EUR 60,000,000,000

Euro Medium Term Note Programme

Under its EUR 60,000,000,000 Euro Medium Term Note Programme described in this Simplified Base Prospectus (the “Programme”), Landwirtschaftliche Rentenbank (the “Issuer” or “Rentenbank”) may from time to time issue notes (the “Notes”) denominated in any currency agreed between the Issuer and the relevant Dealer(s). The maximum aggregate nominal amount of all Notes from time to time outstanding under the Programme will not exceed EUR 60,000,000,000 (or its equivalent in other currencies calculated as described herein). The Notes may be issued in any denomination.

The Notes may be issued in bearer form (“Bearer Notes”), registered form (“Registered Notes”) or uncertificated and dematerialised book entry form (“Uncertificated Notes”). Notice of the aggregate nominal amount of Notes, interest (if any) payable in respect of Notes, the issue price of Notes and certain other information which is applicable to each tranche of Notes will be set forth in a set of final terms (the “Final Terms”). This Simplified Base Prospectus should be read and construed in conjunction with any supplement thereto, any relevant Final Terms and all documents incorporated herein by reference.

Under the Issuer’s governing law, the Notes benefit from an unconditional and irrevocable guarantee of the Federal Republic of Germany (the “Guarantee of the Federal Republic”). For a discussion of the Guarantee of the Federal Republic, see “Description of the Guarantee of the Federal Republic”.

An investment in Notes issued under the Programme involves certain risks. For a discussion of these risks see “Risk Factors”.

Application has been made to the Luxembourg Financial Supervisory Commission (*Commission de Surveillance du Secteur Financier*; “CSSF”) in its capacity as the competent authority under the Luxembourg Prospectus Law to provide a certificate of approval attesting that this Simplified Base Prospectus has been drawn up in accordance with Chapter 1 of Part III of the Luxembourg Law on Prospectuses for Securities dated 10th July, 2005, as amended (*Loi relative aux prospectus pour valeurs mobilières*; the “Luxembourg Prospectus Law”) for purposes of offering the Notes to the public in Luxembourg. By approving a prospectus, the CSSF shall give no undertaking as to the economic and financial soundness of the operation or the quality or solvency of the Issuer. Application has been made to the Luxembourg Stock Exchange for the Notes to be listed on its official list and admitted to trading on its regulated market. The Programme provides that Notes may be listed on such other or further stock exchange(s) as may be agreed between the Issuer and the relevant Dealer(s). The Issuer may also issue unlisted Notes.

The Programme and the Issuer have been assigned long-term ratings of (P)Aaa/Aaa, AAA and AAA, and short-term ratings of (P)P-1/P-1, A-1+ and F1+, by Moody’s Deutschland GmbH (“Moody’s”), Standard & Poor’s Credit Market Services Europe Limited (“S&P”) and Fitch Ratings Limited (“Fitch”), respectively. Notes issued under the Programme may be rated or unrated. When a tranche of Notes is rated, such rating will not necessarily be the same as the ratings assigned to the Programme. A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, cancellation, reduction or withdrawal at any time by the assigning rating agency.

THIS SIMPLIFIED BASE PROSPECTUS

This Simplified Base Prospectus has been drawn up in order to permit (i) the offer of Notes to the public in Luxembourg and (ii) the admission of Notes to listing on the official list and to trading on the regulated market (within the meaning of Directive 2004/39/EC of the European Parliament and of the Council of 21st April, 2004 on markets in financial instruments, as amended (“MiFID”) and, as of their effective dates, Directive 2014/65/EU of the European Parliament and of the Council of 15th May, 2014 on markets in financial instruments (“MiFID II”) and Regulation (EU) No 600/2014 on markets in financial instruments (“MiFIR”)) of the Luxembourg Stock Exchange.

The Simplified Base Prospectus will be valid for 12 months after its approval for offers to the public in Luxembourg and admissions to trading on the regulated market of the Luxembourg Stock Exchange.

This Simplified Base Prospectus fulfils the requirements for a simplified base prospectus pursuant to Chapters 1 and 2 of Part III of the Luxembourg Prospectus Law. It does not constitute a prospectus for the purposes of Directive 2003/71/EC, as amended (the “Prospectus Directive”) nor does it constitute a prospectus pursuant to Part II of the Luxembourg Prospectus Law transforming the Prospectus Directive into law in Luxembourg, because the Prospectus Directive and Part II of the Luxembourg Prospectus Law do not apply to securities unconditionally and irrevocably guaranteed by a member state of the European Economic Area (each, a “Member State”). Accordingly, this Simplified Base Prospectus does not purport to meet the format and the disclosure requirements of the Prospectus Directive and Commission Regulation (EC) No 809/2004, as amended, implementing the Prospectus Directive, and it has not been, and will not be, submitted for approval to any competent authority within the meaning of the Prospectus Directive. Notes issued under the Programme will therefore not qualify for the benefit of the single European passport pursuant to the Prospectus Directive.

RESPONSIBILITY STATEMENT

Landwirtschaftliche Rentenbank assumes sole responsibility for the content of this Simplified Base Prospectus and, in respect of each tranche of Notes (each, a “Tranche”), the applicable Final Terms for such Tranche of Notes and, having taken all reasonable care to ensure that such is the case, confirms that the information contained in this Simplified Base Prospectus is, to the best of its knowledge, in accordance with the facts and contains no omissions likely to affect its import.

IMPORTANT NOTICES

Each Tranche will be issued to one or more of the Dealers specified herein and any additional Dealer appointed under the Programme from time to time, which appointment may be for a specific issue or on an ongoing basis (each a “Dealer” and together the “Dealers”). References in this Simplified Base Prospectus to the “relevant Dealer” shall, in the case of an issue of Notes being (or intended to be) subscribed by more than one Dealer, be to all Dealers agreeing to purchase such Notes. References in this Simplified Base Prospectus to the “Manager” or “Managers” shall be to the relevant Dealer or Dealers agreeing to subscribe to an issue of Notes on a syndicated basis.

Each Tranche of Notes will be issued on the terms set out herein under “Terms and Conditions of the Notes” in conjunction with a document specific to such Tranche containing the Final Terms applicable thereto. This Simplified Base Prospectus must be read and construed together with any amendments or supplements hereto and with any information incorporated by reference herein and, in relation to any Tranche of Notes which is the subject of Final Terms, must be read and construed together with the applicable Final Terms. (See also “Supplements to Simplified Base Prospectus”)

The Final Terms will be delivered to such competent authority as is required by law on or before the date of issue of the Notes of such Tranche.

Copies of the Final Terms will be available from the specified offices of the Fiscal Agent, the Principal Paying Agent, the Registrars, the Exchange Agent, the Calculation Agent, the New Zealand Agent, the VP Agent, the VPS Agent, the paying agents, the transfer agents, the issuing agents and/or the paying and transfer agents (collectively, the “Agents”). In addition, copies of Final Terms relating to Notes which are admitted to trading on the Luxembourg Stock Exchange’s regulated market will be available on the website of the Luxembourg Stock Exchange at www.bourse.lu and copies of the applicable Final Terms relating to Notes which are admitted to trading on the London Stock Exchange’s regulated market will also be available on the website of the Regulatory News Service operated by the London Stock Exchange.

This Simplified Base Prospectus should be read in conjunction with all documents which are deemed to be incorporated herein by reference (see “Documents Incorporated by Reference” below). This Simplified Base

Prospectus shall be read and construed on the basis that such documents are incorporated by reference and form part of this Simplified Base Prospectus.

No person has been authorised to give any information or to make any representation other than those contained in this Simplified Base Prospectus in connection with the issue or sale of the Notes and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer, any of the Dealers or any of the Agents.

Save for the Issuer, no other party has separately verified the information contained herein. Accordingly, no representation, warranty or undertaking, express or implied, is made and no responsibility or liability is accepted by any Dealer or any Agent as to the accuracy or completeness of the information contained in this Simplified Base Prospectus or any other information provided by the Issuer in connection with the Programme or the Notes or their distribution.

Neither the delivery of this Simplified Base Prospectus or any Final Terms nor the offering, sale or delivery of any Note shall, in any circumstances, create any implication that the information contained in this Simplified Base Prospectus is true subsequent to the date hereof or the date upon which this Simplified Base Prospectus has been most recently amended or supplemented or that there has been no adverse change, or any event reasonably likely to involve any adverse change, in the prospects or financial or trading position of the Issuer since the date thereof or, if later, the date upon which this Simplified Base Prospectus has been most recently amended or supplemented or that any other information supplied in connection with the Programme is correct at any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same. (See also “Supplements to Simplified Base Prospectus”)

Neither this Simplified Base Prospectus nor any other information supplied in connection with the Programme or any Notes (i) is intended to provide the basis of any credit or other evaluation or (ii) should be considered as a recommendation or as constituting an invitation or offer by the Issuer, any Dealer or any Agent that any recipient of this Simplified Base Prospectus or any other information supplied in connection with the Programme or any Notes should purchase any Notes. Each investor contemplating purchasing any Notes should make its own independent investigation of the financial condition and affairs, and its own appraisal of the creditworthiness, of the Issuer. Neither this Simplified Base Prospectus nor any other information supplied in connection with the Programme or the issue of any Notes constitutes an offer by or on behalf of the Issuer, any Dealer or any Agent to any person to subscribe for or to purchase any Notes.

This Simplified Base Prospectus does not constitute an offer to sell or the solicitation of an offer to buy any Notes in any jurisdiction to any person to whom it is unlawful to make the offer or solicitation in such jurisdiction. The Issuer and the Dealers do not represent that this Simplified Base Prospectus may be lawfully distributed, or that any Notes may be lawfully offered, in compliance with any applicable registration or other requirements in any such jurisdiction, or pursuant to an exemption available thereunder, or assume any responsibility for facilitating any such distribution or offering. In particular, unless specifically indicated to the contrary in applicable Final Terms, no action has been taken by the Issuer or the Dealers which would permit a public offering of any Notes outside the European Economic Area or distribution of this Simplified Base Prospectus in any jurisdiction where action for that purpose is required. Accordingly, no Notes may be offered or sold, directly or indirectly, and neither this Simplified Base Prospectus nor any advertisement or other offering material may be distributed or published in any jurisdiction, except under circumstances that will result in compliance with any applicable laws and regulations and the Dealers have represented that all offers and sales by them will be made on the same terms. The distribution of this Simplified Base Prospectus and the offer or sale of Notes may be restricted by law in certain jurisdictions. Persons into whose possession this Simplified Base Prospectus or any Notes come must inform themselves about, and observe, any such restrictions on the distribution of this Simplified Base Prospectus and the offering and sale of Notes. In particular, there are restrictions on the distribution of this Simplified Base Prospectus and the offer or sale of Notes in the United States, the United Kingdom, Japan, the Federative Republic of Brazil, the Republic of Turkey, the United Mexican States, the Republic of South Africa, Swiss Confederation, Hong Kong, Singapore, the Commonwealth of Australia and New Zealand (see “Subscription and Sale” and “Notice to Purchasers and Holders of Rule 144A Notes and Transfer Restrictions” below).

THE NOTES HAVE NOT BEEN AND WILL NOT BE REGISTERED UNDER THE UNITED STATES SECURITIES ACT OF 1933, AS AMENDED (THE “U.S. SECURITIES ACT”) OR ANY OTHER APPLICABLE U.S. STATE SECURITIES LAWS, AND MAY INCLUDE NOTES IN BEARER FORM THAT ARE SUBJECT TO U.S. TAX LAW REQUIREMENTS. NOTES MAY NOT BE OFFERED, SOLD OR DELIVERED WITHIN THE UNITED STATES OR TO, OR FOR THE ACCOUNT OR BENEFIT OF, U.S. PERSONS AS DEFINED IN REGULATIONS UNDER THE U.S. SECURITIES ACT, EXCEPT PURSUANT TO AN EXEMPTION FROM, OR IN A TRANSACTION NOT SUBJECT TO, THE

REGISTRATION REQUIREMENTS OF THE U.S. SECURITIES ACT AND PROVIDED THAT APPLICABLE U.S. TAX LAW REQUIREMENTS ARE SATISFIED. (SEE “SUBSCRIPTION AND SALE — UNITED STATES OF AMERICA” AND “NOTICE TO PURCHASERS AND HOLDERS OF RULE 144A NOTES AND TRANSFER RESTRICTIONS” BELOW). ANY OFFER OR SALE OF ANY NOTES (INCLUDING REALES THEREOF) IN THE UNITED STATES OR TO U.S. PERSONS WOULD CONSTITUTE A VIOLATION OF UNITED STATES SECURITIES LAWS UNLESS MADE IN COMPLIANCE WITH THE REGISTRATION REQUIREMENTS OF THE U.S. SECURITIES ACT OR PURSUANT TO AN EXEMPTION THEREFROM.

Certain Tranches of Notes issued in New Global Note (“NGN”) form or under the New Safekeeping Structure (“NSS”) (as defined in “Form of the Notes” below) may be held in a manner which will allow Eurosystem eligibility. This simply means that the Notes are intended upon issue to be delivered to one of Euroclear Bank S.A./N.V. (“Euroclear”) and Clearstream Banking, société anonyme (“Clearstream, Luxembourg”) as common safekeeper and does not necessarily mean that the Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria.

The Notes may not be a suitable investment for all investors. Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor may wish to consider, either on its own or with the help of its financial and other professional advisers, whether it:

- (i) has sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Simplified Base Prospectus or any applicable supplement;
- (ii) has access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) has sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes where the currency for principal or interest payments is different from the potential investor’s currency;
- (iv) understands thoroughly the terms of the Notes and is familiar with the behaviour of any relevant indices and financial markets; and
- (v) is able to evaluate possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Legal investment considerations may restrict certain investments. The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (i) Notes are legal investments for it, (ii) Notes can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

Some Notes are complex financial instruments and such instruments may be purchased as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with the assistance of a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of such Notes and the impact this investment will have on the potential investor’s overall investment portfolio.

Amounts payable under the Notes may be calculated by reference to the Euro Interbank Offered Rate (“EURIBOR”), which is provided by European Money Markets Institute (“EMMI”), the Euro OverNight Index Average (“EONIA”), which is provided by EMMI, the London Interbank Offered Rate (“LIBOR”), which is provided by ICE Benchmark Administration (“IBA”), or any other benchmark, in each case as specified in the Final Terms. As at the date of this Simplified Base Prospectus, EMMI and IBA do not appear on the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority (“ESMA”) pursuant to article 36 of Regulation (EU) 2016/1011 of the European Parliament and of the Council on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EC and Regulation (EU) No 596/2014 (the

“Benchmark Regulation”). As far as the Issuer is aware, the transitional provisions in Article 51 of the Benchmark Regulation apply, such that EMMI and IBA are required to obtain authorisation or registration (or, if located outside the European Union, recognition, endorsement or equivalence) by 1st January, 2020, only.

FORWARD LOOKING STATEMENTS

This Simplified Base Prospectus contains forward-looking statements that are based on current expectations, estimates, forecasts and projections about the industry in which the Issuer operates, management’s beliefs and assumptions made by management. Such statements include, in particular, statements about the Issuer’s plans, strategies and prospects. These statements are not guarantees of future performance and involve risks, uncertainties and assumptions that are difficult to predict. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in these forward-looking statements. Except as required under the applicable securities laws and the rules and regulations promulgated thereunder, the Issuer does not have any intention or obligation to update publicly any forward-looking statements after they are made, whether as a result of new information, future events or otherwise.

SUPPLEMENTS TO SIMPLIFIED BASE PROSPECTUS

If at any time the Issuer is required to prepare a supplement to this Simplified Base Prospectus pursuant to Article 39 or Article 55 of the Luxembourg Prospectus Law, the Issuer will either prepare and make available an appropriate supplement to this Simplified Base Prospectus which, in respect of any subsequent issue of Notes to be offered to the public in Luxembourg or listed on the official list of, and admitted to trading on, the Luxembourg Stock Exchange’s regulated market, shall constitute a supplement as required by Articles 39 and 55 of the Luxembourg Prospectus Law, or otherwise prepare and make available a new Simplified Base Prospectus.

The Issuer has undertaken that, if at any time during the duration of the Programme, there is a significant new factor, material mistake or inaccuracy relating to information contained in this Simplified Base Prospectus which is capable of affecting an assessment by investors of the assets and liabilities, financial position, profits and losses and prospects of the Issuer and/or the rights attaching to the Notes or if this Simplified Base Prospectus shall otherwise come to contain an untrue statement of a material fact or omit to state a fact necessary to make the statements contained herein not misleading in any material respect, the Issuer shall prepare a supplement to this Simplified Base Prospectus or publish a replacement Simplified Base Prospectus for use in connection with any subsequent offering of the Notes.

STABILISATION

In connection with the issue of any Tranche of Notes, one or more relevant Dealers (the “Stabilising Manager(s)”) (or persons acting on behalf of any Stabilising Manager(s)) may over-allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, there is no assurance that the Stabilising Manager(s) (or persons acting on behalf of a Stabilising Manager) will undertake stabilisation action. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may be ended at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment must be conducted by the relevant Stabilising Manager(s) (or persons acting on behalf of any Stabilising Manager(s)) in accordance with all applicable laws and rules.

Notes may also be issued in uncertificated and dematerialised book entry form (“Uncertificated Notes”) that are recorded in a financial products register kept in New Zealand, denominated in New Zealand dollars and lodged with the NZClear System maintained by the Reserve Bank of New Zealand (“Kauri Notes” and “NZClear”, respectively), registered with and cleared through VP Securities A/S (“VP Notes” and “VP”, respectively) or registered with and cleared through the Norwegian Central Securities Depository (*Verdipapirsentralen ASA*) (“VPS Notes” and “VPS”, respectively). Uncertificated Notes (other than Legacy Notes) will be evidenced by a Global Note registered in the name of a depository of NZClear, in the name of and for the benefit of VP (or its nominee) or in the name of the VPS Agent (or its nominee), as the case may be, and held by or on behalf of the New Zealand Agent on behalf of the depository of NZClear, the VP Agent (or its nominee) or the VPS Agent (or its nominee), as the case may be. Entitlements to Uncertificated Notes will be evidenced by the crediting of such Notes to accounts with NZClear, VP or VPS, as the case may be.

Clearing Systems:

Notes in CGN form and those not held under the NSS will normally be initially deposited with a common depository for Euroclear Bank S.A./N.V. (“Euroclear”) and Clearstream Banking, société anonyme (“Clearstream, Luxembourg”) or deposited with a custodian for, and registered in the name of, Cede & Co. as nominee for The Depository Trust Company (“DTC”). Notes may also be deposited with a custodian for Clearstream Banking Aktiengesellschaft (“Clearstream, Frankfurt”) or for any other clearing system agreed by the Issuer, the relevant Dealer and the Fiscal Agent and/or Principal Paying Agent.

Notes issued in NGN form or held under the NSS will be deposited and safekept by a common safekeeper (the “Common Safekeeper”) and serviced by a common service provider (the “Common Service Provider”) for Euroclear or Clearstream, Luxembourg.

Notes issued in NGN form or held under the NSS that the Issuer wishes to make potentially eligible as collateral for Eurosystem monetary policy or intra-day credit operations will be deposited and safekept throughout their lives by Euroclear or Clearstream, Luxembourg as Common Safekeeper.

Uncertificated Notes will be lodged or registered with and cleared through NZClear, VP, VPS or any other clearing system agreed by the Issuer, the relevant Dealer and the Fiscal Agent and/or Principal Paying Agent.

Type of Notes:

Notes may be Fixed Rate Notes (including Step-up and Step-down Notes), Floating Rate Notes, Fixed-to-Floating Rate Notes, Dual Currency Notes, Alternative Settlement Notes, Index Linked Notes, Zero Coupon Notes or may have any other structure, all upon the terms set out in the applicable Final Terms.

Fixed Rate Notes:

Fixed interest will be payable on such date or dates as may be agreed between the Issuer and the relevant Dealer (as indicated in the applicable Final Terms) and on redemption and will be calculated on the basis of such Day Count Fraction as may be agreed between the Issuer and the relevant Dealer and indicated in the applicable Final Terms.

Step-up/step-down Notes:

Step-up and Step-down Notes are Notes which bear fixed interest at varying rates, such rates being, in the case of Step-up Notes, greater or, in the case of Step-down Notes, less than the rates applicable to the previous interest periods.

Floating Rate Notes:

Floating Rate Notes will bear interest at a rate determined either:

- (i) on the same basis as the floating rate under a notional interest-rate swap transaction in the relevant Specified Currency governed by an agreement incorporating the 2006 ISDA Definitions (published by the International Swaps and Derivatives Association, Inc., and as amended and updated as at the Issue Date of the first tranche of the Notes of the relevant series); or
- (ii) on the basis of a reference rate appearing on the agreed screen page of a commercial quotation service;
- (iii) on the basis of constant maturity swap (“CMS”) rates; or
- (iv) on such other basis as may be agreed between the Issuer and the relevant Dealer,

as indicated in the applicable Final Terms.

The margin (if any) relating to such floating rate will be agreed between the Issuer and the relevant Dealer for each series of Floating Rate Notes.

Other Provisions in relation to Floating Rate Notes and Index Linked Interest Notes:

Floating Rate Notes and Index Linked Interest Notes may also have a maximum interest rate, a minimum interest rate or both (as indicated in the applicable Final Terms; provided that, if no Minimum Rate of Interest is specified in the relevant Final Terms, then the Minimum Rate of Interest in respect of each relevant Interest Period shall be deemed to be zero, and in no event shall the calculated Rate of Interest be less than zero). Interest on Floating Rate Notes and Index Linked Interest Notes in respect of each Interest Period, as agreed prior to issue by the Issuer and the relevant Dealer(s), will be payable on such Interest Payment Dates and will be calculated on the basis of such Day Count Fraction as may be agreed between the Issuer and the relevant Dealer(s) (as indicated in

	the applicable Final Terms).
Dual Currency Notes:	Payments in respect of interest on the Notes (such Notes are referred to as “Dual Currency Notes”) will be made in such currencies, and based on such rates of exchange, as the Issuer and the relevant Dealer(s) may agree (as indicated in the applicable Final Terms).
Alternative Settlement Notes:	Payments of interest and principal on the Notes (such Notes are referred to as “Alternative Settlement Notes”) will be settled in such different currency, and at a rate of exchange calculated upon such basis as the Issuer and the relevant Dealer(s) may agree (as indicated in the applicable Final Terms).
Index Linked Notes:	Payments in respect of interest on the Notes (such Notes are referred to as “Index Linked Interest Notes”) and/or in respect of principal on the Notes (such Notes are referred to as “Index Linked Redemption Notes”) will be calculated by reference to such index and/or formula or to changes in the prices of securities or commodities or to such other factors as the Issuer and the relevant Dealer(s) may agree (as indicated in the applicable Final Terms).
Zero Coupon Notes:	Zero Coupon Notes will be offered and sold at a discount to their nominal amount or at par and will not bear interest.
Redemption:	<p>The Final Terms relating to each tranche of Notes will indicate either that the relevant Notes cannot be redeemed prior to their stated maturity (other than in specified instalments (see below), if applicable, or for taxation reasons or following an Event of Default) or that such Notes will be redeemable at the option of the Issuer and/or the holders of the Notes (the “Holders”) upon giving irrevocable notice (subject to the notice period indicated in the applicable Final Terms) to the Holders or the Issuer, as the case may be, on a date or dates specified prior to such stated maturity and at a price or prices and on such terms as are indicated in the applicable Final Terms.</p> <p>The applicable Final Terms may provide that Notes may be repayable in two or more instalments of such amounts and on such dates as indicated in the applicable Final Terms.</p>
Denomination of Notes:	Notes will be issued in such denominations as may be agreed between the Issuer and the relevant Dealer and as indicated in the applicable Final Terms except that the minimum denomination of each Note will be such as may be allowed or required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to the relevant Specified Currency.
Taxation:	All payments in respect of the Notes will be made without deduction for or on account of withholding taxes levied by or on behalf of the Federal Republic of Germany or any political subdivision or any authority thereof or therein having power to tax, apart from certain exceptions. In the event that any such deduction is made, the Issuer will, except in certain circumstances, be required to pay additional amounts to cover the amounts so deducted.
Negative Pledge:	None.
Cross Default:	None.
Status of the Notes:	The Notes will constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer and will rank <i>pari passu</i> among themselves and (subject as aforesaid and to such mandatory exceptions as are from time to time applicable under German law) equally with all other unsecured obligations (other than subordinated obligations, if any) of the Issuer from time to time outstanding.
Status of the Guarantee of	The obligation of the Federal Republic of Germany under the Guarantee

the Federal Republic:

of the Federal Republic will rank equally, without any preference, with all of its other present and future unsecured and unsubordinated indebtedness. Holders of securities issued by Rentenbank or issued under Rentenbank's guarantee will be able to enforce this obligation directly against the Federal Republic of Germany without first having to take legal action against the Issuer.

