In addition, any statements concerning future financial performance (including future revenues, earnings or growth rates), ongoing business strategies or prospects, and possible future actions by BHFC or Berkshire, which may be provided by management are also forward-looking statements as defined by the Private Securities Litigation Reform Act of 1995. These statements are not guarantees of future performance and neither BHFC nor Berkshire has any specific intention to update these statements.

Actual events and results may differ materially from those expressed or forecasted in forward-looking statements due to a number of factors. The principal important risk factors that could cause Berkshire’s actual performance and future events and actions to differ materially from such forward-looking statements, include, but are not limited to, continuing volatility in the capital or credit markets and other changes in the securities and capital markets, changes in market prices of Berkshire’s investments in fixed maturity and equity securities, losses realized from derivative contracts, the occurrence of one or more catastrophic events, such as an earthquake, hurricane, or act of terrorism that causes losses insured by Berkshire’s insurance subsidiaries, changes in laws or regulations, changes in federal income tax laws, and changes in general economic and market factors that affect the prices of securities or the industries in which Berkshire and its affiliates do business.

Unless required by law, neither BHFC nor Berkshire undertakes any obligation to publicly update or revise any forward-looking statements to reflect events or developments after the date of this prospectus supplement.

Conflicts of Interest

Berkshire owns more than 10% of the outstanding preferred stock of Bank of America Corporation, the parent company of Merrill Lynch, Pierce, Fenner & Smith Incorporated. Accordingly, this offering is being made in compliance with the requirements of Rule 5121 of the Financial Industry Regulatory Authority. Because the notes to be offered will be rated investment grade, pursuant to Rule 5121, the appointment of a qualified independent underwriter is not necessary. Merrill Lynch, Pierce, Fenner & Smith Incorporated will not confirm sales of the debt securities to any account over which it exercises discretionary authority without the prior written approval of the customer.

[Table of Contents](#)**RISK FACTORS**

An investment in our securities involves some degree of risk. Prior to making a decision about investing in our securities, you should carefully consider the risks described in the section entitled "Risk Factors" in any prospectus supplement and the risks described in Berkshire's most recent Annual Report on Form 10-K filed with the SEC, in each case as these risk factors are amended or supplemented by subsequent Quarterly Reports on Form 10-Q. The occurrence of any of these risks could materially adversely affect our business, operating results and financial condition.

The risks and uncertainties we describe are not the only ones facing us. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also impair our business or operations. Any adverse effect on our business, financial condition or operating results could result in a decline in the value of our securities and the loss of all or part of your investment.

There is currently no trading market for the notes and an active trading market for the notes may not develop.

The notes are new issues of securities with no established trading market, and we do not intend to list them on any securities exchange or automated quotation system. As a result, an active trading market for the notes may not develop, or if one does develop, it may not be sustained. If an active trading market fails to develop or cannot be sustained, you may not be able to resell your notes at their fair market value or at all.

DESCRIPTION OF THE NOTES AND GUARANTEES

The following description of certain material terms of the notes and the guarantees does not purport to be complete.

This description of the notes and guarantees is intended to be an overview of the material provisions of the notes and the guarantees and is intended to supplement, and to the extent of any inconsistency replace, the description of the general terms and provisions of the debt securities set forth in the accompanying prospectus, to which we refer you. The notes and the guarantees will be issued under an indenture, dated as of February 1, 2010 (the “indenture”), among Berkshire Hathaway Inc., Berkshire Hathaway Finance Corporation and The Bank of New York Mellon Trust Company, N.A., a national banking association, as trustee (the “trustee”). Since this description of the notes and guarantees is only a summary, we urge you to read the indenture (including definitions of terms used therein) and the forms of notes and guarantees because they, and not this description, define your rights as a beneficial holder of the notes. You may request copies of these documents from us at our address set forth above under “Summary—Berkshire Hathaway Finance Corporation.” The indenture and the forms of the notes, including the guarantees to be endorsed thereon, are included or incorporated by reference as an exhibit to the registration statement of which this prospectus supplement forms a part.

General

The \$550,000,000 2.900% Senior Notes due 2020 offered by this prospectus supplement will be issued as a separate series under the indenture. The notes will be our senior unsecured obligations and will be initially limited in aggregate principal amount to \$550,000,000. The \$400,000,000 0.950% Senior Notes due 2016 offered by this prospectus supplement will become part of the same series with, and will be designated by the same CUSIP number as, our outstanding series of 0.950% Senior Notes due 2016 originally issued on August 15, 2013. Upon the issuance of the 0.950% Senior Notes due 2016 offered by this prospectus supplement, the outstanding aggregate principal amount of the 0.950% Senior Notes due 2016 will be \$1,000,000,000.

The 2.900% Senior Notes due 2020 and the 0.950% Senior Notes due 2016 will be referred to herein as the notes.

We may at any time, without notice to or consent of the holders of the notes offered by this prospectus supplement, issue additional notes of the same series as any series of the notes offered hereby. Any such additional notes will have the same ranking, interest rate, maturity date and other terms as such series of notes offered hereby, except for possible variations permitted under the indenture. Any such additional notes, together with the notes offered hereby of such series and, in the case of the 0.950% Senior Notes due 2016, the notes of such series previously issued, will constitute a single series of notes under the indenture.

The entire principal amount of the 2.900% Senior Notes due 2020 will mature and become due and payable, together with any accrued and unpaid interest thereon, on October 15, 2020. The entire principal amount of the 0.950% Senior Notes due 2016 will mature and become due and payable, together with any accrued and unpaid interest thereon, on August 15, 2016. The notes will have the benefit of an unconditional and irrevocable guarantee from Berkshire.

The notes of each series will be evidenced by one or more global notes deposited with a custodian for and registered in the name of a nominee of DTC. Except as described herein, beneficial interests in the global notes will be shown on, and transfers thereof will be effected only through, records maintained by DTC and its direct and indirect participants. See “—Book-Entry Delivery and Form.”

You will not have the right to cause us to repurchase the notes in whole or in part at any time before they mature. The notes are not subject to a sinking fund provision.

Interest

The 2.900% Senior Notes due 2020 will accrue interest at a rate of 2.900% per annum. The 0.950% Senior Notes due 2016 will accrue interest at a rate of 0.950% per annum. The 2.900% Senior Notes due 2020 offered by this prospectus supplement will accrue interest on their stated principal amount from October 15, 2013, or from the most recent date to which interest has been paid or duly provided for, and accrued and unpaid interest will be payable semi-annually in arrears on April 15 and October 15, which we refer to as “2.900% Senior Notes interest payment dates,” commencing on April 15, 2014. The 0.950% Senior Notes due 2016 offered by this prospectus supplement will accrue interest on their stated principal amount from August 15, 2013, or from the most recent date to which interest has been paid or duly provided for, and accrued and unpaid interest will be payable semi-annually in arrears on February 15 and August 15, which we refer to as “0.950% Senior Notes interest payment dates,” commencing on February 15, 2014.

