settlement date of the purchase of the Euro Note. The realization of any foreign currency gain or loss, including foreign currency gain or loss with respect to amounts attributable to accrued and unpaid stated interest and any OID, will be limited to the amount of overall gain or loss realized on the disposition of the Euro Notes.

### **Exchange of Amounts in Other than U.S. Dollars**

If a U.S. Holder receives euros as interest on a Euro Note or on the sale, exchange, retirement or other disposition of a Euro Note, such U.S. Holder's tax basis in the euros will equal the U.S. dollar value when the interest is received or at the time of the sale, exchange, retirement or other disposition. If a U.S. Holder purchased a Euro Note with previously owned non-U.S. currency, gain or loss will be recognized in an amount equal to the difference, if any, between the U.S. Holder's tax basis in such currency and the spot rate on the date of purchase. Any such gain or loss generally will be treated as ordinary income or loss from sources within the United States provided that the residence of the U.S. Holder is considered to be the United States for purposes of the rules governing foreign currency transactions.

### **Reportable Transaction Reporting**

Under certain U.S. Treasury Regulations, U.S. Holders that participate in "reportable transactions" (as defined in the regulations) must attach to their U.S. federal income tax returns a disclosure statement on IRS Form 8886. Under the relevant rules, a U.S. Holder may be required to treat a foreign currency exchange loss from the Euro Notes as a reportable transaction if this loss exceeds the relevant threshold in the regulations. U.S. Holders should consult their own tax advisors as to the possible obligation to file IRS Form 8886 with respect to the ownership or disposition of the Euro Notes, or any related transaction, including without limitation, the disposition of any non-U.S. currency received as interest or as proceeds from the sale, exchange, retirement or other disposition of the Euro Notes.

### **U.S. Backup Withholding Tax and Information Reporting**

Backup withholding and information reporting requirements may apply to certain payments of principal of, and interest (including accruals of OID, if any) on, Notes and to proceeds from the sale, exchange, retirement or disposition of Notes that are held by U.S. Holders. The payor will be required to withhold backup withholding tax on payments made within the United States, or by a U.S. payor or U.S. middleman (and certain subsidiaries thereof), on a Note to a U.S. Holder, other than an exempt recipient, if the holder fails to furnish its correct taxpayer identification number or otherwise fails to comply with, or establish an exemption from, the backup withholding requirements. Payments within the United States, or by a U.S. payor or U.S. middleman (and certain subsidiaries thereof), of principal and interest (including OID, if any) and proceeds of a sale, exchange, retirement or disposition to a holder of a Note that is not a U.S. person generally are subject to information reporting, but will not be subject to backup withholding tax if an appropriate certification is timely provided by the holder to the payor and the payor does not have actual knowledge or a reason to know that the certificate is incorrect.

Backup withholding is not an additional tax. Amounts withheld as backup withholding may be credited against a holder's U.S. federal income tax liability. A holder may obtain a refund of any excess amounts withheld under the backup withholding rules by filing the appropriate claim for a refund with the IRS and furnishing any required information in a timely manner.

Certain U.S. Holders are required to report information relating to an interest in the Notes, subject to certain exceptions (including an exception for Notes held in custodial accounts maintained by certain financial institutions). U.S. Holders are urged to consult their own tax advisors regarding the effect, if any, of this requirement on their ownership and disposition of the Notes.

## FATCA

Legislation referred to as the Foreign Account Tax Compliance Act (“FATCA”) generally may impose withholding at a rate of 30% on payments made to any foreign entity (whether such foreign entity is a beneficial owner or an intermediary) on debt obligations generating U.S. source interest or certain other debt obligations generating non-U.S. source interest issued by a foreign financial institution that (i) enters into certain agreements with the IRS or (ii) becomes subject to provisions of local law intended to implement an intergovernmental agreement entered into pursuant to FATCA, in each case to the extent such payments are attributable to U.S. source income, unless the foreign entity receiving such payments complies with various U.S. information reporting and/or due diligence requirements (generally relating to ownership by U.S. persons of interests in or accounts with such foreign entity) or otherwise qualifies for an exemption. Based on current guidance, the Issuer does not expect payments on the Notes to be subject to the withholding tax rules under FATCA; however, if the Notes are “materially modified” (within the meaning of applicable U.S. Treasury Regulations) after the date that is six months after the date final regulations define a “foreign passthru payment” under FATCA, certain “foreign passthru payments” made on the Notes on or after January 1, 2017 may become subject to the withholding tax rules under FATCA. If such withholding is required under FATCA, holders and beneficial owners of the Notes will not be entitled to receive any additional amounts to compensate them for such withholding. Non-U.S. governments have entered into agreements with the United States (and additional non-U.S. governments are expected to enter into such agreements) to implement FATCA in a manner that alters the rules described herein. Holders should consult their own tax advisors regarding the possible implications of this legislation on their investment in the Notes.

**The above description is not intended to constitute a complete analysis of all tax consequences relating to the acquisition, ownership and disposition of the Notes. Prospective purchasers of the Notes should consult their own tax advisors concerning the tax consequences of their particular situations.**

## CERTAIN EMPLOYEE BENEFIT PLAN CONSIDERATIONS

The U.S. Employee Retirement Income Security Act of 1974, as amended (“ERISA”), imposes certain fiduciary standards and certain other requirements on employee benefit plans subject to ERISA, including entities such as collective investment funds, certain insurance company separate accounts, certain insurance company general accounts, and entities whose underlying assets are treated as being subject to ERISA (collectively, “ERISA Plans”), and on those persons who are fiduciaries with respect to ERISA Plans. Investments by ERISA Plans are subject to ERISA’s general fiduciary requirements, including the requirement of investment prudence and diversification and the requirement that an ERISA Plan’s investments be made in accordance with the documents governing the ERISA Plan. The prudence of a particular investment should be determined by the responsible fiduciary of an ERISA Plan by taking into account the ERISA Plan’s particular circumstances and all of the facts and circumstances of the investment, including, but not limited to, the matters discussed above under “*Risk Factors*” and the fact that in the future there may be no market in which such fiduciary will be able to sell or otherwise dispose of the Notes or any interest therein.

Section 406 of ERISA and Section 4975 of the U.S. Internal Revenue Code of 1986, as amended (the “Code”), prohibit certain transactions involving the assets of an ERISA Plan, as well as those plans that are not subject to ERISA but which are subject to Section 4975 of the Code, such as individual retirement accounts and Keogh plans (together with ERISA Plans, “Plans”), and certain persons (referred to as “parties in interest” under ERISA or “disqualified persons” under the Code) having certain relationships to Plans, unless a statutory or administrative exemption is applicable to the transaction. A party in interest or disqualified person who engages in a prohibited transaction may be subject to excise taxes or other liabilities under ERISA and the Code, and the transaction may have to be rescinded.

Governmental plans, certain church plans and certain non-U.S. plans, while not subject to the fiduciary responsibility or prohibited transaction provisions of ERISA or the provisions of Section 4975 of the Code, may nevertheless be subject to federal, state, local, non-U.S. or other laws or regulations (such as the prohibited transaction rules of Section 503 of the Code) that are substantially similar to the foregoing provisions of ERISA or the Code (“Similar Laws”).

Each of us, the Initial Purchasers, the Trustee and certain other parties, or their respective affiliates, may be the sponsor of, or Fiduciary to, one or more Plans. Because such parties may receive certain benefits in connection with the sale of the Notes to such Plans, the purchase of such Notes using the assets of a Plan over which any of such parties is the sponsor or a Fiduciary might be deemed to be a violation of the prohibited transaction rules of ERISA or Section 4975 of the Code for which no exemption may be available. Accordingly, the Notes may not be purchased using the assets of any Plan if any of us, the Initial Purchasers, the Trustee or their respective affiliates is the sponsor of or Fiduciary to, such Plan.

In addition, if the Notes are acquired by a Plan with respect to which we, the Initial Purchasers, the Trustee, any holder of the Notes or any of their respective affiliates is a party in interest or a disqualified person, other than a sponsor of, or Fiduciary to, such Plan, such transaction could be deemed to be a direct or indirect prohibited transaction within the meaning of Section 406 of ERISA or Section 4975 of the Code. In addition, if a party in interest or disqualified person with respect to a Plan owns or acquires a 50% or more beneficial interest in the Issuers, the acquisition or holding of the Notes by or on behalf of such Plan could be considered to constitute a prohibited transaction. Moreover, the acquisition or holding of the Notes or other indebtedness issued by the Issuers by or on behalf of a party in interest or disqualified person with respect to a Plan that owns or acquires an equity interest in the Issuers also could give rise to a prohibited transaction. Certain exemptions from the prohibited transaction provisions of ERISA and Section 4975 of the Code could be applicable, however, to a Plan’s acquisition of a Note depending in part upon the type of Fiduciary making the decision to acquire a Note and the circumstances under which such decision is made. Included among these exemptions are Prohibited Transaction Exemption (“PTE”) 84-14, regarding transactions effected by a “qualified professional asset manager”; PTE 90-1, regarding investments by insurance company pooled separate accounts; PTE 91-38, regarding investments by bank collective investment funds; PTE 95-60, regarding investments by insurance company general accounts and PTE 96-23, regarding investments by certain “in-house asset managers;”. In addition to the class exemptions listed above, Section 408(b)(17) of ERISA and Section 4975(d)(20) of the Code provide a statutory prohibited transaction exemption for transactions between a Plan and a person or entity that is a party in interest to such Plan solely by reason of providing services to the Plan (other than a party in interest that is a fiduciary, or its affiliate, that has or exercises discretionary authority or control or renders investment advice with respect to the assets of the Plan involved in the transaction), provided that the Plan receives no less,

and pays no more than “adequate consideration” (within the meaning of Section 408(b)(17) of ERISA and Section 4975(f)(10) of the Code) in connection with the transaction. Even if the conditions specified in one or more of these exemptions are met, the scope of the relief provided by these exemptions might not cover all acts which might be construed as prohibited transactions.

EACH ACQUIRER AND EACH TRANSFEREE OF A NOTE OR ANY INTEREST THEREIN WILL BE DEEMED TO REPRESENT, WARRANT AND AGREE AT THE TIME OF ITS ACQUISITION AND THROUGHOUT THE PERIOD THAT IT HOLDS SUCH NOTES OR ANY INTEREST THEREIN, THAT (1) EITHER (A) IT IS NOT, AND IS NOT ACTING ON BEHALF OF, A BENEFIT PLAN INVESTOR OR A GOVERNMENTAL, CHURCH OR NON-U.S. PLAN WHICH IS SUBJECT TO ANY SIMILAR LAWS, AND NO PART OF THE ASSETS TO BE USED BY IT TO ACQUIRE OR HOLD SUCH NOTES OR ANY INTEREST THEREIN CONSTITUTES THE ASSETS OF ANY BENEFIT PLAN INVESTOR OR SUCH A GOVERNMENTAL, CHURCH OR NON-U.S. PLAN, OR (B) ITS ACQUISITION, HOLDING AND DISPOSITION OF SUCH NOTES OR ANY INTEREST THEREIN DOES NOT AND WILL NOT CONSTITUTE OR OTHERWISE RESULT IN A NON-EXEMPT PROHIBITED TRANSACTION UNDER SECTION 406 OF ERISA OR SECTION 4975 OF THE CODE (OR, IN THE CASE OF A GOVERNMENTAL, CHURCH, OR NON-U.S. PLAN, A NON-EXEMPT VIOLATION OF ANY SIMILAR LAWS); AND (2) NEITHER THE ISSUER NOR ANY OF ITS AFFILIATES IS A FIDUCIARY (WITHIN THE MEANING OF SECTION 3(21) OF ERISA OR, WITH RESPECT TO A GOVERNMENTAL, CHURCH OR NON-U.S. PLAN, ANY DEFINITION OF “FIDUCIARY” UNDER SIMILAR LAWS) WITH RESPECT TO THE PURCHASER OR HOLDER IN CONNECTION WITH ANY PURCHASE OR HOLDING OF THE NOTES, OR AS A RESULT OF ANY EXERCISE BY THE NOTES ISSUER OR ANY OF ITS AFFILIATES OF ANY RIGHTS IN CONNECTION WITH THE NOTES, AND NO ADVICE PROVIDED BY THE ISSUER OR ANY OF ITS AFFILIATES HAS FORMED A PRIMARY BASIS FOR ANY INVESTMENT DECISION BY OR ON BEHALF OF THE PURCHASER AND HOLDER IN CONNECTION WITH THE NOTES AND THE TRANSACTIONS CONTEMPLATED WITH RESPECT TO THE NOTES; AND (3) IT WILL NOT SELL OR OTHERWISE TRANSFER SUCH NOTES OR ANY INTEREST THEREIN OTHER THAN TO AN ACQUIRER OR TRANSFEREE THAT IS DEEMED TO MAKE THESE SAME REPRESENTATIONS, WARRANTIES AND AGREEMENTS WITH RESPECT TO ITS ACQUISITION, HOLDING AND DISPOSITION OF SUCH NOTE.

WE, THE INITIAL PURCHASERS AND THE TRUSTEE, AND THEIR RESPECTIVE AFFILIATES, SHALL BE ENTITLED TO CONCLUSIVELY RELY UPON THE TRUTH AND ACCURACY OF THE FOREGOING REPRESENTATIONS, WARRANTIES AND AGREEMENTS BY ACQUIRERS AND TRANSFEREES OF ANY NOTES WITHOUT FURTHER INQUIRY. THE ACQUIRER AND ANY FIDUCIARY CAUSING IT TO ACQUIRE AN INTEREST IN ANY NOTES AGREES TO INDEMNIFY AND HOLD HARMLESS THE ISSUER, THE INITIAL PURCHASERS AND THE TRUSTEE, AND THEIR RESPECTIVE AFFILIATES, FROM AND AGAINST ANY COST, DAMAGE OR LOSS INCURRED BY ANY OF THEM AS A RESULT OF ANY OF THE FOREGOING REPRESENTATIONS AND AGREEMENTS BEING OR BECOMING FALSE.

ANY PURPORTED ACQUISITION OR TRANSFER OF ANY NOTE OR BENEFICIAL INTEREST THEREIN TO AN ACQUIRER OR TRANSFEREE THAT DOES NOT COMPLY WITH THE REQUIREMENTS DESCRIBED HEREIN SHALL BE NULL AND VOID *AB INITIO*.

It should be noted that an insurance company’s general account may be deemed to include assets of Plans under certain circumstances, e.g., where a Plan purchases an annuity contract issued by such an insurance company, based on the reasoning of the United States Supreme Court in *John Hancock Mutual Life Ins. Co. v. Harris Trust and Savings Bank*, 510 U.S. 86 (1993). An insurance company considering the purchase of Notes with assets of its general account should consider such purchase and the insurance company’s ability to make the representations described above in light of *John Hancock Mutual Life Ins. Co. v. Harris Trust and Savings Bank*, Section 401(c) of ERISA and the U.S. Department of Labor regulation at 29 C.F.R. Section 2550.401c-1.

A fiduciary of an ERISA Plan or other employee benefit plan that is subject to Similar Laws, prior to investing in the Notes or any interest therein, should take into account, among other considerations, whether the fiduciary has the authority to make the investment; the composition of the plan’s portfolio with respect to diversification by type of asset; the plan’s funding objectives; the tax effects of the investment; and whether, under the general fiduciary standards of ERISA or other applicable laws, including investment prudence and diversification, an investment in the Notes or any interest therein is appropriate for the plan, taking into account

the plan's particular circumstances and all of the facts and circumstances of the investment, including such matters as the overall investment policy of the plan and the composition of the plan's investment portfolio.

The sale of any Note or any interest therein to a Plan or a governmental, church or non-U.S. plan that is subject to any Similar Laws is in no respect a representation by us, the Initial Purchasers or the Trustee, or any of their respective affiliates, that such an investment meets all relevant legal requirements with respect to investments by such plans generally or any particular such plan; that the prohibited transaction exemptions described above, or any other prohibited transaction exemption, would apply to such an investment by such plan in general or any particular such plan; or that such an investment is appropriate for such plan generally or any particular such plan.

The discussion of ERISA and Section 4975 of the Code contained in the Offering Memorandum, is, of necessity, general, and does not purport to be complete. Moreover, the provisions of ERISA and Section 4975 of the Code are subject to extensive and continuing administrative and judicial interpretation and review. Therefore, the matters discussed above may be affected by future regulations, rulings and court decisions, some of which may have retroactive application and effect.

Any Plan or employee benefit plan not subject to ERISA or Section 4975 of the Code, and any fiduciary thereof, proposing to invest in the Notes or any interest therein should consult with its legal advisors regarding the applicability of the fiduciary responsibility and prohibited transaction provisions of ERISA, Section 4975 of the Code and any Similar Laws, to such investment, and to confirm that such investment will not constitute or result in a non-exempt prohibited transaction or any other violation of any applicable requirement of ERISA, Section 4975 of the Code or Similar Laws.

## **LIMITATION ON VALIDITY AND ENFORCEABILITY OF THE GUARANTEES AND THE SECURITY INTERESTS**

Set forth below is a summary of certain limitations on the enforceability of the Collateral in Luxembourg.

The conditions to be satisfied by the granting of guarantees/security interests relate to (i) corporate power, (ii) corporate authority, and (iii) corporate benefit. These rules are derived from general principles and must be applied to specific circumstances, which have to be analyzed on a case by case basis.

### ***Corporate power***

Limits on corporate power can either be imposed (i) by law or (ii) by the articles of association of the company.

#### **1. Limitations imposed by law.**

Pursuant to the Luxembourg Civil Code, a company is incorporated with a view to participate in the profits (and the losses) which may arise therefrom. The goal to share the profits is an essential element of every company and therefore, a purely free (or gratuitous) act, without consideration, may be outside the scope of the activities of a company as contemplated by law. A company may however carry out gratuitous acts whenever these acts are accomplished with a view to the realization, directly or indirectly, of the company's corporate objective. It is normally understood that except in exceptional circumstances, an intragroup security is a type of act which may serve the purpose of realizing a profit.

Thus, it is only in exceptional circumstances when there is no reasonable indirect potential benefit of, or a motivated interest for, a proposed guarantee/security to be given by a company, that the validity of such a guarantee/security interest could be challenged for lack of any interest by the guarantor in providing the guarantee/security interest.

Further to this general legal restriction, additional limitations are imposed by specific laws, such as the prohibition to exercise a financial activity without a specific authorization (which in the case of a Luxembourg company, does not apply to financial activities within a group of companies) or the limitation on financial assistance to shareholders in the case of subscription or purchase of shares of the guarantor.

#### **2. Limitations imposed by the articles of association.**

The provision of guarantees or security interest by a company must be within the limits of the object clause of its articles of association.

Should the provision of a guarantee or security by a Luxembourg company be considered to exceed the corporate objective as expressed in the articles of association, the company is still bound by such action, unless there is evidence that the beneficiary of such acts knew that the acts exceeded the corporate objective or that the beneficiary could not, in light of the circumstances, have been unaware of that fact.

### ***Corporate authority***

When a Luxembourg company grants guarantees/security interests, applicable corporate procedures normally entail that the decision be approved by a board resolution or by decision of delegates that have been appointed for such purpose.

### ***Corporate benefit***

The third condition for a guarantee/security interest to be granted by a Luxembourg company is that the proposed action by the company must be "in the corporate interest of the company", which words are a translation of the French *intérêt social*, an equivalent term to the English legal concept of corporate benefit. The concept of "corporate interest" is not defined by law, but has been developed by doctrine and court precedents and may be described as being "the limit of acceptable corporate behavior". Whereas the previous discussions regarding the limits of corporate power are based on objective criteria (provisions of law and of the articles of

association), the concept of corporate benefit requires a subjective judgment. In that context, the concept of a group of companies may be relevant, and while it should first be analyzed whether a transaction is in the best interest of the company on a standalone basis, it should also be examined whether the transaction is justified in the light of the interest at the level of the group, which may result in a benefit for the guarantor.

In general terms, group interest may justify the issue of a guarantee or the granting of security in favor of a parent company (upstream guarantee) or a sister company (cross stream guarantee), under the following circumstances:

- the proposed action must be justified on the basis of a common economical, social, or financial policy applicable throughout the whole group;
- the existence of a group should be evidenced through capital links; or
- the proposed action must not (i) be without any consideration, or alternatively (ii) break up the balance between the undertakings of the various group companies.

To the extent that all companies of the group are asked to bear in a similar way the burden of guarantees or security given for the benefit of the other group company or companies in an equal way, the obligation undertaken by a group company for the benefit of other group companies may be justified. Similarly, if a group company cannot exist outside of the group and is dependent on the group, assistance to other group companies should ultimately result in a benefit for such company. The limit of reasonable corporate behavior is reached when the transaction is exclusively in the interest of the parent company or the other companies of the group, without any benefit, direct or indirect, for the Luxembourg company granting the guarantee.

However, the failure to comply with the corporate benefit requirement will typically result in liability for the directors or managers of the guarantor concerned.

There is a limited risk that the directors or managers of the Luxembourg company be held liable if, *inter alia*:

- the guarantee/security interest so provided would materially exceed the (direct or indirect) benefit deriving from the secured obligations for the Luxembourg company; or
- the Luxembourg company derives no personal benefit or obtains no direct or indirect consideration for the guarantee/security interest granted; or
- the commitment of the Luxembourg company exceeds its financial means.

In addition to any criminal and civil liability incurred by the directors or managers of the Luxembourg company, the guarantee/security interest could itself be held unenforceable, if it is held that it is contrary to public policy (*ordre public*).

The above analysis is slightly different within a group of companies where a group interest (*intérêt du groupe*) exists. The existence of a group interest would prevent the guarantee/security interest from falling foul of the above constraints. In order for a group interest to be recognized, the following cumulative criteria must be met and proven:

- the “assisting” company must receive some benefit, or there must be a balance between the respective commitments of all the affiliates;
- the guarantee must not exceed the assisting company’s financial means;
- the companies involved must form part of a genuine group operating under a common strategy aimed at a common objective; and
- the assistance must be granted for purposes of promoting a common economic, social and financial interest determined in accordance with policies applicable to the entire group.

The criteria mentioned above have to be applied on a case-by-case basis and a subjective fact-based judgment is required to be made by the directors or managers of the Luxembourg guarantor.

As a result, the guarantees (upstream and cross stream) granted by a Luxembourg company are subject to certain limitations, which usually take the form of a general limitation language, which is inserted in the relevant transaction document(s) and which covers the aggregate obligations and exposure of the relevant Luxembourg assisting company under the transaction documents.

The Indenture contains the following limitation language:

The guarantee granted by any Guarantor which is incorporated and/or having its registered office and its place of central administration in Luxembourg (a “Luxembourg Guarantor”) for the obligations of the Issuer which is not a direct or indirect subsidiary of such Luxembourg Guarantor shall be limited at any time to an aggregate amount not exceeding:

- (A) the aggregate amount of the outstanding intercompany loans made to the Luxembourg Guarantor or Subsidiaries of that Luxembourg Guarantor (which are Subsidiaries of that Luxembourg Guarantor on the Completion Date or which will be Subsidiaries of that Luxembourg Guarantor hereafter) by the Issuer which have been funded directly or indirectly with proceeds deriving from the sale of the Notes increased by
- (B) the greater of:
  - (1) 90% of the Luxembourg Guarantor’s own funds (*capitaux propres*) and subordinated debt (*dettes subordonnées*, including for the avoidance of doubt intragroup liabilities), both as referred to in Article 34 of the Luxembourg law of 19 December 2002 on the commercial register and annual accounts, as amended (the “2002 Law”) as at the Completion Date (whether as original party or by way of accession); or
  - (2) 90% of the Luxembourg Guarantor’s own funds (*capitaux propres*) and subordinated debt (*dettes subordonnées*, including for the avoidance of doubt intragroup liabilities), both as referred to in Article 34 of the 2002 Law, as at the date on which a demand is made under the Notes; or
  - (3) 90% of the net assets of the Luxembourg Guarantor calculated on the basis of the fair market value of the assets and liabilities of the Luxembourg Guarantor (as determined by the Agent or if the Agent so decides by a Luxembourg statutory approved auditor (*réviseur d’entreprise agréé*) (an “Independent Auditor”) as at the Completion Date (whether as original party or by way of accession); or
  - (4) 90% of the net assets of the Luxembourg Guarantor calculated on the basis of the fair market value of the assets and liabilities of the Luxembourg Guarantor (as determined by the Trustee or if the Trustee so decides by an Independent Auditor as at the date on which a demand is made under the Notes).

### ***Security interests considerations***

According to Luxembourg conflict of law rules, the courts in Luxembourg will generally apply the *lex rei sitae* or *lex situs* (the law of the place where the assets or subject matter of the pledge or security interest is situated) in relation to the creation, perfection and enforcement of security interests over such assets. As a consequence, Luxembourg law will apply in relation to the creation, perfection and enforcement of security interests over assets located or deemed to be located in Luxembourg, such as registered shares in Luxembourg companies, bank accounts held with a Luxembourg bank, receivables/claims governed by Luxembourg law and/or having debtors located in Luxembourg, tangible assets located in Luxembourg, securities which are held through an account located in Luxembourg, bearer securities physically located in Luxembourg, etc.

If there are assets located or deemed to be located in Luxembourg, the security interests over such assets will be governed by Luxembourg law and must be created, perfected and enforced in accordance with

Luxembourg law. The Collateral Act 2005 governs the creation, validity, perfection and enforcement of pledges over shares, bank accounts and receivables located or deemed to be located in Luxembourg.

Under the Collateral Act 2005, the perfection of security interests depends on certain registration, notification and acceptance requirements. A share pledge agreement must be (i) acknowledged by the company which has issued the shares and (ii) registered in the shareholders' register of such company. If future shares are pledged, the perfection of such pledge will require additional registration in the shareholders' register of such company. A receivables pledge becomes enforceable against the debtor and against third parties by the mere entering into the pledge agreement by the pledgor and the pledgee. However, the debtor is validly discharged from its payment obligations by payment to the pledgor as long as it has not gained knowledge of the pledge.

Article 11 of the Collateral Act 2005 sets out the following enforcement remedies available upon the occurrence of an enforcement event:

- appropriate or cause a third party to appropriate this collateral at a price determined, before or after appropriation, by the valuation method agreed by the parties;
- assign or cause to be assigned the pledged collateral by private sale in a commercially reasonable manner, by sale over a stock exchange or by public auction;
- court allocation of the pledged assets to the pledgee in discharge of the secured obligations following a valuation made by a court appointed expert; or
- set-off between the secured obligations and the pledged assets.

As the Collateral Act 2005 does not provide any specific time periods and depending on (i) the method chosen, (ii) the valuation of the pledged assets, (iii) any possible recourses, and (iv) the possible need to involve third parties, such as, e.g., courts, stock exchanges and appraisers, the enforcement of the security interests might be substantially delayed.

The perfection of the security interests created pursuant to the pledge agreements does not prevent any third party creditor from seeking attachment or execution against the assets, which are subject to the security interests created under the pledge agreements, to satisfy their unpaid claims against the pledgor. Except as provided in article 20.4 of the Collateral Act 2005, a third party creditor may seek the forced sale of the assets of the pledgor which are subject to such security through court proceedings, although the beneficiaries under the relevant pledge or security documents will remain entitled to priority over the proceeds of such sale.

Under Luxembourg law, security interests qualifying as financial collateral arrangements under the Collateral Act 2005 may be granted in favor of a person acting on behalf of the beneficiaries of such security interests, a fiduciary or a trustee as a security for the claims of third party beneficiaries, present or future, to the extent that such third party beneficiaries are or may be determined.

### ***Registration in Luxembourg***

The registration of the transaction documents with the *Administration de l'Enregistrement et des Domaines* in Luxembourg may be required in the case of legal proceedings before Luxembourg courts or in the case that they must be produced before an official Luxembourg authority (*autorité constituée*). In such case, either a nominal registration duty or an ad valorem duty (or, for instance, 0.24% of the amount of the payment obligation mentioned in the document so registered) will be payable depending on the nature of the document to be registered. No ad valorem duty is payable in respect of security interest agreements, which are subject to the Collateral Act 2005.

The Luxembourg courts or the official Luxembourg authority may require that the transaction documents and any judgment obtained in a foreign court be translated into French or German.

## PLAN OF DISTRIBUTION

The Issuer agreed to sell to the Initial Purchasers, and the Initial Purchasers have agreed to purchase from the Issuer, the entire aggregate principal amount of the Notes. The sale will be made pursuant to a purchase agreement dated the date hereof.

The obligations of the Initial Purchasers under the purchase agreement, including their agreement to purchase Notes from the Issuer, are several and not joint. Pursuant to the terms of the purchase agreement, the Issuer has agreed to sell to each Initial Purchaser, and each Initial Purchaser has agreed, severally and not jointly, to purchase from the Issuer, together with all other Initial Purchasers, Dollar Notes in an aggregate principal amount of \$2,900 million and Euro Notes in an aggregate principal amount of €2,075 million. The Initial Purchasers initially propose to offer the Notes for resale at the issue price that appears on the cover of the Offering Memorandum. After the initial offering, the Initial Purchasers may change the offering price and any other selling terms. The Initial Purchasers may offer and sell Notes through certain of their affiliates. Sales in the United States will be made through affiliates of the Initial Purchasers which are registered with the SEC as U.S. registered broker dealers.

In the purchase agreement, the Issuer has agreed and as of the Completion Date, the Guarantee will agree, that:

- neither the Issuer nor any of its subsidiaries will offer, sell contract to sell or otherwise dispose of any of their debt securities, or guarantee such debt securities (other than the Notes, the Guarantee and any intercompany debt), without the prior consent of the Representatives (as defined therein), for a period of 45 days after the date of the final Offering Memorandum.
- The Issuer will indemnify the Initial Purchasers and their respective affiliates against certain liabilities, including liabilities under the U.S. Securities Act, or contribute to payments that the Initial Purchasers may be required to make in respect of those liabilities.

### United States

Each purchaser of Notes offered by the Offering Memorandum, in making its purchase, will be deemed to have made the acknowledgements, representations and agreements as described under “*Transfer Restrictions*”.

The Notes have not been and will not be registered under the U.S. Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except to qualified institutional buyers in reliance on Rule 144A under the U.S. Securities Act and to persons in offshore transactions in reliance on Regulation S under the U.S. Securities Act. Until 40 days after the later of (i) the commencement of the Offering Memorandum and (ii) the issue date of the Notes, an offer or sale of Notes initially sold in reliance on Regulation S within the United States by a dealer (whether or not participating in the offering) may violate the registration requirements for the U.S. Securities Act if such offer or sale is made otherwise than in accordance with Rule 144A under the U.S. Securities Act. For a description of certain further restrictions on resale or transfer of the Notes, see “*Transfer Restrictions*”.

The Notes may not be offered to the public within any jurisdiction. By accepting delivery of the Offering Memorandum, you agree not to offer, sell, resell, transfer or deliver, directly or indirectly, any Note to the public.

### United Kingdom

In the purchase agreement, each Initial Purchaser has also represented and agreed that:

- (i) it has complied and will comply with all applicable provisions of the FSM Act with respect to anything done by it in relation to the Notes in, from or otherwise involving the United Kingdom; and
- (ii) it has only communicated or caused to be communicated and it will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of

section 21 of the FSM Act) received by it in connection with the issue or sale of any Notes in circumstances in which section 21(1) of the FSM Act does not apply to such Initial Purchaser.

The Offering Memorandum is directed solely at persons who (i) are outside the United Kingdom or (ii) have professional experience in matters relating to investments or (iii) are persons falling within Article 49(2)(a) to (d) of The Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (all such persons together being referred to as “relevant persons”). The Offering Memorandum must not be acted on or relied on by persons who are not relevant persons. Any investment or investment activity to which the Offering Memorandum relates is available only to relevant persons and will be engaged in only with relevant persons.

### **Grand Duchy of Luxembourg**

In addition to the cases described in the section entitled, “Public Offer Selling Restriction under the EU Prospectus Directive” in which the Initial Purchasers can make an offer of the Notes to the public in an EEA Member State (including Luxembourg), the Initial Purchasers can also make an offer of the Notes to the public in Luxembourg:

- (a) at any time, to national and regional governments, central banks, international and supranational institutions (such as the International Monetary Fund, the European Central Bank, the European Investment Bank) and other similar international organizations;
- (b) at any time, to legal entities which are authorized or regulated to operate in the financial markets (including credit institutions, investment firms, other authorized or regulated financial institutions, undertakings for collective investment and their management companies, pension and investment funds and their management companies, insurance undertakings and commodity dealers) as well as entities not so authorized or regulated whose corporate purpose is solely to invest in securities; and
- (c) at any time, to certain natural persons or small and medium-sized enterprises (as defined in the Prospectus Act implementing the EU Prospectus Directive into Luxembourg law) recorded in the register of natural persons or small and medium-sized enterprises considered as qualified investors as held by the Commission de surveillance du secteur financier as competent authority in Luxembourg in accordance with the EU Prospectus Directive.

### **Israel**

Sales of the Notes in Israel will be made through the Initial Purchasers and/or through an Israeli broker(s) engaged by them. The Notes will not be offered to an Israeli person unless such offeree is a “qualified investor” (as defined in the First Appendix to the Israeli Securities Law) who is not an individual (a “Qualified Israeli Investor”) and who has (x) completed and signed a questionnaire regarding qualification as a Qualified Israel Investor and (y) certified that it has an exemption from Israeli withholding taxes on interest.

### **General**

The Notes are a new issue of securities, and there is currently no established trading market for the Notes. In addition, the Notes are subject to certain restrictions on resale and transfer as described under “Transfer Restrictions”. The Issuer has applied for the Notes to be admitted to listing and to trading on the Euro MTF Market of the Luxembourg Stock Exchange. The Initial Purchasers have advised us that they intend to make a market in the Notes, but they are not obligated to do so. The Initial Purchasers may discontinue any market making in the Notes at any time in their sole discretion. In addition, such market making activities will be subject to the limits imposed by the U.S. Securities Act and the U.S. Exchange Act. Accordingly, we cannot assure you that a liquid trading market will develop for the Notes, that you will be able to sell your New Senior Notes at a particular time or that the prices that you receive when you sell will be favorable.

You should be aware that the laws and practices of certain countries require investors to pay stamp taxes and other charges in connection with purchases of securities.

Each Initial Purchaser has also agreed in the purchase agreement that it will (to the best of its knowledge and belief) comply with all applicable securities laws and regulations in force in any jurisdiction in

which it purchases, offers, sells or delivers Notes or possesses or distributes the Offering Memorandum, and will obtain any consent, approval or permission required by it for the purchase, offer, sale or delivery by it of Notes under the laws and regulations in force.

In connection with the offering of the Notes, the Initial Purchasers may engage in overallotment, stabilizing transactions and syndicate covering transactions. Overallotment involves sales in excess of the offering size, which creates a short position for the Initial Purchasers. Stabilizing transactions involve bids to purchase the Notes in the open market for the purpose of pegging, fixing or maintaining the price of the Notes. Syndicate covering transactions involve purchases of the Notes in the open market after the distribution has been completed in order to cover short positions. Stabilizing transactions and syndicate covering transactions may cause the price of the Notes to be higher than it would otherwise be in the absence of those transactions. If the Initial Purchasers engage in stabilizing or syndicate covering transactions, they may discontinue them at any time.

We expect that delivery of the Notes will be made against payment on the New Senior Notes on or about the date specified on the cover of the Offering Memorandum, which will be 11 business days following the date of pricing of the Notes (this settlement cycle is referred to as “T+11”). Under Rule 15c6-1 of the U.S. Exchange Act, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade the Notes on the date of the Offering Memorandum or the next succeeding eight United States business days will be required to specify an alternative settlement cycle at the time of any such trade to prevent a failed settlement. Purchasers of the Notes who wish to make such trades should consult their own advisors.

### **Other Relationships**

The Initial Purchasers or their respective affiliates from time to time have provided in the past and may provide in the future investment banking, financial advisory and commercial banking services to us and our affiliates in the ordinary course of business for which they have received or may receive customary fees and commissions. In connection with our strategy to review and evaluate selective acquisitions and other business combinations, we and our shareholders regularly engage mergers and acquisition advisors and other financial advisors to assist us. Certain of the Initial Purchasers and their affiliates may be currently advising us or other interested parties, and the Initial Purchasers and their affiliates may advise us or other interested parties from time to time on other transactions in the future. Goldman Sachs International and/or certain of its respective affiliates and Deutsche Bank, Paris Branch or certain of its affiliates are currently acting as financial advisers to Vivendi and/or its Boards (including the Supervisory Board) in connection with the SFR Acquisition. Each of the Initial Purchasers or one of their affiliates are or will be lenders under the Numericable Group Revolving Credit Facilities Agreement, the New Numericable Term Loan and the New Revolving Credit Facilities. Goldman Sachs International, Crédit Agricole Corporate and Investment Bank, Deutsche Bank AG, London Branch, BNP Paribas, ING Bank France and Morgan Stanley & Co. International, or certain of their affiliates, along with other financial institutions, are lenders under the 2013 Margin Loan that will be indirectly repaid using the proceeds of the Notes. Additionally, Deutsche Bank AG, London Branch, Crédit Agricole Corporate and Investment Bank, BNP Paribas, and ING Bank France and/or their respective affiliates are also mandated lead arrangers and/or lenders under the Ypso France Senior Facility Agreement and they and the other Initial Purchasers may hold positions therein and in the Numericable February 2012 Notes and/or the Numericable October 2012 Notes, which will be indirectly repaid using the proceeds of the New Numericable Senior Secured Notes. In addition, certain of the Initial Purchasers or their affiliates are party to certain of our hedging arrangements and other financing and/or debt arrangements and may hold other proprietary positions in us, our current or future subsidiaries and affiliates and/or financial intermediaries and the financial instruments issued by any of them. The Initial Purchasers (other than ING Branch N.V., London Branch, Natixis and Société Générale) or their affiliates are also party to volume underwriting arrangements, acting severally and not jointly in respect of the Altice Equity Financing and the Numericable Rights Issue to be effected in connection with the Transactions. A former executive at Morgan Stanley, one of the Initial Purchasers, became one of our Non-Executive Directors on January 16, 2014.

## **LEGAL MATTERS**

Certain legal matters in connection with the Offering Memorandum will be passed upon for us by Ropes & Gray International LLP, as to matters of United States federal, New York and English law; by Meitar Liquornik Geva Leshem Tal, as to matters of Israeli law; by Luther, as to matters of Luxembourg law, by Macedo Vitorino & Associados, as to matters of Portuguese law; by Franklin as to matters of French law; by Holenstein Attorneys-at-Law Ltd, as to matters of Swiss law and by Castillo y Castillo as to matters of Dominican law.

Certain legal matters in connection with the Offering Memorandum will be passed upon for the Initial Purchasers by Latham & Watkins (London) LLP, as to matters of United States federal, New York and English law; by Latham & Watkins AARPI, as to matters of French law and by Elvinger, Hoss & Prussen, as to matters of Luxembourg law.

Certain legal matters in connection with the Offering Memorandum will be passed upon for the Trustee by White & Case LLP, as to matters of New York law.

## ENFORCEMENT OF JUDGMENTS

The Issuer is a public limited liability company (*société anonyme*), incorporated under the laws of the Grand Duchy of Luxembourg.

Many of the directors, members of the supervisory board, general partners, officers and other executives of the Issuer are neither residents nor citizens of the United States. Furthermore, most of our assets are located outside the United States. As a result, it may not be possible for investors to effect service of process within the United States upon such persons or the Issuer, or to enforce against them judgments of U.S. courts predicated upon the civil liability provisions of U.S. federal or state securities laws despite the fact that, pursuant to the terms of each of the Indenture, the Issuer has appointed, or will appoint, an agent for the service of process in New York. It may be possible for investors to effect service of process within Luxembourg upon those persons or the Issuer provided that the Hague Convention on the Service Abroad of Judicial and Commercial Matters of November 15, 1965 is complied with.

The Issuers have been advised by Luther, their Luxembourg counsel, that a valid final and conclusive judgment against an issuer of Luxembourg nationality with respect to the Notes obtained from a court of competent jurisdiction in the United States, which judgment remains in full force and effect after all appeals as may be taken in the relevant state or federal jurisdiction with respect thereto have been taken, may be entered and enforced through a court of competent jurisdiction of Luxembourg subject to compliance with the enforcement procedures set out in Article 678 et seq. of the Luxembourg *Nouveau Code de Procedure Civile* being:

- the U.S. court awarding the judgment has jurisdiction to adjudicate the respective matter under its applicable laws, and such jurisdiction is recognized by Luxembourg private international and local law;
- the judgment is final and enforceable in the jurisdiction where the decision is rendered;
- the U.S. Court has applied the substantive law as designated by the Luxembourg conflict of laws rules;
- the U.S. Court has acted in accordance with its own procedural laws;
- the judgment was granted following proceedings where the counterparty had the opportunity to appear, and if appeared, to present a defense;
- the decision of the U.S. Court must not have been obtained by fraud; and
- the decisions and the considerations of the foreign court must not be contrary to Luxembourg international public policy rules or have been given in proceedings of a tax, penal or criminal nature (which would include awards of damages made under civil liabilities provisions of the U.S. federal securities laws, or other laws, to the extent that the same would be classified by Luxembourg courts as being of a penal or punitive nature (for example, fines or punitive damages)) or rendered subsequent to an evasion of Luxembourg law (*fraude à la loi*).

The Issuers have also been also advised by their Luxembourg counsel that if an original action is brought in Luxembourg, without prejudice to specific conflict of law rules, Luxembourg courts may refuse to apply the designated law if the choice of such foreign law was not made *bona fide* or if (i) the foreign law was not pleaded and proved or (ii) if pleaded and proved, such foreign law was contrary to mandatory Luxembourg laws or incompatible with Luxembourg public policy rules. In an action brought in Luxembourg on the basis of U.S. federal or state securities laws, Luxembourg courts may not have the requisite power to grant the remedies sought.

## AUDITORS

The consolidated financial statements of the Issuer as of and for the year ended December 31, 2013 have been audited by Deloitte Audit S.à r.l.

The combined financial statements of the Issuer; in its capacity as the successor entity of Altice International and Altice France as of and for the years ended December 31, 2012, 2011 and 2010 have been audited by Deloitte Audit S. à r.l.

## LISTING AND GENERAL INFORMATION

### Listing

An application was made for each of the Notes, to be listed on the Official List of the Luxembourg Stock Exchange and traded on its Euro MTF Market. Notice of any optional redemption, change of control or any change in the rate of interest payable on the Notes will be published on the website of the Luxembourg Stock Exchange ([www.bourse.lu](http://www.bourse.lu)).

Copies of the following documents may be obtained electronically or inspected in physical form during usual business hours on any weekday (Saturdays, Sundays and public holidays excepted) at the registered office of the Issuer, the Paying Agents so long as the Notes remain listed on the official list of the Luxembourg Stock Exchange and admitted to trading on its Euro MTF Market and the rules and regulations of such exchange require:

- (1) the articles of association of the Issuer;
- (2) following the Completion Date, the articles of association of the Guarantor;
- (3) the standalone financials of the Guarantor (as applicable);
- (4) the Issuer's annual reports and quarterly reports and consolidated financial statements required to be provided under "*Description of Notes—Certain Covenants—Reports*";
- (5) the Indenture;
- (6) Altice S.A. Intercreditor Agreement;
- (7) the security documents governing the Collateral; and
- (8) the Offering Memorandum is available for review through the Listing Agent.

The Issuer will maintain a transfer agent in Luxembourg for so long as any of the Notes are listed on the Luxembourg Stock Exchange. The Issuer reserves the right to vary such appointment and will publish notice of such change of appointment on the website of the Luxembourg Stock Exchange ([www.bourse.lu](http://www.bourse.lu)).

Pursuant to Part 1, Chapter 5, Item 502 of the rules and regulations of the Luxembourg Stock Exchange, the Notes will be freely transferable on the Luxembourg Stock Exchange.

The gross proceeds of the offering of the Notes will be €4,172 million (equivalent).

### Clearing Information

#### *Dollar Notes*

The Dollar Notes sold pursuant to Regulation S and to Rule 144A of the U.S. Securities Act have been accepted for clearance through the facilities of DTC and have been assigned CUSIP numbers L0179ZAA2 and 02154VAA9, respectively. The ISIN for the Dollar Notes sold pursuant to Regulation S is USL0179ZAA23 and the ISIN for the Dollar Notes sold pursuant to Rule 144A is US02154VAA98. The common code for the Dollar Notes sold pursuant to Regulation S is 106193665 and the common code for the Dollar Notes sold pursuant to Rule 144A is 106193673.

#### *Euro Notes*

The Euro Notes sold pursuant to Regulation S and to Rule 144A of the U.S. Securities Act have been accepted for clearance through the facilities of Clearstream and Euroclear and have been assigned common codes 106164231 and 106164258, respectively. The ISIN for the Euro Notes sold pursuant to Regulation S is XS1061642317 and the ISIN for the Euro Notes sold pursuant to Rule 144A is XS1061642580.

## Legal Information

The Issuer is incorporated under the name of Altice S.A. as a public limited liability company (*société anonyme*), incorporated under the laws of the Grand Duchy of Luxembourg on January 3, 2014. The articles of association of the Issuer have been filed with the Luxembourg Trade and Companies Register and are published in the *Mémorial C, Recueil des Sociétés et Associations* dated February 25, 2014, under number 501, page 24012 et seq. The registered office of the Issuer and business address of its directors is 3, Boulevard Royal, L-2449 Luxembourg. The Issuer's telephone number is +352 278 58 901. The Issuer is registered with the Luxembourg Trade and Companies Register under number B183391.

The Issuer has a share capital of €2,027,871.93 comprised of 202,787,193 shares with a nominal value of €0.01, all of which have been subscribed and fully paid-up.

The Issuer's object is the acquisition of participations, in Luxembourg or abroad, in any company or enterprise in any form whatsoever, and the management, development and sale of those participations. The Issuer may in particular acquire and sell, by subscription, purchase and exchange or in any other manner, any stock, shares and other participation securities, bonds, debentures, certificates of deposit and other debt instruments and, more generally, any securities and financial instruments issued by any public or private entity. It may participate in the creation, development, management and control of any company or enterprise. Further, it may invest in the acquisition and management of a portfolio of patents or other intellectual property rights of any nature or origin.

The Issuer may borrow in any form. The Issuer may issue notes, bonds and any kind of debt and equity securities. It may issue convertible funding instruments and warrants. The Issuer may lend funds, including, without limitation, the proceeds of any borrowings to its subsidiaries and affiliated companies. It may also give guarantees and pledge, transfer, encumber or otherwise create and grant security over some or all of its assets to guarantee its own obligations and those of any other company, subsidiary or affiliate, and, generally, for its own benefit and that of any other company or person. The Issuer may issue warrants or any other instrument which allows the holder of such instrument to subscribe for shares in the Issuer. For the avoidance of doubt, the Issuer may not carry out any regulated financial sector activities without having obtained the requisite authorisation.

The Issuer may use any techniques, legal means and instruments to manage its investments efficiently and protect itself against credit risks, currency exchange exposure, interest rate risks and other risks. The Issuer may carry out any commercial, financial or industrial operation and any transaction with respect to real estate or movable property, which directly or indirectly, favours or relates to its corporate object (including without limitation the performance of any kind of services to its subsidiaries).

The creation and issuance of the Notes has been authorized by resolutions of the Board of Directors of the Issuer dated April 3 and April 5, 2014.

Altice France is incorporated under the name Altice France S.A., as a public limited liability company (*société anonyme*), incorporated under the laws of the Grand Duchy of Luxembourg on 18 December 2007. The articles of association of Altice France have been filed with the *Mémorial C, Recueil des Sociétés et Associations* dated 11 February 2008, number 352, page 16876 et seq. The registered office of Altice France and the business address of the directors of Altice France is at 3, boulevard royal, L-2449 Luxembourg, Grand Duchy of Luxembourg. Altice France's telephone number is +352 22 60 56 40. Altice France is registered with the Luxembourg Trade and Companies' Register under number B 135.296.

Altice France S.A. has a share capital of €237,791,698 comprised of 47,558,340 shares in each Class A, B, C and D and 47,558,338 shares in Class E shares with a nominal value of €1, all of which have been subscribed and fully paid-up.

According to Article 4 of its articles of association, Altice France may carry out all transactions pertaining to the acquisition, management, development and disposal of participations in whichever form in Luxembourg and foreign companies.

Furthermore, Altice France may acquire and dispose of all other securities by way of subscription, purchase, exchange, sale or otherwise.

Altice France may also contract loans and issue bonds or convertible bonds and debt securities.

Altice France may also grant all kinds of support, loans, advances or guarantees to companies in which it has a direct or indirect participation, or to all companies which form part of the group of companies to which Altice France belongs.

In general, Altice France may likewise carry out all commercial, industrial and financial transactions, whether in the area of securities or of real estate, which are liable to enhance or to supplement its purpose.

The creation and issuance of the guarantee under the Notes has been authorized by resolutions of the board of directors of Altice France S.A. dated April 15, 2014.

### ***Management***

The Issuer is managed by a board of directors composed of six (6) members being:

1. Mr. Patrick Drahi (Executive Chairman);
2. Mr. Dexter Goei (Chief Executive Officer);
3. Mr. Dennis Okhuijsen (Chief Financial Officer);
4. Mr. Jérémie Bonnin (General Secretary);
5. Michel Combes (Non-Executive Director); and
6. Scott Matlock (Non-Executive Director)

The Guarantor, Altice France is managed by a board of managers composed by three (3) members being:

1. Jérémie Bonnin;
2. Emilie Schmitz;
3. Laurent Godineau.

**Emilie Schmitz**, 31, is a director of the Senior Notes Issuer and the Senior Secured Notes Issuer. Mrs Schmitz serves as an accountant manager of Quilvest Luxembourg Services S.A., a corporate and trust services provider. Prior to joining Quilvest Luxembourg Services S.A. in 2013, Mrs Schmitz was a Senior Advisor at Deloitte SA (Luxembourg). She graduated from the School Robert Schuman of Metz (France) with a bachelor's degree specializing in accountancy and management.

**Laurent Godineau**, 40, is a director of the Senior Notes Issuer and the Senior Secured Notes Issuer. Mr Godineau works at Quilvest Luxembourg Services S.A., a corporate and trust services provider specialized in private equity funds. Prior to joining Quilvest Luxembourg Services SA in 2013, he served as a general manager of Centralis S.A., a corporate and trust services provider. Prior to joining Centralis S.A. in 2007, Mr. Godineau was a Senior Advisor at Alter Domus (Luxembourg). He graduated from the ESC Bretagne Brest with a master's in Finance and Chartered Accountancy and also holds a Master of Sciences degree in International Business and Finance from the University of Reading.

### ***Business Year***

The business year for the Issuer begins on the first day of January and ends on the last day of December of each year, except for the first business year which commenced on January 3, 2014, and ends on December 31, 2014.

The business year for Altice France begins on the first day of January and ends on the last day of December of each year.

### ***Financial statements***

The consolidated financial statements of the Issuer will be published on an annual basis. These statements will be audited by the Issuer's auditors.

### ***Auditors***

The independent auditor (*réviseur d'entreprises agréé*) of the Issuer is Deloitte Audit, a private limited liability company (*société à responsabilité limitée*), having its registered office at 560, rue de Neudorf, L-2220 Luxembourg registered with the Luxembourg Trade and Companies Register under number B0067895 which is a member of the *Institut des Réviseurs d'Entreprises*.

The independent auditors of Numericable are Deloitte & Associates and KPMG Audit, a department of KPMG S.A.

The independent auditors of SFR are Ernst & Young et Autres and KPMG Audit, a department of KPMG S.A.

The independent auditor of Orange Dominicana, S.A. is Deloitte & Associés.

The independent auditor of Cabovisão was Deloitte & Associados, SROC, S.A. prior to its acquisition by us.

The independent auditor of Winreason, S.A. was Deloitte & Associados, SROC S.A. prior to its acquisition by us.

The independent auditors of Groupe Outremer Telecom were Constantin Associés and Ernst & Young et Autres prior to its acquisition by us.

The independent auditor of Coditel Brabant SPRL was Deloitte Bedrijfsrevisoren / Reviseurs d'Entreprises prior to its acquisition by us.

The independent auditor of Coditel S.à r.l. was Deloitte Audit S.à r.l. prior to its acquisition by us.

The independent auditor of Ma Chaîne Sport S.A.S. was KPMG Audit (department de KPMG S.A.) prior to its acquisition by us.

### ***Litigation***

Other than as disclosed in the Offering Memorandum, there are no, and have not been any, governmental, legal or arbitration proceedings against or affecting the Issuer or the Guarantor, nor is the Issuer aware of any pending or threatened proceedings of such kind, which may have or have had a significant effect on the financial position of the Issuer.

### **Offering Memorandum**

Except as disclosed in the Offering Memorandum:

- there has been no material adverse change in the consolidated financial position of the Issuer since December 31, 2013; and
- the Issuer has not been involved in any governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which the Issuer is aware) since the dates of their incorporation, which may have, or have had in the recent past, significant effects on the Issuer's financial position or profitability.

The Issuer accepts responsibility for the information contained in the Offering Memorandum. The information contained in the Offering Memorandum is in accordance with the facts and does not omit anything likely to affect the import of such information.

The language of the Offering Memorandum is English. Certain legislative references and technical terms have been cited in their original language in order that the correct technical meaning may be ascribed to them under applicable laws.

#### **The Trustee**

The Trustee is Deutsche Bank AG, London Branch and its address is Winchester House, 1 Great Winchester Street, London, EC2N 2DB, United Kingdom. The Trustee will be acting in its capacity of Trustee for the holders of the Notes and provides such services to the holders of the Notes as described in the Indenture.

## GLOSSARY

Term	Definition
<b>“3G”</b> .....	The third generation of mobile communications standards, referred to in the industry as IMT-2000, capable of data speeds exceeding the 14.4 Kbps of GSM technology.
<b>“4G”</b> .....	The fourth generation of mobile communications standards, referred to the industry as IMT-Advanced with a nominal data rate of 100 Mbit/s while the client physically moves at high speeds relative to the station, and 1 Gbit/s while client and station are in relatively fixed positions. Expected to provide a comprehensive and secure all-IP based mobile broadband solution to laptop computer wireless modems, smartphones, and other mobile devices. Facilities such as ultra-broadband Internet access, IP telephony, gaming services, and streamed multimedia may be provided to users, which when fully implemented is expected to allow for higher data speeds than achievable with 3G and additional network features and capabilities.
<b>“ADSL”</b> .....	Asymmetrical DSL; an Internet access technology that allows voice and high-speed data to be sent simultaneously over local copper telephone line.
<b>“ARPU”</b> .....	Average Revenue Per User; ARPU is an average monthly measure that we use to evaluate how effectively we are realizing revenues from subscribers. ARPU is calculated by dividing the revenue (for the services provided, in each case including the proportional allocation of the bundling discount) for the respective period by the average number of RGUs for that period and further by the number of months in the period. The average number of RGUs is calculated as the number of RGUs on the first day in the respective period plus the number of RGUs on the last day of the respective period, divided by two. This definition may be different for other companies, including SFR.
<b>“bandwidth”</b> .....	The width of a communications channel; in other words, the difference between the highest and lowest frequencies available for network signals. Bandwidth also refers to the capacity to move information.
<b>“broadband Internet”</b> .....	Any circuit that can transfer data significantly faster than a dial-up phone line.
<b>“churn”</b> .....	The number of RGUs for a given service disconnected (either at the customer’s request or due to termination of the subscription by us) during the period divided by the number of average RGUs for such service for such period; statistics do not include customers excluding transfers between our services (other than a transfer between our cable services and our mobile services).
<b>“CPE”</b> .....	Customer premise equipment, which typically comprises a modem or set-top box and associated cabling and other fittings such as an NIU in order to deliver service to a subscriber.
<b>“DSL”</b> .....	Digital Subscriber Line; DSL is a technology that provides high-speed Internet access over traditional telephone lines.
<b>“DTT”</b> .....	Digital terrestrial television.
<b>“FTTx”</b> .....	Fiber optic infrastructure
<b>“HD”</b> .....	High definition.
<b>“HFC”</b> .....	Hybrid fiber coaxial.

<b>“HSPA”</b> .....	High Speed Packet Access, a type of UMTS3G network that supports both mobile communications technology that provides enhanced download and upload speeds.
<b>“IMS”</b> .....	IP Multimedia Subsystem.
<b>“Internet”</b> .....	A collection of interconnected networks spanning the entire world, including university, corporate, government and research networks. These networks all use the IP (Internet Protocol) communications protocol.
<b>“IP”</b> .....	Internet Protocol.
<b>“IPTV”</b> .....	Internet Protocol television
<b>“IRU”</b> .....	Indefeasible Right of Use, the effective temporary ownership of a portion of the capacity of an international cable. IRUs are specified in terms of a certain number of channels of a given bandwidth. IRU is granted by the company or consortium of companies that built the (usually optical fiber) cable.
<b>“ISP”</b> .....	Internet Service Provider.
<b>“IT”</b> .....	Information technology, a general term referring to the use of various software and hardware components when used in a business.
<b>“local loop”</b> .....	The network element used to connect a subscriber to the nearest switch or concentrator, commonly referred to as the “last mile” because it is the part of the network that is connected directly to the subscriber; alternatively the HFC access network.
<b>“LTE”</b> .....	Long term evolution technology being a standard in mobile network technology.
<b>“M2M”</b> .....	Machine-to-machine
<b>“MHz”</b> .....	Megahertz; a unit of frequency equal to one million Hertz.
<b>“Mbps”</b> .....	Megabits per second; each megabit is one million bits.
<b>“Moody’s”</b> .....	Moody’s Investors Services, Inc.
<b>“multiple-play”</b> .....	The bundling of different telecommunications services, e.g. digital cable television, broadband Internet and fixed telephony services, by one provider.
<b>“MVNO”</b> .....	Mobile virtual network operator. Refers to a company that provides mobile services but does not have its own licensed frequency allocation of radio spectrum, nor necessarily all of the infrastructure required to provide mobile telephony services.
<b>“network”</b> .....	An interconnected collection of components which would, in a telecommunications network, consist of switches connected to each other and to customer equipment by real or virtual links. Transmission links may be based on fiber optic or metallic cable or point to point radio connections.
<b>“PacketCable™”</b> .....	A CableLabs-led initiative to develop interoperable interface specifications for delivering advanced, real-time multimedia services over two-way cable plant. PacketCable™ networks use Internet protocol (IP) technology to enable a wide range of multimedia services, such as IP telephony, multimedia conferencing, interactive gaming and general multimedia applications.
<b>“PSTN”</b> .....	Public switched telephony network

<b>“PVR”</b> .....	Personal video recording
<b>“quad-play”</b> .....	Triple-play with the addition of mobile service.
<b>“RGU”</b> .....	Revenue Generating Unit. RGUs relate to sources of revenue, which may not always be the same as customer relationships. For example, one person may subscribe for two different services, thereby accounting for only one subscriber, but two RGUs. RGUs for pay television and broadband Internet infrastructure access are counted on a per source service basis and RGUs for fixed-line telephony are counted on a per line basis. Mobile RGUs is equal to the net number of lines or SIM cards that have been activated on our mobile network.
<b>“S&amp;P”</b> .....	Standard & Poor’s Investors Ratings Services.
<b>“SOHOs”</b> .....	Small offices and home offices.
<b>“triple-play”</b> .....	Where a customer has subscribed to a combination of three products, digital cable television, broadband Internet and fixed telephony services, from us.
<b>“UMTS”</b> .....	Universal Mobile Telecommunications Service, a 3G mobile networking standard commonly used to upgrade GSM networks to 3G standards.
<b>“U.S. Docsis 3.0”</b> .....	Data over cable service interface specification, a technology that enables the addition of high-speed data transfer over an existing cable television system.
<b>“VoD”</b> .....	Video on demand; a service which provides subscribers with enhanced playback functionality and gives subscribers access to a broad array of on demand programming, including movies, live events, local drama, music videos, children programming and adult programming.
<b>“VoIP”</b> .....	Voice over Internet Protocol; a telephone service via Internet, or via TCP/IP protocol, which can be accessed using a computer, a sound card, adequate software and a modem.
<b>“VPN”</b> .....	Virtual private network, a business service enabling users to obtain remote access to network functionality.
<b>“VDSL”</b> .....	Very high speed DSL. A high speed variant of ADSL.
<b>“VoN”</b> .....	Voice over Net, a form of telephony over the Internet that is usually a lower quality than VoIP.

## STATEMENT OF DIRECTOR'S RESPONSIBILITIES

The Directors are responsible for preparing the Annual Report, including the consolidated financial statements, the consolidated management report and the Corporate Governance Report, in accordance with Luxembourg legal and regulatory requirements ("Company Law"). The Directors are also responsible for ensuring that the Annual Report is published in accordance with Company Law.

Company Law requires the Board of Directors to prepare consolidated financial statements for each financial year. The Directors are required by Regulation (EC)1606/2002 of 19 July 2002 ("IAS Regulation") to prepare the consolidated financial statements in accordance with International Financial Reporting Standards as adopted in the European Union ("IFRSs").

IFRS requires that the consolidated financial statements give a true and fair view of the Company's consolidated financial position, consolidated financial performance and cash flows for each financial year. This requires the faithful representation of the effects of transactions, other events and conditions in accordance with the definitions and recognition criteria for assets, liabilities, income and expenses set out in the International Accounting Standards Board's "Framework for the preparation and presentation of financial statements". In doing so, the Directors are responsible for ensuring compliance with all applicable IFRSs so as to ensure that the consolidated financial statements give a true and fair view.

The Directors are also required to properly select and apply accounting policies; present information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information; and provide additional disclosures when compliance with the specific requirements in IFRSs is insufficient to enable users to understand the impact of particular transactions, other events and conditions on the Company's financial position and financial performance.

### Responsibility statement

We confirm to the best of our knowledge that:

1. The consolidated financial statements of Altice S.A. as at and for the year ended December 31, 2013 presented in this Annual Report and established in conformity with International Financial Reporting Standards as adopted by the European Union, give a true and fair view of the assets, liabilities, financial position and profit or loss of the Company and the undertakings included within the consolidation taken as a whole,
2. The consolidated management report includes a fair review of the development and performance of the business and position of the Company and the undertakings included within the consolidation taken as a whole, together with a description of the principal risks and uncertainties that they face.

By order of the Board of Directors

Dexter Goei  
*Chief Executive Officer*

Dennis Okhuijsen  
*Chief Financial Officer*

## REPORT OF THE REVISEUR D'ENTREPRISES AGREE

To the Shareholders of  
Altice S.A.  
3, boulevard Royal  
L-2449 Luxembourg  
Grand-Duchy of Luxembourg

### **Report on the consolidated financial statements.**

Following our appointment by the Shareholders, we have audited the accompanying consolidated financial statements of Altice S.A. (the successor entity of Altice Six S.A. and Altice VII S.à r.l.) which comprise the consolidated statement of financial position as at December 31, 2013, and the consolidated statements of income, other comprehensive income, changes in equity and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

#### *Responsibility of the Board of Managers for the consolidated financial statements*

The Board of Managers is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards as adopted in the European Union, and for such internal control as the Board of Managers determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

#### *Responsibility of the réviseur d'entreprises agréé*

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing as adopted for Luxembourg by the *Commission de Surveillance du Secteur Financier*. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the *réviseur d'entreprises agréé*'s judgement including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the *réviseur d'entreprises agréé* considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Managers, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### *Opinion*

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of Altice S.A. (the successor entity of Altice Six S.A. and Altice VII S.à r.l.) as of December 31, 2013, and of its consolidated financial performance and cash flows for the year then ended in accordance with International Financial Reporting Standards as adopted in the European Union.

### **Report on other legal and regulatory requirements.**

The consolidated management report, which is the responsibility of the Board of Directors, is consistent with the consolidated financial statements and includes the information required by the law of

December 19, 2002 on the commercial and companies register and on the accounting records and annual accounts of undertakings, as amended with respect to the corporate governance statement.

For Deloitte Audit, *Cabinet de révision agréé*

John Psaila, *Réviseur d'entreprises agréé*

The accompanying notes form an integral part of these consolidated financial statements.

**Altice S.A.**  
**Consolidated financial statements as of December 31, 2013**

**1—Notes to the consolidated financial statements**

**1.1 Presentation of the Two Groups forming Altice Group**

**Altice S.A.**

Altice S.A. (the “Company”) is a public limited liability company (*Société Anonyme*) incorporated in the Grand Duchy of Luxembourg whose head office is in Luxemburg and has been formed on January 3, 2014. Upon admission of the Company’s shares on Euronext Amsterdam on January 31, 2014, the Company received the contribution of two entities incorporated in the Grand Duchy of Luxembourg: Altice Six S.A. and Altice VII S.à r.l.. Altice Six S.A. is hereafter referred to as “Altice Six” and Altice VII S.à r.l. and its subsidiaries are hereafter referred to as “Altice VII” or “Altice VII Group”. The Company is hence the successor entity of Altice Six and Altice VII (collectively the “Predecessor Entities”).

**Altice Six**

As at December 31, 2013, Altice Six holds shares in Numericable Group, a French group listed on Euronext Paris. Numericable Group is a French cable television service provider. Its core products are premium digital television packages, which are available to households in areas that are triple-play enabled. They also provide French consumers with broadband Internet, fixed telephony, and mobile telecommunications services.

Additionally to the Business To Consumer (“B2C”) described above and through its main operational entity, Completel S.A.S., Numericable Group operates the largest alternative fiber-to-the-office (“FTTO”), network in France, constituting the third alternative Digital Subscriber Line (“DSL”) network in France. Completel SAS provides business customers with a comprehensive service offering, which includes data transmission, very high speed Internet, telecommunications services, convergence and mobility solutions, through fiber and DSL networks.

**Altice VII**

Altice VII offers a variety of services over its cable and mobile infrastructure, including, but not limited to, pay television, broadband Internet access, fixed-line telephony and mobile telephony to residential customers, and, to a lesser extent, corporate customers, depending on the country. Available cable-based service offerings depend on the bandwidth capacity of its cable networks and whether they have been upgraded for two-way communications. Where possible, Altice VII Group intends to deploy the same technologies and equipment across its footprints to generate economies of scale and common knowledge. In addition, the Altice VII group companies aim at sharing skills and best practices across the various operations of Altice VII Group.

Television service offerings include basic and premium programming, and, in most markets, incremental product and service offerings such as enhanced pay-per-view programming, including video-on-demand (“VoD”) and near-video-on-demand (“NVoD”), digital video recorders (“DVR”), high definition (“HD”) television services and, in certain areas, exclusive content, purchased or produced. The Altice VII Group tailors its basic and premium channel line-up to each country of operation according to culture, demographics, programming preferences and local regulation. The Altice VII Group also offers broadband Internet access services and fixed-line telephony in all its footprints. It also owns and operates mobile infrastructures in certain geographies (French Overseas Territories) and offers mobile services through an MVNO (Mobile Virtual Network Operator) arrangement in Belgium.

**1.2 Description of the context**

Altice Six and Altice VII (collectively the “**Two Groups**”, the “**Reporting Entity**” or the “**Consolidated Group**”) are as at December, 2013, entities under common control and considered together to be the reporting entity for the purposes of these consolidated financial statements. The Two Groups are ultimately controlled by Patrick Drahi. The purpose of the consolidated financial statements is to present a fair depiction of the financial condition, and the assets and liabilities of the Two Groups, using historical

## Altice S.A.

### Consolidated financial statements as of December 31, 2013 (Continued)

#### 1—Notes to the consolidated financial statements (Continued)

bases in the assets, liabilities and results of operations and cash flows for each period presented in the consolidated financial statements.

Accordingly, the consolidated financial statements reflect the historical assets, liabilities, revenues, expenses and cash flows that were directly related to the sub-groups, Altice Six and Altice VII, which are separate legal groups as at December 31, 2013.

#### 1.3 Statement of compliance

The Consolidated financial statements of Altice Group include a consolidated statement of financial position as of December 31, 2013, a consolidated statement of income, a consolidated statement of other comprehensive income, a consolidated statement of cash flows and a Consolidated statement of changes in equity for the year ended December 31, 2013 and the underlying Notes. The Consolidated financial statements have been prepared in compliance with International Financial Reporting Standards (“IFRS”) as published by the International Accounting Standards Board (“IASB”) and as adopted by the European Union.

The Consolidated Financial Statements were approved by the Board of Directors on March 18, 2014.

#### 1.4 Basis of presentation of the consolidated financial statements

The consolidated financial statements were prepared using the accounting records that were used to prepare the financial statements of the Altice Six and Altice VII sub-groups for the year ended December 31, 2013.

All intra-group balances and transactions have been eliminated in preparing the consolidated financial statements, including the transactions between Altice Six and Altice VII and their respective subsidiaries.

As described above, the Combination of the Two Groups is considered a combination of entities under common control of Patrick Drahi and the Consolidated Financial Statements reflects the combination of Altice Six and Altice VII using the following methods and principles:

- In accordance with IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors* paragraph 10, judgment has been applied in developing and applying an accounting policy that results in information that is relevant and reflect the economic substance of the transaction. As a result, the acquisition method, as defined in IFRS 3 *Business Combinations (Revised 2008)* (“IFRS 3”), has not been applied to reflect the combination of the Two Groups. In the absence of specific guidance under IFRS for transactions between entities under common control, we considered and applied standards on business combination and transactions between entities under common control issued by the regulators in the United States (Accounting Standards Codification Topic 810-10-45-10 and Topic 810-10-55-1B *Consolidation* and SEC Regulation S-X Article 3A—*Consolidated and Combined Financial Statements*) and in the United Kingdom (FRS 6 *Acquisitions and mergers*) to prepare the Consolidated Financial Statements.
- Likewise, the Consolidated Financial Statements were prepared by aggregating the separate financial statements of Altice Six and Altice VII at their historical book value:
  - Assets, liabilities, income and expenses of the Two Groups have been extracted from the accounting records of the respective Altice Six and Altice VII sub-groups and fully aggregated at their historical book value without being revalued;
  - The invested equity has been determined by aggregating the consolidated equity of the subgroups Altice Six and Altice VII;
  - No goodwill has been recognized and the net assets and liabilities have been recognized at their historical book value; however, historical goodwill balances of the Two Groups existing before the combination have been maintained at their book value in the Consolidated Financial Statements;

**1—Notes to the consolidated financial statements (Continued)**

The effects of transactions between the Two Groups on assets, liabilities, revenue, and expenses for periods presented have been eliminated except for the operations that relate to associates which are not eliminated.

**1.2. Application of new and revised International Financial Reporting Standards (IFRSs)**

**1.2.1 *New and revised IFRSs affecting amounts reported and/or disclosures in the financial statements:***

In the current year, the Consolidated Group has applied a number of new and revised IFRSs issued by the International Accounting Standards Board (IASB) and endorsed by the European Union.

**New and revised Standards on consolidation, joint arrangements, associates and disclosures**

In May 2011, a package of five standards on consolidation, joint arrangements, associates and disclosures was issued comprising IFRS 10 Consolidated Financial Statements, IFRS 11 Joint Arrangements, IFRS 12 Disclosure of Interests in Other Entities, IAS 27 (as revised in 2011) Separate Financial Statements and IAS 28 (as revised in 2011) Investments in Associates and Joint Ventures. Subsequent to the issue of these standards, amendments to IFRS 10, IFRS 11 and IFRS 12 were issued to clarify certain transitional guidance on the first-time application of the standards.

In the current year, the Consolidated Group has early applied for the first time IFRS 10, IFRS 11, IFRS 12 and IAS 28 (as revised in 2011) together with the amendments to IFRS 10, IFRS 11 and IFRS 12 regarding the transitional guidance. IAS 27 (as revised in 2011) is not applicable to the Consolidated Group as it deals only with separate financial statements.

The impact of the application of these standards is set out below.

**Impact of the application of IFRS 10**

IFRS 10 replaces the parts of IAS 27 Consolidated and Separate Financial Statements that deal with consolidated financial statements and SIC-12 Consolidation—Special Purpose Entities. IFRS 10 changes the definition of control such that an investor has control over an investee when a) it has power over the investee, b) it is exposed, or has rights, to variable returns from its involvement with the investee and c) has the ability to use its power to affect its returns. All three of these criteria must be met for an investor to have control over an investee. Previously, control was defined as the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. Additional guidance has been included in IFRS 10 to explain when an investor has control over an investee.

The Directors of the Company made an assessment as at the date of initial application of IFRS 10 (i.e. 1 January 2013) and has not identified any impact in the scope of consolidation linked to application of IFRS 10 on the existing companies that are in the scope of consolidation as at December 31, 2013.

**Impact of the application of IFRS 11**

IFRS 11 replaces IAS 31 Interests in Joint Ventures and SIC 13 Jointly Controlled Entities—Non-Monetary Contributions by Venturers.

IFRS 11 deals with how a joint arrangement should be classified where two or more parties have joint control. There are two types of joint arrangements under IFRS 11: joint operations and joint ventures.

## Altice S.A.

### Consolidated financial statements as of December 31, 2013 (Continued)

#### 1—Notes to the consolidated financial statements (Continued)

These two types of joint arrangements are distinguished by parties' rights and obligations under the arrangements.

Types of Joint Arrangement	Features	Accounting under IFRS 11
Joint venture	Joint ventures have rights to the net assets of the arrangement.	Equity method of accounting—Proportionate consolidation is no longer allowed
Joint operation	Joint operators have rights to the assets and obligations for the liabilities of the arrangement.	Each joint operator recognizes its assets, liabilities, revenue and expenses relating to its interest in joint operation in accordance with the IFRSs applicable to those particular assets, liabilities, revenues and expenses

Under IFRS 11, the existence of a separate vehicle is no longer a sufficient condition for a joint arrangement to be classified as a joint venture whereas, under IAS 31, the establishment of a separate legal vehicle was the key factor in determining whether a joint arrangement should be classified as a jointly controlled entity.

Application of IFRS 11 has no impact on the consolidated financial statements of the Consolidated Group for the year ended December 31, 2013.

#### Impact of the application of IFRS 12

IFRS 12 is a new disclosure standard and is applicable to entities that have interests in subsidiaries, joint arrangements, associates and/or unconsolidated structured entities. In general, the application of IFRS 12 has resulted in more extensive disclosures in the consolidated financial statements.

#### IFRS 13 Fair Value Measurement

The Consolidated Group has applied IFRS 13 for the first time in the current year. IFRS 13 establishes a single source of guidance for fair value measurements and disclosures about fair value measurements. The scope of IFRS 13 is broad; the fair value measurement requirements of IFRS 13 apply to both financial instrument items and non-financial instrument items for which other IFRSs require or permit fair value measurements and disclosures about fair value measurements, except for share-based payment transactions that are within the scope of IFRS 2 Share-based Payment, leasing transactions that are within the scope of IAS 17 Leases, and measurements that have some similarities to fair value but are not fair value (e.g. net realisable value for the purposes of measuring inventories or value in use for impairment assessment purposes).

IFRS 13 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions. Fair value under IFRS 13 is an exit price regardless of whether that price is directly observable or estimated using another valuation technique. Also, IFRS 13 includes extensive disclosure requirements.

IFRS 13 requires prospective application from 1 January 2013. In addition, specific transitional provisions were given to entities such that they need not apply the disclosure requirements set out in the Standard in comparative information provided for periods before the initial application of the Standard. In accordance with these transitional provisions, the Consolidated Group has not made any new disclosures required by IFRS 13 for the 2012 comparative period. Other than the additional disclosures, the application of IFRS 13 has not had any material impact on the amounts recognised in the consolidated financial statements.

**1—Notes to the consolidated financial statements (Continued)**

**Amendment to IFRS 7 disclosure—Offsetting Financial Assets and Financial Liabilities**

The Consolidated Group has applied the amendments to IFRS 7 disclosures—Offsetting financial assets and liabilities for the first time in the current period. The amendments to IFRS 7 require entities to disclose information about rights of offset and related arrangements (such as collateral pricing agreements) for financial instruments under an enforceable master netting agreement or similar arrangement.

The amendments have been applied retrospectively. As the Consolidated Group does not have an offsetting arrangement in place, the application of the amendments has had no material impact on the disclosures or on the amounts recognised in the consolidated financial statements.

**Annual improvements to IFRSs 2009-2011 cycle issued in May 2012**

The Annual Improvements to IFRSs 2009-2011 Cycle include a number of amendments to various IFRSs. The amendments are effective for annual periods beginning on or after January 1, 2013. Amendments to IFRS include:

Amendments to IAS 16 Property Plant and Equipment; and

Amendments to IAS 32 Financial Instruments: Presentation.

**Amendments to IAS 16**

The amendments to IAS 16 clarify that spare parts, stand-by equipment and servicing equipment should be classified as property, plant and equipment when they meet the definition of the property, plant and equipment in IAS 16 and as inventory otherwise. This amendment does not have a significant impact on the Consolidated Group's consolidated financial statements.

**Amendments to IAS 32**

The amendments to IAS 32 clarify that income tax relating to distributions to holders of an equity instrument and to transaction costs of an equity transaction should be accounted for in accordance with IAS 12 income taxes. This amendment does not have a significant impact on the Consolidated Group's consolidated financial statements.

**Standards issued but not yet effective**

In its financial statements, the Consolidated Group has not anticipated the following standards and interpretations, for which application is not mandatory for periods opened from January 1, 2013. Their impact on the Consolidated Group's financial statements is estimated not to be significant and/or not applicable.

*IAS 36 Impairment of Assets: Recoverable Amounts Disclosures for Non-Financial Assets*

This standard's objective is to amend the disclosure requirements in IAS 36 Impairment of Assets with regard to the measurement of the recoverable amount of impaired assets that were made as a consequence of issuing IFRS 13 Fair Value Measurement in May 2011.

The Consolidated Group anticipates additional disclosures in relation to the application of this standard.

*IAS 39 Financial Instruments: Recognition and Measurement and IFRS 9 Financial Instruments: Novation of derivatives and continuation of hedge accounting*

This standard's objective is to provide an exception to the requirement for the discontinuation of hedge accounting in IAS 39 and IFRS 9 in circumstances when a hedging instrument is required to be novated to a central counterparty as a result of laws or regulations.

The Consolidated Group does not apply hedge accounting and therefore does not expect any impact from the application of this Standard.

## **2—Significant accounting policies**

### **2.1 Significant accounting policies**

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards as adopted by the European Union.

### **2.2 Basis of preparation**

The consolidated financial statements have been prepared on the historical cost basis except for certain properties and financial instruments that are measured at revalued amounts or fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Consolidated Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of IFRS 2, leasing transactions that are within the scope of IAS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in IAS 2 or value in use in IAS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability.

The principal accounting policies are set out below.

### **2.3 Basis of consolidation**

The consolidated financial statements incorporate the financial statements of the Reporting Entity and entities (including structured entities) controlled by the Reporting Entity and its subsidiaries, except as disclosed in note 1.6. Control is achieved when the Reporting Entity:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Company has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including:

- the size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;

**2—Significant accounting policies (Continued)**

- potential voting rights held by the Company, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Company has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statements of income and other comprehensive income from the date the Company gains control until the date when the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Consolidated Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Consolidated Group are eliminated in full on consolidation.

All companies in which the Consolidated Group has a controlling interest are fully consolidated. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

All intra-group transactions, balances, income and expenses are eliminated in full on consolidation. Non-controlling interests in subsidiaries are identified separately from the Consolidated Group's equity therein.

**2.4 Functional currency**

The consolidated financial statements are presented in millions of euros. Euro is the functional of Altice VII and the presentation currency of the Consolidated Group.

The functional currency, which is the currency that best reflects the economic environment in which the Consolidated Group operates and conducts its transactions, is separately determined for each Consolidated Group entity, including an associate accounted for using the equity method, and is used to measure its financial position and operating results.

**2.5 Foreign currency translation**

The presentation currency of the Consolidated Group is euro. In individual companies, transactions in foreign currencies are recorded at the exchange rate at the date of the transaction. Monetary assets and liabilities in foreign currencies are translated at year-end rates. Any resulting exchange differences are accounted for in the income statement. On consolidation, assets and liabilities of the Consolidated Group's entities reported in their functional currencies are translated into euro, the Consolidated Group's presentation currency, using the year-end exchange rates. Income and expense items are translated into euro at the annual weighted average exchange rate or at the rate of the date the transaction occurred for significant items.

Differences arising from the translation of opening net assets of the Consolidated Group entities, together with differences arising from the restatement of the net results for the year of the Consolidated Group entities, are recognized in other comprehensive income.

## **2—Significant accounting policies (Continued)**

### **2.6 Subsidiaries and associates**

#### **2.6.1 Subsidiaries**

All companies in which the Consolidated Group has a controlling interest are fully consolidated. Control exists when the Consolidated Group has the power, directly or indirectly, to govern the financial and operating policies of an enterprise so as to obtain benefits from its activities. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

All intra-group transactions, balances, income and expenses are eliminated in full on consolidation. Non-controlling interests in subsidiaries are identified separately from the Consolidated Group's equity therein.

#### **2.6.2 Associates**

Investments, over which the Consolidated Group exercises significant influence, but not control, are accounted for under the equity method. Such investees are referred to as “associates” throughout these consolidated financial statements.

Significant influence is presumed to exist when the Consolidated Group holds at least 20% of the voting power in the associates. Associates are initially recognized at cost at acquisition date. The Consolidated Financial Statements include the Consolidated Group's share of income and expenses, from the date significant influence commences until the date that significant influence ceases.

As per the provisions of IAS 28 *Investment in associates* the interest income and expenses recorded in the consolidated financial statements of the Consolidated Group on loans with associates have not been eliminated in the consolidated statements of income and therefore are still recorded in the consolidated financial statements.

### **2.7 Operating profit before depreciation, amortization and non-recurring costs**

The Consolidated Group has included the subtotal “Operating profit before depreciation, amortization and non-recurring costs” on the face of the consolidated statements of income. The Consolidated Group believes that this subtotal is useful to users of the Consolidated Group's financial statements as it provides them with a measure of the operating results which excludes non-cash elements such as depreciation and amortization as well as non-recurring transactions and management fees, enhancing the predictive value of the Consolidated Group's financial statements and providing information regarding the results of the Consolidated Group's ongoing trading activities and cash-flow generation that allows investors to better identify trends in the Consolidated Group's financial performance.

This non-IFRS measure is used by the Consolidated Group internally to manage and assess the results of its operations, make decisions with respect to investments and allocation of resources, and assess the performance of management personnel.

The Consolidated Group's subtotal within operating income may not be comparable to similarly titled measures used by other entities. Further, this measure should not be considered as an alternative for operating income as the effects of depreciation, amortization and impairment, excluded from this measure do ultimately affect the operating results, which is also presented within the consolidated financial statements in accordance with IFRS 1.

### **2.8 Revenue recognition**

Revenue from the Consolidated Group's activities is mainly composed of television, broadband Internet, fixed and mobile telephony subscription and installations fees invoiced to residential and business clients.

## 2—Significant accounting policies (Continued)

Revenue comprises the fair value of the consideration received or receivable for the sale of goods and services in the ordinary course of the Consolidated Group's activities. Revenue is shown net of value-added tax, returns, rebates and discounts and after eliminating intercompany sales within the group.

Revenues on bundle packages sold by the Consolidated Group are split into and recognised under each individual service sold in the bundle. For example, tripe play package revenues are booked under 'triple play television', 'triple play data' and 'triple play telephony' on a straight-line basis over their subscription period and revenues from telephone calls are recognized in revenue when the service is rendered.

Revenue is recognized as follows, in accordance with IAS 18 *Revenue*:

- Revenues from subscriptions for basic cable services, digital television pay, Internet and telephony (fixed and mobile) are recognized in revenue on a straight-line basis over the subscription period; revenues from telephone calls are recognized in revenue when the service is rendered;
- When a promotion not related to a customer's past consumption and purchases (such as subscription's rate discount, service free period) is offered to customer in relation to a subscription, the Consolidated Group recognizes the total amount of billable revenue on a straight-line basis over the term of the contract;
- Installation and set-up fees (including connection) for residential customers are accounted for as revenues when the service is rendered, if consideration received is lower than the sales direct costs to acquire the contractual relationship. Service access fees for business clients, when they are only allowed access to the services that are sold associated to an equipment or a service, are deferred and the corresponding revenue is recognized along the statistical client lifetime duration and generally spread over the contractual engagement period; and
- The revenue related to transmission capacity on terrestrial cables under indefeasible rights of use: Indefeasible Rights of Use ("IRU") arrangements are recognized on a straight-line basis over the life of the contract.

Revenues from mobile services resulting from the sale of mobile services:

- Revenues from the sale of equipment includes the sale of mobile devices and ancillary equipment for those devices. The revenues from the sales are recognized where all of the significant risk and yields that are derived from the ownership of the equipment are transferred to the purchaser and the seller does not retain continuing managerial involvement. Generally, the time of the delivery is the time at which ownership is transferred. The charge in respect of terminal equipment is made separately from the monthly charge for the consumption of services, in accordance with the amounts that is denoted in a separate invoice, which reflects the fair value of the terminal equipment, which is not subsidized by the Consolidated Group. In the light of the aforesaid, the Consolidated Group recognizes revenues in respect of the sale of devices on the transfer of the ownership of the devices to its customers. The revenues are recognized on the first day in accordance with its fair value as of that time and the difference between the fair value and the denoted amount of the consideration is recognized as financing income over the course of the period of the installment payments.

Income from credit arrangements

- Revenues deriving from long-term credit arrangements (such as the sale of devices in installments) are recorded on the basis of the present value of the future cash flows (against long-term receivables) and are discounted in accordance with interest rates. The difference between the original amount of the credit and the present value, as aforesaid, is spread over the length of the credit period and recorded as interest income over the length of the credit period.

## 2—Significant accounting policies (Continued)

### 2.9 Finance costs

Finance costs primarily comprise:

- Interest charges and other expenses paid for financing operations recognized at amortized costs;
- Changes in the fair value of interest rate derivative instruments that do not qualify as hedges for accounting purposes according to “IAS 39”;
- Interest income relating to cash and cash equivalents; and
- Gains/losses on extinguishment of debt.

### 2.10 Income taxes

Taxes on income in the income statement include current taxes and deferred taxes. The tax expenses or income in respect of current taxes or deferred taxes are recognized in profit or loss unless they relate to items that are recorded directly in equity, in these cases the tax effect is reflected under the relevant equity item.

#### 2.10.1 Current taxes

The current tax liability is measured using the tax rates and tax laws that have been enacted or substantively enacted by the end of reporting period as well as adjustments required in connection with the tax liability in respect of previous years.

#### 2.10.2 Deferred taxes

Differences existing at closing between the tax base value of assets and liabilities and their carrying value in the Consolidated Statement of Financial Position give rise to temporary differences. Pursuant to the liability method, these temporary differences result in the accounting of:

- Deferred tax assets, when the tax base value is greater than the carrying value (expected future tax saving),
- Deferred tax liabilities, when the tax base value is lower than the carrying value (expected future tax expense).

Deferred tax assets and liabilities are measured at the expected tax rates for the year during which the asset will be realized or the liability settled, based on tax rates (and tax regulations) enacted or substantially enacted by the closing date. They are reviewed at the end of each year, in line with any changes in applicable tax rates.

Deferred tax assets are recognized for all deductible temporary differences, tax loss carry-forwards and unused tax credits, insofar as it is probable that a taxable profit will be available, or when a current tax liability exists to make use of those deductible temporary differences, tax loss carry-forwards and unused tax credits, except where the deferred tax asset associated with the deductible temporary difference is generated by initial recognition of an asset or liability in a transaction which is not a business combination, and that, at the transaction date, does not impact earnings, nor income tax profit or loss.

For deductible temporary differences arising from investments in subsidiaries, joint ventures and other associated entities, deferred tax assets are recorded to the extent that it is probable that the temporary difference will reverse in the foreseeable future and that a taxable profit will be available against which the temporary difference can be utilized.

The carrying value of deferred tax assets is reviewed at each closing date, and revalued or reduced to the extent that it is more or less probable that a taxable profit will be available to allow the deferred tax asset to be utilized. When assessing the probability of a taxable profit being available, account is taken, primarily, of prior years' results, forecasted future results, non-recurring items unlikely to occur in the future and the tax strategy. As such, the assessment of the group's ability to utilize tax losses carried

## 2—Significant accounting policies (Continued)

forward is to a large extent judgment-based. If the future taxable results of the group proved to differ significantly from those expected, the group would be required to increase or decrease the carrying value of deferred tax assets with a potentially material impact on the Consolidated Statement of Financial Position and Consolidated Income Statement of the Consolidated Group.

Deferred tax liabilities are recognized for all taxable temporary differences, except where the deferred tax liability results from goodwill or initial recognition of an asset or liability in a transaction which is not a business combination, and that, at the transaction date, does not impact earnings, nor income tax profit or loss.

For taxable temporary differences arising from investments in subsidiaries, joint ventures and other associated entities, deferred tax liabilities are recorded except to the extent that both of the following conditions are satisfied: the parent, investor or venturer is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not be reversed in the foreseeable future.

Current tax and deferred tax shall be charged or credited directly to other comprehensive income, and not earnings, if the tax relates to items that are credited or charged directly to other comprehensive income.

### 2.11 Goodwill and business combinations

Business combinations, not occurring under common control, are accounted for in accordance with the purchase method. The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under IFRS 3 "Business combinations" are recognized at their fair value at acquisition date.

The Consolidated Group recognizes goodwill as of the acquisition date and is measured as the excess of (a) over (b) as follows:

a) *The aggregate of:*

- The consideration transferred, which generally requires acquisition-date fair value;
- The amount of any non-controlling interests in the acquiree measured;
- In a business combination achieved in stages, the acquisition-date fair value of the acquirer's previously held equity interest in the acquiree.

b) The net of the acquisition-date balances of the identifiable assets acquired and the liabilities measured in accordance with IFRS 3.

Any excess of the cost of acquisition over the Consolidated Group's share in the fair value of all identified assets and liabilities is recognized as goodwill.

The goodwill is determined provisionally by the end of the period. The Consolidated Group recognizes any adjustments to those provisional values within twelve months after the acquisition date.

During the measurement period, the acquirer shall recognize adjustments to the provisional amounts as if the accounting for the business combination had been completed at the acquisition date. Thus, the acquirer shall revise comparative information for prior periods presented in financial statements as needed, including making any change in depreciation, amortization or other income effects recognized in completing the initial accounting.

If the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed exceeds the purchase price, a gain is recognized immediately.

Subsequently, goodwill is measured at its initial amount less recorded accumulated impairment losses. Impairment loss for goodwill is recorded in the income statement as a deduction from operating income (account "Depreciation and amortization") and is never reversed subsequently.

**2—Significant accounting policies (Continued)**

Changes in the Consolidated Group's ownership interests in subsidiaries that do not result in the Consolidated Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Consolidated Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to owners of the Consolidated Group.

For acquisitions under common control, the Consolidated Group does not perform a purchase price allocation. Any difference between the consideration paid and the book value of the net assets acquired is directly attributed to the reserves of the Consolidated Group and no residual goodwill is recorded.

**2.12 Other intangible assets**

Intangible assets acquired separately are recorded at cost on initial recognition, with the addition of direct acquisition costs. Intangible assets acquired in a business combination are measured at fair value as of the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and less any accumulated impairment losses. In our Israeli entity, the costs of producing in-house content is also considered to be an intangible assets and recognized at the cost of production of the shows. Following initial recognition, these intangible assets are carried at cost less any accumulated amortization and less any accumulated impairment losses.

According to Management, intangible assets have either definite or indefinite useful lives.

Assets with definite useful lives are amortized over their useful lives and assessed for impairment signs which would indicate impairment in value. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least once a year. Changes in the expected useful life or the expected pattern of consumption of future economic benefits that are expected to derive from the asset are treated as a change in an accounting estimate which is treated prospectively. The amortization expenses regarding intangible assets with finite useful lives are recognized in the income statement.

The useful lives of the intangible assets are as follows:

	<b>Duration</b>
Software . . . . .	3 years
Customer relations . . . . .	7 to 37 years
Licences . . . . .	5 years
Customer relations with a defined contractual term . .	3 years
Subscriber purchase costs . . . . .	based on average duration of subscriptions

Assets with indefinite useful lives are tested for impairment annually as well as where there is an indication that it may be impaired by comparing their carrying amount with their recoverable amount.

**2.13 Impairment of tangible and intangible assets**

Each time events or changes in the economic environment indicate a current risk of impairment of goodwill, other intangible assets, property, plant and equipment and assets in progress, the Consolidated Group re-examines the value of these assets. In addition, goodwill, other intangible assets with an indefinite useful life, and intangible assets in progress are all subject to an impairment test performed annually.

This test is performed in order to compare the recoverable amount of an asset to its carrying amount.

An asset's recoverable amount is the higher of an asset's fair value less costs to sell and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. In that case, recoverable amount is determined for the cash-generating unit to which the asset belongs. A Cash

**Altice S.A.**  
**Consolidated financial statements as of December 31, 2013 (Continued)**

**2—Significant accounting policies (Continued)**

Generating Unit (“CGU”) is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets.

The value in use of each asset or group of assets is determined as the discounted value of future cash flows (discounted cash flow method or “DCF”) by using a discount rate after tax specific to each asset or group of assets concerned.

The fair value less costs to sell is the amount obtained from the sale of the asset or group of assets in an arm’s length transaction between knowledgeable and willing parties, less costs to sell.

When the carrying amount of an asset exceeds its recoverable amount, an impairment loss is recognized in the caption “Depreciation and amortization” in the income statement. Only impairment loss recognized on assets other than goodwill such as depreciable intangible assets, intangible assets with indefinite useful life and property, plant and equipment, may be reversed.

**2.14 Property, plant and equipment**

Property, plant and equipment are presented at cost with the addition of direct purchase costs less accumulated depreciation and accumulated losses on impairment and they do not include routine maintenance expenses. The cost includes spare parts and ancillary equipment that can only be used in connection with the plant and machinery.

Depreciation is calculated using the straight line method over the estimated useful lives of the assets, as follows:

	<b>Duration</b>
Buildings . . . . .	25 to 50 years
Cables Network . . . . .	4 to 20 years
Call center (primarily electronic equipment) . . . . .	5 to 9 years
Converters and modems . . . . .	7 years
Computers and ancillary equipment . . . . .	3 to 6 years
Office furniture and equipment . . . . .	6 to 16 years
Communication network infrastructure . . . . .	6 to 16 years
Leasehold contracts . . . . .	see below

Leasehold contracts are depreciated according to the straight line method during the rental period (including the option period for an extension by the Consolidated Group, which it intends to exercise) or the estimated useful lifetime of the improvement.

Elements of a fixed asset item, having a cost that is significant in comparison to the overall cost of the item, are depreciated separately, using the components method. The depreciation is calculated in accordance with the straight line method at annual rates that are considered to be sufficient in order to depreciate the assets over the length of their estimated useful lives.

The useful life, depreciation method and residual value of an asset are reviewed at least annually and any changes are accounted for prospectively as a change in accounting estimate.

**2.15 Leasing**

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

**2.15.1 The Consolidated Group as lessor**

Amounts due from lessees under finance leases are recognized as receivables at the amount of the Consolidated Group’s net investment in the leases. Finance lease income is allocated in an accounting periods so as to reflect a constant periodic rate of return on the Consolidated Group’s net investment outstanding in respect of the leases.

## 2—Significant accounting policies (Continued)

Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized on a straight-line basis over the lease term.

Rental income from the leasing of customer premises equipment (set top boxes, modems and decoders) is recognized on a straight-line basis over the term of the subscription held by the client. At the end of the contract or in case of voluntary contract termination by the client, this equipment is repossessed and thus remains in the inventory of the Consolidated Group.

### 2.15.2 The Consolidated Group as lessee

Assets held under finance leases are initially recognized as assets of the Consolidated Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the consolidated statement of financial position as a finance lease obligation.

Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognized immediately in profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Consolidated Group's general policy on borrowing costs (see note 2.16 below). Contingent rentals are recognized as expenses in the periods in which they are incurred.

Operating lease payments are recognized as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognized as an expense in the period in which they are incurred.

In the event that lease incentives are received to enter into operating leases, such incentives are recognized as a liability. The aggregate benefit of incentives is recognized as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

### 2.16 Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of that asset. According to management, it does not take a substantial period of time to get ready for the intended use because of the incremental deployment of the network. This standard has consequently no impact on the consolidated financial statements.

### 2.17 Government grants

Government grants are not recognized until there is reasonable assurance that the Consolidated Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognized in profit or loss on a systematic basis over the periods in which the Consolidated Group recognizes as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Consolidated Group should purchase, construct or otherwise acquire non-current assets are recognized as deferred revenue in the consolidated statement of financial position and transferred to the income statement on a systematic and rational basis over the useful lives of the related assets.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Consolidated Group with no future related costs are recognized in profit or loss in the period in which they become receivable.

## 2—Significant accounting policies (Continued)

The benefit of a government loan at a below-market rate of interest is treated as a government grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates.

### 2.18 Financial assets

The Consolidated Group classifies financial assets in four categories: available-for-sale, loans and receivables, held-to-maturity and financial assets at fair value through profit and loss. They are classified as current assets and non-current assets according to IAS 1 “Presentation of financial statements”.

Purchases and sales of all financial assets are recognized on a trade date basis.

#### 2.18.1 Available-for-sale financial assets

Available-for-sale financial assets are recognized initially at fair value plus transaction costs that are directly attributable to the acquisition or issue of the financial asset. After initial recognition, they are reported at their fair value. Gains and losses arising from changes in their fair value are recognized directly in equity, until the security is disposed of or is determined to be impaired, at which time the cumulative gain or loss previously recognized in equity is included in the profit or loss for the period.

Available-for-sale financial assets consist mainly of shares in non-consolidated companies. Fair value corresponds to quote price for listed securities. For non-listed securities, and when a reliable estimate of fair value cannot be made using valuation techniques, the Consolidated Group values financial assets at historical cost, less any impairment losses.

When there is objective evidence that available-for-sale assets are impaired, the cumulative impairment loss included in equity is reclassified from other comprehensive income to income. Objective evidence that an available-for-sale financial asset is impaired includes, among other things, a decrease in the estimated future cash flows arising from these assets, as a result of significant financial difficulty of the issuer, a material decrease in expected future profitability or a prolonged decrease in the fair value of the security. Impairment losses recognized in profit or loss for equity instruments classified as available-for-sale are never reversed through profit or loss.

#### 2.18.2 Loans and receivables

Loans and receivables are recognized initially at fair value plus transaction costs that are directly attributable to the acquisition. After initial recognition, they are measured at amortized cost using the effective interest rate method.

This category mainly includes trade receivables.

If there is objective evidence that an impairment loss has occurred, the amount of this loss, measured as the difference between the financial assets' carrying value and its recoverable amount is recognized in the income statement. Impairment losses may be reversed if the recoverable amount of the asset subsequently increases in the future.

#### 2.18.3 Held-to-maturity financial assets

Held-to-maturity financial assets are financial assets with fixed or determinable payments and fixed maturity that the Consolidated Group has both the intention and ability to hold to maturity. Financial assets that are designated as held-to-maturity are measured at amortized cost, in accordance with the effective interest rate method.

They are reviewed for impairment on an individual basis if there is any indication that they may be impaired.

The Consolidated Group currently does not hold any held to maturity financial assets.

**Altice S.A.**  
**Consolidated financial statements as of December 31, 2013 (Continued)**

**2—Significant accounting policies (Continued)**

**2.18.4 Financial assets measured at fair value through profit or loss**

These financial assets are measured at fair value with gains and losses recorded as finance income or costs.

This category mainly includes:

- Assets held for trading which the Consolidated Group intends to sell in the near future (primarily marketable securities);
- Assets voluntarily classified at inception in this category;
- Derivatives financial assets.

**2.19 Inventories**

Inventories are measured at the lower of cost and net realizable value. The cost of inventories comprises costs of purchase and costs incurred in bringing the inventories to their present location and condition. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated selling costs.

Cost of inventories is determined using the weighted average cost method.

The Consolidated Group periodically evaluates the condition and age of inventories and makes provisions for slow moving inventories accordingly.

**2.20 Cash and cash equivalents**

Cash consists of cash in banks and deposits.

Cash equivalents are considered as highly liquid investments, including unrestricted short-term bank deposits with an original maturity of three months or less from the date of acquisition or with a maturity of more than three months, but which are redeemable on demand without penalty and which form part of the Consolidated Group's cash management.

**2.21 Restricted cash**

Restricted cash is considered to be cash that is dedicated to the repayment of the Consolidated Group's liabilities to banking entities in accordance with the Consolidated Group's credit agreement and therefore amounts that the Consolidated Group cannot use at its discretion.

Restricted cash can also consist of cash held in escrow to finance certain acquisitions (in the period between the agreement to acquire and the actual closing of the acquisition and the transfer of shares and cash and other considerations). Restricted cash may also consist of guarantees provided by different group companies to financial institutions related to financing or other activities. Restricted cash is not considered to be a component of cash and cash equivalents since such balances are not held for the purposes of meeting short term cash commitments.

**2.22 Derivatives**

Derivatives are initially recognized at fair value on the date a derivative contract is entered into and are subsequently reassessed at their fair value.

The Consolidated Group enters into interest rate swaps and caps to manage its interest or foreign currency exchange rate exposure. These contracts do not qualify as hedges for accounting purposes according to IAS 39, as there was no formal designation and documentation of the hedging relationship at inception. Changes in the fair value of any of these derivative instruments are recognized immediately in the income statement within financial income and expenses.

## **2—Significant accounting policies (Continued)**

### **2.23 Share based payment arrangements**

The Consolidated Group's employees are entitled to remuneration in the form of equity-settled share-based payment transactions and certain employees are entitled to remuneration in the form of cash-settled share-based payment transactions that are measured based on the increase in the Company's share price. These stock options based remunerations mainly concerned the Israeli entity, HOT Telecom and these plans were terminated post the take private of the company in December 2012 and the delisting of all active shares of HOT Telecom on the Tel Aviv stock exchange.

### **2.24 Financial liabilities**

Financial liabilities other than derivative instruments include:

#### **2.24.1 Financial liabilities at amortized cost**

These financial liabilities are measured at amortized cost calculated based on the effective interest rate method according to IAS 39. The effective interest rate is the internal yield rate that exactly discounts future cash flows through the term of the financial liability. Fees, debt issuance and transaction costs are included in the calculation of the effective interest rate over the expected life of the instrument.

#### **2.24.2 Financial liabilities that are measured at fair value through profit or loss**

Financial liabilities at fair value through profit or loss include financial liabilities classified as held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are acquired for the purpose of sale in the near term. Gains or losses on liabilities held for trading are recognized in profit or loss.

Derivatives, including bifurcated embedded derivatives, are classified as held for trading unless they are designated as effective hedging instruments. In the event of a financial instrument that contains one or more embedded derivatives, the entire combined instrument may be designated as a financial liability at fair value through profit or loss only upon initial recognition.

The Consolidated Group assesses whether embedded derivatives are required to be bifurcated from host contracts when the Consolidated Group first becomes party to the contract. Reassessment only occurs if there is a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required.

The fair value of financial instruments that are traded in an active market is determined by reference to quoted market prices at the close of business on the balance sheet date. For financial instruments for which there is no active market, fair value is determined by the use of valuation techniques. Such techniques include evaluation based on transactions that have been executed recently under market terms, reference to the current market value of another instrument, which is substantially the same, discounted cash flow analysis or other valuation models.

#### **2.24.3 Classification as debt or equity**

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

#### **2.24.4 Equity instruments**

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a group entity are recognized at the value of the proceeds received, net of direct issue costs.

## **2—Significant accounting policies (Continued)**

Repurchase of the Company's own equity instruments is recognized and deducted directly in equity. No gain or loss is recognized in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

The Consolidated Group also issued some CPECs (Convertible Preferred Equity Certificates). Details of these subordinated financial instruments are set out in note 17.4.

### **2.25 Other liabilities**

#### **2.25.1 Provisions**

A provision in accordance with IAS 37 is recognized in the statement of financial position when the Consolidated Group has a present obligation (legal or implicit) as the result of a past event and it is expected that the use of economic resources will be required in order to settle the obligation and it is possible to reliably estimate it. Where the impact is significant, the provision is measured by discounting the forecasted future cash flows, using a pre-tax interest rate that reflects the expectations of the market in respect of the time frame of the money and in certain cases, the risks that are specific to the liability.

The following types of provisions are recorded in the financial statements:

#### **2.25.2 Legal claims**

A provision regarding legal claims is recognized when the Consolidated Group has a present legal commitment or an implicit commitment resulting from a past event; when it is more likely than not that the Consolidated Group will be required to expend economic resources to clear the commitment, when it is possible to estimate it reliably and when the effect of time is significant, the provision is measured according to the present value.

#### **2.25.3 Warranty**

The Consolidated Group recognizes a provision for warranty for the sale of its products. The warranty is limited to malfunctions as defined by the Consolidated Group and does not include warranty for damages incurred by the customer.

#### **2.25.4 Onerous contracts**

Present obligations arising under onerous contracts are recognized and measured as provisions. An onerous contract is considered to exist where the Consolidated Group has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

#### **2.25.5 Restructuring**

A restructuring provision is recognized when the Consolidated Group has developed a detailed formal plan for the restructuring and has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement the plan or announcing its main features to those affected by it. The measurement of a restructuring provision includes only the direct expenditures arising from the restructuring, which are those amounts that are both necessarily entailed by the restructuring and not associated with the ongoing activities of the Consolidated Group.

