In einem solchen Fall, wird die Emittentin, vorbehaltlich der in den Anleihebedingungen festgelegten Ausnahmen, diejenigen zusätzlichen Beträge zahlen, die erforderlich sind, damit die den Gläubigern von Schuldverschreibungen zufließenden Nettoebeträge nach diesem Einbehalt oder Abzug jeweils den Beträgen an Kapital und Zinsen entsprechen, die ohne einen solchen Einbehalt oder Abzug bezüglich der Schuldverschreibungen empfangen worden wären.

Vorzeitige Rückzahlung aus steuerlichen Gründen:

Die vorzeitige Rückzahlung der Schuldverschreibungen aus steuerlichen Gründen ist für die Emittentin zulässig, falls als Folge einer Änderung oder Ergänzung der Steuer- oder Abgabengesetze oder Vorschriften (einschließlich jeder Änderung oder Ergänzung der Anwendung oder der offiziellen Auslegung dieser Gesetze oder Vorschriften) der Bundesrepublik Deutschland oder den Niederlanden oder deren politischen Untergliederungen oder Steuerbehörden, die Emittentin zur Zahlung zusätzlicher Beträge auf die Schuldverschreibungen verpflichtet ist, wie im Einzelnen in den Anleihebedingungen dargelegt.

Wenn 80% oder mehr des Gesamtnennbetrags der dann ausstehenden Schuldverschreibungen aufgrund des Eintritts eines Kontrollwechselergebnisses (wie in den Anleihebedingungen definiert) zurückgezahlt oder zurückgeworben und entwertet wurde, ist die Emittentin berechtigt, gegenüber den Anleihegläubigern nach ihrer Wahl alle ausstehenden Schuldverschreibungen zum Rückzahlungsbetrag (wie in den Anleihebedingungen definiert) zuzüglich bis zum Rückzahlungstag (ausschließlich) aufgelaufenen Zinsen zurück zu zahlen.

<i>Status der Schuldverschreibungen:</i>	Die Schuldverschreibungen begründen nicht besicherte und nicht nachrangige Verbindlichkeiten der Emittentin, die untereinander und mit allen anderen nicht besicherten und nicht nachrangigen Verbindlichkeiten der Emittentin gleichrangig sind, soweit diesen Verbindlichkeiten nicht durch zwingende gesetzliche Bestimmungen ein Vorrang eingeräumt wird.
<i>Status der Garantie:</i>	Die Garantie begründet eine unbedingte, unbesicherte und nicht nachrangige Verbindlichkeit der Garantin, die mit allen anderen jeweils bestehenden, nicht besicherten und nicht nachrangigen Verbindlichkeiten der Garantin gleichrangig ist.
<i>Negativverpflichtung:</i>	In § 2 der Anleihebedingungen stimmen die Emittentin und die Garantin zu, keine Sicherungsrechte zur Besicherung von Kapitalmarktverbindlichkeiten bzw. im Falle der Garantin von Kapitalmarktverbindlichkeiten oder langfristiger Verbindlichkeiten zu gewähren.
<i>Kündigungsgründe:</i>	Die Anleihebedingungen sehen Kündigungsgründe vor, die die Anleihegläubiger berechtigen, die unverzügliche Rückzahlung der Schuldverschreibungen zu verlangen, wie im Einzelnen in § 7 der Anleihebedingungen dargelegt.
<i>Cross Default:</i>	§ 7 der Anleihebedingungen enthält eine Cross-Default-Klausel (Drittverzugsklausel) unter anderem in Bezug auf Nichtzahlung einer Zahlungsverpflichtung aus Kreditaufnahmen.
<i>Gesetz über Schuldverschreibungen aus Gesamtemissionen:</i>	Die Anleihebedingungen sehen vor, dass Anleihegläubiger durch Mehrheitsbeschluss (bestimmte, wesentliche Änderungen erfordern eine Mehrheit von mindestens 75 Prozent) Änderungen der Anleihebedingungen zustimmen und zur Wahrnehmung ihrer Rechte einen gemeinsamen Vertreter für alle Anleihegläubiger bestellen können. RISK FACTORS

Before deciding to purchase the Notes, investors should carefully review and consider the following risk factors and the other information contained in this Prospectus. The following statements are not exhaustive. Should one or more of the risks described below materialise, this may have a material adverse effect on the cash flows, results of operations and financial condition of the Issuer or the Guarantor. Moreover, if any of these risks materialises, the market value of the Notes and the likelihood that the Issuer will be in a position to fulfil its payment obligations under the Notes, may decrease, in which case the Noteholders could lose all or part of their investments. Investors should note that the risks discussed below may not prove to be exhaustive and, therefore, may not be the only risks to which the Issuer and the Guarantor are exposed. Additional risks and uncertainties, which are currently not known to the Issuer or which the Issuer currently believes are immaterial, could likewise impair the business operations of the Issuer or the Guarantor and have a material adverse effect on their business, cash flows, results of operations and their financial condition. The order in which the risks are presented does not reflect the likelihood of their occurrence or the magnitude of their potential impact on the cash flows, results of operations and financial condition of the Issuer or the Guarantor. In addition, investors should be aware that the risks described might combine and thus intensify one another.

Risks relating to the Issuer

Limited assets of the Issuer

The Issuer is the parent company of the Würth Finance Group ("WFG") and acts as the competence centre for handling the finances of the Würth Group. The Issuer's financial performance is limited (extracted from the audited consolidated financial statements of WFG as of 31 December 2010: equity EUR 211.7 million, net income EUR 30.98 million, total assets EUR 1,991.3 million).

Strategic risks

The WFG generates approximately 50 % of its revenues through internal counterparties. Hence, its result is to a large extent directly linked with the course of business of the Würth Group as a whole. At the same time, WFG is in competition with external financial services providers. A negative development of the Würth Group or failure to maintain the current market position could thus have a significant adverse effect on the results of the Issuer.

Financial risks

The Issuer is exposed to the developments in the financial markets. Movements in exchange rates, interest rates, stock prices and, to a lesser degree, commodity prices all have an impact on the revenues generated by the Issuer.

In order to minimise the financial risks and optimize income, the Issuer uses derivative financial instruments. Derivative financial instruments are recognised at fair value and reported in the balance sheet under "other financial assets" or "other financial liabilities". The fair value is calculated by reference to quoted market values or recognised valuation models (discounted cash flow method or option pricing models). The WFG does not use the accounting principles relating to hedge accounting in accordance with IAS 39. As a result, realised and unrealised gains and losses are always recognised as income or loss and could thus have an adverse impact on the financial and earnings positions of the Issuer.

Technological risks

In its function as the "payment factory" the Issuer handles an extremely large volume of payments, which would not be possible without high-performance IT systems and networks. As a result, the IT systems and IT security are continually being developed and are monitored by means of an Information Security Management System. In addition, the Würth Finance Group has at its disposal a Business Disaster Recovery System. Failure of these measures to secure the timely handling of payments could lead to significantly adverse impacts on the operations of the Issuer.