The amount of interest payable on the notes for any full semi-annual interest period will be computed on the basis of a 360-day year of twelve 30-day months. The amount of interest payable for any period shorter than a full semi-annual interest period for which interest is computed will be computed on the basis of 30-day months and, for periods of less than a month, the actual number of days elapsed per 30-day month. If any date on which interest is payable on the notes is not a business day, then payment of the interest payable on such date will be made on the next succeeding day that is a business day (and without any interest or other payment in respect of any such delay) with the same force and effect as if made on such interest payment date. For purposes of this prospectus supplement, a “business day” means any day, other than a Saturday or Sunday, that is not a day on which banking institutions in the Borough of Manhattan, The City of New York are authorized or required by law, regulation or executive order to close.

Any amounts payable on any notes that are not punctually paid on any payment date will cease to be payable to the person in whose name such notes are registered on the relevant record date, and such defaulted payment will instead be payable to the person in whose name such notes are registered on the special record date or other specified date determined in accordance with the indenture.

Guarantee of Notes

Berkshire will unconditionally and irrevocably guarantee the payment of all of BHFC’s obligations under each series of notes offered hereby pursuant to a guarantee to be endorsed on the notes offered hereby, the form of which is included in the indenture, which is filed as an exhibit to the registration statement of which this prospectus forms a part. If we default in the payment of the principal of, or premium, if any, or interest on, such notes when and as the same shall become due, whether upon maturity, acceleration, or otherwise, without the necessity of action by the trustee or any holder of such notes, Berkshire shall be required promptly and fully to make such payment.

As of June 30, 2013, Berkshire had no secured indebtedness and \$8.3 billion of indebtedness, and its subsidiaries had \$55.6 billion of indebtedness.

Optional Redemption

We will have the option to redeem the notes in whole or in part, at any time, at a redemption price equal to the greater of (A) 100% of the principal amount of the notes to be redeemed or (B) as determined by the quotation agent described below, the sum of the present values of the remaining scheduled payments of principal and interest on the notes to be redeemed, not including any portion of such payments of interest accrued as of the date on which the notes are to be redeemed, discounted to the date on which the notes are to be redeemed on a semi-annual basis assuming a 360-day year consisting of twelve 30-day months, at the adjusted treasury rate described below plus 15 basis points with respect to the 2.900% Senior Notes due 2020 or 7.5 basis points with respect to the 0.950% Senior Notes due 2016, in each case, plus accrued and unpaid interest on the notes to be redeemed to the date on which such notes are to be redeemed.

We will utilize the following procedures to calculate the adjusted treasury rate described in the previous paragraph. In the case of the 2.900% Senior Notes due 2020, we will appoint Goldman, Sachs & Co., J.P. Morgan Securities LLC, Merrill Lynch, Pierce, Fenner & Smith Incorporated and a primary U.S. government securities dealer in New York City selected by Wells Fargo Securities, LLC or their respective successors as reference dealers, and we will appoint Merrill Lynch, Pierce, Fenner & Smith Incorporated or its successor to act as our quotation agent. In the case of the 0.950% Senior Notes due 2016, we will appoint Goldman, Sachs & Co., Merrill Lynch, Pierce, Fenner & Smith Incorporated and a primary U.S. government securities dealer in New York City selected by Wells Fargo Securities, LLC or their respective successors, and one or more other primary U.S. Government securities dealers in New York City as reference dealers, and we will appoint Merrill Lynch, Pierce, Fenner & Smith Incorporated or its successor to act as our quotation agent. If any of the foregoing or their respective successors are no longer a primary U.S. Government securities dealer in New York City, we will substitute another primary U.S. Government securities dealer in New York City in its place as a reference dealer.

The quotation agent will select a United States Treasury security which has a maturity comparable to the remaining maturity of the notes to be redeemed which would be used in accordance with customary financial practice to price new issues of corporate debt securities with a maturity comparable to the remaining maturity of such notes. The reference dealers will provide us with the bid and asked prices for that comparable United States Treasury security as of 5:00 p.m. (New York City time) on the third business day before the redemption date. We will calculate the average of the bid and asked prices provided by each reference dealer, eliminate the highest and the lowest reference dealer quotations and then calculate the average of the remaining reference dealer quotations. However, if we obtain fewer than three reference dealer quotations, we will calculate the average of all the reference dealer quotations and not eliminate any quotations. We call this average quotation the comparable treasury price. The adjusted treasury rate with respect to the notes to be redeemed will be the semi-annual equivalent yield to maturity of a security whose price is equal to the applicable comparable treasury price, in each case expressed as a percentage of its principal amount.

We may redeem the notes at any time on a redemption date of our choice. However, we must give the holders of such notes notice of the redemption not less than 30 days or more than 60 days before the redemption date. We will give the notice in the manner described under "—Notices." If we elect to redeem fewer than all the notes of a series, the trustee will select the particular notes to be redeemed by such method that the trustee deems fair and appropriate.

Book-Entry Delivery and Form

General

The notes offered hereby will be issued in registered, global form in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. The notes will be issued on the issue date therefor only against payment in immediately available funds.

The notes of each series offered hereby initially will be represented by one or more permanent global certificates (which may be subdivided) in definitive, fully registered form without interest coupons, which we refer to as the “global notes.”

The global notes will be deposited upon issuance with the trustee as custodian for DTC in New York, New York, and registered in the name of DTC or its nominee for credit to an account of a direct or indirect participant in DTC (including the Euroclear Bank S.A./N.V. (“Euroclear”) or Clearstream Banking, société anonyme (“Clearstream”)), as described below under “—Depository Procedures.”

Except as set forth below, the global notes may be transferred, in whole and not in part, only to DTC, to another nominee of DTC or to a successor of DTC or its nominee. Beneficial interests in the global notes may not be exchanged for notes in certificated form except in the limited circumstances described below under “—Exchange of Book-Entry Notes for Certificated Notes.”

Transfers of beneficial interests in the global notes will be subject to the applicable rules and procedures of DTC and its direct or indirect participants (including, if applicable, those of Euroclear and Clearstream), which may change from time to time.