## **2—Significant accounting policies (Continued)**

### **2.26 Liabilities for employment benefits**

In accordance with the laws and practices of each country in which it operates, the Consolidated Group participates in, or maintains, several employee benefits. There are as follows:

#### **2.26.1 Short-term benefits for employees**

Short-term benefits for employees include salaries, vacation pay, sick leave, recuperation pay and employers' deposits for national insurance and are recognized as an expense when the services are provided. A liability in respect of a cash bonus or a profits participation scheme is recognized where the Consolidated Group has a legal or an implicit commitment to pay the said amount in respect of service that has been provided by the employee in the past and where the amount can be reliably estimated.

#### **2.26.2 Post-retirement benefits**

In Israel, the Consolidated Group operates a defined benefits plan in respect of the payment of severance pay in accordance with the Israeli Severance Pay Law. According to this law, employees are entitled to receive severance pay if they are dismissed or on their retirement. The liability in respect of the termination of employee-employer relations is measured in accordance with the actuarial value of a forecast unit of entitlement method. The actuarial calculation takes into account increases in salaries in the future and the rate at which employees leave the Consolidated Group and this on the basis of an estimate of the timing of the payment. The amounts are presented on the basis of the discounting of the forecast future cash flows, in accordance with government bonds' interest rates, whose repayment dates are close to the period relating to the liability in respect of severance pay.

The Consolidated Group deposits funds in respect of its severance pay liability in pension funds and insurance companies (hereafter—the plan assets). The plan assets are assets that are held by the employee benefits plan for the long-term or in qualifying insurance policies. The plan assets are not available for use by the Consolidated Group's creditors, and cannot be paid directly to the Consolidated Group.

The liability regarding employee benefits presented in the statement of financial position represents the present value of the defined benefits obligation less the fair value of the plan assets, and the past service costs. Actuarial gains and losses are reflected in the income statement in the period in which they arise, as part of the salary costs.

The Consolidated Group has defined contribution plans pursuant to the Severance Pay Law under which the Consolidated Group pays fixed contributions and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient amounts to pay all employee benefits relating to employee service in the current and prior periods. Contributions to the defined contribution plan in respect of severance or retirement pay are recognized as an expense when contributed simultaneously with receiving the employee's services and no additional provision is required in the financial statements.

#### **2.26.3 Other long-term employee benefits**

The Consolidated Group's employees are entitled to benefits and other long-service grants. These benefits are accounted for as other long-term benefits since the Consolidated Group estimates that these benefits will be used and the respective Consolidated Group's obligation will be settled during the employment period and after one year from the end of the reporting period.

The Consolidated Group's net obligation regarding other long-term employee benefits is in respect of the future benefit amount due to employees for services rendered in current and prior periods. This amount of benefits is discounted to its present value and the fair value of the assets relating to this obligation is deducted from said amount. The discount rate is determined by reference to the yields on Government bonds whose currency and term are consistent with the currency and term of the

## **2—Significant accounting policies (Continued)**

Consolidated Group's obligation. The obligation is calculated using the projected unit credit method. Actuarial gains and losses are recognized in profit or loss in the period in which they occur.

### **2.26.4 Benefits in respect of the termination of employment**

Severance pay for employees is reflected as an expense when the Consolidated Group has made an undertaking, with no real possibility of cancellation, for the dismissal of employees before they reach the customary retirement age in accordance with a detailed formal plan. The benefits that are given to the employees who take voluntary retirement when the Consolidated Group has offered the employees a plan that encourages voluntary retirement, it is expected that the offer will be accepted and the number of persons accepting the offer can be reliably estimated.

## **2.27 Significant accounting judgments and estimates used in the preparation of the financial statements**

### **2.27.1 Judgments**

In the process of applying the significant accounting policies, the Consolidated Group has exercised its judgment and has taken into account matters which have the most significant impact on the amounts that have been recognized in the consolidated financial statements.

### **2.27.2 Estimates and assumptions**

The preparation of the consolidated financial statements requires the Consolidated Group to make estimates and assumptions that have an effect on the application of the accounting policies and on the reported amounts of assets, liabilities, revenues and expenses. These estimates and underlying assumptions are reviewed regularly. Changes in accounting estimates are reported in the period in which the estimate changes.

### **2.27.3 Impairment of goodwill**

Determining whether goodwill is impaired requires an estimation of the value in use of the cash-generating units to which goodwill has been allocated. The value in use calculation requires the Directors to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate present value. Where the actual future cash flows are less than expected, a material impairment loss may arise.

The value in use of each CGU was determined by estimating cash flows for a period of five years for the operating activities. Cash flow forecasts are derived from the most recent business plans approved by the Board of Directors. Beyond the specifically forecasted period of five years, the Company extrapolates cash flows for the remaining years based on an estimated constant growth rate between 1.5-2%. This rate does not exceed the average long-term growth rate for the relevant markets. Discount rates have been computed using WACC approach and range from 6.3% to 11%.

### **2.27.4 Legal claims**

In estimating the likelihood of outcome of legal claims filed against the Consolidated Group and its investees, the group companies rely on the opinion of their legal counsel. These estimates are based on the legal counsel's best professional judgment, taking into account the stage of proceedings and historical legal precedents in respect of the different issues. Since the outcome of the claims will be determined in courts, the results could differ from these estimates.

### **2.27.5 Post-employment benefits**

The liability in respect of post-employment defined benefit plans is determined using actuarial valuations. The actuarial valuation involves making assumptions about, among others, discount rates,

**2—Significant accounting policies (Continued)**

expected rates of return on assets, future salary increases and mortality rates. Due to the long-term nature of these plans, such estimates are subject to uncertainty.

**2.27.6 Deferred tax asset**

Deferred tax assets relate primarily to tax loss carry forwards and to deductible temporary differences between reported amounts and the tax bases of assets and liabilities. The assets relating to the tax loss carry forwards are recognized if it is probable that the Consolidated Group will generate future taxable profits against which these tax losses can be set off. Evaluation of the Consolidated Group's capacity to utilize tax loss carry-forwards relies on significant judgment. The Consolidated Group analyses past events, and the positive and negative elements of certain economic factors that may affect its business in the foreseeable future to determine the probability of its future utilization of these tax loss carry forwards.

**2.27.7 Discounting of Yield Free Preferred Equity Certificates (YFPEC) and similar instruments**

The Consolidated Group has loans with its equity holder which are currently non-interest bearing and therefore considered as not being at arm's length. In determining the present value, a discount rate of 4.76% has been used for YFPECs and a discount rate of 6.79% for the Interest Free Loans (IFLs) issued by the Consolidated Group. YFPECs issued by Altice Six S.A. have been discounted at a rate of 5.3%, representing the effective borrowing rate for Altice Six as of December 31, 2013.

#### 3.2 Modification of the scope of consolidation

##### 3.2.1 Main acquisitions in 2013

##### 3.2.1.1 Acquisition of OMT

On July 5, 2013 the Consolidated Group obtained control of OMT, a telecommunications operator in the French Overseas Territories, by acquiring 77% of the shares and voting interests in the company. This acquisition enables the Consolidated Group to expand its footprint in the French Overseas Territories.

Since July 5, 2013 OMT contributed EUR 102.1 million to revenue and EUR 13.5 million to operating profit to the Consolidated Group's results for the year ended December 31, 2013.

A purchase price allocation was performed following the acquisition of OMT based on the assumptions described below.

##### Brand:

The ONLY brand was valued using the royalty relief method over an indefinite useful life and the method was built on the following assumptions:

- Discount rate—11.4%
- Royalty rate—1.5%

##### Clients:

The portfolio of clients has been valued using the excess earnings approach and based upon the following assumption:

- EBIT margin rate: 13.5% for fixed telephone clients, 12.4% for internet clients, 19.3% for mobile clients, 26.4% for B2B clients.
- Attrition rate: 9.7% for fixed telephone clients, 29.2% for internet clients, 48.5% for mobile clients, 16.4% for B2B clients.
- Discount rate: 11.4%
- Perpetuity growth rate: 2%

##### 3.2.1.2 Acquisition of ONI Communication

On August 8, 2013 the Consolidated Group obtained control of ONI, a business to business telecommunications operator in Portugal, by acquiring 100% of the shares and voting interests in the

**Altice S.A.**  
**Consolidated financial statements as of December 31, 2013 (Continued)**

**3—Scope of consolidation (Continued)**

company. This acquisition enables the Consolidated Group to expand its footprint in Portugal and eventually realise synergies with the Consolidated Group's other business within the same country.

Since August 8, 2013 ONI contributed EUR 41.8 million in revenue and EUR 4.9 million in operating loss to the Consolidated Group's result for the year ended December 31, 2013.

A purchase price allocation was performed following the acquisition of ONI based on the assumptions described below.

**Brand:**

The ONI brand was valued using the royalty relief method over an indefinite useful life and the method was built on the following assumptions :

- Discount rate—6.5%;
- Royalty rate—2.0%.

**Clients:**

The portfolio of clients has been valued using the excess earnings approach and based upon the following assumptions :

- EBIT margin rate: 14.1%;
- Attrition rate: 22.9% for B2B clients;
- Discount rate: 6.5%;
- Perpetuity growth rate: 0%.

**3.2.1.3 Integration of content channels**

On October 4, 2013 Ma Chaine Sport S.A.S. ("MCS") and SportV S.A. ("SportV"), two exclusive content producing companies based in France and Luxembourg respectively were transferred to the Consolidated Group by Altice IV and Valemi Corp, Altice IV S.A. being considered as a related party as it shares the same controlling shareholder as the Consolidated Group at time of acquisition. In the absence of any specific guidance concerning the accounting for common control transactions within IFRS, no purchase price allocation was performed. These transactions allow the Consolidated Group to pursue a strategy of vertical integration and also provide a more integrated solution to its customers.

Since October 4, 2013, Ma Chaine Sport and SportV contributed EUR 6.4 million in revenue and EUR 0.3 million in operating profit to the Consolidated Group's result for the year ended December 31, 2013.

**3.2.2 Change in the Consolidated Group's ownership interest in 2013**

**3.2.2.1 Acquisition of minority interests in Cabovisao**

On April 23, 2013, the Company completed the acquisition of 40% of minority stake held by Apax Partners in its Portuguese subsidiary Cabovisao S.A, through an investment in the holding company of Cabovisao S.A, Altice Portugal.

The total consideration of EUR 105.0 million was paid on April 23, 2013, of which EUR 90.0 million was paid in consideration for the shares acquired and EUR 15.0 million towards the repayment of an existing vendor note. An amount of EUR 9.1 million (being the proportionate share of the carrying amount of the net assets of the entity) has been transferred between non-controlling interests to controlling interest. The difference of EUR 80.9 million between the decrease in the non-controlling interests and the consideration received has been debited from the retained earnings.

**3—Scope of consolidation (Continued)**

**3.2.2.2 Disposal of Valvision**

On June 6, 2013, the Consolidated Group disposed of its interests in Valvision S.A.S, a cable based service provider in France to Altice VII Bis S.à r.l., a sister concern under common control of the Company's sole shareholder, Next L.P.

The difference of EUR 3.3 million gain generated on this transaction (representing the difference between the net asset value of the entity prior to transfer and the consideration received) has been recognized directly in equity.

**3.2.2.3 Acquisition of minority interests in Coditel**

Deficom Telecom S.à r.l., a majority owned subsidiary of Altice VII, is the owner of 60% of the outstanding shares of Coditel Holding Lux II and Coditel Management. On November 29, 2013, Altice Holdings S.à r.l. purchase 40% of the interest of Coditel Holding Lux II and Coditel Management held by Codilink S.à r.l. .

The total consideration of EUR 82.5 million was paid on November 29, 2013, of which EUR 30.6 million was paid in consideration for shares and EUR 51.9 million paid as repayment of subordinated debt instruments held by Codilink (the Coditel PECs). An amount of EUR (9.3) million (being the proportionate share of the carrying amount of the net assets of the entity) has been transferred from non-controlling interests to controlling interest. The difference of EUR 39.9 million between the decrease in the non-controlling interests and the consideration received has been debited from the retained earnings.

**3.2.2.4 Acquisition of an additional stake in Numericable Group ("NG Group")**

In November 2013, concomitantly with the initial public offering of Numericable Group on the Paris Stock Exchange, Altice Six increased its stake in NG group to reach a percentage holding of 27.4% from 24.06%..

**3.3 Acquisitions of businesses**

Business combinations that occurred during the reporting period are described in note 3.2.

**Altice S.A.**  
**Consolidated financial statements as of December 31, 2013 (Continued)**

**3—Scope of consolidation (Continued)**

The major classes of assets acquired and liabilities assumed at the acquisition date are:

	<b>Total Business Combinations</b>	<b>OMT</b>	<b>ONI</b>	<b>MCS<sup>(1)</sup></b>	<b>SportV<sup>(1)</sup></b>
	<b>(in millions of euros)</b>				
Cost of acquisition <sup>(2)</sup> . . . . .	280.6	223.3	22.3	23.0	12.0
<b>ASSET</b>					
Intangible assets . . . . .	154.1	106.7	45.9	1.3	0.2
Property, plant and equipment . . . . .	122.9	69.5	52.6	0.9	—
Non-current financial assets . . . . .	1.6	1.6	—	—	—
Inventories . . . . .	6.3	4.9	1.4	—	—
Trade accounts receivable and other . . . . .	55.7	28.1	19.6	6.0	2.0
Tax receivable . . . . .	3.0	2.6	0.4	—	—
Cash and cash equivalents . . . . .	36.3	33.6	0.7	0.3	1.7
Other current assets . . . . .	13.0	3.2	8.7	0.6	0.5
<b>Total assets</b> . . . . .	<b>393.0</b>	<b>250.2</b>	<b>129.3</b>	<b>9.1</b>	<b>4.4</b>
<b>EQUITY AND LIABILITIES</b>					
Non-current liabilities . . . . .	253.1	205.3	47.5	0.3	—
Current liabilities . . . . .	185.7	115.5	60.8	6.7	2.7
<b>Total liabilities</b> . . . . .	<b>438.8</b>	<b>320.8</b>	<b>108.3</b>	<b>7.0</b>	<b>2.7</b>
<b>Net assets</b> . . . . .	<b>(45.9)</b>	<b>(70.6)</b>	<b>21.0</b>	<b>2.1</b>	<b>1.7</b>
<b>Residual goodwill</b> . . . . .	<b>295.2</b>	<b>293.9</b>	<b>1.3</b>	—	—
<i>Including impact of non-controlling interests on goodwill</i> . . . . .	67.7	67.7		—	—

(1) No goodwill is attributed to neither MCS nor SportV as these were deemed by the Board of Directors to be integration under common control and thus any difference in the net asset value and the purchase price is recorded directly in the reserves of the group attributable to the shareholders.

(2) When acquiring OMT, ONI and integrating MCS and Sport, the company did not, (i) pay the vendors of OMT and ONI directly as the cash was transferred directly from the lenders to the sellers' accounts, or to their debt holders in case of refinancing of the acquired entities debts or (ii) did not pay the entire amount in cash (as was the case for MCS and SportV), thus generating vendor notes held by the vendors. The total cash out from the accounts of the company amounted to EUR 13.0 million. These vendor notes were settled in 2014.

The acquisition of a controlling stake in OMT Invest S.A.S ("OMT") and Winreason S.A. ("ONI") are considered to be non-cash transactions, as the consideration paid to the vendors flows directly from the lending parties to final sellers, without transitioning through the company's accounts. Thus, the cost of such transactions is deducted directly from the issuance of debt in the consolidated statement of cash flows.

**Altice S.A.**

Coditel S.à r.l. . . . .	86.3	—	—	—	86.3
Hot Telecom . . . . .	598.6	—	(121.9)	0.9	477.6
<b>Total Net book value . . . . .</b>	<b>911.9</b>	<b>—</b>	<b>(121.9)</b>	<b>0.9</b>	<b>790.9</b>

The carrying amount of goodwill as at December 31, 2013 was EUR 1,100.7 million (December 31, 2012 was EUR 790.9 million).

Goodwill is reviewed at the Consolidated Group of cash-generating unit (“CGU”) level for impairment annually and whenever changes in circumstances indicate that its carrying amount may not be recoverable. For 2013, goodwill was tested at the CGU level for impairment as of December 31. The CGU is at the subsidiary level of the Company. The recoverable amounts of the CGUs are determined based on their value in use. The Company determined to calculate value in use for purposes of its impairment testing and, accordingly, did not determine the fair value of the CGUs as the carrying value of the CGUs was lower than their value in use. The key assumptions for the value in use calculations are primarily the pre-tax discount rates, the terminal growth rate and the churn rate during the period. The impairment tests did not result in impairment for any periods presented in these consolidated financial statements, except for EUR 121.9 million in Hot Telecom for the year ended December 31, 2012.

The value in use of the CGUs was determined by estimating cash flows for a period of five years, giving due consideration to the nature of the industry in which each CGU operates. Assumptions for churn rates and EBIT margin were based on historical experience and expectations of future changes in the market. Cash flow forecasts were derived from the most recent financial plans approved by management.

When estimating turnover for purposes of the 2013 impairment test, the Company used a growth rate between (3.6)-6% over the next 5 years. Those estimates were determined on the basis of the analysis of

**Altice S.A.**

**Consolidated financial statements as of December 31, 2013 (Continued)**

**4—Goodwill (Continued)**

the markets where the Company is active in as well as on the basis of projections provided by external sources.

	<u>Green</u>	<u>Coditel</u>	<u>Hot Mobile</u>
Average long term growth rate in 2012 (in %) . . . . .	2.0	2.0	1.5-2
Average long term growth rate in 2103 (in %) . . . . .	2.0	2.0	2.0

When estimating EBIT margin for purposes of the 2013 impairment test, the Company used a stable ratio of EBIT margin over the next 5 years.

Management estimated discount rates using post-tax rates that reflected current market rates for investments of similar risk. The discount rate for the CGUs was estimated from the weighted average cost of capital (“WACC”) of companies which operate a portfolio of assets similar to those of the Company’s assets.

	<u>Green</u>	<u>Coditel</u>	<u>Cabovisao</u>	<u>Hot Mobile</u>
CGU weighted average post-tax WACC rate used in 2012 (in %) . . .	7.0	8.0-8.5	—	10-11
CGU weighted average pre-tax WACC rate used in 2013 (in %) . . . .	6.5	6.6	6.3	10-11

The results of the goodwill impairment test of 2012 and 2013 for each CGU did not result in an impairment of goodwill as the value in use exceeded the carrying value of the CGU, except for EUR 121.9 million in Hot Telecom for the year ended December 31, 2012.

In validating the value in use determined for the CGU, key assumptions used in the discounted cash-flow model were sensitized to test the resilience of value in use and no impairments were noted in these sensitivity analysis.

	<u>Green</u>	<u>Coditel</u>	<u>Hot Telecom</u>
Recoverable amount . . . . .	124.4	466.6	1,357.1
Carrying amount . . . . .	17.8	295.5	477.6
Excess of recoverable amount over carrying amount . . . . .	106.6	171.1	879.5

The following changes in key assumptions in projected cash flows in every year of the initial five-year period, assuming unchanged values for the other assumptions, would cause the recoverable amount to equal the respective carrying value. In addition, the Company analyzed the sensitivity of the estimated recoverable amounts to the reasonable expected changes in assumptions, assuming unchanged values for the other assumptions:

- Sensitivity of the recoverable amount was tested for a movement of 50 bps in the weighted average cost of capital (WACC), all other assumptions being stable and the impact would be:
  - Green: an increase of 50 bps in the WACC decreases the excess of recoverable amount to EUR 90.2 million and therefore no impairment would be required.
  - Coditel: an increase of 50 bps in the WACC decreases the excess of recoverable amount to EUR 103.9 million and therefore no impairment would be required.
  - HOT Mobile: an increase of 50 bps in the WACC decreases the recoverable amount to EUR 807.2 million and therefore no impairment would be required.
- Sensitivity of the recoverable amount was tested for a movement of 50 bps in the perpetuity growth rates, all other assumptions being stable and the impact would be:
  - Green: an increase of 50 bps in the growth rate decreases the excess of recoverable amount to EUR 93 million and therefore no impairment would be required.

**Altice S.A.**

**Consolidated financial statements as of December 31, 2013 (Continued)**

**4—Goodwill (Continued)**

- Coditel: an increase of 50 bps in the growth rate decreases the excess of recoverable amount to EUR 66.1 million and therefore no impairment would be required.
- HOT Mobile: an increase of 50 bps in the growth rate decreases the recoverable amount to EUR 825.1 million and therefore no impairment would be required.

The analysis did not result in a scenario whereby a reasonable possible change in the aforementioned key assumptions would result in a recoverable amount for the CGU which is inferior to the carrying value.

(1) Customer relations have been valued on the basis of the fair value of the existing customers. These are amortized on the basis of the local churn rate.

(2) Subscriber purchase costs were recognized in respect of the costs of acquisition of subscribers (including additional sales commissions). The amortization expenses are linked to the length of the average commitment of the subscribers.

(1) Cable network: the Consolidated Group owns, directly and indirectly through its subsidiaries, cable or fibre network which allow it to supply cable-based pay television, broadband internet and fixed-line telephony services to its subscribers.

(2) Call center represents centralized offices used for the purpose of receiving or transmitting a large volume of administrative, technical or commercial requests by telephone.

(3) Office furniture and equipment refers to furnishings and IT equipment.

(4) The Communication network infrastructure includes the digital technologies for the transmission of multi-channel television services.

**Altice S.A.**  
**Consolidated financial statements as of December 31, 2013 (Continued)**

**6—Property, Plant & Equipment (Continued)**

The increase in the intangible and tangible assets of the Consolidated Group can mainly be attributed to the acquisition of Outremer Telecom and ONI Telecom during the course of 2013. These increases were slightly offset by the disposal of the Company's interests in Valvision.

**7—Investment in associates**

The breakdown of the investments in associates is detailed as follows:

		<b>December 31, 2013</b>	
		<b>Consolidated Group's share of profits of associates</b>	<b>Consolidated Group's investments in associates</b>
(in millions of euros)			
Numericable Group S.A. ....		15.5	679.1
<b>Total</b> .....		<b>15.5</b>	<b>679.1</b>
		<b>December 31, 2012</b>	
		<b>Consolidated Group's share of profits of associates</b>	<b>Consolidated Group's investments in associates</b>
(in millions of euros)			
Numericable Group S.A. (*) .....		20.4	81.3
<b>Total</b> .....		<b>20.4</b>	<b>81.3</b>

Variation in the statement of financial position of investment in associates is shown below:

**Altice S.A.**  
**Consolidated financial statements as of December 31, 2013 (Continued)**

**7—Investment in associates (Continued)**

On November 7, 2013, the newly formed Numericable Group S.A. completed its initial public offering. The Numericable Group is considered to be the successor entity of Ypso Holding S.à r.l and Altice B2B Lux Holding S.à r.l.

Effective upon initial public offering of Numericable Group, a restructuring of the capital structure of Ypso Holding S.à r.l and Altice B2B Lux Holding S.à r.l. was undertaken, as a result of which, all shares and loans held by Altice Six S.A. against these entities were converted into common shares of the new entity, Numericable Group S.A..

Altice Six holds 33.9 million of shares of Numericable Group as at December 31, 2013. Based on the share price as of December 31, 2013 (EUR 26.4), the fair value of the investment amounted to EUR 895.9 million. Based on this valuation, it is concluded that the fair value is greater than the carrying value of the investment and therefore no impairment shall be recorded in the consolidated financial statements for the year ended December 31, 2013.

**8—Financial assets**

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Investments held as available for sale <sup>(1)</sup>	40.3	6.1
Loans and receivables <sup>(2)</sup>	3.0	144.8
Other financial assets	5.5	—
Restricted cash <sup>(3)</sup>	1.8	9.6
<b>Total</b>	<b>50.6</b>	<b>160.5</b>

(1) Investment in available for sale financial asset:s are composed of:

Partner Communications LTD: A subsidiary company, operating through Hot Net Internet Services LTD. (formerly Hot Properties) and Finance LTD. (hereinafter-Hot Net) holds 1 454 663 regular shares in Partner Communications LTD, (hereinafter-Partner), constituting approximately 0,9% of Partner's share capital which is engaged in the provision of mobile communications services and whose shares are traded on stock exchanges in the United States of America, in the United Kingdom and in Israel.

Wananchi Group Holdings Ltd. In February 2013, the Company exercised its right to convert loans and receivables held against Wananchi Group Holdings Ltd. into shares. These notes were initially recorded as a long term trade receivable for the year ended December 31, 2012 and subsequently converted into equity in February 2013. The Board of Directors considers the investment in Wananchi to be available for sale investment and has injected further funds in Wananchi during the course of the year ended December 31, 2013. Wananchi operates in the fast developing East-African market and given the evolving nature of the business in this region, the Board of Directors considers that the nominal value of its investment in Wananchi represents the fair value of the investment. As of December 31, 2013, Altice VII held 17.05% of the capital of Wananchi and the Board of Directors is of the opinion that it has no significant influence on the Board of Wananchi.

(2) As of December 31, 2013, this caption includes an additional investment made by the company in Wananchi, in return for which it was issued convertible notes, convertible at the discretion of the holder. The investment amounted to EUR 3.0 million (\$4 million equivalent). The decrease compared to December 31, 2012 is explained by:

- the conversion of loans and receivables due from Wananchi to equity
- the conversion of loans and receivables against Ypso Holdings S.à r.l. and Altice B2B Lux Holding S.à r.l..See note 7 for more information.

(3) Restricted cash (see Note 2.21)

As of December 31, 2013 the restricted cash caption contained cash accounts pledged at Cabovisao, HOT and Green held as guarantees to various financial institutions. The decrease in the amount of restricted cash compared to the year ended December 31, 2012, was mainly due to substitution of a guarantee given to Banco Espirito Santo by Cabovisao by an amount of EUR 8.4 million drawn from the Company's guarantee facility.

**Altice S.A.**  
**Consolidated financial statements as of December 31, 2013 (Continued)**

**9—Non-current trade and other receivables**

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Prepaid expenses . . . . .	0.6	0.8
Other receivables <sup>(1)</sup> . . . . .	<u>22.2</u>	<u>23.7</u>
<b>Total</b> . . . . .	<b><u>22.8</u></b>	<b><u>24.6</u></b>

(1) The balance reflects customer's debts in respect of the sale of devices under long-term credit terms (sales in installments). The balance of the debt is presented at its value, as discounted using an interest rate of 5% for a period of up to 36 months, less the current maturities, which are presented under trade receivables.

**10—Inventories**

<b>Total</b> . . . . .	<b>38.2</b>	<b>42.5</b>

(1) Bank guarantees were provided to the Israeli regulator by HOT mobile in relation with the acquisition of the UMTS mobile license and then subsequently released after the occurrence of certain events. Please see note 32 for details on guarantees given by HOT and HOT mobile.

(2) The increase in prepaid expenses is mainly explained by the acquisition of ONI and the entry of MCS in the Consolidated Group scope during the year ended December 31, 2013. The new entities contributed EUR 4.7 million and EUR 2.6 million to prepaid expenses and mainly concerned prepayments made on long term contracts.

The Consolidated Group provides services on credit for an average of 16 days, 24 days and 96 days in average to its customers in the cable television field, the in-country fixed line communications field and the mobile communication field, respectively. The Consolidated Group routinely evaluates the credit that is provided to its customers, while checking their financial situations; however it does not demand collateral for those debts. The Consolidated Group records a provision for doubtful debts, based on the factors that affect the credit risks of certain customers, past experience and other information.

**Altice S.A.**  
**Consolidated financial statements as of December 31, 2013 (Continued)**

**12—Cash and cash equivalents and current restricted cash**

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Term deposits . . . . .	1.4	5.2
Bank balances . . . . .	60.2	124.5
<b>Cash and cash equivalents presented in the consolidated statement of cash flows . . . . .</b>	<b>61.6</b>	<b>129.8</b>
Restricted cash <sup>(1)</sup> . . . . .	1,242.8	—
<b>Restricted cash . . . . .</b>	<b>1,242.8</b>	<b>—</b>

(1) Current restricted cash refers to cash held in escrow accounts on behalf of Altice Finco and Altice Financing S.A., related to the acquisition of Orange Dominicana and Tricom. The Board of Directors expects the transactions to close in the first quarter of 2014, thus ensuring utilization of the cash in less than twelve months following December 31, 2013. As of the date of signing of these accounts, the Tricom acquisition had been successfully closed (See note 35).

**13—Invested equity**

As of December 31, 2013, the invested equity consists of the sum of the net equity of the Altice Six and Altice VII sub-groups. On January 31, 2014, Altice S.A. listed its shares in an initial public offering on Euronext Amsterdam. The company raised capital in two steps, first through a primary offering of new shares of the listed company, for EUR 750 million and a secondary offering, consisting of the sale of shares held by Next L.P. in Altice S.A., for a total amount of EUR 555 million. Additionally, an over-allotment option, for the maximum authorised amount (upto 15% of the total shares offered), was exercised by Altice S.A. Following the IPO, 25.6% of the share capital of the company is publicly traded, with the rest held by Next L.P and certain Managers.

**13.1 Earnings per share:**

In the context of these consolidated financial statements, it is not meaningful to present earnings per share in accordance with IAS 33 since the Reporting Entity does not have a legal share capital. Upon completion of its initial public offering, the Company had 202,787,193 shares in issue. The earnings for the year ended December 31, 2013 divided by the number of shares in issue immediately following the initial public offering are equivalent to EUR 0.35 (2012—EUR (0.69))

<b>TOTAL . . . . .</b>	<b>40.5</b>	<b>5.0</b>	<b>5.1</b>	<b>(24.1)</b>	<b>(1.0)</b>	<b>25.7</b>

(1) Provisions for litigations : For the year ended December 31, 2013, Hot made payments to Tali, AGICOA and ESHKOLOT copyright owners. Total payments amounted to EUR 5.4 million. HOT also recorded additional provisions for litigation based on a class action lawsuit for a total of EUR 2.9 million.

Provisions for litigations are mainly relating to, (i) claims made by associations representing the owners of certain copyrights in Israel, (ii) class action suits filed by certain consumers in Israel and (iii) lawsuits pertaining to the take-private operation performed in December 2012.

More information on these provisions is provided in note 32.. Management considers that all potential risks of cash-outs on such litigations and claims is properly evaluated and represented correctly in the consolidated financial statements for the year ended December 31, 2013.

**15—Employee benefits**

Breakdown of the employee benefits by entity:

	Notes	December 31, 2013 (in millions of euros)	December 31, 2012 (in millions of euros)
Coditel Brabant . . . . .		0.5	0.5
Hot Telecom . . . . .	15.1	3.8	6.5
Green . . . . .	15.1	1.8	1.8
OMT Invest . . . . .	15.1	2.2	—
<b>Total . . . . .</b>		<b>8.2</b>	<b>9.1</b>

**15.1 Description of employee benefits by entity**

**15.1.1 HOT Telecom**

*(a) Defined Benefit Plans*

Employee benefit liabilities

HOT Telecom has several employee benefit plans:

- *Short-term employee benefits*

Short-term employee benefits are benefits that are forecast to be cleared in full within 12 months of the end of the annual reporting period in which the employees provide the related services. These benefits include salaries, paid annual leave, paid sick leave, recuperation and social security contributions and are recognized as expenses as the services are rendered. A liability in respect of a cash bonus is recognized when the Consolidated Group has a legal or constructive obligation to make such payment as a result of past service rendered by an employee and a reliable estimate of the amount can be made.

**15—Employee benefits (Continued)**

- *Post-employment benefits*

The plans are normally financed by contributions to insurance companies and classified as defined contribution plans or as defined benefit plans.

Since 2011, the Consolidated Group has defined contribution plans pursuant to Section 14 of the Severance Pay Law under which the Consolidated Group pays regular contributions and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient amounts to pay all employee benefits relating to employee service in the current and prior periods.

Contributions to the defined contribution plan in respect of severance or retirement pay are recognized as an expense when contributed concurrently with performance of the employee's services.

In addition, the Consolidated Group has a defined benefit plan in respect of severance pay pursuant to the Severance Pay Law. According to the Law, employees are entitled to receive severance pay upon dismissal or retirement. The liability for termination of employment is measured in accordance with an actuarial evaluation of the projected unit credit. The actuarial calculation takes into account the future salary costs and the rate at which employees leave the Consolidated Group, which is done on the basis of an evaluation of the timing of the payment. The amounts are presented based on discounted expected future cash flows using a discount rate determined by reference to yields on Government bonds with a term that matches the estimated term of the obligation relating to severance pay.

In respect of its severance pay obligation to certain of its employees, the Consolidated Group makes current deposits in pension funds and insurance companies ("the plan assets"). Plan assets comprise assets held by a long-term employee benefit fund or qualifying insurance policies. Plan assets are not available to the Consolidated Group's own creditors and cannot be returned directly to the Consolidated Group.

The employee benefit liabilities, which are presented in the statement of financial position, represents the present value of the defined benefit liabilities less the fair value of the plan assets.

Re-measurements of the net liability are reflected under other comprehensive income as they arise.

Actuarial gains and losses are reflected in other comprehensive income.

- *Other long-term employee benefits*

The Consolidated Group's net obligation in respect of other long-term employee benefits is calculated on the basis of an actuarial valuation and is in respect of the future benefit amount due to employees for services rendered in current and prior periods, taking the rate of expected salary increases into account. This amount of benefits is discounted to its present value. The discount rate is determined by reference to the yields on Government bonds whose currency and term are consistent with the currency and term of the Consolidated Group's obligation.

Re-measurements of the net liabilities are reflected in profit or loss in the period in which they arise.

- *Termination benefits:*

Employee termination benefits are recognized as an expense at the earlier of such time at which the Consolidated Group has committed to terminate employees before the normal retirement date and it is unable to cancel the proposal or where the Consolidated Group recognized costs in respect of a structural change that includes the payment of termination benefits.

The portion of the severance pay payments that is not covered by deposits, is treated by the Consolidated Group as a defined benefit plan in accordance with which a liability is recorded in respect of employee benefits, and the Consolidated Group deposits amounts in central severance pay funds and in appropriate insurance policies in respect of it.

**Altice S.A.**

**Consolidated financial statements as of December 31, 2013 (Continued)**

**15—Employee benefits (Continued)**

The Consolidated Group has defined contribution plans, in accordance with section 14 of the Israeli Severance Pay Law, in accordance with which the Consolidated Group makes regular payments without it having a legal or implicit commitment to pay additional payments even if sufficient funds have not accumulated in the funds to pay all of the benefits to an employee that relate to the employee's employment in the current period and in previous periods.

Deposits in a defined contribution plan in respect of severance pay or in respect of emoluments are recognized as expense at the time of the deposit in the plan, in parallel to the receipt of the labor services from the employee and no additional provision is required in the financial statements.

*(a) Defined Benefit Plans*

The portion of the severance pay payments that is not covered by deposits, is treated by the Consolidated Group as a defined benefit plan in accordance with which a liability is recorded in respect

**Altice S.A.**  
**Consolidated financial statements as of December 31, 2013 (Continued)**

**15—Employee benefits (Continued)**

of employee benefits, and the Consolidated Group deposits amounts in central severance pay funds and in appropriate insurance policies in respect of it.

The Consolidated Group has defined contribution plans, in accordance with which the Consolidated Group makes regular payments without it having a legal or implicit commitment to pay additional payments even if sufficient funds have not accumulated in the funds to pay all of the benefits to an employee that relate to the employee's employment in the current period and in previous periods.

Deposits in a defined contribution plan in respect of severance pay or in respect of emoluments are recognized as expense at the time of the deposit in the plan, in parallel to the receipt of the labor services from the employee and no additional provision is required in the financial statements.

(1) New notes issued by Altice Finco S.A. and Altice Financing S.A. are held in escrow and are not used as of December 31, 2013 (See note 11).

During the year ended December 31, 2013, Debentures issued by the Company included:

**The Hot Telecom Debentures:**

The Series A' debentures-EUR 167 million, linked to the Consumer Prices Index for Tel Aviv, bear yearly interest at a rate of 3,9%. Series A' debentures are repayable in 13 semi-annual payments commencing on September 30, 2012 and up to September 30, 2018.

The Series B' debentures-EUR 137 million bear yearly interest at a fixed rate of 6,9%. Series B' debentures are repayable in 13 semi-annual payments commencing on September 30, 2012 and up to September 30, 2018.

**Altice Financing Senior Secured Notes:**

Altice Financing S.A. has issued Senior Secured Notes in December 2012 and December 2013 to finance various acquisitions:

- \$ 460.0 million senior secured notes, issued in December 2012, bearing a semi-annual coupon of 7.875% and maturing on December 15, 2019.
- EUR 210.0 million senior notes, issued in December 2012, bearing a semi-annual coupon of 8.0% and maturing on June 15, 2023.
- \$ 900.0 million senior secured notes issued in December 2013, bearing a semi-annual coupon of 6.5% and maturing in 2022. These notes were issued in relation with the Orange Dominicana

**Altice S.A.**  
**Consolidated financial statements as of December 31, 2013 (Continued)**

acquisition and are currently in an escrow account and will be released upon closing of the Orange Dominicana acquisition.

- EUR 300.0 million senior secured notes issued in December 2013, bearing a semi-annual coupon of 6.5% and maturing in 2022. These notes were issued in relation with the Orange Dominicana acquisition and are currently in an escrow account and will be released upon closing of the Orange Dominicana acquisition.

**Altice Finco Senior Notes:**

Altice Finco S.A. has issued Senior Notes in December 2012, June 2013 and December 2013 to finance various acquisitions:

- \$ 425.0 million senior notes issued in December 2012, bearing a semi-annual coupon of 9.875% and maturing on December 15, 2020.
- EUR 250.0 million senior notes, issued in June 2013, bearing a semi-annual coupon of 9.0% and maturing on June 15, 2023.
- \$ 400.0 million senior notes issued in December 2013, bearing a semi-annual coupon of 8.125% and maturing in 2024. These notes were issued in relation with the Orange Dominicana acquisition and are currently in an escrow account and will be released upon closing of the Orange Dominicana acquisition.

The Senior and Senior Secured Notes are listed on the Official List of the Luxembourg Stock Exchange and traded on the Euro MTF Market of the Luxembourg Stock Exchange.

**17.2 Covenants**

**17.2.1 Hot Telecom**

The unsecured debentures issued on the Tel Aviv Stock Exchange by the Consolidated Group's subsidiary Hot Telecom include financial covenants measured on Hot Telecom performance, which mainly include:

- A debt to EBITDA ratio, which is not to exceed 6 for a period that exceeds two consecutive quarters;
- No distribution of a dividend when Hot Telecom exceeds a debt to EBITDA ratio of 5.5.

As of December 31, 2013, Hot Telecom was in compliance with all of the required financial covenants.

**17.2.2 Altice Blue One**

As of December 31, 2012, Altice Blue One was in default of financial covenants, though it was not in default of any scheduled payments due to the lenders. As per the debt agreements, one consequence of this default could be early or accelerated repayment of the debts, if and only if such repayments are unanimously reclaimed by all of the lending agencies.

Altice Blue One debt was refinanced its external debt on July 2, 2013 and Altice Blue One is no longer subject to any debt covenants.

**17.2.3 Coditel Holding**

Financial covenants have been set for Coditel Holding, in the framework of the financing agreement entered into with a pool of financial institutions on December 2, 2011, based on the consolidated accounts of Coditel Holding S.A. On June 2, 2013, the senior facilities (A and B) were refinanced and repaid by anticipation, thus releasing Coditel Holding S.A. from any covenant requirements on the senior debt facility.

**Altice S.A.**  
**Consolidated financial statements as of December 31, 2013 (Continued)**

**17—Borrowings and other financial liabilities (Continued)**

As of December 31, 2013, Coditel Holding S.A. was in compliance with all of the required financial covenants on the Coditel Mezzanine debt.

**17.2.4 Altice Finco and Altice Financing**

Altice Finco and Altice Financing, the Senior and Senior Secured Notes issuers are subject to covenants that only come into effect every time new debts are issued with the following requirements:

- Secured net debt to EBITDA ratio: <3:1
- Unsecured net debt to EBITDA ratio: <4:1

The Consolidated Group is allowed to fully consolidate the EBITDA from any subsidiaries in which they have a controlling interest and that are contained in the restricted group as defined under the indenture. In addition, the Consolidated Group is allowed to use a general debt basket adjustment amounting to 4% of the total assets of the group, against the gross debt of the Group.

In case the Consolidated Group exceeds any of the two conditions mentioned above, it cannot incur any new debt, till such time as the ratios are met again. The Consolidated Group also has access to two super senior revolvers provided under the indenture, in case of any financing needs the Consolidated Group may face (for a total EUR equivalent amount of EUR 118.0 million).

**17.2.5 Altice Six**

Altice Six has pledged the shares it holds in the Numericable Group as collateral for a margin loan. Under the provision of the loan agreement, Altice Six must respect a certain ratio, the 'Collateral LTV ratio', failure to comply with which would entail certain penalties, which are enumerated below.

- The collateral LTV ratio is defined as the ratio between the aggregated outstanding loan amount (including accrued interests), less any cash present in the pledge account, divided by the market value of the shares provided as collateral by Altice Six.
- If the Collateral LTV ratio is greater or equal to 60%, then Altice Six is required to make a cash infusion into the collateral cash account, for an amount that represents the shortfall between the aggregate amount of outstanding debt (including accrued interest) and the amount of the aggregated amount of outstanding debt representing a collateral LTV ratio of 50%. The latter value is calculated using the share price of the collateral shares at closing on the day of default.

As of December 31, 2013, Altice Six was not in breach of the covenant, with a collateral LTV ratio of 36.4%.

**17.3 Borrowings from financial institutions**

In addition to the bonds described above, the Consolidated Group has issued the following debts:

- A mezzanine debt issued by Coditel Holding S.A. in 2011 with a principal amount of EUR 100.0 million, bearing cash interest at 8.5% and a PIK interest at 5.25% which is capitalized annually. This debt matures in 2016.
- A covenant lite term loan issued by Altice Financing S.A for a total amount of USD 1,034 million (EUR 795 million), bearing interest at Prime FFER, Libor + 4.5%) and maturing in June 2019.
- A margin loan facility at Altice Six, with a principal amount of EUR 323.9 million, bearing interest at a variable rate of 12 months Euribor + 4.25% for the first period, then 6 months Euribor + 4.25% and maturing in October 2016.

Subordinated financial instruments have been issued by Altice VII and Altice Six.

*(a) Altice VII*

Subordinated financial instruments have been issued by Altice VII consists of:

YFPECs: Yield Free Preferred Equity Certificates;

ALPECs: Asset Linked Preferred Equity Certificate;

IFL: Interest Free Loans.

Conversely, according to our appreciation, and upon application of IAS 32/39, following instruments have to be classified as debt instruments:

ALPECs instruments (about EUR 94.3 Million as at the end of 2013; 2012 amount: EUR 104.6 million)

YFPECs instruments (about EUR 4.8 Million as at the end of 2013; 2012 amount: EUR 4.4 million)

IFL instruments (about EUR 0.2 million at the end of 2013; 2012 amount: EUR 0.2 million)

The YFPECs have been valued using a discount rate of 4.76% given its preferred interest rate which therefore values the liabilities at EUR 4.8 million as at December 31, 2013.

*(b) Altice Six*

All debt instruments previously issued by Altice Six have been reimbursed in exchange for capital increase of Altice Six or cash payments made by Altice Six. New YFPECs were issued by Altice Six on November 12, 2013 and subscribed by Next L.P. The New YFPECs are yield free instruments and hence under IAS 32/39, a fair value evaluation of such instruments is mandated.

The fair value of the new instruments was EUR 1.5 million as at December 31, 2013. The discounting rate used corresponds to the effective interest rate for Altice Six S.A. and is indexed to the external debt issued by the Company (5.3% as at December 31, 2013).

**Altice S.A.**  
**Consolidated financial statements as of December 31, 2013 (Continued)**

**17—Borrowings and other financial liabilities (Continued)**

All such debt instruments issued by Altice Six were converted into common shares of Altice S.A. on January 31, 2014.

**17.5 Other financial liabilities**

Other financial liabilities mainly consist of:

(i) Preferred equity certificates (PECs): These instruments bear a yield and shall have a maturity of 49 years.

On November 29, 2013, Altice Holding S.à r.l. acquired the PECs held by Codilink S.à r.l. (40% of the total amount). Following this transaction, all remaining PECs issued by Coditel Holding Lux II have been subscribed by Deficom Telecom, of which 26.2% is detained by Deficom Group S.A

**17.9 Derivatives**

As of December 31 2013, the Consolidated Group had entered into the following swap transactions:

- A coupon only cross-currency swap transaction covering USD 200 million of the USD 400 million principal of Altice Finco's Senior Notes (of which USD 25 million is unhedged), based on which Altice pays Israeli Shekels and receives US Dollars, amounting to a Euro equivalent of 145 million with a maturity date on December 15, 2017 and an interest rate composed of an ILS TELBOR 3M floating rate and a fixed spread of between 8.0% and 8.25%
- A coupon only cross-currency swap transaction covering USD 225 million of the USD 450 million principal of Altice Financing's Senior Secured USD Notes (of which USD 10 million is unhedged), on the basis of which Altice pays Israeli Shekels and receives US Dollars, amounting to a Euro equivalent of EUR 163 million with a maturity date on December 15, 2017 and an interest rate composed of an ILS TELBOR 3M floating rate of 1.819% and a fixed spread of between 5.9% and 6.2%
- A coupon only cross-currency swap transaction covering EUR 100 million of the EUR 200 million principal of Altice Financing's Senior Secured Euro Notes (of which EUR 10 million is unhedged), based on which Altice pays Israeli Shekels and receives Euros, amounting to EUR 100 million with a maturity date on December 15, 2017 and an interest rate composed of an ILS TELBOR 3M floating rate of 1.819% and a fixed spread of 5.775%
- A coupon only cross-currency swap transaction covering a part of the USD 1,034 million Term loan notional (USD 292.8 million), in which Altice pays Israeli Shekels and receives US Dollars, amounting to USD 212 million with a maturity date on October 31, 2018 and an interest rate composed of an ILS TELBOR 3M floating rate of between 1.18 and 1.2% and a fixed spread of between 5.0% and 5.6%
- A coupon only cross-currency swap transaction covering part of the USD 1,034 million Term loan notional (USD 540.5 million), in which Altice pays Euros and receives US Dollars, amounting to EUR 392 million with a maturity date on October 31, 2018 and an interest rate composed of an EURIBOR 3M floating rate of between 0.22% and 0.26% and a fixed spread of between 4.5% and 4.8%

As of December 31, 2013, the Consolidated Group has entered into the following forward transactions:

- A forward transaction covering USD 500 million of the total USD nominal due at maturity of the Altice Finco USD Senior Notes and Altice Financing USD Senior Secured Notes (USD 885 million) based on which Altice pays Israeli Shekels and receives US Dollars, with a hedged rate ranging from 4.28-4.33 ILS/USD.
- A forward transaction to cover the repayment of a part of the nominal of the USD 1,034 million Term loan at maturity, in which Altice pays Israeli Shekels and Euros to receive US Dollars. As part of the

**Altice S.A.**  
**Consolidated financial statements as of December 31, 2013 (Continued)**

**17—Borrowings and other financial liabilities (Continued)**

transaction, Altice will pay ILS 1,076 million and receive USD 293 million at a hedged rate of 3.678 ILS/USD and will pay EUR 415 million and receive USD 541 million at a hedged rate of 1.301.

- A coupon only forward transaction covering USD 200 million of the USD 400 million Senior Notes issued by Altice Finco (of which USD 25 million are unhedged), in which Altice pays Israeli Shekels and receives US Dollars, with an average hedged exchange rate of 4.081 ILS/USD.
- A coupon only forward transaction covering USD 225 million of the USD 450 million Senior Secured Notes issued by Altice Financing (of which USD 10 million are unhedged), in which Altice pays Israeli Shekels and receives US Dollars, with an average hedged exchange rate of 4.081 ILS/USD.
- A coupon only forward transaction covering EUR 200 million of the EUR 200 million Senior Secured Notes issued by Altice Financing (of which EUR 10 million are unhedged), in which Altice pays Israeli Shekels and receives Euros, with an average hedged exchange rate of 5.036 ILS/EUR.

**17.10 Non-cash transactions**

Non-cash transactions consist of transactions where the Group has made payments to sellers of acquired entities or lenders (in case of debt repayments), with the cash being transferred directly to the third party.

The details of non-cash transactions are given below:

	<b>December 31, 2013</b>
<b>(in millions of euros)</b>	
Transaction costs related to acquisitions . . . . .	(40.1)
Transaction with non-controlling interests . . . . .	(120.9)
Acquisition of shares in associates . . . . .	(243.7)
Net payments on acquisition of subsidiaries . . . . .	(559.8)
Repayment of debt . . . . .	(641.7)
<b>TOTAL . . . . .</b>	<b><u>(1,606.2)</u></b>

In addition to this, Altice Six realized a non-cash gain arising from contribution of financial instruments to Numericable Group S.A. See note 27 for more details.

**18—Obligations under finance leases**

**18.1 Leasing arrangements**

The Consolidated Group leased certain of its office facilities under financial leases. The average lease term is 5 years (2012: 5 years). The Consolidated Group has options to purchase the equipment for a nominal amount at the end of the lease terms. Obligations under finance leases are secured by the lessors' title to the leased assets. Entities with major lease contracts are, (i) HOT and HOT mobile, (ii) Outremer Telecom and (iii) Auberimmo.

Interest rates underlying all obligations under finance leases are fixed at respective contract dates ranging from 3.5% to 5.5% (2012: 3.75% to 6%) per annum.

# Altice S.A.

## Consolidated financial statements as of December 31, 2013 (Continued)

### 18—Obligations under finance leases (Continued)

#### 18.1.1. Leasing arrangements

	Minimum lease payments	
	31 December 2013	31 December 2012
Less than one year . . . . .	12.6	12.3
Between one and two years . . . . .	7.3	7.2
Between two and three years . . . . .	5.0	4.9
Between three and five years . . . . .	2.8	2.9
More than five years . . . . .	7.6	7.6
Less: future finance expenses . . . . .	(2.9)	(2.6)
Present value of minimum lease payments . . . . .	<b>35.3</b>	<b>34.9</b>
	<b>31 December 2013</b>	<b>31 December 2012</b>
Included in the consolidated financial statements as:		
Current borrowings (note 17) . . . . .	23.4	27.1
Non-current borrowings (note 17) . . . . .	11.4	7.8
<b>Total</b> . . . . .	<b>34.8</b>	<b>34.9</b>

Current leasing obligations for HOT are listed below:

The HOT group (HOT Telecom and HOT mobile) leases equipment under finance leasing agreements. An arrangement exists within the framework of the leases, which does not meet the legal definition of leasing, but which is treated as a leasing agreement, based upon its terms. The leased equipment serves as collateral for the liabilities under the lease contract. As of December 31, 2013 the net carrying value of the leased facilities and equipment is EUR 38.1 million (NIS 182 million) (2012—EUR 41.7 million/NIS 205 million).

HOT Mobile has finance leasing in an amount of EUR 2.9 million in accordance with its rental contract with the company “Airport City” Ltd., which is for a period of 10 years ending in 2019. As of December 31, 2013, there is no balance recorded in the accounting records in respect of leasehold improvements (as of December 31, 2012, the net carrying value of leasehold improvements was EUR 3.0 million).

The Consolidated Group has recorded finance leasing in respect of the Bezeq agreement. As of December 31, 2013, the finance leasing commitment in respect of the long-term Bezeq rental fees was updated by an amount of EUR 0.4 million (NIS 2 million), as a result of additional payments made in respect of the leasing in the reporting period (as of December 31, 2012—EUR 0.4 million/NIS 2 million).

Other leasing contracts exist at Auberimmo, a datacenter owned by the Consolidated Group and operating in France. The facility was purchased under a finance lease agreement for an initial amount of EUR 5.6 million. A second tranche was issued to carry out renovations and leasehold improvements, amounting to a total of EUR 3.0 million.

### 19—Financial risk factors

In the course of its business, the Consolidated Group is exposed to a number of financial risks: credit risk, liquidity risk, market risk (including foreign currency risk and interest rate risk) and other risks (including equity price risk and settlement risk). This note presents the Consolidated Group’s objectives, policies and processes for managing its financial risk and capital.

Financial risk management is an integral part of the way the Consolidated Group is managed. The Board of Directors establishes the Consolidated Group’s financial policies and the Chief Executive Officer establishes objectives in line with these policies.

The Consolidated Group is not subject to any externally imposed capital requirements.

## Consolidated financial statements as of December 31, 2013 (Continued)

## 19—Financial risk factors (Continued)

## 19.1 Credit risk

The Consolidated Group does not have significant concentrations of credit risk. The credit risk may arise from the exposures of commitments under a number of financial instruments with one body or as the result of commitments with a number of groups of debtors with similar economic characteristics, whose ability to meet their commitments could be similarly affected by economic or other changes.

The Consolidated Group's income mainly derives from customers in Israel, in the French Overseas Territories and in Europe (Belgium, Luxembourg, Portugal and Switzerland). The Consolidated Group regularly monitors its customers' debts and provisions for doubtful debts are recorded in the consolidated financial statements, which provide a fair value of the loss that is inherent to debts whose collection lies in doubt.

The Consolidated Group does not have significant concentration of credit risk, as a result of the Consolidated Group's policy, which ensures that the sales are mostly made under standing orders or via credit cards.

## 19.2 Liquidity risk

Ultimate responsibility for liquidity risk management rests with the Board of Directors, which manages liquidity risk by maintaining adequate reserves, banking facilities and reserves borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

## 19.3 Market risks

The Consolidated Group is exposed to risk from movements in foreign currency exchange rates, interest rates and market prices that affect its assets, liabilities and anticipated future transactions.

## 19.3.1 Interest rate risk

Interest rate risk comprises the interest price risk that results from borrowings at fixed rates and the interest cash flow risk that results from borrowings at variable rates.

The Consolidated Group has an exposure to changes of interest rate in the market, deriving from long-term loans that have been received and which bear variable rate interest.

Interest structure of non-current financial debt (including interest effects of derivatives):

	December 31, 2013		December 31, 2012	
	(in millions of euros)			
Financial debt at fixed rates . . . . .	2,843.1		1,670.8	
Financial debt at variable rates . . . . .	1,345.5		333.4	
<b>TOTAL . . . . .</b>	<b>4,188.6</b>		<b>2,004.2</b>	

31 December 2013	Weighted average effective interest rate	< 1 year	1 - 5 years	5+ years	Total	Carrying amount
Non-interest bearing . . . . .	—	—	—	4.9	4.9	4.9
Variable interest rate instruments <sup>(1)</sup> . . . . .	5.9%	73.9	1,309.7	481.1	1,864.7	1,345.5
Fixed interest rate instruments	7.7%	272.6	1,942.4	1,712.6	3,927.7	2,838.2

**Altice S.A.**

**Consolidated financial statements as of December 31, 2013 (Continued)**

**19—Financial risk factors (Continued)**

<b>31 December 2012</b>	<b>Weighted average effective interest rate</b>	<b>&lt; 1 year</b>	<b>1 - 5 years</b>	<b>5+ years</b>	<b>Total</b>	<b>Carrying amount</b>
Non-interest bearing . . . . .	—	—	—	4.4	4.4	4.4
Variable interest rate instruments . . . . .	5.1%	—	5.6	326.3	842.2	333.4
Fixed interest rate instruments . .	7.4%	—	—	839.4	839.4	1,666.4

(1) The carrying amount of variable interest rate instruments excludes the following items included in note 17.6, 'accrued interest. Other financial liabilities and financial instruments'

**19.3.2 Israeli CPI risk**

The Consolidated Group has borrowed from banks and issued debentures that are linked to the changes in the Israeli CPI. Also, the Consolidated Group has deposits and gave loans that are linked to the changes in the Israeli CPI. The net amount of the financial instruments that are linked to the Israeli CPI and for which the Consolidated Group is exposed to changes in the Israeli CPI amounted to approximately EUR 187.0 million (NIS 895 million) as of December 31, 2013.

**19.3.3 Foreign currency management**

**1. Foreign currency sensitivity analysis**

The Consolidated Group is exposed to foreign currency risk from transactions and translation. Transactional exposures are managed within a prudent and systematic hedging policy in accordance with the Consolidated Group's specific business needs. Translation exposure arises from the consolidation of the financial statements of foreign operations in euros, which is, in principle, not hedged. The Consolidated Group's objective is to manage its foreign currency exposure through the use of currency forwards, futures and swaps.

	<b>December 31, 2013</b>		
	<b>Israeli Shekel</b>	<b>Swiss Franc</b>	<b>Total</b>
	<b>(in millions of euros)</b>		
<b>Profit for the year</b>			
Increase of 10% in exchange rate . . . . .	(12.8)	(0.2)	(12.9)
Decrease of 10% in exchange rate . . . . .	12.8	0.2	12.9
<b>Equity</b>			
Increase of 10% in exchange rate . . . . .	5.6	2.1	7.6
Decrease of 10% in exchange rate . . . . .	(5.6)	(2.1)	(7.6)
	<b>December 31, 2012</b>		
	<b>Israeli Shekel</b>	<b>Swiss Franc</b>	<b>Total</b>
	<b>(in millions of euros)</b>		
<b>Profit for the year</b>			
Increase of 10% in exchange rate . . . . .	(12.9)	(0.1)	(13.1)
Decrease of 10% in exchange rate . . . . .	12.9	0.1	13.1
<b>Equity</b>			
Increase of 10% in exchange rate . . . . .	23.3	3.0	26.3
Decrease of 10% in exchange rate . . . . .	(23.3)	(3.0)	(26.3)

Exchange differences recorded in the income statement represented a profit of EUR 66.5 million in 2013 (2012: loss of EUR 22.5 million). They are allocated to the appropriate headings of expenses by nature.

The Consolidated Group estimates that a 10% variation of foreign currencies against euro parity is a relevant change of variables and reasonably possible risk in a year and the presented above allows to

## Altice S.A.

### Consolidated financial statements as of December 31, 2013 (Continued)

#### 19—Financial risk factors (Continued)

assess the impact of a 10% increase of foreign currencies against euro on net result and reserves. A 10% decrease would have a symmetrical impact with the same amounts but in the opposite direction.

##### 2. Foreign currency hedging

It is the policy of the Consolidated Group to enter into hedging foreign exchange contracts to cover specific foreign currency payments and receipts.

The following table details the hedging contracts outstanding at the end of the financial year:

	Average exchange rate	Foreign currency	Notional Value	Fair Value of assets <sup>(1)</sup>
Outstanding swap contracts (ILS coupons only) . . . . .	4.34	3,201.8	620.6	(25.0)
Outstanding swap contracts (EUR coupons only) . . . . .	0.79	415.5	392.0	(12.9)
Outstanding forward contracts (ILS coupons only) . . . . .	4.31	2,154.3	426.7	(22.7)
Outstanding forward contracts (ILS nominal only) . . . . .	5.07	2,125.0	362.6	(81.7)

(1) Fair value of swap and forward contracts as of December 31, 2012 amounted to EUR 62.5 million

#### 19.3.4 Price risk

The Consolidated Group has investments in listed financial instruments, shares and debentures that are classified as available-for-sale financial assets and financial assets at fair value through profit or loss in respect of which the Consolidated Group is exposed to risk of fluctuations in the security price that is determined by reference to the quoted market price. As of December 31, 2013, the carrying amount of these investments was EUR 9.4 million (6.1 million as of December 31, 2012).

#### 19.4 Gearing computation

For the year ended December 31, 2013, the Consolidated Group had a net equity position of EUR 95.3 million, thus resulting in a gearing ratio of 43.3

	December 31, 2013	December 31, 2012
	(in millions of euros)	
<b>Net Debt</b> . . . . .	<b>4,188.9</b>	<b>2,004.3</b>
Cash and cash equivalents . . . . .	(61.6)	(129.8)
<b>Total equity</b> . . . . .	<b>95.3</b>	<b>278.1</b>
<b>Gearing</b> . . . . .	<b>43.3</b>	<b>6.7</b>

#### 19.5 Fair value of financial assets and liabilities

##### 19.5.1 Fair value of the Consolidated Group's financial assets and financial liabilities that are measured at fair value on a recurring basis

Some of the Consolidated Group's financial assets and financial liabilities are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these

# Altice S.A.

## Consolidated financial statements as of December 31, 2013 (Continued)

### 19—Financial risk factors (Continued)

financial assets and financial liabilities are determined (in particular, the valuation technique(s) and inputs used).

Financial assets/ Financial liabilities	Fair value as at		Fair value hierarchy	Valuation technique(s) and key input (s)	Significant unobservable differences	Relationship of unobservable differences
	31/12/2013	31/12/2012				
Foreign currency forward contracts (see notes 17.8) . . . . .	(104.9)	(52.6)	Level 2	Zero curve	N/A N/A	N/A N/A
Interest rate swaps (see note 17.8) . . . . .	(37.9)	(9.8)	Level 2	Zero curve	N/A N/A N/A	N/A N/A N/A
AFS . . . . .					N/A	N/A
—Wananchi <sup>(1)</sup> . . . . .	31.9	—	Level 3	Internal approach using business plans	N/A	N/A
—Partner and Co. . . . .	8.4	6.1	Level 1	Quoted price in an active market	N/A	N/A

- (1) In April 2012, the Consolidated Group made an investment in the East-African cable operator Wananchi, to gain a foothold in the strategic and fast developing African cable and telecom market. To date the Consolidated Group has invested a total of EUR 34.9 million (\$ 48.4million, of which EUR 31.9 million in equity and EUR 3.0 as a convertible note, as of the year ended December 31, 2013) in this venture, alongside other industry peers, and has acquired a total stake of 17.5% in Wananchi. Given the specific geo-economic context of the zone that Wananchi operates in, the high growth rate, infrastructure development needs and volatilities associated with the region, the Board of Directors considers that the carrying amount of its investment reflects the fair value of the investment as of December 31, 2013.

### 19.5.2 Reconciliation of Level 3 fair value measurements

	Available for sale (unlisted shares)	Others	Total
<b>31 December 2013</b>			
Opening balance . . . . .	0.0	—	0.0
Total gains or losses:			
—in profit or loss . . . . .	0.0	—	0.0
—in other comprehensive income . . . . .		—	
Purchases <sup>(*)</sup> . . . . .	31.9		31.9
Issues . . . . .	—	—	—
Disposals/settlements . . . . .	—	—	—
Transfers in level 3 . . . . .	—	—	—
Transfers out of level 3 . . . . .	—	—	—
<b>Closing balance . . . . .</b>	<b>31.9</b>	<b>—</b>	<b>31.9</b>

There were no available for sale instruments classified as level 3 for the year ended December 31, 2012.

- (\*) As at December 31, 2012 and during the year 2013, the Consolidated Group invested into convertible bonds issued by Wananchi. Such bonds have been converted during the year in exchange for shares of Wananchi.

**Altice S.A.**

**Consolidated financial statements as of December 31, 2013 (Continued)**

**20—Trade and other payables**

	<b>December 31, 2013</b>	<b>December 31, 2012</b>
	<b>(in millions of euros)</b>	
Trade payables . . . . .	392.9	314.2
Corporate and social security contributions . . . . .	29.8	24.5
Other payables . . . . .	94.3	38.9
Amounts due to related parties . . . . .	0.1	0.2
Deposit and guarantee received . . . . .	0.4	—
<b>Total current payables . . . . .</b>	<b>517.4</b>	<b>377.8</b>
Trade payables-acquisition of assets . . . . .	13.0	5.9
Other payables . . . . .	16.0	32.9
<b>Total non-current payables . . . . .</b>	<b>29.0</b>	<b>38.8</b>

The increase in trade payables can mainly be attributed to the acquisitions of Outremer, ONI and integration of MCS and SportV in the scope of consolidation of the Consolidated Group in 2013.

The increase in income tax payables can be attributed to an improvement in the profit before tax at HOT and a concomitant increase in the income tax rate in Israel from 25.0% to 26.5% as compared to FY2012.

**21—Deferred revenues**

	<b>December 31, 2013</b>	<b>December 31, 2012</b>
	<b>(in millions of euros)</b>	
Current deferred revenue . . . . .	55.9	34.1
Non-current deferred revenue . . . . .	10.6	10.8
<b>Total deferred revenues . . . . .</b>	<b>66.5</b>	<b>44.9</b>

Current deferred revenues refer to revenues recognized from customers billed in advance of the monthly cut-off. Non-current deferred revenues result from multi-year contracts with business customers.

The increase in deferred revenues for the year ended December 31, 2013 was mainly due to an increase in price of certain products for the year ended December 31, 2013 and the subsequent billing and revenue collection of these subscriptions before the year end.

Altice S.A.

Consolidated financial statements as of December 31, 2013 (Continued)

22—Classification and fair value of financial assets and liabilities

On December 31, 2013 and 2012, the principles for measuring financial instruments and their market value break down as follows:

	December 31, 2013			
	Book value	Amortized cost	Fair Value Fair value through profit/loss	Assets available for sale
	(in millions of euros)			
<b>Current assets</b>				
Cash and cash equivalents . . . . .	61.6	61.6	—	—

**23.4 Tax assessments**

**23.4.1 Hot Telecom**

On December 22, 2013, an agreement was signed between Cool Holdings Ltd and all of its subsidiary companies (except for HOT Mobile Ltd.) (hereinafter in this section—the companies) and the Israeli Income Tax Authority for the closure of disputes that had arisen in the assessment discussions for the years 2006 - 2011 and in continuation of the tax assessments that had been received in December 2009 and during the course of 2010 for the 2006 - 2008 tax years. Pursuant to the compromise agreements the companies will be required to pay an additional amount of tax in respect of the said tax years, primarily in respect of timing differences in respect of the depreciation of the infrastructure and the cables network and the amortization of intangible assets. The implementation of the compromise agreements will result in the Company having chargeable income in 2012 and 2013 as well.

**Consolidated financial statements as of December 31, 2013 (Continued)**

**23—Taxes on income (Continued)**

HOT Telecom's management has recorded the provision relating to the assessments in its financial statements in the past.

The impact of such assessment agreement in HOT's financial statements, including in respect of the updating of the HOT's deferred tax balances, is a net income of EUR 5.0 million.

Most of the companies have been issued with final tax assessments up to and including the 2011 tax year. HOT Mobile has been issued with tax assessments up to and including the 2009 tax year, which are deemed to be final.

**23.4.2 Cabovisao**

For the years 2012 and 2013, Cabovisao is subject to corporate income tax ("IRC—Imposto sobre o Rendimento das Pessoas Colectivas") at a rate of 25%, increased (i) up to a maximum of 1.5% of taxable income through a municipal tax ("Derrama"); and (ii) by a 3% and 5% state tax ("Derrama Estadual") applicable on taxable income between 1,5 million Euros and EUR 10 million (EUR 7.5 million as from January 1, 2013, following a change in Portuguese tax legislation occurred in December 2012) and on taxable income in excess of EUR 10 million (EUR 7.5 million as from January 1, 2013), respectively, in accordance with the article 87- A of the Portuguese Corporate Income Tax code, resulting in a maximum aggregate tax rate of approximately 31.5%.

In accordance with article 88º of the Portuguese Corporate Income Tax code, the Company is subject to an autonomous taxation over some expenses at the rates defined in that article.

As at December 31, 2013, the Company's tax returns, for the fiscal periods of 2006 until 2010, are being reviewed by Portuguese tax authorities. During the year ended December 31, 2013, the Company already received a tax notification, adjusting the Company's tax losses obtained in the fiscal year ended 2006, in the amount of approximately EUR 16.5 million. However, as of December 31, 2013, any carrying forward tax losses obtained in the fiscal year ended 2006 already expired, and therefore cannot be used to reduce future taxable profits.

The Company was subject to an inspection from the Portuguese tax authorities for the fiscal years 2003 to 2006, and the outcome was the following:

- An assessment of the Portuguese Tax Authorities related to 2005, requested an adjustment of tax losses in the amount of EUR 17.2 million, as well as an additional tax payment in the amount of EUR 4.1 million for withholding tax and stamp tax. The Company paid EUR 2.9 million and contested this decision through an appeal, but has not received the final decision yet. The unpaid amount of, approximately, EUR 1.0 million (excluding related late payment interests) was contested on appeal. In the year ended August 31, 2012, the Corporate Tax Authority accepted the claim. As of today, there were not any subsequent deliberations after that decision. The Board of Directors understands that the final outcome of this matter will be favorable to the Company.
- An assessment of the tax payable concluded that there was withholding tax due in the amount of approximately EUR 5.2 million (excluding related late payment interests). Cabovisao doesn't agree with this assessment, having filed a gracious complaint and submitted a bank guarantee in the amount of approximately EUR 6.8 million. As of December 31, 2013, the administrative and tax court of Almada didn't pronounce itself on that claim. The Board of Directors understands that the final outcome of this matter will be favorable to the Company.

**23.4.3 Other entities**

The Board of Directors has not identified any other material tax assessments in other group entities.

**Altice S.A.**  
**Consolidated financial statements as of December 31, 2013 (Continued)**

**23—Taxes on income (Continued)**

**23.5 Unrecognized deferred tax assets**

As at December 31, 2013, unrecognized deferred tax assets amount to EUR 253.0 million and are mainly split as follows:

	December 31, 2013	December 31, 2012
	(in million Euros)	
Cool Holding and HOT Telecom . . . . .	(13.9)	—
HOT Mobile . . . . .	(118.9)	(10.8)
Altice Financing . . . . .	(3.9)	—
Altice Six . . . . .	(342.6)	(342.6)
Cabovisao . . . . .	(56.0)	(51.3)
Altice Finco . . . . .	(1.8)	—
Altice Holdings . . . . .	(36.9)	—
Altice Caribbean . . . . .	(1.5)	—
Altice Blue Two . . . . .	(6.4)	—
ONI . . . . .	(11.8)	—
Others . . . . .	(2.0)	—
<b>Total</b> . . . . .	<b><u>(595.7)</u></b>	<b><u>(404.8)</u></b>

**24—Segment analysis**

**24.1 Definitions of segments**

Given the geographic spread of the various Group entities, it logically follows that an analysis and control by geography is inalienable to the Group strategy of managing its different businesses. It has thus been decided by the central management team to analyse the business across geographies and then by activity. The following geographies have been identified:

- Israel,
- Belgium and Luxembourg (Western Europe),
- Portugal (Western Europe)
- France (Western Europe)
- French Overseas Territories (Antilles and Indian Ocean),
- Others (Switzerland, Africa, France etc.).

Activities have been split as follows:

- Cable,
- Mobile,
- B2B and Others (Content/etc.).

Following the signature of agreements to acquire Tricom and Orange Dominicana in the Dominican Republic in October and November 2013 respectively, a new segment, “Dominican Republic”, will be defined. Given the nature of the activities of the two firms, there will be no changes to the activities segment.

**24.1.1 Operational KPIs**

It has also been decided by Management that operating subsidiaries shall report operational KPIs every week together with financial KPIs every month, using a standard reporting format.

## 24—Segment analysis (Continued)

The main operational KPIs include:

The main operational KPIs that will be tracked will be:

- Subscriber base evolution (both cable and mobile),
- ARPU (Average Revenue per Unit) (cable and mobile),
- Other relevant cost drivers.

These KPIs are benchmark indicators followed throughout the industry and allow for a thorough and accurate analysis of the business and strategic decision making.

### 24.1.2 Financial KPIs

Each local operational company will also report on a monthly basis the following financial KPIs by segment:

- Revenues (Cable/Mobile/B2B and Others),
- Cost of Sales (Cable/Mobile/B2B and Others),
- Capex (Cable/Mobile/B2B and Others).

The central team believes that given the uniformity in the accounting and nature of operating expenses and given the experience and competence of the Consolidated Group in managing operating costs, the main indicator that can vary between business units is the gross margin.

Capital expenditure (Capex) is an important indicator to follow, as the profile varies greatly between the two activities:

The cable business has fixed Capex requirements that are mainly discretionary (network, platforms, general), and variable Capex requirements related to the connection of new customers and the purchase of Customer Premise Equipment (TV decoder, modem, etc).

Mobile Capex are mainly driven by investment in new mobile sites, upgrade to new mobile technology and licences to operate. Once Capex are engaged and operational, there are limited Capex requirement.

Management believes that operations in Switzerland are currently not substantial enough to require a separate reporting segment, and will be reported under 'B2B and Others'. However, as these activities grow, it is intended that they are also reported under a separate segment with relevant operating KPIs specific to the activity.

## 24.2 Regional specificities

### 24.2.1 Israel

Israel is currently an important contributor to the Consolidated Group revenues and EBITDA and has particularities that differentiate it. For this reason, it is classified as a separate region.

It is characterised by a high broadband and cable penetration and a very technology-savvy population. Segments within the Israeli telecom market show different level of maturity and competition, with relatively frequent interventions from the regulator. Management is factoring expectations for price pressure and increasing competition in its strategic plan.

Triple play penetration is low and represents a valuable growth driver.

The regulatory environment does not yet allow for quadruple play packages (coupling fixed and mobile services), which Management need to consider when setting up integration plans and operational synergies. The prevailing political environment in the region can also have adverse impacts on the

## 24—Segment analysis (Continued)

development of the business, as a deterioration of the situation may have serious repercussions on the market environment and may even lead to physical damage of the infrastructure.

### 24.2.2 Belgium and Luxembourg

Even though Belgium/Luxembourg and Portugal can be considered to be the same sub-region, the challenges posed by these two regions are quite different.

The Belgian and Luxembourg territories have a high standard of living and well developed economies, which translates into higher prices for services. The markets are quite mature, with high broadband penetration. Customers are willing to pay more for premium services and hence price pressure appears limited.

These regions are marked by the presence of many well established local cable operators with no overlap thou. Customer retention is a key factor in maintaining strong profit margins.

Given the density and presence of mobile operators, the mobile strategy has been driven by Mobile Virtual Network operations, through the deployment of quadruple play packages.

### 24.2.3 France

The French market is a large and mature market with high cable penetration and a large consumer base. French operations represent the oldest and largest part of the cable operations of the combined Group to date.

This region is marked by the presence of many well established cable operators and customer retention is a key factor in maintain strong profit margins. Competition is tough and innovations in cable technology, such as Fiber to the home (FTTH) are driving market growth. Incumbent operators are slowly migrating to fiber optic based networks which gives the Group a head start in capturing the ultra-high speed internet market, given its pre-existing high density cable network.

Given the density and presence of mobile operators, the mobile strategy is driven by MVN operations, which allows the presence of quadruple play packages.

### 24.2.4 Portugal

The Portuguese market is marked by a high concentration of double play subscribers and a mature telecommunications market, which, when coupled with slow economic recovery, makes it difficult to achieve revenue growth. This market is marked by high subscriber attrition and downward migration from high to low ARPU offers.

The challenge in Portugal is to maintain a subscriber base and migrate the customer base from double play to triple play offers.

### 24.2.5 French Overseas Territories

The French Overseas Territories present growth opportunities with relatively limited competition and room to attract more subscribers on our cable infrastructure. Additional growth potential exists notably through the deployment of multiple-play services and efficiency gains in distribution network, , as multiple-play packages penetration remains low. Price pressure is low in these regions and customers are willing to pay more for value added services.

Additional opportunities have been identified and pursued in the e-banking sector.

Altice S.A.

<b>Total Revenue . . . . .</b>	<b>1.092.4</b>	<b>71.3</b>	<b>—</b>	<b>850.4</b>	<b>24.4</b>	<b>98.2 48.1</b>
<b>Total Costs of sales . . . . .</b>	<b>(302.1)</b>	<b>(11.0)</b>	<b>—</b>	<b>(228.8)</b>	<b>(4.1)</b>	<b>(39.1) (19.2)</b>
<b>Total Gross Profit . . . . .</b>	<b>790.3</b>	<b>60.3</b>	<b>—</b>	<b>621.7</b>	<b>20.4</b>	<b>59.1 28.9</b>

**25—Operating expenses**

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Technical and maintenance costs . . . . .	(149.7)	(141.9)
Customer services . . . . .	(32.9)	(18.3)
Taxes . . . . .	(3.6)	(2.4)
<b>Total . . . . .</b>	<b>(186.2)</b>	<b>(162.5)</b>

**26—Depreciation, amortization and goodwill impairment.**

It consists in (i) amortization of intangible assets for a total of EUR 133.4 million (2012: EUR 245.7 million including EUR 121.9 million of goodwill impairment), (ii) depreciation of tangible assets for a total of EUR 251.4 (2012: EUR: 219.6 million) and (iii) other additions and reversals for a total of EUR 14.8 million (mainly representing additional depreciation on inventories and receivables) (2012: EUR 77.10 million, representing a net reversal for the year).

**27—Gain on settlement of financial instruments**

The gain on settlement of financial instruments recorded in the financial statements of Altice Six S.A. in the year ended December 31, 2013, corresponds to the difference between the carrying amount of the loans and receivables contributed by Altice Six in exchange for shares in Numericable Group S.A. and the fair value of these instruments as recorded in the IFRS financial statements of Altice Six at the time of the contribution.

The carrying amount of the loans at the time of the contribution was EUR 418.3 million and the fair value recorded in the IFRS accounts of Altice Six amounted to EUR 162.6 million, thus leading to a gain of EUR 255.7 million.

## Altice S.A.

### Consolidated financial statements as of December 31, 2013 (Continued)

#### 28—Other operating incomes and expenses

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Other incomes and expenses . . . . .	(17.0)	(24.9)
Other revenues . . . . .	0.9	—
Disposal of tangible assets . . . . .	1.0	(4.8)
<b>Other expenses, net . . . . .</b>	<b>(15.1)</b>	<b>(29.8)</b>
Non-recurring costs <sup>(1)</sup> . . . . .	(58.3)	(22.4)
Restructuring costs <sup>(2)</sup> . . . . .	(2.9)	(6.7)
<b>Restructuring and other non-recurring costs . . . . .</b>	<b>(61.2)</b>	<b>(20.8)</b>
<b>Total . . . . .</b>	<b>(76.3)</b>	<b>(50.5)</b>

(1) The increase of non-recurring costs is mainly explained by a one-off EUR 31.6 million charge booked at HOT Mobile concerning the entering into a new network sharing agreement with Partner Telecommunication and the termination of the existing agreement with Pelephone. The provision relates to any cost overlap resulting from the use of Pelephone's network during the transition phase. In addition, Altice financing incurred costs related to consultants' fees and other outlays related to the acquisition of OMT Invest S.A.S and Winreason S.A.

(2) Restructuring costs decreased in the year ended December 31, 2013 as a result of the completion of restructuring at Cabovisao. The charge of EUR 2.9 million refers to the restructuring costs engaged at ONI telecom since its acquisition in august 2012.

#### 29—Net finance costs

	December 31, 2013	December 31, 2012
	(in millions of euros)	
Gain arising on fair value of financial instruments <sup>(1)</sup> . . . . .	2.6	1.2
Foreign exchange gains . . . . .	91.0	24.7
Interest income . . . . .	27.3	10.3
Other financial income . . . . .	2.5	4.5
<b>Finance income . . . . .</b>	<b>120.9</b>	<b>40.7</b>
Interest charges on borrowings and overdrafts <sup>(2)</sup> . . . . .	(201.5)	(118.5)
Loss arising on fair value of financial instruments . . . . .	(99.4)	(72.0)
Interest on subordinated debt . . . . .	(37.6)	(11.5)
Foreign exchange losses . . . . .	(24.5)	(2.1)
Net book-value of disposal/financial assets . . . . .	(13.6)	(21.2)
<b>Finance costs . . . . .</b>	<b>(376.6)</b>	<b>(225.4)</b>
<b>Total . . . . .</b>	<b>(255.6)</b>	<b>(184.7)</b>

(1) Gains arising on fair value variations of financial and subordinated financial instruments issued by the Company for a total amount of EUR 1.4 million and a gain on interest rate swaps recorded at Altice financing for a total amount of EUR 1.3 million.

(2) The increase in interest expense for the year ended December 31, 2013 was primarily due to (i) the issuance of new debt to finance the Outremer Telecom and ONI transactions (EUR 12.9 million impact in 2013) and (ii) the full year impact of the debt incurred to finance the HOT take private in 2012 (EUR 47.45 million in 2013).

#### 30—Transactions with non-controlling interests

On April 23, 2013, the company repurchased the 40% minority interests held by Apax in its Portuguese subsidiary, Cabovisao for a total consideration of EUR 105.0 million, of which EUR 90.0 million was paid as consideration for equity acquired and EUR 15.0 million used in the repayment of a shareholder loan. The total amount of equity acquired was valued at EUR 13.1 million and the impact on the net equity of the Consolidated Group was EUR 77.0 million following the consummation of the deal.

On November 29, 2013, the company repurchased the 40% minority interests held by Apax through its holding company Codilink S.à r.l. in Coditel Holding Lux and Coditel Management. The total

# Altice S.A.

## Consolidated financial statements as of December 31, 2013 (Continued)

### 30—Transactions with non-controlling interests (Continued)

consideration paid was EUR 82.5 million, of which EUR 30.6 million was paid to acquire shares in Coditel Holding Lux II and EUR 51.9 paid to reimburse subordinated debt instruments (CPECs) held by the minority shareholder. The amount of equity acquired by the Consolidated Group was valued at EUR 1.7 million, with a total impact of EUR 28.9 on the Consolidated Group net equity following the consummation of the deal.

### 31—Average workforce

	December 31, 2013	December 31, 2012

### 32—Transaction with related parties

#### 32.1 Trading and financial transaction

Transactions with related parties mainly related to transactions with Numericable Group, Next L.P. or Altice Six S.A.. Such transactions are limited to (i) re-invoicing of certain operational services granted by Numericable Group to certain subsidiaries of Altice VII, or (ii) shareholder preferred equity certificates or loan issued by Altice VII and held by Next L.P.

Transaction with related parties that directly impact the reserves of the Consolidated Group are summarized in note 13.

Other related parties include consulting firms specialized in the management and operations of telecom companies and executive managers of Altice VII. The fees paid to the consulting companies include recurring fees paid based on service level agreements established with Altice VII, one-off success fees for the successful completion of acquisitions or negotiations with banks on debt contracts/bond issuance and reimbursement of any outlays and expenditures incurred by the employees of these companies when working on behalf of Altice VII. Transactions with executive managers include loans provided to them by the Company.

**33.1 Hot Telecom Commitments**

**33.1.1 Commitments**

**A. Contingent liabilities**

1. Within the framework of the merger of the cable companies on December 31, 2006, the Company assumed responsibility for the existing claims in the field of activity of the acquired companies (the cable

**33—Contractual obligations and commercial commitments (Continued)**

companies in their former format), furthermore, it was determined that the Company would assume responsibility for any claim that might be filed in the interim period by any of the acquired companies after the time of the completion of the merger of the cable companies.

In addition, the Company has entered into a commitment under an indemnification agreement with each of the three previous holders of the rights in the HOT Gold Partnership (the Tevel Group, the Yedioth Communications and the Fishman Group) in accordance with which the Company has undertaken to fully indemnify the partners in the HOT Gold Partnership, prior to the completion of the merger transaction, so that they will be released from all responsibility, commitment or debt of any sort whatsoever that HOT Gold had on December 31, 2006 or that HOT Gold might have had after that date, and which relate to the period prior to the completion of the merger, including in respect of claims and legal proceedings.

2. Lawsuits have been filed and are pending against companies in the Consolidated Group in the routine course of business and various legal proceedings are outstanding against it (hereinafter—Lawsuits).

In the opinion of the managements of the Consolidated Group companies, based, inter alia, on legal opinions in respect of the chances of the lawsuits, appropriate provisions have been recorded in the financial statements as of December 31, 2013 in an amount of EUR 11.1 million, were provisions are required, to cover the exposure in respect of the said lawsuits.

In the opinion of the management of the Consolidated Group companies the additional exposure in an amount of approximately EUR 565 million (over and above the provisions that have been recorded in these financial statements), as of December 31, 2013 in respect of lawsuits that have been filed against companies in the Consolidated Group on various issues is as follows:

- a) An amount of approximately EUR 377 Million in respect of claims, the chances of which, in the assessment of the Company's management, in reliance on opinions from its legal advisors, do not exceed 50%.
- b) An amount of approximately EUR 105 Million in respect of claims, which it is not possible to evaluate at this stage, and which consist primarily of applications for approval as class actions that were filed shortly before the date of the financial statements.
- c) An amount of approximately EUR 84 Million in respect of claims, where the chances of there being accepted in the assessment of the Company's management, in reliance on the opinion of its legal advisers, exceed 50%.

(1) The amount includes EUR 10.5 million in respect of claims after the balance sheet date.

(2) The amount includes EUR 9.4 million in respect of claims after the balance sheet date.

#### B. Commitments

##### 1. Royalties to the Ministry of Communications and other payments to the government

a) Hot Telecom used to be committed to pay annual royalties in accordance with the Telecommunications Regulations (Concessions)—1987. In accordance with the Telecommunications Regulations (Telecommunications and Broadcasting) (Royalties)—2001, HOT Telecom is required to pay annual royalties in respect of its income from in country operator services and HOT Mobile is required to pay annual royalties in respect of its radio telephone services (less payments to another license holder in respect of reciprocal connection or roaming services). The royalties rates that HOT Telecom and HOT Mobile have each been charged to pay stood at 1.75% in 2012 and decreased to 0% from 2013 onwards.

b) In July 2001, the cables companies, including Hot Telecom, entered into a commitment under an agreement with the State of Israel on the subject of a solution to the disputes between the cable companies and the State in respect of the right of each company to operate the existing cables infrastructure in each of the concession areas after the end of the period of the concessions. It was stipulated in the agreement that the State undertakes to waive all of its claims and its rights in respect of the cables infrastructure such that each cables company would be the owner of all of the rights, including property rights, in the cables infrastructure that it held in the area of its concession and that it would have available to it the right to continue to operate it even at the end of the concession period. In consideration for this, it was stipulated that each company was to pay to the State, on an annual basis and for a period of 12 years (commencing on January 1, 2003), its relative share, as determined in the agreement, of an amount that is equivalent to the multiple of certain incomes (as determined in the agreement) of each of the cable companies on a graduated scale (in accordance with the level of income, as aforesaid) at a rate of from 0% to 4%. The relative share of each company can be altered by agreement between the cables companies.

In addition, it was stipulated that each company is to pay approximately 12% of the overall consideration from the sale of operations that are executed through the cables infrastructure for a period of 12 years. It was also stipulated in the agreement that in so far as Hot has received any amount whatsoever in consideration for the issuance of its shares to the public or to an external investor or in consideration for

### 33—Contractual obligations and commercial commitments (Continued)

the sale of shares of another company from among the cables companies, part of the consideration from the issue or the sale, as aforesaid, is to serve as an advance payment for the payment of the relevant portion of the consideration that remains to be paid under the agreement, in accordance with a formula that will be determined by the parties by agreement. It is further stipulated in the agreement that it shall apply to the cables companies or to any company that is split or merged even if structural changes are made of any sort whatsoever, and accordingly, with the completion of the merger, the agreement applies to Hot as a merged company.

c) In accordance with the Wireless Telegraph Regulations (Licensing, Certification and Levies) – 1978, HOT Mobile is required to pay a fixed annual payment for each frequency that it uses. HOT Mobile paid amounts of NIS 29 million and NIS 26 million in respect of the years 2013 and 2012 respectively.

#### 2. Other royalties

a) Within the framework of the Consolidated Group's routine operations in the broadcasting field, the Consolidated Group enters into commitments under arrangements and agreements under which the Consolidated Group pays royalties to various authors' organizations. The amounts of the royalties that have been reflected by the Consolidated Group within this context in the years 2013 and 2012 amounted to NIS 45 million and NIS 42 million respectively.

b) On January 30, 2012 a draft of the Authors and Performers Law (Judgment on Royalties Issues) 2012 (hereinafter, in this section—"The draft law") was placed before the Knesset. The draft law was intended to create a royalties court by empowering one of the District Court Judges to hear cases on royalties issues, royalty rates and disputes in royalty issues (in other words, a dispute on the issue of royalty rates between a collective management entity and a user or users of a repertoire).

This draft, if it is accepted, may have an implication for the issue of the payment of royalties to various organizations. As of the date of this report, Hot is unable to assess what the impact of the said legislation will be on its business results, if it is passed.

#### 3. A commitment to invest in original productions

In accordance with the provisions of the Communications Law, the principles of communications and decisions by the Council, Hot is required, inter alia, to invest amounts in original productions at a rate of 8% of its annual income from subscription fees. During the course of the years 2012 and 2013 Hot complied with the investment rate that is required, as aforesaid.

It should be noted in this connection that the Communications Law has empowered the Council to determine the rate of investment that is required, and solely that it may not exceed 12% and may not fall below 8% of the annual income from subscriber fees. In this connection, in October 2011 the Council informed Hot that as from the year 2012 its income from subscriber fees, which form the basis for the calculation for the requirement to invest in original productions, will be deemed to include all of the payments that are paid by its subscribers in order to receive broadcasts and to receive services, including income from users' terminal equipment and the installation thereof, whereas in accordance with the policy adopted by the Council up to them regarding the inclusion of income from terminal equipment for the purpose of the calculation of the requirement for original productions was made conditional upon a mechanism that was based on the profitability of this income, and in past years the income from users' terminal equipment and the installation thereof was not included in the basis for the calculation for original productions. On January 12, 2012, the Council determined that Hot will be entitled to complete the amount of the additional investment for the year 2012 over three investment years.

#### 4. Agreement to deploy and maintain a cables network

On January 1, 1990 and on May 1, 1989, Tevel International Transmission for Israel Ltd. and HOT Gold & Co. (hereinafter together—The cable companies) entered into commitments under agreements for the provision of planning, installation and maintenance services of the cables network with the Bezeq

**33—Contractual obligations and commercial commitments (Continued)**

company (the provisions of both of the two said agreements are similar, and they will hereinafter in this section be called—the agreement). This agreement was endorsed to HOT Telecom as part of the merger agreement.

In accordance with the agreement, Bezeq, Tevel and HOT Gold planned the cables network, inter alia, based on the Bezeq company's available infrastructure, which was deployed in the areas of the concession at the time of the signing of the agreement. Tevel and HOT Gold supplied the Bezeq company with the base equipment (as defined in the agreement) that comprises the cables network whereas the Bezeq company supplied the additional equipment (as defined in the agreement) that is used for setting up the cables network.

In accordance with the agreement, a cables network was set up and deployed in a number of major cities across Israel, and the Bezeq company conducts the routine maintenance of the cables network and also provides malfunction repair services. The provisions of the agreement also relate, inter alia, to the possibility of the expansion of the cables network to additional facilities, the connection of new houses and of new neighborhoods.

It is determined in the agreement that it will remain in force for the length of the period of the concession, and that it will continue to be in force if the concession or the rights in the concession are transferred or afforded to another, in whole or in part and directly or indirectly, during the course of the original concession period and during the extension of that period or after the end of it. The Bezeq company is only entitled to cancel the agreement in respect of a breach for which notice has been given in writing.

The total of the expenses recorded in Hot's accounting records for the network services payable to the Bezeq company in the years 2013 and 2012 amounted to NIS 47 million and NIS 48 million, respectively.

It should be noted that from time to time, during the routine course of business, disputes arise in connection with the implementation of the agreement, inter alia in respect of the division of the costs that are involved in the performance of some of the services that are supplied by the Bezeq company under the agreement, however the parties are continuing to operate in accordance with the agreement. It is further noted that over the course of the years additions have been signed to the agreement, primarily in connection with enhancement and upgrading work on the cables network.

**5. Commitments to lease assets**

The Consolidated Group has commitments under agreements for the leasing of buildings and motor vehicles for various periods up to the end of the year 2020. The minimal future rental fees in respect of the rental contracts as of December 31, 2013, exclusive of the option period, are as follows:

	EUR Million December 31, 2013	EUR Million December 31, 2012
2014 .....	37.3	37.8
2015 .....	30.2	30.0
2016 .....	19.7	24.4
2017 .....	10.1	17.5
2018 and thereafter .....	7.3	61.7
	<b>104.6</b>	<b>171.3</b>

6. On July 19, 2011, Hot's Board of Directors approved a commitment under agreements for the execution of the upgrading of the fiber optic infrastructure (FTTX). In accordance with the said commitment, HOT Telecom will purchase advanced optic equipment, work and services from third parties, in order to upgrade the infrastructures, including maintenance services, in accordance with the deployment and the timetables that will be agreed upon between the parties from time to time. The upgrading of the infrastructure, as aforesaid, will enable the expansion of the traffic capacity on the network, in favor of the supply of enhanced VOD services, the increasing of the number of channels that the Consolidated Group can offer to its subscribers, faster internet services and it will also enable Hot to

**33—Contractual obligations and commercial commitments (Continued)**

deal with increased demand for traffic capacity on the network in the future, which is expected to arise as a result of increased uses and applications that require a considerable band width.

7. On May 27, 2010, a facility agreement was signed between HOT Mobile and Motorola for the purchase, licensing and installation of the infrastructure equipment (hardware and software) which is required in order to operate HOT Mobile's iDEN network. The agreement is in force for a period of five years from the time that it was signed (hereinafter -the initial period) and it will be renewed for additional periods of one year each (or for a longer period that is agreed between the parties), unless a party to the agreement gives notice to the other party, 90 days before the end of the initial period, or one of the extension periods, as the case may be, of its desire to terminate the commitment. The agreement arranged the commitment between the parties for the purpose of the execution of the work orders that will be presented to Motorola, from time to time, by HOT Mobile for the purpose of the supply of equipment or software for the iDEN network.

Within the framework of the agreement, Motorola has undertaken that during the initial period it will hold an inventory of equipment that will enable it to immediately supply the components that are required for the proper functioning of HOT Mobile's iDEN network, and so that it will be capable of supplying HOT Mobile with the maintenance services for the infrastructure equipment and the software that are required to operate the network for a period of seven years from the signing of the agreement, subject to the purchase of the said maintenance services by HOT Mobile.

In consideration for Motorola's commitment to sell the equipment and the licenses to HOT Mobile at the prices that are denoted in the agreement, HOT Mobile has made a commitment to purchase the infrastructure equipment and the software that is required to operate the iDEN network from Motorola alone during the period of the agreement.

8. As part of the commitment with Motorola in respect of the infrastructure for the iDEN network, HOT Mobile has signed on a system maintenance agreement with Motorola as well as on an agreement for the maintenance of the system's hardware, which arrange the repair of malfunctions and the provision of support by Motorola for HOT Mobile's iDEN network.

In December 2011, the system maintenance agreement was extended for an additional period of three years, until the end of 2014.

9. On May 26, 2010, as part of the sale of the control in HOT Mobile to Altice, HOT Mobile entered into a commitment under an agreement with Mobility for the purchase of terminal equipment that supports the iDEN technology.

The agreement is in force for a period of 5 years and it will be renewed for additional periods of one year each time unless a party to the agreement gives notice to the other party, 60 days before the end of the initial period, or one of the extension periods, as the case may be, of its desire to terminate the commitment.

The agreement arranged a mechanism for the ordering and supply of the terminal equipment (including quarterly forecasts by HOT Mobile) with HOT Mobile being responsible for the importing of the terminal equipment from abroad.

The supplier has received an option and the right of first refusal for the repurchase from HOT Mobile of all of the terminal equipment that it may be holding at the time of the termination of the agreement, in accordance with a mechanism that was set in the agreement.

10. On June 16, 2011, HOT Mobile entered into a commitment with Nokia Siemens Networks Israel Ltd. (hereinafter—the supplier) for the setting up of the infrastructure for HOT Mobile's new network.

In accordance with the terms of the agreement, the supplier will plan and set up the new network for HOT Mobile as a turnkey contractor. In the first stage, which was completed in May 2012, the supplier completed the setting up of the systems that are required for the purpose of operating the new system with a coverage of approximately 30%, which is in excess of the extent of the coverage which HOT

**33—Contractual obligations and commercial commitments (Continued)**

Mobile is required to provide (20%) in accordance with the terms of the tender within two years from the time of the receipt of the new radio telephone license. After the completion of the first stage, HOT Mobile has expanded and is expanding the new network, both from the perspective of the coverage and also from the perspective of the LTE capability.

The agreement is in force for 15 years, and it contains warranties for the proper functioning of the components of the system for a period of two years from the time of the handing over of each component in accordance with the agreement, as well as warranties for the entire period of the agreement that the system will operate in accordance with the system requirements that HOT Mobile placed (in terms of availability, functioning and capacity), subject to their being a maintenance agreement in force between the parties.

In consideration for the completion of the first, second and third stages in accordance with the agreement and the performance of all of the supplier's commitments by the year 2013, the Consolidated Group will pay the supplier an amount of 52 million Dollars, which amount does not include the expansion of the coverage and the capacity over and beyond what is stipulated in the agreement.

11. In 2013 and at the beginning of 2014, a number of additions to the agreement were signed, within the framework of which the payments that were supposed to be paid under the agreement have been deferred to a later date, subject to HOT Mobile's signing on debt notes, with Hot acting as guarantor. Within this framework, HOT Mobile has signed on confirmation for the final receipt of significant portions of the said project.

12. On October 27, 2011, an agreement was signed between HOT Mobile and Comverse Ltd. (hereinafter—Comverse), in accordance with which Comverse will supply Hot with a BSS system (a billing system that is integrated with the customer relations management (CRM) system) (hereinafter—The system) and Comverse will also supply Hot with hardware, software and services, including the operation and maintenance of the system. The agreement is for a period of five years. In consideration for Comverse's services, HOT Mobile will pay an amount of approximately 12.5 million US Dollars. In January 2012, the parties signed on an addendum to this agreement, in accordance with which Comverse is committed to allocate seven additional employees to be available for the project (instead of the manpower that Hot had to make available for the project), for a payment of 500,000 US Dollars.

13. On May 30, 2012, HOT Mobile International Communications Ltd (hereinafter—HOT International), a wholly owned subsidiary of HOT Mobile's, received an operator's license for the provision of international telecommunications services (hereinafter—The international license). On January 6, 2013 HOT International received operational approval for starting to provide international telecommunications services in accordance with the international license and on January 8, 2013, notification of the opening of the services was sent to all of the operators.

14. On November 11, 2013, Hot's Audit Committee approved Hot's commitment under a sub-leasing agreement with the Middle East Company Ltd. (hereinafter—the lessor) for the sub-leasing of a plot of land in the Jaffa Port, which Hot is leasing (hereinafter—the leased property), retroactively, as from July 2013.

The leased property will be used by the tenant, which is a company that produces broadcasts for a foreign news company, which is 85% owned by Mr. Patrick Drahi, the ultimate controlling interest in Hot.

The lease fees that will be paid to Hot in respect of the leased property have been set in accordance with the rental fees that Hot pays in respect of the property and under the same payment terms (back to back), with the addition of a monthly amount in respect of: (1) the tenant's relative share of the municipal taxes, electricity, water, security and cleaning expenses (back to back terms to those paid by Hot) and (2) adaptations to the leased property that Hot has executed at its own expense.

It is determined in the rental agreement that in any case in which the agreement ends before the end of the rental period, the tenant shall pay Hot the balance of the payments in respect of the adaptations that

**33—Contractual obligations and commercial commitments (Continued)**

Hot made in the leased property, as discounted using a real annual interest rate that has been set in the agreement.

15. On November 8, 2013, HOT Mobile signed on agreements with Partner Communications Ltd. (hereinafter—Partner), which are subject to the receipt of all of the approvals that are required, as detailed below: HOT Mobile and Partner will set up a limited partnership, which will hold, develop and operate a single advanced cellular communications network, for both of the companies, each of which will hold half of the rights in it. In accordance with the agreement, each of the parties will continue to hold and to operate its core of the network separately and provide cellular communications services, including the marketing and the selling of such services, to its customers alone.

The agreement arranges the management of the joint network and its development, the manner of the management of the partnership, including a mechanism for the appointment of a board of directors, the resolution of disagreements, the bearing of the costs of upgrading the network and so on.

The agreement will be in force for a period up to December 31, 2028, and thereafter, the agreement will be extended automatically for additional periods of 5 years each, unless either of the parties gives notice of its desire to terminate the agreement by giving notice in advance of 24 months before each automatic renewal. Despite the aforesaid, as from the end of a period of 8 years from the entry of the agreement into force, it may be cancelled by either of the parties, in accordance with their own judgment and by giving two years notice in advance from that time. The agreement also sets a mechanism for the separating of the parties in the event of the termination of the agreement.

In consideration for the agreement, HOT Mobile will pay a non-recurring amount, which is to be paid by the beginning of 2017, and thereafter, each party will bear half of the capital investments that are required to set up and to upgrade the joint network and the bearing of the operating expenses for the joint network will be in accordance with a mechanism that is set in the agreement and which is based, *inter alia*, on the volume of the data traffic that each party consumes from the joint network.

As an interim stage and until the receipt of the approvals that are required under the law, Partner will extend to HOT Mobile the right to use its cellular communications network for the purposes of the provision of broad national cover to its customers. The services under the agreement will apply after the completion of the preparations and in accordance with any agreement or regulation.

In the light of the commitment with Partner in connection with the in-country roaming services, HOT Mobile and Pelephone Telecommunications Ltd. (with which HOT Mobile had entered into an exclusive agreement in the past for in-country roaming services up to December 31, 2014) reached agreement regarding the cancellation of the exclusivity clause.

16. In the reporting period, the management of HOT Mobile Ltd. (hereinafter—HOT Mobile), made a decision regarding the vacation of its offices at Airport City, in respect of which there is a long-term rental contract with Airport City, for the period up to and including 2019. As a result of this decision, Hot has recognized losses of NIS 34 million (EUR 7.1 million) in the reporting period, which have been recorded under other expenses, reflecting the rental expenses, taxes and amortization of leasehold improvements, which in HOT Mobile's assessment are irrecoverable, and which meet the definition of an onerous contract.

**17. Capitalized leasing rights on land from the Israel Lands Authority**

Capitalized leasing rights on land from the Israel Lands Authority over an area of 20,713 square meters on which the Consolidated Group's buildings are located. The amount that is attributed to the capitalized rights is presented as a prepaid expenses in respect of operating leases in the balance sheet and is amortized over the period of the leases. See also Note 2K. The lease periods end in the years 2021-2045.

**C. Guarantees and liens**

1. As collateral for Hot's commitments vis-à-vis the parent company under the credit agreement with it, the following charges have been placed

**33—Contractual obligations and commercial commitments (Continued)**

- a) A floating charge on Hot's assets.
- b) A fixed charge on the shares in the subsidiary companies.
- c) HOT Telecom has given a charge on some of its assets.

The said charges are in an unlimited amount, vis-à-vis Hot, the investee partnership—HOT Telecom and the subsidiary company—HOT Net, jointly and severally.

2. As collateral for the commitments of Hot, the investee partnership HOT Telecom and the subsidiary company HOT Net, first ranking floating charges have been placed in unlimited amounts in favor of the borrowers, on all of the assets and the rights belonging to debtors of companies in the Consolidated Group and a fixed charge on the goodwill and the unpaid share capital of the Companies in the Consolidated Group.

3. As collateral for Hot's commitments in respect of the royalties agreement, as set forth in section B(1) above, a second ranking floating charge has been placed in favor of the State.

4. As collateral for the Consolidated Group's commitments, as determined in the Consolidated Group's licenses and in the decisions by the Director and the Council, the Consolidated Group has issued a number of guarantees, as follows:

- a) Bank guarantees to the Ministry of Communications, in respect of the national operator license that was granted to HOT Telecom amounting to 8.4 million Dollars, in force until December 2017 and December 2025.
- b) Guarantees in an amount of NIS 34 million (index-linked) to the Council in respect of the broadcasting license, which are in force until May 2015.

5. HOT has given a number of bank guarantees to various bodies in an overall amount of NIS 32 million.

6. Guarantees for HOT Telecom and HOT Mobile

- a) The Consolidated Group has extended guarantees in a cumulative amount of 22 million Dollars as collateral for payments by HOT Telecom to the Cisco company.
- b) The Consolidated Group has extended a guarantee in an amount of NIS 246 million (index-linked) as collateral for HOT Telecom's commitments vis-à-vis an interested party with which it has signed a rental agreement.
- c) The Consolidated Group has extended a guarantee in an amount of 36 million Dollars as collateral for HOT Mobile's commitments to Bank Crédit Agricole in connection with transactions with suppliers of equipment.
- d) The Consolidated Group has extended a guarantee in an amount of NIS 11 million as collateral for the commitments of HOT Telecom to various bodies.

7. On May 23, 2013, Hot signed on a credit agreement with Bank Discount Le'Israel Ltd., the First International Bank Le'Israel Ltd. and HSBC Bank PLC (hereinafter—the banks and the credit agreement, respectively).

The amounts of the credit are divided into a number of facilities: A working capital facility, which may be exploited by the drawing down of loans in an amount of up to NIS 200 million and a credit facility for guarantees in an amount of up to NIS 105 million.

The collateral that exists under the financing agreement that Hot signed with Altice Financing S.A., which is a related party of Hot, will serve as collateral, together with the creation of new, additional liens on Hot's holdings in subsidiary companies and partnerships, except for HOT Mobile. As of the balance sheet date, Hot has taken up a guarantee in an amount of NIS 84 million from these facilities, however it has not taken up credit for working capital from these facilities.

