GENERAL INFORMATION

Consent to the Use of the Prospectus

With respect to Article 3 (2) of the Prospectus Directive, the relevant Issuer may consent, to the extent and under the conditions, if any, indicated in the relevant Final Terms, to the use of the Prospectus for a certain period of time or as long as the Prospectus is valid in accordance with Article 11 (2) of the Luxembourg act relating to prospectuses for securities (*Loi relative aux prospectus pour valeurs mobilières*) which implements the Prospectus Directive and accepts responsibility for the content of the Prospectus also with respect to subsequent resale or final placement of Notes by any financial intermediary which was given consent to use the prospectus, if any. For further information, please refer below to the Part D (“General Description of the Programme”) of this Prospectus and the relevant Final Terms.

Requirements

This Prospectus contains as of the date hereof all such information as investors and their professional advisers would reasonably require, and reasonably expect to find, for the purpose of making an informed assessment of the assets and liabilities, financial position, profits and losses, and prospects of the Issuers and the Guarantor and of the rights attached to the relevant Notes.

Responsibility of the Dealers

The Dealers have not independently verified the information contained herein. Accordingly, no representation, warranty or undertaking, whether expressed or implied, is made, and no responsibility is accepted, by the Dealers (in their capacity as Dealers) with respect to the accuracy or completeness of this Prospectus or any further information supplied in connection with the Programme. The Dealers accept no liability in relation to this Prospectus or its distribution or with regard to other information supplied by the Issuers or the Guarantor herein, save for mandatory provisions of law.

In addition, in the ordinary course of their business activities, certain Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer or Issuer’s affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Programme. Any such positions could adversely affect future trading prices of Notes issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Exclusiveness

The Issuers and the Guarantor have not authorised the making or provision of any representation or information regarding the Issuers or the Notes other than as contained or incorporated by reference in this Prospectus, or any final terms the form of which is described in Part E.IV of this Prospectus (for each Tranche, the “Final Terms”, which document may also include information relating to the relevant Tranche of Notes other than the relevant Terms and Conditions (as defined below)) or as approved for such purpose by the Issuers. Any such representation or information should not be relied upon as having been authorised by any Issuer or Dealer or the Guarantor.

Significance of Delivery

Neither the delivery of this Prospectus and any Final Terms nor the offering, sale or delivery of any Note shall in any circumstances create any implication that there has been no adverse change in the financial situation of any Issuer or the Guarantor since the date hereof.

The delivery of this Prospectus or any Final Terms or the offering, sale or delivery of any Note does not at any time imply that the information contained herein concerning the Issuers and the Guarantor is correct at any time subsequent to the date thereof or that any other written information delivered in

connection therewith is correct as at any time subsequent to the date indicated in the document containing the same.

Restriction on Distribution

The distribution of this Prospectus and any Final Terms and the offering, sale and delivery of the Notes in certain jurisdictions may be restricted by law. Persons into whose possession this Prospectus comes are required by the Issuers, the Guarantor and the Dealers to inform themselves about and to observe any such restrictions. For a description of certain restrictions on offers, sales and deliveries of Notes and on distribution of this Prospectus and other offering material relating to the Notes please refer to the Selling Restrictions set out in Part F of this Prospectus. In particular, the Notes and the Guarantee have not been and will not be registered under the Securities Act and may include Notes in bearer form which are subject to U.S. tax law requirements. Subject to certain exceptions, the Notes and the Guarantee may not be offered, sold or delivered within the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the Securities Act).

Exclusion

This Prospectus on its own does not constitute an offer or an invitation to subscribe for or purchase any Notes and should not be considered as a recommendation by any Issuer, the Guarantor or any Dealer that any recipient of this Prospectus should subscribe for or purchase any Notes. Each recipient shall be taken to have made its own investigation and appraisal of the financial condition and affairs as well as of the creditworthiness of any Issuer and of the Guarantor. This Prospectus may not be used for the purpose of an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such offer or solicitation. This Prospectus is not intended to provide the basis of any credit or other evaluation.

Stabilisation

In connection with the issue of any Tranche of Notes, the Dealer or Dealers (if any) named as the stabilising manager(s) (or persons acting on behalf of any stabilising manager(s)) in the applicable Final Terms may, to the extent permitted by applicable laws and regulations, over-allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the Final Terms of the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche or Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment shall be conducted in accordance with all applicable laws and rules by the relevant stabilising manager(s) (or persons acting on behalf of any stabilising manager(s)).

Any such stabilisation action so taken will be, in all material respects, permitted by or otherwise in accordance with all relevant requirements applicable to such actions in the jurisdictions where such actions are effected (including rules and other regulatory requirements governing any stock exchange where such Notes are listed).

Exchange Rates

Prospective investors of the Notes should be aware that an investment in the Notes may involve exchange rate risks.

Legality of Purchase

A prospective purchaser may not rely on the Issuer, the Guarantor, the Dealers or any of their respective affiliates in connection with its determination as to the legality of its acquisition of the Notes.

Taxation

Potential purchasers and sellers of the Notes should be aware that they may be required to pay taxes or other documentary charges or duties in accordance with the laws and practices of the country where the Notes are transferred or other jurisdictions.

FATCA

Payments on Notes issued to a non-U.S. financial institution (a "Foreign Financial Institution" or "FFI" under FATCA, defined below) may, under certain circumstances, be subject to withholding of U.S. tax at a rate of 30.00% pursuant to Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986, as amended and the regulations promulgated thereunder ("FATCA") unless the FFI agrees, among other things, to disclose and annually report certain information on its (or its affiliates') U.S. account holders to the IRS, or, where an applicable intergovernmental agreement entered into by the U.S. and the jurisdiction where the FFI is a tax resident applies, to the taxing authority in such jurisdiction for transfer to the U.S.

In addition, payments on Notes issued to certain "non-financial foreign entity" (or "NFFE"), as defined under FATCA, may be subject to withholding under FATCA unless the NFFE discloses certain information with respect to its substantial U.S. owners.

If an amount in respect of U.S. withholding tax were to be deducted or withheld from any payments on the Notes as a result of a holder's failure to comply with FATCA or the failure of any intermediary to comply with FATCA, none of the Issuer, the Guarantor (if any), any paying agent or any other person would pursuant to the conditions of the Notes be required to pay additional amounts as a result of the deduction or withholding of such tax.

Market Value

The market value of the Notes will be affected by the creditworthiness of the relevant Issuer and the Guarantor and a number of additional factors either related with the structure of the Note or with external factors influencing the economic situation or the capital markets and the stock exchanges on which the Notes are traded in general.

Notes denominated in Renminbi

The Renminbi ("CNY") is not freely convertible; there are significant restrictions on the remittance of CNY into and out of the People's Republic of China (the "PRC"). In the event that funds cannot be repatriated out of the PRC in CNY, this may affect the overall availability of CNY outside the PRC and the ability of the relevant Issuer to source CNY to finance its

obligations under CNY Notes.

There is only limited availability of CNY outside the PRC, which may affect the liquidity of the Notes and the relevant Issuer's ability to source CNY outside the PRC to service the Notes.

The Notes are subject to exchange rate risks concerning CNY and euro. The value of the CNY payments in Euro or other applicable foreign currency terms may vary with the prevailing exchange rates. If the value of the CNY depreciates against the euro or other applicable foreign currency, the value of a Holder's investment in euro or other applicable foreign currency terms will decline.

Early Redemption of Notes

A holder of Notes is exposed to the risk that due to an early redemption his investment will have a lower than expected yield.

Also, a holder of Notes may only be able to reinvest on less favourable conditions as compared to the original investment.

[Fixed Rate Notes

Investment in Notes which bear interest at a fixed rate involves the risk that subsequent changes in market interest rates may adversely affect the value of the relevant Tranche of Notes.]

[Floating Rate Notes

A holder of floating rate Notes is exposed to the risk of fluctuating [reference rate] [CMS rate] levels and uncertain interest income. Fluctuating [reference rate] [CMS rate] levels make it impossible to determine the yield of floating rate Notes in advance.

[The yield of floating rate Notes with a cap with respect to the interest payments may be lower than that of similar structured Notes without a cap. Furthermore, the market value of such Notes will develop differently than Notes without a cap.]

[The Notes are equipped with a feature that, for the calculation of interest payable on the Notes, an amount calculated on the basis of the interest provisions of the Notes will be multiplied by a participation rate (factor).

[If the participation rate (factor) is below 100 % (a factor smaller than 1): Holders of Notes usually participate less on a positive performance of the relevant reference rate(s) than this would be the case in the event of a multiplication with a factor of 1 or if Notes are not equipped with a participation rate (factor). In other words, the variable interest rate payable on the Notes increases less than the relevant reference price(s).]

[If the participation rate (factor) is above 100 % (a factor bigger than 1): Holders of Notes usually are exposed to the risk that, despite of the influence of other features, the accrual of interest will decrease more in the case of a negative performance of the relevant reference rate(s) than this would be the case in the event of a multiplication with a factor of 1 or if Notes are not equipped with a participation rate (factor).]

[Zero Coupon Notes

A holder of Zero Coupon Notes is exposed to the risk that the price of such Zero Coupon Notes falls as a result of changes in the market interest rate. Prices of Zero Coupon Notes are more

		volatile than prices of, e.g., fixed rate Notes.]
		<p>[Risks associated with the reform of EURIBOR and other interest rate 'benchmarks'</p> <p>On 30 June 2016, the EU regulation ((EU) 2016/1011) on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the "Benchmark Regulation") entered into force. The Benchmark Regulation could have a material impact on Notes linked to a 'benchmark' rate or index. The disappearance of a 'benchmark' or changes in the manner of administration of a 'benchmark' could result in adjustment to the terms and conditions, early redemption, discretionary valuation by the Calculation Agent, delisting or other consequence in relation to Notes linked to such 'benchmark'. Any such consequence could have a material adverse effect on the value of and return on any such Notes.]</p>

In Ländern, die keine Begrenzungsfristen für Steuerzahlungen vorsehen (wie beispielsweise China), kann die BMW Gruppe auch Forderungen zur Zahlung von Steuerrückständen aus früheren Perioden ausgesetzt sein. D.3	Zentrale Angaben zu den zentralen Risiken, die den Wertpapieren eigen sind	Unabhängige Einschätzung und Beratung Jeder potentielle Erwerber von Schuldverschreibungen muss auf der Grundlage seiner eigenen unabhängigen Einschätzung und der den Umständen entsprechenden professionellen Beratung entscheiden, ob der Kauf der Schuldverschreibungen seinen eigenen finanziellen Möglichkeiten, Zielen und Umständen entspricht, mit allen geltenden Anlageprinzipien, Richtlinien und Einschränkungen übereinstimmt und sich als geeignete, angemessene und zulässige Investition darstellt.
		Kein aktiver Sekundärmarkt/Handelsmarkt für die Schuldverschreibungen Die unter dem Programm begebenen Schuldverschreibungen sind neue Schuldverschreibungen, die keine weite Verbreitung besitzen und für die gegenwärtig kein aktiver Handelsmarkt besteht. 		Clearing Systeme Da Globalurkunden, welche die Schuldverschreibungen verbriefen, von oder namens Clearstream Luxembourg oder Euroclear oder CBF oder einem Clearing System, das ein Book-entry Agreement mit der Emittentin abgeschlossen hat, gehalten werden können, gelten für Investoren die dort maßgeblichen Verfahren für Übertragungen, Zahlungen und die Kommunikation mit der Emittentin und/oder der Garantin.
		Wechselkurse Zukünftige Investoren von Schuldverschreibungen sollten beachten, dass eine Investition in die Schuldverschreibungen Wechselkursrisiken beinhalten kann.
		Wirksamkeit des Erwerbs Ein potentieller Käufer kann sich nicht auf die Einschätzungen der Emittentin, der Garantin, der Platzeure oder ihrer jeweils verbundenen Unternehmen in Bezug auf die Wirksamkeit des Erwerbs der Schuldverschreibungen verlassen.

FATCA

Zahlungen auf an nicht U.S.-Finanzinstitute (ein "Ausländisches Finanzinstitut" oder "FFI" unter FATCA, wie nachstehend definiert) begebene Schuldverschreibungen können, unter bestimmten Umständen, Gegenstand einer U.S. Quellensteuer in Höhe von 30 % unterliegen gemäß dem U.S. Internal Revenue Code of 1986 in der jeweils gültigen Fassung und den darunter erlassenen Rechtsakten ("FATCA"), es sei denn, das beteiligte FFI erklärt sich damit einverstanden, bestimmte Informationen über seine U.S. Kontoinhaber (oder die U.S. Kontoinhaber seines verbundenen Unternehmens) offenzulegen und auf jährlicher Basis bestimmte Informationen über solche Konten an IRS oder, sofern eine anwendbare zwischenstaatliche Vereinbarung zwischen den U.S. und der Jurisdiktion, in der das FFI seinen Steuersitz hat, besteht, an die Steuerbehörde in dieser Jurisdiktion zur Weiterleitung an die U.S. mitzuteilen.

Im Übrigen können auch Zahlungen auf bestimmte "ausländische Nicht-Finanzinstitute" (oder "NFFE"), wie unter FATCA definiert, begebene Schuldverschreibungen unter bestimmten Umständen Gegenstand einer U.S. Quellensteuer nach FATCA sein, es sei denn, das NFFE legt bestimmte Informationen in Bezug auf wesentliche Beteiligungen von U.S.-Bürgern an ihr offen.

Sofern ein Betrag aufgrund der U.S. Quellensteuer von einer auf die Schuldverschreibungen zu leistenden Zahlung abzuziehen oder einzubehalten ist und dies darauf zurückgeht, dass ein Inhaber oder ein Intermediär die Regeln von FATCA nicht einhält, wären weder die Emittentin noch die Garantin (sofern vorhanden), eine Zahlstelle oder eine sonstige Person nach den Bedingungen der Schuldverschreibungen verpflichtet, zusätzliche Beträge aufgrund des Abzugs oder der Einbehaltung solcher Steuern zu zahlen.

Marktwert

Der Marktwert von Schuldverschreibungen wird durch die Bonität der jeweiligen Emittentin und der Garantin sowie einer Vielzahl von zusätzlichen Faktoren beeinflusst, die entweder mit der Struktur der Schuldverschreibungen verknüpft sind oder mit externen Faktoren, die die wirtschaftliche Lage oder die Kapitalmärkte und die Börsen, an denen die Schuldverschreibungen gehandelt werden, im Allgemeinen betreffen.

In Renminbi begebene Schuldverschreibungen

Der Renminbi ("CNY") ist nicht frei konvertierbar; es gibt wesentliche Beschränkungen der Übertragbarkeit von CNY von und in die Volksrepublik China ("China"). Falls Mittel in CNY nicht nach außerhalb Chinas zurückgeführt werden können, kann dies die allgemeine Verfügbarkeit von CNY außerhalb Chinas und die Fähigkeit der jeweiligen Emittentin, CNY zu beziehen um die Verpflichtungen aus den CNY-Schuldverschreibungen zu finanzieren, beeinflussen.

CNY sind außerhalb Chinas nur begrenzt verfügbar, was die Liquidität der Schuldverschreibungen und die Fähigkeit der jeweiligen Emittentin, CNY außerhalb Chinas zu beziehen um die Schuldverschreibungen zu bedienen, beeinflussen kann.

Die Schuldverschreibungen unterliegen Wechselkursrisiken bezüglich CNY und dem Euro. Der Wert der CNY-Zahlungen in Euro oder einer anderen relevanten ausländischen Währung kann gemäß der geltenden Wechselkurse schwanken. Sinkt der Wert des CNY gegenüber dem Euro oder einer anderen relevanten ausländischen Währung, sinkt der Wert des Investments des Gläubigers in Euro oder einer anderen relevanten ausländischen Währung.

Vorzeitige Rückzahlung der Schuldverschreibungen

Ein Gläubiger von Schuldverschreibungen ist dem Risiko ausgesetzt, dass infolge der vorzeitigen Rückzahlung seine Kapitalanlage eine geringere Rendite als erwartet aufweisen wird.

Außerdem kann der Gläubiger von Schuldverschreibungen in der Lage sein, Reinvestitionen nur zu ungünstigeren Konditionen tätigen zu können, verglichen mit der ursprünglichen Investition.

[Festverzinsliche Schuldverschreibungen

Investitionen in festverzinsliche Schuldverschreibungen beinhalten das Risiko, dass nachträgliche Änderungen in Marktzinssätzen den Wert der jeweiligen Tranche von Schuldverschreibungen nachteilig beeinflussen.]

[Variabel verzinsliche Schuldverschreibungen

Der Gläubiger von variabel verzinslichen Schuldverschreibungen ist dem Risiko schwankender [Referenzzinssätze] [CMS-Sätze] und ungewisser Zinserträge ausgesetzt. Ein schwankendes [Referenzzinssatzniveau] [Niveau der CMS-Sätze] macht es unmöglich, die Rendite von variabel verzinslichen Schuldverschreibungen im Voraus zu bestimmen.

[Die Rendite von variabel verzinslichen Schuldverschreibungen, die mit einer Obergrenze in Bezug auf Zinszahlungen ausgestattet sind, kann niedriger ausfallen als bei ähnlich strukturierten Schuldverschreibungen ohne Obergrenze. Die Benchmark-Verordnung könnte sich wesentlich auf Schuldverschreibungen auswirken, die auf einen "Benchmark"-Satz oder -Index bezogen sind. Der Wegfall einer "Benchmark" oder Änderungen in der Art der Verwaltung einer "Benchmark" könnten eine Anpassung der Emissionsbedingungen, eine vorzeitige Rückzahlung, ein Bewertungswahlrecht durch die Berechnungsstelle, eine Dekotierung oder andere Konsequenzen in Bezug auf die auf solche "Benchmarks" bezogenen Schuldverschreibungen nach sich ziehen. RISK FACTORS

The information in this section “Risk Factors” includes risk factors relating to

1. BMW Finance N.V. (“BMW Finance”) and its business and operations, BMW US Capital, LLC (“BMW US Capital”) and its business and operations, BMW International Investment B.V. (“BMW International Investment”) and its business and operations, and BMW Japan Finance Corp. (“BMW Japan”) and its business and operations (together, the “Issuers” or “Issuing Subsidiaries”);
2. BMW Motoren Werke Aktiengesellschaft (“BMW AG”) and its business and operations; and
3. risks typically associated with the issue of Notes.

The following is a general discussion of certain risks typically associated with the Issuing Subsidiaries and BMW AG and the acquisition and ownership of Notes. It does not purport to be a comprehensive description of all risks which may be relevant to a decision to purchase Notes. In particular, it does not consider an investor’s specific knowledge and/or understanding about risks typically associated with the Issuing Subsidiaries and BMW AG and the acquisition and ownership of Notes, whether obtained through experience, training or otherwise, or the lack of such specific knowledge and/or understanding, or circumstances that may apply to a particular investor.

Prospective purchasers of Notes should carefully consider the following information about these risks, together with the other information in this Prospectus, before buying any Notes. Prospective purchasers of Notes are also advised to consult their own tax advisors, legal advisors, accountants or other relevant advisors as to the risks associated with, and consequences of, the purchase, ownership and disposition of Notes, including the effect of any laws of each country of which they are residents.

1. Risks relating to the Issuing Subsidiaries

(i) General

The Issuers are financing subsidiaries within BMW Group, and as such, the purposes of the Issuers’ activities are to assist in the financing of the activities and in managing interest and foreign exchange risks for the Group, primarily in the Netherlands, United States and Japan, and to provide services in connection therewith. The ability of the Issuers to satisfy their obligations under the Notes will depend, among other things, upon payments to the Issuers by members of the Group. The assets of the Issuers should not therefore be primarily relied upon by prospective investors in making an investment decision to purchase the Notes.

(ii) BMW Finance

The risk exposure of BMW Finance can be broken down into the following two main categories: non-financial and financial risks.

Non-financial Risks

Operating Risks

Non-financial risks could arise from operating risks. Risks mainly result from the use of computer systems and information technology. BMW Finance uses computer systems to monitor financial positions and daily cash flows and to process payments to internal and external counterparties. System failures can, therefore, lead to delays in payment processes. Further operating risks can arise in connection with the settlement of financial transactions. The management of daily cash flows at BMW Finance depends on the timely receipt of funds from external institutions who act as counterparties to financial transactions, such as bonds, swaps or other derivative financial instruments. To avoid negative impacts of system failures, all key systems are set up in parallel and/or backup facilities or available within BMW Group.

Financial Risks

The formal procedures and policies operated by BMW Finance to cover banking, foreign exchange and other treasury matters are consistent with objectives and policies for financial risk management within BMW Group. BMW Finance's policy is not to trade or speculate in financial instruments.

Financial risks arise mainly from liquidity risk, the risk of an increase in credit spreads, currency risk, interest rate risk, credit risk and fair market value risk.

Liquidity Risk

Liquidity risk refers to potential negative impacts on the operations of BMW Finance as a result of the inability to generate sufficient funds to pay liabilities when due and to finance BMW Group companies and participations.

To manage the liquidity, BMW Finance depends mainly on the issuance of term debt, principally in the European capital markets. Therefore, BMW Finance depends on broad access to these capital markets and investors. Changes in demand for term debt instruments on capital markets could limit the ability of BMW Finance to fund operations. The participation of BMW Finance in the EUR 50.0 billion Euro Medium Term Note Programme established by BMW AG, BMW Finance, BMW US Capital, BMW International Investment and BMW Japan, BMW Finance and BMW US Capital, as well as the participation in the EUR 5.0 billion Multi-Currency Commercial Paper Programme established by BMW AG, BMW Finance, BMW International Investment and BMW Malta Finance Limited support flexible and broad access to capital markets. Since May 2006, BMW Finance acts as an issuer under the EUR 2.0 billion French Commercial Paper (*Billets de Trésorerie*) Programme established by BMW Finance. Debt issuances under these programs have unconditional and irrevocable guarantees from BMW AG. The removal of the guarantees from these programs could limit access to certain investors and investor groups.

Furthermore, BMW Finance uses committed and uncommitted credit lines with banks and bank loans to cover liquidity needs. In this context BMW Finance depends on the willingness of banks to provide credit lines or loans. In the light of the financial crisis, banks have become more selective in providing credit lines or loans to the interbank and corporate sector. In order to reduce and minimise the dependence on banks, BMW Finance has taken measures to maintain access to capital markets. Besides local committed and uncommitted credit lines BMW Finance can draw under a EUR 6.0 billion Multi-Currency Revolving Credit Facility (including a EUR 2.0 billion Swingline Option).

Risk of an Increase in Credit Spreads

Increases in the credit spreads could negatively affect the cost of borrowing and, therefore, the operating results of BMW Finance. Increases in credit spreads could arise from changes in demand for term debt instruments on capital markets, the removal of the unconditional and irrevocable guarantees of BMW AG from the above-mentioned debt issuance programs in which BMW Finance participates, a weakening credit profile of BMW Group and a decreasing willingness of banks to provide credit lines and loans.

Currency Risk

Currency risk or exchange rate risk refers to potential changes of value in financial assets, liabilities or derivatives in response to fluctuations in exchange rates. Changes in exchange rates can have adverse effects on the financial position and operating result of BMW Finance. In order to mitigate the impact of currency risk arising from operational, financing and investment activities, BMW Finance continually assesses its exposure to this risk. Currency risk is managed and hedged through the use of derivative financial instruments, such as forward contracts, options and cross currency swaps. When deemed appropriate, there might be un-hedged positions.

Interest Rate Risk

Interest rate risk refers to potential changes of value in financial assets, liabilities or derivatives in response to fluctuations in interest rates. BMW Finance holds a substantial volume of interest rate sensitive financial assets, liabilities and derivatives for operational, financing and investment activities. Changes in interest rates can have adverse effects on the financial position and operating result of BMW Finance. In order to mitigate the impact of interest rate risk, BMW Finance continually assesses its exposure to this risk. Interest rate risk is managed and hedged through the use of derivative financial instruments, such as interest rate swaps and forward rate agreements. When deemed appropriate, there might be un-hedged positions.

Credit Risk

Credit risk results from the risk of default of internal or external counterparties. The amount recognised in the balance sheet of BMW Finance for financial assets is, ignoring any collateral received, the maximum credit risk in the case that counterparties are unable to fulfil their contractual obligations. In the case of derivative financial instruments, BMW Finance is also exposed to credit risk, which results from the non-performance of contractual agreements on the part of the counterparty. This credit risk is mitigated by entering into such contracts only with parties of first-class credit standing. Furthermore, BMW Finance participates in a Group wide limit system that continually assesses and limits the credit exposure to any single external counterparty.

Fair Market Value Risk

IAS 39, *Financial Instruments Recognition and Measurement*, requires that all derivative instruments be recorded on the balance sheet at their respective fair values. In the case that hedge accounting is applied and that a hedge is a fair value hedge, the results of the fair value measurement of the derivative financial instrument and of the related hedged item are recognised in the income statement. Furthermore, if, contrary to the normal case within BMW Finance, hedge accounting cannot be applied, the gains and losses from the fair value measurement of derivative financial instruments are recognised immediately in the income statement. This can lead to significant fluctuations in the position "Net balance of fair value measurement of financial instruments" on the income statement.

(iii) BMW US Capital

The risk exposure of BMW US Capital can be broken down into the following two main categories: non-financial risks and financial risks.

Non-financial Risks

Operating Risks

Non-financial risks could arise from operating risks. Risks mainly result from the use of computer systems and information technology. BMW US Capital uses computer systems to monitor financial positions and daily cash flows and to process payments to internal and external counterparties. System failures can therefore lead to delays in payment processes, or the evaluation or settlement of financial transactions.

Legal and Regulatory Risks

Non-financial risks could arise from legal and regulatory risks. Risks mainly result from the possibility of new laws or regulations that could be adopted in light of current conditions in the global financial markets and increased regulatory focus on the regulation of the financial services industry, including the segment in which BMW US Capital operates. BMW US Capital is highly regulated by governmental authorities, and compliance with new laws and regulations can result in significant additional costs and/or restrictions on its business. In addition, various governmental agencies from time to time conduct inquiries or investigations into various aspects of auto finance companies practices, particularly under fair lending and similar consumer protection laws.

Financial Risks

The formal procedures and policies operated by BMW US Capital to cover banking, foreign exchange and other treasury matters are consistent with the objectives and policies for financial risk management within BMW Group. BMW US Capital's policy is not to speculate in financial instruments.

Financial risks arise mainly from volatility relating to liquidity, credit spreads, interest rates, currency, credit and fair market value evaluations of derivative instruments.

Liquidity Risk

Liquidity risk refers to potential negative impacts on the operations of BMW US Capital resulting from the inability to generate sufficient funds to pay liabilities when due and to extend short- and long-term advances to support the financing activities of the companies of BMW Group and its affiliates.

To manage liquidity, BMW US Capital depends mainly on the issuance of overnight and term debt, principally in the European and US capital markets. Changes in demand for term debt instruments on capital markets could limit the ability of BMW US Capital to fund operations. The participation of BMW US Capital in the EUR 50.0 billion Euro Medium Term Note Programme established by BMW AG,

BMW Finance, BMW US Capital, BMW International Investment and BMW Japan, BMW Finance and BMW US Capital, as well as the participation in the USD 7.0 billion US Commercial Paper Programme established by BMW US Capital support flexible and broad access to capital markets. Debt issuances under the two programs have unconditional and irrevocable guarantees from BMW AG. The removal of the guarantees from these programs could limit access to certain investors and investor groups.

BMW US Capital depends on the willingness of banks to provide credit lines or loans. In the light of the financial crisis, banks have become more selective in providing credit lines or loans to the interbank and corporate sector. In order to reduce and minimise the dependence on banks, BMW US Capital has taken measures to maintain access to capital markets. Besides local committed and uncommitted credit lines, BMW US Capital can draw under a EUR 6.0 billion Multi-Currency Revolving Credit Facility (including a EUR 2.0 billion Swingline Option).

Risk of an Increase in Credit Spreads

Increases in the credit spreads could negatively affect the cost of borrowing and, therefore, the operating results of BMW US Capital. Increases in credit spreads could arise from changes in demand for term debt instruments on capital markets, the removal of the unconditional and irrevocable guarantees of BMW AG from the above-mentioned debt issuance programs in which BMW US Capital participates, a weakening credit profile of BMW Group and from a decreasing willingness of banks to provide credit lines and loans.

Currency Risk

Currency risk or exchange risk refers to potential changes of value in financial assets, liabilities or derivatives in response to fluctuations in exchange rates. Changes in exchange rates can have adverse effects on the financial position and operating result of BMW US Capital. In order to mitigate the impact of foreign exchange risk arising from operational, financing and investment activities, BMW US Capital continually assesses its exposure to this risk. Currency exchange risk is managed through the use of derivative financial instruments, such as forward contracts, options and cross currency swaps. When deemed appropriate, there might be un-hedged positions.

Interest Rate Risk

Interest rate risk refers to potential changes of value in financial assets, liabilities or derivatives in response to fluctuations in interest rates. BMW US Capital holds a substantial volume of interest rate sensitive financial assets, liabilities and derivatives from operational, financing and investment activities. Changes in interest rates can have adverse effects on the financial position and operating result of BMW US Capital. In order to mitigate the impact of interest rate risk, BMW US Capital continually assesses its exposure to this risk. Interest rate risk is managed by matching maturities and through the use of derivative financial instruments, such as interest rate swaps and options. When deemed appropriate, there might be un-hedged positions.

Credit Risk

Credit risk results from the risk of default of internal or external counterparties. The amount recognised in the statement of financial position of BMW US Capital for financial assets is, ignoring any collateral received, the maximum credit risk in the case that counterparties are unable to fulfil their contractual obligations. In the case of derivative financial instruments, BMW US Capital is also exposed to credit risk, which results from the non-fulfilment of contractual agreements on the part of the counterparty. This credit risk is mitigated by entering into such contracts only with parties of investment grade credit standing. Furthermore, BMW US Capital participates in a Group-wide limit system that continually assesses and limits the credit exposure to any single external counterparty.

Fair Market Value Risk

IAS 39, *Financial Instruments Recognition and Measurement*, requires that all derivative instruments be recorded on the statement of financial position at their respective fair values. With respect to fair value hedges, the results of the fair value measurement of the derivative financial instrument and of the related hedged item are recognised in the statement of comprehensive income. Furthermore, if, contrary to the normal case within BMW US Capital, hedge accounting cannot be applied, the gains and losses from the fair value measurement of derivative financial instruments are recognised immediately in the statement of comprehensive income. This can lead to significant fluctuations in the positions "Gain/Loss on financial instruments" on the Statements of Comprehensive Income for BMW US Capital.

(iv) BMW International Investment

The risk exposure of BMW International Investment can be broken down into the following two main categories: non-financial and financial risks.

Non-financial Risks

Operating Risks

Non-financial risks could arise from operating risks. Risks mainly result from the use of computer systems and information technology. BMW International Investment uses computer systems to monitor financial positions and daily cash flows and to process payments to internal and external counterparties. System failures can, therefore, lead to delays in payment processes. Further operating risks can arise in connection with the settlement of financial transactions. The management of daily cash flows at BMW International Investment depends on the timely receipt of funds from external institutions who act as counterparties to financial transactions, such as bonds, swaps or other derivative financial instruments. To avoid negative impacts of system failures, all key systems are set up in parallel and/or backup facilities or available within BMW Group.

Financial Risks

The formal procedures and policies operated by BMW International Investment to cover banking, foreign exchange and other treasury matters are consistent with objectives and policies for financial risk management within BMW Group. The Company's policy is not to take positions in derivative financial instruments with the aim of profit realisation.

Financial risks arise mainly from liquidity risk, the risk of an increase in credit spreads, currency risk, interest rate risk, credit risk and fair market value risk.

Liquidity Risk

Liquidity risk refers to potential negative impacts on the operations of BMW International Investment as a result of the inability to generate sufficient funds to pay liabilities when due and to finance BMW Group companies and participations.

To manage the liquidity, BMW International Investment depends mainly on the issuance of term debt, principally in the European capital markets. Therefore, BMW International Investment depends on broad access to these capital markets and investors. Changes in demand for term debt instruments on capital markets could limit the ability of BMW International Investment to fund operations. The participation of BMW International Investment in the EUR 50.0 billion Euro Medium Term Note Programme established by BMW AG, BMW Finance, BMW International Investment, BMW US Capital and BMW Japan, as well as the participation in the EUR 5.0 billion Multi-Currency Commercial Paper Programme established by BMW AG, BMW Finance, BMW International Investment and BMW Malta Finance Limited support flexible and broad access to capital markets. In this context BMW International Investment depends on the willingness of banks to provide credit lines or loans. In the light of the financial crisis, banks have become more selective in providing credit lines or loans to the interbank and corporate sector. In order to reduce and minimise the dependence on banks, BMW International Investment has taken measures to maintain access to capital markets.

Risk of an Increase in Credit Spreads

Increases in the credit spreads could negatively affect the cost of borrowing and, therefore, the operating results of BMW International Investment. Increases in credit spreads could arise from changes in demand for term debt instruments on capital markets, the removal of the unconditional and irrevocable guarantees of BMW AG from the above-mentioned debt issuance programs in which BMW International Investment participates, a weakening credit profile of BMW Group and a decreasing willingness of banks to provide credit lines and loans.

Currency Risk

Currency risk or exchange rate risk refers to potential changes of value in financial assets, liabilities or derivatives in response to fluctuations in exchange rates. Changes in exchange rates can have adverse effects on the financial position and operating result of BMW International Investment. In

order to mitigate the impact of currency risk arising from operational, financing and investment activities, BMW International Investment continually assesses its exposure to this risk. Currency risk is managed and hedged through the use of derivative financial instruments, such as forward contracts, options and cross currency swaps. When deemed appropriate, there might be un-hedged positions.

Interest Rate Risk

Interest rate risk refers to potential changes of value in financial assets, liabilities or derivatives in response to fluctuations in interest rates. BMW International Investment holds a substantial volume of interest rate sensitive financial assets, liabilities and derivatives for operational, financing and investment activities. Changes in interest rates can have adverse effects on the financial position and operating result of BMW International Investment. In order to mitigate the impact of interest rate risk, BMW International Investment continually assesses its exposure to this risk. Interest rate risk is managed and hedged through the use of derivative financial instruments, such as interest rate swaps and forward rate agreements. When deemed appropriate, there might be un-hedged positions.

Credit Risk

Credit risk results from the risk of default of internal or external counterparties. The amount recognised in the balance sheet of BMW International Investment for financial assets is, ignoring any collateral received, the maximum credit risk in the case that counterparties are unable to fulfil their contractual obligations. In the case of derivative financial instruments, BMW International Investment is also exposed to credit risk, which results from the non-performance of contractual agreements on the part of the counterparty. This credit risk is mitigated by entering into such contracts only with parties of first-class credit standing. Furthermore, BMW International Investment participates in a Group wide limit system that continually assesses and limits the credit exposure to any single external counterparty.