Information Relating to the Issuer

Description:

Landwirtschaftliche Rentenbank is a federal public law institution with legal capacity. It was established on 1st June, 1949 by virtue of the Law Governing Landwirtschaftliche Rentenbank of 11th May, 1949 (the "Rentenbank Law"). Pursuant to the Rentenbank Law, the Issuer has the function to act as central refinancing agency for the agriculture and food industries.

The registered office of the Issuer is located at Hochstrasse 2, 60313 Frankfurt am Main, Federal Republic of Germany.

Under the Rentenbank Law, the Notes benefit from a statutory guarantee of the Federal Republic of Germany. See “Description of the Guarantee of the Federal Republic” below.

In its capacity as a statutory institution, the Issuer benefits from the “*Anstaltslast*”, or institutional liability, of the Federal Republic of Germany and is exempt from German corporate income tax and trade tax. Furthermore, the Rentenbank Law states that insolvency proceedings with respect to the Issuer’s assets are inadmissible.

Principal Activities:

Under the Rentenbank Law, the Issuer is charged with providing loans and other types of financing for the German agricultural and forestry sectors, viticulture and horticulture sectors as well as in aquaculture and fisheries. Funds are also provided for projects in the food industry and other upstream and downstream companies as well as investments in renewable energies and projects for rural development. The principal purpose of loans granted is the promotion of agriculture, agribusiness and rural development.

RISK FACTORS

In addition to the other information contained in this Simplified Base Prospectus, prospective investors should carefully consider the following factors before making any investment decisions with respect to Notes issued under the Programme. Potential investors should be aware that the risks involved with investing in any Notes may (i) affect the ability of the Issuer to fulfil its obligations under Notes issued under the Programme and/or (ii) lead to a volatility and/or decrease in the market value of the relevant Notes whereby the market value falls short of the expectations (financial or otherwise) of an investor upon making an investment in such Notes. Most of these factors are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring. The risks described below are not the only risks that the Issuer and prospective investors face. Additional risks not currently known to the Issuer may also impair the Issuer's business operations and/or its ability to repay any amounts due in respect of any of the Notes.

Any person proposing to make an investment decision in respect of any Notes should read all information contained in this Simplified Base Prospectus together with any amendments or supplements hereto and applicable Final Terms and, if required, seek independent professional advice and consult, or review the securities with, (among others) the person's own financial, legal and tax advisers.

Risks Relating to the Issuer

Credit Exposure and Increased Loan Loss Provisions

While the Issuer's business consists almost entirely in issuing loans to other financial institutions, it is subject to the risk that borrowers and other contractual partners may become unable to meet their obligations to the Issuer. Defaults may arise from events or circumstances that are difficult to foresee or detect or have not yet been foreseen or detected. In addition, the Issuer may find that any collateral position is insufficient to cover the respective credit exposure due to, for example, market developments reducing the value of such collateral. Any default by a major borrower of the Issuer could have a material adverse effect on the Issuer's business, results of operations or financial condition.

The Issuer may have to increase its loan loss provisions in the future as a result of a rise in the number or amount of non-performing loans in its loan portfolio or as a result of applying uniform provisioning policies to the entire loan portfolio of the Issuer. Any such increases in loan loss provisions in excess of existing provisions could have a material adverse effect on the Issuer's business, results of operations and financial conditions.

Interest Rate and Exchange Rate Market Risk

There will be risks associated with changes in interest rates and foreign exchange rates. While the Issuer has implemented risk management methods to mitigate and control these and other market risks to which the Issuer is exposed, it is difficult to predict changes in economic or market conditions and to anticipate the effects that such changes could have on the Issuer's financial performance and business operations.

Issuer's Credit Ratings

Ratings of the Programme and the Issuer are not a recommendation to buy, hold or sell the Notes. The ratings may be lowered, suspended or withdrawn entirely at any time by the relevant rating agency. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. Actual or anticipated changes in the Issuer's credit ratings may affect the market value of the Notes.

Soundness of Other Financial Institutions

The Issuer's exposure to counterparties in the financial services industry in the normal course of its business is particularly significant. This exposure can arise through trading, lending, clearance and settlement and many other activities and relationships. These counterparties include brokers and dealers, commercial banks, investment banks and other institutional clients. Many of these relationships expose the Issuer to credit risk in the event of default of a counterparty or client. The insolvency of these counterparties may impair the effectiveness of the Issuer's hedging and other risk management strategies.

Risks Relating to the Global Economic and Financial Market Conditions

The Issuer's business and results of operations are affected by conditions in the global financial markets and by global economic conditions, particularly in Germany. Challenging market conditions may result in greater volatility but also in reduced liquidity, widening of credit spreads and lack of price transparency in credit markets. This may impact the Issuer's ability to raise debt in a similar manner, and at a similar cost, to the funding raised in the past. Changes in investment markets, including changes in interest rates, exchange rates and returns from equity, property and other investments, may affect the financial performance of the Issuer. In

addition, the financial performance of the Issuer could be adversely affected by a worsening of general economic conditions in the markets in which it operates.

Global financial markets have in the past been affected by periods of turbulence and have suffered from prolonged periods of volatility and disruption. For example, the global economic and financial crisis of 2007-2008 and the subsequent sovereign debt crisis in Europe had a significant impact on the world's banking system and financial markets. If the global economic situation worsens again, the Issuer may face liquidity problems and may experience increased costs of funding which could have a material adverse effect on the Issuer's business, financial condition, results of operations and prospects.

Following a national referendum in June 2016, the United Kingdom formally notified the European Council on 29th March, 2017 of its intention to withdraw from the European Union. Negotiations have commenced to determine the future terms of the United Kingdom's relationship with the European Union, including, among other things, the terms of trade between the United Kingdom and the European Union. However, the timing of any transition period following the United Kingdom's exit from the European Union, the terms of any agreement governing the future relationship between the United Kingdom and the European Union, as well as the legal and economic consequences of those terms, remain unclear. The referendum has created significant political uncertainty and has also prompted political parties and electorates in other EU member states to discuss withdrawal from the European Union. These uncertainties could have a material adverse effect on global economic conditions, the stability of the regulatory environment and global financial markets, as well as on the Issuer's business, financial condition, results of operations and prospects. In addition, no assurance can be given that such matters will not adversely affect the rights of Holders, the market value of the Notes and/or the ability of the Issuer to satisfy its obligations under the Notes.

Any political developments in the European Union, including any future integration or withdrawal of European countries in the European Union or changes in the economic policy, executive authority or composition of the European Union and its institutions, may have an adverse effect on the overall economic stability of the European Union and of Germany. Any changes in the political or economic stability of the European Union, as well as any political, economic, regulatory or administrative developments, over which the Issuer has no control, could have a material adverse effect on the Issuer's business, results of operations and financial condition.

The Issuer has direct and indirect exposure to European sovereigns and to financial institutions, governmental entities, counterparties, custodians, customers and service providers within the European Union. These exposures may, in the future, be affected by restructuring of their terms, principal, interest and maturity. As a consequence, this may impact the ability of the Issuer to access the funding it needs, or may increase the cost of such funding, which may cause it to suffer liquidity stress.

Risks Relating to Regulations and Regulatory Changes

The Issuer is subject to detailed banking and other financial services laws and government regulation. Regulators have broad administrative power over many aspects of the financial services business, including liquidity, capital adequacy, permitted investments, ethical issues, anti-money laundering, privacy, record keeping, and marketing and selling practices.

Banking and other financial services laws, regulations and policies governing the Issuer have been changing and are subject to further change at any time in ways which may have an adverse effect on the Issuer's business. The timing or form of any future regulatory or enforcement initiatives in respect thereof are still uncertain.

Although it is difficult to predict what impact all of the recent and future regulatory changes, developments and heightened levels of scrutiny will have on the Issuer, the enactment of legislation and regulations in the European Union and in Germany, changes in other regulatory requirements and the transition to direct supervision by the European Central Bank (the "ECB") have resulted in increased capital and liquidity requirements and/or increased operating costs and have impacted, and are expected to continue to impact, the Issuer's business. Any new or changed regulations may likewise adversely affect the Issuer's business and/or results of operations.

Risks Related to Supervision

As of 4th November, 2014, the Issuer is subject to direct supervision by the ECB under the Single Supervisory Mechanism ("SSM"), which comprises the ECB and the national competent authorities of participating EU countries. Under the SSM, the ECB may carry out comprehensive assessments comprising (i) supervisory risk assessments, (ii) asset quality reviews and (iii) stress tests. The Issuer has significantly invested and may be forced to continue to significantly invest in resources to familiarise the ECB with the Issuer's

business and financial position and to adapt to the ECB's supervisory approach. Failure on the part of the Issuer to comply with the requirements of its supervisory authorities could result in administrative measures, closer regulatory scrutiny or higher compliance costs or otherwise affect its business, results or financial condition. Under the SSM, the Issuer is subject to the direct supervision of the ECB and may be subject to investigations. Current and future investigations by supervisory authorities, in particular in the context of, but not limited to, market conduct supervision, could require the Issuer to take costly measures and/or may result in changes in laws and regulations that are adverse to the Issuer. The outcome of any investigation may also damage the reputation of the industry and of the Issuer and may lead to further surveillance, and judicial or administrative proceedings. In addition, the Issuer could be fined or prohibited from engaging in some of its business activities or be sued by customers if it does not comply with applicable laws or regulations. Such outcomes may adversely affect the Issuer's operations and business.

Risks Relating to Notes Generally

Limited Liquidity

The fact that Notes issued under the Programme may be listed does not necessarily lead to greater liquidity. No assurance can be given that there will be a market for any Notes. If any Notes are not traded on any stock exchange, pricing information for such Notes may be more difficult to obtain, and the liquidity and market prices of such Notes may be adversely affected. The liquidity of Notes may also be affected by restrictions on offers and sales of the Notes in some jurisdictions. The Issuer and the Dealers may from time to time make a market in the Notes but are under no obligation to do so and, if a market does develop, it may not continue until the maturity of all Notes.

Modification and Waivers

The Legacy Agency Agreements contain provisions for convening meetings of Holders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Holders including Holders who did not attend and vote at the relevant meeting and Holders who voted in a manner contrary to the majority.

Exchange Rate Risk

Prospective investors of the Notes should be aware that an investment in Notes may involve exchange rate risks. Notes may be denominated in a currency other than the currency of the investor's home jurisdiction; and/or Notes may be denominated in a currency other than the currency in which an investor wishes to receive funds. Exchange rates between currencies are determined by factors of supply and demand in the international currency markets which are influenced by macroeconomic factors, speculation and central bank and government intervention (including the imposition of currency controls and restrictions). Fluctuations in exchange rates may affect the value of the Notes or the reference assets. Accordingly, only investors who understand and are able to bear the risks associated with movements in foreign exchange rates and how such movements may affect the value of Notes should consider purchasing Notes.

Exchange Control

Prospective investors of the Notes should be aware that government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate or the ability of the Issuer to make payments in respect of the Notes. As a result, investors may receive less interest or principal than expected, or no interest or principal.

The Proposed Financial Transaction Tax

On 14th February, 2013, the European Commission published a proposal (the "Commission's Proposal") for a directive for a common financial transaction tax ("FTT") in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "Participating Member States"). However, Estonia has since stated that it will not participate.

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances. The issuance and subscription of the Notes should, however, be exempt.

Under the Commission's Proposal, the FTT could apply in certain circumstances to persons both within and outside of the Participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution (as defined in the proposed directive), and at least one party is established in a Participating Member State. A financial institution may be, or deemed to be, 'established' in a Participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a Participating Member State or (b) where the financial instrument which is the subject of the dealings is issued in a Participating Member State.

However, the FTT proposal remains subject to negotiation between Participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional member states of the European Union may decide to participate.

Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

Risks Related to FATCA and CRS

The U.S. Foreign Account Tax Compliance Act (“FATCA”) imposes a 30 per cent. withholding tax on certain payments to non-U.S. financial institutions that fail to comply with information reporting requirements or certification requirements in respect of their direct and indirect United States shareholders and/or United States accountholders. On 31st May, 2013, Germany and the United States signed an intergovernmental agreement regarding the implementation of FATCA (the “German IGA”), which entered into force on 11th December, 2013. To comply with its obligations under the German IGA, Germany has enacted a provision in the German General Tax Code (*Abgabenordnung*) which entitles the German tax authorities to gather information for purposes of FATCA and forward such information to the United States Competent Authority (as defined in said agreement).

Similarly to the German IGA, the Common Reporting Standard for the Automatic Exchange of Financial Account Information in Tax Matters (*Finanzkonten-Informationsaustauschgesetz*; “CRS”) generally obliges certain financial institutions to provide information on financial accounts to the Federal Central Tax Office which exchanges such information with the responsible authority of the relevant other state participating in the automatic exchange of financial account information.

In reliance on certain provisions of the German IGA and the CRS, the Issuer has taken the position that it is exempt from the requirements of FATCA and the CRS. However, there can be no assurance that the exemption on which the Issuer intends to rely will be available or that the relevant taxing authorities will not take a position contrary to that taken by the Issuer. If an exemption is not available, then the Issuer may be required to report under the regulations issued pursuant to FATCA and the CRS and, perhaps, withhold on a portion of payments under the Notes beginning after a date to be specified under regulations issued pursuant to FATCA. Even if the Issuer is exempt from the requirements of FATCA, Notes held through intermediary non-U.S. financial institutions may be subject to reporting and withholding requirements under FATCA. The Issuer will not be required to gross-up for any such amounts withheld. Significant aspects of when and how FATCA will apply remain unclear, however, and no assurance can be given that withholding under FATCA is not or will not become relevant with respect to payments made on or with respect to the Notes in the future, in which case the Issuer will not be obligated to pay any additional amounts in respect of any amounts so withheld or deducted. As a result, investors may, if FATCA is imposed on payments in respect of the Notes, receive less interest or principal than expected. Each Holder should consult its own tax advisor regarding the potential consequences to it of FATCA.

Change in Applicable Law or Administrative Practice

The Terms and Conditions of the Notes are based on German law in effect as at the date of issue of the relevant Notes. The terms and conditions of the Legacy Notes are based on English law in effect as at the date of issue of the relevant Tranche of the Legacy Notes. No assurance can be given as to the impact of any possible judicial decision or change to German or English, as the case may be, law or administrative practice after the date of issue of the relevant Notes.

Denominations Not an Integral Multiple of the Specified Denomination

In relation to any issue of Notes which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Notes may be traded in amounts that are not integral multiples of such minimum Specified Denomination. In such a case a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time may not receive a definitive Note in respect of such holding and would need to purchase a principal amount of Notes such that its holding amounts to a Specified Denomination.

Clearing Systems

A holder of a co-ownership participation or a beneficial ownership interest, as the case may be, in a Global Note must rely on the procedures of Euroclear and Clearstream, Luxembourg, DTC, Clearstream, Frankfurt or NZClear to receive payments under the relevant Notes. A holder of VP Notes must rely on the procedures of VP to receive payments under the relevant Notes, and a holder of VPS Notes must rely on the procedures of VPS to receive payments under the relevant Notes. The Issuer has no responsibility or liability for

the records relating to, or payments made in respect of, the co-ownership participations or the beneficial ownership interests, as the case may be, in Global Notes, or ownership interest in VP Notes and VPS Notes.

Holders of co-ownership participations or beneficial ownership interests, as the case may be, in Global Notes representing Legacy Notes will not have a direct right to vote in respect of the relevant Notes. Instead, such holders will be permitted to act only to the extent that they are enabled by Euroclear and Clearstream, Luxembourg, DTC or Clearstream, Frankfurt to appoint appropriate proxies. Similarly, holders of beneficial ownership interests in Global Notes representing Legacy Notes will not have a direct right under Global Notes to take enforcement action against the Issuer in the event of a default under the relevant Notes but will have to rely upon their rights under the Deed of Covenant.

Conflicts of Interest

The Issuer may appoint a Dealer as Calculation Agent in respect of an issuance of Notes under the Programme. In such a case the Calculation Agent is likely to be a member of an international financial group that is involved, in the ordinary course of its business, in a wide range of banking activities out of which conflicting interests may arise. Whilst such a Calculation Agent will, where relevant, have information barriers and procedures in place to manage conflicts of interest, it may in its other banking activities from time to time be engaged in transactions involving an index or related derivatives which may affect amounts receivable by Holders during the term and on the maturity of the Notes or the market price, liquidity or value of the Notes and which could be deemed to be adverse to the interests of the Holders.

Risks Relating to the Structure of a Particular Issue of Notes

Fixed Rate Notes (Including Step-Up Notes and Step-Down Notes)

A holder of a Fixed Rate Note is exposed to the risk that the price of such Note may fall as a result of changes in the market interest rate. While the nominal interest rate of a Fixed Rate Note as specified in the applicable Final Terms is fixed during the life of such Note, the current interest rate on the capital market ("market interest rate") typically changes on a daily basis. As the market interest rate changes, the price of a Fixed Rate Note also changes, but in the opposite direction. If the market interest rate increases, the price of a Fixed Rate Note typically falls, until the yield of such Note is approximately equal to the market interest rate of comparable issues. If the market interest rate falls, the price of a Fixed Rate Note typically increases, until the yield of such Note is approximately equal to the market interest rate. Changes in the market interest rate are particularly with relevance to such holder who wants to sell the Notes prior to the maturity date or if the Notes will be redeemed prior to maturity (also by the Issuer as the case may be). The same risk applies to Step-up Notes and Step-down Notes if the Market Interest Rates are higher than the nominal interest rates applicable to such Notes.

Floating Rate Notes

The interest income on Floating Rate Notes cannot be anticipated. Due to varying interest income, investors are not able to determine a definite yield of Floating Rate Notes at the time they purchase them, so that their return on investment cannot be compared with that of investments having fixed interest rates.

Floating Rate Notes may be structured to include Minimum or Maximum Rates of Interest, or a combination of those features. In such case, their market value may be more volatile than the market value for Floating Rate Notes that do not include these features. The effect of a Maximum Rate of Interest is that the amount of interest will never rise above the predetermined Maximum Rate of Interest, so that a holder will not be able to benefit from any actual favourable development beyond the Maximum Rate of Interest. The profitability could therefore be considerably lower than that of similar Floating Rate Notes without a Maximum Rate of Interest. Neither the current nor the historical value of the relevant floating rate of interest should be taken as an indication of the future development of such floating rate of interest during the term of any Notes.

Zero Coupon Notes

Changes in market interest rates have a substantially stronger impact on the prices of Zero Coupon Notes than on the prices of ordinary Notes because the discounted issue prices are substantially below par. If market interest rates increase, Zero Coupon Notes can suffer higher price losses than other Notes having the same maturity and a comparable credit rating. Hence, Zero Coupon Notes are a type of investment associated with a particularly high price risk.

Foreign Currency Notes and Dual Currency Notes

A holder of Notes denominated in a foreign currency and Notes with interest payable in one or more currencies that are different from the currency in which the Notes are denominated is exposed to the risk of changes in currency exchange rates which may affect the yield of such Notes. Changes in currency exchange

rates result from various factors such as macro-economic factors, speculative transactions and interventions by central banks and governments.

A change in the value of any foreign currency against the Euro, for example, will result in a corresponding change in the Euro value of Notes denominated in a currency other than Euro and a corresponding change in the Euro value of interest and principal payments made in a currency other than in Euro. If on the one hand the exchange rate underlying the Notes falls and on the other hand the value of the currency of the Notes correspondingly rises, the price of the Notes and the value of interest and principal payments made thereunder falls and the redemption amount may be lower than the amount invested.

Structured Notes

An investment in Notes, the premium and/or the interest on and/or principal of which is determined by reference to one or more underlying assets (shares, indices (including inflation linked), currencies, interest or swap rates, commodities, bonds, formulae or similar variables or baskets of underlying assets) will always comprise the risk that the interest and/or premium and/or the invested capital may be lost partly or completely. The assets underlying such Notes may be subject to considerable changes, due to their composition or fluctuations in value of their components. An increase or decrease in the value of the underlying assets will have a corresponding direct or inverse effect on the value of such Notes.

A Note referring to more than one underlying asset may have a cumulative or even potentiated risk compared to a Note which is only related to one underlying asset. Holders may not be able to secure themselves against these different risks with regard to such Notes. A material market disruption could lead to a substitution of the underlying asset or an early redemption of the Note, so that the risks may be realised prematurely or any original chances are lost and new risks may be incurred.

Furthermore, the value of such Notes, as it is dependent on one or several underlying assets will accordingly also be subject to cumulative risks in the secondary market. The performance of any respective underlying asset is subject to a series of associated factors, including economic, financial and political events beyond the control of the Issuer.

If the formula used to determine the amount of principal, premium and/or interest payable with respect to such Notes contains a multiplier or leverage factor or maximum/minimum interest or repayment limits, the effect of any change in the applicable underlying asset will be increased with regard to the amount payable. The historical performance of the underlying asset may not be regarded as significant for the future performance during the term of such Notes.

Index Linked Notes

Index Linked Notes are debt securities which do not provide for predetermined redemption amounts and/or interest payments but amounts due in respect of principal and/or interest will be dependent upon the performance of an index or the result of a formula, which itself may contain substantial credit, interest rate or other risks. The amount of principal and/or interest, if any, payable by the Issuer might be substantially less than the Issue Price or, as the case may be, the purchase price invested by the Holder and may even be zero in which case the Holder may lose its entire investment.

Index Linked Notes are not in any way sponsored, endorsed, sold or promoted by the index sponsor or the respective licensor of the index and such index sponsor or licensor makes no warranty or representation whatsoever, express or implied, either as to the results to be obtained from the use of the index and/or the figure at which the index stands at any particular time. Each index is determined, composed and calculated by its respective index sponsor or licensor, without regard to the Issuer or the Notes. None of the index sponsors or licensors is responsible for or has participated in the determination of the timing of, prices at, or quantities of the Notes to be issued or in determination or calculation of the equation by which the Notes settle into cash. None of the index sponsors or licensors has any obligation or liability in connection with the administration, marketing or trading of the Notes. The index sponsor or licensor of the index has no responsibility for any calculation agency adjustment made for the index.

Index Linked Notes may be structured to include Minimum or Maximum Rates of Interest, or a combination of those features. In such case, their market value may be more volatile than the market value for Index Linked Notes that do not include these features. The effect of a Maximum Rate of Interest is that the amount of interest will never rise above the predetermined Maximum Rate of Interest, so that a Holder will not be able to benefit from any actual favourable development beyond the Maximum Rate of Interest. The profitability could therefore be considerably lower than that of similar Index Linked Notes without a Maximum Rate of Interest.

Notes Linked to EURIBOR, EONIA, LIBOR or Another Benchmark

EURIBOR, EONIA, LIBOR and other indices which are deemed benchmarks (“Benchmarks”) are the subject of recent national, international, and other regulatory guidance and proposals for reform. Some of these reforms are already effective while others are still to be implemented. These reforms may cause such Benchmarks to perform differently than in the past, or have other consequences which cannot be predicted. Any such consequence could have a material and adverse effect on any Notes linked to a Benchmark.

On 30th June, 2016, Regulation (EU) 2016/1011 of the European Parliament and of the Council on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EC and Regulation (EU) No 596/2014 (the “Benchmark Regulation”) entered into force. The Benchmark Regulation aims to introduce a common framework and consistent approach to the regulation of Benchmarks across the European Union by regulating producers, contributors to and users of Benchmarks. The majority of provisions in the Benchmarks Regulation took effect on 1st January, 2018.

Currently, each of EURIBOR, EONIA and LIBOR has been identified as a “critical benchmark” within the meaning of the Benchmark Regulation. According to the Benchmark Regulation, a Benchmark may not be used as such if its administrator does not obtain authorisation or is based in a non-EU jurisdiction that (subject to applicable transitional provisions) does not satisfy the “equivalence” conditions, is not “recognised” pending such a decision and is not “endorsed” for such purpose. Consequently, it may not be possible to link the Notes to a Benchmark. In such event, depending on the particular Benchmark and the applicable terms of the Notes, the Notes could be de-listed, adjusted, redeemed prior to maturity or otherwise impacted.