Depository Procedures

The following description of the operations and procedures of DTC, Euroclear and Clearstream is provided solely as a matter of convenience. These operations and procedures are solely within the control of the respective settlement systems and are subject to changes by them. We take no responsibility for these operations and procedures and urge investors to contact the systems or their participants directly to discuss these matters.

DTC is a limited-purpose trust company created to hold securities for its participating organizations, referred to as “participants,” and facilitate the clearance and settlement of transactions in those securities between DTC’s participants through electronic book-entry changes in accounts of its participants. DTC’s participants include securities brokers and dealers (including the underwriters), banks, trust companies, clearing corporations and certain other organizations. Access to DTC’s system is also available to other entities such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a DTC participant, either directly or indirectly, which entities are referred to as “indirect participants.” Persons who are not DTC participants may beneficially own securities held by or on behalf of DTC only through participants or indirect participants. DTC has no knowledge of the identity of beneficial owners of securities held by or on behalf of DTC. DTC’s records reflect only the identity of its participants to whose accounts securities are credited. The ownership interests and transfer of ownership interests of each beneficial owner of each security held by or on behalf of DTC are recorded on the records of DTC’s participants and indirect participants.

Pursuant to procedures established by DTC:

- upon deposit of the global notes, DTC will credit the accounts of its participants designated by the underwriters with portions of the principal amount of the global notes; and
- ownership of such interests in the global notes will be maintained by DTC (with respect to its participants) or by DTC’s participants and indirect participants (with respect to other owners of beneficial interests in the global notes).

Table of Contents

Investors in the global notes may hold their interests therein directly through DTC, if they are participants in such system, or indirectly through organizations (including Euroclear and Clearstream) that are participants or indirect participants in such system. Euroclear and Clearstream will hold interests in the notes on behalf of their participants through customers' securities accounts in their respective names on the books of their respective depositaries, which are Euroclear Bank, S.A./N.V., as operator of Euroclear, and Citibank, N.A., as operator of Clearstream. The depositaries, in turn, will hold interests in the notes in customers' securities accounts in the depositaries' names on the books of DTC.

All interests in a global note, including those held through Euroclear or Clearstream, will be subject to the procedures and requirements of DTC. Those interests held through Euroclear or Clearstream will also be subject to the procedures and requirements of these systems. The laws of some jurisdictions require that certain persons take physical delivery of certificates evidencing securities they own. Consequently, the ability to transfer beneficial interests in a global note to such persons will be limited to that extent. Because DTC can act only on behalf of its participants, which in turn act on behalf of indirect participants, the ability of beneficial owners of interests in a global note to pledge such interests to persons or entities that do not participate in the DTC system, or otherwise take actions in respect of such interests, may be affected by the lack of a physical certificate evidencing such interests. For certain other restrictions on the transferability of the notes, see “—Exchange of Book-Entry Notes for Certificated Notes.”

Except as described below, owners of interests in the global notes will not have notes registered in their names, will not receive physical delivery of notes in certificated form and will not be considered the registered owners or holders thereof under the indenture for any purpose.

Payments in respect of the principal of, and interest on, a global note registered in the name of DTC or its nominee will be payable by the trustee (or the paying agent if other than the trustee) to DTC in its capacity as the registered holder under the indenture. We and the trustee will treat the persons in whose names the notes, including the global notes, are registered as the owners thereof for the purpose of receiving such payments and for any and all other purposes whatsoever. Consequently, neither we nor the trustee or any of our respective agents has or will have any responsibility or liability for:

- any aspect of DTC's records or any participant's or indirect participant's records relating to or payments made on account of beneficial ownership interests in the global notes, or for maintaining, supervising or reviewing any of DTC's records or any participant's or indirect participant's records relating to the beneficial ownership interests in the global notes; or
- any other matter relating to the actions and practices of DTC or any of its participants or indirect participants.

DTC has advised us that its current practice, upon receipt of any payment in respect of securities such as the notes (including principal and interest), is to credit the accounts of the relevant participants with the payment on the payment date in amounts proportionate to their respective holdings in the principal amount of the relevant security as shown on the records of DTC, unless DTC has reason to believe it will not receive payment on such payment date. Payments by the participants and the indirect participants to the beneficial owners of notes will be governed by standing instructions and customary practices and will be the responsibility of the participants or the indirect participants and will not be the responsibility of DTC, the trustee or us. Neither we nor the trustee will be liable for any delay by DTC or any of its participants in identifying the beneficial owners of the notes, and we and the trustee may conclusively rely on and will be protected in relying on instructions from DTC or its nominee for all purposes.

Transfers between participants in DTC will be effected in accordance with DTC's procedures, and will be settled in same day funds, and transfers between participants in Euroclear and Clearstream will be effected in accordance with their respective rules and operating procedures.

Table of Contents

Cross-market transfers between participants in DTC, on the one hand, and Euroclear or Clearstream participants, on the other hand, will be effected through DTC in accordance with DTC's rules on behalf of Euroclear or Clearstream, as the case may be, by their depositaries. Cross-market transactions will require delivery of instructions to Euroclear or Clearstream, as the case may be, by the counterparty in that system in accordance with the rules and procedures and within the established deadlines (Brussels time) of that system. Euroclear or Clearstream, as the case may be, will, if the transaction meets its settlement requirements, deliver instructions to its respective depositaries to take action to effect final settlement on its behalf by delivering or receiving interests in the relevant global note in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Euroclear and Clearstream participants may not deliver instructions directly to the depositaries for Euroclear or Clearstream.

Because of time zone differences, the securities account of a Euroclear or Clearstream participant purchasing an interest in a global note from a participant in DTC will be credited and reported to the relevant Euroclear or Clearstream participant, during the securities settlement processing day (which must be a business day for Euroclear and Clearstream) immediately following the settlement date of DTC. DTC has advised us that cash received in Euroclear or Clearstream as a result of sales of interests in a global note by or through a Euroclear or Clearstream participant to a participant in DTC will be received with value on the settlement date of DTC but will be available in the relevant Euroclear or Clearstream cash account only as of the business day for Euroclear or Clearstream following DTC's settlement date.

DTC has advised us that it will take any action permitted to be taken by a holder of notes only at the direction of one or more participants to whose account with DTC interests in the global notes are credited and only in respect of such portion of the aggregate principal amount of the notes as to which such participant or participants has or have given such direction.

