The courts of all Member States (other than Denmark) must recognize the judgment opening insolvency proceedings of the court commencing proceedings (subject to any public policy exception). The judgment of the court commencing main proceedings will produce the same effects in the other Member States (other than Denmark) as under the law of the Member State (other than Denmark) commencing main proceedings, so long as no secondary insolvency proceedings or territorial insolvency proceedings have been commenced in that other Member State and subject to certain other exceptions (*e.g.*, rights in rem situated in another Member State remain subject to the original law governing that right). The insolvency practitioner appointed or confirmed by a court in the Member State, which has jurisdiction to commence main proceedings, may exercise the powers conferred on it by the laws of that Member State in another Member State (other than Denmark) (such as to remove assets of the debtor from that other Member State). These powers are subject to certain limitations (*e.g.*, the powers are available *provided* that no insolvency proceedings have been commenced in that other Member State nor any preservation measure to the contrary has been taken there further to a request to commence secondary proceedings in that other Member State where the debtor has assets).

However, under Article 36 of the Recast EU Insolvency Regulation, the insolvency receiver in the main insolvency proceedings may prevent the opening of secondary insolvency proceedings in another Member State by giving a unilateral undertaking in respect of the assets located in the Member State in which secondary insolvency proceedings could be opened. For this purpose, the insolvency receiver must undertake to comply with the distribution and priority rights under the relevant national law and from which the local creditors would benefit if the insolvency proceeding was opened in the Member State where the assets are located. Such undertaking must be made in writing and is subject to approval by a majority of local creditors, determined in accordance with applicable local laws. If approved, the undertaking is binding on the insolvent estate and if a court is requested to open secondary insolvency proceedings, it should refuse to open such proceeding if it is satisfied that the undertaking adequately protects the general interests of local creditors.

Insolvency proceedings involving members of a group of companies

The Recast EU Insolvency Regulation provides for a cooperation and communication mechanism with the concept of "group coordination proceedings" in the event that insolvency proceedings concerning two or more members of a group of companies are opened in Member States (other than Denmark). Under Article 61 of the Recast EU Insolvency Regulation, group coordination proceedings may be requested before any court having jurisdiction over the insolvency proceedings of a member of the group, by an insolvency receiver appointed in insolvency proceedings opened in relation to a member of the group. Insolvency receivers appointed in proceedings concerning a member of the group will cooperate with any insolvency receiver appointed in proceedings concerning another member of the group to the extent that such cooperation is appropriate. Similarly, the court which has opened proceedings shall also cooperate with any other court before which a request is made to open proceedings concerning another member of the group, to the extent that cooperation is appropriate to facilitate the effective administration of the proceedings, is not incompatible with the rules applicable to them and does not entail any conflict of interest.

Further, an insolvency receiver appointed in insolvency proceedings concerning a member of a group of companies will cooperate and communicate with any court with jurisdiction over the insolvency proceedings of another group member. The Recast EU Insolvency Regulation also contains provisions for the proposal and implementation of a group coordination plan and group coordination proceedings, which are designed and implemented by a group coordinator. Participation in the group coordination plan is not compulsory for group members, and there are safeguards to preserve the sovereignty of the applicable law and courts of each group members' insolvency proceedings.

Applicability

In the event that the Issuer or any of its subsidiaries experience financial difficulty, it is not possible to predict with certainty in which jurisdiction or jurisdictions insolvency or similar proceedings would be commenced, or the outcome of such proceedings. Applicable insolvency laws may affect the enforceability of the obligations of the Issuer.

Certain Italian Insolvency Law Considerations

The Guarantor of the EUR TIF New Notes is an Italian company and the issuer of the Optics Notes is an Italian company. Therefore, the following Section addresses certain Italian insolvency considerations which are relevant both for the EUR TIF New Notes and EUR Optics (TIF) Notes. As such, references to the "Notes" should be read as references to the "EUR TIF New Notes" and "EUR Optics (TIF) Notes" unless specified otherwise.

The insolvency laws of Italy may not be as favorable to investors' interests as those of other jurisdictions with which investors may be familiar. In Italy, courts play a central role in the insolvency process. Moreover, in court procedures may be materially more complex and the enforcement of security interests by creditors in Italy can be more time-consuming than in equivalent situations in jurisdictions with which holders of the Notes may be familiar.

The following is a brief description of certain aspects of insolvency law in Italy, which does not include special provisions applying to banks, insurance and other companies authorized to carry out certain reserved activities nor it provides a comprehensive description of insolvency laws application where public companies are involved.

Insolvency laws and regulations have been replaced by a new crisis and insolvency code. In particular, the Italian government approved on January 12, 2019 the Legislative Decree No. 14 implementing the guidelines contained in Law No. 155 dated October 19, 2017 contending the scheme of a new comprehensive legal framework in order to regulate, *inter alia*, insolvency matters (the "**Legislative Decree**"), which enacts a new comprehensive legal framework in order to regulate, *inter alia*, insolvency matters which came into force on July 15, 2022 (so called "*Code of Business Crisis and Insolvency*," as subsequently amended and supplemented and including Italian Legislative Decree No. 83 of June 17, 2022 implementing the EU Directive 2019/1023, hereinafter the "**Italian Insolvency Code**"). The Legislative Decree was published in the *Gazzetta Ufficiale* on February 14, 2019 no. 38—Suppl. Ordinario No. 6. The main innovations introduced by the Italian Insolvency Code include, *inter alia*: (i) the elimination of the term "bankrupt" (*fallito*) due to its negative connotation and the replacement of bankruptcy proceedings (*fallimento*) with a judicial liquidation (*liquidazione giudiziale*); (ii) a new definition of "state of crisis" (*crisi*); (iii) the adoption of the same procedural framework in order to ascertain such state of crisis and to access the different restructuring tools and frameworks (*strumenti di regolazione della crisi e dell'insolvenza della società*) provided for by the same Italian Insolvency Code; (iv) a new set of rules concerning group restructurings; (v) restrictions to the use of the pre-bankruptcy composition with creditors (*concordato preventivo*) in order to favor going concern proceedings; (vi) a new crisis settlement procedure (*composizione negoziata della crisi*); (vii) jurisdiction of specialized courts over proceedings involving large debtors; (viii) the adoption of the definition of debtor's "center of main interest" as provided in the new set of rules concerning group restructurings; (ix) the introduction of the new restructuring plan subject to homologation (*piano di ristrutturazione soggetto ad omologazione*) among the restructuring tools and frameworks (*strumenti di regolazione della crisi e dell'insolvenza della società*); (x) the regulation of adequate measures and plans to early detect a crisis with specific criteria to be adopted by companies and (xi) amendments to certain provisions of the Italian Civil Code aimed at ensuring the general effectiveness of the reform.

The Italian Insolvency Code has been amended and supplemented by, among others, (i) the Italian Legislative Decree No. 147 of October 26, 2020, (ii) the Italian Draft Legislative Decree on "*Amendments to the Business Crisis and Insolvency Code, implementing Directive (EU) 2019/1023*" approved on March 17, 2022 by the Italian Council of Ministers (*Consiglio dei Ministri*) and (iii) the Italian Legislative Decree No. 83 of June 17, 2022. Except for minor changes in some provisions of the Italian Civil Code, which already entered into force on March 16, 2019, in response to the COVID-19 pandemic, the entry into force of the Italian Insolvency Code has been initially postponed to September 1, 2021 by the "*Decreto liquidità*" (i.e. Law Decree April 8, 2020, no. 23, published in the Gazzetta Ufficiale on April 8, 2020 and converted in law by the Italian Parliament by the Law June 5, 2020, No. 40, published in the Gazzetta Ufficiale on June 6, 2020 the "**Liquidity Decree**"), and is now effective starting from July 15, 2022. Provisions under the Italian Bankruptcy Law continue to apply only to any filings for proposals of declaration of insolvency procedures and bankruptcy restructuring plans (*concordato fallimentare*) and any filings seeking for the approval of debt restructuring agreements (*accordo di ristrutturazione dei debiti*) or for the opening of a composition with creditors proceeding (*concordato preventivo*) filed or pending before July 15, 2022 (i.e. the effective date of the Italian Insolvency Code).

Considering the above, the following is a brief description of certain main aspects of insolvency law in Italy as it stands now and in particular: (i) of the Italian Bankruptcy Law and the other ancillary applicable regulations in place until July 15, 2022 and (ii) of the Italian Insolvency Code after its entry into force.

Italian Bankruptcy Law - applicable to proceedings filed or opened before July 15, 2022 only

The two primary aims of the Italian Bankruptcy Law are to liquidate the debtor's assets and protect the goodwill of the going concern (if any) for the satisfaction of creditors' claims. On the other hand, other particular insolvency procedures, such as "*Prodi bis*" extraordinary administration procedure and "*Marzano*" extraordinary administration procedure, which will be addressed as well in the following paragraphs, also target the preservation of significant employment levels. These competing aims have often been balanced by the sale of businesses as going concerns and ensuring that employees are transferred along with the businesses being sold.

Under the Italian Bankruptcy Law, bankruptcy (*fallimento*) must be declared by a court, based on the insolvency (*insolvenza*) of a company upon a petition filed by the company itself, the public prosecutor and/or one or more creditors. Insolvency, as defined under Article 5 of the Italian Bankruptcy Law, occurs when a debtor is no longer able to regularly meet its obligations as they come due. This must be a permanent, rather than a temporary status of insolvency, in order for a court to hold that a company is insolvent.

In cases where a company is facing financial difficulties or temporary cash shortfall and, in general, financial distress, it may be possible for it to enter into out-of-court arrangements with its creditors, which may safeguard the existence of the company, but which are susceptible of being reviewed by a court in the event of a subsequent insolvency, and possibly challenged as voidable transactions.

In addition to the *composizione negoziata della crisi* and to the *concordato semplificato per la liquidazione del patrimonio*, the following debt restructuring and bankruptcy alternatives are available under Italian law for companies in a state of crisis and for insolvent companies.

Composizione negoziata per la soluzione della crisi d'impresa (introduced by Law Decree 118/2021)

The *composizione negoziata della crisi* is an out-of-court proceeding, but the court can be involved in the two following circumstances: (i) when the entrepreneur files a petition pursuant to Article 7 of the Law Decree 118/2021 requesting the competent court pursuant to Article 9 of the Italian Insolvency Law, to confirm or modify the protective measures (the "**Protective Measures**"), and, if necessary, to enact the interim measures provided for pursuant to Article 6 of the Law Decree 118/2021 on the same day as the publication of the request in the relevant Companies' Register (*Registro delle Imprese*) and the acceptance of the Expert (as defined below); and if necessary to complete the negotiations (the "**Interim Measures**" and, together with the Protective Measures, the "**Measures**"), and (ii) when the entrepreneur files a petition pursuant to Article 10 of the Law Decree 118/2021 asking the court to authorize certain acts, or to modify the conditions of certain contracts if, as a consequence of the COVID-19 pandemic, such contracts pose an excessive burden on the entrepreneur.

The *composizione negoziata della crisi* can be pursued by enterprises, either commercial (*imprenditore commerciale*) and agricultural (*imprenditore agricolo*), which are in a distressed situation with reference to their assets, their business and/or their finance, such that it is likely that a crisis or insolvency will follow and it is likely that the financial recovery shall occur, notwithstanding the general thresholds for the application of Italian Bankruptcy Law are not met. Pursuant to Article 5 of the Law Decree 118/2021, *inter alia*, the entrepreneur or the enterprise filing for a *composizione negoziata della crisi* (i) shall certify that no requests for the admission to a *concordato preventivo* procedure nor *accordi di ristrutturazione dei debiti* have been previously filed to the court in such respect and (ii) in the event that the application for a *composizione negoziata della crisi* is dismissed, may not submit a new request before one year has elapsed after the aforementioned dismissal.

Pursuant to Article 13 of the Law Decree 118/2021, the *composizione negoziata della crisi* may also apply to group of companies, in order to provide for the possibility of the negotiated proceeding to take place in a unitary form. It should be noted that Paragraph 10 of such provision provides for the group companies – at the end of the negotiations – to either enter into one of the agreements referred to in Article 11 of the Law Decree 118/2021 (as set out below) as a whole group or enter separately as single companies into the solutions referred to therein.

The *composizione negoziata della crisi* is commenced by the enterprises, on a voluntary basis only, with the filing of a petition for the appointment of a third party and an independent expert (the "**Expert**") which however, pursuant to Article 23 of the Law Decree 118/2021, is prevented for enterprises having filed to access the procedures, debt restructuring agreements and/or *concordato preventivo*, including (i) pursuant to Article 161, Paragraph 6 of the Italian Bankruptcy Law, (ii) pursuant to Article 182-*bis*, Paragraph 6 of the Italian Bankruptcy Law and (iii) the procedures of over-indebtedness restructuring agreement or liquidation of assets referred to in Articles 7 and 14-*ter* of Law No. 3 of January 27, 2012 (i.e. *procedimenti di composizione della crisi da sovraindebitamento e di liquidazione del patrimonio*) pending such procedures. Pursuant to Article 4 of the Law Decree 118/2021 the person who acted as Expert in the context of such proceeding, shall not have or maintain professional relations with the entrepreneur during the two years following the termination of the negotiated proceeding.

If the Expert finds that there are concrete chances of recovery (*risanamento*), he/she meets with the parties involved in the entrepreneur's recovery process and presents the possible strategies, scheduling periodic meetings close in time to one another. During the negotiations, all the parties involved must act in good faith and with fairness, must cooperate and are bound by confidentiality on the entrepreneur's financial and business situation, on the actions carried out or planned by the entrepreneur and on the information received in the course of the negotiations.

If the Expert finds that there are not concrete chances of recovery (*risanamento*), after the meeting with the entrepreneur or thereafter, he/she has to promptly notify the entrepreneur and the secretary general of the chamber of commerce, which provides for the dismissal of the entrepreneur's petition.

The Expert's appointment is considered terminated if, after 180 days from its appointment, the parties have not agreed on a solution (that can also be proposed by the Expert) for overcoming the entrepreneur's distressed situation. However, the Expert's appointment can continue for up to an additional 180 days (pursuant to Article 5, Paragraph 7 of the Law Decree 118/2021) if (i) all the parties involved in the negotiations require so and the Expert agrees, or (ii) the prosecution of the appointment is required by the fact that the entrepreneur has filed a petition to the court pursuant to Article 7 and/or Article 10 of the Law Decree 118/2021.

Pursuant to Article 5, Paragraph 8 of the Law Decree 118/2021, at the end of his/her appointment the Expert issues a final report (the "**Final Report**"), uploads it on the Platform, and notifies it to the entrepreneur and to the court that has granted the Protective Measures and Interim Measures (if any), which declares the termination of their related effects.

Pursuant to Article 6 of the Law Decree 118/2021, together with the petition for appointment of the Expert, or with a subsequent petition, the entrepreneur can request the application of Protective Measures. The Protective Measures consist of the following: from the date of publication of the relevant petition, preexisting creditors cannot obtain preemption rights (*diritti di prelazione*) unless agreed upon by the entrepreneur and all enforcement and interim actions are stayed. However, as opposed to what happens in the *concordato preventivo*, payment of preexisting creditors is not forbidden. The Protective Measures do not apply to employees' claims.

From the date of publication of the petition requesting the application of the Protective Measures until the date of conclusion of the negotiations or dismissal of the petition for appointment of the Expert, the entrepreneur cannot be declared bankrupt nor insolvent by the court.

The creditors whose rights are affected by the Protective Measures cannot unilaterally refuse to perform their obligations under the contracts in place with the entrepreneur, nor terminate such contracts, nor anticipate their expiration date, nor amend them with detrimental consequences for the entrepreneur, solely on the ground of the missed payment of claims arisen prior to the publication of the petition requesting the application of the Protective Measures.

If the entrepreneur applies for the Protective Measures (which, as said, are immediately effective), he must simultaneously file the same request to the competent court, in order to allow a judge to check the said measures and to confirm them or, if necessary, to modify them. In the absence of this request, the Protective Measures will be ineffective.

The duration of the Protective Measures and, if necessary, the Interim Measures, is established by an order of the court in a range between 30 and 120 days, and, upon request of the parties and after obtaining the opinion of the Expert, can be extended for the time required to positively finalize the negotiations up to a maximum of 240 days. The judge, in his or her discretion, may order the revocation of such Protective Measures or shorten their duration.

Upon request of the entrepreneur or of one or more creditors, or upon report of the Expert, the Protective Measures and the Interim Measures can be revoked, or their duration can be reduced, if they do not satisfy the purpose of a positive finalization of the negotiations or appear to be disproportionate compared to the prejudice caused to the creditors that file the relevant request.

Pursuant to Article 9 of the Law Decree 118/2021, pending the negotiations, the entrepreneur may carry out acts pertaining to ordinary activity, and, upon written notice to the Expert, carry out acts pertaining to extraordinary activity or make payments non-consistent with the negotiations nor with the perspectives of recovery, in such a way as to avoid prejudicing the economic and financial sustainability of the business. Furthermore, if during the course of the negotiations, it appears that the entrepreneur is insolvent but there are real prospects of recovery, the entrepreneur shall manage the enterprise in the best interests of the creditors, subject to his liabilities.

If the Expert believes that a certain act causes prejudice to the creditors, to the negotiations or to the perspectives of recovery, he/she reports it in writing to the entrepreneur and to the enterprise's control body. If, notwithstanding the Expert's report, the entrepreneur carries out the relevant act, the entrepreneur gives immediate notice to the Expert, who may file his/her dissent for the registration with the companies' register. When Protective Measures and/or Interim Measures have been granted, the Expert also reports to the court which may revoke such measures or reduce their duration pursuant to Article 7, Paragraph 6 of the Law Decree 118/2021.

Pursuant to Article 10 of the Law Decree 118/2021, the court, upon the entrepreneur's request and to the extent that this is consistent with the continuation of the business as a going concern and with the maximization of the creditors' recovery, may authorize:

(A) the entrepreneur or one or more companies belonging to the same group to incur new super-senior indebtedness (*prededucibile*) pursuant to Article 111 of the Italian Bankruptcy Law;

(B) the entrepreneur to incur new super-senior indebtedness (so-called *prededucibile*) via shareholders' financing pursuant to Article 111 of the Italian Bankruptcy Law;

(C) the entrepreneur to transfer its business, or certain business branches, without the effects provided under Article 2560, Paragraph 2, of the Italian Civil Code. However, in such case it will be for the court itself to identify the measures it considers appropriate, taking into account the requests of the parties concerned, in order to protect the interests of all relevant parties involved.

Pursuant to Article 11 of the Law Decree 118/2021, the *composizione negoziata della crisi* can terminate as follow:

(i) execution of an agreement between the entrepreneur and one or more creditors, which constitutes cause for application of the reward measures provided under Article 14 of the Law Decree 118/2021 if, according to the Expert's Final Report, such agreement ensures the continuation of the business as a going concern for at least two years;

(ii) execution of a standstill agreement (*convenzione di moratoria*) pursuant to Article 182 *octies* of the Italian Bankruptcy Law;

(iii) execution of an agreement signed by the entrepreneur, by the creditors and by the Expert, with the effects provided under Article 67, Paragraph 3, letter d) of the Italian Bankruptcy Law. In such case, the independent expert's report (*attestazione*) provided under Article 67, Paragraph 3, letter d) of the Italian Bankruptcy Law, shall not be required.

At the end of the negotiations, the entrepreneur can also file a petition requesting the sanctioning of a debt restructuring agreement with creditors (*accordo di ristrutturazione dei debiti*) pursuant to Article 182-*bis*, Article 182 *septies* or Article 182 *novies* of the Italian Bankruptcy Law.

Alternatively, the entrepreneur may:

(i) arrange an out-of-court reorganization plan (*piano attestato di risanamento*) pursuant to Article 67, Paragraph 3, letter d) of the Italian Bankruptcy Law;

(ii) file a petition for admission to the *concordato semplificato per la liquidazione del patrimonio* pursuant to Article 18 of the Law Decree 118/2021 which pursuant to Article 11 of the Law Decree 118/2021 can be filed only following the end of the negotiations;

(iii) enter into one of the insolvency proceedings provided under the Italian Bankruptcy Law or in the so-called Prodi *bis* procedure or Marzano procedure.

Pursuant to Article 12 of the Law Decree 118/2021:

(i) the acts authorized by the court pursuant to Article 10 of the Law Decree 118/2021 maintain their effects in the event of subsequent sanctioned debt restructuring agreement with creditors (*accordo di ristrutturazione dei debiti omologato*), sanctioned court-supervised pre-bankruptcy composition with creditors (*concordato preventivo omologato*), bankruptcy (*fallimento*), compulsory administrative winding-up (*liquidazione coatta amministrativa*), extraordinary administration for large insolvent companies (*amministrazione straordinaria*) or *concordato semplificato per la liquidazione del patrimonio*;

(ii) the payments of debts that are immediately due and payable, any onerous transactions and the granting of security interests made after the Expert accepted its appointment, are exempted from claw-back actions pursuant to Article 67, Paragraph 2, of the Italian Bankruptcy Law if they are consistent with the development and the status of the negotiations and with the perspectives of recovery (*risanamento*) in place at the time the payment/transaction/granting of security interest was made;

(iii) acts pertaining to the entrepreneur's extraordinary activity and payment made after the Expert accepted its appointment are subject to claw-back actions pursuant to Article 66 and Article 67 of the Italian Bankruptcy Law if the Expert has registered his/her dissent in the companies' register or if the court has denied its authorization pursuant to Article 10 of the Law Decree 118/2021;

(iv) payments and transactions made after the Expert accepted its appointment, which the Expert assesses to be consistent with the development of the negotiations and with the perspectives of recovery (*risanamento*) of the enterprise, or which have been authorized by the court pursuant to Article 10 of the Law Decree 118/2021, benefit of exemptions from the potential application of certain criminal sanctions provided for pursuant to Article 216 and 217 of the Italian Bankruptcy Law.

Potential outcomes: concordato semplificato per la liquidazione del patrimonio (introduced by Law Decree 118/2021)

Article 18 of the Law Decree 118/2021 introduces a simplified court-supervised pre-bankruptcy composition with creditors with liquidation purpose (*concordato semplificato per la liquidazione del patrimonio*).

If, in its Final Report, the Expert states that the negotiations did not have a positive outcome but have been conducted according to fairness and in good faith, and that the options provided under Article 11, Paragraphs 1 and 2, of the Law Decree 118/2021 are not feasible, within 60 days following the notification of the Final Report the entrepreneur may file, with the competent court of the place where the company has its registered office, a petition for admission to the *concordato semplificato per la liquidazione del patrimonio*, together with a liquidation plan and the documents listed under Article 161, Paragraph 2, letters a), b), c) and d) of the Italian Bankruptcy Law, which may divide the creditors into various classes. The petition for *concordato semplificato per la liquidazione del patrimonio* is then published in

the companies' register within the day following the filing with the court. From the date of such publication, the effects provided under Articles 111, 167, 168 and 169 of the Italian Bankruptcy Law apply.

The court issues a decree approval (*omologazione*) the *concordato semplificato per la liquidazione del patrimonio* when it finds that (i) the proceeding has been carried out in accordance with relevant laws and regulations and the adversarial principle among the parties (*contraddittorio*); (ii) the proposal is compliant with preemption rights (*cause di prelazione*) and the liquidation plan is feasible, and (iii) the proposal does not cause a prejudice to the creditors compared to what they would receive in case of insolvent liquidation of the entrepreneur, and in any case ensures that each creditor receives a certain recovery.

The parties may file an objection (*opposizione*) to the above-mentioned decree within 30 days after having been notified of the same.

Out-of-Court Reorganization Plans (piani di risanamento) pursuant to Article 67, Paragraph 3(d) of the Italian Bankruptcy Law

Out-of-court debt restructuring agreements are based on reorganization plans (*piani di risanamento*) prepared by companies in order to restructure their indebtedness and to ensure the recovery of their financial condition. An independent expert appointed directly by the debtor must verify the feasibility of the restructuring plan and the truthfulness of the business data provided by the company. There is no need to obtain court approval to appoint the expert. The expert must possess certain specific professional requisites and qualifications and meet the requirements set forth by Article 2399 of the Italian Civil Code and may be subject to liability in case of misrepresentation or false certification.

Out-of-court debt restructuring arrangements are not under any form of judicial control or approval and, therefore, no application is required to be filed with the court or supervising authority. Out-of-court debt restructuring arrangements are not required to be approved and consented to by a specific majority of all outstanding claims.

The terms and conditions of these plans are freely negotiable. Unlike in-court pre-bankruptcy agreement proceedings and debt restructuring agreements, out-of-court reorganization plans do not offer the debtor any protection against enforcement proceedings and/or precautionary actions of third-party creditors. The Italian Bankruptcy Law provides that, should these plans fail and the debtor be declared bankrupt, the payments and/or acts carried out for the implementation of the reorganization plan, subject to certain conditions (a) are not subject to claw-back action and (b) are exempted from the potential application of certain criminal sanctions. Neither ratification by the court nor publication in the Companies' Register are needed (although publication in the Companies' Register is possible upon a debtor's request and would allow to certain tax benefits), and, therefore, the risk of bad publicity or disvalue judgments are lower than in case of an in-court pre-bankruptcy agreement or a debt restructuring agreement.

Debt Restructuring Agreements with Creditors Pursuant to Article 182-bis of the Italian Bankruptcy Law (Accordi di ristrutturazione dei debiti)

Debt restructuring agreements with creditors (*accordi di ristrutturazione dei debiti*) entered into with creditors representing at least 60% of the outstanding company's debts can be ratified by the court and are subject to court's approval *(omologazione)*. An independent expert appointed by the debtor must assess the truthfulness of the business and accounting data provided by the company and declare that the restructuring agreement is feasible and, particularly, that it ensures that the debts of the non-participating creditors can be fully satisfied within a 120 day term starting from (i) the date of sanctioning (*omologazione*) of the agreement by the court, in the case of debts which are due and payable to the non-participating creditors as of the date of the debt restructuring agreement by the court and (ii) the date on which the relevant debts fall due, in case of debt which are not yet due and payable to the non-participating creditors as of the date of the sanctioning (*omologazione*) of the debt restructuring agreement by the court. Pursuant to article 182-*bis* of the Italian Bankruptcy Law, only a debtor who is in a state of crisis can initiate this process and request the court's sanctioning (*omologazione*) of the debt restructuring agreement entered into with its creditors.

The Italian Bankruptcy Law does not expressly provide for any indications concerning the contents of the debt restructuring agreement. The restructuring agreement (and the underlying business and financial plan) can therefore provide, *inter alia*, either for the continuation of the business by the debtor or by a third party, or the sale of the

business to a third party, and may provide for refinancing agreements, moratoria, write offs and/or postponements of claims. The debt restructuring agreement may also contain, *inter alia*, a proposed tax settlement for the partial or deferred payment of certain taxes.

The restructuring agreement is published in the Companies' Register and becomes effective as of the day of its publication. Starting from the date of such publication and for 60 days thereafter, creditors cannot start or continue any interim relief or enforcement actions over the assets of the debtor and cannot obtain any security interest (unless agreed) in relation to preexisting debts.

Pursuant to Article 182-*bis*, Paragraph 6, of the Italian Bankruptcy Law, the stay of actions can be requested by the debtor to the court also before the execution and publication of the restructuring agreement, while negotiations with creditors are still pending, subject to the fulfillment of certain conditions. Such request for stay of actions must be published in the Companies' Register and becomes effective as of the date of publication in the Companies' Register. The court, having verified the completeness of the documentation, sets the date for a hearing within 30 days of the publication and orders the debtor to supply to the creditors the relevant documentation in relation to the stay of actions request. In such hearing, creditors and other interested parties may file an opposition to the agreement and the court assesses whether the conditions for granting the stay of actions have been met and, if the court so determines, orders that no interim relief or enforcement action may be started or continued, nor can security interests (unless agreed) be acquired over the assets of the debtor, and sets a deadline (not exceeding 60 days) within which the restructuring agreement has to be filed. The court's order may be challenged within 15 days of its publication. Within the same deadline of 60 days, an application for the court supervised pre-bankruptcy composition with creditors (*concordato preventivo*) (as described below) may be filed, without prejudice to the effect of the stay of actions.

Creditors and other interested parties may file a challenge against the restructuring agreement within 30 days from the publication of the agreement in the Companies' Register. The court will, after having settled the challenges (if any), validate the agreement by issuing a decree, which may be appealed within 15 days of its publication.

The Decree 83/2015 (the "**Decree**"), as amended by Law 132/2015 ("**Law 132**") modified the basis for calculation of the 60% of the outstanding debtor's debt threshold required for courts' sanctioning of debt restructuring agreements (*accordi di ristrutturazione dei debiti*), easing the requirements with respect to financial creditors.

The new Article 182-bis, Paragraph 8 of the Italian Bankruptcy Law, as amended by Italian Law No. 69 of May 21, 2021, and subsequently replaced by the Law Decree 118/2021, sets the rule for when substantial amendments are made to the plan, *inter alia*, if any substantial change to the plan are is necessary or required before or after the homologation of a debt restructuring agreement with creditors, the entrepreneur shall make the appropriate changes aimed at the implementation of such plan, requesting (i) the independent expert to renew its report as well as (ii) the creditors involved in such debt restructuring agreement to manifest their consent the necessary amendments.

The Law Decree 118/2021 significantly amended Article 182-septies of the Italian Bankruptcy Law and introduced in the Italian Bankruptcy Law the new Article 182-octies, Article 182-novies and Article 182-decies, thus anticipating some of the provisions of the Italian Insolvency Code. Pursuant to the new Article 182-novies of the Italian Bankruptcy Law, introduced by the Law Decree 118/2021, the percentage of 60% provided under Article 182-bis, Paragraph 1, of the Italian Bankruptcy Law is reduced to the 30% if the debtor (a) waives the 120-day term for the satisfaction of its creditors provided for under Article 182-bis, Paragraph 1, letters (a) and (b) of the Italian Bankruptcy Law (therefore implying that the plan must be adequate and capable for the full and timely payment of dissenting creditors); (b) does not previously file a petition for admission to the *concordato in bianco* pursuant to Article 161, Paragraph 6, of the Italian Bankruptcy Law, and (c) does not request the 60-days moratorium pursuant to Article 182-bis, Paragraph 6 of the Italian Bankruptcy Law.

Pursuant to the new Article 182-*septies* of the Italian Bankruptcy Law, debtors are entitled to enter into debt restructuring agreements by obtaining the approval of creditors representing at least 75% of the credits belonging to the same category (so-called "**cram down**"), subject to certain conditions being met, including that non-participating creditors shall be satisfied to a no lesser extent than the liquidation alternative. The law also provides that (i) the agreement shall be of a non-liquidating nature, (ii) the agreement shall contemplate the direct or indirect continuation of the business activity as a going concern, and (iii) all the creditors belonging to the relevant category (and, therefore, affected by the proceeding) have been duly notified of the beginning of the negotiations, have been kept informed and

have been notified the debt restructuring agreement and the sanctioning decree (*decreto di omologa*) and the related documentation. If these conditions are met, the remaining 25% of non-participating creditors belonging to the same class of creditors are crammed down; however, non-participating crammed down creditors can challenge the deal and refuse to be forced into its.

Pursuant to Article 11 of The Law Decree 118/2021 the percentage of 75% is lowered to 60% if the reach of the debt restructuring agreement results from the Final Report issued by the Expert at the end of the negotiations pertaining to the *composizione negoziata della crisi*.

Pursuant to the new Article 182-*septies*, paragraph 5 of the Italian Bankruptcy Law, a special provision is set forth for debtors whose financial indebtedness is at least 50% of their total indebtedness: in this situation the debt restructuring agreement may identify one or more categories of creditors which are banks and financial intermediaries which have a homogeneous legal position and economic interests and extend the effects of the agreement to non-participating creditors who are part of the same category. In such instance, the agreement is valid even if it does not contemplate the direct or indirect continuation of the business activity as a going concern. However, in such case, the rights of creditors who are not banks or financial intermediaries remain valid.

Similarly, pursuant to the new Article 182-*octies* of the Italian Bankruptcy Law, a standstill agreement (*convenzione di moratoria*) entered into between a debtor and financial creditors representing 75% of the same class would also bind the non-participating creditors, *provided* that (A) an independent expert meeting the requirements provided under Article 67, Paragraph 3(d) of the Italian Bankruptcy Law certifies (i) the truthfulness of the business data, (ii) the attitude of the standstill agreement to temporarily regulate the effects of the crisis and (iii) the fact that the non-adhering creditors suffer a prejudice that is proportionate and consistent with the recovery strategies undertaken by the debtor, and (B) certain further conditions are met (*e.g.*, all the creditors belonging to the relevant category have been duly noticed of the beginning of the negotiations have been made able to participate in the negotiations and have received complete and up-to-date information on the debtor's assets, economic and financial situation and on the agreement and its related effects). Non-adhering crammed-down creditors can challenge the standstill agreement within 30 days after having been notified of the same.

The debt restructuring agreement provided under article 182-*septies* of the Italian Bankruptcy Law and the standstill agreement provided under Article 182-*octies* of the Italian Bankruptcy Law shall not impose new obligations, the granting of new overdraft facilities, the maintenance of the possibility to utilize the existing facilities or the utilization of new facilities on non-participating creditors.

Pursuant to the new Article 182-*decies* of the Italian Bankruptcy Law, introduced by the Law Decree 118/2021, Article 1239 of the Italian Civil Code applies to the creditors that have adhered to the debt restructuring agreements. Non-participating creditors maintain their claims towards *(i)* those who are jointly and severally liable with the debtor, *(ii)* the debtor's guarantors and *(iii)* debtors by way of right of recourse (*regresso*). Unless agreed otherwise, debt restructuring agreements produce effect towards the shareholders who are jointly liable with non-limited liability companies, *provided* that, if such shareholders have granted guarantees, they will remain liable as guarantors.

Pursuant to Article 182-*quater* of the Italian Bankruptcy Law, financings granted to the debtor pursuant to the approved debt restructuring agreement (or a homologated Court Supervised Pre-Bankruptcy Composition with Creditors (*concordato preventivo*)) enjoy super-seniority status under Article 111 of the Italian Bankruptcy Law in case of subsequent bankruptcy (such status also applies to financings granted by shareholders, but only up to 80% of such financing). Financings granted "in view of" (i.e. before) presentation of a petition for the sanctioning (*omologazione*) of a debt restructuring agreement under Article 182-*bis* of the Italian Bankruptcy Law or a court supervised Pre-Bankruptcy Composition with Creditors may be granted such super-seniority status under Article 111 of the Italian Bankruptcy Law *provided* that they are envisaged by the relevant plan or agreement and that such priority status is expressly recognized by the court in the context of the sanctioning (*omologazione*) of the debt restructuring agreement or the approval of the *concordato preventivo*. Same provisions apply to financings granted by shareholders up to 80% of their amount.

Moreover, pursuant to the new Article 182-*quinquies* of the Italian Bankruptcy Law, the Court, pending the sanctioning (*omologazione*) of the debt restructuring agreement pursuant to Article 182-*bis*, Paragraph 1, of the Italian Bankruptcy Law or after the filing of the moratorium application pursuant to Article 182-*bis*, Paragraph 6, of the

Italian Bankruptcy Law or a petition pursuant to Article 161, Paragraph 6, of the Italian Bankruptcy Law (in relation to the court supervised pre-bankruptcy arrangement with creditors procedure described below) may authorize the debtor, if so expressly requested: (i) to incur in new super senior indebtedness and to secure such indebtedness with in rem security (*garanzie reali*), or by assigning claims by way of security, *provided* that the expert appointed by the debtor (which shall be in possession of certain requirements), having verified the overall financial needs of the company until the sanctioning (*omologazione*), declares that the new financing aims at providing a better satisfaction of the rights of the creditors, and (ii) to pay pre-existing debts deriving from the supply of services or goods, to the extent already payable and due, *provided* that the expert declares that such payment is essential for the keeping of the company's activities and to ensure the best satisfaction for all creditors. According to article 182-*quinquies* of the Italian Bankruptcy Law, as amended by the provisions of the Decree (as amended and converted into law by Law 132), the aforementioned authorization may be given also before the filing of the additional documentation required pursuant to Article 161, Paragraphs 6 of the Italian Bankruptcy Law.

The provision of Article 182-*quinques* of the Italian Bankruptcy Law applies to both debt restructuring agreement and to the court-supervised pre-bankruptcy compositions with creditors (*concordato preventivo*) outlined below.

Furthermore, according to the Article 182-*quinquies*, paragraph 3 of the Italian Bankruptcy Law (as amended by the Decree, as in turn amended and converted into by Law 132), pending the sanctioning (*omologazione*) of the debt restructuring agreement pursuant to Article 182-*bis*, Paragraph 1 of the Italian Bankruptcy Law or after the filing of the moratorium application pursuant to Article 182-*bis*, Paragraph 6 of the Italian Bankruptcy Law or a petition pursuant to Article 161, Paragraph 6, of the Italian Bankruptcy Law, also in absence of the plan pursuant to Article 161, Paragraph 2, letter (e) of the Italian Bankruptcy Law, the court may also authorize the debtor to incur in new super senior (so-called *prededucibile*) indebtedness, aimed at supporting urgent financial needs related to the company's business. The company, while filing such request of authorization, is required to specify (i) the purpose of the financing; (ii) that it is unable to otherwise obtain the required funds and (iii) that the absence of such financing will entail an imminent and irreparable prejudice to the company. Such authorization request can also be filed in relation to the maintaining of short-term facilities (*linee di credito autoliquidanti*) already in place as of the filing date.

Court-Supervised Pre-Bankruptcy Composition with Creditors (concordato preventivo)

A company which is insolvent or in a situation of crisis (i.e. financial distress which does not yet amount to insolvency) and that has not been declared insolvent by the court has the option to make a composition proposal to its creditors, under court supervision, in order to compose its overall indebtedness and/or reorganize its business, thereby avoiding a declaration of insolvency and the initiation of bankruptcy proceedings. Such composition proposal can be made by a commercial enterprise which exceeds any of the following thresholds: (i) has had assets (*attivo patrimoniale*) in an aggregate amount exceeding € 0.3 million for each of the three preceding fiscal years, (ii) gross revenue (*ricavi lordi*) in an aggregate amount exceeding € 0.2 million for each of the three preceding fiscal years, and (iii) has total indebtedness (including debts not yet due) in excess of € 0.5 million. Only the debtor company can initially file a petition with the court for a *concordato preventivo* (together with, among others, a restructuring plan and an independent expert report assessing the feasibility of the composition proposal and the truthfulness of the business and accounting data provided by the company). The petition for *concordato preventivo* is then published by the debtor in the Company's Register.

From the date of such publication to the date on which the court sanctions the *concordato preventivo*, all enforcement and interim relief actions by the creditors (whose debt arose before the sanctioning of the *concordato preventivo* by the court) are stayed. During this time, all enforcement, precautionary actions and interim measures sought by the creditors, whose title arose beforehand, are stayed. Preexisting creditors cannot obtain security interests (unless authorized by the court) and mortgages registered within the 90 days preceding the date on which the petition for the *concordato preventivo* is published in the Company's Register are ineffective against such pre-existing creditors.

The composition proposal filed in connection with the petition may provide for, *inter alia* (i) the restructuring and payment of debts and the satisfaction of creditors' claims, *provided* that, in any case, it will ensure payment of at least 20% of the unsecured receivables, except for the case of composition with creditors with continuity of the going concern (*concordato con continuità aziendale*) pursuant to Article 186-*bis* of the Italian Bankruptcy Law, including through extraordinary transactions, such as the granting to creditors and to their subsidiaries or affiliated companies of shares, bonds (including bonds convertible into shares), or other financial instruments and debt securities, (ii) the

transfer to a receiver (*assuntore*) of the operations of the debtor company making the composition proposal, (iii) the division of creditors into classes and (iv) different treatment of creditors belonging to different classes. The composition proposal may also contain a proposed tax settlement for the partial or deferred payment of certain taxes.

The filing of the petition for the *concordato preventivo* may be preceded by the filing of a preliminary petition for a *concordato preventivo* (so-called *concordato in bianco*, pursuant to Article 161, paragraph 6, of the Italian Bankruptcy Law, as amended by Italian Law Decree No. 69/2013 as converted into Italian Law No. 98/2013 ("**Law Decree 69/2013**")). The debtor company may file such petition along with (i) its financial statements from the latest three years and (ii) the list of creditors with the reference to the amount of their respective receivables, reserving the right to submit the underlying plan, the proposal and all relevant documentation within a period assigned by the court between 60 and 120 days from the date of the filing of the preliminary petition, subject to only one possible further extension of up to 60 days, where there are reasonable grounds for such extension. In advance of such deadline, the debtor may also file a petition for the approval of a debt restructuring agreement (pursuant to Article 182-*bis* of the Italian Bankruptcy Law). If the court accepts such preliminary petition, it may (i) appoint a judicial commissioner (*commissario giudiziale*) to overview the company, who, in the event that the debtor has carried out one of the activities under Article 173 of the Italian Bankruptcy Law (*e.g.*, concealment of part of assets, omission to report one or more claims, declaration of nonexistent liabilities or commission of other fraudulent acts), will report it to the court, which, upon further verification, may reject the petition at court for a *concordato preventivo* and (ii) set forth reporting and information duties of the company during the abovementioned period. The statutory provisions providing for the stay of enforcement and interim relief actions by creditors referred to in respect of *concordato preventivo* also apply to preliminary petitions for *concordato preventivo* (so called *concordato in bianco*).

The debtor company may not file such pre-application where it had already done so in the previous two years without the admission to the *concordato preventivo* having followed. The decree setting the term for the presentation of the documentation contains also the periodical information requirements (also relating to the financial management of the company and to the activities carried out for the purposes of the filing of the application and the restructuring plan) that the company has to fulfill, at least on a monthly basis, until the lapse of the term established by the court. The debtor company will file, on a monthly basis, the company's financial position, which is published, the following day, in the Company's Register. Noncompliance with these requirements results in the application for the composition with creditors being declared inadmissible and, upon request of the creditors or the public prosecutor and *provided* that the relevant requirements are verified, in the declaration of bankruptcy of the distressed company. If the activities carried out by the debtor company appear to be clearly inappropriate to the preparation of the application and the restructuring plan, the court may, ex officio, after hearing the debtor and—if appointed—the judicial commissioner, reduce the time for the filing of the aforementioned documents.

Following the filing of the preliminary petition and until the decree of admission to the composition with creditors, the distressed company may (i) carry out acts pertaining to its ordinary activity and (ii) seek the court's authorization to carry out acts pertaining to its non-recurring activity, to the extent they are urgent.

Claims arising from acts lawfully carried out by the distressed company after the filing of *concordato preventivo* petition, as well as, *inter alia*, new super senior indebtedness authorized by the court, pending the sanctioning (*omologazione*) of the debt restructuring agreement pursuant to Article 182-*bis*, Paragraph 1 of the Italian Bankruptcy Law or after the filing of the moratorium application pursuant to Article 182-*bis*, Paragraph 6 of the Italian Bankruptcy Law also in absence of the plan pursuant to Article 161, Paragraph 2, letter (e) of the Italian Bankruptcy Law or after the filing of a *concordato preventivo* petition (also under Article 161 para. 6 of the Italian Bankruptcy Law) and aimed at supporting urgent financial needs related to the company's business are treated as super-senior (so called *prededucibili*) pursuant to Article 111 of the Italian Bankruptcy Law and the related acts, payments and security interests granted are exempted from the claw-back action provided under Article 67 of the Italian Bankruptcy Law. Italian Law No. 9/2014 specified that the super-seniority of the claims—which arise out of loans granted with a view to allowing the filing of the preliminary petition for the composition with creditors (*domanda di pre-concordato*)—is granted, pursuant to Article 111 of the Italian Bankruptcy Law, conditional upon the proposal, the plan and all other required documents being filed within the term set by the court and the company being admitted to the *concordato preventivo* within the same proceeding opened with the filing of the preliminary petition.

The *concordato preventivo* proposal may provide, *inter alia*, that (i) the debtor's company's business continues to be run by the debtor's company as a going concern or (ii) the business is transferred to one or more companies and any

assets which are no longer necessary to run the business are liquidated (*concordato con continuità aziendale*). In these cases, the plan and petition for the *concordato preventivo* should fully describe the costs and revenue that are expected as a consequence of the continuation of the business as a going concern, as well as the financial resources and support which will be necessary. The report of the independent expert must also certify that the continuation of the business is conducive to the satisfaction of creditors' claims to a greater extent than if such composition proposal was not implemented. Furthermore, the going concern-based arrangements with creditors can provide for, among others, the disposal of those assets that are not functional to the continuation of the business. The *concordato preventivo* plan and proposal may also provide for, *inter alia*, a proposed tax settlement for the partial or deferred payment of certain taxes.

If the court determines that the composition proposal is admissible, it appoints a judge (*giudice delegato*) to supervise the procedure, appoints one or more judicial officers (*commissari giudiziali*) and calls the creditors' meeting. During the implementation of the proposal, the company generally continues to be managed by its board of directors, but is supervised by the appointed judicial officers and judge (who will authorize all transactions that exceed the ordinary course of business). The debtor is allowed to carry out urgent extraordinary transactions only upon the prior court's authorization, while ordinary transaction may be carried out without authorization. Third-party claim, related to the interim acts legally carried out by the debtor, are super-senior (so called *prededucibili*) pursuant to Article 111 of the Italian Bankruptcy Law.

Pursuant to Article 169-*bis* of the Italian Bankruptcy Law, the debtor may request the competent court to be authorized to terminate outstanding agreements (*contratti ancora ineseguiti o non compiutamente eseguiti*), except for certain agreements which are excluded from the scope of the above provision (*e.g.*, employment agreements (*rapporti di lavoro subordinato*)), preliminary sale agreements (*contratti preliminari di vendita*) and real estate lease agreements *(contratti di locazione di immobili*). The request may be filed with the competent court at the time of the filing of the application for the *concordato preventivo* or to the judge (*giudice delegato*), if the application is made after admission to the procedure. Upon the debtor's request, the pending agreements can also be suspended for a period of time not exceeding 60 days, renewable just once. In such circumstances, the other party has the right to receive an indemnification equivalent to the damages suffered for the non-fulfillment of the agreement. Such indemnification would be treated as a receivable preceding the composition with creditors (*concordato preventivo*).

The *concordato preventivo* is voted on at the creditors' meeting and must be approved with the favorable vote of (a) the creditors representing the majority of the receivables admitted to vote and, (b) in the event that the plan provides for more classes of creditors, of the majority of the classes. The composition with creditors is approved only if the required majorities of creditors expressly voted in favor of the proposal. Creditors who did not exercise their voting rights in the creditors' meeting can do so (even via e-mail) within 20 days starting from the closure of the minutes of the creditors' meeting and, after such term, creditors who did not exercise their voting right will be deemed not to approve the *concordato preventivo* proposal. In relation to voting by the holder of the Notes in the *concordato* proceedings, the interaction between (i) the provisions set forth under the Indenture with respect to meetings of holders of the Notes, the applicable majorities and the rights of each holder of the Notes to vote in the relevant meeting and (ii) applicable Italian law provisions relating to quorum and majorities in meetings of holders of Notes issued by Italian companies is untested in the Italian courts. Secured creditors are not entitled to vote on the proposal of *concordato preventivo* unless and to the extent they waive their security, or the *concordato preventivo* provides that, based on an independent expert determination on the value of the secured assets, they will not be fully satisfied (in which case they can vote only in respect of the part of the debt affected by the proposal).

The court may also approve the *concordato preventivo* (notwithstanding the circumstance that one or more classes objected to it) if (i) the majority of classes has approved it and (ii) the court deems that the interests of the dissenting creditors would be adequately safeguarded through it compared to other solutions. If an objection to the implementation of the *concordato preventivo* is filed by 20% of the creditors or, in case there are different classes of creditors, by a creditor belonging to a dissenting class, entitled to vote, the court may nevertheless sanction the *concordato preventivo* if it deems that the relevant creditors' claims are likely to be satisfied to a greater extent as a result of the *concordato preventivo* than would otherwise be the case.

The Decree, as amended by Law 132, introduced the possibility for creditors (except for individuals or entities controlled, controlling or under common control of the debtor) holding at least 10% of the aggregate claims against a debtor to file an alternative plan to the debtor's plan in a pre-bankruptcy agreement proceedings (*concordato preventivo*) subject to certain conditions being met, including, in particular, that the proposal of the debtor does not

ensure recovery of at least (i) 40% of the unsecured claims (*crediti chirografari*) in case of pre-bankruptcy agreement proposal with liquidation purpose (*concordato liquidatorio*), or (ii) 30% of the unsecured claims (*crediti chirografari*) in case of pre-bankruptcy agreement proposals based on the continuation of the going concern (*concordato con continuità aziendale*).

In addition, in order to strengthen the position of the unsecured creditors, Law 132 sets forth that a pre-bankruptcy agreement proposal with liquidation purpose (*concordato liquidatorio*) (i.e. a pre-bankruptcy agreement proposal aiming at transferring all the assets to the creditors and having such assets sold in their interest by the judicial commissioner) must ensure that the unsecured creditors are paid in a percentage of at least 20% of their claims. This provision does not apply to pre-bankruptcy agreement proposals based on the continuation of the going concern (*concordato con continuità aziendale*).

To the extent the alternative plan is approved by the creditors and ratified (*omologato*), the court may grant special powers to the judicial commissioner to implement the plan if the debtor does not cooperate, including by taking all corporate actions required.

In addition, Article 163-*bis* of the Italian Bankruptcy Law, introduced by the Decree, as amended by Law 132, provides that, if a plan in pre-bankruptcy composition with creditors (*concordato preventivo*), pursuant to Article 161, Paragraph 2, letter (e) of the Italian Bankruptcy Law, includes an offer for the sale of the debtor's assets or of a going concern of the debtor to an identified third party, the court must open a competitive bidding proceeding.

After the approval by the creditors' meeting, the court (having settled possible objections raised by the dissenting creditors, if any) confirms the *concordato preventivo* proposal by issuing a confirmation order. If the creditors' meeting does not approve the *concordato preventivo*, the court may, upon request of the public prosecutor or a creditor, and having decided that the appropriate conditions apply, declare the company bankrupt.

Bankruptcy (fallimento)

A request to declare a debtor bankrupt and to commence bankruptcy proceedings (*fallimento*) for the judicial liquidation of its assets can be filed by the debtor, one or more of its creditors or by the Public Prosecutor. Insolvency, as defined under Italian Bankruptcy Law, occurs when a debtor is no longer able to regularly meet its obligations with ordinary means as they come due. Bankruptcy is declared by the competent bankruptcy court. The Italian Bankruptcy Law is applicable only to commercial enterprises (*imprenditori commerciali*) if any of the following thresholds are met: the company (i) has had assets (*attivo patrimoniale*) in an aggregate amount exceeding € 0.3 million for each of the three preceding fiscal years; (ii) has had gross revenue (*ricavi lordi*) in an aggregate amount exceeding € 0.2 million for each of the three preceding fiscal years; and (iii) has total indebtedness (including debts not yet due) in excess of € 0.5 million. Upon the commencement of bankruptcy proceedings, amongst other things, subject to certain exceptions, all actions of creditors are stayed and creditors must file claims within a defined period. In particular:

- under certain circumstances secured creditors may enforce their claims against the secured property as soon as their claims are admitted as preferred claims. Secured claims are paid out of the proceeds of liquidation of the secured assets, together with the applicable interest and subject to any relevant expenses. Any outstanding balance will be considered unsecured and rank *pari passu* with all of the bankrupt's other unsecured debt. Secured creditors may sell the secured asset only with the court authorization. After hearing the bankruptcy receiver (*curatore fallimentare*) and the creditors' committee, the court decides whether to authorize the sale, and sets forth the relevant timing in his or her decision;

- the administration of the debtor and the management of its assets are transferred to the bankruptcy receiver (*curatore fallimentare*);

- continuation of business may be authorized by the court if an interruption would cause greater damage to the company, but only if the continuation of the company's business does not cause damage to creditors;

- any act (including payments, pledges and issuances of guarantees) made by the debtor (other than those made through the receiver) after (and in certain cases even before for a limited period of time) the declaration of bankruptcy, becomes (or could become, if made before) ineffective against creditors; and

- the execution of certain contracts and/or transactions pending as of the date of the bankruptcy declaration are suspended until the receiver decides whether to take them over. In order to overcome the uncertainty that may predictably arise, the contractual counterparty may file a written petition requiring the Courts and ask to have a deadline of no more than 60 days scheduled; within such deadline, the receiver must decide to enter into the agreement or withdraw from it. Upon expiration of the deadline without the receiver having replied to the counterparty's request, the agreement is deemed terminated. Although the general rule is that the bankruptcy receiver is allowed to terminate contracts where some or all of the obligations have not been performed, certain contracts are subject to specific rules expressly provided for by Italian Bankruptcy Law.

Bankruptcy proceedings are carried out and supervised by a court-appointed bankruptcy receiver, a deputy judge (*giudice delegato*) and a creditors' committee. The bankruptcy receiver is not a representative of the creditors, and is responsible for the liquidation of the assets of the debtor to the satisfaction of creditors. The proceeds from the liquidation are distributed in accordance with statutory priority. The liquidation of a debtor can take a considerable amount of time, particularly in cases where the debtor's assets include real property. In this respect, Law 132 amended the relevant provision of the Italian Bankruptcy Law which sets forth the requirements applicable to the liquidation procedure and as a consequence the timing for the liquidation of the debtor's assets is shortened. Italian Bankruptcy Law provides for priority of payment to certain preferential creditors, including employees, the Italian treasury, and judicial and social authorities. Such priority of payment is provided under mandatory provisions of law (as a consequence it is untested and it is unlikely that priority of payments such as those commonly provided in intercreditor contractual arrangements would be recognized by an Italian bankruptcy estate to the extent they are inconsistent with the priorities provided by law). Unsecured creditors are satisfied after payment of preferential and secured creditors, out of available funds and assets (if any) as below indicated.

- *Bankruptcy composition with creditors (concordato fallimentare).* Bankruptcy proceedings can terminate prior to liquidation through a bankruptcy composition proposal with creditors. The relevant petition can be filed, by one or more creditors or third parties, from the declaration of bankruptcy. By contrast, the debtor or its subsidiaries are only permitted to file such proposal after one year following such declaration, but within two years following the decree giving effectiveness to the liabilities account (*stato passivo*). Secured creditors are not entitled to vote on the proposal of *concordato fallimentare*, unless and to the extent they waive their security or the *concordato fallimentare* provides that based on an independent expert determination on the value of the secured assets, they will not be fully satisfied (in which case they can vote only in respect of the part of the debt affected by the proposal). The proposal may provide for the division of creditors into classes (thereby proposing different treatment among the classes), the restructuring of debts and the satisfaction of creditors' claims in any manner. The *concordato fallimentare* proposal must be approved by the creditors' committee and the creditors holding the majority (by value) of claims (and, if classes are formed, also by a majority (by value) of the claims in a majority of the classes). Final court ratification is also required.

- *Statutory priorities.* The statutory priority assigned to creditors under the Italian Bankruptcy Law may be different from the priorities in the United States, the United Kingdom and certain other EU jurisdictions. Neither the debtor nor the court can deviate from the rules of statutory priority by proposing their own priorities of claims or by subordinating one claim to another based on equitable subordination principles (as a consequence it must be noted that priority of payments such as those commonly provided in intercreditor contractual arrangements may not be enforceable against an Italian bankruptcy estate to the extent they are inconsistent with the priorities provided by law). The law creates a hierarchy of claims that must be adhered to when distributing the proceeds derived from the sale of the entire bankrupt's estate or part thereof, or from a single asset. The rules of statutory priority apply irrespective of whether the proceeds are derived from the sale of the entire bankrupt's estate or part thereof, or from a single asset.

Article 111 of the Italian Bankruptcy Law establishes that proceeds of liquidation shall be allocated according to the following order: (i) for payments of "super senior" claims; (ii) for payment of claims which are privileged, such as claims of secured creditors; and (iii) for the payment of unsecured creditors' claims.

Under Italian law, the highest priority claims (after the costs of the proceedings are paid) are the claims of preferential creditors including, *inter alia*, a claim whose priority is legally acquired (i.e. repayment of rescue or interim financing, mentioned above), the claims of the Italian tax authorities and social security administrators, and claims for employee wages. The remaining priority claims are those of "privileged" creditors (*creditori privilegiati*; a priority in payment in most circumstances, but not exclusively, provided for by law), mortgagees (*creditori ipotecari*), pledgees (*creditori prignoratizi*) and unsecured creditors (*crediti chirografari*).

- Avoidance powers in insolvency. Similar to other jurisdictions, there are so-called "claw-back" or avoidance provisions under Italian law that may give rise, *inter alia*, to the revocation of payments or to the granting of security interests made by the debtor prior to the declaration of bankruptcy. The key avoidance provisions address transactions made below market value, preferential transactions and transactions made with a view to defraud creditors. Claw-back rules under Italian law are normally considered to be particularly favorable to the receiver in bankruptcy compared to the rules applicable in other jurisdictions.

In bankruptcy proceedings, depending on the circumstances, the Italian Bankruptcy Law provides for a claw-back period of up to either one year or six months in certain circumstances (please note that in the context of extraordinary administration procedures—see below—in relation to certain transactions, the claw-back period can be extended to five and three years, respectively) and a two-year ineffectiveness period for certain other transactions.

The Italian Bankruptcy Law distinguishes between acts or transactions which are ineffective by operation of law and acts or transactions which are voidable at the request of the bankruptcy receiver/court commissioner, as detailed below.

(a) Acts ineffective by operation of law.

  (i) Under Article 64 of the Italian Bankruptcy Law, subject to certain limited exception, all transactions entered into for no consideration are ineffective vis-à-vis creditors if entered into by the bankrupt entity in the two-year period prior to the insolvency declaration. Any asset subject to a transaction which is ineffective pursuant to Article 64 of the Italian Bankruptcy Law becomes part of the bankruptcy estate by operation of law upon registration (*trascrizione*) of the declaration of bankruptcy, without need to wait the ineffectiveness of the transaction is sanctioned by a court. Any interested person may challenge the registration before the delegated judge for violation of law; and

  (ii) under Article 65 of the Italian Bankruptcy Law, payments of receivables falling due on the day of the insolvency declaration or thereafter are deemed ineffective vis-à-vis creditors, if made by the bankrupt entity within the two-year period prior to the insolvency declaration.

(b) Acts that may be avoided at the bankruptcy receiver's request.

  (i) The following acts and transactions, if done or made during the period specified below, may be clawed back (*revocati*) vis-à-vis the bankruptcy as provided for by article 67 of the above referenced Italian Bankruptcy Law and be declared ineffective, unless the non-insolvent party proves that it had no actual or constructive knowledge of the debtor's insolvency at the time the transaction was entered into:

    - onerous transactions entered into in the year before the insolvency declaration, when the value of the debt or the obligations undertaken by the bankrupt entity exceeds 25% of the value of the consideration received by and/or promised to the debtor;

    - payments of debts, due and payable, which were not made by the debtor in cash or by other customary means of payment in the year prior to the insolvency declaration;

    - pledges and mortgages granted by the bankrupt entity in the year prior to the insolvency declaration in order to secure pre-existing debts which were not yet due at the time the new security was granted; and

- pledges and mortgages granted by the bankrupt entity in the six months prior to the insolvency declaration in order to secure pre-existing debts which had already fallen due at the time the new security was granted.

(ii) The following acts and transactions, if made during the suspect period or such other period specified below, may be clawed back (*revocati*) and declared ineffective if the bankruptcy receiver proves that the other party knew that the bankrupt entity was insolvent at the time of the act or transaction:

- the payments of debts that are immediately due and payable and any onerous transactions entered into or made within six months prior to the insolvency declaration; and

- the granting of security interest for debts incurred in the six months prior to the insolvency declaration.

(iii) The following transactions are exempt from claw-back actions:

- a payment for goods or services made in the ordinary course of business according to market practice;

- a remittance on a bank account; *provided* that it does not materially and permanently reduce the bankrupt entity's debt towards the bank;

- a sale, including an agreement for sale registered pursuant to Article 2645-*bis* of Italian Royal Decree No. 262 of March 16, 1942 (the "**Italian Civil Code**"), currently in force, made for a fair value and concerning a residential property that is intended as the main residence of the purchaser or the purchaser's family (within three degrees of kinship) or a non-residential property that is intended as the main seat of the enterprise of the purchaser; *provided* that, as of the date of the insolvency declaration, the activity is actually exercised therein or the investments for the commencement of such activity have been carried out therein;

- transactions entered into, payments made and guarantee and security granted by, the debtor pursuant to a plan under Article 67 paragraph 3 (d) of the Italian Bankruptcy Law (see "*—Out-of-Court Reorganization Plans (piani di risanamento)*" above);

- a transaction entered into, payment made or security interest or guarantee granted in the context of a homologated *concordato preventivo* (see "*—Court-Supervised Pre-Bankruptcy Composition with Creditors (concordato preventivo)*" above) or a homologated debt restructuring agreement under Article 182-*bis* of the Italian Bankruptcy Law (see "*—Debt Restructuring Agreements with Creditors Pursuant to Article 182-bis of the Italian Bankruptcy Law (Accordi di ristrutturazione dei debiti)*" above), as well as any transactions, payment, security interests and/or guarantees carried out after the filing of a petition for *concordato preventivo* (see above);

- remuneration payments to the bankrupt entity's employees and consultants concerning work carried out by them; and

- payments of a debt that is immediately due, payable and made on the due date, with respect to services necessary for access to *concordato preventivo* procedures.

In addition, in certain cases, the bankruptcy receiver can request that certain transactions of the bankrupt entity be declared without effect vis-à-vis the acting creditors within the Italian Civil Code ordinary claw-back period of five years (*revocatoria ordinaria*). Under Article 66 of Italian Bankruptcy Law and Article 2901 of the Italian Civil Code, a creditor may demand that transactions through which the bankrupt entity disposed of its assets to the detriment of such creditor's rights be declared ineffective with respect to such creditor, *provided* that the bankrupt entity was aware of such detriment (or, if the transaction was entered into prior to the date on which the creditor's claim originated, that such transaction was fraudulently entered into by the debtor in order to cause detriment of such creditor's rights) and that, in the case of a transaction entered into for consideration with a third person, the third person was aware of such

detriment (or, if the transaction was entered into prior to the date on which the creditor's claim originated, such third party participated in the fraudulent scheme). Burden of proof is entirely with the receiver.

Law 132 also introduced new Article 2929-*bis* to the Italian Civil Code, providing for a "simplified" claw-back action for the creditor with respect to certain types of transactions put in place by the debtor with the aim to subtract (registered) assets from the attachment by its creditors. In particular, the creditor can now start enforcement proceedings over the relevant assets without previously obtaining a Court decision clawing back/nullifying the relevant (fraudulent) transaction, to the extent that such transaction had been carried out without consideration (*e.g.*, gratuitous transfers, or creation of shield instruments such as trusts or the so called *fondo patrimoniale*, i.e. "family trust"). In case of gratuitous transfers, the enforcement action can also be carried out by the creditor against the third party purchaser.

Finally, as noted above, the Recast Insolvency Regulation contains conflicts of law rules which replace the various national rules of private international law in relation to insolvency proceedings within the European Union.

Italian Insolvency Code

Please find below a brief description of the main provisions of the Italian Insolvency Code after its entry force on July 15, 2022 which supersedes the Italian Bankruptcy Law.

The two primary aims of the Italian Insolvency Code are to liquidate the debtor's assets and protect the goodwill of the going concern (if any) for the satisfaction of creditors' claims. The aim of the "*Prodi-bis*" procedure or "*Marzano*" procedure (which remain available to large companies also in the context of the new set of rules, as will be further detailed below), is to maintain employment. These competing aims often have been balanced by the sale of businesses as going concerns and ensuring that employees are transferred along with the businesses being sold.

Under the Italian Insolvency Code, the judicial liquidation (*liquidazione giudiziale*) must be declared by a court, based on the insolvency (*insolvenza*) of a debtor upon a petition filed by the debtor itself, the public prosecutor and/or one or more creditors. Insolvency, as defined under Article 2, letter (b) of the Italian Insolvency Code, is defined as the state of the debtor, manifested by defaults and/or other external elements evidencing that the debtor is no longer able to regularly meet its obligations as they come due. This must be a permanent, and not a temporary status of insolvency, in order for a court to hold that a debtor is insolvent. The Italian Insolvency Code also introduced a specific concept of crisis, which is defined under Article 2, letter (a) of the Italian Insolvency Code as the state of the debtor such that it is likely that insolvency will follow, which is manifested by the inadequacy of prospective cash flows to meet obligations in the following twelve months. Both insolvency and crisis are factual situations upon the occurrence of which different instruments provided for by the Italian Insolvency Code may be activated.

In cases where a debtor is facing financial difficulties or temporary cash shortfall and, in general, a state of crisis/financial distress, it may be possible for it to enter into out-of-court arrangements with its creditors, which may safeguard the existence of the debtor, but which are susceptible of being reviewed by a court in the event of a subsequent insolvency, and possibly challenged as voidable transactions.

The following debt restructuring and insolvency alternatives are available under Italian law for companies in a state of crisis and for insolvent debtors and, in certain cases, also to debtors experiencing an economic or financial imbalance such as to make it likely that a state of crisis and/or distress or their insolvency will occur.

Restructuring outside of a judicial process (accordi stragiudiziali)

Restructuring generally takes place through a formal judicial process because it is more favorable for the debtor and because informal out-of-court arrangements put in place as a result of an out-of-court restructuring are vulnerable to being reviewed by a court in the event of a subsequent insolvency, and possibly challenged as voidable transactions, and may trigger liabilities in the event of a subsequent bankruptcy. However, in cases where a company is solvent, but facing financial difficulties, it may be possible to enter into an out-of-court arrangement with its creditors, which may safeguard the existence of the company.

***Composizione negoziata per la soluzione della crisi d'impresa* pursuant to the Italian Insolvency Code**

The *composizione negoziata per la soluzione della crisi d'impresa*, as also described above, was originally introduced in the Italian legal framework by Law Decree 118/2021 and has been subsequently incorporated into the Italian Insolvency Code. It is an out-of-court proceeding, but the court can be involved in the two following circumstances: (i) when the entrepreneur files a petition pursuant to Article 18 of the Italian Insolvency Code requesting the competent court to confirm or modify the Protective Measures provided for pursuant to Article 18 of the Italian Insolvency Code on the same day as the publication of the request in the relevant Companies' Register (*Registro delle Imprese*) and the acceptance of the Expert (as defined below), and, if necessary, to enact the Interim Measures necessary to complete the negotiations, and (ii) when the entrepreneur files a petition asking the court to authorize certain acts in line with the provisions set forth under Article 22 of the Italian Insolvency Code.

The *composizione negoziata per la soluzione della crisi d'impresa* is a proceeding aimed at facilitating the recovery of companies which "despite being in conditions of asset or economic and financial imbalance such as to make it likely that financial distress or insolvency will occur, have the potential to remain in the market, including through the sale of the business or a branch of it."

According to Article 12 of the Italian Insolvency Code, the *composizione negoziata per la soluzione della crisi d'impresa* can be pursued by enterprises, either commercial (*imprenditore commerciale*) and agricultural (*imprenditore agricolo*), which are undergoing a distressed situation with reference to their assets, their business and/or their financial situation, such that it is likely that a distress/crisis or insolvency will follow. It is, therefore, a procedure aiming at anticipating further deterioration of the debtor's situation. Pursuant to Article 17, paragraph 3, letter d) of the Italian Insolvency Code, inter alia, the entrepreneur or the enterprise filing for a *composizione negoziata per la soluzione della crisi d'impresa* (i) shall certify that no judicial winding-up proceedings or similar proceedings are pending towards itself nor requests for the admission to the procedures provided for under Articles 40 of the Italian Insolvency Code, including pursuant to Articles 44, paragraph 1, letter a) and 54, paragraph 3, have been previously filed and (ii) in the event that the application for a *composizione negoziata per la soluzione della crisi d'impresa* is dismissed, other than the case where such dismissal is requested by the entrepreneur, may not submit a new request before one year has elapsed after dismissal.

Pursuant to Article 25 of the Italian Insolvency Code, the *composizione negoziata per la soluzione della crisi d'impresa* may also apply to group of companies, which may commence one proceeding all together. It should be noted that paragraph 9 of such provision provides for the group companies—at the end of the negotiations—to either enter into one of the agreements referred to in Article 23, paragraph 1 of the Italian Insolvency Code as a group, or use one of the tools referred to under Article 23 of the Italian Insolvency Code, both separately or as a whole group. The *composizione negoziata per la soluzione della crisi d'impresa* is commenced on a voluntary basis only, filing of a petition for the appointment of a third party and independent expert to the Secretary General of the relevant Chamber of Commerce by way of a dedicated electronic platform (the "**Expert**"). Pending a procedure for over-indebtedness restructuring agreement or liquidation of assets referred to in Articles 7 and 14-*ter* of Law No 3 of January 27, 2012 (i.e. *procedimenti di composizione della crisi da sovraindebitamento e di liquidazione del patrimonio*), the petition cannot be filed. Pursuant to Article 16 of the Italian Insolvency Code the person who acted as Expert in the context of such proceeding, shall not have or maintain professional relations with the entrepreneur during the two years following the termination of the negotiated proceeding.

The Expert is appointed within five days upon the filing of the request. The Expert is responsible for facilitating and managing the negotiations between the company, its creditors and any other interested parties, in order to identify a solution to overcome the crisis or the insolvency, including through the transfer of the business or a branch thereof.

The Expert assesses his/her own independence, the adequacy of his/her own professional expertise and his/ her own time availability with respect to the prospected assignment, and, if the outcome of the assessment is positive, notifies his/her acceptance to the entrepreneur and uploads it on the Platform. In case of negative outcome, the Expert confidentially notifies it to the commission, which appoints a new Expert. If the Expert accepts the appointment, he/she meets with the entrepreneur in order to assess whether there are concrete and real chances of recovery. The entrepreneur attends the meeting personally, and can be assisted by its advisors.

If the Expert finds that there are concrete and real chances of recovery (*risanamento*), he/she meets with the parties involved in the entrepreneur's recovery process and presents the possible strategies, scheduling periodic meetings close in time to one another. During the negotiations, all the parties involved must act in good faith and with fairness, must cooperate and are bound by confidentiality on the entrepreneur's situation, on the actions carried out or planned by the entrepreneur and on the information received in the course of the negotiations. The entrepreneur must provide a complete and clear representation of his/her situation and manage his/her assets without causing unfair prejudice to the creditors. Banks and financial intermediaries, their agents, and, in case of credit assignment and/or transfer, their assignees or transferees, must take part in the negotiations actively and in an informed manner, and the access to the *composizione negoziata per la soluzione della crisi d'impresa* does not, by itself, constitute ground for withdrawal of overdraft facilities. Specific provisions apply to negotiations involving employment contracts.

If the Expert finds that there are no real chances of recovery (*risanamento*), after the meeting with the entrepreneur or thereafter, he/she has to promptly notify the entrepreneur and the secretary general of the chamber of commerce, which provides for the dismissal of the entrepreneur's petition. The Expert's appointment is considered terminated if, after 180 days from its appointment, the parties have not agreed on a solution (that can also be proposed by the Expert) for overcoming the entrepreneur's distressed situation. However, the Expert's appointment can continue up to further 180 days (pursuant to Article 17, paragraph 7 of the Italian Insolvency Code) if (i) all the parties involved in the negotiations require so and the Expert agrees, or (ii) the prosecution of the appointment is required by the fact that the entrepreneur has filed a petition to the court pursuant to Article 19 and/ or Article 22 of the Italian Insolvency Code.

Pursuant to Article 17, paragraph 8 of the Italian Insolvency Code, at the end of his/her appointment the Expert issues a final report (the "**Final Report**"), uploads it on the Platform, and notifies it to the entrepreneur and to the court that has granted the Protective Measures and Interim Measures (if any) which declares the termination of their related effects.

Pursuant to Article 18 of the Italian Insolvency Code, together with the petition for appointment of the Expert, or with a subsequent petition, the entrepreneur can request the application of Protective Measures, which may also be limited, upon entrepreneur request, to certain creditors' claims or to a specific category of creditors. The Protective Measures consist of the following: from the date of publication of the relevant petition, preexisting creditors cannot obtain preemption rights (*diritti di prelazione*) unless agreed upon by the entrepreneur and all enforcement and interim actions are stayed. However, as opposed to what happens in the *concordato preventivo*, payment of preexisting creditors is not forbidden. The Protective Measures do not apply to employees' claims.

From the date of publication of the petition requesting the application of the Protective Measures until the date of conclusion of the negotiations or dismissal of the petition for the *composizione negoziata*, the ruling of opening the judicial winding-up proceeding (*sentenza di apertura della liquidazione giudiziale*) or the declaration of the insolvency of the entrepreneur cannot be declared insolvent by the court, *provided* that the court revokes the Protective Measures.

The creditors whose rights are affected by the Protective Measures cannot unilaterally refuse to perform their obligations under the contracts in place with the entrepreneur, nor terminate such contracts, nor anticipate their expiration date, nor amend them with detrimental consequences for the entrepreneur, solely on the ground of the missed payment of claims arisen prior to the publication of the petition requesting the application of the Protective Measures. However, the creditors may suspend the fulfilment of the pending contracts from the publication of the petition requesting Protective Measures to the obtainment of such Protective Measures.

If the entrepreneur applies for the Protective Measures (which, as said, are immediately effective), it must simultaneously file the same request to the competent court, in order to allow a judge to check the said measures and to confirm them or, if necessary, to modify them. In the absence of this request, the Protective Measures will be ineffective.

The duration of the Protective Measures and, if necessary, the Interim Measures, is established by an order of the court in a range between 30 and 120 days, and, upon request of the parties and after obtaining the opinion of the Expert, can be extended for the time required to positively finalize the negotiations up to a maximum of 240 days, given that the judge may discretionary order the revocation of such Protective Measures or shorten their duration.

During the procedure the entrepreneur remains able to continue the ordinary and extraordinary management of the company, subject to certain conditions. More precisely, pursuant to Article 21 of the Italian Insolvency Code, pending the negotiations, the entrepreneur may carry out acts pertaining to ordinary activity, and, upon written notice to the Expert, carry out acts pertaining to extraordinary activity or make payments non-consistent with the negotiations nor with the perspectives of recovery, in such a way as to avoid prejudicing the economic and financial sustainability of the business. Furthermore, if during the course of the negotiations, it appears that the entrepreneur is insolvent but there are real prospects of recovery, the entrepreneur shall manage the enterprise in the best interests of the creditors, subject to his liabilities.

If the Expert believes that a certain act causes prejudice to the creditors, to the negotiations or to the perspectives of recovery, he/she reports it in writing to the entrepreneur and to the enterprise's control body. If, notwithstanding the Expert's report, the entrepreneur carries out the relevant act, the entrepreneur gives immediate notice to the Expert, who may file his/her dissent for the registration with the companies' register. At the request of the entrepreneur, one or more creditors or the Expert, the Court that has granted the Protective Measures and/or Interim Measures may, at any time, revoke such measures or reduce their duration when they do not meet the aim of ensuring the positive outcome of the negotiations or they appear disproportionate in relation to the prejudice caused to the creditors, pursuant to Article 19, paragraph 6 of the Italian Insolvency Code. If the Protective Measures are revoked, the prohibition of the obtainment of preemption rights by preexisting creditors ceases to be effective for the date on which the Protective Measure has been revoked.

Pursuant to Article 22 of the Italian Insolvency Code, the court, upon the entrepreneur's request and to the extent that this is consistent with the continuation of the business as a going concern and with the maximization of the creditors' recovery, may authorize:

(a) the entrepreneur or one or more companies belonging to the same group to incur new super-senior indebtedness (*prededucibile*) pursuant to Article 6 of the Italian Insolvency Code;

(b) the entrepreneur to incur new super-senior indebtedness (so-called *prededucibile*) via shareholders' financing pursuant to Article 6 of the Italian Insolvency Code; and

(c) the entrepreneur to transfer its business, or certain business branches, without the effects provided under Article 2560, paragraph 2, of the Italian Civil Code, without prejudice to Article 2112 of the Italian Civil Code. However, in such case it will be for the court itself to identify the measures it considers appropriate, taking also into account the requests of the parties concerned, in order to protect all the interests involved. The court shall also verify the compliance with the competitiveness principle in choosing the purchaser.

Pursuant to Article 23 of the Italian Insolvency Code, the *composizione negoziata per la soluzione della crisi d'impresa* can terminate as follow:

(a) execution of an agreement between the entrepreneur and one or more creditors, which constitutes cause for application of the reward measures provided under Article 25-*bis*, paragraph 1 of the Italian Insolvency Code if, according to the Expert's Final Report, such agreement ensures the continuation of the business as a going concern for at least two years;

(b) execution of a standstill agreement (*convenzione di moratoria*) pursuant to Article 62 of the Italian Insolvency Code;

(c) execution of an agreement signed by the entrepreneur, by the creditors and by the Expert, with the effects provided under Articles 166, paragraph 3, lett. d) and 324. With such agreement the Expert acknowledges that the reorganization plan (*piano di risanamento*) seems to be consistent with the composition of the insolvency and crisis of the entrepreneur.

At the end of the negotiations, if none of the above mentioned agreement is executed, the entrepreneur may alternatively:

(a) file a petition requesting the sanctioning of a debt restructuring agreement with creditors (*accordo di ristrutturazione dei debiti*) pursuant to Articles 57, 60 and 61 of the Italian Insolvency Code. The percentage referred to under Article 61, paragraph 2, letter c) of the Italian Insolvency Code is reduced to 60% if the achievement of the agreement results from the final report of the Expert.

(b) arrange an out-of-court reorganization plan (*piano attestato di risanamento*) pursuant to Article 56 of the Italian Insolvency Code;

(c) file a petition for admission to the *concordato semplificato per la liquidazione del patrimonio* provided for pursuant to Article 25-*sexies* of the Italian Insolvency Code;

(d) enter into one of the insolvency proceedings provided under the Italian Insolvency Code or in the so-called Prodi-*bis* procedure or the Marzano procedure;

Furthermore, pursuant to Article 24 of the Italian Insolvency Code:

(i) the acts authorized by the court pursuant to Article 22 of the Italian Insolvency Code shall maintain their effects in the event of subsequent sanctioned debt restructuring agreement with creditors (*accordo di ristrutturazione dei debiti omologato*), sanctioned court-supervised pre-judicial liquidation composition with creditors (*concordato preventivo omologato*), opening of the judicial winding-up proceeding (*apertura della liquidazione giudiziale*), a sanctioned restructuring plan provided for pursuant to Article 64-bis of the Italian Insolvency Code, a compulsory administrative winding-up (*liquidazione coatta amministrativa*), extraordinary administration for large insolvent companies (*amministrazione straordinaria*) or simplified pre-judicial liquidation composition with creditors agreement aimed at the liquidation of the debtor's assets (*concordato semplificato per la liquidazione del patrimonio*) provided for pursuant to Article 25-*sexies* of the Italian Insolvency Code;

(ii) the payments of debts that are immediately due and payable, any onerous transactions and the granting of security interests made after the Expert accepted its appointment, are exempted from claw-back actions pursuant to Article 166, paragraph 2, of the Italian Insolvency Code if they are consistent with the development and the status of the negotiations and with the perspectives of recovery (*risanamento*) in place at the time the payment/transaction/granting of security interest was made;

(iii) acts pertaining to the entrepreneur's extraordinary activity and payment made after the Expert accepted its appointment are subject to claw-back actions pursuant to Article 165 and Article 166 of the Italian Insolvency Code if the Expert has registered his/her dissent in the companies' register pursuant to Article 21, paragraph 4 of the Italian Insolvency Code or if the competent court has denied its authorization pursuant to Article 22 of the Italian Insolvency Code; and

(iv) payment and transactions made after the Expert accepted its appointment, which the Expert assesses to be consistent with the development of the negotiations and with the perspectives of recovery (*risanamento*) of the enterprise, or which have been authorized by the court pursuant to Article 22 of the Italian Insolvency Code, benefit of exemptions from the potential application of certain criminal sanctions.

Potential outcomes: concordato semplificato per la liquidazione del patrimonio

Article 25-*sexies* of the Italian Insolvency Code introduces a simplified court-supervised pre-judicial liquidation composition with creditors with liquidation purpose (*concordato semplificato per la liquidazione del patrimonio*).

If, in its Final Report, in the context of a *composizione negoziata per la soluzione della crisi d'impresa* proceeding, the Expert states that the negotiations did not have a positive outcome (i.e. the entrepreneur has not been able to reach an agreement with its creditors) but have been conducted according to fairness and good faith and that the options provided under Article 23, paragraphs 1 and 2, letter b), of the Italian Insolvency Code are not feasible, within 60 days

following the notification of the Final Report the entrepreneur may file to the competent court where the entrepreneur has its center of main interests a petition for admission to the *concordato semplificato per la liquidazione del patrimonio*, together with a liquidation plan and the documents listed under Article 39 of the Italian Insolvency Code. The petition for *concordato semplificato per la liquidazione del patrimonio* is then published in the companies' register within the day following the filing with the court. From the date of such publication, the effects provided under Articles 6, 46, 94 and 96 of the Italian Insolvency Code are produced.

Following the filing of such application, the court (i) appoints a so-called "auxiliary" (*ausiliario*) to, *inter alia*, express an opinion on the entrepreneur's proposal; (ii) orders that the proposal, together with the opinion of the auxiliary and the final report of the expert, be delivered by the debtor to the creditors appearing on the list filed by the debtor itself; and (iii) sets the date of the hearing for the court approval (*omologazione*). Creditors and any third party which has any interests are entitled to object to the court approval (*omologazione*) within ten days before the date fixed for the hearing.

If the court, having verified the legitimacy of the objection and the procedure, as well as compliance with priority creditor claims and the feasibility of the liquidation plan, finds that the proposal does not prejudice the creditors with respect to the alternative of a judicial winding-up liquidation and that, in any event, it ensures a benefit to each creditor, it approves the composition with creditors proposal by decree, by which it shall also appoint a liquidator.

The court issues a decree of approval (*omologazione*) the *concordato semplificato per la liquidazione del patrimonio* when it finds that (i) the proceeding has been carried out in accordance with relevant laws and regulations and the adversarial principle among the parties (*contraddittorio*); (ii) the proposal is compliant with preemption rights (*cause di prelazione*) and the liquidation plan is feasible, and (iii) the proposal does not cause a prejudice to the creditors compared to what they would receive in case of insolvent liquidation of the entrepreneur, and in any case ensures that each creditor receives a certain recovery. With the approval decree, the court also appoints a liquidator.

The parties may file an objection (*opposizione*) to the abovementioned decree within 30 days after having been notified of the same.

Pursuant to Article 25-*septies* of the Italian Civil Code, the liquidation plan may also include an offer by a pre-identified third party to transfer the business or one or more branches of the business or specific assets to such third party, even before the approval: in this case, the judicial liquidator, having verified the absence of better solutions on the market, may implement the offer.

Out-of-court reorganization plans (piani attestati di risanamento) pursuant to Article 56 of the Italian Insolvency Code

Out-of-court debt restructuring agreements are based on restructuring plans (*piani attestati di risanamento*) addressed to the creditors and prepared by debtors who are either insolvent or in a state of crisis, in order to restructure their indebtedness and to ensure the recovery of their financial condition. An independent expert appointed directly by the debtor and enrolled in the Register of Auditors and Accounting Experts (*Registro dei Revisori Contabili*) must verify the feasibility of the restructuring plan and the truthfulness of the business data provided by the company. There is no need to obtain court approval to appoint the independent expert. The independent expert must possess certain specific professional requisites and qualifications and meet the requirements set forth by Article 2399 of the Italian Civil Code and may be subject to liability in case of misrepresentation or false certification.

Out-of-court reorganization plans and the relevant debt restructuring arrangements are not under any form of judicial control or approval and, therefore, no application is required to be filed with the court or supervising authority. Also, Out-of-court debt restructuring arrangements are not required to be approved and consented to by a specific majority of all outstanding claims.

The terms and conditions of these plans are freely negotiable, provided they are finalized at restructuring the debtor's indebtedness and rebalancing its capital structure. However, the possibility to adopt such tools to liquidate the debtor is disputed, as it is argued they shall provide for the restructuring of the debtor's indebtedness and the rebalancing its financial condition on a going concern basis. Unlike in-court pre-judicial liquidation agreement proceedings and debt restructuring agreements, out-of-court reorganization plans do not offer the debtor any protection against enforcement

proceedings and/or precautionary actions of third-party creditors. The Italian Insolvency Code provides that, should these plans fail, and the debtor be declared insolvent, the payments and/or acts carried out, and/or security interest granted on the debtor's assets for the implementation of the reorganization plan, subject to certain conditions (a) are not subject to any claw-back action (*azione revocatoria*), including the claw-back action provided for pursuant to Article 2901 of the Italian Civil Code, as provided for pursuant to Article 166, paragraph 3, letter d) of the Italian Insolvency Code; and (b) are exempted from the potential application of certain criminal sanctions. Neither ratification by the court nor publication in the Companies' Register are needed (although publication in the Companies' Register of the plan, the report by the independent expert and the arrangements is possible upon a debtor's request and would allow to certain tax benefits), and, therefore, the risk of bad publicity or disvalue judgments are lower than in case of an in-court pre-judicial liquidation agreement or a debt restructuring agreement. Since the reorganization plan (or the agreements entered into to implement it) is not subject to any court approval or judicial review, it cannot be excluded that the abovementioned exemption effects will be challenged in the event of subsequent judicial winding-up, if the competent court were to assess that the reorganization plan was not feasible at the time it was certified by the independent expert.

Unlike Italian Bankruptcy Law, the Italian Insolvency Code sets forth specific rules regarding Out-of-court reorganization plans and the relevant restructuring arrangements entered into with creditors, which must be followed for the plans and agreements to grant protection against claw-back actions and potential civil and criminal responsibilities. More in detail, out-of-court debt restructuring plans pursuant to Article 56 of the Italian Insolvency Code must be supported by adequate documentation representing the financial and commercial situation of the debtor and which also needs to indicate, among others, the causes of the crisis and the new resources which will be made available to the debtor and the industrial plan. Moreover, they must be suitable for the purpose of assuring the restructuring of the indebtedness of the debtor and rebalancing its financial position and, in case of its failure and subsequent challenge (*impugnazione*) before an Italian court, it must not be deemed as being unreasonable.

Debt restructuring agreements with creditors (accordi di ristrutturazione dei debiti) pursuant to Article 57 of the Italian Insolvency Code

Debt restructuring agreements with creditors (*accordi di ristrutturazione dei debiti*) provided for pursuant to Article 57 and ff. of the Italian Insolvency Code may be entered into by the debtor with creditors holding at least 60% of the outstanding indebtedness, to be sanctioned (*omologato*) by the competent court. An independent expert appointed by the debtor must assess the truthfulness of the business and accounting data provided by the company and declare and that the agreement is feasible and, particularly, that it ensures that the indebtedness *vis-à-vis* non-participating creditors can be fully satisfied within the following terms in a 120-day term from: (i) the date of sanctioning (*omologazione*) of the agreement by the court, in the case of debts which are due and payable to the non-participating creditors as of the date of the sanctioning (*omologazione*) of the debt restructuring agreement by the court; and (ii) the date on which the relevant debts fall due, in case of debts which are not yet due and payable to the non-participating creditors as at the date of the sanctioning (*omologazione*) of the debt restructuring agreement by the court. Pursuant to Article 57 of the Italian Insolvency Code, only a debtor who is insolvent or facing a state of crisis (as described above) can initiate this process and request the court's sanctioning (*omologazione*) of the debt restructuring agreement entered into with its creditors.

The agreement is published in the companies' register and becomes effective as of the day of its publication. Creditors and other interested parties may challenge the agreement within 30 days from the publication of the agreement in the companies' register. After having settled with the opposition (if any), the court will validate (*omologare*) the agreement by issuing a decree, which can be appealed within 30 days of its publication pursuant to Article 51 of the Italian Insolvency Code.

The Italian Insolvency Code does not expressly provide for any indications concerning the contents of the debt restructuring agreement. The plan can therefore provide, *inter alia*, either for the debtor or a third party carrying out the business, or the sale of the business, and may contain refinancing agreements, moratoria, write offs and/or postponements of claims. The debt restructuring agreement may also contain a proposed tax settlement for the partial or deferred payment of certain taxes. Article 58, paragraph 1 of the Italian Insolvency Code sets the rule for when substantial amendments are made to the plan. More precisely, in the event of substantial amendments to the plan before the approval, the report issued by the expert and the consent to the debt restructuring agreement expressed by creditors shall be renewed. The report shall also be renewed in the event of substantial amendment. In the event of

substantial amendments after the approval, the debtor shall make such amendments as are appropriate to ensure the implementation of the agreements, by requesting the update of the certified report issued by the expert having the requirements set forth in Article 57, paragraph 4 of the Italian Insolvency Code. In this case, the renewed certified report, together with the amended restructuring plan, shall be published in the companies' register, giving appropriate notice to the creditors by registered letter or by certified email (PEC). The parties may file an objection (*opposizione*) to the abovementioned decree within 30 days after having been notified of the same.

The key features of a debt restructuring agreement

With the petition for the approval by the court of the debt restructuring agreement (or at any time pending the procedure) the debtor may request to be granted any Measures (*e.g.*, a stay of actions or the creation by creditors of security interest (unless it is agreed in the debt restructuring agreement) in relation to pre-existing debts, etc.). Such Measures can also be requested (i) pursuant to Article 54, paragraph 3 of the Italian Insolvency Code, to the court by the debtor pending negotiations with creditors (i.e. prior to the filing of the petition for approval of the agreement), subject to certain conditions, or (ii) pursuant to Article 44 of the Italian Insolvency Code, together with a pre-petition for the access to one of the restructuring tools provided for by the Italian Insolvency Code. According to Article 54, paragraph 2, of the Italian Insolvency Code, *provided* that the petition for approval of the debt restructuring agreement includes the relevant request for Measures, from the date of publication of the petition in the companies' registry, it is prohibited to commence or continue the enforcement and the conservative actions (or, in any event, to take any initiatives prohibited under the relevant Measures). No dispossession of debtor occurs in respect of a debt restructuring agreement, but the court may appoint a judicial commissioner to oversee the proceedings and must do so in case petitions for the opening of judicial liquidation are pending, when it is necessary for the protection of the parties who filed such petitions. It is a court-supervised procedure, which can take from a few months up to more than a year (the duration of the proceedings is generally influenced by challenges). Creditors entering into the debt restructuring agreement are not required to receive the same treatment (i.e. they are free to reject the proposal and to protect their interests otherwise) and no cram-down is applicable to third-party non-adhering creditors, who shall be fully re-paid within 120 days from validation (*omologa*) of the debt restructuring agreement (if the claims are already due and payable at such date) or within 120 days from the respective maturity date if such creditors' claims are not yet due as of the validation date of such debt restructuring agreement as per respectively Article 57, paragraph 3 letters a) and b).

The court, having verified the completeness of the documentation filed by the debtor, sets the date for a hearing to be held no earlier of 15 days from the notification of the relevant filing. Pending such deadline, creditors and other interested parties may file an opposition to the approval. At such hearing, the court decides upon any opposition and assesses whether the conditions for the approval are met.

Pursuant to the Article 61 of the Italian Insolvency Code, debtors are entitled to enter into debt restructuring agreement by obtaining the approval of creditors representing at least 75% of the credits belonging to the same category (with respect to the homogeneity of their status and economic interests) and can request the court to declare that agreement binding on the non-adhering creditors belonging to the same category (so called "**cram down**").

More in detail, debt restructuring agreements with extended effects (*accordi di ristrutturazione ad efficacia estesa)* provided pursuant to Article 61 of the Italian Insolvency Code – which were previously only permitted in relation to debts owed to banks and financial intermediaries where such debts represented at least 50% of the total indebtedness – can now be applied to any category of creditors, *provided* that, inter alia: (i) all the creditors belonging to the same category have been informed of the start of the negotiations and have been able to participate in them in good faith and have received complete and up-to-date information on the debtor's assets, economic and financial situation as well as on the restructuring agreement and its effects; (ii) the agreement provides for the continuation of the business activity either directly or indirectly pursuant to Article 84 of the Italian Insolvency Code; (iii) the claims of the consenting creditors belonging to a same category represent at least 75% of all the claims belonging to the same category; (iv) the non-adhering creditors belonging to the same category to which the effects of the agreement are extended can be satisfied under the agreement for an amount not lower than the amount they would receive with the judicial liquidation being understood that a creditor may hold claims in more than one category; and (v) the debtor has notified the agreement, the application for court approval and the documents attached thereto to the creditors to be crammed down. The percentage of 75% is lowered to 60% if the debt restructuring agreement is referred to in the

Final Report issued by the Expert at the end of the negotiations pertaining to the *composizione negoziata per la soluzione della crisi d'impresa*.

Moreover, pursuant to the new Article 61, paragraph 5, of the Italian Insolvency Code, a special provision is set forth for debtors whose financial indebtedness is at least 50% of their total indebtedness: in this situation the debt restructuring agreement may identify one or more categories of creditors which are banks and financial intermediaries which have a homogeneous legal position and economic interests and extend the effects of the agreement to non-participating creditors who are part of the same category. In such instance, the agreement is valid even if it does not contemplate the direct or indirect continuation of the business activity as a going concern. However, in such case the rights of creditors who are not banks or financial intermediaries remain valid.

Similarly, pursuant to the new Article 62 of the Italian Insolvency Code, a standstill agreement (*convenzione di moratoria*) entered into between a debtor and its creditors representing 75% of the same class would also bind the non-participating creditors, *provided* that (A) an independent expert meeting the requirements provided under Article 62, paragraph 3 of the Italian Insolvency Code has been appointed and certifies (i) the truthfulness of the business data, (ii) the attitude of the standstill agreement to temporarily regulate the effects of the crisis and (iii) the fact that the treatment reserved to non-adhering creditors is at least equal to the one they could obtain in the context of a judicial winding up, and (B) certain further conditions are met (*e.g.*, all the creditors belonging to the relevant category have been duly noticed of the beginning of the negotiations, have been made able to participate in the negotiations and have received complete and up-to-date information on the debtor's assets, economic and financial situation and on the agreement and its related effects). Non-adhering crammed-down creditors can challenge the standstill agreement within 30 days after having been notified of the same.

In no case debt restructuring agreements provided for under Article 61 of the Italian Insolvency Code and standstill agreements provided under Article 62 of the Italian Insolvency Code may impose on the non-adhering creditors, inter alia, performance of new obligations, the granting of new overdraft facilities, the maintenance of the possibility to utilize the existing facilities or the utilization of new facilities.

Furthermore, Article 60 of the Italian Insolvency Code provides for the so called facilitated debt restructuring agreement (*accordi di ristrutturazione agevolati*). Such proceeding, is a particular kind of debt restructuring agreement which may be entered into with creditors representing as little as 30% of the total indebtedness (instead of the 60% generally required under Article 57, paragraph 1, of the Italian Insolvency Code) *provided* that the debtor: (i) has waived the standstill on the payment of non-consenting creditors (usually provided for by law, for a period of 120 days from the court approval of the agreement or from the maturity date of the relevant obligations, in "ordinary" restructuring agreements); and (ii) has not previously requested to the court the granting of protective interim measures on the assets.

By virtue of Article 59 of the Italian Insolvency Code, Article 1239 of the Italian Civil Code applies to the creditors that have adhered to the debt restructuring agreements. Non-participating creditors maintain their claims towards (i) those who are jointly and severally liable with the debtor, (ii) the debtor's guarantors and (iii) debtors by way of right of recourse (*regresso*). Unless agreed otherwise, debt restructuring agreements produce effect towards the shareholders who are jointly liable with non-limited liability companies, *provided* that, if such shareholders have granted guarantees, they will remain liable as guarantors.

The provision of Article 99 of the Italian Insolvency Code applies to both debt restructuring agreement and to the court-supervised compositions with creditors (*concordato preventivo*) outlined below.

Pursuant to Article 100 of the Italian Insolvency Code, in the event of a composition with creditors on a going concern basis:

(i) the debtor may repay, in accordance with the relevant contractual terms, the installments due under a loan agreement which is secured by way of a security interest over the assets used in the business, *provided* that: (a) at the date of the filing of the application for admission to the composition with creditors, the debtor has fulfilled its obligations or the court authorizes the payment of the debt for principal and interest due at that date; and (b) the expert meeting the requirements set forth in Article 52, paragraph 3, of the Italian Insolvency Code certifies (i) that such payments are essential for the continuation of the business activity and functional to

ensuring the best satisfaction of the creditors (as already required by Article 100 of the Italian Insolvency Code) and, (ii) that the secured claims can be fully satisfied with the proceeds of the liquidation of the asset carried out at market value and that the repayment of the installments due does not prejudice the rights of the other creditors;

(ii) the court may authorize payment of the remuneration due, for the months preceding the filing of the application for the composition with creditors, to the workers employed in the business whose continuation is envisaged under the plan.

Furthermore, pursuant to Article 73 of the Italian Insolvency Code, in case of revocation of the approval (*omologa*), the court, upon the debtor's petition, shall order the conversion to a judicial winding-up procedure. If the revocation results from acts of fraud (*atti in frode ai creditori*) or non-performance of the obligations arising under the debt restructuring agreement, the petition for conversion may also be proposed by creditors or by the public prosecutor. In case of conversion, the court shall grant additional time to the debtor aimed at supplementing the documentation and shall act in accordance with Article 270 of the Italian Insolvency Code.

Court supervised composition with creditors (concordato preventivo)

A company which is insolvent or in a situation of crisis (as defined above) and that has not been declared insolvent by the court has the option to make a composition proposal to its creditors, under court supervision, in order to compose its overall indebtedness and/or reorganize its business, thereby avoiding a declaration of insolvency and the initiation of insolvency proceedings (so called "*concordato preventivo*"). Such composition proposal can be made by a commercial enterprise which exceeds any of the following thresholds: (i) has had assets (*attivo patrimoniale*) in an aggregate amount exceeding €0.3 million for each of the three preceding fiscal years, (ii) gross revenue (*ricavi lordi*) in an aggregate amount exceeding €0.2 million for each of the three preceding fiscal years, and (iii) has total indebtedness in excess (included debts not yet due) of €0.5 million. Only the debtor can file a petition with the court for a *concordato preventivo* with the court based in the location of the debtor's main office. The debtor must file the petition together with, among others, a restructuring plan containing an analytic description of manner and timing of the fulfillment of the proposal and an independent expert report assessing the feasibility of the composition proposal and the truthfulness of the business and accounting data provided by the company. The petition for *concordato preventivo* is then published by the debtor in the company's register by the registry of the court and communicated to the public prosecutor. From the date of such publication to the date on which the court sanctions the *concordato preventivo*, preexisting creditors cannot obtain security interests (unless authorized by the court) and mortgages registered within the 90 days preceding the date on which the petition for the *concordato preventivo* is published in the company's register are ineffective against such pre-existing creditors. According to Article 54, paragraph 2, of the Italian Insolvency Code, *provided* that the petition for the admission to the *concordato* proceedings includes the relevant request for Measures, from the date of publication of the petition in the companies' registry, it is prohibited to commence or continue the enforcement and the conservative actions (or, in any event, to take any initiatives prohibited under the relevant Measures). As already described with reference to debt restructuring agreements, at any time pending the proceedings, the debtor may request to be granted Measures, which can also be requested pursuant to Article 44 of the Italian Insolvency Code, together with a pre-petition for the access to one of the restructuring tools provided for by the Italian Insolvency Code.

The composition proposal filed in connection with the petition may provide for: (i) the restructuring and payment of debts and the satisfaction of creditors' claims (*provided* that, in any case, it will ensure payment of at least 20% of the unsecured receivables, except for the case of composition with creditors with continuity of the going concern (*concordato con continuità aziendale*), including through extraordinary transactions, such as the granting to creditors and to their subsidiaries or affiliated companies of shares, bonds (including bonds convertible into shares), or other financial instruments and debt securities); (ii) the transfer to a receiver (*assuntore*) of the operations of the debtor company making the composition proposal; (iii) the division of creditors into classes (which is mandatory in certain cases provided under the Article 85 of the Italian Insolvency Code), *provided* that each class is composed of creditors having homogeneous legal positions and economic interests; and (iv) different treatment of creditors belonging to different classes. The composition proposal may also contain a proposed tax settlement for the partial or deferred payment of certain taxes. Save for the provisions provided for under Article 109 of the Italian Insolvency Code, Article 86 of the Italian Insolvency Code has *provided* that, in the context of a composition with creditors on a going concern basis (*concordato con continuità*), the plan may provide for a standstill for the secured creditors, which may extend up to six months from the date of sanctioning (*omologa*) of the composition with creditors proposal for the

payment of secured creditors (*creditori privilegiati*) pursuant to Article 2751-*bis* of the Italian Civil Code (i.e. employees, professionals etc.).

Pursuant to Article 84, paragraph 4, the Italian Insolvency Code, in order to strengthen the position of the unsecured creditors, a composition with creditors proposal with liquidation purpose (*concordato liquidatorio*) (i.e. a composition with creditors proposal aiming at transferring all the assets to the creditors and having such assets sold in their interest by the judicial commissioner) must ensure that (i) with the relevant filing for such proceeding, external resources are contributed which increase the assets available at the time of such filing by at least 10% and (ii) the degraded secured creditors as well as unsecured creditors are paid in a percentage equal to 20% of their total claims. In this respect, it should be noted that resources contributed for the purpose of a composition with creditors proposal with liquidation purpose (*concordato liquidatorio*) may be distributed notwithstanding the provisions set forth under Articles 2740 and 2741 of the Italian Civil Code *provided* that such distribution complies with the 20% requirement set forth above. Resources contributed are considered as "external" when provided for any reason by the debtor's shareholders without obligation of repayment or subordination, in relation to which the plan provides them to be for the sole benefit of the creditors. This provision does not apply to composition with creditors proposals based on the continuation of the going concern (*concordato con continuità aziendale*).

Under the composition with creditors, there is no dispossession of the debtor who accordingly retains management powers under the supervision of a court-appointed official (*commissario giudiziale*) and the deputy judge. From the date of the publication of the petition to the date on which the court sanctions the *concordato preventivo*, the debtor is entitled to operate in the ordinary course of its business, although extraordinary transactions require the prior written approval of the court. *Provided* that the abovementioned steps are taken, during this time, all enforcement actions, precautionary actions and interim measures sought by the creditors, whose title arose beforehand, are stayed. The accrual of interests is suspended for the same timeframe, except for claims secured by pledges, liens or mortgages. Pre-existing creditors cannot obtain security interests (unless authorized by the court) and mortgages registered within the 90 days preceding the date on which the petition for the *concordato preventivo* is published in the companies' register are ineffective against such pre-existing creditors. Any act, payment or security executed or created after the filing of the *concordato preventivo* application and in accordance with its rules and procedures is exempt from claw-back action. The debtor is also exempt from certain bankruptcy crimes provided under Articles 322, third paragraph ("**preferential bankruptcy**"), and 323 ("**simple bankruptcy**") of the Italian Insolvency Code, in relation to acts and payments made in execution of the Composition with Creditors and/or in relation to finance provided under Article 99 of the Italian Insolvency Code upon judicial authorization. Claims arising from acts lawfully carried out by the distressed company have super senior priority (*prededucibilità*) in the event of a subsequent judicial winding-up (see "*Statutory priorities*" below).

For details regarding super senior financing, please refer to the paragraph relating to debt restructuring agreements.

The filing of the petition for the *concordato preventivo* may be preceded by the filing of a preliminary and simplified petition pursuant to Article 44 of the Italian Insolvency Code. For sake of clarity, under Italian Insolvency Code, the simplified petition may be utilized by the debtor also to access a debt restructuring agreement or a restructuring plan subject to approval by the court (*piano di ristrutturazione soggetto ad omologazione*) or a *concordato*. The debtor company may file such petition, reserving the right to submit the underlying plan, the proposal and all relevant documentation (or the debt restructuring agreement, or the restructuring plan) within a period assigned by the court *(a)* between 30 and 60 days from the date of the filing of the preliminary petition, subject to only one possible further extension of up to 60 days, where there are reasonable grounds for such extension (*giustificati motivi*) or in the event where filings for a judicial winding-up proceeding are not pending. If the court accepts such preliminary petition, it may, among other things: (i) appoint a judicial commissioner (*commissario giudiziale*) to overview the company, who, in the event that the debtor has carried out one of the activities under Article 106 of the Italian Insolvency Code (*e.g.*, concealment of part of assets, omission to report one or more claims, declaration of nonexistent liabilities or commission of other fraudulent acts), will report it to the court, which, upon further verification, may reject the petition at court for a *concordato preventivo*; and (ii) set forth reporting and information duties of the company during the abovementioned period. As mentioned above, filing the simplified petition, the debtor may request the application of Measures.

Pursuant to Article 44, paragraph 1, letter c) of the Italian Insolvency Code, the decree setting the term for the presentation of the documentation contains also the periodical information requirements (also relating to the financial

management of the company and to the activities carried out for the purposes of the filing of the application and the restructuring plan) that the company has to fulfill, at least on a monthly basis, until the lapse of the term established by the court. The debtor company will file, on a monthly basis, the company's financial position, which is published, the following day, in the company's register.

Noncompliance with these requirements results in the simplified petition being declared inadmissible and, upon request of the creditors or the public prosecutor and *provided* that the relevant requirements are verified, in the adjudication of the distressed company into judicial winding-up. If the activities carried out by the debtor company appear to be clearly inappropriate to the preparation of the "full" application, the court may, *ex officio*, after hearing the debtor and if appointed the judicial commissioner, reduce the time for the filing of additional documents. Following the filing of the simplified petition and until the decree of admission to the composition with creditors, the distressed company may: (i) carry out acts pertaining to its ordinary activity; and (ii) seek the court's authorization to carry out acts pertaining to its non-recurring activity, to the extent they are urgent. Claims arising from acts lawfully carried out by the distressed company after the filing of the *concordato preventivo* petition (including preliminary petition) have super priority (*prededucibilità*) in case of a subsequent judicial winding-up.

The *concordato preventivo* proposal may also provide, *inter alia*: (i) the continuation of the business by the debtor as going concern; or (ii) the transfer of the business to one or more companies (*concordato con continuità aziendale*) as well as for a particular composition with creditors proceeding through which any assets that are no longer necessary to run the business of the company are liquidated (*concordato misto*). According to Article 84, paragraph 3 of the Italian Insolvency Code, the *concordato misto* qualifies as a *concordato con continuità aziendale*, regardless the "portion" of business for which going concern is envisaged. In these cases, the plan and the petition for the *concordato preventivo* must fully describe the costs and revenue that are expected as a consequence of the continuation of the business as a going concern, as well as the financial resources and support which will be necessary. The report of the independent expert must also certify that the continuation of the business is conducive to the satisfaction of creditors' claims to a greater extent than if such composition proposal was not implemented. Existing contracts, even if entered with governmental bodies, are automatically not to be terminated by admission to procedure.

Furthermore, the going concern-based arrangements with creditors can provide for, among others, the winding up of those assets that are not functional to the business allowed. The composition agreement may also contain a proposed tax settlement for the partial or deferred payment of certain taxes.

Under Article 100 of the Italian Insolvency Code, a debtor who files for a *concordato* pursuant to Articles 44 and 87 of the Italian Insolvency Code based on business continuity may request the court to be authorized to pay pre-filing claims relating to the purchase of goods or services if an independent expert certifies that they are essential for business continuity and to ensure the best satisfaction of creditors.

If the court determines that the composition proposal is admissible, it appoints a judge (*giudice delegato*) to supervise the procedure, appoints one or more judicial officers (*commissari giudiziali*) and schedules a specific period of time during which creditors can express their vote. During the implementation of the proposal, the company generally continues to be managed by its corporate bodies (usually its board of directors), but is supervised by the appointed judicial officers and judge (who will authorize all transactions that exceed the ordinary course of business).

Article 91 of the Italian Insolvency Code provides that, if the composition with creditors' plan, includes an offer for the sale of the debtor's assets or the sale of a going concern of the debtor to an identified third party, the court or the delegated judge shall order that for appropriate publicity to be given to the offer itself in order to acquire competing offers (*offerte concorrenti*). If expressions of interest are received, the court or the delegated judge, by decree, shall order the opening of the competitive proceeding. Furthermore pursuant to Article 91, paragraph 4, the judicial decree referred above establishes the procedures for the submission of irrevocable offers, providing that in all cases, among others, the following is ensured: (a) their comparability, (b) the requirements for the participation of the bidders, (c) the forms and timing of access to relevant information, (d) any limits on their use, (e) the manner in which the judicial commissioner must provide them to those who request them, (f) the manner in which the competitive procedure is to be conducted, (g) the minimum increase in the consideration to be provided by the subsequent offers, (h) the guarantees to be given by the bidders, (i) the forms of publicity, and (j) the date of the hearing for the evaluation of the bids if the sale takes place before the court. With the sale or with the assignment, whichever is earlier, to a person other than the original bidder identified in the plan, the latter and the debtor are released from their obligations towards

each other and accordingly the debtor shall amend the proposal and plan in accordance with the outcome of the competitive proceeding.

The *concordato preventivo* is voted on within the period of time scheduled by the court and must be approved with the favorable vote of (a) the creditors representing the majority of the receivables admitted to vote and, also in the event that the plan provides for more classes of creditors, or (b) the majority of the receivables admitted to vote is reached the majority of the classes. Pursuant to Article 109, paragraph 1, of the Italian Insolvency Code, in case one creditor holds more than the majority of receivables admitted to voting, it is also necessary to reach majority by headcount. The *concordato preventivo* is approved only if the required majorities of creditors expressly voted in favor of the proposal. Creditors who did not exercise their voting right will be deemed not to approve the *concordato preventivo* proposal. In relation to voting by the holder of the Notes in the *concordato* proceedings, the interactions between (i) the provisions set forth under the Indenture with respect to meetings of holders of the Notes, the applicable majorities and the rights of each holder of the Notes to vote in the relevant meeting and (ii) applicable Italian law provisions relating to quorum and majorities in meetings of holders of notes issued by Italian companies are largely untested in the Italian courts (recent case law has however affirmed the right of noteholders whose vote may be tainted by conflict of interest as could be the case of disenfranchised noteholders to be computed for the purposes of relevant quota and be admitted to vote, albeit in a specific class). Secured creditors are not entitled to vote on the proposal of *concordato preventivo* unless and to the extent they waive their security, or the *concordato preventivo* provides that they will not receive full satisfaction of the fair market value of their secured assets (such value being assessed by an independent expert), in which case they can vote only in respect of the part of their debt affected by the proposal. Among others, (i) the companies controlling the debtor, controlled by the debtor and those under the control of the entity controlling the debtor, (ii) the assignees of the claims of the entities under point (i), if the assignment has been perfected during the year preceding the *concordato* and (iii) creditors in conflict of interest are excluded from voting. The court may approve the *concordato preventivo* (notwithstanding the circumstance that one or more classes objected to it) if: (i) the majority of classes has approved it; and (ii) the court deems that the interests of the non-adhering creditors would be adequately safeguarded through it compared to other solutions (in particular in comparison with the judicial liquidation). If an objection to the implementation of the *concordato preventivo* is filed by 20% of the creditors or, in case there are different classes of creditors, by a creditor belonging to a non-adhering class, entitled to vote, the court may nevertheless sanction the *concordato preventivo* if it deems that the relevant creditors' claims are likely to be satisfied to a greater extent as a result of the *concordato preventivo* than would otherwise be the case (including the judicial winding-up).

The court approves the *concordato preventivo* even in the absence of a vote by the tax authority or by the social contribution entities (*enti gestori di forme di previdenza o assistenza obbligatorie*) when their positive vote is decisive for the purposes of achieving the majorities referred to in Article 109, paragraph 1 of the Italian Insolvency Code, also on the basis of the result of the report of the independent expert referred to in Article 88 of the Italian Insolvency Code, the proposal to satisfy the aforesaid authorities and entities is convenient compared to a judicial liquidation scenario.

Furthermore, pursuant to Article 90 of the Italian Insolvency Code provides for the possibility for creditors (except for individuals or entities controlled, controlling or under common control of the debtor) holding at least 10% of the aggregate claims against a debtor to present an alternative plan (*proposta concorrente*) to the debtor's plan - within 30 days prior from the related creditors' vote on the debtor's plan - in a court supervised composition with creditors proceedings (*concordato preventivo*) subject to certain conditions being met, including, in particular, that the proposal of the debtor does not ensure recovery of at least 30% of the unsecured claims (*crediti chirografari*), considering also that such percentage is reduced to 20% in case the debtor has filed for a *composizione negoziata* provided for pursuant to Article 13 of the Italian Insolvency Code.

Differently from the general rules set out above, pursuant to Article 109 paragraph 5 of the Italian Insolvency Code, the composition with creditors on a going-concern basis (*concordato con continuità*), is approved if all the creditors' classes vote in favor of such composition with creditors arrangement. In each class, the relevant composition with creditors' proposal is approved if the majority of the claims allowed to vote is reached or, failing that, if two-thirds of the claims of the voting creditors have voted favorably, *provided* that the creditors holding at least half of the total claims of the same class have voted. In case of non-approval, Article 112, paragraph 2, of the Italian Insolvency Code shall apply. In this respect, it should be noted that secured creditors shall not vote if their claims are satisfied in cash,

in full, within 180 days from the sanctioning (*omologa*) of the *concordato con continuità* and *provided* that the security interests supporting the related claims remains firm until the winding-up, functional to their satisfaction. In case of claims of employees or other claims secured under Article 2751-*bis* of the Italian Civil Code, the delay is reduced to 30 days from the approval by the court.

Pursuant to Article 112, paragraph 5 of the Italian Insolvency Code, after the approval of the *concordato preventivo* proposal, non-adhering creditors (or creditors belonging to a non-adhering class) representing 20% or more of the liabilities may file an opposition (*opposizione*), challenging the economic convenience of the plan. In such case, the court has the authority to "cram-down" non-adhering creditors, compelling their acceptance of the plan, if it deems that the proposed treatment of their claims is equivalent to what they would recover in a judicial winding-up scenario. After the creditors' approval, the court approves the composition with creditors and appoints one or more liquidators in order to execute the approved plan if it has to be realized by way of a transfer of assets. The court may grant special powers to the judicial commissioner to implement the plan if the debtor does not cooperate, including by taking all corporate actions required.

Pursuant to Article 111 of the Italian Insolvency Code, if the creditors do not approve the *concordato preventivo*, the delegated judge (*giudice delegato*) shall promptly inform the court which, having decided that the appropriate conditions apply, shall declare the opening of the judicial winding-up proceeding.

The terms and the performance of the outstanding contracts which have been entered into, from time to time, by the debtor are not automatically affected by the *concordato preventivo* proceeding and normally continue pending the procedure, any agreement to the contrary being ineffective. However, pursuant to Article 97 of the Italian Insolvency Code, the debtor may request the competent court to be authorized to terminate outstanding agreements (*contratti ancora ineseguiti o non compiutamente eseguiti*) if the continuation of such agreements is inconsistent with the prospects and the execution of the composition with creditors' plan, except for certain agreements which are excluded from the scope of the above provision (*e.g.*, employment agreements (*rapporti di lavoro subordinato*), residential real estate preliminary sale agreements (*contratti preliminari di vendita aventi ad oggetto immobili ad uso abitativo*) and real estate lease agreements (*contratti di locazione di immobili*)). The request may be filed with the competent court at the time of the filing of the application for the *concordato preventivo* or to the judge (*giudice delegato*) if the application is made after admission to the procedure. Upon the debtor's request, the pending agreements can also be suspended for a period of time *(a)* between 30 and 60 days from the date of the filing of the preliminary petition, subject to only one possible further extension of up to 60 days, where there are reasonable grounds for such extension (*giustificati motivi*) or in the event where filings for a judicial liquidation proceeding are pending, renewable just once. When the composition proposal together with the relevant plan have been submitted, the suspension may also be authorized by the court for a further duration, which, however, may not exceed thirty days from the date of the decree opening the procedure, which may not be further extended. In such circumstances, the other party has the right to receive an indemnification equivalent to the damages suffered for the non-fulfillment of the agreement. Such indemnification would be paid prior to and outside of the admission to the *concordato preventivo* procedure.

Pursuant to Articles 119 and 120 of the Italian Insolvency Code, in the event of a breach of the composition with creditors plan or fraud, *provided* that the relevant requirements are met, the *concordato* can be terminated or annulled, as the case may be, upon petition of one or more of the creditors and the judicial winding-up may follow, at the behest of the relevant court. if the composition with creditors is implemented, terms and conditions of payments are amended as per the *concordato* proposal, and the debtor may return to its usual operations (if the assets of the company are still in his possession). *Concordato preventivo* is compulsory for all creditors prior to the publication of the application in the companies' register. However, creditors retain without prejudice their rights against co-debtors and guarantors of the debtor.

In case of non-minor breaches, the *concordato* may be terminated by each of the creditors or the judicial commissioner (in case of petition by one or more of the creditors). The relevant lawsuit must be brought within one year from the deadline originally scheduled for the last activity to be carried out under the *concordato* itself. The *concordato* may also be annulled upon request of the judicial commissioner or of one or more creditors in case a portion of the assets of the debtor has been concealed or the liabilities have been willfully exaggerated. The relevant lawsuit must be brought within six months from the discovery of the concealment/exaggeration and, in any event, within two years from the deadline originally scheduled for the last activity to be carried out under the *concordato* itself.

Available financing forms under the Italian Insolvency Code

The enactment of the Italian Insolvency Code did not change the main features of the previous legal framework set out in the Italian Bankruptcy Law. The aim at preserving the value of the company as a going concern and maximizing creditor's repayment are the main goals both of the previous legal framework and the Italian Insolvency Code.

However, the new provisions under the Italian Insolvency Code remove some uncertainties and clarifies some debated issues.

In addition, the provisions under the Italian Bankruptcy Law focused mainly on the perspective of creditors already having claims against the company to avoid that the expectations of recovery of such claims were reduced due to the potential considerable increase in predeductible claims and, to this extent, granted a preeminent role to the independent expert together with the court authorization procedures. Unlike the former legal framework, the new provisions of the Italian Insolvency Code focus more on preserving the business value of the distressed company as a going concern by strengthening the key role of the financing of the debtor in the context of the relevant proceedings.

The provision of Article 99 of the Italian Insolvency Code applies to both debt restructuring agreement and to the court-supervised compositions with creditors (*concordato preventivo*).

The main features of the provisions concerning different available financings under the Italian Insolvency Code are set out below.

Interim financing - Article 99 Paragraphs 1 to 4 of the Italian Insolvency Code

Pursuant to Article 99, paragraphs 1 and 2, of the Italian Insolvency Code, in the context of restructuring transactions on a going concern basis, also in cases in which business continuity is maintained exclusively in a view of liquidation, the Court, pending the sanctioning (*omologazione*) of the debt restructuring agreement pursuant to Article 57 (or Article 60 or 61) of the Italian Insolvency Code or a petition pursuant to Article 87 of the Italian Insolvency Code (in relation to the court-supervised composition with creditors procedure described below) may authorize the debtor, if so expressly requested to incur in new super senior indebtedness and to secure such indebtedness, subject to the court's authorization with in rem security (*garanzie reali*), or by assigning claims, *provided* that: (i) the petition specifies (A) the purpose of the financing; (B) that the debtor is unable to otherwise obtain the required funds and (C) that the absence of such financing will entail an imminent and irreparable prejudice to the going concern or to the proceedings; and (ii) the expert appointed by the debtor, having verified the overall financial needs of the company until the sanctioning (*omologazione*), declares that the new financing are functional to the continuity of the business activities until the sanctioning (*omologa*) of the relevant insolvency proceedings or to the opening of the proceedings or to conduct them and, in any case, are aimed at providing a better satisfaction of the rights of the creditors. The expert report is not necessary in case the court recognizes that there is the urgent need to avoid an imminent and irreparable prejudice to the going concern. In the event of the subsequent admission of the debtor to the judicial winding-up proceeding (*liquidazione giudiziale*), the aforementioned financings do not enjoy the super senior priority status (*prededucibilità*) in case the petition or the expert report contain false data or omit important information or in case the debtor performed acts in fraud of the creditors (*atti in frode ai creditori*) and the judicial receiver proves that who made available such financings to the debtor, had knowledge of such circumstances at the date of the disbursement.

Bridge Financings - Article 99 Paragraph 5 of the Italian Insolvency Code

Pursuant to Article 99, paragraph 5, of the Italian Insolvency Code, financings (together with the related claims) granted, in any form, in view of (i.e. before) presentation of a petition for the sanctioning (*omologazione*) of a debt restructuring agreement or a court-supervised composition with creditors (*concordato preventivo*) (*finanza ponte*), may be granted such priority status *provided* that (i) they meet the requirements of Article 99, paragraphs 1 and 2 (described above), and (ii) it is envisaged by the relevant plan or agreement and that such priority status is expressly provided for by the court at the time of approval of the plan or sanctioning (*omologazione*) of the debt restructuring agreement or the approval of the *concordato preventivo*. The indebtedness under such financing option may be secured, subject to the court's authorization, with in rem security (*garanzie reali*), or by assigning claims.

Implementation financing - Article 101 of the Italian Insolvency Code

In restructuring transactions on a going concern basis, pursuant to Article 101 of the Italian Insolvency Code, any financing granted to the debtor pursuant to a debt restructuring agreement (or a court-supervised pre-judicial liquidation composition with creditors) sanctioned by the competent court and expressly provided for in the relevant plan, enjoy super senior priority status (*prededucibilità*) in case of subsequent judicial liquidation, save for the below (such status also applies to financing granted by shareholders, but only up to 80% of such financing, unless the lender has become a shareholder of the debtor as implementation of the debt restructuring agreement or of the supervised pre-bankruptcy composition with creditors, as in such case the priority status is afforded to 100% of the financing) according with the provisions set forth in Article 221 of Italian Insolvency Code. In the event of the subsequent admission of the debtor to the judicial winding-up proceeding (*liquidazione giudiziale*), the aforementioned financings do not enjoy the super senior priority status (*prededucibilità*) in case the composition plan or the debt restructuring agreement, on the basis of an assessment to be made at the time of the relevant filing, results to be based upon false data or omission of relevant information or in case the debtor performed acts in fraud of the creditors (*atti in frode ai creditori*) and the judicial receiver proves that who made available such financings to the debtor, had knowledge of such circumstances at the date of the disbursement.

The shareholders' financing – Article 102 of the Italian Insolvency Code

Pursuant to Article 102, Paragraph 1 of the Italian Insolvency Code super senior ranking status also applies to any financings made available by shareholders in any form (including any guarantee facility or granting counter-indemnities) up to 80% of their amount.

Paragraph 2 of Article 102 of the Italian Insolvency Code clarifies that, to the extent the financing is made available by an entity becoming a shareholder in the context of and by way of implementation of a composition with creditors or debt restructuring agreement, all the claims deriving from such financings benefit of super senior ranking status and the 80% threshold limitation set out in Paragraph 1 does not apply.

Super senior ranking - Article 99 Paragraph 6 and 101 Paragraph 2 of the Italian Insolvency Code

Super senior ranking (*prededucibilità*) of the claims is the most relevant feature of bridge financings, interim financings and implementation financings as described in the paragraphs above.

Pursuant to Article 6(1) of the Italian Insolvency Code, the claims deriving from such financings are expressly qualified as super senior by law and by Article 6(2) of the Italian Insolvency Code which clarifies that their super senior ranking natures continues in the context of any subsequent insolvency or enforcement proceedings (including in a judicial liquidation or any so-called minor proceedings).

As already explained above, super senior ranking nature of such financings will be excluded in case of acts of fraud (which may be relevant also in the context of debt restructuring agreements).

Such limit to super senior ranking is regulated differently for interim financings and bridge financings on the one side and for the implementation financings on the other side.

More specifically, for interim financings or bridge financings false data or omission of relevant information are relevant when found by the court in the request for the incurrence of the financings or the attestation of the independent expert, whilst for implementation financings such elements are relevant when on included in plan underlying the composition with creditors or the debt restructuring agreement.

With reference to interim financings and bridge financings, Article 99 Paragraph 6 of the Italian Insolvency Code provides that, in case of the opening of a judicial liquidation, such financings (although authorized by the court in the context of the composition with creditors or the debt restructuring agreement) do not benefit from super senior ranking when it is proved (jointly) that:

(a) the request or the independent expert report contains false data or omits relevant information, or when the debtor has committed acts to defraud creditors in order to obtain the authorization; and

(b) the receiver proves that the entities who provided the financing, at the date of issuance, knew the aforementioned circumstances.

With reference to implementation financings, the relevant provisions are set out in Article 101 Paragraph 2 of the Italian Insolvency Code providing that such financings do not benefit from the super senior ranking, in case of the opening of a judicial liquidation (alternatively):

(a) when, based on an assessment to be made at the time of filing of the petition for the opening of the proceeding, the plan underlying the composition with creditors or debt restructuring agreement turns out to be based on false data or on the omission of relevant information; or

(b) when the debtor has carried out acts of fraud towards its creditors and the receiver proves that the lenders providing the financings were aware of such circumstances at the time of the establishment of the financings.

Restructuring plan subject to homologation (piano di ristrutturazione soggetto ad omologazione)

An important novelty concerns the crisis regulation procedures governed by Title IV of Part I of the Italian Insolvency Code, is the new figure of the restructuring plan subject to homologation (*piano di ristrutturazione soggetto ad omologazione*) (the so-called "**PRO**," the rules of which are set out in the new Articles 64-*bis* and 64-*ter* of the Italian Insolvency Code).

This new tool, takes the form of a restructuring framework that may disregard the distribution rules of regular insolvency proceedings but can be enacted *provided* that strict requirements are met. In this regard, it should be noted that recourse to this instrument will be reserved for a debtor in crisis or insolvent that plans to satisfy its creditors by dividing them into classes according to homogeneous legal positions and economic interests. This instrument allows the plan's proceeds to be distributed even in derogation of the principle of "*par condicio creditorum*" (i.e. the equal treatment of creditors), *provided* that the proposal is approved by unanimous consent of the classes. A judgement of admissibility is provided for by the court, which is called upon to assess the proposal's timeliness and to verify the correctness of the class formation criteria.

Application for the approval by the court of a restructuring plan must follow the steps of the common framework applicable to all restructuring tools and frameworks (i.e. *concordato preventivo*, debt restructuring agreement and also to judicial winding-up). The regulation of the restructuring plan subject to homologation (*piano di ristrutturazione soggetto ad omologazione*), from the date of submission of the application until its approval, is based on the model of the negotiated crisis settlement: the entrepreneur maintains the ordinary and extraordinary management of the company in the prevailing interest of the creditors under the supervision of the court commissioner. The debtor is, in any case, allowed to amend the application at any time, formulating the proposal of composition (*concordato preventivo*). In that case, the time limit for approval is shortened. Similarly, the debtor that has filed an application for composition with creditors may amend the application by applying for approval of the restructuring plan *provided* that the application is made before voting commences. In each class, the proposal is approved if a majority of the claims allowed to vote is reached or, failing that, if two-thirds of the claims of the voting creditors have voted in favor, *provided* that creditors holding at least half of the total claims of the same class have voted. The court will approve the restructuring plan in the event of approval by all classes. If a dissenting creditor objects to the proposal, the court will approve and homologate the restructuring plan if the proposal satisfies the claim to a not lesser extent than the one resulting from a judicial liquidation. A creditor that has not objected to the lack of convenience in its observations may not file an objection referred before, unless it proves such the lack of objection was due to a cause not attributable to it. In summary the restructuring plan subject to homologation *(piano di ristrutturazione soggetto ad omologazione*) thus represents for the debtor an opportunity instrument which minimizes the admissibility phase, providing greater freedom of action, but requiring the approval of all classes of creditors in order to be effectively approved.

Against the judgment of the court ruling on the approval of the restructuring plan subject to homologation (*piano di ristrutturazione soggetto ad omologazione*), the parties may file an appeal to the competent court of appeal within the term of 30 days from the notification of the relevant judgement of the court.

Court-supervised composition for small debtors

The Italian Insolvency Code provides for a simplified court-supervised composition in case the debtor does not meet the dimensional requirements to access other restructuring tools.

Procedural steps and effects do essentially mimic those of the *concordato preventivo*, but it entails the involvement of the board for crisis settlement (*organismo di risoluzione della crisi*), which assists the debtor in preparing the paperwork and filing the petition, and performs the activities and duties which, in a *concordato preventivo* are prerogatives of the judicial commissioner.

Judicial winding-up (liquidazione giudiziale)

The judicial winding-up (*liquidazione giudiziale*) is a court-supervised procedure for the liquidation of an insolvent company's assets and for the distribution of the related proceeds. It results in the company's liquidation. Insolvency, as defined under Article 2 of the Italian Insolvency Code, also evidenced by defaults and/or external elements, occurs when a debtor is no longer able to regularly meet its obligations as they come due.

The judicial winding-up is declared by the competent court and is applicable only to commercial enterprises (*imprenditori commerciali*) if any of the following thresholds are met: the company (i) has had assets (*attivo patrimoniale*) in an aggregate amount exceeding €0.3 million for each of the three preceding fiscal years; (ii) has had gross revenue (*ricavi lordi*) in an aggregate amount exceeding €0.2 million for each of the three preceding fiscal years; and (iii) has total indebtedness (including debts not yet due) in excess of €0.5 million. Pursuant to Article 37 of the Italian Insolvency Code, the request to commence the judicial liquidation of the debtor company's assets can be filed by (i) the debtor company itself, (ii) the administrative bodies and authorities that have control and supervisory functions over the company, (iii) by one or more of the debtor's creditors and (iv) in certain cases, by the public prosecutor.

Upon the commencement of judicial winding-up proceedings, amongst other things:

- subject to certain exceptions, all actions of creditors are stayed and creditors must file claims within a defined period. In particular, under certain circumstances, secured creditors may enforce against the secured property as soon as their claims are admitted as secured claims. Secured claims are paid out of the proceeds of the secured assets, together with interest and expenses. Any outstanding balance will be considered unsecured and rank *pari passu* with all of the debtor's other unsecured debt. The secured creditor may sell the secured asset only after it has obtained authorization from the designated judge (*giudice delegato*). After hearing the judicial receiver and the creditors' committee, the designated judge decides whether to authorize the sale, and sets forth the timing in its decision;

- under certain circumstances secured creditors may execute against the secured property as soon as their claims are admitted as preferred claims. Secured claims are paid out of the proceeds of liquidation of the secured assets, together with the applicable interest and subject to any relevant expenses. In case the sale price is not high enough to determine a full satisfaction of their credits, any outstanding balance will be considered unsecured and rank *pari passu* with all of the debtor's other unsecured debt. Secured creditors may sell the secured asset only with the court authorization. After hearing the judicial receiver (*curatore*) and the creditors' committee, the court decides whether to authorize the sale, and sets forth the relevant timing in his or her decision;

- the payments of all debts and liabilities of the debtor and all the acts, transactions, payments made or received by the insolvent debtor are immediately suspended and formalities with third parties that have been carried out after the declaration of insolvency are not effective as regards the creditors of the debtor (Article 145 of Italian Insolvency Code);

- the debtor is dispossessed, and the administration of the debtor and the management of its assets are transferred to the judicial receiver (*curatore*). The debtor may no longer validly act in court as claimant or defendant in relation to the assets (Article 142 of the Italian Insolvency Code). The judicial receiver is vested with such powers upon the authorization of the delegated judge. However, all pending proceedings in which the debtor is involved

are automatically stayed from the date the adjudication is issued and need to be re-initiated by or against the judicial receiver;

- the beginning of the judicial winding-up involves the cessation of all the activities of the company with a view to a sale of all assets. However, continuation of business may be authorized by the court if the continuation of the company's business does not cause damage to creditors. If the competent court authorizes the continuation of the business (*esercizio provvisorio dell'impresa*), the management of the business is entrusted to the judicial receiver (who may in turn avail himself of qualified third parties for this purpose);

- certain payments made, security interests given or transactions entered into by the debtor in a certain period before the debtor's submission to a judicial winding-up procedure (varying from six months to two years) can be set aside and clawed back if certain conditions are met (provided for pursuant to Article 166 of the Italian Insolvency Code);

- any act (including payments, pledges, and issuance of guarantees) made by the debtor after (and in certain cases even before for a limited period of time) the commencement of the proceedings, other than those made through the receiver, become ineffective against creditors; and

- the execution of certain contracts and/or transactions pending as of the date of the insolvency declaration are suspended until the receiver decides whether to take them over. Although the general rule is that the judicial receiver is allowed to either continue or terminate contracts where some or all of the obligations have not been performed by both parties, certain contracts are subject to specific rules expressly provided for the Italian Insolvency Code.

In order to overcome the uncertainty that may predictably arise, the contractual counterparty may file a written petition requiring the Court to give the judicial receiver (*curatore*) a deadline of no more than 60 days; within such deadline, the receiver must decide to enter into the agreement or withdraw from it. Upon expiration of the deadline without the judicial receiver having replied to the counterparty's request, the pending agreement is deemed terminated. Although the general rule is that the judicial receiver is allowed to terminate contracts where some or all of the obligations have not been performed, certain contracts are subject to specific rules expressly provided for by the Italian Insolvency Code.

Judicial winding-up proceedings, as per the former bankruptcy proceedings under Italian Bankruptcy Law, are carried out and supervised by a court-appointed judicial receiver, a deputy judge (*giudice delegato*) and a creditors' committee (*comitato dei creditori*). The judicial receiver is not a representative of the creditors, and is responsible for the liquidation of the assets of the debtor to the satisfaction of creditors. The proceeds from the liquidation are distributed in accordance with statutory priority rights. The liquidation of a debtor can take a considerable amount of time, particularly in cases where the debtor's assets include real estate property.

Furthermore, the parties of a judicial winding-up proceeding as well as any interested party, may file an appeal (*opposizione*) to the decree closing the judicial winding-up proceeding within 30 days after having been notified of the same.

Composition with creditors in judicial liquidation (concordato nella liquidazione giudiziale).

Pursuant to Article 240 of the Italian Insolvency Code, judicial liquidation proceedings can terminate prior to the actual judicial liquidation (*liquidazione giudiziale*) of the debtor, through a proposal for a composition with creditors in judicial liquidation. By way of preliminary note, such agreement occurring in the context of a judicial liquidation proceeding (i) replaced the former proceeding defined as "*concordato fallimentare*," a composition with creditors agreement occurring in the context of a bankruptcy proceeding (*fallimento*) formerly provided for under Article 124, paragraph 1 of the Italian Bankruptcy Law and (ii) should be kept distinct from the *concordato preventivo*, which is an independent insolvency proceeding. This particular composition with creditor agreement arrangement benefits in a certain way both the debtor as well as the creditors, in fact while the former is released of the debts falling into the relevant plan also regaining free disposal of his assets, the latter is satisfied faster and to a greater extent than they would have been with the full completion of the judicial liquidation process pertaining to the debtor's assets.

The creditor, a third party or the debtor himself formulates a proposal having as its object a “plan” to satisfy creditors, including preferential creditors, in full or in part. In case the *concordato nella liquidazione giudiziale* is proposed by the debtor, such proposal, *inter alia*, (i) shall be filed after one year from the opening of the judicial liquidation proceeding and (ii) shall provide for the contribution by the debtor of resources that increase the value of the debtor’s assets by at least 10%.

Such proposal shall be submitted to the competent judge, shall then be approved by the creditors and finally by the court. In case the court’s decree approving the *concordato nella liquidazione giudiziale* becomes final (*definitivo*), the court declares the judicial liquidation to be closed and terminated, initiating the enactment phase of the *concordato nella liquidazione giudiziale*. In the context of a *concordato nella liquidazione giudiziale*, the competent court supervises both the proposal and execution phases while the judicial receiver (*curatore*), once the liquidation is closed, loses his management functions and retains only supervisory duties over the fulfillment of the terms and the conditions of the arrangement obligations arising from or in connection with the aforementioned *concordato nella liquidazione giudiziale*.

Pursuant to Article 240, paragraph 2 of the Italian Insolvency Code, the proposal may provide for:

(a) the division of creditors into classes, according to homogeneous legal position and economic interests.

(b) Under the relevant provision, such division is not mandatory but discretionary, provided two criteria for the class identification: (a) legal position, i.e. the nature of the claim, *e.g.*, unsecured or preferential and (b) the homogeneous economic interests. In this respect, the Italian Insolvency Code requires for the criteria and rationale for the division into classes to be expressly stated in order to avoid the distorted use of class formation, put in place for the sole purpose of obtaining the approval of the abovementioned proposal;

(c) differential treatment between creditors belonging to different classes, indicating the reasons of such differences;

(d) the restructuring of the financial indebtedness of the debtor as well as the satisfaction of claims in any form possible, by way of example:

    (i) by assignment of assets;

    (ii) by assumption (*accollo*);

    (iii) by means of other extraordinary transactions, including the assignment to creditors (as well as to companies in which they have an interest), of shares, quotas or bonds, including those convertible into shares or other financial instruments and debt securities.

It should be noted that a special feature of the *concordato nella liquidazione giudiziale* is the option to provide that secured creditors may not be satisfied in full. However, it is necessary for the plan to provide for their satisfaction to a non-lesser extent than that the one which can be realized, by reason of preferential placement, from the relevant proceeds in the event of a judicial liquidation, having regard to the market value attributable to the assets or rights over which the cause of pre-emption exists.

The *concordato nella liquidazione giudiziale* proposal must be approved by the creditors’ committee and the creditors holding the simple majority (by value) of claims (and, if classes are formed, by a majority (by value) of the claims in the majority of the classes). However, in the event of dissent by more than one creditor’s class, a cram-down may occur (i.e. in case the court decides to approve the *concordato* - despite a creditor belonging to a dissenting class contests the appropriateness of the proposal) if it finds that the claims can be satisfied by the *concordato* to a non-lesser extent than the practicable alternatives. Final court confirmation and sanctioning (*omologazione*) is also required.

Finally, once approved and sanctioned (*omologato*) by the court the *concordato nella liquidazione giudiziale* is mandatory:

(i) for all existing creditors prior to the opening of the judicial liquidation proceeding; and

(ii) for creditors who have not applied for the admission to the judicial liquidation estate, to whom the guarantees or the security interests given in the *concordato nella liquidazione giudiziale* by third parties do not extend.

With the termination of the judicial liquidation - as a consequence of the sanctioning decree (*decreto di omologa*), which pursuant to Article 247 of the Italian Insolvency Code may be challenged and appealed within 30 days from its notification - the debtor returns "*in bonis*" and enjoys the renewed availability of its assets.

- **Statutory priorities**. The statutory priority assigned to creditors under the Italian Insolvency Code may be different from the priorities in the U.S., the UK and certain other EU jurisdictions. The proceeds of liquidation shall be allocated according to the following order: (i) for payments of "*predeductible*" claims (i.e. claims originated in the insolvency proceeding, such as costs related to the procedure) as better identified in Article 6 of the Italian Insolvency Code; (ii) for payment of claims which are privileged, such as claims of secured creditors; and (iii) for the payment of unsecured creditors' claims. Under Italian law, the highest priority claims (after the costs of the proceedings are paid) are the claims of preferential creditors, including, inter alia, a claim whose priority is legally acquired (i.e. repayment of rescue or interim financing) the claims of the Italian tax authorities and social security administrators, and claims for employee wages. The remaining priorities of claims are, in order of priority, those related to secured creditors (*creditori privilegiati*; a preference in payment in most circumstances, but not exclusively, provided for by law), mortgages (*creditori ipotecari*), pledges (*creditori prignoratizi*) and, lastly, unsecured creditors (*crediti chirografari*). Under Italian law, the proceeds from the sale of the debtor's estate are distributed according to legal rules of priority. Neither the debtor nor the court can deviate from these priority rules by proposing their own priorities of claims or by subordinating one claim to another based on equitable subordination principles (as a consequence it must be noted that priority of payments such as those commonly provided in intercreditor contractual arrangements may not be enforceable against an Italian judicial liquidation estate to the extent they are inconsistent with the priorities provided by law). The law creates a hierarchy of claims that must be adhered to when distributing the proceeds derived from the sale of the entire debtor's estate or part thereof, or from a single asset.

In particular, pursuant to Article 6 of the Italian Insolvency Code, in addition to claims expressly qualified as "*prededucibili*" under Italian law, among others, the following claims are "*prededucibili*":

(i) claims relating to expenses and fees for services rendered by the business crisis settlement body;

(ii) professional claims arising from or in connection with the filing for the approval of a restructuring plan subject to homologation, the debt restructuring agreements and for the application for protective measures, to the extent of 75% of the assessed claim and *provided* that the abovementioned plan or agreements are approved and homologated;

(iii) professional claims arising from or in connection with the filing of for a court supervised composition with creditors procedure as well as the filing of the related proposal and the plan accompanying it, within the limits of 75% of the ascertained claims and *provided* that the proceedings are opened pursuant to Article 47 of the Italian Insolvency Code; and

(iv) claims legally arisen in connection with insolvency proceedings for the management of the debtor's assets and the continuation of the business of the company as well as arising from the professional services required by the related bodies.

- **Avoidance powers in insolvency**. A fundamental principle of the Italian Insolvency Code is the equal treatment of all creditors ("*par condicio creditorum*"), according to which, absent statutory priorities or security right, no creditor may be paid a higher percentage of his claim than other creditors. A consequence of this principle is not only that the payment of debts by the judicial receiver is strictly regulated, but also that all transactions effected by the debtor over the previous year (or, in certain cases, over the previous six months) are scrutinized and potentially unwound as preferential.

Similar to other jurisdictions, there are so-called "claw-back" or avoidance provisions under Italian law that may give rise, *inter alia*, to the revocation of payments or to the granting of security interests made by the debtor prior to the declaration of insolvency. The key avoidance provisions include, but are not limited to, transactions made below

market value, preferential transactions and transactions made with a view to defraud creditors. Claw-back rules under Italian law are normally considered to be particularly favorable to the receiver in judicial winding-up compared to the rules applicable in other jurisdictions.

In insolvency proceedings, depending on the circumstances, the Italian Insolvency Code provides for a claw-back period of up to two years (six months in certain circumstances) and a two-year ineffectiveness period for certain other transactions. In the context of extraordinary administration procedures (as described below), the claw-back period may last up to three or five years in certain circumstances. The Italian Insolvency Code distinguishes between acts or transactions which are ineffective by operation of law and acts or transactions which are voidable at the request of the judicial receiver/court commissioner, as detailed below.

- **Acts ineffective by operation of law**. Under (i) Article 163 of the Italian Insolvency Code, subject to certain limited exception, all transactions entered into for no consideration are ineffective *vis-à-vis* creditors if entered into by the debtor after the filing to the relevant court followed by the opening of the judicial winding-up procedure or within the two years preceding the opening of such insolvency proceeding. Any asset subject to a transaction which is ineffective pursuant to Article 163 of the Italian Insolvency Code becomes part of the liquidation estate by operation of law upon registration (*trascrizione*) of the court's decision opening the insolvency proceeding, without needing to wait for the ineffectiveness of the transaction to be sanctioned by a court. Any interested person may challenge the registration before the delegated judge as a violation of law, and (ii) under Article 164 of the Italian Insolvency Code, (A) payments of receivables falling due on the day of the judicial declaration of opening of the judicial liquidation or later, if they were executed by the debtor after the filing of the application followed by the opening of the winding-up proceeding or in the prior two-year period; and (B) payments made by the debtor with respect to any intercompany loan within one year prior to a judicial winding-up declaration (or after the filing of the application followed by the opening of the winding-up proceeding), are ineffective vis-à-vis creditors.

- **Acts that may be avoided at the request of the judicial receiver/court commissioner**. The following acts and transactions, if done or made during the period specified below, may be clawed back (*revocati*) *vis-à-vis* the debtor as provided for by Article 166 of the Italian Insolvency Code and be declared ineffective, unless the non-insolvent party proves that it had no actual or constructive knowledge of the debtor's insolvency at the time the transaction was entered into:

  (i) onerous transactions carried out after the filing followed by the opening of the judicial liquidation proceeding or in the previous year, where the value of the debt or the obligations undertaken by the debtor exceeds 25% of the value of the consideration received by and/or promised to the debtor;

  (ii) payments of debts, due and payable, made by the debtor which were not paid in cash or by other customary means of payment which were carried out after the filing followed by the opening of the judicial liquidation proceeding or in the previous year;

  (iii) pledges and mortgages granted by the debtor after the filing followed by the opening of the judicial liquidation proceeding or in the year prior, in order to secure pre-existing debts which were not yet due at the time the new security was granted; and

  (iv) pledges and mortgages granted by the debtor after the filing followed by the opening of the judicial liquidation proceeding or in the six months prior in order to secure pre-existing debts which had already fallen due at the time the new security was granted.

Furthermore, payments of debts that are immediately due and payable and any onerous transactions and/or granting of priority rights/security interests for debts simultaneously created (event those of third parties) may be clawed back (*revocati*) and declared ineffective, if the judicial receiver proves that the other party knew of the debtor's state of insolvency and if made by the debtor after the filing of the petition followed by the opening of the judicial liquidation or during the prior six months.

The following transactions are exempt from claw-back actions:

(i) payments for goods or services made in the ordinary course of business according to market practice;

(ii) a remittance on a bank account; *provided* that it does not materially and permanently reduce the entity's debt towards the bank;

(iii) the sale, including an agreement for sale registered pursuant to Article 2645-*bis* of the Italian Civil Code, in force as the date of this Exchange Offer Memorandum, made for a fair value and concerning a residential property that is intended as the main residence of the purchaser or the purchaser's family (within three degrees of kinship) or a non-residential property that is intended as the main seat of the enterprise of the purchaser; *provided* that, as at the date of the insolvency declaration, the activity is actually exercised therein or the investments for the commencement of such activity have been carried out therein;

(iv) transactions entered into, payments made or guarantees granted with respect to the debtor's goods, *provided* that they concern the implementation of a *piano attestato di risanamento* (see "*Out-of-court reorganization plans*" (*piani attestati di risanamento*) pursuant to Articles 56 or 284 of the Italian Insolvency Code above);

(v) a transaction entered into, payment made or guarantee or security interests granted in the context of a court supervised composition with creditors (*concordato preventivo*), of a restructuring plan subject to homologation (*piano di ristrutturazione soggetto ad omologazione*) provided for pursuant to Article 64-bis of the Italian Insolvency Code or of sanctioned debt restructuring agreements with creditors (*accordi di ristrutturazione dei debiti omologati*) and/or transactions entered into, payments made and security interests legitimately granted by the debtor after the filing of the application for a *concordato preventivo* or of an *accordo di ristrutturazione dei debiti* (see above);

(vi) remuneration payments to the entity's employees and consultants concerning work carried out by them; and

(vii) payments of a debt that is immediately due, payable and made on the due date, with respect to services necessary for access to a pre-judicial liquidation restructuring framework (see below under "*pre-judicial liquidation restructuring frameworks (strumenti di regolazione della crisi e dell'insolvenza della società)*") or to other insolvency procedures provided for pursuant to the Italian Insolvency Code.

Pursuant to Article 170 of the Italian Insolvency Code, the limitation period for initiating claw-back action proceedings is three years from the opening of the judicial liquidation procedure or, if earlier, five years from the act or transaction to be clawed back. In case judicial liquidation is commenced after the filing of a petition to be admitted to any insolvency proceedings, according to Article 170, paragraph 2 of the Italian Insolvency Code, the suspect period is calculated backward from the date on which such petition is filed. In addition, in certain cases, the judicial receiver can request that certain transactions of the debtor be declared ineffective within the ordinary claw-back period of five years (*revocatoria ordinaria*) provided for by the Italian Civil Code. In this respect, under Article 2901 of the Italian Civil Code, a creditor may demand that transactions whereby the entity disposed of its assets prejudicially to such creditor's rights be declared ineffective with respect to such creditor, *provided* that the debtor was aware of such prejudice (or, if the transaction was entered into prior to the date on which the claim was originated, that such transaction was fraudulently entered into by the debtor for the purpose of prejudicing the creditors) and that, in the case of a transaction entered into for consideration with a third person, the third person was aware of such prejudice (and, if the transaction was entered into prior to the date on which the claim was originated, such third person participated in the fraudulent design). The burden of proof is entirely with the receiver.

The Italian Insolvency Code provides special regimes on preferences and avoidances of intra-group transactions. Under Article 290 of the Italian Insolvency Code the limitation period of initiating intra-group claw-back actions (referring to acts and transactions entered into by companies belonging to the same group that jeopardize the creditors' interest) is extended to five years from the filing for judicial winding-up declaration.

Law 132/2015 also introduced new Article 2929-bis to the Italian Civil Code, providing for a "simplified" claw-back action for the creditor with respect to certain types of transactions put in place by the debtor with the aim to subtract (registered) assets from the attachment by its creditors. In particular, the creditor can now start enforcement

proceedings over the relevant assets without previously obtaining a Court decision clawing back/ nullifying the relevant (fraudulent) transaction, to the extent that such transaction had been carried out without consideration (*e.g.*, gratuitous transfers, or creation of shield instruments such as trusts or the so called *fondo patrimoniale* or "family trust"). In case of gratuitous transfers, the enforcement action can also be carried out by the creditor against the third-party purchaser. Finally, as noted above, the Insolvency Regulation contains conflicts of law rules which replace the various national rules of private international law in relation to insolvency proceedings within the EU.

Adequate organizational, administrative and accounting corporate structures. One of the main novelties included in the Italian Insolvency Code concerns the definition of the organizational, administrative and accounting structures of a company which are deemed to be adequate under Article 2086 of the Italian Civil Code, required by the applicable regulations for the purpose of timely detection of the state of crisis and the undertaking of suitable initiatives by the debtor. Article 3 of the Italian Insolvency Code requires the entrepreneur to adopt an appropriate organizational structure in accordance with Article 2086 of the Italian Civil Code, for the purpose of timely detection of the crisis of the company as well as the timely undertaking of suitable initiatives to overcome the crisis and recover business continuity. However, neither the aforementioned Article 3, in its current wording, nor Article 2086 of the Italian Civil Code, as amended by the Italian Insolvency Code, contains a precise description of the parameters, conditions and characteristics that are deemed to be necessary/needed for the definition and especially for the identification of "adequate structures."

In this regard, Article 3 of the Italian Insolvency Code precisely enunciates, on the one hand, the purposes to which the measures and structures must aim in order to be considered as adequate for the timely detection of the crisis and, on the other hand, the relevant warning signs in relation to the same. In this respect, it is stipulated that, for the purpose of the timely detection of the company's state of crisis, the measures and structures deemed to be adequate should make it possible to:

(i) detect any imbalances of an equity or economic-financial nature, related to the specific characteristics of the company as well as to the business activity carried out by the debtor;

(ii) verify the non-sustainability of debts and the absence of prospects for business continuity for the next twelve months as well as the warning signs identified by Article 3, paragraph 4 of the Italian Insolvency Code; and

(iii) derive the information necessary to follow the detailed checklist and conduct the practical test for the reasonable pursuit of the debtor's financial recovery.

For the sake of completeness and as set out above, it should also be noted that Article 3, paragraph 4 of the Italian Insolvency Code provides an exact indication of the warning signs, identified, inter alia, as follows:

(i) the existence of payroll debts overdue for at least 30 days equal to more than half of the total monthly payroll amount;

(ii) the existence of receivables owed to suppliers that are at least 90 days past due in an amount greater than the amount of receivables that are not past due;

(iii) the existence of exposures to banks and other financial intermediaries that have been past due for more than 60 days or have exceeded the limit of credit facilities obtained in any form for at least 60 days *provided* that they represent in the aggregate at least 5% of the total exposures; and

(iv) the existence of one or more exposures to certain public institutions listed under Article 25-*novies* of the Italian Insolvency Code.

Extraordinary administration for large insolvent companies (amministrazione straordinaria delle grandi imprese in stato di insolvenza).

The extraordinary administration procedure is available under Italian law for large industrial and commercial enterprises; this procedure is commonly referred to as the "*Prodi-bis procedure*." To be eligible, companies must be insolvent although able to demonstrate serious recovery prospects, have employed at least 200 employees in the

previous year preceding the commencement of the procedure, and have debts equal to at least two-thirds of its assets as shown in its financial statements and two-thirds of its income deriving from sales and services during its last financial year. The procedure may be commenced by petition of the creditors, the debtor, a court or the public prosecutor. The same rules set forth for judicial winding-up proceedings with respect to existing contracts and creditors' claims largely apply to an extraordinary administration proceeding. Preferential payment is granted to those credits (even unsecured) accrued to allow the conduct of the company's business activity. Extraordinary administration procedures involve two main phases—a judicial phase and an administrative phase.

Judicial Phase. In the judicial phase, the court determines whether the company meets the admission criteria and whether it is insolvent. It then issues a decision to that effect and appoints up to three judicial receivers (*commissario giudiziale*) to investigate whether there are serious prospects for recovery via a business sale or reorganization. The judicial receiver submit(s) a report to the court (within 30 days) together with an opinion from the Italian Ministry of Economic Development (the "**Ministry**"). The court has 30 days to decide whether to admit the company to the procedure or place it into judicial winding-up.

Administrative Phase. If the company is admitted to the extraordinary administration procedure, the administrative phase begins and the extraordinary commissioner(s) appointed by the Ministry prepare a restructuring plan. The plan can provide either for the sale of the business as a going concern within one year (unless extended by the Ministry) (the "**Disposal Plan**") or a reorganization leading to the company's economic and financial recovery within two years (unless extended by the Ministry) (the "**Recovery Plan**"). It may also include a composition with creditors (*concordato*). The plan must be approved by the Ministry within 30 days from submission by the extraordinary commissioner(s). In addition, the extraordinary commissioner draws up a report every six months on the financial condition and interim management of the company and sends it to the Ministry. The procedure ends upon successful completion of either a Disposal Plan or a Recovery Plan; however, should either plan fail, the company will be declared insolvent.

Industrial restructuring of large insolvent companies (ristrutturazione industriale di grandi imprese in stato di insolvenza)

Introduced in 2003 pursuant to Law Decree No. 347 of December 23, 2003, as converted into Italian Law No. 39 of 2004 and subsequently amended, this procedure is also known as the "*Marzano procedure*." It is complementary to the Prodi-bis procedure and, except as otherwise provided, the same provisions apply. The Marzano procedure is intended to work faster than the *Prodi-bis* procedure. For example, although a company must be insolvent, the application to the Ministry can be made before the court commences the administrative phase.

The Marzano procedure only applies to large insolvent companies which, on a consolidated basis, have at least 500 employees in the year before the procedure is commenced and at least €300 million of debt (including those from outstanding guarantees). The decision whether to open a Marzano procedure is taken by the Ministry following the debtor's request (who must also file an application for the declaration of insolvency). The Ministry assesses whether the relevant requirements are met and then appoints the extraordinary commissioner(s) who will manage the company. The court also decides on the company's insolvency.

Certain provisions of Italian law relating to the Marzano procedure, including with reference to the access of the companies to such procedure, have been amended only recently by virtue of the Law Decree No. 9 of February 2, 2024 and are currently subject to conversion into law and, therefore, may be subject to further implementation and/or interpretation and have not been tested to date in the Italian courts.

The extraordinary commissioner(s) has/have 180 days (or 270 days if the Ministry so agrees) to submit a Disposal Plan or Recovery Plan. The restructuring through the Disposal Plan or the Recovery Plan must be completed within, respectively, one year (extendable to two years) and two years. If no Disposal or Recovery Plan is approved by the Ministry, the court will declare the company insolvent and open judicial winding-up proceedings.

Compulsory administrative winding-up (liquidazione coatta amministrativa)

A compulsory administrative winding-up (*liquidazione coatta amministrativa*), provided for pursuant to Article 293 and ff. of the Italian Insolvency Code, is only available for public interest entities such as state-controlled companies,

insurance companies, credit institutions and other financial institutions, none of which can be wound up pursuant to judicial liquidation proceedings, save for a different indication under Italian law. It is irrelevant whether these companies belong to the public or the private sector. A compulsory administrative winding-up is special insolvency proceedings in that the entity is liquidated not by the court but by the relevant administrative authority that oversees the industry in which the entity is active. The procedure may be triggered not only by the insolvency of the relevant entity, but also by other grounds expressly provided for by the relevant legal provisions (*e.g.*, in respect of Italian banks, serious irregularities concerning the management of the bank or serious violations of the applicable legal, administrative or statutory provisions).

The effect of this procedure is that the entity loses control over its assets and a liquidator (*commissario liquidatore*) is appointed to wind up the company by the relevant governmental authority (*e.g.*, the Bank of Italy or the Ministry of Economic Development, which are competent for the filing of an application for a declaration of insolvency with the subsequent opening of the compulsory administrative winding-up proceeding). The liquidator's actions are monitored by a steering committee (*comitato di sorveglianza*). The powers assigned to the designated judge and the court under the other insolvency proceedings are assumed by the relevant administrative authority under this procedure. The effect of the forced administrative winding-up on creditors is largely the same as under insolvency proceedings and includes, for example, a ban on enforcement measures. The same rules set forth for insolvency proceedings with respect to existing contracts and creditors' claims largely apply to a compulsory administrative winding-up.

Common rules for pre-judicial liquidation restructuring frameworks (strumenti di regolazione della crisi e dell'insolvenza della società)

In order to facilitate access and filing of restructuring procedures by the Italian companies, Articles 120-*bis* and ff. of the Italian Insolvency Code have been enacted, introducing a set of rules applicable to all pre-judicial liquidation restructuring tools (*strumenti di regolazione della crisi e dell'insolvenza*). Among other things, pursuant to Article 120-*bis*, paragraph 2 of the Italian Insolvency Code and the purposes of a successful restructuring, the plan may provide for "*any modification of the articles of association of the debtor company, including capital increases and reductions, including with limitation or exclusion of the option right and other modifications that directly affect the shareholders' participation rights, as well as for mergers, demergers and transformations*." Shareholders, who may no longer have an interest in the company, are prevented from hindering the restructuring or even one of its stages. For this reason, pursuant to Article 120-*bis*, paragraphs 3 and 4 of the Italian Insolvency Code, the shareholders, while retaining a right to information in relation to both the initiation and the progress of the restructuring process, may not remove the directors without just cause, as is the case for the statutory auditors of joint stock companies, also in light of the fact that under the provisions of the Italian Insolvency Code it is not considered as being just cause for directors' removal, the filing for access to the pre-judicial liquidation restructuring tools (*strumenti di regolazione della crisi e dell'insolvenza*) when the related legal conditions and requirements are met. However, pursuant to Article 120-*bis,* paragraph 5, shareholders representing at least 10% of the filing company's corporate capital may make a competing proposal.

The plan may provide for the formation of one class of shareholders or several classes if there are shareholders to whom different rights are granted by the by-laws, including as a result of the changes provided for in the plan. The formation of classes is, however, mandatory if the plan provides for changes that directly affect the shareholders' participation rights and, in any case, for large companies and companies with widespread capital. In this context, special conditions for approval of the arrangement are set out pursuant to Article 120-*quater* of the Italian Insolvency Code when and if the plan provides for shareholder attributions. Specific rules are then provided to ensure that creditors' interests are protected in all cases in which the restructuring tool envisages shareholders to retain a participation in the company with a certain value.

Article 120-*quinquies* of the Italian Insolvency Code, regulates the execution phase of such measure. In order to avoid any obstructive attitude of the shareholders towards the approval of the restructuring tool, this provision expressly excludes the necessity for their approval and/or resolution on the implementation of such restructuring tool, by generally attributing the relevant powers to the directors or more specifically to the competent court, in relation to any amendment to the debtor's by-laws which - being specifically provided for by the plan - do not require any discretionary resolution. Finally, it is stipulated that changes in the corporate structure resulting from the implementation of a pre-judicial liquidation restructuring tools (*strumenti di regolazione della crisi e dell'insolvenza*)

shall not be considered as and constitute cause for the termination or amendment of any agreement entered into by the debtor with third parties.

Articles 284 and ff. of the Italian Insolvency Code contain specific rules regarding (i) the access of a group to one of the pre-judicial liquidation restructuring tools (*strumenti di regolazione della crisi e dell'insolvenza*) aiming at unifying – to the extent possible – the relevant proceedings; (ii) liability lawsuits available to the receiver; and (iii) subordination of claims.

Hardening period/clawback and fraudulent transfer

In a judicial winding-up proceeding, the Italian Insolvency Code provides for a claw-back period of up to two years (six-months in certain circumstances). In addition, in certain cases, the judicial receiver can request that certain transactions of the debtor are declared ineffective within the Italian Civil Code ordinary claw-back period of five years (*revocatoria ordinaria*).

Under Italian law, in the event that a guarantor and/or security provider and/or the relevant entity enters into insolvency proceedings, certain transactions carried out by such entity and/or the security interests created under the documents entered into to create security over the Optics Notes Collateral and any future security interests or guarantees could be subject to potential challenges by an insolvency administrator or by other creditors of the relevant guarantor and/or security provider or entity under the rules of avoidance or claw-back of (*revocatoria*) provided for pursuant to the Italian Insolvency Code and the relevant law on the non-insolvency avoidance or claw-back of transactions by the debtor made during a certain legally specified suspect period. The avoidance may relate to (i) transactions made by the debtor within the suspect period of one year prior to the opening of the judicial liquidation proceeding or occurred after the filing for the opening of the judicial liquidation, at below market value (i.e. to the extent the asset or obligation given or undertaken exceeds by one quarter the value of the consideration received by the debtor), or involving unusual means of payment (*e.g.*, payment in kind) or new security granted with respect to pre-existing debts not yet due at the time the security is entered into after the creation of the secured obligations, unless the non-insolvent creditor proves that it had no knowledge of the debtor's insolvency at the time the transaction was entered into, (ii) security granted during the suspect period of one year prior to the opening of the judicial liquidation proceeding or occurred after the filing for the opening of the judicial liquidation with respect to pre-existing debts due and payable, unless the non-insolvent creditor proves that it had no knowledge of the debtor's insolvency at the time the transaction was entered into, and (iii) payments of due and payable obligations, transactions at arm's length or security taken simultaneously to the creation of the secured obligations during the suspect period of one year prior to the opening of the judicial liquidation proceeding or occurred after the filing for the opening of the judicial liquidation receiver proves that the creditor was aware of the insolvency of the debtor. In case judicial liquidation is commenced after the filing of a petition to be admitted to any insolvency proceedings, according to Article 170, paragraph 2 of the Italian Insolvency Code, the suspect period is calculated backward from the date on which such petition is filed. The transactions potentially subject to avoidance also include those contemplated by a guarantor's guarantee under the Optics Notes or the granting of security interests under the Security Documents by a guarantor and/or security provider. If they are challenged successfully, the rights granted under the guarantees or in connection with security interests under the relevant Security Documents may become unenforceable and any amounts received under such transactions must be refunded to the insolvent estate. To the extent that the grant of any security interest or guarantee is voided, holders of the Optics Notes could lose the benefit of the security interest or of the guarantee and may not be able to recover any amounts under the related Security Documents and/or the guarantees under the Optics Notes.

It should be noted that: (i) under Article 163 of the Italian Insolvency Code, subject to certain limited exceptions, all transactions carried out by the debtor for no consideration are ineffective *vis-à-vis* creditors if entered into by the debtor after the filing to the relevant court followed by the opening of the judicial winding-up procedure or within the two years preceding the opening of such insolvency proceeding. Any asset subject to a transaction which is ineffective pursuant to Article 163 of the Italian Insolvency Code becomes part of the liquidation estate by operation of law upon registration (*trascrizione*) of the court's decision opening the insolvency proceeding, without needing to wait for the ineffectiveness of the transaction to be sanctioned by a court. Any interested person may challenge the registration before the delegated judge as a violation of law, and (ii) under Article 164 of the Italian Insolvency Code, (A) payments of receivables falling due on the day of the judicial declaration of opening of the judicial liquidation or later, if they were executed by the debtor after the filing of the application followed by the opening of the judicial winding-up proceedings insolvency declaration or in the prior two-year period; and (B) payments made by the debtor with respect

to any intercompany loan within one year prior to a judicial winding-up declaration (or after the filing of the application followed by the opening of the winding-up proceeding), are ineffective *vis-à-vis* creditors.

In addition, as noted above, the Insolvency Regulation contains conflicts of law rules which replace the various national rules of private international law in relation to insolvency proceedings within the European Union.

Certain Limitations on Enforcement

The enforcement of security interests by creditors in Italy can be complex and time consuming, especially in a liquidation scenario, given that Italian courts maintain a significant role in the enforcement process in comparison to other jurisdictions with which the holders of the Optics Notes may be familiar. The two primary goals of the Italian law are first, to maintain employment, and second, to liquidate the debtor's assets for the satisfaction of creditors. These competing goals often have been balanced by the sale of businesses as going concern and by ensuring that employees are transferred along with the businesses being sold.

Under Italian law, in the event that an entity becomes subject to insolvency proceedings, guarantees and security interests given by it or by way of a trust or parallel debt obligation could be subject to potential challenges by the appointed bankruptcy or judicial liquidation receiver or by other creditors under the rules of ineffectiveness or avoidance or claw-back of (i) Italian Bankruptcy Law and/or (ii) Italian Insolvency Code and the relevant law on the non-insolvency avoidance or claw-back of transactions made by the debtor during a certain legally specified period (the "**suspect period**"). For a more detailed explanation of the terms, conditions and consequences of claw-back actions in an insolvency scenario, see "*—Bankruptcy (fallimento) and – Italian Insolvency Code*" above.

If challenged successfully, the guarantee or the security interest may become unenforceable and any amounts received must be refunded to the insolvent estate. To the extent that the grant of any security interest or guarantee is voided, holders of the Optics Notes could lose the benefit of the security interest or guarantee and may not be able to recover any amounts under the related security documents.

Furthermore, in the event that the limitations on the guarantee issued by a guarantor incorporated under the laws of Italy apply and/or there are payment obligations under any Optics Notes other than in respect of principal or interest, the noteholders could have a reduced claim against the relevant guarantor.

According to Italian law, the enforcement of any claims, obligations, security interest and rights in general may be subject to, *inter alia*, the following aspects:

(a) the enforcement of obligations may be limited by the insolvency proceedings listed above relating to or affecting the rights of creditors;

(b) an Italian court will not necessarily grant any specific enforcement or precautionary measures, the availability of which is subject to the discretion of the Italian court;

(c) with respect to contracts providing for mutual obligations (*contratti a prestazioni corrispettive*), each party can refuse to perform its obligation if the other party does not perform or does not offer to perform its own obligation thereunder, in accordance with and subject to the provisions of Article 1460 of the Italian Civil Code;

(d) claims arising under Italian law governed documents may become barred under the provision of Italian law concerning prescriptions and limitations by the lapse of time (*prescrizioni and decadenze*) or may be or become subject to a claim of set-off (*compensazione*) or to counterclaim;

(e) pursuant to Article 1241 of the Italian Civil Code concerning set-off of reciprocal obligations (*compensazione*), persons who have reciprocal debt obligations may set-off such obligations for the correspondent amount when both such debt obligations have as an object a pecuniary obligation or fungible assets and are equally liquid and payable;

(f) where any party to any agreement or instrument is vested with discretion or may determine a matter in its opinion, Italian law may require that such discretion is exercised reasonably or that such opinion is based on reasonable grounds;

(g) the enforceability in Italy of obligations or contractual provisions governed by a foreign law may be limited by the application of Italian overriding mandatory provisions (*norme di applicazione necessaria*) and by the fact that the relevant provisions of laws may be deemed contrary to Italian public policy principles and there is no case law setting out specific criteria for the application of such legal concepts under Italian law;

(h) there is some possibility that an Italian court could hold that a judgment on a particular agreement or instrument, whether given in an Italian court or elsewhere, would supersede such agreement or instrument to all intents and purposes, so that any obligation thereunder which by its terms would survive such judgment might not be held to do so;

(i) enforcement of obligations may be invalidated by reason of fraud or abuse of the law (*abuso del diritto*);

(j) the enforceability of an obligation pursuant to the terms set forth in any agreement or instrument may be subject to the interpretation of an Italian court which may carry out such interpretation pursuant to the provisions of Articles 1362 and following of the Italian Civil Code;

(k) in general, under Italian law contracts can be declared null and void (*nullo* (Article 1418 of the Italian Civil Code) or *annullabile* (Article 1425 of the Italian Civil Code));

(l) any question as to whether or not any provision of any agreement or instrument which is illegal, invalid, not binding, unenforceable or void may be severed from the other provisions thereof in order to save those other provisions would be determined by an Italian court on the basis of the interpretation of intention of the parties, taking also into account the conduct of the parties following the execution of such agreement or instrument (Article 1419 of the Italian Civil Code). Furthermore, contracts may be terminated for breach (Article 1453 of the Italian Civil Code), supervening impediment (Article 1463 of the Italian Civil Code) or excessive onerousness (Article 1467 of the Italian Civil Code);

(m) an Italian company, either directly or indirectly, cannot grant loans or provide security interest for the purchase or subscription of its own shares unless the strict requirements provided for the Italian Civil Code are satisfied;

(n) an Italian company must have a specific corporate interest in guaranteeing or securing financial obligations of its parent company or any other companies, whether related or unrelated, such interest being determined by the relevant company on a case-by-case basis;

(o) in case of bankruptcy (filed or pending before July 15, 2022) or a judicial liquidation, a receiver is appointed by the court to administer the proceeding under the supervision of the court and creditors' committee and creditors cannot start or continue individual foreclosure actions (including the enforcement of security interests) against the debtor (automatic stay). Furthermore, the sale of the relevant pledged assets is carried out by such receiver unless the pledgee is expressly authorized by the court or, in case of judicial liquidation, to have the pledged assets assigned at a fair market value returning any excess to the judicial liquidation estate;

(p) the preemption rights (*prelazione*) granted by a pledge extend to interest accrued in the year in which the date of the relevant seizure/attachment or adjudication in bankruptcy falls (or, in the absence of seizure/attachment, at the date of the notification of the payment demand (*precetto*)) and extend, moreover, to interest accrued and to accrue thereafter, but only to the extent of legal interest and until the date of the forced sale occurred in the context of the relevant foreclosure proceeding or bankruptcy/judicial liquidation proceedings;

(q) in order to oppose an assignment to any third party, it will be necessary to notify such assignment to the relevant debtor or make such debtor to accept it by an instrument bearing an undisputable date ("*data certa*"); the priority of such assignment will be determined accordingly. One way of ensuring that a document has an indisputable date is that of ensuring that the execution of the relevant document by one of the parties to it is witnessed by a notary who states the date of witnessing on the document;

(r) there could be circumstances in which Italian law would not give effect to provisions concerning advance waivers or forfeitures;

(s) the effectiveness of terms exculpating a party from liability or duties otherwise owed is prevented by Italian law in the event of gross negligence (*colpa grave*), willful misconduct (*dolo*) or the violation of mandatory provisions;

(t) penalties and liquidated damages (*penali*) may be equitably reduced by a court;

(u) Italian courts do not necessarily give full effect to an indemnity for the costs of enforcement or litigation;

(v) a security interest does not prevent creditors of the relevant debtor other than the secured creditors from continuing enforcement or enforcement proceedings on the assets secured by the relevant pledge;

(w) in case of bankruptcy (to the extent applicable after July 15, 2022) or judicial liquidation of the grantor of the pledge over quotas or shares, the assets secured by the pledge could be freely sold to any third party in the context of the relevant bankruptcy proceeding or in case of a judicial liquidation the pledged assets can also be assigned to secured creditors at a fair market value and, as a consequence, the proceeds would be set aside for the prior satisfaction of the pledgee but the pledge would be terminated and, therefore, the latter would lose entitlement to the voting rights on the pledged quotas/shares;

(x) if a party to an agreement is aware of the invalidity of that agreement and does not inform the other parties to that agreement of such invalidity, it is liable for the damages suffered by such other parties as a consequence of having relied upon the validity of the agreement; and

(y) any obligation of an Italian company and/or any obligation secured or guaranteed by an Italian company, which is in violation of certain Italian mandatory or public policy rules (including, *inter alia*, any obligation to pay: (i) any portion of applicable remuneration (including interest, default interest, fees, charges, expenses and other costs and any other form of compensation related to the Notes) exceeding the thresholds permitted under the Italian law No. 108 of March 7, 1996 (i.e. the "**Italian usury law**"), as amended from time to time and related implementing rules and regulations; and (ii) any portion of interest deriving from any compounding of interest which does not comply with Italian law, including Article 1283 of the Italian Civil Code, according to which, accrued and unpaid interest can be capitalized only after legal proceedings to recover the debt were started or in the event the interest were unpaid and capitalized for not less than six months based on an agreement executed after the relevant maturity date and Article 120 of the Italian Legislative Decree No. 385/1993 (i.e. the Italian Banking Act)) may not be enforceable.

In addition, under Italian law, in certain circumstances also in the ordinary course of business, an action can be brought by any creditor of a given debtor within five years from the date on which the latter enters into a guarantee, security, agreement and any other act by which it disposes of any of its assets, in order to seek a claw-back action (*azione revocatoria ordinaria*) pursuant to Article 2901 and following of the Italian Civil Code (which results in a declaration of ineffectiveness as to the acting creditor) of the said guarantee, security, agreement and other act that is purported to be prejudicial to the acting creditor's right of credit. An Italian court could revoke the said guarantee, security, agreement and other act only if it, in addition to the ascertainment of the prejudice, was to make the two following findings:

(a) that the debtor was aware of the prejudice which the act would cause to the rights of the acting creditor, or, if such act was done prior to the existence of the claim or credit, that the act was fraudulently designed for the purpose of prejudicing the satisfaction of the claim or credit; and

(b) that, in the case of non-gratuitous acts, the third party involved was aware of said prejudice and, if the act was done prior to the existence of the claim or credit, that the said third party participated in the fraudulent design.

Furthermore, under fraudulent conveyance and other provisions of Italian law, a court could void or invalidate all or a portion of the obligations of a guarantor under the relevant guarantee and, if payment had already been made under that guarantee, require the recipients of that payment to return the payment to the relevant guarantor, if the court found that, inter alia:

(i) the relevant guarantor gave such guarantee with actual intent to hinder, delay or defraud its current or future creditors or with the intent of giving undue preference to certain creditors over others, or when the beneficiary of the guarantee was aware that the relevant guarantor was insolvent when it gave the relevant guarantee;

(ii) the relevant guarantor did not receive fair consideration or reasonably equivalent value for its guarantee or the relevant guarantor was insolvent at the time the guarantee was given;

(iii) the relevant guarantee was held to exceed the corporate objects of the relevant guarantor or not to be in the best interest or for the corporate benefit of the relevant guarantor; or

(iv) the guarantor giving such guarantee was aware, or should have been aware, that the transaction was to the detriment of the creditors.

If a court decided either that a guarantee was a fraudulent conveyance and voided such guarantee, or held it unenforceable for any other reason, the beneficiary of the guarantee may cease to have any claim with respect to the relevant guarantor. The same would also apply to any security interest.

Limitations on Validity and Enforceability of guarantees and Security Interests under Italian Law

Under Italian law, the entry into of a transaction (including the creation of a security interest or the granting of a guarantee) by a company incorporated in Italy must be permitted by the applicable laws and by its by-laws (*statuto sociale*) and is subject to compliance with the rules on corporate benefit, corporate authorization and certain other Italian mandatory provisions. If a security interest or a guarantee is being provided in the context of an acquisition (or its refinancing), group reorganization or restructuring, financial assistance issues may also be triggered.

Corporate Benefit

An Italian company entering into a transaction (including granting a guarantee or a security interest) must receive a real and adequate benefit in exchange for the guarantee or the security interest being provided by such company. The concept of real and adequate benefit is not defined in the applicable legislation, is assessed and determined by a factual analysis on a case by case basis and its existence is a business decision of the directors and the statutory auditors, if any. As a general rule, corporate benefit is to be assessed at the level of the relevant company on a stand-alone basis, although upon certain circumstances and subject to specific rules the interest of the group to which such company belongs may also be taken into consideration. While corporate benefit for downstream guarantee or security (i.e. a guarantee guaranteeing or a security interest granted to secure financial obligations of direct or indirect subsidiaries of the relevant grantor) is usually self-evident, the validity and effectiveness of up-stream or cross stream security or guarantee (i.e. security or guarantee granted to secure financial obligations of the direct or indirect parent or sister companies of the relevant grantor) granted by an entity organized under the laws of Italy depend on the existence of a real and adequate benefit in exchange for the granted security interest or guarantee and may be challenged unless it can be proved that the grantor may derive adequate benefits or advantages from the granting of such guarantee or security. In particular, in case of an up-stream and cross-stream guarantee or security for the financial obligations of group companies, examples may include financial consideration in the form of access to cash flows through intercompany loans from other members of the group, while transactions featuring debt financings of distributions to shareholders are largely untested in Italian courts, and, therefore, limited guidance is provided as to whether and to what extent such transactions could be challenged for lack of corporate benefit and conflict of interest. Generally, the risk assumed by an Italian grantor of security or guarantor under a guarantee must not be disproportionate to the direct or indirect economic benefit to it.

As a general rule, absence of a real and adequate benefit could render the transaction (including granting a security interest or a guarantee entered into) by an Italian company ultra vires and potentially affected by a conflict of interest, and the related corporate resolutions adopted by the shareholders and directors may be the subject matter of challenges and annulment. Civil liabilities may be imposed on the directors of an Italian grantor if a court holds that it did not act in the best interest of the grantor and that the acts carried out do not fall within the corporate purpose of the company or were against mandatory provisions of Italian law. The lack of corporate benefit could also result in the imposition of civil liabilities on those companies or persons ultimately exercising control over an Italian grantor or having knowingly received an advantage or profit from such improper control. Moreover, the transaction (including the

security interest or guarantee granted by an Italian company) could be declared null and void if the lack of corporate benefit was known or presumed to be known by the third party and such third party acted intentionally against the interest of the Italian company.

The above principles on corporate benefit apply equally to up-stream, cross-stream and down-stream guarantees or security interests granted by Italian companies.

Upon certain conditions, the granting of guarantees may be considered as a restricted financial activity within the meaning of Article 106 of Italian Legislative Decree No. 385 of September 1, 1993 (the "**Italian Banking Act**"), whose exercise is exclusively demanded to banks and authorized financial intermediaries. Non-compliance with the provisions of the Italian Banking Act may, among others, entail the relevant guarantees being considered null and void. In this respect, Italian Ministerial Decree No. 53 of April 2, 2015, implementing Article 106, paragraph 3, of the Italian Banking Act, states that the issuance of guarantees or the granting of security by a company for the obligations of another company which is part of the same group does not qualify as a restricted financial activity, whereby "group" includes controlling and controlled companies within the meaning of Article 2359 of the Italian Civil Code as well as companies which are under the control of the same entity. As a result of the above described rules, subject to the relevant guarantors and the guaranteed entity being part of the same group of companies, the provision of the guarantees would not amount to a restricted financial activity.

Financial Assistance

In addition, the granting of a security or a guarantee by an Italian company cannot include any liability which would result in unlawful financial assistance within the meaning of Article 2358 or 2474, as the case may be, of the Italian Civil Code pursuant to which, subject to specific exceptions, it is unlawful for a company to give financial assistance (whether by means of loans, security, guarantees or otherwise) to support the acquisition or subscription by a third party of its own shares or quotas or those of any entity that (directly or indirectly) controls the Italian company. Financial assistance for refinancing indebtedness originally incurred for the purchase or subscription of its own shares or quotas or those of its direct or indirect parent company would also be a violation of financial assistance provisions. Any loan, guarantee or security given or granted in breach of these provisions is null and void. In addition, directors may be personally liable for failure to act in the best interests of the company.

Article 1938 of the Italian Civil Code

In addition, pursuant to Article 1938 of the Italian Civil Code, if a guarantee granted by an Italian guarantor is issued to guarantee conditional or future obligations, the guarantee must be limited to a maximum amount. Such maximum amount should be expressly identified at the outset and expressed in figures (either in the guarantee deed or by reference to a separate document, such as the Indenture). In addition, as mentioned above, the guarantees granted by an Italian guarantor must be supported by corporate benefit; in other words, the maximum guaranteed amount must be indicated in the guarantee and shall not exceed the financial capabilities of the Italian guarantor. It has been held, that such determination must be proportionate to the relevant guarantor's assets. If such determination is deemed disproportional to the assets of the relevant Italian guarantor, there is the risk that the guarantee could be declared void, even if it is uncertain, however, whether courts are entitled to debate and to rule over such determinations.

In any event, pursuant to Article 1938 of the Italian Civil Code, the maximum amount that an Italian guarantor may be required to pay in respect of its obligations as a guarantor under its guarantee under Optics Notes will not exceed 150% of the aggregate amount of the Optics Notes.

It is understood that the maximum amount that a guarantor may be required to pay in respect of its obligations as guarantor under the USD Optics Notes Indenture / EUR Optics Notes Trust Deed will ratably concur and not cumulate with the corresponding amounts due by such guarantor to any guaranteed creditor pursuant to the Optics Financing Arrangements and/or the Intercreditor Agreement, and vice versa. The proceeds of the enforcement of said guarantees will be distributed amongst the guaranteed creditors (including, without, limitation, the holders of the Optics Notes) in accordance with the provisions of the Intercreditor Agreement.

In order to comply with corporate law requirements on, *inter alia*, corporate benefit and financial assistance, the maximum amount that a guarantor may be required to pay in respect of its obligations as guarantor under the Indenture, the Optics Financing Arrangements and the Intercreditor Agreement will be subject to limitations.

Accordingly, the holders of the Optics Notes will be able to recover limited amounts under the relevant guarantee and security. In particular, the amount recoverable from an Italian guarantor under a guarantee will not exceed the aggregate amount of any intercompany loan advanced to it by any obligor and outstanding at the time of the enforcement of such guarantee. No Italian guarantor shall moreover be liable for any amount in excess of the amount that such Italian guarantor is entitled to set-off against its claims of recourse or subrogation (*regresso or surrogazione*) arising as a result of the enforcement of the relevant guarantee.

The proceeds of the enforcement of said guarantees will be distributed amongst the guaranteed creditors (including, without, limitation, the holders of the Notes) in accordance with the provisions of the Intercreditor Agreement.

Trust

The Optics Notes Collateral will be created and perfected in favor of the Optics Notes Security Agent acting in its capacity as representative (*rappresentante*) of the holders of the Optics Notes pursuant to Article 2414-bis, paragraph 3, of the Italian Civil Code. Under such provision (introduced by Italian Law No. 164 of November 11, 2014), the security interests and guarantees assisting bond issuances can be validly created in favor of the holders of the notes or in favor of a representative (*rappresentante*) of the holders of the Optics Notes who will then be entitled to exercise in the name and on behalf of the holders all their rights (including any rights before any court and judicial proceedings) relating to the security interests and guarantees. However, there is no guidance or available case law on the exercise of the rights and enforcement of such security interest and guarantees by a *rappresentante* pursuant to Article 2414-*bis*, paragraph 3, of the Italian Civil Code also in the name and on behalf the holders of the Optics Notes, as applicable which are neither directly parties to the Optics Notes Collateral nor are specifically identified therein or in the relevant share certificates and corporate documents or public registries.

In addition, as the holders of the Optics Notes, as applicable are not direct parties to the Indenture, there is the risk that the appointment of the Optics Notes Security Agent in its capacity as representative (*rappresentante*) of the holders of the Optics Notes pursuant to Article 2414-bis, paragraph 3, of the Italian Civil Code is not upheld by an Italian court and that therefore an Italian court may determine that the holders of the Optics Notes at the time of enforcement are not secured by the security under the Security Documents and/or that the *rappresentante* cannot exercise the rights and enforce the Optics Notes Collateral also in the name and on behalf of the holders of the Optics Notes, as applicable. In addition, the provisions and the subject matter of paragraph 3 of Article 2414-bis, paragraph 3, of the Italian Civil Code are untested by Italian Courts and, therefore, even if the appointment of the *rappresentante* is upheld by an Italian Court, it cannot be excluded that an Italian Court may take a different view and interpretation and determine that, where the Optics Notes Collateral is only granted in favor of the *rappresentante*, the holders of the Optics Notes, as applicable at the time of enforcement are not secured by the Optics Notes Collateral and/or cannot enforce that Optics Notes Collateral.

Furthermore, to date, the Italian courts have not considered whether a common representative (*rappresentante comune*) of the holders of the Optics Notes, as applicable pursuant to Articles 2417 and 2418 of the Italian Civil Code may be validly appointed by means of a contractual arrangement (such as the Indenture) and the validity and enforceability of such appointment may not be upheld by a court.

Moreover, it is uncertain and untested in the Italian courts whether, under Italian law, a security interest can be created and perfected (i) in favor of creditors (such as the holders of the Optics Notes) which are neither directly parties to the relevant security documents or are not specifically identified therein or in the relevant share certificates and corporate documents or public registries and (ii) in favor of a "trustee," since there is no established concept of "trust" or "trustee" under Italian law and the precise nature, effect and enforceability of the duties, rights and powers of a "trustee" as trustee under security interests granted over Italian assets is uncertain under Italian law.

Certain further considerations in relation to Italian undercapitalization rules

Italian corporate law (Articles 2497-*quinquies* and 2467 of the Italian Civil Code) provides for rules to protect creditors against "undercapitalized companies" and provides for remedies in respect thereof. In this respect, in case of a loan to a company made by (i) a person that, directly or indirectly, directs the company or exercises management and coordination powers over that borrowing company or (ii) any entity subject to the management and coordination powers of the same person or (iii) a quotaholder in the case of a company incorporated in Italy as a *società a responsabilità limitata*, will be subordinated to all other creditors of that borrower and rank senior only to the equity in that borrower, if the loan is made when, taking into account the kind of business of the borrower, there was an excessive imbalance of the borrower's indebtedness compared to its net assets or the borrower was already in a financial situation requiring an injection of equity and not a loan ("**undercapitalization**"). Pursuant to Article 164 of the Italian Insolvency Code, any payment made by the borrower with respect to any such loan within one year prior to a judicial winding-up declaration are ineffective by operation of law. The new provision replaced Article 2467, paragraph 1, of the Italian Civil Code, according to which such payments would be required to be returned to the borrower. For a more detailed explanation of the terms, conditions and consequences of claw back actions in an insolvency scenario, see "*Certain insolvency considerations and limitations on the validity and enforceability of the Guarantees and the Optics Notes Collateral—Italian Insolvency Code" and "Hardening Period/Clawback and Fraudulent Transfer*" below.

In addition to that, Article 292, paragraph 1, of the Italian Insolvency Code sets forth that claims of entities exercising management and coordination powers *vis-à-vis* the entities subject to such powers and claims of the entities subject to such powers *vis-à-vis* the entities exercising them deriving from loans granted after the filing of petitions resulting in the opening of judicial winding up of in the year before, are subordinated.

The above rules apply to shareholders' loans "made in any form" and scholars generally conclude that such provisions should be interpreted broadly and apply to any form of financial support provided to a company by its shareholders, either directly or indirectly.

As of the date hereof, there are several court precedents interpreting the provisions summarized above. Some of such precedents have held that Article 2467 of the Italian Civil Code also applies to companies incorporated as *società per azioni*, hence potentially to the borrowers under the intercompany loans that are a *società per azioni*.

Therefore, upon the occurrence of the requirements provided for by the relevant provisions, Italian courts may apply such provisions of the Italian Civil Code to the issuer's relationship with Italian subsidiaries under the relevant intercompany loans. Accordingly, an Italian court may conclude that the obligations of any Italian subsidiary under any intercompany loan are subordinated to all its obligations towards other creditors. Should any of the obligations of any subsidiary under any intercompany loan or note be deemed subordinated to the obligations owed to other creditors by operation of law and senior only to the equity, the Issuer may not be able to recover any amounts under any intercompany loan or note granted to the Italian subsidiaries, which could have a material adverse effect on the issuer's ability to meet its payment obligations under the Notes, as applicable.

Moreover, in circumstances where any obligations of an Italian subsidiary under any intercompany loans or notes is subordinated by operation of law, the ability of the holders of the Optics Notes, as applicable to recover under any Optics Notes Collateral created over such intercompany loans or notes or any guarantees and/or security interest granted by such Italian subsidiaries may be impaired or restricted.

Certain Luxembourg Insolvency Law Considerations

The Issuer of the EUR TIF New Notes is a Luxembourg company. Therefore, the following Section addresses certain Luxembourg insolvency considerations which are relevant for the New Notes. As such, references to the "Issuer" should be read as references to TIF and references to "Notes" should be read as references to the "EUR TIF New Notes."

Pursuant to Luxembourg insolvency laws, your ability to receive payment from the Issuer under the Notes may be more limited than would be the case in a liquidation or bankruptcy proceeding in other jurisdictions. The Luxembourg law of August 7, 2023 on business preservation and modernization of insolvency law and transposing Directive

2019/1023 on restructuring and insolvency proceedings, modernized the Luxembourg legal framework for insolvency and restructuring procedures. Under Luxembourg law, insolvency proceedings may be initiated against a company incorporated in Luxembourg having its COMI (as that term is used in Article 3(1) of the Recast EU Insolvency Regulation) or an establishment in Luxembourg (in the latter case assuming that the center of main interests is located in a jurisdiction where the Recast EU Insolvency Regulation is applicable) as bankruptcy proceedings (*faillite*), the opening of which may be requested by the company, by any of its creditors by the courts *ex officio* or by the public prosecutor. Following such a request, the Luxembourg courts having jurisdiction may open bankruptcy proceedings if a Luxembourg company (i) is in a state of cessation of payments (*cessation des paiements*) and (ii) has lost its commercial creditworthiness (*ébranlement de crédit*). The main effect of such proceedings are the sale of the assets and allocation of the proceeds of such sale between creditors taking into account their rank of privilege, as well as the suspension of all measures of enforcement against the company, subject to certain limited exceptions under the applicable provision of the Luxembourg law of August 5, 2005 on financial collateral arrangements, as amended (the "**Financial Collateral Law 2005**"), for enforcement by secured creditors and the payment of the secured creditors in accordance with their rank upon realization of the assets. In addition, the managers or directors of a Luxembourg company that ceases its payments (i.e. is unable to pay its debts as they fall due with normal means of payment) must within a month of them having become aware of the company's cessation of payments, file a petition for bankruptcy (*faillite*) with the court clerk of the district court of the company's registered office. If the managers or directors fail to comply with such provision they may be held liable towards the company or any third-parties on the basis of principles of managers' and directors' liability for any loss suffered.

In addition to this proceeding, your ability to receive payment under the Notes issued by the Issuer may be affected by a decision of a Luxembourg court to grant a stay on payments (*sursis de paiement*) or to put a Luxembourg company into judicial liquidation (*liquidation judiciaire*) or judicial reorganization (*réorganisation judiciaire*). Judicial liquidation proceedings may be opened at the request of the public prosecutor against companies pursuing an activity violating criminal laws or that are in serious breach or violation of the Luxembourg commercial code or of the Luxembourg Companies Law. The management of such liquidation proceedings will generally follow similar rules as those applicable to Luxembourg bankruptcy proceedings.