In July 2017, the Chief Executive of the United Kingdom Financial Conduct Authority (the “FCA”), which regulates LIBOR, called for an orderly transition over a four to five year period from LIBOR to other reference rates based on observable market transactions. The FCA’s announcement stated that it expects that it would not be in a position to sustain LIBOR through its influence or legal compulsion powers after the end of 2021. The announcement indicates that the continuation of LIBOR on the current basis is not guaranteed. It is unclear at this time whether or not LIBOR will cease to exist or if new methods of calculating LIBOR will be established such that it continues to exist after 2021.

In the event that, in circumstances involving screen page determination, a published Benchmark rate is unavailable, the rate on the Notes will be determined as set forth herein under “Terms and Conditions of the Notes”. If in such event, banks are unwilling to provide quotations for the calculation of the Benchmark rate as set forth under “Terms and Conditions of the Notes”, the rate of interest on the Notes will remain the rate of interest in effect on the preceding Interest Determination Date. If, however, in circumstances involving screen page determination, such interest determination with reference to the last preceding Interest Determination Date had to be applied on two or more consecutive Interest Determination Dates, the relevant reference interest rate will instead, from the second of such Determination Dates on, be determined by the Calculation Agent together with the Issuer taking into account the then prevailing market practice.

Any of the above changes or any other consequential changes to EURIBOR, EONIA, LIBOR or any other Benchmark as a result of United Kingdom, European Union, or other international, national, or other proposals for reform or other initiatives or investigations, or any further uncertainty in relation to the timing and manner of implementation of such changes could have a material adverse effect on the value of and return on any securities based on or linked to a Benchmark. Such factors may have the effect of discouraging market participants from continuing to administer or participate in certain Benchmarks, trigger changes in the rules of methodologies used in certain Benchmarks, adversely affect the performance of a Benchmark or lead to the disappearance of certain Benchmarks. Potential investors should be aware that they face the risk that any changes to the relevant Benchmark may have a material adverse effect on the value and the amount payable under the Notes.

Partly Paid Notes

The Issuer may issue Notes where the issue price is payable in more than one instalment. Failure to pay any subsequent instalment could result in an investor losing all of its investment.

Notes Subject to Optional Redemption by the Issuer

An optional redemption feature of Notes is likely to limit their market value. During any period when the Issuer may elect to redeem Notes, the market value of such Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a

significantly lower rate. Potential investors should consider reinvestment risks in light of other investments available at that time.

Notes in NGN Form or NSS Notes

The NGN form for Notes in bearer form and the NSS for Notes in registered form has been introduced to allow for the possibility of Notes being issued and held in a manner which will permit them to be recognised as eligible collateral for monetary policy of the central banking system for the Euro (the “Eurosysteem”) and intra-day credit operations by the Eurosysteem either upon issue or at any or all times during their life. However, in any particular case, such recognition will depend upon satisfaction of the Eurosysteem eligibility criteria at the relevant time. Investors should make their own assessment as to whether the Notes meet such Eurosysteem eligibility criteria.

Notes Issued with a Minimum Denomination

Notes may be issued with a minimum denomination. The Final Terms of a Tranche of Notes may provide that, for so long as the Notes are represented by a Global Note and Euroclear and Clearstream, Luxembourg (or other relevant clearing system) so permit, the Notes will be tradable in nominal amounts equal to, or integral multiples of, the minimum denomination.

GENERAL DESCRIPTION OF THE PROGRAMME

On 23rd March, 1994 Landwirtschaftliche Rentenbank (the “Issuer” or the “Bank”) entered into a U.S.\$2,000,000,000 Euro Medium Term Note Programme (the “Programme”) and issued a base prospectus on that date describing the Programme. The Programme was updated each year and a base prospectus was prepared in connection with the same that described the Programme. The Programme was last updated on 5th May, 2017 and a further simplified base prospectus describing the Programme was issued. This Simplified Base Prospectus dated 4th May, 2018 supersedes the previous simplified base prospectus and all previous base prospectuses in respect of the Programme. Any Notes to be issued after the date hereof under the Programme are issued subject to the provisions set out herein. This does not affect any Notes issued prior to the date hereof.

Under the Programme, the Issuer may from time to time issue Notes denominated in any currency, subject as set out herein. A summary of the Programme and the Terms and Conditions of the Notes appears above. The applicable terms of any Notes will be agreed between the Issuer and the relevant Dealer prior to the issue of the Notes and will be set out in the Terms and Conditions of the Notes endorsed on, attached to or incorporated by reference into, the Notes, as modified and supplemented by the applicable Final Terms attached to, or endorsed on, such Notes.

This Simplified Base Prospectus and any supplement will only be valid during the period of 12 months from the date of approval of this Simplified Base Prospectus in an aggregate nominal amount which, when added to the aggregate nominal amount then outstanding of all Notes previously or simultaneously issued under the Programme, does not exceed EUR 60,000,000,000 or its equivalent in other currencies. The Issuer may increase the amount of the Programme in accordance with the terms of the Programme Agreement, in connection with which a new prospectus will be published. For the purpose of calculating the EUR equivalent of the aggregate amount of Notes issued under the Programme from time to time:

- (a) the EUR equivalent of Notes denominated in another Specified Currency (as specified in the applicable Final Terms in relation to the relevant issue of Notes set out under “Forms of Final Terms”) shall be determined, at the discretion of the Issuer, as of the date of agreement to issue such Notes (the “Agreement Date”) or on the preceding day on which commercial banks and foreign exchange markets are open for business in London, in each case on the basis of the spot rate for the sale of the EUR against the purchase of such Specified Currency published by the European Central Bank, or, if such spot rate is not available from the European Central Bank, in the London foreign exchange market quoted by any leading bank selected by the Issuer, in each case on the relevant date of calculation;
- (b) the EUR equivalent of Dual Currency Notes, Index Linked Notes and Partly Paid Notes (each as specified in the applicable Final Terms in relation to the relevant issue of Notes, set out under “Forms of Final Terms”) shall be calculated in the manner specified above by reference to the original nominal amount of such Notes (in the case of Partly Paid Notes, regardless of the subscription price paid); and
- (c) the EUR equivalent of Zero Coupon Notes (as specified in the applicable Final Terms in relation to the relevant issue of Notes, set out under “Forms of Final Terms”) and other Notes issued at a discount or premium shall be calculated in the manner specified above by reference to the original nominal amount of such Notes.

FORM OF THE NOTES

Each Series of Notes will be in bearer form, with or without interest coupons attached, registered form, without interest coupons attached, or uncertificated and dematerialised book entry form.

Notes in bearer form and Notes in uncertificated and dematerialised book entry form will be issued outside the United States in reliance on Regulation S under the U.S. Securities Act (“Regulation S”) and Notes in registered form will be issued either outside the United States in reliance on the exemption from registration provided by Regulation S or within the United States in reliance on Rule 144A under the U.S. Securities Act or both.

Investors will not be entitled to receive Definitive Notes. Euroclear Bank S.A./N.V. (“Euroclear”) and Clearstream Banking société anonyme (“Clearstream, Luxembourg”), The Depository Trust Company (“DTC”) or Clearstream Banking Aktiengesellschaft (“Clearstream, Frankfurt”) will maintain records of the co-ownership participations or the beneficial ownership interests, as the case may be, in the Global Notes. Investors will be able to trade their co-ownership participations or their beneficial ownership interests, as the case may be, only through Euroclear and Clearstream, Luxembourg, DTC or Clearstream, Frankfurt.

Bearer Notes

Bearer Notes may be issued either in classical global note form (“CGN”) or new global note form (“NGN”) through Euroclear, Clearstream, Luxembourg or Clearstream, Frankfurt (Euroclear, Clearstream, Luxembourg and Clearstream, Frankfurt together the “International Central Securities Depositories” or “ICSDs”). Under the terms of the NGN, the issue outstanding amount is determined based on the ICSDs’ records. Bearer Notes in CGN form are physically annotated to reflect the issue outstanding amount under the terms of each CGN.

Global Notes issued in CGN form will be deposited with a common depository for Euroclear and Clearstream Luxembourg, DTC, Clearstream, Frankfurt, and/or any other agreed clearing system.

Global Notes issued in NGN form will be deposited and safekept by a common safekeeper (the “Common Safekeeper”) and serviced by a common service provider (the “Common Service Provider”) for Euroclear and Clearstream, Luxembourg.

Global Notes in NGN form that the Issuer wishes to make potentially eligible as collateral for Eurosystem monetary policy or intra-day credit operations will be deposited and safekept throughout their lives by Euroclear or Clearstream, Luxembourg as Common Safekeeper.

While the Notes are represented by one or more Global Notes, the Issuer will discharge its payment obligations under the Notes (i) in CGN form by making payments to the common depository for Euroclear and Clearstream, Luxembourg, DTC or to Clearstream, Frankfurt, and (ii) in NGN form by making payments to the Common Service Provider for Euroclear and Clearstream, Luxembourg for distribution to their account holders.

Each Tranche of Bearer Notes will initially be represented by a temporary bearer Global Note (a “Temporary Bearer Global Note”), without receipts, interest coupons or talons, which, in the circumstances described below, will be exchanged for a permanent bearer Global Note (a “Permanent Bearer Global Note” and, together with the Temporary Bearer Global Note, the “Bearer Global Notes”). The Bearer Global Notes will, in either case, (i) if they are intended to be issued in NGN form, as stated in the applicable Final Terms, be delivered on or prior to the original issue date of the Tranche to the Common Safekeeper; and (ii) if the Bearer Global Notes are not intended to be issued in NGN form, be delivered on or prior to the original issue date of the Tranche to a common depository (the “Common Depository”) for Euroclear and Clearstream, Luxembourg and/or any other agreed clearing system.

Upon delivery of a Temporary Bearer Global Note, Euroclear and/or Clearstream, Luxembourg and/or such other agreed clearing system will credit purchasers with nominal amounts of Notes of the relevant Tranche equal to the nominal amounts thereof for which they have paid.

Whilst any Note is represented by a Temporary Bearer Global Note, payments of principal and interest (if any) and any other amount payable in respect of the Notes due prior to the Exchange Date (as defined below) will be made (against presentation of the Temporary Bearer Global Note if the Temporary Bearer Global Note is not intended to be issued in NGN form) only to the extent that certification (in a form to be provided) to the effect that the beneficial owners of such Note are not U.S. persons or persons who have purchased for resale to any U.S. person, as required by U.S. Treasury regulations, has been received by Euroclear and/or Clearstream, Luxembourg and Euroclear and/or Clearstream, Luxembourg, as applicable, has given a like certification (based on the certifications it has received) to the Fiscal Agent and/or Principal Paying Agent.

On and after the date (the “Exchange Date”) which is the later of (i) 40 days after the Temporary Bearer Global Note is issued and (ii) 40 days after the completion of the distribution of the relevant Tranche, as certified by the relevant Dealer (in the case of a non-syndicated issue) or the relevant lead manager (in the case of a syndicated issue) (the “Distribution Compliance Period”), but, if such Temporary Bearer Global Note is issued in respect of a Tranche of Notes described as Partly Paid Notes in the applicable Final Terms, only if the final instalment on all outstanding such Notes has been paid, interests in the Temporary Bearer Global Note will be exchangeable (free of charge) for interests in a Permanent Bearer Global Note of the same Series against certification of beneficial ownership as described above unless such certification has already been given. The holder of a Temporary Bearer Global Note will not be entitled to collect any payment of interest, principal or other amount due on or after the Exchange Date unless, upon due certification, exchange of the Temporary Bearer Global Note for an interest in a Permanent Bearer Global Note is improperly withheld or refused.

Payments of principal, interest (if any) and any other amounts on a Permanent Bearer Global Note will be made through Euroclear and/or Clearstream, Luxembourg and/or any other agreed clearing system (against presentation or surrender (as the case may be) of the Permanent Bearer Global Note if the Permanent Bearer Global Note is not intended to be issued in NGN form) without any requirement for certification.

Temporary Bearer Global Notes and Permanent Bearer Global Notes will be issued pursuant to the applicable Agency Agreement.

The following legend will appear on all Bearer Notes which have an original maturity (at issue) of more than 365 days and on all receipts, interest coupons and talons relating to such Notes:

“ANY UNITED STATES PERSON (AS DEFINED IN THE INTERNAL REVENUE CODE OF THE UNITED STATES) WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(j) AND 1287(a) OF THE INTERNAL REVENUE CODE.”

The sections referred to above generally provide that United States holders, with certain exceptions, will not be entitled to deduct any loss on Bearer Notes, receipts or interest coupons and will not be entitled to capital gains treatment of any gain on any sale, disposition, redemption or payment of principal in respect of such Notes, receipts or interest coupons.

Bearer Notes which are represented by a Temporary Bearer Global Note and/or a Permanent Bearer Global Note will only be transferable in accordance with the rules and procedures for the time being of Euroclear or Clearstream, Luxembourg, as the case may be.

Registered Notes

The Registered Notes of each Tranche offered and sold in reliance on Regulation S, which will be sold to non-U.S. persons outside the United States, will initially be represented by a Global Note in registered form (a “Regulation S Global Note”). Prior to expiry of the distribution compliance period (as defined in Regulation S) applicable to each Tranche of Notes, beneficial interests in a Regulation S Global Note may not be offered or sold to, or for the account or benefit of, a U.S. person and may not be held otherwise than through Euroclear or Clearstream, Luxembourg, and such Regulation S Global Note will bear a legend regarding such restrictions on transfer.

The Registered Notes of each Tranche may only be offered and sold in the United States or to U.S. persons in private transactions to “qualified institutional buyers” within the meaning of Rule 144A under the U.S. Securities Act (“QIBs”). The Registered Notes of each Tranche sold to QIBs will initially be represented by a global note in registered form (a “Rule 144A Global Note” and, together with a Regulation S Global Note, the “Registered Global Notes”).

Registered Global Notes will either (i) be deposited with a custodian for, and registered in the name of a nominee of, DTC, (ii) be deposited with, and registered in the name of a nominee of a common depositary or common safekeeper, as the case may be, for Euroclear, Clearstream, Luxembourg, and/or Clearstream, Frankfurt, as specified in the applicable Final Terms, or (iii) be deposited with a custodian for, and registered in the name of, such other clearing system specified in the applicable Final Terms or a depositary or a nominee of depositary thereof.

From 1st October, 2010, Registered Global Notes that are held in Euroclear and/or Clearstream Luxembourg may be held under the New Safekeeping Structure (the “NSS”). Registered Global Notes that are held in Euroclear and Clearstream, Luxembourg, will be registered in the name of a nominee for such system or, as the case may be, for the Common Safekeeper, and the applicable Registered Global Note will be delivered to (1) a Common Depositary in the case of Registered Global Notes not held under the NSS or (2) a Common

Safekeeper for Euroclear and/or Clearstream, Luxembourg in the case of Registered Global Notes held under the NSS.

Depositing Notes with a Common Safekeeper does not necessarily mean that the Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life.

In the case of a Regulation S Global Note registered in the name of a nominee of DTC, prior to the end of the distribution compliance period (as defined in Regulation S) applicable to the Notes represented by such Regulation S Global Note, interests in such Regulation S Global Note may only be held through accounts with Euroclear and Clearstream, Luxembourg. The Rule 144A Global Notes will be subject to certain restrictions on transfer set forth therein and will bear a legend regarding such restrictions.

Payments of principal, interest and any other amount in respect of the Registered Global Notes will, in the absence of provision to the contrary, be made to the person shown on the Register on the relevant Record Date (as defined below) as the registered holder of the Registered Global Notes. None of the Issuer or any Agent will have any responsibility or liability for any aspect of the records relating to or payments or deliveries made on account of beneficial ownership interests in the Global Notes or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Interests in a Rule 144A Global Note may, subject to compliance with all applicable restrictions, be transferred to a person who wishes to hold such interest in a Regulation S Global Note representing the same series and Tranche of Notes, and *vice versa*. No beneficial owner of an interest in a Registered Global Note will be able to transfer such interest, except in accordance with the Terms and Conditions and the applicable procedures of DTC, Euroclear and Clearstream, Luxembourg, in each case to the extent applicable. Registered Notes are also subject to the restrictions on transfer set forth therein and in the applicable Agency Agreement and will bear a legend regarding such restrictions, see “Subscription and Sale” and “Notice to Purchasers and Holders of Rule 144A Notes and Transfer Restrictions”.

Uncertificated Notes

The Uncertificated Notes (other than Legacy Notes) will be evidenced by a Global Note registered in the name of a depository of NZClear, in the name of and for the benefit of VP (or its nominee) or in the name of the VPS Agent (or its nominee), as the case may be, and held by or on behalf of the New Zealand Agent on behalf of the depository of NZClear, the VP Agent (or its nominee) or the VPS Agent (or its nominee), as the case may be. The Uncertificated Notes will be recorded in a financial products register kept in New Zealand, denominated in New Zealand dollars and lodged with the NZClear System maintained by the Reserve Bank of New Zealand (“Kauri Notes” and “NZClear”, respectively), registered with and cleared through VP Securities A/S (“VP Notes” and “VP”, respectively) or registered with and cleared through the Norwegian Central Securities Depository (*Verdipapirsentralen ASA*) (“VPS Notes” and “VPS”, respectively) in uncertificated and dematerialised book entry form.

Kauri Notes will be lodged in NZClear for the purpose of clearing and settlement through such system (and for cross-trading through Euroclear and Clearstream, Luxembourg). The financial products register for the Kauri Notes (the “NZ Register”) will be maintained pursuant to the New Zealand Agency Agreement (such agreement as amended, supplemented and/or restated from time to time, the “New Zealand Agency Agreement”) dated 4th May, 2018 and made between the Issuer, the Fiscal Agent and Computershare Investor Services Limited (the “New Zealand Agent”), as additional Paying Agent and Transfer Agent, New Zealand Registrar and Calculation Agent for the Kauri Notes. Subject to the rules of the relevant clearing and settlement system, investors may elect to hold interests in the Kauri Notes (i) directly through NZClear, (ii) indirectly through Euroclear or Clearstream, Luxembourg if they are participants in such systems, or (iii) indirectly through organisations which are participants in any of such systems. Euroclear and Clearstream, Luxembourg will hold interests on behalf of their participants through customers’ securities accounts in their respective names on the books of their respective New Zealand sub-custodians, which in turn will hold such interests in customers’ securities accounts in the names of the New Zealand sub-custodians on the books of NZClear. Participants in any of such systems should contact the relevant clearing system(s) if they have any questions in relation to clearing, settlement and cross-market transfers and/or trading.

Title to Kauri Notes will pass by registration in the NZ Register maintained by the New Zealand Agent and, subject to the following, payments of interest and principal will be made to the person in whose name the relevant Kauri Notes are registered at the close of business on the Record Date, which (for Kauri Notes) is 10 days before the relevant due date for payment or, if not a Business Day (with Wellington and Auckland as applicable financial centres), the immediately preceding Business Day, for the relevant payment. As long as NZCSD or another Depository (as defined in the NZClear System Rules and the NZClear Operating Guidelines

(collectively, the “NZClear System Rules”)) is the registered holder of the Kauri Notes, principal and interest payments on Kauri Notes represented by a Registered Global Note lodged with NZClear will be made on behalf of the Issuer to a nominee of NZCSD (which will initially be the New Zealand Agent) or of such other Depository, respectively. Such payment shall be distributed to NZClear participants in accordance with its rules and procedures, including, but not limited to, the NZClear System Rules.

In respect of Kauri Notes lodged with NZClear, each of the persons shown in the records of NZClear as the beneficial holder of a particular nominal amount of such Kauri Notes must look solely to NZClear for its share of each payment so made by the Issuer.

Legal title to the VP Notes will be evidenced by book entries in the records of the VP system. Where a nominee is so evidenced, it shall be treated as the holder of the relevant VP Note. VP Notes will be issued pursuant to the applicable Agency Agreement and a VP agency agreement made between the Issuer and the relevant VP Agent. On the issue of such VP Notes, the Issuer will send a copy of the applicable Final Terms to the VP Agent, with a copy sent to VP. On delivery of the applicable Final Terms to VP and notification to VP of the subscribers and their VP account details by the relevant Dealer, each subscribing account holder with VP will be credited with a nominal amount of VP Notes equal to the nominal amount thereof for which it has subscribed and paid. Ownership of the VP Notes will only be recorded and transfers effected through the book entry system and register maintained by VP.

Settlement of sale and purchase transactions in respect of VP Notes and the transfer of interests in VP Notes will take place in accordance with the procedures applicable to and/or issued by VP from time to time.

Legal title to the VPS Notes will be evidenced by book entries in the records of VPS. VPS Notes will be issued pursuant to the applicable Agency Agreement and a registrar agreement made between the Issuer and the relevant VPS Agent. On the issue of such VPS Notes, the Issuer will send a letter to the VPS Agent, with a copy sent to the Fiscal Agent and/or Principal Paying Agent (the “VPS Letter”) which letter will set out the terms of the relevant issue of VPS Notes in the form of Final Terms attached thereto. On delivery of a copy of such VPS Letter including the applicable Final Terms to the VPS Agent and notification to the VPS Agent of the subscribers and their VPS account details by the relevant Dealer, the VPS Agent will credit each subscribing account holder with VPS with a nominal amount of VPS Notes equal to the nominal amount thereof for which it has subscribed and paid.

Settlement of sale and purchase transactions in respect of VPS Notes and the transfer of interests in VPS Notes will take place in accordance with the procedures applicable to and/or issued by VPS from time to time.

General

Pursuant to each Agency Agreement, the Fiscal Agent or the Principal Paying Agent, as the case may be, shall arrange that, where a further Tranche of Notes is issued which is intended to form a single Series with an existing Tranche of Notes, the Notes of such further Tranche, to the extent issued after the Issue Date of the original Tranche, may, to the extent required, be assigned a common code and ISIN by Euroclear and Clearstream, Luxembourg and, where applicable, a CUSIP number, that are different from the common code, ISIN, CUSIP assigned to Notes of any other Tranche of the same Series until at least the Exchange Date applicable to the Notes of such first mentioned Tranche.

Any reference herein to Euroclear and/or Clearstream, Luxembourg and/or DTC and/or NZClear and/or VP and/or VPS shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system (including Clearstream, Frankfurt) approved by the Issuer, the relevant Dealer and the Fiscal Agent and/or Principal Paying Agent as specified in the applicable Final Terms.

ISSUE PROCEDURES

General

Notes will be issued on a continuous basis in series (each, a “Series”), the Notes of each Series having one or more issue dates and identical terms (except in respect of the first payment of interest) and intended to be interchangeable with all other Notes of that Series. Each Series may be issued in tranches (each, a “Tranche”) on different issue dates.

Notes of a Series, the first Tranche of which is issued on or after 4th May, 2018, are subject to the Terms and Conditions of the Notes set forth below as completed or amended, in whole or in part, by the provisions agreed by the Issuer and the relevant Dealer(s) set forth in the relevant Final Terms (collectively, the “Conditions”). Notes of a Series, the first Tranche of which is issued on or after 5th May, 2017 but prior to 4th May, 2018, are subject to the Terms and Conditions identified in and annexed to the relevant Final Terms, as completed or amended, in whole or in part, by the provisions agreed by the Issuer and the relevant Dealer(s) set forth in the relevant Final Terms. Such Terms and Conditions are set forth in the Simplified Base Prospectus dated 5th May, 2017, incorporated by reference in, and forming part of, this Simplified Base Prospectus (see “Documents Incorporated by Reference” above). The Notes are issued by the Issuer pursuant to the amended and restated fiscal agency agreement dated 4th May, 2018 (such agreement as from time to time modified, supplemented and/or restated, the “Fiscal Agency Agreement”) and made among the Issuer, Deutsche Bank Aktiengesellschaft as fiscal agent and exchange agent in respect of Notes (other than Legacy Notes) and the registrars named therein.

