Responsibility Statement

Deutsche Telekom AG ("**Deutsche Telekom AG**", the "**Guarantor**" or the "**Company**" and together with its consolidated subsidiaries, "**Deutsche Telekom**", the "**Group**" or "**Deutsche Telekom Group**") with its registered office in Bonn and Deutsche Telekom International Finance B.V. ("**Finance**") with its registered office in Maastricht (each an "**Issuer**" and together the "**Issuers**") are solely responsible for the information given in this Prospectus and for the information which will be contained in the Final Terms (as defined herein), provided that:

Finance is not responsible for the description of Deutsche Telekom.

Each Issuer hereby declares that, having taken all reasonable care to ensure that such is the case, the information contained in this Prospectus for which it is responsible is, to the best of its knowledge, in accordance with the facts and contains no omission likely to affect its import.

Notice

This Prospectus should be read and construed in conjunction with any supplement thereto and with any document incorporated herein by reference (the "**Reference Documents**"). Full information on each Issuer and any tranche of Notes (as hereinafter defined) is only available on the basis of the Prospectus as supplemented, together with the Reference Documents and the relevant final terms (the "**Final Terms**").

Each Issuer has confirmed to the dealers set forth on the cover page and any additional dealer appointed from time to time under the Programme (each a "**Dealer**" and together the "**Dealers**") that this Prospectus contains, as of the date hereof, all information with regard to the Issuers and the Notes which is material in the context of the Programme and the issue and offering of Notes thereunder; that the information contained herein with respect to the Issuers and the Notes is accurate in all material respects and is not misleading; that any opinions and intentions expressed herein are honestly held and based on reasonable assumptions; that there are no other facts, the omission of which would make any statement, whether fact or opinion, in this Prospectus misleading in any material respect; and that all reasonable enquiries have been made to ascertain all facts and to verify the accuracy of all statements contained herein.

No person has been authorised to give any information which is not contained in or not consistent with this Prospectus or any other document entered into in relation to the Programme or any information supplied by any Issuer or such other information as in the public domain and, if given or made, such information must not be relied upon as having been authorised by the Issuers, the Guarantor, the Dealers or any of them.

Neither the Arranger nor any Dealer nor any other person mentioned in this Prospectus, excluding the Issuers, is responsible for the information contained in this Prospectus or any supplement thereof, or any Final Terms or any other Reference Document, and accordingly, and to the extent permitted by the laws of any relevant jurisdiction, none of these persons accepts any responsibility as to the accuracy and completeness of the information contained in any of these documents.

This Prospectus is valid for 12 months after its approval and this Prospectus and any supplement hereto as well as any Final Terms reflect the status as of their respective dates of issue. The delivery of this Prospectus as supplemented or any Final Terms and the offering, sale or delivery of any Notes may not be taken as an implication that the information contained in such documents is accurate and complete subsequent to their respective dates of issue or that there has been no adverse change in the financial condition of each of the Issuers since such date or that any other information supplied in connection with the Programme is accurate at any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

Each of the Issuers has undertaken with the Dealers to supplement this Prospectus or publish a new Prospectus at any time after submission of the Prospectus for approval to the Commission if and when the information herein should become materially inaccurate or incomplete or in the event of any significant new factor, that is capable of affecting the assessment of the Notes by potential Investors.

The Notes will not be registered under the United States Securities Act of 1933, as amended, and will include Notes in bearer form that are subject to U.S. tax law requirements. Subject to certain exceptions, Notes may not be offered, sold or delivered within the United States or to U.S. persons, see "*Selling Restrictions*".

The distribution of this Prospectus and any Final Terms and the offering, sale and delivery of the Notes in certain jurisdictions may be restricted by law. Persons into whose possession this Prospectus or any Final Terms comes are required by the Issuers and the Dealers to inform themselves about and to observe any

such restrictions. For a description of certain restrictions on offers, sales and deliveries of Notes and on the distribution of this Prospectus or any Final Terms and other offering material relating to the Notes, see "*Selling Restrictions*".

This Prospectus is drawn up in the English language. The German versions of the English language Terms and Conditions and Guarantee are shown in the prospectus for additional information. As to form and content, and all rights and obligations of the Holders and the Issuer under the Notes to be issued, German is the controlling legally binding language if so specified in the relevant Final Terms. In respect of the Guarantee, the German language version is always controlling and legally binding as to form and content, and all rights and obligations of the Holders and the Guarantor thereunder. The Issuers accept responsibility for the information contained in this Prospectus and confirm that the non-binding translation of the Terms and Conditions, either in the German or English language, correctly and adequately reflects the respective binding language version.

The Final Terms in respect of any Notes may include a legend entitled "*MiFID II Product Governance*" which will outline the target market assessment in respect of the Notes and which channels for distribution of the Notes are appropriate. Any person subsequently offering, selling or recommending the Notes (a "**distributor**") should take into consideration the target market assessment; however, a distributor subject to Directive 2014/65/EU (as amended, "**MiFID II**") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID Product Governance Rules**"), any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

If the Final Terms in respect of any Notes include a legend entitled "*Prohibition of Sales to EEA Retail Investors*", the Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or (ii) a customer within the meaning of Directive 2002/92/EC (as amended, the "**Insurance Mediation Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Directive. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

This Prospectus may only be used for the purpose for which it has been published.

Each Dealer and/or each further financial intermediary subsequently reselling or finally placing Notes issued under the Programme is entitled to use the Prospectus as set out in "*Consent to the Use of the Prospectus*" below.

This Prospectus and any Final Terms must not be used for the purpose of an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such an offer or solicitation.

In connection with the issue of any Tranche of Notes under the Programme, the Dealer(s) who is(are) specified in the relevant Final Terms as the stabilising manager(s) (or persons acting on its(their) behalf) may overallocate Notes or effect transactions with a view to supporting the price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin at any time after the adequate public disclosure of the final terms of the offer of the Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the Issue Date and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilising action or over-allotment must be conducted by the relevant stabilising manager(s) (or persons acting on behalf of any stabilising manager(s)) in accordance with all applicable laws and rules.

All terms not otherwise defined in this Prospectus shall have the meaning as set out in the "Terms and Conditions" of the Notes.

Any websites included in the Prospectus, except for the website www.bourse.lu in the context of the documents incorporated by reference, are for information purposes only and do not form part of the Prospectus

Amounts payable under Floating Rate Notes are calculated by reference to (i) EURIBOR (Euro Interbank Offered Rate) which is provided by the European Money Markets Institute (EMMI) or (ii) LIBOR (London Interbank Offered Rate) which is provided by the ICE Benchmark Administration Limited (IBA). As at the date of this Prospectus, IBA does appear whereas EMMI does not appear on the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority (ESMA) pursuant to Article 36 of the Benchmarks Regulation (Regulation (EU) 2016/1011) ("**BMR**"). As far as the Issuers are aware, the transitional provisions in Article 51 of the BMR apply, such that EMMI is not currently required to obtain authorisation or registration (or, if located outside the European Union, recognition, endorsement or equivalence).

Forward-Looking Statements

This Prospectus contains certain forward-looking statements. A forward-looking statement is a statement that does not relate to historical facts and events. They are based on analyses or forecasts of future results and estimates of amounts not yet determinable or foreseeable. These forward-looking statements are identified by the use of terms and phrases such as "*anticipate*", "*believe*", "*could*", "*estimate*", "*expect*", "*intend*", "*may*", "*plan*", "*predict*", "*project*", "*will*" and similar terms and phrases, including references and assumptions. This applies, in particular, to statements in this Prospectus containing information on future earning capacity, plans and expectations regarding Deutsche Telekom Group's business and management, its growth and profitability, and general economic and regulatory conditions and other factors that affect it.

Forward-looking statements in this Prospectus are based on current estimates and assumptions that the Issuers make to the best of their present knowledge. These forward-looking statements are subject to risks, uncertainties and other factors which could cause actual results, including Deutsche Telekom Group's financial condition and results of operations, to differ materially from and be worse than results that have expressly or implicitly been assumed or described in these forward-looking statements. Deutsche Telekom Group's business is also subject to a number of risks and uncertainties that could cause a forward-looking statement, estimate or prediction in this Prospectus to become inaccurate. Accordingly, investors are strongly advised to read the following sections of this Prospectus: "*Risk Factors*", "*Deutsche Telekom AG*" and "*Deutsche Telekom Finance International B.V.*". These sections include more detailed descriptions of factors that might have an impact on Deutsche Telekom's business and the markets in which it operates.

In light of these risks, uncertainties and assumptions, future events described in this Prospectus may not occur. In addition, neither the Issuers nor the Dealers assume any obligation, except as required by law, to update any forward-looking statement or to conform these forward-looking statements to actual events or developments.

EBITDA, EBITDA (adjusted for special factors), EBITDA margin, Net debt and Free Cash Flow are so-called alternative performance measures. They should not be viewed in isolation as an alternative to key performance indicators presented in accordance with IFRS.

EBITDA corresponds to EBIT (profit/loss from operations) before depreciation, amortisation and impairment losses.

EBITDA (adjusted for special factors) corresponds to EBITDA adjusted for staff-related measures, non-staff related restructuring, effects of de-consolidations, disposals and acquisitions, impairment losses and other effects that generally do not arise in conjunction within the ordinary course of business.

EBITDA margin (adjusted for special factors) is the ratio of EBITDA (adjusted for special factors) to net revenue.

Net debt is calculated as the Group's gross debt (sum of current and non-current financial liabilities minus, accrued interest and other financial liabilities) minus certain financial assets (cash and cash equivalents, available for sale financial assets / financial assets held for trading, derivative financial assets and other financial assets).

Free Cash Flow (before dividend payments and spectrum investment) is calculated as Net cash from operating activities minus cash outflows for investments in intangible assets (excluding goodwill and before spectrum investment) and property, plant and equipment plus proceeds from disposal of intangible assets (excluding goodwill) and property, plant and equipment.

	<p>No Material adverse change in the prospects of the Issuer</p>	<p>There has been no material adverse change in the prospects of Deutsche Telekom AG since 31 December 2017.</p>

<p>B.13</p>	<p>Recent events</p>	<p>On 16 May 2018, Deutsche Telekom and its consortium partner Daimler AG reached an agreement with the German Federal Ministry of Transport to end the road toll arbitration proceedings. This settlement has a total amount of approx. EUR 3.2 billion. It takes into account various items, e.g. contractual damages, set-off of commissions etc, and stipulates a one-time final payment of EUR 550 million by Deutsche Telekom. The agreement now creates legal certainty for the companies and the German government. It is subject to the consent of the arbitration panel. Deutsche Telekom's management and supervisory boards have already approved the settlement on 15 May and 16 May 2018, respectively. All claims and counterclaims of the arbitration proceeding are settled by this agreement.</p> <p>Together with their respective majority shareholders Deutsche Telekom AG and Softbank K.K., T-Mobile US and Sprint Corp. concluded a binding agreement on 29 April 2018 to combine their companies. Under the agreement, T-Mobile US will acquire all of the shares in Sprint. In return for every 9.75 Sprint shares, the Sprint's shareholders will receive one new T-Mobile US share without any additional cash contribution. On completion of the transaction, Deutsche Telekom will hold around 42 per cent. of T-Mobile US' shares and Softbank around 27 per cent., while the free float will account for about 31 per cent. The agreement is subject to approval by the authorities, to the consent of the T-Mobile US and Sprint shareholders, and to other closing conditions.</p> <p>In early December 2017, T-Mobile US announced a share buy-back program. Under the program, T-Mobile US is authorised to buy back ordinary shares of the company in the capital markets for a total amount of up to USD 1.5 billion. By end of April 2018, this program was already completed. On 27 April 2018, T-Mobile US Board of Directors authorised an increase in the total stock buy-back program to USD 9.0 billion, consisting of the USD 1.5 billion in repurchases previously authorised and for up to an additional USD 7.5 billion of T-Mobile US common stock until the end of 2020. The additional buy-back authorisation is contingent upon the termination of the agreement relating to the combination of the business with Sprint.</p> <p>In March 2018, Deutsche Telekom transferred its 12 per cent. financial stake in the BT Group to the Group's own trust, Deutsche Telekom Trust e.V. This capital may only be used for pension payments.</p> <p>On 22 December 2017, T-Mobile Austria has agreed to acquire the cable provider UPC Austria from Liberty Global plc. The purchase price is EUR 1.9 billion less net debt. The transaction, which is subject to approval by the relevant competition authorities, is expected to close in the second half of 2018.</p>

Element	Section D - Risks	
	Risks specific to Deutsche Telekom AG as [Issuer] [Guarantor]	
D.2	Key information on the key risks that are specific to the Issuer	<p>General Economic Development</p> <p>It is clear from the positive economic and political developments of the last few months that economic uncertainties have decreased both worldwide and in Deutsche Telekom's footprint countries. The leading institutes and organisations have revised their economic forecasts upward and are expecting most economies to post very positive rates of growth. At the same time, the continuing economic uncertainty since the Brexit vote in June</p>

		<p>2016 shows that the UK economy, and especially the pound, have been weakened. This political situation harbors uncertainties as regards development of the UK market – a market in which Deutsche Telekom is involved through its financial stake in BT.</p> <p>The main risks to future economic growth in the countries are posed by political uncertainties in Europe and the United States, more intense protectionism in global trade, investments, and regarding factors influencing exchange rate fluctuations, the danger of an unexpected decline in growth in China, geopolitical crises, and, in the medium term, an unexpectedly sharp increase in interest rates worldwide that could weigh on the otherwise positive economic trend. These risks are counterbalanced by opportunities in particular from stronger-than-expected investment activity coupled with continued moderate inflation and wage growth, as well as positive growth effects from the U.S. tax reform, which can have an impact both on the U.S. economy and on the export-oriented economies. Risks to economic development could manifest themselves in different ways in some of Deutsche Telekom's markets. Consumers and business customers could rein in their consumption if the economy slows substantially again and uncertainty continues to rise. Government austerity measures could also have negative effects on demand for telecommunications services, for example due to reduced public-sector demand or lower disposable incomes in the private sector.</p> <p>Decisions of Regulatory Authorities</p> <p>Because Deutsche Telekom operates in heavily regulated business environments, decisions that regulatory authorities impose on Deutsche Telekom restrict flexibility in managing its business and may force it to offer services to competitors or reduce the prices it charges for products and services, either of which could have a material negative impact on Deutsche Telekom's revenues, profits and market shares.</p> <p>Intense Business Competition</p> <p>Deutsche Telekom faces intense competition in all areas of its business, which could lead to reduced prices for its products and services and a decrease in market share in certain service areas, thereby adversely affecting Deutsche Telekom's revenues and net profit.</p> <p>Non-Realisation of Expected Revenues</p> <p>Deutsche Telekom may not realise either the expected level of demand for its new/existing products and services or the expected level and timing of revenues generated by those products and services, on account of the lack of market acceptance or technological change, which could adversely affect Deutsche Telekom's cash flows.</p> <p>Uncertainties for strategic transformations and integration</p> <p>A substantive or temporal deviation from planned measures for strategic transformations and integration may reduce its benefits and could have a negative impact on Deutsche Telekom's business situation, financial position and results of operations.</p> <p>Uncertainty of Meeting Restructuring Goals</p> <p>Failure to achieve the planned reduction and restructuring of personnel or the human resources-related cost-savings goals could negatively affect the reputation and achievement of</p>
--	--	--

		<p>Deutsche Telekom's financial objectives and profitability.</p> <p>Return of Civil Servants</p> <p>As a result of dispositions of certain non-core businesses in Germany, there is an increased risk of return of civil servants transferred out of Deutsche Telekom Group, which could have a negative impact on the staff and cost reduction objectives.</p> <p>Health Risks of Wireless Communications Devices</p> <p>Alleged health risks of wireless communications devices have led to litigation affecting markets with Deutsche Telekom's mobile telecommunications operations subsidiaries and could lead to decreased wireless communications usage or increased difficulty in obtaining sites for base stations and, as a result, adversely affect the financial condition and results of operations of Deutsche Telekom's wireless services business.</p> <p>Risks in Connection with Implementation of IT- and NT-Programs</p> <p>Deutsche Telekom regularly engages in large-scale programs to reshape the information technology ("IT") and network infrastructure ("NT") to adapt to changing customer needs and organisational and accounting requirements. The implementation of any of these programs may require substantial investments and a failure to effectively plan and monitor them could lead to misallocations of resources and impaired processes with negative consequences for Deutsche Telekom's operations.</p> <p>System Failures and Disruptions</p> <p>System failures due to natural or man-made disruptions and loss of data could result in reduced user traffic and reduced revenues and could harm Deutsche Telekom's reputation and results.</p> <p>Cyber crime</p> <p>Cyber crime and industrial espionage are on the rise, which could harm Deutsche Telekom's reputation and results.</p> <p>Shortcomings in Supply or Procurement</p> <p>Shortcomings in Deutsche Telekom's supply and procurement process could negatively affect its product portfolio, revenues and profits.</p> <p>Litigations</p> <p>Deutsche Telekom is continuously involved in disputes and litigation with government agencies, competition authorities, competitors and other parties. The ultimate outcome of such legal proceedings is generally uncertain. When finally concluded, they may have a material adverse effect on Deutsche Telekom's results of operations and financial condition.</p> <p>Liquidity and credit risk and changes in Currency Exchange Rates, Interest rates, Rating and Tax statutory provisions</p> <p>Liquidity, credit, currency, interest rate risks, rating risks and tax risks have had, and may continue to have, an adverse effect on Deutsche Telekom's revenue and cost development.</p> <p>General Developments in Telecommunication Sector</p> <p>Developments in the telecommunications sector have resulted, and may in the future result, in substantial write-downs of the carrying value of certain of Deutsche Telekom's assets.</p>
--	--	--

		<p>Potential Breaches of Compliance Requirements</p> <p>Potential breaches of compliance requirements (including data protection) or the identification of material weaknesses in Deutsche Telekom's internal control over financial reporting may have an adverse impact on Deutsche Telekom's corporate reputation, financial condition and the trading price of its securities.</p> <p>Brand, communication, and reputation</p> <p>An unforeseeable negative media report on products and services or corporate activities and responsibilities of Deutsche Telekom Group can have a huge impact on the reputation, the standing and the brand image of Deutsche Telekom Group.</p>
	Risks specific to Deutsche Telekom International Finance B.V. as Issuer	
D.2	Key information on the key risks that are specific to the Issuer	<p>Payment of principal of and interest on notes issued by Finance are guaranteed by Deutsche Telekom AG. Therefore the risks in respect of Finance substantially correspond with the ones of Deutsche Telekom AG. For the risks specific to Deutsche Telekom AG please see "Section D.2 – Risks specific to Deutsche Telekom AG as Guarantor".</p>
	Risks specific to the Securities	
D.3	Key information on the key risks that are specific to the securities	<p>Notes may not be a suitable Investment for all Investors</p> <p>Each potential investor in Notes must determine the suitability of that investment in light of its own circumstances.</p> <p>Liquidity Risk</p> <p>There can be no assurance that a liquid secondary market for the Notes will develop or, if it does develop, that it will continue. In an illiquid market, an investor might not be able to sell his Notes at any time at fair market prices. The possibility to sell the Notes might additionally be restricted by country specific reasons.</p> <p>Market Price Risk</p> <p>The Holder of Notes is exposed to the risk of an unfavourable development of market prices of its Notes, which materialises if the Holder sells the Notes prior to the final maturity of such Notes.</p> <p>Risk of Early Redemption</p> <p>A Holder of Notes is exposed to the risk that due to early redemption his investment will have a lower than expected yield. Also, the Holder may only be able to reinvest on less favourable conditions as compared to the original investment.</p> <p>[Currency Risk</p> <p>A Holder of Notes denominated in a foreign currency is exposed to the risk, that changes in currency exchange rates may affect the yield of such Notes.]</p> <p>[Fixed Rate Notes</p> <p>A Holder of Fixed Rate Notes is exposed to the risk that the price of such Notes falls as a result of changes in the market interest rate.]</p> <p>[Floating Rate Notes</p> <p>A Holder of Floating Rate Notes is exposed to the risk of</p>

		<p>fluctuating interest rate levels and uncertain interest income. Fluctuating interest rate levels make it impossible to determine the profitability of Floating Rate Notes in advance.]</p> <p>[Specific risks linked to [EURIBOR] [LIBOR]</p> <p>Specific risks arise in connection with the [EURIBOR] [LIBOR] to which interest rates under the Floating Rate Notes are linked which is deemed to be a "benchmark" (the "Benchmark") and which is the subject of recent national, international and other regulatory guidance and proposals for reform. Some of these reforms are already effective while others are still to be implemented. These reforms may cause the Benchmark (if affected by these reforms) to perform differently than in the past or to be eliminated entirely. [For example, on 27 July 2017, the UK Financial Conduct Authority announced that it will no longer persuade or compel banks to submit rates for the calculation of the LIBOR Benchmark after 2021 (the "FCA Announcement"). The FCA Announcement indicates that the continuation of LIBOR on the current basis cannot and will not be guaranteed after 2021.] The reforms could also have other consequences which cannot be predicted.</p> <p>Although it is uncertain whether or to what extent any change in the administration of or method for determining the [EURIBOR] [LIBOR] could have an effect on the value of the Notes, investors should be aware that they face the risk that any changes to the [EURIBOR] [LIBOR] may have a material adverse effect on the value of and the amount payable under the Notes.]</p> <p>[Resolutions of Holders</p> <p>Since the Terms and Conditions of the Notes provide for resolutions of Holders, either to be passed in a meeting of Holders or by vote taken without a meeting, a Holder is subject to the risk of being outvoted by a majority resolution of the Holders. As resolutions properly adopted are binding on all Holders, certain rights of such Holder against the Issuer under the Terms and Conditions may be amended or reduced or even cancelled.]</p> <p>[Holders' Representative</p> <p>Since the Terms and Conditions of the Notes provide for the appointment of a Holders' Representative, it is possible that a Holder may be deprived of its individual right to pursue and enforce its rights under the Terms and Conditions against the Issuer, such right passing to the Holders' Representative who is then responsible to claim and enforce the rights of all Holders.]</p>

Punkt	Abschnitt D – Risiken	
	Risiken, die der Deutsche Telekom AG als [Emittentin] [Garantin] eigen sind	
D.2	Zentrale Angaben zu den zentralen Risiken, die dem	Allgemeine konjunkturelle Entwicklung Die positiven wirtschaftlichen und politischen Entwicklungen der

	<p>Emittenten eigen sind</p>	<p>letzten Monate haben gezeigt, dass die konjunkturellen Unwägbarkeiten weltweit und in den Ländern, in denen die Deutsche Telekom tätig ist, zurückgegangen sind. Konjunkturprognosen wurden von führenden Instituten und Organisationen nach oben korrigiert und rechnen mit mehrheitlich sehr positiven Wachstumsraten. Gleichzeitig zeigt die seit der Brexit-Entscheidung im Juni 2016 anhaltende wirtschaftspolitische Unsicherheit, dass die britische Volkswirtschaft und v. a. das britische Pfund geschwächt sind. Diese politische Situation birgt zukünftig Unsicherheiten für die Marktentwicklung in Großbritannien, an der die Deutsche Telekom u. a. durch ihre Finanzbeteiligung BT partizipiert.</p> <p>Hauptrisiken für die künftige volkswirtschaftliche Entwicklung in den Ländern können sich ergeben aus politischen Unsicherheiten in Europa und den USA, einer weltweiten Verschärfung des Protektionismus bei Handel, Investitionen und der Beeinflussung von Wechselkursveränderungen, der Gefahr eines überraschenden Wachstumsrückgangs in China, geopolitischen Krisen und einem mittelfristig unerwartet starken weltweiten Zinsanstieg, der die positive Konjunktorentwicklung belasten könnte. Diesen Risiken stehen Chancen gegenüber insbesondere aus einer stärkeren als der erwarteten Investitionsdynamik bei anhaltend moderater Inflation und Lohnentwicklung, sowie positiven Wachstumseffekten durch die US-Steuerreform, die sich sowohl auf die US-Volkswirtschaft, als auch die export-orientierten Volkswirtschaften auswirken kann. Die Risiken der Konjunktorentwicklung könnten sich in einigen Märkten, in den die Deutsche Telekom aktiv ist, unterschiedlich bemerkbar machen: Eine erneute deutliche Eintrübung der Wirtschaft und ansteigende Unsicherheit könnten dazu führen, dass sich Privat- und Geschäftskunden beim Konsum zurückhalten. Daneben könnten auch staatliche Sparmaßnahmen negative Auswirkungen auf die Nachfrage nach Telekommunikationsdienstleistungen haben, etwa in Folge einer reduzierten Staatsnachfrage oder verringerter verfügbarer Privateinkommen.</p> <p>Entscheidungen von Aufsichtsbehörden</p> <p>Da die Deutsche Telekom in stark regulierten Wirtschaftssektoren tätig ist, schränken Entscheidungen, die ihr von Aufsichtsbehörden auferlegt werden, ihre Flexibilität im Geschäftsmanagement ein und könnten sie dazu zwingen, ihren Mitbewerbern Dienstleistungen anzubieten oder die Preise für ihre Produkte und Dienstleistungen zu senken. Beides könnte die Umsätze, Gewinne und Marktanteile der Deutschen Telekom sehr nachteilig beeinflussen.</p> <p>Intensiver Wettbewerb</p> <p>Die Deutsche Telekom ist in allen ihren Geschäftsfeldern mit intensivem Wettbewerb konfrontiert, was zu Preissenkungen für ihre Produkte und Dienstleistungen und einem rückläufigen Marktanteil in bestimmten Dienstbereichen führen und damit ihre Umsatz- und Gewinnsituation nachteilig beeinflussen könnte.</p> <p>Nicht-Realisierung von erwarteten Einnahmen</p> <p>Es ist möglich, dass die Deutsche Telekom weder die erwartete Nachfrage für ihre neuen/existierenden Produkte und Dienstleistungen noch die erwartete Höhe und den Zeitpunkt der mit diesen Produkten und Dienstleistungen generierten Umsätzen aufgrund eines Mangels an Marktakzeptanz oder</p>
--	-------------------------------------	---

	<p>technologischer Veränderung realisieren kann, was sich nachteilig auf ihre Cash-Flows auswirken könnte.</p> <p>Unsicherheiten in Verbindung aus strategischen Trans-formationen und Integration</p> <p>Eine inhaltliche oder zeitliche Abweichung von geplanten Maßnahmen für strategischen Transformationen und Integration kann deren Nutzen verringern und sich negativ auf die Geschäfts-, Vermögens-, Finanz- und Ertragslage der Deutschen Telekom auswirken.</p> <p>Unsicherheiten in Verbindung mit Personalabbau</p> <p>Sollte es der Deutschen Telekom nicht gelingen, ihre geplanten Maßnahmen für den Personalabbau und –umbau bzw. ihre personalbezogenen Kostensparziele umzusetzen, könnte sich dies negativ auf das Ansehen und auf die Erreichung ihrer Finanzzielsetzungen und Profitabilität auswirken.</p> <p>Rückkehr von Beamten</p> <p>Aufgrund von Veräußerungen bestimmter, nicht zum Kerngeschäft gehörender Unternehmen in Deutschland besteht ein erhöhtes Risiko der Rückkehr von aus der Deutsche Telekom Gruppe ausgegliederten Beamten, was einen negativen Einfluss auf die Personal- und Kostensenkungsziele der Deutschen Telekom Gruppe haben könnte.</p> <p>Gesundheitsrisiken drahtloser Kommunikationsgeräte</p> <p>Vermeintliche Gesundheitsrisiken drahtloser Kommunikationsgeräte haben zu Gerichtsverfahren geführt und die Märkte im Mobilfunkgeschäft der Deutschen Telekom beeinträchtigt. Risk Factors

Prospective investors should consider all information provided in this Prospectus and the Reference Documents and consult with their own professional advisers if they consider it necessary. In addition, investors should be aware that the risks described may combine and thus accumulate.

Certain of the Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for, the Issuer and its affiliates in the ordinary course of business.

Risk Factors regarding the Issuers

The following is a disclosure of risk factors that are material to each Issuer and that may affect each Issuer's ability to fulfill its obligations under the Notes or the Guarantee, as the case may be. Prospective investors should consider these risk factors before deciding to purchase Notes issued under the Programme.

Risk Factors regarding Deutsche Telekom AG

The risk related to Deutsche Telekom AG's ability to fulfill its obligations as Issuer of debt securities is described by reference to the ratings assigned to Deutsche Telekom AG. Deutsche Telekom AG is rated by Fitch Ratings CIS Limited ("**Fitch**")^{1,2} Moody's Investors Service España SA ("**Moody's**")^{3,2} and by Standard & Poor's Credit Market Services Europe Limited ("**S&P**")^{4,2} together with Fitch and Moody's, the "**Rating Agencies**").

As of the publication date of the Prospectus, the ratings assigned to Deutsche Telekom by the Rating Agencies were as follows:

by Fitch:	long-term rating:	BBB+ ⁵ / stable
	short-term rating:	F2 ⁵

Fitch defines:

BBB: "BBB" ratings indicate that expectations of default risk are currently low. The capacity for payment of financial commitments is considered adequate but adverse business or economic conditions are more likely to impair this capacity.

F2: Indicates satisfactory capacity for timely payment of financial commitments.

by Moody's:	long-term rating:	Baa1 ⁵ / negative
	short-term rating:	P-2 ⁵

Moody's defines²:

Baa1: Obligations rated Baa are subject to moderate credit risks. They are considered medium-grade and as such may possess certain speculative characteristics.

P-2: Issuers have a strong ability to repay short-term obligations.

¹ Fitch is established in the European Community and is registered under Regulation (EC) No 1060/2009 of the European Parliament and of the Council of 16 September 2009 on credit rating agencies, as amended (the "**CRA Regulation**").

² The European Securities and Markets Authority publishes on its website (<http://www.esma.europa.eu/page/Listregistered-and-certified-CRAs>) a list of credit rating agencies registered in accordance with the CRA Regulation. That list is updated within five working days following the adoption of a decision under Article 16, 17 or 20 CRA Regulation. The European Commission shall publish that updated list in the Official Journal of the European Union within 30 days following such update.

³ Moody's is established in the European Community and is registered under the CRA Regulation.

⁴ S&P is established in the European Community and is registered under the CRA Regulation.

⁵ A credit rating assesses the creditworthiness of an entity and informs an investor therefore about the probability of the entity being able to redeem invested capital. It is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

by S&P: long-term rating: BBB+⁵ / CreditWatch negative
short-term rating: A-2⁵

S&P defines³:

BBB+: An obligation rated "BBB" exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitment on the obligation.

A-2: A short-term obligation rated "A-2" is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher rated categories. However, the obligor's capacity to meet its financial commitment on the obligation is satisfactory.

¹ Note: "+" or "-" may be appended to a rating to denote the relative status within major rating categories. Such suffixes are not added to the "AAA" category or to categories below "CCC".

² Note: Moody's appends numerical modifiers 1, 2 and 3 to each generic rating classification from Aa to Caa. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

³ Note: Plus (+) or minus (-): The ratings from "AA" to "CCC" may be modified by the addition of a plus or minus sign to show relative standing within the major rating categories.

Political uncertainties, more intense protectionism, geopolitical crises or a sharp increase in interest rates worldwide could adversely affect Deutsche Telekom's customers' purchases of products and services in each of the operating segments, which could have a negative impact on the operating results and financial condition of Deutsche Telekom.

It is clear from the positive economic and political developments of the last few months that economic uncertainties have decreased both worldwide and in Deutsche Telekom's footprint countries. The leading institutes and organisations have revised their economic forecasts upward and are expecting most economies to post very positive rates of growth. At the same time, the continuing economic uncertainty since the Brexit vote in June 2016 shows that the UK economy, and especially the pound, have been weakened. This political situation harbors uncertainties as regards development of the UK market – a market in which Deutsche Telekom is involved through its financial stake in BT. The main risks to future economic growth in the countries are posed by political uncertainties in Europe and the United States, more intense protectionism in global trade, investments, and regarding factors influencing exchange rate fluctuations, the danger of an unexpected decline in growth in China, geopolitical crises, and, in the medium term, an unexpectedly sharp increase in interest rates worldwide that could weigh on the otherwise positive economic trend. These risks are counterbalanced by opportunities in particular from stronger-than-expected investment activity coupled with continued moderate inflation and wage growth, as well as positive growth effects from the U.S. tax reform, which can have an impact both on the U.S. economy and on the export-oriented economies. Risks to economic development could manifest themselves in different ways in some of Deutsche Telekom's markets. Consumers and business customers could rein in their consumption if the economy slows substantially again and uncertainty continues to rise. Government austerity measures could also have negative effects on demand for telecommunications services, for example due to reduced public-sector demand or lower disposable incomes in the private sector.

The main market risks Deutsche Telekom faces include the steadily falling price level for voice and data services in the fixed network and in mobile communications. In addition to price reductions imposed by regulatory authorities, this is primarily attributable to intensive competition in the telecommunications industry, cannibalisation effects due to new products and services, and technological progress.