**33—Contractual obligations and commercial commitments (Continued)****33.2 Cabovisao commitments****33.2.1 Contingent assets**

During the year ended December 31, 2013 and the analysis of the Decree-Law n.º 123/2009 of 21 May, Cabovisao made the decision not to pay any fees charged by municipalities, in addition to TMDP (Fees due for rights and charges related to the deployment of, passage within or crossing of systems, equipment and other resources of providers of publicly available electronic communications networks and services at a fixed location, of a public or private municipal domain). On December 31, 2013, Cabovisao had outstanding claims against several municipalities, totaling EUR 2.6 million. To present date, the Company received EUR 0.4 million from sixteen municipalities, and executed receivable plan of EUR 1.7 million for the next three years.

**33.2.2 Contingent liabilities****a) Bank guarantees**

	<b>December 31, 2013</b>
	<b>In millions of euros</b>
Tax Authority . . . . .	9.6
City Council . . . . .	0.9
Third Parties . . . . .	0.1
<b>Total</b> . . . . .	<u><u>10.6</u></u>

**b) Commitments with third parties to add services to be provided in future years:**

On December 31, 2013, the commitments with third parties to tangible assets and services to be provided in future years with an amount to approximately EUR 2.7 million Euros and EUR 65.7 million respectively.

**c) Real guarantees:**

During the year ended December 31, 2013, considering the refinancing and debt restructuring operations performed by Altice Group, headed by Altice VII S.à r.l., Cabovisao has signed a collateral agreement which involved the pledge of some Cabovisao's bank accounts, as well as a pledge on the Cabovisao's shares (representing 100% of Cabovisao's share capital and respective voting rights).

**d) Other contingent liabilities:**

As a result of the Cabovisao's decision to do not pay any taxes charged by municipalities (since September 2010), the municipality of Almada initiated a litigation process, regarding the municipality taxes charged for the period between 2006 and 2009, in the amount of 595.000 Euros. Until the present date, there are no subsequent deliberations. The Board of Directors understands that the final outcome will be favorable to Cabovisao, based on the legal counsels' opinion.

In addition, there are several legal proceedings, initiated by third parties, in particular claims by several suppliers, related to the supply of services and equipment, in the amount of approximately 174.000 Euros. Until the present date, Cabovisao has not recognized any provision, since it is Board of Directors understanding that the final outcome will be favorable to the company, based on the legal counsels' opinion.

## **Altice S.A.**

### **Consolidated financial statements as of December 31, 2013 (Continued)**

#### **33—Contractual obligations and commercial commitments (Continued)**

##### **33.3 Coditel Holding commitments**

As of December 31, 2013, off balance sheet commitments include:

The shares, bank accounts and receivables of Coditel Brabant S.p.r.l. and Coditel S.à r.l. have been pledged in the framework of the Coditel facility. Coditel Holding is not allowed to pledge these assets as security for other borrowings or to sell them to another entity.

##### **33.4 Altice Six**

Altice Six has an outstanding commitment to buy an additional 10% stake in the Numericable Group S.A. from other major shareholders. This commitment, signed on November 7, 2013, amounted to a total of EUR 317 million for the year ended December 31, 2013. An additional price is due to be paid in the second quarter of 2014, which is based on the evolution of the share price of Numericable Group S.A. between the offering price at IPO and the price on the date of the transaction.; as of March 17, 2014 the additional price amounts to EUR 23.9 million.

##### **33.5 Others**

The shares, bank accounts and receivables of Altice VII and its following subsidiaries Altice Finco S.A., Altice Financing S.A., Altice Holdings S.à r.l., Altice West Europe S.à r.l., Altice Portugal S.A., Altice Carribean S. à r.l., Cool Holdings LTD S.A., H.Hadaros 2012 LTD., Hot Telecommunications System LTD, Cabovisao S.A., Altice Blue Two S.A.S. and its subsidiaries, Coditel Holding S.A., Winreason S.G.P.S and its subsidiaries have been pledged for the issued Senior Secured Notes and the Altice financing term loan. The Company is not allowed to pledge these assets as security for other borrowings or to sell them to another entity.

Altice Financing S.A. has access to two super senior secured revolving credit facilities amounting to a total of USD 80 million and EUR 60 million respectively. In addition to these facilities, it also has access to a guarantee facility of EUR 75 million. As of December 31, 2013 the revolving credit facilities remain undrawn. EUR 8.4 million were drawn down on the guarantee facility, and recorded in the accounts of Cabovisao. All pledges applicable for the senior secured notes and the term loan are also applicable to these facilities.

#### **34—Statutory Auditors' fees**

In 2013, an amount of EUR 3.8 million was paid to various networks affiliates of the Consolidated Group's auditors, split mainly between EUR 1.4 million for audit services, EUR 2.0 million for assurance services and EUR 0.4 million for non-audit services (tax and consultancy).

#### **35—Going concern**

During the year ended December 31, 2013, the company had a net current asset position of EUR 854.2 million (mainly due to current restricted cash of EUR 1,242.7 million), a net profit of EUR 49.6 million (down from a net loss of EUR 180.2 million in FY12), positive cash flow from operations of EUR 438.9 million and negative working capital of EUR 198.4 million. The positive cash flow from operations balance was mainly due to strong earnings growth and EBITDA generation. The net working capital of EUR 198.4 million is mainly driven by trade receivables and payables. The net profit recorded in FY13 was mainly driven by the recognition of a gain on the de-recognition of assets in the accounts of Altice Six related to the public offering of Numericable Group (See note 27). The negative working capital position is structural and follows industry norms. Customers generally pay subscription revenues early or mid-month, with short DSOs (Days of Sales Outstanding) and suppliers are paid in the beginning of the following month, thus generating a negative working capital, as evidenced by the difference in the level of receivables and payables (EUR 194.0 million vs. EUR 392.4 million). Payables due the following month are covered by revenues and operating cash (if needed). As of December 31, 2013, the company had few short term loan payments (< 1y), and long term debt was refinanced in June 2013. Despite the

## **Altice S.A.**

### **Consolidated financial statements as of December 31, 2013 (Continued)**

#### **35—Going concern (Continued)**

net current liability position, Management is of the view that the company will continue to act as a going concern for 12 months from the date of approval of these financial statements based on the following:

The Consolidated Group has a strong track record of generating positive operating income before amortisation and depreciation and generated strong positive operating cash flows in 2013 (EUR 438.9 million). Operating income before D&A amounted to EUR 518.0 million, an increase of 28.5% compared to FY12, thus reaffirming management's ability to drive profits in the different operating companies.

The Consolidated Group had healthy unrestricted cash reserves at the end of 2013 (EUR 61.6 million vs. EUR 129.7 million in 2012), which would allow it to cover any urgent cash needs. Additionally, the Consolidated Group had access to a revolving credit facility ("RCF") of up to USD 80.0 million and EUR 63.8 million (EUR 124 million equivalent), as well as access to a guarantee facility of up to EUR 75 million (of which EUR 8.4 million were drawn in FY2013 in order to unblock restricted cash at Cabovisao).

The Consolidated Group had a net equity position of EUR 95.3 million as of December 31, 2013, a decrease of 66.0% compared to EUR 280.0 million for the year ended December 31, 2012. The decrease in the equity position was mainly driven by accounting adjustments related to losses made on the acquisition of minority interests from non-controlling shareholders recorded at Altice VII. It is management's view that these acquisitions have a strategic founding and will allow the Group to better integrate, absorb and utilize the cash generated by the concerned entities. In addition, Altice Six had enough reserves to absorb such non-cash losses and maintain a positive net equity position.

In addition to the points enumerated above, the Group has implemented a new budgeting exercise, with monthly account reviews with CFOs of operating companies to track budget accuracy. This exercise is complemented by a mid-year reforecast based on real first semester numbers.

Management also tracks operational key performance indicators (KPIs) on a weekly basis, thus closely tracking top line trends very closely. This allows management and local CEOs to ensure proper alignment with budget targets and respond with speed and flexibility to counter any unexpected events and ensure that the budgeted targets are met.

In the view of the initial public offering of the newly formed company Altice S.A., the new direct controlling shareholder of Altice VII Sà r.l., it was decided to convert all existing subordinated debt instruments issued by Altice VII and Altice Six and subscribed by Next L.P., into share capital, before the contribution of Altice VII and Altice Six to Altice S.A. Thus, YPFECs and ALPECs issued by Altice VII, and YPFECs issued by Altice Six were converted into equity at their nominal value, totalling EUR 181.5 million (EUR133.3 million at Altice VII and EUR 48.2 million at Altice Six).

#### **36—Events after the reporting period**

##### ***Acquisition of the Mobius Group***

On October 19, 2013, Altice Blue Two (a subsidiary of Altice VII) entered into an agreement pursuant to which Altice Blue Two will acquire the Mobius Group (the "Mobius Acquisition"). The Mobius Group is a telecommunications operator in the Overseas Territory of La Reunion, providing Internet access to professional clients under the "Mobius Technology" brand and double and triple play services based on xDSL technology to residential customers under the "IZI" brand. The consummation of the Mobius Acquisition occurred on January 15, 2014 and was financed via the super senior revolving credit facility that the company has access to. A total of EUR 20.5 million was drawn from the RCF to finance the acquisition. Pursuant to an investment agreement dated October 19, 2013, certain managers of the Mobius Group (the "Mobius Managers") have agreed to reinvest a portion of the proceeds received from the Mobius Acquisition (approximately EUR 4.6 million) in Altice Blue Two. As a consequence of such reinvestment, the equity interest held by Altice Caribbean in Altice Blue Two would be reduced to approximately 77%. as of the date of this report, an agreement had been reached with the Managers of

**Altice S.A.**  
**Consolidated financial statements as of December 31, 2013 (Continued)**

**36—Events after the reporting period (Continued)**

Altice Blue Two to transfer their minority holdings in Altice Blue Two into shares of Altice S.A. (please see below for more details).

***Conversion of Altice VII and Altice Six subordinated debts***

On January 31, 2014, Next L.P. converted all subordinated debt instruments held against Altice VII S.à.r.l. and Altice Six S.A. before the planned initial public offering of Altice S.A., in exchange for common shares in the newly listed entity. All outstanding YFPECs and ALPECs issued by Altice VII were converted at their nominal value of EUR 133.2 million, which was directly attributed to the net equity of the company. All outstanding YFPECs issued by Altice Six were converted into common shares of Altice Six S.A. at their nominal value of EUR 48.2 million.

***Initial public offering***

On January 31, 2014, Altice S.A. listed its shares in an initial public offering on Euronext Amsterdam. The company raised capital in two steps, first through a primary offering of new shares of the listed company, for EUR 750 million and a secondary offering, consisting of the sale of shares held by Next L.P. in Altice S.A., for a total amount of EUR 555 million. The shares were traded at opening at an offer price of EUR 28.25. Additionally, an over-allotment option, for the maximum authorised amount (upto 15% of the total shares offered), was exercised by Altice S.A. Following the IPO, 25.6% of the share capital of the company is publicly traded, with the rest held by Next L.P. and certain Managers. The shares are traded on Euronext Amsterdam with the ticker ATC:NA.

***Change in minority interests of Altice Blue Two***

In January 2014, the Company entered into discussion with the management of Outremer Telecom (“OMT Managers”), holders of a 23% stake in Altice Blue Two, the holding company controlling Outremer Telecom, WSG and MTVC, to exchange their existing shares in Altice Blue Two S.A.S against shares in the newly floated mother company of Altice VII, Altice S.A.

As per the agreement, which was completed and signed on March 13, 2014, the OMT Managers contributed all their shares held in Altice Blue Two and OMT Ocean 3 (an investment vehicle held by certain members of OMT’s senior management), for a base value of EUR 55.1 million and two separate earn out clauses that would become applicable only upon the achievement of certain operational and financial targets and the settlement of certain lawsuits.

***Acquisition of the Tricom Group***

On March 12, 2014 the Group obtained control of Tricom S.A. and Global Interlink Ltd. (together, “Tricom”), a leading telecommunications operator in the Dominican Republic, providing (i) cable and xDSL-based multiple-play services and stand-alone pay television, broadband Internet and fixed-line telephony services and (ii) 3G and 4G mobile telephony services relying on its mobile network. This acquisition enables the Group to expand its footprint in the Carribean and more especially in the Dominican Republic. Control was obtained upon approval from Indotel, the Dominican Republic antitrust authority. As of the date of the transfer of the shares, the Group acquired 96% of the total equity in Tricom S.A. and 92% of the outstanding interests in Global Interlinks.

For the year ended December 31, 2013, Tricom would have contributed EUR 158.3 million to revenue and EUR 19.9 million to operating profit to the Group’s results, if it had been purchased on January 1, 2013 (these figures are based on unaudited US GAAP figures).

The following summarises certain of the major classes of consideration transferred and the provisionally determined amounts of identifiable assets and liabilities assumed at the acquisition date:

Total consideration paid to the vendors for the shares of Tricom amounted to €291.3 million, using the proceeds raised in December 2013.

## **Altice S.A.**

### **Consolidated financial statements as of December 31, 2013 (Continued)**

#### **36—Events after the reporting period (Continued)**

The total value of assets transferred in consideration for the values mentioned above amounted to EUR 145.7 million, comprising mainly of intangible assets for a net value of EUR 21.0 million, property, plant and equipment for a total value of EUR 133.8 million and trade receivables for a total amount of EUR 16.5 million. Total liabilities amounted to €97.9 million, comprising of EUR 45.1 of non-current liabilities and EUR 52.8 million of current liabilities. The residual value of EUR 145.6 million was recognised provisionally as goodwill (these figures are based on unaudited US GAAP figures).

The values of the assets and liabilities assumed have been determined on a provisional basis until the Group finalizes its assessment of the fair valuation of the identifiable assets and liabilities assumed and shall complete this exercise within twelve months from the acquisition date.

Goodwill has been recognised as a result of the acquisition as follows:

Total consideration transferred . . . . .	EUR 291.3 million
Fair value of identifiable assets and liabilities . . . . .	EUR (145.7) million
Goodwill . . . . .	EUR 145.6 million

#### ***Acquisition of additional shares in Numericable***

On November 18, 2013, Altice Six entered into an agreement with other major shareholders in the Numericable group to purchase an additional 10% stake, thus increasing its shareholding to 40% (inclusive of the 2.6% option provided to other shareholders and described elsewhere in this report). This acquisition triggered a change in control of the Numericable Group. The transaction was consummated on February 4, 2014, with the primary proceeds from Altice S.A.'s IPO and thus Altice S.A. became the controlling shareholder of Numericable S.A.

#### ***Stock Options provided to Senior Management and Executive Directors***

Senior management and Executive Directors of the Company are eligible to participate in the Stock Option Plan ("SOP") at the discretion of the Remuneration Committee.

Members of the management team (including the Executive Directors) will be granted options on Admission to acquire Shares at the Offer Price. These options will vest and become exercisable in tranches of 50%, 25% and 25% respectively, on the second, third and fourth anniversary of Admission, for a period of seven years (or if earlier, ten years from the initial grant) after which time they will lapse. It is intended that no further options will be granted to participants who were granted options on Admission until the last tranche of the initial options have vested, however options may be granted to new members of the management team.

Options with an aggregate value of up to €250 million will be granted on Admission with an exercise price equal to the Offer Price and further options with an aggregate value of up to €100 million will be made available for new hires. Therefore, up to 6.9% of the Company's issued share capital will be allocated to satisfy these option grants.

Clawback and malus will apply to options granted under the SOP, such that options may be adjusted or reduced (even to nil) prior to exercise, and any exercised options reimbursed to the Company, in circumstances in which the Remuneration Committee considers appropriate, including material misstatement of financial results, failure of risk management, reputational damage, fraud or negligence.

Participants who leave the Group by reason of death, injury, ill-health or, for any other reason, if the Remuneration Committee so determines, will retain any vested options. Unvested options will vest on cessation, but will be pro-rated for time (unless the Remuneration Committee determines otherwise). Participants who leave the Group for any other reason will forfeit any outstanding unexercised options, unless the Remuneration Committee determines otherwise. Unvested options will normally vest in full on a change of control of the Company.

**Altice S.A.**

**Consolidated financial statements as of December 31, 2013 (Continued)**

**36—Events after the reporting period (Continued)**

***Contribution in kind by Valemi Corp S.A.***

On October 4, 2013, Altice VII S.à r.l., a direct subsidiary of Altice S.A., acquired a controlling stake in two content companies, MCS S.A.S and SportV S.à r.l. from Altice IV and Valemi Corp S.A. This transaction gave rise to a vendor loan, held by Valemi Corp. S.A. against Altice VII S.à r.l. As part of the pre-IPO restructuring, Altice S.A. and Valemi Corp reached an agreement under which Valemi contributed to the Company a vendor loan payable by Altice VII against the issue of Ordinary Shares. The total amount of the vendor loan held by Valemi was EUR 6.7 million at the time of admission.

***Acquisition of SFR***

On March 14, 2014, Altice S.A. and Vivendi S.A, the sole shareholder of SFR, France's second largest mobile operator, entered into exclusive talks to negotiate a potential business combination between Numericable and SFR.

To the Board of Directors of  
Altice S.A.  
3, boulevard Royal  
L-2449 Luxembourg

## **REPORT OF THE REVISEUR D'ENTREPRISES AGREE**

We have audited the accompanying combined financial statements of Altice S.A. (the "Company"); the successor entity of Altice Six S.A. and Altice VII S.à r.l. (collectively the "Combined Group") in the context of the contemplated initial public offering of the shares of the Company, which comprise the combined statements of financial position as at December 31, 2012, 2011 and 2010, the combined statements of income, comprehensive income, changes in equity and cash flows for each of the three years then ended, and a summary of significant accounting policies and other explanatory information (collectively the "Combined Financial Statements"). The Combined Financial Statements have been prepared by the Board of Directors in accordance with the basis of preparation as described in the note 1 thereto, for the purposes of meeting the requirements of EU Regulation (EC) 809/2004 that relate to the inclusion of historical financial information within a prospectus.

### *Responsibility of the Board of Directors for the Combined Financial Statements*

The Board of Directors is responsible for the preparation and fair presentation of the Combined Financial Statements in accordance with International Financial Reporting Standards as adopted by the European Union, and for such internal control the Board of Directors determines is necessary to enable the preparation of Combined Financial Statements that are free from material misstatement, whether due to fraud or error.

### *Responsibility of the réviseur d'entreprises agréé*

Our responsibility is to express an opinion on the Combined Financial Statements based on our audit. We conducted our audit in accordance with International Standards on Auditing as adopted for Luxembourg by the *Commission de Surveillance du Secteur Financier*. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the Combined Financial Statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Combined Financial Statements. The procedures selected depend on the *réviseur d'entreprises agréé*'s judgment including the assessment of the risks of material misstatement of the Combined Financial Statements, whether due to fraud or error. In making those risk assessments, the *réviseur d'entreprises agréé* considers internal control relevant to the entity's preparation and fair presentation of the Combined Financial Statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Directors, as well as evaluating the overall presentation of the Combined Financial Statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### *Opinion*

In our opinion, the Combined Financial Statements give a true and fair view of the combined financial position of the Combined Group as of December 31, 2012, 2011 and 2010, and of its combined financial performance and combined cash flows for each of the three years then ended in accordance with International Financial Reporting Standards as adopted by the European Union.

### *Basis of accounting*

Without modifying our opinion, we draw attention to the disclosures in note 1 to the Combined Financial Statements, which describes the basis of preparation utilized in preparing the Condensed Combined Financial Statements. The Combined Financial Statements are prepared for the purposes of meeting the requirements of EU Regulation (EC) 809/2004 that relate to the inclusion of historical financial information within a prospectus, and may not be suitable for any other purpose. We also draw attention

to note 1 to the Combined Financial Statements which provides a description of the accounting method utilized for the purposes of combining the individual elements of the Combined Group; these being under common control; in the absence of specific guidance within International Financial Reporting Standards as adopted in the European Union.

For Deloitte Audit, *Cabinet de révision agréé*

John Psaila, *Réviseur d'entreprises agréé*  
Partner

**Altice Group**  
**Notes to the combined financial statements**

**1—Basis of preparation of the combined financial statements**

**1.1 Presentation of the Two Groups forming Altice Group**

**Altice S.A.**

Altice S.A. (the “Company”) is a limited company incorporated in the Grand Duchy of Luxembourg whose head office is in Luxemburg and has been formed on January 3, 2014. Upon admission of the Company’s shares on Euronext Amsterdam, the Company shall receive the contribution of two entities incorporated in the Grand Duchy of Luxembourg: Altice Six S.A. and Altice VII S.à r.l.. Altice Six S.A. and its subsidiaries are hereafter referred to as “Altice Six” and Altice VII S.à r.l. and its subsidiaries are hereafter referred to as “Altice VII” or “Altice VII Group”. The Company shall hence become the successor entity of Altice Six and Altice VII (collectively the “Predecessor Entities”).

**Altice Six**

As at approval date, Altice Six holds shares in Numericable Group, a French group listed on Euronext Paris. Numericable Group is a French cable television service provider. Its core products are premium digital television packages, which are available to households in areas that are triple-play enabled. They also provide French consumers with broadband Internet, fixed telephony, and mobile telecommunications services.

Additionally to the Business To Consumer (“B2C”) described above and through its main operational entity, Completel S.A.S., Numericable Group operates the largest alternative fiber-to-the-office (“FTTO”), network in France, constituting the third alternative Digital Subscriber Line (“DSL”) network in France. Completel SAS provides business customers with a comprehensive service offering, which includes data transmission, very high speed Internet, telecommunications services, convergence and mobility solutions, through fiber and DSL networks.

**Altice VII**

Altice VII offers a variety of services over its cable and mobile infrastructure, including, but not limited to, pay television, broadband Internet access, fixed-line telephony and mobile telephony to residential customers, and, to a lesser extent, corporate customers, depending on the country. Available cable-based service offerings depend on the bandwidth capacity of its cable networks and whether they have been upgraded for two-way communications. Where possible, Altice VII Group intends to deploy the same technologies and equipment across its footprints to generate economies of scale and common knowledge. In addition, the Altice VII group companies aim at sharing skills and best practices across the various operations of Altice VII Group.

Television service offerings include basic and premium programming, and, in most markets, incremental product and service offerings such as enhanced pay-per-view programming, including video-on-demand (“VoD”) and near-video-on-demand (“NVoD”), digital video recorders (“DVR”), high definition (“HD”) television services and, in certain areas, exclusive content, purchased or produced. The Group tailors its basic and premium channel line-up to each country of operation according to culture, demographics, programming preferences and local regulation. The Altice VII Group also offers broadband Internet access services and fixed-line telephony in all its footprints. It also owns and operates mobile infrastructures in certain geographies (French Overseas Territories) and offers mobile services through an MVNO (Mobile Virtual Network Operator) arrangement in Belgium.

**1.2 Description of the context**

Altice Six and Altice VII (collectively the “**Two Groups**” or the “**Combined Group**”) are currently entities under common control. The Two Groups are ultimately controlled by Patrick Drahi. The purpose of the combined financial statements is to present a fair depiction of the financial condition, and the assets and liabilities of the Two Groups, using historical bases in the assets, liabilities and results of operations and cash flows for each period presented in the combined financial statements.

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**1—Basis of preparation of the combined financial statements (Continued)**

Accordingly, the combined financial statements reflect the historical assets, liabilities, revenues, expenses and cash flows that were directly related to the sub-groups, Altice Six and Altice VII, which are separate legal groups at December 31, 2012, 2011 and 2010.

The combined financial statements have been prepared for the three-year period ended December 31, 2012, 2011 and 2010 (collectively the “Combined Financial Statements”) in conjunction with the contemplated initial public offering of the shares of Altice S.A. (the “**Offering**”). It is expected that Altice S.A. will acquire 100% of the share capital of Altice VII and Altice Six (the “**Combination**”) in order to reflect the combination of the Two Groups.

**1.3 Statement of compliance**

The combined financial statements of Altice Group include a combined statement of financial position as of December 31, 2012, 2011 and 2010, a combined statement of income, a combined statement of comprehensive income, a combined statement of cash flows and a combined statement of changes in equity for each of the three years in the period ended December 31, 2012 and the underlying Notes. The combined financial statements have been prepared in compliance with International Financial Reporting Standards (“**IFRS**”) as published by the International Accounting Standards Board (“**IASB**”) and as adopted by the European Union at December 31, 2012.

**1.4 Basis of presentation of the Combined Financial Statements**

**1.4.1 IFRS financial statements**

For the purpose of preparing the Combined Financial Statements, accounting principles effective as of December 31, 2012 have been applied to all years presented in these Combined Financial Statements. Altice Six prepares financial statements in accordance with the accounting rules and principles generally accepted in Luxembourg (“**Luxembourg GAAP**”), in application of the Law of December 19, 2012, as amended.

Altice VII prepares consolidated financial statements in accordance with the International Financial Reporting Standards as adopted in the European Union.

In preparing the Combined Financial Statements, Altice Six prepared financial statements in accordance with Luxembourg GAAP and converted them to IFRS which resulted in the following adjustments:

- Equity accounting of its investments in Altice B2B Luxembourg S.à r.l., Altice B2B Lux. Holding S.à r.l., Ypso Holding S.à r.l., in accordance with IAS 28 *Investments in Associates*;
- Under IFRS, transactions that are not carried at a market rate should be discounted over the life of the financial instruments and carried at amortized cost (as opposed to the cost less impairment under Luxembourg GAAP);
- Certain non-recurring income and expenses have been reclassified to EBITDA and/or financial income in the combined statements of income under IFRS.

**1.4.2 Subsequent events**

The Combined Financial Statements of Altice Group were prepared under the responsibility of the Board of Directors of Altice S.A. and approved by the Board of Directors of Altice S.A. on January 6, 2014. The preparation of the Combined Financial Statements is consistent with estimates reflected in the financial statements of Altice Six and Altice VII as of December 31, 2012, which were respectively authorized for issue on October 17, 2013 and November 12, 2013 by respectively the Board of Directors and Board of Managers. With the exception of the adjustments made in connection with the conversion of the financial statements of Altice Six from Luxembourg GAAP to IFRS, no adjustment has been reflected in the Combined Financial Statements for any subsequent events since November 12, 2013 to reflect exactly the position that was presented in the financial statements of Altice Six and Altice VII for which the Combined Financial Statements are being prepared as disclosed hereafter with the exception of the

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**1—Basis of preparation of the combined financial statements (Continued)**

adjustments made in connection with the conversion in IFRS of the Financial Statements of Altice Six prepared initially in accordance with Luxembourg GAAP.

**1.4.3 Basis of combination**

The Combined Financial Statements were prepared using the accounting records that were used to prepare the financial statements of the Altice Six and Altice VII sub-groups for the year ended December 31, 2012, 2011 and 2010.

All intra-group balances and transactions have been eliminated in preparing the Combined Financial Statements, including the transactions between Altice Six and Altice VII and their respective subsidiaries.

As described above, the Combination of the Two Groups is considered a combination of entities under common control of Patrick Drahi and the Combined Financial Statements reflects the combination of Altice Six and Altice VII using the following methods and principles:

- In accordance with IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors* paragraph 10, judgment has been applied in developing and applying an accounting policy that results in information that is relevant and reflect the economic substance of the transaction. As a result, the acquisition method, as defined in IFRS 3 *Business Combinations (Revised 2008)* (“IFRS 3”), has not been applied to reflect the combination of the Two Groups. In the absence of specific guidance under IFRS for transactions between entities under common control, we considered and applied standards on business combination and transactions between entities under common control issued by the regulators in the United States (Accounting Standards Codification Topic 810-10-45-10 and Topic 810-10-55-1B *Consolidation* and SEC Regulation S-X Article 3A—*Consolidated and Combined Financial Statements*) and in the United Kingdom (FRS 6 *Acquisitions and mergers*) to prepare the Combined Financial Statements.
- Likewise, the Combined Financial Statements were prepared by aggregating the separate financial statements of Altice Six and Altice VII at their historical book value:
  - Assets, liabilities, income and expenses of the Two Groups have been extracted from the accounting records of the respective Altice Six and Altice VII sub-groups and fully aggregated at their historical book value without being revalued;
  - The combined equity has been determined by aggregating the consolidated equity of the subgroups Altice Six and Altice VII;
  - No goodwill has been recognized and the net assets and liabilities have been recognized at their historical book value; however, historical goodwill balances of the Two Groups existing before the combination have been maintained at their book value in the Combined Financial Statements;
  - The effects of transactions between the Two Groups on assets, liabilities, revenue, and expenses for periods presented have been eliminated except for the operations that relate to associates which are not eliminated.

**2—Significant accounting policies**

**2.1 Accounting principles governing the preparation of the Combined Financial Statements**

**2.1.1 Standards and interpretations applied by the Combined Group as of December 31, 2012**

With the exception of the principles used for the combination, as disclosed in Note 1, the accounting policies for recognition and measurement used in preparing the Combined Financial Statements at December 31, 2012 are the same as those used in the previous consolidated financial statements of

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**2—Significant accounting policies (Continued)**

Altice VII under IFRS. Adjustments have been recognized to convert the consolidated financial statements of Altice Six (prepared under Luxembourg GAAP) to IFRS (see Note 1.4).

As mentioned in Note 1, the Combined Financial Statements have been prepared in accordance with International Financial Reporting Standards (“**IFRS**”) as adopted in the European Union (“**EU**”) with mandatory application as of December 31, 2012. The recognition and measurement principles of International Financial Reporting Standards as adopted by the European Union have been applied in preparing the Combined Financial Statements.

**2.1.2 Standards issued but not yet effective**

In its combined financial statements, the Combined Group has not anticipated the following standards and interpretations, for which application is not mandatory for periods opened from January 1, 2011. Their impact on the Combined Group’s financial statements is estimated not to be significant and/or not applicable. This essentially relates to:

- IFRIC 20 “Overdraft expenses”.
- IFRS 1 amended “First application of IFRS” concerning serious hyperinflation and the abolition of dates set for the first adopters, published by the IASB on December 20, 2010 and adopted by the European Union on December 29, 2012. Application of this standard is obligatory from January 1, 2013.
- IAS 19 “Revised Employee Benefits”.

The combined financial statements have been prepared on the historical cost basis, except for the liability in respect of share based payment transaction, derivatives and financial instruments at fair value through profit and loss and available for sale financial assets. The principal accounting policies are set out below.

**2.2 Functional currency**

The combined financial statements are presented in millions of euros. Euro is the functional of Altice Six and Altice VII and the presentation currency of the Two Groups.

The functional currency, which is the currency that best reflects the economic environment in which the Group operates and conducts its transactions, is separately determined for each Group entity, including an associate accounted for using the equity method, and is used to measure its financial position and operating results.

**2.3 Foreign currency translation**

The presentation currency of Altice is euro. In individual companies, transactions in foreign currencies are recorded at the exchange rate at the date of the transaction. Monetary assets and liabilities in foreign currencies are translated at year-end rates. Any resulting exchange differences are accounted for in the income statement. On consolidation, assets and liabilities of the Two Groups’ entities reported in their functional currencies are translated into euro, the Two Groups’ presentation currency, using the year-end exchange rates. Income and expense items are translated into euro at the annual weighted average exchange rate or at the rate of the date the transaction occurred for significant items.

Differences arising from the translation of opening net assets of the Two Groups entities, together with differences arising from the restatement of the net results for the year of the Two Groups entities, are recognized in other comprehensive income.

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**2—Significant accounting policies (Continued)**

**2.4 Subsidiaries and associates**

**2.4.1 Subsidiaries**

All companies in which the Group has a controlling interest are fully consolidated. Control exists when the Group has the power, directly or indirectly, to govern the financial and operating policies of an enterprise so as to obtain benefits from its activities. The financial statements of subsidiaries are included in the combined financial statements from the date that control commences until the date that control ceases.

All intra-group transactions, balances, income and expenses are eliminated in full on consolidation. Non-controlling interests in subsidiaries are identified separately from the Group's equity therein.

**2.4.2 Associates**

Investments, over which the Group exercises significant influence, but not control, are accounted for under the equity method. Such investees are referred to as "associates" throughout these combined financial statements.

Significant influence is presumed to exist when the Group holds at least 20% of the voting power in the associates. Associates are initially recognized at cost at acquisition date. The Combined Financial Statements include the Group's share of income and expenses, from the date significant influence commences until the date that significant influence ceases.

As per the provisions of IAS 28 *Investment in associates* the interest income and expenses recorded in the consolidated financial statements of Altice Six on loans with associates have not been eliminated in the combined statements of income and therefore are still recorded in the combined financial statements.

**2.5 Operating profit before depreciation and amortization**

The Combined Group has included the subtotal "Operating profit before depreciation and amortization" on the face of the combined statements of income. The Combined Group believes that this subtotal is useful to users of the Combined Group's financial statements as it provides them with a measure of the operating results which excludes non-cash elements such as depreciation and amortization as well as non-recurring transactions and management fees, enhancing the predictive value of the Combined Group's financial statements and providing information regarding the results of the Combined Group's ongoing trading activities and cash-flow generation that allows investors to better identify trends in the Combined Group's financial performance.

This non-IFRS measure is used by the Group internally to manage and assess the results of its operations, make decisions with respect to investments and allocation of resources, and assess the performance of management personnel.

The Combined Group's subtotal within operating income may not be comparable to similarly titled measures used by other entities. Further, this measure should not be considered as an alternative for operating income as the effects of depreciation, amortization and impairment, excluded from this measure do ultimately affect the operating results, which is also presented within the combined financial statements in accordance with IFRS 1.

**2.6 Revenue recognition**

Revenue from the Combined Group's activities is mainly composed of television, broadband Internet, fixed and mobile telephony subscription and installations fees invoiced to residential and business clients.

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**2—Significant accounting policies (Continued)**

Revenue comprises the fair value of the consideration received or receivable for the sale of goods and services in the ordinary course of the Combined Group's activities. Revenue is shown net of value-added tax, returns, rebates and discounts and after eliminating intercompany sales within the group.

Revenues on bundle packages sold by the Combined Group are split into and recognised under each individual service sold in the bundle. For example, tripe play package revenues are booked under 'triple play television', 'triple play data' and 'triple play telephony' on a straight-line basis over their subscription period and revenues from telephone calls are recognized in revenue when the service is rendered.

Revenue is recognized as follows, in accordance with IAS 18 *Revenue*:

- Revenues from subscriptions for basic cable services, digital television pay, Internet and telephony are recognized in revenue on a straight-line basis over the subscription period; revenues from telephone calls are recognized in revenue when the service is rendered;
- When a promotion not related to a customer's past consumption and purchases (such as subscription's rate discount, service free period) is offered to customer in relation to a subscription, the Group recognizes the total amount of billable revenue on a straight-line basis over the term of the contract;
- Installation and set-up fees (including connection) for residential customers are accounted for as revenues when the service is rendered, if consideration received is lower than the sales direct costs to acquire the contractual relationship. Service access fees for business clients, when they are only allowed access to the services that are sold associated to an equipment or a service, are deferred and the corresponding revenue is recognized along the statistical client lifetime duration and generally spread over the contractual engagement period; and
- The revenue related to transmission capacity on terrestrial cables under indefeasible rights of use: Indefeasible Rights of Use ("IRU") arrangements are recognized on a straight-line basis over the life of the contract.

**2.7 Finance costs**

Finance costs primarily comprise:

- Interest charges and other expenses paid for financing operations recognized at amortized costs;
- Changes in the fair value of interest rate derivative instruments that do not qualify as hedges for accounting purposes according to "IAS 39";
- Interest income relating to cash and cash equivalents; and
- Gains/losses on extinguishment of debt.

**2.8 Income taxes**

Taxes on income in the income statement include current taxes and deferred taxes. The tax expenses or income in respect of current taxes or deferred taxes are recognized in profit or loss unless they relate to items that are recorded directly in equity, in these cases the tax effect is reflected under the relevant equity item.

**2.8.1 Current taxes**

The current tax liability is measured using the tax rates and tax laws that have been enacted or substantively enacted by the end of reporting period as well as adjustments required in connection with the tax liability in respect of previous years.

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**2—Significant accounting policies (Continued)**

**2.8.2 Deferred taxes**

Differences existing at closing between the tax base value of assets and liabilities and their carrying value in the Combined Statement of Financial Position give rise to temporary differences. Pursuant to the liability method, these temporary differences result in the accounting of:

- Deferred tax assets, when the tax base value is greater than the carrying value (expected future tax saving),
- Deferred tax liabilities, when the tax base value is lower than the carrying value (expected future tax expense).

Deferred tax assets and liabilities are measured at the expected tax rates for the year during which the asset will be realized or the liability settled, based on tax rates (and tax regulations) enacted or substantially enacted by the closing date. They are reviewed at the end of each year, in line with any changes in applicable tax rates.

Deferred tax assets are recognized for all deductible temporary differences, tax loss carry-forwards and unused tax credits, insofar as it is probable that a taxable profit will be available, or when a current tax liability exists to make use of those deductible temporary differences, tax loss carry-forwards and unused tax credits, except where the deferred tax asset associated with the deductible temporary difference is generated by initial recognition of an asset or liability in a transaction which is not a business combination, and that, at the transaction date, does not impact earnings, nor income tax profit or loss.

For deductible temporary differences arising from investments in subsidiaries, joint ventures and other associated entities, deferred tax assets are recorded to the extent that it is probable that the temporary difference will reverse in the foreseeable future and that a taxable profit will be available against which the temporary difference can be utilized.

The carrying value of deferred tax assets is reviewed at each closing date, and revalued or reduced to the extent that it is more or less probable that a taxable profit will be available to allow the deferred tax asset to be utilized. When assessing the probability of a taxable profit being available, account is taken, primarily, of prior years' results, forecasted future results, non-recurring items unlikely to occur in the future and the tax strategy. As such, the assessment of the group's ability to utilize tax losses carried forward is to a large extent judgment-based. If the future taxable results of the group proved to differ significantly from those expected, the group would be required to increase or decrease the carrying value of deferred tax assets with a potentially material impact on the Combined Statement of Financial Position and Combined Income Statement of the Combined Group.

Deferred tax liabilities are recognized for all taxable temporary differences, except where the deferred tax liability results from goodwill or initial recognition of an asset or liability in a transaction which is not a business combination, and that, at the transaction date, does not impact earnings, nor income tax profit or loss.

For taxable temporary differences arising from investments in subsidiaries, joint ventures and other associated entities, deferred tax liabilities are recorded except to the extent that both of the following conditions are satisfied: the parent, investor or venturer is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not be reversed in the foreseeable future.

Current tax and deferred tax shall be charged or credited directly to other comprehensive income, and not earnings, if the tax relates to items that are credited or charged directly to other comprehensive income.

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**2—Significant accounting policies (Continued)**

**2.9 Goodwill and business combinations**

Business combinations are accounted for in accordance with the purchase method. The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under IFRS 3 "Business combinations" are recognized at their fair value at acquisition date.

The Group recognizes goodwill as of the acquisition date and is measured as the excess of (a) over (b) as follows:

a) *The aggregate of:*

- The consideration transferred, which generally requires acquisition-date fair value;
- The amount of any non-controlling interests in the acquiree measured;
- In a business combination achieved in stages, the acquisition-date fair value of the acquirer's previously held equity interest in the acquiree.

b) The net of the acquisition-date balances of the identifiable assets acquired and the liabilities measured in accordance with IFRS 3.

Any excess of the cost of acquisition over the Combined Group's share in the fair value of all identified assets and liabilities is recognized as goodwill.

The goodwill is determined provisionally by the end of the period. The Combined Group recognizes any adjustments to those provisional values within twelve months after the acquisition date.

During the measurement period, the acquirer shall recognize adjustments to the provisional amounts as if the accounting for the business combination had been completed at the acquisition date. Thus, the acquirer shall revise comparative information for prior periods presented in financial statements as needed, including making any change in depreciation, amortization or other income effects recognized in completing the initial accounting.

If the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed exceeds the purchase price, a gain is recognized immediately.

Subsequently, goodwill is measured at its initial amount less recorded accumulated impairment losses. Impairment loss for goodwill is recorded in the income statement as a deduction from operating income (account "Depreciation and amortization") and is never reversed subsequently.

Changes in the Combined Group's ownership interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to owners of the Combined Group.

**2.10 Other intangible assets**

Intangible assets acquired separately are recorded at cost on initial recognition, with the addition of direct acquisition costs. Intangible assets acquired in a business combination are measured at fair value as of the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and less any accumulated impairment losses. In our Israeli entity, the costs of producing in-house content is also considered to be an intangible assets and recognized at the cost of production of the shows. Following initial recognition, these intangible assets are carried at cost less any accumulated amortization and less any accumulated impairment losses.

According to Management, intangible assets have either definite or indefinite useful lives.

Assets with definite useful lives are amortized over their useful lives and assessed for impairment signs which would indicate impairment in value. The amortization period and the amortization method for an

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**2—Significant accounting policies (Continued)**

intangible asset with a finite useful life are reviewed at least once a year. Changes in the expected useful life or the expected pattern of consumption of future economic benefits that are expected to derive from the asset are treated as a change in an accounting estimate which is treated prospectively. The amortization expenses regarding intangible assets with finite useful lives are recognized in the income statement.

The useful lives of the intangible assets are as follows:

	<u>Duration</u>
Software . . . . .	3 years
Customer relations . . . . .	7 to 37 years
Licences . . . . .	5 years
Customer relations with a defined contractual term . .	3 years
Subscriber purchase costs . . . . .	based on average duration of subscriptions

Assets with indefinite useful lives are tested for impairment annually as well as where there is an indication that it may be impaired by comparing their carrying amount with their recoverable amount.

**2.11 Impairment of tangible and intangible assets**

Each time events or changes in the economic environment indicate a current risk of impairment of goodwill, other intangible assets, property, plant and equipment and assets in progress, the Combined Group re-examines the value of these assets. In addition, goodwill, other intangible assets with an indefinite useful life, and intangible assets in progress are all subject to an impairment test performed annually.

This test is performed in order to compare the recoverable amount of an asset to its carrying amount.

An asset's recoverable amount is the higher of an asset's fair value less costs to sell and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. In that case, recoverable amount is determined for the cash-generating unit to which the asset belongs. A Cash Generating Unit ("CGU") is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets.

The value in use of each asset or group of assets is determined as the discounted value of future cash flows (discounted cash flow method or "DCF") by using a discount rate after tax specific to each asset or group of assets concerned.

The fair value less costs to sell is the amount obtained from the sale of the asset or group of assets in an arm's length transaction between knowledgeable and willing parties, less costs to sell.

When the carrying amount of an asset exceeds its recoverable amount, an impairment loss is recognized in the caption "Depreciation and amortization" in the income statement. Only impairment loss recognized on assets other than goodwill such as depreciable intangible assets, intangible assets with indefinite useful life and property, plant and equipment, may be reversed.

**2.12 Property, plant and equipment**

Property, plant and equipment are presented at cost with the addition of direct purchase costs less accumulated depreciation and accumulated losses on impairment and they do not include routine maintenance expenses. The cost includes spare parts and ancillary equipment that can only be used in connection with the plant and machinery.

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**2—Significant accounting policies (Continued)**

Depreciation is calculated using the straight line method over the estimated useful lives of the assets, as follows:

	<u>Duration</u>
Buildings . . . . .	25 to 50 years
Cables Network . . . . .	4 to 20 years
Call center (primarily electronic equipment) . . . . .	5 to 9 years
Converters and modems . . . . .	7 years
Computers and ancillary equipment . . . . .	3 to 6 years
Office furniture and equipment . . . . .	6 to 16 years
Communication network infrastructure . . . . .	6 to 16 years
Leasehold contracts . . . . .	see below

Leasehold contracts are depreciated according to the straight line method during the rental period (including the option period for an extension by the Combined Group, which it intends to exercise) or the estimated useful lifetime of the improvement.

Elements of a fixed asset item, having a cost that is significant in comparison to the overall cost of the item, are depreciated separately, using the components method. The depreciation is calculated in accordance with the straight line method at annual rates that are considered to be sufficient in order to depreciate the assets over the length of their estimated useful lives.

The useful life, depreciation method and residual value of an asset are reviewed at least annually and any changes are accounted for prospectively as a change in accounting estimate.

**2.13 Leasing**

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

**2.13.1 The Combined Group as lessor**

Amounts due from lessees under finance leases are recognized as receivables at the amount of the Combined Group's net investment in the leases. Finance lease income is allocated in an accounting periods so as to reflect a constant periodic rate of return on the Combined Group's net investment outstanding in respect of the leases.

Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized on a straight-line basis over the lease term.

Rental income from the leasing of customer premises equipment (set top boxes, modems and decoders) is recognized on a straight-line basis over the term of the subscription held by the client. At the end of the contract or in case of voluntary contract termination by the client, this equipment is repossessed and thus remains in the inventory of the Combined Group.

**2.13.2 The Combined Group as lessee**

Assets held under finance leases are initially recognized as assets of the Combined Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the combined statement of financial position as a finance lease obligation.

Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognized immediately in profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Group's general policy on borrowing costs (see

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**2—Significant accounting policies (Continued)**

note 2.11 below). Contingent rentals are recognized as expenses in the periods in which they are incurred.

Operating lease payments are recognized as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognized as an expense in the period in which they are incurred.

In the event that lease incentives are received to enter into operating leases, such incentives are recognized as a liability. The aggregate benefit of incentives is recognized as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

**2.14 Borrowing costs**

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of that asset. According to management, it does not take a substantial period of time to get ready for the intended use because of the incremental deployment of the network. This standard has consequently no impact on the combined financial statements.

**2.15 Government grants**

Government grants are not recognized until there is reasonable assurance that the Combined Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognized in profit or loss on a systematic basis over the periods in which the Combined Group recognizes as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Combined Group should purchase, construct or otherwise acquire non-current assets are recognized as deferred revenue in the combined statement of financial position and transferred to the income statement on a systematic and rational basis over the useful lives of the related assets.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Combined Group with no future related costs are recognized in profit or loss in the period in which they become receivable.

The benefit of a government loan at a below-market rate of interest is treated as a government grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates.

**2.16 Financial assets**

The Combined Group classifies financial assets in four categories: available-for-sale, loans and receivables, held-to-maturity and financial assets at fair value through profit and loss. They are classified as current assets and non-current assets according to IAS 1 “Presentation of financial statements”.

Purchases and sales of all financial assets are recognized on a trade date basis.

**2.16.1 Available-for-sale financial assets**

Available-for-sale financial assets are recognized initially at fair value plus transaction costs that are directly attributable to the acquisition or issue of the financial asset. After initial recognition, they are reported at their fair value. Gains and losses arising from changes in their fair value are recognized directly in equity, until the security is disposed of or is determined to be impaired, at which time the cumulative gain or loss previously recognized in equity is included in the profit or loss for the period.

Available-for-sale financial assets consist mainly of shares in non-consolidated companies. Fair value corresponds to quote price for listed securities. For non-listed securities, and when a reliable estimate of

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**2—Significant accounting policies (Continued)**

fair value cannot be made using valuation techniques, the group values financial assets at historical cost, less any impairment losses.

When there is objective evidence that available-for-sale assets are impaired, the cumulative impairment loss included in equity is reclassified from other comprehensive income to income. Objective evidence that an available-for-sale financial asset is impaired includes, among other things, a decrease in the estimated future cash flows arising from these assets, as a result of significant financial difficulty of the issuer, a material decrease in expected future profitability or a prolonged decrease in the fair value of the security. Impairment losses recognized in profit or loss for equity instruments classified as available-for-sale are never reversed through profit or loss.

**2.16.2 Loans and receivables**

Loans and receivables are recognized initially at fair value plus transaction costs that are directly attributable to the acquisition. After initial recognition, they are measured at amortized cost using the effective interest rate method.

This category mainly includes trade receivables.

If there is objective evidence that an impairment loss has occurred, the amount of this loss, measured as the difference between the financial assets' carrying value and its recoverable amount is recognized in the income statement. Impairment losses may be reversed if the recoverable amount of the asset subsequently increases in the future.

**2.16.3 Held-to-maturity financial assets**

Held-to-maturity financial assets are financial assets with fixed or determinable payments and fixed maturity that the Combined Group has both the intention and ability to hold to maturity. Financial assets that are designated as held-to-maturity are measured at amortized cost, in accordance with the effective interest rate method.

They are reviewed for impairment on an individual basis if there is any indication that they may be impaired.

The Combined Group currently does not hold any held to maturity financial assets.

**2.16.4 Financial assets measured at fair value through profit or loss**

These financial assets are measured at fair value with gains and losses recorded as finance income or costs.

This category mainly includes:

- Assets held for trading which the Combined Group intends to sell in the near future (primarily marketable securities);
- Assets voluntarily classified at inception in this category;
- Derivatives financial assets.

**2.17 Inventories**

Inventories are measured at the lower of cost and net realizable value. The cost of inventories comprises costs of purchase and costs incurred in bringing the inventories to their present location and condition. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated selling costs.

Cost of inventories is determined using the weighted average cost method.

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**2—Significant accounting policies (Continued)**

The Combined Group periodically evaluates the condition and age of inventories and makes provisions for slow moving inventories accordingly.

**2.18 Cash and cash equivalents**

Cash consists of cash in banks and deposits.

Cash equivalents are considered as highly liquid investments, including unrestricted short-term bank deposits with an original maturity of three months or less from the date of acquisition or with a maturity of more than three months, but which are redeemable on demand without penalty and which form part of the Combined Group's cash management.

**2.19 Restricted cash**

Restricted cash is considered to be cash that is dedicated to the repayment of the Combined Group's liabilities to banking entities in accordance with the Group's credit agreement.

**2.20 Derivatives**

Derivatives are initially recognized at fair value on the date a derivative contract is entered into and are subsequently reassessed at their fair value.

The Combined Group enters into interest rate swaps and caps to manage its interest or foreign currency exchange rate exposure. These contracts do not qualify as hedges for accounting purposes according to IAS 39, as there was no formal designation and documentation of the hedging relationship at inception. Changes in the fair value of any of these derivative instruments are recognized immediately in the income statement within financial income and expenses.

**2.21 Share based payment arrangements**

The Combined Group's employees are entitled to remuneration in the form of equity-settled share-based payment transactions and certain employees are entitled to remuneration in the form of cash-settled share-based payment transactions that are measured based on the increase in the Company's share price. These stock options based remunerations mainly concerned the Israeli entity, HOT Telecom and these plans were terminated post the take private of the company in December 2012 and the delisting of all active shares of HOT Telecom on the Tel Aviv stock exchange.

**2.22 Financial liabilities**

Financial liabilities other than derivative instruments include:

**2.22.1 Financial liabilities at amortized cost**

These financial liabilities are measured at amortized cost calculated based on the effective interest rate method according to IAS 39. The effective interest rate is the internal yield rate that exactly discounts future cash flows through the term of the financial liability. Fees, debt issuance and transaction costs are included in the calculation of the effective interest rate over the expected life of the instrument.

**2.22.2 Financial liabilities that are measured at fair value through profit or loss**

Financial liabilities at fair value through profit or loss include financial liabilities classified as held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are acquired for the purpose of sale in the near term. Gains or losses on liabilities held for trading are recognized in profit or loss.

Derivatives, including bifurcated embedded derivatives, are classified as held for trading unless they are designated as effective hedging instruments. In the event of a financial instrument that contains one or

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**2—Significant accounting policies (Continued)**

more embedded derivatives, the entire combined instrument may be designated as a financial liability at fair value through profit or loss only upon initial recognition.

The Combined Group assesses whether embedded derivatives are required to be bifurcated from host contracts when the Group first becomes party to the contract. Reassessment only occurs if there is a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required.

The fair value of financial instruments that are traded in an active market is determined by reference to quoted market prices at the close of business on the balance sheet date. For financial instruments for which there is no active market, fair value is determined by the use of valuation techniques. Such techniques include evaluation based on transactions that have been executed recently under market terms, reference to the current market value of another instrument, which is substantially the same, discounted cash flow analysis or other valuation models.

**2.22.3 Classification as debt or equity**

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

**2.22.4 Equity instruments**

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a group entity are recognized at the value of the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognized and deducted directly in equity. No gain or loss is recognized in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

The Group also issued some CPECs (Convertible Preferred Equity Certificates). Details of these subordinated financial instruments are set out in note 16.2.

**2.23 Other liabilities**

**2.23.1 Provisions**

A provision in accordance with IAS 37 is recognized in the statement of financial position when the Combined Group has a present obligation (legal or implicit) as the result of a past event and it is expected that the use of economic resources will be required in order to settle the obligation and it is possible to reliably estimate it. Where the impact is significant, the provision is measured by discounting the forecasted future cash flows, using a pre-tax interest rate that reflects the expectations of the market in respect of the time frame of the money and in certain cases, the risks that are specific to the liability.

The following types of provisions are recorded in the financial statements:

**2.23.1.1 Legal claims**

A provision regarding legal claims is recognized when the Combined Group has a present legal commitment or an implicit commitment resulting from a past event; when it is more likely than not that the Combined Group will be required to expend economic resources to clear the commitment, when it is possible to estimate it reliably and when the effect of time is significant, the provision is measured according to the present value.

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**2—Significant accounting policies (Continued)**

**2.23.1.2 Warranty**

The Combined Group recognizes a provision for warranty for the sale of its products. The warranty is limited to malfunctions as defined by the Combined Group and does not include warranty for damages incurred by the customer.

**2.23.1.3 Onerous contracts**

Present obligations arising under onerous contracts are recognized and measured as provisions. An onerous contract is considered to exist where the Combined Group has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

**2.23.1.4 Restructuring**

A restructuring provision is recognized when the Combined Group has developed a detailed formal plan for the restructuring and has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement the plan or announcing its main features to those affected by it. The measurement of a restructuring provision includes only the direct expenditures arising from the restructuring, which are those amounts that are both necessarily entailed by the restructuring and not associated with the ongoing activities of the Combined Group.

**2.23.2 Liabilities for employment benefits**

In accordance with the laws and practices of each country in which it operates, the Combined Group participates in, or maintains, several employee benefits. There are as follows:

**2.23.2.1 Short-term benefits for employees**

Short-term benefits for employees include salaries, vacation pay, sick leave, recuperation pay and employers' deposits for national insurance and are recognized as an expense when the services are provided. A liability in respect of a cash bonus or a profits participation scheme is recognized where the Combined Group has a legal or an implicit commitment to pay the said amount in respect of service that has been provided by the employee in the past and where the amount can be reliably estimated.

**2.23.2.2 Post-retirement benefits**

In Israel, the Combined Group operates a defined benefits plan in respect of the payment of severance pay in accordance with the Israeli Severance Pay Law. According to this law, employees are entitled to receive severance pay if they are dismissed or on their retirement. The liability in respect of the termination of employee-employer relations is measured in accordance with the actuarial value of a forecast unit of entitlement method. The actuarial calculation takes into account increases in salaries in the future and the rate at which employees leave the Combined Group and this on the basis of an estimate of the timing of the payment. The amounts are presented on the basis of the discounting of the forecast future cash flows, in accordance with government bonds' interest rates, whose repayment dates are close to the period relating to the liability in respect of severance pay.

The Combined Group deposits funds in respect of its severance pay liability in pension funds and insurance companies (hereafter—the plan assets). The plan assets are assets that are held by the employee benefits plan for the long-term or in qualifying insurance policies. The plan assets are not available for use by the Combined Group's creditors, and cannot be paid directly to the Group.

The liability regarding employee benefits presented in the statement of financial position represents the present value of the defined benefits obligation less the fair value of the plan assets, and the past service costs. Actuarial gains and losses are reflected in the income statement in the period in which they arise, as part of the salary costs.

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**2—Significant accounting policies (Continued)**

The Combined Group has defined contribution plans pursuant to the Severance Pay Law under which the Combined Group pays fixed contributions and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient amounts to pay all employee benefits relating to employee service in the current and prior periods. Contributions to the defined contribution plan in respect of severance or retirement pay are recognized as an expense when contributed simultaneously with receiving the employee's services and no additional provision is required in the financial statements.

**2.23.2.3 Other long-term employee benefits**

The Combined Group's employees are entitled to benefits and other long-service grants. These benefits are accounted for as other long-term benefits since the Combined Group estimates that these benefits will be used and the respective Combined Group's obligation will be settled during the employment period and after one year from the end of the reporting period.

The Combined Group's net obligation regarding other long-term employee benefits is in respect of the future benefit amount due to employees for services rendered in current and prior periods. This amount of benefits is discounted to its present value and the fair value of the assets relating to this obligation is deducted from said amount. The discount rate is determined by reference to the yields on Government bonds whose currency and term are consistent with the currency and term of the Combined Group's obligation. The obligation is calculated using the projected unit credit method. Actuarial gains and losses are recognized in profit or loss in the period in which they occur.

**2.23.2.4 Benefits in respect of the termination of employment**

Severance pay for employees is reflected as an expense when the Combined Group has made an undertaking, with no real possibility of cancellation, for the dismissal of employees before they reach the customary retirement age in accordance with a detailed formal plan. The benefits that are given to the employees who take voluntary retirement when the Group has offered the employees a plan that encourages voluntary retirement, it is expected that the offer will be accepted and the number of persons accepting the offer can be reliably estimated.

**2.24 Significant accounting judgments and estimates used in the preparation of the financial statements**

**2.24.1 Judgments**

In the process of applying the significant accounting policies, the Combined Group has exercised its judgment and has taken into account matters which have the most significant impact on the amounts that have been recognized in the combined financial statements.

**2.24.2 Estimates and assumptions**

The preparation of the combined financial statements requires the Combined Group to make estimates and assumptions that have an effect on the application of the accounting policies and on the reported amounts of assets, liabilities, revenues and expenses. These estimates and underlying assumptions are reviewed regularly. Changes in accounting estimates are reported in the period in which the estimate changes.

**2.24.3 Impairment of goodwill**

Determining whether goodwill is impaired requires an estimation of the value in use of the cash-generating units to which goodwill has been allocated. The value in use calculation requires the directors to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate present value. Where the actual future cash flows are less than expected, a material impairment loss may arise.

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**2—Significant accounting policies (Continued)**

The value in use of each CGU was determined by estimating cash flows for a period of five years for the operating activities. Cash flow forecasts are derived from the most recent business plans approved by the Board of Directors. Beyond the specifically forecasted period of five years, the Company extrapolates cash flows for the remaining years based on an estimated constant growth rate between 1,5-2%. This rate does not exceed the average long-term growth rate for the relevant markets. Discount rates have been computed using WACC approach and range from 7% to 7,5%.

The carrying amount of goodwill as at December 31, 2012 was EUR 790,9 million (December 31, 2011 was EUR 911,9 million ; December 31, 2010: EUR 17,8 million). No impairment loss has been accounted for in 2010 and 2011 respectively.

**2.24.4 Legal claims**

In estimating the likelihood of outcome of legal claims filed against the Combined Group and its investees, the Combined Group companies rely on the opinion of their legal counsel. These estimates are based on the legal counsel's best professional judgment, taking into account the stage of proceedings and historical legal precedents in respect of the different issues. Since the outcome of the claims will be determined in courts, the results could differ from these estimates.

**2.24.5 Post-employment benefits**

The liability in respect of post-employment defined benefit plans is determined using actuarial valuations. The actuarial valuation involves making assumptions about, among others, discount rates, expected rates of return on assets, future salary increases and mortality rates. Due to the long-term nature of these plans, such estimates are subject to uncertainty.

**2.24.6 Deferred tax asset**

Deferred tax assets relate primarily to tax loss carry forwards and to deductible temporary differences between reported amounts and the tax bases of assets and liabilities. The assets relating to the tax loss carry forwards are recognized if it is probable that the Combined Group will generate future taxable profits against which these tax losses can be set off. Evaluation of the Group's capacity to utilize tax loss carry-forwards relies on significant judgment. The Combined Group analyses past events, and the positive and negative elements of certain economic factors that may affect its business in the foreseeable future to determine the probability of its future utilization of these tax loss carry forwards.

As of December 31, 2012, 2011 and 2010, in evaluating whether deferred tax assets should be recognized, management considered the weight of one form of negative evidence being a significant amount of cumulative losses in recent years and concluded that it is not probable that future taxable profit will be available against which the unused tax loss carry forward can be utilized.

**2.24.7 Discounting of Yield Free Preferred Equity Certificates (YFPEC)**

The Combined Group has loans with its equity holder which are currently non-interest bearing and therefore considered as not being at arm's length. In determining the present value, a discount rate of 4,76% has been used for YFPECs issued by Altice VII and 6,38% for YFPECs issued by Altice Six.

**Altice Group**

(1) Solutions 25 changed its name to Green ch as the result of the merger of Green ch by Solutions 25 in 2010

(2) Everido was merged into Altice VII in 2010

(3) The Combined Group acquired in January 2012 the shares of Sequelum Participation that were held by Eiffage (15.78%). After this operation, the Combined Group owned 95% of Sequelum Participation.

(4) The entities Altitude Telecom, B3G SA and B3G Online were merged in 2011 in Completel SAS.

#### 3.2 Modification of the scope of consolidation

##### 3.2.1 Main acquisitions in 2010

###### 3.2.1.1 Hot Mobile (ex MIRS Communications Ltd)

In 2010, Altice Securities S.à r.l. decided to incorporate Altice Acquisition Ltd, a company incorporated under the laws of Israel. On December 9, 2009, the company entered into an acquisition agreement which was amended on February 4, 2010, pursuant to which, the company acquired all the shares held in MIRS Communications Ltd (“Hot Mobile”), by way of a merger with and into Hot Mobile of the shares held in Altice Acquisition Ltd. This merger became effective on May 27, 2010.

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**3—Scope of combination (Continued)**

**3.2.2 Main acquisitions in 2011**

**3.2.2.1 The HOT group**

On October 26, 2010, the Combined Group entered into two acquisition agreements with the HOT Telecommunications equity holders, the Fishman Group and the Yediot Communications Ltd. Group, which as of the date of the above mentioned agreements held about 12,61% and 16,79% of HOT shares, respectively. On November 28, 2011 the transaction was consummated.

On March 16, 2011, Hot Telecommunications completed a private placement for approximately 2% of HOT issued share capital which was entirely subscribed by the Combined Group. At completion of this placement, the Combined Group held approximately 64,7% of HOT's shares.

Until March 16, 2011, the Combined Group held about 44,7% of HOT shares which until that date had been accounted for as an investment in associate using the equity method.

Since March 16, 2011, the Combined Group consolidates HOT and the Combined Group elected to measure the non-controlling interests in the acquiree at fair value at the date when control had been achieved.

The Combined Group has recognized the fair value of the assets that were acquired and the liabilities that were taken on within the framework of the business combination in accordance with an evaluation by an independent external expert. As of the time of the approval of the financial statements a final evaluation from an external expert has been received in relation to the fair value of the identified assets that were acquired and the liabilities that have been taken up. The amount of the investment prior to achieving control, in accordance with the equity method of accounting, as aforesaid, has been revalued in accordance with the share price as of the said time (approximately EUR 12,14), such that the financial statements as of March 31, 2011 income has been recorded on the revaluation of the investment in the affiliate, which became a consolidated company, in an amount of approximately EUR 133,0 million.

*a) Customer relations*

The customer relations were valued on the basis of the fair value of the existing customers in accordance with the contracts with them, through the excess earnings method for multiple periods. The amortization period for customer contracts ranges from 7 to 14 years under the straight line method.

*b) Customer relations with a defined contractual term*

This intangible asset was estimated based on the cash flows expected from existing orders or signed agreements of existing customers according to the surplus earning method for multiple periods. The amortization period for this asset is 3 years according to the existing agreements data.

*c) Brand name*

The "HOT" brand and "Mirs" brand were valued within the framework of the business combination in accordance with the "relief from royalties" method.

*d) Backlog of contracts*

The backlog of contracts was valued within the framework of the business combination on the basis of the cash flows that were expected as a result of the acquisition, which derived from orders associated with signed contracts, with the addition of an appropriate profit margin, in accordance with the excess earnings method for multiple periods.

*e) Subscriber purchase costs*

The HOT Group has an intangible asset that was created in respect of the costs associated with the purchase of subscribers. The additional direct sales commissions that are paid in respect of sales to

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**3—Scope of combination (Continued)**

subscribers that have signed on a commitment to remain customers of the Combined Group are recognized as an intangible asset up to the maximum fine that exists according to their contractor obligation. The expenses relating to the amortization of the purchase of the subscribers are recorded in the income statement over the period of the subscribers' average contractual commitment.

*f) Software*

The Combined Group's assets include computer systems that contain both software and hardware. Software that constitutes an integral part of the hardware, which cannot operate without the software that is installed therein, are classified as fixed assets. On the contrary, licenses from stand-alone software which add additional functionalities for the hardware are classified as intangible assets.

**3.2.2.2 Coditel Brabant S.p.r.l. and Coditel S.à r.l.:**

The Coditel reporting entity, Coditel Holding S.A. ("Coditel Holding") was incorporated on May 12, 2011 for the purpose of acquiring Coditel Brabant S.p.r.l. ("Coditel Belgium") and Coditel S.à r.l. ("Coditel Luxembourg"), which acquisition was completed on July 31, 2011.

As at the end of 2011, Altice VII holds an indirect interest of 44,4% in Coditel Brabant S.p.r.l. and Coditel S.à r.l.. Through various holding vehicles, Altice VII controls Coditel Brabant and Coditel S.à r.l.. Control is obtained via the majority position on the board of these entities by the Altice VII representatives.

**3.2.3 Main acquisitions in 2012**

Altice Portugal S.A. acquired 100% of Cabovisao as at February 29, 2012, from Cogeco Cable Luxembourg Holding S.A.. The consideration amounted to EUR 45 million, of which 40% was subsequently sold to Apax Partners in April 2013.

**3.3 Acquisitions of businesses**

Business combinations that occurred during the reporting period are described in note 3.2.

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**3—Scope of combination (Continued)**

The major classes of assets acquired and liabilities assumed at the acquisition date are:

	Total Business Combinations	Cabovisao	Hot Telecom	Coditel Brabant S.p.r.l.	Coditel S.à r.l.
		(in millions of euros)			
Cost of acquisition . . . . .	1 337,2	45,0	941,1	244,3	106,8

Management monitors its different businesses by geography. The businesses are split into different geographies as mentioned below:

- Israel
- Belgium and Luxembourg

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**4—Goodwill (Continued)**

- France
- French overseas Territories
- Switzerland
- Others

In addition to this geographical split, for the purpose of the testing for impairment of goodwill and intangible assets with an indefinite useful life, the goodwill, brand name and customer relationships have been allocated to the local businesses that represent cash-generating units (CGU) as follows:

- WSG
- Valvision
- Everido
- Coditel Brabant
- Coditel S.à r.l.
- Hot Telecom

Goodwill is tested at the cash-generating units (“CGU”) level for impairment annually, as of December 31, or whenever changes in circumstances indicate that the carrying amount may not be recoverable. In all cases, the CGU represents the lowest level at which goodwill is monitored for internal management purposes. The recoverable amounts of the CGUs are determined based on their value in use. The key assumptions for the value in use calculations are primarily the discount rates, growth rates, expected changes to telecom prices and direct costs during the period.

The Board of Directors estimates discount rates using pre-tax rates that reflect current market rates for investments of similar risk. The rate for each CGU was estimated from the weighted average cost of capital.

For the year ended December 31, 2012, the Board of Directors has determined the value in use of each cash generating unit, with the assistance of an external appraiser, and as a result of this valuation the Group concluded that the recoverable amount of the Israeli in-country fixed line is lower than its carrying amount and accordingly recorded in the reporting period an impairment of approximately EUR 121,9 million which was recorded as part of section “depreciation and amortization”

The Board of Directors has performed an impairment analysis for the purpose of issuing these combined financial statements and determined that no impairment should be recorded for the years ended December 31, 2011 and 2010.

(1) Customer relations have been valued on the basis of the fair value of the existing customers. The amortization expenses are in accordance with the benefits expected for each customers in each period.

(2) Subscriber purchase costs were recognized in respect of the costs of linked acquisition costs of subscribers (including additional sales commissions). The amortization expenses are related to the length of the average financial commitment of the subscribers.

The majority of the intangible assets movements for the year ended December 31, 2011 are related to the Hot Telecom, Coditel S.p.r.l. and Coditel S.à r.l. business combinations.

Most of the tangible assets increases as of December 31, 2012 are related to the Cabovisao business combination (see Note 3.3). The additions in capital expenditures come mainly from Hot Telecom activity:

- Modems and converters related capital expenditures represented EUR 69,4 million for the year ended December 31, 2012, as compared to EUR 29,3 million for the year ended December 31, 2011. The increase in converters and modems related capital expenditures resulted from capital expenditure incurred during the first two quarters of 2012 relating to our new set top boxes (HOT

**6—Property, Plant & Equipment (Continued)**

Magic HD) for which delivery was delayed and which we had expected to incur during the second quarter of 2011 and did not received until the last quarter of 2011.

- Cable network related (including centers) capital expenditures represented EUR 84 million for the year ended December 31, 2012, as compared to EUR 51.6 million for the year ended December 31, 2011. The increase in our total cable network related (including centers) capital expenditure was as a result of the expenditure incurred to complete the upgrade to 100Mb capacity throughout our cable network and fibre roll out in certain areas in 2012.

(1) Cable networks: the Combined Group owns, directly and indirectly through its subsidiaries, cable or fibre network which allow it to supply cable-based pay television, broadband internet and fixed-line telephony services to its subscribers.

(2) Call center represents centralized offices used for the purpose of receiving or transmitting a large volume of administrative, technical or commercial requests by telephone.

(3) Office furniture and equipment refers to furnishings and IT equipment.

(4) The Communication network infrastructure includes the digital technologies for the transmission of multi-channel television services.

Most of the tangible assets increases as of December 31, 2012 come from the Cabovisao business combinations (see Note 3.3).

Most of the tangible assets increases as of December 31, 2011 come from the Coditel and Hot Telecom business combinations (see Note 3.3).

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**6—Property, Plant & Equipment (Continued)**

The additions in capital expenditures mainly come from Hot Telecom activity:

- Modems and converters related capital expenditures represented EUR 29,3 million for the year ended December 31, 2011. The weaker amount of modems and converters related capital expenditures resulted from a delay in the delivery of the HOT Magic HD set top boxes which the local management initially expected to receive during the second quarter of 2011 and ended up not receiving until the fourth quarter of 2011.
- Cable network related (including centers) capital expenditures represented EUR 43,4 million for the year ended December 31, 2011 and was related to investments in the Israeli UFI-channel in 2011.

**7—Investments in associates**

The breakdown of the investments in associates in 2010, 2011 and 2012 is detailed as follows:

	December 31, 2012	
	Combined Group's share of profits of associates	Combined Group's share of net assets of associates
	(in millions of euros)	
Altice B2B Lux Holding S.à r.l. . . . .	11,4	39,1
Ypso Holding S.à r.l. . . . .	9,0	(116,1)
<b>Total</b> . . . . .	<b>20,4</b>	<b>(77,0)</b>

	December 31, 2011	
	Combined Group's share of profits of associates	Combined Group's share of net assets of associates
	(in millions of euros)

(1) Investment in available for sale financial asset:

A subsidiary company, operating through Hot Net Internet Services Ltd. (formerly Hot Properties) and Finance Ltd. (hereinafter—Hot Net) holds 1 454 663 regular shares in Partner Communications Ltd. (hereinafter—Partner), constituting approximately 0,9% of Partner's share capital which is engaged in the provision of mobile communications services and whose shares are traded on stock exchanges in the United States of America, in the United Kingdom and in Israel. Partner's shares are subject to Israeli restrictions in accordance with the Radio Mobile Telephone license that was granted to Partner, in accordance with which the shares can only be sold to an Israeli buyer, as defined in the said license.

The subsidiary companies present the investment in Partner as an investment in an available for sale financial asset, which is measured at fair value.

(2) Restricted cash (see Note 2.19).

The restricted cash has been deposited in financial institutions and as of the statement of financial position date it bears interest based on the interest rate on daily bank deposits. It is restricted to repayment of certain interests on bank borrowings and debentures.

<b>Total . . . . .</b>	<b><u>47,2</u></b>	<b><u>31,4</u></b>	<b><u>21,8</u></b>

(1) The main contributions to the other current receivables in 2011 are:

- Derivative instruments: EUR 4,3 million
- Income receivable: EUR 1,6 million
- Advances to suppliers: EUR 1,8 million.

(2) Accrued interest on loans and receivables to associates correspond to interest accrued on the different debt instruments between Altice Six and its associates. As of December 31, 2012 this caption was composed mostly of interest due on Ypso Holdings and Altice B2B Super PECs for EUR 4,3 and 5,0 respectively. As of December 31, 2011 this interest amounted to EUR 4,6 and EUR 4,7 million respectively. For the period ended December 31, 2010, this amount totaled EUR 2,9 million.

The Combined Group provides services on credit for an average of 16 days, 24 days and 96 days in average to its customers in the cable television field, in the in-country fixed line communications field and in the mobile communication field, respectively. The Combined Group routinely evaluates the credit that is provided to its customers, while checking their financial situations; however it does not demand collateral for those debts. The Combined Group records a provision for doubtful debts, based on the factors that affect the credit risks of certain customers, past experience and other information.

(1) Provisions for litigations and other risks decreased in FY12 compared to the previous period, mainly driven by a re-evaluation of the risk of pay-out on the various royalty and retransmission fees related lawsuits faced by HOT Telecom in Israel. The reversals on the three major litigations, namely TALI, AKUM and AGICOA, amounted to EUR 3, 13,5 and 3,5 million respectively. The total reversal on provision for litigation was EUR 20 million.

In 2012, HOT Telecom also recorded an additional provision of EUR 1,9 million to cover a contested withholding tax ruling. The increase in provisions for risks and litigation was mainly driven by the finalization of the acquisition of HOT Telecom on a fully consolidated basis from FY11 onwards. A large majority of provisions for litigations were recorded at HOT Telecom, arising from claims for royalty payments from the producers of audio-visual or musical content. The main litigations for the year ended December 31, 2011 were (i) Tali, a claim for royalties by a third party on behalf of writers and directors of audio-visual content, who are producers of their own local content. This claim was provisioned for a total amount of EUR 5,8 million; (ii) A claim by AKUM, provisioned for EUR 17,3 million, also relating to claims on royalties for musical writers, composers and publishers and (iii) a provision of EUR 8,6 million, brought forward by AGICOA, for the payment of fees to audio-visual producers for the retransmission of their locally produced content.

(2) In addition to the claims mentioned above, other provisions for risk mainly concerned legal claims made by former employees for wrongful dismissal in the French Caribbean subsidiaries (EUR 0,38 million), a provision for penalties stemming from an inspection by the labour department in Martinique (EUR 0,33 million) and a wrongful termination claim by a content provider (EUR 0,15 million).

**15—Employee benefits**

Breakdown of the employee benefits by entity:

	December 31, 2012	December 31, 2011	December 31, 2010	Notes
	(in millions of euros)			
Coditel Brabant . . . . .	0,7	0,9	—

<b>Total . . . . .</b>	<b>9,1</b>	<b>6,9</b>	<b>1,2</b>	

**15.1 Hot Telecom**

*a) Defined Benefit Plans:*

The portion of the severance pay payments that is not covered by deposits, is treated by the Combined Group as a defined benefit plan in accordance with which a liability is recorded in respect of employee benefits, and the Combined Group deposits amounts in central severance pay funds and in appropriate insurance policies in respect of it.

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**15—Employee benefits (Continued)**

The Combined Group has defined contribution plans, in accordance with section 9 of the Israeli Severance Pay Law, in accordance with which the Combined Group makes regular payments without it having a legal or implicit commitment to pay additional payments even if sufficient funds have not accumulated in the funds to pay all of the benefits to an employee that relate to the employee's employment in the current period and in previous periods.

Deposits in a defined contribution plan in respect of severance pay or in respect of emoluments are recognized as expense at the time of the deposit in the plan, in parallel to the receipt of the labor services from the employee and no additional provision is required in the financial statements.

*b) Expenses reflected in the statement of comprehensive income:*

<b>Current</b> . . . . .	<b>134,9</b>	<b>255,8</b>	<b>89,6</b>

During the year ended December 31, 2012, bonds include the debentures in Hot Telecom:

- The Series A' debentures—EUR 167 million (NIS 825 million par value), linked to the Consumer Prices Index for the month of February, 2011, that bear interest at a rate of 3,9% a year. Series A' debentures are repayable in 13 semi-annual payments commencing on September 30, 2012 and up to September 30, 2018.
- The Series B' debentures—EUR 137 million (NIS 675 million par value) that bear interest at a fixed rate of 6,9% a year. Series B' debentures are repayable in 13 semi-annual payments commencing on September 30, 2012 and up to September 30, 2018.

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**16—Borrowings and other financial liabilities (Continued)**

Bonds also include Senior and Senior secured Notes in Altice Finco S.A. and Altice Financing S.A.:

- The Senior Notes in U.S. dollar, issued by Altice Finco S.A. and with a face value of \$ 425,0 million (EUR 322,0 million) mature on December 15, 2020 and bear coupons of 9,875% annually
- The Senior Secured Notes in U.S. dollars, issued by Altice Financing S.A. and with a face value of \$460 (EUR 348,5 million) mature on December 15, 2019 and bear coupons of 7,875% annually,
- The Senior Secured Notes in Euro, issued by Altice Financing S.A. and with a face value of EUR 210 million mature on December 15, 2019 and bear coupons of 8% annually.

The Senior and Senior Secured Notes are listed on the Official List of the Luxembourg Stock Exchange and traded on the Euro MTF Market of the Luxembourg Stock Exchange. The interest payment of the bonds is semi-annually on June 15 and on December 15 of each year and the first payment of the interest will be on June 15, 2013.

**16.1 Covenants**

**16.1.1 Hot**

The unsecured debentures issued on the Tel Aviv stock exchange by the Combined Group's subsidiary Hot Telecom include financial covenants measured on Hot Telecom performance, which mainly include:

- a debt to EBITDA ratio, which is not to exceed 6 for a period that exceeds two consecutive quarters;
- no distribution of a dividend at a time when Hot Telecom exceeds a debt to EBITDA ratio of 5,5.

As of December 31, 2011 and 2012, Hot Telecom was in compliance with all of the required financial covenants.

Financial covenants have been set for Hot Mobile, which include:

- the making available of a fixed charge on a Shekel deposit, in favor of the banks, in accordance with a formula that was detailed in the letter of undertaking;
- a minimal ratio between the amounts of the increase in the shareholders' equity and Mirc cumulative free cash flows; For the periods ended December 31, 2010 and December 31, 2011, HOT Mobile was in compliance of the covenants set forth in its debt contracts. This debt was refinanced at the end of 2012.

**16.1.2 Altice Blue One**

As part of the Altice Blue One ("ABO") financing arranged in 2009, ABO was required to respect certain covenants calculated on the basis of its consolidated annual accounts. As of December 31, 2011, ABO was in default of its financial covenants, though it was not in default of any scheduled payments due to the lenders. As per the debt contracts, one consequence of this default could be early or accelerated repayment of the debts, if and only if such repayments are unanimously reclaimed by all of the lending agencies.

ABO's management does not believe that these covenant defaults affect in any way the ability of the Group to effectively pursue its operations. This hypothesis was supported by advanced level talks with the lending parties, and based on the fact that none of the lenders ever demanded early repayment of the loan. Thus ABO's accounts for 2012 were closed and approved based on the hypothesis outlined above. On July 2, 2013, ABO refinanced the relevant facilities with funds granted by the Group, thereby solving any default situation

As a result, the whole amount of debt has been reclassified as current borrowings from banking corporations and debentures for the three years ended December 31, 2012, December 31, 2011 and December 31, 2010.

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**16—Borrowings and other financial liabilities (Continued)**

**16.1.3 Coditel Holding**

Financial covenants have been set for Coditel Holding, in the framework of the financing agreement entered into with a pool of financial institutions on December 2, 2011, based on the consolidated accounts of Coditel Holding S.A..

As of December 31, 2012, Coditel Holding S.A. was in compliance with all of the required financial covenants.

As at December 31, 2012, there were no breaches of covenants for the senior and senior secured notes mentioned in the note above.

**16.2 Bonds**

Issuer	Effective interest rate	Year of maturity	Carrying amount December 31, 2012	Carrying amount December 31, 2011	Carrying amount December 31, 2010

<b>Total . . . . .</b>				<b>65,5</b>	<b>101,3</b>

Conversely, according to our appreciation, and upon a strict application of IAS 32/39, following instruments have to be classified as debt instruments:

- ALPECs instruments (about EUR 101,3 Million as at the end of 2012);
- YFPECs instruments (about EUR 36,3 Million as at the end of 2012).

The YFPECs have been valued using a discount rate of 4,76% given its preferred interest rate which therefore values the liabilities at EUR 4,4 million as at December 31, 2012.

Name	Maturity date	Interest rate	Convertible	Amount as at the end 2010 (including interests)
				(in millions of euros)
ALPECs A . . . . .	14/05/2058	Loan Auberimmo—25 bp	No	4,6
ALPECs B1 . . . . .	31/12/2057	Loan ABO—25 bp	No	4,5
ALPECs B3 . . . . .	31/07/2058	Loan ICC France—25 bp	No	1,0

<b>Total . . . . .</b>				<b>56,5</b>

(1) As per the agreements, Business Unit means any interests and proceeds received by the Issuer by virtue of the Subsidiary's PECs. Each instrument is linked to a specific acquisition and hence to a specific asset.

Conversely, according to our appreciation, and upon a strict application of IAS 32/39, following instruments have to be classified as debt instruments:

- ALPECs instruments (about EUR 65,5 million nominal value as at the end of 2011);
- YFPECs instruments (about EUR 35,2 million nominal value as at the end of 2011).

The YFPECs have been valued using a discount rate of 4,76% given its preferred interest rate which therefore values the liabilities at EUR 4,1 million as at December 31, 2011.

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**16—Borrowings and other financial liabilities (Continued)**

*b) Altice Six*

Subordinated financial instruments consists of:

- YFPECs: Yield Free Preferred Equity Certificates;
- IFPECs: Interest Free Preferred Equity Certificate;
- PECs: Preferred Equity Certificates
- Super PECs: Super Preferred Equity Certificates
- Tracking IFPECs: Tracking Interest Free Preferred Equity Certificate;

The IFPECs, YFPECs and certain non bearing interests PECs at Altice Six have been valued using a discount rate of 6,38% given its preferred interest rate which therefore values the debt at EUR 97,0 million for the year ended December 31, 2012 (EUR 92,5 million for the year ended December 31, 2011 and EUR 87,2 million for the year ended December 31, 2010). As all the subordinated financial instruments mentioned above are non-convertible instruments, they are classified as debt in the local accounts of Altice Six and no reclassification was required in the combined accounts prepared as per the IFRS standards.

*c) Coditel Holding*

Subordinated financial instruments in Coditel Holding S.A. consist of PECs (Preferred Equity Certificates). Each PEC bears a yield and shall have a maturity of 49 years.

As at the end of 2012, the total of PECs instruments amounts to EUR 61,8 million (including interests):

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**17—Financial risk factors**

In the course of its business, the Combined Group is exposed to a number of financial risks: credit risk, liquidity risk, market risk (including foreign currency risk and interest rate risk), commodity price risk and other risks (including equity price risk and settlement risk). This note presents the Combined Group's objectives, policies and processes for managing its financial risk and capital.

Financial risk management is an integral part of the way the Combined Group is managed. The Board of Directors establishes the Combined Group's financial policies and the Chief Executive Officer establishes objectives in line with these policies.

The Combined Group is not subject to any externally imposed capital requirements.

**17.1 Credit risk**

The Combined Group does not have significant concentrations of credit risk. The credit risk may arise from the exposures of commitments under a number of financial instruments with one body or as the result of commitments with a number of Combined Groups of debtors with similar economic characteristics, whose ability to meet their commitments could be similarly affected by economic or other changes.

Qualities that could cause a concentration of risk include the significance of the activities that the debtors are involved in, such as the branch in which the geographical region in which they conduct their activities and the level of their financial stability.

The Combined Group's income mainly derives from customers in Israel, in the French Overseas Territories and in Europe (Belgium, Luxembourg, France and Switzerland). The Combined Group regularly monitors its customers' debts and provisions for doubtful debts are recorded in the financial statements, which provide a fair value of the loss that is inherent to debts whose collection lies in doubt.

The Combined Group does not have significant concentration of credit risk, as a result of the Combined Group's policy, which ensures that the sales are mostly made under standing orders or via credit cards.

**17.2 Liquidity risk**

Ultimate responsibility for liquidity risk management rests with the management, which have established an appropriate liquidity risk management framework for the management of the short, medium and long-term funding and liquidity management requirements of the Combined Group. The Combined Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserves borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

**17.3 Market risks**

The Combined Group is exposed to risk from movements in foreign currency exchange rates, interest rates and market prices that affect its assets, liabilities and anticipated future transactions.

**17.3.1 Interest rate risk**

Interest rate risk comprises the interest price risk that results from borrowings at fixed rates and the interest cash flow risk that results from borrowings at variable rates.

The Combined Group has an exposure to risk in respect of changes in the interest rate in the market, deriving from long-term loans that have been received and which bear variable rate interest.

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**17—Financial risk factors (Continued)**

Interest structure of non-current financial debt (including interest effects of derivatives):

	December 31, 2012	December 31, 2011	December 31, 2010
	(in millions of euros)		
Financial debt at fixed rates . . . . .	1 698,3	655,3	316,8
Financial debt at variable rates . . . . .	287,1	834,6	88,3
<b>Total . . . . .</b>	<b><u>1 985,4</u></b>	<b><u>1 489,9</u></b>	<b><u>405,1</u></b>

Sensitivity tests for changes in interest rates are described as follows:

	December 31, 2011	December 31, 2010
	(in millions of euros)	
Increase of 0.5% in the interest rate . . . . .	0,4	(3,2)
Decrease of 0.5% in the interest rate . . . . .	(0,4)	1,0

**17.3.2 Israeli CPI risk**

The Combined Group has borrowed from banks and issued debentures that are linked to the changes in the Israeli CPI. Also, the Combined Group has deposits and gave loans that are linked to the changes in the Israeli CPI. The net amount of the financial instruments that are linked to the Israeli CPI and for which the Combined Group is exposed to changes in the Israeli CPI amounted to approximately EUR 0,5 million (Hot Telecom) as of December 31, 2011.

The Combined Group has borrowed from banks and issued debentures that are linked to the changes in the Israeli CPI. Also, the Group has deposits and gave loans that are linked to the changes in the Israeli CPI. The net amount of the financial instruments that are linked to the Israeli CPI and for which the Group is exposed to changes in the Israeli CPI amounted to approximately EUR 247 million as of December 31, 2012.

**17.3.3 Foreign currency risk**

The Combined Group is exposed to foreign currency risk from transactions and translation. Transactional exposures are managed within a prudent and systematic hedging policy in accordance with the Combined Group's specific business needs. Translation exposure arises from the consolidation of the financial statements of foreign operations in euros, which is, in principle, not hedged. The Combined Group's objective is to manage its foreign currency exposure through the use of currency forwards, futures, swaps and options.

Exchange differences recorded in the income statement represented a loss of EUR 14,0 million in 2011 (2010: gain of EUR 33,8 million). They are allocated to the appropriate headings of expenses by function.

The Combined Group estimates that a 10% variation of foreign currencies against euro parity is a relevant change of variables and reasonably possible risk in a year and the chart presented below allows

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**17—Financial risk factors (Continued)**

assessing the impact of a 10% increase of foreign currencies against euro on net result and reserves. A 10% decrease would have a symmetrical impact with the same amounts but in the opposite direction.

	December 31, 2012		
	Israeli Shekel	Swiss Franc	Total
	(in millions of euros)		
<b>Profit for the year</b>			
Increase of 10% in exchange rate . . . . .	(12,9)	(0,1)	(13,1)

Decrease of 10% in exchange rate . . . . .	1,3	2,1	3,4
	December 31, 2010		
	Israeli Shekel	Swiss Franc	Total
	(in millions of euros)		
<b>Profit for the year</b>			
Increase of 10% in exchange rate . . . . .	(0,7)	(1,9)	(2,6)
Decrease of 10% in exchange rate . . . . .	0,7	1,9	2,6
<b>Equity</b>			
Increase of 10% in exchange rate . . . . .	(6,2)	(0,3)	(6,5)
Decrease of 10% in exchange rate . . . . .	6,2	0,3	6,5

**17.3.4 Price risk**

The Combined Group has investments in listed financial instruments, shares and debentures that are classified as available-for-sale financial assets and financial assets at fair value through profit or loss in respect of which the Combined Group is exposed to risk of fluctuations in the security price that is determined by reference to the quoted market price.

As of December 31, 2011, the carrying amount of these investments was EUR 8,5 million. An increase/decrease in the asset's market price of 10% would result in a change of EUR 0,850 million in the carrying amount of these investments.

As of December 31, 2012, the carrying amount of these investments was EUR 5,7 million. An increase/decrease in the asset's market price of 10% would result in a change of EUR 0,570 million in the carrying amount of these investments.

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**17—Financial risk factors (Continued)**

**17.4 Sensitivity tests in respect of a change in market factors**

The sensitivity analysis in respect of financial instruments was performed under the assumption that the amount that was in force as of the statement of financial position date was in force throughout the reporting period.

The changes that have been selected as variables for the relevant risk were determined in accordance with management's assessment in respect of the possible reasonable changes in those risk variables.

**17.5 Gearing computation**

Gearing ratio (net debt/total invested equity) amounts is as follows:

Combined statement of financial position	December 31, 2012	December 31, 2011	December 31, 2010
	(in millions of euros)		
Net Debt (short term and long term) . . . . .	1 681,9	1 197,5	166,5
Invested Equity . . . . .	272,9	367,2	233,9
Non-controlling interests . . . . .	5,2	349,2	0,4
Total equity . . . . .	278,1	716,4	234,3
Total equity and liabilities . . . . .	2 937,7	2 695,0	779,2
<b>Gearing</b> . . . . .	<b>6,1</b>	<b>1,7</b>	<b>0,7</b>

**18—Trade and other payables**

	December 31, 2012	December 31, 2011	December 31, 2010
	(in millions of euros)		
Trade payable . . . . .	311,4	208,1	53,0
Trade payables—acquisition of assets . . . . .	2,9	3,5	9,2
Corporate and social security contributions . . . . .	24,5	26,2	4,7
Corporate income tax payable . . . . .	10,7	7,2	2,4
Current Deferred revenue . . . . .	34,1	31,3	17,7
Other payables . . . . .	38,9	37,4	12,6
Liabilities from related parties . . . . .	0,2	—	2,3
<b>Total</b> . . . . .	<b>422,7</b>	<b>306,5</b>	<b>101,9</b>

Most of the trade payables' and other payables' increases as of December 31, 2011 is a result of the Coditel and Hot Telecom business combination and related to Cabovisao as of December 31, 2012.

**19—Other non-current liabilities**

	December 31, 2012	December 31, 2011	December 31, 2010
Trade payables—acquisition of assets . . . . .	5,9	—	—
Non-current Deferred revenue . . . . .	—	9,4	0,7
Deferred revenue . . . . .	10,8	—	—
Other payables . . . . .	32,9	15,3	—
<b>Total</b> . . . . .	<b>49,5</b>	<b>24,7</b>	<b>0,7</b>

Other payables correspond to Israeli non-current payables: interest payable, royalties to the Israeli government, income in advance from customers (Hot Telecom Business combination).

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**20—Classification and fair value of financial assets and liabilities**

On December 31, 2012, 2011 and 2010, the principles for measuring financial instruments and their market value breaks down as follows:

	December 31, 2012					
	Book value	Amortized cost	Fair Value			
			Fair value through profit/loss (in millions of euros)	Assets available for sale	Loans & Receivables	Derivative instruments
<b>Current assets</b>

The classification of financial instruments in accordance with hierarchical levels for fair values:

The financial instruments that are presented in the statement of financial position in accordance with their fair value are classified in accordance with groups that have similar characteristics, into hierarchical levels for fair values, as aforesaid, which are determined in accordance with the source of the input that was used for determining the fair value:

- Level 1—Quoted prices (without adjustments) in an active market for identical assets and liabilities. As of December 31, 2011 the Combined Group has no financial assets or liabilities that meet the definition of Level 1.
- Level 2—Inputs other than quoted prices that are included in level 1, which can be observed directly or indirectly.
- Level 3—Inputs that are not based on observable market data (an evaluation technique that does not use observable market data).

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**20—Classification and fair value of financial assets and liabilities (Continued)**

As result, as of December 31, 2012, classifications of financial instruments are as follows:

	December 31, 2012			
	Level 1	Level 2	Level 3	Total
	(in millions of euros)			
<b>Financial liabilities at FVTPL</b>				
Other derivatives financial liabilities . . . . .	—	62,5	—	62,5
<b>AFS</b>				
AFS HOT Telecom (Level 1) . . . . .	6,1	—	—	6,1
	<u>6,1</u>	<u>62,5</u>	<u>—</u>	<u>68,6</u>

The notional principal amounts of the outstanding forward foreign exchange contracts at December 31, 2012 as follows:

FX Forward contract: USD 550 million, the maturity date will be on December 15, 2017 and swap to NIS at the aggregate rate of 4,1700, this contract relates to a hedge of the notional of the debt and also the rate accretes up to 4,17 in December 15, 2017;

FX Forward contract: USD 98,9 million, the maturity date is based on the interest date payment from June 17, 2013 to December 15, 2017 and swap to NIS at the aggregate rate of each interest payment period, this contract is related to interest rate hedging, exchanging fixed Euro and USD interest payments into fixed NIS payments.

FX Forward contract: EUR 40,1 million, the maturity date is based on the interest date payment from June 17, 2013 to December 15, 2017 and swap to NIS at the aggregate rate of each interest payment period, this contract is related to interest rate hedging, exchanging fixed Euro and USD interest payments into fixed NIS payments.

The notional principal amounts of the outstanding forward foreign exchange contracts at December 31, 2012 as follows:

Cross currency swap: USD 200 million, the maturity date will be on December 15, 2017 swap NIS at the aggregate rate of 7,7550%,

Cross currency swap: USD 225 million, the maturity date will be on December 15, 2017 swap NIS at the aggregate rate of 5,6850%,

Cross currency swap: EUR 100 million, the maturity date will be on December 15, 2017 swap NIS at the aggregate rate of 5,7750%.

Those contracts are effectively fixed Euro and USD interest payments in NIS.

As of December 31, 2012, classification of financial instruments' issue are as follows:

**21.3 Reconciliation between the effective tax rate and the theoretical tax rate**

	December 31, 2012	December 31, 2011
	(in millions of euros)	
<b>Net income</b> . . . . .	<b>(180,2)</b>	<b>162,0</b>
<b>Share of net income—associates</b> . . . . .	<b>(20,4)</b>	<b>(58,6)</b>
<b>Share of net income—equity holders</b> . . . . .	<b>(200,6)</b>	<b>103,4</b>
Tax charge [(–) expenses/(+) income] . . . . .	(26,0)	32,5
<b>Earnings/(Loss) before tax</b> . . . . .	<b>(226,6)</b>	<b>135,9</b>
Theoretical tax rate . . . . .	28,80%	28,80%
Income tax calculated on theoretical tax . . . . .	65,3	(39,1)
<b>Impact of:</b>		
Effect of different tax rates of subsidiaries depending in other jurisdictions . . . . .	(5,8)	
Permanent differences . . . . .	(53,6)	2,0
Restatements without tax impact . . . . .	12,1	10,6
Utilization of previously non capitalized tax credit . . . . .	20,0	3,6
Carry-back . . . . .	0,1	(0,2)
Tax loss carry forwards of the periods non activated . . . . .	(13,2)	(9,7)
Effect of unused tax losses not recognized as Deferred tax asset . . . . .	1,0	0,3
<b>Effective Tax</b> . . . . .	<b>26,0</b>	<b>(32,5)</b>
<b>Effective tax rate</b> . . . . .	<b>14,43%</b>	<b>20,06%</b>

The permanent differences mainly consist of:

- Reversal of the amortization of goodwill booked in the annual accounts of Solution 25 (Green.ch) for an amount of EUR 1,1.
- Elimination of a profit on internal operation on the sale of the shares of HOT Mobile by Altice Securities S.à r.l. to HOT Telecom Ltd, amounting to EUR 10,8 million.

**21.4 Tax assessments**

In December 2009 and in the course of the year 2010, HOT received tax assessments for the 2006-2008 tax years, in accordance with section 145(A)(2)(b) of the Income Tax Ordinance. In accordance with the tax assessments, expenses amounting to approximately EUR 220 million were adjusted for HOT for tax purposes as of the end of the year 2008, and this was as a result of a disagreement between HOT and the Tax Authority in Israel, primarily in respect of the pace of the recognition of depreciation expenses in respect of the cables network and additional issues. If the said position of the Tax Authority in relation to the assessments that were issued to HOT in respect of the 2006, 2007 and 2008 tax years is received, HOT will be exposed to a demand for the payment of tax in a cumulative amount of EUR 24 million. Linkage differentials and interest will be added to this amount. Furthermore, HOT will be exposed to a demand for the payment of additional taxation in significantly larger amounts in respect of the tax years after 2008.

HOT's management, on the basis of its position in the self-assessments and based upon its legal advice, has presented an objection against the tax assessments for the years 2006 - 2008 and in the opinion of HOT's management and its professional advisers, HOT has well founded complaints against the claims made in the tax assessments for the years 2006 - 2008, which could significantly change the results of the tax assessments for those years and could also significantly change the implications deriving from them in respect of the tax years after 2008.

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**21—Taxes income (Continued)**

At the present time, discussions are being held on the assessments, within the framework of Stage B for the years 2006 - 2008 and within the framework of Stage A for the 2009 - 2010 tax years. A number of issues have come within the framework of the discussions including the manner of the depreciation of the cables network infrastructure and the manner of the amortization of the intangible assets—brand, goodwill and customer connections. Up to the time of the publication of the financial statements, no assessment has yet been issued in respect of the aforesaid.

A provision of EUR 2 million has been recorded within the framework of the financial statements in respect of HOT estimated exposure in respect of the dispute with the tax authorities in respect of open tax years.

HOT has been issued with final tax assessments up to and including the 2005 tax year. The consolidated companies HOT Vision, HOT Haifa and HOT Eidan have been issued with final tax assessments up to and including the 2001 tax year. The consolidated companies HOT Edom and HOT Net (formerly HOT Investments and Finance) have been issued with final tax assessments up to and including the 2002 tax year. The consolidated company HOT T.L.M. has been issued with final tax assessments up to and including the 2004 tax year. The consolidated companies Drom Hasharon and HOT Properties have been issued with final tax assessments up to and including the 2008 tax year.

The consolidated companies HOT T.L.M., HOT Eidan and HOT Haifa have tax assessments that are considered to be final up to and including the 2005 tax year. The consolidated company HOT Mobile have tax assessments that are considered to be final up to and including the 2008 tax year. The consolidated companies HOT Vision, HOT Edom and Hot Net (formerly HOT Investments and Finance) have tax assessments that are considered to be final up to and including the 2007 tax year. The said assessments are considered to be final subject to the powers that have been afforded to the Director of the Tax Authority in Israel in accordance with section 145, 147 and 152 of the Income Tax Ordinance.

**21.4.1 Cabovisao**

Cabovisao is subject to corporate income tax at the rate of 25%, increased by a municipal surcharge at the applicable rate up to 1.5%, resulting in an aggregate rate of a maximum of 26.5%. Additionally, any taxable profit in excess of EUR 1,5 million is subject to a State surcharge of 3%, being 5% if the taxable net, or exceeds EUR 10 million, according to article 87-A of the corporate income tax law.

In accordance with the article 88 of the corporate income tax law, Cabovisao is subject to autonomous taxation over some costs incurred by Cabovisao at the rates provided for in the above-mentioned article.

In accordance with current legislation, tax returns are subject to review and correction by the tax authorities during a four-year period or, if tax losses are carried forward or a deduction or tax credit used, for the period for which such right is exercised (five years for Social Security). These periods can be suspended when there are tax inspections, claims or appeals in progress. Consequently, Cabovisao's tax returns for the years 2009 to 2012 are subject to review by the tax authorities.

Cabovisao was subject to an inspection from the Portuguese tax authorities for the fiscal years 2003 to 2006, and the outcome was the following:

Notification for fiscal year 2003 to adjust tax losses by EUR 7,2 million and an additional payment of stamp taxes for fiscal years 2000 to 2002 in the amount of EUR 1,3 million. The Company did not agree with the additional payment of stamp taxes, having claimed through a lawsuit appeal against the Portuguese Tax Authorities, presenting a bank guarantee in the amount of EUR 1,7 million. During the year ended August 31, 2011, the Almada Administrative and Fiscal Court decided the appeal was unfounded. Cabovisao has appealed against that decision before the Almada Administrative and Fiscal Court.

Assessment of the Portuguese Tax Authorities related to 2005, requests an adjustment to tax losses in the amount of EUR 17,1 million, as well as an additional tax payment in the amount of EUR 4 million, for withholding tax and stamp tax. Cabovisao paid EUR 2,6 million and contested this decision of the

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**21—Taxes income (Continued)**

assessment through a gracious complaint and hierarchical appeal, but has not received the final decision yet. The unpaid amount of, approximately, EUR 1 million, was contested by hierarchic appeal. In the year ended 31 August, 2012, the Corporate Tax accepted the claim. As of the date of this report, there were not any subsequent deliberations after that decision.

For 2006, an assessment of tax payable on withholding tax linked to interest due to CSII in the amount of approximately EUR 4,9 million. Cabovisao doesn't agree with this assessment, having filed a gracious complaint and submitted a bank guarantee in the amount of approximately EUR 6,8 million. As of December 31, 2012, the administrative and tax court of Almada didn't pronounce on that claim, therefore it wasn't taken any subsequent deliberations.

The Board of Directors believes that any adjustments resulting from tax revisions to the tax returns of these exercises, taking into account the provisions recorded will not have a significant effect on the financial statements on December 31, 2012.

**21.5 Unrecognized deferred tax assets**

As at December 31, 2012, unrecognized deferred tax assets amount to EUR 86,1 million and split as follows:

- Cool Holding: EUR 21,2 million,
- Coditel Holding Lux S.à r.l.: EUR 13,6 million,
- Cabovisao: EUR 51,3 million.

As at December 31, 2011, unrecognized deferred tax assets amount to EUR 33,4 million and split as follows:

- Cool Holding: EUR 26,7 million
- Coditel Holding Lux S.à r.l.: EUR 5,8 million
- Coditel Brabant: EUR 0,9 million

**22—Segment analysis**

**22.1 Definitions of segments**

Given the geographic spread of the various Group entities, it logically follows that an analysis and control by geography is inalienable to Group strategy of managing its different businesses. It has thus been decided by the central management team to analyse the business across geographies and then by activity. The following geographies have been identified:

- Israel,
- Belgium and Luxembourg (Western Europe),
- France (Western Europe)
- Portugal (Western Europe),
- French Overseas Territories (Antilles and Indian Ocean),
- Other (Switzerland, Africa etc.).

Activities have been split as follows:

- Cable,
- Mobile,
- Others (B2B/Content/etc.).

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**22—Segment analysis (Continued)**

**22.1.1 Operational non-IFRS KPIs**

It has also been decided by the central team that local operational teams in each geography shall report operational KPIs every week and operational and financial KPIs every month using a standard reporting format defined by the central team.

The main operational KPIs that will be tracked will be:

- Subscriber base evolution (both cable and mobile),
- ARPU (Average Revenue per Unit) (cable and mobile),
- Other relevant cost drivers.

These KPIs are benchmark indicators followed throughout the industry and allow for a thorough and accurate analysis of the business and strategic decision making.

**22.1.2 Financial non-IFRS KPIs**

Each local operational company will also report the following financial KPIs by segment:

- Revenues (Cable/Mobile/Other),
- Cost of Sales (Cable/Mobile/Other),
- Capex (Cable/Mobile/Other).

The central team believes that given the uniformity in the accounting and nature of operating expenses and given the experience and competence of the Group in managing operating costs, the main indicator that can vary between business units is the gross margin.

HOT Telecom however will report EBITDA on cable and mobile, in addition to the KPIs mentioned above. This derives from the size of the mobile business and the fact that historically, this business had separate reporting for these two activities and also because local regulation require operators to report the EBITDA on these segments.

Capital expenditure (Capex) is an important indicator to follow, as the profile varies greatly between the two activities:

- The cable business has small fixed Capex requirements and initial Capex is quite low, but variable Capex is high, as an increase in customers drives the cash needs for Customer Premise Equipment (CPE) and installation.
- Mobile Capex is one-off and mainly driven by investment in new mobile sites and licences to operate. Once the Capex is engaged and the business operational, there is limited Capex requirement.

Thus, the central team places a great emphasis on the proper tracking of capital expenditures and reviewing them against the costs budgeted for the year.

Management believes that operations in Switzerland and activities such as B2B sales are not yet substantial enough to warrant a separate reporting segment and will be reported under 'Others'. However, as these activities grow, it is intended that they are also reported under a separate segment with relevant operating KPIs specific to the activity. Financial KPIs are expected to remain the same. The same applies to any new line(s) of business that the Group may decide to venture into (for e.g., content etc.).

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**22—Segment analysis (Continued)**

**22.2 Regional specificities**

**22.2.1 Israel**

Israel is currently an important contributor to the Group revenues and EBITDA and, for this reason, is classified as a separate region. Apart from this, this region has particularities that differentiate it.

It is characterised by a high broadband and cable penetration and the general population is very technology focussed. The market is maturing but highly regulated, which means that while opportunities for growth exist, they may be limited by specific regulatory challenges and also by high competition, thus leading to price pressures on ARPU development.