Judicial reorganization, which includes in-court amicable arrangement (*réorganisation judiciaire par accord amiable*), in-court collective arrangement (*réorganisation judiciaire par accord collectif*), court-ordered transfer (*réorganisation judiciaire par transfert par décision de justice*), may be pursued for three different objectives (which may vary for different segments of the business and may change during the course of the procedure), specifically (i) obtaining a standstill during a period of minimum four months to enable an out-of-court arrangement to be reached with creditors. During the standstill, no enforcement of the debtor's claims may be pursued or exercised against its assets, no seizure may be carried out and the debtor may suspend the performance of his contractual obligations if the restructuring so requires (except for employment contracts and contracts for successive performance), (ii) obtaining the agreement of creditors on a restructuring plan for a maximum period of five years, which may include a maximum 24 month stay on payment. The plan will have to be approved by a court or (iii) enabling any part of the assets or business of the distressed debtor to be transferred by a court-appointed agent who will organize and complete the transfer of the assets or business.

Out-of-court arrangement (*accord amiable*) may be proposed by a debtor to its creditors (at least two of them) with the purpose of reorganizing all or part of its assets or activities. This arrangement executed outside of legal proceedings needs to be approved by a court.

Liability of the Issuer in respect of the relevant Notes will, in the event of a liquidation of the company following bankruptcy, judicial liquidation or judicial reorganization proceedings, only rank after the cost of liquidation (including any debt incurred for the purpose of such liquidation) and any claims that are preferred under Luxembourg law. Preferential claims under Luxembourg law include, among others:

- remuneration owed to employees (last six months' wages amounting to a maximum of six times the minimum social salary);
- employees' contributions to social security;
- certain amounts owed to the Luxembourg Inland Revenue;

- employer’s contribution to social security;
- landlord, pledgor not under the Financial Collateral Law 2005; and
- value-added tax and other taxes and duties owed to Luxembourg Customs and Excise.

Assets over which a security interest has been granted will in principle not be available for distribution to unsecured and unpreferred creditors (except after enforcement and to the extent a surplus is realized).

Impact of Luxembourg insolvency proceedings on transactions

During such insolvency proceedings, all enforcement measures by unsecured creditors are suspended.

Furthermore, you should note that declarations of default and subsequent acceleration (such as acceleration upon the occurrence of an event of default) may not be enforceable during controlled management proceedings. However, during such controlled management proceedings, a notice of default may still be served.

Luxembourg insolvency laws may also affect transactions entered into or payments made by the Issuer during the preference period (*période suspecte*) which is a maximum of six months preceding the judgment declaring bankruptcy, except that in certain specific situations the court may set the start of the suspect period at an earlier date. In particular:

- pursuant to Article 445 of the Luxembourg code of commerce (*Code de commerce*), specified transactions (such as, in particular, the granting of a security interest for antecedent debts save in respect of financial collateral arrangements within the meaning of the Financial Collateral Law 2005; payment of debts which have not fallen due, whether payment is made in cash or by way of assignment, sale, set-off or by any other means; the payment of debts which have fallen due by any means other than in cash or by bill of exchange; and the sale of assets without consideration or with substantially inadequate consideration) entered into during the preference period (or the ten days preceding it) must be set aside or declared null and void, if so requested by the insolvency receiver;

- pursuant to Article 446 of the Luxembourg code of commerce, payments made for matured debts as well as other transactions concluded for consideration during the preference period are subject to cancellation by the court upon proceedings instituted by the insolvency receiver if they were concluded with the knowledge of the bankrupt party’s cessation of payments; and

- pursuant to Article 448 of the Luxembourg code of commerce and Article 1167 of the Luxembourg civil code (*action paulienne*), the insolvency receiver (acting on behalf of the creditors) has the right to challenge any fraudulent payments and transactions, including the granting of security with an intent to defraud, made prior to the bankruptcy, without any time limit.

In principle, a bankruptcy order rendered by a Luxembourg court does not result in the automatic termination of contracts except for employment agreements and powers of attorney. The contracts, therefore, subsist after the bankruptcy order. However, the bankruptcy receiver may choose to terminate certain contracts so as to avoid worsening the financial situation of the company. As of the date of adjudication of bankruptcy, no interest on any unsecured claim will accrue *vis-à-vis* the bankruptcy estate. Insolvency proceedings may hence have a material adverse effect on the Issuer’s business and assets of the Issuer’s obligations under the Notes.

Finally, international aspects of Luxembourg bankruptcy may be subject to the Recast EU Insolvency Regulation. In particular, rights in rem over assets located in another jurisdiction where the Recast EU Insolvency Regulation applies will not be affected by the opening of insolvency proceedings, without prejudice however to the applicability of rules relating to the voidness, voidability or unenforceability of legal acts detrimental to all the creditors (subject to the application of Article 24 of the Financial Collateral Law 2005 and Article 16 of the Recast EU Insolvency Regulation).

SUMMARY OF PROVISIONS RELATING TO THE EUR TIF NEW NOTES WHILE REPRESENTED BY THE GLOBAL NOTES

In this Section references to "Notes" shall refer to the "EUR TIF New Notes"

The Notes will initially be in the form of a Temporary Global Note which will be deposited on or around the issue date with a common safekeeper for Euroclear and Clearstream, Luxembourg.

The Notes will be issued in new global Note ("**NGN**") form. On June 13, 2006, the European Central Bank (the "ECB") announced that Notes in NGN form are in compliance with the "Standards for the use of EU securities settlement systems in ECB credit operations" of the central banking system for the Euro (the "Eurosystem"), provided that certain other criteria are fulfilled. At the same time the ECB also announced that arrangements for Notes in NGN form will be offered by Euroclear and Clearstream, Luxembourg as of June 30, 2006 and that debt securities in global bearer form issued through Euroclear and Clearstream, Luxembourg after December 31, 2006 will only be eligible as collateral for Eurosystem operations if the NGN form is used.

The Notes are intended to be held in a manner which would allow Eurosystem eligibility – that is, in a manner which would allow the Notes to be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life. Such recognition will depend upon satisfaction of the Eurosystem eligibility criteria. As at the date of this Exchange Offer Memorandum, one of the Eurosystem eligibility criteria for debt securities is an investment grade rating and accordingly as no credit rating is currently assigned to the Notes (or to the Issuer), the Notes are not currently expected to satisfy the requirements for Eurosystem eligibility.

The Notes will be represented by the Global Notes except in certain limited circumstances described in the Permanent Global Note. The Global Notes will be deposited with a common depositary for Euroclear and Clearstream, Luxembourg. Except in certain limited circumstances described in the Permanent Global Note, investors will not be entitled to receive definitive Notes. Euroclear and Clearstream, Luxembourg will maintain records of the beneficial interests in the Global Notes. While the Notes are represented by the Global Notes, investors will be able to trade their beneficial interests only through Euroclear and Clearstream, Luxembourg.

The Issuer will discharge its payment obligations under the Notes by making payments to or to the order of the common depositary for Euroclear and Clearstream, Luxembourg for distribution to their account holders. A holder of a beneficial interest in a Global Note must rely on the procedures of Euroclear and Clearstream, Luxembourg to receive payments under the Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Notes.

Holders of beneficial interests in the Global Notes will not have a direct right to vote in respect of the Notes. Instead, such holders will be permitted to act only to the extent that they are enabled by Euroclear and Clearstream, Luxembourg to appoint appropriate proxies.

The Temporary Global Note will be exchangeable in whole or in part for interests in the Permanent Global Note not earlier than 40 days after the EUR Settlement Date upon certification as to non-U.S. beneficial ownership. No payments will be made under the Temporary Global Note unless exchange for interests in the Permanent Global Note is improperly withheld or refused. In addition, interest payments in respect of the Notes cannot be collected without such certification of non-U.S. beneficial ownership.

The Permanent Global Note will become exchangeable in whole, but not in part, for Notes in definitive form ("**Definitive Notes**") in the denomination of €100,000 and integral multiples of €1,000 in excess thereof up to and including €199,000, at the request of the bearer of the Permanent Global Note against presentation and surrender of the Permanent Global Note to the New Notes Paying Agent if Euroclear or Clearstream, Luxembourg or any alternative clearing system through which the Notes are held is closed for business for a continuous period of 14 days (other than by reason of holidays, statutory or otherwise) or announces an intention permanently to cease business.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons attached, in an

aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note to or to the order of the New Notes Paying Agent within 30 days of the occurrence of the relevant Exchange Event.

In addition, the Temporary Global Note and the Permanent Global Note will contain provisions which modify the Terms and Conditions of the Notes as they apply to the Temporary Global Note and the Permanent Global Note. The following is a summary of certain of those provisions:

Payments: All payments in respect of the Temporary Global Note and the Permanent Global Note will be made against presentation and (in the case of payment of principal in full with all interest accrued thereon) surrender of the Temporary Global Note or (as the case may be) the Permanent Global Note to or to the order of any New Notes Agent and will be effective to satisfy and discharge the corresponding liabilities of the Issuer in respect of the Notes. On each occasion on which a payment of principal or interest is made in respect of the Temporary Global Note or (as the case may be) the Permanent Global Note, the Issuer shall procure that the payment is entered pro rata in the records of Euroclear and Clearstream, Luxembourg.

Payments on business days: In the case of all payments made in respect of the Temporary Global Note and the Permanent Global Note Condition 7(g) (Payments on business days) shall not apply, and all such payments shall be made on a day on which the T2 System is open.

Redemption of the option of the Issuer: In order to exercise the option contained in Condition 6(b) (*Redemption for tax reasons*) the Issuer shall give notice to the Noteholders, the relevant clearing system and to the New Notes Trustee (or procure that such notice is given on its behalf) within the time limits set out in and containing the information required by that condition. Following the exercise of any option, the Issuer shall procure that the nominal amount of the Notes recorded in the records of the relevant clearing system and represented by the Global Note shall be reduced accordingly.

Notices: Notwithstanding Condition 16 (Notices), while all the Notes are represented by the Permanent Global Note (or, as the case may be, by the Permanent Global Note and/or the Temporary Global Note) and the Permanent Global Note is (or, as the case may be, the Permanent Global Note and/or the Temporary Global Note are) held on behalf of Euroclear or Clearstream, Luxembourg or an alternative clearing system, notices to Noteholders may be given by delivery of the relevant notice to Euroclear and Clearstream, Luxembourg or such alternative and, in any case, such notices shall be deemed to have been given to the Noteholders in accordance with Condition 16 (Notices) on the date of delivery to Euroclear and Clearstream, Luxembourg except that, for so long as such Notes are admitted to trading on the Luxembourg Stock Exchange and it is a requirement of applicable law or regulations, such notices shall be published on the website of the Luxembourg Stock Exchange (www.luxse.com/).

SUMMARY OF PROVISIONS RELATING TO THE EUR OPTICS (TIF) NOTES WHILE REPRESENTED BY THE GLOBAL NOTES

References to the "Notes", "Trust Deed" and "Trustee" in the section below should be construed as references to the "EUR Optics (TIF) Notes", the "EUR Optics Notes Trust Deed" and the "Optics Notes Trustee", respectively. References to the "Paying Agent" shall mean the "Optics Notes Paying Agent", and to the "Registrar" and "Transfer Agent" shall mean the "Optics Notes Transfer Agent and Registrar".

The following is a summary of the provisions to be contained in the Trust Deed to constitute the Notes and in the Global Notes which will apply to, and in some cases modify, the Conditions of the Notes while the Notes are represented by the Global Notes.

1. Accountholders and Payments

The Global Certificate will be registered in the name of a nominee (the "**Registered Holder**") for a common depositary for Euroclear and Clearstream, Luxembourg (the "**Common Depositary**") and may be delivered on or prior to the original issue date of the Notes.

Upon the registration of the Global Certificate in the name of any nominee of a Common Depositary for Euroclear and Clearstream, Luxembourg and delivery of the Global Certificate to the Common Depositary, Euroclear or Clearstream, Luxembourg will credit each holder with a nominal amount of Notes equal to the nominal amount to which it is entitled.

Each of the persons shown in the records of Euroclear or Clearstream, Luxembourg as the holder of a Note represented by a Global Certificate must look solely to Euroclear or Clearstream, Luxembourg (as the case may be) for its share of each payment made by Optics to the holder of the Global Certificate and in relation to all other rights arising under the Global Certificate, subject to and in accordance with the respective rules and procedures of Euroclear or Clearstream, Luxembourg (as the case may be). Such persons shall have no claim directly against Optics in respect of payments due on the Notes for so long as the Notes are represented by the Global Certificate and such obligations of Optics will be discharged by payment to the holder of the Global Certificate in respect of each amount so paid.

2. Exchange

The following will apply in respect of transfers of Notes held in Euroclear or Clearstream, Luxembourg. These provisions will not prevent the trading of interests in the Notes within a clearing system whilst they are held on behalf of such clearing system, but will limit the circumstances in which the Notes may be withdrawn from the relevant clearing system.

Transfers of the holding of Notes represented by the Global Certificate pursuant to the Conditions may only be made in part:

(i) if the relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of holidays, statutory or otherwise) or announces an intention permanently to cease business or does in fact do so; or

(ii) upon or following any failure to pay principal in respect of any Notes when it is due and payable; or

(iii) with the consent of Optics,

provided that, in the case of the first transfer of part of a holding pursuant to paragraph (i) or (ii) above, the Registered Holder has given the Paying Agent or the Registrar not less than 30 days' notice at its specified office of the Registered Holder's intention to effect such transfer.

3. Notices

For so long as all of the Notes are represented by the Global Certificate and such Global Certificate is held on behalf of Euroclear and/or Clearstream, Luxembourg, notices to Noteholders may be given by delivery of the relevant notice

to Euroclear and/or Clearstream, Luxembourg (as the case may be) for communication to the relevant Accountholders rather than by publication as required by Condition 12 (Notices), provided that, so long as the Notes are listed on any stock exchange, notices shall also be published in accordance with the rules of such exchange. Any such notice shall be deemed to have been given to the Noteholders on the day on which such notice is delivered to Euroclear and/or Clearstream, Luxembourg (as the case may be) as aforesaid.

Whilst any of the Notes held by a Noteholder are represented by a Global Certificate, notices to be given by such Noteholder may be given by such Noteholder (where applicable) through the applicable clearing system's operational procedures approved for this purpose and otherwise in such manner as the Paying Agent and the applicable clearing system may approve for this purpose.

4. Interest Calculation

For so long as Notes are represented by the Global Certifcate, interest payable to the bearer of a Global Certificate will be calculated by applying the applicable rate of interest per annum to the principal amount of the Global Certificate and on the basis of: (a) the actual number of days in the period from and including the date from which interest begins to accrue (the "Accrual Date") to but excluding the date on which it falls due divided; by (b) the actual number of days from and including the Accrual Date to but excluding the next following Interest Payment Date. The resultant figure shall be rounded to the nearest cent, half a cent being rounded upwards.

5. Prescription

Claims against Optics in respect of principal and interest on the Notes represented by a Global Certificate will be prescribed after five (5) years (in the case of principal) and three (3) years (in the case of interest) from the Relevant Date (as defined in Condition 7 (Taxation)).

6. Cancellation

Cancellation of any Note represented by a Global Certificate and required by the Conditions of the Notes to be cancelled following its redemption or purchase will be effected by or on behalf of Registrar or relevant Transfer Agent by enfacing the reduction in the principal amount on the relevant Global Certificate and recording details of such cancellation in the Register.

7. Put Option

For so long as the Notes are represented by the Global Certificate and such Global Certificate is held on behalf of Euroclear and/or Clearstream, Luxembourg, the option of the Noteholder to redeem the Notes on the occurrence of a change of control ("**Put Option**") may be exercised by an Accountholder giving notice to the Registrar or Paying Agent in accordance with the standard procedures of Euroclear and/or Clearstream, Luxembourg (which may include notice being given on its instructions by Euroclear or Clearstream, Luxembourg for them to the Registrar or Paying Transfer Agent by electronic means) of the principal amount of the Notes in respect of which such option is exercised and at the same time presenting or procuring the presentation of the relevant Global Certificate to the Paying Agent for notation accordingly within the time limits set forth in the Put Option condition.

8. Redemption at the Option of Optics

For so long as all of a series of the applicable Notes are represented by the Global Certificate and such Global Certificate is held on behalf of Euroclear and/or Clearstream, Luxembourg, no selection of such series of Notes to be redeemed will be required under Condition "Provisions Relating to Partial Redemption" in the event of a partial redemption by Optics. Such partial redemption shall be performed via pool factor in accordance with the rules and procedures of Euroclear and/or Clearstream, Luxembourg.

9. Euroclear and Clearstream, Luxembourg

Notes represented by a Global Certificate are transferable in accordance with the rules and procedures for the time being of Euroclear and Clearstream, Luxembourg, as appropriate.

10. Record Date

In the case of Notes represented by a Global Certificate, the Record Date shall be the close of business on the Clearing System Business Day immediately prior to the due date for payment. "**Clearing System Business Day**" means Monday to Friday (inclusive) except December 25 and January 1.

LEGAL MATTERS

Certain legal matters in connection with this EUR TIF Exchange Offer will be passed upon for the Issuer by Latham & Watkins (London) LLP, as to matters of English & Wales law and Italian law and by Gatti Pavesi Bianchi Ludovici Studio Legale Associato, as to matters of Italian tax law.

Certain legal matters in connection with this EUR TIF Exchange Offer will be passed upon for the Dealer Managers by Linklaters LLP, as to matters of English & Wales law and Italian law.

INDEPENDENT AUDITORS

The TIM Audited Consolidated Financial Statements and NetCo Audited Combined Carve-out Financial Information were audited, without qualification and in accordance with the International Standards on Auditing (ISA Italia), by EY S.p.A. independent auditors, as stated in the English translations of their audit reports included elsewhere in this Exchange Offer Memorandum.

EY S.p.A.'s registered office is Via Meravigli 12, 20123 Milan, Italy, and it is registered under No. 70945 in the Register of Accountancy Auditors (Registro dei Revisori Contabili), in compliance with the provisions of the Legislative Decree January 27, 2010, No. 39. EY S.p.A., is also a member of ASSIREVI (the Italian association of auditing firms).

WHERE YOU CAN FIND ADDITIONAL INFORMATION

Each purchaser of the Notes from the Dealer Managers will be furnished a copy of this Exchange Offer Memorandum and any related amendments or supplements to this Exchange Offer Memorandum. Each person receiving this Exchange Offer Memorandum and any related amendments or supplements to this Exchange Offer Memorandum acknowledges that:

(a) such person has been afforded an opportunity to request from us, and to review and has received, all additional information considered by it to be necessary to verify the accuracy and completeness of the information herein;

(b) such person has not relied on the Dealer Managers or any person affiliated with any of the Dealer Managers in connection with its investigation of the accuracy of such information or its investment decision; and

(c) except as provided pursuant to paragraph (1) above, no person has been authorized to give any information or to make any representation concerning the Notes offered hereby, other than those contained herein, and, if given or made, such other information or representation should not be relied upon as having been authorized by the Issuer or the Dealer Managers.

For so long as any of the Notes remain outstanding and are "restricted securities" within the meaning of Rule 144(a)(3) under the U.S. Securities Act, the Issuer will, during any period in which the Issuer is not subject to Section 13 or 15(d) under the U.S. Exchange Act, nor exempt from the reporting requirements under Rule 12g3-2(b) of the U.S. Exchange Act, make available to any holder or beneficial holder of a Note, or to any prospective purchaser of a Note designated by such holder or beneficial holder, the information specified in, and meeting the requirements of, Rule 144A(d)(4) under the U.S. Securities Act, upon the written request of any such holder or beneficial owner. Any such request with respect to the Notes should be directed to the Issuer and Optics respective addresses.

The Issuer is currently not subject to the periodic reporting and other information requirements of the U.S. Exchange Act.

So long as the Notes are admitted to trading on the Euro MTF Market and to listing on the Official List of the Stock Exchange, and the rules and regulations of such stock exchange so require, copies of such information will also be available for review during the normal business hours on any business day at the specified office of the Stock Exchange in Luxembourg.

The content available on the TIM Group's website does not form part of, nor is incorporated by reference into, this Exchange Offer Memorandum.

THE DEALER MANAGERS

The Issuer has retained Banco Santander, S.A., BNP Paribas, Crédit Agricole Corporate and Investment Bank, Deutsche Bank Aktiengesellschaft, Goldman Sachs International, J.P. Morgan SE, MUFG Securities (Europe) N.V., Société Générale and UniCredit Bank GmbH to act as dealer managers in connection with the USD Initial Exchange (the "**Dealer Managers**"). The Issuer has agreed to pay the Dealer Managers a fee for their services in connection with the EUR Initial Exchange and the Issuer will also reimburse the Dealer Managers for certain reasonable expenses. The obligations of the Dealer Managers to perform such functions are subject to certain conditions and the Issuer has agreed to indemnify the Dealer Managers against certain liabilities, including liabilities under the federal securities laws.

From time to time, one or more of the Dealer Managers and their affiliates have provided, and in the future the Dealer Managers or their affiliates may provide, investment banking, commercial banking and advisory and other services for the Issuer, TIM, Optics and their respective affiliates for customary compensation. In the ordinary course of their business, the Dealer Managers or their affiliates may at any time hold long or short positions, and may trade for their own accounts or the accounts of customers, in debt or equity securities, or other financial instruments (including bank loans), of the Issuer, TIM, Optics and their respective affiliates, including any of the EUR TIF Original Notes and the EUR TIF New Notes or the EUR Optics (TIF) Notes, and, to the extent that such Dealer Managers or their affiliates own EUR TIF Original Notes during the EUR Initial Exchange, they may tender such EUR TIF Original Notes pursuant to the terms of the Exchange Offers. The Dealer Managers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

If the Dealer Managers or any of their affiliates has a lending relationship with the Issuer, TIM, Optics or their respective affiliates, then that certain Dealer Manager or its affiliates may routinely hedge their credit exposure to the Issuer, TIM, Optics or their respective affiliates, consistent with their customary risk management policies. Typically, the Dealer Managers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in the Issuer's, TIM's or Optics' securities, including potentially the EUR TIF Original Notes, the EUR TIF New Notes or the EUR Optics (TIF) Notes, as applicable. Any such credit default swaps or short positions could adversely affect future trading prices of the EUR TIF Original Notes, the EUR TIF New Notes or the EUR Optics (TIF) Notes, as applicable.

Certain of the Dealer Managers and/or certain of their affiliates have acted as managers in offerings of the Issuer and its affiliates and are lenders and/or agents under certain debt facilities of the Issuer, TIM and Optics, including the TIM Term Facility Agreement, Senior Facilities Agreement, the Senior Bridge Facility Agreement and the Intercreditor Agreement and, in connection therewith, have received customary fees and commissions.

The Dealer Managers do not assume any responsibility for the accuracy or completeness of the information contained in this Exchange Offer Memorandum or for any failure to disclose events that may have occurred and may affect the significance or accuracy of such information.

LISTING AND GENERAL INFORMATION

In this Section references to Issuer shall refer to TIF, references to Notes shall refer to the EUR Optics (TIF) Notes, references to Trust Deed to the EUR Optics Notes Trust Deed, to the Paying Agent to the Optics Notes Paying Agent.

General Information

Telecom Italia Finance

Telecom Italia Finance is a public limited liability company (*société anonyme*) organised under the laws of the Grand Duchy of Luxembourg, having its registered office in 12 rue Eugène Ruppert, L-2453 Luxembourg, Grand Duchy of Luxembourg and registered with the Luxembourg Register of Commerce and Companies (Registre de Commerce et des Sociétés) under number B76448 (the "**Issuer**").

The Issuer was incorporated on June 2, 2000 for an unlimited duration in the Grand-Duchy of Luxembourg and is a 100 per cent. owned subsidiary of TIM. As of December 31, 2023, The Issuer has the following subsidiary: TIM Brasil Servicos & Participações S.A., 100% owned by the Issuer.

The Issuer's principal purposes as a subsidiary of TIM are to raise funds and to act as sub-holding for the TIM Group. The Issuer's articles of incorporation were published in the no. 773 on October 21, 2000 Mémorial C, Journal Officiel du Grand-Duché de Luxembourg, Recueil des Sociétés et Associations (the "**Articles of Incorporation**"). The Articles of Incorporation have been modified several times. The latest modifications to the Articles of Incorporation of the Issuer were made on December 15, 2017 and were published in the Recueil Electronique des Sociétés et Associations under reference No. RESA 2018_013.334 on January 16, 2018.

The corporate object of the Issuer, as set forth in Article 3 of its Articles of Incorporation, is to provide financial assistance to TIM, as well as to companies in which TIM has a direct or indirect interest. Such assistance includes the provision of loans and the granting of guarantees or securities of any kind or in any form. The object of the Issuer is further to provide domiciliation and administration services to companies forming part of the TIM Group and to exercise any activity in relation thereto as provided in the Law No. 154 of May 31, 1999 on the domiciliation of companies, as amended. The Issuer may acquire and hold interests in Luxembourg and/or in foreign undertakings, as well as the administration, development and management of such holdings. The Issuer may also use its funds to invest in real estate and in intellectual property rights of any kind or in any form. The Issuer may participate in the creation and development of any other companies and entities and provide them with financial assistance of any kind or in any form. The Issuer may borrow in any form whatsoever and may issue bonds or notes. The Issuer may carry out any commercial, industrial or financial transaction which it may deem useful in the development and accomplishment of its purposes.

There are no additional recent business activities carried out by the Issuer.

Application to Trading and Listing

Application has been made for the EUR TIF New Notes and the EUR Optics (TIF) Notes to be listed on the Official List of the Luxembourg Stock Exchange and admitted to trading on the professional segment of the Euro MTF Market, in accordance with the rules and regulations of such exchange. This Exchange Offer Memorandum constitutes a prospectus for the purpose of Part IV of the Luxembourg law on prospectuses for securities dated July 16, 2019.

Listing Information

For so long as the EUR TIF New Notes and the Optics (TIF) Notes are outstanding and listed on the Official List of the Luxembourg Stock Exchange and are admitted to trading on the Euro MTF Market and the rules and regulations of the Luxembourg Stock Exchange so require, copies of the following documents may be inspected and obtained free of charge in electronic form at the specified office of TIM, Optics as the case may be, during normal business hours on any weekday (Saturdays, Sundays and public holidays excepted):

- the organizational documents of the Issuer and Optics, as applicable;

- the bylaws of the Issuer, TIM Guarantor and Optics, as applicable;
- the Financial Statements included in this Exchange Offer Memorandum; and
- the EUR TIF New Notes Agency Agreement, the EUR Optics Notes Trust Deed and the EUR Optics Agency agreement; and
- the EUR TIF New Notes Deed of Guarantee.

A copy of the Exchange Offer Memorandum will be available on the website of the Stock Exchange: luxse.com.

BNY Mellon Corporate Trustee Services Limited has been appointed as the New Notes Trustee and The Bank of New York Mellon, London Branch has been appointed as New Notes Agent, to make payments on the EUR New Notes. Citibank, N.A., London Branch has been appointed as Optics Notes Trustee and Optics Notes Paying Agent, to make payments on the EUR Optics Notes. Citibank Europe plc has been appointed as Optics Notes Transfer Agent and Registrar.

TIF and Optics reserve the right to vary such appointments in accordance with the terms of the EUR TIF New Notes Agency Agreement or EUR Optics Notes Trust Deed, as the case may be.

Eurosystem Eligibility

The EUR TIF New Notes are intended upon issue to be deposited with one of the ICSDs as common safekeeper and does not necessarily mean that the EUR TIF New Notes will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue of the EUR TIF New Notes or at any or all times during their life. Such recognition will depend upon the ECB being satisfied that Eurosystem eligibility criteria have been met.

Clearing Information

The EUR TIF New Notes and EUR Optics Notes sold in this EUR TIF Exchange Offer have been accepted for clearance through the facilities of Euroclear and Clearstream, Luxembourg.

The EUR TIF New Notes has been assigned common code 279888049 and ISIN XS2798880493.

The EUR Optics (TIF) Notes has been assigned common code 280449750 and ISIN XS2804497506.

Foreign Languages Used in this Exchange Offer Memorandum

The language of this Exchange Offer Memorandum is English. Certain legislative references and technical terms have been cited in their original language in order that the correct technical meaning may be ascribed to them under applicable law.

Material Change

There has been no material change in the prospects and the financial position of the Issuer and TIM Guarantor since December 31, 2023.

Financial Information

The Issuer is a wholly owned subsidiary of TIM Guarantor and is included in the TIM Audited Consolidated Financial Statements. Non-disclosure of the Issuer's financial statements would not be likely to mislead investors with regard to facts and circumstances that are essential for assessing the EUR TIF New Notes.

Legal Information

LEI

The Legal Entity Identifier (LEI) of TIM is 549300W384M3RI3VXU42.

The Legal Entity Identifier (LEI) of TIF is 549300O482B6CBF38D50.

The Legal Entity Identifier (LEI) of Optics is 254900QZ5RQ7MPFWE741.

The issuance of the EUR TIF New Notes was authorized by a resolution of the Board of Directors of TIF passed on March 20, 2024.

The issuance of the Optics Notes was authorized by a resolution of the Board of Directors (*consiglio di amministrazione*) of Optics passed on April 9, 2024.

APPENDIX A

TERMS AND CONDITIONS OF THE EUR TIF NEW NOTES

The following is the text of the terms and conditions which (subject to modification) will be endorsed on each Note in definitive form (if issued).

The €[●] 7.75 per cent. Notes due January 24, 2033 (the "**Notes**", which expression shall in these terms and conditions (the "**Conditions**"), unless the context otherwise requires, include any further notes issued pursuant to Condition 16 and forming a single series with the Notes) issued by Telecom Italia Finance, a public limited liability company (*société anonyme*) organized under the laws of Luxembourg, having its registered office in 12 rue Eugène Ruppert, L-2453 Luxembourg, Grand Duchy of Luxembourg and registered with the Luxembourg Register of Commerce and Companies (*Registre de Commerce et des Sociétés de Luxembourg)* under number B76448 (the "**Issuer**") are subject to, and have the benefit of, a fiscal agency agreement dated [●] 2024 (as amended or supplemented from time to time, the "**Fiscal Agency Agreement**") between the Issuer, the Guarantor and The Bank of New York Mellon, London Branch as fiscal agent (the "**Fiscal Agent**" which expression shall include all persons for the time being acting as fiscal agent under the Fiscal Agency Agreement) and any other paying agents named therein (the "**Paying Agents**", which expression shall include all persons for the time being acting as paying agents under the Fiscal Agency Agreement). The Notes have the benefit of a deed of guarantee dated [●] 2024 (as amended or supplemented from time to time, the "**Deed of Guarantee**") executed by TIM S.p.A. (the "**Guarantor**") relating to the Notes. The Noteholders and Couponholders (each as defined below) are entitled to the benefit of a deed of covenant dated [●] 2024 (as amended or supplemented from time to time, the "**Deed of Covenant**" made by the Issuer.

These Conditions include summaries of, and are subject to, the detailed provisions of the Fiscal Agency Agreement and the Deed of Guarantee. The Fiscal Agency Agreement includes the form of the Notes and the coupons relating to them (the "**Coupons**"). Copies of the Fiscal Agency Agreement and the Deed of Covenant are available for inspection during normal business hours at the specified offices of the Paying Agents indicated in the Fiscal Agency Agreement. The holders of the Notes (the "**Noteholders**") and the holders of the Coupons (whether or not attached to the relevant Notes) (the "**Couponholders**") are deemed to have notice of all the provisions of the Fiscal Agency Agreement and the Deed of Covenant applicable to them. The issuance of the Notes was authorised by a resolution of the Board of Directors' meeting of the Issuer passed on March 20, 2024.

1 Definitions and Interpretation

(a) Definitions: In these Conditions the following expressions have the following meanings:

"**Business Day**" means a TARGET Day and a day on which commercial banks and foreign exchange markets settle payments generally in London;

"**Extraordinary Resolution**" has the meaning given in the Agency Agreement;

"**Guarantee**" means, in relation to any Indebtedness of any Person, any obligation of another Person to pay such Indebtedness including (without limitation):

(i) any obligation to purchase such Indebtedness;

(ii) any obligation to lend money, to purchase or subscribe shares or other securities or to purchase assets or services in order to provide funds for the payment of such Indebtedness;

(iii) any indemnity against the consequences of a default in the payment of such Indebtedness; and

(iv) any other agreement to be responsible for such Indebtedness;

"**Guarantee of the Notes**" means the guarantee of the Notes given by the Guarantor in the Deed of Guarantee;

"**Indebtedness**" means any obligation (whether present or future, actual or contingent) for the payment or repayment of money which has been borrowed or raised;

"**Material Subsidiary**" means a Subsidiary of the Issuer or (as the case may be) the Guarantor whose consolidated net revenues or consolidated net assets as shown on its most recent audited consolidated financial statements represent 10 per cent. or more of the consolidated net revenues or consolidated net assets, respectively, of the Issuer or (as the case may be) the Guarantor, as shown in its most recent audited consolidated financial statements;

"**Payment Business Day**" means any day which is:

(i) a day on which banks in the relevant place of presentation are open for presentation and payment of bearer debt securities and for dealings in foreign currencies; and

(ii) in the case of payment by transfer to an account, a TARGET Day;

"**Person**" means any individual, company, corporation, firm, partnership, joint venture, association, organisation, state or agency of a state or other entity, whether or not having separate legal personality;

"**Principal Financial Centre**" means, in relation to any currency, the principal financial centre for that currency *provided, however, that* in relation to euro, it means the principal financial centre of such Member State as is selected (in the case of a payment) by the payee or (in the case of a calculation) by the Calculation Agent;

"**Relevant Date**" means, in relation to any payment, whichever is the later of (a) the date on which the payment in question first becomes due and (b) if the full amount payable has not been received in the Principal Financial Centre of the currency of payment by the Fiscal Agent on or prior to such due date, the date on which (the full amount having been so received) notice to that effect has been given to the Noteholders;

"**Relevant Indebtedness**" means any Indebtedness (excluding, for the avoidance of any doubt, any bank loans) which is in the form of or represented by any bond, note, debenture, debenture stock, loan stock, certificate or other instrument which is, or is capable of being, listed, quoted or traded on any stock exchange or in any securities market (including, without limitation, any over-the-counter market);

"**Reserved Matter**" means any proposal to change any date fixed for payment of principal or interest in respect of the Notes, to reduce the amount of principal or interest payable on any date in respect of the Notes, to alter the method of calculating the amount of any payment in respect of the Notes on redemption or maturity or the date for any such payment, to effect the exchange or substitution

of the Notes for, or the conversion of the Notes into, shares, bonds or other obligations or securities of the Issuer, the Guarantor or any other Person formed or to be formed, to change the currency of any payment under the Notes, to modify any provision of the Deed of Guarantee or to change the quorum requirements relating to meetings or the majority required to pass an Extraordinary Resolution;

"**Security Interest**" means any mortgage, charge, pledge, lien or other security interest including, without limitation, anything analogous to any of the foregoing under the laws of any jurisdiction but excluding any such security interest over the property of any Person incorporated or merged into or acquired by the Issuer or (as the case may be) the Guarantor (including, for the avoidance of doubt, any property of any Subsidiary of such a Person) after January 1, 1999 and existing immediately prior to such incorporation, merger or acquisition;

"**Specified Office**" has the meaning given in the Agency Agreement;

"**Subsidiary**" means in relation to any Person (in this paragraph, the "**first Person**") at any particular time, any other Person (in this paragraph, the "**second Person**"):

(A) whose affairs and policies the first Person controls or has the power to control, whether by ownership of share capital or contract, the power to appoint or remove a majority of the members of the governing body of the second Person or otherwise; or

(B) whose financial statements are, in accordance with applicable law and generally accepted accounting principles, consolidated with those of the first Person;

"**T2**" means the real time gross settlement system operated by the Eurosystem, or any successor system;

"**TARGET Day**" means any day on which T2 is open for the settlement of payments in euro;

(b) Interpretation: In these Conditions:

(i) any reference to principal shall be deemed to include any additional amounts in respect of principal which may be payable under Condition 8 (*Taxation*), any premium payable in respect of a Note and any other amount in the nature of principal payable pursuant to these Conditions;

(ii) any reference to interest shall be deemed to include any additional amounts in respect of interest which may be payable under Condition 8 (*Taxation*) and any other amount in the nature of interest payable pursuant to these Conditions; and

(iii) references to Notes being "outstanding" shall be construed in accordance with the Agency Agreement.

2 Form, Denomination and Title

The Notes are in bearer form, serially numbered, in the denominations of €100,000 and integral multiples of €1,000 in excess thereof up to and including €199,000. No Notes in definitive form will be issued with a denomination above €199,000. Each Note will be issued with Coupons attached on issue. Notes of one denomination may not be exchanged for another denomination.

Title to the Notes and Coupons will pass by delivery. The Issuer, the Guarantor and any Paying Agent will (except as otherwise required by law) deem and treat the bearer of any Note or Coupon as the absolute owner for all purposes (whether or not overdue and notwithstanding any notice of ownership or writing thereon or notice of any previous loss or theft thereof) and shall not be required to obtain any proof thereof or as to the identity of such bearer.

3 Status and Guarantee

(a) *Status of the Notes*: The Notes constitute unconditional, unsecured and unsubordinated obligations of the Issuer which will at all times rank *pari passu* among themselves and at least *pari passu* with all other present and future unsecured and unsubordinated obligations of the Issuer, save for such obligations as may be preferred by provisions of law that are both mandatory and of general application.

(b) *Guarantee of the Notes*: The Guarantor has in the Deed of Guarantee unconditionally and irrevocably guaranteed the due and punctual payment of all sums from time to time payable by the Issuer in respect of the Notes. The Guarantee of the Notes constitutes direct, general and unconditional obligations of the Guarantor which will at all times rank at least *pari passu* with all other present and future unsecured and unsubordinated obligations of the Guarantor, save for such obligations as may be preferred by provisions of law that are both mandatory and of general application.

4 Negative Pledge

So long as any Note remains outstanding, the Issuer and the Guarantor shall not, and shall procure that none of their respective Material Subsidiaries shall, create or permit to subsist any Security Interest upon the whole or any part of their present or future undertaking, assets or revenues (including uncalled capital) to secure any Relevant Indebtedness or any Guarantee of Relevant Indebtedness without (a) at the same time or prior thereto securing the Notes equally and rateably therewith or (b) providing such other security for the Notes as may be approved by an Extraordinary Resolution of Noteholders.

5 Interest

(i) *Interest Rate and Interest Payment Dates*: The Notes bear interest on their outstanding principal amount from (and including) [●] 2024 at the rate of 7.75 per cent. per annum, payable annually in arrear on January 24 in each year (each an "**Interest Payment Date**") up to (and including) the Maturity Date, except that the first payment of interest, to be made on January 24, 2025 (the "**First Interest Payment Date**"), will be in respect of the period from and including [●] 2024 to but excluding the First Interest Payment Date and will amount to €[●] per Calculation Amount. The amount of interest payable shall be €77.50 per Calculation Amount on each subsequent Interest Payment Date.

Save as provided above, the day-count fraction will be calculated on the following basis:

(a) if the Accrual Period is equal to or shorter than the Determination Period during which it falls, the day-count fraction will be the number of days in the Accrual Period divided by

the product of (1) the number of days in such Determination Period and (2) the number of Determination Periods normally ending in any year; and

(b) if the Accrual Period is longer than one Determination Period, the day-count fraction will be the sum of:

(A) the number of days in such Accrual Period falling in the Determination Period in which it begins divided by the product of (1) the number of days in such Determination Period and (2) the number of Determination Periods normally ending in any year; and

(B) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (1) the number of days in such Determination Period and (2) the number of Determination Periods normally ending in any year,

where:

"**Accrual Period**" means the relevant period for which interest is to be calculated (from and including the first such day to but excluding the last); and

"**Determination Period**" means the period from and including January 24 in any year to but excluding the next January 24.

In these Conditions, the period beginning on and including [●] 2024[1] and ending on but excluding the First Interest Payment Date and each successive period beginning on and including an Interest Payment Date and ending on but excluding the next succeeding Interest Payment Date is called an "**Interest Period**".

Interest in respect of any Note shall be calculated per €1,000 in principal amount of the Notes (the "**Calculation Amount**"). The amount of interest payable per Calculation Amount for any period shall, save as provided above, be equal to the product of 7.75 per cent., the Calculation Amount and the day-count fraction for the relevant period, rounding the resulting figure to the nearest cent (half a cent being rounded upwards).

(ii) *Accrual of interest*: Each Note will cease to bear interest from (and excluding) the due date for final redemption of such Note unless, upon due presentation, payment of principal in respect of such Note is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition 5 (*Interest*) (as well after as before judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Note up to but excluding that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Fiscal Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to (but excluding) such seventh day (except to the extent that there is any subsequent default in payment).

6 Redemption and Purchase

(a) *Scheduled redemption*: Unless previously redeemed or purchased and cancelled, the Notes will be redeemed at their principal amount (the "**Final Redemption Amount**") on January 24, 2033 (the "**Maturity Date**"), subject as provided in Condition 7 (*Payments*).

---

[1] **Note**: To be the issue date.

(b) *Redemption for tax reasons*: The Notes may be redeemed at the option of the Issuer in whole but not in part, at any time on giving not less than 30 nor more than 60 days' notice to the Noteholders and the Guarantor (which notice shall be irrevocable) (with a copy to the Fiscal Agent and the Paying Agent), at their principal amount, together with interest accrued (if any) to (but excluding) the date fixed for redemption, if:

(A) the Issuer has or will become obliged to pay additional amounts as provided or referred to in Condition 8 (*Taxation*) as a result of any change in, or amendment to, the laws or regulations of Luxembourg or any political subdivision or any authority thereof or therein having power to tax, or any change in the application or official interpretation of such laws or regulations (including a ruling by a court of competent jurisdiction), which change or amendment becomes effective on or after the date of issue of the first Tranche of the Notes; and (2) such obligation cannot be avoided by the Issuer taking reasonable measures available to it; or

(B) the Guarantor has or (if a demand was made under the relevant Guarantee of the Notes) would become obliged to pay additional amounts as provided or referred to in Condition 8 (*Taxation*) as a result of any change in, or amendment to, the laws or regulations of the Republic of Italy or any political subdivision or any authority thereof or therein having power to tax, or any change in the application or official interpretation of such laws or regulations (including a ruling by a court of competent jurisdiction), which change or amendment becomes effective on or after the date of issue of the first Tranche of the Notes and (2) such obligation cannot be avoided by the Guarantor taking reasonable measures available to it,

provided, however, *that* no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Issuer or the Guarantor would be obliged to pay such additional amounts if a payment in respect of the Notes were then due or (as the case may be) a demand under the Guarantee of the Notes were then made.

Prior to the publication of any notice of redemption pursuant to this Condition 6(b) (*Redemption for tax reasons*), the Issuer shall deliver or procure that there is delivered to the Fiscal Agent (1) a certificate signed by a duly authorised representative of the Issuer stating that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer so to redeem have occurred and (2) an opinion of independent legal advisers of recognised standing to the effect that the Issuer or (as the case may be) the Guarantor has or will become obliged to pay such additional amounts as a result of such change or amendment. The Fiscal Agent shall be entitled to rely on and accept such certificate and opinion as sufficient evidence of the satisfaction of the conditions precedent set out above, in which event it shall be conclusive and binding on the Noteholders. Upon the expiry of any such notice as is referred to in this Condition 6(b) (*Redemption for tax reasons*), the Issuer shall be bound to redeem the Notes in accordance with this Condition 6(b) (*Redemption for tax reasons*).

(c) *No other redemption*: Neither the Issuer nor the Guarantor shall be entitled to redeem the Notes otherwise than as provided in Conditions 6(a) (*Scheduled Redemption*) to (b) above.

(d) *Purchase*: The Issuer, the Guarantor or any of their respective Subsidiaries may at any time purchase Notes in the open market or otherwise and at any price and such Notes may be held, resold or, at the option of the Issuer or the Guarantor, surrendered to any Paying Agent for

cancellation (provided that, if the Notes are to be cancelled, they are purchased together with all unmatured Coupons relating to them).

(e) *Cancellation*: All Notes redeemed and any unmatured Coupons attached to or surrendered with them shall be cancelled and all Notes so cancelled and any Notes cancelled pursuant to Condition 6(d) (*Purchase*) above (together with all unmatured Coupons cancelled with them) may not be reissued or resold.

7 Payments

(a) *Principal*: Payments of principal shall be made only against presentation and (provided that payment is made in full) surrender of Notes at the Specified Office of any Paying Agent outside the United States by transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee.

(b) *Interest*: Payments of interest shall, subject to Condition 7(h) (*Payments other than in respect of matured Coupons*) below, be made only against presentation and (provided that payment is made in full) surrender of the appropriate Coupons at the Specified Office of any Paying Agent outside the United States in the manner described in Condition 7(a) (*Principal*) above.

(c) *Payments in New York City*: Payments of principal or interest may be made at the Specified Office of a Paying Agent in New York City if (i) the Issuer has appointed Paying Agents outside the United States with the reasonable expectation that such Paying Agents will be able to make payment of the full amount of the principal and interest on the Notes in euro when due, (ii) payment of the full amount of such principal or interest at the offices of all such Paying Agents is illegal or effectively precluded by exchange controls or other similar restrictions and (iii) payment is permitted by applicable United States law.

(d) *Payments subject to fiscal laws*: All payments in respect of the Notes are subject in all cases to (i) any applicable fiscal or other laws and regulations, but without prejudice to the provisions of Condition 8 (*Taxation*) and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the U.S. Internal Revenue Code of 1986, as amended (the "**Code**") or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or any law implementing an intergovernmental approach thereto. No commissions or expenses shall be charged to the Noteholders or Couponholders in respect of such payments.

(e) *Deductions for unmatured Coupons*: If a Note is presented without all unmatured Coupons relating thereto:

(i) if the aggregate amount of the missing Coupons is less than or equal to the amount of principal due for payment, a sum equal to the aggregate amount of the missing Coupons will be deducted from the amount of principal due for payment; *provided*, *however, that* if the gross amount available for payment is less than the amount of principal due for payment, the sum deducted will be that proportion of the aggregate amount of such missing Coupons which the gross amount actually available for payment bears to the amount of principal due for payment;

(ii) if the aggregate amount of the missing Coupons is greater than the amount of principal due for payment:

(A) so many of such missing Coupons shall become void (in inverse order of maturity) as will result in the aggregate amount of the remainder of such missing Coupons (the "*Relevant Coupons*") being equal to the amount of principal due for payment; *provided, however*, *that* where this sub-paragraph would otherwise require a fraction of a missing Coupon to become void, such missing Coupon shall become void in its entirety; and

(B) a sum equal to the aggregate amount of the Relevant Coupons (or, if less, the amount of principal due for payment) will be deducted from the amount of principal due for payment; *provided, however*, *that*, if the gross amount available for payment is less than the amount of principal due for payment, the sum deducted will be that proportion of the aggregate amount of the Relevant Coupons (or, as the case may be, the amount of principal due for payment) which the gross amount actually available for payment bears to the amount of principal due for payment.

Each sum of principal so deducted shall be paid in the manner provided in Condition 7(a) (*Principal*) against presentation and (provided that payment is made in full) surrender of the relevant missing Coupons.

(f) *Unmatured Coupons void*: On the due date for final redemption of any Note or early redemption of such Note pursuant to Condition 9 (*Events of Default*), all unmatured Coupons relating thereto (whether or not still attached) shall become void and no payment will be made in respect thereof.

(g) *Payments on business days*: If the due date for payment of any amount in respect of any Note or Coupon is not a Payment Business Day, the holder shall not be entitled to payment of the amount due until the next succeeding Payment Business Day and shall not be entitled to any further interest or other payment in respect of any such delay.

(h) *Payments other than in respect of matured Coupons*: Payments of interest other than in respect of matured Coupons shall be made only against presentation of the relevant Notes at the Specified Office of any Paying Agent outside the United States (or in New York City if permitted by Condition 7(c) (*Payments in New York City*)).

(i) *Partial payments*: If a Paying Agent makes a partial payment in respect of any Note or Coupon presented to it for payment, such Paying Agent will endorse thereon a statement indicating the amount and date of such payment.

8 Taxation

(a) *Gross up*: All payments of principal and interest in respect of the Notes and the Coupons by or on behalf of the Issuer or the Guarantor shall be made free and clear of, and without withholding or deduction for, any taxes, duties, assessments or governmental charges of whatsoever nature imposed, levied, collected, withheld or assessed by the Relevant Jurisdiction (as defined below) or (in the case of payments made under the Guarantee of the Notes) the Republic of Italy or any political subdivision or any authority thereof or therein having power to tax, unless such withholding or deduction is required by law. In that event, the Issuer or (as the case may be) the Guarantor shall

pay such additional amounts as will result in the receipt by the Noteholders and the Couponholders of such amounts as would have been received by them if no such withholding or deduction had been required, except that no such additional amounts shall be payable:

(i) in respect of any Note or Coupon presented for payment by or on behalf of a holder which is liable to such taxes, duties, assessments or governmental charges in respect of such Note or Coupon by reason of its having some connection with the Relevant Jurisdiction or (in the case of payments made under the Guarantee of the Notes) the Republic of Italy other than the mere holding of such Note or Coupon; or

(ii) in respect of any Note or Coupon presented for payment by or on behalf of a holder who would have been able to avoid such withholding or deduction by presenting the relevant Note or Coupon to another Paying Agent in a member state of the European Union; or

(iii) in respect of any Note or Coupon presented for payment more than 30 days after the Relevant Date except to the extent that the relevant holder would have been entitled to such additional amounts if it had presented such Note or Coupon on the last day of such period of 30 days;

(iv) in respect of any Note or Coupon presented for payment by or on behalf of a holder if such withholding or deduction may be avoided by such holder producing a declaration or other evidence of non-residence in the Relevant Jurisdiction or (in the case of payments made under the Guarantee of the Notes) the Republic of Italy to the relevant taxing authority or making any other claim or filing, unless such holder is not entitled to produce such declaration or other evidence or to make such other claim or filing; or

(v) in respect of any Note or Coupon presented for payment by or on behalf of a holder, if such tax deduction required in respect of the Luxembourg law of December 23, 2005, as amended, introducing a 20% withholding tax in Luxembourg as regards interest payments, with respect to Notes listed and admitted to trading on a regulated market, to or for the benefit of beneficial owners who are Luxembourg resident individuals.

(b) *Relevant jurisdiction*: Each reference in this Condition 8 to the "*Relevant Jurisdiction*" shall mean Luxembourg, or if the Issuer becomes subject at any time to any taxing jurisdiction other than Luxembourg, Luxembourg and/or such other jurisdiction.

If the Guarantor becomes subject at any time to any taxing jurisdiction other than the Republic of Italy, the Republic of Italy and/or such other jurisdiction, each reference in this Condition 8 to the Republic of Italy shall be construed as a reference to the Republic of Italy and/or such other jurisdiction.

9 Events of Default

If any of the following events occurs and is continuing:

(a) *Non-payment*: the Issuer fails to pay any amount of principal in respect of the Notes on the due date for payment thereof or fails to pay any amount of interest in respect of the Notes within seven Business Days of the due date for payment thereof; or

(b) *Breach of other obligations*: the Issuer or (as the case may be) the Guarantor defaults in the performance or observance of any of its other obligations under or in respect of the Notes or the Guarantee of the Notes and such default remains unremedied for 30 days after written notice thereof, addressed to the Issuer and (as the case may be) the Guarantor by any Noteholder, has been delivered to the Issuer and the Guarantor or to the Specified Office of the Fiscal Agent; or

(c) *Cross-default of Issuer*, *Guarantor or Subsidiary*:

(i) any Indebtedness of the Issuer, the Guarantor or any of their respective Subsidiaries is not paid when due or within any originally applicable grace period (as the case may be);

(ii) any such Indebtedness becomes due and payable prior to its stated maturity otherwise than at the option of the Issuer, the Guarantor or any of their respective Subsidiaries or (provided that no event of default, howsoever described, has occurred) any Person entitled to such Indebtedness; or

(iii) the Issuer, the Guarantor or any of their respective Subsidiaries fails to pay when due any amount payable by it under any Guarantee of any Indebtedness;

provided that the amount of Indebtedness referred to in sub-paragraph (i) and/or subparagraph (ii) above and/or the amount payable under any Guarantee referred to in subparagraph (iii) above individually or in the aggregate exceeds €25,000,000 (or its equivalent in any other currency or currencies); or

(d) *Unsatisfied judgment*: one or more judgment(s) or order(s) from which no further appeal or judicial review is permissible under applicable law is rendered against the Issuer or the Guarantor or any of their respective Subsidiaries for the payment of an aggregate amount exceeding the greater of (i) €25,000,000 (or its equivalent in any other currency or currencies) or (ii) an amount equal to five per cent. of the net consolidated assets of (in the case of the Issuer or any of its Subsidiaries), the Issuer or (in the case of the Guarantor or any of its Subsidiaries) the Guarantor, in each case, as stated in its most recent audited consolidated financial statements and any such judgment(s) or orders continue(s) unsatisfied and unstayed for a period of 30 days after the date(s) thereof or, if later, the date therein specified for payment; or

(e) *Security enforced*: a secured party takes possession of or becomes entitled to enforce its security over, or a receiver, manager or other similar officer is appointed, of the whole or a substantial part of the undertaking, assets and revenues of the Issuer, the Guarantor or any of their respective Subsidiaries; or

(f) *Insolvency*:

(i) if any of the following occurs with respect to the Issuer or any of its Material Subsidiaries:

(A) the entry of a decree, judgment or order by a court having jurisdiction adjudging it bankrupt, or approving a petition seeking moratorium of payments, voluntary or judicial liquidation (*liquidation volontaire ou judiciaire)*, reorganisation (including judicial reorganisation and reorganisation by amicable agreement), reprieve from payment (*sursis de paiement)*, arrangement, adjustment or composition of or in respect of it under any applicable law, or adjudging that it is in a situation requiring special measures in the interests of all creditors or any subsequent amendment,

modification or re-enactment thereof or appointing a receiver, liquidator, administrator, assignee (or other similar official) in relation to it or of any substantial part of its property, or ordering the winding up, dissolution or liquidation of it or its affairs; or

(B) an involuntary case of proceeding is initiated against or a voluntary case or proceeding is initiated by the Issuer or any of its Material Subsidiaries under any applicable insolvency law, including presentation to the court of an application for bankruptcy, for an administration, voluntary or judicial liquidation (*liquidation volontaire ou judiciaire),* dissolution order or reorganisation (including judicial reorganisation and reorganisation by amicable agreement), reprieve from payment (*sursis de paiement*) or seeking the appointment of a receiver, administrator, liquidator or other similar official in relation to the Issuer or any of its Material Subsidiaries or to the whole or any substantial part of the undertaking or assets of the Issuer or any of its Material Subsidiaries or the competent court takes any action to dissolve the Issuer or any of its Material Subsidiaries, or a receiver, administrator, liquidator or other similar official is appointed in relation to the Issuer or any of its Material Subsidiaries or in relation to the whole or any substantial part of the undertaking or assets of the Issuer or any of its Material Subsidiaries or an encumbrancer takes possession or execution or other process is levied or enforced upon or sued out against the whole or any substantial part of the undertaking or assets of the Issuer or any of its Material Subsidiaries or if the Issuer or any of its Material Subsidiaries initiates or consents to any case or judicial proceeding relating to itself or its assets under any applicable insolvency law, makes a conveyance or assignment for the benefit of its creditors generally, admits in writing its inability to pay its debts generally as they become due or takes corporate action in furtherance of any such action;

(C) being in state of cessation of payments (*cessation de paiements*) or having lost its commercial creditworthiness (*ébranlement de credit*); or

(ii) if any of the following occurs with respect to the Guarantor or any of its Material Subsidiaries:

(A) it is declared by a court to be insolvent, or petitions a court to be declared insolvent or admits in writing that it is unable to pay its debts as they fall due;

(B) an administrator, receiver or liquidator of it or the whole or a substantial part of its undertaking, assets and revenues is appointed (or application for any such appointment is made);

(C) it takes any action for the deferral, rescheduling or other readjustment of all or a substantial part of its Indebtedness or makes a general assignment or an arrangement or composition with or for the benefit of its creditors or declares a moratorium in respect of any of its Indebtedness or any Guarantee of any Indebtedness given by it; or

(D) it ceases to carry on its business under its corporate objects from time to time.

(g) *Winding up etc*: an order is made or an effective resolution is passed for the winding up, liquidation or dissolution of the Issuer, the Guarantor or any of their respective Material Subsidiaries (otherwise than, in the case of a Material Subsidiary of the Issuer or (as the case may be) a Material Subsidiary of the Guarantor, for the purposes of or pursuant to an amalgamation, reorganisation or restructuring whilst solvent); or

(h) *Analogous event*: any event occurs which under the laws of Luxembourg or (as the case may be) the Republic of Italy has an analogous effect to any of the events referred to in Conditions 9(d) (*Unsatisfied judgment*) to (g)(*Winding up etc*) above; or

(i) *Failure to take action etc*: any action, condition or thing at any time required to be taken, fulfilled or done in order (A) to enable the Issuer or (as the case may be) the Guarantor lawfully to enter into, exercise their respective rights and perform and comply with their respective obligations under and in respect of the Notes and the Guarantee of the Notes, (B) to ensure that those obligations are legal, valid, binding and enforceable and (C) to make the Notes, the Coupons and the Deed of Guarantee admissible in evidence in the courts of Luxembourg or (as the case may be) the Republic of Italy is not taken, fulfilled or done; or

(j) *Unlawfulness*: it is or will become unlawful for the Issuer or the Guarantor to perform or comply with any of its obligations under or in respect of the Notes or the Guarantee of the Notes, respectively; or

(k) *Guarantee not in force*: the Guarantee of the Notes is not (or is claimed by the Guarantor not to be) in full force and effect;

then any Note may, by written notice addressed by the holder thereof to the Issuer and the Guarantor and delivered to the Issuer and the Guarantor or to the Specified Office of the Fiscal Agent, be declared immediately due and payable, whereupon it shall become immediately due and payable at its principal amount together with accrued interest (if any) without further action or formality, *provided, however, that* Conditions 9(f) (*Insolvency*), (g)(*Winding up etc.*) and (h) (*Analogous event*) shall not include any such event which occurs for the purposes of or pursuant to an amalgamation, restructuring or reorganisation of a Material Subsidiary of the Issuer or (as the case may be) the Guarantor in respect of which two officers of the Issuer or (as the case may be) the Guarantor shall have certified to the Fiscal Agent that such Material Subsidiary shall be solvent immediately prior to, during and immediately after the consummation of such amalgamation, restructuring or reorganisation.

10 The Exchange

10.1.1 If, on or prior to the Longstop Date, the Acquisition is, or will be, consummated (such date the Acquisition is consummated, the "**Acquisition Closing Date**"), then upon written notice given by the Issuer to (a) the Fiscal Agent and the Paying Agent, (b) Optics and (c) the Noteholders in accordance with Condition 16 (Notices), in each case no less than five Business Days prior to the Acquisition Closing Date, on the Acquisition Closing Date the Issuer will procure that the Notes be mandatorily exchanged (such mandatory exchange, the "**EUR Acquisition Exchange**") for an equal aggregate principal amount of Notes due January 24, 2033 with terms and conditions substantially in the form annexed to the Agency Agreement (the "**EUR Optics January 2033 Notes**") to be issued by Optics, under a trust

deed to be entered into by and among Optics and Citibank, N.A., London Branch, as trustee on the Acquisition Closing Date, and accrued and unpaid interest, if any, up to (but excluding) the Acquisition Closing Date on the Notes will be payable on the Acquisition Closing Date.

The Notes will be delivered to the Paying Agent for cancellation in accordance with Condition 6(e) (*Cancellation*) upon consummation of the EUR Acquisition Exchange.

10.1.2 By receiving a Note, each Noteholder agrees to be bound by the EUR Acquisition Exchange and further each Noteholder also irrevocably authorises and directs the Paying Agent or any other person required to complete the EUR Acquisition Exchange to take all actions required to consummate the EUR Acquisition Exchange without the need for further consent or direction from them under these Conditions. No consent, direction or any other action will be required by the Noteholders for the EUR Acquisition Exchange.

For the avoidance doubt, if the Acquisition is not consummated by the Longstop Date, the EUR Acquisition Exchange will not occur, and these Conditions will continue to apply without modification.

In this Condition:

"**Acquisition**" means the acquisition by Optics of the entire stake of TIM in NetCo following the contribution of the NetCo Business to FiberCop;

"**Business Day**" means a day on which banks are open for business in London, New York, Luxembourg and Milan (which, for avoidance of doubt, shall not include Saturdays, Sundays and public holidays in any of these places);

"**FiberCop"** means FiberCop S.p.A.;

"**Longstop Date**" means October 15, 2024 or any further date agreed prior to the then current longstop date between TIM and Optics pursuant to the Transaction Agreement and announced to Noteholders promptly thereafter;

"**NetCo**" means FiberCop following the contribution of the NetCo Business to FiberCop;

"**NetCo Business**" means certain personnel, assets, rights, liabilities and agreements relating to the network assets and laying infrastructure currently held by TIM which, at closing of the Acquisition, will be contributed as a going concern (ramo d'azienda) to FiberCop;

"**Optics**" means Optics BidCo S.p.A.; and

"**Transaction Agreement**" means the share purchase agreement dated November 6, 2023, among inter alios, TIM as seller and Optics as purchaser in respect of the sale of TIM's entire stake in NetCo, after the contribution of the NetCo Business to FiberCop (as amended from time to time).

11 Prescription

Claims for principal shall become void unless the relevant Notes are presented for payment within ten years of the appropriate Relevant Date. Claims for interest shall become void unless the relevant Coupons are presented for payment within five years of the appropriate Relevant Date.

12 Replacement of Notes and Coupons

If any Note or Coupon is lost, stolen, mutilated, defaced or destroyed, it may be replaced at the Specified Office of the Fiscal Agent (and, if the Notes are then listed on any stock exchange which requires the appointment of a Paying Agent in any particular place, the Paying Agent having its Specified Office in the place required by such stock exchange), subject to all applicable laws and stock exchange requirements, upon payment by the claimant of the expenses incurred in connection with such replacement and on such terms as to evidence, security, indemnity and otherwise as the Issuer, the Guarantor and/or relevant Paying Agent may reasonably require. Mutilated or defaced Notes or Coupons must be surrendered before replacements will be issued.

13 Agents

In acting under the Agency Agreement and in connection with the Notes and the Coupons, the Paying Agents act solely as agents of the Issuer and the Guarantor and do not assume any obligations towards or relationship of agency or trust for or with any of the Noteholders or Couponholders.

The Issuer and the Guarantor reserve the right at any time to vary or terminate the appointment of any Paying Agent and to appoint additional or successor Paying Agents; *provided, however, that*:

(a) the Issuer and the Guarantor shall at all times maintain a Fiscal Agent; and

(b) if and for so long as the Notes are listed on any stock exchange which requires the appointment of a Paying Agent in any particular place, the Issuer and the Guarantor shall maintain a Paying Agent having its Specified Office in the place required by the rules of such stock exchange.

Notice of any change in any of the Paying Agents or in their Specified Offices shall promptly be given to the Noteholders in accordance with Condition 16 (Notices).

14 Meetings of Noteholders (or *Rappresentante Comune*); *Modification and Waiver*

(a) *Meetings of Noteholders:* Schedule 3 of the Agency Agreement contains provisions for convening meetings of Noteholders to consider matters relating to the Notes, including the modification of any provision of these Conditions. Any such modification may be made if sanctioned by an Extraordinary Resolution. Such a meeting may be convened by the Issuer and the Guarantor (acting together) and shall be convened by them upon the request in writing of Noteholders holding not less than one-fifth of the aggregate principal amount of the outstanding Notes. The quorum at any meeting convened to vote on an Extraordinary Resolution will be two or more Voters (as defined in the Agency Agreement) holding or representing one half of the aggregate principal amount of the outstanding Notes or, at any adjourned meeting, two or more Voters being or representing Noteholders whatever the principal amount of the Notes held or represented; *provided, however, that* Reserved Matters may only be sanctioned by an Extraordinary Resolution passed at a meeting of Noteholders at which two or more Voters holding or representing not less than one half or, at any adjourned meeting, one quarter of the aggregate principal amount of the outstanding Notes form a quorum. Any Extraordinary Resolution duly passed at any such meeting shall be binding on all the Noteholders and Couponholders, whether present or not.

In addition, a resolution in writing signed by or on behalf of all Noteholders who for the time being are entitled to receive notice of a meeting of Noteholders will take effect as if it were an Extraordinary Resolution. Such a resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Noteholders.

(b) *Modification*: The Notes, these Conditions and the Deed of Guarantee may be amended without the consent of the Noteholders or the Couponholders to correct a manifest error. In addition, the parties to the Agency Agreement may agree to modify any provision thereof, but the Issuer and the Guarantor shall not agree, without the consent of the Noteholders, to any such modification unless it is of a formal, minor or technical nature, it is made to correct a manifest error or it is, in the opinion of such parties, not materially prejudicial to the interests of the Noteholders.

15 Further Issues

The Issuer may from time to time, without the consent of the Noteholders or the Couponholders, create and issue further notes having the same terms and conditions as the Notes in all respects (or in all respects except for the date of, and the amount of, the first payment of interest) so as to form a single series with the Notes.

16 Notices

Notices to the Noteholders shall be valid if published in a leading English language daily newspaper published in London (which is expected to be the *Financial Times*) and, if the Notes which are listed on the Luxembourg Stock Exchange and the rules of that exchange so require, if published on the website of the Luxembourg Stock Exchange: www.luxse.com. Any such notice shall be deemed to have been given on the date of first publication (or if required to be published in more than one newspaper, on the first date on which publication shall have been made in all the required newspapers). Couponholders shall be deemed for all purposes to have notice of the contents of any notice given to the Noteholders.

17 Currency Indemnity

If any sum due from the Issuer in respect of the Notes or the Coupons or any order or judgment given or made in relation thereto has to be converted from the currency (the "*first currency*") in which the same is payable under these Conditions or such order or judgment into another currency (the "*second currency*") for the purpose of (a) making or filing a claim or proof against the Issuer, (b) obtaining an order or judgment in any court or other tribunal or (c) enforcing any order or judgment given or made in relation to the Notes, the Issuer shall indemnify each Noteholder, on the written demand of such Noteholder addressed to the Issuer and delivered to the Issuer or to the Specified Office of the Fiscal Agent, against any loss suffered as a result of any discrepancy between (i) the rate of exchange used for such purpose to convert the sum in question from the first currency into the second currency and (ii) the rate or rates of exchange at which such Noteholder may in the ordinary course of business purchase the first currency with the second currency upon receipt of a sum paid to it in satisfaction, in whole or in part, of any such order, judgment, claim or proof.

This indemnity constitutes a separate and independent obligation of the Issuer and shall give rise to a separate and independent cause of action.

18 Rounding

For the purposes of any calculations referred to in these Conditions (unless otherwise specified in these Conditions or the relevant Pricing Supplement), (a) all percentages resulting from such calculations will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with 0.000005 per cent. being rounded downwards), (b) all United States Dollar and euro amounts used in or resulting from such calculations will be rounded to the nearest cent (with one half cent being rounded down), (c) all Japanese Yen amounts used in or resulting from such calculations will be rounded downwards to the next lower whole Japanese Yen amount, and (d) all amounts denominated in any other currency used in or resulting from such calculations will be rounded to the nearest two decimal places in such currency, with 0.005 being rounded downwards.

19 Substitution

(a) *Requirements for substitution*: The Issuer and the Guarantor may at any time require the substitution in place of the Issuer (or of the previous substitute under this Condition 19 (*Substitution*)) as the principal debtor in respect of the Notes of the Guarantor or any other Subsidiary of the Guarantor (such substitute, a "*New Issuer*") and/or the appointment of an additional guarantor of the Notes (an "*Additional Guarantor*") and/or the substitution in place of the Guarantor (or an Additional Guarantor) as guarantor of the Notes of any entity that may succeed to, or to which the Guarantor (or that Additional Guarantor) may transfer, all or substantially all of the assets and business of the Guarantor (or the Additional Guarantor) by operation of law, contract or otherwise (such substitute, a "*New Guarantor*"), provided that:

(i) in the case of a New Issuer, a deed poll and such other documents (if any) shall be executed by the New Issuer, the Guarantor, any Additional Guarantor and, to the extent necessary, the other parties to the Agency Agreement, as may be necessary to give full effect to the substitution and pursuant to which the New Issuer shall undertake in favour of the Noteholders and each Account Holder (as defined in the Deed of Covenant) to be bound by these Conditions, the Deed of Covenant and the Agency Agreement as principal debtor in respect of the Notes in place of the Issuer (or of the previous substitute under this Condition 19 (*Substitution*)) and pursuant to which the Guarantor and any Additional Guarantor shall guarantee in favour of each Noteholder and Account Holder the payment of all sums payable by the Issuer to the extent of, and in the terms specified in, the Deed of Guarantee, *mutatis mutandis*;

(ii) in the case of an Additional Guarantor, the Additional Guarantor shall guarantee in favour of each Noteholder and Account Holder the payment of all sums payable by the Issuer to the extent of, and in the terms specified in, the Deed of Guarantee, *mutatis mutandis*;

(iii) in the case of a New Guarantor, a deed poll and such other documents (if any) shall be executed by the New Guarantor and, to the extent necessary, the other parties to the Agency Agreement, as may be necessary to give full effect to the substitution and pursuant to which the New Guarantor shall guarantee in favour of each Noteholder and Account

Holder the payment of all sums payable by the Issuer to the extent of, and in the terms specified in, the Deed of Guarantee, *mutatis mutandis*;

(iv) in the case of a New Issuer, the Fiscal Agent shall have received legal opinions from independent legal advisers approved by it on which it can rely absolutely to the effect, *inter alia*, that (A) the New Issuer has obtained all governmental and regulatory approvals and consents necessary for its assumption of the obligations and liabilities as principal debtor under these Conditions, the Deed of Covenant and the Agency Agreement in place of the Issuer, the holders of the Notes and Coupons have rights against the New Issuer at least equivalent to the rights they have against the Issuer, such assumption is fully effective and such obligations and liabilities are legally valid and binding on, and enforceable against, the New Issuer (subject to customary assumptions, exceptions and reservations); (B) the Guarantor has obtained all governmental and regulatory approvals and consents necessary for the guarantee referred to in (i) above to be fully effective and such guarantee is legally valid and binding on, and enforceable against, the Guarantor (subject to customary assumptions, exceptions and reservations); (C) such approvals and consents are in full force and effect at the time of substitution; and (D) confirming, with respect to the New Issuer, compliance with Condition 19(a)(vii) (subject to customary assumptions, exceptions and reservations);

(v) in the case of an Additional Guarantor, the Fiscal Agent shall have received legal opinions from independent legal advisors approved by it on which it can rely absolutely to the effect, *inter alia*, that (A) the Additional Guarantor has obtained all governmental and regulatory approvals and consents necessary for the guarantee referred to in Condition 19(a)(ii) (*Requirements for substitution*) above to be fully effective and such guarantee is legally valid and binding on, and enforceable against, the Additional Guarantor (subject to customary assumptions, exceptions and reservations); (B) such approvals and consents are in full force and effect at the time of substitution; and (C) confirming, with respect to the Additional Guarantor, compliance with Condition 19(a)(vii) (*Requirements for substitution*) (subject to customary assumptions, exceptions and reservations);

(vi) in the case of a New Guarantor, the Fiscal Agent shall have received legal opinions from independent legal advisors approved by it on which it can rely absolutely to the effect, inter alia, that (A) the New Guarantor has obtained all governmental and regulatory approvals and consents necessary for the guarantee referred to in Condition 19(a)(iii) (*Requirements for substitution*) above to be fully effective, the holders of the Notes and Coupons have rights against the New Guarantor under such guarantee at least equivalent to the rights they have against the Guarantor (or (as the case may be) the relevant Additional Guarantor) and such guarantee is legally valid and binding on, and enforceable against, the New Guarantor (subject to customary assumptions, exceptions and reservations); (B) such approvals and consents are in full force and effect at the time of substitution; and (C) confirming, with respect to the New Guarantor, compliance with Condition 19(a)(viii) (*Requirements for substitution*) (subject to customary assumptions, exceptions and reservations);

(vii) all payments of principal and interest in respect of the Notes and Coupons by or on behalf of the New Issuer or (as the case may be) the Additional Guarantor or (as the case may be) the New Guarantor shall be made free and clear of, and without withholding or deduction for, any taxes, duties, assessments or governmental charges of whatsoever nature

imposed, levied, collected, withheld or assessed by the tax jurisdiction to which it is subject or any political subdivision or any authority thereof or therein having power to tax;

(viii) any stock exchange on which the Notes are listed shall have confirmed to the Issuer, the Guarantor and the Fiscal Agent that, after giving effect to the substitution or the appointment of the Additional Guarantor, the Notes will continue to be listed on such stock exchange(s);

(ix) two officers of the New Issuer, the Additional Guarantor or (as the case may be) the New Guarantor shall have certified to the Fiscal Agent that the New Issuer, the Additional Guarantor or (as the case may be) the New Guarantor is solvent at the time at which the substitution or appointment is proposed to be effected.

(b) *Substitution effective*: Upon execution and delivery of the deed poll, guarantee or the other documents referred to in Conditions 19(a)(i), (ii) or (iii) (*Requirements for substitution*) above and delivery of the legal opinions and other documents referred to in Conditions 19(a)(iv) to (ix) *(Requirements for substitution*) above:

(i) the New Issuer shall be deemed to be named in the Notes, the Deed of Covenant and the Agency Agreement as the principal debtor in place of the Issuer (or the previous substitute under this Condition 19 (*Substitution*)) and the Notes, the Deed of Covenant, the Agency Agreement shall thereupon be deemed to be amended to give effect to the substitution, and the Issuer (or the previous substitute under this Condition 19 (*Substitution*)) shall be released from all of its obligations under or in respect of the Notes, the Deed of Covenant and the Agency Agreement;

(ii) the Additional Guarantor shall be deemed to be named in the Notes and the Agency Agreement as Guarantor;

(iii) the New Guarantor shall be deemed to be named in the Notes and the Agency Agreement as Guarantor in place of the Guarantor (or the relevant Additional Guarantor) and the Notes, the Agency Agreement shall thereupon be deemed to be amended to give effect to the substitution, and the Guarantor shall be released from all of its obligations under or in respect of the Notes and the Agency Agreement.

(c) *Notice of substitution*: Not later than 20 days after the substitution of a New Issuer or a New Guarantor or the appointment of an Additional Guarantor, notice shall be given to the Noteholders in accordance with Condition 16 (*Notices*).

20 Governing Law and Jurisdiction

(a) *Governing law*: The Notes and all matters arising from or connected with the Notes are governed by, and shall be construed in accordance with, English law. Articles 470-1 to 470-19 of the Luxembourg law on commercial companies of August 10, 1915, as amended, are hereby excluded.

(b) *English courts*: The courts of England have exclusive jurisdiction to settle any dispute (a "**Dispute**") arising from or connected with the Notes.

(c) *Appropriate forum*: Each of the Issuer and the Guarantor agrees that the courts of England are the most appropriate and convenient courts to settle any Dispute and, accordingly, that they will not argue to the contrary.

(d) *Rights of the Noteholders to take proceedings outside England*: Condition 20(b) (*English courts*) is for the benefit of the Noteholders only. As a result, nothing in this Condition 20 (*Governing law and jurisdiction*) prevents any Noteholder from taking proceedings relating to a Dispute ("**Proceedings**") in any other courts with jurisdiction. To the extent allowed by law, Noteholders may take concurrent Proceedings in any number of jurisdictions.

(e) *Process agent*: Each of the Issuer and the Guarantor agrees that the documents which start any Proceedings and any other documents required to be served in relation to those Proceedings may be served on it by being delivered to TI Sparkle UK Limited at 6 New Street Square, London, EC4A 3DJ or, if different, its registered office for the time being. If such person is not or ceases to be effectively appointed to accept service of process on its behalf, it shall, on the written demand of any Noteholder addressed to it and delivered to it or to the Specified Office of the Fiscal Agent appoint a further person in England to accept service of process on its behalf and, failing such appointment within 15 days, any Noteholder shall be entitled to appoint such a person (other than himself) by written notice addressed to it and delivered to it or to the Specified Office of the Fiscal Agent. Nothing in this paragraph shall affect the right of any Noteholder to serve process in any other manner permitted by law. This Condition applies to Proceedings in England and to Proceedings elsewhere.

APPENDIX B

TERMS AND CONDITIONS OF THE EUR OPTICS (TIF) NOTES

TERMS AND CONDITIONS OF THE EUR OPTICS NOTES:

7.750 per cent. Notes due January 24, 2033

The following is the text of the Conditions of the Notes which (subject to modification) will be endorsed on each EUR Optics Note (as defined below) in definitive form (if issued):

The €[●] 7.750% Notes due January 24, 2033 issued by Optics Bidco S.p.A. ("**Optics**") and which may be guaranteed by FiberCop S.p.A. ("**NetCo**"), both organised under the laws of Italy, pursuant to articles 2410 and following of the Italian Civil Code are referred to as the "**Notes**". The Notes are issued in exchange for the €[●] aggregate principal amount of 7.750% Notes due January 24, 2033 (the "**7.750% TIF Exchange Notes due 2033**") issued by Telecom Italia Finance SA.

The Notes are constituted by a trust deed (the "**Trust Deed**") entered into on the closing date of the acquisition (the "**Acquisition Closing Date**" and, in connection with the issuance of the Notes, the "**Optics Notes Issue Date**") by Optics of the entire issued and outstanding share capital of NetCo not owned by Fastweb S.p.A,, if applicable, (the "**Acquisition**") among, *inter alios*, Optics, as issuer, Citibank, N.A., London Branch, as trustee (the "**Trustee**") and UniCredit S.p.A., as security agent and *mandatario con rappresentanza* of the Trustee and of the Noteholders from time to time pursuant to articles 1703, 1704 *et seq*. of the Italian Civil Code and representative (*rappresentante*) of the Noteholders from time to time pursuant to article 2414-bis, paragraph 3, of the Italian Civil Code, in connection with the creation, enforcement, and administration of any of the Collateral (the "**Security Agent**"). The Trustee has, on the Optics Notes Issue Date, acceded to the intercreditor agreement (the "**Intercreditor Agreement**") dated December 19, 2023, among, *inter alios*, Optics, NetCo and the Security Agent. Terms defined in the Trust Deed have the same meanings in these Conditions. The issuance of the Notes was authorised by a resolution of the Board of Directors' meeting of Optics passed on April 9, 2024.

The statements in these Conditions include summaries of, and are subject to, the detailed provisions of and definitions in the Trust Deed. Copies of the Trust Deed, the Intercreditor Agreement and the Agency Agreement dated as of the Optics Notes Issue Date (the "**Agency Agreement**") made between Optics, Citibank, N.A., London Branch as principal paying agent (the "**Principal Paying Agent**") and as a paying agent (a "**Paying Agent**"), Citibank Europe plc as registrar (the "**Registrar**") and as transfer agent (a "**Transfer Agent**" together with Principal Paying Agent, the Paying Agent and the Registrar, the "**Agents**" and each an "**Agent**") and the Trustee are available for: (a) inspection or collection at all reasonable times during normal business hours by the Noteholders at the principal office for the time being of the Trustee, being at the date of issue of the Notes at Citigroup Centre, Canada Square, London, E14 5LB, United Kingdom and at the specified office of the Paying Agents; or (b) may be provided by email to a Noteholder following their prior written request to the Trustee, any Agents or Optics therefor and provision of proof of holding and identity (in form satisfactory to the Trustee, the relevant Agent or Optics, as the case may be). The Noteholders are entitled to the benefit of, are bound by, and are deemed to have notice of, all the provisions of the Trust Deed, the Intercreditor Agreement and all the provisions of the Agency Agreement applicable to them.

The term "**Transaction Documents**" means each of the Notes, the Trust Deed, these Conditions, the Agency Agreement, the Intercreditor Agreement, the Security Documents, in each case, as amended, novated, supplemented (including pursuant to any Supplemental Trust Deed), extended, restated and/or replaced from time to time, and any other document designated as a "Transaction Document" by the Trustee acting in accordance with an Extraordinary Resolution of the Noteholders.

The following series of senior secured notes shall be issued by Optics on the Optics Notes Issue Date in addition to the Notes:

- 2.875% senior secured notes due 2026 (the "**2.875% Notes due 2026**") in exchange for 2.875% Notes due 2026 (the "**2.875% EUR TIM New Notes due 2026**") issued by TIM;
- 3.625% senior secured notes due 2026 (the "**3.625% Notes due 2026**") in exchange for 3.625% Notes due 2026 (the "**3.625% EUR TIM New Notes due 2026**") issued by TIM;
- 2.375% senior secured notes due 2027 (the "**2.375% Notes due 2027**") in exchange for 2.375% Notes due 2027 (the "**2.375% EUR TIM New Notes due 2027**") issued by TIM;
- 6.875% senior secured notes due 2028 (the "**6.875% Notes due 2028**") in exchange for 6.875% Notes due 2028 (the "**6.875% EUR TIM New Notes due 2028**") issued by TIM;

- 7.875% senior secured notes due 2028 (the "**7.875% Notes due 2028**") in exchange for 7.875% Notes due 2028 (the "**7.875% EUR TIM New Notes due 2028**") issued by TIM;
- 1.625% senior secured notes due 2029 (the "**1.625% Notes due 2029**") in exchange for 1.625% Notes due 2029 (the "**1.625% EUR TIM New Notes due 2029**") issued by TIM; and
- 5.250% senior secured notes due 2055 (the "**5.250% Notes due 2055**" and, together with the Notes, the 2.875% Notes due 2026, the 3.625% Notes due 2026, the 2.375% Notes due 2027, the 6.875% Notes due 2028, the 7.875% Notes due 2028 and the 1.625% Notes due 2029, the "**EUR Optics Notes**") in exchange for 5.250% Notes due 2055 (the "**5.250% EUR TIM New Notes due 2055**" and together with the 2.875% EUR TIM New Notes due 2026, the 3.625% EUR TIM New Notes due 2026, the 2.375% EUR TIM New Notes due 2027, the 6.875% EUR TIM New Notes due 2028, the 7.875% EUR TIM New Notes due 2028 and the 1.625% EUR TIM New Notes due 2029, the "**TIM New Notes**") issued by TIM.

1. **Form, Specified Denomination, Title and Transfers**

1.1 **Form and Denomination**

The Notes are issued in the specified denomination of €100,000 and integral multiples of €1,000 in excess thereof.

The Notes are represented by registered certificates ("**Certificates**") and, save as provided in Condition 1.4, each Certificate shall represent the entire holding of Notes by the same holder.

1.2 **Title**

Title to the Notes shall pass by registration in the register that Optics shall procure to be kept at the registered office of the Registrar in accordance with the provisions of the Agency Agreement (the "**Register**").

1.3 **Holder Absolute Owner**

Except as ordered by a court of competent jurisdiction or as required by law, the holder (as defined below) of any Note shall be deemed to be and may be treated as its absolute owner for all purposes whether or not it is overdue and regardless of any notice of ownership, trust or an interest in it, any writing on the Certificate representing it or the theft or loss of such Certificate and no person shall be liable for so treating the holder.

In these Conditions, "**Noteholder**" and "**holder**" means the person in whose name a Note is registered.

1.4 **Transfer**

A holding of Notes may, subject to Condition 1.8, be transferred in whole or in part upon the surrender (at the specified office of the Registrar or any Transfer Agent) of the Certificate(s) representing such Notes to be transferred, together with the form of transfer endorsed on such Certificate(s) (or another form of transfer substantially in the same form and containing the same representations and certifications (if any), unless otherwise agreed by Optics), duly completed and executed and any other evidence as the Registrar or Transfer Agent may reasonably require. In the case of a transfer of part only of a holding of Notes represented by one Certificate, a new Certificate shall be issued to the transferee in respect of the part transferred and a further new Certificate in respect of the balance of the holding not transferred shall be issued to the transferor. In the case of a transfer of Notes to a person who is already a holder of Notes, a new Certificate representing the enlarged holding shall only be issued against surrender of the Certificate representing the existing holding. All transfers of Notes and entries on the Register will be made in accordance with the detailed regulations concerning transfers of Notes scheduled to the Agency Agreement. The regulations may be changed by Optics, with the prior written approval of the Registrar and the Trustee. A copy of the current regulations will be made available at all reasonable times during normal business hours by the Registrar to any Noteholder upon request or may be provided by email to a Noteholder following their prior written request to the Registrar and provision of proof of holding and identity (in form satisfactory to the Registrar).

1.5 **Exercise of Options or Partial Redemption in Respect of Notes**

In the case of an exercise of an Optics' or Noteholders' option in respect of, or a partial redemption of, a holding of Notes represented by a single Certificate, a new Certificate shall be issued to the holder to reflect the exercise of such option or in respect of the balance of the holding not redeemed. In the case of a partial exercise of an option resulting in Notes of the same holding having different terms, separate Certificates shall be issued in respect of those Notes of that holding that have the same terms. New Certificates shall only be issued against surrender of the existing Certificates to the Registrar or any Transfer Agent.

1.6 **Delivery of New Certificates**

Each new Certificate to be issued pursuant to Condition 1.4 or 1.5 shall be available for delivery within three business days of receipt of a duly completed form of transfer or Put Notice and surrender of the existing Certificate(s). Delivery of the new Certificate(s) shall be made at the specified office of the Transfer Agent or of the Registrar (as the case may be) to whom delivery or surrender of such form of transfer, Put Notice or Certificate shall have been made or, at the option of the holder making such delivery or surrender as aforesaid and as specified in the relevant form of transfer or Put Notice or otherwise in writing, be mailed by uninsured post at the risk of the holder entitled to the new Certificate to such address as may be so specified, unless such holder requests otherwise and pays in advance to Optics or the relevant Transfer Agent or the Registrar (as the case may be) the costs of such other method of delivery and/ or such insurance as any of them may specify. In this Condition 1.6, "**business day**" means a day, other than a Saturday or Sunday, on which banks are open for business in the place of the specified office of the relevant Transfer Agent or the Registrar (as the case may be).

1.7 **Transfer or Exercise Free of Charge**

Certificates, on transfer, exercise of an option or partial redemption, shall be issued and registered without charge by or on behalf of the Issuer, the Registrar or any Transfer Agent, but upon payment of any tax or other governmental charges that may be imposed in relation to it (or the giving of such indemnity as Optics, the Registrar or the relevant Transfer Agent may require).

1.8 **Closed Periods**

No Noteholder may require the transfer of a Note to be registered (i) during the period of 15 days ending on (and including) the due date for redemption of that Note, (ii) during the period of 15 days prior to (and including) any date on which Notes may be called for redemption by Optics at its option pursuant to these Conditions, (iii) after any such Note has been called for redemption, or (iv) during the period of seven days ending on (and including) any Record Date.

2. **Status of Notes, Guarantee and Security**

2.1 **Status of Notes**

The Notes are unconditional, unsubordinated and secured obligations of Optics (or its successor) and rank *pari passu* among themselves and (save as aforesaid and for certain obligations required to be preferred by law) at least equally with all other unsubordinated obligations of Optics from time to time outstanding, including the liabilities under the Senior Facilities Agreement (as defined below), the EUR Optics Notes (other than the Notes) and the USD Optics Notes (as defined below).

2.2 **NetCo Guarantee**

On the Issue Date, the Notes will not be guaranteed.

If the Push-Down Merger has not occurred, subject to the Agreed Security Principles and certain material limitations pursuant to applicable laws and the terms of the Trust Deed, Optics shall procure that no later than the Guarantee and Collateral Grant Date, NetCo shall, by executing and delivering a supplemental trust deed to the Trustee, such supplemental trust deed being substantially in the form attached to the Trust Deed, unconditionally and irrevocably guarantee the due and punctual payment of all sums expressed to be payable by Optics under the Trust Deed and the Notes.

In these Conditions:

"**Guarantee and Collateral Grant Date**" means the date falling 60 days after the Acquisition Closing Date.

"**Guarantor**" means NetCo (from and including the date of the relevant supplemental trust deed entered into by it), together with any Additional Guarantor pursuant to Condition 2.3 (*Additional Notes Guarantees*).

Each Guarantor's obligations in respect of this Conditions 2.2 (*NetCo Guarantee*) or, as the case may be, 2.3 (*Additional Notes Guarantees*) below (each, a "**Guarantee**" and together the "**Notes Guarantees**") shall be contained in the Trust Deed. The Trust Deed shall also provide that the Trustee shall, subject to such amendment of, or supplement to, the Trust Deed as the Trustee may require and subject to the fulfilment of the conditions set out in the Trust Deed, but without the consent of the Noteholders, consent to any such Guarantee being provided by each Additional Guarantor.

Each Notes Guarantee will be on a joint and several basis with each other Guarantee, subject to any relevant enforceability exceptions, and to limitations on the amount of such Guarantee imposed by the laws of the relevant jurisdiction.

Each Notes Guarantee will constitute a direct and unconditional obligation of the relevant Guarantor and will rank at least *pari passu* with all other outstanding unsubordinated obligations of the relevant Guarantor, present and future, save for such obligations as may be preferred by provisions of law that are both mandatory and of general application.The agreed security principles included in the Trust Deed, as applied in good faith by Optics (the "**Agreed Security Principles**") apply to the granting of guarantees and security in respect of obligations under the Senior Facilities Agreement, the Senior Bridge Facility Agreement, the USD Optics Notes, the EUR Optics Notes and the Notes.

A Notes Guarantee of a Guarantor will be automatically and unconditionally released (and thereupon will terminate and be discharged and be of no further force and effect) and, in the case of (d) below, the Notes Guarantees of all Guarantors will be automatically and unconditionally released (and thereupon will terminate and be discharged and be of no further force and effect):

(a) so long as no Event of Default has occurred and is continuing, to the extent that such Guarantor is unconditionally released and discharged from its liability with respect to the Senior Facilities Agreement;

(b) in accordance with the provisions of the Intercreditor Agreement or any Additional Intercreditor Agreement (defined below);

(c) with respect to any Guarantor which is not the continuing or surviving Person in the relevant consolidation or merger, as a result of a transaction permitted by Condition 3.2 (*Mergers and Similar Events*), Condition 3.6 (*Push-Down Merger*) and the Trust Deed;

(d) upon full payment of all obligations of Optics and the Guarantors under the Trust Deed and the Notes; or

(e) in connection with a solvent liquidation of such Guarantor pursuant to which substantially all of the assets of such Guarantor remain owned by Optics or a Guarantor.

2.3 Additional Notes Guarantees

Optics will not cause or permit any of its Subsidiaries that are not Guarantors, other than Optics, directly or indirectly, to Guarantee any indebtedness under the Senior Facilities Agreement or the Senior Bridge Facility Agreement, in whole or in part unless, such Subsidiary becomes a Guarantor on the date on which such other Guarantee is incurred and, if applicable, executes and delivers a supplemental trust deed to the Trustee, such supplemental trust deed being substantially in the form attached to the Trust Deed, pursuant to which such Subsidiary will provide a Notes Guarantee, which Notes Guarantee will be *pari passu* with such Subsidiary's Guarantee, the Senior Facilities Agreement or the Senior Bridge Facility Agreement, as the case may be. Each Guarantor shall unconditionally and irrevocably guarantee on a joint and several basis (i) the due and punctual payment of all sums expressed to be payable by Optics under the Trust Deed and the Notes and (ii) the performance by Optics of all of its obligations under the Trust Deed and the Notes.

Notwithstanding the foregoing, Optics shall not be obligated to cause any Subsidiary to Guarantee the Notes or provide security to the extent and for so long as the incurrence of such Guarantee could reasonably be expected to give rise to or result in: (1) any violation of applicable law or regulation; (2) any liability for the officers, directors or (except in the case of a Subsidiary that is a partnership) shareholders of such Restricted Subsidiary (or, in the case of a Subsidiary that is a partnership, directors or shareholders of the partners of such partnership); (3) any cost, expense, liability or obligation (including with respect to any Taxes) other than reasonable out-of-pocket expenses and other than reasonable expenses incurred in connection with any governmental or regulatory filings required as a result of, or any measures pursuant to clause (1) of this paragraph undertaken in connection with, such Guarantee, which in any case under any of clauses (1), (2) and (3) of this paragraph cannot be avoided through measures reasonably available to Optics or a Restricted Subsidiary; or (4) an inconsistency with the Intercreditor Agreement or the Agreed Security Principles.

2.4 **Security**

The obligations of Optics under the Notes and the Trust Deed and the obligations of the Guarantors under the Notes Guarantees are secured in favour of (A) the Trustee for the benefit of itself (B) the Security Agent as *rappresentante* pursuant to article 2414-*bis*, paragraph 3, of the Italian Civil Code and (C) the Noteholders as a class, (together the "**Secured Creditors**") as follows:

(a) as of the Optics Notes Issue Date, by Italian law-governed first-ranking security interests granted by Optics Holdco S.r.l. ("**Optics HoldCo**") over: (i) the issued share capital of Optics held by Optics HoldCo; and (ii) receivables arising from material intercompany loans granted by Optics HoldCo to Optics (if any) (the "**Optics Notes Issue Date Collateral**");

(b) if the Push-Down Merger has not occurred, no later than the Guarantee and Collateral Date, by Italian law-governed first-ranking security interests granted by Optics over: (i) the issued share capital of NetCo held by Optics (on a basis whereby (a) the grant of security shall not trigger any tag-along rights in favour of any shareholder of NetCo and (b) the enforcement of such security will not be subject to any lock-up under any shareholder agreements relating to the shares in NetCo); and (ii) receivables arising from material intercompany loans granted by Optics to NetCo (the "**Optics Notes Post-Issue Collateral**");

(c) in the event that the Push-Down Merger cannot be effected with the security interests over the issued share capital of NetCo and/or receivables arising from material intercompany loans granted by Optics HoldCo to Optics remaining in place, such security interests shall be released in order to effect the Push-Down Merger and Optics HoldCo shall, within 20 Business Days following the Push-Down Merger, enter into replacement security over (i) the issued share capital of NetCo held by Optics HoldCo: and (ii) receivables arising from material intercompany loans granted by Optics HoldCo to NetCo, if any (the "**Optics Notes Replacement Collateral**"); and

(d) subsequent to the Issue Date, if any Subsidiaries of Optics, other than NetCo, grants security in connection with providing a Guarantee under the Senior Facilities Agreement or the Senior Bridge Facility Agreement (any such security, "**SFA or SBF Security**"), then Optics shall promptly notify the Trustee in writing and procure that as of the date that security equivalent to such SFA or SBF Security is granted over the obligations of Optics under the Notes and the Trust Deed and the obligations of each of the Guarantors under the relevant Guarantee shall be further secured in favour of the Secured Creditors (or such of the Secured Creditors as may be necessary under applicable legislation in order to create such security over the Notes) by the same security interest as such SFA or SBF Security (each such security interest, "**Additional Collateral**", and together with the Optics Notes Initial Collateral, the Optics Notes Post-Issue Collateral and the Optics Notes Replacement Collateral (if any), the "**Collateral**").

"**Security Documents**" means the security agreements, pledge agreements, collateral assignments, and any other instrument and document executed and delivered pursuant to the Trust Deed or otherwise or any of the foregoing, as the same may be amended, supplemented or otherwise modified from time to time, creating the security interests in the Collateral as contemplated by the Trust Deed.

All Collateral shall be subject to the operation of the Agreed Security Principles, certain significant limitations pursuant to applicable laws (including but not limited to applicable laws relating to financial assistance and rules and principles on corporate benefit), and any Permitted Encumbrances.

In addition to securing the Notes as aforesaid, the Collateral will secure the remaining EUR Optics Notes, the USD Optics Notes, liabilities under the Senior Facilities Agreement, the Senior Bridge Facility Agreement, any additional Notes and certain other future indebtedness on a *pari passu* basis with the Notes.

"**USD Optics Notes** " means, collectively the following dollar-denominated senior secured notes to be issued by Optics on the Optics Notes Issue Date pursuant to an indenture between, among, *inter alios*, Optics, as issuer, NetCo, as guarantor, Citibank, N.A., London Branch, as trustee and Unicredit S.p.A., as security agent and *mandatario con rappresentanza* and representative (*rappresentante*) of the holders from time to time pursuant to article 2414-*bis*, paragraph 3, of the Italian Civil Code: 6.375% senior secured notes due 2033; 6.000% senior secured notes due 2034; 7.200% senior secured notes due 2036; and 7.721% senior secured notes due 2038.

Subject to certain conditions, including compliance with Condition 3.3 (*Impairment of Security Interest*) and, subject to the Agreed Security Principles, the Collateral may also secure other indebtedness, including on a basis junior to and *pari passu* with the Notes, and Optics is permitted to grant security over the Collateral in connection with future issuances of its indebtedness, including any additional Notes, as permitted under the Trust Deed and the Intercreditor Agreement. Any proceeds received upon the enforcement over any Collateral will be applied *pro rata* in payment of all liabilities in respect of obligations under the Intercreditor Agreement, the Trust Deed and any other indebtedness secured by the Collateral on a *pari passu* basis.

By reason of accepting or acquiring a Note, each Noteholder, also in case of transfer of any of the Notes, shall be deemed to:

- have irrevocably agreed to appoint and accepted the appointment of the Security Agent to act as its agent under the Intercreditor Agreement and the other relevant documents to which it is a party (including, without limitation, the Security Documents);

- have irrevocably agreed to appoint, accepted and recognised the appointment of the Security Agent as *mandatario con rappresentanza* of the Trustee and the Noteholders pursuant to articles 1703, 1704 *et seq.* of the Italian Civil Code and as representative (*rappresentante*) of the Noteholders pursuant to and for the purposes of article 2414-*bis*, paragraph 3, of the Italian Civil Code;

- recognise the Security Agent as its representative (*rappresentante*) pursuant to and for the purposes of article 2414-bis, paragraph 3, of the Italian Civil Code, acting in its name and on its behalf under, in connection with, or in respect of the Collateral (in accordance with, and with the benefit of the full protection set out in, the Trust Deed and the Intercreditor Agreement), with express authorisation to self-dealing under any applicable law and also pursuant to article 1394 and article 1395 of the Italian Civil Code;

- agree to be bound by the terms of any document to which the Security Agent or the Trustee is or will be a party as if such Noteholder was itself a signatory thereto;

- have irrevocably authorised and instructed the Trustee to accede to the Intercreditor Agreement as Senior Notes Trustee (as such term is defined therein) on behalf of the Trustee and the Noteholders by delivering a completed and signed Creditor/Agent Accession Undertaking pursuant to and as defined in the Intercreditor Agreement;

- irrevocably authorised each of the Security Agent and the Trustee to: (a) perform the duties and exercise the rights, powers and discretions that are specifically given to it under the Intercreditor Agreement, the Trust Deed or other documents to which it is a party (including, without limitation, the Security Documents), together with any other incidental rights, power and discretions; and (b) execute each document, waiver, modification, amendment, renewal or replacement expressed to be executed by the Trustee or the Security Agent on its behalf and, in the case of the Security Agent also for the purposes of articles 1703, 1704 *et seq.* of the Italian Civil Code, as *mandatario con*

rappresentanza on behalf of the Trustee and the Noteholders and representative (*rappresentante*) of the Noteholders pursuant to article 2414-bis, paragraph 3, of the Italian Civil Code;

- have agreed and acknowledged that the Security Agent will administer the Collateral in accordance with the Intercreditor Agreement, the Trust Deed and the Security Documents;
- have granted to the Security Agent the power to negotiate and approve the terms and conditions of such Security Document governed by Italian law, execute any such Security Documents governed by Italian law, execute any other agreement or instrument (including without limitation those mentioned in the Security Documents governed by Italian law and those necessary or appropriate to confirm, extend and/or amend the security interest created under the Security Documents governed by Italian law), give or receive any notice or declaration, identify and specify to third parties the names of the Secured Creditors at any given date, and take any other action in relation to the creation, perfection, maintenance, enforcement and release of the security created thereunder, in each case in the name and on behalf of the Secured Creditors;
- have authorised the Trustee and the Security Agent (including in its capacity as representative (*rappresentante*) of the Noteholders pursuant to and for the purposes of article 2414-*bis*, paragraph 3, of the Italian Civil Code), as appropriate, to enter into any such Security Document, Intercreditor Agreement or Additional Intercreditor Agreement, as applicable, and to be bound thereby;
- have accepted the terms and conditions of the Security Documents (including, without limitation, the provisions providing for foreclosure and release of Collateral and authorising the Security Agent to enter into any Security Document on its behalf), Intercreditor Agreement and any Additional Intercreditor Agreement (as defined below);
- have granted to the Security Agent the power to take any action, whether substantial and/or procedural, claim or proceeding, including any interim actions, injunctions (*procedimenti cautelari or ingiuntivi*) or enforcement actions brought in connection with the Security Documents, the security interest created thereunder or the assets over which the security interest have been created (*legittimazione attiva and passiva*) in the name and on behalf of the Secured Creditors;
- have confirmed that in the event that any security created under the Security Documents governed by Italian law remains registered in the name of a Secured Creditor after it has ceased to be a Secured Creditor then the Security Agent shall remain empowered to execute a release of such security in its name and on its behalf;
- have undertaken to ratify and approve any such action taken in compliance with the Intercreditor Agreement, these Conditions and the Trust Deed and in the name and on behalf of the Secured Creditors by the Security Agent acting in its appointed capacity;
- without prejudice to the foregoing, have granted all the widest powers so that the Security Agent, through any of its legal representatives, executives, middle managers and/or attorneys, may, acting in the name and on behalf of each Secured Creditors:

(A) exercise all rights, powers and discretion, execute all documents and take all actions, which are expressed to be exercised, executed or taken by the Security Agent under or in connection with each Security Document or the Collateral created thereunder;

(B) execute:

(I) any amendment or supplement to each Security Document;

(II) all deeds and documents pursuant to any Security Document and any other deed or document contemplated by each of the Security Documents;

(III) any document for, or in connection with the release of the Collateral; and

(IV) take any enforcement action in respect of the Collateral; and

- have agreed that the Security Agent will be exempt from any reporting duty (*obbligo di rendiconto*) pursuant to article 1713 of the Italian Civil Code, save as in the case of its gross negligence (*colpa grave*) and wilful misconduct (*dolo*).

The appointment of the Security Agent as *mandatario con rappresentanza* of the Trustee and the Noteholders pursuant to articles 1703, 1704 *et seq.* of the Italian Civil Code and as *rappresentante* of the Noteholders pursuant to article 2414-*bis*, paragraph 3, of the Italian Civil Code in order to create and grant in its favor security interests and guarantees securing and guaranteeing the Notes and entitle it to exercise in the name and on behalf of the Noteholders all their rights (including any rights before any court and judicial proceedings) relating to such security interests and guarantees and as security agent generally shall remain in full force until the Notes are redeemed in full, unless such appointment is previously revoked or the Security Agent resigns, in accordance with the provisions of the Intercreditor Agreement and the Trust Deed.

The Noteholders shall not have any independent power to enforce, or have recourse to, the Collateral or to exercise any right, power, authority or discretion arising under the Security Documents except through the Security Agent in the manner contemplated by the Intercreditor Agreement and the Trust Deed.

Optics and/or the Guarantors will be entitled to require the release of the Collateral (in whole or in part) in accordance with and subject to the terms of the Intercreditor Agreement under any one or more of the following circumstances:

(a) upon payment in full of principal, interest and all other obligations on the Notes and under the Trust Deed or discharge or defeasance thereof;

(b) upon release of a Notes Guarantee of the Notes (with respect to the Encumbrances securing such Notes Guarantee granted by such Guarantor);

(c) in connection with any disposition of Collateral to any Person, except in the case of Collateral granted by (i) Optics HoldCo and (ii) prior to the Push-Down Merger, Optics;

(d) in connection with certain enforcement actions taken by the creditors under certain of Optics' secured indebtedness as provided under the Intercreditor Agreement, or otherwise any release in compliance with the Intercreditor Agreement;

(e) as may be permitted by Condition 3.3 (*Impairment of Security Interest*);

(f) in order to effectuate (i) except in the case of the Push-Down Merger, a merger, consolidation, conveyance or transfer conducted in compliance with Condition 3.2 (*Mergers and Similar Events*) and (ii) subject to the obligation to grant the Optics Notes Replacement Collateral pursuant to Condition 2.4, the Push-Down Merger, including the release and extinguishment of the security interests granted by Optics HoldCo over the issued share capital of Optics held by Optics HoldCo and receivables arising from material intercompany loans granted by Optics HoldCo to Optics (if any); and

(g) in connection with a Release Condition.

"**Release Condition**" means the long-term corporate credit rating of Optics is equal to or better than BBB- (or its equivalent) from at least two rating agencies; *provided* that at least one of such ratings agencies is either Standard & Poor's or Moody's.

Each of these releases shall be effected by the Security Agent (upon direction of the Trustee, acting in accordance with the Trust Deed and Intercreditor Agreement), provided that, in the event that the Trustee is required by Optics or any Guarantor or the Security Agent to consent to (or to instruct the Security Agent to effect) the release of Collateral in the circumstances set out above, the Trustee (and the Security Agent when instructed) shall only be obliged to do so if: (i) Optics delivers to the Trustee and the Security Agent a certificate signed by a director of Optics and a written opinion from legal counsel reasonably satisfactory to the Trustee and the Security Agent that the conditions or relevant condition under paragraphs (a)-(g) above and the Release Condition have been satisfied in relation to any such release and (ii) each of the Trustee and the Security Agent is indemnified and/or secured and/or prefunded to its satisfaction. The Trustee and the Security Agent shall not be liable to any person for (i) relying and

acting upon such certificate and opinion of counsel and/or (ii) effecting or giving effect to any such release.

Any release of the Collateral other than as set forth in paragraphs (a)-(g) above shall only be permitted in accordance with the Trust Deed and the Intercreditor Agreement.

Subject to the provisions of the Intercreditor Agreement, the Security Agent may only release the Collateral constituted by the Security Documents and the Trust Deed prior to the relevant discharge date provided under the Security Documents in accordance with, and in order to comply with, the Trust Deed, the Intercreditor Agreement, the Security Documents and these Conditions. Neither the Security Agent nor the Trustee shall be required to monitor, check or satisfy itself if the pre-conditions to any such release have been fulfilled and shall have no responsibility or liability whatsoever to Optics, the Noteholders, the other Secured Creditors or any other person in respect thereof.

Under and pursuant to the Intercreditor Agreement, the Trustee is entitled to seek instructions from the Noteholders (whether by way of Extraordinary Resolution or as otherwise provided under the Trust Deed) and, where it acts on the instructions of the Noteholders, the Trustee shall not incur any liability to any person for so acting. The Trustee is not liable to any person for any loss suffered as a result of any delay caused as a result of its seeking instructions from the Noteholders.

2.5 **Amendments to the Intercreditor Agreement and Additional Intercreditor Agreements**

In connection with the incurrence of any indebtedness by Optics or any of its Subsidiaries that is permitted to share in the Collateral (and which Optics elects shall share in the Collateral), the Trustee and the Security Agent shall, at the request of Optics, enter into with Optics, the relevant Subsidiaries and the holders of such indebtedness (or their duly authorised representatives) one or more intercreditor agreements or deeds (including a restatement, replacement, amendment or other modification of the Intercreditor Agreement) (an "**Additional Intercreditor Agreement**"), on substantially the same terms as the Intercreditor Agreement (or terms that are not materially less favourable to the Noteholders) and substantially similar as applies to sharing of the proceeds of security and enforcement of security, priority and release of security; *provided* that such Additional Intercreditor Agreement will not impose any personal obligations on the Trustee or the Security Agent or, in the opinion of the Trustee or the Security Agent, as applicable, or adversely affect the rights, duties, liabilities, disclaimers, indemnifications or immunities of the Trustee or the Security Agent under the Trust Deed or the Intercreditor Agreement. In connection with the foregoing, Optics shall furnish to the Trustee such documentation in relation thereto as it may reasonably require. As used herein, a reference to the Intercreditor Agreement will also include any Additional Intercreditor Agreement.

The Trust Deed will also provide that (subject to the terms of the Intercreditor Agreement), at the written direction of Optics and without the consent of Noteholders, the Trustee and the Security Agent shall from time to time enter into one or more amendments to any Intercreditor Agreement to: (a) cure any ambiguity, omission, defect or inconsistency of any such agreement; (b) increase the amount or types of indebtedness covered by any such Intercreditor Agreement that may be incurred by Optics or its Subsidiaries that is subject to any such Intercreditor Agreement; (c) add guarantors to the Intercreditor Agreement; (d) further secure the Notes (including additional Notes); (e) make provision to implement any Permitted Encumbrances in accordance with the terms of the Trust Deed; or (f) make any other change to any such agreement that is not, in the opinion of the Trustee, materially prejudicial to the interests of the Noteholders.

Optics shall not otherwise direct the Trustee or Security Agent to enter into any amendment to any Intercreditor Agreement without the consent of the holders of a majority in aggregate principal amount of the Notes then outstanding, except as permitted by the terms of the Trust Deed or such Intercreditor Agreement, and Optics may only direct the Trustee or Security Agent to enter into any amendment to the extent such amendment does not impose any personal obligations on the Trustee or Security Agent or, in the opinion of the Trustee or Security Agent, adversely affect their respective rights, duties, liabilities, disclaimers, indemnifications or immunities under the Trust Deed or any Intercreditor Agreement.

Each Noteholder, by reason of accepting or acquiring a EUR Optics Note, shall be deemed to have agreed to and accepted the terms and conditions of the Intercreditor Agreement (whether then entered into or entered into in the future pursuant to the provisions described herein) and to have authorised the Trustee and the Security Agent to enter into the Intercreditor Agreement, any amendments referenced in the

foregoing paragraphs of this covenant and any Additional Intercreditor Agreement on each Noteholder's behalf.

A copy of the Intercreditor Agreement and/or any Additional Intercreditor Agreement shall be made available to the holders of the Notes upon request and will be made available for inspection during normal business hours on any Business Day upon prior written request at the office of Optics.

3. Covenants

3.1 Restrictions on Security Interests

Neither Optics nor Optics HoldCo shall create or permit to subsist any Encumbrance (other than a Permitted Encumbrance) to secure Capital Markets Indebtedness over all or any of the present or future revenues or assets of: (a) Optics; or (b) any Subsidiary, except if the Notes are, subject to the Agreed Security Principles, secured equally and ratably with (in the case of Encumbrances with respect to Capital Markets Indebtedness that is *pari passu* with the Notes), or prior to (in the case of Encumbrances with respect to Capital Markets Indebtedness that is subordinated to the Notes) such Capital Markets Indebtedness for so long as such Capital Markets Indebtedness is so secured; *provided* that sub-paragraph (b) shall apply only to Financial Indebtedness of any Subsidiary where such Financial Indebtedness is secured by, or benefits from, any such Encumbrance and is also guaranteed by Optics under a Guarantee.

For the avoidance of doubt in respect of asset-backed financing (either by way of a securitization or otherwise) whereby the relevant assets are originated by Optics, the expression assets does not include assets which, pursuant to IFRS, currently need not be, and are not, reflected in the balance sheet of Optics.

"**Capital Markets Indebtedness**" means any obligation for the payment of borrowed money which is in the form of, or represented or evidenced by, any certificate of indebtedness, bond, note or other security which is listed or traded on a stock exchange or other recognised securities market issued by Optics or NetCo. For the avoidance of doubt: (a) Capital Markets Indebtedness shall not include any Non-recourse Securitization Debt; and (b) in respect of asset-backed financings originated by NetCo or Optics, the expressions "assets" and "obligations for the payment of borrowed money" as used in this definition do not include assets and obligations of NetCo or Optics which, pursuant to the requirements of law and accounting principles generally accepted in Italy, currently need not, and are not, reflected in the balance sheet of NetCo or Optics, as the case may be.

"**Encumbrance**" means: (a) any mortgage, charge, pledge, lien or other encumbrance (excluding any Guarantee) securing any obligation of any Person; and (b) any arrangement providing a creditor with a prior right to an asset, or its proceeds of sale, over other creditors in a liquidation.

"**Financial Indebtedness**" means, in respect of a Person:

(a) all indebtedness of that Person for borrowed money;

(b) all indebtedness under any acceptance credit opened on behalf of that Person, or in relation to any letter of credit issued for the account of that Person for the purpose of raising finance;

(c) the face amount of all bills of exchange for which that Person is liable;

(d) all indebtedness of that Person under any bond, debenture, note or similar instrument issued for the purpose of raising finance;

(e) all indebtedness of that Person under any interest rate or currency swap or forward currency sale or purchase or other form of interest or currency hedging transaction (including, amongst other things, caps, collars and floors);

(f) all payment obligations of that Person under any finance lease; and

(g) all liabilities of that Person (actual or contingent) under any guarantee, bond, security, indemnity or other agreement in respect of any Financial Indebtedness of any other Person.

For the avoidance of doubt, this definition excludes any Financial Indebtedness owed by one member of the Optics Group to another member of the Optics Group.

"**Guarantee**" means any guarantee, letter of credit, bond, indemnity or similar assurance against loss, or any obligation, direct or indirect, actual or contingent, to purchase or assume any indebtedness of any Person or to make an investment in or loan to any Person or to purchase assets of any Person where, in each case, such obligation is assumed in order to maintain or assist the ability of such Person to meet its indebtedness.

"**IFRS**" means International Financial Reporting Standards (formerly International Accounting Standards) endorsed from time to time by the European Union or any variation thereof with which Optics or its Subsidiaries are, or may be, required to comply.

"**Non-recourse Securitization Debt**" means any indebtedness incurred in respect of or in connection with any securitization or similar financing arrangement relating to assets owned by Optics or its Subsidiaries and where the recourse of the holders of such indebtedness against Optics is limited solely to such assets or any income generated therefrom (other than representations, repurchase obligations or other obligations customary in securitization transactions).

"**Optics Group**" means Optics and its Subsidiaries from time to time.

"**Permitted Encumbrance**" means:

(a) any Encumbrance in existence on the Optics Notes Issue Date;

(b) any Encumbrance over or affecting any asset acquired by Optics or its Subsidiaries after the Optics Notes Issue Date and subject to which such asset is acquired, if:

(i) such Encumbrance was not created in contemplation of the acquisition of such asset by Optics or its Subsidiaries;

(ii) the amount thereby secured has not been increased in contemplation of, or since the date of, the acquisition of such asset by Optics or its Subsidiaries;

(c) any netting or set-off arrangement entered into by any member of the Optics Group in the normal course of its banking arrangements (including any cash pooling, net balance, balance transfer or similar arrangements entered into by the Optics Group) for the purpose of netting debit and credit balances or the provision of general banking and overdraft facilities;

(d) any Encumbrance over or affecting any asset of any company which becomes a Guarantor after the Optics Notes Issue Date, where such Encumbrance is created prior to the date on which such company becomes a Guarantor, if:

(i) such Encumbrance was not created in contemplation of that company becoming a Guarantor; and

(ii) the amount thereby secured has not been increased in contemplation of, or since the date of, that company becoming a Guarantor;

(e) any Encumbrance by way of set-off, title transfer, retention of title arrangement, conditional sale agreements or trust relationships or other liens entered into by any member of the Optics Group in the ordinary course of business;

(f) Encumbrances created in substitution for any Encumbrance permitted under sub-paragraphs (a) and (b) over the same or substituted assets. This sub-paragraph only applies if:

(i) the principal amount secured by the substitute Encumbrance does not exceed the principal amount outstanding and secured by the initial Encumbrance; and

(ii) in the case of substituted assets, if the market value of the substituted assets at the time of the substitution does not exceed the market value of the assets replaced;

(g) Encumbrances created to secure: (i) loans provided, supported or subsidized by a governmental agency, export credit agency, national or multinational investment guarantee agency or a lending organization established by the United Nations, the European Union or other

international treaty organization, including, without limitation, the European Investment Bank, the European Bank for Reconstruction and Development and the International Finance Corporation; or (ii) Project Finance Indebtedness. This sub-paragraph (g) will, however, only apply if the Encumbrance is created on an asset of the project being financed by such loans (and/or on the shares in, and/or shareholder loans made to, the company conducting such project), or as the case may be, such Project Finance Indebtedness and remains confined to that asset (and/or shares and/or shareholder loans);

(h) Encumbrances arising out of the refinancing of any Capital Markets Indebtedness secured by any Encumbrance permitted by sub-paragraphs (a) through (g) above. These Encumbrances will, however, only be permitted if the amount of such Capital Markets Indebtedness is not increased (other than in connection with additional Capital Markets Indebtedness incurred in an amount equal to the premiums (including tender premiums), accrued and unpaid interest, expenses, defeasance costs and fees in connection with refinancing of any such Capital Markets Indebtedness) and is not secured by an Encumbrance over any additional assets;

(i) any Encumbrance arising by operation of law or regulation;

(j) any Encumbrance created in connection with convertible bonds or notes where the Encumbrance is created over the assets into which the convertible bonds or notes may be converted and secures only the obligation of Optics to effect the conversion of the bonds or notes into such assets;

(k) any Encumbrance created in the ordinary course of business to secure any Capital Markets Indebtedness under hedging transactions (other than hedging transactions for speculative purposes (as determined in good faith by Optics));

(l) any Encumbrance arising under finance leases, hire purchase, conditional sale agreements or other agreements for the acquisition of assets on deferred payment terms as permitted under the Trust Deed or otherwise in connection with any leasing (including sale and leaseback transactions), rent securitization (including ground rent), vendor financing or similar arrangements permitted by the Trust Deed;

(m) any Encumbrance created on short-term receivables used in any asset backed financing;

(n) any Encumbrance on real estate assets of Optics, any Subsidiary or any Person to which such real estate assets may be contributed by Optics or any Subsidiary in connection with the issuance of any indebtedness, whether such indebtedness is secured or unsecured by such real estate assets or any other assets of such Person to which real estate assets have been contributed by Optics or any Subsidiary;

(o) any Encumbrance arising by operation of law in respect of taxes being contested in good faith or required to be created in favour of any tax or other government authority or organization in order to appeal against or otherwise challenge tax assessments and/or claims in good faith;

(p) any Encumbrance created in connection with pension liabilities or partial retirement liabilities;

(q) any Encumbrance arising under or pursuant to the Senior Facilities Agreement, the Senior Bridge Facility Agreement or any refinancing thereof; and

(r) any other Encumbrance securing Capital Markets Indebtedness; *provided* that the aggregate outstanding principal amount of indebtedness secured thereunder does not exceed the greater of €1,000,000,000 or, if higher, 100% of Relevant EBITDA.

"**Person**" means any individual, corporation, partnership, joint venture, limited liability company, trust, unincorporated organization or government or agency or political subdivision thereof.

"**Project Finance Indebtedness**" means any indebtedness incurred by a debtor to finance the ownership, acquisition, construction, development and/or operation of an asset in respect of which the Person or Persons to whom such indebtedness is, or may be, owed have no recourse whatsoever for the repayment of or payment of any sum relating to such indebtedness other than:

(a) recourse to such debtor for amounts limited to the cash flow from such asset; and/or

(b) recourse to such debtor generally, which recourse is limited to a claim for damages (other than liquidated damages and damages required to be calculated in a specified way) for breach of an obligation, representation or warranty (not being a payment obligation, representation or warranty or an obligation, representation or warranty to procure payment by another or an obligation, representation or warranty to comply or to procure compliance by another with any financial ratios or other test of financial condition) by the Person against whom such recourse is available; and/or

(c) if such debtor has been established specifically for the purpose of constructing, developing, owning and/or operating the relevant asset and such debtor owns no other significant assets and carries on no other business, recourse to all of the assets and undertaking of such debtor and the shares in the capital of such debtor and shareholder loans made to such debtor.

"**Subsidiary**" means a corporation in respect of which more than 50% of the outstanding voting shares or equity interest having by the terms thereof ordinary voting power to elect a majority of the board of directors of such corporation (irrespective of whether at the time shares of any other class or classes of such corporation shall have or might have voting power by reason of the happening of any contingency) is at the time directly or indirectly owned or controlled by Optics or by one or more of its Subsidiaries, or by Optics and one or more Subsidiaries.

3.2 **Mergers and Similar Events**

So long as any Note remains outstanding, each of Optics and NetCo may consolidate or merge with another company or firm, sell or lease all or substantially all of its assets to another company or buy or lease all or substantially all of the assets of another company, provided that Optics shall not take any of these actions unless:

(a) where Optics or NetCo merges out of existence or sells or leases all or substantially all of its assets, the acquiring or resulting company assumes (a) all the then existing obligations of Optics or NetCo, as the case may be, (including, without limitation, all obligations under the Notes and the Trust Deed), either by law or contractual arrangements and (b) to the extent required by applicable law to effect such assumption, all obligations of the issuer of the Notes under the Trust Deed, the Intercreditor Agreement, the Agency Agreement and the Transaction Security Documents;

(b) if the other company is organized under the laws of a country other than the Republic of Italy, it indemnifies the Noteholders against: (i) any tax, assessment or governmental charge imposed on any such Noteholder or required to be withheld or deducted from any payment to such Noteholder or as a consequence of such merger, conveyance, transfer or lease; and (ii) any costs or expenses of the act of such merger, conveyance, transfer or lease; *provided however that*, if such company is incorporated in the Republic of Italy, such other company shall only be liable under such indemnity to pay any Additional Amounts (as defined below) on the same terms and subject to the same limitations already provided by Condition 7.1 below; and

(c) the merger, sale or lease of all or substantially all of the assets of Optics will not be an Event of Default (as defined in Condition 9 (*Events of Default*)) and no Event of Default or other event which, with the giving of notice or lapse of time or other condition (including, without limitation, certification from the Trustee), would be an Event of Default has occurred and is outstanding,

in each case, provided that Optics delivers to the Trustee a certificate signed by a director of Optics and a written opinion from legal counsel reasonably satisfactory to the Trustee as to compliance with the merger or assumption provisions set out in this Condition.

Notwithstanding the foregoing sub-paragraphs (b) and (c) of this Condition (which do not apply to the transactions referenced in this sentence),

(i) any Subsidiary may consolidate or otherwise combine with, merge into or transfer all or part of its properties and assets to Optics or another Subsidiary;

(ii) Optics may merge with or into an affiliate solely for the purpose of reincorporating such entity in another jurisdiction, changing the legal domicile of Optics or changing the legal form (but not the tax residency) of Optics; and

(iii) this covenant shall not apply in respect of the Push-Down Merger under Condition 3.6 (*Push-Down Merger*).

3.3 **Impairment of Security Interest**

Neither Optics or Optics HoldCo shall, and Optics shall not permit NetCo to, take or omit to take any action that would have the result of materially impairing the security interest with respect to the Collateral (it being understood that the incurrence of Permitted Encumbrances, or the confirmation or affirmation of security interests in respect of the Collateral, shall under no circumstances be deemed to materially impair the security interest with respect to the Collateral) for the benefit of the Secured Creditors, and neither Optics nor Optics HoldCo shall, and Optics shall not permit NetCo to, grant to any Person other than the Security Agent, for the benefit of the Secured Creditors and the other beneficiaries described in the Security Documents, any Encumbrance over any of the Collateral that is prohibited by Condition 3.1 (*Restrictions on Security Interests*); *provided*, that Optics, Optics HoldCo and NetCo may incur any Encumbrance over any of the Collateral that is not prohibited by Condition 3.1 (*Restrictions on Security Interests*), including Permitted Encumbrances, and the Collateral may be discharged, transferred, depleted, consumed or released in any circumstances not prohibited by the Trust Deed, the Intercreditor Agreement or the applicable Security Documents.

Notwithstanding the above, nothing in this covenant shall restrict the discharge and release of any Encumbrance in accordance with the Conditions and the Intercreditor Agreement. Subject to the foregoing, the Security Documents may be amended, extended, renewed, restated, supplemented or otherwise modified or released (followed by an immediate retaking of an Encumbrance of at least equivalent ranking over the same assets) to: (a) cure any ambiguity, omission, defect or inconsistency therein; (b) provide for Permitted Encumbrances; (c) add to the Collateral; or (d) make any other change thereto that does not, in the opinion of the Trustee, materially prejudice the interests of the Noteholders; *provided*, however, that, (except where permitted by the Conditions or the Intercreditor Agreement or to effect or facilitate the creation of Permitted Encumbrances for the benefit of the Security Agent and holders of other indebtedness incurred in accordance with the Trust Deed), no Security Document may be amended, extended, renewed, restated or otherwise modified or released (followed by an immediate retaking of an Encumbrance of at least equivalent ranking over the same assets), unless contemporaneously with such amendment, extension, renewal, restatement or modification or release (followed by an immediate retaking of an Encumbrance of at least equivalent ranking over the same assets), Optics delivers to the Security Agent and the Trustee, either: (i) a solvency opinion, in form and substance reasonably satisfactory to the Security Agent and the Trustee, from an Independent Financial Advisor or appraiser or investment bank which confirms the solvency of Optics and its Subsidiaries, taken as a whole, after giving effect to any transactions related to such amendment, extension, renewal, restatement, modification or release (followed by an immediate retaking of an Encumbrance of at least equivalent ranking over the same assets); (ii) a certificate from the chief financial officer or the Board of Directors of the relevant Person which confirms the solvency of the Person granting any such Encumbrance after giving effect to any transactions related to such amendment, extension, renewal, restatement, modification or replacement; or (iii) an opinion of counsel (subject to any qualifications customary for this type of opinion of counsel), in form and substance reasonably satisfactory to the Trustee, confirming that, after giving effect to any transactions related to such amendment, extension, renewal, restatement, supplement, modification or release (followed by an immediate retaking of a lien of at least equivalent ranking over the same assets), the Encumbrance created under the Security Document, so amended, extended, renewed, restated, modified or released and replaced are valid and perfected Encumbrances not otherwise subject to any limitation, imperfection or new hardening period, in equity or at law, that such Encumbrance or Encumbrances were not otherwise subject to immediately prior to such amendment, extension, renewal, restatement, supplement, modification or replacement and to which the new indebtedness secured by the Permitted Encumbrance is not subject.

In the event that Optics and NetCo comply with the requirements of this covenant, the Trustee and the Security Agent shall (subject to customary protections and indemnifications and in accordance with and subject to the terms of the Trust Deed) consent to such actions without requiring instructions from the Noteholders.

"**Independent Financial Advisor**" means an investment banking or accounting firm or any third party appraiser; *provided*, however, that such firm or appraiser is not an affiliate of Optics.

3.4 **Holding Companies**

Prior to the Push-Down Merger, Optics shall not carry on any material business other than:

(a) the holding of shares and other equity interests in NetCo;

(b) the making of loans to its Subsidiaries;

(c) the maintenance of a head office, related activities and other customary holding company activities and services (including the provision of consultancy, treasury and advisory services to members of the Optics Group);

(d) payment of dividends, distributions and payments on subordinated indebtedness;

(e) transactions and activities contemplated as part of the Transactions;

(f) the entry into, and the performance of its obligations and the exercise of its rights under:

(i) documents entered into in connection with the Transactions;

(ii) any other shareholder related arrangement not prohibited by the Trust Deed; and

(iii) any refinancing of indebtedness permitted under the Trust Deed (including, without limitation, any purchase agreement, escrow agreement, facilities agreement and/or other document entered into in connection with any such refinancing);

(g) incurring liabilities for or in connection with taxes and making claims (and receipt of related proceeds) for rebates or indemnification in respect of taxes;

(h) incurring liabilities arising by operation of law;

(i) in respect of any employment contracts for any employee of Optics;

(j) holding cash or cash equivalents;

(k) pursuant to a reorganization permitted under these Conditions;

(l) the taking of any administrative actions necessary to maintain its existence;

(m) in connection with any litigation or court or other similar proceedings that are, in each case, being contested in good faith;

(n) in connection with a listing of securities;

(o) any transaction constituting or relating to an equity contribution;

(p) any payments or other transactions or arrangements in connection with a hedging transactions; and/or

(q) in connection with any management equity plan, incentive scheme or similar arrangement or any loans to employees or management.

"**Transactions**" means: (a) the issuance of the EUR Optics Notes and the USD Optics Notes; (b) entering into Senior Facilities Agreement and the Senior Bridge Facility Agreement; (c) the equity contribution in connection with the Acquisition; (d) the use of proceeds as set forth under "*Use of Proceeds*" in this Exchange Offering Memorandum; (e) the consummation of the Acquisition; and (f) the payment of fees and expenses in connection with the foregoing transactions.

3.5 **Indebtedness**

Except as permitted under the Senior Facilities Agreement, NetCo shall not incur any indebtedness prior to the Push-Down Merger.

"Senior Facilities Agreement" means the senior facilities agreement dated 19 December 2023 between, among others, Optics, UniCredit S.p.A., as facility agent and security agent and the lenders named therein.

3.6 **Push-Down Merger**

Optics shall use commercially reasonable endeavours to complete the Push-Down Merger within six months of the Optics Notes Issue Date.

Following the Push-Down Merger, NetCo shall succeed to, and be substituted for, and may exercise every right and power of, and shall assume all of the existing obligations of the issuer under the Notes and the Trust Deed. To the extent that NetCo has provided a Notes Guarantee, in respect of the Notes prior to the Push-Down Merger, such Notes Guarantee shall be extinguished by operation of law.

"**Push-Down Merger**" means a merger pursuant to article 2501 bis of the Italian Civil Code of Optics with NetCo, with NetCo as the surviving entity.

Each Noteholder, by reason of accepting and holding a Note will be deemed to agree, for the purposes of articles 2503 *et seq*. of the Italian Civil Code, to the consummation of the Push-Down Merger and the assumption by NetCo of all obligations of Optics in respect of the Notes, the Conditions, the Trust Deed, the Agency Agreement, the Intercreditor Agreement and the relevant Security Documents in accordance with the terms of the Trust Deed upon completion of the Push-Down Merger.

Upon the Push-Down Merger, Optics will be replaced and substituted by NetCo (the "**Substituted Debtor**") as principal debtor in respect of the Notes provided that:

(a) following such merger the Noteholders (or the Security Agent on their behalf including in its capacity as representative (*rappresentante*) of the Noteholders pursuant to and for the purposes of article 2414-*bis*, paragraph 3 of the Italian Civil Code) will continue to have the same or substantially equivalent Security as they had immediately prior to the Push-Down Merger; and

(b) such documents, if any, shall be executed by the Substituted Debtor and Optics as may be necessary to give full effect to the substitution (the "**Documents**") and (without limiting the generality of the foregoing) pursuant to which the Substituted Debtor shall undertake in favour of each Noteholder and the Trustee to be bound by the Conditions and the provisions of the Trust Deed and Agency Agreement in full as if the Substituted Debtor had been named in the Notes and the Trust Deed and Agency Agreement as the principal debtor in respect of the Notes in place of Optics as issuer of the Notes.

In connection with any substitution effected pursuant to this Condition 3.6 (*Push-Down Merger*), neither Optics nor the Substituted Debtor need to have any regard to the consequences of any such substitution for individual Noteholders resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory and no Noteholder shall be entitled to claim from Optics or any Substituted Debtor under the Notes and any indemnification or payment in respect of any tax or other consequences arising from such substitution.

Upon the Push-Down Merger, the Substituted Debtor shall be deemed to be named in the Notes as the principal debtor in place of Optics and the Notes shall thereupon be deemed to be amended to give effect to the substitution. Upon the Push-Down Merger, Optics will be extinguished and, thus, released as issuer of the Notes from all of its obligations as principal debtor in respect of the Notes save that any claims under the Notes and the Trust Deed prior to release shall inure to the benefit of Noteholders and the Trustee.

The Documents, if any, shall be deposited with and held by the Trustee for so long as any Notes remain outstanding and for so long as any claim made against the Substituted Debtor by any Noteholder or the Trustee in relation to the Notes or the Documents shall not have been finally adjudicated, settled or discharged. The Substituted Debtor and Optics shall acknowledge in the Documents, if any, the right of every Noteholder to the production of the Documents for the enforcement of any of the Notes or the Documents. The Documents (a) shall be available for inspection or collection at all reasonable times

during normal business hours by the Noteholders at the principal office for the time being of the Trustee, being at the date of issue of the Notes at Citigroup Centre, Canada Square, London, E14 5LB, United Kingdom and at the specified office of the Paying Agents; or (b) may be provided by email to a Noteholder following their prior written request to the Trustee, any Agent or Optics therefor and provision of proof of holding and identity (in form satisfactory to the Trustee, the relevant Agent or Optics, as the case may be). The Noteholders are entitled to the benefit of, are bound by, and are deemed to have notice of, all the provisions of the Trust Deed, the Intercreditor Agreement and the Security Documents.

3.7 **Calculation of Ratios**

(a) In respect of any Measurement Period, the exchange rate used to calculate Total Net Debt shall be the same weighted average exchange rate for the same period used to calculate Consolidated EBITDA (provided that any amount of Financial Indebtedness will be stated so as to take into account the hedging effect of any currency hedging entered into in respect thereof).

(b) In respect of any period, the exchange rate used to calculate Borrowings shall be stated so as to take into account the hedging effect of any currency hedging entered into in respect thereof.

(c) (i) When determining Consolidated EBITDA for any period (including the portion thereof occurring prior to the relevant acquisition) Optics shall be permitted to:

(A) include the earnings before interest, tax, depreciation, amortisation and impairment charges (calculated on the same basis as Consolidated EBITDA, *mutatis mutandis*) for that period of any person, business or material real property acquired by the Optics Group during such period (each such person or business acquired an "**Acquired Entity or Business**") (**provided further that** Optics shall include such earnings to the extent that to do so would result in a decrease in Consolidated EBITDA for that period);

(B) include an adjustment in respect of each Acquired Entity or Business acquired during such period equal to or less than the amount of the Pro Forma Adjustment for such period consequent on the acquisition of such Acquired Entity or Business; and/or

(C) exclude any non-recurring costs and other expenses arising directly or indirectly as a consequence of the acquisition of such Acquired Entity or Business;

(ii) When determining Consolidated EBITDA for any period (including the portion thereof occurring prior to such sale, transfer or disposition) Optics shall be permitted to:

(A) exclude the earnings before interest, tax, depreciation, amortisation and impairment charges (calculated on the same basis as Consolidated EBITDA, *mutatis mutandis*) for that period of any person, business or material real property sold, transferred or otherwise disposed of by any member of the Optics Group during such period (each such person, business or property so sold, transferred or disposed of, a "**Sold Entity or Business**") (**provided further that** Optics shall exclude such earnings to the extent that to do so would result in a decrease in Consolidated EBITDA for that period); and/or

(B) include an adjustment in respect of each Sold Entity or Business sold, transferred or otherwise disposed of during such period equal to or less the amount of the Pro Forma Adjustment for such period consequent on the sale, transfer or other disposal of such Sold Entity or Business; and/or

(C) exclude any non-recurring costs and other expenses arising directly or indirectly as a consequence of the sale or disposal of such Sold Entity or Business; and

(iii) When determining Consolidated EBITDA for any period (including the portion thereof occurring prior to such implementation) Optics shall be permitted to:

(A) include an adjustment in respect of each restructuring, cost saving or other similar initiative (each a "Group Initiative") implemented by any member of the Optics Group during such period equal to or less than the amount of the Pro Forma Adjustment for such period consequent on the implementation of such Group Initiative; and/or

(B) exclude any non-recurring costs and other expenses arising directly or indirectly as a consequence of the implementation of such Group Initiative; and

(iv) When determining Consolidated EBITDA for any period (including the portion thereof occurring prior to such capital expenditure) Optics shall be permitted to include an adjustment in respect of any capital expenditure made during such period equal to or less the amount of the Pro Forma Adjustment for such period consequent on that capital expenditure.

For the purpose of this paragraph (c) "**Pro Forma Adjustment**" shall mean, for any period that includes any of the two Accounting Periods first following the acquisition of or investment in an Acquired Entity or Business, the sale, transfer or other disposal of a Sold Entity or Business, the implementation of a Group Initiative or the making of capital expenditure (the first of such two Accounting Periods starting in the Accounting Period in which such acquisition, investment, sale, transfer, disposal, implementation or expenditure occurred), with respect to Consolidated EBITDA, the pro forma increase in such Consolidated EBITDA projected by Optics after taking into account (for the full period) the full run rate effect of (as the case may be):

(1) all savings and other synergies which Optics (acting reasonably and as confirmed in writing by the chief financial officer of the Optics Group, or such other officer as is performing the functions of the chief financial officer) believes can be obtained in the 12 Month period following such acquisition, investment, sale, transfer, disposal or implementation by combining the operations of such Acquired Entity or Business with the operations of the Optics Group, as a consequence of the sale, transfer or other disposal of such Sold Entity or Business or as a result of implementing such Group Initiative; and

(2) all revenues which Optics (acting reasonably and as confirmed in writing by an officer of the Optics Group) believes can be obtained in the 12 Month period following such capital expenditure as a consequence of that capital expenditure),

provided that any such pro forma increase to Consolidated EBITDA shall be without duplication for savings, synergies or revenues actually realised during such period and already included in such Consolidated EBITDA.

4. Interest

4.1 Interest Rate and Interest Payment Dates

The Notes bear interest on their outstanding principal amount from and including the Optics Notes Issue Date at the rate of 7.750 per cent. per annum, payable annually in arrear in equal instalments of €77.50 per €1,000 principal amount of Notes on 24 January in each year (each an "**Interest Payment Date**") up to (and including) the Maturity Date, except that the first payment of interest, to be made on [January 24, 2025], will be in respect of the period from and including the Optics Notes Issue Date to but excluding the first Interest Payment Date, being [January 24, 2025]. In these Conditions, "**Interest Period**" means the period beginning on and including the Optics Notes Issue Date and ending on but excluding the first Interest Payment Date and each successive period beginning on and including an Interest Payment Date and ending on but excluding the next succeeding Interest Payment Date.

4.2 Interest Accrual

Each Note will cease to bear interest from and including its due date for redemption unless, upon surrender of the Certificate representing such Note, payment of the principal in respect of the Note is improperly withheld or refused or unless default is otherwise made in respect of payment. In such event interest will continue to accrue as provided in the Trust Deed.

4.3 **Calculation of Broken Interest**

(a) If the Accrual Period is shorter than an Interest Period, the amount of interest payable per €1,000 in principal amount of the Notes (the "**Calculation Amount**") for such period shall be equal to the product of the applicable percentage of interest, the Calculation Amount and the Day-Count Fraction,

where:

"**Day-Count Fraction**" means the number of days in the Accrual Period divided by 365; and

"**Accrual Period**" means the relevant period for which interest is to be calculated (from and including the first such day to but excluding the last); and

(b) The resultant figure shall be rounded to the nearest cent, half a cent being rounded upwards. The interest payable in respect of the Notes shall be the product of such rounded figure and the amount by which the Calculation Amount is multiplied to reach the denomination of the Notes, without any further rounding.

5. **Payments**

5.1 **Method of Payment**

(a) Payments of principal shall be made by the Paying Agent (subject to surrender of the relevant Certificates at the specified office of any Paying Agent or of the Registrar if no further payment falls to be made in respect of the Notes represented by such Certificates) in the manner provided in paragraph (b) below.

(b) Interest on each Note shall be paid to the person shown on the Register at the close of business on the fifteenth business day before the due date for payment thereof (the "**Record Date**"). Payments of interest on each Note shall be made by credit or transfer to a euro account specified by the payee and maintained with a bank in a city in which banks have access to T2. For the purposes of these Conditions, "**T2**" means the real time gross settlement system operated by the Eurosystem, or any successor system.

(c) If the amount of principal being paid upon surrender of the relevant Certificate is less than the outstanding principal amount of such Certificate, the Registrar will annotate the Register with the amount of principal so paid and will (if so requested by Optics or a Noteholder) issue a new Certificate with a principal amount equal to the remaining unpaid outstanding principal amount. If the amount of interest being paid is less than the amount then due, the Registrar will annotate the Register with the amount of interest so paid.

5.2 **Payment subject to Laws**

All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives in the place of payment. No commission or expenses shall be charged to the Noteholders in respect of such payments.

5.3 **Appointment of Agents**

The Principal Paying Agent, the Registrar and the Transfer Agents initially appointed by Optics and their respective specified offices are listed below. The Principal Paying Agent, the Registrar and the Transfer Agents act solely as agents of Optics and do not have any fiduciary duties or assume any obligation or relationship of agency or trust for or with any Noteholder. Optics reserves the right at any time with the approval of the Trustee to vary or terminate the appointment of the Principal Paying Agent, the Registrar or any Transfer Agent and to appoint additional or other Transfer Agents, provided that Optics shall at all times maintain (i) a Principal Paying Agent, (ii) a Registrar, (iii) a Transfer Agent, and (iv) such other agents as may be required by any other stock exchange on which the Notes may be listed, in each case, as approved by the Trustee.

Notice of any such change or any change of any specified office shall promptly be given by Optics to the Noteholders in accordance with Condition 12 (*Notices*).

5.4 **Delay in Payment**

Noteholders will not be entitled to any interest or other payment for any delay after the due date in receiving the amount due on a Note if the due date is not a Business Day or if the Noteholder is late in surrendering or cannot surrender its Certificate (if required to do so).

5.5 **Non-Business Days**

If any date for payment in respect of any Note is not a business day, the holder shall not be entitled to payment until the next following business day nor to any interest or other sum in respect of such postponed payment. In this Condition 5, "**business day**" means a day (other than a Saturday or a Sunday) on which banks and foreign exchange markets are open for business in the place in which the specified office of the Paying Agent and the Registrar is located and which is a TARGET Business Day.

"**TARGET Business Day**" means any day on which T2 is open for the settlement of payments in euro.

6. **Redemption and Purchase**

6.1 **Redemption at Maturity**

Unless previously redeemed or purchased and cancelled, Optics will redeem the Notes on January 24, 2033 (the "**Maturity Date**") in an amount equal to the principal amount (the "**Final Redemption Amount**").

6.2 **Redemption for Taxation Reasons**

Optics may redeem the Notes, in whole, but not in part, at any time upon giving not less than 10 nor more than 60 days' prior notice to the Trustee, the Principal Paying Agent and the Noteholders (which notice will be irrevocable and distributed to Noteholders in the manner as described in Condition 12 (*Notices*)), at a redemption price equal to 100% of the principal amount thereof, together with accrued and unpaid interest, if any, to, but excluding, the date fixed by Optics for redemption (the "**Tax Redemption Date**") and all Additional Amounts (as defined below) (if any) then due and that will become due on the Tax Redemption Date as a result of the redemption or otherwise (subject to the right of Noteholders of record on the relevant record date to receive interest due on an Interest Payment Date that is prior to the Tax Redemption Date and Additional Amounts (if any) in respect thereof), if on the next date on which any amount would be payable in respect of the Notes, a Payor (as defined below) is or would be required to pay Additional Amounts, and the Payor cannot avoid any such payment obligation by taking reasonable measures available to it, including the appointment of a different Paying Agent (provided that changing the jurisdiction of the Payor is not a reasonable measure for purposes of this section), as a result of:

(a) any change in, or amendment to, the laws or treaties (or any regulations, protocols or rulings promulgated thereunder) of a Tax Jurisdiction (as defined in Condition 7 (*Taxation*)) affecting taxation, which change or amendment is publicly announced or becomes effective on or after the Optics Notes Issue Date (or, if the relevant Tax Jurisdiction was not a Tax Jurisdiction on such date, the date on which such Tax Jurisdiction became a Tax Jurisdiction under the Trust Deed);

(b) any change in, or amendment to, the existing official position or the introduction of an official position regarding the application, administration or interpretation of such laws, treaties, regulations, protocols or rulings (including a holding, judgment or order by a court of competent jurisdiction or a change in published practice), which change or amendment regarding the application, administration or interpretation is publicly announced or becomes effective on or after the Optics Notes Issue Date (or, if the relevant Tax Jurisdiction was not a Tax Jurisdiction on such date, the date on which such Tax Jurisdiction became a Tax Jurisdiction under the Trust Deed) (each of the foregoing sub-paragraphs (a) and (b), a "**Change in Tax Law**"); or

(c) the merger of the Payor into another Person or the conveyance, transfer or lease of all or substantially all of the Payor's assets, unless the sole purpose of such a merger would be to permit Optics to redeem the EUR Optics Notes.

Optics will not give any such notice of redemption earlier than 90 days prior to the earliest date on which the Payor would be obligated to pay Additional Amounts if a payment in respect of the Notes were then

due, and unless at the time such notice is given, the obligation to pay Additional Amounts remains in effect.

Prior to the publication or, where relevant, sending of any notice of redemption of the Notes pursuant to this Condition, Optics will deliver to the Trustee an opinion of counsel in form and substance reasonably satisfactory to the Trustee stating that there has been such a Change in Tax Law which would cause the Payor to be or become obligated to pay Additional Amounts. In addition, before Optics publishes or sends notice of redemption of the Notes as described above, it will deliver to the Trustee an certificate signed by a director of Optics stating that Optics is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to its right so to redeem have been satisfied and, where relevant, that the obligation to pay Additional Amounts cannot be avoided by Optics taking reasonable measures available to it.

The Trustee shall be entitled to accept such director's certificate and opinion of counsel as sufficient evidence, without further inquiry, of the existence and satisfaction of the conditions precedent as described above, in which event it will be conclusive and binding on the Noteholders.

6.3 **Redemption at the Option of Optics (Make-Whole Call)**

Optics may, having given:

(a) not less than 10 nor more than 60 days' notice to the Noteholders in accordance with Condition 12 (*Notices*); and

(b) notice to the Trustee and the Principal Paying Agent not less than 10 days before the giving of the notice referred to in (a);

(which notices shall be irrevocable and shall specify the date fixed for redemption (the "**Optional Redemption Date**")), redeem all (but not some only) of the Notes at the Optional Redemption Amount together, if appropriate, with interest accrued to (but excluding) the Optional Redemption Date.

For the purposes of this Condition 6.3, the "**Optional Redemption Amount**" will be an amount, as calculated by Optics or on behalf of Optics by such Person as Optics shall designate (which for the avoidance of doubt shall not include the Trustee, the Principal Paying Agent, the Registrar or the Transfer Agent), which is the higher of:

(a) 101 per cent. of the principal amount of the Notes to be redeemed; and

(b) as determined by the Reference Dealers (as defined below), the sum of the then current values of the remaining scheduled payments of principal and interest to the First Call Date (as defined below) (not including any interest accrued on the Notes to, but excluding, the Optional Redemption Date) discounted to the First Call Date on an annual basis (based on the actual number of days elapsed divided by 365 or (in the case of a leap year) by 366) at the Reference Bond Rate (as defined below) *plus* the Redemption Margin,

plus, in each case, any interest accrued on the Notes to, but excluding, the Optional Redemption Date.

As used in this Condition 6.3:

"**Redemption Margin**" shall be:

(a) 0.40 per cent. per annum

"**Reference Bond**" shall be the direct obligation of the Federal Republic of Germany (*Bunds* or *Bundesanleihen*) with a constant maturity (as officially compiled and published in the most recent financial statistics that has become publicly available at least two Business Days (but not more than five Business Days) prior to the Optional Redemption Date (or, if such financial statistics are not so published or available, any publicly available source of similar market data selected in good faith by Optics)) most nearly equal to the period from the Optional Redemption Date to the First Call Date;

"**Reference Bond Rate**" means with respect to the Reference Dealers and the Optional Redemption Date, the average of the four quotations of the mid-market semi-annual yield to maturity of the Reference

Bond or, if the Reference Bond is no longer outstanding, a similar security in the reasonable judgement of the Reference Dealers at 11.00 a.m. London time on the third business day in London preceding the Optional Redemption Date quoted in writing to Optics by the Reference Dealers; and

"**Reference Dealers**" shall be each of the four banks selected by Optics which are primary European government security dealers, and their respective successors, or market makers in pricing corporate bond issues.

All Notes in respect of which any such notice is given under this Condition 6.3 shall be redeemed on the date specified in such notice in accordance with this Condition 6.3.

6.4 **Redemption at the Option of Optics (Issuer Par Call)**

Optics may, having given:

(a) not less than 10 nor more than 60 days' notice to the Noteholders in accordance with Condition 12 (*Notices*); and

(b) notice to the Trustee and the Principal Paying Agent not less than 10 days before the giving of the notice referred to in (a),

(which notices shall be irrevocable and shall specify the date fixed for redemption), redeem the Notes then outstanding in whole or in part, at any time during the period commencing on (and including) the day that is 90 days prior to the applicable maturity date of such series of Notes to be redeemed (the "**First Call Date**") to (but excluding) the applicable maturity date of the Notes to be redeemed, at a redemption price equal to 100% of the principal amount of the Notes redeemed, together (if appropriate) with interest accrued but unpaid to (but excluding) the date fixed for redemption.

6.5 **Redemption at the option of the Noteholders (Change of Control Put)**

If a Put Event (as defined below) has occurred, upon any Noteholder giving notice to Optics during the period ending on the 60th day following the public announcement that the relevant Change of Control has occurred (the "**CoC Notice Period**"), Optics will redeem the Notes on the Business Day which is 7 days after the expiration of the CoC Notice Period, at an amount equal to 100% of the principal amount of the Notes to be redeemed, together, if appropriate, with interest accrued to (but excluding) such redemption date.

Promptly upon Optics becoming aware that a Put Event has occurred, Optics shall give notice to the Trustee, the Principal Paying Agent and the Noteholders in accordance with Condition 12 (*Notices*) specifying (i) that Noteholders are entitled to exercise their put option during the CoC Notice Period; and (ii) all information material to Noteholders in relation to the Change of Control.

To exercise the right to require redemption of the Notes the Noteholder must deliver, at the specified office of any Paying Agent or the Registrar at any time during normal business hours of such Agent falling within the notice period, a duly completed and signed notice of exercise in the form (for the time being current) obtainable from any specified office of any Paying Agent (a "**Put Notice**") and in which the Noteholder must specify a bank account to which payment is to be made under this Condition 6.5 and the Put Notice must be accompanied by the Certificate representing such Notes or evidence satisfactory to the Registrar or any Paying Agent concerned that the Notes will, following delivery of the Put Notice, be held to its order or under its control.

Any Put Notice given by a holder of any Note pursuant to this Condition 6.5 shall be irrevocable except where, prior to the due date of redemption, an Event of Default has occurred and is continuing, in which event such holder, at its option, may elect by notice to Optics to withdraw the notice given pursuant to this Condition 6.5 and instead to declare such Note forthwith due and payable pursuant to Condition 9 (*Events of Default*).

For the purposes of this Condition 6.5:

(a) a **Change of Control** shall be deemed to occur if more than 50 per cent. of the share capital of Optics and (i) more than 50 per cent. of the voting rights normally exercisable at a general meeting of Optics, or (ii) the power to appoint a majority of the board of directors of Optics or of any other equivalent governing body whether through the ownership of voting capital, by contract or otherwise, is acquired, directly or indirectly, by any Person (other than Reference Shareholders and any of their respective Subsidiaries);

For the purposes of this definition:

"**Person**" means any individual, company, corporation, firm, partnership, joint venture, association, organisation, state or agency of a state or other entity, whether or not having separate legal personality.

"**Reference Shareholders**" means KKR and any funds or partnerships managed or advised, directly or indirectly, by KKR or an Affiliate thereof, and any limited partner of or co-investor with any such partnership or fund or an Affiliate thereof.

"**Affiliate**" of any specified Person means any other Person, directly or indirectly, controlling or controlled by or under direct or indirect common control with such specified Person. For the purposes of this definition, "control" when used with respect to any Person means the power to direct the management and policies of such Person, directly or indirectly, whether through the ownership of voting securities, by contract or otherwise; and the terms "controlling" and "controlled" have meanings correlative to the foregoing.

(b) **Investment Grade Rating**, means a Rating at least equal to BBB-/Baa3 or better;

(c) a **Negative Event** will be deemed to have occurred if:

(i) there are two or more Investment Grade Ratings and (a) such Investment Grade Ratings are reduced to below Investment Grade by two or more Rating Agencies during the period ending on the 30th day after the date of the public announcement of the occurrence of the Change of Control and (b) the Relevant Leverage Ratio would have been greater than 6.0 to 1.0 after giving pro forma effect to such Change of Control; or

(ii) only one Investment Grade Rating is outstanding and (a) such Investment Grade Rating is reduced to below an Investment Grade Rating by the relevant Rating Agency during the period ending on the 30th day after the date of the public announcement of the occurrence of the Change of Control and (b) the Relevant Leverage Ratio would have been greater than 6.0 to 1.0 after giving pro forma effect to such Change of Control; or

(iii) in the case where on the 30th day after the date of the public announcement of the occurrence of the Change of Control, there is no Investment Grade Rating as of such date, the Relevant Leverage Ratio would have been greater than 6.0 to 1.0 after giving pro forma effect to such Change of Control;

(d) a "**Put Event**" will be deemed to have occurred if, during the period from and including the Optics Notes Issue Date to but excluding the Maturity Date, there occurs a Change of Control and, during the period ending on the 30th day after the date of the public announcement of the occurrence of the Change of Control, a Negative Event occurs;

(e) "**Rating**" means any long-term credit rating assigned to Optics by any Rating Agency; and

(f) "**Rating Agency**" means Moody's Investors Service Ltd. or any of its subsidiaries or their successors (Moody's), Fitch Ratings Limited or any of its subsidiaries or their successors

(Fitch) and S&P Global Ratings Europe Limited or any of its subsidiaries or their successors (S&P), or any rating agency with equivalent international standing substituted for any of them (or any permitted substitute of them) specified from time to time by Optics from time to time.

(g) "**Relevant Leverage Ratio**" means the ratio of Total Net Debt on the last day of the most recently completed Measurement Period to Adjusted Reported EBITDA (calculated on a pro forma basis) for that Measurement Period.

(h) "**Total Net Debt**" means, at any time, the aggregate principal amount of all Borrowings of the Optics Group, but:

(i) excluding all leases (regardless of the accounting treatment thereof);

(ii) deducting the pro rata share of which is attributable to any third party (not being a member of the Optics Group) which is a shareholder (or holds an equivalent ownership interest) in any member of the Optics Group, unless such Financial Indebtedness is guaranteed by one or more other members of the Optics Group which are not Subsidiaries of the borrower of such Financial Indebtedness; and

(iii) deducting the aggregate amount of cash and cash equivalents held by each member of the Optics Group,

(iv) and so that no amount shall be included or excluded more than once.

"**Accounting Principles**" means generally accepted accounting principles in Italy or IFRS, in each case to the extent applicable to the relevant financial statements and as applied by Optics from time to time.

"**Adjusted Reported EBITDA**" means, for any Measurement Period Consolidated EBITDA for such period, adjusted to deduct the cash portion of any recurring payments (excluding any principal amount repayment) attributable to any lease that would not have been considered as a finance lease in accordance with IFRS as applied immediately prior to the adoption of IFRS 16 (*Leases*).

"**Borrowings**" means, at any time, Financial Indebtedness excluding, for the avoidance of doubt:

(a) any liabilities due under any derivative agreement; *provided* that any amount of Financial Indebtedness will be stated so as to take into account the hedging effect of currency hedging entered into in respect thereof and; *provided further* that that where such agreement provides for netting to occur only the net amount of the payment obligation outstanding from the relevant member of the Optics Group thereunder after such netting-off has occurred shall be included; and

(b) any liabilities of the type referred to in paragraph (k) or (l) of the definition of Financial Indebtedness to the extent relating to indebtedness already included within this definition or to any of the items referred to in paragraph (a) above.

"**Consolidated EBITDA**" means, for any period, Net Income for such period with the following adjustments (without double counting and without deducting or adding back amounts not otherwise included or, as the case may be, deducted in the calculation of Net Income or in this definition):

(a) **before deducting** Interest Payable, any other interest and any payment-in-kind interest for which any member of the Optics Group is liable (for the avoidance of doubt, including any costs relating to factoring or discounting arrangements and any cost relating to the issue or maintenance of any bond, letter of credit, guarantee or other assurance against financial loss) and any deemed finance charge in respect of any pension liabilities and/or other provisions (and any other debt or equity finance related fee or cost or post-retirement benefit scheme costs charged to finance costs in accordance with the Accounting Principles);

(b) **after deducting** Interest Income and/or any other Interest accruing in favour of any member of the Optics Group;

(c) **before deducting** any amount of Tax (including deferred tax) on profits, gains or income payable by or deducted for any member of the Optics Group;

(d) **after adding back** any amount attributable to any amortisation or impairment whatsoever, any depreciation whatsoever (including any write down of fixed assets) and any costs or provisions relating to any MEP or any share option or incentive scheme of any member of the Optics Group;

(e) **after adding or deducting** (as the case may be), the effect (positive or negative) of any one-off, non-recurring, extraordinary, unusual or exceptional item or amount (including, for the avoidance of doubt, gain, loss, charge or expense);

(f) **after deducting** any gain over book value arising in favour of a member of the Optics Group on the disposal of any asset (not including any disposal made in the ordinary course of trading) during such period and any gain arising on any revaluation of any asset during such period; **after adding back** any loss against book value incurred by a member of the Optics Group on the disposal of any asset (not including any disposal made in the ordinary course of trading) during such period and any loss arising on any revaluation of any asset during such period;

(g) **after adding back** Transaction Costs;

(h) **after adding back** an amount equal to the amount of any reduction, and **after deducting** an amount equal to the amount of any increase, in Net Income of the Optics Group as a result of a revaluation of assets and liabilities of members of the Optics Group which would not have occurred but for the occurrence of the Transactions;

(i) **after adding back** the amount of any management, consulting, investor, monitoring, advisory and director fees, expenses and compensation (together with any other amounts paid under the Service Agreements) paid by any member of the Optics Group to the Investors (directly or indirectly);

(j) **after adding back** any fees, costs or charges of a non-recurring nature related to any equity offering, compensation payments to departing management, investments (including any investment in a joint venture), acquisitions or indebtedness (in each case, whether or not successful);

(k) **after adding back** any restructuring costs recognised during such period;

(l) **excluding** any unrealised foreign exchange gains and losses, including any arising on translation of currency debt, and before taking account of any hedging gains and losses relating to finance costs and taking no account of any unrealised gains or losses on any financial instrument (other than any derivative instrument which is accounted for on a hedge accounting basis or similar);

(m) **excluding** any gain or loss arising directly or indirectly on the acquisition by any member of the Optics Group of all or part of any debt instrument (in each case to the extent otherwise included);

(n) **excluding** the impact of any other unrealised gains or losses arising from the application of IAS 32/39 and any debits to profits relating to the write-off of Transaction Costs;

(o) **before deducting** any dividends paid or declared but unpaid;

(p) **including** the consolidated earnings from operating activities of any unconsolidated entities received as a dividend or distribution by any member of the Optics Group during such period; and

(q) **including** the amount of any Net Income (or **excluding** any loss) of any member of the Optics Group which is attributable to any third party which is a shareholder in such member of the Optics Group.

"**Equity Contribution**" means:

(a) any subscription for shares issued by, and any capital contributions to, Optics in each case); and/or

(b) any loans, notes, bonds or like instruments issued by or made to Optics which are subordinated to the Optics Notes pursuant to the Intercreditor Agreement.

"**Financial Indebtedness**" means (without double counting) any indebtedness (including any fixed or minimum premium payable on maturity) in respect of or arising under:

(a) moneys borrowed (including overdrafts); or

(b) moneys raised including moneys raised under or pursuant to any debenture, bond (other than a performance or advance payment bond or other similar instrument issued in the ordinary course of trading), note or loan stock or other similar instrument; or

(c) any acceptance credit (or dematerialised equivalent); or

(d) receivables sold or discounted (otherwise than on a non-recourse basis and only to the extent of any recourse); or

(e) the acquisition cost of any asset to the extent payable more than 180 days after the time of acquisition or possession by the person liable as principal obligor for the payment thereof (or, if the relevant supplier customarily allows a period for payment, if later, the date 180 days after the expiry of that period, but only to the extent payment on such later date would not be in breach of the terms of any relevant contract with that supplier) or where the deferred payment is arranged primarily as a method of raising finance or financing the acquisition of the asset acquired (for the avoidance of doubt excluding where the payment deferral results from the delayed or non-satisfaction of contract terms by the supplier or from contract terms establishing payment schedules tied to total or partial contract completion and/or to the results of operational testing procedures and excluding, for the avoidance of doubt, earn outs and other contingent consideration arrangements); or

(f) the sale price of any asset to the extent paid by the person liable more than 180 days before the time of sale or delivery or where the advance payment is arranged primarily as a method of raising finance (except any such arrangement entered into in the ordinary course of trading); or

(g) finance leases, capital leases, credit sale or conditional sale agreements (whether in respect of land, buildings, plant, machinery, equipment or otherwise) which are treated as finance leases or capital leases in accordance with the Accounting Principles (but only to the extent of such treatment); or

(h) [reserved]; or

(i) the amount payable by any member of the Optics Group to any person which is not a member of the Optics Group in respect of the redemption of any share capital or other securities

convertible into share capital issued by it or any other member of the Optics Group (other than in connection with any MEP, incentive scheme or similar arrangement); or

(j) amounts raised under any other transaction not of a type or nature contemplated by the other paragraphs of this definition having the commercial effect of a borrowing and required to be accounted for as such under the Accounting Principles; or

(k) any counter-indemnity obligation in respect of a guarantee, indemnity, bond, standby letter of credit or other instrument issued by a bank or financial institution, in each case in respect of an underlying liability of an entity which is not a member of the Optics Group which would fall within one of the other paragraphs of this definition; or

(l) any guarantee, indemnity or similar assurance against financial loss of any person in respect of any indebtedness falling within paragraphs (a) to (k) inclusive of this definition,

and so that, where the amount of Financial Indebtedness falls to be calculated or where the existence (or otherwise) of any Financial Indebtedness is to be established:

(A) Financial Indebtedness owed by one member of the Optics Group to another member of the Optics Group shall not be taken into account);

(B) in relation to any bank accounts subject to netting, cash pooling, net balance, balance transfer or similar arrangements, only the net balance shall be used;

(C) no amount due or outstanding in respect of any Equity Contribution shall be taken into account; and

(D) no pension scheme or other post-employment benefit scheme liabilities shall be taken into account.

"**Holding Company**" means, in relation to any person, any other person in respect of which it is a subsidiary.

"**Interest**" means interest and amounts in the nature of interest paid or payable in cash in respect of any Borrowings including, without limitation:

(a) the interest element of any lease, hire purchase or similar agreement but excluding only those leases that are accounted for as investment property under IAS 40;

(b) discount and acceptance fees payable (or deducted) in respect of any Borrowings;

(c) fees payable in connection with the issue or maintenance of any bond, letter of credit, guarantee or other assurance against financial loss, in each case which constitutes Borrowings and is issued by a third party on behalf of the relevant person;

(d) repayment and prepayment premiums payable or incurred in repaying or prepaying any Borrowings; and

(e) commitment, utilisation and non-utilisation fees payable or incurred in respect of Borrowings, but excluding:

(i) any agency, arrangement, underwriting, amendment, consent or other front-end fee in respect of any Borrowings or any letter of credit and any commitment fee to the extent included in the Transaction Costs (but for the avoidance of doubt, not excluding any commitment fees applicable to the revolving facility);

(ii) any pay-in-kind interest and any interest accrued on any shareholder loan or other subordinated loan;

(iii) any fees, costs and expenses incurred in connection with the raising of any indebtedness and any amortisation thereof;

(iv) any original issue discount applied in connection with any indebtedness and any amortisation thereof;

(v) any non-cash gains or losses arising in respect of any financial instrument (other than any derivative instrument which is accounted for on a hedge accounting basis);

(vi) any realised gains or losses arising in respect of any derivative which is operational in nature (and not related to Borrowings);

(vii) unrealised foreign exchange gains or losses in relation to retranslation of currency debt; and

(viii) any notional interest accrued on any pension scheme liabilities.

"**Interest Income**" means, for any period, the amount of Interest accrued (whether or not received) due to members of the Optics Group during such period (including in each case, without limitation, interest on cash deposits and cash equivalents).

"**Interest Payable**" means, for any period, the aggregate of Interest accrued (whether or not paid) in respect of any Borrowings of any member of the Optics Group, but excluding in each case any capitalised interest, any dividends on preference shares, any interest element on postemployment benefit schemes under IAS19, any interest cost or expected return on plan assets in relation to any post-employment benefit scheme, (unless the payment of such interest is guaranteed by one or more other members of the Optics Group which are not Subsidiaries of the entity primarily liable for such interest) the pro rata share of any Interest payable by a member of the Optics Group which is attributable to any third party (not being a member of the Optics Group) which is a shareholder (or holds an equivalent ownership interest) in a member of the Optics Group, Transaction Costs (and any amortisation thereof) and any other fees, costs and expenses incurred in connection with the raising of any Borrowings (and any amortisation thereof) and provided further that the amount of accrued Interest shall be stated so as to take into account the effect of any hedging agreements in respect of Interest (including, in so far as they relate to Interest, currency hedging arrangements and any interest payable under any investment hedging arrangements) entered into by the Optics Group.

"**Measurement Period**" means, at the option of Optics, either the period of (i) the most recent six month period ending prior to the date of such determination for which internal consolidated financial statements of Optics are available multiplied by 2.0 or (ii) the most recent four consecutive fiscal quarters ending prior to the date of such determination for which internal consolidated financial statements of Optics are available.

"**MEP**" means any management incentive or employee benefit scheme (or other similar arrangement) implemented or to be implemented with respect to shares in Optics or any of its Holding Companies or any member of the Netco Group.

"**Net Income**" means, for any period, consolidated net income of the Optics Group for such period.

"**Relevant EBITDA**" means Adjusted Reported EBITDA as determined by Optics for the most recently ended Measurement Period for which Optics has sufficient available information so as to be able to determine Adjusted Reported EBITDA and as may be adjusted in accordance with Condition 3.7 (*Calculation of Ratios*).

"**Service Agreements**" means each recharge, advisory services, transaction services or other similar agreement entered into or to be entered into between the Reference Shareholders (and/or their Affiliates or direct or indirect shareholders in Optics) and one or more members of the Optics Group.

"**Tax**" means any tax, levy, impost, duty or other charge or withholding of a similar nature (including any penalty or interest payable in connection with any failure to pay or any delay in paying any of the same) and "Taxes" and "Taxation" shall be construed accordingly.

"**Transaction Costs**" means all fees, costs and expenses and stamp, transfer, registration, notarial and other Taxes incurred by a member of the Optics Group directly or indirectly in connection with the Transactions, any reorganisation and/or any amounts in connection with the refinancing of indebtedness or other obligations of the Optics Group.

6.6 **Provisions Relating to Partial Redemption**

In the case of a partial redemption of Notes, Notes to be redeemed will be selected, in such place as the Trustee, the Registrar or the Principal Paying Agent may approve and in such manner as the Trustee, the Registrar or the Principal Paying Agent may deem appropriate and fair, not more than 60 days before the date fixed for redemption. Notice of any such selection will be given not less than 10 days before the date fixed for redemption. Each notice will specify the date fixed for redemption and the aggregate principal amount of the Notes to be redeemed, the certificate numbers of the Notes called for redemption, the certificate numbers of Notes previously called for redemption and not presented for payment and the aggregate principal amount of the Notes which will be outstanding after the partial redemption.

6.7 **Purchases**

Optics and any of its Subsidiaries (as defined above) may at any time purchase Notes in the open market or otherwise at any price. Such Notes may be held, reissued, resold or, at the option of Optics, surrendered to any Paying Agent for cancellation.

6.8 **Cancellations**

Certificates representing Notes purchased by or on behalf of Optics or any of its Subsidiaries may be surrendered for cancellation by surrendering each such Certificate to the Registrar and if so surrendered, shall, together with all Notes redeemed by Optics, be cancelled forthwith. Any Certificates so surrendered for cancellation may not be reissued or resold and the obligations of Optics in respect of any such Notes shall be discharged. Any Notes not so surrendered for cancellation may be reissued or resold.

6.9 **Notices Final**

Upon the expiry of any notice as is referred to in Condition 6.2 (*Redemption for Taxation Reasons*), Condition 6.3 (*Redemption at the Option of Optics (Make-Whole Call)*) and Condition 6.4 (*Redemption at the Option of Optics (Issuer Par Call)*) above, Optics shall be bound to redeem the Notes to which the notice refers in accordance with the terms of such paragraph.

7. **Taxation**

7.1 **Additional Amounts**

All payments made by or on behalf of Optics, NetCo or any other Guarantor (including, in each case, any successor entity thereof) (each, a "**Payor**") under or with respect to the Notes will be made without withholding or deduction for, or on account of, any present or future Taxes unless such withholding or deduction of such Taxes is required by law (including any taxing authority's interpretation or administration thereof). If any deduction or withholding for, or on account of, any Taxes imposed or levied by or on behalf of any Tax Jurisdiction (as defined below) will at any time be required to be made from any payments made by or on behalf of a Payor under or with respect to the Notes, including payments of principal, redemption premium or interest, the Payor will pay such additional amounts (the "**Additional Amounts**") as may be necessary in order that the net amounts received, after such withholding or deduction shall equal the respective amounts which would otherwise have been receivable in respect of the Notes in the absence of such withholding or deduction; except that no Additional Amounts shall be payable:

(a) to or for a Noteholder (or a fiduciary, settlor, beneficiary, member, partner or shareholder of, or possessor of power over the relevant Noteholder, if the relevant Noteholder is an estate, nominee, trust, partnership, limited liability company or corporation or any collective vehicle

where tax is imposed or allocated to its owners) who is liable for such Taxes in respect of such Note by reason of having or having had some present or former connection with the relevant Tax Jurisdiction (including, without limitation, being resident for tax purposes, or being a citizen or resident or national of, or carrying on a business or maintaining a permanent establishment in, or being physically present in, the Tax Jurisdiction) in which such Taxes are imposed other than the mere acquisition, holding or enforcement (following an Event of Default) of such Note or the receipt of any payment in respect thereof; or

(b) to or for a Noteholder in respect of any Tax (that is imposed or withheld by reason of the failure by the Noteholder, to comply with a reasonable written request of the applicable withholding agent addressed to the Noteholder, after reasonable notice (at least 30 days before any such withholding or deduction is payable): (i) to provide certification, information, documents or other evidence concerning the nationality, residence or identity of the Noteholder; or (ii) to make any declaration or similar claim or satisfy any other reporting requirement relating to such matters, which, in the case of (i) or (ii) (or both), is required by a statute, treaty, regulation or administrative practice of the relevant Tax Jurisdiction as a precondition to exemption from, or reduction in the rate of deduction or withholding of, all or part of such Tax but only to the extent the Noteholder is legally entitled to provide such certification or documentation; or

(c) in respect of any Note in respect of which the certificate representing it is presented for payment (where presentation is required) more than 30 days after the Relevant Date except to the extent that a Noteholder would have been entitled to an Additional Amount on surrendering the Certificate representing the same for payment on such thirtieth day; or

(d) in respect of any Note in respect of which the certificate representing it is presented for payment (where presentation is required) by or on behalf of a Noteholder not resident for tax purposes in a State included in the list of countries which allow for a satisfactory exchange of information with Italy, currently provided for by Italian Ministerial Decree dated 4 September 1996, as amended and supplemented (the "**White List**"); or

(e) in respect of any Taxes that are payable otherwise than by deduction or withholding from a payment with respect to the Notes; or

(f) in respect of any estate, inheritance, gift, sales, transfer, personal property or similar Tax or excise Taxes imposed on transfer of the Notes; or

(g) in respect of any Taxes to the extent such Taxes are for or on account of *imposta sostitutiva* pursuant to Decree No. 239 and any related implementing regulations, and pursuant to Decree No. 461 and any related implementing regulations, except where the procedures required under Decree 239/1996, in order to benefit from an exemption, have not been complied with due only to the actions or omissions of Optics or its agents.

For the avoidance of doubt, no Additional Amounts shall be payable with respect to Taxes to the extent such Taxes are on account of *imposta sostitutiva* if the Noteholder becomes subject to *imposta sostitutiva* after the Optics Notes Issue Date by reason of amendments to the White List whereby such Noteholder's country of residence does not appear on the aforesaid amended or new list; or

(h) to a Noteholder that is a fiduciary, partnership or Person other than the sole beneficial owner to the extent that a payment would be required to be included in the income under the tax laws of a relevant Tax Jurisdiction of a beneficiary or settlor with respect to the fiduciary, or a partner of that partnership or a beneficial owner who would not have been entitled to such Additional Amounts had that beneficiary, settlor, partner or beneficial owner been the Noteholder thereof; or

(i) any combination of the items (a) through (h) above.

Notwithstanding any other provision of these Conditions, any amounts to be paid on the Notes by or on behalf of Optics will be paid net of any deduction or withholding imposed or required pursuant to an agreement described in Section 1471(b) of the Code, or otherwise imposed pursuant to Sections 1471 through 1474 of the Code (or any regulations thereunder or any official interpretations thereof) or an

intergovernmental agreement between the United States and another jurisdiction facilitating the implementation thereof (or any fiscal or regulatory legislation, rules or practices implementing such an intergovernmental agreement) (any such withholding or deduction, a "**FATCA Withholding**"). Neither Optics nor any other Person will be required to pay Additional Amounts on account of any FATCA Withholding.

In addition to the foregoing, Optics will also bear and pay any present or future stamp, issue, registration, court or documentary Taxes, or any other excise, property or similar Taxes, which are levied on the execution, delivery, issuance, registration or enforcement (following an Event of Default) of the Notes, the Trust Deed or any other document or instrument referred to therein (other than in each case: (a) in connection with a transfer of the Notes after this issuance of the Notes other than the initial resale; or (b) to the extent that such stamp, issue, registration court or documentary Taxes, or any other excise, property or similar Taxes become payable upon a voluntary registration made by the Noteholder if such registration is not required by any applicable law or not necessary to enforce the rights or obligations of any Noteholder in relation to the Notes, the Trust Deed or any other document or instrument referred to therein).

If Optics becomes aware that it will be obligated to pay Additional Amounts with respect to any payment under or with respect to the Notes, Optics will deliver to the Trustee (with a copy to the Principal Paying Agent) on a date at least 30 days prior to the date of payment (unless the obligation to pay Additional Amounts arises after the 30th day prior to that payment date, in which case Optics shall notify the Trustee promptly thereafter) an officer's certificate stating the fact that Additional Amounts will be payable and the amount estimated to be so payable. The Trustee shall be entitled to rely solely on such officer's certificate as conclusive proof that such payments are necessary.

The above obligations will survive any termination, defeasance or discharge of the Trust Deed and will apply, *mutatis mutandis*, to any successor Person to Optics.

Any references in these Conditions or in the Trust Deed to any amounts in respect of the Notes shall be deemed also to refer to any Additional Amounts which may be payable in respect thereof. As used herein:

(a) "**Relevant Date**" means, in respect of any payment, the date on which such payment first becomes due, but if the full amount of the monies payable has not been received by the Trustee or, as the case may be, the Principal Paying Agent, on or prior to such due date, it means the first date on which, the full amount of such monies having been so received, notice to that effect has been duly given to the Noteholders;

(b) "**Tax**" or "**Taxes**" means any present or future taxes or duties, assessments or governmental charges of whatever nature (including any penalties, interest and other additions thereto); and

(c) "**Tax Jurisdiction**" means the Republic of Italy and any other taxing jurisdiction in which a Payor is organized or tax resident, or any political subdivision or any authority thereof or therein having power to tax, and any jurisdiction from or through which payment with respect to the Notes is made by or on behalf of a Payor.

8. Prescription

Notes will become void unless presented for payment within periods of ten (10) years (in the case of principal) and five (5) years (in the case of interest) from the Relevant Date in respect of the Notes subject to the provisions of Condition 5 (*Payments*).

9. Events of Default

The Trustee at its discretion may, and if so requested in writing by the holders of at least 30% in principal amount of the Notes then outstanding or if so directed by an Extraordinary Resolution shall (subject in each case to being indemnified and/or secured and/or prefunded to its satisfaction) (but only if, except in relation to sub-paragraph 9(a) below, the Trustee shall have certified in writing to Optics that such event is, in its opinion, materially prejudicial to the interests of the Noteholders), give notice in writing to Optics that the Notes are, and the Notes shall thereupon immediately become, due and repayable at their redemption amount together with accrued interest as provided in the Trust Deed if any of the following events (each an "**Event of Default**") shall have occurred and be continuing:

(a) *Non-payment*: default is made in the payment of any principal, premium or interest due in respect of the Notes or any of them and the default continues for a period of 10 days in the case of principal and premium and 30 days in the case of interest; or

(b) *Breach of other obligations*: Optics or any Guarantor fails to perform or observe any of its other obligations under these Conditions or the Trust Deed (including in relation to a Guarantor, any of its obligations under its Notes Guarantee) and the failure continues for the period of 60 days next following the service by the Trustee on Optics of notice requiring the same to be remedied; or

(c) *Cross-default of Optics*:

(i) any Capital Markets Indebtedness of Optics or any Guarantor in excess of €100,000,000 (or the equivalent thereof in other currencies) has to be repaid prematurely due to a default under its terms; or

(ii) Optics or any Guarantor fails to fulfil any payment obligation exceeding €100,000,000 (or the equivalent thereof in other currencies) under any Capital Markets Indebtedness, or under any guarantee provided for any such Capital Markets Indebtedness in excess of €100,000,000 (or the equivalent thereof in other currencies) of others, and such failure continues for a period of 30 days; or

(iii) any security or guarantee relating to Capital Markets Indebtedness in excess of €100,000,000 (or the equivalent thereof in other currencies) provided by Optics or any Guarantor is enforced by the lenders and such enforcement is not contested in good faith by Optics or any Guarantor or Optics or any Guarantor publicly announces its inability to meet its financial obligations; or

(d) *Insolvency*:

(i) a court opens insolvency or equivalent proceedings against Optics or any Guarantor which are not resolved within six months, unless such proceedings are frivolous or vexatious and contested in good faith and appropriately and do not result in court orders or Optics or any Guarantor applies for such insolvency or equivalent proceedings; or

(ii) Optics or any Guarantor approves a resolution pursuant to which it goes into liquidation unless this is done in connection with a merger, or other form of combination with another company and such company assumes all obligations contracted by Optics, in connection with the Notes and the Trust Deed; or

(e) *Guarantee*: any of the Guarantees is not (or is claimed by the relevant Guarantor not to be) in full force and effect; or

(f) *Security interest*: any security interest under the Security Documents on any material Collateral having a fair market value in excess of €50 million shall, at any time, cease to be in full force and effect (other than in accordance with the terms of the relevant Security Document, the Intercreditor Agreement, any Additional Intercreditor Agreement and the Trust Deed) for any reason other than the satisfaction in full of all obligations under the Notes or the release or amendment of any such security interest in accordance with the Conditions, the Intercreditor Agreement, any Additional Intercreditor Agreement or such Security Document or any such security interest created thereunder shall be declared invalid or unenforceable in a final non-appealable decision of a court of competent jurisdiction or Optics shall assert in writing that any such security interest is invalid or unenforceable and any such Default continues for 10 days.

10. **Enforcement**

The Trustee may at any time, at its discretion and without notice, take such proceedings against Optics as it may think fit to enforce the provisions of the Trust Deed and the Notes, but it shall not be bound to take any such proceedings or any other action in relation to the Trust Deed or the Notes unless: (a) it shall have been so directed by an Extraordinary Resolution or so requested in writing by the holders of at least 30% in aggregate principal amount of the Notes then outstanding; and (b) it shall have been indemnified and/or pre-funded and/or secured to its satisfaction. No Noteholder shall be entitled to

proceed directly against Optics unless the Trustee, having become bound so to proceed fails or is unable so to do within 60 days, and the failure or inability shall be continuing.

11. Replacement of Certificates

Should any Certificate be lost, stolen, mutilated, defaced or destroyed it may be replaced at the specified office of the Registrar or such other Transfer Agent as may from time to time be designated by Optics for that purposes and notice of whose designation is given to the Noteholders, in each case upon payment by the claimant of the expenses incurred in connection with the replacement and on such terms as to evidence and indemnity as Optics may reasonably require. Mutilated or defaced Certificates must be surrendered before replacements will be issued.

12. Notices

Notices required to be given to the holders of Notes pursuant to the Conditions shall be mailed to them at their respective addresses in the Register and deemed to have been given on the fourth weekday (being a day other than a Saturday or a Sunday) after the date of mailing. All notices regarding the Notes shall also be given by publication in a leading English language daily newspaper published in London (which is expected to be the Financial Times) and, so long as the Notes are listed on the Luxembourg Stock Exchange and the listing rules of such exchange so require, all notices to Noteholders shall be deemed to be duly given if they are published in one daily newspaper in Luxembourg or on the website of the Luxembourg Stock Exchange: *www.luxse.com*. Optics shall also ensure that notices are duly published in a manner which complies with the rules and regulations of any other stock exchange or other relevant authority on which the Notes are for the time being listed. Any such notice will be deemed to have been given if published in a leading English language daily newspaper published in London, on the date of the first publication or, where required to be published in more than one newspaper, on the date of the first publication in all required newspapers.

13. Substitution

In addition to the Push-Down Merger, the Trustee may, without the consent of the Noteholders, agree with Optics to the substitution in place of Optics (or of any previous substitute under this Condition 13) as the principal debtor under the Notes and the Trust Deed of another company, being any entity that may succeed to, or to which Optics (or any previous substitute under this Condition 13) may transfer, all or substantially all of the assets and business of Optics (or any previous substitute under this Condition 13) by operation of law, contract or otherwise, subject to: (a) the Trustee being satisfied that the interests of the Noteholders will not be materially prejudiced by the substitution; and (b) certain other Conditions set out in the Trust Deed being complied with.

14. Meetings of Noteholders, Modification, Waiver, Authorisation and Determination

14.1 Meetings of Noteholders

The Trust Deed contains provisions for convening meetings of the Noteholders (which may be at a physical location or by way of conference call or videoconference) to consider any matter affecting their interests, including any modifications or abrogation of these Conditions or of any provisions of the Trust Deed by Extraordinary Resolution. The above provisions are subject to compliance with mandatory laws, rules and regulations of the Republic of Italy in force from time to time and, where applicable Italian law so requires, Optics' by-laws.

The quorum and the majorities for passing resolutions at any such meetings shall be subject to the applicable provisions of applicable Italian laws (including the Italian Civil Code) and Optics' by-laws.

An Extraordinary Resolution passed at any meeting of the Noteholders shall be binding on all Noteholders, whether or not they are present at the meeting. In accordance with the Italian Civil Code, a *rappresentante comune* (the "**Noteholders' Representative**"), being a joint representative of Noteholders, may be appointed in accordance with article 2417 of the Italian Civil Code in order to, *inter alia*, represent the Noteholders' interest and to give execution to the resolutions of the meeting of the Noteholders. The appointment of the Noteholders' Representative has a term of maximum three financial years from the appointment, which may be renewed by mutual agreement between the Noteholders at the time of renewal and Noteholders' Representative.

14.2 **Waiver, Authorisation, Determination and Exercise by the Trustee of Discretions Etc.**

The Trustee may agree, without the consent of the Noteholders, to any modification of, or to the waiver or authorisation of any breach or proposed breach of, any of the provisions of the Notes or the Trust Deed, or determine, without any such consent as aforesaid, that any Event of Default or Potential Event of Default (as defined in the Trust Deed) shall not be treated as such, where, in any such case, it is not, in the opinion of the Trustee, materially prejudicial to the interests of the Noteholders so to do or may agree, without any such consent as aforesaid, to any modification which is of a formal, minor or technical nature or to correct an error which is manifest. Any such modification, waiver, authorisation or determination shall be binding on the Noteholders and, unless the Trustee otherwise agrees, any such modification shall be notified by Optics to the Noteholders in accordance with Condition 14.3 as soon as practicable thereafter.

In connection with the exercise by it of any of its trusts, powers, authorities and discretions (including, without limitation, any modification, waiver, authorisation, determination or substitution), the Trustee shall have regard to the general interests of the Noteholders as a class (but shall not have regard to any interests arising from circumstances particular to individual Noteholders whatever their number) and, in particular but without limitation, shall not have regard to the consequences of any such exercise for individual Noteholders (whatever their number) resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory or any political subdivision thereof and the Trustee shall not be entitled to require, nor shall any Noteholder be entitled to claim, from Optics, the Trustee or any other Person any indemnification or payment in respect of any tax consequences of any such exercise upon individual Noteholders except to the extent already provided for in Condition 7 (*Taxation*) or Condition 3.2 (*Mergers and Similar Events*) and/or any undertaking or covenant given in addition to, or in substitution for, Condition 7 (*Taxation*) or Condition 3.2 (*Mergers and Similar Events*) pursuant to the Trust Deed.

A modification or waiver which relates to specific rights or obligations of the Trustee may not be effected without the consent of the Trustee.

14.3 **Notification to the Noteholders**

Any modification, abrogation, waiver, authorisation, determination or substitution shall be binding on the Noteholders and, unless the Trustee agrees otherwise, shall be notified by Optics to the Noteholders as soon as practicable thereafter in accordance with Condition 12 (*Notices*).

15. **Indemnification of the Trustee and Trustee Contracting with Optics**

The Trust Deed contains provisions for the indemnification of the Trustee and for its relief from responsibility, including provisions relieving it from taking action unless indemnified and/or secured and/or prefunded to its satisfaction.

The Trust Deed also contains provisions pursuant to which the Trustee is entitled, *inter alia*: (a) to enter into business transactions with Optics and/or any of its Subsidiaries and to act as trustee for the holders of any other securities issued or guaranteed by, or relating to, Optics and/or any of its Subsidiaries; (b) to exercise and enforce its rights, comply with its obligations and perform its duties under or in relation to any such transactions or, as the case may be, any such trusteeship without regard to the interests of, or consequences for, the Noteholders; and (c) to retain and not be liable to account for any profit made or any other amount or benefit received thereby or in connection therewith.

Subject to the terms of the Trust Deed, the Trustee may rely without liability to Noteholders on a report, confirmation or certificate or any advice of any accountants, financial advisers, financial institution or any other expert, whether or not addressed to it and whether their liability in relation thereto is limited (by its terms or by any engagement letter relating thereto entered into by the Trustee or in any other manner) by reference to a monetary cap, methodology or otherwise. The Trustee may accept and shall be entitled to rely on any such report, confirmation or certificate or advice and such report, confirmation or certificate or advice shall be binding on Optics, the Trustee and the Noteholders.

16. **Further Issues**

Optics may from time to time without the consent of the Noteholders create and issue further notes, having terms and conditions the same as those of the Notes, or the same except for the amount and date

of the first payment of interest, which may be consolidated and form a single series with the outstanding Notes. Any further notes which are to form a single series with the Notes shall be constituted by a deed supplemental to the Trust Deed.

17. Governing Law and Submission to Jurisdiction

17.1 Governing Law

The Trust Deed and the Notes and any non-contractual obligations arising out of or in connection with the Trust Deed and the Notes are governed by, and construed in accordance with, English law save that provisions in these Conditions and in the Trust Deed relating to Noteholders' meetings, the *mandatario con rappresentanza* pursuant to articles 1703, 1704 *et seq.* of the Italian Civil Code, the *rappresentante* pursuant to article 2414-*bis*, paragraph 3 of the Italian Civil Code and the *rappresentante comune* pursuant to articles 2417 and 2418 of the Italian Civil Code are subject to compliance with mandatory provisions of Italian law.

17.2 Submission to Jurisdiction

English courts have exclusive jurisdiction to settle any dispute arising out of or in connection with the Trust Deed or the Notes, including any dispute as to their existence, validity, interpretation, performance, breach or termination or the consequences of their nullity and any dispute relating to any non-contractual obligations arising out of or in connection with the Trust Deed or the Notes (a "**Dispute**") and each of Optics, the Trustee and any Noteholders in relation to any Dispute submits to the exclusive jurisdiction of the English courts.

For the purposes of this Condition, each of Optics, the Trustee and any Noteholders waives any objection to the English courts on the grounds that they are an inconvenient or inappropriate forum to settle any Dispute.

17.3 Appointment of Process Agent

Optics irrevocably appoints Law Debenture Corporate Services Limited, at 8th Floor 100 Bishopsgate, London, United Kingdom, EC2N 4AG, as its agent for service of process in any proceedings before the English courts in relation to any Dispute, and agrees that, in the event of Law Debenture Corporate Services Limited being unable or unwilling for any reason so to act, it will immediately appoint another Person approved by the Trustee as its agent for service of process in England in respect of any Dispute. Optics agrees that failure by a process agent to notify it of any process will not invalidate service. Nothing herein shall affect the right to serve process in any other manner permitted by law.

17.4 Other Documents

Optics has in the Agency Agreement and the Trust Deed submitted to the jurisdiction of the English courts and appointed an agent in England for service of process, in terms substantially similar to those set out above.

18. Rights of Third Parties

No rights are conferred on any Person under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of this Note, but this does not affect any right or remedy of any Person which exists or is available apart from that Act.

APPENDIX C

(GLOSSARY)

Below is a list of the main technical terms used in this Exchange Offer Memorandum. These terms, unless otherwise specified, have the following meanings. For the terms below, whenever required by the context, the singular form includes plural form and vice versa.

2G (second-generation Mobile System)

Second-generation mobile systems using digital encoding and including GSM, D-AMPS (TDMA) and CDMA. 2G networks are in current use all over Europe and other parts of the world. These systems support voice and limited data communications, as well as auxiliary services such as fax and SMS.

3G (third-generation Mobile System)

Third-generation wireless system, designed to provide high data speeds, always-on data access, and greater voice capacity. 3G networks allow the transfer of both traditional communication services (telephony, messaging) and data (such as downloading Internet information, exchanging email, and instant messaging). The high data speeds, measured in Mbps, are significantly higher than 2G. 3G networks technology enable mobile video, high-speed Internet access. The standards of the 3G technology include UMTS, based on WCDMA technology (quite often the two terms are often used interchangeably) and CDMA2000.

4G (fourth-generation Mobile System)

Fourth-generation systems are designed to provide, in addition to legacy services, mobile broadband Internet access to several kinds of devices such as laptops with wireless modems, smartphones, tablets, and other mobile devices. Current and future applications include mobile web access, IP telephony, gaming services, high-definition mobile video, video conferencing, Internet of Things and cloud computing applications. 4G standards include LTE e LTE-A (LTE-Advanced). LTE offers a higher spectral efficiency in bits per Hertz and download bandwidth up to 150 Mbit/s per cell reducing the latency time. LTE enables services that require high interactivity (*e.g.*, gaming, video conferencing). A further development of LTE, called "LTE Advanced," is being implemented and will allow reaching even higher bitrates in download.

5G (fifth-generation Mobile System)

The term 5G indicates the set of technologies whose standards define the fifth generation of mobile telephony with a significant evolution compared to 4G / IMT-Advanced technology. Its global distribution started in 2019. The main elements of the 5G network are:

- Gbit-rate significantly higher than 4G in larger spectrum bandwidth (up to tens of Gbit/s over hundreds of MHz) to ensure greater quality of service, for innovative services such as video download and live streaming;
- ultra-low latency in the order of milliseconds;
- possibility of connecting simultaneously hundreds of thousands of objects (Internet of Things): wearable technologies, automatic systems for traffic control, assisted driving for vehicles, home automation;
- ability to connect moving vehicles at higher speeds.

5G SA

The standalone (SA) mode refers to a 5G deployment option based only on one 5G RAT (i.e. NR or LTE) without cooperation with another RAT, connected to a 5G Core Network.

ADSL (Asymmetric Digital Subscriber Line)

Technology that transforms through a modem the traditional copper fixed line into a high-speed digital connection for the transfer of multimedia data. ADSL is an asymmetrical technology used to achieve broadband transmission.

AGCOM (*Autorità per le Garanzie nelle Comunicazioni*) or Italian Communications Authority

AGCOM is an independent and autonomous authority and has been established by Italian Law No. 249 of 1997. AGCOM is primarily a regulatory authority: the establishing law entrusts AGCOM with the dual task of ensuring fair competition among market operators and protecting the fundamental freedoms of users.