Competitive pressure is expected to continue, especially in the fixed network in Germany and Europe. In the broadband market, Deutsche Telekom is observing disproportionate growth in the market shares of regional network operators, particularly in Germany. They build out their own infrastructure and thus increase their market coverage. In certain regions, Deutsche Telekom's competitors are extending their own fiber-optic network to the home so that they are independent of Deutsche Telekom's network in the local loop, too. There is also strong competition to gain new customers by cutting prices and offering introductory discounts.

Because Deutsche Telekom operates in heavily regulated business environments, decisions that regulatory authorities impose on Deutsche Telekom restrict flexibility in managing its business and may force it to offer services to competitors, or reduce the prices it charges for products and services, either of which could have a material negative impact on Deutsche Telekom's revenues, profits and market shares.

Deutsche Telekom AG and its international companies remain subject to sector-specific market regulation. The national regulatory authorities have extensive powers to intervene in product design and pricing, with significant effects on operations. Deutsche Telekom can only to a limited extent anticipate such regulatory interventions, which may additionally intensify existing price and competitive pressure.

Furthermore, the European Commission is issuing recommendations which are not directly binding but do have to be taken into account by the national regulatory authorities.

There are concerns that regulatory interventions in Germany and other European countries may continue to impact the revenue trend in the fixed-network and mobile market in the medium and long term.

In the following section, the main regulatory and political risks are described that, from today's perspective, have an influence on the results of operations, financial position or cash flows and / or reputation. These risks comprise changes in regulatory policy and legislation, in the awarding of the spectrum Deutsche Telekom require for current and future services, and in regulatory decisions regarding specific products or prices.

Awarding of frequencies.

Risks could arise from the fact that inappropriate auction rules and frequency usage requirements, excessive reserve prices, or disproportionately high annual spectrum fees could jeopardise Deutsche Telekom's planned acquisition of spectrum. By contrast, Deutsche Telekom sees an opportunity in particular in the fact that such spectrum award procedures enable mobile network operators to obtain the optimum amount of spectrum for their future business. Deutsche Telekom would thus be equipped for further growth and innovation. The upcoming award procedures mainly relate to the auctioning of additional spectrum in the 0.7 GHz, 1.5 GHz and 3.5 GHz/3.7 GHz ranges. In addition, spectrum licenses, especially in the 2.1 GHz range, will expire between 2019 and 2021 in some countries and need to be renewed. Allocations of spectrum are currently in preparation in Albania, Austria, the Czech Republic, Germany, Hungary, Macedonia, Poland, and Romania, with most of them likely to take place between mid-2018 and mid-2019.

Consumer protection

European and national laws and regulations grant national regulators extensive powers of intervention. A case in point at the European level is the EU Regulation concerning the single market for electronic communications, which was enacted on 27 October 2015. It comprises regulations on international roaming, net neutrality, and disclosure obligations and restricts Deutsche Telekom's product-design options, mainly as regards retail products. The Body of European Regulators for Electronic Communications ("**BEREC**") has published guidelines for implementing this regulation. Risks arise from how the national regulators interpret both the regulation and these guidelines. In Germany, for example, the Federal Network Agency has wide-ranging powers under law to require products to be adjusted in order to enforce the regulation and to impose fines in cases of non-compliance.

Deutsche Telekom Group companies in Germany and abroad continue to be subject to comprehensive regulation of wholesale products, obligating Deutsche Telekom to make its network and services available to its competitors. The national regulators regularly check and determine the corresponding terms, conditions and prices of these wholesale offerings. The key wholesale products subject to regulation are unbundled local loop line, bitstream products, leased lines, termination rates and the associated services. In addition, European and national consumer protection regulations apply. In Germany, for instance, the Transparency Regulation came into force on 1 June 2017, the main objective of which is to enhance transparency and cost control with telecommunications services. In this context, the Federal Network Agency introduced a system that enables consumers to measure the bandwidths available on their fixed-network and mobile lines.

In addition to the requirements of telecommunications law, media products are also subject to special European and national regulations under media law. The latter include, in the broader sense, copyright law, regulations concerning the responsibility for published content, and requirements in relation to the content and user interfaces of media distribution platforms. Barring any changes to its shareholder structure (the Federal Republic and KfW being its major shareholders), to the legal situation or to the prevailing opinions of media regulators, it is unlikely that Telekom Deutschland will be granted a license to broadcast radio and television programs.

Changes in regulatory policy and legislation

EU legal framework for telecommunications. On 14 September 2016, the European Commission published

legislative proposals for a revision of the EU legal framework for telecommunications. These proposals are currently the subject of discussions between the Parliament and the Council. The legal framework comprises the central EU rules for the telecommunications sector, in particular price and access regulation, the spectrum policy, sector-specific consumer protection rules, the provisions on universal service, and the institutional framework. Deutsche Telekom expects the new rules to be enacted in mid-2018. The corresponding provisions will then have to be transposed into national law, a process that will take at least a year. At the moment, it is difficult to predict the outcome of this extensive legislative process in many areas. The drafts currently being discussed provide for less regulation of "networks with very high capacity" in cases where competitors invest jointly, as is the case with open co-investment models. Fiber-to-the-building/home ("FTTB/H") networks, in particular, could benefit from this. The terms and conditions of this lighter form of regulation are not yet clear, as is the question of whether other commercial access agreements would benefit from it as well. On the other hand, the new legal framework could result in additional obligations in accessing all networks, regardless of whether a company has significant market power (symmetrical regulation). In the area of spectrum policy, the new EU legal framework may create more harmonisation, for example, a minimum license term, more legal certainty in the awarding of spectrum. However, these improvements have so far been rejected by the EU Member States. As for consumer protection, there are opportunities for a complete harmonisation of obligations at the European level – thus negating the need for additional national regulations – but also a risk of more stringent obligations in individual areas. In particular, regulations for international calls within the EU are being discussed: This could result in a ban on surcharges for such calls above and beyond the price of national calls.

The revision of the EU legal framework for telecommunications forms part of a bouquet of new EU legislation on the single market for electronic communications that provides for amendments to the regulations governing media services – mainly due to the growing importance of Internet offerings – which are competing with the radio and TV services previously focused on (for example, under copyright law and laws for the protection of minors from harmful media). At the national level, too, specific amendments (e.g., to the German Interstate Treaty on Broadcasting) are being discussed in response to the phenomena of digitalisation and convergence.

Deutsche Telekom faces intense competition in all areas of its business, which could lead to reduced prices for its products and services and a decrease in market share in certain service areas, thereby adversely affecting Deutsche Telekom's revenues and net profit.

Competitive pressure will increase further, especially in the fixed network in Germany and Europe. In the broadband market, Deutsche Telekom is observing above-average growth in the market shares of regional network operators, particularly in Germany, and an increase in their market coverage through the build-out of proprietary infrastructure. Furthermore, regional telecommunications carriers will further increase their market coverage. In certain regions, Deutsche Telekom competitors are extending their own fiber-optic network to the home so that they are independent of Deutsche Telekom's network in the local loop too. There is also strong competition to gain new customers by cutting prices and offering introductory discounts. Another competitive risk lies in the fact that Deutsche Telekom is increasingly faced with competitors who are not part of the telecommunications sector as such but rather major players in the Internet and consumer electronics industries. Deutsche Telekom continues to be exposed to the risk of a further loss of market share and falling margins.

Deutsche Telekom also expects prices for mobile voice telephony and mobile data services to decrease further, which could adversely affect mobile services revenue. Among the main reasons for the decrease in prices are providers that are pursuing aggressive pricing policies (MVNOs) and expanding in Germany and other European markets.

Pure eSIM smartphone offerings could put even more pressure on prices for mobile voice telephony and mobile data services. In addition, the risk remains that smaller competitors will take unforeseen, aggressive pricing measures.

T-Mobile US operates in a very competitive wireless industry where customer attrition may increase as the wireless industry shifts away from service contracts and market saturation leads to increased competition for customers. The growing appetite for data services will increase demand on its network capacity. Furthermore, industries are converging as video, mobile, and broadband companies compete to deliver content. Joint ventures, mergers, acquisitions and strategic alliances are resulting in larger competitors who could enter into exclusive handset, device, or content arrangements or refuse to provide T-Mobile US with roaming services on reasonable terms. This may adversely affect T-Mobile US' competitive position and ability to grow. The scarcity and cost of additional wireless spectrum, and regulations relating to spectrum use, may also affect its business strategy, including plans to improve its network.

Deutsche Telekom Systems Solutions operating segment also faces challenges. Continued strong competition and persistent price erosion are adversely affecting traditional ICT business. In addition, the technological shift toward cloud solutions and digitalisation in the IT sector is prompting new, strongly capitalised, competitors to enter the market. The introduction of IP technology in telecommunications business is enabling price reductions, which poses a risk of revenue losses and declining margins at T-Systems.

The Group Development operating segment reported on risks and opportunities for the first time in 2017. T-Mobile Netherlands, Deutsche Funkturm ("**DFMG**"), Deutsche Telekom Capital Partners ("**DTCP**") and Ströer SE & Co. KGaA are assigned to this segment. Deutsche Telekom's approach of integrated, value-driven management aims to give its subsidiaries and equity investments the level of entrepreneurial freedom they need and thus to promote their strategic further development. The Group functions of Mergers & Acquisitions and Strategic Portfolio Management have also been assigned to Group Development. The economic future of the units assigned to the Group Development segment harbors both operational opportunities and risks.

Deutsche Telekom may not realise either the expected level of demand for its new/existing products and services, or the expected level and timing of revenues generated by those products and services, on account of the lack of market acceptance or technological change, which could adversely affect Deutsche Telekom's cash flows.

There is a risk that Deutsche Telekom will not succeed in making customers sufficiently aware of existing and future value-added services or in creating customer acceptance of these services at the prices Deutsche Telekom would want to charge. In addition, market acceptance for these new products and services could be negatively affected by an unwillingness to pay for additional features. These risks exist, in particular, with respect to Deutsche Telekom's anticipated future growth drivers in the mobile and the fixed-line telecommunications area.

Ever shorter innovation cycles confront the telecommunications sector with the challenge of bringing out new products and services at shorter and shorter intervals. New technologies are superseding existing technologies, products, or services in part, in some cases even completely. This could lead to lower prices and revenues in both voice and data traffic. These substitution risks could impact Deutsche Telekom's revenue and earnings in particular in the Europe and United States operating segments. Deutsche Telekom deals with the impact of substitution risks by offering package rates, for example: Deutsche Telekom offers new and existing customers integrated solutions from its product portfolio.

A substantive or temporal deviation from planned measures for strategic transformation and integration may reduce its benefits and this could negatively impact Deutsche Telekom's business situation, financial position and results of operations.

Deutsche Telekom is in a continuous process of strategic adjustments and cost-cutting initiatives. If Deutsche Telekom is unable to implement these projects as planned, they will be exposed to risks. This means the benefits could be less than originally estimated or they could arrive later than expected or not at all. Each of these factors, on their own or combined with others, could have a negative impact on Deutsche Telekom's business situation, financial position and results of operations.

Failure to achieve the planned reduction and restructuring of personnel or the human resources-related cost-savings goals could negatively affect the reputation and achievement of Deutsche Telekom's financial objectives and profitability.

In 2017, Deutsche Telekom once again used socially responsible measures to restructure the workforce in the Group, essentially by means of voluntary redundancies, partial and early retirement, and employment opportunities for civil servants and employees offered by Vivento/Telekom Placement Services, especially in the public sector. Staff restructuring will continue in the coming financial year. If it is not possible to implement the measures as planned or at all, this may have negative effects on Deutsche Telekom's financial targets.

As a result of dispositions of certain non-core businesses in Germany, there is an increased risk of return of civil servants transferred out of Deutsche Telekom Group, which could have a negative impact on the staff and cost reduction objectives.

When Group entities that employ civil servants are disposed of, it is generally possible to continue to employ them at the Group entity to be sold, provided the civil servant agrees or submits an application to be employed at the respective unit in future. However, there is a risk that they may return to Deutsche Telekom from a sold entity, for instance after the end of their temporary leave from civil servant status, without the Company being able to offer them jobs.

There are currently around 1,658 civil servants who are entitled to return to Deutsche Telekom in this way (as

of 31 December 2017).

Alleged health risks of wireless communications devices have led to litigation affecting markets with Deutsche Telekom's mobile telecommunications operations subsidiaries, and could lead to decreased wireless communications usage or increased difficulty in obtaining sites for base stations and, as a result, adversely affect the financial condition and results of operations of Deutsche Telekom's wireless services business.

Mobile communications, or the electromagnetic fields used in mobile communications, regularly give rise to concerns among the general population about potential health risks. There is intense public, political, and scientific debate of this issue. Acceptance problems among the general public concern both mobile communications networks and the use of mobile handsets. In mobile communications, this affects projects like the build-out of mobile networks and the use of mobile terminal devices. In the fixed network, it affects sales of traditional IP and DECT (digital cordless) phones and devices that use WiFi technology. There is a risk of regulatory interventions, such as reduced thresholds for electromagnetic fields or the implementation of precautionary measures in mobile communications, e.g., amendments to building law or labeling requirements for handsets.

Over the past few years, recognised expert organisations such as the World Health Organisation (WHO) and the International Commission on Non-Ionizing Radiation Protection (ICNIRP) have repeatedly reviewed the current thresholds for mobile communications and confirmed that - if these values are complied with - the use of mobile technology is safe based on current scientific knowledge. The expert organisations, currently the ICNIRP, regularly review the recommended thresholds on the basis of the latest scientific findings.

Deutsche Telekom is convinced that mobile communications technology is safe if specific threshold values are complied with. It is supported in this conviction by the assessment of recognised bodies. The basis of Deutsche Telekom's responsible management of mobile communications is its EMF Policy. With this policy, Deutsche Telekom is committing itself to more transparency, information, participation and financial support of independent research on mobile communications, far beyond that which is stipulated by legal requirements. Deutsche Telekom aims to overcome uncertainty among the general public by pursuing an objective, scientifically well-founded and transparent information policy. Thus, Deutsche Telekom remains committed to maintaining its trust-based, successful communication with local authorities over and above the statutory requirements. This also applies after many years of collaboration with municipalities with regard to building out the mobile network were enshrined in law in 2013; previously, this collaboration was based on voluntary self-commitments by the network operators.

Deutsche Telekom regularly engages in large-scale programs to reshape the information technology ("IT") and network infrastructure ("NT") to adapt to changing customer needs and organisational and accounting requirements. The implementation of any of these programs may require substantial investments and a failure to effectively plan and monitor them could lead to misallocations of resources and impaired processes with negative consequences for Deutsche Telekom's operations.

Deutsche Telekom's IT and network resources and infrastructure represents its organisational and technical backbone. This infrastructure is the basis for innovative telecommunications products and services that Deutsche Telekom offers or plans to offer in the future.

Deutsche Telekom implemented comprehensive programs to adapt its IT systems and infrastructure to changing customer needs and its new organisational structure resulting from the consolidation of its fixed-line and mobile networks in Germany.

Deutsche Telekom is replacing the various architectures, access types and services with a standardised architecture. Risks could arise in this area relating to all IT systems and products that require Internet access.

Due to the enormous complexity of the implementation of this IT initiative, malfunctions, connectivity issues, implementation delays, inadequate planning and management and other unforeseen problems could result in costly process impairments and remediation and possible extended down-times of IT processes. These problems could result in revenue losses and may hamper the attainment of Deutsche Telekom's goals in terms of cost savings and quality improvements.

In addition, one of Deutsche Telekom's most important IT programs deals with the long-term development and implementation of a comprehensive IP platform that will support both fixed-line and mobile telephony services. This means that the traditional platform will be completely replaced by an IP-based system. Upon implementing this joint IP platform, Deutsche Telekom will be subject to risks inherent in all IT systems connected to the Internet, such as hacker attacks, "*spam calls*" and other disruptions. These risks could lead to a temporary interruption of Deutsche Telekom's IT resources and, as a result, impair the performance of Deutsche Telekom's technical infrastructure.

Future viability of the IT architecture: If Deutsche Telekom is not ready in time to exploit the benefits of technological advances, it will have reason to fear a decline in demand for its services. System failures, security breaches, data protection violations, disruption of operations and unauthorised use or impairment of Deutsche Telekom network and other systems could damage Deutsche Telekom's reputation and adversely impact its financial situation. In the United States, Deutsche Telekom is in the process of implementing a new billing system, which will support a portion of Deutsche Telekom's subscribers, while maintaining its legacy billing system. Any unanticipated difficulties, disruption or significant delays could have adverse operational, financial and reputational effects on its business.

System failures due to natural or man-made disruptions and loss of data could result in reduced user traffic and reduced revenues and could harm Deutsche Telekom's reputation and results.

Deutsche Telekom has a complex information/network technology (IT/NT) infrastructure, which Deutsche Telekom constantly expands and upgrades. Outages in the current and also future technical infrastructure cannot be completely ruled out and could in individual cases result in revenue losses or increased costs. After all, Deutsche Telekom IT/NT resources and structures are the key organisational and technical platform for Deutsche Telekom operations.

Risks could arise in this area relating to all IT/NT systems and products that require Internet access. For instance, faults between newly developed and existing IT/NT systems could cause interruptions to business processes, products and services, such as smartphones and Entertain. In order to avoid the risk of failures, e.g., arising from natural disasters or fire, Deutsche Telekom uses technical early warning systems and duplicate IT/NT systems.

T-Mobile US relies upon systems and networks to provide and support services and to protect customer information. Failure of systems, networks and infrastructure may prevent providing reliable service or allow for unauthorised access. Remediation costs could include liability for information loss or repairing infrastructure and systems.

T-Mobile US must invest in changes in technology in order to address current and potential changing customer demands or otherwise may experience a decline in demand for services. T-Mobile US is in the process of implementing a new billing system, which may cause major system or business disruptions or may fail to implement the new billing system in a timely or effective manner.

Data privacy and data security.

Deutsche Telekom's products and services are subject to risks in relation to data privacy and data security, especially in connection with unauthorised access to customer, partner or employee data.

The security and privacy of this data are always Deutsche Telekom's top priority. The General Data Protection Regulation – which introduces more stringent data privacy requirements across the EU – will come into force on 25 May 2018. For Deutsche Telekom, the new regulation will not entail any fundamental changes, given that new procedures such as the Privacy Impact Assessment – for evaluating and documenting the risks posed by data processing – are already well established in the organisation. Still, Deutsche Telekom used the introduction of the General Data Protection Regulation as an opportunity to thoroughly re-assess data privacy in a three-phase project. In the first phase (2016), Deutsche Telekom specified the legal framework, setting it down in binding interpretations for Deutsche Telekom Group. The second phase was completed in 2017: Deutsche Telekom launched implementation projects in all the European Group companies and evaluated its IT systems and processes in relation to the General Data Protection Regulation. In the third phase (2018), Deutsche Telekom will carry out readiness checks. In this way, Deutsche Telekom will ensure that data privacy is implemented in a consistent manner across the Group using common requirements and processes. That will enhance efficiency, promote data privacy in Group-wide projects and improve international collaboration.

With regard to IT security, Deutsche Telekom is faced with numerous new challenges. In recent years, the focus has shifted from prevention to analysis. This is where the early warning system comes in: It detects new sources and types of cyber-attack, analyzes the behavior of the attackers while maintaining strict data privacy, and identifies new trends in the field of security. Along with the honeypot systems, which simulate weaknesses in IT systems, the early warning system includes alerts and analytical tools for spam mails, viruses, and Trojans. Deutsche Telekom exchanges the information it obtains from all these systems with public and private bodies to detect new attack patterns and develop new protection systems.

Cyber crime and industrial espionage are on the rise, which could harm Deutsche Telekom's reputation and results. In order to create greater transparency and thus be in a stronger position to tackle these threats, Deutsche Telekom is relying more and more on partnerships, e.g., with public and private organisations. By means of the Security by Design principle Deutsche Telekom has made security an integral part of its

development process for new products and information systems. In addition, Deutsche Telekom carries out intensive and mandatory digital security tests.

Deutsche Telekom is continually striving to accelerate its growth through IT security solutions. To this end, Deutsche Telekom has combined all its security units within T-Systems. Deutsche Telekom wants to leverage this end-to-end security portfolio to secure market shares and score points with security concepts on the back of megatrends like the Internet of Things and Industry 4.0. Deutsche Telekom is also continuing to expand its partner ecosystem in the area of cyber security.

Shortcomings in Deutsche Telekom's supply and procurement process could negatively affect its product portfolio, revenues and profits.

As a service provider and an operator and provider of telecommunications and IT products, Deutsche Telekom cooperate with a variety of suppliers of technical components, such as software, hardware, transmission systems, switching systems, outside plant, and terminal equipment.

Supply risks cannot be entirely ruled out. Delivery bottlenecks, price increases, changes in the prevailing economic conditions or suppliers' product strategies may have a negative impact on Deutsche Telekom's business processes and results. Risks may result from the dependence on individual suppliers or from individual vendors' defaulting. Deutsche Telekom employs organisational, contractual, and procurement strategy measures to counteract such risks.

Deutsche Telekom is continuously involved in disputes and litigation with government agencies, competition authorities, competitors and other parties. The ultimate outcome of such legal proceedings is generally uncertain. When finally concluded, they may have a material adverse effect on Deutsche Telekom's results of operations and financial condition.

Deutsche Telekom is subject to numerous risks relating to legal and regulatory proceedings, in which Deutsche Telekom is currently a party or which could develop in the future. Litigation and regulatory proceedings, including patent infringement lawsuits, are inherently unpredictable. Legal or regulatory proceedings in which Deutsche Telekom is or comes to be involved (or settlements thereof) may have a material adverse effect on Deutsche Telekom's results of operations or financial condition.

Liquidity, credit, currency, interest rate risks, rating risks and tax risks have had, and may continue to have, an adverse effect on Deutsche Telekom's revenue and cost development.

With regard to its assets, liabilities and planned transactions, Deutsche Telekom Group is particularly exposed to liquidity risks, credit risks, and the risk of changes in exchange and interest rates. Deutsche Telekom's financial risk management aims to contain these risks through ongoing operational and finance activities.

To ensure the Group's and Deutsche Telekom AG's solvency and financial flexibility at all times, Deutsche Telekom maintains a liquidity reserve in the form of credit lines and cash as part of its liquidity management. This liquidity reserve is to cover the capital market maturities of the next 24 months at any time. For medium- to long-term financing, Deutsche Telekom primarily use bonds issued in a variety of currencies and jurisdictions.

Through Deutsche Telekom's operating business and certain financing activities, Deutsche Telekom is exposed to a credit risk, i.e., the risk that a counterparty will not fulfill its contractual obligations. As a rule, Deutsche Telekom only concludes transactions with regard to financing activities with counterparties that have at least a credit rating of BBB+/Baa1; this is connected with an operational credit management system.

Deutsche Telekom is exposed to currency risks from its investing, financing, and operating activities. Risks from foreign currency fluctuations are hedged if they affect the Group's cash flows (i.e., if the cash flow is not denominated in the functional currency of the respective Group company). Foreign-currency risks that do not influence the Group's cash flows (i.e., the risks resulting from the translation of statements of assets and liabilities of foreign operations into the Group's reporting currency) are generally not hedged, however. Deutsche Telekom may nevertheless also hedge this foreign-currency risk under certain circumstances.

Deutsche Telekom's interest rate risks mainly result from interest-bearing liabilities and exist primarily in the euro zone and the United States. To minimise the effects of interest rate fluctuations in these regions, Deutsche Telekom manages the interest rate risk for net debt denominated in euros and U.S. dollars separately. Once a year, the Board of Management stipulates the desired mix of fixed- and variable-interest net debt for a planning period of at least three years. Taking account of the Group's existing and planned debt structure treasury uses interest rate derivatives to adjust the interest structure for the net debt of the composition specified by the Board of Management.

In many countries, Deutsche Telekom is subject to the applicable legal tax provisions. Risks can arise from

changes in local taxation laws or case law and different interpretations of existing provisions. As a result, they can affect on Deutsche Telekom tax expense and benefit as well as tax receivables and liabilities.

Deutsche Telekom's credit rating with Moody's is Baa1 with negative outlook. Fitch has assigned a rating of BBB+ with stable outlook while Standard & Poor's rates Deutsche Telekom BBB+ with CreditWatch negative. A lower rating would result in interest rate rises for some of the bonds issued.

S&P will likely lower the issuer credit rating on Deutsche Telekom AG by one notch upon completion of the announced merger between T-Mobile US and Sprint.

As of 31 March 2018, the Federal Republic and KfW Bankengruppe jointly held approximately 31.9 per cent. in Deutsche Telekom AG. It is possible that the Federal Republic will continue its policy of privatisation and sell further equity interests in a manner designed not to disrupt the capital markets and with the involvement of KfW Bankengruppe. There is a risk that the sale of a significant volume of Deutsche Telekom AG shares by the Federal Republic or KfW, or any speculation to this effect, could have a negative impact on the price of the T-Share.

Developments in the telecommunications sector have resulted, and may in the future result, in substantial write-downs of the carrying value of certain of Deutsche Telekom's assets.

The value of the assets of Deutsche Telekom AG and its subsidiaries is reviewed periodically. In addition to the regular annual measurements, specific impairment tests may be carried out, for example where changes in the economic, regulatory, business or political environment suggest that the value of goodwill, intangible assets or property, plant and equipment, investments accounted for using the equity method, or other financial assets might have decreased. These tests may lead to the recognition of impairment losses that do not, however, result in cash outflows. This could impact to a considerable extent on Deutsche Telekom's results, which in turn may negatively affect the T-Share price.

Potential breaches of compliance requirements (including data protection) or the identification of material weaknesses in Deutsche Telekom's internal control over financial reporting may have an adverse impact on Deutsche Telekom's corporate reputation, financial condition and the trading price of its securities.

In general, compliance requirements (including data protection) for publicly-traded companies and, in particular, the investigation of potential breaches and corporate misconduct are increasing and leading to major financial implications for the companies concerned. At the same time, the legal framework governing the monitoring of companies is becoming more comprehensive, which increases the liability risks for executive bodies and associated costs.

While Deutsche Telekom believes that it has established an appropriate compliance organisation to detect, assess, reduce and manage these risks, the global and diverse nature of Deutsche Telekom's operations means that these risks and their related consequences will continue to exist. Although Deutsche Telekom intends to take prompt measures to remediate any identified shortcomings in its internal controls over financial reporting, activities of this kind may involve significant effort and expense, and disclosure of any failures, material weakness or other conditions, may result in a deterioration of Deutsche Telekom's corporate image and negative market reactions.

An unforeseeable negative media report on products and services or corporate activities and responsibilities of Deutsche Telekom Group can have a huge impact on the reputation, the standing and the brand image of Deutsche Telekom Group.

An unforeseeable negative media report on products and services or corporate activities and responsibilities of Deutsche Telekom can have a huge impact on the reputation of the Company, the standing and the brand image. Social networks have made it possible that such information and opinions can spread much more quickly and extensively than they could just a few years ago.

Ultimately, negative reports can impact on revenue and brand value. In order to avoid this, Deutsche Telekom engage in a constant, intensive and constructive dialog, in particular with Deutsche Telekom's customers, the media, and the financial world. For Deutsche Telekom, the top priority is to take as balanced a view as possible of the interests of all stakeholders and thereby uphold Deutsche Telekom's reputation as a reliable partner.

Risk Factors regarding Deutsche Telekom International Finance B.V.

The risk related to Deutsche Telekom International Finance B.V.'s ability to fulfill its obligations as Issuer of debt securities is described by reference to the ratings assigned to Finance and its respective debt. Finance and its respective debt is rated by Fitch Ratings CIS Limited ("**Fitch**")^{1,2}, Moody's Investors Service España SA ("**Moody's**")^{3,2} and by Standard & Poor's Credit Market Services Europe Limited ("**S&P**")^{4,2} together with Fitch and Moody's, the "**Rating Agencies**".

As of the publication date of the Prospectus, the ratings assigned to Finance or its debt securities by the Rating Agencies were as follows:

by Fitch: Senior unsecured debt: BBB+⁵ / stable
short-term rating: F2⁵

Fitch defines:

BBB: "BBB" ratings indicate that expectations of default risk are currently low. The capacity for payment of financial commitments is considered adequate but adverse business or economic conditions are more likely to impair this capacity.

F2: Indicates satisfactory capacity for timely payment of financial commitments.

by Moody's: Senior unsecured debt: Baa1⁵ / negative

Moody's defines²:

Baa1: Obligations rated Baa are subject to moderate credit risks. They are considered medium-grade and as such may possess certain speculative characteristics.

by S&P: long-term rating: BBB+⁵ / CreditWatch negative
short-term rating: A-2⁵

S&P defines³:

BBB+: An obligation rated "BBB" exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitment on the obligation.

A-2: A short-term obligation rated "A-2" is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher rated categories. However, the obligor's capacity to meet its financial commitment on the obligation is satisfactory.

¹ Note: "+" or "-" may be appended to a rating to denote the relative status within major rating categories. Such suffixes are not added to the "AAA" category or to categories below "CCC".

¹ Fitch is established in the European Community and is registered under Regulation (EC) No 1060/2009 of the European Parliament and of the Council of 16 September 2009 on credit rating agencies, as amended (the "**CRA Regulation**").

² The European Securities and Markets Authority publishes on its website (<http://www.esma.europa.eu/page/Listregistered-and-certified-CRAs>) a list of credit rating agencies registered in accordance with the CRA Regulation. That list is updated within five working days following the adoption of a decision under Article 16, 17 or 20 CRA Regulation. The European Commission shall publish that updated list in the Official Journal of the European Union within 30 days following such update.

³ Moody's is established in the European Community and is registered under the CRA Regulation.

⁴ S&P is established in the European Community and is registered under the CRA Regulation.

⁵ A credit rating assesses the creditworthiness of an entity and informs an investor therefore about the probability of the entity being able to redeem invested capital. It is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

² Note: Moody's appends numerical modifiers 1, 2 and 3 to each generic rating classification from Aa to Caa. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

³ Note: Plus (+) or minus (-): The ratings from "AA" to "CCC" may be modified by the addition of a plus or minus sign to show relative standing within the major rating categories.

Payment of principal of and interest on notes issued by Finance are guaranteed by Deutsche Telekom AG. Therefore the risks in respect of Finance substantially correspond with the ones of Deutsche Telekom AG.

Dutch tax risks related to the new government's approach on tax avoidance and tax evasion

On 10 October 2017, the new Dutch government released its coalition agreement (*Regeerakkoord*) 2017-2021, which includes, among others, certain policy intentions for tax reform. On 23 February 2018, the Dutch State Secretary for Finance published a letter with an annex containing further details on the government's policy intentions against tax avoidance and tax evasion. Two policy intentions in particular may become relevant within the context of the Dutch tax treatment of Finance, the Notes, and/or payments in respect of the Notes.

The first policy intention relates to the introduction of an "interest withholding tax" on interest paid to creditors in low tax jurisdictions or non-cooperative jurisdictions as of 2021. The coalition agreement and the annex to the letter suggest that this interest withholding tax would apply to certain payments made by a Dutch entity directly or indirectly to a group entity in a low tax or non-cooperative jurisdiction. However, it cannot be ruled out that it will have a wider application and, as such, it could potentially be applicable to payments in respect of the Notes.

The second policy intention relates to the introduction of a "thin capitalisation rule" as of 2020 that would limit the deduction of interest on debt exceeding 92 per cent. of the commercial balance sheet total. The heading in the coalition agreement and the annex to the letter suggest that this thin capitalisation rule will apply solely to banks and insurers. However, it cannot be ruled out that it will have a generic application and, as such, it could potentially be applicable to other taxpayers (including Finance).

Many aspects of these policy intentions remain unclear. However, if the policy intentions are implemented they may have an adverse effect on Finance and its financial position; if Finance will be required to pay additional amounts under the Notes it may redeem the Notes pursuant to its option under Condition [6(2)] (*Early Redemption for Reasons of Taxation*).

Risk Factors regarding the Notes

The following is a disclosure of risk factors that are material to the Notes issued under the Programme in order to assess the market risk associated with these Notes. Prospective investors should consider these risk factors before deciding to purchase Notes issued under the Programme.

Notes may not be a suitable investment for all investors

Each potential investor in Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the relevant Notes, the merits and risks of investing in the relevant Notes and the information contained or incorporated by reference in this Prospectus or any applicable supplement;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation and the investment(s) it is considering, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the relevant Notes, including where the currency for principal or interest payments is different from the potential investor's currency;
- (iv) understand thoroughly the terms of the relevant Notes and be familiar with the behaviour of financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Liquidity Risk

Application has been made to list Notes to be issued under the Programme on the official list of and to admit such Notes to trading on the Regulated Market of the Luxembourg Stock Exchange. In addition, the Programme provides that Notes may not be listed at all. Regardless of whether the Notes are listed or not, there can be no assurance that a liquid secondary market for the Notes will develop or, if it does develop, that it will continue. The fact that the Notes may be listed does not necessarily lead to greater liquidity than if they were not listed. If the Notes are not listed on any exchange, pricing information for such Notes may, however, be more difficult to obtain which may affect the liquidity of the Notes adversely. In an illiquid market, an investor might not be able to sell his Notes at any time at fair market prices. The possibility to sell the Notes might additionally be restricted by country specific reasons.