Fair Market Value Risk

IAS 39, *Financial Instruments Recognition and Measurement*, requires that all derivative instruments be recorded on the balance sheet at their respective fair values. In the case that hedge accounting is applied and that a hedge is a fair value hedge, the results of the fair value measurement of the derivative financial instrument and of the related hedged item are recognised in the income statement. Furthermore, if, contrary to the normal case within BMW International Investment, hedge accounting cannot be applied, the gains and losses from the fair value measurement of derivative financial instruments are recognised immediately in the income statement. This can lead to significant fluctuations in the position "Net balance of fair value measurement of financial instruments" on the income statement.

(v) BMW Japan

The risk exposure of BMW Japan can be broken down into the following two main categories: non-financial and financial risks.

Non-financial risks

Operating risks

Non-financial risks could arise from operating risks. Risks mainly result from the use of computer systems and modern information technology. BMW Japan uses computer systems to monitor financial positions and daily cash flows and to process payments to external counterparties. System failures can, therefore, lead to delays in payment processes. Further operating risks can arise in connection with the settlement of financial transactions. The management of daily cash flows at BMW Japan depends on the timely receipt of funds from external parties for retail and wholesale business as well as financial transactions, such as loans, bonds and swaps. Operating risks are mitigated through constant monitoring and improving of operational processes, development of back-up scenarios and assuring of adequate IT resources.

Financial Risks

The formal procedures and policies operated by BMW Japan to cover banking and other treasury matters are consistent with objectives and policies for financial risk management within BMW Group. BMW Japan's policy is not to trade or speculate in financial instruments.

Financial risks arise mainly from liquidity risk, risk of an increase in credit spreads, credit risk and interest rate risk.

Liquidity Risk

Liquidity risk refers to potential negative impacts on the operations of BMW Japan as a result of the inability to generate sufficient funds to pay liabilities when due.

BMW Japan uses bank loans and uncommitted credit lines with banks to cover short-term liquidity needs. In this context, BMW Japan depends on the willingness of banks to provide credit lines or loans. These settings are based on the sound profitability of BMW Japan and BMW Group.

In order to reduce and minimise possible risk of decrease in credit line availability, BMW Japan makes regular contacts to the banks to be always updated of their recent credit stances in addition to development of financial, especially lending, markets. Furthermore BMW Group Capital Markets Division is involved in a broad range of banking activities of BMW subsidiaries.

For sound and diversified funding, BMW Japan is engaged in long-term funding sources, such as loans, bonds and Asset Backed Securities (ABS). The participation of BMW Japan in the EUR 50.0 billion Euro Medium Term Note Programme established by BMW AG, BMW Finance, BMW US Capital, BMW International Investment and BMW Japan supports flexible and broad access to capital markets. Debt issuance under this program has unconditional and irrevocable guarantees by BMW AG. The removal of the guarantees from these programs could limit access to certain investors and investor groups.

Risk of an Increase in Credit Spreads

Increases in the credit spreads could negatively affect the cost of borrowing and, therefore, the operating results of BMW Japan. Increases in credit spreads could arise from changes in demand from creditors, such as banks for short-term loans and institutional investors for long-term loans or bonds.

Interest Rate Risk

Interest rate risk refers to potential changes of value in financial assets, liabilities or derivatives in response to fluctuations in interest rates. BMW Japan holds a substantial volume of interest rate sensitive liabilities for financing activities. Changes in interest rates can have adverse effects on the financial position and operating result of BMW Japan. In order to mitigate the impact of interest rate risk, BMW Japan continually assesses and manages its exposure to this risk and hedges those liabilities through the use of derivative financial instruments, such as interest rate swaps.

Credit Risk

Credit risk results from the risk of default in retail and wholesale business. Some parts of the credit risk stemming from loan business are covered by a comprehensive agreement in place with a service provider while the rest of loan business written since September 2012 and the other retail business as well as wholesale business risks have been closely monitored and adequately provided for.

In the case of derivative financial instruments, BMW Japan is also exposed to credit risk, which results from the non-performance of contractual agreements on the part of the counterparty. This credit risk is mitigated by entering into such contracts only with parties of first-class credit standing. Furthermore, BMW Japan is participating in a Group wide limit system that continually assesses and limits the credit exposure to any single external counterparty.

Residual Value Risk

BMW Japan faces residual value risk as it has residual value risk bearing products in its portfolio. The residual value risk is caused by the uncertainty with regards to the future value of the underlying vehicle assets of the loan or lease contracts which BMW Japan guarantees the residual value at the contract termination for its customers.

The profits or losses as the result of these guarantees of residual value are shared with BMW Japan Corp., based on an agreement between BMW Japan Corp. and BMW Japan.

The operating lease had been the only product where BMW Japan bears residual value risk and its share in the total portfolio had been quite limited. However, BMW Japan launched a new residual value risk bearing loan, "Future Value Loan", in April 2016, and the volume of the residual value risk bearing contracts has been increasing rapidly after that.

An appropriate residual value setting for the guarantees is the key to manage this residual value risk. BMW Japan has been bearing residual value risk for BMW and MINI new cars, and the residual value setting for each model has been reviewed on quarterly basis, reflecting the latest market situation.

2. Risks relating to BMW AG and BMW Group

Economic, geopolitical or other events could adversely affect the automotive industry and BMW Group

With the increasing interconnectedness of global economic and financial systems, a financial crisis, natural disaster, geopolitical crisis, or other significant event in one area of the world can have an immediate and devastating impact on markets around the world.

In addition, individual mobility remains a key issue in a number of countries, both in terms of political regulation and national industrial policy-making. Changing lifestyle and social norms are constantly calling for new solutions in the field of mobility. Unpredictable developments in local and global economies, together with constantly increasing competition, may cause knock-on effects which are difficult to predict or quantify.

A high level of volatility prevailing in many economies continues to have an unsettling impact on markets and consumers. Certain emerging economies are currently performing below their full potential. Other economies are struggling with unusually high debt levels.

Given recent political events, future global economic developments are currently subject to a high degree of additional uncertainty with respect to potential barriers that could affect global trade. The outcome of the elections in the United States in November 2016, the United Kingdom's planned exit from membership in the European Union, following a June 2016 referendum which favored that result ("Brexit") and possible election wins for anti-globalisation parties in the EU in the coming years could result in higher tariff and non-tariff barriers to trade.

Such changes could lead to additional expenses, as well as restrictions on the import and export of vehicles and parts, and as an international business with production and sales operations across important trading regions, these changes could adversely impact the composition of the Group's vehicle production and assembly operations. Particularly in the United States, any introduction of regional or international trade barriers, changes in taxation which inhibit similar effects, or withdrawal from or renegotiation of trade agreements such as NAFTA, by the new administration could impact the Group's business operations and results of operations through less favorable conditions for the import of vehicles. Moreover, any countermeasures by regional or global trading partners could slow economic growth.

Europe, and particularly the eurozone, is still in the process of addressing a range of structural problems, such as those apparent in Greece, the Italian banking system and the refugee crisis, each of which could pose a threat to European integration and hopes of further expanding, or at least maintaining, a single economic and monetary area. Economic and financial conditions, including currency exchange rates, in Europe and the United Kingdom have also been affected, and may be further adversely affected, by Brexit. A process of negotiation is expected to determine the future terms of the United Kingdom's relationship with the European Union, including whether the United Kingdom will be able to continue to benefit from the European Union's free trade and similar agreements. Depending on the terms of Brexit, economic conditions in the United Kingdom, the European Union and global markets, including currency markets, may be adversely affected by reduced growth and increased volatility, particularly if Brexit resulted in increased trade barriers in the European market. Uncertainty during and after the period of negotiation is also expected to have a negative economic impact, particularly on consumer spending and capital investments, and increase market volatility, particularly in Europe.

The transition of the Chinese economy from an investment-driven to a consumer-driven market is expected to entail slower growth rates and greater instability on financial markets. If the Chinese economy were to grow at a significantly slower pace than expected, this may lead to a decline in automobile sales growth rates. In addition, this may also result in lower demand for commodities, which could affect emerging economies such as Brazil and Russia. A further drop in commodity prices could result in additional political and economic upheavals and lead to lower aggregate demand from the countries affected. Volatility in the property or banking sector in China and Asia more broadly could also result in reduced demand for the Group's products and services.

Additionally, further aggravation of political conflicts, increased nationalist and protectionist behavior of governments, terrorist activities, natural disasters or possible pandemics could have a negative impact on the world economy and international capital markets.

The Group maintains operations in various markets which could be affected by volatile economic or political environments and is pursuing growth opportunities in a number of newly developed and emerging markets. These investments may expose the Group to heightened risks of economic, geopolitical, or other events, including governmental takeover (nationalisation) of its manufacturing facilities or intellectual property, restrictive currency exchange or import controls, disruption of operations as a result of systemic political or economic instability, outbreak of war or expansion of hostilities, and acts of terrorism.

Because the Group, like other manufacturers, has a high proportion of relatively fixed structural costs, comparatively small changes in sales volumes can have a substantial effect on its cash flow and profitability. If sales were to decline to levels significantly below the Group's planning assumptions or the Group's business were to be otherwise significantly disrupted, particularly in the United States, China or Europe, due to financial crisis, recession, significant currency exchange rate movements, geopolitical events, trade barriers or other factors, it could have a material adverse effect on the Group's business, net assets, financial condition or results of operations.

The automotive market is highly competitive and subject to technological innovations and developments which could affect BMW Group's competitive position

The worldwide automotive market is highly competitive. BMW Group faces intense competition from automotive manufacturers in the markets in which it operates and across vehicle segments. Competition in the automotive industry has intensified in recent years, and competition is likely to intensify further in light of, among other factors, continuing globalisation in the worldwide automotive industry and technological developments in drive technologies, drive systems and vehicle control, particularly autonomous driving, possibly resulting in industry consolidation or reorganisation. Factors affecting competition include product quality and features, safety, reliability, fuel efficiency, disruptive technologies and the amount of time required for innovation and development, pricing, customer service and financing terms. Increased competition could also lead to lower Group sales volumes, which could result in further downward price pressure and adversely affect the Group's sales strategies or could require the Group to increase research and development or capital expenditures to offer competitive products. The Group's ability to respond adequately to the recent changes in the automotive market and to maintain its competitiveness in light of ongoing competitive dynamics and technological developments is integral to its performance in existing and new markets and to maintaining or expanding its market share. There can be no assurances that the Group will be able to compete successfully in the future.

If any of these risks were to materialise, this could have a material adverse effect on BMW Group's business, net assets, financial condition or results of operations.

Increased safety, emissions, fuel-efficiency or other regulations could lead to substantial costs and disruptions in automotive markets

The global automotive industry is subject to substantial government regulation, which differs by state, region and country. Government regulation has developed, and proposals for additional regulation have advanced, primarily out of concern for the environment (including concerns about global climate change and its impact), vehicle safety and energy independence. These regulations, particularly in the areas of fuel efficiency and safety, are continually evolving, requiring the Group to spend significant resources to plan for and adapt its products for these developments. In addition, many governments regulate local product content or impose import requirements as a means of creating jobs, protecting domestic producers and influencing the balance of payments. A number of governments, as well as non-governmental organisations, also publicly assess vehicles based on their own protocols. Such protocols could change significantly, and any negative perception regarding the performance of BMW Group's vehicles subjected to such tests could reduce future sales.

In recent years, the Group has made significant changes to its product plan to improve the overall fuel efficiency of vehicles it produces, as well as the fuel efficiency and emissions performance of individual models, thereby reducing their greenhouse gas emissions and progressing towards

compliance with fuel consumption and carbon dioxide (CO₂) emissions regulations in the European Union, the United States, Japan and China, among other jurisdictions.

For example, for new car sales in Europe, all car manufacturers had to meet a fleet CO₂ average of 130 g CO₂/km by 2015 following a transition period. By 2020, manufacturers will have to meet a fleet CO₂ average in Europe of 95 g CO₂/km, subject to certain automotive portfolio considerations and transition periods.

In general, there is a clear move towards increasingly stringent vehicle emissions regulations, particularly for conventional drive systems, not only in the developed markets of Europe and North America, but also in emerging markets such as China. Moreover, further tightening and scrutiny could be forthcoming given the recent focus on emissions testing and on-road performance, particularly with respect to diesel engines, which could lead to significant additional investments to comply with new regulations as well as risks of limited market availability of products. In addition, several state and local governments, and in particular those of major cities, have increased their focus on diesel emissions and have introduced or proposed regulations seeking to shift consumers from use of diesel vehicles. There are limits to the Group's ability to achieve fuel efficiency improvements over a given timeframe, primarily relating to the cost and effectiveness of available technologies, consumer acceptance of new technologies and changes in vehicle characteristics, willingness of consumers to absorb the additional costs of new technologies, the appropriateness of certain technologies for use in particular vehicles, the widespread availability of supporting infrastructure for new technologies, as well as the human, engineering, and financial resources necessary to deploy new technologies across a wide range of products and powertrains in a short period of time.

Moreover, the potential threat of short-term tightening of laws and regulations, including local registration and usage restrictions, could further affect the automotive industry. In some cases, changes in customer behavior are not only brought on by new regulations but also through changes of opinion, values and environmental issues, which could be affected by perceptions of the industry as a whole. Among other factors, concerns about global climate change are affecting legislation, regulations and consumer behavior, which could affect demand for vehicles or requirements to develop new solutions for personal mobility. Additionally, a potential tightening of consumer protection laws could also result in a greater number of recalls.

The cost to comply with existing government regulations is substantial, and the effects of such regulations, as well as any future additional regulations could have a material adverse effect on BMW Group's business, net assets, financial condition or results of operations.

Export controls could affect BMW Group's ability to produce, market and sell its products across global markets

BMW Group maintains production and sales operations in a large number of markets globally. This requires an established and efficiently connected infrastructure allowing for the cross-border transport of supplies, parts and automobiles.

Laws and regulations regarding export controls may originate nationally, bilaterally or even multilaterally between participating jurisdictions with a differing reach as to national or even extra-territorial application and relevance. Typically, export controls will apply to the transfer of pre-identified, listed products or categories of sensitive goods through the requirements of permits, limitations or prohibitions of sale.

In recent years, politically distressed regions, warfare, terrorist attacks and other economic and geopolitical events have led to the introduction of new export controls or stricter application of existing export controls in a number of jurisdictions around the world, including the United States.

One of the main consequences for the Group and the automobile industry generally is the impact on supply chains as they relate to cross-border transfers. Specifically, increased export controls could negatively affect the Group's cross-border supply chain or delay the delivery of parts or automobiles from one market to another. This could lead to various disruptions to pre-established workflows and could result in an inability to meet production deadlines or adequately supply market demand for the Group's products.

In addition, the Group faces an increasing need for compliance measures, including the identification of critical goods, geographical sensitivities and contractual protections, as well as the adaptation of existing agreements and local sales practices and the ability to take short-term measures should events, trends or restrictions arise or increase in a way that affected the Group's business practices.

Consequently, BMW Group faces potential further increases in costs to be prepared for adverse developments of this type and for ongoing compliance with export controls relating to its commercial activities. Moreover, as export controls may change, be newly introduced on short notice, be difficult to interpret or be applied in an unexpected manner, there can be no assurances that the Group's internal controls and compliance systems are adequate to address all applicable risks.

If any of these risks were to materialise, this could have a material adverse effect on BMW Group's business, net assets, financial condition or results of operations.

Increases in or volatility of fuel prices could affect demand for BMW Group's products

As a premium vehicle manufacturer, BMW Group holds leading positions in markets for powerful premium and luxury vehicles. An increase in fuel prices from the current level, continued price volatility or reduced availability of fuel, particularly in the United States, could result in a weakening of demand for large and sporty vehicles, while increasing demand for small vehicles, which could lead to negative effects on vehicle mix and revenues and further lead to consumer or market shifts away from segments or automotive models where the Group holds a leading position or has a competitive product offering. As a result, fuel price increases or volatility in price trends could lead to changes in demand across product segments or consumer preferences, which could have a material adverse effect on BMW Group's business, net assets, financial condition or results of operations.

Production stoppages and downtimes could adversely impact BMW Group's ability to deliver products, meet customer expectations and maintain its market position

BMW Group is dependent on its global production and sales and marketing networks to economically and efficiently produce its vehicles, supply dealers and customers and maintain its market position. A work stoppage or other limitations of production could occur at the Group's or its suppliers' facilities for any number of reasons, including as a result of labor or other legal disputes, natural or man-made disasters, tight credit markets or other financial distress, production constraints or difficulties, or other factors such as manufacturing equipment breakdowns, logistical disruptions or new vehicle production line start-ups, IT disruptions, or for other reasons (such as fires or power failures). Such work stoppages, downtimes or other limitations on production at BMW Group or supplier facilities could disrupt the Group's ability to supply products in the short or long term and thereby materially adversely affect the Group's reputation, its brand perception, customer preferences and the Group's market positions.

If any of these risks were to materialise, this could have a material adverse effect on BMW Group's business, net assets, financial condition or results of operations.

Defects in vehicles could lead to recalls, legal and regulatory inquiries, costs or penalties and could affect BMW Group's reputation and brand image

BMW Group's performance depends on its ability to offer competitive prices while maintaining a high level of quality. The Group's vehicles are complex machines that depend on precise engineering and the integration of mechanical and electrical systems sourced from a number of production and assembly plants and suppliers. In addition, the trend towards introduction of new and innovative features and technology to the Group's vehicles further increases vehicle complexity and the risk of defects. To achieve efficient production and economies of scale, the Group, like other automotive manufacturers, often uses a core set of components or systems, and a select group of suppliers across vehicle and product segments. As a result, the increased complexity of modern vehicles coupled with modular-based production requires the Group to maintain exacting compliance and monitoring systems, as defects in vehicular systems or supplied products can affect a large number of vehicle models.

In addition, meeting or exceeding many government-mandated safety standards is costly and often technologically challenging, especially where standards may conflict with the need to reduce vehicle weight in order to meet government-mandated emissions and fuel efficiency standards. Regulations and standards have affected and, as new standards are continually introduced, are expected to continue to affect vehicle complexity and the adoption of common systems to achieve compliance. At the same time, applicable laws and governmental standards also require manufacturers to take actions to remedy defects related to vehicle safety through safety recall campaigns, and a manufacturer is obligated to recall vehicles if it determines that the vehicles do not comply with a safety standard. Defects in products can also lead to customer dissatisfaction and safety issues if such defects led to product failures or unsafe driving conditions, as well as reputational damage.

Should the Group or government safety regulators determine that a safety or other defect or non-compliance with applicable standards exists in the Group's vehicles prior to the start of production, the launch of such vehicles could be delayed until such defect is remedied. If defects are discovered following vehicle production and delivery, the Group may be required to undertake recalls or offer fixes or replacements for vehicle components, including those provided by the Group's suppliers.

For example, several BMW models are equipped with airbags which contain ammonium nitrate as a propellant. BMW is currently involved in litigation with regard to some of these airbags, including class actions and product liability lawsuits in the United States. Moreover, a part of the respective vehicle population has been recalled because of general safety concerns related to this propellant. Such recalls require the development and production of suitable replacement parts in sufficient quantity and the Group must rely on its specialised airbag suppliers in this regard. The remaining vehicle population is closely monitored by BMW and governmental authorities.

The costs associated with any protracted delay in new model launches necessary to remedy defects, or the cost of recall campaigns or warranty costs to remedy defects in vehicles that have been sold, could be substantial and may be considerably higher than those budgeted by the Group. In such situations, the Group could also face regulatory investigations and fines for non-compliance with various governmental standards or rules or it could face customer claims and litigation arising from any defects and resulting consequences on product use or safety. Particularly in the United States, class action lawsuits and product liability risks could have substantial financial consequences and cause damage to the Group's public image. Furthermore, any such incidents could also adversely affect the Group's reputation or market acceptance of its products.

Product defects could lead to liability risks and the need for costly replacement measures. Therefore, the Group seeks to hold appropriate insurance policies and takes other precautionary measures. Due in particular to difficulties in predicting the outcome of litigation proceedings in the United States, there can be no assurances that individual product liability claims would not exceed the applicable provisions or any available insurance coverage.

If any of these risks were to materialise this could have a material adverse effect on BMW Group's business, net assets, financial condition or results of operations.

BMW Group is dependent on its suppliers

BMW Group is dependent on its suppliers in the manufacture of the Group's vehicles. The increasing trend towards modular-based production with a set of common architectures covering various models and product lines has also increased the Group's dependence on suppliers and their ability to deliver products on time and in the required quality.

Many components used in the Group's vehicles are available only from a single supplier and cannot be sourced quickly or inexpensively from another supplier, if at all (due to, for example, long lead times or new contractual commitments that may be required by another supplier before ramping up production to provide the components or materials). Further, the increasing trend towards modular-based production with a set of common architectures covering various models and product lines exacerbates the consequences of the loss of an individual supplier or failure to supply on time. As a result, market and other developments that affect suppliers and automotive production generally, such as supplier interruptions due to financial distress and natural disasters, as well as capacity constraints as suppliers restructure and retool to meet shifting consumer preferences across vehicle segments and features, can in turn affect the Group's vehicle production.

Particularly, automotive suppliers could face increased economic distress due to a sudden and substantial drop in industry sales volumes. Lower industry sales volumes could, in turn, make existing debt obligations and fixed cost levels difficult for suppliers to manage, increasing pressure on the Group's supply base. The Group might be required to provide financial assistance to key suppliers to ensure an uninterrupted supply of materials and components. In addition, where suppliers have exited certain lines of business or closed facilities due to an economic downturn or other reasons, the Group has generally experienced additional costs associated with transitioning to new suppliers.

In addition to the general risks regarding interruption of supplies, which are particularly acute in the case of single-source suppliers, the exclusive supplier of a key component could potentially exert significant bargaining power over price, quality, warranty claims or other terms relating to a component or materials. In particular, suppliers could be unwilling to reduce prices and some might even request direct or indirect price increases as well as new and shorter payment terms.

While the Group has established a detailed supplier pre-selection process as part of its efforts to maintain relationships with high-quality, reliable suppliers, there can be no assurances that supplier issues would not have adverse consequences for the Group, ranging from increased expenditures to production interruptions and a corresponding reduction in sales volume. Particularly, supplier problems may require the Group to invest in new technological concepts and production methods, even unexpectedly, or discontinue planned innovations, increasing production costs above anticipated levels.

If any of these risks were to materialise this could have a material adverse effect on BMW Group's business, net assets, financial condition or results of operations.

BMW Group is party to a number of "take-or-pay" contracts

BMW Group has entered into a number of long-term supply contracts that require it to purchase a fixed quantity of parts to be used in the production of its vehicles. If the Group's need for any of these parts were to decrease, it could still be required to purchase a specified quantity of the part or pay a minimum amount to the seller pursuant to the take-or-pay contract, which could have a material adverse effect on the Group's business, net assets, financial condition or results of operations.

BMW Group's ability to effectively market and distribute its products is an integral part of its sales model

BMW Group's success in the sale of vehicles depends on its ability to market and distribute effectively based on distribution networks and sales techniques tailored to the needs of its customers. Further, in many jurisdictions, the Group's products are sold by automotive dealers, with whom the Group must maintain relationships and which it must integrate into its marketing, sales and product strategies. There can be no assurances that the Group will be able to develop sales techniques and distribution networks that effectively adapt to changing customer preferences or changes in the regulatory environment or local business practice in the major markets in which it operates.

In addition, laws and regulations in many jurisdictions govern sales practices and provide for governmental and private rights of action to address non-compliant practices. Failure to maintain well-developed sales techniques and distribution networks may result in decreased sales and market share or regulatory and legal inquiries and claims and could have a material adverse effect on BMW Group's business, net assets, financial condition or results of operations.

Competition in the automotive industry could lead to pricing and sales pressures

BMW Group faces competition from a number of international companies, as well as local and regional companies in the countries in which it operates. Increased competition and unanticipated actions by competitors or customers in the automotive industry could lead to downward pressure on prices or a decline in the Group's market share, which would adversely affect its results and impair its growth potential.

Intense competition exists in particular with regard to prices and product quality, as well as the development and launch periods of newly developed products carrying a higher profit risk due to marketing risks and high expenses for market development, product launch and market penetration. Further, new expertise on the part of competitors or new market entrants increase the risk that competitors might outperform the Group with respect to technological advances or vehicle development, which could lead to the Group potentially losing market share and suffering significant losses in sales volumes. Increased pressure on selling prices and margins caused by intense competition in global markets, particularly in Western Europe, the United States and China, also requires constant analysis.

If any of these risks were to materialise this could have a material adverse effect on BMW Group's business, net assets, financial condition or results of operations.

BMW Group is dependent on market acceptance of the Group's products

Many factors both within and outside of BMW Group's control affect the success of new or existing Group products in the marketplace. The Group seeks to offer highly desirable vehicles to overcome intensive price competition and meet market demand; however, the Group's new and existing vehicles and products might be perceived to be less desirable than those of the Group's competitors, whether in terms of price, quality, design, safety, overall value, fuel efficiency or other attributes. For example, if a new model were to experience quality issues at the time of launch, the vehicle's perceived quality could be affected even after the issues had been corrected, resulting in lower sales volumes, market

share, and profitability. The trend towards an increasing range of body styles, including “cross-over” body styles, based on customer expectations and competitive actions across the automotive industry implies that the Group must continually evaluate the position and market share of its individual brands and models to maintain its competitive position. In addition, with increased consumer interconnectedness through the Internet and other media, mere rumors or allegations relating to quality, safety, fuel efficiency, corporate social responsibility or other key product attributes can negatively impact the Group’s reputation or market acceptance of its products, even where such allegations prove to be inaccurate or unfounded.

If any of these risks were to materialise, they could have a material adverse effect on BMW Group’s business, net assets, financial condition or results of operations.

BMW Group’s success is dependent on its ability to maintain and develop its brand image

In the highly competitive automotive industry, BMW Group is dependent on maintaining and developing the brand image for its various brands. In order to maintain and develop a brand image, the Group must earn customers’ confidence by providing safe, high-quality products that meet customer demand and appeal to customers’ preferences. Moreover, as the Group is dependent on suppliers for several significant production components, perceptions of the Group’s quality can also be affected by the performance and quality of third-party supply components or broader perceptions of the automotive industry generally. If the Group is unable to effectively maintain and develop its brand image, for example as a result of an inability to provide safe, high-quality products or as a result of the failure to promptly implement safety measures such as recalls when necessary, vehicle unit sales or sale prices might decrease.

If any of these risks were to materialise, they could have a material adverse effect on BMW Group’s business, net assets, financial condition or results of operations.

BMW Group’s future success depends on its ability to offer new, attractive and energy-efficient products

Customers are increasingly emphasizing lower fuel consumption and emissions levels in their decision to purchase new vehicles. Alternative drive technologies (for example, electric powertrains or plug-in hybrid engines) are increasingly important to customers. A significant factor in BMW Group’s future success is its ability to recognise trends in customer requirements and technological developments, such as mobility services and autonomous driving, in sufficient time to react to these changes and thus adapt or maintain its existing product range and its competitive position in existing or new market segments.

The Group encounters research and development challenges as its products become more complex and as it introduces new, more environmentally friendly technologies. It may have difficulties in attaining stated efficiency targets without loss of quality. Further, it has entered into cooperative arrangements to research and develop new technologies. These research and development activities may not achieve their planned objectives. Additionally, the Group’s competitors or their joint ventures may develop better solutions and may be able to manufacture the resulting products more rapidly, in larger quantities, with higher quality or at lower cost. This could lead to increased demand for the Group’s competitors’ products and result in a loss of the Group’s market share.

As a result of the intensity of automotive competition and the pace of technological development, the Group faces continual pressure to develop new products and improve existing products in ever-shorter time periods. If the Group misjudges, delays recognition of, or fails to adapt its products and services to trends and customer requirements in individual markets or other changes in demand, its sales volumes could be adversely affected. If the Group makes fundamental or repeated misjudgments, it could lose customers, and the reputation of its affected brand could suffer. Such misjudgments may also lead to significantly unprofitable investments and associated costs.

If the Group encounters potential delays in bringing new vehicle models and technologies to market or if customers do not accept the new models the Group introduces, or if the other risks mentioned herein were to materialise, it could have a material adverse effect on BMW Group’s business, net assets, financial condition or results of operations.

BMW Group is dependent on good relationships with its employees and unions

BMW Group’s success is highly dependent on its employees and their expertise. Competition for highly qualified staff and management is very intense in the industry and the regions in which the Group operates. The Group’s future success also depends on the extent to which it succeeds over the

long term in recruiting, integrating and retaining executives, engineers and other specialists. Because of demographic developments, the Group must cope with changes relating to an aging workforce and must attract a sufficient number of qualified young talents with the potential to become the next generation of highly skilled specialists and executives.

Further, personnel expenses are a major cost for the Group. Employees at the Group's German locations and at a number of foreign subsidiaries have traditionally been heavily unionised. When current collective bargaining agreements and collective wage agreements expire, the Group may not be able to conclude new agreements on terms and conditions that it considers to be reasonable. Moreover, the Group may be able to conclude such agreements only after industrial actions, such as strikes or similar measures. In addition, the Group's competitors may obtain competitive advantages if they succeed in negotiating collective wage agreements on better terms and conditions than the Group. Foreign competitors, in particular, may also obtain competitive advantages due to more flexible legal environments.

If any of these risks were to materialise this could have a material adverse effect on BMW Group's business, net assets, financial condition or results of operations.

BMW Group has significant pension obligations to current and past employees which could increase due to factors beyond the Group's control

BMW Group's pension obligations to employees resulting from defined benefit plans are measured on the basis of actuarial reports. Future pension payments are discounted by reference to market yields on high-quality corporate bonds. These yields are subject to market fluctuation and therefore influence the level of pension obligations. Changes in other parameters, such as extended periods of low interest rates, increases in inflation and longer life expectancy, also impact pension obligations and payments. Changes in factors beyond the Group's control could lead to funding shortfalls relating to pension obligations, which could have a material adverse effect on the Group's business, net assets, financial condition or results of operations.

BMW Group is dependent on information technology and the integrity of its information and data

The importance of electronically processed data continues to increase, with information technology (IT) playing an increasingly crucial role in every aspect of BMW Group's business. The Group could suffer adverse consequences if the confidentiality, integrity or availability of its sensitive information and data is not maintained.

The Group is dependent on the efficient and uninterrupted functionality of its servers and data processing systems. If an interruption or breakdown of the Group's servers or data processing systems affecting the operation of one or more of its businesses occurs, this may have a detrimental impact on the Group's operations. Moreover, in a centralised and standardised IT environment, excessive dependence on a single system or a single data center could lead to serious consequences for the Group in the event of a system failure. Due to its worldwide operations, the Group strongly depends on complex IT. Also, the demands placed on IT facilities, both externally and internally, are changing at a rapid pace in the face of technological developments. As a result of the increasing complexity of electronic information and communication technology, the Group is exposed to various risks in this context, ranging from the loss or theft of data to stoppages and interruptions of the Group's IT systems. Indirectly, BMW Group could also be exposed to reputational risks, which are difficult to quantify.

The Group is also subject to data protection laws such as the German Federal Data Protection Act (*Bundesdatenschutzgesetz*) and similar regulations and these regulations are becoming more stringent, for example with the adoption of the EU General Data Protection Regulation in 2016. Unauthorised access to information stored by the Group or by a third party may cause damage to the Group's reputation, constitute infringement of administrative and criminal law and grant the affected persons a right to damage claims against the Group.

If any of these risks were to materialise this could have a material adverse effect on BMW Group's business, net assets, financial condition or results of operations.

BMW Group's operational systems, security systems or infrastructure are subject to cybersecurity risks

BMW Group could be at risk of interruptions, outages, and breaches of: (i) operational systems (including business, financial, accounting, product development, consumer receivables, data processing, or manufacturing processes); (ii) facility security systems or (iii) in-vehicle systems (e.g., "Connected Drive") or mobile devices, which have become an increasingly important component of vehicle control systems and mobility services. Such cyber incidents could materially disrupt operational systems; result in loss of trade secrets or other proprietary or competitively sensitive information; compromise personally identifiable information of customers, employees, or others; jeopardise the security of the Group's facilities or affect the performance of in-vehicle systems.

A cyber incident could be caused by malicious persons using sophisticated, targeted methods to circumvent firewalls, encryption, and other security defenses. A cyber incident might not be detected in time to prevent a breach of these systems. Any such incident could harm the Group's reputation and subject the Group to regulatory actions or litigation. If any of these risks were to materialise, this could have a material adverse effect on BMW Group's business, net assets, financial condition or results of operations.

BMW Group is dependent on good relationships with its joint venture partners

BMW Group has entered, and may from time to time enter, into joint ventures with strategic partners for research and development and market launches, particularly in emerging and developing markets and with respect to large projects. One of the most important current such relationships relates to BMW Brilliance Automotive Ltd., Shenyang, which produces, markets and sells various BMW brand models for the Chinese market.

In the agreements related to the relevant joint venture, the Group has undertaken certain obligations. If it were to fail to fulfill such obligations, in whole or in part, the Group could become subject to claims for damages and contractual penalties or the joint venture agreement may be terminated. In addition, a breach of contract by joint venture partners or unforeseen events may impair the successful implementation of a project.

Moreover, the success of the Group's joint ventures requires that the partners constructively pursue the same goals. If the Group were to decide to divest its shareholdings or to withdraw from a joint venture, it might not be able to find a buyer for its shares or be able to sell such shares for other reasons, or its joint venture partner may claim damages.

Additionally, it is possible that the Group's partners may use, outside of the scope of the joint venture project, technologies acquired in the course of the joint venture or otherwise misappropriate trade secrets or competitive advantages from the relationship.

If any of these risks were to materialise, the Group might lose orders and customers and endanger its strategic market position in the relevant markets which, in turn, may result in a time-consuming and costly search for alternative partners and the loss of investments already made. The occurrence of these risks could have a material adverse effect on BMW Group's business, net assets, financial condition and results of operations.

BMW Group is exposed to volatility and changes in foreign currency exchange rates, arising from its international production, distribution and sales networks

As an internationally operating enterprise, BMW Group conducts business in a variety of currencies, thus giving rise to currency risks. Since a substantial, and in recent years increasing, portion of the Group's revenues is generated outside the eurozone (particularly in China (renminbi), the United States (dollar) and the United Kingdom (British pound)) and the procurement of production materials and funding is also organised on a worldwide basis, fluctuations in exchange rates can have a significant impact on the Group's earnings.