Triple play penetration is low and this represents the biggest development path. Customer retention is difficult as contractual terms heavily favour the customer and, hence, price increases, even when coupled with high value content, can be negatively perceived and lead to an erosion of the customer base.

The regulatory environment does not yet allow for quadruple play packages, which heavily restricts achieving full integration and operational synergies with the mobile business. The prevailing political environment in the region can also have adverse impacts on the development of the business, as a deterioration of the situation may have serious repercussions on the market environment and may even lead to physical damage of the infrastructure.

**22.2.2 Belgium and Luxembourg**

Even though Belgium/Luxembourg and Portugal can be considered to be the same sub-region, the challenges posed by these two regions are quite distinctly different.

The Belgian and Luxembourg territories have a high standard of living and well developed economies, which translates into higher prices for services. The markets are quite mature, with high broadband penetration and a high percentage of triple play customers. Customers are willing to pay more for premium services (high ARPU/subs) and hence price pressures are low.

These regions are marked by the presence of many well established cable operators and customer retention is a key factor in maintain strong profit margins.

Given the density and presence of mobile operators, the mobile strategy is driven by MVN operations, which allows the presence of quadruple play packages.

**22.2.3 France**

The French market is a large and mature market with high cable penetration and a large consumer base. French operations represent the oldest and largest part of the cable operations of the combined Group to date.

This region is marked by the presence of many well established cable operators and customer retention is a key factor in maintain strong profit margins. Competition is tough and innovations in cable technology, such as Fiber to the home (FTTH) are driving market growth. Incumbent operators are slowly migrating to fiber optic based networks which gives the Group a head start in capturing the ultra-high speed internet market, given its pre-existing high density cable network.

Given the density and presence of mobile operators, the mobile strategy is driven by MVN operations, which allows the presence of quadruple play packages.

**22.2.4 Portugal**

The Portuguese market is marked by a high concentration of double play subscribers and a mature telecommunications market, which, when coupled with slow economic recovery after the crisis, makes it

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**22—Segment analysis (Continued)**

difficult to achieve high sales growth. This market is marked by high subscriber attrition and downward migration from high to low ARPU offers.

The challenge in Portugal is to maintain a subscriber base and then slowly migrating the customer base from double play to triple play offers.

**22.2.5 French Overseas Territories**

The French Overseas Territories represent an attractive market with high scope of growth in cable operations, owing to relatively limited competition and relatively low cable penetration. There is also a large scope for synergies between the cable and mobile businesses, as triple play penetration remains low and regulatory flexibility allows the marketing of quadruple play options.

Price pressures are low in these markets and customers are willing to pay more for value added services. Double play (TV and Internet) offers are predominant in these regions and the migration of new and existing customers to triple and quadruple play packages in the future will be an important factor in growing sales.

There are other opportunities for growth in the sector, most notably in the e-banking sector.

**Altice Group**

<b>Total Operating expenses</b> . . . . .	<b>(387,2)</b>	<b>(311,1)</b>	<b>(65,2)</b>

The increase in operating expenses at Combined Group level between FY10 and FY11 is mainly explained by the various acquisitions made by the Combined Group in FY11. The acquisition of Coditel Brabant and Coditel S.à r.l. and the change in consolidation method for HOT led to a EUR 114,5 million increase in Technical and Maintenance costs.

- (1) In the prior year, the gain from achieving control is linked to acquisition of Hot Telecom: the amount of the investment in HOT Telecom prior to achieving control, in accordance with the equity method of accounting has been revalued in accordance with the HOT's share price as of the said time, such that in the Altice VII financial statements as of December 31, 2011 income has been recorded on the revaluation of the investment in the affiliate, which became a consolidated company; as a result, HOT's assets and liabilities previously accounted for in accordance with equity method of accounting have been revalued for EUR 133,0 million.
- (2) The increase in expenses from prior periods is mainly explained by fines and penalties paid by HOT relating to the early breakage of mortgage contracts and disputes with other suppliers. The total charge registered was of EUR 22.8 million, offset by a reversal in the provision for these charges for EUR 7.7 million, thus resulting in a net expense of EUR 14.9 million.
- (3) Restructuring costs refer to the non-recurring costs incurred by Cabovisao in the year ended December 31, 2012, arising from the restructuring carried out at this company level, post-acquisition by the Group. The costs engaged are made up entirely of personnel costs and are associated with dismissal indemnities paid to employees.

The compensation given to the managers, in respect of their duties as Chairman of the Executive Board or member of the Executive Board of Altice VII, for the financial year 2012, was EUR 1,7 million compared to EUR 0,9 million for the financial year 2011.

**28—Contractual obligations and commercial commitments**

**28.1 Hot Telecom Commitments**

**28.1.1 Commitments**

- Royalties to the Ministry of Communications and other payments to the government
- a) HOT is committed to pay annual royalties out of its overall income that are chargeable with royalties (hereinafter—the chargeable income) in accordance with the Telecommunications Regulations (Concessions)—1987. In accordance with the Telecommunications Regulations (Telecommunications and Broadcasting) (Royalties)—2001, HOT Telecom is required to pay annual royalties in respect of its income from in country operator services and HOT Mobile is required to pay annual royalties in respect of its radio telephone services (less payments to another license holder in respect of reciprocal connection or roaming services). The royalty rates that HOT, HOT Telecom and HOT Mobile have each been charged to pay in respect of their chargeable income, as aforesaid, stood at 2,5% in 2007, 2% in 2008, 1,5% in 2009 and 1% in 2010. In accordance with a Temporary Order, the annual royalty rate for the years 2011 and 2012 stood at 1,75%.

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**28—Contractual obligations and commercial commitments (Continued)**

- In accordance with the Amendment to the Telecommunications Regulations (Concessions) and the Amendment to the Telecommunications Regulations (Telecommunications and Broadcasting) (Royalties) (Temporary Order)—2012, as from 2013 the royalty rate that is paid by HOT, HOT Telecom and HOT Mobile on its chargeable income, as aforesaid, stands at 0%.
- b) In July 2001 the cables companies, including HOT, entered into a commitment under an agreement with the State of Israel on the subject of a solution to the disputes between the cable companies and the State in respect of the right of each company to operate the existing cables infrastructure in each of the concession areas after the end of the period of the concessions. It was stipulated in the agreement that the State undertakes to waive all of its claims and its rights in respect of the cables infrastructure such that each cables company would be the owner of all of the rights, including property rights, in the cables infrastructure that it held in the area of its concession and that it would have available to it the right to continue to operate it even at the end of the concession period. In consideration for this, it was stipulated that each company was to pay to the State, on an annual basis and for a period of 12 years (commencing on January 1, 2003), its relative share, as determined in the agreement, of an amount that is equivalent to the multiple of certain incomes (as determined in the agreement) of each of the cable companies on a graduated scale (in accordance with the level of income, as aforesaid) at a rate of from 0% to 4%. The relative share of each company can be altered by agreement between the cables companies.
- In addition, it was stipulated that each company is to pay approximately 12% of the overall consideration from the sale of operations that are executed through the cables infrastructure or which touch upon the cables infrastructure (as defined in the agreement) for a period of 12 years. It was also stipulated in the agreement that in so far as HOT has received any amount whatsoever in consideration for the issuance of its shares to the public or to an external investor or in consideration for the sale of shares of another company from among the cables companies, part of the consideration from the issue or the sale, as aforesaid, is to serve as an advance payment for the payment of the relevant portion of the consideration that remains to be paid under the agreement, in accordance with a formula that will be determined by the parties by agreement. It is further stipulated in the agreement that it shall apply to the cables companies or to any company that is split or merged even if structural changes are made of any sort whatsoever, and accordingly, with the completion of the merger, the agreement applies to HOT as a merged company.
- c) In accordance with the Wireless Telegraph Regulations (Licensing, Certification and Levies)—1978, HOT Mobile is required to pay a fixed annual payment for each frequency that it uses. HOT Mobile paid amounts of NIS 26 million and NIS 20 million in respect of the years 2012 and 2011 respectively (an amount of NIS 2 million in respect of December 2011).
- d) The license to operate a broadcasting center: It is stipulated in the broadcasting center operating license that the license holder is to pay a fee for the license at such rates and at such times as may be determined by the Ministry of Communications in accordance with the Communications Law and the Wireless Telegraph Ordinance (New Version)—1972.
- Other royalties.
- a) Within the framework of the Group's routine operations in the broadcasting field, the Group enters into commitments under arrangements and agreements under which the Group pays royalties to various authors' organizations. The amounts of the royalties that have been reflected by the Group within this context in the years 2012, 2011 and 2010 amounted to NIS 42 million, NIS 43 million and NIS 47 million respectively.
- b) On January 30, 2012 a draft of the Authors and Performers Law (Judgment on Royalties Issues) 2012 was placed before the Knesset. The draft law was intended to create a royalties court by empowering one of the District Court Judges to hear cases on royalties issues, royalty rates and disputes in royalty issues (in other words, a dispute on the issue of royalty rates between a collective management entity and a user or users of a repertoire).

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**28—Contractual obligations and commercial commitments (Continued)**

- This draft, if it is accepted, may have an implication for the issue of the payment of royalties to various organizations. As of the date of this report, HOT is unable to assess what the impact of the said legislation will be on its business results, of it is passed.
- A commitment to invest in original productions
- In accordance with the provisions of the Communications Law, the principles of communications and decisions by the Council, HOT is required, inter alia, to invest amounts in original productions at a rate of 8% of its annual income from subscription fees. During the course of the years 2010, 2011 and 2012 HOT complied with the investment rate that is required, as aforesaid.
- It should be noted in this connection that the Communications Law has empowered the Council to determine the rate of investment that is required, provided that it may not exceed 12% and may not fall below 8% of the annual income from subscriber fees. In October 2011 the Council informed HOT that with effect from the year 2012 its income from subscriber fees, which form the basis for the calculation for the requirement to invest in original productions, will be deemed to include all of the payments that are paid by its subscribers in order to record broadcasts and to receive services, including income from users' terminal equipment and the installation thereof, whereas in accordance with the policy adopted by the Council up to such time the inclusion of income from terminal equipment for the purpose of this calculation was made conditional upon a mechanism that was based on the profitability of this income, and in past years the income from users' terminal equipment and the installation thereof was not included in the basis for the calculation for original productions. On January 12, 2012, the Council determined that HOT will be entitled to complete the amount of the additional investment for the year 2012 over three investment years.
- Agreement to deploy and maintain a cables network
- On January 1, 1990 and on May 1, 1989 Tevel International Transmission for Israel Ltd. and HOT Gold & Co. (hereinafter together—The cable companies) entered into commitments under agreements for the provision of planning, installation and maintenance services of the cables network with Bezeq (the provisions of both of the two said agreements are similar, and they will hereinafter in this section be called—the agreement). This agreement was endorsed to HOT Telecom as part of the merger agreement.
- In accordance with the agreement, Bezeq, Tevel and HOT Gold planned the cables network, inter alia, based on Bezeq's available infrastructure, which was deployed in the areas of the concession at the time of the signing of the agreement. Tevel and HOT Gold supplied Bezeq with the base equipment (as defined in the agreement) that comprises the cables network whereas Bezeq supplied the additional equipment (as defined in the agreement) that is used for setting up the cables network.
- In accordance with the agreement, a cables network was set up and deployed in a number of major cities across Israel, and Bezeq conducts the routine maintenance of the cables network and also provides malfunction repair services. The provisions of the agreement also relate, inter alia, to the possibility of the expansion of the cables network to additional facilities, the connection of new houses and of new neighborhoods.
- The agreement will remain in force for the length of the period of the concession, and will continue to be in force if the concession or the rights in the concession are transferred or afforded to another, in whole or in part and directly or indirectly, during the course of the original concession period and during the extension of that period or after the end of it. Bezeq is only entitled to cancel the agreement in respect of a breach for which notice has been given in writing, and which has not been repaired within six months.
- A consideration mechanism was set in the agreement, according to which HOT Telecom pays sums against the performance of Bezeq's commitments to setup, to maintain and to provide malfunction repair services, which are calculated in accordance with the length of the cables networks that have

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**28—Contractual obligations and commercial commitments (Continued)**

been deployed, in accordance with the various types of networks and it also makes non-recurring payments in respect of certain activities. In accordance with the agreement, the amount of the consideration in respect of the length of the cable, as aforesaid, is reduced by approximately 65% after 12 years from the time of the handing over of each section.

- The total of the expenses recorded in HOT's accounting records for the network services payable to Bezeq in the years 2012, 2011 and 2010 amounted to NIS 48 million, NIS 46 million and NIS 43 million, respectively.
- It should be noted that from time to time, during the routine course of business, disputes arise in connection with the implementation of the agreement, inter alia in respect of the division of the costs that are involved in the performance of some of the services that are supplied by the Bezeq company under the agreement, however the parties are continuing to operate in accordance with the agreement. It is further noted that over the course of the years additions have been signed to the agreement, primarily in connection with enhancement and upgrading work on the cables network.
- Commitments to lease assets
- The Group has commitments under agreements for the leasing of buildings and motor vehicles for various periods up to the end of the year 2020. The minimum future rental fees in respect of the rental contracts as of December 31, 2012, exclusive of the option period, are as follows:

	NIS in millions	EUR in millions
2013 .....	186	37,7
2014 .....	148	30,0
2015 .....	120	24,3
2016 .....	86	17,4
2017 and thereafter .....	304	61,7
<b>Total</b> .....	<b><u>844</u></b>	<b><u>171,1</u></b>

- On July 19, 2011 HOT's Board of Directors approved a commitment under agreements for the execution of the upgrading of the fiber optic infrastructure (FTTX). In accordance with the said commitment, HOT Telecom will purchase advanced optic equipment, work and services from third parties, in order to upgrade the infrastructures, including maintenance services, in accordance with the deployment and the timetables that will be agreed upon between the parties from time to time. The upgrading of the infrastructure, as aforesaid, will enable the expansion of the traffic capacity on the network, in favor of the supply of enhanced VOD services, the increasing of the number of channels that the Group can offer to its subscribers, faster internet services and it will also enable HOT to deal with increased demand for traffic capacity on the network in the future, which is expected to arrive as a result of the increased use of applications that require a considerable band width.
- On May 27, 2010 a facility agreement was signed between HOT Mobile and Motorola for the purchase, licensing and installation of the infrastructure equipment (hardware and software) which is required in order to operate HOT Mobile's iDEN network. The agreement is in force for a period of five years from the time that it was signed (hereinafter -the initial period) and it will be renewed for additional periods of one year each (or for a longer period that is agreed between the parties), unless a party to the agreement gives notice to the other party, 90 days before the end of the initial period, or one of the extension periods, as the case may be, of its desire to terminate the commitment. The agreement arranged the commitment between the parties for the purpose of the execution of the work orders that will be presented to Motorola, from time to time, by HOT Mobile for the purpose of the supply of equipment or software for the iDEN network.
- Within the framework of the agreement, Motorola has undertaken that during the initial period it will hold an inventory of equipment that will enable it to immediately supply the components that are

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**28—Contractual obligations and commercial commitments (Continued)**

required for the proper functioning of HOT Mobile's iDEN network, and so that it will be capable of supplying HOT Mobile with the maintenance services for the infrastructure equipment and the software that is required to operate the network for a period of seven years from the signing of the agreement, subject to the purchase of the said maintenance services by HOT Mobile.

- In consideration for Motorola's commitment to sell the equipment and the licenses to HOT Mobile at the prices that are denoted in the agreement, HOT Mobile has made a commitment to purchase the infrastructure equipment and the software that is required to operate the iDEN network exclusively from Motorola alone during the period of the agreement.
- As part of the commitment with Motorola in respect of the infrastructure for the iDEN network, HOT Mobile has signed on a system maintenance agreement with Motorola as well as on an agreement for the maintenance of the system's hardware, which arrange the manner of the repair of malfunctions and the provision of support by Motorola for HOT Mobile's iDEN network.
- In December 2011 the system maintenance agreement was extended for an additional period of three years, until the end of 2014.
- On May 26, 2010, as part of the sale of the control in HOT Mobile to Altice, HOT Mobile entered into a commitment under an agreement with Mobility for the purchase of terminal equipment that supports the iDEN technology.
- The agreement is in force for a period of 5 years and it will be renewed for additional periods of one year each time unless a party to the agreement gives notice to the other party, 60 days before the end of the initial period, or one of the extension periods, as the case may be, of its desire to terminate the commitment.
- The agreement arranged a mechanism for the ordering and supply of the terminal equipment (including quarterly forecasts by HOT Mobile) with HOT Mobile being responsible for the importing of the terminal equipment from abroad.
- The supplier has received an option and the right of first refusal for the repurchase from HOT Mobile of all of the terminal equipment that it may be holding at the time of the termination of the agreement, in accordance with a mechanism that was set in the agreement.
- Within the framework of the preparations for the setting up of the new network, HOT Mobile entered into commitments under agreements with various suppliers for the purchase of terminal equipment that it will use on the UMTS network.
- On June 16, 2011 HOT Mobile entered into a commitment with Nokia Siemens Networks Israel Ltd. (hereinafter—the supplier) for the setting up of the infrastructure for HOT Mobile's new network.
- In accordance with the terms of the agreement, the supplier will plan and set up the new network for HOT Mobile as a turnkey contractor. In the first stage, which was completed in May 2012, the supplier completed the setting up of the systems that are required for the purpose of operating the new system with a coverage of approximately 30%, which is in excess of the extent of the coverage which is HOT Mobile required to provide (20%) in accordance with the terms of the tender within two years from the time of the receipt of the new radio telephone license. After the completion of the first stage, HOT Mobile has expanded and is expanding the new network, both from the perspective of the coverage and also from the perspective of the LTE capability.
- The agreement arranges the work arrangements between the supplier and HOT Mobile, the manner of the handing over of the system to HOT Mobile and the manner of the maintenance of the system by the supplier.
- The agreement is in force for 15 years, and it contains warranties for the proper functioning of the components of the system for a period of two years from the time of the handing over of each component in accordance with the agreement, as well as warranties for the entire period of the agreement that the system will operate in accordance with the system requirements that HOT

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**28—Contractual obligations and commercial commitments (Continued)**

Mobile placed (in terms of availability, functioning and capacity), subject to their being a maintenance agreement in force between the parties.

- In consideration for the completion of the first, second and third stages in accordance with the agreement and the performance of all of the supplier's commitments by the year 2013, the Group will pay the supplier an amount of USD 52 million, which amount does not include the expansion of the coverage and the capacity over and beyond what is stipulated in the agreement. The overall consideration in the agreement for all of the services up to the year 2017 is approximately USD 120 million, according to HOT Mobile's assessment.

On January 31, 2013, an addition to the agreement was signed, within the framework of which the payments that were supposed to be paid under the agreement have been deferred to a later date, subject to HOT Mobile's signing on debt notes, with HOT acting as guarantor. Within this framework, HOT Mobile has signed on confirmation for the final receipt of significant portions of the said project.

- On October 27, 2011 an agreement was signed between HOT Mobile and Comverse Ltd. (hereinafter—Comverse), in accordance with which Comverse will supply HOT with a BSS system (a billing system that is integrated with the customer relations management (CRM) system) (hereinafter—The system) and Comverse will also supply HOT with hardware, software and services, including the operation and maintenance of the system. In consideration for Comverse's services, HOT Mobile will pay an amount of approximately USD 12.5 million. In January 2012, the parties signed on an addition to this agreement, in accordance with which Comverse is committed to allocating seven additional employees to be available for the project (instead of the manpower that HOT had to make available for the project), for a payment of USD 500 000.
- On October 6, 2005, HOT Mobile won a tender for the provision of Mobile services to the IDF. Following Cellcom's winning of a tender, which was published by the Ministry of Defense in 2012 for the selection of a new mobile operator for the IDF, in the third quarter of 2012, a gradual transfer of IDF customers to Cellcom's network began. HOT Mobile's revenues from the IDF in the years 2010, 2011 and 2012 amounted to NIS 139,3 million, NIS 112.4 million and NIS 83,7 million, respectively, which constituted approximately 13,5%, 12,5% and 9,8% of HOT Mobile revenues in the said periods, respectively. Of the said revenues, an amount of NIS 10 million a year was in respect of the PTT services, which are supplied to the IDF without reference to the tender.

On May 30, 2012, HOT Mobile International Communications Ltd (hereinafter—HOT International), a wholly owned subsidiary of HOT Mobile's, received an operator's license for the provision of international telecommunications services (hereinafter—The international license). On January 6, 2013 HOT International received operational approval for starting to provide international telecommunications services in accordance with the international license and on January 8, 2013, notification of the opening of the services was sent to all of the operators.

- Marketing and distribution (for iDEN technology products and services)
- In 2012 HOT Mobile operated through marketing and distribution channels, which included: sales personnel, who were employed by HOT Mobile, inter alia, through services and sales centers, which HOT Mobile operates across the country, a national distribution channel that works "door to door" using an external contractor and authorized marketing agents. In 2012 and as of the date of this report, HOT Mobile distributes its products via sales staff who are employed by it, the Israel Post company in some 200 branches and some 150 branches of the Menta chain in the Delek Group's filling stations. In the ultra-orthodox sector, HOT Mobile operates through an external marketer who markets HOT Mobile's products and services in that sector.
- In addition, HOT Mobile is acting to recruit private subscribers through its business/institutional customers, by way of offering attractive packages and paths to the family members of the business/institutional customers.

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**28—Contractual obligations and commercial commitments (Continued)**

- Commitment with an external marketer
- As aforesaid, in 2012, one of the distribution channels for the Group's products and services in the iDEN field of operations was through an external contractor, S.D.M. Sales and Direct Marketing Ltd. (hereinafter—SDM), which provided HOT Mobile with marketing services for the iDEN products, though the operation of sales staff in order to market the iDEN products in the private and business markets, by operating a nationwide set-up, using a specialist marketing method involving initiated personal approaches whilst going door to door.
- The consideration that SDM is entitled to is based on a fixed monthly consideration and commissions which are derived from SDM's results in respect of the sales of the iDEN products.
- The original commitment was up to December 31, 2013. However, on December 6, 2012 a compromise arrangement was signed between HOT Mobile and SDM, in accordance with which HOT Mobile will pay SDM an amount of NIS 8 million and the commitment between the parties will be terminated, with each party waiving its claims against the other party.
- Marketing and distribution (for UMTS technology products and services)
- The marketing and distribution of UMTS products is performed by means of HOT Mobile's and HOT's marketing and distribution channels and through third parties, within the restriction places in the radio telephone license.
- Capitalized leasing rights on land from the Israel Lands Authority
- Capitalized leasing rights on land from the Israel Lands Authority over an area of 20 713 square meters on which the Group's buildings are located. The amount that is attributed to the capitalized rights is presented as a prepaid expenses in respect of operating leases in the balance sheet and is amortized over the period of the leases. The lease periods end in the years 2021-2045.

**28.1.2 Guarantees and liens**

- As collateral for HOT's commitments vis-à-vis the parent company under the credit agreement with it, the following charges have been placed
- A floating charge on HOT's assets.
- A fixed charge on the shares in the subsidiary companies.
- HOT Telecom has given a charge on some of its assets.
- The said charges are in an unlimited amount, vis-à-vis HOT, the investee partnership—HOT Telecom and the subsidiary company—HOT Net, jointly and severally.
- As collateral for the commitments of HOT, the investee partnership HOT Telecom and the subsidiary company HOT Net, first ranking floating charges have been placed in unlimited amounts in favor of the borrowers, on all of the chargeable assets and the rights of companies in the Group and a fixed charge on the goodwill and the unpaid share capital of the Companies in the Group
- As collateral for HOT's commitments in respect of the royalties agreement, as set forth in section B(1) above, a second ranking floating charge has been placed in favor of the State.
- As collateral for the Group's commitments, as determined in the Group's licenses and in the decisions by the Director and the Council, the Group has issued a number of guarantees, as follows:
- Bank guarantees to the Ministry of Communications, in respect of the national operator license that was granted to HOT Telecom amounting to 8,4 million Dollars, in force until December 2017 and December 2025.

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**28—Contractual obligations and commercial commitments (Continued)**

- Guarantees in an amount of NIS 34 million (index-linked) to the Council in respect of the broadcasting license, which are in force until April and June 2014.
- A bank guarantee in an amount of 2 million Dollars to the Director in respect of HOT's compliance with the terms of the merger as determined by the Director, which is in force until December 2014.
- A bank guarantee in an amount of NIS 695 million, which was made available by HOT Mobile within the framework of its win in a tender for the allocation of frequencies and as collateral for its commitment in favor of the Ministry of Communications, which is in force until December 31, 2018.
- In accordance with the wording of the guarantee that was written by the Ministry of Communications, there is no restriction in the guarantee on the endorsement, assignment or transfer of the guarantee to a third party. Furthermore, HOT Mobile has a duty to bear any expense that is involved in the exercise or the extension of the guarantee.
- In the light of the aforesaid terms, HOT Mobile has signed on a letter of undertaking and endorsement vis-à-vis a bank, according to which HOT waives and is prevented from raising any claim against the bank in connection with the wording of the said guarantee, and it will indemnify and compensate the bank in respect of any expenses incurred for the purpose of conducting administrative and legal proceedings in connection with the said issues.
- On November 28, 2011, HOT Mobile and the former parent company signed on an irrevocable letter of commitment vis-à-vis Bank Hapoalim Ltd. (hereinafter the bank). The letter of undertaking was signed as a condition for the making available of a bank guarantee in an amount of NIS 695 million, as collateral for HOT's commitments vis-à-vis the Ministry of Communications within the context of HOT's win in a frequencies tender for the setting up of a third generation mobile network (UMTS).
- The Group has given a number of bank guarantees to various bodies in an overall amount of NIS 59 million.
- Guarantees to HOT Telecom
- The Group has given guarantees in a cumulative amount of 23 million Dollars as collateral for payments by HOT Telecom to the Cisco company.
- The Group has given a guarantee in an amount of NIS 242 million (index-linked) as collateral for HOT Telecom's commitments vis-à-vis an interested party with which it has signed a rental agreement.
- There exist mutual guarantees between HOT and companies in the Group, in unrestricted amounts, in favor of financial institutions as collateral for the repayment of the Group's liabilities to those financial institutions.

**28.1.3 Other contingent liabilities**

During the routine course of business, lawsuits have been filed against the companies in the Group and various legal proceedings are outstanding against it (hereinafter, "The Legal Claims").

In the opinion of the management of the Company and each of its subsidiaries, as at signature date, the amount of the additional exposure, in an amount of approximately NIS 3 billion (EUR 628,5 million) (over and above the provisions that have been recorded in these financial statements), as a result of the legal proceedings that have been filed against the Company's Subsidiaries on various matters, is as follows:

- a. An amount of approximately NIS 1.7 billion (EUR 356,1 million) in respect of claims, in respect of which in the assessment of the Company's management, in reliance on the opinion of its legal advisors, the chances of their being accepted do not exceed 50%.
- b. An amount of approximately NIS 0,1 billion (EUR 20,9 million) in respect of claims, which it is not yet possible, at this stage, to make an assessment, the main ones being in connection with applications for the approval of class actions that were presented close to the date of the financial statements

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**28—Contractual obligations and commercial commitments (Continued)**

- c. An amount of approximately NIS 1,42 billion (EUR 297,5 million) in respect of claims which, in the assessment of the Company's management, in reliance upon the opinions of its legal advisors, their chances of being accepted exceed 50% and in respect of which a provision has been recorded in accordance with the assessments of the managements of the Company's Subsidiaries, as aforesaid.

The following is an abbreviated summary of the Group's contingent liabilities effective as of signature date, in accordance with groupings having similar characteristics:

The nature of the lawsuit	The amount of the additional exposure in excess of the provision recorded as of signature date	The amount of the lawsuits that cannot be assessed and which were presented close to the date of the financial statements (primarily applications for approval as class actions)
	(in millions of euros)	
Customers . . . . .	574	21
Lawsuits after the balance sheet date in respect of customers . . . . .	33	33
Suppliers . . . . .	13	5
Employees . . . . .	1	—
The merger transaction . . . . .	50	—
<b>Total</b> . . . . .	<b>671</b>	<b>59</b>

**28.2 Cabovisao commitments**

**28.2.1 Contingent assets**

During the year ended December 31, 2012, Cabovisao made the decision not to pay any fees charged by municipalities, in addition to TMDP (Fees due for rights and charges related to the deployment of, passage within or crossing of systems, equipment and other resources of providers of publicly available electronic communications networks and services at a fixed location, of a public or private municipal domain). On December 31, 2012, Cabovisao had outstanding claims against several municipalities, totaling EUR 3,6 million. To present date, Cabovisao received 102 004 Euros from seven municipalities.

**28.2.2 Contingent liabilities**

**28.2.2.1 Bank guarantees**

	December 31, 2012 (in millions of euros)
Tax Authority . . . . .	8,4
City Council . . . . .	0,9
Third Parties . . . . .	0,0
<b>Total</b> . . . . .	<b>9,3</b>

**28.2.2.2 Real guarantees**

On December 31, 2012, Cabovisao issued a bond amounting to EUR 25 million which was fully underwritten by Goldman Sachs International together with a financial first degree collateral of all bank accounts held by Cabovisao (except the bank deposit account in HSBC France and a current account with Caixa Geral de Depositos, S.A.) and pledge the shares representing Cabovisao's share capital and equity holders' rights.

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**28—Contractual obligations and commercial commitments (Continued)**

**28.2.2.3 Other contingent liabilities**

As a result of the refusal by Cabovisao to pay the municipal taxes referred to above (since September 2010), the municipality of Almada initiated a process executive for payment of fees from 2006 to 2009, amounting to approximately EUR 0,7 million. It is the understanding of the Board of Directors, based on the opinion of its legal counsel, that the likelihood of loss is very low in the process.

**28.2.2.4 Contingent assets**

Cabovisao has outstanding claims against various municipalities for municipal taxes that it deems were charged illegally. The amount of such outstanding claims was EUR 3.6 million for the year ended December 31, 2012, of which EUR 0,1 million have been received from seven municipalities, while recovery is on-going with others.

**28.3 Coditel Holding commitments**

As of December 31, 2012, off balance sheet commitments include:

The shares, bank accounts and receivables of Coditel Brabant S.p.r.l. and Coditel S.à r.l. have been pledged. Coditel Holding is not allowed to pledge these assets as security for other borrowings or to sell them to another entity.

**28.4 Others**

The shares, bank accounts and receivables of Altice VII and its following subsidiaries Altice Finco S.A., Altice Financing S.A., Cool Holdings Ltd S.A., H.Hadaros 2012 Ltd., Hot Telecommunications System Ltd, Cabovisao S.A., Altice Blue Two S.A.S. and its subsidiaries, Coditel Holding S.A. and its subsidiaries have been pledged for the issued Senior Secured Notes and Senior Notes. The Company is not allowed to pledge these assets as security for other borrowings or to sell them to another entity.

**29—Going concern**

The Combined Group was formed by a series of acquisitions, mainly funded through external borrowings. In addition, the construction and subsequent modernization of the network have required substantial investments. These two factors explain the structure of the statement of financial position and the proportion of financial liabilities in relation to total equity as well as the significant amount of amortization expense and net finance cost.

Currently, the Combined Group services its debt and funds its investments through net operating cash flows. The negative working capital position is structural and follows industry norms. Customers generally pay subscription revenues early or mid-month, with short DSOs (Days of Sales Outstanding) and suppliers are paid in the beginning of the following month, thus generating a negative working capital, as evidenced by the difference in the level of receivables and payables.

Under these conditions and given the cash flow projections, Management believes that the Combined Group will be able to finance its cash requirements for the next twelve months from the date of approval of the Combined Financial Statements for the three years ended December 31, 2012 and meet its financial debt obligations during the period.

As a result, the Combined Financial Statements of the Combined Group for the three years ended December 31, 2012 have been prepared on a going concern basis.

**30—Events after the reporting period**

On May 31, 2013, Altice Holdings entered into a sale and purchase agreement to acquire Winreason (the “ONI Purchase Agreement”), the owner of the Portuguese telecommunications group, ONI, pursuant to which Cabovisao purchased all of the outstanding shares of ONI and refinanced the outstanding indebtedness of ONI (the “ONI Transaction”). The deal was consummated on August 8, 2013.

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**30—Events after the reporting period (Continued)**

On June 7, 2013, Altice VII and certain of its subsidiaries entered into a sale and purchase agreement (the “Outremer Purchase Agreement”) with the owners of OMT Invest and certain of its affiliates pursuant to which (i) the Combined Group had agreed to purchase all of the outstanding share capital of OMT Invest other than shares to be contributed separately pursuant to the Outremer Investment Agreement on completion of the Outremer Transaction and (ii) all of the outstanding indebtedness of OMT Invest and its subsidiaries were to be refinanced using a portion of the proceeds of the June 24, 2013 bond issuance (see below). The parties to the Outremer Purchase Agreement entered into an investment agreement (the “Outremer Investment Agreement”) pursuant to which (i) the Combined Group contributed all of the outstanding share capital of Le Cable Martinique and Le Cable Guadeloupe and (ii) managers of OMT Invest contributed all of the outstanding shares of OMT Invest not sold to the Combined Group under the Outremer Purchase Agreement. The transaction was completed on the July 5, 2013.

On June 14, 2013, Altice Finco issued EUR 250 million aggregate principal amount of its 9% senior notes due 2023 (the “2013 Senior Notes”).

On June 24, 2013, Altice Financing entered into a senior secured term loan credit facility (as amended from time to time, the “2013 Term Loan Facility”) which provides for U.S. dollar term loans (the “2013 Term Loans”) up to an aggregate principal amount equivalent to USD 1 034 million. Altice Financing may draw under the 2013 Term Loan, in up to four tranches, at any time on or prior to November 30, 2013, as long as, among other things, the incurrence of the indebtedness would have been permitted by the covenants in the existing Altice Financing debt documents. On July 2, 2013 and July 5, 2013, Altice Financing borrowed USD 584,2 million and U.S. dollar-equivalent USD 81,9 million under the 2013 Term Loan (the “First Draw”). The proceeds, together with the proceeds of the 2013 Senior Notes and cash on the balance sheet of the Combined Group were applied to complete the Cabovisao Refinancing, the Coditel Refinancing, the Le Cable Refinancing and the ABO Refinancing on July 2, 2013 (described below), and the Outremer Transaction on July 5, 2013.

On March 7, 2013, Altice VII purchased the 40% remaining shares held by Codilink S.à r.l in Altice Portugal S.A..

**Cabovisao Refinancing**

On July 2, 2013, Altice Financing repaid the outstanding indebtedness under the existing Cabovisao Bridge Facility of EUR 203 million (the “Cabovisao Refinancing”).

**Coditel Refinancing**

In July 2, 2013, Coditel Holding prepaid approximately EUR 7 million of its EUR 138 million indebtedness outstanding under the existing Coditel Senior Facility and Altice Holdings purchased substantially all of the remaining interests of the existing lenders under the existing Coditel Senior Facility.

**ABO Refinancing**

On July 2, 2013 ABO refinanced approximately EUR 70 million of its existing indebtedness to third parties (the “ABO Refinancing”).

**WSG and MTVC Refinancing**

WSG and MTVC are indirect subsidiaries of the Combined Group. On July 2, 2013, Altice Pool refinanced approximately (x) EUR 8 million of indebtedness of MTVC and (y) EUR 14 million of indebtedness of WSG (collectively, the “Le Cable Refinancing”).

**Reduction of Guarantees to the State of Israel**

HOT Mobile has informed the Ministry of Communications that as of September 26, 2013, it had reached an average market share in the private sector of 11.3%, constituting an addition of 9.52% on HOT

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**30—Events after the reporting period (Continued)**

Mobile's market share at the time of the expansion of the general license for the provision of mobile radio telephone services under the cellular method (hereinafter—the license), on September 26, 2011.

In the light of HOT Mobile achieving the market share that is required as of the time of the first check, HOT Mobile has requested the Ministry to reduce the amount of the guarantee that was deposited by HOT Mobile, from an amount of NIS 695.0 (€144.6 million) million to an amount of NIS 80 (€16.6 million) million. This was in addition to an amount of NIS 10.0 (€2.0 million) million that it paid upon the receipt of the license.

As of November 21, 2013, the response of the Ministry of Communications has been received and they approved the reduction of Hot Mobile guarantee from NIS 695 Million to NIS 80 Million.

**Acquisition of Ma Chaîne Sport and Sportv**

On October 4, 2013, Altice IV and Altice VII entered into sale and purchase agreements relating (i) to the sale on the same day by Altice IV and Valemi Corp of their respective shareholding (of approximately 65% and 35%, respectively) in Sportv S.A. (a producer of sport related content) to Ma Chaîne Sport S.A.S (a producer of sports related content) and (ii) to the sale on the same day by Altice IV and Valemi Corp of all or part of their respective shareholdings (of approximately 68% and 32%, respectively) in Ma Chaîne Sport S.A.S to Altice VII. In addition, on October 10, 2013, the general shareholders' meeting of Ma Chaîne Sport S.A.S decided on a capital decrease of €5.0 million by way of a share buy-back of the remaining shares in Ma Chaîne Sport S.A.S held by Valemi Corp which was not sold under the sale and purchase agreement. This capital decrease has been completed on November 8, 2013. As a result of this transaction, Altice VII now holds all of the outstanding equity interests in Ma Chaîne Sport S.A.S which in turn holds 100% of Sportv S.A.. In 2012, Ma Chaîne Sport S.A.S. and Sportv S.A. generated EBITDA of €9.0 million and €0.8 million respectively and had an EBITDA margin of 56.7% and 62.5% respectively.

As this is a common control transaction, the requirements of IFRS 3 in relation to acquisition accounting shall not be applicable and it is expect that the Combined Group shall elect to utilise the pooling-of-interest method to record this acquisition.

**Acquisition of the Mobius Group**

On October 19, 2013, Altice Blue Two (a subsidiary of Altice VII) entered into an agreement pursuant to which Altice Blue Two will acquire the Mobius Group (the "Mobius Acquisition"). The Mobius Group is a telecommunications operator in the Overseas Territory of La Reunion, providing Internet access to professional clients under the "Mobius Technology" brand and double and triple play services based on xDSL technology to residential customers under the "IZI" brand. The consummation of the Mobius Acquisition is expected to occur in the first quarter of 2014 and is subject to the satisfaction of customary closing conditions, including regulatory approval. Pursuant to an investment agreement dated October 19, 2013, certain managers of the Mobius Group have agreed to reinvest a portion of the proceeds received from the Mobius Acquisition in Altice Blue Two. As a consequence of such reinvestment, the equity interest held by Altice Caribbean in Altice Blue Two will be reduced to approximately 75%.

The consideration paid, net of reinvestment of the Managers of Mobius, amounts approximately €21.0 million.

**Network Sharing Agreement**

On November 8, 2013, HOT Mobile entered into a network sharing agreement (the "Network Sharing Agreement") with Partner Communications Company Ltd. Pursuant to the terms of the Network Sharing Agreement, HOT Mobile and Partner will each own 50% of a newly formed limited partnership, which shall hold, develop and operate an advanced shared mobile network for both companies. Network Sharing Agreement enables HOT Mobile and Partner to share antennas and frequencies, and facilitates

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**30—Events after the reporting period (Continued)**

optimum utilization of the spectrum. In addition, while HOT Mobile and Partner will continue to maintain and operate separate core networks, Partner has agreed to grant HOT Mobile a right of use in its cellular communication network for the purpose of providing nation-wide cellular coverage to HOT Mobile's customers.

Also, as part of the engagement the Combined Group will grant a guarantee on behalf of Hot Mobile Ltd. In addition, in several cases as determined in the agreements the Combined Group will be required to grant an additional guarantee for example in case of a change in the finance ranking of the Combined Group. The Network Sharing Agreement is subject to regulatory approvals of the Ministry of communication and the restrictive trade practices controller, which as of the balance sheet date were not achieved.

As a result of this new agreement, the existing agreement with the existing service provider, Pelephone, will be phased out until the contractual end of the agreement in 2014.

**Tricom Dominican Republic Acquisitions**

On November 26, 2013, Altice Bahamas (a wholly owned indirect subsidiary of Altice VII) and Wirefree Services Denmark A/S (a company controlled by Orange S.A.), entered into a share purchase agreement (the "ODO Acquisition Agreement") pursuant to which Altice Bahamas has agreed to acquire from Wirefree Services Denmark A/S and certain of its affiliates (collectively, the "ODO Sellers"), and the ODO Sellers have agreed to sell to Altice Bahamas, on completion of the ODO Acquisition, all of the outstanding share capital of ODO. The total consideration for the ODO Acquisition is \$1,435 million less certain agreed adjustments and subject to final working capital and cash balances on the Orange Dominicana Acquisition Completion Date. The consummation of the ODO Acquisition is subject to certain conditions, including relevant authorizations or clearances from the Dominican Republic regulatory authority Indotel and is expected to occur in the first quarter of 2014.

On October 31, 2013, Altice Caribbean (a wholly owned indirect subsidiary of Altice VII) and Hispaniola Telecom Holdings, Ltd. (the "Tricom Sellers"), a company controlled by Amzak Capital Management and Inversiones Bahía, entered into agreements (the "Tricom Purchase Agreements") pursuant to which Altice Caribbean or one of its subsidiaries (the "Tricom Purchaser") is expected to purchase all of the outstanding equity interests in each of Tricom S.A. and Global Interlinks Ltd. (together, "Tricom") from the Tricom Sellers (the "Tricom Acquisition"). The aggregate purchase price payable by Altice Caribbean for the Tricom Acquisition is \$405 million. The consummation of the Tricom Acquisition pursuant to the Tricom Purchase Agreements is expected to occur in the first quarter of 2014 and is subject to the satisfaction of customary closing conditions, including the approval of the Dominican Republic regulatory authority Indotel.

The purchase price for the ODO Acquisition and the Tricom Acquisition is expected to be financed from (i) the proceeds received pursuant to the issuance of the 2013 Senior Secured Notes and the 2013 Dollar Senior Notes which are currently being held in escrow and (ii) a portion of the proceeds from the Offering if regulatory approval for the pending acquisitions is received after the Admission, or, to the extent regulatory approval for the pending acquisitions is granted prior to the Admission, an equity contribution to the Altice VII restricted group by a subsidiary of the Company which has obtained committed third party financing to fund such equity contribution. To the extent such regulatory approval for the pending acquisitions is granted prior to the Admission and third party financing is used to complete such acquisitions, a portion of the proceeds from the Offering will be used by the Company to repay such third party financing.

**Issuance of New Senior Notes and New Senior Secured Notes**

Altice VII announced on December 2, 2013 that (i) its subsidiary Altice Finco S.A. would launch an offering of \$400 million in aggregate principal amount of senior notes (the "Senior Notes") and (ii) its subsidiary Altice Financing S.A. would launch an offering of \$1,309 million equivalent in aggregate principal amount of dollar and euro senior secured notes (the "Senior Secured Notes" and, together

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**30—Events after the reporting period (Continued)**

with the Senior Notes, the “Notes”). Proceeds of the Notes are expected to be used to finance (i) its previously announced acquisition of 88% of Tricom S.A. and Global Interlinks Ltd. (together, “Tricom”), which Altice entered into an agreement to acquire on October 31, 2013, and (ii) its previously announced acquisition of a majority ownership in Orange Dominicana S.A. (“ODO”), which Altice entered into an agreement to acquire on November 26, 2013.

ODO provides mobile telephony and wireless broadband services to residential customers in the Dominican Republic and fixed and mobile voice and data services to business customers. Tricom provides pay television, broadband Internet and fixed-line telephony services as well as mobile telephony services in the Dominican Republic.

**Restructuring of Altice Six holding structure**

In anticipation of the increase in shareholding of the newly listed Numericable Group S.A., Altice Six S.A. has performed a restructuring of its subsidiaries to simplify its holding structure. Thus, with effect from November 11, 2013, Altice B2B Lux Holding S.à r.l. was merged with Ypso Holding S.à r.l..

Altice B2B Lux Holding S.à r.l., holds Altice B2B Lux S.à r.l., through which Altice Six S.A. has invested in Completel, the B2B arm of Numericable Group.

On December 18, 2013, the final step of this restructuring was consummated, with the merger of the Altice B2B Lux Holding S.à r.l. with Ypso Holding S.à r.l., thus creating a common company: Ypso Holding S.à r.l. which would directly control the French investment vehicles.

**Numericable IPO**

On November 7, 2013, Numericable Group, the sole cable operator in France and a leading provider of television and broadband Internet services in its network area (“Numericable” and together with its subsidiaries, the “Numericable Group”), announced that it had successfully completed its initial public offering on the regulated market of NYSE Euronext in Paris (Compartment A).

The Global Offering amounted to approximately €652.2 million, consisting of a capital increase of approximately €250 million and a sale of existing shares by Carlyle Cable Investment SC (“Carlyle”) and CCI (F3) S.à.r.l. (“Cinven”) amounting to approximately €402.2 million. An over-allocation option was also offered, which when fully exercised increased the Global Offering to approximately €750 million. The Employee Offering was subscribed for approximately €1 million at €19.84 per share. Trading of the Numericable Group’s shares began on November 8, 2013.

Following the Global Offering and the Employee Offering and after the completion of all concurrent share transfers, and once the over-allotment option was exercised in full, Numericable Group’s share capital was as follows: Altice 30%, Carlyle 26%, Cinven 18% and a public float of 24%.

**Issuance of new margin loan**

On November 7, 2013, Altice Six S.A. entered into a financing agreement for a total amount of EUR 300 million with ING Bank N.V as the agent and Deutsche Bank, HSBC, Credit Agricole, Goldman Sachs and Morgan Stanley as lenders. The purpose of this new debt issuance was to purchase an additional 10% holding stake in Numericable Group S.A. and thus increase Altice Six S.A.’s total stake up to 40% in Numericable Group S.A. thus giving it a controlling stake and allowing full integration of Numericable Group into the accounts of Altice S.A..

As a condition to financing, Altice Six has entered into a pledge agreement with the security agent and bank, following the terms of which it has pledged all the security assets (pertaining to cash and book entries) to an account held at ING Bank Luxembourg to be blocked from immediate effect, post signing of the debt agreement.

**Altice Group**  
**Notes to the combined financial statements (Continued)**

**30—Events after the reporting period (Continued)**

**Increase in shareholding in Numericable Group**

Altice Six announced on November 18, 2013 that it has entered into an agreement with certain funds affiliated with Cinven Ltd. (“Cinven”) and an entity affiliated with Carlyle Group (“Carlyle”) to acquire additional shares in Numericable Group, from Cinven and Carlyle (the “Acquisition”). Altice will hold 40% of shares in Numericable (including shares of Numericable subject to call options granted to Altice by certain existing shareholders) and will have the majority of votes in the board of directors. The Acquisition is subject to (i) antitrust approval and (ii) waiver granted by the Autorité des marchés financiers (AMF) to file a mandatory tender offer and is expected to be completed in the first quarter of 2014.

**2013 Coditel Acquisition**

As of September 30, 2013, Deficom Telecom S.à r.l., a majority owned subsidiary of Altice VII, was the owner of 60% of the outstanding shares of Coditel Holding and various funds advised by Apax Partners MidMarket SAS (the “Coditel Minority Shareholder”) was the owner of the remaining outstanding shares of Coditel Holding. On March 7, 2013, Altice VII and the Coditel Minority Shareholder entered into a purchase and sale agreement (the “Coditel Purchase Agreement”) pursuant to which Altice VII, through a wholly owned subsidiary, agreed to purchase all of the outstanding shares of Coditel Holding held by the Coditel Minority Shareholder (the “2013 Coditel Acquisition”). The 2013 Coditel Acquisition was consummated on November 29, 2013 and was funded in part by using the remaining amounts available under the 2013 Term Loan.

**Other Transactions**

The Combined Group intends to designate Green Datacenter and Auberimmo as unrestricted subsidiaries in accordance with the terms of our debt instruments and upon such designation these entities will not be subject to the covenants under the terms of our debt instruments.

The Combined Group is in talks with the minority stakeholders in Outremer Telecom, to study the possibility of exchanging the minority interests currently held by the Management and Managers of Outremer Telecom in Altice Blue Two S.A.S against shares to be issued by the listed entity, Altice S.A.

**ALTICE S.A.**

**Unaudited Illustrative Aggregated  
Selected Combined Financial Information as of and  
for the years ended December 31, 2012 and  
December 31, 2011**

To the Board of Directors of  
Altice S.A.  
3, boulevard Royal  
L-2449 Luxembourg

**ASSURANCE REPORT OF THE REVISEUR D'ENTREPRISES AGREE ON THE  
COMPILATION OF UNAUDITED ILLUSTRATIVE AGGREGATED SELECTED COMBINED  
FINANCIAL INFORMATION**

We have completed our assurance engagement to report on the compilation of the Unaudited Illustrative Aggregated Selected Combined Financial Information of Altice S.A. (the "Company") by its Board of Directors (the "Board of Directors"). The Unaudited Illustrative Aggregated Selected Combined Financial Information consists of selected statement of income and cash flow items for the years ended December 31, 2011 and December 31, 2012 (the "Selected Items") and related notes as set out in the Offering Memorandum issued by the Company on or around April 9, 2014. The applicable criteria on the basis of which the Board of Directors has compiled Unaudited Illustrative Aggregated Selected Combined Financial Information are described in Note 1 thereto.

The Unaudited Illustrative Aggregated Selected Combined Financial Information has been compiled by the Board of Directors to illustrate the impact of the transactions set out in Note 1 on the Selected Items as if the transactions described in Note 1 (the "Transactions") had taken place on January 1, 2011. As part of this process, the Selected Items pertaining to the Company have been extracted by the Board of Directors from the Company's combined financial statements as of and for the years ended December 31, 2012 and December 31, 2011 on which an audit report has been published. Also, the Selected Items pertaining to the entities involved in the Transactions have been extracted by the Board of Directors from the relevant financial statements described in note 1 to the Unaudited Illustrative Aggregated Selected Combined Financial Information.

*Responsibility of the Board of Director for the Unaudited Illustrative Aggregated Selected Combined Financial Information*

The Board of Directors is responsible for compiling the Unaudited Illustrative Aggregated Selected Combined Financial Information in accordance with the basis of preparation described in Note 1.

*Responsibility of the réviseur d'entreprises agréé*

Our responsibility is to express an opinion, about whether the Unaudited Illustrative Aggregated Selected Combined Financial Information has been compiled, in all material respects, by the Board of Directors in accordance with the basis of preparation described in Note 1.

We conducted our engagement in accordance with International Standard on Assurance Engagements (ISAE) 3420, *Assurance Engagements to Report on the Compilation of Pro Forma Financial Information Included in a Prospectus*, issued by the International Auditing and Assurance Standards Board. This standard requires that the *réviseur d'entreprises agréé* complies with ethical requirements and plans and performs procedures to obtain reasonable assurance about whether the Board of Directors has compiled, in all material respects, the Unaudited Illustrative Aggregated Selected Combined Financial Information in accordance with the basis of preparation described in Note 1.

For purposes of this engagement, we are not responsible for updating or reissuing any reports or opinions on any historical financial information used in compiling the Unaudited Illustrative Aggregated Selected Combined Financial Information, nor have we, in the course of this engagement, performed an audit or review of the financial information used in compiling the Unaudited Illustrative Aggregated Selected Combined Financial Information.

The purpose of the Unaudited Illustrative Aggregated Selected Combined Financial Information included in a prospectus is solely to illustrate the impact of significant events or transactions on unadjusted financial information of the entity as if the events have occurred or the transactions had been undertaken at an earlier date selected for purposes of the illustration. Accordingly, we do not provide any assurance that the actual outcome of the events or transactions at any date would have been as presented.

A reasonable assurance engagement to report on whether the Unaudited Illustrative Aggregated Selected Combined Financial Information has been compiled, in all material respects, in accordance

with the criteria within a defined basis of preparation involves performing procedures to assess whether the applicable criteria used by the Board of Directors in the compilation of the Unaudited Illustrative Aggregated Selected Combined Financial Information provide a reasonable basis for presenting the significant effects directly attributable to the events or transactions, and to obtain sufficient appropriate evidence about whether:

- The related pro forma adjustments give appropriate effect to those criteria; and
- The Unaudited Illustrative Aggregated Selected Combined Financial Information reflects the proper application of those adjustments to the unadjusted financial information.

The procedures selected depend on the judgment of the *réviseur d'entreprises agréé*, having regard to the *réviseur d'entreprise agréé*'s understanding of the nature of the company, the event or transaction in respect of which the Unaudited Illustrative Aggregated Selected Combined Financial Information has been compiled, and other relevant engagement circumstances. The engagement also involves evaluating the overall presentation of the Unaudited Illustrative Aggregated Selected Combined Financial Information.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### *Opinion*

In our opinion, the Unaudited Illustrative Aggregated Selected Combined Financial Information has been compiled, in all material respects, in accordance with the basis of preparation described in Note 1 thereto.

#### *Restriction on distribution and use*

The Unaudited Illustrative Aggregated Selected Combined Financial Information has been prepared for the purposes of inclusion within the Offering Memorandum issued by the Company on or around April 9, 2014. As a result, the Unaudited Illustrative Aggregated Selected Combined Financial Information may not be suitable for any other purpose. Our report has been prepared solely for inclusion in the aforementioned Offering Memorandum and may not be suitable for any other purpose.

## Altice S.A.

### Notes to the unaudited illustrative aggregated selected financial information

#### 1—Basis of preparation

The accompanying selected items from the aggregated statements of income and aggregated statements of cash flows as of and for the years ended December 31, 2011 and 2012 (collectively, the “Unaudited Illustrative Aggregated Selected Combined Financial Information”) present an aggregation of the corresponding amounts as derived from the audited combined financial statements of Altice S.A. or its predecessor entities Altice Six S.A. and Altice VII S.à r.l. (the “Company”) as of and for the years ended December 31, 2011 and 2012 (the “Historical Financial Statements”), the audited or reviewed financial information of each of the business undertakings acquired between January 1, 2011 and October 15, 2013; with the exception of the acquisitions described in the following paragraph; if such amounts are not already included within the Historical Financial Statements (the “Pre-Acquisition Financial Information”) and any adjustments needed to align the Pre-Acquisition Financial Information with the accounting policies adopted for the Historical Financial Statements. Such adjustments are made where the accounting policy elections used for the Pre-Acquisition Financial Information differ substantially from the accounting policies used for the purposes of the Historical Financial Statements. The Unaudited Illustrative Aggregated Selected Combined Financial Information has not been audited or reviewed.

The Unaudited Illustrative Aggregated Selected Combined Financial Information has been prepared for illustrative purposes. It has not been prepared in accordance with Regulation S-X under the U.S. Securities Act nor in accordance with the requirements of Commission Regulation (EC) 809/2004, as amended, regarding pro forma information. Because of its nature, it addresses a hypothetical situation and, therefore, does not represent the Company’s actual financial position or results. It does not purport to indicate the results of operations or the financial position that would have resulted had the transactions been completed at the beginning of any period presented, nor is it intended to be indicative of expected results of operations or cash flows in future periods or the future financial position of the Company. The pro forma adjustments are based upon available information and certain assumptions that the Company believes to be reasonable. In addition, they do not reflect cost savings or other synergies resulting from the acquisitions that may be realized in future periods. The Unaudited Illustrative Aggregated Selected Combined Financial Information does not give effect to the Mobius Acquisition, the Orange Dominicana Acquisition, the Numericable Acquisition and Tricom Acquisition and therefore does not include any financial information of the Mobius Group, Orange Dominicana, Numericable or Tricom.

The Unaudited Illustrative Aggregated Selected Combined Financial Information should be read in conjunction with the assumptions underlying the adjustments which are described in the notes accompanying them below as well as the historical and other financial statements of Altice S.A. included elsewhere in the Prospectus. See “*Presentation of Financial and Other Information—Financial Data*”.

The Unaudited Pro Forma Condensed Combined Financial Information has been prepared to give effect to the following transactions as if they occurred on January 1, 2012 for the purposes of the unaudited pro forma condensed combined statements of income and, if applicable, on September 30, 2013 for the purposes of the unaudited condensed combined pro forma statement of financial position:

- The acquisition by Altice S.A. or its predecessor entities of:
  - 77% of the share capital of OMT Invest S.A.S.,
  - 100% of the share capital of Cabovisao S.A. in two tranches of 60% and 40% respectively,
  - 100% of the share capital of Winreason S.A.,
  - 100% of the share capital of Sportv S.A.,
  - 100% of the share capital of Ma Chaîne Sport S.A.S..
- Certain adjustments to accounting policies of the above mentioned entities, in order to better reflect Company applicable accounting standards.

Notes to the unaudited illustrative aggregated selected financial information (Continued)

**1—Basis of preparation (Continued)**

**(a) Compilation of available financial information for the Company and the Acquired Businesses**

The Unaudited Illustrative Aggregated Selected Combined Financial Information for the years ended December 31, 2011 and 2012 has been compiled under the responsibility of the Board of Directors of Altice S.A. (the “Company”); by aggregating for each of the selected financial statement items the following:

- the amounts relating to the selected financial statement items as derived from the audited historical combined financial statements of the Company or its predecessor entities Altice Six S.A. and Altice VII S.à r.l. as of and for each of the years ended December 31, 2011 and 2012 (collectively the “Historical Financial Statements”) drawn up in accordance with the basis of preparation described in the notes to the combined financial statements of the Company;
- the amounts relating to the selected financial statement items as derived from the audited or reviewed financial information of each of the business undertakings acquired between January 1, 2011 and October 15, 2013 (the “Acquired Businesses”) for the periods during which such amounts are not included within the Historical Financial Statements (collectively the “the Pre-Acquisition Financial Information”); and
- the amounts relating to adjustments that have been identified for the purposes of aligning the Pre-Acquisition Financial Information the accounting policies adopted by the Company for the purposes of the Historical Financial Statements (the “Alignment Adjustments”).

**(b) The Pre-Acquisition Financial Information**

The Pre-Acquisition Financial Information has been derived from the following financial information pertaining to the Acquired Businesses:

***Year ended December 31, 2011***

- the financial statements of Outremer Telecom S.A. (“OMT”) as of and for the year ended December 31, 2011 drawn up in accordance with IFRS. Such financial statements have been audited by Constantin Associates and Ernst & Young et Autres who have issued an unmodified audit opinion thereon on March 23, 2012;
- the financial statements of Coditel Brabant S.p.r.l. (“CodiBe”) as of and for the period ended July 31, 2011 drawn up in accordance with accounting policies and practices applicable in Belgium (“Belgian GAAP”). Such financial statements have been audited by Deloitte Réviseurs d’entreprises S.c r.l. who has issued an unmodified audit opinion thereon on October 1, 2011;
- the annual accounts of Coditel S.à r.l. (“CodiLu”) as of and for the period ended July 31, 2011 drawn up in accordance with accounting policies and practices applicable in Luxembourg (“Lux GAAP”). Such annual accounts have been audited by Deloitte S.A. who has issued an unmodified audit opinion thereon on May 31, 2012;
- the special-purpose financial statements of Cabovisao S.A. as of and for the year ended December 31, 2011 drawn up in accordance with IASB IFRS. Such financial statements have been audited by Baker Tilly, PG & Associados, SROC S.A. who has issued a modified audit opinion thereon on November 21, 2013; and
- the special-purpose consolidated financial statements of Winreason S.A. as of and for the year ended December 31, 2011 drawn up in accordance with IFRS as endorsed by the European Union. Such financial statements have been audited by Deloitte & Associados SROC, S.A. who has issued a modified audit opinion thereon on September 25, 2013; and

#### **1—Basis of preparation (Continued)**

- the financial statements of Ma Chaine Sport S.A.S. (“MCS”) as of and for the year ended December 31, 2011 drawn up in accordance with French GAAP. Such financial statements have been audited by KPMG Audit who has issued an unmodified audit opinion thereon on May 31, 2012.

#### ***Year ended December 31, 2012***

- the financial statements of Outremer Telecom S.A. (“OMT”) as of and for the year ended December 31, 2012 drawn up in accordance with IFRS. Such financial statements have been audited by Constantin Associates and Ernst & Young et Autres who have issued an unmodified audit opinion thereon on April 18, 2013;
- the special-purpose financial statements of Cabovisao S.A. as of and for the period ended February 29, 2012 drawn up in accordance with IASB IFRS. Such financial statements have been reviewed by Baker Tilly, PG & Associados, SROC, S.A. who has issued a modified review report thereon on October 14, 2013;
- the special-purpose consolidated financial statements of Winreason S.A. as of and for the year ended December 31, 2012 drawn up in accordance with IFRS as endorsed by the European Union. Such financial statements have been audited by Deloitte & Associados SROC, S.A. who has issued a modified audit opinion thereon on September 25, 2013;
- the financial statements of Ma Chaine Sport S.A.S. (“MCS”) as of and for the year ended December 31, 2012 drawn up in accordance with French GAAP. Such financial statements have been audited by KPMG Audit who has issued an unmodified audit opinion thereon on May 23, 2013; and
- the unaudited financial statements of Sportv as of and for the year ended December 31, 2012 drawn up in accordance with IFRS.

The presentation and classification of the selected financial statement items that have been derived from the historical financial statements of the Acquired Businesses have been modified in order to align with the presentation and classification criteria that have been retained for the purposes of the Historical Financial Statements of the Company. Accordingly, certain reclassifications discussed below have been made to the selected financial statement items derived from the historical financial statements of the Acquired Businesses to present the Unaudited Illustrative Aggregated Selected Combined Financial Information that is aligned with the presentation and classification criteria applied by the Company in the preparation of its Historical Combined Financial Information. All the Pre-Acquisition Financial Information and Historical Financial Statements and related audit/review reports can be found attached in the Prospectus to be issued on or around January 31, 2014.

#### **(c) The Alignment Adjustments**

The Alignment Adjustments are primarily composed of the following elements:

- In those instances where the amounts included in the Pre-Acquisition Financial Information have been drawn up in accordance with an accounting framework the measurement and recognition criteria of which differs substantially from the corresponding criteria applicable under IFRS, alignment adjustments have been prepared by the Board of Directors in order to substantially align the contribution of the Acquired Businesses to the Unaudited Illustrative Aggregated Selected Combined Financial Information with the measurement and recognition criteria of IFRS. The key adjustments and any exceptions thereto are described in note 2.
- In those instances where the amounts included in the Pre-Acquisition Financial Information have been drawn up in accordance with accounting policy elections that differ substantially from the accounting policies retained by the Company for the purposes of the Historical Financial Statements no alignment adjustments have been prepared by the Board of Directors in order to substantially align the contribution of the Acquired Businesses to the Unaudited Illustrative

Notes to the unaudited illustrative aggregated selected financial information (Continued)

**1—Basis of preparation (Continued)**

Aggregated Selected Combined Financial Information with the accounting policies retained by the Company.

**(d) Translation of historical financial information denominated in currencies other than the Euro**

The historical financial statements of HOT, from which amounts have been derived in preparing the Unaudited Illustrative Aggregated Selected Combined Financial Information for the year ended December 31, 2011, have been drawn up in Israeli Shekel (“NIS”). The relevant amounts have been translated into Euro (“EUR”), for the purposes of their inclusion within the Unaudited Illustrative Aggregated Selected Combined Financial Information, using the average daily exchange rates over the relevant period as described below:

Period from January 1, 2011 to March 16, 2011 . . . . . 1 NIS = 0.201 EUR

**(e) Key limitations to the basis of preparation**

The Unaudited Illustrative Aggregated Selected Combined Financial Information for the years ended December 31, 2011 and 2012 do not purport to represent the performance, cash flows or financial position that the Company would have reported had the Acquired Businesses been subsidiaries of the Company during the entire length of the periods presented. They also do not purport to represent the performance and cash flows of the Company for any future period or its financial position at any future date. The Unaudited Illustrative Aggregated Selected Combined Financial Information do not reflect the effect of any anticipated synergies and efficiencies associated with combining the ONI group, the OMT Group and the other subsidiaries of the Altice VII Group.

In addition, only a complete set of consolidated financial statements as defined in IAS 1 can provide a fair presentation of the financial position, financial performance and cash flows of an entity in accordance with IFRS. The Unaudited Illustrative Aggregated Selected Combined Financial Information do not purport to represent a complete set of financial statements drawn up in accordance with IFRS, and are solely prepared to illustrate the aggregation of the Historical Financial Statements with the Pre-Acquisition Financial Information. In preparing the Unaudited Illustrative Aggregated Selected Combined Financial Information, the Board of Directors has determined that the extent of any transactions between the Company and the Acquired Businesses is negligible, and hence no adjustments relating to the elimination of such transactions or balances have been made.

**2—Accounting framework alignment adjustments**

**(a) Revenues and expenses**

IFRS requires discounts to be recognized as a reduction of revenues over the length of the contractual arrangement with the customer. In addition, certain expenses may be restated as capital expenditure based on the nature of the expense.

*Alignment adjustment in relation to Coditel S.à r.l.*

The Pre-Acquisition Financial Information relating to Coditel S.à r.l. is drawn up in accordance with the measurement and recognition criteria of Lux GAAP, which does not require mandatory accounting for disconnection fees. Had Coditel S.à r.l. adopted the aforementioned measurement and recognition criteria of IFRS, illustrative adjustments result in an increase in other operating expenses of 0.1 million EUR for the year ended December 31, 2011.

The Pre-Acquisition Financial Information relating to Coditel S.à r.l. relates to the period from January 1, 2011 to July 31, 2011. For the purpose of building the Unaudited Illustrative Aggregated Selected Combined Financial Information the Board of Directors recorded the following adjustments which reflect the activity for the period from July 1, 2011 to July 31, 2011: (i) revenues decreased by 1.4 million EUR;

**2—Accounting framework alignment adjustments (Continued)**

(ii) other operating expenses decreased by 0.1 million EUR; (iii) general and administrative expenses decreased by 0.1 million EUR.

*Alignment adjustment in relation to Coditel Brabant S.p.r.l.*

The Pre-Acquisition Financial Information relating to Coditel Brabant S.p.r.l. is drawn up in accordance with the measurement and recognition criteria of Belgian GAAP, which permits such discounts to be recognized immediately as a reduction to revenues at inception of the contract. Alignment adjustments have been made to record the changes that would result to revenues had Coditel S.p.r.l. adopted the aforementioned measurement and recognition criteria of IFRS. Such illustrative adjustments result in increase to revenue of 0.2 thousand EUR for the year ended December 31, 2011. In addition, Coditel Brabant also applied IFRS adjustments related to the accounting for employee pension benefits and disconnection fees, which resulted in an increase in other operating expenses of 0.3 million EUR.

The Pre-Acquisition Financial Information relating to Coditel Brabant S.p.r.l. relates to the period from January 1, 2011 to July 31, 2011. For the purpose of building the Unaudited Illustrative Aggregated Selected Combined Financial Information the Board of Directors recorded the following adjustments which reflect the activity for the period from July 1, 2011 to July 31, 2011: (i) revenues decreased by 4.0 million EUR; (ii) purchases and subcontracting services decreased by 0.6 million EUR; (iii) other operating expenses decreased by 0.4 million EUR; (iv) other sales and marketing expenses decreased by 0.2 million EUR; and (v) general and administrative expenses decreased by 0.2 million EUR.

*Alignment adjustment in relation to Ma Chaîne Sport SAS.*

The Pre-Acquisition Financial Information relating to Ma Chaîne Sport S.A.S. is drawn up in accordance with the measurement and recognition criteria of French GAAP, which permits no capitalisation of costs related to the acquisition of content for delivery to final customers. Given the exclusive nature of such content, IFRS rules allow the capitalisation and recognition of such costs as intangible assets. Had Ma Chaîne Sport adopted the aforementioned measurement and recognition criteria of IFRS, such illustrative adjustments result in a decrease in purchasing and subcontracting costs of 3.4 million EUR and in other operating expenses of 1.1 million EUR for the year ended December 31, 2011 and 4.7 million EUR and 1.6 million EUR for the year ended December 31, 2012.

**Altice S.A.**

**Notes to the unaudited illustrative aggregated selected financial information**

**3—Supplements notes to the unaudited illustrative statement of selected aggregated financial statement information**

The Unaudited Illustrative Aggregated Selected Financial Information for the years ended December 31, 2012 and 2011 is the responsibility of the Board of Directors of Altice S.A. (the “Company”), as follows:

**(a) Revenue**

*This is a free translation into English of the statutory auditors' report on the consolidated financial statements issued in French and is provided solely for the convenience of English-speaking users.*

*The statutory auditors' report includes information specifically required by French law in such reports, whether modified or not. This information is presented below the audit opinion on the consolidated financial statements and includes an explanatory paragraph discussing the auditors' assessments of certain significant accounting and auditing matters. These assessments were considered for the purpose of issuing an audit opinion on the consolidated financial statements taken as a whole and not to provide separate assurance on individual account balances, transactions, or disclosures.*

*This report also includes information relating to the specific verification of information given in the Group's management report.*

*This report should be read in conjunction with, and construed in accordance with, French law and professional auditing standards applicable in France.*

## **Numericable Group S.A.**

Registered office: Tour Ariane—5, place de la Pyramide—92088 Paris La Défense Cedex

Share capital: €123 942 012

### **Statutory auditors' report on the consolidated financial statements**

To the Shareholders,

In compliance with the assignment entrusted to us by your by-laws and Shareholders' general meeting, we hereby report to you, for the year ended December 31, 2013, on:

- the audit of the accompanying consolidated financial statements of Numericable Group S.A.;
- the justification of our assessments;
- the specific verification required by law.

These consolidated financial statements have been approved by the Board of Directors. Our role is to express an opinion on these consolidated financial statements based on our audit.

#### **1 Opinion on the consolidated financial statements**

We conducted our audit in accordance with professional standards applicable in France; those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit involves performing procedures, using sampling techniques or other methods of selection, to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made, as well as the overall presentation of the consolidated financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

In our opinion, the consolidated financial statements give a true and fair view of the assets and liabilities and of the financial position of the Group as at December 31, 2013 and of the results of its operations for the year then ended in accordance with International Financial Reporting Standards as adopted by the European Union.

Without qualifying our opinion, we draw your attention to the matter set out in the following notes to the consolidated financial statements:

- Notes 1.2 «Basis of preparation of the consolidated financial statements» and 1.3 «Comparative information» describe respectively the accounting treatment of the contribution operations to the group and their impact on the preparation and presentation of the consolidated financial statements and the comparative information;
- Notes 4.1.2 «IPO and capital increase» and 4.1.6 «Refinancing of Senior Debt» describe the initial public offering and the refinancing operations which occurred at the end of 2013 and their impact on

the hypothesis made to adopt the going concern assumption for the group as described in note 1.5 «Going concern assumption»;

- Notes 1.3 «Comparative information» and 2.1 «Accounting principles governing the preparation of the consolidated financial statements» describe the change in accounting method resulting from the first implementation of the revised IAS 19 standard.

## **2 Justification of our assessments**

In accordance with the requirements of article L.823-9 of the French Commercial Code (*Code de commerce*), we bring to your attention the following matters:

Note 3 «Critical accounting judgment and key sources of uncertainty in respect of estimates» to the consolidated financial statements describes the critical accounting policies and main sources of uncertainty in respect to estimates. This note also states that changes in facts and circumstances may result in revised estimates or assumptions which could affect the financial position, results of operations and cash flows of the Group. Amongst the significant estimates, there are goodwill and deferred tax assets:

- The company systematically performs, at each closing date, impairment tests on goodwill according to the methods described in note 2.14 «Impairment of goodwill and non-current assets» and note 3 «Critical accounting judgment and key sources of uncertainty in respect of estimates» to the consolidated financial statements.

We examined the methods used to test for impairment as well as cash flow projections and assumptions used and ensured that note 16 «Impairment testing» provides appropriate disclosures thereon.

- The Group presents in its statement of financial position deferred tax assets for an amount of 132.7 million euros as at December 31, 2013, as described in note 4.1.7 «Recognition of deferred tax assets» to the consolidated financial statements.

We assessed the information and assumptions used for the forecasted future use of tax losses to carry forward, reviewed the calculations performed by the company and ensured that Note 3, 4.17 and 12 provide appropriate disclosures thereon.

These assessments were made as part of our audit of the consolidated financial statements taken as a whole, and therefore contributed to the opinion we formed which is expressed in the first part of this report.

## **3 Specific verification**

As required by law we have also verified, in accordance with professional standards applicable in France, the information presented in the group's management report.

We have no matters to report as to its fair presentation and its consistency with the consolidated financial statements.

<b>Net income (loss) attributable to owners of the entity</b> . . . . .	<b>64,550</b>	<b>86,377</b>
<i>Items that may subsequently be reclassified in profit or loss:</i>		
Cumulative translation adjustments . . . . .	—	—
Change in fair value of available-for-sale financial assets . . . . .	—	—
Tax on items recognized directly in other comprehensive income . . . . .	—	—
<i>Items that will not subsequently be reclassified in profit or loss:</i>		
Actuarial gains and losses <sup>(1)</sup> . . . . .	(458)	(1,496)
Tax on items recognized directly in other comprehensive income . . . . .	—	—
<b>Total other comprehensive income (loss) attributable to owners of the entity</b>	<b>64,092</b>	<b>84,881</b>

(1) As indicated in Note 2.1, the Group has applied IAS 19R from 1 January 2013, by recognizing actuarial gains and losses in "Other comprehensive income."

The application of IAS 19R has resulted in a change in accounting policy that has also been reflected in the 2012 financial statements (see Note 1.3).

As the Group operates only in France, the functional and presentation currency of all the entities within the Group is the euro. As a result, no cumulative translation adjustments were recognized as of December 31, 2013 or 2012.

Available-for-sale financial assets consist of various investments in unlisted entities not included in the scope of consolidation (see Note 17) and for which there are no reliable indicators allowing the Group to determine a fair value other than its share of equity. Due to the fact that these investments are not material, these investments are measured at historical cost; accordingly, no unrealized gain or loss is recognized in the consolidated statement of comprehensive income.

<b>Net cash provided (used) by financing activities</b>		<b>(134,253)</b>	<b>(278,327)</b>
<b>Net cash flow from continuing operations</b>		<b>93,369</b>	<b>(32,584)</b>
Net cash flow from discontinued operations		—	—
<b>Net increase (decrease) in cash and cash equivalents</b>		<b>93,369</b>	<b>(32,584)</b>
<b>Cash and cash equivalents—opening balance</b>		<b>7,996</b>	<b>40,580</b>
<b>Cash and cash equivalents—closing balance</b>		<b>101,365</b>	<b>7,996</b>

(1) In 2013, other non-cash items mainly relate to:

- expenses relating to the extinguishment of shareholder debts (“premiums” relative to the cancellation of Super PECs) in the amount of 81.6 million euros (see Note 4.1.1);
- the staggering of borrowing costs using the amortized cost method, with no effect on cash, in the amount of 20.0 million euros.

(2) Investments in property, plant, equipment and intangible assets financed through finance leases in the amount of 39 million euros (21 million euros in 2012) had no impact on the statement of cash flows at the time of the purchases.

(3) Mainly the price paid in connection with the acquisitions of LTI (25.5 million euros) and Valvision (3.3 million euros), net of cash acquired (1.5 million euros). See Notes 4.1.4 and 4.1.5.

(4) Capital increases carried out within the framework of the company’s IPO (public offer in the amount of 250 million euros and offer reserved for employees in the amount of 1 million euros) net of expenses incurred in connection with the IPO in the amount of 14.6 million euros (see Note 4.1.2).

(5) Mainly the implementation of the new Tranche D in the amount of 800 million euros net of expenses paid in the amount of 10 million euros (see Note 4.1.6).

(6) This amount primarily reflects debt extinguished during refinancing transactions in December 2013 (bonds in the amount of 480 million euros, Altice B2B senior debt in the amount of 451 million euros, see Note 4.1.6).

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013**

## **1 Basis of preparation of the consolidated financial statements**

### **1.1 Numericable Group**

Numericable Group (hereinafter referred to as “**the Company**”) is a limited company incorporated under French law in August 2013, and is headquartered in France.

On November 7, 2013, Numericable Group received, within the framework of the Company's prospective IPO, the contribution of two holding companies incorporated in Luxembourg, Ypso Holding SARL and Altice Lux Holding SARL, the parent companies of Ypso France and Altice B2B France respectively.

**Ypso France**, which operates the Numericable business, is a French cable television service provider. Its core products are premium digital television packages, which are available to households in areas that are triple-play enabled. Ypso France also provides French residential customers with broadband Internet, fixed telephony and mobile telecommunications services.

**Altice B2B France**, through its main operational entity, Completel SAS, operates the largest alternative fiber-to-the-office (“FTTO”) network in France, constituting the third-largest alternative Digital Subscriber Line (“DSL”) network in France. Completel SAS provides business customers with a comprehensive service offering, including data transmission, very high speed Internet, telecommunications services, convergence and mobility solutions, through fiber and DSL networks.

### **1.2 Basis of preparation of the consolidated financial statements**

The consolidated financial statements for the year ended December 31, 2013, which comprise the consolidated statement of financial position, the consolidated statement of income, the consolidated statement of comprehensive income, the consolidated statement of cash flows, the consolidated statement of changes in equity and the related notes, have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and adopted in the European Union as of December 31, 2013. These international standards include IAS (International Accounting Standards), IFRS (International Financial Reporting Standards) and their interpretations (SIC and IFRIC).

The consolidated accounts were prepared under the responsibility of the Board of Directors, and approved by the Board of Directors on April 1st, 2014.

In accordance with French law, the consolidated financial statements will be considered final once they have been approved by the Group's shareholders at the Ordinary Shareholders' Meeting in May 2014.

As Ypso Holding SARL and Altice Lux Holding SARL, before being contributed to Numericable Group and after the IPO, were and remained entities under joint control (controlled by the Carlyle, Cinven and Altice private equity funds acting in concert), the contribution transactions do not constitute an acquisition within the meaning of IFRS 3 *Business Combinations*. The Group has opted to account for this transaction in carrying amounts, and the consolidated financial statements are prepared as if the contribution of the equity securities of Ypso Holding SARL and Altice Lux Holding SARL had occurred before January 1, 2012, the opening of the comparative period presented. The consolidated financial statements as of December 31, 2013 accordingly cover a period of 12 months.

### **1.3 Comparative information**

The comparative data presented in respect of the 12 months ended December 31, 2012 correspond—with the exception of the application of IAS 19R (as disclosed hereafter)—to the combined financial statements of the two subgroups Ypso and Altice B2B (hereinafter referred to as the “**Two Groups**”).

Before being contributed to Numericable Group on November 7, 2013, the Two Groups were entities under common control (controlled by the Carlyle, Cinven and Altice private equity funds).

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**1 Basis of preparation of the consolidated financial statements (Continued)**

Accordingly, the financial data presented for comparative purposes reflect the historical assets, liabilities, revenues, expenses and cash flows that were directly related to the sub-groups, Ypso and Altice B2B, which formed two separate groups as of December 31, 2012.

Moreover, as indicated in Note 2.1, the Group has applied IAS 19R from 1 January 2013, recognizing actuarial gains and losses in "Other comprehensive income." The application of IAS 19R has resulted in a change in accounting policy that has also been reflected in the 2012 financial statements.

The impact of this adjustment on the items and main aggregates of the 2012 statement of income is set out in the following table (reconciliation of the 2012 combined financial statements with the restated 2012 financial statements presented for comparison purposes in this document).

	<b>Reported 2012 financial statements</b>	<b>IAS 19R adjustment</b>	<b>Restated 2012 financial statements</b>

<b>Comprehensive income . . . . .</b>	<b>84,930</b>	<b>—</b>	<b>84,930</b>

**1.4 List of entities included in the scope of consolidation**

**Subsidiaries**

Consolidated entities are companies controlled by the Group (including special-purpose entities), i.e. entities in which the Group has the power to govern financial and operating policies so as to obtain benefits. Control exists when the Group has the power, directly or indirectly, to govern the financial and operating policies of a company so as to obtain benefits from its activities. The financial statements of subsidiaries are included in the consolidated financial statements from the date at which control commences until the date at which control ceases. Non-controlling interests in subsidiaries are identified separately in the statement of changes in equity.

**Associates**

Investments, in which the Group exercises significant influence, but not control or joint control, are accounted for under the equity method. Such investments are referred to as "associates" throughout these consolidated financial statements. Significant influence is the power to participate in the financial and operating policy decisions of the associate, but not control or joint control over said decisions. Associates are initially recognized at historical cost. The consolidated financial statements include the consolidated Group's share of income and expenses, from the date at which significant influence commences until the date at which significant influence ceases.

As of December 31, 2013 and 2012, the consolidated financial statements include the following entities:

Company and legal form of incorporation	Registered office	Basis of consolidation as of December 31, 2013	% control		% interest

<b>Invescom<sup>(2)</sup></b> . . . . .	300 route Nationale, 6 Le Bois des Côtes—69760 Limonest	Full consolidation	100%	N/A	100%	N/A
<b>B3G NV</b> . . . . .	Netherlands	Full consolidation	100%	100%	100%	100%

(1) Numericable and Est Vidéocommunications were merged in NC Numericable in December 2013.

(2) Invescom and LTI Telecom were acquired on October 31, 2013, as mentioned in “Significant events.”

**1.5 Going concern assumption**

The Group was formed by a series of acquisitions, funded mainly by external borrowings. The construction and subsequent modernization of the network have also required substantial investments. These two factors explain the Group’s financial structure, namely the significant proportion of financial liabilities in relation to consolidated equity, as well as the significant interest expense.

The Group currently services its debt and funds its investments through net cash from operations. Furthermore, the Group’s covenants under its loan agreements require it to comply with certain liquidity ratios (see section 23.1) and to maintain certain cash levels.

Furthermore, as explained in Note 4.1.6, the Group refinanced its Senior Debt in 2013, rescheduling a large portion of its debt.

Under these conditions, and in view of the updated cash flow projections, the Board of Directors believes that the Group will be able to finance its cash requirements for the 12 months from the close of the 2013 consolidated financial statements, and to meet its obligations in respect of its debt during this period.

As a result, the consolidated financial statements for the year ended December 31, 2013 have been prepared on a going concern basis.

**2 Significant accounting policies**

**2.1 Accounting principles governing the preparation of the consolidated financial statements**

**Standards and interpretations applied by the Group as of December 31, 2013**

The accounting policies for recognition and measurement used in preparing the consolidated financial statements for the year ended December 31, 2013 are the same as those used for the combined financial statements of Numericable Group, prepared in accordance with IFRS.

As mentioned in Note 1, the consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as adopted by the European Union (“EU”), with

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**2 Significant accounting policies (Continued)**

mandatory application for annual periods ended December 31, 2013. The recognition and measurement principles of International Financial Reporting Standards as adopted by the European Union have been applied in preparing the consolidated financial statements. They are available on the following website:

[http://ec.europa.eu/internal\\_market/accounting/ias/index\\_en.htm](http://ec.europa.eu/internal_market/accounting/ias/index_en.htm)

Standards and interpretations adopted by the European Union with mandatory application as of December 31, 2013 are similar to the standards and interpretations published by the International Accounting Standards Board ("**IASB**"), with the exception of IAS 39 *Financial Instruments: Recognition and Measurement* ("**IAS 39**") and the following standards and interpretations adopted by the EU but not yet mandatory in the EU from December 31, 2013.

**Standards and interpretations mandatory for the year ended December 31, 2013**

- IAS 19R (revised in 2011) *Employee Benefits* (applicable no later than January 1, 2013 for the Group) ("**IAS 19R**")

The main changes resulting from this revision are:

- the recognition of actuarial gains and losses through "Other comprehensive income." This results in a change in accounting principles, as the Group previously recognized actuarial gains and losses through profit or loss;
- the modification of the calculation of the financial component, due to the removal of the expected return on plan assets, which did not have an impact on the Group's financial statements;
- the immediate expensing of non-vested past service costs.

In accordance with the provisions of IAS 19R, the Group has applied the new provisions retrospectively. The effect of the changes is described in Note 1.3 above.

Other amendments and interpretations applicable from December 31, 2013, but without material impact on the Group are as follows:

- Amendments to IAS 1 *Presentation of Items of Other Comprehensive Income and Separate Financial Statements*

This amendment to IAS 1 requires changing the presentation of other comprehensive income in the consolidated statement of comprehensive income, in order to present items liable to be reclassified in profit or loss separately from items that will never be reclassified in this manner. Comparative information is also presented in the same way.

- IFRIC 20 *Stripping Costs in the Production Phase of a Surface Mine* ("**IFRIC 20**")
- Amendments to IFRS 7 *Disclosures: Offsetting Financial Assets and Financial Liabilities*
- Amendments to IFRS 32 *Disclosures: Offsetting Financial Assets and Financial Liabilities*
- Amendments to IAS 12 *Deferred Tax: Recovery of Underlying Assets*
- Amendments to IFRS 1 *Severe Hyperinflation and Removal of Fixed Dates for First-time Adopters*
- IFRS 13 *Fair value Measurement* ("**IFRS 13**")

IFRS 13 is a single source of fair value measurement and disclosure requirements for use across IFRSs. It defines fair value, sets out a framework for measuring fair value and lists disclosure requirements in respect of fair value measurements, including the fair value hierarchy currently set out in IFRS 7 *Financial Instruments: Disclosures*.

In accordance with the transitional provisions of IFRS 13, the Group has applied the new provisions in respect of fair value prospectively.

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**2 Significant accounting policies (Continued)**

**Standards and interpretations mandatory after December 31, 2013 and not adopted early**

The following are standards and interpretations that had been issued by the IASB and the IFRS Interpretations Committee and adopted by the EU at the date of these consolidated financial statements but which are not yet mandatory. The Group has not elected to adopt them early.

- IAS 27 (revised in 2011) *Separate Financial Statements* (applicable no later than January 1, 2014 for the Group) (“**IAS 27 Revised**”)

This standard sets out recognition and disclosure provisions for separate financial statements, i.e. financial statements prepared by a parent, an investor, a joint venture or an associate, when such investments are carried at acquisition cost or in accordance with IAS 39. The standard also outlines the accounting requirements for dividends, and contains numerous disclosure requirements.

- IAS 28 (revised in 2011) *Investments in Associates and Joint Ventures* (applicable no later than January 1, 2014 for the Group) (“**IAS 28 Revised**”)

This standard relates to the consolidation of joint ventures and associates under the equity method.

Some clarifications have been included with respect to accounting for changes in ownership interests (with or without loss of control). These disclosures are now covered by IFRS 12 *Disclosure of Interests in Other Entities*.

- IFRS 10 *Consolidated Financial Statements* (applicable no later than January 1, 2014 for the Group) (“**IFRS 10**”)

IFRS 10 supersedes SIC-12 *Consolidation of Special-Purpose Entities* and IAS 27 for the part relating to consolidated financial statements. This standard deals with the consolidation of subsidiaries and special-purpose entities, and redefines control, which is the basis of consolidation.

- IFRS 11 *Joint Arrangements* (applicable no later than January 1, 2014 for the Group) (“**IFRS 11**”)

IFRS 11 supersedes IAS 31 *Interests in Joint Ventures* and SIC-13 *Jointly Controlled Entities: Non-Monetary Contributions by Venturers*.

This standard deals with the accounting for joint arrangements. The definition of joint control is based on the existence of an arrangement and the unanimous consent of the parties sharing control.

Joint arrangements are classified into two categories: (i) joint ventures, where each party has an interest in the net assets of the entity, which is accordingly consolidated at equity, a method already applied by the Group; and (ii) joint operations, where each party has direct rights to the assets and direct obligations in respect of the liabilities of the entity, which is consolidated in accordance with the contractual arrangement.

- IFRS 12 *Disclosure of Interests in Other Entities* (applicable no later than January 1, 2014 for the Group) (“**IFRS 12**”)

IFRS 12 replaces provisions relating to disclosures previously included in IAS 27, IAS 28 and IAS 31.

This standard combines and supplements disclosures related to subsidiaries, joint ventures, associates, consolidated and unconsolidated SPEs.

- Amendment to IAS 32 *Disclosures: Offsetting Financial Assets and Financial Liabilities* (applicable on a mandatory basis for annual periods beginning on or after 1 January 2014)

Management is currently assessing the potential impact of the application of these standards and amendments on the statement of income, the statement of financial position, the statement of cash flows and the notes to the financial statements, but at this stage does not anticipate any material effect related to the application of these standards, interpretations and amendments.

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**2 Significant accounting policies (Continued)**

The financial statements have been prepared according to the historical cost principle, with the exception of certain assets and liabilities detailed below:

- derivative financial instruments measured at fair value;
- financial assets at fair value through profit and loss measured at fair value;
- available-for-sale financial assets measured at fair value.

**2.2 Foreign Currency Translation Adjustments**

The consolidated financial statements are presented in euros, the functional currency of the Group. All financial data are rounded to the nearest thousand euro.

Foreign currency transactions are initially recorded in the functional currency at the exchange rate prevailing at the date of the transaction. At the closing date, monetary assets and liabilities denominated in a foreign currency are translated into the functional currency at the exchange rate prevailing on that date. All foreign currency differences are expensed. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of initial transaction. All foreign currency differences are recognized in profit or loss.

**2.3 Revenue**

Revenue from the Group's activities is mainly composed of:

- TV subscriptions, broadband Internet, basic cable services, telephony and installation fees invoiced to residential and business clients.
- Data transmission and very high speed Internet services, telecommunications services, convergence and mobility solutions invoiced to business clients.
- Network infrastructure services, including indefeasible rights of use ("IRUs") arrangements and bandwidth capacity on the network, provided to other telecommunications operators, as well as the related maintenance services.

Revenue comprises the fair value of the consideration received or receivable for the sale of goods and services in the ordinary course of the Group's activities. Revenue is shown net of value-added tax, returns, rebates and discounts and after eliminating intercompany sales between entities included in the scope of consolidation.

Revenue is recognized and presented as follows, in accordance with IAS 18 *Revenue* (IAS 18):

- Revenues from subscriptions for basic cable services, digital pay TV, Internet and telephony are recognized on a straight-line basis over the subscription period; revenues from telephone calls made outside plans are recognized when the service is rendered.
- When a promotion not related to a customer's past consumption and purchases (such as a discount on the subscription price or free subscription for a given period) is offered to a customer, the Group recognizes the total amount of billable revenue on a straight-line basis over the term of the contract provided that the Group has the enforceable and contractual right to deliver the products after the free promotional period offered to the customer. If a promotion is not related to the subscription for a contract including a non-cancellable period, the Company recognizes revenues during the promotional period in the amount of the consideration received or receivable, as the customer's continuance is not assured.
- Installation and set-up fees (including connection) for residential customers are recognized as revenues when the service is rendered.

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**2 Significant accounting policies (Continued)**

- Service access fees for business clients, when the access to the services is provided and they are associated to equipment or a service, are deferred, and the revenue is recognized along the estimated duration of the customer relationship, based on statistical data. They are generally staggered over the term of the contract.
- The revenue related to transmission capacity on terrestrial cables under IRU arrangements are recognized on a straight-line basis over the term of the contract.

**2.4 Deferred revenue**

For certain arrangements entered into with its non-residential customers, the Group receives up-front cash payments in relation to IRUs and connection fees. For these arrangements, the revenue is generally recognized on a straight-line basis over the term of the contract. Deferred revenue at the end of the reporting period represents unrecognized network lease revenue.

**2.5 Operating income before depreciation and amortization**

The Group has included the aggregate “Operating income before depreciation and amortization” or “EBITDA” in the consolidated statement of income because management believes that this aggregate is useful: it provides a measure of operating results that excludes non-cash items such as depreciation and amortization, thereby enhancing the predictive value of the financial statements.

Furthermore, EBITDA is an indicator used internally by management to measure the Company’s operational and financial results, to make investment and resource-allocation decisions, and to assess the performance of management personnel.

EBITDA may not be comparable with similarly named measures used by other entities. Further, this aggregate should not be considered as a proxy for operating income, as the effects of depreciation, amortization and impairment, which are excluded from this measure, ultimately have an impact on operating income, which is also presented in the consolidated financial statements in accordance with IFRS 1.

**2.6 Financial income and expense**

Financial income and expense primarily comprise:

- interest expense and other expenses paid for financing transactions recognized at amortized cost and changes in the fair value of interest rate derivative instruments that do not qualify as hedges within the meaning of IAS 39 *Financial Instruments: Recognition and Measurement* (“IAS 39”), and which are recognized in “Interest relative to gross financial debt” in the consolidated statement of income;
- interest income relating to cash and cash equivalents.

**2.7 Segment information**

IFRS 8 *Operating Segments* requires segment information to be presented on the same basis as that used for internal reporting purposes. The Group has identified the following three segments:

- B2C Operations
- B2B Operations
- Wholesale Services

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**2 Significant accounting policies (Continued)**

*B2C Operations*

The Group provides residential and business customers with TV subscription services, broadband Internet, basic cable services, telephony and installation services.

*B2B Operations*

The Group provides business customers with a comprehensive service offering, including data transmission and very high speed Internet, telecommunications services, convergence and mobility solutions, through fiber and DSL networks.

*Wholesale Services*

The Group sells network infrastructure services, including IRUs and bandwidth capacity on its network, to other telecommunications operators, as well as the related maintenance services.

**2.8 Income taxes**

Income tax expense comprises current and deferred tax. Income tax expense is recognized in profit or loss except if it relates to items recognized directly in equity, in which case it is recognized in equity (see Note 4.1.7).

Current tax is the tax payable on the taxable income for the year, estimated using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognized for the following temporary differences: (i) the initial recognition of goodwill; (ii) the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit; and (iii) investments in subsidiaries, joint ventures and associates when the Group is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

Accordingly, for companies included in the scope of consolidation, a deferred tax liability may be recognized in respect of prospective dividend payments by these companies.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted at the reporting date.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and if they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities when the taxable entity intends to settle current tax liabilities and assets on a net basis or when tax assets and liabilities are to be realized simultaneously.

Deferred taxes are reviewed at each reporting date to take into account changes in tax legislation and the possibility of recovering deductible temporary differences and tax losses. A deferred tax asset is recognized when it is probable that future taxable profits against which the temporary difference can be utilized will be available within a foreseeable timeframe.

**2.9 Government grants and investment subsidies**

Entities of the Group may receive government grants and investment subsidies in the form of direct or indirect funding of investment projects, mainly provided by local and regional authorities. These grants are deducted from the cost of the related assets and recognized in the consolidated statement of

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

## **2 Significant accounting policies (Continued)**

income, based on the pattern in which the related asset's expected future economic benefits are consumed.

### **2.10 Goodwill and business combinations**

Business combinations are accounted for in accordance with the purchase method. The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under IFRS 3R are recognized at their fair value at the acquisition date, except for non-current assets (or groups earmarked for disposal), which are classified as held for sale in accordance with IFRS 5 *Non-current Assets Held for Sale and Discontinued Operations* and measured at the lower of their carrying amount and fair value less costs to sell.

The consideration transferred corresponds to the fair value, at the acquisition date, of assets given, liabilities incurred or assumed, and equity instruments issued by the Group in exchange for control of the acquiree. The goodwill arising from a business combination is equal to the difference between:

- the sum of the consideration paid, the value of any non-controlling interest that remains outstanding after the business combination and, where applicable, the acquisition-date fair value of the acquirer's previously held equity interest in the target, and
- the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed.

Goodwill is recognized in assets in the consolidated statement of financial position. When the difference is negative, it is directly recognized through profit or loss.

The secondary costs directly attributable to an acquisition giving control are recorded in expenses in the period during which the costs are incurred, except for the borrowing costs, which must be recorded in accordance with IAS 32 *Financial Instruments: Presentation* ("**IAS 32**") and IAS 39.

When goodwill is determined provisionally at the end of the period in which the combination is effected, any adjustments to the provisional values within 12 months of the acquisition date are recognized in goodwill.

With respect to the acquisition of non-controlling interests (i.e. non-controlling interests in a subsidiary that is already included in the scope of combination), the Group fully allocates the difference between the price paid and the share in net assets acquired to equity in accordance with IAS 27, with no revaluation of the assets and liabilities acquired.

Goodwill resulting from the acquisition of subsidiaries or joint ventures is presented separately in the consolidated statement of financial position. Impairment relative to this goodwill is presented on the "Depreciation and amortization" line of the consolidated statement of income.

Goodwill resulting from the acquisition of associates is included in the carrying amount of the investment. Impairment relative to this goodwill is presented on the "Share in net income (loss) of associates" line.

Goodwill is not amortized, but is subject to impairment testing whenever there is any indication that an asset may be impaired, and at least once a year in accordance with the methods and assumptions described in Note 16.

After initial recognition, goodwill is recorded at cost less accumulated impairment losses.

### **2.11 Intangible assets**

#### **Recognition and measurement principles**

Intangible assets are measured at cost less accumulated amortization and impairment losses. Cost comprises all directly attributable costs necessary to buy, create, produce and prepare the asset for use.

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**2 Significant accounting policies (Continued)**

Intangible assets consist mainly of indefeasible rights of use, patents, and purchased and internally developed software.

IRUs correspond to the right to use a portion of the capacity of a terrestrial or submarine transmission cable granted for a fixed period. IRUs are recognized as an asset when the Group has the specific indefeasible right to use an identified portion of the underlying asset, generally optical fibers or dedicated wavelength bandwidth, and the duration of the right is for the major part of the underlying asset's economic life. They are amortized over the shorter of the expected period of use and the life of the contract between 3 and 20 years.

Patents are amortized on a straight-line basis over the expected period of use, generally not exceeding 10 years.

Software is amortized on a straight-line basis over its expected useful life, which generally does not exceed 3 years.

The cost of an internally developed intangible asset is the sum of personnel expenses incurred from the date the intangible asset first meets the recognition criteria of IAS 38. An intangible asset arising from the development phase of an internal project is recognized if an entity can demonstrate all of the following:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- its intention of completing the intangible asset and use or sell it;
- its ability to use or sell the intangible asset;
- the capacity of the intangible asset to generate probable future economic benefits. Among other things, the Group must demonstrate the existence of a market for the output of the intangible asset or the intangible asset itself or, if it is to be used internally, the usefulness of the intangible asset;
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset;
- its ability to measure reliably the expenditures attributable to the intangible asset during its development.

Capitalization of costs ceases when the project is finalized and the asset is available for use.

The cost of an internally developed intangible asset arising from the development phase of an internal IT project is amortized on a straight-line basis over its expected useful life, which generally does not exceed three years.

**Agreements entered into with local authorities**

To set up and operate its networks, the companies of the Group have in the past (and often before entering the Group) entered into various agreements with local authorities and representative bodies under successive legal frameworks (French cable network plan, Freedom of Communication Act of 1986, etc.). Many of these agreements convey exclusive rights to the operator and lay down obligations in terms of local television service provision, programming, pricing policy, and the associated license fees payable. Some of the agreements are public service concessions with “return property” clauses, whereby ownership of the technical equipment and civil engineering work reverts to the local authorities at the end of the concession.

The EU Telecoms Directives of 2002, known as the “Telecoms Package,” establish the principle of open competition among operators in the telecommunications market, requiring national regulatory authorities to enforce fair competition conditions, without granting exclusive or special rights for setting up and operating networks. The French law of July 9, 2004, which transposed the Telecoms Package into French law, required that existing agreements be brought into compliance by the end of July 2007 at

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**2 Significant accounting policies (Continued)**

the latest, removing all exclusive rights clauses and ensuring the shared use of public civil engineering infrastructure.

Only a minority of agreements entered into with local authorities were liable to be classified in the category of public service concessions when these agreements were concluded. As such, IFRIC 12 *Service Concessions* applies solely to the public service concession arrangement with the department of Hauts-de-Seine (*Délégation de Service Public 92*).

*Service Concession agreement entered into with the department of Hauts-de-Seine*

Sequalum, a subsidiary of the Group, was selected in 2007 by the department of Hauts-de-Seine to plan, deploy and operate a Fiber To The Home (“FTTH”) high-capacity fiber network throughout the department under a public service concession arrangement (*Délégation de Service Public*—DSP) known as DSP 92. A DSP is a form of public-private partnership under French law, pursuant to which a public authority entrusts private entities to operate a public service in return for remuneration that is based on the revenue generated by the service in question.

The terms of the service arrangement signed between Sequalum and the department of Hauts-de-Seine require Sequalum to construct the network—completing construction by 2015—and maintain and operate the network to a specified standard for 25 years. At the end of the 25th year, the service arrangement will end.

Sequalum provides construction services to the department of Hauts-de-Seine in exchange for an intangible asset, i.e. a right to collect revenue from the network users. In accordance with IAS 38 and IFRIC 12, Sequalum recognizes the intangible asset at cost, net of grants, i.e. the fair value of the consideration transferred to acquire the asset, which is the fair value of the consideration received or receivable for the construction services delivered.

Main characteristics of the agreement:

Control and regulation of prices	Origin of revenues	Subsidy granted by grantor	Residual value	End of agreement	Accounting model
Rates are defined in the service agreement	Users	59 million euro subsidy to finance the construction	The network will be returned to the grantor with no indemnity, except for some assets ( <i>actifs de reprise</i> )	Contract will end after 25 years	Intangible assets

**2.12 Property, plant and equipment**

Property, plant and equipment are measured at cost less accumulated depreciation and impairment losses.

Land is not depreciated. Buildings and premises are amortized on a straight-line basis over 20 years.

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**2 Significant accounting policies (Continued)**

When property, plant and equipment include significant components with different useful lives, the components are recorded and amortized separately. With respect to network and technical equipment, depreciation is calculated on a straight-line basis. The main depreciation periods are as follows:

<u>Network and technical equipment</u>	<u>Method</u>	<u>Duration</u>
Network hubs . . . . .	Straight line	10 to 15 years
Optical cables . . . . .	Straight line	15 to 30 years
Engineering facilities . . . . .	Straight line	20 to 40 years
Connections . . . . .	Straight line	5 years
Digital terminals . . . . .	Straight line	3 to 5 years
Furniture . . . . .	Straight line	5 to 10 years
Fixtures and fittings . . . . .	Straight line	8 to 10 years
Transport equipment . . . . .	Straight line	2 to 5 years
Office equipment . . . . .	Straight line	3 to 5 years
Computer equipment . . . . .	Straight line	3 to 5 years

Gains or losses on disposal of property, plant and equipment are the difference between the profit from the disposal and the carrying amount of the asset and are recognized in the caption "Other operating income/expenses" of the consolidated statement of income.

**2.13 Lease arrangements**

Leases are classified as finance leases whenever the terms of the lease substantially transfer the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

**The Group as lessor**

Amounts due from lessees under finance leases are recognized as receivables in the amount of the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment in respect of the leases.

Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized on a straight-line basis over the term of the lease.

**The Group as lessee**

Assets held under finance leases are initially recognized as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation. Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognized immediately in profit or loss. Contingent rentals are expensed in the period in which they are incurred.

Operating lease payments are expensed on a straight-line basis over the term of the lease, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are expensed in the period in which they are incurred. In the event that incentives are received to enter into operating leases, such incentives are recognized as a liability. The aggregate benefit of incentives is recognized as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**2 Significant accounting policies (Continued)**

**2.14 Impairment of goodwill and non-current assets**

Whenever events or changes in the economic environment indicate a risk of impairment of goodwill, or other intangible assets, property, plant and equipment and assets in progress, the Group re-examines the value of these assets. In addition, goodwill, other intangible assets with indefinite useful lives and intangible assets in progress are subject to annual impairment testing during the second half of each fiscal year.

This testing is performed in order to compare the recoverable amount of an asset or a Cash Generating Unit (“CGU”) with its carrying amount.

An asset’s or CGU’s recoverable amount is the greater of its fair value less costs to sell or its value in use. The recoverable amount is determined for each individual asset, unless the asset does not generate cash inflows that are largely independent of those derived from other assets or groups of assets. In that case, the recoverable amount is determined for the CGU to which the asset belongs.

A CGU is the smallest identifiable group of assets that generate cash inflows that are largely independent of the cash inflows from other assets or groups of assets. The CGUs for the Group are “B2C Operations,” “B2B Operations” and “Wholesale Services.”

The value in use of each asset or group of assets is determined as the present value of future cash flows (discounted cash flow method or “DCF”) by using a discount rate after tax specific to each asset or group of assets concerned.

The fair value less costs to sell is the amount obtainable from the sale of the asset or group of assets in an arm’s length transaction between knowledgeable and willing parties, less costs to sell.

When the carrying amount of an asset exceeds its recoverable amount, an impairment loss is recognized in the caption “Depreciation and amortization” of the statement of income. Only impairment losses recognized on assets other than goodwill such as depreciable intangible assets, intangible assets with indefinite useful lives and property, plant and equipment may be reversed.

**2.15 Financial assets**

The Group classifies financial assets in four categories: available-for-sale; loans and receivables; held-to-maturity; and financial assets at fair value through profit and loss. They are classified as current assets and non-current assets in accordance with IAS 1.

Purchases and sales of all financial assets are recognized at the settlement date.

**Available-for-sale financial assets**

Available-for-sale financial assets are recognized initially at fair value plus transaction costs that are directly attributable to the acquisition or issue of the financial asset. After initial recognition, they are reported at their fair value. Gains and losses arising from changes in their fair value are recognized directly in equity, until the security is sold or is determined to be impaired, at which time the cumulative gain or loss previously recognized in equity is reclassified in profit or loss for the period.

Available-for-sale financial assets consist mainly of shares in companies that are not included in the scope of consolidation. Fair value corresponds to the quoted price for listed securities. For non-listed securities, the Group values financial assets at historical cost, less any impairment losses, when a reliable estimate of fair value cannot be made using valuation techniques in the absence of an active market.