Market Price Risk

The development of market prices of the Notes depends on various factors, such as changes of market interest rate levels, the policy of central banks, overall economic developments, inflation rates or the lack of or excess demand for the relevant type of Note. The holder of a Note is therefore exposed to the risk of an unfavourable development of market prices of its Note which materialises if the holder sells the Notes prior to the final maturity of such Notes.

Currency Risk

A holder of a Note denominated in a foreign currency is exposed to the risk of changes in currency exchange rates which may affect the yield of such Notes. Changes in currency exchange rates result from various factors such as macro-economic factors, speculative transactions and interventions by central banks.

A change in the value of any currency other than euro against the euro, for example, will result in a corresponding change in the euro value of a Note denominated in a currency other than euro and the euro value of interest and principal payments made in accordance with the terms of such Note. If the underlying exchange rate falls and the value of the euro correspondingly rises, the price of the Note and the value of interest payments made thereunder expressed in euro falls.

Risk of Early Redemption

The applicable Final Terms will indicate whether an Issuer may have the right to call the Notes prior to maturity (optional call right) on one or several dates determined beforehand or whether the Notes will be subject to early redemption upon the occurrence of an event specified in the applicable Final Terms (early redemption event). In addition, each Issuer will always have the right to redeem the Notes if the relevant Issuer is required to pay additional amounts (gross-up payments) on the Notes for reasons of taxation as set

out in the Terms and Conditions. If the relevant Issuer redeems the Notes prior to maturity or the Notes are subject to early redemption due to an early redemption event, a holder of such Notes is exposed to the risk that due to such early redemption his investment will have a lower than expected yield. The Issuer can be expected to exercise his optional call right if the yield on comparable Notes in the capital market has fallen which means that the investor may only be able to reinvest the redemption proceeds in comparable Notes with a lower yield. On the other hand, the Issuer can be expected not to exercise his optional call right if the yield on comparable Notes in the capital market has increased. In this event an investor will not be able to reinvest the redemption proceeds in comparable Notes with a higher yield. It should be noted, however, that the relevant Issuer may exercise any optional call right irrespective of market interest rates on a call date.

Fixed Rate Notes

A holder of a Fixed Rate Note is exposed to the risk that the price of such Note falls as a result of changes in the market interest rate. While the nominal interest rate of a Fixed Rate Note as specified in the applicable Final Terms is fixed during the life of such Note, the current interest rate on the capital market ("**market interest rate**") typically changes on a daily basis. As the market interest rate changes, the price of a Fixed Rate Note also changes, but in the opposite direction. If the market interest rate increases, the price of a Fixed Rate Note typically falls, until the yield of such Note is approximately equal to the market interest rate of comparable issues. If the market interest rate falls, the price of a Fixed Rate Note typically increases, until the yield of such Note is approximately equal to the market interest rate of comparable issues. If the holder of a Fixed Rate Note holds such Note until maturity, changes in the market interest rate for comparable issuers are without relevance to such holder as the Note will be redeemed at the principal amount of such Note.

Floating Rate Notes

A holder of a Floating Rate Note is exposed to the risk of fluctuating interest rate levels and uncertain interest income. Fluctuating interest rate levels make it impossible to determine the profitability of Floating Rate Notes in advance.

A Floating Rate Note may include caps or floors. In such case, their market value may be more volatile than those for Floating Rate Notes that do not include these features. The effect of a cap is that the amount of interest will never rise above and beyond the predetermined cap, so that the holder will not be able to benefit from any actual favourable development beyond the cap. The yield could therefore be considerably lower than that of similar Floating Rate Notes without a cap.

Neither the current nor the historical value of the relevant floating rate should be taken as an indication of the future development of such floating rate during the term of any Notes.

Specific risks linked to EURIBOR or LIBOR

The interest rates of Floating Rate Notes are linked to reference rates such as the Euro Interbank Offered Rate ("**EURIBOR**") or the London Interbank Offered Rate ("**LIBOR**") which are deemed to be "**benchmarks**" (each a "**Benchmark**" and together, the "**Benchmarks**") and which are the subject of recent national, international and other regulatory guidance and proposals for reform. Some of these reforms are already effective while others are still to be implemented. These reforms may cause the relevant Benchmarks to perform differently than in the past, or have other consequences which cannot be predicted.

Key international proposals for reform of Benchmarks include (i) IOSCO's Principles for Oil Price Reporting Agencies (October 2012) and Principles for Financial Benchmarks (July 2013), (ii) ESMA-EBA's Principles for the benchmark-setting process (June 2013), and (iii) the Benchmark Regulation EU 2016/1011 of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the "**Benchmark Regulation**"). In addition to the aforementioned reforms, there are numerous other proposals, initiatives and investigations which may impact Benchmarks.

Following the implementation of such potential reforms, the manner of administration of Benchmarks may change, with the result that they perform differently than in the past, or Benchmarks could be eliminated entirely, or there could be consequences which cannot be predicted. Any changes to a Benchmark as a result of the Benchmark Regulation or other initiatives could have a material adverse effect on the costs of obtaining exposure to a Benchmark or the costs and risks of administering or otherwise participating in the setting of a Benchmark and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or participate in certain Benchmarks, trigger changes in the rules or methodologies used in certain Benchmarks or lead to the disappearance of certain Benchmarks. For example, on 27 July 2017, the UK Financial Conduct Authority announced that it will no longer persuade or compel banks to submit rates for the calculation of the LIBOR Benchmark after 2021 (the "**FCA Announcement**"). The FCA Announcement indicates that the continuation of LIBOR on the current basis cannot and will not be guaranteed after 2021.

Although it is uncertain whether or to what extent any of the above-mentioned changes and/or any further changes in the administration or method for determining a Benchmark could have an effect on the value of any Notes whose interest is linked to the relevant Benchmark, investors should be aware that they face the risk that any changes to the relevant Benchmark may have a material adverse effect on the value of and the amount payable under Notes whose rate of interest is linked to a Benchmark.

Resolutions of Holders

If the Terms and Conditions provide for meetings of Holders or the taking of votes without a meeting, a Holder is subject to the risk of being outvoted by a majority resolution of the Holders. As such majority resolution is binding on all Holders, certain rights of such Holder against the Issuer under the Terms and Conditions may be amended or reduced or even cancelled.

Holdings' Representative

If the Terms and Conditions provide for the appointment of a Holdings' Representative, either in the Terms and Conditions or by a majority resolution of the Holders, it is possible that a Holder may be deprived of its individual right to pursue and enforce its rights under the Terms and Conditions against the Issuer, such right passing to the Holdings' Representative who is then exclusively responsible to claim and enforce the rights of all the Holders.

Historical Background

Deutsche Telekom is an integrated telecommunications provider offering its customers around the world a comprehensive portfolio of state-of-the-art services in the areas of telecommunications and IT. The provision of public telecommunications services in Germany was long a state monopoly, as formerly provided in the constitution of Germany. In 1989, Germany began to transform the postal, telephone and telegraph services administered by the former monopoly provider of such services into market-oriented businesses, and ordered the former monopoly into three distinct entities along their lines of business, one of which was Deutsche Telekom's predecessor, Deutsche Bundespost Telekom. At the same time, Germany also began the liberalisation of the German telecommunications market. Deutsche Telekom was transformed into a private stock corporation effective 1 January 1995. The operation of networks (including cable networks) for all telecommunications services, other than public fixed-line voice telephony, was opened to competition in Germany on 1 August 1996, when the new legal framework for the regulation of the telecommunications sector in Germany, the Telecommunications Act, became effective. As required by the Telecommunications Act, and mandated by the directives of the E.U. Commission, the telecommunications sector in Germany was further liberalised on 1 January 1998, through the opening of the public fixed-line voice telephony services to competition. Since then, Deutsche Telekom has faced intense competition and has been required, among other things, to offer competitors access to its fixed-line network at regulated interconnection rates.

DESCRIPTION OF BUSINESS

Group Organisation

Overview of Business Activities

Deutsche Telekom is an integrated telecommunications company with around 168 million mobile customers, 28 million fixed-network and around 19 million broadband lines. Deutsche Telekom provides fixed-network/broadband, mobile, Internet, and Internet-based TV products and services for consumers and ICT solutions for business customers and corporate customers. Group Headquarters & Group Services comprises all Group units that cannot be allocated directly to one of the operating segments. As Group Headquarters sets the direction and provides momentum, it defines strategic aims for the Group, ensures they are met, and becomes directly involved in selected Group projects. Group Services acts as service provider for the Group: in addition to typical services such as financial accounting, human resources services, and operational procurement, Group Services also includes agency services, which are provided by the personnel service provider Vivento. Further units are Group Supply Services for real Estate Management and strategic procurement and MobilitySolutions, which is a full-service provider for fleet management and mobility services. Group Headquarters & Group Services also includes Deutsche Telekom IT, which focuses on the Group's internal national IT projects, and the central innovation unit, Product Innovation, which works closely with the operating segments to develop new business areas and create products. Furthermore, there are the units Global Network Factory ("**GNF**"), Group Technology and Pan-Net: GNF manages and operates a global network for providing wholesale customers with voice and data communication. Group Technology ensures efficient and customised provision of technologies, platforms, and services for mobile and fixed-network communications. Pan-Net is responsible for the shared pan-European network and for developing and providing services for Deutsche Telekom's European national companies.

CORPORATE TRANSACTIONS

Following approval by the *Bundeskartellamt*, Deutsche Telekom completed the sale of its hosting service provider Strato to United Internet for a purchase price of EUR 0.6 billion effective midnight 31 March 2017.

The sale of DeTeMedien to a consortium of medium-sized publishers was completed on 14 June 2017. The purchase price, which is not to be disclosed pursuant to the agreement, comprises a cash component along with additional elements that included a settlement of the dispute with the buyers, who for several years have pursued legal proceedings concerning the level of charges for subscriber data. In addition, the publishers have assumed the obligation to publish subscriber directories.

In an accelerated book-building process, effective 23 June 2017 Deutsche Telekom placed the remainder of

its direct stake of 9.26 per cent. in Scout24 AG for total proceeds of EUR 319 million.

On 9 November 2017, T-Mobile US signed an agreement to acquire 100 per cent. of the shares in online TV provider Layer3 TV. The agreement includes a cash purchase price of around USD 325 million. The transaction was completed on 22 January 2018.

On 15 December 2017, Deutsche Telekom signed an agreement with the Tele2 Group on the acquisition of telecommunications provider Tele2 Netherlands by T-Mobile Netherlands. Tele2 Group receives a purchase price in the form of a 25.0 per cent. stake in T-Mobile Netherlands and a cash component of EUR 190 million. Deutsche Telekom expects the transaction to close in the second half of 2018, following approval by the responsible antitrust authority.

On 22 December 2017, T-Mobile Austria agreed to acquire Austria's cable operator, UPC Austria, from Liberty Global. The agreed purchase price is around EUR 1.9 billion in cash less net debt. Deutsche Telekom expects the transaction to close in the second half of 2018, following approval by the antitrust authority.

In March 2018, Deutsche Telekom exercised its right of first refusal as invited by the Greek privatisation authority Hellenic Republic Asset Development Fund (HRADF) and acquired a 5 per cent. stake in its Greek subsidiary OTE. Deutsche Telekom will purchase additional shares in the value of EUR 0.3 billion, subsequently holding 45 per cent. of the shares in OTE. The transaction is expected to be closed in the second quarter of 2018.

In March 2018, Deutsche Telekom transferred its 12 per cent. financial stake in the BT Group to the Group's own trust, Deutsche Telekom Trust e.V. This capital may only be used for pension payments. BT continues to be an integral part of Deutsche Telekom's strategic orientation.

Together with their respective majority shareholders Deutsche Telekom AG and Softbank K.K., T-Mobile US and Sprint Corp. concluded a binding agreement on 29 April 2018 to combine their companies. Under the agreement, T-Mobile US will acquire all of the shares in Sprint. In return for every 9.75 Sprint shares, Sprint's shareholders will receive one new T-Mobile US share without any additional cash contribution. On completion of the transaction, Deutsche Telekom will hold around 42 per cent. of T-Mobile US' shares and Softbank around 27 per cent., while the free float will account for about 31 per cent. The agreement is subject to approval by the authorities, to the consent of the T-Mobile US and Sprint shareholders, and to other closing conditions.

Settlement of road toll arbitration (Toll Collect)

On 16 May 2018, Deutsche Telekom and its consortium partner Daimler AG reached an agreement with the German Federal Ministry of Transport to end the road toll arbitration proceedings. This settlement has a total amount of approx. EUR 3.2 billion. It takes into account various items, e.g. contractual damages, set-off of commissions etc, and stipulates a one-time final payment of EUR 550 million by Deutsche Telekom. The agreement now creates legal certainty for the companies and the German government. It is subject to the consent of the arbitration panel. Deutsche Telekom's management and supervisory boards have already approved the settlement on 15 May and 16 May 2018, respectively. All claims and counterclaims of the arbitration proceeding are settled by this agreement.

SIGNIFICANT IMPAIRMENT LOSSES AND REVERSAL OF IMPAIRMENT LOSSES

In the Systems Solutions operating segment, the unexpected decline in order entry prompted in 2017 intra-year impairment testing of the assets assigned to this unit. As a result, Deutsche Telekom has recognised an impairment loss on goodwill of EUR 1.2 billion.

In the course of the 2017 annual impairment tests for the Europe operating segment, Deutsche Telekom recognised an impairment loss on goodwill and property, plant and equipment of EUR 0.9 billion – mainly relating to Poland.

In the Group Development operating segment, Deutsche Telekom reduced the fair value of its financial stake in BT by around EUR 1.5 billion in 2017 due to the share price performance and the exchange rate effect.

Impairment losses on spectrum licenses previously acquired by T-Mobile US were partially reversed, increasing the carrying amount by EUR 1.7 billion. This reversal of impairment losses is attributable to the fact that the grounds for the impairment loss recognised for the United States cash-generating unit in 2012 no longer apply due to the performance of T-Mobile US' share price. The increase in the value of the licenses was indicated by the results of the spectrum auction held by the U.S. regulatory authority, the Federal Communications Commission ("**FCC**"), which was completed in 2017.

SHARE BUY-BACK PROGRAM AT T-MOBILE US

In early December 2017, T-Mobile US announced a share buy-back program. Under the program, T-Mobile US is authorised to buy back ordinary shares of the company in the capital markets for a total amount of up to USD 1.5 billion. By end of April 2018, this program was already completed. On 27 April 2018, T-Mobile US Board of Directors authorised an increase in the total stock buy-back program to USD 9.0 billion, consisting of the USD 1.5 billion in repurchases previously authorised and for up to an additional USD 7.5 billion of T-Mobile US common stock until the end of 2020. The additional buy-back authorisation is contingent upon the termination of the agreement relating to the combination of the business with Sprint.

TAX REFORM IN THE UNITED STATES

The reduction in the applicable federal tax rate (from 35 per cent. to 21 per cent.) as of the 2018 financial year resulted in a non-cash deferred tax benefit of EUR 2.7 billion for T-Mobile US due to the remeasurement of the surplus amount of deferred tax liabilities. EUR 1.7 billion of this benefit is attributable to the owners of the parent (net profit (loss)).

INVESTMENTS IN NETWORKS AND NEW SPECTRUM

In April 2017, the spectrum auction ended at which T-Mobile US acquired 1,525 licenses for 600 MHz spectrum – 31 MHz on average nationwide – for a purchase price of USD 7.99 billion.

In 2017 Deutsche Telekom laid 40,000 kilometers of fiber-optic cable which was far more than the 30,000 kilometers originally planned. For 2018, the planned figure rises to as much as 60,000 kilometers. Deutsche Telekom's fiber-optic network, which is extending over 455,000 kilometers, is already the largest in Germany and has grown by some 25,000 kilometers per year on average since 2010. The majority of the Group's investment volume in Germany, which currently amounts to over EUR 5 billion a year, is for the build-out of broadband networks. A main focus of Deutsche Telekom's FTTH activities is providing coverage to business parks and Deutsche Telekom launched a special campaign to put the infrastructure in place for 100 business parks, the majority of which will be covered by the end of 2018. This is in addition to subsidised build-out activities and partnerships with competitors. At the same time, the program to supply 80 per cent. of households with a download bandwidth of at least 50 Mbit/s continued, with 3 million new households connected to Deutsche Telekom's high-speed network in 2017.

In March 2017, Deutsche Telekom launched a further step in the network build-out with the large-scale roll-out of LTE 900 in Germany. This will get the network ready for 5G, the communications standard of the future. The 900 MHz spectrum range is especially suited to carrying the mobile signal deeper into buildings and homes. This frequency will enable Deutsche Telekom to offer LTE by the end of 2019 everywhere where mobile telephony is already possible today.

Deutsche Telekom is clearing the way for the Internet of Things with NarrowBand IoT ("**NB IoT**"), which will not only be used for 4G but also for 5G. Deutsche Telekom is upgrading the network to support sensors that, for instance, display vacant parking spaces or indicate how full the local trash cans are. At the start of 2017, Deutsche Telekom began building out the network infrastructure for these applications in Germany and the Netherlands. Deutsche Telekom will make the existing NarrowBand IoT network coverage available in additional cities in Greece, Poland, Hungary, Austria, Slovakia, and the Czech Republic.

Spectrum allocation procedures are currently being prepared or expected in Germany, Albania, Austria, the Czech Republic, Hungary, Macedonia, Poland and Romania.

Deutsche Telekom is pursuing a pot financing structure. Funding is not triggered by specific projects but depends on the overall liquidity needs of Deutsche Telekom Group. The main sources of external funding are bonds and bank loans (including *Schuldscheindarlehen*). In addition, off-balance sheet financing transactions, such as factoring, could be used as well.

Markets and Regulation

Telecommunications Market

Worldwide, the market for information and communications technologies ("**ICT**") grew by 4.0 per cent. in 2017 to EUR 3.2 trillion. This increase was due in part to strong demand for telecommunications equipment and services, especially in India, China, and the United States. The high-tech association Bitkom (Federal Association for Information Technology, Telecommunications and New Media) and the EITO (European Information Technology Observatory) expect the telecommunications market segment (services and equipment) to record an increase of 4.0 per cent. worldwide to EUR 1.82 trillion and the information technology ("**IT**") market segment to record an increase of 3.9 per cent. for 2017. In the European Union, revenue in the telecommunications market segment rose by 1.0 per cent., primarily due to the capex-driven

5.0 per cent. increase in equipment. The European Telecommunications Network Operators' Association ("**ETNO**") expects service revenues in the EU telecommunications market to have grown slightly by 0.1 per cent. compared with 2016 to EUR 223 billion in 2017. Radical regulatory interventions, such as the reduction in the European roaming and national termination rates as well as substitution by OTT (over-the-top) players, continue to have a negative impact on traditional voice and messaging services, which declined as a result. In 2017, these declines were offset by growth in data revenues.

The digitalisation of the economy and society continues to advance steadily. This changes on the one hand the existing market structures, and on the other, the market realities of many industries that have previously been exclusively analog. Use of data services is growing exponentially. Demand is also rising for more speed, both download and upload, in fixed and mobile networks. New technological developments, like the Internet of Things ("**IoT**"), Industry 4.0, big data, or cloud computing place high demands on network infrastructure: Ubiquitous connectivity and high performance standards and security are critical to success for many applications. In a market environment in which the network infrastructure needs to be substantially upgraded and a broad ecosystem of rival market players has developed, investment incentives must be created – for the good of consumers, the industry, and a digitally sovereign economy.

Consolidation pressure remains high in the telecommunications industry, partly due to declining revenues in many markets as a result of regulatory interventions, increasing competition, and technological change. In addition, high investments are needed for the network build-out, for innovation, and for the acquisition of spectrum. In Germany, the *Bundeskartellamt* approved the merger of United Internet and Drillisch without conditions; Drillisch profited from conditions imposed by the European Commission on the merger of E-Plus and O2. In March 2017, the European Commission approved Deutsche Telekom's procurement joint venture with Orange, deeming it not to result in any restriction of competition. The European Commission conditionally approved Vivendi's de-facto control over Telecom Italia: In order to avoid restrictions to competition, Vivendi must sell Telecom Italia's 70 per cent. in TV service provider Persiderain.

European regulatory environment

The European General Data Protection Regulation will enter into force on 25 May 2018. The new data protection law closes a major gap in the regulation of service providers outside of the EU by imposing the same rules for all market players operating in the EU. The Regulation assures Europe of a high level of data protection and, at the same time, will pave the way for new digital business models. The General Data Protection Regulation applies directly in the member states and does not need to be transposed into national law. Contrary or redundant German law must be repealed by way of a specific act (*Rechtsbereinigungsgesetz*).

In the course of implementing the EU Network and Information Security Directive, a number of provisions were added to the German IT Security Act (*IT-Sicherheitsgesetz*), requiring online marketplaces, search engine operators, and cloud service providers to comply with minimum requirements designed to safeguard the security of their infrastructures and to report incidents. On a positive note, the legislator included additional powers for telecommunications providers to enable the detection and clearing of network outages and security incidents – a significant step forward in view of the necessary inclusion of all parties involved in the value chain. It remains to be seen whether the new German government will make any further attempt to address the remaining deficits in the IT Security Act (lack of systematic involvement of hardware and software manufacturers).

EU subsidies for Croatia. On 6 June 2017, the EU Commission granted its approval for EU subsidies for Croatia. The Croatian government plans to use this money to fund a new state-owned network operator. The development increases the risk of a massive distortion of competition and of other countries following suit.

Payment Services Directive 2, which replaces Payment Services Directive 1 from 2007, must be implemented in the EU member states by the start of 2018. In Germany, this is being done by the German Payment Service Oversight Act (*Zahlungsdiensteaufsichtsgesetz – ZAG*), under which providers of telecommunications services must limit billing models for voice and non-voice services for invoicing third-party services via the telephone bill to a maximum of EUR 300 per month and EUR 50 per transaction – unless they have a payment services license. In addition, it will impose additional reporting obligations on the Federal Financial Supervisory Authority (*BaFin*). At the start of December 2017, the Federal Financial Supervisory Authority published an information sheet on the practical implementation of the ZAG provisions.

Germany

According to EITO, revenue from IT products and services, telecommunications, and consumer electronics increased by 2.3 per cent. to around EUR 135.6 billion in Germany in 2017. Information technology recorded growth of 4.3 per cent. Telecommunications revenues (telecommunications services, hardware, and infrastructure systems) decreased slightly by 0.3 per cent. to around EUR 57.7 billion. The positive

development in data services could not completely offset weakening business with terminal equipment – caused in part by a further decline in smartphone revenues in 2017 – and steadily declining revenues from fixed-network and mobile services. Regulatory effects such as the reduction in EU roaming charges and interconnection rates were the main reason for slightly lower revenues from telecommunications services.

The German broadband market grew by 3.5 per cent. in 2017. As of the end of 2017, there were some 33 million broadband lines in Germany. Companies with their own infrastructure benefited the most from this market growth, along with resellers and regional providers. High-bandwidth lines are increasingly marketed in cable and VDSL/vectoring networks. The offerings in this area are supported by innovative hybrid connection technologies. The availability of high bandwidths in Germany and the large choice of HD content and video-on-demand services are stimulating customer growth in IPTV business. Integrated offers comprising fixed-network and mobile communications offer customers many advantages and help increase customer retention. The trend towards integrated offerings continued in 2017, with more and more providers expanding their portfolios. Deutsche Telekom launched its first integrated offering, MagentaEins, on the market in fall 2014. Since then, Deutsche Telekom has been gradually enhancing its service both in the area of traditional communication and add-on services such as smart home, cloud services, and security applications. Vodafone and O2 made up ground in terms of integrated offers.

In the German mobile market, service revenues decreased slightly by around 0.7 per cent. in 2017 against 2016 to approximately EUR 18.1 billion, driven largely by the aforementioned regulatory effects and ongoing price pressure. The use of mobile data is growing exponentially, the percentage of voice and data rate plans is rising steadily. Traditional voice and text messaging services are increasingly being replaced by free IP messaging services like WhatsApp and social networks like Facebook. Connected products such as smartphones and tablets, as well as watches, shoes, bicycles, and much more, are growing ever more popular, pushing up demand for mobile broadband speeds and for large data volumes in the rate plan portfolios.

Digitalisation is continuing apace, and as a result there is also growing demand by the industry for even more connectivity to allow machines and production sites to be networked and to tap efficiencies in value chains. Extensive IT and cloud solutions, as well as intelligent approaches to M2M communication (machine-to-machine) are needed in order to meet these demands. Deutsche Telekom believes that the M2M sector alone grew by around 30 per cent. in 2017, and this growth is unlikely to slow in the coming years. In the IT sector, Deutsche Telekom expects market growth to be around 5 per cent., driven primarily by the substantial increase in cloud services of around 17 per cent.

United States

The mobile communications market in the United States continues to be divided between four major nationwide providers – AT&T, Verizon Wireless, T-Mobile US, and Sprint – and various regional network operators. In addition there are a number of mobile virtual network operators, which rely on the networks of one or more of the four national carriers to transport their mobile and data traffic. The two largest national network operators are AT&T and Verizon Wireless, followed by T-Mobile US and Sprint.

The market continues to be very dynamic. For example, the cable companies Comcast and Charter have activated their respective MVNO agreements with Verizon, and Comcast has already begun offering mobile services to its customers. Additionally, in May 2017, Comcast and Charter agreed to explore cooperation in the development of wireless products and services, and also agreed that each party must attain approval from the other before acquiring control of a full mobile network operator. Altice, whose 2016 acquisitions of Cablevision and Suddenlink created the nation's fourth largest cable operator, announced its own MVNO partnership with Sprint. AT&T is still planning to acquire media giant Time Warner Inc. for USD 85.4 billion, pending a legal challenge by the U.S. antitrust authorities. The consolidation and convergence of the U.S. telecommunications market is expected to continue, as fixed and wireless become more integrated and wireless companies acquire content providers.

After three quarters of decline due to high market penetration, the U.S. wireless market has grown slightly since the third quarter of 2017, although down on a year-on-year basis. Although revenues were down overall, profit improved due to expenditure cuts, with operators also prepping for 5G strategies in 2018-19. Smartphone penetration continues to rise steadily, sitting now at 92 per cent. Accordingly, mobile data consumption continues to rise and average usage surpassed 6 GB/month by the end of 2017.

Since 2013, T-Mobile US has brought about a significant operational turnaround and intensified competition in the U.S. mobile market. This is mainly due to improvements in their network, as well as successful implementation of the Un-carrier initiatives, which contributed very successfully to customer satisfaction.

The FCC has noted the fierce competition in the market and has embarked on a deregulatory agenda. It has eased wireless infrastructure deployment by removing administrative obstacles; it has adopted new sharing

tools in the 3.5 GHz band to free up 150 MHz of spectrum for broadband services; and it is working to free up spectrum above 24 GHz to enable deployment of 5G services. The Broadcast Incentive Auction (600 MHz) ended in April 2017. T-Mobile US purchased an average of 31 MHz of 600 MHz low-band spectrum covering 100 per cent. of the United States. In addition, the FCC adopted new rules on 14 December 2017, that pare down net neutrality regulation to just a transparency requirement. Bright line rules (no blocking, no throttling) will be eliminated and paid priority will be permitted. The rules are expected to be challenged in court.

Europe

Following a period of steady recovery, the traditional telecommunications markets in the Europe operating segment saw a return to moderate revenue growth for the first time in 2017 on a full-year basis. Steady growth in broadband and TV business offset some of the ongoing decline in voice business. Mobile data usage grew rapidly, especially due to video services. Overall, mobile business recorded growth and more than offset the decline in fixed-network business. The continued levying of special taxes on telecommunications services in some countries had a negative impact, for example in Greece and Hungary. The acquisition of new spectrum and extension of existing mobile licenses had a relatively low impact in 2017 (e.g., in Greece). There was only limited consolidation activity in the countries of the Europe operating segment in 2017 (e.g., T-Mobile Austria/UPC Austria and Digi/Invitel in Hungary; both transactions are awaiting approval from the responsible authorities).

The trend towards convergent product bundles combining fixed-network and mobile communications ("**FMC**") continues, for example with Kombinieren & Sparen (combine & save) in Austria, Love in Poland, and MagentaOne and CosmoteOne in Deutsche Telekom's subsidiaries with integrated telecommunications infrastructure. These offers are enjoying strong growth and for some providers, already address the majority of consumers. New providers pursuing aggressive pricing policies (e.g., in Hungary and Slovakia), whose market shares are still small, are intensifying competitive pressure. Services from OTT (over-the-top) players, like WhatsApp and Facebook, are increasingly replacing traditional voice and messaging services. Video streaming services like Netflix and Amazon Prime have so far had limited significance in the Europe operating segment (with the exception of Austria).

In the business customer segment, the advance of digitalisation has prompted massive growth in M2M/IoT applications; Deutsche Telekom participates in this with its Smart City projects, for instance in Hungary, Romania and Greece.

Systems Solutions

In the information and communications technology ("**ICT**") industry in Deutsche Telekom's core market of Western Europe, the volume addressed by the Systems Solutions operating segment and the T-Systems brand increased by 4.1 per cent. in the reporting year to EUR 192 billion. However, this trend impacted the business areas of the market in very different ways.

In the telecommunications ("**TC**") segment, the market was dominated by continued price erosion in telecommunications services and by intense competition, while the economic recovery had relatively little impact. The focus in this segment continues to be on the substitution of elements of the portfolio and demand for stable, intelligent and secure network solutions with increasingly large bandwidths. Growth in ICT security (cyber security), Internet of Things (IoT), cloud computing, and unified communications is leading to a long-term stabilisation of the markets served by the operating segment. Substitution effects between fixed-network and mobile operations continue to intensify. The migration to all-IP solutions, e.g., the combination of Internet access, Voice over IP, IP VPN, and Unified Communications, continues to increase.

In terms of IT services, demand has grown further for cloud services and cyber security services, as has the importance of digitalisation, intelligent networks, the Internet of Things (including Industry 4.0), and communication between machines ("**M2M**"). The advance of digitalisation and the shift towards cloud solutions also transformed demand in the systems integration business. Traditional project business – application development and the associated integration – declined by 0.9 per cent. By contrast, the market for consultation and integration services for cloud solutions grew by 28 per cent.

The market for outsourcing computing and desktop services ("**CDS**") shrank by 0.6 per cent. in 2017 to EUR 58 billion. Two contrasting trends played a role in this context: Business from long-term, rather traditional outsourcing contracts declined by 4 per cent., while the market for cloud computing grew by 10 per cent.

Competitive and price pressure persisted in all submarkets of the Systems Solutions operating segment. This was caused in part by competitors such as BT Global Services, Orange Business Services, and NTT Communication in the telecommunications market, and IBM, Atos, and Capgemini in the IT segment; in addition, the IT segment in particular came under price pressure from cloud providers such as Amazon Web Services, Google, and Salesforce. This effect is further intensified by providers of services rendered primarily offshore. Deutsche Telekom is positioning itself in this environment as a digital enabler, a cloud transformer,

and an ICT operator, with a focus on quality, data security, and end-to-end responsibility for the transformation, integration, and operation of ICT services. Furthermore, Deutsche Telekom is increasingly entering into strategic partnerships with its competitors with the aim of offering its customers innovative solutions.

Group Development

The environment of the Group Development operating segment is largely dominated by the markets served by T-Mobile Netherlands and Deutsche Funkturm ("**DFMG**").

The mobile communications market in the Netherlands has been marked by high price and competitive pressure for quite some time, and this situation intensified again in 2017. One of the trends contributing toward this is the growing bundling of fixed-network and mobile products into convergent offers ("**FMC**"). The merger of Vodafone and Ziggo, for instance, has created a second strong nationwide FMC provider alongside market leader KPN. As in the past, the trend towards bundled offers brings pressure to bear on prices for mobile products. The strong discount segment, comprising mobile providers' secondary brands and MVNOs, has further intensified competition. In December 2017, Deutsche Telekom signed an agreement with the Tele2 Group on the acquisition of telecommunications provider Tele2 Netherlands by T-Mobile Netherlands. This transaction still needs approval by the responsible antitrust authority.

DFMG is the biggest provider of passive wireless infrastructure for mobile communications and broadcasting in Germany. The market also saw increased demand for cell sites in 2017, due on the one hand to the fact that network operators plan to close gaps in coverage, and on the other to the fact that demand for mobile data services is growing, which calls for a further increase in the density of mobile networks.