AGCOM is a "convergent" authority, meaning that it performs regulatory and supervisory functions in the sectors of electronic communications, broadcasting, publishing, postal services and, more recently, online platforms.

Like other Italian authorities provided for by the Italian legal system, AGCOM is accountable for its actions to the Italian Parliament, which has established its powers, defined its statute and elected its members.

AI (Artificial Intelligence)

Ability of a technological system to solve problems and carry out tasks and activities typical of the mind and human behavior. In the computer science field, it is the discipline that deals with creating machines (hardware and software) able to "act" autonomously (solve problems, perform actions, etc.).

ASP (Access Service Provider)

A company engaged in the business of providing Internet access services to consumers by way of a physical network.

ATM (Asynchronous Transfer Mode)

A network protocol through which the transfer of data is achieved using the encapsulation of fixed length (53 bytes) data units, called cells, instead of variable-length packets as is the case in packet-switched networks.

Automation

This term identifies technologies for automated equipment, systems and processes automation, reducing the need for human intervention and simplifying network setup and maintenance activities.

Backbone

Portion of the telecommunication network that supports long-distance connections and aggregates large amount of traffic and from which the connections for serving specific local areas depart.

Backhauling

It refers to the interface between the radio access node and the core network.

Big Data

Big data is a term used to describe the set of technologies and methods for massive data analysis. The term indicates the ability to extrapolate, analyze and relate a huge amount of heterogeneous, structured and unstructured data, to discover the links between different phenomena and predict the future ones.

Bitstream access

Wholesale interconnection services which consist in the supply by a dominant telecommunications operator (incumbent) of access transmission capacity between an end customer and an interconnection point of another operator (OLO).

Blockchain

The Blockchain represents an innovative technology for structuring data and information with sharing on the network; a blockchain system is like a distributed database or virtual register, structured as a chain of blocks (hence the term blockchain) containing the transactions, and whose validation is entrusted to a consensus mechanism distributed on all the nodes of the network participating to the chain. The main characteristics of blockchain are the immutability of the registry, the traceability of transactions and the security based on advanced cryptographic techniques. Blockchain technologies are currently used to support global supply chains, financial transactions (*e.g.*, BitCoin), accounting assets and distributed social networks.

Broadband

Includes network technologies that allow a transmission speed of at least 2 Mbit/s. These speeds are made available both on the fixed copper network, starting with ADSL technology, and on the mobile network starting with third generation systems. Broadband services include both data and voice services. Data services include high-speed Internet access, the ability to download audio and video files, point-to-point and multi-point interactive video services (video calling and video conferencing), video on demand and (download and streaming) television programs.

Broadcast

Simultaneous transmission of the same information to all nodes and terminal equipment of a network.

BSS (Business Support System)

The system used by network operators to manage business operations such as billing, sales management, customer-service management and customer databases.

Bundle

Commercial offer including multiple telecommunications services (voice, broadband Internet, IPTV, other) by an operator under the same commercial brand. Dual Play bundle includes fixed telecommunication services and broadband Internet; Triple Play bundle is the “dual play bundle” integrated with IPTV; Quadruple Play bundle is the “bundle triple play” integrated with mobile telecommunication services.

Carrier

Telecommunication services operator, providing a transport of communication services by means of its physical telecommunication network.

CDMA (Code Division Multiple Access)

CDMA is a channel multiple access method used in radio communication. First radio systems based on CDMA were developed by Qualcomm, and commercially introduced in 1995. It enables the simultaneous transmission on the same channel of multiple signals, each of which is uniquely coded to distinguish it from the other messages.

CDN (Content Delivery Network)

Content Delivery Networks, are content distribution systems (especially large multimedia contents, such as IPTV) managed by a service provider for the provision of audio streaming services and video, with better quality towards customers.

CDP (formerly Carbon Disclosure Project)

International initiative that encourages companies to focus on the management of the risks and opportunities emerging from climate change.

Cell

Geographical portion of territory illuminated by a radio base station.

Central Office

A building where the copper wires or optical fibers that make up the access network, reaching the customers, originate from. It hosts equipment for telephony services ('*Stadio di Linea*' in TIM terms), broadband services (DSLAM) and possibly ultrabroadband services (OLT). Some COs also host equipment of higher hierarchical rank (SGU for telephony, router for data services), and those COs also collect traffic from the other COs which are not so equipped.

Channel

The portion of a communications system that connects a source to one or more destinations by means of transmission media and optical, electric, electromagnetic signals.

Cloud

The term Cloud is used as an abbreviation of the concept of "Cloud Computing," i.e. a model of consumption of processing resources (for example networks, servers, memory, applications and services) through the network; with the Cloud, the end customer, otherwise defined as cloud consumer, is allowed to access, widespread, easy and on-demand to a shared and configurable set of resources that can be quickly acquired and released with minimal management or interactions with the service provider. The Cloud model is made up of five essential features: 1) Self Service on customer request, 2) broad-network access, 3) resource sharing, 4) elasticity/automation in resource demand, 5) certified SLAs, three service models (see also SaaS, PaaS and IaaS) and four distribution/deployment models (private, public, hybrid and communities).

Colocation

a service to provide space, connectivity and ancillary services to host telecommunication operators' infrastructures so that they can provide their own access services to broadband/ultrabroadband, and interconnection services, of fixed and mobile networks, using the network operator's exchanges, primary/secondary network and transport network.

CO_2 - Carbon Dioxide

Carbon dioxide is one of the major greenhouse gases. It is linked to industrial processes and is the product of combustion especially as the result of the use of fossil fuels.

CSP (Communications Services Provider)

A communications service providers, or CSP, offers telecommunications services or some combination of information and media services, content, entertainment and application services over networks, leveraging the network infrastructure as a rich, functional platform.

Cybersecurity

It deals with the analysis of threats, vulnerabilities and the risk associated to Internet-connected systems, including hardware, software and data, to protect them from the attempt to expose, alter, disable, destroy, steal or gain unauthorized access or make unauthorized use of an asset.

Dark Fiber

Dark fiber are fiber optic cables that are unused or "unlit." This means that these cables are waiting to be leased out to fixed, mobile and wireless network operators who intend to implement a network solution, such as metropolitan networks to connect two or more POPs together, connections to link radio sites to traffic concentration nodes or a backbone or an entire proprietary transport network.

Data Center

The Data Center is the department of a company that hosts and manages back-end IT systems and data repositories: so, its mainframes, servers, databases, etc. In the past, this type of management and control was in a single physical place, hence the name of data center. The development of new distributed computing technologies has inaugurated new management criteria that see more data centers located/distributed at both a physical and virtual level.

Decommissioning

The term decommissioning means the disposal of the oldest technological solutions (legacy or obsolete) in order to rationalize and simplify the current Telecommunication networks with the aim of optimizing investments and improving the quality and time-to-market of services.

Digital divide

The gap between people with effective access to digital and information technology and those with very limited or no access at all. The term encompasses among other things: gaps in ownership of or regular access to a computer, or Internet access due to being located in geographical areas with no broadband connectivity.

DSLAM (Digital Subscriber Line Access Multiplexer)

DSLAM denotes equipment multiplier of digital access lines able to process digital signals of various clients with xDSL lines and multiply them in a high rate data link to the nodes of the Internet.

DSS (Dynamic spectrum sharing)

Dynamic Spectrum Sharing (DSS for short) is a new antenna technology that for the first time enables the parallel use of LTE and 5G in the same frequency band. The technology determines the demand for 5G and LTE in real-time.

EDGE (Enhanced Data for GSM Evolution)

It is a technology that increases the speed of data transmission of the GPRS the standard from 30-40 Kbit /s to 400 Kbit / s in the best radio transmission condition.

Edge (Network Edge)

It is a segment of the network lying between access and core, wherein service functions are located (such as, *e.g.*, those performed by BRAS). Depending on the context, it may be quite distributed *e.g.*, to the level of mobile Base Station, or less distributed *e.g.*, at the edge of the backbone.

Edge cloud

It refers to a cloud infrastructure deployed at the network edge. An Edge Cloud architecture is used to decentralize (processing) power to the edges (clients/devices) of the network.

EPON (Ethernet PON)

EPON also known as Gigabit Ethernet PON or GEPON, is a type of pure optical fiber that uses a symmetrical pattern in both downstream and upstream and can reach a maximum of 10 Gigabits per second of transmission. IEEE standardized solution.

ESG (Environmental, Social and Governance)

Environmental, social, and corporate governance (ESG) is a strategic framework for identifying, assessing, and addressing organizational objectives and activities ranging from the company’s carbon footprint and commitment to sustainability, diversity and inclusion, to its overall ethos regarding corporate risks and practices.

eSIM (embedded SIM)

It represents the evolution of the SIM: it is an integrated circuit embedded directly inside a device and consequently not extractable and not replaceable, but remotely managed through the functionality of the device itself.

Ethernet

Family of computer networking technologies for local area networks (LANs) and metropolitan area networks (MANs).

FDD (Frequency Division Duplex)

Frequency-division duplexing (FDD) is a method for establishing a full-duplex communications link that uses two different radio frequencies for transmitter and receiver operation. FDD operation normally assigns the transmitter and receiver to different communication channels.

FTTx (Fiber To The x)

It is the term used to indicate any network architecture that uses fiber optic cabling in telecommunications access networks to replace, partially or totally, traditional copper cables. The various technological solutions differ in the point of the distribution network where the fiber connection is made, with respect to the end- user's location. In the case of FTTC (Fiber to the Cabinet) the fiber connection reaches the equipment (distribution cabinet) located on the sidewalk, from where copper connections are run to the customer; in the case of FTTB (Fiber to the Building) the fiber arrives at the base of the building to a distribution box from where the vertical copper connection starts; in the case of FTTH (Fiber to the Home), the fiber connection terminates inside the customer premises. In the case of FTTO (Fiber to the Office), the TIM Group means a solution towards the Office, while FTTR (Fiber To The Room), the TIM Group intends to arrive with the fiber in different rooms of the house.

FWA (Fixed Wireless Access)

Fixed Wireless Access refers to a set of transmission systems developed to exploit specific frequencies of the radio spectrum in order to provide fixed broadband connectivity services (with nominal connection speeds equal to 1 Gbps).

GPON (Gigabit capable Passive Optical Network)

A passive optical network (PON) is a network architecture that brings fiber cabling to the customer's home using a point-to-multipoint scheme, based on passive optical splitters, to serve multiple rooms with a single optical fiber. GPON is part of a set of PON standards (defined in ITU), which differ according to the maximum overall speed achievable within each optical shaft, a structure often shared with 64 users. In the case of GPON, the maximum speed is about 2.5 Gbps downstream and 1.25 Gbps upstream, shared with a predetermined number of users, which can reach up to 128. Each of the connected lines will then have a maximum nominal speed set by the operator, for example 1 Gbps in download. The other types of GPON standards are:

- XG-PON 10 Gbit/s downstream and 2,5 Gbit/s upstream
- XGS-PON maximum speed 10 Gbit/s downstream and 10 Gbit/s upstream
- NG PON2 maximum speed 40 Gbit/s downstream and 10 Gbit/s in upstream.

GPRS (General Packet Radio System)

Packet switched system to efficiently transmit data over 2G cellular networks.

GSM (Global System for Mobile Communication)

A worldwide standard for digital cellular telephony working on the 900 MHz and 1800 MHz bands. It belongs to the Second Generation (2G) of mobile systems.

Housing

Leasing of physical space to customers, which is managed within a data center for the installation of their own equipment or servers.

HSPA (High Speed Packet Access)

Evolution of UMTS, which enables broadband mobile data both in Downstream (HSDPA) and Uplink (HSUPA), up to 42 Mb/s and 5.76 Mb/s, respectively.

IaaS (Infrastructure as a Service)

Through a Cloud IaaS offer (Infrastructure as a Service, see also Cloud models), a consumer acquires from a Cloud Provider in a flexible and dynamic way computing, memory, network resources and other fundamental calculation resources, through which the customer can develop and run arbitrary software, including operating systems and applications. The consumer does not manage or control the underlying Cloud infrastructure, but controls operating systems, memory, applications and possibly, in a limited way, some network components (*e.g.*, firewalls).

ICT (Information and communication(s) technology)

Broad area concerned with information technology, telecommunications networks and services and other aspects of managing and processing information, especially in large organizations.

IMS (IP Multimedia Subsystem)

It is the architecture for providing IP Multimedia services, i.e. voice/video/text/etc communications over IP networks. It comprises all the network elements related to signaling and media flow handling.

IMSI (International Mobile Subscriber Identity)

The International Mobile Subscriber Identity is a unique identifier associated with a SIM card in cellular networks.

Interconnection

Interconnection refers to the physical and logical connection among public telecommunication networks belonging to different operators, in order to enable users of an operator to communicate with users of the same or a different operator, or to access services provided by another operator.

Internet

Global network for networks interconnection based on a common protocol suite, i.e. TCP/IP, which is the language by which connected equipment (hots) are able to communicate.

Internet of Things

The Internet of Things refers to the extension of Internet to the world of objects (devices, equipment, systems), which become recognizable and acquire intelligence thanks to the fact that they can communicate data about themselves and access aggregate information from part of others. There are many fields of applicability: from industrial applications (production processes), logistics and infomobility, to energy efficiency, remote assistance and environmental protection.

IP (Internet Protocol)

A connectionless data routing protocol, used for data transmission on both public and private networks, in particular over the Internet.

IPTV (Internet Protocol Television)

A system that utilizes the Internet Protocol infrastructure to transmit digital television content over a network and deliver it via a broadband Internet connection.

IRU

Indefeasible rights of use.

ISPs (Internet Service Provider)

A vendor who provides access to the Internet and World Wide Web.Jitter

In electronics and telecommunications jitter indicates the variation of one or more characteristics of a signal such as, amplitude, frequency, phase, transmission delay. The causes leading to jitter must be kept at the center of the design of electronic systems and components in which signal integrity is a strict constraint.

KPI (Key Performance Indicator)

Measurable performance indicators that allow the performance of a specific activity to be evaluated.

LAN (Local Area Network)

A private network that covers a local geographic area and provides telecommunications services as well as interconnection between personal computers.

Latency

The latency of a system can be defined as the time interval between the time the input arrives to the system and the time when its output is available. In other words, latency is nothing more than a measure of the speed of response of a system.

LEOS (Low Earth Orbit Satellite) network

A LEOS network refers to a system of satellites that orbit relatively close to Earth's surface. These satellites have the advantage of lower latency and faster communication compared to those in higher orbits due to their proximity to the Earth's surface. LEOS networks are commonly used for various applications, including telecommunications, internet services, Earth observation, and global positioning systems. The constellation of LEO satellites can provide extensive coverage, often enabling global communication capabilities.

LLU (Local Loop Unbundling)

Service by which operators other than TIM can lease the local loop, i.e. the wire connection between the TIM local exchange and the customer's premises.

Local Loop (Twisted Pair)

Twisted pair of copper wires through which the telephone connection reaches users; it is the foundation of traditional telephone lines and it is often called the "last mile."

LTE (Long Term Evolution)

See 4G.

Machine Learning

It is the ability of computers to learn without having been explicitly and preventively programmed.

MBB (Mobile Broadband)

Mobile broadband data service on 3G / 4G-LTE network.

Multimedia

A service involving two or more communications media (*e.g.*, voice, video, text, etc.) and hybrid services created through their interaction.

MVNO (Mobile Virtual Network Operator)

MVNO is a mobile communications service provider that does not own the radio spectrum or wireless network infrastructure over which the MVNO provides services to its customers.

Net Neutrality

Net neutrality is the principle that Internet service providers should treat all data equally and not discriminate or charge differently based on user, content, website, platform, application, type of equipment, or method of communication.

Network

An interconnected system of elements. In a telephone network, these consist of switches connected to each other and to customer equipment. The transmission equipment may be based on fiber optic or metallic cables or radio connections.

NGAN (New Generation Access Network)

It can be realized with different technological solutions, typically fiber optic and VDSL pairs.

Node

Topological network junction, commonly a switching center or station.

Nodal Optical Center (Centro Nodale Ottico or CNO)

It is the point of flexibility in the PON architecture and separates the primary optical network from the secondary optical network. The CNO houses the optical divider and the splitters connected to the passive fiber optic network.

OAO (Other Authorized Operator)

Operators other than the incumbent one that provide services to their customers exploiting the fixed access network of the incumbent.

OLOs (Other Licensed Operators)

Companies other than the incumbent operator that operate telecommunications systems in a national market.

OLT (Optical Line Termination)

Optical element of the PON network (Passive Optical Network) that acts as an interface between the PON itself and the Backbone network. OLT is located in the central office.

Optical fiber (or fiber optics)

Thin glass, silica or plastic wires, building the base infrastructure for data transmission. An optical fiber cable contains several individual fibers, and each of them is capable of delivering a signal (light impulse) at almost unlimited bandwidth. Optical fibers are usually employed for long-distance communication: they can transfer “heavy” data loads protected from possible disturbances along the way. The driving capacity of optical fibers is higher than the traditional cable and copper twister-pair lines.

Open RAN (Open Radio Access Network)

It refers to Open RAN, an architecture for building the virtualized RAN on open hardware, with embedded AI-powered radio control. Such an architecture is based on well-defined, standardized interfaces to enable an open, interoperable supply chain ecosystem in full support of and complimentary to standards promoted by 3GPP and other industry standards organizations.

OTT (Over the Top) players

Operators offering contents and services on the Internet without owning the proprietary TLC network infrastructure.

Outsourcing

Entrusting an external party carrying out services and business operations. For example, it can be outsourced the planning, construction and hosting services of a telecommunications management system and, ultimately, the management of the entire telecommunications system.

PaaS (Platform as a Service)

The PaaS (Platform as a Service) represents one of the three Cloud offer service models; through a PaaS offer of a Cloud Provider, the consumer is given the opportunity to distribute applications created on their own, or acquired by third parties on the cloud infrastructure, using programming languages, libraries, services and tools supported by the supplier. The consumer does not manage or control the underlying cloud infrastructure, including network, servers, operating systems, memory, but has control over the applications and possibly the configurations of the environment that hosts them.

Penetration (market penetration)

It represents the number of people (or subscriber) who acquires goods / services of a particular brand or a particular category, divided by the population where the service is available.

PON

PON stands for "passive optical network" referring to the optical network composed by non-active components in all stages between the origin (local exchange) and the external sides (subscriber or clients).

POP (Point Of Presence)

The POP is a point of access to the network (router), provided by an Internet Service Provider (ISP), able to route traffic to end users connected to POP.

Price cap

Identifies the maximum price limit set by a regulator at which a service /product can be sold.

QoS (Quality of Service)

Quality of service (QoS) is the description or measurement of the overall performance of a service, such as a telephony or computer network, or a cloud computing service, particularly the performance seen by the users of the network. To quantitatively measure quality of service, several related aspects of the network service are often considered, such as packet loss, bit rate, throughput, transmission delay, availability, jitter, etc.

RF (Radio Frequency)

Radio frequency, or RF, is the oscillation rate of an alternating electric current or voltage or of a magnetic, electric or electromagnetic field or mechanical system in the frequency range from around 20 kHz to around 300 GHz.

RAN (Radio Access Network)

It is the part of mobile network that implements the radio technologies, comprising data transport functions over air interface and control functions.

RAN Sharing

Is the most comprehensive form of access network sharing. It involves the sharing of all access network equipment, including the antenna, tower and backhaul equipment. Each of the RAN access networks is incorporated into a single network, which is then split into separate networks at the point of connection to the core.

Reliability (or Availability) (A)

It is the probability of an object to perform a required function under certain operating conditions and at a given instant of time.

Roaming

Agreement among two or more Mobile Operators from different Countries, under which Users can use the mobile network of other Operators participating in the agreement.

The roaming service is activated for example when the terminal is used overseas and enables a mobile user to access a different network from the one to which he subscribes.

SaaS (Software as a Service)

As part of the Cloud offer service models (see also Cloud entry), the SaaS (Software as a Service) model expresses the faculty provided to the consumer to use a supplier's applications and services, operating on a cloud infrastructure. The applications are accessible from different devices through a light interface (*e.g.*, a thin client), such as an email application on a browser, or from programs with a specific interface. The consumer does not manage or control the underlying cloud infrastructure, including network, servers, operating systems, memory, and even the capabilities of individual applications, except for limited configurations intended for him.

SDK (Software Development Kit)

Software development kit is a collection of software development tools in one installable package to ease the creation of applications.

Service Orchestration

Service orchestration means a single centralized business process that can be performed by an orchestrator (*e.g.*, a SW platform) that coordinates the interaction between various services and is responsible for their invocation and composition, as well as the management of transactions between the individual services. Service orchestration is often compared to Service Choreography, which instead makes a decentralized approach to the composition of services, where each of the services participating in the choreography implements a self-consistent process / workflow.

Service Provider

The Service Provider offers to the Users (Residential or Business) that subscribe his offer, a range of contents and services.

SLU (Sub Loop Unbundling)

It consists in providing access to the local sub-section of the Operator copper network, in particular the section of the network between the user site and the distribution cabinet or an intermediate concentration point.).

Smartphone

Electronic device that combines the functions of a mobile phone and a handheld computer equipped with a complete operating system.

Smart Speaker

A smart speaker is a type of wireless speaker and voice command device with an integrated virtual assistant that offers interactive actions and hands-free activation. Smart speakers have the ability to stream audio content, relay information, communicate with other devices, and provide voice control for home automation.

Smart TV

The term Smart TV identifies the new generation of televisions which allows us to enjoy multimedia audio-video content (movies, TV series, music videos, gaming) through an Internet connection.

SMS (Short Message Service)

Short text messages that can be received and sent through GSM-network connected cellular phones. The maximum text length is 160 alpha-numerical characters.

SOHO (Small Office / Home Office)

Market segment consisting of businesses that use telephone lines to connect to the Internet, as opposed to dedicated lines, and is made up of small businesses, generally with one or two employees, and businesses conducted out of the home.

STB (Set-Top Box)

It is a customer device able to receive TV signals from a communication network (such as broadband/ultrabroadband access network, terrestrial broadcast, satellite broadcast, etc) and output them to TVs and other display devices (monitors, projectors, etc.). It may include Conditional Access functions to handle paid content.

Tablet

Portable computer with compact dimensions whose screen can be used to write or give commands with the touch of your fingers or using a specially designed stylus.

TDD (Time Division Duplexing)

Time division duplex (TDD) refers to duplex communication links where uplink is separated from downlink by the allocation of different time slots in the same frequency band. It is a transmission scheme that allows asymmetric flow for uplink and downlink data transmission.

TDMA (Time Division Multiple Access)

A technology for digital transmission of radio signals between, for example, a mobile phone and a radio base station. TDMA breaks signals into sequential pieces of defined length, places each piece into an information channel at specific intervals and then reconstructs the pieces at the end of the channel.

TTM or Time-To-Market

Time to market (TTM) is the total length of time it takes to bring a product from conception to market availability. Companies use time-to-market metrics during new product development (NPD) and new product introduction (NPI) as they strive to gain first-mover advantages (*e.g.*, market share, sales revenue).

UI (User Interface)

User Interface, or UI, is the space where interactions between humans and machines occur. The goal of this interaction is to allow effective operation and control of the machine from the human end, while the machine simultaneously provides feedback that aids the operators' decision-making process. In the context of computer systems and software, the user interface is typically what the user sees and interacts with on the screen, including the layout, visual design, text, brand elements and interactive elements like buttons and icons. UI design focuses on the user's visual experience and the design of on-screen graphic elements

Ultrabroadband or UBB

Includes all network technologies that offer connectivity from 30 Mbit/s to over 1 Gbit/s, referring in particular to the peak rate and not to the average available. The definition is related to the characteristics of the fixed and mobile access network. By increasing the capacity and the speed, Ultra Broadband technologies allow quicker access from multiple users to the content available on the net, also on the move, and to take advantage of high quality video up to Ultra HD and interactive gaming.

- Fixed ultrabroadband: includes access technologies that involve the use of optical fiber, known as FTTx.
- Mobile ultrabroadband: refers to the use of the HSPA mobile network (evolution of the 3G network), LTE and its evolutions and the 5G network.

Unbundling

It is the service offered by the incumbent to the alternative operator which consists of the rental of the local loop i.e. the wire connection between the local exchange and the customer's premises, so that the alternative operator is able to connect the twisted pair from the customer to its own equipment.

Universal Service

The obligation to supply basic service at an affordable price, or at special rates solely for subsidized users.

UX (User Experience)

User Experience, or UX, is a broad concept that includes the practical, experiential, affective, meaningful and valuable aspects of human-computer interaction and product ownership. It also includes a person's perceptions of system aspects such as utility, ease of use and efficiency. UX design is the process of creating products that provide meaningful and relevant experiences to users. This involves the design of the entire process of acquiring and integrating the product, including aspects of branding, design, usability and function.

V2X (Vehicle-to-Everything)

A technology that allows vehicles to communicate with other vehicles, infrastructure, and devices in order to improve safety, traffic efficiency, and overall mobility.

VAS (Value-Added Services)

Value Added Services provide a higher level of functionality than the basic transmission services offered by a telecommunications network. In PSTN and first generation mobile networks the basic service was telephony (switched voice calls, initially analog and later digital ones) while VAS could include data and fax transmission services, as well as call handling features such as call waiting, call forwarding, etc.

As time passed VAS based on call handling grew with further features such as toll-free calling, voice virtual private networks, etc. A new class of VAS also developed in mobile networks, including message handling services such as SMS and MMS. In parallel, development of data networks turned data transmission services (initially X25, then Frame Relay, ATM, Ethernet, IP) into basic services of those networks, on top of which there may be VAS such as address translation, data virtual lines and virtual networks, traffic priority, encryption, etc.

A further category of VAS is those based on contents of Service Providers linked to the network, beginning with contents provided on telephony network, going on with contents delivered via SMS (news, weather forecasts, etc) and contents provided via browsing from mobile and fixed terminals, and arriving to video.

VDSL (Very - high – data – rate Digital Subscriber Line)

Access technology that allows providers to give clients, by means of an apparatus installed in their homes, access to voice and TV services on the traditional telephone line with speeds of up to 50 Mbps in downstream.

VHCN (Very High Capacity Network)

High-performance, entirely fiber-optic networks that typically extend up to the central office, also known as the neutral delivery point (NDP). In terms of speed, a VHCN has a connection speed greater than 1 Gigabit/s for download on fixed networks and 100 Megabits/s on FWA networks. This term is usually associated with NGA networks.

Virtualization

An approach to implementation of functionality resorting only to software running on general purpose hardware generally not dedicated, as opposed to approaches resorting also to special purpose and/or dedicated hardware.

VLAN Virtual Local Area Network

A virtual local area network (VLAN) is a virtualized connection that connects multiple devices and network nodes from different LANs into one logical network.

VOD (Video On Demand)

TV-program offering on user's request, with payment of a fee for each purchased program (a movie, a soccer match, etc.). Broadcast specifically for cable and satellite TV. Possible purchasing models are SVOD (Subscription Video On Demand) or TVOD (Transactional Video On Demand also known as PPV pay per view)

VoIP (Voice Over IP)

A technology that allows transmission of voice communication over an Internet connection or another dedicated network using the Internet Protocol (IP) data networks (such as IP-based LANs, Intranets or the Internet) instead of a conventional phone line.

VoLTE/ViLTE (Voice over LTE / Video over LTE)

A service providing voice and video calls over IP via LTE radio access, controlled by standard ToIP architecture named IMS (IP Multimedia Subsystem). The mated naming VoLTE/ViLTE is used since the service is essentially the same for voice and video, differing only in the type of media streams that are set up. Since it is standard based, it achieves interoperability among user terminals and between terminals and networks.

VULA (Virtual Unbundling Local Access)

A wholesale service provided by incumbent providers to alternative operators, where the incumbent provides – over its broadband access network – the transport of data traffic (a 'bitstream') between the end customer and an interconnection point where the alternative operator receives said traffic. In TIM's case, the interconnection point is located at local exchange level, aside the OLT (Optical Line Termination) i.e. the head end of optical access network.

WAN (Wide Area Network)

A private network that covers a wide geographic area using public telecommunications services.

Web Service

Software system designed to support interoperability amongst different computers on a same network or in a distributed context (World Wide Web Consortium (W3C) definition).

White, Grey and Black areas

The distinction between White, Grey and Black Areas is relevant for the assessment of state aid to support the development of ultrabroadband networks, in terms of the compatibility of the aid with respect to European Union legislation. This classification is contained in the European Union Guidelines:

- White Areas are areas without ultrabroadband (UBB) networks (connectivity), where private investors do not intend to invest in the next three years;

- Grey Areas are areas in which an ultrabroadband (UBB) network (connectivity) is present or will be developed in the next three years by a single private operator;

- Black Areas are areas in which at least two ultrabroadband (UBB) networks (connectivity) of different operators are present or will be developed over the next three years.

Wi-Fi

Wireless technology enabling data links in a limited area, generally in some hundred meters range, with speed up to tens of Mbps. Typical applications are in homes and offices as alternative to wired LAN, as well as in public services for Internet access, and also to create link between devices (*e.g.*, between a laptop and a smartphone linked to Internet).

WLR (Wholesale Line Rental)

It is a telephony only wholesale service provided by the incumbent to alternative operators, whereby the alternative operator gets an ULL-like service without the need to physically deploy equipment at local exchange sites. It is technically similar to Carrier PreSelection (CPS), and differs from CPS on the commercial side since the end customer is not subscribed to the incumbent's access service, nor billed for it; in this way alternative operators are able to provide to customers both access and traffic services and to produce a single bill covering both services.

xDSL (Digital Subscriber Line)

It is a technology that makes use of standard telephone lines and it includes different categories including ADSL (Asymmetric DSL), HDSL (High-data-rate DSL), VDSL (Very high bit rate DSL) and eVDSL (enhanced Very high bit rate DSL). This technology uses a digital signal at very high frequencies in order to achieve high data transfer rates.

TIM GROUP UNAUDITED CONSOLIDATED PRO FORMA FINANCIAL INFORMATION

The following section includes the consolidated pro-forma statement of financial position as of December 31, 2023, and the consolidated pro-forma income statement for the year ended December 31, 2023 (the "**TIM Group Unaudited Consolidated Pro Forma Financial Information").**

The TIM Group Unaudited Consolidated Pro Forma Financial Information has been prepared for illustrative purposes only to give effect of:

(i) the disposal of TIM's fixed network assets (the so-called NetCo Business ("**NetCo**")), with:
   a. the transfer of debt from TIM to Optics Bidco ("**Optics**") (the "**Notes Transfer**"), assuming the Initial Exchange (as defined in the Exchange Offer Memorandum) is subscribed up to the Total Cap (as defined in the Exchange Offer Memorandum), equally split across the EUR New Notes (as defined in the Exchange Offer Memorandum) and the USD New Notes (as defined in the Exchange Offer Memorandum) (USD nominal amount is converted into € based on the exchange rate as of December 31, 2023);
   b. the cash-in from the Acquisition, as adjusted to reflect, among other things, the Notes Transfer, the unwinding of the relevant hedge contracts, the repayment of the existing intercompany loan originally granted on March 31, 2021 by TIM to FiberCop (the "**FiberCop Intercompany Loan**") and certain other connected transaction;

(ii) the Master Service Agreement with NetCo (hereinafter the "**MSA**"); and

(iii) the Transitional Service Agreement with NetCo (hereinafter the "**TSA**");

and other connected transactions and adjustments (together with (i), (ii), (iii), the "**Transaction**") as if they had occurred on December 31, 2023 of the relevant year for purposes of the applicable statement of the financial position and on January 1, 2023 for purposes of the applicable income statement.

The TIM Group Unaudited Consolidated Pro Forma Financial Information should not be considered indicative of the actual results that would have been achieved had the Transaction been completed on the dates assumed and does not purport to be illustrative of our future results of operations or financial position. Our actual results may differ significantly from those reflected in the TIM Group Unaudited Consolidated Pro Forma Financial Information for a number of reasons, including, but not limited to, differences in assumptions used to prepare the TIM Group Unaudited Consolidated Pro Forma Financial Information.

The TIM Group Unaudited Consolidated Pro Forma Carve-out Financial Information does not reflect any additional adjustment connected to the Notes Transfer and resulting from: (i) any payment by the TIM Group of any early bird premium or participation premium of, in each case, in respect of any accepted tenders of Notes pursuant to the USD Exchange Offers and EUR Exchange Offers, and (ii) any payment owing by Optics to TIM or any payment owing by TIM to Optics based on the results of the Exchange Offers in accordance with the Transaction Agreement.

The TIM Group Unaudited Consolidated Pro Forma Financial Information has not been prepared in accordance with the requirements of Regulation S-X of the U.S. Securities Act, the Prospectus Directive or any generally accepted accounting standards. The TIM Group Unaudited Consolidated Pro Forma Financial Information is based upon currently available information and certain assumptions, described in the accompanying notes to the TIM Group Unaudited Consolidated Pro Forma Financial Information, that the Issuer's management believes are reasonable under the circumstances and include adjustments which give effect to events that are directly attributable to the Transaction, are expected to have a continuing impact on the Issuer and are factually supportable.

Neither the assumptions underlying the pro forma adjustments, nor the resulting TIM Group Unaudited Consolidated Pro Forma Financial Information have been audited or reviewed in accordance with any

generally accepted auditing standards. Moreover, given the different purpose of the pro forma data compared to the data in the historical financial statements and the different methods of calculating the effects of the Transaction on the pro forma combined condensed statements of financial position and pro forma combined condensed income statement, the TIM Group Unaudited Consolidated Pro Forma Financial Information should be read and interpreted without attempting to reconcile such data.

The TIM Group Unaudited Consolidated Pro Forma Financial Information should be read in conjunction with:

(i) "Use of Proceeds", "Capitalization of the TIM Group", "Management's Discussion and Analysis of Financial Condition and Results of Operations of TIM" and "Summary Historical Consolidated Financial and Other Information of the TIM Group";
(ii) TIM Group Audited Consolidated Financial Statements; and
(iii) NetCo Audited Combined Carve-out Financial Information.

Basis of preparation

The TIM Group Unaudited Consolidated Pro Forma Financial Information is prepared on the basis of the historical financial information derived from the financial statements and information detailed above, adjusted to reflect the effects of the Transaction. The accounting policies adopted in preparing the TIM Group Unaudited Consolidated Pro Forma Financial Information are based on the accounting principles applied in the preparation of the TIM Group Audited Consolidated Financial Statements which are prepared in conformity with the International Financial Reporting Standards ("**IFRS**"), endorsed by the European Union; the TIM Group Unaudited Consolidated Pro Forma Financial Information have been extracted from the 2023 TIM Group Consolidated Financial Statements with the application of the specific pro-forma criteria.

Transaction Agreement

The Transaction Agreement ("TA") envisages:

- the contribution by TIM of a business unit - consisting of primary network activities, wholesale activities and the entire equity investment in the subsidiary Telenergia - into FiberCop, a company that already manages activities relating to the secondary fiber and copper network;
- the simultaneous acquisition by Optics of TIM's entire equity investment in FiberCop, following the aforementioned contribution (FiberCop after the contribution "NetCo");
- the signing of a master services agreement and a transitional services agreement on the closing date of the transaction that will regulate the terms and conditions of the services that will be rendered by NetCo to TIM and by TIM to NetCo following completion of the transaction.

Transaction Agreement: Accounting for the MSA

The revenues and expenses and other items expected to be generated by or otherwise associated with the Master Services Agreement as set forth in these pro forma accounts are based on the form of Master Services Agreement attached to the Transaction Agreement. It is possible that certain modifications to the form of Master Services Agreement may be made on or prior to the closing of the Acquisition and the entering into of the definitive Master Services Agreement which could impact the adjustments set forth herein respect of the Master Services Agreement.

Pursuant to the MSA, TIM undertakes to acquire from NetCo, among other things, the following services:

(i) a variety of access services required for the purposes of the transmission of data and voice traffic directed to and/or generated by TIM's end customers,
(ii) B2B (business-to-business) connectivity services such as point-to-point fiber optic connectivity,

(iii) network services consisting of engineering services for the purposes of network operations and maintenance, delivery services for the access activation in favor of TIM's end customers and assurance services for solving faults experience by TIM's end-consumers,
(iv) real estate services mainly regarding the use, by TIM, of certain real estate properties leased or subleased by NetCo,
(v) energy supply and procurement services (which will be specifically provided by Telenergia, a company wholly owned by NetCo and licensed to this purpose) and
(vi) other minor services.

The TIM Group will mainly provide:
(a) mobile telecommunication services,
(b) hosting arrangements within TIM Group's data centers,
(c) access to the corporate network,
(d) the provisions of IT services supporting NetCo's employees activities and
(e) the provision of certain service components (such as bandwidth) enabling NetCo to sell aggregated services to the OAOs.

The MSA will have a general duration consisting of a first term of fifteen years with a renewal mechanism for an additional term. For more information, see "*Summary—the Transaction—The Master Services Agreement*".

The accounting of above-described services rendered by NetCo mainly impacts operating expenses and, only where there is an identified assets for a residual amounts (e.g. colocation and certain real estate spaces), right of use assets. The related VAT payables and receivables have not been included in the Pro-Forma adjustments.

Transaction Agreement: Accounting for the TSA

A Transitional Services Agreement ("**TSA**") will be effective from the Closing Date, in order to provide rules for the management and development of the IT systems during NetCo's start-up phase as well as agreements for the provision of necessary general services by TIM for NetCo to operate.

The amounts have been estimated based on the best available information, since the negotiation between the parties is still in progress.

For more information, see "*Summary—the Transaction—The Transitional Services Agreement*".

Transaction Agreement: FiberCop Intercompany Loan

For the purposes of this pro forma financial information, as part of the Transaction, any amount outstanding under the FiberCop Intercompany Loan will be repaid to TIM.

Explanatory notes to Pro-forma Consolidated Income Statement

Note 1 – TIM Group Consolidated financial statements

This column includes audited TIM Group consolidated income statement for the financial year ended December 31, 2023, taken from the TIM Consolidated Financial Statement as of December 31, 2023.

Note 2 – Historical results of NetCo combined carve out

This column includes the audited NetCo's combined income statement for the financial year ended December 31, 2023, taken from the NetCo Combined carve out Financial Information as of December 31, 2023.

Note 3 – Intercompany components

This column presents the re-establishment by TIM of some operating intercompany that have to be considered as a third party operation in the TIM Group Consolidated Pro Forma Financial Information. In particular, they mainly refer to costs (electricity, maintenance services and TLC service access costs)

and revenues (sales and service revenues), among TIM Group, NetCo, Telenergia and Fibercop that re-emerge after the Transaction..

Note 4 – Effects of NetCo disposal

This column presents the pro-forma adjustments related to NetCo disposal that affect the income statement.
In particular, in “Finance incomes (expenses), net” line, the following assumption have been considered:

- the Initial Exchange is subscribed up to the Total Cap, split with equal notional across respectively each series of the EUR New Notes (Euro 430 million) and each series of USD New Notes (US$ 431 million) assuming an exchange rate as of December 31, 2023 of US$ 1.105 per €1.000;
- the purchase price does not reflect any purchase price adjustments pursuant to the Transaction Agreement.

The pro-forma adjustment in “Finance incomes (expenses), net” line amounts to Euro 427 million and includes:

- lower finance expenses related to the transfer of the bonds, assuming an average post-hedge debt cost equal to 5.1%, calculated under the assumption that the Initial Exchange is subscribed up to the Total Cap;
- higher finance incomes related to the higher available liquidity, calculated under the assumption that the Initial Exchange is subscribed up to the Total Cap;
- Unwinding of derivatives currently hedging the USD New Notes that are assumed to be exchanged and other minor effects.

Note 5 – Effects of the Contracts & Other adjustments

This column presents the pro-forma adjustments derived from the application of the MSA and TSA for the year ended December 31, 2023.

Revenues generated by the MSA and the TSA are equal to Euro 170 million, as reported in the table below:

(millions of Euro)	**Total adjustments**
MSA services:	
(a) Data center and central spaces	45
(b) TLC fixed and mobile	14
(c) IT BSS	23
(d) Banda Bitstream	53
Total MSA Services	**135**
(e) TSA services	35
Total Revenues	**170**

(a) Data center and central spaces
The pro-forma adjustment amounts to Euro 45 million and includes the fees for:

- Data Center standard services, Public Cloud Services (always managed by TIM) and On Demand Services that are provided by TIM related to the NetCo IT Systems used exclusively in relation to the NetCo Business and the NetCo IT Systems used in relation to both the NetCo and TIM Business. Data Center Service Costs are based on the service catalogue according to a unitary price applicable to each Data Center Service used by NetCo. Unit prices are listed in the MSA.
- Space for Network Central offices in TIM Buildings. The space fees are defined in MSA.

(b) TLC fixed and mobile

The pro-forma adjustment amounts to Euro 14 million and includes the fees for:

- Office Mobile Services that include mobile voice, messages and data services, using SIM Cards in smartphones, tablets and other mobile devices or M2M Smart solution for the management of Internet of Things connectivity. Prices defined in MSA are based on the service catalogue according to a unitary price applicable for the different services used by NetCo for its employees.
- Corporate network services to connect NetCo offices and central exchanges through the "Rete Dati di Gruppo" ("RDG"). RDG is TIM's corporate network, which provides access, aggregation and transport of IP traffic among network elements and Offices. NetCo shall pay to TIM the annual fee set forth in MSA for the provision of the Corporate Network Services, which shall be calculated based on the number of employees, Network equipment and OSS/BSS system, lines and connections and total data traffic.

(c) IT BSS - Communication and Collaboration Services

The pro-forma adjustment amounts to Euro 23 million and includes the fees for the end-to-end collaboration management, mail, identity and access management, IT Back Office, workplace management, including the Digital Employee Experience and Digital Communication and Collaboration. The IT BSS- Communication and Collaboration fees are calculated according to an annual amount based on number of workstations (PC, Laptop, Virtual Desktop). The fee includes Microsoft Windows and Microsoft Office 365 Licenses for the workplace and the laptop/desktop rental.

(d) Banda Bitstream

The pro-forma adjustment amounts to Euro 53 million and includes the fees the IP transport needed to implement the OLO's wholesale services that require IP bandwith. The total revenues is determined as sum of total OLO's Bitstream Bandwidth Regulated revenues (extracted from accounting systems) net of the commercialization margin (currently used and regulated by AGCOM) and a percentage defined in the MSA of the revenues related to the not regulated services.

(e) TSA

The pro-forma adjustment amounts to Euro 35 million and includes the fees for:

- TIM Hybrid Systems Services mainly include the development and management activities provided by TIM to NetCo with respect to the TIM Hybrid systems;
- the Cyber Security Engineering.&Operations Services mainly include a set of security tools, which shall be provided by TIM to NetCo, aimed at protecting the network and IT components, workstations ("PdL"), data/information, as well as the management of accounts cycle of NetCo;
- the Cyber Security & SOC Services that shall be provided by TIM to NetCo;
- the Judicial Authority Services include a set of services, which shall be provided by TIM to NetCo, so as to allow NetCo to comply with the mandatory legal requirements provided under Italian applicable law ("Codice delle Comunicazioni"), regarding judicial requests required by operation of law for telecommunication operators;
- ICT Risk management;
- accounting Support;
- tax;
- payroll;
- Telco Cloud Infrastructure service shall be provided by TIM to NetCo, including the hosting services for NetCo Virtual Network Functions (VNFs) running on TIM cloud infrastructures (Telco Cloud shared IaaS Environment) other than Noovle Data Centers.

Costs, depreciation and amortization generated by the MSA and the TSA, and Other adjustments are equal to Euro 1,972 million, as reported in the table below:

(millions of Euro)	*Pro-forma adjustments*
MSA Services	
(a) Access (*)	1,373
(b) Assurance	128
(c) Delivery (*)	61
(d) Industrial Colocation (**)	193
(e) Engineering	148
(f) Real Estate and DC (**)	21
(g) Other Services	122
(h) Energy	65
Total MSA Services	**2,111**
(i) TSA Services	6
Total Operating Expenses - gross	**2,117**
Elimination of previous MSA/TSA contract and Others	(113)
Total Operating Expenses	**2,004**
Other adjustments related to MOS/MOI	(32)
Total Operating Expenses, net	**1,972**
Breakdown as follows:	
Acquisition of goods and services	*1,899*
Other operating expenses /Changes in inventories/Internally generated assets	*26*
Depreciation & Amortization	*47*

(*) The amounts doesn't include any impacts deriving from the deferral of costs.
(**) The amounts include some Depreciation & Amortization impacts.

(a) Access
The pro-forma adjustment amounts to Euro 1,373 million, which include fees for access services based on fiber or copper needed to provide voice and broadband service to retail customers calculated as the product of unit prices defined by NetCo MSA and quantities extracted from operational systems.

(b) Assurance
The pro-forma adjustment amounts to Euro 128 million, which include fees for Technical assurance support for copper and fiber network calculated as the product of unit prices defined by NetCo MSA (differentiated by technology and customer segment, depending on fault rate) and quantities extracted from operational systems.

(c) Delivery
The pro-forma adjustment amounts to Euro 61 million, which include fees for Standard and Premium installation and configuration of equipment at customer site calculated as the product of unit prices defined by NetCo MSA and quantities extracted from operational systems.

(d) Industrial Colocation

The pro-forma adjustment amounts to Euro 193 million and includes fees for an identified portion of a Central Office suitable to host Network Elements and Computers including spaces, facility management, security, Energy & Conditioning services. Colocation have been calculated based on the occupied spaces and energy consumptions of the equipment used by TIM and price per colocation service defined in MSA; certain colocation amounts, for the portion of identified assets, have been accounted under IFRS 16 (right of use of assets).

(e) Engineering

The pro-forma adjustment amounts to Euro 148 million, which include fees for Fixed IP Transport and Mobile Network Creation and Operation and Maintenance. Service catalogue is based on the work plan for Network Development and volume of assets managed (nodes) for O&M. Unit prices are defined by NetCo MSA.

(f) Real Estate and DC

The pro-forma adjustment amounts to Euro 21 million, which include fees for rental of offices and data center spaces and related utilities. The Real Estate amounts have been calculated based on the estimated office space per FTE plus data center spaces used by TIM and price per space and utilities defined in MSA; certain real estate amounts have been accounted under IFRS 16 (right of use assets) for the portion of identified assets referred to certain office spaces.

(g) Other Services

The pro-forma adjustment amounts to Euro 122 million, which include fees mainly for Mobile Backhauling, KIT VULA, Legacy Voice, Radio Links.

- Backhaul costs refer to the access services to the telecommunications network that carries traffic from the edge of the network (such as a cell tower or small cell) to the core network. Prices are regulated by NetCo MSA and the quantities are extracted from operational system;
- KIT VULA costs include fees for equipment and connections needed for the delivery of intermediate services (VULA C and VULA H) purchased by TIM from NetCo's network; The price is regulated and approved by AGCOM;
- Legacy Voice costs are related to the management of the legacy traffic generated by TIM customers. The price is regulated and approved by AGCOM. Costs have been calculated based on the total traffic in TDM (both terminated and originated) multiplied by the respective regulated prices;
- Radio links revenues mainly relate to maintenance and spectrum costs of radio links equipment used by TIM for Mobile backhauling.

(h) Energy

The pro-forma adjustment amounts to Euro 65 million, which include fees for the services for energy purchase, dispatchment, transportation and related administrative management that NetCo, through Telenergia, will provide to TIM and its Affiliates. The energy costs are mainly related to TIM Data center and Mobile network energy consumption and Unit energy price is equal to the sum of cost of purchased energy (pass-through), accessory costs (dispatch, transportation), and service fee to cover Telenergia internal costs.

(i) TSA - IT OSS Transitional Service

The pro-forma adjustment amounts to Euro 6 milion, which include fees for the management of the shared IT OSS (Operational Support System) Systems and Platforms assigned to NetCo and used by TIM calculated as the sum of internal and external NetCo costs (extracted from accounting systems) plus a service fee.

Other adjustments related to MOS/MOI

The pro-forma adjustments include a negative amount of Euro 32 million that relates to deferred expenses adjustment reversal for 2023 and MSA Costs deferral (7/8 of activation costs towards NetCo).

Explanatory notes to Pro-forma Consolidated Statement of Financial Position

Note 6 – TIM Group Consolidated financial statements

This column includes audited TIM Group consolidated statement of financial position for the financial year ended December 31, 2023, taken from the TIM Group Consolidated Financial Statement as of December 31, 2023.

Note 7 – Historical results of NetCo combined carve out

This column includes the audited NetCo's combined statement of financial position for the financial year ended December 31, 2023, taken from the NetCo Combined carve out Financial Information as of December 31, 2023.

Note 8 – Intercompany components

This column presents the re-establishment of FiberCop Intercompany Loan and TIM intercompany financial receivable that, following the effect of the carve out, have to be considered as a third party operation in the TIM Group Consolidated Pro Forma Financial Information.

Note 9 – Effects of NetCo disposal

This column presents the pro-forma adjustments related to the effect of NetCo disposal. In particular, the following adjustments have been reflected in the statement of financial position:

- the impacts related to the transfer of the Notes and the unwinding of relevant derivatives, the cash consideration from the Transaction and the reimbursement of FiberCop intercompany loan. For the purposes of calculating the cash-in from the NetCo disposal, which depends, among other factors, on the results of the Exchange Offers, the management assumed that the Initial Exchange is subscribed up to the Total Cap, split with equal notional across respectively each series of the EUR New Notes (Euro 430 million) and each series of USD New Notes (US431 million) assuming an exchange rate as of December 31, 2023 of $1.105 per €1.000. The purchase price does not reflect any purchase price adjustments pursuant to the Transaction Agreement.
  For additional information, please refer to the paragraph Additional Pro Forma Financial Information *"TIM Group Pro-forma Adjusted Net Financial Debt – After Lease".*
- the goodwill reduction of Euro 7,703 million. Please note that - only for the purpose of this Pro-forma accounts - the relevant assumption is that the amount attributed to NetCo of the Domestic operation goodwill is calculated as difference between the carrying value of business net assets (net of related non-controlling interest) and the proceeds received from the disposal, with no impacts registered on Equity and Net Income. Thus, this amount does not represent the amount of goodwill that will be attributed by TIM Group to the NetCo business, following the provisions of the applicable IFRSs (and namely IAS 36, relative fair value), at the closing date and after the final determination of the relative values of the business disposed of and of the portion of the cash generating unit retained (or other method to better reflect the goodwill associated with the operation disposed of).

Note 10 – Effects of the Contracts & Other adjustments

This column presents the pro-forma adjustments derived from the application of the MSA and TSA for the year ended December 31, 2023 and Other adjustments, referred to the following items:

- Current financial liabilities for financing contracts and others, associated with the advanced payment on NRRP tenders, still under discussion and legal analysis:
    - at the end of 2023 TIM collected from Infratel Italia S.p.A. (the in-house company of the Ministry of Economic Development and the implementing party of the Government's Broadband and Ultra-Broadband Plans, hereinafter "**Infratel**") Euro 758 million referred to all the three tenders awarded (Italia 1 Giga, 5G Backhauling, 5G Coverage), representing around 30% of the total grant for the three Plans and setting forth a progressive recovery method. The advances collected has been recognized by TIM in the TIM Group Audited Consolidated Financial Statements within Cash and cash equivalents and Short-term financial receivables, against Miscellaneous payables towards Infratel. As a condition precedent for the disbursement of advances, bank/insurance guarantees were issued for the full amount advanced, plus statutory interest. These guarantees were issued to TIM by banks and insurance companies on December 21 and 22, 2023;
    - as of December 31, 2023, the advanced payments pertaining to the tenders that, according to the Transaction Agreement, have to be transferred to NetCo, amounts to estimated Euro 706 million; allocations of the advances received have been made on the basis of the agreed treatment of the NRRP tenders in the Transaction Agreement. The discussions between TIM, NetCo/Optics and Infratel about the terms and the allocation of the advances are still ongoing as at the date of this document;
    - for the purposes of the preparation of this TIM Group unaudited consolidated pro forma financial information - in light of the expected capital expenditures deployment and the ongoing discussion with Infratel - the amount of Euro 425 million has been reclassified among net financial position items, since TIM could be required to reimburse these advances, no longer retaining title to the grants and being those advanced payments related to capital expenditures that remain to be made.
- Trade and miscellaneous payables and other current liabilities (Euro 109 million, negative amount) refer to:
    - Euro 425 million negative for the reduction due to reclassification to net financial position of the item above reported;
    - Euro 316 million payables related to the estimation of trade payables connected to the MSA. Trade payables have been calculated by applying a 60 days DPO, equal to the payment terms provided by the MSA, to the MSA pro-forma costs adjustment.
- RoU assets (Euro 386 million) refer to real estate rented spaces granted from NetCo to TIM in accordance with the MSA and related to (i) offices, (ii) co-location and P2P;
- Non-current Financial liabilities for lease contracts (Euro 325 million) and Current Financial liabilities for lease contracts (Euro 46 million) refer to RoU assets and real estate rented spaces, granted from NetCo to TIM in accordance with the MSA and related to (i) co-location and (ii) offices;
- Trade receivables (Euro 32 million) refer to estimation of trade receivables connected to the MSA for 28 million of euro and to current contractual deferred costs for 4 million. Trade receivables have been calculated by applying a 60 days DSO, equal to the collection terms provided by the MSA, to the MSA pro-forma revenues adjustment;
- Euro 28 million refer to non-current contractual deferred cost

1.3 Additional pro-forma financial information

Reconciliation of TIM Group Pro Forma EBITDA to TIM Group Pro Forma Organic EBITDA-AL

Pro Forma Organic EBITDA-AL represents Pro Forma EBITDA excluding, where applicable, effects of the change in the scope of consolidation, exchange differences, non-recurring events and transactions and lease payments. The following table provides a reconciliation of the TIM Group's Pro Forma EBITDA to Pro Forma Organic EBITDA-AL for the periods presented:

(millions of Euro)	**For the year ended December 31, 2023** (unaudited)
EBITDA[(*)]	**3,494**
Non-recurring expenses/(income)[(1)] and other estimated normalization items [(2)]	671
Lease payments [(3)]	(716)
Organic EBITDA-AL[(*)(4)]	**3,450**

(*) This measure is not a measure of financial performance under IFRS or any other generally accepted accounting standard. Non-IFRS measures have limitations as analytical tools and should not be considered in isolation or used as an alternative to other indicators of TIM Group's operating performance, cash flows or any other measure of performance derived in accordance with IFRS. See "*Presentation of Financial and Other Information*."

(1) **Non-recurring expenses/(income)** relate to events and transactions that, in the opinion of management, by their nature do not occur on an ongoing basis in the normal course of operations and which have impact results in a significant amount. Non-recurring charges include, among others, provisions for regulatory disputes and potential liabilities related to them, liabilities with customers and/or suppliers, and provisions for onerous contracts, charges associated with corporate reorganization/restructuring and prior-year adjustments. Specifically, non-recurring events for the year ended December 31, 2023 include:
   (i) Euro 174 million for charges mainly connected to disputes, regulatory sanctions and potential liabilities related to them, the update of the contractual risk provision for onerous contracts (IAS 37) relating to a existing multi-year relationship as well as agreements and the development of non-recurring projects and the recovery of operating costs;
   (ii) Euro 445 million for employee benefit expenses also connected to the application of the Art. 4 of Law June 28, 2012 no. 92, as per the agreements signed with the trade unions by Domestic Business Unit companies.

(2) **Estimated normalization items** refer to certain costs historically incurred by the TIM Group that, as of the date of this Exchange Offer Memorandum, the TIM's management estimates will be borne by NetCo as a standalone entity following the consummation of the Acquisition. In particular, they include:
   (i) certain personnel costs relating to the social shock absorbers ("*contratto di espansione*") incurred in connection with the union agreement entered into by TIM on July 28, 2022 together with other minor provisions relating to personnel amounted to Euro 37 million;
   (ii) provision accruals for litigations & disputes and related legal costs amounted to Euro 10 million;
   (iii) provision accruals for bad debt (relating to trade receivables overdue by more than 365 days) amounted to Euro 5 million.

(3) **Lease payments** refer to the actual cash outflows incurred in the year related to lease contracts.

(4) Pro Forma Organic EBITDA for any of the periods presented equals Pro Forma Organic EBITDA-AL, with the above adjustment for lease payments added back in. Pro Forma Organic EBITDA-AL represents Pro Forma EBITDA excluding, where applicable, effects of the change in the scope of consolidation, exchange differences, non-recurring events and transactions and lease payments.

TIM Group Pro Forma Reclassified Statement of Financial Position

The following table presents the TIM Group Pro Forma Reclassified Statement of Financial Position as of December 31, 2023:

(millions of Euro)	**TIM Consolidated financial statements (Audited)** (a)	**Historical results of NetCo combined carve out (Audited)** (b)	**Pro forma adjustments**			**TIM Pro Forma Consolidated Income Statement (Unaudited)**

Reconciliation of TIM Group Pro-forma Adjusted Net Financial Debt – After Lease

The following table presents the detail of the TIM Group Pro-Forma Net Financial Debt – After Lease as of December 31, 2023:

(millions of Euro)	TIM Group Consolidated financial statement (Audited)	Historical results of NetCo combined carve out (Audited)	Re-establishment of intercompany components	Pro forma adjustments		TIM Group Pro Forma Consolidated financial statement (Unaudited)
				Effects of NetCo disposal	Effects of the Contracts & Other adjustements	
	(a)	(b)	(c)	(d)	(e)	(a–b+c+d+e)
Bonds	18,563			(5,012)		13,551
Amounts due to banks, other financial payables and liabilities	8,492	3,584	2,094	(174)	425	7,253
Financial liabilities for lease contracts (i)	5,581	2,328	10		371	3,634
Gross financial debt	**32,636**	**5,912**	**2,104**	**(5,186)**	**796**	**24,438**
Cash and cash equivalents	(2,912)	(152)	(2)	(8,110)		(10,872)
Other financial assets	(3,674)	(23)	(2,092)	2,461		(3,282)
Financial receivables arising from lease contracts (ii)	(274)	(181)	(9)			(102)
Financial assets	**(6,860)**	**(356)**	**(2,103)**	**(5,649)**	**-**	**(14,256)**
Net Financial Debt Carrying Amount	**25,776**	**5,556**	**1**	**(10,835)**	**796**	**10,182**
Reversal of fair value measurement of derivatives and related net financial liabilities/assets	(120)	-		51		(69)
Adjusted Net Financial Debt	**25,656**	**5,556**	**1**	**(10,784)**	**796**	**10,113**
Leases (i+ii)	(5,307)	(2,147)	(1)	-	(371)	(3,532)
Adjusted Net Financial Debt-After Lease	**20,349**	**3,409**	**-**	**(10,784)**	**425**	**6,581**

The transaction generates a Adjusted Net Financial Debt-After Lease reduction of Euro 13,768 million broken down as follow

- Euro 14,193 million refers to NetCo Disposal
  - Euro 5,000 million notes transferred,
  - Euro 1,342 million FiberCop deconsolidation,
  - Euro 2,079 million reimbursement of FiberCop intercompany loan,
  - Euro 5,809 million cash consideration from the Transaction,
  - Euro 37 million, negative amount related to other minor effects
- Euro 425 million refers to the mentioned reclassification of a portion of the liability related to NRRP
- Lease liabilities reduction of Euro 1,775 million refer for Euro 2,147 million to deconsolidated contracts partly offset by Euro 371 million of MSA contract;
- Reversal of fair value reduction refers to the derivative unwinding related to transferred notes.

NETCO UNAUDITED COMBINED PRO FORMA CARVE-OUT FINANCIAL INFORMATION

The following section includes:

- the combined pro-forma statement of financial position as of December 31, 2023 and the combined pro-forma income statement for the year ended December 31, 2023 (the "**2023 NetCo Unaudited Combined Pro Forma Carve-Out Financial Information")**, and
- the combined pro-forma income statement for the year ended December 31, 2022 (the "**2022 NetCo Unaudited Combined Pro Forma Carve-out Financial Information"**, and cumulatively with the 2023 NetCo Unaudited Combined Pro Forma Carve-out Financial Information, the "**NetCo Unaudited Combined Pro Forma Carve-out Financial Information").**

The NetCo Unaudited Combined Pro Forma Carve-out Financial Information has been prepared for illustrative purposes only to give effect of: (i) the signing of Master Service Agreement with Telecom Italia S.p.A. ("**TIM**") (hereinafter the "**MSA**"), (ii) the signing of Transitional Service Agreement with Telecom Italia S.p.A. (hereinafter the "**TSA**") and (iii) cumulatively, the repayment of the existing intercompany loan originally granted on March 31, 2021 by TIM to FiberCop (the "**FiberCop Intercompany Loan**") with a new loan to be granted to NetCo assuming the same interest rate as the interest rate of the FiberCop Intercompany Loan will apply to it ((i), (ii) and (iii), the "**Transaction**") as if they had occurred on December 31, 2023 for purposes of the applicable statement of the financial position and on January 1 of the relevant year for purposes of the applicable income statement.

The NetCo Unaudited Combined Pro Forma Carve-out Financial Information should not be considered indicative of the actual results that would have been achieved had the Transaction been completed on the dates assumed and does not purport to be illustrative of our future results of operations or financial position. Our actual results may differ significantly from those reflected in the NetCo Unaudited Combined Pro Forma Carve-out Financial Information for a number of reasons, including, but not limited to, differences in assumptions used to prepare the NetCo Unaudited Combined Pro Forma Carve-out Financial Information.

The NetCo Unaudited Combined Pro Forma Carve-out Financial Information does not reflect any adjustment relating to the purchase price allocation as the exercise to determine the fair value of the net assets acquired will be carried out only after the Acquisition Closing Date. The NetCo Unaudited Combined Pro Forma Carve-out Financial Information does not reflect any adjustment relating to the acquiring entity Optics BidCo ("**Optics**") or the financing of that entity

The NetCo Unaudited Combined Pro Forma Carve-out Financial Information has not been prepared in accordance with the requirements of Regulation S-X of the U.S. Securities Act, the Prospectus Directive or any generally accepted accounting standards. The NetCo Unaudited Combined Pro Forma Carve-out Financial Information is based upon currently available information and certain assumptions, described in the accompanying notes to the NetCo Unaudited Combined Pro Forma Carve-out Financial Information, that the Issuer's management believes are reasonable under the circumstances and include adjustments which give effect to events that are directly attributable to the Transaction, are expected to have a continuing impact on NetCo and are factually supportable.

Neither the assumptions underlying the pro forma adjustments, nor the resulting NetCo Unaudited Combined Pro Forma Carve-out Financial Information have been audited or reviewed in accordance with any generally accepted auditing standards. Moreover, given the different purpose of the pro forma data compared to the data in the historical financial statements of NetCo and the different methods of calculating the effects of the Transaction on the pro forma condensed statements of financial position

and pro forma condensed income statement, the NetCo Unaudited Combined Pro Forma Carve-out Financial Information should be read and interpreted without attempting to reconcile such data.

The NetCo Unaudited Combined Pro Forma Carve-out Financial Information should be read in conjunction with:

(i) "Use of Proceeds", "Capitalization of NetCo and Optics", "Management's Discussion and Analysis of Pro Forma Carve-out Financial Information and Results of Operations of NetCo" and "Summary Financial and Other Pro Forma Carve-Out Information of NetCo and Optics";
(ii) TIM Group Audited Consolidated Financial Statements; and
(iii) NetCo Audited Combined Carve-out Financial Information.

Basis of preparation
The NetCo Unaudited Combined Pro Forma Carve-out Financial Information is prepared on the basis of the historical financial information derived from the financial statements and information of NetCo detailed above, adjusted to reflect the effects of the Transaction. The accounting policies adopted in preparing the NetCo Unaudited Combined Pro Forma Carve-out Financial Information are based on the accounting principles applied in the preparation of the TIM Group Audited Consolidated Financial Statements which are in conformity with the International Financial Reporting Standards ("**IFRS**"), endorsed by the European Union; the NetCo Audited Combined Carve-out Financial Information have been extracted from the 2023 and 2022 TIM Group Consolidated Financial Statements with the application of the specific carve-out criteria.

The NetCo Unaudited Combined Pro Forma Carve-out Financial Information does not reflect:

- the financial and economic effects of the Exchange Offers;
- the financial position or results of Optics BidCo ("**Optics**"), including the debt incurred by Optics BidCo under the Senior Facilities Agreement and Senior Bridge Facility Agreement or any pro forma interest expense related thereto;
- the expenses at the Acquisition Closing Date and the "to be" cost base adjustments.

For more information, see "*Summary Financial and Other Pro Forma Carve-Out Information of NetCo—Certain Optics' Pro Forma Data As Adjusted for the Transaction*".

Transaction Agreement
The Transaction Agreement envisages:

- the contribution by TIM of a business unit - consisting of primary network activities, wholesale activities and the entire equity investment in the subsidiary Telenergia - into FiberCop, a company that already manages activities relating to the secondary fiber and copper network;
- the simultaneous acquisition by Optics of TIM's entire equity investment in FiberCop, following the aforementioned contribution (FiberCop after the contribution "NetCo"), not included in this NetCo unaudited combined pro forma carve-out financial information;
- the signing of a Master Services Agreement (hereinafter the "**MSA**") and transitional services agreement ("**TSA**") on the closing date of the transaction that will regulate the terms and conditions of the services that will be rendered by NetCo to TIM and by TIM to NetCo following completion of the transaction.

Transaction Agreement: Accounting for the MSA
A Master Service Agreement for the provision of services regarding the use of the network signed between TIM and NetCo, will be effective from the Closing Date.
The revenues and expenses and other items expected to be generated by or otherwise associated with the Master Services Agreement as set forth in these pro forma accounts are based on the form of Master Services Agreement attached to the Transaction Agreement. It is possible that certain modifications to the form of Master Services Agreement may be made on or prior to the closing of the Acquisition and the

entering into of the definitive Master Services Agreement which could impact the adjustments set forth herein respect of the Master Services Agreement.
Pursuant to the MSA, the NetCo Services mainly encompass:

(i) a variety of access services required for the purposes of the transmission of data and voice traffic directed to and/or generated by TIM's end customers,
(ii) B2B (business-to-business) connectivity services such as point-to-point fiber optic connectivity,
(iii) network services consisting of engineering services for the purposes of network operations and maintenance, delivery services for the access activation in favor of TIM's end customers and assurance services for solving faults experience by TIM's end-consumers,
(iv) real estate services mainly regarding the use, by TIM, of certain real estate properties leased or subleased by NetCo,
(v) energy supply and procurement services (which will be specifically provided by Telenergia, a company wholly owned by NetCo and licensed to this purpose) and
(vi) other minor services.

These services rendered by NetCo have been included in this pro-forma as additional NetCo's Revenues.

The TIM Group will mainly provide:

(i) mobile telecommunication services,
(ii) hosting arrangements within TIM Group's data centers
(iii) access to the corporate network
(iv) the provisions of IT services supporting NetCo's employees activities and
(v) the provision of certain service components (such as bandwidth) enabling NetCo to sell aggregated services to the OAOs. The MSA will have a general duration consisting of a first term of fifteen years with a renewal mechanism for an additional term. For more information, see "*Summary—the Transaction—The Master Services Agreement*".

These services rendered by TIM Group to NetCo have been included in this pro-forma as additional NetCo's operating expenses.

The related VAT payables and receivables have not been included in the Pro-Forma adjustments.

Transaction Agreement: Accounting for the TSA

A Transitional Services Agreement ("**TSA**") will be effective from the Closing Date, in order to provide rules for the management and development of the IT systems during NetCo's start-up phase as well as agreements for the provision of necessary general services by TIM for NetCo to operate.
The amounts have been estimated based on the available information as of the date of these pro forma financial information, since the negotiation between the parties is still in progress.
For more information, see "*Summary—the Transaction—The Transitional Services Agreement*".

Transaction Agreement: FiberCop Intercompany Loan

As part of the Transaction, any amount outstanding under the FiberCop Intercompany Loan will be repaid to TIM. For the purposes of this pro forma financial information, no pro forma adjustment have been reflected, under the assumption that the FiberCop Intercompany Loan will be repaid with a new loan to be granted to NetCo and having the same interest rate as the interest rate of the FiberCop Intercompany Loan [(1)].

(1) *Risks Related to NetCo's Financial Information—NetCo Audited Combined Carve-out Financial Information and NetCo Unaudited Combined Pro Forma Carve-out Financial Information, as the case may be, may not be necessarily representative of the results that NetCo would have achieved as a separate and independent company and may not be a reliable indicator of its future performance.*

Explanatory notes to 2023 Combined Pro Forma Carve-out Income Statement

Note 1 – Historical results of NetCo carve out

This column includes the Company's combined income statement for the financial year December 31, 2023, taken from the audited NetCo Combined Carve Out Financial Information as at December 31,2023 and 2022.

Note 2 – Effects of the Contracts

This column presents the pro-forma adjustments derived from the application of the MSA and TSA for the year ended December 31, 2023.

Revenues and Other income generated by the MSA and the TSA are equal to Euro 2,006 million, as reported in the table below:

(millions of Euro)	***Pro-forma adjustments***
MSA Services	
(a) Access	1,373
(b) Assurance	128
(c) Delivery	61
(d) Industrial Colocation	194
(e) Engineering	148

(f) Real Estate and DC	22
(g) Other Services	122
(h) Energy	65
Total MSA Services	**2,113**
(i) TSA Services	6
Total revenues and other income - gross	**2,119**
Elimination of previous MSA/TSA contract and Others	*(113)*
Total Revenues and Other income - net	**2,006**
Breakdown as follow:	
Revenues	*1,858*
Other income	*148*

(a) Access
The pro-forma adjustment amounts to Euro 1,373 million and includes the fees for access services based on fiber or copper needed to provide voice and broadband service to retail customers calculated as the product of unit prices defined by NetCo MSA and average quantities for the period extracted from operational systems.

(b) Assurance
The pro-forma adjustment amounts to Euro 128 million and includes the fees for Technical assurance support for copper and fiber network calculated as the product of unit prices defined by NetCo MSA (differentiated by technology and customer segment, depending on fault rate) and average quantities for the period extracted from operational systems.

(c) Delivery
The pro-forma adjustment amounts to Euro 61 million and includes the fees for Standard and Premium installation and configuration of equipment at customer site calculated as the product of unit prices defined by NetCo MSA and quantities extracted from operational systems.

(d) Industrial Colocation
The pro-forma adjustment amounts to Euro 194 million and includes the fees for an identified portion of a Central Office suitable to host Network Elements and Computers including spaces, facility management, security, Energy & Conditioning services. Colocation revenues have been calculated based on the occupied spaces and energy consumptions of the equipment used by TIM and price per colocation service defined in MSA.

(e) Engineering
The pro-forma adjustment amounts to Euro 148 million and includes the fees for Fixed IP Transport and Mobile Network Creation and Operation and Maintenance. Service catalogue is based on the work plan for Network Development and volume of assets managed (nodes) for O&M. Unit prices are defined by NetCo MSA.

(f) Real Estate and DC
The pro-forma adjustment amounts to Euro 22 million and includes the fees for rental of office and data center spaces and related utilities. Revenues have been calculated based on the estimated office space per FTE plus data center spaces used by TIM and price per space and utilities defined in MSA.

(g) Other Services
The pro-forma adjustment amounts to Euro 122 million and includes the fees mainly for Mobile Backhauling, KIT VULA, Legacy Voice, Radio Links.

- Backhaul revenues refer to the access services to the telecommunications network that carries traffic from the edge of the network (such as a cell tower or small cell) to the core network. Prices are regulated by MSA and the quantities are extracted from operational system.
- KIT VULA revenues include fees for equipment and connections needed for the delivery of intermediate services (VULA C and VULA H) purchased by TIM from NetCo's network; The price is regulated and approved by AGCOM.
- Legacy Voice Revenues are related to the management of the legacy traffic generated by TIM customers. The price is regulated and approved by AGCOM. Revenues have been calculated based on the total traffic in TDM (both terminated and originated) multiplied by the respective regulated prices.
- Radio links revenues mainly relate to maintenance and spectrum costs of radio links equipment used by TIM for Mobile backhauling.

(h) Energy

The pro-forma adjustment amounts to Euro 65 million and includes the fees for the services for energy purchase, dispatchment, transportation and related administrative management that NetCo, through Telenergia, will provide to TIM and its Affiliates. The energy revenues are mainly related to TIM Data center and Mobile network energy consumption and Unit energy price is equal to the sum of cost of purchased energy (pass-through), accessory costs (dispatch, transportation), and service fee to cover Telenergia internal costs.

(i) TSA Services - IT OSS

The pro-forma adjustment amounts to Euro 6 milion and includes the fees for the management of the shared IT OSS (Operational Support System) Systems and Platforms assigned to NetCo and used by TIM calculated as the sum of internal and external NetCo costs (extracted from accounting systems) plus a service fee.

Costs incurred by NetCo and arising under the MSA and the TSA are equal to Euro 170 million, as reported in the table below***:***

(millions of Euro)	**Total adjustments**
MSA services	
(a) Data center and central spaces	45
(b) TLC fixed and mobile	14
(c) IT BSS	23
(d) Banda Bitstream	53
Total MSA Services	**135**
(e) TSA services	35
Total	**170**
Breakdown as follow:	
Acquisition of goods and services	*155*
Other operating expenses /Changes in inventories/Internally generated assets	*15*

(a) Data center and central spaces
The pro-forma adjustment amounts to Euro 45 million and includes the fees for:

- Data Center standard services, Public Cloud Services (always managed by TIM) and On Demand Services that are provided by TIM related to the NetCo IT Systems used exclusively in relation to the NetCo Business and the NetCo IT Systems used in relation to both the NetCo and TIM Business. Data Center Service Costs are based on the service catalogue according to a unitary price applicable to each Data Center Service used by NetCo. Unit prices are listed in the MSA.
- Space for Network Central offices in TIM Buildings. The space fees are defined in MSA.

(b) TLC fixed and mobile
The pro-forma adjustment amounts to Euro 14 million and includes the fees for:

- Office Mobile Services that include mobile voice, messages and data services, using SIM Cards in smartphones, tablets and other mobile devices or M2M Smart solution for the management of Internet of Things connectivity. Prices defined in MSA are based on the service catalogue according to a unitary price applicable for the different services used by Netco for its employees.
- Corporate network services to connect NetCo offices and central exchanges through the “Rete Dati di Gruppo” (“RDG”). RDG is TIM’s corporate network, which provides access, aggregation and transport of IP traffic among network elements and Offices. NetCo shall pay to TIM the annual fee set forth in MSA for the provision of the Corporate Network Services, which shall be calculated based on the Number of employees, Network equipment and OSS/BSS system, lines and connections and total data traffic.

(c) IT BSS - Communication and Collaboration Services
The pro-forma adjustment amounts to Euro 23 million and includes the fees for the end-to-end collaboration management, mail, identity and access management, IT Back Office, workplace management, including the Digital Employee Experience and Digital Communication and Collaboration. The IT BSS- Communication and Collaboration fees are calculated according to an annual amount based on number of workstations (PC, Laptop, Virtual Desktop). The fee includes Microsoft Windows and Microsoft Office 365 Licenses for the workplace and the laptop/desktop rental.

(d) Banda Bitstream
The pro-forma adjustment amounts to Euro 53 million and includes the fees the IP transport needed to implement the OLO’s wholesale services that require IP bandwith. The total cost is determined as sum

of total OLO's Bitstream Bandwidth Regulated revenues (extracted from accounting systems) net of the commercialization margin (currently used and regulated by AGCOM) and a percentage defined in the MSA of the revenues related to the not regulated services.

(e) TSA

The pro-forma adjustment amounts to Euro 35 million and includes the fees for:

- TIM Hybrid Systems Services mainly include the development and management activities provided by TIM to NetCo with respect to the TIM Hybrid systems.
- The Cyber Security Engineering.&Operations Services mainly include a set of security tools, which shall be provided by TIM to NetCo, aimed at protecting the network and IT components, workstations ("PdL"), data/information, as well as the management of accounts cycle of NetCo.
- The Cyber Security & SOC Services that shall be provided by TIM to NetCo.
- The Judicial Authority Services include a set of services, which shall be provided by TIM to NetCo, so as to allow NetCo to comply with the mandatory legal requirements provided under Italian applicable law ("Codice delle Comunicazioni"), regarding judicial requests required by operation of law for telecommunication operators.
- ICT Risk management.
- Accounting Support.
- Tax.
- Payroll.
- Telco Cloud Infrastructure service shall be provided by TIM to NetCo, including the hosting services for NetCo Virtual Network Functions (VNFs) running on TIM cloud infrastructures (Telco Cloud shared IaaS Environment) other than Noovle Data Centers.

Note 3 – Other adjustments

Costs related to other adjustments are equal to Euro 55 million, as reported in the table below:

(millions of Euro)	***Pro-forma adjustments*** **MOS/MOI**
Acquisition of goods and services	29
Employee benefits expenses	26
Total other adjustments	**55**

MOS/MOI

The pro-forma adjustment amounts to Euro 55 million and relates to the deferred expenses adjustment relating to external (i.e. acquisition of goods and services) and internal (i.e. employee benefits expenses) costs corresponding to 7/8 of activation costs towards TIM.

Income tax expenses

Income tax expenses of the 2023 NetCo Pro Forma Combined Income Statement amount to Euro 133 million, calculated applying the IRES notional tax rate (24%) to the *Pro Forma Combined Profit before tax from continuing operations* and the IRAP notional tax rate (4.5%) to the *Pro Forma Combined Operating profit (EBIT)*. Therefore, the Pro Forma adjustment on the Income tax expenses has been determined as difference between the amount above described and the historical income tax expenses of the NetCo Combined Carve out.

Explanatory notes to 2023 Combined Pro Forma Carve-out Statement of Financial Position

Note 1 – Historical results of NetCo carve out

This column includes the Company's combined statement of financial position for the financial year December 31, 2023, taken from the audited NetCo Combined Carve Out Financial Information as at December 31,2023 and 2022.

Note 2 – Effects of the Contracts

This column presents the pro-forma adjustments derived from the application of the MSA and TSA for the year ended December 31, 2023.
In particular:

- Euro 14.9 million refer to IRUs granted from NetCo to TIM in accordance with the MSA and related to (i) backbone, (ii) backhauling and (iii) P2P connections;
- Euro 334.3 million refer to estimation of trade receivables connected to the MSA. Trade receivables have been calculated by applying a 60 days DSO, equal to the collection terms provided by the MSA, to the MSA pro-forma revenues adjustment;
- Euro 23 million refer to estimation of trade payables connected to the acquisition of good and services accordingly with the MSA. Trade payables have been calculated by applying a 60 days DPO, equal to the payment terms provided by the MSA, to the MSA pro-forma costs adjustment.

Note 3 – Other adjustments

This column presents the pro-forma adjustments mainly referred to the following items:

- Payables and Receivables, associated with the advanced payment on NRRP tenders, still under discussion and legal analysis. In particular:
    - at the end of 2023 TIM collected from Infratel Italia S.p.A. (the in-house company of the Ministry of Economic Development and the implementing party of the Government's Broadband and Ultra-Broadband Plans, hereinafter "**Infratel**") Euro 758 million referred to all the three tenders awarded (Italia 1 Giga, 5G Backhauling, 5G Coverage), representing around 30% of the total grant for the three Plans and setting forth a progressive recovery method. The advances collected has been recognized by TIM in the TIM Group Audited Consolidated Financial Statements within Cash and cash equivalents and Short-term financial receivables, against Miscellaneous payables towards Infratel. As a condition precedent for the disbursement of such advances, bank/insurance guarantees were issued for the full amount advanced, plus statutory interest. These guarantees were issued on behalf of TIM by banks and insurance companies on December 21 and 22, 2023;
    - for the purposes of the preparation of NetCo Combined Pro Forma Carve-out, the advanced payments pertaining to the tenders that, according to the Transaction Agreement, are to be transferred (estimated Euro 706 million), have been reflected as receivables and payables, which represent the advanced payments received from Infratel and related obligations as of December 31, 2023; allocations of the advances received have been made on the basis of the agreed treatment of the NRRP tenders in the Transaction Agreement. The discussions between TIM, NetCo/Optics and Infratel about the terms and the allocation of the advances are still ongoing as at the date of this document.
- Euro 55 million relating to the deferred expenses costs corresponding to 7/8 of the activation costs, of which non current Euro 47 million and current Euro 8 million.
- Euro 36 million in Trade and miscellaneous payables and other current liabilities.

1.2 2023 Additional pro-forma financial information

Reconciliation of Pro Forma EBITDA to Pro Forma Organic EBITDA-AL of NetCo

The following table provides a reconciliation of the NetCo's Pro Forma EBITDA to Pro Forma Organic EBITDA-AL for the periods presented:

(Pro Forma)	For the year ended December 31,	
(millions of Euro)	2023	2022
	(unaudited)	
EBITDA	**2,353**	**2,208**
Estimated normalization items (1)	(52)	(59)
Non-recurring expenses(2)	17	13
Lease payments(3)	(370)	(351)
Organic EBITDA-AL(*)	**1,948**	**1,812**

(*) This measure is not a measure of financial performance under IFRS or any other generally accepted accounting standard. Non-IFRS measures have limitations as analytical tools and should not be considered in isolation or used as an alternative to other indicators of NetCo's operating performance, cash flows or any other measure of performance derived in accordance with IFRS. See "Presentation of Financial and Other Information."

(1) **Estimated normalization items** refer to certain costs historically incurred by the TIM Group that, as of the date of this Exchange Offer Memorandum, the TIM's management estimates will be borne by NetCo as a standalone entity following the consummation of the Acquisition. In particular, they include:

a) certain personnel costs relating to the social shock absorbers (*contratto di espansione*) incurred in connection with the union agreement entered into by TIM on July 28, 2022 together with other minor provisions relating to personnel amounted to Euro 37 million and Euro 42 million for the years ended December 31, 2023 and 2022, respectively;
b) provision accruals for litigations & disputes and related legal costs amounted to Euro 10 million and Euro 9 million for the years ended December 31, 2023 and 2022, respectively; and
c) provision accruals for bad debt (relating to trade receivables overdue by more than 365 days) amounted to Euro 5 million and Euro 8 million for the years ended December 31, 2023 and 2022, respectively.

These costs are not reflected in the NetCo Audited Combined Carve-out Financial Information or in the NetCo Unaudited Combined Pro forma Carve-out Financial Information included elsewhere in the Exchange Offer Memorandum which have been prepared in accordance with the Transaction Agreement. These normalization items do not purport to represent the full range of additional costs or dis-synergies that NetCo, as a standalone entity, could incur as part of the ongoing cost structure of the NetCo Business[2].

(2) *Risk Factors— Risks Related to NetCo's Financial Information—NetCo Audited Combined Carve-out Financial Information and NetCo Unaudited Combined Pro Forma Carve-out Financial Information, as the case may be, may not be necessarily representative of the results that NetCo would have achieved as a separate and independent company and may not be a reliable indicator of its future performance*" and "*—NetCo's Pro Forma Organic EBITDA-AL and other non-IFRS measures presented in this Exchange Offer Memorandum are based upon estimates and assumptions regarding specific initiatives and the impact of certain events. Such estimates and assumptions might prove to be materially incorrect as a result of factors beyond NetCo's control and are subject to known and unknown risks, uncertainties and other factors.*

(2) **Non-recurring expenses** relate to events and transactions that, in the opinion of management, by their nature do not occur on an ongoing basis in the normal course of operations and which have impact results in a significant amount. Specifically, non-recurring events for the year ended December 31, 2022 and 2023 mainly include:

a) expenses related to COVID emergency prevention;
b) write-off, in 2023, of a positive income related to a Telenergia dispute; and
c) Personnel costs related to training.

(3) **Lease payments** refer to the actual cash outflows incurred in the year related to lease contracts.

NetCo Combined Pro-forma Reclassified Statement of Financial Position

The following table presents the NetCo Combined Pro-Forma Reclassified Statement of Financial Position as of December 31, 2023:

(millions of Euro)	Historical results of NetCo carve out (Audited)	Pro forma adjustments		NetCo Combined Pro Forma Statement of Financial Position (Unaudited)
		Effects of the Contracts	Other adjustements	
	(a)	(b)	(c)	(a+b+c)
Intangible assets with a finite useful life	239			239
Property, plant and equipment owned	9,720	(15)		9,705

Explanatory notes to 2022 Combined Pro Forma Carve-Out Income Statements

Note 1 – Historical results of NetCo carve out

This column includes the Company's combined income statement for the financial year December 31, 2022, taken from the NetCo Combined Carve Out Financial Information as at December 31,2023 and 2022.

Note 2 – Effects of the Contracts

This column presents the pro-forma adjustments derived from the application of the MSA and TSA for the year ended December 31, 2022.

Revenues and Other income generated by the MSA and the TSA are equal to Euro 2,107 million, as reported in the table below:

(millions of Euro)	***Pro-forma adjustments***
MSA Services	
(a) Access	1,469
(b) Assurance	133
(c) Delivery	62
(d) Industrial Colocation	193
(e) Engineering	145
(f) Real Estate and DC	22

(g) Other Services	127
(h) Energy	63
Total MSA Services	**2,214**
(i) TSA Services	6
Total revenues and other income - gross	**2,220**
Elimination of previous MSA/TSA contract and Others	*(113)*
Total Revenues and Other income - net	**2,107**
Breakdown as follow:	
Revenues	*1,962*
Other income	*145*

(a) Access

The pro-forma adjustment amounts to Euro 1,469 million and includes the fees for access services based on fiber or copper needed to provide voice and broadband service to retail customers calculated as the product of unit prices defined by NetCo MSA and average quantities for the period extracted from operational systems.

(b) Assurance

The pro-forma adjustment amounts to Euro 133 million and includes the fees for Technical assurance support for copper and fiber network calculated as the product of unit prices defined by NetCo MSA (differentiated by technology and customer segment, depending on fault rate) average quantities for the period extracted from operational systems.

(c) Delivery

The pro-forma adjustment amounts to Euro 62 million and includes the fees for Standard and Premium installation and configuration of equipment at customer site calculated as the product of unit prices defined by NetCo MSA and quantities extracted from operational systems.

(d) Industrial Colocation

The pro-forma adjustment amounts to Euro 193 million and includes the fees for an identified portion of a Central Office suitable to host Network Elements and Computers including spaces, facility management, security, Energy & Conditioning services. Colocation revenues have been calculated based on the occupied spaces and energy consumptions of the equipment used by TIM and price per colocation service defined in MSA.

(e) Engineering

The pro-forma adjustment amounts to Euro 145 million and includes the fees for Fixed IP Transport and Mobile Network Creation and Operation and Maintenance. Service catalogue is based on the work plan for Network Development and volume of assets managed (nodes) for O&M. Unit prices are defined by NetCo MSA.

(f) Real Estate and DC

The pro-forma adjustment amounts to Euro 22 million and includes the fees for rental of office and data center spaces and related utilities. Revenues have been calculated based on the estimated office space per FTE plus data center spaces used by TIM and price per space and utilities defined in MSA.

(g) Other Services

The pro-forma adjustment amounts to Euro 127 million and includes the fees mainly for Mobile Backhauling, KIT VULA, Legacy Voice, Radio Links.

- Backhaul revenues refer to the access services to the telecommunications network that carries traffic from the edge of the network (such as a cell tower or small cell) to the core network. Prices are regulated by NetCo MSA and the quantities are extracted from operational system
- KIT VULA revenues include fees for equipment and connections needed for the delivery of intermediate services (VULA C and VULA H) purchased by TIM from NetCo's network; The price is regulated and approved by AGCOM.
- Legacy Voice Revenues are related to the management of the legacy traffic generated by TIM customers. The price is regulated and approved by AGCOM. Revenues have been calculated based on the total traffic in TDM (both terminated and originated) multiplied by the respective regulated prices.
- Radio links revenues mainly relate to maintenance and spectrum costs of radio links equipment used by TIM for Mobile backhauling.

(h) Energy

The pro-forma adjustment amounts to Euro 63 million and includes the fees for the services for energy purchase, dispatchment, transportation and related administrative management that NetCo, through Telenergia, will provide to TIM and its Affiliates. The energy revenues are mainly related to TIM Data center and Mobile network energy consumption and Unit energy price is equal to the sum of cost of purchased energy (pass-through), accessory costs (dispatch, transportation), and service fee to cover Telenergia internal costs.

(i) TSA - IT OSS Transitional Service

The pro-forma adjustment amounts to Euro 6 milion and includes the fees for the management of the shared IT OSS (Operational Support System) Systems and Platforms assigned to NetCo and used by TIM calculated as the sum of internal and external NetCo costs (extracted from accounting systems) plus a service fee.

Costs incurred by NetCo and arising under the MSA and the TSA are equal to Euro 173 million, as reported in the table below***:***

(millions of Euro)	**Total adjustments**
MSA services	
(a) Data center and central spaces	45
(b) TLC fixed and mobile	14
(c) IT BSS	23
(d) Banda Bitstream	61
Total MSA Services	**143**
(e) TSA services	30
Total acquisition of goods and services	**173**
Breakdown as follow:	
Acquisition of goods and services	*158*
Other operating expenses /Changes in inventories/Internally generated assets	*15*

(a) Data center and central spaces

The pro-forma adjustment in question amounts to Euro 45 million and includes the fees for:

- Data Center standard services, Public Cloud Services (always managed by TIM) and On Demand Services that are provided by TIM related to the NetCo IT Systems used exclusively in relation to the NetCo Business and the NetCo IT Systems used in relation to both the NetCo and TIM Business. Data Center Service Costs are based on the service catalogue according to a unitary price applicable to each Data Center Service used by NetCo. Unit prices are listed in the NetCo MSA.
- Space for Network Central offices in TIM Buildings. The space fees are defined in MSA.

(b) TLC fixed and mobile

The pro-forma adjustment amounts to Euro 14 million and includes the fees for:

- Office Mobile Services that include mobile voice, messages and data services, using SIM Cards in smartphones, tablets and other mobile devices or M2M Smart solution for the management of Internet of Things connectivity. Prices defined in MSA are based on the service catalogue according to a unitary price applicable for the different services used by Netco for its employees.
- Corporate network services to connect NetCo offices and central exchanges through the “Rete Dati di Gruppo” (“RDG”). RDG is TIM’s corporate network, which provides access, aggregation and transport of IP traffic among network elements and Offices. NetCo shall pay to TIM the annual fee set forth in MSA for the provision of the Corporate Network Services, which shall be calculated based on the Number of employees, Network equipment and OSS/BSS system, lines and connections and total data traffic.

(c) IT BSS- Communication and Collaboration Services

The pro-forma adjustment amounts to Euro 23 million which include fees for the end-to-end collaboration management, mail, identity and access management, IT Back Office, workplace management, including the Digital Employee Experience and Digital Communication and Collaboration. The IT BSS-Communication and Collaboration fees are calculated according to an annual amount based on number of workstations (PC, Laptop, Virtual Desktop). The fee includes Microsoft Windows and Microsoft Office 365 Licenses for the workplace and the laptop/desktop rental.

(d) Banda Bitstream

The pro-forma adjustment amounts to Euro 61 million and includes the fees for the IP transport needed to implement the OLO’s wholesale services that require IP bandwith. The total cost is determined as sum

of total OLO's Bitstream Bandwidth Regulated revenues (extracted from accounting systems) net of the commercialization margin (currently used and regulated by AGCOM) and a percentage defined in the MSA of the revenues related to the not regulated services.

(e) TSA

The pro-forma adjustment amounts to Euro 30 million and includes the fees for:

- TIM Hybrid Systems Services mainly include the development and management activities provided by TIM to NetCo with respect to the TIM Hybrid systems.
- The Cyber Security Engineering.&Operations Services mainly include a set of security tools, which shall be provided by TIM to NetCo, aimed at protecting the network and IT components, workstations ("PdL"), data/information, as well as the management of accounts cycle of NetCo.
- The Cyber Security & SOC Services that shall be provided by TIM to NetCo.
- The Judicial Authority Services include a set of services, which shall be provided by TIM to NetCo, so as to allow NetCo to comply with the mandatory legal requirements provided under Italian applicable law ("Codice delle Comunicazioni"), regarding judicial requests required by operation of law for telecommunication operators.
- ICT Risk management.
- Accounting Support.
- Tax.
- Payroll.
- Telco Cloud Infrastructure service shall be provided by TIM to NetCo, including the hosting services for NetCo Virtual Network Functions (VNFs) running on TIM cloud infrastructures (Telco Cloud shared IaaS Environment) other than Noovle Data Centers.

Note 3 – Other adjustments

Costs related to other adjustments are equal to Euro 29 million, as reported in the table below:

(millions of Euro)	*Pro-forma adjustments* MOS/MOI
Acquisition of goods and services	24
Employee benefits expenses	5
Total other adjustments	**29**

MOS/MOI

The pro-forma adjustment in amounts to Euro 29 million and relates to the deferred expenses adjustment relating to external (i.e. acquisition of goods and services) and internal (i.e. employee benefits expenses) costs corresponding to 7/8 of activation costs towards TIM.

Income tax expenses

Income tax expenses of the 2022 NetCo Pro Forma Combined Income Statement amount to Euro 130 million, calculated applying the IRES notional tax rate (24%) to the *Pro Forma Combined Profit before tax from continuing operations* and the IRAP notional tax rate (4.5%) to the *Pro Forma Combined Operating profit (EBIT)*. Therefore, the Pro Forma adjustment on the Income tax expenses has been determined as difference between the amount above described and the historical income tax expenses of the NetCo Combined Carve out.

The supplementary disclosures required by IAS 7 are provided in Note 17 “Net financial debt”.

NOTE 1
FORM, CONTENT AND OTHER GENERAL INFORMATION

Form and content

Telecom Italia S.p.A. (the “**Parent Company**”), also known in short as “TIM S.p.A.”, and its subsidiaries form the “**TIM Group**” (the “**Group**”).

TIM is a joint-stock company (S.p.A.) organized under the laws of the Republic of Italy.

The registered offices of the Parent, TIM, are located in Milan, Italy at Via Gaetano Negri 1.

The duration of TIM S.p.A., as stated in the company’s bylaws, extends until December 31, 2100.

The TIM Group operates mainly in Europe, the Mediterranean Basin and South America.

The Group is engaged principally in the communications sector and, particularly, the fixed and mobile national and international telecommunications sector.

The TIM Group's Consolidated Financial Statements at December 31, 2023, have been prepared on a going concern basis (further details are provided in the Note “Accounting Policies”) and in accordance with the recognition and measurement criteria of the International Financial Reporting Standards issued by the International Accounting Standards Board and endorsed by the European Union (designated as “IFRS”), as well as laws and regulations in force in Italy.

In 2023, the Group adopted accounting policies consistent with those of the previous year, except for the changes to the accounting standards issued by the IASB and in force as of January 1, 2023. See the Note "Accounting policies" for more details.

The consolidated financial statements have been prepared under the historical cost convention, except for financial assets measured at fair value through other comprehensive income, financial assets measured at fair value through profit and loss, and derivative financial instruments, which have been measured at fair value. The carrying amounts of hedged assets and liabilities have been adjusted to reflect the changes in fair value of the hedged risks (fair value hedge).

In accordance with IAS 1 (Presentation of Financial Statements) comparative information included in the consolidated financial statements refers, unless otherwise indicated, to the previous year.

The TIM Group consolidated financial statements as at December 31, 2023 are expressed in euro (rounded to the nearest million unless otherwise indicated).

The publication of the consolidated financial statements for the year ended December 31, 2023 of the TIM Group was approved by resolution of the Board of Directors on March 6, 2024.

Financial statement formats

The financial statement formats adopted are consistent with those indicated in IAS 1. More specifically:

- the **Consolidated statements of financial position** have been prepared by classifying assets and liabilities according to the "current and non-current" criterion;
- the **Separate Consolidated Income Statement** has been prepared by classifying operating costs by nature of expense as this form of presentation is considered more appropriate and representative of the specific business of the Group, conforms to internal reporting, and is in line with the TIM Group's industrial sector.

In addition to EBIT or Operating profit (loss), the separate consolidated income statements include the alternative performance measure of EBITDA or Operating profit (loss) before depreciation and amortization, Capital gains (losses) and Impairment reversals (losses) on non-current assets.

In particular, besides EBIT, EBITDA is used by TIM as the financial target in internal presentations (business plans) and in external presentations (to analysts and investors). This indicator represents a useful unit of measurement for assessing the operating performance of the Group (as a whole and at Business Unit level).

EBIT and EBITDA are calculated as follows:

Profit (loss) before tax from continuing operations	
+	Finance expenses
-	Finance income
+/-	Other expenses (income) from investments
+/-	Share of losses (profits) of associates and joint ventures accounted for using the equity method
EBIT – Operating profit (loss)	
+/-	Impairment losses (reversals) on non-current assets
+/-	Losses (gains) on disposals of non-current assets
+	Depreciation and amortization
EBITDA – Operating profit before depreciation and amortization, capital gains (losses) and impairment reversals (losses) on non-current assets	

- the **Consolidated statements of comprehensive income** include the profit or loss for the year as shown in the Separate Consolidated Income Statement and all other non-owner changes in equity;
- the **Consolidated statements of cash flows** have been prepared by presenting cash flows from operating activities according to the "indirect method", as permitted by IAS 7 (Statement of Cash Flows).

Furthermore, as required by Consob Resolution 15519 of July 27, 2006, in the separate consolidated income statement, income and expenses relating to transactions which by nature do not occur during normal operation (non-recurring transactions) have been specifically identified and their impacts on the main intermediate levels have been shown separately, when they are significant. Specifically, non-recurring income/(expenses) include, for instance: income/expenses arising from the sale of property, plant and equipment, business segments and investments; expenses stemming from company reorganization and streamlining processes and projects, also in connection with corporate transactions (mergers, spin-offs, etc.); expenses resulting from litigation and regulatory sanctions and related liabilities; other provisions and related reversals; costs for the settlement of disputes other than regulatory disputes; adjustments, realignments and other non-recurring items, also relating to previous years; impairment losses on goodwill and/or other intangible and tangible assets.

Also in reference to the above Consob Resolution, the amounts relating to balances or transactions with related parties have been shown separately in the consolidated financial statements.

Segment reporting

An operating segment is a component of an entity:

- that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity);
- whose operating results are regularly reviewed by the entity’s chief operating decision maker to make decisions about resources (for the TIM Group, the Board of Directors of the Parent) to be allocated to the segment and assess its performance; and
- for which separate financial information is available.

The TIM Group operating segments are in line with and continuing on from the information given in the Consolidated Annual Financial Report at December 31, 2022, are represented for the part relating to the telecommunications business, on the basis of the related geographic location (Domestic and Brazil).

The term “operating segment” is considered synonymous with “Business Unit”.

The operating segments of the TIM Group are as follows:

- **Domestic**: includes the activities in Italy relating to voice and data services on fixed and mobile networks for end users (retail) and other operators (wholesale), the activities of the Telecom Italia Sparkle group which, at international level (in Europe, the Mediterranean and South America), develops fiber optic networks for wholesale customers, the operations of the company FiberCop for the provision of passive access services on the secondary copper and fiber network, and the activities of Noovle S.p.A. (Cloud and Edge Computing solutions), the activities of Olivetti (products and services for Information Technology), and, Domestic sector support structures. See the section “Financial and Operating Highlights of the Business Units of the TIM Group – Domestic Business Unit” of the Report on Operations for more details;
- **Brazil**: includes mobile and fixed telecommunications operations in Brazil (TIM S.A.);
- **Other Operations**: include the financial companies (Telecom Italia Capital S.A. and Telecom Italia Finance S.A.) and other minor companies not strictly related to the TIM Group's core business.

In the course of 2024, once the Group's transformation process aimed at overcoming the vertically integrated model has been completed and the sale of TIM's fixed network business ("NetCo") has been completed, an assessment will be carried out to identify the operating segments in accordance with IFRS 8, with reference to the specific indications provided for by the standard itself (autonomy of operating flows, methods of allocating financial resources, management reporting, etc.).

NOTE 2
ACCOUNTING POLICIES

Going concern

The consolidated financial statements for the business year 2023 have been prepared on a going concern basis, as there is the reasonable expectation that TIM will continue conducting its business in the foreseeable future (and, in any event, over a period of at least twelve months).
In particular, the following factors have been taken into consideration:

- the main risks and uncertainties (that are for the most part of an external nature) to which the Group and the various activities of the TIM Group are exposed:
  - variations in business conditions, also related to competition;
  - financial risks (interest rate and/or exchange rate trends, changes in the Group's credit rating by rating agencies);
  - macroeconomic changes in the Italian, European and Brazilian markets and financial market volatility due to recessionary and inflationary risks. In particular, these risks relate to the increasing costs of raw materials and energy, including as a result of the Russian-Ukrainian conflict;
  - changes in the legislative and regulatory context (changes in prices and tariffs or decisions that may influence technological choices); and
  - the outcome of the legal and regulatory authority proceedings.
- the optimal mix between risk capital and debt capital, as well as the policy for the remuneration of risk capital, as described in the section "Share capital information" under the Note "Equity";
- the policy for financial risk management (market risk, credit risk and liquidity risk), as described in the Note "Financial risk management".

Based on these factors, the Management believes that, at the present time, there are no elements of uncertainty regarding the Group's ability to continue as a going concern.

Principles of consolidation

The consolidated financial statements include the financial statements of all subsidiaries from the date on which control over such subsidiaries commences until the date on which control ceases.

The date of all the subsidiaries' financial statements coincides with that of the Parent company, TIM.

Control exists when the Parent company TIM S.p.A. has all the following:

- decision-making power over the investee, which includes the ability to direct the relevant activities of the investee, i.e. the activities that significantly affect the investee's returns;
- entitlement to the variable profits or losses commensurate with its shareholding in the investee;
- the ability to use its decision-making to determine the amount of the returns relating to its shareholding in the entity.

TIM assesses whether it controls an investee if facts and circumstances indicate that there are changes in one or more of the three control elements.

In the preparation of the consolidated financial statements, the global amounts of the assets, liabilities, costs and revenues of the consolidated companies are recognized on a line-by-line basis, while the share of equity and the year's result of non-controlling interest is recognized is disclosed separately under appropriate items in the consolidated statements of financial position, in the separate consolidated income statement and in the consolidated statements of comprehensive income.

Under IFRS 10 (Consolidated financial statements), the comprehensive loss (including the profit or loss for the year) is attributed to the owners of the parent and to non-controlling interest even when the equity of non-controlling interest has a deficit balance.

All intragroup balances and transactions and any gains and losses arising from intragroup transactions are eliminated in consolidation.

The carrying amount of the investment in each subsidiary is eliminated against the corresponding share of equity in each subsidiary, after adjustment, if any, to fair value at the date of acquisition of control. At that date, goodwill is recorded as an intangible asset, as described below, whereas any profit from a bargain purchase (or negative goodwill) is recognized in the separate consolidated income statement.

All the assets and liabilities expressed in currencies other than euro of foreign consolidated entities that are included in the consolidation are translated using the exchange rates in effect at the reporting date (the current exchange rate method), while the related revenues and costs are translated at the average exchange rates for the year. Exchange differences resulting from the application of this method are classified as equity until the entire disposal of the investment or upon loss of control of the foreign subsidiary. Upon partial disposal, without losing control, the proportionate share of the cumulative amount of exchange differences related to the disposed interest is recognized as non-controlling interest equity. The cash flows of foreign consolidated subsidiaries expressed in currencies other than euro included in the consolidated statements of cash flows are translated into euro at the average exchange rates for the year.

Goodwill and fair value adjustments arising from the allocation of the purchase price of a foreign entity are recorded in the relevant foreign currency and are translated using the year-end exchange rate.

Under IFRS 10, changes in a parent's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. In such circumstances, the carrying amounts of controlling and non-controlling interests shall be adjusted to reflect the changes in their related interests in the subsidiary. Any difference between the amount by which the non-controlling interest is adjusted and the fair value of the consideration paid or received shall be recognized directly in equity and attributed to the owners of the parent.

Under IFRS 10, the parent company in case of loss of control of a subsidiary:

- derecognizes:
  - the assets (including any goodwill) and the liabilities;
  - the carrying amount of any non-controlling interest;
- recognizes:
  - the fair value of any consideration received;
  - the fair value of any residual investment retained in the former subsidiary;
  - any profit or loss resulting from the transaction, in the separate consolidated income statement;
  - the reclassification to the separate consolidated income statement of the amounts previously recognized in other comprehensive income in relation to the subsidiary.

In the consolidated financial statements, investments in associates and joint ventures are accounted for using the equity method, as provided, respectively, by IAS 28 (Investments in Associates and Joint Ventures) and IFRS 11 (Joint Arrangements).

Associates are enterprises in which the Group holds at least 20% of the voting rights or exercises significant influence, but no control or joint control over their financial and operating policies.

A joint venture is a joint control arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the entity.

Joint control is the contractually agreed sharing of control of a business that exists only when decisions about the relevant business require the unanimous consent of the parties sharing control.

Associates and joint ventures are included in the consolidated financial statements from the date on which significant influence or joint control commences until the date on which significant influence or joint control ceases.

Under the equity method, on initial recognition the investment in an associate or joint venture is recognized at cost, and the carrying amount is increased or decreased to recognize the investor's share of the profit or loss of the investee after the date of acquisition. The investor's share of the investee's profit or loss is recognized in the separate consolidated income statement. Dividends received from an investee reduce the carrying amount of the investment.

Adjustments to the carrying amount may also be necessary for changes in the investee's other comprehensive income (i.e. those arising from foreign exchange translation differences). The investor's share of those changes is recognized in the investor's other comprehensive income.

If an investor's share of losses of an associate or a joint venture equals or exceeds its interest in the associate or joint venture, the investor discontinues recognizing its share of further losses. After the investor's interest is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the investor has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture. If the associate or joint venture subsequently reports profits, the investor resumes recognizing its share of those profits only after its share of the profits equals the share of losses not recognized.

Any other long-term interests (some types of preference shares and long-term loans) in an associate or joint venture are measured in accordance with IFRS 9.

Gains and losses resulting from "upstream" and "downstream" transactions between an investor (including its consolidated subsidiaries) and its associate or joint venture are recognized in the investor's financial statements only to the extent of unrelated investors' interests in the associate or joint venture.

The investor's share of profits and losses of the associate or joint venture arising from said transactions is eliminated.

Intangible assets

Goodwill

In accordance with IFRS 3 (Business Combinations), goodwill is recognized in the financial statements at the date of acquisition of control of a business and is determined as the excess of (a) over (b), as follows:

a) the aggregate of:

- the consideration transferred (measured in accordance with IFRS 3; it is generally recognized on the basis of the fair value at the acquisition date);
- the amount of any non-controlling interest in the acquiree measured proportionally to the non-controlling interest share of the acquiree's identifiable net assets shown at the related fair value;
- in a business combination achieved in stages, the acquisition date fair value of the acquirer's previously held equity interest in the acquiree;

b) the fair value of the identifiable assets acquired net of the identifiable liabilities assumed, measured at the date of acquisition of control.

IFRS 3 requires, inter alia, the following:

- incidental costs incurred in connection with a business combination to be charged to the separate income statements;
- in a business combination achieved in stages, the acquirer to remeasure its previously held equity interest in the acquiree at its fair value at the date of acquisition of control and recognize the resulting gain or loss, if any, in the separate income statements.

Goodwill is classified in the statement of financial position as an intangible asset with an indefinite useful life.

Goodwill initially recognized is subsequently reduced only by cumulative impairment losses (for more details, see the section "Impairment of intangible assets, tangible assets and rights of use assets - Goodwill", below). In case of loss of control of a subsidiary, the related amount of goodwill is taken into account in calculating the gain or loss on disposal.

Development costs

Costs incurred internally for the development of new products and services represent either intangible assets (mainly costs for software development) or tangible assets. These costs are capitalized only when all the following conditions are satisfied: i) the cost attributable to the development phase of the asset can be measured reliably, ii) there is the intention, the availability of financial resources and the technical ability to complete the asset and make it available for use or sale, and iii) it can be demonstrated that the asset will be able to generate future economic benefits. Capitalized development costs comprise only incurred expenditures that can be attributed directly to the development process for new products and services.

Capitalized development costs are depreciated/amortized systematically over the estimated product or service life, so that the depreciation/amortization method reflects the way in which the asset's future economic benefits are expected to be consumed by the entity.

Other intangible assets with a finite useful life

Other purchased or internally-generated intangible assets with a finite useful life are recognized as assets, in accordance with IAS 38 (Intangible Assets), when the use of the asset is likely to generate future economic benefits and when the cost of the asset can be reliably measured.

Such assets are recorded at purchase or production cost and amortized on a straight-line basis over their estimated useful lives; the amortization rates are reviewed annually and revised if the current estimated useful life is different from that estimated previously. The effect of such changes is recognized prospectively in the separate consolidated income statement.

Tangible assets

Property, plant and equipment

Property, plant and equipment are recognized at purchase or production cost. Subsequent expenditures are capitalized only if they increase the future economic benefits embodied in the related item of property, plant and equipment. All other expenditures are recognized in the separate consolidated income statement as incurred.

The cost of these assets also includes the expected costs of dismantling the asset and restoring the site, if a legal or constructive obligation exists. The corresponding liability is recognized at its present value as a provision in the statement of financial position. The recognition in the separate consolidated income statement of the capitalized expenditure is done over the useful life of the related tangible assets through their depreciation.

The calculation of estimates for dismantling costs, discount rates and the dates in which such costs are expected to be incurred is reviewed annually at each financial year-end. Changes in the above liability must be recognized as an increase or decrease of the cost of the related asset; the amount deducted from the cost of the asset must not exceed its carrying amount. The excess, if any, is recorded immediately in the separate consolidated income statement, conventionally under the line item "Depreciation and Amortization".

Depreciation is calculated on a straight-line basis over the estimated useful life of the assets.

Depreciation rates are reviewed annually and revised if the current estimated useful life is different from that estimated previously. The effect of such changes is recognized prospectively in the separate consolidated income statement.

Land, including land pertaining to buildings, is not depreciated.

Rights of use assets

In accordance with IFRS 16, lease liabilities are presented through the recognition of a financial liability in the statement of financial position consisting in the present value of future lease payments, against the recognition of the right of use of the leased asset.

On the commencement date of the lease, the right of use is recognized at cost including: the amount of the initial measurement of the lease liability, any lease payments made at or before the commencement date, initial direct costs incurred for the signature of the lease and the present value of the estimated restoration and dismantling costs set out in the lease, less any incentives.

Subsequently, the right of use is amortized over the term of the lease (or the useful life of the asset, if lower), subject to impairment and adjusted for any remeasurement of the lease liability.

The TIM Group attracts, under the scope of application of IFRS 16, if the criteria and the requirements laid down by the standard are met, the contract types concerning cloud software resources and the spectrum of transmission frequencies on optic fiber carriers. This approach is functional to the very innovative specificity of these types of contract, concerning hardware infrastructure and optical transmission as well as technologically-advanced software services.

Capitalized borrowing costs

Under IAS 23 (*Borrowing Costs*), the Group capitalizes borrowing costs only if they are directly attributable to the acquisition, construction or production of an asset that takes a substantial period of time (conventionally more than 12 months) to get ready for its intended use or sale.

Capitalized borrowing costs are recorded in the separate consolidated income statement and deducted directly from the "finance expenses" line item to which they relate.

Impairment of intangible, tangible and rights of use assets

Goodwill

Goodwill is tested for impairment at least annually or more frequently whenever events or changes in circumstances indicate that goodwill may be impaired, as set forth in IAS 36 (Impairment of Assets); however, when the conditions that gave rise to an impairment loss no longer exist, the original amount of goodwill is not reinstated.

The test is generally conducted at the end of every year, so the date of testing is the year-end closing date of the financial statements. Goodwill acquired and allocated during the year is tested for impairment at the end of the year in which the acquisition and allocation took place.

For the purpose of verifying its recoverability, goodwill is allocated, from the acquisition date, to each of the cash-generating units, or groups of cash-generating units, that is expected to benefit from the combination.

If the carrying amount of the cash-generating unit (or group of cash-generating units) exceeds the recoverable amount, an impairment loss is recognized in the separate consolidated income statement. The impairment loss is first recognized as a deduction of the carrying amount of goodwill allocated to the cash-generating unit (or group of cash-generating units) and only subsequently applied to the other assets of the cash-generating unit in proportion to their carrying amount, up to the recoverable amount of the assets with a finite useful life. The recoverable amount of a cash-generating unit (or group of cash-generating units) to which goodwill is allocated is the higher between the fair value less costs to sell and its value in use.

The fair value net of disposal costs is estimated on the basis of the income approach, insofar as this allows for the reflection of the benefits deriving from a new, different business structure in the future. In particular, the fair value net of disposal costs is based on the current value of the forecast cash flow, applying a discounting rate that reflects current market assessments of the time value of money and the risks specific to the asset. The future cash flows are those arising from an explicit time horizon between three and five years, as well as those extrapolated to estimate the terminal value.

In calculating the value in use, the estimated future cash flows are discounted to present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. The future cash flows are those arising from an explicit time horizon between three and five years, as well as those extrapolated to estimate the terminal value. The long-term growth rate used to estimate the terminal value of the cash-generating unit (or group of cash-generating units) is assumed not to be higher than the average long-term growth rate of the segment, country or market in which the cash-generating unit (or group of cash-generating units) operates.

The value in use of cash-generating units denominated in foreign currency is estimated in the local currency by discounting cash flows to present value on the basis of an appropriate rate for that currency. The present value obtained is translated to euro at the spot rate on the date of the impairment test (in the case of the TIM Group, the closing date of the financial statements).

Future cash flows are estimated by referring to the current operating conditions of the cash-generating unit (or group of cash-generating units) and, therefore, do not include either benefits originating from future restructuring for which the entity is not yet committed, or future investments for the improvement or optimization of the cash-generating unit.

For the purpose of calculating impairment, the carrying amount of the cash-generating unit is established based on the same criteria used to determine the recoverable amount of the cash-generating unit, excluding surplus assets (that is, financial assets, deferred tax assets and net non-current assets held for sale) and includes the goodwill attributable to non-controlling interest (minority shareholders).

After conducting the goodwill impairment test for the cash-generating unit (or groups of cash-generating units), a second level of impairment testing is carried out which includes the corporate assets which do not generate positive cash flows and which cannot be allocated by a reasonable and consistent criterion to the single units. At this second level, the total recoverable amount of all cash-generating units (or groups of cash-generating units) is compared to the carrying amount of all cash-generating units (or groups of cash-generating units), including also those cash-generating units to which no goodwill was allocated, and the corporate assets.

Tangible and intangible assets with finite useful lives and rights of use assets

At the end of each reporting period, the Group assesses whether there is any indication that an asset – whether intangible or tangible with finite useful lives or a right of use – may be impaired. Both internal and external sources of information are used for this purpose. Internal sources include: obsolescence or physical deterioration, and significant changes in the use of the asset and the operating performance of the asset compared to estimated performance. External sources include: External sources include the market value of the asset, any changes in technology, markets or laws, trends in market interest rates and the cost of capital used to evaluate investments, and an excess of the carrying amount of the net assets of the Group over market capitalization.

If there is any indication that an asset – whether tangible or intangible with finite useful lives or a right of use – has been impaired, then its carrying amount is reduced to its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell, and its value in use. In calculating the value in use, the estimated future cash flows are discounted to present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or right. If it is not possible to estimate the recoverable amount, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. Impairment losses are recognized in the separate consolidated income statement.

When the reasons for the impairment subsequently cease to exist, the carrying value of the asset/right-of-use or of the cash generating unit is increased up to the new estimate of the recoverable amount which, however, cannot exceed the amount that would have been determined had no impairment loss been recognized. The reversal of an impairment loss is recognized as income in the separate consolidated income statement.

Financial instruments

Business models for financial assets management

For the management of trade receivables, TIM Group Management has identified different business models based on the specific nature of the receivables, the type of counterparty and collection times. This was in order to optimize the management of working capital through the constant monitoring of the payment performance of customers, the steering of credit collection policies, and the management of programs for the disposal of receivables, and the activation of factoring consistent with financial planning requirements.

The business models adopted are:

- *Hold to Collect*: receivables usually held to maturity, such as trade receivables due from large customers and the OLOs for the Domestic Business Unit, and all receivables for the Brazil Business Unit; these instruments fall within the IFRS 9 category “Assets measured at amortized cost”. These receivables can be transferred, albeit not recurrently, if this is needed to optimize finances;
- *Hold to Collect and Sell*: receivables usually traded massively and on a recurring basis, such as, for the Domestic Business Unit, receivables due from active consumer, small and business customers held for sale; these instruments fall under IFRS 9 category "Financial assets measured at fair value through other comprehensive income". As required by IFRS 9, the related reserve is reversed to the separate consolidated income statement when disposed of or impaired.

As part of managing financial assets other than trade receivables, the TIM Group's Management identified its business models on the basis of how the financial instruments are managed and how their cash flows are used. This is done to ensure an adequate level of financial flexibility and to best manage, in terms of risks and returns, the financial resources immediately available through the treasuries of Group companies and in accordance with the strategies set forth by the Parent TIM.

The business models adopted are:

- *Hold to Collect*: financial instruments used to absorb temporary cash surpluses; such instruments are low risk and mostly held to maturity; they are measured at amortized cost;
- *Hold to Collect and Sell*: monetary or debt instruments used to absorb short/medium-term cash surpluses; such instruments are low risk and generally held to maturity, or otherwise sold to cover specific cash requirements; they are measured at fair value through other consolidated comprehensive income;
- *Hold to Sell*: monetary, debt and equity trading instruments used to dynamically manage cash surpluses not managed under the business models identified above; such instruments are higher risk and traded repeatedly over time; they are measured at fair value through the separate consolidated income statement.

Other investments

Other investments (other than those in subsidiaries, associates and joint ventures) are classified as non-current or current assets if they will be kept in the Group's portfolio for a period of more or not more than 12 months, respectively.

Other investments are classified as “financial assets measured at fair value through consolidated profit or loss” (FVTPL), as current assets.

At the purchase time of each investment, IFRS 9 provides for the irrevocable option to recognize these investments in "financial assets measured at fair value through other consolidated comprehensive income" (FVTOCI) as non-current or current assets.

The other investments classified as “financial assets measured at fair value through other comprehensive income” are measured at fair value; changes in the fair value of these investments are recognized in a special equity reserve under the other components of the statements of comprehensive income (Reserve for financial assets measured at fair value through other comprehensive income), without reclassification to the separate income statements when the financial asset is disposed of or impaired. Dividends are recognized in the separate consolidated income statement.

Changes in the value of other investments classified as "financial assets at fair value through profit or loss" are recognized directly in the separate consolidated income statement.

Securities other than investments

Securities other than investments, included among non-current or current assets, depending on the business model adopted and the contractual flows envisaged, fall among financial assets measured at amortized cost, or measured at fair value through other comprehensive income or at fair value though profit or loss.

Securities other than investments classified as current assets are those that, by decision of the directors, are intended to be kept in the Group's portfolio for a period of not more than 12 months, and are classified:

- as "financial assets measured at amortized cost" (AC) when held to maturity (originally more than 3 months but less than 12 months, or, although they had an original maturity of more than 12 months, they have been bought in a period during which maturity was included between 3 and 12 months);
- as "financial assets measured at fair value through other consolidated comprehensive income" (FVTOCI) when held in the scope of a business model whose objective is to sell the financial asset and/or collect the contractual cash flows. The consolidated "Reserve for financial assets measured at fair value through other comprehensive income" is reversed to the separate consolidated income statement when the financial asset is disposed of or impaired;
- as “financial assets measured at fair value through consolidated profit or loss" (FVTPL) in the other cases.

Cash and cash equivalents

Cash and cash equivalents are recorded, according to their nature, at nominal value or amortized cost.

Cash equivalents are short-term and highly liquid investments that are readily convertible to known amounts of cash, subject to an insignificant risk of change in value and their original maturity or the remaining maturity at the date of purchase does not exceed 3 months.

Impairment of financial assets

At every closing date, assessments are made as to whether there is any objective evidence that a financial asset or a group of financial assets has been impaired.

The impairment of financial assets is based on the expected credit loss model.

In particular:

- impairment on trade receivables and on contract assets is carried out using the simplified approach that involves estimating the loss expected over the life of the receivable at the time of initial recognition and on subsequent measurements. For each customer segment, the estimate is principally made by calculating the average expected uncollectibility, based on historical and statistical indicators, possibly adjusted using forward-looking elements. For some categories of receivables characterized by specific risk elements, specific measurements are made on individual credit positions;

- the impairment of financial assets other than trade receivables is calculated on the basis of a general model which estimates expected credit losses over the following 12 months or over the residual life of the asset in the event of a substantial worsening of its credit risk.

Derivatives

As allowed by IFRS 9, the TIM Group decided to continue to apply the hedge accounting provisions contained in IAS 39 instead of those of IFRS 9.

Derivatives are used by the TIM Group to manage its exposure to exchange rate and interest rate risks and to diversify the parameters of debt, so that costs and volatility can be reduced within pre-established operational limits.

In accordance with IAS 39, derivative financial instruments qualify for hedge accounting only when:

- at the inception of the hedge, the hedging relationship is formally designated and documented;
- the hedge is expected to be highly effective;
- its effectiveness can be reliably measured;
- the hedge is highly effective throughout the financial reporting periods for which it is designated.

All derivative financial instruments are measured at fair value in accordance with IAS 39.

When derivative financial instruments qualify for hedge accounting, the following accounting treatment applies:

- Fair value hedge – Where a derivative financial instrument is designated as a hedge of the exposure to changes in fair value of an asset or liability due to a particular risk, the profit or loss from re-measuring the hedging instrument at fair value is recognized in the separate consolidated income statement. The profit or loss on the hedged item attributable to the hedged risk adjusts the carrying amount of the hedged item and is recognized in the separate consolidated income statement.
- Cash flow hedge – Where a derivative financial instrument is designated as a hedge of the exposure to variability in cash flows of an asset or liability or a highly probable expected transaction, the effective portion of any gain or loss arising from the fair value adjustment of the derivative financial instrument is recognized directly in a specific equity reserve (Reserve for hedging instruments). The cumulative profit or loss is removed from equity and recognized in the separate consolidated income statement during the same business years in which the hedged transaction is recognized in the separate consolidated income statement. The profit or loss associated with the ineffective portion of a hedge is recognized in the separate consolidated income statement immediately. If the hedged transaction is no longer considered to be probable, the gains or losses not yet realized included in the equity reserve are immediately recognized in the separate consolidated income statement.

For derivatives for which a hedging relationship has not been designated, changes in value compared to initial recognition are recognized directly in the separate consolidated income statement.

Financial liabilities

Financial liabilities include financial payables, including payables for advances on assignments of receivables where the assignment does not transfer substantially all the risks and rewards, as well as other financial liabilities, including derivative financial instruments and liabilities in respect of assets recognized under finance leases recognized in accordance with IFRS 16.

In accordance with IFRS 9, they also include trade and other payables.

Reverse factoring transactions are also classified under trade payables. The TIM Group has reverse factoring agreements in place through which TIM gives its bank partners a mandate to pay its suppliers as invoices become due. Suppliers participating in these programs have the rights to sell (without any cost for the TIM Group) receivables due from the Group. They can exercise this right at their total discretion and incurring all the costs to benefit from collection before the contractual due date.

Financial liabilities other than derivatives are initially recognized at fair value and subsequently measured at amortized cost.

Financial liabilities hedged by derivative instruments designed to manage exposure to changes in fair value of the liabilities (fair value hedge derivatives) are measured at fair value in accordance with the hedge accounting principles of IAS 39. the profits and losses deriving from subsequent fair value adjustments, only as regards the covered component, are recognized in the separate consolidated income statement and counterbalanced by the effective portion of the profit or loss deriving from the corresponding fair value measurements of the hedge instrument.

Financial liabilities hedged by derivative instruments designed to manage exposure to variability in cash flows (cash flow hedge derivatives) are measured at amortized cost in accordance with the hedge accounting principles of IAS 39.

Transfer of receivables

The TIM Group transfers receivables through factoring and securitization agreements. These transfers, in the majority of cases, are characterized by the transfer of substantially all the risks and rewards of ownership of the receivables to third parties, therefore meeting the requirements of IFRS 9 for derecognition. Special service agreements, under which the purchasers grant TIM S.p.A. a mandate to oversee the collection and management of receivables, have been entered into to maintain the relationship between the Company and its customers.

Inventories

Inventories are measured at the lower of purchase and production cost and estimated realizable value; the cost is determined using the weighted average cost formula for each movement, while the estimated realizable value is determined by observing general prices at the end of the year. Provision is made for obsolete and slow-moving inventories based on their expected future use and estimated realizable value.

Non-current assets held for sale/Discontinued operations

Non-current assets held for sale or discontinued groups whose carrying amount will mainly be recovered through sale, rather than through ongoing use, are classified as held for sale and shown separately from other assets and liabilities in the consolidated statements of financial position. The corresponding amounts for the previous year are not reclassified in the consolidated statements of financial position, but are instead shown separately in a specific column for changes in assets and liabilities in the year in which non-current assets held for sale or discontinued groups are classified as such.

Discontinued operations are a component of an entity that has been terminated or classified as held for sale and that:

- represents a major business line or geographical area of operation; or
- is part of a single coordinated plan to discontinue a separate major line of business or geographical area of operation; or
- is a subsidiary acquired exclusively with a view to resale.

The results arising from Discontinued Operations – whether discontinued or classified as held for sale – are shown separately in the separate consolidated income statement, net of tax effects. The corresponding values for the previous periods, where present, are reclassified and reported separately in the separate consolidated income statement, net of tax effects, for comparative purposes.

Non-current assets held for sale or discontinued groups classified as held for sale are first recognized in compliance with the appropriate IFRS applicable to each specific asset and liability, and subsequently measured at the lower of the carrying amount and fair value, less cost to sell.

Any subsequent impairment losses are recognized as a direct adjustment to non-current assets (or discontinued groups) classified as held for sale, with a contra-entry in the separate consolidated income statement.

An upward revision of value is, instead, recognized for each subsequent increase in the fair value of an asset less cost to sell, but not in excess of the previously recognized cumulative impairment loss.

As required by IFRS 5 (Non-current assets held for sale and discontinued operations), an entity shall not depreciate (or amortize) non-current assets classified as held for sale or being part of a discontinued group.

Finance expenses and other expenses attributable to the liabilities of a discontinued group classified as held for sale must continue to be recognized.

* * *

During the meeting held on July 6, 2022, TIM's Board of Directors approved the strategic objective of reorganizing the company with a view to overcoming the vertical integration and conferred a mandate on the CEO to assess and submit to the administrative body for all necessary resolutions, any transactions or possible transfer and valuation agreements for certain Group assets, with a view to achieving this strategic objective.

On November 3, 4 and 5, 2023, the Board of Directors of TIM S.p.A., at the outcome of an extensive and thorough review, conducted with the assistance of leading financial and legal advisors, examined and accepted the binding offer submitted on October 16, 2023 by Kohlberg Kravis Roberts & Co. L.P. ("KKR") for the acquisition of TIM's fixed-line network assets and the equity interests held in FiberCop S.p.A. and Telenergia S.r.l. ("NetCo"), by Optics BidCo S.p.A. (a subsidiary of KKR).

In execution of the resolutions adopted, TIM S.p.A. signed the transaction agreement with Optics BidCo which regulates:

- the contribution by TIM S.p.A. of a business unit - consisting of activities relating to the primary network, wholesale activity and the entire shareholding in the subsidiary Telenergia Srl - in FiberCop S.p.A., a company that already manages the activities relating to the network secondary fiber and copper, and
- the simultaneous purchase by Optics Bidco of the entire shareholding held by TIM S.p.A. in FiberCop S.p.A. itself, following the aforementioned transfer.

The transaction agreement provides that on the closing date, master services agreements will be signed, which will regulate the terms and conditions of the services to be rendered between NetCo and TIM S.p.A. following the completion of the transaction.

The transaction agreement also provides that the consideration for the sale of the equity interest may also be partially paid through the transfer of part of the TIM Group's debt at the closing of the NetCo transaction (so-called liability management). On March 6, 2024, TIM's Board of Directors resolved to grant a mandate to the

Chief Executive Officer to implement the activities necessary to carry out the debt transfer transaction by means of a series of exchange offers, concerning certain series of bonds issued by the TIM Group and maturing in 2026.

The completion of the transaction is expected in the summer of 2024, once the preliminary activities have been completed and a number of conditions precedent have been satisfied (completion of the transfer of the primary network, Antitrust authorization, authorization regarding distortive foreign subsidies); the transaction has already obtained the authorization required by the Golden Power rules, as per the press release issued on January 17, 2024.

When these activities are completed and the conditions precedent are fulfilled, NetCo will be classified as an Asset held for sale in accordance with IFRS 5.

Employee benefits

Provision for employee severance indemnity

Employee severance indemnity, mandatory for Italian companies pursuant to Article 2120 of the Italian Civil Code, is deferred compensation based on the employee's years of service and on the compensation earned by the employee during the service period.

Under IAS 19 (Employee Benefits), the employee severance indemnity, so calculated, is considered a "Defined benefit plan" and the related liability to be recognized in the statement of financial position (Provision for employee severance indemnities) is determined by actuarial calculations.

The remeasurements of actuarial gains and losses are recognized in other components of the Consolidated Statements of Comprehensive income. Service cost of Italian companies that employ less than 50 employees, as well as interest expenses related to the "time value" component of the actuarial calculations (the latter classified as Finance expenses), are recognized in the separate consolidated income statement.

Starting from January 1, 2007, the Italian Law gave employees the choice to either allocate their accruing indemnity to supplementary pension funds or it as an obligation of the Company. Companies that employ at least 50 employees must transfer the employee severance indemnity to the "Treasury fund" managed by INPS, the Italian Social Security Institute. Consequently, the Group's obligation to INPS and the contributions to supplementary pension funds take the form, under IAS 19, of "Defined contribution plans".

Equity compensation plans

The companies of the Group provide additional benefits to certain managers of the Group through equity compensation plans (for example stock options and long-term incentive plans). The above plans are recognized in accordance with IFRS 2 (Share-Based Payment).

In accordance with IFRS 2, such plans represent a component of the beneficiaries' compensation. Therefore, for the plans that provide for compensation in equity instruments, the cost is represented by the fair value of such instruments at the grant date, and is recognized in the separate consolidated income statement in "Employee benefits expenses" over the period between the grant date and vesting date with a contra-entry to an equity reserve denominated "Other equity instruments". Changes in the fair value subsequent to the grant date do not affect the initial measurement. At the end of each year, adjustments are made to the estimate of the number of rights that will vest up to maturity. The impact of the change in estimate is recorded as an adjustment to "Other equity instruments" with a contra-entry to "Employee benefits expenses".

The portion of the plans that specifies the payment of compensation in cash is recognized in liabilities as a contra-entry to "Employee benefits expenses"; at the end of each year such liability is measured at fair value.

Provisions

The Group records provisions for risks and charges when, having a current legal or constructive obligation to a third party, as a result of a past event, an outflow of Group resources is likely to be required to meet that obligation, and when the amount of the obligation can be estimated reliably. Provisions for risks and charges also include those established in the event that the company should stipulate contracts that thereafter became onerous, the non-discretionary costs of which necessary to fulfill the commitments made, exceeding the economic benefits expected from such contracts.

If the effect of the time value is material, and the payment date of the obligations can be reasonably estimated, provisions to be accrued are the present value of the expected cash flows, taking into account the risks associated with the obligation. The increase in the provision due to the passage of time is recognized in the separate consolidated income statement as "Finance expenses".

Government grants

Government grants are recognized when there is a reasonable certainty that they will be received and that the Group will satisfy all the conditions established for their granting by the government, government agencies and equivalent local, national or international entities.

Government grants are systematically recognized in the separate income statements over the periods in which the Group recognizes the expenses that the grants are intended to offset as costs.

Government grants related to assets received for the acquisition and/or construction of non-current tangible assets are recorded as deferred income in the statement of financial position and systematically credited to the separate income statements over the useful life of the systems the grants relate to.

Treasury shares

Treasury shares are recognized as a deduction from equity. In particular, the treasury shares are reported as a deduction from the share capital issued in the amount corresponding to the "accounting par value", that is the ratio of total share capital and the number of issued shares, while the excess cost of acquisition over the accounting par value is presented as a deduction from "Other reserves and retained earnings (accumulated losses), including profit (loss) for the year".

Foreign currency transactions

Transactions in foreign currencies are recorded at the foreign exchange rate prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the foreign exchange rate prevailing at the statement of financial position date. Exchange differences arising from the settlement of monetary items or from their conversion at rates different from those at which they were initially recorded during the year or at the end of the prior year are recognized in the separate consolidated income statement.

Revenues

Revenues are the gross inflows of economic benefits during the period arising in the course of the ordinary activities of an entity. Amounts collected on behalf of third parties, such as sales taxes, goods and services taxes and value added taxes, are not economic benefits which flow to the entity and do not result in increases in equity. Therefore, they are excluded from revenues.

The process underlying the recognition of revenues follows the steps set out in IFRS 15:

- **identification of the contract**: takes place when the parties approve the contract (with commercial substance), and identify the respective rights and obligations: in other terms, the contract must be legally binding, the rights to receive goods and/or services and the terms of payment can be clearly identified, and the Group considers receipt of payment as probable;
- **identification of the performance obligations**: the main performance obligations identified, i.e. promises to transfer goods and services that are distinct, are services rendered (including voice and data traffic and ICT solutions) to retail customers, services rendered to wholesale customers, and sale of products;
- **determination of the transaction price**: this is the total amount contracted with the other party regarding the entire contractual term; the Group has determined that the contractual term is the one arising from the contractual obligations between the parties or, in lack of these obligations, it is by convention one month;
- **allocation of the transaction price to the performance obligations**: the allocation is made proportionately to the respective stand-alone selling prices calculated based on the list prices (if present) or estimated by applying an appropriate margin to the cost of purchase/production of the good/service.

  Revenues from activating the connectivity service are not a performance obligation; they are therefore allocated to the contractual performance obligations (typically to services).
  For offerings which include the sale of devices and service contracts (bundle offerings), the Group allocates the contractual transaction price to the performance obligations of the contract, proportionately to the stand-alone selling prices of the single performance obligations;
- **recognition of revenues**: revenues are stated net of discounts, allowances, and returns in connection with the characteristics of the type of revenue:
  - **Revenues from services rendered**

    Revenues from services rendered are recognized in the separate income statements according to the stage of completion of the service, that is based on actual consumption.
    Traffic revenues from interconnection and roaming are reported gross of the amounts due to other TLC operators.
    Revenues for delivering information or other content are recognized on the basis of the amount invoiced to the customer, when the service is rendered directly by the Group. In the event that the Group is acting as agent (for example, for non-geographic numbers) only the commission received from the content provider is recognized as revenue.
    Revenues from prepaid traffic are recorded on the basis of effective consumption. Deferred revenues for traffic already collected but not yet consumed are recorded in "Trade and miscellaneous payables and other current liabilities" in the consolidated statements of financial position.
    Revenues for services rendered are generally invoiced and collected bimonthly/monthly for retail customers while for wholesale customers, they are invoiced on a monthly basis and due 40 or 60 days after the date of issue, depending on whether they relate to the mobile component (40 days) or fixed component (60 days).

- **Revenues from sales**

  Revenues from sales (telephone products and others) are recognized upon delivery when control of the assets is transferred to the customers.

  The devices sold separately from the services are invoiced at the time of delivery; collection takes place on demand or based on installment plans (up to 48 monthly installments). The devices sold as part of bundle offerings are invoiced at the time of delivery and usually collected in 24, 30 or 48 monthly installments, depending on the type of offer and customer cluster. With specific reference to the mobile products (smartphones and tables) and certain types of fixed-line products sold to consumer customers, collection is made at the time of sale through the financial company TIMFin, which disburses the loan to the customer.

The recognition of revenues can generate the recognition of an asset or liability deriving from contracts. In particular:

- **Contract assets** are the right to a consideration in exchange for goods or services that have been transferred to the customer, when the right is conditioned on something other than the passage of time;
- **Contract liabilities** are the obligation to transfer goods or services to the customer for which the Group has received (or for which it is due) a consideration from the customer.

Contract costs (incremental costs of obtaining a contract and costs to fulfill a contract; mainly technical activation costs and costs for sales network commissions) are deferred and recognized through separate consolidated income statement depending on the expected term of the contractual relationship with the customers. The TIM Group avails of the practical expedient, permitted under IFRS 15, of recognizing the incremental costs of obtaining a contract in the consolidated income statement if the amortization period is one year or less.

The recoverability of contract assets and deferred costs is periodically assessed.

Research and advertising costs

Research and advertising costs are directly expensed to the separate consolidated income statement in the year in which they are incurred.

Finance income and expenses

Finance income and expenses are recognized on an accrual basis and include: interest accrued on the related financial assets and liabilities using the effective interest rate method; changes in the fair value of derivatives and other financial instruments measured at fair value through the income statement; gains and losses on foreign exchange and financial instruments (including derivatives).

Dividends

Dividends received from companies other than subsidiaries, associates and joint ventures are recognized in the separate consolidated income statement on an accrual basis, i.e. in the year in which they become receivable following the resolution by the shareholders' meeting for the distribution of dividends of the investee companies.

Dividends payable to third parties are reported as a change in equity in the year in which they are approved by the shareholders' meeting.

Income tax expense (current and deferred)

Income tax expense includes all taxes calculated on the basis of the taxable income of the companies of the Group.

Current and deferred income tax expense is calculated using all the elements and information available at the reporting date, taking into account current laws and considering all the elements that could give rise to uncertainties in the determination of the amounts due to the tax authorities, as provided for in IFRIC 23.

Income tax expense is recognized in the separate consolidated income statement, except to the extent that they relate to items directly charged or credited to equity, in which case the related tax effect is recognized in the relevant equity reserves. The amount of the income tax expense relating to each item included as "Other components of the Consolidated Statements of Comprehensive income" is indicated in the Consolidated Statement of comprehensive income.

The provisions for taxes that could arise from the remittance of the undistributed earnings of subsidiaries are made only where there is the actual intention to remit such earnings.

Deferred tax liabilities/assets are recognized using the "Balance sheet liability method". They are calculated on all the temporary differences that arise between the taxable base of assets and liabilities and the related carrying amounts in the consolidated financial statements, except for differences arising from investments in subsidiaries that are not expected to reverse in the foreseeable future. Deferred tax assets relating to unused tax loss carryforwards are recognized to the extent that it is probable that future taxable income will be available against which they can be utilized. Tax assets and liabilities are offset, separately for current and deferred taxes, when income tax expense is levied by the same tax authority and when there is a legally enforceable offsetting right. Tax assets and deferred tax liabilities are determined by adopting the tax rates expected to be applicable in the respective jurisdictions of the countries in which the Group companies operate, in the years in which those temporary differences are expected to be recovered or settled.

The other taxes not related to income are included in "Other operating expenses".

Earnings per share

Basic earnings per ordinary share is calculated by dividing the Group's profit attributable to ordinary shares by the weighted average number of ordinary shares outstanding during the year, and excluding treasury shares. Similarly, basic earnings per savings share is calculated by dividing the Group's profit attributable to savings shares by the weighted average number of savings shares outstanding during the year.

For diluted earnings per ordinary share, the weighted average number of shares outstanding during the year is adjusted by assuming the subscription of all the potential deriving shares - for example, by exercising rights on shares with dilutive effects. The Group profit is also adjusted to reflect the impact of these transactions net of the related tax effects.

Use of accounting estimates

The preparation of consolidated financial statements and related notes in conformity with IFRS requires management to make estimates and assumptions based also on subjective judgments, past experience and assumptions considered reasonable and realistic in relation to the information known at the time of the estimate. Such estimates have an effect on the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, as well as on the amount of revenues and costs during the year. Actual results could differ, even significantly, from those estimates owing to possible changes in the factors considered in the determination of such estimates. Estimates are reviewed periodically.

The most significant accounting estimates that involve a high level of subjective assumptions and judgments by directors are set out below.

Financial statements area	**Accounting estimates**
Goodwill impairment	The impairment test on goodwill is carried out by comparing the carrying amount of cash-generating units and their recoverable amount. The recoverable amount of a cash-generating unit is the higher of fair value, less costs to sell, and its value in use. This complex valuation process entails the use of methods such as the discounted cash flow method, which uses assumptions to estimate cash flows. The fair value net of disposal costs is based on the current value of forecast cash flow, calculated using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. The recoverable amount depends significantly on the discount rate used in the discounted cash flow model, as well as the expected future cash flows and the growth rate used for the extrapolation. The estimate of expected cash flows took into account the risks arising from climate change (as explained in the section 'Main Risks and Uncertainties - Risks Related to Key Sustainability Issues' in the Report on Operations), which at present do not have a significant impact on the Group's business model. The key assumptions used to determine the recoverable amount for the different cash-generating units, including a sensitivity analysis, are detailed in the Note "Goodwill".
Impairment of tangible and intangible assets with finite useful lives and rights of use assets	At the end of each reporting period, the Group assesses whether there is any indication that an asset – whether tangible or intangible with finite useful lives or a right of use – has been impaired. Both internal and external sources of information are used for this purpose. Identifying the impairment indicators, estimating future cash flows and calculating the fair value of each asset requires the Management to make significant estimates and assumptions in calculating the discount rate to be used, and the useful life and residual value of the assets. The estimate of expected cash flows took into account the risks arising from climate change (as explained in the section 'Main Risks and Uncertainties - Risks Related to Key Sustainability Issues' in the Report on Operations), which at present do not have a significant impact on the Group's business model. These estimates can have a significant impact on the fair value of the assets and on the amount of any impairment write-down.
Business combinations	The recognition of business combinations requires that assets and liabilities of the acquiree be recorded at their fair value at the control acquisition date, as well as the possible recognition of goodwill. These values are determined through a complex estimation process.
Lease liabilities and rights of use assets	The value of lease liabilities and corresponding rights of use is determined by calculating the present value of the lease payments, also bearing in mind whether the renewal of the lease is reasonably certain.
Capitalization/deferment of costs	The capitalization/deferment of internal and external costs is a process that entails elements of estimation and valuation. Specifically, it involves the valuation of: i) the likelihood that capitalized costs will be recovered through correlated future revenues; and ii) the effective increase in the future economic benefits embodied in the related asset.
Provision for bad debts	Impairment on trade receivables and on contract assets is carried out using the simplified approach that involves estimating the loss expected over the life of the receivable at the time of initial recognition and on subsequent measurements. For each customer segment, the estimate is principally made by calculating the average expected uncollectibility, based on historical and statistical indicators, possibly adjusted using forward-looking elements. For some categories of receivables characterized by specific risk elements, specific measurements are made on individual credit positions.

Depreciation and amortization	Changes in the economic conditions of the markets, technology and competitive forces could significantly affect the estimated useful lives of tangible and intangible non-current assets and may lead to a difference in the timing, and thus on the amount of depreciation and amortization expense.
Provisions, contingent liabilities and employee benefits	As regards the provisions for restoration costs, the estimate of future costs to dismantle tangible assets and restore the site is a complex process that requires the valuation of the liabilities arising from such dismantling and restoration obligations, which seldom are entirely defined by laws, administrative regulations or contract clauses, and which normally are to be complied with after an interval of several years. The provisions related to legal, arbitration and fiscal disputes, as well as regulatory proceedings, are the result of a complex estimation process based upon the probability of an unfavorable outcome. Provisions for employee benefits, especially the provision for employee severance indemnities, are calculated using actuarial assumptions; changes in such assumptions could have a material impact on such liabilities. Provisions made for contractual risks are also related to any contracts that may have become onerous and are based on an articulated estimation process that envisages the valuation of the comprehensive negative margins of the entire contract; they therefore include the non-discretionary costs necessary to fulfill the commitments made that exceed the economic benefits expected from such contracts.
Revenues	The recognition of revenues is influenced by estimates of the amount of discounts, rebates and returns to be reported as a direct adjustment to revenues, as well as the methods for defining individual product or service stand-alone selling prices and for determining the duration of the contract when there are renewal options.
Contract costs (IFRS 15)	The recognition of the costs of obtaining and fulfilling contracts is influenced by the estimated expected duration of the relationship with the customer, calculated on the basis of the historical turnover indexes and future estimates. However, this estimate is subject to fluctuations and could only represent customers' future behavior in a limited way, especially if there are new commercial offers or changes in the competitive environment.
Income tax expense (current and deferred)	Income tax expense (current and deferred) are calculated in each country in which the Group operates according to a prudent interpretation of the applicable tax laws. This process sometimes involves complex estimates to determine taxable income and deductible and taxable temporary differences between the carrying amounts and the taxable amounts. In particular, deferred tax assets are recognized to the extent that future taxable income will be available against which they can be recovered. The measurement of the recoverability of deferred tax assets, recognized based on both unused tax loss carry-forwards to future years and deductible temporary differences, takes into account the estimate of future taxable income and is based on conservative tax planning.
Derivative instruments and equity instruments	The fair value of derivative instruments and equity instruments is determined both using valuation models which also take into account subjective measurements such as, for example, cash flow estimates, expected volatility of prices, etc., and on the basis of prices existing in regulated markets or quotations provided by financial counterparties. For further details refer to the Note "Supplementary disclosures on financial instruments".

As per IAS 8 (Accounting Policies, Changes in Accounting Estimates and Errors) paragraph 10, in the absence of a standard or interpretation that specifically applies to a transaction, the Management shall use its judgment in developing and applying an accounting policy that results in consolidated financial statements that represent faithfully the financial position, financial performance and cash flows of the Group, reflect the economic substance of transactions, and are neutral, prudential and complete in all material aspects.

New standards and interpretations endorsed by the EU and in force from January 1, 2023

As required by IAS 8 (Accounting Policies, Changes in Accounting Estimates and Errors), the following is a brief description of the IFRS in force commencing as of January 1, 2023.

Amendments to IFRS 17 - Insurance contracts: initial application of IFRS 17 and IFRS 9 – Comparative information

On September 8, 2022, Regulation (EU) 2022/1491 was issued, incorporating certain amendments relating to the presentation of comparative information about financial assets upon initial application of IFRS 17 *Insurance Contracts*.

The amendment allows for a transition option enabling entities to apply an optional classification overlay in the comparative period(s) presented upon the initial application of IFRS 17. The overlay allows all financial assets, including those held with respect to assets not related to contracts within the scope of IFRS 17, to be classified instrument by instrument in the comparative period(s) in such a way as to align with how the entity expects those assets to be classified upon the initial application of IFRS 9. The overlay can be applied by entities that have already applied IFRS 9 or will apply it when they apply IFRS 17.

IFRS 17, which implements the amendment, came into force for financial years beginning on or after January 1, 2023.

The adoption of these amendments had no effect on the consolidated financial statements at December 31, 2023.

Amendments to IAS 8 - Accounting Policies, Changes in Accounting Estimates and Errors

On March 2, 2022, Regulation (EU) 2022/357 was issued, incorporating certain amendments to IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors*, in which it introduces a new definition of "accounting estimates".

In the amended standard, accounting estimates are now defined as "monetary amounts in financial statements that are subject to measurement uncertainty”.

The amendments clarify what constitutes changes in accounting estimates and how these differ from changes in accounting policies and corrections of errors.

The changes came into effect for financial years starting on or after January 1, 2023.

The adoption of these amendments had no effect on the consolidated financial statements at December 31, 2023.

Amendments to IAS 12 *Income Taxes*: Deferred tax related to assets and liabilities arising from a single transaction

On August 11, 2022, Regulation (EU) 2022/1392 was issued, incorporating certain amendments to IAS 12 *Income Taxes*.

The amendments clarify how companies are to account for deferred taxes on leases and decommissioning/restoration costs.

IAS 12 specifies how companies are to account for income taxes, including deferred taxes, which are the amounts of taxes payable or recoverable in the future.

These amendments require entities to recognise deferred taxes on certain transactions (such as leases and decommissioning and restoration charges) that give rise to taxable and deductible temporary differences of the same amount at the time of initial recognition.

IAS 12 provides that, under certain circumstances, companies are exempt from reporting deferred taxes when they recognise assets or liabilities for the first time.

The IASB has issued these limited amendments on account of the uncertainty arising through the fact that the exemption applies to leases and decommissioning/restoration obligations.

These amendments mean that the exemption granted in the principle will not now apply to leases and decommissioning/restoration obligations, with companies now required to recognise deferred tax assets and liabilities in these areas.

The changes came into effect on January 1, 2023.

The adoption of these amendments had no effect on the consolidated financial statements at December 31, 2023.

Amendments to IAS 1 - Presentation of Financial Statements

On March 2, 2022, Regulation (EU) 2022/357 was issued, incorporating certain amendments to IAS 1 *Presentation of Financial Statements* in which guidelines and examples are provided to help entities carry out materiality assessments for the purposes of disclosing accounting policies.

The IASB has also issued amendments to "IFRS Practice Statement 2 - Making Materiality Judgements (the PS)" to support the amendments to IAS 1, which explain and demonstrate how the "4 step materiality process" applies to disclosures of accounting policies.

In particular, the amendments aim to help entities provide more useful disclosures of accounting policies by:

- replacing the requirement for entities to disclose their "significant" accounting policies with the provision to disclose their "material" accounting policies; and
- adding guidance on how entities should apply the concept of "materiality" when deciding how to disclose their accounting policies.

The changes came into effect for financial years starting on or after January 1, 2023.

The adoption of these amendments had no effect on the consolidated financial statements at December 31, 2023.

Amendments to IAS 12 Income taxes: International Tax Reform - 'Pillar Two Model' Rules

On November 8, 2023, Regulation (EU) 2023/2468 was issued, incorporating certain amendments to IAS 12 *Income Taxes*: International Tax Reform - 'Pillar Two Model' rules. The amendments introduce:

- a temporary exception from the obligation to account for deferred taxes arising from the implementation of the pillar two model rules; and
- targeted disclosure requirements for affected entities to help users of financial statements understand an entity's exposure to Pillar Two income taxes arising from that legislation.

The amendments clarify that IAS 12 applies to income taxes arising from tax legislation implementing the OECD’s Pillar Two model rules, which address the tax issues arising from the digitalization of the global economy (Base Erosion and Profit Shifting - BEPS). These rules apply to multinational enterprises (MNEs) with consolidated annual revenues of more than 750 million euros). The tax legislation in question and the income taxes resulting from it are referred to as “Pillar Two legislation” and “Pillar Two income taxes” respectively. The amendments introduce a mandatory exception to IAS 12 when it comes to recognising and disclosing deferred Pillar Two income tax assets and liabilities.

This temporary exception exempts entities from accounting for deferred tax under the new and complex Pillar Two tax legislation, giving affected parties time to assess the implications.

The temporary exception to recognising and disclosing deferred taxes and the obligation to disclose that this exception is being used applies immediately and retroactively with respect to the issue date of the amendments.

The disclosure of the current Pillar Two income tax liability and disclosures relating to periods before the entry into force of the legislation is required for tax years that began on or after January 1, 2023, but is not required for interim periods ending on or before December 31, 2023.

The TIM Group has applied the exception to the recognition and disclosure of deferred tax assets and liabilities, therefore, the adoption of these changes had no impact on the consolidated financial statements as at December 31, 2023.

New Standards and Interpretations issued by IASB but not yet applicable

At the date of preparation of these consolidated financial statements, the IASB had issued the following new Standards and Interpretations which have not yet come into force:

	Mandatory application starting from
New Standards and Interpretations not yet endorsed by the EU	
Amendments to IAS 7: Statements of Cash Flows and IFRS 7 Financial instruments: Supplementary disclosures	1/1/2024
Amendments to IAS 21 *The Effects of Changes in Foreign Exchange Rates*	1/1/2025
New Standards and Interpretations endorsed by the EU	
Amendments to IAS 1 *Presentation of Financial Statements*: non-current liabilities with covenants	1/1/2024
Amendments to IAS 1 *Presentation of Financial Statements*: classification of liabilities as current or non-current	1/1/2024
Amendments to IFRS 16: Lease liabilities in a sale and lease-back	1/1/2024

Any impacts on the Group's consolidated financial statements resulting from the application of these new Standards/Interpretations are currently being assessed; However, it is considered that they are not significant with respect to financial and economic results.

NOTE 3
SCOPE OF CONSOLIDATION

Investments in consolidated subsidiaries

Composition of the Group

TIM holds a majority of the voting rights in all the subsidiaries included in the scope of consolidation.
A complete list of consolidated subsidiaries is provided in Note 46 "List of companies of the TIM Group".

Scope of consolidation

The changes in the scope of consolidation at December 31, 2023 compared to December 31, 2022 are listed below.

Entry/exit/merger of subsidiaries into/out of the scope of consolidation:

Company		Business Unit	Month
Entry:			
TS-WAY S.r.l.	New acquisition	Domestic	April 2023
Exit:			
NOOVLE SLOVAKIA S.R.O.	Liquidated	Domestic	March 2023
TIM SERVIZI DIGITALI S.p.A.	Sold	Domestic	August 2023
TIESSE S.c.p.A.	Liquidated	Domestic	October 2023
TIAUDIT COMPLIANCE LATAM S.A.	Liquidated	Other Operations	October 2023
Mergers:			
COZANI RJ INFRAESTRUTURA E REDE DE TELECOMUNICAÇÕES S.A.	Merged into TIM S.A.	Brazil	April 2023

The breakdown by number of subsidiaries, associates and joint ventures of the TIM Group is as follows:

	12.31.2023		
Companies:	**Italy**	**Outside Italy**	**Total**
subsidiaries consolidated line-by-line	19	43	62
joint ventures accounted for using the equity method	2	—	2
associates accounted for using the equity method	11	1	12
Total companies	**32**	**44**	**76**

	12.31.2022		
Companies:	**Italy**	**Outside Italy**	**Total**
subsidiaries consolidated line-by-line	20	46	66
joint ventures accounted for using the equity method	2	—	2
associates accounted for using the equity method	12	1	13
Total companies	**34**	**47**	**81**

Further details are provided in the Note "List of companies of the TIM Group".

Subsidiaries with a significant non-controlling interest

At December 31, 2023, the TIM Group held investments in subsidiaries, with significant non-controlling interest, in relation to the companies FiberCop S.p.A. and the TIM Brasil group.

The figures provided below, stated before the netting and elimination of intragroup accounts, comply with IFRS and reflect adjustments made at the acquisition date to align the assets and liabilities acquired to their fair value.

FiberCop S.p.A. - Domestic Business Unit

Non-controlling interest accounted at December 31, 2022 for 42.0% of the capital of FiberCop S.p.A., coinciding with the corresponding voting rights.

FiberCop S.p.A. - financial position data

(million euros)	12.31.2023	12.31.2022
Non-current assets	9,991	9,187
Current assets	707	515
Total Assets	**10,698**	**9,702**
Non-current liabilities	3,942	3,376
Current liabilities	966	800
Total Liabilities	**4,908**	**4,176**
Equity	**5,790**	**5,526**
of which Non-Controlling Interests	*2,432*	*2,321*

FiberCop S.p.A. - income data

(million euros)	2023	2022
Revenues	1,451	1,344
Profit (loss) for the year	**409**	**458**
of which Non-Controlling Interests	*172*	*192*

FiberCop S.p.A. - financial data

Aggregate cash flows generated in 2023 was positive for 92 million euros (in 2022: -37 million euros).

TIM Brasil group – Brazil Business Unit

Non-controlling interest accounted at December 31, 2023 for 33.4% of the capital of TIM S.A., coinciding with the corresponding voting rights.

Financial position data TIM Brasil group

(million euros)	12.31.2023	12.31.2022
Non-current assets	8,596	8,649
Current assets	2,238	1,925
Total Assets	**10,834**	**10,574**
Non-current liabilities	3,832	3,157

Equity	**4,437**	**4,997**
of which Non-Controlling Interests	*1,646*	*1,545*

Income statement data TIM Brasil group

(million euros)	2023	2022
Revenues	4,412	3,963
Profit (loss) for the year	**448**	**289**
of which Non-Controlling Interests	*175*	*102*

Financial data of the TIM Brasil group

Aggregate cash flows generated in 2023 amounted to +167 million euros, with a positive exchange rate effect of 20 million euros.

In 2022, this was negative for 369 million euros, with a negative exchange rate difference of 45 million euros.

Finally, with regard to the subsidiaries with significant minority interests, in line with the information provided in the Report on Operations - "Main risks and uncertainties" section, the main risk factors that could lead, even significantly, to restrictions on the operations of the TIM Brasil group are listed below:

- Strategic risks (risks related to macroeconomic and political factors, as well as risks associated with foreign exchange restrictions and competition);
- Operational risks (risks related to business continuity and development of the fixed and mobile networks, as well as risks related to disputes and litigation);
- Financial risks;
- Regulatory and Compliance risks.

NOTE 4
BUSINESS COMBINATIONS

Acquisition of control of TS-Way S.r.l.

On April 20, 2023, Telsy S.p.A. (TIM Group's Italian subsidiary engaged in cybersecurity) acquired 100% of the share capital of TS-Way S.r.l., an Italian company specialising in cyber threat intelligence.

The business combination was recognized in the accounts as follows:

- a consideration of 29 million euros;
- all Assets acquired and Liabilities undertaken of the acquired company were measured for recognition at fair value;
- in addition to the value of the Assets acquired and Liabilities undertaken, Goodwill equal to 19 million euros was recognized, determined as follows:

(million euros)		Values at fair value
Valuation of the consideration	**(a)**	**29**
Value of assets acquired	**(b)**	15
Value of liabilities assumed	**(c)**	(5)
Goodwill	**(a–b-c)**	**19**

TS-Way S.r.l. – values at acquisition date

(million euros)		Present values at fair value	Carrying amounts
Goodwill		19	—
Other non-current assets		11	—
Current assets		4	4
of which Cash and cash equivalents		*1*	*1*
Total assets	**(a)**	**34**	**4**
Total non-current liabilities		3	—
of which Non-current financial liabilities		—	—
Total current liabilities		2	2
of which Current financial liabilities		—	—
Total liabilities	**(b)**	**5**	**2**
Net assets	**(a-b)**	**29**	**2**

It should also be noted that, if the acquisition of TS-Way S.r.l. had been completed by January 1, 2023, TIM Group's consolidated financial statements for the year ending December 31, 2023 would not have material impacted revenues or the net income for the year attributable to owners of the Parent.

NOTE 5
GOODWILL

Goodwill shows the following breakdown and changes for 2022 and 2023:

(million euros)	12.31.2021	Increase	Decrease	Impairments	Exchange differences	12.31.2022
Domestic	18,124	10				18,134
Brazil	444	502			31	977
Other Operations	—					—
Total	18,568	512	—	—	31	19,111

(million euros)	12.31.2022	Increase	Decrease	Impairments	Exchange differences	12.31.2023
Domestic	18,134	19				18,153
Brazil	977				40	1,017
Other Operations	—					—
Total	19,111	19	—	—	40	19,170

In accordance with IAS 36, goodwill is not subject to amortization, but is tested for impairment on at least an annual basis, when preparing the company's consolidated financial statements.

In 2023, Goodwill increased by 59 million euros, from 19,111 million euros at the end of 2022 to 19,170 million euros at December 31, 2022.

In particular:

- the goodwill of the Domestic Cash Generating Unit increased by 19 million euros, almost entirely attributable to the acquisition of control of TS-Way S.r.l.. For further details, please refer to Note 4 "Business combinations";
- the goodwill of the Brazil Cash Generating Unit recorded positive exchange differences of 40 million euros (the point exchange rate used for the conversion of the Brazilian real into euro (expressed in terms of units of local currency per €1) increased from 5.56520 at December 31, 2022 to 5.34964 at December 31, 2023).

The gross carrying amounts of Goodwill and the related accumulated impairment losses from January 1, 2004 (date of allocation to the Cash-Generating Units – CGUs) to December 31, 2023 and 2022 can be summarized as follows:

	12.31.2023			12.31.2022		
(million euros)	Gross carrying amount	Accumulated impairment losses	Net carrying amount	Gross carrying amount	Accumulated impairment losses	Net carrying amount
Domestic	38,718	(20,565)	18,153	38,699	(20,565)	18,134
Brazil	1,189	(172)	1,017	1,143	(166)	977
Other Operations	—	—	—	—	—	—
Total	39,907	(20,737)	19,170	39,842	(20,731)	19,111

The figures for the Brazil CGU are stated in euros, converted at the spot exchange rate at the closing date of the financial statements; the net carrying amount of goodwill for the CGU corresponds to 5,439 million reais at December 31, 2023 (5,439 million reais at December 31, 2022).

The impairment test was carried out on two levels. At a first level, the recoverable amount of the assets attributed to the individual CGUs to which goodwill is allocated was estimated; at a second level, considering the Group's activities as a whole.

The cash generating units (or groups of units) to which goodwill is allocated are as follows:

Segment	Cash-Generating Units (or groups of units)
Domestic	Domestic
Brazil	Brazil

According to the applicable accounting rules, the "recoverable value" of the CGUs was equal to the higher of "fair value net of disposal costs" and "value in use".

The Domestic CGU operated in 2023 as a single unit, in 2024 the so-called 'NetCo perimeter' (Primary Network - TIM business unit, Secondary Network - Fibercop company perimeter, Telenergia) is expected to be separated, for which the TIM Board of Directors has accepted a binding price proposal (representing the fair value of the perimeter to be sold). The timing of the closing is subject to the necessary authorisation paths (Golden Power authorisation (received in January 2024) and Antitrust authorisation (in progress)) and the implementation and completion of Process and Systems Separation activities.

Therefore, the value configuration used to determine the recoverable value as at December 31, 2023 of the Domestic CGU is the Fair Value estimated on the basis of a valuation obtained by the sum of parts between the NetCo subCGU and the subCGU of the remaining perimeter of the Domestic CGU (the so-called ServiceCo perimeter).
As an estimate of NetCo's recoverable value, the present value (as of December 31, 2023) of the price implicit in the binding offer (price proposal referring to the date of June 30, 2024) by an independent party (KKR) was assumed, and any form of earn-out was excluded from the price.
Instead, the fair value based on the income approach was taken as the estimate of ServiceCo's recoverable value, as it was deemed to better express the value of the Group's assets (so-called market participant perspective), also reflecting the cost interventions in view of a possible future new and different business structure.
For the Brazil CGU, the value configuration used is the fair value on the basis of market capitalization at the end of the period.

The values are expressed in local currency, and hence in EUR for the Domestic CGUs and BRL for the Brazil CGU. For the Brazil CGU, the recoverable amount of the assets was denominated in the functional currency and subsequently translated at the spot exchange rate at the reporting date.

For the ServiceCo subCGU, the estimate of fair value on the basis of the income approach was made in compliance with IAS 36, with valuation principles and best practices, with reference to the flows of the 2024-2026 Industrial Plan, which is based on the final results of 2023: (i) it reflects realistic expectations regarding future evolutions; (ii) it brings into play careful cost cutting actions as preparation for the future business structure; (iii) it maintains the perspective of use of assets of the domestic market continuing on with the same conditions as at December 31, 2023. The expected cash flows reported in the 2024-2026 Industrial Plan approved by the Board of Directors have been critically analysed and, with the support of expert appraisers and industry experts, the average representativeness has been assessed. Expected average cash flows for the 2024-2026 Industrial Plan were extrapolated for an additional two years (2027-2028), thus bringing the explicit forecast period for future cash flows to a total of five years (2024-2028). The extrapolation of data for 2027-2028 was necessary, in line with that carried out by the main European incumbents, in order to intercept market, competition and industrial trends that will become manifest beyond the forecast horizon of the Industrial Plan. It is specified that where inputs are present that cannot be observed, the fair value thus determined is assigned as level 3 of the fair value hierarchy, as envisaged by IFRS 13 - Fair value measurement.

The estimation of the fair value according to the income approach requires the determination of the current value of income beyond the explicit forecast period (“terminal value”). To this end, the sustainable long-term cash flow was assumed to be the extrapolation of the estimated cash flow at 2028, adjusted as necessary to take into consideration a suitable level of long-term capital expenditure, normalized by the effects tied to the development of innovative technology projects in place during the plan years. Furthermore, with specific reference to the incremental share of the value deriving from 5G license use and therefore from the development of new and innovative business areas, a measurement model has been adopted that takes into account the net incremental flows for a defined period of time which is based on the duration of the license. This approach is consistent with the need to include in the configuration of value, on one hand the outflows deriving from the capex to support its development (as per the Industrial Plan), and on the other the positive net flows from the incremental business component of the license acquisition that will develop over a broad period of time and over the five years of explicit forecast.

The cost of capital used to discount projected cash flows in fair value estimates for the ServiceCo subCGU:

- was estimated using the Capital Asset Pricing Model (CAPM), which is one of the generally accepted application criteria referred to in IAS 36;
- reflects current market estimates of the time value of money and the specific risks associated with the asset groups; includes appropriate yield premiums for country risk;
- was calculated using comparative market parameters to estimate the “Beta coefficient” and the weighting coefficient of the equity and debt capital components.

These are reported below for the Domestic subCGU:

- the weighted average cost of capital (WACC rate) used to discount the future cash flows and the equivalent rate before tax;
- details are also provided of the growth rate used to estimate the residual value after the explicit forecast period (the G-Rate), expressed in nominal terms and related to the cash flows in their functional currency;
- details are provided of the implicit capitalization rates resulting from the difference between the cost of capital, after tax, and the G-Rate.

Principal parameters for the estimates of fair value

	Domestic (ServiceCo)
WACC	6.84 %
WACC before tax	8.90 %
Growth rate beyond the explicit period (g)	0.83 %
Capitalization rate after tax (WACC-g)	6.01 %
Capitalization rate before tax (WACC-g)	8.07 %
Capex/Revenues, perpetual	11.90 %

The growth rate in the terminal value "g" of the ServiceCo subCGU was estimated taking into account the expected evolution of demand for the various business areas, overseen in terms of investments and competences also by the subsidiary Noovle. The growth rate thus estimated falls within the range of growth rates applied by analysts who monitor TIM shares.

The phase of capital expenditure, competitive positioning and the technological infrastructure operated was taken into account in estimating the level of investment needed to sustain the perpetual development of cash flows after the explicit forecast period.

The recoverable amount of the Domestic cash generating unit, determined on the basis of the Fair Value estimated on the basis of the sum of the parts, showed headroom of 2,107 million euros.

The difference between the recoverable amounts and the net carrying amounts of the CGUs considered totaled:

(million euros)	**Domestic**	**Brazil**
Difference between recoverable and net carrying amounts	+2,107	+3,484

Therefore, in light of all the foregoing, in FY 2023, the Goodwill values recognized in the financial statements relating to the Domestic CGU (positive difference of +2,107 million euros) and the Brazil CGU (positive difference of +3,484 million euros) are confirmed.

In detail, in accordance with IAS 36, the sensitivity analysis has been performed aiming to identify the change in key variables (WACC, margins as seen by the ratio of gross operating margin and revenues, growth rate of income in terminal value), which makes the recoverable amount of the Domestic CGU equal to the carrying amount. This analysis is relevant for the subCGU ServiceCo, given the valuation of the Domestic CGU by sum of parts obtained on the basis of the value of the subCGU ServiceCo through an income approach and the valuation of NetCo implied in the value of the binding offer by KKR. The analysis shows that:

- an increase in costs such as to lower the margins of ServiceCo (= gross operating margin/revenues) of 1.64%;
- or a 0.72% rise in the WACC (at the value of 7.56%); or
- a growth rate of income in terminal value of -0.16%;
- would align the recoverable amount with the carrying amount.

With regard to the Brazilian CGU, the change in the price per share, compared to the reference quotation considered for the purposes of the financial statements, which would make the recoverable value equal to the carrying amount is equal to -43.04%.

The second level impairment test revealed a recoverable amount that exceeded the book value of the Group's business as a whole, thereby not showing any need for impairment.

NOTE 6

INTANGIBLE ASSETS WITH A FINITE USEFUL LIFE

The item decreased by 534 million euros compared to December 31, 2022. The breakdown and movements are as follows:

(million euros)	12.31.2021	Investments	Depreciation and amortization	Impairment (losses) / reversals	Disposals	Exchange differences	Capitalized borrowing costs	Other changes	12.31.2022
Industrial patents and intellectual property rights	**1,933**	731	(1,069)		(1)	53		338	**1,985**
Concessions, licenses, trademarks and similar rights	**3,376**	85	(442)		(1)	70		1,555	**4,643**
Other intangible assets	**3**	2	(6)			(2)		48	**45**
Work in progress and advance payments	**1,835**	310				54	48	(1,264)	**983**
Total	**7,147**	**1,128**	**(1,517)**	**—**	**(2)**	**175**	**48**	**677**	**7,656**

(million euros)	12.31.2022	Investments	Depreciation and amortization	Impairment (losses)/ Reversals	Disposals	Exchange differences	Capitalized borrowing costs	Other changes	12.31.2023
Industrial patents and intellectual property rights	**1,985**	659	(1,045)		(1)	18		294	**1,910**
Concessions, licenses, trademarks and similar rights	**4,643**	8	(485)			57		539	**4,762**
Other intangible assets	**45**	3	(10)			2		11	**51**
Work in progress and advance payments	**983**	242			(1)	16	18	(859)	**399**
Total	**7,656**	**912**	**(1,540)**	**—**	**(2)**	**93**	**18**	**(15)**	**7,122**

Investments in 2023 amounted to 912 million euros (1,128 million euros in 2022) and included 230 million euros in internally generated assets (244 million euros in 2022); further details are provided in Note 31 “Internally generated assets”.

Industrial patents and intellectual property rights at December 31, 2023, essentially consist of the plant operation and application software purchased outright and user license, amortized over a period between 2 and 6 years and relating mainly to TIM S.p.A. (1,254 million euros), the Brazil Business Unit (445 million euros) and Noovle S.p.A. (117 million euros).

Concessions, licenses, trademarks and similar rights at December 31, 2023 mainly refer to the residual cost of telephone licenses and similar rights (3,004 million euros for TIM S.p.A. and 1,705 million euros for the Brazil Business Unit). During the 2023 financial year, in particular, the rights of use of the 3.5 GHz (5G) frequencies of the Brazil Business Unit were transferred to exercise and the rights of use of the 28 GHz band of the Parent Company TIM S.p.A. were extended until December 31, 2029.

The residual amount of telephone licenses and similar rights in operation at December 31, 2023 (4,709 million euros) and their useful lives are detailed below:

Type	Residual value at 12.31.2023 (million euros)	Useful life (years)	Maturity	Amortization expense for the year 2023 (million euros)
TIM S.p.A.:				
UMTS 2100 MHz (extension)	180	8	12.31.2029	30
WiMax (extension)	4	7	12.31.2029	1
34-36-MHz OpNet (former Linkem) band	53	7	12.31.2029	9
LTE 1800 MHz	51	18	12.31.2029	9
LTE 800 MHz	360	17	12.31.2029	60
LTE 2600 MHz	40	17	12.31.2029	7
L Band (1452-1492 MHz)	99	14	12.31.2029	16
900 and 1800 MHz band	329	11	12.31.2029	55
3600-3800 MHz band (5G)	1,242	19	12.31.2037	89
26.5-27.5 GHz band (5G)	24	19	12.31.2037	2
694-790 MHz band (5G)	614	15 years and 6 months	12.31.2037	44
28 GHz band (Extension)	8	7	12.31.2029	1
TIM Brasil group:				
800 MHz, 900 MHz and 1800 MHz band	345	From 2 to 20	From 2025 to 2039	31
1900 MHz and 2100 MHz band	101	From 2 to 20	From 2025 to 2039	9
700 MHz, 2500 MHz and 2.5 GHz band (4G)	550	From 2 to 20	From 2024 to 2039	82
2.3 GHz, 3.5 GHz, and 26 GHz band (5G)	709	From 10 to 20	From 2030 to 2041	33

Work in progress and advance payments mainly relate to the Parent Company TIM S.p.A. (318 million euros) and the Brazil Business Unit (38 million euros) and refer mainly to software developments. The reduction in 2023 is mainly related to operating revenues, including the rights of use of the 3.5 GHz (5G) frequencies of the Brazil Business Unit (530 million euros). For the latter, since the period of time required for the assets to be ready for use was more than 12 months, the related financial charges of 18 million euros were capitalised during 2023. Capitalised financial charges were directly reduced to the income statement item "Financial charges".

The gross carrying amount, accumulated impairment losses and accumulated amortization at December 31, 2023 and December 31, 2022 can be summarized as follows:

	12.31.2022			
(million euros)	Gross carrying amount	Accumulated impairment losses	Accumulated amortization	Net carrying amount
Industrial patents and intellectual property rights	12,847	—	(10,862)	1,985
Concessions, licenses, trademarks and similar rights	7,784	—	(3,141)	4,643
Other intangible assets	563	—	(518)	45
Work in progress and advance payments	983	—	—	983
Total intangible assets with a finite useful life	**22,177**	**—**	**(14,521)**	**7,656**

	12.31.2023			
(million euros)	Gross carrying amount	Accumulated impairment losses	Accumulated amortization	Net carrying amount
Industrial patents and intellectual property rights	13,932	—	(12,022)	1,910
Concessions, licenses, trademarks and similar rights	8,454	—	(3,692)	4,762
Other intangible assets	596	—	(545)	51
Work in progress and advance payments	399	—	—	399
Total intangible assets with a finite useful life	**23,381**	**—**	**(16,259)**	**7,122**

With reference to gross values, in 2023 the Parent Company TIM S.p.A. made disposals of 29 million euros relating to intellectual property rights that were almost fully depreciated, including systems and software developments relating to the TIMMusic platform, which ceased in June 2023 (19 million euros) and abandoned or expired patents (8 million euros).

NOTE 7
TANGIBLE ASSETS

Property, plant and equipment owned

This item increased by 592 million euros compared to December 31, 2022. The breakdown and movements are as follows:

(million euros)	12.31.2021	Investments	Depreciation and amortization	Impairment (losses) / reversals	Disposals	Exchange differences	Other changes	12.31.2022
Land	**232**				(1)	1		**232**
Buildings (civil and industrial)	**597**	34	(37)			1	56	**651**
Plant and equipment	**11,254**	2,198	(2,145)		(28)	202	521	**12,002**
Manufacturing and distribution equipment	**19**	7	(8)				2	**20**
Other	**367**	105	(158)		(1)	13	36	**362**
Construction in progress and advance payments	**842**	484			(3)	11	(501)	**833**
Total	**13,311**	**2,828**	**(2,348)**	**—**	**(33)**	**228**	**114**	**14,100**

(million euros)	12.31.2022	Investments	Depreciation and amortization	Impairment (losses)/ Reversals	Disposals	Exchange differences	Other changes	12.31.2023
Land	**232**				(4)		1	**229**
Buildings (civil and industrial)	**651**	19	(37)		(4)		24	**653**
Plant and equipment	**12,002**	2,081	(2,162)		(25)	76	438	**12,410**
Manufacturing and distribution equipment	**20**	8	(7)				(1)	**20**
Other	**362**	100	(155)		(1)	5	18	**329**
Construction in progress and advance payments	**833**	733			(1)	3	(517)	**1,051**
Total	**14,100**	**2,941**	**(2,361)**	**—**	**(35)**	**84**	**(37)**	**14,692**

Land comprises both built-up land and available land and is not subject to depreciation. The balance at December 31, 2023 mainly refers to TIM S.p.A. (184 million euros) and to Noovle S.p.A. (33 million euros).

Buildings (civil and industrial) mainly includes buildings for industrial use hosting telephone exchanges, or for office use and light constructions. The balance at December 31, 2023 mainly refers to TIM S.p.A. (407 million euros) and to Noovle S.p.A. (216 million euros).

Plant and machinery includes the technological infrastructure used for the provision of telecommunications services (transport and distribution of voice/data traffic). The balance at December 31, 2023 is mainly attributable to TIM S.p.A. (5,276 million euros), to FiberCop S.p.A. (4,595 million euros), the Brazil Business Unit (2,114 million euros), the Telecom Italia Sparkle Group (259 million euros) and Noovle S.p.A. (162 million euros).

Manufacturing and distribution equipment consists of instruments and equipment used for the operation and maintenance of plant and equipment and refers mainly to TIM S.p.A..

Other mainly consists of hardware for the functioning of the network and for work stations, furniture and fixtures and, to a minimal extent, transport vehicles and office machines.

Construction in progress and advance payments refer to the internal and external costs incurred for the acquisition and internal production of tangible assets, which are not yet in use.

Investments in 2023 include 308 million euros of internally generated assets (315 million euros in 2022); further details are provided in Note 31 “Internally generated assets”.

Depreciation, impairment losses and reversals have been recorded in the income statement as components of EBIT.

Depreciation for the years 2023 and 2022 was calculated on a straight-line basis over the estimated useful lives of the assets according to the following minimum and maximum rates:

Buildings (civil and industrial)	2% - 20%
Plant and equipment	3% - 50%
Manufacturing and distribution equipment	15% - 20%
Other	10% - 50%

The gross carrying amount, accumulated impairment losses and accumulated amortization at December 31, 2023 and December 31, 2022 can be summarized as follows:

(million euros)	12.31.2022			
	Gross carrying amount	**Accumulated impairment losses**	**Accumulated amortization**	**Net carrying amount**
Land	235	(3)		232
Buildings (civil and industrial)	2,051	—	(1,400)	651
Plant and equipment	73,824	(12)	(61,810)	12,002
Manufacturing and distribution equipment	338	(1)	(317)	20
Other	3,725	(2)	(3,361)	362
Construction in progress and advance payments	834	(1)		833
Total	**81,007**	**(19)**	**(66,888)**	**14,100**

(million euros)	12.31.2023			
	Gross carrying amount	**Accumulated impairment losses**	**Accumulated amortization**	**Net carrying amount**
Land	232	(3)		229
Buildings (civil and industrial)	2,053	—	(1,400)	653
Plant and equipment	76,271	(12)	(63,849)	12,410
Manufacturing and distribution equipment	346	(1)	(325)	20
Other	3,873	(2)	(3,542)	329
Construction in progress and advance payments	1,052	(1)		1,051
Total	**83,827**	**(19)**	**(69,116)**	**14,692**

With regard to the gross amounts, in 2023 the parent company TIM S.p.A. made disposals for a total value of 341 million euros, mainly in relation to fully depreciated assets, including: network transmission plants and equipment (95 million euros), land, buildings and light constructions (46 million euros), GSM SRB-DCS equipment (45 million euros), fiber optic access (40 million euros), rented terminals (27 million euros).

NOTE 8
RIGHTS OF USE ASSETS

This item increased by 27 million euros compared to December 31, 2022. The breakdown and movements are as follows:

(million euros)	12.31.2021	Investments	Increases in lease contracts	Depreciation and amortization	Disposals	Exchange differences	Other changes	12.31.2022
Property	**2,848**	35	347	(398)	(4)	35	104	**2,967**
Plant and equipment	**1,847**	53	462	(474)	(2)	108	376	**2,370**

(million euros)	12.31.2022	Investments	Increases in lease contracts	Depreciation and amortization	Disposals	Exchange differences	Other changes	12.31.2023
Property	**2,967**	27	711	(440)	(80)	22	(40)	**3,167**
Plant and equipment	**2,370**	68	348	(483)	(79)	55	(63)	**2,216**
Other tangible assets	**102**		21	(35)	(3)		(12)	**73**
Construction in progress and advance payments	**35**	18					(24)	**29**
Intangible assets	**14**	16	7	(4)			(3)	**30**
Total	**5,488**	**129**	**1,087**	**(962)**	**(162)**	**77**	**(142)**	**5,515**

In 2023, capital expenditures mainly refer to the Domestic Business Unit and are essentially related to the acquisition of transmission capacity and telecommunications infrastructure in IRUs and improvements and incremental expenses incurred on leased property and non-property assets.

The increases in finance leasing contracts in 2023, equal to 1,087 million euros, refer to the Domestic Business Unit (553 million euros) and the Brazil Business Unit (534 million euros).

These increases include the higher value of the rights of use recorded as a result of new leases, increases of lease payments and renegotiations of agreements existing both land and buildings for office use and industrial relationship over time, to infrastructure sites for the mobile telephone network infrastructure and network. In 2023, the increases include the result of the assessment carried out by the Parent Company TIM S.p.A. on the contractual durations of real estate leases, which led to an extension of some of them, with a consequent increase in rights of use and financial liabilities of approximately 380 million euros.

Amortization and impairment losses have been recorded in the income statement as components of EBIT.

The disposals are representative of the carrying amount of the assets from lease agreements that terminated early.

Other changes refer mainly to changes related to the lower value of rights of use recorded as a result of contractual changes during the period and also include transfers in operation.

Property includes buildings and land under finance leases and the related building adaptations, attributable to the Domestic Business Unit (2,572 million euros) and the Brazil Business Unit (595 million euros).

Plant and equipment mainly includes rights of use on infrastructures for telecommunications services. They refer to the Brazil Business Unit (1,318 million euros), the Parent Company TIM S.p.A. (601 million euros), to FiberCop S.p.A. (152 million euros) and the Telecom Italia Sparkle group (145 million euros). This includes, inter alia, the recognition of the value of the telecommunications towers sold by the TIM Brasil group to American Tower do Brasil and subsequently repurchased in the form of a finance lease.

Other tangible assets mainly comprises the leases on motor vehicles. The decrease compared to December 31, 2023 is also related to the deconsolidation of the company TIM Servizi Digitali S.p.A. sold by the Parent Company TIM S.p.A. on August 4, 2023. The company is the holder of a right of use for the lease of a business unit deriving from a contract stipulated with Sittel S.p.A..

The item **Intangible assets** mainly includes Telecom Italia Sparkle's rights of use on the transmission frequency spectrum on non-illuminated fiber optic carriers of a submarine cables, as well as the right of use of the subsidiary Telsy for the use of a cloud computing platform created for the exclusive benefit of the company for the exercise of security services.

The gross carrying amount, accumulated impairment losses and accumulated amortization at December 31, 2023 and December 31, 2022 can be summarized as follows:

(million euros)	12.31.2022			
	Gross carrying amount	Accumulated impairment losses	Accumulated amortization	Net carrying amount
Property	5,811	(13)	(2,831)	2,967
Plant and equipment	4,340	(278)	(1,692)	2,370
Other	272		(170)	102
Construction in progress and advance payments	35			35
Intangible assets	17	—	(3)	14
Total	**10,475**	**(291)**	**(4,696)**	**5,488**

(million euros)	12.31.2023			
	Gross carrying amount	Accumulated impairment losses	Accumulated amortization	Net carrying amount
Property	6,324	(13)	(3,144)	3,167
Plant and equipment	4,582	(276)	(2,090)	2,216
Other	240		(167)	73
Construction in progress and advance payments	29			29
Intangible assets	36	—	(6)	30
Total	**11,211**	**(289)**	**(5,407)**	**5,515**

Impairment losses on “Plant and equipment”, mainly relating to prior years, refers to the Indefeasible Rights of Use (IRU) for the transmission capacity and cables for international connections acquired by the Telecom Italia Sparkle group.

With reference to gross values, in 2023 the Parent Company TIM S.p.A. carried out disposals with a total value of 130 million euros mainly attributable to leased properties and related improvements and adaptations (106 million euros), leased cars (20 million euros) and base transceiver stations (3 million euros).

NOTE 9 INVESTMENTS

Investments in associates and joint ventures accounted for using the equity method

Investments in associates and joint ventures accounted for using the equity method are reported below in detail:

(million euros)		12.31.2023	12.31.2022
I-Systems S.A.		271	277
Daphne 3 S.p.A.		200	212
Italtel S.p.A.		7	9
NordCom S.p.A.		7	6
W.A.Y. S.r.l.		4	4
QTI S.r.l		2	3
Other		2	2
Total Associates	**(a)**	**493**	**513**
TIMFin S.p.A.		30	21
Polo Strategico Nazionale S.p.A.		14	5
Total Joint Ventures	**(b)**	**44**	**26**
Total investments accounted for using the equity method	**(a+b)**	**537**	**539**

The changes in this item are broken down as follows:

(million euros)	12.31.2021	Investments	Disposals and reimbursements of capital	Valuation using equity method	Other changes	12.31.2022
I-Systems S.A.	**253**			(11)	35	**277**
Daphne 3 S.p.A.				(57)	269	**212**
Italtel S.p.A.		10		(1)		**9**
NordCom S.p.A.	**6**					**6**
W.A.Y. S.r.l.	**4**					**4**
QTI S.r.l	**2**	1				**3**

Total investments accounted for using the equity method	**539**	**29**	**—**	**(41)**	**10**	**537**

Investments in 2023 mainly include the recapitalizations of Polo Strategico Nazionale S.p.A. (19 million euros) and TIMFin S.p.A. (10 million euros).

The adjustment of Daphne 3 relates to the dividend distributed by the company during 2023.

"Other changes" mainly include exchange rate differences related to the investment in the Brazilian associate I-Systems S.A..

The list of **investments accounted for using the equity method** is presented in the Note "List of companies of the TIM Group".

Other investments in associates accounted for using the equity method of the TIM Group are not material either individually or in aggregate form.

Investments in structured entities

The TIM Group does not hold investments in structured entities.

Other investments

Other investments refer to the following:

(million euros)	12.31.2021	Investments	Disposals and reimbursements of capital	Valuation at fair value	Other changes	12.31.2022
SECO S.p.A.	**92**			(36)		56
Fin.Priv. S.r.l.	**22**			(2)		20
Northgate Telecom Innovations Partners L.P.	**17**	3		(4)		16
UV T-Growth	**12**	8	(7)	(2)		11
Other	**13**					13
Total	**156**	**11**	**(7)**	**(44)**	**—**	**116**

(million euros)	12.31.2022	Investments	Disposals and reimbursements of capital	Valuation at fair value	Other changes	12.31.2023
SECO S.p.A.	**56**			(20)		**36**
Banco C6 S.A.					30	**30**
Fin.Priv. S.r.l.	**20**			3		**23**
UV T-Growth	**11**	9		(5)		**15**
Northgate Telecom Innovations Partners L.P.	**16**	1		(4)		**13**
Upload Ventures Growth LP		10				**10**
Other	**13**			—		**13**
Total	**116**	**20**	**—**	**(26)**	**30**	**140**

The investment in Banco C6 S.A. represents 1.44% of the company's share capital resulting from the exercise by TIM S.A. (Brazil Business Unit), the option to purchase C6 shares as part of the partnership entered into between the parties in 2020. After the exercise of the option, TIM S.A. holds a minority position and has no position of control or significant influence in the management of C6. Further details are also provided in the Note 25 “Disputes and Pending Legal Actions, other information, commitments and guarantees”;

Furthermore:

- during 2023, TIM S.A. (Brazil Business Unit) has invested 10 million euros in the investment fund focused on 5G solutions called Upload Ventures Growth. As at December 31, 2023, TIM S.A. (Brazil Business Unit) does not control the management of the fund or exercise significant influence;
- as at December 31, 2023, the TIM Group has committed to subscribe to shares:
  - of the UV T-Growth fund in the amount of 38.7 million euros.
  - in the Northgate CommsTech Innovations Partners L.P. fund for 3.2 million USD, equal to approximately 2.9 million euros at the exchange rate as at December 31, 2023;

As permitted by IFRS 9, TIM now measures Other Investments mainly at “fair value through other comprehensive income (FVTOCI)”.

Further details on Financial Instruments are provided in Note 20 "Supplementary disclosure on financial instruments".

NOTE 10

NON-CURRENT AND CURRENT FINANCIAL ASSETS

Non-current and current financial assets were broken down as follows:

(million euros)		12.31.2023	12.31.2022
Other non-current financial assets			
Securities other than investments		–	–
Receivables from employees		31	39
Hedging derivatives relating to hedged items classified as non-current assets/liabilities of a financial nature		968	1,435
Non-hedging derivatives		95	119

		1,103	**1,602**
Financial receivables for lease contracts		**112**	**49**
Total non-current financial assets	**(a)**	**1,215**	**1,651**
Securities other than investments, other financial receivables and other current financial assets			
Securities other than investments			
Measured at amortized cost (AC)		—	—
Measured at fair value through other comprehensive income (FVTOCI)		1,516	1,040
Measured at fair value through profit or loss (FVTPL)		366	406
		1,882	**1,446**
Financial receivables and other current financial assets			
Receivables from employees		24	21
Hedging derivatives relating to hedged items classified as current assets/liabilities of a financial nature		117	84
Non-hedging derivatives		57	47
Other short-term financial receivables		491	2
		689	**154**
	(b)	**2,571**	**1,600**
Financial receivables for lease contracts	**(c)**	**162**	**69**
Cash and cash equivalents	**(d)**	**2,912**	**3,555**
Total current financial assets	**e=(b+c+d)**	**5,645**	**5,224**
Financial assets relating to Discontinued operations/Non-current assets held for sale	**(f)**	**–**	**—**
Total non-current and current financial assets	**g=(a+e+f)**	**6,860**	**6,875**

Further details on Financial Instruments are provided in Note 20 "Supplementary disclosures on financial instruments".

Financial receivables for lease contracts refer to:

- finance leases on user rights and equipment;
- agreements for the sale of network infrastructure in IRU with deferred collection over time recognized using the financial method envisaged by IFRS 16 given the contractual term substantially close to the economic life of the asset;
- lease contracts for commercial products with customers. For the financial receivables for lease assets are offset by the financial debt for the corresponding leases payable.

Hedging derivatives relating to hedged items classified under non-current and current financial assets/liabilities include the spot mark-to-market components of hedging derivatives and accrued income on those contracts.

Non-hedging derivatives consist mainly of the mark-to-market component of the non-hedging derivatives of the Brazil Business Unit. More specifically, they include 94 million euros in relation to the option to subscribe shares of C6 Bank with which TIM S.A. entertains commercial relations.

Further details are provided in Note 19 "Derivatives".

Other short-term financial receivables consist of the 488 million euros in National Recovery and Resilience Plan (NRRP) funds received on January 2, 2024 in relation to the 1G tender. For further details, see Note 17 “Net financial debt”.

Securities other than investments included in current financial assets relate to:

- 1,516 million euros of listed securities, of which 1,007 million euros of treasury bonds purchased by Telecom Italia Finance S.A. as well as 509 million euros of bonds purchased by Telecom Italia Finance S.A. with different maturities, all with an active market and consequently readily convertible into cash. Under IFRS 9 and consistently with the Business model, such securities are classified as financial assets measured at fair value through other comprehensive income (FVTOCI). The purchases of the above government bonds, which, pursuant to Consob Communication no. DEM/11070007 of August 5, 2011, represent investments in “Sovereign debt securities”, have been made in accordance with the Guidelines for the “Management and control of financial risk” adopted by the TIM Group;
- 366 million euros of investments in monetary funds by the Brazil Business Unit, which, under IFRS 9, are classified as financial assets measured at fair value through profit or loss (FVTPL).

On the basis of two securities lending agreements signed with Telecom Italia Finance S.A. on November 27, 2019 and thereafter renewed on April 28, 2020, TIM S.p.A. had received on loan until February 2, 2021 (renewable term) 98 million euros (nominal) of BTP 3/1/2023 and 150 million euros of BTP 4/15/2021; starting December 1, 2019, TIM S.p.A had loaned these securities to the counterparty NatWest.

On January 27, 2021, TIM S.p.A. had renewed the securities lending agreement in place with Telecom Italia Finance S.A., which envisaged the lending until February 15, 2023 of 98 million euros (nominal) of BTP 3/1/2023.