When there is objective evidence that available-for-sale assets are impaired, the cumulative impairment loss included in equity is reclassified from equity to profit or loss. Objective evidence that an available-for-sale financial asset is impaired includes, among other things, a decrease in the estimated future cash flows arising from these assets, as a result of significant financial difficulty of the issuer, a

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**2 Significant accounting policies (Continued)**

material decrease in expected future profitability or a prolonged decrease in the fair value of the security. Impairment losses recognized in profit or loss for equity instruments classified as available-for-sale are never reversed.

Available-for-sale financial assets are included in non-current assets unless management intends to dispose of the investment within 12 months of the date of the statement of financial position.

**Loans and receivables**

Loans and receivables are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. After initial recognition, they are measured at amortized cost using the effective interest method.

This category mainly includes trade and other receivables.

If there is objective evidence that an impairment loss has been incurred, the amount of this loss, measured as the difference between the financial asset's carrying value and its recoverable amount, is recognized in profit or loss. Impairment losses may be reversed if the recoverable amount of the asset subsequently increases.

**Held-to-maturity financial assets**

Held-to-maturity financial assets are financial assets with fixed or determinable payments and fixed maturities that the Group intends and has the ability to hold to maturity. Financial assets that are designated as held-to-maturity are measured at amortized cost, using the effective interest method.

They are reviewed for impairment on an individual basis if there is any indication that they may be impaired.

The Group does not classify any financial asset in this category.

**Financial assets measured at fair value through profit or loss**

These financial assets are measured at fair value, with gains and losses recorded as financial income or expenses.

This category mainly includes:

- assets held for trading that the Group intends to sell in the near future (primarily marketable securities);
- assets voluntarily classified at inception in this category;
- derivative financial assets.

**2.16 Inventories**

Inventories, mainly set-top boxes and technical equipment, are carried at the lower of cost and net realizable value. Cost is determined using the weighted-average cost method, and includes the acquisition cost of materials.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated selling expenses.

**2.17 Cash and cash equivalents**

Cash consists of cash in bank accounts and deposits.

Cash equivalents consist of highly liquid investments not subject to significant changes in value and with an original maturity date generally less than three months from the time of purchase.

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**2 Significant accounting policies (Continued)**

**2.18 Financial liabilities and equity instruments**

**Classification as debt or equity**

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangement.

**Equity instruments**

An equity instrument is any contract resulting in a residual interest in the assets of an entity after deducting all of its liabilities. The equity instruments issued by the Group are recorded for the proceeds received, net of direct issuance costs.

**Financial liabilities**

Financial liabilities other than derivative instruments include borrowings under the Senior Facility Agreement (“SFA”), debt related to finance leases, guarantee deposits, advances received and bank overdrafts.

They are measured at amortized cost, using the effective interest method in accordance with IAS 39. The effective interest rate is the internal rate or return that exactly discounts future cash flows through the term of the financial liability. Fees, debt issuance and transaction costs are included in the calculation of the effective interest rate over the expected life of the instrument. Accrued interest is included in “Current portion of financial liabilities” in the statement of financial position.

**2.19 Derivative instruments**

Derivatives are initially recognized at fair value on the date of inception of a derivative contract, and are subsequently remeasured at their fair value.

The Group enters into interest rate swaps and caps to manage its interest rate exposure. The objective is to convert variable rate financial instruments into fixed rate financial instruments. These contracts do not qualify as hedges for accounting purposes according to IAS 39, as there was no formal designation and documentation of the hedging relationship at inception. Changes in the fair value of any these derivative instruments are recognized immediately in the statement of income, under financial income and expenses.

**2.20 Employee benefits, provisions and contingent liabilities**

Provisions are recognized when the Group has a legal obligation (legal, regulatory or contractual) or a constructive obligation, as a result of past events, and it is probable that economic benefits in the form of an outflow of resources will be required to settle the obligation, and when the amount of the obligation can be reliably estimated. Provisions are reviewed at the end of each reporting period, and adjusted to reflect the current best estimate.

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity, or a present obligation that arises from past events but is not recognized because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability. Contingent liabilities are disclosed in the notes, but are not recognized.

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

## **2 Significant accounting policies (Continued)**

### **Employee benefits**

The Group provides employee benefits through contributions to defined-contribution plans and defined-benefit plans. The Group recognizes pension costs related to defined-contribution plans as they are incurred in personnel expenses in the statement of income.

Estimates of the Group's pension and end-of-service benefit obligations are calculated annually, in accordance with the provisions of IAS 19 Revised *Employee Benefits* ("**IAS 19R**"), with the assistance of independent actuaries, using the projected unit credit method and considering actuarial assumptions including the probable turnover of beneficiaries, salary increases, expected life expectancy, the probable future length of employees' service and an appropriate discount rate updated annually.

Actuarial gains and losses arising from experience, adjustments and changes in actuarial assumptions are recognized in other comprehensive income.

### **Litigation**

The amount of provisions for litigation is based on the Group's assessment of the level of risk, and depends on its assessment of the basis for the claims.

### **Restructuring**

Provisions for restructuring expenses are recognized when restructuring plans have been finalized and approved by the Group's management, and when the Group has raised a valid expectation among the employees concerned that it will carry out the plan either by starting to implement the plan or announcing its main features. These provisions only include direct expenditure arising from restructuring, notably severance payments, early retirement costs, costs for notice periods not worked and other costs directly related to the closure of facilities.

#### **2.21 Share-based payment**

The Group has granted options that will be settled as equity instruments. In accordance with IFRS 2, the benefit granted to employees under stock option plans, assessed at the time of the grant of the option, is additional remuneration.

Plans granting instruments settled as equity instruments are measured at the grant date based on the fair value of the equity instruments granted. They are recognized as personnel expenses over the vesting period, taking into account an estimate of the number of options that will vest at the end of the period. In addition, for plans based on non-market performance conditions, the probability of achieving the performance objective is assessed each year and the expense adjusted accordingly.

The fair value of options granted is determined using the Black-Scholes valuation model, which takes into account an annual reassessment of the expected number of exercisable options. The expense recognized is adjusted accordingly.

#### **2.22 Borrowing costs**

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of that asset. The Group notes that it does not take a substantial amount of time to get assets ready for their intended use because of the incremental deployment of the network. IAS 23 *Borrowing Costs* consequently has no impact on the consolidated financial statements.

#### **2.23 Earnings per share**

Basic earnings per share are calculated by dividing the profit attributable to holders of ordinary shares of the parent by the weighted average number of ordinary shares outstanding during the period, excluding any treasury shares held by the Group.

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**2 Significant accounting policies (Continued)**

Diluted earnings per share are calculated by dividing the profit attributable to holders of ordinary shares of the parent by the weighted average number of ordinary shares outstanding during the period, based on the assumption that all potentially dilutive instruments are converted and that the assumed proceeds from the conversion of these instruments has been used to acquire shares of the Group at the average market price for the period during which these instruments were outstanding.

Potentially dilutive instruments include stock options, if dilutive.

**3 Critical accounting judgments and key sources of uncertainty in respect of estimates**

The preparation of the consolidated financial statements in accordance with IFRS requires the Group to make a certain number of estimates and assumptions that are realistic and reasonable.

In applying accounting policies during the preparation of the consolidated financial statements described in Note 2, management is required to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses.

Such estimates are prepared based on the going concern assumption, established using currently available information and in view of the current economic environment. In the prevailing economic environment, changes in facts and circumstances may result in revised estimates or assumptions, which could affect the financial position, results of operations and cash flows of the Group.

The valuation of certain assets and liabilities in the preparation of these financial statements required management to make estimates and assumptions, particularly in respect of:

- *Revenue recognition:* as indicated in Note 2.3, revenue is recognized at the fair value of the consideration received or to be received when the risks and rewards of ownership of a product have been substantially transferred to the buyer or when the service is rendered. With respect to contracts that include installation, connection and set-up fees for residential customers, significant judgments must be made as to whether the recognition criteria set out in IAS 18 should be applied separately and whether installation, set-up and connection should be considered separable services. With respect to service access fees for business customers, revenue is recognized on a straight-line basis over the term of the contract. Accordingly, depending upon how judgment is exercised and how estimates are determined, the timing and amount of revenue recognized can differ significantly.
- *Capitalization of development costs:* the criteria for capitalizing development costs are set out in Note 2.11. Once capitalized, these costs are amortized over the estimated useful lives of the respective products (generally three years). The Group must therefore evaluate the commercial and technical feasibility of its development projects and estimate the useful lives of the products resulting from these projects. Should a product fail to substantiate these assumptions, the Group may be required to impair or write off some of the capitalized development costs in the future. Note 14 provides information on the amount of capitalized costs in the consolidated statement of financial position.
- *Fair value of financial instruments* (see Note 28.3): fair value is determined by reference to the market price at the end of the period. For financial instruments for which there is no active market such as interest rate swaps, which the Group currently uses to hedge its interest rate risk, fair value is estimated based on models that rely on observable market data or by the use of various valuation techniques, such as discounted future cash flows.
- *Recognition of deferred tax assets on unrealized tax loss carryforwards* (see Notes 2.8, 4.1.7 and 12): deferred tax assets relate primarily to tax loss carryforwards. The assets relating to tax loss carryforwards are recognized if it is probable that the Group will generate future taxable profits against which these tax losses can be offset. Evaluation of the Group's capacity to utilize tax loss carry-forwards relies on an in-depth review. The Group analyzes past events, and the positive and

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**3 Critical accounting judgments and key sources of uncertainty in respect of estimates (Continued)**

negative elements of certain economic factors that may affect its business in the foreseeable future to determine the probability of its future utilization of these tax loss carryforwards. As of December 31, 2013 the Group recognized deferred tax assets in a total amount of 132.7 million euros in respect of loss carryforwards whose future use was deemed probable within the forecast period of five years.

- *Impairment tests* (see Notes 2.10 and 16): the determination of recoverable amounts of the CGUs assessed in the annual impairment test requires an estimate of their fair value less costs to sell as well as their value in use. The assessment of the value in use requires assumptions to be made with respect to the operating cash flows of the CGUs, as well as discount rates.

The determination of the value in use is based on assumptions such as the weighted average cost of capital and the perpetual growth rate beyond the projection period. These assumptions can vary, potentially causing the recoverable amount to fall below the carrying amount, and as such requiring the recognition of an impairment loss.

As of December 31, 2013 and 2012, the assumptions used to determine the value in use of the CGUs for which goodwill is allocated were as follows:

<u>CGU "B2C Operations"</u>	<u>2013</u>	<u>2012</u>
Length of forecast period . . . . .	5 years	8 years
Discount rate . . . . .	7.30%	7.56%
Growth rate beyond forecast period for terminal value . . . . .	2.00%	1.75%
 <u>CGU "B2B Operations" and "Wholesale"</u>	 <u>2013</u>	 <u>2012</u>
Length of forecast period . . . . .	5 years	6 years
Discount rate . . . . .	7.14%	9.42%
Growth rate beyond forecast period for terminal value . . . . .	2.00%	1.00%

The calculation of value in use is based on financial budgets approved by management, the period of which was reduced to five years in 2013 in accordance with the recommendations of IAS 36. Projections in respect of subscribers, revenue, costs, and capital expenditure are based on reasonable and acceptable assumptions that represent management's best estimates. Key assumptions are the estimated number of subscribers, average revenue per user and the level of upgraded network infrastructure. The projections are based on both past experience and the expected future market penetration of the various products.

**4 Significant events**

**4.1 Year ended December 31, 2013**

**4.1.1 Constitution of Numericable Group**

Numericable Group was established in July 2013 by way of cash contributions in an initial amount of 37 thousand euros.

On November 7, 2013, Numericable Group received, within the framework of the Company's prospective IPO, the contribution of two holding companies incorporated in Luxembourg, Ypso Holding SARL and Altice Lux Holding SARL, the parent companies of Ypso France and Altice B2B France respectively.

The contributions of Ypso and Altice B2B Numericable Group increased the capital of the Company by a total of 1,995,489 thousand euros, breaking down into a 113,772 thousand euro increase in share capital and a 1,881,717 thousand euro increase in additional paid-in capital.

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

#### **4 Significant events (Continued)**

Following the contributions, the Company's share capital accordingly amounted to 113,809 thousand euros, and additional paid-in capital to 1,881,717 thousand euros.

Moreover, during the restructuring of the Group's debt in 2009, during which the Group's shareholders acquired certain loans in respect of SFA Ypso France, Ypso Holding SARL issued securities subscribed by the shareholders, including 132,664,023 subordinated interest preferred equity certificates ("Super PECs") with a nominal value of 1 euro each, the interest on which was capitalized.

Cinven, Carlyle and Altice contributed the Super PECs to Numericable Group on November 7, 2013, within the framework of the legal transactions related to the IPO. This debt was therefore extinguished in exchange for newly issued securities. Subsequently, the expense related to the extinguishment of the debt ("Premium") was recognized as financial expense in the amount of 81.6 million euros. This expense had no impact on the Group's cash position.

##### **4.1.2 IPO and capital increases**

On October 25, 2013, the Board of Directors of Numericable Group decided in principle to undertake an initial public offering of the Company on NYSE Euronext Paris.

On November 7, 2013, the Board of Directors:

- priced the IPO at 24.80 euros per share;
- decided to increase share capital by a total amount of 250,000 thousand euros through a public offering (including a 10,081 thousand euro capital increase through the issuance of new shares and 239,919 thousand euros in additional paid-in capital);
- proposed a capital increase reserved for employees, which was ultimately carried out in the amount of 1,034 thousand euros (including a 52 thousand euro capital increase through the issuance of new shares and 982 thousand euros in additional paid-in capital).

Trading on the shares began on November 8, 2013.

The costs incurred in connection with the IPO were fully charged to additional paid-in capital in a total amount of 14,582 thousand euros. These costs, borne entirely by Numericable Group, were accounted for without tax effect.

Following the IPO, the Numericable Group's share capital amounted to 123,942 thousand euros, and additional paid-in capital to 2,108,037 thousand euros. See Note 22.1 for information on the constitution of the share capital of Numericable Group.

##### **4.1.3 Granting of stock option plans**

On November 7, 2013, the Board of Directors also adopted a stock option plan in favor of certain officers and employees of Numericable Group.

The plan covers a total of 2,845,229 options for 2,845,229 shares.

As of December 31, 2013, the fair value of options granted was estimated at 9,702 thousand euros. An amount of 640 thousand euros was expensed in 2013 in respect of this plan.

See Note 25.2 for further details on this stock option plan.

##### **4.1.4 Acquisition of Valvision**

On 27 June 2013, the Group acquired 100% of the share capital of Valvision, a cable operator operating in eastern France.

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**4 Significant events (Continued)**

The difference between the acquisition price (3,340 thousand euros) and the share of equity acquired (219 thousand euros), representing the acquired customer base, was 3,121 thousand euros. It was fully allocated to "Other intangible assets," and will be amortized over a period of three years.

No additional payment is provided for under the acquisition agreement.

**4.1.5 Acquisition of LTI Telecom**

On October 31, 2013, the Group acquired 100% of the shares of Invescom, a holding company that owns 100% of LTI, a B2B telecom operator.

The acquisition price amounted to 25,550 thousand euros for a share of equity acquired of 609 thousand euros. No additional payment is provided for under the acquisition agreement.

In view of the date of the acquisition, the allocation of the price to identifiable assets acquired and liabilities assumed had not been finalized as of December 31, 2013. The Company has until September 30, 2014 to finalize this process.

Therefore, the difference of 24,941 thousand euros between the acquisition price and the share of equity as reflected in the accounts of the acquired subgroup was recognized as goodwill as of December 31, 2013 (see Note 13).

**4.1.6 Refinancing of Senior Debt**

***Amendments in July-August 2013***

In July and August 2013, the Group amended its Senior Facility Agreements, allowing a large portion of its debt to be rescheduled. This renegotiation also led to a change in certain contractual conditions, including the margin applicable to the Senior Debt of Altice B2B.

This renegotiation of Senior Debt is a simple modification of existing debt. As such, the costs stemming from the renegotiation (6.2 million euros) have been measured at amortized cost in accordance with the effective interest method pursuant to IAS 39.

***Refinancing in December 2013***

In December 2013, the Group raised a new tranche of Senior Debt in a total amount of 800 million euros (Tranche D). This tranche is repayable by December 31, 2018 and bears interest at Euribor plus a margin of 3.75%.

The Group used the proceeds of this issue (800 million euros) and the proceeds of the capital increase carried out in the context of the public offer (250 million euros) to reimburse some of its existing debt, as follows:

- all of the Senior Debt originally subscribed by Altice B2B France in the amount of 451 million euros;
- all of the 275 million euro bond issue (Tranche C-Two B) subscribed in October 2012;
- part of the 225 million euro bond issue (Tranche C-Two A) subscribed in October 2012 (repayment of 78.8 million euros);
- part of the 360 million euro bond issue (Tranche C-One) subscribed in February 2012 (repayment of 126.1 million euros).

The renegotiation of Senior Debt represents the settlement of existing debt. Accordingly:

- the cost of settling bonds ("Premium") incurred by the Group were recognized in other financial expenses in the amount of 28.0 million euros;

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**4 Significant events (Continued)**

- costs relating to the implementation of the extinguished debt in December 2013, which were originally recorded at amortized cost, has been recognized in other financial expenses in the amount of 15.2 million euros;
- costs relating to the implementation of the new Tranche D (7.25 million euros) have been recognized at amortized cost using the effective interest method in accordance with IAS 39.

Following the refinancing in 2013, the maturity of Senior Debt was as follows as of December 31, 2013 (nominal amounts):

<u>Maturity</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>	<u>Total</u>
in millions of euros . . . . .	42.6	63.4	102.1	821.0	1,223.2	380.0	2,632.4

**4.1.7 Recognition of deferred tax assets**

In the year ended December 31, 2013, the Group recognized deferred tax assets in a total amount of 132.7 million euros in respect of loss carryforwards whose future use was deemed probable within the forecast period of five years.

In view of the large amount of unrecognized deficits remaining as of December 31, 2013 (see Note 12.4), all of the deferred tax income recognized in 2013 was recorded in the statement of income, and no deferred tax assets were recorded in respect of actuarial gains and losses recognized in other comprehensive income or capital increase expenses charged to additional paid-in capital.

**4.1.8 In-depth inquiry of the European Commission into the transfer of cable infrastructures by certain local authorities**

On July 17, 2013 the European Commission signaled that it had decided to open an investigation to verify whether the transfer of public cable infrastructure to Numericable by several French municipalities between 2003 and 2006 was in line with European Union State aid rules. The European Commission expressed doubts as to the compatibility of such aid with EU rules because of the economic advantage conferred on Numericable by virtue of the conditions of the transfer.

As the Group disputes this position, and as the potential risk relating to this investigation cannot be measured reliably, no provision was recorded in the financial statements as of December 31, 2013.

**4.1.9 Leaseback of modems**

In May 2013 and June 2013, the Group entered into two sale and leaseback contracts with Lease Expansion, in respective amounts of 12.7 million euros and 5.9 million euros for new modems known as “La Box.”

The term of the lease is three years for each contract.

**4.1.10 Tax audits**

In 2013, the tax administration initiated a tax audit of Altice B2B France and Completel in respect of fiscal years 2010 and 2011, resulting in the submission of proposed adjustments on December 19, 2013. The adjustments stem exclusively from the rejection of the deductibility of certain shareholder services expensed in 2009, 2010 and 2011. A tax contingency provision totaling 11.4 million euros was recorded as of December 31, 2013 to cover the proposed adjustments (income tax, VAT, withholding tax, fines, penalties and default interest).

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**4 Significant events (Continued)**

**4.1.11 Lehman Brothers compensation**

The Group received two further payments of 4.5 million euros and 2.6 million euros in June 2013 and December 2013 respectively, as part of its claim following the bankruptcy of Lehman Brothers in September 2008 (see Note 28.4).

**4.1.12 Cancellation of the 5 million euro fine imposed by ARCEP**

In July 2013, the Constitutional Court ruled that the power to sanction held by the French regulator (*Autorité de régulation des communications électroniques et des postes*—ARCEP) did not meet the principles of independence and impartiality required by the Constitution.

On October 21, 2013, the Group obtained the annulment by the Council of State of the penalty imposed by ARCEP on December 20, 2011, which condemned Numericable and NC Numericable to a fine of 5 million euros for non-compliance with the ARCEP decision of November 4, 2010.

The Group recorded the proceeds relative to the annulment of the fine in the financial statements for the year ended December 31, 2013 under “Other operating income” (see Note 9).

**4.1.13 Litigation with Free**

On December 13, 2013, the Commercial Court of Paris condemned the Group to pay the sum of 6,411 thousand euros to Free as part of a dispute over an advertising campaign run by Numericable that Free claimed harmed its brand and its image (see Note 24.2 for details on the procedure). The Group appealed this decision.

The Group recognised a provision for the entire fine in the consolidated financial statements for the year ended December 31, 2013. The decision having been executed in early January 2014, the provision was classified under “Current provisions” in the consolidated statement of financial position as of December 31, 2013.

**4.2 Year ended December 31, 2012**

**4.2.1 Bond issues**

In 2012, the Group issued several bonds to refinance part of its existing financial debt.

In February 2012, the Group issued a 360 million euro bond. The issuer was Numericable Finance & Co. SCA, an unregulated securitization company in the form of a corporate partnership limited by shares incorporated under the laws of the Grand Duchy of Luxembourg. The proceeds of the notes were used by Numericable Finance & Co. to fund a buy-back of 100% of the Lending Bank’s (JP Morgan) participation in a loan (the “C-One” Facility Loan), whose sole lender was the bank itself under the Senior Facility Agreement, in favor of the Group, and which allowed it to reimburse certain facilities under the SFA in the amount of 350 million euros.

The notes mature on February 15, 2019 and bear interest at 12.375%. Interests on the notes are paid semiannually on February 15 and August 15 of each year.

In February 2012, the Group also obtained a new Revolving Credit Facility under the SFA. The maximum amount that can be drawn is 65 million euros (“Revolving Credit Facility”). It matures in March 2016. The amount used under this facility bears interest equal to Euribor plus 4.5%. The amount not used under this facility, which amounted to 65 million euros as of December 31, 2013, bears interest equal to a commitment fee of 2.25%.

According to the terms of the amendment of the September 2011 Senior Facility Agreement, maturities of certain lenders’ commitments were extended by two years (comprising one-half of Tranche A and the Capex Facility and two-thirds of Tranches B & C). Along with the extension of the maturities, the

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

#### **4 Significant events (Continued)**

amendment changed the margin on the extended tranches and put a new set of financial covenants in place. The September 2011 Senior Facility Agreement became effective on February 15, 2012.

In October 2012, the Group issued another two bonds in amounts of 225 and 275 million euros respectively through the same issuer, Numericable Finance & Co. SCA. The proceeds of the notes were used by Numericable Finance & Co. to fund a buy-back of 100% of the Lending Bank's (JP Morgan) participation in two new loans, the "C-Two A Facility Loan" and the "C-Two B facility Loan," whose sole lender was the Lending Bank itself under the Senior Facility Agreement, in favor of the Group, which allowed it to reimburse certain facilities under the SFA in the amount of 490 million euros.

The "C-Two A facility" amounts to 225 million euros. It matures on February 15, 2019 and bears a fixed interest rate of 8.75% per annum. Interest is paid semiannually on February 15 and August 15 of each year, commencing on February 15, 2013.

The "C-Two B facility" amounts to 275 million euros. It matures in October 2018 and bears a floating interest rate equal to three-month Euribor plus 7.85% per annum. Interest is paid quarterly on January 15, April 15, July 15 and October 15 of each year, commencing on January 15, 2013.

The Group paid 55 million euros in fees in connection with the implementation of these new facilities (C-One, C-Two A and C-Two B) and the amendments relative to the Senior Facility Agreement. This amount includes:

- bond issuance costs of 30.2 million euros, which are amortized over the length of the notes using the effective interest method;
- waiver fees of 17.4 million euros, which are recorded in "Other financial expense" in the consolidated statement of income for the period ended December 31, 2012;
- advisory fees of 7.4 million euros, which are recorded in "Other operating expenses" in the consolidated statement of income for the period ended December 31, 2012.

##### **4.2.2 Purchase of the Nice network**

In April 2012, the Group signed an agreement with the city of Nice for the purchase of the cable network of Nice for 20 million euros.

The purchase price repayment is scheduled as follows:

- 2.5 million euros in July 2012 and 2.5 million euros in January 2013;
- the remaining 15 million euros payable over 20 years (0.75 million euros each year from 2013 to 2032), with interest of 4%.

##### **4.2.3 Tax audits**

During the third quarter of 2012, the tax audits mentioned in Note 12.5 were extended to fiscal year 2010. Tax penalties related to the fiscal years 2005 to 2009 have been reduced.

As of December 31, 2012, the amount of the provision recognized in relation to these tax audits had not been adjusted, as management believes that the financial risk related to penalties for fiscal year 2010 will represent the same amount as the reductions notified by the administration concerning the penalties for fiscal years 2005 to 2009.

#### **5 Segment information**

As stated in Note 2.7, the Group has three operating segments:

- B2B Operations
- B2C Operations
- Wholesale Services

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**5 Segment information (Continued)**

**5.1 Statement of income**

The following tables provide, for each period presented, the contribution of each segment to the statement of Income (from "Revenue" to "Operating income before depreciation and amortization").

Intra-segments sales have been eliminated under the column "Eliminations."

<u>2013</u>	<u>B2C</u>	<u>B2B</u>	<u>Wholesale</u>	<u>Eliminations</u>	<u>2013 Total</u>
	(in thousands of euros)				
<b>Revenue</b> . . . . .	<b>869,448</b>	<b>312,640</b>	<b>200,794</b>	<b>(68,640)</b>	<b>1,314,242</b>

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**8 Personnel expenses**

Personnel expenses break down as follows:

	December 31, 2013	December 31, 2012
	(in thousands of euros)	
Wages and salaries . . . . .	(99,947)	(91,343)
Social security charges . . . . .	(45,923)	(43,889)
Employee profit-sharing . . . . .	(5,210)	(6,243)
Costs related to the stock option plan <sup>(a)</sup> . . . . .	(3,551)	—
<b>Staff costs and employee benefits expense . . . . .</b>	<b><u>(154,631)</u></b>	<b><u>(141,475)</u></b>

(a) Includes 2.9 million euros in respect of employer contributions due on the allocation of shares and 0.6 million euros for the cost of the plan recognized in 2013 (see Note 4.1.3).

As of December 31, 2013, the Group employed a total of 2,182 people (of which 2,077 permanent contracts), compared with 1,979 as of December 31, 2012 (of which 1,910 permanent contracts).

The following table breaks down the numbers of permanent contracts by occupational category as of December 31, 2013 and 2012:

<u>Occupational category</u>	December 31, 2013	December 31, 2012
Managers . . . . .	1,096	1,015
Senior technicians and supervisors . . . . .	356	322
Operators, employees and technicians (Non Managers) . . . . .	625	573
<b>Total . . . . .</b>	<b><u>2,077</u></b>	<b><u>1,910</u></b>

**9 Other operating income**

Other operating income breaks down as follows:

	December 31, 2013	December 31, 2012
	(in thousands of euros)	
Own work capitalized <sup>(a)</sup> . . . . .	75,853	82,217
Proceeds from sale of assets . . . . .	5,078	3,817
Other <sup>(b)</sup> . . . . .	5,390	3,195
<b>Other operating income . . . . .</b>	<b><u>86,321</u></b>	<b><u>89,229</u></b>

(a) Own work capitalized work on the network performed by employees of the Group with a view to upgrading the cable network.

(b) In 2013, this item included the repayment of the 5 million euro fine imposed by ARCEP in 2012. In 2012, this item mainly included various transfers of expenses in the amount of 2.7 million euros.

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**10 Other operating expense**

Other operating expenses break down as follows:

	December 31, 2013	December 31, 2012
	(in thousands of euros)	
Net carrying amount of assets sold . . . . .	(14,741)	(7,382)
Fees paid in connection with refinancing . . . . .	(4,619)	(7,372)
Management fees paid to shareholders <sup>(a)</sup> . . . . .	(1,106)	(2,424)
Miscellaneous operating expenses . . . . .	—	—
<b>Other operating expense . . . . .</b>	<b><u>(20,466)</u></b>	<b><u>(17,178)</u></b>

(a) Until the date of IPO, after which the agreements were terminated.

**11 Finance costs, net**

Net finance costs broke down as follows as of December 31, 2013 and 2012:

	Note	December 31, 2013	December 31, 2012
		(in thousands of euros)	
Interest income received on cash and cash equivalents . . . . .		111	106
Other financial income . . . . .	11.1	9,593	4,220
<b>Financial income . . . . .</b>		<b><u>9,704</u></b>	<b><u>4,326</u></b>
Change in fair value of interest rate derivatives . . . . .		—	—
Interest expense on financing determined using the effective interest method . . . . .		(184,839)	(183,057)
<b>Interest relative to gross financial debt . . . . .</b>		<b><u>(184,839)</u></b>	<b><u>(183,057)</u></b>
Other financial expense . . . . .	11.2	(148,513)	(32,699)
<b>Finance costs, net . . . . .</b>		<b><u>(323,648)</u></b>	<b><u>(211,430)</u></b>

**11.1 Other financial income**

As of December 31, 2013, other interest income broke down primarily as follows:

- Payments received within the framework of the compensation sought after the bankruptcy of Lehman Brothers in September 2008 (see Note 28.4) in the amount of 7.1 million euros (compared with 2.8 million euros in 2012);
- Reversals of provisions for financial risks and charges in the amount of 1.9 million euros.

**11.2 Other interest expense**

As of December 31, 2013, other interest expense broke down primarily as follows:

- the cost of settling bonds (“Premium”) incurred by the Group in the amount of 28 million euros through the reimbursement of the Senior Facility Agreement as explained in Note 4.1.6 above;
- the costs incurred with respect to the settlement of SuperPecs in the amount of 81 million (without impact on the Group’s cash position as this debt was extinguished through the issuance of shares in the context of the IPO as explained in Note 4.1.1 above);
- the unamortized portion of costs related to the debt settled in December 2013 (initially measured at amortized cost) in the amount of 15.2 million euros;

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**11 Finance costs, net (Continued)**

- the amortization of fees paid for the establishment of funding still in place at end-2013 in the amount of 8.3 million euros;
- penalties for late customer deployments in the amount of 4 million euros.

As of December 31, 2012, other interest expense broke down primarily as follows:

- early repayment of penalties paid in connection with debt refinancing in the amount of 17.4 million euros;
- amortization of fees paid for the establishment of funding in the amount of 6.2 million euros valued using the effective interest method;
- default interest in the amount of 5.6 million euros.

**12 Income tax**

**12.1 Income tax expense**

Income tax expense breaks down as follows:

	December 31, 2013	December 31, 2012
	(in thousands of euros)	
Current tax expense/income . . . . .	130	(2,486)
Deferred tax expense/income . . . . .	132,662	—
<b>Tax expense/income . . . . .</b>	<b><u>132,792</u></b>	<b><u>(2,486)</u></b>

**12.2 Reconciliation between the effective tax rate and the theoretical tax rate**

	December 31, 2013	December 31, 2012
	(in thousands of euros)	
Net income (loss) before tax . . . . .	(68,086)	88,912
Less: Share of net income (loss) of associates . . . . .	484	199
	<u>67,602</u>	<u>89,111</u>
Corporate tax rate in France . . . . .	38%	34.43%
Income tax expense calculated at 38% . . . . .	<b><u>25,689</u></b>	<b><u>(30,681)</u></b>
<b>Reconciliation of income tax expense</b>		
Deferred tax assets . . . . .	132,662	—
Effect of revenue that is exempt from taxation and effect of expenses that are not deductible in determining taxable profit <sup>(1)</sup> . . . . .	(26,231)	(13,315)
Effect of unused tax losses and tax offsets not recognized as deferred tax assets . . . . .	—	41,083
Tax credits . . . . .	673	420
Effect of other differences . . . . .	—	8
<b>Income tax expense recognized in profit or loss . . . . .</b>	<b><u>132,792</u></b>	<b><u>(2,486)</u></b>
Effective tax rate <sup>(2)</sup> . . . . .	<u>(196.43)%</u>	<u>2.79%</u>

(1) Consists primarily of interest expense not deductible under thin capitalization rules (15.2 million euros as of December 31, 2013, compared with 9.9 million euros as of December 31, 2012).

(2) The effective tax rate in 2013 was negative taking into account deferred tax assets during the year.

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**12 Income tax (Continued)**

In view of the large amount of unrecognized tax losses remaining as of December 31, 2013 (see Note 12.4), the deferred tax income recognized in 2013 in respect of tax loss carryforwards whose future use is considered probable within the five-year forecast period was recorded in the statement of income, and no deferred tax assets were recorded in respect of actuarial gains and losses, which are recognized in other comprehensive income, or capital increase expenses, which are charged to additional paid-in capital.

**12.3 Current tax assets and liabilities**

Current tax assets as of December 31, 2013 amounted to 3.4 million euros, corresponding to installments of income tax and competitiveness and employment tax credits (CICE), for which the Group must request reimbursement.

The income tax payable is classified in "Current tax liabilities," and amounts to 71 thousand euros and 2,604 thousand euros as of December 31, 2013 and 2012 respectively.

**12.4 Unrecognized deferred tax assets**

Aggregate unused tax loss carryforwards amounted to 2,316 million euros as of December 31, 2013, representing a theoretical tax asset of 876 million euros. A deferred tax asset of 132.7 million euros was recognized as of December 31, 2013.

Total net tax loss carryforwards break down as follows:

	December 31, 2013	December 31, 2012
	(in thousands of euros)	
Ypso France and its subsidiaries <sup>(1)</sup> . . . . .	1,857,400	1,852,028
Altice B2B France and its subsidiaries . . . . .	413,401	402,544
Ypso Holding Lux . . . . .	45,561	256,173
<b>Total tax loss carryforwards . . . . .</b>	<b>2,316,362</b>	<b>2,510,745</b>
<b>Deferred tax assets calculated at the standard rate . . . . .</b>	<b>876,217</b>	<b>851,103</b>
<i>Of which deferred tax assets recognized . . . . .</i>	<i>132,662</i>	<i>—</i>
<i>Of which deferred tax assets not recognized . . . . .</i>	<i>743,555</i>	<i>851,103</i>

(1) Including tax losses contested by the tax authorities (56 million euros as of December 31, 2013).

**12.5 Tax audits**

Certain subsidiaries of the Group, Ypso France, NC Numericable (including Numericable and Est Videocommunication, merged in 2013) were subject to a tax audit by the French tax authorities for the fiscal years ended from December 31, 2007 to December 31, 2010. As a result, a tax contingency provision in the amount of 24.9 million euros was recognized as of December 31, 2013 (compared with 25.1 million euros as of December 31, 2012) to cover the risk represented by this audit.

In 2013, the tax administration initiated a tax audit of Altice B2B France and Completel in respect of fiscal years 2010 and 2011, resulting in the submission of proposed adjustments on December 19, 2013. The adjustments focus exclusively on the rejection of the deductibility of certain shareholder services expensed in 2009, 2010 and 2011. A tax contingency provision totaling 11.4 million euros was recorded as of December 31, 2013 to cover the proposed adjustments (income tax, VAT, withholding tax, fines, penalties and default interest).

The total tax contingency provision was 36.3 million euros as of December 31, 2013, compared with 25.1 million euros as of December 31, 2012.

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**13 Goodwill**

	December 31, 2013	December 31, 2012
	(in thousands of euros)	
<b>Net carrying amount</b>		
Balance at beginning of year . . . . .	1,458,686	1,458,638

(a) Rights of use represent the majority of “rights of use, patents and licenses.” They reflect the rights to use civil engineering installations and infrastructure built by the incumbent operator, France Telecom, as well as investments made through the DSP.

(b) Other intangible assets primarily include customer lists (including the customers of Valvision, acquired in 2013, see Note 4.1.4) and capitalized production within the framework of IT projects relating to the network.

\* As explained in note 2.11, the Group applied IFRIC 12 with respect to the contract entered into in relation to the public service concession arrangement with the department of Hauts-de-Seine (DSP 92).

The application of this principle had the following impacts on the 2012 consolidated statement of financial position:

- Recognition of the net carrying amount of 17.2 million euros classified in “Other intangible assets” (26.6 million euros of investments less 9.5 million euros of grants received as of December 31, 2011);
- Recognition of 26.4 million euros of capital expenditure in 2012 in “Rights of use, patents and licenses” (38.0 million euros of investments less 11.5 million euros of grants received in 2012).

In addition, 26.4 million euros of capital expenditure in relation to the public service concession arrangement with the department of Hauts-de-Seine (DSP 92). This amount is classified in investing activities in the consolidated statement of cash flows.

As of December 31, 2013, the total amount of investments (net of subsidies) made under DSP 92 and classified as intangible assets amounted to 71.8 million euros.

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**15 Property, plant and equipment (Continued)**

The carrying amount of assets classified as finance leases breaks down as follows:

	December 31, 2013	December 31, 2012
	(in thousands of euros)	
Land . . . . .	1,029	1,029
Buildings . . . . .	6,558	6,868
Network and technical equipment . . . . .	53,048	31,632
Other . . . . .	79	160
	<u>60,714</u>	<u>39,689</u>

**16 Impairment testing**

**16.1 Allocation of goodwill between cash-generating units ("CGU")**

In accordance with IAS 36 *Impairment of Assets* ("IAS 36"), goodwill has been allocated to two CGUs: "B2C Operations" (mainly NC Numericable) and "B2B Operations" (mainly Completel SAS and LTI Telecom).

**16.2 Key assumptions used to determine the recoverable amount of the CGUs**

Impairment testing of goodwill is done within the cash-generating units defined above. In accordance with IAS 36 *Impairment of Assets*, impairment testing is performed by comparing the carrying amount with the recoverable amount. The recoverable amount is determined based on the value in use using a discounted cash flow model.

The determination of the value in use is established using cash flow projections based on financial budgets approved by senior management covering a planning period of five years.

Projections of subscribers, revenue, costs and capital expenditure are based on reasonable and acceptable assumptions that represent management's best estimates. Key assumptions are the estimated number of subscribers and the level of expenditure on network infrastructure upgrades. The projections are based on both past experience and the expected future market penetration of the various products.

As mentioned in Note 3, the determination of the value in use is based on assumptions such as the weighted average cost of capital and the growth rate beyond the projection period. These assumptions can vary, potentially causing the recoverable amount to fall below the carrying amount, and as such the recognition of an impairment loss.

No impairment was recognized for either of the periods presented.

The determination of the value in use is based on the following estimates as of December 31, 2013 and 2012:

<u>CGU "B2C Operations"</u>	<u>2013</u>	<u>2012</u>
Length of forecast period . . . . .	5 years	8 years
Discount rate applied to cash flow projections . . . . .	7.30%	7.56%
Perpetual growth rate used to calculate terminal value . . . . .	2.00%	1.75%

In terms of the sensitivity of recoverable amounts, a change of plus or minus 0.25% in the discount rate would decrease or increase the recoverable amount by approximately 143 million euros. Likewise, a change of plus or minus 0.25% in the perpetual growth rate would increase or decrease the recoverable amount by approximately 116 million euros.

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**16 Impairment testing (Continued)**

As of December 31, 2013, the amounts by which the key assumptions would have to change for the recoverable amount to equal the carrying amount were as follows:

- Increase in WACC from 7.30% to 8.73%;
- Reduction in the perpetual growth rate from 2.00% to 0.12%;
- Reduction in gross margin (calculated based on internal reporting) from an average of 50.7% to an average of 46.0% over the five-year period.

<b>CGU "B2B Operations"</b>	<b>2013</b>	<b>2012</b>
Length of forecast period . . . . .	5 years	6 years
Discount rate applied to cash flow projections . . . . .	7.14%	9.42%
Growth rate beyond projection period for terminal value . . . . .	2.00%	1.00%

In terms of the sensitivity of recoverable amounts, a change of plus or minus 0.25% in the discount rate would decrease or increase the recoverable amount by approximately 74 million euros. Likewise, a change of plus or minus 0.25% in the perpetual growth rate would increase or decrease the recoverable amount by approximately 56 million euros.

As of December 31, 2013, the amounts by which the key assumptions would have to change for the recoverable amount to equal the carrying amount were as follows:

- Increase in WACC from 7.14% to 10.62%;
- Reduction in the perpetual growth rate from 2.00% to -3.70%;
- Reduction in gross margin (calculated based on internal reporting) from an average of 38.3% to an average of 32.1% over the five-year period.

**17 Investments in associates**

The Group exercises significant influence over Alsace Connexia Participation, an associate consolidated under the equity method. Alsace Connexia Participation's initial shareholding structure was as follows: 38.14% held by Ypso France, 38.15% by LD Collectivités and 23.71% by Sogetrel Réseaux. In 2009, LD Collectivités bought the interest held by Sogetrel Réseaux, giving it a controlling interest (61.86%) in Alsace Connexia Participation.

Alsace Connexia Participation owns a 70% stake in Alsace Connexia, which has been granted a public service concession by the regional authority of Alsace to design, build, fund, operate and market telecommunications infrastructure in the region over a 15-year period. The concession contract took effect on February 3, 2005.

The following tables provide information on the net assets and operating results of Alsace Connexia Participation:

	<b>December 31, 2013</b>	<b>December 31, 2012</b>
	<b>(in thousands of euros)</b>	
Net assets <sup>(1)</sup> . . . . .	<u>7,614</u>	<u>8,888</u>
Share of net assets . . . . .	<u>2,893</u>	<u>3,378</u>

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**17 Investments in associates (Continued)**

	2013	2012
	(in thousands of euros)	
Revenues (Alsace Connexia) . . . . .	14,463	13,050
Net income (loss) . . . . .	(1,274)	(524)
Share of net income (loss) . . . . .	(484)	(199)

(1) No goodwill is recognized in net assets.

**18 Other current and non-current financial assets**

	Current		Non-current	
	December 31, 2013	December 31, 2012	December 31, 2013	December 31, 2012
	(in thousands of euros)			
Derivative instruments <sup>(1)</sup> . . . . .	—	—	—	5
Investments in entities that are not consolidated <sup>(2)</sup> . . . . .	—	—	35	35
Other financial assets <sup>(3)</sup> . . . . .	4,020	4,034	7,228	6,791
<b>Total financial assets</b> . . . . .	<b>4,020</b>	<b>4,034</b>	<b>7,263</b>	<b>6,831</b>

(1) As indicated in Note 28.4, the Group held until the end of 2012 interest rate cap contracts that allowed it to limit its exposure to interest rates, but these instruments were not considered as hedging instruments within the meaning of IAS 39. Consequently, changes in the fair value of these derivative instruments were recognized immediately in the statement of income under financial income (expense), the instruments in question being directly related to the implementation of the management of the Group's interest rate risk, even though they do not qualify for hedge accounting under IAS 39.

These interest-rate derivatives are presented as non-current financial assets because they are not held for trading purposes, but under a non-qualifying hedge accounting relationship.

(2) Investments in entities that are not consolidated and are classified as available-for-sale financial assets include Câble Toulousain de Vidéocommunication, Médiamétrie Expansion, Rennes Cité Média and TV7 Bordeaux. These companies are not included in the scope of consolidation due to the Group's lack of control or influence over them.

(3) As of December 31, 2013 and 2012 other financial assets include 4 million euros of cash pledged within the framework of DSP 92 (classified as current, see also Note 2.11). Remaining amounts correspond to deposits made by the Group for building leases.

**19 Inventories**

	December 31, 2013	December 31, 2012
	(in thousands of euros)	
Gross amount . . . . .	50,858	46,808
Impairment losses . . . . .	(1,290)	(1,199)
Net carrying amount . . . . .	<b>49,568</b>	<b>45,609</b>

Inventories are primarily comprised of set-top boxes used by customers to receive programming distributed via digital channels. The amount of impairment recognized to bring inventories down to their recoverable amount was not material in fiscal 2013 or 2012.

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**20 Trade receivables and other receivables**

	December 31, 2013	December 31, 2012
	(in thousands of euros)	
Trade receivables . . . . .	309,998	272,864
Impairment losses . . . . .	(33,371)	(27,167)
<b>Trade receivables, net . . . . .</b>	<b>276,627</b>	<b>245,697</b>
Advances and down payments . . . . .	2,181	2,211
Tax and social security receivables . . . . .	84,826	141,806
Prepaid expenses . . . . .	32,256	18,025
Other receivables . . . . .	6,998	9,632
<b>Trade receivables and other receivables, net . . . . .</b>	<b>402,888</b>	<b>417,371</b>

Trade receivables disclosed above are measured at amortized cost. Due to their short-term maturity, fair value and amortized cost are a proxy for the nominal amount of trade receivables.

Trade receivables are primarily from B2C customers, a large number of customers spread across diverse geographical areas.

*B2C Customers*

The average credit term for residential customers is five days. No interest is charged on outstanding balances. As of December 31, 2013, excluding some specific cases, the Group had depreciated 81% of B2C customer receivables that were over 90 days past due, based on historical experience implying that 19% of receivables over 90 days past due are recoverable. Provisions on residential customer receivables due between 0 and 90 days are also depreciated on a case-by-case basis, based on historic collection data and analysis of the customer's financial situation.

*B2B Customers*

As of December 31, 2013, the Group had depreciated 60% of the B2B customer receivables that were over 90 days past due, based on historical experience implying that 40% of receivables over 90 days past due are recoverable.

Trade receivables disclosed above include amounts (see below for aged analysis) that are past due at the end of the reporting period but against which the Group has not recognized a provision for doubtful accounts because there has not been a significant change in credit quality and the amounts are still considered recoverable. The Group does not hold any collateral or other credit enhancements against these balances, nor does it have a legal right of offset against any amounts owed by the Group to the counterparty.

*Ageing of past due receivables*

	December 31, 2013	December 31, 2012
	(in thousands of euros)	
Not due . . . . .	92,610	121,232
0-90 days . . . . .	67,888	62,825
> 90 days . . . . .	149,508	88,808
<b>Total . . . . .</b>	<b>309,998</b>	<b>272,864</b>

The concentration of credit risk is limited due to the customer base being large and unrelated. No customer represents more than 5% of the total balance of trade receivables.

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**20 Trade receivables and other receivables (Continued)**

Change in impairment losses for trade receivables is as follows:

	December 31, 2013	December 31, 2012
	(in thousands of euros)	
<b>Balance at beginning of year</b> . . . . .	<b>(27,167)</b>	<b>(26,770)</b>
Impairment during the year . . . . .	(12,961)	(9,322)
Losses on irrecoverable receivables . . . . .	8,000	8,925
Reversal of impairment losses . . . . .	—	—
Receivables classified as held for sale . . . . .	—	—
Business combinations . . . . .	(1,243)	—
<b>Balance at end of year</b> . . . . .	<b><u>(33,371)</u></b>	<b><u>(27,167)</u></b>

**21 Cash and cash equivalents**

Cash and cash equivalents presented in the consolidated statement of cash flows include cash on hand and short-term deposits. Reconciliation between cash and cash equivalents presented in the consolidated statement of cash flows and cash and cash equivalents presented in the consolidated statement of financial position is presented below:

	December 31, 2013	December 31, 2012
	(in thousands of euros)	
Cash . . . . .	101,365	7,996
Cash equivalents . . . . .	—	—
<b>Cash and cash equivalents presented in the consolidated statement of financial position</b> . . . . .	<b>101,365</b>	<b>7,996</b>
Cash from discontinued operations . . . . .	—	—
Bank overdrafts classified as financial liabilities in the consolidated statement of financial position . . . . .	—	—
<b>Cash and cash equivalents presented in the consolidated statement of cash flows</b> . . . . .	<b><u>101,365</u></b>	<b><u>7,996</u></b>

As of December 31, 2013 and 2012, the Group had no cash equivalents.

**22 Equity**

As of December 31, 2013, Numericable Group's share capital, based on the number of shares issued at that date, amounted to 123,942,012 euros, comprising 123,942,012 ordinary shares with a par value of 1 euro each.

**22.1 Change in share capital**

The share capital broke as follows as of December 31, 2013:

Date	Transaction	Shares issued
August 2013 . . . . .	Constitution through cash contributions	37,000
November 2013 . . . . .	In-kind contributions from shareholders	113,772,229
November 2013 . . . . .	Capital increase by public offering	10,080,645
November 2013 . . . . .	Capital increase reserved for employees	52,138
<b>Total as of December 31, 2013</b> . . . . .		<b><u>123,942,012</u></b>

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**22 Equity (Continued)**

**22.2 Treasury shares**

The Group did not implement a share buyback program in 2013 or 2012.

Accordingly, it did not hold any treasury shares as of December 31, 2013 or December 31, 2012.

**22.3 Earnings per share**

	2013	2012
	(in thousands of euros)	
<b>Net income used for calculating basic earnings per share . . . . .</b>	<b>64,550</b>	<b>86,377</b>
<i>Impact of dilutive instruments:</i>		
Stock option plans <sup>(2)</sup> . . . . .	—	—
<b>Net income used for calculating diluted earnings per share . . . . .</b>	<b>64,550</b>	<b>86,377</b>

The following table shows the weighted average number of ordinary shares used for calculating basic and diluted earnings per share:

	December 31, 2013	December 31, 2012
	(number of shares)	
<b>Weighted average number of ordinary shares outstanding<sup>(1)</sup> . . . . .</b>	<b>115,271,326</b>	<b>113,772,229</b>
<i>Impact of dilutive instruments:</i>		
Stock option plans <sup>(2)</sup> . . . . .	—	—
<b>Weighted average number of shares outstanding—diluted . . . . .</b>	<b>115,271,326</b>	<b>113,772,229</b>

(1) The weighted average number of ordinary shares used in calculating earnings per share corresponds, until the date of the IPO, to the number of shares issued in exchange for contributions (see Note 22.1 “Change in share capital”). Shares issued as part of the public offering and capital increase reserved for employees were prorated.

(2) Stock options granted in 2013 (2,845,229 options) are non-dilutive in view of the average share price between the grant date and the balance sheet date, and the valuation of the plan.

**22.4 Dividends**

The Group did not pay dividends to its shareholders in 2013 or 2012.

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**23.1 Financial liabilities under Senior Facility Agreements**

**Senior Facility agreement granted to Ypso**

The Group entered into a Senior Facility Agreement (“SFA”) dated June 6, 2006 (as amended March 2, 2007, December 9, 2009, September 8, 2011, July 31, 2013 and November 22, 2013) with BNP Paribas, CALYON, Lehman Brothers Bankhaus AG, London Branch, and Morgan Stanley Bank International Limited as the Mandated Lead Arrangers, BNP Paribas as Agent and Security Agent, and others lenders. In addition, certain subsidiaries of the Group are guarantors under the SFA, each guaranteeing, subject to certain limitations, the obligations of the other borrowers and guarantors within the SFA.

The SFA contains financial covenants that may affect the interest rates to be paid by the Group as well as the applicable margins on the SFA (see details below).

In 2012, the Group issued three bonds to refinance a portion of its current Senior Debt under the SFA. The issuer was Numericable Finance & Co. SCA, a Luxembourg company. The proceeds from the bonds were used by Numericable Finance & Co. to fund three new loans issued in favor of the Group by the Lending Bank (JP Morgan) under the Senior Facility Agreement:

- a C-One facility of 360 million euros;
- a C-Two A facility of 225 million euros;
- a C-Two B facility of 275 million euros.

In December 2013, the Group raised a new tranche of Senior Debt in a total amount of 800 million euros (Tranche D). This tranche is repayable by December 31, 2018 and bears interest at Euribor plus a margin of 3.75%.

The Group used the proceeds of this issue (800 million euros) and the proceeds of the capital increase carried out in the context of the public offer (250 million euros) to reimburse some of its existing debts, as follows:

- all of the Senior Debt originally subscribed by Altice B2B France in the amount of 451 million euros;

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**23 Financial liabilities (Continued)**

- all of the 275 million euro bond issue (Tranche C-Two B) subscribed in October 2012;
- part of the bond issue of 225 million euros (Tranche C-Two A) subscribed in October 2012 (repayment of 78.8 million euros)—the balance of this bond amounted to 146.3 million euros as of December 31, 2013;
- part of the bond issue of 360 million euros (Tranche C-One) subscribed in February 2012 (repayment of 126.1 million euros)—the balance of this bond amounted to 234.1 million euros as of December 31, 2013.

The table below summarizes the various tranches in place under the Senior Debt contract as of end-December 2013, their maturity, the applicable margin and the outstanding amount of the debt as of December 31, 2013:

<u>Facility</u>	<u>Maturity</u>	<u>Margin/ Coupon<sup>(1)</sup></u>	<u>Nominal (December) 2013<sup>(2)</sup></u>
A2 and capex 2 . . . . .	June 2015	E + 3.875%	51.9

(1) Euribor ("E") + margin applicable to the facility;

(2) Nominal amount expressed in millions of euros as of December 31, 2013, excluding accrued interest and the impact of the effective interest rate.

**Guarantees and Security**

The Term Facilities are guaranteed irrevocably and unconditionally on a joint and several basis by each guarantor (Ypso France SAS and its subsidiaries) under the Senior Facility Agreement, subject to certain legal limitations.

The Term Facilities are secured by various security interests, such as a pledge on the shares of Ypso France SAS and its subsidiaries.

**Covenants**

The availability of the senior facilities mentioned in Note 23.1 is not dependent upon the Group's credit ratings, but is conditioned on its compliance with financial covenants related to the capacity of the Group to generate sufficient cash to repay its net debt. Accordingly, the Senior Facility Agreement contains customary operating and financial covenants, subject to certain agreed exceptions, including covenants restricting the ability of the Group to, among other things:

- amalgamate, merge or consolidate with any other company or be the subject of any reconstruction or materially change the nature of the business of the Group as a whole;
- sell, transfer, lease out, lend or otherwise dispose of any of its assets or agree to do so;
- enter into a material transaction that is not on an arm's length basis and for full market value;

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**23 Financial liabilities (Continued)**

- make acquisitions or investments;
- open or maintain an account with a bank or other financial institution providing like services other than a bank or credit institution entitled to engage in banking transactions in France, Belgium or Luxembourg;
- allot or issue shares or securities;
- change the end of its fiscal year.

The Senior Facility Agreement also requires the Group to comply with the following financial covenants:

- a maximum ratio of consolidated total net borrowings to annualized EBITDA;
- a minimum ratio of consolidated cash flows to consolidated total interest expense;
- a minimum ratio of annualized EBITDA to consolidated total net cash interest payable; and
- a maximum level of capital expenditures per fiscal year.

Compliance is tested quarterly and audited annually as of December 31 when the consolidated financial statements of Ypso France prepared in accordance with French GAAP are released. Since the SFA was established, the Group has complied every year with the financial covenants set out in the agreement.

As agreed under the SFA, the covenants are calculated on the basis of financial aggregates determined from the consolidated accounts drawn up by Ypso France in accordance with French GAAP and not IFRS. Accordingly, the EBITDA used to calculate the covenant is different from that presented in the Group's consolidated statement of income.

**23.2 Perpetual subordinated notes ("TSDI")**

In 2006, 23.65 million euros of perpetual subordinated notes ("*Titres Subordonnés à Durée Indéterminée*"—"TSDI") were issued by a subsidiary of the Group, NC Numericable, to a single subscriber, GDF Suez (Vilorex) (excluding capitalized interest). The proceeds of this borrowing were to be used to finance the construction of connectors in towns in the southern part of the SIPPAREC ("*Syndicat Intercommunal de la Périphérie de Paris pour l'Electricité et les Réseaux de Communication*"), a group of cities located in the Paris metropolitan area. The perpetual subordinated notes bear interest at a rate of 7% per annum. Interest on the notes is capitalized. Interest amortization is conditional. The total accrued interest payable on the notes amounted to 14 million euros and 11.6 million euros as of December 31, 2013 and 2012 respectively, and is classified as non-current in the table above in Note 23.

The instrument includes a contractual obligation to deliver cash (including interest) when cash inflows arising from revenues allow the Group to reimburse the notes. Pursuant to this contract, the payment of interest and the reimbursement of the debt are contingent upon the level of cash inflows generated; however, the Group does not have an unconditional right to avoid delivering cash. As a consequence, the instrument is recognized as a financial liability at amortized cost in accordance with IAS 32.

**23.3 Deposits received from customers**

Deposits received from customers amounted to 51.9 million euros and 44.5 million euros as of December 31, 2013 and 2012 respectively. Deposits are made when customers receive equipment from the Company, and are reimbursed when customers terminate their subscriptions if the customers have paid all outstanding invoices and have returned the equipment.

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**23 Financial liabilities (Continued)**

**23.4 Other financial liabilities**

As of December 31, 2013, other financial liabilities included various bank borrowings by Numericable against several banks (mainly *Caisse d'Epargne d'Alsace-Lorraine*) in the amount of 1,648 thousand euros and by Completel against various banks in the amount of 609 thousand euros.

As of December 31, 2012, other financial liabilities also included the debt of Ypso Holding Lux SARL against shareholders in the amount of 128,962 thousand euros, which was settled in 2013 as part of contributions to Numericable Group.

**24 Provisions and contingent liabilities**

The breakdown and change in provisions for the years ended December 31, 2013 and 2012 are as follows:

	January 1, 2013	Change in scope	Increase	Utilization	Reversal	Reclassification	December 31, 2013
				(in thousands of euros)

The Group is involved in legal and administrative proceedings that have arisen in the ordinary course of its business.

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**24 Provisions and contingent liabilities (Continued)**

A provision is recorded by the Group when there is a sufficient probability that such disputes will lead to costs that the Group will bear and when the amount of these costs can be reasonably estimated. Certain companies of the Group are involved in a certain number of disputes related to the ordinary activities of the Group. Only the most significant disputes and proceedings in which the Group is involved are described below.

The Group is not aware of any governmental, legal or arbitration proceedings (including any proceedings of which the Group is aware, which are pending or threatened) other than those mentioned below in this section that may have or have had in the last 12 months significant effects on the financial position or profitability of the Company or the Group.

**24.1 Tax audits**

The French tax authorities have conducted audits of various companies of the Group since 2005 with respect to the VAT rates applicable to our multiple-play offerings. Under French tax law, television services are subject to a 5.5% VAT rate, which increased to 7% as of January 1, 2012, while Internet and telephony services are subject to a 19.6% VAT rate. When marketing multiple-play offerings, the Group allocates a price reduction compared with the price the Group would charge for its services on a stand-alone basis. This price reduction is primarily applied to its Internet and telephony services, because such services are newer products. As a result, the VAT charged to the subscribers was lower than the VAT that would have been charged if the Group had deemed the price reduction to apply primarily to the television portion of its packages.

The French tax authorities assert that these price reductions should have been calculated pro rata of the stand-alone prices of each of the services (television, broadband Internet, fixed and/or mobile telephony) included in the multiple-play packages of the Group and proposed adjustments for fiscal years 2006 to 2010.

The Group has formally challenged the tax assessments for the fiscal years from 2006 to 2009. The Group also referred the matter to the Ministry of Finance in December 2011 and sought a comprehensive settlement of the adjustments made by the tax administration in respect of the various Group companies for the period 2006-2009. Following this request, the tax administration lowered the amounts of adjustments for 2008 and 2009 by including in its calculation a limitation based on the 50/50 rule applicable on composite VAT, which was in force from 2008 to 2010. The new amounts of adjustments, totaling 17.1 million euros (excluding penalties of 40%) for the period 2006-2009, were communicated to the Group end of August 2012.

Furthermore, in 2012, the tax authorities also initiated a tax audit of fiscal year 2010, in the same matters and scope as the audits described above. These procedures gave rise to proposed adjustments at the end of June 2013, calculated in the same manner as for fiscal years 2007 to 2009, in a total amount of 6.1 million euros (excluding penalties of 40%). The Group replied on August 21, 2013, challenging the proposed adjustments. The tax administration sent replies to the Group's observations in late October 2013, pursuant to which it maintains its adjustments. To date, the 2011 and subsequent years have not been subject to VAT audits on the Numericable scope. The tax administration has also demanded payment for the 2006 adjustment on NC Numericable (approximately 2 million euros of the 17.1 million euros mentioned above for the 2006-2009 period). The Group asked for a payment deferral and filed a complaint in September 2012, which was rejected by the tax administration on June 27, 2013. The Group filed an additional request on August 20, 2013.

VAT rules applicable to multiple-play packages changed starting January 1, 2011.

As of December 31, 2012, a tax contingency provision of 24.9 million euros (compared with 25.1 million euros as of December 31, 2012) was recognized to cover all the risks related to VAT (excluding penalties of 40%, which would amount to 7.1 million euros) related to the adjustments notified for fiscal years 2006

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**24 Provisions and contingent liabilities (Continued)**

to 2010 (i.e. 23.5 million euros). The Group replied on August 21, 2013, challenging the proposed adjustments.

In 2013, the tax administration initiated a tax audit of Altice B2B France and Completel in respect of fiscal years 2010 and 2011, resulting in the submission on December 19, 2013 of proposed adjustments. The adjustments focus on the challenge of charges for services provided to the companies in 2009, 2010 and 2011. A tax contingency provision covering all adjustments considered (income tax, VAT, withholding tax, penalties, surcharges and default interest) in the amount of 11.4 million euros was recorded as of December 31, 2013. In addition, the proposed adjustment results in a reduction of tax loss carryforwards in the amount of 28.5 million euros. The Group challenged all adjustments on February 17, 2014.

As of December 31, 2013, a tax contingency provision of 36.3 million was recognized to cover all the risks related to VAT (excluding penalties of 40%, which represents 7.1 million euros) related to the adjustments notified for fiscal years 2006-2010 (i.e. 24.9 million euros) and the risks associated with the challenging of charges for services under the adjustments notified for fiscal years 2009-2011 (11.4 million euros).

**24.2 Commercial disputes**

**24.2.1 In-depth inquiry of the European Commission into the transfer of cable infrastructures by certain local authorities**

On July 17, 2013 the European Commission signaled that it had decided to open an investigation to verify whether the transfer of public cable infrastructure between 2003 and 2006 by several French municipalities to Numericable was consistent with European Union State aid rules. In announcing the opening of this in-depth investigation, the European Commission indicated that it believes that the sale of public assets to a private company without proper compensation gives it an economic advantage not enjoyed by its competitors, and that it therefore constitutes state aid within the meaning of the rules of the European Union. It argues that the transfer free of charge of the cable networks and ducts by 33 French municipalities in favor of Numericable confers a benefit of this type and, as such, state aid. The European Commission has expressed doubts about the compatibility of the alleged aid with the rules of the European Union.

The Group firmly denies the existence of any state aid. In addition, the decision to open an investigation concerns a relatively small number of network connections (200,000), the majority of which have not been migrated to EuroDocs 3.0 and accordingly only allow access to a limited number of the Group's television services. The European Commission's decision of July 17, 2013 was published in the Official Journal of the European Union on September 17, 2013. Since then, discussions have continued within the framework of the procedure in respect of observations of third parties as well as those of the parties to the proceedings as to the allegation of the existence of aid and its extent, with the Group firmly challenging the existence of any state aid.

**24.2.2 Litigation with Orange relating to IRUs**

The Group entered into four non-exclusive IRUs with Orange on May 6, 1999, May 18, 2001, July 2, 2004 and December 21, 2004, in connection with the acquisition by the Group of certain companies operating cable networks built by Orange. These cable networks, accessible only through the civil engineering installations of Orange (mainly its ducts), are made available to the Group by Orange through these non-exclusive IRUs over such civil engineering installations. Each of these IRUs covers a different geographical area and was entered into for a term of 20 years.

Following ARCEP's decision 2008-0835 of July 24, 2008, Orange published, on September 15, 2008, a technical and commercial offer made to telecommunication operators pursuant to which such operators can roll out their own fiber networks in Orange's ducts. The terms of this mandatory technical and commercial offer are more restrictive than the terms that the Group enjoys under the Orange IRUs. As a

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**24 Provisions and contingent liabilities (Continued)**

result, Orange asked the Group to comply with the general rules regarding access to Orange's ducts for the purpose of maintaining and upgrading its network. This issue was litigated, and both ARCEP and the Paris Court of Appeal ruled in favor of Orange on November 4, 2010 and June 23, 2011 respectively. Numericable appealed the decision before the French Supreme Court (*Cour de Cassation*), which upheld, for the most part, the decision of the Paris Court of Appeal.

Moreover, on October 21, 2011, ARCEP initiated penalty proceedings against Numericable, arguing that it had not complied with its November 4, 2010 decision. Consequently, in December 2011, Numericable and Orange signed amendments to the IRUs in order to comply with the November 4, 2010 ARCEP decision and to align the operating procedures set out in the IRUs with the procedures set out in the Orange generic technical and commercial offer.

In the meantime, the penalty proceedings initiated by ARCEP were not stopped by the execution of the amendments to the IRUs, and Numericable was fined 5.0 million euros on December 20, 2011 for noncompliance with ARCEP's November 4, 2010 decision. The fine was paid in full during fiscal 2012. Numericable filed an appeal against the decision before the Council of State. Within the framework of this appeal, Numericable having raised a question of Constitutional law, referred to the Constitutional Court, on the compliance with the Constitution of Article L. 36-11 of the CPCE, which sets out ARCEP's powers. On July 5, 2013, the Constitutional Court found in Numericable's favor and invalidated paragraphs 1 to 12 of Article L. 36-11 of the CPCE, on the basis of which ARCEP's December 20, 2011 decision to impose the aforementioned penalty was made. Numericable asked the Council of State to take the conclusions of this decision into consideration and accordingly to cancel ARCEP's December 20, 2011 decision. On October 21, 2013, the Council of State annulled the penalty imposed by ARCEP on December 20, 2011, which had condemned Numericable and NC Numericable to a fine of 5 million euros for non-compliance with ARCEP's November 4, 2010 ruling.

Lastly, Numericable initiated parallel proceedings against Orange before the Commercial Court of Paris on October 7, 2010 claiming damages of 2.7 billion euros for breach and modification of the IRUs by Orange. On April 23, 2012, the Commercial Court of Paris ruled in favor of Orange and dismissed the Group's claims for damages, ruling that there were no material differences between the original operational procedures and the new operational procedures published by Orange on September 15, 2008. Numericable appealed this decision before the Paris Court of Appeal and claimed the same amount of damages. Orange, in turn, claims that the proceedings materially impaired its brand and image, and claims damages of 50 million euros. The Commercial Court of Paris is expected to hear this case during the second quarter of 2014.

**24.2.3 Litigation with Free relating to an advertising campaign**

A claim was filed against NC Numéricable before the Commercial Court of Paris by telecommunication operator Free on August 3, 2011 in relation to the launch of the mobile offer by the Group in spring 2011 through an advertising campaign entitled "*La révolution du mobile continue.*"

Free, which used the term "revolution" to refer to its launch of mobile phone services and whose latest offering was named the "Freebox Revolution," argues that Numericable's campaign led to customer confusion and damaged its brand and image. The case is currently pending before the Paris Commercial Court. Free is claiming damages of 10.0 million euros. After the hearing, the Court asked for an opinion from the French competition authority ("*Direction générale de la concurrence, de la consommation et de la répression des fraudes*"—DGCCRF) related to the reality of the assertions of Free with regard to the laws governing advertising. The DGCCRF returned an opinion in which it indicated that the questions raised by Free did not constitute a fault under the applicable law. However, on December 13, 2013, the Commercial Court of Paris condemned NC Numericable to pay Free the sum of 6,391,000 euros. NC Numericable appealed this decision. As the decision is enforceable and the amount was paid in early 2014, the risk was fully provisioned as of December 31, 2013.

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**24 Provisions and contingent liabilities (Continued)**

**24.2.4 Litigation with several editors of value-added services (AVS)**

On February 19, 2013, five companies editing value-added telephone services offering their services to the public through premium numbers (0899), jointly assigned Completel before the Commercial Court of Nanterre. The plaintiffs asked for the condemnation of Completel to pay 350,000 euros in repayment of sums corresponding to deductions made by Completel from the sums collected on their behalf. Completel made these deductions in response to practices by these companies that it considers contrary to the agreements between these companies and Completel, as well as ethical standards in the industry. They also sought payment of damages in a total amount of 12 million euros in compensation for the prejudice allegedly suffered as a result of the withholding of money by Completel.

Furthermore, in November 2012, Completel, having decided in November 2012 to put an end to this activity, suspended certain repayments and applied various contractual penalties on companies selling this type of value-added telephony services. Some of these companies assigned Completel before various Commercial Courts and sought an order for the payment of the amounts withheld by Completel or the cancellation of penalties applied by Completel. The overall claim amounts to approximately 400,000 euros, mainly representing sums collected for these companies.

**24.2.5 Dispute with the Ligue de Football Professionnel**

In a submission to the Commercial Court of Nanterre dated April 26 2013, the Professional Football League ("*Ligue de Football Professionnel*"—LFP) argued that Numericable had abused its dominant position in breach of its obligation of non-discrimination against the LFP when it was in charge of the production of the CFoot channel. The LFP requested 4.1 million euros in damages in compensation for the prejudice. More particularly, the LFP criticized Numericable for the low level of remuneration for the marketing of the CFoot channel compared with the remuneration of certain sports channels sold in packages. A hearing on the matter is expected in 2014.

**24.2.6 Action by Colt, Free and Orange before the General Court of the European Union concerning the DSP 92 project**

Colt, Free, and Orange, in three separate proceedings against the European Commission, filed a request with the General Court of the European Union for the cancellation of the final decision of the European Commission dated September 30, 2009 (Decision No. C (2009) 7426), which held that the compensation of 59 million euros granted within the framework of the public service concession for the establishment and operation of a high-capacity electronic communications network in the department of Hauts de Seine does not constitute state aid within the meaning of the rules of the European Union. The Group is not party to this proceeding. Its subsidiary Sequalum is acting as the civil party, as well as the French state and the department of Hauts de Seine. In three rulings dated September 16, 2013, the General Court of the European Union rejected the requests of the three applicants and confirmed the aforementioned decision of the European Commission. Free and Orange have appealed to the Court of Justice of the European Union.

**24.2.7 Complaint of Bouygues Telecom**

In late October 2013, the Group received a claim from Bouygues Telecom on the "white label" contract concluded between the two companies on May 14, 2009, initially for five years and extended once for an additional five years for the supply to Bouygues Telecom of double- and triple-play broadband offers. In its letter, Bouygues Télécom claimed damages totaling 53 million euros as a result of this contract. Bouygues Telecom alleges a prejudice that justifies, according to Bouygues Telecom, damages including (i) an amount of 17.3 million euros due to an alleged pre-contractual fraud (provision of incorrect information prior to the conclusion of the contract), (ii) an amount of 33.3 million euros as a result of alleged failure by Group companies in the execution of the contract and (iii) an amount of 2.4 million euros to repair the alleged damage to Bouygues Telecom's image. The Group considers

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**24 Provisions and contingent liabilities (Continued)**

these claims unfounded both in fact and in contractual terms, and rejects both the allegations of Bouygues Telecom and the amount of damages claimed. It nevertheless intends to continue regular discussions between the parties regarding the implementation of this contract, for which Bouygues Telecom is requesting modifications in the context of its claim. Notwithstanding this claim, which has not been brought before the courts, the parties have continued their day-to-day cooperation in conditions identical to those prevailing before October 2013. The contract, which runs until 2019, generated 37.3 million euros in revenues in 2012, 49.6% of total white label B2C revenues of 75.3 million euros and 2.8% of the Group's total revenues.

**24.2.8 Investigation of DSP 92 by the Regional Auditor of Ile-de-France**

In mid-November 2013, a number of press articles reported that the Regional Auditor of Ile-de-France had opened an investigation into the management of the department of Hauts-de-Seine between 2004 and 2007. The articles reported that the investigation would focus primarily on the DSP 92 project awarded to Numericable, and in particular the granting of 59 million euros in consideration for public service costs for the establishment and operating of a high-capacity electronic communications network in Hauts de Seine. The Group has no information as to the object or the timing of the investigation, and as such to its exact nature or its potential impact on the Group. However, the Group notes, as indicated above, that DSP 92 has been validated by French administrative courts, by the European Commission and by the General Court of the European Union, before which action against the DSP 92 contract has successively been brought, and that the Court of Auditors has no power to act against a non-governmental entity.

**24.2.9 Litigation with employees**

The Group is involved in litigation with a certain number of employees, a large part of which is due to the last merger period in 2006-2007, involving UPC-Noos, which gave rise to adjustments and harmonization in practices leading to disputes until 2009. The overall risk for this litigation is approximately 4 million euros. Most of this litigation consists of the challenge by an employee of the grounds for or the form of his or her dismissal.

**25 Employee benefits**

**25.1 Provisions for retirement benefits**

In France, the employees of the Group benefit from a general pension plan. Accordingly, the Group contributes to mandatory social security plans. This regime is considered to be a defined-contribution plan within the meaning of IAS 19. The employees of the Group are covered by the Telecom Industry Collective Bargaining Agreement ("*Convention Collective Nationale des Télécommunications*," which determines the amount of the pension due to the employee upon retirement).

The rights to conventional retirement benefits vested by employees were evaluated individually, based on various parameters and assumptions such as the employee's age, position, length of service in the Group and salary, according to the terms of their employment agreement.

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**25 Employee benefits (Continued)**

**25.1.1 Assumptions used for defined-benefit plans**

	December 31, 2013	December 31, 2012
	(in thousands of euros)	
Discount rate . . . . .	3.0%	3.0%
Expected salary increase rate . . . . .	3.0%	3.0%
Inflation rate . . . . .	2.0%	2.0%
Turnover—managers (mean) . . . . .	9.0%	7.0%
Turnover—other employees (mean) . . . . .	18.0%	15.0%

The turnover rate can vary significantly depending on length of service.

**25.1.2 Components of Net Periodic Benefit (Cost)**

	December 31, 2013	December 31, 2012
	(in thousands of euros)	
Service cost . . . . .	881	713
Interest cost . . . . .	253	287
Expected return on plan assets . . . . .	—	—
Recognition of actuarial net (gain) loss . . . . .	458	1,496
Past service cost . . . . .	—	—
Amounts recognized due to plan combinations . . . . .	157	—
Curtailments/Settlements . . . . .	(36)	(57)
<b>Expense in respect of post-employment benefits . . . . .</b>	<b>1,714</b>	<b>2,439</b>
Including losses (gains) recognized in other comprehensive income . . . . .	458	1,496
Percentage of present value of plan liabilities . . . . .	4.5%	17.7%

Actuarial gains and losses arising from experience, adjustments and changes in actuarial assumptions are recognized directly in other comprehensive income.

**25.1.3 Change in defined-benefit obligations**

	December 31, 2013	December 31, 2012
	(in thousands of euros)	
<b>Defined-benefit obligations—beginning of year . . . . .</b>	<b>8.455</b>	<b>6.101</b>

<b>Defined benefit obligation—end of year . . . . .</b>	<b>10.168</b>	<b>8.455</b>

**25.2 Stock option plans**

On November 7, 2013, the Board of Directors adopted a stock option plan in favor of certain officers and employees of Numericable Group.

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**25 Employee benefits (Continued)**

The plan covers a total of 2,845,229 options for 2,845,229 shares. The exercise price of the option is 24.80 euros per share (the price set at the Company's IPO).

The plan has a term of eight years from November 7, 2013 until November 7, 2021.

The exercise of options is subject to conditions of presence and performance (based on consolidated revenue and EBITDA—Capex).

The vesting occurs in three periods:

- 50% in November 2015;
- 25% in November 2016;
- 25% in November 2017;

As of December 31, 2013, the fair value of options was estimated at 9,702 thousand euros. An amount of 640 thousand euros was expensed in 2013 in respect of this plan.

The main assumptions used for the valuation of the plan are listed in the table below:

	<b>Stock options— November 2013</b>
Unit fair value at the grant date . . . . .	3.41
Share price at the grant date . . . . .	24.80
Exercise price of the option . . . . .	24.80
Anticipated volatility (weighted average) . . . . .	25%
Expiry date (maturity) . . . . .	November 2021
Anticipated dividends . . . . .	4%
Risk-free interest rate (government bonds) . . . . .	0.75%

**26 Other non-current liabilities**

	<b>December 31, 2013</b>	<b>December 31, 2012</b>
	<b>(in thousands of euros)</b>	
Non-current deferred revenue (more than one year) . . . . .	97,429	105,791
Non-current trade payables . . . . .	4,874	5,175
Non-current tax and social security payables . . . . .	282	300
<b>Other non-current liabilities . . . . .</b>	<b><u>102,585</u></b>	<b><u>111,266</u></b>

Deferred revenue at the end of the reporting period mainly represents unrecognized network lease revenue.

For certain arrangements entered into with its non-residential customers, the Group receives up-front cash payments, namely in relation to indefeasible right of use arrangements ("IRUs") and connection fees. For these arrangements, the revenue is generally recognized over the duration of the lease contract.

The non-current part of deferred revenue disclosed in the above table corresponds to revenue that will be recognized in more than one year.

The current-part of deferred revenue (i.e. revenue to be recognized in less than one year) is presented in "Trade payables and other liabilities."

<b>Trade payables and other liabilities . . . . .</b>	<b><u>757,418</u></b>	<b><u>726,033</u></b>

**28 Financial instruments**

Details of the significant accounting policies and methods adopted (including the criteria for recognition, the basis of measurement, and the basis for recognition of income and expenses) for each class of financial asset, financial liability and equity instrument are disclosed in Notes 2.15 and 2.19.

**28.1 Fair value of financial instruments**

**Valuation techniques and assumptions applied to measure fair value for derivative instruments**

The fair values of derivative instruments are calculated using market prices. When such prices are not available, a discounted cash flow analysis is performed using the applicable yield curve for the duration of the instruments for non-optional derivatives, and option pricing models for optional derivatives. Interest rate swaps are measured at the present value of estimated future cash flows, discounted based on the applicable yield curves derived from market interest rates.

In accordance with the amendments to IFRS 7, the Group classifies its financial instruments measured at fair value into three levels (the fair value hierarchy).

- Level 1 fair value measurements are those derived from market prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than market prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Levels of fair value are presented in the tables below.

**Fair value measurement other financial assets**

Due to their short-term nature, the fair value of cash and cash equivalents, trade receivables and other current receivables and trade payables and other liabilities, is a proxy for the net carrying amount.

Investments in entities not included in the combination are unlisted equity securities. As a result, their fair value cannot be measured reliably, and these investments are accordingly measured at cost.

**Financial guarantees and collateral**

Under the SFA, the Group's assets have been pledged as collateral to bank lenders.

**Numericable Group**  
**Consolidated Financial Statements**

<b>Financial assets</b> . . . . .		<b>3,412</b>	<b>428,196</b>	<b>7,996</b>	<b>5</b>	<b>439,609</b>

**28.3 Financial liabilities**

Except for interest-rate derivatives, financial liabilities are measured at amortized cost, which is the amount at which the financial liability is measured at initial recognition less principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between that initial amount and the maturity amount, and less any reduction for impairment or irrecoverability.

Interest-rate derivatives held to maturity are measured at fair value through profit and loss.

Bonds are traded on the Irish Stock Exchange, market prices as of December 31, 2013 are as follows:

- Tranche C-One, coupon 12.375%, maturing February 2019: 122.83;
- Tranche C-TwoA, coupon 8.75%, maturing February 2019: 113.94.

**28.4 Financial risk management objectives**

**Objective of the Corporate Treasury function**

The Group's Corporate Treasury function provides services to the business, coordinates access to domestic and international financial markets, monitors and manages the financial risks relating to the operations of the Group through internal reports that analyze exposures by degree and magnitude of risks. These risks include market risk (primarily interest rate risk since the Group's activities do not expose it to risks of changes in foreign currency exchange rates), credit risk and liquidity risk. The Group

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**28 Financial instruments (Continued)**

seeks to minimize the effects of these risks by using derivative financial instruments to hedge risk exposures. The Group does not hold or trade in financial instruments, including derivative financial instruments, for speculative purposes.

**Interest rate risk management**

The Group is exposed to interest rate risk because the Group borrows funds, mostly at floating interest rates. The risk is managed by the Group, when deemed appropriate, through the use of interest rate swaps and interest rate caps. Even though the Group does not apply IAS 39 in terms of hedge accounting, hedging activities are evaluated regularly to align with interest rate views and defined risk appetite, ensuring the most cost-effective hedging strategies are applied, in compliance with the requirements of the SFA.

The Group's exposures to interest rates on financial assets and financial liabilities are detailed in the liquidity risk management section of this note.

**Interest rate sensitivity analysis**

The sensitivity analyses below have been determined based on the exposure to interest rates for both derivatives and non-derivative instruments at the end of the reporting period. For floating rate liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. A 50 basis point decrease is used when reporting interest rate risk internally to key management personnel. This represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been roughly 50 basis points higher (lower) and all other variables were held constant, the Group's net income (loss) for the year ended December 31, 2013 would have decreased (increased) by 12 million euros. This is mainly attributable to the Group's exposure to interest rates on its variable rate borrowings.

**Interest rate swap contracts**

Under interest rate swap contracts, the Group agrees to exchange the difference between fixed and floating rate interest amounts calculated on agreed notional principal amounts. Such contracts enable the Group to mitigate the risk of changing interest rates on the fair value of issued fixed rate debt and the cash flow exposures on the issued variable rate debt. The fair value of interest rate swaps at the end of the reporting period is determined by discounting the future cash flows using the curves at the end of the reporting period and the credit risk inherent in the contract.

The Group did not hold any swap contracts during the years ended December 31, 2013 and 2012.

**Credit risk management**

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Group.

Financial instruments that could potentially subject the Group to concentrations of counterparty risk consist primarily of trade receivables, cash and cash equivalents, investments and derivative financial instruments. Overall, the carrying amount of financial assets recognized in the financial statements, which is net of impairment losses, represents the Group's maximum exposure to credit risk.

As mentioned in Note 20, the Group considers that it has extremely limited exposure to concentrations of credit risk with respect to trade accounts receivable due to its large and diverse customer base (residential and public institutions) operating in numerous industries and located across France. In addition, the maximum value of the counterparty risk on these financial assets is equal to their

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**28 Financial instruments (Continued)**

recognized net carrying amount. An analysis of credit risk on net trade receivables past due is provided in Note 20.

The Group's policy is to invest its cash, cash equivalents and marketable securities with financial institutions and industrial groups with a long-term rating of A-/A3 or above.

However, in September 2008, Lehman Brothers filed for bankruptcy. Part of the Group's financial liabilities was hedged by interest rate swaps entered into with Lehman Brothers. As a result of the bankruptcy, Lehman Brothers defaulted on the swaps. There is currently a claim with Lehman Brothers for a total amount of approximately 11.2 million euros. In 2012, the Group received a first payment 2.8 million euros in relation to this claim. In 2013, the Group received two further installments in a total amount of 7.1 million euros. As such a contingent gain of 1.3 million euros remains for the Group, but has not been recognized as of December 31, 2013.

**Liquidity risk management**

Ultimate responsibility for liquidity risk management rests with the Board of Directors, which has established an appropriate liquidity risk management framework for the management of the Group's short-, medium- and long-term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The following tables detail the Group's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods (excluding amortized costs and future interests). The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The tables include both interest and principal cash flows. The contractual maturity is based on the earliest date on which the Group may be required to pay.

The Group considers that its available cash and cash equivalents and the anticipated cash flows from operations are sufficient to cover its operating expenses, capital expenditure and its financial debt requirements for the next twelve months.

**29 Related party transactions**

The majority shareholders of the Group are a group of investment and private equity firms: Altice, Cinven and Carlyle.

Balances and transactions between entities forming the Group have been eliminated in preparing the consolidated financial statements and are not disclosed herein. Details of transactions between the Group and other related parties are disclosed below.

**29.1 Trading and financing transactions**

During the year, group entities entered into the following trading transactions with related parties that are not members of the Group:

	Purchase of goods and services		Amounts owed by related parties		Amounts owed to related parties	
	2013	2012	2013	2012	2013	2012
	(in thousands of euros)					
<i>Shareholders</i>						
Cinven . . . . .	474	610	—	—	639	—
Altice . . . . .	181	1,214	—	—	—	—
Carlyle . . . . .	450	600	—	—	900	450
<i>Associate</i>						
Alsace Connexia Participation SAS . . . . .	—	—	2,280	2,235	—	—

Management fees have been paid to the shareholders (Cinven, Altice and Carlyle) in relation to certain management, financing and advisory services provided (1,106 thousands euros in 2013 and 2,424 thousand euros in 2012). These contracts ended on September 30, 2013 within the framework of the IPO.

Moreover, as mentioned in Note 4.1.1, during the restructuring of the Group's debt in 2009, in which the Group's shareholders acquired certain loans in respect of SFA Ypso France, Ypso Holding SARL issued

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**29 Related party transactions (Continued)**

securities subscribed by the shareholders, including 132,664,023 subordinated interest preferred equity certificates ("Super PECs") with a nominal value of 1 euro each, the interest on which was capitalized.

Cinven, Carlyle and Altice contributed the Super PECs to Numericable Group on November 7, 2013, within the framework of the legal transactions related to the IPO. This debt was therefore extinguished in exchange for newly issued securities. Consecutively, the expense related to the extinguishment of the debt ("Premium") was recognized as financial expense in the amount of 81.6 million euros. This charge had no impact on the Group's cash position.

**29.2 Related-party relationships**

**(1) Relationships with shareholders**

***Relationships with Altice***

Altice owns cable networks in the French West Indies (Antilles), and the Group pays call termination charges to these networks for calls made by subscribers of its network to subscribers of networks in the West Indies. Conversely, the Group receives call termination charges for calls made by subscribers of these networks to subscribers of the Group.

Finally, Altice owns Auberimmo, which is a company that rents infrastructures to the Group. Auberimmo has a sole client, Completel SAS, which is a member of the Group. Rents invoiced in 2013 amounted to 1,132 thousand euros, compared with 1,081 thousand euros in 2012.

***Relationships with Carlyle***

Sagemcom, one of the Group's key suppliers of set-top boxes, was acquired by funds managed by Carlyle on August 17, 2011.

NC Numericable and Completel also signed a contract for services with B&B Hotels and Econonich (together, "Group B&B Hotels"), acquired by Carlyle Group in 2010, on December 31, 2013. The contract was concluded for a period of five years, after which the parties will meet for a possible contract extension. Under the terms of the contract, NC Numericable and Completel have committed to provide the following services:

- access to broadband internet;
- creation of an IP network on all relevant sites;
- security services;
- fixed telephony services;
- TV services; and
- various other cross-cutting services.

**(2) Relationships with Coditel, an entity owned by Altice and by other parties unrelated to the Group**

As part of the sale of Coditel Belgium and Coditel Luxembourg in June 2011, the Group entered into a service agreement and a trademark license agreement with Coditel Holding S.A. to ensure the continuity of its operations.

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**29 Related party transactions (Continued)**

***Service agreement***

On June 30, 2011, Numericable SAS entered into a service agreement (the “Coditel Service Agreement”) with Coditel. Pursuant to the Coditel Service Agreement, the Group will continue to provide Coditel with all the services it provided prior to its sale, including:

- VOD platform services and VOD content services;
- television, IP and voice engineering services;
- support and assistance in purchasing hardware and devices needed for its operations, in particular set-top boxes and software, modems, routers and mobile handsets, and also television and VOD content;
- delivery of television channels signals and existing data flows over the Group’s backbone;
- upgrade of Coditel’s billing software; and
- continued support of Coditel’s systems currently located in the Group’s premises or currently supported from the Group’s systems.

In consideration of the services provided, Coditel agreed to pay the Group a total of 100,000 euros per year. In addition, Coditel will pay the Group 10% of its monthly VOD revenues.

***Trademark License Agreement***

On June 30, 2011, Coditel and Numericable also entered into a trademark license agreement (the “Trademark Agreement”). Pursuant to the Trademark Agreement, the Group will provide Coditel with a license to use the “Numericable” trademark, registered under Ma14502, exclusively in Belgium and Luxembourg in relation to the offering, promotion and commercialization of television, Internet and telephone products and services. The license fee is included in the annual fee of 100,000 euros under the Service Agreement. The Trademark Agreement terminates automatically on June 30, 2017, upon termination of all services under the Service Agreement or upon expiry of the Service Agreement.

**29.3 Compensation of key management personnel**

Compensation of members of the Executive Committee amounted to 2,226 thousand euros and 2,100 thousand euros in 2013 and 2012 respectively. This amount includes only short-term benefits such as salaries, wages and bonuses.

The Group has also recorded 303 thousand euros as of December 31, 2013 for retirement benefits (general regime) for Executive Committee members.

Lastly, the expense related to stock option plan (employer contribution + IFRS 2 expense) represents 3,409 thousand euros for members of the Executive Committee for 2013 (nil in 2012).

**30 Lease arrangements**

**30.1 The Group as lessor**

**Finance leases**

The Group has not any contracted finance leases as a lessor.

**Operating leases**

Operating leases relate to the investment property owned by the Group and leased to other companies in the telecommunications industry, with lease terms of between 15 to 30 years. All operating lease contracts contain market review clauses in the event that the lessee exercises its option to renew. The lessee does not have an option to purchase the property at the expiry of the lease period.

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**30 Lease arrangements (Continued)**

Future revenues related to these leases (recorded in deferred income) break down as follows:

	Future minimum amount of rents	
	December 31, 2013	December 31, 2012
	(in thousands of euros)	
Not later than 1 year . . . . .	53,930	45,318
Later than 1 year and not later than 5 years . . . . .	42,224	40,930
More than 5 years . . . . .	54,997	64,545
<b>Total . . . . .</b>	<b><u>151,151</u></b>	<b><u>150,793</u></b>

**30.2 The Group as lessor**

**Finance leases**

The Group has entered into various finance leases related to property, for which the lease term is generally between 20 and 30 years, and office equipment, for which the lease term is 4 years.

The main finance lease arrangements relate to network equipment bought from Cisco and the property lease for the headquarters offices of the Group in Champs-sur-Marne, for which the Group has an option to purchase the property at the end of the lease term at a price that is expected to be sufficiently lower than the fair value at the date the option becomes exercisable.

All leases are denominated in euros. Certain property lease arrangements stipulate that the annual payments will be set at a fixed amount at the beginning of the lease, but will be increased in line with the inflation rate in subsequent years (i.e. a percentage increase).

	Minimum lease payments		Present value of minimum lease payments	
	December 31, 2013	December 31, 2012	December 31, 2013	December 31, 2012
	(in thousands of euros)			
Not later than 1 year . . . . .	22,100	11,685	21,257	11,302
Later than 1 year and not later than 5 years . . . . .	21,069	13,883	19,246	12,830
More than 5 years . . . . .	1,342	721	989	595
	<b><u>44,510</u></b>	<b><u>26,288</u></b>	<b><u>41,492</u></b>	<b><u>24,728</u></b>
Less future finance charges . . . . .	(3,018)	(1,560)	—	—
Present value of minimum lease payments	<u>41,492</u>	<u>24,728</u>	<u>41,492</u>	<u>24,728</u>
Financial liabilities related to finance leases—current portion . . . . .			21,257	11,302
Financial liabilities related to finance leases—non-current portion . . . . .			<u>20,235</u>	<u>13,426</u>

The interest rate inherent in the leases is fixed at the contract date for the entire lease term. The average effective interest rate contracted is approximately 3.96% and 3.24% per annum for 2013 and 2012 respectively.

**Operating leases**

The Group also has property and vehicle lease commitments under operating leases. The lease term for property under operating leases is generally 3, 6 or 9 years, a standard lease term for commercial real estate in France. The lease term for vehicle under operating lease is 3 years.

As part of the networks business, leases involving equipment and network IRUs (rights of use of the local loop, backbone) or other rental contracts (rights of way) were not considered material.

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**30 Lease arrangements (Continued)**

In connection with its entertainment business activities, the Group has also entered into operating leases and agreements to purchase TV programs.

As of December 31, 2013, non-cancellable operating lease commitments amounted to:

	December 31, 2013
	(in thousands of euros)
Not later than 1 year . . . . .	10,381
Later than 1 year and not later than 5 years . . . . .	34,798
More than 5 years . . . . .	12,978
	<b><u>58,156</u></b>

**31 Non-current assets held for sale and discontinued operations**

None.

**32 Commitments and contractual obligations**

**32.1 Commitments given**

*Guarantees in relation to the Senior Facility Agreement*

As part of the SFA entered into by the subsidiaries of the Group, the following commitments were given to the lending banks:

- Compliance with financial covenants;
- Stable tax consolidation scope;
- Compliance with conditions governing the acquisition, disposal, use and control of assets.

All the assets of the Group's subsidiaries have been pledged to the banks.

*Commitments in relation to business operations*

The Group is committed to build 75,000 connectors for a total amount of 4.5 million euros on behalf of the city of Le Havre, France.

To operate telecommunications networks, the Group needs licenses, authorizations or rights of use to infrastructure in the public and private domain. Consequently, the Group generally pays fees to the public administration in charge of managing the infrastructure (local authorities) or to the owners. In the course of its normal business activities, the Group has also entered into outsourcing contracts, particularly for certain network maintenance services.

*Lease commitments in relation to business operations*

As disclosed in Note 30, the Group has entered into various lease arrangements.

**Numericable Group**  
**Consolidated Financial Statements**  
**for the year ended December 31, 2013 (Continued)**

**32 Commitments and contractual obligations (Continued)**

*Contractual obligations*

The following table sets out the maturity of financial commitments in respect of borrowings and leases entered into by the Group (see the corresponding Notes):

	Note	< 1 year	Maturity 1-5 years	> 5 years	Total December 31, 2013
(in thousands of euros)					
Loans and financial liabilities . . . . .	23	64,249	2,283,075	418,818	2,766,142
Operating leases . . . . .	30	10,381	34,798	12,978	58,157
<b>Total . . . . .</b>		<b>74,630</b>	<b>2,317,873</b>	<b>431,796</b>	<b>2,824,299</b>

**32.2 Commitments received**

The Group has received a commitment of a total amount of 25 million euros from GDF Suez to subscribe to perpetual floating rate notes, which will provide financing for the construction of the Sipperec network. The Group has already received 23.8 million euros in principal from GDF Suez as of December 31, 2013.

**33 Events after the end of the reporting period**

**33.1 Liquidity contract signed with Exane BNP Paribas**

In early 2014, the Group signed a liquidity contract with Exane BNP Paribas in order to improve the liquidity of its securities and the regularity of their prices on NYSE Euronext Paris. A liquidity account of 3 million euros has been opened to allow Exane BNP Paribas to make transactions under the terms of the liquidity contract.

**33.2 Granting of a new stock option plan**

On January 10, 2014, the Board of Directors adopted a stock option in favor of certain officers and employees of Numericable Group.

This plan covers a total of 287,618 options for 287,618 shares.

The exercise price is 27.62 per share.

**33.3 Exclusive talks with Vivendi for the acquisition of SFR**

On March 14th, 2014, the board of directors of Vivendi announced that it entered into exclusive talks with Altice, the majority shareholder of Numericable Group, for a period of three weeks, in order to discuss the possible acquisition of its subsidiary SFR.

## **Numericable Group**

### **Statutory Auditor's Report on the Numericable Group Combined Financial Statements for each of the three years ended December 31, 2012, 2011 and 2010**

To the Chairman and Chief Executive Officer of Numericable Group,

In our capacity as statutory auditor of Numericable Group (the “**Company**”) and in accordance with Regulation (EC) No 809/2004, we have audited the accompanying combined financial statements of the group described in Note 1.5, which comprise the combined statement of financial position of the Company as of December 31, 2012, 2011 and 2010, the combined statement of income, the combined statement of comprehensive income, the combined statement of cash flows and the combined statement of changes in equity for each of the three years then ended and a summary of significant accounting policies and other explanatory notes (together the “**Combined Financial Statements**”).

The Combined Financial Statements have been established under the responsibility of the Board of Directors of the Company in the context of the contemplated initial public offering of the shares of Numericable Group and in connection with the contemplated restructuring of the Ypso France SAS and Altice B2B France SAS operations under Ypso France SAS. Our responsibility is to express an opinion on the Combined Financial Statements based on our audit.

We conducted our audit in accordance with professional standards applicable in France. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Combined Financial Statements are free from material misstatement. An audit involves performing procedures, using sampling techniques or other methods of selection, to obtain audit evidence about the amounts and disclosures in the Combined Financial Statements. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made, as well as the overall presentation of the Combined Financial Statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

In our opinion, the Combined Financial Statements prepared for the purpose of the prospectus give a true and fair view of the assets and liabilities and of the financial position of the combined group as at December 31, 2012, 2011 and 2010 and the results of the operations and of its cash flows for each of the three years then ended in accordance with International Financial Reporting Standards as adopted by the European Union.

Without qualifying our opinion, we draw your attention to:

- The basis of preparation in Note 1.4, which describes notably in section “Basis of combination”, the accounting method used for the combination of the two groups being under common control in the absence of specific guidance under IFRS as adopted by the European Union;
- The fact set out in Note 1.6 to the Combined Financial Statements which discloses the facts upon which management of the Company has based its evaluation of the ability of the combined group to meet its financing needs in 2013 and the reason supporting the continuing use of the going concern principle for preparing the Combined Financial Statements.

Neuilly-sur-Seine, September 6, 2013

The statutory auditor  
Deloitte & Associés

Christophe Saubiez

<b>Total other comprehensive income/(loss) attributable to owners of the entity</b> . . . . .	<b>84,881</b>	<b>194,859</b>	<b>58,039</b>

In accordance with IAS 1 *Presentation of financial statements (2007)* (**IAS 1**), the Combined Group, as defined in Note 1, presents a statement of other comprehensive income. However, as the Combined Group operates only in France, the functional and presentation currency of all the entities within the Combined Group is the euro. As a result, no cumulative translation adjustment has been recognized as of December 31, 2012, 2011 and 2010.

Available-for-sale financial assets are comprised of various investments in entities not comprised in the combination, that are not listed (see Note 17) for which fair value cannot be measured reliably. Due to the fact that these investments are not material, these investments are measured at cost and accordingly, no unrealized gain/loss is recognized in the statement of other comprehensive income.

As mentioned in Note 2.20, the Combined Group recognizes actuarial gains and losses immediately through income. Accordingly, there are no actuarial gains and losses recognized directly in equity.

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012**

## **1 Basis of preparation of the combined financial statements**

### **1.1 Presentation of the Two Groups forming Numericable Group**

Numericable Group (the “**Company**”) is a limited company under French law, whose head office is located in France and has been formed in August 2013. In relation to the admission of the shares of the Company on Euronext Paris, the Company will receive the contribution of two entities incorporated in Luxembourg, Ypso Holding S.à.r.l and Altice Lux Hold S.à.r.l., which are holding companies that are respectively parent companies of Ypso France SAS and Altice B2B France SAS. Ypso Holding S.à.r.l, Ypso France SAS and its subsidiaries are hereafter referred to as “Ypso” and Altice Lux Hold S.à.r.l., Altice B2B France SAS and its subsidiaries are hereafter referred to as “Altice B2B”.

#### **Ypso France SAS**

Ypso France SAS, which operates the Numericable business, is a French cable television service provider. Its core products are premium digital television packages, which are available to households in areas that are triple-play enabled. Ypso France SAS also provides French consumers with broadband Internet, fixed telephony, and mobile telecommunications services.

#### **Altice B2B France SAS**

Altice B2B France SAS, through its main operational entity, Completel SAS, operates the largest alternative fiber-to-the-office, or FTTO, network in France, constituting the third alternative Digital Subscriber Line (“DSL”) network in France. Completel SAS provides business customers with a comprehensive service offering, which includes data transmission, very high speed Internet, telecommunications services, convergence and mobility solutions, through fiber and DSL networks.

### **1.2 Description of the context**

Ypso and Altice (collectively the “**Two Groups**” or the “**Combined Group**”) are currently entities under common control. The Two Groups are ultimately controlled by three private equity funds Carlyle, Cinven and Altice. The purpose of the combined financial statements is to present a fair depiction of the financial condition, and the assets and liabilities of the Two Groups, using historical bases in the assets, liabilities and results of operations and cash flows for each period presented in the combined financial statements. Accordingly, the combined financial statements reflect the historical assets, liabilities, revenues, expenses and cash flows that were directly related to the sub-groups, Ypso and Altice B2B, which are separate legal groups at December 31, 2012, 2011 and 2010.

The combined financial statements have been prepared for the three-year period ended December 31, 2012, 2011 and 2010 (collectively the “**Combined Financial Statements**”) in conjunction with the contemplated initial public offering of the shares of Numericable Group (the “**Offering**”). It is expected that Ypso will acquire 100% of the share capital of Altice B2B (the “**Combination**”) in order to reflect the combination of the Two Groups.

### **1.3 Statement of compliance**

The combined financial statements of Numericable Group include a combined statement of financial position as of December 31, 2012, 2011 and 2010, a combined statement of income, a combined statement of comprehensive income, a combined statement of cash flows and a combined statement of changes in equity for each of the three years in the period ended December 31, 2012 and the underlying Notes. The combined financial statements have been prepared in compliance with International Financial Reporting Standards (“**IFRS**”) as published by the International Accounting Standards Board (“**IASB**”) and as adopted by the European Union at December 31, 2012.

The Combined Financial Statements were approved by the Board of Directors on September 6, 2013.

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**1 Basis of preparation of the combined financial statements (Continued)**

**1.4 Basis of presentation of the Combined Financial Statements**

***IFRS financial statements.***

For the purpose of preparing the Combined Financial Statements, accounting principles effective as of December 31, 2012 have been applied to all years presented in these Combined Financial Statements.

Ypso France and Altice B2B France prepare separate consolidated financial statements in accordance with the accounting rules and principles generally accepted in France ("**French GAAP**"), in application of Regulations n° 99.02 and n° 2005.10 of the Accounting Regulations Board, in connection with the financing agreement entered into with the banks on June 6, 2006 and subsequently amended on July 18, 2006, March 2, 2007 and June 24, 2008.

Ypso France SAS also prepares consolidated financial statements in accordance with IFRS to comply with its reporting requirements in relation to the issuance of the Ypso High-Yield Notes (as defined in Note 4.1.1).

In preparing the Combined Financial Statements, Altice B2B France prepared consolidated financial statements in accordance with French GAAP and converted them to IFRS which resulted in the following adjustments:

- Connection fees for business clients have been amortized over the contractual engagement period in accordance with IAS 18 *Revenue*;
- Under IFRS, certain lease arrangements relating to offices and equipment have been analyzed as finance leases as a result of applying the criteria defined under IAS 17 *Leases*. Under French GAAP, these lease arrangements were analyzed as operating leases and need to be reclassified as finance leases under IFRS;
- In accordance with the exemption provided for in IFRS 1 *First-time adoption of IFRS*, past business combinations that occurred prior to January 1, 2010 have not been restated and no amortization of goodwill has been recognized under IFRS;
- Under IFRS, transaction costs (including debt issuance costs) that are directly attributable to the acquisition or issue of a financial liability are deducted from the liability's carrying value. Debt issuance costs are amortized over the debt term using the effective interest method (as opposed to the immediate recognition of a financial expense under French GAAP);
- Changes in the fair value of interest-rate derivative instruments have been recognized immediately in the combined statement of income within financial income and expenses under IFRS whereas under French GAAP, these interest rate swaps are considered as off-balance sheet commitments. Changes in fair value of interest rate derivatives are reported as other assets and liabilities under IFRS;
- The research tax credit is determined based on a certain amount of qualifying R&D staff costs, which are capitalized under IAS 38 *Intangible Assets* ("**IAS 38**"). As a result, the amount of research tax credit has been recognized ratably over the useful life of the capitalized costs, that is 3 years;
- Certain non-recurring income and expenses have been reclassified to EBITDA and/or financial income in the combined statement of income under IFRS.

***Subsequent events.***

The Combined Financial Statements of Numericable Group were prepared under the responsibility of the Chairman of Ypso and Altice B2B and approved by the Board of Directors of the Company on September 6, 2013. The preparation of the Combined Financial Statements is consistent with estimates reflected in the consolidated financial statements of Ypso and Altice B2B as of December 31, 2012, which were respectively authorized for issue on April 10, 2013 and April 18, 2013 by the Chairman. **for the three years ended December 31, 2012 (Continued)**

**1 Basis of preparation of the combined financial statements (Continued)**

the exception of the adjustments made in connection with the conversion of the consolidated financial statements of Altice B2B from French GAAP to IFRS, no adjustment has been reflected in the Combined Financial Statements for any subsequent events since April 18, 2013 to reflect exactly the position that was presented in the consolidated financial statements of the Ypso and Altice for which the Combined Financial Statements are being prepared as disclosed hereafter with the exception of the adjustments made in connection with the conversion in IFRS of the Financial Statements of Altice B2B prepared in accordance with French GAAP.

***Basis of combination.***

The Combined Financial Statements were prepared using the accounting records that were used to prepare the consolidated financial statements of the Ypso and Altice B2B sub-groups for the year ended December 31, 2012, 2011 and 2010.

All intra-group balances and transactions have been eliminated in preparing the Combined Financial Statements, including the transactions between Ypso and Altice B2B and their respective subsidiaries.