Major Regulatory Decisions

Deutsche Telekom's business activities are largely subject to national and European regulation, which is associated with extensive powers to intervene in its product design and pricing. Deutsche Telekom was again subject to extensive regulation in the mobile and fixed-network businesses in 2017.

The focus was primarily on the regulation of services for wholesale customers and the corresponding charges as well as the award of mobile frequencies.

The Federal Network Agency held a public consultation process from 14 March 2017 to 26 April 2017 on proposals for how regulatory support could be provided to accelerate the roll-out of fiber-optic networks (FTTH/B) with a view to rates regulation. All market players were asked to respond to the consultation paper. The 17 responses received were published on 17 May 2017. The Federal Network Agency said it will first analyse these responses, some of which are extensive, before announcing any conclusions.

The Federal Network Agency reviewed the specific conditions required for nearshore vectoring by way of a reference offer procedure. It announced its ruling in its official journal on 9 August 2017. The deadlines for the three planned nearshore build-out tranches have thus now been set. A parallel rate approval procedure was also carried out at the Federal Network Agency from the end of March 2017 to set the rates for a nearshore ULL substitute product. The ruling for this process was also announced on 9 August 2017, finally giving the green light for Deutsche Telekom's nearshore vectoring roll-out.

The Federal Network Agency issued final approval for fixed-network and mobile termination rates in 2017, with retroactive effect from 1 January 2017 (fixed-network termination rates) and 1 December 2016 (mobile termination rates), with no changes to the rates provisionally approved back in 2016. In these rate rulings, the Federal Network Agency followed for the first time the recommendation of the European Commission to set charges based on the "pure LRIC cost standard". In the approval period, the charges declined by 30 per cent overall for mobile termination and by as much as around 58 per cent for fixed-network termination.

The new EU Regulation to abolish roaming surcharges (commonly referred to as Roam Like at Home) within the European Union as well as in Iceland, Liechtenstein and Norway entered into force on 15 June 2017. In addition, on 17 May 2017, the European Council and European Parliament adopted amended regulations for wholesale roaming charges, significantly reducing regulated price caps at wholesale level. Deutsche Telekom had already launched customer-friendly Roam Like at Home offers on the market before this date.

On 15 December 2017, the Federal Network Agency prohibited elements of the MagentaMobil StreamOn add-on option. According to the Federal Network Agency, two aspects of this option breach the EU Regulation on net neutrality and roaming. The ruling stipulates that, from 1 April 2018, Deutsche Telekom must transmit all StreamOn data traffic at the maximum available bandwidth and that this also cannot be deducted from the included data volume contingent when roaming within the EU. Deutsche Telekom remains of the opinion that its offer complies with EU law and will appeal against the ruling.

On 30 November 2017, the Federal Network Agency provisionally approved as of 1 December 2017 the rates Deutsche Telekom can charge to wholesale customers for access to its broadband lines for "layer 2 bitstream access". Deutsche Telekom had requested an increase in the monthly rate as part of contingent models, but this was not approved. The Federal Network Agency will only set the final charges with retroactive effect once the national and EU-wide consultation processes are complete.

Net Revenue

In 2017, Deutsche Telekom generated net revenue of EUR 74.9 billion, which was 2.5 per cent. or EUR 1.9 billion up compared to 2016. The United States operating segment contributed to this positive trend with revenue growth of 5.9 per cent. T-Mobile US' successful Un-carrier initiatives and the success of the MetroPCS brand gave a strong boost to the number of new customers and thus also to service revenues. Terminal equipment revenues continued to rise, in part due to the stronger focus on offering terminal equipment under installment plans. In Deutsche Telekom's German home market, there was a slight positive trend in revenue, with an increase of 0.7 per cent. compared with 2016. This was partly due to a rise in mobile revenues and, primarily, growth in non-contract handset revenues. Increased IT and broadband revenues also had a positive impact on fixed-network revenue, although it was not sufficient to offset the overall decline in revenue in the fixed-network business. In the Europe operating segment, revenue also increased slightly by 1.2 per cent. compared with 2016. Revenue development in growth areas and an increase in terminal equipment revenue had a positive effect. By contrast, lower roaming charges in many countries and ongoing intense competition in the telecommunications footprint markets put further pressure

on revenue. In the Systems Solutions operating segment, revenue decreased by 1.1 per cent. against 2016. This decline was primarily attributable to the completion in 2016 of the set-up phase for the toll collection system in Belgium. Excluding this toll collection effect from 2016, however, the telecommunications business posted revenue growth. By contrast, revenue from traditional IT business continued to decrease due to the general downward trend in market prices and to a decline in order entry, especially at international level. Deutsche Telekom's strategic growth areas such as cloud, Internet of Things, and the Telekom Security unit made a positive contribution. Revenue generated in the Group Development operating segment decreased by 3.6 per cent. in 2017 compared with 2016, which was largely attributable to the revenue lost as a result of the sale of Strato as of 31 March 2017. By contrast, revenue growth at T-Mobile Netherlands had a positive impact.

Excluding the negative net exchange rate effects of EUR 0.6 billion – in particular from the translation of U.S. dollars into euros – and slightly negative effects of changes in the composition of the Group of EUR 0.1 billion – mainly from the sale of Strato – revenue increased by EUR 2.6 billion or 3.6 per cent.

^a Since 1 January 2017, Deutsche Telekom has reported on the Group Development operating segment and within the Group Headquarters & Group Services segment on the Board of Management department Technology and Innovation. Comparative figures have been adjusted retrospectively.

At 47.7 per cent., the United States operating segment again provided the largest contribution to net revenue of the Group. This was an increase of 1.5 percentage points compared to 2016, due in particular to ongoing strong customer additions. By contrast, the contributions by the other operating segments and the Group Headquarters & Group Services segment decreased. The proportion of net revenue generated internationally continued to increase, from 66.3 per cent. to 67.2 per cent.

EBITDA, adjusted EBITDA

Excluding special factors, adjusted EBITDA increased by EUR 0.8 billion or 3.8 per cent. to EUR 22.2 billion in 2017 compared to 2016. This development was primarily driven by the United States operating segment, which recorded an increase in its adjusted EBITDA contribution of 8.8 per cent., mainly as a result of the continued success of the Un-carrier initiatives. EBITDA adjusted for special factors also grew in the Germany operating segment by 2.8 per cent. compared with 2016, driven by efficiency enhancement measures while revenue increased slightly. Adjusted EBITDA declined due to higher market investments and revenue-driven cost increases at the B2B/ICT business customer unit in the Europe operating segment. Slight revenue growth and increased cost efficiency had an offsetting effect. Adjusted EBITDA in the Systems Solutions operating segment also recorded a downward trend; however, this was largely attributable to the completion in 2016 of the set-up phase for the toll collection system in Belgium and the tense situation in the ICT market. In the Group Development operating segment, adjusted EBITDA declined mainly due to the forgone earnings following the sale of Strato. A positive trend at T-Mobile Netherlands had a contrasting effect. Adjusted for negative net exchange rate effects and slightly negative effects of changes in the composition of the Group of EUR 0.2 billion, adjusted EBITDA even increased by EUR 1.0 billion or 4.9 per cent.

EBITDA increased by EUR 1.4 billion or 6.3 per cent. to EUR 24.0 billion in 2017 compared to 2016. Special factors were positive on balance, increasing by EUR 0.6 billion compared with 2016 to EUR 1.7 billion.

These factors included a partial reversal of impairment losses on spectrum licenses at T-Mobile US, increasing the carrying amount by EUR 1.7 billion as of 30 September 2017. Other positive factors were income from divestitures in connection with the sale of Strato completed as of midnight, 31 March 2017 (EUR 0.5 billion), income from the sale of the remaining shares in Scout24 AG (EUR 0.2 billion), and income from a settlement agreement concluded with BT in July 2017 (EUR 0.2 billion). Special factors in connection with staff-related measures and non-staff-related restructuring expenses amounted to EUR 0.6 billion, EUR 1.1 billion lower than the expenses reported in 2016. Special factors in 2016 included income of EUR 2.5 billion from the sale in early 2016 of Deutsche Telekom's stake in the EE joint venture and income in the amount of EUR 0.5 billion from transactions for the exchange of spectrum licenses between T-Mobile US and two telecommunications companies.

EBIT

Group EBIT stood at EUR 9.4 billion, up EUR 0.2 billion or 2.4 per cent. against 2016. This increase is partly due to the effects described under EBITDA. A year-on-year increase in depreciation, amortisation and impairment losses of EUR 1.2 billion reduced EBIT. EBIT was negatively impacted by the impairment losses recognised on goodwill in the Systems Solutions operating segment of EUR 1.2 billion and in the Europe operating segment in the national companies in Poland, Romania, and Albania of EUR 0.8 billion in total. Goodwill impairment losses of EUR 0.5 billion had been recognised in 2016, mainly in the Netherlands cash-generating unit. In addition, impairment losses on property, plant, and equipment totaling EUR 0.1 billion were recognised (2016: EUR 0.2 billion). Depreciation of property, plant and equipment and amortisation of intangible assets were slightly lower than in 2016.

Profit/loss before income taxes

Profit before income taxes increased from EUR 4.5 billion in 2016 to EUR 5.0 billion in 2017. This is due to the positive trend in EBIT, as well as to a year-on-year decrease in the loss from financial activities by EUR 0.2 billion to EUR 4.4 billion. As in 2016, impairments of the financial stake in BT, which in 2017 totalled EUR 1.5 billion recognised in profit and loss, were one of the main factors affecting profit/loss from financial activities. These impairments comprise both the share price effect and the exchange rate effect. In 2016, the impairment amounted to EUR 2.2 billion. Negative remeasurement effects from the exercise and measurement of embedded derivatives at T-Mobile US – mainly relating to the early repayment of financial liabilities to third parties outside of the Group – increased the loss from financial activities. As in 2016, Deutsche Telekom received dividend payments amounting to EUR 0.2 billion from the financial stake in BT in 2017. The 2016 figure included a final dividend of EUR 0.2 billion received in connection with the sale of the stake in the former EE joint venture. Finance costs decreased by EUR 0.3 billion to EUR 2.2 billion.

Net profit/loss

Net profit increased in 2017 by EUR 0.8 billion to EUR 3.5 billion compared to 2016. After recording a tax expense of EUR 1.4 billion in 2016, in 2017 Deutsche Telekom recorded a tax benefit of EUR 0.6 billion, mainly attributable to the reduction in the U.S. federal tax rate from 35 per cent. to 21 per cent., which resulted in a non-cash deferred tax benefit of EUR 2.7 billion at T-Mobile US. Profit attributable to non-controlling interests increased compared with 2016 by EUR 1.7 billion to EUR 2.1 billion. Alongside positive business performance and the partial reversal of impairment losses on spectrum licenses acquired previously in the United States operating segment, the increase in profit attributable to non-controlling interests was driven in particular by the deferred tax benefit recognised.

Net debt increased by EUR 0.8 billion to EUR 50.8 billion at the end of 2017 compared to 2016. Factors positively influencing net debt were the positive Free cash flow of EUR 5.5 billion and the sales of Scout24 and Strato (in total EUR 0.9 billion). The acquisition of spectrum increased net debt by EUR 7.4 billion. Further effects increasing net debt were dividend payments including non-controlling interests (EUR 1.6 billion), finance leases (EUR 1.0 billion) and embedded derivatives at T-Mobile (EUR 0.6 billion). The conversion of mandatory preferred stock (including embedded conversion rights) of T-Mobile US led to a decrease of EUR 1.7 billion. Positive exchange rate effects decreased net debt by a further EUR 2.9 billion. Other effects of EUR 1.3 billion, which were increasing net debt include, among other factors, liabilities for the acquisition of media broadcasting rights and financing options under which the payments for trade payables become due at a later point in time by involving banks in the process. This figure also includes the acquisition of ordinary shares in T-Mobile US under its share buy-back program.

In addition to the assets recognised in the statement of financial position, Deutsche Telekom uses off-balance sheet assets. This primarily relates to leased property.

Off-balance-sheet financial instruments mainly relate to the sale of receivables by means of factoring. Total receivables sold as of 31 December 2017 amounted to EUR 4.7 billion. This mainly relates to factoring agreements in the United States and Germany operating segments. The agreements are used in particular for active receivables management.

Furthermore, in 2017, Deutsche Telekom chose financing options totaling EUR 0.3 billion which extended the period of payment for trade payables from operating and investing activities by involving banks in the process and which upon payment are shown under cash flows used in/from financing activities.

In 2017, Deutsche Telekom leased network equipment for a total of EUR 1.0 billion, primarily in the United States operating segment, which is recognised as a finance lease.

Free cash flow of the Group before dividend payments and spectrum investment grew from EUR 4.9 billion in 2016 to EUR 5.5 billion in 2017, with net cash from operating activities increasing by EUR 1.7 billion to EUR 17.2 billion. Cash outflows for investments in intangible assets (excluding goodwill and before spectrum investment) and property, plant and equipment increased by EUR 1.1 billion in 2017 compared to 2016.

The increase in net cash from operating activities was mainly attributable to the positive business

development of the United States operating segment. In 2017, factoring agreements were concluded for monthly revolving sales of trade receivables, mainly in the United States and Germany operating segments. Their effect on net cash from operating activities amounted to EUR 0.3 billion and was thus EUR 0.5 billion lower than in 2016. In 2016, cash inflows from the cancellation of or changes in the terms of interest rate derivatives had a negative effect of EUR 0.3 billion. A year-on-year increase of EUR 0.1 billion in cash outflows for income taxes also had a negative impact. The dividend payments received from BT in 2017 amounted to EUR 0.2 billion compared with 2016 in which dividend payments comprised EUR 0.1 billion from BT and EUR 0.2 billion from the former joint venture EE. By contrast, net interest payments that were EUR 0.1 billion lower year-on-year had a positive impact on net cash from operating activities.

The EUR 1.1 billion increase in cash capex in 2017 compared with 2016 primarily related to the United States, Germany, and Europe operating segments. Cash outflows relate to network modernisation and the continued network build-out, including roll-out of the 4G/LTE network and the broadband/fiber-optic build-out.

Research and Development

Expenditure and investment in research and development

Research and development expenditure includes preproduction research and development, such as the search for alternative products, processes, systems, and services. By contrast, Deutsche Telekom does not class as research and development expenditure the costs of developing system and user software which is designed to improve productivity and make business processes more effective. Research and development expenditure in the Deutsche Telekom Group amounted to EUR 57.7 million in 2017. As the parent company, Deutsche Telekom AG bears part of the Group's research and development expenditure, the amount in this case being EUR 27 million. However, this figure cannot be viewed in isolation from the three-pronged innovation strategy comprising in-house developments, partnerships, and startup funding.

The Group's investments in internally generated intangible assets to be capitalised were also up in 2017 at EUR 235.7 million compared with EUR 129.5 million in 2016. These investments predominantly relate to internally developed software, mainly in the Group Headquarters & Group Services segment and the Systems Solutions operating segment. About 3,000 employees worked in the Group's R&D areas in 2017.

a reorganisation. Prior-year figures have not been adjusted.

Total revenue

Total revenue increased by 0.7 per cent. in 2017 compared to 2016, due mainly to a 2.5 per cent. rise in mobile revenues and a 10.8 per cent. growth in non-contract handset revenues. Higher IT and broadband revenues also had a positive impact on fixed-network revenue. This was not quite sufficient to completely offset the decrease of 0.9 per cent. in fixed-network revenue compared with 2016.

Revenue from Consumers grew by 0.5 per cent. in 2017 compared to 2016. Volume-related revenue decreases continued to drive the traditional fixed-network business. By contrast, revenue from broadband business increased by 1.1 per cent., while revenue from mobile business increased by 2.3 per cent., primarily due to successful terminal equipment sales.

Revenue from Business Customers increased by 1.6 per cent., with mobile revenues increasing by 2.7 per cent. and IT revenues by 19.5 per cent. in 2017 compared with 2016. In the fixed network, by contrast, a decline was recorded in traditional voice telephony, due largely to the increasing number of customers moving to flat-rate plans.

Wholesale revenue remained at the prior-year level in 2017. Adjusted for regulatory price effects (from 1 December 2016), there was a positive trend, thanks primarily to higher revenues with unbundled lines, in particular as part of Deutsche Telekom's contingent model.

EBITDA, adjusted EBITDA

EBITDA amounted to EUR 8.2 billion in 2017, an increase of 11.4 per cent. against 2016, due mainly to lower special factors for expenses in connection with staff restructuring.

In 2017, EBITDA adjusted for special factors increased by 2.8 per cent. compared with 2016 to EUR 8.5 billion, driven mainly by efficiency enhancement measures in all functions while revenue increased slightly. The adjusted EBITDA margin increased to 38.6 per cent. in 2017 (2016: 37.8 per cent.).

EBIT

Profit from operations increased by 19.6 per cent. to EUR 4.3 billion in 2017 compared to 2016. The increase in the level of EBITDA more than offset the slight increase in depreciation, amortisation and impairment losses.

Total revenue

Total revenue for the United States operating segment of EUR 35.7 billion in 2017 increased by 5.9 per cent. compared to EUR 33.7 billion in 2016. In U.S. dollars, T-Mobile US' total revenues increased by 8.1 per cent. in 2017 compared to 2016 due primarily to service revenue growth resulting from increases in T-Mobile US' average branded customer base from strong customer response to T-Mobile US' Un-carrier initiatives and success of the MetroPCS brand. Additionally, equipment revenues increased due primarily to a higher average revenue per device sold, an increase from the purchase of leased devices at the end of the lease

term, and increased proceeds from liquidation of returned customer handsets, partially offset by a decrease in lease revenues due to T-Mobile US' continued focus on equipment installment plan sales.

EBITDA, adjusted EBITDA, adjusted EBITDA margin

Adjusted EBITDA increased by 8.8 per cent. to EUR 9.3 billion in 2017, compared to EUR 8.6 billion in 2016. In U.S. dollars, adjusted EBITDA increased by 10.7 per cent. in 2017, compared to 2016. Adjusted EBITDA increased due primarily to an increase in branded postpaid and prepay service revenues resulting from strong customer response to T-Mobile US' Un-carrier initiatives, the ongoing success of promotional activities, and the continued strength of the MetroPCS brand, partially offset by higher commissions, employee-related costs, promotional costs, higher costs associated with network expansion, and the negative impact from hurricanes in Texas, Florida and Puerto Rico. The negative impact in 2017 from lost revenue, assets damaged or destroyed and other hurricane-related costs incurred was approximately EUR 250 million. As of 31 December 2017, T-Mobile US expects additional expenses to be incurred and customer activity to be impacted in the first quarter of 2018, primarily related to T-Mobile US' operations in Puerto Rico. T-Mobile US has not recognised any potential insurance recoveries related to those hurricane losses as it continues to assess the damage and hold discussions with its insurance carriers. Adjusted EBITDA margin increased to 26.1 per cent. in 2017, compared to 25.4 per cent. in 2016 due to the factors described above.

EBITDA in 2017 included special factors of EUR 1.6 billion compared to special factors of EUR 0.4 billion in 2016. The increase in special factors related primarily to a spectrum impairment reversal in 2017. Overall, EBITDA increased to EUR 10.9 billion in 2017, compared to EUR 9.0 billion in 2016 due to the factors described above, including the impact of special factors.

EBIT

EBIT increased to EUR 5.9 billion in 2017, compared to EUR 3.7 billion in 2016 driven by higher EBITDA and lower depreciation expense related to devices leased under T-Mobile US' JUMP! On Demand program, partially offset by an increase from the continued build-out of T-Mobile US' 4G/LTE network.

The contributions of the national companies correspond to their respective unconsolidated financial statements and do not take consolidation effects at operating segment level into account.

^a The business of T-Systems Polska Sp. z o.o., which was previously organisationally assigned to the Systems Solutions operating segment, is now disclosed under the Europe operating segment as of 1 September 2017. Figures for prior periods were not adjusted.

^b "Other": national companies of Albania, the F.Y.R.O. Macedonia, and Montenegro, as well as ICSS (International Carrier Sales & Solutions), the ICSS business of the local business units, GTS Central Europe group in Romania, and Europe Headquarters.

Total revenue

The Europe operating segment generated total revenue of EUR 11.6 billion in 2017, a slight increase of 1.2 per cent. compared to 2016. Revenue was 0.5 per cent. up in 2017 compared to 2016 in organic terms, i.e., assuming constant exchange rates and the same organisational structure.

The national companies increased their revenues from growth areas by a substantial 11.0 per cent. in 2017, with growth areas accounting for around 33 per cent. of total segment revenue. Mobile data business made a key contribution to this, growing by 17.2 per cent. to EUR 1.6 billion. All of the countries in the operating segment contributed to this success, in particular Poland, Hungary, Greece, and Austria. Thanks to innovative TV and program management, the uptrend continued in TV and broadband business, with TV revenue rising by 6.9 per cent. to EUR 498 million and broadband revenue rising by 2.9 per cent. to EUR 711 million in 2017. B2B/ICT business customer operations also recorded an increase in revenues in 2017 compared to 2016, mainly thanks to the particularly strong results with ICT solutions in Europe, primarily in Hungary. Thanks to innovative and future-oriented business solutions Deutsche Telekom also recorded double-digit growth rates in revenue from cloud business and from convergent solutions for the SMEs (MagentaOne Business). Deutsche Telekom laid important groundwork in 2017 to firmly establish itself as a preferred digitalization partner for customers.

In addition, Deutsche Telekom recorded higher revenue from terminal equipment sales and visitors (revenues with third parties from roaming in the home networks). This offset the overall revenue decline at segment level, which was primarily attributable to voice telephony. From a country perspective, Hungary, Austria, the Czech Republic, and Croatia made the biggest contributions to the organic development of revenue in 2017, offsetting declining revenue from Greece, Slovakia, Poland, and Romania in particular, as well as from international wholesale business. Intense competition on the telecommunications markets as well as lower roaming charges in many countries of the operating segment had a negative impact on organic revenue.

EBITDA, adjusted EBITDA

The Europe operating segment generated adjusted EBITDA of EUR 3.7 billion in 2017, a decrease of 3.0 per cent. compared to 2016. In organic terms, i.e., assuming constant exchange rates, and adjusted for the internal reallocation to the new Board of Management department Technology and Innovation, adjusted EBITDA declined only slightly by 1.0 per cent.

The positive revenue effect was offset by higher market investments and revenue-related cost increases in B2B/ICT business customer operations, among other factors. By contrast, increased cost efficiency had a positive effect on adjusted EBITDA at segment level. From a country perspective, the slight decline in organic adjusted EBITDA is primarily attributable to developments at the national companies in Poland,

Romania, and Albania. In Poland in particular, the decrease in revenue from the smaller customer base resulting from the prepay SIM registration requirement and intense competition had a negative effect on adjusted EBITDA. Regulatory effects, such as the reduction in EU roaming surcharges and interconnection rates, as well as higher market investment costs also reduced adjusted EBITDA. These developments were contrasted by increases in adjusted EBITDA in Greece, Slovakia, Croatia, and Austria in particular. Adjusted EBITDA was also impacted by decisions by regulatory authorities and the introduction of special taxes.

Unadjusted EBITDA decreased by 4.1 per cent. to EUR 3.6 billion in 2017 compared to 2016, due in part to the decline in adjusted EBITDA, and in part to an increase in negative special factors. In organic terms, EBITDA decreased by 2.0 per cent.

EBIT

EBIT in the Europe operating segment decreased by 61.0 per cent. in 2017 to EUR 0.5 billion. In addition to the decline in EBITDA, this was primarily due to the EUR 0.6 billion increase in depreciation, amortisation and impairment losses - in particular from the impairment of goodwill and property, plant and equipment amounting to EUR 0.9 billion resulting from the impairment tests in Poland, Albania, and Romania. In 2016, impairment losses on goodwill and on property, plant and equipment, primarily in Romania, reduced EBIT by EUR 0.2 billion overall.

^a The business of T-Systems Polska Sp. z o.o., which was previously organisationally assigned to the Systems Solutions operating segment, is now disclosed under the Europe operating segment as of 1 September 2017. Figures for prior periods were not adjusted.

Total revenue

Total revenue in the Systems Solutions operating segment was down slightly to EUR 6.9 billion in 2017 compared to 2016. The revenue trend differed in the course of 2017. It decreased in the first half compared with the first half of 2016, due to completion of the set-up phase of the toll collection system in Belgium in 2016. By contrast, revenue rose in the second half. Adjusted for the non-recurring effect from 2016, the telecommunications business grew in 2017 compared to 2016. On the other hand, revenue from the traditional IT business continued to decline. This business is marked by generally lower prices and declining order entry, especially for international business. The strategic growth areas made a positive contribution, with revenue from cloud computing rising 19.2 per cent. in 2017 compared to 2016 and from the Internet of Things by 4.9 per cent. The new Telekom Security unit generated revenue as well.

EBITDA, adjusted EBITDA

In 2017, the Systems Solutions operating segment recorded adjusted EBITDA of EUR 509 million compared with EUR 530 million in 2016. Excluding the non-recurring effect from 2016, the Systems Solutions operating segment reported a positive trend in line with expectations despite a difficult ICT market, the provisions

Deutsche Telekom had to set aside for certain corporate customer contracts, and the all-IP migration for some customer contracts. EBITDA remained roughly stable at EUR 280 million in 2017, up 0.7 per cent. compared to 2016.

EBIT, adjusted EBIT

Adjusted EBIT in the Systems Solutions operating segment decreased by EUR 5 million in 2017 compared to 2016. The decline in order entry prompted impairment testing of the assets in the third quarter of 2017. An impairment loss on goodwill of EUR 1.2 billion was recognised as a result. That is why EBIT decreased by a substantial EUR 1.2 billion to minus EUR 1.4 billion in 2017.

Total revenue

Total revenue in the Group Development operating segment decreased by 3.6 per cent. in 2017 compared to 2016, with the revenue lost following the sale of Strato having a negative impact. Revenue at DFMG remained virtually unchanged in 2017 compared with 2016. The main positive effect was the revenue trend at T-Mobile Netherlands.

EBITDA, adjusted EBITDA

EBITDA decreased by EUR 1.7 billion to EUR 1.8 billion in 2017 compared to 2016. Deutsche Telekom is constantly analysing its portfolio of shareholdings with a focus on ensuring adequate corporate growth. A consequence of this policy was the sale of Strato effective 31 March 2017 and of the remaining shares in Scout24 AG effective 23 June 2017. The disposals resulted in income of around EUR 0.7 billion being recognised as special factors. Positive special factors of EUR 0.2 billion originating from a settlement agreement with BT concluded in July 2017 also had an impact. T-Mobile Netherlands recognised provisions for new consumer credit regulations in its home market. The 2016 figure had included positive net special factors of EUR 2.5 billion, primarily from the sale of the stake in the EE joint venture.

Adjusted EBITDA in the Group Development operating segment was down by 3.0 per cent. in 2017 compared to 2016, with forgone earnings following the sale of Strato having a negative impact. In addition, there were non-recurring effects as well as effects from the assignment of DFMG to the Group Development operating segment at the beginning of 2017. Adjusted EBITDA at T-Mobile Netherlands increased by 17.6 per cent. in 2017 compared to 2016, mainly because of lower market investment expenditure due to a higher proportion of SIM-only contracts, and of a significant reduction in overheads brought about by the transformation program.

EBIT

EBIT decreased by EUR 1.2 billion to EUR 1.5 billion in 2017 compared to 2016, due to the same factors described under EBITDA. Depreciation, amortisation and impairment losses were lower in 2017 than in 2016, both due to the impairment loss of EUR 0.4 billion on goodwill recognised in the Netherlands in 2016,

and to the deconsolidation of Strato.

Total revenue

Total revenue in the Group Headquarters & Group Services segment in 2017 decreased by 15.1 per cent. compared to 2016. This decline was mainly due to the fact that the costs of intragroup development services newly commissioned from Deutsche Telekom IT in Germany have no longer been charged internally since January 2016. Other reasons for the decrease were forgone revenue from DeTeMedien, the sale of which was completed in June 2017, and lower intragroup revenue from land and buildings, essentially due to further optimisation of the use of space. In addition, lower intragroup revenue from Telekom Training and Deutsche Telekom IT – due to a reduction in the amounts charged for licenses and a narrower revenue-relevant cost base – had a negative impact. There was a positive effect on revenue from the structural further development of Deutsche Telekom Services Europe (DTSE).

EBITDA, adjusted EBITDA

Adjusted EBITDA at Group Headquarters & Group Services decreased by EUR 46 million in 2017 compared with 2016, primarily due to lower intragroup revenue from land and buildings, forgone earnings following the sale of DeTeMedien, and higher additions to provisions. By contrast, the following factors had a positive effect on adjusted EBITDA: the establishment of the Board department Technology and Innovation, higher income from the sale of real estate, the reduction in headcount brought about by ongoing restructuring of the Vivento workforce, and lower operating costs at Group Services.

Overall, negative special factors of EUR 121 million impacted EBITDA in 2017, largely due to staff-related expenses. Proceeds from the sale of DeTeMedien had an offsetting effect. Negative special factors of EUR 574 million in 2016 were mainly due to staff-related expenses.

EBIT

The improvement in EBITDA was the main cause of the increase of EUR 424 million in EBIT in 2017 compared to 2016. Depreciation, amortisation and impairment losses were down EUR 19 million in 2017 compared to 2016, due in particular to lower depreciation and impairment losses on land and buildings as a result of ongoing efforts to optimise the real estate portfolio.

Outlook

Market Expectations

Germany

The market for telecommunications services in Germany, which declined by 0.3 per cent. in 2017 compared with 2016, is expected to stabilise in 2018 (source: EITO, European Information Technology Observatory). There are a number of reasons for this: First of all, the regulation-induced decrease in revenue is likely to slow down. Second, the negative trends in traditional fixed-network telephony are expected to be offset by growing demand for mobile data volumes and faster connectivity in the consumer and business customer area. For the wider ICT market, which covers IT services as well as telecommunications, EITO forecasts growth of 1.7 per cent. for 2018. This forecast is primarily based on growth in the IT market, which is currently 3.0 per cent. and mainly driven by strong demand in two areas: services for business customers (e.g., outsourcing, project business, consulting) and software-based services (virtualisation and cloud business, e.g., in the form of Software as a Service, Platform as a Service, or Infrastructure as a Service).

Innovative integrated products and attractive supplementary services – such as TV and music options, and smart home – are becoming increasingly important for Deutsche Telekom's competitive position with consumers, while cloud services, security applications, and solutions for Industry 4.0 are gaining in

significance with business customers. Deutsche Telekom is also setting itself apart from other providers with its download and upload bandwidths, the mobile data volumes included in rate plans, and innovations in rate plans.

The mobile communications market in Germany is dominated by three providers, each with its own network infrastructure, who deploy 4G/LTE technology to ensure that the majority of the population has access to high-speed mobile Internet. By contrast, the fixed-network broadband market hosts a large number of players with differing infrastructures – from national through to regional providers. Deutsche Telekom is assuming that competition from cable network operators will remain intense and that the number of providers who have their own DSL and fiber-optic networks will increase.

UNITED STATES

The U.S. mobile market continues to be characterised by intense competition among the major mobile carriers. Competitive factors within the U.S. mobile market include dynamic changes in pricing, voice market saturation, service and product offerings, customer experience, network quality, development and deployment of technologies, availability of spectrum licenses, and regulatory changes. The mobile postpaid market in the United States is embracing device financing options, such as T-Mobile US' equipment installment plans and device leasing through JUMP! On Demand, allowing customers to subscribe for wireless services separately without the purchase of or payment for a bundled device. Additionally, data services and the availability of unlimited data plans, continue to be a growth driver despite the high level of competition, supporting further network investment by the major mobile carriers in the U.S. mobile market.

EUROPE

The positive trend seen in the traditional communications markets in the Europe operating segment in 2017 is expected to continue over the next two years. Analysts have adjusted their forecasts accordingly: For example, Analysys Mason now expects the markets to remain stable overall in 2018 and 2019, with annual growth in fixed-network business of 2 per cent. in both the broadband and pay TV markets, while the significance of voice services will likely continue to diminish, shrinking by some 7 per cent. per year. In the mobile markets, data services are expected to grow by approximately 5 to 6 per cent. per year – driven by massive growth in data traffic, especially from the use of mobile video services. According to analyses by Ovum, by 2019, mobile video services will account for more than 60 per cent. of data traffic on mobile networks in Eastern Europe and for almost 80 per cent. in Western Europe. By contrast, the relevance of traditional voice services also continues to wane in mobile communications: analysts forecast a decline of around 5 per cent. per annum in this area. The trend towards convergent offers comprising fixed-network and mobile services ("**FMC**") also continues unabated in the Europe operating segment. Deutsche Telekom expects more than 30 per cent. of all broadband lines to be part of an FMC offer by 2019.

According to Oxford Economics, real GDP will continue to rise in all countries of the Europe operating segment in 2018 and 2019 by between 2 and 4 per cent. per annum. This positive economic situation will have a particular impact on the IT markets in the Europe operating segment. EITO forecasts growth of 3 per cent. for the countries of Central and Eastern Europe for 2018.