The Group measures currency exposure using cash-flow-at-risk models and scenario analyses. In addition, the Group is also exposed to currency translation risk, as the financial statements of foreign consolidated subsidiaries prepared in a foreign currency are translated into euro, with income and expenses translated at the average exchange rate and assets and liabilities translated at the closing rate for the relevant period.

The Group seeks to manage currency risks on both a strategic (medium- and long-term) and operating level (short- and medium-term). Medium- and long-term measures include increasing production volumes in non-euro-region countries (natural hedging) and increasing purchase volumes denominated in foreign currencies. Currency risks are managed in the short to medium term and, for operational purposes, by means of hedging. Nevertheless, changes in currency exchange rates cannot always be predicted or hedged, and there can be no assurances that the Group's strategies will be successful in reducing currency risks.

If any of these risks were to materialise, this could have a material adverse effect on BMW Group's business, net assets, financial condition or results of operations.

Significant changes in prices of raw materials and commodities could lead to increased costs in producing and distributing BMW Group vehicles

The Group requires significant amounts of raw materials and commodities in the manufacture of its products. Changes in prices of raw materials and commodities are monitored on the basis of a set of specific management procedures. The principal objective of these management processes is to increase planning reliability for the Group and its production decisions and forecasts. Price risks relating to precious metals (platinum, palladium and rhodium) and non-ferrous metals (aluminum, copper and lead), and, to some extent, to steel and steel ingredients (iron ore and coking coal) and energy (gas and electricity) are hedged using financial derivatives or supply contracts with fixed pricing arrangements. Nevertheless, changes in raw material and commodities prices cannot always be predicted or hedged. Should the Group fail to adequately address commodity price changes or volatility, it could lead to increased costs for producing and distributing the Group's vehicles, which could have a material adverse effect on BMW Group's business, net assets, financial condition or results of operations.

BMW Group is dependent on securing financing on attractive terms to provide liquidity to develop its business.

In the normal course of business, BMW Group makes use of bonds, commercial paper and securitised transactions as well as bank credit facilities in various currencies, primarily to finance the Group's leasing and sales-financing business. Any negative development in the capital markets could increase the Group's financing costs or ability to access capital and sources of financing. More expensive refinancing would also have a negative effect on the competitiveness and profitability of the Group's financial services business if it were unable to pass on the higher refinancing costs to its customers. A limitation of the financial services business would have a negative impact on the automotive business, if it affected consumers' ability to purchase the Group's vehicles.

If any of these financial risks were to materialise, this could have a material adverse effect on BMW Group's business, net assets, financial condition or results of operations.

BMW Group is exposed to interest rate risks through its various financing programs

Interest rate risks relate to potential losses caused by changes in market interest rates and can arise when fixed interest rate periods for assets and liabilities recognised in the balance sheet do not match. Interest rate risks are managed by raising refinancing funds with matching maturities and by employing interest rate derivatives. BMW Group monitors and manages these exposures as an integral part of its overall risk management program which recognises the unpredictability of markets and seeks to reduce potentially adverse effects on its business. Nevertheless, changes in interest rates cannot always be predicted or adequately hedged.

If any of these risks were to materialise, this could have a material adverse effect on BMW Group's business, net assets, financial condition or results of operations.

BMW Group is dependent on its counterparties maintaining their operations and creditworthiness

Credit and counterparty default risk arises if a contractual partner (e.g., a customer or dealer) either becomes unable or is only partially able to fulfil its contractual obligations, such that lower income is generated or losses are incurred. BMW Group uses a variety of rating systems in order to assess the creditworthiness of its contractual partners, but there can be no assurances that such systems will be effective in all circumstances or those contractual parties will maintain sufficient creditworthiness.

Credit risk typically arises from the possibility of loss from a customer's or dealer's failure to make payments according to contract terms, particularly in the Group's leasing and financing business. Credit risk (which is dependent upon economic factors including unemployment, consumer debt service burden, personal income growth, dealer profitability, and used car prices) has a significant impact on the Group's business. If the Group experiences a high or unexpected level of credit losses, it could materially adversely affect its business, net assets, financial condition or results of operations.

The success of BMW Group's financial services business depends on vehicles' residual values developments

In recent years, the volume of vehicles BMW Group leases and finances has increased. For the vehicles it leases, BMW Group projects expected residual values and return volumes. Actual proceeds the Group realises upon the sale of returned leased vehicles at lease termination may be lower than the amount projected, which would reduce the profitability of the lease transaction. Among the factors that can affect the value of returned lease vehicles are the volume of vehicles returned, the maturity profile of outstanding leases, economic conditions and price levels in used vehicle markets, and quality or perceived quality, safety, fuel efficiency or reliability of the Group's vehicles.

If any of these risks were to materialise, this could have a material adverse effect on BMW Group's business, net assets, financial condition or results of operations.

BMW Group is required to comply with numerous laws and regulations in multiple jurisdictions

Compliance with laws is a basic prerequisite for the success of BMW Group. Current laws provide the binding framework for the Group's various business activities around the world. The growing international scale of operations of the Group, the complexity of the business world and a broad set of complex legal regulations potentially applicable to the Group's business increase the risk of laws not being adhered to, simply because they are not known, fully understood or are subject to varying interpretations.

The Group has established a compliance organisation aimed at ensuring that its representative bodies, managers and staff act in a lawful manner at all times. Nevertheless, there remains a risk that the Group's employees may not act in compliance with applicable statutory provisions or the Group's compliance systems (including with respect to antitrust, anti-corruption, export control or consumer protection laws) or that the Group's internal controls and compliance systems are not adequate to maintain compliance with applicable laws and that, as a result, penalties, liabilities or additional compliance costs could be imposed on the Group.

The Group is confronted with legal disputes relating, in particular, to warranty claims, sales practices, product liability and infringements of protected rights. Further, the Group may also be subject to investigations and other proceedings initiated by government agencies. Any of these matters could, among other outcomes, have an adverse impact on the Group's reputation. Such proceedings are typical for the sector and can arise as a consequence of realigning product or purchasing strategies to suit changed market conditions. Particularly in the U.S. market, class action lawsuits and product liability risks could have substantial financial consequences and cause damage to the Group's public image.

When known and quantifiable, the Group seeks to recognise appropriate levels of provisions for lawsuits in accordance with applicable accounting standards. It cannot be ruled out that losses from damages could arise which are either not covered or not fully covered by provisions. Some risks cannot be assessed in full or cannot be provided for in the Group's accounts, and new legal risks, as yet unidentified, could also materialise. If any of these risks were to materialise, this could have a material adverse effect on the Group's business, net assets, financial condition or results of operations.

BMW Group is dependent on its compliance and risk management systems

BMW Group's compliance and risk management systems may prove to be inadequate to prevent and discover breaches of laws and regulations and to identify, measure and take appropriate countermeasures against all relevant risks.

In connection with the Group's worldwide business operations, it must comply with a broad range of legal and regulatory requirements in a number of jurisdictions and local operational business processes, particularly relating to sales practices. Moreover, the Group has expanded its worldwide

operations in recent years, particularly in China and emerging markets, increasing the scope of applicable regulations and operational practices. The Group has a compliance management system that supports its operational business processes, helps to ensure compliance with legislative provisions and, where necessary, initiates appropriate countermeasures. There can be no assurances that the Group's internal controls and compliance systems are adequate to address all applicable risks in every jurisdiction.

Members of the Group's governing bodies, employees, authorised representatives or agents may intentionally or unintentionally violate applicable laws and internal standards and procedures. The Group may not be able to identify such violations, evaluate them correctly or take appropriate countermeasures. Furthermore, the Group's compliance and risk management systems may not be appropriate given its size, complexity and geographical diversification and may fail for various reasons.

The occurrence of these risks may result in reputational loss and adverse legal consequences, such as the imposition of fines, sanctions and penalties on the Group or the members of the Group's governing bodies or employees and could lead to the assertion of damages claims by third parties or to other detrimental legal consequences, including civil and criminal penalties. The Group is particularly exposed to these risks with respect to its minority interests and joint ventures, where it is difficult, and in some cases possible only to a limited extent, to integrate these entities fully into the Group's compliance and risk management system.

If any of these risks were to materialise, this could have a material adverse effect on BMW Group's business, net assets, financial condition or results of operations.

Unusual or significant litigation, governmental investigations or adverse publicity could adversely affect BMW Group

Compliance with governmental standards does not necessarily prevent individual or class actions, which can entail significant cost and risk. In certain circumstances, courts may permit tort claims even where BMW Group's vehicles comply with applicable laws and regulations. Furthermore, simply responding to actual or threatened litigation or governmental investigations of the Group's compliance with regulatory standards, competition laws or other legal requirements, whether related to the Group's products or business or commercial relationships, may require significant expenditures of time and resources. Litigation also is inherently uncertain, and the Group could experience significant adverse results. In addition, adverse publicity surrounding an allegation may cause significant reputational harm that could affect public perception of the Group's brand or market demand for its products. If any of these risks were to materialise, this could have a material adverse effect on BMW Group's business, net assets, financial condition or results of operations. For further information on litigation, please see "*Business—Legal and Arbitration Proceedings.*"

A decrease in or cessation or claw-back of government incentives could affect BMW Group's results of operations

BMW Group receives economic benefits from national, state, and local governments in various regions of the world in the form of incentives designed to encourage manufacturers to establish, maintain, or increase investment, workforces or production.

These incentives may take various forms, including grants, loan subsidies, and tax abatements or credits. The impact of these incentives can be significant in a particular market. A decrease in, expiration without renewal of, or other cessation or claw-back of government incentives for any of the Group's business units, as a result of administrative decision or otherwise, could have a material adverse effect on the Group's business, net assets, financial condition or results of operations.

BMW Group's international operations give rise to complex tax matters

BMW Group is subject to regular tax and customs audits. Ongoing or future tax and customs audits may lead to demands for back taxes, tax penalties, interest, customs and similar payments. Such payments may arise, for example, from the full or partial non-recognition of intra-group transfer prices. In countries where there are no limitation periods for tax payments (such as China), the Group may also face demands for back taxes relating to any earlier period. As a result, the Group's provisions for tax and customs risks may be insufficient to cover any actual settlement amount. Risks may also arise due to changes in tax or customs laws or accounting principles.

If any of these risks were to materialise, this could have a material adverse effect on BMW Group's business, net assets, financial condition or results of operations.

BMW Group's insurance coverage may not be sufficient or its insurance premiums may increase

BMW Group maintains insurance coverage in relation to a number of risks associated with its business activities that are subject to standard exclusions, such as willful misconduct. However, the Group may suffer losses or claimants may bring claims against the Group that exceed the type and scope of its existing insurance coverage. Significant losses could lead to higher insurance premium payments. In addition, there are certain risks for which the Group does not maintain coverage based on the Group's cost-benefit analysis, and it therefore has no insurance against these events. If the Group sustains damage for which there is no insurance coverage or insufficient insurance coverage, or if it has to pay higher insurance premiums or encounters restrictions on insurance coverage, this could materially adversely affect its business, net assets, financial condition or results of operations.

3. Risks relating to the Notes

General Risks Relating to the Notes

Independent Review and Advice

Each prospective investor of Notes must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its acquisition of the Notes is fully consistent with its (or if it is acquiring the Notes in a fiduciary capacity, the beneficiary's) financial needs, objectives and condition, complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it (whether acquiring the Notes as principal or in a fiduciary capacity) and is a fit, proper and suitable investment for it (or if it is acquiring the Notes in a fiduciary capacity, for the beneficiary), notwithstanding the clear and substantial risks inherent in investing in or holding the Notes.

A prospective investor may not rely on the Issuers, the Guarantor or the Dealer(s) or any of their respective affiliates in connection with its determination as to the legality of its acquisition of the Notes or as to the other matters referred to above.

There is no active Secondary/Trading Market for the Notes

Notes issued under the Programme will be new securities which may not be widely distributed and for which there is currently no active trading market (unless in the case of any particular Tranche, such Tranche is to be consolidated with and form a single series with a Tranche of Notes which is already issued). If the Notes are traded after their initial issuance, they may trade at a discount to their initial offering price, depending upon prevailing interest rates, the market for similar securities, general economic conditions and the financial condition of the relevant Issuer and the Guarantor. Although, in relation to Notes issued under this Programme application may be made to the Luxembourg Stock Exchange for such Notes to be admitted to trading on the regulated market of the Luxembourg Stock Exchange, or to other or further stock exchanges as may be, agreed between the relevant Issuer and the relevant Dealer(s) in relation to each Tranche, as specified in the relevant Final Terms, there is no assurance that such applications will be accepted, that any particular Tranche of Notes will be so admitted or that an active trading market will develop. Accordingly, there is no assurance as to the development or liquidity of any trading market for any particular Tranche of Notes.

Because Global Notes representing the Notes are held by or on behalf of Clearstream Luxembourg or Euroclear or CBF or a Clearing System that has entered into a book entry agreement with the Issuer (a "Specified Clearing System"), investors will have to rely on their procedures for transfer, payment and communication with the relevant Issuer and/or the Guarantor

Notes issued under the Programme may be represented by one or more Global Notes. Such Global Notes will be deposited with a Common Depository for Clearstream Luxembourg and/or Euroclear and/or a Specified Clearing System or with a Common Safekeeper for Clearstream Luxembourg and/or Euroclear and/or a Specified Clearing System, as the case may be, or will be deposited directly with CBF or any other Specified Clearing System, as the case may be. Except in the limited circumstances described in the applicable Final Terms, investors whose Notes are deposited with CBF

and/or a Specified Clearing System will not be entitled to receive definitive Notes. Clearstream Luxembourg and Euroclear and CBF and each Specified Clearing System will maintain records of the co-ownership participations in the Global Notes. While the Notes are represented by one or more Global Notes, investors will be able to trade their coownership participations only through Clearstream Luxembourg and/or Euroclear and/or CBF and/or a Specified Clearing System, as the case may be.

While the Notes are represented by one or more Global Notes the Issuer and the Guarantor will discharge their payment obligations under the Notes by making payments to the Common Depositary for Clearstream Luxembourg and Euroclear or to the Common Safekeeper for Clearstream Luxembourg and/or Euroclear and/or the Specified Clearing System, as the case may be, or to CBF or to a Specified Clearing System (through the Principal Paying Agent) for distribution to their account holders. A holder of a co-ownership participation in a Global Note must rely on the procedures of Clearstream Luxembourg and Euroclear and CBF and any Specified Clearing System to receive payments under the relevant Notes. The Issuer and the Guarantor have no responsibility or liability for the records relating to, or payments made in respect of, the co-ownership participations in the Global Notes.

Holders of co-ownership participations in the Global Notes will not have a direct right to vote in respect of the relevant Notes. Instead, such holders will be permitted to act only to the extent that they are enabled by Clearstream Luxembourg and Euroclear and CBF and such Specified Clearing System to appoint appropriate proxies.

Exchange Rates

Prospective investors of the Notes should be aware that an investment in the Notes may involve exchange rate risks. The reference assets or the Notes may be denominated in a currency other than the currency of the purchaser's home jurisdiction; and/or the reference assets or the Notes may be denominated in a currency other than the currency in which a purchaser wishes to receive funds. Exchange rates between currencies are determined by factors of supply and demand in the international currency markets which are influenced by macro-economic factors, speculation and central bank and government intervention (including the imposition of currency controls and restrictions). Fluctuations in exchange rates may affect the value of the Notes or the reference assets.

Legality of Purchase

None of the Issuers, the Guarantor, the Dealer(s) or any of their respective affiliates has or assumes responsibility for the lawfulness of the acquisition of the Notes by a prospective investor of the Notes, whether under the laws of the jurisdiction of its incorporation or the jurisdiction in which it operates (if different), or for compliance by that prospective investor with any law, regulation or regulatory policy applicable to it.

Taxation

General

Potential purchasers and sellers of the Notes should be aware that they may be required to pay future or present taxes, fees or other documentary charges or duties in accordance with the laws and practices of the country where the Notes are transferred or other jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available for innovative financial notes such as the Notes. Potential investors are advised not to rely upon the tax summary contained in this document and/or in the Final Terms but to ask for their own tax advisers' advice on their individual taxation with respect to the acquisition, sale and redemption of the Notes. Only these advisors are in a position to duly consider the specific situation of the potential investor. This investment consideration has to be read in connection with Part G ("Taxation") of this Prospectus.

Payments under the Notes may be subject to withholding tax pursuant to FATCA

Payments of interest on the Notes and, beginning 1 January 2019, payments of gross proceeds from the sale, exchange or redemption of the Notes to "foreign financial institutions" with respect to the Notes by BMW US Capital may, under certain circumstances, be subject to withholding of U.S. tax at a rate of 30.00% pursuant to Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986, as amended and the regulations promulgated thereunder ("FATCA") unless the payee foreign financial institution (1) enters into an agreement with the U.S. Internal Revenue Service (or other relevant taxing authority) to, among other things, disclose the identity of certain U.S. account holders at the institution (or the institution's affiliates), annually report certain information about such accounts or,

(2) where an applicable intergovernmental agreement between the United States and another jurisdiction applies, disclose and provide such information to the taxing authority in such jurisdiction and comply with applicable rules or laws implementing such intergovernmental agreement implementing FATCA in a specific jurisdiction or (3) is otherwise deemed compliant with FATCA. A foreign financial institution is defined broadly under FATCA to include non-U.S. banks, non-U.S. custodians and certain non-U.S. investment vehicles engaged in investing, reinvesting or trading in financial assets. Payments of the foregoing amounts made to certain other foreign entities that do not disclose certain information about any substantial U.S. owners (or certify that they do not have any substantial U.S. owners) may also be subject to withholding at the rate of 30.00% under FATCA.

With respect to Notes issued after the date that is six months after the date that final U.S. treasury regulations define the term “foreign passthru payment” (the “Passthru Payment Grandfathering Date”) or Notes materially modified after the Passthru Payment Grandfathering Date by any Issuer other than BMW US Capital, the Issuer may, beginning on the later of 1 January 2019 or the date that final U.S. treasury regulations define the term “foreign passthru payment”, under certain circumstances, be required under FATCA, to withhold U.S. tax at a rate of 30.00% on all or a portion of payments of principal and interest which are treated as “passthru payments” made to certain holders that do not comply with certain information requests and to foreign financial institutions that do not comply with the requirements described in the preceding paragraph.

The United States and a number of other jurisdictions have entered into intergovernmental agreements to facilitate the implementation of FATCA in such jurisdiction (each, an “IGA”). Pursuant to FATCA and the “Model 1” and “Model 2” IGAs released by the United States, an FFI in an IGA signatory country which is in compliance with applicable legal requirements could be treated as a “Reporting FI” that is generally not subject to withholding under FATCA on any payments it receives. Further, an FFI in a Model 1 IGA jurisdiction would generally not be required to withhold under FATCA, any other IGA or any law implementing an IGA, from payments it makes (unless it has agreed to do so under the U.S. “qualified intermediary,” “withholding foreign partnership,” or “withholding foreign trust” regimes). The Model 2 IGA leaves open the possibility that a Reporting FI might in the future be required to withhold on foreign passthru payments and payments that it makes to holders that do not provide the requisite information. Under each Model IGA, regardless of any withholding required to be made, a Reporting FI would be required to report certain information in respect of its account holders and investors to the tax authority of the relevant IGA signatory country or to the U.S. Internal Revenue Service, as applicable. The Federal Republic of Germany and the Netherlands have each entered into an IGA with the United States based largely on the Model 1 IGA. Japan has entered into an IGA with the United States based largely on the Model 2 IGA. The government of each of these countries is required to pass legislation to impose the IGA obligations under local law. The implications of the FATCA regime to financial institutions (or investors holding notes through financial institutions) in such jurisdictions will depend on the final form of this implementing legislation, associated guidance and the manner in which it is administered. There can be no assurance that any Issuer will be treated as a Reporting FI or that it would not be required to withhold under FATCA or pursuant to an applicable IGA.

If an amount in respect of U.S. withholding tax were to be deducted or withheld from interest, principal or other payments on the Notes as a result of a holder’s failure to comply with FATCA, none of the Issuer, the Guarantor (if any), any paying agent or any other person would pursuant to the conditions of the Notes be required to pay additional amounts as a result of the deduction or withholding of such tax.

If, on or after the Passthru Payment Grandfathering Date pursuant to § 10 in the Terms and Conditions of the Notes, a New Issuer is substituted for the Issuer of Notes outstanding on the Passthru Payment Grandfathering Date and if such substitution results in a deemed exchange of the Notes for U.S. federal income tax purposes, then such Notes would be considered “materially modified” under FATCA and would not be treated as outstanding as of the Passthru Payment Grandfathering Date so could become subject to withholding under FATCA.

In addition, if on or after the Passthru Payment Grandfathering Date, pursuant to § 11 in the Terms and Conditions of the Notes, the Issuer issues additional Notes, such Notes would not be treated as outstanding as of the Passthru Payment Grandfathering Date unless they are issued pursuant to a “qualified reopening” for U.S. federal income tax purposes. If such additional Notes are not issued in a “qualified reopening”, such additions and the Notes would become subject to withholding under FATCA.

Market Value of the Notes

The market value of the Notes will be affected by the creditworthiness of the relevant Issuer and the Guarantor and a number of additional factors, including, but not limited to, the interest structure of the Notes (including caps relating to interest payments), reference rates, market interest and yield rates and the time remaining to the maturity date.

The value of the Notes or reference rates depends on a number of interrelated factors, including economic, financial and political events in the Federal Republic of Germany or elsewhere, including factors affecting capital markets generally and the stock exchanges on which the Notes are traded. The price at which a Noteholder (as defined below) will be able to sell the Notes prior to maturity may be at a discount, which could be substantial, to the issue price or the purchase price paid by such purchaser. The historical market prices of the reference rates should not be taken as an indication of the reference rates' performance during the term of any Note.

Change of Law

The Terms and Conditions of the Notes are based on German law in effect as of the date of this Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to German law or administrative practice after the date of this Prospectus.

Renminbi ("CNY") denominated Notes ("CNY Notes")

CNY is not freely convertible and there are significant restrictions on the remittance of CNY into and out of the People's Republic of China (the "PRC") which may adversely affect the liquidity of CNY Notes.

Renminbi is not freely convertible at present. This may adversely affect the liquidity of the Notes. The availability of CNY funds for servicing the Notes may be subject to future limitations imposed by the PRC government.

The PRC government continues to regulate conversion between Renminbi and foreign currencies, including the euro, despite the significant reduction over the years by the PRC government of control over routine foreign exchange transactions under current accounts. Currently participating banks in offshore Renminbi settlement centres (including Singapore, Hong Kong, Macau, Taiwan, Paris, Luxembourg, Doha, Sydney, Toronto, Kuala Lumpur, Bangkok, Seoul, London, Frankfurt, Santiago, Budapest, Johannesburg, Buenos Aires and Lusaka, together the "**CNY Settlement Centres**") have been permitted to engage in the settlement of CNY trade transactions. This represents a current account activity.

On 7 April 2011, the State Administration of Foreign Exchange of the PRC (the "**SAFE**") promulgated the Circular on Issues Concerning the Capital Account Items in connection with Cross-Border Renminbi (the "**SAFE Circular**"), which became effective on 1 May 2011. According to the SAFE Circular, in the event that foreign investors intend to use cross-border Renminbi (including offshore Renminbi and onshore Renminbi held in the accounts of non-PRC residents) to make contribution to an onshore enterprise or make payment for the transfer of equity interest of an onshore enterprise by a PRC resident, such onshore enterprise shall be required to submit the relevant prior written consent from the Ministry of Commerce of the PRC (the "**MOFCOM**") to the relevant local branches of the SAFE of such onshore enterprise and register for a foreign invested enterprise status. Further, the SAFE Circular clarifies that the foreign debts borrowed, and the external guarantee provided, by an onshore entity (including a financial institution) in CNY shall, in principle, be regulated under the current PRC foreign debt and external guarantee regime.

On 13 October 2011, the People's Bank of China, the central bank of the PRC (the "**PBOC**") issued the Measures on Administration of the CNY Settlement in relation to Foreign Direct Investment (the "**PBOC CNY FDI Measures**"), as part of implementation of the PBOC's detailed CNY foreign direct investment ("**CNY FDI**") accounts administration system, which covers almost all aspects of CNY FDI, including capital injection, payment of purchase price in the acquisition of PRC domestic enterprises, repatriation of dividends and other distributions, as well as CNY denominated cross-border loans. Under the PBOC CNY FDI Measures, special approval for CNY FDI and shareholder loans from the PBOC, which was previously required, is no longer necessary. In some cases however, post-event filing with the PBOC is still necessary.

On 14 June 2012, PBOC further promulgated the Notice on Clarifying the Detailed Operating Rules for CNY Settlement of Foreign Direct Investment ("**PBOC CNY FDI Notice**") to provide further guidelines for implementing the previous PBOC CNY FDI Measures. This PBOC CNY FDI Notice details the rules

for opening and operating the relevant accounts and reiterates the restrictions upon the use of the funds within different CNY accounts.

On 5 July 2013, PBOC promulgated the Circular on Policies related to Simplifying and Improving Cross-border Renminbi Business Procedures (Yin Fa (2013) No. 168) (the “**2013 PBOC Circular**”), which, among other things, provides more flexibility for fund transfers between the Renminbi accounts held by offshore participating banks at PRC onshore banks and offshore clearing banks respectively. Various relaxations have been introduced under this circular but the regulatory position is not entirely clear and practical uncertainties exist.

On 3 December 2013, the MOFCOM promulgated the Circular on Issues in relation to Cross-border Renminbi Foreign Direct Investment (the “**MOFCOM Circular**”), which became effective on 1 January 2014, to further facilitate CNY FDI by simplifying and streamlining the applicable regulatory framework. The MOFCOM Circular replaced the Notice on Issues in relation to Cross-border Renminbi Foreign Direct Investment promulgated by MOFCOM on 12 October 2011 (the “**2011 MOFCOM Notice**”). Pursuant to the MOFCOM Circular, written approval from the appropriate office of MOFCOM and/or its local counterparts specifying “Renminbi Foreign Direct Investment” and the amount of capital contribution is required for each CNY FDI. Compared with the 2011 MOFCOM Notice, the MOFCOM Circular no longer contains the requirements for central level MOFCOM approvals for investments of CNY 300 million or above, or in certain industries, such as financial guarantee, financial leasing, micro-credit, auction, foreign invested investment companies, venture capital and equity investment vehicles, cement, iron and steel, electrolyse aluminium, ship building and other industries under the state macro-regulation. Unlike the 2011 MOFCOM Notice, the MOFCOM Circular has also removed the approval requirement for foreign investors who intend to change the currency of their existing capital contribution from a foreign currency to CNY. In addition, the MOFCOM Circular still prohibits CNY FDI funds from being used for any investments in securities and financial derivatives (except for strategic investments in PRC listed companies) or for entrustment loans in the PRC.

On 13 February 2015, the SAFE promulgated the Notice on Further Simplifying and Improving Foreign Exchange Administration Policy of Direct Investment (Hui Fa (2015) No. 13) (the “**2015 SAFE Notice**”), which became effective on and from 1 June 2015. Under the 2015 SAFE Notice, SAFE delegates the authority of approval/registration for direct investment (inbound and outbound) related matters to commercial banks. However, this 2015 SAFE Notice only applies to direct investment activities in foreign currency, and whether and how it would affect the Renminbi direct investment regime is currently unknown.

On 26 January 2017, the SAFE issued the Notice on Further Promoting Foreign Exchange Management Reform by Improving Real Compliance Audit (the “**2017 SAFE Notice**”) which seeks to further regulate the foreign exchange management in relation to trading. Domestic institutions should handle their currency conversion trade finance businesses and process export earnings timely in accordance with the principle of “who exports, who receives payment, who imports and who makes payment”. The 2017 SAFE Notice is also part of the PRC foreign debt, outbound loan and cross-border security regimes applicable to foreign currencies. For instance, the 2017 SAFE Notice states that in order for a domestic institution to carry out cross-border lending, the aggregate of the balance of domestic currency loans and foreign currency denominated loans shall not exceed 30 per cent. of the owner's equity as set out in the previous years' audited financial statements. However, there remain potential inconsistencies between these provisions and the existing PBOC rules, and it is currently unclear as to how regulators may address such inconsistencies in practice.

As the PBOC CNY FDI Measures, PBOC CNY FDI Notice, 2013 PBOC Circular, the MOFCOM Circular, the 2015 SAFE Notice and the 2017 SAFE Notice are relatively new regulations, they will be subject to interpretation and application by the relevant PRC authorities. The reforms which are being introduced and will be introduced in the Shanghai FTZ (as defined in “**PRC Currency Controls**”) aim to upgrade cross-border trade, liberalise foreign exchange control, improve convenient cross-border use of Renminbi and promote the internationalisation of Renminbi. However, given the infancy stage of the Shanghai FTZ, how the reforms will be implemented and whether (and if so when) the reforms will be rolled out throughout China remain uncertain.

Although since 1 October 2016 CNY has been included in the basket of currencies that make up the Special Drawing Rights (SDR) created by the International Monetary Fund (IMF), there is no assurance that the PRC government will continue to gradually liberalise a control over cross-border CNY remittances in the future, that the schemes for CNY cross-border utilisation will not be discontinued or that new PRC regulations will not be promulgated in the future which have the effect of restricting or eliminating the remittance of Renminbi into or out of the PRC. In the event that funds cannot be repatriated out of the PRC in Renminbi, this may affect the overall availability of Renminbi

outside the PRC and the ability of the Issuer to source Renminbi to perform its obligations under Notes denominated in Renminbi.

There is only limited availability of CNY outside the PRC, which may affect the liquidity of the Notes and the Issuer's ability to source CNY outside the PRC to service the Notes.

As a result of the restrictions by the PRC government on cross-border Renminbi fund flows, the availability of Renminbi outside of the PRC is limited. Currently, licensed banks in Singapore and Hong Kong may offer limited Renminbi-denominated banking services to Singapore residents, Hong Kong residents and specified business customers. The PBOC has entered into agreements on the clearing of CNY business with financial institutions in a number of financial centers and cities (each a "**CNY Clearing Bank**"), which will act as the CNY clearing bank in the applicable CNY Settlement Centre, and is in the process of establishing CNY clearing and settlement mechanisms in several other jurisdictions (the "**Settlement Arrangements**").

However, the current size of Renminbi-denominated financial assets outside the PRC is limited. There are restrictions imposed by the PBOC on CNY business participating banks in respect of cross-border CNY settlement, such as those relating to direct transactions with PRC enterprises. Furthermore, Renminbi business participating banks do not have direct Renminbi liquidity support from the PBOC. They are only allowed to square their open positions with the relevant CNY Clearing Bank after consolidating the Renminbi trade position of banks outside the CNY Settlement Centres that are in the same bank group of the participating bank concerned with their own trade position and the relevant CNY Clearing Bank only has access to onshore liquidity support from the PBOC for the purposes of squaring open positions of participating banks for limited types of transactions, including open positions resulting from conversion services for corporations relating to cross-border trade settlement. The relevant CNY Clearing Bank is not obliged to square for participating banks any open positions resulting from other foreign exchange transactions or conversion services. In such cases, the participating banks will need to source Renminbi from the offshore market to square such open positions.

Although it is expected that the offshore Renminbi market will continue to grow in depth and size, its growth is subject to many constraints as a result of PRC laws and regulations on foreign exchange. There is no assurance that new PRC regulations will not be promulgated or the Settlement Agreements will not be terminated or amended in the future which will have the effect of restricting availability of Renminbi offshore. The limited availability of Renminbi outside the PRC may affect the liquidity of the Issuer's CNY Notes. To the extent the Issuer is required to source Renminbi in the offshore market to service its CNY Notes, there is no assurance that the Issuer will be able to source such Renminbi on satisfactory terms, if at all.

If the Issuer cannot obtain Renminbi to satisfy its obligation to pay interest and principal on its CNY Notes as a result of Inconvertibility, Non-transferability or Illiquidity (each, as defined in "§ 4 (7) *Payments on Notes denominated in Renminbi*" in the Terms and Conditions of the Notes), the Issuer shall be entitled to settle such payment (in whole or in part) in U.S. dollars at the USD Equivalent (as defined in "§ 4 (7) *Payments on Notes denominated in Renminbi*" in the Terms and Conditions of the Notes).

Investments in the CNY Notes are subject to CNY exchange rate risks.

The value of the Renminbi against the euro and other foreign currencies fluctuates from time to time and is affected by changes in the PRC and international political and economic conditions and by many other factors. Recently, the PBOC implemented changes to the way it calculates the CNY's daily mid-point against the U.S. dollar to take into account market-maker quotes before announcing such daily mid-point. This change, and others that may be implemented, may increase the volatility in the value of the CNY against foreign currencies. Except in the limited circumstances as described in the Terms and Conditions of the Notes, the Issuer will make all payments of interest and principal with respect to the CNY Notes in Renminbi. As a result, the value of these Renminbi payments in euro or other applicable foreign currency terms may vary with the prevailing exchange rates in the marketplace. If the value of Renminbi depreciates against the euro or any other applicable foreign currency, the value of a Noteholder's investment in euro or such other applicable foreign currency terms will decline.

Investments in the CNY Notes are subject to currency risks.

If the Issuer is not able, or it is impracticable for it, to satisfy its obligation to pay interest and principal on the CNY Notes when due, in whole or in part, in Renminbi in the relevant CNY Settlement Centre

as a result of Inconvertibility, Non transferability or Illiquidity (each, as defined in "§ 4 (7) *Payments on Notes denominated in Renminbi*" in the Terms and Conditions of the Notes), the Issuer shall be entitled, to settle any such payment, in whole or in part, in U.S. dollars on the due date at the USD Equivalent (as provided for in more detail in the Terms and Conditions of the Notes) of any such interest or principal amount otherwise payable in Renminbi, as the case may be.

Investment in the Notes is subject to interest rate risks

The PRC government has gradually liberalised the regulation of interest rates in recent years. Further liberalisation may increase interest rate volatility. If the Notes carry a fixed interest rate, the market price of the Notes may vary with the fluctuations in the Renminbi interest rates. If an investor sells the Notes before their maturity, it may receive an offer that is less than the original amount invested.

Payments in respect of the Notes will only be made to investors in the manner specified in the Notes

All payments to holders of interests in respect of the Notes will be made solely by transfer to a Renminbi bank account maintained in Hong Kong, in accordance with prevailing rules and procedures of the relevant Clearing System. Neither the Issuer nor the Fiscal Agent, nor the Paying Agent can be required to make payment by any other means (including in bank notes, by cheque or draft, or by transfer to a bank account in the PRC).

Risks relating to specific types of Notes

The Programme allows for different types of Notes to be issued. Accordingly, each Tranche of Notes may carry varying risks for potential investors depending on the specific features of such Notes such as, *inter alia*, the provisions for computation of periodic interest payments, if any, redemption and issue price.