Notes of a Series, the first Tranche of which was issued prior to 5th May, 2017 (“Legacy Notes”), are subject to Terms and Conditions identified in and annexed to the relevant Final Terms, as completed or amended, in whole or in part, by the provisions agreed by the Issuer and the relevant Dealer(s) set forth in the relevant Final Terms. Such Terms and Conditions are set forth in the Simplified Base Prospectus or Base Prospectus identified in the relevant Final Terms and are incorporated by reference in, and form part of, this Simplified Base Prospectus (see “Documents Incorporated by Reference” above). Legacy Notes are issued by the Issuer pursuant to the agency agreement pursuant to which the first Tranche of such Series of Notes was issued (such agency agreement as from time to time modified, supplemented and/or restated, the applicable “Legacy Agency Agreement” and, together with the Fiscal Agency Agreement, the “Agency Agreements”) and made among the Issuer, Deutsche Bank AG, London Branch as issuing and principal paying agent, paying and transfer agent and exchange agent in respect of the Legacy Notes and the other paying and transfer agents and registrars named therein.

The Final Terms relating to each Tranche of Notes (other than Legacy Notes) will specify whether:

- the Conditions are to be Long-Form Conditions or Integrated Conditions (each as described below); and
- the Conditions will be in the English language, the German language or both (and, if both, whether the English language version or the German language version is controlling).

The form of the Conditions is to be determined in consultation with the Issuer. Integrated Conditions will generally be required where the Notes are to be publicly offered, in whole or in part, and/or are to be initially distributed, in whole or in part, to non-qualified investors. In all other cases, the Issuer may elect to prepare Long-Form Conditions or Integrated Conditions.

As to the controlling language of the respective Conditions, the Issuer anticipates that, in general, subject to any stock exchange or legal requirements applicable from time to time, and unless otherwise agreed between the Issuer and the relevant Dealer(s) and specified in the applicable Final Terms, German will be the controlling language of the Conditions if the Notes are to be offered to the public, in whole or in part, or are to be initially distributed, in whole or in part, to non-qualified investors.

Long-Form Conditions

If the relevant Final Terms specify that “Long-Form Conditions” are to apply to the Notes, the provisions of the Final Terms and the Terms and Conditions, taken together, shall constitute the Conditions. Such Conditions will be constituted as follows:

- the blanks in the provisions of the Terms and Conditions which are applicable to the Notes will be deemed to be completed by the information contained in the relevant Final Terms as if such information were inserted in the blanks of such provisions;
- the Terms and Conditions will be amended by the text of any provisions of the relevant Final Terms amending, in whole or in part, the provisions of the Terms and Conditions;

- alternative or optional provisions of the Terms and Conditions as to which the corresponding provisions of the relevant Final Terms are not completed or are deleted will be deemed to be deleted from the Conditions; and
- all instructions and explanatory notes set out in square brackets in the Terms and Conditions and any footnotes and explanatory text in the relevant Final Terms will be deemed to be deleted from the Conditions.

Where Long-Form Conditions apply, each global note representing the Notes of the relevant Series will have the relevant Final Terms and the Terms and Conditions attached.

Integrated Conditions

If the relevant Final Terms specify that “Integrated Conditions” are to apply to the Notes, the Conditions in respect of such Notes will be constituted as follows:

- all of the blanks in all applicable provisions of the Terms and Conditions will be completed according to the information contained in the relevant Final Terms and all non-applicable provisions of the Terms and Conditions (including the instructions and explanatory notes set out in square brackets) will be deleted; and/or;
- the Terms and Conditions will be otherwise amended, in whole or in part, according to the information set forth in the relevant Final Terms.

Where Integrated Conditions apply, the Integrated Conditions alone will constitute the Conditions. The Integrated Conditions will be attached to each global note representing the Notes of the relevant Series.

[Whilst the designation is specified as “no” at the date of these Final Terms, should the Eurosystem eligibility criteria be amended in the future such that the Notes are capable of meeting them, the Notes may then be deposited with one of the ICSDs as common safekeeper [in case of registered notes, insert: and registered in the name of a nominee of one of the ICSDs acting as common safekeeper]. Note that this does not necessarily mean that the Notes will then be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem at any time during their life. Landwirtschaftliche Rentenbank is a federal public law institution with legal capacity (*rechtsfähige Anstalt des öffentlichen Rechts*). It was established on 1st June, 1949 by virtue of the Law Governing Landwirtschaftliche Rentenbank of 11th May, 1949 (*Gesetz über die Landwirtschaftliche Rentenbank*; the “Rentenbank Law”). It is registered with the Commercial Register of the Local Court of Frankfurt am Main under HRA 30636. The Issuer’s activities and governance structure are regulated by the Rentenbank Law and its Statutes (*Satzung*). Under the Section 3 of the Rentenbank Law, the Issuer is charged with the public task of promoting the agriculture industry (including forestry, horticulture and fisheries) and the development of rural areas through the extension of credit for:

- the agriculture industry, including forestry, horticulture and fisheries and the upstream and downstream areas;
- the sale and warehousing of agricultural and food products;
- agriculture-related environmental protection, the promotion of renewable energy and renewable raw materials from agriculture, the expansion of ecological farming and the protection of animals within the agricultural industry;
- the improvement of infrastructure in predominantly rural areas; and
- agriculture-related consumer protection.

In its capacity as a statutory institution, the Issuer benefits from the “*Anstaltslast*”, or institutional liability, of the Federal Republic of Germany and is exempt from German corporate income tax (*Körperschaftsteuer*) and trade tax (*Gewerbesteuer*). With effect from 1st January, 2014 the Federal Republic of Germany guarantees all existing and future obligations of the Issuer in respect of money borrowed, bonds and notes issued and derivative transactions entered into by the Issuer, as well as obligations of third parties that are expressly guaranteed by the Issuer (Section 1a of the Rentenbank Law). As a consequence of this liability mechanism, Section 16 para. 1 sentence 1 of the Rentenbank Law explicitly states that insolvency proceedings with respect to the Issuer’s assets are inadmissible.

The Issuer’s registered office is located at Hochstrasse 2, 60313 Frankfurt am Main, Federal Republic of Germany; its telephone number is +49-69-2107-0. The Issuer does not maintain any branches.

At 31st December, 2017, the Issuer’s liable capital under German GAAP amounted to EUR 4,851.1 million.

The Issuer’s subscribed capital of EUR 135 million was raised under the Law on the Rentenbank Land Charge over a period of ten years following its enactment in May 1949, through contributions paid in by the owners and lessees of land permanently used for agricultural, forestry and market garden purposes. Accordingly, any unappropriated annual profits remaining after allocations to reserves may only be used for promoting agriculture whilst protecting the general public interest. Upon the dissolution of the Issuer – which may only be effected by law – its net assets remaining after payment of all outstanding obligations may only be applied toward the support and promotion of agriculture and agricultural research in the interest of the public at large.

The Issuer is neither directly nor indirectly owned or controlled by any entity, including any of the parties to the Programme.

The Issuer’s statutory bodies are the Board of Managing Directors, the Board of Supervisory Directors and the General Meeting. The business address of each of the members of the Board of Managing Directors and the Board of Supervisory Directors named below is Hochstrasse 2, 60313 Frankfurt am Main, Federal Republic of Germany.

General Meeting

According to the Rentenbank Law, each year a General Meeting must be held. The General Meeting consists of 28 members representing owners and lessees of land subject to the Issuer's land charges. The General Meeting advises the Bank in matters of the promotion of agriculture and rural areas as well as on general agricultural and business policy issues. Furthermore, it decides on the appropriation of the promotional fund in accordance with the Rentenbank Law. The General Meeting receives reports of the Board of Managing Directors on the Issuer's business activities and of the Board of Supervisory Directors on resolutions adopted by the Board of Supervisory Directors.

Supervision of the Issuer

The Issuer is subject to the supervision of the Federal government of Germany through the German Federal Ministry of Food and Agriculture, which exercises its supervision in concert with the Federal Ministry of Finance. The statutory function of the supervising authority is to ensure that the operations of the Issuer adhere to public interest in promotion of agriculture and rural areas and are in compliance with German law. The supervising authority may request information regarding the Issuer's operational matters, inspect books and records and participate in all Board of Supervisory Directors meetings and General Meetings with the authority to issue motions and to comment on topics at such meetings. In addition, the supervising authority has the authority to schedule a meeting of any of the Issuer's three governing bodies and is authorised to prevent the implementation of any resolution that is against public interest or violates German law.

Effective 1st January, 2014, the Europe Union Capital Requirement Regulation (the "CRR") regulates areas such as own funds, capital requirements, liquidity requirements and large exposures restrictions that were governed by the German Banking Act and regulations issued by the German Federal Financial Supervisory Authority (*Bundesanstalt für Finanzdienstleistungsaufsicht*; "BaFin") prior to 1st January, 2014.

As of 4th November, 2014, Rentenbank is classified as a significant credit institution because of the total value of its assets. As such Rentenbank is supervised and regulated directly by the ECB within the framework of the Single Supervisory Mechanism (the “SSM”). The supervision under the SSM is conducted by the ECB (with the support of BaFin as the national competent authority). Under this role, the ECB is responsible for specific regulations such as own funds and risk management rules stipulated in the CRR.

Relationship with the Federal Government

Guarantee of the Federal Republic

The Rentenbank Law was amended with effect from 1st January, 2014 to provide expressly that the Federal Republic of Germany guarantees all existing and future obligations of the Issuer in respect of money borrowed, bonds and notes issued and derivative transactions entered into by the Issuer, as well as obligations of third parties that are expressly guaranteed by the Issuer (Section 1a of Rentenbank Law). Under this statutory guarantee (the “Guarantee of the Federal Republic”), if the Issuer fails to make any payment of principal or interest or any other amount required to be paid with respect to securities issued by the Issuer, or if the Issuer fails to make any payment required to be made under the Issuer’s guarantee when that payment is due and payable, the Federal Republic of Germany will be liable at all times for that payment as and when it becomes due and payable. The Federal Republic of Germany’s obligation under the Guarantee of the Federal Republic will rank equally, without any preference, with all of its other present and future unsecured and unsubordinated indebtedness. Holders of securities issued by the Issuer or issued under the Issuer’s guarantee will be able to enforce this obligation directly against the Federal Republic of Germany without first having to take legal action against the Issuer. The Guarantee of the Federal Republic is unconditional and irrevocable. It is strictly a matter of statutory law and is not evidenced by any contract or instrument. It may be subject to defences available to the Issuer with respect to the obligations covered. See also “Description of the Guarantee of the Federal Republic” below.

The Guarantee of the Federal Republic does not affect the obligations of the Federal Republic of Germany towards Rentenbank pursuant to the existing institutional liability (*Anstaltslast*). See “— Institutional Liability (*Anstaltslast*)” below).

Institutional Liability (Anstaltslast)

The Issuer benefits from the “*Anstaltslast*”, or institutional liability, of the Federal Republic of Germany, which means that the Federal Republic of Germany will (i) safeguard the economic basis of the Issuer, (ii) keep it in a position to pursue its operations throughout its existence as a statutory body under public law and (iii) in the event of its financial difficulties, enable it by financial contribution or in some other appropriate manner to perform its obligations when due. This duty under public law exists solely as between the Federal Republic of Germany and the Issuer and not between the Federal Republic of Germany and any third party.

The Federal Republic of Germany would not, under *Anstaltslast*, be permitted to wait for the Issuer to default on an obligation; the Federal Republic of Germany would be required on its own authority to take steps to enable the Issuer to perform its obligation when due. Moreover, under German law, the Issuer would be required to enforce its rights against the Federal Republic of Germany in the event it needed to do so in order to meet its obligations to third parties, including holders of any of the Issuer’s securities. Accordingly, while *Anstaltslast* does not constitute a formal guarantee of the Issuer’s obligations by the Federal Republic of Germany and creditors of the Issuer do not have a direct claim against the Federal Republic of Germany under *Anstaltslast*, the effect of *Anstaltslast* is that the Issuer’s obligations, including the Issuer’s debt securities, are fully backed by the credit of the Federal Republic of Germany. The obligation of the Federal Republic of Germany under *Anstaltslast* would constitute a charge on public funds that, as a legally established obligation, would be payable without the need for any appropriation or any other action by the German Parliament.

Inadmissibility of Insolvency Proceedings

The Rentenbank Law was amended with effect as of 6th November, 2015 to state explicitly that insolvency proceedings with respect to the Issuer’s assets are inadmissible. Since the going concern of the Issuer has *de facto* already been ensured by the existing liability mechanisms (*i.e.*, the Guarantee of the Federal Republic and the *Anstaltslast* (both as described above)), the amendment to the Rentenbank Law does not materially alter the status of the Issuer.

The Federal Republic of Germany implemented the Directive 2014/59/EU of the European Parliament and of the Council establishing a framework for the recovery and resolution of credit institutions and investment firms through the Statute on Recovery and Resolution of Credit Institutions and Investment Firms (*Gesetz zur Sanierung und Abwicklung von Instituten und Finanzgruppen*; “SAG”). The SAG contains regulations regarding the restructuring and resolution of institutions. The regulations concerning the participation of holders of relevant capital instruments and creditors in the resolution or recapitalization of an institution (“Bail-in”) is an

essential element of the SAG. In principle, all CRR-credit institutions fall within the scope of the Bail-in regulations of the SAG, provided that the continued existence of the respective institution is endangered. However, due to the existing institutional liability (*Anstaltslast*) of the Federal Republic of Germany and the guarantee for all obligations of the Issuer issued by the Federal Republic of Germany, the going concern of the Issuer and the fulfilment of its obligations to its creditors are ensured. As a consequence of this liability mechanism, Section 16 para. 1 sentence 1 of Rentenbank Law explicitly states that insolvency proceedings with respect to the Issuer's assets are inadmissible. According to § 99 para. 8 of SAG this liability mechanism will not be affected by Bail-in procedures. Therefore, holders of securities issued by the Issuer or issued under the Issuer's guarantee will still be able to enforce obligations directly against the Federal Republic of Germany.

Understanding with the European Commission

On 1st March, 2002, representatives of the Federal Government and the Commission of the European Union reached an understanding on the treatment of state guarantees for federal development banks such as the Issuer for the purposes of the European Union state aid rules. Pursuant to the understanding, the use of advantages for special credit institutions immanent to *Anstaltslast* and other state guarantees relevant under the state aid rules is permitted for the performance of promotional tasks at the request of the state in areas such as financing of small and medium enterprises, infrastructure, environmentally-friendly investment, housing and co-operation with developing countries. Activities, which do not fall under the areas specified in the state aid rules, must be either discontinued by the special credit institutions or hived-off to legally independent subsidiaries without state support.

With the adoption of the German Federal Development Banks New Restructuring Law (*Förderbanken-Neustrukturierungsgesetz*), the description of the Issuer's permissible activities in the Rentenbank Law was conformed to the language in respect of which the Federal Republic and the Commission of the European Union reached the understanding on 1st March, 2002.

Based on the foregoing, the Issuer does not currently expect that it will be required to either discontinue or separately incorporate any material portion of its present business activities as a result of the understanding.

Principal Activities

According to the Rentenbank Law, the Issuer's principal business is providing loans and other types of financing for the German agricultural and forestry sectors, viticulture and horticulture sectors as well as in aquaculture and fisheries. Funds are also provided for projects in the food industry and other upstream and downstream companies as well as investments in renewable energy and projects for rural development. The principal purpose of loans granted is the promotion of agriculture, agribusiness and rural development.

As a central refinancing agency, the Issuer mainly extends loans via other banks. In principle, the Issuer will provide any financial institution involved in the Federal Republic of Germany with promotional loans, irrespective of its corporate form or connections, to avoid competitive distortions. Credit is also provided by making loans to, and by purchasing the debt securities of, German and European banks as well as German federal states. The volume of new loan commitments (excluding renewals) amounted to EUR 11.9 billion in 2017.

The Issuer provides credit to financial institutions to be loaned to borrowers engaged in the following activities:

- *Agriculture, Forestry, Horticulture and Fisheries.* This sector includes ultimate borrowers engaged in all types of agricultural production, forestry, horticulture and fisheries. It also includes ultimate borrowers engaged in related businesses such as manufacturers and distributors of machinery, fertilisers and other goods used in farming, forestry, aquaculture and fisheries as well as commercial and service businesses with close links to agriculture and forestry (for example, those trading in rural products, timber, livestock or agricultural equipment).
- *Food Industry.* Eligible ultimate borrowers in this sector include businesses involved in the processing or distribution of food products in all market segments, including businesses in the commodity and luxury food industries and food wholesale.
- *Renewable Energy:* This sector includes businesses involved in the production of power, heat or fuel based on biomass, including biogas-production and biomass-fuel-production. This sector also covers lending for photovoltaic or wind farms, if borrowers are closely linked to agriculture, forestry, horticulture, fisheries or food industry. This moreover includes civic engagement in the production of wind power.

- *Rural Infrastructure.* This category covers lending for activities intended to improve rural infrastructure, including drinking water treatment and distribution, broadband coverage, sewage and waste treatment, land consolidation, environmental protection, public transportation, housing and job creation and protection in rural communities. As a rule, eligible projects must be in communities with populations of fewer than 50,000 persons.

The Issuer obtains funding for its activities both domestically and internationally through interbank loans and issuances in the capital and money markets, the participation in open market transactions with the ECB and loans and other funding transactions with German and international institutional lenders.

Subsidiaries

The Issuer holds interests in three affiliated companies: LR Beteiligungsgesellschaft mbH (“LRB”), DSV Silo- und Verwaltungsgesellschaft mbH (“DSV”) and Getreide-Import-Gesellschaft mbH, Frankfurt am Main (“GIG”). LRB is a holding company that owns equity interests in DSV and GIG. The Issuer owns 100% of LRB’s outstanding capital. At 31st December, 2017, LRB had total assets of EUR 89.6 million according to the annual financial statements prepared in accordance with German commercial law. LRB owns 100% of the outstanding capital of DSV and GIG. At 31st December, 2017, DSV and GIG had total assets of EUR 15.1 million and EUR 3.1 million, respectively, according to the annual financial statements prepared in accordance with German commercial law. DSV and GIG only manage own funds to secure pension payments to former employees.

Recent Developments

The financial data in this section is based on preliminary, unaudited results for Landwirtschaftliche Rentenbank’s quarter ended 31st March, 2018, derived from the Issuer’s press release of 24th April, 2018.

The first quarter of 2018 was characterised by a high demand for the Issuer’s special promotional loans. The approved volume of special promotional loans granted at particularly favourable interest rates amounted to EUR 1,648.3 million (first quarter 2017: EUR 1,979.2 million).

From the total anticipated medium and long-term issue requirement of prospective EUR 11.0 billion for 2018, the Issuer was already able to raise EUR 3.7 billion in the first quarter (first quarter 2017: EUR 4.8 billion). Issue volume, including short-term issues (except for issuance under the European commercial paper programme), reached a total of EUR 5.6 billion during the first quarter of 2018 (first quarter 2017: EUR 4.9 billion).

DESCRIPTION OF THE GUARANTEE OF THE FEDERAL REPUBLIC

The Rentenbank Law as amended with effect from 1st January, 2014 provides expressly that the Federal Republic of Germany guarantees all existing and future obligations of the Issuer in respect of money borrowed, bonds and notes issued and derivative transactions entered into by the Issuer, as well as obligations of third parties that are expressly guaranteed by the Issuer (Law Governing Landwirtschaftliche Rentenbank, Section 1a). Under the Guarantee of the Federal Republic, if the Issuer fails to make any payment of principal or interest or any other amount required to be paid with respect to securities issued by the Issuer (including the Notes), or if the Issuer fails to make any payment required to be made under the Issuer's guarantee, when that payment is due and payable, the Federal Republic of Germany will be liable at all times for that payment as and when it becomes due and payable. The obligation of the Federal Republic of Germany under the Guarantee of the Federal Republic will rank equally, without any preference, with all of its other present and future unsecured and unsubordinated indebtedness. Holders of securities issued by the Issuer or issued under the Issuer's guarantee will be able to enforce this obligation directly against the Federal Republic of Germany without first having to take legal action against the Issuer. The Guarantee of the Federal Republic is unconditional and irrevocable. It is strictly a matter of statutory law and is not evidenced by any contract or instrument. It may be subject to defences available to the issuer with respect to the obligations covered. See also "Description of the Issuer — Relationship with the Federal Government — Guarantee of the Federal Republic".

The Guarantee of the Federal Republic does not affect the obligations of the Federal Republic of Germany towards Rentenbank pursuant to the existing institutional liability (*Anstaltslast*). See also "Description of the Issuer — Relationship with the Federal Government — Institutional Liability (*Anstaltslast*)".

TAXATION

Federal Republic of Germany

The following is a general discussion of certain German tax consequences of the acquisition and ownership of Notes. It does not purport to be a comprehensive description of all tax considerations which may be relevant to a decision to purchase Notes, and, in particular, does not consider any specific facts or circumstances that may apply to a particular purchaser. This summary is based on the laws of the Federal Republic of Germany currently in force and as applied on the date of this Simplified Base Prospectus, which are subject to change, in some cases with retroactive or retrospective effect.

Prospective purchasers of Notes are advised to consult their own tax advisors as to the tax consequences of the purchase, ownership and disposition of Notes, including the effect of any state or local taxes, under the tax laws of the Federal Republic of Germany and each country of which they are residents.

Income Tax

Notes Held by Tax Residents as Private Assets

Taxation of Interest. Payments of interest on the Notes to holders who are tax residents of Germany (*i.e.*, persons whose residence or habitual abode is located in Germany) are subject to German income tax (*Einkommensteuer*). In each case where German income tax liability arises, a solidarity surcharge (*Solidaritätszuschlag*) is levied in addition to such tax. Furthermore, Church tax may be levied, where applicable. If coupons or interest claims are disposed of separately (*i.e.*, without the Notes), the proceeds from the disposition are subject to income tax. The same applies to proceeds from the redemption of coupons or interest claims if the Notes are disposed of separately.

Payments of interest on the Notes to individual tax residents of Germany are generally subject to a flat income tax (*Abgeltungsteuer*) at a rate of 25 per cent. (plus solidarity surcharge in an amount of 5.5 per cent. of such tax, resulting in a total tax charge of 26.375 per cent., and, if applicable, church tax).

The total investment income of an individual will be decreased by a lump sum deduction (*Sparer-Pauschbetrag*) of EUR 801 (EUR 1,602 for married couples filing jointly), not by a deduction of expenses actually incurred.

In case the issue price of Notes exceeds the amount paid in respect of such Notes at redemption or maturity, Holders who purchase such Notes at such issue price and hold the Notes until redemption or maturity will realise a loss. The tax treatment of such loss in certain circumstances is not entirely clear. Recently published statements of the German tax authorities regarding “negative interest” incurred on bank deposits made by private investors could be interpreted in a way that such losses cannot be fully deducted for German income tax purposes except for an annual lump-sum deduction (*Sparer-Pauschbetrag*) as described above if they are treated as expenses in connection with capital investment income.

If the Notes are held in a custodial account which the Holder maintains with a German branch of a German or non-German credit institution (*Kreditinstitut*) or financial services institution (*Finanzdienstleistungsinstitut*) or with a securities trading business (*Wertpapierhandelsunternehmen*) or with a securities trading bank (*Wertpapierhandelsbank*) (each within the meaning of the German Banking Act (*Kreditwesengesetz*)) in Germany (the “Disbursing Agent”), or where the Notes are not held in a custodial account and a Disbursing Agent disburses or credits to a Holder (other than a non-German bank or a non-German financial services institution) the proceeds from the Notes on delivery of a coupon or Notes, the flat income tax will be levied by way of withholding at the aforementioned rate from the gross interest payment to be made by the Disbursing Agent.

In general, no withholding tax will be levied if the Holder is an individual (i) whose Note does not form part of the property of a trade or business and (ii) who filed a withholding exemption certificate (*Freistellungsauftrag*) with the Disbursing Agent but only to the extent the interest income derived from the Note together with other investment income does not exceed the maximum exemption amount shown on the withholding exemption certificate. Similarly, no withholding tax will be deducted if the Holder has submitted to the Disbursing Agent a certificate of non-assessment (*Nichtveranlagungsbescheinigung*) issued by the relevant local tax office.

If no Disbursing Agent is involved in the payment process the Holder will have to include its income on the Notes in its tax return and the flat income tax of 25 per cent. (plus the solidarity surcharge and, if applicable church tax) will be collected by way of assessment.

Payment of the flat income tax will generally satisfy any income tax liability (including the solidarity surcharge and, if applicable, church tax) of the Holder in respect of such investment income. Holders may apply

for a tax assessment on the basis of general rules applicable to them if the resulting income tax burden is lower than 25 per cent.