SYSTEMS SOLUTIONS

The ICT market is expected to see further growth in the next two years in line with the ongoing improvement of the global economy, while cost pressure and strong competition are expected to persist. At the same time, Deutsche Telekom expects the digital transformation to stoke demand for solutions for cloud services, big data, smart network services such as Industry 4.0, the Internet of Things, and M2M as well as for the mobilisation of business processes and ICT security (cyber security).

Deutsche Telekom estimates that the ICT markets will develop along divergent paths in the two main market segments.

Telecommunications: The highly competitive fixed-network telecommunications market for large business customers remains challenging. Innovative change, intense competition, constant price erosion, and the interventions of national regulators are all likely to diminish total market revenues, even though both mobile data services business and the Internet of Things will continue to grow in the coming years.

IT services: The clear growth in the market for IT services in 2017 is likely to continue in 2018 and 2019. At the same time, this market is undergoing a radical transformation, e.g., due to ongoing standardisation and automation, demand for smart services, and the changes being wrought by cloud services in outsourcing business. Further challenges have arisen in the shape of digitalisation, the growing importance of ICT security (cyber security), big data, and increasing mobility. Traditional IT business is likely to decline due to price competition, while cloud services, mobility, and cyber security may reach double-digit growth. In view of this, Deutsche Telekom continues to plan to step up investments in growth markets – especially in

digitalisation, cloud services, cyber security, and smart network solutions for the healthcare sector, the public sector (smart city), and the automotive industry.

GROUP DEVELOPMENT

T-Mobile Netherlands and Deutsche Funkturm ("**DFMG**") dominate the development of the Group Development operating segment.

The high price and competitive pressure in the Dutch mobile market will continue to intensify over the coming years. One of the main trends contributing toward this is the growing bundling of fixed-network and mobile products into convergence offers ("**FMC**"). What is more, both the strong discount segment, comprising mobile providers' secondary brands, and MVNOs will continue to make for lively competition.

With some 28,000 locations, DFMG is the biggest provider of passive wireless infrastructure for mobile communications and broadcasting in Germany. Deutsche Telekom expects demand for cell sites to rise steadily over the next few years, due to the fact that network operators plan on the one hand to close gaps in coverage, and on the other to increase the density of mobile networks to meet the growing demand for mobile data services.

Employees

Deutsche Telekom Group's headcount fell by 0.5 per cent. in 2017 compared with 2016. Development across the segments was varied. The number of employees in the Germany operating segment declined by 2.3 per cent. as a result of efficiency enhancement measures, fewer hires in the operating units, and the take-up of socially responsible instruments. The total number of employees in the United States operating segment increased by 2.4 per cent. at 31 December 2017 compared to 31 December 2016, due to an increase in customer support and network employees, partially offset by a decrease in customer acquisition employees. In the Europe operating segment, the workforce grew by 1.3 per cent. in 2017 compared to 2016, partly due to the extra employees needed at the national company in Poland to staff the new branches opened there. The headcount in the Systems Solutions operating segment increased by 1.2 per cent., largely as a result of the integration of Telekom Security employees. In the Group Development operating segment, the number of employees declined by 23.5 per cent., primarily as a result of the deconsolidation of Strato as of 31 March 2017. The headcount in the Group Headquarters & Group Services segment was down 4.7 per cent. in 2017 compared with the end of 2016, mainly due to the ongoing staff restructuring at Vivento and the Group-wide bundling of the Telekom Security unit under the Systems Solutions operating segment. By contrast, the number of employees in the new Technology and Innovation Board department increased.

Civil Servants

Although no employees hired after 1 January 1995 have been granted civil servant status, Deutsche Telekom employs a substantial number of civil servants. Pursuant to the law governing Deutsche Telekom's privatisation, its civil servant employees retained their civil servant status. Accordingly, the terms and conditions of their employment and the benefits owed to them continue to be governed by German regulations regarding civil servants. Civil servants are tenured employees and may not be unilaterally terminated except in extraordinary, statutorily defined circumstances. Although Deutsche Telekom is authorised, pursuant to the law governing its privatisation, to exercise generally the rights and duties of Germany as the employer of civil servants, the Federal Postal and Telecommunication Agency (*Bundesanstalt für Post und Telekommunikation* or the Federal Agency) has a right of consultation in the implementation of certain aspects of the terms under which Deutsche Telekom employs civil servants.

Under the German Postal Employees Act (*Postpersonalrechtsgesetz*), which governs the legal position of civil servants at Deutsche Telekom AG, Deutsche Telekom has been given greater flexibility with respect to its relationship with its civil servants. Under certain circumstances, civil servants may also be transferred, even without their consent, to companies in which Deutsche Telekom AG has a direct or indirect majority shareholding. However, there is a risk that civil servants temporarily without civil servant status may return to Deutsche Telekom AG, for example, after the completion of their work at one of Deutsche Telekom's subsidiaries.

Civil servants employed by Deutsche Telekom are entitled to pension benefits provided by the German federal government pursuant to the German Civil Servants' Benefits Act (*Beamtenversorgungsgesetz*). Pursuant to the law governing its privatisation, Deutsche Telekom is required to make annual contributions to a special pension fund established to fund such pension obligations (*Bundes-Pensions-Service für Post und Telekommunikation e.V.*, the "BPS-PT").

Pensions

Deutsche Telekom manages its pension commitments based on the Group-wide Global Pension Policy. It ensures on a worldwide basis that Group minimum standards regarding the granting and management of company pension benefits are complied with, plans are harmonised, and other risks to the core business are avoided or reduced. In addition, the policy provides guidelines for the implementation and management of pension commitments and defines requirements for the launch, adjustment, and closure of corresponding plans. The regulations and provisions laid down in this Group policy take into account the national differences in state pension and other commitments under labor, tax, and social law and the common business practices in the area of pension commitments.

The worldwide obligations and the existing plan assets at fair value are regularly tested for risk-reducing measures, for example by executing asset liability studies and regular benefit audits.

As of 31 December 2017 the defined benefit liability amounted to EUR 8.4 billion, which is at the same level as at year end 2016.

Provisions for pensions and other employee benefits decreased from EUR 8.4 billion as of 31 December 2017 to EUR 5.3 billion on 31 March 2018. The main reason for this decline was the transfer, on 23 March 2018, of the 12 per cent. stake in BT (valued at EUR 3.1 billion) to the Group's own trust, Deutsche Telekom Trust e.V., where it will serve as plan assets.

MAJOR SHAREHOLDERS

Below the holders of more than 3 per cent. of Deutsche Telekom's ordinary shares and their percentage of ownership, based on information supplied to Deutsche Telekom AG by such holders.

KfW:	17.41 per cent.
Federal Republic of Germany:	14.48 per cent.
Blackrock:	5.00 per cent.

The Federal Republic of Germany administers its shareholdings and exercises its rights as a shareholder of Deutsche Telekom AG through the German Finance Ministry. In their capacities as shareholders, the Federal Republic of Germany and KfW may exercise only those rights that they have under the Stock Corporation Act and Deutsche Telekom AG's Articles of Incorporation, which are the same for all of Deutsche Telekom AG's shareholders.

At present, the Finance Ministry and KfW each have one representative on Deutsche Telekom AG's Supervisory Board.

Major Shareholders do not have different voting rights from any of Deutsche Telekom AG's other shareholders.

KfW is 80 per cent. owned by the Federal Republic of Germany. The Federal Republic of Germany has publicly stated its intention to reduce its holdings of Deutsche Telekom AG shares. Deutsche Telekom AG does not expect that a reduction in the holdings of Deutsche Telekom AG's shares by the Federal Republic of Germany or KfW will have a material negative effect on Deutsche Telekom AG's governance or business.

Share Capital

As of 31 March 2018, the share capital of Deutsche Telekom AG amounted to EUR 12,189,334,005.76 divided into 4,761,458,596 registered ordinary shares without par value (*Stückaktien*). All shares have been issued and are fully paid.

Voting Rights

Each share entitles the holder to one vote. These voting rights are restricted, however, in relation to treasury shares and shares allocable to Deutsche Telekom in the same way as treasury shares (at 31 December 2017: around 19 million in total).

Capital increase

The resolution on the dividend of EUR 0.60 per share for the 2016 financial year gave shareholders the choice between payment in cash or having their dividend entitlement converted into Deutsche Telekom AG shares. In June 2017, dividend entitlements of Deutsche Telekom AG shareholders amounting to EUR 1.4 billion were contributed in the form of shares from authorised capital and thus did not have an impact on cash flows. Deutsche Telekom AG carried out an increase in issued capital of EUR 0.2 billion against contribution of dividend entitlements for this purpose in June 2017. This increased capital reserves by EUR 1.2 billion. The number of shares increased by 84.6 million.

ALTERNATIVE PERFORMANCE MEASURES (APM)

Deutsche Telekom uses certain alternative performance measures, which are non-GAAP figures not governed by IFRS. They should not be viewed in isolation as an alternative to profit or loss from operations,

net profit or loss, net cash from operating activities, the liabilities reported in the consolidated statement of financial position, or other Deutsche Telekom key performance indicators presented in accordance with IFRS.

EBITDA corresponds to EBIT (profit/loss from operations) before depreciation, amortisation and impairment losses. EBIT and EBITDA measures the short-term operational performance and the success of individual business areas. Deutsche Telekom also uses **EBITDA margins**¹, to show how these indicators develop in relation to revenue. This makes it possible to compare the earnings performance of profit-oriented units of different sizes.

Special factors have an impact on the presentation of operations, making it more difficult to compare performance indicators with corresponding figures for prior periods. For this reason, Deutsche Telekom additionally adjusts its performance indicators to provide transparency. Without this adjustment, statements about the future development of earnings are only possible to a limited extent. The adjusted values are calculated on the basis of the unadjusted performance indicators.

The special factors which are used to calculate some alternative performance measures comprise staff-related measures (such as early retirement compensation, severance and voluntary redundancy models), non-staff related restructuring, effects of de-consolidations, disposals and acquisitions, impairment losses and other effects that generally do not arise in conjunction within the ordinary course of business.

Free Cash Flow (before dividend payments and spectrum investment) is the main yardstick for providers of debt capital and equity. It measures the potential for further developing the Company, e.g. for generating organic growth and the ability to pay dividends and repay debt.

Cash capex relates to cash outflows for investments in intangible assets (excluding goodwill and before spectrum investment) and property, plant and equipment, which are relevant for cash outflows as a component of free cash flow.

In addition, Deutsche Telekom considers **Net debt** (calculated as the Group's gross debt (sum of current and non-current financial liabilities minus accrued interest and other financial liabilities) minus certain financial assets (cash and cash equivalents, available for sale financial assets / financial assets held for trading, derivative financial assets and other financial assets)) to be an important performance indicator for investors, analysts, and rating agencies.

Relative debt is calculated as the ratio of net debt to adjusted EBITDA and is a measure of financial flexibility.

LITIGATION AND ARBITRATION PROCEEDINGS

The companies of Deutsche Telekom Group are involved in a number of legal proceedings in the ordinary course of Deutsche Telekom's business. In addition, proceedings involving alleged abuse of a market-dominant position by Deutsche Telekom and other alleged antitrust violations, as well as other regulatory controversies, are pending before competition and regulatory authorities.

Securities and Corporate Law-Related Proceedings

German Prospectus Liability Suits

Since 2001, around 16,000 purported purchasers of Deutsche Telekom AG's shares sold pursuant to a prospectus dated 26 May 2000 ("**DT3**") have filed more than 2,600 lawsuits in Germany predominantly alleging that the book values of Deutsche Telekom AG's real property portfolio were improperly established and maintained under German GAAP and that Deutsche Telekom AG allegedly failed to adequately disclose detailed information relating to merger negotiations between Deutsche Telekom and VoiceStream Wireless Corporation (the predecessor of T-Mobile USA). These lawsuits are pending before the Regional Court (*Landgericht*) in Frankfurt am Main. The aggregate amount of all shareholders' claims filed in Germany in these lawsuits is approximately EUR 80 million.

On 16 May 2012, the Frankfurt Higher Regional Court had ruled in the DT3 - model proceedings that there were no errors in the prospectus for Deutsche Telekom AG's third public offering and that Deutsche Telekom is not liable. In its decision on 21 October 2014, the Federal Court of Justice revoked this ruling, determined that there was a mistake in the prospectus, and referred the case back to the Frankfurt/Main Higher Regional Court. A decision on possible liability for damages was not made. On 30 November 2016, the Frankfurt/Main Higher Regional Court ruled that the mistake in the prospectus identified by the Federal Court of Justice could result in liability on the part of Deutsche Telekom AG, although the details of that liability would have to be established in the initial proceedings. Both Deutsche Telekom AG and some of the individual plaintiffs in the model proceedings have brought an appeal before the Federal Court of Justice against this decision. Deutsche Telekom continues to hold the opinion that there are compelling reasons why Deutsche Telekom AG should not be liable for damages.

Toll Collect

In the arbitration proceedings between the principal shareholders of Toll Collect (Daimler Financial Services AG and Deutsche Telekom AG) and the consortium company Toll Collect GbR on one side and the Federal Republic of Germany on the other concerning disputes in connection with the truck toll collection system, Deutsche Telekom received the Federal Republic of Germany's statement of claim on 2 August 2005. The Federal Republic is claiming some EUR 3.33 billion in lost toll revenues plus interest due to the delayed commencement of operations as well as contractual penalties in the amount of around EUR 1.65 billion plus

interest. The Federal Republic's main claims – including contractual penalty claims – thus total about EUR 4.98 billion plus interest. In spring 2017, the principal shareholders asserted counterclaims based on breaches of duty by the Federal Republic of Germany in relation to the delay in the start of toll collection. On 16 May 2018, the parties have reached a settlement agreement in the total amount of EUR 3.2 billion which includes a final payment of EUR 1.1 billion to be covered equally by Deutsche Telekom and Daimler.

Claims relating to charges for shared use of cable ducts

With an action filed on 14 June 2012, Kabel Deutschland Vertrieb und Service GmbH (KDG) – now Vodafone Kabel Deutschland GmbH – is asserting two claims: first, Telekom Deutschland GmbH is to reduce the annual charge for the rights to use cable duct capacities in the future; second, it is to partially refund payments made in this connection since 2004, which meanwhile KDG puts at approximately EUR 540 million and approximately EUR 11 million for unlawful gained savings of interests, plus interest in each case. The Frankfurt Regional Court dismissed the action in its ruling on 28 August 2013. KDG has appealed the decision. On 9 December 2014, the Frankfurt/Main Higher Regional Court rejected the appeal and disallowed a further appeal. KDG has filed a complaint against the non-allowance of appeal with the Federal Court of Justice. In response to the subsequent complaint against non-allowance of appeal filed by KDG, the Federal Court of Justice allowed KDG's appeal in a ruling dated 15 December 2015. In a ruling dated 24 January 2017, the Federal Court of Justice reversed the appeal ruling and referred the case back to the Frankfurt/Main Higher Regional Court for further consideration.

On 23 January 2013, Telekom Deutschland GmbH also received a claim filed by Unitymedia Hessen GmbH & Co. KG, Unitymedia NRW GmbH, and Kabel BW GmbH, demanding that Telekom Deutschland GmbH cease charging the complainants more than a specific and precisely stated amount for the shared use of cable ducts. Unitymedia Hessen GmbH & Co. KG is also demanding payment of approximately EUR 570 million plus interest for allegedly excessive charges paid from 2009 to January 2018 for the shared use of cable ducts. The claim was dismissed in the first instance by the Cologne Regional Court on 11 October 2016. On 14 March 2018 the Düsseldorf Higher Regional Court dismissed the appeal filed by the plaintiffs.

Claims by partnering publishers of telephone directories

Several publishers that edit and publish subscriber directories together with DeTeMedien GmbH, filed claims against DeTeMedien GmbH and/or Deutsche Telekom AG. The complainants claimed damages or refund of approximately EUR 470 million plus interest in total from DeTeMedien GmbH and to a certain extent from Deutsche Telekom AG as joint and several debtor next to DeTeMedien. The complainants base their claims on allegedly excessive charges for the provision of subscriber data. The Frankfurt/Main Regional Court rejected 22 out of 81 claims. Two of these decisions have become final and legally binding, in the other cases the complainants have filed an appeal with the Frankfurt/Main Higher Regional Court.

After an agreement was reached with the majority of the publishers in October 2015 to settle the disputes and a number of claims were since dismissed conclusively, 13 actions are still pending for a remaining amount in dispute of around EUR 99 million plus interest. In ten of these proceedings, the plaintiffs lodged appeals with the Federal Court of Justice after their claims were dismissed by the court of appeal. The remaining three claims have been suspended.

Five publishers whose civil actions are still pending have been pursuing their claims in parallel since June 2016 through administrative court actions against the Federal Network Agency. Three of these actions were dismissed by the court of first instance.

Damage claim in Malaysia following a binding arbitrational award

Celcom Malaysia Berhad ("**Celcom**") and Technology Resources Industries Berhad ("**TRI**") filed lawsuits at public courts in Kuala Lumpur, Malaysia, against eleven defendants, including DeteAsia Holding GmbH ("**DTAH**"), a subsidiary of Deutsche Telekom AG. The claimants claim damages and compensation in an amount of USD 232 million (plus interest). This amount was enforced by DTAH in 2005 on basis of a final and binding arbitrational award in favour of DTAH. The main first-instance proceedings commenced in January 2018. At present, Deutsche Telekom cannot assess their financial impact with sufficient certainty.

Other Proceedings

Intellectual Property Rights

Like many other large network operators, Deutsche Telekom is exposed to an increasing number of intellectual property disputes, especially patent litigation. Generally, this leads to a higher risk of having to pay license fees and compensation. Some disputes may even result in cease-and-desist orders, blocking Deutsche Telekom's access to, and ability to use, key network technologies.

Anti-Trust Proceedings

Like all companies, Deutsche Telekom Group is subject to the regulations of anti-trust law. Deutsche Telekom and its subsidiaries, joint ventures, and associates are from time to time subject to proceedings under competition law or civil follow-on actions. The following describes major anti-trust proceedings and the resulting claims for damages.

Claims for damages against Slovak Telekom following the European Commission's decision to impose fines. The European Commission decided on 15 October 2014 that Slovak Telekom had abused its market power on the Slovak broadband market and as a result imposed fines on Slovak Telekom and Deutsche Telekom. The fines were paid in January 2015. Slovak Telekom and Deutsche Telekom challenged the European Commission's decision on 29 December 2014 before the Court of the European Union. Following the decision of the European Commission, competitors filed damage actions against Slovak Telekom with the civil court in Bratislava. These claims seek compensation for alleged damages due to Slovak Telekom's abuse of a dominant market position, as determined by the European Commission. At present, three claims totalling EUR 174 million plus interest are still pending. At present, Deutsche Telekom cannot assess the financial impact with sufficient certainty.

Material Contracts

In the usual course of Deutsche Telekom's business, it enters into numerous contracts with various other entities. Deutsche Telekom has not entered into any material contracts outside the ordinary course of its business within the past two years.

Main Agreements that Include a Change in Control Clause

The main agreements entered into by Deutsche Telekom AG, which include a clause in the event of a change of control, principally relate to bilateral credit lines and several loan agreements. In the event of a change of control, the individual lenders have the right to terminate the credit line and, if necessary, serve notice or demand repayment of the loans. A change of control is assumed when a third party, which can also be a group acting jointly, acquires control over Deutsche Telekom AG.

In addition, the other members of the Toll Collect consortium (Daimler Financial Services AG and Cofiroute S.A.) have a call option in the event that the ownership structure of Deutsche Telekom AG changes such that over 50 per cent. of its share capital or voting rights are held by a new shareholder and this change was not approved by the other members of the consortium.

On 2 November 2016, Deutsche Telekom AG signed a change agreement to the shareholder agreement with the Greek government from 14 May 2008 on Hellenic Telecommunications Organisation S.A., Athens, Greece ("**OTE**"); the change agreement concerned the accession of the Hellenic Republic Asset Development Fund ("**HRADF**") as a party to the contract. Under this agreement, the Greek government, together with HRADF, is, under certain circumstances, entitled to acquire all shares in OTE from Deutsche Telekom AG as soon as one (or more) person(s), with the exception of the Federal Republic of Germany, either directly or indirectly acquire(s) 35 per cent. of the voting rights of Deutsche Telekom AG. In the master agreement establishing the procurement joint venture BuyIn in Belgium, Deutsche Telekom AG and Orange S.A. (formerly France Télécom S.A.)/Atlas Services Belgium S.A. (a subsidiary of Orange S.A.) agreed that if Deutsche Telekom or Orange comes under the controlling influence of a third party or if a third party that is not wholly owned by the Orange group of companies acquires shares in Atlas Services Belgium S.A., the respective other party (Orange and Atlas Services Belgium S.A. only jointly) may terminate the master agreement with immediate effect.

Statement by the Board of Management on the Dependent Company Report

Since the Federal Republic of Germany, as minority shareholder of Deutsche Telekom AG, has represented a solid majority at most shareholders' meetings in the past due to its level of attendance, Deutsche Telekom is

a dependent company of the Federal Republic of Germany in accordance with § 17 (1) AktG (the German Stock Corporation Act).

Deutsche Telekom is not subject to any control or profit and loss transfer agreement with the Federal Republic of Germany. Under § 312 AktG, the Board of Management of Deutsche Telekom AG has therefore prepared a dependent company report describing relations between the controlling entity and dependent companies. The Board of Management issued the following statement at the end of the report: "*The Board of Management hereby declares that, under the circumstances known to the Board of Management at the time the corporate transactions were performed, the Company received appropriate remuneration for such transactions. The Company did not perform or omit any actions in the interests of, or on the instructions of, the controlling company or any affiliated companies of the Federal Republic.*"

The Issuer accepts responsibility for the information given in this Prospectus also with respect to such subsequent resale or final placement of the relevant Notes.

The Prospectus may only be delivered to potential investors together with all supplements published before such delivery. Any supplement to the Prospectus is available for viewing in electronic form on the website of the Luxembourg Stock Exchange (www.bourse.lu) and on the website of Deutsche Telekom (<http://www.telekom.com/bonds>).

When using the Prospectus, each Dealer and/or relevant further financial intermediary must make certain that it complies with all applicable laws and regulations in force in the respective jurisdictions, including with the restrictions specified in the "*Prohibition of Sales to EEA Retail Investors*" legend set out on the cover page of the applicable Final Terms, if any.

In the event of an offer being made by a Dealer and/or a further financial intermediary the Dealer and/or the further financial intermediary shall provide information to investors on the terms and conditions of the Notes at the time of that offer.

Any Dealer and/or a further financial intermediary using the Prospectus shall state on its website that it uses the Prospectus in accordance with this consent and the conditions attached to this consent.

General Description of the Programme

Under this EUR 30,000,000,000 Debt Issuance Programme, Deutsche Telekom and Finance may from time to time issue notes, (the "**Notes**"). The maximum aggregate principal amount of the Notes from time to time outstanding under the Programme will not exceed EUR 30,000,000,000 (or its equivalent in any other currency). The Issuers may increase the amount of the Programme in accordance with the terms of the Dealer Agreement (as defined herein) from time to time.

The Guarantor has given its unconditional and irrevocable guarantee (the "**Guarantee**") for the due payment of the amounts corresponding to the principal of and interest on the Notes issued by Deutsche Telekom International Finance B.V. The Guarantee will be governed by German law.

The Notes may be issued on a continuing basis to one or more of the Dealers and any additional Dealer appointed under the Programme from time to time by the Issuer(s), which appointment may be for a specific issue or on an ongoing basis. Notes may be distributed by way of offer to the public or private placements and, in each case, on a syndicated or non-syndicated basis. The method of distribution of each Tranche will be stated in the relevant Final Terms. Notes may be offered to qualified and non-qualified investors, unless the applicable Final Terms include a legend entitled "*Prohibition of Sales to EEA Retail Investors*".

Notes will be issued in tranches (each a "**Tranche**"), each Tranche consisting of Notes which are identical in all respects. One or more Tranches, which are expressed to be consolidated and forming a single series and identical in all respects, except for issue dates, interest commencement dates and/or issue prices may form a series ("**Series**") of Notes. Further Notes may be issued as part of existing Series.

Notes will be issued in such denominations as may be agreed between the relevant Issuer and the relevant Dealer(s) and as indicated in the applicable Final Terms save that the minimum denomination of the Notes will be, if in euro, EUR 1,000 and if in any currency other than euro, in an amount in such other currency nearly equivalent to EUR 1,000 at the time of the issue of the Notes. The minimum denomination of the Notes may be smaller than EUR 1,000 if the Notes are not listed or are listed on an unregulated market and may not be part of any offer to the public. Notes will be issued with a maturity of twelve months or more. The Notes will be freely transferable.

Notes may be issued at an issue price which is at par or at a discount to, or premium over, par. The issue price for Notes to be issued will be determined at the time of pricing on the basis of a yield which will be determined on the basis of the orders of the investors which are received by the Dealers during the offer period. Orders will specify a minimum yield and may only be confirmed at or above such yield. The resulting yield will be used to determine an issue price, all to correspond to the yield.

The yield for Notes with fixed interest rates will be calculated by the use of the ICMA method, which determines the effective interest rate of notes taking into account accrued interest on a daily basis.

Unless otherwise permitted by then current laws and regulations, Notes in respect of which the issue proceeds are to be accepted by the Issuer in the United Kingdom will have a minimum redemption amount of GBP 100,000 (or its equivalent in other currencies), unless such Notes may not be redeemed until on or after the first anniversary of their date of issue.

Application has been made to list Notes issued under the Programme on the official list of and to admit such Notes to trading on the Regulated Market of the Luxembourg Stock Exchange. Under the Programme Notes may also be issued which will not be listed on any Stock Exchange.

Issue Procedures

The Issuer and the relevant Dealer(s) will agree on the terms and conditions applicable to each Tranche of Notes (the "**Conditions**"). The Conditions will be constituted by the relevant set of Terms and Conditions set forth below as further specified by the provisions of the applicable Final Terms as provided below.

Options for sets of Terms and Conditions

A separate set of Terms and Conditions applies to each type of Notes, as set forth below. The Final Terms provide for the relevant Issuer to choose between the following Options:

- Option I: Terms and Conditions for Notes with fixed interest rates (Option I A as defined in "Incorporation by Reference / Documents on Display");
- Option II: Terms and Conditions for Notes with floating interest rates (Option II A and Option II B, each as defined in "Incorporation by Reference / Documents on Display").

With respect to Notes with fixed interest rates Option I A and with respect to Notes with floating interest rates, Option II A and Option II B are incorporated by reference into this Prospectus for the purpose of a potential increase of Notes outstanding and originally issued prior to the date of this Prospectus.

Documentation of the Conditions

The relevant Issuer may document the Conditions of an individual issue of Notes in either of the following ways:

- The Final Terms shall be completed as set out therein. The Final Terms shall determine which of the Option I or Option II, including certain further options contained therein, respectively, shall be applicable to the individual issue of Notes by replicating the relevant provisions and completing the relevant placeholders of the relevant set of Terms and Conditions as set out in the Prospectus in the Final Terms. The replicated and completed provisions of the set of Terms and Conditions shall constitute the Conditions, which will be attached to each global note representing the Notes of the relevant Tranche. This type of documentation of the Conditions will be required where the Notes are publicly offered, in whole or in part, or are to be initially distributed, in whole or in part, to non-qualified investors.
- Alternatively, the Final Terms shall determine which of Option I or Option II and of the respective further options contained in each of Option I and Option II are applicable to the individual issue by referring to the relevant provisions of the relevant set of Terms and Conditions as set out in the Prospectus only. The Final Terms will specify that the provisions of the Final Terms and the relevant set of Terms and Conditions as set out in the Prospectus, taken together, shall constitute the Conditions. Each global note representing a particular Tranche of Notes will have the Final Terms and the relevant set of Terms and Conditions as set out in the Prospectus attached.

Determination of Options / Completion of Placeholders

The Final Terms shall determine which of the Option I or Option II shall be applicable to the individual issue of Notes. Each of the sets of Terms and Conditions of Option I or Option II contains also certain further options (characterised by indicating the respective optional provision through instructions and explanatory notes set out either on the left of or in square brackets within the text of the relevant set of Terms and Conditions as set out in the Prospectus) as well as placeholders (characterised by square brackets which include the relevant items) which will be determined by the Final Terms as follows:

Determination of Options

The relevant Issuer will determine which options will be applicable to the individual issue either by replicating the relevant provisions in the Final Terms or by reference of the Final Terms to the respective sections of the relevant set of Terms and Conditions as set out in the Prospectus. If the Final Terms do not refer to an alternative or optional provision or such alternative or optional provision is not replicated therein it shall be deemed to be deleted from the Conditions.

Completion of Placeholders

The Final Terms will specify the information with which the placeholders in the relevant set of Terms and Conditions will be completed. In the case the provisions of the Final Terms and the relevant set of Terms and Conditions, taken together, shall constitute the Conditions the relevant set of Terms and Conditions shall be deemed to be completed by the information contained in the Final Terms as if such information were inserted

in the placeholders of such provisions.

All instructions and explanatory notes and text set out in square brackets in the relevant set of Terms and Conditions and any footnotes and explanatory text in the Final Terms will be deemed to be deleted from the Conditions.

Introduction

The Terms and Conditions of the Notes (the "**Terms and Conditions**") are set forth below for two options:

Option I comprises the set of Terms and Conditions that apply to Tranches of Notes with fixed interest rates.

Option II comprises the set of Terms and Conditions that apply to Tranches of Notes with floating interest rates.

The set of Terms and Conditions for each of these Options contains certain further options, which are characterised accordingly by indicating the respective optional provision through instructions and explanatory notes set out either on the left of or in square brackets within the set of Terms and Conditions.

In the Final Terms the Issuer will determine, which of the Option I or Option II including certain further options contained therein, respectively, shall apply with respect to an individual issue of Notes, either by replicating the relevant provisions or by referring to the relevant options.

To the extent that upon the approval of the Prospectus neither the Issuer nor the Guarantor had knowledge of certain items which are applicable to an individual issue of Notes, this Prospectus contains placeholders set out in square brackets which include the relevant items that will be completed by the Final Terms.

In the case the Final Terms applicable to an individual issue only refer to the further options contained in the set of Terms and Conditions for Option I or Option II, the following applies

[The provisions of the following Terms and Conditions apply to the Notes as completed by the final terms which are attached hereto (the "**Final Terms**"). The blanks in the provisions of these Terms and Conditions which are applicable to the Notes shall be deemed to be completed by the information contained in the Final Terms as if such information were inserted in the blanks of such provisions; alternative or optional provisions of these Terms and Conditions as to which the corresponding provisions of the Final Terms are not completed or are deleted shall be deemed to be deleted from these Terms and Conditions; and all provisions of these Terms and Conditions which are inapplicable to the Notes (including instructions, explanatory notes and texts set out in square brackets) shall be deemed to be deleted from these Terms and Conditions, as required to give effect to the terms of the Final Terms. Einführung

Die Anleihebedingungen für die Schuldverschreibungen (die "**Anleihebedingungen**") sind nachfolgend in zwei Optionen aufgeführt:

Option I umfasst den Satz der Anleihebedingungen, der auf Tranchen von Schuldverschreibungen mit fester Verzinsung Anwendung findet.

Option II umfasst den Satz der Anleihebedingungen, der auf Tranchen von Schuldverschreibungen mit variabler Verzinsung Anwendung findet.

Der Satz von Anleihebedingungen für jede dieser Optionen enthält bestimmte weitere Optionen, die entsprechend gekennzeichnet sind, indem die jeweilige optionale Bestimmung durch Instruktionen und Erklärungen entweder links von dem Satz der Anleihebedingungen oder in eckigen Klammern innerhalb des Satzes der Anleihebedingungen bezeichnet wird.

In den Endgültigen Bedingungen wird die Emittentin festlegen, welche der Option I oder Option II (einschließlich der jeweils enthaltenen bestimmten weiteren Optionen) für die einzelne Emission von Schuldverschreibungen Anwendung findet, indem entweder die betreffenden Angaben wiederholt werden oder auf die betreffenden Optionen verwiesen wird.

Soweit weder die Emittentin noch die Garantin zum Zeitpunkt der Billigung des Prospektes Kenntnis von bestimmten Angaben hatte, die auf eine einzelne Emission von Schuldverschreibungen anwendbar sind, enthält dieser Prospekt Leerstellen in eckigen Klammern, die die maßgeblichen durch die Endgültigen Bedingungen zu vervollständigenden Angaben enthalten.