Although DTC, Euroclear and Clearstream have agreed to the foregoing procedures to facilitate transfers of interests in the global notes among participants in DTC, Euroclear and Clearstream, they are under no obligation to perform or to continue to perform such procedures, and the procedures may be discontinued at any time. None of us, Berkshire or the trustee will have any responsibility for the performance by DTC, Euroclear or Clearstream or their respective participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

The information in this section concerning DTC, Euroclear and Clearstream and their book-entry systems has been obtained from sources that we believe to be reliable, but we take no responsibility for the accuracy thereof.

Exchange of Book-Entry Notes for Certificated Notes

The global notes are exchangeable for certificated notes in definitive, fully registered form without interest coupons only in the following limited circumstances:

- DTC notifies us that (1) it is unwilling or unable to continue as depositary for the global notes or (2) it has ceased to be a clearing agency registered under the Exchange Act,
- if there shall have occurred and be continuing an event of default with respect to the notes, or
- if we determine, in our sole discretion, that the global notes are exchangeable in accordance with the terms of the indenture.

In all cases, certificated notes delivered in exchange for any global note or beneficial interests therein will be registered in the names, and issued in any approved denominations, requested by or on behalf of DTC (in accordance with its customary procedures).

Notices

Except as otherwise described herein, notice to registered holders of the notes will be given by mail to the addresses as they appear in the security register. Notices will be deemed to have been given on the date of such mailing.

MATERIAL UNITED STATES FEDERAL INCOME AND ESTATE TAX CONSIDERATIONS

The following is a summary of the material U.S. federal income and estate tax considerations that may be relevant to initial holders of the notes. The summary is limited to holders that purchase notes in the initial offering for cash at their initial offering price, and that hold the notes as capital assets within the meaning of Section 1221 of the Internal Revenue Code of 1986, as amended (the “Code”) (generally, for investment). The summary does not purport to address all of the tax considerations that may be relevant to a particular holder or to deal with the tax considerations that may be relevant to holders in special tax situations, such as banks, thrifts, real estate investment trusts, regulated investment companies, partnerships and other pass-through entities, insurance companies, dealers in securities or currencies, traders in securities electing to mark to market, foreign persons (except to the extent specifically provided below), tax-exempt organizations, expatriates and certain former citizens or long-term residents of the U.S., persons holding notes as part of a straddle, hedge, conversion transaction, “synthetic security” or other integrated investment, persons deemed to sell the notes under the constructive sale provisions of the Code, or U.S. holders (as defined below) whose “functional currency” is not the U.S. dollar, nor does it address alternative minimum taxes or state, local, or foreign taxes.

If a partnership (including any entity treated as a partnership for U.S. federal income tax purposes) or other pass-through entity holds notes, the tax treatment of a partner or a member generally will depend upon the status of the partner or the member and upon the activities of the partnership or pass-through entity. A partnership or pass-through entity considering a purchase of the notes, and partners or members in such a partnership or pass-through entity, should consult their own tax advisors regarding the tax consequences to them of the purchase, ownership and disposition of the notes.

Under the terms of the notes, we may be obligated in certain circumstances to pay amounts in excess of stated interest or principal on the notes. It is possible that the Internal Revenue Service (“IRS”) could assert that the payment of such excess amounts is a “contingent payment” and the notes are therefore contingent payment debt instruments for U.S. federal income tax purposes. Under the applicable Treasury regulations, however, for purposes of determining whether a debt instrument is a contingent payment debt instrument, remote or incidental contingencies (determined as of the issue date) are ignored. We believe that the possibility of making additional payments is remote and/or incidental. Accordingly, we do not intend to treat the notes as contingent payment debt instruments. Our position will be binding on holders of the notes, unless a holder timely and explicitly discloses to the IRS that it takes a position different from ours. Our position, however, is not binding on the IRS. If the IRS successfully challenges this position, the timing and amount of income included and the character of the income recognized with respect to the notes may be materially different from the consequences discussed herein. Holders should consult their own tax advisors regarding this issue. The remainder of this discussion assumes that the notes are not treated as contingent payment debt instruments.

This summary is based upon the Code, Treasury regulations, IRS rulings and pronouncements and administrative and judicial decisions currently in effect, all of which are subject to change (possibly with retroactive effect) or possible differing interpretations. No ruling has been or will be sought from the IRS with respect to the U.S. federal income tax consequences of the purchase, ownership and disposition of the notes. As a result, the IRS could disagree with portions of this discussion.

Persons considering a purchase of the notes should consult their own tax advisors with respect to the tax consequences to them of the purchase, ownership and disposition of the notes in light of their own particular circumstances, including the tax consequences under state, local, foreign and other tax laws and the possible effects of any changes in applicable tax laws.

[Table of Contents](#)

Consequences to U.S. Holders

The following discussion summarizes the material U.S. federal income tax considerations relevant to a U.S. holder. For purposes of this discussion, the term “U.S. holder” means a beneficial owner of the notes that is (1) an individual who is a citizen or resident of the United States, (2) a corporation or other entity treated as a corporation for U.S. federal income tax purposes, in each case, that is created or organized in or under the laws of the United States or any political subdivision thereof, (3) a trust if it (i) is subject to the primary supervision of a U.S. court and the control of one or more U.S. persons or (ii) has a valid election in effect under applicable Treasury regulations to be treated as a U.S. person, or (4) an estate, the income of which is subject to U.S. federal income tax regardless of its source.

Pre-Issuance Accrued Interest

The initial offering price for the 0.950% Senior Notes due 2016 offered by this prospectus supplement will include amounts attributable to interest accrued from August 15, 2013, which we call “pre-issuance accrued interest.” Pre-issuance accrued interest will be included in the accrued interest to be paid on the 0.950% Senior Notes due 2016 on the first interest payment date after the issuance of the 0.950% Senior Notes due 2016. In accordance with applicable Treasury regulations, for U.S. federal income tax purposes, we will treat the 0.950% Senior Notes due 2016 as having been purchased for a price that does not include any pre-issuance accrued interest. If the 0.950% Senior Notes due 2016 are so treated, the portion of the first stated interest payment equal to the pre-issuance accrued interest will be treated as a nontaxable return of such pre-issuance accrued interest and, accordingly, will not be taxable as interest on the 0.950% Senior Notes due 2016.

Payments or Accruals of Interest

Payments or accruals of interest on a note (other than any pre-issuance accrued interest excluded from the purchase price of a 0.950% Senior Note due 2016, as discussed above under “—Pre-Issuance Accrued Interest”) will be taxable to U.S. holders as ordinary interest income at the time such U.S. holders receive or accrue such amounts (in accordance with a holder’s regular method of tax accounting).