A legislative initiative which was aimed at abolishing the current system of a flat income tax for private investors has failed in the Federal Council (*Bundesrat*). However, political discussions regarding the abolishment are continuing. According to the coalition agreement (*Koalitionsvertrag*) concluded in March 2018 between the CDU, CSU and SPD, the flat income tax regime in respect to interest income shall be abolished. While it is not yet clear if and to what extent the currently applicable withholding tax rules will be amended, it is likely that any such amendment may lead to a higher tax burden of Holders who hold the Notes as private assets and whose individual tax rate exceeds 25 per cent. It is possible that this new law could be introduced as early as 2018.

Taxation of Capital Gains. Capital gains from the disposition or redemption of the Notes will also be subject to the flat income tax on investment income at a rate of 25 per cent. (plus solidarity surcharge in an amount of 5.5 per cent. of such tax, resulting in a total tax charge of 26.375 per cent. and, if applicable, church tax), irrespective of any holding period. This also applies to Notes on which the principal is effectively repaid in whole or in part although the repayment was not guaranteed.

If the Notes are held in a custodial account which the Holder maintains with a Disbursing Agent the flat income tax will be levied by way of withholding from the difference between the redemption amount (or the proceeds from the disposition) and the issue price (or the purchase price) of the Notes. If the Notes have been transferred to the custodial account of the Disbursing Agent only after their acquisition, and no evidence on the acquisition data has been provided to the new Disbursing Agent by the Disbursing Agent which previously held the Notes in its custodial account, or where the Notes are not held in a custodial account and a Disbursing Agent disburses or credits to a Holder (other than a non-German bank or a non-German financial services institution) the proceeds from the Notes on delivery of a Note, withholding tax will be levied on 30 per cent. of the proceeds from the disposition or redemption of the Notes.

If no Disbursing Agent is involved in the payment process the Holder will have to include capital gains from the disposition or redemption of the Notes in its tax return and the flat income tax of 25 per cent. (plus solidarity surcharge and, if applicable, church tax) will be collected by way of assessment.

Payment of the flat income tax will generally satisfy any income tax liability (plus the solidarity surcharge and, if applicable, church tax) of the Holder in respect of such investment income. Holders may apply for a tax assessment on the basis of general rules applicable to them if the resulting income tax burden is lower than 25 per cent.

Please refer to the section "Income Tax" above regarding the potential abolishment of the current system of a flat income tax (*Abgeltungsteuer*) for private investors also with respect to capital gains.

Notes Held by Tax Residents as Business Assets

Payments of interest on the Notes and capital gains from the disposition or redemption of Notes held as business assets by German tax resident individuals or corporations (including via a partnership, as the case may be), are generally subject to German income tax or corporate income tax (in each case plus the solidarity surcharge and, if applicable, church tax in case of individuals). Interest and capital gains will also be subject to trade tax if the Notes form part of the property of a German trade or business. The trade tax rate depends on the municipal multiplier of the respective municipality.

In case the Notes issue price exceeds the amount paid in respect of such Notes at redemption or maturity, Holders who purchase such Notes at the issue price and hold the Notes until redemption or maturity will realise a loss. The tax treatment of such losses in certain circumstances is not entirely clear. According to recently published statements of the German tax authorities regarding "negative interest" incurred on bank deposits made by business investors, such losses should generally be tax deductible as business expenses.

If the Notes are held in a custodial account which the Holder maintains with a Disbursing Agent, or where the Notes are not held in a custodial account and a Disbursing Agent disburses or credits to a Holder (other than a non-German bank or a non-German financial services institution) the proceeds from the Notes on delivery of a coupon or Note, tax at a rate of 25 per cent. (plus a solidarity surcharge of 5.5 per cent. of such tax) will also be withheld from interest payments on Notes and generally also from capital gains from the disposition or redemption of Notes held as business assets. In these cases, the withholding tax does not satisfy the income tax liability of the Holder, as in the case of the flat income tax, but will be credited as advance payment against the personal income or corporate income tax liability (plus the solidarity surcharge and, if applicable, church tax in case of individuals) of the Holder.

With regard to capital gains no withholding will generally be required for Notes held by corporations resident in Germany, provided that, regarding corporations of certain legal forms, the status of the corporation has been evidenced by a certificate of the competent tax authority. The same also applies upon application in the case of Notes held by individuals or partnerships as business assets.

Notes Held by Non-Residents

Interest and capital gains are not subject to German taxation in the case of non-residents, (*i.e.*, persons having neither their residence nor their habitual abode nor legal domicile nor place of effective management in Germany), unless the Notes form part of the business property of a permanent establishment (*Betriebsstätte*) including a permanent representative (*ständiger Vertreter*) maintained in Germany. Interest may, however, also be subject to German income tax if it otherwise constitutes taxable income in Germany such as income from the letting and leasing of certain German-situs property or income from certain capital investments directly or indirectly secured by German-situs real estate.

Non-residents of Germany are, in general, exempt from German withholding tax on interest and capital gains and from solidarity surcharge thereon. However, if the interest or capital gain is subject to German taxation as set forth in the preceding paragraph and the Notes are held in a custodial account with a Disbursing Agent or the Notes are not held in a custodial account and a Disbursing Agent disburses or credits to a non-resident of Germany (other than a non-German bank or a non-German financial services institution) the proceeds from the Notes on delivery of a coupon or Note, withholding tax will be levied as explained above under “— Notes Held by Tax Residents as Private Assets” or under “— Notes Held by Tax Residents as Business Assets”, respectively.

Inheritance and Gift Tax

No inheritance or gift taxes with respect to any of the Notes will arise under the laws of Germany, if, in the case of inheritance tax, neither the decedent nor the beneficiary, or, in the case of gift tax, neither the donor nor the donee, is a resident of Germany and such Notes are not attributable to a German trade or business for which a permanent establishment is maintained, or a permanent representative has been appointed, in Germany. Exceptions from this rule apply to certain German citizens who previously maintained a residence in Germany.

Other taxes

No stamp, issue, registration or similar taxes or duties will be payable in Germany in connection with the issuance, delivery or execution of the Notes. Currently, net assets tax (*Vermögensteuer*) is not levied in Germany.

Grand Duchy of Luxembourg

The following information is of a general nature and is included herein solely for preliminary information purposes. It is a description of the material Luxembourg tax consequences with respect to payments on Notes, Receipts and Coupons through a paying agent established in Luxembourg. The information does not purport to be a comprehensive description of all of the tax considerations that may be relevant to any prospective investor and may not include tax considerations that arise from rules of general application or that are generally assumed to be known to Holders, Receiptholders or Couponholders. This information is based on the laws in force in Luxembourg on the date of this Simplified Base Prospectus and is subject to any change in law that may take effect after such date. It is not intended to be, nor should it be construed to be, legal or tax advice. Prospective investors in the Notes, Receipts and Coupons should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject.

Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a withholding tax or a similar tax refers to Luxembourg tax law and/or concepts only.

Withholding Tax

Resident Holders/Couponholders/Receiptholders

Subject to the Luxembourg law of 23rd December, 2005, as amended (the “Relibi Law”), there is under Luxembourg tax laws currently in effect no Luxembourg withholding tax under the Notes, Receipts and Coupons on payments of principal, premium or interest (including accrued but unpaid interest) made to resident Holders of Notes, Receipts and Coupons, nor is any Luxembourg withholding tax payable upon repayment of principal in case of redemption, repurchase or exchange of the Notes, Receipts and Coupons.

Under the Relibi Law, as amended, a 20 per cent. Luxembourg withholding tax is levied on interest payments or similar income made or ascribed by Luxembourg paying agents to or for the benefit of a Luxembourg individual beneficial owner who is a resident of Luxembourg. This withholding tax also applies on

accrued but unpaid interest received upon sale, redemption or repurchase of the Notes, Receipts and Coupons. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for the withholding tax will be assumed by the Luxembourg paying agent.

Non-Resident Holders/Couponholders/Receiptholders

Under the Luxembourg tax law currently in effect, there is no withholding tax on payments of principal, premium interests (including accrued but unpaid interest) made to a Luxembourg non-resident Holder, Couponholder or Receiptholder. There is also no Luxembourg withholding tax, upon repayment of the principal, or subject to the application of the Luxembourg Laws, upon redemption, repurchase or exchange of the Notes, Coupons or Receipts.

United Kingdom

The following is a general discussion of whether United Kingdom tax will be withheld at source from the payment of interest on the Notes. It is based on laws of the United Kingdom as at the date of this document and is subject to change, possibly with retrospective effect. The comments do not purport to be a complete analysis of all United Kingdom tax considerations relating to the Notes. They relate only to the position of persons who are the absolute beneficial owners of their Notes and may not apply to certain classes of persons such as dealers. They do not necessarily apply where the income is deemed for tax purposes to be the income of any other person.

Prospective purchasers of Notes are advised to consult their own tax advisors as to the tax consequences of the purchase, ownership and disposition of Notes, including the effect of any taxation under the laws of the United Kingdom.

Under current laws of the United Kingdom, provided the Notes are listed on a “recognised stock exchange” as defined for the purposes of sections 882 and 987 of the Income Tax Act 2007 and/or interest paid on the Notes is not treated as having a United Kingdom source, no person by or through whom a payment of interest on the Notes is made will be obliged to deduct from it any amount in respect of taxation in the United Kingdom.

Whilst not conclusive, an important factor in determining whether any payment of interest has a UK source is the residence of the Issuer. On the basis that the Issuer is not resident in the United Kingdom it is unlikely that any payments of interest on the Notes will have a United Kingdom source for United Kingdom tax purposes.

Her Majesty's Revenue and Customs (“HMRC”) has powers to obtain information relating to securities in certain circumstances. This may include details of the beneficial owners of the Notes (or the persons for whom the Notes are held), details of the persons to whom payments derived from the Notes are or may be paid and information and documents in connection with transactions relating to the Notes. Information may be required to be provided by, amongst others, the holders of the Notes, persons by (or via) whom payments derived from the Notes are made or who receive (or would be entitled to receive) such payments, persons who effect or are a party to transactions relating to the Notes on behalf of others and certain registrars or administrators. In certain circumstances, the information obtained by HMRC may be exchanged with tax authorities in other countries.

European Union Financial Transaction Tax

On 14th February, 2013, the European Commission published a proposal (the “Commission’s Proposal”) for a directive for a common financial transaction tax (“FTT”) in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the “Participating Member States”). However, Estonia has since stated that it will not participate.

The Commission’s Proposal has very broad scope and could, if introduced, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances. The issuance and subscription of the Notes should, however, be exempt.

Under the Commission’s Proposal, the FTT could apply in certain circumstances to persons both within and outside of the Participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution (as defined in the proposed directive), and at least one party is established in a Participating Member State. A financial institution may be, or deemed to be, ‘established’ in a Participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a Participating Member State or (b) where the financial instrument which is the subject of the dealings is issued in a Participating Member State.

However, the FTT proposal and its scope remain subject to negotiation between Participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional member states of the European Union may decide to participate.

Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

Prospective purchasers of Notes are advised to consult their own tax advisors as to the tax consequences of the purchase, ownership and disposition of Notes, including the effect of any state or local taxes, under the tax laws of the Federal Republic of Germany and each country of which they are residents.

United States of America

Pursuant to Internal Revenue Service Circular 230, the Issuer hereby informs potential investors that the description set forth herein with respect to U.S. federal tax issues was not intended or written to be used, and such description cannot be used, by any taxpayer for the purpose of avoiding any penalties that may be imposed on the taxpayer under the Internal Revenue Code. Such description was written in connection with the marketing of the Notes. Taxpayers should seek advice based on the taxpayer's particular circumstances from an independent tax advisor.

This section describes the material United States federal income tax consequences of owning Notes issued under the Programme. It applies to holders of Notes who hold such Notes as capital assets for tax purposes. This description does not apply to a holder who is a member of a class of holders subject to special rules, such as:

- a dealer in securities or currencies,
- a trader in securities that elects to use a mark-to-market method of accounting for securities holdings,
- a bank,
- an insurance company,
- a tax-exempt organization,
- a regulated investment company,
- a person that owns Notes that are a hedge or that are hedged against interest rate or currency risks,
- a person that owns Notes as part of a straddle or conversion transaction for tax purposes,
- a person that purchases or sells securities as part of a wash sale for tax purposes,
- a person liable for alternative minimum tax,
- a United States expatriate, or
- a U.S. holder (as defined below) whose functional currency for tax purposes is not the U.S. dollar.

This section deals only with Notes that are due to mature 30 years or less from the date on which they are issued. The United States federal income tax consequences of owning Notes that are due to mature more than 30 years from their date of issue will be discussed in an applicable prospectus supplement. This section is based on the Internal Revenue Code of 1986, as amended, its legislative history, existing and proposed regulations under the Internal Revenue Code, published rulings and court decisions, all as currently in effect. These laws are subject to change, possibly on a retroactive basis.

If a partnership holds the Notes, the United States federal income tax treatment of a partner will generally depend on the status of the partner and the tax treatment of the partnership. A partner in a partnership holding the Notes should consult its tax advisor with regard to the United States federal income tax treatment of an investment in the Notes.

Prospective purchasers of Notes are advised to consult their own tax advisor concerning the consequences of owning these Notes in their particular circumstances under the Internal Revenue Code and the laws of any other taxing jurisdiction.

United States Holders

This subsection describes the tax consequences to a U.S. holder. A Holder is a U.S. holder if such holder is a beneficial owner of a Note and is for United States federal income tax purposes:

- a citizen or resident of the United States,

- a domestic corporation,
- an estate whose income is subject to United States federal income tax regardless of its source, or
- a trust if a United States court can exercise primary supervision over the trust's administration and one or more United States persons are authorised to control all substantial decisions of the trust.

This subsection does not apply to a holder who is not a U.S. holder. Such holder should refer to “— United States Alien Holders” below.

Payments of Interest

Except as described below in the case of interest on a discount Note that is not qualified stated interest, each as defined below under “— Original Issue Discount — General”, a U.S. holder will be taxed on any interest on its Note, whether payable in U.S. dollars or a foreign currency, including a composite currency or basket of currencies other than U.S. dollars, as ordinary income at the time such U.S. holder receives the interest or when it accrues, depending on such U.S. holder's method of accounting for tax purposes.

Interest paid by the Issuer on the Notes and original issue discount, if any, accrued with respect to the Notes (as described below under “Original Issue Discount”) is income from sources outside the United States and will generally be “passive” income for purposes of the rules regarding the foreign tax credit allowable to a United States holder.

Cash Basis Taxpayers

If a U.S. holder is a taxpayer that uses the cash receipts and disbursements method of accounting for tax purposes and receives an interest payment that is denominated in, or determined by reference to, a foreign currency, such U.S. holder must recognise income equal to the U.S. dollar value of the interest payment, based on the exchange rate in effect on the date of receipt, regardless of whether such U.S. holder actually converts the payment into U.S. dollars.

Accrual Basis Taxpayers

If a U.S. holder is a taxpayer that uses an accrual method of accounting for tax purposes, such U.S. holder may determine the amount of income that it recognises with respect to an interest payment denominated in, or determined by reference to, a foreign currency by using one of two methods. Under the first method, the U.S. holder will determine the amount of income accrued based on the average exchange rate in effect during the interest accrual period or, with respect to an accrual period that spans two taxable years, that part of the period within the taxable year.

If the U.S. holder elects the second method, the U.S. holder will determine the amount of income accrued on the basis of the exchange rate in effect on the last day of the accrual period, or, in the case of an accrual period that spans two taxable years, the exchange rate in effect on the last day of the part of the period within the taxable year. Additionally, under this second method, if the U.S. holder receives a payment of interest within five business days of the last day of the U.S. holder's accrual period or taxable year, such U.S. holder may instead translate the interest accrued into U.S. dollars at the exchange rate in effect on the day that such U.S. holder actually receives the interest payment. If such U.S. holder elects the second method it will apply to all debt instruments that the U.S. holder holds at the beginning of the first taxable year to which the election applies and to all debt instruments that such U.S. holder subsequently acquires. U.S. holders may not revoke this election without the consent of the Internal Revenue Service.

When a U.S. holder actually receives an interest payment, including a payment attributable to accrued but unpaid interest upon the sale or retirement of such U.S. holder's Note, denominated in, or determined by reference to, a foreign currency for which such U.S. holder accrued an amount of income, such U.S. holder will recognise ordinary income or loss measured by the difference, if any, between the exchange rate that such U.S. holder used to accrue interest income and the exchange rate in effect on the date of receipt, regardless of whether such U.S. holder actually converts the payment into U.S. dollars.

Original Issue Discount

General

A Note, other than a Note with a term of one year or less, will be treated as a discount Note issued at an original issue discount or “OID” if the amount by which the Note's stated redemption price at maturity exceeds its issue price is more than a *de minimis* amount. Generally, a Note's issue price will be the first price at which a substantial amount of Notes included in the issue of which the Note is a part is sold to persons other than bond houses, brokers, or similar persons or organizations acting in the capacity of underwriters, placement agents, or wholesalers. A Note's stated redemption price at maturity is the total of all payments provided by the Note that

are not payments of qualified stated interest. Generally, an interest payment on a Note is qualified stated interest if it is one of a series of stated interest payments on a Note that are unconditionally payable at least annually at a single fixed rate, with certain exceptions for lower rates paid during some periods, applied to the outstanding principal amount of the Note. There are special rules for variable rate Notes that are discussed under “— Variable Rate Notes”.

In general, a Note is not a discount Note if the amount by which its stated redemption price at maturity exceeds its issue price is less than the *de minimis* amount of 1/4 of 1 per cent. of its stated redemption price at maturity multiplied by the number of complete years to its maturity (or, in the case of a Note providing for the payment of any amount other than qualified stated interest (as defined above) prior to maturity, multiplied by the weighted average maturity of the Note). A Note will have *de minimis* original issue discount if the amount of the excess is less than the *de minimis* amount. If the Note has *de minimis* original issue discount, the U.S. holder must include the amount of such *de minimis* original issue discount in income as stated principal payments are made on the Note, unless the U.S. holder makes the election described below under “— Election to Treat All Interest as Original Issue Discount”. A U.S. holder can determine the includible amount with respect to each such payment by multiplying the total amount of the Note’s *de minimis* original issue discount by a fraction equal to the amount of the principal payment made divided by the stated principal amount of the Note.

Under recently enacted legislation, United States holders that maintain certain types of financial statements and that are subject to the accrual method of tax accounting may be required to include *de minimis* OID on the Notes in income no later than the time upon which they include such amounts in income on their financial statements. United States holders that maintain financial statements should consult their tax advisors regarding the tax consequences to them of this legislation.

Inclusion of Original Issue Discount in Income

Generally, if the discount Note matures more than one year from its date of issue, the U.S. holder must include original issue discount, or OID, in income before such U.S. holder receives cash attributable to that income. The amount of OID that the U.S. holder must include in income is calculated using a constant-yield method, and generally such U.S. holder will include increasingly greater amounts of OID in income over the life of the discount Note. More specifically, the U.S. holder calculates the amount of OID that such U.S. holder must include in income by adding the daily portions of OID with respect to such U.S. holder’s discount Note for each day during the taxable year or portion of the taxable year that such U.S. holder holds the discount Note. The daily portion is determined by allocating to each day in any accrual period a pro rata portion of the OID allocable to that accrual period. A U.S. holder may select an accrual period of any length with respect to such U.S. holder’s discount Note and may vary the length of each accrual period over the term of the discount Note. However, no accrual period may be longer than one year and each scheduled payment of interest or principal on the discount Note must occur on either the first or the final day of an accrual period.

The amount of OID allocable to an accrual period is determined by:

- multiplying the discount Note’s adjusted issue price at the beginning of the accrual period by such Note’s yield to maturity, and then
- subtracting from this figure the sum of the payments of qualified stated interest on such Note allocable to the accrual period.

The discount Note’s yield to maturity must be determined on the basis of compounding at the close of each accrual period and adjusting for the length of each accrual period. Further, the discount Note’s adjusted issue price at the beginning of any accrual period is determined by:

- adding the discount Note’s issue price and any accrued OID for each prior accrual period (determined without regard to the amortization of any acquisition or bond premium, as described below), and then
- subtracting any payments previously made on such discount Note in any prior accrual period that were not qualified stated interest payments.

If an interval between payments of qualified stated interest on a discount Note contains more than one accrual period, then, when determining the amount of OID allocable to an accrual period, the U.S. holder must allocate the amount of qualified stated interest payable at the end of the interval, including any qualified stated interest that is payable on the first day of the accrual period immediately following the interval, pro rata to each accrual period in the interval based on their relative lengths. In addition, the U.S. holder must increase the adjusted issue price at the beginning of each accrual period in the interval by the amount of any qualified stated interest that has accrued prior to the first day of the accrual period but that is not payable until the end of the

interval. The U.S. holder may compute the amount of OID allocable to an initial short accrual period by using any reasonable method if all other accrual periods, other than a final short accrual period, are of equal length.

The amount of OID allocable to the final accrual period is equal to the difference between:

- the amount payable at the maturity of the Note, other than any payment of qualified stated interest, and
- the Note's adjusted issue price as of the beginning of the final accrual period.

Acquisition Premium

If the Note is purchased for an amount that is less than or equal to the sum of all amounts, other than qualified stated interest, payable on such Note after the purchase date but is greater than the amount of such Note's adjusted issue price prior to the purchase, as determined above under "— General", the excess is acquisition premium. If a U.S. holder does not make the election described below under "— Election to Treat All Interest as Original Issue Discount", then such U.S. holder must reduce the daily portions of OID by a fraction equal to:

- the excess of such U.S. holder's adjusted basis in the Note immediately after purchase over the adjusted issue price of the Note prior to the purchase

divided by:

- the excess of the sum of all amounts payable, other than qualified stated interest, on the Note after the purchase date over the Note's adjusted issue price.

Pre-Issuance Accrued Interest

An election may be made to decrease the issue price of the Note by the amount of pre-issuance accrued interest if:

- a portion of the initial purchase price of the Note is attributable to pre-issuance accrued interest,
- the first stated interest payment on the Note is to be made within one year of the Note's issue date, and
- the payment will equal or exceed the amount of pre-issuance accrued interest.

If this election is made, a portion of the first stated interest payment will be treated as a return of the excluded pre-issuance accrued interest and not as an amount payable on the Note.

Notes Subject to Contingencies Including Optional Redemption

A Note is subject to a contingency if it provides for an alternative payment schedule or schedules applicable upon the occurrence of a contingency or contingencies, other than a remote or incidental contingency, whether such contingency relates to payments of interest or of principal. In such a case, the U.S. holder must determine the yield and maturity of the Note by assuming that the payments will be made according to the payment schedule most likely to occur if:

- the timing and amounts of the payments that comprise each payment schedule are known as of the issue date and
- one of such schedules is significantly more likely than not to occur.

If there is no single payment schedule that is significantly more likely than not to occur, other than because of a mandatory sinking fund, the U.S. holder must include income on the Note in accordance with the general rules that govern contingent payment obligations. These rules will be discussed in the applicable prospectus supplement and/or final terms.

Notwithstanding the general rules for determining yield and maturity, if the Note is subject to contingencies, and either the U.S. holder or the Issuer has an unconditional option or options that, if exercised, would require payments to be made on the Note under an alternative payment schedule or schedules, then:

- in the case of an option or options that the Issuer may exercise, the Issuer will be deemed to exercise or not to exercise an option or combination of options in the manner that minimises the yield on the Note, and
- in the case of an option or options that the U.S. holder may exercise, such U.S. holder will be deemed to exercise or not to exercise an option or combination of options in the manner that maximises the yield on the Note.

If both the U.S. holder and the Issuer hold options described in the preceding sentence, those rules will apply to each option in the order in which they may be exercised. A U.S. holder may determine the yield on its Note for the purposes of those calculations by using any date on which such Note may be redeemed or repurchased as the maturity date and the amount payable on the date that the U.S. holder chooses in accordance with the terms of the Note as the principal amount payable at maturity.

If a contingency, including the exercise of an option, actually occurs or does not occur contrary to an assumption made according to the above rules then, except to the extent that a portion of the Note is repaid as a result of this change in circumstances and solely to determine the amount and accrual of OID, the U.S. holder must re-determine the yield and maturity of its Note by treating the Note as having been retired and reissued on the date of the change in circumstances for an amount equal to the Note's adjusted issue price on that date.

Election to Treat All Interest as Original Issue Discount

A U.S. holder may elect to include in gross income all interest that accrues on its Note using the constant-yield method described above under “— General”, with the modifications described below. For purposes of this election, interest will include stated interest, OID, *de minimis* original issue discount, market discount, *de minimis* market discount and unstated interest, as adjusted by any amortizable bond premium, described below under “— Notes Purchased at a Premium”, or acquisition premium.

