## ANNEX TO THE FINAL TERMS

## SUMMARY OF THE NOTES

Summaries are made up of disclosure requirements known as "Elements". These elements are numbered in Sections A – E (A.1 – E.7).

This summary contains all the Elements required to be included in a summary for this type of securities and Issuer. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements.

Even though an Element may be required to be inserted in the summary because of the type of securities and Issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element is included in the summary with the mention of "Not Applicable".

Words and expressions defined in the "Terms and Conditions of the Notes" below or elsewhere in the Base Prospectus have the same meanings in this summary. The term ABN AMRO is used below as a reference to the Issuer and its consolidated subsidiaries and other group companies (including ABN AMRO Group N.V.).

Where a claim relating to the information contained in the Base Prospectus is brought before a court in a Member State of the European Economic Area, the plaintiff may, under the national legislation of the Member States, be required to bear the costs of translating the Base Prospectus before the legal proceedings are initiated.</i>

In the meantime, ABN AMRO has started IPO preparations. A decision on the timing of the IPO has not yet been taken as of the date of the Base Prospectus and NLFI remains the sole shareholder of ABN AMRO until the IPO. On 22 May 2015 the Minister stated that he expects the IPO to be launched at the earliest in the fourth quarter of 2015. On 1 July 2015 Dutch Parliament approved the Dutch Government's decision to return ABN AMRO to the private market.</p>

	<b>Section D - Risks</b>	
<b>D.2</b>	<b>Risks Specific to the Issuer:</b>	When purchasing Notes, investors assume the risk that the Issuer may become insolvent or otherwise be unable to make all payments due in respect of the Notes. There is a wide range of factors which individually or together could result in the Issuer becoming unable to make all payments due in respect of the Notes. It is not possible to identify all such factors or to determine which factors are most likely to

		<p>occur, as the Issuer may not be aware of all relevant factors and certain factors which it currently deems not to be material may become material. The Issuer has identified a number of factors which could materially adversely affect its business and ability to make payments due under the Notes. These factors include:</p> <ul style="list-style-type: none"> <li>• Conditions in the global financial markets and economy may materially adversely affect the Issuer's business financial position, results of operations and prospects.</li> <li>• Volatility in, and the position of, financial markets, liquidity disruptions or market dislocations can adversely affect the Issuer's banking and funding activities.</li> <li>• Changes in interest rates and foreign exchange rates may adversely affect the Issuer's business, financial position, results of operations and cash flows.</li> <li>• Lack of liquidity is a risk to the Issuer's business and its ability to access sources of liquidity.</li> <li>• Reductions or potential reductions in the Issuer's credit ratings could have a significant impact on its borrowing ability and liquidity management through reduced funding capacity and collateral triggers, and on the access to capital and money markets as well as adversely affect the Issuer's business and results of operations.</li> <li>• The regulatory environment to which the Issuer is subject gives rise to significant legal and financial compliance costs and management time, and non-compliance could result in monetary and reputational damages, all of which could have an adverse effect on the Issuer's business, financial position and results of operations.</li> <li>• The financial services industry is subject to intensive regulation. Major changes in laws and regulations as well as enforcement action could adversely affect the Issuer's business, financial position, results of operations and prospects.</li> <li>• As a result of capital and/or liquidity requirements, the Issuer may not be able to manage its capital and liquidity effectively, which may adversely affect its business performance.</li> <li>• Proposals for resolution regimes may lead to fewer assets of the Issuer being available to investors for recourse for their claims, and may lead to lower credit ratings and possibly higher cost of funding.</li> <li>• The Issuer is subject to stress tests and other regulatory enquiries, the outcome which could negatively impact the Issuer's reputation, financing costs and trigger enforcement action by supervisory authorities. Stress tests could also bring to the surface information which may result in additional</li> </ul>

These include a range of market risks (including that there may be not be an active trading market in the Notes, that the value of an investor's investment may be adversely affected by exchange rate movements or exchange controls where the Notes are not denominated in the investor's own currency, that any credit rating assigned to the Notes may not adequately reflect all the risks associated with an investment in such Notes and ratings assigned to the Notes may be lowered, suspended or withdrawn and that changes in interest rates will affect the value of the Notes which bear interest at a fixed rate), the fact that the conditions of the Notes may be modified without the consent of the holder in certain circumstances, that the holder may not receive payment of the full amounts due in respect of the Notes as a result of amounts being withheld by the Issuer in order to comply with applicable law and that investors are exposed to the risk of changes in law or regulation affecting the value of their Notes. Other factors include:</p> <ul style="list-style-type: none"> <li>• The Notes may be subject to optional redemption by the Issuer.</li> <li>• No limitation to issue senior or <i>pari passu</i> ranking Notes.</li> <li>• Each Noteholder must act independently as Noteholders do not have the benefit of a trustee.</li> <li>• The Notes may be subject to modification, waivers and substitution.</li> <li>• The EU Savings Directive may require the collection of withholding tax.</li> <li>• Tax consequences of holding the Notes may be</li> </ul>