Amortizable Premium

If a U.S. holder’s initial purchase price for a 0.950% Senior Note due 2016 (excluding any pre-issuance accrued interest excluded from the purchase price of a 0.950% Senior Note due 2016, as discussed above under “—Pre-Issuance Accrued Interest”) exceeds the stated principal amount of such 0.950% Senior Note due 2016, the holder will be considered to have amortizable bond premium equal to such excess. A U.S. holder generally may elect to amortize the premium over the remaining term of such 0.950% Senior Note due 2016 on a constant yield method as an offset to interest when includible in income under the holder’s regular method of tax accounting. However, because the 0.950% Senior Notes due 2016 may be redeemed by us prior to maturity at a premium, special rules apply that may reduce or eliminate the amount of premium that a U.S. holder may amortize with respect to the 0.950% Senior Notes due 2016. U.S. holders should consult their tax advisors about these special rules. If a U.S. holder makes this election, the holder will be required to reduce its adjusted tax basis in such 0.950% Senior Note due 2016 by the amount of the premium amortized. If a U.S. holder does not make this election, the premium will decrease the gain or increase the loss the holder would otherwise recognize on disposition of such 0.950% Senior Note due 2016. An election to amortize premium on a constant yield method will also apply to all other taxable debt instruments held or subsequently acquired by a U.S. holder on or after the first day of the first taxable year for which the election is made. Such an election may not be revoked without the consent of the IRS. U.S. holders should consult their own tax advisors about this election.

Sale, Exchange, Redemption or Other Disposition of the Notes

When a U.S. holder disposes of a note by sale, exchange, redemption or other disposition, the holder will generally recognize gain or loss equal to the difference between the amount the holder realizes on the transaction

[Table of Contents](#)

(less any accrued interest, which will be subject to tax in the manner described above under “—Payments or Accruals of Interest”) and the holder’s adjusted tax basis in the note. A U.S. holder’s adjusted tax basis in a note will generally equal the cost of the note to the holder (less any amount attributable to pre-issuance accrued interest that is excluded from the purchase price of a 0.950% Senior Note due 2016, as discussed above under “—Pre-Issuance Accrued Interest”), reduced by any amortized premium.

The gain or loss that a U.S. holder recognizes on the sale, exchange, redemption or other disposition of a note will generally be capital gain or loss. The capital gain or loss on the sale, exchange, redemption or other disposition of a note will be long-term capital gain or loss if the holder held the note for more than one year on the date of disposition. Capital gains recognized by individuals on assets held for longer than one year are subject to taxation at preferential rates. The tax deductibility of capital losses is subject to limitations.

3.8% Medicare Tax On “Net Investment Income”

U.S. holders that are individuals, estates, and certain trusts are subject to an additional 3.8% tax on all or a portion of their “net investment income,” which may include the interest payments and any gain realized with respect to the notes, to the extent of their net investment income that, when added to their other modified adjusted gross income, exceeds certain threshold amounts (generally \$200,000 for an unmarried individual, \$250,000 for a married taxpayer filing a joint return (or a surviving spouse), or \$125,000 for a married individual filing a separate return). U.S. holders should consult their advisors with respect to their consequences with respect to the 3.8% Medicare tax.

Backup Withholding and Information Reporting

Unless a U.S. holder is an exempt recipient, payments under the notes or proceeds received from the sale of the notes will generally be subject to information reporting and will generally also be subject to U.S. federal backup withholding tax if such U.S. holder fails to supply an accurate taxpayer identification number or otherwise fails to comply with applicable U.S. information reporting or certification requirements. Any amounts so withheld do not constitute a separate tax and will be allowed as a refund or a credit against the U.S. holder’s U.S. federal income tax liability, provided that the required information is timely furnished to the IRS.

Consequences to Non-U.S. Holders

The following discussion summarizes the material U.S. federal income and estate tax considerations relevant to a non-U.S. holder. For purposes of this discussion, the term “non-U.S. holder” means a beneficial owner of the notes that is for U.S. federal income tax purposes a nonresident alien individual, a foreign corporation, or a trust or estate that is not a U.S. holder. In addition, for purposes of this discussion, interest does not include any pre-issuance accrued interest excluded from the purchase price of a 0.950% Senior Note due 2016, as discussed above under “—Consequences to U.S. Holders—Pre-Issuance Accrued Interest.”

Payments of Interest

Payments of interest on the notes made to a non-U.S. holder will generally be exempt from U.S. federal income and withholding tax, provided that:

- the non-U.S. holder does not own, actually or constructively, 10 percent or more of the total combined voting power of all classes of Berkshire Hathaway Finance Corporation’s stock entitled to vote, and is not a controlled foreign corporation related, directly or indirectly, to Berkshire Hathaway Finance Corporation through stock ownership;
- the non-U.S. holder is not a bank receiving interest on a loan entered into the ordinary course of its trade or business;

Table of Contents

- the non-U.S. holder certifies on IRS Form W-8BEN (or a successor form), under penalties of perjury, that it is a non-U.S. holder and provides its name and address or otherwise satisfies applicable documentation requirements; and
- the payments are not effectively connected with the conduct by the non-U.S. holder of a trade or business in the United States.

If a non-U.S. holder cannot satisfy the requirements described above, payments of interest made to such non-U.S. holder will be subject to a 30% U.S. federal withholding tax, unless such non-U.S. holder provides us with a properly executed:

- IRS Form W-8BEN (or a successor form) claiming an exemption from or reduction in withholding under the benefit of an applicable tax treaty; or
- IRS Form W-8ECI (or a successor form) stating that interest paid on the notes is not subject to withholding tax because it is effectively connected with the non-U.S. holder's conduct of a trade or business in the United States.

If payments of interest on the notes are effectively connected with the conduct by a non-U.S. holder of a trade or business in the United States (and, where a tax treaty applies, are attributable to a United States permanent establishment), then such non-U.S. holder will be subject to U.S. federal income tax on such interest payments on a net income basis in the same manner as a U.S. holder (but without regard to the 3.8% Medicare tax, described above), although such non-U.S. holder will be exempt from the 30% U.S. federal withholding tax if the certification requirements discussed above are satisfied. In addition, a non-U.S. holder that is a foreign corporation may be subject to an additional branch profits tax equal to 30% (or lower applicable tax treaty rate) of such interest, subject to adjustments.

Sale, Exchange, Redemption or Other Disposition of the Notes

Any gain realized by a non-U.S. holder upon a sale, exchange, redemption or other disposition of the notes will generally not be subject to U.S. federal income tax, unless:

- the gain is effectively connected with the conduct of a trade or business in the United States by the non-U.S. holder (and, where a tax treaty applies, is attributable to a United States permanent establishment); or
- the non-U.S. holder is an individual who is present in the United States for 183 days or more in the taxable year of the disposition and certain other conditions are met.