On January 29, 2021, TIM S.p.A. had borrowed until October 5, 2023 (subject to renewal) 24 million euros (nominal) in BTP 10/15/2023 and 67.5 million euros (nominal) in BTP 2/1/2026; furthermore TIM S.p.A. had lent the counterparty NatWest said securities in compliance with the agreement stipulated on December 21, 2020.

On February 14 and 16, 2023, the 98 million in BTP 3/1/2023 - falling due - were replaced by 97.8 million in BTP 1/15/2026 as part of the securities lending arrangements between TIM S.p.A. and Telecom Italia Finance S.A. and between TIM S.p.A. and NatWest, respectively.

On May 8, 2023, the securities lending arrangement with Telecom Italia Finance S.A. was terminated early and replaced by a new loan valid until October 1, 2026 for 40 million euros in BTP 12/1/2026; on May 9, 2023, TIM S.p.A. effected the early termination of its loan with NatWest and issued the above mentioned security until October 2026.

Under a securities lending agreement signed with Telecom Italia Finance S.A. on October 18, 2023, TIM S.p.A. has borrowed 131 million euros nominal in BTP 7/15/2028 until October 19, 2026; On October 25, 2023, TIM S.p.A. pledged a portion of the securities with a market value (from time to time) of 99 million euros in favour of counterparty MPS after the latter issued a bank guarantee in favour of INPS in support of the application of Art. 4 of Law 92 of June 28, 2012.

From an accounting standpoint, in compliance with IAS/IFRS, the assets are shown exclusively in the financial statements of Telecom Italia Finance S.A., which retains the risks and benefits associated with the position.

Further details are provided in Note 2 “Accounting policies”.

Cash and cash equivalents amounted to 2,912 million euros, a decrease of 643 million euros compared to December 31, 2022 and were broken down as follows:

(million euros)	12.31.2023	12.31.2022
Liquid assets with banks, financial institutions and post offices	2,294	2,622
Checks, cash and other receivables and deposits for cash flexibility	—	—
Securities other than investments (due within 3 months)	618	933
Total	**2,912**	**3,555**

The different technical forms of investing available cash at December 31, 2023 had the following characteristics:

- maturities: investments have a maximum maturity of three months;
- counterparty risk: deposits have been made with leading high-credit-quality banks and financial institutions with a rating of at least BBB and a non-negative outlook regard to Europe, and with leading local counterparts with regard to investments in South America;
- Country risk: deposits have been made mainly in major European financial markets.

Securities other than investments (due within 3 months) included 618 million euros (595 million euros at December 31, 2022) of Brazilian bank certificates of deposit (Certificado de Depósito Bancário) held by the Brazil Business Unit with premier local banking and financial institutions.

NOTE 11

MISCELLANEOUS RECEIVABLES AND OTHER NON-CURRENT ASSETS

These decreased by 178 million euros compared to December 31, 2022. The breakdown is as follows:

(million euros)		12.31.2023	*of which Financial Instruments*	12.31.2022	*of which Financial Instruments*
Miscellaneous receivables (non-current)	**(a)**	**390**	**154**	**560**	**275**
Other non-current assets					
Deferred contract costs		1,650		1,702	
Other deferred costs		147		103	
	(b)	**1,797**		**1,805**	
Total	**(a+b)**	**2,187**	**154**	**2,365**	**275**

Further details on Financial Instruments are provided in Note 20 "Supplementary disclosure on financial instruments".

Miscellaneous receivables (non-current) totaled 390 million euros (560 million euros at December 31, 2022) and included Non-current income tax receivables of 72 million euros (124 million euros at December 31, 2022).

This item was mainly due to the Brazil Business Unit (345 million euros; 516 million euros at December 31, 2022).

In particular, the Brazil Business Unit as of December 31, 2023 had non-current receivables relating to:

- judicial deposits of 129 million euros (248 million euros at December 31, 2022). The reduction compared to December 31, 2022 is mainly attributable to the release of the judicial deposit established in October 2022 against the litigation related to the acquisition of the mobile telephony assets of the Oi group and concluded in October 2023. Further details are provided in the Note 25 “Disputes and Pending Legal Actions, other information, commitments and guarantees”;
- indirect taxes of 147 million euros (153 million euros at December 31, 2022);
- direct taxes of 41 million euros (93 million euros at December 31, 2022).

Other non-current assets amounted to 1,797 million euros (1,805 million euros at December 31, 2022). They mainly break down as follows:

- **Deferred contract costs** of 1,650 million euros (1,702 million euros at December 31, 2022), mainly related to the deferral of costs related to the activation and acquisitions of new contracts with customers. Contractual costs (mainly technical activation costs and commissions for the sales network) were deferred and charged to the separate income statements according to the expected duration of the contractual relationship with customers (on average around 4 years for the mobile business and around 8 years for the fixed-line business).

  Total (non-current and current) deferred contract costs amounted to 2,186 million euros (2,271 million euros at December 31, 2022) and break down as follows:

(million euros)	12.31.2023	12.31.2022
Deferred contract costs		
Non-current deferred contract costs	1,650	1,702
Current deferred contract costs	536	569
Total	**2,186**	**2,271**

(million euros)	12.31.2023	12.31.2022
Deferred contract costs		
Contract acquisition costs	1,255	1,262
Contract execution costs	931	1,009
Total	**2,186**	**2,271**

Changes to comprehensive deferred contract costs in 2023 are as follows:

(million euros)	12.31.2022	Increase	Release to income statement	Exchange differences and other changes	12.31.2023
Contract acquisition costs	1,262	369	(378)	2	1,255
Contract execution costs	1,009	173	(251)		931
Total	**2,271**	**542**	**(629)**	**2**	**2,186**

The deferred contract costs will be recognized in the income statement for future years and, in particular, of around 608 million euros in 2024, based on the amount at December 31, 2023 without taking into account the new deferred portions.

(million euros)	12.31.2023	Year of recognition in the income statement					
		2024	2025	2026	2027	2028	After 2028
Contract acquisition costs	1,255	368	283	213	149	105	137
Contract execution costs	931	240	204	160	125	96	106
Total	**2,186**	**608**	**487**	**373**	**274**	**201**	**243**

- **Other deferred** costs amounted to 147 million euros, mainly attributable to the Parent Company TIM S.p.A., the companies of the Telecom Italia Sparkle group and the companies of the Brazil Business Unit.

NOTE 12

INCOME TAX EXPENSE (CURRENT AND DEFERRED)

Current income tax receivables

Non-current and current income tax receivables at December 31, 2023 amounted to 263 million euros (271 million euros at December 31, 2022).

Specifically, they consisted of:

- non-current income tax receivables of 72 million euros (124 million euros at December 31, 2022), relating to the Brazil Business Unit (41 million euros) and the Parent TIM S.p.A. (31 million euros). In detail:
  - in September 2021, following the Brazilian Supreme Federal Court's decision on the non-collection of corporate income tax and social contribution on the monetary restatement using the SELIC rate in cases of undue payment, TIM S.A. had recorded its best estimate (approximately R$ 535 million) in non-current receivables. In the third quarter of 2023, following the final favourable and unappealable decision that resulted in the approval of the receivable by the Brazilian Federal Tax Agency, TIM S.A. reclassified it to the current portion (approximately R$ 470 million);
  - the receivables of the Parent Company TIM S.p.A. include non-disposable receivables related to taxes and interest resulting from the recognized deductibility for IRES purposes of IRAP on labor costs, relating to years prior to 2012, following the entry into force of Italian Decree Law 16/2012;
- current income tax receivables of 191 million euros (147 million euros at December 31, 2022), relating to the companies of the Brazil Business Unit (139 million euros) and the Domestic Business Unit (52 million euros). Specifically, they include TIM S.A.'s receivables relating to the positive outcome of the above-mentioned decision of the Brazilian Supreme Federal Court, as well as receivables for taxes paid abroad in the amount of 13 million euros, the residual IRAP surplus from previous years in the amount of 15 million euros, the tax consolidation credit in the amount of 10 million euros and other tax credits in the amount of 4 million euros of the Parent Company TIM S.p.A.

Tax assets and deferred tax liabilities

The net balance of 618 million euros at December 31, 2023 (685 million euros at December 31, 2022) breaks down as follows:

(million euros)	12.31.2023	12.31.2022
Deferred tax assets	701	769
Deferred tax liabilities	(83)	(84)
Total	**618**	**685**

Deferred tax assets at December 31, 2023 refer to the Domestic Business Unit for 466 million euros and to the Brazil Business Unit for 235 million euros. As at December 31, 2022, deferred tax assets referred to the Domestic Business Unit for 523 million euros and the Brazil Business Unit for 246 million euros.

In the 2023 financial statements, the Parent Company TIM S.p.A. did not include IRES deferred tax for current period and prior period tax losses nor do they include IRAP deferred tax assets/liabilities, (as was the case in the previous financial statements), in consideration of the assessment of the time frame for recoverability of deferred tax assets.

Deferred tax liabilities mainly refer to Telecom Italia Capital for 45 million euros (52 million euros at December 31, 2022) and the Domestic Business Unit for 31 million euros (24 million euros at December 31, 2022).

Since the presentation of prepaid and deferred taxes in the financial statements takes into account the offsets by legal entity when applicable, the composition of the gross amounts before offsets is presented below:

(million euros)	12.31.2023	12.31.2022
Deferred tax assets	1,307	1,285
Deferred tax liabilities	(689)	(600)
Total	**618**	**685**

The temporary differences which made up this line item at December 31, 2023 and 2022, as well as the movements during 2023, were as follows:

(million euros)	12.31.2022	Recognized in profit or loss	Recognized in equity	Change in scope of consolidation and other changes	12.31.2023
Deferred tax assets					
Tax loss carryforwards (*)	25	(16)		30	39
Derivatives	289	(4)	36		321
Provision for bad debts	120	—		—	120
Provisions	415	(41)		99	473
Taxed depreciation and amortization	112	18		—	130
Other deferred tax assets	324	(19)	—	(81)	224
Total	**1,285**	**(62)**	**36**	**48**	**1,307**
Deferred tax liabilities					
Derivatives	(330)	(14)	8	(1)	(337)
Business combinations - for step-up of net assets in excess of tax basis	(57)	(41)	—	(3)	(101)
Accelerated depreciation	(136)	(32)		(6)	(174)
Other deferred taxes	(77)	—		—	(77)
Total	**(600)**	**(87)**	**8**	**(10)**	**(689)**
Total Deferred tax assets net of Deferred tax liabilities	**685**	**(149)**	**44**	**38**	**618**

(*) For the new flow of tax losses in 2023, the Parent Company TIM S.p.A. has not entered deferred tax assets.

The expirations of deferred tax assets and deferred tax liabilities at December 31, 2023 were the following:

(million euros)	Within next year	Beyond 1 year	Total at 12/31/2023
Deferred tax assets	339	968	1,307
Deferred tax liabilities	(61)	(628)	(689)
Total Deferred tax assets net of Deferred tax liabilities	**278**	**340**	**618**

At December 31, 2023, the TIM Group had unused tax loss carryforwards of 4,402 million euros, mainly relating to the Parent Company TIM S.p.A. and the company Telecom Italia Finance, with the following expiration dates:

Year of expiration	(million euros)
2024	1
2025	1
2026	1
2027	—
2028	—
Expiration after 2028	31
Without expiration	4,368
Total unused tax loss carryforwards	**4,402**

Unused tax loss carryforwards considered in the calculation of deferred tax assets amounted to 144 million euros at December 31, 2023 (73 million euros at December 31, 2022) and mainly referred to the Brazil Business Unit. Deferred tax assets were recognized as it was considered probable that taxable income will be available in the future against which the tax losses can be utilized.

On the other hand, deferred tax assets of 1,036 million euros (685 million euros at December 31, 2022) were not recognized on 4,257 million euros of tax loss carry-forwards since, at the reporting date, their recoverability was not considered probable.

At December 31, 2023, deferred tax liabilities were not recognized on approximately 2.6 billion euros of tax-suspended reserves and undistributed earnings of subsidiaries, because the TIM Group is in a position to control the timing of the distribution of those reserves and it is probable that those accumulated earnings will not be distributed in the foreseeable future.

Income tax payables

Current income tax payables amounted to 27 million euros (34 million euros at December 31, 2022). They break down as follows:

(million euros)	12.31.2023	12.31.2022
Income tax payables:		
non-current	—	—
current	27	34
Total	**27**	**34**

The current portion, amounting to 27 million euros, mainly refers to companies in the Domestic Business Unit (8 million euros) and the Brazil Business Unit (18 million euros). The current tax payables of the Parent Company TIM S.p.A. are zero (unchanged compared to December 31, 2022).

Non-current tax payables are zero (unchanged compared to December 31, 2022).

Income tax expense

The income tax expense for the years 2023 and 2022 breaks down as follows:

(million euros)		2023	2022
Current taxes for the year		81	95
Net difference in prior year estimates		(3)	(675)
Total current taxes		**78**	**(580)**
Deferred taxes		149	2,646
Total income tax expense on continuing operations	**(a)**	**227**	**2,066**
Income tax expense on Discontinued operations/Non-current assets held for sale	**(b)**	**—**	**—**
Total income tax expense for the year	**(a+b)**	**227**	**2,066**

Current taxes include the income represented by the benefit of the tax consolidation of 132 million euros and the lower taxes of previous years of 2 million euros of the Parent Company TIM S.p.A., relating to the effects of the tax return compared to the estimate made in the 2022 financial statements on the basis of the elements available at the time.

The current tax benefits juxtaposes with the deferred tax expense of the Parent Company TIM S.p.A. of 88 million euros, of which 9 million euros relate to previous years.

The reconciliation between the theoretical tax expense, using the IRES tax rate in force in Italy (24%), and the effective tax expense for the years ended December 31, 2023 and 2022 is as follows:

(million euros)		2023	2022
Profit (loss) before tax from continuing operations		**(880)**	**(588)**
Theoretical income tax expense from continuing operations		**(211)**	**(141)**
Income tax effect on increases (decreases) in variations			
Tax losses of the year not considered recoverable		401	280
Tax losses from prior years not recoverable (recoverable) in future years		(51)	(8)
Prepaid IRES tax (benefit)/write-off pursuant to Decree Law 104/2020, Art. 110 and others		—	2,656
Brazil: different tax rate compared to the theoretical rate in force in Italy		52	30
Brazil: investment incentives		(44)	(29)
Other net differences		40	(82)
Effective taxes recognized in the Income Statement, excluding IRAP and substitute tax		**187**	**2,706**
IRAP (Regional Tax on Production Activities)		40	52
Write-off of substitute tax pursuant to Decree Law 104/2020 art. 110		—	(692)
Total effective taxes recognized in the Income Statement from continuing operations	**(a)**	**227**	**2,066**
Effective taxes recognized in the Income Statement from Discontinued operations/Non-current assets held for sale	**(b)**	**—**	**—**
Total of actual taxes to income statement	**(a)+(b)**	**227**	**2,066**

For the analysis of the tax burden related to the Profit (loss) before tax from continuing operations, the impact of IRAP and substitute tax pursuant to Decree Law 104/2020, Art. 110, has been kept separate to avoid any

distorting effect, since these taxes only apply to Italian companies and are calculated on a tax base other than pre-tax profit.

Global Minimum Tax

Legislative Decree No. 209 of December 27, 2023, implementing the international tax reform, transposed European Union Council Directive No. 2022/2523/EU (the "**Directive**"), which implements the rules developed by the OECD on Pillar 2 and Global Minimum Tax ("***Model Rules***" or "***GloBE Rules***"). The new rules enter into force on January 1, 2024.

To give a very brief overview, the *GloBE Rules* introduce a coordinated system of rules for multinational groups with total revenues of 750 million euros or more, aimed at ensuring that they are subject to a minimum tax level of at least 15% in relation to income generated in each country in which they operate. The *GloBE Rules* provide for the application of a top-up tax due if the effective tax rate ("**ETR**") calculated for each country according to the common rules is below 15%, up to that level. The ETR is equal to the ratio of taxes paid (with adjustments) to accounting profit (with adjustments). Both the calculation of the effective tax rate and the supplementary tax are done on a jurisdictional (i.e. country-by-country) basis.

The OECD has developed a system of safe harbours (i.e. tests) applicable during the first three-year period of the *GloBE Rules* (until 2026), which will make it possible to avoid making the complex calculations required and to consider the supplementary tax due in a given state to be zero if one of the following tests is passed:

- ***de minimis test***: aggregate revenue in that state is less than 10 million euros and aggregate pre-tax profit is less than 1 million euros (or a loss);
- ***simplified ETR test***: The effective tax level is at least 15% (for 2024), 16% (for 2025) and 17% (for 2026) and is to be determined on the basis of the ratio of the aggregate values of pre-tax profit/loss (denominator) and income tax (numerator);
- ***routine profit test:*** the economic substance present in a given jurisdiction (calculated assuming a given implied profitability of tangible assets and personnel costs located in the jurisdiction) is greater than the aggregate amount of pre-tax profit/loss. In the event that the group is found to have a pre-tax loss, the test will be regarded as positive.

As it falls within the scope of application of the *GloBE Rules*, TIM S.p.A. is currently analysing the new rules and structuring an internal process for collecting the data necessary to carry out the calculations required when fully implemented.

TIM S.p.A. also performed a simulation on the figures for the financial year 2022, with reference to the potential application of safe harbours in the jurisdictions in which it operates. From initial estimates and based on the best interpretation of documents published by the OECD, practically all countries pass at least one of the tests.

With regard to the related amendments adopted by the IASB to IAS 12 and implemented by Regulation (EU) No. 2023/2468, please refer to what is specified in Note 2 "Accounting Policies".

NOTE 13
INVENTORIES

The item increased compared to December 31, 2022, by 23 million euros and is broken down as follows:

(million euros)	12.31.2023	12.31.2022
Raw materials and supplies	2	2
Work in progress and semifinished products	2	8
Finished goods	314	274
Deposits on stocks	27	38
Total	**345**	**322**

Inventories essentially consist of fixed and mobile telecommunications equipment and handsets and related accessories, as well as office products and specialist printers.

Inventories consist of 283 million euros for the Domestic Business Unit (280 million euros at December 31, 2022) and 62 million euros for the Brazil Business Unit (42 million euros at December 31, 2022).

The item "Deposits on stocks" refers to deposits paid for fiber on submarine cables by Telecom Italia Sparkle to construct transmission systems, limited to the component for resale also through finance lease transfer contracts.

Inventories are stated net of a provision for bad debts amounting to 13 million euros at December 31, 2023 (18 million euros at December 31, 2022).

NOTE 14

TRADE AND MISCELLANEOUS RECEIVABLES AND OTHER CURRENT ASSETS

This item rose by 160 million euros compared to December 31, 2022. The figure breaks down as follows:

(million euros)		12.31.2023	*of which Financial Instruments*	12.31.2022	*of which Financial Instruments*
Trade receivables					
Receivables from customers		1,351	*1,351*	1,586	*1,586*
Receivables from other telecommunications operators		1,556	*1,556*	1,288	*1,288*
	(a)	2,907	*2,907*	**2,874**	*2,874*
Miscellaneous receivables (current)					
Other receivables	(b)	752	*60*	**689**	*96*
Other current assets					
Contract assets		68	*68*	17	*17*
Deferred contract costs		536		569	
Other deferred costs		395		337	
Other		41		53	
	(c)	1,040	*68*	**976**	*17*
Total	(a+b+c)	4,699	***3,035***	**4,539**	***2,987***

Further details on Financial Instruments are provided in Note 20 "Supplementary disclosure on financial instruments".

The analyses of the aging of the financial instruments included in Trade and miscellaneous receivables and other current assets at December 31, 2023 and December 31, 2022 are provided below:

(million euros)	12.31.2023	of which non-overdue	of which overdue	of which overdue from: 0-90 days	91-180 days	181-365 days	More than 365 days
Trade and miscellaneous receivables and other current assets	3,035	*2,455*	580	208	78	97	197

(million euros)	12.31.2022	of which non-overdue	of which overdue	of which overdue from: 0-90 days	91-180 days	181-365 days	More than 365 days
Trade and miscellaneous receivables and other current assets	**2,987**	2,371	616	167	84	137	228

Receivables not past due are increasing, compared to December 31, 2022, by 84 million euros. The Brazil Business Unit (58 million euros, including a positive foreign exchange effect of approximately 21 million euros) and the Domestic Business Unit (26 million euros) contribute to this trend for 2023.

Past-due receivables decreased by 36 million euros compared to December 31, 2022. This reduction for the 2023 financial year is attributable to the Domestic Business Unit in the amount of 49 million euros compared to the increase recorded in the Brazil Business Unit in the amount of 13 million euros, including a positive exchange rate effect of approximately 5 million euros).

Trade receivables amounted to 2,907 million euros (2,874 million euros at December 31, 2022) and are stated net of the provision for bad debts of 463 million euros (499 million euros at December 31, 2022). They included 10 million euros (12 million euros at December 31, 2022) of medium/long-term receivables mainly relating to agreements for the sale of transmission capacity under Indefeasible Rights of Use (IRU).

Trade receivables relate, in particular, to TIM S.p.A. (1,898 million euros) and the Brazil Business Unit (726 million euros).

Movements in the provision for bad debts were as follows:

(million euros)	12.31.2023	12.31.2022
At January 1	**499**	**565**
Provision charges to the income statement	184	178
Utilization and decreases	(225)	(275)
Change in scope	—	7
Exchange rate differences and other changes	5	24
At December 31	**463**	**499**

Miscellaneous receivables (current) refer to other receivables amounting to 752 million euros (689 million euros at December 31, 2022) and are net of a provision for bad debts of 44 million euros (41 million euros at December 31, 2022). Details are as follows:

(million euros)	12.31.2023	12.31.2022
Advances to suppliers	335	282
Receivables from employees	10	10
Tax receivables	185	152
Receivables for grants from the government and public entities	10	11
Sundry receivables	212	234
Total	**752**	**689**

As at December 31, 2023, "tax receivables" refer to the Brazil Business Unit for 153 million euros and to the Domestic Business for 32 million euros.

“Receivables for grants from the government and public entities” mainly refer to the projects called Ultra Broadband-BUL and Broadband-BL. These contributions are recognised in the income statement at the time of entry into operation of the plants to which the contributions refer.

“Sundry receivables” mainly included:

- TIM S.p.A. receivables for Universal Service (52 million euros);
- miscellaneous receivables of TIM S.p.A. from other TLC operators (27 million euros);
- TIM S.p.A. receivables for with-recourse assignments to factoring companies (23 million euros);
- TIM S.p.A. receivables from social security and pension institutions (18 million euros).

Other current assets included:

- **Contract assets**. This item mainly includes:
  - 12 million euros attributable to the parent company TIM S.p.A. due to the effect of the early recognition of revenues for those bundle contracts (such as bundles of products and services) with individual performance obligations with a different recognition timing, in which the goods recognized “at a point in time” are sold at a discounted price, or for those contracts which, by providing for a discount for a period of time shorter than the minimum contract term, require, pursuant to IFRS 15, a reallocation of the discount over the minimum contractual term. These Contract Assets are net of the related impairment provision of 1 million euros;
  - 53 million euros from the Parent Company TIM S.p.A. and the company FiberCop S.p.A. relating to works carried out in 2023 in connection with the NRRP projects.
- **Deferred contract costs** (536 million euros; 569 million euros at December 31, 2022): There are contractual costs (mainly technical activation costs and commissions for the sales network) deferred and charged to the separate income statements according to the expected duration of the contractual relationship with customers (around 4 years for the mobile business and around 8 years for the fixed-line business). Further details on Deferred contract costs are provided in the Note 11 “Miscellaneous receivables and other non-current assets”.
- **Other deferred costs** mainly concern:
  - the Parent Company essentially for: a) costs related to rental charges and other lease and rental costs (266 million euros); b) after-sales expenses on application offers (32 million euros); c) costs for the purchase of products and services (23 million euros); d) insurance premiums (8 million euros); e) maintenance fees (6 million euros);
  - to the Telecom Italia Sparkle group mainly related to the deferral of costs connected to payments for line lease and maintenance payments (13 million euros);
  - the Brazil Business Unit (15 million euros), essentially related to the deferral of service costs.

NOTE 15
EQUITY

This item consisted of:

(million euros)	12.31.2023	12.31.2022
Equity attributable to owners of the Parent	13,646	15,061
Non-controlling interests	3,867	3,664
Total	**17,513**	**18,725**

The composition of **Equity attributable to owners of the Parent** is the following:

(million euros)	12.31.2023		12.31.2022	
Share capital		11,620		11,614
Additional paid-in capital		575		2,133
Other reserves and retained earnings (accumulated losses), including profit (loss) for the year		1,451		1,314
Reserve for financial assets measured at fair value through other comprehensive income	(22)		(58)	
Reserve for hedging instruments	(80)		65	
Reserve for exchange differences on translating foreign operations	(1,959)		(2,085)	
Reserve for remeasurements of employee defined benefit plans (IAS 19)	(79)		(71)	
Share of other comprehensive income (loss) of associates and joint ventures accounted for using the equity method	—		—	
Sundry reserves and retained earnings (accumulated losses), including profit (loss) for the year	3,591		3,463	
Total		**13,646**		**15,061**

As of December 31, 2023, the **Share Capital** is 11,620 million euros, already net of treasury shares of 57 million euros. Capital increased by 6 million euros as a result of the allocation of treasury shares in execution of the first cycle of the Long Term Incentive Plan 2020-2022.

It should be noted that the Parent Company's Share Capital is subject to a tax suspension restriction for tax purposes in the amount of 1,191 million euros (unchanged from December 31, 2022).

Movements in Share Capital during 2023 are presented in the following tables:

Reconciliation between the number of shares outstanding at December 31, 2022 and December 31, 2023

(number of shares)		as at 12/31/2022	Share assignment/ issue	at 12/31/2023	% on Capital
Ordinary shares issued	(a)	15,329,466,496	—	15,329,466,496	71.78%
less: treasury shares	(b)	(115,942,196)	10,879,774	(105,062,422)	
Ordinary shares outstanding	(c)	15,213,524,300	10,879,774	15,224,404,074	
Savings shares issued and outstanding	(d)	6,027,791,699	—	6,027,791,699	28.22%
Total TIM S.p.A. shares issued	**(a+d)**	**21,357,258,195**	**—**	**21,357,258,195**	**100.00%**
Total TIM S.p.A. shares outstanding	**(c+d)**	**21,241,315,999**	**10,879,774**	**21,252,195,773**	

Reconciliation between the value of shares outstanding at December 31, 2022 and December 31, 2023

(million euros)		Share Capital at 12/31/2022	Change in share capital	Share Capital at 12/31/2023
Ordinary shares issued	(a)	8,381	—	**8,381**
less: treasury shares	(b)	(63)	6	**(57)**
Ordinary shares outstanding	(c)	8,318	6	**8,324**
Savings shares issued and outstanding	(d)	3,296	—	**3,296**
Total TIM S.p.A. share capital issued	**(a+d)**	**11,677**	**—**	**11,677**
Total TIM S.p.A. share capital outstanding	**(c+d)**	**11,614**	**6**	**11,620**

The total value of ordinary treasury shares at December 31, 2023, amounting to 330 million euros, was recorded as follows: the part relating to accounting par value (57 million euros) recognized as a deduction from the share capital issued and the remaining part as a deduction from Other reserves and retained earnings (accumulated losses), including profit (loss) for the year.

Disclosure on share capital

The ordinary and savings shares of TIM S.p.A. are listed in Italy (FTSE index).

In the shareholder resolutions passed to increase share capital against cash payments, the pre-emption right can be excluded to the maximum extent of ten percent of the pre-existing share capital, on condition that the issue price corresponds to the market price of the shares and that this is confirmed in a specific report issued by the firm charged with the audit of the Company.

The Group sources itself with the capital necessary to fund its business development and operation requirements; the sources of funds are found in a balanced mix of equity, permanently invested by the shareholders, and debt capital, to guarantee a balanced financial structure and minimize the total cost of capital, with a resulting advantage to all the stakeholders.

Debt capital is structured according to different maturities and currencies to ensure an adequate diversification of the sources of funding and an efficient access to external sources of financing (taking advantage of the best opportunities offered in the financial markets of the euro, U.S. dollar and Pound sterling areas to minimize costs), taking care to reduce the refinancing risk.

The remuneration of equity is proposed by the Board of Directors to the Shareholders' Meeting, which meets to approve the annual financial statements, based upon market trends and business performance, once all the other obligations are met, including debt servicing. Therefore, to ensure an adequate remuneration of capital, safeguard company continuity and business development, the Group constantly monitors the change in debt levels in relation to equity, the level of net debt and the operating margin of industrial operations.

Privileges of savings shares

The privileges of TIM S.p.A. savings shares are indicated below:

- the profit shown in the duly approved financial statements, after deducting the amount to be allocated to the legal reserve, must be distributed to the holders of savings shares in an amount up to 5% of the 0.55 euros per share;
- after assigning preferred dividends to the savings shares, the distribution of which is approved by the shareholders' meeting, the remaining profit shall be allocated among all the shares, so that savings shares are entitled to higher overall dividends than ordinary shares would be entitled to, to the extent of 2% of 0.55 euros per share;
- when, in any one year, dividends of below 5% of the 0.55 euros per share are paid to the savings shares, the difference is determined as an increase of the privileged dividend in the next two subsequent years;
- in the event of a distribution of reserves, the savings shares have the same rights as the other shares. Moreover, when there is no profit or insufficient profit is reported in the financial statements for a given year to satisfy the aforesaid savings shares privileges, the Shareholders' Meeting called to approve those financial statements may choose to satisfy the dividend right and/or the higher dividend right by distributing available reserves. The distribution of available reserves for such payments excludes the application of the mechanism extending the right to the preferred dividend not paid through the distribution of profits for the following two years;
- the reduction of share capital as a result of losses does not affect the savings shares except for the amount of the loss which is not covered by the portion of the share capital represented by the other shares;
- upon the wind-up of TIM S.p.A., the savings shares have a pre-emption right in the reimbursement of capital up to the amount of 0.55 euros per share;
- in the event of the cessation of trading in the Company's ordinary or savings shares, the holder of savings shares may ask TIM S.p.A. to convert his/her shares into ordinary shares, using the method selected during a special session of the shareholders' meeting called for that purpose within two months of being excluded from trading.

The **Share Premium Reserve** is 575 million euros, decreased by 1,558 million euros compared to December 31, 2022 as, based on the resolution of the Shareholders' Meeting of April 20, 2023, it was used to cover the loss for the year 2022 resulting from the financial statements of the Parent Company TIM S.p.A.

Other reserves moved through the Statements of comprehensive income comprised:

- The **Reserve for financial assets measured at fair value through other comprehensive income**, negative for 22 million euros at December 31, 2023, decreased by 36 million euros compared to the figure at December 31, 2022. Specifically, the movement in 2023 includes gains in the securities portfolio of Telecom Italia Finance (59 million euros, of which 9 million euros were realized), losses in the securities portfolio of TI Ventures (9 million euros), losses recognized by Olivetti for the valuation of SECO S.p.A. (20 million euros), profits from other financial assets held by the Parent Company TIM (3 million euros) and profits from the investment in Fin.Priv. S.r.l. of the Parent Company TIM (3 million euros). This reserve is stated net of deferred tax assets of 2 million euros (at December 31, 2022, it was stated net of deferred tax liabilities of 3 million euros).
- The **Reserve for hedging instruments** had a negative balance of 80 million euros at December 31, 2023, (positive 65 million euros at December 31, 2022). This reserve is stated net of deferred tax assets of 23 million euros (at December 31, 2022, it was stated net of deferred tax liabilities of 22 million euros). In particular, this reserve includes the effective portion of gains or losses on the fair value adjustments of derivatives designated as hedges of the exposure to volatility in the cash flows of assets or liabilities recognized in the financial statements ("cash flow hedge").
- The **Reserve for exchange differences on translating foreign operations** showed a negative balance of 1,959 million euros at December 31, 2023 (negative 2,085 million euros at December 31, 2022) and mainly related to exchange differences resulting from the translation into euros of the financial statements of companies belonging to the Brazil Business Unit (negative for 1,983 million euros versus negative for 2,114 million euros at December 31, 2022).
- The **Reserve for the remeasurement of employee defined benefit plans**, negative for 79 million euros, decreased by 8 million euros compared with December 31, 2022 following the recording of the changes in actuarial gains (losses), net of the related income tax effect.
- The **Share of other comprehensive income (losses) of associates and joint ventures accounted for using the equity method** is nil at both December 31, 2023 and December 31, 2022.

Other sundry reserves and retained earnings (accumulated losses), including profit (loss) for the year amounted to 3,591 million euros and increased by 128 million euros, as detailed below:

(million euros)	2023	2022
Profit (loss) for the year attributable to owners of the Parent	(1,441)	(2,925)
Dividends approved - TIM S.p.A.	—	—
Equity instruments	2	6
Disposal of treasury shares under the LTI Plan	(6)	—
Share of loss coverage for the year 2022 using Share Premium Reserve	1,558	—
Other changes	15	6
Change for the year in Sundry reserves and retained earnings (accumulated losses), including profit (loss) for the year	**128**	**(2,913)**

No dividends were approved in 2023 and 2022.

Equity attributable to non-controlling interests, amounted to 3,867 million euros and mainly referred to FiberCop S.p.A. (2,222 million euros) and the companies of the Brazil Business Unit (1,645 million euros), increases by 203 million euros compared to December 31, 2022 as detailed below:

(million euros)	2023	2022
Profit (loss) for the year attributable to Non-controlling interests	334	271
Group Company dividends paid to minority shareholders	(197)	(86)
Changes in the Reserve for exchange differences on translating foreign operations	63	182
Daphne3 - deconsolidation	—	(1,332)
Other changes	3	4
Change for the year in Equity attributable to Non-controlling interest	**203**	**(961)**

Dividends from Group companies to minority shareholders mainly referred to the Brazil Business Unit in the amount of 136 million euros and FiberCop S.p.A. in the amount of 61 million euros. Dividends in 2022 mainly referred to the Brazil Business Unit for 86 million euros.

The Reserve for exchange differences on translating foreign operations attributable to non-controlling interest showed a negative balance of 910 million euros at December 31, 2023 (negative for 973 million euros at December 31, 2022), relating entirely to exchange differences arising from the translation into euros of the financial statements of the companies belonging to the Brazil Business Unit.

Future potential changes in share capital

Details of “Future potential changes in share capital” are presented in Note 38 “Earnings per share”.

NOTE 16

NON-CURRENT AND CURRENT FINANCIAL LIABILITIES

Non-current and current financial liabilities (gross financial debt) are broken down as follows:

(million euros)		12.31.2023	12.31.2022
Non-current financial liabilities for financing contracts and others			
Financial payables (medium/long-term):			
Bonds		15,297	15,259
Amounts due to banks		5,262	5,898
Other financial payables		310	305
		20,869	**21,462**
Other medium/long-term financial liabilities:			
Hedging derivatives relating to hedged items classified as non-current assets/liabilities of a financial nature		397	234
Non-hedging derivatives		15	43
Other liabilities		3	—
		415	**277**
	(a)	**21,284**	**21,739**
Non-current financial liabilities for lease contracts	**(b)**	**4,743**	**4,597**
Total non-current financial liabilities	**c=(a+b)**	**26,027**	**26,336**
Current financial liabilities for financing contracts and others			
Financial payables (short term):			
Bonds		3,266	2,799
Amounts due to banks		2,145	1,766
Other financial payables		242	195
		5,653	**4,760**
Other short-term financial liabilities:			
Hedging derivatives relating to hedged items classified as current assets/liabilities of a financial nature		66	193
Non-hedging derivatives		51	86
Other liabilities		1	—
		118	**279**
	(d)	**5,771**	**5,039**
Current financial liabilities for lease contracts	**(e)**	**838**	**870**
Total current financial liabilities	**f=(d+e)**	**6,609**	**5,909**
Financial liabilities directly associated with Discontinued operations/Non-current assets held for sale	**(g)**	**—**	**—**
Total Financial liabilities (Gross financial debt)	**h=(c+f+g)**	**32,636**	**32,245**

Further details on Financial Instruments are provided in Note 20 "Supplementary disclosures on financial instruments".

Gross financial debt according to the original currency of the transaction is as follows:

	12.31.2023		12.31.2022	
	(millions of foreign currency)	(million euros)	(millions of foreign currency)	(million euros)
USD	5,696	5,155	5,901	5,532
GBP	—	—	389	439
BRL	21,670	4,051	17,348	3,117
YEN	20,033	128	20,030	142
ILS	44	11	49	13
EUR		23,291		23,002
Total		**32,636**		**32,245**

For the exchange rates used for the conversion of amounts in foreign currency, see the Note 44 "Other information".

The breakdown of gross financial debt by effective interest-rate bands applicable to the original currency is provided below, excluding the effect of any derivative hedging instruments:

(million euros)	12.31.2023	12.31.2022
Up to 2.5%	4,138	5,873
From 2.5% to 5%	9,907	13,469
From 5% to 7.5%	10,309	6,920
From 7.5% to 10%	3,742	2,024
Over 10%	3,389	2,748
Accruals/deferrals, MTM and derivatives	1,151	1,211
Total	**32,636**	**32,245**

Following the use of hedging instruments, on the other hand, gross financial debt by nominal interest rate level is:

(million euros)	12.31.2023	12.31.2022
Up to 2.5%	6,390	8,416
From 2.5% to 5%	8,443	13,168
From 5% to 7.5%	9,719	5,039
From 7.5% to 10%	2,917	1,192
Over 10%	4,016	3,219
Accruals/deferrals, MTM and derivatives	1,151	1,211
Total	**32,636**	**32,245**

The maturities of financial liabilities according to the expected nominal repayment amount, as defined by contract, are the following:

	maturing by 12/31 of the year:						
-+	**2024**	**2025**	**2026**	**2027**	**2028**	**After 2028**	**Total**
Bonds	2,867	2,220	1,970	1,470	3,214	6,305	18,046
Loans and other financial liabilities	982	1,080	1,588	423	2,040	(87)	6,026
Finance lease liabilities	751	612	578	537	471	2,545	5,494
Total	**4,600**	**3,912**	**4,136**	**2,430**	**5,725**	**8,763**	**29,566**
Current financial liabilities	1,377	—	—	—	—	—	1,377
Total	**5,977**	**3,912**	**4,136**	**2,430**	**5,725**	**8,763**	**30,943**

The main components of financial liabilities are commented below.

Bonds are broken down as follows:

(million euros)	12.31.2023	12.31.2022
Non-current portion	15,297	15,259
Current portion	3,266	2,799
Total carrying amount	**18,563**	**18,058**
Fair value adjustment and measurements at amortized cost	(517)	(506)
Total nominal repayment amount	**18,046**	**17,552**

The nominal repayment amount of bonds totaled 18,046 million euros, down by 494 million euros compared to December 31, 2022 (17,552 million euros) as a result of the new issuances/repayments/buybacks made in 2023.

(millions of original currency)	Currency	Amount	Issue date
New issues			
TIM S.p.A. 850 million euros 6.875%	Euro	850	1/27/2023
TIM S.p.A. 400 million euros 6.875%	Euro	400	4/12/2023
TIM S.p.A. 750 million euros 7.875%	Euro	750	7/20/2023

(a) Weighted average issue price for bonds issued with more than one tranche.

The regulations and the Offering Circulars relating to the bonds of the TIM Group are available on the corporate website gruppotim.it.

Medium/long-term amounts **due to banks** totaled 5,262 million euros (5,898 million euros at December 31, 2022). Short-term amounts due to banks totaled 2,145 million euros (1,766 million euros at December 31, 2022) and included 1,033 million euros of the current portion of medium/long-term amounts due to banks and 854

million euros in repurchase agreements due by June 2024.

The **other medium/long-term financial payables** totaled 310 million euros (305 million euros at December 31, 2022), 126 million euros of which refer to the Telecom Italia Finance S.A. loan for JPY 20,000 million, maturing in 2029. Short-term other financial payables amounted to 242 million euros (195 million euros at December 31, 2022) and included 16 million euros of the current portion of medium/long-term other financial payables.

Medium/long-term financial liabilities for lease contracts amounted to 4,743 million euros (4,597 million euros at December 31, 2022), whilst short-term payables totaled 838 million euros (870 million euros at December 31, 2022) and included 786 million euros in the current portion of financial liabilities for medium/long-term lease contracts.

With reference to the finance lease liabilities recognized in 2023 and 2022, the following is noted:

(million euros)	2023	2022
Principal reimbursements	742	708
Cash out interest portion	416	315
Total	**1,158**	**1,023**

Hedging derivatives relating to items classified as non-current financial liabilities amount to 397 million euros (234 million euros at December 31, 2022). Hedging derivatives relating to items classified as current liabilities of a financial nature totaled 66 million euros (193 million euros at December 31, 2022).

Non-hedging derivatives classified as non-current financial liabilities came to 15 million euros (43 million euros at December 31, 2022), while non-hedging derivatives classified under current financial liabilities amounted to 51 million euros (86 million euros at December 31, 2022). These also include the measurement of derivatives which, although put into place for hedging purposes, do not possess the formal requisites to be considered as such under IFRS.

Covenants and negative pledges in place at December 31, 2023

Bonds issued by TIM S.p.A., Telecom Italia Finance S.A. and Telecom Italia Capital S.A. do not contain financial covenants (e.g. ratios such as Debt/EBITDA, EBITDA/Interest, etc.) or clauses that result in the automatic early redemption of the bonds in relation to events other than the insolvency of the TIM Group; furthermore, the repayment of the bonds and the payment of interest are not covered by specific guarantees nor are there commitments provided relating to the assumption of future guarantees, except for the full and unconditional guarantees provided by TIM S.p.A. for the bonds issued by Telecom Italia Finance S.A. and Telecom Italia Capital S.A..

Since these bonds have been placed principally with institutional investors in main world capital markets (Euromarket and USA), the terms which regulate the bonds are in line with the market practice for similar transactions effected on these same markets.

Regarding loans taken out by TIM from the European Investment Bank (EIB), on May 19, 2021, TIM entered into a loan for an amount of 230 million euros, in support of projects to digitize the country. In addition, on that same date, it extended the loan signed in 2019 (for an initial amount of 350 million euros) for an additional amount of 120 million euros.Currently, these loans are partially guaranteed.

In addition, on May 5, 2023, TIM took out a new 360 million euro loan with the EIB, partially guaranteed by SACE.

Therefore, at December 31, 2023 the nominal total of outstanding loans with the EIB was 1,060 million euros.

The EIB loans include the following covenants and commitments:

- in the event the company becomes the target of a merger, demerger or conferral of a business segment outside the TIM Group, or sells, disposes of or transfers assets or business segments (except in certain cases, expressly provided for), it shall immediately inform the EIB which shall have the right to ask for guarantees to be provided or changes to be made to the loan contract, or, only for certain loan agreements, the EIB shall have the option to demand the immediate repayment of the loan (should the merger, demerger or contribution of a business segment outside the TIM Group compromise the Project execution or cause a prejudice to EIB in its capacity as creditor);
- TIM undertook to ensure that, for the entire duration of the loan, the total financial debt of the TIM Group companies other than TIM – except for the cases when that debt is fully and irrevocably secured by TIM – is lower than 35% (thirty-five percent) of the TIM Group's total financial debt;
- “Inclusion clause", under which, in the event TIM commits to uphold financial covenants in other loan contracts (and even more restrictive clauses, including, for instance, cross default clauses and commitments restricting the sale of goods) that are not present in or are stricter than those granted to the EIB, the EIB will have the right – if, in its reasonable opinion, it considers that such changes may have a negative impact on TIM's financial capacity – to request the provision of guarantees or an amendment of the loan contract in order to establish an equivalent provision in favor of the EIB;
- "Network Event", under which, in the event of the disposal of the entire fixed network or of a substantial part of it (in any case, more than half in quantitative terms) to third parties not controlled by the Company, or in the event of disposal of the controlling interest in the company in which the network or a substantial part of it has previously been transferred, TIM must immediately inform the EIB, which may then opt to demand collateral or an amendment of the loan agreement or choose an alternative solution.

Some TIM loan agreements not contain financial covenants (e.g. Debt/EBITDA, EBITDA/interest ratios, etc.), failure to comply with which would entail an obligation to repay the loan in place. These include the loan signed on July 6, 2022, which is backed by the "Italy Guarantee" (in accordance with art. 1, subsection 1 of Decree-Law no. 23 of April 8, 2020, as subsequently amended and supplemented).

The loan agreements contain the usual other types of covenants, including the commitment not to pledge the Company's assets as collateral for loans (negative pledge) and the commitment not to change the business purpose or sell the assets of the Company unless specific conditions exist (e.g. the sale takes place at fair market value). Covenants with basically the same content can be found in the export credit loan agreement.

In the loan agreements, TIM is required to provide notification of change of control. Identification of the occurrence of a change of control and the applicable consequences – including, at the discretion of the investors, the establishment of guarantees or the early repayment of the amount paid in cash and the cancellation of the commitment in the absence of agreements to the contrary – are specifically covered in the individual agreements.

In addition, the outstanding loans generally contain a commitment by TIM, whose breach is an Event of Default, not to implement mergers, demergers or transfers of business, involving entities outside the Group, except where certain conditions exist. Such an Event of Default may entail, upon request of the Lender, the early redemption of the drawn amounts and/or the annulment of the undrawn commitment.

The documentation of the loans granted to certain companies of the TIM Group generally contain obligations to comply with certain financial ratios, as well as the usual other covenants, under penalty of a request for the early repayment of the loan.

Finally, as at December 31, 2023, no covenant, negative pledge or other clause relating to the aforementioned debt position had in any way been breached or violated.

Revolving Credit Facility

The following table shows committed credit lines(*) available at December 31, 2023:

(billion euros)	12.31.2023		12.31.2022	
	Agreed	Drawn down	Agreed	Drawn down
Sustainability-linked RCF - May 2026	4.0	—	4.0	—
Total	**4.0**	—	**4.0**	**—**

(*) In accordance with the contract signed, the Banks have committed to make the funds available on demand (with at least 3 days' notice). As this is a "Committed" line, the banks have no mechanisms in place not to honor the request for funds made by the Company, without prejudice to the market standard early mandatory cancellation clauses (Natural contract expiry, Change in control, Borrower illegality, Events of default each as defined in the contract).

Rating at December 31, 2023

At December 31, 2023, the three rating agencies – Standard & Poor's, Moody's and Fitch Ratings – rated TIM as follows:

	Rating	Outlook
STANDARD & POOR'S	B+	Under review for upgrade
MOODY'S	B1	Under review for upgrade
FITCH RATINGS	BB-	Under review for upgrade

On November 6, 2023, Moody's placed Telecom Italia's B1 rating under review in view of a possible future upgrade.

On November 9, 2023, Standard & Poor's placed Telecom Italia's B+ rating under review in view of a possible future upgrade.

On November 10, 2023, Fitch placed Telecom Italia's BB- rating under review in view of a possible future upgrade.

NOTE 17
NET FINANCIAL DEBT

The table below shows the breakdown of net financial debt of the TIM Group at December 31, 2023 and December 31, 2022, determined in accordance with the provisions of the "Guidelines on disclosure requirements under the Prospectus Regulation" issued by the ESMA (European Securities & Markets Authority) on March 4, 2021 (ESMA32-382-1138) and incorporated by Consob with its Note of Attention no. 5/21 dated April 29, 2021.
This table also shows the reconciliation of the net financial debt determined according to the aforementioned criteria indicated by the ESMA and net financial debt calculated according to the criteria of the TIM Group.

	(d)	**1,115**	**—**	**—**	**(5)**	**1**	**280**	**1,391**
Financial liabilities directly associated with Discontinued operations/Non-current assets held for sale:	**(e)**	**—**	**—**	**—**	**—**	**—**	**—**	**—**
Total Financial liabilities (Gross financial debt)	**(f=a+b+c+d+e)**	**32,245**	**4,410**	**(4,607)**	**(180)**	**72**	**696**	**32,636**
Hedging derivative receivables relating to hedged items classified as current and non-current assets/liabilities of a financial nature	**(g)**	1,519			(400)	(23)	(11)	1,085
Non-hedging derivative receivables	**(h)**	166			(14)	(19)	19	152
Total	**(i=f-g-h)**	**30,560**	**4,410**	**(4,607)**	**234**	**114**	**688**	**31,399**

The change in short-term payables to banks (191 million euros) is mainly due to the opening/closing of Repurchased credit agreements and bank credit lines.

The value of the paid and collected interest expense reported in the Statements of Cash Flows takes into account the movements relating to transactions in CCIRS derivatives to hedge underlying assets in both the assets component (collections) and the liabilities component (payments) without netting the positions.

(million euros)	2023	2022
Interest expense paid	(2,103)	(1,668)
Interest income received	597	562
Net total	**(1,506)**	**(1,106)**

To consider the components of CCIRS derivatives as a single transaction, a representation is given with interest flows in and out shown net. This approach gives the following results:

(million euros)	2023	2022
Interest expense paid	(1,741)	(1,297)
Interest income received	235	191
Net total	**(1,506)**	**(1,106)**

National Recovery and Resilience Plan (NRRP)

Introduction

In August 2022, the TIM Group ("TIM") signed agreements with Infratel ("Distributing Entity"), relating to the award of three infrastructure tenders in the sector, for public grants to finance investment projects concerning the construction of new telecommunications infrastructure and related access equipment.

In these three tenders, which contain a clawback clause[1], TIM has won about 50% of the lots planned for **ITALIA 1G Plan ("1G")** in temporary consortium (RTI) with FiberCop; all tenders for the **5G Backhauling Plan ("5G_BH")**; the entire tender for the **5G Coverage Plan ("5G_CO")** in temporary consortium (RTI) with INWIT and Vodafone.

The 3 calls involve investments and undertakings by TIM until June 30, 2026, with interim half-yearly milestones. The total value is approximately 3.6 billion euros, with a booked contribution of 2.5 billion euros. Specifically:

- the 1G tender is for eligible investments of 2.6 billion euros and a contribution of 1.6 billion euros (average financeable capex of 62%);
- the 5G_BH tender is for eligible investments of 0.8 billion euros and a contribution of 0.725 billion euros (average financeable capex of 89%);
- the 5G_CO tender is for eligible investments of 0.158 billion euros and a contribution of 0.142 billion euros (average financeable capex of 89%).

Failure to achieve the milestones will lead to a penalty notice — reducing the contribution to be granted — which is recoverable within the next two milestones (i.e. within 12 months).

ITALIA 1G Plan

The Plan anticipates the creation of 2.9 million "address numbers" (this number was halved following the walk-in stage) and involves: the adaptation of fiber telecommunications networks; connectivity for consumer, business and public administration (PA) customers; dedicated connections for PA customers; and XGSPON technology coverage with download connections starting from 1 Gb.

5G Backhauling Plan

The Plan involves equipping mobile radio sites with fiber optic backhauling (BH) and connectivity on a high-performance, reliable and enabling transport network for all 5G services. These infrastructures will be made available in their entirety to all 5G mobile radio operators.

5G Coverage Plan

The Plan involves building new network infrastructure for the development of 5G mobile radio services, with the objective of achieving a transmission speed, under usual peak traffic conditions, of at least 150 Mbit/s in downlink and 30 Mbit/s in uplink.

Summary of Tenders

Every week, TIM sends weekly Infratel the official project tracking, communicating the status of the addresses/sites and the progress of the projects. In addition, every two weeks, a technical works update (in Italian: SAL) is held with the Distributing Entity to discuss the above-mentioned progress, critical issues and shared solutions to ensure that the plans proceed as expected.

Finally, every six months (i.e. at each milestone), TIM provides the Distributing Entity with a final summary of the addresses and sites, the progress made, and the planning of the next milestone.

Tender Advances

On May 12, 2023, INWIT (as representative for the 5G Coverage Plan) asked Infratel to activate and disburse a 20% advance payment (pursuant to art. 35, paragraph 18 of the Procurement Code); this advance may (at the discretion of Infratel) be increased up to a maximum of 30% in application of the "NRRP Decree".

On May 25 and 26, 2023, TIM asked Infratel to activate and disburse an advance payment for Plan 1G (representing the temporary consortium) and Plan 5G_BH, in the same manner as described above.

On November 28, 2023, Infratel agreed to the request to advance 30% of the total grant awarded for the 1G and 5G Plans, setting forth a progressive recovery method whereby 40% of the payable grant would be applied at each technical works update (SAL) up to the amount advanced.

As a condition precedent for the disbursement of advances, bank/insurance guarantees were issued for the full amount advanced, plus statutory interest.

These guarantees were issued to TIM by banks and insurance companies on December 21 and 22, 2023.

---

1 It indicates the contractual provision that allows the monitoring of the profitability of the investment by quantifying any additional profits deriving from the comparison of active/passive revenues and the costs incurred for maintenance, reconfiguration, active equipment or other costs related to the provision of services.

The table below shows the amounts awarded, together with the advances for each plan:

(million euros)

Plan	Amount awarded	% requested	Advance	Advance to TIM	Advance to consortium (RTI)
1G	1,628	30 %	488		
5G_BH	725	30 %	217		
5G_CO	346	30 %		53	104
TOTAL	**2,699**		**705**	**53**	**104**
			758		

Guarantees issued:

(million euros)

Plan	Guarantee amount	Guarantee type	Total premiums/fees
1G	208	Bank	10
	317	Insurance	9
5G_BH	234	Insurance	10
5G_CO	112	Bank	57
TOTAL	**871**		**86**

On December 29, 2023, after receiving the advance from Infratel, INWIT transferred part of its advance allocated for the 5G_CO tender to TIM.

The advance for the 1G and 5G tenders was disbursed by Infratel on December 28, 2023. The advance for 5G_BH was credited on December 29, 2023. Due to a delay on the bank's side, the advance for the 1G tender was credited on January 2, 2024. Infratel requested that the value date be changed to December 29, 2023.

The advances credited for the 5G_BH and 5G_CO tenders are recognised in Cash and cash equivalents and those for the 1G tender in short-term financial receivables, whereas for all tenders a contra-entry has been recognised to Miscellaneous payables to Infratel for the advances received.

NOTE 18
FINANCIAL RISK MANAGEMENT

Financial risk management objectives and policies of the TIM Group

The TIM Group is exposed to the following financial risks in the ordinary course of its business operations:

- Market risk: stemming from changes in interest rates and exchange rates in connection with financial assets that have been originated and financial liabilities that have been assumed;
- Credit risk: representing the risk of non-fulfillment of obligations undertaken by the counterparty with regard to the liquidity investments of the Group;
- Liquidity risk: connected with the need to meet short-term financial commitments.

These financial risks are managed by:

- the establishment, at central level, of guidelines for directing operations;
- the work of an internal committee that monitors the level of exposure to market risks in accordance with pre-established general objectives;
- the identification of the most suitable financial instruments, including derivatives, to reach pre-established objectives;
- the monitoring of the results achieved;
- the exclusion of the use of financial instruments for speculative purposes.

The policies for the management and the sensitivity analyses of the above financial risks by the TIM Group are described below.

Identification of risks and analysis

The TIM Group is exposed to market risks, as a result of changes in interest rates and exchange rates, in the markets in which it operates or has bond issues, mainly in Europe, the United States and Latin America.

The financial risk management policies of the TIM Group are directed towards diversifying market risks, hedging exchange rate risk in full and minimizing interest rate exposure by an appropriate diversification of the portfolio, which is also achieved by using carefully selected derivative financial instruments.

The Group defines an optimum composition of its debt structure by balancing fixed and variable-rates and uses derivative financial instruments to achieve that debt composition. In consideration of the Group's operating activities, the optimum combination of medium/long-term non-current financial liabilities has been identified, on the basis of the nominal value, in the 65%-85% range for the fixed-rate component and in the 15%-35% range for the variable-rate component.

In managing market risk, the Group has adopted Guidelines on "Management and control of financial risk" and mainly uses the following financial derivatives:

- Interest Rate Swaps (IRS), to modify the profile of the original exposure to interest rate risks on loans and bonds, both fixed and variable;
- Cross Currency and Interest Rate Swaps (CCIRS) and Currency Forwards, to convert loans and bonds issued in currencies other than euro – principally in US dollars and British pounds – to the functional currencies of the operating companies.

Derivative financial instruments are designated as fair value hedges for managing exchange rate and interest rate risks on instruments denominated in currencies other than euro and for managing interest rate risk on fixed-rate loans in euros. Derivative financial instruments are designated as cash flow hedges when the objective is to pre-set the exchange rate of future transactions and the interest rate.

All derivative financial instruments are entered into with banking and financial counterparties with at least a “BBB-” rating from Standard & Poor’s or an equivalent rating and a non-negative outlook. The exposure to the various market risks can be measured by sensitivity analyses, as set forth in IFRS 7. This analysis illustrates the effects produced by a given and assumed change in the levels of the relevant variables in the various reference markets (exchange rates, interest rates and prices) on finance income and expenses and, at times, directly on equity. The sensitivity analysis was performed based on the suppositions and assumptions indicated below:

- sensitivity analyses were performed by applying reasonably likely changes in the relevant risk variables to the amounts in the consolidated financial statements at December 31, 2023;
- changes in value of fixed-rate financial instruments, other than derivatives, produced by changes in the reference interest rates, generate an impact on profit only when, in accordance with IAS 39 and IFRS 9, they are accounted for at their fair value through profit and loss. All fixed-rate instruments, which are accounted for at amortized cost, are not subject to interest rate risk as defined by IFRS 7;

- in the case of fair value hedge relationships, fair value changes of the underlying hedged item and of the derivative instrument, due to changes in the reference interest rates, offset each other almost entirely in the income statement for the year. As a result, these financial instruments are not exposed to the interest rate risk;
- changes in the value of designated financial instruments in a cash flow hedge relationship, produced by changes in interest rates, generate an impact on the debt level and on equity; accordingly, they are included in this analysis;
- the changes in value, produced by changes in the reference interest rates, of variable-rate financial instruments, other than derivatives, which are not part of a cash flow hedge relationship, generate an impact on the finance income and expenses for the year; accordingly they are included in this analysis.

Exchange rate risk – Sensitivity analysis

At December 31, 2023 (and also at December 31, 2022), the exchange rate risk of the Group's loans denominated in currencies other than the functional currency of the single companies' financial statements was hedged in full. Accordingly, a sensitivity analysis was not performed on the exchange rate risk.

Interest rate risk – Sensitivity analysis

The change in interest rates on the variable component of payables and liquidity may lead to higher or lower finance income and expenses, while changes in the level of the expected interest rate affect the fair value measurement of the Group's derivatives. In particular:

- with regard to derivatives that convert the liabilities contracted by the Group to fixed rates (cash flow hedging), in line with international accounting standards that regulate hedge accounting, the fair value (mark-to-market) measurement of such instruments is set aside in a specific unavailable Equity reserve. The combined change of the numerous market variables to which the mark-to-market calculation is subject between the transaction inception date and the measurement date renders any assumption about the trend of the variables of little significance. As the contract expiration date approaches, the accounting effects described will gradually be absorbed until they cease to exist;
- if at December 31, 2023 the interest rates in the various markets in which the TIM Group operates had been 100 basis points higher/lower compared to the actual rates, then higher/(lower) finance expenses, before the income tax effect, would have been recognized in the consolidated income statement of 42 million euros (53 million euros at December 31, 2022).

Allocation of the financial structure between fixed rate and variable rate

As for the allocation of the financial structure between the fixed-rate component and the variable-rate component, for both financial assets and liabilities, reference should be made to the following tables. These tables have been prepared by taking into account the nominal repayment/investment amount (since that amount expresses the effective interest rate exposure of the Group) and, as far as financial assets are concerned, the intrinsic nature (financial characteristics and duration) of the transactions under consideration rather than the stated contractual terms alone. Bearing that in mind, a transaction whose characteristics (short or very short time frame and frequent renewal) are such that the interest rate is periodically reset on the basis of market parameters, even though the contract does not call for re-fixing the interest rate (as in the case of bank deposits), has been considered in the variable rate category.

Total Financial liabilities (at the nominal repayment amount)

(million euros)	12.31.2023			12.31.2022		
	Rate fixed	Rate variable	Total	Rate fixed	Rate variable	Total
Bonds	16,812	1,234	18,046	15,564	1,988	17,552
Loans and other financial liabilities	5,463	6,057	11,520	5,414	6,516	11,930
Total non-current financial liabilities (including the current portion of medium/long-term financial liabilities)	**22,275**	**7,291**	**29,566**	**20,978**	**8,504**	**29,482**
Total current financial liabilities	**1,123**	**254**	**1,377**	**689**	**420**	**1,109**
Total	**23,398**	**7,545**	**30,943**	**21,667**	**8,924**	**30,591**

Total Financial assets (at the nominal investment amount)

(million euros)	12.31.2023			12.31.2022		
	Rate fixed	Rate variable	Total	Rate fixed	Rate variable	Total
Cash and cash equivalents	—	2,294	2,294	—	2,621	2,621
Securities	1,515	1,044	2,559	1,520	908	2,428
Other receivables	1,365	9	1,374	1,085	63	1,148
Total	**2,880**	**3,347**	**6,227**	**2,605**	**3,592**	**6,197**

With regard to variable-rate financial instruments, the contracts provide for revisions of the related parameters to take place within the subsequent 12 months.

Effective interest rate

As to the effective interest rate, for the categories where that parameter can be determined, such parameter refers to the original transaction net of the effect of any derivative hedging instruments.

The disclosure, which is provided by class of financial asset and liability, has been determined, for purposes of calculating the weighted average, using the carrying amount adjusted by accruals, prepayments, deferrals and fair value adjustments: this is therefore the amortized cost, net of accruals and any changes in fair value, as a consequence of hedge accounting.

Total Financial Liabilities

(million euros)	12.31.2023		12.31.2022	
	Adjusted carrying amount	Effective interest rate (%)	Adjusted carrying amount	Effective interest rate (%)
Bonds	18,019	5.68	17,504	4.67
Loans and other financial liabilities	13,467	5.62	13,530	4.78
Total	**31,486**	**5.65**	**31,034**	**4.72**

Total Financial assets

(million euros)	12.31.2023		12.31.2022	
	Adjusted carrying amount	Effective interest rate (%)	Adjusted carrying amount	Effective interest rate (%)
Cash and cash equivalents	2,294	2.83	2,621	0.93
Securities	2,559	5.16	2,428	1.28
Other receivables	828	0.84	188	3.11
Total	**5,681**	**3.59**	**5,237**	**1.17**

As for financial assets, the weighted average effective interest rate is not essentially influenced by the existence of derivatives.

As for market risk management using derivatives, reference should be made to Note 19 "Derivatives".

Credit risk

Exposure to credit risk for the TIM Group consists of possible losses that could arise from the failure of either commercial or financial counterparties to fulfill their assumed obligations. To measure this risk over time for impairment of financial assets (trade receivables due from customers included), the introduction of IFRS 9 required switching from the incurred loss model pursuant to IAS 39 to the expected credit loss model.

Such exposure mainly stems from general economic and financial factors, the potential occurrence of specific insolvency situations of some borrowers and other more strictly technical-commercial or administrative factors.

TIM Group's maximum theoretical exposure to credit risk is represented by the carrying amount of the financial assets and trade receivables recorded in the financial statements, excluding guarantees received, described in Note 25 "Disputes and pending legal actions, other information, commitments and guarantees".

Risk related to trade receivables is managed using customer scoring and analysis systems. For specific categories of trade receivables, the Group also makes use of factoring, mainly on a "non-recourse" basis.

Provision charges for bad debts are recorded for specific credit positions that have an element of individual risk. On credit positions that do not have such characteristics, provisions are raised by customer segment according to the average uncollectibility estimated on the basis of statistical indicators. Further details are provided in the Note "Trade and miscellaneous receivables and other current assets".

Financial assets other than trade receivables are written down for impairment on the basis of a general model which recognizes expected credit losses over the following 12 months, or over the residual life of the asset in the event of a substantial worsening of its credit risk. The expected credit loss is calculated based on the default probability and the percentage of credit that cannot be recovered in the event of a default (the loss given default).

The model adopted to calculate the expected credit loss is based on the Bloomberg Credit Risk Model, a model developed by Bloomberg which, starting from Merton's distance-to-default ("DD") concept, estimates the probability of default together with the recovery rate. At the same time, the loss given default is defined as the non-recoverable component of the post-default financial asset.

In particular, the DD - based on balance sheet data - is enriched with a series of additional information by country (macroeconomic, risk), business sector and individual company, as well as accounting adjustments aimed at ensuring uniformity of the model's outputs; finally, through a non-linear function of the DD, the default probability is obtained.

In order to improve credit risk management and relieve pressure on working capital, with specific reference to the offers for the Consumer and Small Business market involving the option of paying for products by installments, starting 2021, the company TIMFin has been operating, the result of the corporate joint venture between Santander Consumer Bank (SCB) and TIM.

Moreover, as regards credit risk relating to the asset components which contribute to the determination of "Net financial debt", it should be noted that the management of the Group's liquidity is guided by conservative criteria and is principally based on the following:

- Money market management: the investment of temporary excess cash resources;
- Bond portfolio management: the investment of medium-term liquidity, as well as the improvement of the average yield of the assets.

In order to mitigate the risk of the non-fulfillment of the obligations undertaken by the counterparty, deposits of the European companies are made with leading banking and financial institutions rated no lower than investment grade and with a non-negative outlook, and investments by the companies in South America are made with leading local counterparties. Moreover, deposits are made generally for periods of less than three months. With regard to other temporary investments of liquidity, there is a bond portfolio in which the investments have a low risk level. All investments have been carried out in compliance with the Group Guidelines on "Management and control of financial risk".

In order to minimize credit risk, the Group also pursues a diversification policy for its investments of liquidity and allocation of its credit positions among different banking counterparties. Consequently, there are no significant positions with any one single counterparty.

Liquidity risk

The Group pursues the objective of achieving an "adequate level of financial flexibility", which is expressed by maintaining a current treasury margin to cover the refinancing requirements at least for the next 12 months with irrevocable bank lines and liquidity.

At December 31, 2023, the liquidity margin available for the TIM Group is 8,695 million euros, with a decrease of 306 million euros with respect to end 2022 (9,001 million euros).

19% of gross financial debt at December 31, 2023 (nominal repayment amount) will become due in the next 12 months.

Current financial assets at December 31, 2023, together with unused committed bank lines, are sufficient to fully cover the Group’s financial liabilities due for the next 24 months.

The following tables report the contractual cash flows, not discounted to present value, relating to gross financial debt at nominal repayment amounts and the interest flows, determined using the terms and the interest and exchange rates in place at December 31, 2023. The portions of principal and interest of the hedged liabilities includes both the disbursements and the receipts of the related hedging instruments. Specifically, the interest portions of "Loans and other financial liabilities" also include those relating to derivatives hedging for both loans and bonds.

Financial liabilities – Maturities of contractually expected disbursements

(million euros)		maturing by 12/31 of the year: 2024	2025	2026	2027	2028	After 2028	Total
Bonds	Principal	2,867	2,220	1,970	1,470	3,214	6,305	18,046

Market value of derivative instruments

In order to determine the fair value of derivatives, the TIM Group uses various valuation models.

The mark-to-market calculation is determined by the present value discounting of the interest and notional future contractual flows using market interest rates and exchange rates.

The notional amount of IRS does not represent the amount exchanged between the parties and, therefore, is not a measurement of credit risk exposure, which, instead, is limited to the amount of the difference between the interest rates paid/received.

The market value of CCIRSs, on the other hand, also depends on the differential between the reference exchange rate at the date of signing the contract and the exchange rate at the date of measurement, since CCIRSs involve the exchange of the reference interest and principal, in the respective denomination currencies.

The options are measured according to the Black & Scholes or Binomial models and involve the use of various measurements factors, such as: the lifetime horizon of the option, the risk-free rate of return, current price, volatility and any cash flows (e.g. dividend) of the underlying financial instrument, and the exercise price.

NOTE 19
DERIVATIVES

For hedge accounting we continued to apply the rules established by IAS 39.

Derivative financial instruments are used by the TIM Group to hedge its exposure to foreign exchange rate risk, to manage interest rate risk and to diversify the parameters of debt so that costs and volatility can be reduced to within predetermined operational limits.

Derivative financial instruments existing at December 31, 2023 are principally used to manage debt positions. They include interest rate swaps (IRSs) used to reduce the interest rate exposure of fixed-rate bank loans and bonds, as well as cross currency and interest rate swaps (CCIRSs), currency forwards and foreign exchange options to convert the loans/receivables secured in currencies different from the functional currencies of the various Group companies.

IRS transactions, provide for or may entail, at specified maturity dates, the exchange of flows of interest, calculated on the notional amount, at the agreed fixed or variable rates.

The same also applies to CCIRS transactions which, in addition to the settlement of periodic interest flows, may provide for the exchange of principal, in the respective currencies of denomination, at maturity and possibly spot.

Hedges: economic relationship between underlying instrument and derivatives

Hedging relationships recorded in hedge accounting at 12/31/2023 belong to a single item: hedging of cash flows from income flows of bond issues.

The hedged risk is represented by the variability in cash flows (and the repayment of the nominal amount) generated by exchange rates; hedging comprises combinations of IRS and CCIRS that synthetically transform fixed rate foreign currency income flows into fixed rate euro flows. In this case, exchange rate fluctuations will usually produce contrary effects on the underlying asset and on the derivative, as the asset leg of the latter faithfully reflects the underlying asset, while the liability leg is denominated in euro and is therefore insensitive to the exchange rate.

Hedges: determination of the hedge ratio

The types of hedging implemented by the Group require the adoption of a hedge ratio equal to 1:1, as the types of risk hedged (interest rate and exchange rate risks) are such as to generate economic effects in the underlying instruments that can only be offset by the same notional quantities of derivative instruments.

Hedges: potential sources of ineffectiveness

The contractualization of derivatives to hedge financial risks takes place at arm's length and aims to completely neutralize the effects produced by such instruments.

However, in practice, hedges (although financially perfect) may not guarantee an absolute accounting effectiveness due to the many counterparty banks involved, to the peculiar nature of certain derivatives in terms, for example, of fixing and/or indexing of variable parameters, and to the possible imperfect coincidence between critical terms.

The first table indicates total financial derivatives of the TIM Group at December 31, 2023 and 2022; in compliance with standard IFRS 7, notional amounts are shown with reference to all the derivative instruments involved in the hedges.

The following tables break down financial derivatives by type of risk for each kind of hedging, separating financial assets and liabilities. For CCIRS, the notional amount refers to the contractual value in euros, for IRS in a currency other than the euro, the value is indicated at the market exchange rate.

Type (million euros)	Hedged risk	Notional amount at 12/31/2023	Notional amount at 12/31/2022	Mark to Market Spot* (Clean Price) at 12.31.2023	Mark to Market Spot* (Clean Price) at 12/31/2022
Interest rate swaps	Interest rate risk		300	—	—
Cross Currency and Interest Rate Swaps (CCIRS)	Interest rate risk and currency exchange rate risk	—	—	—	—
Total Fair Value Hedge Derivatives		**—**	**300**	**—**	**—**
Interest rate swaps	Interest rate risk	4,474	4,994	130	249

Total TIM Group's Derivatives		**10,520**	**13,116**	**591**	**1,042**

* Spot Mark-to-market above represents the market measurement of the derivative net of the accrued portion of the flow in progress.

The positions in non-hedge accounting derivatives also include IRS Euros for a total notional amount of 1,400 million euros; specifically, these are fair value hedges of bond loans in euros, maturing in January 2024 and which were discontinued in 2021.

In the same item the following are also noted:

- the value - equal to a fair value of 15 million euros (liabilities) - of the rights envisaged in the Transaction Agreement in the favor of Teemo Bidco Sarl, as minority shareholder, under the scope of the FiberCop transaction;
- the value of the right held by TIM Brasil to subscribe shares of the Brazilian C6 Bank - of 94 million euros - on the basis of a commercial agreement signed by the two companies in March 2020.

USD	1,000	Jan-24	Nov-33	6.375%	Semiannuall	849	5.994%
USD	1,500	Jan-24	May-24	5.303%	Semiannuall	1,321	4.180%
USD	1,000	Jan-24	Sept-34	6.000%	Semiannuall	794	4.332%
USD	1,000	Jan-24	July-36	7.200%	Semiannuall	791	5.884%
USD	1,000	Jan-24	Jun-38	7.721%	Semiannuall	645	7.451%

* Income cash flows are denominated in USD and calculated on a notional amount of USD 187.6 million.
** Hedging of the sole income cash flow following a step-up on the loan.

For hedge accounting purposes, the Volatility Risk Reduction (VRR) Test was chosen to test the retrospective and prospective effectiveness of all hedges. This test assesses the ratio between the portfolio risk (meaning the derivative and the item hedged) and the risk of the hedged item taken individually. In essence, the portfolio risk must be significantly lower than the risk of the hedged item.

NOTE 20

SUPPLEMENTARY DISCLOSURES ON FINANCIAL INSTRUMENTS

Measurement at fair value

For the purposes of the comparative information between the carrying amounts and fair value of financial instruments, required by IFRS 7, the majority of the non-current financial liabilities of the TIM Group consist of bonds, whose fair value is directly observable in the financial markets, as they are financial instruments that due to their size and diffusion among investors, are commonly traded on the relevant markets (see the Note "Non-current and current financial liabilities"). For other types of financing, however, the following assumptions have been made in determining fair value:

- for variable-rate loans, the nominal repayment amount has been assumed; for fixed-rate loans:
- for fixed-rate loans, the present value of future cash flows at the market interest rates of December 31, 2023 has been assumed;
- the carrying amount has been used for some types of loans granted by government institutions for social development purposes, for which fair value cannot be reliably calculated.

Lastly, for the majority of financial assets, their carrying amount is a reasonable approximation of their fair value, since these are short-term investments that are readily convertible into cash.

The fair value measurement of the financial instruments of the Group has been classified in the three levels set out in IFRS 7.In particular, the fair value hierarchy introduces the following levels of input:

- Level 1: quoted prices in active markets;
- Level 2: prices calculated using observable market inputs;
- Level 3: prices calculated using inputs that are not based on observable market data.

The following tables contain, for assets and liabilities at December 31, 2023 and December 31, 2022 and in accordance with the categories established by IFRS 9, the supplementary disclosures on financial instruments required by IFRS 7 and the schedules of gains and losses. They do not include Discontinued operations/Non-current assets held for sale and Liabilities directly associated with Discontinued operations/Non-current assets held for sale.

The financial instruments belonging to hierarchy level 3 of fair value are represented by the following Other investments recognized as Non-current assets, for which directly or indirectly observable prices on the market are not available:

- Northgate CommsTech Innovations Partners L.P.;
- UV T-Growth;
- Other minor companies.

Northgate CommsTech Innovations Partners L.P. and UV-T Growth was measured based on the latest available Net Asset Values reported by the fund managers.

The other minor companies were measured on the basis of an analysis, deemed reliable, of their main assets and liabilities.

The profit/(loss) recognized in Other components of the Consolidated Statements of Comprehensive Income were recognized within the scope of the Reserve for financial assets measured at fair value through other comprehensive income.

Note that financial liabilities include a financial instrument for an amount of 15 million euros, belonging to hierarchy level 3 of fair value, for which directly or indirectly observable prices on the market are not available. This financial liability refers to the rights envisaged in the Transaction Agreement in the favor of Teemo Bidco Sarl, as minority shareholder, under the scope of the FiberCop transaction.

The measurement of the economic value of the financial liability has been taken using a valuation model defined internally by TIM. Through an econometric approach, the correlation has been first estimated between the targets set at a national level and a series of macro economic and social-demographic variables. Then taking into account the uncertainty as to how these variables will evolve and the market share of FiberCop, through Monte Carlo simulation, a series of possible developments of the phenomenon was calculated and the expected value of the financial liability, determined.

Total	**(a+b)**	**792**	**40**	**(296)**	**(21)**	**515**
of which:						
non-current portion		684				511
current portion (*)		108				4

(*) The current portion refers only to Other provisions for employee benefits.

The **Provision for employee severance indemnities** refers to only Italian companies and was down 57 million euros. The decreases of 81 million euros relate to indemnities paid during the year to employees who terminated employment or for advances.

The changes recorded in “Increases/Present value” are as follows:

(million euros)	2023	2022
(Positive)/negative effect of curtailment	—	—
Current service cost (*)	—	—
Finance expenses	17	12
Net actuarial (gains) losses for the year	8	(73)
Total	**25**	**(61)**
Effective return on plan assets	there are no assets servicing the plan	

(*) The portions intended for the INPS Treasury Fund or for the supplementary pension funds have been recorded under “Employee benefits expenses” under “Social security expenses”. The latter account is used only for the severance indemnity expenses of companies with less than 50 employees.

The net actuarial losses recognized at December 31, 2023 amounted to 8 million euros (net actuarial gains of 73 million euros in 2022), and are essentially connected with both staff turnover and changes to the technical-economic parameters used in the valuation: the inflation rate forecast went from 2.30% at December 31, 2022 to 2.00% at December 31, 2023; the discount rate decreased, going from the 3.63% used at December 31, 2022 to 3.08% at December 31, 2023.

According to Italian law, the severance indemnity to which each employee is entitled depends on the period of service and must be paid when the employee leaves the company. The severance indemnity due upon termination of employment is calculated on the basis of the period of employment and the taxable compensation of each employee. This liability is adjusted annually based on the official cost-of-living index and legally-set interest. The liability is not associated with any vesting condition or period or any funding obligation; accordingly, there are no assets servicing the provision. The liability is recognized net of the partial prepayments of the provision and payments of the amounts obtained by employees for the reasons permitted by the applicable regulations.

Under the regulations introduced by Italian Legislative Decree 252/2005 and Law no. 296/2006 with which, for companies with at least 50 employees, the severance indemnities accruing from 2007 are assigned, as elected

by the employees, to either the INPS Treasury Fund or to supplementary pension funds and take the form of a "defined contribution plan".

However, for all companies, the revaluations of the amounts in the provision for employee severance indemnities existing at the election date, and also the amounts accrued and not assigned to supplementary pension plans for companies with less than 50 employees, are retained in the provision for employee severance indemnities. In accordance with IAS 19, the provision has been recognized as a "defined benefit plan".

In application of IAS 19, employee severance indemnities have been calculated using the "Projected Unit Credit Method" as follows:

- the future possible benefits which could be paid to each employee registered in the program in the event of retirement, death, disability, resignation etc. have been projected on the basis of a series of financial assumptions (cost-of-living increases, interest rate, increase in compensation etc.). The estimate of future benefits includes any increases for additional service seniority, as well as the estimated increase in the compensation level at the measurement date – only for employees of companies with less than 50 employees during the year 2006;
- the average present value of future benefits has been calculated, at the measurement date, on the basis of the annual interest rate adopted and of the probability that each benefit actually has to be paid;
- the liability of each company concerned has been calculated as the average present value of future benefits that will be generated by the existing provision at the measurement date, without considering any future accruals (for companies with at least 50 employees during the year 2006) or by identifying the amount of the average present value of future benefits which refer to the past service already accrued by the employee in the company at the measurement date (for the others), i.e. adopting the "service pro-rate".

The following assumptions have been made:

Probability of disability	INPS tables divided by age and sex	INPS tables divided by age and sex
Probability of resignation:		
up to 40 years of age	2.00%	1.00%
from 41 to 50 years of age	2.00%	0.50%
from 51 to 59 years of age	1.00%	0.50%
from 60 to 64 years of age	None	0.50%
aged 65 and over	None	None
Probability of retirement	100% on achievement of the AGO requirements aligned with D.L. 4/2019	
Probability of receiving at the beginning of the year an advance from the provision for severance indemnities accrued equal to 70%	1.5% per annum	1.5% per annum

The application of the above assumptions resulted in a liability for employee severance indemnities of 496 million euros at December 31, 2023 (553 million euros at December 31, 2022).

Reported below is a sensitivity analysis for each significant actuarial assumption adopted to calculate the liability as at year end, showing how the liability would have been affected by changes in the relevant actuarial assumption that were reasonably possible at that date, stated in amounts.

The weighted average duration of the obligation of the Parent amounted to 8.3 years.

CHANGES IN ASSUMPTIONS	**Amounts** (million euros)
Turnover rate:	
+0.25 p.p.	—
-0.25 p.p.	—
Annual inflation rate:	
+0.25 p.p.	(15)
-0.25 p.p.	14
Annual discount rate:	
+0.25 p.p.	19
-0.25 p.p.	(20)

The **Provision for pension and other plans** amounted to 15 million euros at December 31, 2023 (16 million euros at December 31, 2022) and mainly represented pension plans in place at foreign companies of the Group.

Provisions for termination benefit incentives and corporate restructuring amounted to 4 million euros at December 31, 2023, decreasing in 2023 by 219 million euros, mainly due to staff departures and the reclassification to debt of amounts not yet paid in relation to plans already set aside in previous years by Italian companies in the Domestic Business Unit.

NOTE 22 PROVISIONS

A decrease of 69 million euros compared to December 31, 2022. The figure breaks down as follows:

(million euros)	**12.31.2022**	Increase	Taken to income	Used directly	Exchange differences and other changes	**12.31.2023**
Provision for taxation and tax risks	**89**	18		(3)	25	**129**
Provision for restoration costs	**334**	30	(1)	(11)	(42)	**310**
Provision for legal disputes	**444**	92		(76)	12	**472**
Provision for commercial risks	**362**	57	4	(174)	2	**251**
Provision for risks and charges on investments and corporate-related transactions	**11**	—	—		—	**11**
Other provisions	**14**	1		(3)	—	**12**
Total	**1,254**	**198**	**3**	**(267)**	**(3)**	**1,185**
of which:						
non-current portion	**910**					**679**
current portion	**344**					**506**

The non-current portion of provisions for risks and charges mainly relates to some of the provision for commercial risks, the provision for legal disputes and the provision for restoration costs. More specifically, in accordance with accounting policies, the total amount of the provision for restoration costs is calculated by re-measuring the amounts for which a probable outlay is envisaged, based on the estimated inflation rates for the individual due dates, and subsequently discounted to the reporting date based on the average cost of debt, taking into account expected cash outflows.

The **provision for taxation and tax risks** increased by 40 million euros compared to December 31, 2022.

The **provision for restoration costs** related to the provision for restoration of leased real estate and sites used for mobile telephony and the dismantling of tangible assets (in particular: batteries, wooden poles); it is mainly attributable to the Parent Company TIM S.p.A. (158 million euros), the FiberCop company (127 million euros) and the Brazil Business Unit (24 million euros).

The **provision for legal disputes** included the provision for litigation with other counterparties and employees. The amount at December 31, 2023 included 333 million euros for the Domestic Business Unit and 139 million euros for the Brazil Business Unit.

The **provision for commercial risks** relates to the Domestic Business Unit and mainly the Parent Company TIM S.p.A.. In 2023, it decreased by 111 million euros, mainly in relation to the performance of the provision for contractual risks for onerous contracts (IAS 37) of the Parent Company TIM S.p.A., relating to contracts with certain counterparties for offer of multimedia content and for a connectivity agreement and representative of the net present value of the negative margin connected with these partnerships.

In particular, during the year 2023, the provision for contractual risks for onerous contracts of TIM S.p.A. decreased by 70 million euros mainly as a result of a utilisation of 98 million euros of the provisions for risks recognised in the years 2021 and 2022 only partially offset by the update, made in the year 2023, of the provision for risks related to an existing long-term relationship.

The **provision for risks and charges on investments and corporate-related transactions** is unchanged from December 31, 2022.

Other provisions for risks and charges come to 12 million euros and are essentially attributable to the Domestic Business Unit.

NOTE 23

MISCELLANEOUS PAYABLES AND OTHER NON-CURRENT LIABILITIES

This item rose by 180 million euros compared to December 31, 2022. The figure breaks down as follows:

(million euros)		12.31.2023	12.31.2022
Miscellaneous payables (non-current)			
Payables to social security agencies		595	400
Income tax payables (*)		—	—
Other payables		24	58
	(a)	**619**	**458**
Other non-current liabilities			
Deferred revenues from customer contracts (Contract liabilities)		103	87
Other deferred revenue and income		329	354
Capital grants		275	247
	(b)	**707**	**688**
Total	(a+b)	**1,326**	**1,146**

(*) Analyzed in the Note "Income tax expense".

Miscellaneous payables (non-current) include:

- **payables to social security agencies** amounting to 595 million euros, mainly relating to the non-current debt position with INPS for the application of the agreements signed with the trade unions relating to the application of Article 4 of Law no. 92 of June 28, 2012 and former Art. 41, subsection 5bis of Italian Legislative Decree no. 148/2015 (for further details see the Note "Employee benefits expenses"). This debt position (non-current and current portion) is as follows:

(million euros)	12.31.2023	12.31.2022
Non-current payables		
Due from 2 to 5 years after the end of the reporting period	538	385
Due beyond 5 years after the end of the reporting period	57	15
	595	**400**
Current payables	**290**	**244**
Total	**885**	**644**

- **other payables** equal to 24 million euros at December 31, 2023 referring mainly to the Brazil Business Unit.

The **other non-current liabilities** include:

- **Deferred revenues from contracts with customers (contract liabilities)** of 103 million euros (87 million euros at December 31, 2022) which are reversed to the income statement according to the duration of the contractual obligations between the parties, averaging 24 months; therefore, the balance as at December 31, 2023 will be reversed to the income statement generally by 2025. In particular, the item includes:
  - TIM S.p.A. deferred revenues for subscription charges and rent and maintenance payments (52 million euros);
  - TIM S.p.A. deferred revenues for network access subscription charges (19 million euros);
  - Deferred revenues of TIM S.p.A. for outsourcing charges (18 million euros);
  - deferred revenues from activation and installation fees for new contracts with TIM S.p.A. customers. (3 million euros): in this regard, it is noted that under IFRS 15 activation/installment revenues are allocated to other contract obligations and recognized throughout the period of performance of the contract, as they do not relate to separate performance obligations.
- **Other deferred revenue and income** totaling 329 million euros; the item consisted of the non-current portion (approx. 107 million euros) of the deferred gain on the sale and lease-back of telecommunication towers by the Brazil Business Unit; this item also includes deferred revenues related to agreements for the sale of the transmission capacity.
- **Capital grants** of 275 million euros: the item represents the component still to be released to the income statement based on the remaining useful life (estimated at around 18 years) of the assets that the grants refer to and is mainly connected to the realization of the infrastructures on the Ultrabroadband-UBB and Broadband-BB projects.

NOTE 24

TRADE AND MISCELLANEOUS PAYABLES AND OTHER CURRENT LIABILITIES

This item rose by 1,185 million euros compared to December 31, 2022. The figure breaks down as follows:

(million euros)		12.31.2023	*of which Financial Instruments*	12.31.2022	*of which Financial Instruments*

	(d)	**922**	***105***	**935**	***133***
Total	**(a+b+c+d)**	**9,384**	***5,647***	**8,199**	***5,717***

Further details on Financial Instruments are provided in Note 20 "Supplementary disclosure on financial instruments".

Trade payables amounting to 5,441 million euros (5,295 million euros at December 31, 2022), mainly refer to:

- TIM S.p.A. (3,941 million euros); the increase on December 31, 2022 reflects the dynamics of payments relating to bills payable;
- Brazil Business Unit (943 million euros);

As of December 31, 2023, trade payables due in more than 12 months amounted to 44 million euros (59 million euros as of December 31, 2022) and are mainly represented by payables of the Brazil Business Unit for the renewal of telecommunications licenses.

Tax payables amounted to 194 million euros and mainly consisted of both the tax payables of the Brazil Business Unit (109 million euros) and the payables of TIM S.p.A., mainly relating to the amount owed to the tax authorities for tax payables withheld as withholding agent (63 million euros) and the amount payable for the government concession tax (2 million euros).

Miscellaneous payables mainly comprise:

- the current debt position towards INPS in view of the application of the agreements signed with the trade unions regarding the application of Art. 4 of Italian Law no. 92 of June 28, 2012 and former Art. 41, subsection 5bis, Italian Legislative Decree no. 148/2015;
- advances on State grants to the parent company TIM S.p.A. for projects under the National Recovery and Resilience Plan (NRRP) amounted to 758 million euros. For more details, see Note 17 “Net financial debt”.
- the current portion of employee benefits and provisions amounted to 510 million euros;

  It should also be noted that in October 2023, the Adjusted Closing Price (Adjusted Closing Price) was finalized related to the acquisition by the Brazilian subsidiary TIM S.A. of part of the mobile telephony assets of the Oi group with the consequent extinction of the debt position of the buyer (134 million euros

as of December 31, 2022). Further details are provided in the Note 25 “Disputes and pending legal actions, other information, commitments and guarantees”.

Other current liabilities amounted to 922 million euros at December 31, 2023 (935 million euros at December 31, 2022). They break down as follows:

- **Liabilities arising from contracts with customers (Contract liabilities)**, amounted to 829 million euros. This item includes liabilities to customers related to the obligations of Group companies to transfer goods and services for which they have received consideration. Liabilities with customers, generally with a maturity of up to 12 months, are shown below;

  In particular:

  - **contract liabilities** amounting to 7 million euros; the item includes bundle contracts (good and services packages) with performance obligations with different timing for the recognition of revenues and consequent deferral of the fees originally recognized;
  - **customer-related items**, equal to 400 million euros; the item includes trade payables following contractual relationships, such as the payable for prepaid traffic and the subscription charges charged in advance;
  - **progress payments and advances** equal to 53 million euros relating to trade payables following prepayments, such as deposits made by subscribers for telephone calls;
  - **Deferred revenue from contracts with customers, amounting to** 369 million euros, essentially comprising the Parent Company's deferred revenue for:
    - rent and maintenance (194 million euros);
    - interconnection charges (111 million euros);
    - subscription charges (46 million euros);
    - activation and installation of new contracts with customers (4 million euros).
- **Other deferred revenue and income** amounted to 50 million euros. They mainly refer to deferred revenues deriving from contracts for the sale of transmission capacity.
- **Others**, amounting to 43 million euros. They mainly refer to the Parent Company and relate to payables for advances on network works in progress.

NOTE 25

DISPUTES AND PENDING LEGAL ACTIONS, OTHER INFORMATION, COMMITMENTS AND GUARANTEES

A description is provided below of the most significant judicial, arbitration and tax disputes in which TIM Group companies are involved at December 31, 2023, as well as those that came to an end during the period.
The TIM Group has posted liabilities totaling 366 million euros for those disputes described below where the risk of losing the case has been considered probable.

It should be noted that for some disputes described below, on the basis of the information available at the closing date of the Annual Financial Report and with particular reference to the complexity of the proceedings, to their progress, and to elements of uncertainty of a technical-trial nature, it was not possible to make a reliable estimate of the size and/or times of possible payments, if any. Moreover, in those cases in which disclosure of information on a dispute could seriously jeopardize the position of TIM or its subsidiaries, only the general nature of the dispute is described.

Lastly, as regards the proceedings with the Antitrust Authority, please note that based on Article 15, subsection 1 of Italian Law 287/1990 ("Antitrust regulations"), the Authority has the right to impose an administrative sanction calculated on the turnover of the Group in cases of breaches considered serious.

(a) Significant disputes and pending legal actions

International tax and regulatory disputes

At December 31, 2023, companies belonging to the Brazil Business Unit were involved in tax or regulatory disputes, the outcome of which is estimated as a possible loss totaling around 19.2 billion reais (18.2 billion reais at December 31, 2022), corresponding to approximately 3.6 billion euros at December 31, 2023. The main types of litigation are listed below, classified according to the tax to which they refer.

Federal taxes

In relation to the federal level of taxation, the following disputes should be noted:

- disallowance of the tax effects of the merger between the companies of the TIM Brasil Group;
- denial of the SUDENE regional tax benefit, due to alleged irregularities in the management and reporting of the benefit itself;
- challenges regarding offsetting against previous tax losses;
- further challenges regarding the tax deductibility of the amortization of goodwill;
- imposition of income tax on certain types of exchange rate differences;
- imposition of withholding taxes on certain types of payments to foreign entities (for example, payments for international roaming);
- further challenges regarding offsets made between taxes payable and group company credit positions.

Overall, the risk for these cases, considered to be possible, amounts to 3.1 billion reais (3.3 billion reais at December 31, 2022).

State taxes

Within the scope of the state levy, there are numerous challenges regarding ICMS, and in particular:

- challenges concerning the reduction of the tax base due to discounts granted to customers, as well as challenges regarding the use of tax credits declared by group companies, with respect to the return of loaned telephone handsets, and following the detection of contract frauds to the detriment of the companies;
- subjection of some fees owed to group companies and classified by them as fees for services other than telecommunications to ICMS;
- challenges over the use of the "PRO-DF" tax benefit originally granted by some States, and subsequently declared unconstitutional (the challenge refers to the actual credit due to ICMS, declared by the TIM Cellular, now incorporated into TIM S.A., on the basis of the aforementioned tax benefits);
- challenges relating to the use of ICMS credits claimed by Group companies as a result of the acquisition of tangible assets, and in relation to the supply of electricity to the companies, as well as in application of the provisions on acting as a withholding agent;
- fines imposed on group companies for irregularities in tax return compliance;
- challenges of ICMS credits in relation to acting as a withholding agent, applicable when equipment is bought and distributed in different States;

- challenges of ICMS credits deriving from the “special credit” recognized by the company to its prepaid customers, against subsequent top-ups.

Overall, the risk for these cases, considered to be possible, amounts to 10.4 billion reais (9.6 billion reais at December 31, 2022).

Municipal taxes

Among disputes classified with a "possible" degree of risk, there are some relating to municipal taxes for a total amounting to around 1.7 billion reais (around 1.6 billion reais at December 31, 2022).

FUST and FUNTTEL

The main challenges about contributions to the regulatory body (Anatel), and in particular in terms of FUST and FUNTTEL, concern whether or not interconnection revenues should be subject to these contributions.

Overall, the risk for these cases, considered to be possible, amounts to 4.0 billion reais (3.7 billion reais at December 31, 2022).

Golden Power Case

In August 2017 the Prime Minister's office brought proceedings against TIM (as well as Vivendi) in order to verify the fact that TIM has an obligation to notify, pursuant to the “Golden Power” law, Vivendi’s acquisition of corporate control of TIM and the strategic assets it holds. In September 2017, the proceedings in question concluded by affirming that this obligation did exist for TIM with effect from May 4, 2017 (the date of the Shareholders’ Meeting that renewed TIM’s corporate boards).

As a result of this decision by the Presidency of the Council of Ministers, new and separate administrative proceedings started for the imposition on TIM of the financial penalty laid down by the Golden Power law for non-compliance with the aforementioned obligation to notify. These proceedings ended on May 8, 2018 with the imposition of a financial penalty of 74.3 million euros.

The Company, is convinced that it has the legal arguments to demonstrate that it was under no obligation to notify the control exercised over it by Vivendi, filed separate extraordinary appeals to the President of the Republic to request the abrogation of the order of September 2017 and before the Lazio Regional Administrative Court (TAR) against the aforementioned order of May 8, 2018, which imposed a financial penalty, requesting its precautionary suspension. As regards the appeal to the Lazio Regional Administrative Court (TAR) against the provision of May 8, 2018, which imposed the financial penalty, the TAR, in upholding in July 2018 the interim petition lodged by the Company, has suspended payment of the penalty. Subsequently, with a non-definitive ruling in May 2019, the Lazio Regional Administrative Court (TAR): (i) accepted TIM's request for provisional measures to suspend the fine conditional on the offer of the guarantee; (ii) granted the suspension of the procedure to wait for the final judgment in the (injurious) case pending before the President of the Republic regarding the notification obligation, pursuant to the Golden Power provisions; (iii) rejected the procedural objections raised by the defendant administrations.

It should also be noted that in May 2018 a guarantee bond for 74.3 million euros was issued in favor of the Presidency of the Council. TIM had been requested to submit such a bond for its application to Lazio TAR for precautionary suspension of the collection of the fine imposed for alleged breach of Art. 2 of Decree Law 21 of March 15, 2012 (the “Golden Power” law). The guarantee bond was subsequently renewed up to November 30, 2024.

On September 13, 2023, TIM was notified that more than five years had elapsed since the appeal was filed, in accordance with Article 82 of the Code of Civil Procedure. TIM therefore requested that a public hearing be held to discuss the appeal. The public hearing was scheduled for January 10, 2024. Following the hearing, by way of order 709 of January 15, 2024, the Regional Administrative Court upheld the suspension of the proceedings, as previously dictated by non-final judgment 6310 of May 23, 2019, and upheld the suspension of the enforcement of the measure under the conditions dictated by that ruling, all of which pending the final judgment in the (injurious) case which remains pending before the President of the Republic regarding the duty to notify in accordance with the Golden Power provisions.

Furthermore, TIM appealed before the Lazio TAR and then appealed before the Council of State against the provision with which Consob, on September 13, 2017, affirmed Vivendi's control over TIM. In December 2020, the Council of State issued a final judgment upholding TIM’s appeal and canceling the provision by Consob, a significant premise to the entire subsequent proceedings of the Presidency of the Council in relation to the obligation to Golden Power notification as described above. On June 14, 2021, Consob submitted an extraordinary appeal to the Court of Cassation on grounds of jurisdiction; TIM filed an appearance, objecting that the appeal is unlawful and inadmissible. Following the hearing in chambers held on October 11, 2022, on January 24, 2023, the order was published whereby the Court of Cassation declared that Consob’s petition was unacceptable, consequently ordering it to pay the dispute expenses.

Antitrust Case A428

At the conclusion of case A428, in May 2013, AGCM (the Italian Competition Authority) imposed two administrative fines of 88,182,000 euros and 15,612,000 euros on TIM for abuse of its dominant position. The Company allegedly (i) hindered or delayed activation of access services requested by OLOs through unjustified and spurious refusals; (ii) offered its access services to final customers at economic and technical conditions that allegedly could not be matched by competitors purchasing wholesale access services from TIM itself, only in those geographic areas of the Country where disaggregated access services to the local network are available, and hence where other operators can compete more effectively with the Company.

TIM appealed against the decision before the Regional Administrative Court (TAR) for Lazio, applying for payment of the fine to be suspended. In particular, it alleged: infringement of its rights to defend itself in the proceedings, the circumstance that the organizational choices challenged by AGCM (the Italian Competition Authority) and allegedly at the base of the abuse of the OLO provisioning processes had been the subject of specific rulings made by the industry regulator (AGCom), the circumstance that the comparative examination of the internal/external provisioning processes had in fact shown better results for the OLOs than for the TIM

retail department (hence the lack of any form of inequality of treatment and/or opportunistic behavior by TIM), and (regarding the second abuse) the fact that the conduct was structurally unsuitable to reduce the margins of the OLOs.

In May 2014, the judgment of the Lazio TAR was published, rejecting TIM's appeal and confirming the fines imposed in the original order challenged. In September 2014 the Company appealed against this decision.

In May 2015, with the judgment no. 2497/15, the Council of State found the decision of the court of first instance did not present the deficiencies alleged by TIM and confirmed the AGCM (the Italian Competition Authority) ruling. The company had already proceeded to pay the fines and the accrued interest.

In a decision notified in July 2015, AGCM (the Italian Competition Authority) started proceedings for non-compliance against TIM, to ascertain if the Company had respected the notice to comply requiring it to refrain from undertaking behaviors analogous to those that were the object of the breach ascertained with the concluding decision in case A428 dated May 2013.

On January 13, 2017, TIM was served notice of AGCM's final assessment, which recognized that TIM had complied in full with the A428 decision and, as such, the conditions for the imposition of a fine for non-compliance were not present.

AGCM (the Italian Competition Authority) recognizes, furthermore, that TIM's behavior subsequently to the 2013 proceedings has been directed towards continuous improvement of its performance in the supply of wholesale access services concerning not only the services which were the subject of the investigation, but also the new Ultrabroadband access services. In assessing compliance, AGCM (the Italian Competition Authority) recognized the positive impact of the implementation, albeit not yet completed, of TIM's New Equivalence Model (NME). The AGCM (the Italian Competition Authority) decision orders TIM to: (i) proceed with the implementation of the NME until its completion which is expected to be by April 30, 2017; (ii) to inform the Authority about the performance levels of the systems for providing wholesale access services and about the completion of the corresponding internal reorganization plan by the end of May 2017. The Company quickly complied with both orders, and the Authority communicated its satisfaction on August 9, 2017.

Vodafone lodged an appeal with the Lazio Regional Administrative Court against the final decision in the proceedings for non-compliance taken by AGCM (the Italian Competition Authority). TIM filed an appearance, as in the other lawsuits filed in March 2017 by the operators CloudItalia, KPNQWest Italia and Digitel. With judgments 311 and 312/23 respectively of January 11, 2023, the regional administrative court rejected the appeals lodged by KPNQWest and CloudItalia. On April 11, 2023, KPNQWest (now Comm 3000) filed an appeal the regional administrative court's ruling before the Council of State.

Colt Technology Services - A428

With writ of summons before the Milan Court served in August 2015, the operator Colt Technology Services filed a damages claim based on the A428 decision, requesting compensation for alleged damages suffered from 2009 to 2011 as a result of purportedly inefficient and discriminatory conduct by TIM in the wholesale service supply process. The damage claimed was quantified as 27 million euros in loss of profits for the alleged non-acquisition of new customers, or for the alleged impossibility of supplying new services to the customers it had already acquired; the other party also formulated a request for compensation for the damages to its image and commercial reputation. This case follows the extrajudicial claim for approximately 23 million euros, previously advanced by Colt in June 2015, which the Company rejected in its entirety. TIM filed an appearance, contesting all of the plaintiff's allegations. In a judgment of February 21, 2024, the Court of Milan rejected in its entirety Colt's claim for damages in the amount of 27 million euros.

COMM 3000 S.p.A. (formerly KPNQWest Italia S.p.A.) - A428

With writ of summons before the Rome Court, COMM 3000 S.p.A.(formerly KPNQWest Italia S.p.A.) filed a damages claim for a total of 37 million euros in compensation for alleged anticompetitive and abusive conduct over the period 2009–2011, in the form of technical boycotting (refusals to activate wholesale services – KOs); the claim was based on the contents of the decision of AGCM (the Italian Competition Authority) that settled the A428 case. TIM filed an appearance, contesting all of the plaintiff's allegations. In the judgment with ruling in April 2019, the Court of Rome partially received the petitions of COMM 3000 S.p.A. (formerly KPNQWest Italia S.p.A.), sentencing TIM to pay an amount significantly lower than the amount in the counterparty's damages claim. In June 2019, TIM appealed against the judgment. In the judgment given in April 2021, the Court of Appeal of Rome partly upheld TIM's appeal, reducing the amount of the compensation due to COMM 3000, which was in any case entirely covered by the relevant provision. In November 2021, TIM has appealed to the Court of Cassation over the judgment of the Court of Appeal of Rome in. The meeting in Council Chamber took place on June 13, 2023. By interlocutory order of July 19, 2023, the Court reinstated the case to the case register. The date of the public hearing has not yet been set.

Eutelia and Clouditalia Telecomunicazioni (now Irideos) - A428

With a writ of summons dated May 2020, Eutelia in Extraordinary Administration and Clouditalia Telecomunicazioni S.p.A., purchaser of Eutelia's TLC branch, brought an action against TIM before the Court of Rome, making claims for damages, of around 40 million euros, for damages allegedly suffered, in the period 2009-2012, following the technical boycott and margin squeeze conduct, subject of AGCM (the Italian Competition Authority) procedure A428. TIM filed an appearance, contesting the claims made by the opposing party and formulating a counterclaim, subject to quantification of the damages incurred during the proceedings. On April 1, 2022, AGCM (the Italian Competition Authority) deposited the opinion envisaged by Art. 14, third subsection of Italian Legislative Decree 3/2017, whereby it: (i) proposed certain benchmarks for use to define the counterfactual scenario on which basis to quantify the damages allegedly suffered by Eutelia and Clouditalia; (ii) provided some additional indication and criteria to estimate the various damage items demanded by Eutelia and Clouditalia. At the hearing held on June 15, 2022, the Investigating Judge assigned time to the parties until July 8, 2022, by which to deposit written notes on the implications of the opinion of the AGCM (the Italian Competition Authority) and the contents of any queries to be raised with the court appointed expert. On October 24, 2022, the judge lifted the reservation and ordered an expert report on the *an* of TIM's conduct and the quantum of any damages suffered by Eutelia and Irideos as a result of such. On November 15, 2022, the court-appointed expert witness was sworn in. The hearing to examine the court-

appointed expert, originally scheduled for October 18, 2023, has been postponed to February 7, 2024. Following a request from the court-appointed expert to extend the deadline for filing the final report, the Judge once again postponed the hearing to examine the court-appointed expert to May 22, 2024.

Antitrust Case A514

In June 2017 AGCM (the Italian Competition Authority) started proceedings A514 against TIM, to ascertain a possible abuse of its dominant market position in breach of article 102 of the “Treaty on the Functioning of the European Union”. The proceedings were started based on some complaints filed in May and June 2017, by Infratel, Enel, Open Fiber, Vodafone and Wind Tre, and concerns a presumed abuse of TIM's dominant position in the market for wholesale access services and for retail services using the Broadband and Ultrabroadband fixed network. In particular, the AGCM (the Italian Competition Authority) hypothesized that TIM had adopted conduct aimed at: (i) slowing and hindering the course of the Infratel tender processes so as to delay, or render less remunerative the entry of another operator in the wholesale market; (ii) pre-emptively securing customers on the retail market for Ultrabroadband services by means of commercial policies designed to restrict the space of customer contendibility remaining for the competitor operators.

After the start of the proceedings, the Authority's officials carried out an inspection at some of TIM’s offices in the month of July 2017. On November 2, 2017, TIM filed a defense brief in which, in support of the correctness of its actions, it challenged all the arguments that the conduct it had allegedly engaged in, and which was the subject of the case, was unlawful.

On February 14, 2018, AGCM (the Italian Competition Authority) resolved to extend the scope of the case to investigate further behavior concerning TIM's wholesale pricing strategy on the market for wholesale access to Broadband and Ultrabroadband, and the use of the confidential information of customers of the alternative operators.

On July 5, 2018 TIM filed proposed undertakings which, if accepted by the Authority, would close the investigation without any offense being established or sanction being administered. The undertakings were considered as admissible by the Authority, that market tested them in August and September.

On October 30, 2018, TIM replied to observations made by third parties and modified its proposed undertakings. With its decision notified on December 4, 2018, AGCM (the Italian Competition Authority) once and for all rejected the proposed series of undertakings as it considered them unsuitable in light of the objections raised.

On March 4, 2019, TIM requested AGCM (the Italian Competition Authority) for an extension of the deadline for closing the proceedings (initially set for May 31, 2019).

On April 10, 2019, AGCM (the Italian Competition Authority) resolved to extend the deadline for conclusion of the proceedings until September 30, 2019. On May 17, 2019, AGCM (the Italian Competition Authority) notified TIM of the results of the investigation (CRI). In the CRI, AGCM (the Italian Competition Authority) essentially confirmed the case for the prosecution outlined in the start-up and extension of the proceedings orders.

On June 12, 2019 AGCM (the Italian Competition Authority) extended the deadline for deposit of TIM's final defense to September 20, 2019 and set the final hearing for September 25, 2019.

On September 18, 2019, AGCM (the Italian Competition Authority) resolved to extend the deadline for conclusion of the proceedings until February 28, 2020.

On March 6, 2020, TIM was notified of the decision to close the investigation: AGCM (the Italian Competition Authority) ruled that TIM had abused its dominant position, finding that TIM had put in place an anti-competitive strategy designed to hinder the competitive development of investment in Ultrabroadband network infrastructure. The fine imposed on TIM for the anti-competitive offense is 116,099,937.60 euros.

On June 25, 2020 TIM sent AGCM (the Italian Competition Authority) the so-called compliance report as ordered in the final provision.

In May 2021, the Company in any case paid the fine.

TIM appealed the aforementioned fine before the Lazio Regional Administrative Court (TAR). By judgment 1963/2022 of February 28, 2022, TIM’s appeal was rejected; TIM has appealed to the Council of State against the decision of the regional administrative court.

In August 2022, Irideos notified a deed of intervention *ad opponendum* with respect to TIM’s principal appeal.

The related hearing for oral discussion was scheduled for May 25, 2023. At the end of the hearing, the Council of State ordered a report from a court-appointed expert on three issues regarding the profitability of the investment in “white areas” with low population density. On October 11, 2023, the court-appointed experts were sworn-in in the Council of State and requested an extension to the completion deadlines. Under the new deadlines granted by the Council of State, the expert report should be filed by May 2024.

The case is set for a public hearing on May 16, 2024.

Open Fiber

In March 2020, Open Fiber (OF) sued TIM before the Court of Milan, claiming damages of 1.5 billion euros for alleged abuse of an exclusive and dominant position in relation to OF. The alleged actions consist of: (i) pre-emptive investments in FTTC networks in white areas; (ii) initiating specious legal action to obstruct Infratel tenders; (iii) spurious repricing of certain wholesale services; (iv) commercial lock-in offers on the retail market; (v) false disclosure to AGCom in connection with the approval of a wholesale offer and spreading rumors about TIM being interested in acquiring OF; (vi) discriminatory access conditions to TIM passive infrastructure. TIM filed an appearance, contesting the arguments of OF. Enel S.p.A. intervened in the proceedings, asking that TIM be ordered to compensate all damages suffered and being suffered by Enel and OF, without, however, quantifying such. During the course of proceedings, Open Fiber redetermined the damage allegedly suffered, taking it to 2.6 billion euros plus interest and monetary revaluation. Open Fiber has also clarified that it believes such damages are still to be suffered. Enel then quantified the damages allegedly suffered as approximately

228 million euros, plus interest. On October 19, 2022, the hearing was held for admission of the evidence, after which the judge reserved the right to deliberate. By order of July 17, 2023, the Court of Milan lifted the reservation and deferred the hearing for delivery of the verdict until April 3, 2024.

Irideos

In January 2022, Irideos summonsed TIM to the Court of Rome, making a claim for damages allegedly suffered as a consequence of the unlawful conduct of TIM, as sanctioned by AGCM (the Italian Competition Authority), with the provision that concluded case A514 ("follow-on claim"). The compensation claim comes to 23,204,079.87 euros for damages caused by the anti-competitive behavior of TIM from 2017 to 2019 (with effects also in subsequent years) on the market for services of wholesale access to the Broadband and Ultrabroadband fixed network (the "wholesale market") and on the market for retail telecommunications services on the Broadband and Ultrabroadband fixed network (the "retail market"). TIM filed an appearance, contesting the opposing party's arguments. At the hearing held on June 1, 2022, the investigating judge (i) assigned the parties time for depositing the briefs with terms running from February 15, 2023 and (ii) deferred the case to the hearing of June 7, 2023. The hearing for the taking of evidence was set for October 5, 2023. The Judge, having taken note of Irideos' request to defer the hearing and motivated by the judgment pending in case A514 before the Council of State, deferred the hearing of the parties until October 10, 2024.

Eutelia and Voiceplus

In June 2009, Eutelia and Voiceplus asked that alleged acts of abuse by TIM of its dominant position in the premium services market (based on the public offer of services provided through so-called Non Geographic Numbers) be investigated. The complainants quantified their damages at a total of approximately 730 million euros.

The case follows a precautionary procedure in which the Milan Appeal Court prohibited certain behaviors of the Company relating to the management of some financial relations with Eutelia and Voiceplus concerning the Non Geographic Numbers, for which TIM managed the payments from the end customers, on behalf of such OLOs and in the light of regulatory requirements. After the ruling with which the Milan Court of Appeal accepted TIM's objections, declaring that it was not competent in this matter and referring the case to the Civil Court, Eutelia in extraordinary administration and Voiceplus in liquidation resubmitted the matter to the Milan Court. The first hearing took place in the month of March 2014. TIM filed an appearance challenging the claims of the other parties. After the collapse of Voiceplus, the Milan Court declared the case suspended, in an order in September 2015. The case was later resumed by Voiceplus.

With a judgment issued in February 2018, the Milan Court accepted TIM's defense and rejected the plaintiffs' claim for compensation, ordering them, jointly and severally, to pay the legal costs. In March 2018 Eutelia and Voiceplus proposed an appeal against the judgment in the first instance.

TIM appealed against the claim, requesting confirmation in full of the judgment in the first instance. The appeal of Eutelia and Voiceplus was fully rejected with the judgment of August 5, 2019. In December 2019 Eutelia and Voiceplus appealed to the Court of Cassation over the judgment of the Court of Appeal. TIM notified a counterclaim asking confirmation of the ruling appealed against. The hearing in chambers is scheduled for February 16, 2023. At the hearing on February 16, 2023, at the request of the applicants, it was ordered that the case would be heard in open court, the date of which has not yet been set.

28-day billing

AGCom resolution 121/17/CONS introduced instructions on billing intervals for telephony, prescribing, for fixed telephony, that the interval should be monthly, or multiples thereof, and, for mobile telephony, that it should be at least four-weekly. TIM appealed Resolution 121/17/CONS to the Regional Administrative Court. The judgment rejecting the appeal was published in February 2018. TIM appealed this judgment to the Council of State in June 2018. On September 23, 2020, the non-definitive ruling was published whereby the Council of State joined the appeals submitted by TIM, Vodafone, Fastweb and Wind Tre and ordered the prejudicial deferral to the European Union Court of Justice (EUCJ) on whether or not the Authority had the power to regulate the frequency of renewal of the commercial offers and invoicing periods, at the same time rejecting the other grounds of appeal submitted by the operators and suspending proceedings. On June 8, 2023, the EU Court of Justice published its decision concluding that the Italian legislation granting AGCom the power to impose a monthly or multi-monthly billing requirement on fixed and convergent telephone service operators for the renewal and invoicing of such offers, is not contrary to EU law. When proceedings resumed before the Council of State in December 2023, TIM requested that its appeal be ruled inadmissible due to a lack of interest. On January 18, 2024, the State Council declared the right to be extinguished.

With its Resolution 499/17/CONS, having confirmed the breach of Resolution 121/17/CONS, AGCom fined TIM 1,160,000 euros, ordering it to make provision – when the billing cycle was restored to monthly intervals or multiples thereof – to return the amounts corresponding to the fee for the number of days that, from June 23, 2017, had not been used by the users in terms of the supply of service due to the misalignment of the four-weekly and monthly billing cycles.

In March 2018 with resolution no. 112/18/CONS AGCom (i) revoked the preceding resolution 499/17/CONS in the part in which TIM was ordered to repay the amounts presumably lost from June 23, 2017 onwards, with the four-weekly billing cycle, (ii) cautioned TIM, with regard to fixed-line voice services only, against postponing the starting date of invoices issued after the return to monthly invoicing by the same number of days as those presumably deducted starting from June 23, 2017 with the four-weekly invoicing cycle.

Under Presidential Decree 9/18/PRES, AGCom amended the provisions of Decision 112/18/CONS requiring the deferment of billing once the billing cycle was restored to monthly intervals, or multiples thereof, while also ordering that the timescales for complying with the order would be identified after hearings with the operators and the main consumer protection associations.

In July 2018, AGCom issued resolution 269/18/CONS, with which it set December 31, 2018 as the date by which the operators had to return to their fixed network customers a number of days of service equal to those eroded as an effect of 28-day billing, or propose to the affected customers any alternative compensatory measures, after having notified them to AGCom. TIM has appealed all of the above resolutions.

With the judgment published in November 2018, the Regional Administrative Court (TAR) canceled the pecuniary administrative sanction of 1.16 million euros imposed with Resolution 499/17/CONS, and confirmed the obligation of *restitutio in integrum* to the fixed-line customers by December 31, 2018, the grounds for the judgment were instead published on May 10, 2019. TIM appealed the judgment to the Council of State.

In judgment 39 of January 2, 2024, the Council of State rejected TIM's main appeal, in keeping with its prior rulings in the appeals brought by the other operators, and upheld the legitimacy of the measures adopted by AGCom. In the same decision, the administrative court of appeal also rejected AGCom's counter-appeal aimed at reinstating the 1,160,000 euro sanction that had originally been imposed on TIM and was later annulled by the Lazio Regional Administrative Court.

In August 2019, AGCom initiated a new sanctions procedure (CONT 12/19/DTC) for failing to comply with the order to refund fixed and converged network customers for the days eroded by 28-day billing, through the procedures established in resolutions 112/18/CONS and 269/18/CONS. At the end of this procedure, the Authority found in Resolution 75/20/CONS that TIM had failed to comply with these resolutions and imposed a fine of 3 million euros. In July 2020, TIM appealed the decision before the Regional Administrative Court. We are waiting for a date to be fixed for the discussion hearing.

In the civil proceedings, by judgment published on October 14, 2021 the Court of Milan, under the scope of the case on the merits brought by Associazione Movimento dei Consumatori in 2018 regarding the pricing and 28-day renewal for fixed line and converging offers, confirmed the order given on June 4, 2018 by the same Court upon closure of the complaint brought by TIM pursuant to Art. 669 *terdecies* of the Italian Code of Civil Procedure and the measures set out therein, ordering TIM to fulfill the requests for repayment of prices paid as a result of customer maneuvers - including discontinued, as indeed TIM had already been doing since 2018, at the same time also extending the period relevant to the recognition of the reimbursement through to April 1, 2017 and therefore earlier than June 23, 2017, the date on which the operators will need to comply with Resolution no. 121/17/CONS. TIM has appealed the judgment of the Court of Milan, at the same time filing a request for suspension of its enforcement. With order of January 11, 2022, the Court of Appeal of Milan partially accepted TIM’s request, suspending the charge in the judgment relating to the order to send a registered letter to all discontinued customers that were subject to billing every 28 days to inform them of the possibility to obtain a refund of the additional amounts paid as a result of the maneuver. By judgment published on December 9, 2022, the Milan Court of Appeal confirmed the first instance judgment in full. On January 12, 2023, TIM notified the appeal to the Court of Cassation and on January 16, 2023 it also filed the appeal pursuant to Art. 373 of the Italian Code of Civil Procedure with the Milan Court of Appeal, asking that enforcement of the ruling be suspended until the judgment pending before the Court of Cassation had been settled.

By order of February 14, 2023, the Milan Court of Appeal, in partially upholding TIM’s appeal, ordered suspension of the judgment in connection with the order to send the recorded delivery letters to former customers, whilst awaiting the decision of the Supreme Court. By Order published on February 15, 2024, the Court of Cassation rejected TIM's appeal.

Antitrust Case I820

On February 19, 2018, AGCM (the Italian Competition Authority) initiated a I820 preliminary proceeding against the companies TIM, Vodafone, Fastweb, Wind Tre and the industry association ASSTEL to investigate the alleged existence of an agreement among the major fixed-line and mobile telephone operators to restrict competition by coordinating their respective commercial strategies, in breach of Art. 101 of the TFUE.

The presumed coordination, according to the opening provision of the proceedings by AGCM (the Italian Competition Authority), would take the form of implementation of the obligation introduced by Article 19-*quinquiesdecies* of Legislative Decree 148/2017 (converted by Law 172/2017) which requires operators of electronic communication services to send out monthly (or monthly multiples) bills and renewed offers for fixed and mobile services.

On March 21, 2018, AGCM (the Italian Competition Authority) issued a provisional precautionary measure against all the operators involved in the proceedings with which it ordered the suspension, pending the proceedings, of the implementation of the agreement concerning the determination of repricing communicated to users at the time of reformulating the billing cycle in compliance with Law 172/17 and to independently redetermine its commercial strategy. With its decision no. 27112 of April 11, 2018, AGCM (the Italian Competition Authority) confirmed the precautionary measure.

On June 12, 2018, TIM filed an appeal with the TAR for the quashing of said measure.

On January 31, 2020, TIM was notified of the decision to close the investigation, in which AGCM (the Italian Competition Authority) confirmed the existence of the agreement between TIM, Vodafone, Fastweb, Wind Tre, but excluding Asstel from participation in the agreement. The fine imposed on TIM for participation in the anti-competitive agreement was 114,398,325 euros. In April 2020, TIM also challenged the sanction order.

In a ruling published on July 12, 2021, the Lazio Regional Administrative Court upheld the petition and the grounds added and submitted by TIM, canceling the measures taken by AGCM (the Italian Competition Authority), including that relating to the existence of the agreement and application of the sanction.

On September 11, 2021, AGCM (the Italian Competition Authority) presented a petition to the Council of State, requesting the cancellation of the judgment given by the regional administrative court.

On July 25, 2023, the Council of State reformed the decision of the Lazio Regional Administrative Court, upholding the validity of AGCM ((the Italian Competition Authority) measure in case I820 and referring to the Authority to redetermine the sanction in view of the reduced duration of the infringement.

In view of the rulings of the Council of State on the *quantum* of the sanction, TIM – in a petition dated August 28, 2023 – asked the AGCM (the Italian Competition Authority) for the redetermination of the sanction to take place in full adversarial proceedings between the parties as part of a special investigation procedure.

In its order of September 26, 2023, served on the Company on October 3, 2023, the AGCM (the Italian Competition Authority) informed TIM that it had quantified the fine at 100,670,526.00 euros, holding that it had no margins for discretion in executing the judgment of the Council of State. On October 12, 2023, TIM filed an appeal to overturn the judgment of the Council of State and, on October 13, 2023, filed an appeal before the Lazio Regional Administrative Court to annul the measure redetermining the sanction; TIM also requested the suspension of the measure as a precautionary measure, which was rejected by order of November 9, 2023. For both judgments a hearing on the merits has yet to be set.

In a communication dated December 6, 2023, the Authority urged TIM to pay the penalty of 100,670,526.00 euros plus legal interest accrued from November 3, 2023 until the day of actual payment amounting to 5,535,913.60 euros.

In a communication dated December 12, 2023, TIM contested the dueness of such interest due to the absence of the prerequisites of liquidity and collectability required by Article 1282 of the Italian Civil Code, as well as an error in identifying the dies a quo for calculation.

The Authority's Budget Office responded on February 2, 2024, acknowledging an error in the calculation of legal interest, which was therefore restated to the amount of 4,121,837.47 euros, but reiterating that the same is due.

TIM decided to appeal to the Lazio Regional Administrative Court against the Budget Office's notice to challenge both the error in calculating the interest due and a defect in the Budget Office's competence.

Antitrust Case I850

By decision given on December 15, 2020, AGCM (the Italian Competition Authority) started an investigation in regard to the company Telecom Italia S.p.A., Fastweb S.p.A., Teemo Bidco S.r.l., FiberCop S.p.A., Tiscali Italia S.p.A. and KKR & Co. Inc., to ascertain the existence of any breaches of article 101 of the TFEU in relation to the coinvestment offer.

More specifically, the investigation regards the contracts governing the establishment and operation of FiberCop and the supply agreements with Fastweb and Tiscali. AGCM (the Italian Competition Authority) intends to verify that such agreements do not hinder competition between operators in the medium and long-term and assure the rapid modernization of the country's fixed telecommunications infrastructures.

On August 6, 2021, TIM submitted a proposal of undertakings to AGCM (the Italian Competition Authority) in order to resolve the competition concerns subject of the investigation and close the proceedings without any sanction being applied.

On September 7, 2021, AGCM (the Italian Competition Authority) judged these commitments to not be clearly unfounded and ruled publication on the Authority's website from September 13, 2021; thus market testing began and was completed by October 13, 2021, the date by which all subjects so wishing submitted their observations to AGCM (the Italian Competition Authority) in respect of the relevant commitments.

On December 14, 2021 AGCM (the Italian Competition Authority) extended the deadline for the conclusion of the proceedings, initially set for December 31, 2021, to February 15, 2022.

Precisely during the meeting held on February 15, 2022, AGCM (the Italian Competition Authority) finally resolved to approve the commitments insofar as they were considered suitable to eliminate the alleged anti-competition aspects investigated.

As envisaged by the final ruling, on April 22, 2022, TIM sent AGCM (the Italian Competition Authority) a first report on the measures taken to fulfill the commitments made.

On May 11, 2022, AGCM (the Italian Competition Authority) notified TIM of its acknowledgment of the measures presented in such report.

On January 31, 2023 TIM sent AGCM (the Italian Competition Authority) a second report on the implementation of the undertakings given.

On January 30, 2024, TIM sent AGCM (the Italian Competition Authority) the required annual report on the implementation of the undertakings given.

By petition notified in April 2022, Open Fiber challenged the above AGCM (the Italian Competition Authority) provision no. 3002, whereby the proceedings were closed, before the regional administrative court of Lazio; the petitioner believes that the commitments, made mandatory by the closure, are not sufficient to remove the anticompetitive aspects identified at the start of proceedings.

Upon completion of the interim hearing of last June 1, 2022, the regional administrative court rejected the request and scheduled the merits hearing for January 26, 2023. At the January 26 hearing, after extensive discussion, the judge reserved the right to deliberate. By judgment of April 14, 2023, the Regional Administrative Court rejected as unfounded the appeal of Open Fiber, which on July 10, 2023, appealed the Regional Administrative Court's judgment to the Council of State.

Antitrust Case I857

On July 6, 2021, AGCM (the Italian Competition Authority) started an investigation in regard to TIM and DAZN for a possible understanding reached with a view to restricting competition in connection with the agreement for the distribution and technological support for TV rights for Serie A football in the 2021-2024 period.

The investigation also aims to verify the restrictive nature of the understanding with reference to additional elements regarding the possible adoption by TIM of technical solutions not available for competitor telecommunications operators and which may effectively hinder the adoption of their own technological solutions.

At the same time, the Authority has also initiated proceedings for the potential adoption of protective measures.

By resolution passed on July 27, 2021, AGCM (the Italian Competition Authority) closed the interim proceedings, considering that the initiatives and amendments to the agreement proposed by TIM and DAZN in the meantime are presently able to prevent any serious and irreparable damage to competitors while investigations are completed.

Indeed, said measures aim, as a whole, to avoid possible discrimination in the use of the DAZN service, due to its activation by users using Internet connection services other than those offered by TIM. In addition, the agreement between TIM and DAZN has been amended to guarantee DAZN complete freedom in applying discounts and promotions. TIM has also undertaken to provide DAZN with a sufficient number of white label set-top-boxes to also guarantee DAZN customers the viewing of matches over digital terrestrial TV, in the event of connection problems.

Finally, TIM has undertaken to supply wholesale services to OAOs interested therein to manage traffic peaks deriving from live data transmissions, regardless of the type of content transmitted.

On October 29, 2021 TIM submitted a proposal for undertakings to AGCM (the Italian Competition Authority) with a view to resolving the competitive concerns that were the subject of the investigation and closing the proceedings without the finding of any infringement and therefore without any sanction being applied.

On December 14, 2021, AGCM (the Italian Competition Authority) approved the publication of the aforementioned proposal for undertakings on the Authority's website, as these undertakings, taken as a whole, do not appear to be manifestly unfounded and are capable of removing the restrictions to competition hypothesized in the measure initiating the investigation in question.

On January 5, 2022, with the publication on the AGCM (the Italian Competition Authority) website, market testing began.

The deadline for rebuttal arguments and proposing any accessory amendments to the commitments presented by TIM and DAZN is scheduled for March 7, 2022.

On February 23, 2022, TIM and DAZN were convened separately to the AGCM (the Italian Competition Authority) offices. During the hearing, the Offices informed TIM - and thereafter confirmed this in the hearing meetings - that in a hearing held on February 15, the Board deemed it necessary to make certain “accessory” changes in order to approve the commitments submitted.

On March 4, 2022, TIM and DAZN requested an extension of the deadline for the submission of observations, also in view of the new aspects that had emerged on February 23. The new deadline was set as March 23, 2022.

On March 22, 2022, TIM informed the Authority that the additional changes considered necessary by the Board to approve the commitments would have entailed a complete overhaul of the contents and economic balance of the agreements signed by TIM and DAZN, such as to make it no longer possible to pursue the hypothesized business model. At the same time, TIM informed the Authority of the start of negotiations with DAZN possibly concerning the revision of the distribution exclusivity clause, which was the main object of the Authority’s investigation. Considering the complexity of negotiations, TIM requested an extension of another 30 days for submission of observations. The extension was authorized and the new deadline set as April 23, 2022.

On April 20, 2022, in consideration of the extension of negotiations, also due to the complexity and economic relevance of that being negotiated, DAZN and TIM requested an additional extension. The new deadline was set as May 9, 2022.

On May 9, 2022, TIM informed the Authority that it had declared willing to DAZN to waive the exclusivity of the distribution of Serie A football rights, as currently regulated by the Deal Memo, with DAZN consequently having the faculty to distribute such rights also through third party operators and that, in exchange for the willingness to waive this right, the Parties had begun negotiations for a review of the contracted economic commitment envisaged by TIM.

On June 7, 2022, the Authority ruled on the rejection of the commitments submitted, which “would appear, both where considered comprehensively and individually, to be unable to eliminate the anticompetitive aspects identified in the resolution that started the proceedings, insofar as they do not resolve the competition concerns highlighted in the initial proceedings, where not translated into shared contractual amendments such as to eliminate the critical competition issues” highlighted by the Authority.

Again on June 7, 2022, the Authority ruled on the deferral of the deadline for the conclusion of proceedings to March 31, 2023.

On August 2, 2022, TIM informed the Antitrust Authority that it had reached a new agreement with DAZN, under which the latter has the faculty to distribute football rights through any third party, surpassing the previous system of exclusivity in TIM’s favor.

On January 20, 2023, notification was given of the investigation results (CRI).

AGCM (the Italian Competition Authority) believes that the agreement reached on January 27, 2021 (the “Deal Memo”) had contents and resulted in effects that reduced competition for its entire duration (and therefore until stipulation of the new agreement on August 3, 2022).

On January 31, 2023, AGCM (the Italian Competition Authority) resolved to extend the deadline for conclusion of the proceedings until May 31, 2023.

TIM filed its statement of defence March 28, 2023, and the final hearing with the Authority was held on April 4, 2023.

On April 18, 2023, AGCM (the Italian Competition Authority) decided to again extend the deadline for the conclusion of the proceedings to June 30, 2023, due to the complexity of the defence put forward by the Parties in their pleadings.

On June 28, 2023, AGCM (the Italian Competition Authority) ruled that the conduct of TIM and DAZN constitutes an agreement restricting competition in breach of Article 101 TFEU.

Yet the arrangement – in particular regarding exclusivity – only lasted for approximately one month and its potentially restrictive effects on competition were neutralized by the Authority's timely initiation of the investigation procedure on July 6, 2021.

Indeed, the precautionary sub-proceedings instigated at the start of the first football season of the three-year period 2021-2024 actually prevented the effects of the arrangement from occurring, as at the beginning of August 2021 TIM and DAZN discontinued the application of the disputed contractual clauses through their own voluntary action. The original agreement was then replaced by a new contract, entered into in August 2022, in which any exclusivity was completely eliminated, thus rooting out the antitrust concerns about exclusivity of distribution.

Consequently, and in light of the mitigating circumstances recognised, AGCM (the Italian Competition Authority) imposed a fine of 760,776.82 euros on TIM and a fine of 7,240,250.84 euros on DAZN.

On September 20, 2023, TIM paid the fine with reservations in view of the appeal brought by the Company with the Lazio Regional Administrative Court against the decision against it. The public hearing for the discussion of the appeal. was held on February 21, 2024 and the decision of the Regional Administrative Court is pending.

Antitrust Case A556

On November 30, 2022, AGCM (the Italian Competition Authority) started proceedings against TIM in order to verify the existence of an abuse of a dominant position in breach of Art. 3 of Law no. 287/90.

The proceedings stem from a report made by Fastweb concerning TIM's refusal to grant Fastweb its radio mobile signal coverage maps that had been requested in order to take part in the "Open tender for mobile telephone services for public authorities - Edition 9 - Sigef ID 2452" (Consip TM9 tender).

The authority simultaneously also launched precautionary sub-proceedings in accordance with Article 14-bis of Law No. 287/1990, aiming to verifying the existence of precautionary measures aiming to protect competition.

On December 20, 2022, the authority resolved that there were no grounds on which to take precautionary measures, in accordance with Art. 14-bis of Law no. 287/90 and thus closed the precautionary sub-proceedings, rejecting Fastweb's appeal.

On September 7, 2023, AGCM (the Italian Competition Authority) sent notice to TIM of the preliminary findings relating to the main proceedings in question.

AGCM (the Italian Competition Authority) noted that there was insufficient evidence or facts to confirm that TIM had abused a dominant position. As a result, AGCM (the Italian Competition Authority) did not to bring any charges against the company.

On November 28, 2023, AGCM (the Italian Competition Authority) ruled that there was insufficient evidence to establish that TIM had abused a dominant position pursuant to Article 3 of Law 287/1990.

As a result, no financial sanction was imposed on TIM.

Antitrust Case PS 12304 "Billing after withdrawal"

On April 28, 2022, AGCM (the Italian Competition Authority) initiated proceedings against TIM for unfair commercial practice, challenging alleged undue billing following a request to terminate the line, including cases of switch to another operator, with reference to fixed and mobile telephony.

Although convinced of the diligence of its conduct, TIM decided to implement a series of measures to make the procedures for terminating contract, and, therefore, the related billing, even more efficient and transparent.

On March 31, 2023, the Authority resolved to wrap up the proceedings by imposing a fine of 200,000 euros; the amount of the fine was mitigated by the remedial actions taken by TIM. Similar proceedings were concluded by the authority against the main communication operators.

Universal Service

In a decision published in July 2015, the Council of State rejected the appeal lodged by AGCom and TIM against the judgment of the Lazio Administrative Court (TAR) on the financing of the universal service obligations for the period 1999–2003. With this judgment the judge had granted the appeals by Vodafone, annulling AGCom decisions 106, 107, 109/11/CONS on the renewal of the related proceedings, which included Vodafone among the subjects required to contribute, for a sum of approximately 38 million euros. Essentially, the judgment confirms that the Authority has not demonstrated the particular degree of "replaceability" between fixed and mobile telephony for mobile operators to be included among the subjects required to repay the cost of the universal service, which means that AGCom needs to issue a new ruling. TIM has filed an application with AGCom to renew the proceedings, and an appeal against the judgment of the Court of Appeal to the Court of Cassation (which subsequently ruled that the appeal was inadmissible).

In April 2016 Vodafone appealed against the Ministry of Economic Development (MISE) and TIM to the Council of State, for non-compliance with the judgment of the Council of State. This appeal referred to AGCom decision 109/11/CONS (2003 yearly payment, on the basis of which Vodafone had paid the sum of approximately 9 million euros as contribution, restitution of which was requested).

In its judgment of November 2016, the Council of State rejected the appeal, referring to the Regional Administrative Court (TAR) the decision on the methods of compliance. In February 2017, Vodafone presented the Lazio Regional Administrative Court with four new appeals against the Ministry of Economic Development and TIM regarding observance of the ruling, upheld on appeal, countermanding the resolutions for the years 1999–2003 and repayment of the aforesaid amounts of around 38 million euros already paid to the Ministry of Economic Development as a contribution.

With a judgment issued in June 2018, the TAR rejected all of Vodafone's appeals for observance, and, as requested by TIM, expressly affirmed that AGCom must renew the proceedings, particularly with regard to the determination of the degree of replaceability between fixed and mobile telephony. Vodafone challenged the four judgments before the Council of State, which, with a decision of October 2019, upheld Vodafone's appeal and confirmed the restitutory obligation of the sums in question applicable to TIM.

With resolution no. 263/20/CIR, AGCom started proceedings to renew the investigation into the iniquity of the net cost of the universal service for 1999-2009 and the allocation of contribution expenses. Vodafone has challenged this resolution before the Regional Administrative Court. The renewal proceedings concluded with resolution 18/21/CIR, which substantively confirmed the draft order. This same resolution has only been challenged before the regional administrative court by TIM for the years 1999 and 2000, while Vodafone, Wind and Fastweb have challenged the resolution for all years concerned with opposite grounds. By judgments published in February 2022, resolution 18/21/CIR was partially canceled; indeed, the regional administrative court has rejected the main complaint reporting the lack of power of renovation and upheld only the grounds hinged on the alleged unreasonable nature of the threshold envisaged by AGCom for the analysis of iniquity second facie. Fastweb, Vodafone, Wind, AGCom and TIM appealed the judgment of the Regional Administrative Court with the Council of State; The hearings on the merits were set for April 4 and April 27, 2023. At the end of the hearing on April 4, 2023, the case was reserved for judgment. On April 18, 2023, the Council of Ministers issued a collegial order referring several issues to the EU Court of Justice for a preliminary ruling.

Dispute relating to "Adjustments on license fees" for the years 1994-1998

With regard to the judgments sought in previous years concerning the Ministry of Communications' request for payment of the balance of the amounts paid in concession charges for the years 1994-1998 (for a total of 113 million euros), the Lazio Regional Administrative Court (TAR) rejected the Company's appeal against the request for adjustment of the license fee for 1994 in the amount of approximately 11 million euros, 9 million euros of which against turnover not received due to bad debts. TIM lodged an appeal. On the outcome of proceedings, with the ruling of December 2019, the Council of State partially accepted TIM's position, establishing the principle, according to which, the receivables referring to 1994 not collected for reasons not attributable to the operator, could have been deducted from the tax base for calculating the concession fee. As the Ministry of Economic Development has not followed up on TIM's requests aimed at obtaining fulfillment of the judgment, TIM has submitted a further petition to the Council of State for failure to execute the judgment, but with judgment given in April 2022, the request for compliance brought by TIM was rejected. TIM appealed for revocation of this judgment to the Council of State. This appeal was declared inadmissible in judgment 3318/2023.

With two further judgments the Lazio Regional Administrative Court (TAR), reiterating the reasons expressed previously, also rejected the appeals in which the Company challenged the requests for payment of outstanding balances of license fees for the years 1995 and 1996-1997-1998, in the amount of approximately 46 million euros. TIM has appealed before the Council of State also against these judgments. By judgment published in April 2022, the Council of State stressed the principles already set for 1994, namely that receivables that have become uncollectable for reasons not the fault of the operator, correctly handled in the accounts, on the financial statements and in terms of tax, can be deducted from the tax base for calculating the concession fee.

With reference to the 1998 fee adjustment (equal to about 41 million euros), the Lazio TAR, by TAR order of December 2018, suspended the judgment, raising preliminary questions with the EU Court of Justice on the correct scope of EC Directive no. 97/13 (in the matter of general authorizations and individual licenses in the field of telecommunications services on the basis of the currently pending litigation on the 1998 license fee, currently pending before the Rome Court of Appeal and illustrated in a subsequent paragraph).

The referred questions were based, inter alia, on the question posed to the Court of Justice on the possible conflict between the aforementioned EC Directive 97/13 and national law, which extended the obligation for telecommunications license-holders to pay the license fee for 1998 (commensurate with a portion of turnover), despite the liberalization process underway. In its judgment of March 2020, the EU Court of Justice held that the EU regulatory system must be interpreted as not allowing national legislation to extend to 1998 the obligation imposed on a telecommunications undertaking that was previously the concession holder (such as TIM) to pay a fee calculated on the basis of turnover and not only the administrative costs connected with the granting, management, control and implementation of the general authorizations and individual licenses scheme. The Court held, inter alia, that the Council of State – having held in its judgment 7506/2009 that the fee imposed for 1998 on TIM, the holder of an authorization existing on the date of entry into force of Directive 97/13, was due – interpreted national law in a way that was incompatible with EU law, as interpreted by the Court in its judgment of February 21, 2008. Following the judgment of the EU Court of Justice, the opinion on the final calculation of the 1998 charges was summarized before the Lazio Regional Administrative Court, which, in a judgment given last February, declared TIM's appeal as unacceptable for procedural reasons, namely due to the prevalence of the formal ruling consisting of judgment no. 7506/09; in substantive terms, on the other hand, the judgment of the EU Court of Justice once again ascertained the European Community unlawful nature of the credit claim by the Public Administration to obtain payment of the 1998 charges and, consequently, the final balance. The company has challenged the judgment of the Lazio Regional Administrative Court to the Council of State.

Poste

There are some pending disputes brought, at the end of the '90s, by Ing. C. Olivetti & C. S.p.A. (now TIM) against Poste, the Italian postal service, concerning non-payment of services delivered under a series of contracts to supply IT goods and services. The judgments issued in the lower courts established an outcome that was partially favorable to the ex-Olivetti, and have been appealed against by Poste in individual rehearings.

In this respect, while a 2009 judgment of the Rome Appeal Court confirmed one of the outstanding payables to TIM, another judgment by the same Court declared void one of the disputed contracts. After this judgment,

Poste had issued a writ for the return of approximately 58 million euros, opposed by TIM given that the judgment of the Supreme Court for amendment of the above judgment is still pending.

After the 2012 judgment of the Supreme Court that quashed and remanded the decision of the Appeal Court on which the order was based, the Rome Court declared that the matter of issue in the enforcement proceedings was discontinued, since the claim made by Poste had been rejected. The judgment was resubmitted to another section of the Rome Appeal Court. In ruling no. 563 of January 25, 2019, the Rome Court of Appeal at the time of proceedings, reversing the Company's previous unfavorable appeal, confirmed the contract's validity and, with it, the legitimacy of TIM's view of the amount already collected, of which Poste had requested reimbursement. This ruling was challenged by Poste with appeal filed with the Court of Cassation, notified on July 31, 2019, which TIM challenged with relevant counter appeal. The hearing in chambers was set for December 21, 2023. By order of February 29, 2024, the Supreme Court declared Poste's appeal inadmissible, putting an end to the litigation and ordering Poste to pay TIM's legal costs and the penalties provided for by Article 96, paragraphs 3 and 4 of the Code of Civil Procedure.

Elinet S.p.A. Bankruptcy

In 2014, the receiver of Elinet S.p.A., and subsequently the receivers of Elitel S.r.l. and Elitel Telecom S.p.A. (the parent, at the time, of the Elitel group) appealed the judgment by which the Court of Rome dismissed the damages claim brought by the receivers of the Elinet-Elitel group, filing a new damages claim for a total of 282 million euros. The Company is alleged to have exercised management and control powers over the plaintiff, and, with it, over the Elitel group (an OLO in which TIM has never held any equity interest) through the management of trade receivables. TIM filed an appearance, challenging the claims made by the other party. The judgment on the appeal was handed down with ruling in July 2019, which with reference to TIM confirmed full legality of its conduct and total non-existence of any element of direction and coordination. The receivers of Elinet S.p.A. and Elitel Telecom S.p.A. appealed to the Court of Cassation in January 2020 to obtain the annulment of the judgment in the second instance. The receiver of Elitel S.r.l. has not filed an appeal with the Court of Cassation and, consequently, the total claim for damages has been reduced to 244 million euros. TIM notified a counterclaim asking confirmation of the ruling appealed against.

The Court of Cassation declared inadmissible the appeals brought by the receivers of Elinet (bankrupt) and Elitel Telecom (bankrupt), ordering both bankrupts, jointly and severally, to reimburse TIM for the costs of litigation at the instance. The matter must therefore be considered definitively closed.

Brazil - Opportunity Arbitration

In May 2012, TIM and Telecom Italia International N.V. (now merged in Telecom Italia Finance) were served with a notice of arbitration proceedings brought by the Opportunity group, claiming compensation for damages allegedly suffered for presumed breach of a settlement agreement signed in 2005. Based on the claimant's allegations, the damages relate to circumstances that emerged in the criminal proceedings pending before the Milan Court regarding, inter alia, unlawful activities engaged in by former employees of TIM.

The investigatory phase having been completed, the hearing for oral discussion took place in November 2014, after which the parties filed their concluding arguments in preparation for the decision on the case.

In September 2015, the Board of Arbitration declared the proceedings closed, as the award was going to be filed.

In September 2016 the ICC Court notified the parties of its judgment, based on which the Court of Arbitration rejected all the claims made by the Opportunity group and decided that the legal costs, administrative costs and costs for expert witnesses should be split between the parties (the "2016 Arbitration Award").

In April 2017 the Opportunity group filed an appeal against the 2016 Arbitration Award before the Paris Court of Appeal.

In November 2017, TIM and Telecom Italia Finance received from the Secretariat of the ICC's International Court of Arbitration notice of a Request for Revision of the 2016 Arbitration Award, filed by the Opportunity group, asking for a new award. A Board of Arbitration was subsequently established.

In October 2018, TIM and Telecom Italia Finance requested proceedings with the Paris Court of Appeal to be suspended, in the light of proceedings pending with the Court of Arbitration of the International Chamber of Commerce to review the same 2016 Arbitration Award. In November 2018, the Paris Court of Appeal suspended the proceedings until the decision is taken by the Court of Arbitration in the review proceedings.

As regards the proceedings to review the 2016 Arbitration Award, in October 2019 the ICC held the discussion hearing in Paris. In August 2020, the Arbitration Court issued the award rejecting the Request for Revision presented by the Opportunity Group (the "2020 Arbitration Award"). In December 2020, the Opportunity group filed an appeal against the 2020 Arbitration Award before the Paris Court of Appeal. In May 2021 the Opportunity group asked the Paris Court of Appeal to summarize the proceedings brought against the 2016 Arbitration Award. Thereafter, the Opportunity Group, TIM and Telecom Italia Finance filed their briefs in the two proceedings pending before the Paris Court of Appeal, respectively against the 2016 Award and the 2020 Award. On January 8, 2024, both appeal proceedings were heard before the Paris Court of Appeal. A decision is pending in both cases.

Iliad (winback)

By summons served during the first quarter of 2020, Iliad Italia S.p.A. sued TIM before the Court of Milan for alleged anti-competitive conduct, including through the Kena Mobile brand, which was allegedly aimed at hindering its entry to and consolidation in the mobile phone market in Italy, seeking damages of at least 71.4 million euros.

TIM filed an appearance, fully disputing the requests of Iliad Italia S.p.A.; and, in turn, submitting a counterclaim in accordance with Art. 2598 of the Italian Civil Code, with reference to the denigration implemented by Iliad Italia S.p.A. in regard to TIM and formulating a symmetrical claim for compensation for damages. In the first preliminary brief, Iliad updated its claim for damages, taking it to 242.8 million euros, and later to 292.8 million euros.

The proceedings ended in a judgment of September 25, 2023, which did not award Iliad any damages; TIM's counterclaim was declared inadmissible.

In its notice of appeal served on December 15, 2023, Iliad requested that the first-instance judgment be partially overturned, requesting, among other things, that TIM be ordered to pay full compensation of not less than 292.8 million euros for the pecuniary and non-pecuniary damage suffered by Iliad.

Iliad (restrictions on duration and termination costs)

By writ of summons notified in September 2021, Iliad Italia S.p.A. summonsed TIM before the Court of Milan for the alleged application to customers of unlawful contractual conditions in terms of time limits and economic costs for withdrawal with reference to mobile and fixed telephone offers, with a consequent petition to order TIM to compensate damages, currently quantified as 120.4 million euros.

The verdict hearing has been deferred until May 28, 2024.

Fastweb (Ethernet ATM migration)

By writ of summons notified in December 2021, TIM summonsed Fastweb before the Court of Milan, asking that it be ascertained and declared that Fastweb had not achieved the minimum objectives of migration from ATM bitstream technology to Ethernet bitstream technology in any of the 30 Collection Areas into which the national territory is divided by the deadline envisaged by industry regulation and the migration plan agreed by the parties; and therefore that it ascertain and declare that TIM is entitled to: (a) reverse the economic benefits relating to this migration granted retroactively from April 12, 2016 to Fastweb and (b) obtain from Fastweb the prices for the ATM bandwidth envisaged by the contract stipulated by the parties and the current Reference Offers in force *ratione temporis*; (c) therefore declare and order Fastweb to pay TIM the total amount of 79,240,329.47 euros (or other amount, potentially greater, as may be assessed during the course of proceedings).

Fastweb filed an appearance and submitted a counterclaim for abuse of a dominant market position and breach of contract. Fastweb's application is essentially based on alleged delays in the development of Ethernet coverage. The counterparty complains of damages of around 81.4 million euros. Having noted that the counterclaim made by Fastweb would appear to go beyond the profile of breach of contract and that, in this case, the specialized business chambers may be competent to judge the matter, the investigating judge has returned the case to the Chambers President for due consideration. The Chambers President has submitted the case to the President of the specialized business chambers. The first hearing was held on December 14, 2022. The hearing for the admission of the preliminary motions has been postponed to June 13, 2023. Subsequent to the filing of the preliminary motions, Fastweb re-quantified damage allegedly suffered as a result of TIM's unlawful conduct at approximately 101.1 million euros (of which 13.2 million euros is subject to the acceptance of TIM's main claim). At the hearing of June 13, 2023, the investigating judge reserved judgment To dissolve this reservation, the G.I. ordered an expert report to be prepared by a court-appointed expert, who was to be appointed and sworn in on November 21, 2023. The public hearing for the examination of the court-appointed expert witness has been scheduled for September 17, 2024.

Iliad (INWIT)

By writ of summons notified in July 2022, Iliad Italia S.p.A. summonsed Telecom, Vodafone and Infrastrutture Wireless Italiane S.p.A. ("INWIT") before the Court of Milan to assess the alleged unlawful conduct of INWIT, Telecom and Vodafone, consisting of refusal to allow Iliad to upgrade its mobile telephone transmission systems installed on INWIT-owned infrastructures. As a result of this conduct, Iliad has asked that Telecom be ordered, together with INWIT and Vodafone, to compensate the damages allegedly suffered, which it has reserved the right to quantify during the course of proceedings. The initial hearing took place on April 5, 2023, with the Judge reserving judgment on the objection as to the invalidity of the writ of summons brought by TIM. The initial hearing was deferred to October 11, 2023, following the admittance of the objection as to the invalidity of the writ of summons brought by TIM. At the hearing, the Judge set three dates for the exchange of pleadings between the parties: November 10, 2023, December 11, 2023, and January 2, 2024. The hearing for admission of evidence is scheduled for March 6, 2024.

(b) Other information

Mobile telephony - criminal proceedings

In March 2012 TIM was served notice of the conclusion of the preliminary inquiries, which showed that the Company was being investigated by the Public Prosecutor of Milan pursuant to the Legislative Decree n. 231/2001, for the offenses of handling stolen goods and counterfeiting committed, according to the alleged allegations, by fourteen employees of the so-called "ethnic channel", with the participation of a number of dealers, for the purpose of obtaining undeserved commissions from TIM.

The Company, as the injured party damaged by such conduct, had brought two legal actions in 2008 and 2009 and had proceeded to suspend the employees involved in the criminal proceedings (suspension later followed by dismissal). It has also filed an initial statement of defense, together with a technical report by its own expert, requesting that the proceedings against it be suspended, and that charges of aggravated fraud against the Company be brought against the other defendants. In December 2012, the Public Prosecutor's Office filed a request for 89 defendants and the Company itself to be committed for trial.

During the preliminary hearing, the Company was admitted as civil party to the trial and, in November 2013, the conclusions in the interest of the civil party were filed, reaffirming TIM's total lack of involvement in the offenses claimed.

At the end of the preliminary hearing, which took place in March 2014, the Judge for the Preliminary Hearing committed for trial all the defendants (including TIM) who had not asked for their situation to be settled with alternative procedures, on the grounds that "examination in a trial" was needed. In April 2016, at the end of the first part of the trial, the Public Prosecutor asked for TIM to be sentenced to pay an administrative fine of 900 thousand euros, but decided not to ask for confiscation of any of the presumed profits of the offenses

(quantified in the committal proceedings as totaling several million euros), based on the assumption that TIM had in any event remedied the presumed organizational inadequacies. While acknowledging the considerable redimensioning of the accusations, the Company has reiterated its total non-involvement in the facts at issue. In November 2016 the Court gave a verdict acquitting the Company on the grounds that there was no case to answer. All the individuals charged were also acquitted on various grounds.

The Public Prosecutor appealed the acquittal and appealed to the Court of Cassation "*per saltum*". In January 2019, the Italian Supreme Court of Cassation agreed to the appeal and therefore ordered that the documents of the proceedings be sent to the Milan Court of Appeal.

The subsequent proceedings were concluded in October 2022: The Court of Appeal in Milan confirmed the outcome of the judgment challenged, repeating the acquittal of Telecom Italia and dismissing the requests for sentencing of the General Prosecutor's Office in regard to the Company. However, the General Prosecutor's Office again appealed to the Court of Cassation, this time against the judgment of the Milan Court of Appeal.

In September 2023, the Court of Cassation issued a final judgment rejecting the appeal filed by the Milan General Prosecutor's Office against the acquittal pronounced by the Court of Appeal.

The Court of Cassation, in particular, found the grounds presented by the General Prosecutor's Office to be inadmissible, thus acquitting Telecom of the indictment pursuant to Legislative Decree no. 231/2001 in a definitive judgment.

Dispute concerning the license fees for 1998

TIM has summoned the Prime Minister's Office to appear in a civil suit for compensation for damages caused by the Italian State through appeal ruling 7506/09, handed down by the Council of State in breach, in the view of the Company, of Community law.

The main claim which the proceedings are founded on is based on community jurisprudence that recognizes the right to assert the responsibility of the State in relation to violation of rights recognized in community law and injured by a judgment that has become definitive, in respect of which no other remedy may be applied. The judgment of the Council of State definitively denied TIM the right to obtain restitution of the concession charge for 1998 (totaling 386 million euros for Telecom Italia and 143 million euros for the former TIM Company, plus interest), already denied by the Lazio regional administrative court despite the favorable and binding opinion of the European Court of Justice in February 2008. This judgment concerned the conflict between EC Directive 97/13 on general authorizations and individual licenses in the telecommunications services industry, and the national regulations that had deferred, for 1998, the obligation to pay the fee payable by telecommunications concession holders, despite the intervening deregulation process. The Company then proposed an alternative compensation claim, within the sphere of the same proceedings, for tort pursuant to art. 2043 of the Italian Civil Code. The compensation claimed has been quantified as approximately 529 million euros, plus legal interest and revaluation. The Avvocatura di Stato filed an appearance and submitted a counterclaim for the same sum. The case is subject to eligibility analysis by the Court, which declared the inadmissibility of TIM's main claim (case for damages for manifest breach of community law pursuant to law 117/88). However, this decision was amended in favor of the Company on appeal. In March 2015 the Rome Court issued its judgment in the first instance, declaring the Company's application inadmissible.

In 2015, TIM has appealed the decision, and the case is now pending the hearing specifying the nature of the forms of order sought. The Court of Appeal has scheduled the hearing for closing arguments for April 2, 2019. Thereafter, without any new procedural activities having taken place, the Court of Appeal incontrovertibly deferred the hearing for closing arguments first to 2020 and then to 2021 (from when the terms for conclusion and replies shall run, which will be followed shortly thereafter by the issue of the judgment). These deferrals were followed by the latest, of January 15, 2021, scheduling the new hearing for January 25, 2022.

On the matters underlying the case, the following must be noted:

- on the considered lack of jurisdiction of the Court of Rome (concerned by the judgment of the Court of Rome appealed by TIM) to judge the liability of the Italian government for the work of senior magistrates (in the case in point, the Council of State), which would have led to the declared inadmissibility of the claim in accordance with Art. 5, law no. 117/1978 (old text) - the United Chambers of the Court of Cassation ruled with judgment no. 14842 on June 7, 2018, confirming the jurisdiction of the Court of Rome and, therefore, the correctness of TIM's choice to base its lawsuit in the Court of Rome;
- on the unlawful nature of the conduct of the Italian government - and, therefore, on the liability of the State-Court in accordance with Law no. 117/1998 - once again, the EU Court of Justice has ruled, deciding on the prejudicial matter raised by the Lazio TAR in other, connected proceedings, in its judgment given on March 4, 2020 in C-34/19, stressing that TIM was not required to pay the charges demanded by the State for 1998 and, therefore, confirming the clear violation by the Council of State of European Community law (also because in clear conflict with the decision already given by the EU Court of Justice on February 21, 2008 in C-296/06, as, moreover, already ruled by the Court of Appeal of Rome, Chambers I, in Decree of January 31, 2012, which sanctioned the procedural admissibility of TIM's lawsuit);
- on the matter of the right to repeat the charges paid for 1998 - the Court of Cassation ruled in its judgment no. 18603 given on September 7, 2020, rejecting the appeal brought by the Presidency of the Council against the judgment whereby the Court of Appeal of Rome had upheld the claim for compensation made by Vodafone (payment of charges for 1998) for the same title in separate proceedings.

In short, the company paid the charges disputed in 1998; it promptly challenged the administrative provision that had unfairly required said payment, before the administrative court; the administrative proceedings before the Council of State concluded negatively in 2009 (despite the recalled opposite judgment of the European Court of Justice); the civil proceedings of first instance concluded in March 2015 with a judgment of rejection for grounds of admissibility (then solved in the sense indicated by the company with the referenced judgment of Cassation in United Chambers no. 14842/18) and more than 6 years after the first instance judgment - going from deferral to deferral - the appeal judgment (that could only uphold the mentioned judgments of the Court of Justice and the Court of Cassation) has not yet been issued (nor, on the basis of these repeated deferrals, can the company forecast when it will be given).

The company is examining the various scenarios and legal claims (national, European Community, etc.) that may contribute towards defining the appeal dispute. It is considered, in fact, that the principles of the reasonable duration of the trial, in accordance with subsection 2 of article 111 of the Constitution and in accordance with article 6 of the European Convention on Human Rights, are violated by these events, considering: (i) the year in which payment was made of the undue charges is 1998; (ii) the value of these charges is approximately 529 million euros plus interest from that date; (iii) the extremely long procedural process has not even led to an appeal judgment (started in 2015 and with an unpredictable conclusion, given the continuous deferrals); (iv) the circumstance that the legal matter appears to be readily able to be settled, as not one but two judgments have already been given by the EU Court of Justice declaring payment of the charges to be incompatible with European Community legislation (judgments that have currently been ignored by the national court).

As part of these analyses aimed at deciding the appeal, on January 25, 2021 the company filed a request with the Court of Appeal in Rome to bring forward the hearing (postponed as mentioned to January 25, 2022); This is to avoid the umpteenth adjournment of the case, which concerns the failure to comply with two *inter-partes* decisions rendered in the matter by the EU Court of Justice for a manifest violation of European law by the State-Judge. With a ruling on February 8, 2021, the Rome Court of Appeal (second section specializing in corporate matters) deemed it could grant the request for an advance ruling, setting the hearing for November 30, 2021. On that date the case was taken to decision with the assignment of the legal terms for closing statements and replies. By order of 2/22/2022, having acknowledged that one of its members had chosen to abstain, the Board re-submitted the case, arranging for the deeds to be sent onto the President of the Court of Appeal. On March 4, 2022, the case was reassigned to another judge. By judgment of March 31, 2022, the Board scheduled the hearing for December 1, 2022 for closing arguments. The Board has deferred the case to the hearing of January 19, 2023 for verbal discussion. Following the request made by the State advocacy, the case was deferred to the hearing of March 9, 2023 with judgment reserved. At the hearing on December 13, 2023, the Board granted the parties time to submit their closing statements and replies.

TIM S.A. - Arbitration proceedings no. 28/2021/SEC8

In March 2020, TIM S.A., a Brazilian subsidiary of the TIM Group, concluded negotiations with C6 bank and, in April 2020, launched exclusive offers for TIM customers who had opened C6 bank accounts and used their services. As compensation for this contract, TIM S.A. receives commission for each account activated, as well as the option of obtaining an investment in the bank upon achieving certain targets connected to the number of active accounts.

The number of shares received for each target achieved varies throughout the contract term, with the initial percentages being more advantageous for TIM due to the greater effort required for a new digital company to take off.

Even with the project's success, differences between the partners resulted in the initiation of arbitration proceedings in 2021.

Arbitration proceedings no. 28/2021/SEC8 were filed with the Arbitration and Mediation Center of the Brazil-Canada Chamber of Commerce, by TIM S.A. against Banco C6 S.A., Carbon Holding Financeira S.A. and Carbon Holding S.A. through which the interpretation will be discussed of certain clauses of the contracts governing the partnership. In the event of losing, the partnership may be dissolved.

On February 1, 2021, TIM S.A. announced that as part of this partnership it had obtained the right to exercise a Subscription Bonus to an indirect investment of approximately 1.44% in the share capital of Banco C6 S.A. due to the fulfillment of the 1st tier of agreed objectives in December 2020. This was to be exercised whenever deemed appropriate by the Company's management. If exercised, this subscription bonus will give TIM S.A. a non-controlling position, thereby not placing it in a position of significant control or influence over the management of Banco C6 S.A..

The Company subsequently exercised its option to purchase and convert C6 shares, representing 1.44% of the share capital, equal to 163 million reais.

TIM S.A. - Arbitration proceedings connected with the acquisition of the Oi Group mobile telephone assets

On September 19, 2022, TIM S.A. announced that the Buyers (TIM S.A., Telefônica Brasil S.A. and Claro S.A.) of the mobile telephone assets of Oi Móvel S.A. (the "Seller") had identified differences in the assumptions and calculation criteria that, under the terms of the Share Purchase Agreement and Other Covenants ("SPA"), justify a proposal to change the Adjusted Closing Price ("ACP") by TIM S.A. of approximately 1.4 billion reais. In addition to differences relating to the Adjusted Closing Price, others have also been identified relating to the contracts of Cozani (the company into which TIM S.A.'s share of the assets, rights and obligations of the Oi Móvel mobile telephone business, flowed) with companies supplying mobile infrastructure services (site/tower rental), which, under the terms of the SPA, give rise to indemnity by the Seller in TIM S.A.'s favor, of approximately 231 million reais. As a result of the differences found, TIM S.A. retained an amount of 634 million reais (671 million reais at December 31, 2022).

On October 3, 2022, considering the Seller's express violation of the dispute resolution mechanisms provided for in the SPA, TIM S.A. communicated that the Buyers had no other alternative but to file an arbitration procedure with the Market Arbitration Chamber (Câmara de Arbitragem do Mercado) of B3 S.A. - Brasil, Bolsa, Balcão against the Seller to determine the effective amount of the adjustment to the Adjusted Closing Price, in accordance with the SPA.

On October 4, 2022, TIM S.A. was surprised by news published by the press and by a Material Fact released by the Seller that a preliminary decision had been handed down by the 7th Business Court of the Judicial District of Rio de Janeiro determining the deposit in court by the Buyers of approximately 1.53 billion reais – of which approximately 670 million reais by TIM S.A. – in an account linked to the court-ordered reorganization process of Oi, where it will be safeguarded until a later decision by the arbitration court. Said deposit was made into an account linked to the Court ahead of the installation of the Court of Arbitration.

TIM S.A. appealed the decision and on October 17, 2022, the Superior Court of Justice, by monocratic judgment, rejected TIM S.A.'s appeal and that of the other Buyers. Therefore, on October 19, 2022, TIM S.A. paid the 7th Business Court of the Judicial District of Rio de Janeiro, the amount of 670 million reais by way of guarantee.

On October 4, 2023, TIM S.A. reported that the Court of Arbitration had approved an agreement stipulated between the Company, Telefônica Brasil S.A. and Claro S.A. (the "Buyers") and Oi S.A. - Em Recuperação Judicial (the "Seller") to put an end to the dispute and arbitration proceedings relating to the post-closing adjustment of the purchase price assigned to Oi's mobile telephone assets. The final price for the portion of the mobile telephone assets attributed to TIM S.A., considering the post-closing adjustment negotiated in the agreement, was 6.68 billion reais, taking the closing date as reference ("TIM Adjusted Final Price").

Considering the TIM Adjusted Final Price, TIM S.A. has therefore redeemed a portion equal to half the amount that had been deposited in court and subsequently transferred to the Court of Arbitration, which was initially equivalent to approximately 317 million reais. The amount of the proceeds, redetermined at the closing date, will be updated with the 100% change in the CDI index until deposit in court, interest and/or monetary update applicable until the date on which the respective reimbursement is paid. The remaining amount has been collected by the Seller as part of the purchase price of the mobile telephone assets attributed to TIM S.A.. Following the agreement, all matters and disputes pending between TIM S.A. and Oi S.A. in connection with the acquisition of the mobile telephone assets, have been settled.

Other liabilities related to the sale of assets and shareholdings

As part of agreements for the sale of assets and companies, the TIM Group has undertaken guarantees to indemnify the buyers for liabilities mainly connected with legal, tax, social security, and labor law issues, for an amount normally set as a percentage of the purchase price.
To cover such contingent liabilities, amounting to a total of around 220 million euros, provisions totaling approximately 9 million euros have been allocated solely for those cases for which payment is considered likely.
Furthermore, we report that in relation to the disposal of assets and investments, the TIM Group has commitments to pay additional indemnities under specific contractual provisions, the contingent liability of which cannot be measured at present.

(c) Commitments and guarantees

Guarantees, net of back-to-back guarantees received, amounted to 132 million euros.

The guarantees provided by third parties to Group companies, amounting to 7,921 million euros, related to guarantees provided by banks and financial institutions as a guarantee of the proper performance of contractual obligations.

In particular, we report:

- the insurance guarantees, which totaled 2,343 million euros, mainly refer to guarantee financing by the TIM Group in applying legal provisions for contracts of Public Administrations and similar bodies;
- the TIM Group had bank guarantees issued in favor of INPS in support of the application - by TIM and some Group companies - of Article 4 of Italian Law 92 of June 28, 2012 and Article 41, paragraph 5-bis of Italian Legislative Decree 148/2015 or the voluntary redundancy of employees meeting the requirements; the total amount of the guarantees issued is 1,040 million euros, including 973 million euros for TIM S.p.A. and 67 million euros for Group companies. with reference to the bank guarantees issued in favour of INPS for which financial assets have been pledged, reference should be made to Note 10 "Non-current and current financial assets";
- TIM had bank guarantees issued in favor of Infratel over the advances of contributions under the National Recovery and Resilience Plan (NRRP) in relation to the "Italia 1 Giga" plans (lots 1 and 5) for a total exposure of 208 million euros. For more details, see Note 17 "Net financial debt".

Lastly, in May 2018, TIM issued a surety to the Prime Minister's Office for 74 million euros to secure an appeal to the Lazio Administration Court for a provisional stay of the administrative fine levied on TIM following the preliminary investigation connected with the penalty proceeding initiated under Article 2 of Decree Law 21 of 3/15/2012 (the "Golden Power" law).

There are also surety bonds on the telecommunication services in Brazil for 668 million euros.

The loan guarantees are described in the Note 16 "Non-current and current financial liabilities".

NOTE 26
REVENUES

This item rose by 508 million euros compared to 2022. The figure breaks down as follows:

(million euros)	2023	2022
Equipment sales	1,343	1,188
Services	14,953	14,600
Total	**16,296**	**15,788**

Revenues from telecommunications services are presented gross of amounts due to other TLC operators, equal to 1,168 million euros (1,205 million euros in 2022), included in Costs of services.

Revenues from services in 2023 include revenues for voice and data services on fixed and mobile networks for Retail customers for 7,871 million euros and for other Wholesale operators for 2,695 million euros.

For a breakdown of revenues by operating segment/geographical area, reference should be made to the Note "Segment Reporting".

NOTE 27
OTHER INCOME

This item decreased by 7 million euros compared to 2022. The breakdown is as follows:

(million euros)	2023	2022
Late payment fees charged for telephone services	37	39
Recovery of employee benefit expenses, purchases and services rendered	17	13
Capital and operating grants	44	38
Damages, penalties and recoveries connected with litigation	38	37
Estimate revisions and other adjustments	51	68
Income for special training activities	5	1
Other	14	17
Total	**206**	**213**

NOTE 28
ACQUISITION OF GOODS AND SERVICES

This item rose by 279 million euros compared to 2022. The figure breaks down as follows:

(million euros)		2023	2022
Purchase of raw materials and goods	**(a)**	**1,158**	**1,164**
Costs of services:			
Revenues due to other TLC operators		1,168	1,205
Costs for telecommunications network access services		127	130
Commissions, sales commissions and other selling expenses		1,453	1,263
Advertising and promotion expenses		237	235
Professional and consulting services		229	311
Utilities		537	507
Maintenance costs		532	518
Outsourcing costs for other services		407	406
Mailing and delivery expenses for telephone bills, directories and other materials to customers		32	37
Other service expenses		703	665
	(b)	**5,425**	**5,277**
Lease and rental costs:			
Rent and leases		85	83
TLC circuit subscription charges		188	189
Other lease and rental costs		662	526
	(c)	**935**	**798**
Total	**(a+b+c)**	**7,518**	**7,239**

In 2023, lease and rental costs included around 10 million euros in short-term lease payments of modest value (approximately 12 million euros in 2022).

NOTE 29
EMPLOYEE BENEFITS EXPENSES

This item decreased by 193 million euros compared to 2022. The breakdown is as follows:

(million euros)		2023	2022
Ordinary employee expenses			
Wages and salaries		1,732	1,812
Social security expenses		627	658
Other employee benefits		162	153
	(a)	**2,521**	**2,623**
Costs and provisions for agency contract work	**(b)**	**1**	**1**
Miscellaneous expenses for employees and other labor-related services rendered			
Charges for termination benefit incentives		6	222
Corporate restructuring expenses		456	329
Other		3	5
	(c)	**465**	**556**
Total	**(a+b+c)**	**2,987**	**3,180**

Employee benefits expenses mainly related to the Domestic Business Unit for 2,648 million euros (2,868 million euros in 2022) and to the Brazil Business Unit for 338 million euros (311 million euros in 2022).

"Charges for termination benefit incentives" and "Corporate restructuring expenses" totaled 462 million euros (551 million euros in 2022) and are mainly linked to outgoing staff, envisaged according to the application of art. 4 of Law no. 92 of June 28, 2012 as per the agreements signed, during the year, with the trade unions and referring entirely to the Italian companies of the Domestic Business Unit.

The average salaried workforce, including agency contract workers, stood at 43,145 employees in 2023 (45,912 in 2022). A breakdown by category is as follows:

(number of units)	2023	2022
Executives	554	589
Middle managers	3,804	4,090
White collars	38,669	41,059
Blue collars	87	159
Employees on payroll	**43,114**	**45,897**
Agency contract workers	31	15
Total average salaried workforce	**43,145**	**45,912**

The headcount at December 31, 2023, including agency contract workers, stood at 47,180 employees (50,392 at December 31, 2022), showing a decrease of 3,212 employees.

NOTE 30
OTHER OPERATING EXPENSES

This item rose by 56 million euros compared to 2022. The figure breaks down as follows:

(million euros)	2023	2022
Write-downs and expenses in connection with credit management	233	236
Provision charges	88	129
TLC operating fees and charges	241	243
Indirect duties and taxes	109	104
Penalties, settlement compensation and administrative fines	32	25
Subscription dues and fees, donations, scholarships and traineeships	12	13
Sundry expenses	157	66
Total	**872**	**816**
of which, included in the supplementary disclosure on financial instruments	*233*	*236*

The non-recurring item in the financial year 2023 amounted to 134 million euros (77 million euros in the financial year 2022) and related mainly to regulatory penalties and provisions for onerous contracts.

Further details on Financial Instruments are provided in Note 20 "Supplementary disclosure on financial instruments".

NOTE 31
INTERNALLY GENERATED ASSETS

This item decreased by 21 million euros compared to 2022. The figure breaks down as follows:

(million euros)	2023	2022
Intangible assets with a finite useful life	230	244
Tangible assets	308	315
Total	**538**	**559**

They mainly refer to the capitalization of labor costs relating to design, construction and testing of network infrastructure and systems, as well as software development and development of network solutions, applications and innovative services.

NOTE 32
DEPRECIATION AND AMORTIZATION

These increased by 86 million euros compared to 2022. The breakdown is as follows:

(million euros)		2023	2022
Amortization of intangible assets with a finite useful life			
Industrial patents and intellectual property rights		1,045	1,069
Concessions, licenses, trademarks and similar rights		485	442
Other intangible assets		10	6
	(a)	**1,540**	**1,517**
Depreciation of tangible assets owned			
Buildings (civil and industrial)		37	37
Plant and equipment		2,162	2,145
Manufacturing and distribution equipment		7	8
Other		155	158
	(b)	**2,361**	**2,348**
Amortization of rights of use assets			
Property		440	398
Plant and equipment		483	474
Other tangible assets		35	38
Intangible assets		4	2
	(c)	**962**	**912**
Total	**(a+b+c)**	**4,863**	**4,777**

For further details refer to the Notes "Intangible assets with a finite useful life", "Tangible assets" and "Rights of use assets".

For a breakdown of depreciation and amortization by operating segment/geographical area, reference should be made to Note 39 "Segment Reporting".

NOTE 33
GAINS/(LOSSES) ON DISPOSALS OF NON-CURRENT ASSETS

This item was broken down as follows:

(million euros)		2023	2022
Gains on disposals of non-current assets:			
Gains on the retirement/disposal of intangible, tangible and user rights on rental		15	50
	(a)	**15**	**50**
Losses on disposals of non-current assets:			
Losses on the retirement/disposal of intangible, tangible and user rights on rental		26	14
	(b)	**26**	**14**
Total	**(a-b)**	**(11)**	**36**

NOTE 34
IMPAIRMENT REVERSALS (LOSSES) ON NON-CURRENT ASSETS

(million euros)		2023	2022
Impairment reversals on non-current assets:			
on intangible assets		—	—
on tangible assets		—	—
	(a)	**—**	**—**
Impairment losses on non-current assets:			
on intangible assets		—	—
on tangible assets		—	
	(b)	**—**	**—**
Total	**(a-b)**	**—**	**—**

The net impairment losses on non-current assets were null in 2023.

In accordance with IAS 36, goodwill is not subject to amortization, but is tested for impairment on an annual basis, when preparing the company's separate and consolidated financial statements.

In preparing the Annual Report for 2023, the TIM Group carried out an impairment test on goodwill. The results of that testing, carried out in accordance with the specific procedure adopted by the Group, confirmed the amounts of Goodwill allocated to the Group's individual Cash Generating Units.

Further details are provided in the Note 5 "Goodwill".

NOTE 35
OTHER INCOME (EXPENSES) FROM INVESTMENTS

Details are as follows:

(million euros)	2023	2022
Dividends from Other investments	2	2
Net gains on the sale of investments in associates and joint ventures accounted for using the equity method	45	206
Sundry income (expense)	6	(2)
Total	**53**	**206**
of which, included in the supplementary disclosure on financial instruments	*2*	*2*

The balance for the 2023 financial year mainly includes the income connected to the definition, in October 2023, of the Adjusted Closing Price relating to the acquisition by the Brazilian subsidiary TIM SA of part of the Oi group's mobile telephony assets (56 million euros). More in detail, on October 4, 2023, TIM S.A. reported that the Court of Arbitration had approved an agreement stipulated between the Company, Telefônica Brasil S.A. and Claro S.A. (the "Buyers") and Oi S.A. - Em Recuperação Judicial (the "Seller") to put an end to the dispute and arbitration proceedings relating to the post-closing adjustment of the purchase price assigned to Oi's mobile telephone assets. The final price for the portion of the mobile telephone assets attributed to TIM S.A., considering the post-closing adjustment negotiated in the agreement, was 6.68 billion reais, taking the closing date as reference ("TIM Adjusted Final Price").

Considering the TIM Adjusted Final Price, TIM S.A. has therefore redeemed a portion equal to half the amount that had been deposited in court and subsequently transferred to the Court of Arbitration, which was initially equivalent to approximately 317 million reais. The amount of the proceeds, redetermined at the closing date, will be updated with the 100% change in the CDI index until deposit in court, interest and/or monetary update applicable until the date on which the respective reimbursement is paid. The remaining amount has been collected by the Seller as part of the purchase price of the mobile telephone assets attributed to TIM S.A.. Following the agreement, all matters and disputes pending between TIM S.A. and Oi S.A. in connection with the acquisition of the mobile telephone assets, have been settled.

In financial year 2022 the balance mainly included the net capital gain connected to the sale of 41% of the share capital of the Daphne 3 holding company, which currently holds a 29.9% stake in Infrastrutture Wireless Italiane - INWIT (171 million euros) as well as the capital gain net connected to the sale of the stake in Satispay (33 million euros).

NOTE 36
FINANCE INCOME AND EXPENSES

Finance income (expenses) showed a net expense of 1,740 million euros (expense of 1,423 million euros in 2022) and comprises:

(million euros)	2023	2022
Finance income	1,095	1,115
Finance expenses	(2,835)	(2,538)
Net finance income (expenses)	**(1,740)**	**(1,423)**

The items break down as follows:

(million euros)		2023	2022
Interest expenses and other finance expenses:			
Interest expenses and other costs relating to bonds		(855)	(766)
Interest expenses to banks		(379)	(127)
Interest expenses to others		(70)	(51)
Finance expenses on lease liabilities		(426)	(377)
		(1,730)	**(1,321)**
Commissions		(61)	(70)
Other finance expenses (*)		(200)	(200)
		(261)	**(270)**
Interest income and other finance income:			
Interest income		137	122
Income from financial receivables, recorded in Non-current assets		2	3
Income from securities other than investments, recorded in Non-current		—	—
Income from securities other than investments, recorded in Current assets		25	23
Miscellaneous finance income (*)		50	51
		214	**199**
Total net finance interest/(expenses)	**(a)**	**(1,777)**	**(1,392)**
Other components of finance income and expenses:			
Net exchange gains and losses		(3)	23
Net result from derivatives		(2)	39
Net fair value adjustments to fair value hedge derivatives and underlying instruments		—	—
Net fair value adjustments to non-hedging derivatives		42	(93)
Total other components of finance income and expenses	**(b)**	**37**	**(31)**
Total net finance income (expenses)	**(a+b)**	**(1,740)**	**(1,423)**
of which, included in the supplementary disclosure on net financial		*(1,387)*	*(1,142)*

(*) of which IFRS 9 impact positive for 6 million euros in 2023, nil in 2022.

(million euros)	2023	2022
Income from negative adjustment of IFRS 9 impairment reserve on financial assets measured at FVTOCI	*1*	*1*
Expenses from positive adjustment of IFRS 9 impairment reserve on financial assets measured at FVTOCI	*(1)*	*(7)*
Income/Expenses from IFRS 9 reserve impairment on financial assets measured at FVTOCI	**—**	***(6)***
Reversal of IFRS 9 impairment reserve on financial assets measured at FVTOCI	*6*	—
Impairment losses on financial assets other than investments	—	—

Further details on Financial Instruments are provided in Note 20 "Supplementary disclosure on financial instruments".

For greater clarity of presentation, the net effects relating to derivative financial instruments are summarized in the following table:

(million euros)		2023	2022
Foreign currency conversion gains		271	360
Exchange losses		(274)	(337)
Net exchange gains and losses		**(3)**	**23**
Income from fair value hedge derivatives		—	2
Charges from fair value hedge derivatives		—	(1)
Net result from fair value hedge derivatives	**(a)**	**—**	**1**
Positive effect of the reversal of the Reserve of cash flow hedge derivatives to the income statement (interest rate component)		461	426
Negative effect of the reversal of the Reserve of cash flow hedge derivatives to the income statement (interest rate component)		(370)	(321)
Net effect of the Reversal of the Reserve of cash flow hedge derivatives to the income statement (interest rate component)	**(b)**	**91**	**105**
Income from non-hedging derivatives		62	56
Charges from non-hedging derivatives		(155)	(123)
Net result from non-hedging derivatives	**(c)**	**(93)**	**(67)**
Net result from derivatives	**(a+b+c)**	**(2)**	**39**
Positive fair value adjustments to fair value hedge derivatives		—	—
Negative fair value adjustments relating to financial assets and liabilities underlying fair value hedge derivatives		—	—
Net fair value adjustments	**(d)**	**—**	**—**
Positive fair value adjustments to Underlying financial assets and liabilities of fair value hedge derivatives		—	3
Negative fair value adjustments relating to fair value hedge derivatives		—	(3)
Net fair value adjustments	**(e)**	**—**	**—**
Net fair value adjustments to fair value hedge derivatives and underlying instruments	**(d+e)**	**—**	**—**
Positive fair value adjustments to non-hedging derivatives	(f)	87	69
Negative fair value adjustments to non-hedging derivatives	(g)	(45)	(162)
Net fair value adjustments to non-hedging derivatives	**(f+g)**	**42**	**(93)**

NOTE 37
PROFIT (LOSS) FOR THE YEAR

The profit (loss) for the year can be analyzed as follows:

(million euros)	2023	2022
Profit (loss) for the year	**(1,107)**	**(2,654)**
Attributable to:		
Owners of the Parent:		
Profit (loss) from continuing operations	(1,441)	(2,925)
Profit (loss) from Discontinued operations/Non-current assets held for sale	—	—
Profit (loss) for the year attributable to owners of the Parent	**(1,441)**	**(2,925)**
Non-controlling interests:		
Profit (loss) from continuing operations	334	271
Profit (loss) from Discontinued operations/Non-current assets held for sale	—	—
Profit (loss) for the year attributable to Non-controlling interests	**334**	**271**

NOTE 38

Total	**21,259,002,097**	**21,241,315,999**

(*) The average number of ordinary shares also includes the potential ordinary shares relating to the equity compensation plans of employees for which the (market and non-market) performance conditions have been met, in addition, for 2022, to the theoretical number of shares that are issuable as a result of the conversion of the unsecured equity-linked convertible bond reimbursed on March 26, 2022. Consequently, the "Net profit (loss) for the year attributable to owners of the Parent" and the "Profit (loss) from continuing operations attributable to owners of the Parent" are also adjusted to exclude the effects, net of tax, related to the above-mentioned plans and to the convertible bond (+10 million euros in 2022); As regards 2023 and 2022, however, these effects have not been included in the calculation insofar as, in accordance with the provisions of IAS 33, the latter are allegedly anti-diluting.

Future potential changes in share capital

The table below shows future potential changes in share capital, based on the long-term share incentive plans, still outstanding at December 31, 2023:

	Number of maximum shares issuable	**Share capital** (thousands of euros)	**Additional paid-in capital** (thousands of euros)	**Subscription price per share** (euros)
Capital increases already approved (ordinary shares)				
2020-2022 Long Term Incentive Plan (free issue)	8,619,620			
2022-2024 Stock Options Plan	257,763,000	109,292		0.424
Total	**266,382,620**	**109,292**		

Further information is provided in Note 16 "Non-current and current financial liabilities" and Note 41 "Equity compensation plans".

NOTE 39
SEGMENT REPORTING

(a) Segment reporting

The operating segments of the TIM Group, organized for the telecommunications business and the related geographical location are as follows:

- **Domestic**: includes the activities in Italy relating to voice and data services on fixed and mobile networks for end users (retail) and other operators (wholesale), the activities of the Telecom Italia Sparkle group which, at international level (in Europe, the Mediterranean and South America), develops fiber optic networks for wholesale customers, the operations of the company FiberCop for the provision of passive access services on the secondary copper and fiber network, and the activities of Noovle S.p.A. (Cloud and Edge Computing solutions), the activities of Olivetti (products and services for Information Technology), and, Domestic sector support structures.
- **Brazil**: includes mobile and fixed telecommunications operations in Brazil (TIM S.A.);
- **Other Operations**: include the financial companies (Telecom Italia Capital S.A. and Telecom Italia Finance S.A.) and other minor companies not strictly related to the TIM Group's core business.

In view of the decision-making process adopted by the TIM Group, segment reporting is presented for financial operating data.

The results of financial management, income tax expense for the year, as well as profit (loss) from Discontinued operations / Non-current assets held for sale are presented at a consolidated level.

(c) Information about major customers

None of the TIM Group's customers exceeds 10% of consolidated revenues.

NOTE 40
RELATED-PARTY TRANSACTIONS

The following tables show the figures relating to related party transactions and the impact of those amounts on the TIM Group's separate consolidated income statement, consolidated statements of financial position and consolidated statements of cash flows.

Pursuant to Art. 5, paragraphs 8 and 9, of Consob Regulation no. 17221 of March 12, 2010 concerning "Related-party transactions" and subsequent amendments, in the 2023 financial year there are no transactions of greater importance, as defined by the Art. 4, paragraph 1, letter. a) of the aforementioned regulation which have significantly influenced the financial situation or results of the TIM Group.

In addition, there were no transactions concluded in 2023 that significantly impacted the equity position or results of the TIM Group, nor were there any changes or developments with respect to the related-party transactions described in the 2022 Report on Operations which had a significant effect on the financial position or on the performance of the TIM Group in 2023.

Related-party transactions, when not dictated by specific laws, were conducted at arm's length. They were performed in compliance with the internal procedure, which sets forth rules designed to ensure the transparency and fairness of the transactions in accordance with Consob Regulation 17221/2010. The current procedure is available on the website gruppotim.it, under the Group - Governance - Governance Tools - Other Codes and Procedures section.

The effects of the related-party transactions on the TIM Group separate consolidated income statement line items for 2023 and 2022 are as follows:

Remuneration to key managers

In 2023, the total remuneration recorded on an accrual basis by TIM or by Group subsidiaries in respect of key managers amounted to 18 million euros (24 million euros in 2022).

(million euros)	2023	2022
Short-term remuneration	15[1]	14[3]
Long-term remuneration		1
Employment termination benefit incentives		5 [4]
Share-based payments (*)	3[2]	4[5]
Total	**18**	**24**

(*) These refer to the fair value of the rights, accrued to December 31, under the share-based incentive plans of TIM S.p.A. and its subsidiaries (Long Term Incentive, Stock Options Plan and Plans of the subsidiaries).
(1) of which 1.4 million euros recorded by the subsidiaries;
(2) of which 0.5 million euros recorded by the subsidiaries;
(3) of which 1.2 million euros recorded by the subsidiaries;
(4) of which 0.1 million euros recorded by the subsidiaries;
(5) of which 2.8 million euros recorded by the subsidiaries.

Short-term remuneration is paid during the reference year, and, at the latest, within the six months following the end of that period and, in 2023, do not include the effects of assessment differences related to 2022 costs amounting to -0.4 million euros. Likewise, they do not take in the value referring to the taxable amount of the LTI 2020-2022 Plan shares granted during the first half of 2023, amounting to 0.6 million euros.

In 2023, the contributions paid in to defined contribution plans (Assida and Fontedir) by TIM S.p.A. on behalf of key managers, amounted to 230,900 thousand euros (212,000 thousand euros in 2022).

In 2023, "Key managers", i.e. those who have the power and responsibility, directly or indirectly, for the planning, direction and control of the operations of the TIM Group, including directors, were the following:

Directors:		
Pietro Labriola		Managing Director and Chief Executive Officer of TIM S.p.A. General Manager of TIM S.p.A.
Managers:		
Alberto Maria Griselli		Diretor Presidente TIM S.A.
Adrian Calaza Noia	(1)	Chief Financial Office
Paolo Chiriotti	(2)	Chief Human Resources & Organization Office
Simone De Rose	(3)	Head of Procurement & Logistics
Massimo Mancini		Chief Enterprise Market Office
Giovanni Gionata Massimiliano Moglia	(4)	Chief Regulatory Affairs Office
Agostino Nuzzolo	(5)	Head of Legal & Tax
Claudio Giovanni Ezio Ongaro	(6)	Chief Strategy, Business Development & Wholebuy Office
Elisabetta Romano		Chief Network, Operations & Wholesale Office
Andrea Rossini	(7)	Chief Consumer, Small & Medium and Mobile Wholesale Market Office
Eugenio Santagata	(8)	Chief Public Affairs & Security Office
Elio Schiavo		Chief Enterprise and Innovative Solutions Office

(1) From November 24, 2023, Interim Head of Administration, Finance & Control in the Chief Network, Operations & Wholesale Office.
(2) From November 24, 2023, Interim Head of Regulatory Affairs in the Chief Network, Operations & Wholesale Office.
(3) From November 23, 2023, Head of Procurement. From November 24, 2023, also Interim Head of Procurement in the Chief Network, Operations & Wholesale Office.
(4) From November 24, 2023, Interim Head of Regulatory Affairs in the Chief Network, Operations & Wholesale Office.
(5) From November 24, 2023, Interim Head of Legal & Tax in the Chief Network, Operations & Wholesale Office.
(6) Until November 23, 2023, Head of the Chief Strategy & Business Development Office. From November 24, 2023, also Interim Head of Strategy & Business Development in the Chief Network, Operations & Wholesale Office.
(7) Until November 23, 2023, Head of the Chief Consumer, Small & Medium Market Office.
(8) From November 24, 2023, Interim Head of Public Affairs & Security in the Chief Network, Operations & Wholesale Office.

NOTE 41
EQUITY COMPENSATION PLANS

Equity compensation plans in force at December 31, 2023, are used for attraction and retention purposes, and as a long-term incentive for the managers and employees of the Group.

However, it should be noted that these plans do not have any significant effect on the economic result or on the financial position or on cash flows at December 31, 2023.

A summary is provided below of the plans in place at December 31, 2023.

Description of stock option plans

TIM S.p.A. 2022-2024 Stock Option Plan

The Shareholders' Meeting held on April 7, 2022, approved the one-shot 2022-2024 Stock Option Plan. The Plan aims to encourage Beneficiaries to create value for the Company's shareholders, aligning management's interests with the interests of TIM shareholders in terms of achieving the qualified objectives of the Industrial Plan and growth in the value of the Share in the medium-term. The Plan intends to also assure the possibility of attracting new managers from the outside, as the Industrial Plan is implemented.

The 2022-2024 Stock Options Plan is intended for the CEO, Top Management and a select number of managers of the TIM Group who hold key roles in terms of achieving the Strategic Plan objectives.

The Plan has a strike price of 0.4240 euros, a three-year vesting period (1.1.2022-12.31.2024) and a two-year exercise period (from approval of the 2024 financial statements and through to the next two years).

The following performance conditions are also envisaged for the three-year period 2022-2024:

- Cumulative (reported) Economic-financial indicator (EBITDA-CapEx) with a weight of 70%
- ESG indicators with a total weight of 30%, structured into:
    - percentage of women in positions of responsibility (15%);
    - percentage of consumption of renewable energies (15%).

The level of achievement of the indicators determines the accrual of option rights over an interval that ranges from -10% to + 10% with respect to the target number allocated per bracket.

At December 31, 2023, there were a total of 145 addressees and the number of options assigned at target is 197,645,537.

For further details, see the Information Document on the initiative at https://www.gruppotim.it/content/dam/gt/investitori/doc---avvisi/anno-2022/ita/Doc-informativo-Piano-stock-option-22-24.pdf.

Description of other compensation plans

TIM S.p.A. - Long Term Incentive Plan 2020-2022

The Shareholders' Meeting of April 23, 2020 approved the launch of the rolling and equity based long-term incentive plan called LTI 2020-2022.

The Plan envisaged three incentive cycles, connected with the performance three-year periods 2020-2022, 2021-2023, 2022-2024; over time, two of the three incentive cycles have been launched: 2020-2022, 2021-2023.

On April 7, 2022, the Shareholders' Meeting approved, after acknowledging the changes in scenario, the obsolescence of the 2020-2022 Long Term Incentive Plan and replaced the third cycle of this plan with the new 2022-2024 Stock Options Plan described previously.

For more details on the 2020-2022 LTI Plan, see to the TIM Group's Consolidated Financial Statements as at December 31, 2022.

2020-2022 Cycle

The final results of the performance indicators tied to this cycle were approved by the TIM S.p.A. Board of Directors on March 15, 2023. 10,879,774 shares were assigned to the 102 beneficiaries still employed with TIM or the Group's subsidiaries as of December 31, 2022.

2021-2023 Cycle

The final results of the performance indicators tied to this cycle were approved by the TIM S.p.A. Board of Directors on March 6, 2024.

Valuation at December 31, 2023 of the gate to accessing maturity of the performance shares is below the value of the share at the Plan start-up: failure to satisfy the Gate condition determines the forfeiture of 28,913,829 Performance Shares at target and the maintenance - for the 107 recipients continuing their employment with TIM or Group subsidiaries at December 31, 2023 - of the right to receive a total of 8,619,620 shares (Attraction/Retention Shares).