If a U.S. holder makes this election for its Note, then, when such U.S. holder applies the constant-yield method:

- the issue price of the Note will equal the U.S. holder's cost,
- the issue date of the Note will be the date the U.S. holder acquired it, and
- no payments on the Note will be treated as payments of qualified stated interest.

Generally, this election will apply only to the Note for which the U.S. holder makes it; however, if the Note for which this election is made has amortizable bond premium, the U.S. holder will be deemed to have made an election to apply amortizable bond premium against interest for all debt instruments with amortizable bond premium, other than debt instruments the interest on which is excludible from gross income, that the U.S. holder owns as of the beginning of the taxable year in which such U.S. holder acquires the Note for which the U.S. holder made this election or which such U.S. holder acquires thereafter. Additionally, if a U.S. holder makes this election for a market discount Note, such U.S. holder will be treated as having made the election discussed below under “— Market Discount” to include market discount in income currently over the life of all debt instruments having market discount that the U.S. holder acquires on or after the first day of the first taxable year to which the election applies. A U.S. holder may not revoke any election to apply the constant-yield method to all interest on a Note or the deemed elections with respect to amortizable bond premium or market discount Notes without the consent of the Internal Revenue Service.

Variable Rate Notes

A Note will be a variable rate Note if:

- the Note's issue price does not exceed the total non-contingent principal payments by more than the lesser of:
 - 0.015 multiplied by the product of the total non-contingent principal payments and the number of complete years to maturity from the issue date, or
 - 15 per cent. of the total non-contingent principal payments; and
- the Note provides for stated interest, compounded or paid at least annually, only at:
 - one or more qualified floating rates,
 - a single fixed rate and one or more qualified floating rates,
 - a single objective rate, or
 - a single fixed rate and a single objective rate that is a qualified inverse floating rate; and
- the value of the rate on any date during the term of the Note is set no earlier than three months prior to the first day on which that value is in effect and no later than one year following that first day.

A Note will have a variable rate that is a qualified floating rate if:

- variations in the value of the rate can reasonably be expected to measure contemporaneous variations in the cost of newly borrowed funds in the currency in which the Note is denominated; or
- the rate is equal to such a rate multiplied by either:
 - a fixed multiple that is greater than 0.65 but not more than 1.35, or
 - a fixed multiple greater than 0.65 but not more than 1.35, increased or decreased by a fixed rate.

If the Note provides for two or more qualified floating rates that are within 0.25 percentage points of each other on the issue date or can reasonably be expected to have approximately the same values throughout the term of the Note, the qualified floating rates together constitute a single qualified floating rate.

A Note will not have a qualified floating rate, however, if the rate is subject to certain restrictions (including caps, floors, governors, or other similar restrictions) unless such restrictions are fixed throughout the term of the Note or are not reasonably expected to significantly affect the yield on the Note.

A Note will have a variable rate that is a single objective rate if:

- the rate is not a qualified floating rate, and
- the rate is determined using a single, fixed formula that is based on objective financial or economic information that is not within the control of or unique to the circumstances of the issuer or a related party.

A Note will not have a variable rate that is an objective rate, however, if it is reasonably expected that the average value of the rate during the first half of the Note's term will be either significantly less than or significantly greater than the average value of the rate during the final half of the Note's term.

An objective rate as described above is a qualified inverse floating rate if:

- the rate is equal to a fixed rate minus a qualified floating rate, and
 - the variations in the rate can reasonably be expected to inversely reflect contemporaneous variations in the cost of newly borrowed funds (disregarding any caps, floors, governors, or other similar restrictions that would not, as described above, cause a rate to fail to be a qualified floating rate).

A Note will also have a single qualified floating rate or an objective rate if interest on the Note is stated at a fixed rate for an initial period of one year or less followed by either a qualified floating rate or an objective rate for a subsequent period, and either:

- the fixed rate and the qualified floating rate or objective rate have values on the issue date of the Note that do not differ by more than 0.25 percentage points, or
- the value of the qualified floating rate or objective rate is intended to approximate the fixed rate.

In general, if a variable rate Note provides for stated interest at a single qualified floating rate or objective rate, or one of those rates after a single fixed rate for an initial period, all stated interest on the Note is qualified stated interest. In this case, the amount of OID, if any, is determined by using, in the case of a qualified floating rate or qualified inverse floating rate, the value as of the issue date of the qualified floating rate or qualified inverse floating rate, or, for any other objective rate, a fixed rate that reflects the yield reasonably expected for the Note.

If a variable rate Note does not provide for stated interest at a single qualified floating rate or a single objective rate, and also does not provide for interest payable at a fixed rate other than a single fixed rate for an initial period, the U.S. holder generally must determine the interest and OID accruals on the Note by:

- determining a fixed rate substitute for each variable rate provided under the variable rate Note,
- constructing the equivalent fixed rate debt instrument, using the fixed rate substitute described above,
- determining the amount of qualified stated interest and OID with respect to the equivalent fixed rate debt instrument, and
- adjusting for actual variable rates during the applicable accrual period.

When a U.S. holder determines the fixed rate substitute for each variable rate provided under the variable rate Note, such U.S. holder generally will use the value of each variable rate as of the issue date or, for an objective rate that is not a qualified inverse floating rate, a rate that reflects the reasonably expected yield on the Note.

If a variable rate Note provides for stated interest either at one or more qualified floating rates or at a qualified inverse floating rate, and also provides for stated interest at a single fixed rate other than at a single fixed rate for an initial period, the U.S. holder generally must determine interest and OID accruals by using the method described in the previous paragraph. However, a variable rate Note will be treated, for purposes of the first three steps of the determination, as if the Note had provided for a qualified floating rate, or a qualified inverse floating rate, rather than the fixed rate. The qualified floating rate, or qualified inverse floating rate, that replaces the fixed rate must be such that the fair market value of the variable rate Note as of the issue date approximates the fair market value of an otherwise identical debt instrument that provides for the qualified floating rate, or qualified inverse floating rate, rather than the fixed rate.

Short-Term Notes

In general, if a U.S. holder is an individual or other cash basis U.S. holder of a short-term Note (a Note having a term of one year or less), such U.S. holder is not required to accrue OID, as specially defined below for the purposes of this paragraph, for United States federal income tax purposes unless such U.S. holder elects to do so. However, a U.S. holder may be required to include any stated interest in income as such U.S. holder receives it. If a U.S. holder is an accrual basis taxpayer, a taxpayer in a special class, including, but not limited to, common trust fund, or a certain type of pass-through entity, or a cash basis taxpayer who so elects, such U.S. holder will be required to accrue OID on short-term Notes on either a straight-line basis or under the constant-yield method, based on daily compounding. If a U.S. holder is not required and does not elect to include OID in income currently, any gain such U.S. holder realises on the sale or retirement of the short-term Note will be ordinary income to the extent of the accrued OID, which will be determined on a straight-line basis unless such U.S. holder makes an election to accrue the OID under the constant-yield method, through the date of sale or retirement. However, if a U.S. holder is not required and does not elect to accrue OID on the short-term Notes, such U.S. holder will be required to defer deductions for interest on borrowings allocable to the short-term Notes in an amount not exceeding the deferred income until the deferred income is realised.

When a U.S. holder determines the amount of OID subject to these rules, such U.S. holder must include all interest payments on the short-term Note, including stated interest, in the short-term Note's stated redemption price at maturity.

Foreign Currency Discount Notes

If a discount Note is denominated in, or determined by reference to, a foreign currency, the U.S. holder must determine OID for any accrual period on such discount Note in the foreign currency and then translate the amount of OID into U.S. dollars in the same manner as stated interest accrued by an accrual basis U.S. holder, as described under “— United States Holders - Payments of Interest”. A U.S. holder may recognise ordinary income or loss when such U.S. holder receives an amount attributable to OID in connection with a payment of interest or the sale or retirement of the Note.

Market Discount

A U.S. holder will be treated as if such U.S. holder purchased a Note, other than a short-term Note, at a market discount, and the Note will be a market discount Note if:

- in the case of an initial purchaser, the Note is purchased for less than its issue price as determined above under “— Original Issue Discount — General” and
- the Note's stated redemption price at maturity or, in the case of a discount Note, the Note's revised issue price, exceeds the price such U.S. holder paid for the Note by at least 1/4 of 1 per cent. of the Note's stated redemption price at maturity or revised issue price, respectively, multiplied by the number of complete years to the Note's maturity. To determine the revised issue price of the Note for these purposes, the U.S. holder generally adds any OID that has accrued and that has not been paid on the Note to its issue price.

If the Note's stated redemption price at maturity or, in the case of a discount Note, its revised issue price, does not exceed the price the U.S. holder paid for the Note by 1/4 of 1 per cent. multiplied by the number of complete years to the Note's maturity, the excess constitutes *de minimis* market discount, and the rules discussed below are not applicable to such U.S. holder.

A U.S. holder must treat any gain recognised on the maturity or disposition of such U.S. holder's market discount Note as ordinary income to the extent of the accrued market discount on such Note. The U.S. holder

will accrue market discount on the market discount Note on a straight-line basis unless such U.S. holder elects to accrue market discount using a constant-yield method. If the U.S. holder makes this election, it will apply only to the Note with respect to which it is made and such election may not be revoked.

Alternatively, the U.S. holder may elect to include market discount in income currently over the life of the Note. If the U.S. holder makes this election, it will apply to all debt instruments with market discount that such U.S. holder acquires on or after the first day of the first taxable year to which the election applies. The U.S. holder may not revoke this election without the consent of the Internal Revenue Service. If the U.S. holder owns a market discount Note and does not make this election, such U.S. holder will generally be required to defer deductions for interest on borrowings allocable to the Note in an amount not exceeding the accrued market discount on the Note until the maturity or disposition of the Note.

If a U.S. holder owns a market discount Note, the market discount would accrue on a straight-line basis unless such U.S. holder elects to accrue market discount using a constant-yield method. If such U.S. holder makes this election to accrue market discount using a constant-yield method, it will apply only to the Note with respect to which it is made and such U.S. holder may not revoke it. The U.S. holder would, however, not include accrued market discount in income unless such U.S. holder elects to do so as described above.

If a U.S. holder has elected to include market discount in income currently with respect to a Note denominated in, or providing for payments determined by reference to, a currency other than the U.S. dollar, the amount of market discount will be determined for any accrual period in the relevant foreign currency and then translated into U.S. dollars on the basis of the average rate in effect during the accrual period. Exchange gain or loss realised with respect to such accrued market discount shall be determined in accordance with the rules relating to accrued interest described above. Accrued market discount (other than market discount currently included in income) taken into account upon the receipt of any partial principal payment or upon the sale, retirement or other disposition of a Note is generally translated into U.S. dollars at the spot rate on such payment or disposition date.

Notes Purchased at a Premium

If a U.S. holder purchases a Note for an amount in excess of the sum of all amounts payable on such Note after the acquisition date (other than payments of qualified stated interest), such holder may elect to treat the excess as amortizable bond premium. If such U.S. holder makes this election, the amount required to be included in such U.S. holder's income each year with respect to interest on the Note will be reduced by the amount of amortizable bond premium allocable to that year, based on the Note's yield to maturity. If the Note is denominated in, or determined by reference to, a foreign currency, the U.S. holder will compute the amortizable bond premium in units of the foreign currency and the amortizable bond premium will reduce such U.S. holder's interest income in units of the foreign currency. Gain or loss recognised that is attributable to changes in exchange rates between the time the amortised bond premium offsets interest income and the time of the acquisition of the Note is generally taxable as ordinary income or loss. If a U.S. holder makes an election to amortise bond premium, it will apply to all debt instruments, other than debt instruments the interest on which is excludible from gross income, that such U.S. holder holds at the beginning of the first taxable year to which the election applies or that such U.S. holder thereafter acquires, and may not be revoked without the consent of the Internal Revenue Service. See also "Original Issue Discount — Election to Treat All Interest as Original Issue Discount".

Purchase, Sale, Retirement and other Disposition of Notes

The tax basis in a Note will generally be the U.S. dollar cost, as defined below, of such Note, adjusted by:

- adding any OID or market discount, *de minimis* original issue discount and *de minimis* market discount previously included in income with respect to the Note, and then
- subtracting any payments on the Note that are not qualified stated interest payments and any amortizable bond premium applied to reduce interest on the Note.

If the Note is purchased with foreign currency, the U.S. dollar cost of the Note will generally be the U.S. dollar value of the purchase price on the date of purchase. However, if a U.S. holder is a cash basis taxpayer, or an accrual basis taxpayer if such U.S. holder so elects, and the Note is traded on an established securities market, as defined in the applicable Treasury regulations, the U.S. dollar cost of the Note will be the U.S. dollar value of the purchase price on the settlement date of the purchase.

A U.S. holder will generally recognise gain or loss on the sale or retirement of such U.S. holder's Note equal to the difference between the amount such U.S. holder realises on the sale or retirement, excluding any amounts attributable to accrued but unpaid interest (which will be treated as interest payments), and the tax basis in the Note. Such gain or loss will generally be treated as United States source gain or loss. If the Note is sold or

retired for an amount in foreign currency, the amount the U.S. holder realises will be the U.S. dollar value of such amount on the date the Note is disposed of or retired, except that in the case of a note that is traded on an established securities market, as defined in the applicable Treasury regulations, a cash basis U.S. holder, or an accrual basis U.S. holder that so elects, will determine the amount realised based on the U.S. dollar value of the foreign currency on the settlement date of the sale.

A U.S. holder will recognise capital gain or loss when such U.S. holder sells or retires a Note, except to the extent:

- described above under “Original Issue Discount - Short-Term Notes” or “Market Discount”,
- attributable to accrued but unpaid interest that has not previously been included in the holder's taxable income,
- the rules governing contingent payment obligations apply, or
- attributable to changes in exchange rates as described below.

Capital gain of a non-corporate U.S. holder is generally taxed at preferential rates where the U.S. holder has a holding period greater than one year. The deductibility of capital losses is subject to limitations.

A U.S. holder must treat any portion of the gain or loss that such U.S. holder recognises on the sale or retirement of a Note that is not denominated in U.S. dollars as United States source ordinary income or loss to the extent attributable to changes in exchange rates between the date of acquisition and the date of the sale or retirement. However, the U.S. holder takes exchange gain or loss into account only to the extent of the total gain or loss such U.S. holder realises on the transaction.

Exchange of Amounts in Other Than U.S. Dollars

If a U.S. holder receives foreign currency as interest on a Note or on the sale or retirement of a Note, such U.S. holder's tax basis in the foreign currency will equal its U.S. dollar value when the interest is received or at the time of the sale or retirement (or the settlement date if a Note is traded on an established securities market and the U.S. holder is either a cash basis taxpayer or an accrual basis taxpayer that so elects). If the U.S. holder purchases foreign currency, such U.S. holder generally will have a tax basis equal to the U.S. dollar value of the foreign currency on the date of such purchase. If a U.S. holder sells or disposes of a foreign currency, including using it to purchase Notes or exchange it for U.S. dollars, any gain or loss recognised generally will be ordinary income or loss and generally will be United States source gain or loss.

Medicare Tax

A United States person that is an individual or estate, or a trust that does not fall into a special class of trusts that is exempt from such tax, will be subject to a 3.8 per cent. tax on the lesser of (1) such person's “net investment income” (or “undistributed net investment income” in the case of an estate or trust) for the relevant taxable year and (2) the excess of such person's modified adjusted gross income for the taxable year over a certain threshold (which in the case of individuals will be between U.S.\$125,000 and U.S.\$250,000, depending on the individual's circumstances). A U.S. holder's net investment income will generally include its interest income and its net gains from the disposition of notes, unless such interest payments or net gains are derived in the ordinary course of the conduct of a trade or business (other than a trade or business that consists of certain passive or trading activities). If a holder is a United States person that is an individual, estate or trust, such holder is urged to consult tax advisors regarding the applicability of the Medicare tax to such holder's income and gains in respect of investment in the Notes.

Indexed Notes, Amortizing Notes and Notes Convertible or Exchangeable Into Other Securities

The applicable simplified base prospectus supplement and/or final terms will discuss any special United States federal income tax rules with respect to Notes the payments on which are determined by reference to any index and other Notes that are subject to the rules governing contingent payment obligations, amortizing Notes, and Notes that are convertible or exchangeable into other securities which are not subject to the rules governing variable rate Securities.

Non-United States Holders

This section describes the tax consequences to a “non-U.S. holder” of Notes described in this Simplified Base Prospectus. A holder is a non-U.S. holder if such holder is the beneficial owner of a Note and is, for United States federal income tax purposes:

- a nonresident alien individual;
- a foreign corporation; or

- an estate or trust that in either case is not subject to United States federal income tax on a net income basis on income or gain from a note.

This section does not apply to U.S. holders of Notes.

Payment of Interest

Subject to the discussion of backup withholding below, payments of principal, premium, if any, and interest, including OID on a Note paid to a non-U.S. holder is exempt from United States federal income tax, including withholding tax, whether or not such non-U.S. holder is engaged in a trade or business in the United States, unless such non-U.S. holder:

- has an office or other fixed place of business in the United States to which the interest is attributable, and
- either (1) derives the interest in the active conduct of a banking, financing or similar business within the United States, or (2) is a corporation with a principal business of trading in stocks and securities for its own account.

Purchase, Sale, Retirement and Other Disposition of Notes

A non-U.S. holder generally will not be subject to United States federal income tax on gain realised on the sale, exchange or retirement of a Note unless:

- the gain is effectively connected with such non-U.S. holder's conduct of a trade or business in the United States or
- such non-U.S. holder is an individual present in the United States for 183 or more days during the taxable year in which the gain is realised and certain other conditions exist.

For purposes of the United States federal estate tax, Notes will be treated as situated outside the United States and will not be includible in the gross estate of a holder who is neither a citizen nor a resident of the United States at the time of death.

Treasury Regulations Requiring Disclosure of Reportable Transactions

Treasury regulations require United States taxpayers to report certain transactions that give rise to a loss in excess of certain thresholds (a "Reportable Transaction"). Under these regulations, if the Note is denominated in a foreign currency, a United States holder (or a non-U.S. holder that holds the Note in connection with a U.S. trade or business) that recognises a loss with respect to the Note that is characterised as an ordinary loss due to changes in currency exchange rates (under any of the rules discussed above) would be required to report the loss on Internal Revenue Service Form 8886 (Reportable Transaction Disclosure Statement) if the loss exceeds the thresholds set forth in the regulations. For individuals and trusts, this loss threshold is U.S.\$50,000 in any single taxable year. For other types of taxpayers and other types of losses, the thresholds are higher. Prospective purchasers of Notes are advised to consult with their tax advisor regarding any tax filing and reporting obligations that may apply in connection with acquiring, owning and disposing of Notes.

Foreign Financial Assets Reporting

Owners of "specified foreign financial assets" with an aggregate value in excess of U.S.\$50,000 (and in some circumstances, a higher threshold) may be required to file an information report with respect to such assets with their tax returns. "Specified foreign financial assets" may include financial accounts maintained by foreign financial institutions, as well as the following, but only if they are held for investment and not held in accounts maintained by financial institutions: (i) stocks and securities issued by non-United States persons, (ii) financial instruments and contracts that have non-United States issuers or counterparties, and (iii) interests in foreign entities. Holders are urged to consult their tax advisors regarding the application of this reporting requirement to their ownership of the debt securities.

Foreign Account Tax Compliance Act

A 30 per cent. withholding tax may be imposed on certain payments to non-U.S. financial institutions that fail to comply with information reporting requirements or certification requirements in respect of their direct and indirect United States shareholders and/or United States accountholders. To avoid becoming subject to the 30 per cent. withholding tax on payments to them, non-U.S. financial institutions may be required to report information to the Internal Revenue Service regarding the holders of the Notes and, in the case of holders or beneficial owners who (i) fail to provide the relevant information, (ii) are non-U.S. financial institutions who have not agreed to comply with these information reporting requirements, or (iii) hold Notes directly or indirectly through such a non-compliant non-U.S. financial institution, withhold on a portion of payments under the Notes. Such withholding would not apply to payments on the Notes made before January 1, 2019. In

addition, these requirements would not apply to Notes issued before the date that is six months after the date on which final regulations implementing “foreign passthru payment” withholding are enacted. Holders are urged to consult their tax advisors and any banks or brokers through which they will hold Notes as to the consequences (if any) of these rules to them.

Backup Withholding and Information Reporting

This section describes the information reporting and backup withholding requirements regarding holders of the Notes described in this Simplified Base Prospectus.

If a holder is a non-corporate U.S. holder, information reporting requirements, on Internal Revenue Service Form 1099, generally will apply to payments of principal, premium and interest (including OID) on a Note within the United States, and the payment of proceeds to such holder from the sale of a Note effected at a United States office of a broker.

Additionally, backup withholding generally will apply to such payments if the U.S. holder fails to comply with applicable certification requirements or is notified by the Internal Revenue Service that such U.S. holder has failed to report all interest and dividends required to be shown on such U.S. holder’s federal income tax returns.

If a holder is a United States alien holder, such holder is generally exempt from backup withholding and information reporting requirements with respect to payments of principal, premium and interest (including OID) made to such holder outside the United States by the Issuer or another non-United States payor. Such holder is also generally exempt from backup withholding and information reporting requirements in respect of payments of principal, premium and interest (including OID) made within the United States and the payment of the proceeds from the sale of a Note effected at a United States office of a broker, as long as either (i) the payor or broker does not have actual knowledge or reason to know that such holder is a United States person and such holder has furnished a valid Internal Revenue Service Form W-8 or other documentation upon which the payor or broker may rely to treat the payments as made to a non-U.S. person, or (ii) such holder otherwise establishes an exemption.

Payment of the proceeds from the sale of Notes effected at a foreign office of a broker generally will not be subject to information reporting or backup withholding. However, a sale effected at a foreign office of a broker could be subject to information reporting in the same manner as a sale within the United States (and in certain cases may be subject to backup withholding as well) if (i) the broker has certain connections to the United States, (ii) the proceeds or confirmation are sent to the United States or (iii) the sale has certain other specified connections with the United States.

A holder generally may obtain a refund of any amounts withheld under the backup withholding rules that exceed such holder’s income tax liability by filing a refund claim with the Internal Revenue Service.

New Zealand

The following summary is a general discussion of certain New Zealand withholding tax consequences of the acquisition and ownership of Kauri Notes. It does not purport to be a comprehensive description of all tax considerations which may be relevant to a decision to purchase Kauri Notes, and, in particular, does not consider any specific facts or circumstances that may apply to a particular purchaser. This summary is based on the laws of New Zealand currently in force and as applied on the date of this Simplified Base Prospectus, which are subject to change, in some cases with retroactive or retrospective effect.

Prospective holders of Kauri Notes (including prospective holders of a beneficial interest in Kauri Notes) are advised to consult their own tax advisors as to the New Zealand tax consequences of the purchase, ownership and disposition of Kauri Notes.

To the extent that a beneficial interest in Kauri Notes is held by a New Zealand resident, payments of principal and/or interest by the Issuer should not be subject to New Zealand resident withholding tax, provided that:

- (1) the Issuer (and any other related entity through which the payments of principal and/or interest are made) continues to be a non-New Zealand resident, and does not carry on a taxable activity in New Zealand through a fixed establishment in New Zealand; and
- (2) if Computershare Investor Services Limited (or any other third party) receives principal and/or interest payments on behalf of or as agent of the holder of that beneficial interest, the holder has provided Computershare Investor Services Limited (or such other third party) with a copy of a valid certificate of exemption from New Zealand resident withholding tax prior to the payment being made, and that certificate of exemption remains valid at the time the payment is made.

To the extent that a beneficial interest in Kauri Notes is held by a non-New Zealand resident, payments of principal and/or interest on such Kauri Notes by the Issuer should not be subject to New Zealand withholding tax.

For the purposes of the foregoing New Zealand withholding tax considerations, a “New Zealand resident” is a person who is resident in New Zealand for New Zealand income tax purposes or who otherwise receives payments of principal or interest from the Issuer subject to the New Zealand resident withholding tax rules, which includes a holder that is carrying on business in New Zealand through a fixed establishment in New Zealand and that either holds the Kauri Notes for the purpose of that business or is a registered bank in New Zealand, and a “non-New Zealand resident” is a person who is not a New Zealand resident as described above.