Any gain realized by a non-U.S. holder upon a sale, exchange, redemption or other disposition of the notes that is effectively connected with the conduct by the non-U.S. holder of a trade or business in the United States (and, where a tax treaty applies, is attributable to a United States permanent establishment) will generally be taxable as discussed above with respect to effectively connected interest on the notes. If a non-U.S. holder is subject to United States federal income tax because the non-U.S. holder is an individual who is present in the United States for 183 days or more in the taxable year of the disposition, any gain realized by the non-U.S. holder on the sale, exchange, redemption or other disposition of the notes that is not effectively connected with the conduct by the non-U.S. holder of a trade or business in the United States will be subject to a flat 30% tax on the gain derived from such disposition (unless determined otherwise under an applicable income tax treaty), which gain may be offset by United States-source capital losses.

Estate Tax

A note will generally not be subject to U.S. federal estate tax as a result of the death of a holder who is not a citizen or resident of the United States (as specifically defined for estate tax purposes) at the time of death, provided that the holder did not at the time of death actually or constructively own 10 percent or more of the

[Table of Contents](#)

combined voting power of all classes of Berkshire Hathaway Finance Corporation's stock entitled to vote and, at the time of the holder's death, payments of interest on the note would not have been effectively connected with the conduct by the holder of a trade or business in the United States.

Backup Withholding and Information Reporting

Generally, we must report to the IRS and to each non-U.S. holder the amount of interest paid to such non-U.S. holder and the amount of tax, if any, withheld with respect to those payments. These reporting requirements apply regardless of whether withholding is reduced or eliminated by the Code or an applicable income tax treaty. Copies of the information returns reporting such interest payments and any withholding may also be made available to the tax authorities in the country in which a non-U.S. holder resides under the provisions of an applicable tax treaty.

In general, a non-U.S. holder will not be subject to U.S. federal backup withholding with respect to payments of interest on the notes if the non-U.S. holder provides an IRS Form W-8BEN (or a successor form) with respect to such payments or otherwise satisfies applicable documentation requirements. In addition, no information reporting or backup withholding will generally be required with respect to the proceeds of a sale of the notes by a non-U.S. holder made within the United States or conducted through certain United States-related financial intermediaries if the payor receives such a form or the non-U.S. holder otherwise establishes an exemption.

Backup withholding is not an additional tax and any amounts so withheld will be allowed as a refund or a credit against the non-U.S. holder's U.S. federal income tax liability, provided that the required information is timely furnished to the IRS.

In addition, the underwriters may allow, and those selected dealers may reallow, a concession of up to (i) 0.100% of the principal amount of the 2.900% Senior Notes due 2020 and (ii) 0.050% of the principal amount of the 0.950% Senior Notes due 2016 to certain other dealers. After the initial offering, the underwriters may change the public offering price and any other selling terms. The underwriters may offer and sell notes through certain of their affiliates. The offering of the notes by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part.

In the underwriting agreement, we have agreed that, subject to certain exceptions, we will indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act, or contribute to payments that the underwriters may be required to make in respect of those liabilities.

The following table shows the underwriting discounts that we will pay to the underwriters in connection with this offering of notes:

	<u>Underwriting Discounts paid by us</u>	
	<u>Per Note</u>	<u>Total</u>
2.900% Senior Notes due 2020	0.375%	\$2,062,500
0.950% Senior Notes due 2016	0.200%	\$ 800,000
Total	—	<u>\$2,862,500</u>

We estimate that we will spend approximately \$1.4 million for printing, rating agency fees, trustee and legal fees and other expenses related to this offering.

The notes are new issues of securities with no established trading market. We do not intend to apply for the notes to be listed on any securities exchange or to arrange for the notes to be quoted on any quotation system. The underwriters have advised us that they intend to make a market in the notes. However, they are not obligated to do so and may discontinue any market making at any time in their sole discretion. Therefore, we cannot assure you that a liquid trading market will develop for the notes, that you will be able to sell your notes at a particular time or that the prices that you receive when you sell will be favorable.

In connection with the offering, the underwriters may engage in overallotment, stabilizing transactions and syndicate covering transactions. Overallotment involves sales in excess of the offering size, which creates a short position for the underwriters. Stabilizing transactions involve bids to purchase the notes in the open market for the purpose of pegging, fixing or maintaining the price of the notes. Syndicate covering transactions involve purchases of the notes in the open market after the distribution has been completed in order to cover short positions. Stabilizing transactions and syndicate covering transactions may cause the price of the notes to be higher than it would otherwise be in the absence of those transactions. If the underwriters engage in stabilizing or syndicate covering transactions, they may discontinue them at any time. The underwriters also may impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the underwriters have repurchased notes sold by or for the account of such underwriter in stabilizing or short covering transactions.

Each underwriter and its affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. Each underwriter and certain of its affiliates have, from time to time, performed, and may in the future perform, various financial advisory and investment banking services for Berkshire and BHFC, for which they have received or will receive customary fees and expenses reimbursements. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

In the ordinary course of their various business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve securities and/or instruments of the issuer or its affiliates. If any of the underwriters or their affiliates has a lending relationship with us, certain of those underwriters or their affiliates routinely hedge, and certain other of those underwriters or their affiliates may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, such underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the notes offered hereby.

We expect that delivery of the notes will be made against payment therefor on or about the date specified on the cover of this prospectus supplement, which will be the fourth business day following the date of pricing of the notes (this settlement cycle being referred to as "T+4"). Under Rule 15c6-1 of the Exchange Act, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade the notes on the date of this prospectus supplement will be required, by virtue of the fact that the notes initially will settle in T+4, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement. Purchasers of the notes who wish to make such trades should consult their own advisor.

- it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the notes in, from or otherwise involving the United Kingdom.

The underwriters will not offer or sell any of the notes directly or indirectly in Japan or to, or for the benefit of any Japanese person or to others, for re-offering or re-sale directly or indirectly in Japan or to any Japanese person, except in each case pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the Securities and Exchange Law of Japan and any other applicable laws and regulations of Japan. For purposes of this paragraph, “Japanese person” means any person resident in Japan, including any corporation or other entity organized under the laws of Japan.