The Notes may be redeemed prior to Maturity

Unless in the case of any particular Tranche of Notes the relevant Final Terms specify otherwise, in the event that the Issuer or the Guarantor would be obliged to increase the amounts payable in respect of any Notes due to any withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by the country of domicile (or residence for tax purposes) by the relevant Issuer, or on behalf of the Federal Republic of Germany, or any political subdivision thereof or any authority therein or thereof having power to tax, the Issuer may redeem all outstanding Notes in accordance with the Terms and Conditions.

In addition, if in the case of any particular Tranche of Notes the relevant Final Terms specify that the Notes are redeemable at the Issuer's option in certain other circumstances, the Issuer may choose to redeem the Notes at times when prevailing interest rates may be relatively low. During a period when the Issuer may elect, or has elected, to redeem Notes, such Notes may feature a market value not substantially above the price at which they can be redeemed. In such circumstances, an investor may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of the relevant Notes.

Fixed Rate Notes

Investment in Notes which bear interest at a fixed rate involves the risk that subsequent changes in market interest rates may adversely affect the value of the relevant Tranche of Notes.

Floating Rate Notes

Investment in Notes which bear interest at a floating rate comprise (i) a reference rate (such as EURIBOR or LIBOR) or a constant maturity swap rate and (ii) a margin to be added or subtracted, as the case may be, from such base rate. Typically, the relevant margin will not change throughout the life of the Notes but there will be a periodic adjustment (as specified in the relevant Final Terms) of the reference rate (e.g., every three months or six months) which itself will fluctuate in accordance with general market conditions. Accordingly, the market value of floating rate Notes may be volatile if changes, particularly short term changes, to market interest rates evidenced by the relevant reference rate can only be reflected in the interest rate of these Notes upon the next periodic adjustment of the relevant reference rate.

Notes with a Cap

Floating Rate Notes may be equipped with a cap with respect to the interest payment. In that case the amount of interest will never rise above and beyond the predetermined cap, so that the Noteholder will not be able to benefit from any actual favourable development beyond the cap. The yield of these Notes could therefore be lower than that of similarly structured Notes without a cap. The market value of such Notes may decrease or fluctuate over their term to a higher extent than comparable interest structured Notes without a cap.

Notes with a participation rate (factor)

Floating Rate Notes may be equipped with a feature that for the calculation of interest payable on the Notes, an amount calculated on the basis of the interest provisions of the Notes will be multiplied by a participation rate (factor).

In the case of a participation rate (factor) which is below 100 per cent. (a factor smaller than 1), Noteholders usually participate less on a positive performance of the relevant reference rate(s) than this would be the case in the event of a multiplication with a factor of 1 or if Notes are not equipped with a participation rate (factor). In other words, the variable interest rate payable on the Notes increases less than the relevant reference price(s). However, in the case of a participation rate (factor) which is above 100 per cent. (a factor bigger than 1), the Noteholders usually are exposed to the risk that, despite of the influence of other features, the accrual of interest will decrease more in the case of a negative performance of the relevant reference rate(s) than this would be the case in the event of a multiplication with a factor of 1 or if Notes are not equipped with a participation rate (factor).

Zero Coupon Notes

Investment in Notes which do not bear current interest but are issued at a discount from their nominal value or at their nominal value, bear the risk that the market values of such Notes issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

Calculation Agent

The Issuer may appoint a Dealer as Calculation Agent in respect of an issuance of Notes under the Programme. In such a case the Calculation Agent is likely to be a member of an international financial group that is involved, in the ordinary course of its business, in a wide range of banking activities out of which conflicting interests may arise. Whilst such a Calculation Agent will, where relevant, have information barriers and procedures in place to manage conflicts of interest, it may in its other banking activities from time to time be engaged in transactions involving an index or related derivatives which may affect amounts receivable by Noteholders during the term and on the maturity of the Notes or the market price, liquidity or value of the Notes and which could be deemed to be adverse to the interests of the Noteholders.

Risks associated with the reform of EURIBOR and other interest rate 'benchmarks'

The EURIBOR and other interest rate indices which are deemed to be 'benchmarks' are the subject of recent national, international and other regulatory guidance and proposals for reform. Some of these reforms are already effective whilst others are still to be implemented. These reforms may cause such 'benchmarks' to perform differently than in the past, or to disappear entirely, or have other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Notes linked to such a 'benchmark'.

On 17 May 2016, the Council of the European Union adopted the EU regulation ((EU) 2016/1011) on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the "**Benchmark Regulation**"). The Benchmark Regulation entered into force on 30 June 2016. Subject to various transitional provisions, the Benchmark Regulation will apply from 1 January 2018, except that the regime for 'critical' benchmarks applies from 30 June 2016. The Benchmark Regulation will apply to 'contributors', 'administrators' and 'users' of 'benchmarks' in the EU, and will, among other things, (i) require benchmark administrators to be authorised (or, if non-EU-based, to have satisfied certain 'equivalence' conditions in its local jurisdiction, to be 'recognised' by the authorities of a Member State pending an equivalence decision or to be 'endorsed' for such purpose by an EU competent authority) and to comply with requirements in relation to the

administration of 'benchmarks' and (ii) ban the use of 'benchmarks' of unauthorised administrators. The scope of the Benchmark Regulation is wide and, in addition to so-called 'critical benchmark' indices such as EURIBOR, will apply to many other interest rate indices.

The Benchmark Regulation could have a material impact on Notes linked to a 'benchmark' rate or index, including in any of the following circumstances:

- a rate or index which is a 'benchmark' could not be used as such if its administrator does not obtain authorisation or is based in a non-EU jurisdiction which (subject to applicable transitional provisions) does not satisfy the 'equivalence' conditions, is not 'recognised' pending such a decision and is not 'endorsed' for such purpose. In such event, depending on the particular 'benchmark' and the applicable terms of the Notes, the Notes could be de-listed, adjusted, redeemed prior to maturity or otherwise impacted; and
- the methodology or other terms of the 'benchmark' could be changed in order to comply with the terms of the Benchmark Regulation, and such changes could have the effect of reducing or increasing the rate or level or affecting the volatility of the published rate or level, and could lead to adjustments to the terms of the Notes, including Calculation Agent determination of the rate or level in its discretion.

Any of the international, national or other proposals for reform or the general increased regulatory scrutiny of 'benchmarks' could increase the costs and risks of administering or otherwise participating in the setting of a 'benchmark' and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or contribute to certain 'benchmarks', trigger changes in the rules or methodologies used in certain 'benchmarks' or lead to the disappearance of certain 'benchmarks'. The disappearance of a 'benchmark' or changes in the manner of administration of a 'benchmark' could result in adjustment to the terms and conditions, early redemption, discretionary valuation by the Calculation Agent, delisting or other consequence in relation to Notes linked to such 'benchmark'. Any such consequence could have a material adverse effect on the value of and return on any such Notes.

GENERAL DESCRIPTION OF THE PROGRAMME

General

Notes will be issued in tranches (“Tranches”) one or more of which shall comprise a series (“Series”).

Notes will be issued in such denominations as may be agreed between the relevant Issuer and the relevant Dealer(s) (as defined below) and as indicated in the applicable final terms (the “Final Terms”) save that the minimum denomination of the Notes will be, if in euro, EUR 1,000, and, if in any currency other than euro, an amount in such other currency nearly equivalent to EUR 1,000 at the time of the issue of Notes. Subject to any applicable legal or regulatory restrictions, and requirements of relevant central banks, Notes may be issued in euro or any other currency.

In addition to the above paragraph, Notes issued by BMW US Capital with a maturity at issuance of 183 days or less will have a minimum denomination of USD 500,000 or its equivalent in other specified foreign currencies at the date of issue.

Under the the Luxembourg Act which implements the Prospectus Directive, prospectuses relating to notes having a maturity at issue of less than 12 months are not subject to the approval provisions of Part II of the Luxembourg Act.

Notes issued by BMW Finance N.V., BMW US Capital, LLC, BMW International Investment B.V. and BMW Japan Finance Corp. will have the benefit of a guarantee (the “Guarantee”) given by BMW AG (the “Guarantor”). The Guarantee constitutes an irrevocable, unsecured and unsubordinated obligation of the Guarantor ranking equally with all other unsecured and unsubordinated obligations of the Guarantor (other than statutory preferred indebtedness).

Notes may be issued with such maturities as may be agreed between the Issuer and the relevant Dealer(s), subject to a minimum maturity of 30 days, as indicated in the applicable Final Terms (except in any case, such other minimum or maximum maturity as may be allowed or required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to the Issuer or the relevant Specified Currency (as defined in the Terms and Conditions of the Notes)).

Notes may be issued at an issue price, which is at par or at a discount to, or premium over, par, as stated in the relevant Final Terms. The issue price for Notes to be issued will be determined at the time of pricing on the basis of a yield which will be determined on the basis of the orders of the investors which are received by the Dealers during the offer period. Orders will specify a minimum yield and may only be confirmed at or above such yield. The resulting yield will be used to determine an issue price, all to correspond to the yield.

In the case of an early redemption of Zero Coupon Notes, the redemption amount can be less than the principal amount, but will not be less than the issue price of such Zero Coupon Notes.

The yield for Notes with fixed interest rates will be calculated by the use of the ICMA method, which determines the effective interest rate of notes taking into account accrued interest on a daily basis.

Notes may be offered to qualified investors and/or retail investors as further specified in the relevant Final Terms.

Rating

Rating of Notes

Notes issued under the Programme may be rated or unrated. In case Notes are rated, such rating will be disclosed in the relevant Final Terms within the item “Rating”. A security rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency. Ratings are based on current information furnished to the rating agencies by BMW AG and information obtained by the rating agencies from other sources. Because ratings may be changed, superseded or withdrawn as a result of changes in, or unavailability of, such information, a prospective purchaser should verify the current long-term and short-term ratings of BMW AG before purchasing the Notes.

Based on the provisions of Regulation (EC) No. 1060/2009 on rating agencies, as amended (the “Rating Regulation”), certain institutions as further determined pursuant to Article 4 (1) of the Rating Regulation which are established in the European Union (the “Regulated Institutions”) are subject to certain restrictions with regard to the use of ratings for regulatory purposes. Pursuant to Article 4 (1) of the Rating Regulation, Regulated Institutions may use credit ratings for regulatory purposes only if such credit ratings are issued by credit rating agencies established in the European Union and registered in accordance with the Rating Regulation (or for which the relevant registration procedure is still pending). If the relevant Issuer and/or the Guarantor and/or the Notes are rated, the relevant Final Terms, as set out within the item “Rating”, will state whether the relevant rating agencies are established in the European Union or have relevant subsidiaries which are established in the European Union or not and whether they have been registered in accordance with the Rating Regulation. The current version of the list of credit rating agencies registered in accordance with the Rating Regulation may be retrieved from the website of the European Commission at http://ec.europa.eu/internal_market/securities/agencies/index_en.htm. In accordance with Article 18 (3) of the Rating Regulation, such list is updated within 30 days, as soon as the registering competent authority of a home member state has informed the Commission of any amendment as regards the registered credit rating agencies.

¹ Moody's is established in the European Community and is registered under Regulation (EC) No. 1060/2009 of the European Parliament and of the Council of 16 September 2009 on credit rating agencies, amended by Regulation (EC) No. 513/2011 of the European Parliament and of the Council of 11 March 2011 (the "CRA Regulation"). Moody's appends long-term obligation ratings at the following levels: Aaa, Aa, A, Baa, Ba, B, Caa, Ca and C. To each generic rating category from Aa to Caa Moody's assigns the numerical modifiers "1", "2" and "3". The modifier "1" indicates that the rated company is in the higher end of its letter-rating category, the modifier "2" indicates a mid-range ranking and the modifier "3" indicates that the rated company is in the lower end of its letter-rating category. Moody's also has the option of adding further guidance (referred to as "under review") as to whether a rating is likely to be upgraded (possible upgrade), downgraded (possible downgrade) or uncertain (direction uncertain). Moody's short-term ratings are opinions of the ability of issuers to honor short-term financial obligations and range from P-1, P-2, P-3 down to NP (Not Prime).

² Obligations rated A are judged to be upper-medium grade and are subject to low credit risk. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category.

³ An obligor rated 'A' has strong capacity to meet its financial commitments but is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligors in higher-rated categories. The ratings from 'AA' to 'CCC' may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories.

⁴ Standard & Poor's is established in the European Community and is registered under Regulation (EC) No. 1060/2009 of the European Parliament and of the Council of 16 September 2009 on credit rating agencies, amended by Regulation (EC) No. 513/2011 of the European Parliament and of the Council of 11 March 2011 (the "CRA Regulation"). Standard & Poor's assigns long-term credit ratings on a scale from AAA to D. The ratings from AA to CCC may be modified by the addition of a "+" or "-" to show the relative standing within the major rating categories. Standard & Poor's may also offer guidance (termed a "credit watch") as to whether a rating is likely to be upgraded (positive), downgraded (negative) or uncertain (neutral). Standard & Poor's assigns short-term credit ratings for specific issues on a scale from A-1, A-2, A-3, B, C down to D. Within the A-1 category the rating can be designated with a "+".

Undertaking referring to the Luxembourg Stock Exchange

Each of the Issuers and the Guarantor has undertaken, in connection with the listing of Notes on the regulated market of the Luxembourg Stock Exchange, that if, while Notes are outstanding and listed on the regulated market of the Luxembourg Stock Exchange, there shall occur any material adverse change in the business, financial position or otherwise of any of the Issuers or the Guarantor, as the case may be, that is material in the context of issuance under the Programme which is not reflected in this Prospectus (or any of the documents incorporated by reference in this Prospectus), it will prepare or procure the preparation of a supplement to this Prospectus or, as the case may be, publish a new prospectus for use in connection with any subsequent offering of Notes to be listed on the regulated market of the Luxembourg Stock Exchange.

Listing and Admission to Trading

Application may be made to list Notes issued under the Programme on the official list of the Luxembourg Stock Exchange and to admit to trading such Notes on the regulated market of the Luxembourg Stock Exchange (*Bourse de Luxembourg*) or on the Euro MTF market.

The Programme provides that Notes may be listed on other or further stock exchanges, as may be agreed between the relevant Issuer and the relevant Dealer(s) in relation to each Tranche, as specified in the relevant Final Terms.

Notes may further be issued under the Programme without being listed on any stock exchange. References to “regulated market” within this Prospectus means a regulated market as defined in Article 2(1)(j) of the Prospectus Directive in connection with Article 4(1) No.14 of Directive 2004/39/EC.

The Conditions will be constituted by the relevant set of Terms and Conditions of the Notes set forth below (the “**Terms and Conditions**”) as further specified by the Final Terms (the “**Final Terms**”) as described below.

Options for sets of Terms and Conditions

A separate set of Terms and Conditions applies to each type of Notes, as set forth below. The Final Terms provide for the relevant Issuer to choose between the following Options:

- Option I – Terms and Conditions for Notes with fixed interest rates;
- Option II – Terms and Conditions for Notes with floating interest rates;
- Option III – Terms and Conditions for Zero Coupon Notes.

Documentation of the Conditions

The relevant Issuer may document the Conditions of an individual issue of Notes in either of the following ways:

- The Final Terms shall be completed as set out therein. The Final Terms shall determine which of the Option I, Option II or Option III, including certain further options contained therein, respectively, shall be applicable to the individual issue of Notes by replicating the relevant provisions and completing the relevant placeholders of the relevant set of Terms and Conditions as set out in the Prospectus in the Final Terms. The replicated and completed provisions of the set of Terms and Conditions alone shall constitute the Conditions, which will be attached to each global note representing the Notes of the relevant Tranche. This type of documentation of the Conditions will be required where the Notes are publicly offered, in whole or in part, or are to be initially distributed, in whole or in part, to non-qualified investors.
- Alternatively, the Final Terms shall determine which of Option I, Option II or Option III and of the respective further options contained in each of Option I, Option II and Option III are applicable to the individual issue by referring to the relevant provisions of the relevant set of Terms and Conditions as set out in the Prospectus only. Each of the sets of Terms and Conditions of Option I, Option II or Option III contains also certain further options (characterised by indicating the respective optional provision through instructions and explanatory notes set out in square brackets within the text of the relevant set of Terms and Conditions as set out in the Prospectus) as well as placeholders (characterised by square brackets which include the relevant items) which will be determined by the Final Terms as follows:

Determination of Options

The relevant Issuer will determine which options will be applicable to the individual issue either by replicating the relevant provisions in the Final Terms or by reference of the Final Terms to the respective sections of the relevant set of Terms and Conditions as set out in the Prospectus. If the Final Terms do not refer to an alternative or optional provision or such alternative or optional provision is not replicated therein it shall be deemed to be deleted from the Conditions.

Completion of Placeholders

The Final Terms will specify the information with which the placeholders in the relevant set of Terms and Conditions will be completed. In the case the provisions of the Final Terms and the relevant set of Terms and Conditions, taken together, shall constitute the Conditions the relevant set of Terms and Conditions shall be deemed to be completed by the information contained in the Final Terms as if such information were inserted in the placeholders of such provisions.

All instructions and explanatory notes and text set out in square brackets in the relevant set of Terms and Conditions and any footnotes and explanatory text in the Final Terms will be deemed to be deleted from the Conditions.

Option I umfasst den Satz der Emissionsbedingungen, der auf Tranchen von Schuldverschreibungen mit fester Verzinsung Anwendung findet.

Option II umfasst den Satz der Emissionsbedingungen, der auf Tranchen von Schuldverschreibungen mit variabler Verzinsung Anwendung findet.

Option III umfasst den Satz der Emissionsbedingungen, der auf Tranchen von Nullkupon-Schuldverschreibungen Anwendung findet.

Der Satz von Emissionsbedingungen für jede dieser Optionen enthält bestimmte weitere Optionen, die entsprechend gekennzeichnet sind, indem die jeweilige optionale Bestimmung durch Instruktionen und Erklärungen in eckigen Klammern innerhalb des Satzes der Emissionsbedingungen bezeichnet wird.

In den Endgültigen Bedingungen wird die Emittentin festlegen, welche der Option I, Option II oder Option III (einschließlich der jeweils enthaltenen bestimmten weiteren Optionen) für die einzelne Emission von Schuldverschreibungen Anwendung findet, indem entweder die betreffenden Angaben wiederholt werden oder auf die betreffenden Optionen verwiesen wird.

Soweit weder die Emittentin noch die Garantin zum Zeitpunkt der Billigung des Prospektes Kenntnis von bestimmten Angaben hatte, die auf eine einzelne Emission von Schuldverschreibungen anwendbar sind, enthält dieser Prospekt Leerstellen in eckigen Klammern, die die maßgeblichen durch die Endgültigen Bedingungen zu vervollständigenden Angaben enthalten.

[Im Fall, dass die Endgültigen Bedingungen, die für eine einzelne Emission anwendbar sind, nur auf die weiteren Optionen verweisen, die im Satz der Emissionsbedingungen der Option I, Option II oder Option III enthalten sind, ist folgendes anwendbar: Die Bestimmungen dieser Emissionsbedingungen gelten für diese Schuldverschreibungen so, wie sie durch die Angaben der beigefügten endgültigen Bedingungen (die "Endgültigen Bedingungen") vervollständigt werden. Die Leerstellen in den auf die Schuldverschreibungen anwendbaren Bestimmungen dieser Emissionsbedingungen gelten als durch die in den Endgültigen Bedingungen enthaltenen Angaben ausgefüllt, als ob die Leerstellen in den betreffenden Bestimmungen durch diese Angaben ausgefüllt wären; alternative oder wählbare Bestimmungen dieser Emissionsbedingungen, deren Entsprechungen in den Endgültigen Bedingungen nicht ausgefüllt oder die gestrichen sind, gelten als aus diesen Emissionsbedingungen gestrichen; sämtliche auf die Schuldverschreibungen nicht anwendbaren Bestimmungen dieser Emissionsbedingungen (einschließlich der Anweisungen, Anmerkungen und der Texte in eckigen Klammern) gelten als aus diesen Emissionsbedingungen gestrichen, so dass die Bestimmungen der Endgültigen Bedingungen Geltung erhalten. Kopien der Endgültigen Bedingungen sind kostenlos bei der bezeichneten Geschäftsstelle der Emissionsstelle und bei der Hauptgeschäftsstelle der Emittentin erhältlich; bei nicht an einer Börse notierten Schuldverschreibungen sind Kopien der betreffenden Endgültigen Bedingungen allerdings ausschließlich für die Inhaber (wie in § 1 (5) definiert) solcher Schuldverschreibungen erhältlich.]

§ 1

WÄHRUNG, STÜCKELUNG, FORM, EIGENTUM, DEFINITIONEN

(2) *Form.* Die Schuldverschreibungen lauten auf den Inhaber[.] **[Im Falle einer Emission der BMW US Capital, LLC mit einer Laufzeit von mehr als 183 Tagen, einfügen (wobei das maßgebliche Clearing System CBF oder ein Festgelegtes Clearing System sein muss und somit die Schuldverschreibungen Gegenstand eines book-entry Agreements sind):** wobei die Schuldverschreibungen jedoch für Zwecke des Bundeseinkommenssteuerrechts der Vereinigten Staaten wie Namenspapiere (*registered notes*) behandelt werden.]

[Bei Schuldverschreibungen der BMW US Capital, LLC (wobei das maßgebliche Clearing System CBF oder ein Festgelegtes Clearing System sein muss und somit die Schuldverschreibungen Gegenstand eines book-entry Agreements sind), einfügen:

(3) *Dauerglobalurkunde.*

- (a) Die Schuldverschreibungen sind durch eine Dauerglobalurkunde (die "Dauerglobalurkunde" oder "Globalurkunde") ohne Zinsscheine verbrieft. Die Dauerglobalurkunde trägt die eigenhändigen oder faksimilierten Unterschriften zweier ordnungsgemäß bevollmächtigter Vertreter der Emittentin und ist von der Emissionsstelle oder in deren Namen mit einer Kontrollunterschrift versehen. Einzelurkunden und Zinsscheine werden nicht ausgegeben.
- (b) Das Eigentum von Rechten an der Globalurkunde und die Übertragung des Eigentums von solchen Rechten wird ausschließlich nachgewiesen und erfolgt nur durch die Unterlagen des Festgelegten Clearing Systems (wie nachstehend definiert).

Außer unter den nachstehend beschriebenen Umständen kann das Festgelegte Clearing System eine Globalurkunde nicht anders als durch Übertragung der Globalurkunde auf eine nachfolgende Verwahrstelle übertragen, und Rechte an dieser Globalurkunde können nicht gegen Schuldverschreibungen in effektiver, in Einzelurkunden verbriefter Form ausgetauscht werden.]

[Bei Schuldverschreibungen der Bayerische Motoren Werke Aktiengesellschaft, der BMW Finance N.V., der BMW International Investment B.V. oder der BMW Japan Finance Corp., einfügen:

(3) *Vorläufige Globalurkunde – Austausch.*

- (a) Die Schuldverschreibungen sind anfänglich durch eine vorläufige Globalurkunde (die "Vorläufige Globalurkunde") ohne Zinsscheine verbrieft. Die vorläufige Globalurkunde wird gegen Schuldverschreibungen in den festgelegten Stückelungen, die durch eine Dauerglobalurkunde (die "Dauerglobalurkunde") ohne Zinsscheine verbrieft sind, ausgetauscht.

Die vorläufige Globalurkunde und die Dauerglobalurkunde (jeweils eine "Globalurkunde") tragen jeweils die eigenhändigen oder faksimilierten Unterschriften zweier ordnungsgemäß bevollmächtigter Vertreter der Emittentin und sind jeweils von der Emissionsstelle oder in deren Namen mit einer Kontrollunterschrift versehen. Einzelkunden und Zinsscheine werden nicht ausgegeben.

- (b) Die vorläufige Globalurkunde wird an einem Tag gegen die Dauerglobalurkunde ausgetauscht, der nicht weniger als 40 Tage nach dem Tag der Ausgabe der vorläufigen Globalurkunde liegen darf. Ein solcher Austausch darf nur nach Vorlage von Bescheinigungen erfolgen, wonach der oder die wirtschaftlichen Eigentümer der durch die vorläufige Globalurkunde verbrieften Schuldverschreibungen keine U.S.-Personen sind (ausgenommen bestimmte Finanzinstitute oder bestimmte Personen, die Schuldverschreibungen über solche Finanzinstitute halten). Zinszahlungen auf durch eine vorläufige Globalurkunde verbrieftete Schuldverschreibungen erfolgen erst nach Vorlage solcher Bescheinigungen. Eine gesonderte Bescheinigung ist hinsichtlich einer jeden solchen Zinszahlung erforderlich. Jede Bescheinigung, die am oder nach dem 40. Tag nach dem Tag der Ausgabe der vorläufigen Globalurkunde eingeht, wird als ein Ersuchen behandelt werden, diese vorläufige Globalurkunde gemäß Absatz (b) dieses § 1 (3) auszutauschen. Wertpapiere, die im Austausch für die vorläufige Globalurkunde geliefert werden, sind nur außerhalb der Vereinigten Staaten (wie in § 4 (3) definiert) zu liefern.]

(4) *Clearing System.*

- [(a)] [Die][Jede] [vorläufige] Globalurkunde [(falls diese nicht ausgetauscht wird) und/oder jede Dauerglobalurkunde] wird solange von einem oder im Namen eines Clearing Systems verwahrt, bis sämtliche Verbindlichkeiten der Emittentin aus den Schuldverschreibungen erfüllt sind. "Clearing System" bedeutet **[Bei mehr als einem Clearing System einfügen: jeweils]** Folgendes: [Clearstream Banking AG, Mergenthalerallee 61, 65760 Eschborn, Bundesrepublik Deutschland ("CBF")] [Clearstream Banking, société anonyme, 42 Avenue JF Kennedy, 1855 Luxemburg, Großherzogtum Luxemburg ("CBL")] [Euroclear Bank SA/NV, Boulevard du Roi Albert II, 1210 Brüssel, Belgien ("Euroclear")] [CBL und Euroclear jeweils ein "ICSD" und zusammen die "ICSDs"] [,] [und] **[anderes Clearing System angeben]** oder jeder Funktionsnachfolger, der die Funktionen **[Bei mehr als einem Clearing System einfügen: jedes der Clearing Systeme]** **[Falls ein Clearing System, einfügen: des Clearing Systems]** übernimmt.

[Im Fall von Schuldverschreibungen, die im Namen der ICSDs verwahrt werden, einfügen:

[Falls die Globalurkunde eine NGN ist, einfügen: Die Schuldverschreibungen werden in Form einer new global note ("NGN") ausgegeben und von einer gemeinsamen Sicherheitsverwahrstelle (*common safekeeper*) im Namen beider ICSDs verwahrt.]

[Bei Schuldverschreibungen der BMW US Capital, LLC (wobei das maßgebliche Clearing System CBF oder ein Festgelegtes Clearing System sein muss und somit die Schuldverschreibungen Gegenstand eines book-entry Agreements sind), einfügen:

- (b) "Festgelegtes Clearing System" bezeichnet ein Clearing System, das ein book-entry Agreement mit der Emittentin hinsichtlich der Schuldverschreibungen abgeschlossen hat, wobei dieses book-entry Agreement solche Vorschriften vorsieht, die es ermöglichen, dass die Schuldverschreibungen für Zwecke der U.S. Bundeseinkommensteuergesetze als Verbindlichkeiten in Form von Namensschuldverschreibungen angesehen werden. Zur Klarstellung: CBF ist ein Festgelegtes Clearing System, jedoch können auch andere Clearing Systeme in der Zukunft zu Festgelegten Clearing Systemen werden.]

- (5) *Inhaber von Schuldverschreibungen.* "Inhaber" bezeichnet jeden Inhaber eines Miteigentumsanteils oder anderen Rechts an den Schuldverschreibungen.

[Falls die Globalurkunde eine NGN ist, einfügen:

(6) *Register der ICSDs.* Der Gesamtnennbetrag der durch die Globalurkunde verbrieften Schuldverschreibungen entspricht dem jeweils in den Registern beider ICSDs eingetragenen Gesamtbetrag. Die Register der ICSDs (unter denen man die Register versteht, die jeder ICSD für seine Kunden über den Betrag ihres Anteils an den Schuldverschreibungen führt) sind schlüssiger Nachweis über den Gesamtnennbetrag der durch die Globalurkunde verbrieften Schuldverschreibungen, und eine zu diesen Zwecken von einem ICSD jeweils ausgestellte Bestätigung mit dem Gesamtnennbetrag der so verbrieften Schuldverschreibungen ist ein schlüssiger Nachweis über den Inhalt des Registers des jeweiligen ICSD zu diesem Zeitpunkt.

Bei Rückzahlung oder Zahlung einer Rate oder einer Zinszahlung bezüglich der durch die Globalurkunde verbrieften Schuldverschreibungen bzw. bei Kauf und Entwertung der durch die Globalurkunde verbrieften Schuldverschreibungen stellt die Emittentin sicher, dass die Einzelheiten über Rückzahlung und Zahlung bzw. Kauf und Löschung bezüglich der Globalurkunde *pro rata* in die Unterlagen der ICSDs eingetragen werden, und dass nach dieser Eintragung vom Gesamtnennbetrag der in die Register der ICSDs aufgenommenen und durch die Globalurkunde verbrieften Schuldverschreibungen der Gesamtnennbetrag der zurückgekauften bzw. gekauften und entwerteten Schuldverschreibungen bzw. der Gesamtbetrag der so gezahlten Raten abgezogen wird.]

[Falls die vorläufige Globalurkunde eine NGN ist, einfügen: Bei Austausch eines Anteils von ausschließlich durch eine vorläufige Globalurkunde verbrieften Schuldverschreibungen wird die Emittentin sicherstellen, dass die Einzelheiten dieses Austauschs *pro rata* in die Aufzeichnungen der ICSDs aufgenommen werden.]]

[(6)][(7)] *Eigentum.*

- (a) Der Inhaber gilt (soweit nicht zwingende Gesetzes- oder Verwaltungsbestimmungen entgegenstehen) in jeder Hinsicht als Alleineigentümer (ob fällig oder nicht fällig, und unabhängig von irgendwelchen Mitteilungen bezüglich des Eigentums, möglichen Treuhandschaften oder anderen Ansprüchen hieran oder hieraus, etwaigen Vermerken auf der Urkunde oder einem Diebstahl oder Verlust) und niemand kann dafür verantwortlich gemacht werden, dass er den Inhaber als Alleineigentümer angesehen hat.
- (b) Die Übertragung des Eigentums an Schuldverschreibungen geschieht durch Einigung der beteiligten Parteien über den Eigentumsübergang und durch die Übergabe oder auf andere Weise in Übereinstimmung mit den jeweils anzuwendenden Gesetzen und Vorschriften einschließlich der Regeln beteiligter Clearing Systeme. Bezugnahmen in diesen Emissionsbedingungen auf "Inhaber" von Schuldverschreibungen sind Bezugnahmen auf die Inhaber solcher Schuldverschreibungen.

[(7)][(8)] *Geschäftstag.* In diesen Emissionsbedingungen bezeichnet "Geschäftstag"

[Falls die festgelegte Währung nicht Renminbi ist, einfügen: einen Tag (außer einem Samstag oder Sonntag), an dem (i) das Clearing System und (ii) **[Falls die festgelegte Währung Euro ist, einfügen:** TARGET2 (wie nachstehend definiert) [und Geschäftsbanken und Devisenmärkte in **[sämtliche relevanten Finanzzentren]]** **[Falls die festgelegte Währung nicht Euro ist, einfügen:** Geschäftsbanken und Devisenmärkte in **[sämtliche relevanten Finanzzentren]]** Zahlungen abwickeln.]

[Falls die festgelegte Währung Renminbi ist, einfügen: einen Tag (außer einem Samstag, Sonntag oder Feiertag), an dem Geschäftsbanken und Devisenmärkte am jeweiligen Vorlegungsort für den Geschäftsverkehr geöffnet sind, sowie einen Tag, an dem Geschäftsbanken in Hongkong (wie nachstehend definiert) für den Geschäftsverkehr und die Abwicklung von Zahlungen in Renminbi geöffnet sind.]

[Falls die festgelegte Währung Euro ist, einfügen: "TARGET2" bedeutet das *Trans-European Automated Real-time Gross Settlement Express Transfer*-Zahlungssystem oder jedes Nachfolgesystem.]

§ 2

STATUS, VERPFLICHTUNGSERKLÄRUNG, GARANTIE

(1) *Status.* Die Schuldverschreibungen stellen direkte, unbedingte, nicht nachrangige und nicht besicherte Verbindlichkeiten der Emittentin dar, die gleichen Rang (ausgenommen Verbindlichkeiten aufgrund von nationalen oder lokalen Steuervorschriften, anderen gesetzlichen Ausnahmeregelungen,

gesetzlichen Vorschriften und Verwaltungsvorschriften) mit allen anderen unbesicherten und nicht nachrangigen Verbindlichkeiten haben.

(2) *Verpflichtungserklärung der Emittentin.* Die Emittentin hat sich in einer separaten Erklärung (im Folgenden die "Verpflichtungserklärung" genannt) gegenüber den Inhabern verpflichtet, solange bis Kapital, etwaige Zinsen und etwaige zusätzliche Beträge gemäß § 7 (1) im vollen Umfang bei der jeweiligen Zahlstelle oder einer anderen gemäß § 6 ernannten Zahlstelle bereitgestellt worden sind, keine gegenwärtigen oder zukünftigen Verbindlichkeiten (einschließlich Verbindlichkeiten aus Garantien oder Sicherheiten) aus anderen internationalen Kapitalmarktverbindlichkeiten (wie nachfolgend definiert) durch irgendwelche Grund- oder Mobiliarpfandrechte an ihrem gegenwärtigen oder zukünftigen Grundbesitz oder Vermögenswerten sicherzustellen oder sicherstellen zu lassen, es sei denn, dass diese Schuldverschreibungen zu gleicher Zeit und im gleichen Rang anteilig an dieser Sicherstellung teilnehmen. Ausgenommen hiervon sind Grund- oder Mobiliarpfandrechte und andere Besicherungen von Verbindlichkeiten aufgrund von nationalen oder lokalen Steuervorschriften, anderen gesetzlichen Ausnahmeregelungen, gesetzlichen Vorschriften und Verwaltungsvorschriften. Im Falle einer Besicherung dieser Schuldverschreibungen durch die Emittentin gemäß dieses § 2 (2) sind zugunsten der Inhaber die Sicherheiten mit den üblichen Rechten und Pflichten zu bestellen. Wenn ein Inhaber nach Eintritt eines der in § 9 aufgeführten Kündigungsgründe, die die Inhaber zur Kündigung berechtigen, wegen des Kapitals von nicht schon aus anderen Gründen fälligen Schuldverschreibungen eine für die Schuldverschreibungen gegebene Sicherheit in Anspruch nimmt, gelten die betreffenden Schuldverschreibungen in jeder Beziehung als fällig.