Risks relating to the Guarantor and the Würth Group

Limited assets of the Guarantor

The Guarantor, directly or indirectly, manages only some of the companies of the Würth Group in the form of subsidiaries and sub-subsidiaries. The Guarantor's financial performance is limited (equity as of 31 December 2010 KEUR 2,190,474, net income for the fiscal year 2010 KEUR 80,199, total assets as of 31 December 2010 KEUR 2,965,179). The Notes have not been guaranteed by any entities of the Würth Group other than this company in particular not by Würth Beteiligungs-GmbH & Co. KG which manages other Group companies.

Limited financial reporting

The Guarantor and the other entities of the Würth Group are non-listed companies; the Würth Group is 100 % controlled by several family trusts. The Guarantor prepares and publishes unconsolidated financial statements in accordance with the provisions of the German Commercial Code (*Handelsgesetzbuch – HGB*). The Würth Group prepares and publishes consolidated financial statements according to the IFRS, as adopted by the EU, as well as pursuant to full IFRS. Investors may therefore only have a smaller information base on the financial situation of the Guarantor compared to other issuers.

Dependency on general economic climate and internationalisation

Like most globally active commercial enterprises, the Würth Group is dependent on the general economic climate. The Würth Group's core businesses, trading in fastening and mounting supplies, as well as its other business divisions are dependent on the economic and market situation. International competition is expected to intensify further. The Würth Group intends to further expand its international presence and to increase the percentage of its sales and net income generated outside of Germany and will need the financial and human resources required in this context. If the Würth Group fails to get the adequate financial and human resources, this might have a negative impact on the financial and earnings position of the Würth Group.

High importance of distribution organisation

The Würth Group distributes its products and services via more than 30,000 sales staff worldwide and employs more than 2,800 field staff in its German core business alone. In this context, it is of special importance to the Würth Group's success that, against the background of a competitive environment with respect to the recruitment of suitable employees, a sufficient number of persons with the necessary social and specialist skills can be won and retained for these activities to implement the customer and demand-oriented distribution organisation strived for by the Würth Group. Should the Würth Group fail to recruit and retain a sufficient number of suitable staff, this would have a negative impact on its future development and its financial and earnings position.

Competition

The Würth Group operates in a variety of local and regional markets around the world, and many factors affect the competitive environment of the Würth Group in any particular market. These factors include the number of competitors in the market, their pricing policies and market penetration. These factors or a combination thereof may influence the competitive environment in the markets in which the Würth Group operates and may have a material adverse impact on the demand for its products and services and on its market share.

Increase of raw material prices

There is a risk for the Würth Group in increasing raw material prices, because they have an impact on the gross profit. If it is not possible to transfer these increases directly to the customers this will have a negative impact on the financial and earnings position of the Würth Group.

Increase of energy costs

The Würth Group depends on energy for its production companies as well as for the transport of goods to the customers and hence an increase of energy costs could have an adverse impact on the financial position and the results of operations of the Guarantor and the Würth Group.

Risk resulting from failure to integrate acquired companies

There is a risk from failure to integrate acquired companies into the Würth Group and to transfer the strong company culture to acquired companies.

Financial Risks

Financial risks are resulting from debt incurred by Würth Group and the obligations and covenants in the related financing agreements. Failure in compliance with the covenants within existing finance agreements could result in an early repayment of certain debts. The Würth Group is rated by Standard & Poors and Fitch. A downgrading in the rating of one of these agencies could result in increasing interest rates for future bonds.

The Würth Group has a 90.0 % stake in Internationales Bankhaus Bodensee AG (“IBB”), which has total assets of approximately EUR 900 million. IBB is a “*Nichthandelsbuchinstitut*” in accordance with the German Banking Law (*Kreditwesengesetz – KWG*) and has no major trading activities. However, IBB is subject to credit risks, liquidity risks, financial markets risks as well as operational risks.

Environmental Risk

Natural disasters could affect the ability of the Würth Group to purchase, deliver, store and transport the goods demanded by the customers.

IT Risks

The Würth Group is heavily depended on IT systems and processes. Failure in these systems can have a significant impact on the business because the logistic and the production processes are dependent from an efficient IT system.

Dependence on qualified personnel

The Würth Group’s success depends to a significant degree on qualified management and employees. Research and development, the operation of existing manufacturing plants, and the planning and commissioning of new plants are areas that are particularly dependent on the availability of highly qualified employees with sufficient experience. If the Würth Group were unable to retain its qualified employees and hire additional qualified personnel, it might not be in the position to achieve its strategic and business goals. This could have a significant adverse effect on the Würth Group’s assets, financial condition and results of operations.

Risks resulting from prolonged work stoppages due to labor disputes

Although the Guarantor believes that it has satisfactory relations with its works councils and unions, it can neither exclude that it will reach new agreements on satisfactory terms when existing collective bargaining agreements expire nor that it is able to reach such new agreements without work stoppages, strikes or similar industrial actions. Should the Guarantor be subject to work stoppages, strikes or similar actions of its workforce an adverse effect on the Würth Group’s assets, financial condition and results of operations may occur.

Risks due to changes in tax laws or regulations

The Würth Group operates in a large number of countries and therefore is subject to different tax laws and regulations. Changes in tax laws or regulations and results from tax audits by fiscal authorities could result in higher tax expenses and cash payments. Furthermore, changes in tax laws or regulations could impact the tax liabilities as well as the deferred tax assets and deferred tax liabilities.

Product claims and recalls

The Würth Group offers more than 100,000 products to its customers. Products produced or sold by the Würth Group may be faulty or defective. Such faults or defects can cause damage to the property or health of customers or third parties and could lead to indirect or consequential damages. In addition, faulty and defective products can diminish the market acceptance of products produced or sold by the Würth Group and jeopardize its reputation. Although the Guarantor or the injured party in question might also be able to make a claim against the supplier in the case of product defects or warranty events, the Würth Group as a rule, bears a portion of and in some cases the primary risk of product liability and warranty claims. In the event that a product series proves to be defective, it may be necessary for the Würth Group to carry out a product recall and to pay the costs of the recall plus the costs of procuring defect-free replacement products. In addition, if products turn out to be defective, claims based on consumer protection regulations can also be brought against the Guarantor. Product liability and warranty claims and product recalls can damage the overall reputation of the Würth Group and lead to temporary or long-term buying restraint. This could diminish the financial position and results of operations of the Würth Group.

Risks resulting from insufficient insurance coverage

The Würth Group maintains insurance coverage against a diverse portfolio of risks. However, certain categories of risks are not currently insurable at reasonable cost. Even if insurance can be obtained, coverage may be subject to exclusions

that limit or prevent the indemnification of the relevant company under the policies. Furthermore, the Guarantor cannot guarantee the ability of the insurance companies to meet their liabilities from claims. If this risk materializes, it may have a significant negative impact on the Würth Group's financial and earnings position.