TIM S.A. – Long Term Incentive Plan 2018-2020

On April 19, 2018, the General Meeting of Shareholders of TIM Participações S.A. (now TIM S.A.) approved the long-term incentive plan for managers in key positions in the Company. The plan aimed to reward participants with shares issued by the company, subject to specific temporal and performance conditions. The portion of shares linked to performance (70%) is granted 1/3 each year, if the performance target is achieved; the remaining portion of shares (30%) is granted 3 years after allocation (restricted share). The vesting period is 3 years (with annual measurement) and the company does not have the legal obligation to repurchase or liquidate the shares in cash or in any other form.

The plan – in addition to transferring shares to beneficiaries – also includes the possibility of rewarding participants through the settlement of the amount corresponding in cash.

Year 2018

On April 20, 2018, plan beneficiaries were granted the right to receive a total of 849,932 shares, of which 594,954 performance shares restricted to performance conditions and with gradual vesting over 3 years and 254,978 restricted shares, with a vesting period of 3 years.

At December 31, 2023, 100% of the rights assigned were considered as vested.

Year 2019

On July 30, 2019, plan beneficiaries were granted the right to receive a total of 930,662 shares, of which 651,462 performance shares restricted to performance conditions and with gradual vesting over 3 years and 279,200 restricted shares, with a total vesting period of 3 years.

At December 31, 2023, 100% of the rights assigned were considered as vested.

Year 2020

On April 14, 2020, plan beneficiaries were granted the right to receive a total of 796,054 shares, of which 619,751 performance shares restricted to performance conditions and with gradual vesting over 3 years and 176,303 restricted shares, with a total vesting period of 3 years.

Three vesting periods ended on December 31, 2023:

- **In 2021**: in compliance with the results approved on May 5, 2021, 267,145 shares were transferred to beneficiaries, of which 206,578 relating to the original volume accrued, 51,634 granted according to the degree to which objectives had been achieved and 8,933 shares as a result of the dividends distributed during the period.
- **In 2022**: in compliance with the results approved on April 26, 2022, in July 337,937 shares were transferred to beneficiaries, of which 252,024 relating to the original volume accrued, 63,029 granted according to the degree to which objectives had been achieved and 22,884 shares as a result of the dividends distributed during the period. In addition, for participants transferred to other Group companies, as per the Plan rules, payment in cash was considered in June of the amount corresponding to 3,478 shares (2,593 relating to the original volume accrued, 649 acknowledged according to the degree to which the objectives had been achieved and 236 due to dividends distributed during the period).
- **In 2023**: in compliance with the results approved on May 8, 2023, in July 284,922 shares were transferred to beneficiaries, of which 230,188 relating to the original volume accrued, 25,174 granted according to the degree to which objectives had been achieved and 29,560 shares as a result of the dividends distributed during the period. In addition, for participants transferred to other Group companies, as per the Plan rules, payment in cash was considered in July of the amount corresponding to 37,714 shares (30,471 relating to the original volume accrued, 3,330 acknowledged according to the degree to which the objectives had been achieved and 3,913 due to dividends distributed during the period).

At December 31, 2023, of the original volume assigned of 796,054 shares, 74,200 had been canceled due to the beneficiaries having left the company and 605,082 shares had been transferred to beneficiaries (458,602 related to the original volume vested, 114,663 recognized on the basis of performance achieved and 31,817 for effect of dividends distributed during the period). For participants transferred to other Group companies, as per the Plan rules, payment in cash was considered of the amount corresponding to 3,478 shares (2,593 relating to the original volume accrued, 649 acknowledged according to the degree to which the objectives had been achieved and 236 due to dividends distributed during the period), thus completing the 2020 grant.

TIM S.A. – Long Term Incentive Plan 2021-2023

On March 30, 2021, the General Meeting of Shareholders of TIM S.A. approved the long-term incentive plan for managers in key positions in the company. The plan aims to reward participants with shares issued by the company, according to specific time (restricted shares) and performance (performance shares) conditions. The vesting period is 3 years and the company does not have the legal obligation to repurchase or liquidate the shares in cash or in any other form. The plan – in addition to transferring shares to beneficiaries – also includes the possibility of rewarding participants through the settlement of the amount corresponding in cash.

Year 2021

On May 5, 2021, plan beneficiaries were granted the right to receive a total of 3,431,610 shares, of which 3,173,142 performance shares restricted to performance conditions and with gradual vesting over 3 years and 258,468 restricted shares, with a vesting period of 3 years.

In 2021, the Special Grant was added to the traditional plan, a further extraordinary concession with the aim of encouraging the closure of the purchase operation for part of Oi Móvel's assets in Brazil as well as the success of the subsequent integration operations.

Of the total 3,431,610 shares granted, 1,151,285 relate to the traditional grant (with 892,817 performance shares and 258,468 restricted shares) and 2,280,325 refer to the Special Grant.

On February 9, 2023, the Board of Directors agreed to adjust the number of performance shares granted under the Special Grant by 220,743 to conform the award to the new participant role.

On December 31, 2023, two vesting periods were completed:with regard to the**traditional** grant:

- **2022**: in compliance with the results approved on April 26, 2022, in July 572,608 shares were transferred to beneficiaries, of which 463,608 relating to the original volume accrued, 87,605 granted according to the degree to which objectives had been achieved and 21,395 shares as a result of the dividends distributed during the period. In addition, for participants transferred to other Group companies, as per the Plan rules, payment in cash was considered in June of the amount corresponding to 3,486 shares (2,883 relating to the original volume accrued, 473 acknowledged according to the degree to which the objectives had been achieved and 130 due to dividends distributed during the period).
- **2023**: in compliance with the results approved on May 8, 2023, in July 169,462 shares were transferred to beneficiaries, of which 128,384 relating to the original volume accrued, 28,484 granted according to the degree to which objectives had been achieved and 12,594 shares as a result of the dividends distributed during the period. In addition, for participants transferred to other Group companies, as per the Plan rules, payment in cash was considered in July of the amount corresponding to 17,576 shares (13,316 relating to the original volume accrued, 2,954 acknowledged according to the degree to which the objectives had been achieved and 1,306 due to dividends distributed during the period).

Regarding the ***Special Grant***:

- **2022**: in compliance with the results approved on April 26, 2022, 601,936 shares were transferred to beneficiaries in July, of which 579,451 relating to the original volume accrued and 22,485 shares as a result of the dividends distributed during the period.
- **2023**: in compliance with the results approved on May 8, 2023, in July 1,038,041 shares were transferred to beneficiaries, of which 829,161 relating to the original volume accrued, 131,775 granted according to the degree to which objectives had been achieved and 77,105 shares as a result of the dividends distributed during the period. In addition, for participants transferred to other Group companies, as per the Plan rules, payment in cash was considered in July of the amount corresponding to 92,254 shares (76,087 relating to the original volume accrued, 9,314 acknowledged according to the degree to which the objectives had been achieved and 6,853 due to dividends distributed during the period).

As of December 31, 2023, 737,521 of a total of 3,431,610 allocated shares had been canceled due to beneficiaries leaving the Company. This left a total of 821,942 shares that could be vested at the end of the period.

Year 2022

On April 26, 2022, plan beneficiaries were granted the right to receive a total of 1,227,712 shares, of which 927,428 performance shares restricted to performance conditions and with gradual vesting over 3 years and 300,284 restricted shares, with a vesting period of 3 years.

2023: in compliance with the results approved on May 8, 2023, in July 392,460 shares were transferred to beneficiaries, of which 264,305 relating to the original volume accrued, 110,928 granted according to the degree to which objectives had been achieved and 17,227 shares as a result of the dividends distributed during the period. At December 31, 2023, 192,105 shares had been canceled due to beneficiaries leaving the company. 392,460 shares were transferred to the beneficiaries, leaving a total of 771,302 shares that could be vested at the end of the period.

Year 2023

On July 31, 2023, plan beneficiaries were granted the right to receive a total of 1,560,993 shares, of which 1,189,900 performance shares restricted to performance conditions and with gradual vesting over 3 years and 371,093 restricted shares, with a vesting period of 3 years.

At December 31, 2023, the first vesting period had not yet concluded and 25,389 shares had been canceled due to beneficiaries leaving the Company.

Calculation of fair value measurement of the granted options and rights

Parameters used to determine the fair value – TIM S.p.A.

Plans/Parameters	Exercise price (euros)	Nominal value (euros) (1)	Volatility (2)	Duration	Expected dividends (euros) (3)	Risk-free interest rate (4)
2020-2022 LTI Plan – Second Cycle (2021-23)	—	0.42	n.a.	3 years	0.01	-0.720% at 3 years
SOP 2022-2024	0.424	—	34.6%	3 years	0.02	0.479% at 3 years

(1) Arithmetic mean of the official prices of the Shares recognized starting from the stock market trading day prior to that of assignment until the thirtieth previous ordinary calendar day (both included) on the Electronic Stock Exchange organized and managed by Borsa Italiana S.p.A., calculated using only the days to which the prices taken as the basis of calculation refer as the divisor, cut off at the second decimal.

(2) Based on the performance objectives of the plan, the TIM share volatility values were considered and, if necessary, also those of the securities of the major companies of the telecommunications sector ("peer basket").

(3) Dividends have been estimated on the basis of Bloomberg data.

(4) The risk-free interest rate refers to the rate of government bonds of the Federal Republic of Germany (market benchmark for transactions in euros) on the valuation date with a maturity consistent with the reporting period.

Parameters used for the assignments of TIM S.A.

Plans/Parameters	Nominal value (reais)	Duration
PS/RS Plan 2018	14.41	3 years
PS/RS Plan 2019	11.28	3 years
PS/RS Plan 2020	14.40	3 years
PS/RS Plan 2021	12.95	3 years
PS/RS Plan 2022	13.23	3 years
PS/RS Plan 2023	12.60	3 years

Effects on the income statement and statement of financial position

Equity compensation plans which call for payment in equity instruments are recorded at fair value (except for the 2018 Plan of TIM S.A.) which represents the cost of such instruments at the grant date and is recorded in the separate income statements under "Employee benefits expenses" over the period between the grant date and the vesting period with a contra-entry to the equity reserve ("Other equity instruments"). For the portion of the plans that provide for the payment of compensation in cash, the amount is recognized in liabilities as a contra-entry to "Employee benefits expenses". Equity compensation plans which call for payment in equity instruments did not have significant impacts either on the income statements or the statements of financial position or of cash flows of the TIM Group at December 31, 2023.

NOTE 42

SIGNIFICANT NON-RECURRING EVENTS AND TRANSACTIONS

The effect of 2023 non-recurring events and transactions on the equity, profit, net financial debt and cash flows of the TIM Group is set out below in accordance with Consob Communication DEM/6064293 of July 28, 2006. The non-recurring effects on Equity and Profit (loss) for the year are shown net of tax effects.

(million euros)		Equity	Profit (loss) for the year	Net financial debt carrying amount	Cash flows (*)
Carrying amount	**(a)**	**17,513**	**(1,107)**	**25,776**	**(661)**
Other income		(11)	(11)	20	(20)
Acquisition of goods and services - Expenses related to agreements and the development of non-recurring projects and other expenses		(42)	(42)	39	(39)
Employee benefits expenses - Charges connected to corporate reorganization/restructuring and other costs		(477)	(477)	389	(389)
Other operating expenses - Expenses related to disputes and regulatory sanctions and potential liabilities related to them, other provisions and charges		(126)	(126)	121	(121)
Net losses on disposals of non-current assets:		(4)	(4)	(3)	3

(b) Research and Development

Costs for research and development activities are represented by external costs, dedicated employee benefits expenses and depreciation and amortization. Details are as follows:

(million euros)	2023	2022
Research and development costs expensed during the year	48	49
Capitalized development costs	1,016	906
Total research and development costs (expensed and capitalized)	**1,064**	**955**

The increase of 109 million euros compared to 2022 is mainly attributable to the consolidation of activities on the 5G network in relation to NRRP projects.

In the 2023 Separate Consolidated Income Statement, a total of 866 million euros of amortization expense was recorded for development costs, capitalized during the year and in prior years.

Research and development activities carried out by the TIM Group are described in detail in the Report on Operations ("Innovation, Research and Development" section).

(c) Lease income

The TIM Group has entered into lease contracts on land and buildings for office and industrial use, mobile network infrastructure sites and network infrastructure; at December 31, 2023 and at December 31, 2022 the lease installments at nominal value still to be collected totaled:

(million euros)	12.31.2023	12.31.2022
Within next year	97	91
From 1 to 2 years after the end of the reporting period	46	39
From 2 to 3 years after the end of the reporting period	41	38
From 3 to 4 years after the end of the reporting period	39	34
From 4 to 5 years after the end of the reporting period	37	33
Beyond 5 years after the end of the reporting period	34	30
Total	**294**	**265**

(d) Public Funds

Italian Law 124/2017 requires that information on subsidies, contributions, paid assignments and economic benefits of any kind received from Italian public administrations be provided. In this regard, the following table shows the disbursements collected by the TIM Group in the years 2023 and 2022:

Distributing entity	Area of intervention	Received in 2023 (million euros)	Received in 2022 (million euros)
Fondimpresa/Fondirigenti	training	3	3
Infratel	construction of network infrastructure	758 (*)	3
Ministry of Enterprises and Made in Italy (formerly the Ministry of Economic Development)[1]	research and innovation	3	3
ANPAL	training	3	—
Other[2]		1	1
Total[3]		**768**	**10**

(*) include 488 million euros collected on January 2, 2024.
(1) 2023 – includes ChAALenge Project
(2) 2023 – MUR; Sector affected: research
(3) 2022 - includes 0.7 million euros in returns

TIM S.p.A. has been included among the beneficiaries of the Ministry Decree (Enterprise and Made in Italy) of March 5, 2018 and the ChAALenge innovation agreement of March 17, 2021 for a joint Research and Development project (Prog. no. F/180016/01-05/X43 - CUP B49J22002110005).

The project's "Smart Everything Everywhere" mode; aims to improve the quality of life of frail people in every environment by building an integrated system to support frailty and aging.

The project was rolled out between January 1, 2021 and December 31, 2023. In 2023, TIM received contributions of 366,600.33 euros.

(e) Directors' and statutory auditors' remuneration

Total remuneration due for 2023 to the directors and statutory auditors of TIM S.p.A. for the performance of these functions at the Parent and in other consolidated companies totaled 4.166 million euros for directors and 0.610 million euros for statutory auditors. In reference to the compensation to which the Directors are entitled, it should be noted that the amount was calculated by considering only compensation for corporate offices (in primis those under Article 2389, subsections 1 and 3 of the Italian Civil Code), thus excluding amounts relating to any employment relationship with the companies of the Group and any non-monetary fringe benefits; for a complete and detailed description of the compensation paid to the directors and statutory auditors, reference should be made to the Compensation Report, available at the Company's headquarters and on the corporate website at the following address: gruppotim.it/assemblea.

(f) Summary schedule of fees due to the audit firm and other firms in its network

The following schedule reports the fees due to EY S.p.A. and to the other firms in the EY network for the audit of the 2023 financial statements, and the fees referring to 2023 for other audit and review services, and for other services besides audit rendered to the companies of the TIM Group from EY S.p.A. and other firms in the EY network. The out-of-pocket expenses incurred for these services in 2023 are also shown.

	EY S.p.A.			Other entities of the EY network			
(euros)	TIM S.p.A.	Company subsidiaries	TIM Group	TIM S.p.A.	Company subsidiaries	TIM Group	Total EY network
Audit services	2,933,822	2,397,473	5,331,295	—	2,395,156	2,395,156	7,726,451
Audit services with the issue of certification	223,094	—	223,094	—	43,195	43,195	266,289
Certification of compliance of the Consolidated Non-Financial Statement	82,239	—	82,239	—	52,022	52,022	134,261
Other services	37,000	—	37,000	—	—	—	37,000
Total 2023 fees due for auditing and other services to the EY network	**3,276,155**	**2,397,473**	**5,673,628**	**—**	**2,490,373**	**2,490,373**	**8,164,001**
Out-of-pocket expenses	50,490	25,630	76,120	—	29,157	29,157	105,277
Total	**3,326,645**	**2,423,103**	**5,749,748**	**—**	**2,519,530**	**2,519,530**	**8,269,278**

NOTE 45
EVENTS AFTER DECEMBER 31, 2023

TIM: received an offer from the Ministry of Economy and Finance for the purchase of Sparkle

On January 31, 2024, TIM received an offer from the Ministry of Economy and Finance to purchase Sparkle. The offer also references the possibility of negotiating another option, with possible adjustments to the contractual conditions, in the event that TIM retains a minority stake for a certain period of time and supports the implementation of the strategic plan.

TIM's Board of Directors met on February 7, 2024 to examine the offer. Deeming the offer to be unsatisfactory, the Board mandated the CEO to negotiate a different option with the Ministry with adjustments to the contractual conditions whereby TIM would retain a stake in the company for a certain period of time and support the implementation of the strategic plan.

TIM: clarifications on the seizure by the Milan Public Prosecutor's Office

On February 29, 2024, TIM S.p.A. (hereinafter also referred to as "the Company") was served a seizure order issued on February 8, 2024 by the Milan Preliminary Investigation Judge, ordering the preventive seizure of sums held in current accounts in the Company's name, for a total amount of €248,941,282.30.

The measure relates to an alleged cyber fraud (Article 640-ter of the Criminal Code) regarding "VAS" (Value Added Services) provided by third-party companies called CSPs ("Content Service Provider").

In this regard, it should be noted that TIM S.p.A. is not under investigation in the proceedings in question, and that the offence in dispute is not included among those which, under Legislative Decree no. 231 of 2001, could theoretically constitute a basis for an administrative offence attributable to the Company.

With specific reference to TIM S.p.A., evidence of a possible instance of fraud in this area only emerged in 2019, due to the significant number of disallowances of VAS services recorded in that year.

During this period, the Company reported these events to the Public Prosecutor's Office in Rome. The resulting proceedings – currently in the process of being dismissed – confirmed the Company's status as victim of the offence.

Moreover, the Company promptly took all necessary actions to neutralize the phenomenon of illicit activations of VAS services.

TIM, through its lawyers, is examining this matter and considering the most appropriate legal steps.

NOTE 46
LIST OF COMPANIES OF THE TIM GROUP

In accordance with Consob Communication DEM/6064293 dated July 28, 2006, the list of companies is provided herein.

The list is divided by type of investment, consolidation method and operating segment.

The following is indicated for each company: name, head office, country and share capital in the original currency. In addition to the percentage ownership of share capital, the percentage of voting rights in the ordinary shareholders' meeting, if different from the percentage holding of share capital, and which companies hold the investment.

Company name	Reg. office	Currency	Share Capital	% Ownership	% of voting rights	Participating companies

CERTIFICATION OF THE CONSOLIDATED FINANCIAL STATEMENTS PURSUANT TO ARTICLE 81-TER OF CONSOB REGULATION 11971 DATED MAY 14, 1999, AS AMENDED

1. We, the undersigned, Pietro Labriola, as Chief Executive Officer, and Adrian Calaza Noia, as Manager responsible for preparing TIM S.p.A. financial reports, certify, having also considered the provisions of Article 154-bis, subsections 3 and 4, of Italian Legislative Decree 58 of February 24, 1998:

   - the adequacy in relation to the characteristics of the company and
   - the effective application of the administrative and accounting procedures used in the preparation of the consolidated financial statements for the 2023 fiscal year.

2. TIM has adopted the Internal Control – Integrated Framework Model (2013), issued by the Committee of Sponsoring Organizations of the Treadway Commission, as its framework for the establishment and assessment of its internal control system, with particular reference to the internal controls for the preparation of the financial statements.

3. The undersigned also certify that:

   3.1. the Consolidated Financial Statements at December 31, 2023:

   a) have been prepared in compliance with the international accounting standards adopted by the European Union pursuant to Regulation (EC) 1606/2002 of the European Parliament and Council of July 19, 2002 (International Financial Reporting Standards – IFRS), as well as the legislative and regulatory provisions in force in Italy, including, in particular, the measures enacted for the implementation of Article 9 of Italian Legislative Decree 38 of February 28, 2005;

   b) agree with the results of the accounting records and entries;

   c) provide a true and fair view of the financial condition, the results of operations and the cash flows of the Company and its consolidated subsidiaries;

   3.2. The Report on Operations contains a reliable operating and financial review of the Company and of the consolidated Group, as well as a description of their exposure to the main risks and uncertainties. The Report on Operations also contains a reliable analysis of information concerning significant related-party transactions.

Independent auditor's report pursuant to article 14 of Legislative Decree n. 39, dated 27 January 2010 and article 10 of EU Regulation n. 537/2014
(Translation from the original Italian text)

To the Shareholders of
TIM S.p.A.

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of TIM Group (the Group), which comprise the consolidated statement of financial position as at December 31, 2023, and the consolidated income statement, the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the consolidated financial statements give a true and fair view of the financial position of the Group as at December 31, 2023, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards as adopted by the European Union and with the regulations issued for implementing art. 9 of Legislative Decree n. 38/2005.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISA Italia). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of TIM S.p.A. in accordance with the regulations and standards on ethics and independence applicable to audits of financial statements under Italian Laws. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Building a better working world

We identified the following key audit matters:

Key Audit Matter	Audit Response
Impairment test of goodwill – Domestic	
As of December 31, 2023, goodwill amounts to Euro 19,170 million and refers for Euro 18,153 million to the Domestic cash generating unit ("CGU") and for Euro 1.017 million to the Brazil CGU. The processes and methodologies used by the Group to evaluate and determine the recoverable amount of each CGU, are based on assumptions that are in some cases complex and that, due to their nature, imply the use of judgement by Management, in particular with reference to the forecast of future cash flows and to the estimate of the long-term growth and discount rates applied to the future cash flow forecasts. Considering the level of judgment required and the complexity of the assumptions applied in estimating the recoverable amount of goodwill, we considered this area a key audit matter. Disclosures related to the assessment of goodwill are reported in note 5 "Goodwill" and in note 2 "Accounting policies" in the paragraphs "Intangible assets - Goodwill"," Impairment of intangible, tangible and rights of use assets - Goodwill" and "Use of estimates".	Our audit procedures in response to the key audit matter included, among others: ► the assessment of the processes implemented by the Group with reference to the criteria and methodology of the impairment test; ► the validation of the CGUs perimeter and the test of the allocation of the carrying value of the Group's assets to each CGU; ► the assessment of the reasonableness of the future cash flows forecasts, including comparisons with sector data and forecasts, utilized in the fair value determination; ► the assessment of the consistency of the future cash flows forecasts of each CGU with the Group business plan; ► the assessment of forecasts in light of their historical accuracy; ► the assessment of the reasonableness of long-term growth rates and discount rates. The procedures referred to in the previous points also concerned the analysis of the assessments performed by the independent experts appointed by the Group. In performing our analysis, we involved our experts in valuation techniques, who performed an independent recalculation and carried out sensitivity analyses on the key assumptions in order to determine which changes in the assumptions could materially affect the recoverable amount. Lastly, we reviewed the adequacy of the disclosures provided in the notes to the consolidated financial statements with regards to the valuation of goodwill.

Building a better working world

Revenue recognition

TIM Group's revenues amounted to Euro 16,296 million as of December 31, 2023, and refer almost entirely to the telecommunications services rendered to retail and wholesale customers (other telecommunications operators).

Procedures over the accounting of revenues required significant focus in the context of our audit procedures due to (i) a highly complex accounting process due to the number of commercial offers, the number of underlying application systems and the related reconciliation processes, (ii) the presence of certain manual phases in the revenue recognition process, in particular for services provided to large customers and (iii) the complexity in estimating commitments connected to certain contracts.

The Group provides the relative disclosures in Note 26 "Revenues" of the consolidated financial statements.

Our audit procedures in response to the key audit matter included, among others:

- an understanding of the processes underlying the revenue recognition;
- the understanding and verification of the design and operating effectiveness of the relevant controls over the revenue recognition process;
- the analysis of the application systems supporting the revenue recognition process;
- the assessment that the accounting policy adopted for the main commercial offers is consistent with the provisions of the reference accounting standard;
- the analysis, on a sample basis, of some significant transactions relating to invoices issued and invoices to be issued, in order to verify that the contractual data and the evidence supporting the actual service rendered and / or goods transferred were consistent with the accounting policy adopted;
- the analysis of the valuation of certain contracts identified as onerous contracts;
- the analysis of the reconciliation of the management accounts with the accounting records in connection with the main balance sheet items related to customer relations;
- the analysis of the manual journal entries.

We also required external confirmations for a sample of customers and transactions.

Lastly, we reviewed the adequacy of the disclosure provided in the notes to the consolidated financial statements with regards to the revenue recognition process.

Regulatory disputes

As of December 31, 2023, TIM Group is involved in several regulatory disputes in progress, many of which are characterized by

Our audit procedures in response to the key audit matter included, among others:

- an understanding of the process put in place

Building a better working world

significant counterparty requests. The main disputes concern (i) the 28-day billing proceeding, in which AGCOM ordered TIM to reimburse customers for unused service days, (ii) the I820 proceeding in which AGCM fined TIM for a conduct restricting market competition, (iii) the I857 proceeding for a possible agreement restricting market competition in connection with the partnership with DAZN and (iv) the A514, and the related "follow-on" proposed by some other OLOs, procedure in which the AGCM charged TIM with conduct aimed at hindering the entry on the market of a new operator. The assessment of the disputes was carried out by Management, as of 31 December 2023, based on the opinion of the external lawyers, as well as considering the latest information available. The estimation of the risks connected to the disputes in which the Group is involved, requires a high degree of judgment by the management and, also considering the complexity of the regulatory framework, we considered this area a key audit matter. Disclosures related to the assessment of the risks relating to the regulatory disputes in which the Group is involved is reported in note 25 "Disputes and pending legal actions, other information, commitments and guarantees".	by Management for assessing disputes, accompanied by test of the effectiveness of the internal controls relevant for this process; ► inquiries with Management regarding the main assumptions made in connection with disputes; ► testing of the "Legal Suite" database in order to assess the completeness of the proceedings in which the company is involved; ► the analysis of the legal opinions prepared by external consultants, based on which Management has based its assessments; ► the analysis of the responses received from external lawyers following our external confirmations procedures. Lastly, we reviewed the adequacy of the disclosures provided in the notes to the consolidated financial statements.
Fiscal disputes in Brazil	
As of December 31, 2023, the TIM Group is involved in several disputes with the Brazilian tax authorities. The maximum potential liability associated with these disputes, as at December 31, 2023, amounts to Euro 3.6 billion. With reference to this potential liability, the Group recognized a provision of Euro 125 million with regards to the risks deemed probable. The assessment of the risk related to the tax disputes in Brazil in which the Group is involved, requires a high degree of judgment by the Management and, also considering the	Our audit procedures in response to the key audit matter included, among others: ► an understanding of the process put in place by Management for assessing disputes, accompanied by test of the effectiveness of the controls relevant for this process; ► inquiries with Management regarding the main assumptions made in connection with disputes; ► the analysis of the legal opinions prepared by external consultants, based on which Management has based its assessments;

significance of the amounts involved, we considered it to be a key audit matter.

Disclosures related to the assessment of the risks relating to the fiscal disputes in which the Group is involved is reported in note 25 "Disputes and pending legal actions, other information, commitments and guarantees".

- the analysis of the responses to our external confirmation procedures received from external lawyers, also with the involvement of our experts in tax disputes.

Lastly, we reviewed the adequacy of the disclosures provided in the notes to the consolidated financial statements with regards to the disputes in which the Group is involved, based on their compliance with the international accounting standards and their consistency with the results of our audit procedures.

Recoverability of deferred tax assets

As of December 31, 2023, deferred tax assets amount, net of impairment, to Euro 701 million in the consolidated financial statements.

Deferred tax assets refer to the temporary deductible differences between the book and fiscal values of assets and liabilities in the financial statements.

The recoverability of the carrying amount of the deferred tax assets is subject to management's evaluation and is based on the estimations of the future taxable income expected in the years in which they will be reversed.

The processes and methodologies used to evaluate and determine the recoverable amount of these assets, are based on assumptions that are in some cases complex and that, due to their nature, imply the use of judgement by Management, in particular with reference to the consistency of the forecasts of future taxable income expected by the Group with those included in the business plan.

Considering the level of judgment required and the complexity of the assumptions applied in estimating future taxable amount used to determine the recoverability of the deferred tax assets, we considered this area a key audit matter.

Disclosures related to the assessment of recoverability of deferred tax assets are reported in note 2 "Accounting policies" in the paragraphs "Income tax expense (current and deferred)" and "Use of estimates" and in note

Our audit procedures in response to the key audit matter included, among others:

- the assessment of the reasonableness of the assumptions underlying the estimation of future taxable income and the reconciliation with the figures included in the Group's business plan;
- the assessment of the reasonableness of the accuracy of the forecasts compared with prior periods;
- the assessment of the Management calculations.

Lastly, we reviewed the adequacy of the disclosures provided in the notes to the consolidated financial statements with regards to the recoverability of deferred tax assets.

Building a better working world

12 “Income tax expense (current and deferred)".

Non-current assets held for sale/Discontinued operations

In execution of the resolutions adopted by the Board of Directors in November 2023, TIM S.p.A. signed the “Transaction Agreement” whit KKR which regulates:

- the contribution by TIM S.p.A. of a business unit - consisting of activities relating to the primary network, wholesale activity and the entire shareholding in the subsidiary Telenergia S.r.l. - in FiberCop S.p.A., a company that already manages the activities relating to the fiber and copper secondary network; and
- the simultaneous purchase by Optics Bidco (an entity controlled by KKR) of the entire shareholding held by TIM S.p.A. in FiberCop S.p.A. itself (also referred to as “Net.Co”), following the aforementioned contribution.

The transaction agreement provides that on the closing date a Master Services Agreement will be signed which will regulate the terms and conditions of the services that will be provided between NetCo and TIM S.p.A. following the completion of the transaction.

Once these activities are completed and the conditions precedent are fulfilled, NetCo will be classified by TIM as an Asset held for sale in accordance with IFRS 5.

Considering the level of judgment required and the complexity of the assumptions applied in assessing the potential impacts of the transaction, we considered this area a key audit matter.

Disclosures related to the transaction are reported in note 2 "Accounting policies" in the paragraph “Non-current assets held for sale/Discontinued operations".

Our audit procedures in response to the key audit matter included, among others:

- the analysis of contracts and documentation prepared by TIM and its Advisors to support management's decision-making process;
- the analysis of the procedure implemented by the Company for the identification of the perimeter subject to the transaction and the consistency of the assumptions used with respect to the criteria and methodology for the identification of the CGUs for the purposes of the impairment test;
- verifying the reasonableness of the assumptions used and the forecasts formulated regarding the effects of the transaction, once completed, in order to verify that, where appropriate, they have been reflected in the financial statements as at 31 December 2023;

In performing our analysis, we involved our experts in valuation techniques in order to verify the consistency between the analysis carried out by management and the assumptions used for the impairment test of the Domestic CGU.

Lastly, we reviewed the adequacy of the disclosures provided in the notes to the financial statements.

EY Building a better working world

Responsibilities of Directors and Those Charged with Governance for the Consolidated Financial Statements

The Directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with International Financial Reporting Standards as adopted by the European Union and with the regulations issued for implementing art. 9 of Legislative Decree n. 38/2005, and, within the terms provided by the law, for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

The Directors are responsible for assessing the Group's ability to continue as a going concern and, when preparing the consolidated financial statements, for the appropriateness of the going concern assumption, and for appropriate disclosure thereof. The Directors prepare the consolidated financial statements on a going concern basis unless they either intend to liquidate the Parent Company TIM S.p.A. or to cease operations or have no realistic alternative but to do so.

The statutory audit committee ("Collegio Sindacale") is responsible, within the terms provided by the law, for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but it is not a guarantee that an audit conducted in accordance with International Standards on Auditing (ISA Italia) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with International Standards on Auditing (ISA Italia), we have exercised professional judgment and maintained professional skepticism throughout the audit. In addition:

- we have identified and assessed the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, designed and performed audit procedures responsive to those risks, and obtained audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- we have obtained an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Group's internal control;
- we have evaluated the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors;
- we have concluded on the appropriateness of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to consider this matter in forming our opinion. Our

conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern;

- we have evaluated the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- we have obtained sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We have communicated with those charged with governance, identified at an appropriate level as required by ISA Italia, regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We have provided those charged with governance with a statement that we have complied with the ethical and independence requirements applicable in Italy, and we have communicated with them all matters that may reasonably be thought to bear on our independence, and where applicable, the actions taken to eliminate relevant risks or the safeguard measures applied.

From the matters communicated with those charged with governance, we have determined those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We have described these matters in our auditor's report.

Additional information pursuant to article 10 of EU Regulation n. 537/14

The shareholders of TIM S.p.A., in the general meeting held on March 29, 2019, engaged us to perform the audits of the separate and consolidated financial statements for each of the years ending December 31, 2019 to December 31, 2027.

We declare that we have not provided prohibited non-audit services, referred to article 5, par. 1, of EU Regulation n. 537/2014, and that we have remained independent of the Group in conducting the audit.

We confirm that the opinion on the consolidated financial statements included in this report is consistent with the content of the additional report to the audit committee (Collegio Sindacale) in their capacity as audit committee, prepared pursuant to article 11 of the EU Regulation n. 537/2014.

Report on compliance with other legal and regulatory requirements

Opinion on the compliance with Delegated Regulation (EU) 2019/815

The Directors of TIM S.p.A. are responsible for applying the provisions of the European Commission Delegated Regulations (EU) 2019/815 for the regulatory technical standards on the specification of a single electronic reporting format (ESEF – European Single Electronic Format) (the "Delegated Regulation") to the consolidated financial statements, to be included in the annual financial report.

We have performed the procedures under the auditing standard SA Italia n. 700B, in order to express

an opinion on the compliance of the consolidated financial statements with the provisions of the Delegated Regulation.

In our opinion, the consolidated financial statements have been prepared in the XHTML and have been marked-up, in all material aspects format in compliance with the provisions of the Delegated Regulation.

Due to certain technical limitations, some information included in the illustrative notes to the consolidated financial statements when extracted from the XHTML format to an XBRL instance may not be reproduced in an identical manner with respect to the corresponding information presented in the consolidated financial statements in XHTML format.

Opinion pursuant to article 14, paragraph 2, subparagraph e), of Legislative Decree n. 39 dated 27 January 2010 and of article 123-bis, paragraph 4, of Legislative Decree n. 58, dated 24 February 1998

The Directors of TIM S.p.A. are responsible for the preparation of the Report on Operations and of the Report on Corporate Governance and Ownership Structure of TIM Group as at December 31, 2023, including their consistency with the related consolidated financial statements and their compliance with the applicable laws and regulations.

We have performed the procedures required under audit standard SA Italia n. 720B, in order to express an opinion on the consistency of the Report on Operations and of specific information included in the Report on Corporate Governance and Ownership Structure as provided for by article 123-bis, paragraph 4, of Legislative Decree n. 58, dated 24 February 1998, with the consolidated financial statements of TIM Group] as at December 31 ,2023 and on their compliance with the applicable laws and regulations, and in order to assess whether they contain material misstatements.

In our opinion, the Report on Operations and the above mentioned specific information included in the Report on Corporate Governance and Ownership Structure are consistent with the consolidated financial statements of TIM Group as at December 31, 2023, and comply with the applicable laws and regulations.

With reference to the statement required by art. 14, paragraph 2, subparagraph e), of Legislative Decree n. 39, dated 27 January 2010, based on our knowledge and understanding of the entity and its environment obtained through our audit, we have no matters to report.

EY
Building a better working world

Statement pursuant to article 4 of Consob Regulation implementing Legislative Decree n. 254, dated 30 December 2016

The Directors of TIM S.p.A. are responsible for the preparation of the non-financial information pursuant to Legislative Decree n. 254, dated 30 December 2016. We have verified that non-financial information have been approved by Directors.

Pursuant to article 3, paragraph 10, of Legislative Decree n. 254, dated 30 December 2016, such non-financial information are subject to a separate compliance report signed by us.

Turin, March 26, 2024

EY S.p.A.
Signed by: Ettore Abate, Auditor

As disclosed by the Directors, the accompanying consolidated financial statements of TIM S.p.A. constitute a non-official version which is not compliant with the provisions of the Commission Delegated Regulation (EU) 2019/815. This independent auditor's report has been translated into the English language solely for the convenience of international readers. Accordingly, only the original text in Italian language is authoritative.

NOTE 1
FORM, CONTENT AND OTHER GENERAL INFORMATION

Form and content

Telecom Italia S.p.A. (the "**Parent Company**"), also known in short as "TIM S.p.A.", and its subsidiaries form the **"TIM Group" (the "Group")**.
TIM is a joint-stock company (S.p.A.) organized under the laws of the Republic of Italy.

The registered offices of the Parent, TIM, are located in Milan, Italy at Via Gaetano Negri 1.

The duration of TIM S.p.A., as stated in the company's bylaws, extends until December 31, 2100.

The TIM Group operates mainly in Europe, the Mediterranean Basin and South America.

The Group is engaged principally in the communications sector and, particularly, the fixed and mobile national and international telecommunications sector.

The TIM Group's Consolidated Financial Statements at December 31, 2022, have been prepared on a going concern basis (further details are provided in the Note "Accounting Policies") and in accordance with the recognition and measurement criteria of the International Financial Reporting Standards issued by the International Accounting Standards Board and endorsed by the European Union (designated as "**IFRS**"), as well as laws and regulations in force in Italy.

In 2022, the Group adopted accounting policies consistent with those of the previous year, except for the changes to the accounting standards issued by the IASB and in force as of January 1, 2022. See the Note "Accounting policies" for more details.

The consolidated financial statements have been prepared under the historical cost convention, except for financial assets measured at fair value through other comprehensive income, financial assets measured at fair value through profit and loss, and derivative financial instruments, which have been measured at fair value. The carrying amounts of hedged assets and liabilities have been adjusted to reflect fair value changes for hedged risks (fair value hedge).

In accordance with IAS 1 (Presentation of Financial Statements) comparative information included in the consolidated financial statements refers, unless otherwise indicated, to the previous year.

The TIM Group consolidated financial statements as at December 31, 2022 are expressed in euro (rounded to the nearest million unless otherwise indicated).

The publication of the consolidated financial statements for the year ended December 31, 2022 of the TIM Group was approved by resolution of the Board of Directors on March 15, 2023.

Financial statement formats

The financial statement formats adopted are consistent with those indicated in IAS 1. In particular:

- the **Consolidated statements of financial position** have been prepared by classifying assets and liabilities according to the "current and non-current" criterion;
- the **Separate Consolidated Income Statement** has been prepared by classifying operating costs by nature of expense as this form of presentation is considered more appropriate and representative of the specific business of the Group, conforms to internal reporting, and is in line with the TIM Group's industrial sector.
  In addition to EBIT or Operating profit (loss), the separate consolidated income statements include the alternative performance measure of EBITDA or Operating profit (loss) before depreciation and amortization, Capital gains (losses) and Impairment reversals (losses) on non-current assets.

  In particular, besides EBIT, EBITDA is used by TIM as the financial target in internal presentations (business plans) and in external presentations (to analysts and investors), as a useful unit of measurement for the evaluation of the operating performance of the Group (as a whole and at the Business Unit level).

EBIT and EBITDA are calculated as follows:

Profit (loss) before tax from continuing operations	
+	Finance expenses
-	Finance income
+/-	Other expenses (income) from investments
+/-	Share of losses (profits) of associates and joint ventures accounted for using the equity method
EBIT – Operating profit (loss)	
+/-	Impairment losses (reversals) on non-current assets
+/-	Losses (gains) on disposals of non-current assets
+	Depreciation and amortization
EBITDA – Operating profit before depreciation and amortization, capital gains (losses) and impairment reversals (losses) on non-current assets	

- the **Consolidated statements of comprehensive income** include the profit or loss for the year as shown in the Separate Consolidated Income Statement and all other non-owner changes in equity;

- the **Consolidated statements of cash flows** have been prepared by presenting cash flows from operating activities according to the "indirect method", as permitted by IAS 7 (Statement of Cash Flows).

Furthermore, as required by Consob Resolution 15519 of July 27, 2006, in the separate consolidated income statement, income and expenses relating to transactions which by nature do not occur during normal operation (non-recurring transactions) have been specifically identified and their impacts on the main intermediate levels have been shown separately, when they are significant. Specifically, non-recurring income/(expenses) include, for instance: income/expenses arising from the sale of property, plant and equipment, business segments and investments; expenses stemming from company reorganization and streamlining processes and projects, also in connection with corporate transactions (mergers, spin-offs, etc.); expenses resulting from litigation and regulatory sanctions and related liabilities; other provisions for risks and charges and related reversals; costs for the settlement of disputes other than regulatory disputes; adjustments, realignments and other non-recurring items, also relating to previous years; impairment losses on the goodwill and/or other intangible and tangible assets. Certain costs related to the COVID-19 pandemic are also identified as non-recurring charges.

Also in reference to the above Consob Resolution, the amounts relating to balances or transactions with related parties have been shown separately in the consolidated financial statements.

Segment reporting

An operating segment is a component of an entity:

- that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity);
- whose operating results are regularly reviewed by the entity's chief operating decision maker to make decisions about resources (for the TIM Group, the Board of Directors of the Parent) to be allocated to the segment and assess its performance; and
- for which separate financial information is available.

The TIM Group operating segments are in line with and continuing on from the information given in the Consolidated Annual Financial Report at December 31, 2021, are represented for the part relating to the telecommunications business, on the basis of the related geographic location (Domestic and Brazil).

The TIM Group 2022-2024 Industrial Plan launched a Group transformation aiming to overcome the vertically integrated model, based on four separate entities with different industrial and economic focuses (NetCo, TIM Consumer, TIM Enterprise and TIM Brasil). These entities cannot today be considered an "operating segment" in accordance with IFRS 8 - Operating segments, insofar as on the one hand, the new entities are still in an analytical design phase and do not, therefore, have analytical economic-financial information available and, on the other, in 2022, the TIM Board of Directors is making decisions on the allocation of resources and assessing the economic-financial performance on both the basis of the historic representation of the Business Units and, insofar as available, the new entities being created.

The term "operating segment" is considered synonymous with "Business Unit".

The operating segments of the TIM Group are as follows:

- **Domestic**: includes the activities in Italy relating to voice and data services on fixed and mobile networks for end users (retail) and other operators (wholesale), the activities of the Telecom Italia Sparkle group which, at international level (in Europe, the Mediterranean and South America), develops fiber optic networks for wholesale customers, the operations of the company FiberCop for the provision of passive access services on the secondary copper and fiber network, and the activities of Noovle S.p.A. (Cloud and Edge Computing solutions), the activities of Olivetti (products and services for Information Technology), and, Domestic sector support structures. See the section "Financial and Operating Highlights of the Business Units of the TIM Group – Domestic Business Unit" of the Report on Operations for more details;
- **Brazil**: includes mobile and fixed telecommunications operations in Brazil (TIM S.A. group);
- **Other Operations**: include the financial companies (Telecom Italia Capital S.A. and Telecom Italia Finance S.A.) and other minor companies not strictly related to the TIM Group's core business.

NOTE 2
ACCOUNTING POLICIES

Going concern

The consolidated financial statements for the business year 2022 have been prepared on a going concern basis, as there is the reasonable expectation that TIM will continue conducting its business in the foreseeable future (and, in any event, over a period of at least twelve months).
In particular, the following factors have been taken into consideration:

- the main risks and uncertainties (that are for the most part of an external nature) to which the Group and the various activities of the TIM Group are exposed:
  - variations in business conditions, also related to competition;
  - financial risks (interest rate and/or exchange rate trends, changes in the Group's credit rating by rating agencies);
  - changes in the general macroeconomic situation in the Italian, European and Brazilian markets, as well as the volatility of the financial markets deriving from the risks of recession and inflation linked to both the continuation of COVID-19 and its possible variants and the increase in the cost of commodities and energy, also following the Russian-Ukraine conflict;
  - changes in the legislative and regulatory context (changes in prices and tariffs or decisions that may influence technological choices) and the outcome of the legal and regulatory authority proceedings.
- the optimal mix between risk capital and debt capital, as well as the policy for the remuneration of risk capital, as described in the section "Share capital information" under the Note "Equity";
- the policy for financial risk management (market risk, credit risk and liquidity risk), as described in the Note "Financial risk management".

Based on these factors, the Management believes that, at the present time, there are no elements of uncertainty regarding the Group's ability to continue as a going concern.

Principles of consolidation

The consolidated financial statements include the financial statements of all subsidiaries from the date on which control over such subsidiaries commences until the date on which control ceases.

The date of all the subsidiaries' financial statements coincides with that of the Parent company, TIM.

Control exists when the Parent company TIM S.p.A. has all the following:

- decision-making power over the investee, which includes the ability to direct the relevant activities of the investee, i.e. the activities that significantly affect the investee's returns;
- entitlement to the variable profits or losses commensurate with its shareholding in the investee;
- the ability to use its decision-making to determine the amount of the returns relating to its shareholding in the entity.

TIM assesses whether it controls an investee if facts and circumstances indicate that there are changes in one or more of the three control elements.

In the preparation of the consolidated financial statements, the global amounts of the assets, liabilities, costs and revenues of the consolidated companies are recognized on a line-by-line basis, while the share of equity and the year's result of non-controlling interest is recognized is disclosed separately under appropriate items in the consolidated statements of financial position, in the separate consolidated income statement and in the consolidated statements of comprehensive income.

Under IFRS 10 (Consolidated financial statements), the comprehensive loss (including the profit or loss for the year) is attributed to the owners of the parent and to non-controlling interest even when the equity of non-controlling interest has a deficit balance.

All intragroup balances and transactions and any gains and losses arising from intragroup transactions are eliminated in consolidation.

The carrying amount of the investment in each subsidiary is eliminated against the corresponding share of equity in each subsidiary, after adjustment, if any, to fair value at the date of acquisition of control. At that date, goodwill is recorded as an intangible asset, as described below, whereas any profit from a bargain purchase (or negative goodwill) is recognized in the separate consolidated income statement.

All the assets and liabilities expressed in currencies other than euro of foreign consolidated entities that are included in the consolidation are translated using the exchange rates in effect at the reporting date (the current exchange rate method), while the related revenues and costs are translated at the average exchange rates for the year. Exchange differences resulting from the application of this method are classified as equity until the entire disposal of the investment or upon loss of control of the foreign subsidiary. Upon partial disposal, without losing control, the proportionate share of the cumulative amount of exchange differences related to the disposed interest is recognized as non-controlling interest equity. The cash flows of foreign consolidated subsidiaries expressed in currencies other than euro included in the consolidated statements of cash flows are translated into euro at the average exchange rates for the year.

Goodwill and fair value adjustments arising from the allocation of the purchase price of a foreign entity are recorded in the relevant foreign currency and are translated using the year-end exchange rate.

Under IFRS 10, changes in a parent's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. In such circumstances, the carrying amounts of controlling and non-controlling interests shall be adjusted to reflect the changes in their related interests in the subsidiary. Any difference between the amount by which the non-controlling interest is adjusted and the fair value of the consideration paid or received shall be recognized directly in equity and attributed to the owners of the parent.

Under IFRS 10, the parent company in case of loss of control of a subsidiary:

- derecognizes:
  - the assets (including any goodwill) and the liabilities;
  - the carrying amount of any non-controlling interest;
- recognizes:
  - the fair value of any consideration received;
  - the fair value of any residual investment retained in the former subsidiary;
  - any profit or loss resulting from the transaction, in the separate consolidated income statement;
  - the reclassification to the separate consolidated income statement of the amounts previously recognized in other comprehensive income in relation to the subsidiary.

In the consolidated financial statements, investments in associates and joint ventures are accounted for using the equity method, as provided, respectively, by IAS 28 (Investments in Associates and Joint Ventures) and IFRS 11 (Joint Arrangements).

Associates are enterprises in which the Group holds at least 20% of the voting rights or exercises significant influence, but no control or joint control over their financial and operating policies.

A joint venture is a joint control arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the entity.

Joint control is the contractually agreed sharing of control of a business that exists only when decisions about the relevant business require the unanimous consent of the parties sharing control.

Associates and joint ventures are included in the consolidated financial statements from the date on which significant influence or joint control commences until the date on which significant influence or joint control ceases.

Under the equity method, on initial recognition the investment in an associate or joint venture is recognized at cost, and the carrying amount is increased or decreased to recognize the investor's share of the profit or loss of the investee after the date of acquisition. The investor's share of the investee's profit or loss is recognized in the separate consolidated income statement. Dividends received from an investee reduce the carrying amount of the investment.

Adjustments to the carrying amount may also be necessary for changes in the investee's other comprehensive income (i.e. those arising from foreign exchange translation differences). The investor's share of those changes is recognized in the investor's other comprehensive income.

If an investor's share of losses of an associate or a joint venture equals or exceeds its interest in the associate or joint venture, the investor discontinues recognizing its share of further losses. After the investor's interest is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the investor has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture. If the associate or joint venture subsequently reports profits, the investor resumes recognizing its share of those profits only after its share of the profits equals the share of losses not recognized.

Any other long-term interests (some types of preference shares and long-term loans) in an associate or joint venture are measured in accordance with IFRS 9.

Gains and losses resulting from "upstream" and "downstream" transactions between an investor (including its consolidated subsidiaries) and its associate or joint venture are recognized in the investor's financial statements only to the extent of unrelated investors' interests in the associate or joint venture.

The investor's share of profits and losses of the associate or joint venture arising from said transactions is eliminated.

Intangible assets

Goodwill

In accordance with IFRS 3 (Business Combinations), goodwill is recognized in the financial statements at the date of acquisition of control of a business and is determined as the excess of (a) over (b), as follows:

a) the aggregate of:

- the consideration transferred (measured in accordance with IFRS 3; it is generally recognized on the basis of the fair value at the acquisition date);
- the amount of any non-controlling interest in the acquiree measured proportionally to the non-controlling interest share of the acquiree's identifiable net assets shown at the related fair value;
- in a business combination achieved in stages, the acquisition date fair value of the acquirer's previously held equity interest in the acquiree;

b) the fair value of the identifiable assets acquired net of the identifiable liabilities assumed, measured at the date of acquisition of control.

IFRS 3 requires, inter alia, the following:

- incidental costs incurred in connection with a business combination to be charged to the separate income statements;
- in a business combination achieved in stages, the acquirer to remeasure its previously held equity interest in the acquiree at its fair value at the date of acquisition of control and recognize the resulting gain or loss, if any, in the separate income statements.

Goodwill is classified in the statement of financial position as an intangible asset with an indefinite useful life.

Goodwill initially recognized is subsequently reduced only by cumulative impairment losses (for more details, see the section "Impairment of intangible assets, tangible assets and rights of use assets - Goodwill", below). In case of loss of control of a subsidiary, the related amount of goodwill is taken into account in calculating the gain or loss on disposal.

Development costs

Costs incurred internally for the development of new products and services represent either intangible assets (mainly costs for software development) or tangible assets. These costs are capitalized only when all the following conditions are satisfied: i) the cost attributable to the development phase of the asset can be measured reliably, ii) there is the intention, the availability of financial resources and the technical ability to complete the asset and make it available for use or sale, and iii) it can be demonstrated that the asset will be able to generate future economic benefits. Capitalized development costs comprise only incurred expenditures that can be attributed directly to the development process for new products and services.

Capitalized development costs are depreciated/amortized systematically over the estimated product or service life, so that the depreciation/amortization method reflects the way in which the asset's future economic benefits are expected to be consumed by the entity.

Other intangible assets with a finite useful life

Other purchased or internally-generated intangible assets with a finite useful life are recognized as assets, in accordance with IAS 38 (Intangible Assets), when the use of the asset is likely to generate future economic benefits and when the cost of the asset can be reliably measured.

Such assets are recorded at purchase or production cost and amortized on a straight-line basis over their estimated useful lives; the amortization rates are reviewed annually and revised if the current estimated useful life is different from that estimated previously. The effect of such changes is recognized prospectively in the separate consolidated income statement.

Tangible assets

Property, plant and equipment

Property, plant and equipment are recognized at purchase or production cost. Subsequent expenditures are capitalized only if they increase the future economic benefits embodied in the related item of property, plant and equipment. All other expenditures are recognized in the separate consolidated income statement as incurred.

The cost of these assets also includes the expected costs of dismantling the asset and restoring the site, if a legal or constructive obligation exists. The corresponding liability is recognized at its present value in a provision for risks and charges in the liabilities. The recognition in the separate consolidated income statement of the capitalized expenditure is done over the useful life of the related tangible assets through their depreciation.

The calculation of estimates for dismantling costs, discount rates and the dates in which such costs are expected to be incurred is reviewed annually at each financial year-end. Changes in the above liability must be recognized as an increase or decrease of the cost of the related asset; the amount deducted from the cost of the asset must not exceed its carrying amount. The excess, if any, is recorded immediately in the separate consolidated income statement, conventionally under the line item "Depreciation and Amortization".

Depreciation is calculated on a straight-line basis over the estimated useful life of the assets.

Depreciation rates are reviewed annually and revised if the current estimated useful life is different from that estimated previously. The effect of such changes is recognized prospectively in the separate consolidated income statement.

Land, including land pertaining to buildings, is not depreciated.

Rights of use assets

In accordance with IFRS 16, lease liabilities are presented through the recognition of a financial liability in the statement of financial position consisting in the present value of future lease payments, against the recognition of the right of use of the leased asset.

On the commencement date of the lease, the right of use is recognized at cost including: the amount of the initial measurement of the lease liability, any lease payments made at or before the commencement date, initial direct costs incurred for the signature of the lease and the present value of the estimated restoration and dismantling costs set out in the lease, less any incentives.

Subsequently, the right of use is amortized over the term of the lease (or the useful life of the asset, if lower), subject to impairment and adjusted for any remeasurement of the lease liability.

It is specified that starting January 1, 2021, the TIM Group has attracted, under the scope of application of IFRS 16, if the criteria and the requirements laid down by the standard are met, the new contract types concerning cloud software resources and the spectrum of transmission frequencies on optic fiber carriers. This approach is functional to the very innovative specificity of these types of contract, concerning hardware infrastructure and optical transmission as well as technologically-advanced software services.

Capitalized borrowing costs

Under IAS 23 (*Borrowing Costs*), the Group capitalizes borrowing costs only if they are directly attributable to the acquisition, construction or production of an asset that takes a substantial period of time (conventionally more than 12 months) to get ready for its intended use or sale.

Capitalized borrowing costs are recorded in the separate consolidated income statement and deducted directly from the "finance expenses" line item to which they relate.

Impairment of intangible, tangible and rights of use assets

Goodwill

Goodwill is tested for impairment at least annually or more frequently whenever events or changes in circumstances indicate that goodwill may be impaired, as set forth in IAS 36 (Impairment of Assets); however, when the conditions that gave rise to an impairment loss no longer exist, the original amount of goodwill is not reinstated.

The test is generally conducted at the end of every year, so the date of testing is the year-end closing date of the financial statements. Goodwill acquired and allocated during the year is tested for impairment at the end of the year in which the acquisition and allocation took place.

For the purpose of verifying its recoverability, goodwill is allocated, from the acquisition date, to each of the cash-generating units, or groups of cash-generating units, that is expected to benefit from the combination.

If the carrying amount of the cash-generating unit (or group of cash-generating units) exceeds the recoverable amount, an impairment loss is recognized in the separate consolidated income statement. The impairment loss is first recognized as a deduction of the carrying amount of goodwill allocated to the cash-generating unit (or group of cash-generating units) and only subsequently applied to the other assets of the cash-generating unit in proportion to their carrying amount, up to the recoverable amount of the assets with a finite useful life. The recoverable amount of a cash-generating unit (or group of cash-generating units) to which goodwill is allocated is the higher between the fair value less costs to sell and its value in use.

The fair value net of disposal costs is estimated on the basis of the income approach, insofar as this allows for the reflection of the benefits deriving from a new, different business structure in the future. In particular, the fair value net of disposal costs is based on the current value of the forecast cash flow, applying a discounting rate that reflects current market assessments of the time value of money and the risks specific to the asset. The future cash flows are those arising from an explicit time horizon between three and five years, as well as those extrapolated to estimate the terminal value.

In calculating the value in use, the estimated future cash flows are discounted to present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. The future cash flows are those arising from an explicit time horizon between three and five years, as well as those extrapolated to estimate the terminal value. The long-term growth rate used to estimate the terminal value of the cash-generating unit (or group of cash-generating units) is assumed not to be higher than the average long-term growth rate of the segment, country or market in which the cash-generating unit (or group of cash-generating units) operates.

The value in use of cash-generating units denominated in foreign currency is estimated in the local currency by discounting cash flows to present value on the basis of an appropriate rate for that currency. The present value obtained is translated to euro at the spot rate on the date of the impairment test (in the case of the TIM Group, the closing date of the financial statements).

Future cash flows are estimated by referring to the current operating conditions of the cash-generating unit (or group of cash-generating units) and, therefore, do not include either benefits originating from future restructuring for which the entity is not yet committed, or future investments for the improvement or optimization of the cash-generating unit.

For the purpose of calculating impairment, the carrying amount of the cash-generating unit is established based on the same criteria used to determine the recoverable amount of the cash-generating unit, excluding surplus assets (that is, financial assets, deferred tax assets and net non-current assets held for sale) and includes the goodwill attributable to non-controlling interest (minority shareholders).

After conducting the goodwill impairment test for the cash-generating unit (or groups of cash-generating units), a second level of impairment testing is carried out which includes the corporate assets which do not generate positive cash flows and which cannot be allocated by a reasonable and consistent criterion to the single units. At this second level, the total recoverable amount of all cash-generating units (or groups of cash-generating units) is compared to the carrying amount of all cash-generating units (or groups of cash-generating units), including also those cash-generating units to which no goodwill was allocated, and the corporate assets.

Tangible and intangible assets with finite useful lives and rights of use assets

At the end of each reporting period, the Group assesses whether there is any indication that an asset – whether intangible or tangible with finite useful lives or a right of use – may be impaired. Both internal and external sources of information are used for this purpose. Internal sources include obsolescence or physical deterioration, and significant changes in the use of the asset and the operating performance of the asset compared to estimated performance. External sources include the market value of the asset, any changes in technology, markets or laws, trends in market interest rates and the cost of capital used to evaluate investments, and an excess of the carrying amount of the net assets of the Group over market capitalization.

If there is any indication that an asset – whether tangible or intangible with finite useful lives or a right of use – has been impaired, then its carrying amount is reduced to its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell, and its value in use. In calculating the value in use, the estimated future cash flows are discounted to present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or right. If it is not possible to estimate the recoverable amount, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. Impairment losses are recognized in the separate consolidated income statement.

When the reasons for the impairment subsequently cease to exist, the carrying value of the asset/right-of-use or of the cash generating unit is increased up to the new estimate of the recoverable amount which, however, cannot exceed the amount that would have been determined had no impairment loss been recognized. The reversal of an impairment loss is recognized as income in the separate consolidated income statement.

Financial instruments

Business models for financial assets management

For the management of trade receivables, TIM Group Management has identified different business models based on the specific nature of the receivables, the type of counterparty and collection times, this was in order to optimize the management of working capital through the constant monitoring of the payment performance of customers, the steering of credit collection policies, and the management of programs for the disposal of receivables, and the activation of factoring consistent with financial planning requirements.

The business models adopted are:

- Hold to Collect: receivables usually held to maturity, such as trade receivables due from large customers and the OLOs for the Domestic Business Unit, and all receivables for the Brazil Business Unit; these instruments fall within the IFRS 9 category “Assets measured at amortized cost”. These receivables can be transferred, albeit not recurrently, if this is needed to optimize finances;
- Hold to Collect and Sell: receivables usually traded massively and on a recurring basis, such as, for the Domestic Business Unit, receivables due from active consumer, small and business customers held for sale; these instruments fall under the IFRS 9 category "Financial assets measured at fair value through other comprehensive income". As required by IFRS 9, the related reserve is reversed to the separate consolidated income statement when disposed of or impaired.

As part of managing financial assets other than trade receivables, the TIM Group's Management identified its business models on the basis of how the financial instruments are managed and how their cash flows are used. This is done to ensure an adequate level of financial flexibility and to best manage, in terms of risks and returns, the financial resources immediately available through the treasuries of Group companies and in accordance with the strategies set forth by the Parent TIM.

The business models adopted are:

- Hold to Collect: financial instruments used to absorb temporary cash surpluses; such instruments are low risk and mostly held to maturity; they are measured at amortized cost;
- Hold to Collect and Sell: monetary or debt instruments used to absorb short/medium-term cash surpluses; such instruments are low risk and generally held to maturity, or otherwise sold to cover specific cash requirements; they are measured at fair value through other consolidated comprehensive income;
- Hold to Sell: monetary, debt and equity trading instruments used to dynamically manage cash surpluses not managed under the business models identified above; such instruments are higher risk and traded repeatedly over time; they are measured at fair value through the separate consolidated income statement.

Other investments

Other investments (other than those in subsidiaries, associates and joint ventures) are classified as non-current or current assets if they will be kept in the Group's portfolio for a period of more or not more than 12 months, respectively.

Other investments are classified as “financial assets measured at fair value through consolidated profit or loss” (FVTPL), as current assets.

At the purchase time of each investment, IFRS 9 provides for the irrevocable option to recognize these investments in "financial assets measured at fair value through other consolidated comprehensive income" (FVTOCI) as non-current or current assets.

The other investments classified as “financial assets measured at fair value through other comprehensive income” are measured at fair value; changes in the fair value of these investments are recognized in a special equity reserve under the other components of the statements of comprehensive income (Reserve for financial assets measured at fair value through other comprehensive income), without reclassification to the separate income statements when the financial asset is disposed of or impaired. Dividends are recognized in the separate consolidated income statement.

Changes in the value of other investments classified as "financial assets at fair value through profit or loss" are recognized directly in the separate consolidated income statement.

Securities other than investments

Securities other than investments, included among non-current or current assets, depending on the business model adopted and the contractual flows envisaged, fall among financial assets measured at amortized cost, or measured at fair value through other comprehensive income or at fair value though profit or loss.

Securities other than investments classified as current assets are those that, by decision of the directors, are intended to be kept in the Group's portfolio for a period of not more than 12 months, and are classified:

- as "financial assets measured at amortized cost" (AC) when held to maturity (originally more than 3 months but less than 12 months, or, although they had an original maturity of more than 12 months, they have been bought in a period during which maturity was included between 3 and 12 months);
- as "financial assets measured at fair value through other consolidated comprehensive income" (FVTOCI) when held in the scope of a business model whose objective is to sell the financial asset and/or collect the contractual cash flows. The consolidated "Reserve for financial assets measured at fair value through other comprehensive income" is reversed to the separate consolidated income statement when the financial asset is disposed of or impaired;
- as “financial assets measured at fair value through consolidated profit or loss" (FVTPL) in the other cases.

Cash and cash equivalents

Cash and cash equivalents are recorded, according to their nature, at nominal value or amortized cost.

Cash equivalents are short-term and highly liquid investments that are readily convertible to known amounts of cash, subject to an insignificant risk of change in value and their original maturity or the remaining maturity at the date of purchase does not exceed 3 months.

Impairment of financial assets

At every closing date, assessments are made as to whether there is any objective evidence that a financial asset or a group of financial assets has been impaired.

The impairment of financial assets is based on the expected credit loss model.

In particular:

- impairment on trade receivables and on contract assets is carried out using the simplified approach that involves estimating the loss expected over the life of the receivable at the time of initial recognition and on subsequent measurements. For each customer segment, the estimate is principally made by calculating the average expected uncollectibility, based on historical and statistical indicators, possibly adjusted using forward-looking elements. For some categories of receivables characterized by specific risk elements, specific measurements are made on individual credit positions;
- the impairment of financial assets other than trade receivables is calculated on the basis of a general model which estimates expected credit losses over the following 12 months or over the residual life of the asset in the event of a substantial worsening of its credit risk.

Derivatives

As allowed by IFRS 9, the TIM Group decided to continue to apply the hedge accounting provisions contained in IAS 39 instead of those of IFRS 9.

Derivatives are used by the TIM Group to manage its exposure to exchange rate and interest rate risks and to diversify the parameters of debt, so that costs and volatility can be reduced within pre-established operational limits.

In accordance with IAS 39, derivative financial instruments qualify for hedge accounting only when:

- at the inception of the hedge, the hedging relationship is formally designated and documented;
- the hedge is expected to be highly effective;
- its effectiveness can be reliably measured;
- the hedge is highly effective throughout the financial reporting periods for which it is designated.

All derivative financial instruments are measured at fair value in accordance with IAS 39.

When derivative financial instruments qualify for hedge accounting, the following accounting treatment applies:

- Fair value hedge – Where a derivative financial instrument is designated as a hedge of the exposure to changes in fair value of an asset or liability due to a particular risk, the profit or loss from re-measuring the hedging instrument at fair value is recognized in the separate consolidated income statement. The profit or loss on the hedged item attributable to the hedged risk adjusts the carrying amount of the hedged item and is recognized in the separate consolidated income statement.
- Cash flow hedge – Where a derivative financial instrument is designated as a hedge of the exposure to variability in cash flows of an asset or liability or a highly probable expected transaction, the effective portion of any gain or loss arising from the fair value adjustment of the derivative financial instrument is recognized directly in a specific equity reserve (Reserve for hedging instruments). The cumulative profit or loss is removed from equity and recognized in the separate consolidated income statement during the same business years in which the hedged transaction is recognized in the separate consolidated income statement. The profit or loss associated with the ineffective portion of a hedge is recognized in the separate consolidated income statement immediately. If the hedged transaction is no longer considered to be probable, the gains or losses not yet realized included in the equity reserve are immediately recognized in the separate consolidated income statement.

For derivatives for which a hedging relationship has not been designated, changes in value compared to initial recognition are recognized directly in the separate consolidated income statement.

Financial liabilities

Financial liabilities include financial payables, including payables for advances on assignments of receivables where the assignment does not transfer substantially all the risks and rewards, as well as other financial liabilities, including derivative financial instruments and liabilities in respect of assets recognized under finance leases recognized in accordance with IFRS 16.

In accordance with IFRS 9, they also include trade and other payables.

Reverse factoring transactions are also classified under trade payables. The TIM Group has reverse factoring agreements in place through which TIM gives its bank partners a mandate to pay its suppliers as invoices become due. Suppliers participating in these programs have the rights to sell (without any cost for the TIM Group) receivables due from the Group. They can exercise this right at their total discretion and incurring all the costs to benefit from collection before the contractual due date.

Financial liabilities other than derivatives are initially recognized at fair value and subsequently measured at amortized cost.

Financial liabilities hedged by derivative instruments designed to manage exposure to changes in the value of liabilities (fair value hedge derivatives) are measured at fair value in accordance with the hedge accounting principles of IAS 39: the profits and losses deriving from subsequent fair value adjustments, only as regards the covered component, are recognized in the separate consolidated income statement and counterbalanced by the effective portion of the profit or loss deriving from the corresponding fair value measurements of the hedge instrument.

Financial liabilities hedged by derivative instruments designed to manage exposure to variability in cash flows (cash flow hedge derivatives) are measured at amortized cost in accordance with the hedge accounting principles of IAS 39.

Transfer of receivables

The TIM Group transfers receivables through factoring and securitization agreements. These transfers, in the majority of cases, are characterized by the transfer of substantially all the risks and rewards of ownership of the receivables to third parties, therefore meeting the requirements of IFRS 9 for derecognition. Special service agreements, under which the purchasers grant TIM S.p.A. a mandate to oversee the collection and management of receivables, have been entered into to maintain the relationship between the Company and its customers.

Inventories

Inventories are measured at the lower of purchase or production cost and estimated realizable value; the cost is determined using the weighted average cost formula for each movement, while the estimated realizable value is determined by observing general prices at the end of the year. Provision is made for obsolete and slow-moving inventories based on their expected future use and estimated realizable value.

Non-current assets held for sale/Discontinued operations

Non-current assets held for sale or discontinued groups whose carrying amount will mainly be recovered through sale, rather than through ongoing use, are classified as held for sale and shown separately from other assets and liabilities in the consolidated statements of financial position. The corresponding amounts for the previous year are not reclassified in the consolidated statements of financial position, but are instead shown separately in a specific column for changes in assets and liabilities in the year in which non-current assets held for sale or discontinued groups are classified as such.

Discontinued operations are a component of an entity that has been terminated or classified as held for sale and that:

- represents a major business line or geographical area of operation; or
- is part of a single coordinated plan to discontinue a separate major line of business or geographical area of operation; or
- is a subsidiary acquired exclusively with a view to resale.

The results arising from Discontinued Operations – whether discontinued or classified as held for sale – are shown separately in the separate consolidated income statement, net of tax effects. The corresponding values for the previous periods, where present, are reclassified and reported separately in the separate consolidated income statement, net of tax effects, for comparative purposes.

Non-current assets held for sale or discontinued groups classified as held for sale are first recognized in compliance with the appropriate IFRS applicable to each specific asset and liability, and subsequently measured at the lower of the carrying amount and fair value, less cost to sell.

Any subsequent impairment losses are recognized as a direct adjustment to non-current assets (or discontinued groups) classified as held for sale, with a contra-entry in the separate consolidated income statement.

An upward revision of value is, instead, recognized for each subsequent increase in the fair value of an asset less cost to sell, but not in excess of the previously recognized cumulative impairment loss.

As required by IFRS 5 (Non-current assets held for sale and discontinued operations), an entity shall not depreciate (or amortize) non-current assets classified as held for sale or being part of a discontinued group.

Finance expenses and other expenses attributable to the liabilities of a discontinued group classified as held for sale must continue to be recognized.

Employee benefits

Provision for employee severance indemnity

Employee severance indemnity, mandatory for Italian companies pursuant to Article 2120 of the Italian Civil Code, is deferred compensation based on the employee's years of service and on the compensation earned by the employee during the service period.

Under IAS 19 (Employee Benefits), the employee severance indemnity as calculated is considered a "Defined benefit plan" and the related liability recognized in the statement of financial position (Provision for employee severance indemnities) is determined by actuarial calculations.

The remeasurements of actuarial gains and losses are recognized in other components of the Consolidated Statements of Comprehensive income. Service cost of Italian companies that employ less than 50 employees, as well as interest expenses related to the "time value" component of the actuarial calculations (the latter classified as Finance expenses), are recognized in the separate consolidated income statement.

Starting from January 1, 2007, the Italian Law gave employees the choice to either allocate their accruing indemnity to supplementary pension funds or it as an obligation of the Company. Companies that employ at least 50 employees must transfer the employee severance indemnity to the "Treasury fund" managed by INPS, the Italian Social Security Institute. Consequently, the Group's obligation to INPS and the contributions to supplementary pension funds take the form, under IAS 19, of "Defined contribution plans".

Equity compensation plans

The companies of the Group provide additional benefits to certain managers of the Group through equity compensation plans (for example stock options and long-term incentive plans). The above plans are recognized in accordance with IFRS 2 (Share-Based Payment).

In accordance with IFRS 2, such plans represent a component of the beneficiaries' compensation. Therefore, for the plans that provide for compensation in equity instruments, the cost is represented by the fair value of such instruments at the grant date, and is recognized in the separate consolidated income statement in "Employee benefits expenses" over the period between the grant date and vesting date with a contra-entry to an equity reserve denominated "Other equity instruments". Changes in the fair value subsequent to the grant date do not affect the initial measurement. At the end of each year, adjustments are made to the estimate of the number of rights that will vest up to maturity. The impact of the change in estimate is recorded as an adjustment to "Other equity instruments" with a contra-entry to "Employee benefits expenses".

The portion of the plans that specifies the payment of compensation in cash is recognized in liabilities as a contra-entry to "Employee benefits expenses"; at the end of each year said liability is measured at fair value.

Provisions

The Group records provisions for risks and charges when, having a current legal or constructive obligation to a third party, as a result of a past event, an outflow of Group resources is likely to be required to meet that obligation, and when the amount of the obligation can be estimated reliably. Provisions for risks and charges also include those established in the event that the company should stipulate contracts that thereafter became onerous, the non-discretionary costs of which necessary to fulfill the commitments made, exceeding the economic benefits expected from such contracts.

When the effect of the time value is material and the payment date of the obligations can be reasonably estimated, the provision is determined by discounting the given expected cash flows by taking into account the risks associated with the obligation. The increase in the provision due to the passage of time is recognized in the separate consolidated income statement as "Finance expenses".

Government grants

Government grants are recognized when there is a reasonable certainty that they will be received and that the Group will satisfy all the conditions established for their granting by the government, government agencies and equivalent local, national or international entities.

Government grants are systematically recognized in the separate income statements over the periods in which the Group recognizes the expenses that the grants are intended to offset as costs.

Government grants related to assets received for the acquisition and/or construction of non-current tangible assets are recorded as deferred income in the statement of financial position and systematically credited to the separate income statements over the useful life of the systems the grants relate to.

Treasury shares

Treasury shares are recognized as a deduction from equity. In particular, the treasury shares are reported as a deduction from the share capital issued in the amount corresponding to the "accounting par value", that is the ratio of total share capital and the number of issued shares, while the excess cost of acquisition over the accounting par value is presented as a deduction from "Other reserves and retained earnings (accumulated losses), including profit (loss) for the year".

Foreign currency transactions

Transactions in foreign currencies are recorded at the foreign exchange rate prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the foreign exchange rate prevailing at the statement of financial position date. Exchange differences arising from the settlement of monetary items or from their conversion at rates different from those at which they were initially recorded during the year or at the end of the prior year are recognized in the separate consolidated income statement.

Revenues

Revenues are the gross inflows of economic benefits during the period arising in the course of the ordinary activities of an entity. Amounts collected on behalf of third parties, such as sales taxes, goods and services taxes and value added taxes, are not economic benefits which flow to the entity and do not result in increases in equity. Therefore, they are excluded from revenues.

The process underlying the recognition of revenues follows the steps set out in IFRS 15:

- **identification of the contract:** this takes place when the parties approve the contract (with commercial substance) and identify the respective rights and obligations: in other terms, the contract must be legally binding, the rights to receive goods and/or services and the terms of payment can be clearly identified, and the Group considers receipt of payment as probable;
- **identification of the performance obligations**: the main performance obligations identified, i.e. promises to transfer goods and services that are distinct, are services rendered (including voice and data traffic and ICT solutions) to retail customers, services rendered to wholesale customers, and sale of products;
- **determination of the transaction price**: this is the total amount contracted with the other party regarding the entire contractual term; the Group has determined that the contractual term is the one arising from the contractual obligations between the parties or, in lack of these obligations, it is by convention one month;
- **allocation of the transaction price to the performance obligations**: the allocation is made proportionately to the respective stand-alone selling prices calculated based on the list prices (if present) or estimated by applying an appropriate margin to the cost of purchase/production of the good/service.

  Revenues from activating the connectivity service are not a performance obligation; they are therefore allocated to the contractual performance obligations (typically to services).
  For offerings which include the sale of devices and service contracts (bundle offerings), the Group allocates the contractual transaction price to the performance obligations of the contract, proportionately to the stand-alone selling prices of the single performance obligations;
- **recognition of revenues**: revenues are stated net of discounts, allowances, and returns in connection with the characteristics of the type of revenue:
  - **Revenues from services rendered**

    Revenues from services rendered are recognized in the separate income statements according to the stage of completion of the service, that is based on actual consumption.
    Traffic revenues from interconnection and roaming are reported gross of the amounts due to other TLC operators.
    Revenues for delivering information or other content are recognized on the basis of the amount invoiced to the customer, when the service is rendered directly by the Group. In the event that the Group is acting as agent (for example, for non-geographic numbers) only the commission received from the content provider is recognized as revenue.
    Revenues from prepaid traffic are recorded on the basis of effective consumption. Deferred revenues for traffic already collected but not yet consumed are recorded in "Trade and miscellaneous payables and other current liabilities" in the consolidated statements of financial position.
    Revenues for services rendered are generally invoiced and collected bimonthly/monthly for retail customers while for wholesale customers, they are invoiced on a monthly basis and due 40 or 60 days

after the date of issue, depending on whether they relate to the mobile component (40 days) or fixed component (60 days).

- **Revenues from sales**

  Revenues from sales (telephone products and others) are recognized upon delivery when control of the assets is transferred to the customers.
  The devices sold separately from the services are invoiced at the time of delivery; collection takes place on demand or based on installment plans (up to 48 monthly installments). The devices sold as part of bundle offerings are invoiced at the time of delivery and usually collected in 24, 30 or 48 monthly installments, depending on the type of offer and customer cluster. With specific reference to the mobile products sold to consumer customers, collection is made at the time of sale through the financial company TIMFin, which disburses the loan to the customer.

The recognition of revenues can generate the recognition of an asset or liability deriving from contracts. In particular:

- **Contract assets** are the right to a consideration in exchange for goods or services that have been transferred to the customer, when the right is conditioned on something other than the passage of time;
- **Contract liabilities** are the obligation to transfer goods or services to the customer for which the Group has received (or for which it is due) a consideration from the customer.

Contract costs (incremental costs of obtaining a contract and costs to fulfill a contract; mainly technical activation costs and costs for sales network commissions) are deferred and recognized through separate consolidated income statement depending on the expected term of the contractual relationship with the customers. The TIM Group avails of the practical expedient, permitted under IFRS 15, of recognizing the incremental costs of obtaining a contract in the consolidated income statement if the amortization period is one year or less.

The recoverability of contract assets and deferred costs is periodically assessed.

Research and advertising costs

Research and advertising costs are directly expensed to the separate consolidated income statement in the year in which they are incurred.

Finance income and expenses

Finance income and expenses are recognized on an accrual basis and include: interest accrued on the related financial assets and liabilities using the effective interest rate method; changes in the fair value of derivatives and other financial instruments measured at fair value through the income statement; gains and losses on foreign exchange and financial instruments (including derivatives).

Dividends

Dividends received from companies other than subsidiaries, associates and joint ventures are recognized in the separate consolidated income statement on an accrual basis, i.e. in the year in which they become receivable following the resolution by the shareholders' meeting for the distribution of dividends of the investee companies.

Dividends payable to third parties are reported as a change in equity in the year in which they are approved by the shareholders' meeting.

Income tax expense (current and deferred)

Income tax expense includes all taxes calculated on the basis of the taxable income of the companies of the Group.

Current and deferred income tax expense is calculated using all the elements and information available at the reporting date, taking into account current laws and considering all the elements that could give rise to uncertainties in the determination of the amounts due to the tax authorities, as provided for in IFRIC 23.

Income tax expense is recognized in the separate consolidated income statement, except to the extent that they relate to items directly charged or credited to equity, in which case the related tax effect is recognized in the relevant equity reserves. The amount of the income tax expense relating to each item included as "Other components of the Consolidated Statements of Comprehensive income" is indicated in the Consolidated Statement of comprehensive income.

The provisions for taxes that could arise from the remittance of the undistributed earnings of subsidiaries are made only where there is the actual intention to remit such earnings.

Deferred tax liabilities/assets are recognized using the "Balance sheet liability method". They are calculated on all the temporary differences that arise between the taxable base of assets and liabilities and the related carrying amounts in the consolidated financial statements, except for differences arising from investments in subsidiaries that are not expected to reverse in the foreseeable future. Deferred tax assets relating to unused tax loss carryforwards are recognized to the extent that it is probable that future taxable income will be available against which they can be utilized. Tax assets and liabilities are offset, separately for current and deferred taxes, when income tax expense is levied by the same tax authority and when there is a legally enforceable offsetting right. Tax assets and deferred tax liabilities are determined by adopting the tax rates expected to be applicable in the respective jurisdictions of the countries in which the Group companies operate, in the years in which those temporary differences are expected to be recovered or settled.

The other taxes not related to income are included in "Other operating expenses".

Earnings per share

Basic earnings per ordinary share is calculated by dividing the Group's profit attributable to ordinary shares by the weighted average number of ordinary shares outstanding during the year, and excluding treasury shares. Similarly, basic earnings per savings share is calculated by dividing the Group's profit attributable to savings shares by the weighted average number of savings shares outstanding during the year.

For diluted earnings per ordinary share, the weighted average number of shares outstanding during the year is adjusted by assuming the subscription of all the potential deriving shares - for example, by exercising rights on shares with dilutive effects. The Group profit is also adjusted to reflect the impact of these transactions net of the related tax effects.

Use of accounting estimates

The preparation of consolidated financial statements and related notes in conformity with IFRS requires management to make estimates and assumptions based also on subjective judgments, past experience and assumptions considered reasonable and realistic in relation to the information known at the time of the estimate. Such estimates have an effect on the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, as well as on the amount of revenues and costs during the year. Actual results could differ, even significantly, from those estimates owing to possible changes in the factors considered in the determination of such estimates. Estimates are reviewed periodically.

The most significant accounting estimates that involve a high level of subjective assumptions and judgments by directors are set out below.

Financial statements area	**Accounting estimates**
Goodwill impairment	The impairment test on goodwill is carried out by comparing the carrying amount of cash-generating units and their recoverable amount. The recoverable amount of a cash-generating unit is the higher of fair value, less costs to sell, and its value in use. This complex valuation process entails the use of methods such as the discounted cash flow method, which uses assumptions to estimate cash flows. The fair value net of disposal costs is based on the current value of forecast cash flow, calculated using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. The recoverable amount depends significantly on the discount rate used in the discounted cash flow model, as well as the expected future cash flows and the growth rate used for the extrapolation. The key assumptions used to determine the recoverable amount for the different cash-generating units, including a sensitivity analysis, are detailed in the Note "Goodwill".
Impairment of tangible and intangible assets with finite useful lives and rights of use assets	At the end of each reporting period, the Group assesses whether there is any indication that an asset – whether tangible or intangible with finite useful lives or a right of use – has been impaired. Both internal and external sources of information are used for this purpose. Identifying the impairment indicators, estimating future cash flows and calculating the fair value of each asset requires the Management to make significant estimates and assumptions in calculating the discount rate to be used, and the useful life and residual value of the assets. These estimates can have a significant impact on the fair value of the assets and on the amount of any impairment write-down.
Business combinations	The recognition of business combinations requires that assets and liabilities of the acquiree be recorded at their fair value at the control acquisition date, as well as the possible recognition of goodwill. These values are determined through a complex estimation process.
Lease liabilities and rights of use assets	The value of lease liabilities and corresponding rights of use is determined by calculating the present value of the lease payments, also bearing in mind whether the renewal of the lease is reasonably certain.
Capitalization/deferment of costs	The capitalization/deferment of internal and external costs is a process that entails elements of estimation and valuation. Specifically, it involves the valuation of: i) the likelihood that capitalized costs will be recovered through correlated future revenues; and ii) the effective increase in the future economic benefits embodied in the related asset.

Provision for bad debts	Impairment on trade receivables and on contract assets is carried out using the simplified approach that involves estimating the loss expected over the life of the receivable at the time of initial recognition and on subsequent measurements. For each customer segment, the estimate is principally made by calculating the average expected uncollectibility, based on historical and statistical indicators, possibly adjusted using forward-looking elements. For some categories of receivables characterized by specific risk elements, specific measurements are made on individual credit positions.
Depreciation and amortization	Changes in the economic conditions of the markets, technology and competitive forces could significantly affect the estimated useful lives of tangible and intangible non-current assets and may lead to a difference in the timing, and thus on the amount of depreciation and amortization expense.
Provisions, contingent liabilities and employee benefits	As regards the provisions for restoration costs, the estimate of future costs to dismantle tangible assets and restore the site is a complex process that requires the valuation of the liabilities arising from such dismantling and restoration obligations, which seldom are entirely defined by laws, administrative regulations or contract clauses, and which normally are to be complied with after an interval of several years. The provisions related to legal, arbitration and fiscal disputes, as well as regulatory proceedings, are the result of a complex estimation process based upon the probability of an unfavorable outcome. Provisions for employee benefits, especially the provision for employee severance indemnities, are calculated using actuarial assumptions; changes in such assumptions could have a material impact on such liabilities. Provisions made for contractual risks are also related to any contracts that may have become onerous and are based on an articulated estimation process that envisages the valuation of the comprehensive negative margins of the entire contract; they therefore include the non-discretionary costs necessary to fulfill the commitments made that exceed the economic benefits expected from such contracts.
Revenues	The recognition of revenues is influenced by estimates of the amount of discounts, rebates and returns to be reported as a direct adjustment to revenues, as well as the methods for defining individual product or service stand-alone selling prices and for determining the duration of the contract when there are renewal options.
Contract costs (IFRS 15)	The recognition of the costs of obtaining and fulfilling contracts is influenced by the estimated expected duration of the relationship with the customer, calculated on the basis of the historical turnover indexes and future estimates. However, this estimate is subject to fluctuations and could only represent customers' future behavior in a limited way, especially if there are new commercial offers or changes in the competitive environment.
Income tax expense (current and deferred)	Income tax expense (current and deferred) are calculated in each country in which the Group operates according to a prudent interpretation of the applicable tax laws. This process sometimes involves complex estimates to determine taxable income and deductible and taxable temporary differences between the carrying amounts and the taxable amounts. In particular, deferred tax assets are recognized to the extent that future taxable income will be available against which they can be recovered. The measurement of the recoverability of deferred tax assets, recognized based on both unused tax loss carry-forwards to future years and deductible temporary differences, takes into account the estimate of future taxable income and is based on conservative tax planning.
Derivative instruments and equity instruments	The fair value of derivative instruments and equity instruments is determined both using valuation models which also take into account subjective measurements such as, for example, cash flow estimates, expected volatility of prices, etc., and on the basis of prices existing in regulated markets or quotations provided by financial counterparties. For further details refer to the Note "Supplementary disclosures on financial instruments".

As per IAS 8 (Accounting Policies, Changes in Accounting Estimates and Errors) paragraph 10, in the absence of a standard or interpretation that specifically applies to a transaction, the Management shall use its judgment in developing and applying an accounting policy that results in consolidated financial statements that represent faithfully the financial position, financial performance and cash flows of the Group, reflect the economic substance of transactions, and are neutral, prudential and complete in all material aspects.

New standards and interpretations endorsed by the EU and in force from January 1, 2022

As required by IAS 8 (Accounting Policies, Changes in Accounting Estimates and Errors), the following is a brief description of the IFRS in force commencing as of January 1, 2022.

Collection of changes of limited scope to the IFRSs

On June 28, 2021, Commission Regulation (EU) 2021/1080 was issued, implementing various amendments of limited scope to the IFRSs. The collection includes changes to three IFRSs as well as annual improvements to the IFRSs that regard minor, non-urgent changes (but which are necessary). These changes must be applied for all years starting after January 1, 2022. The following amendments have been issued:

- **IAS 16: "Property, plant and equipment" - Proceeds before intended use**

  The amendment prohibits a company from deducting from the cost of Property, plant and equipment amounts received from selling items produced while the company is preparing the asset for the intended use (e.g. proceeds from the sale of samples produced when testing a machine to see if it is functioning properly).

  The proceeds form the sale of any such samples, together with the costs for their production, must be noted on the income statement.

- **IAS 37: "Onerous contracts - Costs of fulfilling a contract"**
  The amendment clarifies the meaning of "costs of fulfilling a contract". The amendment clarifies that the direct costs for the execution of a contract include:

  a. incremental costs for fulfilling the contract (e.g. labor and direct materials); and

  b. an allocation of other costs directly related to the fulfillment of contracts (e.g. allocation of the depreciation share for an item of Property, plant and equipment used to fulfill a contract).

  The change may entail the recording of more onerous provision as previously some entities only included the incremental costs in the costs for fulfilling a contract.

- **IFRS 3: "Reference to the conceptual framework"**
  The Board has updated IFRS 3 "Business combinations" to refer to the 2018 conceptual framework for financial reporting, in order to determine what exactly is an asset or a liability in a business combination. Before the amendment, IFRS 3 referred to the 2001 conceptual framework for the financial disclosure.

  These changes do not alter the accounting procedure envisaged for business combinations.

The adoption of these amendments had no effect on the consolidated financial statements at December 31, 2022.

Annual improvements to the IFRSs (2018–2020 cycle)

- **Amendment to IFRS 9 - Fees included in the 10 per cent test for derecognition of financial liabilities**

  This change establishes the commission to be included in the 10 per cent test for derecognition of financial liabilities (in the event of a change or exchange of a financial liability, IFRS 9 Financial instruments specifies a quantitative "10 per cent" test. This test assesses if the new contractual conditions between the borrower and creditor are substantively different from the original contractual conditions in determining whether or not the original financial liability should be derecognized.

  Costs or commissions may be paid to third parties or to the creditor. In accordance with the change, the costs or commissions paid to third parties will not be included in the 10 per cent test.

- **Amendment to the illustrative examples accompanying IFRS 16 "Leases"**
  The Board has amended Illustrative Example 13 that accompanies IFRS 16 to remove the illustration of the reimbursement of leasehold improvements by the lessor. The reason for the amendment is to remove any potential confusion regarding how lease incentives should be processed.

- **Amendment to IFRS 1 "First-time adoption of the International Financial Reporting Standards"**
  The amendment simplifies the adoption of IFRS 1 by a subsidiary that becomes a first-time adopter after its parent. IFRS 1 grants an exemption if a subsidiary adopts the IFRSs later than its parent. The subsidiary can measure its assets and liabilities at the carrying amounts that would be included in the consolidated financial statements of the parent, on the basis of the date of transfer of the parent company to the IFRSs, if no adjustments are made for the consolidation procedures and as a result of the corporate aggregation in which the parent acquired the subsidiary.

  The Board has amended IFRS 1 to allow entities that adopted this exemption from IFRS 1 to also measure the cumulative conversion differences using the amounts reported by the parent, on the basis of the transition date of the parent company to the IFRSs. The change to IFRS 1 extends this exemption to the cumulative conversion differences in order to reduce the costs for first-time adopters. This change will also apply to associates and joint ventures that have obtained the same exemption from IFRS 1.

All these changes are in force starting January 1, 2022 with early application permitted.

The adoption of these amendments had no effect on the consolidated financial statements at December 31, 2022.

New Standards and Interpretations issued by IASB but not yet applicable

At the date of preparation of these consolidated financial statements, the IASB had issued the following new Standards and Interpretations which have not yet come into force and have not yet been endorsed by the EU:

	Mandatory application starting from
New Standards and Interpretations not yet endorsed by the EU	
Amendments to IAS 1 Presentation of Financial Statements: classification of liabilities as current or non-current	1/1/2024
Amendments to IFRS 16: Lease liabilities in a sale and lease-back	1/1/2024
Amendments to IAS 1 Presentation of Financial Statements: non-current liabilities with covenants	1/1/2024
New Standards and Interpretations endorsed by the EU	
Amendments to IAS 8 - Accounting Policies, Changes in Accounting Estimates and Errors	1/1/2023
Amendments to IAS 12 Income taxes: deferred tax related to assets and liabilities arising from a single transaction	1/1/2023
Amendments to IAS 1 - Presentation of Financial Statements	1/1/2023
Amendments to IFRS 17 - Insurance contracts: initial application of IFRS 17 and IFRS 19 - Comparative information	1/1/2023

The potential impacts on the Group consolidated financial statements from the application of these standards and interpretations are currently being assessed.

NOTE 3
SCOPE OF CONSOLIDATION

Investments in consolidated subsidiaries

Composition of the Group

TIM holds a majority of the voting rights in all the subsidiaries included in the scope of consolidation.
A complete list of consolidated subsidiaries is provided in the Note "List of companies of the TIM Group".

Scope of consolidation

The changes in the scope of consolidation at December 31, 2022 compared to December 31, 2021 are listed below.

Entry/exit/merger of subsidiaries into/out of the scope of consolidation:

Company		Business Unit	Month
Entry:			
COZANI RJ INFRAESTRUTURA E REDE DE TELECOMUNICAÇÕES S.A.	New acquisition	Brazil	April 2022
MINDICITY S.r.l. Società Benefit	New acquisition	Domestic	May 2022
MOVENDA S.p.A.	Increase in share held	Domestic	July 2022
Exit:			
DAPHNE 3 S.p.A.	Dilution	Domestic	August 2022
Mergers:			
MOVENDA S.p.A.	Merged into TIM S.p.A.	Domestic	December 2022

The breakdown by number of subsidiaries, associates and joint ventures of the TIM Group is as follows:

Companies:		12/31/2022	
	Italy	Outside Italy	Total
subsidiaries consolidated line-by-line	20	46	66
joint ventures accounted for using the equity method	2	—	2
associates accounted for using the equity method	12	1	13
Total companies	**34**	**47**	**81**

Companies:		12/31/2021	
	Italy	Outside Italy	Total
subsidiaries consolidated line-by-line	20	45	65
joint ventures accounted for using the equity method	2	—	2
associates accounted for using the equity method	12	1	13
Total companies	**34**	**46**	**80**

Further details are provided in the Note "List of companies of the TIM Group".

Subsidiaries with a significant non-controlling interest

At December 31, 2022, the TIM Group held investments in subsidiaries, with significant non-controlling interest, in relation to the companies FiberCop S.p.A. and the TIM Brazil group.

The figures provided below, stated before the netting and elimination of intragroup accounts, comply with IFRS and reflect adjustments made at the acquisition date to align the assets and liabilities acquired to their fair value.

FiberCop S.p.A. - Domestic Business Unit

Non-controlling interest accounted at December 31, 2022 for 42.0% of the capital of FiberCop S.p.A., coinciding with the corresponding voting rights.

FiberCop S.p.A. - financial position data

(million euros)	12/31/2022	12/31/2021
Non-current assets	9,187	8,441
Current assets	515	471
Total Assets	**9,702**	**8,912**
Non-current liabilities	3,376	3,293
Current liabilities	800	551
Total Liabilities	**4,176**	**3,844**
Equity	**5,526**	**5,068**
of which Non-Controlling Interests	*2,321*	*2,129*

FiberCop S.p.A. - income data

(million euros)	2022	2021
Revenues	1,344	978
Profit (loss) for the year	**458**	**321**
of which Non-Controlling Interests	*192*	*135*

FiberCop S.p.A. - financial data

Aggregate cash flows generated in 2022 amounted to -37 million euros (in 2021: +75 million euros).

TIM Brasil group – Brazil Business Unit

Non-controlling interest accounted at December 31, 2022 for 33.4% of the capital of TIM S.A., coinciding with the corresponding voting rights.

Financial position data TIM Brasil group

(million euros)	12/31/2022	12/31/2021
Non-current assets	8,649	5,787
Current assets	1,925	2,476
Total Assets	**10,574**	**8,263**
Non-current liabilities	3,157	2,159
Current liabilities	2,420	1,751
Total Liabilities	**5,577**	**3,910**
Equity	**4,997**	**4,353**
of which Non-Controlling Interests	*1,545*	*1,345*

Income statement data TIM Brasil group

(million euros)	2022	2021
Revenues	3,963	2,840
Profit (loss) for the year	**289**	**455**
of which Non-Controlling Interests	*102*	*155*

Financial data of the TIM Brasil group

Aggregate cash flows generated in 2022 amounted to -369 million euros, with a negative exchange rate effect of 45 million euros.

In 2021, this was positive for 416 million euros, with a positive exchange rate difference of 6 million euros.

Finally, with regard to the subsidiaries with significant minority interests, in line with the information provided in the Report on Operations - "Main risks and uncertainties" section, the main risk factors that could lead, even significantly, to restrictions on the operations of the TIM Brasil group are listed below:

- Strategic risks (risks related to macroeconomic and political factors, as well as risks associated with foreign exchange restrictions and competition);
- Operational risks (risks related to business continuity and development of the fixed and mobile networks, as well as risks related to disputes and litigation);
- Financial risks;
- Regulatory and Compliance risks.

NOTE 4
BUSINESS COMBINATIONS

Acquisition of the mobile telephone assets of Oi Móvel S.A.

On April 20, 2022, TIM S.A. (Brazilian subsidiary of the TIM Group), Telefônica Brasil S.A. and Claro S.A., after having fulfilled the conditions established by the Conselho Administrativo de Defesa Econômica (CADE) and the Agência Nacional de Telecomunicações (ANATEL), concluded the acquisition of the mobile telephone assets of Oi Móvel S.A. - Em Recuperação Judicial.

With the conclusion of the transaction, TIM S.A. now holds 100% of the share capital of Cozani RJ Infraestrutura e Rede de Telecomunicações S.A., a company that corresponds to part of the assets, rights and obligations of Oi Móvel acquired by the company.

The business combination was recognized in the accounts as follows:

- a consideration of 1,373 million euros;
- all Assets acquired and Liabilities undertaken of the acquired companies were measured for recognition at fair value;

- in addition to the value of the Assets acquired and Liabilities undertaken, Goodwill equal to 502 million euros was recognized, determined as shown in the next table:

		Values at fair value (million euros) (*)	Values at fair value (million Brazilian reais)
Valuation of the consideration	**(a)**	**1,373**	**7,212**
Value of assets acquired	**(b)**	1,629	8,559
Value of liabilities undertaken	**(c)**	(758)	(3,983)
Goodwill	**(a–b-c)**	**502**	**2,636**

(*) real/euro exchange rate 5.25403

Cozani RJ Infraestrutura e Rede de Telecomunicações S.A.– values at the acquisition date

		Present values at fair value	Carrying amounts	Present values at fair value	Carrying amounts
		(million euros)(*)		(million Brazilian reais)	
Goodwill		502	—	2,636	—
Other non-current assets		1,489	862	7,825	4,532
Current assets		140	140	734	734
of which Cash and cash equivalents		*37*	*37*	*193*	*193*
Total assets	**(a)**	**2,131**	**1,002**	**11,195**	**5,266**
Total non-current liabilities		549	549	2,886	2,886
Of which Non-current financial liabilities		*459*	*459*	*2,413*	*2,413*
Total current liabilities		209	209	1,097	1,097
Of which Current financial liabilities		*98*	*98*	*517*	*517*
Total liabilities	**(b)**	**758**	**758**	**3,983**	**3,983**
Net assets	**(a-b)**	**1,373**	**244**	**7,212**	**1,283**

(*) real/euro exchange rate 5.25403

It should be noted that in September 2022, TIM S.A. and the other buyers of the Oi Móvel S.A. mobile telephone assets had identified differences in the assumptions and calculation criteria that, under the terms of the Share Purchase Agreement and Other Covenants ("SPA"), justify a proposal to change the Adjusted Closing Price ("ACP") by TIM S.A. of approximately 1.4 billion reais. In addition to differences relating to the Adjusted Closing Price, others have also been identified relating to the contracts of Cozani with companies supplying mobile infrastructure services (site/tower rental), which, under the terms of the "SPA", give rise to indemnity by the Seller in TIM S.A.'s favor, of approximately 231 million reais. As a result of the differences found, TIM S.A. retained an amount of 634 million reais (671 million reais at December 31, 2022).

In October 2022, considering the Seller's express violation of the dispute resolution mechanisms provided for in the SPA, TIM S.A. communicated that the Buyers had no other alternative but to file an arbitration procedure with the Market Arbitration Chamber (Câmara de Arbitragem do Mercado) of B3 S.A. - Brasil, Bolsa, Balcão against the Seller to determine the effective amount of the adjustment to the Adjusted Closing Price, in accordance with the SPA.

Additionally, in October 2022, the 7th Business Court of the Judicial District of Rio de Janeiro handed down a preliminary decision, determining the deposit in court by the Buyers of approximately 1.53 billion reais – of which approximately 670 million reais by TIM S.A. – in an account linked to the court-ordered reorganization process of Oi, where it will be safeguarded until a later decision by the arbitration court.

Further details are provided in the Note "Disputes and Pending Legal Actions, other information, commitments and guarantees".

It should also be noted that:

- if the acquisition of Cozani RJ Infraestrutura e Rede de Telecomunicações S.A. had been completed on January 1, 2022, the consolidated financial statements of the TIM Group as at December 31, 2022 would have recorded revenues approximately 120 million euros higher, with an impact of approximately -170 million euros on the net result for the period attributable to the Owners of the Parent Company;

- on February 27, 2023, the TIM S.A. Board of Directors approved the terms and conditions of the merger, by the company, of Cozani RJ Infraestrutura e Redes de Telecomunicações S.A..

NOTE 5
GOODWILL

Goodwill shows the following breakdown and changes for 2021 and 2022:

(million euros)	12/31/2020	Increase	Decrease	Impairments	Exchange differences	12/31/2021
Domestic	**22,242**	2		(4,120)		**18,124**
Brazil	**605**		(165)		4	**444**
Other Operations	—					—
Total	**22,847**	**2**	**(165)**	**(4,120)**	**4**	**18,568**

(million euros)	12/31/2021	Increase	Decrease	Impairments	Exchange differences	12/31/2022
Domestic	**18,124**	10				**18,134**
Brazil	**444**	502			31	**977**
Other Operations	—					—
Total	**18,568**	**512**	**—**	**—**	**31**	**19,111**

In accordance with IAS 36, goodwill is not subject to amortization, but is tested for impairment on at least an annual basis, when preparing the company's consolidated financial statements.

In 2022, Goodwill increased by 543 million euros, from 18,568 million euros at the end of 2021 to 19,111 million euros at December 31, 2022.

With reference to the Brazil Cash Generating Unit (Brazil CGU), Goodwill recorded:

- an increase of 502 million euros (2,636 million reais) relating to the recognition of goodwill connected with the acquisition of some of the mobile telephone assets of Oi Móvel S.A. For more details, see the note "Business combinations";
- net exchange gains for 31 million euros. In particular, the exchange rate used to convert Brazilian reais into euros (expressed in terms of local currency units per 1 euro) went from 6.32047 as of December 31, 2021 to 5.56520 as of December 31, 2022.

The Goodwill of the Domestic Cash Generating Unit (Domestic CGU) increased by a total of 10 million euros in connection with the acquisition of control over the companies Staer Sistemi S.r.l., Mindicity S.r.l. and Movenda S.p.A.

The gross carrying amounts of Goodwill and the related accumulated impairment losses from January 1, 2004 (date of allocation to the Cash-Generating Units – CGUs) to December 31, 2022 and 2021 can be summarized as follows:

	12/31/2022			12/31/2021		
(million euros)	Gross carrying amount	Accumulated impairment losses	Net carrying amount	Gross carrying amount	Accumulated impairment losses	Net carrying amount
Domestic	38,699	(20,565)	**18,134**	38,689	(20,565)	**18,124**
Brazil	1,143	(166)	**977**	591	(147)	**444**
Other Operations	—	—	—	—	—	—
Total	**39,842**	**(20,731)**	**19,111**	**39,280**	**(20,712)**	**18,568**

The figures for the Brazil CGU are stated in euros, converted at the spot exchange rate at the closing date of the financial statements; the carrying amount of goodwill for the CGU corresponds to 5,439 million reais at December 31, 2022 (2,803 million reais at December 31, 2021). The increase of 2,636 million reais relates to the specified posting of goodwill connected with the acquisition of part of the Oi Móvel S.A. mobile assets.

The impairment test was carried out on two levels. At a first level, the recoverable amount of the assets attributed to the individual CGUs to which goodwill is allocated was estimated; at a second level, considering the Group's activities as a whole.

The cash generating units (or groups of units) to which goodwill is allocated are as follows:

Segment	Cash-Generating Units (or groups of units)
Domestic	Domestic
Brazil	Brazil

According to the applicable accounting rules, the "recoverable value" of the CGUs was equal to the higher of "fair value net of disposal costs" and "value in use".

At December 31, 2022, the value configuration used to determine the recoverable amount of the Domestic CGU - continuing on with the configuration used for the financial statements closed at December 31, 2021 - was the Fair Value estimated on the basis of the income approach, insofar as this is considered able to best maximize the value of the Group's activities (the "market participant perspective"), also reflecting interventions on costs in view of a potential future new, different business structure.

For the Brazil CGU, the value configuration used is the fair value on the basis of market capitalization at the end of the period.

The values are expressed in local currency, and hence in EUR for the Domestic CGUs and BRL for the Brazil CGU. For the Brazil CGU, the recoverable amount of the assets was denominated in the functional currency and subsequently translated at the spot exchange rate at the reporting date.

For the Domestic CGU, the estimate of fair value on the basis of the income approach was made in compliance with IAS 36, with valuation principles and best practices, with reference to the flows of the 2023-2025 Industrial Plan, which is based on the final results of 2022: (i) it reflects realistic expectations regarding future evolutions; (ii) it brings into play careful cost cutting actions as preparation for the future business structure; (iii) it maintains the perspective of use of assets of the domestic market continuing on with the same conditions as at 12/31/2022. The expected cash flows reported in the 2023-2025 Industrial Plan approved by the Board of Directors have been critically analyzed and, with the support of expert appraisers and industry experts, the average representativity has been assessed. Expected average cash flows for the 2023-2025 Industrial Plan were extrapolated for an additional two years, thus bringing the explicit forecast period for future cash flows to a total of five years (2023-2027). The extrapolation of data for 2026-2027 was necessary, in line with that carried out by the main European incumbents, in order to intercept market, competition and industrial trends that will become manifest beyond the forecast horizon of the Industrial Plan. It is specified that where inputs are present that cannot be observed, the fair value thus determined is assigned as level 3 of the fair value hierarchy, as envisaged by IFRS 13 - Fair value measurement.

The estimation of the fair value according to the income approach requires the determination of the current value of income beyond the explicit forecast period ("terminal value"). To this end, the sustainable long-term cash flow was assumed to be the extrapolation of the estimated cash flow at 2027, adjusted as necessary to take into consideration a suitable level of long-term capital expenditure, normalized by the effects tied to the development of innovative technology projects in place during the plan years. Furthermore, with specific reference to the incremental share of the value deriving from 5G license use and therefore from the development of new and innovative business areas, a measurement model has been adopted that takes into account the net incremental flows for a defined period of time which is based on the duration of the license. This approach is consistent with the need to include in the configuration of value, on one hand the outflows deriving from the capex to support its development (as per the Industrial Plan), and on the other the positive net flows from the incremental business component of the license acquisition that will develop over a broad period of time and over the five years of explicit forecast.

The cost of capital used to discount the future cash flows in the estimates of fair value for the Domestic CGU:

- was estimated using the Capital Asset Pricing Model (CAPM), which is one of the generally accepted application criteria referred to in IAS 36;
- reflects current market estimates of the time value of money and the specific risks associated with the asset groups; includes appropriate yield premiums for country risk;
- was calculated using comparative market parameters to estimate the "Beta coefficient" and the weighting coefficient of the equity and debt capital components;

For the Domestic CGU it was as follows:

- the weighted average cost of capital (WACC rate) used to discount the future cash flows and the equivalent rate before tax;
- details are also provided of the growth rate used to estimate the residual value after the explicit forecast period (the G-Rate), expressed in nominal terms and related to the cash flows in their functional currency;
- details are provided of the implicit capitalization rates resulting from the difference between the cost of capital, after tax, and the G-Rate.

Principal parameters for the estimates of fair value

	Domestic
WACC	6.20%
WACC before tax	7.89%
Growth rate beyond the explicit period (g)	1.09%
Capitalization rate after tax (WACC-g)	5.11%
Capitalization rate before tax (WACC-g)	6.80%
Capex/Revenues, perpetual	15.50%

The growth rate in the terminal value “g” of the Domestic CGU was estimated taking into account the expected evolution of demand for the various business areas, overseen in terms of investments and competences also by the subsidiaries Noovle and FiberCop. The growth rate thus estimated falls within the range of growth rates applied by analysts who monitor TIM shares.

The phase of capital expenditure, competitive positioning and the technological infrastructure operated was taken into account in estimating the level of investment needed to sustain the perpetual development of cash flows after the explicit forecast period.

The recoverable amount of the Domestic cash generating unit, determined on the basis of the Fair Value estimated on the basis of the income approach, highlighted headroom of 1,187 million euros.

The difference between the recoverable amounts and the net carrying amounts of the CGUs considered totaled:

(million euros)	Domestic	Brazil
Difference between recoverable and net carrying amounts	+1,187	+217

Therefore, in light of all the foregoing, in FY 2022, the Goodwill values recognized in the financial statements relating to the Domestic CGU (positive difference of +1,187 million euros) and the Brazil CGU (positive difference of +217 million euros) are confirmed.

In relation to the Domestic CGU, a structural deterioration of the relevant parameters and, notably, the WACC, may call for the application of impairment. In detail, in accordance with IAS 36, the sensitivity analysis has been performed aiming to identify the change in key variables (WACC, margins as seen by the ratio of gross operating margin and revenues, growth rate of income in terminal value), which makes the recoverable amount equal to the carrying amount. This analysis shows that:

- an increase in costs such as to lower the margins (= gross operating margin/revenues) of 0.67%; or
- a 0.15% rise in the WACC (at the value of 6.35%); or
- a growth rate of income in terminal value of 0.92%;

would align the recoverable amount with the carrying amount.

With regard to the Brazilian CGU, the change in the price per share, compared to the reference quotation considered for the purposes of the financial statements, which would make the recoverable value equal to the carrying amount is equal to -4.07%.

The second level impairment test revealed a recoverable amount that exceeded the book value of the Group’s business as a whole, thereby not showing any need for impairment.

NOTE 6

INTANGIBLE ASSETS WITH A FINITE USEFUL LIFE

This item increased by 509 million euros compared to December 31, 2021. The breakdown and movements are as follows:

(million euros)	12/31/2020	Investments	Amortization	Impairment (losses) / reversals	Disposals	Exchange differences	Other changes	12/31/2021
Industrial patents and intellectual property rights	**1,789**	731	(1,043)			4	452	**1,933**
Concessions, licenses, trademarks and similar rights	**3,645**	191	(466)			6		**3,376**
Other intangible assets	**4**	1	(2)					**3**
Work in progress and advance payments	**1,302**	963			(3)	3	(430)	**1,835**
Total	**6,740**	**1,886**	**(1,511)**	**—**	**(3)**	**13**	**22**	**7,147**

(million euros)	12/31/2021	Investments	Amortization	Impairment (losses)/reversals	Disposals	Exchange differences	Capitalized borrowing costs	Other changes	12/31/2022
Industrial patents and intellectual property rights	**1,933**	731	(1,069)		(1)	53		338	**1,985**
Concessions, licenses, trademarks and similar rights	**3,376**	85	(442)		(1)	70		1,555	**4,643**
Other intangible assets	**3**	2	(6)			(2)		48	**45**
Work in progress and advance payments	**1,835**	310				54	48	(1,264)	**983**
Total	**7,147**	**1,128**	**(1,517)**	**—**	**(2)**	**175**	**48**	**677**	**7,656**

Investments in 2022 amounted to 1,128 million euros (1,886 million euros in 2021) and included 244 million euros in internally generated assets (216 million euros in 2021). Further details are provided in the Note "Internally generated assets".

Industrial patents and intellectual property rights at December 31, 2022, essentially consist of the plant operation and application software purchased outright and user license, amortized over a period between 2 and 6 years and relating mainly to TIM S.p.A. (1,301 million euros), the Brazil Business Unit (438 million euros) and Noovle S.p.A. (142 million euros).

Concessions, licenses, trademarks and similar rights at December 31, 2022 mainly refer to the residual cost of telephone licenses and similar rights (3,316 million euros for TIM S.p.A. and 1,268 million euros for the Brazil Business Unit). Compared with December 31, 2021, the item increased by 1,267 million euros, mainly due to:

- entry into the consolidation scope of Cozani RJ Infraestrutura e Rede de Telecomunicações S.A. (633 million euros);
- entry into force of the rights to use the 2100 MHz bandwidth of TIM S.p.A., which in 2021 was extended until December 31, 2029 (240 million euros);
- entry into force of the 5G user rights to the 694-790 MHz bandwidths of TIM S.p.A. (680 million euros);
- acquisition by TIM S.p.A. of the licenses for the 34-36 MHz OpNet bandwidth, acquired with an agreement with the OpNet (former Linkem) operator covering the reciprocal transfer of frequencies and enabled TIM S.p.A. to use an additional 20MHz nationally, reaching the maximum availability of 100MHz permitted in the frequency bandwidth 3.4-3.8 GHz usable by TIM, as 5G frequencies.

The residual amount of telephone licenses and similar rights in operation at December 31, 2022 (4,584 million euros) and their useful lives are detailed below:

Type	Residual value at 12/31/2022	Useful life	Maturity	Amortization expense for the year 2022
	(million euros)	(years)		(million euros)
TIM S.p.A.:				
UMTS 2100 MHz (extension)	210	8	12/31/2029	30
WiMax (extension)	5	7	12/31/2029	1
34-36 MHz band Linkem	61	7	12/31/2029	4
LTE 1800 MHz	60	18	12/31/2029	9
LTE 800 MHz	420	17	12/31/2029	60
LTE 2600 MHz	46	17	12/31/2029	7
1452-1492 MHz band	116	14	12/31/2029	16
900 and 1800 MHz band	383	11	12/31/2029	55
3600-3800 MHz band (5G)	1,331	19	12/31/2037	89
26.5-27.5 GHz band (5G)	26	19	12/31/2037	2
694-790 MHz band (5G)	658	15 years and 6 months	12/31/2037	22
TIM Brasil group:				
GSM and 3G (UMTS) - TIM S.A.	21	15	From 2023 to 2031	24
4G (LTE - 700 MHz) -TIM S.A.	496	15	2029	74
5G (2.3 GHz and 26 GHz) - TIM S.A.	200	20	2041	14
900 - 1800 -1900 - 2100 - 2500 MHz - Cozani	551	15-18	From 2027 to 2038	28

Work in progress and advance payments mainly relate to:

- the Brazil Business Unit (530 million euros) connected with the rights to use 3.5 GHz frequencies (5G). For the latter, as the time period required for the assets to be ready for use is more than 12 months, in 2022 the related finance expenses of 48 million euros were capitalized. The capitalized finance expenses have been deducted directly from "finance expense";
- the Domestic Business Unit (453 million euros), essentially related to software developments and investments for the digital evolution of Network Infrastructures.

The item also includes work in progress mainly related to software developments and investments for the digital evolution of Network Infrastructures.

Amortization and impairment losses have been recorded in the income statement as components of EBIT.

The gross carrying amount, accumulated impairment losses and accumulated amortization at December 31, 2022 and December 31, 2021 can be summarized as follows:

(million euros)	12/31/2021			
	Gross carrying amount	Accumulated impairment losses	Accumulated amortization	Net carrying amount
Industrial patents and intellectual property rights	11,605	—	(9,672)	1,933
Concessions, licenses, trademarks and similar rights	8,304	—	(4,928)	3,376
Other intangible assets	464	—	(461)	3
Work in progress and advance payments	1,835	—	—	1,835
Total intangible assets with a finite useful life	**22,208**	**—**	**(15,061)**	**7,147**

(million euros)	12/31/2022			
	Gross carrying amount	Accumulated impairment losses	Accumulated amortization	Net carrying amount
Industrial patents and intellectual property rights	12,847	—	(10,862)	1,985
Concessions, licenses, trademarks and similar rights	7,784	—	(3,141)	4,643
Other intangible assets	563	—	(518)	45
Work in progress and advance payments	983	—	—	983
Total intangible assets with a finite useful life	**22,177**	**—**	**(14,521)**	**7,656**

With reference to the gross values, in 2022 the parent company TIM S.p.A. made disposals of 3,125 million euros in connection with licenses (UMTS licenses for 2,506 million euros and GSM licenses for 117 million euros expired and sale of WiMax licenses to OpNet for 6 million euros) and rights to use intellectual works, almost entirely amortized, including BSS and OSS software application developments for 471 million euros, television rights expired for 16 million euros and the Sandvine platform for 6 million euros.

NOTE 7
TANGIBLE ASSETS

Property, plant and equipment owned

This item increased by 789 million euros compared to December 31, 2021. The breakdown and movements are as follows:

(million euros)	12/31/2020	Investments	Depreciation	Impairment (losses) / reversals	Disposals	Exchange differences	Other changes	12/31/2021
Land	**229**	2					1	**232**
Buildings (civil and industrial)	**577**	23	(35)				32	**597**
Plant and equipment	**11,206**	1,885	(2,095)		(30)	21	267	**11,254**
Manufacturing and distribution equipment	**22**	4	(9)				2	**19**
Other	**309**	121	(145)			1	81	**367**
Construction in progress and advance payments	**798**	630				2	(588)	**842**
Total	**13,141**	**2,665**	**(2,284)**	**—**	**(30)**	**24**	**(205)**	**13,311**

(million euros)	12/31/2021	Investments	Depreciation	Impairment (losses)/ Reversals	Disposals	Exchange differences	Other changes	12/31/2022
Land	**232**				(1)	1		**232**
Buildings (civil and industrial)	**597**	34	(37)			1	56	**651**
Plant and equipment	**11,254**	2,198	(2,145)		(28)	202	521	**12,002**
Manufacturing and distribution equipment	**19**	7	(8)				2	**20**
Other	**367**	105	(158)		(1)	13	36	**362**
Construction in progress and advance payments	**842**	484			(3)	11	(501)	**833**
Total	**13,311**	**2,828**	**(2,348)**	**—**	**(33)**	**228**	**114**	**14,100**

Land comprises both built-up land and available land and is not subject to depreciation. The figure at December 31, 2022 refers primarily to TIM S.p.A. (187 million euros) and Noovle (33 million euros).

Buildings (civil and industrial) mainly includes buildings for industrial use hosting telephone exchanges, or for office use and light constructions. The balance at December 31, 2022 is mainly attributable to TIM S.p.A. (425 million euros) and Noovle S.p.A. (199 million euros).

Plant and machinery includes the technological infrastructure used for the provision of telecommunications services (transport and distribution of voice/data traffic). The figure at December 31, 2022 is mainly attributable to TIM S.p.A. (5,552 million euros), to FiberCop S.p.A. (4,114 million euros) and to the Brazil Business Unit (1,927 million euros).

Manufacturing and distribution equipment consists of instruments and equipment used for the operation and maintenance of plant and equipment and refers mainly to TIM S.p.A..

Other mainly consists of hardware for the functioning of the network and for work stations, furniture and fixtures and, to a minimal extent, transport vehicles and office machines.

Construction in progress and advance payments refer to the internal and external costs incurred for the acquisition and internal production of tangible assets, which are not yet in use.

2022 investments include 315 million euros of internally generated assets (259 million euros in 2021); further details are provided in the Note "Internally generated assets".

Depreciation, impairment losses and reversals have been recorded in the income statement as components of EBIT.

Depreciation for the years 2022 and 2021 was calculated on a straight-line basis over the estimated useful lives of the assets according to the following minimum and maximum rates:

Buildings (civil and industrial)	2% - 6.66%
Plant and equipment	3% - 50%
Manufacturing and distribution equipment	15% - 20%
Other	10% - 50%

Other changes include 112 million euros related to the entrance into the consolidation scope of the mobile telephone assets of Oi Móvel S.A. acquired by the TIM Group in April 2022. For further details, see the note "Business combinations".

The gross carrying amount, accumulated impairment losses and accumulated depreciation at December 31, 2022 and December 31, 2021 can be summarized as follows:

(million euros)	12/31/2021			
	Gross carrying amount	Accumulated impairment losses	Accumulated depreciation	Net carrying amount
Land	235	(3)		232
Buildings (civil and industrial)	1,960	—	(1,363)	597
Plant and equipment	70,535	(12)	(59,269)	11,254
Manufacturing and distribution equipment	330	(1)	(310)	19
Other	3,305	(2)	(2,936)	367
Construction in progress and advance payments	844	(2)		842
Total	**77,209**	**(20)**	**(63,878)**	**13,311**

(million euros)	12/31/2022			
	Gross carrying amount	Accumulated impairment losses	Accumulated depreciation	Net carrying amount
Land	235	(3)		232
Buildings (civil and industrial)	2,051	—	(1,400)	651
Plant and equipment	73,824	(12)	(61,810)	12,002
Manufacturing and distribution equipment	338	(1)	(317)	20
Other	3,725	(2)	(3,361)	362
Construction in progress and advance payments	834	(1)		833
Total	**81,007**	**(19)**	**(66,888)**	**14,100**

With regard to the gross amounts, in 2022 the parent company TIM S.p.A. made disposals for a total value of 1,294 million euros, mainly in relation to fully depreciated assets, including: UMTS transmission plants and network transmission devices (1,081 million euros), infrastructures and GSM base transceiver stations (63 million euros), switching systems (52 million euros), rented terminals (32 million euros), access network (29 million euros), power supply and conditioning systems (13 million euros), underground fiber optic (9 million euros), aerials and cable laying (7 million euros), civil buildings (2 million euros).

NOTE 8
RIGHTS OF USE ASSETS

This item increased by 641 million euros compared to December 31, 2021. The breakdown and movements are as follows:

(million euros)	12/31/2020	Investments	Increases in lease contracts	Depreciation and amortization	Disposals	Exchange differences	Other changes	12/31/2021
Property	**2,911**	35	298	(343)	(14)	4	(43)	**2,848**
Plant and equipment	**1,909**	25	328	(314)	(5)	11	(107)	**1,847**
Other tangible assets	**121**		35	(37)	(2)		2	**119**
Construction in progress and advance payments	**51**	19	2				(42)	**30**
Intangible assets			4	(1)				**3**
Total	**4,992**	**79**	**667**	**(695)**	**(21)**	**15**	**(190)**	**4,847**

(million euros)	12/31/2021	Investments	Increases in lease contracts	Depreciation and amortization	Disposals	Exchange differences	Other changes	12/31/2022
Property	**2,848**	35	347	(398)	(4)	35	104	**2,967**
Plant and equipment	**1,847**	53	462	(474)	(2)	108	376	**2,370**
Other tangible assets	**119**		23	(38)	(3)		1	**102**
Construction in progress and advance payments	**30**	25					(20)	**35**
Intangible assets	**3**	8		(2)			5	**14**
Total	**4,847**	**121**	**832**	**(912)**	**(9)**	**143**	**466**	**5,488**

2022 capital expenditures mainly refer to the Domestic Business Unit and are essentially related to the acquisition of IRU transmission capacity and improvements and incremental expenses incurred on leased property and non-property assets.

The increases in finance leasing contracts in 2022, equal to 832 million euros, refer to the Brazil Business Unit (484 million euros) and the Domestic Business Unit (348 million euros).

These increases include the higher value of the rights of use recorded as a result of new leases, increases of lease payments and renegotiations of agreements existing both land and buildings for office use and industrial relationship over time, to infrastructure sites for the mobile telephone network infrastructure and network.

Amortization and impairment losses have been recorded in the income statement as components of EBIT.

The disposals are representative of the carrying amount of the assets from lease agreements that terminated early.

Other changes refer mainly to the entrance into the consolidation scope of the mobile telephone assets of Oi Móvel S.A. (558 million euros) and also include the start-up and changes connected with the lesser value of the rights of use recorded as a result of contractual changes during the period.

Property includes buildings and land under passive leases and the related building adaptations, attributable to the Domestic Business Unit (2,422 million euros) and the Brazil Business Unit (545 million euros).

Plant and equipment mainly includes rights of use on infrastructures for telecommunications services. These refer to the Brazil Business Unit (1,436 million euros), the Parent Company TIM S.p.A. (637 million euros), the Telecom Italia Sparkle group (156 million euros) and FiberCop S.p.A. (140 million euros). This includes, inter alia, the recognition of the value of the telecommunications towers sold by the TIM Brasil group to American Tower do Brasil and subsequently repurchased in the form of a finance lease.

Other tangible assets mainly comprises the leases on motor vehicles. In addition, the right of use for the lease of the business unit relating to all the assets organized for the full performance of the "construction", "delivery" and "assurance" activities for telecommunications networks and equipment, deriving from the contract entered into between TIM Servizi Digitali S.p.A. and Sittel S.p.A., is recorded herein (15 million euros). The corresponding finance lease liability for the obligation to comply with the contractual payments is recorded against the right of use.

Intangible assets mainly includes Telecom Italia Sparkle rights of use of transmission frequencies on optic fiber carriers not illuminated by the undersea cable Monet and the recording as a lease of a Software as a Service (SaaS) contract, in respect of which the Parent Company TIM S.p.A. has acquired the right to make exclusive use of software licenses residing on partitions of third party hardware platforms dedicated exclusively to the Company.

The gross carrying amount, accumulated impairment losses and accumulated amortization at December 31, 2022 and December 31, 2021 can be summarized as follows:

(million euros)	12/31/2021			
	Gross carrying amount	Accumulated impairment losses	Accumulated depreciation	Net carrying amount
Property	5,327	(13)	(2,466)	2,848
Plant and equipment	3,304	(277)	(1,180)	1,847
Other	291		(172)	119
Construction in progress and advance payments	30			30
Intangible assets	4	—	(1)	3
Total	**8,956**	**(290)**	**(3,819)**	**4,847**

(million euros)	12/31/2022			
	Gross carrying amount	Accumulated impairment losses	Accumulated depreciation	Net carrying amount
Property	5,811	(13)	(2,831)	2,967
Plant and equipment	4,340	(278)	(1,692)	2,370
Other	272		(170)	102
Construction in progress and advance payments	35			35
Intangible assets	17	—	(3)	14
Total	**10,475**	**(291)**	**(4,696)**	**5,488**

Impairment losses on "Plant and equipment", mainly relating to prior years, refers to the Indefeasible Rights of Use (IRU) for the transmission capacity and cables for international connections acquired by the Telecom Italia Sparkle group.

With reference to the gross values, in 2022 the Parent Company TIM S.p.A. carried out disposals for a total value of 85 million euros, essentially relating to leased properties (34 million euros), leased vehicles (25 million euros), base transceiver stations (16 million euros) and leasehold improvements (9 million euros).

NOTE 9
INVESTMENTS

Investments in associates and joint ventures accounted for using the equity method

Investments in associates and joint ventures accounted for using the equity method are reported below in detail:

(million euros)		12/31/2022	12/31/2021
I-Systems S.A.		277	253
Daphne 3 S.p.A.		212	—
Italtel S.p.A.		9	—
NordCom S.p.A.		6	6
W.A.Y. S.r.l.		4	4
QTI S.r.l		3	2
Satispay S.p.A.		—	20
Other		2	3

Total investments accounted for using the equity method	**2,979**	**16**	**(20)**	**(129)**	**(2,307)**	**539**

Investments for 2022 include mainly:

- 10 million euros for the subscription, in April 2022, of a part of the capital increase of Italtel S.p.A., consequent to the reorganization process and company composition procedure approved by the Court of Milan in December 2021. At December 31, 2022, TIM Group's investment held in Italtel S.p.A. was 17.72% of the share capital.

  Italtel S.p.A. is also subject to the considerable influence of TIM S.p.A. in accordance with IAS 28 (Investments in Associates and Joint Ventures);
- 5 million euros for the assigned share (45%) under the scope of the establishment and subsequent recapitalization of Polo Strategico Nazionale S.p.A. The company deals with the design, preparation, fitting out and management of infrastructure for the supply of cloud services and solutions for the public administration.

"Valuation using the equity method" for 2022 mainly includes:

- for the equity investment in INWIT S.p.A., the portion, pertaining to the positive economic result of INWIT, including the greater amortization charge, at consolidated level, of the assets to which part of the greater value deriving from the corporate integration transaction of Vodafone Towers S.r.l. in INWIT (35 million euros) has been allocated and the reduction in the carrying amount of the equity investment for dividends received in the year (94 million euros);
- for the equity investment in Daphne 3 S.p.A., the reduction in the carrying amount of the equity investment for dividends received in the year (57 million euros).

Other changes for 2022 mainly include:

- the deconsolidation of the investment in INWIT - Infrastrutture Wireless Italiane consequent to the August 2022 sale of 41% of the share capital of the holding company Daphne 3 S.p.A and the consequent loss of control in the company. In turn, Daphne 3 S.p.A. holds a 30.2% share in INWIT;

- the entry of the residual equity investment in Daphne 3 S.p.A.(10% of the share capital). Daphne 3 S.p.A. is subject to the considerable influence of TIM S.p.A. in accordance with IAS 28 (Investments in Associates and Joint Ventures);
- the exchange differences connected with the investment in the related Brazilian company I-Systems S.A.

The list of **investments accounted for using the equity method** is presented in the Note "List of companies of the TIM Group".

Other investments in associates accounted for using the equity method of the TIM Group are not material either individually or in aggregate form.

Investments in structured entities

The TIM Group does not hold investments in structured entities.

Other investments

Other investments refer to the following:

(million euros)	12/31/2020	Investments	Disposals and reimbursements of capital	Valuation at fair value	Other changes	12/31/2021

Total	**156**	**11**	**(7)**	**(44)**	**—**	**116**

More specifically, note that at December 31, 2022, the TIM Group had a subscription commitment for units:

- in the Northgate CommsTech Innovations Partners L.P. fund for 4.6 million USD, equal to approximately 4.3 million euros at the exchange rate as at December 31, 2022;
- of the UV T-Growth fund in the amount of 47.4 million euros.

As permitted by IFRS 9, TIM now measures Other Investments at “fair value through other comprehensive income (FVTOCI)”.

Further details on Financial Instruments are provided in the Note "Supplementary disclosure on financial instruments".

NOTE 10

NON-CURRENT AND CURRENT FINANCIAL ASSETS

Non-current and current financial assets were broken down as follows:

(million euros)		12/31/2022	12/31/2021
Other non-current financial assets			
Securities other than investments		—	—
Receivables from employees		39	39
Hedging derivatives relating to hedged items classified as non-current assets/liabilities of a financial nature		1,435	1,935
Non-hedging derivatives		119	100
Other financial receivables		9	211
		1,602	**2,285**
Financial receivables for lease contracts		**49**	**45**
Total non-current financial assets	**(a)**	**1,651**	**2,330**
Securities other than investments, other financial receivables and other current financial assets			
Securities other than investments			
Measured at amortized cost (AC)		—	—
Measured at fair value through other comprehensive income (FVTOCI)		1,040	1,515
Measured at fair value through profit or loss (FVTPL)		406	734
		1,446	**2,249**
Financial receivables and other current financial assets			
Liquid assets with banks, financial institutions and post offices (with maturity over 3 months)		—	—
Receivables from employees		21	12
Hedging derivatives relating to hedged items classified as current assets/liabilities of a financial nature		84	80
Non-hedging derivatives		47	41
Other short-term financial receivables		2	9
		154	**142**
	(b)	**1,600**	**2,391**

Cash and cash equivalents	**(d)**	**3,555**	**6,904**
Total current financial assets	**e=(b+c+d)**	**5,224**	**9,351**
Financial assets relating to Discontinued operations/Non-current assets held for sale	**(f)**	**—**	**—**
Total non-current and current financial assets	**g=(a+e+f)**	**6,875**	**11,681**

Further details on Financial Instruments are provided in the Note "Supplementary disclosure on financial instruments".

Financial receivables for lease contracts refer to:

- finance leases on user rights and equipment;
- agreements for the sale of network infrastructure in IRU with deferred collection over time recognized using the financial method envisaged by IFRS 16 given the contractual term substantially close to the economic life of the asset;
- lease contracts for commercial products with customers. The financial receivables for lease assets are offset by the financial debt for the corresponding leases payable.

Hedging derivatives relating to hedged items classified as non-current assets/liabilities of a financial nature mainly refer to the mark-to-market spot valuation component of the hedging derivatives, whereas **hedging derivatives relating to hedged items classified as current assets/liabilities of a financial nature** refer to accrued income on such derivative contracts.

Non-hedging derivatives consist mainly of the mark-to-market component of the non-hedging derivatives of the Brazil Business Unit. More specifically, they include 112 million euros in relation to the option to subscribe shares of C6 Bank with which TIM S.A. entertains commercial relations.

Further details are provided in the Note “Derivatives”.

Securities other than investments included in current financial assets relate to:

- 1,040 million euros of listed securities, of which 368 million euros of treasury bonds purchased by Telecom Italia Finance S.A. as well as 672 million euros of bonds purchased by Telecom Italia Finance S.A. with different maturities, all with an active market and consequently readily convertible into cash. Under IFRS 9 and consistently with the Business model, such securities are classified as financial assets measured at fair value through other comprehensive income (FVTOCI). The purchases of the above government bonds, which, pursuant to Consob Communication no. DEM/11070007 of August 5, 2011, represent investments in “Sovereign debt securities”, have been made in accordance with the Guidelines for the “Management and control of financial risk” adopted by the TIM Group;
- 406 million euros of investments in monetary funds by the Brazil Business Unit, which, under IFRS 9, are classified as financial assets measured at fair value through profit or loss (FVTPL).

On the basis of two securities lending agreements signed with Telecom Italia Finance S.A. on November 27, 2019 and thereafter renewed on April 28, 2020, TIM S.p.A. received on loan until February 2, 2021 (renewable term) 98 million euros (nominal) of BTP 3/1/2023 and 150 million euros of BTP 4/15/2021; starting December 1, 2019, TIM S.p.A loans these securities to the counterparty NatWest.

On January 27, 2021, TIM S.p.A. renewed the securities lending agreement in place with Telecom Italia Finance S.A., which envisages the lending until February 15, 2023 of 98 million euros (nominal) of BTP 3/1/2023.

On January 29, 2021, TIM S.p.A. borrowed until October 5, 2023 (subject to renewal) 24 million euros (nominal) in BTP 10/15/2023 and 67.5 million euros (nominal) in BTP 2/1/2026; furthermore TIM S.p.A. lent the counterparty NatWest said securities in compliance with the agreement stipulated on December 21, 2020.

From an accounting standpoint, in compliance with IAS/IFRS, the assets are shown exclusively in the financial statements of Telecom Italia Finance S.A., which retains the risks and benefits associated with the position.

Further details are provided in the Note “Accounting policies”.

Cash and cash equivalents amounted to 3,555 million euros, a decrease of 3,349 million euros compared to December 31, 2021 and were broken down as follows:

(million euros)	12/31/2022	12/31/2021
Liquid assets with banks, financial institutions and post offices	2,622	6,092
Checks, cash and other receivables and deposits for cash flexibility	—	—
Securities other than investments (due within 3 months)	933	812
Total	**3,555**	**6,904**

The different technical forms of investing available cash at December 31, 2022 had the following characteristics:

- maturities: investments have a maximum maturity of three months;
- counterparty risk: deposits have been made with leading high-credit-quality banks and financial institutions with a rating of at least BBB according to Standard & Poor’s with regard to Europe, and with leading local counterparts with regard to investments in South America;
- country risk: deposits have been made mainly in major European financial markets.

Securities other than investments (due within 3 months) included 447 million euros (812 million euros at December 31, 2021) of Brazilian bank certificates of deposit (*Certificado de Depósito Bancário*) held by the Brazil Business Unit with premier local banking and financial institutions, 350 million euros of monetary portfolio securities and 135 million euros of Euro Commercial Papers, subscribed by Telecom Italia Finance S.A.

NOTE 11
MISCELLANEOUS RECEIVABLES AND OTHER NON-CURRENT ASSETS

This item rose by 99 million euros compared to December 31, 2021. The figure breaks down as follows:

(million euros)		12/31/2022	*of which Financial Instruments*	12/31/2021	*of which Financial Instruments*
Miscellaneous receivables (non-current)	**(a)**	**560**	**275**	**433**	**144**
Other non-current assets					
Deferred contract costs		1,702		1,755	
Other deferred costs		103		78	
	(b)	**1,805**		**1,833**	
Total	**(a+b)**	**2,365**	**275**	**2,266**	**144**

Further details on Financial Instruments are provided in the Note "Supplementary disclosure on financial instruments".

Miscellaneous receivables (non-current) totaled 560 million euros (433 million euros at December 31, 2021) and included Non-current income tax receivables of 124 million euros (147 million euros at December 31, 2021).

This item was mainly due to the Brazil Business Unit (516 million euros; 379 million euros at December 31, 2021).

More specifically, at December 31, 2022, the Brazil Business Unit showed non-current receivables relating to indirect tax for 153 million euros (137 million euros at December 31, 2021), to direct tax for 93 million euros (116 million euros at December 31, 2021) and to court deposits for 248 million euros (116 million euros at December 31, 2021).

More specifically, the legal deposits included the deposit, at December 31, 2022 equal to 120 million euros, requested in October 2022 by the 7th Business Court of the Legal District of Rio de Janeiro (Brazil) of TIM S.A., as buyer of part of the mobile assets of the Oi Group. Further details are provided in the Note “Disputes and Pending Legal Actions, other information, commitments and guarantees”.

Other non-current assets amounted to 1,804 million euros (1,833 million euros at December 31, 2021). They mainly break down as follows:

- **Deferred contract costs** of 1,702 million euros (1,755 million euros at December 31, 2021), mainly related to the deferral of costs related to the activation and acquisitions of new contracts with customers. Contractual costs (mainly technical activation costs and commissions for the sales network) were deferred and charged to the separate income statements according to the expected duration of the contractual relationship with customers (on average around 4 years for the mobile business and around 8 years for the fixed-line business).

  Total (non-current and current) deferred contract costs amounted to 2,271 million euros (2,297 million euros at December 31, 2021) and break down as follows:

(million euros)	12/31/2022	12/31/2021
Deferred contract costs		
Non-current deferred contract costs	1,702	1,755
Current deferred contract costs	569	542
Total	**2,271**	**2,297**

(million euros)	12/31/2022	12/31/2021
Deferred contract costs		
Contract acquisition costs	1,262	1,246
Contract execution costs	1,009	1,051
Total	**2,271**	**2,297**

  Changes to comprehensive deferred contract costs in 2022 are as follows:

(million euros)	12/31/2021	Increase	Release to income statement	Exchange differences and other changes	12/31/2022
Contract acquisition costs	1,246	369	(345)	(8)	1,262
Contract execution costs	1,051	199	(241)	—	1,009
Total	**2,297**	**568**	**(586)**	**(8)**	**2,271**

  The deferred contract costs will be recognized in the income statement for future years and, in particular, of around 599 million euros in 2023, based on the amount at December 31, 2022 without taking into account the new deferred portions.

(million euros)	12/31/2022	Year of recognition in the income statement					
		2023	2024	2025	2026	2027	After 2027
Contract acquisition costs	1,262	356	283	217	153	106	147
Contract execution costs	1,009	243	218	182	138	103	125
Total	**2,271**	**599**	**501**	**399**	**291**	**209**	**272**

- **Other deferred costs** of 103 million euros, mainly attributable to the Parent Company TIM S.p.A. and the companies of the Telecom Italia Sparkle group.

NOTE 12

INCOME TAX EXPENSE (CURRENT AND DEFERRED)

Current income tax receivables

Non-current and current income tax receivables at December 31, 2022 amounted to 271 million euros (226 million euros at December 31, 2021).

Specifically, they consisted of:

- non-current income tax receivables of 124 million euros (147 million euros at December 31, 2021), relating to the companies of the Brazil Business Unit (93 million euros) and the Parent TIM S.p.A. (31 million euros). They include receivables of TIM S.A. relating to the decision of the Brazilian Supreme Federal Court on the non-collection of corporate income tax and social contributions on the monetary recalculation that uses the SELIC rate in cases of undue payment and receivables not transferred by the Parent Company related to tax and interest deriving from the recognized deductibility from IRES tax of the IRAP tax calculated on labor costs, relating to years prior to 2012, following the entry into force of Italian Decree Law 16/2012;
- current income tax receivables of 147 million euros (79 million euros at December 31, 2021), relating to the companies of the Brazil Business Unit (105 million euros) and the Domestic Business Unit (42 million euros). They include the current portion of these TIM S.A. receivables as well as receivables for tax paid abroad for 10 million euros, the IRAP residual surplus from previous years for 14 million euros, the tax consolidation receivable for 6 million euros and the receivables for the supplementary declarations submitted in 2022 for 2 million euros and other tax receivables of the Parent Company TIM S.p.A.

Tax assets and deferred tax liabilities

The net balance of 685 million euros at December 31, 2022 (3,268 million euros at December 31, 2021) breaks down as follows:

(million euros)	12/31/2022	12/31/2021
Deferred tax assets	769	3,513
Deferred tax liabilities	(84)	(245)
Total	**685**	**3,268**

Deferred tax assets at December 31, 2022 referred to the Domestic Business Unit for 523 million euros and to the Brazil Business Unit for 246 million euros. At December 31, 2021, deferred tax assets mainly referred to the Domestic Business Unit, at 3,427 million euros.

In the 2020 financial statements, the Parent Company TIM S.p.A. had benefited from the possibility of realigning the tax values to the greater value of the assets booked, specifically the value of goodwill of 23,051 million euros, as envisaged by Decree Law 104/2020, Art. 110, subsections 8 and 8 bis. Accordingly, this resulted in exchange for payment of substitute tax in the amount of 3% of the realigned value (692 million euros), in the possibility to deduct the tax amortization of the realigned value of 23,051 million euros over 18 years, starting 2021. These deductions, which would have generated benefits in terms of IRES and IRAP, have been fully noted at December 31, 2020 amongst deferred tax assets in the amount of 6,569 million euros, in view of the possibility of absorption through the Company's future taxable income, also taking into account the fact that IRES losses can be carried forward without time limits, where such may arise due to temporary incapacity of taxable income.

During 2022, the Parent Company TIM S.p.A. revoked the realignment of goodwill in accordance with Article 1, subsections 624 and 624-bis of Italian Law no. 234 of December 30, 2021, by means of the submission of the supplementary declaration for the 2020 tax period; this has, amongst others, entailed a write-off of the residual IRES deferred tax assets on the value of goodwill for 2,656 million euros. The 2021 financial statements, in addition to the use of 131 million for annual amortization, also included the write-off of 50% of the IRES deferred tax assets on the value of goodwill for 2,766 million euros and all IRAP deferred tax for 1,059 million euros as a consequence of the changes introduced by the 2022 Budget Law (Law 234/2021, Art. 160) to the duration of the period during which amortization of tax-recognized goodwill could be deducted (taking it from 18 to 50 years) and the assessment of the recoverability for IRAP purposes.

The 2022 financial statements do not include IRES deferred tax for period tax losses (as had been done in the previous financial statements) and those of previous years, in consideration of the changed assessment of the time frame for recoverability of deferred tax assets of the Parent Company TIM S.p.A., also determined on the basis of the 2023-2025 Industrial Plan.

Deferred tax liabilities mainly refer to Telecom Italia Capital for 52 million euros (214 million euros at December 31, 2021) and the Domestic Business Unit for 24 million euros (20 million euros at December 31, 2021).

Since the presentation of prepaid and deferred taxes in the financial statements takes into account the offsets by legal entity when applicable, the composition of the gross amounts before offsets is presented below:

(million euros)	12/31/2022	12/31/2021
Deferred tax assets	1,285	3,999
Deferred tax liabilities	(600)	(731)
Total	**685**	**3,268**

The temporary differences which made up this line item at December 31, 2022 and 2021, as well as the movements during 2022, were as follows:

(million euros)	12/31/2021	Recognized in profit or loss	Recognized in equity	Change in scope of consolidation and other changes	12/31/2022
Deferred tax assets					
Tax loss carryforwards (*)	46	(30)		9	25

Tax realignment pursuant to Decree Law 104/2020 Art. 110	2,656	(2,656)			—
Other deferred tax assets	180	29	(25)	140	324
Total	**3,999**	**(2,631)**	**(251)**	**168**	**1,285**
Deferred tax liabilities					
Derivatives	(492)	(3)	164	1	(330)
Business combinations - for step-up of net assets in excess of tax basis	(52)	2	—	(7)	(57)
Accelerated depreciation	(83)	(44)		(9)	(136)
Convertible bonds	(45)	45	—		—
Other deferred taxes	(59)	(15)		(3)	(77)
Total	**(731)**	**(15)**	**164**	**(18)**	**(600)**
Total Deferred tax assets net of Deferred tax liabilities	**3,268**	**(2,646)**	**(87)**	**150**	**685**

(*) For the new flow of tax losses in 2022, the Parent Company TIM S.p.A. has not entered deferred tax assets.

The expirations of deferred tax assets and deferred tax liabilities at December 31, 2022 were the following:

(million euros)	Within next year	Beyond 1 year	Total at 12/31/2022
Deferred tax assets	590	695	1,285
Deferred tax liabilities	(180)	(420)	(600)
Total Deferred tax assets net of Deferred tax liabilities	**410**	**275**	**685**

At December 31, 2022, the TIM Group had unused tax loss carryforwards of 2,862 million euros, mainly relating to the Parent Company TIM S.p.A. and the company Telecom Italia Finance, with the following expiration dates:

Year of expiration	(million euros)
2023	—
2024	1
2025	1
2026	1
2027	—
Expiration after 2027	31
Without expiration	2,828
Total unused tax loss carryforwards	**2,862**

Unused tax loss carryforwards considered in the calculation of deferred tax assets amounted to 73 million euros at December 31, 2022 (150 million euros at December 31, 2021) and mainly referred to the Brazil

Business Unit. Deferred tax assets were recognized as it was considered probable that taxable income will be available in the future against which the tax losses can be utilized.

On the other hand, deferred tax assets of 685 million euros (333 million euros at December 31, 2021) were not recognized on 2,788 million euros of tax loss carry-forwards since, at the reporting date, their recoverability was not considered probable.

At December 31, 2022, deferred tax liabilities were not recognized on approximately 1.7 billion euros of tax-suspended reserves and undistributed earnings of subsidiaries, because the TIM Group is in a position to control the timing of the distribution of those reserves and it is probable that those accumulated earnings will not be distributed in the foreseeable future. The contingent liabilities relating to taxes that should be recognized, if these reserves are distributed, are in any case not significant.

Income tax payables

Current income tax payables amounted to 34 million euros (526 million euros at December 31, 2021). They break down as follows:

(million euros)	12/31/2022	12/31/2021
Income tax payables:		
non-current	—	231
current	34	295
Total	**34**	**526**

The current portion, equal to 34 million euros, refers to the Domestic Business Unit (20 million euros) and to the Brazil Business Unit (14 million euros). Following the specified revocation of the realignment of goodwill in accordance with Article 1, subsections 624 and 624-bis of Italian Law no. 234 of December 30, 2021, current tax payables of the Parent Company TIM S.p.A. at December 31, 2022 have been zeroed (231 million euros at December 31, 2021) for the reversal of the second installment of substitute tax pursuant to Decree Law 104/2020, Art. 110, subsections 8 and 8 bis. Non-current tax payables, entirely referring to the Parent Company TIM S.p.A., have also been zeroed (231 million euros at December 31, 2021) for the reversal of the third installment of substitute tax pursuant to Decree Law 104/2020, Art. 110, subsections 8 and 8 bis.

Income tax expense

The income tax expense for the years 2022 and 2021 breaks down as follows:

(million euros)		2022	2021
Current taxes for the year		95	15
Net difference in prior year estimates		(675)	(4)
Total current taxes		**(580)**	**11**
Deferred taxes		2,646	3,874
Total income tax expense on continuing operations	**(a)**	**2,066**	**3,885**
Income tax expense on Discontinued operations/Non-current assets held for sale	**(b)**	**—**	**—**
Total income tax expense for the year	**(a+b)**	**2,066**	**3,885**

Current tax from previous years includes the income of 692 million euros of the Parent Company TIM S.p.A. deriving from the writing off of substitute tax on the realignment of goodwill (Art. 110, subsection 8 and 8 bis of Decree Law 104/2020) deriving from the revocation of the latter, in accordance with Article 1, subsections 624 and 624-bis, of Law no. 234 of December 30, 2021.

Deferred tax for 2022 includes 2,656 million euros related to the writing off of the residual deferred IRES tax recorded by the Parent Company TIM S.p.A. in 2020 following the tax recognition of higher goodwill values booked in accordance with Decree Law 104/2020, Art. 110, subsections 8 and 8 bis.

The reconciliation between the theoretical tax expense, using the IRES tax rate in force in Italy (24%), and the effective tax expense for the years ended December 31, 2022 and 2021 is as follows:

(million euros)		2022	2021
Profit (loss) before tax from continuing operations		**(588)**	**(4,515)**
Theoretical income tax expense from continuing operations		**(141)**	**(1,084)**
Income tax effect on increases (decreases) in variations			
Tax losses of the year not considered recoverable		280	197
Tax losses from prior years not recoverable (recoverable) in future years		(8)	(20)
Non-deductible write-down of goodwill		—	989
IRES taxes for previous years		—	(8)
Prepaid IRES tax (benefit)/write-off pursuant to Decree Law 104/2020, Art. 110 and others		2,656	2,766
Brazil: different tax rate compared to the theoretical rate in force in Italy		30	48
Brazil: investment incentives		(29)	(28)
Other net differences		(82)	(59)
Effective taxes recognized in the Income Statement, excluding IRAP and substitute tax		**2,706**	**2,801**
Prepaid IRAP including tax (benefit)/write-off pursuant to Decree Law 104/2020, Art. 110		—	1,084
IRAP including write-off of substitute tax pursuant to Decree Law 104/2020, Art. 110		(640)	—
Total effective taxes recognized in the Income Statement from continuing operations	**(a)**	**2,066**	**3,885**
Effective taxes recognized in the Income Statement from Discontinued operations/Non-current assets held for sale	**(b)**	**—**	**—**
Total of actual taxes to income statement	**(a)+(b)**	**2,066**	**3,885**

For the analysis of the tax burden related to the Profit (loss) before tax from continuing operations, the impact of IRAP and substitute tax pursuant to Decree Law 104/2020, Art. 110, has been kept separate to avoid any distorting effect, since these taxes only apply to Italian companies and are calculated on a tax base other than pre-tax profit.

NOTE 13
INVENTORIES

The item increased compared to December 31, 2021, by 40 million euros and is broken down as follows:

(million euros)	12/31/2022	12/31/2021
Raw materials and supplies	2	2
Work in progress and semifinished products	8	5
Finished goods	274	246
Deposits on stocks	38	29
Total	**322**	**282**

Inventories essentially consist of fixed and mobile telecommunications equipment and handsets and related accessories, as well as office products and specialist printers.

Inventories consist of 280 million euros for the Domestic Business Unit (250 million euros at December 31, 2021) and 42 million euros for the Brazil Business Unit (32 million euros at December 31, 2021). The increase in inventories of the Domestic Business Unit is mainly due to a trend of lesser consumption seen on the Mobile segment of the Parent Company TIM S.p.A..

The item "Deposits on stocks" refers to deposits paid by Telecom Italia Sparkle to construct transmission systems, limited to the component for resale also through finance lease transfer contracts.

Inventories are stated net of a provision for bad debts amounting to 18 million euros at December 31, 2022 (21 million euros at December 31, 2021).

NOTE 14

TRADE AND MISCELLANEOUS RECEIVABLES AND OTHER CURRENT ASSETS

This item rose by 181 million euros compared to December 31, 2021. The figure breaks down as follows:

(million euros)		12/31/2022	*of which Financial Instruments*	12/31/2021	*of which Financial Instruments*
Trade receivables					
Receivables from customers		1,586	*1,586*	1,545	*1,545*
Receivables from other telecommunications operators		1,288	*1,288*	1,130	*1,130*
	(a)	**2,874**	*2,874*	**2,675**	*2,675*
Miscellaneous receivables (current)					
Other receivables	(b)	**689**	*96*	**780**	*101*
Other current assets					
Contract assets		17	*17*	20	*20*
Deferred contract costs		569		542	
Other deferred costs		337		273	
Other		53		68	
	(c)	**976**	*17*	903	*20*
Total	(a+b+c)	**4,539**	***2,987***	**4,358**	***2,796***

Further details on Financial Instruments are provided in the Note "Supplementary disclosure on financial instruments".

The analyses of the aging of the financial instruments included in Trade and miscellaneous receivables and other current assets at December 31, 2022 and December 31, 2021 are provided below:

(million euros)	12/31/2022	of which non-overdue	of which overdue	of which overdue from: 0-90 days	91-180 days	181-365 days	More than 365 days
Trade and miscellaneous receivables and other current assets	**2,987**	2,371	616	167	84	137	228

(million euros)	12/31/2021	of which non-overdue	of which overdue	of which overdue from: 0-90 days	91-180 days	181-365 days	More than 365 days
Trade and miscellaneous receivables and other current assets	**2,796**	2,270	526	151	68	77	230

Overdue receivables increased by 101 million euros compared to December 31, 2021. This performance is a result of, for 2022: the Brazil Business Unit (79 million euros, including a positive exchange effect of approximately 61 million euros) and the Domestic Business Unit (22 million euros).

Overdue receivables increased by 90 million euros compared to December 31, 2021. This performance is a result of, for 2022: the Brazil Business Unit (66 million euros, including a positive exchange effect of approximately 9 million euros) and the Domestic Business Unit (24 million euros).

Trade receivables amounted to 2,874 million euros (2,675 million euros at December 31, 2021) and are stated net of the provision for bad debts of 499 million euros (565 million euros at December 31, 2021). They included 12 million euros (9 million euros at December 31, 2021) of medium/long-term receivables mainly relating to agreements for the sale of transmission capacity under Indefeasible Rights of Use (IRU).

Trade receivables mainly related to TIM S.p.A. (1,917 million euros) and to the Brazil Business Unit (653 million euros).

Movements in the provision for bad debts were as follows:

(million euros)	12/31/2022	12/31/2021
At January 1	**565**	**627**
Provision charges to the income statement	178	212
Utilization and decreases	(275)	(287)
Change in scope	7	1
Exchange rate differences and other changes	24	12
At December 31	**499**	**565**

Miscellaneous receivables (current) refer to other receivables amounting to 689 million euros (780 million euros at December 31, 2021) and are net of a provision for bad debts of 41 million euros (46 million euros at December 31, 2021). Details are as follows:

(million euros)	12/31/2022	12/31/2021
Advances to suppliers	282	270
Receivables from employees	10	10
Tax receivables	152	268
Receivables for grants from the government and public entities	11	14
Sundry receivables	234	218
Total	**689**	**780**

“Tax receivables” related to the Brazil Business Unit (120 million euros) and the Domestic Business (32 million euros).

“Receivables for grants from the government and public entities” referred mainly to the Ultrabroadband-UBB and Broadband-BB projects. The grants are recognized to the income statement when the related plants become ready for use.

“Sundry receivables” mainly included:

- TIM S.p.A. receivables for Universal Service (52 million euros);
- miscellaneous receivables of TIM S.p.A. from other TLC operators (28 million euros);
- TIM S.p.A. receivables for with-recourse assignments to factoring companies (26 million euros);
- TIM S.p.A. receivables from social security and pension institutions (17 million euros).

Other current assets included:

- **Contract assets with customers**: this item includes the effect of the early recognition of revenues for those bundle contracts (such as bundles of products and services) with individual performance obligations with a different recognition timing, in which the goods recognized “at a point in time” are sold at a discounted price, or for those contracts which, by providing for a discount for a period of time shorter than the minimum contract term, require, pursuant to IFRS 15, a reallocation of the discount over the minimum contractual term. Contract Assets at December 31, 2022 amounted to 17 million euros (20 million euros at December 31, 2021) and are net of the related write-down provision of 1 million euros and drop by 3 million euros, since the reversal to the income statement of the previously accumulated balance was substantially offset by the need to distribute discounts granted to customers temporally over the minimum contractual term, with particular reference to those connected with the impact of COVID-19;
- **Deferred contract costs** (569 million euros; 542 million euros at December 31, 2021) are contract costs (mainly technical activation costs and commissions for the sales network) deferred and recognized in the separate income statements according to the expected duration of the contractual relationship with customers (around 4 years for the mobile business and around 8 years for the fixed-line business). Further details on Deferred contract costs are provided in the Note “Miscellaneous receivables and other non-current assets”.
- **Other deferred costs** mainly concern:
  - the Parent Company essentially for: a) costs related to rental charges and other lease and rental costs (209 million euros); b) costs for the purchase of products and services (25 million euros); c) after-sales expenses on application offers (12 million euros); d) maintenance fees (12 million euros); e) insurance premiums (7 million euros);
  - to the Telecom Italia Sparkle group mainly related to the deferral of costs connected to payments for line lease and maintenance payments (22 million euros);
  - the Brazil Business Unit (23 million euros), essentially related to the deferral of service costs.

NOTE 15
EQUITY

This item consisted of:

(million euros)	12/31/2022	12/31/2021
Equity attributable to owners of the Parent	15,061	17,414
Non-controlling interests	3,664	4,625
Total	**18,725**	**22,039**

The composition of **Equity attributable to owners of the Parent** is the following:

(million euros)	12/31/2022		12/31/2021	
Share capital		11,614		11,614
Additional paid-in capital		2,133		2,133
Other reserves and retained earnings (accumulated losses), including profit (loss) for the year		1,314		3,667
Reserve for financial assets measured at fair value through other comprehensive income	(58)		49	
Reserve for hedging instruments	65		(128)	
Reserve for exchange differences on translating foreign operations	(2,085)		(2,500)	
Reserve for remeasurements of employee defined benefit plans (IAS 19)	(71)		(130)	
Share of other comprehensive income (loss) of associates and joint ventures accounted for using the equity method	—		—	
Sundry reserves and retained earnings (accumulated losses), including profit (loss) for the year	3,463		6,376	
Total		**15,061**		**17,414**

At December 31, 2022, **capital** came to 11,614 million euros net of treasury shares for 63 million euros.

It should be noted that the Parent Company's share capital carries a restriction on tax suspension for fiscal purposes for an amount of 1,191 million euros (11,104 million euros at December 31, 2021), down 9,913 million euros following revocation of the realignment of goodwill in accordance with art. 1, subsections 624 and 624-bis of Law no. 234 of December 30, 2021 and the cessation of the corresponding restriction previously applied to the capital.

In 2022, the capital did not change, as shown in the following table:

Reconciliation between the number of shares outstanding at December 31, 2021 and December 31, 2022

(number of shares)		as at 12/31/2021	Share assignment/issue	as at 12/31/2022	% on Capital
Ordinary shares issued	(a)	15,329,466,496	—	15,329,466,496	71.78%
less: treasury shares	(b)	(115,942,196)	—	(115,942,196)	
Ordinary shares outstanding	(c)	15,213,524,300	—	15,213,524,300	
Savings shares issued and outstanding	(d)	6,027,791,699	—	6,027,791,699	28.22%
Total TIM S.p.A. shares issued	**(a+d)**	**21,357,258,195**	**—**	**21,357,258,195**	**100.00%**
Total TIM S.p.A. shares outstanding	**(c+d)**	**21,241,315,999**	**—**	**21,241,315,999**	

Reconciliation between the value of shares outstanding at December 31, 2021 and December 31, 2022

(million euros)		Share Capital at 12/31/2021	Change in share capital	Share Capital at 12/31/2022
Ordinary shares issued	(a)	8,381	—	**8,381**
less: treasury shares	(b)	(63)	—	**(63)**
Ordinary shares outstanding	(c)	8,318	—	**8,318**
Savings shares issued and outstanding	(d)	3,296	—	**3,296**
Total TIM S.p.A. share capital issued	**(a+d)**	**11,677**	**—**	**11,677**
Total TIM S.p.A. share capital outstanding	**(c+d)**	**11,614**	**—**	**11,614**

The total value of ordinary treasury shares at December 31, 2022, amounting to 364 million euros, was recorded as follows: the part relating to accounting par value (63 million euros) recognized as a deduction from the share capital issued and the remaining part as a deduction from Other reserves and retained earnings (accumulated losses), including profit (loss) for the year.

Disclosure on share capital

The ordinary and savings shares of TIM S.p.A. are listed in Italy (FTSE index).

In the shareholder resolutions passed to increase share capital against cash payments, the pre-emption right can be excluded to the maximum extent of ten percent of the pre-existing share capital, on condition that the issue price corresponds to the market price of the shares and that this is confirmed in a specific report issued by the firm charged with the audit of the Company.

The Group sources itself with the capital necessary to fund its business development and operation requirements; the sources of funds are found in a balanced mix of equity, permanently invested by the shareholders, and debt capital, to guarantee a balanced financial structure and minimize the total cost of capital, with a resulting advantage to all the stakeholders.

Debt capital is structured according to different maturities and currencies to ensure an adequate diversification of the sources of funding and an efficient access to external sources of financing (taking advantage of the best opportunities offered in the financial markets of the euro, U.S. dollar and Pound sterling areas to minimize costs), taking care to reduce the refinancing risk.

The remuneration of equity is proposed by the board of directors to the shareholders' meeting, during which the annual financial statements are approved, based upon market trends and business performance, once all the other obligations are met, including debt servicing. Therefore, to ensure an adequate remuneration of capital, safeguard company continuity and business development, the Group constantly monitors the change in debt levels in relation to equity, the level of net debt and the operating margin of industrial operations.

Privileges of savings shares

The privileges of TIM S.p.A. savings shares are indicated below:

- the profit shown in the duly approved financial statements, after deducting the amount to be allocated to the legal reserve, must be distributed to the holders of savings shares in an amount up to 5% of the 0.55 euros per share;
- after assigning preferred dividends to the savings shares, the distribution of which is approved by the shareholders' meeting, the remaining profit shall be allocated among all the shares, so that savings shares are entitled to higher overall dividends than ordinary shares would be entitled to, to the extent of 2% of 0.55 euros per share;
- when, in any one year, dividends of below 5% of the 0.55 euros per share are paid to the savings shares, the difference is determined as an increase of the privileged dividend in the next two subsequent years;
- in the event of a distribution of reserves, the savings shares have the same rights as the other shares. Moreover, when there is no profit or insufficient profit is reported in the financial statements for a given year to satisfy the aforesaid savings shares privileges, the Shareholders' Meeting called to approve those financial statements may choose to satisfy the dividend right and/or the higher dividend right by distributing available reserves. The distribution of available reserves for such payments excludes the application of the mechanism extending the right to the preferred dividend not paid through the distribution of profits for the following two years;
- the reduction of share capital as a result of losses does not affect the savings shares except for the amount of the loss which is not covered by the portion of the share capital represented by the other shares;
- upon the wind-up of TIM S.p.A., the savings shares have a pre-emption right in the reimbursement of capital up to the amount of 0.55 euros per share;
- in the event of the cessation of trading in the Company's ordinary or savings shares, the holder of savings shares may ask TIM S.p.A. to convert his/her shares into ordinary shares, using the method selected during a special session of the shareholders' meeting called for that purpose within two months of being excluded from trading.

Additional paid-in capital, amounting to 2,133 million euros, was unchanged with respect to December 31, 2021.

Other reserves moved through the Statements of comprehensive income comprised:

- The **Reserve for financial assets measured at fair value through other comprehensive income**, negative for 58 million euros at December 31, 2022, decreased by 107 million euros compared to the figure at

December 31, 2021. In particular, the change in 2022 includes the losses from the securities portfolio of Telecom Italia Finance (50 million euros, of which 21 million euros were realized), the losses on the TI Ventures securities portfolio (6 million euros), the losses recorded by Olivetti for the valuation of SECO S.p.A. (36 million euros), the losses related to other current financial assets held by the Parent Company TIM (13 million euros) and the losses related to the equity investment in Fin.Priv. S.r.l. of the Parent Company TIM (2 million euros). This reserve is stated net of deferred tax assets of 3 million euros (at December 31, 2021, it was stated net of deferred tax liabilities of 1 million euros).

- The **Reserve for hedging instruments** had a positive balance of 65 million euros at December 31, 2022, (negative 128 million euros at December 31, 2021). This reserve is stated net of deferred tax liabilities of 22 million euros (at December 31, 2021, it was stated net of deferred tax assets of 39 million euros). In particular, this reserve includes the effective portion of gains or losses on the fair value adjustments of derivatives designated as hedges of the exposure to volatility in the cash flows of assets or liabilities recognized in the financial statements ("cash flow hedge").
- The **Reserve for exchange differences on translating foreign operations** showed a negative balance of 2,085 million euros at December 31, 2022 (negative 2,500 million euros at December 31, 2021) and mainly related to exchange differences resulting from the translation into euros of the financial statements of companies belonging to the Brazil Business Unit (negative for 2,114 million euros versus negative for 2,523 million euros at December 31, 2021).
- The **Reserve for the remeasurement of employee defined benefit plans**, negative for 71 million euros, increased by 59 million euros compared with December 31, 2021 following the recording of the changes in actuarial gains (losses), net of the related income tax effect.
- The **Share of other comprehensive income (losses) of associates and joint ventures accounted for using the equity method** is nil at both December 31, 2022 and December 31, 2021.

Other sundry reserves and retained earnings (accumulated losses), including profit (loss) for the year amounted to 3,463 million euros and decreased by 2,913 million euros, as detailed below:

(million euros)	2022	2021
Profit (loss) for the year attributable to owners of the Parent	(2,925)	(8,652)
Dividends approved - TIM S.p.A.	—	(318)
Equity instruments	6	7
FiberCop - capital increase	—	(98)
Other changes	6	(44)
Change for the year in Sundry reserves and retained earnings (accumulated losses), including profit (loss) for the year	**(2,913)**	**(9,105)**

Note that following the specified revocation of the realignment of goodwill, the corresponding restriction previously placed on the Parent Company's reserves under tax suspension for fiscal purposes in accordance with Decree Law 104/2020, Art. 110, subsection 8, was lifted.

In 2022, no dividends were deliberated.

In 2021, dividends approved by TIM S.p.A. are 318 million euros and refer to the distribution to Shareholders of a dividend of 0.0100 euro per ordinary share and 0.0275 euro per savings share, gross of statutory withholding taxes.

Equity attributable to non-controlling interests, amounting to 3,664 million euros, mainly refers to FiberCop S.p.A. (2,122 million euros) and the companies of the Brazil Business Unit (1,545 million euros) and shows a decrease of 961 million euros compared to December 31, 2021, as detailed below:

(million euros)	2022	2021
Profit (loss) for the year attributable to Non-controlling interests	271	252
Group Company dividends paid to minority shareholders	(86)	(55)
Changes in the Reserve for exchange differences on translating foreign operations	182	12
Daphne 3 - deconsolidation	(1,332)	—
FiberCop - capital increase	—	1,848
Daphne 3 - distribution of additional paid-in capital	—	(42)
Other changes	4	(15)
Change for the year in Equity attributable to Non-controlling interest	**(961)**	**2,000**

The Group company dividends paid to minority shareholders mainly referred to the Brazil Business Unit for 86 million euros. 2021 dividends mainly referred to the Brazil Business Unit for 55 million euros.

The Reserve for exchange differences on translating foreign operations attributable to non-controlling interest showed a negative balance of 973 million euros at December 31, 2022 (negative for 1,155 million euros at December 31, 2021), relating entirely to exchange differences arising from the translation into euros of the financial statements of the companies belonging to the Brazil Business Unit.

Future potential changes in share capital

Details of "Future potential changes in share capital" are presented in the Note "Earnings per share".

NOTE 16

NON-CURRENT AND CURRENT FINANCIAL LIABILITIES

Non-current and current financial liabilities (gross financial debt) are broken down as follows:

(million euros)		12/31/2022	12/31/2021
Non-current financial liabilities for financing contracts and others			
Financial payables (medium/long-term):			
Bonds		15,259	17,383
Convertible bonds		—	—
Amounts due to banks		5,898	4,394
Other financial payables		305	306
		21,462	**22,083**
Other medium/long-term financial liabilities:			
Hedging derivatives relating to hedged items classified as non-current assets/liabilities of a financial nature		234	1,337
Non-hedging derivatives		43	17
Other liabilities		—	—
		277	**1,354**
	(a)	**21,739**	**23,437**
Non-current financial liabilities for lease contracts	**(b)**	**4,597**	**4,064**
Total non-current financial liabilities	**c=(a+b)**	**26,336**	**27,501**
Current financial liabilities for financing contracts and others			
Financial payables (short term):			
Bonds		2,799	1,514
Convertible bonds		—	1,998
Amounts due to banks		1,766	2,099
Other financial payables		195	236
		4,760	**5,847**
Other short-term financial liabilities:			
Hedging derivatives relating to hedged items classified as current assets/liabilities of a financial nature		193	62
Non-hedging derivatives		86	36
Other liabilities		—	—
		279	**98**
	(d)	**5,039**	**5,945**
Current financial liabilities for lease contracts	**(e)**	**870**	**651**
Total current financial liabilities (*)	**f=(d+e)**	**5,909**	**6,596**
Financial liabilities directly associated with Discontinued operations/Non-current assets held for sale	**(g)**	**—**	**—**
Total Financial liabilities (Gross financial debt)	**h=(c+f+g)**	**32,245**	**34,097**

Further details on Financial Instruments are provided in the Note "Supplementary disclosures on financial instruments".

Gross financial debt according to the original currency of the transaction is as follows:

	12/31/2022		12/31/2021	
	(millions of foreign currency)	(million euros)	(millions of foreign currency)	(million euros)
USD	5,901	5,532	5,789	5,111
GBP	389	439	389	463
BRL	17,348	3,117	12,694	2,008
YEN	20,030	142	20,030	154
ILS	49	13	51	14
EUR		23,002		26,347
Total		**32,245**		**34,097**

For the exchange rates used for the conversion of amounts in foreign currency, see the Note "Other information".

The breakdown of gross financial debt by effective interest-rate bands applicable to the original currency is provided below, excluding the effect of any derivative hedging instruments:

(million euros)	12/31/2022	12/31/2021
Up to 2.5%	5,873	8,619
From 2.5% to 5%	13,469	12,872
From 5% to 7.5%	6,920	7,055
From 7.5% to 10%	2,024	1,971
Over 10%	2,748	1,437
Accruals/deferrals, MTM and derivatives	1,211	2,143
Total	**32,245**	**34,097**

Following the use of hedging instruments, on the other hand, gross financial debt by nominal interest rate level is:

(million euros)	12/31/2022	12/31/2021
Up to 2.5%	8,416	15,353
From 2.5% to 5%	13,168	9,936
From 5% to 7.5%	5,039	3,396
From 7.5% to 10%	1,192	1,334
Over 10%	3,219	1,935
Accruals/deferrals, MTM and derivatives	1,211	2,143
Total	**32,245**	**34,097**

The maturities of financial liabilities according to the expected nominal repayment amount, as defined by contract, are the following:

Details of the maturities of financial liabilities – at nominal repayment amount:

	maturing by 12/31 of the year:						
(million euros)	2023	2024	2025	2026	2027	After 2027	Total
Bonds	2,423	3,406	2,000	1,750	1,250	6,723	17,552
Loans and other financial liabilities	962	1,021	1,419	2,249	727	170	6,548
Finance lease liabilities	786	1,178	593	505	447	1,873	5,382
Total	**4,171**	**5,605**	**4,012**	**4,504**	**2,424**	**8,766**	**29,482**
Current financial liabilities	1,109	—	—	—	—	—	1,109
Total	**5,280**	**5,605**	**4,012**	**4,504**	**2,424**	**8,766**	**30,591**

The main components of financial liabilities are commented below.

Bonds are broken down as follows:

(million euros)	12/31/2022	12/31/2021
Non-current portion	15,259	17,383
Current portion	2,799	1,514
Total carrying amount	**18,058**	**18,897**
Fair value adjustment and measurements at amortized cost	(506)	(559)
Total nominal repayment amount	**17,552**	**18,338**

The nominal repayment amount of bonds totaled 17,552 million euros, down by 2,786 million euros compared to December 31, 2021 (20,338 million euros) as a result of repayments made in 2022.

The change in bonds during 2022 was as follows:

Repayments

(millions of original currency)	Currency	Amount	Repayment date
Repayments			
Telecom Italia S.p.A 2002-2022 reserved for subscription by employees	Euro	214	1/1/2022

(a) Weighted average issue price for bonds issued with more than one tranche.

The regulations and the Offering Circulars relating to the bonds of the TIM Group are available on the corporate website gruppotim.it.

On January 20, 2023, TIM issued a 5-year Bond for an amount of 850 million euros, coupon 6.875%.
Medium/long-term amounts **due to banks** totaled 5,898 million euros (4,394 million euros at December 31, 2021). On July 6, 2022, TIM stipulated a loan with a pool of leading international banks, which benefits from the "Italy Guarantee" (in accordance with art. 1, subsection 1 of Decree-Law no. 23 of April 8, 2020 as subsequently amended and supplemented) for an amount of 2 billion euros. Short-term amounts due to banks totaled 1,766 million euros (2,099 million euros at December 31, 2021) and included 845 million euros of the current portion of medium/long-term amounts due to banks and 495 million euros in repurchase agreements due by April 2023.

The other medium/long-term **financial payables** totaled 305 million euros (306 million euros at December 31, 2021), 140 million euros of which refer to the Telecom Italia Finance S.A. loan for JPY 20,000 million, maturing in 2029. Short-term other financial payables amounted to 195 million euros (236 million euros at December 31, 2021) and included 19 million euros of the current portion of medium/long-term other financial payables.

Medium/long-term **financial liabilities for lease contracts** amounted to 4,597 million euros (4,064 million euros at December 31, 2021), whilst short-term payables totaled 870 million euros (651 million euros at December 31, 2021) and included 856 million euros in the current portion of financial liabilities for medium/long-term lease contracts.

With reference to the finance lease liabilities recognized in 2022 and 2021, the following is noted:

(million euros)	2022	2021
Principal reimbursements	708	604
Cash out interest portion	315	263
Total	**1,023**	**867**

Hedging derivatives relating to items classified as non-current financial liabilities amount to 234 million euros (1,337 million euros at December 31, 2021). Hedging derivatives relating to items classified as current liabilities of a financial nature totaled 193 million euros (62 million euros at December 31, 2021).

Non-hedging derivatives classified as non-current financial liabilities came to 43 million euros (17 million euros at December 31, 2021), while non-hedging derivatives classified under current financial liabilities amounted to 86 million euros (36 million euros at December 31, 2021). These also include the measurement of derivatives which, although put into place for hedging purposes, do not possess the formal requisites to be considered as such under IFRS.

Covenants and negative pledges in place at December 31, 2022

Bonds issued by TIM S.p.A., Telecom Italia Finance S.A. and Telecom Italia Capital S.A. do not contain financial covenants (e.g. ratios such as Debt/EBITDA, EBITDA/Interest, etc.) or clauses that result in the automatic early redemption of the bonds in relation to events other than the insolvency of the TIM Group; furthermore, the repayment of the bonds and the payment of interest are not covered by specific guarantees nor are there commitments provided relating to the assumption of future guarantees, except for the full and unconditional guarantees provided by TIM S.p.A. for the bonds issued by Telecom Italia Finance S.A. and Telecom Italia Capital S.A..

Since these bonds have been placed principally with institutional investors in main world capital markets (Euromarket and USA), the terms which regulate the bonds are in line with the market practice for similar transactions effected on these same markets.

Regarding loans taken out by TIM from the European Investment Bank (EIB), on May 19, 2021, TIM entered into a new loan for an amount of 230 million euros, in support of projects to digitize the country. In addition, on that same date, it extended the loan signed in 2019 (for an initial amount of 350 million euros) for an additional amount of 120 million euros.

Therefore, at December 31, 2022 the nominal total of outstanding loans with the EIB was 700 million euros, all drawn down and not backed by bank guarantee.

The two EIB loans signed on November 25, 2019 and May 19, 2021 contain the following covenants:

- in the event the company becomes the target of a merger, demerger or conferral of a business segment outside the TIM Group, or sells, disposes of or transfers assets or business segments (except in certain cases, expressly provided for), it shall immediately inform the EIB which shall have the right to ask for guarantees to be provided or changes to be made to the loan contract, or, only for certain loan agreements, the EIB shall have the option to demand the immediate repayment of the loan (should the merger, demerger or contribution of a business segment outside the TIM Group compromise the Project execution or cause a prejudice to EIB in its capacity as creditor);
- TIM undertook to ensure that, for the entire duration of the loan, the total financial debt of the TIM Group companies other than TIM – except for the cases when that debt is fully and irrevocably secured by TIM – is lower than 35% (thirty-five percent) of the TIM Group's total financial debt;
- “Inclusion clause", under which, in the event TIM commits to uphold financial covenants in other loan contracts (and even more restrictive clauses, including, for instance, cross default clauses and commitments restricting the sale of goods) that are not present in or are stricter than those granted to the EIB, the EIB will have the right – if, in its reasonable opinion, it considers that such changes may have a negative impact on TIM's financial capacity – to request the provision of guarantees or an amendment of the loan contract in order to establish an equivalent provision in favor of the EIB;
- "Network Event", under which, in the event of the disposal of the entire fixed network or of a substantial part of it (in any case, more than half in quantitative terms) to third parties not controlled by the Company, or in the event of disposal of the controlling interest in the company in which the network or a substantial part of it has previously been transferred, TIM must immediately inform the EIB, which may then opt to demand collateral or an amendment of the loan agreement or choose an alternative solution.

The TIM loan agreements do not contain any financial covenants (e.g. Debt/EBITDA, EBITDA/interest ratios, etc.), failure to comply with which would entail an obligation to repay the loan in place, with the exception of the loan signed on July 6, 2022, which is backed by the “Italy Guarantee” (in accordance with art. 1, subsection 1 of Decree-Law no. 23 of April 8, 2020, as subsequently amended and supplemented).

The loan agreements contain the usual other types of covenants, including the commitment not to pledge the Company’s assets as collateral for loans (negative pledge) and the commitment not to change the business purpose or sell the assets of the Company unless specific conditions exist (e.g. the sale takes place at fair market value). Covenants with basically the same content can be found in the export credit loan agreement.

In the loan agreements and the bonds, TIM is required to provide notification of change of control. Identification of the occurrence of a change of control and the applicable consequences – including, at the discretion of the investors, the establishment of guarantees or the early repayment of the amount paid in cash or as shares and the cancellation of the commitment in the absence of agreements to the contrary – are specifically covered in the individual agreements.

In addition, the outstanding loans generally contain a commitment by TIM, whose breach is an Event of Default, not to implement mergers, demergers or transfers of business, involving entities outside the Group. Such an Event of Default may entail, upon request of the Lender, the early redemption of the drawn amounts and/or the annulment of the undrawn commitment.

The documentation of the loans granted to certain companies of the TIM Group generally contain obligations to comply with certain financial ratios, as well as the usual other covenants, under penalty of a request for the early repayment of the loan.

Finally, as at December 31, 2022, no covenant, negative pledge or other clause relating to the aforementioned debt position had in any way been breached or violated.

Revolving Credit Facility and Term Loan

The following table shows committed credit lines(*) available at December 31, 2022:

(billion euros)	12/31/2022		12/31/2021	
	Agreed	Drawn down	Agreed	Drawn down
Sustainability-linked RCF - May 2026	4.0	—	4.0	—
Total	**4.0**	—	**4.0**	**—**

(*) In accordance with the contract signed, the Banks have committed to make the funds available on demand (with at least 3 days' notice). As this is a "Committed" line, the banks have no mechanisms in place not to honor the request for funds made by the Company, without prejudice to the market standard early mandatory cancellation clauses (Natural contract expiry, Change in control, Borrower illegality, Events of default).

On July 6, 2022, TIM stipulated a new loan with a pool of leading international banks, which benefits from the "Italy Guarantee" (in accordance with art. 1, subsection 1 of Decree-Law no. 23 of April 8, 2020 as subsequently amended and supplemented) for an amount of 2 billion euros.

Rating at December 31, 2022

At December 31, 2022, the three rating agencies – Standard & Poor's, Moody's and Fitch Ratings – rated TIM as follows:

	Rating	Outlook
STANDARD & POOR'S	B+	Negative
MOODY'S	B1	Negative
FITCH RATINGS	BB-	Negative

NOTE 17
NET FINANCIAL DEBT

The table below shows the breakdown of net financial debt of the TIM Group at December 31, 2022 and December 31, 2021, determined in accordance with the provisions of the "*Guidelines on disclosure requirements under the Prospectus Regulation*" issued by the ESMA (European Securities & Markets Authority) on March 4, 2021 (ESMA32-382-1138) and incorporated by Consob with its Note of Attention no. 5/21 dated April 29, 2021.
This table also shows the reconciliation of the net financial debt determined according to the aforementioned criteria indicated by the ESMA and net financial debt calculated according to the criteria of the TIM Group.

(million euros)		12/31/2022	12/31/2021

The value of the paid and collected interest expense reported in the Report on Operations takes into account the movements relating to transactions in CCIRS derivatives to hedge underlying assets in both the assets component (collections) and the liabilities component (payments) without netting the positions.

(million euros)	2022	2021
Interest expense paid	(1,668)	(1,440)
Interest income received	562	437
Net total	**(1,106)**	**(1,003)**

To consider the components of CCIRS derivatives as a single transaction, a representation is given with interest flows in and out shown net. This approach gives the following results:

(million euros)	2022	2021
Interest expense paid	(1,297)	(1,104)
Interest income received	191	101
Net total	**(1,106)**	**(1,003)**

NOTE 18
FINANCIAL RISK MANAGEMENT

Financial risk management objectives and policies of the TIM Group

The TIM Group is exposed to the following financial risks in the ordinary course of its business operations:

- Market risk: stemming from changes in interest rates and exchange rates in connection with financial assets that have been originated and financial liabilities that have been assumed;
- Credit risk: representing the risk of non-fulfillment of obligations undertaken by the counterparty with regard to the liquidity investments of the Group;
- Liquidity risk: connected with the need to meet short-term financial commitments.

These financial risks are managed by:

- the establishment, at central level, of guidelines for directing operations;
- the work of an internal committee that monitors the level of exposure to market risks in accordance with pre-established general objectives;
- the identification of the most suitable financial instruments, including derivatives, to reach pre-established objectives;
- the monitoring of the results achieved;
- the exclusion of the use of financial instruments for speculative purposes.

The policies for the management and the sensitivity analyses of the above financial risks by the TIM Group are described below.

Identification of risks and analysis

The TIM Group is exposed to market risks, as a result of changes in interest rates and exchange rates, in the markets in which it operates or has bond issues, mainly in Europe, the United States, Great Britain and Latin America.

The financial risk management policies of the TIM Group are directed towards diversifying market risks, hedging exchange rate risk in full and minimizing interest rate exposure by an appropriate diversification of the portfolio, which is also achieved by using carefully selected derivative financial instruments.

The Group defines an optimum composition of its debt structure by balancing fixed and variable-rates and uses derivative financial instruments to achieve that debt composition. In consideration of the Group's operating activities, the optimum combination of medium/long-term non-current financial liabilities has been identified, on the basis of the nominal value, in the 65%-85% range for the fixed-rate component and in the 15%-35% range for the variable-rate component.

In managing market risk, the Group has adopted Guidelines on "Management and control of financial risk" and mainly uses the following financial derivatives:

- Interest Rate Swaps (IRS), to modify the profile of the original exposure to interest rate risks on loans and bonds, both fixed and variable;
- Cross Currency and Interest Rate Swaps (CCIRS) and Currency Forwards, to convert loans and bonds issued in currencies other than euro – principally in US dollars and British pounds – to the functional currencies of the operating companies.

Derivative financial instruments are designated as fair value hedges for managing exchange rate and interest rate risks on instruments denominated in currencies other than euro and for managing interest rate risk on fixed-rate loans in euros. Derivative financial instruments are designated as cash flow hedges when the objective is to pre-set the exchange rate of future transactions and the interest rate.

All derivative financial instruments are entered into with banking and financial counterparties with at least a "BBB-" rating from Standard & Poor's or an equivalent rating and a non-negative outlook. The exposure to the various market risks can be measured by sensitivity analyses, as set forth in IFRS 7. This analysis illustrates the effects produced by a given and assumed change in the levels of the relevant variables in the various reference markets (exchange rates, interest rates and prices) on finance income and expenses and, at times, directly on equity. The sensitivity analysis was performed based on the suppositions and assumptions indicated below:

- sensitivity analyses were performed by applying reasonably likely changes in the relevant risk variables to the amounts in the consolidated financial statements at December 31, 2022;
- changes in value of fixed-rate financial instruments, other than derivatives, produced by changes in the reference interest rates, generate an impact on profit only when, in accordance with IAS 39 and IFRS 9, they are accounted for at their fair value through profit and loss. All fixed-rate instruments, which are accounted for at amortized cost, are not subject to interest rate risk as defined by IFRS 7;
- in the case of fair value hedge relationships, fair value changes of the underlying hedged item and of the derivative instrument, due to changes in the reference interest rates, offset each other almost entirely in the income statement for the year. As a result, these financial instruments are not exposed to the interest rate risk;

- changes in the value of designated financial instruments in a cash flow hedge relationship, produced by changes in interest rates, generate an impact on the debt level and on equity; accordingly, they are included in this analysis;
- the changes in value, produced by changes in the reference interest rates, of variable-rate financial instruments, other than derivatives, which are not part of a cash flow hedge relationship, generate an impact on the finance income and expenses for the year; accordingly they are included in this analysis.

Exchange rate risk – Sensitivity analysis

At December 31, 2022 (and also at December 31, 2021), the exchange rate risk of the Group's loans denominated in currencies other than the functional currency of the single companies' financial statements was hedged in full. Accordingly, a sensitivity analysis was not performed on the exchange rate risk.

Interest rate risk – Sensitivity analysis

The change in interest rates on the variable component of payables and liquidity may lead to higher or lower finance income and expenses, while changes in the level of the expected interest rate affect the fair value measurement of the Group's derivatives. In particular:

- with regard to derivatives that convert the liabilities contracted by the Group to fixed rates (cash flow hedging), in line with international accounting standards that regulate hedge accounting, the fair value (mark-to-market) measurement of such instruments is set aside in a specific unavailable Equity reserve. The combined change of the numerous market variables to which the mark-to-market calculation is subject between the transaction inception date and the measurement date renders any assumption about the trend of the variables of little significance. As the contract expiration date approaches, the accounting effects described will gradually be absorbed until they cease to exist;
- if at December 31, 2022 the interest rates in the various markets in which the TIM Group operates had been 100 basis points higher/lower compared to the actual rates, then higher/(lower) finance expenses, before the income tax effect, would have been recognized in the consolidated income statement of 53 million euros (-18 million euros at December 31, 2021).

Refer to Note "Accounting Policies" for the potential risk generated by the reform of benchmark interest rates.

Allocation of the financial structure between fixed rate and variable rate

As for the allocation of the financial structure between the fixed-rate component and the variable-rate component, for both financial assets and liabilities, reference should be made to the following tables. These tables have been prepared by taking into account the nominal repayment/investment amount (since that amount expresses the effective interest rate exposure of the Group) and, as far as financial assets are concerned, the intrinsic nature (financial characteristics and duration) of the transactions under consideration rather than the stated contractual terms alone. Bearing that in mind, a transaction whose characteristics (short or very short time frame and frequent renewal) are such that the interest rate is periodically reset on the basis of market parameters, even though the contract does not call for re-fixing the interest rate (as in the case of bank deposits), has been considered in the variable rate category.

Total Financial liabilities (at the nominal repayment amount)

(million euros)	12/31/2022			12/31/2021

Total Financial assets (at the nominal investment amount)

(million euros)	12/31/2022			12/31/2021		
	Fixed rate	Variable rate	Total	Fixed rate	Variable rate	Total
Cash and cash equivalents	—	2,621	2,621	—	6,092	6,092
Securities	1,520	908	2,428	1,421	1,616	3,037
Other receivables	1,085	63	1,148	1,008	51	1,059
Total	**2,605**	**3,592**	**6,197**	**2,429**	**7,759**	**10,188**

With regard to variable-rate financial instruments, the contracts provide for revisions of the related parameters to take place within the subsequent 12 months.

Effective interest rate

As to the effective interest rate, for the categories where that parameter can be determined, such parameter refers to the original transaction net of the effect of any derivative hedging instruments.

The disclosure, which is provided by class of financial asset and liability, has been determined, for purposes of calculating the weighted average, using the carrying amount adjusted by accruals, prepayments, deferrals and fair value adjustments: this is therefore the amortized cost, net of accruals and any changes in fair value, as a consequence of hedge accounting.

Total Financial liabilities

(million euros)	12/31/2022		12/31/2021	
	Adjusted carrying amount	Effective interest rate (%)	Adjusted carrying amount	Effective interest rate (%)
Bonds	17,504	4.67	20,249	4.32
Loans and other financial liabilities	13,530	4.78	11,705	3.21
Total	**31,034**	**4.72**	**31,954**	**3.91**

Total Financial assets

(million euros)	12/31/2022		12/31/2021	
	Adjusted carrying amount	Effective interest rate (%)	Adjusted carrying amount	Effective interest rate (%)
Cash and cash equivalents	2,621	0.93	6,092	0.00
Securities	2,428	1.28	3,037	1.08
Other receivables	188	3.11	364	3.40
Total	**5,237**	**1.17**	**9,493**	**0.47**

As for financial assets, the weighted average effective interest rate is not essentially influenced by the existence of derivatives.

As for market risk management using derivatives, reference should be made to the Note "Derivatives".

Credit risk

Exposure to credit risk for the TIM Group consists of possible losses that could arise from the failure of either commercial or financial counterparties to fulfill their assumed obligations. To measure this risk over time for impairment of financial assets (trade receivables due from customers included), the introduction of IFRS 9 required switching from the incurred loss model pursuant to IAS 39 to the expected credit loss model.

Such exposure mainly stems from general economic and financial factors, the potential occurrence of specific insolvency situations of some borrowers and other more strictly technical-commercial or administrative factors.

TIM Group's maximum theoretical exposure to credit risk is represented by the carrying amount of the financial assets and trade receivables recorded in the financial statements, excluding guarantees received, described in the Note "Disputes and pending legal actions, other information, commitments and guarantees".

Risk related to trade receivables is managed using customer scoring and analysis systems. For specific categories of trade receivables, the Group also makes use of factoring, mainly on a "non-recourse" basis.

Provision charges for bad debts are recorded for specific credit positions that have an element of individual risk. On credit positions that do not have such characteristics, provision charges are recorded by customer segment according to the average uncollectibility estimated on the basis of statistics. Further details are provided in the Note "Trade and miscellaneous receivables and other current assets".

Financial assets other than trade receivables are written down for impairment on the basis of a general model which recognizes expected credit losses over the following 12 months, or over the residual life of the asset in the event of a substantial worsening of its credit risk. The expected credit loss is calculated based on the default probability and the percentage of credit that cannot be recovered in the event of a default (the loss given default).

The model adopted to calculate the expected credit loss is based on the Bloomberg Credit Risk Model, a model developed by Bloomberg which, starting from Merton's distance-to-default ("DD") concept, estimates the probability of default together with the recovery rate. At the same time, the loss given default is defined as the non-recoverable component of the post-default financial asset.

In particular, the DD - based on balance sheet data - is enriched with a series of additional information by country (macroeconomic, risk), business sector and individual company, as well as accounting adjustments aimed at ensuring uniformity of the model's outputs; finally, through a non-linear function of the DD, the default probability is obtained.

In order to improve credit risk management and relieve pressure on working capital, with specific reference to the offers for the Consumer market involving the option of paying for products by installments, starting February 1, 2021, the company TIMFin has been operating, the result of the corporate joint venture between Santander Consumer Bank (SCB) and TIM.

In 2022, TIMFin expanded the areas of operation, offering finance to also support sales made on the web store channel Tim.it, in addition to covering the physical stores as it had already been doing since the first year of operation.

Moreover, as regards credit risk relating to the asset components which contribute to the determination of "Net financial debt", it should be noted that the management of the Group's liquidity is guided by conservative criteria and is principally based on the following:

- Money market management: the investment of temporary excess cash resources;
- Bond portfolio management: the investment of medium-term liquidity, as well as the improvement of the average yield of the assets.

In order to mitigate the risk of the non-fulfillment of the obligations undertaken by the counterparty, deposits of the European companies are made with leading banking and financial institutions rated no lower than investment grade and with a non-negative outlook, and investments by the companies in South America are made with leading local counterparties. Moreover, deposits are made generally for periods of less than three months. With regard to other temporary investments of liquidity, there is a bond portfolio in which the investments have a low risk level. All investments have been carried out in compliance with the Group Guidelines on "Management and control of financial risk".