(3) *Sicherheiten für Asset-Backed-Securities.* Um etwaige Zweifel zu vermeiden, die in diesem § 2 enthaltene Verpflichtung gilt nicht in Bezug auf Sicherheiten, die in Zusammenhang mit asset-backed-securities (strukturierte Wertpapiere, die mit Vermögenswerten besichert sind) gestellt werden, die von einer Zweckgesellschaft begeben werden, und bei denen die Emittentin die ursprüngliche Inhaberin der zugrunde liegenden Vermögenswerte ist.

(4) *Internationale Kapitalmarktverbindlichkeit.* Für die Zwecke dieser Emissionsbedingungen bedeutet "internationale Kapitalmarktverbindlichkeit" jede Emission von Schuldverschreibungen mit einer ursprünglichen Laufzeit von mehr als einem Jahr.

[Im Fall der Emission von Schuldverschreibungen durch BMW Finance N.V., BMW US Capital, LLC, BMW International Investment B.V. oder BMW Japan Finance Corp. einfügen:

(5) *Garantie.* Die Bayerische Motoren Werke Aktiengesellschaft (die "Garantin") hat gegenüber den Inhabern die unbedingte und unwiderrufliche Garantie für die ordnungsgemäße und pünktliche Zahlung des Kapitals und etwaiger Zinsen einschließlich gegebenenfalls gemäß § 7 (1) zusätzlich erforderlicher Beträge in Übereinstimmung mit diesen Emissionsbedingungen übernommen (die "Garantie"). Die Garantie gibt jedem Inhaber das Recht, Erfüllung der in der Garantie übernommenen Verpflichtungen unmittelbar von der Garantin zu verlangen und diese Verpflichtungen unmittelbar gegen die Garantin durchzusetzen.

(6) *Verpflichtungserklärung der Garantin.* Die Garantin hat sich in der Verpflichtungserklärung gegenüber den Inhabern verpflichtet, solange bis Kapital und etwaige Zinsen sowie etwaige zusätzliche Beträge gemäß § 7 (1) bei der jeweiligen Zahlstelle oder einer anderen gemäß § 6 ernannten Zahlstelle bereitgestellt worden sind, keine gegenwärtigen oder zukünftigen Verbindlichkeiten (einschließlich Verbindlichkeiten aus Garantien oder Sicherheiten) aus anderen internationalen Kapitalmarktverbindlichkeiten durch irgendwelche Grund- oder Mobiliarpfandrechte an ihrem gegenwärtigen oder zukünftigen Grundbesitz oder Vermögenswerten sicherzustellen oder sicherstellen zu lassen, es sei denn, dass diese Schuldverschreibungen zu gleicher Zeit und im gleichen Rang anteilig an dieser Sicherstellung teilnehmen. Ausgenommen hiervon sind Grund- oder Mobiliarpfandrechte und andere Besicherungen aufgrund von nationalen oder lokalen Steuervorschriften, anderen gesetzlichen Ausnahmeregelungen, gesetzlichen Vorschriften und Verwaltungsvorschriften. Im Falle einer Besicherung dieser Schuldverschreibungen durch die Garantin gemäß dieses § 2 (6) sind zugunsten der Inhaber die Sicherheiten mit den üblichen Rechten und Pflichten zu bestellen. Wenn ein Inhaber nach Eintritt eines der in § 9 aufgeführten Kündigungsgründe, die die Inhaber zur Kündigung berechtigen, wegen des Kapitals von nicht schon aus anderen Gründen fälligen Schuldverschreibungen eine für die Schuldverschreibungen gegebene Sicherheit in Anspruch nimmt, gelten die betreffenden Schuldverschreibungen in jeder Beziehung als fällig.

(7) *Sicherheiten für Asset-Backed-Securities.* Um etwaige Zweifel zu vermeiden, die in diesem § 2 enthaltene Verpflichtung gilt nicht in Bezug auf Sicherheiten, die in Zusammenhang mit asset-backed-securities (strukturierte Wertpapiere, die mit Vermögenswerten besichert sind) gestellt werden, die von einer Zweckgesellschaft begeben werden, und bei denen die Garantin die ursprüngliche Inhaberin der zugrunde liegenden Vermögenswerte ist.]

§ 3 ZINSEN

(1) *Zinssatz und Zinszahlungstage.* Die Schuldverschreibungen werden in Höhe ihres Nennbetrages verzinst, und zwar vom **[Verzinsungsbeginn]** (der "Verzinsungsbeginn") (einschließlich) bis zum Fälligkeitstag (wie in § 5 (1) definiert) (ausschließlich) mit jährlich **[Zinssatz]**%.

Die Zinsen sind nachträglich am **[Festzinstermine]** eines jeden Jahres, vorbehaltlich einer Anpassung gemäß § 4 (5), zahlbar (jeweils ein "Zinszahlungstag"). Die erste Zinszahlung erfolgt am **[ersten Zinszahlungstag]**) vorbehaltlich einer Anpassung gem. § 4 (5) **[Im Falle eines ersten kurzen/langen Kupons, einfügen:** und beläuft sich auf **[anfänglichen Bruchteilszinsbetrag pro festgelegte Stückelung]** je festgelegte Stückelung]. **[Im Falle eines letzten kurzen/langen Kupons einfügen:** Die Zinsen für den Zeitraum vom **[den letzten dem Fälligkeitstag vorausgehenden Festzinstermine]** (einschließlich) bis zum Fälligkeitstag (ausschließlich) belaufen sich auf **[abschließenden Bruchteilszinsbetrag pro festgelegte Stückelung]** je festgelegte Stückelung].

[Im Fall von Actual/Actual (ICMA) einfügen: Die Anzahl der Feststellungstermine im Kalenderjahr (jeweils ein "Feststellungstermin") beträgt **[Anzahl der regulären Zinszahlungstage im Kalenderjahr]**].

(2) *Zinslauf.* Der Zinslauf der Schuldverschreibungen endet an dem Tag, der dem Tag vorangeht, an dem sie zur Rückzahlung fällig werden. Falls die Emittentin die Schuldverschreibungen bei Fälligkeit nicht einlöst, endet die Verzinsung des ausstehenden Nennbetrages der Schuldverschreibungen nicht an dem Tag, der dem Tag der Fälligkeit vorangeht, sondern erst an dem Tag, der dem Tag der tatsächlichen Rückzahlung der Schuldverschreibungen vorangeht. Weitergehende Ansprüche der Inhaber bleiben unberührt.

(3) *Unterjährige Berechnung der Zinsen.* Sofern Zinsen für einen Zeitraum von weniger als einem Jahr zu berechnen sind, erfolgt die Berechnung auf der Grundlage des Zinstagequotienten (wie nachstehend definiert).]

(4) *Zinstagequotient.* "Zinstagequotient" bezeichnet im Hinblick auf die Berechnung des Zinsbetrages auf eine Schuldverschreibung für einen beliebigen Zeitraum (der "Zinsberechnungszeitraum"):

[Im Fall von Actual/Actual (ICMA) einfügen:

1. Im Falle von Schuldverschreibungen, bei denen die Anzahl der Tage in der betreffenden Periode ab dem letzten Zinszahlungstag (oder, wenn es keinen solchen gibt, ab dem Verzinsungsbeginn) (jeweils einschließlich desselben) bis zum betreffenden Zahlungstag (ausschließlich desselben) (der "Zinsberechnungszeitraum") kürzer ist als die Feststellungsperiode in die das Ende des Zinsberechnungszeitraumes fällt oder ihr entspricht, die Anzahl der Tage in dem betreffenden Zinsberechnungszeitraum geteilt durch das Produkt (1) der Anzahl der Tage in der Feststellungsperiode und (2) der Anzahl der Feststellungstermine (wie in § 3 (1) angegeben) in einem Kalenderjahr; oder

2. Im Falle von Schuldverschreibungen, bei denen der Zinsberechnungszeitraum länger ist als die Feststellungsperiode, in die das Ende des Zinsberechnungszeitraumes fällt, die Summe der Anzahl der Tage in dem Zinsberechnungszeitraum, die in die Feststellungsperiode fallen, in welcher der Zinsberechnungszeitraum beginnt, geteilt durch das Produkt (1) der Anzahl der Tage in der Feststellungsperiode und (2) der Anzahl der Feststellungstermine (wie in § 3 (1) angegeben) in einem Kalenderjahr; und

der Anzahl der Tage in dem Zinsberechnungszeitraum, die in die nächste Feststellungsperiode fallen, geteilt durch das Produkt (1) der Anzahl der Tage in dieser Feststellungsperiode und (2) der Anzahl der Feststellungstermine (wie in § 3 (1) angegeben) in einem Kalenderjahr.

“Feststellungsperiode” ist die Periode ab einem Zinszahlungstag oder, wenn es keinen solchen gibt, ab dem Verzinsungsbeginn (jeweils einschließlich desselben) bis zum nächsten oder ersten Zinszahlungstag (ausschließlich desselben).]

[Im Fall von 30/360 einfügen: die Anzahl von Tagen in der Periode ab dem letzten Zinszahlungstag (oder wenn es keinen solchen gibt, ab dem Verzinsungsbeginn) (jeweils einschließlich desselben) bis zum betreffenden Zahlungstag (ausschließlich desselben) (wobei die Zahl der Tage auf der Basis von 12 Monaten zu jeweils 30 Tagen berechnet wird), geteilt durch 360.]

[Im Fall von Actual/365 (Fixed) und im Fall von Schuldverschreibungen, deren festgelegte Währung Renminbi ist, einfügen: die tatsächliche Anzahl von Tagen im Zinsberechnungszeitraum dividiert durch 365.]

[Im Fall von 30E/360 oder Eurobond Basis einfügen: die Anzahl der Tage im Zinsberechnungszeitraum dividiert durch 360 (dabei ist die Anzahl der Tage auf der Grundlage eines Jahres von 360 Tagen mit 12 Monaten zu 30 Tagen zu ermitteln, und zwar ohne Berücksichtigung des Datums des ersten oder letzten Tages des Zinsberechnungszeitraums, es sei denn, der Fälligkeitstag des letzten Zinsberechnungszeitraums ist der letzte Tag des Monats Februar, wobei in diesem Fall der Monat Februar nicht als ein auf 30 Tage verlängerter Monat zu behandeln ist).]

§ 4 Zahlungen

(1) (a) *Zahlungen auf Kapital.* Zahlungen von Kapital auf die Schuldverschreibungen (außer Schuldverschreibungen, deren festgelegte Währung Renminbi ist) erfolgen nach Maßgabe des nachstehenden Absatzes (2) an das Clearing System oder dessen Order zur Gutschrift auf den Konten der jeweiligen Kontoinhaber des Clearing Systems gegen Vorlage und (außer im Fall von Teilzahlungen) Einreichung der Schuldverschreibungen zum Zeitpunkt der Zahlung verbriefenden Globalurkunde bei der bezeichneten Geschäftsstelle der Emissionsstelle außerhalb der Vereinigten Staaten.

(4) *Erfüllung.* Die Emittentin **[Im Fall einer Emission von Schuldverschreibungen durch BMW Finance N.V., BMW US Capital, LLC, BMW International Investment B.V. oder BMW Japan Finance Corp. einfügen:** bzw. die Garantin] wird durch Leistung der Zahlung an das Clearing System oder dessen Order von ihrer Zahlungspflicht befreit.

(5) *Zahltag.* Fällt der Fälligkeitstag einer Zahlung in Bezug auf eine Schuldverschreibung auf einen Tag, der kein Zahltag ist, dann

[Bei Anwendung der Folgender Geschäftstag-Konvention einfügen: hat der Inhaber keinen Anspruch auf Zahlung vor dem nachfolgenden Zahltag und ist nicht berechtigt, weitere Zinsen oder sonstige Zahlungen aufgrund einer solchen Verschiebung zu verlangen (*unadjusted*).]

[Bei Anwendung der Modifizierte Folgender Geschäftstag-Konvention einfügen: hat der Inhaber keinen Anspruch auf Zahlung vor dem nächstfolgenden Zahltag, es sei denn jener würde dadurch in den nächsten Kalendermonat fallen; in diesem Fall wird der Zinszahlungstag auf den unmittelbar vorausgehenden Geschäftstag vorgezogen. Der Inhaber ist nicht berechtigt, weitere Zinsen oder sonstige Zahlungen aufgrund einer solchen Verschiebung zu verlangen (*unadjusted*).]

Für diese Zwecke bezeichnet "Zahltag" einen Geschäftstag.

[Im Fall einer Zusammenfassung der Tranche mit einer bestehenden Serie, einfügen: Diese Tranche **[Tranchen-Nummer]** wird mit der Serie **[Seriennummer]**, ISIN **[●]** / WKN **[●]**, Tranche 1 begeben am **[Tag der Begebung der ersten Tranche]** [und der Tranche **[Tranchen-Nummer]** begeben am **[Tag der Begebung der zweiten Tranche]** dieser Serie] [und der Tranche **[Tranchen-Nummer]** begeben am **[Tag der Begebung der dritten Tranche]** dieser Serie] konsolidiert und formt mit dieser eine einheitliche Serie **[Seriennummer]**. Der Gesamtnennbetrag der Serie **[Seriennummer einfügen]** lautet **[Gesamtnennbetrag der gesamten konsolidierten Serie [Seriennummer]].**

(2) *Form.* Die Schuldverschreibungen lauten auf den Inhaber[.] **[Im Falle einer Emission der BMW US Capital, LLC mit einer Laufzeit von mehr als 183 Tagen, einfügen (wobei das maßgebliche Clearing System CBF oder ein Festgelegtes Clearing System sein muss und somit die Schuldverschreibungen Gegenstand eines book-entry Agreements sind):** wobei die Schuldverschreibungen jedoch für Zwecke des Bundeseinkommenssteuerrechts der Vereinigten Staaten wie Namenspapiere (*registered notes*) behandelt werden.]

[Bei Schuldverschreibungen der BMW US Capital, LLC (wobei das maßgebliche Clearing System CBF oder ein Festgelegtes Clearing System sein muss und somit die Schuldverschreibungen Gegenstand eines book-entry Agreements sind), einfügen:

(3) *Dauerglobalurkunde.*

- (a) Die Schuldverschreibungen sind durch eine Dauerglobalurkunde (die "Dauerglobalurkunde" oder "Globalurkunde") ohne Zinsscheine verbrieft. Die Dauerglobalurkunde trägt die eigenhändigen oder faksimilierten Unterschriften zweier ordnungsgemäß bevollmächtigter Vertreter der Emittentin und ist von der Emissionsstelle oder in deren Namen mit einer Kontrollunterschrift versehen. Einzelkunden und Zinsscheine werden nicht ausgegeben.
- (b) Das Eigentum von Rechten an der Globalurkunde und die Übertragung des Eigentums von solchen Rechten wird ausschließlich nachgewiesen und erfolgt nur durch die Unterlagen des Festgelegten Clearing Systems (wie nachstehend definiert).

Außer unter den nachstehend beschriebenen Umständen kann das Festgelegte Clearing System eine Globalurkunde nicht anders als durch Übertragung der Globalurkunde auf eine nachfolgende Verwahrstelle übertragen, und Rechte an dieser Globalurkunde können nicht gegen Schuldverschreibungen in effektiver, in Einzelkunden verbrieft Form ausgetauscht werden.]

[Bei Schuldverschreibungen der Bayerische Motoren Werke Aktiengesellschaft, der BMW Finance N.V., der BMW International Investment B.V. oder der BMW Japan Finance Corp., einfügen:

(3) *Vorläufige Globalurkunde – Austausch.*

- (a) Die Schuldverschreibungen sind anfänglich durch eine vorläufige Globalurkunde (die "Vorläufige Globalurkunde") ohne Zinsscheine verbrieft. Die vorläufige Globalurkunde wird gegen Schuldverschreibungen in den festgelegten Stückelungen, die durch eine Dauerglobalurkunde (die "Dauerglobalurkunde") ohne Zinsscheine verbrieft sind, ausgetauscht. Die vorläufige Globalurkunde und die Dauerglobalurkunde (jeweils eine "Globalurkunde") tragen

jeweils die eigenhändigen oder faksimilierten Unterschriften zweier ordnungsgemäß bevollmächtigter Vertreter der Emittentin und sind jeweils von der Emissionsstelle oder in deren Namen mit einer Kontrollunterschrift versehen. Einzelkunden und Zinsscheine werden nicht ausgegeben.

- (b) Die vorläufige Globalurkunde wird an einem Tag gegen die Dauerglobalurkunde ausgetauscht, der nicht weniger als 40 Tage nach dem Tag der Ausgabe der vorläufigen Globalurkunde liegen darf. Ein solcher Austausch darf nur nach Vorlage von Bescheinigungen erfolgen, wonach der oder die wirtschaftlichen Eigentümer der durch die vorläufige Globalurkunde verbrieften Schuldverschreibungen keine U.S.-Personen sind (ausgenommen bestimmte Finanzinstitute oder bestimmte Personen, die Schuldverschreibungen über solche Finanzinstitute halten). Zinszahlungen auf durch eine vorläufige Globalurkunde verbrieftete Schuldverschreibungen erfolgen erst nach Vorlage solcher Bescheinigungen. Eine gesonderte Bescheinigung ist hinsichtlich einer jeden solchen Zinszahlung erforderlich. Jede Bescheinigung, die am oder nach dem 40. Tag nach dem Tag der Ausgabe der vorläufigen Globalurkunde eingeht, wird als ein Ersuchen behandelt werden, diese vorläufige Globalurkunde gemäß Absatz (b) dieses § 1 (3) auszutauschen. Wertpapiere, die im Austausch für die vorläufige Globalurkunde geliefert werden, sind nur außerhalb der Vereinigten Staaten (wie in § 4 (3) definiert) zu liefern.]

(4) *Clearing System.*

- [(a)] [Die][Jede] [vorläufige] Globalurkunde [(falls diese nicht ausgetauscht wird) und/oder jede Dauerglobalurkunde] wird solange von einem oder im Namen eines Clearing Systems verwahrt, bis sämtliche Verbindlichkeiten der Emittentin aus den Schuldverschreibungen erfüllt sind. - (b) "Festgelegtes Clearing System" bezeichnet ein Clearing System, das ein book-entry Agreement mit der Emittentin hinsichtlich der Schuldverschreibungen abgeschlossen hat, wobei dieses book-entry Agreement solche Vorschriften vorsieht, die es ermöglichen, dass die Schuldverschreibungen für Zwecke der U.S. Bundeseinkommensteuergesetze als Verbindlichkeiten in Form von Namensschuldverschreibungen angesehen werden. Zur Klarstellung: CBF ist ein Festgelegtes Clearing System, jedoch können auch andere Clearing Systeme in der Zukunft zu Festgelegten Clearing Systemen werden.]
- (5) *Inhaber von Schuldverschreibungen.* "Inhaber" bezeichnet jeden Inhaber eines Miteigentumsanteils oder anderen Rechts an den Schuldverschreibungen.

Die Register der ICSDs (unter denen man die Register versteht, die jeder ICSD für seine Kunden über den Betrag ihres Anteils an den Schuldverschreibungen führt) sind schlüssiger Nachweis über den Gesamtnennbetrag der durch die Globalurkunde verbrieften Schuldverschreibungen, und eine zu diesen Zwecken von einem ICSD jeweils ausgestellte Bestätigung mit dem Gesamtnennbetrag der so verbrieften Schuldverschreibungen ist ein schlüssiger Nachweis über den Inhalt des Registers des jeweiligen ICSD zu diesem Zeitpunkt.

Bei Rückzahlung oder Zahlung einer Rate oder einer Zinszahlung bezüglich der durch die Globalurkunde verbrieften Schuldverschreibungen bzw. bei Kauf und Entwertung der durch die Globalurkunde verbrieften Schuldverschreibungen stellt die Emittentin sicher, dass die Einzelheiten über Rückzahlung und Zahlung bzw. Kauf und Löschung bezüglich der Globalurkunde *pro rata* in die Unterlagen der ICSDs eingetragen werden, und dass nach dieser Eintragung vom Gesamtnennbetrag der in die Register der ICSDs aufgenommenen und durch die Globalurkunde verbrieften Schuldverschreibungen der Gesamtnennbetrag der zurückgekauften bzw. gekauften und entwerteten Schuldverschreibungen bzw. der Gesamtbetrag der so gezahlten Raten abgezogen wird.]

[Falls die vorläufige Globalurkunde eine NGN ist, einfügen: Bei Austausch eines Anteils von ausschließlich durch eine vorläufige Globalurkunde verbrieften Schuldverschreibungen wird die Emittentin sicherstellen, dass die Einzelheiten dieses Austauschs *pro rata* in die Aufzeichnungen der ICSDs aufgenommen werden.]]

[(6)][(7)] *Eigentum.*

- (a) Der Inhaber gilt (soweit nicht zwingende Gesetzes- oder Verwaltungsbestimmungen entgegenstehen) in jeder Hinsicht als Alleineigentümer (ob fällig oder nicht fällig, und unabhängig von irgendwelchen Mitteilungen bezüglich des Eigentums, möglichen Treuhandschaften oder anderen Ansprüchen hieran oder hieraus, etwaigen Vermerken auf der Urkunde oder einem Diebstahl oder Verlust) und niemand kann dafür verantwortlich gemacht werden, dass er den Inhaber als Alleineigentümer angesehen hat.
- (b) Die Übertragung des Eigentums an Schuldverschreibungen geschieht durch Einigung der beteiligten Parteien über den Eigentumsübergang und durch die Übergabe oder auf andere Weise in Übereinstimmung mit den jeweils anzuwendenden Gesetzen und Vorschriften einschließlich der Regeln beteiligter Clearing Systeme. Bezugnahmen in diesen Emissionsbedingungen auf "Inhaber" von Schuldverschreibungen sind Bezugnahmen auf die Inhaber solcher Schuldverschreibungen.

[(7)][(8)] *Geschäftstag.* In diesen Emissionsbedingungen bezeichnet "Geschäftstag"

[Falls die festgelegte Währung nicht Renminbi ist, einfügen: einen Tag (außer einem Samstag oder Sonntag), an dem (i) das Clearing System und (ii) **[Falls die festgelegte Währung Euro ist, einfügen:** TARGET2 (wie nachstehend definiert) **[und Geschäftsbanken und Devisenmärkte in [sämtliche relevanten Finanzzentren]]** **[Falls die festgelegte Währung nicht Euro ist, einfügen:** Geschäftsbanken und Devisenmärkte in **[sämtliche relevanten Finanzzentren]** Zahlungen abwickeln.]

§ 2

STATUS, VERPFLICHTUNGSERKLÄRUNG, GARANTIE

(1) *Status.* Die Schuldverschreibungen stellen direkte, unbedingte, nicht nachrangige und nicht besicherte Verbindlichkeiten der Emittentin dar, die gleichen Rang (ausgenommen Verbindlichkeiten aufgrund von nationalen oder lokalen Steuervorschriften, anderen gesetzlichen Ausnahmeregelungen,

(2) *Verpflichtungserklärung der Emittentin.* Die Emittentin hat sich in einer separaten Erklärung (im Folgenden die "Verpflichtungserklärung" genannt) gegenüber den Inhabern verpflichtet, solange bis Kapital, etwaige Zinsen und etwaige zusätzliche Beträge gemäß § 7 (1) im vollen Umfang bei der jeweiligen Zahlstelle oder einer anderen gemäß § 6 ernannten Zahlstelle bereitgestellt worden sind, keine gegenwärtigen oder zukünftigen Verbindlichkeiten (einschließlich Verbindlichkeiten aus Garantien oder Sicherheiten) aus anderen internationalen Kapitalmarktverbindlichkeiten (wie nachfolgend definiert) durch irgendwelche Grund- oder Mobiliarpfandrechte an ihrem gegenwärtigen oder zukünftigen Grundbesitz oder Vermögenswerten sicherzustellen oder sicherstellen zu lassen, es sei denn, dass diese Schuldverschreibungen zu gleicher Zeit und im gleichen Rang anteilig an dieser Sicherstellung teilnehmen. Ausgenommen hiervon sind Grund- oder Mobiliarpfandrechte und andere Besicherungen von Verbindlichkeiten aufgrund von nationalen oder lokalen Steuervorschriften, anderen gesetzlichen Ausnahmeregelungen, gesetzlichen Vorschriften und Verwaltungsvorschriften. Im Falle einer Besicherung dieser Schuldverschreibungen durch die Emittentin gemäß dieses § 2 (2) sind zugunsten der Inhaber die Sicherheiten mit den üblichen Rechten und Pflichten zu bestellen. Wenn ein Inhaber nach Eintritt eines der in § 9 aufgeführten Kündigungsgründe, die die Inhaber zur Kündigung berechtigen, wegen des Kapitals von nicht schon aus anderen Gründen fälligen Schuldverschreibungen eine für die Schuldverschreibungen gegebene Sicherheit in Anspruch nimmt, gelten die betreffenden Schuldverschreibungen in jeder Beziehung als fällig.

(3) *Sicherheiten für Asset-Backed-Securities.* Um etwaige Zweifel zu vermeiden, die in diesem § 2 enthaltene Verpflichtung gilt nicht in Bezug auf Sicherheiten, die in Zusammenhang mit asset-backed-securities (strukturierte Wertpapiere, die mit Vermögenswerten besichert sind) gestellt werden, die von einer Zweckgesellschaft begeben werden, und bei denen die Emittentin die ursprüngliche Inhaberin der zugrunde liegenden Vermögenswerte ist.

(4) *Internationale Kapitalmarktverbindlichkeit.* Für die Zwecke dieser Emissionsbedingungen bedeutet "internationale Kapitalmarktverbindlichkeit" jede Emission von Schuldverschreibungen mit einer ursprünglichen Laufzeit von mehr als einem Jahr.

Die Garantie gibt jedem Inhaber das Recht, Erfüllung der in der Garantie übernommenen Verpflichtungen unmittelbar von der Garantin zu verlangen und diese Verpflichtungen unmittelbar gegen die Garantin durchzusetzen.

(6) *Verpflichtungserklärung der Garantin.* Die Garantin hat sich in der Verpflichtungserklärung gegenüber den Inhabern verpflichtet, solange bis Kapital und etwaige Zinsen sowie etwaige zusätzliche Beträge gemäß § 7 (1) bei der jeweiligen Zahlstelle oder einer anderen gemäß § 6 ernannten Zahlstelle bereitgestellt worden sind, keine gegenwärtigen oder zukünftigen Verbindlichkeiten (einschließlich Verbindlichkeiten aus Garantien oder Sicherheiten) aus anderen internationalen Kapitalmarktverbindlichkeiten durch irgendwelche Grund- oder Mobiliarpfandrechte an ihrem gegenwärtigen oder zukünftigen Grundbesitz oder Vermögenswerten sicherzustellen oder sicherstellen zu lassen, es sei denn, dass diese Schuldverschreibungen zu gleicher Zeit und im gleichen Rang anteilig an dieser Sicherstellung teilnehmen. Ausgenommen hiervon sind Grund- oder Mobiliarpfandrechte und andere Besicherungen aufgrund von nationalen oder lokalen Steuervorschriften, anderen gesetzlichen Ausnahmeregelungen, gesetzlichen Vorschriften und Verwaltungsvorschriften. Im Falle einer Besicherung dieser Schuldverschreibungen durch die Garantin gemäß dieses § 2 (6) sind zugunsten der Inhaber die Sicherheiten mit den üblichen Rechten und Pflichten zu bestellen. Wenn ein Inhaber nach Eintritt eines der in § 9 aufgeführten Kündigungsgründe, die die Inhaber zur Kündigung berechtigen, wegen des Kapitals von nicht schon aus anderen Gründen fälligen Schuldverschreibungen eine für die Schuldverschreibungen gegebene Sicherheit in Anspruch nimmt, gelten die betreffenden Schuldverschreibungen in jeder Beziehung als fällig.

(7) *Sicherheiten für Asset-Backed-Securities.* Um etwaige Zweifel zu vermeiden, die in diesem § 2 enthaltene Verpflichtung gilt nicht in Bezug auf Sicherheiten, die in Zusammenhang mit asset-backed-securities (strukturierte Wertpapiere, die mit Vermögenswerten besichert sind) gestellt werden, die von einer Zweckgesellschaft begeben werden, und bei denen die Garantin die ursprüngliche Inhaberin der zugrunde liegenden Vermögenswerte ist.]

§ 3 ZINSEN

Der Gesamtnennbetrag der Serie **[Seriennummer einfügen]** lautet **[Gesamtnennbetrag der gesamten konsolidierten Serie [Seriennummer]].**

(2) *Form.* Die Schuldverschreibungen lauten auf den Inhaber[.] **[Im Falle einer Emission der BMW US Capital, LLC mit einer Laufzeit von mehr als 183 Tagen, einfügen (wobei das maßgebliche Clearing System CBF oder ein Festgelegtes Clearing System sein muss und somit die Schuldverschreibungen Gegenstand eines book-entry Agreements sind):** wobei die Schuldverschreibungen jedoch für Zwecke des Bundeseinkommenssteuerrechts der Vereinigten Staaten wie Namenspapiere (*registered notes*) behandelt werden.]

[Bei Schuldverschreibungen der BMW US Capital, LLC (wobei das maßgebliche Clearing System CBF oder ein Festgelegtes Clearing System sein muss und somit die Schuldverschreibungen Gegenstand eines book-entry Agreements sind), einfügen:

(3) *Dauerglobalurkunde.*

(a) Die Schuldverschreibungen sind durch eine Dauerglobalurkunde (die "Dauerglobalurkunde" oder "Globalurkunde") ohne Zinsscheine verbrieft. Die Dauerglobalurkunde trägt die eigenhändigen oder faksimilierten Unterschriften zweier ordnungsgemäß bevollmächtigter Vertreter der Emittentin und ist von der Emissionsstelle oder in deren Namen mit einer Kontrollunterschrift versehen. Einzelurkunden und Zinsscheine werden nicht ausgegeben.

(b) Das Eigentum von Rechten an der Globalurkunde und die Übertragung des Eigentums von solchen Rechten wird ausschließlich nachgewiesen und erfolgt nur durch die Unterlagen des festgelegten Clearing Systems (wie nachstehend definiert).

Außer unter den nachstehend beschriebenen Umständen kann das Festgelegte Clearing System eine Globalurkunde nicht anders als durch Übertragung der Globalurkunde auf eine nachfolgende Verwahrstelle übertragen, und Rechte an dieser Globalurkunde können nicht gegen Schuldverschreibungen in effektiver, in Einzelurkunden verbrieft Form ausgetauscht werden.]

[Bei Schuldverschreibungen der Bayerische Motoren Werke Aktiengesellschaft, der BMW Finance N.V., der BMW International Investment B.V. oder der BMW Japan Finance Corp., einfügen:

(3) *Vorläufige Globalurkunde – Austausch.*

Die vorläufige Globalurkunde wird gegen Schuldverschreibungen in den festgelegten Stückelungen, die durch eine Dauerglobalurkunde (die "Dauerglobalurkunde") ohne Zinsscheine verbrieft sind, ausgetauscht. Die vorläufige Globalurkunde und die Dauerglobalurkunde (jeweils eine "Globalurkunde") tragen

jeweils die eigenhändigen oder faksimilierten Unterschriften zweier ordnungsgemäß bevollmächtigter Vertreter der Emittentin und sind jeweils von der Emissionsstelle oder in deren Namen mit einer Kontrollunterschrift versehen. Einzelkunden und Zinsscheine werden nicht ausgegeben.

- (b) Die vorläufige Globalurkunde wird an einem Tag gegen die Dauerglobalurkunde ausgetauscht, der nicht weniger als 40 Tage nach dem Tag der Ausgabe der vorläufigen Globalurkunde liegen darf. Ein solcher Austausch darf nur nach Vorlage von Bescheinigungen erfolgen, wonach der oder die wirtschaftlichen Eigentümer der durch die vorläufige Globalurkunde verbrieften Schuldverschreibungen keine U.S.-Personen sind (ausgenommen bestimmte Finanzinstitute oder bestimmte Personen, die Schuldverschreibungen über solche Finanzinstitute halten). Jede Bescheinigung, die am oder nach dem 40. Tag nach dem Tag der Ausgabe der vorläufigen Globalurkunde eingeht, wird als ein Ersuchen behandelt werden, diese vorläufige Globalurkunde gemäß Absatz (b) dieses § 1 (3) auszutauschen. Wertpapiere, die im Austausch für die vorläufige Globalurkunde geliefert werden, sind nur außerhalb der Vereinigten Staaten (wie in § 4 (3) definiert) zu liefern.]

(4) *Clearing System.*

- [(a)] [Die][Jede] [vorläufige] Globalurkunde [(falls diese nicht ausgetauscht wird) und/oder jede Dauerglobalurkunde] wird solange von einem oder im Namen eines Clearing Systems verwahrt, bis sämtliche Verbindlichkeiten der Emittentin aus den Schuldverschreibungen erfüllt sind. "Clearing System" bedeutet **[Bei mehr als einem Clearing System einfügen: jeweils]** Folgendes: [Clearstream Banking AG, Mergenthalerallee 61, 65760 Eschborn, Bundesrepublik Deutschland ("CBF")] [Clearstream Banking, société anonyme, 42 Avenue JF Kennedy, 1855 Luxemburg, Großherzogtum Luxemburg ("CBL")] [Euroclear Bank SA/NV, Boulevard du Roi Albert II, 1210 Brüssel, Belgien ("Euroclear")] [CBL und Euroclear jeweils ein "ICSD" und zusammen die "ICSDs"] [,] [und] **[anderes Clearing System angeben]** oder jeder Funktionsnachfolger, der die Funktionen **[Bei mehr als einem Clearing System einfügen: jedes der Clearing Systeme]** **[Falls ein Clearing System, einfügen: des Clearing Systems]** übernimmt.

[Im Fall von Schuldverschreibungen, die im Namen der ICSDs verwahrt werden, einfügen:

[Falls die Globalurkunde eine NGN ist, einfügen: Die Schuldverschreibungen werden in Form einer new global note ("NGN") ausgegeben und von einer gemeinsamen Sicherheitsverwahrstelle (*common safekeeper*) im Namen beider ICSDs verwahrt.]

[Falls die Globalurkunde eine CGN ist, einfügen:

Die Schuldverschreibungen werden in Form einer classical global note ("CGN") ausgegeben und von einer gemeinsamen Verwahrstelle im Namen beider ICSDs verwahrt.]