Withholding of Taxes at the Source

The Issuer assumes no responsibility for the withholding of taxes imposed or levied by or on behalf of the Federal Republic of Germany or any jurisdiction in which Notes are offered or in which admission to trading is being sought.

BOOK-ENTRY CLEARING SYSTEMS

The information set out below is subject to any change in or reinterpretation of the rules, regulations and procedures of the clearing systems currently in effect. The information in this section concerning the clearing systems has been obtained from sources that the Issuer believes to be reliable but neither the Issuer nor any Dealer takes any responsibility for the accuracy thereof. Investors wishing to use the facilities of any of the clearing systems are advised to confirm the continued applicability of the rules, regulations and procedures of the relevant clearing system. None of the Issuer, the Fiscal Agent, the Principal Paying Agent, the New Zealand Agent, the VP Agent, the VPS Agent nor any other party to the Agency Agreements will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the Notes held through the facilities of any clearing system or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

The Clearing Systems

DTC

The Depository Trust Company (“DTC”) is a limited-purpose trust company organised under the New York Banking Law, a “banking organization” within the meaning of the New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code, and a “clearing agency” registered pursuant to the provisions of Section 17A of the Exchange Act. DTC holds and provides asset servicing for securities that its participants (“Direct Participants”) deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerised book-entry transfers and pledges between Direct Participants’ accounts, thereby eliminating the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is a wholly owned subsidiary of The Depository Trust & Clearing Corporation (“DTCC”). DTCC is the holding company for DTC, National Securities Clearing Corporation, and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others, such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (“Indirect Participants”). The DTC Rules applicable to its Participants are on file with the U.S. Securities and Exchange Commission. The foregoing information about DTC has been accurately reproduced and, as far as the Issuer is aware and is able to ascertain from information published by DTC, no facts have been omitted which would render the reproduced information inaccurate or misleading. The foregoing information about DTC was derived from, and additional information about DTC can be found at, www.dtcc.com and www.dtc.org.

The Issuer may apply to DTC in order to have any Tranche of Notes represented by a Registered Global Note accepted in its book-entry settlement system. Upon the issue of any such Registered Global Note, DTC or its custodian will credit, on its internal book-entry system, the respective nominal amounts of the individual beneficial interests represented by such Registered Global Note to the accounts of persons who have accounts with DTC. Such accounts initially will be designated by or on behalf of the relevant Dealer. Purchases of Notes under the DTC system (“DTC Notes”) must be made by or through Direct Participants, which will receive a credit for the DTC Notes on DTC’s records. The ownership interest of each actual purchaser of each Note (“Beneficial Owner”) is in turn to be recorded on the Direct Participants’ and Indirect Participants’ records. Ownership of beneficial interests in a DTC Note will be limited to Direct Participants or Indirect Participants, including, in the case of any Regulation S Global Note, the respective depositories of Euroclear and Clearstream, Luxembourg.

To facilitate subsequent transfers, all DTC Notes deposited by Direct Participants with DTC are registered in the name of DTC’s partnership nominee, Cede & Co., or such other name as may be requested by an authorised representative of DTC. The deposit of DTC Notes with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not affect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the DTC Notes; DTC’s records reflect only the identity of the Direct Participants to whose accounts such Securities are credited, which may or may not be the Beneficial Owners. The Direct Participants and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Redemption notices shall be sent to DTC. If less than all of the DTC Notes within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to DTC Notes unless authorised by a Direct Participant in accordance with DTC's procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the Issuer as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts DTC Notes are credited on the record date (identified in a listing attached to the Omnibus Proxy).

The Issuer may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, security certificates will be printed and delivered to DTC.

With regard to Legacy Notes and under certain circumstances, DTC will exchange the DTC Notes for Registered Notes in definitive form, which it will distribute to its participants in accordance with their proportionate entitlements and which, if representing interests in a Rule 144A Global Note, will be legended as set forth under "Notice to Purchasers and Holders of Rule 144A Notes and Transfer Restrictions".

Euroclear, Clearstream, Luxembourg and Clearstream, Frankfurt

Euroclear Bank S.A./N.V. ("Euroclear"), Clearstream Banking société anonyme ("Clearstream, Luxembourg") and Clearstream Banking Aktiengesellschaft ("Clearstream, Frankfurt" and together with Euroclear and Clearstream, Luxembourg and Clearstream, Frankfurt, together the "International Central Securities Depositories" or "ICSDs") each holds securities for its customers and facilitates the clearance and settlement of securities transactions by electronic book-entry transfer between their respective account holders. The ICSDs provide various services including safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. The ICSDs also deal with domestic securities markets in several countries through established depository and custodial relationships. The ICSDs have established an electronic bridge between their systems across which their respective participants may settle trades with each other.

ICSD customers are world-wide financial institutions, including underwriters, securities brokers and dealers, banks, trust companies and clearing corporations. Indirect access to the ICSDs is available to other institutions that clear through or maintain a custodial relationship with an account holder of either system.

NZClear

The NZClear System ("NZClear") is a real-time settlement system which members access from their premises. Each member has one or more security accounts on the system which records the securities lodged with New Zealand Central Securities Depository Limited ("NZCSD"), a custodian, fully owned by the Reserve Bank of New Zealand. NZCSD becomes the legal owner of the securities on the respective register and holds securities on behalf of the member, the beneficial owner. Each member also has a system cash account. This account is provided by a registered New Zealand bank. The bank providing a system cash account has real time access to set daylight limits (debit caps) on that account.

VP

VP Securities A/S ("VP") is the central securities depository ("CSD") for Denmark. VP was originally set up as a private self-governing institution responsible for the computer book-entry of issues of dematerialised securities and rights thereto, as well as the clearing and settlement of securities transactions. VP Securities A/S is today a limited liability company and is subject to the Danish Capital Markets Act and Regulation (EU) No. 909/2014 of the European Parliament and of the Council of 23rd July, 2014 ("CSDR"), as amended from time to time.

VPS

The Norwegian Central Securities Depository (*Verdipapirsentralen ASA*) ("VPS") is a Norwegian public limited liability company which in 2003 was granted a license to conduct the business of registering financial instruments in Norway in accordance with the Norwegian Securities Register Act of 5th July, 2002 no. 64 (the "Securities Register Act"). The Securities Register Act requires that, among other things, all notes and bonds issued in Norway shall be registered in VPS (the "VPS Securities"), except notes and bonds issued by Norwegian issuers outside Norway and (i) denominated in Norwegian Kroner with subscription limited to non-Norwegians and (ii) issued outside Norway in a currency other than Norwegian Kroner.

VPS is a paperless securities registry and registration of ownership, transfer and other rights to financial instruments are evidenced by book entries in the registry. Any issuer of VPS Securities will be required to have an account (issuer's account) where all the VPS Securities are registered in the name of the holder, and each

holder is required to have her/his own account (investor's account) showing such person's holding of VPS Securities at any time. Both the Issuer and the VPS Holder will, for the purposes of registration in VPS, have to appoint an account operator which will normally be a Norwegian bank or Norwegian investment firm. It is possible to register a holding of VPS Securities through a nominee.

Ownership of Beneficial Interests in any Rule 144A Global Note or Regulation S Global Note

Ownership of beneficial interests in any Rule 144A Global Note or Regulation S Global Note will be limited to persons that have accounts with DTC or its nominee, the ICSDs or NZClear ("Participants") or persons that may hold interests through Participants. Individual certificates will not be issued except in the limited circumstances set out in the global notes. Ownership of beneficial interests in the Global Notes will be shown on, and the transfer of that ownership will be effected only through, records maintained by DTC, the ICSDs and NZClear (with respect to interests of Participants) and other direct and indirect Participants (with respect to interests of persons other than Participants). Owners of beneficial interests in the Global Note (other than Participants) will not receive written confirmation from the clearing system of their purchases. Each beneficial owner is entitled to receive upon request written confirmation providing details of the transaction as well as periodic statements of its holdings from the relevant clearing system (if such beneficial owner is a Participant) or such other direct or indirect participant through which such beneficial owner entered into the transaction (if such beneficial owner is not a Participant). The laws of some States of the United States require that certain purchasers of securities take physical delivery of such securities in definitive form. Such limits and such laws may impair the ability to own, transfer or pledge beneficial interests in the Rule 144A Global Note.

Payments of Principal, Interest, Redemption Proceeds and Other Amounts

Any payment of principal, interest, redemption proceeds or other amount due will be made available by the Issuer to any Paying Agent and/or any Paying and Transfer Agent on or before that date on which the holder of a Registered Note could claim the relevant payment. On the respective payment date, the relevant Paying Agent and/or Paying and Transfer Agent will make such payments to the relevant clearing system, in accordance with arrangements between such Paying Agent and/or Paying and Transfer Agent and the relevant clearing system.

In respect of DTC Notes, payments in U.S. dollars of principal, interest, redemption proceeds and any other amount will be made to the order of DTC or its nominee as the registered holder of such Note. In the case of any payment in a currency other than U.S. dollars, payment will be made to the Exchange Agent on behalf of DTC or its nominee and the Exchange Agent will (in accordance with instructions received by it) remit all or a portion of such payment for credit directly to the beneficial holders of interests in the Registered Global Note in the currency in which such payment was made and/or cause all or a portion of such payment to be converted into U.S. dollars and credited to the applicable Participants' account.

The Issuer expects that each clearing system, upon receipt of any payment of funds and corresponding detail information from the Agent, will credit its Participants' accounts on the applicable payment date in accordance with their respective holding shown on the clearing system's records, and such payments will be the responsibility of such clearing systems. The Issuer expects that payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of such Participant and not of the clearing system, any Agent or the Issuer, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, interest, redemption proceeds and any other amount to the clearing system (or its nominee) is the responsibility of the Issuer or the Agent; disbursement of such payments to Direct Participants will be the responsibility of DTC; and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

Arrangements for Initial Settlement and Trading

Initial settlement for the Notes will be made in immediately available funds (*i.e.*, for value on the date of delivery of the Notes).

Trading between DTC Participants

Secondary market sales of book-entry interests in the Notes between DTC participants will occur in the ordinary way in accordance with DTC rules. Such sales will follow the settlement practices applicable to U.S. corporate debt obligations. The securities custody accounts of investors will be credited with their holdings on the settlement date against payment in same-day funds within DTC.

Trading between Euroclear and/or Clearstream, Luxembourg Accountholders

Secondary market sales of book-entry interests in the Notes held through one of the ICSDs to purchasers of book-entry interests in the Notes through one of the ICSDs will be conducted in accordance with the normal

rules and operating procedures of the ICSDs and will be settled using the procedures applicable to conventional eurobonds.

Trading between NZClear Participants

For a transaction to be settled, both parties must enter relevant details of the transaction and those transaction details must be “matched” by the system before further processing can continue. All payments, whether for the settlement of securities transactions or just cash transfers, are irrevocable once they are accepted by the NZClear. This is possible because transactions are not accepted by the NZClear unless the paying member has sufficient credit provided by their banker within the NZClear to allow the transaction to be completed.

Trading between VP Holders

Settlement of sale and purchase transactions in respect of VP Notes and the transfer of interests in VP Notes will take place in accordance with the procedures applicable to and/or issued by VP from time to time.

Trading between VPS Holders

Settlement of sale and purchase transactions in respect of VPS Notes and the transfer of interests in VPS Notes will take place in accordance with the procedures applicable to and/or issued by VPS.

Trading between Clearing Systems

Secondary market sales of book-entry interests in the Notes between participants or accountholders of a clearing system, on one hand, and participants or accountholders of another clearing system, on the other, will be conducted in accordance with the rules and procedures established for such sales by the relevant clearing systems, and will be settled using the procedures established for such sales by the relevant clearing system.

Secondary market clearance and settlement of VP Notes through Euroclear is possible through depositary links established between VP and Euroclear. Transfers of securities held in VP through Clearstream, Luxembourg and Clearstream, Frankfurt are only possible via an account holding institute linked to VP.

Transfers of Notes Represented by Registered Global Notes

Transfers of any interests in Notes represented by a Registered Global Note within each of the clearing systems will be effected in accordance with the customary rules and operating procedures of the relevant clearing system. The laws in some States within the United States require that certain persons take physical delivery of securities in definitive form. Consequently, the ability to transfer Notes represented by a Registered Global Note to such persons may depend upon the ability to exchange such Notes for Notes in definitive form. Similarly, because DTC can only act on behalf of Direct Participants in the DTC system who in turn act on behalf of Indirect Participants, the ability of a person having an interest in Notes represented by a Registered Global Note accepted by DTC to pledge such Notes to persons or entities that do not participate in the DTC system or otherwise to take action in respect of such Notes may depend upon the ability to exchange such Notes for Notes in definitive form. The ability of any holder of Notes represented by a Registered Global Note accepted by DTC to resell, pledge or otherwise transfer such Notes may be impaired if the proposed transferee of such Notes is not eligible to hold such Notes through a Direct Participant or an Indirect Participant in the DTC system.

Subject to compliance with the transfer restrictions applicable to the Registered Notes described under “Subscription and Sale”, cross-market transfers between DTC, on the one hand, and directly or indirectly through ICSD or NZClear accountholders, on the other, will be effected by the relevant clearing system in accordance with its rules and through action taken by the Registrars, the Fiscal Agent, the Principal Paying Agent and any custodian with whom the relevant Registered Global Notes have been deposited (the “Custodian”).

On or after the Issue Date for any Series, transfers of Notes of such Series between accountholders in Euroclear, Clearstream, Luxembourg and Clearstream, Frankfurt and transfers of Notes of such Series between participants in DTC will generally have a settlement date two business days after the trade date (T+2). The customary arrangements for delivery versus payment will apply to such transfers.

Cross-market transfers between accountholders in Clearstream, Luxembourg or Euroclear and DTC participants will need to have an agreed settlement date between the parties to such transfer. Because there is no direct link between DTC, on the one hand, and the ICSDs or NZClear, on the other, transfers of interests in the relevant Registered Global Notes will be effected through the Registrars, the Fiscal Agent, the Principal Paying Agent and the Custodian receiving instructions (and, where appropriate, certification) from the transferor and arranging for delivery of the interests being transferred to the credit of the designated account for the transferee. In the case of cross-market transfers, settlement between DTC Participants, ICSD accountholders and NZClear

acountholders cannot be made on a delivery versus payment basis. The securities will be delivered on a free delivery basis and arrangements for payment must be made separately.

Changes in Clearing and Settlement Procedures

Although the foregoing sets out the procedures of DTC, Euroclear, Clearstream, Luxembourg, Clearstream, Frankfurt, NZClear, VP and VPS in order to facilitate the transfers of interests in the Notes among their participants and accountholders, none of the above clearing systems is under any obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time. None of the Issuer, any Agent or Dealer or any affiliate of any of the above, or any person by whom any of the above is controlled for the purposes of the U.S. Securities Act, will have any responsibility for the performance by the relevant clearing system or their respective Direct or Indirect Participants or accountholders of their respective obligations under the rules and procedures governing their operations or for the sufficiency for any purpose of the arrangements described above and none of them will have any liability for any aspect of the records relating to or payment made on account of beneficial interests in the Notes or for maintaining, supervising or reviewing any records relating to such beneficial interests.

Additional or Alternative Clearing Systems

The Issuer, the relevant Dealer and the Fiscal Agent and/or the Principal Paying Agent may decide to issue a Series of Notes through an additional or alternative clearing system as specified in the applicable Final Terms. Information concerning such additional or alternative clearing system will be provided in the applicable Final Terms.

SUBSCRIPTION AND SALE

The Dealers have, in an amended and restated programme agreement dated 4th May, 2018 (such agreement as from time to time modified, supplemented and/or restated, the “Programme Agreement”), agreed with the Issuer a basis upon which they or any of them may from time to time agree to purchase Notes. Any such agreement will extend to those matters stated under “Form of the Notes” and “Terms and Conditions of the Notes” above. The Issuer may pay the Dealers commissions from time to time in connection with the sale of any Notes. In the Programme Agreement, the Issuer has agreed to reimburse the Dealers for certain of their expenses in connection with the establishment of the Programme and the issue of Notes under the Programme and to indemnify the Dealers against certain liabilities incurred by them in connection therewith.

General

Each Dealer has agreed and each further Dealer appointed under the Programme will be required to agree that it will (to the best of its knowledge and belief) comply with all applicable securities laws and regulations in force in any jurisdiction in which it purchases, offers, sells or delivers Notes or possesses or distributes this Simplified Base Prospectus and will obtain any consent, approval or permission required by it for the purchase, offer, sale or delivery by it of Notes under the laws and regulations in force in any jurisdiction to which it is subject or in which it makes such purchases, offers, sales or deliveries and neither the Issuer nor any of the other Dealers shall have any responsibility therefor.

Neither the Issuer nor any of the Dealers represents that Notes may at any time lawfully be sold in compliance with any applicable registration or other requirements in any jurisdiction, or pursuant to any exemption available thereunder, or assumes any responsibility for facilitating such sale.

With regard to each Tranche, the relevant Dealer will be required to comply with such other additional restrictions as the Issuer and the relevant Dealer shall agree and as shall be set out in the applicable Final Terms.

United States of America

The Notes have not been and will not be registered under the U.S. Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the U.S. Securities Act.

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it will not offer, sell or deliver Notes (i) as part of their distribution at any time or (ii) otherwise until 40 days after the completion of the distribution, as determined and certified by the relevant Dealer or, in the case of an issue of Notes on a syndicated basis, the relevant lead manager, of all Notes of the Tranche of which such Notes are a part, within the United States or to, or for the account or benefit of, U.S. persons. Each Dealer has further agreed, and each further Dealer appointed under the Programme will be required to agree, that it will send to each dealer to which it sells Notes during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S under the U.S. Securities Act.

Until 40 days after the commencement of the offering of any Tranche of Notes, an offer or sale of such Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the U.S. Securities Act if such offer or sale is made otherwise than in accordance with an available exemption from registration under the U.S. Securities Act.

Notwithstanding the foregoing, each Dealer may arrange for the offer and sale of Notes in the United States pursuant to Rule 144A under the U.S. Securities Act. Each purchaser of Notes is hereby notified that the offer and sale of such Notes may be made in reliance upon the exemption from the registration requirements of the U.S. Securities Act provided by Rule 144A. See “Notice to Purchasers and Holders of Rule 144A Notes and Transfer Restrictions”.

In addition, with respect to Bearer Notes, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that (a) except to the extent permitted under U.S. Treasury Regulation §1.163-5(c)(2)(i)(D) or any successor rules in substantially the same form that are applicable for purposes of Section 4701 of the U.S. Internal Revenue Code (the “TEFRA D Rules”) it has not offered or sold, and during the restricted period will not offer or sell, Notes in bearer form to a person who is within the United States or its possessions or to a United States person; (b) it has and throughout the restricted period will have in effect procedures reasonably designed to ensure that its employees or agents who are directly engaged in selling Notes in bearer form are aware that such Notes may not be offered or sold during the restricted period to a person who is within the United States or its possessions or to a United States person, except as permitted by the TEFRA D Rules; (c) if it is a United States person, it is acquiring the Notes in bearer

form for purposes of resale in connection with their original issuance and if it retains Notes in bearer form for its own account, it will only do so in accordance with the requirements of U.S. Treasury Regulation §1.163-5(c)(2)(i)(D)(6) or any successor rules in substantially the same form that are applicable for purposes of Section 4701 of the U.S. Internal Revenue Code; and (d) with respect to each affiliate (if any) that acquires from such Dealer Notes in bearer form for the purpose of offering or selling such Notes during the restricted period, such Dealer either (i) repeats and confirms the representations contained in sub-clauses (a), (b) and (c) on behalf of such affiliate or (ii) agrees that it will obtain from such affiliate for the benefit of the Issuer the representations contained in sub-clauses (a), (b) and (c). Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code and regulations thereunder, including the TEFRA D Rules.

Alternatively, under U.S. Treasury Regulation §1.163-5(c)(2)(i)(C) or any successor rules in substantially the same form that are applicable for purposes of Section 4701 of the U.S. Internal Revenue Code (the “TEFRA C Rules”), Bearer Notes must be issued and delivered outside the United States and its possessions in connection with their original issuance. In relation to each such issue, each relevant Dealer will be required to represent and agree that it has not offered, sold or delivered, and shall not offer, sell or deliver, directly or indirectly, Notes in bearer form within the United States or its possessions in connection with their original issuance. Further, in connection with the original issuance of Notes in bearer form, it has not communicated, and shall not communicate, directly or indirectly, with a prospective purchaser if either such purchaser or it is within the United States or its possessions or otherwise involve its U.S. office in the offer or sale of Notes in bearer form. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code and regulations thereunder, including the TEFRA C Rules.

Each Note in bearer form and any Receipt, Coupon and Talon relating thereto will bear a legend to the following effect: THIS NOTE HAS NOT BEEN REGISTERED UNDER THE UNITED STATES SECURITIES ACT OF 1933 (THE “SECURITIES ACT”) OR ANY OTHER APPLICABLE U.S. STATE SECURITIES LAWS AND MAY NOT BE OFFERED, SOLD OR DELIVERED WITHIN THE UNITED STATES (EACH AS DEFINED IN REGULATIONS OF THE SECURITIES ACT) OR TO, OR FOR THE ACCOUNT OR BENEFIT OF, U.S. PERSONS (AS DEFINED IN REGULATIONS OF THE SECURITIES ACT), EXCEPT IN COMPLIANCE WITH AN EXEMPTION FROM REGISTRATION UNDER THE SECURITIES ACT AND APPLICABLE STATE SECURITIES LAWS.

ANY UNITED STATES PERSON WHO HOLDS THIS OBLIGATION WILL BE SUBJECT TO LIMITATIONS UNDER THE UNITED STATES INCOME TAX LAWS, INCLUDING THE LIMITATIONS PROVIDED IN SECTIONS 165(J) AND 1287(A) OF THE INTERNAL REVENUE CODE.

Each issuance of Index Linked Notes, Dual Currency Notes and Alternative Settlement Notes shall be subject to such additional U.S. selling restrictions as the Issuer and the relevant Dealer may agree as a term of the issuance and purchase of such Notes, which additional selling restrictions shall be set out in the applicable Final Terms. Each Dealer has agreed that it will offer, sell and deliver such Notes only in compliance with such additional U.S. selling restrictions.

- (iv) such action does not require any document to be lodged with ASIC.

New Zealand

The Programme is a wholesale programme in New Zealand. In New Zealand, no action has been taken to permit the Notes to be directly or indirectly offered or sold to any retail investor, or otherwise under any regulated offer, in terms of the Financial Markets Conduct Act 2013 ("New Zealand FMCA"). In particular, no product disclosure statement has been or will be prepared or lodged in New Zealand in relation to the Notes under the New Zealand FMCA.

- (d) in relation to an offer for issue or sale of Kauri Notes:

- (i) a person that is required to pay a minimum amount of at least NZ\$750,000 for the Kauri Notes (disregarding any amount lent by the offeror or any associated person of the offeror); or
- (ii) a person in relation to which the amount it is required to pay for the Kauri Notes plus the amounts previously paid by the person for financial products issued by the Issuer that are of the “same class” (as defined in the New Zealand FMCA) as the Kauri Notes add up to at least NZ\$750,000 (disregarding any amount lent by the offeror or any associated person of the offeror);

in each case as defined in Schedule 1 to the New Zealand FMCA, and provided (for the avoidance of doubt) that Notes may not be directly or indirectly offered or sold to any “eligible investor” (as defined in clause 41 of Schedule 1 to the New Zealand FMCA) or to any person who, under clause 3(2)(b) of Schedule 1 to the New Zealand FMCA meets the investment activity criteria specified in clause 38 of that Schedule.

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will represent and agree, that it will not distribute, publish, deliver or disseminate any Simplified Base Prospectus, any applicable Final Terms or any other material that may constitute an advertisement (as defined in the New Zealand FMCA) in relation to any offer of the Notes in New Zealand other than to any such persons as referred to in paragraphs (a), (b), (c) and (d) above.

NOTICE TO PURCHASERS AND HOLDERS OF RULE 144A NOTES AND TRANSFER RESTRICTIONS

The Notes have not been and will not be registered under the U.S. Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the U.S. Securities Act. Notes issued under the Programme may, in certain cases, be offered and sold in the United States to QIBs in reliance on Rule 144A under the U.S. Securities Act. The applicable Final Terms relating to such an issue (a “Rule 144A Issue”) will state that the issue (or a portion thereof) is a Rule 144A Issue.