Im Fall, dass die Endgültigen Bedingungen, die für eine einzelne Emission anwendbar sind, nur auf die weiteren Optionen verweisen, die im Satz der Anleihebedingungen der Option I oder Option II enthalten sind, ist folgendes anwendbar

Alternative oder wählbare Bestimmungen dieser Anleihebedingungen, deren Entsprechungen in den Endgültigen Bedingungen nicht ausdrücklich ausgefüllt oder die gestrichen sind, gelten als aus diesen Anleihebedingungen gestrichen. Sämtliche auf die Schuldverschreibungen nicht anwendbaren Bestimmungen dieser Anleihebedingungen (einschließlich der Anweisungen, Anmerkungen und der Texte in eckigen Klammern) gelten als insoweit aus diesen Anleihebedingungen gestrichen, wie dies erforderlich ist, um den Bestimmungen der Endgültigen Bedingungen Geltung zu verschaffen. Kopien der Endgültigen Bedingungen werden bei den bezeichneten Geschäftsstellen der Zahlstellen zur kostenlosen Ausgabe bereitgehalten. Soweit die Schuldverschreibungen nicht an einer Börse notiert sind, sind Kopien der Endgültigen Bedingungen allerdings ausschließlich für die Gläubiger solcher Schuldverschreibungen erhältlich.]

(1) *Währung und Nennbetrag.* Diese Serie der Schuldverschreibungen der [Deutsche Telekom AG] [Deutsche Telekom International Finance B.V.] (["**Deutsche Telekom**"] ["**Finance**"] oder die "**Emittentin**") wird in [festgelegte Währung] (die "**festgelegte**

Währung") im Gesamtnennbetrag von [Falls die Globalurkunde eine NGN ist, ist folgendes anwendbar: (vorbehaltlich § 1 Absatz 6)] [Gesamtnennbetrag] (in Worten: [Gesamtnennbetrag in Worten]) begeben und ist eingeteilt in [Anzahl der Schuldverschreibungen] Schuldverschreibungen im Nennbetrag von [festgelegter Nennbetrag] (der "festgelegte Nennbetrag").

(2) *Form und Eigentumsrecht.* Die Schuldverschreibungen lauten auf den Inhaber und sind durch eine Globalurkunde verbrieft. Die Übertragung des Eigentumsrechts an den Schuldverschreibungen erfolgt nach den Vorschriften des jeweils anwendbaren Rechts.

(3) *Vorläufige Globalurkunde - Austausch.*

(a) Die Schuldverschreibungen sind anfänglich in einer vorläufigen Globalurkunde (die "**vorläufige Globalurkunde**") ohne Zinsscheine verbrieft. Die vorläufige Globalurkunde wird, wie nachstehend bestimmt, gegen Schuldverschreibungen in dem festgelegten Nennbetrag, die durch eine Dauerglobalurkunde (die "**Dauerglobalurkunde**") ohne Zinsscheine verbrieft sind ausgetauscht. Einzelurkunden und Zinsscheine werden nicht ausgegeben.

(b) Die vorläufige Globalurkunde wird frühestens an einem Tag (der "**Austauschtag**") gegen eine Dauerglobalurkunde austauschbar, der 40 Tage nach dem Tag der Ausgabe der vorläufigen Globalurkunde liegt und zwar nach Vorlage von Bescheinigungen gemäß U.S. Steuerrecht durch den jeweiligen Kontoinhaber bei dem Clearing System sowie durch das Clearing System bei dem Fiscal Agent, in der Form von für diese Zwecke bei dem Fiscal Agent erhältlichen Formularen. Darin wird bescheinigt, dass der bzw. die wirtschaftlichen Eigentümer der durch die vorläufige Globalurkunde verbrieften Schuldverschreibungen keine U.S.-Personen sind, ausgenommen bestimmte Finanzinstitute oder bestimmte Personen, die Schuldverschreibungen über solche Finanzinstitute halten. Zinszahlungen auf durch eine vorläufige Globalurkunde verbrieft Schuldverschreibungen erfolgen erst nach Vorlage solcher Bescheinigungen. Eine gesonderte Bescheinigung ist für jede solche Zinszahlung erforderlich. Jede Bescheinigung, die am oder nach dem 40. Tag nach dem Tag der Ausgabe der durch die vorläufige Globalurkunde verbrieften Schuldverschreibungen eingeht, wird als ein Ersuchen behandelt werden, diese vorläufige Globalurkunde gemäß diesem Absatz (b) dieses § 1 Absatz 3 auszutauschen. Wertpapiere, die im Austausch für die vorläufige Globalurkunde geliefert werden, dürfen nur außerhalb der Vereinigten Staaten (wie in § 5 Absatz 1 definiert) geliefert werden. Dauerglobalurkunden, die im Austausch für die vorläufige Globalurkunde geliefert werden, werden ausschließlich außerhalb der Vereinigten Staaten (wie in § 5 Absatz 1 definiert) ausgeliefert.

(4) *Bei Austausch von Globalurkunden zahlbare Gebühren.* Der Austausch einer Globalurkunde gemäß diesem § 1 erfolgt für die Inhaber der Schuldverschreibungen kostenfrei.

(5) *Unterzeichnung der Schuldverschreibungen.* Die Globalurkunden sind namens der Emittentin durch zwei vertretungsberechtigte Personen der Emittentin zu unterschreiben. Sie tragen die Kontrollunterschrift des Fiscal Agent oder seines Beauftragten.

(6) *Clearing System.* Jede Schuldverschreibungen verbrieftende Globalurkunde wird von einem oder im Namen eines Clearing Systems verwahrt, bis sämtliche Verbindlichkeiten der Emittentin aus den Schuldverschreibungen erfüllt sind.

[(2) *Garantie und Negativverpflichtung der Garantin.* Die Garantin hat die unbedingte und unwiderrufliche Garantie (die "**Garantie**") für die ordnungsgemäße und pünktliche Zahlung von Kapital und Zinsen und sonstiger auf die Schuldverschreibungen zahlbarer Beträge übernommen. Die Garantin hat sich außerdem in einer Negativverpflichtung (die "**Negativverpflichtung**") verpflichtet, solange Schuldverschreibungen ausstehen, jedoch nur bis zu dem Zeitpunkt, an dem alle Beträge an Kapital und Zinsen dem Fiscal Agent zur Verfügung gestellt worden sind, weder ihr gegenwärtiges noch ihr zukünftiges Vermögen ganz oder teilweise in irgendeiner Weise zur Besicherung einer gegenwärtigen oder zukünftigen Kapitalmarktverbindlichkeit (wie vorstehend definiert), die von der Garantin oder einer anderen Person eingegangen oder gewährleistet ist, zu belasten oder eine solche Belastung zu diesem Zweck bestehen zu lassen, ohne gleichzeitig die Gläubiger an derselben Sicherheit im gleichen Rang und gleichem Verhältnis teilnehmen zu lassen. Die Garantie und die Negativverpflichtung stellen einen Vertrag zugunsten jedes Gläubigers als begünstigtem Dritten gemäß § 328 BGB dar, welcher das Recht jedes Gläubigers begründet, Erfüllung aus der Garantie und der Negativverpflichtung unmittelbar von der Garantin zu verlangen und die Garantie und die Negativverpflichtung unmittelbar gegen die Garantin durchzusetzen. Um etwaige Zweifel bezüglich von asset-backed financings der Garantin zu vermeiden, schließt das in diesem § 3 benutzte Wort "*Vermögen*" nicht solche Vermögensgegenstände der Garantin ein, die nach dem jeweils auf die Transaktion anwendbaren Zivilrecht ohne Rückgriffsmöglichkeiten veräußert sind. Kopien der Garantie und Negativverpflichtung werden bei den bezeichneten Geschäftsstellen der Zahlstellen zur kostenlosen Ausgabe bereitgehalten.]

§ 4 ZINSEN

(1) *Zinssatz und Zinszahlungstage.* Die Schuldverschreibungen werden in Höhe ihres Gesamtnennbetrages verzinst, und zwar vom **[Verzinsungsbeginn]** (einschließlich) bis zum Fälligkeitstag (wie in § 6 Absatz 1 definiert) (ausschließlich) mit jährlich **[Zinssatz]** %. Die Zinsen sind nachträglich am **[Festzinstermine]** eines jeden Jahres zahlbar (jeweils ein "Zinszahlungstag"). Die erste Zinszahlung erfolgt am **[erster Zinszahlungstag]** [sofern der erste Zinszahlungstag nicht der erste Jahrestag des Verzinsungsbeginns ist, ist folgendes anwendbar: und beläuft sich auf **[anfänglicher Bruchteilszinsbetrag je festgelegter Nennbetrag]** je festgelegtem Nennbetrag.] **[Sofern der Fälligkeitstag kein Festzinstermine ist, ist folgendes anwendbar:** Die Zinsen für den Zeitraum vom **[der letzte dem Fälligkeitstag vorausgehende Festzinstermine]** (einschließlich) bis zum Fälligkeitstag (ausschließlich) belaufen sich auf **[abschließender Bruchteilszinsbetrag je festgelegter Nennbetrag]** je festgelegtem Nennbetrag.]

(2) *Auflaufende Zinsen.* Der Zinslauf der Schuldverschreibungen endet mit Ablauf des Tages, der dem Tag vorangeht, an dem sie zur Rückzahlung fällig werden. Falls die Emittentin die Schuldverschreibungen bei Fälligkeit nicht einlöst, erfolgt die Verzinsung der Schuldverschreibungen vom Tag der Fälligkeit bis zu dem Tag, der dem Tag der tatsächlichen Rückzahlung der Schuldverschreibungen vorangeht, in Höhe des gesetzlich festgelegten Satzes für Verzugszinsen.¹

(3) *Berechnung der Zinsen für gebrochene Zeiträume.* Sofern Zinsen für einen Zeitraum von weniger als einem Jahr zu berechnen sind, erfolgt die Berechnung auf der Grundlage des Zinstagequotienten (wie nachstehend definiert).

(4) *Zinstagequotient.* "Zinstagequotient" bezeichnet im Hinblick auf die Berechnung eines Zinsbetrages auf eine Schuldverschreibung für einen beliebigen Zeitraum (der "Zinsberechnungszeitraum"):

Im Falle von Actual/Actual (ICMA Regelung 251) mit jährlichen Zinszahlungen (ausschließlich dem Fall eines ersten oder letzten kurzen oder langen Kupons) ist folgendes anwendbar

[die Anzahl von Tagen in dem Zinsberechnungszeitraum, geteilt durch die Anzahl der Tage in der Bezugsperiode, in die der Zinsberechnungszeitraum fällt.]

¹ Der gesetzliche Verzugszinssatz beträgt für das Jahr fünf Prozentpunkte über dem von der Deutsche Bundesbank von Zeit zu Zeit veröffentlichten Basiszinssatz, §§ 288 Absatz 1, 247 BGB.

Im Falle von Actual/Actual (ICMA Regelung 251) mit zwei oder mehr gleich bleibenden Zinsperioden (einschließlich dem Fall eines ersten oder letzten kurzen Kupons) innerhalb eines Zinsjahres ist folgendes anwendbar

[die Anzahl von Tagen in dem Zinsberechnungszeitraum, geteilt durch das Produkt aus (1) der Anzahl der Tage in der Bezugsperiode, in die der Zinsberechnungszeitraum fällt, und (2) der Anzahl von Zinszahlungstagen, die angenommen, dass Zinsen für das gesamte Jahr zu zahlen wären in ein Kalenderjahr fallen oder fallen würden.]

Im Fall von Actual/Actual (ICMA Regelung 251) und wenn der Zins-berechnungszeit-raum länger ist als eine Bezugs-periode (langer Kupon) ist folgendes anwendbar

[die Summe aus:

- (a) der Anzahl von Tagen in dem Zinsberechnungszeitraum, die in die Bezugsperiode fallen, in welcher der Zinsberechnungszeitraum beginnt, geteilt durch **[Im Fall von Bezugsperioden, die kürzer sind als ein Jahr, ist folgendes anwendbar:** das Produkt aus (x)] [die] [der] Anzahl der Tage in dieser Bezugsperiode **[Im Fall von Bezugsperioden, die kürzer sind als ein Jahr, ist folgendes anwendbar:** und (y) der Anzahl von Bezugsperioden, die in ein Kalenderjahr fallen oder fallen würden, falls Zinsen für das gesamte Jahr zu zahlen wären]; und
- (b) der Anzahl von Tagen in dem Zinsberechnungszeitraum, die in die nächste Bezugsperiode fallen, geteilt durch **[Im Fall von Bezugsperioden, die kürzer sind als ein Jahr, ist folgendes anwendbar:** das Produkt aus (x)] [die] [der] Anzahl der Tage in dieser Bezugsperiode **[Im Fall von Bezugsperioden, die kürzer sind als ein Jahr, ist folgendes anwendbar:** und (y) der Anzahl von Bezugsperioden, die in ein Kalenderjahr fallen oder fallen würden, falls Zinsen für das gesamte Jahr zu zahlen wären].]

Folgendes gilt für alle Optionen von Actual/Actual (ICMA) anwendbar außer Option Actual/Actual (ICMA Regelung 251) mit jährlichen Zinszahlungen (ausschließlich dem Fall eines ersten oder letzten kurzen oder langen Kupons)

["Bezugsperiode" bezeichnet den Zeitraum ab dem Verzinsungsbeginn (einschließlich) bis zum ersten Zinszahlungstag (ausschließlich) oder von jedem Zinszahlungstag (einschließlich) bis zum nächsten Zinszahlungstag (ausschließlich). **[Im Fall eines ersten oder letzten kurzen Zinsberechnungszeitraumes ist folgendes anwendbar:** Zum Zwecke der Bestimmung der maßgeblichen Bezugsperiode gilt der **[Fiktive Zinszahlungstag]** als Zinszahlungstag.] **[Im Fall eines ersten oder letzten langen Zinsberechnungszeitraumes ist folgendes anwendbar:** Zum Zwecke der Bestimmung der maßgeblichen Bezugsperiode gelten der **[Fiktiver Zinszahlungstag]** als Zinszahlungstage.]]

Im Falle von 30/360, 360/360 oder Bond Basis ist folgendes anwenbar

[die Anzahl von Tagen im Zinsberechnungszeitraum dividiert durch 360, wobei die Anzahl der Tage auf der Grundlage eines Jahres von 360 Tagen mit zwölf Monaten zu je 30 Tagen zu ermitteln ist (es sei denn, (A) der letzte Tag des Zinsberechnungszeitraumes fällt auf den 31. Tag eines Monats, während der erste Tag des Zinsberechnungszeitraumes weder auf den 30. noch den 31. Tag eines Monats fällt, in welchem Fall der diesen Tag enthaltende Monat nicht als ein auf 30 Tage gekürzter Monat zu behandeln ist, oder (B) der letzte Tag des Zinsberechnungszeitraumes fällt auf den letzten Tag des Monats Februar, in welchem Fall der Monat Februar nicht als ein auf 30 Tage verlängerter Monat zu behandeln ist).]

Im Falle von 30E/360 oder Eurobond Basis ist folgendes

[die Anzahl der Tage im Zinsberechnungszeitraum dividiert durch 360 (dabei ist die Anzahl der Tage auf der Grundlage eines Jahres von 360 Tagen mit 12 Monaten zu 30 Tagen zu ermitteln, und zwar ohne Berücksichtigung des ersten oder letzten

anwendbar

Tages des Zinsberechnungszeitraumes).]

- (d) die Emittentin ihre Zahlungsunfähigkeit bekannt gibt oder ihre Zahlungen einstellt, oder
- (e) ein Gericht ein Insolvenzverfahren gegen die Emittentin eröffnet, oder die Emittentin ein solches Verfahren einleitet oder beantragt, oder
- (f) die Emittentin in Liquidation tritt, es sei denn, dies geschieht im Zusammenhang mit einer Verschmelzung oder einer anderen Form des Zusammenschlusses mit einer anderen Gesellschaft und diese Gesellschaft übernimmt alle Verpflichtungen, die die Emittentin im Zusammenhang mit diesen Schuldverschreibungen eingegangen ist, oder

- (d) die Emittentin oder die Garantin ihre Zahlungsunfähigkeit bekannt gibt oder ihre Zahlungen einstellt, oder
- (e) ein Gericht ein Insolvenzverfahren gegen die Emittentin oder die Garantin eröffnet, oder die Emittentin oder die Garantin ein solches Verfahren einleitet oder beantragt, oder die Emittentin ein "*surseance van betaling*" (Schuldenmoratorium im Sinne des niederländischen Insolvenzrechts) beantragt, oder

OPTION II – Anleihebedingungen für Schuldverschreibungen mit variabler Verzinsung

ANLEIHEBEDINGUNGEN DER SCHULDVERSCHREIBUNGEN

(German Language Version)

§ 1

**WÄHRUNG, NENNBETRAG, FORM UND EIGENTUMSRECHT
BESTIMMTE DEFINITIONEN**

(1) *Währung und Nennbetrag.* Diese Serie der Schuldverschreibungen der [Deutsche Telekom AG] [Deutsche Telekom International Finance B.V.] (**"Deutsche Telekom"**) [**"Finance"**] oder die **"Emittentin"**) wird in **[festgelegte Währung]** (die **"festgelegte Währung"**) im Gesamtnennbetrag von **[Falls die Globalurkunde eine NGN ist, ist folgendes anwendbar: (vorbehaltlich § 1 Absatz 6)] [Gesamtnennbetrag]** (in Worten: **[Gesamtnennbetrag in Worten]**) begeben und ist eingeteilt in **[Anzahl der Schuldverschreibungen]** Schuldverschreibungen im Nennbetrag von **[festgelegter Nennbetrag]** (der **"festgelegte Nennbetrag"**).

(2) *Form und Eigentumsrecht.* Die Schuldverschreibungen lauten auf den Inhaber und sind durch eine Globalurkunde verbrieft. Die Übertragung des Eigentumsrechts an den Schuldverschreibungen erfolgt nach den Vorschriften des jeweils anwendbaren Rechts.

(3) *Vorläufige Globalurkunde - Austausch.*

(a) Die Schuldverschreibungen sind anfänglich in einer vorläufigen Globalurkunde (die **"vorläufige Globalurkunde"**) ohne Zinsscheine verbrieft. Die vorläufige Globalurkunde wird, wie nachstehend bestimmt, gegen Schuldverschreibungen in dem festgelegten Nennbetrag, die durch eine Dauerglobalurkunde (die **"Dauerglobalurkunde"**) ohne Zinsscheine verbrieft sind ausgetauscht. Einzelurkunden und Zinsscheine werden nicht ausgeben.

(b) Die vorläufige Globalurkunde wird frühestens an einem Tag (der **"Austauschtag"**) gegen eine Dauerglobalurkunde austauschbar, der 40 Tage nach dem Tag der Ausgabe der vorläufigen Globalurkunde liegt und zwar nach Vorlage von Bescheinigungen gemäß U.S. Steuerrecht durch den jeweiligen Kontoinhaber bei dem Clearing System sowie durch das Clearing System bei dem Fiscal Agent, in der Form von für diese Zwecke bei dem Fiscal Agent erhältlichen Formularen. Darin wird bescheinigt, dass der bzw. die wirtschaftlichen Eigentümer der durch die vorläufige Globalurkunde verbrieften Schuldverschreibungen keine U.S.-Personen sind, ausgenommen bestimmte Finanzinstitute oder bestimmte Personen, die Schuldverschreibungen über solche Finanzinstitute halten. Zinszahlungen auf durch eine vorläufige Globalurkunde verbrieft Schuldverschreibungen erfolgen erst nach Vorlage solcher Bescheinigungen. Eine gesonderte Bescheinigung ist für jede solche Zinszahlung erforderlich. Jede Bescheinigung, die am oder nach dem 40. Tag nach dem Tag der Ausgabe der durch die vorläufige Globalurkunde verbrieften Schuldverschreibungen eingeht, wird als ein Ersuchen behandelt werden, diese vorläufige Globalurkunde gemäß diesem Absatz (b) dieses § 1 Absatz 3 auszutauschen. Wertpapiere, die im Austausch für die vorläufige Globalurkunde geliefert werden, dürfen nur außerhalb der Vereinigten Staaten (wie in § 5 Absatz 1 definiert) geliefert werden. Dauerglobalurkunden, die im Austausch für die vorläufige Globalurkunde geliefert werden, werden ausschließlich außerhalb der Vereinigten Staaten (wie in § 5 Absatz 1 definiert) ausgeliefert.

(4) *Bei Austausch von Globalurkunden zahlbare Gebühren.* Der Austausch einer Globalurkunde gemäß diesem § 1 erfolgt für die Inhaber der Schuldverschreibungen kostenfrei.

(5) *Unterzeichnung der Schuldverschreibungen.* Die Globalurkunden sind namens der Emittentin durch zwei vertretungsberechtigte Personen der Emittentin zu unterschreiben. Sie tragen die Kontrollunterschrift des Fiscal Agent oder seines Beauftragten.

(6) *Clearing System.* Jede Schuldverschreibungen verbrieftende Globalurkunde wird

von einem oder im Namen eines Clearing Systems verwahrt, bis sämtliche Verbindlichkeiten der Emittentin aus den Schuldverschreibungen erfüllt sind.

"Clearing System" bedeutet **[Bei mehr als einem Clearing System ist folgendes anwendbar: sowohl]** [Clearstream Banking AG, Neue Börsenstraße 1, 60487 Frankfurt am Main, Bundesrepublik Deutschland ("**CBF**")][.]**[als auch]** [Clearstream Banking, société anonyme, 42 Avenue JF Kennedy, 1855 Luxembourg, Großherzogtum Luxemburg ("**CBL**")], Euroclear Bank SA/NV, Boulevard du Roi Albert II, 1210 Brüssel, Belgien ("**Euroclear**") (CBL and Euroclear jeweils ein "**ICSD**" und zusammen die "**ICSDs**")] und jeder Funktionsnachfolger.

Im Fall von Schuldverschreibungen, die im Namen der ICSDs verwahrt werden, und die Globalurkunde eine NGN ist, ist folgendes anwendbar

[Die Schuldverschreibungen werden in Form einer new global note ("**NGN**") ausgegeben und von einem common safekeeper im Namen beider ICSDs verwahrt.

Der Gesamtnennbetrag der durch die Globalurkunde verbrieften Schuldverschreibungen entspricht dem jeweils in den Registern beider ICSDs eingetragenen Gesamtbetrag. Die Register der ICSDs (unter denen man die Register versteht, die jeder ICSD für seine Kunden über den Betrag ihres Anteils an den Schuldverschreibungen führt) sind maßgeblicher Nachweis über den Gesamtnennbetrag der durch die Globalurkunde verbrieften Schuldverschreibungen, und ein zu diesen Zwecken von einem ICSD jeweils ausgestellte Bescheinigung mit dem Betrag der so verbrieften Schuldverschreibungen ist ein maßgeblicher Nachweis über den Inhalt des Registers des jeweiligen ICSD zu diesem Zeitpunkt.

Bei Rückzahlung oder einer Zinszahlung bezüglich der durch die Globalurkunde verbrieften Schuldverschreibungen bzw. bei Kauf und Entwertung der durch die Globalurkunde verbrieften Schuldverschreibungen stellt die Emittentin sicher, dass die Einzelheiten über Rückzahlung und Zahlung bzw. Kauf und Löschung bezüglich der Globalurkunde *pro rata* in die Unterlagen der ICSDs eingetragen werden, und dass, nach dieser Eintragung, vom Gesamtnennbetrag der in die Register der ICSDs aufgenommenen und durch die Globalurkunde verbrieften Schuldverschreibungen der Gesamtnennbetrag der zurückgekauften bzw. gekauften und entwerteten Schuldverschreibungen abgezogen wird.]

[Falls die vorläufige Globalurkunde eine NGN ist, ist folgendes anwendbar: Bei Austausch eines Anteils von ausschließlich durch eine vorläufige Globalurkunde verbrieften Schuldverschreibungen wird die Emittentin sicherstellen, dass die Einzelheiten dieses Austauschs *pro rata* in die Aufzeichnungen der ICSDs aufgenommen werden.]

Im Fall von Schuldverschreibungen, die im Namen der ICSDs verwahrt werden, und die Globalurkunde eine CGN ist, ist folgendes anwendbar

[Die Schuldverschreibungen werden in Form einer classical global note ("**CGN**") ausgegeben und von einer gemeinsamen Verwahrstelle im Namen beider ICSDs verwahrt.]

(7) *Bestimmte Definitionen.* In diesen Anleihebedingungen bedeutet:

"Globalurkunde" die vorläufige Globalurkunde oder Dauerglobalurkunde.

"Gläubiger" in Bezug auf die bei einem Clearing System oder einem sonstigen zentralen Wertpapierverwahrer hinterlegten Schuldverschreibungen der Inhaber eines Miteigentumsanteils oder anderen Rechts an den hinterlegten Schuldverschreibungen, und andernfalls der Inhaber einer Schuldverschreibung.

"Zahlstelle" den Fiscal Agent in seiner Eigenschaft als Zahlstelle handelnd durch ihre nachstehend in § 7 bezeichnete Geschäftsstelle, die in § 7 genannte(n) Zahlstelle(n) oder eine gemäß § 7 ernannte Ersatz- oder weitere Zahlstelle.

Bezugnahmen in diesen Anleihebedingungen auf die "*Schuldverschreibungen*" beziehen sich auf die Schuldverschreibungen dieser Serie und schließen, wenn der Zusammenhang dies erfordert, Globalurkunden ein.

Falls § 12 über Änderung der Anleihebedingungen und den Gemeinsamen Vertreter gilt, ist folgendes anwendbar

Bezugnahmen auf die "festgelegte Währung" schließen jede Nachfolge-Währung ein, die entweder durch Gesetz in dem Hoheitsgebiet, in dem die festgelegte Währung ausgegeben wird, oder durch eine zwischen-staatliche Vereinbarung eingeführt wird (die "**Nachfolgewährung**"), sofern Zahlungen in der ursprünglichen Währung nicht mehr als zulässiges Zahlungsmittel für Zahlungen der Emittentin hinsichtlich der Schuldverschreibungen [**Bei von Finance begebenen Schuldverschreibungen ist folgendes anwendbar:** bzw. für Zahlungen der Garantin hinsichtlich der Garantie] gelten.

[(8) *In Bezug genommene Bedingungen.* Die Bestimmungen gemäß Schedule 5 des Geänderten und Neu Gefassten Emissions- und Zahlstellenvertrages vom 14. Mai 2018 (das "**Agency Agreement**") zwischen Deutsche Telekom AG, Deutsche Telekom International Finance B.V. und Deutsche Bank Aktiengesellschaft als Fiscal Agent und Zahlstelle (einsehbar unter www.bourse.lu) die überwiegend das für Gläubigerversammlungen oder Abstimmungen der Gläubiger ohne Versammlung zu wahrende Verfahren betreffen, sind in vollem Umfang durch diese Anleihebedingungen in Bezug genommen.]

§ 2 STATUS

Die Schuldverschreibungen begründen nicht besicherte und nicht nachrangige Verbindlichkeiten der Emittentin, die untereinander und mit allen anderen nicht besicherten und nicht nachrangigen Verbindlichkeiten der Emittentin gleichrangig sind.

§ 3 NEGATIVVERPFLICHTUNG DER EMITTENTIN

[**Im Falle von Schuldverschreibungen, die von Finance begeben werden ist folgendes anwendbar, GARANTIE UND NEGATIVVERPFLICHTUNG DER GARANTIN]**

[(1)] *Negativverpflichtung.* Die Emittentin verpflichtet sich, solange Schuldverschreibungen ausstehen, jedoch nur bis zu dem Zeitpunkt, an dem alle Beträge an Kapital und Zinsen dem Fiscal Agent zur Verfügung gestellt worden sind, weder ihr gegenwärtiges noch ihr zukünftiges Vermögen ganz oder teilweise in irgendeiner Weise zur Besicherung einer gegenwärtigen oder zukünftigen Kapitalmarktverbindlichkeit, die von der Emittentin oder einer anderen Person eingegangen oder gewährleistet ist, zu belasten oder eine solche Belastung zu diesem Zweck bestehen zu lassen, ohne gleichzeitig die Gläubiger an derselben Sicherheit im gleichen Rang und gleichen Verhältnis teilnehmen zu lassen. "**Kapitalmarktverbindlichkeit**" ist jede Verbindlichkeit zur Zahlung aufgenommener Gelder, die durch Schuldscheine verbrieft, verkörpert oder dokumentiert ist oder durch Schuldverschreibungen oder sonstige Wertpapiere, die an einer Börse oder an einem anderen anerkannten Wertpapiermarkt notiert oder gehandelt werden oder werden können. Um etwaige Zweifel bezüglich von asset-backed financings der Emittentin zu vermeiden, schließt das in diesem § 3 benutzte Wort "*Vermögen*" nicht solche Vermögensgegenstände der Emittentin ein, die nach dem jeweils auf die Transaktion anwendbaren Zivilrecht ohne Rückgriffsmöglichkeiten veräußert sind.

Die Garantin hat sich außerdem in einer Negativverpflichtung (die "**Negativverpflichtung**") verpflichtet, solange Schuldverschreibungen ausstehen, jedoch nur bis zu dem Zeitpunkt, an dem alle Beträge an Kapital und Zinsen dem Fiscal Agent zur Verfügung gestellt worden sind, weder ihr gegenwärtiges noch ihr zukünftiges Vermögen ganz oder teilweise in irgendeiner Weise zur Besicherung einer gegenwärtigen oder zukünftigen Kapitalmarktverbindlichkeit (wie vorstehend definiert), die von der Garantin oder einer anderen Person eingegangen oder gewährleistet ist, zu belasten oder eine solche Belastung zu diesem Zweck bestehen zu lassen, ohne gleichzeitig die Gläubiger an derselben Sicherheit im gleichen Rang und gleichem Verhältnis teilnehmen zu lassen. Die Garantie und die Negativverpflichtung stellen einen Vertrag

zugunsten jedes Gläubigers als begünstigtem Dritten gemäß § 328 BGB dar, welcher das Recht jedes Gläubigers begründet, Erfüllung aus der Garantie und der Negativverpflichtung unmittelbar von der Garantin zu verlangen und die Garantie und die Negativverpflichtung unmittelbar gegen die Garantin durchzusetzen. Um etwaige Zweifel bezüglich von asset-backed financings der Garantin zu vermeiden, schließt das in diesem § 3 benutzte Wort "*Vermögen*" nicht solche Vermögensgegenstände der Garantin ein, die nach dem jeweils auf die Transaktion anwendbaren Zivilrecht ohne Rückgriffsmöglichkeiten veräußert sind. Kopien der Garantie und Negativverpflichtung werden bei den bezeichneten Geschäftsstellen der Zahlstellen zur kostenlosen Ausgabe bereitgehalten.]

- (h) die Garantie aus irgendeinem Grund nicht mehr gilt.

Das Kündigungsrecht erlischt, falls der Kündigungsgrund vor Ausübung des Rechts geheilt wurde.

(2) *Quorum*. In den Fällen des § 10 Absatz 1 (b) oder 1 (c) wird eine Kündigung, sofern nicht bei deren Eingang zugleich einer der in § 10 Absatz 1(a), 1(d), 1(e), 1(f), 1(g) oder 1(h) bezeichneten Kündigungsgründe vorliegt, erst wirksam, wenn bei dem Fiscal Agent Kündigungserklärungen von Gläubigern von Schuldverschreibungen im Gesamtnennbetrag von mindestens $\frac{1}{10}$ der dann ausstehenden Schuldverschreibungen eingegangen sind.

Guarantee

and

Negative Pledge

of

DEUTSCHE TELEKOM AG

Bonn, Federal Republic of Germany,

for the benefit of the Holders of Notes (the "**Notes**")

issued by

Deutsche Telekom International Finance B.V.