[Bei Schuldverschreibungen der BMW US Capital, LLC (wobei das maßgebliche Clearing System CBF oder ein Festgelegtes Clearing System sein muss und somit die Schuldverschreibungen Gegenstand eines book-entry Agreements sind), einfügen:

- (b) "Festgelegtes Clearing System" bezeichnet ein Clearing System, das ein book-entry Agreement mit der Emittentin hinsichtlich der Schuldverschreibungen abgeschlossen hat, wobei dieses book-entry Agreement solche Vorschriften vorsieht, die es ermöglichen, dass die Schuldverschreibungen für Zwecke der U.S. Bundeseinkommensteuergesetze als Verbindlichkeiten in Form von Namensschuldverschreibungen angesehen werden. Zur Klarstellung: CBF ist ein Festgelegtes Clearing System, jedoch können auch andere Clearing Systeme in der Zukunft zu Festgelegten Clearing Systemen werden.]

- (5) *Inhaber von Schuldverschreibungen.* "Inhaber" bezeichnet jeden Inhaber eines Miteigentumsanteils oder anderen Rechts an den Schuldverschreibungen.

[Falls die Globalurkunde eine NGN ist, einfügen:

- (6) *Register der ICSDs.* Der Gesamtnennbetrag der durch die Globalurkunde verbrieften Schuldverschreibungen entspricht dem jeweils in den Registern beider ICSDs eingetragenen Gesamtbetrag. Die Register der ICSDs (unter denen man die Register versteht, die jeder ICSD für seine Kunden über den Betrag ihres Anteils an den Schuldverschreibungen führt) sind schlüssiger Nachweis über den Gesamtnennbetrag der durch die Globalurkunde verbrieften

Schuldverschreibungen, und eine zu diesen Zwecken von einem ICSD jeweils ausgestellte Bestätigung mit dem Gesamtnennbetrag der so verbrieften Schuldverschreibungen ist ein schlüssiger Nachweis über den Inhalt des Registers des jeweiligen ICSD zu diesem Zeitpunkt.

Bei Rückzahlung oder Zahlung einer Rate bezüglich der durch die Globalurkunde verbrieften Schuldverschreibungen bzw. bei Kauf und Entwertung der durch die Globalurkunde verbrieften Schuldverschreibungen stellt die Emittentin sicher, dass die Einzelheiten über Rückzahlung und Zahlung bzw. Kauf und Löschung bezüglich der Globalurkunde *pro rata* in die Unterlagen der ICSDs eingetragen werden, und dass nach dieser Eintragung vom Gesamtnennbetrag der in die Register der ICSDs aufgenommenen und durch die Globalurkunde verbrieften Schuldverschreibungen der Gesamtnennbetrag der zurückgekauften bzw. gekauften und entwerteten Schuldverschreibungen bzw. der Gesamtbetrag der so gezahlten Raten abgezogen wird.]

[Falls die vorläufige Globalurkunde eine NGN ist, einfügen: Bei Austausch eines Anteils von ausschließlich durch eine vorläufige Globalurkunde verbrieften Schuldverschreibungen wird die Emittentin sicherstellen, dass die Einzelheiten dieses Austauschs *pro rata* in die Aufzeichnungen der ICSDs aufgenommen werden.]]

[(6)][(7)] *Eigentum.*

- (a) Der Inhaber gilt (soweit nicht zwingende Gesetzes- oder Verwaltungsbestimmungen entgegenstehen) in jeder Hinsicht als Alleineigentümer (ob fällig oder nicht fällig, und unabhängig von irgendwelchen Mitteilungen bezüglich des Eigentums, möglichen Treuhandschaften oder anderen Ansprüchen hieran oder hieraus, etwaigen Vermerken auf der Urkunde oder einem Diebstahl oder Verlust) und niemand kann dafür verantwortlich gemacht werden, dass er den Inhaber als Alleineigentümer angesehen hat.
- (b) Die Übertragung des Eigentums an Schuldverschreibungen geschieht durch Einigung der beteiligten Parteien über den Eigentumsübergang und durch die Übergabe oder auf andere Weise in Übereinstimmung mit den jeweils anzuwendenden Gesetzen und Vorschriften einschließlich der Regeln beteiligter Clearing Systeme. Bezugnahmen in diesen Emissionsbedingungen auf "Inhaber" von Schuldverschreibungen sind Bezugnahmen auf die Inhaber solcher Schuldverschreibungen.

[(7)][(8)] *Geschäftstag.* In diesen Emissionsbedingungen bezeichnet "Geschäftstag"

[Falls die festgelegte Währung nicht Renminbi ist, einfügen: einen Tag (außer einem Samstag oder Sonntag), an dem (i) das Clearing System und (ii) **[Falls die festgelegte Währung Euro ist, einfügen:** TARGET2 (wie nachstehend definiert) [und Geschäftsbanken und Devisenmärkte in **[sämtliche relevanten Finanzzentren]]] [Falls die festgelegte Währung nicht Euro ist, einfügen:** Geschäftsbanken und Devisenmärkte in **[sämtliche relevanten Finanzzentren]]** Zahlungen abwickeln.]

[Falls die festgelegte Währung Renminbi ist, einfügen: einen Tag (außer einem Samstag, Sonntag oder Feiertag), an dem Geschäftsbanken und Devisenmärkte am jeweiligen Vorlegungsort für den Geschäftsverkehr geöffnet sind, sowie einen Tag, an dem Geschäftsbanken in Hongkong (wie nachstehend definiert) für den Geschäftsverkehr und die Abwicklung von Zahlungen in Renminbi geöffnet sind.]

§ 2

STATUS, VERPFLICHTUNGSERKLÄRUNG, GARANTIE

(1) *Status.* Die Schuldverschreibungen stellen direkte, unbedingte, nicht nachrangige und nicht besicherte Verbindlichkeiten der Emittentin dar, die gleichen Rang (ausgenommen Verbindlichkeiten aufgrund von nationalen oder lokalen Steuervorschriften, anderen gesetzlichen Ausnahmeregelungen, gesetzlichen Vorschriften und Verwaltungsvorschriften) mit allen anderen unbesicherten und nicht nachrangigen Verbindlichkeiten haben.

(2) *Verpflichtungserklärung der Emittentin.* Die Emittentin hat sich in einer separaten Erklärung (im Folgenden die "Verpflichtungserklärung" genannt) gegenüber den Inhabern verpflichtet, solange bis Kapital und etwaige zusätzliche Beträge gemäß § 7 (1) im vollen Umfang bei der jeweiligen Zahlstelle oder einer anderen gemäß § 6 ernannten Zahlstelle bereitgestellt worden sind, keine gegenwärtigen

oder zukünftigen Verbindlichkeiten (einschließlich Verbindlichkeiten aus Garantien oder Sicherheiten) aus anderen internationalen Kapitalmarktverbindlichkeiten (wie nachfolgend definiert) durch irgendwelche Grund- oder Mobiliarpfandrechte an ihrem gegenwärtigen oder zukünftigen Grundbesitz oder Vermögenswerten sicherzustellen oder sicherstellen zu lassen, es sei denn, dass diese Schuldverschreibungen zu gleicher Zeit und im gleichen Rang anteilig an dieser Sicherstellung teilnehmen. Ausgenommen hiervon sind Grund- oder Mobiliarpfandrechte und andere Besicherungen von Verbindlichkeiten aufgrund von nationalen oder lokalen Steuervorschriften, anderen gesetzlichen Ausnahmeregelungen, gesetzlichen Vorschriften und Verwaltungsvorschriften. Im Falle einer Besicherung dieser Schuldverschreibungen durch die Emittentin gemäß dieses § 2 (2) sind zugunsten der Inhaber die Sicherheiten mit den üblichen Rechten und Pflichten zu bestellen. Wenn ein Inhaber nach Eintritt eines der in § 9 aufgeführten Kündigungsgründe, die die Inhaber zur Kündigung berechtigen, wegen des Kapitals von nicht schon aus anderen Gründen fälligen Schuldverschreibungen eine für die Schuldverschreibungen gegebene Sicherheit in Anspruch nimmt, gelten die betreffenden Schuldverschreibungen in jeder Beziehung als fällig.

(3) *Sicherheiten für Asset-Backed-Securities.* Um etwaige Zweifel zu vermeiden, die in diesem § 2 enthaltene Verpflichtung gilt nicht in Bezug auf Sicherheiten, die in Zusammenhang mit asset-backed-securities (strukturierte Wertpapiere, die mit Vermögenswerten besichert sind) gestellt werden, die von einer Zweckgesellschaft begeben werden, und bei denen die Emittentin die ursprüngliche Inhaberin der zugrunde liegenden Vermögenswerte ist.

(4) *Internationale Kapitalmarktverbindlichkeit.* Für die Zwecke dieser Emissionsbedingungen bedeutet "internationale Kapitalmarktverbindlichkeit" jede Emission von Schuldverschreibungen mit einer ursprünglichen Laufzeit von mehr als einem Jahr.

[Im Fall der Emission von Schuldverschreibungen durch BMW Finance N.V., BMW US Capital, LLC, BMW International Investment B.V. oder BMW Japan Finance Corp. einfügen:

Die Garantie gibt jedem Inhaber das Recht, Erfüllung der in der Garantie übernommenen Verpflichtungen unmittelbar von der Garantin zu verlangen und diese Verpflichtungen unmittelbar gegen die Garantin durchzusetzen.

(6) *Verpflichtungserklärung der Garantin.* Die Garantin hat sich in der Verpflichtungserklärung gegenüber den Inhabern verpflichtet, solange bis Kapital sowie etwaige zusätzliche Beträge gemäß § 7 (1) bei der jeweiligen Zahlstelle oder einer anderen gemäß § 6 ernannten Zahlstelle bereitgestellt worden sind, keine gegenwärtigen oder zukünftigen Verbindlichkeiten (einschließlich Verbindlichkeiten aus Garantien oder Sicherheiten) aus anderen internationalen Kapitalmarktverbindlichkeiten durch irgendwelche Grund- oder Mobiliarpfandrechte an ihrem gegenwärtigen oder zukünftigen Grundbesitz oder Vermögenswerten sicherzustellen oder sicherstellen zu lassen, es sei denn, dass diese Schuldverschreibungen zu gleicher Zeit und im gleichen Rang anteilig an dieser Sicherstellung teilnehmen. Ausgenommen hiervon sind Grund- oder Mobiliarpfandrechte und andere Besicherungen aufgrund von nationalen oder lokalen Steuervorschriften, anderen gesetzlichen Ausnahmeregelungen, gesetzlichen Vorschriften und Verwaltungsvorschriften. Im Falle einer Besicherung dieser Schuldverschreibungen durch die Garantin gemäß dieses § 2 (6) sind zugunsten der Inhaber die Sicherheiten mit den üblichen Rechten und Pflichten zu bestellen. Wenn ein Inhaber nach Eintritt eines der in § 9 aufgeführten Kündigungsgründe, die die Inhaber zur Kündigung berechtigen, wegen des Kapitals von nicht schon aus anderen Gründen fälligen Schuldverschreibungen eine für die Schuldverschreibungen gegebene Sicherheit in Anspruch nimmt, gelten die betreffenden Schuldverschreibungen in jeder Beziehung als fällig.

(7) *Sicherheiten für Asset-Backed-Securities.* Um etwaige Zweifel zu vermeiden, die in diesem § 2 enthaltene Verpflichtung gilt nicht in Bezug auf Sicherheiten, die in Zusammenhang mit asset-backed-securities (strukturierte Wertpapiere, die mit Vermögenswerten besichert sind) gestellt werden, die von einer Zweckgesellschaft begeben werden, und bei denen die Garantin die ursprüngliche Inhaberin der zugrunde liegenden Vermögenswerte ist.]

§ 3 ZINSEN

(2) *Auflaufende Zinsen.* Sollte die Emittentin die Schuldverschreibungen bei Fälligkeit nicht einlösen, fallen auf den ausstehenden Nennbetrag der Schuldverschreibungen ab dem Fälligkeitstag bis zum Tag der tatsächlichen Rückzahlung Zinsen in Höhe von **[Emissionsrendite] per annum an.**]

(3) *Zinstagequotient.* "Zinstagequotient" bezeichnet im Hinblick auf die Berechnung des Zinsbetrages auf eine Schuldverschreibung für einen beliebigen Zeitraum (der "Zinsberechnungszeitraum"):

Tag eines Monats, während der erste Tag des Zinsberechnungszeitraums weder auf den 30. noch auf den 31. Tag eines Monats fällt, wobei in diesem Fall der den letzten Tag enthaltende Monat nicht als ein auf 30 Tage gekürzter Monat zu behandeln ist, oder (B) der letzte Tag des Zinsberechnungszeitraums fällt auf den letzten Tag des Monats Februar, wobei in diesem Fall der Monat Februar nicht als ein auf 30 Tage verlängerter Monat zu behandeln ist).]

[Im Fall von 30E/360 oder Eurobond Basis einfügen: die Anzahl der Tage im Zinsberechnungszeitraum dividiert durch 360 (dabei ist die Anzahl der Tage auf der Grundlage eines Jahres von 360 Tagen mit 12 Monaten zu 30 Tagen zu ermitteln, und zwar ohne Berücksichtigung des Datums des ersten oder letzten Tages des Zinsberechnungszeitraums, es sei denn, der Fälligkeitstag des letzten Zinsberechnungszeitraums ist der letzte Tag des Monats Februar, wobei in diesem Fall der Monat Februar nicht als ein auf 30 Tage verlängerter Monat zu behandeln ist).]

TAXATION

(1) *Taxation.* All amounts payable (whether in respect of principal, interest or otherwise) in respect of the Notes will be made free and clear of and without withholding at source or deduction at source for or on account of any present or future taxes, fees, duties, assessments or governmental charges of whatever nature which are imposed or levied by or on behalf of **[In the case of Notes issued by BMW Finance N.V. or BMW International Investment B.V., insert: the Netherlands, the United States or]** **[in the case of Notes issued by BMW US Capital, LLC, insert: the United States or]** **[In the case of Notes issued by BMW Japan Finance Corp., insert: Japan, the United States or]** **[In the case of Notes issued by Bayerische Motoren Werke Aktiengesellschaft, insert: the Federal Republic of Germany or any political subdivision thereof or any authority or agency therein or thereof having power to tax or the United States]** **[In the case of Notes issued by BMW Finance N.V., BMW US Capital, LLC, BMW International Investment B.V. or BMW Japan Finance Corp., insert: , in the case of the Guarantee, the Federal Republic of Germany or any political subdivision thereof or any authority or agency therein or thereof having power to tax]** (“Withholding Tax”) (*Quellensteuer*), unless Withholding Tax is to be deducted or withheld by law or other regulations or pursuant to any agreement between the Issuer and the relevant jurisdiction and to be paid to the responsible authorities. The flat withholding tax (*Abgeltungsteuer*), which has been in effect in the Federal Republic of Germany since 1 January 2009, the solidarity surcharge (*Solidaritätszuschlag*) imposed thereon and, if applicable, the individual church tax imposed thereon do not constitute such a Withholding Tax on interest payments.

(3) *Relevant Date.* As used herein, the “Relevant Date” means the date on which such payment first becomes due, except that, if the full amount of the moneys payable has not been duly received by the relevant Agent on or prior to such due date, it means the date on which, the full amount of such moneys having been so received by the relevant Agent, notice to that effect is duly given to the Noteholders in accordance with § 12.

Es ist zu beachten, dass die Schuldverschreibungen selbst dann nicht notwendigerweise als geeignete Sicherheit im Sinne der Währungspolitik des Eurosystems und der taggleichen Überziehungen (intra-day credit operations) des Eurosystem entweder nach Begebung oder zu einem Zeitpunkt während ihrer Existenz anerkannt werden. 2. European Economic Area

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a “**Relevant Member State**”), each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the Relevant Implementation Date) it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Prospectus as completed by the final terms in relation thereto to the public in that Relevant Member State except that it may, with effect from and including the Relevant Implementation Date, make an offer of such Notes to the public in that Relevant Member State:

- (a) if the final terms in relation to the Notes specify that an offer of those Notes may be made other than pursuant to Article 3(2) of the Prospectus Directive in that Relevant Member State (a “**Non-exempt Offer**”), following the date of publication of a prospectus in relation to such Notes which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, provided that any such prospectus has subsequently been completed by the final terms contemplating such Non-exempt Offer, in accordance with the Prospectus Directive, in the period beginning and ending on the dates specified in such prospectus or final terms, as applicable, and the Issuer has consented in writing to its use for the purpose of that Non-exempt Offer;
- (b) at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (c) at any time to fewer than 150, natural or legal persons (other than qualified investors as defined in the Prospectus Directive), subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the Issuer for any such offer; or
- (d) at any time in any other circumstances falling within Article 3(2) of the Prospectus Directive, provided that no such offer of Notes referred to in (b) to (d) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression an “**offer of Notes to the public**” in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State, the expression “**Prospectus Directive**” means Directive 2003/71/EC (and amendments thereto, including by Directive 2010/73/EU, as implemented in the Relevant Member State), and includes any relevant implementing measure in the Relevant Member State.

3. United States of America

The Notes and the Guarantee have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the "Securities Act"), and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in transactions that are exempt from or not subject to the registration requirements of the Securities Act, including the safe harbor provided by Regulation S under the Securities Act. The Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to U.S. persons, except in certain transactions permitted by U.S. tax law regulations. Each of the Dealers has represented and agreed that it, its affiliates and any person acting on its or their behalf has not offered or sold, and will not offer or sell, any Notes (including the Guarantee) constituting part of its allotment (i) as part of their distribution at any time or (ii) otherwise until 40 days after the completion of the distribution of the Notes comprising the relevant Tranche, as certified to the Principal Paying Agent by such Dealer (or, in the case of a sale of a Tranche of Notes to or through more than one Dealer, by each of such Dealers as to the Notes of such tranche purchased by or through it, in which case the Principal Paying Agent shall notify each such Dealer when all such Dealers have so certified) except in an offshore transaction in accordance with Regulation S under the Securities Act. Accordingly, each of the Dealers has represented and agreed that neither it, its affiliates nor any other persons acting on its or their behalf have engaged or will engage in any directed selling efforts in the United States with respect to the Notes and the Guarantee, and it and they have complied and will comply with the offering restrictions requirement of Regulation S.

Each of the Dealers has agreed that, at or prior to confirmation of sale of Notes, it will have sent to each distributor, dealer or person receiving a selling concession, fee or other remuneration that purchases Notes from it during the distribution compliance period a confirmation or notice to substantially the following effect:

"The Notes (and the related Guarantee) covered hereby have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the "Securities Act"), and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons (i) as part of their distribution at any time or (ii) otherwise until 40 days after the completion of the distribution of the Tranche of Notes of which such Notes are a part, except in either case in accordance with Regulation S under the Securities Act. Terms used above have the meanings given to them by Regulation S."

Terms used in the foregoing paragraphs have the meanings given to them by Regulation S.

For all Notes issued by an issuer other than where the paying agent is a U.S. payor or a U.S. middleman as defined in U.S. Treas. Reg. § 1.6049-5(c)(5) and other than where the Notes are issued by a non-U.S. issuer and have a maturity of one year or less the following shall apply:

- (1) except to the extent permitted under rules identical to those described in U.S. Treas. Reg. § 1.163-5(c)(2)(i)(D) (or substantively identical successor provisions) (the "TEFRA D Rules"), each of the Dealers has represented and agreed that it (a) has not offered or sold, and during the restricted period will not offer or sell, Notes to a person who is within the United States of America or its possessions or to a United States person and (b) has not delivered and will not deliver within the United States of America or its possessions definitive Notes that are sold during the restricted period;
- (2) each of the Dealers has represented and agreed that it has and throughout the restricted period will have in effect procedures reasonably designed to ensure that its employees or agents who are directly engaged in selling Notes in bearer form are aware that such Notes may not be offered or sold during the restricted period to a person who is within the United States of America or its possessions or to a United States person, except as permitted by the TEFRA D Rules;
- (3) if one of the Dealers is a United States person, it has represented and agreed that it is acquiring the Notes for purposes of resale in connection with their original issuance and if one of the Dealers retains Notes for its own account, it will only do so in accordance with rules identical to those described in U.S. Treas. Reg. § 1.163-5(c)(2)(i)(D)(6); and
- (4) with respect to each affiliate that acquires from a Dealer Notes for the purpose of offering or selling such Notes during the restricted period, such Dealer has represented and agreed that it either (a) repeats and confirms the representations and agreements contained in clauses (1), (2) and (3) on its behalf or (b) agrees that it will obtain from such affiliate for the Issuer's benefit the representations and agreements contained in clauses (1), (2) and (3).

Notes issued in bearer form by non-U.S. issuers complying with the TEFRA D Rules described above in paragraphs (1) through (4) above are intended in order for such Notes to qualify as “foreign targeted obligations” for purposes of Section 4701 of the Code.

Legends:

Notes issued in accordance with the rules described above in paragraph II by non-U.S. issuers will bear the following legend:

“Any United States person who holds this obligation will be subject to limitations under the United States income tax laws, including the limitations provided in section 165(j) and 1287(a) of the U.S. Internal Revenue Code.”

Notes issued in accordance with the rules described above in paragraph II by BMW US Capital, LLC with a maturity of 183 days or less must have a face amount of no less than USD 500,000 or its equivalent and will bear the following legend:

“By accepting this obligation, the holder represents and warrants that it is not a United States person (other than an exempt recipient described in section 6049(b)(4) of the U.S. Internal Revenue Code and the regulations thereunder) and that it is not acting for or on behalf of a United States person (other than an exempt recipient described in section 6049(b)(4) of the U.S. Internal Revenue Code and the regulations thereunder).”

Terms used in paragraph II above, have the meanings given to them by the U.S. Internal Revenue Code and regulations thereunder, including the TEFRA D Rules. The term “Dealers” used in paragraph II above, includes each further Dealer appointed under the Programme.

4. United Kingdom

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that:

- (i) in relation to any Notes which have a maturity of less than one year, (a) it is a person whose ordinary activities involve it in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of its business and (b) it has not offered or sold and will not offer or sell the Notes other than to persons whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or as agent) for the purposes of their businesses or who it is reasonable to expect will acquire, hold, manage or dispose of investments (as principal or agent) for the purposes of their businesses where the issue of the Notes would otherwise constitute a contravention of Section 19 of the Financial Services and Markets Act 2000, as amended (“**FSMA**”) by the Issuer;
- (ii) it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the FSMA) received by it in connection with the issue or sale of the Notes in circumstances in which Section 21(1) of the FSMA does not apply to the Issuer or the Guarantor, if applicable; and
- (iii) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the Notes in, from or otherwise involving the United Kingdom.

5. Japan

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that the Notes have not been and will not be registered in Japan under the Financial Instruments and Exchange Act of Japan (Act No. 25 of 1948 (as amended)). Accordingly, each Dealer has represented and agreed that it will not offer, sell or deliver any Notes, or any Interest thereon directly or indirectly, in Japan or to any Japanese Person or to others for reoffering or resale, directly or indirectly, in Japan or to, or for the account of any Japanese Person except under circumstances which will result in compliance with all applicable laws, regulations and guidelines promulgated by the relevant governmental and regulatory authorities in effect at the relevant time. For the purposes of this paragraph “Japanese Person” shall mean any person resident in Japan, including any corporation or other entity located in Japan. In addition, each Dealer has agreed, and each further Dealer appointed under the Programme will be required to agree, to provide necessary information relating to the issue of Notes to the Issuer (which shall not include the name of

any client of the Dealer), so that the Issuer may make any required reports to the Japanese Minister of Finance through its designated agent.

In addition, each of the Dealers has represented and agreed that it has not, directly or indirectly, offered or sold and will not, directly or indirectly, offer or sell any Notes as part of the distribution by the Dealers, and will not offer, sell or deliver otherwise until 40 days after the date of the issue of the Notes to, or for the benefit of, (a) any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organised under the laws of Japan but excluding (i) a Japanese financial institution designated in Article 3-2-2, Paragraph 28 of the Cabinet Order relating to the Act on Special Measures Concerning Taxation (the "Cabinet Order") that will hold the Notes for its own proprietary account and (ii) an individual resident of Japan or a Japanese corporation whose receipt of interest on the Notes will be made through a payment handling agent in Japan as defined in Article 2-2, Paragraph 2 of the Cabinet Order for Japanese tax purposes) or (b) any non-resident of Japan (which term as used herein means any person other than a person resident in Japan, including any corporation or other entity other than those organised under the laws of Japan) that is a person having a special relationship with the Issuer as provided in Article 6, Paragraph 4 of the Act on Special Measures Concerning Taxation.

6. Republic of Italy

The offering of the Notes has not been registered with the Italian financial regulator (*Commissione Nazionale per le Società e la Borsa* or "**CONSOB**") pursuant to Italian securities legislation and, accordingly, no Notes may be offered, sold or delivered, nor copies of this Prospectus or any other document relating to the Notes be distributed in the Republic of Italy, except:

- (a) to "qualified investors" (*investitori qualificati*) as defined under Article 100 of Legislative Decree No. 58 of 24 February 1998, as amended (the "**Italian Financial Services Act**"), as implemented by Article 26, paragraph 1 (d) of CONSOB Regulation No. 16190 of 29 October 2007, as amended (the "**Intermediaries Regulation**"), pursuant to Article 34-ter, paragraph 1, letter (b) of CONSOB Regulation No. 11971 of 14 May 1999, as amended (the "**Issuers Regulation**"); or
- (b) in any other circumstances which are exempted from the rules on public offerings pursuant to Article 100 of the Italian Financial Services Act and its implementing CONSOB Regulations including the Issuers Regulation.

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that any offer, sale or delivery of the Notes or distribution of copies of this Prospectus or any other document relating to the Notes in the Republic of Italy will be made in accordance with all Italian securities, tax and exchange control and other applicable laws and regulation.

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it will not offer, sell or deliver any Notes or distribute copies of this Prospectus or any other document relating to the Notes in the Republic of Italy, except in any circumstances where an express exemption from compliance with the offer restrictions applies, as provided under the Italian Financial Services Act or the Issuers Regulation.

Any such offer, sale or delivery of the Notes or any distribution of copies of this Prospectus or any other document relating to the Notes in the Republic of Italy must be:

- (i) made by investment firms, banks or financial intermediaries permitted to conduct such activities in the Republic of Italy in accordance with the Italian Financial Services Act, the Intermediaries Regulation, Legislative Decree No. 385 of 1 September 1993, as amended (the "**Italian Banking Act**") and any other applicable laws and regulations;
- (ii) in compliance with Article 129 of the Italian Banking Act and the implementing guidelines of the Bank of Italy, as amended, pursuant to which the Bank of Italy may request post-offering information on the issue or the offer of securities in the Republic of Italy; and
- (iii) in compliance with any other applicable laws and regulations or requirement imposed by CONSOB or any other Italian authority.

Provisions relating to the secondary market in the Republic of Italy

Investors should also note that, in accordance with Article 100-bis of the Italian Financial Services Act, where no exemption from the rules on public offerings applies Notes which are initially offered and placed in the Republic of Italy or abroad to qualified investors only but in the following year are regularly (*sistematicamente*) distributed on the secondary market in the Republic of Italy to non-qualified investors become subject to the public offer and the prospectus requirement rules provided under the Italian Financial Services Act and the Issuers Regulation. Failure to comply with such rules may result in the sale of the Notes being declared null and void and in the liability of the intermediary transferring the Notes for any damages suffered by such non-qualified investors.

7. The Netherlands

In relation to the Netherlands, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree it has not made and will not make an offer of Notes to the public in the Netherlands except that it may make an offer of Notes to the public in the Netherlands:

- (i) in the period beginning on the date of publication of a prospectus in relation to those Notes which has been approved by the competent authority in the Netherlands or, where appropriate, approved in another Member State and notified to the competent authority in that Member State, all in accordance with the Prospectus Directive and ending on the date which is 12 months after the date of such publication;
- (ii) at any time in any other circumstances which do not require the publication by the Issuer of a prospectus pursuant to section 53 through 55 of the Exemption Regulation pursuant to the Act on the Financial Supervision (*Vrijstellingsregeling Wet op het financieel toezicht*);
- (iii) if the Notes will only be offered to qualified investors within the meaning of section 1:1 of the Act on the Financial Supervision.

For the purposes of this provision, the expression an “offer of Notes to the public” in relation to any Notes in the Netherlands means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and the expression “Prospectus Directive” means Directive 2003/71/EC and includes any relevant implementing measure in each Member State.

In addition to the above, if the Issuer issues Zero Coupon Notes and these Zero Coupon Notes are offered in the Netherlands as part of their initial distribution or immediately thereafter:

- (a) transfer and acceptance of such Zero Coupon Notes may only take place either by and between individuals not acting in the course of their profession or business or through the mediation of either a permit holder (*Toegelaten Instelling*) of Euronext Amsterdam N.V. or the Issuer itself in accordance with the Savings Certificate Act of 21 May 1985 (*Wet inzake Spaarbewijzen*); and
- (b) certain identification requirements in relation to the issue and transfer of, and payment on the Zero Coupon Notes have to be complied with pursuant to section 3a of the Savings Certificate Act;

Furthermore, unless such Zero Coupon Notes qualify as commercial paper or certificates of deposit and the transaction is carried out between professional lenders and borrowers:

- (c) each transaction concerning such Zero Coupon Notes must be recorded in a transaction note, stating the name and address of the other party to the transaction, the nature of the transaction and details, including the number and serial number of the Zero Coupon Notes concerned;
- (d) the obligations referred to under (c) above must be indicated on a legend printed on Zero Coupon Notes that are not listed on a stock market; and
- (e) any reference to the words “to bearer” in any documents or advertisements in which a forthcoming offering of Zero Coupon Notes is publicly announced is prohibited.

For purposes of this paragraph, "Zero Coupon Notes" are Notes to bearer in definitive form that constitute a claim for a fixed sum of money against the Issuer and on which interest does not become due prior to maturity or on which no interest is due whatsoever.

8. The People's Republic of China

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that the offer of the Notes is not an offer of securities within the meaning of the Securities Law of the People's Republic of China ("**PRC**") or other pertinent laws and regulations of the PRC and the Notes are not being offered or sold and may not be offered or sold, directly or indirectly, in the PRC (for such purposes, not including the Hong Kong and Macau Special Administrative Regions or Taiwan), except as permitted by the laws of the PRC.

9. Hong Kong

This Prospectus has not been approved by or registered with the Securities and Futures Commission of Hong Kong or the Registrar of Companies of Hong Kong. Each Dealer has represented and agreed that:

- (i) it has not offered or sold and will not offer or sell in Hong Kong, by means of any document, any Notes other than (a) to "*professional investors*" as defined in the Securities and Futures Ordinance (Cap. 571) of Hong Kong and any rules made under that Ordinance; or (b) in other circumstances which do not result in the document being a "*prospectus*" as defined in the Companies (Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32) of Hong Kong or which do not constitute an offer to the public within the meaning of that Ordinance; and
- (ii) it has not issued or had in its possession for the purposes of issue, and will not issue or have in its possession for the purposes of issue, whether in Hong Kong or elsewhere, any advertisement, invitation or document relating to the Notes, which is directed at, or the contents of which are likely to be accessed or read by, the public of Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to Notes which are or are intended to be disposed of only to persons outside Hong Kong or only to "*professional investors*" as defined in the Securities and Futures Ordinance and any rules made under that Ordinance.

10. Other Jurisdictions

Each of the Dealers has agreed that it will not offer, sell or deliver any Notes in any other country or jurisdiction except under circumstances that will, to the best of its knowledge and belief, result in compliance with any applicable laws and regulations in force in such jurisdiction in which it offers, sells or delivers the Notes.

TAXATION

The following is a summary of the withholding taxation treatment of the Federal Republic of Germany, the Netherlands, the United States of America, the United Kingdom, Japan, the People's Republic of China, Hong Kong, Luxembourg and Austria, respectively, at the date hereof in relation to the payments on the Fixed Rate Notes, the Floating Rate Notes and the Zero Coupon Notes (the "Notes"). It is not exhaustive, and in particular, does not deal with the position of Noteholders other than in relation to withholding tax (for certain non-exhaustive exceptions, see below) in the jurisdictions referred to above, nor with the withholding tax treatment of payments on all forms of Notes which may be issued under the Programme. This summary is based upon the law as in effect on the date of this Prospectus and is subject to any change in law that may take effect after such date and may be retroactively applicable.

Noteholders who are in any doubt as to their tax position are urged to consult their professional advisers as to the overall tax consequences of purchasing, holding and/or selling Notes and/or Coupons/Talons.

Federal Republic of Germany

The following is a general discussion of certain German tax consequences of the acquisition, the ownership and the sale, assignment or redemption of the Notes. It does not purport to be a comprehensive description of all tax considerations, which may be relevant to a decision to purchase Notes, and, in particular, does not consider any specific facts or circumstances that may apply to a particular purchaser. This summary is based on the laws of Germany currently in force and as applied on the date of this Prospectus, which are subject to change, possibly with retroactive or retrospective effect.

As each Tranche of Notes may be subject to a different tax treatment, due to the specific terms of such Tranche, the following section only provides some very generic information on the possible tax treatment and has to be read in conjunction with the more specific information on the taxation of each Tranche of Notes as provided in the relevant Final Terms.

Prospective purchasers of the Notes are advised to consult their own tax advisors as to the tax consequences of the acquisition, the ownership and the sale, assignment or redemption of Notes, including the effect of any state or local taxes, under the tax laws of Germany and each country of which they are residents. Otherwise prospective purchasers may find additional information regarding particular uncertainties in the light of the flat tax regime in the tax decree dated 18 January 2016 (IV C 1 – S 2252/08/10004 :017) issued by the German Federal Ministry of Finance.

General

The Business Tax Reform Act 2008 (*Unternehmensteuerreformgesetz 2008*) introduced, inter alia, the so-called flat tax (*Abgeltungsteuer*), in the following also referred to as "flat tax", a taxation regime for investment income. The flat tax regime took effect on 1 January 2009 and changed the taxation of investment income for private investors significantly but also provides for certain modifications regarding the taxation of business investors. The flat tax applies to both current interest payments under the Notes and gains from the sale, assignment or redemption of the Notes. The flat tax regime is authoritative with respect to securities (including the Notes) acquired after 31 December 2008.

Tax Residents

Private Investors

Interest and Capital Gains

Interest payable on the Notes to persons holding the Notes as private assets ("Private Investors") who are tax residents of Germany (i.e. persons whose residence or habitual abode is located in Germany) qualifies as investment income (*Einkünfte aus Kapitalvermögen*) according to Sec. 20 para. 1 German Income Tax Act (*Einkommensteuergesetz*) and is generally taxed at a separate flat tax rate of 25 per cent. (plus 5.5 per cent. solidarity surcharge thereon and, if applicable, church tax). Capital gains from the sale, assignment or redemption of the Notes acquired after 31 December 2008, including the original issue discount of the Notes and interest having accrued up to the disposition of a Note and credited separately ("Accrued Interest", *Stückzinsen*), if any, qualify – irrespective of any holding

period – as investment income pursuant to Sec. 20 para. 2 German Income Tax Act and are also taxed at the flat tax rate plus 5.5 per cent. solidarity surcharge thereon and, if applicable, church tax. If the Notes are assigned, redeemed, repaid or contributed into a corporation by way of a hidden contribution (*verdeckte Einlage in eine Kapitalgesellschaft*) rather than sold, as a rule, such transaction is treated like a sale. The separation of coupons or interest claims from the Notes is treated as a disposition of the Notes.