In relation to Rule 144A Issues the following provisions will apply. Where these provisions are inconsistent with provisions contained elsewhere in this Simplified Base Prospectus, these provisions will prevail. The applicable Final Terms may set forth provisions which differ in certain respects from those set forth below. Because of the following provisions, purchasers of Notes offered in the United States in reliance on Rule 144A are advised to consult legal counsel prior to making any offer, resale, pledge or transfer of such Notes.

Initial Issue of the Notes

The Notes in registered form offered and sold pursuant to Rule 144A will initially be represented by a Rule 144A Global Note registered in the name of a nominee for DTC and the Notes in registered form offered and sold pursuant to Regulation S will initially be represented by a Regulation S Global Note. The Rule 144A Global Note will be deposited with a custodian for DTC as note depository. Any Regulation S Global Note will be deposited with a custodian for Euroclear and/or Clearstream, Luxembourg as note depository. Beneficial interests in any global note will be represented through accounts of financial institutions acting on behalf of beneficial owners as direct and indirect participants in DTC and/or Euroclear and/or Clearstream, Luxembourg. If an issuance of Notes includes a Rule 144A Issue, all such Notes will be required to be in registered form, represented initially by a Rule 144A Global Note (or, if applicable, by a Regulation S Global Note).

Upon the issuance of a global note, the Issuer expects that each of DTC or its nominee and/or Euroclear and/or Clearstream, Luxembourg will credit on its book-entry registration and transfer system the respective principal amounts of the Notes represented by the global note to the accounts of persons that have accounts with them. The accounts to be credited shall be designated by the relevant dealer(s).

Transfer Restrictions

Each prospective purchaser of Registered Notes offered in the United States in reliance on Rule 144A, by accepting delivery of this Simplified Base Prospectus, will be deemed to have represented, agreed and acknowledged with respect to such Notes that:

- (A) It acknowledges that this Simplified Base Prospectus is personal to such offeree and does not constitute an offer to any other person or to the public generally to subscribe for or otherwise acquire Notes other than pursuant to Rule 144A or in offshore transactions in accordance with Regulation S. Distribution of this Simplified Base Prospectus, or disclosure of any of its contents, to any person other than such offeree and those persons, if any, retained to advise such offeree with respect thereto, and other persons meeting the requirements of Rule 144A or Regulation S is unauthorised, and any disclosure of its contents, without the prior written consent of the Issuer, is prohibited; and
- (B) It agrees to make no photocopies of this Simplified Base Prospectus or any documents referred to herein.

Each purchaser of an interest in Registered Notes will be deemed to have represented and agreed that (terms used in this paragraph that are defined in Rule 144A or in Regulation S are used herein as defined therein):

- (A) It is (a) a QIB within the meaning of Rule 144A, (b) acquiring such Notes for its own account or for the account of a QIB and (c) aware, and each beneficial owner of such Notes has been advised, that the sale of such Notes to it is being made in reliance on Rule 144A.
- (B) It understands that such Notes are being offered only in a transaction not involving any public offering in the United States within the meaning of the U.S. Securities Act, that such Notes have not been and will not be registered under the U.S. Securities Act or any other applicable securities law and may not be offered, sold, pledged or otherwise transferred except (a) in accordance with Rule 144A to a person that it and any person acting on its behalf reasonably believes is a QIB purchasing for its own account or for the account of a QIB, (b) in an offshore transaction in accordance with Rule 903 or Rule 904 of Regulation S or (c) pursuant to any other available exemption from

registration under the U.S. Securities Act, in each case in accordance with any applicable securities laws of any state or other jurisdiction of the United States. It also understands that the purchaser will, and each subsequent holder is required to, notify any subsequent purchaser of the Notes from it of the resale restrictions referred to in this section (B).

- (C) It understands that such Notes (and Rule 144A Global Notes evidencing the Notes and each certificate issued in exchange for a beneficial interest in a Rule 144A Global Note), unless otherwise determined by the Issuer in accordance with applicable law, will bear a legend to the following effect:

THE NOTES REPRESENTED BY THIS GLOBAL NOTE HAVE NOT BEEN REGISTERED UNDER THE U.S. SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), OR ANY OTHER APPLICABLE U.S. STATE SECURITIES LAWS AND, ACCORDINGLY, MAY NOT BE OFFERED OR SOLD WITHIN THE UNITED STATES OR TO, OR FOR THE ACCOUNT OR BENEFIT OF, U.S. PERSONS EXCEPT AS SET FORTH IN THE FOLLOWING SENTENCE. BY ITS ACQUISITION OF THE NOTES REPRESENTED BY THIS GLOBAL NOTE OR OF ANY BENEFICIAL INTEREST OR PARTICIPATION THEREIN, THE HOLDER ON ITS OWN BEHALF AND ON BEHALF OF ANY ACCOUNT FOR WHICH IT IS PURCHASING SUCH NOTES OR ANY BENEFICIAL INTEREST OR PARTICIPATION THEREIN (A) REPRESENTS THAT IT IS A QUALIFIED INSTITUTIONAL BUYER AS DEFINED IN RULE 144A UNDER THE SECURITIES ACT (A "QUALIFIED INSTITUTIONAL BUYER") PURCHASING THE NOTES REPRESENTED BY THIS GLOBAL NOTE FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF ONE OR MORE QUALIFIED INSTITUTIONAL BUYERS; (B) AGREES THAT IT WILL NOT RESELL OR OTHERWISE TRANSFER THE NOTES REPRESENTED HEREBY EXCEPT IN ACCORDANCE WITH THE AGENCY AGREEMENT AND, PRIOR TO THE DATE WHICH IS ONE YEAR AFTER THE LATER OF THE ISSUE DATE OF THE MOST RECENTLY ISSUED TRANCHE OF THIS SERIES AND THE LAST DATE ON WHICH THE ISSUER OR AN AFFILIATE OF THE ISSUER WAS THE OWNER OF SUCH NOTES OTHER THAN (1) TO THE ISSUER OR ANY AFFILIATE THEREOF, (2) INSIDE THE UNITED STATES TO A PERSON WHOM THE SELLER REASONABLY BELIEVES IS A QUALIFIED INSTITUTIONAL BUYER PURCHASING FOR ITS OWN ACCOUNT OR FOR THE ACCOUNT OF ONE OR MORE QUALIFIED INSTITUTIONAL BUYERS IN A TRANSACTION MEETING THE REQUIREMENTS OF RULE 144A, (3) OUTSIDE THE UNITED STATES IN COMPLIANCE WITH RULE 903 OR RULE 904 UNDER THE SECURITIES ACT, (4) PURSUANT TO THE EXEMPTION FROM REGISTRATION PROVIDED BY RULE 144 UNDER THE SECURITIES ACT (IF AVAILABLE) OR (5) PURSUANT TO AN EFFECTIVE REGISTRATION STATEMENT UNDER THE SECURITIES ACT, IN EACH CASE IN ACCORDANCE WITH ALL APPLICABLE SECURITIES LAWS OF THE STATES OF THE UNITED STATES AND ANY OTHER JURISDICTION; AND (C) AGREES THAT IT WILL DELIVER TO EACH PERSON TO WHOM THE NOTES REPRESENTED BY THIS GLOBAL NOTE ARE TRANSFERRED A NOTICE SUBSTANTIALLY TO THE EFFECT OF THIS LEGEND.

THE NOTES REPRESENTED BY THIS GLOBAL NOTE AND RELATED DOCUMENTATION (INCLUDING, WITHOUT LIMITATION, THE AGENCY AGREEMENT REFERRED TO HEREIN) MAY BE AMENDED OR SUPPLEMENTED FROM TIME TO TIME, WITHOUT THE CONSENT OF, BUT UPON NOTICE TO, THE REGISTERED HOLDERS OF SUCH NOTES SENT TO THEIR REGISTERED ADDRESSES, TO MODIFY THE RESTRICTIONS ON AND PROCEDURES FOR REALES AND OTHER TRANSFERS OF SUCH NOTES TO REFLECT ANY CHANGE IN APPLICABLE LAW OR REGULATION (OR THE INTERPRETATION THEREOF) OR IN PRACTICES RELATING TO REALES OR OTHER TRANSFERS OF RESTRICTED SECURITIES GENERALLY. THE HOLDER OF THE NOTES REPRESENTED BY THIS GLOBAL NOTE OR OF ANY BENEFICIAL INTEREST OR PARTICIPATION THEREIN SHALL BE DEEMED, BY ITS ACCEPTANCE OR PURCHASE THEREOF, TO HAVE AGREED TO ANY SUCH AMENDMENT OR SUPPLEMENT (EACH OF WHICH SHALL BE CONCLUSIVE AND BINDING ON SUCH HOLDER AND ALL FUTURE HOLDERS OF THE NOTES REPRESENTED HEREBY AND ANY SECURITIES ISSUED IN EXCHANGE OR SUBSTITUTION THEREFOR, WHETHER OR NOT ANY NOTATION THEREOF IS MADE HEREON).

THIS NOTE IS A GLOBAL NOTE WITHIN THE MEANING OF THE AGENCY AGREEMENT REFERRED TO HEREINAFTER. THIS GLOBAL NOTE MAY NOT BE

EXCHANGED, IN WHOLE OR IN PART, FOR A NOTE REGISTERED IN THE NAME OF ANY PERSON OTHER THAN THE DEPOSITORY TRUST COMPANY (“DTC”) OR A NOMINEE THEREOF EXCEPT IN THE LIMITED CIRCUMSTANCES SET FORTH IN THIS GLOBAL NOTE, AND MAY NOT BE TRANSFERRED, IN WHOLE OR IN PART, EXCEPT IN ACCORDANCE WITH THE RESTRICTIONS SET FORTH IN THIS LEGEND. BENEFICIAL INTERESTS IN THIS GLOBAL NOTE MAY NOT BE TRANSFERRED EXCEPT IN ACCORDANCE WITH THIS LEGEND.

UNLESS THIS GLOBAL NOTE IS PRESENTED BY AN AUTHORISED REPRESENTATIVE OF DTC, A NEW YORK CORPORATION TO THE ISSUER OR ITS AGENT FOR REGISTRATION OF TRANSFER, EXCHANGE OR PAYMENT, AND ANY REGISTERED NOTE ISSUED IS REGISTERED IN THE NAME OF CEDE & CO. OR IN SUCH OTHER NAME AS IS REQUIRED BY AN AUTHORISED REPRESENTATIVE OF DTC (AND ANY PAYMENT IS MADE TO CEDE & CO. OR TO SUCH OTHER ENTITY AS IS REQUIRED BY AN AUTHORISED REPRESENTATIVE OF DTC), ANY TRANSFER, PLEDGE OR OTHER USE HEREOF FOR VALUE OR OTHERWISE, BY OR TO ANY PERSON IS WRONGFUL INASMUCH AS THE REGISTERED OWNER HEREOF, CEDE & CO., HAS AN INTEREST HEREIN.

- (D) It is aware that the Issuer, the Fiscal Agent, the Principal Paying Agent, the Registrars, the other paying agents and/or the other paying and transfer agents, the Exchange Agent and the Dealers and their affiliates and others will rely upon the truth and accuracy of the foregoing acknowledgments, representations and agreements. If it is acquiring any Notes for the account of one or more QIBs, it represents that has sole investment discretion with respect to each such account and that it has full power to make the foregoing acknowledgements, representations and agreements on behalf of each such account.
- (E) It understands that the Notes offered in reliance on Rule 144A will be initially represented by one or more Rule 144A Global Notes. Before any interest in a Rule 144A Global Note may be offered, sold, pledged or otherwise transferred to a person who takes delivery in the form of an interest in a Regulation S Global Note, it will be required to provide the U.S. Registrar with a written certification (in the form provided in the Agency Agreements) as to compliance with the transfer restrictions referred to above.

The Notes are being offered and sold outside the United States in reliance on Regulation S under the Securities Act and within the United States to QIBs in reliance on Rule 144A. Prospective purchasers are hereby notified that sellers of the Notes may be relying on the exemption from the provisions of Section 5 of the U.S. Securities Act provided by Rule 144A.

The Notes have not been approved or disapproved by the U.S. Securities and Exchange Commission, any state securities commission in the United States or any other U.S. regulatory authority, nor has any of the foregoing authorities passed upon or endorsed the merits of the offering of Notes or the accuracy of the adequacy of this Simplified Base Prospectus. Any representation to the contrary is a criminal offence in the United States.

Provision of information under Rule 144A(d)(4)

The Issuer has agreed that, for so long as any Notes issued by it are “restricted securities” within the meaning of Rule 144(a)(3) under the U.S. Securities Act, it will, during any period in which it is neither subject to Section 13 or 15(d) of the Exchange Act, nor exempt from reporting pursuant to Rule 12g3-2(b) thereunder, nor treated by the U.S. Securities and Exchange Commission as a foreign government as defined in Rule 405 under the U.S. Securities Act eligible to register securities under Schedule B of the U.S. Securities Act, provide to any holder or beneficial owner of such restricted securities or to any prospective purchaser of such restricted securities designated by such holder or beneficial owner upon the request of such holder, beneficial owner or prospective purchaser, the information required to be provided by Rule 144A(d)(4) under the U.S. Securities Act.

GENERAL INFORMATION

Authorisation

The update of the Programme and the issue of Notes under the Programme have been duly authorised by resolutions of the Board of Managing Directors of the Issuer dated 11th April, 2018. All consents, approvals, authorisations or other orders of all regulatory authorities required by the Issuer under the laws of the Federal Republic of Germany, the Grand Duchy of Luxembourg and the United Kingdom have been given for the issue of Notes and for the Issuer to undertake and perform its obligations under the Programme Agreement, the Agency Agreements and the Notes.

Ratings

The Programme and the Issuer have received the following ratings:

	<u>Short-Term Issues/Short-Term Rating</u>	<u>Long-Term Issues/Long-Term Rating</u>
Moody's Investors Services	(P)P-1/P-1	(P)Aaa/Aaa
Standard & Poor's	A-1+	AAA
Fitch Ratings	F1+	AAA

Short-term issues are obligations with an original maturity of less than 365 days. Long-term issues are obligations with an original maturity of one year or more.

According to Moody's Deutschland GmbH ("Moody's"), issuers (or supporting institutions) rated "Prime-1" or "P-1" have a superior ability to repay short-term debt obligations. According to Moody's Investors Services, a long-term issue rated "Aaa" is judged to be of the highest quality, subject to the lowest level of credit risk. According to Moody's, Moody's will assign a provisional rating (denoted by (P) in front of the rating) when the assignment of a final rating is subject to the fulfilment of contingencies but it is highly likely that the rating will become definitive after an obligation is issued into the market. Such ratings are typically assigned to debt issuance programmes or transaction-based structures that require investor education.

According to Standard & Poor's Credit Market Services Europe Limited ("S&P"), a short-term obligation rated "A-1" is rated in the highest category by S&P, and the obligor's capacity to meet its financial commitment on the obligation is strong. Within this category, certain obligations are designated with a plus sign (+). This indicates that the obligor's capacity to meet its financial commitment on these obligations is extremely strong. According to S&P, a long-term obligation rated "AAA" has the highest rating assigned by S&P, and the obligor's capacity to meet its financial commitment on the obligation is extremely strong.

According to Fitch Ratings Limited ("Fitch"), "F1" indicates the strongest intrinsic capacity for timely payment of financial commitments. The rating may have an added "+" to denote any exceptionally strong credit feature. According to Fitch, "AAA" ratings denote the lowest expectation of default risk. They are assigned only in cases of exceptionally strong capacity for payment of financial commitments. This capacity is highly unlikely to be adversely affected by foreseeable events.

The foregoing meanings of applicable ratings by Moody's, S&P and Fitch have been accurately reproduced and, as far as the Issuer is aware and is able to ascertain from information published by Moody's, S&P and Fitch, respectively, no facts have been omitted which would render the reproduced information inaccurate or misleading.

The foregoing are ratings in respect of the Programme in general. The ratings of the Programme address the ability of the Issuer to make payments due in respect of Notes in the event that an Event of Default occurs. They do not address the probability of an Event of Default actually occurring. The ratings of the Programme may be lowered or withdrawn entirely at any time by the relevant rating agency.

The credit ratings included herein will be treated for the purposes of Regulation (EC) No 1060/2009 on credit rating agencies, as amended by Regulation (EU) No 513/2011 (the "CRA Regulation") as having been issued by S&P, Moody's and Fitch, upon registration pursuant to the CRA Regulation. Each of S&P, Moody's and Fitch is established in the European Union and is registered under the CRA Regulation. A list of credit rating agencies registered in accordance with the CRA Regulation is published by the European Securities and Markets Authority on its website (www.esma.europa.eu), which is updated within five working days following the adoption of a decision under Articles 16, 17 or 20 of the CRA Regulation.

Tranches of Notes may be rated or unrated. Where a Tranche of Notes is rated, the applicable rating(s) will be specified in the relevant Final Terms. Where a Tranche of Notes is rated, such rating will not necessarily be the same as the Programme's or Issuer's rating. Whether or not each credit rating applied for in relation to a

relevant Tranche of Notes will be issued by a credit rating agency established in the European Union and registered under the CRA Regulation will be disclosed in the Final Terms.

A credit rating is not a recommendation to buy, sell or hold Notes and may be subject to revision, suspension or withdrawal at any time by the relevant rating agency.

The Legal Entity Identifier (LEI) code of the Issuer is 529900Z3J0N6S0F7CT25.

Listing and Admission to Trading

Application has been made to the Luxembourg Stock Exchange for the Notes to be issued under the Programme during the period of 12 months from the date of approval of this Simplified Base Prospectus to be listed on its official list and admitted to trading on its regulated market. The regulated market of the Luxembourg Stock Exchange constitutes a regulated market for the purposes of MiFID. Such Notes may, at the election of the Issuer and the relevant Dealer, be admitted to trading on an alternative market at the Luxembourg Stock Exchange, which is not a regulated market for the purposes of MiFID, MiFID II and MiFIR, if and when such a market is in existence.

References in this Simplified Base Prospectus to Notes being listed (and all related references) shall mean that such Notes have been listed on the official list and admitted to trading on the Luxembourg Stock Exchange's regulated market or other market operated by the Luxembourg Stock Exchange. The Programme provides that Notes may be listed on such other or further stock exchange(s) (such as the regulated market of the London Stock Exchange or the Frankfurt Stock Exchange) as may be agreed between the Issuer and the relevant Dealer(s). The Issuer may also issue unlisted Notes. The applicable Final Terms will state whether or not the relevant Notes are to be listed and, if so, on which stock exchange(s).

- (vi) any future base prospectuses, offering circulars, supplementary listing particulars, information memoranda and supplements including the Final Terms to this Simplified Base Prospectus and any other documents incorporated herein or therein by reference.

No Delivery of Bearer Notes Inside the United States

No Bearer Notes can be delivered to any address in the United States or its possessions. Paying agents and/or paying and transfer agents for the Bearer Notes will have their specified office outside of the United States and no payment in respect of the Bearer Notes can be made either by mail to an address in the United States or its possessions or by transfer to an account maintained in the United States. The Bearer Notes can only be delivered to a custodian or depository outside the United States for Euroclear and Clearstream, Luxembourg (or any other clearing system outside the United States agreed by the Issuer).

Clearing Systems

The Bearer Notes have been accepted for clearance through Euroclear and Clearstream, Luxembourg (which are the entities in charge of keeping records). The appropriate common code and ISIN for each Tranche allocated by Euroclear and Clearstream, Luxembourg will be specified in the relevant Final Terms. In addition, application will be made for any Rule 144A Global Notes and Regulation S Global Notes to be accepted for trading in book-entry form by DTC. Acceptance of each Series of Registered Notes will be confirmed in the

relevant Final Terms related thereto. The CUSIP and/or ISIN numbers for each Series of Registered Notes will be contained in the Final Terms relating thereto. Transactions will normally be effected for settlement not earlier than two days after the date of the transaction. If the Notes are to clear through an additional or alternative clearing system (including Clearstream, Frankfurt, NZClear, VP and VPS), the appropriate information will be specified in the relevant Final Terms.

The address of Euroclear is 1 Boulevard du Roi Albert II, B.1210 Brussels, Belgium and the address of Clearstream, Luxembourg is 42 Avenue J. F. Kennedy, L-1855 Luxembourg; the address of the DTC is 55 Water Street, 22nd Floor, New York, NY 10041-0099, United States of America; the address of NZClear is Reserve Bank of New Zealand, 2 The Terrace, PO Box 2498, Wellington 6140, New Zealand; the address of VP is Weidekampsgade 14, DK-2300 Copenhagen S, Denmark; and the address of VPS is Fred Olsens gate 1, N-0152 Oslo, Norway.

Conditions for Determining Price

Notes may be issued on a fully-paid or a partly-paid basis and at an issue price which is at par or at a discount to, or premium over, par. The price and amount of Notes to be issued under the Programme will be determined by the Issuer and the relevant Dealer at the time of issue in accordance with prevailing market conditions.

Yield

The yield for any particular Tranche of Notes will be specified in the applicable Final Terms and will be calculated on the basis of the compound annual rate of return if the relevant Notes were to be purchased at the Issue Price on the Issue Date and held to maturity. Set out below is an example formula for the purposes of calculating the yield on an annual basis of Zero Coupon Notes or Fixed Rate Notes with one coupon payment per year and no short or long interest period. The applicable Final Terms in respect of any Floating Rate Notes will not include any indication of yield.

$$\text{Issue Price} = \text{Rate of Interest} * \frac{1 - \left(\frac{1}{(1 + \text{Yield})^n}\right)}{\text{Yield}} + \left[\text{Final Redemption amount} * \frac{1}{(1 + \text{Yield})^n} \right]$$

where:

“Rate of Interest” means the Rate of Interest expressed as a percentage as specified in the applicable Final Terms (and in the case of Zero Coupon Notes, means “0”);

“Yield” means the yield to maturity calculated on a frequency commensurate with the frequency of interest payments as specified in the applicable Final Terms (and in the case of Zero Coupon Notes, means the Accrual Yield as specified in the applicable Final Terms); and

“n” means the number of years to maturity.

Set out below is a worked example illustrating how the yield in respect of any Tranche of Fixed Rate Notes could be calculated on the basis of the above formula. It is provided for purposes of illustration only and should not be taken as an indication or prediction of the yield in respect of any Tranche of Notes; it is intended merely to illustrate the way which the above formula could be applied.

where:

n = 6

Rate of Interest = 3.875

Issue Price = 99.392

Final Redemption Amount = 100

$$99.392 = 3.875 * \frac{1 - \left(\frac{1}{(1 + \text{Yield})^6}\right)}{\text{Yield}} + \left[100 * \frac{1}{(1 + \text{Yield})^6} \right]$$

Yield = 3.99% (calculated by iteration)

The yield specified in the applicable Final Terms in respect of a Tranche of Notes will not be an indication of future yield.

No Significant or Material Adverse Change in the Issuer's Financial Position or Prospects

There has been no significant change in the financial position of the Issuer and its consolidated subsidiary and no material adverse change in the prospects of the Issuer and its consolidated subsidiary since 31st December, 2017 being the date of the last published audited accounts.

Litigation

The Issuer and its consolidated subsidiary are not and have not been engaged in any governmental, legal, arbitration, administrative or other proceedings, the results of which may have or have had in the 12 months preceding the date of this document a significant effect on the financial position or profitability of the Issuer and its consolidated subsidiary, nor is the Issuer aware of any such proceedings being threatened or pending.

Auditors

KPMG AG Wirtschaftsprüfungsgesellschaft are certified public accountants and have audited the Issuer's accounts, without qualification, in accordance with generally accepted auditing standards in the Federal Republic of Germany for the financial periods ending 31st December, 2017 and 31st December, 2016. KPMG AG Wirtschaftsprüfungsgesellschaft is a member of the German Chamber of Public Accountants (*Wirtschaftsprüferkammer*), Berlin.

Dealers Transacting with the Issuer

Some of the Dealers and their affiliates have engaged, and may in the future engage, in investment banking and other commercial dealings in the ordinary course of business with the Issuer or its affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions. Certain of the Dealers and their affiliates may have positions, deal or make markets in the Notes issued under the Programme, related derivatives and reference obligations, including (but not limited to) entering into hedging strategies on behalf of the Issuer and its affiliates, investor clients, or as principal in order to manage their exposure, their general market risk, or other trading activities.

In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer or its affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in the Issuer's securities, including potentially the Notes. Any such positions could adversely affect future trading prices of the Notes. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.