Risks relating to the Notes

An investment in the Notes involves certain risks associated with the characteristics, specification and type of the Notes which could lead to substantial losses that Noteholders would have to bear in the case of selling their Notes or with regard to receiving interest payments and repayment of principal. Risks regarding the Notes comprise, *inter alia*, the following risks:

Notes may not be a suitable investment for all investors

Each potential investor in Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Prospectus;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation and the investment(s) it is considering, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including cases in which the currency for principal or interest payments is different from the potential investor's currency;
- (iv) understand thoroughly the terms of the Notes and the content of this Prospectus; and
- (v) be able to evaluate, either alone or with the help of a financial adviser, possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Liquidity risk

Application has been made to the Luxembourg Stock Exchange for the Notes to be admitted to trading on the regulated market of the Luxembourg Stock Exchange and to be listed on the official list of the Luxembourg Stock Exchange. However, there is a risk that no liquid secondary market for the Notes will develop or, if it does develop, that it will not continue. The fact that the Notes may be listed does not necessarily lead to greater liquidity as compared to unlisted notes. In an illiquid market, an investor is subject to the risk that he will not be able to sell his Notes at any time or at fair market prices. The possibility to sell the Notes might additionally be restricted by country specific reasons.

Risk of early redemption

The Notes may be redeemed at the option of the Issuer (in whole, but not in part) at the Redemption Price (as defined in the Terms and Conditions) plus accrued interest to the date fixed for redemption, (i) for reasons of taxation, as more fully described in the Terms and Conditions or (ii) if 80 per cent or more of the aggregate principal amount of the Notes then outstanding has been redeemed following a Change of Control Event or has been repurchased and cancelled, as more fully described in the Terms and Conditions. In the event that the Issuer exercises the option to redeem the Notes, the Noteholders might suffer a lower than expected yield and might not be able to reinvest the funds on the same terms.

Market price risk

The development of market prices of the Notes depends on various factors, such as changes of market interest rate levels, the policies of central banks, overall economic developments, inflation rates or the lack of or excess demand for the Note. The Noteholders are therefore exposed to the risk of an unfavourable development of market prices of their Notes which materialise if the Noteholders sell the Notes prior to the final maturity. If a Noteholder decides to hold the Notes until final maturity, the Notes will be redeemed at the principal amount of the Notes.

Creditworthiness of the Guarantor

If, e.g., because of the materialisation of any of the risks regarding the Guarantor, the likelihood that the Guarantor will be in a position to fully perform all obligations under the Notes when they fall due decreases, the market value of the Notes will suffer. In addition, even if the likelihood that the Guarantor will be in a position to fully perform all obligations under the Notes when they fall due actually has not decreased, market participants could nevertheless have a dif-

ferent perception. In addition, the market participants' estimation of the creditworthiness of corporate debtors in general or debtors operating in the same business as the Group could adversely change.

If any of these risks occurs, third parties would only be willing to purchase Notes for a lower price than before the materialisation of said risk. Under these circumstances, the market value of the Notes will decrease.

Currency risk

The Notes are denominated in Euro. If such currency represents a foreign currency to a Noteholder, such Noteholder is particularly exposed to the risk of changes in currency exchange rates which may affect the yield of such Notes in the currency of the Noteholder. Changes in currency exchange rates result from various factors such as macro-economic factors, speculative transactions and interventions by central banks and governments.

In addition, government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable currency exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal at all.

Fixed rate notes

The Notes bear interest at a fixed rate. A Noteholder of fixed rate Notes is particularly exposed to the risk that the price of such Notes falls as a result of changes in the market interest rate. While the nominal interest rate of a fixed rate Note as specified in the Terms and Conditions is fixed during the life of the Notes, the current interest rate on the capital market typically changes on a daily basis. As the market interest rate changes, the price of fixed rate Notes also changes, but in the opposite direction. If the market interest rate increases, the price of fixed rate Notes typically falls, until the yield of such Notes is approximately equal to the market interest rate of comparable issues. If the market interest rate falls, the price of fixed rate Notes typically increases, until the yield of such Notes is approximately equal to the market interest rate of comparable issues. If a Noteholder holds its Notes until maturity, changes in the market interest rate are without relevance to such Noteholder as the Notes will be redeemed at the principal amount of the Notes.

Resolutions of Noteholders

Since the Notes provide for meetings of Noteholders or the taking of votes without a meeting, a Noteholder is subject to the risk of being outvoted by a majority resolution of the Noteholders. As such majority resolution is binding on all Noteholders, certain rights of such Noteholder against the Issuer under the Terms and Conditions may be amended or reduced or even cancelled.

Noteholders' Representative

Since the Notes provide for the appointment of a Noteholders' representative (*gemeinsamer Vertreter*), it is possible that a Noteholder may be deprived of its individual right to pursue and enforce its rights under the Terms and Conditions against the Issuer, such right passing to the Noteholders' representative who is then exclusively responsible to claim and enforce the rights of all the Noteholders.

No restriction on the amount of debt which the Issuer may incur in the future

There is no restriction on the amount of debt which the Issuer may issue which ranks equal to the Notes. Such issuance of further debt may reduce the amount recoverable by the Noteholders upon winding-up or insolvency of the Issuer or may increase the likelihood that the Issuer may or shall defer payments of interest under the Notes.

USE OF PROCEEDS

In connection with the offering of the Notes, the Issuer will receive net proceeds of approximately EUR [•]. The Issuer intends to use the net proceeds for its general business purposes, to refinance upcoming maturities and to strengthen the liquidity reserves. The total expenses of the issue of the Notes are expected to amount to approximately EUR 75,000.

Business Description

Overview

The Issuer is the parent company of the Würth Finance Group (comprising Würth Finance International and its subsidiaries - "WFG") and acts as the competence centre for handling the finances of the Würth Group. As its core business, Würth Finance International is responsible for concentrating and optimising the worldwide flow of payments, managing the financial risks, and handling Würth Group financing and investor relations. Together with the Würth Group's purchasers, Würth Finance International offers collection and delcredere services to the suppliers of the Würth Group.

In close cooperation with the operative companies, the employees of Würth Finance International ensure that liquid funds required are available at any time as well as that the financial resources are allocated in an optimal way.

In the fiscal year 2010, WFG recorded a better business result than in the previous fiscal year 2009. The net profit has increased from EUR 13.9 million in 2009 to EUR 31.0 million in 2010 (the result 2010 included an effect of IAS 19 and the dissolution of a tax provision in the amount of EUR 4.3 million). This was primarily attributable to the Würth Group's impressive growth of sales from EUR 7,522 million in 2009 by 15 % to EUR 8,633 million.

Main results of the Issuer

In the fiscal year 2010, total income in the service, central settlement of payments to suppliers, was up strongly with an increase of 28 % to EUR 11.8 million. At the end of 2010, 3,746 suppliers with sales totalling EUR 1,572 million had entrusted the handling of their payments to Würth Finance International. The net interest income, including the inter-company factoring, was up on the previous fiscal year 2009, rising 5.0 % to EUR 18.3 million. Not included in these figures are the effects of the valuation of interest rate derivatives that were taken out to actively manage interest rate risks within the framework of Würth Finance International's asset and liability management activities. The continued drop in interest rates and the strength of the Swiss Franc gave rise to an increase in the valuation result amounting to EUR 5.2 million, which is reported in the IFRS consolidated financial statements.

Würth Finance International is one of the companies of the Würth Group, the organizational structure of which is described in more detail on page 35 *et seqq.* of this Prospectus.