(incorporated with limited liability in The Netherlands)

under the Debt Issuance Programme (the "**Programme**")

as in force from time to time

WHEREAS:

(A) Deutsche Telekom AG (the "**Guarantor**") and Deutsche Telekom International Finance B.V. ("**Finance**") intend to issue from time to time Notes under the Programme;

(B) the Guarantor wishes to guarantee the payment of principal and interest and any other amounts payable in respect of any and all Notes that may be issued by Finance under the Programme;

(C) the Guarantor wishes to enter into a negative pledge for the benefit of each Holder of Notes that may be issued by Finance under the Programme;

IT IS AGREED AS FOLLOWS:

- (1) (a) The Guarantor unconditionally and irrevocably guarantees to the holder of each Note (which expression shall include any Temporary Global Note or Permanent Global Note representing Notes) (each a "**Holder**"), now or at any time hereafter issued by Finance under the Programme, the due and punctual payment of the principal of, and interest on, the Notes and any other amounts which may be expressed to be payable under any Note in accordance with the Terms and Conditions, as and when the same shall become due in accordance with the Terms and Conditions.
- (b) This Guarantee constitutes an unconditional, unsecured and unsubordinated obligation of the Guarantor and ranks *pari passu* with all other unsecured and unsubordinated obligations of the Guarantor from time to time outstanding.
- (c) All payments under this Guarantee shall be made without deduction or withholding for or on account of any present or future taxes, duties or governmental charges of any nature whatsoever imposed, levied or collected by or in or on behalf of the Federal Republic of Germany or by or on behalf of any political subdivision or authority therein having power to tax (hereinafter together called "**Withholding Taxes**"), unless such deduction or withholding is required by law. In such event, the Guarantor shall pay such additional amounts as may be necessary in order that the net amounts received by the Holder after such deduction or withholding shall equal the respective amounts of principal and interest which would have been receivable had no such deduction or withholding been required. No such additional amounts shall, however, be payable on account of any taxes, duties or governmental charges which
 - (i) are payable by any person acting as custodian bank or collecting agent on behalf of a Holder, or otherwise in any manner which does not constitute a deduction or withholding by the Guarantor from payments made by it; or
 - (ii) are payable by reason of the Holder having, or having had, some personal or business connection with the Federal Republic of Germany and not merely by reason of the fact that payments in respect of the Notes are, or for purposes of taxation are deemed to be, derived from sources in, or are secured in the Federal Republic of Germany; or

- (iii) are deducted or withheld pursuant to (x) any European Union directive or regulation concerning the taxation of interest income, or (y) any international treaty or understanding relating to such taxation and to which the Federal Republic of Germany or the European Union is a party, or (z) any provision of law implementing, or complying with, or introduced to conform with such directive, regulation, treaty or understanding; or
 - (iv) are payable by reason of a change in law that becomes effective more than 30 days after the relevant payment of principal or interest becomes due, or is duly provided for and notice thereof is published in accordance with the Terms and Conditions whichever occurs later.
- (d) The obligations of the Guarantor under this Guarantee (i) shall be separate and independent from the obligations of Finance under the Notes, (ii) shall exist irrespective of the legality, validity and binding effect or enforceability of the Notes, and (iii) shall not be affected by any event, condition or circumstance of whatever nature, whether factual or legal, save the full, definitive and irrevocable satisfaction of any and all payment obligations expressed to be assumed under the Notes.
 - (e) The obligations of the Guarantor under this Guarantee shall, without any further act or thing being required to be done or to occur, extend to the obligations of any Substituted Debtor which is not the Guarantor arising in respect of any Note by virtue of a substitution pursuant to the Terms and Conditions.
 - (f) This Guarantee is given in respect of any and all Notes which are or will be issued by Finance under the Programme on or after the date hereof. The Guarantee dated 31 October 1997 extends to any and all Notes which have been issued by Finance during the period beginning on 31 October 1997 through 9 November 1999. The Guarantee dated 10 November 1999 extends to any and all Notes which have been issued by Finance during the period beginning on 10 November 1999 through 5 June 2001. The Guarantee dated 6 June 2001 extends to any and all Notes which have been issued by Finance on or after 6 June 2001 and prior to the date hereof. The Guarantee dated 1 September 2005 extends to any and all Notes which have been issued by Finance on or after 1 September 2005 and prior to the date hereof. The Guarantee dated 30 April 2014 extends to any and all Notes which have been issued by Finance on or after 30 April 2014 and prior to the date hereof.

(2) The Guarantor undertakes towards each Holder, so long as any of the Notes remains outstanding, but only up to the time all amounts of principal and interest have been placed at the disposal of the Fiscal Agent, not to grant or permit to subsist any encumbrance over any or all of its present or future assets, as security of any present or future Capital Market Indebtedness issued or guaranteed by the Guarantor or by any other person, without at the same time having the Holders share equally and rateably in such security. "**Capital Market Indebtedness**" means any obligation for the payment of borrowed money which is in the form of, or represented or evidenced by, a certificate of indebtedness or in the form of, or represented or evidenced by, bonds, notes or other securities which are, or are capable of being, quoted, listed, dealt in or traded on a stock exchange or other recognised securities market. For the purposes of avoiding any doubt in respect of asset-backed financings originated by the Guarantor, the expression "*assets*" as used in this subparagraph (2) does not include assets of the Guarantor that are sold on a non-recourse basis determined in accordance with the civil law applicable to such transaction.

(3) This Agreement and all undertakings herein contained constitute a contract for the benefit of the Holders from time to time as third party beneficiaries pursuant to § 328 (1) of the German Civil Code. They give rise to the right of each such Holder to require performance of the obligations undertaken herein directly from the Guarantor and to enforce such obligations directly against the Guarantor.

(4) Deutsche Bank Aktiengesellschaft does not act as fiduciary or in any similar capacity for the Holders.

(5) Terms used in this Agreement and not otherwise defined herein shall have the meanings attributed to them in the Terms and Conditions.

(6) This Agreement shall be governed by, and construed in accordance with, German law.

(7) This Agreement is written in the English language and attached hereto is a non-binding German language translation.

(8) The original version of this Agreement shall be delivered to, and kept by, Deutsche Bank Aktiengesellschaft.

(9) The place of jurisdiction for all legal proceedings arising out of or in connection with this Agreement shall be Frankfurt am Main. Each Holder, however, may pursue his claims also before any other court of competent jurisdiction.

(10) Each Holder may in any legal proceedings against the Guarantor or to which such Holder and the Guarantor are parties protect and enforce in his own name his rights arising under this Agreement on the basis of a copy of this Agreement certified as being a true copy by a duly authorised officer of Deutsche Bank Aktiengesellschaft, without the need for production in such proceedings of this Guarantee.

Garantie
und
Negativverpflichtung
der
DEUTSCHE TELEKOM AG
Bonn, Bundesrepublik Deutschland,
zugunsten der Gläubiger von Schuldverschreibungen (die "**Schuldverschreibungen**"),
die von der
Deutsche Telekom International Finance B.V.
(einer mit beschränkter Haftung in den Niederlanden errichteten Gesellschaft)
im Rahmen des Debt Issuance Programme (das "**Programm**")
in seiner jeweils geltenden Fassung begeben werden.

IM HINBLICK DARAUF DASS:

(A) Deutsche Telekom AG (die "**Garantin**") und Deutsche Telekom International Finance B.V. ("**Finance**") beabsichtigt, von Zeit zu Zeit Schuldverschreibungen im Rahmen des Programms zu begeben;

(B) die Garantin die Zahlung von Kapital und Zinsen sowie von allen sonstigen Beträgen, die aufgrund der von Finance im Rahmen des Programms begebenen Schuldverschreibungen zu leisten sind, garantieren möchte;

(C) die Garantin gegenüber jedem Gläubiger der von Finance im Rahmen des Programms begebenen Schuldverschreibungen eine Negativverpflichtung eingehen möchte;

WIRD FOLGENDES VEREINBART:

- (1) (a) Die Garantin übernimmt gegenüber jedem Gläubiger ("**Gläubiger**") der Schuldverschreibungen (wobei dieser Begriff jede vorläufige oder Dauerglobalurkunde, die Schuldverschreibungen verbrieft, einschließt), die jetzt oder zu irgendeinem Zeitpunkt nach dem Datum dieser Garantie von Finance im Rahmen des Programms begeben werden, die unbedingte und unwiderrufliche Garantie für die ordnungsgemäße und pünktliche Zahlung von Kapital und Zinsen auf die Schuldverschreibungen sowie von allen sonstigen Beträgen, die gemäß den Anleihebedingungen auf Schuldverschreibungen zahlbar sind, bei deren Fälligkeit gemäß den Anleihebedingungen.
- (b) Diese Garantie begründet eine unbedingte, unbesicherte und nicht nachrangige Verbindlichkeit der Garantin, die mit allen anderen jeweils bestehenden, nicht besicherten und nicht nachrangigen Verbindlichkeiten der Garantin gleichrangig ist.
- (c) Sämtliche Zahlungen aufgrund dieser Garantie sind ohne Abzug oder Einbehalt wegen gegenwärtiger oder zukünftiger Steuern, Abgaben oder amtlicher Gebühren gleich welcher Art zu leisten, die von oder in der Bundesrepublik Deutschland oder für deren Rechnung oder von oder für Rechnung einer dort zur Steuererhebung ermächtigten Gebietskörperschaft oder Behörde auferlegt, erhoben oder eingezogen werden (nachstehend zusammen "**Quellensteuern**" genannt), es sei denn, ein solcher Abzug oder Einbehalt ist gesetzlich vorgeschrieben. In diesem letzteren Fall wird die Garantin die zusätzlichen Beträge zahlen, die erforderlich sind, damit der dem Gläubiger nach diesem Abzug oder Einbehalt zufließende Nettobetrag jeweils den Beträgen an Kapital und Zinsen entspricht, die ihm zustehen würden, wenn der Abzug oder Einbehalt nicht erforderlich wäre. Solche zusätzlichen Beträge sind jedoch nicht zahlbar wegen Steuern, Abgaben oder amtlicher Gebühren, die
- (i) von einer als Depotbank oder Inkassobeauftragter des Gläubigers handelnden Person oder sonst auf andere Weise zu entrichten sind als dadurch, dass die Garantin aus den von ihr zu leistenden Zahlungen einen Abzug oder Einbehalt vornimmt; oder

- (ii) wegen gegenwärtiger oder früherer persönlicher oder geschäftlicher Beziehungen des Gläubigers zu der Bundesrepublik Deutschland zu zahlen sind, und nicht allein deshalb, weil Zahlungen auf die Schuldverschreibungen aus Quellen in der Bundesrepublik Deutschland stammen (oder für Zwecke der Besteuerung so behandelt werden) oder dort besichert sind; oder
 - (iii) aufgrund (x) einer Richtlinie oder Verordnung der Europäischen Union betreffend die Besteuerung von Zinserträgen oder (y) einer zwischenstaatlichen Vereinbarung über deren Besteuerung, an der die Bundesrepublik Deutschland oder die Europäische Union beteiligt ist, oder (z) einer gesetzlichen Vorschrift, die diese Richtlinie, Verordnung oder Vereinbarung umsetzt oder befolgt, abzuziehen oder einzubehalten sind; oder
 - (iv) aufgrund einer Rechtsänderung zahlbar sind, die später als 30 Tage nach Fälligkeit der betreffenden Zahlung von Kapital oder Zinsen oder, wenn dies später erfolgt, ordnungsgemäßer Bereitstellung aller fälligen Beträge und einer diesbezüglichen Bekanntmachung gemäß den Anleihebedingungen wirksam wird.
- (d) Die Verpflichtungen der Garantin aus dieser Garantie (i) sind selbständig und unabhängig von den Verpflichtungen der Finance aus den Schuldverschreibungen (ii) bestehen unabhängig von der Rechtmäßigkeit, Gültigkeit, Verbindlichkeit und Durchsetzbarkeit der Schuldverschreibungen und (iii) werden nicht durch Ereignisse, Bedingungen oder Umstände tatsächlicher oder rechtlicher Art berührt, außer durch die vollständige, endgültige und unwiderrufliche Erfüllung sämtlicher in den Schuldverschreibungen eingegangenen Zahlungsverpflichtungen.
- (e) Die Verpflichtungen der Garantin aus dieser Garantie erstrecken sich, ohne dass eine weitere Handlung vorgenommen wird oder ein weiterer Umstand eintreten muss, auf die Verpflichtungen einer nicht mit der Garantin identischen Nachfolgeschuldnerin, die infolge einer Schuldnerersetzung gemäß den Anleihebedingungen in Bezug auf die Schuldverschreibungen entstehen.
- (f) Diese Garantie erstreckt sich auf sämtliche Schuldverschreibungen, die am oder nach dem Datum dieser Garantie von Finance unter dem Programm begeben werden. Die Garantie mit Datum vom 31. Oktober 1997 gilt für sämtliche Schuldverschreibungen, die von Finance in der Zeit vom 31. Oktober 1997 bis zum 9. November 1999 begeben worden sind. Die Garantie mit Datum vom 10. November 1999 gilt für sämtliche Schuldverschreibungen, die von Finance in der Zeit vom 10. November 1999 bis zum 5. Juni 2001 begeben worden sind. Die Garantie mit Datum vom 6. Juni 2001 gilt für sämtliche Schuldverschreibungen, die von Finance am oder nach dem 6. Juni 2001 und vor dem Datum dieser Garantie begeben worden sind. Die Garantie mit Datum vom 1. September 2005 gilt für sämtliche Schuldverschreibungen, die von Finance am oder nach dem 1. September 2005 und vor dem Datum dieser Garantie begeben worden sind. Die Garantie mit Datum vom 30. April 2014 gilt für sämtliche Schuldverschreibungen, die von Finance am oder nach dem 30. April 2014 und vor dem Datum dieser Garantie begeben worden sind.

(2) Die Garantin verpflichtet sich gegenüber jedem Gläubiger, solange Schuldverschreibungen ausstehen, jedoch nur bis zu dem Zeitpunkt, an dem alle Beträge an Kapital und Zinsen dem Fiscal Agent zur Verfügung gestellt worden sind, weder ihr gegenwärtiges noch ihr zukünftiges Vermögen ganz oder teilweise in irgendeiner Weise zur Besicherung einer gegenwärtigen oder zukünftigen Kapitalmarktverbindlichkeit, die von der Garantin oder einer anderen Person eingegangen oder gewährleistet ist, zu belasten oder eine solche Belastung zu diesem Zweck bestehen zu lassen, ohne gleichzeitig die Gläubiger an derselben Sicherheit im gleichen Rang und gleichem Verhältnis teilnehmen zu lassen. **"Kapitalmarktverbindlichkeit"** ist jede Verbindlichkeit zur Zahlung aufgenommener Gelder, die durch Schuldscheine verbrieft, verkörpert oder dokumentiert ist oder durch Schuldverschreibungen oder sonstige Wertpapiere, die an einer Börse oder an einem anderen anerkannten Wertpapiermarkt notiert oder gehandelt werden oder werden können. Um etwaige Zweifel bezüglich von asset-backed financings der Garantin zu vermeiden, schließt das in diesem Absatz (2) benutzte Wort "*Vermögen*" nicht solche Vermögensgegenstände der Garantin ein, die nach dem jeweils auf die Transaktion anwendbaren Zivilrecht ohne Rückgriffsmöglichkeiten veräußert sind.

(8) Das Original dieses Vertrages wird der Deutsche Bank Aktiengesellschaft ausgehändigt und von dieser verwahrt.

(9) Gerichtsstand für alle Rechtsstreitigkeiten aus oder im Zusammenhang mit diesem Vertrag ist Frankfurt am Main. Jeder Gläubiger kann seine Ansprüche jedoch auch vor jedem anderen zuständigen Gericht geltend machen.

(10) Jeder Gläubiger kann in jedem Rechtsstreit gegen die Garantin und in jedem Rechtsstreit, in dem er und die Garantin Partei sind, seine Rechte aus diesem Vertrag auf der Grundlage einer von einer vertretungsberechtigten Person der Deutsche Bank Aktiengesellschaft beglaubigten Kopie dieses Vertrages ohne Vorlage des Originals im eigenen Namen wahrnehmen und durchsetzen.

¹**[MiFID II Product Governance – Solely for the purposes of [the/each] manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties[,][and] professional clients [and retail clients], each as defined in Directive 2014/65/EU (as amended, "MiFID II") [and [·]]; [EITHER²: and (ii) all channels for distribution of the Notes are appropriate, including investment advice, portfolio management, non-advised sales and pure execution services] [OR³: (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate - investment advice[,][and] portfolio management[,][and] [non-advised sales] [and pure execution services]]], subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable]]. Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the manufacturer[s][s'] target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer[s][s'] target market assessment) and determining appropriate distribution channels[, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable]⁴.]**

[PROHIBITION OF SALES TO EEA RETAIL INVESTORS – The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of Directive 2002/92/EC (as amended, the "Insurance Mediation Directive"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended, the "Prospectus Directive"). Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the "PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.]⁵

The Final Terms will be displayed on the website of the Luxembourg Stock Exchange (www.bourse.lu).

¹ Include this legend if parties have determined a target market.

Diese Erklärung einfügen, wenn die Parteien einen Zielmarkt bestimmt haben.

² Include for notes that are not ESMA complex pursuant to the Guidelines on complex debt instruments and structured deposits (ESMA/2015/1787) (the "ESMA Guidelines") (i.e. Notes the Terms and Conditions of which do not provide for a put and/or call right).

Einfügen für Schuldverschreibungen, die nicht nach den Leitlinien zu komplexen Schuldtiteln und strukturierten Einlagen (ESMA/2015/1787) (die "ESMA Leitlinien") ESMA komplex sind (also, Schuldverschreiben deren Anleihebedingungen keine Kündigungsrechte seitens der Emittentin und/oder der Anleihegläubiger enthalten).

³ Include for notes that are ESMA complex pursuant to the ESMA Guidelines. This list may need to be amended, for example, if advised sales are deemed necessary. If there are advised sales, a determination of suitability and appropriateness will be necessary. In addition, if the Notes constitute "complex" products, pure execution services to retail clients are not permitted without the need to make the determination of appropriateness required under Article 25(3) of MiFID II.

Einfügen im Fall von Schuldverschreibungen, die nach den ESMA Leitlinien ESMA komplex sind. Diese Liste muss gegebenenfalls angepasst werden, z.B. wenn Anlageberatung für erforderlich gehalten wird. Im Fall der Anlageberatung ist die Bestimmung der Geeignetheit und Angemessenheit notwendig. Wenn die Schuldverschreibungen "komplexe" Produkte sind, ist außerdem die bloße Ausführung von Kundenaufträgen von Privatanlegern ohne Bestimmung der Angemessenheit nach Art. 25(3) MiFID II nicht zulässig.

⁴ If there are advised sales, a determination of suitability will be necessary.

Im Fall von Beratungsverkäufen ist eine Angemessenheitsprüfung erforderlich.

⁵ Include this legend if "Applicable" is specified in Part II. C.4 of the Final Terms regarding item "Prohibition of Sales to EEA Retail Investors".

Diese Erklärung einfügen, wenn "Anwendbar" im Teil II. C.4 der Endgültigen Bedingungen im Hinblick auf den Punkt "Verbot des Verkaufs an EWR Privatanleger" ausgewählt wurde.

Eurosystem eligibility **EZB-Fähigkeit**

- Intended to be held in a manner which would allow Eurosystem eligibility (NGN)²⁴
Soll in EZB-fähiger Weise gehalten werden (NGN)

[Note that the ticked box in the case of an NGN means that the Notes are intended upon issue to be deposited with one of the ICSDs as common safekeeper and does not necessarily mean that the Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria.]

[Whilst this box is not ticked at the date of these Final Terms, should the Eurosystem eligibility criteria be amended in the future such that the Notes are capable of meeting them the Notes in the case of an NGN may then be deposited with one of the ICSDs as common safekeeper. Note that this does not necessarily mean that the Notes will then be recognised as eligible collateral for Eurosystem monetary policy and intra day credit operations by the Eurosystem at any time during their life. Such recognition will depend upon the ECB being satisfied that Eurosystem eligibility criteria have been met.]

[Es wird darauf hingewiesen, dass das Häkchen in dem Kästchen im Fall einer NGN hier lediglich bedeutet, dass die Schuldverschreibungen nach ihrer Begebung bei einem der ICSDs als gemeinsamen Verwahrer verwahrt werden; es bedeutet nicht notwendigerweise, dass die Schuldverschreibungen bei ihrer Begebung, zu irgendeinem Zeitpunkt während ihrer Laufzeit oder während ihrer gesamten Laufzeit als zulässige Sicherheiten für die Zwecke der Geldpolitik oder für Innertageskredite des Eurosystems anerkannt werden. Eine solche Anerkennung ist abhängig davon, ob die Zulassungskriterien des Eurosystems erfüllt sind.]

[Auch wenn kein Häkchen in dieser Box mit Datum dieser Endgültigen Bedingungen gesetzt wurde, sollten die Zulassungskriterien des Eurosystems sich zukünftig dergestalt ändern, dass die Schuldverschreibungen diese erfüllen können, könnten die Schuldverschreibungen im Fall einer NGN dann bei einem der ICSDs als gemeinsamen Verwahrer verwahrt werden. Es wird darauf hingewiesen, dass dies jedoch nicht notwendigerweise bedeutet, dass die Schuldverschreibungen dann zu irgendeinem Zeitpunkt während ihrer Laufzeit als zulässige Sicherheiten für die Zwecke der Geldpolitik oder für Innertageskredite des Eurosystems anerkannt werden. Eine solche Anerkennung ist abhängig davon, ob die Zulassungskriterien des Eurosystems erfüllt sind.]

Falls gewählt, müssen die Schuldverschreibungen in Form einer NGN begeben und von einem ICSD als common safekeeper gehalten werden.

²⁵ This means that the Notes are intended upon issue to be deposited with CBF. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria.
Dies bedeutet, dass die Schuldverschreibungen nach ihrer Begebung von CBF verwahrt werden müssen. DESCRIPTION OF RULES REGARDING RESOLUTIONS OF HOLDERS

The Terms and Conditions pertaining to a certain issue of Notes may provide that the Holders may agree to amendments or decide on other matters relating to the Notes by way of resolution to be passed in a meeting (*Gläubigerversammlung*) or by taking votes without a meeting. Any such resolution duly adopted by resolution of the Holders shall be binding on each Holder of the respective issue of Notes, irrespective of whether such Holder took part in the vote and whether such Holder voted in favor of or against such resolution.

In addition to the provisions included in the Terms and Conditions of a particular issue of Notes, the rules regarding resolutions of Holders are substantially set out in a Schedule to the Agency Agreement (as defined in "*Documents incorporated by Reference*" below) in the German language together with an English translation. If the Notes are for their life represented by Global Notes, the Terms and Conditions of such Notes fully refer to the rules pertaining to resolutions of Holders in the form of such Schedule to the Agency Agreement. Under the German Act on Debt Securities (*Schuldverschreibungsgesetz – "SchVG"*), these rules are largely mandatory, although they permit in limited circumstances supplementary provisions set out in or incorporated into the Terms and Conditions.

Resolutions of the Holders with respect to the Notes can be passed in a meeting (*Gläubigerversammlung*) in accordance with § 5 et seqq. SchVG or by way of a vote without a meeting pursuant to § 18 and § 9 et seqq. SchVG (*Abstimmung ohne Versammlung*).

The following is a brief summary of some of the statutory rules regarding the convening and conduct of meetings of Holders and the taking of votes without meetings, the passing and publication of resolutions as well as their implementation and challenge before German courts.

Rules regarding Holders' Meetings

Meetings of Holders may be convened by the Issuer or the Holders' Representative, if any. Meetings of Holders must be convened if one or more Holders holding 5% or more of the outstanding Notes so require for specified reasons permitted by statute.

Meetings may be convened not less than 14 days prior to the date of the meeting. Attendance and exercise of voting rights at the meeting may be made subject to prior registration of Holders. The convening notice will provide what proof will be required for attendance and voting at the meeting. The place of the meeting in respect of a German issuer is the place of the Issuer's registered office, provided, however, that where the relevant Notes are listed on a stock exchange within the European Union or the European Economic Area, the meeting may be held at the place of such stock exchange.

The convening notice shall be made publicly available together with the agenda of the meeting setting out the proposals for resolution.

Each Holder may be represented by proxy. A quorum exists if Holders' representing by value not less than 50% of the outstanding Notes. If the quorum is not reached, a second meeting may be called at which no quorum will be required, provided that where a resolution may only be adopted by a qualified majority, a quorum requires the presence of at least 25% of the aggregate principal amount of outstanding Notes.

All resolutions adopted must be properly published. In the case of Notes represented by one or more Global Notes, resolutions which amend or supplement the Terms and Conditions have to be implemented by supplementing or amending the relevant Global Note(s).

In insolvency proceedings instituted in Germany against an issuer, a Holders' Representative, if appointed, is obliged and exclusively entitled to assert the Holders' rights under the Notes. Any resolutions passed by the Holders are subject to the provisions of the Insolvency Code (*Insolvenzordnung*).

If a resolution constitutes a breach of statutory law or the Terms and Conditions, Holders may bring an action to set aside such resolution. Such action must be filed with the competent court within one month following the publication of the resolution.

Specific Rules regarding Votes without Meeting

In the case of resolutions to be passed by Holders without a meeting, the rules applicable to Holders' Meetings apply *mutatis mutandis* to any taking of votes by Holders without a meeting, subject to certain special provisions. The following summarises such special rules.

The voting shall be conducted by the person presiding over the taking of votes. Such person shall be (i) a notary public appointed by the Issuer, (ii) where a common representative of the Holders (the "**Holders' Representative**") has been appointed, the Holders' Representative if the vote was solicited by the Holders' Representative, or (iii) a person appointed by the competent court.

The notice soliciting the Holders' votes shall set out the period within which votes may be cast. During such voting period, the Holders may cast their votes to the person presiding over the taking of votes. Such notice shall also set out in detail the conditions to be met for the votes to be valid.

The person presiding over the taking of votes shall ascertain each Holder's entitlement to cast a vote based on evidence provided by such Holder and shall prepare a list of the Holders entitled to vote. If it is established that no quorum exists, the person presiding over the taking of votes may convene a meeting of the Holders. Within one year following the end of the voting period, each Holder participating in the vote may request a copy of the minutes of such vote and any annexes thereto from the Issuer.

Each Holder participating in the vote may object in writing to the result of the vote within two weeks following the publication of the resolutions passed. The objection shall be decided upon by the person presiding over the taking of votes. If he remedies the objection, the person presiding over the taking of votes shall promptly publish the result. If the person presiding over the taking of votes does not remedy the objection, he shall promptly inform the objecting Holder in writing.

The Issuer shall bear the costs of the vote and, if the court has convened a meeting, also the costs of such proceedings.

Taxation

The following is a general discussion of certain German, Dutch, Luxembourg, UK, Irish and Austrian tax consequences of the acquisition and ownership of Notes. This discussion does not purport to be a comprehensive description of all tax considerations which may be relevant to a decision to purchase Notes. In particular, this discussion does not consider any specific facts or circumstances that may apply to a particular purchaser. Moreover, this summary does not consider other taxes than taxes on income, in particular not inheritance or gift tax. This summary is based on the laws of Germany, The Netherlands, the Grand-Duchy of Luxembourg, the United Kingdom of Great Britain and Northern Ireland, the Republic of Ireland and the Republic of Austria currently in force and as applied on the date of this prospectus, which are subject to change, possibly with retroactive or retrospective effect.

PROSPECTIVE PURCHASERS OF NOTES ARE ADVISED TO CONSULT THEIR OWN TAX ADVISORS AS TO THE TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF NOTES, INCLUDING THE EFFECT OF ANY STATE OR LOCAL TAXES, UNDER THE TAX LAWS OF GERMANY, THE NETHERLANDS, THE GRAND DUCHY OF LUXEMBOURG, THE UNITED KINGDOM OF GREAT BRITAIN AND NORTHERN IRELAND, THE REPUBLIC OF IRELAND, THE REPUBLIC OF AUSTRIA AND EACH COUNTRY OF WHICH THEY ARE RESIDENTS.

1. Germany

Income tax

Notes held by tax residents as non-business assets

- Taxation of interest

Payments of interest on the Notes to Holders who are individuals and are tax residents of Germany (*i.e.*, persons whose residence or habitual abode is located in Germany) are subject to German income tax. In each case where German income tax arises, a solidarity surcharge (*Solidaritätszuschlag*) is levied in addition. Furthermore, church tax may be levied, where applicable. If coupons or interest claims are disposed of separately (*i.e.* without the Notes), the gains from the disposal are subject to income tax. The same applies to gains from the redemption of coupons or interest claims if the Notes are disposed of separately.

On payments of interest on the Notes to individuals who are tax residents of Germany, income tax is generally levied as a flat income tax at a rate of 25 per cent. (plus solidarity surcharge in an amount of 5.5 per cent. of such tax, resulting in a total tax charge of 26.375 per cent., plus, if applicable, church tax). The church tax is generally levied by way of withholding unless the Holder has filed a blocking notice (*Sperrvermerk*) with the German Federal Central Tax Office (*Bundeszentralamt für Steuern*). The total positive investment income of an individual will be decreased by a lump sum deduction (*Sparer-Pauschbetrag*) of EUR 801 (EUR 1,602 for individuals filing jointly), not by a deduction of expenses actually incurred.

If the Notes are held in custody, or are administered, or if their disposal is executed, by a German branch of a German or non-German credit or financial services institution or by a German securities trading business or a German securities trading bank and such entity credits or pays out the investment income (the "**Disbursing Agent**"), the flat income tax will be levied by way of withholding at the aforementioned rate from the gross interest payment to be made by the Disbursing Agent.

In general, no withholding tax will be levied if the Holder is an individual (i) whose Notes do not form part of the property of a trade or business and (ii) who filed a withholding exemption certificate (*Freistellungsauftrag*) with the Disbursing Agent but only to the extent the interest income derived from the Notes together with other investment income does not exceed the maximum exemption amount shown on the withholding exemption certificate. Similarly, no withholding tax will be deducted if the Holder has submitted to the Disbursing Agent a certificate of non-assessment (*Nichtveranlagungs-Bescheinigung*) issued by the relevant local tax office.

If no Disbursing Agent (as defined above) is involved in the payment process the Holder will have to include its income on the Notes in its tax return and the tax in its investment income of generally 25 per cent. plus solidarity surcharge and, if applicable, church tax will be collected by way of assessment.

Payment of the flat income tax will generally satisfy any income tax liability (including solidarity surcharge and, if applicable, church tax) of the Holder in respect of such investment income. Holders may apply for a tax assessment on the basis of general rules applicable to them if the resulting income tax burden is lower than 25 per cent. In this case as well income-related expenses cannot be deducted from the investment income, except for the aforementioned annual lump sum deduction.

- Taxation of capital gains

Also capital gains realised by individual tax residents of Germany from the disposal or redemption of the Notes (including gains from the assignment or hidden contribution of the Notes) will be subject to the flat income tax on investment income at a rate of 25 per cent. (plus solidarity surcharge in an amount of 5.5 per cent. of such tax, resulting in a total tax charge of 26.375 per cent., plus, if applicable, church tax), irrespective of any holding period. The separation (e.g. by first-time assignment) of a coupon or interest claim from the Note is treated as a disposal of the Note. Church tax is generally levied by way of withholding unless the Holder has filed a blocking notice with the German Federal Central Tax Office. This will also apply to Notes on which the principal is effectively repaid in whole or in part although the repayment was not guaranteed.

If the Notes are held in custody, or are administered, or if their disposal is executed, by a Disbursing Agent (as defined above) the flat income tax will be levied by way of withholding from the positive difference between the redemption amount (or the proceeds from the disposal) and the issue price (or the purchase price) of the Notes. If Notes kept or administered in the same custodial account have been acquired at different points in time, the Notes first acquired will be deemed to have been sold first for the purpose of determining the capital gains. If the Notes have been transferred into the custodial account of the Disbursing Agent only after their acquisition, and no evidence on the acquisition data has validly been provided to the new Disbursing Agent by the Disbursing Agent which previously kept the Notes in its custodial account, withholding tax will be levied on 30 per cent. of the proceeds from the disposal or redemption of the Notes.

If no Disbursing Agent is involved in the payment process the Holder will have to include capital gains from the disposal or redemption of the Notes in its tax return and the tax on its investment income of generally 25 per cent. plus solidarity surcharge and, if applicable, church tax will be collected by way of assessment.

Payment of the flat income tax will generally satisfy any income tax liability (including solidarity surcharge and, if applicable, church tax) of the Holder in respect of such investment income. Holders may apply for a tax assessment on the basis of general rules applicable to them if the resulting income tax burden is lower than 25 per cent. Further, if the withholding tax on a disposal or redemption has been calculated from 30 per cent. of the respective proceeds (rather than from the actual gain), a Holder who is an individual tax resident may and in case the actual gain is higher than 30 per cent. of the respective proceeds must also apply for an assessment on the basis of his or her actual acquisition costs. In this case as well income-related expenses cannot be deducted from the investment income, except for the aforementioned annual lump sum deduction.

Any capital loss incurred from the disposal or redemption of the Notes can only be offset against positive income from capital investments. The Disbursing Agent will offset the losses with positive income from capital investments entered into through or with the same Disbursing Agent and carry forward any losses that cannot be offset to the following calendar year. If losses cannot be offset in full against positive investment income by the Disbursing Agent, the Holder can, instead, request that the Disbursing Agent issues a certificate stating the losses in order for them to be offset against other positive income from capital investments or carried forward in the assessment procedure. The request must reach the Disbursing Agent by 15 December of the current year and is irrevocable.

Notes held by tax residents as business assets

Payments of interest on Notes and capital gains from the disposal or redemption of Notes held as business assets by German tax resident individuals or tax resident corporations (*i.e.*, corporations whose legal domicile or place of effective management is located in Germany), including via a partnership, as the case may be, are generally subject to German income tax or corporate income tax (in each case plus solidarity surcharge and, if applicable, church tax). The interest and capital gain will also be subject to trade tax if the Notes form part of the property of a German trade or business.