As described above, the Combination of the Two Groups is considered a combination of entities under common control of Carlyle, Cinven and Altice and the Combined Financial Statements reflects the combination of Ypso and Altice using the following methods and principles:

- In accordance with IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors* paragraph 10, judgment has been applied in developing and applying an accounting policy that results in information that is relevant and reflect the economic substance of the transaction. As a result, the acquisition method, as defined in IFRS 3 *Business Combinations (Revised 2008)* (“IFRS 3”), has not been applied to reflect the combination of the Two Groups. In the absence of specific guidance under IFRS for transactions between entities under common control, we considered and applied standards on business combination and transactions between entities under common control issued by the regulators in the United States (Accounting Standards Codification Topic 810-10-45-10 and Topic 810-10-55-1B *Consolidation* and SEC Regulation S-X Article 3A—*Consolidated and Combined Financial Statements*) and in the United Kingdom (FRS 6 *Acquisitions and mergers*) to prepare the Combined Financial Statements.
- Likewise, the Combined Financial Statements were prepared by aggregating the separate consolidated financial statements of Ypso and Altice B2B at their historical book value:
  - Assets, liabilities, income and expenses of the Two Groups have been extracted from the accounting records of the respective Ypso and Altice B2B sub-groups and fully aggregated at their historical book value without being revalued;
  - Preexisting non-controlling interests have been maintained at their book value in the combined statements of financial position. They primarily represent the 0.6% ownership in Completel Europe NV (a subsidiary fully consolidated in the consolidated financial statements of Altice B2B France) that was repurchased by Altice B2B France for approximately €5 million in 2010;
  - The combined equity has been determined by aggregating the consolidated equity of the sub-groups Ypso and Altice;
  - No goodwill has been recognized and the net assets and liabilities have been recognized at their historical book value; however, historical goodwill balances of the Two Groups existing before the combination have been maintained at their book value in the Combined Financial Statements;
  - The effects of transactions between the Two Groups on assets, liabilities, revenue, and expenses for periods presented have been eliminated;

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**1 Basis of preparation of the combined financial statements (Continued)**

- Subordinated debt instruments from ultimate shareholders, which are recorded in the liabilities of Ypso Holding and Altice B2BLux, have been classified directly in equity as they will be contributed to Numericable Group by the shareholders as a result of the contemplated reorganization and then be converted into share capital.

With respect to the presentation of comparative information, the comparative information for 2010 has been adjusted to reflect the combination at the beginning of the earliest period presented, that is, January 1, 2010, date as of which both Groups were under common control.

**1.5 List of entities comprised in the Combination**

**Subsidiaries**

Entities forming the Combined Group are companies in which the Two Groups have a controlling interest through Ypso or Altice, that is, entities in which the Two Groups have the power to govern financial and operational policies in order to obtain benefits from their operations. Control exists when the Combined Group has the power, directly or indirectly, to govern the financial and operating policies of an enterprise so as to obtain benefits from its activities. The financial statements of subsidiaries are included in the Combined Financial Statements from the date that control commences until the date that control ceases. Non-controlling interests in subsidiaries are identified separately from the Combined Group's equity therein.

**Associates**

Investments in which the Combined Group exercises significant influence, but not control or joint control, are accounted for under the equity method. Such investees are referred to as "associates" throughout these Combined Financial Statements. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies. Associates are initially recognized at cost. The Combined Financial Statements include the Combined Group's share of income and expenses, from the date significant influence commences until the date that significant influence ceases.

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**1 Basis of preparation of the combined financial statements (Continued)**

As of 31 December 2012, 2011 and 2010, the Combined Financial Statements result from the combination of the following entities:

Company and legal form of incorporation	Registered office	Consolidation method as of December 31 2012, 2011 and 2010	Percentage of control			Percentage of interest		
			2012	2011	2010	2012	2011	2010

(1) The Combined Group acquired in January 2012 the shares of Sequalum Participation that were held by Eiffage (15.78%). After this operation, the Combined Group owned 95% of Sequalum Participation.

(2) The entities Altitude Telecom, B3G SA and B3G Online were merged in 2011 in Completel SAS.

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**1 Basis of preparation of the combined financial statements (Continued)**

**1.6 Going concern assumption**

The Combined Group was formed by a series of acquisitions, mainly funded through external borrowings. In addition, the construction and subsequent modernization of the network have required substantial investments. These two factors explain the structure of the statement of financial position and the proportion of financial liabilities in relation to total equity as well as the significant amount of amortization expense and net finance cost.

Currently, the Combined Group services its debt and funds its investments through net cash from operations. Furthermore, the Combined Group's covenants under its facility agreements require the Combined Group to comply with certain liquidity ratios and to maintain certain cash levels.

Furthermore, as explained in Note 32, the Combined Group amended its Senior Facility Agreements in July and August 2013 which allowed the Combined Group to reschedule a large portion of its debt.

Under these conditions and given the updated cash flow projections, management believes that the Combined Group will be able to finance its cash requirements for the next twelve months from the date of approval of the Combined Financial Statements for the three years ended December 31, 2012 and meet its financial debt obligations during the period.

As a result, the Combined Financial Statements of the Combined Group for the three years ended December 31, 2012 have been prepared on a going concern basis.

**2 Significant accounting policies**

**2.1 Accounting principles governing the preparation of the Combined Financial Statements**

**Standards and interpretations applied by the Combined Group as of December 31, 2012**

With the exception of the principles used for the combination, as disclosed in Note 1, the accounting policies for recognition and measurement used in preparing the Combined Financial Statements at December 31, 2012 are the same as those used in the previous consolidated financial statements of Ypso under IFRS. Adjustments have been recognized to convert the consolidated financial statements of Altice B2B (prepared under French GAAP) to IFRS (see Note 1.4).

As mentioned in Note 1, the Combined Financial Statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union ("EU") with mandatory application as of December 31, 2012. The recognition and measurement principles of International Financial Reporting Standards as adopted by the European Union have been applied in preparing the Combined Financial Statements. They are available on the following website:

[http://ec.europa.eu/internal\\_market/accounting/ias/index\\_en.htm](http://ec.europa.eu/internal_market/accounting/ias/index_en.htm)

Standards and interpretations adopted by the European Union with mandatory application as of December 31, 2012 are similar to the standards and interpretations published by the International Accounting Standards Board ("IASB"), with the exception of the carve-out of IAS 39 *Financial Instruments: Recognition and Measurement* ("IAS 39") and the below standards and interpretations adopted by the EU but not yet mandatory in EU as of December 31, 2012. However, those standards and interpretations are not applicable to the Combined Group. As a result, the Combined Financial Statements comply with International Financial Reporting Standards as published by the IASB.

The standards and interpretations applicable from January 1, 2012 have no significant effect on the Combined Financial Statements as of date

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**2 Significant accounting policies (Continued)**

**Standards and interpretations compulsory after December 31, 2012 and not early adopted by the Combined Group**

The following are standards and interpretations that have been issued by the IASB and the IFRS Interpretations Committee and adopted by the EU at the date of preparation of these Combined Financial Statements but that are not yet mandatory. The Combined Group has not elected an earlier application:

- IAS 27 (revised 2011): *Separate Financial Statement* (applicable on or after January 1, 2014 for the Combined Group) (“**IAS 27**”)

This standard outlines the accounting and disclosure requirements for ‘separate financial statements’, which are financial statements prepared by a parent, or an investor in a joint venture or associate, where those investments are accounted for either at cost or in accordance with IAS 39 *Financial Instruments: Recognition and Measurement*. The standard also outlines the accounting requirements for dividends and contains numerous disclosure requirements.

- IAS 28 (revised 2011): *Investments in Associates and Joint Ventures* (applicable on or after January 1, 2014 for the Combined Group) (“**IAS 28**”)

This standard relates to the accounting for joint ventures and associates under the equity method.

Some clarifications have been included with respect to the accounting for changes in ownership interests (with or without loss of control) whereas disclosures are now covered by IFRS 12.

- IFRS 10: *Consolidated Financial Statements* (applicable on or after January 1, 2014 for the Combined Group) (“**IFRS 10**”)

IFRS 10 supersedes SIC-12 and IAS 27 for the part relating to the consolidated financial statements. This standard deals with the consolidation of subsidiaries and structured entities, and redefines control which is the basis of consolidation.

- IFRS 11: *Joint Arrangements* (applicable on or after January 1, 2014 for the Combined Group) (“**IFRS 11**”).

IFRS 11 supersedes IAS 31 and SIC-13.

This standard deals with the accounting for joint arrangements. The definition of joint control is based on the existence of an arrangement and the unanimous consent of the parties which share the control.

There are two types of joint arrangements (i) *joint ventures*: the joint venturer has rights to the net assets of the entity to be accounted for using the equity method, which is the method already applied by the Combined Group; and (ii) *joint operations*: the parties to joint operations have direct rights to the assets and direct obligations for the liabilities of the entities which should be accounted for as arising from the arrangement.

- IFRS 12: *Disclosure of interest in Other Entities* (applicable on or after January 1, 2014 for the Combined Group) (“**IFRS 12**”)

IFRS 12 supersedes disclosures previously included in IAS 27, IAS 28 and IAS 31.

This standard groups and develops all the disclosures related to subsidiaries, joint ventures, associates, consolidated and unconsolidated structured entities.

- IFRS 13: *Fair value Measurement* (applicable for annual periods beginning on or after January 1, 2013) (“**IFRS 13**”)

IFRS 13 is a single source of fair value measurement and disclosure requirements for use across IFRSs. It defines fair value, sets out a framework for measuring fair value and requires disclosures about fair value measurements, including the fair value hierarchy already set out in IFRS 7.

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**2 Significant accounting policies (Continued)**

- IAS 19 (*revised 2011*): *Employee Benefits* (applicable on or after January 1, 2013 for the Combined Group) (“**IAS 19**”)

The main changes are:

- the recognition of actuarial gains and losses through Other Comprehensive Income, which will result in a change in accounting principles as the Combined Group recognizes actuarial gains and losses through income as at December 31, 2012 ; and
- the modification of the calculation of the finance cost component, due to the removal of the expected return on plan assets, which is not expected to have a material effect on the Combined Group’s financial statements;
- the immediate expense of non-vested past service costs which has no expected material effect to date on the Combined Group’s financial statements.

The other amendments and interpretations not yet adopted by the Combined Group as at December 31, 2012 are as follows:

- Amendments to IAS 1—*Presentation of Items of Other Comprehensive Income and Separate Financial Statements* (applicable on January 1, 2013 for the Combined Group)
- IFRIC 20, *Stripping Costs in the Production Phase of a Surface Mine* (applicable on January 1, 2013 for the Combined Group) (“**IFRS 20**”)
- Amendments to IFRS 7 *Disclosures—Offsetting Financial Assets and Financial Liabilities* (applicable on January 1, 2013 for the Combined Group)
- Amendments to IAS 32 *Offsetting Financial Assets and Financial Liabilities* (applicable on January 1, 2013 for the Combined Group)
- Amendments to IAS 12 *Deferred Tax—Recovery of Underlying Assets* (for annual periods beginning on January 1, 2013 for the Combined Group)
- Amendments to IFRS 1 *Severe Hyperinflation and Removal of Fixed Dates for First-Time Adopters* (applicable on January 1, 2013 for the Combined Group)

Management is currently assessing the potential impact of the application of these standards and amendments on the combined statement of income, the combined statement of financial position, the combined statement of cash flows and the content of the notes to the Combined Financial Statements but at this stage does not anticipate any material effect related to the application of these standards, interpretations and amendments.

The Combined Financial Statements have been prepared according to the historical cost principle, with the exception of certain assets and liabilities detailed below:

- derivative financial instruments measured at fair value;
- financial assets at fair value through profit and loss measured at fair value;
- available-for-sale financial assets measured at fair value.

**2.2 Foreign Currency Translation Adjustments**

The Combined Financial Statements are presented in euros, the functional and presentation currency of the Two Groups. All financial data are rounded to the nearest thousand of euro.

Foreign currency transactions are initially recorded in the functional currency at the exchange rate prevailing at the date of the transaction. At the closing date, monetary assets and liabilities denominated in a foreign currency are translated into the functional currency at the exchange rate prevailing on that date. All foreign currency differences are expensed. Non-monetary assets and liabilities that are

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**2 Significant accounting policies (Continued)**

measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of initial transaction. All foreign currency differences are recognized in profit and loss.

**2.3 Revenue**

Revenue from the Combined Group's activities is mainly composed of:

- TV subscriptions (TV), broadband Internet, basic cable services, telephony and installations fees invoiced to residential and business clients.
- Data transmission and very high speed Internet services, telecommunications services, convergence and mobility solutions, invoiced to business clients.
- Network infrastructure-based services, including indefeasible rights of use ("IRUs") arrangements or bandwidth capacity on our network, to other telecommunications operators and offer related maintenance services.

Revenue comprises the fair value of the consideration received or receivable for the sale of goods and services in the ordinary course of the Combined Group's activities. Revenue is shown net of value-added tax, returns, rebates and discounts and after eliminating intercompany sales between entities comprised in the scope of combination.

Revenue is recognized and presented as follows, in accordance with IAS 18 *Revenue* (IAS 18):

- Revenues from subscriptions for basic cable services, digital TV pay, internet and telephony are recognized on a straight-line basis over the subscription period; revenues from telephone calls are recognized when the service is rendered.
- When a promotion not related to a customer's past consumption and purchases (such as subscription rate discount, service free period) is offered to a customer in relation to a subscription, the Combined Group recognizes the total amount of billable revenue on a straight-line basis over the term of the contract provided that the Combined Group has the enforceable and contractual right to deliver the products after the promotional free month period to the customer. If a promotion is not related to the subscription for a contract including a non-cancellable period, the company recognizes revenues during the promotion period up to the consideration received or receivable, as the customer's continuance is not assured.
- Installation and set-up fees (including connection) for residential customers are accounted for as revenues when the service is rendered, if consideration received is lower than the sales direct costs to acquire the contractual relationship.
- Service access fees for business clients, when the access to the services is provided and they are associated to equipment or a service, are deferred and the revenue is recognized along the estimated client lifetime duration. They generally spread over the contractual engagement period.
- The revenue related to transmission capacity on terrestrial cables under IRUs arrangements are recognized on a straight-line basis over the life of the contract.

**2.4 Deferred revenue**

For certain arrangements entered into with its non-residential customers, the Combined Group receives up-front cash payments, namely in relation to indefeasible right of use arrangements and connection fees. For these arrangements, the revenue is generally recognized ratably over the term of the lease contract. Deferred revenue at the end of the reporting period represents unrecognized network lease revenue.

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**2 Significant accounting policies (Continued)**

**2.5 Operating income before depreciation and amortization**

The Combined Group has included the subtotal “Operating income before depreciation and amortization” or “EBITDA” on the face of the combined statement of income because management believes that this subtotal is useful as it provides a measure of operating results that excludes non-cash elements such as depreciation and amortization, thus enhancing the predictive value of the financial statements.

Furthermore, EBITDA is an indicator used internally by management to measure the operational and financial results, to make decisions with respect to investments and allocation of resources, and to assess the performance of management personnel.

The subtotal EBITDA may not be comparable to similarly titled measures used by other entities. Further, this measure should not be considered as an alternative for operating income as the effects of depreciation, amortization and impairment, excluded from this measure do ultimately affect the operating results, which is also presented within the combined financial statements in accordance with IFRS 1.

**2.6 Finance costs**

Finance costs primarily comprise:

- interest charges and other expenses paid for financing operations recognized at amortized costs and changes in the fair value of interest rate derivative instruments that do not qualify as hedges according to IAS 39, which are classified in “Interest relative to gross financial debt” in the combined statements of income;
- interest income relating to cash and cash equivalents;

Impact of discounting provisions for retirement benefits is recognized in operating income in “Staff costs and employee benefits expense” with the related charges.

**2.7 Segment information**

IFRS 8 *Operating Segments* requires segment information to be presented on the same basis as the one used for internal reporting purposes. As the Combined Group intends to report on that basis in the future, the three following operating segments have been identified:

- B2C operations
- B2B operations
- Wholesale services

*B2C operations*

The Combined Group provides residential and business clients with TV subscriptions services, broadband Internet, basic cable services, telephony and installations fees.

*B2B operations*

The Combined Group provides business customers with a comprehensive service offering, which includes data transmission and very high speed Internet, telecommunications services, convergence and mobility solutions, through fiber and DSL networks.

*Wholesale services*

The Combined Group sells network infrastructure-based services, including IRUs or bandwidth capacity on its network, to other telecommunications operators and offer related maintenance services.

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**2 Significant accounting policies (Continued)**

**2.8 Income taxes**

Income tax expense comprises current and deferred tax. Income tax expense is recognized in profit and loss except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognized for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognized for the following temporary differences: (i) the initial recognition of goodwill, (ii) the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit, and (iii) investments in subsidiaries, branches and associates when the Combined Group is able to control the timing of the reversal of the temporary difference and when it is probable that the temporary difference will not reverse in the foreseeable future.

Accordingly, for companies included in the scope of combination, a deferred tax liability may be recognized in the amount of taxes payable on planned dividend distributions by these companies.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

Deferred taxes are reviewed at each reporting date to take into account changes in fiscal legislation and perspectives of recovering deductible temporary differences. A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized in a predictable horizon.

**2.9 Government grants and investment subsidies**

Entities of the Combined Group may receive non-repayable government grants and investment subsidies in the form of direct or indirect funding of capital projects, mainly provided by local and regional authorities. These grants are deducted from the cost of the related assets and recognized in the combined statement of income, based on the pattern in which the related asset's expected future economic benefits are consumed.

**2.10 Goodwill and Business Combinations**

Business combinations are accounted for in accordance with the purchase method. The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under IFRS 3 are recognized at their fair value at acquisition date, except for non-current assets (or disposal groups) that are classified as held for sale in accordance with IFRS 5 *Non-current Assets Held for Sale and Discontinued Operations* (IFRS 5) and measured at the lower of their carrying amount and fair value less cost to sell.

The consideration transferred corresponds to the fair value, at the date of acquisition, of assets given, liabilities incurred or assumed, and equity instruments issued by the Combined Group in exchange for control of the acquiree. The goodwill arising from a business combination is equal to the difference between the sum of the consideration paid, the value of any non-controlling interest that remains outstanding after the business combination and, where applicable, the acquisition-date fair value of the

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**2 Significant accounting policies (Continued)**

acquirer's previously-held equity interest in the target, minus the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed. This goodwill is recognized in assets in the combined statement of financial position. When the difference is negative, it is directly accounted in net income.

The secondary costs directly attributable to an acquisition giving the control are recorded in expenses in the period during which the costs are incurred, except for the borrowing costs which must be recorded according to standards IAS 32 *Financial Instruments: Presentation* ("IAS 32") and IAS 39.

When goodwill is determined provisionally at the end of the period in which the combination is effected any adjustments to those provisional values within twelve months of the acquisition date are recognized in goodwill.

With respect to the acquisition of non-controlling interests (i.e. non-controlling interest in a subsidiary that is already included in the scope of combination), the Combined Group fully allocates the difference between the price paid and the share in net assets acquired to equity in accordance with IAS 27 (2008), with no revaluation of the assets and liabilities acquired.

Goodwill resulting from the acquisition of subsidiaries or joint ventures is presented separately in the Combined Statement of Financial Position. Impairment relative to this goodwill is presented on the line "Depreciation and amortization" of the Combined Statement of Income.

Goodwill resulting from the acquisition of associates is included in the book value of the participation. Impairment relative to this goodwill is presented on the line "Share in net income (loss) of associates".

Goodwill is not amortized but is subject to an impairment test whenever there is any indication that an asset may be impaired and at least once a year according to the methods and hypotheses described in Note 15.

After initial recording, goodwill is recorded at cost less recorded accumulated impairment losses.

**2.11 Intangible assets**

**Recognition and measurement principles**

Intangible assets are measured at cost less accumulated depreciation and accumulated impairment losses. Cost comprises all directly attributable costs necessary to buy, create, produce, and prepare the asset to be capable of operating. Intangible assets consist mainly of indefeasible rights of use, patents, acquired and internally generated software.

IRUs correspond to the right to use a portion of the capacity of a terrestrial or submarine transmission cable granted for a fixed period. IRUs are recognized as an asset when the Combined Group has the specific indefeasible right to use an identified portion of the underlying asset, generally optical fibers or dedicated wavelength bandwidth, and the duration of the right is for the major part of the underlying asset's economic life. They are depreciated over the shorter of the expected period of use and the life of the contract between 3 and 20 years.

Patents are amortized on a straight-line basis over the expected period of use, generally not exceeding 10 years.

Software is amortized on a straight-line basis over its expected useful life which generally does not exceed 3 years.

The cost of an internally generated intangible asset is the sum of personnel expenditures incurred from the date the intangible asset first meets the recognition criteria of IAS 38. An intangible asset arising from the development phase of an internal project shall be recognized if, and only if, an entity can demonstrate all of the following:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**2 Significant accounting policies (Continued)**

- its intention to complete the intangible asset and use or sell it;
- its ability to use or sell the intangible asset;
- how the intangible asset will generate probable future economic benefits;

Among other things, the entity can demonstrate the existence of a market for the output of the intangible asset or the intangible asset itself or, if it is to be used internally, the usefulness of the intangible asset;

- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset;
- its ability to measure reliably the expenditures attributable to the intangible asset during its development.

Capitalization of costs ceases when the project is finalized and the asset is available for use. The cost of an internally generated intangible asset arising from the development phase of an IT internal project is amortized on a straight-line basis over its expected useful life which generally does not exceed 3 years.

**Conformity with agreements entered into with local authorities**

To set up and operate its networks, the company has entered into various agreements with the local authorities and representative bodies under successive legal frameworks (French cable network plan, Freedom of Communication Act of 1986, etc.). Many of these agreements convey exclusive rights to the operator and also lay down obligations in terms of local television service provision, programming, pricing policy, and the associated license fees payable. Some of the agreements are public service concessions with “return property” clauses, whereby ownership of the technical plant and civil engineering work reverts to the local authorities at the end of the concession.

The EU Telecoms Directives of 2002, referred to as the “Telecoms Package”, set forth the principle of open competition among operators in the telecommunications market, requiring national regulatory authorities to enforce fair competition conditions, without granting exclusive or special rights for setting up and operating networks. The French law of July 9, 2004, which transposed the Telecoms Package into French law, required existing agreements to be brought into compliance by the end of July 2007 at the latest, in order to remove all exclusive rights clauses and ensure the shared use of public civil engineering infrastructure.

The Combined Group believes that only a minority of the agreements entered into with the local authorities were classified as public service concessions when concluded and that IFRIC 12 does not apply, with the exception of the contract entered into in relation to the public service delegation arrangement with the department of Hauts-de-Seine (*Délégation de Service Public 92*).

*Service Concession agreement entered into with the department of Hauts-de-Seine*

Sequalum, a subsidiary of the Combined Group, was selected in 2007 by the district of Hauts-de-Seine to plan, deploy and operate a Fiber To The Home (“FTTH”) very-high-speed fiber network throughout the district under a *Délégation de Service Public* (“DSP”), called DSP 92. A DSP is a form of public—private partnership under French law pursuant to which a public authority entrusts private entities to operate a public service in return for remuneration that is based on the results of operations of the service in question.

The terms of the service arrangement signed between Sequalum and the department of Hauts-de-Seine require Sequalum to construct the network—completing construction within 72 months—and maintain and operate the network to a specified standard for 25 years. At the end of the 25<sup>th</sup> year, the service arrangement will end.

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**2 Significant accounting policies (Continued)**

Sequalum provides construction services to the department of Hauts-de-Seine in exchange for an intangible asset, ie a right to collect revenue from the network users. In accordance with IAS 38, Sequalum recognizes the intangible asset at cost, i.e. the fair value of consideration transferred to acquire the asset, which is the fair value of the consideration received or receivable for the construction services delivered.

Main characteristics of the agreement are:

Control and regulation of prices	Origin of the revenue	Subsidy granted by the grantor	Residual value	End of the agreement	Accounting model
Rates are defined in the service agreement	Users	€59 million subsidy to finance the construction	Network will be returned to the grantor with no indemnity, except for some assets (actifs de reprise)	Contract will end after 25 years	Intangible asset/financial receivable

**2.12 Property, plant and equipment**

Property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses.

Land is not depreciated. Buildings and premises are amortized on a straight-line basis over 20 years.

When property, plant and equipment include significant components with different useful lives, they are recorded and amortized separately. With respect to network and technical equipment, amortization and depreciation are calculated on a straight-line basis and the main amortization and depreciation periods are as follows:

Network and technical and equipment	Method	Duration
Network hubs . . . . .	Straight line	10 to 15 years
Optical cables . . . . .	Straight line	15 to 30 years
Engineering facilities . . . . .	Straight line	20 to 40 years
Connections . . . . .	Straight line	5 years
Digital terminals . . . . .	Straight line	3 to 5 years
Furniture . . . . .	Straight line	5 to 10 years
Fixtures and fittings . . . . .	Straight line	8 to 10 years
Transport equipment . . . . .	Straight line	2 to 5 years
Office equipment . . . . .	Straight line	3 to 5 years
Computer equipment . . . . .	Straight line	3 to 5 years

Gains or losses on disposal of property, plant and equipment are calculated as the difference between the profit from the disposal and the carrying amount of the asset and are recognized as other operating income or expenses.

**2.13 Lease arrangements**

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**2 Significant accounting policies (Continued)**

**The Combined Group as lessor**

Amounts due from lessees under finance leases are recognized as receivables at the amount of the Combined Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Combined Group's net investment outstanding in respect of the leases.

Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized on a straight-line basis over the lease term.

**The Combined Group as lessee**

Assets held under finance leases are initially recognized as assets of the Combined Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation. Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognized immediately in profit or loss. Contingent rentals are recognized as expenses in the period in which they are incurred.

Operating lease payments are recognized as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognized as an expense in the period in which they are incurred. In the event that lease incentives are received to enter into operating leases, such incentives are recognized as a liability. The aggregate benefit of incentives is recognized as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

**2.14 Impairment of goodwill and non-current assets**

Each time events or changes in the economic environment indicate a current risk of impairment of goodwill, or other intangible assets, property, plant and equipment and assets in progress, the Combined Group re-examines the value of these assets. In addition, goodwill, other indefinite life intangible assets and intangible assets in progress are all subject to an annual impairment test during the second semester of each fiscal year.

This test is performed in order to compare the recoverable amount of an asset or a Cash Generating Unit ("CGU") to its carrying amount.

An asset's or CGU's recoverable amount is the higher of its fair value less costs to sell and its value in use. Recoverable amount is determined for each individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. In that case, recoverable amount is determined for the CGU to which the asset belongs. A CGU is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets, which are, for the Combined Group, "B2C operations", "B2B operations" and "Wholesale services"

The value in use of each asset or group of assets is determined as the discounted value of future cash flows (discounted cash flow method or "DCF") by using a discount rate after tax specific to each asset or group of assets concerned.

The fair value less costs to sell is the amount obtainable from the sale of the asset or group of assets in an arm's length transaction between knowledgeable and willing parties, less costs to sell.

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**2 Significant accounting policies (Continued)**

Where the carrying amount of an asset exceeds its recoverable amount, an impairment loss is recognized in the caption “Depreciation and amortization” in the statement of income. Only impairment loss recognized on assets other than goodwill such as depreciable intangible assets, intangible assets with indefinite useful life and property, plant and equipment may be reversed.

**2.15 Financial assets**

The Combined Group classifies financial assets in four categories: available-for-sale, loans and receivables, held-to-maturity and financial assets at fair value through profit and loss. They are classified as current assets and non-current assets according to IAS 1.

Purchases and sales of all financial assets are accounted for at the settlement date.

**Available-for-sale financial assets**

Available-for-sale financial assets are recognized initially at fair value plus transaction costs that are directly attributable to the acquisition or issue of the financial asset. After initial recognition, they are reported at their fair value. Gains and losses arising from changes in their fair value are recognized directly in equity, until the security is disposed of or is determined to be impaired, at which time the cumulative gain or loss previously recognized in equity is included in the profit or loss for the period.

Available-for-sale financial assets consist mainly of shares in companies that are not included in the combination. Fair value corresponds to the quoted price for listed securities or, for non-listed securities, the group values financial assets at historical cost, less any impairment losses, when a reliable estimate of fair value cannot be made using valuation techniques in the absence of an active market.

When there is objective evidence that available-for-sale assets are impaired, the cumulative impairment loss included in equity is reclassified from equity to income. Objective evidence that an available-for-sale financial asset is impaired includes, among other things, a decrease in the estimated future cash flows arising from these assets, as a result of significant financial difficulty of the issuer, a material decrease in expected future profitability or a prolonged decrease in the fair value of the security. Impairment losses recognized in profit or loss for equity instruments classified as available-for-sale are never reversed through profit or loss.

Available-for-sale financial assets are included in non-current asset unless management intends to dispose of the investment within 12 months of the statements of position date.

**Loans and receivables**

Loans and receivables are recognized initially at fair value plus transaction costs that are directly attributable to the acquisition. After initial recognition, they are measured at amortized cost using the effective interest rate method.

This category mainly includes trade receivables.

If there is objective evidence that an impairment loss has been incurred, the amount of this loss, measured as the difference between the financial asset's carrying value and its recoverable amount is recognized in profit or loss. Impairment losses may be reversed if the recoverable amount of the asset subsequently increases in the future.

**Held-to-maturity financial assets**

Held-to-maturity financial assets are financial assets with fixed or determinable payments and fixed maturity that the Combined Group has a positive intent and ability to hold to maturity. Financial assets that are designated as held-to-maturity are measured at amortized cost, using the effective interest rate method.

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**2 Significant accounting policies (Continued)**

They are reviewed for impairment on an individual basis if there is any indication they may be impaired. The Combined Group does not classify any financial asset in this category.

**Financial assets measured at fair value through profit or loss**

These financial assets are measured at fair value with gains and losses recorded as financial income or expenses.

This category mainly includes:

- assets held for trading which the Combined Group intends to sell in the near future (primarily marketable securities);
- assets voluntarily classified at inception in this category;
- derivative financial assets.

**2.16 Inventories**

Inventories, mainly set-top boxes, other ‘TV boxes’ and technical equipment, are stated at the lower of cost and net realizable value. Cost is determined using the weighted-average method and includes expenditures incurred in acquiring the inventories.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated selling expenses.

**2.17 Cash and cash equivalents**

Cash consists of cash in banks and deposits.

Cash equivalents consist of highly liquid investments not subject to significant changes in value and with an original maturity date of generally less than three months from the time of purchase.

**2.18 Financial Liabilities**

Financial liabilities other than derivative instruments include borrowings under the Senior Facility Agreement (“SFA”), debt related to finance leases, guarantee deposits, advances received, bank overdrafts.

These financial liabilities are measured at amortized cost calculated based on the effective interest rate method according to IAS 39. The effective interest rate is the internal yield rate that exactly discounts future cash flows through the term of the financial liability. Fees, debt issuance and transaction costs are included in the calculation of the effective interest rate over the expected life of the instrument. The accrued interests are included in “Current portion of financial liabilities” in the statement of financial position.

**2.19 Derivatives**

Derivatives are initially recognized at fair value on the date a derivative contract is entered into and are subsequently remeasured at their fair value.

The Combined Group enters into interest rate swaps and caps to manage its interest rate exposure. The objective is to convert variable interest rate financial instruments into fix interest rate financial instruments. These contracts do not qualify as hedges for accounting purposes according to IAS 39, as there was no formal designation and documentation of the hedging relationship at inception. Changes in the fair value of any these derivative instruments are recognized immediately in the statement of income within financial income and expenses.

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**2 Significant accounting policies (Continued)**

**2.20 Employee benefits, provisions and contingent liabilities**

Provisions are recognized when the Combined Group has a legal obligation (legal, regulatory or contractual) or a constructive obligation, as a result of past events, and it is probable that economic benefits in the form of outflow of resources will be required to settle the obligation and the obligation can be reliably estimated. Provisions shall be reviewed at the end of each reporting period and adjusted to reflect the current best estimate.

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity, or a present obligation that arises from past events but is not recognized because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability. A contingent liability is not recognized, but disclosed.

**Employee benefits**

The Combined Group participates in employee benefit plans through defined contribution plans, and defined benefit plans. The Combined Group accounts for pension costs related to defined contribution plans as they are incurred within personnel expenses in the statement of income.

Estimates of the Combined Group's pension and end-of-service benefit obligations are calculated annually, in accordance with the provisions of IAS 19 *Employee Benefits* (IAS 19), with the assistance of independent actuaries, using the projected unit credit method and considering actuarial assumptions including the probable turn-over of beneficiaries, salary increases, the expected average life span, the probable future length of the employees' service and an appropriate discount rate updated annually.

Actuarial gains and losses arising from experience, adjustments and changes in actuarial assumptions are recognized in profit and loss when they are incurred.

**Litigations**

The amount of provisions for litigation is based on the Combined Group's assessment of the level of risk and depends on its assessment of the basis for the claims.

**Restructuring**

Provisions for restructuring costs are recognized when the restructuring plans have been finalized and approved by the Combined Group's management, and when the Combined Group has raised a valid expectation, that it will carry out the plan either by starting to implement the plan or announcing its main features to employees affected by it. These provisions only include direct expenditures arising from the restructuring, notably severance payments, early retirement costs, costs for notice periods not worked and other costs directly linked with the closure of the facilities.

**2.21 Borrowing costs**

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of that asset. According to the Combined Group, it does not take a substantial amount of time to get ready for the intended use because of the incremental deployment of the network. IAS 23 *Borrowing Costs* has consequently no impact on the Combined Financial Statements.

**3 Critical accounting judgements and key sources of estimation uncertainty**

The preparation of the Combined Financial Statements in accordance with IFRS implies that the Group makes a certain number of estimates and assumptions that are realistic and reasonable.

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**3 Critical accounting judgements and key sources of estimation uncertainty (Continued)**

In applying accounting policies during the preparation of the Combined Financial Statements, which are described in Note 2, management is required to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses.

Such estimates are prepared based on the going concern assumption, established using currently available information and the current economic environment. In the actual economic environment, changes in facts and circumstances may result in revised estimates or assumptions, which could affect the financial position, results of operations and cash flows of the Group.

The preparation of these financial statements require management to make estimates and assumptions. Items subject to such estimates and assumptions mainly include:

- *Revenue recognition:* As indicated in Note 2.3, revenue under IAS 18 is measured at the fair value of the consideration received or to be received when the Combined Group has transferred the significant risks and rewards of ownership of a product to the buyer or when service is rendered. With respect to contracts that includes installation, connection and set-up fees for residential customers, significant judgment is required to determine whether the recognition criteria set forth in IAS 18 should be applied separately and whether installation, set-up and connection should be considered a separable service. With respect to service access fees for business clients, management estimates the statistical client lifetime duration and generally recognizes revenue ratably over the contractual engagement period, which is estimated at the inception of the arrangement based on historical information. Accordingly, depending upon how judgment is exercised and how estimates are determined, the timing and amount of revenue recognized could differ significantly.
- *Capitalization of development costs:* the criteria for capitalizing development costs are set out in Note 2.11. Once capitalized, these costs are amortized over the estimated useful lives of the respective products (generally 3 years). The Combined Group must therefore evaluate the commercial and technical feasibility of these development projects and estimate the useful lives of the products resulting from the projects. Should a product fail to substantiate these assumptions, the Combined Group may be required to impair or write off some of the capitalized development costs in the future. Note 13 provides information on the amount of capitalized costs in the combined statement of financial position.
- *Fair value of financial instruments* (see Note 27.3): fair value is determined by reference to the published market price at period end. For financial instruments for which there is no published market price in an active market such as the interest-rate swaps, which the Combined Group currently uses to hedge its interest rate risk, fair value is then estimated based on models that rely on market observable data or by the use of various valuation techniques, such as present value of future cash flows.
- *Recognition of deferred tax assets on unrealized tax loss carryforward* (see Notes 2.8 and 11): deferred tax assets relate primarily to tax loss carryforwards and to deductible temporary differences between reported amounts and the tax bases of assets and liabilities. The assets relating to the tax loss carryforwards are recognized if it is probable that the Combined Group will generate future taxable profits against which these tax losses can be set off. Evaluation of the Group's capacity to utilize tax loss carry-forwards relies on significant judgment. The Combined Group analyzes past events, and the positive and negative elements of certain economic factors that may affect its business in the foreseeable future to determine the probability of its future utilization of these tax loss carryforwards. As of December 31, 2012, 2011 and 2010, in evaluating whether deferred tax assets should be recognized, management considered the weight of one form of negative evidence being a significant amount of cumulative losses in recent years and concluded that it is not probable that future taxable profit will be available against which the unused tax loss carryforward can be utilized. The application of this recognition principle has not resulted in any deferred tax asset recognized as at December 31, 2012, 2011 and 2010.

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**3 Critical accounting judgements and key sources of estimation uncertainty (Continued)**

- *Impairment tests* (see Notes 2.10 and 15): the determination of recoverable amounts of the CGUs assessed in the annual impairment test requires an estimate of their fair value net of disposal costs as well as their value in use. The assessment of the value in use requires assumptions to be made with respect to the operating cash flows of the CGUs as well as the discount rates.

The determination of the value in use is based on assumptions such as the weighted average cost of capital and the growth rate beyond the projection period. These assumptions can vary, which may result in the recoverable amount to decrease below the carrying amount, and therefore, to the recognition of an impairment charge.

As of December 31, 2012, 2011 and 2010, the assumptions used to determine the value in use of the CGUs for which goodwill is allocated were as follows:

<b>CGU “B2C operations”</b>	<b>2012</b>	<b>2011</b>	<b>2010</b>
Length of projection period . . . . .	8 years	8 years	8 years
Weighted average cost of capital . . . . .	7.56%	8.18%	8.02%
Growth rate beyond projection period for terminal value . . . . .	1.75%	1.75%	1.50%
<b>CGU “B2B operations” and “Wholesale”</b>	<b>2012</b>	<b>2011</b>	<b>2010</b>
Length of projection period . . . . .	6 years	6 years	6 years
Weighted average cost of capital . . . . .	9.42%	10.25%	9.77%
Growth rate beyond projection period for terminal value . . . . .	1.00%	1.00%	1.00%

The determination of the value in use has been determined by using cash flow projections based on financial budgets approved by senior management covering a planning period of respectively 6 and 8 years. The relatively long projection period for estimating future cash flows is justified by the long contractual relationship with the customers. The projections of subscribers, revenue, costs, and capital expenditures are based on reasonable and supportable assumptions that represent management’s best estimates. Key assumptions are the estimated number of subscribers and the level of upgraded network infrastructure. The projections are based on both past experience and expected future market penetration with the various products.

**4 Significant events for the period**

**4.1 Year ended December 31, 2012**

**4.1.1 Bond Issuances**

In 2012, Ypso France SAS issued several bonds in order to refinance part of its existing financial debt.

In February 2012, Ypso France SAS issued a €360 million bond. The issuer was Numericable Finance & Co. S.C.A. (an unregulated securitization company in the form of a corporate partnership limited by shares incorporated under the laws of the Grand Duchy of Luxembourg). The proceeds from the notes have been used by Numericable Finance & Co. to fund a buy-back of 100% of the Lending Bank’s (JP Morgan) participation in a loan (the “C-One” Facility Loan) whose sole lender was the bank itself under the Senior Facility Agreement to Ypso France SAS and which allowed Ypso France SAS to reimburse certain facilities under the SFA for €350 million.

The notes mature on February 15, 2019 and bear interest of 12.375%. Interests on the notes are paid semiannually on February 15 and August 15 of each year.

In February 2012, Ypso France SAS also obtained a new Revolving Credit Facility under the SFA for which the maximum amount that can be drawn is €65 million (“Revolving Credit Facility”). The revolving Credit Facility matures in March 2016. The used amount under this facility bears interest equal to Euribor plus 4.5%. The unused amount under this facility, which amounts to €65 million as of December 31, 2012, bears interest equal to a commitment fee of 2.25%.

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**4 Significant events for the period (Continued)**

According to the terms of the September 2011 Senior Facility Amendment and Restatement, maturities of certain lenders' commitments were extended by two years (comprising 50% of A and Capex Facilities and 2/3rd of B & C Facilities). Along with the extension of the maturities, the September 2011 Senior Facility Amendment and Restatement changed the margin level for the extended tranches and put a new set of financial covenants in place. The September 2011 Senior Facility Amendment and Restatement became effective on February 15<sup>th</sup>, 2012.

In October 2012, Ypso France SAS issued two other bonds for respectively €225 million and €275 million through the same issuer, Numericable Finance & Co. S.C.A. The proceeds from the notes have been used by Numericable Finance & Co. to fund a buy-back of 100% of the Lending Bank's (JP Morgan) participation in two new loans, the "C-Two A Facility Loan" and the "C-Two B facility Loan", whose sole lender was the Lending Bank itself under the Senior Facility Agreement to Ypso France SAS and which allowed Ypso France SAS to reimburse certain facilities under the SFA for €490 million.

The "C-Two A facility" amounts to €225 million. It matures on February 15, 2019 and bears a fixed interest rate of 8.75% per annum. Interests are paid semiannually on February 15 and August 15 of each year, commencing on February 15, 2013.

The "C-Two B facility" amount to €275 million. It matures in October 2018 and bears a floating interest rate equal to three-month EURIBOR plus 7.85% per annum. Interests are paid quarterly on January 15, April 15, July 15 and October 15 of each year, commencing on January 15, 2013.

Ypso France SAS paid €55 million in fees in connection with the implementation of these new facilities (C-One Facility, C-Two A Facility and C-Two B Facility) and the relative amendments to the Senior Facility Agreement. This amount includes:

- Bond issuance costs of €30.2 million which are amortized over the length of the notes using the effective interest rate method (this represents an additional finance cost of €3.8 million in 2012 as disclosed in Note 10);
- Waiver fees of €17.4 million which are recorded in "Other financial expense" in the combined statement of income for the period ended December 31, 2012;
- Advisory fees of €7.4 million which are recorded in "Other operating expenses" in the combined statement of income for the period ended December 31, 2012.

**4.1.2 Purchase of the network of Nice**

In April 2012, the Combined Group signed an agreement with the city of Nice in order to purchase the cable network of Nice for a value of €20 million.

The purchase price repayment is scheduled as follows:

- €2.5 million were paid in July 2012 and €2.5 million in January 2013;
- The remaining €15 million are payable over 20 years (€0.75 million each year from 2013 to 2032) with interest of 4%.

**4.1.3 Tax audits**

During the third quarter of 2012, the tax audits mentioned in Note 11.5 have been extended to fiscal year 2010. In the meantime, tax penalties related to the fiscal years 2005 to 2009 have been reduced.

As of December 31, 2012, the amount of provision recognized in relation to these tax audits has not been adjusted as management believes that the financial risk related to penalties for fiscal year 2010 will represent the same amount as the reductions notified by the administration concerning the penalties for fiscal years 2005 to 2009.

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**4 Significant events for the period (Continued)**

**4.2 Year ended December 31, 2011**

**4.2.1 Disposal of Coditel Belgium and Coditel Luxembourg**

In 2010, the management of Ypso France engaged in the sale of two subsidiaries: Coditel Belgium and Coditel Luxembourg. On May 19, 2011, the Group thus entered into a share purchase agreement with Altice, Deficom and Apax Partners to dispose of its activities in Belgium and Luxembourg. As a result, all of the outstanding shares in Coditel Belgium and Coditel Luxembourg were transferred on June 30, 2011 to Coditel Holding S.A., an entity based in Luxembourg, owned by Altice, Deficom and Apax MidMarket upon completion of the transaction. The proceeds from the sale of Coditel amounted to approximately €369 million.

In accordance with IFRS 5:

- the results of Coditel Belgium and Coditel Luxembourg are presented separately in the statements of income under “Net income resulting from discontinued operations” for all the periods presented;
- the cash flows from Coditel Belgium and Coditel Luxembourg are presented separately in the 2010 and 2011 statements of cash flows under “Net cash flow from discontinued operations” for all the periods presented.

The impact of the application of IFRS 5 is further detailed in Note 30.

**4.2.2 Restructuring**

In 2011, the merger between Altitude Telecom and Completel SAS led to a restructuring plan involving approximately 135 persons.

The costs related to this plan amounted to €4 million in 2011 and an additional provision of €4 million was recorded at December 31, 2011 in order to face all the expenses that the Combined Group planned to bear in 2012.

**4.3 Year ended December 31, 2010**

**4.3.1 Purchase of Altitude Telecom**

On December 29, 2010, the Combined Group acquired 100% of the shares of Altitude Telecom, a network operator mainly located in the West of France. The price of the transaction was approximately €58 million and was mainly financed through a new debt under the SFA, the “C Facility”, for an amount of €45 million.

This operation generated an additional goodwill of €49 million in 2010.

**4.3.2 Tax audits**

As explained in Note 11.5, certain subsidiaries of the Combined Group (Ypso France SAS, NC Numericable SAS, Numericable SAS, Est Videocommunication and Completel SAS) are subject to tax audits by the French tax authorities.

In 2010, these tax audits have been extended from December 31, 2007 to December 31, 2009.

**5 Segment information**

As explained in Note 2.7, the Combined Group identified three operating segments which are:

- B2B operations
- B2C operations
- Wholesale services

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**5 Segment information (Continued)**

The following tables provide, for each period presented, the contribution of each segment to the Combined Statements of Income (from “Revenue” to “Operating income before depreciation and amortization”).

Intra-segments sales have been eliminated under the column “Eliminations”.

<u>FY 2012</u>	<u>B2C</u>	<u>B2B</u>	<u>Wholesale</u>	<u>Eliminations</u>	<u>FY 2012 Total</u>
	(in thousands of euros)				
<b>Revenue</b> . . . . .	<b>832,568</b>	<b>324, 506</b>	<b>211,476</b>	<b>(66,125)</b>	<b>1,302,425</b>

<b>Total revenues . . . . .</b>	<b><u>1,302,425</u></b>	<b><u>1,306,856</u></b>	<b><u>1,208,695</u></b>

**7 Purchases and subcontracting services**

Purchases and subcontracting services are primarily comprised of the following:

	December 31, 2012	December 31, 2011	December 31, 2010
	(in thousands of euros)		
TV Content, Internet and Telephony costs . . . . .	(332,853)	(345,603)	(324,751)
Outsourcing and purchased services . . . . .	(90,752)	(91,908)	(70,129)
Advertising fees . . . . .	(30,120)	(30,993)	(22,197)
Fees paid to other third parties . . . . .	(31,936)	(31,962)	(31,619)
Royalties and license fees paid . . . . .	(12,089)	(12,810)	(14,031)
Rights of way paid . . . . .	(15,316)	(15,983)	(14,241)
Rental and leasehold charges . . . . .	(25,790)	(26,224)	(20,900)
Energy . . . . .	(23,938)	(22,789)	(19,868)
Bad debt expense . . . . .	(9,173)	(10,048)	(9,993)
Postal expenses . . . . .	(4,378)	(4,676)	(5,158)
Transportation expenses . . . . .	(4,286)	(4,643)	(3,155)
Repair and maintenance expenses . . . . .	(11,911)	(13,321)	(10,577)
Miscellaneous operating expense . . . . .	(9,579)	(10,736)	(11,184)
<b>Purchases and subcontracting services . . . . .</b>	<b><u>(602,121)</u></b>	<b><u>(621,696)</u></b>	<b><u>(557,803)</u></b>

**8 Other operating income**

Other operating income is primarily comprised of the following:

	December 31, 2012	December 31, 2011	December 31, 2010
	(in thousands of euros)		
Own work capitalized <sup>(a)</sup> . . . . .	82,217	64,002	52,537
Proceeds from sale of assets . . . . .	3,817	5,042	8,142
Other <sup>(b)</sup> . . . . .	3,195	11,368	3,645
<b>Other operating income . . . . .</b>	<b><u>89,229</u></b>	<b><u>80,412</u></b>	<b><u>64,324</u></b>

(a) Own work capitalized relates to network projects staffed by in-house employees resulting from increased upgrade activity of the cable footprint.

(b) In 2011, a fine of €10 million was paid by France Telecom as a result of a civil action enforced by the Court of Paris in March 2011 due to restrictive trade practices on the ADSL market in 2001 and 2002.

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**9 Other operating expenses**

Other operating expenses are primarily comprised of the following:

	December 31, 2012	December 31, 2011	December 31, 2010
	(in thousands of euros)		
Net book value of assets sold . . . . .	(7,382)	(10,003)	(11,500)
Fees paid in connection with refinancing . . . . .	(7,372)	(3,526)	(1,050)
Management fees paid to our shareholders . . . . .	(2,424)	(11,509)	(14,651)
Miscellaneous operating expense . . . . .	—	(39)	(133)
<b>Other operating expense . . . . .</b>	<b><u>(17,178)</u></b>	<b><u>(25,077)</u></b>	<b><u>(27,334)</u></b>

Management fees have been paid to our shareholders, Altice, Cinven and Carlyle, in relation to certain management, financing and advisory services provided.

**10 Finance costs, net**

Finance costs, net as of December 31, 2012, December 31, 2011 and 2010 can be analyzed as follows:

	December 31, 2012	December 31, 2011	December 31, 2010
	(in thousands of euros)		
Interest income received on cash and cash equivalents . . . . .	106	479	635
Other interest income . . . . .	4,220	729	173
<b>Interest Income . . . . .</b>	<b><u>4,326</u></b>	<b><u>1,208</u></b>	<b><u>808</u></b>
Change in fair value of interest rate derivatives . . . . .	—	26,982	48,468
Interest expense on financing determined using the effective interest rate . . . . .	(183,057)	(204,326)	(223,530)
<b>Interest relative to gross financial debt . . . . .</b>	<b><u>(183,057)</u></b>	<b><u>(177,343)</u></b>	<b><u>(175,062)</u></b>
Other financial expenses . . . . .	(32,699)	(9,883)	(4,162)
<b>Finance costs, net . . . . .</b>	<b><u>(211,430)</u></b>	<b><u>(186,019)</u></b>	<b><u>(178,416)</u></b>

As of December 31, 2012, other financial expenses mainly included:

- Waiver fees of €17.4 million paid in connection with the refinancing of the debt;
- Amortization expense of €3.8 million calculated using the effective interest method related to fees paid in connection with the implementation of the new facilities (C-One Facility, C-Two A Facility and C-Two B Facility).
- Provisions for financial risks of €1.9 million.

As of December 31, 2012, other interest income mainly includes a first payment of €2.8 million received regarding the Claim with Lehman Brothers following the bankruptcy of Lehman Brothers in September 2008 (see Note 27.3).

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**11 Income tax**

**11.1 Income tax expense**

Income tax expense is comprised of the following:

	December 31, 2012	December 31, 2011	December 31, 2010
	(in thousands of euros)		
Current income tax expense . . . . .	(2,486)	(13,387)	(3,841)
Deferred income tax expense . . . . .	—	—	—
<b>Income tax expense . . . . .</b>	<b><u>(2,486)</u></b>	<b><u>(13,387)</u></b>	<b><u>(3,841)</u></b>

**11.2 Reconciliation between the effective tax rate and the theoretical tax rate**

	December 31, 2012	December 31, 2011	December 31, 2010
	(in thousands of euros)		
Net income (loss) before tax . . . . .	87,416	82,385	30,401
Less: Share in net income (loss) of equity affiliates . . . . .	199	309	(368)
	<u>87,615</u>	<u>82,694</u>	<u>30,033</u>
Corporate tax rate in France . . . . .	34.43%	34.43%	34.43%
Income tax expense calculated at 34.43% . . . . .	<b><u>(30,166)</u></b>	<b><u>(28,471)</u></b>	<b><u>(10,340)</u></b>

**Reconciliation of income tax expense**

Effect of revenue that is exempt from taxation and effect of expenses that are not deductible in determining taxable profit <sup>(1)</sup> . . . . .	(13,830)	(8,696)	24,724
Effect of unused tax losses and tax offsets not recognized as deferred tax assets . . . . .	41,083	23,731	(18,438)
Research tax credit (commonly known as the "CIR") . . . . .	420	54	322
Effect of other differences . . . . .	8	(3)	(107)
<b>Income tax expense recognized in profit or loss . . . . .</b>	<b><u>(2,486)</u></b>	<b><u>(13,387)</u></b>	<b><u>(3,840)</u></b>
Effective tax rate <sup>(2)</sup> . . . . .	<u>2.84%</u>	<u>16.19%</u>	<u>12.79%</u>

(1) For fiscal year 2012, amount mainly represents non-deductible interest expenses of €9.9 million as a result of the thin capitalization rules.

(2) The decrease in the effective tax rate from fiscal year 2011 to fiscal year 2012 is mainly due to the increase in the provision for tax audits (see Note 11.5) in 2011 of €10 million being recorded in income tax expense.

The tax rate used for the 2012, 2011 and 2010 reconciliations above is the corporate tax rate of 34.43% payable by corporate entities in France on taxable profits under tax law in that jurisdiction.

**11.3 Current tax assets and liabilities**

Tax refund receivables were not material as of December 31, 2012, December 31, 2011 and 2010.

The income tax payable is classified in "Current tax liabilities" and amounts to €2,604 thousand, €3,448 thousand and €194 thousand as of December 31, 2012, 2011 and 2010 respectively.

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**11 Income tax (Continued)**

**11.4 Unrecognized deferred tax assets**

Aggregate unused loss carryforwards at December 31, 2012 amounted to €2,302 million representing a tax asset of €790 million. The tax asset for loss carryforwards was not recognized in the financial statements as its recovery depends on future earnings, which are uncertain.

The total net tax loss carryforward breaks down as follows:

	December 31, 2012	December 31, 2011	December 31, 2010
	(in thousands of euros)		
Ypso France and its subsidiaries . . . . .	1,852,028	1,846,090	1,819,782
Altice B2B France and its subsidiaries . . . . .	402,544	448,713	492,449
Ypso Holding Lux and Altice B2B Lux . . . . .	47,785	235,890	235,328
<b>Total tax loss carryforwards . . . . .</b>	<b>2,302,357</b>	<b>2,530,693</b>	<b>2,547,559</b>
<b>Unrecognized deferred tax assets . . . . .</b>	<b>790,212</b>	<b>859,028</b>	<b>864,864</b>

Total tax loss carryforward includes a loss contested by the tax authorities (€56 million as of December 31, 2012).

**11.5 Tax audits**

Certain subsidiaries of the Combined Group, Ypso France SAS, NC Numericable SAS, Numericable SAS, Est Videocommunication and Completel SAS are subject to a tax audit by the French tax authorities for fiscal years ended from December 31, 2007 to December 31, 2010. As a result, a tax contingency for an amount of €25.1 million is recognized as of December 31, 2012 (€27 million as of December 31, 2011 and €15.7 as of December 31, 2010).

**12 Goodwill**

	December 31, 2012	December 31, 2011	December 31, 2010
	(in thousands of euros)		
<b>Carrying amount, net:</b>			
Balance as of the beginning of the year . . . . .	1,458,638	1,458,585	1,618,485
Additional goodwill recognized during the period <sup>(1)</sup> . . . . .	48	53	50,295
Disposal of Coditel . . . . .	—	—	(210,195)
<b>Balance as of the end of the year<sup>(2)</sup> . . . . .</b>	<b>1,458,686</b>	<b>1,458,638</b>	<b>1,458,585</b>

(1) In 2010, the additional goodwill of €50.3 million is mainly due to the acquisition of Altitude Telecom (as disclosed in the significant events) for €49.4 million.

(2) In January 2012, the Group acquired the shares of Sequalum Participation that were held by Eiffage (15.78%). After this operation, the Group owned 95% of Sequalum Participation. The purchase price was €6 thousand for a negative equity value of (€41) thousand. Thus, this operation resulted in the recognition of an additional goodwill of €48 thousand.

The Combined Group is the result of a series of acquisitions.

**Numericable Group**

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**13 Other intangible assets (Continued)**

Usage rights represent the majority of the “usage rights, patents and licenses” balances. They reflect the rights to use the civil engineering installations and infrastructure built by the historical operator, France Telecom.

The application of this principle had the following impacts on the 2012 combined statement of financial position:

- Recognition of the net book value of €17.2 million classified in “Other intangible assets” (€26.6 million of investments less €9.5 million of grants received at December 31, 2011);
- Recognition of €26.4 million of capital expenditures in 2012 in “Usage rights, patents and licenses” (€38.0 million of investments less €11.5 million of grants received in 2012).

In addition, €26.4 million of capital expenditures have been incurred in relation to the public service delegation arrangement with the department of Hauts-de-Seine (Délégation de Service Public 92) and are classified in investing activities in the combined statements of cash flows.

**15 Impairment test**

**15.1 Allocation of goodwill to the cash-generating units ("CGU")**

In accordance with IAS 36 *Impairment of assets* ("IAS 36"), goodwill has been allocated to two CGUs. The first CGU, "B2C operations" includes the operational subsidiaries from the Ypso group, namely Numericable, NC Numericable and Est Videocommunication. The second CGU, "B2B operations", corresponds to the main operating entity of the Altice group, Completel SAS.

**15.2 Key assumptions used to determine the recoverable amount of the CGUs**

The impairment test of goodwill is done based on the respective cash generating units defined above. In accordance with IAS 36 *Impairment of Assets*, the impairment test is performed by comparing the

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**15 Impairment test (Continued)**

carrying amount with the recoverable amount. The recoverable amount is determined based on the value in use using a discounted cash flow approach.

The determination of the value in use has been established by using cash flow projections based on financial budgets approved by senior management covering a planning period of respectively 8 years (CGU B2C) and 6 years (CGU B2B). The relatively long projection period for estimating future cash flows is justified by the long contractual relationship with the customers.

The projections of subscribers, revenue, costs, and capital expenditures are based on reasonable and supportable assumptions that represent management's best estimates. Key assumptions are the estimated number of subscribers and the level of upgraded network infrastructure. The projections are based on both past experience and expected future market penetration with the various products.

As mentioned in Note 3, the determination of the value in use is based on assumptions such as the weighted average cost of capital and the growth rate beyond the projection period. These assumptions can vary, which may result in the recoverable amount to decrease below the carrying amount, and therefore to the recognition of an impairment charge.

No impairment has been recognized for any of the periods presented.

The determination of the value in use is based on the following estimates as of December 31, 2012, 2011 and 2010:

<b>CGU "B2C operations"</b>	<b>2012</b>	<b>2011</b>	<b>2010</b>
Length of projection period . . . . .	8 years	8 years	8 years
Discount rate applied to the cash flow projections . . . . .	7.56%	8.18%	8.02%
Growth rate beyond ("GTP") projection period for terminal value . . .	1.75%	1.75%	1.50%

In terms of sensitivity of recoverable amounts, a change of plus or minus 0.25% in the discount rate would decrease or increase the recoverable amount by approximately €145 million. Likewise, a change of plus or minus 0.25% in the GTP rate would increase or decrease the recoverable amount by approximately €100 million.

As of December 31, 2012, the amounts by which the key assumptions would have to change for the change to result in the recoverable amount equaling the carrying amount are as follows:

- WACC increase from 7.56% to 10.60%;
- GTP rate decrease point from 1.75% to – 3.62%;
- Gross margin fall by 10.1% from an average gross margin of 49.4% to an average gross margin of 39.3%.

<b>CGU "B2B operations"</b>	<b>2012</b>	<b>2011</b>	<b>2010</b>
Length of projection period . . . . .	6 years	6 years	6 years
Discount rate applied to the cash flow projections . . . . .	9.42%	10.25%	9.77%
Growth rate beyond projection period for terminal value . . . . .	1.00%	1.00%	1.00%

In terms of sensitivity of recoverable amounts, a change of plus or minus 0.25% in the discount rate would decrease or increase the recoverable amount by roughly €60 million. Likewise, a change of plus or minus 0.25% in the GTP rate would increase or decrease the recoverable amount by approximately €40 million.

As at December 31, 2012, the amounts by which the key assumptions would have to change where the change would result in the recoverable amount equaling the carrying amount are as follows:

- WACC increase from 9.42% to 18.75%;

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**15 Impairment test (Continued)**

- GTP rate decrease from 1% to – 26.25%;
- Gross margin fall from an average gross margin of 38.9% to an average gross margin of 24.4%.

**16 Investment in associates**

The Combined Group exercises significant influence over Alsace Connexia Participation, an associate accounted for under the equity method of accounting. Alsace Connexia Participation was initially owned 38.14% by Ypso France, 38.15% by LD Collectivités and 23.71% by Sogetrel Réseaux. In 2009, LD Collectivités bought the equity interest held by Sogetrel Réseaux and now holds a controlling interest (61.86%) in Alsace Connexia Participation.

Alsace Connexia Participation owns a 70% stake in Alsace Connexia, which has been granted a public service concession by the regional authority of Alsace to design, build, fund, operate and market telecommunications infrastructure in the region over a 15-year period. The concession contract took effect on February 3, 2005.

The following tables provide information on the net assets and operating results of Alsace Connexia Participation:

	December 31, 2012	December 31, 2011	December 31, 2010
	(in thousands of euros)

**17 Other current and non-current financial assets**

	Current			Non-current		
	December 31, 2012	December 31, 2011	December 31, 2010	December 31, 2012	December 31, 2011	December 31, 2010
	(in thousands of euros)					
Interest-rate derivatives . . . . .	—	—	—	5	313	2,380
Investments in entities that are not comprised in the combination classified as available-for-sale . .	—	—	—	35	52	71
Other financial assets	4,034	42	249	6,791	7,396	4,920
<b>Total financial assets</b>	<b>4,034</b>	<b>42</b>	<b>249</b>	<b>6,831</b>	<b>7,761</b>	<b>7,371</b>

As disclosed in Note 27.3, the Combined Group enters into interest rate caps to manage its interest rate exposure but these derivatives do not qualify as hedges for accounting purposes according to IAS 39. Accordingly, changes in the fair value of any of these derivative instruments are recognized immediately

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**17 Other current and non-current financial assets (Continued)**

in the statement of income as part of finance costs, net as these interest-rate derivatives are directly related to the application of our interest rate risk management policy even though they do not qualify for hedge accounting under IAS 39.

Such interest-rate derivatives are presented as non-current financial assets because they are not held primarily for trading purposes, designated under a non-qualifying hedge accounting relationship.

In 2009, the Combined Group entered into interest rate options, referred to as caps in order to compensate if interest rates rise above a predetermined rate (strike rate). Caps are measured at their fair values and classified as a non-current financial asset for €5 thousand as of December 31, 2012 and €313 thousand as of December 31, 2011.

The investments in entities not comprised in the combination and classified as available-for-sale financial assets are related to equity interests held by the Combined Group in entities not comprised in the combination such as Cable Toulousain de Videocom, Médiamétrie Expansion, Rennes Cité Média and TV7 Bordeaux. These companies are not included in the combination due to the Combined Group's lack of control or influence over them.

As at December 31, 2012, other financial assets include €4 million of cash pledged in the context of the DSP 92 (see Note 2.11). Remaining amounts correspond to deposits made by the group (building leases, ...).

**18 Inventories**

	December 31, 2012	December 31, 2011	December 31, 2010
	(in thousands of euros)		
Gross value . . . . .	46,808	40,033	35,035

<b>Trade receivables and other receivables, net . . . . .</b>	<b><u>417,371</u></b>	<b><u>362,981</u></b>	<b><u>357,090</u></b>

Trade receivables disclosed above are classified as loans and receivables and are therefore measured at amortized cost. Due to their short-term maturity, fair value and amortized cost approximate the

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**19 Trade receivables and other receivables (Continued)**

nominal amount of trade receivables. Trade receivables are primarily from our B2C customers, a large number of customers, spread across diverse geographical areas.

*B2C Customers*

The average credit term for residential customers is 5 days. No interest is charged on outstanding balances. As of December 31, 2012, the Combined Group has reserved 81% of the B2C customers receivables that were over 90 days past due. This reserve was estimated considering that historically only 19% of receivables that are over 90 days past due are recoverable. Allowances for doubtful accounts are recognized against trade receivables that are between 0 and 90 days past due based on estimated uncollectible amounts which are determined based upon to the counterparty's past default experience and an analysis of the counterparty's current financial position.

*B2B Customers*

As at December 31, 2012, the Combined Group has reserved 60% of the B2B customers' receivables that were over 90 days past due based on historical experience evidencing that 40% of receivables that are past due beyond 90 days are collectable.

Trade receivables disclosed above include amounts (see below for aged analysis) that are past due at the end of the reporting period but against which the Combined Group has not recognized an allowance for doubtful accounts because there has not been a significant change in credit quality and the amounts are still considered collectable. The Combined Group does not hold any collateral or other credit enhancements against these balances nor does it have a legal right of offset against any amounts owed by the Combined Group to the counterparty.

<b>Ageing of past due receivables</b>	<b>December 31, 2012</b>	<b>December 31, 2011</b>	<b>December 31, 2010</b>
	(in thousands of euros)		
Not due . . . . .	121,232	101,927	73,809
0-90 days . . . . .	62,825	43,983	53,739
>90 days . . . . .	88,808	102,329	114,831
<b>Total . . . . .</b>	<b><u>272,864</u></b>	<b><u>248,239</u></b>	<b><u>242,379</u></b>

The concentration of credit risk is limited due to the customer base being large and unrelated. There is no customer which represents more than 5% of the total balance of trade receivables.

Change in valuation allowance for trade receivables is as follows:

<b>Cash and cash equivalents presented in the combined statements of cash flows . . . . .</b>	<b><u>7,996</u></b>	<b><u>40,580</u></b>	<b><u>34,553</u></b>

As of December 31, 2012, 2011 and 2010, the Combined Group had no cash equivalents.

**21 Invested equity**

As of December 31, 2012, 2011, 2010 and January 1, 2010, the invested equity consisted of the sum of the individual share capital amounts and consolidated reserves of the Ypso and Altice B2B sub-groups.

**21.1 Dividends**

During the years ended December 31, 2012, 2011 and 2010, the Combined Group did not distribute dividends to its shareholders. The Combined Group does not expect to distribute dividends in 2013.

**21.2 Capital risk management**

The Combined Group manages its capital to ensure that entities in the Combined Group will be able to continue as a going concern while maximizing the return to stakeholders through the optimization of debt and equity balances, especially through early repayments of debt. The Combined Group's overall strategy remains unchanged from 2010 to 2012.

The capital structure of the Combined Group consists of net debt (financial liabilities as detailed in Note 22 offset by cash and cash equivalents) and equity of the Combined Group (including reserves, retained earnings and non-controlling interests as detailed above and in the combined statements of changes in equity).

The schedule of financial liabilities under the *Senior Facility Agreement* has been modified as a result of the renegotiations that occurred in July and August 2013 as described in note 32.

### 22.1 Financial liabilities under Senior Facility Agreements

#### Senior Facility agreement granted to Ypso

The Combined Group entered into a Senior Facility Agreement dated June 6, 2006 (as amended and restated on July 18, 2006, July 28, 2006 and March 2, 2007, as amended by a letter dated June 24, 2008, as amended and restated on December 9, 2009 and September 8, 2011 and as amended by a letter dated January 12, 2012 and accepted by the Agent on January 24, 2012 and amended most recently by a letter dated September 25, 2012 and accepted by the Agent on October 12, 2012) with BNP Paribas, CALYON, Lehman Brothers Bankhaus AG, London Branch and Morgan Stanley Bank International Limited, as the Mandated Lead Arrangers, BNP Paribas as Agent and Security Agent and others lenders (the “Senior Facility Agreement” or the “SFA”). In addition, certain subsidiaries of the Combined Group are guarantors under the SFA, each guaranteeing, subject to certain limitations, the obligations of the other borrowers and guarantors under the SFA.

The initial amount available under the SFA was €3,225 million. The outstanding balance on this loan amounts to €2,347 million as of December 31, 2012.

The SFA contains financial covenants, which may affect the interest rates to be paid by the Combined Group as well as the applicable margins on the SFA (see details below).

#### Senior Facility agreement granted to Altice

The Combined Group entered into a Senior Facility Agreement dated August 29, 2007 (as amended and restated on March 12, 2008, on August 12, 2008, on September 30, 2009, on December 10, 2010 and on February 28, 2011) with CALYON as Mandated Lead Arranger and Security Agent and others lenders (the “Senior Facility Agreement” or the “SFA”). In addition, certain subsidiaries of the Combined Group are guarantors under the SFA, each guaranteeing, subject to certain limitations, the obligations of the other borrowers and guarantors under the SFA.

The initial amount available under the SFA was €551 million. The outstanding balance on this loan amounts to €453 million as of December 31, 2012.

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**22 Financial liabilities (Continued)**

The SFA contains financial covenants, which may affect the interest rates to be paid by the Combined Group as well as the applicable margins on the SFA (see details below).

**Refinancing of the debt in 2012**

In 2012, as disclosed in the Significant Events note, the Group issued three bonds in order to refinance part of its existing short-term debt under the SFA. The issuer of the bonds is Numericable Finance & Co. S.C.A. (an unregulated securitization company in the form of a corporate partnership limited by shares incorporated under the laws of the Grand Duchy of Luxembourg).

The proceeds from the notes have been used by Numericable Finance & Co. to fund three new loans issued by the Lending Bank (JP Morgan) under the Senior Facility Agreement to Ypso France SAS:

- a C-One facility of €360 million;
- a C-Two A facility of €225 million;
- a C-Two B facility of €275 million.

In 2012, the September 2011 Senior Facility Amendment and Restatement became effective. This Amendment and Restatement split all the Facilities in two, with non-extended and extended facilities referred to Facility I and Facility II respectively. Extended and non-extended facilities have different maturity dates (extended facilities maturities are two year later than the ones of the non-extended maturities) and a different pricing (see table below).

Facility	Maturity
A (Recap) I . . . . .	June 15, 2013
A (Recap) II . . . . .	June 6, 2015
A (Acq) I . . . . .	June 15, 2013

B (Recap) I . . . . .	June 15, 2014
B (Recap) II . . . . .	June 6, 2016
B (Acq) I . . . . .	June, 15, 2014
B (Acq) II . . . . .	June 6, 2016
C (Recap) I . . . . .	December 31, 2015
C (Recap) II . . . . .	December 31, 2017
C (Acq) I . . . . .	December 31, 2015
C (Acq) II . . . . .	December 31, 2017
Capital Investment I . . . . .	June 15, 2013
Capital Investment II . . . . .	June 6, 2015
Additional Revolving Facility . . . . .	No earlier than March 31, 2016

**Guarantees and Security**

The Term Facilities are guaranteed irrevocably and unconditionally on a joint and several bases by each guarantor under the Senior Facility Agreement, subject to certain legal limitations.

The Term Facilities are secured by various security interests, such as a pledge over the shares of Ypso France SAS and certain of its subsidiaries.

**Covenants**

The availability of the senior facilities mentioned in Note 22.1 is not dependent upon the Combined Group's credit ratings but rather is conditioned upon its compliance with a financial covenant related to the capacity of the Combined Group to generate sufficient cash to repay its net debt. Accordingly, the Senior Facility Agreement contains customary operating and financial covenants, subject to certain

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**22 Financial liabilities (Continued)**

agreed exceptions, including covenants restricting the ability of the Combined Group to, among other things:

- amalgamate, merge or consolidate with any other person or be the subject of any reconstruction or materially change the nature of the business of the Combined Group as a whole;
- sell, transfer, lease out, lend or otherwise dispose of any of its assets or all or any part of its undertaking or agree to do so;
- enter into a material transaction that would not be on an arm's length basis and for full market value;
- make acquisitions or investments;
- open or maintain an account with a bank or other financial institution providing like services other than a bank or credit institution entitled to engage in banking transactions in France, Belgium or Luxembourg;
- allot or issue shares or securities;
- change the end of its fiscal year.

The Senior Facility Agreement also requires the Combined Group to comply with the following financial covenants:

- a maximum ratio of consolidated total net borrowings to annualized EBITDA;
- a minimum ratio of consolidated cash flows to consolidated total debt service;
- a minimum ratio of annualized EBITDA to consolidated total net cash interest payable; and
- a maximum level of capital expenditures per fiscal year.

Compliance is tested quarterly and audited annually as of December 31 when we release our consolidated financial statements under French GAAP. Since the SFA was established, the Combined Group has complied every year with the financial covenants included in the agreement.

As required under the SFAs, the covenants are based on financial measures that are determined in accordance with French GAAP and not IFRS and, as a result, the definition of "Annualized EBITDA" set forth in the SFA is different from the EBITDA as it appears in the combined statement of income in accordance with IFRS.

Annualized EBITDA is calculated by adding EBITDA for the last two quarters and multiplying the result by two, and thus cannot be reconciled with EBITDA disclosed in the financial statements prepared under French GAAP.

**22.2 Perpetual subordinated notes ("TSDI")**

In 2006, €23.7 million of perpetual subordinated notes ("Titres Subordonnés à Durée Indéterminée" or "**TSDI**") were issued by a subsidiary of the Combined Group, NC Numericable to a single subscriber, the GDF Suez Group (Vilorex) (excluding capitalized interest). The proceeds of this borrowing are to be used for financing the construction of connectors in towns in the southern part of the SIPPEREC ("Syndicat Intercommunal de la Périphérie de Paris pour l'Electricité et les Réseaux de Communication"), which is a group of cities located in the Paris metropolitan area. The perpetual subordinated notes bear interest at a rate of 7% per annum. Interest on the notes is capitalized. Interest amortization is conditional. The total accrued interest payable on the notes amounted to €11.6 million and €9.2 million as of December 31, 2012 and 2011, respectively, and has been classified as non-current in the table above in Note 22.

The instrument includes a contractual obligation to deliver cash (including interest) when cash inflows arising from revenues allow the Combined Group to reimburse the notes according to the terms of the

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**22 Financial liabilities (Continued)**

contract. Pursuant to this contract, the payment of interest and the reimbursement of the debt are contingent upon the level of cash inflows generated; however, the Combined Group does not have an unconditional right to avoid delivering cash. As a consequence, the instrument is recognized as a financial liability at amortized cost according to IAS 32.

**22.3 Deposits received from customers**

Deposits received from customers amount to €44.5 million, €42.9 million and €50.7 million as of December 31, 2012, 2011 and 2010 respectively. These deposits are made when customers receive equipment from the company and are reimbursed when customers terminate their subscriptions only if the customers have paid all outstanding invoices and have returned the equipment. For each year end, the guarantee deposits were recorded as items due within more than one year.

**22.4 Other financial liabilities**

As of December 31, 2012, other financial liabilities are mainly comprised of the following:

- Debt of €128,962 thousand owed by Ypso Holding Lux S.a.r.l. to the shareholders. This subordinated shareholder debt is planned to be entirely reimbursed when the shares of the Company are admitted for negotiations on Euronext Paris.
- Debt of €2,374 thousand owed by Numericable to several banks (mainly *Caisse d'Epargne d'Alsace-Lorraine*).

**23 Provisions and contingent liabilities**

The nature and change in provisions for the years ended December 31, 2012, 2011 and 2010 are as follows:

Provisions are primarily non-current as of December 31, 2012, 2011 and 2010.

The Combined Group is involved in legal and administrative proceedings that have arisen in the ordinary course of business.

A provision is recorded by the Combined Group when there is a sufficient probability that such disputes will lead to costs that the Combined Group will bear and when the amount of these costs can be reasonably estimated. Certain companies of the Combined Group are involved in a certain number of disputes in the ordinary activities of the Combined Group. Only the most significant disputes and proceedings in which the Combined Group is involved are described below.

Other than as discussed below, the Combined Group does not expect the legal proceedings in which it is involved, or with which it has been threatened, to have a material adverse effect on its business or on its combined financial position.

**23.1 Tax matters**

The French tax authorities have conducted audits on various companies of the Combined Group since 2005 with respect to the VAT rates applicable to our multiple-play offerings. Under French tax law, television services are subject to a 5.5% VAT rate, which increased to 7% as of January 1, 2012, while Internet and telephony services are subject to a 19.6% VAT rate. When marketing multiple-play offerings, the Combined Group allocates a price reduction compared to the price the Group would charge for its services on a stand-alone basis. This price reduction is primarily applied to its Internet and telephony services, because such services are newer products. As a result, the VAT charged to the subscribers was lower than the VAT that would have been charged if the Combined Group had deemed the price reduction to apply primarily to the television services portion of our packages.

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**23 Provisions and contingent liabilities (Continued)**

The French tax authorities assert that these price reductions should have been computed pro rata of the stand-alone prices of each of the services (television, broadband Internet, fixed and/or mobile telephony) included in the multiple-play packages of the Group and proposed adjustments for fiscal years 2006 to 2010.

The Combined Group has formally contested the tax adjustments for fiscal years 2006 to 2009. The Combined Group asked the Ministry of Finance in December 2011 for a settlement of all the rectifications proposed by the Administration for all the companies of the Combined Group for fiscal years 2006 to 2009. Further to these requests, the tax authorities revised downwards the amounts of rectifications for fiscal years 2008 and 2009 by including in its calculation a limitation based on the 50/50 rule applicable on the composite VAT which was effective from 2008 to 2010. The new amounts of rectifications, amounting to €17.3 million (except penalties of 40%) for fiscal years 2006 to 2009, were communicated to the Combined Group at the end of August 2012.

Furthermore, in 2012, the Tax authorities have also initiated a tax audit of fiscal year 2010, in the same matters and scope as the audits described above. These procedures gave rise to proposed adjustments at the end of June 2013, calculated in the same manner as for fiscal years 2007 to 2009, for a total amount of €6.1 million (except penalties of 40%). The Combined Group contested the proposed assessments at the end of August 2013.

The Tax authorities also placed into collection the rectification of fiscal year 2006 on NC Numericable (approximately €2 million). The Combined Group asked for a payment deferral and deposited a complaint in September 2012 which was rejected by the Tax authorities on June 27, 2013. The Combined Group filed an additional request on August 20, 2013.

As of December 31, 2012, a tax provision of €25.1 million was recognized, including all the risks related to VAT (except the penalties of 40% which represents €7.1 million) related to the reassessments notified for fiscal years 2006 to 2010 (i.e. €23.5 million). The Group contested the proposed notifications on August 21, 2013. Fiscal year 2011 is not subject to a tax audit.

VAT rules applicable to multiple-play packages changed starting January 1, 2011.

**23.2 Commercial disputes**

**23.2.1 Dispute with Orange relating to certain IRUs**

The Combined Group entered into four non-exclusive IRUs with Orange on May 6, 1999, May 18, 2001, July 2, 2004 and December 21, 2004, in connection with the acquisition by the Combined Group of certain companies which operated cable networks built by Orange. These cable networks, accessible only through the civil engineering installations of Orange (mainly its ducts), are made available to the Combined Group by Orange through these non-exclusive IRUs over such civil engineering installations. Each of these IRUs covers a different geographical area and was entered into for a term of 20 years. Following the ARCEP's decision 2008-0835 of July 24, 2008, Orange published on September 15, 2008, a technical and commercial offer made to telecommunication operators pursuant to which such operators can roll-out their own fiber networks in Orange's ducts. The terms of this mandatory technical and commercial offer are more restrictive than the terms that the Combined Group benefit from under the Orange IRUs. As a result, Orange requested the Combined Group to comply with the general rules regarding accessing Orange's ducts for the purpose of maintaining and upgrading its network. This issue was litigated and both the ARCEP and the Paris Court of Appeal ruled in favor of Orange on November 4, 2010 and June 23, 2011, respectively. We appealed the decision before the French Supreme Court (Cour de Cassation) but it upheld, for the most significant part, the decision of the Paris Court of Appeal on September 25, 2012.

Moreover, on October 21, 2011, the ARCEP initiated penalty proceedings against the Combined Group, arguing that it had not complied with its November 4, 2010 decision. Consequently, in December 2011, the Combined Group executed Orange amendments to the IRUs in order to comply with the

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**23 Provisions and contingent liabilities (Continued)**

November 4, 2010 ARCEP decision and to align the operating procedures set forth in the IRUs with the procedures set forth in the Orange generic technical and commercial offer.

In the meantime, the penalty proceedings initiated by the ARCEP were not stopped by the execution of the amendments to the IRUs and we were sentenced on December 20, 2011 to a fine of €5.0 million for noncompliance with the ARCEP November 4, 2010 decision. The Combined Group appealed this decision before the Conseil d'Etat. The case is still pending. Within the framework of this appeal, Numericable raised a constitutionality question, that was sent back to the Constitutional Council, on the conformity with the Constitution of the Article L. 36-11 of the CPCE which plans the powers of penalty of the ARCEP. On July 5, 2013, the Constitutional Council granted Numericable's request and invalidated paragraphs 1 to 12 of the Article L. 36-11 of the CPCE on the foundation of which the decision of penalty of the ARCEP of December 20, 2011 mentioned above was returned. Numericable asked the Council of State to give effect to this decision and to accordingly invalidate the decision of the ARCEP of December 20, 2011.

Lastly, Numericable initiated parallel proceedings against Orange before the Commercial Court of Paris on October 7, 2010 claiming damages of €2.7 billion for breach and modification of the IRUs by Orange.

On April 23, 2012, the Commercial Court of Paris ruled in favor of Orange and dismissed the Combined Group's claims for damages, ruling that there were no material differences between the original operational procedures and the new operational procedures published by Orange on September 15, 2008. Numericable appealed this decision before the Paris Court of Appeal and claimed the same amount of damages. Orange, in turn, claims that the proceedings materially impaired its brand and image and claims damages of €50 million. The Paris Court of Appeal is expected to render its decision during the second quarter of 2014.

**23.2.2 Dispute with Free relating to the advertising of mobile services**

On August 3, 2011, a claim was filed against Numericable SAS and NC Numéricable before the Commercial Court of Paris by telecommunication operator Free in relation to the launch of the mobile offer by the Combined Group in spring 2011 through an advertising campaign entitled "The mobile revolution".

Free, who used the term "revolution" to refer to its initial launch of mobile phone services and whose latest offering was named the "Freebox Revolution", argues that our campaign led to customer confusion and damaged its brand and image. Free claims damages of €10.0 million. The case is currently pending before the Paris commercial court. After the hearing, the Court asked for an opinion of the "direction générale de la concurrence, de la consommation et de la répression des fraudes (DGCCRF)" as to whether the assertions of Free were justified with regards to the laws of advertising. The DGCCRF issued an opinion in which it indicated that the questions raised by Free did not constitute a fault under unfair competition law. The ruling of the Commercial Court of Paris is expected during the second half of 2013.

**23.2.3 Dispute with Orange relating to unpaid invoices**

Orange filed a claim against Numericable before the Paris Commercial Court on September 6, 2011. Orange claimed that invoices in the amount of €3.1 million remained unpaid. These invoices related to physical infrastructure occupied by Numericable between 2005 and 2007, following the sale by Orange of its cable networks for Numericable. Numericable argued that Orange prevented the Combined Group from moving out of these infrastructures and therefore that the litigation's invoices were not due. Orange filed another claim against Numericable before the Paris Commercial Court on February 1, 2012 and, for similar grounds, claiming that invoices in the amount of €0.5 million remained unpaid. These cases are still pending before the Paris Commercial Court. The date of the hearing has not been settled yet.

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**23 Provisions and contingent liabilities (Continued)**

**23.2.4 Disputes with various providers of value-added services (VAS)**

By related complaints dated February 10th, 2013, five providers of value-added telephony services which offer their services to the public through surcharged numbers (0899), commenced litigation against Completel before the Commercial Court of Nanterre. Those companies asked for the condemnation of Completel to the payment of €350,000 for the repayment of sums corresponding to restraints made by Completel from the amounts it collected on their behalf.

Completel withheld these amounts in response to the practices of these these companies which in Completel's view violate their agreements with Completel as well as the industry's ethics rules. They seek damages of a global amount of €12 million.

Furthermore, in November 2012, Completel decided to terminate this activity, and suspended certain repayments and applied various contractual penalties to companies marketing this kind of value-added telephony services. Some of these companies assigned Completel before several Commercial Courts and asked for its condemnation to the payment of the sums retained by Completel and/or the cancellation of the penalties applied by Completel. The global claim amounts to approximately €900 000, including €850,000 in amounts collected on behalf of these companies.

**23.2.5 Dispute with Orange relating to access to the DSL market**

On August 5, 2010, Completel filed a claim against Orange before the Paris Commercial Court, claiming damages of approximately €500 million resulting from anticompetitive practices from Orange which would have delayed the access to the DSL market for the competitors of Orange during the years 1999 to 2003. On December 13, 2011, the Paris Commercial Court rejected the request of Completel. Completel appealed this decision. The decision of the Paris Court of Appeal should intervene during the course of the year 2014.

**23.2.6 Labor disputes**

The Group is involved in a certain number of labor disputes, of which a significant amount result from the last period of substantial mergers in 2006-2007 involving UPC-Noos, which until 2009 gave rise to potentially contentious adjustments and harmonization in labor practices . The claims related to these disputes could amount to approximately €4 million. These disputes largely consist of employees contesting the reasons or the form of their dismissals.

**24 Employee benefits**

In France, employees of the Combined Group benefit from a retirement indemnity plan. Accordingly, the Combined Group participates in mandatory social security plans organized at the state level, for which contributions expenses correspond to the contributions due to the French state. The plan is considered to be a defined contribution plan as defined in IAS 19. Employees of the Combined Group are covered by the Telecom Industry Branch Social Agreement ("Convention Collective Nationale des Télécommunications", which determines the amount of retirement indemnity to be paid to the employee upon retirement).

The rights to conventional retirement benefits vested by employees were evaluated individually, based on various parameters and assumptions such as the employee's age, position, length of service in the Combined Group and salary, according to the terms of their employment agreement.

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**24 Employee benefits (Continued)**

**24.1 Assumptions used for defined benefit plans**

	December 31, 2012	December 31, 2011	December 31, 2010
	(in thousands of euros)		
Discount rate . . . . .	3.0%	4.75%	4.75%
Expected salary increase rate . . . . .	3.0%	3.0%	3.0%
Inflation rate . . . . .	2.0%	2.0%	2.0%
Turnover—managers (mean) . . . . .	7.0%	7.0%	7.0%
Turnover—other employees (mean) . . . . .	15.0%	15.0%	15.0%

The turnover rate can vary significantly depending on length of service.

**24.2 Components of Net Periodic Benefit (Cost)**

	December 31, 2012	December 31, 2011	December 31, 2010
	(in thousands of euros)		
Service cost . . . . .	713	660	555
Interest cost . . . . .	287	263	221
Expected return on plan assets . . . . .	—	—	—
Recognition of actuarial net (gain) loss . . . . .	1,496	(244)	281
Past service cost . . . . .	—	—	—
Amounts recognized due to plan combinations . . . . .	—	22	58
Curtailments/Settlements . . . . .	(57)	(145)	—
<b>Net periodic (benefit) cost . . . . .</b>	<b>2,439</b>	<b>556</b>	<b>1,115</b>
Experience loss (gain) on plan liabilities . . . . .	1,496	(244)	281
Percentage of present value of plan liabilities . . . . .	17.7%	(4.0%)	5.1%

Actuarial gains and losses arising from changes in actuarial assumptions are recognized in profit and loss when they are incurred.

Impact of discounting provisions for retirement benefits is recognized in operating income in “Staff costs and employee benefits expense” with the related charges.

**24.3 Change in defined benefit obligation**

**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**25 Other non-current liabilities**

	December 31, 2012	December 31, 2011	December 31, 2010
	(in thousands of euros)		
Non-current deferred revenue (more than one year) . . . .	105,791	94,777	101,402
Non-current trade payables . . . . .	5,175	5,906	6,634
Non-current tax and social security payables . . . . .	300	300	2,303
<b>Other non-current liabilities . . . . .</b>	<b>111,266</b>	<b>100,983</b>	<b>110,339</b>

Deferred revenue at the end of the reporting period mainly represents unrecognized network lease revenue.

For certain arrangements entered into with its non-residential customers, the Combined Group receives up-front cash payments, namely in relation to indefeasible right of use arrangements (“IRUs”) and connection fees. For these arrangements, the revenue is generally recognized reliably over the duration of the lease contract.

The non-current part of deferred revenue disclosed in the above table corresponds to revenue that will be recognized in more than one year.

The current-part of deferred revenue (i.e. revenue to be recognized in less than one year) is presented in “Trade payables and other payables”.

**26 Trade payables and other payables**

**27 Financial instruments**

Details of the significant accounting policies and methods adopted (including the criteria for recognition, the bases of measurement, and the bases for recognition of income and expenses) for each class of financial asset, financial liability and equity instrument are disclosed in Notes 2.15 and 2.19.

**27.1 Fair value of financial instruments**

**Valuation techniques and assumptions applied to measure fair value for derivative instruments**

The fair values of derivative instruments are calculated using quoted prices. When such prices are not available, a discounted cash flow analysis is performed using the applicable yield curve for the duration of the instruments for non-optional derivatives, and option pricing models for optional derivatives. Interest rate swaps are measured at the present value of future cash flows estimated and discounted based on the applicable yield curves derived from quoted interest rates.

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**27 Financial instruments (Continued)**

In accordance with the amendments to IFRS 7, the Combined Group classifies its financial instruments measured at fair value into three levels (the fair value hierarchy):

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Level 2 fair value measurements have been used for interest-rate derivatives. There are no significant financial instruments for which level 1 or level 3 measurements have been used and no transfer of financial instruments between levels have occurred.

**Fair value measurement other financial assets**

Due to their short-term nature, the fair value of cash and cash equivalents, trade receivables and other current receivables and trade payables and other payables, approximates the net carrying amount.

Investments in entities not included in the combination are unquoted equity securities. As a result, their fair value cannot be measured reliably and accordingly, these investments are measured at cost.

**Financial guarantees and collaterals**

Under the SFA, the assets of the Combined Group have been given as collateral to the bank lenders.

**27.2 Financial assets**

**27.3 Financial liabilities**

Except for interest-rate derivatives, financial liabilities are measured at amortized cost, which is the amount at which the financial liability is measured at initial recognition minus principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between that initial amount and the maturity amount, and minus any reduction for impairment or uncollectibility.

Interest-rate derivatives held for trading are measured at fair value through profit and loss.

**27.4 Financial risk management objectives**

**Objective of the Corporate Treasury function**

The Combined Group's Corporate Treasury function provides services to the business, coordinates access to domestic and international financial markets, monitors and manages the financial risks relating to the operations of the Combined Group through internal risk reports which analyze exposures by degree and magnitude of risks. These risks include market risk (primarily interest rate risk since the Combined Group's activities does not expose it to risks of changes in foreign currency exchange rates), credit risk and liquidity risk. The Combined Group seeks to minimize the effects of these risks by using derivative financial instruments to hedge risk exposures. The Combined Group does not enter into or trade financial instruments, including derivative financial instruments, for speculative purposes.

The Corporate Treasury function reports monthly to the Group's chief operating decision maker, which monitors risks and policies implemented to mitigate risk exposures.

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**27 Financial instruments (Continued)**

**Interest rate risk management**

The Combined Group is exposed to interest rate risk because the Combined Group borrows funds, mostly at floating interest rates. The risk is managed by the Combined Group through the use of interest rate swap contracts and caps interest rate contracts. Even though the Combined Group does not apply IAS 39 in terms of hedge accounting, hedging activities are evaluated regularly to align with interest rate views and defined risk appetite, ensuring the most cost-effective hedging strategies are applied, in compliance with the requirements of the SFA.

The Combined Group's exposures to interest rates on financial assets and financial liabilities are detailed in the liquidity risk management section of this note.

**Interest rate sensitivity analysis**

The sensitivity analyses below have been determined based on the exposure to interest rates for both derivatives and non-derivative instruments at the end of the reporting period. For floating rate liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. A 50 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 50 basis points higher/lower and all other variables were held constant, the Combined Group's net income (loss) for the year ended December 31, 2012 would decrease/increase by €13 million. This is mainly attributable to the Combined Group's exposure to interest rates on its variable rate borrowings.

**Interest rate swap contracts**

Under interest rate swap contracts, the Combined Group agrees to exchange the difference between fixed and floating rate interest amounts calculated on agreed notional principal amounts. Such contracts enable the Combined Group to mitigate the risk of changing interest rates on the fair value of issued fixed rate debt and the cash flow exposures on the issued variable rate debt. The fair value of interest rate swaps at the end of the reporting period is determined by discounting the future cash flows using the curves at the end of the reporting period and the credit risk inherent in the contract.

**Credit risk management**

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Combined Group.

Financial instruments that could potentially subject the Combined Group to concentrations of counterparty risk consist primarily of trade receivables, cash and cash equivalents, investments and derivative financial instruments. Overall, the carrying amount of financial assets recognized in the financial statements, which is net of impairment losses, represents the Combined Group's maximum exposure to credit risk.

As mentioned in Note 19, the Combined Group considers that it has an extremely limited exposure to concentrations of credit risk with respect to trade accounts receivable due to its large and diverse customer base (residential and public institutions) operating in numerous industries and located across France. In addition, the maximum value of the counterparty risk on these financial assets is equal to their recognized net book value. An analysis of credit risk on net trade receivables past due is provided in Note 19.

The Combined Group's policy is to invest its cash, cash equivalents and marketable securities with financial institutions and industrial groups with a long-term rating of A- /A3 or above. The Combined Group enters into interest rate contracts with leading financial institutions and currently believes that

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**27 Financial instruments (Continued)**

the risk of these counterparties defaulting is extremely low, since their credit ratings are monitored and financial exposure to any one financial institution is limited.

However, in September 2008, Lehman Brothers filed for bankruptcy. Part of the Combined Group's financial liabilities was hedged by interest rate swaps entered into with Lehman Brothers. As a result of the bankruptcy, Lehman Brothers defaulted on the swaps. There is currently a claim with Lehman Brothers for a total amount of approximately €11.2 million. In 2012, the Combined Group received a first payment €2.8 million in relation to this claim. Thus a contingent gain of €8.4 million remains for the Company but has not been recognized as at December 31, 2012.

**Liquidity risk management**

Ultimate responsibility for liquidity risk management rests with the Board of Directors, which has established an appropriate liquidity risk management framework for the management of the Combined Group's short-, medium- and long-term funding and liquidity management requirements. The Combined Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The following tables detail the Combined Group's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Combined Group can be required to pay. The tables include both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period. The contractual maturity is based on the earliest date on which the Combined Group may be required to pay.

The Combined Group considers that its available cash and cash equivalent balances and the expected operating cash flows to be generated are sufficient to cover its operating expenses, capital expenditures and its financial debt requirements for the next twelve months.

**28 Related party transactions**

The ultimate shareholders of the Combined Group are a group of investment and private equity firms: Altice, Cinven and Carlyle.

Balances and transactions between entities forming the Combined Group have been eliminated in preparing the Combined Financial Statements and are not disclosed herein. Details of transactions between the Combined Group and other related parties are disclosed below.

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**28 Related party transactions (Continued)**

**28.1 Trading and financing transactions**

During the year, group entities entered into the following trading transactions with related parties that are not members of the Combined Group:

	Purchase of goods and services			Amounts owed by related parties			Amounts owed to related parties		
	2012	2011	2010	2012	2011	2010	2012	2011	2010
	(in thousands of euros)								
<i>Shareholders</i>

<i>Associate</i>									
Alsace Connexia Participation SAS	—	—	—	2,235	2,574	2,518	—	—	—

Management fees have been paid to the shareholders (Cinven, Altice and Carlyle) in relation to certain management, financing and advisory services provided (€2,424 thousands in 2012 compared to €11,509 thousands in 2011 and €14,651 thousands in 2010).

The shareholders of the Combined Group also provided several subordinated shareholder financings.

**28.2 Related party relationships**

**(1) Relationships with our Shareholders**

***Relationships with Altice***

On June 30, 2011, we completed the sale of Coditel Belgium and Coditel Luxembourg to a consortium of investors, including Altice, for a purchase price of €369.2 million.

Altice owns cable networks in the French West Indies (*Antilles*). We pay telephony termination fees to such networks for the calls originating from our subscribers to subscribers of such networks, and receive telephony termination fees from such networks for the calls originating from their subscribers to our subscribers.

Finally, Altice owns Auberimmo which is a company that rents infrastructures to the Combined Group. Auberimmo has a sole client, Completel SAS which is a member of the Combined Group.

***Relationships with Carlyle***

Sagemcom, one of our key suppliers of set-top boxes, was acquired by funds managed by Carlyle on August 17, 2011.

**(2) Relationships with Coditel**

As part of the sale of Coditel Belgium and Coditel Luxembourg in June 2011, we entered into a services agreement and a trademark license agreement with Coditel Holding S.A. to ensure the continuity of its operations

***Services Agreement***

On June 30, 2011, Numericable SAS entered into a services agreement (the “Coditel Services Agreement”) with Coditel. Pursuant to the Coditel Services Agreement, we will continue to provide Coditel with all the services we were providing prior to its sale, including:

- VOD platform services and VOD content services;

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**28 Related party transactions (Continued)**

- television, IP and voice engineering services;
- support and assistance in purchasing hardware and devices needed for its operations, in particular set-top boxes and software, modems, routers and mobile handsets, and also television and VOD content;
- delivery of television channels signals and existing data flows over our backbone;
- upgrade of Coditel's billing software; and
- continued support of Coditel's systems currently located in our premises or currently supported from our systems.

In consideration of the services provided, Coditel agreed to pay to us a total of €100,000 per year. In addition, Coditel will pay to us 10% of its monthly VOD revenues.

***Trade Mark License Agreement***

On June 30, 2011, Coditel and Numericable also entered into a trademark license agreement (the "Trade Mark Agreement"). Pursuant to the Trade Mark Agreement, we will provide Coditel with a license to use our trademark "Numericable", registered under Ma14502, exclusively in Belgium and Luxembourg in relation to the offering, promotion and commercialization of television, Internet and telephone products and services. The license fee is included in the €100,000 annual fee under the Services Agreement. The Trade Mark Agreement terminates automatically on June 30, 2017, upon termination of all services under the Services Agreement or upon expiry of the Services Agreement.

**28.3 Compensation of key management personnel**

Compensation of directors and other members of key management personnel (i.e. members of our Executive Committee) during the year was €2,100 thousands, €2,039 thousands and €2,325 thousands for 2012, 2011 and 2010 respectively. These amounts only comprise short-term benefits such as wages, salaries and bonuses.

The Combined Group does not offer any share-based arrangement and employment benefits related to key management personnel are insignificant in aggregate.

**29 Leases arrangements**

**29.1 The Combined Group as a lessor**

**Finance leases**

The Combined Group has not contracted finance leases as a lessor.

**Operating leases**

Operating leases relate to the investment property owned by the Combined Group and leased to other companies in the telecommunications industry, with lease terms of between 15 to 30 years. All operating lease contracts contain market review clauses in the event that the lessee exercises its option to renew. The lessee does not have an option to purchase the property at the expiry of the lease period.

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**29 Leases arrangements (Continued)**

Future minimum rental income under non-cancellable operating leases is as follows:

	Future minimum rental income		
	December 31, 2012	December 31, 2011	December 31, 2010
	(in thousands of euros)		
Not later than 1 year . . . . .	45,318	38,815	35,459
Later than 1 year and not later than 5 years . . . . .	40,930	30,621	34,848
Later than 5 years . . . . .	64,545	62,381	64,214
	<u>150,793</u>	<u>131,817</u>	<u>134,521</u>

**29.2 The Combined Group as a lessee**

**Finance leases**

The Combined Group entered into various finance leases related to property, for which the lease term is generally between 20 and 30 years, and office equipment, for which the lease term is 4 years.

The most significant finance lease arrangements relate to network equipment bought from Cisco and to the property lease for the headquarters offices of the Combined Group in Champs-sur-Marne for which the Combined Group has an option to purchase the property at the end of the lease term at a price that is expected to be sufficiently lower than the fair value at the date the option becomes exercisable.

All leases are denominated in euros. Certain property lease arrangements specify that at the beginning of the lease the annual payments will be set at a fixed amount, but in future years will be increased by a rate of inflation (i.e. a percentage increase).

	Minimum lease payments		Present value of minimum lease payments	
	December 31, 2012	December 31, 2011	December 31, 2012	December 31, 2011
	(in thousands of euros)			
Not later than 1 year . . . . .	11,685	20,219	11,302	19,529
Later than 1 year and not later than 5 years . . . . .	13,883	7,229	12,830	6,621
Later than 5 years . . . . .	721	928	595	753
	<u>26,288</u>	<u>28,376</u>	<u>24,728</u>	<u>26,903</u>
Less future finance charges . . . . .	(1,560)	(1,473)	—	—
Present value of minimum lease payments	<u>24,728</u>	<u>26,903</u>	<u>24,728</u>	<u>26,903</u>
Financial liabilities related to finance leases—current portion . . . . .			11,302	19,529
Financial liabilities related to finance leases—non-current portion . . . . .			13,426	7,374

The interest rate inherent in the leases is fixed at the contract date for the entire lease term. The average effective interest rate contracted is approximately 3.24% and 3.53% per annum for 2012 and 2011 respectively.

**Operating leases**

The Combined Group also has property and vehicle lease commitments under operating leases. The lease term for property under operating leases is generally 3, 6 or 9 years, a standard lease term for commercial real estate in France. The lease term for vehicle under operating lease is 3 years.

As part of the networks business, leases involving equipment and networks IRUs (usage rights on local loop, backbone) or other rental contracts (rights of way) were not considered material.

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**29 Leases arrangements (Continued)**

In connection with its entertainment business activities, the Combined Group has also entered into operating leases and agreements to purchase TV programs.

As of December 31, 2012, non-cancellable operating lease commitments amounted to:

<u>(in thousands of euros)</u>	<u>December 31, 2012</u>
Not later than 1 year . . . . .	5,554
Later than 1 year and not later than 5 years . . . . .	19,513
Later than 5 years . . . . .	5,717
	<b><u>30,784</u></b>

**30 Non current assets held for sale and discontinued operations**

This section provides details of the contents of the items relating to the activities of the Combined Group in Belgium and Luxembourg classified as discontinued operations as reported in the Combined Statement of Income and Combined Statement of Cash Flows. As explained in Note 4, discontinued operations correspond to the Coditel subsidiaries in Belgium and Luxembourg.

Details of statement of income items included in discontinued operations in 2011 and 2010 are as follows:

	<u>2011 6 months</u>	<u>2010 12 months</u>

<b>Net cash flow from discontinued operations</b> . . . . .	<b>156,258</b>	<b>15,196</b>

**31 Commitments and contractual obligations**

**31.1 Commitments given**

*Guarantees in relation to the Senior Facility Agreement*

As part of the SFA entered into by the subsidiaries of the Combined Group, the following commitments were given to the lending banks:

- Compliance with financial covenants;
- Stable tax consolidation scope;
- Compliance with conditions governing the acquisition, disposal, use and control of assets.

All the assets of the Combined Group's subsidiaries have been pledged to the banks.

*Commitments in relation to business operations*

The Combined Group is committed to build 75,000 connectors for a total amount of €4.5 million on behalf of the city of Le Havre, France.

To operate telecommunications networks, the Combined Group needs licenses, authorizations or usage rights to infrastructure in the public and private domain. Consequently, the Combined Group generally pays fees to the public administration in charge of managing the infrastructure (local authorities) or to the owners. In the course of its normal business activities, the company has also entered into outsourcing contracts, particularly for certain network maintenance services.

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**31 Commitments and contractual obligations (Continued)**

In 2010, the Combined Group entered into several long-term MVNO agreements for voice and data transmission with Bouygues Telecom, pursuant to which we provide mobile telephony services to residential customers under our own brand but through the nationwide network of Bouygues Telecom. The agreements relating to voice transmission services are due to expire in 2017 and those relating to data transmission services are due to expire in 2013, and each of these will be automatically renewed unless otherwise notified by either party with six months' notice prior to their respective initial expiry dates. Pursuant to the financial terms of each of these agreements, we are under obligation to pay Bouygues Telecom a flat fee corresponding to a minimum level of consumption by our end-customers of the relevant voice or data transmission services.

*Lease commitments in relation to business operations*

As disclosed in Note 29, the Combined Group has entered into various lease arrangements.

**Contractual obligations**

	< 1 year	Maturity 1–5 years	> 5 years	Total December 31, 2012
		(in thousands of euros)		
Loans and financial liabilities . . . . .	114,732	1,904,440	1,021,903	3,041,075
Operating leases arrangements . . . . .	5,554	19,513	5,717	30,784
<b>Total . . . . .</b>	<b>120,286</b>	<b>1,923,953</b>	<b>1,027,620</b>	<b>3,071,859</b>

**31.2 Commitments received**

The Combined Group has received a commitment of a total amount of €25 million from GDF Suez to subscribe to perpetual floating rate notes, which will provide financing for the construction of the Sipperec network. The Combined Group has already received €23.8 million in principal from GDF Suez as at December 31, 2012.

Within the framework of the transfer of NC Numericable on March 31, 2005 by the groups France Télécom, TDF and Vivendi / Canal+, the transferors granted specific guarantees until 2014 to the Combined Group, including in particular fiscal and social risks as well as specific risks connected to cable networks exploited by NC Numéricable.

**32 Events after the end of the reporting period**

**Refinancing of the debt in July 2013**

In July and August 2013, the Combined Group amended its debt under the Senior Facility Agreements which allowed the Combined Group to reschedule a large portion of its debt.

The new scheduling of the debt under Senior Facility Agreements is as follows:

<u>Maturity</u>	<u>2013</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>	<u>Total</u>
				(in millions of euros)				
	41.7	26.3	63.1	102.2	1,246.7	698.4	584.4	2,762.8

The scheduling of the debt under Senior Facility Agreements before the refinancing which occurred in July and August 2013 was as follows:

<u>Maturity</u>	<u>2013</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>	<u>Total</u>
				(in millions of euros)				
	54.0	125.0	453.9	808.7	465.2	271.6	584.4	2,762.8

**Numericable Group**  
**Combined Financial Statements**  
**for the three years ended December 31, 2012 (Continued)**

**32 Events after the end of the reporting period (Continued)**

As part of the refinancing of the debt of August 2013, the Combined Group also obtained a new Revolving Credit Facility (the *Revolving Credit Facility*) of €24 million. Thus, the total available under the revolving facilities amounts to €89 million.