Recent Developments and Outlook

Despite the continued turbulence in the financial markets and the ensuing repercussions on the real economy, the outlook for the Würth Finance Group for the year 2011 is positive. We do not believe that the continued high volatility in the markets will have a major impact on the current upward trend. The Würth Group, too, is optimistic and is once again anticipating a double-digit growth rate in 2011. This mood is also reflected by the new motto, "Break your limits", with which the Management of the Würth Group has clearly laid down the strategic direction for the over 400 Group companies during the year 2011.

In the first quarter of the year 2011, the WFG recorded an increase of the ordinary results. However, for the full year 2011 it is not expected, that the net result for the fiscal year 2010 will be met. The net result in the fiscal year 2010 included positive effects from the dissolution of tax provisions and mark-to-market valuation effects, which are not expected for the year 2011.

Investments

In the fiscal year 2010 the investments of Würth Finance International amounted to EUR 0.2 million. Since the date of publication of its most recent audited consolidated financial statements, Würth Finance International has not made any

significant investments. For the year 2011 the Issuer is planning investments totalling EUR 0.8 million. New software for the central regulation of payments to suppliers accounts for the biggest part.

Legal and Arbitration Proceedings

As far as the Issuer is aware, no government intervention, litigation or arbitration (including procedures that, to the Issuer's knowledge, are still pending or might yet be instituted) has been conducted or concluded during a period covering at least the last 12 months that may have or recently have had a material impact on the Issuer's financial situation or profitability.

Material Contracts

The Issuer did not enter into any contracts outside the ordinary course of business which could result in any member of the Würth Group being under an obligation or entitlement that is material to the Issuer's ability to meet its obligations to the Noteholders.

Executive Bodies

The Issuer is managed by a Board of Managing Directors consisting of one or several members. The shareholders' meeting determines the number of Managing Board members. The appointment and dismissal of Executive Board members is also the responsibility of the shareholders' meeting. The Issuer is jointly represented by two members of the Managing Board. If only one Managing Board member has been appointed, such member will represent the Issuer alone.

Strategy and Competition

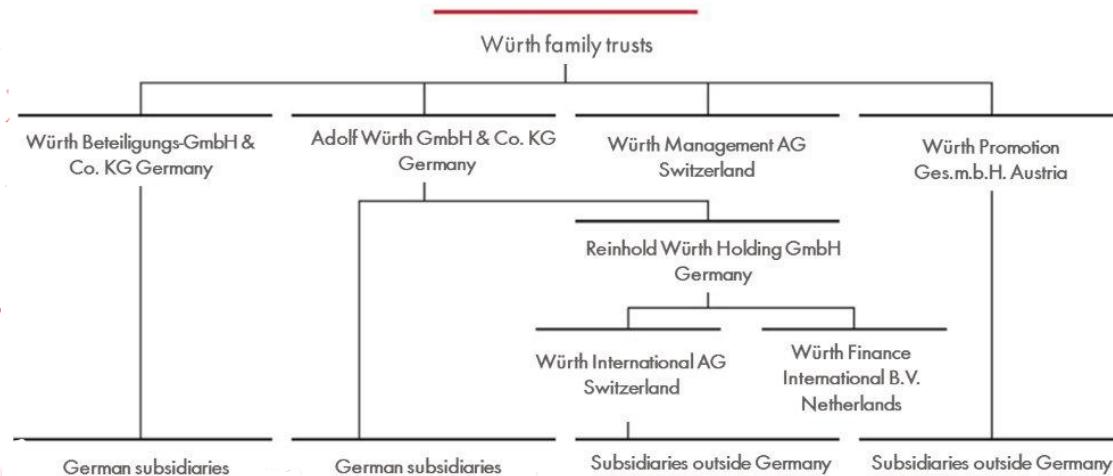

The Würth Group estimates its share in the global market at about five percent due to a low share in the market in most countries, with a few exceptions. However, this apparent disadvantage has an upside. As the Würth Group continues to expand the customer base and strengthen customer ties, there is enormous potential to be tapped, for instance through sales systems. Besides the traditional direct sales, the Würth Group has also set up and expanded additional sales channels in recent years. The Würth Group considers the sales branches and e-commerce to be key opportunities. Coupled with the consulting services highly appreciated by its customers, the Würth Group will continue to pursue these sales channels in the future to offer the customers various ways to interact with it. The competitors of the Würth Line Companies are other non-regional located sale companies, hardware stores and some regional located and selling companies, in the field of crafts, construction and industry, in the different countries. For the Allied Companies there are also different competitors in the various operating sectors in the various countries.

As a family business, sustainability of growth is always a priority for the Würth Group. Provided the economic development remains stable over the coming years, the Würth Group considers itself well positioned to achieve its "2020-20" vision of generating sales of EUR 20 billion by 2020 with a headcount of 100,000 employees.

Organizational Structure

The following diagram gives an overview of the Würth Group's corporate and divisional structure as of 31 December 2010:

LEGAL STRUCTURE OF THE WÜRTH GROUP (SIMPLIFIED CHART)

Recent Developments and Outlook

The Central Managing Board of the Würth Group expects that 2011 will see the global economy continue to recover from the crisis of 2009. However, experts and institutes point out that the upturn is losing pace overall, meaning that global GDP will increase by just 4.3 %.

The Central Managing Board of the Würth Group anticipates double-digit sales growth for the Würth Group in 2011. It plans to achieve an operating result of EUR 550 million in the fiscal year 2011. An increase of the headcount by around 7 % in 2011 is intended, provided that there are no further disruptions due to global economic or political factors.

The Würth Group intends to generate organic growth mainly by expanding its organization of sales representatives in the national companies in the fiscal year 2011. Germany will be at the forefront of these efforts in light of the fact that its economic conditions have already returned to stability. The planning of the Würth Group for the fiscal year 2011 also includes measures to strengthen the sales force outside Germany, however. For instance, following a period of restructuring and adapting its sales structures to the market in Italy, the Würth Group will need to fortify the sales force to safeguard future growth.

Investments

Investments of the Würth Group in tangible assets, financial assets and intangible assets in the fiscal year 2010 amounted to EUR 283 million. Capital expenditure was focused on expanding warehouse capacities and the branch office network of the Group's sales companies as well as on production sites and plant and machinery for manufacturing companies. The logistics capacities were expanded at the companies FEGA & Schmitt Elektrogroßhandel GmbH, Ansbach, Würth France SA based in Erstein, France, as well as Würth Industrie Service GmbH & Co. KG, Bad Mergentheim.

Capital expenditure totaling EUR 635 million has been budgeted for the fiscal year 2011. The main projects to be named here are the annex to the administration building and the expansion of the logistics center of Adolf Würth GmbH & Co. KG, Gaisbach, Germany, as well as the construction of a training and conference center in Rorschach, Switzerland, by Würth International, Chur, Switzerland.

The funds to finance the investments referred to above will be sourced from the operating cash flow and existing credit lines.

Patents and licenses

The Würth Group is not dependent on any patents, licenses, similar contracts or new production processes that are of major importance in the context of its operations or profitability.

Litigation and arbitration

There are no and there have been no governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which the Issuer is aware), for the previous 12 months which may have, or have had in the recent past significant effects on the Issuer's or the Würth Group's financial position or profitability.