In order to minimize credit risk, the Group also pursues a diversification policy for its investments of liquidity and allocation of its credit positions among different banking counterparties. Consequently, there are no significant positions with any one single counterparty.

Liquidity risk

The Group pursues the objective of achieving an "adequate level of financial flexibility", which is expressed by maintaining a current treasury margin to cover the refinancing requirements at least for the next 12 months with irrevocable bank lines and liquidity.

At December 31, 2022, the liquidity margin available for the TIM Group is 9,001 million euros, with a decrease of 4,152 million euros with respect to end 2021 (13,153 million euros). Moreover, on January 20, 2023, TIM issued a 5-year Bond for an amount of 850 million euros and a coupon of 6.875%.
17% of gross financial debt at December 31, 2022 (nominal repayment amount) will become due in the next 12 months.

Current financial assets at December 31, 2022, together with unused committed bank lines, are sufficient to fully cover the Group’s financial liabilities due for the next 18 months.

The following tables report the contractual cash flows, not discounted to present value, related to gross financial debt at nominal repayment amounts and the interest flows, determined using the terms and the interest and exchange rates in place at December 31, 2022. The portions of principal and interest of the hedged liabilities includes both the disbursements and the receipts of the related hedging instruments. Specifically, the interest portions of "Loans and other financial liabilities" also include those relating to derivatives hedging for both loans and bonds.

Financial liabilities – Maturities of contractually expected disbursements

(million euros)		maturing by 12/31 of the year:						
		2023	**2024**	**2025**	**2026**	**2027**	**After 2027**	**Total**

Market value of derivative instruments

In order to determine the fair value of derivatives, the TIM Group uses various valuation models.

The mark-to-market calculation is determined by the present value discounting of the interest and notional future contractual flows using market interest rates and exchange rates.

The notional amount of IRS does not represent the amount exchanged between the parties and, therefore, is not a measurement of credit risk exposure, which, instead, is limited to the amount of the difference between the interest rates paid/received.

The market value of CCIRSs, on the other hand, also depends on the differential between the reference exchange rate at the date of signing the contract and the exchange rate at the date of measurement, since CCIRSs involve the exchange of the reference interest and principal, in the respective denomination currencies.

Options are measured according to the Black & Scholes or Binomial models and involve the use of various measurements factors, such as: the lifetime horizon of the option, the risk-free rate of return, current price, volatility and any cash flows (e.g. dividend) of the underlying financial instrument, and the exercise price.

NOTE 19
DERIVATIVES

For hedge accounting we continued to apply the rules established by IAS 39.

Derivative financial instruments are used by the TIM Group to hedge its exposure to foreign exchange rate risk, to manage interest rate risk and to diversify the parameters of debt so that costs and volatility can be reduced to within predetermined operational limits.

Derivative financial instruments existing at December 31, 2022 are principally used to manage debt positions. They include interest rate swaps (IRSs) used to reduce the interest rate exposure of fixed-rate bank loans and bonds, as well as cross currency and interest rate swaps (CCIRSs), currency forwards and foreign exchange options to convert the loans/receivables secured in currencies different from the functional currencies of the various Group companies.

IRS transactions, provide for or may entail, at specified maturity dates, the exchange of flows of interest, calculated on the notional amount, at the agreed fixed or variable rates.

The same also applies to CCIRS transactions which, in addition to the settlement of periodic interest flows, may provide for the exchange of principal, in the respective currencies of denomination, at maturity and possibly spot.

Hedging: economic relationship between underlying instrument and derivatives

Hedging relationships recorded in hedge accounting at 12/31/2022 belong to two categories: i) hedging of the fair value of bond issues denominated in euros and ii) hedging of cash flows from income flows of bond issues and future trade items denominated in currencies other than the Euro.

In the first case, the hedged risk is represented by the fair value of the bond attributable to euro interest rates and is hedged by IRS. The current value of both the underlying and derivative instruments, depends on the structure of the Euro market interest rates at the basis of the calculation of discount factors and floating interest flows of the derivative. In particular, interest rate fluctuations translate as changes in the discount factors of the fixed-interest expense flow on the underlying instrument; on the derivative, changes in the discount factor of interest income will occur, as well as changes in the nominal flow of variable interest (only partially corrected by the discounting effect). The effects induced on the derivative are opposite, in accounting terms, to the effects on the underlying instrument.

In the second case, relating to the bond issues, the hedged risk is represented by the variability in cash flows (and the repayment of the nominal amount) generated by exchange rates; hedging comprises combinations of IRS and CCIRS that synthetically transform fixed rate foreign currency income flows into fixed rate euro flows. In this case, exchange rate fluctuations will usually produce physiologically opposite effects on the

underlying instrument and on the derivative, as the receivable leg of the latter faithfully reflects the underlying instrument, while the payable leg is denominated in euros, and is therefore insensitive to the exchange rate. As regards the commercial forecast transactions, the risk hedged is always ascribed to the variability of the cash flow linked to exchange rates, but the hedge is assured through an active deposit denominated in the same currency as the items hedged; the write-backs/write-downs of the deposit in foreign currency generated by oscillations in the exchange rate are structurally the same and opposite to the impacts produced on the underlying items.

Hedges: determination of the hedge ratio

The types of hedging implemented by the Group require the adoption of a hedge ratio equal to 1:1, as the types of risk hedged (interest rate and exchange rate risks) are such as to generate economic effects in the underlying instruments that can only be offset by the same notional quantities of derivative instruments.

Hedges: potential sources of ineffectiveness

The contractualization of derivatives to hedge financial risks takes place at arm's length and aims to completely neutralize the effects produced by such instruments.

However, in practice, both fair value hedges and cash flows hedges, although financially perfect, may not guarantee an absolute accounting effectiveness due to the many counterparty banks involved, to the peculiar nature of certain derivatives in terms, for example, of fixing and/or indexing of variable parameters, and to the possible imperfect coincidence between critical terms.

The first table indicates total financial derivatives of the TIM Group at December 31, 2022 and 2021; in compliance with standard IFRS 7, notional amounts are shown with reference to all the derivative instruments involved in the hedges.

The following tables break down financial derivatives by type of risk for each kind of hedging, separating financial assets and liabilities. For CCIRS, the notional amount refers to the contractual value in euros, for IRS in a currency other than the euro, the value is indicated at the market exchange rate.

Type (million euros)	**Hedged risk**	**Notional amount at 12/31/2022**	**Notional amount at 12/31/2021**	**Mark to Market Spot* (Clean Price) at 12/31/2022**	**Spot Mark-to-Market* (Clean Price) at 12/31/2021**
Interest rate swaps	Interest rate risk	300	300	—	3
Cross Currency and Interest Rate Swaps (CCIRS)	Interest rate risk and currency exchange rate risk	—	—	—	—
Total Fair Value Hedge Derivatives		**300**	**300**	**—**	**3**
Interest rate swaps	Interest rate risk	4,994	4,855	249	375
Cross Currency and Interest Rate Swaps (CCIRS)	Interest rate risk and currency exchange rate risk	5,184	5,195	770	173
Total Cash Flow Hedge Derivatives		**10,178**	**10,050**	**1,019**	**548**
Total Non-Hedge Accounting Derivatives		**2,638**	**2,702**	**23**	**60**
Total TIM Group's Derivatives		**13,116**	**13,052**	**1,042**	**611**

* The Spot Mark-to-Market above represents the market valuation of the derivative, net of the accrued portion of the flow in progress.

The positions in non hedge accounting derivatives also include IRS Euros for a total notional amount of 1,400 million euros; specifically, these are fair value hedges of bond loans in euros, maturing in January 2024 and which were discontinued in 2021.

In the same item the following are also noted:

- the value - equal to a fair value of 15 million euros (liabilities) - of the rights envisaged in the Transaction Agreement in the favor of Teemo Bidco Sarl, as minority shareholder, under the scope of the FiberCop transaction;
- the value of the right held by TIM Brasil to subscribe shares of the Brazilian C6 Bank - of 112 million euros - on the basis of a commercial agreement signed by the two companies in March 2020.

Fair value hedges (million euros)	Accounting item		Notional value	Carrying amount	Change in fair value for the year

Other					—	
Overall change						**254**

None of the parameters represented includes any income tax effect.

The transactions hedged by cash flow hedges will generate cash flows and produce economic effects in the income statement in the periods indicated in the following table:

Denomination currency	**Notional amount in denomination currency** (millions)	**Start of period**	**End of period**	**Rate applied**	**Interest period**	**Hedging of notional amount in euro** (millions)	**Hedging of rate in euro**
GBP	375	Jan-23	May-23	5.875%	Annually	552	5.535%
JPY*	20,000	Jan-23	Oct-29	5.000%	Semiannuall	174	5.940%
JPY**	20,000	Jan-23	Oct-29	0.750%	Semiannuall	138	0.696%
USD	1,000	Jan-23	Nov-33	6.375%	Semiannuall	849	5.994%
USD	1,500	Jan-23	May-24	5.303%	Semiannuall	1,099	4.226%
USD	1,000	Jan-23	Sept-34	6.000%	Semiannuall	794	4.332%
USD	1,000	Jan-23	July-36	7.200%	Semiannuall	791	5.884%
USD	1,000	Jan-23	Jun-38	7.721%	Semiannuall	645	7.470%

* Income cash flows are denominated in USD and calculated on a notional amount of USD 187.6 million.
** Hedging of the sole income cash flow following a step-up on the loan.

The method selected to test the effectiveness retrospectively and, whenever the main terms do not fully coincide, prospectively, for cash flow hedge derivatives and fair value hedge derivatives is the Volatility Risk Reduction (VRR) Test. This test assesses the ratio between the portfolio risk (meaning the derivative and the item hedged) and the risk of the hedged item taken individually. In essence, the portfolio risk must be significantly lower than the risk of the hedged item.

NOTE 20

SUPPLEMENTARY DISCLOSURES ON FINANCIAL INSTRUMENTS

Measurement at fair value

For the purposes of the comparative information between the carrying amounts and fair value of financial instruments, required by IFRS 7, the majority of the non-current financial liabilities of the TIM Group consist of bonds, whose fair value is directly observable in the financial markets, as they are financial instruments that due to their size and diffusion among investors, are commonly traded on the relevant markets (see the Note "Non-current and current financial liabilities"). For other types of financing, however, the following assumptions have been made in determining fair value:

- for variable-rate loans, the nominal repayment amount has been assumed;
- for fixed-rate loans, the present value of future cash flows at the market interest rates of December 31, 2022 has been assumed;
- the carrying amount has been used for some types of loans granted by government institutions for social development purposes, for which fair value cannot be reliably calculated.

Lastly, for the majority of financial assets, their carrying amount is a reasonable approximation of their fair value, since these are short-term investments that are readily convertible into cash.

The fair value measurement of the financial instruments of the Group has been classified in the three levels set out in IFRS 7. In particular, the fair value hierarchy introduces the following levels of input:

- Level 1: quoted prices in active markets;
- Level 2: prices calculated using observable market inputs;
- Level 3: prices calculated using inputs that are not based on observable market data.

The following tables contain, for assets and liabilities at December 31, 2022 and December 31, 2021 and in accordance with the categories established by IFRS 9, the supplementary disclosures on financial instruments required by IFRS 7 and the schedules of gains and losses. They do not include Discontinued operations/Non-current assets held for sale and Liabilities directly associated with Discontinued operations/Non-current assets held for sale.

The financial instruments belonging to hierarchy level 3 of fair value are represented by the following Other investments recognized as Non-current assets, for which directly or indirectly observable prices on the market are not available:

- Northgate CommsTech Innovations Partners L.P.;
- UV T-Growth;
- Other minor companies.

Northgate CommsTech Innovations Partners L.P. and UV-T Growth was measured based on the latest available Net Asset Values reported by the fund managers.

The other minor companies were measured on the basis of an analysis, deemed reliable, of their main assets and liabilities.

The profit/(loss) recognized in Other components of the Consolidated Statements of Comprehensive Income were recognized within the scope of the Reserve for financial assets measured at fair value through other comprehensive income.

Note that financial liabilities include a financial instrument for an amount of 15 million euros, belonging to hierarchy level 3 of fair value, for which directly or indirectly observable prices on the market are not available. This financial liability refers to the rights envisaged in the Transaction Agreement in the favor of Teemo Bidco Sarl, as minority shareholder, under the scope of the FiberCop transaction.

The measurement of the economic value of the financial liability has been taken using a valuation model defined internally by TIM. Through an econometric approach, the correlation has been first estimated between the targets set at a national level and a series of macro economic and social-demographic variables. Then taking into account the uncertainty as to how these variables will evolve and the market share of FiberCop, through Monte Carlo simulation, a series of possible developments of the phenomenon was calculated and the expected value of the financial liability, determined.

Carrying amount and fair value hierarchy for each category/class of financial asset/liability and comparison with their fair value at 12/31/2021

of which:						
non-current portion		699				684
current portion (*)		—				108

(*) The current portion refers only to Other provisions for employee benefits.

The **Provision for employee severance indemnities (T.F.R.)** only refers to Italian companies and decreased on the whole by 125 million euros. The decreases of 64 million euros relating to indemnities paid during the year to employees who terminated employment or for advances.

The changes recorded in "Increases/Present value" are as follows:

(million euros)	2022	2021
(Positive)/negative effect of curtailment	—	—
Current service cost (*)	—	—
Finance expenses	12	5
Net actuarial (gains) losses for the year	(73)	15
Total	**(61)**	**20**
Effective return on plan assets	there are no assets servicing the plan	

(*) The portions intended for the INPS Treasury Fund or for the supplementary pension funds have been recorded under "Employee benefits expenses" under "Social security expenses". The latter account is used only for the severance indemnity expenses of companies with less than 50 employees.

The net actuarial gains recognized at December 31, 2022 amounted to 73 million euros (net actuarial gains of 15 million euros in 2021), and are essentially connected with both staff turnover and changes to the technical-economic parameters used in the valuation: the inflation rate forecast went from 1.75% at December 31, 2021 to 2.30% at December 31, 2022; the discount rate increased, going from the 0.98% used at December 31, 2021 to 3.63% at December 31, 2022.

According to national law, the amount of provision for employee severance indemnities to which each employee is entitled depends on the period of service and must be paid when the employee leaves the company. The amount of severance indemnity due upon termination of employment is calculated on the basis of the period of employment and the taxable compensation of each employee. This liability is adjusted annually based on the official cost-of-living index and legally-set interest. The liability is not associated with any vesting condition or period or any funding obligation; accordingly, there are no assets servicing the provision. The liability is recognized net of the partial prepayments of the provision and payments of the amounts obtained by employees for the reasons permitted by the applicable regulations.

Under the regulations introduced by Italian Legislative Decree 252/2005 and Law no. 296/2006 with which, for companies with at least 50 employees, the severance indemnities accruing from 2007 are assigned, as elected by the employees, to either the INPS Treasury Fund or to supplementary pension funds and take the form of a "defined contribution plan".

However, for all companies, the revaluations of the amounts in the provision for employee severance indemnities existing at the election date, and also the amounts accrued and not assigned to supplementary pension plans for companies with less than 50 employees, are retained in the provision for employee severance indemnities. In accordance with IAS 19, the provision has been recognized as a "defined benefit plan".

In application of IAS 19, employee severance indemnities have been calculated using the "Projected Unit Credit Method" as follows:

- the future possible benefits which could be paid to each employee registered in the program in the event of retirement, death, disability, resignation etc. have been projected on the basis of a series of financial assumptions (cost-of-living increases, interest rate, increase in compensation etc.). The estimate of future benefits includes any increases for additional service seniority, as well as the estimated increase in the compensation level at the measurement date – only for employees of companies with less than 50 employees during the year 2006;
- the average present value of future benefits has been calculated, at the measurement date, on the basis of the annual interest rate adopted and of the probability that each benefit actually has to be paid;
- the liability of each company concerned has been calculated as the average present value of future benefits that will be generated by the existing provision at the measurement date, without considering any future accruals (for companies with at least 50 employees during the year 2006) or by identifying the amount of the average present value of future benefits which refer to the past service already accrued by the employee in the company at the measurement date (for the others), i.e. adopting the "service pro-rate".

The following assumptions have been made:

FINANCIAL ASSUMPTIONS	Executives	Non-executives
Inflation rate	**2.30% per annum**	**2.30% per annum**
Discount rate	**3.63% per annum**	**3.63% per annum**
Employee severance indemnities annual increase rate	**3.225% per annum**	**3.225% per annum**
Annual real wage growth:		
equal to or less than 40 years of age	1.0% per annum	1.0% per annum
over 40 but equal to or less than 55 years of age	0.5% per annum	0.5% per annum
over 55 years of age	0.0% per annum	0.0% per annum
DEMOGRAPHIC ASSUMPTIONS	**Executives**	**Non-executives**
Probability of death	Mortality tables RG48 published by Ragioneria Generale dello Stato	Mortality tables RG48 published by Ragioneria Generale dello Stato
Probability of disability	INPS tables divided by age and sex	INPS tables divided by age and sex
Probability of resignation:		
up to 40 years of age	2.00%	1.00%
from 41 to 50 years of age	2.00%	0.50%
from 51 to 59 years of age	1.00%	0.50%
from 60 to 64 years of age	None	0.50%
aged 65 and over	None	None
Probability of retirement	100% on achievement of the AGO requirements aligned with D.L. 4/2019	
Probability of receiving at the beginning of the year an advance from the provision for severance indemnities accrued equal to 70%	1.5% per annum	1.5% per annum

The application of the above assumptions resulted in a liability for employee severance indemnities of 553 million euros at December 31, 2022 (678 million euros at December 31, 2021).

Reported below is a sensitivity analysis for each significant actuarial assumption adopted to calculate the liability as at year end, showing how the liability would have been affected by changes in the relevant actuarial assumption that were reasonably possible at that date, stated in amounts.

The weighted average duration of the obligation of the Parent amounted to 7.9 years.

CHANGES IN ASSUMPTIONS	Amounts (million euros)
Turnover rate:	
+0.25 p.p.	(1)
- 0.25 p.p.	1
Annual inflation rate:	
+0.25 p.p.	(15)
- 0.25 p.p.	15
Annual discount rate:	
+0.25 p.p.	19
- 0.25 p.p.	(21)

The **Provision for pension and other plans** amounted to 16 million euros at December 31, 2022 (21 million euros at December 31, 2021) and mainly represented pension plans in place at foreign companies of the Group.

The provisions for termination benefit incentives and corporate restructuring increased in 2022 by 223 million euros and are mainly linked to outgoing managerial and non-managerial staff, envisaged according to the application of art. 4 of Law no. 92 of June 28, 2012 and former art. 41, subsection 5bis of Italian Legislative Decree no. 148/2015, as per the agreements signed, during the year, with the trade unions by the Parent Company TIM S.p.A., by Telecom Italia Sparkle, by Telecontact, by Noovle, by Olivetti, by Telecom Italia Trust Technologies and by Telsy.

NOTE 22
PROVISIONS

These decreased by 234 million euros compared to December 31, 2021. The breakdown is as follows:

(million euros)	12/31/2021	Increase	Taken to income	Used directly	Exchange differences and other changes	12/31/2022
Provision for taxation and tax risks	**73**	8	(1)	(5)	14	**89**
Provision for restoration costs	**281**	21	—	(11)	43	**334**
Provision for legal disputes	**441**	75	—	(71)	(1)	**444**
Provision for commercial risks	**677**	94	(15)	(412)	18	**362**
Provision for risks and charges on investments and corporate-related transactions	**12**	—	—	(1)	—	**11**
Other provisions	**4**	11	—	(1)	—	**14**
Total	**1,488**	**209**	**(16)**	**(501)**	**74**	**1,254**
of which:						
non-current portion	**926**					**910**
current portion	**562**					**344**

The non-current portion of provisions for risks and charges mainly relates to some of the provision for commercial risks, the provision for legal disputes and the provision for restoration costs. More specifically, in accordance with accounting policies, the total amount of the provision for restoration costs is calculated by re-measuring the amounts for which a probable outlay is envisaged, based on the estimated inflation rates for the individual due dates, and subsequently discounted to the reporting date based on the average cost of debt, taking into account expected cash outflows.

The **provision for taxation and tax risks** increased by 16 million euros compared to December 31, 2021.

The **provision for restoration costs** refers to the provision for the costs expected to be incurred for the restoration of leased properties and sites used in the mobile sector and for the dismantling of certain assets (particularly batteries and wooden piling); it mainly refers to the Parent TIM S.p.A (150 million euros), the company FiberCop (131 million euros) and the Brazil Business Unit (52 million euros).

The **provision for legal disputes** included the provision for litigation with other counterparties and employees. The amount at December 31, 2022 included 329 million euros for the Domestic Business Unit and 115 million euros for the Brazil Business Unit.

The **provision for commercial risks** relates to the Domestic Business Unit and mainly the Parent Company TIM S.p.A.. During 2022, it reduced by 315 million euros mainly in view of:

- a use for 346 million euros of the Provision for contractual risks on onerous contracts (IAS 37) recorded in the 2021 financial statements relating to ongoing relations with some counterparties for the offer of

multimedia content and representative of the net present value of the negative margin connected with these partnerships;

- a provision made by TIM S.p.A. of 41 million euros for onerous contracts relating to a multi-year agreement concluded in 2021 which committed the Company to minimum purchases and the total estimated cost of which for the residual duration of the agreement became apparent in 2022.

The **provision for risks and charges on investments and corporate-related transactions** reduced by 1 million euros on the previous year.

Other provisions for risks and charges come to 14 million euros and are essentially attributable to the Domestic Business Unit.

NOTE 23
MISCELLANEOUS PAYABLES AND OTHER NON-CURRENT LIABILITIES

These decreased by 267 million euros compared to December 31, 2021. The figure breaks down as follows:

(million euros)		12/31/2022	12/31/2021
Miscellaneous payables (non-current)			
Payables to social security agencies		400	452
Income tax payables (*)		—	231
Other payables		58	7
	(a)	**458**	**690**
Other non-current liabilities			
Deferred revenues from customer contracts (Contract liabilities)		87	88
Other deferred revenue and income		354	368
Capital grants		247	267
	(b)	**688**	**723**
Total	**(a+b)**	**1,146**	**1,413**

(*) Analyzed in the Note "Income tax expense".

Miscellaneous payables (non-current) include:

- **payables to social security agencies** amounting to 400 million euros, mainly relating to the non-current debt position with INPS for the application of the agreements signed with the trade unions relating to the application of Article 4 of Law no. 92 of June 28, 2012 and former Art. 41, subsection 5bis of Italian Legislative Decree no. 148/2015 (for further details see the Note “Employee benefits expenses”). This debt position (non-current and current portion) is as follows:

(million euros)	12/31/2022	12/31/2021
Non-current payables		
Due from 2 to 5 years after the end of the reporting period	385	443
Due beyond 5 years after the end of the reporting period	15	9
	400	**452**
Current payables	**244**	**258**
Total	**644**	**710**

- **other payables** equal to 58 million euros at December 31, 2021 referring mainly to the Brazil Business Unit.

The **other non-current liabilities** include:

- **Deferred revenues from contracts with customers (contract liabilities)** of 87 million euros (88 million euros at December 31, 2021) which are reversed to the income statement according to the duration of the contractual obligations between the parties, averaging 24 months; therefore, the balance as at December 31, 2022 will be reversed to the income statement generally by 2024. In particular, the item includes:
  - TIM S.p.A. deferred revenues for subscription charges and rent and maintenance payments (41 million euros);
  - TIM S.p.A. deferred revenues for network access subscription charges (21 million euros);
  - Deferred revenues of TIM S.p.A. for outsourcing charges (17 million euros);
  - Deferred revenues for activation and installation fees charged on new TIM S.p.A. customer contracts (3 million euros): in this regard, it is noted that under IFRS 15 activation/installment revenues are allocated to other contract obligations and recognized throughout the period of performance of the contract, as they do not relate to separate performance obligations.

- **Other deferred revenue and income** totaling 354 million euros; the item consisted of the non-current portion (approx. 113 million euros) of the deferred gain on the sale and lease-back of telecommunication towers by the Brazil Business Unit; this item also includes deferred revenues related to agreements for the sale of the transmission capacity.
- **Capital grants** of 247 million euros: the item represents the component still to be released to the income statement based on the remaining useful life (estimated at around 18 years) of the assets that the grants refer to and is mainly connected to the realization of the infrastructures on the Ultrabroadband-UBB and Broadband-BB projects.

NOTE 24

TRADE AND MISCELLANEOUS PAYABLES AND OTHER CURRENT LIABILITIES

This item fell by 1,274 million euros compared to December 31, 2021. The figure breaks down as follows:

Total	**(a+b+c+d)**	**8,199**	**5,717**	**9,473**	***7,166***

Further details on Financial Instruments are provided in the Note "Supplementary disclosure on financial instruments".

Trade payables amounting to 5,295 million euros (5,161 million euros at December 31, 2021), mainly refer to:

- TIM S.p.A. (3,745 million euros); the increase on December 31, 2021 reflects the dynamics of payments relating to bills payable;
- Brazil Business Unit (901 million euros); the decrease on December 31, 2021 is connected with the partial payment of payables connected with the November 2021 purchase of 5G licenses.

At December 31, 2022, trade payables due beyond 12 months totaled 59 million euros (73 million euros at December 31, 2021) and are mainly represented by payables of the Brazil Business Unit for the purchase and renewal of telecommunications licenses, also including the payable due to Entidade Administradora da Conectividade de Escolas (EACE) for the development of certain infrastructural projects in Brazil in connection with the assignment of the rights of use of frequencies for 5G services.

Tax payables amounted to 216 million euros and mainly consisted of both the tax payables of the Brazil Business Unit (102 million euros) and the payables of TIM S.p.A., mainly relating to the amount owed to the tax

authorities for tax payables withheld as withholding agent (68 million euros), the VAT payable (25 million euros) and the amount payable for the government concession tax (4 million euros).

Miscellaneous payables include:

- the current debt position towards INPS in view of the application of the agreements signed with the trade unions regarding the application of Art. 4 of Italian Law no. 92 of June 28, 2012 and former Art. 41, subsection 5bis, Italian Legislative Decree no. 148/2015;
- the debt position of the Brazil Business Unit connected with the contractual obligations linked to the acquisition of the mobile assets of the Oi Group (134 million euros). Further details are provided in the Note "Disputes and pending legal actions, other information, commitments and guarantees".

Also note that on September 30, 2022, TIM S.p.A. paid the fifth and final installment, of 1,738 million euros, out of the total of 2,399 million euros due in fulfillment of the undertakings made by the Company following the award of the rights to use mobile frequency bandwidths pursuant to the "5G Auction" held in 2018 by the Ministry for Economic Development.

Other current liabilities amounted to 935 million euros at December 31, 2022 (851 million euros at December 31, 2021). They break down as follows:

- **Liabilities from customer contracts (Contract liabilities)**, totaling 840 million euros. This item includes liabilities to customers related to the obligations of Group companies to transfer goods and services for which have received a price. Liabilities with customers, generally with a maturity of up to 12 months, are shown below; therefore, the figure at December 31, 2022 will be substantially reversed by December 31, 2023.

  In particular:

  - **contract liabilities** amounting to 9 million euros; the item includes bundle contracts (good and services packages) with performance obligations with different timing for the recognition of revenues and consequent deferral of the fees originally recognized. The decrease recognized in the year 2022 (-2 million euros) was mainly linked to the presence of commercial offers that no longer require a fixed duration and the reversal to the income statement of the balance previously accumulated;
  - **customer-related items**, equal to 430 million euros; the item includes trade payables following contractual relationships, such as the payable for prepaid traffic and the subscription fees charged in advance;
  - **progress payments and advances** equal to 56 million euros relating to trade payables following prepayments, such as deposits made by subscribers for telephone calls;
  - **deferred revenues from customer contracts**, equal to 345 million euros essentially include:
    - Parent Company deferred revenues for rent and maintenance fees (193 million euros);
    - Parent Company deferred revenues for interconnection fees (111 million euros);
    - Parent Company deferred revenues on activation and installation of new contracts with customers (4 million euros).
- **Other deferred revenue and income** amounted to 59 million euros. These refer mainly to deferred revenues deriving from contracts for the sale of transmission capacity.
- **Other** , amounting to 36 million euros. They mainly refer to the Parent Company and relate to payables for advances on work in progress on networks.

NOTE 25

DISPUTES AND PENDING LEGAL ACTIONS, OTHER INFORMATION, COMMITMENTS AND GUARANTEES

A description is provided below of the most significant judicial, arbitration and tax disputes in which TIM Group companies are involved at December 31, 2022, as well as those that came to an end during the period.
The TIM Group has posted liabilities totaling 279 million euros for those disputes described below where the risk of losing the case has been considered probable.
It should be noted that for some disputes described below, on the basis of the information available at the closing date of the Annual Financial Report and with particular reference to the complexity of the proceedings, to their progress, and to elements of uncertainty of a technical-trial nature, it was not possible to make a reliable estimate of the size and/or times of possible payments, if any. Moreover, in those cases in which disclosure of information on a dispute could seriously jeopardize the position of TIM or its subsidiaries, only the general nature of the dispute is described.
Lastly, as regards the proceedings with the Antitrust Authority, please note that based on Article 15, subsection 1 of Italian Law 287/1990 ("Antitrust regulations"), the Authority has the right to impose an administrative sanction calculated on the turnover of the Group in cases of breaches considered serious.

a) Significant disputes and pending legal actions

International tax and regulatory disputes

At December 31, 2022, companies belonging to the Brazil Business Unit were involved in tax or regulatory disputes, the outcome of which is estimated as a possible loss totaling around 18.2 billion reais (16.3 billion reais at December 31, 2021), corresponding to approximately 3.3 billion euros at the end of 2022. The main types of litigation are listed below, classified according to the tax to which they refer.

Federal taxes

In relation to the federal level of taxation, the following disputes should be noted:

- disallowance of the tax effects of the merger between the companies of the TIM Brasil Group;
- denial of the SUDENE regional tax benefit, due to alleged irregularities in the management and reporting of the benefit itself;
- challenges regarding offsetting against previous tax losses;
- further challenges regarding the tax deductibility of the amortization of goodwill;
- imposition of income tax on certain types of exchange rate differences;
- imposition of withholding taxes on certain types of payments to foreign entities (for example, payments for international roaming);
- further challenges regarding offsets made between taxes payable and group company credit positions.

Overall, the risk for these cases, considered to be possible, amounts to 3.3 billion reais (3.1 billion reais at December 31, 2021).

State taxes

Within the scope of the state levy, there are numerous challenges regarding ICMS, and in particular:

- challenges concerning the reduction of the tax base due to discounts granted to customers, as well as challenges regarding the use of tax credits declared by group companies, with respect to the return of loaned telephone handsets, and following the detection of contract frauds to the detriment of the companies;
- subjection of some fees owed to group companies and classified by them as fees for services other than telecommunications to ICMS;
- challenges over the use of the "PRO-DF" tax benefit originally granted by some States, and subsequently declared unconstitutional (the challenge refers to the actual credit due to ICMS, declared by the TIM Cellular, now incorporated into TIM S.A., on the basis of the aforementioned tax benefits);
- challenges relating to the use of ICMS credits claimed by Group companies as a result of the acquisition of tangible assets, and in relation to the supply of electricity to the companies, as well as in application of the provisions on acting as a withholding agent;
- fines imposed on group companies for irregularities in tax return compliance;
- challenges of ICMS credits in relation to acting as a withholding agent, applicable when equipment is bought and distributed in different States;
- challenges of ICMS credits deriving from the “special credit” recognized by the company to its prepaid customers, against subsequent top-ups.

Overall, the risk for these cases, considered to be possible, amounts to 9.6 billion reais (8.8 billion reais at December 31, 2021).

Municipal taxes

Among disputes classified with a "possible" degree of risk, there are some relating to municipal taxes for a total amounting to around 1.6 billion reais (around 1.2 billion reais at December 31, 2021).

FUST and FUNTTEL

The main challenges about contributions to the regulatory body (Anatel), and in particular in terms of FUST and FUNTTEL, concern whether or not interconnection revenues should be subject to these contributions.

Overall, the risk for these cases, considered to be possible, amounts to 3.7 billion reais (3.2 billion reais at December 31, 2021).

Golden Power Case

In August 2017 the Prime Minister's office brought proceedings against TIM (as well as Vivendi) in order to verify the fact that TIM has an obligation to notify, pursuant to the “Golden Power” law, Vivendi’s acquisition of corporate control of TIM and the strategic assets it holds. In September 2017, the proceedings in question concluded by affirming that this obligation did exist for TIM with effect from May 4, 2017 (the date of the Shareholders’ Meeting that renewed TIM’s corporate boards).

As a result of this decision by the Presidency of the Council of Ministers, new and separate administrative proceedings started for the imposition on TIM of the financial penalty laid down by the Golden Power law for non-compliance with the aforementioned obligation to notify. These proceedings ended on May 8, 2018 with the imposition of a financial penalty of 74.3 million euros.

The Company, is convinced that it has the legal arguments to demonstrate that it was under no obligation to notify the control exercised over it by Vivendi, filed separate extraordinary appeals to the President of the Republic to request the abrogation of the order of September 2017 and before the Lazio Regional Administrative Court (TAR) against the aforementioned order of May 8, 2018, which imposed a financial penalty, requesting its precautionary suspension. As regards the appeal to the Lazio Regional Administrative Court (TAR) against the provision of May 8, 2018, which imposed the financial penalty, the TAR, in upholding in July 2018 the interim petition lodged by the Company, has suspended payment of the penalty. Subsequently, with a non-definitive ruling in May 2019, the Lazio Regional Administrative Court (TAR): (i) accepted TIM's request for provisional measures to suspend the fine conditional on the offer of the guarantee; (ii) granted the suspension of the procedure to wait for the final judgment in the (injurious) case pending before the President of the Republic regarding the notification obligation, pursuant to the Golden Power provisions; (iii) rejected the procedural objections raised by the defendant administrations.

It should also be noted that in May 2018 a guarantee bond for 74.3 million euros was issued in favor of the Presidency of the Council. TIM had been requested to submit such a bond for its application to Lazio TAR for precautionary suspension of the collection of the fine imposed for alleged breach of Art. 2 of Decree Law 21 of March 15, 2012 (the “Golden Power” law). This surety was renewed in November 2022.

Furthermore, TIM appealed before the Lazio TAR and then appealed before the Council of State against the provision with which Consob, on September 13, 2017, affirmed Vivendi's control over TIM. In December 2020, the Council of State issued a final judgment upholding TIM’s appeal and canceling the provision by Consob, a significant premise to the entire subsequent proceedings of the Presidency of the Council in relation to the obligation to Golden Power notification as described above. On June 14, 2021, Consob submitted an extraordinary appeal to the Court of Cassation on grounds of jurisdiction; TIM filed an appearance, objecting that the appeal is unlawful and inadmissible. Following the hearing in chambers held on October 11, 2022, on January 24, 2023, the order was published whereby the Court of Cassation declared that Consob’s petition was unacceptable, consequently ordering it to pay the dispute expenses.

Antitrust Case A428

At the conclusion of case A428, in May 2013, AGCM (the Italian Competition Authority)imposed two administrative fines of 88,182,000 euros and 15,612,000 euros on TIM for abuse of its dominant position. The Company allegedly (i) hindered or delayed activation of access services requested by OLOs through unjustified and spurious refusals; (ii) offered its access services to final customers at economic and technical conditions that allegedly could not be matched by competitors purchasing wholesale access services from TIM itself, only in those geographic areas of the Country where disaggregated access services to the local network are available, and hence where other operators can compete more effectively with the Company.

TIM appealed against the decision before the Regional Administrative Court (TAR) for Lazio, applying for payment of the fine to be suspended. In particular, it alleged: infringement of its rights to defend itself in the proceedings, the circumstance that the organizational choices challenged by AGCM (the Italian Competition Authority) and allegedly at the base of the abuse of the OLO provisioning processes had been the subject of specific rulings made by the industry regulator (AGCom), the circumstance that the comparative examination of the internal/external provisioning processes had in fact shown better results for the OLOs than for the TIM retail department (hence the lack of any form of inequality of treatment and/or opportunistic behavior by TIM), and (regarding the second abuse) the fact that the conduct was structurally unsuitable to reduce the margins of the OLOs.

In May 2014, the judgment of the Lazio TAR was published, rejecting TIM's appeal and confirming the fines imposed in the original order challenged. In September 2014 the Company appealed against this decision.

In May 2015, with the judgment no. 2497/15, the Council of State found the decision of the court of first instance did not present the deficiencies alleged by TIM and confirmed the AGCM (the Italian Competition Authority) ruling. The company had already proceeded to pay the fines and the accrued interest.

In a decision notified in July 2015, AGCM (the Italian Competition Authority) started proceedings for non-compliance against TIM, to ascertain if the Company had respected the notice to comply requiring it to refrain from undertaking behaviors analogous to those that were the object of the breach ascertained with the concluding decision in case A428 dated May 2013.

On January 13, 2017, TIM was served notice of AGCM’s final assessment, which recognized that TIM had complied in full with the A428 decision and, as such, the conditions for the imposition of a fine for non-compliance were not present.

AGCM (the Italian Competition Authority) recognizes, furthermore, that TIM's behavior subsequently to the 2013 proceedings has been directed towards continuous improvement of its performance in the supply of wholesale access services concerning not only the services which were the subject of the investigation, but also the new Ultrabroadband access services. In assessing compliance, AGCM (the Italian Competition Authority) recognized the positive impact of the implementation, albeit not yet completed, of TIM's New Equivalence Model (NME). The AGCM (the Italian Competition Authority) decision orders TIM to: (i) proceed with the implementation of the NME until its completion which is expected to be by April 30, 2017; (ii) inform the Authority about the performance levels of the systems for providing wholesale access services and about the completion of the corresponding internal reorganization plan by the end of May 2017. The Company quickly complied with both orders, and the Authority communicated its satisfaction on August 9, 2017.

Vodafone lodged an appeal with the Lazio Regional Administrative Court against the final decision in the proceedings for non-compliance taken by AGCM (the Italian Competition Authority). TIM filed an appearance, as in the other lawsuits filed in March 2017 by the operators CloudItalia, KPNQWest Italia and Digitel. With judgments 311 and 312/23 respectively of January 11, 2023, the regional administrative court rejected the appeals lodged by KPNQWest and CloudItalia.

Colt Technology Services - A428

With writ of summons before the Milan Court served in August 2015, the operator Colt Technology Services filed a damages claim based on the A428 decision, requesting compensation for alleged damages suffered from 2009 to 2011 as a result of purportedly inefficient and discriminatory conduct by TIM in the wholesale service supply process. The damage claimed was quantified as 27 million euros in loss of profits for the alleged non-acquisition of new customers, or for the alleged impossibility of supplying new services to the customers it had already acquired; the other party also formulated a request for compensation for the damages to its image and commercial reputation. This case follows the extrajudicial claim for approximately 23 million euros, previously advanced by Colt in June 2015, which the Company rejected in its entirety. TIM filed an appearance, contesting all of the plaintiff's allegations. The case is currently reserved for decision.

COMM 3000 S.p.A. (formerly KPNQWest Italia S.p.A.) - A428

With writ of summons before the Rome Court, COMM 3000 S.p.A.(formerly KPNQWest Italia S.p.A.) filed a damages claim for a total of 37 million euros in compensation for alleged anticompetitive and abusive conduct over the period 2009–2011, in the form of technical boycotting (refusals to activate wholesale services – KOs); the claim was based on the contents of the decision of AGCM (the Italian Competition Authority) that settled the A428 case. TIM filed an appearance, contesting all of the plaintiff's allegations. In the judgment with ruling in April 2019, the Court of Rome partially received the petitions of COMM 3000 S.p.A. (formerly KPNQWest Italia S.p.A.), sentencing TIM to pay an amount significantly lower than the amount in the counterparty's damages claim. In June 2019, TIM appealed against the judgment. In the judgment given in April 2021, the Court of Appeal of Rome partly upheld TIM's appeal, reducing the amount of the compensation due to COMM 3000, which was in any case entirely covered by the relevant provision. In November 2021, TIM has appealed to the Court of Cassation over the judgment of the Court of Appeal of Rome in. The company is awaiting scheduling of the hearing for discussion.

Teleunit

With a writ of summons issued in October 2009 before the Milan Appeal Court, Teleunit asked that TIM alleged acts of abuse of its dominant position in the premium services market be ascertained. The plaintiff quantified its damages at a total of approximately 362 million euros. TIM filed an appearance, contesting the claims of the other party.

After the ruling of January 2014 with which the Court of Appeal declared that it was not competent in this matter and referred the case to the Court, Teleunit reinstated the case before the Milan Court the following April. TIM filed an appearance in the reinstated proceedings challenging the plaintiff's claims.

In its judgment of May 2017, the Milan Court rejected Teleunit's claim in its entirety, and ordered the company to pay the legal costs of the case. This judgment was appealed by Teleunit, in June 2017, before the Milan Court of Appeal. TIM filed an appeal challenging the arguments presented by the other party and asking that the judgment in the first instance be fully confirmed. With an order in March 2018 the Milan Court of Appeal declared Teleunit's appeal pursuant to art. 348-bis of the Italian Code of Civil Procedure to be manifestly without foundation, and hence inadmissible. In May 2018 Teleunit appealed the judgment of the Court of Appeal to the Court of Cassation. TIM lodged a counter-appeal seeking confirmation in full of the order being appealed (and thus of the judgment at first instance). The hearing was held in chambers on September 22, 2022. By order published on October 19, 2022, the Court of Cassation declared the petition lodged by Teleunit Ltd inadmissible, ordering it to pay the costs of the dispute to TIM.

Eutelia and Clouditalia Telecomunicazioni - A428

With a writ of summons dated May 2020, Eutelia in Extraordinary Administration and Clouditalia Telecomunicazioni S.p.A., purchaser of Eutelia's TLC branch, brought an action against TIM before the Court of Rome, making claims for damages, of around 40 million euros, for damages allegedly suffered, in the period 2009-2012, following the technical boycott and margin squeeze conduct, subject of the AGCM A428 procedure. TIM filed an appearance, contesting the claims made by the opposing party and formulating a counterclaim, subject to quantification of the damages incurred during the proceedings. On April 1, 2022, AGCM (the Italian Competition Authority) deposited the opinion envisaged by Art. 14, third subsection of Italian Legislative Decree 3/2017, whereby it: (i) proposed certain benchmarks for use to define the counterfactual scenario on which basis to quantify the damages allegedly suffered by Eutelia and Clouditalia; (ii) provided some additional indication and criteria to estimate the various damage items demanded by Eutelia and Clouditalia. At the hearing held on June 15, 2022, the Investigating Judge assigned time to the parties until July 8, 2022, by which to deposit written notes on the implications of the opinion of the AGCM (the Italian Competition Authority) and the contents of any queries to be raised with the court appointed expert. On October 24, the judge lifted the reservation and ordered an expert report on the *an* of TIM's conduct and the *quantum* of any damages suffered by Eutelia and Irideos as a result of such. On November 15, 2022, the court-appointed expert witness was sworn in. The public hearing for the examination of the court-appointed expert witness has been scheduled for October 18, 2023.

Antitrust Case A514

In June 2017 AGCM (the Italian Competition Authority) started proceedings A514 against TIM, to ascertain a possible abuse of its dominant market position in breach of article 102 of the "Treaty on the Functioning of the European Union". The proceedings were started based on some complaints filed in May and June 2017, by Infratel, Enel, Open Fiber, Vodafone and Wind Tre, and concerns a presumed abuse of TIM's dominant position in the market for wholesale access services and for retail services using the Broadband and Ultrabroadband fixed network. In particular, the AGCM (the Italian Competition Authority) hypothesized that TIM had adopted conduct aimed at: i) slowing and hindering the course of the Infratel tender processes so as to delay, or render less remunerative the entry of another operator in the wholesale market; ii) pre-emptively securing customers on the retail market for Ultrabroadband services by means of commercial policies designed to restrict the space of customer contendibility remaining for the competitor operators.

After the start of the proceedings, the Authority's officials carried out an inspection at some of TIM's offices in the month of July 2017. On November 2, 2017, TIM filed a defense brief in which, in support of the correctness

of its actions, it challenged all the arguments that the conduct it had allegedly engaged in, and which was the subject of the case, was unlawful.

On February 14, 2018, AGCM (the Italian Competition Authority) resolved to extend the scope of the case to investigate further behavior concerning TIM's wholesale pricing strategy on the market for wholesale access to Broadband and Ultrabroadband, and the use of the confidential information of customers of the alternative operators.

On July 5, 2018 TIM filed proposed undertakings which, if accepted by the Authority, would close the investigation without any offense being established or sanction being administered. The undertakings were considered as admissible by the Authority, that market tested them in August and September.

On October 30, 2018, TIM replied to observations made by third parties and modified its proposed undertakings. With its decision notified on December 4, 2018, AGCM (the Italian Competition Authority) once and for all rejected the proposed series of undertakings as it considered them unsuitable in light of the objections raised.

On March 4, 2019, TIM requested AGCM (the Italian Competition Authority) for an extension of the deadline for closing the proceedings (initially set for May 31, 2019).

On April 10, 2019, AGCM (the Italian Competition Authority) resolved to extend the deadline for conclusion of the proceedings until September 30, 2019. On May 17, 2019, AGCM (the Italian Competition Authority) notified TIM of the results of the investigation (CRI). In the CRI, AGCM (the Italian Competition Authority) essentially confirmed the case for the prosecution outlined in the start-up and extension of the proceedings orders.

On June 12, 2019 AGCM (the Italian Competition Authority) extended the deadline for deposit of TIM's final defense to September 20, 2019 and set the final hearing for September 25, 2019.

On September 18, 2019, AGCM (the Italian Competition Authority) resolved to extend the deadline for conclusion of the proceedings until February 28, 2020.

On March 6, 2020, TIM was notified of the decision to close the investigation: AGCM (the Italian Competition Authority) ruled that TIM had abused its dominant position, finding that TIM had put in place an anti-competitive strategy designed to hinder the competitive development of investment in Ultrabroadband network infrastructure. The fine imposed on TIM for the anti-competitive offense is 116,099,937.60 euros.

On June 25, 2020 TIM sent AGCM (the Italian Competition Authority) the so-called compliance report as ordered in the final provision.

In May 2021, the Company in any case paid the fine.

TIM appealed the aforementioned fine before the Lazio Regional Administrative Court (TAR). By judgment 1963/2022 of February 28, 2022, TIM's appeal was rejected; TIM has appealed to the Council of State against the decision of the regional administrative court.

In August 2022, Irideos notified a deed of intervention *ad opponendum* with respect to TIM's principal appeal.

The related hearing for oral discussion is scheduled for May 25, 2023.

Open Fiber

In March 2020, Open Fiber (OF) sued TIM before the Court of Milan, claiming damages of 1.5 billion euros for alleged abuse of an exclusive and dominant position in relation to OF. The alleged actions consist of: (i) pre-emptive investments in FTTC networks in white areas; (ii) initiating specious legal action to obstruct Infratel tenders; (iii) spurious repricing of certain wholesale services; (iv) commercial lock-in offers on the retail market; (v) false disclosure to AGCom in connection with the approval of a wholesale offer and spreading rumors about TIM being interested in acquiring OF; (vi) discriminatory access conditions to TIM passive infrastructure. TIM filed an appearance, contesting the arguments of OF. Enel S.p.A. intervened in the proceedings, asking that TIM be ordered to compensate all damages suffered and being suffered by Enel and OF, without, however, quantifying such. During the course of proceedings, Open Fiber redetermined the damage allegedly suffered, taking it to 2.6 billion euros plus interest and monetary revaluation. Open Fiber has also clarified that it believes such damages are still to be suffered. Enel then quantified the damages allegedly suffered as approximately 228 million euros, plus interest. On October 19, 2022, the hearing was held for admission of the evidence, after which the judge reserved the right to deliberate.

Irideos

In January 2022, Irideos summonsed TIM to the Court of Rome, making a claim for damages allegedly suffered as a consequence of the unlawful conduct of TIM, as sanctioned by AGCM (the Italian Competition Authority), with the provision that concluded proc. A514 ("follow-on claim"). The compensation claim comes to 23,204,079.87 euros for damages caused by the anti-competitive behavior of TIM from 2017 to 2019 (with effects also in subsequent years) on the market for services of wholesale access to the Broadband and Ultrabroadband fixed network (the "wholesale market") and on the market for retail telecommunications services on the Broadband and Ultrabroadband fixed network (the "retail market"). TIM filed an appearance, contesting the opposing party's arguments. At the hearing held on June 1, 2022, the investigating judge (i) assigned the parties time for depositing the briefs with terms running from February 15, 2023 and (ii) deferred the case to the hearing of June 7, 2023.

Antitrust Case I799

At its meeting on February 1, 2017, AGCM (the Italian Competition Authority) initiated an investigation for possible breach of Article 101 of the TFEU (prohibition of agreements that restrict competition) against TIM S.p.A. and Fastweb S.p.A., following the signing of an agreement aimed at setting up a cooperative joint venture called Flash Fiber S.r.l.. TIM, in agreement with Fastweb, submitted to AGCM (the Italian Competition Authority) some amendments to the agreements signed, in the form of proposed undertakings, aimed at closing the investigation without any breach being ascertained and, therefore, without any fine.

On March 28, 2018, AGCM (the Italian Competition Authority) resolved to approve the undertakings, making them binding on the Parties, and closed the case without imposing any fine.

On January 30, 2019, TIM sent the planned annual report on the provided coverage to AGCM (the Italian Competition Authority), supplemented by a subsequent communication dated March 29, 2019. TIM transmitted further details to AGCM (the Italian Competition Authority) in July and AGCM acknowledged it on October 15, 2019. On January 31, 2020 TIM sent AGCM (the Italian Competition Authority) the third report on the implementation of the undertakings given. Finally, on January 29, 2021 TIM sent AGCM (the Italian Competition Authority) the fourth and final report on the implementation of the undertakings given.

On June 11, 2018 Open Fiber S.p.A. and Wind Tre S.p.A. filed separate appeals to the Lazio Regional Administrative Court (TAR) against the order closing case I799 with the acceptance of the undertakings. They allege that this order has a series of procedural and substantial defects.

Open Fiber S.p.A. also asked for the precautionary suspension of the order. In a ruling of March 2020, the Regional Administrative Court rejected in full the appeal by Open Fiber.

The hearing for discussion of the merits of Wind Tre's appeal was held on October 12, 2022 and the Regional Administrative Court published the judge's extinguishing order on October 23. The judgment has therefore been settled.

Eutelia and Voiceplus

In June 2009, Eutelia and Voiceplus asked that alleged acts of abuse by TIM of its dominant position in the premium services market (based on the public offer of services provided through so-called Non Geographic Numbers) be investigated. The complainants quantified their damages at a total of approximately 730 million euros.

The case follows a precautionary procedure in which the Milan Appeal Court prohibited certain behaviors of the Company relating to the management of some financial relations with Eutelia and Voiceplus concerning the Non Geographic Numbers, for which TIM managed the payments from the end customers, on behalf of such OLOs and in the light of regulatory requirements. After the ruling with which the Milan Court of Appeal accepted TIM's objections, declaring that it was not competent in this matter and referring the case to the Civil Court, Eutelia in extraordinary administration and Voiceplus in liquidation resubmitted the matter to the Milan Court. The first hearing took place in the month of March 2014. TIM filed an appearance challenging the claims of the other parties. After the collapse of Voiceplus, the Milan Court declared the case suspended, in an order in September 2015. The case was later resumed by Voiceplus.

With a judgment issued in February 2018, the Milan Court accepted TIM's defense and rejected the plaintiffs' claim for compensation, ordering them, jointly and severally, to pay the legal costs. In March 2018 Eutelia and Voiceplus proposed an appeal against the judgment in the first instance.

TIM appealed against the claim, requesting confirmation in full of the judgment in the first instance. The appeal of Eutelia and Voiceplus was fully rejected with the judgment of August 5, 2019. In December 2019 Eutelia and Voiceplus appealed to the Court of Cassation over the judgment of the Court of Appeal. TIM notified a counterclaim asking confirmation of the ruling appealed against. The hearing in chambers is scheduled for February 16, 2023.

28 day billing

AGCom resolution 121/17/CONS introduced instructions on billing intervals for telephony, prescribing, for fixed telephony, that the interval should be monthly, or multiples thereof, and, for mobile telephony, that it should be at least four-weekly. TIM appealed Resolution 121/17/CONS to the Regional Administrative Court. The judgment rejecting the appeal was published in February 2018. TIM appealed this judgment to the Council of State in June 2018. On September 23, 2020, the non-definitive ruling was published whereby the Council of State joined the appeals submitted by TIM, Vodafone, Fastweb and Wind Tre and ordered the prejudicial deferral to the European Union Court of Justice (EUCJ) on whether or not the Authority had the power to regulate the frequency of renewal of the commercial offers and invoicing periods, at the same time rejecting the other grounds of appeal submitted by the operators and suspending proceedings. In February 2021, TIM deposited the written observations on the requests for prejudicial judgment with the EUCJ. On the request of the EUCJ, the Council of State, by order published on November 23, 2021, confirmed the referral to the Court of Justice on the prejudicial matters raised; on December 15, 2022, the conclusions were submitted of the general attorney and we are now awaiting the decision of the EUCJ; the case before the Council of State is therefore currently on hold.

With its Resolution 499/17/CONS, having confirmed the breach of Resolution 121/17/CONS, AGCom fined TIM 1,160,000 euros, ordering it to make provision – when the billing cycle was restored to monthly intervals or multiples thereof – to return the amounts corresponding to the fee for the number of days that, from June 23, 2017, had not been used by the users in terms of the supply of service due to the misalignment of the four-weekly and monthly billing cycles.

In March 2018 with resolution no. 112/18/CONS AGCom (i) revoked the preceding resolution 499/17/CONS in the part in which TIM was ordered to repay the amounts presumably lost from June 23, 2017 onwards, with the four-weekly billing cycle, (ii) cautioned TIM, with regard to fixed-line voice services only, against postponing the starting date of invoices issued after the return to monthly invoicing by the same number of days as those presumably deducted starting from June 23, 2017 with the four-weekly invoicing cycle.

Under Presidential Decree 9/18/PRES, AGCom amended the provisions of Decision 112/18/CONS requiring the deferment of billing once the billing cycle was restored to monthly intervals, or multiples thereof, while also ordering that the timescales for complying with the order would be identified after hearings with the operators and the main consumer protection associations.

In July 2018, AGCom issued resolution 269/18/CONS, with which it set December 31, 2018 as the date by which the operators had to return to their fixed network customers a number of days of service equal to those eroded as an effect of 28-day billing, or propose to the affected customers any alternative compensatory measures, after having notified them to AGCom. TIM has appealed all of the above resolutions.

With the judgment published in November 2018, the Regional Administrative Court (TAR) canceled the pecuniary administrative sanction of 1.16 million euros imposed with Resolution 499/17/CONS, and confirmed the obligation of *restitutio in integrum* to the fixed-line customers by December 31, 2018, the grounds for the judgment were instead published on May 10, 2019. The Council of State has deferred discussion of the case to November 10, 2023, awaiting the decision of the EU Court on the Community compatibility of the power exercised by AGCom to impose a billing period of no less than a month.

In September 2019, TIM also challenged resolution 221/19/CONS, before the Regional Administrative Court (TAR), with which the sanction pursuant to Resolution 499/17/CONS, canceled by the Regional Administrative Court of Lazio, was recalculated to the amount of 580,000.00 euros, with the maximum fine provided for by Art. 98, subsection 16 of the CCE in force at the time of the events applied. We are waiting for a date to be fixed for the discussion hearing.

In August 2019, AGCom initiated new proceedings (CONT 12/19/DTC) for failure to comply with the order to refund the days eroded by billing every 28 days for fixed network and convergent customers, according to the procedures established with resolutions nos. 112/18/CONS and 269/18/CONS. On conclusion of these proceedings, by means of Resolution 75/20/CONS, the Authority found that TIM did not comply with the above resolutions, imposing a fine of 3 million euros. The measure was challenged by TIM before the TAR in July 2020. We are waiting for a date to be fixed for the discussion hearing.

Moreover, since June 2019, TIM has offered its fixed network customers, active prior to March 31, 2018 and subject to billing every 28 days, the possibility of accepting a compensatory solution, an alternative to refunding the eroded days pursuant to AGCom resolution no. 269/18/CONS and from September 2019 it has been accepting requests for reimbursement of eroded days. In both cases, TIM informed customers with several messages in the bill, on the web in the main newspapers. The initiatives just described were communicated to AGCom as part of the aforementioned penalty proceedings.

In the civil proceedings, by judgment published on October 14, 2021 the Court of Milan, under the scope of the case on the merits brought by Associazione Movimento dei Consumatori in 2018 regarding the pricing and 28-day renewal for fixed line and converging offers, confirmed the order given on June 4, 2018 by the same Court upon closure of the complaint brought by TIM pursuant to Art. 669 terdecies of the Italian Code of Civil Procedure and the measures set out therein, ordering TIM to fulfill the requests for repayment of prices paid as a result of customer maneuvers - including discontinued, as indeed TIM had already been doing since 2018, at the same time also extending the period relevant to the recognition of the reimbursement through to April 1, 2017 and therefore earlier than June 23, 2017, the date on which the operators will need to comply with Resolution no. 121/17/CONS. TIM has appealed the judgment of the Court of Milan, at the same time filing a request for suspension of its enforcement. With order of January 11, 2022, the Court of Appeal of Milan partially accepted TIM's request, suspending the charge in the judgment relating to the order to send a registered letter to all discontinued customers that were subject to billing every 28 days to inform them of the possibility to obtain a refund of the additional amounts paid as a result of the maneuver. By judgment published on December 9, 2022, the Milan Court of Appeal confirmed the first instance judgment in full. On January 12, 2023, TIM notified the appeal to the Court of Cassation and on January 16, 2023 it also filed the appeal pursuant to Art. 373 of the Italian Code of Civil Procedure with the Milan Court of Appeal, asking that enforcement of the ruling be suspended until the judgment pending before the Court of Cassation had been settled.

By order of February 14, 2023, the Milan Court of Appeal, in partially upholding TIM's appeal, ordered suspension of the judgment in connection with the order to send the recorded delivery letters to former customers, whilst awaiting the decision of the Supreme Court.

Antitrust Case I820

On February 19, 2018, AGCM (the Italian Competition Authority) initiated a I820 preliminary proceeding against the companies TIM, Vodafone, Fastweb, Wind Tre and the industry association ASSTEL to investigate the alleged existence of an agreement among the major fixed-line and mobile telephone operators to restrict competition by coordinating their respective commercial strategies, in breach of Art. 101 of the TFUE.

The presumed coordination, according to the opening provision of the proceedings by AGCM (the Italian Competition Authority), would take the form of implementation of the obligation introduced by Article 19-quinquiesdecies of Legislative Decree 148/2017 (converted by Law 172/2017) which requires operators of electronic communication services to send out monthly (or monthly multiples) bills and renewed offers for fixed and mobile services.

On March 21, 2018, AGCM (the Italian Competition Authority) issued a provisional precautionary measure against all the operators involved in the proceedings with which it ordered the suspension, pending the proceedings, of the implementation of the agreement concerning the determination of repricing communicated to users at the time of reformulating the billing cycle in compliance with Law 172/17 and to independently redetermine its commercial strategy. With its decision no. 27112 of April 11, 2018, AGCM (the Italian Competition Authority) confirmed the precautionary measure.

On June 12, 2018, TIM filed an appeal with the TAR for the quashing of said measure.

On January 31, 2020, TIM was notified of the decision to close the investigation, in which AGCM (the Italian Competition Authority) confirmed the existence of the agreement between Telecom, Vodafone, Fastweb, Wind Tre, but excluding Asstel from participation in the agreement. The fine imposed on TIM for participation in the anti-competitive agreement was 114,398,325 euros. In April 2020, TIM also challenged the sanction order.

In a ruling published on July 12, 2021, the Lazio Regional Administrative Court upheld the petition and the grounds added and submitted by TIM, canceling the measures taken by AGCM (the Italian Competition Authority), including that relating to the existence of the agreement and application of the sanction.

On September 11, 2021, AGCM (the Italian Competition Authority) presented a petition to the Council of State, requesting the cancellation of the judgment given by the regional administrative court; following the hearing for discussion held on January 26, 2023, we are currently awaiting decision.

Antitrust Case I850

By decision given on December 15, 2020, AGCM (the Italian Competition Authority) started an investigation in regard to the company Telecom Italia S.p.A., Fastweb S.p.A., Teemo Bidco S.r.l., FiberCop S.p.A., Tiscali Italia S.p.A. and KKR & Co. Inc., to ascertain the existence of any breaches of article 101 of the TFEU in relation to the coinvestment offer.

More specifically, the investigation regards the contracts governing the establishment and operation of FiberCop and the supply agreements with Fastweb and Tiscali. AGCM (the Italian Competition Authority) intends to verify that such agreements do not hinder competition between operators in the medium and long-term and assure the rapid modernization of the country's fixed telecommunications infrastructures.

On August 6, 2021, TIM submitted a proposal of undertakings to AGCM (the Italian Competition Authority) in order to resolve the competition concerns subject of the investigation and close the proceedings without any sanction being applied.

On September 7, 2021, AGCM (the Italian Competition Authority) judged these commitments to not be clearly unfounded and ruled publication on the Authority's website from September 13, 2021; thus market testing began and was completed by October 13, 2021, the date by which all subjects so wishing submitted their observations to AGCM in respect of the relevant commitments.

On December 14, 2021 AGCM (the Italian Competition Authority) extended the deadline for the conclusion of the proceedings, initially set for December 31, 2021, to February 15, 2022.

Precisely during the meeting held on February 15, 2022, AGCM (the Italian Competition Authority) finally resolved to approve the commitments insofar as they were considered suitable to eliminate the alleged anti-competition aspects investigated.

As envisaged by the final ruling, on April 22, 2022, TIM sent AGCM a first report on the measures taken to fulfill the commitments made.

On May 11, 2022, AGCM notified TIM of its acknowledgment of the measures presented in such report.

On January 31, 2023 TIM sent AGCM (the Italian Competition Authority) a second report on the implementation of the undertakings given.

By petition notified in April 2022. Open Fiber has challenged the above AGCM provision no. 3002, whereby the proceedings were closed, before the regional administrative court of Lazio; the petitioner believes that the commitments, made mandatory by the closure, are not sufficient to remove the anticompetitive aspects identified at the start of proceedings.

Upon completion of the interim hearing of last June 1, the regional administrative court rejected the request and scheduled the merits hearing for January 25, 2023. At the January 26 hearing, after extensive discussion, the judge reserved the right to deliberate.

Antitrust Case I857

On July 6, 2021, AGCM (the Italian Competition Authority) started an investigation in regard to TIM and DAZN for a possible understanding reached with a view to restricting competition in connection with the agreement for the distribution and technological support for TV rights for Serie A football in the 2021-2024 period.

The investigation also aims to verify the restrictive nature of the understanding with reference to additional elements regarding the possible adoption by TIM of technical solutions not available for competitor telecommunications operators and which may effectively hinder the adoption of their own technological solutions.

At the same time, the Authority has also initiated proceedings for the potential adoption of protective measures.

By resolution passed on July 27, 2021, AGCM (the Italian Competition Authority) closed the interim proceedings, considering that the initiatives and amendments to the agreement proposed by TIM and DAZN in the meantime are presently able to prevent any serious and irreparable damage to competitors while investigations are completed.

Indeed, said measures aim, as a whole, to avoid possible discrimination in the use of the DAZN service, due to its activation by users using Internet connection services other than those offered by TIM. In addition, the agreement between TIM and DAZN has been amended to guarantee DAZN complete freedom in applying discounts and promotions. TIM has also undertaken to provide DAZN with a sufficient number of white label set-top-boxes to also guarantee DAZN customers the viewing of matches over digital terrestrial TV, in the event of connection problems.

Finally, TIM has undertaken to supply wholesale services to OAOs interested therein to manage traffic peaks deriving from live data transmissions, regardless of the type of content transmitted.

On October 29, 2021 TIM submitted a proposal for undertakings to AGCM (the Italian Competition Authority) with a view to resolving the competitive concerns that were the subject of the investigation and closing the proceedings without the finding of any infringement and therefore without any sanction being applied.

On December 14, 2021, AGCM (the Italian Competition Authority) approved the publication of the aforementioned proposal for undertakings on the Authority's website, as these undertakings, taken as a whole, do not appear to be manifestly unfounded and are capable of removing the restrictions to competition hypothesized in the measure initiating the investigation in question.

On January 5, 2022, with the publication on the AGCM website, market testing began.

The deadline for rebuttal arguments and proposing any accessory amendments to the commitments presented by TIM and DAZN is scheduled for March 7.

On February 23, 2022, TIM and DAZN were convened separately to the AGCM offices. During the hearing, the Offices informed TIM - and thereafter confirmed this in the hearing meetings - that in a hearing held on February 15, the Board deemed it necessary to make certain "accessory" changes in order to approve the commitments submitted.

On March 4, 2022, TIM and DAZN requested an extension of the deadline for the submission of observations, also in view of the new aspects that had emerged on February 23. The new deadline was set as March 23.

On March 22, 2022, TIM informed the Authority that the additional changes considered necessary by the Board to approve the commitments would have entailed a complete overhaul of the contents and economic balance of the agreements signed by TIM and DAZN, such as to make it no longer possible to pursue the hypothesized business model. At the same time, TIM informed the Authority of the start of negotiations with DAZN possibly concerning the revision of the distribution exclusivity clause, which was the main object of the Authority's investigation. Considering the complexity of negotiations, TIM requested an extension of another 30 days for submission of observations. The extension was authorized and the new deadline set as April 23.

On April 20, 2022, in consideration of the extension of negotiations, also due to the complexity and economic relevance of that being negotiated, DAZN and TIM requested an additional extension. The new deadline was set as May 9.

On May 9, 2022, TIM informed the Authority that it had declared willing to DAZN to waive the exclusivity of the distribution of Serie A football rights, as currently regulated by the Deal Memo, with DAZN consequently having the faculty to distribute such rights also through third party operators and that, in exchange for the willingness to waive this right, the Parties had begun negotiations for a review of the contracted economic commitment envisaged by TIM.

On June 7, 2022, the Authority ruled on the rejection of the commitments submitted, which "would appear, both where considered comprehensively and individually, to be unable to eliminate the anticompetitive aspects identified in the resolution that started the proceedings, insofar as they do not resolve the competition concerns highlighted in the initial proceedings, where not translated into shared contractual amendments such as to eliminate the critical competition issues" highlighted by the Authority.

Again on June 7, 2022, the Authority ruled on the deferral of the deadline for the conclusion of proceedings to March 31, 2023.

On August 2, 2022, TIM informed the Antitrust Authority that it had reached a new agreement with DAZN, under which the latter has the faculty to distribute football rights through any third party, surpassing the previous system of exclusivity in TIM's favor.

On January 20, 2023, notification was given of the investigation results (CRI).

AGCM (the Italian Competition Authority) believes that the agreement reached on January 27, 2021 (the "Deal Memo") had contents and resulted in effects that reduced competition for its entire duration (and therefore until stipulation of the new agreement on August 3, 2022).

On January 31, 2023, AGCM (the Italian Competition Authority) resolved to extend the deadline for conclusion of the proceedings until May 31, 2023.

TIM will be able to submit its defense brief by March 28, while the final hearing before the authority has been scheduled for April 4, 2023.

Antitrust Case A556

On November 30, 2022, AGCM (the Italian Competition Authority) started proceedings against TIM in order to verify the existence of an abuse of a dominant position in breach of Art. 3 of Law no. 287/90.

The proceedings stem from a report made by Fastweb concerning TIM's refusal to grant Fastweb its radio mobile signal coverage maps that had been requested in order to take part in the "Open tender for mobile telephone services for public authorities - Edition 9 - Sigef ID 2452" (Consip TM9 tender).

The authority simultaneously also launched precautionary sub-proceedings in accordance with Article 14-bis of Law No. 287/1990, aiming to verifying the existence of precautionary measures aiming to protect competition.

On December 20, 2022, the authority resolved that there were no grounds on which to take precautionary measures, in accordance with Art. 14-bis of Law no. 287/90 and thus closed the precautionary sub-proceedings, rejecting Fastweb's appeal.

Completion of the main proceedings has instead been scheduled for the coming December 1, 2023.

Antitrust Case PS 10888 "TIM Passepartout"

On June 15, 2021, AGCM (the Italian Competition Authority) initiated proceedings against TIM for unfair commercial practice concerning the lack of transparency of the information provided by the TIM Passepartout payment management platform and alleged activations of services not requested. Although firmly convinced of the lawful nature of its conduct, on July 29, 2021, TIM chose to submit undertakings with corrective measures. The undertakings submitted consist of improving information aspects noted as falling short of expectations of the TIM Passepartout platform (only operative for customer base offers) and in implementing a communication campaign aimed at making contact with customers not acknowledging charges for services not requested, to see if conditions are met for refund. The Authority has accepted the commitments made by TIM hence the proceedings have now concluded without any assessment of the alleged unfair conduct and application of the sanction.

Antitrust Case PS 12231 "TIM fixed offers" (Premium, Executive, Magnifica)

On December 22, 2021, AGCM (the Italian Competition Authority) started proceedings against TIM for unfair commercial practices reported by Iliad S.p.A. concerning the alleged failure to provide information on the consumption of the voice component of the Premium and Executive fixed offers and technical limits correlated

with the method being tried out of the Magnifica fixed offer. Although convinced that its conduct was correct, on February 23, 2022, TIM submitted undertakings, implemented since March 2022, that overcame the technical limits disputed for the Magnifica offer on trial, improved transparency of information on the consumption components of the Premium and Executive offers and defined a communication campaign focused on customers not acknowledging charges for consumption in the voice component, so as to assess whether or not conditions are met for refund. The Authority has rejected the commitments but considered that the measures implemented by TIM were able to cease the conduct disputed. On November 2, 2022, the authority resolved to conclude the proceedings, fining TIM 1 million euros.

Antitrust Case PS 12304 "Anomalous billing"

On April 28, 2022, AGCM (the Italian Competition Authority) initiated proceedings against TIM for unfair commercial practice, challenging alleged undue billing following a request to terminate the line, including cases of switch to another operator, with reference to fixed and mobile telephony. Although convinced of the diligence of its conduct, TIM has decided to implement a series of measures to make the procedures for terminating contract, and, therefore, the related billing, even more efficient and transparent. The completion of the proceedings was postponed until March 24, 2023. Similar proceedings have been brought by the authority against the main communication operators.

Antitrust Case PS 12384 "Additional giga"

On August 5, 2022, AGCM (the Italian Competition Authority) initiated proceedings against TIM for unfair commercial practice reported by various consumers, challenging the alleged incorrect application of art. 65 of Italian Legislative Decree no. 206 of September 6, 2005 for an alleged additional service (giga) present in the mobile maneuver offer with effect from September 1, 2022. At the same time as the tariff remodulation maneuver, TIM also gave the consumer the option of choosing to keep the pre-existing offer, also in compliance with the guidance given by the Council of State (Judgment no. 8024/2019). On March 3, 2023, the authority resolved to conclude the proceedings, fining TIM 2.1 million euros.

Universal Service

In a decision published in July 2015, the Council of State rejected the appeal lodged by AGCom and TIM against the judgment of the Lazio Administrative Court (TAR) on the financing of the universal service obligations for the period 1999–2003. With this judgment the judge had granted the appeals by Vodafone, annulling AGCom decisions 106, 107, 109/11/CONS on the renewal of the related proceedings, which included Vodafone among the subjects required to contribute, for a sum of approximately 38 million euros. Essentially, the judgment confirms that the Authority has not demonstrated the particular degree of "replaceability" between fixed and mobile telephony for mobile operators to be included among the subjects required to repay the cost of the universal service, which means that AGCom needs to issue a new ruling. TIM has filed an application with AGCom to renew the proceedings, and an appeal against the judgment of the Court of Appeal to the Court of Cassation (which subsequently ruled that the appeal was inadmissible).

In April 2016 Vodafone appealed against the Ministry of Economic Development (MISE) and TIM to the Council of State, for non-compliance with the judgment of the Council of State. This appeal referred to AGCom decision 109/11/CONS (2003 yearly payment, on the basis of which Vodafone had paid the sum of approximately 9 million euros as contribution, restitution of which was requested).

In its judgment of November 2016, the Council of State rejected the appeal, referring to the Regional Administrative Court (TAR) the decision on the methods of compliance. In February 2017, Vodafone presented the Lazio Regional Administrative Court with four new appeals against the Ministry of Economic Development and TIM regarding observance of the ruling, upheld on appeal, countermanding the resolutions for the years 1999–2003 and repayment of the aforesaid amounts of around 38 million euros already paid to the Ministry of Economic Development as a contribution.

With a judgment issued in June 2018, the TAR rejected all of Vodafone's appeals for observance, and, as requested by TIM, expressly affirmed that AGCom must renew the proceedings, particularly with regard to the determination of the degree of replaceability between fixed and mobile telephony. Vodafone challenged the four judgments before the Council of State, which, with a decision of October 2019, upheld Vodafone's appeal and confirmed the restitutory obligation of the sums in question applicable to TIM.

With resolution no. 263/20/CIR, AGCom started proceedings to renew the investigation into the iniquity of the net cost of the universal service for 1999-2009 and the allocation of contribution expenses. Vodafone has challenged this resolution before the Regional Administrative Court. The renewal proceedings concluded with resolution 18/21/CIR, which substantively confirmed the draft order. This same resolution has only been challenged before the regional administrative court by TIM for the years 1999 and 2000, while Vodafone, Wind and Fastweb have challenged the resolution for all years concerned with opposite grounds. By judgments published in February 2022, resolution 18/21/CIR was partially canceled; indeed, the regional administrative court has rejected the main complaint reporting the lack of power of renovation and upheld only the grounds hinged on the alleged unreasonable nature of the threshold envisaged by AGCOM for the analysis of iniquity second facie. Fastweb, Vodafone, Wind, AGCom and TIM have appealed to the Council of State against the judgment of the regional administrative court and the related hearings of the merits have been scheduled for April 4 and 27, 2023.

Dispute relating to "Adjustments on license fees" for the years 1994-1998

With regard to the judgments sought in previous years concerning the Ministry of Communications' request for payment of the balance of the amounts paid in concession charges for the years 1994-1998 (for a total of 113 million euros), the Lazio Regional Administrative Court (TAR) rejected the Company's appeal against the request for adjustment of the license fee for 1994 in the amount of approximately 11 million euros, 9 million euros of which against turnover not received due to bad debts. TIM lodged an appeal. On the outcome of proceedings, with the ruling of December 2019, the Council of State partially accepted TIM's position, establishing the principle, according to which, the receivables referring to 1994 not collected for reasons not attributable to the operator, could have been deducted from the tax base for calculating the concession fee. As the Ministry of Economic Development has not followed up on TIM's requests aimed at obtaining fulfillment

of the judgment, TIM has submitted a further petition to the Council of State for failure to execute the judgment, but with judgment given in April 2022, the request for compliance brought by TIM was rejected. TIM has appealed for revocation of this judgment to the Council of State; the hearing has been scheduled for March 23, 2023.

With two further judgments the Lazio Regional Administrative Court (TAR), reiterating the reasons expressed previously, also rejected the appeals in which the Company challenged the requests for payment of outstanding balances of license fees for the years 1995 and 1996-1997-1998, in the amount of approximately 46 million euros. TIM has appealed before the Council of State also against these judgments. By judgment published in April 2022, the Council of State stressed the principles already set for 1994, namely that receivables that have become uncollectable for reasons not the fault of the operator, correctly handled in the accounts, on the financial statements and in terms of tax, can be deducted from the tax base for calculating the concession fee.

With reference to the 1998 fee adjustment (equal to about 41 million euros), the Lazio TAR, by TAR order of December 2018, suspended the judgment, raising preliminary questions with the EU Court of Justice on the correct scope of EC Directive no. 97/13 (in the matter of general authorizations and individual licenses in the field of telecommunications services on the basis of the currently pending litigation on the 1998 license fee, currently pending before the Rome Court of Appeal and illustrated in a subsequent paragraph).

The referred questions were based, inter alia, on the question posed to the Court of Justice on the possible conflict between the aforementioned EC Directive 97/13 and national law, which extended the obligation for telecommunications license-holders to pay the license fee for 1998 (commensurate with a portion of turnover), despite the liberalization process underway. In its judgment of March 2020, the EU Court of Justice held that the EU regulatory system must be interpreted as not allowing national legislation to extend to 1998 the obligation imposed on a telecommunications undertaking that was previously the concession holder (such as TIM) to pay a fee calculated on the basis of turnover and not only the administrative costs connected with the granting, management, control and implementation of the general authorizations and individual licenses scheme. The Court held, inter alia, that the Council of State – having held in its judgment 7506/2009 that the fee imposed for 1998 on TIM, the holder of an authorization existing on the date of entry into force of Directive 97/13, was due – interpreted national law in a way that was incompatible with EU law, as interpreted by the Court in its judgment of February 21, 2008. Following the judgment of the EU Court of Justice, the opinion on the final calculation of the 1998 charges was summarized before the Lazio Regional Administrative Court, which, in a judgment given last February, declared TIM’s appeal as unacceptable for procedural reasons, namely due to the prevalence of the formal ruling consisting of judgment no. 7506/09; in substantive terms, on the other hand, the judgment of the EU Court of Justice once again ascertained the European Community unlawful nature of the credit claim by the PA to obtain payment of the 1998 charges and, consequently, the final balance. The company has challenged the judgment of the Lazio Regional Administrative Court.

Poste

There are some pending disputes brought, at the end of the '90s, by Ing. C. Olivetti & C. S.p.A. (now TIM) against Poste, the Italian postal service, concerning non-payment of services delivered under a series of contracts to supply IT goods and services. The judgments issued in the lower courts established an outcome that was partially favorable to the ex-Olivetti, and have been appealed against by Poste in individual rehearings.

In this respect, while a 2009 judgment of the Rome Appeal Court confirmed one of the outstanding payables to TIM, another judgment by the same Court declared void one of the disputed contracts. After this judgment, Poste had issued a writ for the return of approximately 58 million euros, opposed by TIM given that the judgment of the Supreme Court for amendment of the above judgment is still pending.

After the 2012 judgment of the Supreme Court that quashed and remanded the decision of the Appeal Court on which the order was based, the Rome Court declared that the matter of issue in the enforcement proceedings was discontinued, since the claim made by Poste had been rejected. The judgment was resubmitted to another section of the Rome Appeal Court. In ruling no. 563 of January 25, 2019, the Rome Court of Appeal at the time of proceedings, reversing the Company's previous unfavorable appeal, confirmed the contract's validity and, with it, the legitimacy of TIM's view of the amount already collected, of which Poste had requested reimbursement. This ruling was challenged by Poste with appeal filed with the Court of Cassation, notified on July 31, 2019, which TIM challenged with relevant counter appeal.

Elinet S.p.A. Bankruptcy

In 2014, the receiver of Elinet S.p.A., and subsequently the receivers of Elitel S.r.l. and Elitel Telecom S.p.A. (the parent, at the time, of the Elitel group) appealed the judgment by which the Court of Rome dismissed the damages claim brought by the receivers of the Elinet-Elitel group, filing a new damages claim for a total of 282 million euros. The Company is alleged to have exercised management and control powers over the plaintiff, and, with it, over the Elitel group (an OLO in which TIM has never held any equity interest) through the management of trade receivables. TIM filed an appearance, challenging the claims made by the other party. The judgment on the appeal was handed down with ruling in July 2019, which with reference to TIM confirmed full legality of its conduct and total non-existence of any element of direction and coordination. The receivers of Elinet S.p.A. and Elitel Telecom S.p.A. appealed to the Court of Cassation in January 2020 to obtain the annulment of the judgment in the second instance. The receiver of Elitel S.r.l. has not filed an appeal with the Court of Cassation and, consequently, the total claim for damages has been reduced to 244 million euros. TIM notified a counterclaim asking confirmation of the ruling appealed against. The Court has scheduled the hearing in chambers for February 3, 2023.

Brazil - Opportunity Arbitration

In May 2012, TIM and Telecom Italia International N.V. (now merged in Telecom Italia Finance) were served with a notice of arbitration proceedings brought by the Opportunity group, claiming compensation for damages allegedly suffered for presumed breach of a settlement agreement signed in 2005. Based on the claimant’s allegations, the damages relate to circumstances that emerged in the criminal proceedings pending before the Milan Court regarding, *inter alia*, unlawful activities engaged in by former employees of TIM.

The investigatory phase having been completed, the hearing for oral discussion took place in November 2014, after which the parties filed their concluding arguments in preparation for the decision on the case.

In September 2015, the Board of Arbitration declared the proceedings closed, as the award was going to be filed.

In September 2016 the ICC Court notified the parties of its judgment, based on which the Court of Arbitration rejected all the claims made by the Opportunity group and decided that the legal costs, administrative costs and costs for expert witnesses should be split between the parties (the "2016 Arbitration Award").

In April 2017 the Opportunity group filed an appeal against the 2016 Arbitration Award before the Paris Court of Appeal.

In November 2017, TIM and Telecom Italia Finance received from the Secretariat of the ICC's International Court of Arbitration notice of a Request for Revision of the 2016 Arbitration Award, filed by the Opportunity group, asking for a new award. A Board of Arbitration was subsequently established.

In October 2018, TIM and Telecom Italia Finance requested proceedings with the Paris Court of Appeal to be suspended, in the light of proceedings pending with the Court of Arbitration of the International Chamber of Commerce to review the same 2016 Arbitration Award. In November 2018, the Paris Court of Appeal suspended the proceedings until the decision is taken by the Court of Arbitration in the review proceedings.

As regards the proceedings to review the 2016 Arbitration Award, in October 2019 the ICC held the discussion hearing in Paris. In August 2020, the Arbitration Court issued the award rejecting the Request for Revision presented by the Opportunity Group (the "2020 Arbitration Award"). In December 2020, the Opportunity group filed an appeal against the 2020 Arbitration Award before the Paris Court of Appeal. In May 2021 the Opportunity group asked the Paris Court of Appeal to summarize the proceedings brought against the 2016 Arbitration Award. Thereafter, the Opportunity Group, TIM and Telecom Italia Finance filed their briefs in the two proceedings pending before the Paris Court of Appeal, respectively against the 2016 Award and the 2020 Award. The Court of Appeal has scheduled the hearing for discussion of both proceedings for June 5, 2023.

Iliad

By summons served during the first quarter of 2020, Iliad Italia S.p.A. sued TIM before the Court of Milan for alleged anti-competitive conduct, including through the Kena Mobile brand, which was allegedly aimed at hindering its entry to and consolidation in the mobile phone market in Italy, seeking damages of at least 71.4 million euros.

TIM filed an appearance, fully disputing the requests of Iliad Italia S.p.A.; and, in turn, submitting a counterclaim in accordance with Art. 2598 of the Italian Civil Code, with reference to the denigration implemented by Iliad Italia S.p.A. in regard to TIM and formulating a symmetrical claim for compensation for damages. In the first preliminary brief, Iliad updated its claim for damages, taking it to 242.8 million euros. Following the hearing for the specification of the parties' pleadings, held with written discussion, the court deferred the hearing for decision, assigning deadlines for submitting the closing arguments and statements of defense.

Iliad

By writ of summons notified in September 2021, Iliad Italia S.p.A. summonsed TIM before the Court of Milan for the alleged application to customers of unlawful contractual conditions in terms of time limits and economic costs for withdrawal with reference to mobile and fixed telephone offers, with a consequent petition to order TIM to compensate damages, currently quantified as 120.4 million euros. On February 1, 2022, the first hearing was held and the terms assigned for the briefs pursuant to article 183, subsection VI of the Italian Code of Civil Procedure. The hearing for discussion of the evidence has been postponed to April 5, 2023.

T-Power

By writ of summons notified in December 2021, T-Power s.r.l., former agent for the consumer sector, summonsed TIM before the Court of Rome to have the right acknowledged to receive payment of a total maximum amount of approximately 85 million euros by way of commission, compensation in lieu of notice and termination of employment, as well as compensation for damages. The disputed ended in December 2022 with a settlement.

Fastweb (Ethernet ATM migration)

By writ of summons notified in December 2021, TIM summonsed Fastweb before the Court of Milan, asking that it be ascertained and declared that Fastweb had not achieved the minimum objectives of migration from ATM bitstream technology to Ethernet bitstream technology in any of the 30 Collection Areas into which the national territory is divided by the deadline envisaged by industry regulation and the migration plan agreed by the parties; and therefore that it ascertain and declare that Telecom is entitled to: (a) reverse the economic benefits relating to this migration granted retroactively from 4/12/2016 to Fastweb and (b) obtain from Fastweb the prices for the ATM bandwidth envisaged by the contract stipulated by the parties and the current OR in force ratione temporis; (c) therefore declare and order Fastweb to pay Telecom the total amount of 79,240,329.47 euros (or other amount, potentially greater, as may be assessed during the course of proceedings).

Fastweb filed an appearance and submitted a counterclaim for abuse of a dominant market position and breach of contract. Fastweb's application is essentially based on alleged delays in the development of Ethernet coverage. The counterparty complains of damages of around 81.4 million euros. Having noted that the counterclaim made by Fastweb would appear to go beyond the profile of breach of contract and that, in this case, the specialized business chambers may be competent to judge the matter, the investigating judge has returned the case to the Chambers President for due consideration. The Chambers President has submitted the case to the President of the specialized business chambers. The first hearing is scheduled for December 14, 2022. The hearing for the admission of the preliminary motions has been postponed to June 13, 2023.

Wind Tre (INWIT)

By writ of summons notified in July 2022, Wind Tre summonsed TIM, INWIT and Vodafone to trial before the Court of Milan, asking that it ascertain the obstructive conduct of INWIT, seeking to prevent Wind Tre from upgrading the devices of its mobile network currently located at INWIT sites on the basis of the hosting contracts currently in force inter partes. Such conduct would constitute breach of contract and unlawful exploitation of the dominant position in accordance with Art. 3 of the Antitrust Law as well as unfair competition by third party also perpetrated in the form of secondary boycotting by INWIT S.p.A., TIM S.p.A. and Vodafone Italia S.p.A.. The opposing party asks the Court to ascertain and declare INWIT S.p.A., TIM S.p.A. and Vodafone Italia S.p.A. jointly liable to compensate the damages suffered by Wind Tre as a result of such unlawful acts, to be quantified as 50 million euros. The first hearing is scheduled for March 1, 2023. On January 9, 2023, Wind Tre withdrew the appeal against INWIT, Vodafone and TIM and the proceedings were extinguished.

Iliad (INWIT)

By writ of summons notified in July 2022, Iliad Italia S.p.A. summonsed Telecom, Vodafone and Infrastrutture Wireless Italiane S.p.A. ("INWIT") before the Court of Milan to assess the alleged unlawful conduct of INWIT, Telecom and Vodafone, consisting of refusal to allow Iliad to upgrade its mobile telephone transmission systems installed on INWIT-owned infrastructures. As a result of this conduct, Iliad has asked that Telecom be ordered, together with INWIT and Vodafone, to compensate the damages allegedly suffered, which it has reserved the right to quantify during the course of proceedings. The first hearing is scheduled for February 28, 2023.

b) Other information

Mobile telephony - criminal proceedings

In March 2012 TIM was served notice of the conclusion of the preliminary inquiries, which showed that the Company was being investigated by the Public Prosecutor of Milan pursuant to the Legislative Decree n. 231/2001, for the offenses of handling stolen goods and counterfeiting committed, according to the alleged allegations, by fourteen employees of the so-called "ethnic channel", with the participation of a number of dealers, for the purpose of obtaining undeserved commissions from TIM.

The Company, as the injured party damaged by such conduct, had brought two legal actions in 2008 and 2009 and had proceeded to suspend the employees involved in the criminal proceedings (suspension later followed by dismissal). It has also filed an initial statement of defense, together with a technical report by its own expert, requesting that the proceedings against it be suspended, and that charges of aggravated fraud against the Company be brought against the other defendants. In December 2012, the Public Prosecutor's Office filed a request for 89 defendants and the Company itself to be committed for trial.

During the preliminary hearing, the Company was admitted as civil party to the trial and, in November 2013, the conclusions in the interest of the civil party were filed, reaffirming TIM's total lack of involvement in the offenses claimed.

At the end of the preliminary hearing, which took place in March 2014, the Judge for the Preliminary Hearing committed for trial all the defendants (including TIM) who had not asked for their situation to be settled with alternative procedures, on the grounds that "examination in a trial" was needed. In April 2016, at the end of the first part of the trial, the Public Prosecutor asked for TIM to be sentenced to pay an administrative fine of 900 thousand euros, but decided not to ask for confiscation of any of the presumed profits of the offenses (quantified in the committal proceedings as totaling several million euros), based on the assumption that TIM had in any event remedied the presumed organizational inadequacies. While acknowledging the considerable redimensioning of the accusations, the Company has reiterated its total non-involvement in the facts at issue. In November 2016 the Court gave a verdict acquitting the Company on the grounds that there was no case to answer. All the individuals charged were also acquitted on various grounds.

The Public Prosecutor appealed the acquittal and appealed to the Court of Cassation "per saltum". In January 2019, the Italian Supreme Court of Cassation agreed to the appeal and therefore ordered that the documents of the proceedings be sent to the Milan Court of Appeal.

The proceedings were assigned to Chambers IV of the Milan Court of Appeal and started in May 2022; they concluded in October.

Upon completion of the phase, the Court of Appeal confirmed the judgment challenged, repeating the acquittal of TIM and dismissing the requests for sentencing of the General Prosecutor's Office in regard to the Company.

The Court also set a deadline of 15 days for filing the grounds.

Dispute concerning the license fees for 1998

TIM has summoned the Prime Minister's Office to appear in a civil suit for compensation for damages caused by the Italian State through appeal ruling 7506/09, handed down by the Council of State in breach, in the view of the Company, of Community law.

The main claim which the proceedings are founded on is based on community jurisprudence that recognizes the right to assert the responsibility of the State in relation to violation of rights recognized in community law and injured by a judgment that has become definitive, in respect of which no other remedy may be applied. The judgment of the Council of State definitively denied TIM the right to obtain restitution of the concession charge for 1998 (totaling 386 million euros for Telecom Italia and 143 million euros for the former TIM Company, plus interest), already denied by the Lazio regional administrative court despite the favorable and binding opinion of the European Court of Justice in February 2008. This judgment concerned the conflict between EC Directive 97/13 on general authorizations and individual licenses in the telecommunications services industry, and the national regulations that had deferred, for 1998, the obligation to pay the fee payable by telecommunications concession holders, despite the intervening deregulation process. The

Company then proposed an alternative compensation claim, within the sphere of the same proceedings, for tort pursuant to art. 2043 of the Italian Civil Code. The compensation claimed has been quantified as approximately 529 million euros, plus legal interest and revaluation. The Avvocatura di Stato filed an appearance and submitted a counterclaim for the same sum. The case is subject to eligibility analysis by the Court, which declared the inadmissibility of TIM's main claim (case for damages for manifest breach of community law pursuant to law 117/88). However, this decision was amended in favor of the Company on appeal. In March 2015 the Rome Court issued its judgment in the first instance, declaring the Company's application inadmissible.

In 2015, TIM has appealed the decision, and the case is now pending the hearing specifying the nature of the forms of order sought. The Court of Appeal has scheduled the hearing for closing arguments for April 2, 2019. Thereafter, without any new procedural activities having taken place, the Court of Appeal incontrovertibly deferred the hearing for closing arguments first to 2020 and then to 2021 (from when the terms for conclusion and replies shall run, which will be followed shortly thereafter by the issue of the judgment). These deferrals were followed by the latest, of January 15, 2021, scheduling the new hearing for January 25, 2022.

On the matters underlying the case, the following must be noted:

- on the considered lack of jurisdiction of the Court of Rome (concerned by the judgment of the Court of Rome appealed by TIM) to judge the liability of the Italian government for the work of senior magistrates (in the case in point, the Council of State), which would have led to the declared inadmissibility of the claim in accordance with Art. 5, law no. 117/1978 (old text) - the United Chambers of the Court of Cassation ruled with judgment no. 14842 on June 7, 2018, confirming the jurisdiction of the Court of Rome and, therefore, the correctness of TIM's choice to base its lawsuit in the Court of Rome;
- on the unlawful nature of the conduct of the Italian government - and, therefore, on the liability of the State-Court in accordance with Law no. 117/1998 - once again, the EU Court of Justice has ruled, deciding on the prejudicial matter raised by the Lazio TAR in other, connected proceedings, in its judgment given on March 4, 2020 in C-34/19, stressing that TIM was not required to pay the charges demanded by the State for 1998 and, therefore, confirming the clear violation by the Council of State of European Community law (also because in clear conflict with the decision already given by the EU Court of Justice on February 21, 2008 in C-296/06, as, moreover, already ruled by the Court of Appeal of Rome, Chambers I, in Decree of January 31, 2012, which sanctioned the procedural admissibility of TIM's lawsuit);
- on the matter of the right to repeat the charges paid for 1998 - the Court of Cassation ruled in its judgment no. 18603 given on September 7, 2020, rejecting the appeal brought by the Presidency of the Council against the judgment whereby the Court of Appeal of Rome had upheld the claim for compensation made by Vodafone (payment of charges for 1998) for the same title in separate proceedings.

In short, the company paid the charges disputed in 1998; it promptly challenged the administrative provision that had unfairly required said payment, before the administrative court; the administrative proceedings before the Council of State concluded negatively in 2009 (despite the recalled opposite judgment of the European Court of Justice); the civil proceedings of first instance concluded in March 2015 with a judgment of rejection for grounds of admissibility (then solved in the sense indicated by the company with the referenced judgment of Cassation in United Chambers no. 14842/18) and more than 6 years after the first instance judgment - going from deferral to deferral - the appeal judgment (that could only uphold the mentioned judgments of the Court of Justice and the Court of Cassation) has not yet been issued (nor, on the basis of these repeated deferrals, can the company forecast when it will be given).

The company is examining the various scenarios and legal claims (national, European Community, etc.) that may contribute towards defining the appeal dispute. It is considered, in fact, that the principles of the reasonable duration of the trial, in accordance with subsection 2 of article 111 of the Constitution and in accordance with article 6 of the European Convention on Human Rights, are violated by these events, considering: (i) the year in which payment was made of the undue charges is 1998; (ii) the value of these charges is approximately 529 million euros plus interest from that date; (iii) the extremely long procedural process has not even led to an appeal judgment (started in 2015 and with an unpredictable conclusion, given the continuous deferrals); (iv) the circumstance that the legal matter appears to be readily able to be settled, as not one but two judgments have already been given by the EU Court of Justice declaring payment of the charges to be incompatible with European Community legislation (judgments that have currently been ignored by the national court).

As part of the aforementioned analyzes aimed at reaching a definition of the appeal sentence, it should be pointed out that on January 25, 2021 the Company filed a request with the Rome Court of Appeal to bring forward the hearing (postponed, as mentioned, to January 25, 2022) in order to avoid yet another postponement of the case, which, as we know, concerns the non-compliance with two inter partes decisions, on the same matter, by the Court of Justice of the European Union for a clear violation of European law by the State-Judge. With a ruling on February 8, 2021, the Rome Court of Appeal (second section specializing in corporate matters) deemed it could grant the request for an advance ruling, setting the hearing for November 30, 2021. On that date the case was taken to decision with the assignment of the legal terms for closing statements and replies. By order of 2/22/2022, having acknowledged that one of its members had chosen to abstain, the Board re-submitted the case, arranging for the deeds to be sent onto the President of the Court of Appeal. On March 4, 2022, the case was reassigned to another judge. By judgment of March 31, 2022, the Board scheduled the hearing for December 1, 2022 for closing arguments. The Board has deferred the case to the hearing of January 19, 2023 for verbal discussion. Following the request made by the State advocacy, the case was deferred to the hearing of March 9, 2023.

TIM S.A. - Arbitration proceedings no. 28/2021/SEC8

In March 2020, TIM S.A. concluded negotiations with C6 and, in April 2020, launched exclusive offers for TIM customers who had opened C6 bank accounts and used their services. As compensation for this contract, TIM S.A. receives commission for each account activated, as well as the option of obtaining an investment in the bank upon achieving certain targets connected to the number of active accounts.

The number of shares received for each target achieved varies throughout the contract term, with the initial percentages being more advantageous for TIM due to the greater effort required for a new digital company to take off.

Even with the project's success, differences between the partners resulted in the initiation of arbitration proceedings in 2021.

Arbitration proceedings no. 28/2021/SEC8 were filed with the Arbitration and Mediation Center of the Brazil-Canada Chamber of Commerce, by TIM S.A. against Banco C6 S.A., Carbon Holding Financeira S.A. and Carbon Holding S.A. through which the interpretation will be discussed of certain clauses of the contracts governing the partnership. In the event of losing, the partnership may be dissolved.

TIM S.A. - Arbitration proceedings connected with the acquisition of the Oi Group mobile telephone assets

On September 19, 2022, TIM S.A., the Brazilian subsidiary of the TIM Group, reported that the Buyers (TIM S.A., Telefônica Brasil S.A. and Claro S.A.) of the mobile telephone assets of Oi Móvel S.A. (the "Seller") had identified differences in the assumptions and calculation criteria, that, under the Share Purchase Agreement and Other Covenants ("SPA") justified proposing an amendment of the Adjusted Closing Price ("ACP") by TIM of approximately 1.4 billion reais. In addition to differences relating to the Adjusted Closing Price, others have also been identified relating to the contracts of Cozani (the company into which TIM S.A.'s share of the assets, rights and obligations of the Oi Móvel mobile telephone business, flowed) with companies supplying mobile infrastructure services (site/tower rental), which, under the terms of the SPA, give rise to indemnity by the Seller in TIM S.A.'s favor, of approximately 231 million reais. As a result of the differences found, TIM S.A. retained an amount of 634 million reais (671 million reais at December 31, 2022).

On October 3, 2022, considering the Seller's express violation of the dispute resolution mechanisms provided for in the SPA, TIM S.A. communicated that the Buyers had no other alternative but to file an arbitration procedure with the Market Arbitration Chamber (Câmara de Arbitragem do Mercado) of B3 S.A. - Brasil, Bolsa, Balcão against the Seller to determine the effective amount of the adjustment to the Adjusted Closing Price, in accordance with the SPA.

On October 4, 2022, TIM S.A. was surprised by news published by the press and by a Material Fact released by the Seller that a preliminary decision had been handed down by the 7th Business Court of the Judicial District of Rio de Janeiro determining the deposit in court by the Buyers of approximately 1.53 billion reais – of which approximately 670 million reais by TIM S.A. – in an account linked to the court-ordered reorganization process of Oi, where it will be safeguarded until a later decision by the arbitration court. Said deposit has already been made, remaining in an account linked to the Court pending the installation of the Court of Arbitration.

TIM S.A. has appealed against the decision and on October 17, 2022, the Superior Court of Justice, by monocratic judgment, rejected TIM S.A.'s appeal and that of the other Buyers. Therefore, on October 19, 2022, TIM S.A. paid the 7th Business Court of the Judicial District of Rio de Janeiro, the amount of 670 million reais by way of guarantee.

Other liabilities related to the sale of assets and shareholdings

As part of agreements for the sale of assets and companies, the TIM Group has undertaken guarantees to indemnify the buyers for liabilities mainly connected with legal, tax, social security, and labor law issues, for an amount normally set as a percentage of the purchase price.
To cover such contingent liabilities, amounting to a total of around 250 million euros, provisions totaling approximately 9 million euros have been allocated solely for those cases for which payment is considered likely.
Furthermore, we report that in relation to the disposal of assets and investments, the TIM Group has commitments to pay additional indemnities under specific contractual provisions, the contingent liability of which cannot be measured at present.

C) Commitments and guarantees

Guarantees, net of back-to-back guarantees received, amounted to 33 million euros.

The guarantees provided by third parties to Group companies, amounting to 6,231 million euros, related to guarantees provided by banks and financial institutions as a guarantee of the proper performance of contractual obligations.

In particular, we report:

- the insurance guarantees, which totaled 1,632 million euros, mainly refer to guarantee financing by the TIM Group in applying legal provisions for contracts of Public Administrations and similar bodies;
- the TIM Group had bank guarantees issued in favor of INPS in support of the application - by TIM and some Group companies - of Article 4 of Italian Law 92 of June 28, 2012, for the voluntary redundancy of employees meeting the requirements; the total amount of the guarantees issued is 1,026 million euros, including 973 million euros for TIM S.p.A. and 53 million euros for Group companies.

Lastly, in May 2018, TIM issued a surety to the Prime Minister's Office for 74.3 million euros to secure an appeal to the Lazio Administration Court for a provisional stay of the administrative fine levied on TIM following the

preliminary investigation connected with the penalty proceeding initiated under Article 2 of Decree Law 21 of 3/15/2012 (the "Golden Power" law).

There are also surety bonds on the telecommunication services in Brazil for 684 million euros.

d) Assets guaranteeing financial liabilities

The special rate loan contracts granted by the Brazilian Development Bank BNDES (Banco Nacional de Desenvolvimento Econômico e Social) to TIM S.A. for a total value of 125 million euros are covered by specific covenants. In the event of non-compliance with the covenant obligations, BNDES will have a right to the income which transits on the bank accounts of the company.

NOTE 26
REVENUES

This item rose by 472 million euros compared to 2021. The figure breaks down as follows:

(million euros)	2022	2021
Equipment sales	1,188	1,411
Services	14,600	13,905
Total	**15,788**	**15,316**

Revenues from telecommunications services are presented gross of amounts due to other TLC operators, equal to 1,205 million euros (1,264 million euros in 2021), included in Costs of services.

Revenues from services in 2022 include revenues for voice and data services on fixed and mobile networks for Retail customers for 7,919 million euros and for other Wholesale operators for 2,686 million euros.

For a breakdown of revenues by operating segment/geographical area, reference should be made to the Note "Segment Reporting".

NOTE 27
OTHER INCOME

This item decreased by 59 million euros compared to 2021. The breakdown is as follows:

(million euros)	2022	2021
Late payment fees charged for telephone services	39	39
Recovery of employee benefit expenses, purchases and services rendered	13	12
Capital and operating grants	38	28
Damages, penalties and recoveries connected with litigation	37	27
Estimate revisions and other adjustments	68	71
Income for special training activities	1	67
Other	17	28
Total	**213**	**272**

NOTE 28
ACQUISITION OF GOODS AND SERVICES

This item rose by 689 million euros compared to 2021. The figure breaks down as follows:

(million euros)		2022	2021
Purchase of raw materials and goods	**(a)**	**1,164**	**1,266**
Costs of services:			
Revenues due to other TLC operators		1,205	1,264
Costs for telecommunications network access services		130	119
Commissions, sales commissions and other selling expenses		1,263	974
Advertising and promotion expenses		235	212
Professional and consulting services		311	253
Utilities		507	434
Maintenance costs		518	291
Outsourcing costs for other services		406	378
Mailing and delivery expenses for telephone bills, directories and other materials to customers		37	38
Other service expenses		665	718
	(b)	**5,277**	**4,681**
Lease and rental costs:			
Rent and leases		83	51
TLC circuit subscription charges		189	96
Other lease and rental costs		526	456
	(c)	**798**	**603**
Total	**(a+b+c)**	**7,239**	**6,550**

In 2022, lease and rental costs included around 12 million euros in short-term lease payments of modest value (approximately 11 million euros in 2021).

NOTE 29
EMPLOYEE BENEFITS EXPENSES

This item rose by 239 million euros compared to 2021. The figure breaks down as follows:

(million euros)		2022	2021
Ordinary employee expenses			
Wages and salaries		1,812	1,794
Social security expenses		658	651
Other employee benefits		153	148
	(a)	**2,623**	**2,593**
Costs and provisions for agency contract work	**(b)**	**1**	**—**
Miscellaneous expenses for employees and other labor-related services rendered			
Charges for termination benefit incentives		222	8
Corporate restructuring expenses		329	336
Other		5	4
	(c)	**556**	**348**
Total	**(a+b+c)**	**3,180**	**2,941**

Employee benefits expenses mainly related to the Domestic Business Unit for 2,868 million euros (2,703 million euros in 2021) and to the Brazil Business Unit for 311 million euros (237 million euros in 2021).

“Charges for termination benefit incentives” and “Corporate restructuring expenses” totaled 551 million euros (344 million euros in 2021) and are mainly linked to outgoing managerial and non-managerial staff, envisaged according to the application of art. 4 of Law no. 92 of June 28, 2012 and former art. 41, subsection 5bis of Italian Legislative Decree no. 148/2015, as per the agreements signed, during the year, with the trade unions and referring entirely to the Italian companies of the Domestic Business Unit.

The average salaried workforce, including agency contract workers, stood at 45,912 employees in 2022 (47,942 in 2021). A breakdown by category is as follows:

(number of units)	2022	2021
Executives	589	612
Middle Managers	4,090	4,154
White collars	41,059	43,110
Blue collars	159	54
Employees on payroll	**45,897**	**47,930**
Agency contract workers	15	12
Total average salaried workforce	**45,912**	**47,942**

The headcount at December 31, 2022, including agency contract workers, stood at 50,392 employees (51,929 at December 31, 2021), showing a decrease of 1,537 employees.

NOTE 30
OTHER OPERATING EXPENSES

These decreased by 686 million euros compared to 2021. The breakdown is as follows:

(million euros)	2022	2021
Write-downs and expenses in connection with credit management	236	305
Provision charges	129	704
TLC operating fees and charges	243	189
Indirect duties and taxes	104	99
Penalties, settlement compensation and administrative fines	25	127
Subscription dues and fees, donations, scholarships and traineeships	13	12
Other	66	66
Total	**816**	**1,502**
of which, included in the supplementary disclosure on financial instruments	*236*	*305*

The non-recurring items of 2022 amounted to 77 million euros, mainly due to provisions for disputes, transactions, regulatory sanctions and related potential liabilities. It includes, in particular, a provision made by TIM S.p.A. of 41 million euros for onerous contracts relating to a multi-year agreement concluded in 2021 which committed the Company to minimum purchases and the total estimated cost of which for the residual duration of the agreement became apparent in 2022.

In 2021, the non-recurring items amounted to 735 million euros and mainly referred to provisions made for disputes, transactions, regulatory sanctions and related potential liabilities as well as expenses connected with the COVID-19 emergency for provisions made as a consequence of the worsening of the expected credit losses of Corporate customers, connected with the expected evolution of the pandemic. Provision charges included 548 million euros for the posting of a Contractual Risk Provision for Onerous Contracts (IAS 37) relating to certain contracts for the offer of multimedia content connected with the partnerships currently in place.

For more details, see the Note on “Provisions for risks and charges”.

Further details on Financial Instruments are provided in the Note "Supplementary disclosure on financial instruments".

NOTE 31
INTERNALLY GENERATED ASSETS

This item rose by 84 million euros compared to 2021. The figure breaks down as follows:

(million euros)	2022	2021
Intangible assets with a finite useful life	244	216
Tangible assets	315	259
Total	**559**	**475**

They mainly refer to the capitalization of labor costs relating to design, construction and testing of network infrastructure and systems, as well as software development and development of network solutions, applications and innovative services.

NOTE 32
DEPRECIATION AND AMORTIZATION

These increased by 287 million euros compared to 2021. The breakdown is as follows:

(million euros)		2022	2021
Amortization of intangible assets with a finite useful life			
Industrial patents and intellectual property rights		1,069	1,043
Concessions, licenses, trademarks and similar rights		442	466
Other intangible assets		6	2
	(a)	**1,517**	**1,511**
Depreciation of tangible assets owned			
Buildings (civil and industrial)		37	35
Plant and equipment		2,145	2,095
Manufacturing and distribution equipment		8	9
Other		158	145
	(b)	**2,348**	**2,284**
Amortization of rights of use assets			
Property		398	343
Plant and equipment		474	314
Other tangible assets		38	37
Intangible assets		2	1
	(c)	**912**	**695**
Total	**(a+b+c)**	**4,777**	**4,490**

For further details refer to the Notes "Intangible assets with a finite useful life", "Tangible assets" and "Rights of use assets".

For a breakdown of depreciation and amortization by operating segment/geographical area, reference should be made to the Note "Segment Reporting".

NOTE 33
GAINS/(LOSSES) ON DISPOSALS OF NON-CURRENT ASSETS

This item was broken down as follows:

(million euros)		2022	2021
Gains on disposals of non-current assets:			
Gains on the retirement/disposal of intangible, tangible and user rights on rental		50	15
	(a)	**50**	**15**
Losses on disposals of non-current assets:			
Losses on the retirement/disposal of intangible, tangible and user rights on rental		14	14
	(b)	**14**	**14**
Total	**(a-b)**	**36**	**1**

NOTE 34

IMPAIRMENT REVERSALS (LOSSES) ON NON-CURRENT ASSETS

This item was broken down as follows:

(million euros)		2022	2021
Impairment reversals on non-current assets:			
on intangible assets		—	—
on tangible assets		—	—
	(a)	**—**	**—**
Impairment losses on non-current assets:			
on intangible assets		—	4,120
on tangible assets		—	
	(b)	**—**	**4,120**
Total	**(a-b)**	**—**	**(4,120)**

The net impairment losses on non-current assets were null in 2022.

In detail, in accordance with IAS 36, goodwill is not subject to amortization, but is tested for impairment on an annual basis, when preparing the company's separate and consolidated financial statements.

In preparing the Annual Report for 2022, the TIM Group carried out an impairment test on goodwill. The results of that testing, carried out in accordance with the specific procedure adopted by the Group, confirmed the amounts of Goodwill allocated to the Group's individual Cash Generating Units.

Net impairment losses on non-current assets for the year 2021 amounted to 4,120 million euros and related to the Goodwill impairment loss attributed to the Domestic Cash Generating Unit.

Further details are provided in the Note "Goodwill".

NOTE 35

OTHER INCOME (EXPENSES) FROM INVESTMENTS

Details are as follows:

(million euros)	2022	2021
Dividends from Other investments	2	1
Net gains on the sale of investments in associates and joint ventures accounted for using the equity method	206	119
Sundry income (expense)	(2)	6
Total	**206**	**126**
of which, included in the supplementary disclosure on financial instruments	*2*	*3*

In 2022, the item mainly included:

- the net capital gain of 171 million euros connected with the August 2022 sale of 41% of the share capital of the holding company Daphne 3, which holds a 30.2% share in Infrastrutture Wireless Italiane - INWIT;
- the net capital gain of 33 million euros connected with the October 2022 sale of the equity investment in Satispay.

In 2021, the item mainly included the net capital gain consequent to the dilution from 100% to 49% of the investment held in the Brazilian company I-Systems S.A. (119 million euros).

NOTE 36
FINANCE INCOME AND EXPENSES

Finance income (expenses) showed a net expense of 1,423 million euros (expense of 1,150 million euros in 2021) and comprises:

(million euros)	2022	2021
Finance income	1,115	1,124
Finance expenses	(2,538)	(2,274)
Net finance income (expenses)	**(1,423)**	**(1,150)**

The items break down as follows:

(million euros)		2022	2021
Interest expenses and other finance expenses:			
Interest expenses and other costs relating to bonds		(766)	(839)
Interest expenses to banks		(127)	(51)
Interest expenses to others		(51)	(24)
Finance expenses on lease liabilities		(377)	(271)
		(1,321)	**(1,185)**
Commissions		(70)	(61)
Other finance expenses (*)		(200)	(126)
		(270)	**(187)**
Interest income and other finance income:			
Interest income		122	75
Income from financial receivables, recorded in Non-current assets		3	8
Income from securities other than investments, recorded in Non-current assets		—	—
Income from securities other than investments, recorded in Current assets		23	20
Miscellaneous finance income (*)		51	39
		199	**142**
Total net finance interest/(expenses)	**(a)**	**(1,392)**	**(1,230)**
Other components of finance income and expenses:			
Net exchange gains and losses		23	39
Net result from derivatives		39	117
Net fair value adjustments to fair value hedge derivatives and underlying instruments		—	(4)
Net fair value adjustments to non-hedging derivatives		(93)	(72)
Total other components of finance income and expenses	**(b)**	**(31)**	**80**
Total net finance income (expenses)	**(a+b)**	**(1,423)**	**(1,150)**
of which, included in the supplementary disclosure on net financial instruments		*(1,142)*	*(936)*

(*) of which IFRS 9 impact:

(million euros)	2022	2021
Income from negative adjustment of IFRS 9 impairment reserve on financial assets measured at FVTOCI	*1*	*4*
Expenses from positive adjustment of IFRS 9 impairment reserve on financial assets measured at FVTOCI	*(7)*	*(1)*
Income/Expenses from IFRS 9 reserve impairment on financial assets measured at FVTOCI	*(6)*	*3*
Reversal of IFRS 9 impairment reserve on financial assets measured at FVTOCI	—	*5*
Impairment losses on financial assets other than investments	—	—

Further details on Financial Instruments are provided in the Note "Supplementary disclosure on financial instruments".

For greater clarity of presentation, the net effects relating to derivative financial instruments are summarized in the following table:

(million euros)		2022	2021
Foreign currency conversion gains		360	411
Exchange losses		(337)	(372)
Net exchange gains and losses		**23**	**39**
Income from fair value hedge derivatives		2	33
Charges from fair value hedge derivatives		(1)	—
Net result from fair value hedge derivatives	**(a)**	**1**	**33**
Positive effect of the reversal of the Reserve of cash flow hedge derivatives to the income statement (interest rate component)		426	366
Negative effect of the reversal of the Reserve of cash flow hedge derivatives to the income statement (interest rate component)		(321)	(295)
Net effect of the Reversal of the Reserve of cash flow hedge derivatives to the income statement (interest rate component)	**(b)**	**105**	**71**
Income from non-hedging derivatives		56	43
Charges from non-hedging derivatives		(123)	(30)
Net result from non-hedging derivatives	**(c)**	**(67)**	**13**
Net result from derivatives	**(a+b+c)**	**39**	**117**
Positive fair value adjustments to fair value hedge derivatives		—	—
Negative fair value adjustments relating to financial assets and liabilities underlying fair value hedge derivatives		—	—
Net fair value adjustments	**(d)**	**—**	**—**
Positive fair value adjustments to Underlying financial assets and liabilities of fair value hedge derivatives		3	50
Negative fair value adjustments relating to fair value hedge derivatives		(3)	(54)
Net fair value adjustments	**(e)**	**—**	**(4)**
Net fair value adjustments to fair value hedge derivatives and underlying instruments	**(d+e)**	**—**	**(4)**
Positive fair value adjustments to non-hedging derivatives	(f)	69	79
Negative fair value adjustments to non-hedging derivatives	(g)	(162)	(151)
Net fair value adjustments to non-hedging derivatives	**(f+g)**	**(93)**	**(72)**

NOTE 37
PROFIT (LOSS) FOR THE YEAR

The profit (loss) for the year can be analyzed as follows:

(million euros)	2022	2021
Profit (loss) for the year	**(2,654)**	**(8,400)**
Attributable to:		
Owners of the Parent:		
Profit (loss) from continuing operations	(2,925)	(8,652)
Profit (loss) from Discontinued operations/Non-current assets held for sale	—	—
Profit (loss) for the year attributable to owners of the Parent	**(2,925)**	**(8,652)**
Non-controlling interests:		
Profit (loss) from continuing operations	271	252
Profit (loss) from Discontinued operations/Non-current assets held for sale	—	—
Profit (loss) for the year attributable to Non-controlling interests	**271**	**252**

NOTE 38
EARNINGS PER SHARE

		2022	2021
Basic earnings per share			
Profit (loss) for the year attributable to owners of the Parent		(2,925)	(8,652)
Less: additional dividends for the savings shares (0.011 euros per share and up to capacity)		—	—
	(million euros)	(2,925)	(8,652)
Average number of ordinary and savings shares	(millions)	21,241	21,205
Basic earnings per share – Ordinary shares	(euros)	(0.14)	(0.40)
Plus: additional dividends per savings share		—	—
Basic earnings per share – Savings shares	(euros)	(0.14)	(0.40)
Basic earnings per share from continuing operations			
Profit (loss) from continuing operations attributable to Owners of the Parent		(2,925)	(8,652)
Less: additional dividends for the savings shares		—	—
	(million euros)	(2,925)	(8,652)

Plus: additional dividends per savings share		—	—
Basic earnings per share from continuing operations – Savings shares	(euros)	(0.14)	(0.40)
Basic earnings per share from Discontinued operations/Non-current assets held for sale			
Profit (loss) from Discontinued operations/Non-current assets held for sale	(million euros)	—	—
Average number of ordinary and savings shares	(millions)	21,241	21,205
Basic earnings per share from Discontinued operations/Non-current assets held for sale – Ordinary shares	(euros)	—	—
Basic earnings per share from Discontinued operations/Non-current assets held for sale – Savings shares	(euros)	—	—

	2022	2021
Average number of ordinary shares	15,213,524,300	15,177,486,840
Average number of savings shares	6,027,791,699	6,027,791,699
Total	**21,241,315,999**	**21,205,278,539**

		2022	2021
Diluted earnings per share			
Profit (loss) for the year attributable to owners of the Parent		(2,925)	(8,652)
Dilution effect of stock option plans and convertible bonds (*)		—	—
Less: additional dividends for the savings shares (0.011 euros per share and up to capacity)		—	—
	(million euros)	(2,925)	(8,652)
Average number of ordinary and savings shares	(millions)	21,241	21,205
Diluted earnings per share – Ordinary shares	(euros)	(0.14)	(0.40)
Plus: additional dividends per savings share		—	—
Diluted earnings per share – Savings shares	(euros)	(0.14)	(0.40)
Diluted earnings per share from continuing operations			
Profit (loss) from continuing operations attributable to Owners of the Parent		(2,925)	(8,652)
Dilution effect of stock option plans and convertible bonds (*)		—	—
Less: additional dividends for the savings shares		—	—
	(million euros)	(2,925)	(8,652)
Average number of ordinary and savings shares	(millions)	21,241	21,205
Diluted earnings per share from continuing operations – Ordinary shares	(euros)	(0.14)	(0.40)
Plus: additional dividends per savings share		—	—
Diluted earnings per share from continuing operations – Savings shares	(euros)	(0.14)	(0.40)
Diluted earnings per share from Discontinued operations/Non-current assets held for sale			
Profit (loss) from Discontinued operations/Non-current assets held for sale	(million euros)	—	—
Dilution effect of stock option plans and convertible bonds		—	—
Average number of ordinary and savings shares	(millions)	21,241	21,205
Diluted earnings per share from Discontinued operations/Non-current assets held for sale – Ordinary shares	(euros)	—	—
Diluted earnings per share from Discontinued operations/Non-current assets held for sale – Savings shares	(euros)	—	—

	2022	2021
Average number of ordinary shares (*)	15,213,524,300	15,177,486,840
Average number of savings shares	6,027,791,699	6,027,791,699
Total	**21,241,315,999**	**21,205,278,539**

(*) The average number of ordinary shares also includes the potential ordinary shares relating to the equity compensation plans of employees for which the (market and non-market) performance conditions have been met, in addition to the theoretical number of shares that are issuable as a result of the conversion of the unsecured equity-linked convertible bond reimbursed on March 26, 2022. Consequently, the "Net profit (loss) for the year attributable to owners of the Parent" and the "Profit (loss) from continuing operations attributable to owners of the Parent" are also adjusted to exclude the effects, net of tax, related to the above-mentioned plans and to the convertible bond (+10 million euros in 2022; +43 million euros in 2021). As regards 2022 and 2021, however, these effects have not been included in the calculation insofar as, in accordance with the provisions of IAS 33, the latter are allegedly anti-diluting.

Future potential changes in share capital

The table below shows future potential changes in share capital, based on the long-term share incentive plans, still outstanding at December 31, 2022:

	Number of maximum shares issuable	Share capital (thousands of euros)	Additional paid-in capital (thousands of euros)	Subscription price per share (euros)
Capital increases already approved (ordinary shares)				
2020-2022 Long Term Incentive Plan (free issue)	180,000,000			
2022-2024 Stock Options Plan	257,763,000	109,292		0.424
Total	**437,763,000**	**109,292**		

Further information is provided in the Notes "Non-current and current financial liabilities" and "Equity compensation plans".

NOTE 39
SEGMENT REPORTING

a) Segment reporting

The operating segments of the TIM Group, organized for the telecommunications business and the related geographical location are as follows:

- **Domestic**: includes the activities in Italy relating to voice and data services on fixed and mobile networks for end customers (retail) and other operators (wholesale), the activities of the Telecom Italia Sparkle group which, at international level (in Europe, the Mediterranean and South America), develops fiber optic networks for wholesale customers, the operations of the company FiberCop S.p.A. for the provision of passive access services on the secondary copper and fiber network, the activities of Noovle S.p.A.(Cloud and Edge Computing solutions), the activities of Olivetti (Information Technology products and services) and support structures for the Domestic sector;
- **Brazil**: includes mobile and fixed telecommunications operations in Brazil (TIM S.A. group);
- **Other Operations**: include the financial companies (Telecom Italia Capital S.A. and Telecom Italia Finance S.A.) and other minor companies not strictly related to the TIM Group's core business.

In view of the decision-making process adopted by the TIM Group, segment reporting is presented for financial operating data.

The results of financial management, income tax expense for the year, as well as profit (loss) from Discontinued operations / Non-current assets held for sale are presented at a consolidated level.

Separate Consolidated Income Statement by Operating Segment

(million euros)	Domestic		Brazil		Other Operations		Adjustments and eliminations		Consolidated Total

c) Information about major customers

None of the TIM Group's customers exceeds 10% of consolidated revenues.

NOTE 40
RELATED-PARTY TRANSACTIONS

The following tables show the figures relating to related party transactions and the impact of those amounts on the separate consolidated income statement, consolidated statements of financial position and consolidated statements of cash flows.

Related-party transactions, when not dictated by specific laws, were conducted at arm's length. They were performed in compliance with the internal procedure, which sets forth rules designed to ensure the transparency and fairness of the transactions in accordance with Consob Regulation 17221/2010. The current procedure is available on the website gruppotim.it, under the Group - Governance - Governance Tools - Other Codes and Procedures section.

The effects of the related-party transactions on the TIM Group separate consolidated income statement line items for 2022 and 2021 are as follows:

SEPARATE CONSOLIDATED INCOME STATEMENT LINE ITEMS 2022

(million euros)	**Total** (a)	Associates, subsidiaries of associates and joint ventures	Other related parties (*)	Pension funds	Key managers	**Total related parties** (b)	% of financial statement item (b/a)

Transactions with associates, subsidiaries of associates and joint ventures

Under the scope of the reorganization of Italtel S.p.A., on April 1, 2022, TIM S.p.A. subscribed to part of the company's share capital increase, taking the share held by the TIM Group in Italtel S.p.A. to 17.72%.

Italtel S.p.A. is also subject to the considerable influence of TIM S.p.A. in accordance with IAS 28 (Investments in Associates and Joint Ventures).

Therefore, starting April 1, 2022, the company is considered an associate and its subsidiaries are considered related parties of the TIM Group.

In accordance with Art. 5, subsections 8 and 9 of Consob Regulation no. 17221 of March 12, 2010 concerning "Related-Party Transactions" and subsequent amendments, in 2022, the carrying out of the Transaction of greater importance is noted, as defined by Art. 4, subsection 1, letter a) of the above regulation and by Art. 7 of the Company's Related-Party Transactions Procedure, following the award of the European open tender procedure for the award, by public-private partnership contract, of the development and management of the National Strategic Hub.

The most significant values of the transactions with associates, subsidiaries of associates and joint ventures are summarized as follows:

SEPARATE CONSOLIDATED INCOME STATEMENT LINE ITEMS

(million euros)	2022	2021	TYPE OF CONTRACT
Revenues			
Polo Strategico Nazionale S.p.A.	16		Products and services related to the start-up phase of the National Strategic Hub.

NOTE 41
EQUITY COMPENSATION PLANS

Equity compensation plans in force at December 31, 2022, are used for attraction and retention purposes, and as a long-term incentive for the managers and employees of the Group.

However, it should be noted that these plans do not have any significant effect on the economic result or on the financial position or on cash flows at December 31, 2022.

A summary is provided below of the plans in place at December 31, 2022.

Description of stock option plans

TIM S.p.A. 2022-2024 Stock Option Plan

The Shareholders' Meeting held on April 7, 2022, approved the one-shot 2022-2024 Stock Option Plan. The Plan aims to encourage Beneficiaries to create value for the Company's shareholders, aligning management's interests with the interests of TIM shareholders in terms of achieving the qualified objectives of the Industrial Plan and growth in the value of the Share in the medium-term. The Plan intends to also assure the possibility of attracting new managers from the outside, as the Industrial Plan is implemented.

The 2022-2024 Stock Options Plan is intended for the CEO, Top Management and a select number of managers of the TIM Group who hold key roles in terms of achieving the Strategic Plan objectives. Addressees are, in addition to the CEO, broken down into three pay opportunity brackets according to the contribution and impact of the role held on the company's strategic objectives; for each bracket, the number of option rights attributed at target, is determined.

The Plan has a strike price of 0.4240 euros, a three-year vesting period (1/1/2022-12/31/2024) and a two-year exercise period (from approval of the 2024 financial statements and through to the next two years).

The following performance conditions are also envisaged for the three-year period 2022-2024:

- Cumulative (reported) Economic-financial indicator (EBITDA-CAPEX) with a weight of 70%
- ESG indicators with a total weight of 30%, structured into:
  - percentage of women in positions of responsibility (15%)
  - percentage of consumption of renewable energies (15%).

The level of achievement of the indicators determines the accrual of option rights over an interval that ranges from -10% to + 10% with respect to the target number allocated per bracket.

A cap is also envisaged that is commensurate to the maximum economic benefit, calculated by applying a normal value of the share at the moment of assessment of the performance conditions (2024 financial statements), assumed as 1.5 euros, to the number of option rights assigned at target. The cap is applied when the option rights accrue and impacts the number of option rights that can be assigned.

The clawback clause also applies to all addressees of this plan, up to the point of exercise of the option rights.

At December 31, 2022, there were a total of 131 addressees and the number of options assigned at target is 206,210,000.

For more details, see the information document on the initiative available for consultation at the link Information Document on the 2022-2024 Stock Options Plan (https://www.gruppotim.it/content/dam/gt/investitori/doc---avvisi/anno-2022/ita/Doc-informativo-Piano-stock-option-22-24.pdf).

TIM S.A. Stock Option Plans

On April 10, 2014, the General Meeting of Shareholders of TIM Participações S.A. (now incorporated into TIM S.A.) approved the long-term incentive plan for managers in key positions in the company and its subsidiaries. Exercise of the options is not subject to the achievement of specific performance targets, but the strike price is adjusted upwards or downwards during each year for which the plan is in force, according to the ranking of the Total Shareholder Return of the TIM S.A. shares with respect to a panel of peers (made up of companies in the Telecommunications, Information Technology and Media industry).

The vesting period is 3 years (a third per year), the options can be exercised for 6 years, and the company does not have the legal obligation to repurchase or liquidate the options in cash, or in any other form.

Year 2014

On September 29, 2014, the grantees of the options were granted the right to purchase a total of 1,687,686 shares. At December 31, 2022, there are no options that can be exercised. Out of the total attributed, 1,558,043 options have been canceled (due to the participants leaving the company or for expiry of the exercise period), and 129,643 options have been exercised.

Year 2015

On October 16, 2015, the grantees of the options were granted the right to purchase a total of 3,355,229 shares. As of December 31, 2022, 100% of the options were considered as vested, and there are no options that can be exercised. Of the total options granted, 1,646,080 were canceled by participants leaving the company. All of the remaining balance (amounting to 1,709,149 options) has been exercised.

Year 2016

On November 8, 2016, the grantees of the options were granted the right to purchase a total of 3,922,204 shares. At December 31, 2022, 100% of the options were considered as vested. Of the total options granted, 1,727,424 were canceled by participants leaving the company. All of the remaining balance (amounting to 2,194,780 options) has been exercised.

Description of other compensation plans

TIM S.p.A. - Long Term Incentive Plan 2020-2022

The Shareholders' Meeting of April 23, 2020 approved the launch of the rolling and equity based long-term incentive plan called LTI 2020-2022.

The Plan envisaged three incentive cycles, connected with the performance three-year periods 2020-2022, 2021-2023, 2022-2024; over time, two of the three incentive cycles have been launched: 2020-2022, 2021-2023.

Each cycle of the plan is divided into two parties:

- **Performance Share**: free allocation of Company ordinary shares, the maturity of which is subject to an access gate and two performance conditions, given below.
- **Attraction/Retention Share**: free allocation of Company ordinary shares, the maturity of which is subject to the continuity of the employment relationship with TIM or TIM Group companies.

In relation to the Performance Share component, the performance conditions are as follows:

- access gate, represented by the value of the security, which at the end of each cycle must be equal to or greater than the value of the security at the start of the same cycle (refer to the normal value of the share equal to the average of the official closing prices of the Stock Exchange 30 days prior to the start and end of the Plan cycle);
- NFP/EBITDA ratio, with relative weighting equal to 40%;
- Relative performance (TSR) of the ordinary share compared to a basket of Peers, with a relative weighting of 60%.

A payout bonus/malus mechanism equal to 4% is applied to both components (Performance Share and Attraction/Retention Share), linked, in equal measure,

- to the percentage growth of use of renewable energy out of total energy and to the reduction of indirect emissions of CO_2 (2020-2022 cycle);
- to the percentage growth of use of renewable energy out of total energy and the increase in the female presence in the managerial population (2021-2023 cycle).

Target recipients are the Chief Executive Officer, the Top Management and a selected segment of TIM Group management.

For the CEO, 100% of the Pay Opportunity is linked to the Performance Share component. For the remaining recipient managers, 70% of the Pay Opportunity is linked to the Performance Share and the remaining 30% to the Attraction/Retention Shares.

On April 7, 2022, the Shareholders' Meeting approved, after acknowledging the changes in scenario, the obsolescence of the 2020-22 Long Term Incentive Plan and replaced the third cycle of this plan with the new 2022-2024 Stock Options Plan described previously.

2020-2022 Cycle

The final results of the performance indicators tied to this cycle will be submitted for approval by the TIM S.p.A. Board of Directors on March 15, 2023.

Valuation at December 31, 2022 of the gate to accessing maturity of the performance shares is below the value of the share at the Plan start-up: failure to satisfy the Gate condition determines the forfeiture of 37,201,463 performance shares at target and the maintenance - for the 102 recipients continuing their employment with TIM or Group subsidiaries at December 31, 2022 - of the right to receive a total of 10,879,774 shares (attraction/retention shares), considering the application of the ESG correction factor to the comprehensive payout in the amount of + 4%.

2021-2023 Cycle

At December 31, 2022, the cycle provides for the 144 recipients to be entitled to receive an award of 42,104,350 shares upon achievement of the target, subject to:

- the gate condition and application of the ESG correction for performance shares;
- application of the ESG correction and continuity of the contract of employment for attraction/retention shares.

TIM S.A. - Long Term Incentive Plan 2018-2020

On April 19, 2018, the General Meeting of Shareholders of TIM Participações S.A. (now incorporated into TIM S.A.) approved the long-term incentive plan for managers in key positions in the company. The plan aimed to reward participants with shares issued by the company, subject to specific temporal and performance conditions. The portion of shares linked to performance (70%) is granted 1/3 each year, if the performance target is achieved; the remaining portion of shares (30%) is granted 3 years after allocation (restricted share).

The vesting period is 3 years (with annual measurement) and the company does not have the legal obligation to repurchase or liquidate the shares in cash or in any other form.

The plan – in addition to transferring shares to beneficiaries – also includes the possibility of rewarding participants through the settlement of the amount corresponding in cash.

Year 2018

On April 20, 2018, plan beneficiaries were granted the right to receive a total of 849,932 shares, of which 594,954 performance shares restricted to performance conditions and with gradual vesting over 3 years and 254,978 restricted shares, with a vesting period of 3 years.

At December 31, 2022, 100% of the rights assigned were considered as vested.

Year 2019

On July 30, 2019, plan beneficiaries were granted the right to receive a total of 930,662 shares, of which 651,462 performance shares restricted to performance conditions and with gradual vesting over 3 years and 279,200 restricted shares, with a total vesting period of 3 years.

Three vesting periods ended on December 31, 2022:

- **In 2020,** in compliance with the results approved on July 29, 2020, 309,557 shares were transferred to beneficiaries, of which 209,349 relating to the original volume accrued, 83,672 granted according to the degree to which objectives had been achieved and 16,536 shares as a result of the dividends distributed during the period.
- **In 2021,** in compliance with the results approved on July 26, 2021, 309,222 shares were transferred to beneficiaries, of which 207,859 relating to the original volume accrued, 78,111 discounted according to the degree to which objectives had been achieved and 23,252 shares for dividends distributed during the period.
- **In 2022,** in compliance with the results approved on April 26, 2022, 618,495 shares were transferred to beneficiaries, of which 419,188 relating to the original volume accrued, 137,064 discounted according to the degree to which objectives had been achieved and 62,243 shares for dividends distributed during the period. For participants transferred to other Group companies, as per the Plan rules, payment in cash was considered of the amount corresponding to 11,574 shares (7,842 relating to the original volume accrued, 2,537 acknowledged according to the degree to which the objectives had been achieved and 1,195 due to dividends distributed during the period).

At December 31, 2022, of the original volume assigned of 930,662 shares, 86,424 had been canceled due to the beneficiaries having left the company and 1,237,274 shares had been transferred to beneficiaries (836,396 relating to the original volume accrued, 298,847 from performance achieved and 102,031 for payment of dividends in shares) and 11,574 shares had been valued and paid in cash (7,842 relating to the original volume accrued, 2,537 from performance achieved and 1,195 for payment of dividends in shares), thereby completing the 2019 concession.

Year 2020

On April 14, 2020, plan beneficiaries were granted the right to receive a total of 796,054 shares, of which 619,751 performance shares restricted to performance conditions and with gradual vesting over 3 years and 176,303 restricted shares, with a total vesting period of 3 years.

Two vesting periods ended on December 31, 2022:

- **In 2021,** in compliance with the results approved on May 5, 2021, 267,145 shares were transferred to beneficiaries, of which 206,578 relating to the original volume accrued, 51,634 granted according to the degree to which objectives had been achieved and 8,933 shares as a result of the dividends distributed during the period.
- **In 2022,** in compliance with the results approved on April 26, 2022, in July 337,937 shares were transferred to beneficiaries, of which 252,024 relating to the original volume accrued, 63,029 granted according to the degree to which objectives had been achieved and 22,884 shares as a result of the dividends distributed during the period. In addition, for participants transferred to other Group companies, as per the Plan rules, payment in cash was considered in June of the amount corresponding to 3,478 shares (2,593 relating to the original volume accrued, 649 acknowledged according to the degree to which the objectives had been achieved and 236 due to dividends distributed during the period).

At December 31, 2022, of the original volume assigned of 796,054 shares, 74,019 had been canceled due to the beneficiaries having left the company and 270,623 shares had been transferred to beneficiaries (209,171 related to the original volume vested, 52,283 recognized on the basis of performance achieved and 9,169 for effect of dividends distributed during the period). In July, 337,937 shares will be transferred to beneficiaries, of which 252,024 relating to the original volume accrued, 63,029 granted according to the degree to which the objectives had been achieved and 22,884 shares as a result of dividends distributed during the period, thereby leaving a balance of 264,481 shares that could be accrued at period end.

TIM S.A. - Long Term Incentive Plan 2021-2023

On March 30, 2021, the General Meeting of Shareholders of TIM S.A. approved the long-term incentive plan for managers in key positions in the company. The plan aims to reward participants with shares issued by the company, according to specific time (restricted shares) and performance (performance shares) conditions. The vesting period is 3 years and the company does not have the legal obligation to repurchase or liquidate the shares in cash or in any other form. The plan – in addition to transferring shares to beneficiaries – also includes the possibility of rewarding participants through the settlement of the amount corresponding in cash.

Year 2021

On May 5, 2021, plan beneficiaries were granted the right to receive a total of 3,431,610 shares, of which 3,173,142 performance shares restricted to performance conditions and with gradual vesting over 3 years and 258,468 restricted shares, with a vesting period of 3 years.

In 2021, the Special Grant was added to the traditional plan, a further extraordinary concession with the aim of encouraging the closure of the Oi purchase operation in Brazil as well as the success of the subsequent integration operations.

Of the total 3,431,610 shares granted, 1,151,285 relate to the traditional grant (with 892,817 performance shares and 258,468 restricted shares) and 2,280,325 refer to the Special Grant.

On December 31, 2022 the first vesting period ended:

- **In 2022,** in compliance with the results approved on April 26, 2022, in July 572,608 shares were transferred to beneficiaries, of which 463,608 relating to the original volume accrued, 87,605 granted according to the degree to which objectives had been achieved and 21,395 shares as a result of the dividends distributed during the period. In addition, for participants transferred to other Group companies, as per the Plan rules, payment in cash was considered in June of the amount corresponding to 3,486 shares (2,883 relating to the original volume accrued, 473 acknowledged according to the degree to which the objectives had been achieved and 130 due to dividends distributed during the period).
- ***Special Grant***: in compliance with the results approved on April 26, 2022, 601,936 shares were transferred to beneficiaries in July, of which 579,451 relating to the original volume accrued and 22,485 shares as a result of the dividends distributed during the period.

At December 31, 2022, of the total assigned of 3,431,610 shares, 361,515 had been canceled due to the beneficiaries having left the company and 3,486 shares had been transferred to beneficiaries through payment in cash, given the results of the first vesting period of the performance shares. In July, 1,174,544 shares will be transferred to beneficiaries, of which 1,043,059 relating to the original volume accrued, 87,605 granted according to the degree to which the objectives had been achieved and 43,880 shares as a result of dividends distributed during the period, thereby leaving a balance of 2,073,792 shares that could be accrued at period end.

TIM S.A. - Long Term Incentive Plan 2022-2024

On April 26, 2022, the General Meeting of Shareholders of TIM S.A. approved the long-term incentive plan for managers in key positions in the company. The plan aims to reward participants with shares issued by the company, according to specific time (restricted shares) and performance (performance shares) conditions. The vesting period is 3 years and the company does not have the legal obligation to repurchase or liquidate the shares in cash or in any other form. The plan – in addition to transferring shares to beneficiaries – also includes the possibility of rewarding participants through the settlement of the amount corresponding in cash.

Year 2022

On April 26, 2022, plan beneficiaries were granted the right to receive a total of 1,227,712 shares, of which 927,428 performance shares restricted to performance conditions and with gradual vesting over 3 years and 300,284 restricted shares, with a vesting period of 3 years.

At December 31, 2022, the first vesting period had not yet concluded and 44,565 shares had been canceled due to beneficiaries leaving the Company.

Calculation of fair value measurement of the granted options and rights

Parameters used to determine the fair value – TIM S.p.A.

Plans/Parameters	Exercise price (euros)	Nominal value (euros) (1)	Volatility (2)	Duration	Expected dividends (euros) (3)	Risk-free interest rate (4)
2020-2022 LTI Plan – First Cycle (2020-22)	—	0.35	n.a.	3 years	0.01	-0.714% at 3 years
2020-2022 LTI Plan – Second Cycle (2021-23)	—	0.42	n.a.	3 years	0.01	-0.720% at 3 years
SOP 2022-2024	0.424	—	34.6%	3 years	0.02	0.479% at 3 years

(1) Arithmetic mean of the official prices of the Shares recognized starting from the stock market trading day prior to that of assignment until the thirtieth previous ordinary calendar day (both included) on the Electronic Stock Exchange organized and managed by Borsa Italiana S.p.A., calculated using only the days to which the prices taken as the basis of calculation refer as the divisor, cut off at the second decimal.
(2) Based on the performance objectives of the plan, the TIM share volatility values were considered and, if necessary, also those of the securities of the major companies of the telecommunications sector ("peer basket").
(3) Dividends have been estimated on the basis of Bloomberg data.
(4) The risk-free interest rate refers to the rate of government bonds of the Federal Republic of Germany (market benchmark for transactions in euros) on the valuation date with a maturity consistent with the reporting period.

Parameters used for the assignments of TIM S.A.

Plans/Parameters	Share base price (reais)	Nominal value (reais)	Volatility	Duration	Expected dividends (reais)	Risk-free interest rate
Stock option plan 2014	13.42	n.a.	44.60%	6 years	-	10.66% per annum
Stock option plan 2015	8.45	n.a.	35.50%	6 years	-	16.10% per annum
Stock option plan 2016	8.10	n.a.	36.70%	6 years	-	11.73% per annum
2018 PS/RS Plan	n.a.	14.41	n.a.	3 years	n.a.	n.a.
2019 PS/RS Plan	n.a.	11.28	n.a.	3 years	n.a.	n.a.
2020 PS/RS Plan	n.a.	14.40	n.a.	3 years	n.a.	n.a.
2021 PS/RS Plan	n.a.	12.95	n.a.	3 years	n.a.	n.a.
2022 PS/RS Plan	n.a.	13.23	n.a.	3 years	n.a.	n.a.

The parameters are characteristic of a stock option plan, considering the use of fair value appropriate only for Stock Option Plans.

Effects on the income statement and statement of financial position

Equity compensation plans which call for payment in equity instruments are recorded at fair value (except for the 2018 Plan of TIM S.A.) which represents the cost of such instruments at the grant date and is recorded in the separate income statements under "Employee benefits expenses" over the period between the grant date and the vesting period with a contra-entry to the equity reserve ("Other equity instruments"). For the portion of the plans that provide for the payment of compensation in cash, the amount is recognized in liabilities as a contra-entry to "Employee benefits expenses". Equity compensation plans which call for payment in equity instruments did not have significant impacts either on the income statements or the statements of financial position or of cash flows of the TIM Group at December 31, 2022.

NOTE 42

SIGNIFICANT NON-RECURRING EVENTS AND TRANSACTIONS

The effect of 2022 non-recurring events and transactions on the equity, profit, net financial debt and cash flows of the TIM Group is set out below in accordance with Consob Communication DEM/6064293 of July 28, 2006. The non-recurring effects on Equity and Profit (loss) for the year are shown net of tax effects.

(million euros)		Equity	Profit (loss) for the year	Net financial debt carrying amount	Cash flows (*)
Carrying amount	**(a)**	**18,725**	**(2,654)**	**25,370**	**(3,309)**
Other income		23	23	6	(6)
Acquisition of goods and services - Expenses related to agreements and the development of non-recurring projects and other costs		(49)	(49)	49	(49)
Employee benefits expenses - Charges connected to corporate reorganization/restructuring and other costs		(563)	(563)	438	(438)
Other operating expenses - Expenses related to disputes and regulatory sanctions and potential liabilities related to them, and expenses related to disputes with former employees and liabilities with customers and/or suppliers for other provisions and charges		(77)	(77)	453	(453)
Other income (expenses) from investments		204	204	(1,317)	1,317
Other finance expenses		(11)	(11)	—	—
Tax realignment pursuant to Decree Law 104/2020 Art. 110		(1,964)	(1,964)		—
Total non-recurring effects	**(b)**	**(2,437)**	**(2,437)**	**(371)**	**371**
Income/(Expenses) relating to Discontinued operations	**(c)**	**—**	**—**	**—**	**—**
Figurative amount – financial statements	**(a–b-c)**	**21,162**	**(217)**	**25,741**	**(3,680)**

(*) Cash flows refer to the increase (decrease) in Cash and cash equivalents during the year.

Flows relating to “Other operating expenses - Expenses related to disputes and regulatory sanctions and potential liabilities related to them, and expenses related to disputes with former employees and liabilities with

customers and/or suppliers and other provisions and charges" include the effects connected with use of the Contractual risk provisions for onerous contracts (IAS 37).

More specifically, in 2021, the net present value of the negative margin relating to contracts with certain counterparties for multimedia contents offers, including those between TIM and DAZN, was set aside.

Starting from the 2022 financial year, use of the aforementioned Provision over the contractual term makes it possible to offset the negative item of the margin (EBITDA) - referring to both the operating performance of the business and commitments in terms of prices that TIM is contractually obliged to pay to counterparties - thereby obtaining a null operating margin (organic) for the content business.

From a financial viewpoint, the negative margin covered by the Risks Provision has an equal impact on the Net Financial Position and cash flows. For the DAZN contract, TIM is contractually obliged to pay advance installments for each year (July 1-June 30, corresponding to each championship season).

In August 2022, TIM and DAZN reached a new agreement that - in amending the clauses previously in place - allows DAZN to distribute football rights to show the TIM Serie A championship matches through any third party, surpassing the previous system of TIM exclusivity. The new contractual structure has no impact on TIM customers, who continue to enjoy matches through TimVision, the most advantageous streaming platform with the best selection of content available on the market. At the same time, the objective is achieved of distributing rights over multiple platforms with a view to developing a more sustainable economic model that would also be less volatile.

During 2022, TIM S.p.A. also recorded a provision of 41 million euros for onerous contracts relating to a multi-year agreement stipulated in 2021 which committed the Company to minimum purchases and the total estimated cost of which for the residual duration of the agreement became apparent in 2022.

The Provision for contractual risks for onerous contracts at December 31, 2022 came to 247 million euros.

The impact of non-recurring items on the separate consolidated income statement line items is as follows:

(million euros)	2022	2021
Revenues:		
Revenue adjustments	—	(5)
Other income:		
Recovery of operating expenses	23	13
Acquisition of goods and services, Change in inventories:		
Professional expenses, consulting services and other costs	(56)	(49)
Employee benefits expenses:		
Charges connected to corporate reorganization/restructuring and other costs	(572)	(367)
Other operating expenses:		
Other expenses and provisions	(77)	(735)
Impact on Operating profit (loss) before depreciation and amortization, capital gains (losses) and impairment reversals (losses) on non-current assets (EBITDA)	**(682)**	**(1,143)**
Goodwill impairment loss Domestic CGU	—	(4,120)
Impact on Operating profit (loss) (EBIT)	**(682)**	**(5,263)**
Other income (expenses) from investments:		
Net capital gain on corporate transactions	203	119
Finance income:		
Other finance income	—	1
Finance expenses:		
Other finance expenses	(11)	(1)
Impact on profit (loss) before tax from continuing operations	**(490)**	**(5,144)**
Tax realignment pursuant to Decree Law 104/2020 Art. 110	(1,964)	(3,785)
Income tax expense on non-recurring items	17	276
Impact on Profit (loss) for the year	**(2,437)**	**(8,653)**

Further details on the tax realignment pursuant to Decree Law 104/2020 are provided in the Note "Income tax expense (current and deferred)".

NOTE 43

POSITIONS OR TRANSACTIONS RESULTING FROM ATYPICAL AND/OR UNUSUAL OPERATIONS

In accordance with Consob Communication DEM/6064293 of July 28, 2006, a statement is made to the effect that in 2022 the TIM Group did not pursue any atypical and/or unusual transactions, as defined by that Communication.

NOTE 44

(**) On October 1, 2021, a new monetary scale took effect, entailing the elimination of six zeros in relation to the previous one (1,000,000Bs = 1Bs).

b) Research and development

Costs for research and development activities are represented by external costs, dedicated employee benefits expenses and depreciation and amortization. Details are as follows:

(million euros)	2022	2021
Research and development costs expensed during the year	49	56
Capitalized development costs	906	1,016
Total research and development costs (expensed and capitalized)	**955**	**1,072**

The decrease recorded in the 2022 financial year is due to the stabilization of implementation activities connected with the new generation networks.

In the 2022 Separate Consolidated Income Statement, a total of 877 million euros of amortization expense was recorded for development costs, capitalized during the year and in prior years.

Research and development activities carried out by the TIM Group are described in detail in the Report on Operations ("Research and Development" section).

c) Leasing income

The TIM Group has entered into lease contracts on land and buildings for office and industrial use, mobile network infrastructure sites and network infrastructure; at December 31, 2022 and at December 31, 2021 the lease installments at nominal value still to be collected totaled:

(million euros)	12/31/2022	12/31/2021
Within next year	91	100
From 1 to 2 years after the end of the reporting period	39	36
From 2 to 3 years after the end of the reporting period	38	34
From 3 to 4 years after the end of the reporting period	34	34
From 4 to 5 years after the end of the reporting period	33	30
Beyond 5 years after the end of the reporting period	30	29
Total	**265**	**263**

d) Public funds

Italian Law 124/2017 requires that information on subsidies, contributions, paid assignments and economic benefits of any kind received from Italian public administrations be provided. In this regard, the following table shows the disbursements collected by the TIM Group in the years 2022 and 2021:

Distributing entity	Area of intervention	Received in 2022 (million euros)	Received in 2021 (million euros)
Fondimpresa/Fondirigenti	training	3	
Infratel	construction of Broadband and Ultrabroadband infrastructure	3	3
Ministry of Enterprises and Made in Italy (formerly the Ministry of Economic Development)	research and innovation	3	
ANPAL	training	—	54
Other		1	1
Total(*)		**10**	**58**

(*) 2022 - includes 0.7 million euros in returns

e) Directors' and statutory auditors' remuneration

Total remuneration due for 2022 to the directors and statutory auditors of TIM S.p.A. for the performance of these functions at the Parent and in other consolidated companies totaled 4.973 million euros for directors and 0.575 million euros for statutory auditors. In reference to the compensation to which the Directors are entitled, it should be noted that the amount was calculated by considering only compensation for corporate offices (in primis those under Article 2389, subsections 1 and 3 of the Italian Civil Code), thus excluding amounts relating to any employment relationship with the companies of the Group and any non-monetary fringe benefits; for a complete and detailed description of the compensation paid to the directors, reference should be made to the Compensation Report, available at the Company's headquarters and on the corporate website at the following address: gruppotim.it/assemblea.

f) Summary schedule of fees due to the audit firm and other firms in its network

The following schedule reports the fees due to EY S.p.A. and to the other firms in the EY network for the audit of the 2022 financial statements, and the fees referring to 2022 for other audit and review services, and for other services besides audit rendered to the companies of the TIM Group from EY S.p.A. and other firms in the EY network. The out-of-pocket expenses incurred for these services in 2022 are also shown.

(euros)	EY S.p.A.			Other entities of the EY network			
	TIM S.p.A.	Subsidiaries	TIM Group	TIM S.p.A.	Subsidiaries	TIM Group	Total EY network
Audit services	2,751,643	2,214,676	4,966,319	—	2,220,863	2,220,863	7,187,182
Audit services with the issue of certification	64,000	27,000	91,000	—	32,000	32,000	123,000
Certification of compliance of the Consolidated Non-Financial Statement	78,025	—	78,025	—	50,543	50,543	128,568

EVENTS SUBSEQUENT TO DECEMBER 31, 2022

TIM successfully placed an 850 million euro bond with 5-year maturity

Following approval by the Board of Directors on January 18, 2023 and after completion of bookbuilding, TIM S.p.A. has successfully placed an 850-million euro fixed-rate unsecured bond offered to institutional investors.

The proceeds from the new issue will be used to optimize and refinance the maturities of existing debt.

The details are shown below:

Issuer: TIM S.p.A.

Amount: 850 million euros

Settlement date: January 27, 2023

Maturity: February 15, 2028

Coupon: 6.875%

Issue price: 100.0%

Redemption price: 100.0%

The bond regulation sets out various commitments typical of these types of transactions for the issuer, including the limit of granting guarantees over its assets or implementing extraordinary corporate transactions, except where certain covenants are met.

The bond was listed on the Luxembourg stock exchange Euro MTF market. The ratings agencies Moody's, S&P and Fitch have attributed a rating to the bond respectively of B1, B+ and BB-.

TIM: non-binding offers for the purchase of Netco

On February 2, 2023, TIM reported having received from Kohlberg Kravis Roberts & Co. L.P. ("KKR") a non-binding offer ("KKR NBO") for the purchase of a stake in a newco being established, coinciding with the managerial and infrastructural scope of the fixed network, including the assets and business of FiberCop, as well as the holding in Sparkle (the "Netco"). The non-binding offer refers to a share to be defined, without prejudice to the fact that the purchase would result in the loss of vertical integration with respect to TIM. The TIM Board of Directors - which met on February 2, 2023 to start the process relating to the examination of the non-binding offer - decided to meet again on February 24, 2023 to resolve on the non-binding offer received from KKR for NetCo, also notifying its willingness to assess any alternatives as may become concrete in the meantime and continue talking to its stakeholders.

In connection with the press news regarding the non-binding offer on TIM's fixed infrastructure presented by KKR, on the request of Consob, the Company has clarified that unless otherwise agreed by the parties, the offer shall last for 4 weeks from the date on which it was submitted (February 1) and the Board of Directors would be meeting in the meantime to discuss the offer and make the relevant decisions.

As is standard practice for transactions of this type, the non-binding offer is only approximate and is subject to analyses, investigations and assessments to be carried out in the meantime, also discussing this with KKR. On the other hand, and as already reported, TIM is ready to consider alternative options.

Thereafter, on February 21, 2023, TIM reported having received a letter from KKR extending the deadline of this offer to March 24, 2023. More specifically, as indicated in the letter, the extension of the deadline is due to a request made by the government to have another four weeks within which to carry out a joint analysis of the publishing aspects of the transaction, concerning the powers that can be exercised by the government in the sector. KKR has, however, confirmed that is willing to continue a constructive dialog with TIM and proceed with due diligence.

On February 24, 2023, TIM S.p.A.'s Board of Directors examined the contents of the KKR NBO and the letter of extension received on February 21, 2023, also with the help of the analyses and investigations carried out by the management with the support of the advisors. In light of the information received, the Board has much appreciated the interest expressed in said NBO, despite considering that it does not fully reflect the value of the asset and TIM's expectations, also in terms of the sustainability of the company resulting from the operation considered therein. Therefore, in order to foster the alignment of the conditions of the operation proposed with respect to the strategic context relevant to TIM, the Board has resolved to make certain specific information available to KKR - on a non-exclusive basis - and to request the additional indications necessary to fully understand the topics and economics of the proposal. The above is with the aim of receiving an improved offer following such exchanges of information, by the deadline of March 31, 2023.

On March 5, 2023, TIM reported having received from a consortium consisting of CdP Equity S.p.A. (CDPE) and Macquarie Infrastructure and Real Assets (Europe) Limited, acting on behalf of a group of investment funds managed or assisted by the Macquarie Group (the "Consortium"), a non-binding offer (the "Consortium NBO") for the purchase of 100% of a company being established, substantially responsible for the managerial and infrastructural scope of the fixed network, including the assets and business of FiberCop and the investment in Sparkle (the "Netco").

The Board examined the contents of the Consortium NBO, also through analyses and investigations by the management and with the support of the advisors.

In light of the information received, the Board much appreciated the interest expressed in such Consortium NBO, despite considering that - just like the KKR NBO - it did not reflect the value of the asset and TIM's expectations. Therefore, in compliance with what had happened in the context of the KKR NBO, in order to foster the alignment of the conditions of the operation proposed with respect to the strategic context relevant to TIM, the Board has resolved to make certain specific information available to the Consortium - on a non-exclusive basis - and to request the additional indications necessary to fully understand the topics and economics of the Consortium NBO.

In addition, in order to allow both the Consortium and KKR to submit their best offers in a defined competitive process, it appointed the Chief Executive Officer, Pietro Labriola, to start a regulated process, sending both offerers, through their advisors, a process letter setting out:

- the terms that would give them access to additional, specific information, identical for both offerers;
- the ways by which each could submit a better non-binding offer by April 18, 2023.

The Board also resolved to assign the Related Parties Committee the task of carrying out due investigations in respect of both offers.

Agreement with the trade unions pursuant to Art. 4 of Law 92/2012

On March 21, 2023, TIM S.p.A. and the Trade Unions signed an agreement pursuant to Art. 4 of Italian Law no. 92/2012. The agreement involves an incentive to take redundancy for up to 2,000 people and is valid until November 30, 2023.

NOTE 46
LIST OF COMPANIES OF THE TIM GROUP

In accordance with Consob Communication DEM/6064293 dated July 28, 2006, the list of companies is provided herein.

The list is divided by type of investment, consolidation method and operating segment.

The following is indicated for each company: name, head office, country and share capital in the original currency. In addition to the percentage ownership of share capital, the percentage of voting rights in the ordinary shareholders' meeting, if different from the percentage holding of share capital, and which companies hold the investment.

Company name	Reg. office	Currency	Share Capital	% Ownership	% of voting rights	Participating companies

CERTIFICATION OF THE CONSOLIDATED FINANCIAL STATEMENTS PURSUANT TO ARTICLE 81-TER OF THE CONSOB REGULATION 11971 DATED MAY 14, 1999, WITH AMENDMENTS AND ADDITIONS

1. We, the undersigned, Pietro Labriola, as Chief Executive Officer, and Adrian Calaza Noia, as Manager responsible for preparing TIM S.p.A. financial reports, certify, having also considered the provisions of Article 154-bis, subsections 3 and 4, of Italian Legislative Decree 58 of February 24, 1998:
   - the adequacy in relation to the characteristics of the company and
   - the effective application of the administrative and accounting procedures used in the preparation of the consolidated financial statements for the 2022 fiscal year.

2. TIM has adopted the Internal Control – Integrated Framework Model (2013), issued by the Committee of Sponsoring Organizations of the Treadway Commission, as its framework for the establishment and assessment of its internal control system, with particular reference to the internal controls for the preparation of the financial statements.

3. The undersigned also certify that:

   3.1. the Consolidated Financial Statements at December 31, 2022:

   a) have been prepared in compliance with the international accounting standards adopted by the European Union pursuant to Regulation (EC) 1606/2002 of the European Parliament and Council of July 19, 2002 (International Financial Reporting Standards – IFRS), as well as the legislative and regulatory provisions in force in Italy, including, in particular, the measures enacted for the implementation of Article 9 of Italian Legislative Decree 38 of February 28, 2005;

   b) agree with the results of the accounting records and entries;

   c) provide a true and fair view of the financial condition, the results of operations and the cash flows of the Company and its consolidated subsidiaries;

   3.2. The report on operations contains a reliable operating and financial review of the Company and of the Group, as well as a description of their exposure to the main risks and uncertainties. The Report on Operations also contains a reliable analysis of information concerning significant related-party transactions.

Independent auditor's report pursuant to article 14 of Legislative Decree n. 39, dated 27 January 2010 and article 10 of EU Regulation n. 537/2014
(Translation from the original Italian text)

To the Shareholders of
TIM S.p.A.

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of TIM Group (the Group), which comprise the consolidated statement of financial position as at December 31, 2022, and the consolidated income statement, the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the financial position of the Group as at December 31, 2022, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards as adopted by the European Union and with the regulations issued for implementing art. 9 of Legislative Decree n. 38/2005.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISA Italia). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of TIM S.p.A. in accordance with the regulations and standards on ethics and independence applicable to audits of financial statements under Italian Laws. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

A member firm of Ernst & Young Global Limited

Building a better working world

We identified the following key audit matters:

Key Audit Matter	Audit Response
Impairment test of goodwill – Domestic	
As of December 31, 2022, goodwill amounts to Euro 19,111 million and refers for Euro 18,134 million to the Domestic cash generating unit ("CGU") and for Euro 977 million to the Brazil CGU. The processes and methodologies used by the Group to evaluate and determine the recoverable amount of each CGU, are based on assumptions that are in some cases complex and that, due to their nature, imply the use of judgement by Management, in particular with reference to the forecast of future cash flows and to the estimate of the long-term growth and discount rates applied to the future cash flow forecasts. Considering the level of judgment required and the complexity of the assumptions applied in estimating the recoverable amount of goodwill, we considered this area a key audit matter. Disclosures related to the assessment of goodwill are reported in note 5 "Goodwill" and in note 2 "Accounting policies" in the paragraphs "Intangible assets - Goodwill"," Impairment of intangible, tangible and rights of use assets - Goodwill" and "Use of estimates".	Our audit procedures in response to the key audit matter included, among others: ► the assessment of the processes implemented by the Group with reference to the criteria and methodology of the impairment test; ► the validation of the CGUs perimeter and the test of the allocation of the carrying value of the Group's assets to the Domestic CGU; ► the assessment of the reasonableness of the future cash flows forecasts, including comparisons with sector data and forecasts, utilized in the fair value determination; ► the assessment of the consistency of the future cash flows forecasts of the CGU with the Group business plan; ► the assessment of forecasts in light of their historical accuracy; ► the assessment of the reasonableness of long-term growth rates and discount rates. The procedures referred to in the previous points also concerned the analysis of the assessments performed by the independent experts appointed by the Group. In performing our analysis, we involved our experts in valuation techniques, who performed an independent recalculation and carried out sensitivity analyses on the key assumptions in order to determine which changes in the assumptions could materially affect the recoverable amount. Lastly, we reviewed the adequacy of the disclosures provided in the notes to the consolidated financial statements with regards to the valuation of goodwill.

Building a better working world

Revenue recognition

TIM Group's revenues amounted to Euro 15,788 million as of December 31, 2022, and refer almost entirely to the telecommunications services rendered to retail and wholesale customers (other telecommunications operators).

Procedures over the accounting of revenues required significant focus in the context of our audit procedures due to (i) a highly complex accounting process due to the number of commercial offers, the number of underlying application systems and the related reconciliation processes, (ii) the presence of certain manual phases in the revenue recognition process, in particular for services provided to large customers and (iii) the complexity in estimating commitments connected to certain contracts.

The Group provides the relative disclosures in Note 26 "Revenues" of the consolidated financial statements.

Our audit procedures in response to the key audit matter included, among others:

- an understanding of the processes underlying the revenue recognition;
- the understanding and verification of the design and operating effectiveness of the relevant controls over the revenue recognition process;
- the analysis of the application systems supporting the revenue recognition process;
- the assessment that the accounting policy adopted for the main commercial offers is consistent with the provisions of the reference accounting standard;
- the analysis, on a sample basis, of some significant transactions relating to invoices issued and invoices to be issued, in order to verify that the contractual data and the evidence supporting the actual service rendered and / or goods transferred were consistent with the accounting policy adopted;
- the analysis of the valuation of certain contracts identified as onerous contracts;
- the analysis of the reconciliation of the management accounts with the accounting records in connection with the main balance sheet items related to customer relations;
- the analysis of the manual journal entries.

We also required external confirmations for a sample of customers and transactions.

Lastly, we reviewed the adequacy of the disclosure provided in the notes to the consolidated financial statements with regards to the revenue recognition process.

Regulatory disputes

As of December 31, 2022, TIM Group is involved in several regulatory disputes in progress, many of which are characterized by

Our audit procedures in response to the key audit matter included, among others:

- an understanding of the process put in place

EY Building a better working world

significant counterparty requests. The main disputes concern (i) the 28-day billing proceeding, in which AGCOM ordered TIM to reimburse customers for unused service days, (ii) the I820 proceeding, started by AGCM against TIM and other telco operators, to ascertain a possible conduct restricting market competition, (iii) the I857 proceeding for a possible agreement restricting market competition in connection with the partnership with DAZN and (iv) the A514, and the related "follow-on" proposed by some other OLOs, procedure in which the AGCM charged TIM with conduct aimed at hindering the entry on the market of a new operator. The assessment of the disputes was carried out by Management, as of 31 December 2022, based on the opinion of the external lawyers, as well as considering the latest information available. The estimation of the risks connected to the disputes in which the Group is involved, requires a high degree of judgment by the management and, also considering the complexity of the regulatory framework, we considered this area a key audit matter. Disclosures related to the assessment of the risks relating to the regulatory disputes in which the Group is involved is reported in note 25 "Disputes and pending legal actions, other information, commitments and guarantees".	by Management for assessing disputes, accompanied by test of the effectiveness of the internal controls relevant for this process; ► inquiries with Management regarding the main assumptions made in connection with disputes; ► the analysis of the legal opinions prepared by external consultants, based on which Management has based its assessments; ► the analysis of the responses received from external lawyers following our external confirmations procedures. Lastly, we reviewed the adequacy of the disclosures provided in the notes to the consolidated financial statements.
Fiscal disputes in Brazil	
As of December 31, 2022, the TIM Group is involved in several disputes with the Brazilian tax authorities. The maximum potential liability associated with these disputes, as at December 31, 2022, amounts to Euro 3,270. With reference to this potential liability, the Group recognized a provision of Euro 85 million with regards to the risks deemed probable. The assessment of the risk related to the tax disputes in Brazil in which the Group is involved, requires a high degree of judgment by the	Our audit procedures in response to the key audit matter included, among others: ► an understanding of the process put in place by Management for assessing disputes, accompanied by test of the effectiveness of the controls relevant for this process; ► inquiries with Management regarding the main assumptions made in connection with disputes; ► the analysis of the legal opinions prepared by external consultants, based on which

EY Building a better working world

Management and, also considering the significance of the amounts involved, we considered it to be a key audit matter.

Disclosures related to the assessment of the risks relating to the fiscal disputes in which the Group is involved is reported in note 25 "Disputes and pending legal actions, other information, commitments and guarantees".

Management has based its assessments;

- the analysis of the responses to our external confirmations procedures received from external lawyers, also with the involvement of our experts in tax disputes.

Lastly, we reviewed the adequacy of the disclosures provided in the notes to the consolidated financial statements with regards to the disputes in which the Group is involved, based on their compliance with the international accounting standards and their consistency with the results of our audit procedures.

Recoverability of deferred tax assets

As of December 31, 2022, deferred tax assets amount, net of impairment, to Euro 769 million in the consolidated financial statements.

Deferred tax assets refer to the temporary deductible differences between the book and fiscal values of assets and liabilities in the financial statements.

The recoverability of the carrying amount of the deferred tax assets is subject to management's evaluation and is based on the estimations of the future taxable income expected in the years in which they will be reversed.

The processes and methodologies used to evaluate and determine the recoverable amount of these assets, are based on assumptions that are in some cases complex and that, due to their nature, imply the use of judgement by Management, in particular with reference to the consistency of the forecasts of future taxable income expected by the Group with those included in the business plan.

Considering the level of judgment required and the complexity of the assumptions applied in estimating future taxable amount used to determine the recoverability of the deferred tax assets, we considered this area a key audit matter.

Disclosures related to the assessment of recoverability of deferred tax assets are reported in note 2 "Accounting policies" in the

Our audit procedures in response to the key audit matter included, among others:

- the assessment of the reasonableness of the assumptions underlying the estimation of future taxable income and the reconciliation with the figures included in the Group's business plan, taking into account the regulatory changes that took place during 2022;
- the assessment of the reasonableness of the accuracy of the forecasts compared with the prior periods;
- the assessment of the Management calculations.

Lastly, we reviewed the adequacy of the disclosures provided in the notes to the consolidated financial statements with regards to the recoverability of deferred tax assets.

Building a better working world

paragraphs "Income tax expense (current and deferred)" and "Use of estimates" and in note 12 "Income tax expense (current and deferred)".

Acquisition of Cozani RJ Infraestrutura e Rede de Telecomunicações S.A.

On April 20, 2022, the Group acquired 100% of the share capital of Cozani RJ Infraestrutura e Rede de Telecomunicações S.A., the company to which part of the assets, rights and obligations of Oi Móvel S.A. have been contributed, for a total consideration of Euro 1,373 million.

The acquisition was accounted for as a business combination pursuant to IFRS 3. The Group has estimated the fair value of the assets acquired and the liabilities assumed, as well as the value of the contingent consideration, using valuation models and assumptions based on future performance (including revenue growth rates and churn rate).

Considering the level of judgment required and the complexity of the assumptions used in estimating the fair value of the assets acquired and liabilities assumed, mainly with reference to the customer relationship, we considered this area a key audit matter.

Disclosures related to the transaction are reported in note 4 "Business combinations".

Our audit procedures in response to the key audit matter included, among others:

- test of the design and effectiveness of the controls put in place to mitigate the risks associated with the valuation process, with particular reference to controls that concern the identification of assets acquired as well as the determination of the inputs of the valuation model;
- the assessment of the reasonableness of the inputs used in the model, as well as the most significant assumptions used by the Company Management in the preparation of the perspective financial information;
- the analysis of the completeness and accuracy of the data used in the model, comparing them with market data and trends.

In performing our analysis, we involved our experts in valuation techniques, who performed an independent recalculation and carried out sensitivity analyses on the key assumptions in order to determine which changes in the assumptions could materially affect the estimation of the fair value of the assets acquired and the liabilities assumed.

Lastly, we reviewed the adequacy of the disclosures provided in the notes to the consolidated financial statements.

Responsibilities of Directors and Those Charged with Governance for the Consolidated Financial Statements

The Directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with International Financial Reporting Standards as adopted by the European Union and with the regulations issued for implementing art. 9 of Legislative Decree n. 38/2005, and, within the terms provided by the law, for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement,

Building a better working world

whether due to fraud or error.

The Directors are responsible for assessing the Group's ability to continue as a going concern and, when preparing the consolidated financial statements, for the appropriateness of the going concern assumption, and for appropriate disclosure thereof. The Directors prepare the consolidated financial statements on a going concern basis unless they either intend to liquidate the Parent Company TIM S.p.A. or to cease operations, or have no realistic alternative but to do so.

The statutory audit committee ("Collegio Sindacale") is responsible, within the terms provided by the law, for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but it is not a guarantee that an audit conducted in accordance with International Standards on Auditing (ISA Italia) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with International Standards on Auditing (ISA Italia), we have exercised professional judgment and maintained professional skepticism throughout the audit. In addition:

- we have identified and assessed the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, designed and performed audit procedures responsive to those risks, and obtained audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- we have obtained an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Group's internal control;
- we have evaluated the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors;
- we have concluded on the appropriateness of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to consider this matter in forming our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern;
- we have evaluated the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- we have obtained sufficient appropriate audit evidence regarding the financial information of

the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We have communicated with those charged with governance, identified at an appropriate level as required by ISA Italia, regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We have provided those charged with governance with a statement that we have complied with the ethical and independence requirements applicable in Italy, and we have communicated with them all matters that may reasonably be thought to bear on our independence, and where applicable, the actions taken to eliminate relevant risks or the safeguard measures applied.

From the matters communicated with those charged with governance, we have determined those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We have described these matters in our auditor's report.

Additional information pursuant to article 10 of EU Regulation n. 537/14

The shareholders of TIM S.p.A., in the general meeting held on March 29, 2019, engaged us to perform the audits of the separate and consolidated financial statements for each of the years ending December 31, 2019 to December 31, 2027.

We declare that we have not provided prohibited non-audit services, referred to article 5, par. 1, of EU Regulation n. 537/2014, and that we have remained independent of the Group in conducting the audit.

We confirm that the opinion on the consolidated financial statements included in this report is consistent with the content of the additional report to the audit committee (Collegio Sindacale) in their capacity as audit committee, prepared pursuant to article 11 of the EU Regulation n. 537/2014.

Report on compliance with other legal and regulatory requirements

Opinion on the compliance with Delegated Regulation (EU) 2019/815

The Directors of TIM S.p.A. are responsible for applying the provisions of the European Commission Delegated Regulations (EU) 2019/815 for the regulatory technical standards on the specification of a single electronic reporting format (ESEF – European Single Electronic Format) (the "Delegated Regulation") to the consolidated financial statements, to be included in the annual financial report.

We have performed the procedures under the auditing standard SA Italia n. 700B, in order to express an opinion on the compliance of the consolidated financial statements with the provisions of the Delegated Regulation.

In our opinion, the consolidated financial statements have been prepared in the XHTML and have been marked-up, in all material aspects format in compliance with the provisions of the Delegated Regulation.

Due to certain technical limitations, some information included in the illustrative notes to the consolidated financial statements when extracted from the XHTML format to an XBRL instance may

not be reproduced in an identical manner with respect to the corresponding information presented in the consolidated financial statements in XHTML format.

Opinion pursuant to article 14, paragraph 2, subparagraph e), of Legislative Decree n. 39 dated 27 January 2010 and of article 123-bis, paragraph 4, of Legislative Decree n. 58, dated 24 February 1998

The Directors of TIM S.p.A. are responsible for the preparation of the Report on Operations and of the Report on Corporate Governance and Ownership Structure of TIM Group as at December 31, 2022, including their consistency with the related consolidated financial statements and their compliance with the applicable laws and regulations.

We have performed the procedures required under audit standard SA Italia n. 720B, in order to express an opinion on the consistency of the Report on Operations and of specific information included in the Report on Corporate Governance and Ownership Structure as provided for by article 123-bis, paragraph 4, of Legislative Decree n. 58, dated 24 February 1998, with the consolidated financial statements of TIM Group] as at December 31 ,2022 and on their compliance with the applicable laws and regulations, and in order to assess whether they contain material misstatements.

In our opinion, the Report on Operations and the above mentioned specific information included in the Report on Corporate Governance and Ownership Structure are consistent with the consolidated financial statements of TIM Group as at December 31, 2022, and comply with the applicable laws and regulations.

With reference to the statement required by art. 14, paragraph 2, subparagraph e), of Legislative Decree n. 39, dated 27 January 2010, based on our knowledge and understanding of the entity and its environment obtained through our audit, we have no matters to report.

Statement pursuant to article 4 of Consob Regulation implementing Legislative Decree n. 254, dated 30 December 2016

The Directors of TIM S.p.A. are responsible for the preparation of the non-financial information pursuant to Legislative Decree n. 254, dated 30 December 2016. We have verified that non-financial information have been approved by Directors.

Pursuant to article 3, paragraph 10, of Legislative Decree n. 254, dated 30 December 2016, such non-financial information are subject to a separate compliance report signed by us.

Turin, March 30, 2023

EY S.p.A.
Signed by: Ettore Abate, Auditor

As disclosed by the Directors, the accompanying consolidated financial statements of TIM S.p.A. constitute a non-official version which is not compliant with the provisions of the Commission Delegated Regulation (EU) 2019/815. This independent auditor's report has been translated into the English language solely for the convenience of international readers. Accordingly, only the original text in Italian language is authoritative.

NOTE 1
FORM, CONTENT AND OTHER GENERAL INFORMATION

Form and content

Telecom Italia S.p.A. (the "**Parent Company**"), also known in short as "TIM S.p.A.", and its subsidiaries form the **"TIM Group**" **(the "Group")**.
TIM is a joint-stock company (S.p.A.) organized under the laws of the Republic of Italy.

The registered offices of the Parent, TIM, are located in Milan, Italy at Via Gaetano Negri 1.

The duration of TIM S.p.A., as stated in the company's bylaws, extends until December 31, 2100.

The TIM Group operates mainly in Europe, the Mediterranean Basin and South America.

The Group is engaged principally in the communications sector and, particularly, the fixed and mobile national and international telecommunications sector.

The TIM Group's Consolidated Financial Statements at December 31, 2021, have been prepared on a going concern basis (further details are provided in the Note "Accounting Policies") and in accordance with the recognition and measurement criteria of the International Financial Reporting Standards issued by the International Accounting Standards Board and endorsed by the European Union (designated as "**IFRS**"), as well as laws and regulations in force in Italy.

In 2021, the Group adopted accounting policies consistent with those of the previous year, except for the changes to the accounting standards issued by the IASB and in force as of January 1, 2021. See the Note "Accounting policies" for more details.

The consolidated financial statements have been prepared under the historical cost convention, except for financial assets, which are measured at the fair value recognized in the other components of the comprehensive income, financial assets measured at fair value through the income statement, and derivative financial instruments, which have been measured at fair value. The carrying amounts of hedged assets and liabilities have been adjusted to reflect the changes in fair value of the hedged risks (fair value hedge).

In accordance with IAS 1 (Presentation of Financial Statements) comparative information included in the consolidated financial statements refers, unless otherwise indicated, to the previous year.

The TIM Group consolidated financial statements as at December 31, 2021 are expressed in euro (rounded to the nearest million unless otherwise indicated).

The publication of the consolidated financial statements for the year ended December 31, 2021 of the TIM Group was approved by resolution of the Board of Directors on March 02, 2022.

Financial statement formats

The financial statement formats adopted are consistent with those indicated in IAS 1. In particular:

- **the Consolidated statements of financial position** have been prepared by classifying assets and liabilities according to the "current and non-current" criterion;
- the **Separate Consolidated Income Statement** has been prepared by classifying operating costs by nature of expense as this form of presentation is considered more appropriate and representative of the specific business of the Group, conforms to internal reporting, and is in line with the TIM Group's industrial sector.
  In addition to EBIT or Operating profit (loss), the separate consolidated income statement includes the alternative performance measure of EBITDA or Operating profit (loss) before depreciation and amortization, Capital gains (losses) and Impairment reversals (losses) on non-current assets.

  In particular, besides EBIT, EBITDA is used by TIM as the financial target in internal presentations (business plans) and in external presentations (to analysts and investors), as a useful unit of measurement for the evaluation of the operating performance of the Group (as a whole and at the Business Unit level).

EBIT and EBITDA are calculated as follows:

	Profit (loss) before tax from continuing operations
+	Finance expenses
-	Finance income
+/-	Other expenses (income) from investments
+/-	Share of profits (losses) of associates and joint ventures accounted for using the equity method
	EBIT – Operating profit (loss)
+/-	Impairment losses (reversals) on non-current assets
+/-	Losses (gains) on disposals of non-current assets
+	Depreciation and amortization
	EBITDA – Operating profit before depreciation and amortization, capital gains (losses) and impairment reversals (losses) on non-current assets

- the **Consolidated statements of comprehensive income** include the profit or loss for the year as shown in the Separate Consolidated Income Statement and all other non-owner changes in equity;
- the **Consolidated statements of cash flows** have been prepared by presenting cash flows from operating activities according to the "indirect method", as permitted by IAS 7 (Statement of Cash Flows).

Furthermore, as required by Consob Resolution 15519 of July 27, 2006, in the separate consolidated income statement, income and expenses relating to transactions which by nature do not occur during normal operation (non-recurring transactions) have been specifically identified and their impacts on the main intermediate levels have been shown separately, when they are significant. Specifically, non-recurring income/(expenses) include, for instance: income/expenses arising from the sale of properties, plant and equipment, business segments and investments; expenses stemming from company reorganization and streamlining processes and projects, also in connection with corporate transactions (mergers, spin-offs, etc.); expenses resulting from litigation and regulatory fines and related liabilities; other provisions and related reversals; costs for the settlement of disputes other than regulatory disputes; adjustments, realignments and other non-recurring items, also relating to previous years; impairment losses on goodwill and/or other intangible and tangible assets. Certain costs related to the COVID-19 pandemic are also identified as non-recurring charges.
Also in reference to the above Consob Resolution, the amounts relating to balances or transactions with related parties have been shown separately in the consolidated financial statements.

Segment reporting

An operating segment is a component of an entity:

- that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity);
- whose operating results are regularly reviewed by the entity's chief operating decision maker to make decisions about resources (for the TIM Group, the Board of Directors of the Parent) to be allocated to the segment and assess its performance; and
- for which separate financial information is available.

In particular, the operating segments of the TIM Group are organized according to geographic location (Domestic and Brazil) for the telecommunications business.
The term "operating segment" is considered synonymous with "Business Unit".
The operating segments of the TIM Group are as follows:

- **Domestic**: includes operations in Italy for voice and data services on fixed and mobile networks for end customers (retail) and other operators (wholesale), the operations of the Telecom Italia Sparkle group, which, at international level (Europe, the Mediterranean and South America), develops fiber optic networks for wholesale customers, the operations of the company FiberCop for the supply of passive access services to the secondary copper and fiber network, the business of Noovle S.p.A. (Cloud and Edge computing solutions), the business of Olivetti (products and services for Information Technology) and the units supporting the Domestic sector. See the section "Financial and Operating Highlights of the Business Units of the TIM Group – Domestic Business Unit" of the Report on Operations for more details;
- **Brazil**: includes mobile and fixed telecommunications operations in Brazil (TIM S.A.);
- **Other Operations**: include the financial companies (Telecom Italia Capital S.A. and Telecom Italia Finance S.A.) and other minor companies not strictly related to the TIM Group's core business.

NOTE 2
ACCOUNTING POLICIES

Going concern

The consolidated financial statements for the business year 2021 have been prepared on a going concern basis, as there is the reasonable expectation that TIM will continue conducting its business in the foreseeable future (and, in any event, over a period of at least twelve months).
In particular, the following factors have been taken into consideration:

- the main risks and uncertainties (that are for the most part of an external nature) to which the Group and the various activities of the TIM Group are exposed:
  - the changes in the general macroeconomic situation in the Italian, European and Brazilian market, including the effects deriving from the continued state of COVID-19 health emergency, as well as the volatility of financial markets in the Eurozone, partly following the UK's Brexit;
  - variations in business conditions, also related to competition;
  - changes to laws and regulations (price and rate variations);
  - outcomes of legal disputes and proceedings with regulatory authorities, competitors and other parties;
  - financial risks (interest rate and/or exchange rate trends, changes in the Group's credit rating by rating agencies);
- the optimal mix between risk capital and debt capital, as well as the policy for the remuneration of risk capital, as described in the section "Share capital information" under the Note "Equity";
- the policy for financial risk management (market risk, credit risk and liquidity risk), as described in the Note "Financial risk management".

Based on these factors, the Management believes that, at the present time, there are no elements of uncertainty regarding the Group's ability to continue as a going concern.

Principles of consolidation

The consolidated financial statements include the financial statements of all subsidiaries from the date on which control over such subsidiaries commences until the date on which control ceases.

The date of all the subsidiaries' financial statements coincides with that of the Parent company, TIM.

Control exists when the Parent company TIM S.p.A. has all the following:

- decision-making power over the investee, which includes the ability to direct the relevant activities of the investee, i.e. the activities that significantly affect the investee's returns;
- entitlement to the variable profits or losses commensurate with its shareholding in the investee;
- the ability to use its decision-making to determine the amount of the returns relating to its shareholding in the entity.

TIM assesses whether it controls an investee if facts and circumstances indicate that there are changes in one or more of the three control elements.

In the preparation of the consolidated financial statements, the global amounts of the assets, liabilities, costs and revenues of the consolidated companies are recognized on a line-by-line basis, while the share of equity and the year's result of non-controlling interest is recognized is disclosed separately under appropriate items in the consolidated statements of financial position, in the separate consolidated income statement and in the consolidated statements of comprehensive income.

Under IFRS 10 (Consolidated financial statements), the comprehensive loss (including the profit or loss for the year) is attributed to the shareholders of the parent company and to non-controlling interest even when the equity of non-controlling interest has a deficit balance.

All intragroup balances and transactions and any gains and losses arising from intragroup transactions are eliminated in consolidation.

The carrying amount of the investment in each subsidiary is eliminated against the corresponding share of equity in each subsidiary, after adjustment, if any, to fair value at the date of acquisition of control. At that date, goodwill is recorded as an intangible asset, as described below, whereas any gain from a bargain purchase (or negative goodwill) is recognized in the separate consolidated income statement.

All the assets and liabilities expressed in currencies other than euro of foreign consolidated entities that are included in the consolidation are translated using the exchange rates in effect at the reporting date (the current exchange rate method), while the related revenues and costs are translated at the average exchange rates for the year. Exchange differences resulting from the application of this method are classified as equity until the entire disposal of the investment or upon loss of control of the foreign subsidiary. Upon partial disposal, without losing control, the proportionate share of the cumulative amount of exchange differences related to the disposed interest is recognized as non-controlling interest equity. The cash flows of foreign consolidated subsidiaries expressed in currencies other than euro included in the consolidated statements of cash flows are translated into euro at the average exchange rates for the year.

Goodwill and fair value adjustments arising from the allocation of the purchase price of a foreign entity are recorded in the relevant foreign currency and are translated using the year-end exchange rate.

Under IFRS 10, changes in a parent's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. In such circumstances, the carrying amounts of controlling and non-controlling interests shall be adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interest is adjusted and the fair value of the consideration paid or received shall be recognized directly in equity and attributed to the shareholders of the parent company.

Under IFRS 10, the parent company in case of loss of control of a subsidiary:

- derecognizes:
  - the assets (including any goodwill) and the liabilities;
  - the carrying amount of any non-controlling interest;
- recognizes:
  - the fair value of any consideration received;
  - the fair value of any residual investment retained in the former subsidiary;
  - any gain or loss resulting from the transaction, in the separate consolidated income statement;
  - the reclassification to the separate consolidated income statement of the amounts previously recognized in other comprehensive income in relation to the subsidiary.

In the consolidated financial statements, investments in associates and joint ventures are accounted for using the equity method, as provided, respectively, by IAS 28 (Investments in Associates and Joint Ventures) and IFRS 11 (Joint Arrangements).

Associates are enterprises in which the Group holds at least 20% of the voting rights or exercises significant influence, but no control or joint control over their financial and operating policies.

A joint venture is a joint control arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the entity.

Joint control is the contractually agreed sharing of control of a business that exists only when decisions about the relevant business require the unanimous consent of the parties sharing control.

Associates and joint ventures are included in the consolidated financial statements from the date on which significant influence or joint control commences until the date on which significant influence or joint control ceases.

Under the equity method, on initial recognition the investment in an associate or joint venture is recognized at cost, and the carrying amount is increased or decreased to recognize the investor's share of the profit or loss of the investee after the date of acquisition. The investor's share of the investee's profit or loss is recognized in the separate consolidated income statement. Dividends received from an investee reduce the carrying amount of the investment.

Adjustments to the carrying amount may also be necessary for changes in the investee's other comprehensive income (i.e. those arising from foreign exchange translation differences). The investor's share of those changes is recognized in the investor's other comprehensive income.

If an investor's share of losses of an associate or a joint venture equals or exceeds its interest in the associate or joint venture, the investor discontinues recognizing its share of further losses. After the investor's interest is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the investor has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture. If the associate or joint venture subsequently reports profits, the investor resumes recognizing its share of those profits only after its share of the profits equals the share of losses not recognized.

Any other long-term interests (some types of preference shares and long-term loans) in an associate or joint venture are measured in accordance with IFRS 9.

Gains and losses resulting from "upstream" and "downstream" transactions between an investor (including its consolidated subsidiaries) and its associate or joint venture are recognized in the investor's financial statements only to the extent of unrelated investors' interests in the associate or joint venture.

The investor's share of profits and losses of the associate or joint venture arising from said transactions is eliminated.

Intangible assets

Goodwill

In accordance with IFRS 3 (Business Combinations), goodwill is recognized in the financial statements at the date of acquisition of control of a business and is determined as the excess of (a) over (b), as follows:

a) the aggregate of:

- the consideration transferred (measured in accordance with IFRS 3; it is generally recognized on the basis of the fair value at the acquisition date);
- the amount of any non-controlling interest in the acquiree measured proportionally to the non-controlling interest share of the acquiree's identifiable net assets shown at the related fair value;
- in a business combination achieved in stages, the acquisition date fair value of the acquirer's previously held equity interest in the acquiree;

b) the fair value of the identifiable assets acquired net of the identifiable liabilities assumed, measured at the date of acquisition of control.

IFRS 3 requires, inter alia, the following:

- incidental costs incurred in connection with a business combination to be charged to the separate income statements;
- in a business combination achieved in stages, the acquirer to remeasure its previously held equity interest in the acquiree at its fair value at the date of acquisition of control and recognize the resulting gain or loss, if any, in the separate income statements.

Goodwill is classified in the statement of financial position as an intangible asset with an indefinite useful life.

Goodwill initially recognized is subsequently reduced only by cumulative impairment losses (for more details, see the section "Impairment of intangible assets, tangible assets and rights of use assets - Goodwill", below). In case of loss of control of a subsidiary, the relative amount of goodwill is taken into account in calculating the gain or loss on disposal.

Development costs

Costs incurred internally for the development of new products and services represent either intangible assets (mainly costs for software development) or tangible assets. These costs are capitalized only when all the following conditions are satisfied: i) the cost attributable to the development phase of the asset can be measured reliably, ii) there is the intention, the availability of financial resources and the technical ability to complete the asset and make it available for use or sale, and iii) it can be demonstrated that the asset will be able to generate future economic benefits. Capitalized development costs comprise only incurred expenditures that can be attributed directly to the development process for new products and services.

Capitalized development costs are amortized/depreciated systematically over the estimated product or service life, so that the amortization method reflects the way in which the asset's future economic benefits are expected to be consumed by the entity.

Other intangible assets with a finite useful life

Other purchased or internally-generated intangible assets with a finite useful life are recognized as assets, in accordance with IAS 38 (Intangible Assets), when the use of the asset is likely to generate future economic benefits and when the cost of the asset can be reliably measured.

Such assets are recorded at purchase or production cost and amortized on a straight-line basis over their estimated useful lives; the amortization rates are reviewed annually and revised if the current estimated useful life is different from that estimated previously. The effect of such changes is recognized prospectively in the separate consolidated income statement.

Tangible assets

Property, plant and equipment

Property, plant and equipment are recognized at purchase or production cost. Subsequent expenditures are capitalized only if they increase the future economic benefits embodied in the related item of property, plant and equipment. All other expenditures are recognized in the separate consolidated income statement as incurred.

The cost of these assets also includes the expected costs of dismantling the asset and restoring the site, if a legal or constructive obligation exists. The corresponding liability is recognized at its present value in a provision for risks and charges in the liabilities. The recognition in the separate consolidated income statement of the capitalized expenditure is done over the useful life of the related tangible assets through their depreciation.

The calculation of estimates for dismantling costs, discount rates and the dates in which such costs are expected to be incurred is reviewed annually at each financial year-end. Changes in the above liability must be recognized as an increase or decrease of the cost of the relative asset; the amount deducted from the cost of the asset must not exceed its carrying amount. The excess, if any, is recorded immediately in the separate consolidated income statement, conventionally under the line item "Depreciation".

Depreciation is calculated on a straight-line basis over the estimated useful life of the assets.

Depreciation rates are reviewed annually and revised if the current estimated useful life is different from that estimated previously. The effect of such changes is recognized prospectively in the separate consolidated income statement.

Land, including land pertaining to buildings, is not depreciated.

Rights of use assets

In accordance with IFRS 16, lease liabilities are presented through the recognition of a financial liability in the statement of financial position consisting in the present value of future lease payments, against the recognition of the right of use of the leased asset.

On the commencement date of the lease, the right of use is recognized at cost including: the amount of the initial measurement of the lease liability, any lease payments made at or before the commencement date, initial direct costs incurred for the signature of the lease and the present value of the estimated restoration and dismantling costs set out in the lease, less any incentives.

Subsequently, the right of use is amortized over the term of the lease (or the useful life of the asset, if lower), subject to impairment and adjusted for any remeasurement of the lease liability.

It is specified that starting January 1, 2021, the TIM Group has attracted, under the scope of application of IFRS 16, if the criteria and the requirements laid down by the standard are met, the new contract types concerning cloud software resources and the spectrum of transmission frequencies on optic fiber carriers. This approach is functional to the very innovative specificity of these types of contract, concerning hardware infrastructure and optical transmission as well as technologically-advanced software services.

Capitalized borrowing costs

Under IAS 23 (*Borrowing Costs*), the Group capitalizes borrowing costs only if they are directly attributable to the acquisition, construction or production of an asset that takes a substantial period of time (conventionally more than 12 months) to get ready for its intended use or sale.

Capitalized borrowing costs are recorded in the separate consolidated income statement and deducted directly from the "finance expense" line item to which they relate.

Impairment of intangible, tangible and rights of use assets

Goodwill

Goodwill is tested for impairment at least annually or more frequently whenever events or changes in circumstances indicate that goodwill may be impaired, as set forth in IAS 36 (Impairment of Assets); however, when the conditions that gave rise to an impairment loss no longer exist, the original amount of goodwill is not reinstated.

The test is generally conducted at the end of every year, so the date of testing is the year-end closing date of the financial statements. Goodwill acquired and allocated during the year is tested for impairment at the end of the year in which the acquisition and allocation took place.