**In-depth inquiry of the European Commission into transfer of cable infrastructures by certain local authorities**

On July 17, 2013 the European Commission indicated that it decided to open an investigation to verify whether the transfer of public cable infrastructure between 2003 and 2006 by several French municipalities to Numericable was in line with European Union State aid rules. At this stage, the European Commission has doubts that such aid could be found compatible with EU rules because of the economic advantage that would have resulted from these transfers, depending on their conditions.

(a) Details in the statement of comprehensive income

The Accompanying Notes are an integral part of the Combined Financial Statements

**SFR**  
**Notes to the Combined Financial Statements**

**Basis of Preparation**

These combined financial statements have been prepared by Vivendi, in its capacity of controlling shareholder of the companies SFR and SIG 50, in the context of potential implementation of the plan to separate the Media and Telecoms businesses of the Vivendi Group.

They have been drawn up on the basis of the accounting data of the companies SFR and SIG 50 and their subsidiaries, as approved for their financial years ending on December 31, 2011, 2012 and 2013, and prepared for the purpose of preparing the consolidated accounts of the Vivendi Group.

These combined financial statements of SFR and SIG 50 and their subsidiaries were approved by the Management board of Vivendi at its meeting on April 8<sup>th</sup>, 2014.

**Context**

As they informed the shareholders regularly in 2012 and 2013, Vivendi's Management Board and Supervisory Board have instigated a review of the Group's strategic orientations. In 2013, Vivendi sold the majority of its interest in Activision Blizzard and finalized an agreement with Etisalat for the sale of its shares in Maroc Telecom. The Group decided to concentrate on its media and content businesses, which are in leader positions and are benefiting from a strongly growing digital market. It has strengthened its interest in Canal+ France, in which it now holds 100% of the share capital. Vivendi is also working on the reconfiguration of SFR. The operator is experiencing the first positive effects of its transformation plan, reflecting its benefits at a commercial level while reducing its costs. A network sharing agreement has been concluded with Bouygues Telecom, on part of the mobile network, which will enable it to offer its customers better coverage and improved quality of service. On these bases the Group intends to position the future Vivendi as a dynamic player in media and content. With SFR, it wishes to participate in the reshaping of the telecommunications sector in France by actively exploring all opportunities.

On November 26, 2013, the Supervisory Board approved the appropriateness of the plan to separate the Group into two separate companies: firstly, a new international media group based in France, with very strong positions in music (where it is the worldwide leader), in movies in Europe, in pay-TV in France, Africa, Vietnam and Poland, and in Internet and associated services in Brazil; and secondly the **Telecoms business France**. The decision to implement this plan could be made shortly and, if applicable, submitted to the General Shareholders' Meeting of June 24, 2014.

**Presentation of Telecoms business in France**

Telephony business in France comprises mainly:

- the telephony business of SFR SA in France, which is developing mobile, fixed-line, internet and television services with consumers and with business, corporate, community and operator clients. SFR SA operates in mainland France, as well as in La Réunion and Mayotte,
- the business of distributing telecommunications services and products in France.

In order to present the historic financial information of the Group for financial years 2013, 2012 and 2011, combined accounts have been drawn up.

**Combination scope**

The arrangement that constitute the new autonomous group (hereinafter referred to as the "Group") has no independent legal existence prior to the separation, and is made up of entities under the common control of Vivendi.

As of January 1, 2011, the Group principally comprised the following companies:

- the entities held directly and indirectly by SFR SA and its subsidiaries,
- the interest of Vivendi, through SIG 50, in the businesses of distribution of telecommunications products and services, owing to their operational attachment to the business of the Group.

## SFR

### Notes to the Combined Financial Statements (Continued)

The scope of combination thus excludes the company SPT, held by SFR SA and holder of Maroc Telecom.

The combination scope is presented in Note 27—List of Entities Combined.

*Accounting for related to the holding company SPT owning the interest in Maroc Telecom:*

- the shares of SPT were cancelled in return for a reduction in equity,
- the dividends received from SPT, net of withholding tax were presented in the Changes in Equity and in the Cash Flow statements, reducing the dividends paid by SFR SA to Vivendi SA.

#### **Conventions used when preparing the combined accounts**

The combination of entities under common control as envisaged were recorded in the combined financial statements of the Group at historic book values. These historic combined financial statements of the Group were drawn up on the basis of the values presented in Vivendi's Consolidated Financial Statements, restated for consolidation adjustments and the accounting impact of operations to acquire stakes in the France telephony business by Vivendi.

In the absence of a specific IFRS text dealing with combined financial statements, the Group defined the principles and conventions for combination presented hereunder.

The net debt level accepted in these combined financial statements reflects the debt level and its historic compensation levels with regard to the Vivendi Group or third parties of the entities included in the combined accounts.

#### *Intercompany transactions between the Group and the other entities of the Vivendi Group*

All balances relative to current operations between the entities of the Group and the other entities of the Vivendi Group have been presented on the balance sheet as third party asset or liability accounts in the combined accounts.

All loans and borrowing between the entities of the Group and the other entities of the Vivendi Group have been presented as financial assets or liabilities in the combined accounts.

The operations with the other entities of the Vivendi Group are presented in Note 24—Transactions with Related Parties.

#### *Earnings per share*

As the combined group is not legally constituted on this date, the number of shares in circulation cannot be established. Consequently, no earnings per share are presented in the Combined Financial Statements.

#### *Income tax*

The deferred taxes recorded as tax loss carry-forwards were determined by taking into account the effect of the tax consolidation implemented within Vivendi.

The tax results of the companies included in the tax consolidation perimeter have been taken into account as part of the tax consolidation arrangements implemented by Vivendi, pursuant to the provisions of Article 223-A of the General Tax Code. Pursuant to the tax consolidation convention, carry-forward losses recorded during the period of tax consolidation, and up to December 31, 2013, will remain the property of Vivendi. Consequently, no deferred tax asset has been recognized in respect of these carry-forwards in the combined financial statements presented.

**SFR**  
**Notes to the Combined Financial Statements (Continued)**

**Note 1. Accounting Principles**

**1.1. General framework**

Pursuant to European Regulation 1606/2002 of July 19, 2002, the basis for preparation set out above describes how the International Financial Reporting Standards (IFRS) as adopted by the European Union were applied to prepare the historic combined financial statements as of December 31, 2011, December 31, 2012 and December 31, 2013.

The new Group has never prepared IFRS financial statements, nor has it published financial statements for previous financial years.

Consequently, as a first-time adopter, the Group has prepared its combined financial statements for the financial year ended December 31, 2013 in accordance with IFRS 1—*First-Time Adoption of International Financial Reporting Standards*.

Under IFRS 1, if a subsidiary adopts IFRS after its parent company, the assets and liabilities in the subsidiary's opening balance sheet may be measured:

- either at the carrying amounts based on the subsidiary's contribution to the parent company's historic consolidated financial statements, after restating adjustments relating to the consolidation and to the impacts of accounting for the business combination as a result of which the parent acquired the subsidiary; or
- at the carrying amounts as determined in accordance with IFRS 1, applied at the date of the subsidiary's transition to IFRS. In this case, the IFRS 1 options applied by the subsidiary may differ from those applied by the parent.

In compliance with the option available under IFRS 1, the Group has chosen to draw up its first IFRS combined financial statements on the basis of the carrying amounts of its assets and liabilities as per its contribution to Vivendi's historic financial statements, taking account of the date of Vivendi's transition to IFRS, after eliminating adjustments relating to the Vivendi group consolidation and to the impacts of accounting for the business combinations as a result of which Vivendi acquired interests in SFR and in distribution activities in France.

The transitional provisions for first-time adoption used by the Group are therefore identical to those applied by the Vivendi group upon its transition to IFRS, i.e.:

- Business combinations: business combinations carried out by Group entities prior to January 1, 2004 (the date of Vivendi's transition to IFRS) are not restated.
- Employee benefits: any unrecognized actuarial gains and losses existing at January 1, 2004 are recognized within consolidated equity.
- Share-based payment: IFRS 2 was retrospectively applied as from the opening balance sheet at January 1, 2004. Accordingly, all share-based payment plans for which the rights had not yet vested at January 1, 2004 are recognized in accordance with IFRS 2.
- Cumulative translation differences: gains and losses resulting from the translation into euros of the financial statements of subsidiaries with a functional currency other than the euro were transferred to consolidated reserves as of January 1, 2004.

Vivendi chose not to adopt the exemption available under IFRS 1 allowing certain intangible assets and property, plant and equipment to be remeasured at fair value on its transition to IFRS.

**Standards, amendments and interpretations in force**

The combined financial statements of the Group as of December 31, 2013 were drawn up in compliance with IFRS as adopted in the European Union (EU) and in compliance with IFRS as published by the International Accounting Standards Board (IASB), effective as of December 31, 2013.

## Notes to the Combined Financial Statements (Continued)

**Note 1. Accounting Principles (Continued)**

In its 2013 combined financial statements, the Group applied the following new standards and amendments adopted by the European Union with a mandatory effective date of January 1, 2013:

- Amendments to IAS 1—*Presentation of Financial Statements: Presentation of Items of Other Comprehensive Income*, published by the IASB on June 16, 2011, adopted by the EU on June 5, 2012, and published in the EU Official Journal on June 6, 2012. These amendments deal with the presentation of other comprehensive income (“income and expenses recognized in other comprehensive income” in the combined statement of comprehensive income), which are now shown according to whether or not they are to be subsequently reclassified to the income statement.
- Amendments to IAS 19—*Employee Benefits*, published by the IASB on June 16, 2011, adopted by the EU on June 5, 2012, and published in the EU Official Journal on June 6, 2012. The accounting principles and basis of measurement for employee benefits are presented in Note 1.3.15—Employee benefits.
- IFRS 13—*Fair Value Measurement*, providing a definition of fair value in terms of measurement and prescribing required fair value disclosures, published by the IASB on May 12, 2011, adopted by the EU on December 11, 2012, and published in the EU Official Journal on December 29, 2012. Its application has no material impact on the bases of measurement used by the Group or on the information disclosed in the notes to its financial statements.
- Amendments to various IFRS standards contained in the Annual Improvements to IFRS 2009-2011, published by the IASB in May 2012, adopted by the EU on March 27, 2013, and published in the EU Official Journal on March 28, 2013.

In its combined financial statements as of December 31, 2013, the Group decided to early adopt the new standards on consolidation: IFRS 10—*Consolidated Financial Statements*, IFRS 11—*Joint Arrangements*, IFRS 12—*Disclosure of Interests in Other Entities*, and IAS 28—*Investments in Associates and Joint Ventures*, published by the IASB on May 12, 2011, adopted by the EU on December 11, 2012, and published in the EU Official Journal on December 29, 2012. These standards are effective as of January 1, 2014 in the European Union.

The principles relative to methods of combination introduced by these new standards are presented below in Note 1.3.2—Basis of combination.

**New IFRS standards and IFRIC interpretations published but not yet in force**

The other main IFRS standards and IFRIC interpretations issued by the IASB/IFRS IC but not yet in force, which the Group has not early adopted and which are likely to affect the Group, include IFRIC 21—*Levies*, published by the IFRS IC on May 20, 2013. The effective date of IFRIC 21 is not yet known since it has not yet been adopted by the EU. The application of this interpretation could lead to changes in the timing of recognition of liabilities for taxes.

The Group is in the process of analyzing the potential impacts of IFRIC 21 on its combined financial statements and on the contents of the notes to the combined financial statements.

Furthermore, the Group is monitoring changes to IFRS 9—*Financial Instruments*, which is intended to replace IAS 39. The IASB has provisionally decided to defer the mandatory effective date of the standard (initially planned for 2015), without deciding on another date.

**1.2. Presentation of the combined financial statements****1.2.1. Combined income statement**

The principal captions presented in the combined income statement are revenues, operating profit, financial income (expenses), share of profit of associates (companies accounted for under the equity method), income tax and profit.

**Notes to the Combined Financial Statements (Continued)****Note 1. Accounting Principles (Continued)**

Operating profit is the result of operations after taking account of net depreciation and amortization expense, additions to provisions, and non-recurring items, classified under other operating income and expenses.

Other operating income and expenses mainly cover restructuring costs, amortization charged against intangible assets acquired in a business combination, gains and losses on the sale of intangible assets and property, plant and equipment, and other non-financial non-recurring income and expenses.

Financial income (expenses) comprises interest expense on loans, interest income generated by cash and cash equivalents, and other financial income and expenses (in particular, the effect of unwinding the discount on assets and liabilities).

**1.2.2. Combined other comprehensive income**

Other comprehensive income consists principally of translation adjustments, changes in the fair value of cash flow hedging instruments (foreign exchange and interest rate hedges), actuarial gains and losses on post-employment benefits, and the effects of related taxes.

These items are classified according to their nature and shown separately according to whether or not they will be subsequently reclassified to income.

**1.2.3. Combined balance sheet**

Assets and liabilities with a maturity shorter than the operating cycle, i.e., generally 12 months, are classified under current assets and liabilities. Assets and liabilities maturing after 12 months are generally classified within non-current items, except for deferred taxes which are always classified within non-current items.

**1.2.4. Combined statement of cash flows****Net cash flow from (used in) operating activities**

To determine the net cash flow from (used in) operating activities, profit is restated for items with no cash impact and for the net change in working capital. Profit is also restated for current and deferred taxes, and for all components of financial income and expenses. Net cash flow from (used in) operating activities also excludes the net change in working capital linked to intangible assets and property, plant and equipment.

**Net cash flow from (used in) investing activities**

Net cash flow from (used in) investing activities includes acquisitions and sales of intangible assets, property, plant and equipment and financial fixed assets; the net change in working capital linked to intangible assets and property, plant and equipment; and cash flow derived from the gain or loss of control of a subsidiary.

**Net cash flow from (used in) financing activities**

Net cash flow from (used in) financing activities includes increases and decreases in loans, changes in amounts owed to Vivendi SA, dividends paid, capital increases and borrowing costs, as well as all cash flow impacts of other financing activities.

**1.2.5. Group operational performance**

The Group considers EBITDA and cash flow from operations (CFFO) to be relevant indicators of the Group's operational performance.

## Notes to the Combined Financial Statements (Continued)

**Note 1. Accounting Principles (Continued)****EBITDA**

The Group considers EBITDA, a non-accounting indicator, to be a measure of performance. EBITDA shows the profit generated by the Group's activities independently of financing conditions, taxes (corporate income tax) and the obsolescence of plant and equipment (net depreciation/amortization expense and provisions). EBITDA as defined by the Group corresponds to operating profit restated for other operating income and expenses and for net depreciation and amortization expense and provisions for impairment of intangible assets and property, plant and equipment.

**CFFO**

The Group considers CFFO, a non-accounting measurement, to be a relevant indicator of the Group's operating performance. CFFO chiefly relates to the net cash flow derived from operating activities in the statement of cash flows (SCF), after deducting investments net of disposals and changes in the related working capital, and before deducting corporate income tax payments.

**1.2.6. Segment information**

In light of prevailing trends in the Group's business resulting in the increased convergence of mobile telephony and high-speed telephony and fixed internet services, Group management monitors operations in a comprehensive, unified manner. The chief operating decision-maker verifies results and operating plans and decides on the allocation of resources at Group level. The Group has identified a single operating segment meeting the criteria of IFRS 8.

Similarly, since virtually all of the Group's business is carried out on French territory, a single geographic segment has been identified.

This presentation could be modified in the future to reflect developments in the Group's businesses and operating criteria.

**1.3. Basis of preparation of the combined financial statements****1.3.1. Use of estimates**

Preparation of the combined financial statements in compliance with IFRS requires the Group to make certain estimates and assumptions that it deems reasonable and realistic. Even though these estimates and assumptions are regularly reviewed, particularly on the basis of past experience and forecasts, certain facts and circumstances may lead to changes in these estimates and assumptions, which could affect the carrying amount of the Group's assets, liabilities, equity and profit.

The main estimates and assumptions used relate to the measurement of:

- Provisions: risks are estimated on a case-by-case basis, on the understanding that developments in current events may require the risks to be reassessed at any time (see Notes 1.3.14 and 18).
- Employee benefits: assumptions are updated annually, such as the probability that employees will remain employed by the Group up to their retirement, expected changes in future compensation, discount rate and inflation rate, and life expectancy (see Notes 1.3.15 and 19).
- Goodwill: intangible assets with indefinite useful lives and fixed assets under construction: assumptions are updated annually within the framework of impairment tests and relate to cash-generating units (CGUs), future cash flows and discount rates (see Notes 1.3.6 and 8).
- Deferred taxes: estimates concerning the recognition of deferred tax assets are updated annually on the basis of the Group's expected future taxable income or probable changes in temporary differences for assets and liabilities (see Notes 1.3.16 and 6).
- Revenues: the separable elements of a bundled offer must be identified and allocated according to the fair values of each component; the period over which revenues linked to costs of accessing

## Notes to the Combined Financial Statements (Continued)

**Note 1. Accounting Principles (Continued)**

services should be recognized is to be determined based on the type of product and duration of the contract; and revenues are to be presented either on a net or gross basis according to whether the Group acts as agent or principal (see Notes 1.3.4 and 4.1).

- Intangible assets and property, plant and equipment: estimates of useful lives are based in particular on the effective obsolescence of fixed assets and the use made of those assets (see Notes 1.3.7 and 9, and Notes 1.3.8 and 10).

**1.3.2. Basis of combination**

The list of combined entities is presented in Note 27—List of combined companies.

**Controlled entities**

The new model of control introduced by IFRS 10 to replace the revised IAS 27—*Consolidated and Separate Financial Statements* and interpretation SIC 12—*Consolidation—Special Purpose Entities*, is based on the following three criteria, which must be met simultaneously to conclude that control is exercised by the parent company:

- The parent company holds power over the investee when it has effective rights giving it the current ability to direct the relevant activities of the investee, namely activities which have a significant impact on the investee's profitability. Power may result from existing and/or potential voting rights and/or contractual agreements. Voting rights must be substantial, i.e., they must be able to be exercised at any time without limitation, and particularly in connection with decisions relating to key activities. The assessment of whether or not an entity exercises control depends on the nature of the investee's relevant activities, the investee's decision-making process, and the distribution of rights of other shareholders of the investee.
- The parent company is exposed to, or has rights, to variable returns from its involvement with the investee, which may vary according to the investee's performance. The concept of returns is defined broadly, and includes dividends and other types of economic benefit distributed, changes in the value of the investment, cost savings, synergies, etc.
- The parent company has the capacity to exercise its power in order to influence the returns. Power which does not lead to such influence over these returns cannot be defined as control.

Controlled entities are combined in accordance with the full consolidation method.

**Full consolidation method**

This consists of including in the combined financial statements the asset, liability, income, expense and cash flow items of the companies controlled within the meaning of IFRS 10; making the necessary restatements; and eliminating intragroup transactions and accounts along with intragroup gains and losses. Equity and profit are allocated between the portion attributable to owners of the parent company and the portion attributable to non-controlling interests.

The combined income statement includes the results of subsidiaries acquired during the financial year as from the date of their acquisition. The results of subsidiaries sold during the same period are taken into account up to the date of their sale.

Non-controlling interests in the net assets of the subsidiaries are presented on a separate line of equity under "Non-controlling interests". They include the amount of non-controlling interests at the date control was acquired and the share of non-controlling interests in changes in equity as from this date. Except in the case of a contractual agreement specifying otherwise, losses of subsidiaries are systematically divided between equity attributable to owners of the parent company and non-controlling interests, on the basis of their respective percentages of interest, even if these are negative.

**Notes to the Combined Financial Statements (Continued)****Note 1. Accounting Principles (Continued)****Joint Arrangements**

IFRS 11—*Joint Arrangements*, which replaces IAS 31—*Interests in Joint Ventures* and interpretation SIC 13—*Jointly Controlled Entities—Non-Monetary Contributions by Venturers*, aims to establish the principles for financial reporting by entities with interests in jointly controlled companies (joint arrangements).

In a joint arrangement, the parties are bound by a contractual agreement that gives them joint control of the arrangement. An entity that is party to an arrangement must therefore determine whether the contractual agreement gives all or certain parties joint control of the arrangement. The existence of joint control is then determined if decisions concerning the relevant activities require the unanimous consent of the parties jointly controlling the arrangement.

Joint arrangements are classified into two categories:

- Joint operations: these are joint arrangements whereby the parties that have joint control over the arrangement have rights to the assets, and obligations for the liabilities, relating to the arrangements. Those parties are called joint operators. The joint operator recognizes the full amount of its assets, liabilities, income and expenses, including the share of any such elements held jointly. These arrangements concern joint investment contracts signed by the Group.
- Joint ventures: these are joint arrangements whereby the parties that have joint control of the arrangements have rights to the net assets of the arrangement. Those parties are called joint venturers. Each venturer accounts for its interest in the net assets of the venture in accordance with the equity accounting method (see the section dealing specifically with the equity accounting method).

**Associates**

Associates over which the Group exercises significant influence are accounted for by the Group under the equity method (see the section dealing specifically with the equity accounting method).

Significant influence is presumed to exist when the Group holds, directly or indirectly, 20% or more of the voting rights of an entity, except where it is clearly demonstrated that this is not the case. Significant influence can also be indicated by representation on the board of directors or on the management board of the entity held, by participation in its policy-making process, by material transactions with the entity, or by interchange of managerial personnel between the Group and the entity.

**Equity accounting method**

According to the equity accounting method, interests in associates and joint ventures are recorded on the balance sheet at their cost of acquisition, including goodwill and transaction costs. Earn-outs initially measured at fair value and subsequent adjustments are recorded as part of the cost of the investment, when their payment can be measured with sufficient reliability.

The Group's share in the profit or loss of associates and joint ventures is recognized in the income statement, and its share in movements of reserves after the acquisition is recognized in reserves. Movements after the acquisition are recorded as an adjustment to the value of the investment. The Group's share in the losses recorded by an associate and joint venture is recorded to the extent of its investment, except where the Group has a legal or implicit obligation to support the company.

Goodwill is recognized if the acquisition cost exceeds the Group's share in the net fair value of the associate's identifiable assets, liabilities, and contingent liabilities at the date of acquisition. Goodwill is included in the carrying amount of the investment and is taken into consideration in the impairment test relative to this asset.

**Notes to the Combined Financial Statements (Continued)****Note 1. Accounting Principles (Continued)****1.3.3. Foreign currency translation****Translation of foreign currency transactions**

Transactions in foreign currency are initially recorded in the functional currency of the entity at the exchange rate in force on the transaction date. At the end of the reporting period, monetary assets and liabilities denominated in foreign currency are translated into the functional currency at the closing exchange rate. All resulting translation differences are taken to profit or loss for the period.

**Translation of financial statements of foreign companies**

The financial statements of foreign companies whose functional currency is not the euro are translated into euros as follows:

- balance sheet items are translated at the closing exchange rate;
- income statement and cash flow items are translated at the average exchange rate for the financial year.

The resulting translation adjustments are recorded directly in “Cumulative translation adjustments” under equity. When the net investments in foreign operations are subsequently sold, the related cumulative translation differences carried in equity are taken to profit or loss.

**1.3.4. Revenues**

Group revenues are recognized as soon as future economic benefits are likely to flow to the Group and the revenues can be measured reliably.

Group revenues principally comprise sales of equipment, provision of services and rental of telecommunications equipment.

**Sales of equipment**

Proceeds from the sale of handsets are recognized in revenues when the risks and rewards inherent to ownership are transferred to the buyer.

**Separable elements of a bundled offer**

Revenues from telephone packages are recorded as a sale with multiple components. Revenues from sales of handsets (mobile phones and other) are recorded upon activation of the line, net of discounts granted to the customer via the points of sale and the costs of activation.

Other acquisition and retention costs, consisting in particular of premiums not associated with sales of handsets as part of telephone packages and commissions paid to distributors, are recorded in administrative and commercial expenses.

When elements of these transactions cannot be identified or analyzed separately from the main offer, they are considered as related elements and the associated revenues are recognized in full over the duration of the contract or the expected duration of the customer relationship.

**Provision of services**

Revenues from internet access subscriptions or telephone call plans (fixed or mobile) are recorded on a straight-line basis over the duration of the corresponding service.

The Group sells certain telephone subscriptions based on plans under which the call minutes for a given month can be carried over to the next month if they are not used. The minutes carried over are recorded based on the proportion of total telephone subscription revenues they represent, when the minutes are used or when they expire.

**Notes to the Combined Financial Statements (Continued)****Note 1. Accounting Principles (Continued)**

Revenues relative to incoming and outgoing calls and off-plan calls are recorded when the service is provided.

Revenues generated by vouchers sold to distributors and by prepaid mobile cards are recorded each time use is made by the end customer, as from when the vouchers and cards are activated. Any unused portion is recorded in deferred revenues at the end of the reporting period. Revenues are in any case recognized upon the expiry date of the cards, or when the use of the vouchers is statistically unlikely.

Sales of services to subscribers managed by the Group on behalf of content providers (principally special numbers and SMS+) are recorded on a gross basis, or net of repayments to the content providers in accordance with IAS 18, and in particular when the content providers are responsible for the content and determine the pricing applied to the subscriber.

The costs of access to the service or installation costs principally billed to operator and corporate clients in relation to ADSL connection services, bandwidth services, and IP connectivity services, are recognized over the expected duration of the contractual relationship and the provision of the principal service.

Revenues linked to switched services are recognized each time traffic is routed.

Revenues from bandwidth, IP connectivity, high-speed local access and telecommunications services are recorded as and when the services are delivered to the customers.

**Access to telecommunications infrastructures**

The Group provides its operator clients with access to its telecommunications infrastructures by means of different types of contracts: rental, hosting contracts or concessions of Indefeasible Rights of Use ("IRU"). The IRU contracts grant the use of an asset (ducting, fiber optic or bandwidth) for a specified—generally long—period. The Group remains the owner of the asset. Proceeds generated by rental contracts, hosting contracts in Netcenters, and infrastructure IRUs are recognized over the duration of the corresponding contracts, except where these are defined as a finance lease, in which case the equipment is considered as having been sold on credit.

In the case of IRUs, and sometimes rentals or service agreements, the service is paid in advance in the first year. These prepayments, which are non-refundable, are recorded in prepaid income and amortized over the expected term of the related agreements. Amortization is provided over a period of between 10 years and 25 years for IRUs and between 1 year and 25 years for rentals and service agreements.

**Sales of infrastructure**

The Group builds infrastructure on behalf of certain clients. Since the average duration of the construction work is less than one year, the revenues are taken into account when ownership is transferred. Revenues relative to sales of infrastructures are taken into account when ownership is transferred. A provision is recognized when any contracts are expected to prove onerous.

**Loyalty programs**

Pursuant to interpretation IFRIC 13, the Group measures the fair value of the incremental benefit granted under loyalty programs. Since this fair value was not material for the periods presented, no revenues have been deferred in this respect.

**1.3.5. Cost of sales, and commercial and distribution costs**

Cost of sales comprises the purchase cost of goods acquired (including handsets), interconnection costs, network costs and the share of personnel costs and related taxes and duties.

Commercial and distribution costs represent advertising and marketing costs, commercial costs, and customer loyalty and management costs, and are recorded in expenses as incurred.

**SFR**  
**Notes to the Combined Financial Statements (Continued)**

**Note 1. Accounting Principles (Continued)**

**1.3.6. Goodwill and business combinations**

**Business combinations after January 1, 2009**

Business combinations are recorded under the acquisition method.

The acquisition price (also called “consideration transferred”) of a subsidiary is the sum of the fair values of the assets transferred and the liabilities assumed by the purchaser on the date of acquisition and the equity instruments issued by the purchaser. The acquisition price includes any earn-outs recognized and measured at acquisition-date fair value.

Earn-outs are recorded initially at fair value, with subsequent changes in fair value taken to profit or loss.

Any costs directly attributable to the acquisition are recorded in expenses in the period in which they are incurred.

At the date of acquisition, goodwill is determined as the difference between:

- the fair value of the consideration transferred, plus any non-controlling interest in the company acquired; and
- the net balance of identifiable assets acquired and liabilities assumed at their acquisition-date fair value.

The initial valuation of the acquisition price and the fair values of the assets acquired and liabilities assumed must be finalized within 12 months of the date of acquisition (measurement period), and any adjustment is recorded as a retroactive adjustment to goodwill. Beyond the measurement period, adjustments are recorded directly in profit or loss. For each business combination, the Group can decide whether to recognize the share of non-controlling interests:

- at fair value on the date of acquisition, whereby goodwill is recognized on these non-controlling interests (full goodwill method); or
- on the basis of its share in the net identifiable assets of the acquired company measured at fair value, whereby only goodwill attributable to owners of the parent company is recognized (partial goodwill method).

Negative goodwill is recorded directly in profit or loss on the income statement.

Goodwill is not amortized but is tested for impairment whenever there is an indication that it may be impaired, and at least once a year at the reporting date. Subsequently, goodwill is measured at its original amount, less any cumulative impairment losses recorded (see Note 8.3—Goodwill impairment tests).

The following principles apply to business combinations:

- In the event of a business combination carried out in stages (step acquisition), the purchaser must remeasure any previously-held equity interest at its fair value on the date of acquisition, and record the resulting gain or loss in the income statement.
- In the event of the acquisition of an additional interest in a subsidiary, the Group records the difference between the acquisition price and the carrying amount of the non-controlling interests within changes in equity attributable to owners of the parent.

**Business combinations prior to January 1, 2009**

In compliance with IFRS 1, the Group has chosen not to restate business combinations that took place prior to January 1, 2004. The acquisition method of accounting for business combinations was already

## Notes to the Combined Financial Statements (Continued)

**Note 1. Accounting Principles (Continued)**

accepted by IFRS 3 as published by the IASB in March 2004. However, there are several key differences with the revised standard:

- Minority (non-controlling) interests are measured on the basis of their share in the net identifiable assets of the entity acquired and no fair value option exists.
- Any adjustments to the acquisition price are recorded in the cost of the acquisition only if they are likely to occur and the amounts can be measured reliably.
- Costs directly attributable to the acquisition are recorded as part of the cost of the combination.
- In the event of the acquisition of an additional interest in a combined subsidiary, the difference between the cost of the acquisition and the carrying amount of the minority (non-controlling) interests acquired is recorded in goodwill.

**1.3.7. Intangible assets****Intangible assets acquired**

Intangible assets acquired separately are recorded at their historical cost less accumulated amortization and impairment losses.

Intangible assets acquired as part of a business combination are recorded at their fair value on the date of acquisition. After initial recognition, intangible assets are recorded at historical cost.

*Operating licenses*

Operating licenses for telephony services on French territory are recorded based on the fixed amount paid upon acquisition of the license. The variable portion of the license fees, amounting to 1% of the revenues generated by these activities, cannot be reliably measured and is therefore recorded in expenses for the period in which it is incurred.

- The UMTS license is recorded at its historical cost and is amortized on a straight-line basis as from June 2004 (when the service starts) until the end of the licensing period (August 2021), which is its expected useful life.
- The GSM license, renewed in March 2006, is recorded at present value based on 4% of the annual fixed fee of €25 million and is amortized on a straight-line basis from this date until the end of the licensing period (March 2021), which is its expected useful life.
- The LTE license is recorded at its historical cost and is amortized on a straight-line basis as from the date the service starts until the end of the licensing period. The license concerning the 2.6 GHz band, acquired in October 2011, has been amortized since the end of November 2012 (end of licensing period: October 2031). The license concerning the 800 MHz band, acquired in January 2012, was activated on June 3, 2013 and will be amortized over a residual period of 18 years (end of licensing period: January 2032).

*Other intangible assets acquired*

The costs of identifying sites for relay antennas are capitalized and amortized over their useful life, which is generally ten years and corresponds to the estimated average duration of a lease.

Investments made in the context of concessions or public service contracts, and linked to the rollout of the telecommunications network, are recorded in intangible assets in accordance with interpretation IFRIC 12. The “intangible asset” model stipulated by this interpretation applies when the concession holder receives a right to bill users of the public service and the concession holder is essentially paid by the user. These intangible assets are amortized over the shorter of the estimated useful life of the categories of assets in question and the duration of the concession.

**Notes to the Combined Financial Statements (Continued)****Note 1. Accounting Principles (Continued)**

Intangible assets also comprise rights of way or access rights obtained. Amortization is generally calculated on a straight-line basis over the shorter of the contractual term and 30 years.

DSL connection costs (service access costs or SAC) billed by the local network operator on setting up unbundling for a customer are capitalized and amortized over the estimated period in which the economic benefits are expected to be consumed, i.e., between two and four years.

**Intangible assets generated internally**

Intangible assets generated internally are recorded at their historical cost less accumulated amortization and impairment losses.

Research costs are expensed as incurred. Development expenses are capitalized when the Group can demonstrate all of the following:

- the technical feasibility of completing the asset;
- its intention to complete the asset and use or sell it;
- the availability of adequate technical and financial resources to complete the asset;
- its ability to use or sell the asset;
- how the intangible asset will generate probable future economic benefits;
- its ability to measure reliably the expenditure attributable to the intangible asset during its development.

Trademarks and market shares generated internally are not recognized as intangible assets.

Capitalized development costs relating to computer software represent the costs incurred in developing products in-house. Development costs relating to computer software are capitalized when the technical feasibility can be demonstrated and the costs are considered to be recoverable.

Internal and external direct costs incurred to develop software for internal use are capitalized during the software's development phase. The costs resulting from the software's development phase generally include configuration of the software, coding, installation and testing. The costs of major upgrades and improvements that result in additional functionalities are also capitalized. These capitalized costs are amortized over four to eight years.

Subsequent expenses relative to intangible assets are capitalized only if they increase the future economic benefits associated with the corresponding specific asset. Other costs are expensed as incurred.

**Borrowing costs**

Since the method of rolling out intangible assets in stages does not generally involve a long period of preparation, the Group does not generally capitalize the borrowing costs incurred during the acquisition or production of intangible assets.

**1.3.8. Property, plant and equipment**

Property, plant and equipment are recorded at their historical cost less accumulated depreciation and impairment losses. Historical cost includes acquisition or production cost, any costs directly attributable to bringing the asset to the necessary location and condition, and the estimated costs of dismantling and removing the item and restoring the site on which it is located, to the extent of the obligations incurred. Borrowing costs that are directly attributable to assets requiring over one year to be ready for their intended use are capitalized as part of the cost of property, plant and equipment.

## Notes to the Combined Financial Statements (Continued)

**Note 1. Accounting Principles (Continued)**

However, subsequent upkeep costs (repairs and maintenance) relating to property, plant and equipment are recorded in profit or loss. Other subsequent expenditure that helps to increase the productivity or useful life of the asset are recorded as part of the cost of that asset.

When an item of property, plant and equipment consists of significant components with different useful lives, the components are recorded and depreciated separately. Depreciation is calculated on a straight-line basis over the useful life of the asset.

In the specific case of Netcenter buildings, the depreciable amount takes account of a residual value at the end of the useful life.

Property, plant and equipment principally comprise network equipment.

Useful lives are as follows:

Buildings, incl. technical buildings . . . . .	15 to 25 years
Fixtures, fittings and furniture . . . . .	5 to 10 years
Equipment and industrial tools . . . . .	5 years
Set-top boxes and access costs . . . . .	4 years
Network equipment:	
—Fiber optic/FTTH . . . . .	50 years
—Pylons . . . . .	20 years
—Other network equipment . . . . .	4 to 8 years
Miscellaneous equipment . . . . .	3 to 5 years

The estimated useful lives are regularly reviewed and any changes to estimates are recorded on a prospective basis.

Depreciation expense is recorded in either cost of sales, commercial and distribution costs, or general expenses according to the function of the asset to which it relates.

Telecommunications equipment and hardware are investments which are largely affected by technological developments: retirements or accelerated depreciation may be recorded if the Group has to retire certain technical models earlier than expected or if it has to review the estimated useful life of certain categories of equipment.

The costs of links and connections are classified as property, plant and equipment. These costs are depreciated over their useful life, i.e., eight years.

Commercial contracts under which the Group supplies telecommunications capacity are analyzed in light of interpretation IFRIC 4—*Determining Whether an Agreement Contains a Lease*:

- Indefeasible Rights of Use (“IRU”) contracts grant the use of an asset over a specified term. IRU contracts that grant a specific right of use over a determined part of the underlying asset in the form of fibers or dedicated wavelengths are treated as leases. IRU contract costs are capitalized if the duration of the right granted is for the majority of the useful life of the underlying asset, and are depreciated over the term of the contract.
- Some commercial contracts to provide capacity are defined as service agreements since in general no specific asset is made available in such contacts. Contractual fees are recorded in expenses over the period.

**FTTH rollout**

Decision No. 2009-1106 of the *Autorité de Régulation des Communications Electroniques et des Postes* (ARCEP) [French Post and Electronic Communications Regulation Authority] dated December 22, 2009 governs the rollout of fiber optic in very densely populated areas by creating joint investment rules for telephone operators. The reference offers published by the operators in compliance with the provisions of this decision are covered by IFRS, specifically IFRS 11—*Joint Arrangements*. Thus, when the Group is

## Notes to the Combined Financial Statements (Continued)

**Note 1. Accounting Principles (Continued)**

joint investor from the outset, only its share of the assets is kept in property, plant and equipment, and when it is an investor *a posteriori*, the IRU or right of use is recorded in property, plant and equipment. The same treatment is applied to joint investments in less dense populated areas as defined by the ARCEP.

**Finance lease agreements**

Lease agreements for property, plant and equipment for which substantially all risks and rewards inherent to ownership are transferred to the Group are considered as finance lease agreements.

Property, plant and equipment acquired under finance leases are recorded in property, plant and equipment with a matching entry to a liability account. Assets acquired under finance leases are capitalized based on the lower of the present value of future lease payments and market value, and the corresponding liability is recorded in "Borrowing and other financial liabilities". These assets are generally depreciated on a straight-line basis over their estimated useful life, corresponding to the useful life applied to assets of the same type owned outright, or, if the duration of the lease is shorter than the useful life of the asset leased and if it is not reasonably certain that ownership of the asset will be transferred to the lessee at the end of the lease term, over the duration of the lease.

**Site dismantling and restoration**

The Group has a contractual obligation to dismantle and restore the sites of its mobile and fixed network upon expiry of a lease, if the lease is not renewed. In light of this obligation, site restoration costs are capitalized on the basis of:

- an average unit cost of restoring sites;
- assumptions concerning the lifespan of the dismantling asset; and
- a discount rate.

**Investment subsidies**

Investment subsidies received are recorded on the balance sheet as a deduction from the property, plant and equipment to which they relate. Investment subsidies are taken to profit or loss in line with the depreciation charged against the assets financed.

**1.3.9. Impairment of goodwill, property, plant and equipment and intangible assets**

The Group reviews the carrying amount of goodwill, other intangible assets, property, plant and equipment and assets under construction each time events or changes in the market environment indicate that they may be impaired. Goodwill, intangible assets with indefinite useful lives and intangible assets under development are tested for impairment in the fourth quarter of each financial year.

The impairment test consists of comparing the recoverable amount of a fixed asset or cash-generating unit (CGU) with its carrying amount. If the recoverable amount of an asset or CGU is less than its carrying amount, the carrying amount is written down to the recoverable amount and the impairment loss is immediately recorded in the income statement under other operating expenses. In testing goodwill allocated to a CGU or group of CGUs for impairment, the impairment loss is charged first to the carrying amount of goodwill and then to the other assets pro rata to their carrying amount.

A CGU is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows generated by other assets or groups of assets. If an asset does not generate cash inflows that are largely independent of cash inflows generated by other assets or groups of assets, recoverable amount is determined by reference to cash-generating units.

## Notes to the Combined Financial Statements (Continued)

**Note 1. Accounting Principles (Continued)**

Group management monitors the return on investment relating to its acquisitions on an aggregate basis at Group level. This operating entity is the only CGU at the level of which the impairment tests are carried out.

Recoverable amount is determined as the higher of value in use and fair value less costs to sell.

The value in use of each asset or group of assets is determined using the discounted cash flows method (DCF), based on cash flow projections consistent with the most recent budget and business plan approved by management over periods spanning one to six years. The growth rates used to value the CGU are those used when preparing the CGU's budget and the business plan. For subsequent periods, the growth rates are estimated by the Group by extrapolating the rates used in the budgets and business plans. These rates do not exceed the medium- to long-term growth rates for the markets in which the Group operates. The discount rates used reflect current assessments by market participants of the time value of money and the risks specific to each asset or group of assets.

Fair value less costs to sell corresponds to the amount that could be obtained from the sale of an asset or group of assets between knowledgeable, willing parties in an arm's length transaction, less the costs of the sale. These amounts are determined by reference to market data (comparison with similar listed companies, with the value attributed to similar assets or companies during recent transactions, or stock market prices) or otherwise using the discounted cash flow method.

Impairment losses recorded against property, plant and equipment and intangible assets (excluding goodwill) may be reversed at a later date if the recoverable amount becomes once again higher than the carrying amount. However, the increased carrying amount attributable to the reversal of the impairment loss shall not exceed the carrying amount that would have been determined (net of amortization or depreciation) had no impairment loss been recognized for the asset in prior periods. Impairment losses recorded against goodwill are irreversible.

**1.3.10. Non-derivative financial assets**

In accordance with IAS 39, financial assets are classified in one of the following four categories:

- assets at fair value through profit or loss;
- held-to-maturity assets;
- loans and receivables;
- financial assets available for sale.

In accordance with IFRS 7, the information provided in the notes to the financial statements concerning financial instruments enables:

- the items to be reconciled with those presented in the balance sheet;
- the importance of financial instruments to be assessed in light of the Group's situation and financial performance;
- the nature and extent of the Group's exposure to risks arising on financial instruments to be assessed at the end of the reporting period.

Purchases and sales of financial assets are recorded at the transaction date, which is the date on which the Group has committed to the purchase or sale of assets. A financial asset is derecognized if the contractual rights to the related cash flows expire or if the asset is transferred.

At the time of initial recognition, financial assets are recorded on the balance sheet at their fair value, plus any transaction costs directly attributable to the acquisition or issuance of the asset (except for financial assets at fair value through profit or loss, for which transaction costs are recorded in profit or loss).

The fair value of the principal financial assets and liabilities on the Group's balance sheet was calculated as detailed in Note 23—Financial instruments.

**Notes to the Combined Financial Statements (Continued)****Note 1. Accounting Principles (Continued)**

A financial asset is defined as current when the maturity of the cash flows expected to derive from the instrument is less than one year.

**Financial assets at fair value through profit or loss**

These are financial assets held for trading purposes and intended to be resold in the near term.

Gains and losses resulting from changes in the fair value of financial assets in this category are recorded in profit or loss in the period in which they occur.

The main financial assets at fair value through profit or loss include UCITS.

The large majority of these assets are classified on the balance sheet under cash and cash equivalents.

**Held-to-maturity financial assets**

Financial assets held until maturity are non-derivative financial assets other than loans and receivables that have fixed or determinable payments and fixed maturity and which the Group has the intention and ability to hold to maturity. After their initial recognition, they are carried at amortized cost using the effective interest rate method.

The main held-to-maturity financial assets include financial assets linked to the Qualified Technology Equipment (QTE) operations settled in 2012. These assets are classified on the balance sheet as non-current financial assets.

**Loans and receivables**

Loans and receivables are non-derivative financial assets with fixed or determinable payments which are not listed on an active market. These assets are recognized at amortized cost using the effective interest rate method.

This category principally includes trade accounts receivable and other receivables detailed in Note 14—Trade accounts receivable and other receivables, along with the other assets such as guarantee deposits and advances to associates mentioned in Note 12—Other current and non-current assets.

Trade accounts receivable and other receivables are initially recorded on the balance sheet at their fair value. Due to their fairly short maturities, the fair value of these items generally corresponds to their nominal value, except when the impact of discounting is material.

Trade accounts receivable resulting from the Group's commercial offers include certain past-due receivables that have been impaired according to the rules defined by the Recovery and Litigation department. The impairment rates used differ according to the category of clients and/or offers, and are regularly updated to reflect the latest trends and in particular, recovery history. Where applicable, impairment may be recognized against other receivables based on the estimated risk of non-recovery.

**Financial assets available for sale**

Financial assets available for sale include non-derivative financial assets which are designated as available for sale or are not allocated to other categories of financial assets.

Financial assets available for sale are recorded at their fair value. Gains and losses on financial assets available for sale are recorded in other comprehensive income until the investment is derecognized or until it is demonstrated that it has suffered a material and other-than-temporary loss in value, on which date the cumulative gains and losses carried in other comprehensive income are reclassified to the income statement.

This category includes non-combined equity securities. These assets are classified on the balance sheet under non-current financial assets.

**Notes to the Combined Financial Statements (Continued)****Note 1. Accounting Principles (Continued)****Impairment of non-derivative financial assets**

An impairment loss is recorded on an asset or a group of financial assets if there is an objective indication of impairment resulting from one or more events occurring after the initial recognition of the asset, and these events have a negative impact on the future cash flows expected to derive from the financial asset or group of financial assets.

Impairment recognized against a financial asset at amortized cost corresponds to the difference between its carrying amount and the present value of the estimated future cash flows, discounted at the effective original interest rate.

Impairment recognized against a financial asset available for sale is calculated by reference to its fair value.

An impairment test is carried out on each material financial asset. Other assets with similar risk characteristics are grouped together for impairment testing purposes.

Impairment losses are recognized in profit or loss. Where impairment is charged against assets available for sale, the cumulative negative changes in fair value previously recognized in equity are transferred to profit or loss.

Impairment is reversed if the reversal can be objectively linked to an event occurring after it was recognized. Reversals of impairment charged against financial assets carried at amortized cost and financial assets available for sale representing interest rate instruments are recognized in profit or loss. Reversals of impairment charged against financial assets available for sale representing equity instruments are recorded directly in equity.

Impairment relative to assets recognized at cost may not be reversed.

**1.3.11. Inventories**

Inventories principally comprise packs (mobiles associated with a right to access SFR services), individual mobile phones, ADSL boxes and accessories.

Inventories are carried at the lower of cost and net realizable value. Cost principally comprises purchase costs and other supply costs, and is calculated in accordance with the weighted average cost method. Net realizable value is the estimated selling price in the normal course of business, less the estimated costs necessary to complete the sale.

**1.3.12. Cash and cash equivalents**

The "Cash and cash equivalents" caption includes bank balances, monetary UCITS which meet the specifications of AMF position No. 2011-13 and highly liquid short-term investments with an initial maturity of three months or less, readily convertible into a known amount of cash and subject to an insignificant risk of changes in value.

Marketable securities are carried at fair value through profit or loss.

**1.3.13. Non-derivative financial liabilities**

Financial liabilities include bond debt, amounts payable to Vivendi SA, commitments to purchase non-controlling interests, and other borrowings such as commercial paper, syndicated loans and finance lease liabilities. Financial liabilities also include other non-derivative financial liabilities.

**Borrowings**

The loans taken out by the Group are initially recorded at their fair value less any directly attributable costs. Subsequent to initial recognition, they are carried at amortized cost using the effective interest rate method. Issue premiums and issue costs are presented under liabilities on the balance sheet as a

## Notes to the Combined Financial Statements (Continued)

**Note 1. Accounting Principles (Continued)**

deduction of the nominal amount of the liability. Under this method, interest expense is recognized on an actuarial basis over the duration of the loan.

**Other non-derivative financial liabilities**

Other non-derivative financial liabilities comprise trade accounts payable and other payables, which are carried at their fair value on initial recognition. In light of their fairly short maturities, the fair value of other non-derivative financial liabilities mostly corresponds to their nominal value. These items are subsequently carried at amortized cost.

**Derivative financial instruments**

The Group uses various derivative financial instruments to hedge its exposure to the risk of changes in foreign exchange rates. These instruments include foreign exchange futures. All derivative financial instruments are recorded on the balance sheet at their fair value at the transaction date and are remeasured to fair value at the end of each reporting period.

The principal hedging instruments and the calculation of the fair value of derivative instruments are detailed in Note 23—Financial instruments.

**1.3.14. Provisions**

Provisions are recorded when, at the end of the period, the Group has a legal, regulatory, contractual or implicit obligation resulting from past events; it is probable that an outflow of resources representing economic benefits will be required to settle the obligation; and the amount of the obligation can be measured reliably.

If the effect of the discounting is material, provisions are determined by discounting the expected future cash flows at a pre-tax discount rate which reflects current market assessments of the time value of money. If no reliable estimate of the amount of the obligation can be made, no provision is recorded and information is provided in the notes.

Provisions mainly include:

- provisions intended to cover disputes and litigation arising in the ordinary course of the Group's operations. The estimated amount of these provisions is based on assessment of the level of risk on a case-by-case basis. The occurrence of events during proceedings may require these provisions to be re-estimated at any time;
- provisions for restructuring, which are booked when the restructuring has been announced and a detailed plan has been drawn up or its implementation begun. These provisions are not generally discounted owing to their short-term nature;
- provisions for site dismantling and restoration, which are assessed on the basis of the number of sites in question, an average unit cost of restoring sites and assumptions regarding the useful life of the dismantling asset and discount rate. When a site is dismantled, the corresponding provision is written back;
- provisions for employee benefits, which are detailed in the section below.

**1.3.15. Employee benefit schemes**

Pursuant to obligations resulting from French legislation and company agreements, the Group offers its employees retirement benefits that can take the form of an indemnity payment upon retirement, or pensions.

For defined benefit schemes, a net liability is recorded on the balance sheet. This liability is determined by independent actuaries using the projected unit credit method. This method is based on assumptions which are updated annually, such as the probability that beneficiaries will continue to be employed by

**Notes to the Combined Financial Statements (Continued)****Note 1. Accounting Principles (Continued)**

the Group on retirement, expected changes in future compensation and associated contributions, and an appropriate discount rate.

In terms of funding for these schemes, the Group has taken out insurance contracts aimed at outsourcing some or all of its obligations.

If these plan assets exceed the obligations recorded, a financial asset is recognized within the limit of the present value of future repayments and expected reductions in future contributions to the plan.

The Group records de facto employee benefit assets and liabilities together with the corresponding net expense over the entire estimated service lives of employees. Actuarial gains and losses relative to post-employment benefits are recognized in full in "Other comprehensive income" when they arise.

The cost of the schemes is recorded in operating profit, with the exception of the cost of unwinding the discount and the theoretical return on plan assets, which are recorded in other financial income and expenses.

All past service costs relating to plan changes and curtailments are immediately recorded on the income statement.

**1.3.16. Income Tax**

The Group calculates its income taxes in compliance with the tax legislation in force in the countries where earnings are taxable.

Current tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Group operates and generates taxable profit. Management periodically evaluates the tax positions taken with regard to applicable tax legislation when this is subject to interpretation, and where appropriate, determines the amounts it expects to pay to the tax authorities.

Differences at the end of the reporting period between the carrying amount of assets and liabilities in the balance sheet and their tax base represent temporary differences. In accordance with the balance sheet liability method, these temporary differences give rise to the recognition of:

- deferred tax assets, when the value of an asset for tax purposes is higher than its carrying amount and when the value of a liability for tax purposes is lower than its carrying amount (expected future tax benefit); or
- deferred tax liabilities, when the value of an asset for tax purposes is less than its carrying amount or when the value of a liability for tax purposes is higher than its carrying amount (expected future tax expense).

Deferred tax assets and liabilities are determined on the basis of the tax rates and tax laws expected to apply in the financial year in which the asset will be realized or the liability settled. These estimates are reviewed at the end of each reporting period in order to reflect any changes to the applicable tax rates.

Deferred tax assets are recorded for all deductible temporary differences, tax loss carryforwards and unused tax credits; to the extent that it is likely taxable profit will be available. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and, where applicable, adjusted to take account of the probability that taxable profit will be available against which they can be utilized. To assess the probability that taxable profit will be available, elements taken into account include the Group's earnings in previous years, future profit forecasts, and non-recurring items that are not likely to recur in the future. Accordingly, any assessment of the Group's ability to utilize its deferred tax assets is largely based on judgment. If the Group's future taxable earnings prove significantly different to those anticipated, the Group would be obliged to adjust the carrying amount of the deferred tax assets and this could have a significant impact on its balance sheet and profit.

**Notes to the Combined Financial Statements (Continued)****Note 1. Accounting Principles (Continued)**

The accounting for deferred taxes arising on the taxable earnings of companies included in the scope of Vivendi's tax consolidation is detailed in the "Corporate income tax" paragraph within the section describing the basis for preparing the combined financial statements.

Deferred tax assets and liabilities are offset when the following two conditions are met:

- the Group has a legal right to set off current tax assets and liabilities; and
- the deferred tax assets and liabilities relate to taxes levied by the same tax entity.

Taxes relative to items recognized directly in other comprehensive income are recorded in other comprehensive income and not in the income statement.

**1.3.17. Share-based payment**

In order to align the interests of directors and employees with those of shareholders by giving them an additional incentive to improve the company's performance and increase the share price over the long term, Vivendi has set up payment plans for Group directors and employees based on the Vivendi share (share purchase plans, performance share plans, free share plans) or other equity-settled equity instruments based on the Vivendi share price (share subscription options). Vivendi's Management Board and Supervisory Board have approved these awards. They have also set performance criteria for the share subscription options and performance shares that determine whether or not these instruments vest. All plans are awarded on condition that the beneficiary continues to be employed by the Group on the vesting date.

The share of plans relative to Group employees is rebilled by Vivendi SA to SFR SA.

**Recognition**

Equity-settled share-based payment plans are recognized as personnel costs at the fair value of the instruments awarded, with a matching entry to a payables account.

The fair value of the instruments awarded is estimated and fixed at the grant date using a binomial model based on assumptions revised at the measurement date such as the estimated volatility of the shares in question and a discount rate corresponding to the risk-free interest rate and estimated dividend rate. The estimated life of an option is calculated as the average of the vesting period of the rights and the contractual life of the instrument.

**1.3.18. Earnings per share**

Basic earnings per share is obtained by dividing profit for the period by the weighted average number of shares in circulation during the period.

Diluted earnings per share is obtained by dividing profit for the period by the weighted average number of shares in circulation during the period, adjusted for the effect of all existing diluting instruments.

**1.3.19. Contractual commitments, contingent assets and liabilities**

Each year, the Group draws up a detailed list of all contractual obligations, financial and commercial commitments and contingent obligations to which it is party or to which it is exposed. This list is regularly updated by the competent departments and reviewed by Group management.

**Note 2. Changes in Combination Scope****Financial Year 2011****La Poste Telecom**

In 2011, SFR and La Poste created a joint subsidiary, La Poste Telecom, owning 49% and 51% respectively. This subsidiary is a mobile virtual network operator (MVNO) addressing the mass market

and providing a wide range of mobile telephone services under the brand La Poste Mobile through the La Poste outlet network. This company is accounted under equity method in the combined financial statements of the Group.

**Financial Year 2012**

**Numergy**

On August 31, 2012, SFR together with Bull and the Caisse des Dépôts et Consignations created the company Numergy. SFR holds 46.7% stake. Numergy provides to all economic players IT infrastructures capable of hosting remotely accessed and secure data and applications, i.e. “cloud computing” services. This company is accounted under equity method in the combined financial statements of the Group.

**Note 3. Segment information**

As indicated in the basis of preparation of the combined financial statements presented in the introduction of Note 1—Accounting Principles, the Group has only identified a single operating segment in compliance with IFRS 8—*Operating Segments*.

**Geographic information**

Moreover, as the Group’s operations are located in France, a single geographical area is used.

**Information on main customers**

No customer represents more than 10% of the Group’s revenues.

**Note 4. Operating Income**

The breakdown of the elements included in the operating income is presented in Notes 1.3.4—Revenues, 1.3.5—Cost of sales, commercial and distribution costs, and 1.2.1—Combined income statement.

**4.1. Breakdown of Revenues**

	2013	2012	2011
	(in millions of euros)		
Sales of goods . . . . .	540	516	568
Sales of services . . . . .	9,658	10,772	11,615
<b>Revenues . . . . .</b>	<b>10,199</b>	<b>11,288</b>	<b>12,183</b>

**4.2. Other Operating Income and Expenses**

	2013	2012	2011
	(in millions of euros)		
<b>Other operating income . . . . .</b>	<b>2</b>	<b>11</b>	<b>14</b>
Amortization of customer bases recognized in business combinations <sup>(a)</sup> . . . . .	(66)	(66)	(67)
Restructuring costs <sup>(b)</sup> . . . . .	(93)	(187)	(12)
Other . . . . .	(10)	(17)	(6)
<b>Other operating expenses . . . . .</b>	<b>(169)</b>	<b>(270)</b>	<b>(84)</b>

(a) The amortization of customer bases recognized in business combination represents the amortization of the customer bases recognized at the acquisition of the Neuf Cegetel Group in 2008 (refer to Note 9—Intangible Assets).

**SFR**  
**Notes to the Combined Financial Statements (Continued)**

**Note 4. Operating Income (Continued)**

- (b) The restructuring costs principally include the voluntary redundancy plan launched by SFR in 2012. In 2013, the Group continued its transformation plan to adapt its business for the changing market environment and maintain its investment in very high-speed fixed and mobile. The voluntary redundancy plan closed in August 2013, and concerned 873 employees.

**4.3. Personnel Costs and Average Employee Numbers**

	2013	2012	2011
	(in millions of euros, except number of employees)		
<b>Annual average number of full-time equivalents</b> . . . . .	<b>13,870</b>	<b>14,277</b>	<b>14,455</b>
<i>Of which UES SFR<sup>(a)</sup></i> . . . . .	9,106	9,524	9,529
<i>Of which other combined entities</i> . . . . .	4,764	4,753	4,926
Salaries and wages <sup>(b)</sup> . . . . .	(734)	(652)	(632)
Social security contributions . . . . .	(301)	(294)	(271)
Capitalized personnel costs . . . . .	88	79	76
<b>Salaries and related costs</b> . . . . .	<b>(947)</b>	<b>(867)</b>	<b>(828)</b>
Share-based compensation <sup>(c)</sup> . . . . .	(27)	(32)	(23)
Employee benefit <sup>(d)</sup> . . . . .	6	(4)	(3)
Other personnel costs <sup>(e)</sup> . . . . .	(109)	(153)	(170)
<b>Personnel costs</b> . . . . .	<b>(1,077)</b>	<b>(1,056)</b>	<b>(1,025)</b>

(a) UES means the social and economic unit.

(b) The 2013 versus 2012 change essentially results from the voluntary redundancy plan.

(c) Re-invoiced in totality by Vivendi (refer to Note 17—Remunerations based on equity instruments).

(d) Cost of services delivered related to pension schemes, of which the detail is presented in Note 19—Post-Employment Benefits.

(e) The other personnel costs include profit sharing, performance-based bonuses, social security and related contributions and other employee benefits (such as contributions to employee welfare schemes, etc.).

**Note 5. Financial Income**

As net financing costs are presented directly in the income statement, other financial income and expenses are detailed hereunder:

	2013	2012	2011
	(in millions of euros)		
<b>Other financial income<sup>(a)</sup></b> . . . . .	<b>2</b>	<b>2</b>	<b>8</b>
Change in value of derivative instruments . . . . .	—	0	(40)
Effect of undiscounting liabilities <sup>(b)</sup> . . . . .	(7)	(10)	(11)
Effect of undiscounting impairment <sup>(c)</sup> . . . . .	(6)	(5)	(5)
Change in impairment on financial assets . . . . .	(1)	(9)	(0)
Other . . . . .	(10)	(10)	(12)
<b>Other financial expenses</b> . . . . .	<b>(24)</b>	<b>(34)</b>	<b>(70)</b>

(a) The other financial income mainly includes, default interest, various proceeds of bank management, and interest on long-term advances granted to equity-accounted companies.

(b) Principally concerns the debt related to the license GSM.

(c) Principally concerns the provision for employment benefits plans and the provision for site rehabilitation presented in Note 18—Provisions.

**SFR**  
**Notes to the Combined Financial Statements (Continued)**

**Note 6. Income Tax**

For information, some companies belong to a group integrated under the French Tax Group System for tax purposes as authorized under *Article 223 A du CGI et suivants*:

- SFR S.A., since 2011, and since 2012 a few subsidiaries more than 95% owned, are included in the tax group system, where Vivendi is the head company of the Group. The tax each member company is liable to pay is paid by Vivendi, which is alone liable to the tax authorities.
- CID S.A. formed a tax group system from January 1, 2010 with the subsidiaries more than 95% owned by it. CID is also solely liable for corporate income tax of which it is the parent company.

**6.1. Breakdown of income tax**

	2013	2012	2011
	(in millions of euros)		
Income tax expense			
Current	(282)	(559)	(566)
Deferred	(33)	43	31
<b>Income tax</b>	<b>(315)</b>	<b>(516)</b>	<b>(535)</b>
<b>Total income tax paid</b>	<b>(299)</b>	<b>(537)</b>	<b>(643)</b>

**6.2. Tax proof**

	2013	2012	2011
	(in millions of euros)		
Net income	426	752	1,400
<i>Adjustment:</i>			
Income tax	(315)	(516)	(535)
Net income from discontinued operations	—	—	—
<b>Pretax income from continuing operations</b>	<b>742</b>	<b>1,267</b>	<b>1,935</b>
French statutory tax rate	38.0%	36.1%	36.1%
<b>Theoretical income tax</b>	<b>(282)</b>	<b>(458)</b>	<b>(699)</b>
<i>Reconciliation of the theoretical and effective tax rate</i>			
Permanent differences <sup>(a)</sup>	(22)	(40)	(4)
Tax credits/Additional tax demands	(2)	(1)	4
Assessment of deferred tax assets <sup>(b)</sup>	(5)	(7)	169
Net income(loss) of equity-accounted affiliates	(5)	(10)	(6)
<b>Income tax</b>	<b>(315)</b>	<b>(516)</b>	<b>(535)</b>
Effective tax rate	42.5%	40.7%	27.6%

(a) Mainly includes, the impact of consolidating 15% of the financial interest calculated on amounts provided to the Group and the tax loss carry-forwards passed on to Vivendi under the Consolidated Global Profit Tax System.

(b) As of December 12, 2011, an amount of €452 million in tax loss carry-forwards was transferred to SFR SA as part of the merger with VTI. These tax loss carry-forwards, which were not recognized, were entirely used up over financial year 2011. The impact on the reconciliation between theoretical income tax and actual income tax at end 2011 amounted to €163 million.

## SFR

## Notes to the Combined Financial Statements (Continued)

## Note 6. Income Tax (Continued)

## 6.3. Changes in Deferred Taxes by Type Changes in deferred tax assets/(liabilities)

The breakdown of deferred tax assets and liabilities by nature for years ended 2011 to 2013 is as follows:

*Financial year 2013*

	Opening Balance	Income statements	Other	Closing Balance
	(in millions of euros)			
Deferred tax assets				
Tax losses carry forward . . . . .	65	8	(0)	73
Provisions . . . . .	134	(45)	3	92
Fixed assets . . . . .	105	10	(0)	115
Other . . . . .	67	(7)	(0)	60
Offsetting <sup>(a)</sup> . . . . .	(136)	—	12	(124)
<b>Gross deferred tax assets . . . . .</b>	<b>235</b>	<b>(34)</b>	<b>15</b>	<b>216</b>
Unrecognized assets				
Tax losses carry forward . . . . .	(61)	(9)	0	(69)
Other . . . . .	(17)	(3)	(0)	(20)
<b>Net deferred tax assets . . . . .</b>	<b>157</b>	<b>(45)</b>	<b>15</b>	<b>127</b>
Deferred tax liabilities				
Fixed assets . . . . .	(104)	23	(0)	(82)
Other . . . . .	(33)	(10)	0	(44)
Offsetting <sup>(a)</sup> . . . . .	136	—	(12)	124
<b>Deferred tax liabilities . . . . .</b>	<b>(1)</b>	<b>12</b>	<b>(12)</b>	<b>(2)</b>
<b>Net deferred tax assets (liabilities) . . . . .</b>	<b>156</b>	<b>(33)</b>	<b>2</b>	<b>125</b>

*Financial Year 2012*

	Opening Balance	Income statement	Other	Closing Balance
	(in millions of euros)			
Deferred tax assets				
Tax losses carry forward . . . . .	61	3	0	65
Provisions . . . . .	60	69	5	134
Fixed assets . . . . .	127	(21)	0	105
Other . . . . .	81	(14)	(0)	67
Offsetting <sup>(a)</sup> . . . . .	(157)	—	20	(136)
<b>Gross deferred tax assets . . . . .</b>	<b>173</b>	<b>36</b>	<b>26</b>	<b>235</b>
Unrecognized assets				
Tax losses carry forward . . . . .	(51)	(9)	—	(61)

## SFR

## Notes to the Combined Financial Statements (Continued)

## Note 6. Income Tax (Continued)

## Financial Year 2011

	Opening Balance	Income statement	Other	Closing Balances
	(in millions of euros)			
Deferred tax assets				
Tax losses carry forward . . . . .	55	(156)	162	61
Provisions . . . . .	57	5	(2)	60
Fixed assets . . . . .	131	(8)	4	127
Other . . . . .	124	(18)	(25)	81
Offsetting <sup>(a)</sup> . . . . .	(195)	—	38	(157)
<b>Gross deferred tax assets</b> . . . . .	<b>171</b>	<b>(176)</b>	<b>178</b>	<b>173</b>
Unrecognized assets				
Tax losses carry forward . . . . .	(42)	153	(162)	(51)
Other . . . . .	(29)	17	(1)	(13)
<b>Net deferred tax assets</b> . . . . .	<b>100</b>	<b>(7)</b>	<b>15</b>	<b>109</b>
Deferred tax liabilities				
Fixed assets . . . . .	(151)	17	0	(133)
Other . . . . .	(46)	21	2	(24)
Offsetting <sup>(a)</sup> . . . . .	195	—	(38)	157
<b>Deferred tax liabilities</b> . . . . .	<b>(2)</b>	<b>38</b>	<b>(36)</b>	<b>(0)</b>
<b>Net deferred tax assets (liabilities)</b> . . . . .	<b>98</b>	<b>31</b>	<b>(21)</b>	<b>108</b>

(a) In accordance with IAS 12, the deferred tax assets and liabilities of the same tax entity are offset insofar as they are related to income taxes levied by the same tax authority. The company has the legal right to offset its tax assets and liabilities.

## Note 7. Earnings Per Share

As the combined group was not constituted on this date, the number of shares in circulation is not determinable. Consequently, no earnings per share are presented in the Combined Financial Statements.

## Note 8. Goodwill

## 8.1. Goodwill

	2013	2012	2011
	(in millions of euros)		
Goodwill, Gross . . . . .	5,194	5,194	5,194
Impairment . . . . .	(6)	(6)	(6)
<b>Goodwill</b> . . . . .	<b>5,188</b>	<b>5,188</b>	<b>5,188</b>

This amount includes notably the goodwill generated on the goodwill of Neuf Cegetel, which was €4,837 million.

## Notes to the Combined Financial Statements (Continued)

## Note 8. Goodwill (Continued)

## 8.2. Net change in Goodwill

	2013	2012	2011
	(in millions of euros)		
Gross value at opening balance	5,194	5,194	5,212
Acquisitions	0	1	—
Decreases	—	—	(18)
Gross value at closing balance	5,194	5,194	5,194
Impairment losses at opening balance	(6)	(6)	(6)
Change	—	—	—
Impairment losses at closing balance	(6)	(6)	(6)
Net value at end of period	5,188	5,188	5,188

## 8.3. Goodwill impairment Test

The return on investment of acquisitions is monitored at Group level, the only operating sector on which impairment tests are carried out.

## Main assumptions applied to determine the recoverable values

The recoverable value is determined upon the basis of the usual valuation methods, particularly the value in use, based upon the DCF approach.

In this respect, for 2013 the projected cash flow and the financial parameters used are the most recent approved by Management and updated to take account of the strong impact on revenues from the pricing policies decided by the Group in a tougher competitive environment, partially offset by cost savings in line with expectations under the company transformation plan, while maintaining a high level of investments, principally due to the increasing rate of investment in very high-speed mobile.

The projection is based on the 2014-2019 business plan established by Management, which has been projected over five additional years.

The assumptions used for discounting rates and the perpetual growth rate are presented as follows:

	2013	2012	2011
Basis used for recoverable value	Value in use	Value in use	Value in use
Methodology	DCF & comparables model	DCF & comparables model	DCF & comparables model
Discount rate after tax	7.30%	7.30%	7.00%
Perpetual growth rate	0.5%	0.5%	1.0%

On the basis of these assumptions, Management, with the help of independent evaluators, has implemented an impairment test for goodwill, and concluded that the recoverable value of the Group exceeded its book value as of December 31, 2013. The Group therefore did not record any impairment loss as of December 31, 2013 or during the previous periods presented.

## Notes to the Combined Financial Statements (Continued)

## Note 8. Goodwill (Continued)

## Sensitivity of recoverable amounts

Over the periods analyzed, the recoverable amount would be equal to the carrying amount if the main assumptions evolved as follows:

	Discount rate		Perpetual growth rate		Discounted cash flows
	Applied rate (%)	Increase in the discount rate in order for the recoverable amount to be equal the carrying amount (in number of points)	Applied rate (%)	Decrease in the perpetual growth rate in order for the recoverable amount to be equal to the carrying amount (in number of points)	Decrease in the discounted cash flows in order for the recoverable amount to be equal to the carrying amount (%)
2013 .....	7.30%	0.60 pt	0.50%	– 1.25 pt	– 10%
2012 .....	7.30%	3.00 pt	0.50%	– 7.00 pt	– 34%
2011 .....	7.00%	5.30 pt	1.00%	– 14.03 pt	– 51%

## Note 9. Intangible Assets

## 9.1. Intangible Assets by nature

The breakdown of intangible assets by nature is as follows:

	2013		
	Gross	Amortization and impairment losses	Net
	(in millions of euros)		
Acquired software .....	2,061	(1,737)	323
Software developed internally .....	2,695	(1,854)	841
Licenses <sup>(a)</sup> .....	2,505	(620)	1,885
Customer databases <sup>(b)</sup> .....	562	(476)	86
Other <sup>(c)</sup> .....	1,532	(736)	796
	<b>9,355</b>	<b>(5,424)</b>	<b>3,931</b>

	2012			2011		
	Gross	Amortization and impairment losses	Net	Gross	Amortization and impairment losses	Net
	(in millions of euros)					
Acquired software .....	1,967	(1,653)	314	1,870	(1,527)	343
Software developed internally .....	2,438	(1,629)	810	2,135	(1,417)	719
Licenses <sup>(a)</sup> .....	2,505	(503)	2,002	1,244	(430)	814
Customer databases <sup>(b)</sup> .....	562	(410)	152	562	(344)	218
Other <sup>(c)</sup> .....	1,451	(646)	805	1,541	(516)	1,024
	<b>8,923</b>	<b>(4,841)</b>	<b>4,082</b>	<b>7,352</b>	<b>(4,235)</b>	<b>3,117</b>

(a) The gross amount includes notably:

- the UMTS license for €619 million (acquired in 2001 for the provision of third-generation mobile telephone services in France) and the new frequencies, acquired in June 2010 for €300 million, amortizable over 20 years;
- the GSM license for €278 million. In March 2006, the French government granted SFR S.A. the right to continue to operate this license for 15 years. The license is recorded for its present value (refer to Note 1.3.7—Intangible Assets);

## Notes to the Combined Financial Statements (Continued)

**Note 9. Intangible Assets (Continued)**

- the LTE license for €150 million acquired in October 2011 under the allocation of 4G frequencies in the 2.6 Ghz band, and for €1,065 million acquired in January 2012 under the allocation of 4G frequencies in the 800 MHz band.

(b) Includes:

- the Neuf Cegetel customer base, valued upon acquisition at €464 million,
- the FrNet2 customer base, valued upon acquisition at €98 million.

(c) Mainly includes site search costs, concession contracts (IFRIC 12), rights of way and service access costs.

**9.2. Net Changes in Intangible Assets**

The analysis of the change of intangible assets is as follows:

	2013	2012	2011
	(in millions of euros)		
<b>Opening balance</b> . . . . .	<b>4,082</b>	<b>3,117</b>	<b>3,077</b>
Amortization and impairment losses . . . . .	(729)	(709)	(661)
Acquisitions . . . . .	586	1,685	718
Disposals/Write-down . . . . .	(4)	(4)	(6)
Changes in combination scope . . . . .	0	—	(5)
Other . . . . .	(4)	(8)	(5)
<b>Closing balance</b> . . . . .	<b>3,931</b>	<b>4,082</b>	<b>3,117</b>

The LTE license in the 800 MHz band was activated on June 3, 2013 and will be amortized over a remaining duration of 18 years (end of licensing: January 2032).

**9.3. Breakdown of Net Allocations to Amortizations and Impairment Losses**

The changes in amortizations and impairment losses are included by destination in the various components of the operating income.

They concern:

	2013	2012	2011
	(in millions of euros)		
Acquired software . . . . .	(144)	(162)	(178)
Software developed internally . . . . .	(229)	(215)	(194)
Licenses . . . . .	(117)	(73)	(72)
Customer bases . . . . .	(66)	(66)	(67)
Other intangible assets . . . . .	(172)	(193)	(151)
	<b>(729)</b>	<b>(709)</b>	<b>(661)</b>

Expenses incurred during the development phases of the Network service projects and the information system development projects are eligible for capitalization. The capitalized amount under intangible assets amounted to €249 million in 2013, as compared with €263 million in 2012 and €264 million in 2011.

## Notes to the Combined Financial Statements (Continued)

**Note 10. Tangible Assets****10.1. Property, plant and equipment by nature**

The breakdown of Property, plant and equipment is as follows:

	2013			2012			2011		
	Amortization and impairment losses			Amortization and impairment losses			Amortization and impairment losses		
	Gross		Net	Gross		Net	Gross		Net
	(in millions of euros)								
Land . . . . .	78	(1)	76	98	(1)	97	84	(1)	83
Buildings . . . . .	2,900	(1,614)	1,286	2,744	(1,563)	1,182	1,938	(1,083)	855
Equipment and machinery . . . . .	5,326	(3,267)	2,058	5,237	(3,207)	2,030	5,532	(3,310)	2,221
Work in progress . . . . .	301	—	301	315	—	315	284	—	284
Other . . . . .	2,397	(1,587)	810	2,218	(1,374)	844	2,168	(1,367)	801
	<u>11,002</u>	<u>(6,470)</u>	<u>4,532</u>	<u>10,613</u>	<u>(6,145)</u>	<u>4,468</u>	<u>10,005</u>	<u>(5,762)</u>	<u>4,244</u>

The buildings are principally composed of the hosting of technical sites, buildings and their respective fittings. Technical equipment principally includes network equipment (radio, switching, network administration, network core) and transmissions.

Work in progress, among other things, equipment and network infrastructures.

**10.2. Net Changes in Property, plant and equipment**

Analysis of the changes in Property, plant and equipment is as follows:

	2013	2012	2011
	(in millions of euros)		
<b>Opening balance . . . . .</b>	<b>4,468</b>	<b>4,244</b>	<b>4,041</b>
Amortization and write-off . . . . .	(932)	(868)	(914)
Acquisitions/Increase . . . . .	1,079	1,080	1,127
Disposal . . . . .	(21)	(17)	(15)
Changes in combination scope . . . . .	(61)	12	(1)
Other . . . . .	(2)	17	6
<b>Closing balance . . . . .</b>	<b><u>4,532</u></b>	<b><u>4,468</u></b>	<b><u>4,244</u></b>

**10.3. Breakdown of Depreciation and Impairment Losses**

The changes in depreciation and impairment losses are included by destination in the various components of the operating income.

**SFR**  
**Notes to the Combined Financial Statements (Continued)**

**Note 10. Tangible Assets (Continued)**

They concern:

	2013	2012	2011
	(in millions of euros)		
Buildings . . . . .	(118)	(115)	(124)

(a) SFR, Bull and the Caisse des Dépôts created the company Numergy, which offer secure IT infrastructures capable of hosting remotely accessible and secure data and applications, i.e. “cloud computing” services (cf. Note 2—Changes in consolidation scope). Only 25% of the Group’s share (in the total amount of €105 million), has been paid up. The remaining unpaid portion was recognized as Liabilities in the amount of €79 million (cf. Note 22—Other current and non-current liabilities).

# SFR

## Notes to the Combined Financial Statements (Continued)

### Note 11. Equity-Accounted Affiliates (Continued)

- (b) SFR and La Poste created La Poste Telecom, holding 49% and 51% respectively. This subsidiary is a mobile virtual network operator (MVNO) in the retail market under the La Poste Mobile brand name (cf. Note 2—Changes in Consolidation scope).

The negative value of the equity-accounted associated of La Poste Telecom was recognized at zero with an offsetting entry in provisions for contingencies and liabilities in the amount of €14 million at end 2013.

- (c) On February 18, 2010, a consortium formed with SFR, Vinci and AXA (each at 30%) and TDF (10%) signed the GSM-R public/private partnership agreement with Réseau Ferré de France. This agreement, of a duration of 15 years and a total amount of €1 billion, covers the financing, construction, operation and maintenance of a digital telecommunications network that enables to conference mode communications (voice and data) between train drivers and team on the ground. It will be rolled out progressively over 14,000 km of conventional and high-speed railway lines in France. The negative value of the equity-accounted associated of Synerail was recognized at reduced to zero with an offsetting entry in provisions for contingencies and liabilities in the amount of €5 million at end 2013.

- (d) SFR and Vinci Immobilier, a subsidiary of Vinci Group, have four equally owned joint subsidiaries, Foncière Rimbaud 1, Foncière Rimbaud 2, Foncière Rimbaud 3 and Foncière Rimbaud 4, within the framework of construction of the registered office of SFR in Saint-Denis. This project, which may change over time, will be undertaken in two stages, and works will be staggered until the end of 2015. The first stage of buildings (surface area of 74,000 m<sup>2</sup>) carried by Foncière Rimbaud 1 and Foncière Rimbaud 2 was delivered at end 2013. The second stage carried by Foncière Rimbaud 3 and Foncière Rimbaud 4 is under construction.

Foncière Rimbaud 3 and 4, which used to be fully consolidated, have been equity-accounted since April 2013.

The group % interests of these main equity-accounted affiliates are indicated in Note 27—List of combined entities.

### 11.2. Condensed Financial Information

The condensed financial information relative to equity-accounted affiliates is presented in the following tables.

	Numergy		La Poste Telecom

(a) The Group considers that there is no significant uncollectibility risk for unprovisioned overdue receivables (refer to Note 23.6—Credit and counterparty risks—paragraph “Accounts receivable and other receivables”).

(b) At end 2013, employee and tax receivables were principally made up of the following elements:

- Value-added tax: €355 million
- Territorial economic tax (CET): €71 million
- Tax on electronic communications (TCE—Copé): €61 million
- Tax on television services (TST—COSIP): €26 million

**Note 16. Information on Equity**

**Dividends paid to shareholders during financial years 2011, 2012 and 2013:**

The dividends paid for financial year 2010 amounted to €1,000 million. These dividends were paid in the form of an interim dividend in January 2011.

The dividends paid for financial year 2011 amounted to €1,423 million. These dividends were paid in the form of an interim dividend in June 2011 in the amount of €454 million, and the balance in April 2012 in the amount of €968 million.

The dividends paid for financial year 2012 amounted to €982 million. These dividends were paid in March 2013.

The Group does not plan to distribute dividends for financial year 2013.

**Management of capital risk:**

The financial structure of the Group comprises borrowing and financial debts, cash and cash equivalents and equity, which includes reserves and equity attributable to non-controlling interests as detailed in the statement of change of equity.

**Note 17. Remunerations based on Equity Instruments**

**17.1. Plans allocated by Vivendi to Employees of SFR**

**17.1.1. Characteristics of the Various Plans Allocated by Vivendi**

Vivendi has granted several share-based compensation plans founded on the Vivendi share and intended for employees of SFR.

During 2012 and 2011, Vivendi granted stock option and performance share plans, wherever the fiscal residence of the beneficiaries and bonus share plan for employees of all the group's French subsidiaries.

In 2013, the Supervisory Board decided, upon the recommendation of the Management Board and General Management and the advice of the Human Resources Committee, that all grants would be made in the form of performance shares, wherever the fiscal residence of the beneficiaries.

In addition, in 2013, 2012 and 2011, Vivendi granted stock purchase plans to its employees and retirees (employee stock purchase and leveraged plans).

The accounting methods applied to value and recognize these granted plans are described in Note 1.3.18—Remunerations paid in shares. More specifically, the risk-free interest rate applied is the rate of French "Obligations Assimilables du Trésor" (OAT) with a maturity corresponding to the expected term of the instrument at the valuation date, and the expected dividend yield at grant date is based on Vivendi's dividend distribution policy.

As a reminder, the volatility applied in valuing the stock option plans granted by Vivendi in 2012 and 2011 was calculated as the weighted average of (a) 75% of the historical volatility of Vivendi shares computed on a 6.5-year period and (b) 25% of the implied volatility based on Vivendi put and call options traded on a liquid market with a maturity of 6 months or more.

**SFR**  
**Notes to the Combined Financial Statements (Continued)**

**Note 17. Remunerations based on Equity Instruments (Continued)**

**Instruments settled by the issuance of shares**

The definitive grant of equity-settled instruments, excluding the 2012 bonus share plan, is subject to the satisfaction of performance conditions. Such performance conditions include an external indicator, thus following AFEP and MEDEF recommendations. The objectives underlying the performance conditions are determined by the Supervisory Board upon proposal by the Human Resources Committee.

The value of the equity-settled instruments is estimated and set at grant date. For the main 2013, 2012 and 2011 performance share, stock option and bonus share plans, the applied assumptions were as follows:

	2013	2012	2011	
Date of grant . . . . .	February 22	July 16 <sup>(a)</sup>	April 17	April 13
<i>Data at grant date:</i>				
Option strike price (in euros) <sup>(b)</sup> . . . . .	N/A	N/A	13.63	19.93
Share price (in euros) . . . . .	14.91	15.75	12.53	20.56
Expected volatility . . . . .	N/A	N/A	27%	25%
Expected dividend yield . . . . .	6.71%	6.35%	7.98%	7.30%
Performance conditions achievement rate <sup>(c)</sup> . . . . .	100%	N/A	100%	100%

N/A: not applicable.

(a) Vivendi granted 50 bonus shares to the employees of all the group's French subsidiaries, including SFR (refer to *infra*).

(b) In accordance with legal requirements, the number and strike price of stock options, as well as the number of performance shares in connection with outstanding plans, were adjusted to take into account the impact, for the beneficiaries of the following distributions by a withdrawal from reserves:

- on May 9, 2012: grant to each shareholder of one bonus share per 30 shares held; and
- on May 17, 2013: dividend distribution with respect to fiscal year 2012.

These adjustments have no impact on share-based compensation expense related to the relevant stock option and performance share plans.

(c) Since 2012, achievement of the objectives underlying the performance conditions has been assessed over two years (each year over two years for the plans allocated in 2011). The final grant is effective according to fulfillment of the following performance criteria:

- internal indicator (70%): EBITA margin as a function of the cumulative income from the past two fiscal years, for the plans allocated in 2013 and 2012 (compared to the adjusted net income (45%), and cash flow from operations (25%) for the plans allocated in 2011);
- external indicators (30%): performance of Vivendi's share price over two years, according to the Dow Jones Stoxx Telecom index (21% for plans allocated in 2013 and 2012, compared to 18% for the plans allocated in 2011) and according to the Media index comprised of a pre-established panel (9% for plans allocated in 2013 and 2012, compared to 12% for plans allocated in 2011).
- The definitive grant of stock options and performance shares of April 17, 2012 became effective as of December 31, 2013. The acquisition of these instruments is conditional upon active employment at the vesting date.

With regard to stock options and performance shares of April 13, 2011, the final grant became effective as of December 31, 2012.

**Performance share plans based on the value of Vivendi**

Performance shares granted in 2013, 2012 and 2011 will vest at the end of a two-year period. The compensation cost is therefore recognized on a straight-line basis over the vesting period. Performance shares are available at the end of a four-year period from the date of grant. However, as the shares granted are ordinary shares of the same class as existing shares making up the share capital of Vivendi SA, employee shareholders are entitled to the dividends and voting rights attached to these shares from the end of the two-year vesting period. The recognized compensation cost corresponds to

**SFR**  
**Notes to the Combined Financial Statements (Continued)**

**Note 17. Remunerations based on Equity Instruments (Continued)**

the value of the equity instruments received by the beneficiary, and is equal to the difference between the fair value of the shares to be received and the discounted value of dividends that were not received over the vesting period.

On February 22, 2013, 717,000 performance shares were granted, compared to 552,000 granted on April 17, 2012 and 492,000 granted on April 13, 2011. After taking account of a discount for non-transferability, 8.3% of the share price as of February 22, 2013 (7.1% as of April 17, 2012 and 4.5% as of April 13, 2011), the fair value of each granted performance share was €11.79, as compared with €9.80 per share as of April 17, 2012 and €16.84 as of April 13, 2011, corresponding to a global fair value of €8 million (€5 million in 2012 and €8 million in 2011).

***Stock option plans based on the value of Vivendi***

Stock options granted in 2012 and 2011 will vest at the end of a three-year period and expire at the end of a ten-year period (with a 6.5 year expected term) and the compensation cost determined at grant date is recognized on a straight-line basis over the vesting period. In 2013, Vivendi did not grant any stock options. On April 17, 2012, 495,000 stock options were granted, compared to 610,000 options on April 13, 2011. After taking into account a 2.35% risk-free interest rate (3.21% in 2011), the fair value of each option granted was €0.96 (compared to €2.16 per option as of April 13, 2011), corresponding to a global fair value of €0.5 million (€1.3 million in 2011).

***Free allocation plan of 50 shares***

On July 16, 2012, Vivendi granted a 50 bonus share plan per employee of all the group's French subsidiaries, including SFR. These shares will be issued at the end of a two-year period, i.e., July 17, 2014, subject to the employee being in active employment at this date and without any performance conditions. The compensation cost is therefore recognized on a straight-line basis over this period. The shares will only be available after another two-year period. However, as the shares granted are ordinary shares of the same class as existing shares making up the share capital of Vivendi SA, employee shareholders will be entitled to the dividend and voting rights relating to these shares from the end of the two year vesting period.

On July 16, 2012, 500,000 bonus shares were granted. After taking into account a discount for non-transferability of 9.3% of the share price on July 16, 2012, the fair value of each granted bonus share was €12.40, a total of €6 million.

**Employee stock purchase and leveraged plans subscribed by the employees of SFR**

Vivendi also maintains share purchase plans (stock purchase and leveraged plans) that allow substantially all of SFR employees and retirees to purchase Vivendi shares through capital increases reserved to them. These shares, which are subject to certain sale or transfer restrictions, may be purchased by employees with a maximum discount of 20% on the average opening market price for Vivendi shares during the 20 trading days preceding the date of approval of the share capital increase by the Management Board (purchase date). The difference between the subscription price of the shares and the share price on the date of grant (corresponding to the subscription period closing date) represents the benefit granted to the beneficiaries. Furthermore, Vivendi applies a discount for non-transferability in respect of the restrictions on the sale or transfer of the shares during a five-year period, which is deducted from the benefit granted to the employees. The value of the stock purchase plans granted is estimated and fixed at the grant date.

**SFR**

**Notes to the Combined Financial Statements (Continued)**

**Note 17. Remunerations based on Equity Instruments (Continued)**

For the employee stock purchase and leveraged plans subscribed in 2013, 2012 and 2011, the applied valuation assumptions were as follows:

For the Group savings plans and leverage plans subscribed in 2013, 2012 and 2011, the valuation assumptions used are as follows:

	<u>2013</u>	<u>2012</u>	<u>2011</u>
Grant date . . . . .	June 28	June 25	June 23
Subscription price (in euros) . . . . .	12.10	10.31	15.27
<i>Data at grant date:</i>			
Share price (in euros) . . . . .	14.55	13.57	18.39
Discount to face value . . . . .	16.82%	24.02%	16.97%
Expected dividend yield . . . . .	6.87%	7.37%	8.16%
Risk-free interest rate . . . . .	1.19%	1.37%	2.44%
5-year interest rate in fine . . . . .	6.08%	6.51%	6.15%
Repo rate . . . . .	0.36%	0.36%	0.36%

Under the employee stock purchase plans 1,505,000 shares were subscribed in 2013 (compared to 1,541,000 shares in 2012 and 1,381,000 shares in 2011). After taking into account a 15.2% discount for non-transferability to the share price on the grant date (15.3% in 2012 and 10.0% in 2011), the fair value per subscribed share on June 28, 2013 was €0.24, compared to €1.18 per share subscribed on June 25, 2012 and €1.28 per share subscribed on June 23, 2011.

Under the leveraged plans, virtually all employees and retired employees of SFR were entitled to subscribe for Vivendi shares through a reserved share capital increase, while obtaining a discounted subscription price, and to ultimately receive the capital gain (calculated pursuant to the terms and conditions of the plan) corresponding to 10 shares for one subscribed share. A financial institution mandated by Vivendi hedges this transaction.

In 2013, 6,225,000 shares were subscribed under the leverage plan (compared to 6,591,000 shares subscribed in 2012 and 4,537,000 shares subscribed in 2011). After taking into account a 1.5% discount for non-transferability measured after the leveraged impact (unchanged in relation to 2012 and 1.0% in 2011), the fair value per share subscribed on June 28, 2013 amounted to €2.23, compared with €3.05 per share subscribed on June 25, 2012 and €2.94 per share subscribed on June 23, 2011.

In 2013, the charge recognized with respect to employee stock purchase and leveraged plans amounted to €14 million (as compared with €22 million in 2012 and €15 million in 2011).

**Notes to the Combined Financial Statements (Continued)**

**Note 18. Provisions (Continued)**

The tables of the previous financial years are presented below:

2012						
	Opening Balance	Allocations	Utilization	Recoveries and changes of estimates	Other changes	Closing Balance
	(in millions of euros)					
Staff benefit schemes . . . . .	50	7	(0)	(1)	15	72
Restructuring . . . . .	9	170	(0)	—	(8)	170
Site renovation costs . . . . .	55	3	(3)	—	10	65
Litigation and other . . . . .	259	89	(30)	(60)	16	274
<b>Provisions . . . . .</b>	<b>372</b>	<b>271</b>	<b>(33)</b>	<b>(61)</b>	<b>32</b>	<b>581</b>
<i>Current provisions . . . . .</i>	<i>236</i>	<i>256</i>	<i>(30)</i>	<i>(54)</i>	<i>—</i>	<i>408</i>
<i>Non-current provisions . . . . .</i>	<i>137</i>	<i>14</i>	<i>(3)</i>	<i>(7)</i>	<i>32</i>	<i>173</i>

2011						
	Opening Balance	Allocations	Utilization	Recoveries and changes of estimates	Other changes	Closing Balance
	(in millions of euros)					
Staff benefit schemes . . . . .	45	6	(0)	(1)	0	50
Restructuring . . . . .	1	—	(1)	(6)	14	9
Site renovation costs . . . . .	49	3	(2)	—	4	55
Litigation and other . . . . .	271	92	(40)	(63)	(1)	259
<b>Provisions . . . . .</b>	<b>366</b>	<b>101</b>	<b>(43)</b>	<b>(69)</b>	<b>17</b>	<b>372</b>
<i>Current provisions . . . . .</i>	<i>260</i>	<i>56</i>	<i>(31)</i>	<i>(52)</i>	<i>3</i>	<i>236</i>
<i>Non-current provisions . . . . .</i>	<i>106</i>	<i>45</i>	<i>(11)</i>	<i>(17)</i>	<i>14</i>	<i>137</i>

**Note 19. Post-Employment Benefits**

All employees of the Group benefit from severance pay in accordance with the collective agreement of the company to which they are attached.

**19.1. Assumptions used for Evaluation**

The actuarial debt is evaluated using the following assumptions:

	2013	2012	2011
Discount rate . . . . .	3.00%	3.25%	4.50%
Salary increase rate . . . . .	2.75%	2.75%	2.75%

The demographic assumptions are specific to each company. The discount rate is based on the “iBoxx € Corporates AA” rate.

The proceeds of interest on the hedging assets are determined on the basis of the discount rate.

These hedging assets are invested in the general fund Cardiff, which is principally composed of bonds.

SFR

Notes to the Combined Financial Statements (Continued)

**Note 19. Post-Employment Benefits (Continued)**

**19.2. Analysis of Net Benefit obligation under Pensions and Post retirement Benefits**

The analysis of the change in net benefit obligations is presented in the tables below:

**Changes in the value of Benefit obligations**

	2013	2012	2011
	(in millions of euros)		
Benefit obligation at the beginning of the year . . . . .	73	52	48
Current services cost . . . . .	7	5	5
Interest cost . . . . .	2	2	2
Benefits for the period . . . . .	(0)	(0)	(1)
Scheme reduction <sup>(a)</sup> . . . . .	(12)	(1)	—
Settlement . . . . .	—	—	(0)
Curtailment . . . . .	—	—	(1)
Actuarial differences (profits)/losses . . . . .	7	15	(0)
<b>Benefit obligation at the end of year . . . . .</b>	<b>77</b>	<b>73</b>	<b>52</b>
<i>Including commitments not financed . . . . .</i>	<i>76</i>	<i>71</i>	<i>50</i>
<i>Including commitments totally or partially financed . . . . .</i>	<i>0</i>	<i>2</i>	<i>2</i>

(a) The scheme reduction of €12 million in 2013 corresponds to the impact of the voluntary redundancy scheme launched by SFR in 2012 (refer to Note 4.2—Other operating income and expenditure).

**Changes to fair value of plan assets**

	2013	2012	2011
	(in millions of euros)		
Fair value of plan assets at start of year . . . . .	3	3	3
Benefits paid by the fund . . . . .	—	—	(1)
Actuarial differences (profits)/losses on return . . . . .	—	0	—
Return expected from the hedge funds . . . . .	0	0	0
<b>Fair value of plan assets at end of year . . . . .</b>	<b>3</b>	<b>3</b>	<b>3</b>

**Net liabilities recorded**

	2013	2012	2011
	(in millions of euros)		
Net liabilities recorded at start of year . . . . .	(70)	(49)	(45)
Expenditure for the period . . . . .	(9)	(7)	(5)
Benefits reducing commitment . . . . .	0	0	0
Scheme reduction . . . . .	12	1	—
Scheme settlement . . . . .	—	—	0
Actuarial differences profits/(losses) in overall earnings . . . . .	(7)	(15)	0
<b>Net liabilities recorded at end of year . . . . .</b>	<b>(74)</b>	<b>(70)</b>	<b>(49)</b>

**SFR**

**Notes to the Combined Financial Statements (Continued)**

**Note 19. Post-Employment Benefits (Continued)**

**Value of commitments, fair value of assets and financial sub-hedge over 3 financial years**

	2013	2012	2011
	(in millions of euros)		
Value of commitments . . . . .	77	73	52
Fair value of plan assets . . . . .	3	3	3
<b>Financial sub-hedge . . . . .</b>	<b>74</b>	<b>70</b>	<b>49</b>

**Sensitivities to the discount rate**

An increase of 50 base points to the discount rate expected in 2013 (or a fall of 50 base points) would be reflected in a reduction in the commitment of €7 million (or an increase of €7 million).

**19.3. Analysis of the Expenditure Recorded on the Income Statement**

Expenditure recorded for defined benefit schemes can be broken down as follows:

	2013	2012	2011
	(in millions of euros)		
Current service cost . . . . .	7	5	5
Interest costs . . . . .	2	2	2
Expected return on plan assets . . . . .	(0)	(0)	(0)
Past services cost . . . . .	—	—	(1)
<b>Expenditure for the financial year . . . . .</b>	<b>9</b>	<b>7</b>	<b>5</b>
Scheme reduction . . . . .	(12)	(1)	—
Scheme settlement . . . . .	—	—	(0)
<b>Total expenditure . . . . .</b>	<b>(3)</b>	<b>6</b>	<b>5</b>

**19.4. Actuarial Differences Recorded in Overall Earnings**

	2013	2012	2011
	(in millions of euros)		
Actuarial differences from experience . . . . .	1	—	2
Actuarial differences from assumptions . . . . .	6	14	(2)
<b>Actuarial differences recorded in overall earnings . . . . .</b>	<b>7</b>	<b>15</b>	<b>—</b>
<b>Actuarial differences accumulated in equity . . . . .</b>	<b>21</b>	<b>14</b>	<b>—</b>

The amount of the 2013 actuarial differences relative to the hedging assets is not significant. The amount relative to the commitments is detailed as follows:

	Total	Commitment	
	(in millions of euros)		
Actuarial differences from experience . . . . .	1	1	1.0%
Actuarial differences from assumptions . . . . .	6	6	7.7%
<b>Total . . . . .</b>	<b>7</b>	<b>7</b>	

**SFR**  
**Notes to the Combined Financial Statements (Continued)**

**Note 19. Post-Employment Benefits (Continued)**

**19.5. Allocation of pension plan assets**

The allocation of plan assets is presented in the table hereunder:

	2013	2012	2011
Shares . . . . .	12.6%	11.4%	11.8%
Bonds . . . . .	80.7%	78.2%	81.5%
Real estate . . . . .	6.7%	6.5%	6.1%
Other . . . . .	0.0%	3.9%	0.6%
<b>Total . . . . .</b>	<b>100.0%</b>	<b>100.0%</b>	<b>100.0%</b>

Apart from real estate investments, all these assets are exchange-listed.

**19.6. Schedule of Post-Employment Benefits**

The estimated amount (in nominal value) of the benefits to be paid in the next ten years is as follows:

	Under one year	Two to five years	Six to ten years	Total
	(in millions of euros)			
Estimated benefits payable . . . . .	0	2	12	14

**Note 20. Borrowing and Financial Debt**

**20.1. Analysis of the Expenditure Recorded on the Income Statement**

	2013	2012	2011
	(in millions of euros)		
Shareholder debt <sup>(a)</sup> . . . . .	1,200	1,200	3,700
Bond loan <sup>(b)</sup> . . . . .	—	300	300
Securitization of receivables <sup>(c)</sup> . . . . .	—	—	422
Debt relative to finance leasing . . . . .	8	11	15
Other financial debt . . . . .	40	50	53
<b>Non-current borrowing and financial debt . . . . .</b>	<b>1,248</b>	<b>1,561</b>	<b>4,490</b>
Shareholder debt <sup>(a)</sup> . . . . .	7,472	6,409	1,761
Bond loan <sup>(b)</sup> . . . . .	300	—	996
Bank loan . . . . .	50	66	48
Debt relative to finance leasing . . . . .	3	4	9
Other financial debt <sup>(d)</sup> . . . . .	20	27	83
<b>Current borrowing and financial debt . . . . .</b>	<b>7,846</b>	<b>6,506</b>	<b>2,896</b>
<b>Borrowing and financial debt . . . . .</b>	<b>9,094</b>	<b>8,067</b>	<b>7,385</b>

(a) Shareholder debt: this category corresponds to the financial debt contracted with Vivendi in the form of:

- cash current account: this is an advance on current account granted to the Group by Vivendi in June 2011. This facility was drawn respectively to the level of €7.5 billion, €4.9 billion and €1.8 billion as of December 31, 2013, 2012 and 2011. This advance is denominated almost entirely in euros. The interest rate, which was fixed in accordance with market conditions, has remained fixed since January 1, 2013 (2.79%);
- shareholder loan: these are loans or credit facilities entered into between the Group and Vivendi:
  - The Revolving Credit facility entered into in January 2011 for €1 billion, bearing interest at the Euribor rate + 2.5%, matured in 2012,
  - The Revolving Credit facility in the sum of €1.5 billion, entered into in June 2009 at the Euribor interest rate + 2.5%, matured in June 2013,

## Notes to the Combined Financial Statements (Continued)

**Note 20. Borrowing and Financial Debt (Continued)**

- The loan entered into in December 2011 for €1.2 billion, bearing interest at the Euribor rate + 0.825%, maturity of which is June 2015, was still in force as of December 31, 2013;
- (b) Bond loan (net of amortized cost): The Group issued a bond loan of €300 million in July 2009, maturity of which is July 9, 2014, bearing interest at the rate of 5%. Another loan, resulting from several bond issues from 2005 to 2009 for a total of €1 billion, was repaid in full upon maturity in July 2012.
- (c) A receivables securitization program was set up in 2011. This program was settled ahead of the original due date in June 2012.
- (d) The commercial papers were repaid in full in 2012.

**20.2. Breakdown by Interest Rate Type of the Repayment Value of Borrowing and Financial Debt**

	2013		2012		2011	
			(in millions of euros)			
Breakdown by type of interest rate:						
Fixed interest rate (after hedge) . . . . .	7,769	85%	300	4%	1,296	18%
Variable interest rate . . . . .	1,324	15%	7,767	96%	6,090	82%
<b>Total . . . . .</b>	<b>9,094</b>		<b>8,067</b>		<b>7,385</b>	

**20.3. Breakdown by Maturity of Future Cash Flow linked to Borrowing and Financial Debt**

The table below is a schedule of the contractual cash flow of borrowing and financial debt, including interest coupons, on a non-discounted basis. The interest payable is calculated on the basis of the debt as of December 31, 2013. The variable interest rates are the rates applicable as of December 31, 2013.

The effective annual percentage rate over the year 2013 is 2.80%.

	2013			
	Schedule of repayments			
	Book value	Under one year	Two to five years	Over five years
		(in millions of euros)		
Shareholder debt . . . . .	8,672	7,472	1,200	—
Bond loan . . . . .	300	300	—	—
Borrowing relative to leasing . . . . .	11	3	6	2
Other financial debts . . . . .	110	70	33	7
<b>Borrowing and financial debts . . . . .</b>	<b>9,094</b>	<b>7,846</b>	<b>1,239</b>	<b>9</b>

**Note 21. Trade Accounts Payable and Other Payables**

	2013	2012	2011
	(in millions of euros)		
Trade accounts payable . . . . .	2,878	2,943	3,114
Customer's credit balances . . . . .	622	512	478
Tax and social contributions <sup>(a)</sup> . . . . .	846	1,028	1,100
Short term prepaid income . . . . .	524	630	710
Income tax . . . . .	3	9	6
Other . . . . .	1	13	4
<b>Trade accounts payable and other payables . . . . .</b>	<b>4,874</b>	<b>5,136</b>	<b>5,412</b>

(a) As of the end of 2013, tax and social contributions can be broken down principally into the following elements:

- Value-added tax payable: €331 million
- Social contributions: €338 million

## Notes to the Combined Financial Statements (Continued)

**Note 21. Trade Accounts Payable and Other Payables (Continued)**

- Territorial economic tax (CET): €77 million
- Tax on electronic communications (TCE—Copé): €54 million
- Tax on television services (TST—COSIP): €24 million

**Note 22. Other Current and Non-Current Liabilities**

	2013	2012	2011
	(in millions of euros)		
Deferred income . . . . .	309	339	346
GSM license . . . . .	136	154	172
Uncalled share capital (Numergy) . . . . .	63	63	—
Other <sup>(a)</sup> . . . . .	33	41	114
<b>Other non-current liabilities . . . . .</b>	<b>540</b>	<b>597</b>	<b>633</b>

## Note 23. Financial Instruments (Continued)

For the record, as of December 31, 2011

		2011						
	Note	Assets/ liabilities at fair value through earnings	Available- for-sale securities	Loans and receivables	Assets/ liabilities at amortized cost	Hedge derivatives	Total net carrying value	Fair value
(in millions of euros)								
<b>Assets</b>								
Other non-current financial								
assets . . . . .	12	8	20	120			148	148
Derivative instruments . . . . .	12					0	0	0
Other current financial assets . . . . .	12	2					2	2
Other non-current operating								
assets . . . . .	12				1		1	1
Trade accounts receivable and								
other . . . . .	14				3,015		3,015	3,015
Cash and cash equivalents . . . . .	15	228					228	228
<b>Liabilities</b>								
Non-current borrowings and								
financial debts . . . . .	20				4,490		4,490	4,504
Current borrowings and								
financial debts . . . . .	20				2,895		2,895	2,907
Derivative instruments . . . . .	20							
Commitments to purchase								
non-controlling interests . . . . .	12	1					1	1
Trade accounts payable and								
other . . . . .	21				5,412		5,412	5,412
Other non-current liabilities . . . . .	22				633		633	633
Other current financial								
liabilities . . . . .	22				3		3	3

The carrying value of the operating receivables and other, cash and cash equivalents and trade accounts payable and other is a reasonable approximation of fair value, due to the short maturity of these instruments.

The fair value of the borrowings and financial debts is calculated either from the market price for the bond loan or, for the rest of the debt, by discounting future contractual flows, taking account of market conditions as of December 31 each year.

**Valuation method for financial instruments at fair value on the balance sheet**

In compliance with IFRS 7, financial assets and liabilities at fair value are classified according to a fair value hierarchy at fair value of the financial instruments (level 1 to 3) as follows:

- the fair value of financial instruments exchanged in active markets (for example monetary UCITS) is based on the market price listed on the date of closure. This valuation method is described as level 1 in the hierarchy defined by IFRS 7;
- the fair value of financial instruments not traded in active markets (for example rate swaps) is determined using valuation techniques. The assumptions used can be observed either directly (i.e. such as prices) or indirectly (i.e. determined from prices). This valuation method is described as level 2 in the hierarchy defined by IFRS 7;
- the fair value of the instruments classified in level 3 (for example, available—for-sale securities) is determined using a valuation technique not based on observable market data.