Capital gains are determined by taking the difference between the sale, assignment or redemption price (after the deduction of expenses directly and factually related to the sale, assignment or redemption) and the acquisition price of the Notes. This will as well apply to Notes on which the principal is effectively repaid in whole or in part although the repayment was not guaranteed. Where the Notes are issued in a currency other than Euro the sale, assignment or redemption price and the acquisition costs have to be converted into Euro on the basis of the foreign exchange rates prevailing on the acquisition date and the sale, assignment or redemption date respectively.

Expenses (other than such expenses directly and factually related to the sale, assignment or redemption) related to interest payments or capital gains under the Notes are – except for a standard lump sum (*Sparer-Pauschbetrag*) of 801 Euro (1,602 Euro for married couples filing jointly) – not deductible.

According to the flat tax regime losses from the sale, assignment or redemption of the Notes can only be set-off against other investment income including capital gains. If the set-off is not possible in the assessment period in which the losses have been realised, such losses can be carried forward into future assessment periods only and can be set-off against investment income including capital gains generated in these future assessment periods.

Further, the German Federal Ministry of Finance in its decree dated 18 January 2016 (IV C 1 – S 2252/08/10004 :017) has taken the position that a bad debt loss (*Forderungsausfall*) and a waiver of a receivable (*Forderungsverzicht*) shall, in general, not be treated as a sale, so that losses suffered upon such bad debt loss or waiver shall not be deductible for tax purposes. With respect to a bad debt loss a German lower fiscal court has recently confirmed the view of the German tax authorities in a non-final decision. In this respect, it is not clear, as well, whether the position of the tax authorities may affect securities which are linked to a reference value in case such value decreases. Furthermore, the German Federal Ministry of Finance holds the view that a disposal (*Veräußerung*) (and, as a consequence, a tax loss resulting from such disposal) shall not be recognised if (i) the sales price does not exceed the actual transaction cost or (ii) the level of transaction costs is restricted because of a mutual agreement that the transaction costs are calculated by subtracting a certain amount from the sales price. This view has however been challenged by two German lower fiscal courts.

Withholding

If the Notes are held in custody with or administrated by a German credit institution, financial services institution (including a German permanent establishment of such foreign institution), securities trading company or securities trading bank (the "Disbursing Agent"), the flat tax at a rate of 25 per cent. (plus 5.5 per cent. solidarity surcharge thereon and, if applicable, church tax) will be withheld by the Disbursing Agent on interest payments and the excess of the proceeds from the sale, assignment or redemption (after the deduction of expenses directly and factually related to the sale, assignment or redemption) over the acquisition costs for the Notes (if applicable converted into Euro terms on the basis of the foreign exchange rates as of the acquisition date and the sale, assignment or redemption date respectively). In the case of interest and capital gains received after 31 December 2014, church tax is collected by way of withholding as a standard procedure unless the Private Investor filed a blocking notice (*Sperrvermerk*) with the German Federal Central Tax Office (*Bundeszentralamt für Steuern*).

The Disbursing Agent will provide for the set-off of losses with current investment income including capital gains from other securities. If, in the absence of sufficient current investment income derived through the same Disbursing Agent, a set-off is not possible, the holder of the Notes may – instead of having a loss carried forward into the following year – file an application with the Disbursing Agent until 15 December of the current fiscal year for a certification of losses in order to set-off such losses with investment income derived through other institutions in the holder's personal income tax return. If custody has changed since the acquisition and (i) no evidence on the acquisition data has been provided to the Disbursing Agent by the domestic bank or financial services institution or the foreign branch of a domestic bank or financial services institution located within the EU, the EEA or certain

contractual states with which the Noteholder previously maintained its custodial account; or (ii) in certain other cases, the acquisition data is not relevant, the flat tax rate of 25 per cent. (plus 5.5 per cent. solidarity surcharge thereon and, if applicable, church tax) will be imposed on an amount equal to 30 per cent. of the proceeds from the sale, assignment or redemption of the Notes.

In the course of the tax withholding provided for by the Disbursing Agent foreign taxes on investment income may be credited in accordance with the German Income Tax Act.

In general, no flat tax will be levied if the Noteholder filed a withholding exemption certificate (*Freistellungsauftrag*) with the Disbursing Agent (in the maximum amount of the standard lump sum of 801 Euro (1,602 Euro for married couples filing jointly)) to the extent the income does not exceed the maximum exemption amount shown on the withholding exemption certificate. Similarly, no flat tax will be deducted if the Noteholder has submitted to the Disbursing Agent a valid certificate of non-assessment (*Nichtveranlagungsbescheinigung*) issued by the relevant local tax office.

For Private Investors the withheld flat tax is, in general, definitive. Exceptions apply e.g., if and to the extent the actual investment income exceeds the amount which was determined as the basis for the withholding of the flat tax by the Disbursing Agent. In such case, the exceeding amount of investment income must be included in the Private Investor's income tax return and will be subject to the flat tax in the course of the assessment procedure. According to the decree of the German Federal Ministry of Finance dated 18 January 2016 (IV C 1 – S 2252/08/10004 :017), however, any exceeding amount of not more than 500 Euro per assessment period will not be claimed on grounds of equity, provided that no other reasons for an assessment according to Sec. 32d para. 3 German Income Tax Act exist. Further, Private Investors may request that their total investment income, together with their other income, be subject to taxation at their personal, progressive income tax rate rather than the flat tax rate, if this results in a lower tax liability. According to Sec. 32d para. 2 no. 1 German Income Tax Act the flat tax rate is also not available in situations where an abuse of the flat tax rate is assumed (e.g. "back-to-back" financing). In order to prove the capital investment income and the withheld flat tax thereon, the investor may request a respective certificate in officially required form from the Disbursing Agent.

Investment income not subject to the withholding flat tax (e.g. since there is no Disbursing Agent) must be included into the personal income tax return and will be subject to the flat tax rate of 25 per cent. (plus 5.5 per cent. solidarity surcharge thereon and, if applicable, church tax), unless the investor requests the investment income to be subject to taxation at lower personal, progressive income tax rate. Foreign taxes on investment income may be credited in accordance with the German Income Tax Act.

Business Investors

Interest payable on the Notes to persons holding the Notes as business assets ("Business Investors") who are tax residents of Germany (i.e. Business Investors whose residence, habitual abode, statutory seat or place of effective management and control is located in Germany) and capital gains from the sale, assignment or redemption of the Notes, including the original issue discount of the Notes and Accrued Interest, if any, are subject to corporation tax or income tax, as the case may be, (each plus solidarity surcharge thereon) in the hands of a Business Investor at the investor's personal tax rate and have also to be considered for trade tax purposes. Losses from the sale, assignment or redemption of the Notes are generally recognised for tax purposes.

Withholding tax, if any, including solidarity surcharge, is credited as a prepayment against the Business Investors's corporate or personal income tax liability and the solidarity surcharge in the course of the tax assessment procedure, i.e. the withheld flat tax is not definitive. Any potential surplus will be refunded. However, in general and subject to certain further requirements no withholding deduction will apply on capital gains from the sale, assignment or redemption of the Notes if (i) the Notes are held by a corporation, association or estate in terms of Sec. 43 para. 2 sentence 3 no. 1 German Income Tax Act or (ii) the proceeds from the Notes qualify as income of a domestic business and the investor notifies this to the Disbursing Agent by use of the required official form according to Sec. 43 para. 2 sentence 3 no. 2 German Income Tax Act (*Erklärung zur Freistellung vom Kapitalertragsteuerabzug*).

Foreign taxes may be credited in accordance with the German Income Tax Act. Alternatively, foreign taxes may also be deducted from the tax base for German income tax purposes.

Non-residents

Interest payable on the Notes and capital gains, including Accrued Interest, if any, are not subject to German taxation, unless (i) the Notes form part of the business property of a permanent establishment, including a permanent representative, or a fixed base maintained in Germany by the Noteholder; or (ii) the interest income otherwise constitutes German-source income, such as income from the letting and leasing of certain German situs property or income from certain capital investments directly or indirectly by German situs real estate. In the cases (i) and (ii) a tax regime similar to that explained above under "Tax Residents" applies.

Non-residents of Germany are, as a rule, exempt from German withholding tax on interest and the solidarity surcharge thereon, even if the Notes are held in custody with a Disbursing Agent. However, where the interest income is subject to German taxation as set forth in the preceding paragraph and the Notes are held in a custodial account with a Disbursing Agent withholding tax is levied as explained above under "Tax Residents".

The withholding tax may be refunded based upon an assessment to tax or under an applicable tax treaty.

Particularities of Notes with a negative yield

Holders of the Notes will only realise a taxable capital gain if they receive, upon a disposal of the Notes, an amount in excess of the issue price (or the purchase price they paid for the Notes).

Contrary thereto, holders of the Notes who subscribe the Notes at the issue price and hold the Notes until their final maturity will realise a loss. The tax treatment of such losses is not entirely clear:

If the Notes are held by tax residents as private assets, recently published statements of the German tax authorities regarding "negative interest" incurred on bank deposits made by private investors arguably imply that such losses cannot be fully deducted; such losses are rather treated as expenses in connection with investment income and, are, consequently not tax-deductible except for the standard lump sum deduction (Sparer-Pauschbetrag) of € 801 (€ 1,602 for married couples filing jointly).

If the Notes are held by tax residents as business assets, arguably such losses are generally tax deductible.

Inheritance and Gift Tax

No inheritance or gift taxes with respect to the Notes will arise under the laws of Germany, if, in the case of inheritance tax, neither the decedent nor the beneficiary, or, in the case of gift tax, neither the donor nor the donee, is a resident of Germany and such Notes are not attributable to a German trade or business for which a permanent establishment is maintained, or a permanent representative has been appointed, in Germany. Exceptions from this rule apply to certain German expatriates.

Other Taxes

No stamp, issue, registration or similar taxes or duties will currently be payable in Germany in connection with the issuance, delivery, execution or conversion of the Notes. Currently, net assets tax is not levied in Germany. It is intended to introduce a financial transaction tax. However, it is unclear if and in what form such tax will be actually introduced.

The Netherlands

This taxation summary solely addresses the principal Dutch tax consequences of the acquisition, the ownership and disposition of Notes. It does not discuss every aspect of taxation that may be relevant to a particular Noteholder under special circumstances or who is subject to special treatment under applicable law.

The laws upon which this summary is based are subject to change, perhaps with retroactive effect. A change to such laws may invalidate the contents of this summary, which will not be updated to reflect changes in laws. This summary is based on the tax laws of the Netherlands as they are in force and in effect on the date of this Prospectus. It assumes that each transaction with respect to Notes is at arm's length.

Where the summary refers to "the Netherlands" or "Dutch" it refers only to the European part of the Kingdom of the Netherlands.

This is a general summary and the tax consequences as described here may not apply to a Noteholder. Any potential investor should consult his own tax adviser for more information about the tax consequences of acquiring, owning and disposing of Notes in his particular circumstances.

Withholding Tax

All payments of principal and interest under the Notes may be made free of any Dutch withholding tax, except where Notes are issued under such terms and conditions that the Notes actually function as equity of BMW Finance and/or BMW International Investment as meant in article 10, paragraph 1, letter d, of the Dutch Corporate Income Tax Act 1969 (*Wet Vennootschapsbelasting 1969*).

Taxes on Income and Capital Gains

This section "Taxes on income and capital gains" applies to a Noteholder who is neither resident nor deemed to be resident in the Netherlands for Dutch tax purposes and, in the case of an individual, is not a qualifying non-resident taxpayer (*kwalificerende buitenlandse belastingplichtige*) as defined in the Netherlands Income Tax Act 2001 (*Wet inkomstenbelasting 2001*) who is treated as a resident of the Netherlands for Dutch tax purposes (a "Non-Resident Noteholder").

Individuals

A Non-Resident Noteholder who is an individual will not be subject to any Dutch taxes on income or capital gains in respect of any benefit derived or deemed to be derived from Notes, including any payment under the Notes and any gain realised on the disposal of Notes, provided that both of the following conditions are satisfied:

1. If he derives profits from an enterprise, whether as an entrepreneur (*ondernemer*) or pursuant to a co-entitlement to the net worth of such enterprise, other than as an entrepreneur or a holder of securities, which enterprise is either managed in the Netherlands or, in whole or in part, carried on through a permanent establishment or a permanent representative in the Netherlands as the case may be, his Notes are not attributable to such enterprise.
2. He does not derive benefits from Notes that are taxable as benefits from miscellaneous activities in the Netherlands (*resultaat uit overige werkzaamheden in Nederland*); and

benefits derived from Notes by a Non-Resident Noteholder who is an individual and who meets condition 1 above will be taxable as benefits from miscellaneous activities in the Netherlands if he, or an individual who is a connected person in relation to him as meant in article 3.91, paragraph 2, letter b, of the Dutch Income Tax Act 2001 (*Wet inkomstenbelasting 2001*), has a substantial interest (*aanmerkelijk belang*) (as described below) in BMW Finance and/or BMW International Investment.

A person has a substantial interest in BMW Finance and/or BMW International Investment if he alone or together with his partner (*partner*), if any, has, directly or indirectly, either the ownership of shares representing 5 per cent. or more of the total issued and outstanding capital (or the issued and outstanding capital of any class of shares) of BMW Finance and/or BMW International Investment, or rights to acquire, directly or indirectly, shares, whether or not already issued, that represent 5 per cent. or more of the total issued and outstanding capital (or the issued and outstanding capital of any class of shares) of BMW Finance and/or BMW International Investment or the ownership of profit participating certificates (*winstbewijzen*) that relate to 5 per cent. or more of the annual profit of BMW Finance and/or BMW International Investment or to 5 per cent. or more of the liquidation proceeds of BMW Finance and/or BMW International Investment.

For purposes of the above, a Noteholder who is only entitled to the benefits from shares or profit participating certificates (for instance a holder of a right of usufruct) is deemed to be a holder of shares or profit participating certificates, as the case may be, and his entitlement to such benefits is considered a share or profit participating certificate, as the case may be.

Furthermore, a Non-Resident Noteholder who is an individual and who meets condition 1 above may, *inter alia*, derive benefits from Notes that are taxable as benefits from miscellaneous activities in the following circumstances, if such activities are performed or deemed to be performed in the Netherlands:

- if his investment activities go beyond the activities of an active portfolio investor, for instance in case of the use of insider knowledge (*voorkennis*) or comparable forms of special knowledge; or

- if he makes Notes available or is deemed to make Notes available, legally or in fact, directly or indirectly, to certain parties as meant in articles 3.91, 3.92 and 3.92(b) of the Dutch Income Tax Act 2001 (*Wet inkomstenbelasting 2001*) under circumstances described there.

Entities

A Non-Resident Noteholder other than an individual will not be subject to any Dutch taxes on income or capital gains in respect of any payment under the Notes or in respect of any gain realised on the disposal of Notes, provided that (a) if such Non-Resident Noteholder derives profits from an enterprise that is either managed in the Netherlands or, in whole or in part, carried on through a permanent establishment or a permanent representative in the Netherlands, whether as an entrepreneur (*ondernemer*) or pursuant to a co-entitlement to the net worth of such enterprise (other than as an entrepreneur or as a holder of securities), the Notes are not attributable to such enterprise, and (b) such Non-Resident Noteholder does not have a substantial interest in BMW Finance and/or BMW International Investment.

A person other than an individual has a substantial interest in BMW Finance and/or BMW International Investment (x) if it has a substantial interest in BMW Finance and/or BMW International Investment (as described above under *individuals*) or (y) if it has a deemed substantial interest in BMW Finance and/or BMW International Investment. A deemed substantial interest is present if its shares, profit participating certificates or rights to acquire shares or profit participating certificates in BMW Finance and/or BMW International Investment have been acquired by such person or are deemed to be acquired by such person on a non-recognition basis.

Gift and Inheritance Taxes

A person who acquires Notes as a gift, in form or in substance, or who acquires or is deemed to acquire Notes on the death of an individual, will not be subject to Dutch gift tax or to Dutch inheritance tax, as the case may be, unless:

- (i) the donor or the deceased is resident or deemed to be resident in the Netherlands for purposes of gift or inheritance tax as the case may be; or
- (ii) the donor makes a gift of Notes, then becomes a resident or deemed resident of the Netherlands, and dies as a resident or deemed resident of the Netherlands within 180 days after the date of the gift.

If the donor or the deceased is an individual who holds Dutch nationality, he will be deemed to be resident in the Netherlands for purposes of Dutch gift and inheritance taxes if he has been resident in the Netherlands at any time during the ten years preceding the date of the gift or his death. If the donor is an individual who does not hold Dutch nationality, or an entity, he or it will be deemed to be resident in the Netherlands for purposes of Dutch gift tax if he or it has been resident in the Netherlands at any time during the twelve months preceding the date of the gift. Furthermore, in exceptional circumstances, the donor or the deceased will be deemed to be resident in the Netherlands for purposes of Dutch gift and inheritance taxes if the beneficiary of the gift or all beneficiaries under the estate jointly, as the case may be, make an election to that effect.

Other Taxes and Duties

No Dutch registration tax, custom duty, transfer tax, stamp duty or any other similar documentary tax or duty, other than court fees, will be payable by a Noteholder in the Netherlands in respect of or in connection with the execution (*ondertekening*), delivery (*overhandiging*) and/or enforcement by legal proceedings (including the enforcement of any foreign judgment in the courts of the Netherlands) of the Dealer Agreement and the Agency Agreement or the performance by BMW Finance and/or BMW International Investment of its obligations thereunder or under the Notes.

United States of America

The following is a general discussion of the anticipated United States Federal income tax consequences under current law of holding Notes issued by BMW US Capital, LLC under the Terms and Conditions of the Notes, is limited to the United States tax consequences for United States Aliens (as defined below) and does not consider any possible United States Federal estate tax consequences. Noteholders are urged to consult their own tax advisers with respect to the particular consequences of holding Notes in light of their own particular circumstances.

Persons considering the purchase of Notes should consult their own tax advisors concerning the application of United States Federal income tax laws, as well as the law of any state, local or foreign tax jurisdiction, to their particular situations.

For United States Federal income tax purposes, Notes issued by BMW US Capital, LLC will be treated as issued by BMW (US) Holding Corp. In addition, this discussion does not address any Notes issued by any other issuer which may be substituted for BMW US Capital, LLC or BMW (US) Holding Corp. For purposes of this discussion, it is assumed that BMW US Capital, LLC remains an entity disregarded for United States Federal income tax purposes and it is assumed that the Notes are treated as debt for United States Federal income tax purposes.

Notes with a maturity of more than 183 days issued by BMW US Capital, LLC will be kept in custody by CBF (or other Specified Clearing System pursuant to a book entry agreement addressing the “immobilisation” of the Notes) and are therefore intended to be treated as issued in registered form for U.S. federal income tax purposes.

Provided that such Notes and interest coupons, talons and receipts appertaining thereto are offered, sold and delivered, and principal, premium, if any, and interest thereon are paid in accordance with the terms of the Dealer Agreement dated 9 May 2017, the Agency Agreement dated 9 May 2017 and the Terms and Conditions of the Notes pertaining to the Notes, under present United States Federal income tax law, assuming the Notes are treated as debt for United States Federal income tax purposes and excluding instruments described in Section 871(h)(4)(A) of the Code (relating to a limited class of obligations providing for certain kinds of contingent payments) assuming the United States Alien does not have a connection or former connection with the United States other than holding the Notes and assuming that the Notes that are not refused from or otherwise treated as not in registered form as that term is understood in the Code:

1. Subject to the discussion of backup withholding and FATCA below, payments of principal, premium, if any, and interest (including original issue discount) on the Notes by BMW US Capital, LLC or any of its paying agents to any United States Alien will not be subject to United States Federal withholding tax, provided that, in the case of interest (including original issue discount), (a) the United States Alien does not actually or constructively own 10 per cent. or more of the total combined voting power of all classes of stock of BMW (US) Holding Corp. entitled to vote, (b) the United States Alien is not a controlled foreign corporation for U.S. federal income tax purposes that is related to BMW (US) Holding Corp. through stock ownership, (c) the United States Alien is not a bank that acquired a Note in consideration of an extension of credit made pursuant to a loan agreement entered into in the ordinary course of business and (d) the United States Alien has provided a properly completed Form W-8BEN or Form W-8BEN-E, as applicable (or appropriate successor form).
2. Subject to the discussion of backup withholding and FATCA below, no United States Federal income tax will be imposed with respect to any gain or income realised by a United States Alien on the sale, exchange or redemption of the Notes unless such gain is effectively connected with such United States Alien's conduct of a trade or business in the United States or, in the case of an individual United States Alien, such United States Alien is present in the United States for 183 days or more in the taxable year of the sale, exchange or redemption and certain other conditions are met.
3. Backup withholding will not apply to payments of principal, premium, if any, or interest (including original issue discount) by BMW US Capital, LLC or any of its paying agents on the Note or coupon or talon or receipt unless BMW US Capital, LLC or its paying agent has actual knowledge, or reason to know, that the payee is a United States person and, in general, the payee has not provided a properly completed Form W-9 (or successor form).

Payments of the proceeds of the sale of a Note to or through a foreign office of a “broker” (as defined in applicable United States Treasury Regulations) will not be subject to backup withholding (absent actual knowledge that the payee is a U.S. person) but will be subject to information reporting if a broker is a United States Middleman, unless the broker has in its records documentary evidence that the Noteholder is not a U.S. person and has no actual knowledge, or reason to know, to the contrary or the Noteholder otherwise establishes an exemption. In any case, information reporting on IRS Form 1042-S will generally apply to payments of interest. Copies of these information returns may be made available to the tax authorities of the country in which the United States Alien resides pursuant to the provisions of various treaties or agreements for the exchange of tax information. Payment of the

proceeds of a sale of a Note to or through the United States office of a broker is subject to backup withholding and information reporting unless the Noteholder certifies its non-United States status under penalties of perjury or otherwise establishes an exemption. In certain circumstances, the obligations of BMW US Capital, LLC or any of its paying agents with respect to backup withholding and information reporting could be adjusted to coordinate with certain similar obligations required to be performed pursuant to FATCA.

Pursuant to sections 1471-1474 of the Code and applicable treasury regulations thereunder, (commonly referred to as "FATCA") and subject to certain exceptions, a withholding tax is imposed at a rate of 30 per cent. on "withholdable payments" made at any time (in the case of payments of interest) or after 31 December 2018 (in the case of payments of principal and gross proceeds of sale) to "foreign financial institutions" (FFIs) and non-financial foreign entities (NFFEs) that fail to comply with certain information reporting obligations, whether such FFIs or NFFEs receive such payments as their beneficial owners or as intermediaries. For this purpose, withholdable payments are comprised of U.S.-source payments (including those otherwise exempt from withholding tax imposed by section 1441 of the Code, such as payments of portfolio interest) and gross proceeds from the sale of any equity or debt instruments of U.S. issuers. A FFI is defined broadly pursuant to section 1471(d)(4) of the Code to include non-U.S. banks, non-U.S. custodians, certain non-U.S. insurance companies and certain non-U.S. investment vehicles engaged in investing, reinvesting or trading in securities. A NFFE, as defined in section 1472(d) of the Code, includes any non-U.S. entity that is not a foreign financial institution. Certain countries have entered into, and other countries are expected to enter into, agreements with the U.S. to facilitate the type of information reporting required under FATCA. While the existence of such agreements will not eliminate the risk that notes will be subject to the withholding described above, these agreements are expected to reduce the risk of the withholding for investors in (or indirectly holding notes through financial institutions in) those countries. To avoid withholding under FATCA on payments they receive, an FFI must enter into an agreement with the U.S. government to collect and provide to the IRS substantial information regarding certain "U.S. account holders" of such FFIs (which would include certain account holders that are foreign entities with U.S. owners), is subject to and complies with the terms of an applicable intergovernmental agreement implementing FATCA (and/or with any laws, regulations or rules implementing such agreement) or is otherwise deemed compliant with FATCA. A NFFE must certify that it (i) has no "substantial United States owners" within the meaning of section 1473(2) or (ii) provide certain identifying information regarding each substantial United States owner of the NFFE.

For purposes of this discussion,

- a "United States Alien" is a Noteholder that is a beneficial owner of that Note and that is an individual, corporation, estate or trust that is not a "United States Person".
- a "United States Person" is a beneficial owner of a Note that is (i) a citizen or resident of the United States, (ii) a corporation (or entity treated as a corporation for United States Federal tax purposes) created or organized under the laws of the United States or any political subdivision thereof, (iii) an estate the income of which is subject to United States income tax without regard to the source, or (iv) a trust if a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust.
- a "United States Middleman" is (i) a U.S. person, (ii) a controlled foreign corporation for United States tax purposes, (iii) a foreign person 50 per cent. or more of whose gross income is derived from the conduct of a United States trade or business for a specified three year period, (iv) a foreign partnership engaged in a United States trade or business or in which U.S. persons hold more than 50 per cent. of the income or capital interest, or (v) certain United States branches of foreign banks or insurance companies.

By its acceptance of a Note, each Noteholder will be deemed to understand and acknowledge that the Issuer, Principal Paying Agent, Paying Agent or agents thereof may require certification and/or information acceptable to it (i) to permit the Issuer to make payments to it without, or at a reduced rate of, withholding, (ii) to enable the Issuer to qualify for a reduced rate of withholding (or elimination of withholding) in any jurisdiction from or through which the Issuer receives payments on its assets and (iii) to enable the Issuer or its agents to satisfy any tax reporting or other obligations. The Noteholder will be deemed to have agreed to provide any such certification and information that is requested by the Issuer, Principal Paying Agent, Paying Agent or agents thereof, and to update or replace such certification and information in accordance with its terms or its subsequent amendments. The Noteholder will also be deemed to agree to provide the Issuer, Principal Paying Agent, Paying Agent

or agents thereof with any correct, complete and accurate information that may be required for the Issuer, Principal Paying Agent, Paying Agent or agents thereof to comply with FATCA. In the event the Noteholder fails to provide such information or take such actions, (A) the Issuer, Principal Paying Agent, Paying Agent or agents thereof is authorised to withhold amounts otherwise distributable to the Noteholder as compensation for any amount withheld from payments to the Issuer as a result of such failure, and (B) to the extent necessary to avoid an adverse effect on the Issuer or any other Noteholders as a result of such failure, the Issuer will have the right to compel the holder to sell its Notes or, if the Noteholder does not sell its Notes within 10 business days after notice from the Issuer, to sell such Notes at a public or private sale called and conducted in any manner permitted by law, and to remit the net proceeds of such sale (taking into account any taxes, costs, or other expenses incurred by the Issuer in connection with such sale) to the Noteholder as payment in full for such Notes (subject to the indemnity described immediately below). The Issuer may also assign each such Note a separate identification number or numbers in the Issuer's sole discretion.

United Kingdom

1. Payments of interest by or on behalf of an Issuer under the Notes may be made without deduction on account of any tax imposed by the United Kingdom.
2. Noteholders who are individuals may wish to note that HM Revenue and Customs has the power to obtain information (including the name and the address of the beneficial owner of the interest) from any person in the United Kingdom who either pays interest to, or receives interest for, the benefit of an individual. Information so obtained may, in certain circumstances, be exchanged by HM Revenue and Customs with the tax authorities of the jurisdiction in which the Noteholders are resident for tax purposes.

Prospective Noteholders who are in any doubt as to their tax position or may be subject to tax in a jurisdiction other than the United Kingdom should seek independent professional advice.

The People's Republic of China

Enterprise Income Tax

The following is a general discussion of the People's Republic of China ("PRC") income tax implications of the payments made to Holders who are the beneficial owners of the Notes. The discussion is based on the prevailing PRC tax laws and regulations, which are subject to change at any time, possibly with retroactive effect. This discussion does not address any tax implications of a particular Holder and any tax implications other than those arising under PRC tax laws and regulations.

Under the PRC Enterprise Income Tax Law which was promulgated by the National People's Congress of the PRC on 16 March 2007 and became effective on 1 January 2008, an enterprise established in the PRC or in a foreign country with a "de facto management body" located within the PRC is considered a "PRC tax resident enterprise" and will normally be subject to the enterprise income tax at the rate of 25% for its worldwide income. Under the Implementation Regulations for the PRC Enterprise Income Tax Law (which was issued by the State Council on 6 December 2007 and became effective on 1 January 2008), a "de facto management body" is defined as a body that has material managerial control over the manufacturing and business operations, personnel and human resources, finances and treasury, and acquisition and disposition of properties and other assets of an enterprise. If the Holder is a resident enterprise, its income derived from holding or transferring the Notes, i.e. interest and capital gains realised on the disposal of the Notes, will be subject to such enterprise income tax.

Under the PRC Enterprise Income Tax Law, the Implementation Regulations for the PRC Enterprise Income Tax Law, and PRC Individual Income Tax Law (of which the latest amendment was promulgated by the Standing Committee of National People's Congress of the PRC on 30 June 2011 and became effective on 1 September 2011), if the Issuer is considered to be a PRC tax resident enterprise, interest payable to nonresident Holders and gains from transfer of Notes realised by such non-resident Holders may be regarded as income from sources within the PRC and therefore be subject to a 10% enterprise income tax if the Holder is a non-resident enterprise, or 20% individual income tax if the Holder is a non-resident individual, both to be withheld by the Issuer from the interest payments thereto. To the extent that the PRC has entered into arrangements relating to the avoidance of double-taxation with any jurisdiction, such as Hong Kong and Singapore, that allow a lower rate of withholding tax, such lower rate may apply to Holders who qualify for such treaty benefits.

If the Issuer is not considered a PRC tax resident enterprise, the Holders who are not PRC residents for PRC tax purposes will not be subject to withholding tax or income tax imposed by any governmental authority in the PRC in respect of Notes or any repayment of principal and payment of interest made thereon. It is recommended that potential purchasers of the Notes consult with their legal and tax advisors or the local tax authorities regarding the relevant tax consequence.

VAT

On 23 March 2016, the Ministry of Finance and the State Administration of Taxation (“SAT”) issued the Circular of Full Implementation of Business Tax to VAT Reform (《關於全面推開營業稅改征增值稅試點的通知》) (Caishui (2016) No. 36, “Circular 36”) which confirms that business tax will be completely replaced by VAT from 1 May 2016. With effect from 1 May 2016, the income derived from the provision of financial services which attracted business tax will be entirely replaced by, and subject to, VAT.

According to Circular 36, the entities and individuals providing the services within China shall be subject to VAT. The services are treated as being provided within China where either the service provider or the service recipient is located in China. The services subject to VAT include the provision of financial services such as the provision of loans. It is further clarified under Circular 36 that the “loans” refers to the activity of lending capital for another’s use and receiving the interest income thereon. Based on the definition of “loans” under Circular 36, the issuance of Notes is likely to be treated as the Holders of the Notes providing loans to the Issuer, which thus shall be regarded as the provision of financial services subject to VAT. Further, if the Holders are located in the PRC, the Holders of the Notes would be regarded as providing financial services within China and consequently, the Holders of the Notes shall be subject to VAT at the rate of 6% when receiving the interest payments under the Notes. Transfer of financial commodities is also subject to VAT if either the transferor or the transferee is located within the PRC. In such a case, transferor shall pay 6% VAT on the gains of transfer of the Notes (selling price minus the purchase price). Currently individual Holders may be exempt from VAT on gains realised on disposal of the Notes. Where a Holder of the Notes who is located outside of the PRC resells the Notes to an entity or individual located outside of the PRC, since neither the transferor nor the transferee is located in the PRC, theoretically there should be no VAT applied.

Circular 36 has been issued recently and the above disclosure may be subject to further change upon the issuance of further clarification rules and/or different interpretation by the competent tax authority. There is uncertainty as to the application of Circular 36. It is recommended that Holders of the Notes consult with their legal and tax advisors or the local tax authorities regarding the relevant tax consequence.

Local Surcharges

In addition, certain local surcharges, including two main surcharges, i.e. the urban maintenance and construction surtax and the educational fund surcharge are levied on the total amount of VAT. The urban maintenance and construction surtax rates are 7%, 5% and 1% respectively in a city, a county or township and other areas where the taxpayer is located. The educational fund surcharge rate is a uniform rate of 3%. The other local surcharges may vary depending on where the taxpayer is located.

Stamp Duty

No PRC stamp duty will be chargeable upon the issue or transfer (for so long as the register of Holders of the Notes is maintained outside the PRC) of a Note.

Hong Kong

Withholding Tax

In the ordinary course, payments of principal and interest in respect of the Notes may be made without withholding for or on account of Hong Kong profits tax or salaries tax imposed under the Inland Revenue Ordinance (Cap. 112). Similarly, Hong Kong profits tax and salaries tax are not withheld in respect of gains arising from the resale of the Notes.

Profits Tax

The relevant general charging provision of the Inland Revenue Ordinance provides that Hong Kong profits tax is charged on every person carrying on a trade, profession or business in Hong Kong in respect of their assessable profits arising in or derived from Hong Kong from such trade, profession or business (excluding profits arising from the sale of capital assets).

Under the Inland Revenue Ordinance as it is currently applied, interest on the Notes will in the ordinary course be subject to Hong Kong profits tax if it is received by or accrues to a:

- corporation carrying on a trade, profession or business in Hong Kong and is derived from Hong Kong; or
- person, other than a corporation, carrying on a trade, profession or business in Hong Kong, is derived from Hong Kong, and is in respect of the funds of that trade, profession or business; or
- financial institution (as defined in the Inland Revenue Ordinance) and it arises through or from the carrying on by that financial institution of its business in Hong Kong, notwithstanding that the moneys in respect of which it is received or accrues are made available outside Hong Kong; or
- corporation other than a financial institution (again as defined in the Inland Revenue Ordinance), and it arises through or from the carrying on in Hong Kong by the corporation of its intra-group financing business within the meaning of the Inland Revenue Ordinance, even if the moneys in respect of which it is received or accrues are made available outside Hong Kong.

Sums received by or accrued to a financial institution by way of gains or profits arising through or from the carrying on by the financial institution of its business in Hong Kong from the sale, disposal or redemption of the Notes will be subject to profits tax.

Otherwise, the general charging provision of the Inland Revenue Ordinance excludes gains from the sale of capital assets from the charge to Hong Kong profits tax.