For the purpose of verifying its recoverability, goodwill is allocated, from the acquisition date, to each of the cash-generating units, or groups of cash-generating units, that is expected to benefit from the combination.

If the carrying amount of the cash-generating unit (or group of cash-generating units) exceeds the recoverable amount, an impairment loss is recognized in the separate consolidated income statement. The impairment loss is first recognized as a deduction of the carrying amount of goodwill allocated to the cash-generating unit (or group of cash-generating units) and only subsequently applied to the other assets of the cash-generating unit in proportion to their carrying amount, up to the recoverable amount of the assets with a finite useful life. The recoverable amount of a cash-generating unit (or group of cash-generating units) to which goodwill is allocated is the higher between the fair value less costs to sell and its value in use.

The fair value net of disposal costs is estimated on the basis of the income approach, insofar as this allows for the reflection of the benefits deriving from a new, different business structure in the future. In particular, the fair value net of disposal costs is based on the current value of the forecast cash flow, applying a discounting rate that reflects current market assessments of the time value of money and the risks specific to the asset. The future cash flows are those arising from an explicit time horizon between three and five years, as well as those extrapolated to estimate the terminal value.

In calculating the value in use, the estimated future cash flows are discounted to present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. The future cash flows are those arising from an explicit time horizon between three and five years, as well as those extrapolated to estimate the terminal value. The long-term growth rate used to estimate the terminal value of the cash-generating unit (or group of cash-generating units) is assumed not to be higher than the average long-term growth rate of the segment, country or market in which the cash-generating unit (or group of cash-generating units) operates.

The value in use of cash-generating units denominated in foreign currency is estimated in the local currency by discounting cash flows to present value on the basis of an appropriate rate for that currency. The present value obtained is translated to euro at the spot rate on the date of the impairment test (in the case of the TIM Group, the closing date of the financial statements).

Future cash flows are estimated by referring to the current operating conditions of the cash-generating unit (or group of cash-generating units) and, therefore, do not include either benefits originating from future restructuring for which the entity is not yet committed, or future investments for the improvement or optimization of the cash-generating unit.

For the purpose of calculating impairment, the carrying amount of the cash-generating unit is established based on the same criteria used to determine the recoverable amount of the cash-generating unit, excluding

surplus assets (that is, financial assets, deferred tax assets and net non-current assets held for sale) and includes the goodwill attributable to non-controlling interest (minority shareholders).

After conducting the goodwill impairment test for the cash-generating unit (or groups of cash-generating units), a second level of impairment testing is carried out which includes the corporate assets which do not generate positive cash flows and which cannot be allocated by a reasonable and consistent criterion to the single units. At this second level, the total recoverable amount of all cash-generating units (or groups of cash-generating units) is compared to the carrying amount of all cash-generating units (or groups of cash-generating units), including also those cash-generating units to which no goodwill was allocated, and the corporate assets.

Tangible and intangible assets with finite useful lives and rights of use assets

At the end of each reporting period, the Group assesses whether there is any indication that an asset – whether intangible or tangible with finite useful lives or a right-of-use – may be impaired. Both internal and external sources of information are used for this purpose. Internal sources include obsolescence or physical deterioration, and significant changes in the use of the asset and the economic performance of the asset compared to estimated performance. External sources include the market value of the asset, any changes in technology, markets or laws, trends in market interest rates and the cost of capital used to evaluate investments, and an excess of the carrying amount of the net assets of the Group over market capitalization.

If there is any indication that an asset – whether tangible or intangible with finite useful lives or a right of use – has been impaired, then its carrying amount is reduced to its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell, and its value in use. In calculating the value in use, the estimated future cash flows are discounted to present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or right. If it is not possible to estimate the recoverable amount, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. Impairment losses are recognized in the separate consolidated income statement.

When the reasons for the impairment subsequently cease to exist, the carrying value of the asset/right-of-use or of the cash generating unit is increased up to the new estimate of the recoverable amount which, however, cannot exceed the amount that would have been determined had no impairment loss been recognized. The reversal of an impairment loss is recognized as income in the separate consolidated income statement.

Financial instruments

Business models for financial assets management

For the management of trade receivables, TIM Group Management has identified different business models based on the specific nature of the receivables, the type of counterparty and collection times, this was in order to optimize the management of working capital through the constant monitoring of the payment performance of customers, the steering of credit collection policies, and the management of programs for the disposal of receivables, and the activation of factoring consistent with financial planning requirements.

The business models adopted are:

- Hold to Collect: receivables usually held to maturity, such as trade receivables due from large customers and the OLOs for the Domestic Business Unit, and all receivables for the Brazil Business Unit; these instruments fall within the IFRS 9 category “Assets measured at amortized cost”. These receivables can be transferred, albeit not recurrently, if this is needed to optimize finances;
- Hold to Collect and Sell: receivables usually traded massively and on a recurring basis, such as, for the Domestic Business Unit, receivables due from active consumer, small and business customers held for sale; these instruments fall under the IFRS 9 category "Financial assets measured at fair value through other comprehensive income". As required by IFRS 9, the related reserve is reversed to the separate consolidated income statement when disposed of or impaired.

As part of managing financial assets other than trade receivables, the TIM Group's Management identified its business models on the basis of how the financial instruments are managed and how their cash flows are used. This is done to ensure an adequate level of financial flexibility and to best manage, in terms of risks and returns, the financial resources immediately available through the treasuries of Group companies and in accordance with the strategies set forth by the Parent TIM.

The business models adopted are:

- Hold to Collect: financial instruments used to absorb temporary cash surpluses; such instruments are low risk and mostly held to maturity; they are measured at amortized cost;
- Hold to Collect and Sell: monetary or debt instruments used to absorb short/medium-term cash surpluses; such instruments are low risk and generally held to maturity, or otherwise sold to cover specific cash requirements; they are measured at fair value through other consolidated comprehensive income;
- Hold to Sell: monetary, debt and equity trading instruments used to dynamically manage cash surpluses not managed under the business models identified above; such instruments are higher risk and traded repeatedly over time; they are measured at fair value through the separate consolidated income statement.

Other investments

Other investments (other than those in subsidiaries, associates and joint ventures) are classified as non-current or current assets if they will be kept in the Group's portfolio for a period of more or not more than 12 months, respectively.

Other investments are classified as “financial assets measured at fair value through consolidated profit or loss” (FVTPL), as current assets.

At the purchase time of each investment, IFRS 9 provides for the irrevocable option to recognize these investments in "financial assets measured at fair value through other consolidated comprehensive income" (FVTOCI) as non-current or current assets.

The other investments classified as “financial assets measured at fair value through other comprehensive income” are measured at fair value; changes in the fair value of these investments are recognized in a special equity reserve under the other components of the statements of comprehensive income (Reserve for financial assets measured at fair value through other comprehensive income), without reclassification to the separate income statements when the financial asset is disposed of or impaired. Dividends are recognized in the separate consolidated income statement.

Changes in the value of other investments classified as "financial assets at fair value through profit or loss" are recognized directly in the separate consolidated income statement.

Securities other than investments

Securities other than investments, included among non-current or current assets, depending on the business model adopted and the contractual flows envisaged, fall among financial assets measured at amortized cost, or measured at fair value through other comprehensive income or at fair value though profit or loss.

Securities other than investments classified as current assets are those that, by decision of the directors, are intended to be kept in the Group's portfolio for a period of not more than 12 months, and are classified:

- as "financial assets measured at amortized cost" (AC) when held to maturity (originally more than 3 months but less than 12 months, or, although they had an original maturity of more than 12 months, they have been bought in a period during which maturity was included between 3 and 12 months);
- as "financial assets measured at fair value through other consolidated comprehensive income" (FVTOCI) when held in the scope of a business model whose objective is to sell the financial asset and/or collect the contractual cash flows. The consolidated "Reserve for financial assets measured at fair value through other comprehensive income" is reversed to the separate consolidated income statement when the financial asset is disposed of or impaired;
- as “financial assets measured at fair value through consolidated profit or loss" (FVTPL) in the other cases.

Cash and cash equivalents

Cash and cash equivalents are recorded, according to their nature, at nominal value or amortized cost.

Cash equivalents are short-term and highly liquid investments that are readily convertible to known amounts of cash, subject to an insignificant risk of change in value and their original maturity or the remaining maturity at the date of purchase does not exceed 3 months.

Impairment of financial assets

At every closing date, assessments are made as to whether there is any objective evidence that a financial asset or a group of financial assets has been impaired.

The impairment of financial assets is based on the expected credit loss model.

In particular:

- impairment on trade receivables and on contract assets is carried out using the simplified approach that involves estimating the loss expected over the life of the receivable at the time of initial recognition and on subsequent measurements. For each customer segment, the estimate is principally made by calculating the average expected uncollectibility, based on historical and statistical indicators, possibly adjusted using forward-looking elements. For some categories of receivables characterized by specific risk elements, specific measurements are made on individual credit positions;
- the impairment of financial assets other than trade receivables is calculated on the basis of a general model which estimates expected credit losses over the following 12 months or over the residual life of the asset in the event of a substantial worsening of its credit risk.

Derivative financial instruments

As allowed by IFRS 9, the TIM Group decided to continue to apply the hedge accounting provisions contained in IAS 39 instead of those of IFRS 9.

Derivatives are used by the TIM Group to manage its exposure to exchange rate and interest rate risks and to diversify the parameters of debt, so that costs and volatility can be reduced within pre-established operational limits.

In accordance with IAS 39, derivative financial instruments qualify for hedge accounting only when:

- at the inception of the hedge, the hedging relationship is formally designated and documented;
- the hedge is expected to be highly effective;
- its effectiveness can be reliably measured;
- the hedge is highly effective throughout the financial reporting periods for which it is designated.

All derivative financial instruments are measured at fair value in accordance with IAS 39.

When derivative financial instruments qualify for hedge accounting, the following accounting treatment applies:

- Fair value hedge – Where a derivative financial instrument is designated as a hedge of the exposure to changes in fair value of an asset or liability due to a particular risk, the gain or loss from re-measuring the hedging instrument at fair value is recognized in the separate consolidated income statement. The gain or loss on the hedged item attributable to the hedged risk adjusts the carrying amount of the hedged item and is recognized in the separate consolidated income statement.
- Cash flow hedge – Where a derivative financial instrument is designated as a hedge of the exposure to variability in cash flows of an asset or liability or a highly probable expected transaction, the effective portion of any gain or loss arising from the fair value adjustment of the derivative financial instrument is recognized directly in a specific equity reserve (Reserve for fair value adjustment of hedging derivative instruments). The cumulative gain or loss is removed from equity and recognized in the separate consolidated income statement during the same business years in which the hedged transaction is recognized in the separate consolidated income statement. The gain or loss associated with the ineffective portion of a hedge is recognized in the separate consolidated income statement immediately. If the hedged transaction is no longer considered to be probable, the gains or losses not yet realized included in the equity reserve are immediately recognized in the separate consolidated income statement.

For derivatives for which a hedging relationship has not been designated, changes in value compared to initial recognition are recognized directly in the separate consolidated income statement.

Financial liabilities

Financial liabilities include financial payables, including payables for advances on assignments of receivables where the assignment does not transfer substantially all the risks and rewards, as well as other financial liabilities, including derivative financial instruments and liabilities in respect of assets recognized under finance leases recognized in accordance with IFRS 16.

In accordance with IFRS 9, they also include trade and other payables.

Reverse factoring transactions are also classified under trade payables. The TIM Group has reverse factoring agreements in place through which TIM gives its bank partners a mandate to pay its suppliers as invoices become due. Suppliers participating in these programs have the rights to sell (without any cost for the TIM Group) receivables due from the Group. They can exercise this right at their total discretion and incurring all the costs to benefit from collection before the contractual due date.

Financial liabilities other than derivatives are initially recognized at fair value and subsequently measured at amortized cost.

Financial liabilities hedged by derivative instruments designed to manage exposure to changes in the value of liabilities (fair value hedge derivatives) are measured at fair value in accordance with the hedge accounting principles of IAS 39: the gains and losses deriving from subsequent fair value adjustments, only as regards the covered component, are recognized in the separate consolidated income statement and counterbalanced by the effective portion of the gain or loss deriving from the corresponding fair value measurements of the hedge instrument.

Financial liabilities hedged by derivative instruments designed to manage exposure to variability in cash flows (cash flow hedge derivatives) are measured at amortized cost in accordance with the hedge accounting principles of IAS 39.

Transfer of receivables

The TIM Group transfers receivables through factoring and securitization agreements. These transfers, in the majority of cases, are characterized by the transfer of substantially all the risks and rewards of ownership of the receivables to third parties, therefore meeting the requirements of IFRS 9 for derecognition. Special service agreements, under which the purchasers grant TIM S.p.A. a mandate to oversee the collection and management of receivables, have been entered into to maintain the relationship between the Company and its customers.

Inventories

Inventories are measured at the lower of purchase or production cost and estimated realizable value; the cost is determined using the weighted average cost formula for each movement, while the estimated realizable value is determined by observing general prices at the end of the year. Provision is made for obsolete and slow-moving inventories based on their expected future use and estimated realizable value.

Non-current assets held for sale/Discontinued operations

Non-current assets held for sale or discontinued groups whose carrying amount will mainly be recovered through sale, rather than through ongoing use, are classified as held for sale and shown separately from other assets and liabilities in the consolidated statements of financial position. The corresponding amounts for the previous year are not reclassified in the consolidated statements of financial position, but are instead shown separately in a specific column for changes in assets and liabilities in the year in which non-current assets held for sale or discontinued groups are classified as such.

Discontinued operations are a component of an entity that has been terminated or classified as held for sale and that:

- represents a major business line or geographical area of operation; or

- is part of a single coordinated plan to discontinue a separate major line of business or geographical area of operation; or
- is a subsidiary acquired exclusively with a view to resale.

The results arising from Discontinued Operations – whether discontinued or classified as held for sale – are shown separately in the separate consolidated income statement, net of tax effects. The corresponding values for the previous periods, where present, are reclassified and reported separately in the separate consolidated income statement, net of tax effects, for comparative purposes.

Non-current assets held for sale or discontinued groups classified as held for sale are first recognized in compliance with the appropriate IFRS applicable to each specific asset and liability, and subsequently measured at the lower of the carrying amount and fair value, less cost to sell.

Any subsequent impairment losses are recognized as a direct adjustment to non-current assets (or discontinued groups) classified as held for sale, with a contraentry in the separate consolidated income statement.

An upward revision of value is, instead, recognized for each subsequent increase in the fair value of an asset less cost to sell, but not in excess of the previously recognized cumulative impairment loss.

As required by IFRS 5 (Non-current assets held for sale and discontinued operations), an entity shall not depreciate (or amortize) non-current assets classified as held for sale or being part of a discontinued group.

Finance expenses and other expenses attributable to the liabilities of a discontinued group classified as held for sale must continue to be recognized.

Employee benefits

Provision for employee severance indemnity

Employee severance indemnity, mandatory for Italian companies pursuant to Article 2120 of the Italian Civil Code, is deferred compensation based on the employee's years of service and on the compensation earned by the employee during the service period.

Under IAS 19 (Employee Benefits), the employee severance indemnity, so calculated, is considered a "Defined benefit plan" and the related liability to be recognized in the statement of financial position (Provision for employee severance indemnities) is determined by actuarial calculations.

The remeasurements of actuarial gains and losses are recognized in other components of the Consolidated Statements of Comprehensive income. Service cost of Italian companies that employ less than 50 employees, as well as interest expenses related to the "time value" component of the actuarial calculations (the latter classified as Finance expenses), are recognized in the separate consolidated income statement.

Starting from January 1, 2007, the Italian Law gave employees the choice to either allocate their accruing indemnity to supplementary pension funds or it as an obligation of the Company. Companies that employ at least 50 employees must transfer the employee severance indemnity to the "Treasury fund" managed by INPS, the Italian Social Security Institute. Consequently, the Group's obligation to INPS and the contributions to supplementary pension funds take the form, under IAS 19, of "Defined contribution plans".

Equity compensation plans

The companies of the Group provide additional benefits to certain managers of the Group through equity compensation plans (for example stock options and long-term incentive plans). The above plans are recognized in accordance with IFRS 2 (Share-Based Payment).

In accordance with IFRS 2, such plans represent a component of the beneficiaries' compensation. Therefore, for the plans that provide for compensation in equity instruments, the cost is represented by the fair value of such instruments at the grant date, and is recognized in the separate consolidated income statement in "Employee benefits expenses" over the period between the grant date and vesting date with a contra-entry to an equity reserve denominated "Other equity instruments". Changes in the fair value subsequent to the grant date do not affect the initial measurement. At the end of each year, adjustments are made to the estimate of the number of rights that will vest up to expiry. The impact of the change in estimate is recorded as an adjustment to "Other equity instruments" with a contra-entry to "Employee benefits expenses".

The portion of the plans that specifies the payment of compensation in cash is recognized in liabilities as a contra-entry to "Employee benefits expenses"; at the end of each year said liability is measured at fair value.

Provisions

The Group records provisions for risks and charges when, having a current legal or constructive obligation to a third party, as a result of a past event, an outflow of Group resources is likely to be required to meet that obligation, and when the amount of the obligation can be estimated reliably. Provisions for risks and charges also include those established in the event that the company should stipulate contracts that thereafter became onerous, the non-discretionary costs of which necessary to fulfill the commitments made, exceeding the economic benefits expected from such contracts.

When the effect of the time value is material and the payment date of the obligations can be reasonably estimated, the provision is determined by discounting the given expected cash flows by taking into account the risks associated with the obligation. The increase in the provision due to the passage of time is recognized in the separate consolidated income statement as "Finance expenses".

Government grants

Government grants are recognized when there is a reasonable certainty that they will be received and that the Group will satisfy all the conditions established for their granting by the government, government agencies and equivalent local, national or international entities.

Government grants are systematically recognized in the separate income statement over the periods in which the Group recognizes the expenses that the grants are intended to offset as costs.

Government grants related to assets received for the acquisition and/or construction of non-current tangible assets are recorded as deferred income in the statement of financial position and systematically credited to the separate income statement over the useful life of the systems the grants relate to.

Treasury shares

Treasury shares are recognized as a deduction from equity. In particular, the treasury shares are reported as a deduction from the share capital issued in the amount corresponding to the "accounting par value", that is the ratio of total share capital and the number of issued shares, while the excess cost of acquisition over the accounting par value is presented as a deduction from "Other reserves and retained earnings (accumulated losses), including profit (loss) for the year".

Foreign currency transactions

Transactions in foreign currencies are recorded at the foreign exchange rate prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the foreign exchange rate prevailing at the statement of financial position date. Exchange differences arising from the settlement of monetary items or from their conversion at rates different from those at which they were initially recorded during the year or at the end of the prior year are recognized in the separate consolidated income statement.

Revenues

Revenues are the gross inflows of economic benefits during the period arising in the course of the ordinary activities of an entity. Amounts collected on behalf of third parties, such as sales taxes, goods and services taxes and value added taxes, are not economic benefits which flow to the entity and do not result in increases in equity. Therefore, they are excluded from revenues.

The process underlying the recognition of revenues follows the steps set out in IFRS 15:

- **identification of the contract:** this takes place when the parties approve the contract (with commercial substance) and identify the respective rights and obligations: in other terms, the contract must be legally binding, the rights to receive goods and/or services and the terms of payment can be clearly identified, and the Group considers receipt of payment as probable;
- **identification of the performance obligations**: the main performance obligations identified, i.e. promises to transfer goods and services that are distinct, are services rendered (including voice and data traffic and ICT solutions) to retail customers, services rendered to wholesale customers, and sale of products;
- **determination of the transaction price**: this is the total amount contracted with the other party regarding the entire contractual term; the Group has determined that the contractual term is the one arising from the contractual obligations between the parties or, in lack of these obligations, it is by convention one month;
- **allocation of the transaction price to the performance obligations**: the allocation is made proportionately to the respective stand-alone selling prices calculated based on the list prices (if present) or estimated by applying an appropriate margin to the cost of purchase/production of the good/service.

  Revenues from activating the connectivity service are not a performance obligation; they are therefore allocated to the contractual performance obligations (typically to services).
  For offerings which include the sale of devices and service contracts (bundle offerings), the Group allocates the contractual transaction price to the performance obligations of the contract, proportionately to the stand-alone selling prices of the single performance obligations;
- **recognition of revenues**: revenues are stated net of discounts, allowances, and returns in connection with the characteristics of the type of revenue:
  - **Revenues from services rendered**

    Revenues from services rendered are recognized in the separate income statements according to the stage of completion of the service, that is based on actual consumption.
    Traffic revenues from interconnection and roaming are reported gross of the amounts due to other TLC operators.
    Revenues for delivering information or other content are recognized on the basis of the amount invoiced to the customer, when the service is rendered directly by the Group. In the event that the Group is acting as agent (for example, for non-geographic numbers) only the commission received from the content provider is recognized as revenue.
    Revenues from prepaid traffic are recorded on the basis of effective consumption. Deferred revenues for traffic already collected but not yet consumed are recorded in "Trade and miscellaneous payables and other current liabilities" in the consolidated statements of financial position.
    Revenues for services rendered are generally invoiced and collected bimonthly/monthly for retail customers while for wholesale customers, they are invoiced on a monthly basis and due 40 or 60 days after the date of issue, depending on whether they relate to the mobile component (40 days) or fixed component (60 days).

- **Revenues from sales**

  Revenues from sales (telephone products and others) are recognized upon delivery when control of the assets is transferred to the customers.
  The devices sold separately from the services are invoiced at the time of delivery; collection takes place on demand or based on installment plans (up to 48 monthly installments). The devices sold as part of bundle offerings are invoiced at the time of delivery and usually collected in 24, 30 or 48 monthly installments, depending on the type of offer and customer cluster. With specific reference to the mobile products sold to consumer customers, collection is made at the time of sale through the financial company TIMFin, which disburses the loan to the customer.

The recognition of revenues can generate the recognition of an asset or liability deriving from contracts. In particular:

- **Contract assets** are the right to a consideration in exchange for goods or services that have been transferred to the customer, when the right is conditioned on something other than the passage of time.
- **Contract liabilities** are the obligation to transfer goods or services to the customer for which the Group has received (or for which it is due) a consideration from the customer.

Contract costs (incremental costs of obtaining a contract and costs to fulfill a contract; mainly technical activation costs and costs for sales network commissions) are deferred and recognized through separate consolidated income statement depending on the expected term of the contractual relationship with the customers. The TIM Group avails of the practical expedient, permitted under IFRS 15, of recognizing the incremental costs of obtaining a contract in the consolidated income statement if the amortization period is one year or less.

The recoverability of contract assets and deferred costs is periodically assessed.

Research and advertising costs

Research and advertising costs are directly expensed to the separate consolidated income statement in the year in which they are incurred.

Finance income and expenses

Finance income and expenses are recognized on an accrual basis and include: interest accrued on the related financial assets and liabilities using the effective interest rate method; changes in the fair value of derivatives and other financial instruments measured at fair value through the income statement; gains and losses on foreign exchange and financial instruments (including derivatives).

Dividends

Dividends received from companies other than subsidiaries, associates and joint ventures are recognized in the separate consolidated income statement on an accrual basis, i.e. in the year in which they become receivable following the resolution by the shareholders' meeting for the distribution of dividends of the investee companies.
Dividends payable to third parties are reported as a change in equity in the year in which they are approved by the shareholders' meeting.

Income tax expense (current and deferred)

Income taxes include all taxes calculated on the basis of the taxable income of the companies of the Group.

Current and deferred income taxes are calculated using all the elements and information available at the reporting date, taking into account current laws and considering all the elements that could give rise to uncertainties in the determination of the amounts due to the tax authorities, as provided for in IFRIC 23.

Income taxes are recognized in the separate consolidated income statement, except to the extent that they relate to items directly charged or credited to equity, in which case the related tax effect is recognized in the relevant equity reserves. The amount of the income tax expense relating to each item included as "Other components of the Consolidated Statements of Comprehensive income" is indicated in the Consolidated Statement of comprehensive income.

The provisions for taxes that could arise from the remittance of the undistributed earnings of subsidiaries are made only where there is the actual intention to remit such earnings.

Deferred tax liabilities / assets are recognized using the "Balance sheet liability method". They are calculated on all the temporary differences that arise between the taxable base of assets and liabilities and the related carrying amounts in the consolidated financial statements, except for differences arising from investments in subsidiaries that are not expected to reverse in the foreseeable future. Deferred tax assets relating to unused tax loss carryforwards are recognized to the extent that it is probable that future taxable income will be available against which they can be utilized. Tax assets and liabilities are offset, separately for current and deferred taxes, when income taxes are levied by the same tax authority and when there is a legally enforceable offsetting right. Prepaid tax assets and deferred tax liabilities are determined by adopting the tax rates expected to be applicable in the respective jurisdictions of the countries in which the Group companies operate, in the years in which those temporary differences are expected to be recovered or settled.

The other taxes, other than income taxes, are included in "Other operating expenses".

Earnings per share

Basic earnings per ordinary share is calculated by dividing the Group's profit attributable to ordinary shares by the weighted average number of ordinary shares outstanding during the year, and excluding treasury shares. Similarly, basic earnings per savings share is calculated by dividing the Group's profit attributable to savings shares by the weighted average number of savings shares outstanding during the year.

For diluted earnings per ordinary share, the weighted average number of shares outstanding during the year is adjusted by assuming the subscription of all the potential deriving shares - for example, by exercising rights on shares with dilutive effects. The Group profit is also adjusted to reflect the impact of these transactions net of the related tax effects.

Use of accounting estimates

The preparation of consolidated financial statements and related disclosure in conformity with IFRS requires management to make estimates and assumptions based also on subjective judgments, past experience and assumptions considered reasonable and realistic in relation to the information known at the time of the estimate. Such estimates have an effect on the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, as well as on the amount of revenues and costs during the year. Actual results could differ, even significantly, from those estimates owing to possible changes in the factors considered in the determination of such estimates. Estimates are reviewed periodically.

The most significant accounting estimates that involve a high level of subjective assumptions and judgments by directors are set out below.

Financial statements area	**Accounting estimates**
Goodwill impairment	The impairment test on goodwill is carried out by comparing the carrying amount of cash-generating units and their recoverable amount. The recoverable amount of a cash-generating unit is the higher of fair value, less costs to sell, and its value in use. This complex valuation process entails the use of methods such as the discounted cash flow method, which uses assumptions to estimate cash flows. The fair value net of disposal costs is based on the current value of forecast cash flow, calculated using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. The recoverable amount depends significantly on the discount rate used in the discounted cash flow model, as well as the expected future cash flows and the growth rate used for the extrapolation. The key assumptions used to determine the recoverable amount for the different cash-generating units, including a sensitivity analysis, are detailed in the Note "Goodwill".
Impairment of tangible and intangible assets with finite useful lives and right of use assets	At the end of each reporting period, the Group assesses whether there is any indication that an asset – whether tangible or intangible with finite useful lives or a right-of-use – has been impaired. Both internal and external sources of information are used for this purpose. Identifying the impairment indicators, estimating future cash flows and calculating the fair value of each asset requires the Management to make significant estimates and assumptions in calculating the discount rate to be used, and the useful life and residual value of the assets. These estimates can have a significant impact on the fair value of the assets and on the amount of any impairment write-down.
Business combinations	The recognition of business combinations requires that assets and liabilities of the acquiree be recorded at their fair value at the control acquisition date, as well as the possible recognition of goodwill. These values are determined through a complex estimation process.
Lease liabilities and rights of use assets	The value of lease liabilities and corresponding rights of use is determined by calculating the present value of the lease payments, also bearing in mind whether the renewal of the lease is reasonably certain.
Capitalization/deferment of costs	The capitalization/deferment of internal and external costs is a process that entails elements of estimation and valuation. Specifically, it involves the valuation of: i) the likelihood that capitalized costs will be recovered through correlated future revenues; and ii) the effective increase in the future economic benefits embodied in the related asset.
Provision for bad debts	Impairment on trade receivables and on contract assets is carried out using the simplified approach that involves estimating the loss expected over the life of the receivable at the time of initial recognition and on subsequent measurements. For each customer segment, the estimate is principally made by calculating the average expected uncollectibility, based on historical and statistical indicators, possibly adjusted using forward-looking elements. For some categories of receivables characterized by specific risk elements, specific measurements are made on individual credit positions.
Depreciation and amortization	Changes in the economic conditions of the markets, technology and competitive forces could significantly affect the estimated useful lives of tangible and intangible non-current assets and may lead to a difference in the timing, and thus on the amount of depreciation and amortization expense.

Accruals, contingent liabilities and provisions for employee benefits	As regards the provisions for restoration costs, the estimate of future costs to dismantle tangible assets and restore the site is a complex process that requires the valuation of the liabilities arising from such dismantling and restoration obligations, which seldom are entirely defined by laws, administrative regulations or contract clauses, and which normally are to be complied with after an interval of several years. The accruals related to legal, arbitration and fiscal disputes, as well as regulatory proceedings, are the result of a complex estimation process based upon the probability of an unfavorable outcome. Provisions for employee benefits, especially the provision for employee severance indemnities, are calculated using actuarial assumptions; changes in such assumptions could have a material impact on such liabilities. Provisions made for contractual risks are also related to any contracts that may have become onerous and are based on an articulated estimation process that envisages the valuation of the comprehensive negative margins of the entire contract; they therefore include the non-discretionary costs necessary to fulfill the commitments made that exceed the economic benefits expected from such contracts.
Revenues	The recognition of revenues is influenced by estimates of the amount of discounts, rebates and returns to be reported as a direct adjustment to revenues, as well as the methods for defining individual product or service stand-alone selling prices and for determining the duration of the contract when there are renewal options.
Contract costs (IFRS 15)	The recognition of the costs of obtaining and fulfilling contracts is influenced by the estimated expected duration of the relationship with the customer, calculated on the basis of the historical turnover indexes and future estimates. However, this estimate is subject to fluctuations and could only represent customers' future behavior in a limited way, especially if there are new commercial offers or changes in the competitive environment.
Income tax expense (current and deferred)	Income tax expense (current and deferred) are calculated in each country in which the Group operates according to a prudent interpretation of the applicable tax laws. This process sometimes involves complex estimates to determine taxable income and deductible and taxable temporary differences between the carrying amounts and the taxable amounts. In particular, deferred tax assets are recognized to the extent that future taxable income will be available against which they can be recovered. The measurement of the recoverability of deferred tax assets, recognized based on both unused tax loss carry-forwards to future years and deductible temporary differences, takes into account the estimate of future taxable income and is based on conservative tax planning.
Derivative instruments and equity instruments	The fair value of derivative instruments and equity instruments is determined both using valuation models which also take into account subjective measurements such as, for example, cash flow estimates, expected volatility of prices, etc., and on the basis of prices existing in regulated markets or quotations provided by financial counterparts. For further details refer to the Note "Supplementary disclosures on financial instruments".

As per IAS 8 (Accounting Policies, Changes in Accounting Estimates and Errors) paragraph 10, in the absence of a standard or interpretation that specifically applies to a transaction, the Management shall use its judgment in developing and applying an accounting policy that results in consolidated financial statements that represent faithfully the financial position, financial performance and cash flows of the Group, reflect the economic substance of transactions, and are neutral, prudential and complete in all material aspects.

New standards and interpretations endorsed by the EU and in force from January 1, 2021

As required by IAS 8 (Accounting Policies, Changes in Accounting Estimates and Errors), the following is a brief description of the IFRS in force commencing as of January 1, 2021.

Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 Reform of the interest rates benchmark - Phase 2

On January 13, 2021, Regulation (EU) no. 2021/25 was issued, which incorporated a set of amendments to the IFRSs relating to the reform of the interbanking rates offered (IBOR) and other interest rate benchmarks. The amendments aim to help the entities to provide investors with useful information on the effects of the reform on the entities' financial statements.
The amendments integrate those issued in 2019 and focus on the effects of the financial statements when an entity replaces the old interest rate benchmark with an alternative benchmark rate following the reform.
The changes during this final phase regard:

a. changes to contractual cash flows - an entity shall not eliminate or rectify the carrying amount of the financial instruments following the amendments required by the reform, but must instead add the effective interest rate to reflect the change in the alternative benchmark rate;
b. hedge accounting - an entity shall not stop booking the hedges only because the changes have been made to the hedging documentation as required by the reform, if the hedge continues to meet the other criteria for booking the hedge;
c. disclosure: an entity shall disclose information on the new risks deriving from the reform and on how it manages the transition to alternative benchmark rates.

The adoption of these amendments had no effect on the consolidated financial statements at December 31, 2021.

Amendments to IFRS 16 Leases: COVID-19-related rent concessions beyond June 30, 2021

On August 30, 2021, Regulation (EU) 2021/1421 was issued, endorsing the extension by one year of the period of application of the practical expedient of IFRS 16 Leases, to assist lessees in accounting for COVID-19-related rent concessions.

In response to requests from interested parties, and because the COVID-19 pandemic is still at its peak, the IASB has extended, by an additional year, this method of accounting for rental concessions that reduce only lease payments due by June 30, 2022.

The original amendment was issued in May 2020 to allow lessees not to account for rent concessions as lease modifications if they are a direct consequence of the COVID-19 pandemic. The amendment takes effect for financial years starting on or after April 1, 2021.

The adoption of these amendments had no effect on the consolidated financial statements at December 31, 2021.

New Standards and Interpretations issued by the IASB but not yet applicable

At the date of preparation of these consolidated financial statements, the IASB had issued the following new Standards and Interpretations which have not yet come into force and have not yet been endorsed by the EU:

	Mandatory application starting from
New Standards / Interpretations endorsed by the EU but not yet in force	
Amendments to: IFRS 3 Business combinations; IAS 16 Property, Plant and equipment; IAS 37 Provisions, Contingent Liabilities and Contingent Assets; Annual cycle of improvements 2018-2020	1/01/2022
Amendments to IAS 1 Presentation of Financial Statements: Disclosure on accounting policies	1/01/2023
Amendments to IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors: Definition of accounting estimates	1/01/2023
New Standards and Interpretations not yet in force and not yet endorsed by the EU	
Amendments to IAS 12 Income taxes: deferred tax related to assets and liabilities arising from a single transaction	1/01/2023
Amendments to IAS 1 Presentation of Financial Statements: classification of liabilities as current or non-current	1/01/2023

The potential impacts on the Group consolidated financial statements from the application of these standards and interpretations are currently being assessed.

* * *

During the fourth quarter of 2021, TIM refined some aspects of the booking of certain commercial agreements concerning the sale of goods with deferred delivery. This refinement entailed, for the first, second and third quarters of 2021, the redetermination of the distribution over time of revenues and acquisition of goods and services, for the purpose of the 2020 financial statements such commercial agreements had no material effect.

In connection with the foregoing, the economic data of the first, second and third quarters of 2021, has been recalculated. The impacts on the items of the income statements for the quarters of 2021 deriving from these refinements, are as follows:

(million euros)	2021		
	1st Quarter	2nd Quarter	3rd Quarter
Revenues	**(24)**	**—**	**(39)**
Acquisition of goods and services	**7**	**—**	**11**
Operating profit (loss) before depreciation and amortization, capital gains (losses) and impairment reversals (losses) on non-current assets (EBITDA)	**(17)**	**—**	**(28)**
Operating profit (loss) (EBIT)	**(17)**	**—**	**(28)**
Profit (loss) before tax from continuing operations	**(17)**	**—**	**(28)**
Income tax expense	5	—	8
Profit (loss) for the period	**(12)**	**—**	**(20)**
Attributable to:			
Owners of the Parent	**(12)**	**—**	**(20)**
Non-controlling interests	—	—	—

Cumulative net impacts on equity balances were as follows:

(million euros)	as at 3/31/2021	as at 6/30/2021	as at 9/30/2021
Current and non-current assets			
Trade and miscellaneous receivables and other current assets	(24)	(24)	(63)
Total Assets	**(24)**	**(24)**	**(63)**
Equity			
Equity attributable to owners of the Parent	(12)	(12)	(32)
Total Equity	**(12)**	**(12)**	**(32)**
Non-current and current liabilities			
Deferred tax liabilities	(5)	(5)	(13)
Trade and miscellaneous payables and other current liabilities	(7)	(7)	(18)
Total Equity and Liabilities	**(24)**	**(24)**	**(63)**

The redetermination of the distribution over time of revenues from acquisition of goods and services during the first, second and third quarters of 2021 did not have any impact on the "Aggregate cash flows" of the TIM Group's statements of cash flows and, in particular, on the "Cash flows from (used in) operating activities".

NOTE 3
SCOPE OF CONSOLIDATION

Investments in consolidated subsidiaries

Composition of the Group

TIM holds a majority of the voting rights in all the subsidiaries included in the scope of consolidation.
A complete list of consolidated subsidiaries is provided in the Note "List of companies of the TIM Group".

Scope of consolidation

The changes in the scope of consolidation at December 31, 2021 compared to December 31, 2020 are listed below.

Entry/exit/merger of subsidiaries into/out of the scope of consolidation:

Company		Business Unit	Month
Entry:			
PANAMA DIGITAL GATEWAY S.A.	New establishment	Domestic	July 2021
TIM SERVIZI DIGITALI S.p.A.	New establishment	Domestic	July 2021
STAER SERVIZI S.r.l.	New acquisition	Domestic	September 2021
OLIVETTI PAYMENT SOLUTIONS S.p.A.	New establishment	Domestic	December 2021
Exit:			
I-SYSTEMS S.A. (formerly FIBERCO SOLUÇÕES DE INFRAESTRUTURA S.A.)	Dilution	Brazil	November 2021
Mergers:			
FLASH FIBER S.r.l.	Merged into FIBERCOP S.p.A.	Domestic	March 2021
TIM TANK S.r.l.	Merged into TELECOM ITALIA VENTURES	Domestic	April 2021
NOOVLE FRANCE Sasu	Merged into NOOVLE S.r.l.	Domestic	July 2021
NOOVLE S.r.l.	Merged into NOOVLE S.p.A.	Domestic	October 2021

The breakdown by number of subsidiaries and associates of the TIM Group is as follows:

	12/31/2021		
Companies:	**Italy**	**Overseas**	**Total**
subsidiaries consolidated line-by-line	20	45	65
joint ventures accounted for using the equity method	2	—	2
associates accounted for using the equity method	12	1	13
Total companies	**34**	**46**	**80**

	12/31/2020		
Companies:	**Italy**	**Overseas**	**Total**
subsidiaries consolidated line-by-line	20	46	66
joint ventures accounted for using the equity method	2	—	2
associates accounted for using the equity method	10	—	10
Total companies	**32**	**46**	**78**

Further details are provided in the Note "List of companies of the TIM Group".

Subsidiaries with a significant non-controlling interest

At December 31, 2021, the TIM Group held investments in subsidiaries, with significant non-controlling interest, in relation to the companies FiberCop S.p.A., Daphne3 S.p.A. and the TIM Brazil group.

The figures provided below, stated before the netting and elimination of intragroup accounts, comply with IFRS and reflect adjustments made at the acquisition date to align the assets and liabilities acquired to their fair value.

FiberCop S.p.A. - Domestic Business Unit

Non-controlling interest accounted at December 31, 2021 for 42.0% of the capital of FiberCop S.p.A., coinciding with the corresponding voting rights.

FiberCop S.p.A. - financial position data

(million euros)	12/31/2021	12/31/2020
Non-current assets	8,441	—
Current assets	471	—
Total Assets	**8,912**	**—**
Non-current liabilities	3,293	—
Current liabilities	551	—
Total Liabilities	**3,844**	**—**
Equity	**5,068**	**—**
of which Non-Controlling Interests	*2,129*	—

FiberCop S.p.A. - income data

(million euros)	2021	2020
Revenues	978	—
Profit (loss) for the year	**321**	**—**
of which Non-Controlling Interests	*135*	—

FiberCop S.p.A. - financial data

Aggregate cash flows generated in 2021 amounted to 75 million euros.

Daphne 3 S.p.A. - Domestic Business Unit

Non-controlling interest accounted at December 31, 2021 for 49.0% of the capital of Daphne 3 S.p.A., coinciding with the corresponding voting rights.

Daphne 3 S.p.A. - financial position data

(million euros)	12/31/2021	12/31/2020
Non-current assets	2,746	2,746
Current assets	1	—
Total Assets	**2,747**	**2,746**
Non-current liabilities	1	—
Current liabilities	—	—
Total Liabilities	**1**	**—**
Equity	**2,746**	**2,746**
of which Non-Controlling Interests	*1,346*	*1,345*

Daphne 3 S.p.A. - income data

(million euros)	2021	2020
Revenues	—	—
Profit (loss) for the year	**86**	**—**
of which Non-Controlling Interests	*42*	—

Daphne 3 S.p.A. - financial data

Aggregate cash flows generated in 2021 amounted to 1 million euros (0.1 million euros in 2020).

TIM Brasil group – Brazil Business Unit

Non-controlling interest accounted at December 31, 2021 for 33.4% of the capital of TIM S.A., coinciding with the corresponding voting rights.

Financial position data TIM Brasil group

(million euros)	12/31/2021	12/31/2020
Non-current assets	5,787	5,246
Current assets	2,476	1,662
Total Assets	**8,263**	**6,908**
Non-current liabilities	2,159	1,558
Current liabilities	1,751	1,339
Total Liabilities	**3,910**	**2,897**
Equity	**4,353**	**4,011**
of which Non-Controlling Interests	*1,345*	*1,232*

Income statement data TIM Brasil group

(million euros)	2021	2020
Revenues	2,840	2,933
Profit (loss) for the year	**455**	**297**
of which Non-Controlling Interests	*155*	*104*

Financial data of the TIM Brasil group

In 2021 aggregate cash flows generated 416 million euros, with a positive exchange rate effect of 6 million euros.

In 2020, this was negative for 93 million euros, with a negative exchange rate of 151 million euros.

Finally, with regard to the subsidiaries with significant minority interests, in line with the information provided in the Report on Operations - “Main risks and uncertainties” section, the main risk factors that could lead, even significantly, to restrictions on the operations of the TIM Brasil group are listed below:

- Strategic risks (risks related to macroeconomic and political factors, as well as risks associated with foreign exchange restrictions and competition);
- Operational risks (risks related to business continuity and development of the fixed and mobile networks, as well as risks associated with litigation and disputes);
- Financial risks;
- Regulatory and Compliance risks.

NOTE 4
GOODWILL

Goodwill shows the following breakdown and changes for 2020 and 2021:

(million euros)	12/31/2019	Increase	Decrease	Impairments	Exchange differences	12/31/2020
Domestic	22,231	11		—	—	22,242
Brazil	852				(247)	605
Other Operations	—					—
Total	**23,083**	**11**	**—**	**—**	**(247)**	**22,847**

(million euros)	12/31/2020	Increase	Decrease	Impairments	Exchange differences	12/31/2021
Domestic	22,242	2		(4,120)		18,124
Brazil	605		(165)		4	444
Other Operations	—					—
Total	**22,847**	**2**	**(165)**	**(4,120)**	**4**	**18,568**

In accordance with IAS 36, goodwill is not subject to amortization, but is tested for impairment on at least an annual basis, when preparing the company's consolidated financial statements.

In 2021, Goodwill fell by 4,279 million euros, from 22,847 million euros at the end of 2020 to 18,568 million euros at December 31, 2021.

More specifically, goodwill for the Domestic Cash Generating Unit drops by 4,120 million euros as a result of the impairment following testing performed at December 31, 2021.

The change for 2021 also includes:

- with reference to the Brazil Cash Generating Unit, a decrease of 165 million euros following the deconsolidation of I-Systems S.A. (formerly FiberCo Soluções de Infraestrutura S.A.), a company set up by the Brazilian subsidiary TIM S.A. for the segregation of its network assets and the provision of infrastructure services. The deconsolidation is a consequence of the completion, in November 2021, of the agreement between TIM S.A. and IHS Fiber Brasil - Cessão de Infraestruturas Ltda. which resulted in the dilution from 100% to 49% of TIM S.A.'s investment in I-Systems S.A.. I-Systems S.A. Is now accounted for using the equity method. In addition, the item increased by 4 million euros due to the positive exchange rate difference relating to the Goodwill of the Cash Generating Unit;
- with reference to the Domestic Cash Generating Unit, an increase of 2 million euros relating to the recognition of provisional goodwill connected with the acquisition by Olivetti S.p.A. of 100% of Staer Sistemi S.r.l. completed in September 2021.

The gross carrying amounts of goodwill and the relative accumulated impairment losses from January 1, 2004 (date of allocation to the Cash-Generating Units – CGUs)) to December 31, 2021 and 2020 can be summarized as follows:

(million euros)	12/31/2021			12/31/2020		
	Gross carrying amount	**Accumulated impairment losses**	**Net carrying amount**	**Gross carrying amount**	**Accumulated impairment losses**	**Net carrying amount**
Domestic	38,689	(20,565)	**18,124**	38,687	(16,445)	**22,242**
Brazil	591	(147)	**444**	751	(146)	**605**
Other Operations	—	—	**—**	—	—	**—**
Total	**39,280**	**(20,712)**	**18,568**	**39,438**	**(16,591)**	**22,847**

The figures for the Brazil CGU are stated in euros, converted at the spot exchange rate at the closing date of the financial statements; the carrying amount of goodwill for the CGU corresponds, at December 31, 2021, to 2,803 million reais (3,854 million reais at December 31, 2020).

The impairment test was carried out on two levels. At a first level, the recoverable amount of the assets attributed to the individual CGUs to which goodwill is allocated was estimated; at a second level, the Group's activities were considered as a whole.

The cash generating units (or groups of units) to which goodwill is allocated are as follows:

Segment	Cash-Generating Units (or groups of units)
Domestic	Domestic
Brazil	Brazil

According to the applicable accounting rules, the "recoverable value" of the CGUs was equal to the higher of "fair value net of disposal costs" and "value in use".

At December 31, 2020, the value configuration used to determine the recoverable amount of the Domestic CGU was the value in use. The value configuration instead used to determine the recoverable amount at December 31, 2021 of the Domestic CGU is the fair value estimated on the basis of the income approach, insofar as this is considered able to best maximize the value of the Group's activities (the "market participant perspective"), also reflecting interventions on costs in view of a potential future new, different business structure.

For the Brazil CGU, the value configured used is the fair value on the basis of market capitalization at the end of the period.

The values are expressed in local currency, and hence in EUR for the Domestic CGUs and BRL for the Brazil CGU. For the Brazil CGU, the recoverable amount of the assets was denominated in the functional currency and subsequently translated at the spot exchange rate at the reporting date.

For the Domestic CGU, the estimate of fair value on the basis of the income approach was prepared in compliance with IAS 36, valuation principles and best practice, with reference to the flows of the 2022-2024 Industrial Plan, which is based on the final results of 2021: (i) it reflects realistic expectations regarding future evolutions; (ii) it brings into play careful cost cutting actions as preparation for the future business structure; (iii) it maintains the perspective of use of assets of the domestic market continuing on with the same conditions as at 12.31.2021. The expected cash flows reported in the 2022-2024 Industrial Plan approved by the Board of Directors have been critically analyzed and, with the support of expert and industrial appraisers, the average representativity has been assessed. Expected average cash flows for the 2022-2024 Industrial Plan were extrapolated for an additional two years, for which future cash flows were explicitly forecast for a period of five years (2022-2026). The extrapolation of data for 2025-2026 was necessary in order to intercept market, competition and industrial trends that will become manifest beyond the time horizon of the Industrial Plan to be captured. It is specified that where inputs are present that cannot be observed, the fair value thus determined is assigned as level 3 of the fair value hierarchy, as envisaged by IFRS 13 - Fair value measurement.

As regards the estimate of the terminal value, the sustainable long-term cash flow was assumed to be the extrapolation of the estimated cash flow at 2026, adjusted as necessary to take into consideration a suitable level of long-term capital expenditure, normalized by the effects tied to the development of innovative technology projects in place during the plan years. Furthermore, with specific reference to the incremental share of the value deriving from 5G license use and therefore from the development of new and innovative business areas, a measurement model has been adopted that takes into account the net incremental flows for a defined period of time which is based on the duration of the license. This approach is consistent with the need to include in the configuration of value, on one hand the outflows deriving from the payment of the license and the capex to support its development (as per the Industrial Plan), and on the other the positive net flows from the incremental business component of the license acquisition that will develop over a broad period of time and over the five years of explicit forecast.

The cost of capital used to discount the future cash flows in the estimates of fair value for the Domestic CGU:

- was estimated using the Capital Asset Pricing Model (CAPM), which is one of the generally accepted application criteria referred to in IAS 36;
- reflects current market estimates of the time value of money and the specific risks associated with the asset groups; includes appropriate yield premiums for country risk;
- was calculated using comparative market parameters to estimate the "Beta coefficient" and the weighting coefficient of the equity and debt capital components;

For the Domestic CGU it was as follows:

- the weighted average cost of capital (WACC rate) used to discount the future cash flows and the equivalent rate before tax;
- the growth rate used to estimate the residual value after the explicit forecast period (the G-Rate), expressed in nominal terms and related to the cash flows in their functional currency;
- details are provided of the implicit capitalization rates resulting from the difference between the cost of capital, after tax, and the G-Rate.

Principal parameters for the estimates of fair value

	Domestic
WACC	5.12 %
WACC before tax	6.71 %
Growth rate beyond the explicit period (g)	0.35 %
Capitalization rate after tax (WACC-g)	4.77 %
Capitalization rate before tax (WACC-g)	6.36 %
Capex/Revenues, perpetual	15.75 %

The growth rate in the terminal value "g" of the Domestic CGU was estimated taking into account the expected evolution of demand for the various business areas, overseen in terms of investments and competences also by the subsidiaries Noovle and FiberCop. The growth rate thus estimated falls within the range of growth rates applied by analysts who monitor TIM shares.
The phase of capital expenditure, competitive positioning and the technological infrastructure operated was taken into account in estimating the level of investment needed to sustain the perpetual development of cash flows after the explicit forecast period.

The recoverable amount determined on the basis of the Fair Value estimated on the basis of the income approach, highlighted a value reduction of 4,120 million euros of goodwill attributed to the Domestic Cash Generating Unit.

The difference between the recoverable amounts and the net carrying amounts of the CGUs considered totaled:

(million euros)	Domestic	Brazil
Difference between recoverable and net carrying amounts	-4,120	+527

Therefore, in light of the foregoing, in 2021, impairment was seen in the amount of -4,120 million euros relative to the Domestic CGU, while the goodwill values booked in relation to the Brazil CGU are confirmed, showing a positive difference of +527 million euros between the book value and the fair value calculated on the basis of market cap at December 31, 2021.

Relative to the Domestic CGU, a structural deterioration of the relevant parameters and notably the WACC may call for further impairment.

With regard to the Brazil CGU, the change in the price per share, compared to the reference quotation considered for the purposes of the financial statements, which would make the recoverable value equal to the carrying amount is equal to -10.5%.

The second level impairment test, net of the impairment recorded on the Domestic CGU, revealed a recoverable amount that exceeded the book value of the Group's business as a whole, thereby not showing any further need for impairment.

NOTE 5
INTANGIBLE ASSETS WITH A FINITE USEFUL LIFE

This item increased by 407 million euros compared to December 31, 2020. The breakdown and movements are as follows:

(million euros)	12/31/2019	Investments	Depreciation and amortization	Impairment (losses) / reversals	Disposals	Exchange differences	Other changes	12/31/2020
Industrial patents and intellectual property rights	**2,100**	649	(1,152)			(195)	387	**1,789**
Concessions, licenses, trademarks and similar rights	**4,398**	6	(473)			(288)	2	**3,645**
Other intangible assets	**3**		(2)			(1)	4	**4**
Work in progress and advance payments	**1,166**	542			(1)	(12)	(393)	**1,302**
Total	**7,667**	**1,197**	**(1,627)**	**—**	**(1)**	**(496)**	**—**	**6,740**

(million euros)	12/31/2020	Investments	Depreciation and amortization	Impairment (losses) / reversals	Disposals	Exchange differences	Other changes	12/31/2021
Industrial patents and intellectual property rights	**1,789**	731	(1,043)			4	452	**1,933**
Concessions, licenses, trademarks and similar rights	**3,645**	191	(466)			6		**3,376**
Other intangible assets	**4**	1	(2)					**3**
Work in progress and advance payments	**1,302**	963			(3)	3	(430)	**1,835**
Total	**6,740**	**1,886**	**(1,511)**	**—**	**(3)**	**13**	**22**	**7,147**

Investments in 2021 amounted to 1,886 million euros (1,197 million euros in 2020) and included 216 million euros in internally generated assets (231 million euros in 2020). Further details are provided in the Note "Internally generated assets".

Industrial patent rights and intellectual property rights as of December 31, 2021 are essentially represented by application and plant operation software purchased outright and with user licenses, they are amortized over a period of between 2 and 6 years and mainly refer to TIM S.p.A. (1,280 million euros), the Brazil Business Unit (392 million euros) and Noovle S.p.A. (163 million euros).

In 2021, for the Parent Company TIM S.p.A., the launch of the Digital Enterprise project demonstrated the need to verify the actual and future duration of the systems impacted. Therefore, IT applications were analyzed and it was verified that their actual lifecycle amounts to around 6 years. Thus, the amortization period was revised for both fixed and mobile IT software development assets, increasing it from 3 to 6 years. In 2021, this had an impact of around 115 million euros in lesser amortization. In 2022 and 2023 the estimated impact, calculated on the stock of assets at December 31, 2021, amounts to around 69 million euros and around 2 million euros, respectively in lesser amortization.

Concessions, licenses, trademarks and similar rights at December 31, 2021 mainly refer to the residual cost of telephone licenses and similar rights (2,620 million euros for TIM S.p.A. and 716 million euros for the Brazil Business Unit). Compared to December 31, 2020, this item showed a decrease of 269 million euros mainly due to amortization for the year (466 million euros) partially offset by investments for the year (191 million euros) essentially related to the recognition of the value of the 2.3 MHz and 26 GHz frequencies that the TIM Brasil group was awarded in November 2021 and thanks to which it will be able to offer 4G and 5G mobile services. The assignment of the rights to use these frequencies also entailed commercial commitments toward a new entity (EACE- Entidade Administradora da Conectividade de Escolas) which will be responsible for the development of some connectivity projects for Brazilian schools.

The residual amount of telephone licenses and similar rights in operation at December 31, 2021 (3,336 million euros) and their useful lives are detailed below:

Type	Residual amount at 12/31/2021 (million euros)	Useful life (years)	Maturity	Amortization expense for 2021 (million euros)
TIM S.p.A.:				
UMTS	—	18	12/31/2021	134
UMTS 2100 MHz	—	12	12/31/2021	7
WiMax	1	15	05/31/2023	1
LTE 1800 MHz	68	18	12/31/2029	9
LTE 800 MHz	480	17	12/31/2029	60
LTE 2600 MHz	53	17	12/31/2029	7
1452-1492 MHz band	132	14	12/31/2029	16
900 and 1800 MHz band	438	11	12/31/2029	55
3600-3800 MHz band (5G)	1,420	19	12/31/2037	89
26.5-27.5 GHz band (5G)	28	19	12/31/2037	2
TIM Brasil group:				
GSM and 3G (UMTS)	34	15	From 2023 to 2031	20
4G (LTE - 700 MHz)	494	15	2030	62
5G (2.3 GHz and 26 GHz)	188	20	2041	—

Work in progress and advance payments mainly relate to:

- the Parent Company in the amount of 1,375 million euros, including 680 million euros relating to the rights to use the 694-790 MHz (5G) frequencies held by TIM S.p.A. not yet operating and 240 million euros relating to the extension, to December 31, 2029, of the expiry date of the rights to use the 2100 MHz frequency, originally scheduled for December 31, 2021;

- the Brazil Business Unit for 406 million euros, of which 379 million euros relating to the recognition of the value of the 3.5 GHz frequencies that the TIM Brasil group was awarded in November 2021 and thanks to which it will be able to implement mobile services with 5G technology. The allocation of the rights to use these frequencies also entailed commercial commitments toward Empresa Administradora da Faixa (EAF), which will be responsible for the development of infrastructure projects.

The item also includes work in progress mainly related to software developments and investments for the digital evolution of Network Infrastructures.

Depreciation and impairment losses have been recorded in the income statement as components of EBIT.

The gross carrying amount, accumulated impairment losses and accumulated amortization at December 31, 2021 and December 31, 2020 can be summarized as follows:

(million euros)	12/31/2020			
	Gross carrying amount	**Accumulated impairment losses**	**Accumulated amortization**	**Net carrying amount**
Industrial patents and intellectual property rights	10,852	—	(9,06	1,789
Concessions, licenses, trademarks and similar rights	8,100	—	(4,45	3,645
Other intangible assets	460	—	(45	4
Work in progress and advance payments	1,302	—		1,302
Total intangible assets with a finite useful life	**20,714**	**—**	**(13,97**	**6,740**

(million euros)	12/31/2021			
	Gross carrying amount	**Accumulated impairment losses**	**Accumulated amortization**	**Net carrying amount**
Industrial patents and intellectual property rights	11,605	—	(9,67	1,933
Concessions, licenses, trademarks and similar rights	8,304	—	(4,92	3,376
Other intangible assets	464	—	(46	3
Work in progress and advance payments	1,835	—		1,835
Total intangible assets with a finite useful life	**22,208**	**—**	**(15,06**	**7,147**

With regard to the gross carrying amounts of intangible assets with a finite useful life, in 2021, disposals of 442 million euros were made by the Parent Company, relating to intellectual property rights, fully amortized, which mainly concerned releases that were obsolete following the introduction of the new ERP S4HANA software system.

NOTE 6
TANGIBLE ASSETS

Property, plant and equipment owned

This item increased by 170 million euros compared to December 31, 2020. The breakdown and movements are as follows:

(million euros)	**12/31/2019**	Investments	Depreciation and amortization	Impairment (losses) / reversals	Disposals	Exchange differences	Other changes	**12/31/2020**
Land	**226**	9			(3)	(3)		**229**

(million euros)	12/31/2020	Investments	Depreciation and amortization	Impairment (losses) / reversals	Disposals	Exchange differences	Other changes	12/31/2021
Land	**229**	2					1	**232**
Buildings (civil and industrial)	**577**	23	(35)				32	**597**
Plant and equipment	**11,206**	1,885	(2,095)		(30)	21	267	**11,254**
Manufacturing and distribution equipment	**22**	4	(9)				2	**19**
Other	**309**	121	(145)			1	81	**367**
Construction in progress and advance payments	**798**	630	0			2	(588)	**842**
Total	**13,141**	**2,665**	**(2,284)**	**—**	**(30)**	**24**	**(205)**	**13,311**

Land comprises both built-up land and available land and is not subject to depreciation. The figure at December 31, 2021 refers primarily to TIM S.p.A. (187 million euros) and Noovle (32 million euros).

Buildings (civil and industrial) mainly includes buildings for industrial use hosting telephone exchanges, or for office use and light constructions. The balance at December 31, 2021 is mainly attributable to TIM S.p.A. (438 million euros) and Noovle S.p.A. (131 million euros).

The item **Plant and machinery** includes the technological infrastructure used for the provision of telecommunications services (transport and distribution of voice/data traffic). The figure at December 31, 2021 is mainly attributable to TIM S.p.A. (5,911 million euros), to FiberCop S.p.A. (3,469 million euros) and to the Brazil Business Unit (1,501 million euros).

Manufacturing and distribution equipment consists of instruments and equipment used for the operation and maintenance of plant and equipment and refers mainly to TIM S.p.A..

The item **Other** mainly consists of hardware for the functioning of the Data Center and for work stations, furniture and fixtures and, to a minimal extent, transport vehicles and office machines.

Tangible assets in progress and advance payments refer to the internal and external costs incurred for the acquisition and internal production of tangible assets, which are not yet in use.

2021 investments include 259 million euros of internally generated assets (271 million euros in 2020); further details are provided in the Note "Internally generated assets".

Depreciation, impairment losses and reversals have been recorded in the income statement as components of EBIT.

Depreciation for the years 2021 and 2020 was calculated on a straight-line basis over the estimated useful lives of the assets according to the following minimum and maximum rates:

Buildings (civil and industrial)	2% - 5.55%
Plant and equipment	3% - 50%
Manufacturing and distribution equipment	20%
Other	10% - 50%

Furthermore, in 2021 depreciation included the estimated acceleration of depreciation as a consequence of both the switch-off of 3G in Italy, expected for June 2022 (equal to approximately 23 million euros) and the switch-off of part of the copper access network in Italy, hypothesized for end 2030 (equal to 31 million euros).

Other changes included 192 million euros relating to the deconsolidation of the Brazilian company I-Systems S.A. (formerly FiberCo Soluções de Infraestrutura S.A.).

The gross carrying amount, accumulated impairment losses and accumulated depreciation at December 31, 2021 and December 31, 2020 can be summarized as follows:

	12/31/2020			
(million euros)	**Gross carrying amount**	**Accumulated impairment losses**	**Accumulated depreciation**	**Net carrying amount**
Land	232	(3)		229
Buildings (civil and industrial)	1,907	—	(1,330)	577
Plant and equipment	69,814	(12)	(58,596)	11,206
Manufacturing and distribution equipment	324	(1)	(301)	22
Other	3,152	(2)	(2,841)	309
Construction in progress and advance payments	806	(8)		798
Total	**76,235**	**(26)**	**(63,068)**	**13,141**

(million euros)		12/31/2021		
	Gross carrying amount	Accumulated impairment losses	Accumulated depreciation	Net carrying amount
Land	235	(3)		232
Buildings (civil and industrial)	1,960	—	(1,363)	597
Plant and equipment	70,535	(12)	(59,269)	11,254
Manufacturing and distribution equipment	330	(1)	(310)	19
Other	3,305	(2)	(2,936)	367
Construction in progress and advance payments	844	(2)		842
Total	**77,209**	**(20)**	**(63,878)**	**13,311**

With regard to the gross carrying amounts of tangible assets, it is worth mentioning that in 2021, the Parent Company TIM S.p.A. carried out disposals for a total value of 535 million euros, mainly in relation to fully depreciated assets. The assets most affected were: access networks (155 million euros), switching systems (148 million euros), UMTS transmission plants and network transmission devices (71 million euros), underground fiber optic (57 million euros), office furniture, furnishings and machines (42 million euros) and rented terminals (31 million euros).

NOTE 7
RIGHTS OF USE ASSETS

The item decreased by 145 million euros compared to December 31, 2020. The breakdown and movements are as follows:

(million euros)	12/31/2019	Investments	Increases in lease contracts	Depreciation and amortization	Disposals	Exchange differences	Other changes	12/31/2020
Property	**3,398**	12	869	(397)	(112)	(129)	(730)	**2,911**
Plant and equipment	**1,901**	30	396	(252)	(234)	(335)	403	**1,909**
Other tangible assets	**151**		23	(39)	(4)	(2)	(8)	**121**
Construction in progress and advance payments	**44**	32					(25)	**51**
Total	**5,494**	**74**	**1,288**	**(688)**	**(350)**	**(466)**	**(360)**	**4,992**

(million euros)	12/31/2020	Investments	Increases in lease contracts	Depreciation and amortization	Disposals	Exchange differences	Other changes	12/31/2021
Property	**2,911**	35	298	(343)	(14)	4	(43)	**2,848**
Plant and equipment	**1,909**	25	328	(314)	(5)	11	(107)	**1,847**
Other tangible assets	**121**		35	(37)	(2)		2	**119**
Construction in progress and advance payments	**51**	19	2				(42)	**30**
Intangible assets			4	(1)				**3**
Total	**4,992**	**79**	**667**	**(695)**	**(21)**	**15**	**(190)**	**4,847**

2021 capital expenditures mainly refer to the Domestic Business Unit and are essentially related to the acquisition of IRU transmission capacity and improvements and incremental expenses incurred on leased property and non-property assets.

The increases in finance leasing contracts in 2021, equal to 667 million euros, refer in particular to the Brazil Business Unit (441 million euros) and the Domestic Business Unit (226 million euros).

These increases include the higher value of the rights of use recorded as a result of new leases, increases of lease payments and renegotiations of agreements existing both land and buildings for office use and industrial relationship over time, to infrastructure sites for the mobile telephone network infrastructure and network.

Amortization and impairment losses have been recorded in the income statement as components of EBIT.

The disposals are representative of the carrying amount of the assets from lease agreements that terminated early.

Other changes included, inter alia, transfers to operating activities and the lower value of the rights of use recorded as a result of contractual changes during the year. In 2021 they mainly refer to the Brazil Business Unit.

The item **Property** includes buildings and land under passive leases and the related building adaptations, essentially attributable to the Parent Company (2,415 million euros) and the Brazil Business Unit (324 million euros) and Noovle S.p.A. (89 million euros).

The item **Plant and equipment** mainly includes rights of use on infrastructures for telecommunications services. These refer to the Brazil Business Unit (928 million euros), the Parent (610 million euros), the Telecom Italia Sparkle group (184 million euros) and FiberCop S.p.A. (124 million euros). This includes, inter alia, the recognition of the value of the telecommunications towers sold by the TIM Brasil group to American Tower do Brasil and subsequently repurchased in the form of a finance lease.

The item **Other tangible assets** mainly comprises the leases on motor vehicles. In addition, the right of use for the lease of the business unit relating to all the assets organized for the full performance of the "construction", "delivery" and "assurance" activities for telecommunications networks and equipment, deriving from the contract entered into between TIM Servizi Digitali S.p.A. and Sittel S.p.A., is recorded herein for an amount of 17 million euros. The corresponding financial lease liability for the obligation to comply with the contractual payments is recorded against the right of use.

The item **Intangible assets** includes the recording as lease, starting 2021, of a Software as a Service (SaaS) contract, in exchange for which TIM S.p.A. has acquired the right to make exclusive use of software licenses residing on partitions of third party hardware platforms dedicated exclusively to the Company.

The gross carrying amount, accumulated impairment losses and accumulated depreciation at December 31, 2021 and December 31, 2020 can be summarized as follows:

(million euros)	12/31/2020			
	Gross carrying amount	**Accumulated impairment losses**	**Accumulated depreciation**	**Net carrying amount**
Property	5,075	(13)	(2,151)	2,911
Plant and equipment	3,047	(271)	(867)	1,909
Other	267		(146)	121
Construction in progress and advance payments	51			51
Total	**8,440**	**(284)**	**(3,164)**	**4,992**

(million euros)	12/31/2021			
	Gross carrying amount	**Accumulated impairment losses**	**Accumulated depreciation**	**Net carrying amount**
Property	5,327	(13)	(2,466)	2,848
Plant and equipment	3,304	(277)	(1,180)	1,847
Other	291		(172)	119
Construction in progress and advance payments	30			30
Intangible assets	4	—	(1)	3
Total	**8,956**	**(290)**	**(3,819)**	**4,847**

Impairment losses on “Plant and equipment”, mainly relating to prior years, refers to the Indefeasible Rights of Use (IRU) for the transmission capacity and cables for international connections acquired by the Telecom Italia Sparkle group.

With reference to the gross values of rights of use of third party assets, in 2021 the Parent Company TIM S.p.A. carried out disposals for a total value of 650 million euros, relating to rights of use of IRU fiber (607 million euros), leased properties (25 million euros), leased vehicles (9 million euros), base transceiver stations (7 million euros) and leasehold improvements (2 million euros).

NOTE 8
INVESTMENTS

Investments in associates and joint ventures accounted for using the equity method

Investments in associates and joint ventures accounted for using the equity method are reported below in detail.

(million euros)		12/31/2021	12/31/2020
I-Systems S.A.		253	—
Satispay S.p.A.		20	—
NordCom S.p.A.		6	5

Total investments accounted for using the equity method	**2,728**	**47**	**(1)**	**(49)**	**254**	**2,979**

The “other changes” for 2021 mainly include the carrying amount of the investment in I-Systems S.A. (formerly FiberCo Soluções de Infraestrutura S.A.) following the deconsolidation of the company.

In November 2021, once the regulatory authorization process had been completed, the agreement was finalized between TIM S.A. (Brazil Business Unit) and IHS Fiber Brasil - Cessão de Infraestruturas Ltda. (“IHS Brasil”), in order to acquire an equity stake in FiberCo Soluções de Infraestrutura S.A. ("FiberCo"), a company established by TIM S.A. for the segregation of network assets and the provision of infrastructure services. The closing of the transaction resulted in the dilution from 100% to 49% of TIM S.A.'s investment in I-Systems, which is now accounted for by the TIM Group using the equity method.

Shareholder relations are governed by a shareholders' agreement.

The operation was worth 1.68 billion reais, divided up into a primary component of 0.58 billion reais, for the treasury of I-Systems, and a secondary component of 1.10 billion reais, paid to TIM S.A.. The enterprise value of I-Systems was established at 2.71 billion reais and the equity value, after the contribution of the primary component, was set at 3.29 billion reais. The operation also considers possible additional earnings deriving from an earn-out component.

In addition, under the scope of the Operation, TIM S.A. and I-Systems have stipulated an agreement to develop the Fiber-to-the-Site (FTTS) infrastructure to connect TIM sites in the areas in which FiberCo will be developing the new infrastructure granting access to fiber optic broadband.

The "Investments" for 2021 include both the acquisition of the stake in Satispay by TI Ventures S.r.l. in March 2021, and the payments, by TIM S.p.A., to TIMFin S.p.A.

In 2021, “valuation using the equity method” of the investment in INWIT includes:

- the portion pertaining to the positive economic result of the investee including, the greater amortization charge, at consolidated level, of the assets to which part of the greater value deriving from the corporate integration transaction of Vodafone Towers S.r.l. in INWIT (43 million euros) has been allocated;
- the reduction in the carrying amount of the equity investment for dividends received in the year (87 million euros).

Following a series of operations carried out last year, at present, TIM holds a 30.2% share in INWIT S.p.A. indirectly, through a holding company called Daphne 3, controlled with a 51% stake. The associate in the holding company is a consortium of institutional investors led by Ardian. The holding company has taken over from TIM - in the shareholders' agreement already stipulated between TIM and Vodafone Europe, by virtue of which, joint control is exercised over INWIT.

Essential information on the shareholders' agreements (i) between TIM and Vodafone (now Daphne 3/Central Tower Holding Company) and (ii) between TIM and Ardian can be consulted on the INWIT website (inwit.it).

The list of **investments accounted for using the equity method** is presented in the Note "List of companies of the TIM Group".

Investments in associates accounted for using the equity method of the TIM Group are not material either individually or in aggregate form.

Investments in structured entities

The TIM Group does not hold investments in structured entities.

Other investments

Other investments refer to the following:

(million euros)	12/31/2019	Investments	Disposals and reimbursements of capital	Valuation at fair value	Other changes	12/31/2020
Fin.Priv. S.r.l.	21			(5)		16
Northgate CommsTech Innovations Partners L.P.	19	6				25
Other	12	1		—		13
Total	52	7	—	(5)	—	54

(million euros)	12/31/2020	Investments	Disposals and reimbursements of capital	Valuation at fair value	Other changes	12/31/2021
Fin.Priv. S.r.l.	16			6		22
Northgate CommsTech Innovations Partners L.P.	25	1		(9)		17
UV T-Growth		12				12
SECO S.p.A.		38		54		92
Other	13					13
Total	54	51	—	51	—	156

In particular, it should be noted that, during the year 2021:

- the subsidiary Olivetti S.p.A. acquired 9.6% of the share capital of SECO S.p.A., the company specialized in the miniaturization of computers and in the Internet of Things sector;
- TIM S.p.A. has subscribed shares in the UV T-Growth venture capital fund for 12 million euros.

At December 31, 2021, the TIM Group had a subscription commitment for units:

- in the Northgate CommsTech Innovations Partners L.P. fund for 8 million USD, equal to approximately 7 million euros at the exchange rate as at December 31, 2021;
- of the UV T-Growth fund in the amount of 48 million euros.

As permitted by IFRS 9, TIM now measures Other Investments at “fair value through other comprehensive income (FVTOCI)”.

Further details on Financial Instruments are provided in the Note "Supplementary disclosure on financial instruments".

NOTE 9

NON-CURRENT AND CURRENT FINANCIAL ASSETS

Non-current and current financial assets were broken down as follows:

(million euros)		12/31/2021	12/31/2020
Other non-current financial assets			
Securities other than investments		—	—
Receivables from employees		39	40
Hedging derivatives relating to hedged items classified as non-current assets/liabilities of a financial nature		1,935	1,970
Non-hedging derivatives		100	44
Other financial receivables		211	213
		2,285	**2,267**
Financial receivables for lease contracts		**45**	**43**
Total non-current financial assets	**(a)**	**2,330**	**2,310**
Securities other than investments, other financial receivables and other current financial assets			
Securities other than investments			
Measured at amortized cost (AC)		—	—
Measured at fair value through other comprehensive income (FVTOCI)		1,515	767
Measured at fair value through profit or loss (FVTPL)		734	325
		2,249	**1,092**
Financial receivables and other current financial assets			
Liquid assets with banks, financial institutions and post offices (with maturity over 3 months)		—	—
Receivables from employees		12	13
Hedging derivatives relating to hedged items classified as current financial assets/liabilities		80	97
Non-hedging derivatives		41	50
Other short-term financial receivables		9	2
		142	**162**
	(b)	**2,391**	**1,254**
Financial receivables for lease contracts	**(c)**	**56**	**55**
Cash and cash equivalents	**(d)**	**6,904**	**4,829**
Total current financial assets	**e=(b+c+d)**	**9,351**	**6,138**
Financial assets relating to Discontinued operations/Non-current assets held for sale	**(f)**	**—**	**—**
Total non-current and current financial assets	**g=(a+e+f)**	**11,681**	**8,448**

Further details on Financial Instruments are provided in the Note "Supplementary disclosure on financial instruments".

Financial receivables for lease contracts refer to:

- finance leases on user rights and equipment;

- commercial offers for TIM Consumer and Business customers involving the rental of ADSL routers;
- agreements for the sale of network infrastructure in IRU with deferred collection over time recognized using the financial method envisaged by IFRS 16 given the contractual term substantially close to the economic life of the asset;
- lease contracts for commercial products with customers. The financial receivables for lease assets are offset by the financial debt for the corresponding leases payable.

Hedging derivatives relating to hedged items classified as non-current assets/liabilities of a financial nature mainly refer to the mark-to-market spot valuation component of the hedging derivatives, whereas **hedging derivatives relating to hedged items classified as current assets/liabilities of a financial nature** refer to accrued income on such derivative contracts.

Non-hedging derivatives consist mainly of the mark-to-market component of the non-hedging derivatives of the Brazil Business Unit. More specifically, they include 72 million euros in relation to the option to subscribe shares of C6 Bank with which TIM S.A. entertains commercial relations. The figure also includes IRS derivatives of 18 million euros belonging to fair value hedges of bond loans in euros, discontinued starting from June 2021 due to the failure of the prospective efficiency tests carried out at December 31, 2021.

Further details are provided in the Note “Derivatives”.

Other financial receivables refer 205 million euros to the loan that TIM S.p.A. is owed by Ardian (through the financial vector Impulse I) following the transaction by means of which TIM S.p.A. conferred 30.2% of INWIT’s shares to Daphne 3.

Securities other than investments included in current financial assets relate to:

- 1,515 million euros of listed securities, of which 840 million euros of Italian and European treasury bonds purchased by Telecom Italia Finance S.A. as well as 675 million euros of bonds purchased by Telecom Italia Finance S.A. with different maturities, all with an active market and consequently readily convertible into cash. Under IFRS 9 and consistently with the Business model, such securities are classified as financial assets measured at fair value through other comprehensive income (FVTOCI). The purchases of the above government bonds, which, pursuant to Consob Communication no. DEM/11070007 of August 5, 2011, represent investments in “Sovereign debt securities”, have been made in accordance with the Guidelines for the “Management and control of financial risk” adopted by the TIM Group;
- 734 million euros of investments in monetary funds by the Brazil Business Unit, which, under IFRS 9, are classified as financial assets measured at fair value through profit or loss (FVTPL).

On the basis of two securities lending agreements signed with Telecom Italia Finance S.A. on November 27, 2019 and thereafter renewed on April 28, 2020, TIM S.p.A. received on loan until February 2, 2021 (renewable term) 98 million euros (nominal) of BTP 03/01/2023 and 150 million euros of BTP 04/15/2021; starting December 1, 2019, TIM S.p.A loans these securities to the counterparty NatWest.

On January 27, 2021, TIM S.p.A. renewed the securities lending agreement in place with Telecom Italia Finance S.A., which envisages the lending until February 15, 2023 of 98 million euros (nominal) of BTP 3/1/2023.

On January 29, 2021, TIM S.p.A. borrowed until October 5, 2023 (subject to renewal) 24 million euros (nominal) in BTP 10/15/2023 and 67.5 million euros (nominal) in BTP 2/1/2026; furthermore TIM S.p.A. lent the counterparty NatWest said securities in compliance with the agreement stipulated on December 21, 2020.

In addition, Telecom Italia Finance S.A. also has additional securities lending contracts with banking counterparties concerning securities worth (a nominal) 171 million euros.

From an accounting standpoint, in compliance with IAS/IFRS, the assets are shown exclusively in the financial statements of Telecom Italia Finance S.A., which retains the risks and benefits associated with the position.

Further details are provided in the Note “Accounting policies”.

Cash and cash equivalents increased by 2,075 million euros compared to December 31, 2020 and were broken down as follows:

(million euros)	12/31/2021	12/31/2020
Liquid assets with banks, financial institutions and post offices	6,092	4,433
Checks, cash and other receivables and deposits for cash flexibility	—	—
Securities other than investments (due within 3 months)	812	396
Total	**6,904**	**4,829**

The different technical forms of use of available cash at December 31, 2021 had the following characteristics:

- maturities: investments have a maximum maturity of three months;
- counterparty risk: deposits have been made with leading high-credit-quality banks and financial institutions with a rating of at least BBB according to Standard & Poor’s with regard to Europe, and with leading local counterparts with regard to investments in South America;
- country risk: deposits have been made mainly in major European financial markets.

Securities other than investments (due within 3 months) included 812 million euros (395 million euros at December 31, 2020) of Brazilian bank certificates of deposit (Certificado de Depósito Bancário) held by the Brazil Business Unit with premier local banking and financial institutions.

NOTE 10

MISCELLANEOUS RECEIVABLES AND OTHER NON-CURRENT ASSETS

Compared to December 31, 2020, this item increased by 152 million euros and were broken down as follows:

(million euros)		12/31/2021	*of which Financial Instruments*	12/31/2020	*of which Financial Instruments*
Miscellaneous receivables (non-current)	**(a)**	**433**	**144**	**516**	**151**
Other non-current assets					
Deferred contract costs		1,755		1,522	
Other cost deferrals		78		76	
	(b)	**1,833**		**1,598**	
Total	**(a+b)**	**2,266**	**144**	**2,114**	**151**

Further details on Financial Instruments are provided in the Note "Supplementary disclosure on financial instruments".

Miscellaneous non-current receivables totaled 433 million euros (516 million euros at December 31, 2020) and included Non-current income tax receivables of 147 million euros (64 million euros at December 31, 2020).

This item was mainly due to the Brazil Business Unit (379 million euros; 467 million euros at December 31, 2020).

More specifically, at December 31, 2021, the Brazil Business Unit has non-current receivables relating to indirect tax for 137 million euros (296 million euros at December 31, 2020) and direct tax for 116 million euros (33 million euros at December 31, 2020), including receivables relating to the decision made by the Supreme Federal Court (STF) on the waiver of collection of corporate income tax (IRPJ) and social contributions (CSLL) on the monetary recalculation that uses the SELIC rate in cases of undue payment.

Non-current receivables also include receivables for court deposits of 116 million euros (126 million euros at December 31, 2020).

Other non-current assets amounted to 1,833 million euros (1,598 million euros at December 31, 2020). They mainly break down as follows:

- **Deferred contract costs** of 1,755 million euros (1,522 million euros at December 31, 2020), mainly related to the deferral of costs related to the activation and acquisitions of new contracts with customers. Contract costs are deferred and recognized through separate profit or loss depending on the expected term of the contractual relationship with the customers. In 2021, the expected duration of the contractual relationship with customers went from 3 to 4 years for the mobile business and from 7 to 8 years for the fixed-line business, following an improvement to the churn on customers recorded in recent years, as a result of the loyalty and retention actions and the drive on converging offers. The positive impact at 31 December, 2021 amounted, at a consolidated level, to a total of 164 million euros; for the years 2022 and 2023, with regard to the outstanding amount at 31 December, 2021, a positive impact of 103 million euros and 52 million euros respectively is estimated in reference entirely to the Parent Company, gross of intragroup eliminations.

  Total (non-current and current) deferred contract costs amounted to 2,297 million euros (2,139 million euros at December 31, 2020) and break down as follows:

(million euros)	12/31/2021	12/31/2020
Deferred contract costs		
Non-current deferred contract costs	1,755	1,522
Current deferred contract costs	542	617
Total	**2,297**	**2,139**

(million euros)	12/31/2021	12/31/2020
Deferred contract costs		
Contract acquisition costs	1,246	1,132
Contract execution costs	1,051	1,007
Total	**2,297**	**2,139**

Changes to comprehensive deferred contract costs in 2021 are as follows:

(million euros)	12/31/2020	Increase	Release to income statement	Exchange differences and other changes	12/31/2021
Contract acquisition costs	1,132	390	(278)	2	1,246
Contract execution costs	1,007	250	(206)	—	1,051
Total	**2,139**	**640**	**(484)**	**2**	**2,297**

The deferred contract costs will be recognized in the income statement for future years and, in particular, of around 555 million euros in 2022, based on the amount at December 31, 2021 without taking into account the new deferred portions.

(million euros)	12/31/2021	year of recognition in the income statement					
		2022	2023	2024	2025	2026	After 2026
Contract acquisition costs	1,246	324	274	219	158	111	160
Contract execution costs	1,051	231	218	193	157	112	140
Total	**2,297**	**555**	**492**	**412**	**315**	**223**	**300**

- **Other deferred costs** of 78 million euros, mainly attributable to the Parent and to companies of the Brazil Business Unit and of the Telecom Italia Sparkle group.

NOTE 11

INCOME TAX EXPENSE (CURRENT AND DEFERRED)

Current income tax receivables

Non-current and current income tax receivables at December 31, 2021 amounted to 226 million euros (150 million euros at December 31, 2020).

Specifically, they consisted of:

- non-current income tax receivables of 147 million euros (64 million euros at December 31, 2020), relating to the companies of the Brazil Business Unit (116 million euros) and the Parent TIM S.p.A. (31 million euros). They include receivables of TIM S.A. relating to the decision of the Brazilian Supreme Federal Court on the non-collection of corporate income tax and social contributions on the monetary recalculation that uses the SELIC rate in cases of undue payment and receivables not transferred by the Parent Company relative to tax and interest deriving from the recognized deductibility from IRES tax of the IRAP tax calculated on labor costs, relating to years prior to 2012, following the entry into force of Italian Decree Law 16/2012;
- current income tax receivables of 79 million euros (86 million euros at December 31, 2020), relating to the companies of the Domestic Business Unit (51 million euros) and the Brazil Business Unit (26 million euros). They include the IRES tax receivable for surplus payments and withholdings of 5 million euros and the IRAP receivable for 29 million euros for surplus down payments made and for the benefit deriving from the presentation of supplementary declarations following the ruling signed on August 3, 2020 with the Revenue Agency for the application of the patent box benefit of the Parent Company TIM S.p.A..

Tax assets and deferred tax liabilities

The net balance of 3,268 million euros at December 31, 2021 (7,219 million euros at December 31, 2020) breaks down as follows:

(million euros)	12/31/2021	12/31/2020
Deferred tax assets	3,513	7,496
Deferred tax liabilities	(245)	(277)
Total	**3,268**	**7,219**

Deferred tax assets at December 31, 2021 mainly referred to the Domestic Business Unit, at 3,427 million euros. At December 31, 2020, deferred tax assets mainly referred to the Domestic Business Unit, at 7,383 million euros.

In the 2020 financial statements, the Parent Company TIM S.p.A. had benefited from the possibility of realigning the tax values to the greater value of the assets booked, specifically the value of goodwill of 23,051 million euros, as envisaged by Decree Law 104/2020, Art. 110, subsections 8 and 8 bis. Accordingly, this resulted, in exchange for payment of substitute tax in the amount of 3% of the realigned value (692 million euros), in the possibility to deduct the tax amortization of the realigned value of 23,051 million euros over 18 years, starting 2021. These deductions, which would have generated benefits in terms of IRES and IRAP, have been fully noted at December 31, 2020 amongst deferred tax assets in the amount of 6,569 million euros, in view of the possibility of absorption through the Company's future taxable income, also taking into account the fact that IRES losses can be carried forward without time limits, where such may arise due to temporary incapacity of taxable income.

The 2022 Budget Law (Law 234/2021, art. 160) amended the duration of the period during which amortization of tax-recognized goodwill could be deducted, taking it to 50 years and this resulted in the writing off of 50% of deferred tax assets for 3,285 million euros (of which 2,766 million euros for IRES and 519 million euros for IRAP), which go beyond the time frame of visibility for absorption, which had been identified as 25 years in the 2020 financial statements. The remaining deferred IRAP tax assets for 540 million euros were also written-off, mainly relating to the realigned goodwill in consideration of the changed assessment of the time frame for recoverability of deferred tax assets, also determined on the basis of the 2022 - 2024 Industrial Plan of the Parent Company TIM S.p.A. For the same reason, the Parent Company has not entered new deferred tax assets for period tax losses. This write-off does not exclude for the future, the possibility of reversing this impairment with the booking of all or part of the deferred tax assets where they should be deemed recoverable.

In 2021, in accordance with art. 19 of Decree Law no. 73/2021, the Parent Company TIM S.p.A. also transformed the deferred tax assets for tax losses carried forward and ACE surpluses (within the limit of 20% of the impaired loans transferred) into tax credits in the amount of approximately 20 million euros; these receivables were subsequently offset against VAT payable.

Deferred tax liabilities mainly refer to Telecom Italia Capital for 214 million euros (252 million euros at December 31, 2020) and the Domestic Business Unit for 20 million euros (13 million euros at December 31, 2020).

Since the presentation of prepaid and deferred taxes in the financial statements takes into account the offsets by legal entity when applicable, the composition of the gross amounts before offsets is presented below:

(million euros)	12/31/2021	12/31/2020
Deferred tax assets	3,999	7,931
Deferred tax liabilities	(731)	(712)
Total	**3,268**	**7,219**

The temporary differences which made up this line item at December 31, 2021 and 2020, as well as the movements during 2021, were as follows:

(million euros)	12/31/2020	Recognized in profit or loss	Recognized in equity	Change in scope of consolidation and other changes	12/31/2021
Deferred tax assets					
Tax loss carryforwards (*)	100	(41)		(13)	46
Derivatives	625	(5)	(103)		517
Provision for bad debts	126	1		1	128
Provisions	260	106		2	368
Taxed depreciation and amortization	96	8			104
Tax realignment pursuant to Decree Law 104/2020 Art. 110	6,569	(3,914)			2,655
Other Prepaid tax assets	155	29	4	(7)	181
Total	**7,931**	**(3,816)**	**(99)**	**(17)**	**3,999**
Deferred tax liabilities					
Derivatives	(532)	2	37	1	(492)
Business combinations - for step-up of net assets in excess of tax basis	(67)	(37)	—	52	(52)
Accelerated depreciation and amortization	(53)	(31)		1	(83)
Convertible bonds	—		(45)		(45)
Other deferred taxes	(60)	3		(2)	(59)
Total	**(712)**	**(63)**	**(8)**	**52**	**(731)**
Total Deferred tax assets net of Deferred tax liabilities	**7,219**	**(3,879)**	**(107)**	**35**	**3,268**

(*) For the new flow of tax losses in 2021, the Parent Company TIM S.p.A. has not entered deferred tax assets.

The expirations of deferred tax assets and deferred tax liabilities at December 31, 2021 were the following:

(million euros)	.Within next year	Beyond 1 year	Total at 12/31/2021
Deferred tax assets	505	3,494	3,999
Deferred tax liabilities	(122)	(609)	(731)
Total Deferred tax assets net of Deferred tax liabilities	**383**	**2,885**	**3,268**

At December 31, 2021, the TIM Group had unused tax loss carryforwards of 2,287 million euros, mainly relating to the company Telecom Italia Finance and the Parent TIM S.p.A., with the following expiration dates:

Year of expiration	(million euros)
2022	—
2023	2
2024	—
2025	3
2026	1
Expiration after 2026	29
Without expiration	2,252
Total unused tax loss carryforwards	**2,287**

Unused tax loss carryforwards considered in the calculation of deferred tax assets amounted to 150 million euros at December 31, 2021 (323 million euros at December 31, 2020) and mainly referred to the Brazil Business Unit and the Parent TIM S.p.A.. Deferred tax assets were recognized as it was considered probable that taxable income will be available in the future against which the tax losses can be utilized.
On the other hand, deferred tax assets relative to foreign subsidiaries of 333 million euros (354 million euros at December 31, 2020) were not recognized on 1,325 million euros of tax loss carry-forwards since, at the reporting date, their recoverability was not considered probable.
At December 31, 2021, deferred tax liabilities were not recognized on approximately 0.8 billion euros of tax-suspended reserves and undistributed earnings of subsidiaries, because the TIM Group is in a position to control the timing of the distribution of those reserves and it is probable that those accumulated earnings will not be distributed in the foreseeable future. The contingent liabilities relating to taxes that should be recognized, if these reserves are distributed, are in any case not significant.

Current income tax payables

Current income tax payables amounted to 526 million euros (764 million euros at December 31, 2020). They break down as follows:

(million euros)	12/31/2021	12/31/2020
Income taxes payable:		
non-current	231	493
current	295	271
Total	**526**	**764**

The current portion, of 295 million euros, refers to the Domestic Business Unit (265 million euros) and the Brazil Business Unit (30 million euros) and includes the second installment of the substitute tax pursuant to Decree Law 104/2020, Art. 110, paragraphs 8 and 8 bis of the Parent Company (231 million euros).
The non-current portion, amounting to 231 million euros, refers to the Parent Company TIM S.p.A. and relates to the third installment of substitute tax pursuant to Decree Law 104/2020, Art. 110, paragraphs 8 and 8 bis.

Income tax expense

The income tax expense for the years 2021 and 2020 breaks down as follows:

(million euros)		2021	2020
Current taxes for the year		15	777
Net difference in prior year estimates		(4)	(197)
Total current taxes		**11**	**580**
Deferred taxes		3,874	(6,535)
Total income tax expense on continuing operations	**(a)**	**3,885**	**(5,955)**
Income tax expense on Discontinued operations/Non-current assets held for sale	**(b)**	**—**	**—**
Total income tax expense for the year	**(a+b)**	**3,885**	**(5,955)**

Deferred tax includes the write-off for 3,825 million euros, of which 2,766 million euros for IRES, equal to 50% of the deferred tax assets entered in 2020 following the higher values booked in accordance with Decree Law 104/2020, Art. 110, subsections 8 and 8 bis and 1,059 million euros for the residual deferred IRAP tax assets entered for the realignment of goodwill and other items.

As already specified, the write-off of deferred tax assets is due to the extension to 50 years of the period of resorption of the realigned amount of goodwill introduced by Art. 160 of the 2022 Budget Law (Law 234/2021) and the changed assessment of the time frame for recovery of deferred tax assets of the parent company TIM S.p.A.

The reconciliation between the theoretical tax expense, using the IRES tax rate in force in Italy (24%), and the effective tax expense for the years ended December 31, 2021 and 2020 is as follows:

(million euros)		2021	2020
Profit (loss) before tax from continuing operations		**(4,515)**	**1,397**
Theoretical income tax from continuing operations		**(1,084)**	**335**
Income tax effect on increases (decreases) in variations			
Tax losses of the year not considered recoverable		2	1
Tax losses from prior years not recoverable (recoverable) in future years		(20)	(20)
Non-deductible write-down of goodwill		989	—
IRES taxes for previous years		(8)	(299)
Prepaid IRES tax (benefit)/write-off pursuant to Decree Law 104/2020, Art. 110 and others		2,961	(5,532)
Brazil: different tax rate compared to the theoretical rate in force in Italy		48	33
Brazil: investment incentives		(28)	(28)
Other net differences		(59)	(137)
Effective taxes recognized in the Income Statement, excluding IRAP and substitute tax		**2,801**	**(5,647)**
Prepaid IRAP including tax (benefit)/write-off pursuant to Decree Law 104/2020, Art. 110		1,084	(1,000)
Substitute tax pursuant to Decree Law 104/2020 art. 110		—	692
Total effective taxes recognized in the Income Statements from continuing operations	**(a)**	**3,885**	**(5,955)**
Effective taxes recognized in the Income Statement from Discontinued operations/Non-current assets held for sale	**(b)**	**—**	**—**
Total of actual taxes to income statement	**(a)+(b)**	**3,885**	**(5,955)**

For the analysis of the tax burden related to the Profit (loss) before tax from continuing operations, the impact of IRAP and substitute tax pursuant to Decree Law 104/2020, Art. 110, has been kept separate to avoid any distorting effect, since these taxes only apply to Italian companies and are calculated on a tax base other than pre-tax profit.

NOTE 12 INVENTORIES

The item increased compared to December 31, 2020, by 40 million euros and is broken down as follows:

(million euros)	12/31/2021	12/31/2020
Raw materials and supplies	2	2
Work in progress and semi-finished products	5	2
Finished goods	246	238
Deposits on stocks	29	—
Total	**282**	**242**

Inventories essentially consist of fixed and mobile telecommunications equipment and handsets and related accessories, as well as office products and specialized printers.

Inventories consist of 250 million euros for the Domestic Business Unit (204 million euros at December 31, 2020), also due to a purchasing trend recorded during the year, which was higher than that of consumption, on the Fixed segment of the Parent Company Tim S.p.A. and 32 million euros for the Brazil Business Unit (38 million euros at December 31, 2020).

The item “Deposits on stocks” refers to deposits paid by Telecom Italia Sparkle to construct transmission systems, limited to the component for resale also through financial lease transfer contracts.

Inventories are stated net of a provision for bad debts amounting to 21 million euros (13 million euros at December 31, 2020).

NOTE 13

TRADE AND MISCELLANEOUS RECEIVABLES AND OTHER CURRENT ASSETS

This item rose by 12 million euros compared to December 31, 2020. The figure breaks down as follows:

(million euros)		12/31/2021	*of which Financial Instruments*	12/31/2020	*of which Financial Instruments*
Trade receivables					
Receivables from customers		1,545	*1,545*	2,140	*2,140*
Receivables from other telecommunications operators		1,130	*1,130*	765	*765*
	(a)	**2,675**	*2,675*	**2,905**	*2,905*
Miscellaneous receivables (current)					
Receivables due from others	(b)	**780**	*101*	**516**	*85*
Other current assets					
Contract assets		20	*20*	25	*25*
Deferred contract costs		542		617	
Other cost deferrals		273		217	
Other		68		66	
	(c)	**903**	*20*	925	*25*
Total	(a+b+c)	**4,358**	***2,796***	**4,346**	***3,015***

Further details on Financial Instruments are provided in the Note "Supplementary disclosure on financial instruments".

The analyses of the aging of the financial instruments included in Trade and miscellaneous receivables and other current assets at December 31, 2021 and December 31, 2020 are provided below:

(million euros)	12/31/2021	of which non-overdue	of which overdue	of which overdue from: 0-90 days	91-180 days	181-365 days	More than 365 days
Trade and miscellaneous receivables and other current assets	**2,796**	2,270	526	151	68	77	230

(million euros)	12/31/2020	of which non-overdue	of which overdue	of which overdue from: 0-90 days	91-180 days	181-365 days	More than 365 days
Trade and miscellaneous receivables and other current assets	**3,015**	2,388	627	116	133	102	276

Overdue receivables fell by 118 million euros compared to December 31, 2020. This performance is mainly a result of, for 2021: the Domestic Business Unit companies (-178 million euros), and the Brazil Business Unit (+60 million euros, including a positive exchange effect of approximately 3 million euros).

Overdue receivables fell by 101 million euros compared to December 31, 2020. This performance is mainly a result of, for 2021: the Parent Company (-71 million euros), and the Brazil Business Unit (-43 million euros, including a positive exchange effect of approximately +1 million euros) and the Domestic Business Unit companies (+13 million euros).

Trade receivables amounted to 2,675 million euros (2,905 million euros at December 31, 2020) and are stated net of the provision for bad debts of 565 million euros (627 million euros at December 31, 2020). They included 9 million euros (13 million euros at December 31, 2020) of medium/long-term receivables, in respect of agreements for the sale of transmission capacity under Indefeasible Rights of Use (IRU).
Trade receivables mainly related to TIM S.p.A. (1,906 million euros) and to the Brazil Business Unit (511 million euros).

Movements in the provision for bad debts were as follows:

(million euros)	12/31/2021	12/31/2020
At January 1	**627**	**757**
Provision charges to the income statement	212	282
Utilization and decreases	(287)	(369)
Change in the scope of consolidation	1	1
Exchange rate differences and other changes	12	(44)
At December 31	**565**	**627**

In particular, the provision for bad debt at December 31, 2021 suffered the provisions made in 2021 for a total of 212 million euros, of which 20 million euros are non-recurring of the Domestic Business Unit in connection with the COVID-19 health emergency, which resulted in a worsening of the Expected Credit Losses of customers, consequent to the expected deterioration of the macroeconomic context. For more details, see the Note "Non-recurring Events and Transactions".

Miscellaneous receivables (current) refer to other receivables amounting to 780 million euros (516 million euros at December 31, 2020) and are net of a provision for bad debts of 46 million euros (48 million euros at December 31, 2020). Details are as follows:

(million euros)	12/31/2021	12/31/2020
Advances to suppliers	270	22
Receivables from employees	10	10
Tax receivables	268	254
Receivables for grants from the government and public entities	14	29
Sundry receivables	218	201
Total	**780**	**516**

Tax receivables mainly relate to:

- the Brazil Business Unit (240 million euros) and are related to local indirect taxes.
- the Parent Company (15 million euros) essentially for credit amounts resulting from tax returns, tax credits, as well as VAT credits on the acquisition of motor vehicles and related accessories requested for reimbursement pursuant to Law Decree no. 258/2006 converted with amendments by Law no. 278/2006.

Receivables for grants from the government and public entities (14 million euros) referred mainly to the ultrabroadband-UBB and broadband-BB projects. The grants are recognized to the income statement when the related plants become ready for use.

Sundry receivables mainly included:

- TIM S.p.A. receivables for Universal Service (52 million euros);
- TIM S.p.A. receivables for with-recourse assignments to factoring companies (43 million euros);
- miscellaneous receivables of TIM S.p.A. from other TLC operators (32 million euros);
- TIM S.p.A. receivables from social security and pension institutions (13 million euros).

Other current assets included:

- **Contract assets with customers**: this item includes the effect of the early recognition of revenues for those bundle contracts (such as bundles of products and services) with individual performance obligations with a different recognition timing, in which the goods recognized "at a point in time" are sold at a discounted price, or for those contracts which, by providing for a discount for a period of time shorter than the minimum contract term, require, pursuant to IFRS 15, a reallocation of the discount over the minimum contractual term. Contract Assets at December 31, 2021 amounted to 20 million euros (25 million euros at December 31, 2020), net of the related write-down provision of 1 million euros and drop by 5 million euros, since the reversal to the income statement of the previously accumulated balance was substantially offset by the need to distribute discounts granted to customers temporally over the minimum contractual term, with particular reference to those connected with the impact of COVID-19;
- **Deferred contract costs** (542 million euros, 617 million euros at December 31, 2020): these are contract costs (mainly technical activation costs and commissions for the sales network) deferred and recognized in the separate income statement according to the expected duration of the contractual relationship with customers. As indicated above, in 2021 the expected duration of the contractual relationship went from 3 to 4 years for the mobile business and from 7 to 8 years for the fixed-line business, with a positive impact, at consolidated level, totaling 164 million euros at December 31, 2021. Further details on Deferred contract costs are provided in the Note "Miscellaneous receivables and other non-current assets".
- **Other deferred costs** mainly concern:
  - the Parent Company essentially for the deferral of costs related to rental charges and other lease and rental costs (172 million euros), the deferral of costs for the purchase of products and services (24 million euros), deferral of after-sales expenses on application offers (23 million euros), insurance premiums (4 million euros) and maintenance fees (3 million euros);
  - the Telecom Italia Sparkle group, mainly concerning the deferral of costs connected with leases for circuits and maintenance fees (13 million euros);
  - the Brazil Business Unit relative to marketing activities (approximately 14 million euros), insurance premiums (approximately 5 million euros) and maintenance contracts (approximately 5 million euros).

NOTE 14
EQUITY

Equity consisted of:

(million euros)	12/31/2021	12/31/2020
Equity attributable to owners of the Parent	17,414	26,215
Non-controlling interests	4,625	2,625
Total	**22,039**	**28,840**

The composition of **Equity attributable to owners of the Parent** is the following:

(million euros)	12/31/2021		12/31/2020	
Share capital		11,614		11,588
Additional paid-in capital		2,133		2,133
Other reserves and retained earnings (accumulated losses), including profit (loss) for the year		3,667		12,494
Reserve for financial assets measured at fair value through other comprehensive income	49		20	
Reserve for hedging instruments	(128)		(350)	
Reserve for exchange differences on translating foreign operations	(2,500)		(2,538)	
Reserve for remeasurements of employee defined benefit plans (IAS 19)	(130)		(119)	
Share of other comprehensive income (losses) of associates and joint ventures accounted for using the equity method	—		—	
Sundry reserves and retained earnings (accumulated losses), including profit (loss) for the year	6,376		15,481	
Total		**17,414**		**26,215**

At December 31, 2021, the **share capital** was 11,614 million euros, already net of treasury shares for 63 million euros (11,588 million euros, already net of treasury shares for 89 million euros at December 31, 2020).

The amount of treasury shares during 2021 changed as follows:

- decrease due to the assignment of 6,715,617 ordinary shares of TIM S.p.A. to implement the 2018 Long Term Incentive Plan;
- decrease due to the assignment of 38,604,270 ordinary shares of TIM S.p.A. free of charge to entitled Group employees adhering to the 2020 Broad-Based Share Ownership Plan.

For further details, refer to the Note "Equity Compensation Plans".

It should be noted that the share capital carries a restriction on tax suspension for fiscal purposes for an amount of 11,104 million euros, unchanged on December 31, 2020 and inclusive of 9,913 million restricted in accordance with Decree Law 104/2020, art. 110, subsection 8.

Movements in share capital during 2021 are presented in the following tables:

Reconciliation between the number of shares outstanding at December 31, 2020 and December 31, 2021

(number of shares)		as at 12/31/2020	Share assignment/issue	as at 12/31/2021	% of share capital
Ordinary shares issued	(a)	15,329,466,496	—	15,329,466,496	71.78%
less: treasury shares	(b)	(161,262,083)	45,319,887	(115,942,196)	
Ordinary shares outstanding	(c)	15,168,204,413	45,319,887	15,213,524,300	
Savings shares issued and outstanding	(d)	6,027,791,699	—	6,027,791,699	28.22%
Total TIM S.p.A. shares issued	**(a+d)**	**21,357,258,195**	**—**	**21,357,258,195**	**100.00%**
Total TIM S.p.A. shares outstanding	**(c+d)**	**21,195,996,112**	**45,319,887**	**21,241,315,999**	

Reconciliation between the value of shares outstanding at December 31, 2020 and December 31, 2021

(million euros)		Share capital at 12/31/2020	Change in share capital	Share Capital at 12/31/2021
Ordinary shares issued	(a)	8,381	—	**8,381**
less: treasury shares	(b)	(89)	26	**(63)**
Ordinary shares outstanding	(c)	8,292	26	**8,318**
Savings shares issued and outstanding	(d)	3,296	—	**3,296**
Total TIM S.p.A. share capital issued	**(a+d)**	**11,677**	**—**	**11,677**
Total TIM S.p.A. share capital outstanding	**(c+d)**	**11,588**	**26**	**11,614**

The total value of ordinary treasury shares at December 31, 2021, amounting to 364 million euros, was recorded as follows: the part relating to accounting par value (63 million euros) recognized as a deduction from the share capital issued and the remaining part as a deduction from Other reserves and retained earnings (accumulated losses), including profit (loss) for the year.

Disclosure on share capital

The ordinary and savings shares of TIM S.p.A. are listed in Italy (FTSE index).

In the shareholder resolutions passed to increase share capital against cash payments, the pre-emption right can be excluded to the maximum extent of ten percent of the pre-existing share capital, on condition that the issue price corresponds to the market price of the shares and that this is confirmed in a specific report issued by the firm charged with the audit of the Company.

The Group sources itself with the capital necessary to fund its business development and operation requirements; the sources of funds are found in a balanced mix of equity, permanently invested by the shareholders, and debt capital, to guarantee a balanced financial structure and minimize the total cost of capital, with a resulting advantage to all the stakeholders.

Debt capital is structured according to different maturities and currencies to ensure an adequate diversification of the sources of funding and an efficient access to external sources of financing (taking advantage of the best opportunities offered in the financial markets of the euro, U.S. dollar and Pound sterling areas to minimize costs), taking care to reduce the refinancing risk.

The remuneration of equity is proposed by the board of directors to the shareholders' meeting, during which the annual financial statements are approved, based upon market trends and business performance, once all the other obligations are met, including debt servicing. Therefore, to ensure an adequate remuneration of capital, safeguard company continuity and business development, the Group constantly monitors the change in debt levels in relation to equity, the level of net debt and the operating margin of industrial operations.

Privileges of savings shares

The privileges of TIM S.p.A. savings shares are indicated below:

- the profit shown in the duly approved financial statements, after deducting the amount to be allocated to the legal reserve, must be distributed to the holders of savings shares in an amount up to 5% of the 0.55 euros per share;
- after assigning preferred dividends to the savings shares, the distribution of which is approved by the shareholders' meeting, the remaining profit shall be allocated among all the shares, so that savings shares are entitled to higher overall dividends than ordinary shares would be entitled to, to the extent of 2% of 0.55 euros per share;
- when, in any one year, dividends of below 5% of the 0.55 euros per share are paid to the savings shares, the difference is determined as an increase of the privileged dividend in the next two subsequent years;
- in the case of the distribution of reserves, the savings shares have the same rights as ordinary shares. Moreover, when there is no profit or insufficient profit is reported in the financial statements for a given year to satisfy the aforesaid savings shares privileges, the Shareholders' Meeting called to approve those financial statements may choose to satisfy the dividend right and/or the higher dividend right by distributing available reserves. The distribution of available reserves for such payments excludes the application of the mechanism extending the right to the preferred dividend not paid through the distribution of profits for the following two years;
- the reduction of share capital as a result of losses does not affect the savings shares except for the amount of the loss which is not covered by the portion of the share capital represented by the other shares;
- upon the wind-up of TIM S.p.A., the savings shares have a pre-emption right in the reimbursement of capital up to the amount of 0.55 euros per share;
- in the event of the cessation of trading in the Company's ordinary or savings shares, the holder of savings shares may ask TIM S.p.A. to convert his/her shares into ordinary shares, using the method selected during a special session of the shareholders' meeting called for that purpose within two months of being excluded from trading.

Additional paid-in capital, amounting to 2,133 million euros, was unchanged with respect to December 31, 2020. The reserve is entirely restricted under tax suspension in accordance with Decree Law 104/2020, Art. 110, subsection 8.

Other reserves moved through the Statements of comprehensive income comprised:

- The **Reserve for financial assets measured at fair value through other comprehensive income**, positive for 49 million euros at December 31, 2021, increased by 29 million euros compared to the figure at December 31, 2020. In particular, the change in 2021 includes the losses from the securities portfolio of Telecom Italia Finance (18 million euros, of which 6 million euros were realized), the losses on the TI Ventures securities portfolio (9 million euros), the profits recorded by Olivetti for the valuation of SECO S.p.A. (54 million euros), the losses related to other financial assets held by the Parent Company TIM (4 million euros) and the profits related to the equity investment in Fin.Priv. S.r.l. of the Parent Company TIM (6 million euros). This reserve is expressed net of deferred tax liabilities of 1 million euros (at December 31, 2020, it was expressed net of deferred tax liabilities of 1 million euros).
- The **Reserve for cash flow hedges** had a negative balance of 128 million euros at December 31, 2021, (negative 350 million euros at December 31, 2020). This reserve is stated net of deferred tax assets of 39 million euros (at December 31, 2020, it was stated net of deferred tax assets of 110 million euros). In particular, this reserve includes the effective portion of gains or losses on the fair value adjustments of derivatives designated as hedges of the exposure to volatility in the cash flows of assets or liabilities recognized in the financial statements ("cash flow hedge").
- The **Reserve for exchange differences on translating foreign operations** showed a negative balance of 2,500 million euros at December 31, 2021 (negative 2,538 million euros at December 31, 2020) and mainly related to exchange differences resulting from the translation into euros of the financial statements of companies belonging to the Brazil Business Unit (negative for 2,523 million euros versus negative for 2,550 million euros at December 31, 2020).
- The **Reserve for the re-measurement of defined benefits plans for employees**, negative for 130 million euros, drops by 11 million euros on December 31, 2020 following the recording of the changes in actuarial gains (losses), net of the related tax effect.
- The **Share of other comprehensive income (losses) of associates and joint ventures accounted for using the equity method** is nil at both December 31, 2021 and December 31, 2020.

Other sundry reserves and retained earnings (accumulated losses), including profit (loss) for the year amounted to 6,376 million euros and decreased by 9,105 million euros, as detailed below:

(million euros)	2021	2020
Profit (loss) for the year attributable to owners of the Parent	(8,652)	7,224
Dividends approved - TIM S.p.A.	(318)	(316)
Issue of equity instruments	7	3
Other changes	(44)	9
Change for the year in Sundry reserves and retained earnings (accumulated losses), including profit (loss) for the year	**(9,105)**	**6,920**

Part of Other sundry reserves and accrued profits (losses), including profit (loss) for the year of TIM S.p.A. is restricted under tax suspension in accordance with Decree Law 104/2020, Art. 110, subsection 8. For more details, reference is made to the “Equity” Note of the Parent Company.

In 2021, dividends deliberated by TIM S.p.A. are 318 million euros and refer to the distribution to Shareholders of a dividend of 0.0100 euro per ordinary share and 0.0275 euro per savings share, gross of statutory withholding taxes. In 2020, the dividends deliberated by TIM S.p.A. were 316 million euros and referred to ordinary shares (dividend per share of 0.0100 euros) and to savings shares (dividend per share of 0.0275 euros).

Equity attributable to non-controlling interest, amounting to 4,625 million euros, mainly refers to FiberCop S.p.A. (1,969 million euros), to Daphne 3 S.p.A. (1,316 million euros) and the companies of the Brazil Business Unit (1,345 million euros) and shows an increase of 2,000 million euros compared to December 31, 2020, as detailed below:

(million euros)	2021	2020
Profit (loss) for the year attributable to Non-controlling interest	252	128
Group Company dividends paid to minority shareholders	(55)	(62)
Changes in the Reserve for exchange differences on translating foreign operations	12	(491)
FiberCop - capital increase	1,848	—
Daphne 3 - capital increase	—	1,334
Daphne 3 - distribution of additional paid-in capital	(42)	
INWIT - deconsolidation	—	(644)
Other changes	(15)	14
Change for the year in Equity attributable to Non-controlling interest	**2,000**	**279**

The Group company dividends paid to minority shareholders mainly referred to the Brazil Business Unit for 55 million euros. 2020 dividends mainly referred to the Brazil Business Unit for 61 million euros.

The Reserve for exchange differences on translating foreign operations attributable to non-controlling interest showed a negative balance of 1,155 million euros at December 31, 2021 (negative for 1,167 million euros at December 31, 2020), relating entirely to exchange differences arising from the translation into euros of the financial statements of the companies belonging to the Brazil Business Unit.

Future potential changes in share capital

Details of “Future potential changes in share capital” are presented in the Note “Earnings per share”.

NOTE 15

NON-CURRENT AND CURRENT FINANCIAL LIABILITIES

Non-current and current financial liabilities (gross financial debt) are broken down as follows:

(million euros)		12/31/2021	12/31/2020
Non-current financial liabilities for financing contracts and others			
Financial payables (medium/long-term):			
Bonds		17,383	16,898
Convertible bonds		—	1,958
Payables to banks		4,394	2,772
Other financial payables		306	185
		22,083	**21,813**
Other medium/long-term financial liabilities:			
Hedging derivatives relating to hedged items classified as non-current assets/liabilities of a financial nature		1,337	1,832
Non-hedging derivatives		17	10
Other liabilities		—	—
		1,354	**1,842**
	(a)	**23,437**	**23,655**
Non-current financial liabilities for lease contracts	**(b)**	**4,064**	**4,199**
Total non-current financial liabilities	**c=(a+b)**	**27,501**	**27,854**
Current financial liabilities for financing contracts and others			
Financial payables (short term):			
Bonds		1,514	982
Convertible bonds		1,998	6
Payables to banks		2,099	2,506
Other financial payables		236	119
		5,847	**3,613**
Other short-term financial liabilities:			
Hedging derivatives relating to hedged items classified as current assets/liabilities of a financial nature		62	62
Non-hedging derivatives		36	2
Other liabilities		—	—
		98	**64**
	(d)	**5,945**	**3,677**
Current financial liabilities for lease contracts	**(e)**	**651**	**631**
Total current financial liabilities (*)	**f=(d+e)**	**6,596**	**4,308**
Financial liabilities directly associated with Discontinued operations/Non-current assets held for sale	**(g)**	**—**	**—**
Total Financial liabilities (Gross financial debt)	**h=(c+f+g)**	**34,097**	**32,162**

Further details on Financial Instruments are provided in the Note "Supplementary disclosure on financial instruments".

Gross financial debt according to the original currency of the transaction is as follows:

	12/31/2021		12/31/2020	
	(millions of foreign currency)	(million euros)	(millions of foreign currency)	(million euros)
USD	5,789	5,111	5,899	4,807
GBP	389	463	389	433
BRL	12,694	2,008	8,415	1,320
YEN	20,030	154	20,030	158
ILS	51	14	54	14
EUR		26,347		25,430
Total		**34,097**		**32,162**

For the exchange rates used for the conversion of amounts in foreign currency, see the Note "Other information".

The breakdown of gross financial debt by effective interest-rate bands applicable to the original currency is provided below, excluding the effect of any derivative hedging instruments:

(million euros)	12/31/2021	12/31/2020
Up to 2.5%	8,619	6,047
From 2.5% to 5%	12,872	13,497
From 5% to 7.5%	7,055	6,692
From 7.5% to 10%	1,971	1,906
Over 10%	1,437	1,317
Accruals/deferrals, MTM and derivatives	2,143	2,703
Total	**34,097**	**32,162**

Following the use of hedging derivative instruments, on the other hand, gross financial debt by nominal interest rate level is:

(million euros)	12/31/2021	12/31/2020
Up to 2.5%	15,353	15,640
From 2.5% to 5%	9,936	8,052
From 5% to 7.5%	3,396	3,352
From 7.5% to 10%	1,334	1,098
Over 10%	1,935	1,317
Accruals/deferrals, MTM and derivatives	2,143	2,703
Total	**34,097**	**32,162**

The maturities of financial liabilities according to the expected nominal repayment amount, as defined by contract, are the following:

Details of the maturities of financial liabilities – at nominal repayment amount:

	maturing by 12/31 of the year:						
(million euros)	2022	2023	2024	2025	2026	After 2026	Total
Bonds	3,098	2,446	3,324	2,000	1,750	7,720	20,338
Loans and other financial liabilities	784	712	977	1,075	1,570	159	5,277
Financial lease liabilities	616	557	587	473	453	1,995	4,681
Total	**4,498**	**3,715**	**4,888**	**3,548**	**3,773**	**9,874**	**30,296**
Current financial liabilities	1,536	—	—	—	—	—	1,536
Total	**6,034**	**3,715**	**4,888**	**3,548**	**3,773**	**9,874**	**31,832**

The main components of financial liabilities are commented below.

Bonds are broken down as follows:

(million euros)	12/31/2021	12/31/2020
Non-current portion	17,383	16,898
Current portion	1,514	982
Total carrying amount	**18,897**	**17,880**
Fair value adjustment and measurements at amortized cost	(559)	(631)
Total nominal repayment amount	**18,338**	**17,249**

Convertible bonds consist of the unsecured equity-linked bond for 2,000 million euros, with a coupon of 1.125%, issued by TIM S.p.A., convertible into newly-issued ordinary shares, maturing in 2022. This item was broken down as follows:

(million euros)	12/31/2021	12/31/2020
Non-current portion	—	1,958
Current portion	1,998	6
Total carrying amount	**1,998**	**1,964**
Fair value adjustment and measurements at amortized cost	2	36
Total nominal repayment amount	**2,000**	**2,000**

The nominal repayment amount of bonds and convertible bonds totaled 20,338 million euros, up by 1,089 million euros compared to December 31, 2020 (19,249 million euros) as a result of new issues, repayments and the exchange effect in 2021.

The change in bonds during 2021 was as follows:

New issues

(millions of original currency)	Currency	Amount	Issue date
New issues			
Telecom Italia S.p.A. 1,000 million euros 1.625%	Euro	1,000	1/18/2021
TIM S.A. 1,600 million BRL IPCA+4.1682%	BRL	1,600	6/15/2021

On January 18, 2021, TIM issued its first 8-year Sustainability Bond for an amount of 1 billion euros, coupon 1.625%.

Repayments

(millions of original currency)	Currency	Amount	Repayment date
Repayments			
Telecom Italia S.p.A. 564 million euros 4.500% (1)	Euro	564	1/25/2021

(1) Net of buy-backs totaling 436 million euros made by the company in 2015.

Note that on December 31, 2021, the "Telecom Italia S.p.A. 2002-2022 Floating Rate bonds, Open Special series, reserved for subscription by employees of the Telecom Italia Group, in service or retired" bond was closed and the bonds fully repaid starting January 1, 2022, in accordance with the relevant Regulation.

The following table lists the bonds issued by companies of the TIM Group, by issuing company, expressed at the nominal repayment amount, net of bond repurchases, and also at market value:

Currency	Total (millions)	Nominal repayment amount (million euros)	Coupon	Issue date	Maturity date	Issue price (%)	Market price at 12/31/2021 (%)	Market value at 12/31/2021 (million euros)

(a) Reserved for employees.
(b) Bond convertible into newly-issued TIM S.p.A. ordinary treasury shares.
(c) Weighted average issue price for bonds issued with multiple tranches.

The regulations and the Offering Circulars relating to the bonds of the TIM Group are available on the corporate website gruppotim.it.

Medium/long-term amounts **due to banks** totaled 4,394 million euros (2,772 million euros at December 31, 2020). Short-term amounts due to banks totaled 2,099 million euros (2,506 million euros at December 31, 2020) and included 786 million euros of the current portion of medium/long-term amounts due to banks.

On December 23, 2021, the subsidiary FiberCop S.p.A. signed a new 5-year Term Loan for an amount of 1.5 billion euros with a pool of international banks, fully drawn down.

The other medium/long-term **financial payables** totaled 306 million euros (185 million euros at December 31, 2020), 151 million euros of which refer to the Telecom Italia Finance S.A. loan for JPY 20,000 million, maturing in 2029. Short-term other financial payables amounted to 236 million euros (119 million euros at December 31, 2020) and included 15 million euros of the current portion of medium/long-term other financial payables.

Medium/long-term **finance lease liabilities** amounted to 4,064 million euros (4,199 million euros at December 31, 2020), whilst short-term lease liabilities totaled 651 million euros (631 million euros at December 31, 2020) and included 648 million euros in the current portion of medium/long-term finance lease liabilities.

With reference to the financial lease liabilities recognized in 2021 and 2020, the following is noted:

(million euros)	12/31/2021	12/31/2020
Principal reimbursements	604	699
Cash out interest portion	263	256
Total	**867**	**955**

Hedging derivatives relating to items classified as non-current financial liabilities amount to 1,337 million euros (1,832 million euros at December 31, 2020). Hedging derivatives relating to items classified as current liabilities of a financial nature totaled 62 million euros (62 million euros at December 31, 2020).

Non-hedging derivatives classified as non-current financial liabilities came to 17 million euros (10 million euros at December 31, 2020), while non-hedging derivatives classified under current financial liabilities amounted to 36 million euros (2 million euros at December 31, 2020). These also include the measurement of derivatives which, although put into place for hedging purposes, do not meet the formal requirements to be considered as such under IFRS.

Covenants and negative pledges in place at 12/31/2021

Bonds issued by the TIM Group do not contain financial covenants (e.g. ratios such as Debt/EBITDA, EBITDA/Interest, etc.) or clauses that result in the automatic early redemption of the bonds in relation to events other than the insolvency of the TIM Group[1]; furthermore, the repayment of the bonds and the payment of interest are not covered by specific guarantees nor are there commitments provided relative to the assumption of future guarantees, except for the full and unconditional guarantees provided by TIM S.p.A. for the bonds issued by Telecom Italia Finance S.A. and Telecom Italia Capital S.A..

Since the bonds were placed principally with institutional investors in major world capital markets (Euromarket and the U.S.A.), the terms which regulate the bonds are in line with market practice for similar transactions effected on these same markets. Consequently, they carry negative pledges, such as, for example, the commitment not to pledge the company's assets as collateral for loans.

Regarding loans taken out by TIM S.p.A. from the European Investment Bank (EIB), on May 19, 2021, TIM entered into a new loan for an amount of 230 million euros, in support of projects to digitize the country. In addition, it has extended the loan signed in 2019 for an amount of 120 million euros. Therefore, at December 31, 2021 the nominal total of outstanding loans with the EIB was 1,200 million euros, all drawn down and not backed by bank guarantee.

The three EIB loans signed on December 14, 2015, November 25, 2019 and May 19, 2021 contain the following covenants:

- in the event the company becomes the target of a merger, demerger or conferral of a business segment outside the Group, or sells, disposes of or transfers assets or business segments (except in certain cases, expressly provided for), it shall immediately inform the EIB which shall have the right to ask for guarantees to be provided or changes to be made to the loan contract, or, only for certain loan contracts, the EIB shall have the option to demand the immediate repayment of the loan (should the merger, demerger or conferral of a business segment outside the Group compromise the Project execution or cause a prejudice to EIB in its capacity as creditor);
- TIM undertook to ensure that, for the entire duration of the loan, the total financial debt of the Group companies other than TIM S.p.A. – except for the cases when that debt is fully and irrevocably secured by TIM S.p.A. – is lower than 35% (thirty-five percent) of the Group's total financial debt;
- "Inclusion clause", under which, in the event TIM commits to uphold financial covenants in other loan contracts (and even more restrictive clauses, including, for instance, cross default clauses and commitments restricting the sale of goods) that are not present in or are stricter than those granted to the EIB, the EIB will have the right – if, in its reasonable opinion, it considers that such changes may have a negative impact on TIM's financial capacity – to request the provision of guarantees or an amendment of the loan contract in order to establish an equivalent provision in favor of the EIB;
- "Network Event", under which, in the event of the disposal of the entire fixed network or of a substantial part of it (in any case, more than half in quantitative terms) to third parties not controlled by the Company, or in the event of disposal of the controlling interest in the company in which the network or a substantial part of it has previously been transferred, TIM must immediately inform the EIB, which may then opt to demand collateral or an amendment of the loan contract or choose an alternative solution.

The loan agreements of TIM S.p.A. do not contain financial covenants (e.g. ratios such as Debt/EBITDA, EBITDA/Interest, etc.) which would oblige the Company to repay the outstanding loan if the covenants are not observed.

The loan agreements contain the usual other types of covenants, including the commitment not to pledge the Company's assets as collateral for loans (negative pledge) and the commitment not to change the business purpose or sell the assets of the Company unless specific conditions exist (e.g. the sale takes place at fair market value). Covenants with basically the same content can be found in the export credit loan agreement.

In the Loan Agreements and the Bonds, TIM is required to provide notification of change of control. Identification of the occurrence of a change of control and the applicable consequences – including, at the discretion of the investors, the establishment of guarantees or the early repayment of the amount paid in cash or as shares and the cancellation of the commitment in the absence of agreements to the contrary – are specifically covered in the individual agreements.

In addition, the outstanding loans generally contain a commitment by TIM, whose breach is an Event of Default, not to implement mergers, demergers or conferrals of business, involving entities outside the Group.

[1] A change of control event can result in the early repayment of the convertible bond of TIM S.p.A., as further detailed below.

Such an Event of Default may entail, upon request of the Lender, the early redemption of the drawn amounts and/or the annulment of the undrawn commitment.

The documentation of the loans granted to certain companies of the TIM Group contain general obligations to comply with certain financial ratios (e.g. capitalization ratios, debt servicing ratios and debt ratios), as well as the usual other covenants, under penalty of a request for the early repayment of the loan.

Finally, as at December 31, 2021, no covenant, negative pledge or other clause relating to the aforementioned debt position had in any way been breached or violated.

Revolving Credit Facility

The following table shows committed credit lines available at December 31, 2021:

(billion euros)	12/31/2021		12/31/2020	
	Agreed	Drawn down	Agreed	Drawn down
Sustainability-linked RCF - maturing May 2026	4.0	—	—	—
Revolving Credit Facility – maturing January 2023	—	—	5.0	—
Bridge to Bond Facility – maturing May 2021	—	—	1.7	—
Total	**4.0**	—	**6.7**	**—**

At December 31, 2021, TIM had bilateral Term Loans for 850 million euros with various banking counterparties and an overdraft facility for 200 million euros, drawn down for the full amount.

On January 19, 2021, TIM entirely canceled the credit line for 1.7 billion euros, which was not used, stipulated on May 18, 2020 as bridge to bond for subsequent issues on the bond market and an initial maturity of 12 months with an option of extension for another 12 months.

On May 13, 2021, TIM extended the Revolving Credit Facility by 5 years, reducing the amount to 4 billion euros and making it the Group's first ever ESG-linked credit facility.

On December 23, 2021, the subsidiary FiberCop S.p.A. signed a new 5-year Term Loan for an amount of 1.5 billion euros with a pool of international banks, fully drawn down.

TIM's rating at December 31, 2021

At December 31, 2021, the three rating agencies – Standard & Poor's, Moody's and Fitch Ratings – rated TIM as follows:

	Rating	Outlook
STANDARD & POOR'S	BB	Stable
MOODY'S	Ba2	Negative
FITCH RATINGS	BB+	Stable

On March 08, 2022, the ratings agency Moody's modified the rating from Ba2 to Ba3, confirming the outlook relative to its opinion on TIM as "Negative".

NOTE 16
NET FINANCIAL DEBT

The table below shows the breakdown of net financial debt of the TIM Group at December 31, 2021 and December 31, 2020, determined in accordance with the provisions of the "*Guidelines on disclosure requirements under the Prospectus Regulation*" issued by the ESMA (European Securities & Markets Authority) on March 4, 2021 (ESMA32-382-1138) and incorporated by Consob with its Note of Attention no. 5/21 dated April 29, 2021.
This table also shows the reconciliation of the net financial debt determined according to the aforementioned criteria indicated by the ESMA and net financial debt calculated according to the criteria of the TIM Group.

(million euros)		12/31/2021	12/31/2020
Liquid assets with banks, financial institutions and post offices	(a)	6,092	4,433
Other cash and cash equivalents	(b)	812	396
Securities other than investments	(c)	2,249	1,092

Other financial receivables and other non-current financial assets		(250)	(253)
Financial assets/liabilities relating to discontinued operations/non-current assets held for sale		—	—
Subtotal	**(n)**	**(453)**	**(2,157)**
Net financial debt carrying amount (*)	**(p=m+n)**	**22,416**	**23,714**
Reversal of fair value measurement of derivatives and related financial liabilities/assets	(q)	(229)	(388)
Adjusted Net Financial Debt	**(r=p+q)**	**22,187**	**23,326**

(*) As regards the effects of related-party transactions on net financial debt, reference should be made to the specific table included in the Note "Related-party transactions".

(**) The value at 12/31/2021 mainly includes the payables of the Brazil Business Unit for the purchase and renewal of telecommunications licenses (72 million euros), also including the payable due to Entidade Administradora da Conectividade de Escolas (EACE) for the development of certain infrastructural projects in Brazil in connection with the assignment of the rights of use of frequencies for 5G services. The figure at 12/31/2020 includes the residual payable relating to the acquisition of the rights-of-use for the 5G licenses in Italy, of 1,738 million euros; at 12/31/2021, the amount was reclassified to Miscellaneous payables and other current liabilities following the expiry scheduled for 2022.

Additional cash flow information required by IAS 7

Total	**(i=f-g-h)**	**30,001**	**4,307**	**(3,072)**	**82**	**(159)**	**782**	**31,941**

The value of the paid and collected interest expense reported in the Report on Operations takes into account the movements relating to transactions in CCIRS derivatives to hedge underlying assets in both the assets component (collections) and the liabilities component (payments) without netting the positions.

(million euros)	2021	2020
Interest expense paid	(1,440)	(1,520)
Interest income received	437	448
Net total	**(1,003)**	**(1,072)**

To consider the components of CCIRS derivatives as a single transaction, a representation is given with interest flows in and out shown net. This approach gives the following results:

(million euros)	2021	2020
Interest expense paid	(1,104)	(1,209)
Interest income received	101	137
Net total	**(1,003)**	**(1,072)**

NOTE 17
FINANCIAL RISK MANAGEMENT

Financial risk management objectives and policies of the TIM Group

The TIM Group is exposed to the following financial risks in the ordinary course of its business operations:

- Market risk: stemming from changes in interest rates and exchange rates in connection with financial assets that have been originated and financial liabilities that have been assumed;
- Credit risk: representing the risk of non-fulfillment of obligations undertaken by the counterparty with regard to the liquidity investments of the Group;
- Liquidity risk: connected with the need to meet short-term financial commitments.

These financial risks are managed by:

- the establishment, at central level, of guidelines for directing operations;
- the work of an internal committee that monitors the level of exposure to market risks in accordance with pre-established general objectives;
- the identification of the most suitable financial instruments, including derivatives, to reach pre-established objectives;
- the monitoring of the results achieved;
- the exclusion of the use of financial instruments for speculative purposes.

The policies for the management and the sensitivity analyses of the above financial risks by the TIM Group are described below.

Identification of risks and analysis

The TIM Group is exposed to market risks, as a result of changes in interest rates and exchange rates, in the markets in which it operates or has bond issues, mainly in Europe, the United States, Great Britain and Latin America.

The financial risk management policies of the TIM Group are directed towards diversifying market risks, hedging exchange rate risk in full and minimizing interest rate exposure by an appropriate diversification of the portfolio, which is also achieved by using carefully selected derivative financial instruments.

The Group defines an optimum composition of its debt structure by balancing fixed and variable-rates and uses derivative financial instruments to achieve that debt composition. In consideration of the Group's operating activities, the optimum combination of medium/long-term non-current financial liabilities has been identified, on the basis of the nominal amount, in the 65%-85% range for the fixed-rate component and in the 15%-35% range for the variable-rate component.

In managing market risk, the Group has adopted Guidelines on "Management and control of financial risk" and mainly uses the following financial derivatives:

- Interest Rate Swaps (IRS), to modify the profile of the original exposure to interest rate risks on loans and bonds, both fixed and variable;
- Cross Currency and Interest Rate Swaps (CCIRS) and Currency Forwards, to convert loans and bonds issued in currencies other than euro – principally in US dollars and British pounds – to the functional currencies of the operating companies.

Derivative financial instruments are designated as fair value hedges for managing exchange rate and interest rate risks on instruments denominated in currencies other than euro and for managing interest rate risk on fixed-rate loans. Derivative financial instruments are designated as cash flow hedges when the objective is to pre-set the exchange rate of future transactions and the interest rate.

All derivative financial instruments are entered into with banking and financial counterparties with at least a “BBB-” rating from Standard & Poor’s or an equivalent rating and a non-negative outlook. The exposure to the various market risks can be measured by sensitivity analyses, as set forth in IFRS 7. This analysis illustrates the effects produced by a given and assumed change in the levels of the relevant variables in the various reference markets (exchange rates, interest rates and prices) on finance income and expenses and, at times, directly on equity. The sensitivity analysis was performed based on the suppositions and assumptions indicated below:

- sensitivity analyses were performed by applying reasonably likely changes in the relevant risk variables to the amounts in the consolidated financial statements at December 31, 2021;
- changes in value of fixed-rate financial instruments, other than derivatives, produced by changes in the reference interest rates, generate an impact on profit only when, in accordance with IAS 39 and IFRS 9, they are accounted for at their fair value through profit and loss. All fixed-rate instruments, which are accounted for at amortized cost, are not subject to interest rate risk as defined by IFRS 7;
- in the case of fair value hedge relationships, fair value changes of the underlying hedged item and of the derivative instrument, due to changes in the reference interest rates, offset each other almost entirely in

the income statement for the year. As a result, these financial instruments are not exposed to the interest rate risk;

- changes in the value of designated financial instruments in a cash flow hedge relationship, produced by changes in interest rates, generate an impact on the debt level and on equity; accordingly, they are included in this analysis;
- the changes in value, produced by changes in the reference interest rates, of variable-rate financial instruments, other than derivatives, which are not part of a cash flow hedge relationship, generate an impact on the finance income and expenses for the year; accordingly they are included in this analysis.

Exchange rate risk – Sensitivity analysis

At December 31, 2021 (and also at December 31, 2020), the exchange rate risk of the Group's loans denominated in currencies other than the functional currency of the consolidated financial statements was hedged in full. Accordingly, a sensitivity analysis was not performed on the exchange rate risk.

Interest rate risk – Sensitivity analysis

The change in interest rates on the variable component of payables and liquidity may lead to higher or lower finance income and expenses, while changes in the level of the expected interest rate affect the fair value measurement of the Group's derivatives. In particular:

- with regard to derivatives that convert the liabilities contracted by the Group to fixed rates (cash flow hedging), in line with international accounting standards that regulate hedge accounting, the fair value (mark-to-market) measurement of such instruments is set aside in a specific unavailable Equity reserve. The combined change of the numerous market variables to which the mark-to-market calculation is subject between the transaction inception date and the measurement date renders any assumption about the trend of the variables of little significance. As the contract expiration date approaches, the accounting effects described will gradually be absorbed until they cease to exist;
- if at December 31, 2021 the interest rates in the various markets in which the TIM Group operates had been 100 basis points higher/lower compared to the actual rates, then higher/(lower) finance expenses, before the income tax effect, would have been recognized in the consolidated income statement of -18 million euros (36 million euros at December 31, 2020).

Refer to Note "Accounting Policies" for the potential risk generated by the reform of benchmark interest rates.

Allocation of the financial structure between fixed rate and variable rate

As for the allocation of the financial structure between the fixed-rate component and the variable-rate component, for both financial assets and liabilities, reference should be made to the following tables. These tables have been prepared by taking into account the nominal repayment/investment amount (since that amount expresses the effective interest rate exposure of the Group) and, as far as financial assets are concerned, the intrinsic nature (financial characteristics and duration) of the transactions under consideration rather than the stated contractual terms alone. Bearing that in mind, a transaction whose characteristics (short or very short time frame and frequent renewal) are such that the interest rate is periodically reset on the basis of market parameters, even though the contract does not call for re-fixing the interest rate (as in the case of bank deposits), has been considered in the variable rate category.

Total Financial liabilities (at the nominal repayment amount)

(million euros)	12/31/2021			12/31/2020		
	Fixed Rate	Variable Rate	Total	Fixed Rate	Variable Rate	Total
Bonds	19,571	767	20,338	14,698	4,551	19,249
Loans and other financial liabilities	5,012	4,946	9,958	5,402	3,836	9,238
Total non-current financial liabilities (including the current portion of medium/long-term financial liabilities)	**24,583**	**5,713**	**30,296**	**20,100**	**8,387**	**28,487**
Total current financial liabilities	**1,264**	**272**	**1,536**	**602**	**546**	**1,148**
Total	**25,847**	**5,985**	**31,832**	**20,702**	**8,933**	**29,635**

Total Financial assets (at the nominal investment amount)

(million euros)	12/31/2021			12/31/2020		
	Fixed Rate	Variable Rate	Total	Fixed Rate	Variable Rate	Total
Cash and cash equivalents	—	6,092	6,092	—	4,433	4,433
Titles	1,421	1,616	3,037	638	837	1,475
Other receivables	1,008	51	1,059	747	54	801
Total	**2,429**	**7,759**	**10,188**	**1,385**	**5,324**	**6,709**

With regard to variable-rate financial instruments, the contracts provide for revisions of the relative parameters to take place within the subsequent 12 months.

Effective interest rate

As to the effective interest rate, for the categories where that parameter can be determined, such parameter refers to the original transaction net of the effect of any derivative hedging instruments.

The disclosure, which is provided by class of financial asset and liability, has been determined, for purposes of calculating the weighted average, using the carrying amount adjusted by accruals, prepayments, deferrals and fair value adjustments: this is therefore the amortized cost, net of accruals and any changes in fair value, as a consequence of hedge accounting.

Total Financial liabilities

(million euros)	12/31/2021		12/31/2020	
	Adjusted carrying amount	Effective interest rate (%)	Adjusted carrying amount	Effective interest rate (%)
Bonds	20,249	4.32	19,117	4.47
Loans and other financial liabilities	11,705	3.21	10,341	3.54
Total	**31,954**	**3.91**	**29,458**	**4.14**

Total Financial assets

(million euros)	12/31/2021		12/31/2020	
	Adjusted carrying amount	Effective interest rate (%)	Adjusted carrying amount	Effective interest rate (%)
Cash and cash equivalents	6,092	0.00	4,433	0.01
Titles	3,037	1.08	1,475	0.36
Other receivables	364	3.40	362	1.25
Total	**9,493**	**0.47**	**6,270**	**0.16**

As for financial assets, the weighted average effective interest rate is not essentially influenced by the existence of derivatives.

As for market risk management using derivatives, reference should be made to the Note "Derivatives".

Credit risk

Exposure to credit risk for the TIM Group consists of possible losses that could arise from the failure of either commercial or financial counterparties to fulfill their assumed obligations. To measure this risk over time for impairment of financial assets (trade receivables due from customers included), the introduction of IFRS 9 required switching from the incurred loss model pursuant to IAS 39 to the expected credit loss model.

Such exposure mainly stems from general economic and financial factors, the potential occurrence of specific insolvency situations of some borrowers and other more strictly technical-commercial or administrative factors.

TIM Group's maximum theoretical exposure to credit risk is represented by the carrying amount of the financial assets and trade receivables recorded in the financial statements, excluding guarantees received, described in the Note "Disputes and pending legal actions, other information, commitments and guarantees".

Risk related to trade receivables is managed using customer scoring and analysis systems. For specific categories of trade receivables, the Group also makes use of factoring, mainly on a "non-recourse" basis.

Provision charges for bad debts are recorded for specific credit positions that have an element of individual risk. On credit positions that do not have such characteristics, provision charges are recorded by customer segment according to the average uncollectibility estimated on the basis of statistics. Further details are provided in the Note "Trade and miscellaneous receivables and other current assets".

Financial assets other than trade receivables are written down for impairment on the basis of a general model which recognizes expected credit losses over the following 12 months, or over the residual life of the asset in the event of a substantial worsening of its credit risk. The expected credit loss is calculated based on the default probability and the percentage of credit that cannot be recovered in the event of a default (the loss given default).

The model adopted to calculate the expected credit loss is based on the Bloomberg Credit Risk Model, a model developed by Bloomberg which, starting from Merton's distance-to-default ("DD") concept, estimates the probability of default together with the recovery rate. At the same time, the loss given default is defined as the non-recoverable component of the post-default financial asset.

In particular, the DD - based on balance sheet data - is enriched with a series of additional information by country (macroeconomic, risk), business sector and individual company, as well as accounting adjustments aimed at ensuring uniformity of the model's outputs; finally, through a non-linear function of the DD, the default probability is obtained.

As regards the current COVID-19 pandemic, use of the Bloomberg Credit Risk Model, which, as mentioned, also takes into account the political and economic situation of the various countries in the short and medium/long-term (from 3 months to 5 years), ensures that all risk components are adequately reflected in the measurement of the credit risk.

In order to improve credit risk and reduce pressure on working capital, in February 2020, the corporate joint venture TIM-SCB JV S.p.A. was established, with an investment of 51% by Santander Consumer Bank (SCB) and 49% by TIM. The partnership with SCB aims to develop and distribute financial products to finance the purchase by TIM customers of products relative to the world of telecommunications and the transfer without recourse of trade receivables.

On November 3, 2020, the new corporate entity received authorization from the Bank of Italy to grant loans to the public in accordance with Article 106 et seq. of the Consolidated Banking Act (TUB). In the last few months of 2020 and early 2021, various corporate steps were completed, including the change in the company name from TIM-SCB JV S.p.A. to TIMFin S.p.A..

TIMFin started operating on February 1, 2021 and over the following months progressively expanded its areas of operation, completing coverage of the TIM physical sales points at the service of consumer customers.

Moreover, as regards credit risk relating to the asset components which contribute to the determination of "Net financial debt", it should be noted that the management of the Group's liquidity is guided by conservative criteria and is principally based on the following:

- Money market management: the investment of temporary excess cash resources;
- Bond portfolio management: the investment of medium-term liquidity, as well as the improvement of the average yield of the assets.

In order to mitigate the risk of the non-fulfillment of the obligations undertaken by the counterparty, deposits of the European companies are made with leading banking and financial institutions rated no lower than investment grade and with a non-negative outlook, and investments by the companies in South America are made with leading local counterparties. Moreover, deposits are made generally for periods of less than three months. With regard to other temporary investments of liquidity, there is a bond portfolio in which the investments have a low risk level. All investments have been carried out in compliance with the Group Guidelines on "Management and control of financial risk".

In order to minimize credit risk, the Group also pursues a diversification policy for its investments of liquidity and allocation of its credit positions among different banking counterparties. Consequently, there are no significant positions with any one single counterparty.

Liquidity risk

The Group pursues the objective of achieving an "adequate level of financial flexibility", which is expressed by maintaining a current treasury margin to cover the refinancing requirements at least for the next 12 months with irrevocable bank lines and liquidity.

At December 31, 2021, the liquidity margin available for the TIM Group is 13,153 million euros, with an increase of 532 million euros with respect to end 2020 (12,621 million euros). The impact of the COVID-19 pandemic has not, therefore, entailed any liquidity risk. Moreover, on January 18, 2021, TIM S.p.A. issued its first 8-year Sustainability Bond for an amount of 1 billion euros, coupon 1.625%.

19% of gross financial debt at December 31, 2021 (nominal repayment amount) will become due in the next 12 months.

Current financial assets at December 31, 2021, together with unused committed bank lines, are sufficient to fully cover the Group's financial liabilities due for the next 36 months.

The following tables report the contractual cash flows, not discounted to present value, relative to gross financial debt at nominal repayment amounts and the interest flows, determined using the terms and the interest and exchange rates in place at December 31, 2021. The portions of principal and interest of the hedged liabilities includes both the disbursements and the receipts of the relative hedging derivatives. Specifically, the interest portions of "Loans and other financial liabilities" also include those relating to derivatives hedging for both loans and bonds.

Financial liabilities – Maturities of contractually expected disbursements

(million euros)		maturing by 12/31 of the year: 2022	2023	2024	2025	2026	After 2026	Total
Bonds	Principal	3,098	2,446	3,324	2,000	1,750	7,720	20,338

Market value of derivatives

In order to determine the fair value of derivatives, the TIM Group uses various valuation models.

The mark-to-market calculation is determined by the present value discounting of the interest and notional future contractual flows using market interest rates and exchange rates.

The notional amount of IRS does not represent the amount exchanged between the parties and, therefore, is not a measurement of credit risk exposure, which, instead, is limited to the amount of the difference between the interest rates paid/received.

The market value of CCIRSs, on the other hand, also depends on the differential between the reference exchange rate at the date of signing the contract and the exchange rate at the date of measurement, since CCIRSs involve the exchange of the reference interest and principal, in the respective denomination currencies.

Options are measured according to the Black & Scholes or Binomial models and involve the use of various measurements factors, such as: the lifetime horizon of the option, the risk-free rate of return, current price, volatility and any cash flows (e.g. dividend) of the underlying financial instrument, and the exercise price.

NOTE 18
DERIVATIVES

For hedge accounting we continued to apply the rules established by IAS 39.

Derivative financial instruments are used by the TIM Group to hedge its exposure to foreign exchange rate risks, to manage interest rate risk and to diversify the parameters of debt so that costs and volatility can be reduced to within predetermined operational limits.

Derivative financial instruments existing at December 31, 2021 are principally used to manage debt positions. They include interest rate swaps (IRSs) used to reduce the interest rate exposure of fixed-rate bank loans and bonds, as well as cross currency and interest rate swaps (CCIRSs), currency forwards and foreign exchange options to convert the loans/receivables secured in currencies different from the functional currencies of the various Group companies.

IRS transactions, provide for or may entail, at specified maturity dates, the exchange of flows of interest, calculated on the notional amount, at the agreed fixed or variable rates.

The same also applies to CCIRS transactions which, in addition to the settlement of periodic interest flows, may provide for the exchange of principal, in the respective currencies of denomination, at maturity and possibly spot.

Hedging: economic relationship between underlying instrument and derivatives

Hedging relationships recorded in hedge accounting at 12/31/2021 belong to two categories: i) hedging of the fair value of bond issues denominated in euros and ii) hedging of cash flows from income flows of bond issues and future trade items denominated in currencies other than the Euro.
In the first case, the hedged risk is represented by the fair value of the bond attributable to euro interest rates and is hedged by IRS. The current value of both the underlying and derivative instruments, depends on the structure of the Euro market interest rates at the basis of the calculation of discount factors and floating interest flows of the derivative. In particular, interest rate fluctuations translate as changes in the discount factors of the fixed-interest expense flow on the underlying instrument; on the derivative, changes in the discount factor of interest income will occur, as well as changes in the nominal flow of variable interest (only partially corrected by the discounting effect). The effects induced on the derivative are opposite, in accounting terms, to the effects on the underlying instrument.

In the second case, relating to the bond issues, the hedged risk is represented by the variability in cash flows (and the repayment of the nominal amount) generated by exchange rates; hedging comprises combinations of IRS and CCIRS that synthetically transform fixed rate foreign currency income flows into fixed rate euro flows. In this case, exchange rate fluctuations will usually produce physiologically opposite effects on the underlying instrument and on the derivative, as the receivable leg of the latter faithfully reflects the underlying instrument, while the payable leg is denominated in euros, and is therefore insensitive to the exchange rate. As regards the commercial forecast transactions, the risk hedged is always ascribed to the variability of the cash flow linked to exchange rates, but the hedge is assured through an active deposit denominated in the same currency as the items hedged; the write-backs/write-downs of the deposit in foreign currency generated by oscillations in the exchange rate are structurally the same and opposite to the impacts produced on the underlying items.

Hedges: determination of the hedge ratio

The types of hedging implemented by the Group require the adoption of a hedge ratio equal to 1:1, as the types of risk hedged (interest rate and exchange rate risks) are such as to generate economic effects in the underlying instruments that can only be offset by the same notional quantities of derivative instruments.

Hedges: potential sources of ineffectiveness

The contractualization of derivatives to hedge financial risks takes place at arm's length and aims to completely neutralize the effects produced by such instruments.

However, in practice, both fair value hedges and cash flows hedges, although financially perfect, may not guarantee an absolute accounting effectiveness due to the many counterparty banks involved, to the peculiar nature of certain derivatives in terms, for example, of fixing and/or indexing of variable parameters, and to the possible imperfect coincidence between critical terms.

The first table indicates total financial derivatives of the TIM Group at December 31, 2021 and 2020; in compliance with standard IFRS 7, notional amounts are shown with reference to all the derivative instruments involved in the hedges.

The following tables break down financial derivatives by type of risk for each kind of hedging, separating financial assets and liabilities. For CCIRS, the notional amount refers to the contractual value in euros, for IRS in a currency other than the euro, the value is indicated at the market exchange rate.

Type (million euros)	Hedged risk	Notional amount at 12/31/2021	Notional amount at 12/31/2020	Mark to Market Spot* (Clean Price) at 12/31/2021	Spot Mark-to-Market* (Clean Price) at 12/31/2021
Interest rate swaps	Interest rate risk	300	4,334	3	192
Cross Currency and Interest Rate Swaps (CCIRS)	Interest rate risk and currency exchange rate risk	—	—	—	—
Total Fair Value Hedge Derivatives		**300**	**4,334**	**3**	**192**
Interest rate swaps	Interest rate risk	4,855	5,594	375	421
Cross Currency and Interest Rate Swaps (CCIRS)	Interest rate risk and currency exchange rate risk	5,195	5,042	173	(519)
Total Cash Flow Hedge Derivatives		**10,050**	**10,636**	**548**	**(98)**
Total Non-Hedge Accounting Derivatives		**2,702**	**604**	**60**	**82**
Total TIM Group's Derivatives		**13,052**	**15,574**	**611**	**176**

* The Spot Mark-to-Market above represents the market valuation of the derivative, net of the accrued portion of the flow in progress.

The positions in non hedge accounting derivatives also include IRS Euros for a total notional amount of 1,834 million euros; specifically, these are fair value hedges of bond loans in euros, issued by TIM S.p.A., which transform the fixed-rate coupon into a variable-rate one. The hedges - classified and booked as fair value hedges starting 2013 - have been retroactively discontinued from June 30, 2021 due to the failure of the prospective efficiency tests carried out at December 31, 2021. The test was failed due to the procedure used for fixing in arrears the variable rate benchmark of the derivatives - defined by contract - which can generate misalignments of fair value between the derivative and the underlying bond loan in the prospective volatility risk reduction test in the approach to the maturity date of the hedge.
It is specified that, although formally classified as non-hedge, these derivatives substantively continue to guarantee the desired profile of financial expenses in connection with the related bonds.
In the same item, the following are also noted:

- the value - equal to a fair value of 15 million euros (liabilities) - of the rights envisaged in the Transaction Agreement in the favor of Teemo Bidco Sarl, as minority shareholder, under the scope of the FiberCop transaction
- the value of the right held by TIM Brasil to subscribe shares of the Brazilian C6 Bank - of 72 million euros - on the basis of a commercial agreement signed by the two companies in March 2020.

Fair value hedges (million euros)	Accounting item		Notional value	Carrying amount	Change in fair value for the year
Interest rate swaps	Hedging derivatives relating to hedged items classified as current financial assets/liabilities - Current/non-current assets.	a)	**300**	**3**	**(190)**
Assets				3

Ineffectiveness [(5)]	Positive fair value adjustment of financial derivatives - non-hedging	c)+d)				13
Equity reserve						
Equity reserve balance				(167)		
of which due to the fair value of hedging settled in advance				—		
Reclassification to P&L	Negative reversal of the reserve for the fair value adjustment of hedging derivatives (cash flow hedges)				—	

(4) Hypothetical derivatives used in measuring the effectiveness of cash flow hedges.
(5) The ineffectiveness, due to its nature and calculation, does not necessarily coincide with the difference in cumulative changes in the fair value of derivatives and the underlying instrument; the effect due to the adoption of CVA/DVA is not considered.

As regards hedging of the forecast transaction - reflected only in the numbers of the equity reserve in the table above - these are future commercial flows for 106 million USD, to be paid in 7 years, hedged by a deposit denominated in the same currency and amount, renewed every three months.

The change in the equity reserve attributable to the effective hedging component is equal to 255 million euros.

Changes in the equity cash flow hedge reserve (million euros)	Balance 12/31/2020	Changes				Balance 12/31/2021
		Hedging instrument gains / losses	Reversal from reclassification	Reversal from fair value adjustment of hedging settled in advance	Other	
	(460)					(460)
Change in the effective fair value of derivatives		255				
Change in the CVA/DVA		19				
Reversal for ineffectiveness 2019			19			
Amortization in P&L of the fair value of hedging settled in advance				—		
Other					—	
Overall change						**(167)**

None of the parameters represented includes any income tax effect.

The transactions hedged by cash flow hedges will generate cash flows and produce economic effects in the income statement in the periods indicated in the following table:

Denomination currency	Notional amount in denomination currency (millions)	Start of period	End of period	Rate applied	Interest period	Hedging of notional amount in euro (millions)	Hedging of rate in euro
GBP	375	Jan-22	May-23	5.875%	Annually	552	5.535%
JPY*	20,000	Jan-22	Oct-29	5.000%	Semiannuall	174	5.940%
JPY**	20,000	Jan-22	Oct-29	0.750%	Semiannuall	138	0.696%
USD	1,000	Jan-22	Nov-33	6.375%	Semiannuall	849	5.994%
USD	1,500	Jan-22	May-24	5.303%	Semiannuall	1,099	4.226%
USD	1,000	Jan-22	Sept-34	6.000%	Semiannuall	794	4.332%
USD	1,000	Jan-22	July-36	7.200%	Semiannuall	791	5.884%
USD	1,000	Jan-22	Jun-38	7.721%	Semiannuall	645	7.470%

* Income cash flows are denominated in USD and calculated on a notional amount of USD 187.6 million.
** Hedging of the sole income cash flow following a step-up on the loan.

The method selected to test the effectiveness retrospectively and, whenever the main terms do not fully coincide, prospectively, for cash flow hedge derivatives and fair value hedge derivatives is the Volatility Risk Reduction (VRR) Test. This test assesses the ratio between the portfolio risk (meaning the derivative and the item hedged) and the risk of the hedged item taken individually. In essence, the portfolio risk must be significantly lower than the risk of the hedged item.

NOTE 19
SUPPLEMENTARY DISCLOSURES ON FINANCIAL INSTRUMENTS
Measurement at fair value

For the purposes of the comparative information between the carrying amounts and fair value of financial instruments, required by IFRS 7, the majority of the non-current financial liabilities of the TIM Group consist of bonds, whose fair value is directly observable in the financial markets, as they are financial instruments that due to their size and diffusion among investors, are commonly traded on the relevant markets (see the Note "Non-current and current financial liabilities"). For other types of financing, however, the following assumptions have been made in determining fair value:

- for variable-rate loans, the nominal repayment amount has been assumed;
- for fixed-rate loans, the present value of future cash flows at the market interest rates of December 31, 2021 has been assumed;
- the carrying amount has been used for some types of loans granted by government institutions for social development purposes, for which fair value cannot be reliably calculated.

Lastly, for the majority of financial assets, their carrying amount is a reasonable approximation of their fair value, since these are short-term investments that are readily convertible into cash.

The fair value measurement of the financial instruments of the Group has been classified in the three levels set out in IFRS 7. In particular, the fair value hierarchy introduces the following levels of input:

- Level 1: quoted prices in active markets;
- Level 2: prices calculated using observable market inputs;
- Level 3: prices calculated using inputs that are not based on observable market data.

The following tables contain, for assets and liabilities at December 31, 2021 and December 31, 2020 and in accordance with the categories established by IFRS 9, the supplementary disclosures on financial instruments required by IFRS 7 and the schedules of gains and losses. They do not include Discontinued operations/Non-current assets held for sale and Liabilities directly associated with Discontinued operations/Non-current assets held for sale.

The financial instruments belonging to hierarchy level 3 of fair value are represented by the following Other investments recognized as Non-current assets, for which directly or indirectly observable prices on the market are not available:

- Northgate CommsTech Innovations Partners L.P.;
- UV T-Growth;
- Other minor companies.

Northgate CommsTech Innovations Partners L.P. and UV-T Growth was measured based on the latest available Net Asset Values reported by the fund managers.

The other minor companies were measured on the basis of an analysis, deemed reliable, of their main assets and liabilities.

The profit/(loss) recognized in Other components of the Consolidated Statements of Comprehensive Income were recognized within the scope of the Reserve for financial assets measured at fair value through other comprehensive income.

Note that financial liabilities include a financial instrument for an amount of 15 million euros, belonging to hierarchy level 3 of fair value, for which directly or indirectly observable prices on the market are not available. This financial liability refers to the rights envisaged in the Transaction Agreement in the favor of Teemo Bidco Sarl, as minority shareholder, under the scope of the FiberCop transaction.

The measurement of the economic value of the financial liability has been taken using a valuation model defined internally by TIM. Through an econometric approach, the correlation has been first estimated between the targets set at a national level and a series of macro economic and social-demographic variables. Then taking into account the uncertainty as to how these variables will evolve and the market share of FiberCop, through Monte Carlo simulation, a series of possible developments of the phenomenon was calculated and the expected value of the financial liability, determined.

Carrying amount and fair value hierarchy for each category/class of financial asset/liability and comparison with their fair value at 12/31/2020

of which:						
non-current portion		724				699
current portion (*)		39				—

(*) The current portion refers only to Other provisions for employee benefits.

The **Provision for employee severance indemnities (T.F.R.)** only refers to Italian companies and decreased on the whole by 23 million euros. The decreases of 48 million euros relating to indemnities paid during the year to employees who terminated employment or for advances.

The increase of 20 million euros in the “Increases/Present value” column consists of the following:

(million euros)	2021	2020
(Positive)/negative effect of curtailment	—	(1)
Current service cost (*)	—	—
Finance expenses	5	6
Net actuarial (gains) losses for the year	15	(5)
Total	**20**	**—**
Effective return on plan assets	there are no assets servicing the plan	

(*) The portions intended for the INPS Treasury Fund or for the supplementary pension funds have been recorded under “Employee benefits expenses” under “Social security expenses”. The latter account is used only for the severance indemnity expenses of companies with less than 50 employees.

The net actuarial losses recognized at December 31, 2021 amounted to 15 million euros (net actuarial gains of 5 million euros in 2020), and are essentially connected with the inflation rate forecast, which went from 0.8% at December 31, 2020 to 1.75% at December 31, 2021; the discount rate also increased, going from the 0.34% used at December 31, 2020 to 0.98% at December 31, 2021.

According to national law, the amount of provision for employee severance indemnities to which each employee is entitled depends on the period of service and must be paid when the employee leaves the company. The amount of severance indemnity due upon termination of employment is calculated on the basis of the period of employment and the taxable compensation of each employee. This liability is adjusted annually based on the official cost-of-living index and legally-set interest. The liability is not associated with any vesting condition or period or any funding obligation; accordingly, there are no assets servicing the

provision. The liability is recognized net of the partial prepayments of the provision and payments of the amounts obtained by employees for the reasons permitted by the applicable regulations.

Under the regulations introduced by Italian Legislative Decree 252/2005 and Law no. 296/2006 with which, for companies with at least 50 employees, the severance indemnities accruing from 2007 are assigned, as elected by the employees, to either the INPS Treasury Fund or to supplementary pension funds and take the form of a "defined contribution plan".

However, for all companies, the revaluations of the amounts in the provision for employee severance indemnities existing at the election date, and also the amounts accrued and not assigned to supplementary pension plans for companies with less than 50 employees, are retained in the provision for employee severance indemnities. In accordance with IAS 19, the provision has been recognized as a "defined benefit plan".

In application of IAS 19, employee severance indemnities have been calculated using the "Projected Unit Credit Method" as follows:

- the future possible benefits which could be paid to each employee registered in the program in the event of retirement, death, disability, resignation etc. have been projected on the basis of a series of financial assumptions (cost-of-living increases, interest rate, increase in compensation etc.). The estimate of future benefits includes any increases for additional service seniority, as well as the estimated increase in the compensation level at the measurement date – only for employees of companies with less than 50 employees during the year 2006;
- the average present value of future benefits has been calculated, at the measurement date, on the basis of the annual interest rate adopted and of the probability that each benefit actually has to be paid;
- the liability of each company concerned has been calculated as the average present value of future benefits that will be generated by the existing provision at the measurement date, without considering any future accruals (for companies with at least 50 employees during the year 2006) or by identifying the amount of the average present value of future benefits which refer to the past service already accrued by the employee in the company at the measurement date (for the others), i.e. adopting the "service pro-rate".

The following assumptions have been made:

FINANCIAL ASSUMPTIONS	Executives	Non-executives
Inflation rate	**1.75% per annum**	**1.75% per annum**
Discount rate	**0.98% per annum**	**0.98% per annum**
Employee severance indemnities annual increase rate	**2.81% per annum**	**2.81% per annum**
Annual real wage growth:		
equal to or less than 40 years of age	1.0% per annum	1.0% per annum
over 40 but equal to or less than 55 years of age	0.5% per annum	0.5% per annum
over 55 years of age	0.0% per annum	0.0% per annum

DEMOGRAPHIC ASSUMPTIONS	Executives	Non-executives
Probability of death	Mortality tables RG48 published by Ragioneria Generale dello Stato	Mortality tables RG48 published by Ragioneria Generale dello Stato
Probability of disability	INPS tables divided by age and sex	INPS tables divided by age and sex
Probability of resignation:		
up to 40 years of age	2.00%	1.00%
from 41 to 50 years of age	2.00%	0.50%
from 51 to 59 years of age	1.00%	0.50%
from 60 to 64 years of age	None	0.50%
aged 65 and over	None	None
Probability of retirement	100% on achievement of the AGO requirements aligned with D.L. 4/2019	
Probability of receiving at the beginning of the year an advance from the provision for severance indemnities accrued equal to 70%	1.5% per annum	1.5% per annum

The application of the above assumptions resulted in a liability for employee severance indemnities of 678 million euros at December 31, 2021 (701 million euros at December 31, 2020).

Reported below is a sensitivity analysis for each significant actuarial assumption adopted to calculate the liability as at year end, showing how the liability would have been affected by changes in the relevant actuarial assumption that were reasonably possible at that date, stated in amounts.

The weighted average duration of the obligation of the Parent amounted to 10 years.

CHANGES IN ASSUMPTIONS	Amounts (million euros)
Turnover rate:	
+0.25 p.p.	2
- 0.25 p.p.	(2)
Annual inflation rate:	
+0.25 p.p.	(12)
- 0.25 p.p.	11
Annual discount rate:	
+0.25 p.p.	15
- 0.25 p.p.	(16)

The **Provision for pension and other plans** amounted to 21 million euros at December 31, 2021 (23 million euros at December 31, 2020) and mainly represented pension plans in place at foreign companies of the Group.

The **Provisions for incentive to take early retirement and company restructuring** reduce by a total of 39 million euros, zeroing during the period, as a result of outgoings and the reclassification to debt of the amounts not yet paid, relative to both plans already accrued during previous years and 2021 expenses, following the application of the trade union agreements signed by the Parent Company and the trade unions on March 8, 2021 and on April 23, 2021 as well as the expenses related to the agreements signed respectively on March 15, 2021 by the company Olivetti, on April 27, 2021 by the company Noovle S.p.A. and on May 6, 2021 by the company Telecom Italia Sparkle.

NOTE 21
PROVISIONS

These increased by 346 million euros compared to December 31, 2020. The breakdown is as follows:

(million euros)	12/31/2020	Increase	Taken to income	Used directly	Exchange differences and other changes	12/31/2021
Provision for taxation and tax risks	**67**	6	—	(3)	3	**73**
Provision for restoration costs	**274**	15	—	(8)	—	**281**
Provision for legal disputes	**747**	62	—	(370)	2	**441**
Provision for commercial risks	**29**	657	(3)	(7)	1	**677**
Provision for risks and charges on investments and corporate-related transactions	**21**	2	(4)	—	(7)	**12**
Other provisions	**4**	2	—	(2)	—	**4**
Total	**1,142**	**744**	**(7)**	**(390)**	**(1)**	**1,488**
of which:						
non-current portion	**770**					**926**
current portion	**372**					**562**

The non-current portion of provisions for risks and charges mainly relates to some of the provision for commercial risks, the provision for legal disputes and the provision for restoration costs. More specifically, in accordance with accounting policies, the total amount of the provision for restoration costs is calculated by re-measuring the amounts for which a probable outlay is envisaged, based on the estimated inflation rates for the individual due dates, and subsequently discounted to the reporting date based on the average cost of debt, taking into account cash outflow forecasts.

The **provision for taxation and tax risks** increased by 6 million euros compared to December 31, 2020.

The **provision for restoration costs** refers to the provision for the costs expected to be incurred for the restoration of leased properties and sites used in the mobile sector and for the dismantling of certain assets (particularly batteries and wooden piling); it mainly refers to the parent company (149 million euros), the company FiberCop (127 million euros) and the Brazil Business Unit (5 million euros).

The **provision for legal disputes** included the provision for litigation with other counterparties and employees. The amount at December 31, 2021 included 356 million euros for the Domestic Business Unit, a reduction on December 31, 2020 following use for transactions and legal agreements and 84 million euros for the Brazil Business Unit.

The **provision for commercial risks** relates to the Domestic Business Unit and mainly the Parent Company TIM S.p.A.. In 2021, it increased by 648 million euros, mainly following the posting of 548 million euros of Contractual Risk Provisions for Onerous Contracts (IAS 37) relative to contracts with certain counterparties for multimedia content offers. Further details are provided in the Note "Significant non-recurring Events and Transactions".

The **provision for risks and charges on investments and corporate-related transactions** reduces by 9 million euros on the previous year.

Other provisions for risks and charges come to 4 million euros and are essentially attributable to the Domestic Business Unit.

NOTE 22

MISCELLANEOUS PAYABLES AND OTHER NON-CURRENT LIABILITIES

This item decreased by 2,189 million euros compared to December 31, 2020. The figure breaks down as follows:

(million euros)		12/31/2021	12/31/2020
Miscellaneous payables (non-current)			
Payables to social security agencies		452	501
Income tax payables (*)		231	493
Other payables		7	1,748
	(a)	690	2,742
Other non-current liabilities			
Deferred revenues from customer contracts (Contract liabilities)		88	106
Other deferred revenue and income		368	460
Capital grants		267	294
	(b)	723	860
Total	(a+b)	1,413	3,602

(*) Analyzed in the Note "Income tax expense".

Miscellaneous non-current payables include:

- **Payables to social security agencies** amounting to 452 million euros, mainly relating to the aforementioned debt position with INPS for the application of the agreements signed with the trade unions relating to the application of Article 4, paragraphs 1-7ter, of Italian Law 92 of June 28, 2012 (for further details see the Note “Employee benefits expenses”). This debt position (non-current and current portion) is as follows:

(million euros)	12/31/2021	12/31/2020
Non-current payables		
Due from 2 to 5 years after the end of the reporting period	443	494
Due beyond 5 years after the end of the reporting period	9	7
	452	501
Current payables	258	298
Total	710	799

- **other payables** equal to 7 million euros at December 31, 2021. These decreased from December 31, 2020, essentially due to the reclassification to miscellaneous current payables of 1,738 million euros relating to the last installment to be paid by September 2022 relating to the purchase - which took place in 2018 - of the rights-of-use for the frequencies in the 694-790 MHz, 3600-3800 MHz and 26.5-27.5 GHz bands, to be allocated on 5G mobile communication services in Italy.

The **other non-current liabilities** include:

- **Deferred revenues from contracts with customers (contract liabilities)** of 88 million euros (106 million euros at December 31, 2020) which are reversed to the income statement according to the duration of the contractual obligations between the parties, averaging 24 months; therefore, the balance as at December 31, 2021 will be reversed to the income statement generally by 2023. In particular, the item includes:
  - TIM S.p.A. deferred revenues for subscription charges and rent and maintenance payments (42 million euros);
  - TIM S.p.A. deferred revenues for network access subscription charges (25 million euros);
  - Deferred revenues of TIM S.p.A. for outsourcing charges (13 million euros);
  - Deferred revenues for activation and installation fees charged on new TIM S.p.A. customer contracts (4 million euros): in this regard, it is noted that under IFRS 15 activation/installment revenues are allocated to other contract obligations and recognized throughout the period of performance of the contract, as they do not relate to separate performance obligations.
- **Other deferred revenue and income** totaling 368 million euros; the item consisted of the non-current portion (approx. 108 million euros) of the deferred gain on the sale and lease-back of telecommunication towers by the Brazil Business Unit;this item also includes deferred revenues related to agreements for the sale of the transmission capacity (lease operating income).
- **Capital grants** of 267 million euros: the item represents the component still to be released to the income statement based on the remaining useful life (estimated at around 18 years) of the assets that the grants refer to and is mainly connected to the realization of the infrastructures on the ultrabroadband-UBB and broadband-BB projects.

NOTE 23

TRADE AND MISCELLANEOUS PAYABLES AND OTHER CURRENT LIABILITIES

Miscellaneous payables and other non-current liabilities rose by 2,885 million euros compared to December 31, 2020. The figure breaks down as follows:

(million euros)		12/31/2021	*of which Financial Instruments*	12/31/2020	*of which Financial Instruments*

	(d)	**851**	***110***	**848**	***120***
Total	**(a+b+c+d)**	**9,473**	***7,166***	**6,588**	***4,449***

Further details on Financial Instruments are provided in the Note "Supplementary disclosure on financial instruments".

Trade payables amounting to 5,161 million euros (4,133 million euros at December 31, 2020), mainly refer to:

- TIM S.p.A. (3,574 million euros); the increase on December 31, 2020 reflects the dynamics of payments relative to bills payable;
- Brazil Business Unit (984 million euros); the increase on December 31, 2020 is connected with the November 2021 purchase of 5G licenses.

At December 31, 2021, trade payables due beyond 12 months totaled 73 million euros (44 at December 31, 2020) and are mainly represented by payables of the Brazil Business Unit for the purchase and renewal of telecommunications licenses, also including the payable due to Entidade Administradora da Conectividade de Escolas (EACE) for the development of certain infrastructural projects in Brazil in connection with the assignment of the rights of use of frequencies for 5G services.

For more details on the acquisition of 5G licenses in Brazil, see the Note on “Intangible assets”.

Tax payables amounted to 168 million euros and mainly consisted of both the tax payables of the Brazil Business Unit (72 million euros) and the payables of TIM S.p.A., mainly relating to the amount owed to the tax authorities for tax payables withheld as withholding agent (61 million euros), the amount payable for the government concession tax (5 million euros) and the VAT payable (2 million euros).

Miscellaneous payables mainly include:

- the residual payable relating to the acquisition, by TIM S.p.A., of the rights to use 5G licenses (1,738 million euros), reclassified in 2021 from Miscellaneous payables and other non-current liabilities following the deadline envisaged in 2022;
- the current debt position towards INPS in relation to the application of the agreements signed relating to Article 4, paragraphs 1-7ter, of Italian Law 92 of June 28, 2012, as described in the Note "Miscellaneous payables and other non-current liabilities".

Other current liabilities amounted to 851 million euros (848 million euros at December 31, 2020). They break down as follows:

- **Liabilities from customer contracts (Contract liabilities)**, totaling 757 million euros. This item includes liabilities to customers related to the obligations of Group companies to transfer goods and services for which have received a price. Liabilities with customers are shown below, which generally have a maturity within 12 months; therefore, the figure at December 31, 2021 will be paid back substantially by December 31, 2022.

  In particular:

  - **contract liabilities** amounting to 11 million euros; the item includes bundle contracts (good and services packages) with performance obligations with different timing for the recognition of revenues and consequent deferral of the fees originally recognized. The decrease recognized in the year 2021 (-8 million euros) was mainly linked to the launch of commercial offers that no longer require a fixed duration and the reversal to the income statement of the balance previously accumulated;;
  - **customer-related items**, equal to 389 million euros; the item includes trade payables following contractual relationships, such as the payable for prepaid traffic and the subscription fees charged in advance;
  - **progress payments and advances** equal to 63 million euros relating to trade payables following prepayments, such as deposits made by subscribers for telephone calls;
  - **deferred revenues from customer contracts**, equal to 294 million euros essentially include:
    - Parent Company deferred revenues for rent and maintenance fees (131 million euros);
    - Parent Company deferred revenues for interconnection fees (116 million euros);
    - Parent Company deferred revenues on activation and installation of new contracts with customers (7 million euros).
- **Other deferred revenue and income** amounted to 66 million euros. They mainly refer to deferred revenues from transmission capacity transfer contracts and deferred revenues from real estate leases (lease operating income).
- **Other** (28 million euros, 21 million euros at December 31, 2020): this refers to payables for advances on work in progress on networks.

NOTE 24

DISPUTES AND PENDING LEGAL ACTIONS, OTHER INFORMATION, COMMITMENTS AND GUARANTEES

A description is provided below of the most significant judicial, arbitration and tax disputes in which TIM Group companies are involved at December 31, 2021, as well as those that came to an end during the period.
The TIM Group has posted liabilities totaling 313 million euros for those disputes described below where the risk of losing the case has been considered probable.
It should be noted that for some disputes described below, on the basis of the information available at the closing date of the Annual Financial Report and with particular reference to the complexity of the proceedings, to their progress, and to elements of uncertainty of a technical-trial nature, it was not possible to make a reliable estimate of the size and/or times of possible payments, if any. Moreover, in those cases in which disclosure of information on a dispute could seriously jeopardize the position of TIM or its subsidiaries, only the general nature of the dispute is described.
Lastly, as regards proceedings with the Antitrust Authority, note that based on Article 15, paragraph 1 of Law 287/1990 ("Antitrust regulations"), the Authority has the right to impose an administrative sanction calculated on the turnover of the Group in cases of breaches considered serious.

a) Significant disputes and pending legal actions

International tax and regulatory disputes

At December 31, 2021, companies belonging to the Brazil Business Unit were involved in tax or regulatory disputes, the outcome of which is estimated as a possible loss totaling around 16.3 billion reais (16.6 billion reais at December 31, 2020). The main types of litigation are listed below, classified according to the tax to which they refer.

Federal taxes

In relation to the federal level of taxation, the following disputes should be noted:

- disallowance of the tax effects of the merger between the companies of the TIM Brasil Group;
- denial of the SUDENE regional tax benefit, due to alleged irregularities in the management and reporting of the benefit itself;
- challenges regarding offsetting against previous tax losses;
- further challenges regarding the tax deductibility of the amortization of goodwill;
- imposition of income tax on certain types of exchange rate differences;
- imposition of withholding taxes on certain types of payments to foreign entities (for example, payments for international roaming);
- further challenges regarding offsets made between taxes payable and group company credit positions.

Overall, the risk for these cases, considered to be possible, amounts to 3.1 billion reais (4.3 billion reais at December 31, 2020).

State taxes

Within the scope of the state levy, there are numerous challenges regarding ICMS, and in particular:

- challenges concerning the reduction of the tax base due to discounts granted to customers, as well as challenges regarding the use of tax credits declared by group companies, with respect to the return of loaned telephone handsets, and following the detection of contract frauds to the detriment of the companies;
- subjection of some fees owed to group companies and classified by them as fees for services other than telecommunications to ICMS;
- challenges over the use of the "PRO-DF" tax benefit originally granted by some States, and subsequently declared unconstitutional (the challenge refers to the actual credit due to ICMS, declared by the TIM Cellular on the basis of the aforementioned tax benefits);
- challenges relating to the use of ICMS credits claimed by Group companies as a result of the acquisition of tangible assets, and in relation to the supply of electricity to the companies, as well as in application of the provisions on acting as a withholding agent;
- fines imposed on group companies for irregularities in tax return compliance;
- challenges of ICMS credits in relation to acting as a withholding agent, applicable when equipment is bought and distributed in different States;
- challenges of ICMS credits deriving from the "special credit" recognized by the company to its prepaid customers, against subsequent top-ups.

Overall, the risk for these cases, considered to be possible, amounts to 8.8 billion reais (8.6 billion reais at December 31, 2020).

Municipal taxes

Among disputes classified with a "possible" degree of risk, there are some relating to municipal taxes for a total amounting to around 1.2 billion reais (around 0.7 billion reais at December 31, 2020).

FUST and FUNTTEL

The main challenges about contributions to the regulatory body (Anatel), and in particular in terms of FUST and FUNTTEL, concern whether or not interconnection revenues should be subject to these contributions.

Overall, the risk for these cases, considered to be possible, amounts to 3.2 billion reais (3 billion reais at December 31, 2020).

Administrative offense charge pursuant to Legislative Decree 231/2001 for the so-called TIM Security Affair

In December 2008 TIM received notification of the application for its committal for trial for the administrative offense specified in articles 21 and 25, subsections 2 and 4, of legislative decree no. 231/2001 in relation to the affairs that involved several former employees of the Security function and former collaborators of the Company charged – among other things – with offenses involving corruption of public officials, with the object of acquiring information from confidential files. In May 2010 TIM definitively ceased to be a defendant in the criminal trial, the Judge for the Preliminary Hearing having approved the motion for settlement of the proceedings (plea bargaining) presented by the Company. In the hearing before Section One of the Milan Court of Assizes, TIM acted in the dual role of civil party and civilly liable party. In fact, on the one hand it was admitted as civil party against all the defendants for all charges, and on the other it was also cited as the party with civil liability pursuant to article 2049 of the Italian Civil Code for the actions of the defendants in relation to 32 civil parties. Telecom Italia Latam and Telecom Italia Audit and Compliance Services (now incorporated into TIM) also participated in the hearing as civil parties, having filed appearances since the Preliminary Hearing and brought charges against the defendants for hacking. After the lengthy evidence hearings, 22 civil parties filed claims for compensation, also against TIM as civilly liable party, for over 60 million euros (over 42 million euros of which requested by a single civil party). The Company itself, as civil party, also summarized its conclusions against the defendants, requesting that they be found liable for all the damages suffered as a result of the facts of the case. In February 2013, Section 1 of the Milan Court of Assizes issued the first instance judgement, sentencing the defendants to terms of imprisonment of between 7 years and 6 months and one year. The Court also recognized that there had been non-pecuniary damage to some of the civil parties as a consequence of the alleged facts, and sentenced the defendants, jointly and severally with civilly liable party TIM, to compensate said damages, totaling 270,000 euros (in part jointly and severally with Pirelli) plus legal fees; at the same time the Court also sentenced the defendants to pay compensation for pecuniary and non-pecuniary damages incurred by the Company, granting it a provisional sum of 10 million euros. The judgement also recognized the existence of non-pecuniary damage to the companies Telecom Italia Latam and Telecom Italia Audit & Compliance Services, sentencing the defendants to pay compensation for damages on an equitable basis of 20,000 euros for each company. In November 2013 the grounds for the judgement in the first instance were published (which, for its part, the Company decided not to contest). At the end of the appeal, which was brought by the convicted defendants, the judgement in the first instance was partly reversed. The appeal judge acknowledged that the time-limit had expired on the majority of the charges and made an order not to proceed against the defendants who had been convicted in the lower court, with the exception of two former private investigators, who were found guilty of the offense of revealing information which was subject to a prohibition on disclosure. As for the civil judgements, the Court revoked those made by the judge of first instance and ruled in favor of three ministries, AGCM (the Italian Competition Authority) and the Revenues Agency. The Court also decided to revoke the provisional sum of 10 million euros awarded to the Company as civil party at the end of the proceedings in the court of first instance, making a generic ruling that the defendants should pay compensatory civil damages. Finally, the appeal judge also rejected all the demands for compensation advanced in the appeals by certain civil parties for a total of about 60 million euros, in respect of which the Company has the role of party liable for damages. At the end of the appeal, therefore, the civil rulings settled in the first instance were confirmed which TIM, as the party liable for damages, had already paid to the damaged requesting parties. The three defendants brought an appeal to the Court of Cassation against the judgement of the second instance issued by the Milan Appeal Court of Assizes. In April 2018 the Supreme Court confirmed the convictions of the defendants and canceled the civil rulings, referring the issue back to the civil court for a more careful assessment of the claims made, above all concerning proof of the "quantum". It also annulled and referred the confiscation in favor of the State. The annulment of the security measure was lastly and definitively confirmed with a ruling by the Court of Cassation filed in January 2021.

Golden Power Case

In August 2017 the Prime Minister's office brought proceedings against TIM (as well as Vivendi) in order to verify the fact that TIM has an obligation to notify, pursuant to the "Golden Power" law, Vivendi's acquisition of corporate control of TIM and the strategic assets it holds. In September 2017, the proceedings in question concluded by affirming that this obligation did exist for TIM with effect from May 4, 2017 (the date of the Shareholders' Meeting that renewed TIM's corporate boards).

As a result of this decision by the Presidency of the Council of Ministers, new and separate administrative proceedings started for the imposition on TIM of the financial penalty laid down by the Golden Power law for non-compliance with the aforementioned obligation to notify. These proceedings ended on May 8, 2018 with the imposition of a financial penalty of 74.3 million euros.

The Company, is convinced that it has the legal arguments to demonstrate that it was under no obligation to notify the control exercised over it by Vivendi, filed separate extraordinary appeals to the President of the Republic to request the abrogation of the order of September 2017 and before the Lazio Regional Administrative Court (TAR) against the aforementioned order of May 8, 2018, which imposed a financial penalty, requesting its precautionary suspension. As regards the appeal to the Lazio Regional Administrative Court (TAR) against the provision of May 8, 2018, which imposed the financial penalty, the TAR, in upholding in July 2018 the interim petition lodged by the Company, has suspended payment of the penalty. Subsequently, with a non-definitive ruling in May 2019, the Lazio Regional Administrative Court (TAR)R: (i) accepted TIM's

request for provisional measures to suspend the fine conditional on the offer of the guarantee; (ii) granted the suspension of the procedure to wait for the final judgment in the (injurious) case pending before the President of the Republic regarding the notification obligation, pursuant to the Golden Power provisions; (iii) rejected the procedural objections raised by the defendant administrations.

It should also be noted that in May 2018 a guarantee bond for 74.3 million euros was issued in favor of the Presidency of the Council. TIM had been requested to submit such a bond for its application to Lazio TAR for precautionary suspension of the collection of the fine imposed for alleged breach of Art. 2 of Decree Law 21 of March 15, 2012 (the "Golden Power" law). This surety was renewed in May 2021.

Furthermore, TIM appealed before the Lazio TAR and then appealed before the Council of State against the provision with which Consob, on September 13, 2017, affirmed Vivendi's control over TIM. In December 2020, the Council of State issued a final judgment upholding TIM's appeal and canceling the provision by Consob, a significant premise to the entire subsequent proceedings of the Presidency of the Council in relation to the obligation to Golden Power notification as described above. On June 14, 2021, Consob submitted an extraordinary appeal to the Court of Cassation on grounds of jurisdiction; TIM filed an appearance, objecting that the appeal is unlawful and inadmissible.

On the other hand, the Presidency of the Council of Ministers exercised the special powers prescribed in the Golden Power law through two specific rulings in October and November 2017 with which it imposed specific prescriptions and conditions on TIM and on the companies of the Telecom Italia Sparkle group and Telsy Elettronica e Telecomunicazioni (now Telsy S.p.A.).

The prescriptions, according to the Administrative Authority, are essentially connected to the circumstance that these companies, in part, perform activities that are relevant for national security and as far as TIM is concerned to the circumstance that it also owns the infrastructure and the systems used to provide access to end-users of services covered by the universal service obligation.

Any failure on the part of the recipients of the measures to execute said conditions and prescriptions is penalized in the same way as failure to notify significant deeds for the purpose of the application of the so-called Golden Power.

The companies subject to the prescriptions are required to send periodic reports to a special Monitoring Committee established at the office of the Prime Minister in order to verify compliance with the aforementioned prescriptions.

In December 2017 the Group sent to the Presidency of the Council of Ministers the first compliance report outlining all the proposals and activities put in place to carry out the prescriptions. This report is then followed by half yearly reports, as required by current legislation.

Nevertheless, also for this case TIM has already filed two extraordinary appeals to the President of the Republic to request the cancellation (i) of the imposition of the measures pursuant to Art. 1 D.L. 21/2012 and (ii) the imposition of measures pursuant to Art. 2 D.L. 21/2012.

As stated, the premise for exercising special powers was (erroneously, according to the Company) referred to the de facto control resulting from the outcome of the shareholders' meeting of May 4, 2017 and to the direction and coordination of TIM by Vivendi. Both these circumstances no longer apply, since: at the Shareholders' Meeting of May 4, 2018, the slate presented by the shareholders Elliott International LP, Elliott Associates LP and The Liverpool Limited Partnership received the majority vote; the Board of Directors was re-appointed with 13 independent directors out of a total of 15, with only 5 from the slate presented by Vivendi; thus, Vivendi no longer has direction and coordination, nor is there de facto control.

In consequence, the Company has asked the Presidency of the Council of Ministers to repeal the two Decrees, while, in the alternative, expressing its willingness to collaborate in the redrafting of the prescriptions applied to TIM, to take account of the changed situation.

The Presidency of the Council of Ministers, in decrees issued on July 6, 2018, deemed that it could not further exercise its special powers, reaffirming the validity of the two Decrees it had previously issued, and rejected the application for their repeal.

The justification for this refusal is the purported circumstance that the new governance arrangements of the Company are alleged to be currently characterized by extreme variability; this, it is argued, means that the measures through which the special powers have been exercised cannot be surmounted, given the need to protect the public interest in the security and operation of the networks.

The Company has lodged an appeal, with additional reasons and as part of the appeals already lodged, against the Prime Minister's decrees of October 16 and November 2, 2017, and against the Prime Minister's resolution of July 6, 2018, rejecting the appeal for revocation presented by the company, on the outcome of the changed situation in corporate governance.

Antitrust Case A428

At the conclusion of case A428, in May 2013, Italian Competition Authority AGCM imposed two administrative sanctions of 88,182,000 euros and 15,612,000 euros on TIM for abuse of its dominant position. The Company allegedly (i) hindered or delayed activation of access services requested by OLOs through unjustified and spurious refusals; (ii) offered its access services to final customers at economic and technical conditions that allegedly could not be matched by competitors purchasing wholesale access services from TIM itself, only in those geographic areas of the Country where disaggregated access services to the local network are available, and hence where other operators can compete more effectively with the Company.

TIM appealed against the decision before the Regional Administrative Court (TAR) for Lazio, applying for payment of the fine to be suspended. In particular, it alleged: infringement of its rights to defend itself in the proceedings, the circumstance that the organizational choices challenged by AGCM (the Italian Competition Authority) and allegedly at the base of the abuse of the OLO provisioning processes had been the subject of specific rulings made by the industry regulator (AGCom), the circumstance that the comparative examination of the internal/external provisioning processes had in fact shown better results for the OLOs than for the TIM retail department (hence the lack of any form of inequality of treatment and/or opportunistic behavior by TIM),

and (regarding the second abuse) the fact that the conduct was structurally unsuitable to reduce the margins of the OLOs.

In May 2014, the judgement of the Lazio TAR was published, rejecting TIM's appeal and confirming the fines imposed in the original order challenged. In September 2014 the Company appealed against this decision.

In May 2015, with the judgement no. 2497/15, the Council of State found the decision of the court of first instance did not present the deficiencies alleged by TIM and confirmed the AGCM ruling. The company had already proceeded to pay the fines and the accrued interest.

In a decision notified in July 2015, AGCM (the Italian Competition Authority) started proceedings for non-compliance against TIM, to ascertain if the Company had respected the notice to comply requiring it to refrain from undertaking behaviors analogous to those that were the object of the breach ascertained with the concluding decision in case A428 dated May 2013.

On January 13, 2017, TIM was served notice of AGCM's final assessment, which recognized that TIM had complied in full with the A428 decision and, as such, the conditions for the imposition of a fine for non-compliance were not present.

AGCM (the Italian Competition Authority) recognizes, furthermore, that TIM's behavior subsequently to the 2013 proceedings has been directed towards continuous improvement of its performance in the supply of wholesale access services concerning not only the services which were the subject of the investigation, but also the new super-fast broadband access services. In assessing compliance, AGCM (the Italian Competition Authority) recognized the positive impact of the implementation, albeit not yet completed, of TIM's New Equivalence Model (NME). The AGCM decision orders TIM to: (i) proceed with the implementation of the NME until its completion which is expected to be by April 30, 2017; (ii) to inform the Authority about the performance levels of the systems for providing wholesale access services and about the completion of the corresponding internal reorganization plan by the end of May 2017. The Company quickly complied with both orders, and AGCOM communicated its satisfaction on August 9, 2017.

Vodafone lodged an appeal with the Lazio Regional Administrative Court against the final decision in the proceedings for non-compliance taken by AGCM (the Italian Competition Authority). TIM filed an appearance, as in the other lawsuits filed in March 2017 by the operators CloudItalia, KPNQWest Italia and Digitel.

Vodafone (A428)

In August 2013, Vodafone, as incorporating company of operator Teletu, submitted to the Milan Court a huge claim for damages for presumed abusive and anticompetitive behavior (founded principally on AGCM case A428) which TIM allegedly implemented in the period 2008 - 2013. The pecuniary claim was quantified by Vodafone as an estimated sum of between 876 million euros and 1,029 million euros.

In particular, Vodafone alleged technical boycotting activities, with refusal to activate lines requested for Teletu customers (in the period from 2008 to the month of June 2013), together with the adoption of allegedly abusive price policies for wholesale network access services (period from 2008 to the month of June 2013). Furthermore, the other party complained of the presumed application of discounts to business customers greater than those envisaged ("margin squeezing") and the carrying out of presumed illegal and anticompetitive win-back practices (in the period from the second half of 2012 to the month of June 2013).

TIM filed an appearance, challenging the claims made by the other party regarding the merits and the amount and making a counterclaim. Following the August 2016 decision by the Court of Cassation which confirmed that the Milan Court had jurisdiction to decide the dispute, the merits of the case will be decided at the hearing in December 2016.

With writ of summons before the Milan Court served in May 28, 2015, Vodafone filed additional damages claims, all based on the same AGCM A428 decision and referring to alleged damages suffered between July 2013 and December 2014 (and hence over a period subsequent to that of the damages claim reported above), for a total amount of around 568.5 million euros.

The case also contains a reservation of further damages to be quantified, during the proceedings, for the following periods, the claimant alleging that the presumed abusive conduct of TIM continued. TIM filed an appearance, challenging the claims made by the other party regarding the merits and the amount and making a counterclaim.

By order of October 6, 2016, the judge received Vodafone's application for the two A428 lawsuits brought by it to be joined. At the end of the reinstatement proceedings of December 21, the terms were established for the preliminary briefs and a hearing was fixed for July 11, 2017 for the admission of evidence. When the first preliminary brief was filed, following the favorable outcome for TIM of proceedings A428C (which confirmed the absence of improper conduct by the Company under A428 after 2011), Vodafone decided nonetheless to file further claims for 2015-2016, thus restating its total claim to be 1,812 million euros, which was also disputed and rebutted by TIM.

The case was settled as part of a global settlement with Vodafone.

Colt Technology Services

With writ of summons before the Milan Court served in August 2015, the operator Colt Technology Services filed a damages claim based on the A428 decision, requesting compensation for alleged damages suffered from 2009 to 2011 as a result of purportedly inefficient and discriminatory conduct by TIM in the wholesale service supply process. The damage claimed was quantified as 27 million euros in loss of profits for the alleged non-acquisition of new customers, or for the alleged impossibility of supplying new services to the customers it had already acquired; the other party also formulated a request for compensation for the damages to its image and commercial reputation. This case follows the extrajudicial claim for approximately 23 million euros, previously advanced by Colt in June 2015, which the Company rejected in its entirety. TIM filed an appearance, contesting all of the plaintiff's allegations.

COMM 3000 S.p.A. (formerly KPNQWest Italia S.p.A.)

With writ of summons before the Rome Court, COMM 3000 S.p.A.(formerly KPNQWest Italia S.p.A.) filed a damages claim for a total of 37 million euros in compensation for alleged anticompetitive and abusive conduct over the period 2009–2011, in the form of technical boycotting (refusals to activate wholesale services – KOs); the claim was based on the contents of the decision of AGCM (the Italian Competition Authority) that settled the A428 case. TIM filed an appearance, contesting all of the plaintiff's allegations. In the judgment with ruling in April 2019, the Court of Rome partially received the petitions of COMM 3000 S.p.A. (formerly KPNQWest Italia S.p.A.), sentencing TIM to pay an amount significantly lower than the amount in the counterparty's damages claim. In June 2019, TIM appealed against the judgment. In the judgment given in April 2021, the Court of Appeal of Rome partly upheld TIM's appeal, reducing the amount of the compensation due to COMM 3000, which was in any case entirely covered by the relevant provision. In November 2021, TIM has appealed to the Court of Cassation over the judgment of the Court of Appeal of Rome in.