Forward-Looking Information

Certain statements contained, or incorporated by reference, in this prospectus are “forward-looking” statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, that include words such as “expects,” “anticipates,” “intends,” “plans,” “believes,” “estimates,” or similar expressions. In addition, any statements concerning future financial performance (including future revenues, earnings or growth rates), ongoing business strategies or prospects, and possible future actions by Berkshire Hathaway Finance Corporation (“BHFC”) or Berkshire Hathaway Inc. (“Berkshire”), which may be provided by management are also forward-looking statements as defined by the Private Securities Litigation Reform Act of 1995. Forward-looking statements are based on current expectations and projections about future events and are subject to risks, uncertainties, and assumptions about BHFC and Berkshire, economic and market factors and the industries in which they do business, among other things. These statements are not guarantees of future performance and neither BHFC nor Berkshire has any specific intention to update these statements.

Actual events and results may differ materially from those expressed or forecasted in forward-looking statements due to a number of factors. The principal important risk factors that could cause Berkshire’s actual performance and future events and actions to differ materially from such forward-looking statements, include, but are not limited to, continuing volatility in the capital or credit markets and other changes in the securities and capital markets, changes in market prices of Berkshire’s investments in fixed maturity and equity securities, losses realized from derivative contracts, the occurrence of one or more catastrophic events, such as an earthquake, hurricane, or act of terrorism that causes losses insured by Berkshire’s insurance subsidiaries, changes in insurance laws or regulations, changes in federal income tax laws, and changes in general economic and market factors that affect the prices of securities or the industries in which Berkshire and its affiliates do business.

Unless required by law, neither of Berkshire nor BHFC undertakes any obligation to publicly update or revise any forward-looking statements to reflect events or developments after the date of this prospectus.

An investment in our securities involves some degree of risk. Prior to making a decision about investing in our securities, you should carefully consider the risks described in the section entitled "Risk factors" in any prospectus supplement and the risks described in Berkshire's most recent Annual Report on Form 10-K filed with the SEC, in each case as these risk factors are amended or supplemented by subsequent Quarterly Reports on Form 10-Q or Current Reports on Form 8-K, which have been or will be incorporated by reference into this document. Description of the Debt Securities

BHFC will issue senior debt securities on a senior unsecured basis under an indenture, dated as of February 1, 2010, by and among Berkshire, BHFC and The Bank of New York Mellon Trust Company, N. A. (the “trustee”).

We have summarized material provisions of the indenture and the debt securities, including the guarantee, below. This summary is not complete, and is subject, and qualified in its entirety by reference, to all the provisions of the indenture, including the definition of certain terms. We have filed the indenture with the SEC as an exhibit to the registration statement, of which this prospectus forms a part, and you should read the indenture for provisions that may be important to you. The following sets forth certain general terms and provisions of BHFC’s debt securities offered by this prospectus. The particular terms of debt securities will be described in the prospectus supplement relating to those offered debt securities.

Provisions Applicable to Indenture

General

The indenture does not limit the amount of debt securities that may be issued under that indenture, nor does it limit the amount of other unsecured debt or securities that BHFC may issue. BHFC may issue debt securities under the indenture from time to time in one or more series, each in an amount authorized prior to issuance.

Terms

The prospectus supplement relating to any series of debt securities being offered will include specific terms relating to the offering. These terms will include some or all of the following:

- the title of the debt securities;
- the total principal amount of the debt securities;
- whether the debt securities will be issued in individual certificates to each holder or in the form of temporary or permanent global securities held by a depositary on behalf of holders;
- the date or dates on which the principal of and any premium on the debt securities will be payable;
- any interest rate, the date from which interest will accrue, interest payment dates and record dates for interest payments;
- any right to extend or defer the interest payment periods and the duration of the extension;
- whether and under what circumstances any additional amounts with respect to the debt securities will be payable;
- any sinking fund or analogous provision;
- the place or places where payments on the debt securities will be payable;
- any provisions for optional redemption or early repayment;
- any provisions that would require the redemption, purchase or repayment of debt securities;
- the denominations in which the debt securities will be issued;
- whether payments on the debt securities will be payable in foreign currency or currency units or another form and whether payments will be payable by reference to any index or formula;
- the portion of the principal amount of debt securities that will be payable if the maturity is accelerated, if other than the entire principal amount;

Table of Contents

- any additional means of defeasance of the debt securities, any additional conditions or limitations to defeasance of the debt securities or any changes to those conditions or limitations;
- any changes or additions to the events of default or covenants described in this prospectus; and
- any other terms of the debt securities not inconsistent with the indenture.

Guarantee of Debt Securities

Berkshire will unconditionally and irrevocably guarantee the payment of all of BHFC's obligations under the debt securities offered hereby pursuant to a guarantee to be endorsed on the debt securities offered hereby, the form of which is filed as an exhibit to the registration statement of which this prospectus forms a part. If BHFC defaults in the payment of the principal of, or interest on, such debt securities when and as the same shall become due, whether upon maturity, acceleration, or otherwise, without the necessity of action by the trustee or any holder of such debt securities, Berkshire shall be required promptly and fully to make such payment.

Ranking

The debt securities will be BHFC's senior unsecured obligations and will rank pari passu in right of payment with all of BHFC's unsubordinated, unsecured indebtedness and will be senior in right of payment to all of BHFC's subordinated indebtedness.

The guarantee will be a senior unsecured obligation of Berkshire, will rank pari passu with all of Berkshire's unsubordinated, unsecured indebtedness and senior to all of Berkshire's subordinated indebtedness, and will be effectively subordinated to all of Berkshire's existing and future secured indebtedness to the extent of the assets securing such indebtedness and structurally subordinated to all existing and future indebtedness of Berkshire's subsidiaries (secured or unsecured).

Consolidation, Merger and Sale of Assets

Except as otherwise provided in the indenture or the debt securities, neither BHFC nor Berkshire may (A) merge into or consolidate with any other entity, or (B) convey, transfer or lease our respective properties and assets substantially as an entirety to any individual, corporation, partnership or other entity, unless, in the case of clauses (A) and (B) above, the successor or transferee corporation (or other entity) shall (i) be a corporation, partnership, limited liability company, trust or similar entity organized under the laws of the United States of America, any State of the United States or the District of Columbia, and (ii) expressly assume by supplemental indenture, as applicable, (a) the due and punctual payment of the principal of and any interest on the debt securities and the performance of BHFC's obligations under the indenture or (b) the due and punctual performance of the guarantee and Berkshire's obligations under the indenture.