If the Notes are held in custody, or are administered, or if their disposal is executed, by a Disbursing Agent (as defined above), tax at a rate of 25 per cent. (plus a solidarity surcharge of 5.5 per cent. of such tax and, if applicable, church tax) will also be withheld from interest payments on Notes and generally also from capital gains from the disposal or redemption of Notes held as business assets. In these cases the withholding tax does not satisfy the income tax liability of the Holder, as in the case of the flat income tax, but will be credited as advance payment against the personal income or corporate income tax liability and the solidarity surcharge (and, if applicable, against the church tax) of the Holder.

With regard to capital gains from the disposal or redemption of Notes no withholding will generally be required in the case of Notes held by corporations tax resident in Germany, provided that in the case of corporations of certain legal forms the status of corporation has been evidenced by a certificate of the competent tax office. The same applies upon notification by use of the officially prescribed form towards the Disbursing Agent in the case of Notes held by individuals or partnerships as business assets.

Notes held by non-residents

Payments of interest on Notes and capital gains from the disposal or redemption of Notes are not subject to German taxation in the case of non-residents, *i.e.* persons having neither their residence nor their habitual abode nor legal domicile nor place of effective management in Germany, unless the Notes form part of the business property of a permanent establishment maintained in Germany, or for which a permanent representative has been appointed in Germany. Interest may, however, also be subject to German income tax if it otherwise constitutes income taxable in Germany, such as income from the letting and leasing of certain German-situs property or income from certain capital investments directly or indirectly secured by German situs real estate.

Non-residents of Germany are in general exempt from German withholding tax on interest and capital gains and from solidarity surcharge thereon. However, if the interest or capital gain is subject to German taxation as set forth in the preceding paragraph and the Notes are held in custody, or are administered, or if their disposal is executed, by a Disbursing Agent (as defined above), withholding tax will be levied as explained above at "*Notes held by tax residents as business assets*" or at "*Notes held by tax residents as non-business assets*", respectively.

Particularities of Notes with a negative yield

Holder will only realise a taxable capital gain if they receive, upon a disposal of the Notes, an amount in excess of the issue price (or the purchase price they paid for the Notes).

Contrary thereto, Holders who subscribe the Notes at the issue price and hold the Notes until their final maturity will realise a loss if the issue price is higher than the redemption price. The tax treatment of such losses is not entirely clear:

If the Notes are held by tax residents as non-business assets, statements of the German tax authorities regarding "negative interest" incurred on bank deposits made by private investors arguably imply that such losses cannot be fully deducted. Such losses are rather treated as expenses in connection with capital investment income and, are, consequently not tax-deductible except for an annual lump-sum deduction (*Sparer-Pauschbetrag*) of EUR 801 (EUR 1,602 for individuals filing jointly).

If the Notes are held by tax residents as business assets, recently published statements of the German tax authorities regarding "negative interest" incurred on bank deposits made by business investors arguably imply that such losses are generally tax deductible.

Inheritance and Gift Tax

No inheritance or gift taxes with respect to any Note will generally arise under the laws of Germany, if, in the case of inheritance tax, neither the decedent nor the beneficiary, or, in the case of gift tax, neither the donor nor the donee, is a tax resident of Germany and such Note is not attributable to a German trade or business for which a permanent establishment is maintained, or a permanent representative has been appointed, in Germany. Exceptions from this rule apply to certain German citizens who previously maintained a residence in Germany.

Other Taxes

No stamp, issue, registration or similar taxes or duties will be payable in Germany in connection with the issuance, delivery or execution of the Notes. Currently, net assets tax (*Vermögensteuer*) is not levied in Germany.

2. The Netherlands

For the purpose of this summary it is assumed that a holder of a Note, being an individual or a non-resident entity, neither has nor will have a substantial interest or - in the case of a holder of a Note being an entity - a deemed substantial interest in Finance and that no connected person (*verbonden persoon*) to the holder of a Note has or will have a substantial interest in Finance.

Generally speaking, an individual holding a Note has a substantial interest in Finance if (a) such individual, either alone or together with his partner, directly or indirectly has, or (b) certain relatives of such individual or his partner directly or indirectly have or are deemed to have, (i) the ownership of, a right to acquire the ownership of, or certain rights over, shares representing 5 per cent. or more of either the total issued and outstanding capital of Finance or the issued and outstanding capital of any class of shares of Finance, or the ownership of, or certain rights over, profit participating certificates (*winstbewijzen*) that relate to 5 per cent. or more of either the annual profit or the liquidation proceeds of Finance.

Generally speaking, a non-resident entity holding a Note has a substantial interest in Finance if such entity, directly or indirectly has (i) the ownership of, a right to acquire the ownership of, or certain rights over, shares

representing 5 per cent. or more of either the total issued and outstanding capital of Finance or the issued and outstanding capital of any class of shares of Finance, or (ii) the ownership of, or certain rights over, profit participating certificates (*winstbewijzen*) that relate to 5 per cent. or more of either the annual profit or the liquidation proceeds of Finance. An entity holding a Note has a deemed substantial interest in Finance if such entity has disposed of or is deemed to have disposed of all or part of a substantial interest on a non-recognition basis.

For the purpose of this summary, the term "entity" means a corporation as well as any other person that is taxable as a corporation for Dutch corporate tax purposes.

Where this summary refers to "The Netherlands" or "Dutch", it refers only to the European part of the Kingdom of the Netherlands.

Where this summary refers to a holder of a Note, an individual holding a Note or an entity holding a Note, such reference is restricted to an individual or entity holding legal title to as well as an economic interest in such Note or otherwise being regarded as owning a Note for Dutch tax purposes. It is noted that for purposes of Dutch income, corporate, gift and inheritance tax, assets legally owned by a third party such as a trustee, foundation or similar entity, may be treated as assets owned by the (deemed) settlor, grantor or similar originator or the beneficiaries in proportion to their interest in such arrangement.

Withholding Tax

All payments of principal and interest by Finance under the Notes can be made without withholding or deduction of any taxes of whatever nature imposed, levied, withheld or assessed by The Netherlands or any political subdivision or taxing authority thereof or therein, unless the Notes qualify as debt that effectively functions as equity for purposes of article 10, paragraph 1, sub d of the Corporate Tax Act (*Wet op de vennootschapsbelasting 1969*).

Taxes on Income and Capital Gains

Residents

- Resident entities

An entity holding a Note which is, or is deemed to be, resident in The Netherlands for Dutch corporate tax purposes and which is not tax exempt, will generally be subject to Dutch corporate tax in respect of income or a capital gain derived from a Note at the prevailing statutory rates (up to 25 per cent. in 2018).

- Resident individuals

An individual holding a Note who is or is deemed to be resident in The Netherlands for Dutch income tax purposes will be subject to Dutch income tax in respect of income or a capital gain derived from a Note at the prevailing statutory rates (up to 51.95 per cent. in 2018) if:

- (i) the income or capital gain is attributable to an enterprise from which the holder derives profits (other than as a shareholder); or
- (ii) the income or capital gain qualifies as income from miscellaneous activities (*belastbaar resultaat uit overige werkzaamheden*) as defined in the Income Tax Act (*Wet inkomstenbelasting 2001*), including, without limitation, activities that exceed normal, active asset management (*normaal, actief vermogensbeheer*).

If neither condition (i) nor (ii) applies, such individual will be subject to Dutch income tax on the basis of a deemed return, regardless of any actual income or capital gain derived from the Notes. For 2018, the deemed return ranges from 2.02 per cent. to 5.38 per cent. of the value of the individual's net assets as at the beginning of the relevant fiscal year (including the Notes). The applicable rates will be updated annually on the basis of historic market yields. Subject to application of certain allowances, the deemed return will be taxed at a rate of 30 per cent.

Non-residents

A holder of a Note which is not and is not deemed to be resident in The Netherlands for the relevant tax purposes will not be subject to Dutch taxation on income or a capital gain derived from a Note unless:

- (i) the income or capital gain is attributable to an enterprise or part thereof which is either effectively managed in The Netherlands or carried on through a permanent establishment (*vaste inrichting*) or permanent representative (*vaste vertegenwoordiger*) taxable in The Netherlands and the holder derives profits from such enterprise (other than by way of the holding of securities); or
- (ii) the holder is an individual and the income or capital gain qualifies as income from miscellaneous

activities (*belastbaar resultaat uit overige werkzaamheden*) in The Netherlands as defined in the Income Tax Act (*Wet inkomstenbelasting 2001*), including, without limitation, activities that exceed normal, active asset management (*normaal, actief vermogensbeheer*).

Gift and Inheritance Taxes

Dutch gift or inheritance taxes will not be levied on the occasion of the transfer of a Note by way of gift by, or on the death of, a holder of a Note, unless:

- (i) the holder is or is deemed to be resident in The Netherlands for the purpose of the relevant provisions; or
- (ii) the transfer is construed as an inheritance or gift made by, or on behalf of, a person who, at the time of the gift or death, is or is deemed to be resident in The Netherlands for the purpose of the relevant provisions.

Other Taxes and Duties

There is no Dutch registration tax, stamp duty or any other similar tax or duty payable in the Netherlands by a holder of a Note in respect of or in connection with the execution, delivery and/or enforcement by legal proceedings (including any foreign judgement in the courts of The Netherlands) of a Note or the performance of Finance's obligations under the Notes.

Residence

A holder of a Note will not be and will not be deemed to be resident in The Netherlands for Dutch tax purposes and, subject to the assumptions and exceptions set out above, will not otherwise be subject to Dutch taxation, by reason only of acquiring, holding or disposing of a Note or the execution, performance, delivery and/or enforcement of a Note.

3. Luxembourg

Non-Residents

Under the existing laws of Luxembourg there is no withholding tax on the payment of interest on, or reimbursement of principal of, the Notes made to non-residents of Luxembourg through a paying agent established in Luxembourg.

However, the exchange of information rules and requirements provided for by the Luxembourg law of 18 December 2015 on the automatic exchange of financial account information in the field of taxation apply.

Residents

According to the law of 23 December 2005, as amended on 27 February 2017, interest on Notes paid by a Luxembourg paying agent or paying agents established in the EU or in the EEA to an individual Holder of Notes who is a resident of Luxembourg will be subject to a withholding tax of 20 per cent. In case of payment through a paying agent established in the EU or in the EEA other than Luxembourg, the Luxembourg resident individual Holder of Notes may under a specific procedure remit 20 per cent. tax to the Luxembourg Treasury.

If the individual Holder holds the Notes in the course of the management of his or her private wealth, the aforementioned 20 per cent. withholding tax will operate a full discharge of income tax due on such payments.

Interest on Notes paid by a Luxembourg paying agent to a resident Holder of Notes who is not an individual is not subject to withholding tax, but has to be recognised in the company's corporate tax return.

When used in the preceding paragraphs "*interest*" and "*paying agent*" have the meaning given thereto in the Luxembourg law of 23 December 2005, as amended. "*Interest*" will include accrued or capitalised interest at the sale, repayment or redemption of the Notes. Payments of interest or similar income under the Notes to Clearstream Banking AG, Clearstream Banking, société anonyme and Euroclear Bank SA/NV and payments by or on behalf of Clearstream Banking, société anonyme to financial intermediaries will not give rise to a withholding tax under Luxembourg law.

4. The United Kingdom of Great Britain and Northern Ireland

The comments below, which are of a general nature and are based on the Issuers' understanding of current United Kingdom law and H.M. Revenue & Customs ("HMRC") practice, describe only the United Kingdom withholding tax treatment of payments in respect of the Notes. They are not exhaustive. They do not deal with any other United Kingdom taxation implications of acquiring, holding or disposing of the Notes. Prospective holders of Notes who are in any doubt as to their tax position or who may be subject to tax in a jurisdiction other than the United Kingdom are strongly advised to consult their own professional advisers.

Withholding tax

Under United Kingdom tax law there is no obligation on the Issuers to deduct withholding tax on payments of interest on the Notes except where the interest has a United Kingdom source and is considered to be annual in nature. Interest on notes issued for a term of one year or more (or under arrangements where the overall term of the borrowing exceeds a year) should be annual interest and may be subject to withholding tax if it has a source in the United Kingdom and does not fall into various exemptions. The location of the source of interest is a complex matter and reference should be made to United Kingdom case law and HMRC guidance. Some of the factors that HMRC would take into account include where a creditor would sue for payment, the place of business of the issuer and the location of funds used to make the payments (including any security). Other factors may also be important.

If interest has a source in the United Kingdom, so long as the Notes are and continue to be admitted to trading on the Regulated Market of the Luxembourg Stock Exchange and listed on the official list of the Luxembourg Stock Exchange, payment of interest on the Notes may be made without withholding or deduction for or on account of income tax.

Interest on the Notes may also be paid without withholding or deduction for or on account of tax where at the time the payment is made, the Issuer reasonably believes (and any person by or through whom interest on the Notes is paid reasonably believes) that the beneficial owner of the interest is within the charge to United Kingdom corporation tax as regards the payment of interest, provided H.M. Revenue & Customs has not given a direction that the interest should be paid under deduction of tax.

In other cases where interest has a source in the United Kingdom, absent any other relief or exemption (such as a direction by H.M. Revenue & Customs that interest may be paid without withholding or deduction for or on account of tax to a specified Holder following an application by that Holder under an applicable double tax treaty), an amount must generally be withheld on account of income tax at the basic rate (currently 20 per cent.) from payments of interest on the Notes.

Where Notes are issued on terms that a premium is or may be payable on redemption, as opposed to being issued at a discount, then it is possible that any such element of premium may constitute a payment of interest and be subject to withholding on account of income tax as outlined in the preceding paragraphs.

Where Notes are issued at an issue price of less than 100 per cent. of their principal amount, any payments in respect of the accrued discount element on any such Notes will not be made subject to any withholding or deduction for or on account of income tax as long as they do not constitute payments in respect of interest.

Where interest has been paid under deduction of income tax, Holders who are not resident in the United Kingdom may be able to recover all or part of the tax deducted under an appropriate provision of an applicable double taxation treaty

5. Republic of Ireland

*The following is a summary based on the laws and practices currently in force in Ireland regarding the tax position of investors beneficially owning their notes and should be treated with appropriate caution. Particular rules may apply to certain classes of taxpayers holding notes. The summary does not constitute tax or legal advice and the comments below are of a general nature only. **This summary only relates to the potential application of Irish withholding taxes to payments made under the Notes.** It does not deal with any other matters and in particular does not describe the taxation consequences for Irish resident or ordinarily resident Noteholders in respect of the purchase, holding, redemption or sale of the notes and the receipt of interest thereon. The comments are made on the assumption that the Issuers are not resident in Ireland for Irish tax purposes and do not carry on a trade in Ireland through a branch or agency. Prospective investors in the notes should consult their professional advisors on the tax implications of the purchase, holding, redemption or sale of the Notes and the receipt of interest thereon under the laws of their country of residence, citizenship or domicile.*

Irish Withholding Tax

Under Irish tax law there is no obligation on the Issuers to operate any withholding tax on payments of interest on the Notes except where the interest has an Irish source and is annual in nature. The interest could be considered to have an Irish source, where, for example, interest is paid out of funds maintained in Ireland or where the Notes are secured on Irish situate assets. The mere offering of the Notes to Irish investors will not cause the interest to have an Irish source.

In certain circumstances, collection agents and other persons receiving interest on the Notes in Ireland on behalf of a Noteholder, will be obliged to operate a withholding tax.

Provision of Information

Noteholders should be aware that where any interest or other payment on Notes is paid to them by or through an Irish paying agent or collection agent then the relevant person may be required to supply the Irish Revenue Commissioners with details of the payment and certain details relating to the Noteholder. Where the Noteholder is not Irish resident, the details provided to the Irish Revenue Commissioners may, in certain cases, be passed by them to the tax authorities of the jurisdiction in which the Noteholder is resident for taxation purposes.

6. Republic of Austria

Income tax

Austrian Resident Taxpayers

Individuals having a domicile or their habitual abode in Austria or corporations having their corporate seat or their place of management in Austria are considered residents for Austrian income and corporate income tax law purposes, respectively.

Individual residents

- Notes held as private assets

Generally income arising with respect to the Notes in the form of either

- fixed or floating interest payments (*Zinserträge*) or
- realised capital gains (*Einkünfte aus realisierten Wertsteigerungen*)

qualifies as "investment income" (*Einkünfte aus Kapitalvermögen*) and, as such, is taxed under a special regime at a flat rate of 27.5 per cent. if the Notes are publicly offered. Realised capital gains are the difference between (a) the amount realised (e.g., the sale proceeds, the redemption or other pay-off amount, or the fair market value in case of a deemed realisation) and (b) the acquisition costs; in each case including accrued interest, if any.

For Notes held as private assets, the acquisition costs shall not include ancillary acquisition costs (*Anschaffungsnebenkosten*). An average price is determined regarding Notes not acquired at the same time, but held in the same securities account and having the same securities identification number. Expenses and costs (*Aufwendungen und Ausgaben*) that are directly connected with investment income are not tax effective.

If an Austrian custodian (*inländische depottführende Stelle*) or an Austrian paying agent (*auszahlende Stelle*) is involved in paying investment income (interest or capital gains), 27.5 per cent. withholding tax is imposed. The Austrian custodian or paying agent has the responsibility to deduct and pay the withholding tax to the respective tax office.

If no withholding tax is imposed (e.g., because the Notes are held through a foreign paying agent), the investment income arising from the Notes generally has to be included in the investor's annual income tax return in accordance with the Austrian Income Tax Act and will be subject to the special flat tax rate of 27.5 per cent.

The 27.5 per cent. taxation generally results in a final taxation (*Endbesteuerung*) for income tax, both in case of the imposition of a withholding tax and in case of a tax assessment, *i.e.*, the flat income tax will generally satisfy the income tax liability on the investment income; an option to assess the income at the progressive income tax rate exists (in particular for investors whose regular personal income tax rate is lower than 27.5 per cent.).

Income from Notes which are not legally or factually offered to an indefinite number of persons within the meaning of the Austrian Income Tax Act would not be subject to withholding tax and final taxation but subject

to normal progressive personal income tax rates of up to 50 per cent. (for income above EUR 90,000 *per annum* up to EUR 1 million *per annum*) and 55 per cent. (as far as the income exceeds EUR 1 million *per annum*).

Capital gains are not only taxed upon an actual disposition or redemption of the Notes, but also upon a deemed realisation.

- A deemed realisation takes place due to a restriction of the Austrian taxing right on the Notes (e.g. move abroad, donation to a non-resident, etc.). If the Notes are held in an Austrian securities account, the Austrian withholding agent (custodian or paying agent) has to impose the withholding tax and such withholding tax needs to be deducted only upon an actual disposition of the Notes or withdrawal from the account. If the Holder has timely notified the Austrian withholding agent of the restriction of the Austrian taxing right on the Notes (e.g. his or her relocation to another country), not more than the value increase of the Notes until such notification is subject to Austrian withholding tax. An exemption of withholding tax applies in case of a notified moving to another Member State of the European Economic Area if the Holder presents to the Austrian withholding agent a tax assessment notice of the year of migration in which the option for a deferral of tax has been exercised.
- A deemed realisation also takes place upon withdrawals (*Entnahmen*) from an Austrian securities account and other transfers of Notes from one Austrian securities account to another one. Exemptions apply in this case for a transfer of the Notes to another deposit account, if certain information procedures are fulfilled and no restriction of the Austrian taxing right occurs (e.g., no donation to a non-resident).

Losses from Notes held as private assets may only be offset with other investment income subject to the flat tax rate (excluding, *inter alia*, interest income from bank deposits and other claims against banks) and must not be offset with any other income. Mandatory loss-offsetting rules to be handled by Austrian custodians apply. A carry-forward of losses is not possible in this context.

- Notes held as business assets

Generally, the same rules as described under the previous heading apply regarding Notes that are held as business assets by tax residents who are individuals. The most important differences are the following (which are, apart from the last bullet point, only relevant for the assessment of the investor):

- Realised capital gains, contrary to interest income, have to be included in the investor's annual income tax return, since despite a 27.5 per cent. withholding taxation that is also imposed in the context of Notes held as business assets if an Austrian custodian is involved, no final taxation for income tax applies. It is nevertheless subject to the special income tax rate of 27.5 per cent.; however, this only applies to income from realised capital gains if the realisation of such income is not a core activity of the business.
- Write-downs and realised losses derived from the sale or redemption of the Notes held as business assets may be offset with positive income from realised capital gains that are investment income in the first place; 55 per cent. of the remaining losses may be offset against other income or carried forward.
- The acquisition costs of Notes held as business assets may also include ancillary costs incurred upon the acquisition.
- Loss off-setting is not made by the custodian, but can only be made in the assessment of the individual.

It is noted that expenses and costs (*Aufwendungen und Ausgaben*) directly connected with investment income are also not tax effective if the Notes are held as business assets.

- Corporate residents

Corporate investors deriving business income from the Notes may avoid the application of withholding tax by filing a declaration of exemption (*Befreiungserklärung*) with the Austrian withholding tax agent, who must forward a copy thereof to the tax office. Income derived from the Notes by corporate investors (including any capital gains) is subject to corporate income tax at the general corporate income tax rate of 25 per cent. Any Austrian withholding tax levied is credited as prepayment against the Austrian corporate income tax amount in the tax assessment of the corporate investor.

A special tax regime applies for private foundations (*Privatstiftungen*).

Notes held by non-residents

Non-resident investors, i.e., individuals who have neither a domicile nor their habitual abode in Austria and corporations that have neither their corporate seat nor their place of management in Austria ("*non-residents*") are not taxable in Austria with regard to their income from the Notes, provided the income is not attributable to a permanent establishment of the investor in Austria.

Since 1 January 2017 the taxation of interest income from the Notes was extended to all non-resident individuals (with the exception of persons resident in a country which takes part in the automatic information exchange). However, no such taxation of interest income applies to the Notes at hand in the case of non-resident investors, if the issuer – being not a bank – has neither its seat nor its place of management in Austria and under the condition that the issuer does not have a branch in Austria which is involved in the issuance of the Notes. The exemption of withholding tax requires (among others) a proof of the investor's non-residence (including certificate of residence of the investor). In case of any tax withheld a refund is possible to the non-resident investors upon application which has to be filed with the competent Austrian tax office.

Accrued interest in case of a sale or other disposition of the Notes (including the difference between the sales price and the acquisition cost in case of zero-coupon-bonds) is regarded as interest income subject to non-resident taxation if the debtor of the accrued interest (the acquirer of the Notes) has its seat, domicile or its place of management in Austria or is the branch of a foreign bank, and the sales transaction, in the course of which the accrued interest is paid, is handled by an Austrian paying agent. No taxation of interest income applies vis-à-vis non-resident corporate investors. No taxation of interest also applies vis-à-vis individuals who are residents in a country, with which Austria agreed on an automatic exchange of information, if an appropriate proof is provided by the investor. The proof must be furnished, among others, by means of a certificate of residence issued by the tax authorities of the investor's residence state and further documentation in case of corporations. In case of transparent partnerships the residence status of the partners is decisive. Moreover, tax withheld may be refundable to the non-resident investors upon their application which has to be filed with the competent Austrian tax office under the conditions mentioned or if a double tax treaty relief is available.

If a non-resident individual or corporation receives income from the Notes through an Austrian permanent establishment, they are to a large extent subject to the same tax treatment as resident investors, i.e., both interest income and capital gains received via the permanent establishment are subject to tax and also (in case of an Austrian withholding tax agent) to withholding tax, unless an exemption is applicable (see the description for Austrian resident investors).

Final note on withholding tax imposed in Austria

Assuming that neither of the Issuers uses a branch or permanent establishment in Austria for the payment of interest under the Notes, neither of the Issuers do assume any responsibility for Austrian withholding tax (*Kapitalertragsteuer*) charged in Austria at source and is not obliged to make additional payments in case of withholding tax deductions at source.

7. The proposed Financial Transaction Tax ("FTT")

On 14 February 2013, the European Commission published a proposal (the "**Commission's Proposal**") for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**participating Member States**"). Estonia has in the meanwhile stated that it will no longer participate.

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances. The issuance and subscription of Notes should, however, be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

However, the FTT proposal remains subject to negotiation between the participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate.

Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

8. U.S. Foreign Account Tax Compliance Act Withholding ("FATCA")

Pursuant to Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 (as amended by the Hiring Incentives to Restore Employment Act of 18 March 2010), commonly known as FATCA, a "foreign financial institution" may be required to withhold at a rate of 30 per cent. on certain payments it makes ("**foreign passthru payments**") to persons that fail to meet certain certification, reporting, or related requirements. A number of jurisdictions (including Germany and the Netherlands) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA ("**IGAs**"), which modify the way in which FATCA applies in their jurisdictions. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Notes, including whether withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, such withholding would not apply prior to 1 January 2019 (intended date) Notes issued on or prior to the date that is six months after the date on which final regulations defining "foreign passthru payments" are filed with the U.S. Federal Register generally would be "grandfathered" for purposes of FATCA withholding unless materially modified after such date (including by reason of a substitution of the Issuer). However, if additional notes (as described under "*Terms and Conditions— [§ 14] Further Issues and Purchases*") that are not distinguishable from previously issued Notes are issued after the expiration of the grandfathering period and are subject to withholding under FATCA, then withholding agents may treat all Notes, including the Notes offered prior to the expiration of the grandfathering period, as subject to withholding under FATCA. Holders should consult their own tax advisors regarding how these rules may apply to their investment in the Notes. In the event any withholding would be required pursuant to FATCA or an IGA with respect to payments on the Notes, the Issuer will not pay any additional amounts as a result of the withholding.

General Information

General

The relevant Final Terms will specify which clearing system or systems (including CBF, CBL and Euroclear) has/have accepted the relevant Notes for clearance and provide any further appropriate information.

Interest of Natural and Legal Persons involved in the issue of Notes

Certain of the Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for, one or both of the Issuers and their affiliates in the ordinary course of business. In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuers or the Issuers' affiliates. Certain of the Dealers or their affiliates that have a lending relationship with either of the Issuers routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Programme. Any such short positions could adversely affect future trading prices of Notes issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Selling Restrictions

1. General

Each Dealer has agreed that it will comply with all applicable securities laws and regulations in force in any jurisdiction in which it purchases, offers, sells or delivers Notes or possesses or distributes the Prospectus and will obtain any consent, approval or permission required by it for the purchase, offer, sale or delivery by it of Notes under the laws and regulations in force in any jurisdiction to which it is subject or in which it makes such purchases, offers, sales or deliveries and neither the Issuer nor the Guarantor (if Finance is the Issuer) and any other Dealer shall have any responsibility therefor.

Neither the Issuer nor the Guarantor (if Finance is the Issuer) and any of the Dealers has represented that Notes may at any time lawfully be sold in compliance with any applicable registration or other requirements in any jurisdiction, or pursuant to any exemption available thereunder, or assumes any responsibility for facilitating such sale.

2. United States of America

- (a) The Notes have not been and will not be registered under the Securities Act, and, may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act. Each Dealer has represented and agreed that it has not offered or sold, and will not offer or sell, any Note as part of its allotment within the United States except in accordance with Rule 903 of Regulation S under the Securities Act. Accordingly, each Dealer has further represented and agreed that neither it, its affiliates nor any persons acting on its or their behalf have engaged or will engage in any directed selling efforts with respect to a Note.
- (b) From and after the time that the Issuer notifies the Dealers in writing that it is no longer able to make the representation set forth in Article 4 (1)(o)(i) of the Dealer Agreement, each Dealer (i) acknowledges that the Notes have not been and will not be registered under the Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of U.S. persons except in accordance with Regulation S under the Securities Act or pursuant to an exemption from the registration requirements of the Securities Act; (ii) has represented and agreed that it has not offered and sold any Notes, and will not offer and sell any Notes (x) as part of its distribution at any time and (y) otherwise until 40 days after the later of the commencement of the offering and closing date only in accordance with Rule 903 of Regulation S under the Securities Act, and (iii) accordingly has further represented and agreed that neither it, its affiliates nor any persons acting on its or their behalf have engaged or will engage in any directed selling efforts with respect to any Note, and it and they have complied and will comply with the offering restrictions requirement of Regulation S; and (iv) has also agreed that at or prior to confirmation of any sale of Notes, it will have sent to each distributor, dealer or person receiving a selling concession, fee or other remuneration that purchases Notes from it during the distribution compliance period a confirmation or notice to substantially the following effect:

"The Securities covered hereby have not been registered under the U.S. Securities Act of 1933 (the "**Securities Act**") and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons by any person referred to in Rule 903 (b) (2) (iii) (i) as part of its distribution at any time or (ii) otherwise until 40 days after the later of the commencement of the offering and the closing date except in either case in accordance with Regulation S under the Securities Act. Terms used above have the meanings given to them by Regulation S."

- (c) Each Dealer who has purchased Notes of a Tranche hereunder (or in the case of a sale of a Tranche of Notes issued to or through more than one Dealer each of such Dealers as to the Notes of such Tranche purchased by or through it or, in the case of syndicated issue, the relevant Lead Manager) shall determine and notify to the Fiscal Agent the completion of the distribution of the Notes of such Tranche. On the basis of such notification or notifications, the Fiscal Agent has agreed to notify such Dealer/Lead Manager of the end of the distribution compliance period with respect to such Tranche.

Terms used in the above paragraph have the meanings given to them by Regulation S.

- (d) Each Dealer has represented and agreed that it has not entered and will not enter into any contractual arrangement with respect to the distribution or delivery of Notes, except with its affiliates or with the prior written consent of the Issuer.
- (e) Notes will be issued in accordance with the provisions of United States Treasury Regulation Section 1.163-5(c)(2)(i)(D) (the "**D Rules**") (or any successor rules in substantially the same form as the D Rules for purposes of Section 4701 of the U.S. Internal Revenue Code) as specified in the applicable Final Terms. In addition, each Dealer has represented and agreed that:
- (i) except to the extent permitted under the D Rules, (x) it has not offered or sold, and during the restricted period will not offer or sell, Notes to a person who is within the United States or its possessions or to a United States person, and (y) such Dealer has not delivered and will not deliver within the United States or its possessions Notes that are sold during the restricted period;
 - (ii) it has and throughout the restricted period will have in effect procedures reasonably designed to ensure that its employees or agents who are directly engaged in selling Notes are aware that such Notes may not be offered or sold during the restricted period to a person who is within the United States or its possessions or to a United States person, except as permitted by the D Rules;
 - (iii) if such Dealer is a United States person, it has represented that it is acquiring the Notes for purposes of resale in connection with their original issuance and if such Dealer retains Notes for its own account, it will only do so in accordance with the requirements of the D Rules; and
 - (iv) with respect to each affiliate that acquires from such Dealer Notes in bearer form for the purposes of offering or selling such Notes during the restricted period, such Dealer either (x) has repeated and confirmed the representations and the agreements contained in sub-clauses (i), (ii) and (iii) on such affiliate's behalf or (y) has agreed that it will obtain from such affiliate for the benefit of the Issuer the agreements contained in sub-clauses (i), (ii) and (iii).

Terms used in this paragraph (e) have the meanings given to them by the U.S. Internal Revenue Code and regulations thereunder, including the D Rules.

3. European Economic Area

Unless the Final Terms in respect of any Notes specify the "*Prohibition of Sales to EEA Retail Investors*" as "*Not Applicable*", each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by the Prospectus as completed by the Final Terms in relation thereto to any retail investor in the European Economic Area. For the purposes of this provision:

- (a) the term "retail investor" means a person who is one (or more) of the following:
- (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); or
 - (ii) a customer within the meaning of Directive 2002/92/EC (as amended, the "**Insurance Mediation Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
 - (iii) not a qualified investor as defined in the Prospectus Directive; and

- (b) the term an "offer" includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes.

If the Final Terms in respect of any Notes specify "Prohibition of Sales to EEA Retail Investors" as "Not Applicable", each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, in relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "**Relevant Member State**"), that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the "**Relevant Implementation Date**") it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Prospectus as completed by the Final Terms in relation thereto to the public in that Relevant Member State except that it may, with effect from and including the Relevant Implementation Date, make an offer of such Notes to the public in that Relevant Member State:

- (a) if the Final Terms in relation to the Notes specify an offer of those Notes other than pursuant to Article 3 (2) of the Prospectus Directive in that Relevant Member State (a "**Non-exempt Offer**"), following the date of publication of a prospectus in relation to such Notes which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, provided that any such prospectus has subsequently been completed by the Final Terms contemplating such Non-exempt Offer, in accordance with the Prospectus Directive, in the period beginning and ending on the dates specified in such prospectus or Final Terms, as applicable and the Issuer has consented in writing to its use for the purpose of that Non-exempt Offer;
- (b) at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (c) at any time to fewer than 150, natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the relevant Dealer(s) nominated by the Issuer for any such offer; or
- (d) at any time in any other circumstances falling within Article 3 (2) of the Prospectus Directive,

provided that no such offer of Notes referred to in (b) to (d) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression an "**offer of Notes to the public**" in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and the expression "**Prospectus Directive**" means Directive 2003/71/EC (as amended including by Directive 2010/73/EU) and includes the relevant implementing measure in the Relevant Member State.