Teleunit

With a writ of summons issued in October 2009 before the Milan Appeal Court, Teleunit asked that TIM alleged acts of abuse of its dominant position in the premium services market be ascertained. The plaintiff quantified its damages at a total of approximately 362 million euros. TIM filed an appearance, contesting the claims of the other party.

After the ruling of January 2014 with which the Court of Appeal declared that it was not competent in this matter and referred the case to the Court, Teleunit reinstated the case before the Milan Court the following April. TIM filed an appearance in the reinstated proceedings challenging the plaintiff's claims.

In its judgement of May 2017, the Milan Court rejected Teleunit's claim in its entirety, and ordered the company to pay the legal costs of the case. This judgement was appealed by Teleunit, in June 2017, before the Milan Court of Appeal. TIM filed an appeal challenging the arguments presented by the other party and asking that the judgement in the first instance be fully confirmed. With an order in March 2018 the Milan Court of Appeal declared Teleunit's appeal pursuant to art. 348-bis of the Italian Code of Civil Procedure to be manifestly without foundation, and hence inadmissible. In May 2018 Teleunit appealed the judgement of the Court of Appeal to the Court of Cassation. TIM lodged a counter-appeal seeking confirmation in full of the order being appealed (and thus of the judgment at first instance).

MC-Link

With writ of summons before the Rome Court, MC-Link filed a damages claim for a total of 51 million euros in compensation for alleged anticompetitive and abusive conduct over the period 2009–2012, in the form of technical boycotting (refusals to activate wholesale services – KOs). The claim was based on the contents of the decision of AGCM (the Italian Competition Authority) that settled the A428 case. TIM filed an appearance, contesting all of the plaintiff's allegations. In August 2021, the case was settled as part of a global settlement with the opposing party.

Eutelia and Clouditalia Telecomunicazioni

With a writ of summons dated May 2020, Eutelia in Extraordinary Administration and Clouditalia Telecomunicazioni S.p.A., purchaser of Eutelia's TLC branch, brought an action against TIM before the Court of Rome, making claims for damages, of around 40 million euros, for damages allegedly suffered, in the period 2009-2012, following the technical boycott and margin squeeze conduct, subject of the AGCM A428 procedure. TIM filed an appearance, contesting the claims made by the opposing party and formulating a counterclaim, subject to quantification of the damages incurred during the proceedings.

Antitrust Case I761

With a ruling issued on July 10, 2013, AGCM (the Italian Competition Authority) extended to TIM the investigation started in March of the same year into some firms active in the fixed network maintenance sector. The investigation aims to establish if an agreement exists that is prohibited under article 101 of the Treaty on the Functioning of the European Union. The proceedings were initiated after Wind filed two complaints in which AGCM (the Italian Competition Authority) was informed that, based on an invitation to bid for the assignment of network corrective maintenance services, it had encountered substantial uniformity of prices offered by the aforementioned enterprises and a significant difference from the offers submitted subsequently by other and different companies.

AGCM (the Italian Competition Authority) alleged that TIM carried out a role of coordinating the other parts of the procedure, both during the formulation of the offers requested by Wind and in relation to the positions represented to communications regulator AGCom.

TIM challenged these proceedings before the Administrative Court (TAR), sustaining that the ICA does not have competence in this matter.

On July 7, 2014, AGCM (the Italian Competition Authority) notified the objective extension of the proceedings to check if the Company, abusing its dominant position, put in place initiatives that might influence the conditions of the offer of accessory technical services when the offers of the maintenance businesses to Wind and Fastweb were being formulated. With the extension decision, the Authority also extended the closing date of the investigation, originally set for July 31, 2014, to July 31, 2015. This extension was also challenged before the Lazio Administrative Court (TAR) sustaining that the Italian Competition Authority does not have competence in this matter.

In November 2014, for reasons of procedural economy and also convinced that it was acting legitimately, TIM presented to the Authority a proposal of undertakings in order to resolve the competition concerns subject of the investigation. On December 19, 2014, AGCM (the Italian Competition Authority) issued its decision finding that the undertakings were not clearly unfounded and subsequently ordered their publication for market testing.

On March 25, 2015, AGCM (the Italian Competition Authority) definitively rejected the aforesaid undertakings, considering them not suitable for removing the anticompetitive aspects investigated.

On July 21, 2015 the Communication of the Results of the Investigation was served on the parties to the proceedings, in which the Offices of AGCM (the Italian Competition Authority) expressed their position in the sense of (i) archiving the complaints regarding the abuse of dominant position and (ii) confirming, instead, that there exists between TIM and the maintenance firms an agreement to coordinate the economic offers drawn up for Wind and Fastweb, and to prevent the unbundled supply of the ancillary technical services.

On December 16, 2015, the final order was issued, confirming the conclusions of the Communication of the Results of the Investigation, sustaining that, between 2012 and 2013, there existed an agreement that restricted competition, and as a result imposed a fine of 21.5 million euros on the Company, paid in March 2016. The relevant market is the corrective maintenance (assurance) market and, more precisely, the market for troubleshooting the TIM LLU lines. The purpose of the conduct maintained by the Company and the network firms would have been to limit competition and prevent the evolution of forms of unbundled supply of ancillary technical services.

TIM appealed the order before the Lazio Regional Administrative Court. In judgement no. 09554/2016 issued in September 2016, the appeal was dismissed, and the Company appealed this decision to the Council of State. On the outcome of the proceedings, with the ruling of December 2019, the Council of State, deciding in favor of TIM, annulled the AGCM I761 provision and referred the task of conducting a new investigation to AGCM (the Italian Competition Authority), within the limits that decided by the Council of State itself. In 2020, TIM obtained the return of amounts paid by way of sanction.

Following analysis, in a letter dated April 2, 2021, AGCM (the Italian Competition Authority) reported that it had archived case I761.

Vodafone (I761)

With a writ of summons before the Milan Court, Vodafone has sued TIM and some network companies, bringing claims for compensation from the Company for around 193 million euros for damages arising from alleged anti-competitive conduct censured in the known AGCM case I-761 (on corrective maintenance) referring to the period from 2011 to 2017.

Vodafone contests the alleged breach of the competition rules carried out by TIM, in the wholesale markets giving access to its fixed network (LLU lines; Bitstream; WLR), through the abuse of a dominant market position and an unlawful agreement with the maintenance companies to maintain the monopoly on the offer of corrective maintenance services on its network. Specifically, the restrictive agreement allegedly concerned the coordination, by the Company, of the economic terms and conditions contained in the bids for maintenance services prepared by the aforementioned companies for OAOs, with artificially high prices with respect to the cost of the maintenance included in the regulated access fee, with a view to discouraging the disaggregation of the service itself. The Company filed an appearance, contesting all of the other party's requests. The case was settled as part of a global settlement with Vodafone.

Antitrust Case A514

In June 2017 the Italian Competition Authority (AGCM) started proceedings A514 against TIM, to ascertain a possible abuse of its dominant market position in breach of article 102 of the "Treaty on the Functioning of the European Union". The proceedings were started based on some complaints filed in May and June 2017, by Infratel, Enel, Open Fiber, Vodafone and Wind Tre, and concerns a presumed abuse of TIM's dominant position in the market for wholesale access services and for retail services using the broadband and ultra-broadband fixed network. In particular, AGCM (the Italian Competition Authority) hypothesized that TIM had adopted conduct aimed at: i) slowing and hindering the course of the Infratel tender processes so as to delay, or render less remunerative the entry of another operator in the wholesale market; ii) preemptively securing customers on the retail market for ultra-broadband services by means of commercial policies designed to restrict the space of customer contendibility remaining for the competitor operators.

After the start of the proceedings, the Authority's officials carried out an inspection at some of TIM's offices in the month of July 2017. On November 2, 2017, TIM filed a defense brief in which, in support of the correctness of its actions, it challenged all the arguments that the conduct it had allegedly engaged in, and which was the subject of the case, was unlawful.

On February 14, 2018, AGCM (the Italian Competition Authority) resolved to extend the scope of the case to investigate further behavior concerning TIM's wholesale pricing strategy on the market for wholesale access to broadband and ultra-broadband, and the use of the confidential information of customers of the alternative operators.

On July 5, 2018 TIM filed proposed undertakings which, if accepted by the Authority, would close the investigation without any offense being established or sanction being administered. The undertakings were considered as admissible by the Authority, that market tested them in August and September.

On October 30, 2018, TIM replied to observations made by third parties and modified its proposed undertakings. With its decision notified on December 4, 2018, AGCM (the Italian Competition Authority) once and for all rejected the proposed series of undertakings as it considered them unsuitable in light of the objections raised.

On March 4, 2019, TIM requested AGCM (the Italian Competition Authority) for an extension of the deadline for closing the proceedings (initially set for May 31, 2019).

On April 10, 2019, AGCM (the Italian Competition Authority) resolved to extend the deadline for conclusion of the proceedings until September 30, 2019. On May 17, 2019, AGCM (the Italian Competition Authority) notified TIM of the results of the investigation (CRI). In the CRI, AGCM (the Italian Competition Authority) essentially confirmed the case for the prosecution outlined in the start-up and extension of the proceedings orders.

On June 12, 2019 AGCM (the Italian Competition Authority) extended the deadline for deposit of TIM's final defense to September 20, 2019 and set the final hearing for September 25, 2019.

On September 18, 2019, AGCM (the Italian Competition Authority) resolved to extend the deadline for conclusion of the proceedings until February 28, 2020.

On March 6, 2020, TIM was notified of the decision to close the investigation: AGCM (the Italian Competition Authority) ruled that TIM had abused its dominant position, finding that TIM had put in place an anti-competitive strategy designed to hinder the competitive development of investment in ultrabroadband network infrastructure.

The fine imposed on TIM for the anti-competitive offense is 116,099,937.60 euros. TIM appealed the aforementioned fine before the Lazio Regional Administrative Court (TAR). By judgment given on February 28, 2022, the Lazio Administrative Court rejected TIM's appeal; it now intends to bring an appeal before the Council of State by the legal deadline.

On June 25, 2020 TIM sent AGCM (the Italian Competition Authority) the so-called compliance report as ordered in the final provision. The hearing before the Lazio Regional Administrative Court was held on November 3, 2021. The Company is awaiting the judgement.

In May 2021, the Company paid the fine.

Open Fiber

In March 2020, Open Fiber (OF) sued TIM before the Court of Milan, claiming damages of 1.5 billion euros for alleged abuse of an exclusive and dominant position in relation to OF. The alleged actions consist of: (i) pre-emptive investments in FTTC networks in white areas; (ii) initiating specious legal action to obstruct Infratel tenders; (iii) spurious repricing of certain wholesale services; (iv) commercial lock-in offers on the retail market; (v) false disclosure to AGCom in connection with the approval of a wholesale offer and spreading rumors about TIM being interested in acquiring OF; (vi) discriminatory access conditions to TIM passive infrastructure. TIM filed an appearance, contesting the arguments of OF. Enel S.p.A. intervened in the proceedings, asking that TIM be ordered to compensate all damages suffered and being suffered by Enel and OF. During the course of the proceedings, this amount was increased to 2.6 billion euros.

Vodafone

In January 2021, Vodafone Italia S.p.A. summonsed TIM to the Court of Milan, making a claim for damages of approximately 100 million euros for damages allegedly suffered as a consequence of the unlawful conduct of TIM, as sanctioned by the AGCM (the Italian Competition Authority), with the provision that concluded case A514.

The conduct of TIM sanctioned by the Authority allegedly resulted in a slowing of the penetration of UBB infrastructures on the market of white areas and, consequently, the delayed or failed acquisition of new customers by Vodafone, as well as a hindrance to acquiring additional customers as a result of the alleged binding practices over the whole of national territory. TIM will file an appearance with a series of solid legal arguments for its own protection. The case was settled as part of a global settlement with Vodafone.

Fastweb

In February 2021, Fastweb S.p.A. summonsed TIM to the Court of Milan, making a claim for damages of approximately 996 million euros for damages allegedly suffered as a consequence of the unlawful conduct of TIM, as sanctioned by AGCM (the Italian Competition Authority), with the provision that concluded case A514, as well as allegedly opportunistic suspensions of activation orders sent by Fastweb.

Fastweb complains that TIM allegedly delayed the wholesale offer of ultrabroadband services by Open Fiber in the white areas, consequently slowing the offer of said services by Fastweb to its end customers in these areas; binding practices were implemented in relations with the end customer, hindering access to the market by alternative operators (including Fastweb). In addition, TIM allegedly instrumentally managed the supply process of wholesale access services to its fixed broadband and ultrabroadband network, opportunistically suspending the activation orders submitted by Fastweb and thereby hindering its activation of new customers. TIM filed an appearance laying out solid arguments refuting Fastweb's claims. In August 2021, the case was settled as part of a settlement with Fastweb.

Antitrust Case I799

At its meeting on February 1, 2017, AGCM (the Italian Competition Authority) initiated an investigation for possible breach of Article 101 of the TFEU (prohibition of agreements that restrict competition) against TIM S.p.A. and Fastweb S.p.A., following the signing of an agreement aimed at setting up a cooperative joint venture called Flash Fiber S.r.l.. TIM, in agreement with Fastweb, submitted to AGCM (the Italian Competition Authority) some amendments to the agreements signed, in the form of proposed undertakings, aimed at closing the investigation without any breach being ascertained and, therefore, without any fine.

On March 28, 2018, AGCM (the Italian Competition Authority) resolved to approve the undertakings, making them binding on the Parties, and closed the case without imposing any fine.

On January 30, 2019, TIM sent the planned annual report on the provided coverage to AGCM (the Italian Competition Authority), supplemented by a subsequent communication dated March 29, 2019. TIM transmitted further details to AGCM (the Italian Competition Authority) in July and AGCM acknowledged it on October 15, 2019. On January 31, 2020 TIM sent AGCM (the Italian Competition Authority) the third report on the implementation of the undertakings given. Finally, on January 29, 2021 TIM sent AGCM (the Italian Competition Authority) the fourth and final report on the implementation of the undertakings given.

On June 11, 2018 Open Fiber S.p.A. and Wind Tre S.p.A. filed separate appeals to the Lazio Regional Administrative Court (TAR) against the order closing case I799 with the acceptance of the undertakings. They allege that this order has a series of procedural and substantial defects.

Open Fiber S.p.A. also asked for the precautionary suspension of the order.

In a ruling of March 2020, the Regional Administrative Court rejected in full the appeal by Open Fiber. A hearing on the merits has not yet been scheduled for Wind Tre's appeal.

Vodafone

In June 2015 Vodafone issued proceedings for damages in the Milan Court for alleged abuse of a dominant position by TIM in the bitstream "NGA" and "VULA" fiber access services market, initially claiming around 4.4 million euros, increased to a figure ranging from 30 to 48.9 million euros.

The plaintiff complained that TIM allegedly had engaged in abusive conduct by way of aggressive price offers to win customers and by hindering Vodafone's access to the fiber network to make it more difficult for the party to provide ultra-broadband services to its customers.

TIM has filed an appearance, challenging the claims of the plaintiff in full and, subsequently, the revised estimate of damages made in 2016 during the case. The case was settled as part of a global settlement with Vodafone.

Eutelia and Voiceplus

In June 2009, Eutelia and Voiceplus asked that alleged acts of abuse by TIM of its dominant position in the premium services market (based on the public offer of services provided through so-called Non Geographic Numbers) be investigated. The complainants quantified their damages at a total of approximately 730 million euros.

The case follows a precautionary procedure in which the Milan Appeal Court prohibited certain behaviors of the Company relating to the management of some financial relations with Eutelia and Voiceplus concerning the Non Geographic Numbers, for which TIM managed the payments from the end customers, on behalf of such OLOs and in the light of regulatory requirements. After the ruling with which the Milan Court of Appeal accepted TIM's objections, declaring that it was not competent in this matter and referring the case to the Civil Court, Eutelia in extraordinary administration and Voiceplus in liquidation resubmitted the matter to the Milan Court. The first hearing took place in the month of March 2014. TIM filed an appearance challenging the claims of the other parties. After the collapse of Voiceplus, the Milan Court declared the case suspended, in an order in September 2015. The case was later resumed by Voiceplus.

With a judgment issued in February 2018, the Milan Court accepted TIM's defense and rejected the plaintiffs' claim for compensation, ordering them, jointly and severally, to pay the legal costs. In March 2018 Eutalia and Voiceplus proposed an appeal against the judgement in the first instance.

TIM appealed against the claim, requesting confirmation in full of the judgment in the first instance. The appeal of Eutelia and Voiceplus was fully rejected with the judgment of August 5, 2019. In December 2019 Eutelia and Voiceplus appealed to the Court of Cassation over the judgment of the Court of Appeal. TIM notified a counterclaim asking confirmation of the ruling appealed against.

28-day billing

AGCom resolution 121/17/CONS introduced instructions on billing intervals for telephony, prescribing, for fixed telephony, that the interval should be monthly, or multiples thereof, and, for mobile telephony, that it should be at least four-weekly. TIM appealed Resolution 121/17/CONS to the Regional Administrative Court. The judgment rejecting the appeal was published in February 2018. TIM appealed this judgment to the Council of State in June 2018. On September 23, 2020, the non-definitive ruling was published whereby the Council of State joined the appeals submitted by TIM, Vodafone, Fastweb and Wind Tre and ordered the prejudicial deferral to the European Union Court of Justice (EUCJ) on whether or not the Authority had the power to regulate the frequency of renewal of the commercial offers and invoicing periods, at the same time rejecting the other grounds of appeal submitted by the operators and suspending proceedings. In February 2021, TIM deposited the written observations on the requests for prejudicial judgment with the EUCJ. At the request of the CJEU, the Council of State, in an order published on November 23, 2021, confirmed the referral to the Court of Justice on the preliminary questions raised; the proceedings before the Council of State therefore remain suspended pending the CJEU's decision.

With its Resolution 499/17/CONS, having confirmed the breach of Resolution 121/17/CONS, AGCom fined TIM 1,160,000 euros, ordering it to make provision – when the billing cycle was restored to monthly intervals or multiples thereof – to return the amounts corresponding to the fee for the number of days that, from June 23, 2017, had not been used by the users in terms of the supply of service due to the misalignment of the four-weekly and monthly billing cycles.

In March 2018 with resolution no. 112/18/CONS AGCom (i) revoked the preceding resolution 499/17/CONS in the part in which TIM was ordered to repay the amounts presumably lost from June 23, 2017 onwards, with the four-weekly billing cycle, (ii) cautioned TIM, with regard to fixed-line voice services only, against postponing the starting date of invoices issued after the return to monthly invoicing by the same number of days as those presumably deducted starting from June 23, 2017 with the four-weekly invoicing cycle.

Under Presidential Decree 9/18/PRES, AGCom amended the provisions of Decision 112/18/CONS requiring the deferment of billing once the billing cycle was restored to monthly intervals, or multiples thereof, while also ordering that the timescales for complying with the order would be identified after hearings with the operators and the main consumer protection associations.

In July 2018, AGCom issued resolution 269/18/CONS, with which it set December 31, 2018 as the date by which the operators had to return to their fixed network customers a number of days of service equal to those eroded as an effect of 28-day billing, or propose to the affected customers any alternative compensatory measures, after having notified them to AGCom. TIM has appealed all of the above resolutions.

With the judgment published in November 2018, the TAR canceled the pecuniary administrative sanction of 1.16 million euros imposed with Resolution 499/17/CONS, and confirmed the obligation of restitutio in integrum to the fixed-line customers by December 31, 2018. TIM filed its preventive appeal before the Council of State to suspend the execution of said decision and, with its ruling of December 20, 2018, the Council of State, in

upholding TIM's appeal, suspended the effectiveness of the aforesaid decision for the reversal order only, until May 21, 2019 while awaiting publication of the grounds for the judgment.

The date of the hearing to discuss the introductory appeal and additional grounds submitted in the meantime by TIM is still to be set. On July 12, 2019 the ruling mechanisms with which the Council of State rejected the similar appeals made by Vodafone, Wind Tre and Fastweb were published and in February 2020 the judgments containing the grounds were published.

In September 2019, TIM also challenged resolution 221/19/CONS, before the Regional Administrative Court (TAR), with which the sanction pursuant to Resolution 499/17/CONS, canceled by the Regional Administrative Court of Lazio, was recalculated to the amount of 580,000.00 euros, with the maximum fine provided for by Art. 98, paragraph 16 of the CCE in force at the time of the events applied.

In August 2019, AGCom initiated new proceedings (CONT 12/19/DTC) for failure to comply with the order to refund the days eroded by billing every 28 days for fixed network and convergent customers, according to the procedures established with resolutions nos. 112/18/CONS and 269/18/CONS. On conclusion of these proceedings, by means of Resolution 75/20/CONS, the Authority found that TIM did not comply with the above resolutions, imposing a fine of 3 million euros. The measure was challenged by TIM before the TAR in July 2020.

Moreover, since June 2019, TIM has offered its fixed network customers, active prior to March 31, 2018 and subject to billing every 28 days, the possibility of accepting a compensatory solution, an alternative to refunding the eroded days pursuant to AGCom resolution no. 269/18/CONS and from September 2019 it has been accepting requests for reimbursement of eroded days. In both cases, TIM informed customers with several messages in the bill, on the web in the main newspapers. The initiatives just described were communicated to AGCom as part of the aforementioned penalty proceedings.

In the civil proceedings, by judgment published on October 14, 2021 the Court of Milan, under the scope of the case on the merits brought by Associazione Movimento dei Consumatori in 2018 regarding the pricing and 28-day renewal for fixed line and converging offers, confirmed the order given on 6/4/2018 by the same Court upon closure of the complaint brought by TIM pursuant to Art. 669 terdecies of the Italian Code of Civil Procedure and the measures set out therein, ordering TIM to fulfill the requests for repayment of amounts paid as a result of customer maneuvers - including discontinued, as indeed TIM had already been doing since 2018, at the same time also extending the period relevant to the recognition of the reimbursement through to April 1, 2017 and therefore earlier than June 23, 2017, the date on which the operators had to comply with Resolution no. 121/17/CONS. TIM has appealed the sentence of the Court of Milan, at the same time filing an request for suspension of its enforcement. With order of January 11, 2022, the Court of Appeal of Milan partially accepted TIM's request, suspending the charge in the judgment relating to the order to send a registered letter to all discontinued consumer customers that were subject to billing every 28 days to inform them of the possibility to obtain a refund of the additional amounts paid as a result of the maneuver.

Antitrust Case I820

On February 19, 2018, AGCM (the Italian Competition Authority) initiated a I820 preliminary proceeding against the companies TIM, Vodafone, Fastweb, Wind Tre and the industry association ASSTEL to investigate the alleged existence of an agreement among the major fixed-line and mobile telephone operators to restrict competition by coordinating their respective commercial strategies, in breach of Art. 101 of the TFUE.

The presumed coordination, according to the opening provision of the proceedings by AGCM (the Italian Competition Authority), would take the form of implementation of the obligation introduced by Article 19-quinquiesdecies of Legislative Decree 148/2017 (converted by Law 172/2017) which requires operators of electronic communication services to send out monthly (or monthly multiples) bills and renewed offers for fixed and mobile services.

On March 21, 2018, AGCM (the Italian Competition Authority) issued a provisional precautionary measure against all the operators involved in the proceedings with which it ordered the suspension, pending the proceedings, of the implementation of the agreement concerning the determination of repricing communicated to users at the time of reformulating the billing cycle in compliance with Law 172/17 and to independently redetermine its commercial strategy. With its decision no. 27112 of April 11, 2018, AGCM (the Italian Competition Authority) confirmed the precautionary measure.

On June 12, 2018, TIM filed an appeal with the TAR for the quashing of said measure.

On January 31, 2020, TIM was notified of the decision to close the investigation, in which AGCM (the Italian Competition Authority) confirmed the existence of the agreement between Telecom, Vodafone, Fastweb, WindTre, but excluding Asstel from participation in the agreement. The fine imposed on TIM for participation in the anti-competitive agreement was 114,398,325 euros. In April 2020, TIM also challenged the sanction order.

In a ruling published on July 12, 2021, the Lazio Regional Administrative Court upheld the petition and the grounds added and submitted by TIM, canceling the measures taken by AGCM (the Italian Competition Authority), including that relating to the existence of the agreement and application of the sanction.

On September 11, 2021, AGCM (the Italian Competition Authority) presented a petition to the Council of State, requesting the cancellation of the judgment given by the regional administrative court.

Antitrust Case I850

By decision given on December 15, 2020, the Italian Competition Authority (AGCM) started an investigation in regard to the company Telecom Italia S.p.A., Fastweb S.p.A., Teemo Bidco S.r.l., FiberCop S.p.A., Tiscali Italia S.p.A. and KKR & Co. Inc., to ascertain the existence of any breaches of article 101 of the TFEU.

More specifically, the investigation regards the contracts governing the establishment and operation of FiberCop and the supply agreements with Fastweb and Tiscali. AGCM (the Italian Competition Authority)

intends to verify that such agreements do not hinder competition between operators in the medium and long-term and assure the rapid modernization of the country's fixed telecommunications infrastructures.

On August 6, 2021, TIM submitted a proposal of undertakings to AGCM (the Italian Competition Authority) in order to resolve the competition concerns subject of the investigation and close the proceedings without any sanction being applied.

On September 7, 2021, AGCM (the Italian Competition Authority) judged these undertakings to not be clearly unfounded and ruled publication on the Authority's website from September 13, 2021; thus market testing began and was completed by October 13, 2021, the date by which all subjects so wishing submitted their observations to AGCM in respect of the relevant undertakings.

On December 14, 2021 AGCM (the Italian Competition Authority) extended the deadline for the conclusion of the proceedings, initially set for December 31, 2021, to February 15, 2022.

Precisely during the meeting held on February 15, 2022, AGCM finally resolved to approve the undertakings insofar as they were considered suitable to eliminate the alleged anti-competition aspects investigated and made them mandatory for the parties without assessing the alleged charges and without sanctions.

Antitrust Case I857

On July 6, 2021, AGCM (the Italian Competition Authority) started an investigation in regard to TIM and DAZN for a possible understanding reached with a view to restricting competition in connection with the agreement for the distribution and technological support for TV rights for Serie A football in the 2021-2024 period.

The investigation also aims to verify the restrictive nature of the understanding with reference to additional elements regarding the possible adoption by TIM of technical solutions not available for competitor telecommunications operators and which may effectively hinder the adoption of their own technological solutions.

The proceedings are expected to end by June 30, 2022.

At the same time, the Authority has also initiated proceedings for the potential adoption of protective measures.

By resolution passed on July 27, 2021, AGCM (the Italian Competition Authority) closed the interim proceedings, considering that the initiatives and amendments to the agreement proposed by TIM and DAZN in the meantime are presently able to prevent any serious and irreparable damage to competitors while investigations are completed.

Indeed, said measures aim, as a whole, to avoid possible discrimination in the use of the DAZN service, due to its activation by users using Internet connection services other than those offered by TIM. In addition, the agreement between TIM and DAZN has been amended to guarantee DAZN complete freedom in applying discounts and promotions. TIM has also undertaken to provide DAZN with a sufficient number of white label set-top-boxes to also guarantee DAZN customers the viewing of matches over digital terrestrial TV, in the event of connection problems.

Finally, TIM has undertaken to supply wholesale services to OAOs interested therein to manage traffic peaks deriving from live data transmissions, regardless of the type of contents transmitted.

On October 29, 2021 TIM submitted a proposal for undertakings to AGCM (the Italian Competition Authority) with a view to resolving the competitive concerns that were the subject of the investigation and closing the proceedings without the finding of any infringement and therefore without any sanction being applied.

On December 14, 2021, AGCM (the Italian Competition Authority) approved the publication of the aforementioned proposal for undertakings on the Authority's website, as these undertakings, taken as a whole, do not appear to be manifestly unfounded and are capable of removing the restrictions to competition hypothesized in the measure initiating the investigation in question.

On January 5, 2022, with the aforementioned publication on the AGCM website, the so-called market test began, which will end on February 4 next, the date by which all interested parties will be able to send the Authority their comments on the undertakings in question.

Antitrust Case PS10888 "TIM Passepartout"

On June 15, 2021, AGCM (the Italian Competition Authority) initiated proceedings for unfair commercial practice concerning the lack of transparency of the information provided by the TIM Passepartout payment management platform and alleged activations of services not requested. The proceedings have been initiated on the basis of reports made by individual consumers and should draw to a close in March 2022. On July 29, 2021, undertakings were submitted, thereafter supplemented on February 08, 2022, that, if accepted, will allow the proceedings to close without any findings of infringement and, therefore, without any application of sanctions. The undertakings consist of improving information aspects of the TIM Passepartout platform (active only for Customer Base offers) and implementing a communication campaign aimed at soliciting contact from those who do not recognize the TIM Passepartout charges in order to assess whether there are grounds for a refund. The procedure will be completed by the end of May 2022.

Vodafone Dispute – Universal Service

In a decision published in July 2015, the Council of State rejected the appeal lodged by AGCom and TIM against the judgment of the Lazio Administrative Court (TAR) on the financing of the universal service obligations for the period 1999–2003. With this judgement the judge had granted the appeals by Vodafone, annulling AGCom decisions 106, 107, 109/11/CONS on the renewal of the related proceedings, which included Vodafone among the subjects required to contribute, for a sum of approximately 38 million euros. Essentially, the judgement confirms that the Authority has not demonstrated the particular degree of "replaceability" between fixed and

mobile telephony for mobile operators to be included among the subjects required to repay the cost of the universal service, which means that AGCom needs to issue a new ruling.

TIM has filed an application with AGCom to renew the proceedings, and an appeal against the judgement of the Court of Appeal to the Court of Cassation (which subsequently ruled that the appeal was inadmissible).

In April 2016 Vodafone appealed against the Ministry of Economic Development (MISE) and TIM to the Council of State, for non-compliance with the judgment of the Council of State. This appeal referred to AGCom decision 109/11/CONS (2003 yearly payment, on the basis of which Vodafone had paid the sum of approximately 9 million euros as contribution, restitution of which was requested).

In its judgment of November 2016, the Council of State rejected the appeal, referring to the Regional Administrative Court (TAR) the decision on the methods of compliance. In February 2017, Vodafone presented the Lazio Regional Administrative Court with four new appeals against the Ministry of Economic Development and TIM regarding observance of the ruling, upheld on appeal, countermanding the resolutions for the years 1999–2003 and repayment of the aforesaid amounts of around 38 million euros already paid to the Ministry of Economic Development as a contribution.

With a judgment issued in June 2018, the TAR rejected all of Vodafone's appeals for observance, and, as requested by TIM, expressly affirmed that AGCom must renew the proceedings, particularly with regard to the determination of the degree of replaceability between fixed and mobile telephony. Vodafone challenged the four judgments before the Council of State, which, with a decision of October 2019, upheld Vodafone's appeal and confirmed the restitutory obligation of the sums in question applicable to TIM.

With resolution no. 263/20/CIR, AGCom started proceedings to renew the investigation into the iniquity of the net cost of the universal service for 1999-2009. Vodafone has challenged this resolution before the Regional Administrative Court. The renewal proceedings concluded with resolution 18/21/CIR, which substantively confirmed the draft order. This resolution has only been challenged by TIM for the years 1999 and 2000, while Vodafone, Wind and Fastweb have challenged the resolution for all years concerned. By judgments published in February 2022, resolution 18/21/CIR was partially canceled. Assessments are currently in progress regarding whether it is appropriate or not to submit an appeal.

Dispute relative to "Adjustments on license fees" for the years 1994-1998

With regard to the judgements sought in previous years concerning the Ministry of Communications' request for payment of the balance of the amounts paid in concession charges for the years 1994-1998 (for a total of 113 million euros), the Administrative Court (TAR) for Lazio rejected the Company's appeal against the request for adjustment of the license fee for 1994 in the amount of approximately 11 million euros, 9 million euros of which against turnover not received due to bad debts. TIM lodged an appeal. On the outcome of proceedings, with the ruling of December 2019, the Council of State partially accepted TIM's position, establishing the principle, according to which, the receivables referring to 1994 not collected for reasons not attributable to the operator, could have been deducted from the tax base for calculating the concession fee.

With two further judgements the Administrative Court (TAR) for Lazio, reiterating the reasons expressed previously, also rejected the appeals in which the Company challenged the requests for payment of outstanding balances of license fees for the years 1995 and 1996-1997-1998, in the amount of approximately 46 million euros. TIM has appealed before the Council of State also against these judgements.

With reference to the 1998 fee adjustment (equal to about 41 million), the Lazio TAR, by TAR order of December 2018, suspended the judgment, raising preliminary questions with the EU Court of Justice on the correct scope of EC Directive no. 97/13 (in the matter of general authorizations and individual licenses in the field of telecommunications services on the basis of the currently pending litigation on the 1998 license fee, currently pending before the Rome Court of Appeal and illustrated in a subsequent paragraph).

The referred questions were based, inter alia, on the question posed to the Court of Justice on the possible conflict between the aforementioned EC Directive 97/13 and national law, which extended the obligation for telecommunications license-holders to pay the license fee for 1998 (commensurate with a portion of turnover), despite the liberalization process underway. In its judgment of March 2020, the EU Court of Justice held that the EU regulatory system must be interpreted as not allowing national legislation to extend to 1998 the obligation imposed on a telecommunications undertaking that was previously the concession holder (such as TIM) to pay a fee calculated on the basis of turnover and not only the administrative costs connected with the granting, management, control and implementation of the general authorizations and individual licenses scheme. The Court held, inter alia, that the Council of State – having held in its judgment 7506/2009 that the fee imposed for 1998 on TIM, the holder of an authorization existing on the date of entry into force of Directive 97/13, was due – interpreted national law in a way that was incompatible with EU law, as interpreted by the Court in its judgment of February 21, 2008. Following the judgment of the EU Court of Justice, the opinion on the final calculation of the 1998 charges was summarized before the Lazio Regional Administrative Court, which, in a judgment given last February, declared TIM's appeal as unacceptable for procedural reasons, namely due to the prevalence of the formal ruling consisting of judgment no. 7506/09; in substantive terms, on the other hand, the judgment of the EU Court of Justice once again ascertained the European Community unlawful nature of the credit claim by the PA to obtain payment of the 1998 charges and, consequently, the final balance. The company has challenged the judgment of the Lazio Regional Administrative Court.

Poste

There are some pending actions brought, at the end of the '90s, by Ing. C. Olivetti & C. S.p.A. (now TIM) against Poste, the Italian postal service, concerning non-payment of services delivered under a series of contracts to supply IT goods and services. The judgements issued in the lower courts established an outcome that was partially favorable to the ex-Olivetti, and have been appealed against by Poste in individual rehearings.
In this respect, while a 2009 judgement of the Rome Appeal Court confirmed one of the outstanding payables to TIM, another judgement by the same Court declared void one of the disputed contracts. After this judgement, Poste had issued a writ for the return of approximately 58 million euros, opposed by TIM given that the judgement of the Supreme Court for amendment of the above judgement is still pending.

After the 2012 judgement of the Supreme Court that quashed and remanded the decision of the Appeal Court on which the order was based, the Rome Court declared that the matter of issue in the enforcement proceedings was discontinued, since the claim made by Poste had been rejected. The judgement was resubmitted to another section of the Rome Appeal Court. In ruling no. 563 of January 25, 2019, the Rome Court of Appeal at the time of proceedings, reversing the Company's previous unfavorable appeal, confirmed the contract's validity and, with it, the legitimacy of TIM's view of the amount already collected, of which Poste had requested reimbursement. This ruling was challenged by Poste with appeal filed with the Court of Cassation, notified on July 31, 2019, which TIM challenged with relevant counter appeal.

Elinet S.p.A. Bankruptcy

In 2014, the trustees in the bankruptcy of Elinet S.p.A., and subsequently the trustees of Elitel S.r.l. and Elitel Telecom S.p.A. (the parent, at the time, of the Elitel group) appealed the judgment by which the Court of Rome dismissed the damages claim brought by the trustees of the Elinet-Elitel group, filing a new damages claim for a total of 282 million euros. The Company is alleged to have exercised management and control powers over the plaintiff, and, with it, over the Elitel group (an OLO in which TIM has never held any equity interest) through the management of trade receivables. TIM filed an appearance, challenging the claims made by the other party. The judgment on the appeal was handed down with ruling in July 2019, which with reference to TIM confirmed full legality of its conduct and total non-existence of any element of management and coordination. The receivers of Elinet S.p.A. and Elitel Telecom S.p.A. appealed to the Court of Cassation in January 2020 to obtain the annulment of the judgment in the second instance. The receiver of Elitel S.r.l. has not filed an appeal with the Court of Cassation and, consequently, the total claim for damages has been reduced to 244 million euros. TIM notified a counterclaim asking confirmation of the ruling appealed against.

Brazil - Opportunity Arbitration

In May 2012, TIM and Telecom Italia International N.V. (now merged in Telecom Italia Finance) were served with a notice of arbitration proceedings brought by the Opportunity group, claiming compensation for damages allegedly suffered for presumed breach of a settlement agreement signed in 2005. Based on the claimant's allegations, the damages relate to circumstances that emerged in the criminal proceedings pending before the Milan Court regarding, *inter alia*, unlawful activities engaged in by former employees of TIM.

The investigatory phase having been completed, the hearing for oral discussion took place in November 2014, after which the parties filed their concluding arguments in preparation for the decision on the case.

In September 2015, the Board of Arbitration declared the proceedings closed, as the award was going to be filed.

In September 2016 the ICC Court notified the parties of its judgment, based on which the Court of Arbitration rejected all the claims made by the Opportunity group and decided that the legal costs, administrative costs and costs for expert witnesses should be split between the parties (the "2016 Arbitration Award").

In April 2017 the Opportunity group filed an appeal against the 2016 Arbitration Award before the Paris Court of Appeal.

In November 2017, TIM and Telecom Italia Finance received from the Secretariat of the ICC's International Court of Arbitration notice of a Request for Revision of the 2016 Arbitration Award, filed by the Opportunity group, asking for a new award. A Board of Arbitration was subsequently established.

In October 2018, TIM and Telecom Italia Finance requested proceedings with the Paris Court of Appeal to be suspended, in the light of proceedings pending with the Court of Arbitration of the International Chamber of Commerce to review the same 2016 Arbitration Award. In November 2018, the Paris Court of Appeal suspended the proceedings until the decision is taken by the Court of Arbitration in the review proceedings.

As regards the proceedings to review the 2016 Arbitration Award, in October 2019 the ICC held the discussion hearing in Paris. In August 2020, the Arbitration Court issued the award rejecting the Request for Revision presented by the Opportunity Group (the "2020 Arbitration Award"). In December 2020, the Opportunity group filed an appeal against the 2020 Arbitration Award before the Paris Court of Appeal. In May 2021 the Opportunity group asked the Paris Court of Appeal to summarize the proceedings brought against the 2016 Arbitration Award.

Iliad

By summons served during the first quarter of 2020, Iliad Italia S.p.A. sued TIM before the Court of Milan for alleged anti-competitive conduct, including through the Kena Mobile brand, which was allegedly aimed at hindering its entry to and consolidation in the mobile phone market in Italy, seeking damages of at least 71.4 million euros.

TIM filed an appearance, fully disputing the requests of Iliad Italia S.p.A.; and, in turn, submitting a counterclaim in accordance with Art. 2598 of the Italian Civil Code, with reference to the denigration implemented by Iliad Italia S.p.A. in regard to TIM and formulating a symmetrical claim for compensation for damages. In the first preliminary brief, Iliad updated its claim for damages, taking it to 242.8 million euros. Upon lifting the reservation on the preliminary motions, the Court adjourned the hearing to May 4, 2022 for the closing arguments.

Iliad

By writ of summons notified in September 2021, Iliad Italia S.p.A. summonsed TIM before the Court of Milan for the alleged application to customers of unlawful contractual conditions in terms of time limits and economic costs for withdrawal with reference to mobile and fixed telephone offers, with a consequent petition to order TIM to compensate damages, currently quantified as 120.4 million euros. On February 1, 2022, the first hearing was held and the terms assigned for the briefs pursuant to article 183, subsection VI of the Italian Code of Civil Procedure.

T-Power

By writ of summons notified in December 2021, T-Power s.r.l., former Agent for the consumer sector, summonsed TIM before the Court of Rome to have the right acknowledged to receive payment of a total maximum amount of approximately 85 million euros by way of commission, compensation in lieu of notice and termination of employment, as well as compensation for damages. The first hearing is scheduled for April 27, 2022.

b) Other information

Mobile telephony - criminal proceedings

In March 2012 TIM was served notice of the conclusion of the preliminary inquiries, which showed that the Company was being investigated by the Public Prosecutor of Milan pursuant to the Legislative Decree n. 231/2001, for the offenses of handling stolen goods and counterfeiting committed, according to the alleged allegations, by fourteen employees of the so-called “ethnic channel”, with the participation of a number of dealers, for the purpose of obtaining undeserved commissions from TIM.

The Company, as the injured party damaged by such conduct, had brought two legal actions in 2008 and 2009 and had proceeded to suspend the employees involved in the criminal proceedings (suspension later followed by dismissal). It has also filed an initial statement of defense, together with a technical report by its own expert, requesting that the proceedings against it be suspended, and that charges of aggravated fraud against the Company be brought against the other defendants. In December 2012, the Public Prosecutor's Office filed a request for 89 defendants and the Company itself to be committed for trial.

During the preliminary hearing, the Company was admitted as civil party to the trial and, in November 2013, the conclusions in the interest of the civil party were filed, reaffirming TIM's total lack of involvement in the offenses claimed.

At the end of the preliminary hearing, which took place in March 2014, the Judge for the Preliminary Hearing committed for trial all the defendants (including TIM) who had not asked for their situation to be settled with alternative procedures, on the grounds that “examination in a trial” was needed. In April 2016, at the end of the first part of the trial, the Public Prosecutor asked for TIM to be sentenced to pay an administrative fine of 900 thousand euros, but decided not to ask for confiscation of any of the presumed profits of the offenses (quantified in the committal proceedings as totaling several million euros), based on the assumption that TIM had in any event remedied the presumed organizational inadequacies. While acknowledging the considerable redimensioning of the accusations, the Company has reiterated its total non-involvement in the facts at issue. In November 2016 the Court gave a verdict acquitting the Company on the grounds that there was no case to answer. All the individuals charged were also acquitted on various grounds.

The Public Prosecutor appealed the acquittal and appealed to the Court of Cassation "per saltum”. In January 2019, the Italian Supreme Court of Cassation agreed to the appeal and therefore ordered that the documents of the proceedings be sent to the Milan Court of Appeal.

The proceedings were assigned to Chambers IV of the Milan Court of Appeal and are awaiting scheduling of the hearing.

Dispute concerning the license fees for 1998

TIM has issued civil proceedings against the office of the Prime Minister for compensation of the damage caused by the Italian State through appeal judgement no.7506/09 by the Council of State that, in the view of the Company, violates the principles of current European community law.

The main claim which the proceedings are founded on is based on community jurisprudence that recognizes the right to assert the responsibility of the State in relation to violation of rights recognized in community law and injured by a judgement that has become definitive, in respect of which no other remedy may be applied. The judgement of the Council of State definitively denied TIM the right to obtain restitution of the concession charge for 1998 (totaling 386 million euros for Telecom Italia and 143 million euros for the former TIM Company, plus interest), already denied by the Lazio regional administrative court despite the favorable and binding opinion of the European Court of Justice in February 2008. This judgement concerned the conflict between EC Directive 97/13 on general authorizations and individual licenses in the telecommunications services industry, and the national regulations that had deferred, for 1998, the obligation to pay the fee payable by telecommunications concession holders, despite the intervening deregulation process. The Company then proposed an alternative compensation claim, within the sphere of the same proceedings, for tort pursuant to art. 2043 of the Italian Civil Code. The compensation claimed has been quantified as approximately 529 million euros, plus legal interest and revaluation. The Avvocatura di Stato filed an appearance and submitted a counterclaim for the same sum. The case is subject to eligibility analysis by the Court, which declared the inadmissibility of TIM's main claim (case for damages for manifest breach of community law pursuant to law 117/88). However, this decision was amended in favor of the Company on appeal. In March 2015 the Rome Court issued its judgement in the first instance, declaring the Company's application inadmissible.

In 2015, TIM has appealed the decision, and the case is now pending the hearing specifying the nature of the forms of order sought. The Court of Appeal has scheduled the hearing for closing arguments for April 2, 2019. Thereafter, without any new procedural activities having taken place, the Court of Appeal incontrovertibly deferred the hearing for closing arguments first to 2020 and then to 2021 (from when the terms for conclusion and replies shall run, which will be followed shortly thereafter by the issue of the judgment). These deferrals were followed by the latest, of January 15, 2021, scheduling the new hearing for January 25, 2022.

On the matters underlying the case, the following must be noted:

- on the considered lack of jurisdiction of the Court of Rome (concerned by the judgment of the Court of Rome appealed by TIM) to judge the liability of the Italian government for the work of senior magistrates (in the case in point, the Council of State), which would have led to the declared inadmissibility of the claim in accordance with Art. 5, law no. 117/1978 (old text) - the United Chambers of the Court of Cassation ruled with judgment no. 14842 on June 7, 2018, confirming the jurisdiction of the Court of Rome and, therefore, the correctness of TIM's choice to base its lawsuit in the Court of Rome;
- on the unlawful nature of the conduct of the Italian government - and, therefore, on the liability of the State-Court in accordance with Law no. 117/1998 - once again, the EU Court of Justice has ruled, deciding on the prejudicial matter raised by the Lazio TAR in other, connected proceedings, in its judgment given on March 4, 2020 in C-34/19, stressing that TIM was not required to pay the charges demanded by the State for 1998 and, therefore, confirming the clear violation by the Council of State of European Community law (also because in clear conflict with the decision already given by the EU Court of Justice on February 21, 2008 in C-296/06, as, moreover, already ruled by the Court of Appeal of Rome, Chambers I, in Decree of January 31, 2012, which sanctioned the procedural admissibility of TIM's lawsuit);
- on the matter of the right to repeat the charges paid for 1998 - the Court of Cassation ruled in its judgment no. 18603 given on September 7, 2020, rejecting the appeal brought by the Presidency of the Council against the judgment whereby the Court of Appeal of Rome had upheld the claim for compensation made by Vodafone (payment of charges for 1998) for the same title in separate proceedings.

In short, the company paid the charges disputed in 1998; it promptly challenged the administrative provision that had unfairly required said payment, before the administrative court; the administrative proceedings before the Council of State concluded negatively in 2009 (despite the recalled opposite judgment of the European Court of Justice); the civil proceedings of first instance concluded in March 2015 with a judgment of rejection for grounds of admissibility (then solved in the sense indicated by the company with the referenced judgment of Cassation in United Chambers no. 14842/18) and more than 6 years after the first instance judgment - going from deferral to deferral - the appeal judgment (that could only uphold the mentioned judgments of the Court of Justice and the Court of Cassation) has not yet been issued (nor, on the basis of these repeated deferrals, can the company forecast when it will be given).

The company is examining the various scenarios and legal claims (national, European Community, etc.) that may contribute towards defining the appeal dispute. It is considered, in fact, that the principles of the reasonable duration of the trial, in accordance with subsection 2 of article 111 of the Constitution and in accordance with article 6 of the European Convention on Human Rights, are violated by these events, considering: (i) the year in which payment was made of the undue charges is 1998; (ii) the value of these charges is approximately 529 million euros plus interest from that date; (iii) the extremely long procedural process has not even led to an appeal judgment (started in 2015 and with an unpredictable conclusion, given the continuous deferrals); (iv) the circumstance that the legal matter appears to be readily able to be settled, as not one but two judgments have already been given by the EU Court of Justice declaring payment of the charges to be incompatible with European Community legislation (judgments that have currently been ignored by the national court).

As part of the aforementioned analyzes aimed at reaching a definition of the appeal sentence, it should be pointed out that on January 25, 2021 the company filed a request with the Rome Court of Appeal to bring forward the hearing (postponed, as mentioned, to January 25, 2022) in order to avoid yet another postponement of the case, which, as we know, concerns the non-compliance with two inter partes decisions, on the same matter, by the Court of Justice of the European Union for a clear violation of European law by the State-Judge. With a ruling on February 8, 2021, the Rome Court of Appeal (second section specializing in corporate matters) deemed it could grant the request for an advance ruling, setting the hearing for November 30, 2021. On that date the case was taken to decision with the assignment of the legal terms for closing statements and replies.

Vodafone (previously TELETU)

By writ of summons of February 2012, TIM summonsed the operator TeleTu (today incorporated into Vodafone) to the Court of Rome for having unduly impeded customers intending to return to TIM. The damages claim has been quantified for approximately 93 million euros. By judgment of December 2020, the Court ascertained that from July 2008 to October 2011, TELETU pursued illegal competition pursuant to art. 2598 of the Italian Civil Code in connection with requests for migration to TIM, ordering it to compensate TIM for the amount of 1,378,000 euros plus interest and revaluation, which was paid by Vodafone. As part of a global settlement with Vodafone, the parties have agreed to abstain from challenging this judgment.

Other liabilities related to the sale of assets and shareholdings

As part of agreements for the sale of assets and companies, the TIM Group has undertaken guarantees to indemnify the buyers for liabilities mainly connected with legal, tax, social security, and labor law issues, for an amount normally set as a percentage of the purchase price.

To cover such contingent liabilities, amounting to a total of around 250 million euros, provisions totaling approximately 10 million euros have been allocated solely for those cases for which payment is considered likely.
Furthermore, we report that in relation to the disposal of assets and investments, the TIM Group has undertakings to pay additional indemnities under specific contractual provisions, the contingent liability of which cannot be measured at present.

C) Commitments and guarantees

Guarantees, net of back-to-back guarantees received, amounted to 54 million euros.

The guarantees provided by third parties to Group companies, amounting to 6,894 million euros, related to guarantees provided by banks and other financial institutions as a guarantee of the proper performance of contractual obligations.

In particular, we report:

- the TIM Group had six bank guarantees issued in favor of the Ministry of Economic Development for a total of 1,922 million euros for the deferment of the payment of the amount due for the acquisition of user rights to frequencies in the 694-790 MHz, 3600-3800 MHz and 26.5-27.5 GHz bands, which will be reserved for 5G mobile telecommunications services in Italy. At December 31, 2021, the remaining guarantee was 1,738 million euros;
- the insurance guarantees, which totaled 930 million euros, mainly refer to guarantee financing by the TIM Group in applying legal provisions for contracts of Public Administrations and similar bodies;
- the TIM Group had bank guarantees issued in favor of INPS in support of the application - by TIM and some Group companies - of Article 4 of Italian Law 92 of June 28, 2012, for the voluntary redundancy of employees meeting the requirements; the total amount of the guarantees issued is 1,422 million euros, of which 1,360 million euros for TIM S.p.A. and 62 million euros for Group companies.

Lastly, in May 2018, TIM issued a surety to the Prime Minister's Office for 74.3 million euros to secure an appeal to the Lazio Administration Court for a provisional stay of the administrative fine levied on TIM following the preliminary investigation connected with the penalty proceeding initiated under Article 2 of Decree Law 21 of 3/15/2012 (the "Golden Power" law).

There are also surety bonds on the telecommunication services in Brazil for 653 million euros.

d) Assets guaranteeing financial liabilities

The special rate loan contracts granted by the Brazilian Development Bank BNDES (Banco Nacional de Desenvolvimento Econômico e Social) to TIM S.A. to a total value of 63 million euros are covered by specific covenants. In the event of non-compliance with the covenant obligations, BNDES will have a right to the receipts which transit on the bank accounts of the company.

NOTE 25
REVENUES

These decreased by 489 million euros compared to 2020. The breakdown is as follows:

(million euros)	2021	2020
Equipment sales	1,411	1,402
Services	13,905	14,403
Total	**15,316**	**15,805**

Revenues from telecommunications services are presented gross of amounts due to other TLC operators, equal to 1,264 million euros (1,198 million euros in 2020), included in Costs of services.

Revenues from services in 2021 include revenues for voice and data services on fixed and mobile networks for Retail customers for 8,203 million euros and for other Wholesale operators for 2,805 million euros.

For a breakdown of revenues by operating segment/geographical area, reference should be made to the Note "Segment Reporting".

NOTE 26
OTHER INCOME

This item rose by 61 million euros compared to 2020. The figure breaks down as follows:

(million euros)	2021	2020
Late payment fees charged for telephone services	39	46
Recovery of employee benefit expenses, purchases and services rendered	12	14
Capital and operating grants	28	34
Damages, penalties and recoveries connected with litigation	27	24
Estimate revisions and other adjustments	71	59
Special training income	67	13
Other	28	21
Total	**272**	**211**

NOTE 27
ACQUISITION OF GOODS AND SERVICES

This item rose by 377 million euros compared to 2020. The figure breaks down as follows:

(million euros)		2021	2020
Acquisition of raw materials and goods	**(a)**	**1,266**	**1,203**
Costs of services:			
Revenues due to other TLC operators		1,264	1,198
Costs for telecommunications network access services		119	116
Commissions, sales commissions and other selling expenses		974	996
Advertising and promotion expenses		212	196
Professional and consulting services		253	216
Utilities		434	435
Maintenance costs		291	277
Outsourcing costs for other services		378	348
Mailing and delivery expenses for telephone bills, directories and other materials to customers		38	46
Other service expenses		718	706
	(b)	**4,681**	**4,534**
Lease and rental costs:			
Rent and leases		51	51
TLC circuit subscription charges		96	87
Other lease and rental cost		456	298
	(c)	**603**	**436**
Total	**(a+b+c)**	**6,550**	**6,173**

In 2021, non-recurring operating costs related to procurement and miscellaneous costs of approximately 4 million euros were incurred, which were necessary to manage the health emergency related to COVID-19. For more details, see the Note “Significant non-recurring Events and Transactions”.

In 2021, lease and rental costs included around 11 million euros in short-term lease payments of modest value (approximately 11 million euros in 2020).

NOTE 28
EMPLOYEE BENEFITS EXPENSES

This item rose by 302 million euros compared to 2020. The figure breaks down as follows:

(million euros)		2021	2020
Ordinary employee expenses			
Wages and salaries		1,794	1,804
Social security costs		651	647
Other employee benefits		148	146
	(a)	**2,593**	**2,597**
Costs and provisions for temp work	**(b)**	—	—
Miscellaneous expenses for personnel and other labor-related services rendered			
Charges for termination benefit incentives		8	1
Corporate restructuring expenses		336	38
Other		4	3
	(c)	**348**	**42**
Total	**(a+b+c)**	**2,941**	**2,639**

Employee benefits expenses mainly related to the Domestic Business Unit for 2,703 million euros (2,401 million euros in 2020) and to the Brazil Business Unit for 237 million euros (236 million euros in 2020).

"Company restructuring expenses" came to 336 million euros (38 million euros in 2020) and are mainly related to the 2021 recording of the expenses connected with the application of the trade union agreements signed by the Parent company with the trade unions on March 8, 2021 and on April 23, 2021 and the agreements signed respectively on March 15, 2021 by the company Olivetti, on April 27, 2021 by the company Noovle S.p.A. and on May 6, 2021 by the company Telecom Italia Sparkle.

In 2021, non-recurring costs were incurred for approximately 1 million euros, made necessary to address the COVID-19 health emergency. For more details, see the Note "Significant non-recurring Events and Transactions".

The average salaried workforce, including personnel with temp work contracts, stood at 47,942 employees in 2021 (49,099 in 2020). A breakdown by category is as follows:

(number of units)	2021	2020
Executives	612	587
Middle managers	4,154	4,083
Workers	43,110	44,420
Blue collars	54	—
Employees on payroll	**47,930**	**49,090**
Employees with temp work contracts	12	9
Total average salaried workforce	**47,942**	**49,099**

Headcount in service at December 31, 2021, including personnel with temp work contracts, stood at 51,929 employees (52,347 at December 31, 2020), showing a decrease of 418 employees.

NOTE 29
OTHER OPERATING EXPENSES

This item rose by 541 million euros compared to 2020. The figure breaks down as follows:

(million euros)	2021	2020
Write-downs and expenses in connection with credit management	305	423
Provision charges	704	43
TLC operating fees and charges	189	199
Indirect duties and taxes	99	96
Penalties, settlement compensation and administrative fines	127	120
Association dues and fees, donations, scholarships and traineeships	12	12
Other	66	68
Total	**1,502**	**961**
of which, included in the supplementary disclosure on financial instruments	*305*	*423*

"Provision charges" for 2021 include a non-recurring 548 million euros for the posting of a Contractual Risk Provision for Onerous Contracts (IAS 37) relating to ongoing relations with some counterparties for the offer of multimedia content.

In 2021, non-recurring operating costs were also incurred as a consequence of the COVID-19 emergency for a total of 20 million euros, mainly referring to provisions and expenses connected with credit management following the worsening of the expected credit loss of corporate customers of the Parent Company TIM S.p.A., connected with the expected evolution of the pandemic.

For more details, see the Note "Significant non-recurring Events and Transactions".

Further details on Financial Instruments are provided in the Note "Supplementary disclosure on financial instruments".

NOTE 30
INTERNALLY GENERATED ASSETS

These decreased by 27 million euros compared to 2020. The breakdown is as follows:

(million euros)	2021	2020
Intangible assets with a finite useful life	216	231
Tangible assets	259	271
Total	**475**	**502**

They mainly refer to the capitalization of labor costs relating to design, construction and testing of network infrastructure and systems, as well as software development and development of network solutions, applications and innovative services.

NOTE 31
DEPRECIATION AND AMORTIZATION

These decreased by 126 million euros compared to 2020. The breakdown is as follows:

(million euros)		2021	2020
Amortization of intangible assets with a finite useful life			
Industrial patents and intellectual property rights		1,043	1,152
Concessions, licenses, trademarks and similar rights		466	473
Other intangible assets		2	2
	(a)	**1,511**	**1,627**
Depreciation of tangible assets owned			
Buildings (civil and industrial)		35	35
Plant and equipment		2,095	2,115
Manufacturing and distribution equipment		9	11
Other		145	140
	(b)	**2,284**	**2,301**
Amortization of rights of use assets			
Property		343	397
Plant and equipment		314	252
Other tangible assets		37	39
Intangible assets		1	—
	(c)	**695**	**688**
Total	**(a+b+c)**	**4,490**	**4,616**

For further details refer to the Notes "Intangible assets with a finite useful life", "Tangible assets" and "Rights of use assets".

For a breakdown of depreciation and amortization by operating segment/geographical area, reference should be made to the Note "Segment Reporting".

NOTE 32
GAINS/(LOSSES) ON DISPOSALS OF NON-CURRENT ASSETS

This item was broken down as follows:

(million euros)		2021	2020
Gains on disposals of non-current assets:			
Gains on the retirement/disposal of intangible, tangible and user rights on rental		15	29
	(a)	**15**	**29**
Losses on disposals of non-current assets:			
Losses on the retirement/disposal of intangible, tangible and user rights on rental		14	40
	(b)	**14**	**40**
Total	**(a-b)**	**1**	**(11)**

NOTE 33

IMPAIRMENT REVERSALS (LOSSES) ON NON-CURRENT ASSETS

This item was broken down as follows:

(million euros)		2021	2020
Reversals of impairment losses on non-current assets:			
on intangible assets		—	—
on tangible assets		—	—
	(a)	**—**	**—**
Impairment losses on non-current assets:			
on intangible assets		4,120	—
on tangible assets		—	8
	(b)	**4,120**	**8**
Total	**(a-b)**	**(4,120)**	**(8)**

The impairment losses for the year 2021 amounted to 4,120 million euros and related to the goodwill impairment loss attributed to the Domestic Cash Generating Unit.

In accordance with IAS 36, goodwill is not subject to amortization, but is tested for impairment on at least an annual basis, when preparing the company's consolidated financial statements.

With reference to the Domestic Cash Generating Unit (CGU), the impairment test, conducted during the preparation of the 2021 Annual Financial Report, took as a reference the flows of the new 2022-2024 Industrial Plan - which, based on the results of the 2021 final accounting, reflects realistic aspects on future developments and outlines all the actions to create value for shareholders - on the basis of the projections up to 2026, assuming the use of domestic market assets in continuity with the conditions as at December 31, 2021 and using a discount rate updated to the financial market conditions as at December 31, 2021.

The configuration of the recoverable amount is the Fair Value estimated on the basis of the income approach, which has highlighted a value reduction of 4,120 million euros of goodwill attributed to the Domestic Cash Generating Unit.

Impairment testing of the Brazil Cash Generating Unit did not reveal any reduction in the value of goodwill allocated to it. The valuation was based on the Market Cap of TIM Brasil as at December 31, 2021 and highlighted a positive difference between the book value of the CGU and Fair Value.

Further details are provided in the Note "Goodwill".

NOTE 34

OTHER INCOME (EXPENSES) FROM INVESTMENTS

Details are as follows:

(million euros)	2021	2020
Dividends from Other investments	1	—
Net gains on the sale of investments in associates and joint ventures accounted for using the equity method	119	452
Other income	6	2
Total	**126**	**454**
of which, included in the supplementary disclosure on financial instruments	*3*	*2*

In 2021, the item mainly included the net capital gain (119 million euros) recognized following the dilution from 100% to 49% of the equity investment of the Brazilian subsidiary TIM S.A. in I-Systems S.A. (formerly FiberCo Soluções de Infraestrutura S.A.), a company established by TIM S.A. for the segregation of its network assets and the provision of infrastructure services, following the completion of the agreement between TIM S.A. and IHS Fiber Brasil - Cessão de Infraestruturas Ltda.

In 2020 the item mainly included the net capital gain recognized following the dilution from 60% to 37.5% of the TIM Group's stake in the capital of INWIT S.p.A. as a result of the merger of INWIT with Vodafone Towers (441 million euros) and the capital gains deriving from the sale of additional share packages equal, in total, to 7.3% of INWIT's share capital (11 million euros).

NOTE 35
FINANCE INCOME AND EXPENSES

Finance income (expenses) showed a net expense of 1,150 million euros (expense of 1,179 million euros in 2020) and comprises:

(million euros)	2021	2020
Finance income	1,124	1,143
Finance expenses	(2,274)	(2,322)
Net finance income/(expenses)	**(1,150)**	**(1,179)**

The items break down as follows:

(million euros)		2021	2020
Interest expenses and miscellaneous finance expenses:			
Interest expenses and other costs relating to bonds		(839)	(872)
Interest expenses to banks		(51)	(65)
Interest expenses to others		(24)	(20)
Interest expenses on financial lease liabilities		(271)	(283)
		(1,185)	**(1,240)**
Commissions		(61)	(74)
Miscellaneous finance expenses (*)		(126)	(124)
		(187)	**(198)**
Interest income and other finance income:			
Interest income		75	55
Income from financial receivables, recorded in Non-current assets		8	2
Income from securities other than investments, recorded in Non-current assets		—	—
Income from securities other than investments, recorded in Current assets		20	11
Miscellaneous finance income (*)		39	27
		142	**95**
Total net finance interest/(expenses)	**(a)**	**(1,230)**	**(1,343)**
Other components of financial income and expense:			
Net exchange gains and losses		39	(51)
Net result from derivatives		117	109
Net fair value adjustments to fair value hedge derivatives and underlyings		(4)	3
Net fair value adjustments to non-hedging derivatives		(72)	103
Total other components of financial income and expense	**(b)**	**80**	**164**
Total net financial income (expenses)	**(a+b)**	**(1,150)**	**(1,179)**
of which, included in the supplementary disclosure on net financial instruments		*(936)*	*(876)*

(*) of which IFRS 9 impact:

(million euros)	2021	2020
Income from negative adjustment of IFRS 9 impairment reserve on financial assets measured at FVTOCI	*4*	*1*
Expenses from positive adjustment of IFRS 9 impairment reserve on financial assets measured at FVTOCI	*(1)*	*(2)*
Income/Expenses from IFRS 9 reserve impairment on financial assets measured at FVTOCI	*3*	*(1)*
Reversal of IFRS 9 impairment reserve on financial assets measured through FVTOCI	*5*	*1*
Impairment losses on financial assets other than investments	*—*	*—*

Further details on Financial Instruments are provided in the Note "Supplementary disclosure on financial instruments".

For greater clarity of presentation, the net effects relating to derivative financial instruments are summarized in the following table:

(million euros)		2021	2020
Foreign currency conversion gains		411	393
Exchange losses		(372)	(444)
Net exchange gains and losses		**39**	**(51)**
Income from fair value hedge derivatives		33	47
Charges from fair value hedge derivatives		—	—
Net result from fair value hedge derivatives	**(a)**	**33**	**47**
Positive effect of the reversal of the Reserve for fair value adjustment of cash flow hedge derivatives to the income statement (interest rate component)		366	376
Negative effect of the reversal of the Reserve of cash flow hedge derivatives to the income statement (interest rate component)		(295)	(309)
Net effect of the Reversal of the Reserve of cash flow hedge derivatives to the income statement (interest rate component)	**(b)**	**71**	**67**
Income from non-hedging derivatives		43	6
Charges from non-hedging derivatives		(30)	(11)
Net result from non-hedging derivatives	**(c)**	**13**	**(5)**
Net result from derivatives	**(a+b+c)**	**117**	**109**
Positive fair value adjustments to fair value hedge derivatives		—	46
Negative fair value adjustments relating to financial assets and liabilities underlying fair value hedge derivatives		—	(44)
Net fair value adjustments	**(d)**	**—**	**2**
Positive fair value adjustments to Underlying financial assets and liabilities of fair value hedge derivatives		50	6
Negative fair value adjustments relating to fair value hedge derivatives		(54)	(5)
Net fair value adjustments	**(e)**	**(4)**	**1**
Net fair value adjustments to fair value hedge derivatives and underlyings	**(d+e)**	**(4)**	**3**

Negative fair value adjustments to non-hedging derivatives	(g)	(151)	(71)
Net fair value adjustments to non-hedging derivatives	**(f+g)**	**(72)**	**103**

NOTE 36
PROFIT (LOSS) FOR THE YEAR

The profit (loss) for the year can be analyzed as follows:

(million euros)	2021	2020
Profit (loss) for the year	**(8,400)**	**7,352**
Attributable to:		
Owners of the Parent:		
Profit (loss) from continuing operations	(8,652)	7,224
Profit (loss) from Discontinued operations/Non-current assets held for sale	—	—
Profit (loss) for the year attributable to owners of the Parent	**(8,652)**	**7,224**
Non-controlling interests:		
Profit (loss) from continuing operations	252	128
Profit (loss) from Discontinued operations/Non-current assets held for sale	—	—
Profit (loss) for the year attributable to Non-controlling interest	**252**	**128**

NOTE 37
EARNINGS PER SHARE

		2021	2020
Basic earnings per share			
Profit (loss) for the year attributable to owners of the Parent		(8,652)	7,224
Less: additional dividends for the savings shares (0.011 euros per share and up to capacity)		—	(66)
	(million euros)	(8,652)	7,158
Average number of ordinary and savings shares	(millions)	21,205	21,080
Basic earnings per share – Ordinary shares	(euros)	(0.40)	0.34
Plus: additional dividends per savings share		—	0.01
Basic earnings per share – Savings shares	(euros)	(0.40)	0.35
Basic earnings per share from continuing operations			
Profit (loss) from continuing operations attributable to Owners of the Parent		(8,652)	7,224
Less: additional dividends for the savings shares		—	(66)
	(million euros)	(8,652)	7,158
Average number of ordinary and savings shares	(millions)	21,205	21,080
Basic earnings per share from continuing operations – Ordinary shares	(euros)	(0.40)	0.34
Plus: additional dividends per savings share		—	0.01
Basic earnings per share from continuing operations – Savings shares	(euros)	(0.40)	0.35
Basic earnings per share from Discontinued operations/Non-current assets held for sale			
Profit (loss) from Discontinued operations/Non-current assets held for sale	(million euros)	—	—
Average number of ordinary and savings shares	(millions)	21,205	21,080
Basic earnings per share from Discontinued operations/Non-current assets held for sale – Ordinary shares	(euros)	—	—
Basic earnings per share from Discontinued operations/Non-current assets held for sale – Savings shares	(euros)	—	—

	2021	2020
Average number of ordinary shares	15,177,486,840	15,051,766,083
Average number of savings shares	6,027,791,699	6,027,791,699
Total	**21,205,278,539**	**21,079,557,782**

		2021	2020
Diluted earnings per share			
Profit (loss) for the year attributable to owners of the Parent		(8,652)	7,224
Dilution effect of stock option plans and convertible bonds (*)		—	42
Less: additional dividends for the savings shares (0.011 euros per share and up to capacity)		—	(66)
	(million euros)	(8,652)	7,200
Average number of ordinary and savings shares	(millions)	21,205	22,163
Diluted earnings per share – Ordinary shares	(euros)	(0.40)	0.33
Plus: additional dividends per savings share		—	0.01
Diluted earnings per share – Savings shares	(euros)	(0.40)	0.34
Diluted earnings per share from continuing operations			
Profit (loss) from continuing operations attributable to Owners of the Parent		(8,652)	7,224
Dilution effect of stock option plans and convertible bonds (*)		—	42
Less: additional dividends for the savings shares		—	(66)
	(million euros)	(8,652)	7,200
Average number of ordinary and savings shares	(millions)	21,205	22,163
Diluted earnings per share from continuing operations – Ordinary shares	(euros)	(0.40)	0.33
Plus: additional dividends per savings share		—	0.01
Diluted earnings per share from continuing operations – Savings shares	(euros)	(0.40)	0.34
Diluted earnings per share from Discontinued operations/Non-current assets held for sale			
Profit (loss) from Discontinued operations/Non-current assets held for sale	(million euros)	—	—
Dilution effect of stock option plans and convertible bonds		—	—
Average number of ordinary and savings shares	(millions)	21,205	22,163
Diluted earnings per share from Discontinued operations/Non-current assets held for sale – Ordinary shares	(euros)	—	—
Diluted earnings per share from Discontinued operations/Non-current assets held for sale – Savings shares	(euros)	—	—

	2021	2020
Average number of ordinary shares (*)	15,177,486,840	16,134,874,545
Average number of savings shares	6,027,791,699	6,027,791,699
Total	**21,205,278,539**	**22,162,666,244**

(*) The average number of ordinary shares also includes the potential ordinary shares relating to the equity compensation plans of employees for which the (market and non-market) performance conditions have been met, in addition to the theoretical number of shares that are issuable as a result of the conversion of the unsecured equity-linked convertible bond. Consequently, the “Net profit (loss) for the year attributable to owners of the Parent" and the “Profit (loss) from continuing operations attributable to owners of the Parent” were also adjusted to exclude the effects, net of tax, related to the above-mentioned plans and to the convertible bond (+42 million euros in 2020). For what concerns 2021, these effects were not included in the calculation of diluted earnings per share because, based on the provisions of IAS 33, they are antidilutive.

Future potential changes in share capital

The table below shows future potential changes in share capital, based on the issuance of the convertible bond by TIM S.p.A. in March 2015, in the plans for long-term share incentives, still outstanding at December 31, 2021:

	Number of maximum shares issuable	Share capital (thousand s of euros)	Additional paid-in capital (thousands of euros)	Subscription price per share (euros)
Capital increases already approved (ordinary shares)				
2020-2022 Long Term Incentive Plan (free issue)	180,000,000			
Stock Options	**180,000,000**			
2015 Convertible Bond (ordinary shares)(*)	1,138,239,144	2,000,000	N.A.	N.A.
Bonds	**1,138,239,144**	**2,000,000**		
Total	**1,318,239,144**	**2,000,000**		

(*) The number of shares potentially issuable shown may be subject to adjustments.

Further information is provided in the Notes “Non-current and current financial liabilities” and “Equity compensation plans”.

NOTE 38
SEGMENT REPORTING

a) Segment reporting

The operating segments of the TIM Group, organized for the telecommunications business and the relative geographical location are as follows:

- **Domestic**: includes the activities in Italy relating to voice and data services on fixed and mobile networks for end customers (retail) and other operators (wholesale), the activities of the Telecom Italia Sparkle group which, at international level (in Europe, the Mediterranean and South America), develops fiber optic networks for wholesale customers, the operations of the company FiberCop S.p.A. for the provision of passive access services on the secondary copper and fiber network, the activities of Noovle S.p.A.(Cloud and Edge Computing solutions), the activities of Olivetti (Information Technology products and services) and support structures for the Domestic sector;
- **Brazil**: includes mobile and fixed telecommunications operations in Brazil (TIM S.A.);
- **Other Operations**: include the financial companies (Telecom Italia Capital S.A. and Telecom Italia Finance S.A.) and other minor companies not strictly related to the TIM Group's core business.

In view of the decision-making process adopted by the TIM Group, segment reporting is presented for financial operating data.

The results of financial management, income taxes for the year, as well as gains (losses) from Discontinued operations / Non-current assets held for sale are presented at a consolidated level.

Separate Consolidated Income Statement by Operating Segment

(million euros)	Domestic		Brazil		Other Operations		Adjustments and eliminations		Consolidated Total	
	2021	2020	2021	2020	2021	2020	2021	2020	2021	2020

c) Information about major customers

None of the TIM Group's customers exceeds 10% of consolidated revenues.

NOTE 39
RELATED-PARTY TRANSACTIONS

The following tables show the figures relating to related-party transactions and the impact of those amounts on the separate consolidated income statement, consolidated statements of financial position and consolidated statements of cash flows.

Related-party transactions, when not dictated by specific laws, were conducted at arm's length. They were performed in compliance with the internal procedure, which sets forth rules designed to ensure the transparency and fairness of the transactions in accordance with Consob Regulation 17221/2010. The current procedure is available on the website gruppotim.it, under the Group section/Governance Tools channel.

It should be noted that during the second half of 2021, Cassa Depositi e Prestiti and its subsidiaries were included in the scope of related companies, on the basis of assessments in this regard performed by the TIM S.p.A. Related Parties Committee.

The effects of the related-party transactions on the TIM Group separate consolidated income statement line items for 2021 and 2020 are as follows:

SEPARATE CONSOLIDATED INCOME STATEMENT LINE ITEMS 2021

(million euros)	**Total** (a)	Associates, subsidiaries of associates and joint ventures	Other related parties (*)	Pension funds	Key managers	**Total related parties** (b)	% of financial statement item (b/a)
Revenues	15,316	31	31			**62**	0.4
Other income	272	1	11			**12**	4.4
Acquisition of goods and services	6,550	355	142			**497**	7.6

Remuneration to key managers

In 2021, the total remuneration recorded on an accrual basis by TIM or by Group subsidiaries in respect of key managers amounted to 34 million euros (16 million euros for 2020). The figure breaks down as follows:

(million euros)	2021	2020
Short-term remuneration	9 [1]	11 [3]
Long-term remuneration		
Employment termination benefit incentives	18	2
Share-based payments (*)	7 [2]	3 [4]
Total	**34**	**16**

(*) These refer to the fair value of the rights, accrued to December 31, under the share-based incentive plans of TIM S.p.A. and its subsidiaries (Long Term Incentive and Plans of the subsidiaries).

[1] of which 1.2 million euros recorded by the subsidiaries;

[2] of which 1.0 million euros recorded by the subsidiaries;

[3] of which 1.0 million euros recorded by the subsidiaries;

[4] of which 0.4 million euros recorded by the subsidiaries.

Short-term remuneration is paid during the period it pertains to, at the latest within the six months following the end of that period and, in 2021, do not include the effects of the reversal of the accruals related to the 2020 costs amounting to 0.9 million euros.

The indemnities for early termination of employment for the year 2021 also include the amount paid to Mr. Luigi Gubitosi, amounting to 6.9 million euros.

In 2021, the contributions paid in to defined contribution plans (Assida and Fontedir) by TIM S.p.A. or by subsidiaries of the Group on behalf of key managers, amounted to 140,000 euros (135,000 euros at December 31, 2020).

In 2021, "Key managers", i.e. those who have the power and responsibility, directly or indirectly, for the planning, direction and control of the operations of the TIM Group, including directors, were the following:

Directors:		
Luigi Gubitosi	(1)	Managing Director and Chief Executive Officer of TIM S.p.A. General Manager
Pietro Labriola	(2)	General Manager of TIM S.p.A. Diretor Presidente TIM S.A.
Executives:		
Giovanna Bellezza	(3)	a.i. Head of Human Resources, Organization & Real Estate
Paolo Chiriotti	(4)	Head of Procurement
Simone De Rose	(5)	a.i. Head of Procurement
Michele Gamberini	(6)	Chief Technology & Information Office
	(7)	Chief Innovation & Information Office
Nicola Grassi	(8)	Head of Procurement
	(4)	Chief Technology & Operations Office
Stefano Grassi		Head of Security
Massimo Mancini	(5)	Chief Enterprise Market Office
Giovanni Gionata Massimiliano Moglia	(9)	Chief Regulatory Affairs & Wholesale Market Office
	(5)	Chief Regulatory Affairs Office
Carlo Nardello	(9)	Chief Strategy, Business Development & Transformation Office
Agostino Nuzzolo		Head of Legal & Tax
Claudio Giovanni Ezio Ongaro	(5)	a.i. Chief Strategy & Business Development Office
Federico Rigoni	(8)	Chief Revenue Officer
Giovanni Ronca		Chief Financial Office
Luciano Sale	(10)	Head of Human Resources, Organization & Real Estate
Stefano Siragusa	(6)	Chief Operations Office
	(11)	Chief Technology & Operations Office
	(12)	Chief Revenue Officer
	(13)	Chief Revenue, Information & Media Office
	(5)	Chief Network, Operations & Wholesale Office

(1) To November 26, 2021
(2) From November 27, 2021
(3) From November 30, 2021
(4) From July 5, 2021 to December 6, 2021
(5) From December 7, 2021
(6) To April 8, 2021
(7) From April 9, 2021 to September 20, 2021
(8) To July 4, 2021
(9) To December 6, 2021
(10) To November 29, 2021
(11) From April 9, 2021 to July 4, 2021
(12) From July 05, 2021 to September 20, 2021
(13) From September 21, 2021 to December 6, 2021

On January 21, 2022 the Board of Directors co-opted Pietro Labriola, who retains the office of General Manager, and appointed him as Chief Executive Officer, conferring on him all powers.

NOTE 40
EQUITY COMPENSATION PLANS

Equity compensation plans in force at December 31, 2021, are used for attraction and retention purposes, and as a long-term incentive for the managers and employees of the Group.

However, it should be noted that these plans do not have any significant effect on the economic result or on the financial position or on cash flows at December 31, 2021.

A summary is provided below of the plans in place at December 31, 2021.

Description of stock option plans

TIM S.A. Stock Option Plans

On April 10, 2014, the General Meeting of Shareholders of TIM Participações S.A. (now incorporated into TIM S.A.) approved the long-term incentive plan for managers in key positions in the company and its subsidiaries. Exercise of the options is not subject to the achievement of specific performance targets, but the strike price is adjusted upwards or downwards during each year for which the plan is in force, according to the ranking of the Total Shareholder Return of the TIM S.A. shares with respect to a panel of peers (made up of companies in the Telecommunications, Information Technology and Media industry).

The vesting period is 3 years (a third per year), the options can be exercised for 6 years, and the company does not have the legal obligation to repurchase or liquidate the options in cash, or in any other form.

Year 2014

On September 29, 2014, the grantees of the options were granted the right to purchase a total of 1,687,686 shares. At December 31, 2021, there are no options that can be exercised. Out of the total attributed, 1,558,043 options have been canceled (due to withdrawal of the participants from the company or for expiry of the exercise period), and 129,643 options have been exercised.

Year 2015

On October 16, 2015, the grantees of the options were granted the right to purchase a total of 3,355,229 shares. As of December 31, 2021, 100% of the options were considered as vested, and there are no options that can be exercised. Of the total options granted, 1,646,080 were canceled by participants leaving the company. All of the remaining balance (amounting to 1,709,149 options) has been exercised.

Year 2016

On November 8, 2016, the grantees of the options were granted the right to purchase a total of 3,922,204 shares.

At December 31, 2021, 100% of the options were considered as vested. Of the total options granted, 1,727,424 were canceled by participants leaving the company. Of the remaining balance (2,194,780 options), 2,082,228 options had been exercised and 112,552 could still be exercised.

Description of other compensation plans

TIM S.p.A. - Long Term Incentive Plan 2018-2020

Following approval of the 2020 financial statements, the parameter of stock performance has not reached the minimum level for accessing the premium, while the cumulative equity free cash flow parameter (30%) has reached an achievement level of 88.47% (between the minimum and target), thereby quantifying the number of shares accrued by beneficiaries as 6,715,617 shares, subject to a two-year lock-up from the accrual date.

TIM S.p.A. - Long Term Incentive Plan 2020-2022

The Shareholders' Meeting of April 23, 2020 approved the launch of the new rolling and equity based long-term incentive plan called LTI 2020-2022.

Each cycle of the plan is divided into two parties:

- **Performance Share**: free allocation of Company ordinary shares, the maturity of which is subject to an access gate linked to the value of the share and to two share and industrial performance conditions, given below.
- **Attraction/Retention Share**: free allocation of Company ordinary shares, the maturity of which is subject to the continuity of the employment relationship with TIM or TIM Group companies.

In relation to the Performance Share component, the performance conditions are as follows:

- access gate, represented by the value of the security, which at the end of each cycle must be equal to or greater than the value of the security at the start of the same cycle (refer to the normal value of the share equal to the average of the official closing prices of the Stock Exchange 30 days prior to the start and end of the Plan cycle);
- NFP/EBITDA ratio, with relative weighting equal to 40%;
- Relative performance (TSR) of the ordinary share compared to a basket of Peers, with a relative weighting of 60%.

A payout bonus/malus mechanism equal to 4% will be applied to both components (Performance Share and Attraction/Retention Share), linked, in equal measure,

- to the % growth of use of renewable energy out of total energy and to the reduction of indirect emissions of CO2 (2020-2022 cycle);
- to the % growth of use of renewable energy out of total energy and the increase in the female presence in the managerial population (2021-2023 cycle).

For the CEO, 100% of the Pay Opportunity is linked to the Performance Share component. For the remaining recipient managers, 70% of the Pay Opportunity is linked to the Performance Share and the remaining 30% to the Attraction/Retention Shares.

2020-2022 Cycle

On May 18, 2020, the Board of Directors launched the first cycle of the new Plan, for the three-year period 2020-2022, simultaneously assigning it to the CEO. At December 31, 2021, the first incentive cycle intended for 140 resources establishes the right of beneficiaries to receive 57,388,194 shares upon reaching the target, without prejudice to:

- the gate condition and application of the ESG correction for performance shares;
- application of the ESG correction and continuity of the contract of employment for attraction/retention shares.

2021-2023 Cycle

On April 28, 2021, the Board of Directors resolved the start of the second 2021-2023 cycle of incentives of the 2020-2022 Long Term Incentive Plan, at the same time assigning it to the CEO. The second cycle, like the first, is aimed at the Chief Executive Officer, Top Management and a selected segment of TIM Group's management.

At December 31, 2021, the cycle provides for the 153 recipients to be entitled to receive an award of 55,878,929 shares upon achievement of the target, subject to:

- the gate condition and application of the ESG correction for performance shares;
- application of the ESG correction and continuity of the contract of employment for attraction/retention shares.

TIM S.p.A. – Broad-Based Share Ownership Plan 2020

In implementation of the resolutions passed on April 23, 2020 by the Extraordinary Shareholders' Meeting and subsequently on May 18, 2020 by the Board of Directors of Telecom Italia S.p.A., on June 16, 2020 the campaign to subscribe to the 2020 Diffuse Share Ownership Plan was opened, closing on October 30, 2020; the shares were subscribed at a unit price of 0.31 euros.

To service the initiative, a maximum of 127,500,000 new shares were to be issued, to be offered for paid subscription and, subsequently, a maximum 42,500,000 new shares, without capital increase, for the free allocation of 1 Bonus Share for every 3 subscribed shares.

As a result of the issuance on November 27, 2020 of 126,343,913 Telecom Italia ordinary shares to the subscribers of the discount shares, 38,604,270 ordinary shares of the Company (*Bonus Share*) were granted free of charge on December 3, 2021, without a capital increase. As planned, the Bonus Shares were awarded to those who retained their subscribed shares for the period of one year from the assignment date, subject to continued employee status.

TIM S.A. - Long Term Incentive Plan 2018-2020

On April 19, 2018, the General Meeting of Shareholders of TIM Participações S.A. (now incorporated into TIM S.A.) approved the long-term incentive plan for managers in key positions in the company. The plan aimed to reward participants with shares issued by the company, subject to specific temporal and performance conditions. The portion of shares linked to performance (70%) is granted 1/3 each year, if the performance target is achieved; the remaining portion of shares (30%) is granted 3 years after allocation (restricted share). The vesting period is 3 years (with annual measurement) and the company does not have the legal obligation to repurchase or liquidate the shares in cash or in any other form.

The plan – in addition to transferring shares to beneficiaries – also includes the possibility of rewarding participants through the settlement of the amount corresponding in cash.

Year 2018

On April 20, 2018, plan beneficiaries were granted the right to receive a total of 849,932 shares, of which 594,954 performance shares restricted to performance conditions and with gradual vesting over 3 years and 254,978 restricted shares, with a total vesting period of 3 years.

At December 31, 2021, 100% of the rights assigned were considered as vested:

- **First vesting period**: in compliance with the results approved on May 29, 2019, 115,949 shares were transferred to beneficiaries, of which 91,708 relating to the original volume accrued, 20,594 granted according to the degree to which objectives had been achieved and 3,647 shares as a result of the dividends distributed during the period. For participants transferred to other Group companies, as per the Plan rules, payment in cash was considered of the amount corresponding to 3,685 shares (2,915 relative to the original volume accrued, 654 acknowledged according to the degree to which the objectives had been achieved and 116 due to dividends distributed during the period).
- **Second vesting period**: in compliance with the results approved on June 17, 2020, 87,766 shares were transferred to beneficiaries, of which 83,181 relating to the original volume accrued, 70 discounted

according to the degree to which objectives had been achieved and 4,655 shares for dividends distributed during the period. For participants transferred to other Group companies, as per the Plan rules, payment in cash was considered of the amount corresponding to 3,084 shares (2,915 relative to the original volume accrued, 5 acknowledged according to the degree to which the objectives had been achieved and 164 due to dividends distributed during the period).

- **Third vesting period**: in compliance with the results approved on May 5, 2021, 252,143 shares were transferred to beneficiaries, of which 187,039 relating to the original volume accrued, 42,854 discounted according to the degree to which objectives had been achieved and 22,250 shares for dividends distributed during the period. For participants transferred to other Group companies, as per the Plan rules, payment in cash was considered of the amount corresponding to 12,500 shares (9,101 relative to the original volume accrued, 2,305 acknowledged according to the degree to which the objectives had been achieved and 1,094 due to dividends distributed during the period).

At December 31, 2021, of the total assigned of 849,932 shares, 473,073 had been canceled due to the beneficiaries having left the participating company, 455,858 shares had been transferred to beneficiaries (361,928 relative to the original volume accrued, 63,378 from performance achieved and 30,552 for payment of dividends in shares) and 19,269 shares had been valued and paid in cash (14,931 relative to the original volume accrued, 2,964 from performance achieved and 1,374 for payment of dividends in shares), thereby completing the 2018 concession.

Year 2019

On July 30, 2019, plan beneficiaries were granted the right to receive a total of 930,662 shares, of which 651,462 performance shares restricted to performance conditions and with gradual vesting over 3 years and 279,200 restricted shares, with a total vesting period of 3 years.

Two vesting periods ended on December 31:

- **First vesting period**: in compliance with the results approved on July 29, 2020, 309,557 shares were transferred to beneficiaries, of which 209,349 relating to the original volume accrued, 83,672 granted according to the degree to which objectives had been achieved and 16,536 shares as a result of the dividends distributed during the period.
- **Second vesting period**: in compliance with the results approved on July 26, 2021, 309,222 shares were transferred to beneficiaries, of which 207,859 relating to the original volume accrued, 78,111 discounted according to the degree to which objectives had been achieved and 23,252 shares for dividends distributed during the period.

At December 31, 2021, of the total assigned of 930,662 shares, 86,424 had been canceled due to the beneficiaries having left the company and 618,779 shares had been transferred to beneficiaries (417,208 related to the original volume vested, 161,783 from performance achieved and 39,788 for payment of dividends in shares), thereby leaving a balance of 427,030 shares that could be accrued at period end.

Year 2020

On April 14, 2020, plan beneficiaries were granted the right to receive a total of 796,054 shares, of which 619,751 performance shares restricted to performance conditions and with gradual vesting over 3 years and 176,303 restricted shares, with a total vesting period of 3 years.

At December 31, 2021, of the total assigned of 796,054 shares, 70,378 shares were canceled due to beneficiaries having left the company and 267,145 shares were transferred to beneficiaries against the result of the first vesting period of performance shares, in accordance with the results approved on May 5, 2021 (206,578 relating to the original volume vested, 51,634 recognized based on the level of achievement of objectives and 8,933 as a result of dividends distributed during the period), thereby leaving a balance of 519,098 shares that could be accrued at period end.

TIM S.A. - Long Term Incentive Plan 2021-2023

On March 30, 2021, the General Meeting of Shareholders of TIM S.A. approved the long-term incentive plan for managers in key positions in the company. The plan aims to reward participants with shares issued by the company, according to specific time (restricted shares) and performance (performance shares) conditions. The vesting period is 3 years and the company does not have the legal obligation to repurchase or liquidate the shares in cash or in any other form. The plan – in addition to transferring shares to beneficiaries – also includes the possibility of rewarding participants through the settlement of the amount corresponding in cash.

Year 2021

On May 05, 2021, plan beneficiaries were granted the right to receive a total of 3,431,610 shares, of which 3,173,142 performance shares restricted to performance conditions and with gradual vesting over 3 years and 258,468 restricted shares, with a total vesting period of 3 years.

In 2021, the Special Grant was added to the traditional plan, a further extraordinary concession with the aim of encouraging the closure of the Oi purchase operation in Brazil as well as the success of the subsequent integration operations.

Of the total 3,431,610 shares granted, 1,151,285 relate to the traditional grant (with 892,817 performance shares and 258,468 restricted shares) and 2,280,325 refer to the Special Grant.

As at December 31, 2021, the first vesting period has not yet finished. However, 311,876 shares were canceled due to the participants leaving the company.

Calculation of fair value measurement of the granted options and rights

Parameters used to determine the fair value – TIM S.p.A.

Plans/Parameters	Exercise price (euros)	Nominal value (euros) (1)	Volatility (2)	Duration	Expected dividends (euros) (3)	Risk-free interest rate (4)
LTI Plan 2018-2020 - equity component	-	0.63	n.a.	3 years	-	-0.552% at 3 years
LTI Plan 2018-2020 - equity component (two-year CEO granting)	-	0.51	n.a.	2 years	-	-0.594% at 2 years
LTI 2018 – 2020 Plan – equity component (two-year allocations)	-	0.48	n.a.	2 years	-	-0.569% at 2 years
LTI 2018 – 2020 Plan – equity component (two-year allocations)	-	0.48	n.a.	2 years	-	-0.570% at 2 years
2020-2022 LTI Plan – First Cycle (2020-22)	-	0.35	n.a.	3 years	0.01	-0.714% at 3 years
2020-2022 LTI Plan – Second Cycle (2021-23)	-	0.42	n.a.	3 years	0.01	-0.720% at 3 years
Broad-Based Share Ownership Plan 2020	-	0.333861	n.a.	1 year	0.01	-0.699% at 1 year
2020 Broad-Based Share Ownership Plan - the Bonus Shares	-	0.38	n.a.	-	-	-

(1) Arithmetic mean of the official prices of the Shares recognized starting from the stock market trading day prior to that of assignment until the thirtieth previous ordinary calendar day (both included) on the Electronic Stock Exchange organized and managed by Borsa Italiana S.p.A., calculated using only the days to which the prices taken as the basis of calculation refer as the divisor, cut off at the second decimal.
(2) Based on the performance objectives of the plan, the TIM share volatility values were considered and, if necessary, also those of the securities of the major companies of the telecommunications sector ("peer basket").
(3) Dividends have been estimated on the basis of Bloomberg data.
(4) The risk-free interest rate refers to the rate of government bonds of the Federal Republic of Germany (market benchmark for transactions in euros) on the valuation date with a maturity consistent with the reporting period.

Parameters used for the assignments of TIM S.A.

Plans/Parameters	Share base price (reais)	Nominal value (reais)	Volatility	Duration	Expected dividends (reais)	Risk-free interest rate
Stock option plan 2014	13.42	n.a.	44.60%	6 years	-	10.66% per annum
Stock option plan 2015	8.45	n.a.	35.50%	6 years	-	16.10% per annum
Stock option plan 2016	8.10	n.a.	36.70%	6 years	-	11.73% per annum
2018 PS/RS Plan	n.a.	14.41	n.a.	3 years	n.a.	n.a.
2019 PS/RS Plan	n.a.	11.28	n.a.	3 years	n.a.	n.a.
2020 PS/RS Plan	n.a.	14.40	n.a.	3 years	n.a.	n.a.
2021 PS/RS Plan	n.a.	12.95	n.a.	3 years	n.a.	n.a.

The parameters are characteristic of a stock option plan, considering the use of fair value appropriate only for Stock Option Plans.

Effects on the income statement and statement of financial position

Equity compensation plans which call for payment in equity instruments are recorded at fair value (except for the 2018 Plan of TIM S.A.) which represents the cost of such instruments at the grant date and is recorded in the separate income statements under "Employee benefits expenses" over the period between the grant date and the vesting period with a contra-entry to the equity reserve ("Other equity instruments"). For the portion of the plans that provide for the payment of compensation in cash, the amount is recognized in liabilities as a contra-entry to "Employee benefits expenses". Equity compensation plans which call for payment in equity instruments did not have significant impacts either on the income statements or the statements of financial position or of cash flows of the TIM Group at December 31, 2021.

NOTE 41

SIGNIFICANT NON-RECURRING EVENTS AND TRANSACTIONS

The effect of 2021 non-recurring events and transactions on the equity, profit, net financial debt and cash flows of the TIM Group is set out below in accordance with Consob Communication DEM/6064293 of July 28, 2006. The non-recurring effects on Equity and Profit (loss) for the year are shown net of tax effects.

(million euros)		Equity	Profit (loss) for the year	Net financial debt carrying amount	Cash flows (*)
Carrying amount	**(a)**	**22,039**	**(8,400)**	**22,416**	**2,383**
Revenue adjustments		(4)	(4)	—	—
Other income		11	11	(1)	1
Acquisition of goods and services - Expenses related to agreements and the development of non-recurring projects and other costs		(36)	(36)	57	(57)
Employee benefits expenses - Charges connected to corporate reorganization/restructuring and other costs		(263)	(263)	474	(474)
Other operating expenses - Expenses related to disputes and regulatory sanctions and potential liabilities related to them, and expenses related to disputes with former employees and liabilities with customers and/or suppliers for other provisions and charges		(556)	(556)	250	(250)
Other income (expenses) from investments		18	18	(1,931)	1,931

Miscellaneous finance expenses		(1)	(1)	—	—
Goodwill impairment loss attributed to Domestic CGU		(4,120)	(4,120)	—	—
Tax realignment pursuant to Decree Law 104/2020 Art. 110		(3,785)	(3,785)	231	(231)
Tax receivables Brazil Business Unit		82	82	—	—
Total non-recurring effects	**(b)**	**(8,653)**	**(8,653)**	**(920)**	**920**
Income/(Expenses) relating to Discontinued operations	**(c)**	**—**	**—**	**—**	**—**
Figurative amount – financial statements	**(a-b-c)**	**30,692**	**253**	**23,336**	**1,463**

(*) Cash flows refer to the increase (decrease) in Cash and cash equivalents during the year.

"Other operating expenses - Expenses related to disputes and regulatory sanctions and potential liabilities related to them, and expenses related to disputes with former employees and liabilities with customers and/or suppliers and other provisions and charges" include 548 million euros for the posting of Contractual risk provisions for Onerous Contracts (IAS 37) relating to ongoing relations with some counterparties for the offer of multimedia content.

In particular, they include the accrual of the Net Present Value of the negative margin connected with some partnerships, including the one in place between TIM and DAZN for the offer in Italy on the TIMVISION platform of DAZN content, including all matches of the Serie A football championship for the seasons 2021-22, 2022-23 and 2023-24.

In greater detail, as part of the definition of the 2022-2024 Strategic Plan, the business plan hypotheses have been updated for the current football season and the next two, pointing out that the total margins of the project, including TIM's contractual commitments towards DAZN in terms of fees, for lack of remedy by DAZN of certain breaches already disputed, is very much negative.

Use of said Provision throughout the contractual term will make it possible to offset the negative item of the margin (EBITDA), thereby obtaining null EBIT (organic or operative margin) for the DAZN offer contents sale business.

In financial terms, TIM is contractually obliged to pay DAZN six installments in advance (July, September, November, January, March and May) for each year (July 1-June 30, corresponding to each championship season), without prejudice to the fact that should the report of TIM customers with DAZN service in the two months prior to each installment record a higher amount being due to the latter (at present, this is purely theoretical), TIM would be required to also pay this difference.

The impact of non-recurring items on the separate consolidated income statement line items is as follows:

(million euros)	2021	2020
Revenues:		
Revenue adjustments	(5)	(39)
Other income:		
Other operating provisions absorption	—	1
Recovery of operating expenses	13	—
Acquisition of goods and services, Change in inventories:		
Professional expenses, consulting services and other costs	(49)	(64)
Employee benefits expenses:		
Charges connected to corporate reorganization/restructuring and other costs	(367)	(74)
Other operating expenses:		
Sundry expenses and other provisions	(735)	(148)
Impact on Operating profit (loss) before depreciation and amortization, capital gains (losses) and impairment reversals (losses) on non-current assets (EBITDA)	**(1,143)**	**(324)**
Goodwill impairment loss Domestic CGU	(4,120)	—
Impact on EBIT - Operating profit (loss)	**(5,263)**	**(324)**
Other income (expenses) from investments:		
Net capital gain on corporate transactions	119	452
Finance income:		
Other finance income	1	—
Finance expenses:		
Miscellaneous finance expenses	(1)	(7)
Impact on profit (loss) before tax from continuing operations	**(5,144)**	**121**
Tax realignment pursuant to Decree Law 104/2020 Art. 110	(3,785)	5,877
Income taxes on non-recurring items	276	50
Impact on Profit (loss) for the year	**(8,653)**	**6,048**

In 2021, the COVID-19 emergency meant that the TIM Group incurred non-recurring charges, gross of tax effects, for approximately 25 million euros, of which 20 million euros allocated in connection with credit management deriving from the expected worsening of the expected credit loss of corporate customers, due to the expected evolution of the pandemic.
Staff costs (1 million euros) and costs relating to supplies and miscellaneous costs (4 million euros), which were necessary to manage the health emergency, have also been recorded.
Furthermore, the figures stated mainly include both non-recurring charges connected with corporate reorganization/restructuring processes and provisions for disputes, transactions, regulatory sanctions and potential liabilities and expenses connected with agreements and the development of non-recurring projects.
At December 31, 2021, non-recurring income was also recorded for approximately 82 million euros in connection with tax benefits of the Brazil Business Unit.

For more details on the tax benefits of the Brazil Business Unit and the tax realignment pursuant to Decree Law 104/2020, refer to the Note on “Income tax expense (current and deferred)”.

NOTE 42

POSITIONS OR TRANSACTIONS RESULTING FROM ATYPICAL AND/OR UNUSUAL OPERATIONS

In accordance with Consob Communication DEM/6064293 of July 28, 2006, a statement is made to the effect that in 2021 the TIM Group did not pursue any atypical and/or unusual transactions, as defined by that Communication.

NOTE 43

(**) On October 1, 2021, a new monetary scale took effect, entailing the elimination of six zeros in relation to the previous one (1,000,000Bs = 1Bs).

b) Research and development

Costs for research and development activities are represented by external costs, labor costs of dedicated staff and depreciation and amortization. Details are as follows:

(million euros)	2021	2020
Research and development costs expensed during the year	56	79
Capitalized development costs	1,016	1,043
Total research and development costs (expensed and capitalized)	**1,072**	**1,122**

The decrease recorded in the 2021 financial year is due to the stabilization of implementation activities connected with the new generation networks, partly offset by software developments on corporate information systems.

In the 2021 Separate Consolidated Income Statement, a total of 907 million euros of depreciation/amortization expense was recorded for development costs, capitalized during the year and in prior years.

Research and development activities carried out by the TIM Group are described in detail in the Report on Operations (“Research and Development” section).

c) Leasing income

The TIM Group has entered into lease contracts on land and buildings for office and industrial use, mobile network infrastructure sites and network infrastructure; at December 31, 2021 and at December 31, 2020, the lease installments at nominal value still to be collected totaled:

(million euros)	12/31/2021	12/31/2020
.Within next year	100	154
From 1 to 2 years after the end of the reporting period	36	74
From 2 to 3 years after the end of the reporting period	34	62
From 3 to 4 years after the end of the reporting period	34	56
From 4 to 5 years after the end of the reporting period	30	54
Beyond 5 years after the end of the reporting period	29	54
Total	**263**	**454**

d) Public funds

Italian Law 124/2017 requires that information on subsidies, contributions, paid assignments and economic benefits of any kind received from Italian public administrations be provided. In this regard, the following table shows the disbursements collected by the TIM Group in the years 2021 and 2020:

Distributing entity	Area of intervention	Received in 2021 (million euros)	Received in 2020 (million euros)
Fondimpresa/Fondirigenti	training		1
Infratel	construction of broadband and ultrabroadband infrastructure	3	24
MUR (formerly MIUR)	research projects		3
ANPAL	New Skills Fund	54	
Sundry income (*)		1	1
Total		**58**	**29**

(*) 2021 - MiSE, Fondimpresa/Fondirigenti, MUR (formerly MIUR)
2020 - MED; Region of Lombardy, Region of Apulia

e) Directors' and statutory auditors' remuneration

Total remuneration due for 2021 to the directors and statutory auditors of TIM S.p.A. for the performance of these functions at the Parent and in other consolidated companies totaled 7.217 million euros for directors and 0.537 million euros for statutory auditors. In reference to the compensation to which the Directors are entitled, it should be noted that the amount was calculated by considering only compensation for corporate offices (in primis those under Article 2389, paragraphs 1 and 3 of the Italian Civil Code), thus excluding amounts relating to any employment relationship with the companies of the Group and any non-monetary fringe benefits; for a complete and detailed description of the compensation paid to the directors, reference should be made to the Compensation Report, available at the Company's headquarters and on the corporate website at the following address: gruppotim.it/assemblea.

f) Summary schedule of fees due to the audit firm and other firms in its network

The following schedule reports the fees due to EY S.p.A. and to the other firms in the EY network for the audit of the 2021 financial statements, and the fees referring to 2021 for other audit and review services, and for other services besides audit rendered to the companies of the TIM Group from EY S.p.A. and other firms in the EY network. The out-of-pocket expenses incurred for these services in 2021 are also shown.

(euros)	EY S.p.A.			Other entities of the EY network			
	TIM S.p.A..	Subsidiaries	TIM Group	TIM S.p.A..	Subsidiaries	TIM Group	Total EY network
Audit services	2,757,343	2,085,615	4,842,958	—	1,470,204	1,470,204	6,313,162
Audit services with the issue of certification	80,000	—	80,000	—	65,292	65,292	145,292
Attestation of compliance of the Consolidated Non-Financial Statement	72,907	—	72,907	—	19,184	19,184	92,091
Other services	—	—	—	—	—	—	—
Total 2021 fees due for auditing and other services to the EY network	**2,910,250**	**2,085,615**	**4,995,865**	**—**	**1,554,680**	**1,554,680**	**6,550,545**
Out-of-pocket expenses	10,016	37,629	47,645	—	52,754	52,754	100,399
Total	**2,920,266**	**2,123,244**	**5,043,510**	**—**	**1,607,434**	**1,607,434**	**6,650,944**

NOTE 44
EVENTS SUBSEQUENT TO DECEMBER 31, 2021

CADE approves acquisition of Oi's mobile business by Tim Brasil

The offer submitted by TIM S.A., Brazilian subsidiary of the TIM Group, for the acquisition of the mobile assets of the Oi Group, together with Telefônica Brasil S.A. (VIVO) and Claro S.A., has been approved by the antitrust Authority CADE (Conselho Administrativo de Defesa Economica).

The decision follows the pronunciation of the reglementary Authority Anatel (Agência Nacional de Telecomunicações), which on February 1, 2022, had expressed itself in favor of the transfer of control of Oi's mobile assets.

The closing of the deal, which will define a new infrastructure structure for the Telco market in Brazil, still depends on the fulfillment of specific conditions foreseen in the Sale and Purchase Agreement. The operation, with which TIM Brasil will acquire the most relevant share of the assets of the Oi Group, is expected to bring significant benefits to the Brazilian TLC sector, maintaining a high degree of competition and ensuring the necessary investments for the development of the country's digital advancement.

TIM reaffirms that the transaction, as of its completion, will add value not only to its Brazilian subsidiary but to the whole Group and its shareholders as it will accelerate its growth and increase operating efficiency through relevant synergies. Furthermore, positive effects are also expected for customers, as the transaction is likely to improve the users' experience and the quality of services offered. Finally, the transaction is expected to benefit the entire telecommunications sector in Brazil, which will be strengthened in its investment capacity, technological innovation, as well as its competitiveness.

TIM: Solidarity for Ukraine, unlimited data and minutes included for customers of Ukrainian nationality

To express its solidarity with the Ukrainian population struck by the current conflict, TIM has made a series of benefits available to its Ukrainian nationality customers in Italy, to help them communicate with friends and family.

Starting March 1, 2022, they will have unlimited data and minutes for a week. To adhere to the initiative, simply answer the specific informative SMS, visit a TIM store or call 119 or visit the My TIM area.

NOTE 45
LIST OF COMPANIES OF THE TIM GROUP

In accordance with Consob Communication DEM/6064293 dated July 28, 2006, the list of companies is provided herein.
The list is divided by type of investment, consolidation method and operating segment.
The following is indicated for each company: name, head office, country and share capital in the original currency. In addition to the percentage ownership of share capital, the percentage of voting rights in the ordinary shareholders' meeting, if different from the percentage holding of share capital, and which companies hold the investment.

Company name	Reg. office	Currency	Share Capital	% Ownership	% of voting rights	Participating companies

CERTIFICATION OF THE CONSOLIDATED FINANCIAL STATEMENTS PURSUANT TO ARTICLE 81-TER OF THE CONSOB REGULATION 11971 DATED MAY 14, 1999, WITH AMENDMENTS AND ADDITIONS

1. We, the undersigned, Pietro Labriola, as Chief Executive Officer, and Giovanni Ronca, as Manager responsible for preparing TIM S.p.A. financial reports, certify, having also considered the provisions of Article 154-bis, paragraphs 3 and 4, of Italian Legislative Decree 58 of February 24, 1998, that:
   - the adequacy in relation to the characteristics of the company and
   - the effective application of the administrative and accounting procedures used in the preparation of the consolidated financial statements for the 2021 fiscal year.

2. TIM has adopted the Internal Control – Integrated Framework Model (2013), issued by the Committee of Sponsoring Organizations of the Treadway Commission, as its framework for the establishment and assessment of its internal control system, with particular reference to the internal controls for the preparation of the financial statements.

3. The undersigned also certify that:

   3.1. the Consolidated Financial Statements at December 31, 2021:

   a) have been prepared in compliance with the international accounting standards adopted by the European Union pursuant to Regulation (EC) 1606/2002 of the European Parliament and Council of July 19, 2002 (International Financial Reporting Standards – IFRS), as well as the legislative and regulatory provisions in force in Italy, including, in particular, the measures enacted for the implementation of Article 9 of Italian Legislative Decree 38 of February 28, 2005;

   b) agree with the results of the accounting records and entries;

   c) provide a true and fair view of the financial condition, the results of operations and the cash flows of the Company and its consolidated subsidiaries;

   3.2. The report on operations contains a reliable operating and financial review of the Company and of the Group, as well as a description of their exposure to the main risks and uncertainties. The Report on Operations also contains a reliable analysis of information concerning significant related-party transactions.

Independent auditor's report pursuant to article 14 of Legislative Decree n. 39, dated 27 January 2010 and article 10 of EU Regulation n. 537/2014
(Translation from the original Italian text)

To the Shareholders of
TIM S.p.A.

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of TIM Group (the Group), which comprise the consolidated statement of financial position as at December 31 ,2021, and the consolidated income statement, the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the financial position of the Group as at December 31, 2021, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards as adopted by the European Union and with the regulations issued for implementing art. 9 of Legislative Decree n. 38/2005.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISA Italia). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of TIM S.p.A. in accordance with the regulations and standards on ethics and independence applicable to audits of financial statements under Italian Laws. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

EY Building a better working world

We identified the following key audit matters:

Key Audit Matter	Audit Response
Impairment test of goodwill – Domestic	
As of December 31, 2021 goodwill amounts to Euro 18,568 million and refers for Euro 18,124 million to the Domestic cash generating unit ("CGU") and for Euro 444 million to the Brazil CGU. Based on the impairment test performed as of December 31, 2021, an impairment loss of Euro 4,120 has been recorded for the Domestic CGU. The processes and methodologies used by the Group to evaluate and determine the recoverable amount of each CGU, are based on assumptions that are in some cases complex and that, due to their nature, imply the use of judgement by Management, in particular with reference to the forecast of future cash flows and to the estimate of the long-term growth and discount rates applied to the future cash flow forecasts. Considering the level of judgment required and the complexity of the assumptions applied in estimating the recoverable amount of goodwill, we considered this area a key audit matter. Disclosures related to the assessment of goodwill are reported in note 4 "Goodwill" and in note 2 "Accounting policies" in the paragraphs "Intangible assets - Goodwill"," Impairment of intangible, tangible and rights of use assets - Goodwill" and "Use of estimates".	Our audit procedures in response to the key audit matter included, among others: ► the assessment of the processes implemented by the Group with reference to the criteria and methodology of the impairment test; ► the validation of the CGUs perimeter and the test of the allocation of the carrying value of the Group's assets to each CGU; ► the assessment of the reasonableness of the future cash flows forecasts, including comparisons with sector data and forecasts, utilized in the fair value determination; ► the assessment of the consistency of the future cash flows forecasts of each CGU with the Group business plan; ► the assessment of forecasts in light of their historical accuracy; ► the assessment of the reasonableness of long-term growth rates and discount rates. The procedures referred to in the previous points also concerned the analysis of the assessments performed by the independent experts appointed by the Group. In performing our analysis, we involved our experts in valuation techniques, who performed an independent recalculation and carried out sensitivity analyses on the key assumptions in order to determine which changes in the assumptions could materially affect the recoverable amount. Lastly, we reviewed the adequacy of the disclosures provided in the notes to the consolidated financial statements with regards to the valuation of goodwill.

EY Building a better working world

Revenue recognition	
TIM Group's revenues amounted to Euro 15,316 million as of December 31, 2021 and refer almost entirely to the telecommunications services rendered to retail and wholesale customers (other telecommunications operators). Procedures over the accounting of revenues required significant focus in the context of our audit procedures due to i) a highly complex accounting process due to the number of commercial offers, the number of underlying application systems and the related reconciliation processes, ii) the presence of certain manual phases in the revenue recognition process, in particular for services provided to large customers and iii) the complexity in estimating commitments connected to certain contracts. The Group provides the relative disclosures in Note 25 "Revenues" of the consolidated financial statements.	Our audit procedures in response to the key audit matter included, among others: ► an understanding of the processes underlying the revenue recognition; ► the understanding and verification of the design and operation of the relevant controls over the revenue recognition process; ► the analysis of the application systems supporting the revenue recognition process; ► the assessment that the accounting policy adopted for the main commercial offers is consistent with the provisions of the reference accounting standard; ► the analysis, on a sample basis, of some significant transactions relating to invoices issued and invoices to be issued, in order to verify that the contractual data and the evidence supporting the actual service rendered and / or goods transferred were consistent with the accounting policy adopted; ► the analysis of the valuation of certain contracts identified as onerous contracts; ► the reconciliation of the management accounts with the accounting records in connection with the main balance sheet items related to customer relations; ► the analysis of the manual journal entries. We also required external confirmations for a sample of customers and transactions. Lastly, we reviewed the adequacy of the disclosure provided in the notes to the consolidated financial statements with regards to the revenue recognition process.
Regulatory disputes	
As of December 31, 2021, TIM Group is involved in several regulatory disputes in progress, many of which are characterized by significant counterparty requests.	Our audit procedures in response to the key audit matter included, among others: ► an understanding of the process put in place by Management for assessing disputes,

Building a better working world

The main disputes concern (i) the 28-day billing proceeding, in which AGCOM ordered TIM to reimburse customers for unused service days, (ii) the I820 proceeding, started by AGCM against TIM and other telco operators, to ascertain a possible conduct restricting market competition and (iii) the A514, and the related "follow-on" proposed by some other OLOs, procedure in which the AGCM charged TIM with conduct aimed at hindering the entry on the market of a new operator. The assessment of the disputes was carried out by Management, as of 31 December 2021, based on the opinion of the external lawyers, as well as considering the latest information available. The estimation of the risks connected to the disputes in which the Group is involved, requires a high degree of judgment by the management and, also considering the complexity of the regulatory framework, we considered this area a key audit matter. Disclosures related to the assessment of the risks relating to the regulatory disputes in which the Group is involved is reported in note 24 "Disputes and pending legal actions, other information, commitments and guarantees".	accompanied by test of the effectiveness of the internal controls relevant for this process; ► inquiries with Management regarding the main assumptions made in connection with disputes; ► the analysis of the legal opinions prepared by external consultants, based on which Management has based its assessments; ► the analysis of the responses received from external lawyers following our external confirmations procedures. Lastly, we reviewed the adequacy of the disclosures provided in the notes to the consolidated financial statements with regards to the disputes in which the Group is involved, based on their compliance with the international accounting standards and their consistency with the results of our audit procedures.
Fiscal disputes in Brazil	
As of December 31, 2021, the TIM Group is involved in several disputes with the Brazilian tax authorities. The maximum potential liability associated with these disputes, as at December 31, 2021, amounts to Euro 2,583. With reference to this potential liability, the Group recognized a provision of Euro 68 million with regards to the risks deemed probable. The assessment of the risk related to the tax disputes in Brazil in which the Group is involved, requires a high degree of judgment by the Management and, also considering the significance of the amounts involved, we considered it to be a key audit matter. Disclosures related to the assessment of the	Our audit procedures in response to the key audit matter included, among others: ► an understanding of the process put in place by Management for assessing disputes, accompanied by test of the effectiveness of the controls relevant for this process; ► inquiries with Management regarding the main assumptions made in connection with disputes; ► the analysis of the legal opinions prepared by external consultants, based on which Management has based its assessments; ► the analysis of the responses to our external confirmations procedures received from external lawyers, also with the involvement

Building a better
working world

risks relating to the fiscal disputes in which the Group is involved is reported in note 24 "Disputes and pending legal actions, other information, commitments and guarantees".	of our experts in tax disputes. Lastly, we reviewed the adequacy of the disclosures provided in the notes to the consolidated financial statements with regards to the disputes in which the Group is involved, based on their compliance with the international accounting standards and their consistency with the results of our audit procedures.
Recoverability of deferred tax assets	
As of December 31, 2021, deferred tax assets amount, net of impairment, to Euro 3,513 million in the consolidated financial statements. The recoverability analysis of the deferred tax assets performed as of December 31, 2021, led to an impairment loss of Euro 3,825. Deferred tax assets refer to the temporary deductible differences between the book and fiscal values of assets and liabilities in the financial statements. The recoverability of the carrying amount of the deferred tax assets is subject to management's evaluation and is based on the estimations of the future taxable income expected in the years in which them will be reversed. The processes and methodologies used to evaluate and determine the recoverable amount of these assets, are based on assumptions that are in some cases complex and that, due to their nature, imply the use of judgement by Management, in particular with reference to the consistency of the forecasts of future taxable income expected by the Group with those included in the business plan. Considering the level of judgment required and the complexity of the assumptions applied in estimating future taxable amount used to determine the recoverability of the deferred tax assets, we considered this area a key audit matter. Disclosures related to the assessment of recoverability of deferred tax assets are reported in note 2 "Accounting policies" in the paragraphs "Income tax expense (current and	Our audit procedures in response to the key audit matter included, among others: ► the assessment of the reasonableness of the assumptions underlying the estimation of future taxable income and the reconciliation with the figures included in the Group's business plan, taking into account the regulatory changes that took place during 2021 ; ► the assessment of the reasonableness of the accuracy of the forecasts compared with the prior periods; ► the assessment of the Management calculations. Lastly, we reviewed the adequacy of the disclosures provided in the notes to the consolidated financial statements with regards to the recoverability of deferred tax assets.

Building a better working world

deferred)" and "Use of estimates" and in note 11 "Income tax expense (current and deferred)".

Sale of 51% equity interest in I-System

On November 16, 2021, the Group sold the 51% of its equity interest held in I-System, generating a gain of Euro 119 million, which was measured as the difference between the fair value of the consideration received and the carrying value of the net assets of I-System. The determination of the carrying value of the net assets of I-System involved identifying and measuring the assets, the liabilities and the goodwill allocated to I-System as of the closing date of the transaction.

Considering the level of judgment required in defining the portion of the Brazil CGU Goodwill to be allocated to I-System and in determining the accounting analysis and the implications of the loss of control, we considered this area a key audit matter.

Disclosures related to the transaction are reported in note 8 "Investments".

Our audit procedures in response to the key audit matter included, among others:

- an understanding of the process put in place by Management for selling I-System, accompanied by tests of the effectiveness of the controls relevant for this process;
- the analysis of the transaction agreement;
- the analysis of the accuracy of the gain resulting from the transaction;
- the analysis of key inputs, data and assumptions used by Management to determine the allocation of goodwill to I-System;
- the assessment of the Management's application of the criteria for the loss of control by evaluating contrary evidence;
- the analysis of the Management´s assessment of the master service agreement under an IFRS 16 perspective.

In performing our analysis, we involved our tax experts to evaluate the tax impacts of the transaction.

Lastly, we reviewed the adequacy of the disclosures provided in the notes to the consolidated financial statements.

Responsibilities of Directors and Those Charged with Governance for the Consolidated Financial Statements

The Directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with International Financial Reporting Standards as adopted by the European Union and with the regulations issued for implementing art. 9 of Legislative Decree n. 38/2005, and, within the terms provided by the law, for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

The Directors are responsible for assessing the Group's ability to continue as a going concern and, when preparing the consolidated financial statements, for the appropriateness of the going concern assumption, and for appropriate disclosure thereof. The Directors prepare the consolidated financial

statements on a going concern basis unless they either intend to liquidate the Parent Company TIM S.p.A. or to cease operations, or have no realistic alternative but to do so.

The statutory audit committee ("Collegio Sindacale") is responsible, within the terms provided by the law, for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but it is not a guarantee that an audit conducted in accordance with International Standards on Auditing (ISA Italia) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with International Standards on Auditing (ISA Italia), we have exercised professional judgment and maintained professional skepticism throughout the audit. In addition:

- we have identified and assessed the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, designed and performed audit procedures responsive to those risks, and obtained audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- we have obtained an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Group's internal control;
- we have evaluated the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors;
- we have concluded on the appropriateness of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to consider this matter in forming our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern;
- we have evaluated the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- we have obtained sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We have communicated with those charged with governance, identified at an appropriate level as

EY
Building a better working world

required by ISA Italia, regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We have provided those charged with governance with a statement that we have complied with the ethical and independence requirements applicable in Italy, and we have communicated with them all matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we have determined those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We have described these matters in our auditor's report.

Additional information pursuant to article 10 of EU Regulation n. 537/14

The shareholders of TIM S.p.A., in the general meeting held on March 29, 2019, engaged us to perform the audits of the separate and consolidated financial statements for each of the years ending December 31, 2019 to December 31, 2027.

We declare that we have not provided prohibited non-audit services, referred to article 5, par. 1, of EU Regulation n. 537/2014, and that we have remained independent of the Group in conducting the audit.

We confirm that the opinion on the consolidated financial statements included in this report is consistent with the content of the additional report to the audit committee (Collegio Sindacale) in their capacity as audit committee, prepared pursuant to article 11 of the EU Regulation n. 537/2014.

Report on compliance with other legal and regulatory requirements

Opinion on the compliance with Delegated Regulation (EU) 2019/815

The Directors of TIM S.p.A. are responsible for applying the provisions of the European Commission Delegated Regulations (EU) 2019/815 for the regulatory technical standards on the specification of a single electronic reporting format (ESEF – European Single Electronic Format) (the "Delegated Regulation") to the consolidated financial statements, to be included in the annual financial report.

We have performed the procedures under the auditing standard SA Italia n. 700B, in order to express an opinion on the compliance of the consolidated financial statements with the provisions of the Delegated Regulation.

In our opinion, the consolidated financial statements have been prepared in the XHTML and have been marked-up, in all material aspects format in compliance with the provisions of the Delegated Regulation.

Opinion pursuant to article 14, paragraph 2, subparagraph e), of Legislative Decree n. 39 dated 27 January 2010 and of article 123-bis, paragraph 4, of Legislative Decree n. 58, dated 24 February 1998

The Directors of TIM S.p.A. are responsible for the preparation of the Report on Operations and of the Report on Corporate Governance and Ownership Structure of TIM Group as at December 31, 2021,

EY
Building a better working world

including their consistency with the related consolidated financial statements and their compliance with the applicable laws and regulations.

We have performed the procedures required under audit standard SA Italia n. 720B, in order to express an opinion on the consistency of the Report on Operations and of specific information included in the Report on Corporate Governance and Ownership Structure as provided for by article 123-bis, paragraph 4, of Legislative Decree n. 58, dated 24 February 1998, with the consolidated financial statements of TIM Group] as at December 31 ,2021 and on their compliance with the applicable laws and regulations, and in order to assess whether they contain material misstatements.

In our opinion, the Report on Operations and the above mentioned specific information included in the Report on Corporate Governance and Ownership Structure are consistent with the consolidated financial statements of TIM Group as at December 31, 2021, and comply with the applicable laws and regulations.

With reference to the statement required by art. 14, paragraph 2, subparagraph e), of Legislative Decree n. 39, dated 27 January 2010, based on our knowledge and understanding of the entity and its environment obtained through our audit, we have no matters to report.

Statement pursuant to article 4 of Consob Regulation implementing Legislative Decree n. 254, dated 30 December 2016

The Directors of TIM S.p.A. are responsible for the preparation of the non-financial information pursuant to Legislative Decree n. 254, dated 30 December 2016. We have verified that non-financial information have been approved by Directors.

Pursuant to article 3, paragraph 10, of Legislative Decree n. 254, dated 30 December 2016, such non-financial information are subject to a separate compliance report signed by us.

Turin, March 16, 2022

EY S.p.A.
Signed by: Ettore Abate, Auditor

This report, that includes the opinion on the consolidated financial statements of EIP S.p.A. and the opinion on the TIM S.p.A.'s compliance with other legal and regulatory requirements as applicable to our audit, has been translated into the English language solely for the convenience of international readers. Accordingly, we express no such opinions in respect of the English translation of the consolidated financial statements of TIM S.p.A. and XHTML format thereof.

NOTE 1
GENERAL INFORMATION

During the meeting held on July 6, 2022, the Board of Directors of TIM S.p.A. approved the strategic objective of reorganizing the Group in Italy with a view to overcoming the vertical integration and conferred a mandate on the CEO to assess and submit to the administrative body for all necessary resolutions, any transactions or possible transfer and valuation agreements for certain Group assets, with a view to achieving this strategic objective.

On November 3, 4 and 5, 2023, the Board of Directors of TIM S.p.A., at the outcome of an extensive and thorough examination, conducted with the assistance of leading financial and legal advisors, examined and accepted the binding offer submitted on October 16, 2023 by Kohlberg Kravis Roberts & Co. L.P. ("**KKR**") for the acquisition of TIM's fixed network assets (the so-called "**NetCo**" perimeter and hereinafter also referred as the "**NetCo business**"), by Optics BidCo (a subsidiary of KKR and with additional investor Azure Vista, a wholly owned subsidiary of Abu Dhabi Investment Authority).

In execution of the resolutions adopted, TIM S.p.A. signed the Transaction Agreement ("**TA**") relating to NetCo with Optics BidCo which regulates the followings steps (collectively "**The Transaction**"):

- the contribution by TIM S.p.A. of a business unit - consisting of activities relating to the primary network, wholesale activity and the entire shareholding in the subsidiary Telenergia S.r.l. - in FiberCop S.p.A., a company that already manages the activities relating to the network secondary fiber and copper, and
- the simultaneous purchase by Optics Bidco of the entire shareholding held by TIM S.p.A. in FiberCop S.p.A. itself, following the aforementioned transfer (FiberCop post transfer of the business unit).

The transaction agreement provides that on the closing date a Master Services Agreement ("**MSA**") will be signed which will regulate the terms and conditions of the services that will be provided by NetCo to TIM S.p.A. following the completion of the transaction, which effects have not been reflected in the present document.

The completion of the transaction is expected in the summer of 2024, once the preliminary activities have been completed and the conditions precedent have been satisfied (completion of the transfer of the primary network, Antitrust authorization, authorization regarding distortive foreign subsidies); the Golden Power authorization was received, as per the press release issued on January 17, 2024.

For the purpose of completing the transaction, this special purpose combined financial statements (the combined carve out financial information) has been prepared for the purpose of preparing the documentation to be included in the Exchange Offering Memorandum. The historical data have been extracted from the audited general purpose financial statements of the TIM Group for the years ended 31 December 2023 and 2022.

It should be noted that:

- up to the effective date of the Transaction, NetCo never operated independently as a separate entity;
- it does not constitute an operating segment within the TIM Group pursuant to IFRS 8 - Operating segments;
- the carve-out entity includes only the business that will form the basis for the Transaction, as agreed between the parties, which may differ from the activities that were part of the business in the periods presented;
- revenues, other than those from third parties, cannot be identified separately in the overall revenue of the TIM Group;
- some categories of historical costs could have been identified only on the basis of various and complex assumptions which would have rendered the calculation difficult and highly subjective;
- the financial information presented are not representative of how NetCo would have performed had it operated as a separate entity and are not indicative of NetCo's future performance.

The NetCo Combined Carve-out Financial Information do not reflect the impact of any changes to the income statements and statement of financial position that might occur as a result of purchase accounting adjustments to be applied as a result of the Transaction by the acquiring entity.

The combined statement of cash flow, the combined statement of changes in net invested capital and the combined statement of comprehensive income have not been prepared because are not suitable to provide any useful information to the users of the present document considering the purpose of this financial information as described below.

NetCo business overview

NetCo's business spans a comprehensive range of activities over its fixed-line network, leveraging broadband and ultrabroadband technologies. NetCo offers connectivity services (for voice and data related services) to telecommunications operators, develops fiber optic networks for wholesale clients and provides active access services and associated equipment to its primary and secondary networks. In addition to these services, NetCo manages the maintenance and repair of its fixed-line network infrastructure and the care of related offices and buildings, as well as the provision of network engineering functions.

NetCo's network infrastructure consists of two main components: the backbone and the access networks. The backbone consists mainly of optical fibers and transport nodes. The access network is split in two sections, primary and secondary access networks, and consists of copper cables, optical cables and access nodes.

NetCo is expected to generate certain revenues and incur certain costs following the Transactions (or when run as an independent business), including but not limited to the following:

- **Revenues from public administrations** related to the access point, for both regulated and non-regulated wholesale services;
- **Revenues from other OLOs** mainly related to access rental, delivery & activation services for traditional and advanced connectivity, ordinary repair and maintenance of fixed network, network related office, interconnection costs related to traditional voices;
- **Revenues from TIM Domestic ServCo**[1] mainly related to access rental, delivery & activation services for traditional and advanced connectivity, ordinary repair and maintenance of fixed network, network related office, office building and energy consumption, network engineering, interconnection costs related to traditional voices, based on the conditions set in the Master Services Agreement - MSA whose impacts are not reflected in the present document;
- **Costs** related to both fiber and copper network activation and maintenance activities, ultrabroadband circuit expansion and maintenance activities, infrastructure maintenance;
- **Costs towards TIM Domestic ServCo** related to the use and hosting in data centers, security services and ICT services, based on the conditions set in the MSA whose impacts are not reflected in the present document.

Financial information formats

The financial information formats adopted are consistent with those indicated in IAS 1. In particular:

- the Carve Out **Combined Statements of Financial Position** have been prepared by classifying assets and liabilities according to the "current and non-current" criterion;
- the Carve Out **Separate Combined Income Statement** has been prepared by classifying operating costs by nature of expense.

NOTE 2

SUMMARY OF THE CARVE OUT CRITERIA AND ACCOUNTING POLICIES ADOPTED FOR THE PREPARATION OF THE FINANCIAL INFORMATION

Basis for preparation

The NetCo combined carve out financial information for the year 2023 and 2022 have been prepared on a going concern basis.

The NetCo combined carve out financial information have been extracted from the 2023 and 2022 TIM Group Consolidated Financial Statements which were prepared in accordance with the International Accounting Standards, meaning all applicable "International Financial Reporting Standard", all applicable "International Accounting Standard" (IAS), all applicable interpretations of the "International Financial Reporting Interpretations Committe" (IFRIC), previously called "Standing Interpretations Committe" (SIC) which were subject to approval by the European Union pursuant to the procedure set out in Regulation (EC) no. 1606/2002 of the European Parliament and of the European Council of July 19, 2002 (hereinafter "**IFRS**"), and with the application of the specific carve-out criteria illustrated below.

The carve-out entity includes only the business that will form the basis for the Transaction, as part of the Transaction Agreement agreed between the parties, including an allocation of TIM's indirect structure costs. In particular, the elements of the statement of financial position, as well as the revenues and costs have been allocated, where possible and applicable, using the various methodologies detailed below.

As a result the carve-out entity may differ from the activities that were part of the business in the periods presented and therefore these carve-out financial statements are not general purpose and may not be suitable for another purpose.

This document includes the combined income statements and statement of financial position and the accompanying notes thereto of NetCo as of and for the year ended December 31, 2023, including comparative figures as of and for the year ended December 31, 2022 (the "**NetCo Combined carve out Financial Information**"), which have been prepared using the recognition and measurement criteria set forth in the accounting standards applied in preparing the 2023 TIM Group Consolidated Financial Statements.

The combined statement of cash flow, the combined statement of changes in net invested capital and the combined statement of comprehensive income have not been prepared because are not suitable to provide any useful information to the users of the present document considering the purpose of this financial information as described above.

[1] TIM Domestic ServCo includes the Domestic perimeter of TIM Group after the reorganization process, focused on commercial activities in Enterprise market and fixed and mobile commercial activities in Consumer and Small and Medium Business retail market.

The NetCo combined carve out financial information were prepared in euros, which is the currency of the prevailing economic environment in which the business is conducted. All amounts included in this document are presented in millions of euros, unless otherwise indicated.

The NetCo combined carve out financial information consist of:

- The business constituted by activities relating to TIM's fixed primary network (hereinafter "NetCo ramo carve out", or "NetCo Business")
- FiberCop S.p.A.
- Telenergia S.r.l.

Allocation criteria for the combined carve out financial information

The preparation of the NetCo ramo carve out financial information (i.e., the TIM fixed primary network), used for the purpose of the NetCo combined carve out financial information, required the use of certain allocation criteria as described below.

Financial information related to FiberCop S.p.A. and Telenergia S.r.l. were extracted from the historical financial information prepared by these entities for their inclusion in the consolidated financial statements of TIM Group; consequently, no allocation criteria were necessary.

Combined carve out Statement of Financial Position

As aforementioned, for the purpose of the NetCo combined carve outStatement of Financial Position, the financial figures related to FiberCop S.p.A. and Telenergia S.r.l. were the respective historical individual financial information, while for the NetCo ramo carve out financial information, the assets and liabilities included in the combined carve out financial information as of December 31, 2023 and 2022 were attributed to the NetCo perimeter based on the following criteria:

- assets and liabilities directly attributable to the NetCo perimeter were identified based on their nature, asset class and technical analysis (e.g. fixed assets related to the primary network, employee liabilities related to personnel employed and fully dedicated to the primary network business),
- assets and liabilities not directly attributable to the NetCo perimeter were allocated by using allocation drivers.

With specific reference to the assets and liabilities not directly attributable, the main allocation driver was the Full Time Equivalent ("**FTE**") contributed to the perimeter, except for mixed-use software that were allocated by using a percentage estimated by TIM engineering department.

In more details, with specific reference to the NetCo ramo carve out financial information included in the NetCo combined carve out financial information, the following allocation criteria have been adopted:

- **Goodwill:** for the purpose of the preparation of NetCo combined carve out financial information, no Goodwill has been allocated to the carve-out business. The NetCo combined carve out financial information does not consider any allocation of goodwill on NetCo and any adjustment as resulting from the purchase accounting process to be applied by the acquiring entity as a consequence of the Transaction;
- **PP&E and intangible assets**: this class of assets includes mainly primary network (copper and fiber), underground and submarine cables, all real estate assets except for data centers, patents and intellectual property rights; such assets have been allocated primarily with a line-by-line direct allocation for the items 100% referable to the NetCo business based on the asset class or through a specific technical analysis, while a portion of such assets has been allocated based on the following drivers: FTE contributed to the perimeter and, for mixed-use software only, a percentage estimated by TIM engineering department;
- **Rights-of-Use assets**: this class of assets is the result of an allocation made primarily on a with a line-by-line basis (direct allocation) for the items 100% referable to the primary network business (mainly lands, buildings and software); for rights-of-use related to vehicles, the allocation has been made based on the FTE contributed to the perimeter;
- **Inventories**: the allocation has been made considering the nature of the technical equipment dedicated and used to conduct the infrastructure transferred to the perimeter (i.e., direct allocation without using any driver);
- **Trade receivables and Trade payables**: the allocation is based on the nature of such receivables/payables (e.g. wholesale business), with the exclusion of certain items as defined within the Transaction Agreement (i.e., trade receivables overdue by more than 365 days, including their related credit notes and bad debt provision and trade payables overdue by more than 365 days that involve suppliers who are also customers having overdue receivables by more than 365 days); VAT payables and receivables were not considered; bad debt provision has been allocated consistently with the allocation of the related trade receivables;
- **Other assets and liabilities**: the allocation is based on the nature of such assets/liabilities (e.g. deferred activation costs and deferred revenues related to the perimeter);
- **Provisions**: as defined within the Transaction Agreement, only the provision related to the asset retirement obligation has been allocated and includes the present value of the expected costs of dismantling/ restoring the premises that are part of the perimeter. Based on definition agreed in the Transaction Agreement, certain provisions have been excluded from the carve-out perimeter although related to the NetCo business. Those items include in particular some personnel provision, some provision accrual, some bad debt provision;
- **Provisions for employee benefits**: it has been allocated primarily based on FTE dedicated to the perimeter;

- **Deferred tax assets and liabilities**: the allocation has been based on the assets/liabilities included in the carve-out perimeter, except for DTA of Telenergia relate to losses carried forward that have been excluded from the perimeter according to the TA's definition.

The NetCo combined carve out financial information does not include costs and payables related to the employees terminated in past years, including 2022 and 2023, as a result of the restructuring plans. Also, the NetCo combined carve out financial information does not include any amounts related to the advance payments received by the TIM Group at the end of 2023, related to NRRP within the framework of the tenders for the Italia 1 Giga Plan and the Italia 5G Backhauling Plan nor any guarantees required to be issued in case of advance payments attributable in relation to those tenders.

The Carve-out Financial Statements of the NetCo business are prepared on a carve-out basis from financial information of the Parent. All amounts presented relate to companies or the relevant portions of companies which are directly or indirectly controlled by the Parent; all intercompany accounts within the NetCo business and transactions within the NetCo business are eliminated.

For the purpose of the preparation of NetCo combined carve out financial information, no financial liabilities for financing contracts and others have been allocated to the NetCo business, except for the portion related to the right of used assets allocated to the NetCo business, accounted in accordance with IFRS16.

The "Invested Capital" of the NetCo business represents the net Investment of the Parent in the business. The Parent's historical retained earnings and accumulated other comprehensive income related to the NetCo business are included within "Invested capital" as separate presentation would not be meaningful.

Combined carve out Income Statement

As aforementioned, for the purpose of the NetCo combined carve outIncome Statement, the financial figures related to FiberCop S.p.A. and Telenergia S.r.l. were the respective historical individual financial information prepared for their inclusion in the consolidated financial statements of the TIM Group, while for the NetCo ramo carve out financial information, the profit and loss captions included in the combined carve out financial information as at December 31, 2023 and 2022 were attributed to the NetCo perimeter based on certain criteria described below:

- **Revenues**: revenues from other licensed operators (OLOs) can be identified separately in the overall revenues of TIM and, therefore, the determination of the amount attributable to the NetCo ramo carve out did not entail the use of any allocation criteria. As such, revenues related to the NetCo ramo carve out refer to wholesale revenues from access to copper and fiber network towards OLOs. Revenues other than those from OLOs cannot be allocated since the current contracts in place with customers do not explicitly distinguish the portion related to or attributable to the network access, delivery & activation services for traditional and advanced connectivity, ordinary repair and maintenance of fixed network, energy consumption, network engineering and interconnection costs related to traditional voice services. Therefore, the revenues associated with the activities carried out by the NetCo perimeter for the years 2022 and 2023 have not been presented for the purposes of preparing the combined carve out financial information.

- **Costs**: costs for the purchase of materials and services, employee benefits expenses and other operating costs that can be promptly identified and directly attributable to the NetCo perimeter have been included in the combined carve out financial information without the use of any driver/allocation criteria; however, in circumstances where an allocation parameter was deemed more appropriate, the FTE contributed to the NetCo perimeter has been used as driver.

- **Depreciation and amortization**: the allocation has been made consistently with the criteria set out for PP&E and Intangible assets.

- **Internally generated assets**: these items were derived on the basis of the relevant internally generated asset class allocated to the perimeter.

- **Income taxes**: the NetCo ramo carve out shows a net loss for both years 2023 and 2022 and as such no current and deferred taxes have been recognized.

Below is the detail of the allocations through drivers on Income Statements. Please note that such allocations enterely refer to NetCo ramo carve out.

Profit & Loss NetCo Carve out by allocation				
	FY 2023		FY 2022	
(million euros)	NetCo Combined	*of which Driver-allocated*	NetCo Combined	*of which Driver-allocated*
Revenues	2,119	43	1,896	38
Other income	92	10	99	6
Total operating revenues and other	**2,211**	**53**	**1,995**	**44**
Acquisition of goods and services	(833)	(104)	(826)	(113)
Employee benefit expenses	(1,041)	—	(1,056)	(2)
Internally generated assets	204	—	217	—
Other expenses	(79)	(31)	(85)	(29)
EBITDA	**462**	**(82)**	**245**	**(100)**
Depreciation and amortization	(1,573)	(12)	(1,535)	(13)
EBIT	**(1,111)**	**(94)**	**(1,290)**	**(113)**

Net financial charges and income taxes were directly allocated without using any drivers.

The allocations through drivers on Balance sheets refer to tangible assets for 24 million euros in 2023 and 25 million euros in 2022 (on a total amount of approximately of 9,720 million euros in 2023 and 9,252 million euros in 2022) and are related to NetCo ramo carve out.

Accounting policies for the combined carve out financial information

Intangible assets

Goodwill

In accordance with IFRS 3 (Business Combinations), goodwill will be recognized in the NetCo combined carve out financial information at the acquisition date (including through mergers or contributions) of companies or business units and will be calculated as the difference between the consideration paid (measured in accordance with IFRS 3, generally determined on the basis of the fair value at the acquisition date) and the fair value at the acquisition date of the identifiable assets acquired net of the identifiable liabilities assumed.

As mentioned above, for the purpose of the preparation of NetCo combined carve out financial information, no Goodwill has been allocated to the carve out business. The NetCo combined carve out financial information does not consider any allocation of goodwill on NetCo and any adjustment as resulting from the purchase accounting process to be applied by the acquiring entity as a consequence of the Transaction. The exercise to determine the fair value of the net assets acquired will be carried out only after the Acquisition Closing Date.

Development costs

Costs incurred internally for the development of new products and services represent either intangible assets (mainly costs for software development) or tangible assets. These costs are capitalized only when all the following conditions are satisfied: i) the cost attributable to the development phase of the asset can be measured reliably, ii) there is the intention, the availability of financial resources and the technical ability to complete the asset and make it available for use or sale, and iii) it can be demonstrated that the asset will be able to generate future economic benefits. Capitalized development costs comprise only incurred expenditures that can be attributed directly to the development process for new products and services.

Capitalized development costs are depreciated/amortized systematically over the estimated product or service life, so that the depreciation/amortization method reflects the way in which the asset's future economic benefits are expected to be consumed by the entity.

Other intangible assets with a finite useful life

Other purchased or internally-generated intangible assets with a finite useful life are recognized as assets, in accordance with IAS 38 (Intangible Assets), when the use of the asset is likely to generate future economic benefits and when the cost of the asset can be reliably measured.

Such assets are recorded at purchase or production cost and amortized on a straight-line basis over their estimated useful lives; the amortization rates are reviewed annually and revised if the current estimated useful life is different from that estimated previously. The effect of such changes is recognized prospectively in the separate combined income statement.

Tangible assets

Property, plant and equipment

Property, plant and equipment are recognized at purchase or production cost. Subsequent expenditures are capitalized only if they increase the future economic benefits embodied in the related item of property, plant and equipment. All other expenditures are recognized in the separate combined income statement as incurred.

The cost of these assets also includes the expected costs of dismantling the asset and restoring the site, if a legal or constructive obligation exists. The corresponding liability is recognized at its present value in a provision for risks and charges in the liabilities. The recognition in the separate combined income statement of the capitalized expenditure is done over the useful life of the related tangible assets through their depreciation.

The calculation of estimates for dismantling costs, discount rates and the dates in which such costs are expected to be incurred is reviewed annually at each financial year-end. Changes in the above liability must be recognized as an increase or decrease of the cost of the related asset; the amount deducted from the cost of the asset must not exceed its carrying amount. The excess, if any, is recorded immediately in the separate combined income statement, conventionally under the line item "Depreciation and Amortization".

Depreciation is calculated on a straight-line basis over the estimated useful life of the assets.

Depreciation rates are reviewed annually and revised if the current estimated useful life is different from that estimated previously. The effect of such changes is recognized prospectively in the separate combined income statement.

Land, including land pertaining to buildings, is not depreciated.

Rights of use assets

In accordance with IFRS 16, lease liabilities are presented through the recognition of a financial liability in the statement of financial position consisting in the present value of future lease payments, against the recognition of the right of use of the leased asset.

On the commencement date of the lease, the right of use is recognized at cost including: the amount of the initial measurement of the lease liability, any lease payments made at or before the commencement date, initial direct costs incurred for the signature of the lease and the present value of the estimated restoration and dismantling costs set out in the lease, less any incentives.

Subsequently, the right of use is amortized over the term of the lease (or the useful life of the asset, if lower), subject to impairment and adjusted for any remeasurement of the lease liability.

Consistent with TIM Group accounting policies, NetCo has attracted, under the scope of application of IFRS 16, if the criteria and the requirements laid down by the standard are met, the contract concerning the spectrum of transmission frequencies on optic fiber carriers. This approach is functional to the very innovative specificity of these types of contract, concerning hardware infrastructure and optical transmission.

Capitalized borrowing costs

Under IAS 23 (*Borrowing Costs*), NetCo capitalizes borrowing costs only if they are directly attributable to the acquisition, construction or production of an asset that takes a substantial period of time (conventionally more than 12 months) to get ready for its intended use or sale.

Capitalized borrowing costs are recorded in the separate combined income statement and deducted directly from the "finance expenses" line item to which they relate.

Impairment of intangible, tangible and rights of use assets

Tangible and intangible assets with finite useful lives and rights of use assets

At the end of each reporting period, NetCo assesses whether there is any indication that an asset – whether intangible or tangible with finite useful lives or a right of use – may be impaired. Both internal and external sources of information are used for this purpose. Internal sources include obsolescence or physical deterioration, and significant changes in the use of the asset and the operating performance of the asset compared to estimated performance. External sources include the market value of the asset, any changes in technology, markets or laws, trends in market interest rates and the cost of capital used to evaluate investments.

If there is any indication that an asset – whether tangible or intangible with finite useful lives or a right of use – has been impaired, then its carrying amount is reduced to its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell, and its value in use. In calculating the value in use, the estimated future cash flows are discounted to present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or right. If it is not possible to estimate the recoverable amount, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. Impairment losses are recognized in the separate combined income statement.

When the reasons for the impairment subsequently cease to exist, the carrying value of the asset/right-of-use or of the cash generating unit is increased up to the new estimate of the recoverable amount which, however, cannot exceed the amount that would have been determined had no impairment loss been recognized. The reversal of an impairment loss is recognized as income in the separate combined income statement.

Financial instruments

Cash and cash equivalents

Cash and cash equivalents are recorded, according to their nature, at nominal value or amortized cost.

Cash equivalents are short-term and highly liquid investments that are readily convertible to known amounts of cash, subject to an insignificant risk of change in value and their original maturity or the remaining maturity at the date of purchase does not exceed 3 months.

Impairment of financial assets

At every closing date, assessments are made as to whether there is any objective evidence that a financial asset or a group of financial assets has been impaired.

The impairment of financial assets is based on the expected credit loss model.

In particular, impairment on trade receivables and on contract assets is carried out using the simplified approach that involves estimating the loss expected over the life of the receivable at the time of initial recognition and on subsequent measurements. For each customer segment, the estimate is principally made by calculating the average expected uncollectibility, based on historical and statistical indicators, possibly adjusted using forward-looking elements. For some categories of receivables characterized by specific risk elements, specific measurements are made on individual credit positions.

Financial liabilities

Financial liabilities include financial payables, including payables for advances on assignments of receivables where the assignment does not transfer substantially all the risks and rewards, as well as other financial liabilities, and liabilities in respect of assets recognized under finance leases recognized in accordance with IFRS 16.

In accordance with IFRS 9, they also include trade and other payables.

Reverse factoring transactions are also classified under trade payables. NetCo has reverse factoring agreements in place through which it gives its bank partners a mandate to pay its suppliers as invoices become due. Suppliers participating in these programs have the rights to sell (without any cost for NetCo) receivables

due from NetCo. They can exercise this right at their total discretion and incurring all the costs to benefit from collection before the contractual due date.

Financial liabilities are initially recognized at fair value and subsequently measured at amortized cost.

Transfer of receivables

NetCo transfers receivables through factoring and securitization agreements. These transfers, in the majority of cases, are characterized by the transfer of substantially all the risks and rewards of ownership of the receivables to third parties, therefore meeting the requirements of IFRS 9 for derecognition. Special service agreements, under which the purchasers grant NetCo a mandate to oversee the collection and management of receivables, have been entered into to maintain the relationship between NetCo and its customers.

Inventories

Inventories are measured at the lower of purchase or production cost and estimated realizable value; the cost is determined using the weighted average cost formula for each movement, while the estimated realizable value is determined by observing general prices at the end of the year. Provision is made for obsolete and slow-moving inventories based on their expected future use and estimated realizable value.

Employee benefits

Provision for employee severance indemnity

Employee severance indemnity, mandatory for Italian companies pursuant to Article 2120 of the Italian Civil Code, is deferred compensation based on the employee's years of service and on the compensation earned by the employee during the service period.

Under IAS 19 (Employee Benefits), the employee severance indemnity as calculated is considered a "Defined benefit plan" and the related liability recognized in the statement of financial position (Provision for employee severance indemnities) is determined by actuarial calculations.

The remeasurements of actuarial gains and losses are recognized in other components of the Statements of Comprehensive income. Service cost of Italian companies that employ less than 50 employees, as well as interest expenses related to the "time value" component of the actuarial calculations (the latter classified as Finance expenses), are recognized in the separate combined income statement.

Starting from January 1, 2007, the Italian Law gave employees the choice to either allocate their accruing indemnity to supplementary pension funds or it as an obligation of NetCo. Companies that employ at least 50 employees must transfer the employee severance indemnity to the "Treasury fund" managed by INPS, the Italian Social Security Institute. Consequently, the Group's obligation to INPS and the contributions to supplementary pension funds take the form, under IAS 19, of "Defined contribution plans".

Provisions

NetCo records provisions for risks and charges when, having a current legal or constructive obligation to a third party, as a result of a past event, an outflow of NetCo resources is likely to be required to meet that obligation, and when the amount of the obligation can be estimated reliably. Provisions for risks and charges also include those established in the event that the company should stipulate contracts that thereafter became onerous, the non-discretionary costs of which necessary to fulfill the commitments made, exceeding the economic benefits expected from such contracts.

Government grants

Government grants are recognized when there is a reasonable certainty that they will be received and that NetCo will satisfy all the conditions established for their granting by the government, government agencies and equivalent local, national or international entities.

Government grants are systematically recognized in the separate income statements over the periods in which NetCo recognizes the expenses that the grants are intended to offset as costs.

Government grants related to assets received for the acquisition and/or construction of non-current tangible assets are recorded as deferred income in the statement of financial position and systematically credited to the separate income statements over the useful life of the systems the grants relate to.

Revenues

Taking into account the contents of section "Allocation criteria for the combined carve out financial information" in relation to the failure to measure activities carried out in favor of TIM in the years 2023 and 2022, revenues are the gross inflows of economic benefits during the period arising in the course of the ordinary activities.

Amounts collected on behalf of third parties, such as sales taxes, goods and services taxes and value added taxes, are not economic benefits which flow to the entity and do not result in increases in equity. Therefore, they are excluded from revenues.

The process underlying the recognition of revenues follows the steps set out in IFRS 15:

- **identification of the contract**: this takes place when the parties approve the contract (with commercial substance) and identify the respective rights and obligations: in other terms, the contract must be legally binding, the rights to receive goods and/or services and the terms of payment can be clearly identified, and NetCo considers receipt of payment as probable;

- **identification of the performance obligations**: the main performance obligations identified, i.e. promises to transfer goods and services that are distinct, are services rendered to wholesale customers;
- **determination of the transaction price**: this is the total amount contracted with the other party regarding the entire contractual term; NetCo has determined that the contractual term is the one arising from the contractual obligations between the parties or, in lack of these obligations, it is by convention one month;
- **allocation of the transaction price to the performance obligations**: the allocation is made proportionately to the respective stand-alone selling prices calculated based on the list prices (if present) or estimated by applying an appropriate margin to the cost of purchase/production of the good/service.
- **recognition of revenues**: revenues are stated net of discounts, allowances, and returns in connection with the characteristics of the type of revenue. Revenues from services rendered are recognized in the separate income statements according to the stage of completion of the service, that is based on actual consumption. Traffic revenues from interconnection are reported gross of the amounts due to other TLC operators. Revenues for services rendered to wholesale customers are generally invoiced on a monthly basis and due 60 days after the date of issue.

  The recognition of revenues can generate the recognition of an asset or liability deriving from contracts. In particular:

  - Contract assets are the right to a consideration in exchange for goods or services that have been transferred to the customer, when the right is conditioned on something other than the passage of time;
  - Contract liabilities are the obligation to transfer goods or services to the customer for which the Group has received (or for which it is due) a consideration from the customer.

Contract costs (incremental costs of obtaining a contract and costs to fulfill a contract; mainly technical activation costs and costs for sales network commissions) are deferred and recognized through separate combined income statement depending on the expected term of the contractual relationship with the customers. The TIM Group avails of the practical expedient, permitted under IFRS 15, of recognizing the incremental costs of obtaining a contract in the combined income statement if the amortization period is one year or less.

The recoverability of contract assets and deferred costs is periodically assessed.

Research and advertising costs

Research and advertising costs are directly expensed to the separate combined income statement in the year in which they are incurred.

Finance income and expenses

Finance income and expenses are recognized on an accrual basis and include: interest accrued on the related financial assets and liabilities using the effective interest rate method; changes in the fair value of other financial instruments measured at fair value through the income statement.

Income tax expense (current and deferred)

Income tax expense includes all taxes calculated on the basis of the taxable income of FiberCop S.p.A. and Telenergia S.r.l., while for NetCo ramo carve out, tax expenses are nil considering that the theoretical taxable basis is negative for both years 2022 and 2023.

Deferred tax liabilities/assets are recognized using the "Balance sheet liability method". They are calculated on all the temporary differences that arise between the taxable base of assets and liabilities and the related carrying amounts in the combined financial information.

Tax assets and liabilities are offset, separately for current and deferred taxes, when income tax expense is levied by the same tax authority and when there is a legally enforceable offsetting right. Tax assets and deferred tax liabilities are determined by adopting the tax rates expected to be applicable in the respective jurisdictions of the countries in which the Group companies operate, in the years in which those temporary differences are expected to be recovered or settled.

The other taxes not related to income are included in "Other operating expenses".

Related Parties

Related parties are identified on the basis of the provisions of IAS 24 and mean those that share the same controlling entity with the Netco business, companies that directly or indirectly control it, are controlled, or are subject to joint control by the Netco business and those in which it holds a stake that can exercise a significant influence. The definition of related parties also includes the members of the controlling entity's Board of Directors and managers with strategic responsibilities. Managers with strategic responsibilities are those who have the power and responsibility to plan and control the Netco business' activities, directly or indirectly.

Use of accounting estimates

The preparation of NetCo combined carve out financial information and related notes requires management to make estimates and assumptions based also on subjective judgments, past experience and assumptions considered reasonable and realistic in relation to the information known at the time of the estimate. Such estimates have an effect on the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, as well as on the amount of revenues and costs during the year. Actual results could differ, even significantly, from those estimates owing to possible changes in the factors considered in the determination of such estimates. Estimates are reviewed periodically.The following accounting estimates are the same as those used in the TIM Group Consolidated Financial Statements.

The most significant accounting estimates that involve a high level of subjective assumptions and judgments by management are set out below.

Financial statements area	**Accounting estimates**
Impairment of tangible and intangible assets with finite useful lives and rights of use assets	At the end of each reporting period, management assesses whether there is any indication that an asset – whether tangible or intangible with finite useful lives or a right of use – has been impaired. Both internal and external sources of information are used for this purpose. Identifying the impairment indicators, estimating future cash flows and calculating the fair value of each asset requires the Management to make significant estimates and assumptions in calculating the discount rate to be used, and the useful life and residual value of the assets. The estimate of expected cash flows took into account the risks arising from climate change, which at present do not have a significant impact on the NetCo's business model. These estimates can have a significant impact on the fair value of the assets and on the amount of any impairment write-down.
Lease liabilities and rights of use assets	The value of lease liabilities and corresponding rights of use is determined by calculating the present value of the lease payments, also bearing in mind whether the renewal of the lease is reasonably certain.
Capitalization/deferment of costs	The capitalization/deferment of internal and external costs is a process that entails elements of estimation and valuation. Specifically, it involves the valuation of: i) the likelihood that capitalized costs will be recovered through correlated future revenues; and ii) the effective increase in the future economic benefits embodied in the related asset.
Provision for bad debts	Impairment on trade receivables and on contract assets is carried out using the simplified approach that involves estimating the loss expected over the life of the receivable at the time of initial recognition and on subsequent measurements. For each customer segment, the estimate is principally made by calculating the average expected uncollectibility, based on historical and statistical indicators, possibly adjusted using forward-looking elements. For some categories of receivables characterized by specific risk elements, specific measurements are made on individual credit positions.
Depreciation and amortization	Changes in the economic conditions of the markets, technology and competitive forces could significantly affect the estimated useful lives of tangible and intangible non-current assets and may lead to a difference in the timing, and thus on the amount of depreciation and amortization expense.
Provisions, contingent liabilities and employee benefits	As regards the provisions for restoration costs, the estimate of future costs to dismantle tangible assets and restore the site is a complex process that requires the valuation of the liabilities arising from such dismantling and restoration obligations, which seldom are entirely defined by laws, administrative regulations or contract clauses, and which normally are to be complied with after an interval of several years. Provisions for employee benefits, especially the provision for employee severance indemnities, are calculated using actuarial assumptions; changes in such assumptions could have a material impact on such liabilities.
Revenues	The recognition of revenues is influenced by estimates of the amount of discounts, rebates and returns to be reported as a direct adjustment to revenues, as well as the methods for defining individual product or service stand-alone selling prices and for determining the duration of the contract when there are renewal options.
Contract costs (IFRS 15)	The recognition of the costs of obtaining and fulfilling contracts is influenced by the estimated expected duration of the relationship with the customer, calculated on the basis of the historical turnover indexes and future estimates. However, this estimate is subject to fluctuations and could only represent customers' future behavior in a limited way, especially if there are new commercial offers or changes in the competitive environment.
Income tax expense (current and deferred)	Income tax expense (current and deferred) are calculated according to a prudent interpretation of the applicable tax laws. This process sometimes involves complex estimates to determine taxable income and deductible and taxable temporary differences between the carrying amounts and the taxable amounts. In particular, deferred tax assets are recognized to the extent that future taxable income will be available against which they can be recovered. The measurement of the recoverability of deferred tax assets takes into account the estimate of future taxable income and is based on conservative tax planning.

As per IAS 8 (Accounting Policies, Changes in Accounting Estimates and Errors) paragraph 10, in the absence of a standard or interpretation that specifically applies to a transaction, the Management shall use its judgment in developing and applying an accounting policy that results in combined financial statements that represent faithfully the financial position and financial performance, reflect the economic substance of transactions, and are neutral, prudential and complete in all material aspects.

New Standards and Interpretations issued by IASB but not yet applicable

At the date of preparation of these combined financial statements, the IASB had issued the following new Standards and Interpretations which have not yet come into force:

	Mandatory application starting from
New Standards and Interpretations not yet endorsed by the EU	
Amendments to IAS 7: Statements of Cash Flows and IFRS 7 Financial instruments: Supplementary disclosures	1/1/2024
Amendments to IAS 21 *The Effects of Changes in Foreign Exchange Rates*	1/1/2025
New Standards and Interpretations endorsed by the EU	
Amendments to IAS 1 *Presentation of Financial Statements*: non-current liabilities with covenants	1/1/2024
Amendments to IAS 1 *Presentation of Financial Statements*: classification of liabilities as current or non-current	1/1/2024
Amendments to IFRS 16: Lease liabilities in a sale and lease-back	1/1/2024

The potential impacts on the NetCo combined carve out financial information from the application of these standards and interpretations are currently being assessed, however the expected impact on main financial and economic data are expected not material.

NOTE 3

GOODWILL AND INTANGIBLE ASSETS WITH A FINITE USEFUL LIFE

(million euros)	12/31/2022	Investments	Amortization	Other changes	12/31/2023
Goodwill	—			—	**—**
Industrial patents and intellectual property rights	127	45	(77)	66	**161**
Concessions, licenses, trademarks and similar rights	—		(1)	9	**8**
Work in progress and advance payments	114	29		(73)	**70**
Total	**241**	**74**	**(78)**	**2**	**239**

Goodwill, for the purpose of the preparation of NetCo combined carve out financial information, no Goodwill has been allocated to the carve-out business. The NetCo combined carve out financial information does not consider any allocation of goodwill on NetCo and any adjustment as resulting from the purchase accounting process to be applied by the acquiring entity as a consequence of the Transaction.

Industrial patents and intellectual property rights at December 31, 2023, essentially consist of the plant operation and application software purchased outright and user license, amortized over a period between 2 and 6 years; they are related mainly to NetCo ramo carve out (152 million euros).

Concessions, licenses, trademarks and similar rights at December 31, 2023 mainly refer to the extension of the license for 28 GHz band, expiring on December 31, 2029.

Work in progress and advance payments mainly relate to investments in Operation & Wholesale System Transformation activities of NetCo ramo carve out.

The main changes in 2022 are the following:

(million euros)	Investments	Amortization
Industrial patents and intellectual property rights	43	(62)
Work in progress and advance payments	85	
Total	**128**	**(62)**

NOTE 4
PROPERTY, PLANT AND EQUIPMENT OWNED

(million euros)	12/31/2022	Investments	Depreciation	Disposals	Other changes	12/31/2023
Land	198				(2)	**196**
Buildings (civil and industrial)	433	3	(27)		6	**415**
Plant and machinery	8,251	1,211	(1,129)	(7)	116	**8,442**
Manufacturing and distribution equipment	17	5	(6)		—	**16**
Other	25	5	(11)		2	**21**
Construction in progress and advance payments	328	440			(138)	**630**
Total	**9,252**	**1,664**	**(1,173)**	**(7)**	**(16)**	**9,720**

Land comprises both built-up land and other available land and is not subject to depreciation. It entirely refers to NetCo ramo carve out.

Buildings (civil and industrial) mainly includes buildings for industrial use hosting telephone exchanges, or for office use and light constructions. They entirely refer to NetCo ramo carve out.

Plant and machinery includes the technological infrastructure used for the provision of telecommunications services (transport and distribution of voice/data traffic). The balance at December 31, 2023 is attributable to FiberCop S.p.A. (4,595 million euros) and NetCo ramo carve out (3,847 million euros).

Manufacturing and distribution equipment consists of instruments and equipment used for the operation and maintenance of plant and equipment and refers to NetCo ramo carve out.

Other mainly consists of hardware for the functioning of the network and for work stations, furniture and fixtures and, to a minimal extent, transport vehicles and office machines. It essentially refers to NetCo ramo carve out.

Construction in progress and advance payments include the internal and external costs incurred for the acquisition and internal production of tangible assets, which are not yet in use.

Depreciation for the years 2023 was calculated on a straight-line basis over the estimated useful lives of the assets according to the following minimum and maximum rates:

Buildings (civil and industrial)	3% – 6,66%
Plant and machinery	3% - 50%
Manufacturing and distribution equipment	20%
Other	11% - 33,33%

The main changes in 2022 are the following:

(million euros)	Investments	Depreciation	Disposals
Buildings (civil and industrial)	6	(27)	
Plant and machinery	1,278	(1,117)	(4)
Manufacturing and distribution equipment	5	(8)	
Other	7	(13)	
Construction in progress and advance payments	142		
Total	**1,438**	**(1,165)**	**(4)**

NOTE 5
RIGHTS OF USE ASSETS

(million euros)	12/31/2022	Investments	Increases in lease contracts	Depreciation and amortization	Disposals	Other changes	12/31/2023
Property	2,086	23	421	(275)	(1)	(11)	**2,243**
Plant and machinery	225	41	1	(26)		(2)	**239**
Other tangible assets	52		2	(20)	(1)	1	**34**
Construction in progress and advance payments	30	12				(21)	**21**
Intangible assets	1			(1)			**—**
Total	**2,394**	**76**	**424**	**(322)**	**(2)**	**(33)**	**2,537**

Property includes buildings and land under finance leases and the related building adaptations, attributable to NetCo ramo carve out.

Plant and machinery mainly includes rights of use on infrastructures for telecommunications services. They refer to FiberCop S.p.A. (152 million euros) and NetCo ramo carve out (87 million euros).

Other tangible assets mainly comprises the leases on motor vehicles and they mainly refer to NetCo ramo carve out.

The main changes in 2022 are the following:

(million euros)	Investments	Increases in lease contracts	Depreciation and amortization
Property	14		(262)
Plant and machinery	23	11	(24)
Other tangible assets			(21)
Construction in progress and advance payments	24		
Intangible assets			(1)
Total	**61**	**11**	**(308)**

NOTE 6
MISCELLANEOUS RECEIVABLES AND OTHER NON-CURRENT ASSETS

(million euros)		12/31/2023	12/31/2022
Miscellaneous receivables (non-current)	**(a)**	**—**	**—**
Other non-current assets			
Deferred contract costs		514	531
Other deferred costs		11	11
	(b)	**525**	**542**
Total	**(a+b)**	**525**	**542**

Deferred contract costs are mainly related to the deferral of costs related to the activation of new contracts with customers. Contractual costs (mainly technical activation costs) were deferred and charged to the separate income statements according to the expected duration of the contractual relationship with customers (on average around 8 years for the fixed-line business). They refer to NetCo ramo carve out.

NOTE 7
INCOME TAXES

Deferred tax assets and deferred tax liabilities

The net balance of 45 million euros at December 31, 2023 (33 million euros at December 31, 2022) breaks down as follows:

(million euros)	12/31/2023	12/31/2022
Deferred tax assets	65	50
Deferred tax liabilities	(20)	(17)
Total	**45**	**33**

The deferred tax assets at December 31, 2023 and 2022 refer to NetCo and Fibercop.

The deferred tax liabilities at December 31, 2023 and 2022 refers to NetCo.

The temporary differences which made up this line item at December 31, 2023 and 2022, as well as the movements during 2023, were as follows:

(million euros)	12/31/2022	Recognized in profit or loss	Other changes	12/31/2023
Deferred tax assets				
Provision for bad debts	2			2
Taxed depreciation and amortization	45	15		60
Other deferred tax assets	3			3
Total	**50**	**15**	**—**	**65**
Deferred tax liabilities				
Land and buildings	(13)			(13)
Accelerated depreciation	(4)		(3)	(7)
Total	**(17)**	**—**	**(3)**	**(20)**
Total Deferred tax assets net of Deferred tax liabilities	**33**	**15**	**(3)**	**45**

Income tax expense

The income tax expense for the years 2023 and 2022 breaks down as follows:

(million euros)	2023	2022
Current taxes for the year	180	186
Net difference in prior year estimates	(1)	—
Total current taxes	**179**	**186**
Deferred taxes	(15)	(4)
Total income tax expense for the year	**164**	**182**

The income tax expenses includes only the actual income tax expense of FiberCop S.p.A. and Telenergia S.r.l. calculated on a stand alone basis, applying a notional tax rate of 24% for IRES and 4.5% for IRAP.

The total current taxes also include the effect (1 million euros) of the final (lower) estimate of previous year income taxes.

The 2023 deferred taxes for an amount of 9 million euros include the accrual of tax assets on taxed depreciation and amortizazion of NetCo and FiberCop tangible assets.

NOTE 8
INVENTORIES

(million euros)	12/31/2023	12/31/2022
Finished goods	43	32
Total	**43**	**32**

Finished goods essentially consist of fixed telecommunications equipment and refer to NetCo ramo carve out.

NOTE 9
TRADE AND MISCELLANEOUS RECEIVABLES AND OTHER CURRENT ASSETS

(million euros)		12/31/2023	12/31/2022
Trade receivables			
Receivables from customers		648	572
	(a)	**648**	**572**
Miscellaneous receivables (current)			
Other receivables	**(b)**	**51**	**87**
Other current assets			
Contract assets		51	—
Deferred contract costs		96	96
Other deferred costs		20	19
	(c)	**167**	**115**
Total	**(a+b+c)**	**866**	**774**

Trade receivables are stated net of the provision for bad debts. As at December 31, 2023 they are related to NetCo ramo carve out (397 million euros), FiberCop S.p.A. (221 million euros) and Telenergia S.r.l. (30 million euros).

Movements in the provision for bad debts in 2023 were as follows:

(million euros)	12/31/2023
At January 1	**10**
Provision charges to the income statement	8
Utilization and decreases	(7)
Other changes	
At December 31	**11**

In 2022 the provision charges for bad debts to the income statement were equal to 4 million euros.

Miscellaneous receivables (current) refer to other receivables and mainly include the credits for Group Value Added Tax (VAT) (35 million euros).

Other current assets mainly include:

- **Contract assets** relating to works carried out in 2023 in connection with the NRRP projects by FiberCop S.p.A. (34 million euros) and NetCo ramo carve out (17 million euros).
- **Deferred contract costs** referred to NetCo ramo carve out and mainly related to technical activation costs. Further details on Deferred contract costs are provided in the Note "Miscellaneous receivables and other non-current assets".

NOTE 10

NON-CURRENT AND CURRENT FINANCIAL LIABILITIES

Non-current and current financial liabilities (gross financial debt) are broken down as follows:

(million euros)		12/31/2023	12/31/2022
Non-current financial liabilities for financing contracts and others			
Financial payables (medium/long-term):			
Amounts due to banks		1,491	1,489
Other financial payables		2,080	1,534
	(a)	**3,571**	**3,023**
Non-current financial liabilities for lease contracts	**(b)**	**2,075**	**1,910**
Total non-current financial liabilities	**c=(a+b)**	**5,646**	**4,933**
Current financial liabilities for financing contracts and others			
Financial payables (short term):			
Amounts due to banks		1	—
Other financial payables		12	55
	(d)	**13**	**55**
Current financial liabilities for lease contracts	**(e)**	**253**	**301**
Total current financial liabilities	**f=(d+e)**	**266**	**356**
Financial liabilities directly associated with Discontinued operations/ Non-current assets held for sale	**(g)**	**—**	**—**
Total Financial liabilities (Gross financial debt)	**h=(c+f+g)**	**5,912**	**5,289**

Medium/long-term amounts due to banks totaled 1,491 million euros (1,489 million euros at December 31, 2022) and referred to a 5-year Term Loan signed on December 23, 2021 with a pool of international banks.

Other medium/long-term financial payables totaled 2,080 million euros (1,534 million euros at December 31, 2022) and referred to the Facility Agreement between FiberCop S.p.A. and TIM S.p.A. signed at the same time of the business branch transfer on March 31, 2021. During the year 2023, 537 million euros were drawdown from the facility granted by TIM S.p.A. in order to finance investment activities.

Medium/long-term **financial liabilities for lease contracts** amounted to 2,075 million euros (1,910 million euros at December 31, 2022), whilst short-term payables totaled 253 million euros (301 million euros at December 31, 2022) and included 250 million euros in the current portion of financial liabilities for medium/long-term lease contracts (289 million euros at December 31, 2022).

Other current financial payables for the amount of 12 million euros (55 million euros at December 31, 2022) were due to the Parent Company TIM S.p.A..

NOTE 11
NET FINANCIAL POSITION

The **Net financial position** is broken down as follows:

(million euros)		12/31/2023	12/31/2022
Non-current financial liabilities			
Amounts due to banks, other financial payables and liabilities		3,571	3,023
Non-current financial liabilities for lease contracts		2,075	1,910
		5,646	**4,933**
Current financial liabilities			
Amounts due to banks, other financial payables and liabilities		13	55
Current financial liabilities for lease contracts		253	301
		266	**356**
Total Gross financial debt	**(a)**	**5,912**	**5,289**
Non-current financial assets			
Non-current financial receivables arising from lease contracts		(63)	—
Financial receivables and other non-current financial assets		(17)	(19)
		(80)	**(19)**
Current financial assets			
Current financial receivables arising from lease contracts		(118)	(53)
Financial receivables and other current financial assets		(6)	(6)
Cash and cash equivalents		(152)	(57)
		(276)	**(116)**
Total financial assets	**(b)**	**(356)**	**(135)**
Net financial debt carrying amount	**(a+b)**	**5,556**	**5,154**

NOTE 12
EMPLOYEE BENEFITS

(million euros)		12/31/2023	12/31/2022
Provision for employee severance indemnities	**(a)**	**305**	**317**
Provision for pension and other plans		—	—
Provision for termination benefit incentives and corporate restructuring		—	—
Total other employee benefits	**(b)**	**—**	**—**
Total	**(a+b)**	**305**	**317**
of which:			
non-current portion		305	317
current portion (*)		—	—

(*) The current portion refers only to Other provisions for employee benefits.

Please note there are no assets servicing the Provision for employee severance indemnities.

In application of IAS 19, employee severance indemnities have been calculated using the "Projected Unit Credit Method" as follows:

- the future possible benefits which could be paid to each employee registered in the program in the event of retirement, death, disability, resignation etc. have been projected on the basis of a series of financial assumptions (cost-of-living increases, interest rate, increase in compensation etc.). The estimate of future benefits includes any increases for additional service seniority, as well as the estimated increase in the compensation level at the measurement date – only for employees of companies with less than 50 employees during the year 2006;
- the average present value of future benefits has been calculated, at the measurement date, on the basis of the annual interest rate adopted and of the probability that each benefit actually has to be paid;
- the liability of each company concerned has been calculated as the average present value of future benefits that will be generated by the existing provision at the measurement date, without considering any future accruals (for companies with at least 50 employees during the year 2006) or by identifying the amount of the average present value of future benefits which refer to the past service already accrued by the employee in the company at the measurement date (for the others), i.e. adopting the "service pro-rate".

The following assumptions have been made:

FINANCIAL ASSUMPTIONS	Executives	Non-executives
Inflation rate	**2.00% per annum**	**2.00% per annum**
Discount rate	**3.08% per annum**	**3.08% per annum**
Employee severance indemnities annual increase rate	**3.0% per annum**	**3.0% per annum**
Annual real wage growth:		
equal to or less than 40 years of age	1.0% per annum	1.0% per annum
over 40 but equal to or less than 55 years of age	0.5% per annum	0.5% per annum
over 55 years of age	0.0% per annum	0.0% per annum
DEMOGRAPHIC ASSUMPTIONS	**Executives**	**Non-executives**
Probability of death	Mortality tables RG48 published by Ragioneria Generale dello Stato	Mortality tables RG48 published by Ragioneria Generale dello Stato
Probability of disability	INPS tables divided by age and sex	INPS tables divided by age and sex
Probability of resignation:		
up to 40 years of age	2.00%	1.00%
from 41 to 50 years of age	2.00%	0.50%
from 51 to 59 years of age	1.00%	0.50%
from 60 to 64 years of age	None	0.50%
aged 65 and over	None	None
Probability of retirement	100% on achievement of the AGO requirements aligned with D.L. 4/2019	
Probability of receiving at the beginning of the year an advance from the provision for severance indemnities accrued equal to 70%	1.5% per annum	1.5% per annum

The application of the above assumptions resulted in a liability for employee severance indemnities of 305 million euros at December 31, 2023.

NOTE 13
PROVISIONS

The provisons break down as follows:

(million euros)	12/31/2022	Increase	Taken to income	Used directly	Other changes	12/31/2023
Provision for restoration costs	**218**	12	(2)	(7)	1	**222**
Provision for legal disputes	**1**	1		(1)		**1**
Total	**219**	**13**	**(2)**	**(8)**	**1**	**223**
of which:						
non-current portion	**219**					**223**
current portion	—					—

The **provision for restoration costs** related to the provision for restoration of leased real estate and the dismantling of tangible assets (in particular: batteries, wooden poles); it is attributable to FiberCop S.p.A. (127 million euros) and NetCo ramo carve out (95 million euros).

NOTE 14
MISCELLANEOUS PAYABLES AND OTHER NON-CURRENT LIABILITIES

The figure breaks down as follows:

(million euros)		12/31/2023	12/31/2022
Miscellaneous payables (non-current)			
Other payables		137	150
	(a)	**137**	**150**
Other non-current liabilities			
Deferred revenues from customer contracts (Contract liabilities)		21	25
Other deferred revenue and income		160	165
Capital grants		264	235
	(b)	**445**	**425**
Total	(a+b)	**582**	**575**

Miscellaneous payables (non-current) at December 31, 2023 refer to the payables of FiberCop S.p.A. (135 million euros) and Telenergia S.r.l. (2 million euros) to the Parent Company TIM S.p.A. deriving from the tax consolidation.

The **other non-current liabilities** mainly include:

- **Other deferred revenue and income** including deferred revenues related to agreements for the sale of the transmission capacity. They relate mainly to NetCo ramo carve out (149 million euros).
- **Capital grants** representing the component still to be released to the income statement based on the useful life (estimated at around 18 years) of the assets that the grants refer to and is mainly connected to the realization of the infrastructures on the Ultrabroadband-UBB and Broadband-BB projects.

NOTE 15

TRADE AND MISCELLANEOUS PAYABLES AND OTHER CURRENT LIABILITIES

The figure breaks down as follows:

(million euros)		12/31/2023	12/31/2022
Trade payables			
Payables due to suppliers		1,489	1,291
	(a)	**1,489**	**1,291**
Tax payables	**(b)**	**3**	**—**
Miscellaneous payables			
Payables for employee compensation		50	63
Payables to social security agencies		1	—
Other		176	111
	(c)	**227**	**174**
Other current liabilities			
Liabilities from customer contracts (Contract liabilities)		159	145
Other deferred revenue and income		30	30
Other		43	36
	(d)	**232**	**211**
Total	**(a+b+c+d)**	**1,951**	**1,676**

Trade payables at December 31, 2023 refer to NetCo ramo carve out for 1,375 million euros, to Telenergia S.r.l. for 99 million euros and FiberCop S.p.A. for 15 million euros.

Miscellaneous payables mainly comprise the current portion of the payable of FiberCop S.p.A. to Parent Company TIM S.p.A. deriving from the tax consolidation (148 million euros at December 31, 2023).

Other current liabilities include:

- **Liabilities arising from contracts with customers (Contract liabilities):** this item includes liabilities to customers related to the obligations of Group companies to transfer goods and services for which they have received consideration. Liabilities with customers generally have a maturity of up to 12 months.
- **Other deferred revenue and income:** mainly referred to deferred revenues deriving from contracts for the sale of transmission capacity.
- **Other:** related to payables for advances on network works in progress and referred to NetCo ramo carve out (35 million euros) and FiberCop S.p.A. (8 million euros).

NOTE 16
REVENUES

The breakdown is as follows:

(million euros)	2023	2022
Equipment sales	317	155
Services	1,802	1,741
Total	**2,119**	**1,896**

NOTE 17
OTHER INCOME

The breakdown is as follows:

(million euros)	2023	2022
Late payment fees charged for telephone services	7	8
Recovery of employee benefit expenses, purchases and services rendered	11	3
Capital and operating grants	27	26
Damages, penalties and recoveries connected with litigation	14	18
Estimate revisions and other adjustments	11	13
Income for special training activities	3	1
Other	19	30
Total	**92**	**99**

NOTE 18
ACQUISITION OF GOODS AND SERVICES

The breakdown is as follows:

(million euros)		2023	2022
Purchase of raw materials and goods	**(a)**	**130**	**86**
Costs of services:			
Costs for telecommunications network access services		14	14
Commissions, sales commissions and other selling expenses		5	5
Advertising and promotion expenses		2	2
Utilities		361	365
Maintenance costs		293	329
Professional services, Outsourcing costs and Other Services		21	20
	(b)	**696**	**735**
Lease and rental costs:			
Rent and leases		1	1
TLC circuit subscription charges		1	1
Other lease and rental costs		5	3
	(c)	**7**	**5**
Total	**(a+b+c)**	**833**	**826**

NOTE 19
EMPLOYEE BENEFITS EXPENSES

The figure breaks down as follows:

(million euros)		2023	2022
Ordinary employee expenses			
Wages and salaries		722	755
Social security expenses		270	282
Other employee benefits		43	15
	(a)	**1,035**	**1,052**
Costs and provisions for agency contract work	**(b)**	**—**	**—**
Miscellaneous expenses for employees and other labor-related services rendered			
Corporate restructuring expenses		—	1
Other		6	3
	(c)	**6**	**4**
Total	**(a+b+c)**	**1,041**	**1,056**

In 2023 "Employee benefit expenses" refer to NetCo ramo carve out for 1,032 million euros and to FiberCop S.p.A. for 9 million euros.

The average salaried workforce, including agency contract workers, stood at 18,047 employees in 2023 (18,684 employees in 2022). A breakdown by category is as follows:

(number of units)	2023	2022
Executives	136	156
Middle Managers	909	987
White collars	17,002	17,541
Employees on payroll	**18,047**	**18,684**
Agency contract workers	—	—
Total average salaried workforce	**18,047**	**18,684**

NOTE 20
OTHER OPERATING EXPENSES

The breakdown is as follows:

(million euros)	2023	2022
Write-downs and expenses in connection with credit management	7	4
Provision charges	2	1
TLC operating fees and charges	23	23
Indirect duties and taxes	49	54
Penalties, settlement compensation and administrative fines	8	5
Subscription dues and fees, donations, scholarships and traineeships	3	3
Other	7	5
Total	**99**	**95**

NOTE 21
FINANCE INCOMES AND EXPENSES

Financial incomes (expenses) showed in 2023 a net expense of 336 million euros (expense of 239 million euros in 2022) and included:

(million euros)	2023	2022
Finance income	4	—
Finance expenses	(340)	(239)
Finance income (expenses), net	**(336)**	**(239)**

The items break down as follows:

(million euros)		2023	2022
Interest expenses and other finance expenses:			
Interest expenses to banks		(64)	(20)
Interest expenses to others		(126)	(52)
Interest expenses on lease liabilities		(107)	(100)
		(297)	**(172)**
Commissions		(22)	(25)
Other finance expenses		(21)	(42)
		(43)	**(67)**
Interest incomes and other finance incomes			
Interest income		3	—
Income from financial receivables recorded in non-current assets		1	—
		4	**—**
Net interests / financial charges	**(a)**	**(336)**	**(239)**
Total other components of financial income and expense	**(b)**	**—**	**—**
Total net financial incomes (expenses)	**(a+b)**	**(336)**	**(239)**

The increase of net financial expense was mainly due to the increase in interest rates.

NOTE 22
RELATED-PARTY TRANSACTIONS

The following tables show the figures relating to related-party transactions and the impact of those amounts on the separate combined income statement and on the combined statements of financial position.

Related-party transactions, when not dictated by specific laws, were conducted at arm's length.

The effects of the related-party transactions on the NetCo separate combined income statement line items for 2023 and 2022 are as follows:

SEPARATE COMBINED INCOME STATEMENT LINE ITEMS 2023

(million euros)	Total (a)	Parent Company	Companies subject to common control	Other related parties	Total related parties (b)	% of financial statement item (b/a)
Revenues	2,119	29	56	284	369	17.4
Other income	92	1		(11)	(10)	(10.9)
Acquisition of goods and services	833	3	3	39	45	5.4
Depreciation and amortization	1,573			5	5	0.3
Finance income	4			(1)	(1)	(25.0)
Finance expenses	340	145			145	42.6

SEPARATE COMBINED INCOME STATEMENT LINE ITEMS 2022

(million euros)	Total (a)	Parent Company	Companies subject to common control	Other related parties	Total related parties (b)	% of financial statement item (b/a)
Revenues	1,896	13	55	124	192	10.1
Other income	99		2		2	2.0
Acquisition of goods and services	826		4	76	80	9.7
Depreciation and amortization	1,534			4	4	0.3
Finance expenses	239	73			73	30.5

The effects of related-party transactions on the NetCo combined statements of financial position line items at December 31, 2023 and December 31, 2022, are as follows:

COMBINED STATEMENTS OF FINANCIAL POSITION LINE ITEMS AT 12/31/2023

(million euros)	Total (a)	Parent Company	Companies subject to common control	Other related parties	Total related parties (b)	% of financial statement item (b/a)
Rights of use assets	2,537			50	50	2.0
Miscellaneous receivables and other non-current assets	525	1			1	0.2
Trade and miscellaneous receivables and other current assets	866	238	17	34	289	33.4
Miscellaneous payables and other non-current liabilities	582	140		32	172	29.6
Trade and miscellaneous payables and other current liabilities	1,951	168	3	33	204	10.5

Related-party transactions on the Net financial position items referred for 2,081 million euros to the Facility Agreement between FiberCop S.p.A. and TIM S.p.A. signed at the same time of the business branch transfer on March 31, 2021.

COMBINED STATEMENTS OF FINANCIAL POSITION LINE ITEMS AT 12/31/2022

(million euros)	Total (a)	Parent Company	Companies subject to common control	Other related parties	Total related parties (b)	% of financial statement item (b/a)
Rights of use assets	**2,394**			37	**37**	**1.5**
Trade and miscellaneous receivables and other current assets	**775**	183	23	49	**255**	**32.9**
Miscellaneous payables and other non-current liabilities	**575**	150		30	**180**	**31.3**
Trade and miscellaneous payables and other current liabilities	**1,676**	125	4	46	**175**	**10.4**

NOTE 23 SIGNIFICANT NON-RECURRING EVENTS AND TRANSACTIONS

(million euros)	2023	2022
Other income:		
Recovery of operating expenses	(11)	2
Acquisition of goods and services, Change in inventories:		
Acquisition of goods and services - Charges related to agreements and the development of non-recurring projects and other charges	(1)	(11)
Employee benefits expenses:		
Charges connected to corporate reorganization/restructuring and other costs	(2)	(3)
Other operating expenses:		
Expenses related to disputes and regulatory penalties and liabilities related to those expenses, other provisions and charges	(3)	(1)
Impact on Operating profit (loss) before depreciation and amortization, capital gains (losses) and impairment reversals (losses) on non-current assets (EBITDA)	**(17)**	**(13)**
Impact on Operating profit (loss) (EBIT)	**(17)**	**(13)**
Finance income:		
Other finance income	(1)	
Impact on profit (loss) before tax from continuing operations	**(18)**	**(13)**
Impact on profit (loss) for the year	**(18)**	**(13)**

Non-recurring expenses relate to events and transactions that, in the opinion of management, by their nature do not occur on an ongoing basis in the normal course of operations and which impact results in a significant amount. Specifically, non-recurring events for the year ended December 31, 2023 and 2022 mainly include:

- expenses related to COVID emergency prevention;
- write-off, in 2023, of a positive income related to a Telenergia dispute; and
- personnel costs related to training.

NOTE 24
OTHER INFORMATION

Guarantees

At December 31, 2023 personal guarantees amount to 19 million euros (24 million euros at December 31, 2022), granted to certain suppliers of Telenergia to guarantee the correct fulfilment of its contractual obligations.

The guarantees provided by third parties to NetCo, amount to 789 million euros at December 31, 2023 (725 million euros at December 31, 2022) and are comprised of:

- 218 million euros (156 million euros at December 31, 2022) issued by banks or other financial institutions to guarantee the proper fulfilment of Telenergia's contractual obligations towards its suppliers (147 million euros; 58 million euros at December 31, 2022)) and other obligations (mainly rentals);
- 571 million euros (569 million euros at December 31, 2022) are insurance guarantees of which 353 million euros at December 31, 2023 and December 31, 2022 performance bonds issued in favor of Infratel under the National Recovery and Resilience Plan in relation to "Italia a 1G" and "5G BH" plans.

NOTE 25
EVENTS SUBSEQUENT TO DECEMBER 31, 2023

Golden Power approval for NetCo operation received

On January 17, 2024, TIM, as part of the activities finalized to the closing of the agreement for the sale of NetCo and following the transaction agreement signed with Optics BidCo (a subsidiary of Kohlberg Kravis Roberts & Co. L.P. "KKR"), announces that it has received approval to execute the transaction pursuant to the Golden Power legislation. The authorization measure, by which the Council of Ministers exercised its special powers in the form of prescriptions only, adopted the commitments presented in the course of the procedure. These commitments were deemed by the Government to be fully adequate to guarantee the protection of the strategic interests connected with the assets involved in the transaction.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of
TIM S.p.A.

Opinion

We have audited the combined carve out financial information of the fixed network assets business of TIM S.p.A. (the "**NetCo Business**"), which comprise the combined carve out statements of financial position as of December 31, 2023 and 2022, the combined carve out income statements for the years then ended, and notes to the combined carve out financial information, including a summary of material accounting policies information (the "**NetCo Combined Carve out Financial Information**").

In our opinion, the accompanying NetCo Combined Carve out Financial Information of the NetCo Business for the years ended December 31, 2023, and 2022, are prepared in all material respects, in accordance with the criteria set forth in *Note 2 – Summary of the carve out criteria and accounting policies adopted for the preparation of the financial information* to the NetCo Combined Carve out Financial Information (the "**Criteria**").

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISA Italia). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the NetCo Combined Carve out Financial Information* section of our report. We are independent of TIM S.p.A. in accordance with the regulations and standards on ethics and independence applicable to audits of financial statements under Italian Laws. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter – Basis of Accounting

We draw attention to Note *2 – Summary of the Carve out criteria and accounting policies adopted for the preparation of the financial information* to the NetCo Combined Carve out Financial Information, which describes the basis of accounting. The NetCo Combined Carve out Financial Information are prepared for the sole purpose of preparing the documentation to be included in the Exchange Offering Memorandum for the proposed exchange offers to: i) the holders of certain USD denominated notes for the corresponding series of new USD denominated notes to be issued by Telecom Italia Capital S.A. and guaranteed by TIM S.p.A., ii) the holders of certain Euro denominated notes for the corresponding series of new Euro denominated notes to be issued by Telecom Italia Finance S.A. and guaranteed by TIM S.p.A., and iii) to the holders of certain Euro denominated notes for the corresponding series of new Euro denominated notes to be issued by TIM S.p.A.. As a result, the NetCo Combined Carve out Financial Information and our opinion thereto, may not be suitable for any other purpose. Our opinion is not modified in respect of this matter.

Other Matters

As stated in Note 1 – *General Information* and Note *2 – Summary of the Carve out criteria and accounting policies adopted for the preparation of the financial information*, the NetCo Business is an integrated business of the TIM Group and is not a stand-alone business or entity. The NetCo Combined Carve out Financial Information of the NetCo Business reflects the assets, liabilities, revenue and expenses directly attributable to the NetCo Business, as well as allocations deemed reasonable by management, to present the carve out financial position and results of operations of the NetCo Business on a stand-alone basis and includes only the business that will form the basis for the transaction as identified in the Transaction Agreement agreed between the parties, and do not necessarily reflect the financial position and results of operations of the NetCo Business in the future or what they would have been had the NetCo Business been a separate stand-alone business or entity during the years presented.

Responsibilities of Management and Those Charged with Governance for the NetCo Combined Carve out Financial Information

Management is responsible for the preparation of the NetCo Combined Carve out Financial Information in accordance with the Criteria and for such internal control as management determines is necessary to enable the preparation of NetCo Combined Carve out Financial Information that are free from material misstatement, whether due to fraud or error.

In preparing the NetCo Combined Carve out Financial Information, management is responsible for assessing the NetCo Business' ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The statutory audit committee ("Collegio Sindacale") is responsible, within the terms provided by the law, for overseeing the NetCo Business's financial reporting process.

Auditor's Responsibilities for the Audit of the NetCo Combined Carve out Financial Information

Our objectives are to obtain reasonable assurance about whether the NetCo Combined Carve out Financial Information as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these NetCo Combined Carve out Financial Information.

As part of an audit in accordance with International Standards on Auditing (ISA Italia), we have exercised professional judgment and maintained professional skepticism throughout the audit. In addition:

- we have identified and assessed the risks of material misstatement of the NetCo Combined Carve out Financial Information, whether due to fraud or error, designed and performed audit procedures responsive to those risks, and obtained audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;

EY
Building a better working world

- we have obtained an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the NetCo Business internal control;
- we have evaluated the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
- we have concluded on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the NetCo Business ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the NetCo Combined Carveout Financial Information or, if such disclosures are inadequate, to consider this matter in forming our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the NetCo Business to cease to continue as a going concern;
- we have obtained sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the NetCo Business to express an opinion on the NetCo Combined Carve out Financial Information. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We have communicated with those charged with governance, identified at an appropriate level as required by ISA Italia, regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We have provided those charged with governance with a statement that we have complied with the ethical and independence requirements applicable in Italy, and we have communicated with them all matters that may reasonably be thought to bear on our independence, and where applicable, the actions taken to eliminate relevant risks or the safeguard measures applied.