Events of Default

Unless we inform you otherwise in the applicable prospectus supplement, the following are events of default with respect to a series of debt securities:

- a default in the payment of any interest on such series of debt securities when due and payable, and the continuance of such default for a period of 30 days;
- a default in the payment of principal of such series of debt securities when due and payable;
- a default in the performance, or breach, of other covenants or warranties of BHFC or Berkshire in the indenture or of Berkshire in the guarantee applicable to such series of debt securities that continues for 90 consecutive days after BHFC or Berkshire, as the case may be, receives notice of the default or breach; and

Table of Contents

- certain events of bankruptcy, insolvency or liquidation involving Berkshire or BHFC.

If an event of bankruptcy, insolvency or liquidation of us has occurred, the principal of the then-outstanding debt securities and any other amounts payable under the indenture will become immediately due and payable. If any other event of default shall occur and be continuing, either the trustee or the holders of not less than 25% in aggregate principal amount of the outstanding debt securities of all series affected by the default (voting as a single class) may declare the principal amount payable under the indenture on those then outstanding debt securities of the series affected by the default due and payable.

Defeasance

BHFC's obligations with respect to the payment of the principal and interest on the debt securities, and Berkshire's obligations with respect to such debt securities under the indenture and the guarantee, will terminate if BHFC irrevocably deposits or causes to be deposited with the trustee as trust funds specifically held in trust for, and dedicated solely to, the benefit of the holders of the debt securities:

- cash,
- U.S. government obligations, which through the scheduled payment of interest and principal in respect thereof in accordance with their terms will provide, not later than one day before the due date of any payment, cash, or
- a combination of the foregoing,

in each case sufficient to pay and discharge each installment of principal and interest on the debt securities.

The discharge of the debt securities is subject to certain other conditions, including, without limitation,

- no event of default or event (including such deposit) which with notice or lapse of time would become an event of default shall have occurred and be continuing on the date of such deposit (or, with respect to an event of bankruptcy, insolvency or liquidation of Berkshire or BHFC, at any time on or prior to the 90th day after the date of such deposit),
- BHFC shall have delivered to the trustee an opinion of independent tax counsel to the effect that holders of the debt securities will not recognize gain or loss for United States federal income tax purposes as a result of such deposit and defeasance,
- we shall have delivered to the trustee a certificate stating that the debt securities, if they are then listed on any securities exchange, will not be delisted as a result of such deposit, and
- such deposit shall not result in a breach or violation of, or constitute a default under, any other agreement or instrument to which BHFC or Berkshire are a party or otherwise bound.

Modification and Waiver

Modification of Indenture

The indenture provides that BHFC, Berkshire and the trustee may, without the consent of any holders of debt securities, enter into supplemental indentures for the purposes, among other things, of adding to BHFC's or Berkshire's covenants, adding additional events of default and curing ambiguities or inconsistencies in the indenture. BHFC, Berkshire and the trustee may, without the consent of any holders of debt securities, also make other changes to the indenture that do not have a material adverse effect on the interests of the holders of the debt securities.

In addition, modifications and amendments of the indenture may be made by BHFC, Berkshire and the trustee with the consent of the holders of not less than 50% of the aggregate principal amount of the debt securities of each series affected by such modification or amendment, acting as one class, provided, however,

[Table of Contents](#)

that no such modification or amendment may, without the consent of each holder of debt securities outstanding that is affected thereby,

- change the stated maturity of the principal of, or any installment of principal of or interest on, any outstanding debt securities,
- reduce the principal of or interest rate on any outstanding debt securities,
- change the place of payment where, or the currency in which, any outstanding debt securities or any interest thereon is payable,
- impair the right to institute suit for the enforcement of any payment on or with respect to any outstanding debt securities on or after the stated maturity thereof or on the guarantee,
- reduce the percentage in principal amount of the debt securities then outstanding required for modification or amendment of the indenture or for any waiver of compliance with certain provisions of the indenture or for waiver of certain defaults, or
- modify any of the above provisions.

Waiver of Default

The holders of not less than a majority of aggregate principal amount of the outstanding debt securities of the series affected by the default may, on behalf of the holders of all such debt securities of the series affected by the default, waive any past default under the indenture with respect to the of the outstanding debt securities of the series affected by the default except a default in the payment of principal or any interest on such debt securities and a default in respect of a covenant or provision of the indenture which cannot be modified or amended without the consent of each holder of the outstanding debt securities of the series affected by the default.

Assumption by Berkshire

The indenture provides that Berkshire may, without the consent of the trustee or the holders of the debt securities, assume all of our rights and obligations under the indenture and the notes if, after giving effect to such assumption, no event of default or event which with notice or lapse of time would become an event of default shall have occurred and be continuing. In addition, Berkshire shall assume all of BHFC's rights and obligations under the indenture and a series of debt securities if, upon a default by BHFC in the due and punctual payment of the principal of, sinking fund payment, if any, premium, if any, or interest on such notes, Berkshire is prevented by any court order or judicial proceeding from fulfilling its obligations under the guarantee. Such assumption shall result in such debt securities becoming the direct obligations of Berkshire and shall be effected without the consent of the trustee or the holders of any debt securities. Upon any such assumption, Berkshire will execute a supplemental indenture evidencing its assumption of all such rights and obligations and BHFC will be released from its liabilities under the indenture and such debt securities as obligor on such debt securities.

Payment and Paying Agents

Unless BHFC informs you otherwise, payments on the debt securities will be made in U.S. dollars at the office or agency maintained by BHFC in New York, New York (or, if BHFC fails to maintain such office or agency, at the corporate trust office of the trustee in New York, New York or if the trustee does not maintain an office in New York, at the office of a paying agent in New York). At BHFC's option, however, it may make payments by check mailed to the holder's registered address or, with respect to global notes, by wire transfer. BHFC will make any required interest payments to the person in whose name a debt security is registered at the close of business on the record date for the interest payment.

Table of Contents

Unless BHFC informs you otherwise, the trustee will be designated as BHFC's paying agent for payments on the debt securities. BHFC may at any time designate additional paying agents or rescind the designation of any paying agent or approve a change in the office through which any paying agent acts.

Subject to the requirements of any applicable abandoned property laws, the trustee and paying agent shall pay to BHFC or Berkshire upon written request any money held by them for payments on the debt securities that remain unclaimed for two years after the date upon which that payment has become due. After payment to BHFC or Berkshire, holders entitled to the money must look to BHFC or Berkshire for payment. In that case, all liability of the trustee or paying agent with respect to that money will cease.

Notices

Except as otherwise described herein, notice to registered holders of the notes will be given by mail to the addresses as they appear in the security register. Notices will be deemed to have been given on the date of such mailing.

Governing Law

The indenture, the debt securities and the guarantee will be governed by and construed in accordance with the laws of the State of New York.