Current development of the Würth Group

In the first two months of 2011 the Würth Group successfully built on the positive growth trend of the prior year. With sales growth of 21.3 % to EUR 1.4 billion, the Würth Group is within its target corridor for this period.

Material Contracts

The Würth Group did not enter into any contracts in the ordinary course of business which could result in any member of the Würth Group being under an obligation or entitlement that is material to Adolf Würth KG's ability to meet its obligations to the Noteholders.

(a) All amounts payable under the Notes will be paid without deduction or withholding for or on account of any present or future taxes, duties, assessments or governmental charges whatsoever imposed or levied by or on behalf of The Netherlands, the Federal Republic of Germany or any taxing authority therein ("Withholding Taxes"), unless the Issuer is required by a law or other regulation to deduct or withhold such Withholding Taxes. In that event the Issuer shall pay such additional amounts (the "Additional Amounts") as may be necessary in order that the net amounts after such deduction or withholding shall equal the amounts that would have been payable if no such deduction or withholding had been made.

(b) No Additional Amounts shall be payable pursuant to § 6(a) with respect to taxes, duties or governmental charges:

DESCRIPTION OF RULES REGARDING RESOLUTIONS OF NOTEHOLDERS

The Terms and Conditions provide that the Noteholders may agree to amendments or decide on other matters relating to the Notes by way of resolution to be passed by taking votes without a meeting. Any such resolution duly adopted by resolution of the Noteholders shall be binding on each Noteholder, irrespective of whether such Noteholder took part in the vote and whether such Noteholder voted in favour or against such resolution.

The following is a brief summary of some of the statutory rules regarding the taking of votes without meetings, the passing and publication of resolutions as well as their implementation and challenge before German courts.

Specific Rules regarding Votes without Meeting

The voting shall be conducted by the person presiding over the taking of votes. Such person shall be (i) a notary public appointed by the Issuer, (ii) if the vote was solicited by the joint representative (*gemeinsamer Vertreter*) of the Noteholders (the "**Noteholders' Representative**"), the Noteholders' Representative, or (iii) a person appointed by the competent court.

The notice soliciting the Noteholders' votes shall set out the period within which votes may be cast. During such voting period, the Noteholders may cast their votes to the person presiding over the taking of votes. Such notice shall also set out in detail the conditions to be met for the votes to be valid.

The person presiding over the taking of votes shall ascertain each Noteholder's entitlement to cast a vote based on evidence provided by such Noteholder and shall prepare a list of the Noteholders entitled to vote. If it is established that no quorum exists, the person presiding over the taking of votes may convene a meeting of the Noteholders. Within one year following the end of the voting period, each Noteholder participating in the vote may request a copy of the minutes of such vote and any annexes thereto from the Issuer.

Each Noteholder participating in the vote may object in writing to the result of the vote within two weeks following the publication of the resolutions passed. The objection shall be decided upon by the person presiding over the taking of votes. If he remedies the objection, the person presiding over the taking of votes shall promptly publish the result. If the person presiding over the taking of votes does not remedy the objection, he shall promptly inform the objecting Noteholder in writing.

The Issuer shall bear the costs of the vote and, if the court has convened a meeting, also the costs of such proceedings.

Rules regarding Noteholders' Meetings applicable to Votes without Meeting

In addition, the statutory rules applicable to the convening and conduct of Noteholders' meetings will apply *mutatis mutandis* to any vote without a meeting. The following summarises some of such rules.

Meetings of Noteholders may be convened by the Issuer or the Noteholders' Representative. Meetings of Noteholders must be convened if one or more Noteholders holding five per cent or more of the outstanding Notes so require for specified reasons permitted by statute.

Meetings may be convened not less than 14 days prior to the date of the meeting. Attendance and exercise of voting rights at the meeting may be made subject to prior registration of Noteholders. The convening notice will provide what proof will be required for attendance and voting at the meeting. The place of the meeting is the place of the Issuer's registered offices, provided, however, that where the Notes are listed on a stock exchange within the European Union or the European Economic Area, the meeting may be held at the place of such stock exchange.

The convening notice shall be made publicly available together with the agenda of the meeting setting out the proposals for resolution.

Each Noteholder may be represented by proxy. The Noteholders' meeting will have a quorum if the persons attending represent at least 50 per cent of the outstanding Notes by value. If the quorum is not reached, a second meeting may be convened at which no quorum will be required, provided that where a resolution may only be adopted by a qualified majority, a quorum requires the presence of at least 25 per cent of the aggregate principal amount of outstanding Notes.

All resolutions adopted must be properly published. Resolutions which amend or supplement the Terms and Conditions have to be implemented by supplementing or amending the Global Note.

In insolvency proceedings instituted in Germany against the Issuer, the Noteholders' Representative is obliged and exclusively entitled to assert the Noteholders' rights under the Notes. Any resolutions passed by the Noteholders are subject to the provisions of the Insolvency Code (*Insolvenzordnung*).

If a resolution constitutes a breach of the statute or the Terms and Conditions, Noteholders may bring an action to set aside such resolution. Such action must be filed with the competent court within one month following the publication of the resolution.

TAXATION

The following is a general description of certain tax considerations relating to the Notes in Germany, The Netherlands and Luxembourg. It does not purport to be a complete analysis of all tax considerations relating to the Notes. In particular, this description does not consider any specific facts or circumstances that may apply to a particular purchaser. This description is based on the laws of the Federal Republic of Germany, The Netherlands and Luxembourg currently in force and as applied on the date of this Prospectus, which are subject to change, possibly with retroactive or retrospective effect.

PROSPECTIVE PURCHASERS OF NOTES SHOULD CONSULT THEIR TAX ADVISERS AS TO THE CONSEQUENCES, UNDER THE TAX LAWS OF THE COUNTRY IN WHICH THEY ARE RESIDENT FOR TAX PURPOSES AND UNDER THE TAX LAWS OF GERMANY, THE NETHERLANDS AND LUXEMBOURG OF ACQUIRING, HOLDING AND DISPOSING OF NOTES AND RECEIVING PAYMENTS OF PRINCIPAL, INTEREST AND OTHER AMOUNTS UNDER THE NOTES. THE INFORMATION CONTAINED WITHIN THIS SECTION IS LIMITED TO TAXATION ISSUES, AND PROSPECTIVE INVESTORS SHOULD NOT APPLY ANY INFORMATION SET OUT BELOW TO OTHER AREAS; INCLUDING (BUT NOT LIMITED TO) THE LEGALITY OF TRANSACTIONS INVOLVING THE NOTES.

Federal Republic of Germany

Income tax

Tax Residents

Persons (individuals and corporate entities) who are tax resident in Germany (in particular, persons having a residence, habitual abode, seat or place of management in Germany) are subject to income taxation (income tax or corporate income tax, as the case may be, plus solidarity surcharge thereon plus church tax and/or trade tax, if applicable) on their worldwide income, regardless of its source, including interest from debt of any kind (such as the Notes) and, in general, capital gains.