## Notes to the Combined Financial Statements (Continued)

**Note 23. Financial Instruments (Continued)**

The tables below present the method of valuation used for the financial assets and liabilities at fair value as of December 31, of each year.

**23.2. Management of Financial Risks and Derivative Financial Instruments**

As part of its business, the Group is exposed to several types of financial risks: market risk, credit (or counterparty) risk and liquidity risk. Market risks are defined as the risks of fluctuation in future cash flow of financial instruments that depend on the changes in financial markets. For the Group, market risks may therefore primarily impact interest rates and foreign currency exchange positions, in the absence of significant investment in the stock markets.

**Notes to the Combined Financial Statements (Continued)****Note 23. Financial Instruments (Continued)**

As part of the Vivendi Group as of December 31, 2013, the Group follows group policy with regard to management of financial risks and derivative financial instruments, which is centrally managed by Vivendi's Financing and Treasury department.

The Group uses derivative instruments to manage its exposure to market risks. The valuation of these instruments is not significant over the periods presented.

Valuation linked to the credit risk of derivative instruments is calculated from historic probabilities of default, as resulting from the calculations of a leading ratings agency, to which a recovery rate is applied. As of December 31, 2013, the impact of the adjustment recommended by IFRS 13 was not significant.

**23.3. Interest Rate Risk**

The exposure of the Group to interest rate risk is linked to its net variable rate financial debt level.

As of December 31, 2013 and as of December 31, 2012, this exposure was not hedged by rate derivative instruments.

*Sensitivity analysis to interest rate risk*

Sensitivity analysis to interest rate changes for variable rate instruments was determined considering all variable rates of financial instruments. The analysis was conducted assuming that the amounts of debts and financial instruments on the balance sheet as of December 31, 2013 will remain constant over a year. For the purposes of this analysis, all other variables, particularly the exchange rates, are assumed to remain constant.

A change of 50 basis points in the interest rate on date of closure would have resulted in an increase (decrease) in the cost of debt of €7 million.

**23.4. Foreign Exchange Risk**

To hedge its currency purchases, related in particular to the acquisition of telecoms equipment, the Group uses forward contracts which it buys from the Financing and Treasury department of the Vivendi Group.

As of December 31, 2013, the Group held foreign exchange hedge instruments for a notional amount of 115 million US dollars (USD). All contracts are US dollar (USD) forward contracts with a maturity between 1 and 7 months.

The forward contracts are defined as cash flow hedges. Their ineffectiveness over the period is not significant.

The residual exposure of the Group after hedging the USD fluctuations is barely significant over the financial year. As of December 31, 2013, the exposure to foreign exchange risk on the balance sheet of the Group in USD amounts to 2 million, and is completely hedged.

*Sensitivity analysis to foreign exchange risk*

As of December 31, 2013, an instant change of 10% of the euro in relation to the dollar would, on the assets and liabilities recorded on the balance sheet, have quite a significant impact on the foreign exchange earnings of the Group. For the purposes of this analysis, all other variables, and in particular the interest rates, are assumed to remain constant.

**23.5. Liquidity Risk**

The Group manages the liquidity risk by continually supervising the cash flow projections and the actual cash flow. As of December 31, 2013, the financial flexibility of the Group was assured by the current account provided by Vivendi.

**Notes to the Combined Financial Statements (Continued)****Note 23. Financial Instruments (Continued)**

A liquidity schedule is detailed in Note 20.3—Breakdown by maturity of future cash flow linked to borrowings and financial debts.

**23.6. Credit and Counterparty Risk**

The main financial assets potentially generating a credit risk for the Group are:

- cash investments,
- trade accounts receivable and other .

The maximum exposure of the financial assets to the credit risk corresponds to their net carrying value.

**Cash investments and derivative instruments**

The Group makes its cash investments (monetary UCITS that meet the specifications of AMF position No. 2011-13, and other short-term highly liquid investments with an original maturity less than or equal to three months) with leading banking counterparties.

As of December 31, 2013:

- cash investments are made with counterparties enjoying high credit ratings,
- derivative instruments, forward purchases of dollars, were bought from Vivendi and not directly from banking partners.

**Trade accounts receivable and other**

The concentration of the counterparty risk related to trade accounts receivable is limited because the client portfolio of the Group is highly diversified and not concentrated, considering the large number of clients, in particular the Retail business, with several million individual customers.

With regard to the B2B business, the 20 main clients represent less than 3% of the Group's revenues.

With regard to the Wholesale business, revenues are more concentrated, with the biggest clients being telecommunications operators (such as Orange, Bouygues Telecom, Free Mobile) whose risk is moderate considering the interconnection flows equilibrium. Orange, the first client operator, is also the first supplier of the Group.

**Note 24. Transactions with Related Parties**

The related parties of the Group are:

- All companies included in the scope of combination, whether fully integrated or accounted for by the equity method,
- Vivendi S.A. and its consolidated entities (the "Vivendi Group"),
- The Vodafone Group up to June 16, 2011, when Vodafone sold its 44% holding in SFR to Vivendi S.A.,
- All members of the executive committee of SFR S.A.,
- All companies in which a member of the executive committee exercises control, participates in the joint control, exercises a significant influence, or is one of its principal directors.

The transactions between the companies fully integrated within the scope of combination were eliminated when preparing the combined accounts. The breakdown of operations between the Group and the other related parties is presented below.

**SFR**  
**Notes to the Combined Financial Statements (Continued)**

**Note 24. Transactions with Related Parties (Continued)**

**24.1. Compensation of the Managers**

The managers of the combined group include the members of the executive committee of its main entity SFR S.A.

The table below presents the compensation allocated to the people who were, upon closure or during the financial years presented members of the executive committee.

	2013	2012	2011
	(in millions of euros)		
Short-term benefits <sup>(a)</sup>	5	6	6
Post-employment benefits <sup>(b)</sup>	1	1	2
Share-based compensation <sup>(c)</sup>	3	4	3
<b>Compensation of managers</b>	<b>8</b>	<b>10</b>	<b>11</b>

(a) Includes gross salaries, fixed and variable compensations, profit sharing and benefits in kind recorded during the financial year. The variable part includes bonuses provisioned at closure of the financial year. The 2013 bonus for the corporate representatives will be finally approved later by the Supervisory Board of Vivendi S.A. at the recommendation of the Human Resources Committee of Vivendi S.A.

(b) Corresponds to the cost of services delivered.

(c) Expense recorded on the profit and loss account by way of share option plans and offers reserved to employees.

**24.2. The Shareholder Companies and Joint Ventures**

Shareholder companies and joint ventures, equity-accounted, are presented in Note 11—Equity-accounted securities.

Transactions with the related parties summarized below concern the principal current operations undertaken with shareholder companies and joint ventures.

	Affiliated companies			Joint ventures		
	2013	2012	2011	2013	2012	2011
	(in millions of euros)					
<b>Assets</b>	<b>66</b>	<b>54</b>	<b>52</b>	<b>53</b>	<b>24</b>	<b>22</b>
Non-current assets	—	—	—	43	18	17
Current assets	66	54	52	10	6	5
<b>Liabilities</b>	<b>80</b>	<b>79</b>	<b>15</b>	<b>5</b>	<b>—</b>	<b>—</b>
Current liabilities	18	16	15	5	—	—
Non-current liabilities	63	63	—	—	—	—
<b>Net earnings</b>	<b>67</b>	<b>76</b>	<b>77</b>	<b>21</b>	<b>20</b>	<b>17</b>
Operating income	67	76	77	25	20	17
Operating expenses	—	—	—	(4)	—	—
<b>Off-balance sheet commitments</b>	<b>56</b>	<b>79</b>	<b>70</b>	<b>569</b>	<b>319</b>	<b>303</b>
Operating	—	—	—	413	228	228
Financial	56	79	70	86	58	50
Pledges	—	—	—	70	34	25

The principal transactions with the equity-accounted companies are with:

- La Poste Telecom as part of telephony business,
- Numergy as part of services relative to “cloud computing”,
- Synerail as part of the GSM-R Public/Private Partnership,
- Foncière Rimbaud (1 to 4) with the Vinci Group as part construction of the registered office of SFR S.A.

(refer to Note 11—Equity-accounted securities)

**SFR**  
**Notes to the Combined Financial Statements (Continued)**

**Note 24. Transactions with Related Parties (Continued)**

**24.3. The Historic Shareholders**

From 2011 to 2013, the principal operations with the Vivendi Group and the Vodafone Group were as follows:

**Financing by Vivendi S.A.**

	<u>2013</u>	<u>2012</u>	<u>2011</u>
	(in millions of euros)		
<b>Under balance sheet liabilities</b>			
Shareholder debt <sup>(a)</sup> . . . . .	8,673	7,609	5,461
<b>On the profit and loss account</b>			
Interest linked to shareholder debt . . . . .	(212)	(170)	(87)

(a) The breakdown of the shareholder debt is presented in Note 20—Borrowings and financial debts.

**Services billed by Vivendi S.A.**

	<u>2013</u>	<u>2012</u>	<u>2011</u>
	(in millions of euros)		
Head office costs . . . . .	(15)	(28)	(26)
Employee benefits . . . . .	(26)	(32)	(23)
Staff on secondment . . . . .	(7)	(6)	(6)
<b>Services billed by Vivendi</b> . . . . .	<b>(48)</b>	<b>(66)</b>	<b>(55)</b>

**Operations carried out with the Vodafone Group from January 1 to June 16, 2011**

*Cooperation with Vodafone:* in 2003, Vodafone and SFR S.A. entered into an agreement which enabled them to intensify their cooperation and increase their scale economies in several areas: development and launch of new products and services, reinforcement of operating synergies, notably with regard to purchasing (notably IT and technology) and the sharing of expertise.

SFR S.A. recorded an expense of €21 million for this agreement as of June 30, 2011.

The cooperation agreement with Vodafone was maintained following Vodafone's exit from the share capital of SFR S.A., but no longer falls within the scope of affiliated operations.

*Interconnection flow with subsidiaries of the Vodafone Group:* as part of the rebilling of flow ("roaming in" and "roaming out"), on June 30, 2011 the Group recorded an income of €23 million and an expense of €13 million vis-à-vis the Vodafone Group.

**Other operations undertaken with subsidiaries of the Vivendi Group**

	<u>2013</u>	<u>2012</u>	<u>2011</u>
	(in millions of euros)		
Total income . . . . .	25	24	13
Total expenses . . . . .	(49)	(61)	(57)

The Canal +, UMG and Maroc Telecom Groups are consolidated within the Vivendi Group. These operations fall within the current business of the Group.

**SFR**  
**Notes to the Combined Financial Statements (Continued)**

**Note 25. Contractual Commitments**

The significant contractual commitments made or received by the Group are detailed hereunder:

**25.1. Commitments related to Fixed Assets**

The amount of contractual commitments for the acquisition of tangible and intangible assets amounted to €888 million as of December 31, 2013. This amount includes commitments linked to the rollout of telecommunications networks.

The schedule of these commitments is as follows:

	Minimum future payments	Schedule			2012	2011
		Under one year	Two to five years	Over five years		
		(in millions of euros)				
Commitments related to Public Service						
Concessions . . . . .	72	27	22	23	262	336
Commitments related to MDPA <sup>(a)</sup> . . . . .	216	19	99	99	8	—
Other investments <sup>(b)</sup> . . . . .	600	582	19	—	702	1,776
<b>Investment commitments . . . . .</b>	<b>888</b>	<b>628</b>	<b>139</b>	<b>122</b>	<b>972</b>	<b>2,112</b>

(a) Commitments related to the rollout of the FTTH (Fiber-To-The-Home) within the less dense areas.

(b) In 2011, the amount includes the commitment to acquire the LTE license, in the amount of €1,065 million.

**25.2. Commitments related to the Telecommunications Licenses**

Commitments given		Amount	Maturity
(a)	UMTS license on French territory . . . . .	1% of revenues generated	2021-2030
(a)	GSM license on French territory . . . . .	1% of revenues generated	2021
(a)	LTE license on French territory . . . . .	1% of revenues generated	2031-2032
(b)	3G network coverage . . . . .	Not costed	2013
(c)	4G network coverage . . . . .	Not costed	2023-2027

Commitments received		Amount	Maturity
(a)	Network operating and telecommunications service provision authorizations on French territory . . . . .	Not costed	2021/2032

- (a) The Group is the holder of operating authorizations for its networks and for the provision of telecommunications services in France, under the following financial conditions:
- payment of a fixed part, either recorded in debt (GSM) or paid at the time of allocation (UMTS and LTE),
  - payment of a variable part corresponding to 1% of the revenues generated by these licenses. (refer to Note 1.3.7—Intangible assets; Note 9—Intangible assets).
- (b) On November 30, 2009, the ARCEP called on the Group to comply with its obligations to roll out the UMTS networks no later than December 31, 2013, which were to provide a rate of cover of the metropolitan population of 99.3%.

As of December 31, 2013, with 99.3% of the population covered, the Group had fulfilled its coverage obligations.

## Notes to the Combined Financial Statements (Continued)

**Note 25. Contractual Commitments (Continued)**

(c) Within the framework of allocation of the first block of LTE frequencies in October 2011, the Group undertook to respect the rollout obligations for very high-speed mobile in accordance with the timeline below:

- 25% of the metropolitan population by 11 October 2015,
- 60% of the metropolitan population by 11 October 2019,
- 75% of the metropolitan population by 11 October 2023.

These coverage obligations may be met by the use of 2.6 GHz frequencies or through the use of other frequencies held by the Group.

Through Decision No. 2012-0039 of the ARCEP dated January 17, 2012, the Group was allocated 2\*10 MHz in the 800 MHz band for the sum of €1,065 million. The commitments linked to this allocation are as follows:

- The Group undertook to fulfill the following obligations for rollout of very high-speed mobile:
  - coverage of 98% of the metropolitan population by January 17, 2024 and 99.6% of the metropolitan population by January 17, 2027;
  - coverage in the priority rollout area (around 18% of the metropolitan population and 63% of the territory): the Group must cover 40% of the population of this priority rollout area by January 17, 2017 and 90% of the population of this same area by January 17, 2022;
  - departmental coverage: the Group must cover 90% of the population of each French département by January 17, 2024 and 95% of the population of each département by January 17, 2027.
- SFR and Bouygues Telecom have a mutual obligation to share the network or share frequencies in the priority rollout area.
- The Group has an obligation to host Free Mobile roaming in the priority rollout area when it has covered 25% of the French population with its own network at 2.6 GHz, and if it has not signed a national roaming agreement with another operator.
- The Group must cover, jointly with the other holders of the 800 MHz band, the town centers identified by the public authorities within the framework of the “white areas” program (above 98% of the population) within a maximum period of 15 years.

## SFR

## Notes to the Combined Financial Statements (Continued)

## Note 25. Contractual Commitments (Continued)

## 25.3. Commitments linked to operating lease agreements

The amount of the minimum future rents for operating lease agreements is detailed in the table hereunder:

	Minimum future rents	Schedule			2012	2011
		Under one year	Two to five years	Over five years		
		(in millions of euros)				
Land . . . . .	5	0	2	3	4	5
Buildings . . . . .	1,842	287	899	656	1,701	1,560
<i>of which administrative premises</i> . . . . .	566	61	206	299	521	585
<i>technical premises</i> . . . . .	1,273	226	692	356	1,181	952
Other . . . . .	159	44	67	48	146	168
<b>Rentals</b> . . . . .	<b>2,006</b>	<b>331</b>	<b>968</b>	<b>707</b>	<b>1,851</b>	<b>1,732</b>
Buildings . . . . .	(216)	(40)	(101)	(75)	(109)	(41)
<i>Of which technical rents</i> . . . . .	(216)	(40)	(101)	(75)	(109)	(41)
<b>Sub-leases</b> . . . . .	<b>(216)</b>	<b>(40)</b>	<b>(101)</b>	<b>(75)</b>	<b>(109)</b>	<b>(41)</b>
<b>Net Total</b> . . . . .	<b>1,790</b>	<b>291</b>	<b>867</b>	<b>632</b>	<b>1,742</b>	<b>1,691</b>

The total amount of future technical rents includes rights of way and rents linked to the use of fiber optics. The amount of the net rents recognized for 2013, 2012 and 2011 respectively is €284 million, €276 million and €277 million.

The future finance leasing rent amounts are presented in Note 10.3—Tangible assets.

## 25.4. Commitments related to Long-Term Contracts

Commitments related to long-term contracts principally concern contracts for maintenance of the telecommunications network.

	Minimum future payments 2013	Schedule			2012	2011
		Under one year	Two to five years	Over five years		
		(in millions of euros)				
Given commitments . . . . .	178	62	79	37	172	63
Received commitments . . . . .	(127)	(14)	(50)	(63)	—	(80)
<b>Total</b> . . . . .	<b>51</b>	<b>48</b>	<b>29</b>	<b>(25)</b>	<b>172</b>	<b>(17)</b>

**SFR**  
**Notes to the Combined Financial Statements (Continued)**

**Note 25. Contractual Commitments (Continued)**

**25.5. Other Commitments**

	<u>2013</u>	<u>Schedule</u> (in millions of euros)	<u>2012</u>	<u>2011</u>
(a) GSM-R bank guarantees, joint and several guarantees	105	According to construction	92	66
Other bank guarantees . . . . .	65	2026	64	90
(b) Share purchase commitments . . . . .	16	2026	16	18
Pledges . . . . .	84	2017	51	46
<b>Given commitments . . . . .</b>	<b>269</b>		<b>223</b>	<b>219</b>
Other bank guarantees . . . . .	(1)		(1)	(1)
<b>Received commitments . . . . .</b>	<b>(1)</b>		<b>(1)</b>	<b>(1)</b>

(a) This is the Public/Private Partnership (PPP) between the Groups SFR, Vinci, AXA and TDF with Réseau Ferré de France (RFF). (Refer to Note 11—Equity-accounted securities).

(b) The Group has made unilateral promises to buy back the stakes of a minority financial partner within certain entities. These promises may only be carried out in the event that the entities of the Group do not respect the contractual commitments made upon entering into the shareholders' agreements.

**25.6. Employees' Individual Right to Training (DIF)**

Law No. 2004-391 of May 4, 2004 on professional training and social dialogue created, for permanent employees, an individual training entitlement of a minimum of 20 hours per year, which can be accumulated over a period of six years but limited to 120 hours. The total volume of training hours corresponding to the rights acquired under the DIF at end 2013, 2012 and 2011 is estimated respectively at 1,184,635 hours, 1,194,180 hours and 1,117,215 hours.

**25.7. Contingent Assets and Liabilities**

Following the successful takeover bid of June 2008 which enabled the Group to acquire a 96.41% stake in Neuf Cegetel, the Group initiated a squeeze-out procedure for the outstanding shares of Neuf Cegetel. The amounts set aside as compensation for Neuf Cegetel shares, which have not been claimed by the depositary institutions on behalf of rights holders, will be retained by the CACEIS Corporate Trust for ten years from the initiation date of the squeeze-out procedure (June 24, 2008). After this date they will be transferred to the Caisse des Dépôts et Consignations. These funds may be claimed at any time by rights holders subject to the French government's thirty-year prescription period.

**Note 26. Litigation**

In the normal course of its business, SFR is subject to various lawsuits, arbitrations and governmental, administrative or other proceedings (collectively referred to herein as "Legal Proceedings").

The costs which may result from these proceedings are only recognized as provisions when they are likely to be incurred, and when the obligation can be reasonably quantified or estimated, in which case, the amount of the provision represents our best estimate of the risk, provided that we may, at any time, reassess such risk if events occur during such proceedings.

To the company's knowledge, there are no Legal Proceedings or any facts of an exceptional nature, including to the company's knowledge, any pending or threatened proceedings in which it is a defendant, which may have or have had during the previous twelve months a significant impact on the company's and on its group's financial position, profit, business and property, other than those described below.

All material Legal Proceedings in which SFR is a plaintiff or a defendant are disclosed in this note.

**SFR**  
**Notes to the Combined Financial Statements (Continued)**

**Note 26. Litigation (Continued)**

**Complaint of Bouygues Telecom against SFR and Orange concerning the call termination and mobile markets**

Bouygues Telecom brought a claim before the French Competition Council against SFR and Orange for certain alleged unfair trading practices on the call termination and mobile markets (“price scissoring”). On May 15, 2009, the French Competition Authority (the “Competition Authority”) resolved to postpone its decision on the issue and remanded the case for further investigation. On December 13, 2010, SFR was heard on these allegations by the instructing magistrate. On August 18, 2011, SFR received a notification of grievances in which the Competition Authority noted the existence of abusive price discrimination practices. On December 13, 2012, the Competition Authority fined SFR €66 million. SFR appealed against this decision. The case was argued before the Paris Court of Appeal on February 20, 2014.

Following the decision of the Competition Authority of December 13, 2012, Bouygues Telecom, OMEA and El Telecom (NRJ Mobile) brought a claim before the Paris Commercial Court against SFR for damages suffered. They are seeking damages of €623.6 million, €67.9 million and €28.6 million, respectively. SFR strongly disputes the validity and amount of these claims, which Vivendi believes cannot, in any case, exceed €250 million in total. Pending the decision of the Paris Court of Appeal, the mediation process underway in the Paris Commercial Court between Bouygues Telecom and has been suspended.

**Complaint against Orange before the French Competition Authority (NRA ZO)**

On December 9, 2009, SFR and SFR Collectivités brought a claim before the French Competition Authority against Orange for unfair practices.

Following the filing of this claim, SFR brought a claim for damages before the Paris Commercial Court of (NRA ZO) against Orange.

**Complaint against Orange before the Paris Commercial Court (call termination—call origination)**

On February 22, 2010, SFR brought a claim against Orange seeking the rescindment of the Orange call origination charge for the period 2006-2007 and its replacement by a charge that is 2% lower for 2006 and 15% lower for 2007.

**Complaint by Orange Réunion, Orange Mayotte and Outremer Telecom against SRR**

On June 6, 2009, Orange Réunion, Orange Mayotte and Outremer Télécom notified the French Competition Authority about alleged on-net/off-net pricing discrimination practices implemented by SRR on the mobile market in Mayotte and Réunion.

On September 16, 2009, the French Competition Authority (the “Competition Authority”) imposed protective measures on SRR, pending its decision on the merits. Following this decision, on June 17, 2013, Outremer Telecom filed a claim before the Paris Commercial Court against SFR and SRR in respect of the consumer market and the business market for damages it claims to have suffered as a result of the practices reported in the notification to the Competition Authority. The Court has issued a stay of these proceedings. On July 12, 2013, SRR received a notification of grievances concerning its practices on the consumer market and did not contest it. The amount of the fine to be imposed on SRR is currently under review by the Competition Authority.

**Complaint against Orange before the French Competition Authority**

On August 9, 2010, SFR filed a complaint before the French Competition Authority against Orange for anti-competitive practices on the professional mobile market.

**SFR**  
**Notes to the Combined Financial Statements (Continued)**

**Note 26. Litigation (Continued)**

**Complaint of Orange against SFR before the Paris Commercial Court (overflow case)**

In a complaint filed on August 10, 2011, Orange asked the Paris Commercial Court to compel SFR to immediately stop its practices of unfair “overflow” and to order SFR to pay the sum of €309.5 million in penalties established by mutual agreement. SFR is accused of having deliberately organized the overflow onto the Orange network for the purpose of optimizing the economic performance of its own network (undersizing of “PDB”/“BPN” commands). On December 10, 2013, the Court ordered SFR to pay €22.1 million to Orange. SFR and Orange have appealed this decision.

**SFR against Orange: abuse of dominant position on the secondary residence market**

On April 24, 2012, SFR filed a complaint before the Commercial Court of Paris against Orange for practices constituting an abuse of its dominant position on the retail market for mobile telephony services to non-residential customers, and seeking damages of between €122 million and €129 million.

On February 12, 2014, the Commercial Court of Paris ordered Orange to pay €51.4 million to SFR for abuse of its dominant position on the secondary residence market.

**Free against SFR: unfair competition for non-compliance with provisions inherent to consumer credit in respect of offers with subsidies**

On May 21, 2012, Free filed a complaint before the Paris Commercial Court against SFR. Free is challenging the subsidy model associated with SFR’s *Carrée* offerings sold over the Internet from June 2011 to December 2012, claiming that it constitutes a consumer credit mechanism and as such, SFR is guilty of unfair practices, by not respecting the provisions inherent to consumer credit including providing prior information to customers. Free has asked, among other things, that the Paris Commercial Court compel SFR to inform its customers, and to award damages of €29 million. On January 15, 2013, the Paris Commercial Court dismissed all of Free’s claims and awarded SFR the sum of €0.3 million in damages. On January 31, 2013, Free appealed this decision.

**UFC against SFR: abusive clauses**

On June 7, 2012, the French Federal Union of Consumers (UFC) filed a complaint before the Paris Court of First Instance (Tribunal de Grande Instance) against SFR alleging that the general conditions of use of SFR’s *La Carte* offering contain abusive clauses. The UFC is seeking the removal of these clauses and damages.

**SFR against Orange (ZND case)**

On November 26, 2012, SFR notified the French Competition Authority about practices constituting an abuse of dominant position on the retail high-speed internet access market in non-unbundled areas.

**CLCV summons against SFR**

On January 7, 2013, the French consumer protection association, CLCV (Consumption housing and quality of life) filed a complaint before the Paris Tribunal of First Instance against SFR.

The CLCV considers certain clauses contained in the general conditions of subscription of SFR (as well as those of other telephone operators) to be abusive and is seeking the removal of such clauses. It is also seeking compensation for the collective loss.

**Employee litigation arising from the transfer of customer relations centers in Toulouse, Lyon and Poitiers**

Following the transfer of the customer relations centers located in Toulouse and Lyon to the company Infomobile, and of the center in Poitiers to a subsidiary of the Bertelsmann Group, former employees of these sites filed complaints with the industrial tribunals (Conseils des Prud’hommes) of each of these

## SFR

### Notes to the Combined Financial Statements (Continued)

#### Note 26. Litigation (Continued)

cities, claiming unfair execution of their employment contracts and fraudulent breach of Article L.1224-1 of the French Labor Code and of the legal provisions relating to dismissal on economic grounds. The findings of the courts on this issue in 2013 were not consistent; the Toulouse Court of Appeal sanctioned the SFR and Téléperformance groups in half the cases, while the courts of Lyon and Poitiers rendered judgments which were favorable to SFR. The cases are at different stages of proceedings: industrial tribunal, Court of Appeal and Supreme Court.

#### Disputes with independent distributors (Consumers and SFR Business Team)

SFR, like other companies that use an indirect distribution model, faces complaints by its distributors, and almost systematically, by its former distributors. These recurring disputes concern the abrupt termination of the contractual relationship, the abuse of economic dependency and/or requests for reclassification of a distributor as commercial agent, and, more recently, applications for reclassification of a manager as a branch manager and reclassification of the employment contracts of the employees working at these points-of-sale as employment contracts with SFR. Following several adverse rulings of the Supreme Court in relation to the status of branch managers, various Courts of Appeal have recently issued a number of decisions favorable to SFR. With regard to the reclassification of employment and sales contracts in these disputes, apart from a few exceptions, SFR has benefited from favorable case law.

**Notes to the Combined Financial Statements (Continued)****Note 27. List of Combined Entities (Continued)**

At December 31, 2011, there remained one Dutch company (SPADIX BV) specifically created under the lease/sublease agreements entered into in 2001, in which the combined group has no shareholding. This company departed from the scope of combination in 2012.

**Note 28. Subsequent Events**

On January 31, 2014, SFR and Bouygues signed a strategic network sharing agreement. The two operators are to roll out a new shared mobile network over an area covering 57% of the population. This agreement will enable both operators to improve their mobile coverage and generate significant savings. The agreement is effective upon signature with the creation of a joint venture, and the shared network is expected to be completed by the end of 2017. This agreement had no impact on the combined financial statements as of December 31, 2013. Pending its implementation, this agreement represents a net commitment received by SFR of approximately €460 million, which applies over the entire duration of the long-term agreement.

On February 13, 2014, Vivendi announced it had entered into exclusive negotiations with the Belgacom Group in order to acquire 100% of the shares of Groupe Telindus France. Groupe Telindus France is one of the leaders in the French telecoms integration and ICT (Information and Communication Technology) market, and is the leading Cisco distributor in France. Telindus France aims to reinforce the Vivendi French telecoms segment alongside SFR, which will thus considerably strengthen its presence on the adjacent market of telecoms integration and will enable to offer new services to its corporate clients in addition to the offers from SFR Business Team.

Within the framework of its public service outsourcing activity since 2004 in Oise département, the Group has committed to launching a new project "Oise THD" ("Oise Very High Speed Internet") for the operation and marketing of 280,000 FTTH outlets. The contract is to be signed in March 2014. The total commitment should amount to €125 million over 15 years.

## INDEPENDENT AUDITORS' REPORT

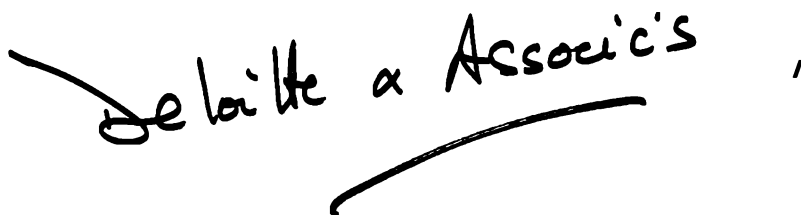

To the Board of Directors and Stockholders of Orange Dominicana

We have audited the accompanying balance sheets of Orange Dominicana (the "Company") as of December 31, 2013 and 2012, and the related statements of income, stockholders' equity, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2013 and 2012, and the results of its operations and its cash flows for the years then ended in conformity with International Financial Reporting Standards ("IFRS") as issued by the IASB.

**Orange Dominicana, S. A.**  
**Notes to the Financial Statements**  
**December 31, 2013 and 2012**  
**(Amounts expressed in Dominican pesos-RD\$)**

**1 Description of business and basis of preparation of the standalone financial statements**

**1.1 Description of business**

Orange Dominicana, S.A. (hereafter called “ODO”), a Company incorporated in accordance with the Dominican Republic laws, began operations on November 13<sup>th</sup>, 2000. ODO is an indirectly wholly owned subsidiary of Orange S.A., French listed Company.

ODO operates under a service concession agreement for the operation of telecommunications services.

ODO provides consumers, businesses and other telecommunication operators with a wide range of services including mobile telecommunications, data transmission and other value-added services.

**1.2 Basis of presentation and purpose of the financial statements**

These financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs).

The principles applied to prepare financial data are based on:

- All standards and interpretations compulsory as of December 31, 2013;
- The recognition and measurement alternatives allowed by the IFRSs:

<b>Standard</b>		<b>Alternative used</b>
IAS 2	Inventories	Measurement of inventories determined by the weighted average unit cost method.
IAS 16	Property, Plant and Equipment	Measurement at amortized historical cost
IAS 38	Intangible Assets	Measurement at amortized historical cost

- The available exemptions regarding the retrospective application of IFRSs at the transition date (January 1, 2004 for ODO):

<b>Standard</b>		<b>IFRS 1 alternative used</b>
IAS 16	Property, Plant and Equipment	Measurement of property, plant and equipment and intangible assets at historical cost
IAS 38	Intangible Assets	

In the absence of any accounting standard or interpretation, management uses its judgment to define and apply an accounting policy that will result in relevant and reliable information, such that the financial statements:

- Present fairly the ODO’s financial position, financial performance and cash flows;
- Reflect the economic substance of transactions;
- Are neutral;
- Are prepared on a prudent basis; and
- Are complete in all material respects.

**1.3 Standards and interpretations compulsory after December 31, 2012 with no early application elected by ODO.**

IFRS 13—Fair value measurement—defines fair value, sets out a framework for measuring fair value and requires disclosures about fair value measurements, including the fair value hierarchy already set out in

**Orange Dominicana, S. A.**  
**Notes to the Financial Statements (Continued)**  
**December 31, 2013 and 2012**  
**(Amounts expressed in Dominican pesos-RD\$)**

**1 Description of business and basis of preparation of the standalone financial statements (Continued)**

IFRS 7. This standard is applicable prospectively and has no expected effect on the fair value currently measured by ODO.

**1.4 Use of estimates and judgment**

In preparing ODO's financial statements, the management makes estimates, insofar as many elements included in the financial statements cannot be measured with precision. These estimates are revised if the underlying circumstances evolve or in light of new information or experience. Consequently, estimates made at December 31, 2013 may subsequently be changed.

ODO's management also uses its judgment to define appropriate accounting policies to apply to certain transactions when the current IFRS standards and interpretations do not specifically deal with related accounting issues.

The underlying assumptions used for significant estimates are outlined below:

<b>Estimate</b>		<b>Nature of estimate</b>
Note 2.3	Revenue	Identification of separable components of a bundled offer based on the individual components relative fair value period of straight-line recognition of revenue relating to invoiced service access fees depending on the nature of product and historical contractual relationship.  Reporting of revenue on a net versus gross basis (depending on an analysis of the ODO's involvement as either principal or agent).
Note 2.5	Purchases and other expenses	Provision for claims and litigation: assumptions underlying legal assessment and risk measurement.
Note 2.10.2	Property, plant and equipment, intangible assets	Assessment of assets' useful life based on assessment of the technological, legal or economic environments.
Note 2.11	Income tax ISR	Assumptions used for the computation of the income tax charge to be recorded in the financial statements, together with the technical merit of tax positions. Assumptions used for recognition of deferred tax assets arising.

**2 Accounting policies**

**2.1 Financial statements preparation principle**

***Income statement***

Expenses are presented in the income statement based on their nature.

Operating income corresponds to net income before:

- Finance income;
- Finance costs;
- Income tax (current and deferred taxes).

**Orange Dominicana, S. A.**  
**Notes to the Financial Statements (Continued)**  
**December 31, 2013 and 2012**  
**(Amounts expressed in Dominican pesos-RD\$)**

## **2 Accounting policies (Continued)**

### ***Statement of financial position***

Current and non-current items are presented separately in the statement of financial position: assets and liabilities with a term of no more than twelve months are classified as current whereas, assets and liabilities with a term of more than twelve months are classified as non-current.

### ***Statement of cash flows***

The statement of cash flows is reported using the indirect method starting with the net income and is broken down into three categories:

- Cash flows arising from operating activities (including finance costs and income taxes);
- Cash flows arising from investing activities (mainly purchase and disposal of intangible and tangible assets);
- Cash flows arising from financing activities (dividends paid).

## **2.2 Foreign operations**

The amounts in financial statements are expressed in Dominican pesos. All of the amounts of assets and liabilities in foreign currency are translated into Dominican pesos, at the rate in effect of the date of the financial statements. Transactions of revenues, expenses and others, occurred during current years are translated at the rate in effect on the date of the transaction. Gain and losses resulting from the differences between exchange rates are included as other income (expenses) in the accompanying income statements.

As of December 31, 2013 and 2012, the exchange rates used to exchange the amounts in foreign currency were RD\$42.78 and RD\$40.25 per US\$1.00, respectively for cash, accounts receivable and accounts payable; Euro rate is RD\$59.52 and RD\$53.78 per €1.00, respectively.

## **2.3 Revenues**

Revenues from ODO's activities are recognized as follows:

### **2.3.1 Separable components of bundled offers**

Certain service offers include two components: an equipment component (e.g. a mobile handset) and a service component (e.g. a talk plan). For the sale of multiple products or services, ODO evaluates all deliverables in the arrangement to determine whether they represent separate units of accounting. A delivered item is considered a separate unit of accounting if (i) it has value to the customer on a standalone basis and (ii) there is objective and reliable evidence of the fair value of the undelivered item(s). The total fixed or determinable amount of the arrangement is allocated to the separate units of accounting based on its relative fair value. However, when an amount allocated to a delivered item is contingent upon the delivery of additional items or meeting specified performance conditions, the amount allocated to that delivered item is limited to the non-contingent amount. This case arises when selling bundled offers that include a handset sold at a discounted price and a telecommunications service contract.

The handset is considered to have value on a standalone basis to the customer, and there is objective and reliable evidence of fair value for the telecommunications service to be delivered. As the amount allocable to the handset generally exceeds the amount received from the customer at the date the handset is delivered, revenue recognized for the handset sale is generally limited to the amount of the arrangement that is not contingent upon the rendering of telecommunication services, i.e. the amount paid by the customer for the handset.

**Orange Dominicana, S. A.**  
**Notes to the Financial Statements (Continued)**  
**December 31, 2013 and 2012**  
**(Amounts expressed in Dominican pesos-RD\$)**

**2 Accounting policies (Continued)**

For offers that cannot be separated into identifiable components, revenues are recognized in full over the life of the contract. The main example is connection to the service: this does not represent a separately identifiable transaction from the subscription and communications, and connection fees are therefore recognized over the average expected life of the contractual relationship.

**2.3.2 Equipment sales**

Revenues from mobile sales are recognized when the significant risks and rewards of ownership are transferred to the buyer.

When equipment—associated to the subscription of telecommunication services—is sold by a third party retailer who purchases it from ODO and receives a commission for signing up the customer, the related revenue is:

- Recognized when the equipment is sold to the end-customer;
- Measured by ODO taking into account the best estimate of the retail price and any subsidies granted to the retailer at the time of the sale and passed on to the end-customer in the form of a rebate on the equipment.

**2.3.3 Service revenues**

Considerations from telephone service are recognized in revenue on a straight-line basis over the subscription period.

Revenue for airtime usage and messaging by customers is recognized as services are performed, with unbilled revenue resulting from services already provided accrued at the end of each period and unearned revenue from services to be provided in future periods deferred. Revenue from the sale of prepaid credit is deferred until such time as the customer uses the airtime, or the credit expires.

**2.3.4 Loyalty programs**

Points awarded to customers are treated as a separable component to be delivered in the transaction that triggered the acquisition of points. Part of the invoiced revenue is allocated to these points based on their fair value taking into account an estimated utilization rate, and deferred until the date at which the points are definitively converted into benefits. Fair value is defined as the excess price over the sales incentive that would be granted to any new customer. This principle is applied for both types of loyalty programs that exist within ODO, those with and those without a contractual renewal obligation.

**2.4 Trade receivables**

The trade receivables are mainly short-term, bearing no interest rate and measured at original invoice amount.

The valuation allowance on trade receivables is determined as follows:

- **For mobile telephone services:** The allowance is computed based on expected loss rates depending upon their aging. These rates are reviewed and adjusted periodically. When a client is determined to be in bankruptcy or subject to equivalent judicial proceedings, the associated receivables are then excluded from the statistical database and individually written-off;
- **For dealers, wholesalers, interconnection (local and roaming) and carriers:** The impairment loss is determined on a case by case analysis based on the ODO's experience.

**Orange Dominicana, S. A.**  
**Notes to the Financial Statements (Continued)**  
**December 31, 2013 and 2012**  
**(Amounts expressed in Dominican pesos-RD\$)**

**2 Accounting policies (Continued)**

**2.5 Purchases and operating expenses**

**Subscriber acquisition and retention costs**

Subscriber acquisition and retention costs, other than loyalty programs costs, are recognized as an expense for the period in which they are incurred.

**Advertising and sponsoring costs**

Advertising, promotion, sponsoring, communications and brand marketing costs are expensed as incurred.

**Financing expenses**

Expenses from commissions, foreign currency exchange and other financing expenses are recorded with charge to the period result.

**2.6 Inventories**

The inventories comprise mainly mobile handsets either located in ODO's premises or at distributors until the customer service activation.

The inventories are stated at the lower of cost or net realizable value taking into account expected revenues from the sales of mobile phones. Cost corresponds to purchase cost determined using the weighted average cost method.

**2.7 Trade payables**

Payables are recorded at their nominal value.

**2.8 Provisions and contingent liabilities**

**2.8.1 Provisions**

In the ordinary course of business, ODO is involved in certain legal and arbitration proceedings and administrative actions.

The costs which may result from these proceedings are accrued when ODO has a present obligation towards a third party and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount of that liability can be quantified or estimated within a reasonable range. The amount of provision recorded is based on a case-by-case assessment of the risk level, and events arising during the course of legal proceedings may require a reassessment of this risk.

**2.8.2 Contingent liabilities**

Contingent liabilities are:

- Possible obligations that are not recognized because their existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within ODO's control; or
- Present obligations arising from past events that are not recognized because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or because the amount of the obligation cannot be measured with sufficient reliability.

**Orange Dominicana, S. A.**  
**Notes to the Financial Statements (Continued)**  
**December 31, 2013 and 2012**  
**(Amounts expressed in Dominican pesos-RD\$)**

**2 Accounting policies (Continued)**

**2.9 Employee benefits**

Labor costs are expensed as incurred including social costs contributed by the Company in accordance with the law 87-01.

This law establishes that the employer will contribute to the financing of the contributing regime, as much for old aged insurance; handicaps (AFP) with 7.10% and family health (SFS) with 7.09% based on the wages and the employee will cover 2.87% and 3.04% respectively.

Employees are not provided with postemployment benefits.

**2.10 Intangible assets, property, plant and equipment**

**2.10.1 Intangible assets**

Intangible assets comprise mainly licenses for software and international telecommunication, frequency rights and Indefeasible Rights of Use (IRUs).

IRUs acquired by ODO correspond to the right to use cable or capacity transmission cable granted for a fixed period. They are recognized as an asset when ODO has the specific indefeasible right to use an identified portion of the underlying asset, generally optical fibers or dedicated wavelength bandwidth, and the duration of the right is for the major part of the underlying asset's economic life.

**2.10.2 Property, plant and equipments**

Property, plant and equipment comprised mainly network equipment.

The gross value of tangible assets corresponds to their acquisition or production cost, including costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Due to 2004 and 2005 hyperinflation in Dominican Republic, ODO restated its 2004 and 2005 financial statements applying IAS 29 *Financial Reporting in Hyperinflationary Economies* and adjusted consequently the gross value of assets with the corresponding balance within Shareholders' equity (i.e. Hyperinflation reserve).

The cost of networks includes design and construction costs. Maintenance and repair costs are expensed as incurred, except where they increase the asset's productivity or extend its useful life.

**2.10.3 Depreciation**

Assets are depreciated, generally with no residual value, on a basis that reflects the pattern in which their future economic benefits are expected to be consumed. The straight-line basis is usually applied. The

**Orange Dominicana, S. A.**  
**Notes to the Financial Statements (Continued)**  
**December 31, 2013 and 2012**  
**(Amounts expressed in Dominican pesos-RD\$)**

**2 Accounting policies (Continued)**

useful lives are reviewed annually and are adjusted if current estimated useful lives differ from previous estimates: these changes in accounting estimates are recognized prospectively.

<u>Main assets categories</u>	<u>Useful Lives in Years</u>
Licences . . . . .	3 - 5
Frequencies . . . . .	10 - 15
IRU (Indefeasible rights of use) . . . . .	10 - 15
Buildings . . . . .	30
Antennas and technical equipment installed (sites) . . . . .	8 - 28
Other technical equipment . . . . .	3 - 8
Office material and software . . . . .	3 - 5
Office furniture and equipment . . . . .	5 - 10
Leased improvements . . . . .	10

**2.10.4 Dismantling**

ODO is required to dismantle equipment and restore sites.

The provision is based on dismantling costs (on a per-unit basis for telephone poles, terminals and public phones, and on a per-site basis for mobile antennae) incurred by ODO to meet its environmental commitments and annual estimated asset dismantling and site restorations. The provision is assessed on the basis of the identified costs for the current financial year, extrapolated for future years using the best estimate of the commitment settlement. It is discounted at a risk-free rate. This estimate is revised annually and adjusted where appropriate against the asset to which it relates.

**2.11 Financial instruments**

The International Financial Reporting Standards (IFRS) require the disclosure of the estimated value of financial instruments, when it is practical to estimate their fair market value. The method and assumptions used to estimate the fair value of the active financial instruments like cash and cash equivalents, trade accounts receivable and payable, consisted in the approximate book value given the short expiration time of these instruments.

**2.12 Income tax**

Current tax is measured by ODO at the amount expected to be paid or recovered from the taxation authorities, based on its interpretation with regard to the application of tax legislation.

Deferred taxes are recognized for all temporary differences between the book values of assets and liabilities and their tax basis, using the liability method. Deferred tax assets are recognized only when their recovery is considered probable.

Deferred tax assets and liabilities are not discounted.

At reporting period end, ODO reviews the recoverable amount of the deferred tax assets.

In accordance with these principles, ODO calculates the tax assets, liabilities and accruals recognized in the statement of financial position based on the technical merits of the positions it defends versus that of the tax authorities.

Deferred tax assets and liabilities are measured at the expected tax rates for the year during which the assets will be realized and the liabilities settled on the basis of tax rates in force or substantially in force at the period end.

**2.13 Cash and cash equivalents**

Cash and cash equivalents are defined as cash on hand, demand deposits and short-term investments with original maturity at the date of acquisition of three month or less.

**Orange Dominicana, S. A.**  
**Notes to the Financial Statements (Continued)**  
**December 31, 2013 and 2012**  
**(Amounts expressed in Dominican pesos-RD\$)**

### **3 Financial risk management**

The Company is exposed to the following risks related to the use of financial instruments:

- Credit Risk
- Liquidity Risk
- Market Risk

#### **3.1 Credit Risk**

It is the risk of financial loss of the company if a client or the counterpart of a financial instrument, do not fulfill its contractual obligations. It comes from Cash and Receivables accounts mainly. This risk is primarily impacted by the quality and characteristics of every client.

The revenues of the Company are the results from the telecommunication services and the sale of mobiles. Accounts receivable arise with the billing to our customers and sales to wholesalers and distributors.

The company estimates the potential losses on the trade receivable accounts and other receivables based on specific components related to individual characteristics for which there is a reserve for bad debt.

#### **3.2 Liquidity Risk**

It is the risk that the company does not meet its financial obligations when dues. The policy of the company in regards to the management of the liquidity risk is to have, to the extent possible, sufficient liquidity to redeem all the current liabilities at their corresponding maturities, under normal circumstances as well as in economic crisis also without having to incur in unacceptable losses or risk damaging the company's reputation.

#### **3.3 Market Risk**

It is the risk of changes in the market price (or rates) such as exchange rates of foreign currency and interest rates that might have an impact on the net results or the value of the financial instruments owned by the company. The objective of this management is to control the exposure to this risk within acceptable parameters while improving the return of this risk.

The company is exposed to the foreign exchange risk in the purchase of goods and services denominated in dollars (US\$) and euros (EUR), which are currencies different from the reporting currency of the company, as well as for keeping assets and liabilities in those currencies without having a financial instrument to cover the exchange risk.

### **4 Revenues**

A detail of revenues as of December 31, 2013 and 2012 is as follows:

	<b>2013</b>	<b>2012</b>
Mobile .....	20,503,053,000	19,436,051,000
Wholesale .....	1,815,813,000	1,662,445,000
Internet .....	644,159,000	507,036,000

**(Amounts expressed in Dominican pesos-RD\$)**

**5 Trade receivables**

A detail of the trade receivables as of December 31, 2013 and 2012 is as follows:

	2013	2012
Customers (gross) . . . . .	2,293,630,201	2,424,943,725
Provision for doubtful accounts . . . . .	(460,743,090)	(487,534,820)
<b>Customers (net of provision) . . . . .</b>	<b><u>1,832,887,111</u></b>	<b><u>1,937,408,905</u></b>

A detail of accounts receivables with an aging as of December 31, 2013 and 2012 is as follows:

	2013	2012
Not due or less than 30 days . . . . .	1,438,538,202	1,251,365,210
Between 30 and 60 days . . . . .	238,936,495	654,176,575
Between 60 and 90 days . . . . .	106,597,280	181,345,679
More than 90 days . . . . .	509,558,224	338,056,261
	<b><u>2,293,630,201</u></b>	<b><u>2,424,943,725</u></b>

ODO 2012 figures have been restated in order to make possible the comparability between years 2013 and 2012. The restatement consisted in a netting between the trade receivables and the trade payables for an amount of RD\$633,372,811.

**6 Other receivables**

A detail of the other receivables as of December 31, 2013 and 2012 is as follows:

	2013	2012
Advances to suppliers . . . . .	171,599,490	296,156,659
VAT . . . . .	216,507,994	158,393,560
Cash pooling—current account . . . . .	2,566,699,740	135,623,414
Others . . . . .	17,707,835	39,281,085
	<b><u>2,972,515,059</u></b>	<b><u>629,454,718</u></b>

**7 Deferred income**

A detail of deferred income as of December 31, 2013 and 2012 is as follow:

	2013	2012
Prepaid telephone cards . . . . .	906,677,451	768,069,643
Loyalty program . . . . .	481,072,839	511,072,839
Monthly fee . . . . .	119,517,977	130,045,686
Handsets . . . . .	91,950,897	237,384,310
Sim cards . . . . .	(1,915,891)	68,415,160
	<b><u>1,597,303,273</u></b>	<b><u>1,714,987,638</u></b>

**Notes to the Financial Statements (Continued)**  
**December 31, 2013 and 2012**  
**(Amounts expressed in Dominican pesos-RD\$)**

**8 Cost of equipment sold**

The costs of equipment sold comprise purchases of handsets and other Sim and phone cards, as well as all costs directly attributable to them (mainly import duties and freight charges). A detail of cost of equipment sold as of December 31, 2013 and 2012 is as follow:

	2013	2012
Terminals . . . . .	(3,005,732,352)	(2,691,685,132)
SIM cards . . . . .	(117,495,603)	(134,380,975)
Import duties and freight costs . . . . .	(95,833,246)	(123,264,823)
Phone cards . . . . .	(37,918,765)	(50,750,362)
Accessories . . . . .	(167,880)	168,291
Other . . . . .	(1,743,347)	(196,166)
	<u>(3,258,891,193)</u>	<u>(3,000,109,167)</u>

**9 Selling, distribution and traffic costs**

A detail of the selling, distribution and traffic costs as of December 31, 2013 and 2012 is as follows:

	2013	2012
Selling and distribution costs . . . . .	(2,280,230,331)	(2,181,628,470)
National voice mobile terminations . . . . .	(1,798,145,387)	(1,766,511,266)
National voice fixed line terminations . . . . .	(170,473,269)	(222,273,638)
International terminations . . . . .	(501,946,684)	(497,571,059)
Data terminations (SMS) . . . . .	(227,304,467)	(215,589,932)
International roaming . . . . .	(66,724,930)	(76,658,280)
Other . . . . .	(1,217,784,156)	(900,958,904)
	<u>(6,262,609,226)</u>	<u>(5,861,191,549)</u>

**10 Others costs and income**

A detail of the other costs and income as of December 31, 2013 and 2012 is as follows:

	2013	2012
Other income . . . . .	192,711,837	127,281,750
Purchase of services . . . . .	(442,714,740)	(453,543,414)
Network energy . . . . .	(509,614,096)	(432,777,929)
Consulting, contractors & prof. serv. . . . .	(258,883,238)	(309,892,025)
Bad debt expense . . . . .	(183,177,721)	(212,931,032)
IT expenses . . . . .	(169,508,120)	(178,198,199)
Temporary staff / interim net <sup>(a)</sup> . . . . .	(77,145,048)	(78,477,569)
Purchases of supplies . . . . .	(133,406,463)	(137,764,003)
Operating tax . . . . .	(49,702,291)	(137,062,235)
Other . . . . .	(712,147,693)	(759,148,594)
	<u>(2,343,587,573)</u>	<u>(2,572,513,250)</u>

(a) The temporary labor expenses attributable to the network development are net of costs capitalized (RD\$ 89,832,817 and RD\$ 71,335,720, respectively for 2013 and 2012).

**Orange Dominicana, S. A.**

**December 31, 2013 and 2012**  
**(Amounts expressed in Dominican pesos-RD\$)**

**11 Inventories**

As of December 31, 2013 and 2012, inventories are composed of equipments, accessories and prepaid cards and a detail of the same is as follows:

	2013	2012
ODO's warehouse . . . . .	933,564,620	572,890,663
ODO's distributors (dealers) . . . . .	100,784,043	310,070,460
	<u><b>1,034,348,663</b></u>	<u><b>882,961,123</b></u>

**12 Trade payables**

A detail of trade payables as of December 31, 2013 and 2012 is as follows:

	2013	2012
Fixed assets and operating suppliers . . . . .	1,974,180,451	2,476,250,462
Related companies (see note 24) . . . . .	327,464,583	314,449,212
Distributors (dealer) . . . . .	175,108,372	164,294,562
Merchandises suppliers . . . . .	646,847,845	540,481,470
Others . . . . .	128,521,664	9,176,095
	<u><b>3,252,122,915</b></u>	<u><b>3,504,651,801</b></u>

ODO 2012 figures have been restated in order to make possible the comparability between years 2013 and 2012. The restatement consisted in a netting between the trade receivables and the trade payables for an amount of RD\$633,372,811.

**13 Other current liabilities**

A detail of the other current liabilities as of December 31, 2013 and 2012 is as follows:

	2013	2012
Taxes and VAT . . . . .	464,918,913	455,803,544
Staff bonuses . . . . .	228,037,124	213,293,578
Vacations and other . . . . .	28,086,482	28,631,492
	<u><b>721,042,519</b></u>	<u><b>697,728,614</b></u>

**14 Labor expenses**

A detail of labor expenses as of December 31, 2013 and 2012 is as follows:

	2013	2012
Salaries and wages <sup>(a)</sup> . . . . .	(766,797,062)	(758,861,075)
Employee profit sharing . . . . .	(181,597,181)	(167,749,604)
Social contribution . . . . .	(156,712,236)	(143,296,628)
Others . . . . .	(128,786,005)	(104,821,663)
	<u><b>(1,233,892,484)</b></u>	<u><b>(1,174,728,970)</b></u>

(a) According to the Company's policies and standards, personnel expenses that work at Network development are capitalized at the project for which such personnel is working. As of December 31, 2013 and 2012 the capitalized amounts for this concept are for RD\$296,338,497 and RD\$266,039,069, respectively.

**19 Cash and cash equivalents**

A detail of cash and cash equivalents as of December 31, 2013 and 2012 is as follows:

	2013	2012
Cash on hand . . . . .	1,357,000	944,811
Cash at banks . . . . .	1,037,568,338	1,158,645,957
	<u><b>1,038,925,338</b></u>	<u><b>1,159,590,768</b></u>

**20 Share capital**

The General Assembly of Shareholders decided on December 19, 2012 the capitalization of retained earnings to increase the authorized capital by adding 38,000,000 shares. Therefore the new amount of shares is 58,000,000 at RD\$100 each.

As of December 31, 2013 and 2012 the outstanding capital paid is composed by 58,000,000 shares for a total amount of RD\$5,800,000,000.

**21 Legal reserve**

The Commercial Code of the Dominican Republic in its article number 58 provides that the Company appropriate no less than 5% annually of net annual result until the total appropriated amount equals 10% of paid in capital. This reserve cannot be capitalized, transferred to retained earnings or to use to pay dividends.

**Orange Dominicana, S. A.**  
**Notes to the Financial Statements (Continued)**  
**December 31, 2013 and 2012**  
**(Amounts expressed in Dominican pesos-RD\$)**

**22 Remittance of dividends**

ODO shareholders meeting approved the payment of dividends in May 2013 for a total amount of RD\$1,855,350,000.

In November 2012 was enacted the law 253-12 of fiscal reform, establishing that dividend payments will be subject to withholding and payment of 10% of income tax as a unique payment, but not constitute anymore a tax credit for the Company.

**23 Foreign currency balances**

ODO is exposed to foreign exchange risk due both to its revenues and purchases denominated in US dollars and euros. As a consequence, these foreign operations have a direct effect on the operating, finance income and the trade receivables and payables.

Corporate management fees <sup>(c)</sup> . . . . .	(251,550,752)	(231,146,089)
General maintenance and services . . . . .	(14,988,993)	(9,896,989)
Other operational expenses, net . . . . .	(66,568,920)	(102,414,970)
Other operational income . . . . .	<u>195,501</u>	<u>12,636,008</u>

(a) In February 2009, Orange S. A. and ODO signed a centralized treasury management agreement (CTMA). Orange S. A. thus optimizes the Group liquidity. ODO lends or borrows its cash surplus/needs through a current account with Orange S. A.

The cash pooling accounts bear interest which is calculated on a daily balance and on a daily basis using:

- for the EUR account: EONIA rate for a credit balance and EONIA plus 2.15% margin for a debit balance
- for the USD account: LIBOR Overnight rate for a credit balance and LIBOR Overnight plus 2.15% margin for a debit balance

(b) The utilization of the Orange brand name is defined in a brand license agreement signed with Orange Group and costs a 1.6% fee of the ODO's monthly operating revenue.

(c) Management fees are determined in accordance with an agreement signed with Orange S. A. and are charged using a 1.03% on the monthly contributive operational revenue in 2012.

**25 Unrecognized contractual commitments**

As at December 31, 2013 and 2012 the contractual commitments are as follows:

*Leasing commitments*

The Company keeps operating rent agreements with enterprises and physical persons for the concept of commercial offices rent, parking, housing, and signal transmission antennas. Almost always these agreements are automatically renewable and are monthly, quarterly or four-monthly paid. During the years ended as of December 2013 and 2012, the Company paid for this concept the amounts of RD\$632,221,641 and RD\$563,689,755, respectively. The commitment for 2014 for this concept is an estimated RD\$604,992,425.

	1 year	1 to 5 years	over 5 years	Total
Rental commitments by year of expiration . . . .	<u>604,992,425</u>	<u>1,405,898,412</u>	<u>433,504,377</u>	<u>2,444,395,214</u>

**Orange Dominicana, S. A.**  
**Notes to the Financial Statements (Continued)**  
**December 31, 2013 and 2012**  
**(Amounts expressed in Dominican pesos-RD\$)**

**25 Unrecognized contractual commitments (Continued)**

*Other purchase and investment commitments*

A detail of other purchase and investment commitments as of December 31, 2013 is as follows:

	<u>2013</u>
Other opex commitments . . . . .	400,809,386
Capex commitments . . . . .	1,122,622,135
Handset purchase commitments . . . . .	<u>1,095,445,309</u>

- Other opex commitment are relating to marketing, network, gas distribution and civil engineering.
- Capital expenditures mainly related to network projects.

**26 Litigation**

As of December 31, 2013, ODO is party of certain judicial procedures with former distributors or dealers, for which no provision is recorded as ODO considers at this stage of the procedure that the claims are without merit.

**27 Financial Instruments**

The financial risks to which the Company is exposed are presented in the following paragraphs.

*Foreign exchange risks*

The Company is exposed to risk profit or loss in the fluctuation of the exchange rates of foreign currencies that arise, principally the US dollar and Euro. During the year 2003 an accelerated depreciation of the local currency occurred. Nevertheless since the middle of the year 2005 and 2006, the Dominican currency (DOP) has strengthened in relation to the American dollar and Euro and has been quite stable ever since. As of December 2013 and 2012, the Company has assets and liabilities in US dollars and Euros. See note 23.

*Credit risk*

As of December 31, 2013, credit risk exposure is very limited. Such risk is that Company cannot recover the accounts receivable. The major credit risk is represented by balance of each financial asset. The Company for controlling the credit risks and collects the balances with local distributors imposes to open letters of credit as a warranty to cover any issue that may come up from those clients.

*Liquidity Risk*

Management is conscious of the implications of liquidity risk. In that sense, it maintains an adequate cash balance.

**Orange Dominicana, S. A.**  
**Notes to the Financial Statements (Continued)**  
**December 31, 2013 and 2012**  
**(Amounts expressed in Dominican pesos-RD\$)**

**28 Fair Value of financial instruments**

A detail of the balances booked and the estimated as fair value of the Company financial instruments as of December 31, 2013 and 2012 is as follow:

	2013		2012	
	Accounting Amount	Fair Value	Accounting Amount	Fair Value
Financial Assets:				
Cash . . . . .	1,038,925,338	1,038,925,338	1,159,590,768	1,159,590,768
Trade receivables . . . . .	1,832,887,111	1,832,887,111	1,937,408,905	1,937,408,905
Other receivables . . . . .	2,972,515,059	2,972,515,059	629,454,718	629,454,718
Financial Liabilities:				
Trade payables . . . . .	3,252,122,915	3,252,122,915	3,504,651,801	3,504,651,801
Other current liabilities . . . . .	721,042,519	721,042,519	697,728,614	697,728,614

**29 Non-recurring transaction**

On November 26<sup>th</sup>, 2013 the Company Wirefree Services Denmark A / S, the major shareholder of Orange Dominicana, S. A., signed a contract with the economic Group Altice, of Luxembourg, for the sale of the 100% of the shares of Orange Dominicana, S. A. As at December 31<sup>st</sup>, 2013 such transaction is still in the process of validation by the Instituto Dominicano de las Telecomunicaciones (INDOTEL).

**30 Subsequent events**

No event other than those described above has occurred since the year end.

**ORANGE DOMINICANA, S.A.**

Standalone Financial Statements

As of and for the two years ended December 31, 2012

## INDEPENDENT AUDITORS' REPORT

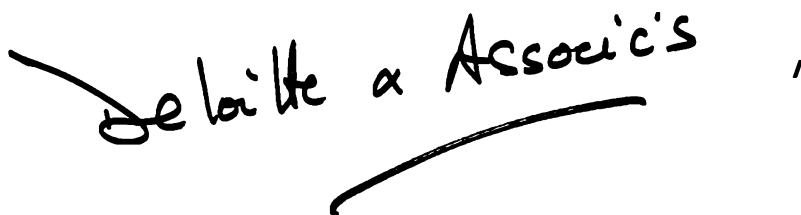

To the Board of Directors and Shareholders of Orange Dominicana

We have audited the accompanying balance sheets of Orange Dominicana (the "Company") as of December 31, 2012 and 2011, and the related statements of income, shareholders' equity, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2012 and 2011, and the results of its operations and its cash flows for the years then ended in conformity with International Financial Reporting Standards ("IFRS") as issued by the IASB.

**Orange Dominicana, S.A.**  
**Notes to the standalone financial statements**

**Note 1—Description of business and basis of preparation of the standalone financial statements**

**1.1 Description of business**

Orange Dominicana, S.A. (hereafter called “ODO”), a company incorporated in accordance with the Dominican Republic laws, began operations on November 13<sup>th</sup> 2000. ODO is an indirectly wholly-owned subsidiary of Orange S.A., a French listed company.

ODO operates under a service concession agreement for the operation of telecommunications services.

ODO provides consumers, businesses and other telecommunication operators with a wide range of services including mobile telecommunications, data transmission and other value added services.

**1.2 Basis of presentation and purpose of the financial statements**

These financial statements have been prepared in the context of the proposed sale of ODO by its sole shareholder and for use in any offering documents relating to securities that may be offered by ODO.

They have been prepared in accordance with International Financial Reporting Standards (IFRSs).

The principles applied to prepare financial data are based on:

- all standards and interpretations compulsory as of December 31, 2012;
- the recognition and measurement alternatives allowed by the IFRSs:

<u>Standard</u>	<u>Alternative used</u>
IAS 2 . . . . . Inventories	Measurement of inventories determined by the weighted average unit cost method
IAS 16 . . . . . Property, Plant and Equipment	Measurement at amortized historical cost
IAS 38 . . . . . Intangible Assets	Measurement at amortized historical cost
<ul style="list-style-type: none"> <li>• the available exemptions regarding the retrospective application of IFRSs at the transition date (January 1, 2004 for ODO):</li> </ul>	

<u>Standard</u>	<u>IFRS 1 alternative used</u>
IAS 16 and IAS 38 . . . . . Property, Plant and Equipment and Intangible Assets	Measurement of property, plant and equipment and intangible assets at historical cost

In the absence of any accounting standard or interpretation, management uses its judgment to define and apply an accounting policy that will result in relevant and reliable information, such that the financial statements:

- present fairly the ODO’s financial position, financial performance and cash flows;
- reflect the economic substance of transactions;
- are neutral;
- are prepared on a prudent basis; and
- are complete in all material respects.

**1.3 Standards and interpretations compulsory after December 31, 2012 with no early application elected by ODO**

IFRS 13—Fair value measurement—defines fair value, sets out a framework for measuring fair value and requires disclosures about fair value measurements, including the fair value hierarchy already set out in

**Orange Dominicana, S.A.**  
**Notes to the standalone financial statements (Continued)**

**Note 1—Description of business and basis of preparation of the standalone financial statements (Continued)**

IFRS 7. This standard is applicable prospectively and has no expected effect on the fair value currently measured by ODO.

**1.4 Use of estimates and judgment**

In preparing ODO's financial statements, the management makes estimates, insofar as many elements included in the financial statements cannot be measured with precision. These estimates are revised if the underlying circumstances evolve or in light of new information or experience. Consequently, estimates made at December 31, 2012 may subsequently be changed.

ODO's management also uses its judgment to define appropriate accounting policies to apply to certain transactions when the current IFRS standards and interpretations do not specifically deal with related accounting issues.

The underlying assumptions used for significant estimates are outlined below:

<u>Estimate</u>	<u>Nature of estimate</u>
Note 3.1 . . . . . Revenue	Identification of separable components of a bundled offer based on the individual components relative fair value  Period of straight-line recognition of revenue relating to invoiced service access fees depending on the nature of product and historical contractual relationship  Reporting of revenue on a net versus gross basis (depending on an analysis of the ODO's involvement as either principal or agent)
Note 4 . . . . . Purchases and other expenses	Provision for claims and litigation: assumptions underlying legal assessment and risk measurement
Note 6 . . . . . Property, plant and equipment, intangible assets	Assessment of assets' useful life based on assessment of the technological, legal or economic environments
Note 7 . . . . . Income tax	Assumptions used for the computation of the income tax charge to be recorded in the financial statements, together with the technical merit of tax positions  Assumptions used for recognition of deferred tax assets arising

**Note 2—Accounting policies**

**2.1 Financial statements preparation principle**

**Presentation**

**Income statement**

Expenses are presented in the income statement based on their nature.

Operating income corresponds to net income before:

- finance income;
- finance costs;
- income tax (current and deferred taxes) .

**Orange Dominicana, S.A.**  
**Notes to the standalone financial statements (Continued)**

**Note 2—Accounting policies (Continued)**

**Statement of financial position**

Current and non-current items are presented separately in the statement of financial position: assets and liabilities with a term of no more than twelve months are classified as current whereas, assets and liabilities with a term of more than twelve months are classified as noncurrent.

**Statement of cash flows**

The statement of cash flows is reported using the indirect method starting with the net income and is broken down into three categories:

- cash flows arising from operating activities (including finance costs and income taxes);
- cash flows arising from investing activities (mainly purchase and disposal of intangible and tangible assets);
- cash flows arising from financing activities (dividends paid).

**Foreign operations**

The financial statements are expressed in Dominican pesos.

Monetary assets and liabilities in foreign currency are translated into Dominican pesos at the year-end exchange rate at the end of each reporting period and the resulting translation differences are recorded in:

- in operating income for commercial transactions;
- in finance income or finance costs for financial transactions.

Foreign operations are recorded on initial recognition at the spot exchange rate at the date of the transaction.

**2.2 Revenues**

**Revenues**

**Revenues from ODO's activities are recognized as follows:**

**Separable components of bundled offers**

Certain service offers include two components: an equipment component (e.g. a mobile handset) and a service component (e.g. a talk plan).

For the sale of multiple products or services, ODO evaluates all deliverables in the arrangement to determine whether they represent separate units of accounting. A delivered item is considered a separate unit of accounting if (i) it has value to the customer on a standalone basis and (ii) there is objective and reliable evidence of the fair value of the undelivered item(s). The total fixed or determinable amount of the arrangement is allocated to the separate units of accounting based on its relative fair value. However, when an amount allocated to a delivered item is contingent upon the delivery of additional items or meeting specified performance conditions, the amount allocated to that delivered item is limited to the non-contingent amount. This case arises when selling bundled offers that include a handset sold at a discounted price and a telecommunications service contract. The handset is considered to have value on a standalone basis to the customer, and there is objective and reliable evidence of fair value for the telecommunications service to be delivered. As the amount allocable to the handset generally exceeds the amount received from the customer at the date the handset is delivered, revenue recognized for the handset sale is generally limited to the amount of the arrangement that is not contingent upon the rendering of telecommunication services, i.e. the amount paid by the customer for the handset.

**Orange Dominicana, S.A.**  
**Notes to the standalone financial statements (Continued)**

**Note 2—Accounting policies (Continued)**

For offers that cannot be separated into identifiable components, revenues are recognized in full over the life of the contract. The main example is connection to the service: this does not represent a separately identifiable transaction from the subscription and communications, and connection fees are therefore recognized over the average expected life of the contractual relationship.

**Equipment sales**

Revenues from mobile sales are recognized when the significant risks and rewards of ownership are transferred to the buyer.

When equipment—associated to the subscription of telecommunication services—is sold by a third party retailer who purchases it from ODO and receives a commission for signing up the customer, the related revenue is:

- recognized when the equipment is sold to the end-customer;
- measured by ODO taking into account the best estimate of the retail price and any subsidies granted to the retailer at the time of the sale and passed on to the end-customer in the form of a rebate on the equipment

**Service revenues**

Considerations from telephone service are recognized in revenue on a straight-line basis over the subscription period.

Revenue for airtime usage and messaging by customers is recognized as services are performed, with unbilled revenue resulting from services already provided accrued at the end of each period and unearned revenue from services to be provided in future periods deferred. Revenue from the sale of prepaid credit is deferred until such time as the customer uses the airtime, or the credit expires.

**Loyalty programs**

Points awarded to customers are treated as a separable component to be delivered in the transaction that triggered the acquisition of points. Part of the invoiced revenue is allocated to these points based on their fair value taking into account an estimated utilization rate, and deferred until the date at which the points are definitively converted into benefits. Fair value is defined as the excess price over the sales incentive that would be granted to any new customer. This principle is applied for both types of loyalty programs that exist within ODO, those with and those without a contractual renewal obligation.

**Trade receivables**

The trade receivables are mainly short-term, bearing no interest rate and measured at original invoice amount.

The valuation allowance on trade receivables is determined as follows:

- for mobile telephone services: the allowance is computed based on expected loss rates depending upon their aging. These rates are reviewed and adjusted periodically. When a client is determined to be in bankruptcy or subject to equivalent judicial proceedings, the associated receivables are then excluded from the statistical database and individually written-off;
- for dealers, wholesalers, interconnection (local and roaming) and carriers: the impairment loss is determined on a case by case analysis based on the ODO's experience.

**Orange Dominicana, S.A.**  
**Notes to the standalone financial statements (Continued)**

**Note 2—Accounting policies (Continued)**

**2.3 Purchases and operating expenses**

**Subscriber acquisition and retention costs**

Subscriber acquisition and retention costs, other than loyalty programs costs, are recognized as an expense for the period in which they are incurred.

**Advertising and sponsoring costs**

Advertising, promotion, sponsoring, communications and brand marketing costs are expensed as incurred.

**Inventories**

The inventories comprise mainly mobile handsets either located in ODO's premises or at distributors until the customer service activation.

The inventories are stated at the lower of cost or net realizable value taking into account expected revenues from the sales of mobile phones. Cost corresponds to purchase cost determined using the weighted average cost method.

**Trade payables**

Payables are recorded at their nominal value

**Provisions and contingent liabilities**

**Provisions**

In the ordinary course of business, ODO is involved in certain legal and arbitration proceedings and administrative actions.

The costs which may result from these proceedings are accrued when ODO has a present obligation towards a third party and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount of that liability can be quantified or estimated within a reasonable range. The amount of provision recorded is based on a case-by-case assessment of the risk level, and events arising during the course of legal proceedings may require a reassessment of this risk.

**Contingent liabilities**

Contingent liabilities are:

- possible obligations that are not recognized because their existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within ODO's control; or
- present obligations arising from past events that are not recognized because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or because the amount of the obligation cannot be measured with sufficient reliability.

**2.4 Employee benefits**

Labor costs are expensed as incurred including social costs contributed by the Company in accordance with the law 87-01.

Employees are not provided with postemployment benefits.

**Orange Dominicana, S.A.**  
**Notes to the standalone financial statements (Continued)**

**Note 2—Accounting policies (Continued)**

**2.5 Intangible assets, property, plant and equipment**

**Intangible assets**

Intangible assets comprise mainly licenses for software and international telecommunication, frequency rights and Indefeasible Rights of Use (IRUs).

IRUs acquired by ODO correspond to the right to use cable or capacity transmission cable granted for a fixed period. They are recognized as an asset when ODO has the specific indefeasible right to use an identified portion of the underlying asset, generally optical fibers or dedicated wavelength bandwidth, and the duration of the right is for the major part of the underlying asset's economic life.

**Property, plant and equipment**

Property, plant and equipment comprised mainly network equipment.

The gross value of tangible assets corresponds to their acquisition or production cost, including costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Due to 2004 and 2005 hyperinflation in Dominican Republic, ODO restated its 2004 and 2005 financial statements applying IAS 29 Financial Reporting in Hyperinflationary Economies and adjusted consequently the gross value of assets with the corresponding balance within Shareholders' equity (i.e. Hyperinflation reserve).

The cost of networks includes design and construction costs. Maintenance and repair costs are expensed as incurred, except where they increase the asset's productivity or extend its useful life.

**Depreciation**

Assets are depreciated, generally with no residual value, on a basis that reflects the pattern in which their future economic benefits are expected to be consumed. The straight-line basis is usually applied. The useful lives are reviewed annually and are adjusted if current estimated useful lives differ from previous estimates: these changes in accounting estimates are recognized prospectively.

<u>Main assets categories</u>	<u>Useful life</u> <u>(in years)</u>
Licences . . . . .	3–5
Frequencies . . . . .	10–15
IRU (Indefeasible rights of use) . . . . .	10–15
Buildings . . . . .	30
Antennas and technical equipment (sites) . . . . .	8–28
Other technical equipment . . . . .	3–8
Office material and software . . . . .	3–5
Office furniture and equipment . . . . .	5–10
Leasehold improvements . . . . .	10

**Dismantling**

ODO is required to dismantle equipment and restore sites.

The provision is based on dismantling costs (on a per-unit basis for telephone poles, terminals and public phones, and on a per-site basis for mobile antennae) incurred by ODO to meet its environmental commitments and annual estimated asset dismantling and site restorations. The provision is assessed on the basis of the identified costs for the current financial year, extrapolated for future years using the best estimate of the commitment settlement. It is discounted at a risk-free rate. This estimate is revised annually and adjusted where appropriate against the asset to which it relates.

**Orange Dominicana, S.A.**  
**Notes to the standalone financial statements (Continued)**

**Note 2—Accounting policies (Continued)**

**2.6 Income tax**

Current tax is measured by ODO at the amount expected to be paid or recovered from the taxation authorities, based on its interpretation with regard to the application of tax legislation.

Deferred taxes are recognized for all temporary differences between the book values of assets and liabilities and their tax basis, using the liability method. Deferred tax assets are recognized only when their recovery is considered probable.

Deferred tax assets and liabilities are not discounted.

At reporting period end, ODO reviews the recoverable amount of the deferred tax assets.

In accordance with these principles, ODO calculates the tax assets, liabilities and accruals recognized in the statement of financial position based on the technical merits of the positions it defends versus that of the tax authorities.

Deferred tax assets and liabilities are measured at the expected tax rates for the year during which the assets will be realized and the liabilities settled on the basis of tax rates in force or substantially in force at the period end.

**2.7 Cash and cash equivalents**

Cash and cash equivalents comprise cash on hand and cash at banks as well as short-term investments with an original maturity of three months or less from the date of acquisition.

**Note 3—Sales**

**3.1 Revenues**

Revenues	2012	2011

The Law No.309-12 was enacted on December 7, 2012, with the objective of granting the possibility of a tax amnesty to tax payers regarding the following taxes: income tax, value added tax, asset tax, transfer tax, inheritance tax, property taxes and customs taxes. The main benefits of the tax amnesty include closing fiscal periods up to 2011 for tax audit purposes; waive of penalties regarding existing tax liabilities, including those appealed by the tax payer. Orange did not apply for the tax amnesty.

<b>Total</b> . . . . .	<b>1,159,590,768</b>	<b>1,144,656,534</b>

**Note 9—Equity**

**9.1 Share capital**

The shareholders' meeting decided the conversion of the retained earnings into share capital on December 19, 2012. The share capital therefore, increased by 38,000,000 shares, and is now made of 58,000,000 shares each at a par value of RD\$100. There are no outstanding shares as of December 31, 2012.

**9.2 Legal reserve**

In accordance with the article 58 of the commercial Code of the Dominican Republic, the legal reserve is annually contributed by 5% of the net income until the total amount equals 10% of paid-in capital. This reserve cannot be capitalized, transferred to retained earnings or to use to pay dividends.

**Orange Dominicana, S.A.**  
**Notes to the standalone financial statements (Continued)**

**Note 9—Equity (Continued)**

**9.3 Dividends**

ODO's shareholders meeting approved the payment of dividends in April, September and November 2012 for a total amount of RD\$469,320,000; 667,760,000 and RD\$2,207,700,000 respectively.

The Tax Reform Act, No. 253-12, enacted on November 9, 2012 establishes a 10% withholding tax on dividends due by the distributing entity. This new act supersedes the prior regime that consisted in a 29% withholding tax on dividends, which was subsequently refunded as a tax credit to the distributing entity, in the same fiscal period. The dividends paid in April and September 2012 were taxed under the former regime.

**Note 10—Foreign currency**

ODO is exposed to foreign exchange risk due both to its revenues and purchases denominated in US dollars and euros. As a consequence, these foreign operations have a direct effect on the operating, finance income and the trade receivables and payables.

(a) In February 2009, Orange SA and ODO signed a centralized treasury management agreement (CTMA). Orange S.A. thus optimizes the Group liquidity. ODO lends or borrows its cash surplus/needs through a current account with Orange SA. The cash pooling accounts bear interest which is calculated on a daily balance and on a daily basis using:

- for the EUR account: EONIA rate for a credit balance and EONIA plus 2.15% margin for a debit balance
- for the USD account: LIBOR Overnight rate for a credit balance and LIBOR Overnight plus 2.15% margin for a debit balance

(b) The utilization of the Orange brand name is defined in a brand license agreement signed with Orange Group and costs a 1.6% fee of the ODO's monthly operating revenue.

(c) Management fees are determined in accordance with an agreement signed with Orange SA and are charged using a 1.03% on the monthly contributive operational revenue in 2012.

**Note 12—Unrecognized contractual commitments**

**12.1 Leasing commitments**

<u>Rental commitments by year of expiration</u>	<u>&lt;1 year</u>	<u>1 - 5 years</u>	<u>over 5 years</u>	<u>Total</u>

## RAPPORT DU REVISEUR D'ENTREPRISES AGREE

Conformément au mandat donné par l'Assemblée Générale des Actionnaires, nous avons effectué l'audit des comptes annuels ci-joints de Altice Six S.A., comprenant le bilan au 31 décembre 2012 ainsi que le compte de profits et pertes pour l'exercice clos à cette date et un résumé des principales méthodes comptables et d'autres notes explicatives.

### *Responsabilité du Conseil d'Administration pour les comptes annuels*

Le Conseil d'Administration est responsable de l'établissement et de la présentation sincère de ces comptes annuels, conformément aux obligations légales et réglementaires relatives à l'établissement et la présentation des comptes annuels en vigueur au Luxembourg ainsi que d'un contrôle interne qu'il juge nécessaire pour permettre l'établissement de comptes annuels ne comportant pas d'anomalies significatives, que celles-ci proviennent de fraudes ou résultent d'erreurs.

### *Responsabilité du réviseur d'entreprises agréé*

Notre responsabilité est d'exprimer une opinion sur ces comptes annuels sur la base de notre audit. Nous avons effectué notre audit selon les Normes Internationales d'Audit telles qu'adoptées pour le Luxembourg par la Commission de Surveillance du Secteur Financier. Ces normes requièrent de notre part de nous conformer aux règles d'éthique et de planifier et de réaliser l'audit en vue d'obtenir une assurance raisonnable que les comptes annuels ne comportent pas d'anomalies significatives.

Un audit implique la mise en œuvre de procédures en vue de recueillir des éléments probants concernant les montants et les informations fournis dans les comptes annuels. Le choix des procédures relève du jugement du réviseur d'entreprises agréé, de même que l'évaluation des risques que les comptes annuels comportent des anomalies significatives, que celles-ci proviennent de fraudes ou résultent d'erreurs. En procédant à cette évaluation, le réviseur d'entreprises agréé prend en compte le contrôle interne en vigueur dans l'entité relatif à l'établissement et la présentation sincère des comptes annuels afin de définir des procédures d'audit appropriées en la circonstance, et non dans le but d'exprimer une opinion sur le fonctionnement efficace du contrôle interne de l'entité. Un audit comporte également l'appréciation du caractère approprié des méthodes comptables retenues et le caractère raisonnable des estimations comptables faites par le Conseil d'Administration, de même que l'appréciation de la présentation d'ensemble des comptes annuels.

Nous estimons que les éléments probants recueillis sont suffisants et appropriés pour fonder notre opinion.

### *Opinion*

A notre avis, les comptes annuels donnent une image fidèle du patrimoine, de la situation financière de Altice Six S.A. au 31 décembre 2012, ainsi que des résultats pour l'exercice clos à cette date, conformément aux obligations légales et réglementaires relatives à l'établissement et la présentation des comptes annuels en vigueur au Luxembourg.

Pour Deloitte Audit, Cabinet de révision agréé

John Psaila, Réviseur d'entreprises agréé

## **ALTICE SIX S.A.**

### **Annexe aux comptes annuels se terminant au 31 décembre 2012**

#### **Note 1 - Généralités**

ALTICE SIX S.A. (ci-après dénommée la “Société”), a été constituée le 18 décembre 2007 sous la forme d’une société anonyme de droit luxembourgeois pour une durée illimitée.

Le siège social de la Société est établi au Grand-Duché de Luxembourg, 3, boulevard Royal, L-2449 Luxembourg. La Société est enregistrée au Registre de Commerce et des Sociétés du Grand-Duché de Luxembourg sous le numéro B 135 296.

L’exercice social commence le 1er janvier pour se clôturer le 31 décembre.

La Société a pour objet l'acquisition, la gestion, le développement et la cession de participations sous quelque forme que ce soit dans toutes sociétés luxembourgeoises et étrangères.

De plus, la Société pourra acquérir et céder toutes autres sortes de valeurs mobilières, soit par souscription, achat, échange, vente ou de toute autre manière, contracter des emprunts de toute sorte et procéder à l'émission d'obligations ou d'obligations convertibles et de titres de créance, accorder toute assistance, prêt, avance ou garantie aux sociétés dans lesquelles elle détient une participation directe ou indirecte ou à toutes sociétés faisant partie du même groupe de sociétés que la Société.

D'une manière générale, la Société est autorisée à effectuer toute opération commerciale, industrielle et financière qui pourrait être dans le champ des titres ou de la propriété immobilière, susceptibles d'augmenter ou de compléter les objets mentionnés ci-dessus.

La Société est, sur base des critères fixés par la loi luxembourgeoise, exemptée de l’obligation d’établir des comptes consolidés et un rapport consolidé de gestion pour l’exercice se terminant au 31 décembre 2012. Par conséquent, en conformité avec les prescriptions légales, ces comptes ont été présentés sur une base non consolidée pour approbation par les actionnaires lors de l’assemblée générale annuelle.

## **Annexe aux comptes annuels se terminant au 31 décembre 2012 (suite)**

### **Note 2 - Principes, règles et méthodes d'évaluation**

#### **2.1 Principes généraux**

Les comptes annuels sont établis conformément aux dispositions légales et réglementaires en vigueur au Luxembourg selon la méthode du coût historique.

Les politiques comptables et les principes d'évaluation sont, en dehors des règles imposées par la loi du 19 décembre 2002, déterminées et mises en place par le Conseil d'Administration.

La préparation des comptes annuels implique le recours à un certain nombre d'estimations comptables déterminantes. Elle impose aussi au Conseil d'Administration d'exercer leur jugement dans l'application des principes comptables. Tout changement dans les hypothèses peut avoir des répercussions significatives sur les comptes annuels de période durant laquelle ces hypothèses ont changé. La Direction estime que les hypothèses sous-jacentes sont adéquates et que les comptes annuels donnent ainsi une image fidèle de la situation financière et des résultats de la Société.

La Société fait des estimations et hypothèses qui ont une incidence sur les montants repris à l'actif et au passif au cours de l'exercice suivant. Les estimations et les jugements sont évalués de façon continue et se basent sur l'expérience passée et d'autres facteurs, dont des anticipations d'événements futurs jugés raisonnables dans ces circonstances.

#### **2.2 Principales règles d'évaluation**

Les principales règles d'évaluation adoptées par la Société sont les suivantes :

##### **2.2.1 Frais d'établissement**

Les frais d'établissement sont amortis de manière linéaire sur une période de 5 ans.

##### **2.2.2 Immobilisations financières**

#### **Méthode d'évaluation au coût historique**

##### Méthode d'évaluation au coût d'acquisition

Les parts dans les entreprises liées avec lesquelles la Société a un lien de participation ainsi que les créances envers les entreprises liées avec lesquelles la Société a un lien de participation sont évaluées au prix d'acquisition historique qui comprend les frais accessoires.

En cas de dépréciation qui de l'avis du Conseil d'Administration revêt un caractère durable, ces immobilisations financières font l'objet de corrections de valeur afin de leur donner la valeur inférieure qui doit leur être attribuée à la date de clôture du bilan.

En cas de transaction avec des tiers qui donne une indication précise de la valeur juste des immobilisations financières, ces immobilisations financières font l'objet de corrections de valeur afin de leur donner la valeur qui résulte de ces transactions. Ces corrections de valeur ne sont pas maintenues lorsqu'une transaction avec des tiers est conclue qui donne une indication précise que les corrections de valeur constatées précédemment cessent d'exister.

**Annexe aux comptes annuels se terminant au 31 décembre 2012 (suite)**

**Note 2 - Principes, règles et méthodes d'évaluation (suite)**

**2.2 Principales règles d'évaluation (suite)**

**2.2.3 Créances**

Les créances sont enregistrées à la valeur nominale. Elles font l'objet de corrections de valeur lorsque leur recouvrement est compromis. Ces corrections de valeur ne sont pas maintenues si les raisons qui ont motivé leur constitution ont cessé d'exister.

**2.2.4 Conversion des postes en devises**

Toutes les transactions exprimées dans une devise autre que EUR sont enregistrées en EUR au cours de change en vigueur à la date de transaction. Les frais d'établissement et les immobilisations exprimés dans une devise autre que EUR sont convertis en EUR au cours de change historique en vigueur au moment de la transaction. A la date de clôture, ces immobilisations restent converties au cours de change historique.

Les avoirs en banque sont convertis aux taux de change en vigueur à la date de clôture des comptes. Les pertes et les profits de change en résultant sont enregistrés au compte de profits et pertes de l'exercice.

Les autres postes de l'actif et du passif sont évalués individuellement au plus bas (actifs), respectivement au plus haut (passifs), de leur valeur au cours de change historique ou de leur valeur déterminée sur base des cours de change en vigueur à la date de clôture du bilan. Seules sont comptabilisées dans le compte de profits et pertes les gains et les pertes de change réalisés ainsi que les pertes de change non réalisées. Les bénéfices de change sont enregistrés au compte de profits et pertes au moment de leur réalisation.

**2.2.5 Provisions**

Les provisions ont pour objet de couvrir des pertes ou des dettes qui sont nettement circonscrites quant à leur nature mais qui, à la date de clôture du bilan sont ou probables ou certaines mais indéterminées quant à leur montant ou quant à la date de leur date de survenance.

Des provisions sont également constituées pour couvrir des charges qui trouvent leur origine dans l'exercice ou dans un exercice antérieur et qui sont nettement circonscrites quant à leur nature mais qui, à la date de clôture du bilan sont ou probables ou certaines mais indéterminées quant à leur montant ou quant à la date de leur date de survenance.

**Provisions pour impôts**

Les provisions pour impôts enregistrées en « Dettes fiscales » correspondent à la différence entre l'obligation estimée par la Société et les avances versées pour les exercices pour lesquels aucune déclaration n'a été déposée auprès des autorités fiscales.

**Annexe aux comptes annuels se terminant au 31 décembre 2012 (suite)**

**Note 2 - Principes, règles et méthodes d'évaluation (suite et fin)**

**2.2 Principales règles d'évaluation (suite et fin)**

**2.2.6 Dettes subordonnées**

Les dettes sont enregistrées à leur valeur de remboursement. Lorsque le montant à rembourser sur des dettes est supérieur au montant reçu, la différence est portée au compte de profits et pertes à l'émission de la dette.

Les dettes sont enregistrées comme dettes subordonnées lorsque leur statut est subordonné aux dettes chirographaires.

**Note 3 - Frais d'établissement**

Les frais d'établissement se composent de frais de constitution et de frais d'augmentation de capital.

Les mouvements de l'exercice se présentent comme suit :

	<b>2012</b>	<b>2011</b>
	<b>EUR</b>	<b>EUR</b>

<b>Valeur nette au début de l'exercice</b>	<b>5 644 557,51</b>	<b>246 455 488,62</b>

Les quotes-parts revenant à la Société dans les fonds propres des entreprises avec lesquelles la Société a un lien de participation sont supérieurs à la valeur comptable des parts dans et créances sur les entreprises liées avec lesquelles la Société a un lien de participation.

Conformément à la règle d'évaluation présentée en note 2.2.2 et compte tenu du projet de restructuration du groupe et de regroupement des activités des sous-groupes Numericable et Completel (voir Note 13), le Conseil d'Administration a décidé de reprendre une partie des corrections de valeur sur les parts et créances au 31 décembre 2012.

					<b>561 382 127,78</b>

(\*) Au 31 décembre 2012, le montant des intérêts courus non capitalisés sur les PECs émis s'élève à EUR 4 251 713,10 (2011 : EUR 3 959 553,54).

(\*\*) Au 31 décembre 2012, le montant des intérêts courus non capitalisés sur les SUPER PECs 2009 émis s'élève à EUR 4 226 398,52 (2011 : EUR 4 557 220,60).

(\*\*\*) Au 31 décembre 2012, le montant des intérêts courus non capitalisés sur les SUPER PECs 2010 émis s'élève à EUR 2 992 885,48 (2011 EUR 2 494 071,23).

### Note 10 - Impôts

La Société est assujettie à tous les impôts applicables à une société commerciale au Luxembourg.

### Note 11 - Personnel

La Société n'a employé aucun salarié au cours de l'exercice 2012.

**Annexe aux comptes annuels se terminant au 31 décembre 2012 (suite et fin)**

**Note 12 – Rémunérations allouées aux membres des organes de gestion**

Aucune rémunération n'a été accordée aux membres du Conseil d'Administration au titre de leurs fonctions au cours de l'exercice 2012.

**Note 13 - Evénements postérieurs à la clôture**

La société est engagée dans un processus de restructuration du groupe et de regroupement des activités des sous-groupes Numericable et Completel prévu au second semestre 2013. Dans ce cadre, il est envisagé qu'Ypso Holding S.à r.l. et Altice B2B Holding S.à r.l. soient regroupées et que leurs activités soient cédées à une nouvelle structure.

## RAPPORT DU REVISEUR D'ENTREPRISES AGREE

Conformément au mandat donné par l'Assemblée Générale des Actionnaires du 19 septembre 2012, nous avons effectué l'audit des comptes annuels ci-joints de Altice Six S.A., comprenant le bilan au 31 décembre 2011 ainsi que le compte de profits et pertes pour l'exercice clos à cette date et un résumé des principales méthodes comptables et d'autres notes explicatives.

### *Responsabilité du Conseil d'Administration pour les comptes annuels*

Le Conseil d'Administration est responsable de l'établissement et de la présentation sincère de ces comptes annuels, conformément aux obligations légales et réglementaires relatives à l'établissement et la présentation des comptes annuels en vigueur au Luxembourg ainsi que d'un contrôle interne qu'il juge nécessaire pour permettre l'établissement de comptes annuels ne comportant pas d'anomalies significatives, que celles-ci proviennent de fraudes ou résultent d'erreurs.

### *Responsabilité du réviseur d'entreprises agréé*

Notre responsabilité est d'exprimer une opinion sur ces comptes annuels sur la base de notre audit. Nous avons effectué notre audit selon les Normes Internationales d'Audit telles qu'adoptées pour le Luxembourg par la Commission de Surveillance du Secteur Financier. Ces normes requièrent de notre part de nous conformer aux règles d'éthique et de planifier et de réaliser l'audit en vue d'obtenir une assurance raisonnable que les comptes annuels ne comportent pas d'anomalies significatives.

Un audit implique la mise en œuvre de procédures en vue de recueillir des éléments probants concernant les montants et les informations fournis dans les comptes annuels. Le choix des procédures relève du jugement du réviseur d'entreprises agréé, de même que l'évaluation des risques que les comptes annuels comportent des anomalies significatives, que celles-ci proviennent de fraudes ou résultent d'erreurs. En procédant à cette évaluation, le réviseur d'entreprises agréé prend en compte le contrôle interne en vigueur dans l'entité relatif à l'établissement et la présentation sincère des comptes annuels afin de définir des procédures d'audit appropriées en la circonstance, et non dans le but d'exprimer une opinion sur le fonctionnement efficace du contrôle interne de l'entité. Un audit comporte également l'appréciation du caractère approprié des méthodes comptables retenues et le caractère raisonnable des estimations comptables faites par le Conseil d'Administration, de même que l'appréciation de la présentation d'ensemble des comptes annuels.

Nous estimons que les éléments probants recueillis sont suffisants et appropriés pour fonder notre opinion.

## *Opinion*

A notre avis, les comptes annuels donnent une image fidèle du patrimoine, de la situation financière de Altice Six S.A. au 31 décembre 2011, ainsi que des résultats pour l'exercice clos à cette date, conformément aux obligations légales et réglementaires relatives à l'établissement et la présentation des comptes annuels en vigueur au Luxembourg.

## *Paragraphe relatif à d'autres points*

Sans remettre en cause l'opinion d'audit émise ci-dessus, nous attirons votre attention sur le fait que les chiffres correspondants présentés au 31 décembre 2010 n'ont pas fait l'objet d'un audit.

Pour Deloitte Audit, Cabinet de révision agréé

John Psaila, Réviseur d'entreprises agréé

**Annexe aux comptes annuels se terminant au 31 décembre 2011**

**Note 1 - Généralités**

ALTICE SIX S.A. (ci-après dénommée la "Société"), a été constituée le 18 décembre 2007 sous la forme d'une société anonyme de droit luxembourgeois pour une durée illimitée soumise à la loi du 31 juillet 1929.

Le siège social de la Société est établi au Grand-Duché de Luxembourg, 37, rue d'Anvers, L-1130 Luxembourg. La Société est enregistrée au Registre de Commerce et des Sociétés du Grand-Duché de Luxembourg sous le numéro B 135 296.

L'exercice social commence le 1er janvier pour se clôturer le 31 décembre.

La Société a pour objet l'acquisition, la gestion, le développement et la cession de participations sous quelque forme que ce soit dans toutes sociétés luxembourgeoises et étrangères.

De plus, la Société pourra acquérir et céder toutes autres sortes de valeurs mobilières, soit par souscription, achat, échange, vente ou de toute autre manière, contracter des emprunts de toute sorte et procéder à l'émission d'obligations ou d'obligations convertibles et de titres de créance, accorder toute assistance, prêt, avance ou garantie aux sociétés dans lesquelles elle détient une participation directe ou indirecte ou à toutes sociétés faisant partie du même groupe de sociétés que la Société. D'une manière générale, la Société est autorisée à effectuer toute opération commerciale, industrielle et financière qui pourrait être dans le champ des titres ou de la propriété immobilière, susceptibles d'augmenter ou de compléter les objets mentionnés ci-dessus.

Les chiffres correspondants présentés au 31 décembre 2010 n'ont pas fait l'objet d'un audit en accord avec les Normes Internationales d'Audit, telles qu'adoptées pour le Luxembourg par la Commission de Surveillance du Secteur Financier, mais ont fait l'objet d'un examen limité en accord avec la norme internationale relative aux missions d'examen limité, ISRE 2400.

**Note 2 - Présentation des données financières comparatives**

Afin d'assurer la comparabilité avec les chiffres de l'exercice se terminant au 31 décembre 2011, les chiffres de l'exercice se terminant au 31 décembre 2010 relatifs aux postes suivants ont été reclassés :

- le poste « Parts dans les entreprises liées » a été reclassé dans le poste « Parts dans les entreprises liées avec lesquelles la société a un lien de participation » ;
- le poste « Créances envers des entreprises liées » a été reclassé dans le poste « Créances envers des entreprises liées avec lesquelles la société a un lien de participation » de l'actif immobilisé pour EUR 243 545 213,56 et dans le poste « Créances envers des entreprises liées avec lesquelles la société a un lien de participation » de l'actif circulant pour EUR 2 907 675,71 ;
- le poste « Provisions pour impôts » a été reclassé dans le poste « Dettes fiscales et dettes au titre de la sécurité social » ;
- le poste « Dettes envers des entreprises liées » a été reclassé dans le poste « Dettes envers des entreprises liées avec lesquelles la société a un lien de participation » ;
- le poste « Autres charges d'exploitation » a été reclassé dans le poste « Autres charges externes » ;
- le poste « Autres intérêts et autres produits financiers provenant d'entreprises liées » a été reclassé dans le poste « Produits des immobilisations financières provenant d'entreprises liées » pour un montant de EUR 8 443 102,03 et dans le poste « Produits exceptionnels » pour un montant de EUR 56 862,-.

## **Annexe aux comptes annuels se terminant au 31 décembre 2011 (suite)**

### **Note 3 - Principes, règles et méthodes d'évaluation**

#### **3.1 Principes généraux**

Les comptes annuels sont établis conformément aux dispositions légales et réglementaires en vigueur au Luxembourg selon la méthode du coût historique.

Les politiques comptables et les principes d'évaluation sont, en dehors des règles imposées par la loi du 19 décembre 2002, déterminées et mises en place par le Conseil d'Administration.

La préparation des comptes annuels implique le recours à un certain nombre d'estimations comptables déterminantes. Elle impose aussi au Conseil d'Administration d'exercer leur jugement dans l'application des principes comptables. Tout changement dans les hypothèses peut avoir des répercussions significatives sur les comptes annuels de période durant laquelle ces hypothèses ont changé. La Direction estime que les hypothèses sous-jacentes sont adéquates et que les comptes annuels donnent ainsi une image fidèle de la situation financière et des résultats de la Société.

La Société fait des estimations et hypothèses qui ont une incidence sur les montants repris à l'actif et au passif au cours de l'exercice suivant. Les estimations et les jugements sont évalués de façon continue et se basent sur l'expérience passée et d'autres facteurs, dont des anticipations d'évènements futurs jugés raisonnables dans ces circonstances.

#### **3.2 Principales règles d'évaluation**

Les principales règles d'évaluation adoptées par la Société sont les suivantes :

##### **3.2.1 Frais d'établissement**

Les frais d'établissement sont amortis de manière linéaire sur une période de 5 ans.

##### **3.2.2 Immobilisations financières**

#### **Méthode d'évaluation au coût historique**

##### **Méthode d'évaluation au coût d'acquisition**

Les parts dans les entreprises liées avec lesquelles la Société a un lien de participation ainsi que les créances envers les entreprises liées avec lesquelles la Société a un lien de participation sont évaluées au prix d'acquisition historique qui comprend les frais accessoires.

En cas de dépréciation qui de l'avis du Conseil d'Administration revêt un caractère durable, ces immobilisations financières font l'objet de corrections de valeur afin de leur donner la valeur inférieure qui doit leur être attribuée à la date de clôture du bilan.

En cas de transaction avec des tiers qui donne une indication précise de la valeur juste des immobilisations financières, ces immobilisations financières font l'objet de corrections de valeur afin de leur donner la valeur qui résulte de ces transactions. Ces corrections de valeur ne sont pas maintenues lorsqu'une transaction avec des tiers est conclue qui donne une indication précise que les corrections de valeur constatées précédemment cessent d'exister.

**Annexe aux comptes annuels se terminant au 31 décembre 2011 (suite)**

**Note 3 - Principes, règles et méthodes d'évaluation (suite)**

**3.2 Principales règles d'évaluation (suite)**

**3.2.3 Créances**

Les créances sont enregistrées à la valeur nominale. Elles font l'objet de corrections de valeur lorsque leur recouvrement est compromis. Ces corrections de valeur ne sont pas maintenues si les raisons qui ont motivé leur constitution ont cessé d'exister.

**3.2.4 Conversion des postes en devises**

Toutes les transactions exprimées dans une devise autre que EUR sont enregistrées en EUR au cours de change en vigueur à la date de transaction. Les frais d'établissement et les immobilisations exprimés dans une devise autre que EUR sont convertis en EUR au cours de change historique en vigueur au moment de la transaction. A la date de clôture, ces immobilisations restent converties au cours de change historique.

Les avoirs en banque sont convertis aux taux de change en vigueur à la date de clôture des comptes. Les pertes et les profits de change en résultant sont enregistrés au compte de profits et pertes de la période.

Les autres postes de l'actif et du passif sont évalués individuellement au plus bas (actifs), respectivement au plus haut (passifs), de leur valeur au cours de change historique ou de leur valeur déterminée sur base des cours de change en vigueur à la date de clôture du bilan. Seules sont comptabilisées dans le compte de profits et pertes les gains et les pertes de change réalisés ainsi que les pertes de change non réalisées. Les bénéfices de change sont enregistrés au compte de profits et pertes au moment de leur réalisation.

**3.2.5 Provisions**

Les provisions ont pour objet de couvrir des pertes ou des dettes qui sont nettement circonscrites quant à leur nature mais qui, à la date de clôture du bilan sont ou probables ou certaines mais indéterminées quant à leur montant ou quant à la date de leur date de survenance.

Des provisions sont également constituées pour couvrir des charges qui trouvent leur origine dans l'exercice ou dans un exercice antérieur et qui sont nettement circonscrites quant à leur nature mais qui, à la date de clôture du bilan sont ou probables ou certaines mais indéterminées quant à leur montant ou quant à la date de leur date de survenance.

Provisions pour impôts

Les provisions pour impôts enregistrées en « Dettes fiscales » correspondent à la différence entre l'obligation estimée par la Société et les avances versées pour les exercices pour lesquels aucune déclaration n'a été déposée auprès des autorités fiscales.

**Annexe aux comptes annuels se terminant au 31 décembre 2011 (suite)**

**Note 3 - Principes, règles et méthodes d'évaluation (suite et fin)**

**3.2 Principales règles d'évaluation (suite et fin)**

**3.2.6 Dettes subordonnées**

Les dettes sont enregistrées à leur valeur de remboursement. Lorsque le montant à rembourser sur des dettes est supérieur au montant reçu, la différence est portée au compte de profits et pertes à l'émission de la dette.

Les dettes sont enregistrées comme dettes subordonnées lorsque leur statut est subordonné aux dettes chirographaires.

**Note 4 - Frais d'établissement**

Les frais d'établissement se composent de frais de constitution et de frais d'augmentation de capital.

Les mouvements de l'exercice se présentent comme suit :

	<b>2011 EUR</b>	<b>Non audité 31.12.2010 EUR</b>

## Annexe aux comptes annuels se terminant au 31 décembre 2011 (suite)

## Note 5 - Immobilisations financières

Les mouvements de l'exercice se présentent comme suit :

	Parts dans des entreprises liées avec lesquelles la Société a un lien de participation	Créances sur des entreprises liées avec lesquelles la Société a un lien de participation
	EUR	EUR
Valeur brute au début de l'exercice	32 035 001,79	373 383 632,77
Entrées au cours de l'exercice	70 189,24	2 959 339,06
Sorties au cours de l'exercice	(444 690,00)	(49 064,00)
Valeur brute à la fin de l'exercice	31 660 501,03	376 293 907,83
Corrections de valeur au début de l'exercice	(26 015 943,52)	(129 838 419,21)
Corrections de valeur à la fin de l'exercice	(26 015 943,52)	(129 838 419,21)
Valeur nette à la fin de l'exercice	5 644 557,51	246 455 488,62
Valeur nette à la fin de la période précédente	6 019 058,27	243 545 213,56

Les quotes-parts revenant à la Société dans les fonds propres des entreprises avec lesquelles la Société a un lien de participation s'élèvent à EUR 505 784 350,39. La différence entre ces quotes-parts et la valeur comptable des parts dans et créances sur les entreprises liées avec lesquelles la Société a un lien de participation se monte à EUR 253 684 304,26.

Conformément à la règle d'évaluation présentée en note 3.2.2 et en l'absence de transaction conclue avec une partie tierce au cours de l'exercice, le Conseil d'Administration a décidé de maintenir les corrections de valeur identifiées dans le tableau ci-dessus.

**Annexe aux comptes annuels se terminant au 31 décembre 2011 (suite)**

**Note 5 - Immobilisations financières (suite)**

**5.1 Parts dans des entreprises liées avec lesquelles la Société a un lien de participation**

Les mouvements de l'exercice se présentent comme suit :

Le 31 janvier 2011, la Société a acquis 2 430 parts de Fiberman S.C.A. pour un montant de EUR 2 430,-.

Le 7 février 2011, la Société a acquis 17 010 parts de Fiberman S.C.A. pour un montant de EUR 15 989,40.

Le 28 février 2011, la Société a décidé de souscrire à l'augmentation de capital de la société Fiberman S.C.A. en souscrivant à 41 687 parts de EUR 1 par un apport en numéraire de EUR 41 687,00.