Stamp Duty

Under the Hong Kong Stamp Duty Ordinance (Cap. 177), a Hong Kong stamp duty liability will generally not arise on the issuance of the Notes or on their subsequent sale and purchase provided either:

- (i) such notes are denominated in a currency other than the currency of Hong Kong and are not redeemable in any circumstances in the currency of Hong Kong; or
- (ii) such notes constitute loan capital (as defined in the Stamp Duty Ordinance).

In the event that a Hong Kong stamp duty liability is triggered, it is payable by the Issuer on issuance of the Notes at a rate of 3 per cent. of the market value of the Notes at the time of issuance. In this situation, a Hong Kong stamp duty liability will not arise on the subsequent transfer of the Notes.

Grand-Duchy of Luxembourg

This summary is limited to the description of the potential application of Luxembourg withholding tax to payments under the Notes and does therefore not purport to be a complete analysis of all possible tax situations that may be relevant to an investment decision. This summary is based upon the Luxembourg law and regulations as in effect and as interpreted by the Luxembourg tax authorities on the date of this Prospectus and is subject to any amendments in law (or in interpretation) later introduced, whether or not on a retroactive basis. As the taxation consequences of holding any Notes will depend on the terms and conditions of those Notes as well as the statuts of the individual investors, investors should consult their professional advisers with respect to particular circumstances, the effects of state, local or foreign laws to which they may be subject and as to their tax position.

Withholding Tax

Luxembourg residents

Under the amended Luxembourg law of 23 December 2005 (the "Law"), payments of interest or similar income made since 1 January 2006 (but accrued since 1 July 2005) by a paying agent established in Luxembourg to or for the immediate benefit of an individual beneficial owner who is resident of Luxembourg for tax purposes may be subject to a withholding tax of 20 per cent. Such

withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management or his/her private wealth.

Further, Luxembourg resident individuals who are the beneficial owners of interest payments and other similar income made by a paying agent established outside Luxembourg in a Member State of the European Union or of the European Economic Area, may also opt for a final 20 per cent. levy. In such case, the 20 per cent. levy is calculated on the same amounts as for the payments made by Luxembourg resident paying agents. The option for the 20 per cent. levy must cover all interest payments made by the paying agent to the Luxembourg resident beneficial owner during the entire civil year.

Responsibility for the withholding of such tax will be assumed by the Luxembourg paying agent.

Luxembourg non-residents

There is no withholding tax on payments of interest (including accrued but unpaid interest) made to a Luxembourg non-resident Noteholder. There is also no Luxembourg withholding tax, upon repayment of the principal or upon redemption or exchange of the Notes.

This short summary of the tax situation in Luxembourg is not intended to be an exhaustive presentation of the fiscal environment in Luxembourg and is strictly limited to withholding tax aspects.

Japan

The following description of Japanese taxation (limited to national taxes) (subject always to the relevant tax treaty between Japan and the relevant country) applies exclusively to interest with respect to the Notes as far as they are issued outside Japan and payable outside Japan. It is not intended to be exhaustive and Noteholders are recommended to consult their tax advisers as to their exact tax position.

Under Japanese tax laws currently in effect, the payment of interest in respect of the Notes to a non-resident of Japan or to a non-Japanese corporation, except where such non-resident of Japan or non-Japanese corporation is a person with a special relationship as specified in the Cabinet Order with the Issuer (a “*specially related person*”), in accordance with the terms and conditions of Notes will not be subject to any Japanese income or corporation taxes payable by withholding. Furthermore, such payment will not be subject to any other Japanese income or corporation taxes other than by way of withholding unless such non-resident or non-Japanese corporation has a permanent establishment in Japan and payment of the interest is attributable to the business of the non-resident or non-Japanese corporation carried on in Japan through such permanent establishment.

Gains derived from the sale outside Japan of any Notes by a non-resident of Japan or a non-Japanese corporation, or from sale within Japan of any Notes by a non-resident of Japan or a non-Japanese corporation not having a permanent establishment in Japan, are in general not subject to Japanese income or corporate taxes. Japanese inheritance and gift taxes at progressive rates may be payable by an individual, wherever resident, who has acquired Notes as legatee, heir or donee from an individual.

No stamp, issue, registration or similar taxes or duties will, under present Japanese law, be payable in Japan by Noteholders in connection with the issue of the Notes, nor will such taxes be payable by Noteholders in connection with their transfer if such transfer takes place outside Japan.

Interest payments on the Notes to an individual resident of Japan or a Japanese corporation (except for (i) a Japanese financial institution or a Japanese financial instruments business operator designated by the Cabinet Order pursuant to Article 6, paragraph (9) of the Act on Special Measures Concerning Taxation, which has complied with the requirements for any tax exemption under said paragraph (9), and (ii) a public corporation, a financial institution or a financial instruments business operator, etc., each described in Article 3-3, paragraph (6) of the Act on Special Measures Concerning Taxation which receives interest payments on the Notes through a Japanese payment handling agent as described in paragraph (1) of said article and which has complied with the requirements for tax exemption under paragraph (6) of said article), or an individual non-resident of Japan or a non-Japanese corporation that, in either case, is a specially related person, will be subject to withholding

tax pursuant to the Income Tax Act of Japan and other applicable tax laws at a rate of 15.315 per cent. (the interest rate will be 15 per cent. for withholding tax due and payable on and after 1 January 2038) of the amount of such interest.

Due to the imposition of special additional withholding tax of 0.315 per cent. (or 2.1 per cent. of 15 per cent.) to secure funds for reconstruction from the Great East Japan Earthquake, the original withholding tax rate for income tax of 15 per cent. has been increased to 15.315 per cent. for the withholding tax due and payable during the period beginning on 1 January 2013 and ending on 31 December 2037.

Under the Act on Special Measures Concerning Taxation of Japan (Act No. 26 of 1957 (as amended)) (the "Act on Special Measure Concerning Taxation") effective as of the date of this Prospectus, with respect to Notes issued or to be issued on or after 1 April 1998, payments of interest thereon outside Japan by BMW Japan to the beneficial Noteholders which are non-residents of Japan or non-Japanese corporations for Japanese tax purposes, other than a specially related person, will not be subject to withholding by BMW Japan of Japanese income tax, on the condition that such beneficial Noteholders establish that they are non-residents of Japan or non-Japanese corporations other than a specially related person, in compliance with the requirements under the Act on Special Measures Concerning Taxation as summarised below:

- (1) If Notes certificates are deposited with a financial institution which handles the interest payments on Notes as defined in the Act on Special Measures Concerning Taxation (the "payment handling agent"), (A) (a) such payment handling agent which holds Note certificates in its custody (the "financial intermediary") notifies BMW Japan of "Interest Recipient Information" (including, *inter alia*, (i) whether all beneficial Noteholders who have deposited Note certificates with the financial intermediary are non-residents of Japan or non-Japanese corporations other than a specially related person (if applicable); or (ii) the amount of interest payments on Notes by BMW Japan for non-residents of Japan or non-Japanese corporations other than a specially related person, if there is any individual resident of Japan or Japanese corporation amongst the beneficial Noteholders) to be prepared by such financial intermediary based on the information provided by the beneficial Noteholders, or (b) (if Note certificates are further sub-deposited with another payment handling agent including a clearing organisation ("sub-depositary") by the financial intermediary) the financial intermediary notifies BMW Japan of Interest Recipient Information through such sub-depositary, at the latest, one day prior to the interest payment date; and (B) BMW Japan prepares "Interest Recipient Confirmation" based upon Interest Recipient Information and submits it to the competent Japanese tax authority at the place of registered head office of BMW Japan (the "tax authority"); or
- (2) If Note certificates are held otherwise than through a financial intermediary, upon each payment of the interest on Notes, the Noteholder files a "Claims for Exemption from Taxation" (providing, *inter alia*, the name and address of the beneficial Noteholder) with the tax authority through BMW Japan or (if payment of interest is made through the payment handling agent) through the payment handling agent and BMW Japan.

The above exemption from the withholding of income tax on the interest payments of Notes is also applied to Japanese financial institutions or Japanese financial instruments business operators designated in Article 6 of the Act on Special Measures Concerning Taxation.

Republic of Austria

This section on taxation contains a brief summary of the Issuers' understanding with regard to certain important principles which are of significance in connection with the purchase, holding or sale of the Notes in the Republic of Austria. This summary does not purport to exhaustively describe all possible tax aspects and does not deal with specific situations which may be of relevance for certain potential investors. The following comments are rather of a general nature and included herein solely for information purposes. They are not intended to be, nor should they be construed to be, legal or tax advice. This summary is based on the currently applicable tax legislation, case law and regulations of the tax authorities, as well as their respective interpretation, all of which may be amended from time to time. Such amendments may possibly also be effected with retroactive effect and may negatively impact on the tax consequences described. It is recommended that potential investors in the Notes consult with their legal and tax advisors as to the tax consequences of the purchase, holding or sale of the Notes. Tax risks resulting from the Notes shall in any case be borne by the investor. For the

purposes of the following it is assumed that the Notes are legally and factually offered to an indefinite number of persons.

General remarks

Individuals having a domicile (*Wohnsitz*) and/or their habitual abode (*gewöhnlicher Aufenthalt*), both as defined in sec. 26 of the Austrian Federal Fiscal Procedures Act (*Bundesabgabenordnung*), in Austria are subject to income tax (*Einkommensteuer*) in Austria on their worldwide income (unlimited income tax liability; *unbeschränkte Einkommensteuerpflicht*). Individuals having neither a domicile nor their habitual abode in Austria are subject to income tax only on income from certain Austrian sources (limited income tax liability; *beschränkte Einkommensteuerpflicht*).

Corporations having their place of management (*Ort der Geschäftsleitung*) and/or their legal seat (*Sitz*), both as defined in sec. 27 of the Austrian Federal Fiscal Procedures Act, in Austria are subject to corporate income tax (*Körperschaftsteuer*) in Austria on their worldwide income (unlimited corporate income tax liability; *unbeschränkte Körperschaftsteuerpflicht*). Corporations having neither their place of management nor their legal seat in Austria are subject to corporate income tax only on income from certain Austrian sources (limited corporate income tax liability; *beschränkte Körperschaftsteuerpflicht*).

Both in case of unlimited and limited (corporate) income tax liability Austria's right to tax may be restricted by double taxation treaties.

Income taxation of the Notes

Pursuant to sec. 27(1) of the Austrian Income Tax Act (*Einkommensteuergesetz*), the term investment income (*Einkünfte aus Kapitalvermögen*) comprises:

- income from the letting of capital (*Einkünfte aus der Überlassung von Kapital*) pursuant to sec. 27(2) of the Austrian Income Tax Act, including dividends and interest; the tax basis is the amount of the earnings received (sec. 27a(3)(1) of the Austrian Income Tax Act);
- income from realised increases in value (*Einkünfte aus realisierten Wertsteigerungen*) pursuant to sec. 27(3) of the Austrian Income Tax Act, including gains from the alienation, redemption and other realisation of assets that lead to income from the letting of capital, zero coupon bonds and broken-period interest; the tax basis amounts to the sales proceeds or the redemption amount minus the acquisition costs, in each case including accrued interest (sec. 27a(3)(2)(a) of the Austrian Income Tax Act); and
- income from derivatives (*Einkünfte aus Derivaten*) pursuant to sec. 27(4) of the Austrian Income Tax Act, including cash settlements, option premiums received and income from the sale or other realisation of forward contracts like options, futures and swaps and other derivatives such as index certificates (the mere exercise of an option does not trigger tax liability); e.g., in the case of index certificates, the tax basis amounts to the sales proceeds or the redemption amount minus the acquisition costs (sec. 27a(3)(3)(c) of the Austrian Income Tax Act).

Also the withdrawal of the Notes from a securities account (*Depotentnahme*) and circumstances leading to a restriction of Austria's taxation right regarding the Notes *vis-à-vis* other countries, e.g. a relocation from Austria (*Wegzug*), are in general deemed to constitute a sale (*cf.* sec. 27(6) of the Austrian Income Tax Act). The tax basis amounts to the fair market value minus the acquisition costs (sec. 27a(3)(2)(b) of the Austrian Income Tax Act).

Individuals subject to unlimited income tax liability in Austria holding the Notes as non-business assets are subject to income tax on all resulting investment income pursuant to sec. 27(1) of the Austrian Income Tax Act. In case of investment income from the Notes with an Austrian nexus (*inländische Einkünfte aus Kapitalvermögen*), basically meaning income paid by an Austrian paying agent (*auszahlende Stelle*) or an Austrian custodian agent (*depotführende Stelle*), the income is subject to withholding tax (*Kapitalertragsteuer*) at a flat rate of 27.5%; no additional income tax is levied over and above the amount of tax withheld (final taxation pursuant to sec. 97(1) of the Austrian Income Tax Act). In case of investment income from the Notes without an Austrian nexus, the income must be included in the investor's income tax return and is subject to income tax at the flat rate of 27.5%. In both cases upon application the option exists to tax all income subject to income tax at a flat rate pursuant to sec. 27a(1) of the Austrian Income Tax Act at the lower progressive income tax rate (option to regular taxation pursuant to sec. 27a(5) of the Austrian Income Tax Act). The acquisition costs must not include ancillary acquisition costs (*Anschaffungsnebenkosten*; sec. 27a(4)(2) of the Austrian Income Tax Act). Expenses such as bank charges and custody fees must not be deducted (sec. 20(2) of the

Austrian Income Tax Act); this also applies if the option to regular taxation is exercised. Sec. 27(8) of the Austrian Income Tax Act, *inter alia*, provides for the following restrictions on the offsetting of losses: negative income from realised increases in value and from derivatives may be neither offset against interest from bank accounts and other non-securitised claims *vis-à-vis* credit institutions (except for cash settlements and lending fees) nor against income from private foundations, foreign private law foundations and other comparable legal estates (*Privatstiftungen, ausländische Stiftungen oder sonstige Vermögensmassen, die mit einer Privatstiftung vergleichbar sind*); income subject to income tax at a flat rate pursuant to sec. 27a(1) of the Austrian Income Tax Act may not be offset against income subject to the progressive income tax rate (this equally applies in case of an exercise of the option to regular taxation); negative investment income not already offset against positive investment income may not be offset against other types of income. The Austrian custodian agent has to effect the offsetting of losses by taking into account all of a taxpayer's securities accounts with the custodian agent, in line with sec. 93(6) of the Austrian Income Tax Act, and to issue a written confirmation to the taxpayer to this effect.

Individuals subject to unlimited income tax liability in Austria holding the Notes as business assets are subject to income tax on all resulting investment income pursuant to sec. 27(1) of the Austrian Income Tax Act. In case of investment income from the Notes with an Austrian nexus the income is subject to withholding tax at a flat rate of 27.5%. While withholding tax has the effect of final taxation for income from the letting of capital, income from realised increases in value and income from derivatives must be included in the investor's income tax return (nevertheless income tax at the flat rate of 27.5%). In case of investment income from the Notes without an Austrian nexus, the income must always be included in the investor's income tax return and is subject to income tax at the flat rate of 27.5%. In both cases upon application the option exists to tax all income subject to income tax at a flat rate pursuant to sec. 27a(1) of the Austrian Income Tax Act at the lower progressive income tax rate (option to regular taxation pursuant to sec. 27a(5) of the Austrian Income Tax Act). The special tax rate does not apply to income from realised increases in value and income from derivatives if this type of income stems from the respective investor's principal business activity (sec. 27a(6) of the Austrian Income Tax Act). Expenses such as bank charges and custody fees must not be deducted (sec. 20(2) of the Austrian Income Tax Act); this also applies if the option to regular taxation is exercised. Pursuant to sec. 6(2)(c) of the Austrian Income Tax Act, depreciations to the lower fair market value and losses from the alienation, redemption and other realisation of financial assets and derivatives in the sense of sec. 27(3) and (4) of the Austrian Income Tax Act, which are subject to income tax at the flat rate of 27.5%, are primarily to be offset against income from realised increases in value of such financial assets and derivatives and with appreciations in value of such assets within the same business unit (*Wirtschaftsgüter desselben Betriebes*); only 55% of the remaining negative difference may be offset against other types of income.

Pursuant to sec. 7(2) of the Austrian Corporate Income Tax Act (*Körperschaftsteuergesetz*), corporations subject to unlimited corporate income tax liability in Austria are subject to corporate income tax on income in the sense of sec. 27(1) of the Austrian Income Tax Act from the Notes at a rate of 25%. In the case of income in the sense of sec. 27(1) of the Austrian Income Tax Act from the Notes with an Austrian nexus, the income is subject to withholding tax at a flat rate of 27.5%. However, a 25% rate may pursuant to sec. 93(1a) of the Austrian Income Tax Act be applied by the withholding agent, if the debtor of the withholding tax is a corporation. Such withholding tax can be credited against the corporate income tax liability. Under the conditions set forth in sec. 94(5) of the Austrian Income Tax Act withholding tax is not levied in the first place. Losses from the alienation of the Notes can be offset against other income.

Pursuant to sec. 13(3)(1) in connection with sec. 22(2) of the Austrian Corporate Income Tax Act, private foundations (*Privatstiftungen*) pursuant to the Austrian Private Foundations Act (*Privatstiftungsgesetz*) fulfilling the prerequisites contained in sec. 13(3) and (6) of the Austrian Corporate Income Tax Act and holding the Notes as non-business assets are subject to interim taxation at a rate of 25% on interest income, income from realised increases in value and income from derivatives (*inter alia*, if the latter are in the form of securities). Pursuant to the Austrian tax authorities' view, the acquisition costs must not include ancillary acquisition costs. Expenses such as bank charges and custody fees must not be deducted (sec. 12(2) of the Austrian Corporate Income Tax Act). Interim tax does generally not fall due insofar as distributions subject to withholding tax are made to beneficiaries in the same tax period. In case of investment income from the Notes with an Austrian nexus, the income is in general subject to withholding tax at a flat rate of 27.5%. However, a 25% rate

may pursuant to sec. 93(1a) of the Austrian Income Tax Act be applied by the withholding agent, if the debtor of the withholding tax is a corporation. Such withholding tax can be credited against the tax falling due. Under the conditions set forth in sec. 94(12) of the Austrian Income Tax Act withholding tax is not levied.

Individuals and corporations subject to limited (corporate) income tax liability in Austria are taxable on income from the Notes if they have a permanent establishment (*Betriebsstätte*) in Austria and the Notes are attributable to such permanent establishment (*cf.* sec. 98(1)(3) of the Austrian Income Tax Act, sec. 21(1)(1) of the Austrian Corporate Income Tax Act). In addition, individuals subject to limited income tax liability in Austria are also taxable on interest in the sense of sec. 27(2)(2) of the Austrian Income Tax Act and accrued interest (including from zero coupon bonds) in the sense of sec. 27(6)(5) of the Austrian Income Tax Act from the Notes if the (accrued) interest has an Austrian nexus and if withholding tax is levied on such (accrued) interest. This does not apply to individuals being resident in a state with which automatic exchange of information exists. Interest with an Austrian nexus is interest the debtor of which has its place of management and/or its legal seat in Austria or is an Austrian branch of a non-Austrian credit institution; accrued interest with an Austrian nexus is accrued interest from securities issued by an Austrian issuer (sec. 98(1)(5)(b) of the Austrian Income Tax Act). The Issuers understand that no taxation applies in the case at hand.

Austrian inheritance and gift tax

Austria does not levy inheritance or gift tax.

Certain gratuitous transfers of assets to private law foundations and comparable legal estates (*privatrechtliche Stiftungen und damit vergleichbare Vermögensmassen*) are subject to foundation transfer tax (*Stiftungseingangssteuer*) pursuant to the Austrian Foundation Transfer Tax Act (*Stiftungseingangssteuergesetz*) if the transferor and/or the transferee at the time of transfer have a domicile, their habitual abode, their legal seat or their place of management in Austria. Certain exemptions apply in cases of transfers *mortis causa* of financial assets within the meaning of sec. 27(3) and (4) of the Austrian Income Tax Act (except for participations in corporations) if income from such financial assets is subject to income tax at a flat rate pursuant to sec. 27a(1) of the Austrian Income Tax Act. The tax basis is the fair market value of the assets transferred minus any debts, calculated at the time of transfer. The tax rate generally is 2.5%, with a higher rate of 25% applying in special cases.

In addition, there is a special notification obligation for gifts of money, receivables, shares in corporations, participations in partnerships, businesses, movable tangible assets and intangibles if the donor and/or the donee have a domicile, their habitual abode, their legal seat or their place of management in Austria. Not all gifts are covered by the notification obligation: In case of gifts to certain related parties, a threshold of EUR 50,000 per year applies; in all other cases, a notification is obligatory if the value of gifts made exceeds an amount of EUR 15,000 during a period of five years. Furthermore, gratuitous transfers to foundations falling under the Austrian Foundation Transfer Tax Act described above are also exempt from the notification obligation. Intentional violation of the notification obligation may trigger fines of up to 10% of the fair market value of the assets transferred.

Further, gratuitous transfers of the Notes may trigger income tax at the level of the transferor pursuant to sec. 27(6) of the Austrian Income Tax Act (see above).

8. Trend Information

Save as disclosed in the following sub-paragraph of this section, there has been no material adverse change in the prospects of BMW AG since the date of its published audited financial statements for the financial year ended 31 December 2016.

Competition on international automobile markets is set to remain intense during the current year. The situation is likely to be exacerbated by political and macroeconomic uncertainties in Europe as well as the unforeseeable consequences of the Brexit decision in the UK. Moreover, the strategy of the new US administration regarding economic policy remains unclear.

Earnings Performance

Once again, the BMW Group achieved year-on-year growth in revenues, sales volume and profit before tax in the financial year 2016. The number of BMW, MINI and Rolls-Royce brand cars sold rose by a solid 5.3 % to 2,367,603 units.

Profit before tax for the financial year 2016 was slightly up year-on-year. At 10.3 %, the pre-tax return on sales was similar to one year earlier (2015: 10.0 %).

BMW Group revenues increased slightly by 2.2 % year-on-year to reach € 94,163 million (2015: € 92,175 million).

The primary drivers of this performance were the higher volume of BMW, MINI and Rolls-Royce brand vehicles sold and the growth in size of the Financial Services segment's contract portfolio. Continued fierce competition and negative currency factors held down the scale of revenue growth. The negative currency impact on revenues was mainly attributable to changes in the average exchange rates of the British pound, Chinese renminbi and South African rand against the euro Group.

The Group's cost of sales was slightly higher than in the previous year, due to sales volume and portfolio factors.

Cost of sales relating to financial services business rose by € 1,274 million to € 20,723 million, reflecting the increased portfolio size. Research and development expenses were at a similar level to the previous year in absolute terms and, with an expense ratio¹ of 4.6 %, also in relative terms. Total research and development expenditure – comprising research costs, non-capitalised development costs and capitalised development costs (excluding systematic amortisation thereon), amounted to € 5,164 million in the year under report (2015: € 5,169 million). As a result of the continuous expansion and revision of the BMW Group's various model series, research and development expenditure remains at a generally constant level. These factors resulted in a research and development expenditure ratio² of 5.5 % (2015: 5.6 %) and a capitalisation ratio³ of 40.5 % (2015: 39.9 %).

Warranty expenses include the accrued expense for vehicle recall actions, the cost of which is expected to exceed amounts previously recognised. Accordingly, a further amount of € 678 million was allocated to the warranty provision for various issues, including airbags supplied by the Takata group of companies, the ISOFIX attachment system used for child car seats, and costs relating to the provision of the network service for telematics (2G). Expenses relating to telematics and roadside assistance have increased, primarily due to the greater volume of service contracts and Connected Drive products. Gross profit came in slightly higher (3.2 %) at € 18,721 million, reflecting sales volume growth in the Automotive segment and increased business volumes in the Financial Services segment. The gross profit margin⁴ was 19.9 % (2015: 19.7 %).

Sales and administrative expenses rose by € 525 million year-on-year to € 9,158 million, equivalent to 9.7 % (2015: 9.4 %) of revenue. The increase was due to a number of factors, including the larger workforce and higher expenses for IT projects.

Depreciation and amortisation on property, plant and equipment and intangible assets recorded in cost of sales and in selling and administrative expenses totalled € 4,806 million (2015: € 4,659 million). The slight increase compared to the previous year was mainly attributable to investments and capitalised development costs recorded in previous accounting periods.

The net amount of other operating income and expenses deteriorated from a net positive amount of € 94 million to a negative amount of € 177 million, mainly due to lower gains on the disposal of assets and higher expenses for provisions. A donation to a BMW foundation also increased other operating expenses.

¹ Research and development expense ratio: Research and non-capitalised development costs as a percentage of Group revenues.

² Research and development expenditure ratio: Capital expenditure in property, plant, equipment and other intangible assets ratio is defined as the ratio of capital expenditure in property, plant, equipment and other intangible assets to current period Group revenue, expressed as a percentage. Capital expenditure ratio is defined as the ratio of Capital Expenditure to current period Group revenue, expressed as a percentage. Research and Development expenditure ratio is defined as the ratio of total research and development expenditure – comprising research costs, non-capitalized development costs and capitalized development costs (excluding systematic amortization thereon) – to current period Group revenue, expressed as a percentage.

³ Capitalisation ratio: The ratio of capitalized development costs to total research and development expenditure for the period.

⁴ Gross margin: Gross profit as a percentage of revenues.

Profit before financial result (EBIT⁵) amounted to € 9,386 million in the year under report (2015: € 9,593 million), slightly down on the previous year, with the positive effect of greater volumes offset by higher expenses and lower other operating income.

The financial result was a net positive amount of € 279 million, an improvement of € 648 million compared to the previous year, mainly thanks to net gains on commodity derivatives on the one hand and lower losses on currency derivatives on the other. Interest and similar expenses improved by € 129 million to a net negative amount of € 489 million year-on-year, mainly reflecting lower interest expense on pension obligations and lower other refinancing costs. The result from equity accounted investments includes the Group's share of the results of the joint ventures BMW Brilliance Automotive Ltd. and the two DriveNow entities, DriveNow GmbH & Co. KG and DriveNow Verwaltungs GmbH. The figure also includes the Group's share of the result of the associated company THERE Holding B. V. Compared to the previous year, the result from equity accounted investments fell by € 77 million to € 441 million. This deterioration was primarily attributable to the inclusion of THERE Holding B. V., with a negative impact of € 56 million, largely reflecting scheduled depreciation and amortisation on purchase price allocations on the one hand and transaction costs on the other. At € 507 million, the contribution made by BMW Brilliance Automotive Ltd. was slightly down on the previous year (2015: € 522 million), partly due to currency factors, including the fact that costs were incurred for model revisions of vehicles already adapted for the local market (BMW X1 and BMW 5 Series) as well as for the localisation of further products.

The result on investments for the year under report includes impairment losses on other investments totalling € 192 million (2015: € 25 million). Profit before tax increased to € 9,665 million (2015: € 9,224 million), helped by a number of factors, including higher volumes and the improved financial result. Income tax expense amounted to € 2,755 million (2015: € 2,828 million), corresponding to an effective tax rate of 28.5 % (2015: 30.7 %). The lower income tax expense was partly attributable to transfer pricing and the revaluation of tax-related items.

The post-tax return on sales was 7.3 % (2015: 6.9 %).

Earnings performance per segment

Automotive segment revenues grew slightly on the back of higher sales volumes, with currency factors holding revenue growth down. The gross profit margin increased slightly to 17.9 % year-on-year (2015: 17.7 %).

At € 7,604 million, selling and administrative expenses were € 385 million higher than the previous year. Administrative expenses increased due to a number of factors, including the larger workforce, a new allocation of expenses relating to internal activities, and higher expenses for IT projects. Overall, as a percentage of revenues, the expense ratio was 8.8 % (2015: 8.4 %).

The net negative amount of other operating income and expenses deteriorated by € 70 million to € 152 million, mainly due to lower gains on the disposal of assets and higher expenses for provisions. A donation to a BMW foundation also increased other operating expenses

Due to the various factors described above, at € 7,695 million (2015: € 7,836 million), profit before financial result was slightly down on the previous year. The EBIT margin⁶ came in at 8.9 % (2015: 9.2 %). The main factors for the decrease were tougher competition and increased costs, partially countered by the positive impact of sales volume growth.

Overall, the Automotive segment reported a solid increase in pre-tax profit. This outcome was largely due to the improved financial result, which benefited from net gains on commodity derivatives, reduced refinancing costs and lower interest expense on pension obligations.

⁵ EBIT Abbreviation for "Earnings Before Interest and Taxes". The profit before income taxes, minority interest and financial result.

⁶ EBIT margin: Profit / loss before financial result as a percentage of revenues.

Motorcycles segment

Motorcycles segment revenues increased slightly compared to the previous year. The gross profit margin dropped from 22.5 % to 20.8 %, mainly due to higher expenses incurred in conjunction with the implementation of the segment's new strategy and the expansion of its model range. The increased workforce size is reflected in higher selling and administrative expenses. As a result of income from the reversal of write-downs, the Motorcycles segment recorded a slightly higher profit before tax than one year earlier.

Financial Services segment

The Financial Services segment revenues showed a solid growth on the back of a dynamic operating performance, clearly reflected in the upward trend of its contract portfolio. Selling and administrative expenses in the segment went up by € 130 million to € 1,294 million, mainly due to the increased size of the workforce and greater expense for new IT projects. Higher business volumes and a slightly improved credit risk situation contributed to the solid increase in the Financial Services segment's profit before tax.

Other Entities segment / Eliminations

Profit before tax in the Other Entities segment was significantly lower than one year earlier. The net positive result from other operating income and expenses fell from € 192 million to € 7 million year-on-year, mainly due to lower income from the reversal of provisions in 2016. The decrease was cushioned by the improvement in the net interest result, which was due to lower refinancing costs. Inter-segment eliminations reduced Group profit before tax, partly reflecting higher eliminations triggered by the growth in new leasing business and the ensuing increase in leased products.

Net assets

The balance sheet total of the BMW Group increased by a solid 9.5 % compared to 31 December 2015. The changes in individual balance sheet items caused by currency factors relate primarily to changes in the exchange rates of the US dollar, British pound, South African rand and Chinese renminbi against the euro.

The growth in business reported by the Financial Services segment is reflected in the significant increase in receivables from sales financing and a solid rise in the volume of leased products. A total of 1,811,157 new contracts were concluded with retail customers (leasing and credit financing) in 2016, 9.4 % more than one year earlier. The credit financing contract portfolio grew by 9.5 % to 3,022,904 contracts, with growth reported primarily in China and the USA. The lease contract portfolio increased by 7.3 % to stand at 1,680,513 contracts at 31 December 2016.

Inventories went up by a solid 7.0 % compared to the end of 2015, with most of the increase relating to finished goods, reflecting general business growth and stocking up in the various markets. Cash and cash equivalents went up by € 1,758 million, thus ensuring a solid level of liquid funds at 31 December 2016.

Group equity rose by € 4,599 million to € 47,363 million. Equity increased year-on-year as a result of the net profit attributable to shareholders of BMW AG amounting to € 6,863 million and fair value gains on derivative financial instruments amounting to € 2,008 million. Decreases in equity arose in particular in connection with the dividend payment of € 2,102 million and the negative impact of remeasurements of the net defined benefit liability for pension plans amounting to € 1,858 million, the latter due mainly to lower discount rates applied in Germany and the UK.

The Group equity ratio* at the end of the reporting period was 25.1 % (31 December 2015: 24.8 %). The equity ratio for the Automotive segment was 41.3 % (31 December 2015: 40.1 %) and that for the Financial Services segment stood at 8.0 % (31 December 2015: 8.2 %).

Pension provisions increased significantly compared to the end of the financial year 2015, mainly due to the lower discount factors applied in Germany and the UK. Other provisions also increased significantly compared to 31 December 2015, mostly reflecting the higher level of warranty provisions for vehicle recall actions, the cost of which is expected to exceed amounts previously recognised. Accordingly, a further amount of € 678 million was allocated to the warranty provision for various issues, including airbags supplied by the Takata group of companies, the ISOFIX attachment system used for child car seats, and costs relating to the provision of the network service for telematics (2G).

The year-on-year increase in financial liabilities was primarily attributable to the issue of bonds and higher liabilities to banks, in both cases securing favourable refinancing conditions on a long-term basis. In addition, new ABS transactions were concluded including the USA and Germany. Lower commercial paper volumes and the more favourable development of derivatives kept the increase in financial liabilities down.

The sharp rise in other liabilities reflects the increased scale of service contracts and Connected Drive products, advance payments received from leasing customers, and the expected higher level of payments due to dealerships and importers for bonuses, rebates and other price deductions. The increase in trade payables mainly reflects higher production volumes.

Overall, the results of operations, financial position and net assets position of the BMW Group continued to develop positively during the year under report.

* Equity ratio: The proportion of equity (= subscribed capital, reserves, accumulated other equity and minority interest) to the balance sheet total.

Financial position

The consolidated cash flow statements for the Group and the Automotive and Financial Services segments show the sources and applications of cash flows for the financial years 2016 and 2015, classified into cash flows from operating, investing and financing activities. Cash and cash equivalents in the cash flow statements correspond to the amounts disclosed in the balance sheet.

Cash flows from operating activities are determined indirectly, starting with Group and segment net profit. By contrast, cash flows from investing and financing activities are based on actual payments and receipts.

The increase in cash flows from the Group's operating activities was primarily attributable to the higher net profit for the year (€ 514 million), higher depreciation and amortisation (€ 312 million), provisions (€ 587 million) and the change in other operating assets and liabilities (€ 679 million).

The decrease in cash outflows from the Group's investing activities primarily reflects lower net investments in marketable securities and investment funds in connection with the Group's liquidity reserve (€ 1,369 million). The net outflow for these items comprises investments in marketable securities and investment funds on the one hand, and proceeds from the sale of marketable securities and investment funds on the other

The Group's financing activities resulted in inflows and outflows in conjunction with bonds amounting to € 967 million and € 1,466 million respectively. The cash outflow from investing activities exceeded the cash inflow from operating activities by € 2,690 million in the financial year 2016. A similar constellation arose in the previous year, when the shortfall amounted to € 6,643 million.

After adjustment for the effects of exchange rate fluctuations and changes in the composition of the BMW Group totalling a positive amount of € 55 million (2015: € 73 million), the various cash flows

resulted in an increase in cash and cash equivalents of € 1,758 million (2015: decrease of € 1,566 million).

Cash outflows from operating activities in the Financial Services segment are driven primarily by cash flows relating to leased products and receivables from sales financing and totalled € 9,844 million (2015: € 10,351 million). The cash outflow from investing activities totalled € 102 million (2015: € 140 million). Cash inflows from financing activities went up by € 1,573 million to € 11,601 million, mainly influenced by the change in other financial liabilities.