Taxation if the Notes are held as private assets (*Privatvermögen*)

In the case of German tax-resident individual investors (*unbeschränkt Steuerpflichtige*) holding the Notes as private assets (*Privatvermögen*), the following applies:

- Income

Payments of interest on the Notes qualify as taxable savings income (*Einkünfte aus Kapitalvermögen*) pursuant to section 20 para 1 no 7 German Income Tax Act ("ITA" – *Einkommensteuergesetz*).

Capital gains / capital losses realised upon sale of the Notes, computed as the difference between the acquisition costs and the sales proceeds reduced by expenses directly and factually related to the sale, qualify as (negative) savings income. Where the Notes are acquired and/or sold in a currency other than Euro, the acquisition costs will be converted into Euro at the time of acquisition, the sales proceeds will be converted into Euro at the time of sale and the difference will then be computed in Euro. If the Notes are assigned, redeemed, repaid or contributed into a corporation by way of a hidden contribution (*verdeckte Einlage in eine Kapitalgesellschaft*) rather than sold, as a rule, such transaction is treated like a sale. Losses from the sale of Notes can only be offset against other savings income and, if there is not sufficient other positive savings income, carried forward in subsequent assessment periods.

Pursuant to a tax decree issued by the Federal Ministry of Finance dated 22 December 2009, a bad debt loss (*Forde rungsausfall*) and a waiver of a receivable (*Forde rungsverzicht*), to the extent the waiver does not qualify as a hidden contribution, shall not be treated like a sale. Accordingly, losses suffered upon such bad debt loss or waiver shall not be tax-deductible.

If the Notes are allocated to an activity of letting and leasing of property, the income from the Notes qualifies, deviating from the above, as income from letting and leasing of property. In such a case, the taxable income is calculated as the difference between the income and income-related expenses (*Werbungskosten*).

- Taxation of income

Savings income is taxed at a separate tax rate for savings income (*gesonderter Steuertarif für Einkünfte aus Kapitalvermögen*), which is 26.375 per cent (including solidarity surcharge (*Solidaritätszuschlag*)) plus, if applicable, church tax. When computing the savings income, the saver's lump sum amount (*Sparer-Pauschbetrag*) of EUR 801 (EUR

1,602 in the case of jointly assessed husband and wife) will be deducted. The deduction of the actual income related expenses, if any, is excluded. The taxation of savings income shall take place mainly by way of levying withholding tax (please see below). If and to the extent German withholding tax has been levied, such withholding tax shall, in principle, become definitive and replace the investor's income taxation. If no withholding tax has been levied other than by virtue of a withholding tax exemption certificate (*Freistellungsauftrag*) and in certain other cases, the investor is nevertheless obliged to file a tax return, and the savings income will then be taxed within the assessment procedure. However, the separate tax rate for savings income applies in most cases also within the assessment procedure. In certain cases, the investor may apply to be assessed on the basis of its personal tax rate if such rate is lower than the above tax rate.

If the income from the Notes qualifies as income from letting and leasing of property, the investor has to report income and income-related expenses (*Werbungskosten*) in its tax return and the balance will be taxed at the investor's individual income tax rate of up to 47.475 per cent (including solidarity surcharge) and, as the case may be, church tax.

- German withholding tax (*Kapitalertragsteuer*)

With regard to savings earnings (*Kapitalerträge*), e.g. interest or capital gains, German withholding tax (*Kapitalertragsteuer*) will be levied if the Notes are held in a custodial account which the investor maintains with a German branch of a German or non-German credit or financial services institution or with a German securities trading business or a German securities trading bank (a "**German Disbursing Agent**") and such German Disbursing Agent credits or pays out the earnings. The tax base is, in principle, equal to the taxable gross income as set out above (i.e. the interest or capital gains prior to withholding). However, in the case of capital gains, if the acquisition costs of the Notes are not proven to the German Disbursing Agent in the form required by law (i.e. if the Notes are transferred from a non-EU custodial account), withholding tax is applied to 30 per cent of the proceeds from the redemption or sale of the Notes. When computing the tax base for withholding tax purposes, the German Disbursing Agent may deduct any negative savings income or accrued interest paid of the same calendar year or of previous calendar years.

German withholding tax will be levied at a flat withholding tax rate of 26.375 per cent (including solidarity surcharge) plus, if applicable, church tax.

No German withholding tax will be levied if the investor filed a withholding tax exemption certificate (*Freistellungsauftrag*) with the German Disbursing Agent, but only to the extent the savings income does not exceed the maximum exemption amount shown on the withholding tax exemption certificate. Currently, the maximum exemption amount is EUR 801 (EUR 1,602 in the case of jointly assessed husband and wife). Similarly, no withholding tax will be levied if the investor has submitted to the German Disbursing Agent a certificate of non-assessment (*Nichtveranlagungs-Bescheinigung*) issued by the relevant local tax office.

Taxation if the Notes are held as business assets (*Betriebsvermögen*)

In the case of German tax-resident corporations or individual investors (*unbeschränkt Steuerpflichtige*) holding the Notes as business assets (*Betriebsvermögen*), interest payments and capital gains will be subject to corporate income tax at a rate of 15 per cent or income tax at a rate of up to 45 per cent, as the case may be, (in each case plus 5.5 per cent solidarity surcharge thereon). In addition, trade tax may be levied, the rate of which depends on the municipality where the business is located. Further, in the case of individuals, church tax may be levied. Capital losses may be ring-fenced.

The provisions regarding German withholding tax apply, in principle, as set out above in relation to private investors. However, investors holding the Notes as business assets cannot file a withholding tax exemption certificate with the German Disbursing Agent. German tax-resident corporations and other German tax-resident business investors are in essence not subject to German withholding tax on gains from the redemption or sale of the Notes, subject to certain formalities.

Any withholding tax levied is credited as prepayment against the German (corporate) income tax amount. If the tax withheld exceeds the respective (corporate) income tax amount, the difference will be refunded within the tax assessment procedure.

Non-residents

Persons who are not tax resident in Germany are not subject to tax with regard to income from the Notes unless (i) the Notes are held as business assets (*Betriebsvermögen*) of a German permanent establishment (including a permanent representative) which is maintained by the investor or (ii) the income from the Notes qualifies for other reasons as taxable German source income. If a non-resident person is subject to tax with its income from the Notes, in principle, similar rules apply as set out above with regard to German tax resident persons (please see above).

If the income is subject to German tax as set out in the preceding paragraph, German withholding tax will be applied like in the case of a German tax resident person.

Inheritance and Gift Tax

Inheritance or gift taxes with respect to any Note will, in principle, arise under German law if, in the case of inheritance tax, either the decedent or the beneficiary or, in the case of gift tax, either the donor or the donee is a resident of Germany or if such Note is attributable to a German trade or business for which a permanent establishment is maintained or a permanent representative has been appointed. In addition, certain German expatriates will be subject to inheritance and gift tax.

Other Taxes

No stamp, issue, registration or similar taxes or duties are payable in Germany in connection with the issuance, delivery or execution of the Notes. Currently, net assets tax (*Vermögenssteuer*) is not levied in Germany.

The Netherlands

The following summary of certain Dutch taxation matters is based on the laws and practice in force as of the date of this Prospectus and is subject to any changes in law and the interpretation and application thereof, which changes could be made with retroactive effect. The following summary does not purport to be a comprehensive description of all the tax considerations that may be relevant to a decision to acquire, hold or dispose of a Note, and does not purport to deal with the tax consequences applicable to all categories of investors, some of which may be subject to special rules.

For the purpose of this summary it is assumed that (i) a holder of a Note does not have a direct or indirect substantial interest or deemed substantial interest in the Issuer, and (ii) in case the holder of a Note is an individual, no connected person to such individual (verbonden person) has a direct or indirect substantial interest or deemed substantial interest in the Issuer.

Generally speaking, an individual has a substantial interest in a company if (a) such individual, either alone or together with his partner, directly or indirectly has, or is deemed to have or (b) certain relatives of such individual or his partner directly or indirectly have or are deemed to have (i) the ownership of, a right to acquire the ownership of, or certain rights over, shares representing 5 per cent or more of either the total issued and outstanding capital of such company or the issued and outstanding capital of any class of shares of such company, or (ii) the ownership of, or certain rights over, profit participating certificates (winstbewijzen) that relate to 5 per cent or more of either the annual profit or the liquidation proceeds of such company.

Generally speaking, a non-resident entity has a substantial interest in a company if such entity, directly or indirectly has (I) the ownership of, a right to acquire the ownership of, or certain rights over, shares representing 5 per cent or more of either the total issued and outstanding capital of such company or the issued and outstanding capital of any class of shares of such company, or (II) the ownership of, or certain rights over, profit participating certificates (winstbewijzen) that relate to 5 per cent or more of either the annual profit or the liquidation proceeds of such company. An entity holding a Note has a deemed substantial interest in a company if such entity has disposed of or is deemed to have disposed of all or part of a substantial interest on a non-recognition basis.

For the purpose of this summary, the term "entity" means a corporation as well as any other person that is taxable as a corporation for Dutch corporate tax purposes.

Where this summary refers to a holder of a Note, an individual holding a Note or an entity holding a Note, such reference is restricted to an individual or entity holding legal title to as well as an economic interest in such Note.

This summary does not apply to a holder of a Note resident or having taxable presence on the islands of Bonaire, St. Eustatius or Saba.

Investors should consult their professional advisers on the tax consequences of their acquiring, holding and disposing of a Note.

1. WITHHOLDING TAX

All payments made by the Issuer of interest and principal under the Notes can be made free of withholding or deduction of any taxes of whatsoever nature imposed, levied, withheld or assessed by The Netherlands or any political subdivision or taxing authority thereof or therein, unless the Notes qualify as debt that effectively functions as equity for purposes

of article 10, paragraph 1, sub d of the Corporate Tax Act (*Wet op de vennootschapsbelasting 1969*). According to Supreme Court case law, the Notes effectively function as equity if (a) the Notes are subordinated to all other non-subordinated creditors of the Issuer, (b) the Notes do not have a fixed maturity or have a maturity of more than 50 years, and (c) payments under the Notes are entirely or almost entirely dependent on the Issuer's profits.

2. TAXES ON INCOME AND CAPITAL GAINS

Residents

Resident entities

An entity holding a Note which is, or is deemed to be, resident in The Netherlands for corporate tax purposes and which is not tax exempt, will generally be subject to corporate tax in respect of income or a capital gain derived from a Note at the prevailing statutory rates.

Resident individuals

An individual holding a Note who is, is deemed to be, or has elected to be treated as, resident in The Netherlands for income tax purposes will be subject to income tax in respect of income or a capital gain derived from a Note at rates up to 52 per cent if:

- (i) the income or capital gain is attributable to an enterprise from which the holder derives profits (other than as a shareholder); or
- (ii) the income or capital gain qualifies as income from miscellaneous activities (*belastbaar resultaat uit overige werkzaamheden*) as defined in the Income Tax Act (*Wet inkomenstbelasting 2001*), including, without limitation, activities that exceed normal, active asset management (*normaal, actief vermogensbeheer*).

If neither condition (i) nor (ii) applies, an individual holding a Note will be subject to income tax on the basis of a deemed return, regardless of any actual income or capital gain derived from a Note. The deemed return amounts to 4 per cent. of the value of the individual's net assets as per the beginning of the relevant fiscal year (including the Note). Subject to the application of certain allowances, the deemed return will be taxed at a rate of 30 per cent

Non-residents

A holder of a Note which is not, is not deemed to be, and - in case the holder is an individual - has not elected to be treated as, resident in The Netherlands for the relevant tax purposes will not be subject to taxation on income or a capital gain derived from a Note unless:

- (i) the income or capital gain is attributable to an enterprise or part thereof which is either effectively managed in The Netherlands or carried on through a permanent establishment (*vaste inrichting*) or a permanent representative (*vaste vertegenwoordiger*) in The Netherlands and the holder of a Note derives profits from such enterprise (other than by way of securities); or
- (ii) the holder is an individual and the income or capital gain qualifies as income from miscellaneous activities (*belastbaar resultaat uit overige werkzaamheden*) in The Netherlands as defined in the Income Tax Act (*Wet inkomenstbelasting 2001*), including, without limitation, activities that exceed normal, active asset management (*normaal, actief vermogensbeheer*).

3. GIFT AND INHERITANCE TAXES

Dutch gift or inheritance taxes will not be levied on the occasion of the transfer of a Note by way of gift by, or on the death of, a holder of a Note, unless:

- (i) the holder of a Note is, or is deemed to be, resident in The Netherlands for the purpose of the relevant provisions; or
- (ii) the transfer is construed as an inheritance or gift made by, or on behalf of, a person who, at the time of the gift or death, is or is deemed to be resident in The Netherlands for the purpose of the relevant provisions.

4. VALUE ADDED TAX

The issuance or transfer of a Note, and payments of interest and principal under a Note, will not be subject to value added tax in The Netherlands.

5. OTHER TAXES AND DUTIES

The subscription, issue, placement, allotment, delivery or transfer of a Note will not be subject to registration tax, stamp duty or any other similar tax or duty payable in The Netherlands.

6. RESIDENCE

A holder of a Note will not be, or deemed to be, resident in The Netherlands for tax purposes and, subject to the exceptions set out above, will not otherwise be subject to Dutch taxation, by reason only of acquiring, holding or disposing of a Note or the execution, performance, delivery and/or enforcement of a Note.

Luxembourg

Withholding Tax

All payments of interest and principal by the Issuer in the context of the holding, disposal, redemption or repurchase of the Notes can be made free and clear of any withholding or deduction for or on account of any taxes of whatsoever nature imposed, levied, withheld, or assessed by Luxembourg or any political subdivision or taxing authority thereof or therein, in accordance with the applicable Luxembourg law, subject however to:

- (i) the application of the Luxembourg laws of 21 June, 2005 implementing the European Union Savings Directive (Council Directive 2003/48/EC) and several agreements concluded with certain dependent or associated territories and providing for the possible application of a with-holding tax (20 per cent from 1 July 2008 to 30 June 2011 and 35 per cent from 1 July 2011) on interest paid to certain non Luxembourg resident investors (individuals and certain types of entities called "residual entities") in the event of the Issuer appointing a paying agent in Luxembourg within the meaning of the above-mentioned directive (see section "EU Savings Directive" below) or agreements;
- (ii) the application as regards Luxembourg resident individuals of the Luxembourg law of 23 December 2005 which has introduced a 10 per cent withholding tax on savings income (i.e. with certain exemptions, savings income within the meaning of the Luxembourg laws of 21 June 2005 implementing the EU Savings Directive (Council Directive 2003/48/EC)).

Pursuant to the law of 23 December 2005 as amended by the law of 17 July 2008, Luxembourg resident individuals can opt to self declare and pay a 10 per cent tax (the "Levy") on interest payments made by paying agents located in a Member State of the European Union other than Luxembourg, a Member State of the European Economic Area or in a State or territory which has concluded an agreement directly relating to the EU Savings Directive (Council Directive 2003/48/EC) on the taxation of savings income.

The 10 per cent withholding tax as described above or the Levy are final when Luxembourg resident individuals are acting in the context of the management of their private wealth.

Responsibility for the withholding of tax in application of the above-mentioned Luxembourg laws of 21 June 2005 and 23 December 2005 is assumed by the Luxembourg paying agent within the meaning of these laws and not by the Issuer.

EU Savings Tax Directive

Under EC Council Directive 2003/48/EC on the taxation of savings income (the "**EU Savings Directive**"), each Member State is required to provide to the tax authorities of another Member State details of payments of interest or other similar income paid by a person within its jurisdiction to, or collected by such a person for, an individual resident or certain limited types of entity established in that other Member State; however, for a transitional period, Austria and Luxembourg may instead apply a withholding system in relation to such payments, deducting tax at rates rising over time to 35 per cent. In the case of Luxembourg, the recipient of the interest payment may opt for one of the two information exchange procedures available instead of the application of the above withholding system. The transitional period is to terminate at the end of the first full fiscal year following agreement by certain non-EU countries to the exchange of information relating to such payments.

A number of non-EU countries, and certain dependent or associated territories of certain Member States, have adopted similar measures (either provision of information or transitional withholding) in relation to payments made by a person within its jurisdiction to, or collected by such a person for, an individual resident or certain limited types of entity estab-

lished in a Member State. In addition, the Member States have entered into provision of information or transitional withholding arrangements with certain of those dependent or associated territories in relation to payments made by a person in a Member State to, or collected by such a person for, an individual resident or certain limited types of entity established in one of those territories.

The European Commission has proposed certain amendments to the EU Savings Directive, which may, if implemented, amend or broaden the scope of the requirements described above. Investors who are in any doubt as to their position should consult their professional advisers.

Offer of the Notes

Offer Period and determination of Pricing Details

The Notes will be offered at a price of [•] per cent of their principal amount (the "**Issue Price**") to investors by the Managers during an offer period which will commence not earlier than 10 May 2011 and will be open until the Issue Date subject to a shortening or extension of the offer period. During the offer period investors may submit orders to the Managers. The Issue Price, the rate of interest and the aggregate nominal amount of the issue will be determined on the basis of the orders received by the Managers on the pricing date which is expected to be on or about 10 May 2011. The aggregate principal amount to be issued will be determined on the basis of the number and the volume of orders which offer a yield acceptable to the Issuer. Such information, the number of Notes, the Issue Price, the Interest Rate, the net proceeds before deduction of total expenses and the yield will be included in a notice which will be filed with the CSSF and with the Luxembourg Stock Exchange and published on the website of the Luxembourg Stock Exchange (www.bourse.lu) after the date of pricing and prior to the Issue Date (the "**Pricing Notice**"). Any onsale of Notes will be subject to market conditions. Should the Issuer and the Managers determine any extension of the offer period, which also could be the result of changing market conditions, such extension will be notified in a supplement to the Prospectus which will be prepared and published in accordance with Article 13 of the Prospectus Law.

Notification of the Prospectus approval

The issue of the Notes will be made to institutional investors and retail investors in compliance with the applicable public offer restrictions. A public offer to retail investors may be made in Luxembourg, Germany and Austria following the effectiveness of the notification of the Prospectus by the CSSF according to Article 18 of the Prospectus Directive.

Conditions and technical details of the Offer

The following sets out details of the offer which is required to comply with the requirements of the applicable prospectus regulation. There are no conditions to which the offer is subject. Any offer to purchase Notes to investors will be made through, and investors may submit their offers to buy Notes, using the information system Bloomberg or any other commonly used information systems. Following the publication of the Pricing Notice the Notes may be offered through banking institutions in Luxembourg, Germany or Austria, as the case may be. Subscription rights for the Notes will not be issued. Therefore, there are no procedures for the exercise of any right of pre-emption, the negotiability of subscription rights and the treatment of subscription rights not exercised. Any investor who has submitted an order in relation to the Notes whose order is accepted will receive a confirmation by electronic mail, fax or through commonly used information systems relating to the respective allotment of Notes. Before an investor receives a confirmation from the Managers that its purchase order for the Notes has been accepted, the investor may reduce or withdraw its purchase orders. Any investor will receive relating to the respective allotment of the Notes a confirmation of the results of the offer. There is no minimum or maximum amount of Notes to be purchased. Investors may place offers to purchase Notes in any amount.

Confirmation relation to an order and allotments as well as delivery of the Notes

Following the pricing of the Notes and confirmation which orders have been accepted and which amounts have been allotted to particular investors, the Issue Date, which is expected to be 25 May 2011 will be determined and included in the Pricing Notice. Delivery and payment of the Notes will be made within seven business days after the date of pricing of the Notes and the confirmation of the allotment to investors. The Notes will be delivered via book-entry through the Clearing System and its accountholding banks against payment of the Issue Price.

Charges and costs relating to the Offer

The Issuer will not charge any costs, expenses or taxes directly to any investor. Investors must inform themselves about any costs, expenses or taxes in connection with the Notes which are generally applicable in their respective country of residence, including any charges their own depository banks charge them for purchasing or holding securities.

Method of determination of the Issue Price and the Rate of Interest

The rate of interest and the Issue Price for the Notes will be determined at the time of pricing on the basis of a yield which is determined by adding a pricing spread to the level of the Midswaps at the time of pricing. The pricing spread will be determined on the basis of the orders received and confirmed by the Joint Lead Managers. Orders will specify a minimum pricing spread and may only be confirmed at or above such pricing spread. The level of the Midswaps will be determined as the calculated mid-yield of the bid and ask prices of Interest-Swap Transactions ("Midswaps") with a maturity similar to the maturity of the Notes shown on the Reuters page ICAPEURO or on Bloomberg page ICAE or on any other screen provider which is conventionally used to price Eurobond transactions at the time of pricing. The resulting yield will be used to determine an Issue Price (which is expected to be less than par) and a coupon rate of interest (which is expected to be a percentage figure which can be evenly divided by 1/8 of a full per cent and which will be correspondingly higher if a higher Issue Price is determined and which will be correspondingly lower if a lower Issue Price is determined), all to correspond to the yield which reflects the level of the Midswaps and the pricing spread. In the event that the figures for the relevant Midswaps shall not be shown as set out above then the relevant figures shall be determined in a manner which banks and other institutional market participants apply at that time. The resulting figure will represent the yield of the Notes and such yield will be used to determine the coupon rate of interest and the Issue Price.
